Office of the State Controller

John W. Hickenlooper
Governor

Kathy Nesbitt
Executive Director

Robert Jaros
State Controller

November 1, 2013

The Honorable Mark Ferrandino
Speaker of the House
Colorado General Assembly

The Honorable Lucia Guzman
President Pro Tempore of the Senate
Colorado General Assembly

Dear Sir and Madam,

In accordance with CRS 24-75-212, we submit the Report of Federal Assistance as Reported by Colorado State Agencies for the fiscal year ending June 30, 2013. All agencies substantially complied with the reporting requirements.

The Fiscal Year 2013 federal expenditures of \$8,898.6 million are down from Fiscal Year 2012 federal expenditures by approximately \$228 million or 2.5%. This primarily relates to a decrease of \$497 million in Unemployment Insurance assistance and an increase of \$251 million at the Department of Health Care Policy and Financing primarily for Medicaid related expenditures.

The attached schedule was compiled from information provided by state agencies and has not been audited or verified by our office. However, the State Auditor will audit the data supporting the schedule as part of the Statewide Single Audit, and any audit adjustments will be incorporated in the final Schedule of Expenditures of Federal Awards (SEFA) printed in the Auditor's Single Audit Report.

If you have any questions concerning this report please contact Tammy Nelson at 303.866.2659.

Sincerely,

Robert Jaros, CPA, MBA, JD
State Controller

Cc: Henry Sobanet

DEPARTMENT OF EDUCATION							
10.553							
DAA	10.553	School Breakfast Program	FOOD AND CONSUMER SERVICE, DEPARTMENT OF AGRICULTURE	\$1,006,657	0.00%	School Breakfast Program--The USDA provides funds to the CDE Office of School Nutrition (OSN) for the School Breakfast Program. School districts across the state serve reimbursable meals (meeting strict criteria) each day to enrolled students and then file a reimbursement claim with the OSN. The OSN pays these claims on a monthly basis, and school districts use the funds especially to pay for the costs of food and labor. All breakfast funds received by CDE go directly to school districts for reimbursement.	None
10.555							
DAA	10.555	National School Lunch Program (NLSP)	FOOD AND CONSUMER SERVICE, DEPARTMENT OF AGRICULTURE	\$2,487,671	0.00%	National School Lunch Program--The USDA provides funds to the CDE Office of School Nutrition (OSN) for the National School Lunch Program. School districts across the state serve reimbursable meals (meeting strict criteria) each day to enrolled students and then file a reimbursement claim with the OSN. The OSN pays these claims on a monthly basis, and school districts use the funds especially to pay for the costs of food and labor. All lunch funds received by CDE go directly to school districts for reimbursement.	\$2,472,644.00
10.559							
DAA	10.559	Summer Food Service Program for Children	FOOD AND CONSUMER SERVICE, DEPARTMENT OF AGRICULTURE	\$177,761	3.11%	Summer Food Service Program--The USDA provides funds to the CDE Office of School Nutrition (OSN) for the Summer Food Service Program. About 75 sponsors (school districts and other organizations) participate in the program, providing meals to school children when school is out of session. These sponsors file a reimbursement claim with the OSN. The OSN pays these claims on a monthly basis, and sponsors use the funds to pay for the cost of the program (administrative and operating expenses). Funds received by CDE from the USDA go to sponsors for reimbursement and also cover the state administrative expense for running this program.	None

STATE AGENCY	CFDA	FEDERAL PROGRAM	FEDERAL AGENCY	EXPENSES	ADMIN EXPENSES	PURPOSE OF GRANT	OBLIGATIONS TO THE STATE OF COLORADO
10.560							
DAA	10.560	State Administrative Expenses for Child Nutrition	FOOD AND CONSUMER SERVICE, DEPARTMENT OF AGRICULTURE	\$1,922,585	5.78%	State Administrative Expenses (SAE)--The USDA provides funds to the CDE Office of School Nutrition (OSN) to cover the state administrative expense for running the Child Nutrition Programs. These funds are used to pay salaries, cover the cost of training and workshops, fund the cost of developing materials and resources for school districts, and provide for other administrative expenses. SAE is also used for supporting the system used by the OSN and school districts for reimbursement.	None
10.574							
DAA	10.574	Team Nutrition Grants	FOOD AND CONSUMER SERVICE, DEPARTMENT OF AGRICULTURE	\$33,656	9.34%	Team Nutrition Grant--The USDA provided funds to the CDE Office of School Nutrition (OSN) for the 2010 Team Nutrition Grant. The purpose of receiving these funds was to initiate programs that would enhance overall student wellness. Accordingly, the funds have been used for state-wide trainings for school district personnel on the Healthier US School Challenge, for developing a nutrition education resource rubric, and for creating an advisory council of school district food service personnel, which is actively working to represent and support districts around the state and to provide feedback and suggestions to the OSN. Further, some funds from the Team Nutrition Grant have been designated as mini grants for schools to build programs aimed at improving overall student health and wellness. Funds received by CDE from the Team Nutrition Grant, therefore, go directly to schools and are also used to cover the state administrative expense for administering the grant.	None
10.579							
DAA	10.579	Child Nutrition Discretionary Grants Limited Availability	FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE	\$883	9.29%	Direct Certification Grant -- The USDA provides funds to the CDE Office of School Nutrition (OSN) to assist States agencies in improving their direct certification processes and rates.	None

10.582							
DAA	10.582	Fresh Fruit and Vegetable Program	FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE	\$46,311	0.00%	School Fresh Fruit & Vegetable--The USDA provides funds to the CDE Office of School Nutrition for the Fresh Fruit and Vegetable Program. Elementary schools with high free and reduced eligibility percentages are eligible to apply annually. Selected schools provide fresh fruits and vegetables during the school day to enrolled students, outside of breakfast and lunch times. The schools' respective districts file a reimbursement claim with the OSN. The OSN pays these claims on a monthly basis, and districts use the funds primarily to pay for food costs. 10% of the reimbursement may be used for administrative expenses. Funds received by CDE from the USDA go directly to school districts for reimbursement.	None
11.557							
DAA	11.557	Broadband Technology Opportunities Program (BTOP)	DEPARTMENT OF COMMERCE	\$200,069	9.34%	The Colorado State Library has partnered with Native American tribes and its neediest libraries to enhance public computer access at 88 locations in low-income, diverse and underserved areas. Additional partnerships include community organizations and state agencies that have worked with libraries to deliver programming to meet identified needs of residents for computer/Internet skills training, education, workforce development and improve access for the disabled.	None
45.310							
DAA	45.310	Grants to States	INSTITUTE OF MUSEUM AND LIBRARY SERVICES, NATIONAL FOUNDATION ON THE ARTS AND THE	\$2,083,384	2.56%	The Colorado State Library uses funds to support statewide initiatives and services and distributed through sub-grant competitions to public, academic, research, school, and special libraries in the state. The State Library promotes literacy, education, and lifelong learning in all types of libraries.	IMLS's authorizing legislation includes a Federal matching requirement in its provisions pertaining to the States. State Library Administrative Agencies are required to "match" their Federal LSTA program grants, as follows: Federal share (1) In general The Federal share shall be 66 percent. (2) Non-Federal share The non-Federal share of payment shall be provided from non- Federal, State, or local sources.
45.312							
DAA	45.312	National Leadership Grants	INSTITUTE OF MUSEUM AND LIBRARY SERVICES, NATIONAL FOUNDATION ON THE ARTS AND THE	\$20,711	9.34%	The Colorado State Library uses funds to address current and future needs of the library fields and that have the potential to advance practice in the profession so that libraries can improve services for the public.	None

84.011							
DAA	84.011	Migrant Education: State Grant Program	OFFICE OF ELEMENTARY AND SECONDARY EDUCATION, DEPARTMENT OF EDUCATION	\$1,089,879	9.07%	The purpose of these funds are to provide supplemental academic and social services to migrant students and families. 72% of the total funds are used as sub-grants to local education agencies or BOCES serving a migrant region of the state. They used these funds to provide supplemental academic support through direct instruction, tutoring, GED prep, or other educational programming needed per our state needs assessment. A large part of the funds are used for identification and recruitment of students. Funds are also used for family literacy and social services (i.e. dental care, glasses, healthcare, counseling, etc). The other 18% of the funds are used for a combination of state administration of the grant and state activities to support the regions and their staff. Administration includes, but not limited to, applications, monitoring of regions, state training, state parent advisory councils, re-interviewing of families for quality control, data management, professional development for regional staff, and travel for required federal meetings. The state activities include professional development for capacity building, assistance with identification and recruitment, conducting a state needs assessment and service delivery plan, as well as evaluation of the program.	None
84.013							
DAA	84.013	Title I State Agency Program for Neglected and Delinquent Children	OFFICE OF ELEMENTARY AND SECONDARY EDUCATION, DEPARTMENT OF EDUCATION	\$624,304	0.00%	Title I, Part D provides funds for youth in state-operated institutions or community day programs. It also provides assistance to school districts who work with local correctional facilities. Colorado receives formula funds based on the number of students in state institutions and costs per pupil.	None
84.027							
DAA	84.027	Special Education: Grants to States	OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES, DEPARTMENT OF	\$15,779,162	5.73%	Funds have been used to provide technical assistance, professional development, monitoring, and general supervision activities to administrative units and state operated programs across the state, specific to programs and services for students with disabilities and identified as requiring special education and related services. Funds have also been used for administrative costs associated with the provision of services. Do we include flow through funding to AUs and SOPs here?	None

84.282							
DAA	84.282	Charter Schools	OFFICE OF ELEMENTARY AND SECONDARY EDUCATION, DEPARTMENT OF EDUCATION	\$939,395	4.06%	CDE is charged with increasing the number of new high-quality charter schools that enable all students to achieve state content standards, graduate from high school and enter college or career with the requisite knowledge and skills to succeed. This grant also helps build capacity among authorizers, board members, administrators and teachers at new and existing charter schools to conduct quality authorizing, exert effective school leadership, and engage in high-impact teaching. 95% of funds are used to distribute start-up grants to charter schools in their planning year as well as their first two years of operation. These funds help cover expenses in the following areas: professional development, board training, facility code issues, curriculum, library development and technology, etc. The remaining 5% covers administrative costs at CDE associated with managing the grant.	None
84.287							
DAA	84.287	Twenty-First Century Community Learning Centers	OFFICE OF EDUCATION RESEARCH AND IMPROVEMENT, DEPARTMENT OF	\$1,195,353	4.83%	This grant program distributes funds to qualified applicants pursuant to Title IV, Part B, of the Elementary and Secondary Education Act (ESEA). Specifically the program provides opportunities for academic and enrichment programming, including tutorial services to help students (particularly students in high-poverty areas and those who attend low-performing schools) meet state and local student performance standards in core academic subjects such as reading and mathematics. It offers students a broad array of additional services and programs, such as youth development activities, drug and violence prevention programs, counseling programs, art, music, and recreation programs, STEM (Science, Technology, Engineering and Math) programs, and character education programs, that are designed to align with the school day. These out-of-school time programs most frequently occur before and after school and during the summer. The program also provides parent education and support for families of the children attending the 21st CCLC program.	None
84.318							
DAA	84.318	Education Technology State Grants	OFFICE OF ELEMENTARY AND SECONDARY EDUCATION, DEPARTMENT OF EDUCATION	\$23	8.70%	The TLCF Grant was designed to provide professional development for teachers in the use of technology, create software, provide computers for all teachers and students, and connect every school and classroom to the information superhighway.	None

DAA	84.360	School Dropout Prevention Program	OFFICE OF ELEMENTARY AND SECONDARY EDUCATION, DEPARTMENT OF EDUCATION	\$556,139	7.63%	This grant represents a five-year, 14.1 million grant through the U.S. Department of Education's High School Graduation Initiative Program. This grant involves partnering with 55 Colorado high schools to increase graduation rates. There are two level of activities. Level 1 involves providing resources to 33 schools to implement dropout prevention and recovery projects that are research based and provide support, enrichment and motivation to students at risk of dropping out or that seek to reenter and complete school. Examples of services include: credit recovery programs, truancy interventions, review of school policies to determine if they are promoting a positive school climate and aligned with effective practices. Level 2 involves providing professional development and training opportunities for staff to build capacity in implementing best practices to decrease dropout rates. Examples include: training on early warning systems to identify students off-track to graduate and review of best practices in credit recovery.	None
84.365							
DAA	84.365	English Language Acquisition Grants	OFFICE OF ENGLISH LANGUAGE ACQUISITION; DEPARTMENT OF EDUCATION	\$521,927	7.31%	Title IIIA-Provides funds to assist limited English proficient children attain English proficiency and meet State academic standards. Title III Set-aside funds for Immigrants are awarded to school districts that have experienced a significant increase (as compared to the average of the 2 preceding fiscal years) in the number of immigrant children who have enrolled during the preceding fiscal year in which the sub-grant was made.	None
84.366

College Assist (State) must ensure that the Federal Reserve Fund maintains a 25 bps reserve fund balance on an annual basis at 9/30 of each year. The reserve is intended to establish an allowance to pay for future defaulted loan claims. College Assist must return default aversion fees on a loan that re-defaults within a certain time frame in the form of default aversion rebates. College Assist (College Assist) is responsible for loan servicing liabilities prior to November 1, 2005. College Assist is responsible for the five percent default risk on defaulted loan claims paid. Reinsurance must be requested within a specified time period without risk of loss of reinsurance.
GDA	84.032	Federal Family Education Loans	OFFICE OF STUDENT FINANCIAL ASSISTANCE PROGRAMS, DEPARTMENT OF EDUCATION	\$69,884,159	91.18%	The federal monies were used for general administrative and operating expenses to manage the existing loan guarantee portfolio under the Federal Family Education Loan Program. The federal monies were also used to fund the following programs: 1) College in Colorado (CIC) which provides student outreach related activities, and 2) Administration and operating activities of the College Opportunity Fund (COF).	College Assist (State) must ensure that the Federal Reserve Fund maintains a 25 bps reserve fund balance on an annual basis at 9/30 of each year. The reserve is intended to establish an allowance to pay for future defaulted loan claims. College Assist must return default aversion fees on a loan that re-defaults within a certain time frame in the form of default aversion rebates. College Assist (College Assist) is responsible for loan servicing liabilities prior to November 1, 2005. College Assist is responsible for the five percent default risk on defaulted loan claims paid. Reinsurance must be requested within a specified time period without risk of loss of reinsurance.

DEPARTMENT OF HUMAN SERVICES							
10.551							
IHA	10.551	Supplemental Nutrition Assistance Program	FOOD AND CONSUMER SERVICE, DEPARTMENT OF AGRICULTURE	\$831,287,125	0.00%	The Food Assistance program (known on the national level as the Supplemental Nutrition Assistance Program or "SNAP") exists to provide monthly food benefits to qualifying applicant households. Individuals must apply for benefits, be interviewed, and must meet certain tests, including federally established income and resource tests to be determined eligible for monthly benefits. Although a maximum monthly benefit amount is set by household size and determined annually by USDA, Food and Nutrition Services, the final allotment for a household is calculated by formula and based on information gathered from the interview as well as supporting verification. Federal funds support the full cost of food assistance benefits provided to recipients who are approved. Recipients redeem benefits at locally approved retailers through use of an electronic benefits transaction (EBT) card.	There are no matching obligations for this grant.
10.555							
IHA	10.555	National School Lunch Program (NLSP)	FOOD AND CONSUMER SERVICE, DEPARTMENT OF AGRICULTURE	\$10,498,499	0.00%	This pass-through grant funding is meant to account for the commodities received through the National School Lunch Program (NSLP). 10.561							
IHA	10.561	State Administrative Matching Grants for the Special Nutrition Assistance Program	FOOD AND CONSUMER SERVICE, DEPARTMENT OF AGRICULTURE	\$15,949,666	79.95%	The Food Assistance Program (known at the federal level as the Supplemental Nutrition Assistance Program) is a mandatory federal entitlement program that provides monthly food benefits and is considered the nation's safety net in the prevention of hunger. Colorado served 225,249 qualifying households statewide as of August 2012, and 499,273 individuals. Local offices in 64 counties administer the program and determine new and on-going eligibility for individuals who submit paper or on-line applications. Approved applicants redeem benefits at approved retailers through use of an electronic benefits card. In addition to the determination of eligibility for benefits, the program also manages the processes for claim determination, overpayment collection and fraud investigation. The State office is responsible for the oversight of all program operations, including the development of rules and procedures, conducting management evaluations of local office operations, and creating monitoring and reporting processes to ensure program compliance with federal and state rules. Employment First is Colorado's implementation of the federally mandated SNAP Employment and Training Program, a program designed to support increased employability through the provision of education and training by means of case management, job search assistance, and work experience in public and non-profit worksites through workfare for individuals who receive food assistance benefits and are determined able to work. This program is operated at the local level in 27 of the 64 counties and can be administered either through the local departments of health or human services or by a non-profit service provider. In May 2012 the caseload served 14,233 individuals. The goal of the SNAP Nutrition Education program is to improve the likelihood that SNAP participants will make healthy food choices within a limited budget and choose active lifestyles consistent with the current USDA Dietary Guidelines for Americans. Research and evidenced based SNAP-Ed curricula in Colorado are provided through two Colorado universities and two non-profit organizations. The total projected number of individuals to be served in this program from October 2011-September 2012 is 10,762.	Parts of this grant require a 50% match and some require no match.

