WORKFORCE OVERVIEW

This Workforce Report covers classified employees in the State Personnel System. For this report, an employee in the State Personnel System satisfies the following criteria:

- Classified within the State's Personnel System;
- Permanent full-time or part-time employee;
- Excludes higher education faculty and administrators; and
- Excludes temporary employees.

Classified System

The Colorado Constitution (CO Const. art. XII, \$13) established the State Personnel System as the classified civil service system for the State of Colorado. The system applies only to certain positions within the Executive and Legislative Branches. Employees in the classified system may have retention rights and must adhere to the policies, procedures, and personnel rules established specifically for the State Personnel System in the State's constitution, statutes, and personnel rules.

Non-Classified System

Pursuant to Colorado exemption statute (C.R.S. 24-50-135), employees in non-classified positions are exempt from the State Personnel System. Consequently, they are exempted from the rules, procedures, and regulations that govern the State Personnel System. The non-classified system includes employees in Amendment S positions (deputy directors, chief financial officers, public information officers, human resources directors, executive assistants, and legislative liaisons), Senior Executive Service positions, the Legislative Branch (with the exception of the State Auditor's Office), and the Judicial Branch. Institutions of Higher Education are part of the Executive Branch; however, most higher education employees are exempt from the classified system.

NOTE: As of June 30, 2022, the State employed 103,332 employees. This includes both classified and non-classified, permanent, temporary, part-time, and full-time employees in all branches of government (data is taken from the State Controller's Pay Check report).

STATE OF COLORADO TOTAL COMPENSATION PACKAGE

The total compensation package includes base salary and benefits (medical, dental, disability, life, wellness, leave, and retirement). The FY 2022-23 Annual Compensation Report found the State's total compensation package offered to employees in FY 2021-22 was 2.8% below prevailing market.

• Actual Base Salary: Overall, actual average base salary for State employees was approximately 6.5% below market median. Base Salary made up the majority of a State employee's package at 69.0% of the total.

■ Benefits: Benefits (medical, dental, life, shortterm disability, long-term disability and life, and AD&D insurance) account for 31% of the State's total compensation, as compared to 28% for the prevailing market. The combined medical plan value of the State's plan is equal to the median of all survey respondents.

■ **Retirement:** Employees are provided a choice in retirement plan type - Defined Benefit (DB) or Defined Contribution (DC) - This provides flexibility to employees. Offering a DB plan is consistent with market practice for the public sector but not the private sector. Providing a DC plan with employer contributions is consistent with market practice for the private sector; similar to the State of Colorado, employer contributions are typically in lieu of participation in the DB plan in the public sector. The total annualized employer-paid DB benefit of 18% of pay is below the public sector median (20% of pay) but above the private sector median (14% of pay).

■ Leave: The State of Colorado currently offers employees a leave program that includes, but is not limited to annual, sick, holiday, family medical, shortterm disability and military. Employees earn personal and sick leave at varying accrual rates, based on years of service. In FY 2021-22, full-time employees begin earning annual leave at an accrual rate of 8 hours per month and sick leave at a fixed rate of 6.66 hours per month. Leave for a part-time employee is earned on a prorated basis.

HEALTH PLAN MEMBERSHIP

State of Colorado Group Employee Medical Plan offers copayment and high deductible health plan (HDHP) medical insurance options through Cigna and Kaiser Permanente (KP). Each year, employees may elect a new insurance plan. Enrollment numbers for each plan in FY 2021-22 changed from the previous year, as shown in Figure 13.

EMPLOYEE HEALTH AND ENGAGEMENT

In FY 2021-22, the State continued its focus on enhancing employees' understanding of their benefits package and rolling out the first two phases of our STATE OF HEALTH wellness program to more effectively improve employee health.

The State made only a few changes for FY 2021-22 after coming off the major redesign of the medical plan and replacement of United Healthcare with Cigna. Employee premiums did not increase for any benefits and long-term disability rates decreased by 16%. The two changes made included: adding the Right Start 4 Kids program in the Delta Dental plan and expanding long-term disability eligibility. The Right Start 4 Kids program pays claims at 100% for children under age 13 and long-term disability eligibility was expanded to part-time employees working 12 or more hours per week. During the FY 2021-22 active benefits open enrollment period, 88% of State employees elected healthcare benefits.

STATE OF HEALTH AND MOTIVATEME

The State expanded the STATE OF HEALTH program, focusing on long-term positive change in chronic health conditions such as diabetes, high blood pressure, obesity, high cholesterol, depression, and tobacco dependence. Over 600 employees struggling with these chronic conditions were enrolled in the program, which coordinates the efforts of primary care physicians, health coaches, and CSEAP counselors to achieve lasting results.

