# BIENNIAL REPORT

OF

## State Board of Land Commissioners of Colorado

Denver, Colo., December 20, 1920.

His Excellency,

HON. OLIVER H. SHOUP,  
Governor of the State of Colorado.

Sir: In compliance with Section 3165 of the Revised Statutes of Colorado of 1908, I have the honor to transmit to you herewith a report of the business of this department for the biennial period ending November 30, 1920.

It is with a marked degree of pride that the State Board of Land Commissioners calls your attention to this the banner period of its administration of the funds held in trust by the State of Colorado for the maintenance and support of its school systems. The total receipts of this office for the period just closed, amounting to \$3,160,643.02, and the comparison with the receipts for the biennial period of 1877-1878, amounting to \$44,000.00, fully illustrates its forty years of progress.

From the numerous carefully prepared tables as required by the statutes, and herewith attached, many other important and interesting features can be determined, and it is my purpose to briefly call your attention to a few of such facts as set forth in the tabulated statements of this report.

Your attention is specifically called to the balance now on hand to the credit of the Public School Permanent Fund, amounting to \$6,507,574.12, and a comparison is herewith made with the balance to the credit of said fund under date of November 30, 1902, amounting to \$1,254,716.73.

The investments of the Public School Permanent Fund in interest bearing bonds, loans and State Warrants, as shown by the office of the State Treasurer on November 30, 1920, are as follows:

State Bonds .....	\$2,562,549.75
County and Municipal Bonds.....	1,386,193.22
Bonds of School Districts.....	1,036,474.08
Liberty Loan Bonds .....	751,102.50
Farm Loans .....	410,550.00
State Warrants .....	316,632.83
Cash on hand November 30, 1920.....	44,071.74
	<hr/>
	\$6,507,574.12

In addition to the above Public School Permanent Fund on deposit in the office of the State Treasurer, this department has another secured and interest bearing fund, consisting of its outstanding and unpaid amounts due on Certificates of Purchase contracts of the sales of 718,288.42 acres of land, amounting to a total of \$6,451,057.88, as shown under date of April 1, 1920, in the reports of this office to the County Assessors of the State, as required by our statutes, which total Certificates of Purchase contracts fund should be classified as a safely secured investment, bearing interest at 6 per cent annually, and be added to and considered a part of the Public School Permanent Fund.

Therefore, the Public School Permanent Fund, in its total, should be classified and set forth as follows:

Amount on deposit in the office of the State Treasurer and invested in securities, as shown by the above table.....	\$ 6,507,574.12
Total amount of Certificates of Purchase contracts, as shown by this office under date of April 1, 1920, secured by first mortgage lien upon 718,288.42 acres of land, and bearing interest at 6 per cent annually.....	6,451,057.88
Grand Total of the Public School Permanent Fund.....	\$12,958,632.00

In addition to the magnificent Permanent School Fund as above set forth, it must be remembered that this Department still has further and valuable assets in reserve, as follows:

Over 3,000,000 acres of land, so classified and fixed by our experienced land appraisers at an estimated average value of \$15.00 per acre, which future asset can be safely estimated at \$45,000,000.00; also the estimated value of the mineral lands included in said asset as placed by our Mineral Department, should amount to another \$100,000,000.00.

The land values of the School Fund have been steadily increasing year by year, as shown by the average price per acre obtained from the sales of lands during this period, amounting to \$21.38, as compared with the average price per acre obtained from the sale of land during the period of 1887-1888 of \$7.80 per acre, and the further comparison with the period of 1915-1916—\$10.27 per acre, and 1917-1918—\$14.37 per acre.

The lease rentals, from which, under the rules of former years an annual rental value of only from 5 to 8 cents per acre was obtained, have now been advanced under our new "Immunity Lease Rules" to exceed an average rental price of 15 cents per acre annually. The increase in such leasing revenue is shown by the annual receipts from this source during this period, amounting to \$386,546.84, as compared with the receipts from the same source during the period ending November 30, 1896, amounting to \$55,800.50, and further compared with the receipts for the period of 1915-1916 — \$211,973.97, and 1917-1918, amounting to \$258,178.65.