64.010							
IHA	64.010	Veterans Nursing Home Care	VETERANS HEALTH ADMINISTRATION, DEPARTMENT OF VETERANS AFFAIRS	\$1,388,529	0.00%	This is used to report federal funding grants or per diem for veterans with service connected disabilities. The U.S. Department of Veterans Affairs (VA) per diem payments are paid only for eligible veterans who receive care in a qualifying VA facility. Rates are determined by the VA and vary depending on the location of the facility. Per diem for service connected veterans is higher than the basic per diem for veterans who do not qualify for the service connected rate. Per diem payments are used to provide 24-hour custodial care for the veteran residents in the homes. This care includes room and board, medical care, medical supplies, medical equipment, physical therapy, occupational therapy, speech therapy, social services, activities, etc.	In order to receive the federal funding, the State Veterans Nursing Homes must meet VA requirements, which include maintaining a 75% daily veteran census. The veteran receiving the per diem must meet the eligibility criteria established by the VA. If the state fails to achieve the 75% daily veteran census, then the state would be obligated to refund the per diem payments back to the VA.
64.014							
IHA	64.014	Veterans State Domiciliary Care	VETERANS HEALTH ADMINISTRATION, DEPARTMENT OF VETERANS AFFAIRS	\$314,566	0.00%	This is used to report federal funding grants or per diem for veterans residing at the Colorado State Veterans Center at Homelake domiciliary facility. Rates are determined by the VA and vary depending on the location of the facility. Per diem at the domiciliary is considerably less than other per diem payments made for residents in nursing home care. Per diem payments are used to provide care for the veteran residents at the home. This care includes room and board and medical care.	In order to receive the federal funding, the Colorado State Veterans Center at Homelake must meet VA requirements, which include maintaining a 75% daily veteran census. The veteran receiving the per diem must meet the eligibility criteria established by the VA. If the state fails to achieve the 75% daily veteran census, then the state would be obligated to refund the per diem payments back to the VA.
64.015							
IHA	64.015	Veterans State Nursing Home Care	VETERANS HEALTH ADMINISTRATION, DEPARTMENT OF VETERANS AFFAIRS	\$20,088,791	0.00%	This is used to report federal funding grants for residents who qualify for Medicare Part A and/or Medicare Part B services. Medicare Part A covers certain services needed daily in a skilled nursing facility for up to 100 days. These funds cover the costs of certain services, which include meals, physical therapy, occupational therapy, speech therapy, social services, medications, medical supplies, and medical equipment. Medicare Part B covers certain medically necessary services not covered by Medicare Part A, which includes doctor's services, laboratory tests, and preventative services.	In order to receive the Medicare A and Medicare B federal funding, the residents of the State Veterans Nursing Homes must meet eligibility criteria established by the Centers for Medicare and Medicaid Services. The nursing homes are audited on a regular basis by federal auditors. If it is found that payments were received in error, then the state is obligated to refund funds back to the federal government.

84.126							
IHA	84.126	Rehabilitation Services_Vocational Rehabilitation Grants to States	OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES, DEPARTMENT OF	\$36,544,137	9.54%	Provides grants to states to support services designed to help individuals with disabilities prepare for and engage in gainful employment consistent with their strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice. Eligible individuals are those who have a physical or mental impairment that results in a substantial impediment to employment, who can benefit from vocational rehabilitation (VR) services for employment, and who require VR services.	The state-matching requirement is 21.3 percent.
84.169							
IHA	84.169	Independent Living_State Grants	OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES, DEPARTMENT OF	\$79,769	0.00%	This program offers formula grants to states for one or more of the following purposes: to provide resources to statewide independent living councils (SILCs); and to provide independent living (IL) services to individuals with significant disabilities.	10% state match and/or in-kind resources requirements of federal funds drawdown.
84.177							
IHA	84.177	Rehabilitation Services_Independent Living Services for Older Individuals Who are Blind	OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES, DEPARTMENT OF	-\$11,686	0.00%	Grants are made to states to support services for individuals age 55 or older whose severe visual impairment makes competitive employment difficult to obtain but for whom independent living goals are feasible.	10% state match and/or in-kind resources requirements of federal funds drawdown.
84.181							
IHA	84.181	Special Education-Grants for Infants and Families	OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES, DEPARTMENT OF	\$4,487,144	15.44%	The \$7 million annual grant provides early intervention services for infants and toddlers, birth through two years, who have developmental delays or disabilities and increases the capacity of families to support their children's well-being. The services and supports provided include enhancements to child development in the areas of cognition, speech, communication, physical development, motor development, vision, hearing, social and emotional development, self-help skills, parent-child interaction, and early identification, screening and assessment services. Services are provided through contracts with twenty Community Centered Boards in cooperation with the Colorado Department of Education and in accordance with the requirements of the Individuals with Disabilities Act (IDEA) and include direct services provided in home or community settings and service coordination. Approximately 11,000 infants and toddlers and their families are referred, determined eligible and receive services annually.	This grant has no matching requirements. However the State funds expended must be the equal to the State funds expended in the previous year.

93.090							
IHA	93.090	Guardianship Assistance	ADMINISTRATION FOR CHILDREN AND FAMILIES, DEPARTMENT OF HEALTH AND HUMAN SERVICES	\$21,220	96.01%	Title IV-E of the Social Security Act provides federal reimbursement to states that provide guardianship assistance payments for the care of children by relatives who have assumed legal guardianship of eligible children for whom they previously cared for as foster parents. Federal assistance is available to support the care of children who meet the eligibility requirements and their siblings under certain situations as specified in the statute. All relatives assuming guardianship of such children are eligible for the nonrecurring expenses associated with obtaining legal guardianship up to \$2,000. The reimbursement rate is equal to the State's Federal Medical Assistance Percentage (FMAP) rate (currently 50%) for the total amount expended for kinship guardianship assistance payments. The federal match rates for related administrative and training costs are 50% and 75%, respectively. In SFY 2012, Relative Guardianship Assistance payments were made on behalf of 11 children.	This open-ended entitlement program provides a federal match for all eligible state expenditures. State General Fund and local cash funds provide the non-federal share and balance of funding.
93.092							
IHA	93.092	Personal Responsibility Education Program	ADMINISTRATION FOR CHILDREN AND FAMILIES, DEPARTMENT OF HEALTH AND HUMAN SERVICES	\$325,749	37.67%	Supported by the Partnership Fund, these pilot projects will explore and plan improved interoperability and integration in eligibility and enrollment, case management, and other related functions across health and human services information technology systems. Grantees can explore systems design and implementation options, determine the costs and benefits of different options, the potential client outcomes and impacts of each option, and develop concrete implementation plans and options for the grantee to consider, as well as produce a road map noting what could or should be considered by other States. In addition, each grant will demonstrate how enhanced interoperability and integrations can improve service delivery, increase program efficiency, and/or reduce errors and enhance program integrity.	There are no matching requirements for this grant
93.104							
IHA	93.104	Comprehensive Community Mental Health Services for Children with Serious Emotional Disturbances (SED)	SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION, DEPARTMENT OF HEALTH	\$57,309	82.53%	The System of Care grant develops a comprehensive strategic plan for improving and expanding services provided by systems of care (SOC) for children and youth with serious emotional disturbances and their families. The \$800,000 million grant is a single award for one year.	There are no matching obligations for this grant.

93.550							
IHA	93.550	Transitional Living for Homeless Youth	ADMINISTRATION FOR CHILDREN AND FAMILIES, DEPARTMENT OF HEALTH AND HUMAN SERVICES	\$46,520	26.91%	Provides community-based services in Alamosa, Huerfano, Garfield, Moffat, and Montrose Counties and Urban Peak-Denver for up to 50 of Colorado's rural runaway and homeless youth ages 16-21 annually to prevent youth from being served in the more expensive public systems of care (e.g. child welfare, juvenile justice, mental health, etc.). In 2011, funds were given to six local implementation sites and two community organizations who provide project and grant management services. Remaining funds were used for travel, youth development materials, and supplies, with less than 5% of grant funds being used for CDHS indirect costs.	The 10% cash matching requirement is met by the local implementation sites and community partners.
93.556							
IHA	93.556	Promoting Safe and Stable Families	ADMINISTRATION FOR CHILDREN AND FAMILIES, DEPARTMENT OF HEALTH AND HUMAN SERVICES	\$350,992	52.60%	1. PSSF goals are to prevent the unnecessary separation of children from their families, improve the quality of care and services to children and families, and ensure permanency for children. 2. Funds are used to improve the quality of monthly caseworker visits with children who are in foster care under the responsibility of the State, with an emphasis on improving caseworker decision making on the safety, permanency, and well-being of foster children and on activities designed to increase retention, recruitment, and training of caseworkers.	1. This grant has a 25% cash or in-kind matching obligation. Of that 25%, approximately 5% is paid from state general funds to match the funds that pay for administrative costs of the grant, and the remaining 20% are paid by county and private sub grantees. 2. This grant has a 25% cash or in-kind matching obligation which is met by county sub-grantees. If states do not meet the federally mandated threshold, the federal participation in IV-B, subpart 1, decreases, requiring a larger contribution from the state to earn IV-B, subpart 1 funding.

IHA	93.652	Adoption Opportunities	ADMINISTRATION FOR CHILDREN AND FAMILIES, DEPARTMENT OF HEALTH AND HUMAN SERVICES	\$204,689	1.31%	PIECES (Partnerships in Early Childhood Education and Services) is a 17-month infrastructure development grant to improve outcomes for kids ages 0-5 in early childhood systems with child welfare involvement. The grant is a collaboration between the Divisions of Child Welfare, Child Care, and Behavioral Health; the Department of Public Health and Environment; Early Childhood Councils; the University of Denver; and El Paso, Fremont, and Jefferson Counties. Funds are given to the three counties as sub-grantees, and to the evaluator. This grant is just beginning and does not yet have client-served data.	There is no matching requirement.
93.658							
IHA	93.658	Foster Care_Title IV-E	ADMINISTRATION FOR CHILDREN AND FAMILIES, DEPARTMENT OF HEALTH AND HUMAN SERVICES	\$7,905,848	73.89%	The Title IV-E Foster Care program reimburses states for the foster care maintenance expenditures on behalf of children under their jurisdiction that are determined eligible, and placed with a fully certified foster care provider. The program also provides for administrative costs to manage the program; and training for public agency staff, foster parents and certain private agency staff. For foster care, the reimbursement rate is the State's Federal Medical Assistance Percentage (FMAP), 50%.The federal match rates for related administrative and training costs are 50%, with some training costs eligible for an enhanced 75% reimbursement. In SFY 2012, Colorado claimed Title IV-E Foster Care foster care maintenance on behalf of an average of 1,659 children per quarter.	This open-ended entitlement program provides a federal match for all eligible state expenditures. State General Fund and local cash funds provide the non-federal share and balance of funding.
93.659							
IHA	93.659	Adoption Assistance	ADMINISTRATION FOR CHILDREN AND FAMILIES, DEPARTMENT OF HEALTH AND HUMAN SERVICES	\$2,219,230	16.85%	The Title IV-E Adoption Assistance program reimburses states for the adoption subsidy expenditures and costs for the adoption of children with special needs and who meet certain eligibility criteria. The program also provides for administrative costs to manage the program; and training for public agency staff, foster parents and certain private agency staff. Reimbursement is provided for the nonrecurring cost of adoption. For adoption, the reimbursement rate is equal to the State's Federal Medical Assistance Percentage (FMAP), at 50%. The federal match rates for related administrative and training costs are 50% with some training costs eligible for an enhanced 75% reimbursement. In SFY 2012, Colorado funded an average of 7,150 Title IV-E Adoption Assistance subsidies each quarter.	This open-ended entitlement program provides a federal match for all eligible state expenditures. State General Fund and local cash funds provide the non-federal share and balance of funding.

93.959							
IHA	93.959	Block Grants for Prevention and Treatment of Substance Abuse	SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION, DEPARTMENT OF HEALTH	\$7,842,104	12.27%	The SAPT Block Grant provides an annual distribution of funds for the purpose of planning, implementing and evaluating activities to prevent and treat substance abuse and other related activities. The Federal support is provided for addiction prevention and treatment services and it empowers the State to design solutions to specific addiction problems that are experienced locally. Funds are typically sub-awarded to public and non-profit service providers for the provision of SAPT services. The services include direct services to patients experiencing primary problems for alcohol and patients experiencing primary problems with illicit and licit drugs. The services encompass outreach, detoxification, methadone maintenance, outpatient counseling, residential rehabilitation, abuse monitoring, vocational counseling, case management, hospital based outpatient care and program administration. The grant also funds education, counseling, and other activities designed to reduce the risk of substance abuse. The approximately \$26 million grant is awarded annually.	There are no matching obligations for this grant. The "Maintenance of Effort" requirements are listed: The State must for each fiscal year maintain aggregate State expenditures for authorized activities by the principal agency at a level that is not less than the average level of such expenditures maintained by the State for two State preceding fiscal years and the State must maintain expenditures at not less than the calculated fiscal year 1994 base amount for substance abuse treatment services for pregnant women and women with dependent children.
96.001							
IHA	96.001	Social Security: Disability Insurance	SOCIAL SECURITY ADMINISTRATION	\$20,279,454	26.99%	Social Security pays State Vocational Rehabilitation (VR) agencies for the cost of the service they provide to people receiving Social Security Disability Insurance (SSDI) benefits or Supplemental Security Income (SSI) payments based on disability or blindness if certain conditions are met. The services provided by a State VR agency are identified in the Rehabilitation Act of 1973, as amended, and are spelled out in an agreement between the individual with a disability and the VR counselor in an individualized plan for employment. The services must result in the individual's return to work for at least nine continuous months at a substantial earnings level, which is referred to as substantial gainful activity.	There are no matching obligations for this grant. The "Maintenance of Effort" requirements are listed: The State must for each fiscal year maintain aggregate State expenditures for authorized activities by the principal agency at a level that is not less than the average level of such expenditures maintained by the State for two State preceding fiscal years and the State must maintain expenditures at not less than the calculated fiscal year 1994 base amount for substance abuse treatment services for pregnant women and women with dependent children.

NAA	14.228	Community Development Block Grants/State's Program and Non-Entitlement Grants in Hawaii	COMMUNITY PLANNING AND DEVELOPMENT, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT	\$1,181,157	100.00%	CDBG funds affordable housing projects, Program allows the State's Economic Development projects creating jobs and Public Facility type projects (water, sewer, child care, health clinics, etc.) primarily benefitting low to moderate income persons in the more rural areas of the state. Funds are split equally at the beginning of the program year by project type and may be adjusted if demand for a particular type is necessary. CDBG funding is provided to Colorado in two ways: 1. Through a direct allocation to seven (7) entitlement counties: Adams, Jefferson, Broomfield, Denver, Douglas, El Paso and Arapahoe; and thirteen (13) entitlement cities: Arvada, Aurora, Boulder, Centennial, Colorado Springs, Fort Collins, Grand Junction, Greeley, Lakewood, Longmont, Loveland, Pueblo and Westminster. 2. Through a direct allocation to the State to be used in the fifty-seven (57) non-entitlement counties. The State uses CDBG funds in the non-entitlement counties to carry out economic development; production and preservation of affordable housing; and community development and revitalization.	administrative costs at \$100K plus 3% of total grant. The state is required to provide a match on the 3%.portion.
14.231							
NAA	14.231	Emergency Shelter Grants Program	COMMUNITY PLANNING AND DEVELOPMENT, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT	\$115,659	100.00%	The purpose of the ESG program is to assist DOLA's sub grantees provides individuals and families quickly regain stability in a 5% match of the contracted permanent housing after experiencing a housing amount. crisis or homelessness.

