**BIENNIAL REPORT**  
**OF**  
**State Board of Land Commissioners**  
**of Colorado**

---

July 1st, 1936.

His Excellency,  
HONORABLE EDWIN C. JOHNSON,  
Governor of the State of Colorado.

Sir:

In compliance with Section 1147 of Compiled Laws of 1921, we transmit to you herewith a report of the State Board of Land Commissioners for the biennial period ending June 30, 1936. Included in this report are to be found the tables and data required by statute, and other information pertaining to this Department.

In submitting this report, we think it pertinent to mention a few of the problems confronting this Board due to rapidly changing conditions to which our present laws do not in all cases apply, and to call special attention to certain facts disclosed by this report.

**OIL AND GAS LEASES**

In our previous biennial report there were 393,828 acres of State land under oil and gas leases producing a revenue of \$60,-086.00. The Board came to the conclusion that it could greatly increase this acreage by eliminating from its lease form some of the stringent drilling provisions, and to grant longer term leases that would be more marketable. This change in lease requirements was put into effect two years ago with the result that this biennial period shows 539,201 acres under gas and oil lease with an income of \$135,037.00.

**COAL ROYALTIES**

It will be noted that the production of coal and royalties received therefrom, still continue to decrease owing to the introduction and increased use of natural gas.

**ACREAGE AND RECEIPTS**

The total acreage of State land shows an increase over our previous report. This is due to very few sales; a great amount of land held previously under certificates of purchase reverting to the State; and by mortgage foreclosures. The total acreage

reported in previous biennial report was 3,182,101, while this report discloses that the State now owns 3,230,473 acres, an increase of 48,372 acres.

This report also indicates that the number of acres under lease has increased by 58,248, and that the land vacant and not under any lease at the present time represents 18.6 per cent of the total acreage owned.

The total cash receipts from all sources for the biennial was \$2,022,909.05, showing an increase of \$331,019.00 over the previous report. However, we note a falling off in receipts from the investment of the Permanent School Fund due to the great reduction in interest rates. It is difficult to find a safe bond investment at this time that will yield over three and one-half per cent interest.

### FEDERAL AGENCIES

A decided epochal change in the administration of the remaining Government lands has taken place in the last few years. A series of drouths, disastrous dust storms, and constant agitation regarding soil erosion and waste have resulted in the withdrawal of all Government lands from homesteading or other disposition.

A "Land Use Department" has been brought into existence by the Federal Government, and by State Planning Boards. The creation of grazing districts, of soil conservation districts, and of submarginal land purchase areas, all of which are in the nature of Federal Reservations, and any State land falling within their boundaries, are now affected by Government regulations. In many cases it is necessary that the State cooperate with the Government regardless of the effect it may have on our revenues. The detailed work of this office has been greatly increased in our cooperation, through our tenants, with the wheat allotment plan, the hog and corn regulations, sugar beet restricted acreage, and cooperative agreements on our lands within soil conservation districts.

It is recommended that the incoming General Assembly make it possible for this Board to cooperate in soil conservation as a benefit to the State as a whole, and not be compelled to handle School Lands from a revenue producing basis entirely. The opportunity has arrived whereby we may greatly improve the grazing capacity of some of our larger pastures by contour furrowing and water hole construction in connection with W. P. A. projects, the Government furnishing all labor, providing we can be given an appropriation to furnish necessary materials.

### TAYLOR GRAZING ACT

The formation and administration of Federal Reservations under the Taylor Grazing Act has to some extent removed the incentive to purchase or lease State land within these districts. Practically the entire western half of the State is now under Governmental regulation as to grazing. The operation of this Act will

result in a permanent impairment of the value of lands granted to the State unless an exchange of our scattered lands for consolidated areas of Government lands can be made. The Board has already made eight applications for exchange involving 153,292 acres. However, it will likely be several years before these exchanges can be consummated, and in the meantime we will be more or less handicapped in the administration of these lands.

### FARM LOANS

Under conditions that have prevailed for the past few years, and are still prevailing, the making of farm loans from the School Fund is not considered, generally speaking, a desirable investment for the School Fund, and as a result this Board has made very few loans in the past five years. With the Congress of the United States, and the Legislatures of the various States, and other agencies, granting or advocating the granting of moratoriums of from three to five years, together with the operations of the Frazier-Lemke Act, an atmosphere has been created that is not at all conducive to the lending of money. Further, the enforcement provisions that are now in the Farm Loan Act of Colorado are such that they are entirely too stringent if enforced to the letter, for if any lending agency should be lenient with its borrowers, it certainly should be the State. The present Act should either be amended to allow this Board more discretion or be repealed.

### STATE FOREST

The boundary of the State Forest has now been definitely determined. It comprises about 71,000 acres of timber land in Jackson County immediately west of Cameron Pass. During the past two years a good fence has been constructed along most of the western boundary, some trails for fire protection have been made, and considerable thinning of undergrowth has been done; all being accomplished with CCC labor, without any cost to the State. We have acquired the buildings formerly belonging to the Game and Fish Department as headquarters for a forest ranger. Considerable study of the timber and range conditions has been made, and we are now ready to put the entire tract under lease.

We are glad to be able to report that the general improved conditions over the State are now being reflected in the business of this office.

Respectfully submitted,

STATE BOARD OF LAND COMMISSIONERS,  
By ARTHUR H. KING, Register.

## STATUS AND INVESTMENT OF STATE FUNDS

SUMMARY COMPARATIVE TABLE OF THE STATUS OF THE VARIOUS FUNDS OF THIS DEPARTMENT, AS SHOWN BY THE BOOKS OF THE STATE TREASURER'S OFFICE, FOR THE BIENNIAL PERIODS DECEMBER 1, 1930, TO JUNE 30, 1932 (19 MONTHS ONLY); JULY 1, 1932, TO JUNE 30, 1934, AND JULY 1, 1934, TO JUNE 30, 1936.

Land commissioners' cash fund....	29,686.79	21,759.96	47,022.21
Applications filed (number).....	1,560.00	1,700.00	2,135.00
Board meetings held (number).....	426.00	505.00	260.00

STATUS OF STATE LANDS, SHOWING AREA ORIGINALLY  
GRANTED, ACREAGE SOLD AND ACREAGE REMAIN-  
ING THE PROPERTY OF THE STATE JUNE 30, 1936

Original acreage of lands granted to the state	4,542,335.35
Acreage sold up to December 1, 1906.....	458,577.37
Acreage sold in 1907-1908.....	60,356.25
Acreage sold in 1909-1910.....	287,340.63
Acreage sold in 1911-1912.....	79,639.33
Acreage sold in 1913-1914.....	85,715.66
Acreage sold in 1915-1916.....	134,218.87
Acreage sold in 1917-1918.....	224,005.57
Acreage sold in 1919-1920.....	156,502.55
Acreage sold in 1921-1922.....	35,753.99
Acreage sold in 1923-1924.....	10,346.52
Acreage sold in 1925-1926.....	21,384.28
Acreage sold in 1927-1928.....	25,513.04
Acreage sold in 1929-1930.....	99,135.85
Acreage sold December 1, 1930 to June 30, 1932 .....	25,030.32
Acreage sold July 1, 1932 to June 30, 1934..	4,374.89
Acreage sold July 1, 1934 to June 30, 1936..	9,218.07
Total acreage of land sold to date.....	1,717,113.19
Reversions—Cancellations of certificates of purchase .....	405,250.80
Total acreage sold to date net.....	1,311,862.39
Total acreage remaining property of state June 30, 1936.....	3,230,472.96

Increase in original acreage of lands granted to the State is due to accretions by foreclosure of farm loans.
