FISH DISTRIBUTION

SCHEDULE

A Living Document subject to change

COLORADO
Parks and Wildlife
Department of Natural Resources

January, 2025

TO: ALL CONCERNED

FROM: Jeff Davis, Director

The 2025 Colorado State Fish Hatchery Fish Distribution Schedule for “A” and “C” habitats is approved for the listed hatcheries. This schedule represents the stocking needs of the individual Senior Fish Biologists. It is balanced against the production capabilities of the Hatchery System and is presented alphabetically by water. Included are all of the species and sizes available from the State System, as well as Federal fish and trades from outside sources.

“A” habitats will receive fish from Units certified negative for Whirling Disease (WD) parasite and “C” habitats can be stocked by any Unit.

The Planting Schedule is designed to serve as a flexible Work Plan for the State Fish Hatchery System. A variety of outside conditions, i.e. low water, adverse water quality and other related conditions, may necessitate revisions as the year progresses, especially in the stocking dates. Action requiring revisions will be made in cooperation with the individual Biologists.

The Senior Fish Biologists are encouraged to utilize these in the most efficient manner possible in developing angler benefits while providing reasonable security for wild trout resources.

Approved: Matt Nicholl for Jeff Davis, Director

Date:

Jeff Davis, Director, Colorado Parks and Wildlife
Parks and Wildlife Commission: Dallas May, Chair · Richard Reading, Vice-Chair · Karen Bailey, Secretary · Jessica Beaulieu

HABITAT Stocking CODES or KEYS

A - Protected habitat -
(Unique, reproducing salmonid habitat)

AAA - Waters that will only be stocked with fish proven to be WD negative by DNA testing.

C - Unrestricted habitat -
(Non-reproducing salmonid habitat which can be stkd w/ any WD+ fish)

_x - Wildlife Commission exemption

AB__ Salmonid habitat previously stocked with trout lightly exposed to WD treated like A habitat by biologists.

AC__ C habitat treated like A habitat by biologists

__D or CD - Waters that can be stocked with BKD suspect fish

_+ - Fish that have tested negative, but are not certified WD negative

_* - Waters that have been changed Administratively to "A" Protected Habitat

NNF - Non-native Fish Stocking prohibition

Fish Distribution Summary
CY - 2025**

STATEWIDE:

COLDWATER - CATCHABLES	3,666,095
COLDWATER - SUB-CATCHABLES	14,636,626
WARMWATER	82,007,126
NON-GAME FISH & AMPHIBIAN	216,744
TOTAL STATEWIDE 2024 Distribution	100,526,591

STATE PARKS WATERS:

COLDWATER - CATCHABLES	792,904
COLDWATER - SUB-CATCHABLES	1,103,476
WARMWATER	44,331,028
NON-GAME FISH & AMPHIBIAN	0
Total 2024 Distribution For State Parks Waters	46,227,408

2024 State Parks (Plant Schedule vs. Plants Made)
