Dear Senator Zenzinger, et al:

Pursuant to Section 24-50-609 C.R.S., the General Assembly established the Supplemental State Contribution Program (SSCP) for eligible state employees. The intent is to provide access to affordable and adequate health insurance offered by the State to as many children of lower-income state employees as possible and to encourage lower-income employees with dependent children to enroll in health insurance plans by supplementing the plan premiums. The Department of Personnel & Administration manages and administers the program.

A state employee must apply and meet statutorily based eligibility requirements. Eligibility criteria include: (1) an employee as defined in Section 24-50-603 (5), C.R.S. who is eligible to enroll in a group benefit plan, (2) has an annual household income of less than 300 percent of the Federal Poverty Level (FPL), and (3) has at least one dependent other than a spouse.

Pursuant to the Section 24-50-609.5 C.R.S., if available funding is not sufficient to reduce all eligible state employees' contribution to zero, then the eligible state employees are assigned to tiers based on annual household income: level 1, annual household income less than 200 percent of FPL; level 2, annual household income between 200-249 percent of FPL, and level 3; 250-299 percent of FPL. State employees at each level in priority order receive the lesser of the amount necessary to reduce the employee contribution to zero or an equivalent percentage for each eligible state employee in that level that uses all of the available principle. All supplement contributions are paid from the Supplemental State Contribution Fund created in Section 24-50-609 (5), C.R.S.

Fiscal Year 2022-23

For FY 2022-23 the amount available in the Supplemental State Contribution Fund to supplement the medical premiums of eligible state employees was \$4,923,634. The Department received 609 applications. Of these applications, a total of 224 were denied because they did not meet the requirements of the program or their applications remained incomplete when the application period closed.

Application Status	Count of Applications
Applications Received	609
Denials due to Program Ineligibility or Incomplete Application	224
Remaining Eligible Applications	385
Level 1 Approval	132
Level 2 Approval	135
Level 3 Approval	118
Total Authorized Approvals FY 2022-23	385
Dependent Children Not Added	3
Declined Assistance	1
Termination prior to plan year start	7
Total Employees Authorized for Payments in FY 2022-23	374
Total Employees Receiving Payments in FY 2022-23	360

Of the remaining 385 applications, a total of 132 were approved for Level 1, 135 were approved for level 2, and 118 were approved for level 3. Three applications were denied because dependent children were not added to the medical plan during the special open enrollment period; one person who was approved declined the assistance; and seven employees terminated before the start of the plan year. A total of 374 employees received the supplemental contribution when the program began making contributions for FY 2022-23. A 100 percent supplemental monthly contribution was available for all three levels.

Presently, 360 state employees continue to receive the supplemental contribution on a monthly basis. There have been 14 participant terminations from the program between July 1, 2022 and November 30, 2022. Terminations can occur for various reasons including separation from state employment and other personal choices. The number of children remaining covered is 842, down 35 from the beginning of the fiscal year due to enrolled employee terminations.

Supplemental State Contribution Program Information

Pursuant to Section 24-50-609.5 (5), C.R.S., the Department is required to report the specific information in the table below regarding the supplemental state contribution program for the current fiscal year and prior state fiscal years in which supplements were provided.

**Figures for FY 2021-22 have been updated to reflect eligible employees and dependent children as of fiscal year end as well as actual total supplements paid. There may be slight adjustments to the average monthly and yearly numbers due to changes in enrollment in the program during the fiscal year.*

¹ §24-50-609.5 (3)(c)(II), C.R.S. defines “Increased nonsupplemental state contributions” as “the aggregate amount of increases in state contributions, excluding supplements, resulting from: (A) Enrollment in qualifying group benefit plans of eligible state employees who applied for supplements for the fiscal year and were not enrolled in qualifying group benefit plans during the prior fiscal year; and (B) Addition of dependents who were not covered by a qualifying group benefit plan during the prior fiscal year to the qualifying group benefit plans of eligible state employees who applied for supplements during the fiscal year.”

***FY 2022-23 eligible employees and dependent children as of 12/31/2022. Total projected supplement for the current fiscal year may be lower than originally estimated due to enrollment changes within the fiscal year. The average monthly and yearly costs reflect the projected supplement provided to employees based on available funds and enrollment at the beginning of the fiscal year.*

Sincerely,

Tony Gherardini