14.704							
NAA	14.704	Community Challenge Planning Grants and the Department of Transportation's TIGER II Planning Grants	HOUSING, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT	\$192,991	100.00%	Grants to a few local communities for improvement of their downtown/main street. * Funds in Five Points have been used to study redevelopment opportunities and develop a redevelopment master plan for the neighborhood. Residents and businesses have been consulted. A blight study was developed and presented to the community. The district is looking at how to integrate transit and infrastructure planning necessary to make redevelopment happen in a way that benefits the community. * The Town of Fowler (east of Pueblo) used funding to develop construction-ready design for a historic theatre in its downtown. This project is completed. * The City of Monte Vista is using funds to create a conceptual design for mixed uses in a historic building on Main Street. * The City of Rifle is looking at how to position its downtown to encourage redevelopment and revitalization, more walking and biking, more transit/bus options, and an appropriate mix of housing and commercial uses. They are also looking at how to connect the downtown to transit options, trails, and the river. In all these communities, funds were used to hire consultants to develop the designs, studies and plans.	DOLA and each of the four communities are required to a match totaling \$449,532 on this grant.
14.856							
NAA	14.856	Lower Income Housing Assistance Program: Section 8 Moderate Rehabilitation	PUBLIC AND INDIAN HOUSING, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT	\$108,650	84.94%	Provides project-based rental assistance for low income families. Low-income families (i.e. families with incomes below 50% of the average median income) and low-income families (i.e. families with incomes below 80% of average median income).	No match requirement.
14.871

PDA	97.045	Cooperating Technical Partners	DEPARTMENT OF HOMELAND SECURITY	\$256,142	0.00%	The Flood Map Modernization/ Risk Map program is designed to update, modernize, and maintain flood maps and modernize the Nation's flood hazard data inventory. The Map Modernization program transitioned into Risk Map, which will continue to provide updated Digital Flood Insurance Rate Maps (DFIRMs). In addition, Risk Map will include assessing the nation's flood risk, increasing public awareness of risk, and ensuring at least 80 percent of the nation's flood hazards are current – especially areas with levees. Currently, Colorado has 7 counties with levees that are in the process of updating their flood maps through the Map Modernization/Risk Map program. The Federal Emergency Management Agency (FEMA) and the CWCB have partnered to provide funding for the Clear Creek Watershed Risk Map project. This project is about 40% complete at this point. The hydrologic analysis is currently underway.	100% federal no state match

93.767							
UHA	93.767	Children's Health Insurance Program	CENTERS FOR MEDICARE AND MEDICAID SERVICES, DEPARTMENT OF HEALTH AND HUMAN SERVICES	\$450,456	100.00%	These funds are provided under the Children's Health Insurance Program and Reauthorization Act. The Department is using this funding to aid School Based Health Centers in addressing the health care needs of school-aged children and to transition to a Prospective Payment System for benefits provided by Federally Qualified Health Centers and Rural Health Clinics to CHP enrollees.	This is 100% federally funded and there is no state share obligation.
UHA	93.767	Children's Health Insurance Program	CENTERS FOR MEDICARE AND MEDICAID SERVICES, DEPARTMENT OF HEALTH AND HUMAN SERVICES	\$134,045,074	0.89%	The state receives funding to provide services under the Children's Basic Health Plan (CHP). CHP provides basic health insurance coverage to uninsured children of families whose incomes meet federal requirements.	The state must contribute 35% of total expenditures.
93.768							
UHA	93.768	Medicaid Infrastructure Grants To Support the Competitive Employment of People with Disabilities	CENTERS FOR MEDICARE AND MEDICAID SERVICES, DEPARTMENT OF HEALTH AND HUMAN SERVICES	\$299,672	100.00%	The Medicaid Infrastructure Grant supports efforts to enhance employment options for people with disabilities by building Medicaid infrastructure. These Departments efforts were focused on implementing the Medicaid Buy-in for adults with disabilities.	This is 100% federally funded and there is no state share obligation.
93.777							
UHA	93.777	State Survey and Certification of Health Care Providers and Suppliers	CENTERS FOR MEDICARE AND MEDICAID SERVICES, DEPARTMENT OF HEALTH AND HUMAN SERVICES	\$2,509,821	100.00%	This grant funds the survey and certification of nursing facilities, hospices, home health agencies and Home and Community-Based Services by paying the Medicaid share. The surveys are conducted by the Department of Public Health and Environment.	The state must contribute 50% of the total expenditures for most allowable costs. The state must contribute 25% of total expenditures for work performed by skilled nursing professionals. Indirect costs are allowed to be recovered at 100% and have no state obligation.
93.778							
UHA	93.778	Medical Assistance Program	CENTERS FOR MEDICARE AND MEDICAID SERVICES, DEPARTMENT OF HEALTH AND HUMAN SERVICES	\$97,865,394	100.00%	The Medicaid administrative grant pays for administrative costs incurred in providing for payment of medical assistance for individuals that meet income and resource requirements.	The state must contribute 50% of total expenditures.
UHA	93.778	Medical Assistance Program	CENTERS FOR MEDICARE AND MEDICAID SERVICES, DEPARTMENT OF HEALTH AND HUMAN SERVICES	\$49,617,039	100.00%	These are funds received for improving health information technology used in providing services to patients. A key goal of the program is to promote the use of Electronic Health Records instead of paper medical records to maintain client health information.	The state must contribute 10% of the total expenditures.
UHA	93.778	Medical Assistance Program	CENTERS FOR MEDICARE AND MEDICAID SERVICES, DEPARTMENT OF HEALTH AND HUMAN SERVICES	\$2,441,450,370	0.00%	The Medicaid grant provides for payment of medical assistance for individuals that meet income and resource requirements.	The state must contribute 50% of total expenditures.

FOOTNOTES - REPORT OF FEDERAL ASSISTANCE AS REPORTED BY COLORADO STATE AGENCIES FOR THE FISCAL YEAR ENDING JUNE 30, 2013

Note 1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the State of Colorado agencies and institutions of higher education. The information in this schedule is presented in accordance with the requirements of the Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Under A-133, an award is considered expended when certain events related to the award occur. These include:

- Expenditure/expense transactions associated with grants, cost reimbursement contracts, cooperative agreements, and direct appropriations. The State of Colorado recognizes expenditures/expenses on the modified accrual or full accrual basis depending on the fund used. See note 5 of the Basic Financial Statements for additional information.
- Disbursement of amounts entitling the state to an interest subsidy
- Use of loan proceeds under loan and loan guarantee programs
- Distribution or consumption of food commodities
- Receipt of property or surplus property
- Disbursement of funds to subrecipients **(not included for this report)**
- The period when insurance is in force
- Receipt or use of program income

As a result of these criteria, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements.

Note 2. Report Organization - Federal Assistance as Reported by Colorado State Agencies

The Report is organized first by grant-level data and then by agency-level data. The grant-level data further grouped into cash assistance and noncash assistance. Within these subgroups, the information is sorted by agency indicator. In accordance with House Bill 12-1009, the report includes the following new elements: Purpose, Percent Expended for Administration, Obligations Imposed. Additionally, the following agency-level information is required: Percentage of Federal Funds in Relation to Total Funds, Operating Plan with a Five Percent Reduction in Federal Funds, and Operating Plan with a Twenty-Five Percent Reduction in Federal Funds. The additional elements in HB12-1009 are not required of the Judicial Department or Institutions of Higher Education, however, we have chosen to report the Percent Expended for Administration calculated as the indirect cost divided by total expense for these agencies. It is not comparable to the administrative percentages of the other agencies and departments of the State.

Note 3. Other Assistance

Most noncash assistance is reported on the final page of the Federal Assistance Reported by State Agencies. The following provides additional information about amounts shown in the report that federal agencies consider to be assistance.

- A. The State Department of Labor and Employment expended \$1,089,647,879 for grant 17.225 - Unemployment Insurance for Federal Employee Compensation Act (FECA) Reimbursable, Federal Extended Benefits, Temporary Extended Unemployment Compensation (TEUC) Benefit Payments and Emergency Unemployment Compensation 2008 (EUC08) Benefit Payments. The total expenditure amount includes the federal portion of the grants and the required state match in the amounts of \$517,533,905 and \$572,113,974, respectively. Included in the federal portion are American Recovery and Reinvestment Act (ARRA) funds in the amount of \$330,737,989.
- B. The State Department of Higher Education expended \$429,318,289 for grant 84.032 - Federal Family Education Loans. Of this amount, \$406,108,897 has been or will be received from the federal government related to incentive fees and reinsurance costs of student loan defaults paid to lenders. The remaining amount is made up of new loan issuances of \$23,209,392 which was guaranteed by other entities. The outstanding balance of the Federal Family Education Loan program since its inception was \$9,746,280,799 as of June 30, 2013.

C. The State Department of Human Services expended \$831,287,125 for grant 10.551 Supplemental Nutrition Assistance Program (SNAP). The reported expenditures for benefits under the Supplemental Nutrition Assistance Program (SNAP) (CFDA No. 10.551) are supported by both regularly appropriated funds and incremental funding made available under section 101 of the American Recovery and Reinvestment Act of 2009. The portion of total expenditures for SNAP benefits that is supported by Recovery Act funds varies according to fluctuations in the cost of the Thrifty Food Plan, and to changes in participating households' income, deductions, and assets. This condition prevents USDA from obtaining the regular and Recovery Act components of SNAP benefits expenditures through normal program reporting processes. As an alternative, USDA has computed a weighted average percentage to be applied to the national aggregate SNAP benefits provided to households in order to allocate an appropriate portion thereof to Recovery Act funds. This methodology generates valid results at the national aggregate level but not at the individual State level. Therefore, we cannot validly disaggregate the regular and Recovery Act components of our reported expenditures for SNAP benefits. At the national aggregate level, however, Recovery Act funds account for 10.95 percent of USDA's total expenditures for SNAP benefits in the Federal fiscal year ended September 30, 2012.

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

AXX - Department of Personnel & Administration

Percentage of federal funds in relation to total funds: 0.71%

Operating Plan with a Five Percent Reduction in Federal Funds

No impact to State Archives

No impact to DCS Capitol Complex

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

No impact to State Archives

No impact to DCS Capitol Complex

BAA - Department of Agriculture

Percentage of federal funds in relation to total funds: 12.88%

Operating Plan with a Five Percent Reduction in Federal Funds

Although the Department is anticipating a near 5% reduction in federal funding, the impacts of such reductions would not significantly affect department operations since federal funds only account for approximately 10% of the department budget. These reductions would be absorbed and affected programs would adjust operations accordingly. No losses of FTE or major programmatic impacts are expected.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

As stated previously, federal funding only accounts for approximately 10% of the overall budget; therefore a reduction of 25% or more would result in minor impacts to the department. These impacts would include loss of grant funding for local conservation districts, weed free programs, federally mandated certification programs, and possibly a very low number of FTE (1.0-3.0).

CXX - Department of Corrections (DOC)

Percentage of federal funds in relation to total funds: 0.68%

The majority of DOC's federal assistance monies are used to fund specific projects that enhance the opportunities provided to inmates through therapeutic and vocational programs while they are either incarcerated or in a community corrections setting. The Department relies on State funds for its day to day operations. DOC has no ARRA funds remaining.

Operating Plan with a Five Percent Reduction in Federal Funds

The impact that a five percent reduction in the amount of federal monies received would have to be determined on a case by case basis. As all these monies are used to fund programs that benefit inmates, the Department of Corrections would be put in a position where it would have to prioritize which programs are most critical to its mission statement. The Department would then have to decide whether to cut operational costs, and as a result, opportunities for inmates, or attempt to find funding elsewhere so that the program objectives can still be met. Those programs that were not determined to be critical would inevitably suffer cuts to operational costs and might fall short of their goals.

Youth Offender Tuition – This program has been discontinued by the Federal government and no longer has any funding.

Sex Offender Reentry – This one time grant would have to cut their program's operational costs in order to make up for a reduction in funding.

CISCO Networking Academy – This one time grant was seed money for a vocational program that will be funded by DOC's educational department in years to come. A reduction in federal funding would not affect it.

Prison Rape Elimination Act – This one time grant allows DOC to continue increasing its efforts to remain compliant with the Prison Rape Elimination Act. A five percent reduction might affect the effectiveness of the program. However, a reduction in operational costs and possible DOC general fund financial help may mitigate this loss.

International Training Center – This is a cooperative agreement between DOC's Correctional Industries and the Department of State. The funds received are provided by the countries that participate in the training sessions.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

A twenty five percent reduction in federal funding would significantly impact both the Sex Offender Reentry program and the Prison Rape Elimination Act program. In all likelihood, these two programs would have to be completely discontinued. If services were to continue under this type of reduction, they would be woefully inadequate. There is no feasible option within DOC's budgeting constraints to cover such a large gap in financial resources.

DXX - Department of Education (CDE)

Percentage of federal funds in relation to total funds: 8.21%

Operating Plan with a Five Percent Reduction in Federal Funds

In FY13-14, the Department received a reduction of 5% in federal moneys for FY13-14. As a result the Department's operating plans are as follows:

- Grants and Distributions to school districts and other recipients have been adjusted to reflect the 5% reduction in federal funds.
- The department has reduced costs where necessary to ensure that it will be able to operate for FY13-14. In addition, the Department is reviewing all programs affected and considering reductions in the following order:

- Reduce any temporary employees.
- Repurpose or reassign remaining staff to program, where retirements or resignations have occurred.
- Travel, training, and official functions will be reduced and/or replaced by more cost effective alternatives, such as webinars.
- Review operating costs to determine whether there are possible reductions there.
- Review of contracts to determine if there are reductions to contracts or contracts can be eliminated, while still meeting the minimum requirements of federal awards.
- The Department is also reviewing all staff paid from federal grants in September or October 2013 in an effort to identify vacancies that may not be filled or reductions in staff that may be necessary.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

Please see above. The analysis above will be necessary for reductions of 25% as well.

However, if reductions are as high as 25%, it could significantly impair or compromise the Department's ability to accept or administer those grants from the Federal Government. It is likely that some programs would not have sufficient staff or other resources to continue meeting the federal requirements within the grants affected.

EXX - Offices of the Governor

Percentage of federal funds in relation to total funds: 18.63%

Operating Plan with a Five Percent Reduction in Federal Funds

Governor's Office: The Governor's Office would reduce the amount to contracted vendors by 5%.

Governor's Commission on Community Service: Our program can withstand a 5% budget cut but it would force the program to put one staff member on half-time.

Office of Economic Development and International Trade: All federal money received by the agency is grant money. Each grant has a particular program and agreed upon budget between OEDIT and the federal agency. In the event of a federal grant reduction OEDIT would recompute the program services and budget. The recomputed budget would be approved by the federal agency. Once approved OEDIT would work with vendors to adjust contracts and purchase orders. OEDIT would also work with partner agencies at the local level to adjust program services.

Colorado Energy Office: The Colorado Energy Office (CEO) has been preparing for the reduction in temporary ARRA funds over a period of several years by reducing overall headcount, implementing end dates for all grant-funded positions, and finding programmatic efficiencies. With ARRA-funded programs closed out or winding down, federal funds will constitute a significantly smaller percentage of the total CEO budget than in years past. As federal funds are generally allocated to specific programs, a five percent reduction in the total amount of federal funds would require a corresponding reduction in those programs, but would not cripple the overall operations of the office.

Office of Information Technology: If there is a reduction of between 5 and 25% in the federal funds allocated to the Broadband grant, we would look at the expenditures that we could cut out of the remaining years of the grant. It is possible that we could cut some of the personnel and equipment expenses, either by not hiring a position or releasing a position before the grant period is complete. In the latter case, this would have a significant impact in our ability to deliver on the grant.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

Governor's Office: The Governor's Office would reduce contracts with current vendors by 25% or more. Direct payroll and operating costs are minimal for federal grants. Those costs would be absorbed by private grants or general fund dollars.

Governor's Commission on Community Service: A 25% budget cut would reduce the program's budget by about \$86,000. Personnel costs are 78% of the budget, so the program would be forced to cut the equivalent of 1.2 average salaries.

Office of Economic Development and International Trade: All federal money received by the agency is grant money. Each grant has a particular program and agreed upon budget between OEDIT and the federal agency. In the event of a federal grant reduction OEDIT would recompute the program services and budget. The recomputed budget would be approved by the federal agency. Once approved OEDIT would work with vendors to adjust contracts and purchase orders. OEDIT would also work with partner agencies at the local level to adjust program services.

Colorado Energy Office (CEO): All federal money received by the agency is grant money. Each grant has a particular program and agreed upon budget between CEO and the federal agency. In the event of a federal grant reduction CEO would reevaluate the program services and budget. The recomputed budget would be approved by the federal agency. Once approved CEO would work with vendors to adjust contracts and purchase orders. CEO would also work with partner agencies at the local level to adjust program services.

Office of Information Technology: If the amount of federal funds is reduced by 25% or more, this would have a critical impact on our ability to deliver the products and activities as required by the grant award. This would be an amount of approximately \$1 million, and the grant has spent approximately \$2 million. It would require us to cut personnel and equipment both in planned hires and work to the extent of not having necessary staff for the final year(s) of the grant.