Note the marked decrease in the vacant acreage of State school lands, whereby the leasing of the vacant area has been steadily and continuously each year put into effect, thus increasing the rental revenues as shown by the land acreage vacant at the close of this period, amounting to 359,825.90 acres, as compared with the vacant acreage on November 30, 1906, amounting to 1,301,293.83 acres, and as further compared with the period of 1915-1916, of 705,850.02 acres, and of 1917-1918—456,252.95 acres.

Special attention is called to the amount of interest collected from investments of the State school fund during the period of 1919-1920, as shown by the books of the office of the State Treasurer, amounting to \$463,728.96.

The operation of what is termed the "State Farm Loan Law" has only become thoroughly effective during this biennial period, and by reference to the above table it will be noted that the farm loans approved and consummated by this office during 1919-1920, amounted to \$344,250.00, as compared with the approved and consummated loans of the previous biennial period, amounting to \$66,300.00. Attention is also called to the increased demand for relief under the provisions of the "Farm Loan Act," as shown by the applications filed during the former period, amounting to 116, as compared with the applications received in this office during the period just ended, which amounted to 414.

Your attention is especially called to the maintained and increased successful operation of the Mineral Department during this period, its receipts amounting to \$228,072.84, as compared with 1915-1916, being \$95,861.16, and 1917-1918 being \$213,913.97; and to the further fact of its extensive growth during the past years as compared with the receipts for the term ending November 30, 1896, which amounted to only \$11,940.00.

A number of important and interesting features have entered into the business of this department during the past two years, resulting in the State school fund acquiring additional and valuable acreage to which it was legally entitled, and to the extensive prospecting and development of oil and gas which may be contained in State lands.

The State Board of Land Commissioners, profiting by the experience and enormous revenues obtained by the State of Wyoming during the past few years in its production of oil and gas, resulting in a confirmed and assured maintenance of its school systems for all time to come, and fully realizing the importance of the revenue to be derived by the advent of one or more producing oil and gas wells upon State land, has endeavored in every possible manner to encourage the State's oil and gas lessees, granting liberal concessions, allowing large areas to be leased and attached to wells during the time continuous drilling development is in progress in such wells, and many other favorable inducements as offered in this State's oil and gas lease contract. To

this end, the Board has, through its Mineral Department, been instrumental in bringing about the following development results:

Thirty-six drilling rigs have been installed and put in operation on and adjacent to State land, in various localities of the State.

Approximately 48,792 feet of drilling has been performed in these wells, at a cost of not less than \$1,080,000.00.

The total amount of drilling performed amounts to not less than  $9\frac{1}{4}$  miles.

During this biennial period, and the last year of the previous term, this office installed a new system of records for the classification and care of State lands, and it was found in this re-check that the State was entitled to over 50,000 acres of legitimate base land, being an additional acreage that could be submitted as base in exchange for lieu land in selection lists, to which the State was entitled from the Federal Government, under the original "School Land Grant."

Further, it was discovered by the Chief Appraiser of this office, in the examination of the records of the General Land Office in Washington, who was there for this special purpose, that this State was entitled to 48,260 acres of other lieu land, the base for which is entitled "Compensation for fractional townships." Prior to that time, it was assumed that there was a deficit in the acreage due to the State in return for Sections 16 and 36 located within the boundaries of the Ute Reservation, but until the installation of the new classification records, no method was available of locating and determining the deficit loss and presenting its claims. During the time that this check was being made, it was found that the same base land had been submitted in selection lists two and three times, even in some cases after the base had been patented in a previous list. This, of course, rendered invalid and subject to loss by contest, any lands included in those lists. In several cases the State lost the lieu lands and was forced to select lands that were not as valuable.

However, this office was not aware of the fact, prior to the investigation in Washington, that the State was entitled to additional lieu land by reason of "Compensation for fractional townships." Therefore, a total of approximately 100,000 acres was recovered to the State and placed upon a revenue paying basis. This 100,000 acres of land is worth at least an average of \$10.00 per acre, or \$1,000,000.00.

The special grants, such as Internal Improvement, Agricultural College, University, etc., have never been made to check, the Internal Improvement grant being off in previous biennial periods by about 150,000 acres. This was due to the fact that the old records of sales were incomplete. The special grants all are now

in such condition that they can be properly handled, but prior to the installation of the present system it was impossible to determine in any way the correct status of any of the grants to the State of Colorado.

