FISH DISTRIBUTION

SCHEDULE

A Living Document subject to change

COLORADO

Parks and Wildlife

Department of Natural Resources

January, 2021

TO: ALL CONCERNED

FROM: Dan Prenzlw, Director

The 2021 Colorado State Fish Hatchery Fish Distribution Schedule for "A" and "C" habitats is approved for the listed hatcheries. This schedule represents the stocking needs of the individual Senior Fish Biologists. It is balanced against the production capabilities of the Hatchery System and is presented alphabetically by water. Included are all of the species and sizes available from the State System, as well as Federal fish and trades from outside sources.

"A" habitats will receive fish from Units certified negative for Whirling Disease (WD) parasite and "C" habitats can be stocked by any Unit.

The Planting Schedule is designed to serve as a flexible Work Plan for the State Fish Hatchery System. A variety of outside conditions, i.e. low water, adverse water quality and other related conditions, may necessitate revisions as the year progresses, especially in the stocking dates. Action requiring revisions will be made in cooperation with the individual Biologists.

The Senior Fish Biologists are encouraged to utilize these in the most efficient manner possible in developing angler benefits while providing reasonable security for wild trout resources.

Approved: Reid DeWalt for Dan Prenzlw, Director

January 7, 2021

Date:

HABITAT Stocking CODES or KEYS

A - Protected habitat -

(Unique, reproducing salmonid habitat)

AAA - Waters that will only be stocked with fish proven to be WD negative by DNA testing.

C - Unrestricted habitat -

(Non-reproducing salmonid habitat which can be stkd w/ any WD+ fish)

_x - Wildlife Commission exemption

AB__ Salmonid habitat previously stocked with trout lightly exposed to WD treated like A habitat by biologists.

AC __ C habitat treated like A habitat by biologists

__D or CD - Waters that can be stocked with BKD suspect fish

_+ - Fish that have tested negative, but are not certified WD negative

_* - Waters that have been changed Administratively to "A" Protected Habitat

NNF - Non-native Fish Stocking prohibition

CPW - Aquatic Section
Fish Distribution Summary
CY - 2021

STATEWIDE:

COLDWATER - CATCHABLES	3,097,551
COLDWATER - SUB-CATCHABLES	16,903,862
WARMWATER	17,504,638
NON-GAME FISH & AMPHIBIAN	228,982
TOTAL STATEWIDE : 2020 Distribution	37,735,033

STATE PARKS WATERS:

COLDWATER - CATCHABLES	699,894
COLDWATER - SUB-CATCHABLES	1,117,894
WARMWATER	12,075,071
NON-GAME FISH & AMPHIBIAN	0
Total 2020 Distribution For State Parks Waters	13,892,859