FXX - Department of Public Health and Environment (CDPHE)

Percentage of federal funds in relation to total funds: 58.28%

Operating Plan with a Five Percent Reduction in Federal Funds

The CDPHE ARRA funds are declining in programmatic areas, but we were prepared for that decline and have already made adjustments for those reductions. The impact of a 5% reduction to federal non ARRA funding is difficult to quantify as the department has over 300 federal grants – some that are categorical and specific to individual programs and others that are block grants and impact many different areas. One example of a potential reduction is the elimination of the Preventive Health Block Grant. The President's budget request has eliminated the PHBG. Last fiscal year, when the same action happened, the department requested a General Fund reduction to some existing programs to fund critical programs traditionally funded by the Preventive Health Block Grant. The department is evaluating options for this fiscal year. If a categorical grant was reduced by 5% the department would evaluate the federal directions regarding that reduction. Reductions could be taken in personnel and administrative costs at the state level, or the reductions could be passed on as programmatic reductions (i.e. services to citizens). This would have a downstream impact; the decrease with federal funds translates to decreased contract funding awards to local communities that receive grants/contracts from the many funding opportunities. Similarly, if funds were reduced across the board to all federal grants, reductions would be evaluated (using federal directions as a guideline) to initiate personnel and programmatic reductions. The department would have to weigh the costs and effects of reducing some programs in order to preserve others.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

The CDPHE ARRA funds are declining in programmatic areas, but we were prepared for that decline and have already made adjustments for those reductions. The impact of a 25% reduction to federal non ARRA funding is difficult to quantify as the department has over 300 federal grants – some that are categorical and specific to individual programs and others that are block grants and impact many different areas. One example of a potential reduction is the elimination of the Preventive Health Block Grant. The President's budget request has eliminated the PHBG. Last fiscal year, when the same action happened, the department requested a General Fund reduction to some existing programs to fund critical

programs traditionally funded by the Preventive Health Block Grant. The department is evaluating options for this fiscal year. If a categorical grant was reduced by 25% the department would evaluate the federal directions regarding that reduction. Reductions could be taken in personnel and administrative costs at the state level, in addition the reductions would be passed on and programmatic reductions (i.e. services to citizens) would result. This would have a downstream impact; the decrease with federal funds translates to decreased contract funding awards to local communities that receive grants/contracts from the many funding opportunities. In almost all cases the Department would not be able to absorb a 25% reduction without impacting services. Similarly, if funds were reduced across the board to all federal grants, reductions would be evaluated (using federal directions as a guideline) to initiate personnel and programmatic reductions. The department would have to weigh the costs and effects of reducing some programs in order to preserve others.

GXX - Department of Higher Education (Excluding Institutions)

Percentage of federal funds in relation to total funds: 27.12%

Operating Plan with a Five Percent Reduction in Federal Funds

Department of Higher Education: For CFDA # 84.367B Improving Teacher Quality grants, the amount of grant funds awarded to IHEs to provide training of teachers would be reduced to the lower funding level. For CFDA #84.378A College Access Challenge grant, the number of scholarships provided to low income student would be reduced. For CFDA #84.334S Gaining Early Awareness and Readiness for Undergraduate Programs, the annual contribution of funds to a scholarship trust fund would be reduced. In time, the number of scholarships provided to low income student would be reduced.

Colorado Historical Society: There is one department in History Colorado dependant on federal funding support. It is the Office of Archeology and Historic Preservation. A cut in federal funding support in the above range can be managed within the operations of the Office of Archaeology and Historic Preservation. To manage such a reduction, the agency would reduce travel, training and consultant expenditures and postponing software and desktop upgrades. The agency provides matching cash funds to support service provided to the public. Additional cash fund support may be allocated to maintain service levels if needed.

Projects funded with federal funds would be reduced in scope if funding support is reduced. Most awarded projects have been secured and the agency is not anticipating any impacts. New projects not funded will not occur and projects receiving reduced federal funding awards will have their scopes modified to meet the awarded funding.

College Assist: A five percent reduction in federal fees paid would result in a \$3.7 million reduction in College Assist's annual revenue. College Assist has had discussions with the primary service provider/vendor, Nelnet Guarantee Services (NGS), to determine a mutually agreeable operating plan should federal moneys be reduced on a scale of < 5-7%. Should this happen, NGS has agreed to renegotiate their contract fees prior to the contract renewal date to help keep College Assist solvent. Additionally, operational costs of both College Assist and College In Colorado, which is funded through College Assist, would be evaluated to help make up any remaining deficit.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

Department of Higher Education: For CFDA # 84.367B Improving Teacher Quality grants, the amount of grant funds awarded to IHEs to provide training of teachers would be reduced to the lower funding level. For CFDA #84.378A College Access Challenge grant, the number of scholarships provided to low income student would be reduced. Efforts to provide outreach to low income high school students about higher education would be retained. For CFDA #84.334S Gaining Early Awareness and Readiness for Undergraduate Programs, the annual contribution of funds to a scholarship trust fund would be reduced. In time, the number of scholarships provided to low income student would be reduced.

Colorado Historical Society: A cut in the above range would be managed with the above noted approaches plus keeping open position unfilled and reducing staff levels if needed. Steps would also be taken to adjust or increase fees for service to increase earn revenue opportunities.

The agency will operate as usual with a reduction in federal funds. As stated, there is one department dependent on federal funding support but can be supported by the agency as a whole. Service levels and responses to customer needs may be impacted and slowed due to reduction in funding support.

College Assist: A twenty-five percent reduction in federal fees paid would result in an \$18.6 million reduction in College Assist's annual revenue. College Assist would be unable to remain in operation with such a significant loss of revenue. In this event, College Assist would work to transfer the student loan portfolio and Federal Fund guarantee to another federal guarantee agency. By doing this, College Assist would prevent further loss to the Operating Fund, with the goal of maintaining the highest Operating Fund level as possible. The College Assist Operating fund would be used to fund the State's college access outreach program, College In Colorado, and a limited number of College Assist staff to manage the funds.

HXX - Colorado Department of Transportation (CDOT)

Percentage of federal funds in relation to total funds: 45.97%

Operating Plan with a Five Percent Reduction in Federal Fund

According to Greg Goldman, In the event of a reduction in federal funds available, the Division will absorb the additional expenses through a board authorization to spend the additional funds. Capital planning is a critical function that needs to be performed on a regular basis, throughout the state to secure financing and prioritize necessary projects with limited funds. During SFY12, the FAA changed the local match from 5% to 10%, essentially doubling the local investment with a 5% change in federal funds. This change directly cost the State Aviation fund roughly \$2 million, with an additional \$2 million contributed by Cities, Counties, and Operating Authorities of Colorado Public airports. When the FAA invests in capital improvements in the State of Colorado, the State and local authorities contribute the match, whether it's 5 or 10% or 25%.

According to Pat Saffo, CDOT's Federal funds are restricted by Federal law to use in projects specifically designated for maintaining the States Highway Infrastructure. CDOT programs these funds through a Resource Allocation Methodology, by which the Transportation Commission sub-allocates total available funding to Regional and Staff Branches Program Managers, who select specific projects from the Statewide Transportation Improvement Program (STIP). These projects are consistent with the corridor visions, goals, and strategies in the Statewide Long Range Plan (LRP). These funds are programmed in Regional Pools by Program and Fiscal Year which are used to fiscally constrain the STIP. In the event of a Federal Reduction in funding, these Pools are proportionally reduced by TC direction and selected STIP projects would be either reduced in total cost/scope or delayed into future years to return the highway construction program back into fiscal constraint by year.

According to Carol Gould, all programs that were selected for funding would be reduced by 5%. Programs operate on a federal funding year and begin 10/1/13. All agencies that were recommended for funding received letters stating awards were contingent on appropriation of funds at the federal level.

According to Eric Ellis, [CDOT] would first seek to determine if there were unobligated funds remaining from prior grants and use any such available funds in response to a reduction. If old funds were not available or did not cover the reduction, would then eliminate funding for the lowest-ranking capital equipment projects awarded funding to make up for the reduction (given that awards of operating funds are considered to be the highest priority to protect). If the above steps did not result in making up for the reduction, all projects selected for operating funding would be reduced by 5%. Programs operate on a calendar funding year and begin 1/1/13. All agencies that were recommended for funding received contracts stating awards were contingent on appropriation of funds at the federal level.

Bridge Enterprise Program: CDOT's Federal funds are restricted by Federal law to use in projects specifically designated for maintaining the States Highway Infrastructure. CDOT programs these funds through a Resource Allocation Methodology, by which the Transportation Commission sub-allocates total available funding to Regional and Staff Branches Program Managers, who select specific projects from the Statewide Transportation Improvement Program (STIP). These projects are consistent with the corridor visions, goals, and strategies in the Statewide Long Range Plan (LRP). These funds are programmed in Regional Pools by Program and Fiscal Year which are used to fiscally constrain the STIP. In the event of a Federal Reduction in funding, these Pools are proportionally reduced by TC direction and selected STIP projects would be either reduced in total cost/scope or delayed into future years to return the highway construction program back into fiscal constraint by year.

High Performance Transportation Enterprise: CDOT's Federal funds are restricted by Federal law to use in projects specifically designated for maintaining the States Highway Infrastructure. CDOT programs these funds through a Resource Allocation Methodology, by which the Transportation Commission sub-allocates total available funding to Regional and Staff Branches Program Managers, who select specific projects from the Statewide Transportation Improvement Program (STIP). These projects are consistent with the corridor visions, goals, and strategies in the Statewide Long Range Plan (LRP). These funds are programmed in Regional Pools by Program and Fiscal Year which are used to fiscally constrain the STIP. In the event of a Federal Reduction in funding, these Pools are proportionally reduced by TC direction and selected STIP projects would be either reduced in total cost/scope or delayed into future years to return the highway construction program back into fiscal constraint by year.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

According to Greg Goldman, what's different about FAA spending is the funds are directed to the airport, and not "passed-through" a State agency. So, when the investment mix changes a demand is made on State and local funds to complete the necessary infrastructure improvements. It is anticipated that the impact on the State Aviation Fund of a 25% reduction in federal funds would be upwards of \$10 million dollars, with an additional \$10 million being contributed by Colorado Local governments.

According to Pat Saffo, CDOT's Federal funds are restricted by Federal law to use in projects specifically designated for maintaining the States Highway Infrastructure. CDOT programs these funds through a Resource Allocation Methodology, by which the Transportation Commission sub-allocates total available funding to Regional and Staff Branches Program Managers, who select specific projects from the Statewide Transportation Improvement Program (STIP). These projects are consistent with the corridor visions, goals, and strategies in the Statewide Long Range Plan (LRP). These funds are programmed in Regional Pools by Program and Fiscal Year which are used to fiscally constrain the STIP. In the event of a Federal Reduction in funding, these Pools are proportionally reduced by TC direction and selected STIP projects would be either reduced in total cost/scope or delayed into future years to return the highway construction program back into fiscal constraint by year.

According to Carol Gould, all programs recommended for funding would be reviewed and those programs that scored lowest in the selection process would be denied funding. Programs operate on a federal funding year and begin 10/1/13. All agencies that were recommended for funding received letters stating awards were contingent on appropriation of funds at the federal level.

According to Eric Ellis, the same process described above would be followed, except that programs that scored lowest in the selection process would receive a proportionate reduction in funding based on their score. Programs operate on a calendar funding year and begin 1/1/13. All agencies that were recommended for funding received contracts stating awards were contingent on appropriation of funds at the federal level.

Bridge Enterprise Program: CDOT's Federal funds are restricted by Federal law to use in projects specifically designated for maintaining the States Highway Infrastructure. CDOT programs these funds through a Resource Allocation Methodology, by which the Transportation Commission sub-allocates total available funding to Regional and Staff Branches Program Managers, who select specific projects from the Statewide Transportation Improvement Program (STIP). These projects are consistent with the corridor visions, goals, and strategies in the Statewide Long Range Plan (LRP). These funds are programmed in Regional Pools by Program and Fiscal Year which are used to fiscally constrain the STIP. In the event of a Federal Reduction in funding, these Pools are proportionally reduced by TC direction and selected STIP projects would be either reduced in total cost/scope or delayed into future years to return the highway construction program back into fiscal constraint by year.

High Performance Transportation Enterprise: CDOT's Federal funds are restricted by Federal law to use in projects specifically designated for maintaining the States Highway Infrastructure. CDOT programs these funds through a Resource Allocation Methodology, by which the Transportation Commission sub-allocates total available funding to Regional and Staff Branches Program Managers, who select specific projects from the Statewide Transportation Improvement Program (STIP). These projects are consistent with the corridor visions, goals, and strategies in the Statewide Long Range Plan (LRP). These funds are programmed in Regional Pools by Program and Fiscal Year which are used to fiscally constrain the STIP. In the event of a Federal Reduction in funding, these Pools are proportionally reduced by TC direction and selected STIP projects would be either reduced in total cost/scope or delayed into future years to return the highway construction program back into fiscal constraint by year.

Percentage of federal funds in relation to total funds: 61.20%

A 5% reduction in the total amount of federal moneys would have an impact on the services/activity provided associated with each specific federal grant. It is important to note that most areas of federal funding received by the Department are a "capped" grant amount, where Colorado receives a specific award level for a federal fiscal year. There is a portion of the federal funding that is received by Colorado that is not "capped" and falls under the open entitlement category. For these open ended entitlements, the state receives a specific level of reimbursement on all eligible costs.

The plan to manage a specific reduction a 5% and 25% reduction in federal funding would vary by the specific grants. In general the Department would need to decrease activity and expenditures in a program area, specifically aligned with the loss of a particular federal funding. The Department has listed all the material federal grants below and has outlined how the Department would manage a 5% and 25% reduction in the specific grant level.

Operating Plan with a Five Percent Reduction in Federal Funds

- Temporary Assistance for Needy Families (TANF)
 - TANF is the federally funded block grant program that allows states to create and administer their own temporary assistance programs. It replaced AFDC in 1996 and serves families with children. Funds may be spent on benefits and services for poor families in support of one or a combination of these four purposes: 1) assisting needy families so that children can be cared for in their own homes; 2) reducing the dependency of needy parents by promoting job preparation, work and marriage; 3) preventing out-of-wedlock pregnancies; and 4) encouraging the formation and maintenance of two parent families.
 - The current annual TANF grant award is \$136,056,590 and a 5% reduction would represent \$6,802,830.
 - Approximately 85-90% of the federal grant received is appropriated to counties through the County Block Grant. These funds are allocated to counties by the Works Allocation Committee. A reduction would require counties to determine which services (i.e. work supports, child care, etc.) would be reduced or eliminated. Funding reductions would impact benefits and services provided to families.
 - The remaining 10%-15% of the federal grant supports administrative functions such as the computer system, training, evaluation, and some state-level programs such as Colorado Refugee Service Program and the Workforce Development Council.

- Title III Community Services for the Elderly
 - Community Services for the elderly encompasses several programs, including Administration, Older Americans Act Funding, Area Agencies on Aging Administration and the State Ombudsman Program.
 - Administration: These funds provide for the administration of the Older Americans Act Programs, the Colorado Commission on Aging (CCOA) and the National Aging Program Information System (NAPIS).
 - A reduction of 5% in Federal Funds would result in a decrease of \$34,842, or .5 FTE.
 - The 5% reduction would also require a corresponding decrease in State General Fund in the amount of \$11,614 as a result of the "M" note.
 - Older Americans Act Funding: This line item provides funding for Area Agencies on Aging to contract with provider agencies to deliver a variety of services to older persons.
 - A reduction of 5% would result in a decrease of \$616,637, resulting in a decrease in services such as: meals, transportation, in home services, legal assistance, etc. Area Agencies on Aging would determine where the reduction in services would take place.
 - Area Agencies on Aging Administration: This line item provides administrative funding for Area Agencies on Aging to implement the Older Americans Act and State Funding for Senior Services. Many Area Agencies on Aging operate with only one FTE. A reduction in this funding could significantly impact the viability of an Area Agency on Aging.
 - A reduction of 5% in Federal Funds would result in a decrease of \$67,057.
 - State Ombudsman Program:
 - The Department contracts with The Legal Center for People with Disabilities and Older Adults to oversee the Ombudsman Program throughout Colorado.
 - A reduction of 5% in Federal Funds would result in a decrease of \$750. A reduction of this level could impact the training and oversight of the Area Agencies on Aging.

- Title IV-E Funds
 - The Title IV-E Foster Care program reimburses states for the foster care maintenance expenditures on behalf of children under their jurisdiction that are determined eligible, and placed with a fully certified foster care provider. The program also provides for administrative costs to manage the program; and training

for public agency staff, foster parents and certain private agency staff. In FY 2012-13, Colorado claimed Title IV-E Foster Care foster care maintenance on behalf of an average of 1,557 children per quarter.