As forty-four years have passed since Colorado was admitted into the Union, on August 1, 1876, when by the Seventh Section of the Act of Congress of March 3, 1875, this State was granted and acquired its title to Sections 16 and 36 in every township, where such sections had not been sold or otherwise disposed of by any Act of Congress, for the support of its common schools, it would seem that it is high time that the Department of the Interior at Washington should make some definite and final ruling to positively confirm the State's vested title to its Sections 16 and 36, and thereby annul the clouded, indefinite, impractical and unsettled inference as set forth in Section 15 of the Act of Congress of March 3, 1875, as follows:

“That all mineral lands shall be excepted from the operation and grants of this Act.”

It being assumed that the intent of this Section 15 of said Act and its provision was to apply and be effective only during the period of time required by the State to take over and administer its granted school sections for the benefit and use of its school funds, and not to apply to all time, thus tending to disparage and unsettle the titles to such lands, lessen their value to the State and be productive of great hardship and injustice to purchasers of land from the State.

It is evident that the inferred and clouded reservation termed “All mineral lands” as provided for in Section 15 of the Grant, was intended to apply to lands only with “known mineral in place” of commercial values, and not that the term “Mineral Lands” should be literally implied, for if such was the possible intent as the two words imply, every Section 16 and 36 in Colorado could be classified as “Mineral Land” and the State would have no Grant.

Assuming that the normal interpretation of the words of the Act to be “known mineral in place” of commercial value, only two methods could possibly be used to determine whether or not any of the Sections 16 or 36 contained “known mineral” prior to the passage of the Grant, viz:

1. Did the field notes of the approved survey of the township prior to the date of the grant specifically show the existence of known mineral on either Section 16 or 36?
2. The proof submitted by sworn evidence of two or more witnesses of the knowledge that “known mineral” existed on such section prior to the date of the Grant.

After the lapse of forty years, it is conclusive that the second method of proof is now impossible and not to be considered.

Therefore, it would seem that the indefinite reservation of "all mineral lands" as implied in Section 15 of the Act of Congress of March 3, 1875, was intended for and did apply to such mineral lands as were conclusively disclosed by the field notes of the approved surveys prior to the State's Grant.

Your attention is called to extracts from some of the various decisions of the U. S. General Land Office in past years, as follows:

"That the grant as to said sections took effect and the State's title vested thereunder, upon the approval of the survey."

"That in such cases the State is entitled under said Act to Sections 16 and 36 for the support of common schools, if said sections were not known to contain minerals at the date of the approval of the survey, and that the discovery of minerals on said lands subsequent to such an approval does not defeat the title of the State."

"The State's title to the lands having vested on the approval of the survey, the lands not being then known to contain minerals, cannot be divested by the subsequent discovery of minerals thereon."

On different occasions during the time that the State has been administering its grant, it has attempted to submit as base in a selection list, certain school sections claimed to be mineral at that time. On these occasions the General Land Office has ruled that these particular sections were non-mineral in character; therefore, were invalid for use as base in the selection of lieu lands. These rulings should have established definitely the fact that the lands in question were considered non-mineral in character; but subsequent to that time the Department has, without consulting the State of Colorado in any way, issued mineral patent on those tracts, at which time there was no question but what title to those particular tracts was vested in the State of Colorado.

The State of Colorado maintains that it was vested in its title to its granted school sections on August 1, 1876, and that only such sections or portions of such sections of land were excepted from the grant as were specifically shown to be "Mineral Lands" by the field notes of the approved surveys of the township on August 1, 1876, and:

Such sections or subdivisions of such sections of land as had "been sold or otherwise disposed of by any Act of Congress" prior to said date.

That it has duly selected its indemnity lands in lieu of the excepted lands, to conform with the provision of the grant.

That since August 1, 1876, it has been in possession of its granted school sections, lawfully administering the funds derived therefrom for the benefit and support of its common schools, by leasing, selling, issuing patent title and otherwise disposing of the same, as directed by legislative acts.

That the State of Colorado now and at this time desires a definite, final and positive ruling from the Department of the Interior, through its Honorable Commissioner of the General Land Office, forever settling the status of the title of its lands as vested in the State by the Seventh Section of the Act of Congress of March 3, 1875, and:

That said ruling shall provide for the elimination of the excepted provision as set forth in Section 15 of said Act, termed "all mineral lands," as being indefinite, impractical as to segregation or classification, as implied by said term and should not hereafter enter into or possibly affect the State's vested title to its lands.