Results from the pilot group of STATE OF HEALTH participants showed across-the-board improvements in biometric measures (A1c, cholesterol, blood pressure, and body mass index) and similar across-the-board gains in health engagement (nutrition tracking, strength training, physical activity, and sleep). Based on these early results, the pilot program was expanded to all employees for FY 2022-23.

MotivateMe, the wellness program for all employees, was improved to focus on higher-priority wellness activities like routine preventive care (mammograms & colonoscopies) and annual physicals. These changes and increased promotional efforts increased MotivateMe participation by 31% over FY 2020-21.

| Health Focus Area | Measurement |
|-------------------|---|
| STATE OF HEALTH | 3,000 employees applied, 600 enrolled, 100 completed the one-year program |
| MotivateMe | 15,231 enrolled, 6,989 earned the incentive |

COLORADO STATE EMPLOYEE ASSISTANCE PROGRAM (CSEAP)

CSEAP provides employee assistance services to State employees and their employing organizations. Services include individual, couple, and family counseling and professional and health coaching. In FY 2021-22, CSEAP served 1,554 counseling cases addressing excessive stress, phase of life concerns, and symptoms of depression and or anxiety. Over 113 employees were served through professional coaching addressing soft skills development for the workplace.

In addition, CSEAP provided responses to 239 employees impacted by critical incidents including urban fires, deaths impacting the workplace, and community violence. CSEAP critical incident response includes a

consultation with leaders of impacted organizations and urgent response to groups and individual employees uniquely impacted by tragic events. CSEAP also continues its partnership with STATE OF HEALTH to provide health coaching to State employees.

GENERAL ASSUMPTIONS

- 1. **Multiple Records:** For any employees with multiple records in a given month, the last record in the table was selected for that employee for that given month. The one exception is for determining full-time/part-time status. For this, the calculation was based on the sum of FTE (Full-Time Equivalent) for all records for a social security number for each month.
- 2. Employee Criteria: The tables are generally based on permanent, classified employees.
- 3. Salary: The salary amounts used in this analysis are unadjusted for FTE.
- 4. **Table Types:** Most demographic tables are based on June 2022. For tables involving average employee counts, the entire fiscal year was used. Each table has a note indicating the time period of the data upon which the table is based.
- 5. **Excluded Data:** The information provided to the Department of Personnel & Administration was not updated during the fiscal year for nine institutions of higher education. Due to this, data was excluded from the report for: Adams State University, Auraria Higher Education Center, Colorado Mesa University, Colorado School of Mines, Colorado State University-Pueblo, Fort Lewis College, Metropolitan State University, University of Northern Colorado, and Western State Colorado University.

Workforce

Due to the various types of metrics presented in this report, different definitions have been used to provide the necessary data. In some instances, the Department used a count of employees at a given point in time (June 30, 2022), and in other instances, the Department used the average count during the fiscal year to provide the necessary data.

For this report:

- Each table indicates the methodology utilized;
- A position is an individual distinct set of duties or assignments;
- A full-time employee is the budgetary equivalent of one permanent position working 2,080 hours per fiscal year; and
- Employees are the actual people holding a position and working in the personnel system.

The Colorado fiscal year runs from July 1 through June 30, FY 2021-22. This report is based on an extract of the State's workforce data from the Colorado Personnel and Payroll System for all months from July 1, 2021, through June 30, 2022, with additional data provided by the University of Colorado, Colorado State University, and the Colorado Community College System.

Average is the arithmetic mean, the value of all the entries in a set of data divided by the number of entries. Median is the middle value in a set of data, an equal number of values above it and below it. Due to rounding, percent totals may not always equal 100%.

Retirement

Retirement eligibility is cumulative. If an employee is eligible to retire within one year, they are eligible to retire within all subsequent years.

Turnover

Definition of turnover for employees in the State Personnel System:

- Employee-initiated separations from State employment (voluntary);
- Employer-initiated separations from State employment (involuntary);
- Layoffs;
- Retirements; and
- Deaths.

For purposes of turnover in this report, "Layoffs" and "Deaths" were combined into the involuntary turnover category. Turnover data excludes employees who transfer from one department to another because they are still considered employees of the State Personnel System. Turnover rates were calculated as the total turnover count divided by the average number of positions in the fiscal year.

Benefits

Benefits information is gathered and summarized by higher education and general government and derived from an internal report generated by the Department's Employee Benefits Unit.

- Only permanent employees are eligible for benefits; temporary employees are not eligible for benefits.
- Note that benefits information includes non-classified employees who are not in higher education, specifically judicial and legislative employees, and those positions covered by Amendment S and SES.

This report was prepared by the Department of Personnel & Administration. This report is intended to be for informational purposes only and does not represent an opinion from the Department. Current trends have been highlighted as an illustration of workforce issues in the respective fiscal year.