- The Title IV-E Adoption Assistance program reimburses states for the adoption subsidy expenditures and costs for the adoption of children with special needs and who meet certain eligibility criteria. The program also provides for administrative costs to manage the program; and training for public agency staff, foster parents, and certain private agency staff. Reimbursement is provided for the nonrecurring cost of adoption. In FY 2012-13, Colorado funded an average of 7,282 Title IV-E Adoption Assistance subsidies each quarter.
 - Title IV-E of the Social Security Act provides federal reimbursement to states that provide guardianship assistance payments for the care of children by relatives who have assumed legal guardianship of eligible children for whom they previously cared for as foster parents. Federal assistance is available to support the care of children who meet the eligibility requirements and their siblings under certain situations as specified in the statute. All relatives assuming guardianship of such children are eligible for the nonrecurring expenses associated with obtaining legal guardianship up to \$2,000. In FY 2012-13, Relative Guardianship Assistance payments were made on behalf of 8 children.
 - IV-E is an uncapped entitlement. A reduction in funding would result in Colorado receiving less reimbursement for each of the IV-E eligible expenditure. Currently, Colorado receives a 50% reimbursement for all IV-E eligible expenditures. If this rate were to decrease, there is a strong possibility that Colorado would decrease IV-E eligible expenditures for all the areas listed above.
- Chafee Independent Living, Title IV-E
 - Colorado's Chafee Foster Care Independence Program (CFCIP) program provides services and support for youth who are likely to remain in foster care until 18 years of age to make the transition to self-sufficiency through services like assistance in obtaining secondary and post-secondary education, a high school diploma, career exploration, vocational training, job placement and retention, training in daily living and financial management skills, substance abuse prevention, and preventive health activities.
 - The State CFCIP retains a portion of the grant for administration, operations and two events that promote secondary and post-secondary education. Annually, all Colorado county departments of human/social services have an opportunity to request CFCIP funds and submit a program plan. Counties receive funding based upon CFCIP administrator approval of the plan and available funding to provide services to youth. This funding is distributed to counties to provide services to youth. A reduction in federal funding directly results in a reduction in county allocations to provide services for these populations. A reduction in prevention and reunification programs may lead to an increased need for child welfare block funds. The FFY12 Chafee grant is \$2,281,975, and a 5% reduction represents \$114,099.
 - Disability Determination Services (DDS)
 - DDS provides the Social Security Administration (SSA) with medical disability decisions for Colorado residents applying for Supplemental Security Disability Income or Supplemental Security Income disability benefits under the Social Security Act, Sections 205, 1102, 1106 and 1601-1634. The DDS operates from one facility with approximately 121 FTE; and will process 41,000 disability claims in FFY14. For the last calendar year, DDS has had insufficient capacity to process claims within SSA time standards, secondary to funding restrictions, a hiring freeze and the volume of case receipts.
 - In the event of funding restrictions, the Social Security Administration would direct the level cost reductions as well as the program areas to be affected. Therefore, the following impact statements provide a DDS vision, but would ultimately be subject to SSA oversight. Cost improvements have focused on the lowering of contract costs rather than FTE reductions or furloughs. This was done because DDS requires a skilled workforce of medical adjudicators; and in the context of high case volumes, a hiring freeze and an 18-24 training period for new adjudicators, any significant near term attrition would cripple a longer term recovery of capacity.
 - A 5% reduction equates to \$1,010,600. Savings would result primarily from a 22% reduction of consultative examinations and associated costs related to transcription services and applicant travel. Consultative examinations are scheduled with offsite medical contractors when an applicant's record has insufficient medical evidence to make a medical determination; or medical evidence delays lead to extended case processing times. Reducing consultative examinations will delay medical decisions on approximately 780 cases for an indeterminate amount of time and would extend decision timeframes on a like amount of cases as pending case backlogs are searched for claims not requiring consultative examinations.
 - DBHS - Substance Abuse Prevention & Treatment
 - The grant funds substance usage disorder prevention and treatment services. Provides funding for treatment of federally established priority populations and primary prevention programs.
 - A five percent reduction will total \$1,235,957. This will result in a \$270,057 reduction to primary prevention programs, a reduction of \$904,102 in treatment services (898 client admissions) and a reduction of \$61,798 in administrative funding.

- Refugee School Impact Grant
 - The Refugee School Impact programs receive discretionary grants from the Federal Department of Health and Human Services, Office of Refugee Resettlement (ORR) to support impacted school districts with the funds necessary to pay for activities that will lead to the effective integration and education of refugee children. Services target school-age refugees between the ages of five and eighteen years of age and within the first three years after their arrival in the United States, by providing program activities that include English as a Second Language (ESL) instruction, after-school tutorials, programs that encourage high school completion and full participation in school activities, after-school and/or summer clubs and activities, parental involvement programs, bilingual/bicultural counselors, interpreter services and other services.
 - The total projected grant amount is \$417,960, which already reflects a 2.8% sequestration from the FFY 2013 award of \$430,000. A 5% reduction would equate to \$20,898. In order to manage to be a 5% reduction in federal funding, fewer trainings would be offered to schools and fewer after school activities would be offered.

- Wilson Fish (CARES)
 - The thirteen national Wilson-Fish (WF) programs receive discretionary grants from the ORR, and are an alternative to the traditional state administered refugee resettlement program for providing cash assistance and social services to refugees. The purpose of the WF program is to encourage innovative strategies that increase refugee prospects for early employment and self-sufficiency, and promote coordination among voluntary resettlement agencies and service providers. The program provides Refugee Cash Assistance (RCA), case management and state administration for those refugees who are not eligible for TANF and Basic Cash Assistance. RCA is used for the differential payments made to TANF-eligible refugees.
 - The total projected grant amount is \$3,510,752 and was not subject to grant-specific sequestration. A 5% reduction would equate to \$175,538. In order to manage to 5% reduction in federal funding, TANF differential payments may need to be reduced or eliminated. In addition, contractors may need to be funded with less administrative staff, which would result in an increased caseload size for the administrative staff remaining.

- Refugee Assistance (Refugee Social Services)
 - The Refugee Social Services (RSS) program allocates formula funds from the Office of Refugee Resettlement (ORR) to states to serve refugees who have been in the U.S. less than five years. This program supports employability services and other services that address participants' barriers to employment, such as case management, English classes, social adjustment services, interpretation and translation services, day care for children, citizenship and naturalization services, etc. Employability services are designed to enable refugees to obtain jobs within one year of becoming enrolled in services.
 - The total projected grant amount is \$1,645,929, which already reflects a 2.8% sequestration reduction from the funding level of the previous year, plus an additional reduction of about 2% because of a decrease in the most recent two-year refugee population in Colorado that is the basis for this formula funding. A 5% reduction would equate to \$82,296. In order to manage to 5% reduction in federal funding, contractors would be funded to operate with fewer staff, resulting in an increased caseload for the contract staff remaining. In addition or alternatively, entire programs (such as job readiness program) could be cut.

- Targeted Assistance Grant (TAG)
 - The Targeted Assistance program (TAG) allocates formula funds from the ORR to states that qualify for additional funds due to an influx of refugee arrivals and a high concentration of refugees in county jurisdictions with high utilization of public assistance. In Colorado, only services in Denver County meet the criteria for funding through this formula. TAG services are the same as Refugee Social Services and are intended to assist refugees obtain employment within one year's participation in the program and to achieve self-sufficiency.
 - The projected grant amount is \$654,296 which already reflects a 2.8% sequestration reduction from the funding level of the previous year, plus an additional reduction of about 2% because of a decrease in the most recent two-year refugee population in Colorado that is the basis for this formula funding. A 5% reduction would equate to \$32,715. In order to manage to a 5% reduction in federal funding, the number of participants allotted for particular training programs would be reduced. Contractor staff may need to be reduced as well.

- Title V of the Older Americans Act – Senior Community Services Employment
 - The Senior Community Service Employment Program (SCSEP) promotes useful, part-time employment training opportunities in community service organizations for persons with low incomes, who are 55 years of age or older, pursuant to a grant received in accordance with Title V of the Older Americans Act. This program is entirely federally funded. Eligible participants are provided subsidized wages, training for skill enhancement or acquisition of skills, personal and employment counseling, and assistance in obtaining un-subsidized employment.
 - A reduction of 5% would result in a reduction of \$42,931 resulting in a reduction of approximately four senior community service participants.

- Food Distribution - The Emergency Food Assistance Program (TEFAP)
 - The TEFAP program receives nutritious commodity foods through the U.S. Department of Agriculture (USDA), Food and Nutrition Services, which are then made available to local recipient agencies, usually food banks, who in turn distribute the food to soup kitchens and food pantries that directly serve the public, particularly low-income individuals and families who meet the 185% federal poverty guideline and residency requirement.
 - A 5% reduction in funding would be applied towards the funding that would be available to the recipient agencies for the reimbursement of administrative claims to covers costs such as salaries, insurance, fuel, etc.

- Food Distribution - Commodity Supplemental Food Program (CSFP)
 - The CSFP program works to improve the health of low-income pregnant and breastfeeding women, other new mothers up to one year postpartum, infants, children up to age six, and elderly people at least 60 years of age by supplementing their diets with nutritious USDA Foods. It provides food and administrative funds to States to supplement the diets of these groups.
 - The program is funded by the USDA based on the caseload served. For the current year, 17,959 cases are being funded each month for a total annual caseload of 215,508. A 5% reduction in caseload would represent 10,775 cases meaning that fewer women, infants, children, and seniors would have their diets supplemented.

- Supplemental Nutrition Assistance Program (SNAP) Benefits – 100% Federal
 - The Supplemental Nutrition Assistance Program (SNAP) is an entitlement program which provides low-income households with the ability to purchase food at authorized retailers throughout the state. Households must apply and meet gross and net income tests in order to be determined eligible for benefits. The actual benefit amount made available to qualified households is paid for with federal funding.
 - A 5% reduction in SNAP funding would result in a proportionate reduction in SNAP benefit payments. (Note: The federal government controls the benefit levels.) The current average benefit amount is \$304/month per household. Based on this average, a 5% reduction would equate to \$15/month.

- Supplemental Nutrition Assistance Program (SNAP) Administration – Other
 - Administrative costs of the Program are reimbursed by the United States Department of Agriculture (USDA), Food and Nutrition Services (FNS) at a rate of 50%. SNAP is administered by the counties with oversight provided by the state. A 5% reduction may require that program administration at both the state and county levels be scaled back, which would affect the program's ability to timely process applications.
 - There is also federal funding provided for Employment and Training (E&T) which provides job seeking skills for participants seeking employment including transportation assistance. In order to manage a 5% reduction, program administration at both the state and county levels as well as transportation assistance may need to be scaled back.
 - The SNAP Nutrition Education Program is funded with 100% federal funding. Three primary contractors provide nutrition education classes and services to SNAP eligible individuals on behalf of the state. A 5% reduction in funding would result in both state and contractors reducing administrative costs, which would result in reduced services to clients.

- Child Support Enforcement (Title IV-D)
 - The federal Office of Child Support Enforcement (OCSE) program reimburses the State for administrative expenditures to manage the child support units that are operated by Colorado counties. The primary functions of child support units are to locate parents; establish paternity; and establish and enforce orders for financial support; and establish orders for medical support.
 - The Child Support Services (CSS) Program is funded with 34% General Fund and 66% Federal Financial Participation (FFP) with the federal funding for child support remaining uncapped. The FFP rate was last modified through federal legislation passed in 1984, and the changes went into effect in 1988 (68%) and 1990 (66%).
 - In calendar year 2012, Colorado's program processed 152,681 child support cases and collected over \$388 million in child support.
 - The current amount of federal funding for Child Support Services is \$7,114,009 and a 5% reduction in federal funding would equate to \$355,700. A 5% reduction in funding would not result in a reduction of FTE, but would result in the following: 1) Working with the vendors that complete the payment processing work to reduce costs through reducing services they provide; 2) Not filling vacant positions within the Division; 3) Providing less than the full complement of oversight required to supervise counties in their work regarding the establishment of paternity, establishment of child support payment orders, and applying enforcement remedies.

- **Block Grants for Community Mental Health Services**
 - Primary (non-Medicaid) federal funding award for public mental health services in Colorado. Utilized for planning, technical assistance administration, data evaluation and monitoring, and the provision of services to the indigent population.
 - At the five percent level (\$301,097), it is estimated that services for 76 indigent individuals could be lost and \$15,055 of administrative dollars would be lost. This grant currently provides a variety of services and the Department would evaluate contracts and services to determine which areas would have the least impact on individuals and/or system oversight if a five-percent reduction is made.
- **Projects for Assistance in Transition from Homelessness Program (PATH)**
 - Grant providing funds for community-based services for persons with serious mental illnesses who are homeless or at imminent risk of becoming homeless. Administration funding allowed at 4% of total award.
 - At the five percent level (\$45,550), it is estimated that services for 68 Path individuals could be lost and \$1,822 of administrative dollars would be lost.
- **Child Abuse Treatment & Prevention (CAPTA)**
 - CAPTA provides federal funding to States in support of prevention, assessment, investigation, prosecution, and treatment activities in cases of child maltreatment. These funds are being used to support the implementation of Differential Response, the redevelopment and training of risk and safety tools, and statewide efforts towards continuous quality improvement in child protection, in accordance with Colorado's Child Welfare PIP. Funds are also used to provide expert consultation and training to intake and ongoing CPS workers and supervisors on assessing safety and developing safety plans, and to address the issues of co-occurrence of domestic violence and substance use in child welfare cases, and support.
 - CAPTA funds are used to provide training to county child welfare caseworkers. Cuts in funds results in a decrease in training.
 - In addition to reduced resources for training, CAPTA funds expert case consultation through interagency/intergovernmental programs, which might be affected. The reduction of the CAPTA grant would also reduce statewide efforts to implement Differential Response in Colorado. The FFY12 CAPTA grant is \$435,065. A 5% reduction represents \$21,753.
- **State Independent Living Grant (Blind)**
 - Funds are used to provide independent living services to older individuals who are blind; conduct activities that will improve or expand services for these individuals; and conduct activities to improve public understanding of the problems facing these individuals. For example, services are provided to help persons served under this program adjust to their blindness by increasing their ability to care for their individual needs.
 - DVR has a total of seven contracts with qualified partners in the state that provide services to an average of 1,526 consumers each year. The grant estimate for FY 2014 is \$477,266 according to the Rehabilitation Services Administration (RSA) website. A 5% reduction of \$23,863 in the grant would result in the inability to provide services for approximately 75 consumers.
 - A reduction in the grant reduces the opportunity for qualified partners including Independent Living Centers, The Colorado Center for the Blind, etc., to provide services to this group of consumers in order to assist in maintaining their independence.
- **State Independent Living Services Grant (DVR)**
 - The purpose of the independent living programs is to maximize the leadership, empowerment, independence and productivity of individuals with disabilities and to integrate these individuals into the mainstream of American society. Independent living programs provide financial assistance to provide, expand and improve independent living services; develop and support statewide networks of centers for independent living and improve working relationships among state independent living rehabilitation programs, centers for independent living, Statewide Independent Living Councils (SILC), Rehabilitation Act programs outside of Title VII and other relevant federal and non-federal programs.
 - There are a total of nine Certified Independent Living Centers in the state that provide services to an average of 4,930 consumers each year. The estimated amount of the grant for FY 2014 according to the RSA website is \$311,769. A 5% reduction of \$15,588 in the grant would result in the inability to provide federal funds to one center, or to significantly decrease the amount paid to each of the nine Certified Centers, resulting in the inability to serve approximately 250 consumers.
 - Federal funds are utilized to pay for a SILC liaison. A decrease in federal funding would result in the elimination of this position.
- **Vocational Rehabilitation State Grant**
 - This grant supports a wide range of services designed to help individuals with disabilities prepare for and engage in gainful employment consistent with their strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice. Eligible individuals are those who have a physical or mental

impairment that results in a substantial impediment to employment, who can benefit from vocational rehabilitation (VR) services for employment, and who require VR services.

- The estimated FFY 2014 grant amount is \$44,297,920. During FFY 2012 DVR served 19,313 clients. The average cost per employment outcome including direct contact DVR personnel cost was \$11,952. A 5% grant reduction would equate to \$2,214,896 reduction and would result in DVR's inability to serve approximately 185 individuals. In addition, DVR is obligated to pay for services outlined in current consumer employment plans. Based on the fluctuating cost of services to which DVR is already committed, this grant reduction may result in the continuation of the current waiting list for new applicants and an inability to continue to assist in procuring successful employment outcomes.
 - Each Vocational Rehabilitation Counselor manages a caseload of approximately 100 individuals. With DVR's inability to serve 185 individuals, 2 counselors may need to be eliminated. The decrease in counselors may also result in a decreased need for VR administrative support staff.
 - Partners such as Community Center Boards (CCB), Mental Health Centers (MHC), and Workforce Centers (WFC) would not be able to refer individuals to DVR, resulting in increases in center caseloads and related expenditures.
- DVR Supported Employment Grant
 - This grant provides assistance for states in developing and implementing collaborative programs with appropriate entities to provide programs of supported employment services for individuals with the most significant disabilities who require supported employment services to achieve employment outcomes. Grant funds are administered under a state plan supplement to the Title I state plan for vocational rehabilitation (VR) services designated by each state.
 - A total of 1,959 consumers were identified as requiring supported employment services in SFY 2013. The average cost per consumer for services related to supported employment was \$1,434. RSA is not providing an estimate for the FFY 2014 SE Grant. As a result the grant estimate amount of \$373,925 awarded in FFY 2013 will be used. A 5% reduction in the grant would equate to \$18,696 and would result in the inability to provide services for approximately 13 consumers. As a result, the cost of supported employment services will shift from the Supported Employment Grant to the Vocational Rehabilitation State Grant. This is a concern because of possible cuts to the Vocational Rehabilitation State Grant, and a significant outcome of a reduction may be a decrease in the overall successful employment outcomes for DVR consumers.
- Traumatic Brain Injury (TBI) Post Demonstration Project
 - The TBI Federal grant project is aimed at building the capacity of the public school system and the public mental health system and creating a network of individuals with brain injury and family members who are trained as civic leaders. Specifically, this project targets youth ages 15-19 and Operation Enduring Freedom, Operation Iraqi Freedom, and Operation New Dawn Veterans. The grant has three goals with corresponding objectives and activities: 1) Increase appropriate and effective identification, assessment, interventions, transitions and successful outcomes of children/youth with TBI; 2) Develop community-based behavioral health provider expertise regarding deployment-related traumatic brain injury screening, assessment and treatment; and 3) Increase the number of individuals with brain injury and family members who are effective leaders at the individual, community and statewide level. The TBI Program contracts with the CO Department of Education (CDE) to meet goal 1, the Veterans Administration of Denver to meet goal 2, and with two individuals who are family members of children with brain injury, in partnership with CO Department of Public Health and Environment, to meet goal 3.
 - The annual grant amount is \$249,000 and a 5% reduction would equate to \$12,450. This reduction would result in: funds supporting a conference on brain injuries would not be spent; consultant travel would be eliminated; program operating expenses would be reduced; and the contract with the Colorado Department of Education would be reduced.
- Family Violence Prevention Grant
 - FVPSA funds support community-based domestic violence programs to provide: culturally and linguistically appropriate free and confidential support; prevention services such as outreach to underserved populations; immediate emergency shelter for victims of domestic violence and their children; supportive services such as case management, individual and group counseling, and peer support groups; and referrals to community supports such as financial assistance, legal services, mental health, and housing.
 - For Federal Fiscal Year 2012-13, CDHS received \$1,548,967 in FVPSA funding. A 5% reduction in FVPSA funding would reduce the total award to \$1,471,518.
 - Any reduction in these funds will have a significant impact on service delivery to victims of domestic violence. Examples include: reductions to types or availability of certain emergency services such as maintaining a residential shelter or providing transportation to victims in rural communities. Even with the current level of funding, programs struggle to meet the high demand for domestic violence services. The number of hotline calls to funded programs has increased from about 39,000 in 2007 to over 60,000 in 2011. In 2011, 6,733 victims were turned away from domestic violence shelters in Colorado due to a lack of capacity. If funding is reduced, we can expect these numbers to continue to rise.