Recommendation is made that our senators and members of Congress be requested to make a united effort, either by a special act, or by intercession with the Department of the Interior, to the end that the "State's title" may be definitely and forever settled as to its vested rights, set forth in the Seventh Section of the Act of Congress of March 3, 1875, and to the subsequent Section 15 of said Act, which provides that "all mineral lands shall be excepted from the provision and grant of this Act."

Respectfully submitted,

JOHN F. VIVIAN, Register,  
State Board of Land Commissioners.

## STATUS AND INVESTMENTS OF STATE FUNDS

## SUMMARY COMPARATIVE TABLE OF THE STATUS OF THE VARIOUS FUNDS OF THIS DEPARTMENT, AS SHOWN BY THE BOOKS OF THE STATE TREASURER'S OFFICE, FOR BIENNIAL PERIODS 1915-1916, 1917-1918, AND 1919-1920.

CHARACTER	Nov. 30, 1916	Nov. 30, 1918	Nov. 30, 1920

Penitentiary, Income .....	5,281.18
Public Building, Permanent .....	3,372.97
Public Building, Income .....	3,095.86
Saline, Permanent .....	.....
Saline, Income .....	4,612.60

Of the above, the following amounts are invested in State Warrants, State Bonds, County and Municipal Bonds, and Bonds of School Districts, Liberty Loan Bonds and Farm Loans, which bear interest at various rates per annum:

## SPECIAL EDUCATIONAL GRANTS—PERMANENT

Agricultural College, Permanent .....	\$ 264,050.00
University, Permanent .....	75,770.00

## PUBLIC SCHOOL FUND—PERMANENT

State Bonds .....	\$2,562,549.75
County and Municipal Bonds.....	1,386,193.22
Bonds of School Districts.....	1,036,474.08
Liberty Loan Bonds .....	751,102.50
Farm Loans .....	410,550.00
State Warrants .....	316,632.83
Cash on hand November 30, 1920.....	44,071.74
	<hr/>
	\$6,507,574.12

## PUBLIC SCHOOL FUND—INCOME

Cash on hand November 30, 1920.....	\$ 281,530.06
There is also held in this fund, "Funding Bonds, Series of 1910," authorized by constitutional amendment (see S. L. 1909, Chap. 148, page 315), amounting to .....	550,000.00
	<hr/>
	\$ 831,530.06

The following shows the interest amounts collected by the State Treasurer for the biennial period ending November 30, 1920:

Interest on Deposits .....	\$ 22,186.17
Interest on Warrants.....	14,695.14
Interest on Bonds .....	412,625.64
Interest on Farm Loans.....	14,222.01
	<hr/>
Total Amount of Interest.....	\$ 463,728.96

Of the above Public School Permanent Fund invested, the State Board of Land Commissioners, during the biennial period ending November 30, 1920, has increased the investment of the State School Funds in interest-bearing bonds and farm loans, as follows:

CHARACTER	1917-1918 Amount	1919-1920 Amount
Colorado State Bonds.....	\$ 527,439.87	\$ 158,497.25
Fourth Liberty Loan (part).....	100,000.00	651,102.50
School District Bonds .....	363,050.50	673,423.58
County and Municipal.....	\$69,367.88	516,825.34
Farm Loans .....	66,300.00	344,250.00
State Warrants .....	.....	95,928.30
	<hr/>	<hr/>
Total Increase of Investments, as ap- proved by the State Board of Land Commissioners .....	\$1,926,158.25	\$2,440,026.97
Increase during 1919-1920 over 1917-1918.....		\$ 513,868.72

APPORTIONMENT OF STATE SCHOOL FUNDS TO THE VARIOUS COUNTIES  
1919-1920

OFFICE OF THE STATE SUPERINTENDENT OF PUBLIC INSTRUCTION  
SEMI-ANNUAL APPORTIONMENT OF INCOME OF STATE SCHOOL FUND MADE FOR THE FOLLOWING SEMI-ANNUAL PERIODS

	Amt. Reported by State Treasurer	Rate of Apportionment	School Population	Total Apportionment	Amt. Deducted for Blanks	Bal. Certified to State Auditor
