

2006/07 Small Game Harvest Report

The general small game harvest survey was conducted by phone. A sample of approximately 15% of the hunters in the HIP (Harvest Information Program) database (8,301 out of 56,515) was drawn. The surveyor attempted to contact 70% of the sample within the time allowed. 4,285 hunters were surveyed (51% response rate).

For the 2006/07 survey, for species including chukar, jack rabbits, snow shoe hare, fox and pine squirrel, marmot, coyote, red fox, raccoon, badger, beaver, muskrat, Wyoming ground squirrel, rattlesnake, snapping turtle, and tiger salamander, harvest estimates were not collected, only hunter numbers were estimated.

The report provides estimated statewide harvest, days in the field, and hunter number for **8** small game species; pheasants, scaled, Gambel's and bobwhite quail, cottontail rabbits, blue grouse, Abert's squirrel and coyotes. In addition, there are estimates for each of these 8 species by county. **County harvest estimates may be based on a relatively small number of hunter responses and may be accompanied by large confidence intervals.** Harvest estimates (county and statewide) are generated based on the responses of those hunters contacted for the survey. These responses then form the basis of an estimate of species harvest for the small game hunting public at-large.

Those portions of the report that have frequency designations or are pure percentages are based on the actual number of hunters surveyed and their responses to survey questions. ***The harvest figures are estimates of total harvest extrapolated from survey responses.*** The estimates are followed by the standard error (SE) of the estimate which is a measure of the precision of the estimate. The 95% UCI and 95% LCI columns provide the upper and lower values for the 95% confidence interval around the estimate.

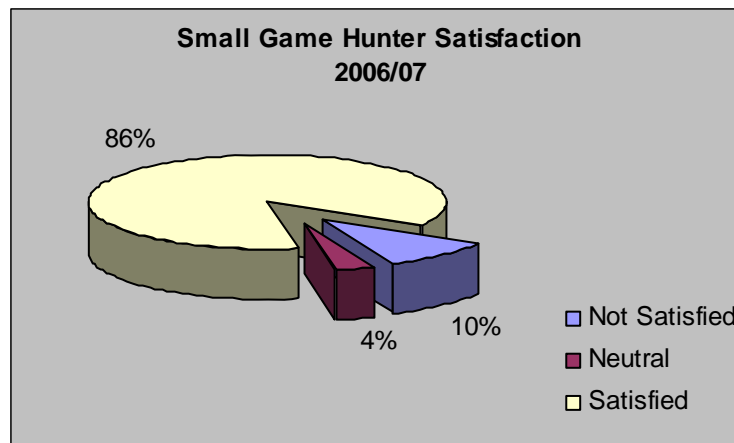

So, for example, we estimated statewide harvest of blue grouse at 13,253 with a SE of 1,041. The 95% confidence interval range suggests that between 11,364 to 15,456 blue grouse were harvested during the 2006 small game season.

Hunter Numbers

Species	Hunters	SE(hunters)	LCI Hunters	UCI Hunters
Chukar	610	85	465	801