- Social Services Block Grant/ Title XX
 - Funding from Title XX of the Social Security Act is allocated to counties through various block grants for services related to the following five federal goals: 1) Achieving or maintaining self-support to prevent, reduce, or eliminate dependency; 2) Achieving or maintaining self-sufficiency, including reduction or prevention of dependency; 3) Preventing or remedying neglect, abuse, or exploitation of children and adults unable to protect their own interest, or preserving, rehabilitating, or reuniting families; 4) Preventing or reducing inappropriate institutional care by providing for community-based care, home-based care, other forms of less intensive care; or 5) Securing referral or admission for institutional care when other forms of care are not appropriate or providing services to individuals in institutions.
 - A reduction in funding would result in fewer services provided including: protective services for at-risk adults; child care services for eligible families; and child welfare services related to out-of-home placement, subsidized adoption case services, family preservation, other in-home services and case services. A 5% reduction in the grant level would result in a lower amount of funds distributed local service providers to provide the services listed above. The current Title XX award is \$26,344,729, and a 5% reduction represents \$1,317,236.
- Social Services, Title IV-B (sub-part 1)
 - IV-B subpart 1 funding is distributed to counties with the Child Welfare Block Allocation to develop, operate, and expand a coordinated child and family services program, including protecting/promoting child welfare; preventing child abuse or neglect; supporting at-risk families through services which allow children, where appropriate, to remain safely with their families or return to their families in a timely manner; promoting the safety, permanence, and well-being of children in foster care and adoptive families; and providing training, professional development and support to ensure a well-qualified child welfare workforce.
 - This funding is allocated to counties to provide services to children, youth, and families. A reduction in federal funding would directly result in a reduction in county allocations, and would impact the services a county is able to provide to children and youth. Counties may be forced to identify alternative funding sources in order to serve this population (e.g. TANF, Core Services, etc.). The current IV-B subpart 1 grant is \$3,936,734, and a 5% reduction represents \$196,836.
- Promoting Safe and Stable Families (Title IV-B Subpart 2)
 - The primary goals of Promoting Safe and Stable Families (PSSF) are to prevent the unnecessary separation of children from their families, improve the quality of care and services to children and their families, and ensure permanency for children by reuniting them with their parents, by adoption or by another permanent living arrangement. Funding is intended to develop, expand, and operate programs of community-based family support services, family preservation services, time-limited family reunification services, and adoption promotion and support services.
 - A reduction in federal funding directly results in a reduction in county allocations to provide services for these populations. A reduction in prevention and reunification programs may lead to an increased need for child welfare block funds. The current PSSF grant is \$3,283,927, and a 5% reduction represents \$246,295.
- Children's Justice Act Grant
 - The Children's Justice Act Grant is provided to States to improve the investigations, prosecutions, and judicial handling of cases of child abuse and neglect, particularly child sexual abuse and exploitation, in a manner that limits additional trauma to the child victim and his/her family. This also includes child fatality cases. These funds are used to provide expert case consultation to rural counties, to ensure procedural fairness in the investigative, administrative, and judicial handling of cases of child abuse and neglect, through multidisciplinary trainings, and to assist in the support of the Department of Public Health and Environment's Fatality Review Team.
 - A reduction of the Children's Justice Act grant limits resources to provide collaborative training to front-line caseworkers, law enforcement, and judicial officers, and may affect interagency/intergovernmental programs. This could impact the coordination of efforts between law enforcement and child protection staff. Other funding is not available to backfill the loss. The FFY11 CJA grant is \$280,494; a 5% reduction represents \$14,025.
- Child Care Development Funds (CCDF)
 - The Child Care and Development Fund (CCDF) makes available funds to States, Territories, and Tribes to: (1) allow each State maximum flexibility in developing child care programs and policies that best suit the needs of children and parents within such State; (2) promote parental choice to empower working parents to make their own decisions on the child care that best suits their family's needs; (3) encourage States to provide consumer education information to help parents make informed choices about quality child care; (4) assist States to provide child care to parents trying to achieve independence from public assistance; (5) assist States in implementing the health, safety, licensing, and registration standards established in State regulations; and (6) support activities to improve the availability, accessibility, and affordability of quality child care. Quality child care promotes the health and well-being of children and prepares children to succeed in school.

- A reduction could be spread across program areas of quality initiatives and direct services using CCDF. A five percent reduction is \$3,315,684. If that reduction were applied wholly to direct services during FY 2012-13, 435 cases will not be served. (\$7,622 is the average per case cost with approximately 1.7 children being served per case).
- Low Income Energy Assistance – LEAP
 - LIHEAP, or LEAP in Colorado, provides cash assistance and furnace repair and replacement services to low-income individuals and households. LEAP also transfers some of its federal LIHEAP funds to Colorado's Energy Office (CEO) Weatherization program to reduce the longer term need of low income Coloradans for energy assistance.
 - If LEAP is cut by 5%, the average amount of the LEAP benefit will be proportionately reduced, covering less of the household's winter home energy bill. The average annual benefit per household is \$344. Therefore a 5% reduction would equate to \$17. LEAP may not be able to transfer as much funding to GEO for Weatherization as it would under full funding. Also, it would reduce the allocation provided to each county for the administration of LEAP.
- Rural Homeless Youth Grant
 - The Rural Homeless Youth (RHY) Grant provides community-based services in Alamosa, Huerfano, Garfield, Moffat, Montrose, Montezuma Counties and Urban Peak-Denver for up to 50 of Colorado's rural runaway and homeless youth annually to prevent youth from being served in the more expensive public systems of care (e.g. child welfare, juvenile justice, mental health, etc.).
 - Each of these sites is a rural area classified with high poverty rates with a dearth of jobs for youth or adults. Rural areas were very hard hit in the Great Recession and losses are not easily absorbed. Reduced funds may result in site closure, which may result in decreased services to youth. Services provision may default to County departments or lead to an increase in vulnerable rural youth migrating to urban areas. This is the final year of the grant, and a 25% reduction would only affect one year of programming. The annual RHY grant is \$200,000, and a 5% reduction represents \$10,000.
- IDEA Infants & Toddlers w/Disabilities Grant
 - The IDEA grant assists states in the implementation of a statewide, comprehensive, coordinated, multidisciplinary, interagency system of early intervention services for infants and toddlers with developmental delays or disabilities and their families.
 - Part C requires the State to serve all eligible clients. A reduction in federal funds would result in a demand for alternative funding sources to fund services such as State General Fund, Medicaid funds, collection of fees from the family, etc. If the General Fund burden becomes prohibitive, the State may consider dropping out of the Part C grant and limiting the number of services or the number of clients served.
 - An initial cut of 5% would not impact FTE due to the Part C requirement to serve all eligible clients. Services would still be provided. Rather, options for other financing would be explored (as shown in bullet above).

If the budget is reduced, contractors will be affected, especially those that provide professional development activities. There is not further room to reduce expenditures without compromising the ability to meet the federal assurances and providing the required services. Therefore, alternative sources of funding would need to be considered.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

- Temporary Assistance for Needy Families (TANF)
 - The current annual TANF grant award is \$136,056,590 and a 25% reduction would represent \$34,014,148.
 - As more than 85%-90% of the federal grant received is appropriated to the counties, most of the reduction would be to counties. The reduced allocation would require counties to determine which services (i.e. work supports, child care, etc.) would need to be reduced or eliminated in each respective county. Such a funding reduction would greatly impact benefits and services provided to families.
 - In FY 2012-13, approximately 52.7% of county spending, or \$78.9 million was in the form of Basic Cash Assistance (BCA). This is direct assistance to needy families. Counties would have a reduced allocation to implement their programs and rely heavily on their TANF Reserves.
 - The remaining 10%-15% of the federal grant supports administrative functions such as the computer system, training, evaluation, and some state-level programs such as Colorado Refugee Services Program and the Workforce Development Council. Some administrative programs would be difficult to reduce as the rates are set outside of the Department, so reductions would be exclusive to Refugee Services and county training.

- Title III Community Services for the Elderly
 - Community Services for the elderly encompasses several programs, including Administration, Older Americans Act Funding, and Area Agencies on Aging Administration.
 - Administration: A reduction of 25% in Federal Funds would result in a decrease of \$188,717, or 2.0 FTE.
 - The 25% reduction would also require a corresponding decrease in State General Fund in the amount of \$47,179 as a result of the “M” note.
 - Older Americans Act Funding: A reduction of 25% would result in a decrease of \$2,620,709, resulting in a decrease in services such as: meals, transportations, in home services, etc. Area Agencies on Aging would determine where the reduction in services would take place.
 - Area Agencies on Aging Administration: Many Area Agencies on Aging operate with only one FTE. Reduction to this line could significantly impact the viability of an Area Agency on Aging. A reduction of 25% in Federal Funds would result in a decrease of \$335,287, or approximately 5 FTE.
 - State Ombudsman Program: A reduction of 25% in Federal Funds would result in a decrease of \$3,750. A reduction of this level could impact the training and oversight of the Area Agencies on Aging.
- Title IV-E Funds
 - A reduction in federal funding by 25% could result in a possible loss of services for children involved in Child Welfare. This could happen due to less federal funding being available to the counties. Other impacts of reduced federal funding would be fewer dollars available for staff training or case management. Reduced funding to counties would require them to make decisions on how to continue to provide mandated services to the children and families of Colorado. In our economy, another impact may be the use of county only funding. IV-E is an uncapped entitlement, and the fiscal impact cannot be estimated.
- Chafee Independent Living, Title IV-E
 - This funding is distributed to counties to provide services to youth. A reduction in federal funding directly results in a reduction in county allocations to provide services for these populations. A reduction in prevention and reunification programs may lead to an increased need for child welfare block funds. The FFY12 Chafee grant is \$2,281,975, and a 25% reduction is \$570,494.
- Disability Determination Services (DDS)
 - In the event of funding restrictions, the Social Security Administration would direct the level cost reductions as well as the program areas to be affected. Therefore, the following impact statements provide a DDS vision, but would ultimately be subject to SSA oversight. Cost improvements have focused on the lowering of contract costs rather than FTE reductions or furloughs. This was done because DDS requires a skilled workforce of medical adjudicators; and in the context of high case volumes, a hiring freeze and an 18-24 training period for new adjudicators, any significant near term attrition would cripple a longer term recovery of capacity.
 - This reduction equates to \$5,053,000. Savings would result primarily from a 58% reduction of consultative examinations and associated costs, but also anticipates a reduction of case review costs from DDS internal contract medical consultants as well as a 50% reduction in allocated costs from the state. In this scenario, medical decisions on over 2,300 cases would be delayed for an indeterminate amount of time and there would be extended decisions on a like amount of cases as pending case backlogs are searched for claims not requiring consultative examinations. Additionally, internal medical reviews on nearly 15,600 cases would be delayed for an indeterminate amount of time secondary to the reduction in internal medical consultant resources.
- DBHS - Substance Abuse Prevention & Treatment
 - A twenty-five percent reduction will total \$6,179,784. This will result in a \$1,350,283 reduction to primary prevention programs, a reduction of \$4,520,512 in treatment services (4,489 client admissions) and a reduction of \$308,989 in administrative funding.
 - Refugee School Impact Grant
In order to manage to a 25% reduction (\$104,490) in federal funding, conversations would be initiated with the national voluntary agencies represented in Colorado, and directly with the U.S. Department of State Bureau of Population, Refugees and Migration, in order to reduce the number of refugee arrivals to Colorado.
- Wilson Fish (CARES)
 - In order to manage to a 25% reduction (\$877,688) in federal funding, conversations would be initiated with the national voluntary agencies represented in Colorado, and directly with the U.S. Department of State Bureau of Population, Refugees and Migration, in order to reduce the number of refugee arrivals to Colorado.
- Refugee Assistance (Refugee Social Services)

- In order to manage to a 25% reduction (\$411,482) in federal funding, conversations would be initiated with the national voluntary agencies represented in Colorado, and directly with the U.S. Department of State Bureau of Population, Refugees and Migration, in order to reduce the number of refugee arrivals to Colorado.
- Targeted Assistance Grant (TAG)
 - In order to manage to a 25% reduction (\$163,574) in federal funding, conversations would be initiated with the national voluntary agencies represented in Colorado, and directly with the U.S. Department of State Bureau of Population, Refugees and Migration, in order to reduce the number of refugee arrivals to Colorado.
- Title V of the Older Americans Act – Senior Community Services Employment
 - A reduction of 25% would result in a reduction of \$214,657 resulting in a reduction of approximately 20 senior community service participants.
- The Emergency Food Assistance Program (TEFAP)
 - A 25% reduction in funding would be applied towards the funding that would be available to the recipient agencies for the reimbursement of administrative claims to covers costs such as salaries, insurance, fuel, etc. Recipient agencies may cease participating in the program due to the inability to recover their operating expenses.
- Commodity Supplemental Food Program (CSFP)
 - A 25% reduction in caseload would represent 53,877 cases meaning that fewer women, infants, children, and seniors would have their diets supplemented.
- Supplemental Nutrition Assistance Program (SNAP) Benefits – 100% Federal
 - A 25% reduction in SNAP funding would result in a proportionate reduction in SNAP benefit payments. The current average benefit amount is \$304/month per household. Based on this average, a 25% reduction would equate to \$76/month.
- Supplemental Nutrition Assistance Program (SNAP) Administration – Other
 - In order to manage to a 25% reduction in federal funding, a reduction in state FTE and county administration may be necessitated which would greatly impact the state’s ability to direct, oversee and evaluate the county SNAP offices and would impede the counties ability to timely and accurately process SNAP benefits.
- Child Support Enforcement (Title IV-D)
 - A 25% reduction in funding would have a significant impact on the services by the Division of Child Support Services. The current amount of federal funding is \$7,114,009 and a 25% reduction would equate to \$1,778,502. A reduction of at least 6.0 FTE and some contract personnel would be required. Such a reduction in personnel would: Significantly impact the Program’s ability to evaluate and audit the county child support offices to ensure compliance with state and federal requirements; Reduce the level of quality policy guidance and training to the county child support professionals; Reduce efforts to move forward on new initiatives to improve the Program including legislation and other forms of policy development and strategies to improve performance measures; Impact the Program’s productivity and ranking in the federal performance measures and reduce Colorado’s share of federal incentives that are earned, and ultimately impact the families who depend on the services and child support collections; Limit the amount of resources to collaborate with county partners and community stakeholders; Affect the Program’s ability to operate the Automated Child Support Enforcement Data System and make enhancements to it to support the efforts of counties to deliver services; Negatively affect the Program’s ability to process interstate cases; Negatively affect the Program’s ability to work with county partners and obligors regarding the automated enforcement remedies for which direct support is provided; and, Negatively affect the Program’s ability to disperse child support payments. In addition, with a 25% reduction, the level of services provided by vendors for payment processing would need to be significantly reduced.
- Block Grants for Community Mental Health Services
 - At the twenty-five percent level (\$1,505,484), it is estimated that services for 381 indigent individuals would be lost and \$75,274 of administrative dollars would be lost. This grant currently provides a variety of services and the Department would evaluate contracts and services to determine which areas would have the least impact on individuals and/or system oversight if a twenty-five-percent reduction is made.
- Projects for Assistance in Transition from Homelessness Program (PATH)
 - At the twenty-five percent level (\$242,750), it is estimated that services for 270 Path individuals could be lost and \$9,710 of administrative dollars would be lost.

- Child Abuse Treatment & Prevention (CAPTA)
 - A cut in funds results in a decrease in training, potentially reduced use of interagency programs, and would reduce funds available to counties to support the implementation of Differential Response. The FFY12 CAPTA grant is \$435,065. A 25% reduction represents \$108,766.
- State Independent Living Grant (Blind)
 - DVR has a total of seven contracts with qualified partners in the state that provide services to an average of 1,526 consumers each year. The grant estimate for FY 2014 is \$477,266 according to the Rehabilitation Services Administration website. A 25% reduction in the grant, \$119,316, would result in the inability to provide services for approximately 375 consumers.
 - A reduction in the grant reduces the opportunity for qualified partners including Independent Living Centers, The Colorado Center for the Blind, etc., to provide services to this group of consumers in order to assist in maintaining their independence.
- State Independent Living Services Grant (DVR)
 - There are a total of nine Certified Independent Living Centers in the state that provide services to an average of 4,930 consumers each year. The estimated amount of the grant for FY 2014 according to the RSA website is \$311,769. A 25% reduction in the grant, \$77,942 would result in the inability to provide federal funds to two centers, or to significantly decrease the amount paid to each of the nine Certified Centers, resulting in the inability to serve approximately 1,250 consumers.
 - Federal funds are utilized to pay for a SILC liaison. A decrease in federal funding would result in the elimination of this position.
- Vocational Rehabilitation State Grant
 - The estimated FFY 2014 grant amount is \$44,297,920. During FFY 2012, DVR served 19,313 clients. The average cost per employment outcome including direct contact DVR personnel cost was \$11,952. A 25% grant reduction would equate to an \$11,074,480 reduction and would result in DVR's inability to serve approximately 925 individuals. In addition, DVR is obligated to pay for services outlined in current consumer employment plans. Based on the fluctuating cost of services to which DVR is already committed, this grant reduction may result in the continuation of the current waiting list for new applicants and an inability to continue to assist in procuring successful employment outcomes.
 - Each Vocational Rehabilitation Counselor manages a caseload of approximately 100 individuals. With DVR's inability to serve 925 individuals, approximately 10 counselors may need to be eliminated. The decrease in counselors would also result in a decreased need for VR administrative support staff.
 - Partners such as Community Center Boards (CCB), Mental Health Centers (MHC), and Workforce Centers (WFC) would not be able to refer individuals to DVR, resulting in increases in center caseloads and related expenditures.
- DVR Supported Employment Grant
 - This grant provides assistance for states in developing and implementing collaborative programs with appropriate entities to provide programs of supported employment services for individuals with the most significant disabilities who require supported employment services to achieve employment outcomes. Grant funds are administered under a state plan supplement to the Title I state plan for vocational rehabilitation (VR) services designated by each state.
 - A total of 1,959 consumers were identified as requiring supported employment services in SFY 2013. The average cost per consumer for services related to supported employment was \$1,434. RSA is not providing an estimate for the FFY 2014 SE grant. As a result, the grant estimate amount of \$373,925 awarded in FFY 2013 will be used. A 25% reduction would equate to \$93,481 and would result in the inability to provide services for approximately 65 consumers. As a result the cost of supported employment services will shift from the Supported Employment Grant to the Vocational Rehabilitation State Grant. This is a concern because of possible cuts to the Vocational Rehabilitation State Grant, and a significant outcome of a grant reduction may be a decrease in the overall successful employment outcomes for DVR consumers.
- Traumatic Brain Injury (TBI) Post Demonstration Project
 - The annual grant amount is \$249,000 and a 25% reduction would equate to \$62,250. This reduction would result in: funds supporting a conference on brain injuries would not be spent; consultant travel would be eliminated; program operating expenses would be reduced; and vendor contracts would be reduced.
- Family Violence Prevention Grant
 - A 25% reduction in FVPSA funding would reduce the total award to \$1,161,725. This reduction would further impact service delivery to victims – such as prevention services, counseling, or emergency shelter. Additionally, the two impacts that follow are expected to occur.

- FVPSA funding is a significant revenue source for community-based domestic violence programs and services in rural communities that lack access to other nonprofit revenue sources such as foundation grants. FVPSA is 20% or more of the total revenue for several programs in rural communities that provide critical services in isolated communities. If these programs have any reduction in FVPSA dollars, they would be compelled to reduce services, forcing victims to travel great distances to access comparable services in other communities.
 - CDHS would not be able to sustain current contracting levels and contractors would also need to reduce FTE, eliminate programs and services, and possibly close facilities. Any reductions in funding will have a significant impact on contractors' ability to provide crucial services to victims of domestic violence.
- Social Services Block Grant/ Title XX
 - A reduction in funding would result in fewer services provided including: protective services for at-risk adults; child care services for eligible families; and child welfare services related to out-of-home placement, subsidized adoption case services, family preservation, other in-home services and case services. The current Title XX award is \$26,344,729, and a 25% reduction represents \$6,586,182.
- Social Services, Title IV-B
 - This funding is allocated to counties to provide services to children, youth, and families. A reduction in federal funding would directly result in a reduction in county allocations, and would impact the services a county is able to provide to children and youth. Counties may be forced to identify alternative funding sources in order to serve this population (e.g. TANF, Core Services, etc.). The current IV-B subpart 1 grant is \$3,936,734, and a 25% reduction represents \$984,173.
- Promoting Safe and Stable Families (Title IV-B Subpart 2)
 - A reduction in federal funding directly results in a reduction in county allocations to provide services for these populations. A 25% reduction in funding would result in reduced services and fewer clients served, and counties potentially using local funds. A reduction in prevention and reunification programs may lead to an increased need for child welfare block funds. In 2011, 20,784 one-time services were provided, and 11,409 children received services. The current PSSF grant is \$3,283,927, and a 25% reduction represents \$820,982.
- Children's Justice Act Grant
 - A reduction of the Children's Justice Act grant would reduce the amount of funds available to community organizations who request them, thus providing less training to front-line caseworkers, law enforcement, and judicial officers, and may affect interagency/intergovernmental programs. This could impact the coordination of efforts between law enforcement and child protection staff. The FFY11 CJA grant is \$280,494; a 25% reduction represents \$70,123.
- Child Care Development Funds (CCDF)
 - A reduction could be spread across program areas of quality initiatives and direct services using CCDF. A 25% reduction is \$ 16,578,422. If that reduction were applied wholly to direct services during FY 2012-13, 2175 cases will not be served. (\$7,622 is the average per case cost (case = approximately 1.7 children) being served.
- Low Income Energy Assistance – LEAP
 - If LEAP is cut by 25%, the average amount of the LEAP benefit will be proportionately reduced, covering less of the household's winter home energy bill. The average annual benefit per household is \$344. Therefore, a 25% reduction would equate to \$86. LEAP may not be able to transfer as much funding to GEO for Weatherization as it would under full funding. Also, it would reduce the allocation provided to each county for the administration of LEAP and may result in a reduction of LEAP state staff.
- Rural Homeless Youth Grant
 - This is the final year of the grant, and a 25% reduction would only affect one year of programming. The grant serves five rural sites, each classified with high poverty rates with a dearth of jobs for youth or adults. Rural areas were very hard hit in the Great Recession and losses are not easily absorbed. Reduced funds may result in site closure, which may result in decreased services to youth. Services provision may default to County departments or lead to an increase in vulnerable rural youth migrating to urban areas. The annual RHY grant is \$200,000, and 25% represents \$50,000.
- IDEA Infants & Toddlers w/Disabilities Grant
 - Part C requires the State to serve all eligible clients. A reduction in federal funds would result in a demand for alternative funding sources to fund services such as State General Fund, Medicaid funds, collection of fees from the family, etc. If the General Fund burden becomes prohibitive, the State may consider dropping out of the Part C grant and limiting the number of services or the number of clients served.

- A 25% cut would not likely impact FTE due to the Part C requirement to serve all eligible clients. Options for other financing would be explored (as shown in bullet above).

If the budget is reduced, contractors will be affected, especially those that provide professional development activities. There is not further room to reduce expenditures without compromising the ability to meet the federal assurances and providing the required services. Therefore, alternative sources of funding would need to be considered.

KAA - Department of Labor and Employment (CDLE)

Percentage of federal funds in relation to total funds: 44.08%

Operating Plan with a Five Percent Reduction in Federal Funds

CDLE would continue to operate but reducing the program(s) by 5% would cause reduced services and/or limited staff reductions thru early retirements or limited layoffs to cover the reduction to be determined by Executive Management and the Executive Director.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

CDLE would have to make cuts in staff that would extend to some degree into the support areas such as HR, Finance, Purchasing, etc. but the projected cuts would mainly include direct staff of those programs. This would impact the service delivery causing CDLE to turn away clients from receiving services. CDLE would still operate but at a reduced capacity equivalent to the reduction in federal moneys.

LAA - Department of Law

Percentage of federal funds in relation to total funds: 1.61%

Operating Plan with a Five Percent Reduction in Federal Funds

Federal money is received by the Department of Law for Medicaid Fraud Investigations and the Justice Review Project. If Federal money was to decrease for either program by 5%, activity would decrease accordingly.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

Federal money is received by the Department of Law for Medicaid Fraud Investigations and the Justice Review Project. If Federal money was to decrease for either program by 25%, activity and/or staffing levels would decrease or be eliminated accordingly.

NAA - Department of Local Affairs

Percentage of federal funds in relation to total funds: 34.56%

Operating Plan with a Five Percent Reduction in Federal Funds

The Mission of the Division of Local Government is to provide high quality technical and financial assistance services to local governments and communities throughout Colorado to enable them to achieve sustainable community development. One of the division's goals (goal #4) is to improve local government's capacity to administer and implement grants awarded. A decrease in funding through sequestration would result in a reduction in the amount of funds available to help address local government's priorities. Specifically, input measures would be changed from:

Input Measures in the Strategic Plan would be affected as follows:

For 5% reduction: Reduce projected FY 2013-14 Competitive grant dollars available from 93.0 mil to 90.1 mil.
Reduce projected FY 2013-14 Formula grant dollars available from \$123.0 mil to \$119.4 mil.

Outcome Measures in the Strategic Plan would be affected as follows:

For 5% reduction:

Reduce projected Competitive Dollars Leveraged from \$100 mil to \$97 mil
Reduce Estimated New Jobs Created by Competitive Grants with leverage from 1,703 to 1,643.

Following is a breakdown by federal grant:

Community Services Block Grant – CSBG CFDA 93.569

- 5% reduction Output: Formula grants to eligible entities would be reduced. Outcome: approximately 8,522 fewer low-income people will be served throughout Colorado.

Community Development Block Grant – CDBG CFDA 14,228

- 5% reduction Output: DOLA would be unable to fund 1 major infrastructure project in rural Colorado. These grants are made to low and moderate income towns or counties and impacts the sustainability of their communities. Outcome: These grants leverage other dollars and support construction jobs. Assuming a dollar-for-dollar leverage, approximately 6 fewer jobs would be created.

Federal Mineral Lease – FML

- 5% reduction Output: DOLA would be unable to fund 3 one million dollar grants. These grants usually are for large scale infrastructure dealing with water, sewer, roads or other major projects critical to local governments that impact livability and sustainability of communities throughout the state. Outcome: Leverage for these large scale projects varies. Assuming a 2:1 leverage to grant, 54 fewer jobs would be created.

EPA Water/Sewer File Project – CWSRF and DWSRF

- 5% reduction Output: DOLA's capacity to evaluate the financial capacity, support the application process, improve customer accountability and management procedures of communities seeking to comply with the Clean Water Act and the Safe Drinking Water Act would be reduced. Outcome: For 2012, the programs processed 32 requests for funding from applicants, at an average cost of \$9,017 per applicant. A 5% funding reduction would remove \$2,471 from the program's budget for application processing.

Since 2010, the Division of Housing (DOH) has had a nearly 50% reduction in its Federal HOME program. This took DOH from \$8.4 million to \$4.3 million. HUD allows 10% of HOME funds to be used for administrative costs. The reduction in funds has already caused a loss of more than \$400,000 of administrative funding. Although the funding has been cut, the statutory program requirements have been diminished and often require long-term monitoring of programs up to 30 years. Additionally, DOH manages Community Development Block Grant (CDBG), Emergency Solutions Grants (ESG) and Housing Opportunities for Persons with Aids (HOPWA). These other Federal programs have been cut through sequestration averaging a 5% cut. DOH has worked through these cuts through attrition and by not filling vacancies. Additionally, reserves have been tapped to also cover shortages. Any additional cuts would potentially reduce staff further.

The mission of DOH is to improve the access of all Coloradans to decent, affordable housing. With rental vacancy rates at 13 year lows nearing 4% and the average rent exceeding \$1,000, the need for affordable rental housing is compounding. Among renter households making \$20,000 or less (\$20,000 = approx. 34% Area Median Income), there are 142,000

households paying 35% or more of their income toward housing. At Colorado's minimum wage of \$7.78/hour, a person only makes \$15,560. Additional cuts to funding for Affordable housing will reduce the availability of new affordable housing for the homeless, persons with disabilities and the working poor. A 5% cut, equals a loss of \$31,000 for administrative expenses and a loss of \$417,000 funds for housing, which equates to 1,900 fewer families being served and housed.

Section 8 Program - Housing Assistance Payments:

- A five percent reduction in the dollars allocated to rental payments would be accomplished through attrition resulting in fewer people assisted.
 - Administrative fees:
 - A five percent reduction in the administrative fees can be realized using vacancy savings and/or operational cost containment.
- Daily Operations - In the event of a 5% reduction, which we have already seen in most of our Federal Programs, the Division of Housing would or have taken the following approach to continue operations:
 - Reduce Mailings / Fed-Ex costs
 - Reduce travel costs by creating field offices which allows staff to conduct same day travels as opposed to overnight stays
 - Cut back on membership fees where possible
 - Attend / conduct more webinar trainings allowing DOH to cut back on travel costs
 - Limit trainings where possible without negatively affecting the integrity of the programs and / or staff.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

The Mission of the Division of Local Government is to provide high quality technical and financial assistance services to local governments and communities throughout Colorado to enable them to achieve sustainable community development. One of the division's goals (goal #4) is to improve local government's capacity to administer and implement grants awarded. A decrease in funding through sequestration would result in a reduction in the amount of funds available to help address local government's priorities. Specifically, input measures would be changed from:

Input Measures in the Strategic Plan would be affected as follows:

For 25% reduction:

Reduce projected Competitive grant dollars available from 93.0 mil to 78.7 mil.
Reduce projected Formula grant dollars available from \$123.0 mil to \$112.3 mil.

Outcome Measures in the Strategic Plan would be affected as follows:

For 25% reduction:

Reduce projected Competitive Dollars Leveraged from \$100 mil to \$71.5 mil.
Reduce Estimated New Jobs Created by Competitive Grants with leverage from 1,703 to 1,439.

Following is a breakdown by federal grant:

Community Services Block Grant – CSBG CFDA 93.569

- 25% reduction Output: Formula grants to eligible entities would be reduced. Outcome: approximately 42,611 few low-income people will be served throughout Colorado.

Community Development Block Grant – CDBG CFDA 14,228

- 25% reduction Output: DOLA would be unable to fund 5 infrastructure projects in rural Colorado. These grants are made to low and moderate income towns or counties and impacts the sustainability of their communities. Outcome: Assuming a dollar-for-dollar leverage, approximately 30 fewer jobs would be created.

Federal Mineral Lease – FML

- 25% reduction Output: DOLA would be unable to fund 13 one million dollar grants. These grants are typically for water, sewer, roads or other large infrastructure requests that impact the livability and sustainability of communities throughout the state. Outcome: Leverage for these large scale projects varies. Assuming a 2:1 leverage to grant ratio, 234 fewer jobs would be created.

EPA Water/Sewer File Project – CWSRF and DWSRF

- 25% reduction Output: DOLA's capacity to evaluate the financial capacity, support the application process, improve customer accountability and management procedures of communities seeking to comply with the Clean Water Act and the Safe Drinking Water Act would be reduced. Outcome: For 2012, the programs processed 32 requests for funding from applicants, at an average cost of \$9,017 per applicant. A 25% funding reduction would remove \$12,356 from the program's budget for application processing.

Since 2010, the Division of Housing (DOH) has had a nearly 50% reduction in its Federal HOME program. This took DOH from \$8.4 million to \$4.3 million. HUD allows 10% of HOME funds to be used for administrative costs. The reduction in funds has already caused a loss of more than \$400,000 of administrative funding. Although the funding has been cut, the statutory program requirements have been diminished and often require long-term monitoring of programs up to 30 years. Additionally, DOH manages Community Development Block Grant (CDBG), Emergency Solutions Grants (ESG) and Housing Opportunities for Persons with Aids (HOPWA). These other Federal programs have been cut through sequestration averaging a 5% cut. DOH has worked through these cuts through attrition and by not filling vacancies. Additionally, reserves have been tapped to also cover shortages. Any additional cuts would reduce staff further. The mission of DOH is to improve the access of all Coloradans to decent, affordable housing. With rental vacancy rates at 13 year lows nearing 4% and the average rent exceeding \$1,000, the need for affordable rental housing is compounding. Among renter households making \$20,000 or less (\$20,000 = approx. 34% Area Median Income), there are 142,000 households paying 35% or more of their income toward housing. At Colorado's minimum wage of \$7.78/hour, a person only makes \$15,560. Additional cuts to funding for affordable housing will reduce the availability of new affordable housing for the homeless, persons with disabilities and the working poor. A 25% cut, equals a loss of \$155,000 dollars for administrative costs and a loss of \$2,082,000 for housing, which equates to 9,680 fewer families being served and housed.

Section 8 Program - Housing Assistance Payments:

- A twenty-five percent decrease in the dollars allocated to rental payments would result in:
 - An immediate halt to all leasing
 - Possible adjustment of the payment standard resulting in program participants paying a larger share of their income towards rent and utilities.
 - Possible decrease of the number of bedrooms allocated to a family resulting in families residing in smaller units.
 - Termination of families from the program
 - .Administrative fees:
 - A twenty-five percent reduction in the administrative fees can be realized using vacancy savings and/or operational cost containment.
 - When staff turnover occurs, vacancies will not be filled.
 - No travel or training expenses will be approved.
 - Decrease in the dollars allocated to contractors.
- Daily Operations - In the event of a 25% reduction, which we have seen in 2013 in most of our Federal Programs, the Division of Housing would or have taken the following approach to continue operations:
 - All of the same items mentioned in I-C above in addition to the following:
 - Vacancy Savings – through attrition where possible
 - Extend term for replacement of computer equipment from 3 to 5 years
 - Join forces with other agencies who perform similar functions
 - Split staff costs with CHFA and others agencies who all conduct HUD monitoring. Currently we have 1 staff member who is 75% employed by DOH and 25% employed by CHFA
 - Outsource tasks when feasible and / or allowed
 - o Such as outsourcing HQS inspector and Certified Electrician for the Building Manufactured Section
 - Apply for additional HUD grants and / or programs from other state entities such as administering programs for the Governor's energy office
 - Reduce cost of printing by enforcing EFT payments for checks, which will ultimately reduce the cost of copy paper and toner cartridges
 - Request lower indirect rates or request general funds to cover a portion of the indirect costs
 - Request general funds to cover personal and operational costs

OXX - Department of Military Affairs

Percentage of federal funds in relation to total funds: 58.42%

Operating Plan with a Five Percent Reduction in Federal Funds

DMVA received approximately 83.5% (\$19,288,849) of its funding from Federal sources during State Fiscal Year 2013. Of those funds, 94.9% were received directly. Approximately 33%, or \$6,395,875, was for previously appropriated multi-year military construction contracts that were completed or nearly completed by June 30. These are separately funded projects with less than 10% of the total project funding remaining and will not likely be cut because of the nature of the projects.

The remaining \$12,892,974 in federal revenues was for personal services, operations and maintenance costs. DMVA has a Master Cooperative Agreement with NGB for most of the federal funding. The individual programs in the MCA have, 1) all personnel costs, 2) all operational costs, or 3) mixed between personnel and operational costs. The MCA programs pay a between 50% and 100% of costs currently depending upon the program and nature of the activity. In the event of a 5% cut to personnel services funding, the Department would find savings in vacancies, cut personnel, or pay a higher percentage of the costs with general fund where allowed. Cuts to operations funding would either require more State share, or reduce some types of maintenance activities that would put facilities at risk of damage. The decisions would be driven by how the Longbill line is funded. For those lines that are only 100% Federal, program cuts for personal services and operations would be mandatory. DMVA receives one grant as a sub-recipient that pays for two persons. Funding cuts would require a reduction in staffing. The Department of Veterans Affairs pays a flat rate for burials at our cemetery in Grand Junction. The cemetery is operated out of a cash fund that has sufficient fund balance to support a short term federal funding cut. Long-term cuts would likely require general fund support.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

The majority of federal funds are used to support the National Guard facilities and missions. Cuts in federal funding could be devastating to the department. Should the National Guard Bureau reduce the number of authorized troops, DMVA could be compelled to close older armories, maintenance shops and training centers. In addition, closure of newer facilities less than 25 years old would compel the State to pay back a portion of construction costs to the NGB. Approximately 60% of the Human Resources, Accounting, and Purchasing offices are supported at least 50% by federal funding. Without additional State funding, staffing cuts would be required, which will have a detrimental impact on internal controls and timely processing. Force reductions would require leave balance pay-outs that would likely require general fund support.

The effects of a 25% federal funding cut are far reaching. MCA 100% funded facilities programs would reduce operations and maintenance to emergency and minimal sustainment requirements. Personal services would require a reduction in work force.

DMVA has two 100% federally funded physical security programs required by post 9/11 legislation. These are nearly 100% personal services and would require a 25% cut in staffing. Facilities would have to adapt limited operations hours, or require alternative facility access capability. These forces protect military installations.

In addition to physical security, DMVA receives 100% federal funds for electronic security. The security systems are essential to protect military assets and would require the State cover the additional costs.

The Air Traffic Controllers program for the tower at Buckley AFB is 100% federally funded state employees. A reduction to this program would require reductions in state staff and shut the tower down. This would produce a major state security risk as the tower controls functions such as emergency alert fighters and National Guard support of emergencies such as the recent wild fires and flood.

DMVA has 2 environmental evaluation programs, one 100% federally funded and one 80% federally funded. Both are primarily for personal services, which would require a 25% reduction in force for the 100% program and either a reduction in force or additional State share for the 80% program.

Telecommunications personal services and related travel are funded 100% with federal funds. The personnel support a federal communications system. The direct impact beyond the force reduction is unclear.

The National Guard has a practice range supported by 100% federally reimbursed personnel and some operations costs. A reduction in operations hours and staffing would occur.

Two counter drug programs are supported 100% with federal funds. One program is received through the MCA, the other through a Homeland Security grant. In each case the costs are personnel related and would require either the elimination of the program, or a reduction in force.

The MCA supported administrative activities include 100% federally supported mail and archive services. This includes a facility mail clerk and state courier service. These costs would have to be paid with general fund.

The final area of federal support is for burial services at the State Military Cemetery in Grand Junction. The Cemetery is supported by donation, interest and \$700 per internment. The fund balance is sufficient for short-term sustainment but would limit the replacement of aging equipment. A long-term cut would likely require general fund support for operations and personnel costs. The cemetery was constructed with federal funds and is required to operate for at least 25 years or the state must pay back a prorated portion of the construction costs. The cemetery has operated 11 of the 25 required years.

DMVA has an ongoing military construction project to build an armory at Alamosa that is funded with 75% federal support. The project is about 90% complete and is supported by special multi-year funding similar to our capital construction fund. It is unlikely that the project would be cut at this point. Loss of 25% of federal funding would require the state to pick up the remaining costs, which would amount to approximately \$170,000.

PXX - Department of Natural Resources

Percentage of federal funds in relation to total funds: 8.06%

Operating Plan with a Five Percent Reduction in Federal Funds

Coal Regulatory Program/Blasters Certification Program: Office of Surfacing Mining (OSM) Grant - 5% reduction = \$150,710 (\$119,060 federal funds and \$31,650 matching state cash funds)

A 5% reduction in both federal funds and the required cash matching funds would not jeopardize fundamental program operation or state primacy. The impact would reduce improvement projects such as e-permitting, permit system/imaging enhancements and equipment purchases. The reduction would eventually degrade program operations, but would not prevent permitting, inspection and enforcement operations nor result in FTE reductions.

Inactive Mine Reclamation Program: Office of Surface Mining (OSM) Grant - 5% reduction = \$430,000, Bureau of Land Management (BLM)/U.S. Forest Service (USFS) Grants - 5% reduction = \$300,000

Revenue request: A request for state severance tax cash funds for a portion of the reduction would be considered to maintain a judicious pace of addressing abandoned mine hazards. Such a request would be contingent on approvals from the Governor's Office and the General Assembly. Further, such request would likely be based on the overall budget situation within the Operational Account of the Severance Tax Trust Fund.

Cost reduction: A 5% Federal cut would result in slightly reduced total numbers of hazardous abandoned mine features and environmental problems the program is able to reclaim and safeguard each year. A corresponding decrease in the program's existing levels of contractual expenditures for outsourced engineering, construction oversight and outreach activities would absorb the cuts. There would be no effect on FTE.

Mine Safety and Training Program: Mine Safety and Health Administration (MSHA) – 5% reduction = \$10,500, \$5,000 – eliminate all out of state travel, \$5,000 – reduce support provided to the Colorado Front Range Mine Rescue teams, \$500 – reduce general operating and supplies costs

The 5% reduction would not impact the number of safety/health trainings MSTP provides to Colorado miners. The reductions would limit equipment and material needs of mine rescue teams in Colorado and the program's involvement in national meetings held by MSHA.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

Coal Regulatory Program/Blasters Certification Program: OSM Grant-25% reduction = \$753,545 (\$595,300 federal funds and \$158,245 matching state cash funds)

Revenue Request: A request for state severance tax cash funds would be considered to protect the state primacy of the Coal Program by avoiding FTE reductions. Such a request would be contingent on approvals from the Governor's Office and the General Assembly.

Cost Reduction: This magnitude of federal funds and cash match reduction would debilitate basic program functions including permitting, inspection and enforcement. The 5% reduction described above would account for \$150,000 of the \$753,500 total reduction. The additional \$500,000 amount would be comprised of a staff reduction of approximately 5.0 FTE and the associated operating expenses. This is a 30% reduction in the program's regulatory staff and functions. Such a staff reduction would result in unattended permitting actions, missed inspections, and likely mine site non-compliance issues, which would lead to off-site impacts to areas adjacent to mines and related litigation losses. An OSM/federal government takeover of the program would become likely. Such a loss of regulatory primacy in the state would result in direct federal regulation of Colorado's coal mines and disqualifies Colorado from obtaining OSM funds for the Inactive Mine Regulation Program.

Inactive Mine Reclamation Program: OSM Grant - 25% reduction = \$2.15 million, BLM/USFS Grants - 25% reduction = \$1.5 million

Revenue request: A request for state severance tax cash funds for a portion of the reduction would be considered to maintain a judicious pace of addressing abandoned mine hazards. Such a request would be contingent on approvals from the Governor's Office and the General Assembly. Further, such request would likely be based on the overall budget situation within the Operational Account of the Severance Tax Trust Fund.

Cost reduction: A 25% reduction in federal funds would result in a reduction of approximately 100 hazardous abandoned mine features the program is able to reclaim and safeguard each year. A portion of the reduction could be absorbed by discontinuing all ongoing contractual expenditures for outsourced engineering, construction oversight and outreach activities. The program would refocus some of its staff resources to ongoing hardrock environmental reclamation projects funded from non-federal sources. Anticipated staff turn-over within the next 5 years would not be backfilled*.

**Federal OSM funds are scheduled for reduction from 2013 through 2015 due to formulaic decreases in OSM's "pay-back" program. IMRP has planned for this reduction and it would not have an immediate effect on program FTE levels (layoffs) due to anticipated staff turn-over.*

Mine Safety and Training Program: Mine Safety and Health Administration (MSHA) – 25% reduction = \$52,600, \$5,000 – reduce field supplies costs, \$5,000 – eliminate all out of state travel, \$5,000 – reduce support provided to the Colorado Front Range Mine Rescue teams, \$15,000 – terminate annual agreement with Colorado School of Mines for use of the Edgar Underground Mine Training facility – groups of miners/rescue teams trained by MSTP would be required to pay for the facility charge, \$22,600 – 0.25 FTE reduction

Revenue Request: A request for state severance tax cash funds would be considered to protect the program from FTE reductions. Such a request would be contingent on approvals from the Governor's Office and the General Assembly.

Cost Reduction: Fewer safety/health trainings for miners would be conducted annually due to the staff reduction and Colorado School of Mines would be impacted by the loss of \$15,000 to support maintenance of the underground training facility. Impacts identified under "MSTP-5%" scenario also apply.

RAA - Department of Public Safety

Percentage of federal funds in relation to total funds: 25.81%

Operating Plan with a Five Percent Reduction in Federal Funds

Currently, federal funds comprise approximately 21% of the department's budget. This has increased over fiscal year 2012 which is primarily attributable to the transfer of homeland security, emergency management and wild land fire management programs to the department. The federal assistance we receive supplements and does not supplant program funding. Any reduction in funding impacts the department as well as subrecipients who rely on federal grants in providing essential services. The general trend in the department is that federal funding is declining which places stress on our finances and increases the risk that reductions of staff will be likely. The department makes every effort to reallocate administrative allotments within the federal regulations and locate operational efficiencies to avoid staffing reductions at the 5% level. Available funds from the American Recovery and Reinvestment Act (ARRA) have been depleted and two (2) grant positions have been eliminated while two (2) other employees who worked on the ARRA grants have been reassigned to other programs that had vacancies. Some of our federal assistance pays for employee overtime in support of activities conducted by law enforcement and terrorism task forces. Decreases in these overtime grants would mean a corresponding reduction on our personnel's participation in crucial task force activities.

Continued annual cuts in federal funding may push reductions beyond the five percent (5%) level which limits the department's ability to effectively manage program goals and objectives and is viewed by grant administrators as a warning sign for the future. At the present time, a sufficient level of flexibility exists to allow program managers to deliver critical services to the state's citizens.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

Currently, federal funds comprise approximately 21% of the department's budget. This has increased over fiscal year 2012 which is primarily attributable to the transfer of homeland security, emergency management and wild land fire management programs to the department. The federal assistance we receive supplements and does not supplant program funding. A reduction of 25% or more in funding would demand major adjustments to operating plans and budgets. Administrative and program staff would need to be cut, services in support of the programs would be curtailed and purchases of supplies would be reduced. In addition, awards to subrecipients would also decline accordingly.

A reduction in federal grants of at least one-fourth leaves program managers with very little flexibility will impair the department's ability to provide essential services and jeopardizes public safety over the long term.

SXX - Department of Regulatory Agencies

Percentage of federal funds in relation to total funds: 4.97%

Operating Plan with a Five Percent Reduction in Federal Funds

CCRD (Colorado Civil Rights Division) would absorb a 5% reduction in federal funds from EEOC by limiting its use of operating budget dollars and vacancy savings.

CCRD (Colorado Civil Rights Division) would absorb a 5% reduction in federal funds from HUD by limiting its use of operating budget dollars and vacancy savings.

A 5% reduction in Senior Health Insurance Program (SHIP) funding would translate into a reduction in annual planning meetings and/or a reduction in discretionary expenses such as printing of educational materials for consumers.

A 5% reduction in Senior Medicare Patrol (SMP) funding would result in a reduction in annual planning meetings and reduction in printing of consumer education materials.

A 5% reduction in Capacity Building funding would result in a reduction in consumer advertising.

Division of Insurance: All employees hired with grant funds are term-limited state employees and are aware that their employment ends at the end of the grant period in 2014, or sooner if federal funding is lost. Contractors hired with these grant funds are hired with specific start and end dates or on an as-needed basis. There is also standard language in all forms that obligate the state to the effect that if the funding changes or ends, the obligation ends.

The loss of federal funding would have an impact on the Division of Insurance if the grant-funded staff and any contractors/vendors were no longer able to perform the duties required by the grant and the requirements of the Affordable Care Act (ACA). The Division may be able to absorb a portion of the grant-funded staff if vacancy savings exist or additional funding is received from the General Assembly.

Public Utilities Commission:

- GAS PIPELINE: It is expected that a 5% reduction could be accommodated within existing resources, and no specific plan would be required.
- GAPS One-Call Center: This is a one-time Grant that will be completed by the end of Calendar Year 2014. It is expected that a 5% reduction could be accommodated within existing resources and no specific plan would be required.
- E-911 GRANT PROGRAM: The E-911 Grant program expired on September 30, 2012 and States may not incur costs for reimbursement from the Grant program past the expiration date. Since the 911 systems are under local jurisdiction and not statewide agency, the reduction of federal money will not impact state budget or operations concerns.
- SERA: This Grant was intended to be a temporary supplement to State appropriations. We are in the later phase of this grant and a 5% reduction in the grant would not affect the program. The Grant expires in September 2013.

Division of Registrations: The Prescription Drug Monitoring Program (PDMP) is funded for day to day operations from a fee attached to the licenses of controlled substance prescribers. Consequently, should the amount of money be reduced by 5%, there will be no impact on the program except that the enhancements to the program funded by the federal moneys may not be completed. The program will remain operational.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

A 25% reduction would be an entirely different matter since CCRD would have to evaluate the viability of the existing program and possible staff reductions. A specific plan at this time must be characterized in general terms, because it would depend on how many cases were completed under the revised federal contract at a rate that is 25% less. However, such a large reduction in the rate per completed case would certainly require some combination of eliminating positions, closing regional offices, and/or reverting the entire program to federal enforcement.

A 25% reduction would be an entirely different matter since CCRD would have to evaluate the viability of the existing program and possible staff reductions. A specific plan at this time must be characterized in general terms, because it would depend on how many cases were completed under the revised federal contract at a rate that is 25% less. However, such a large reduction in the rate per completed case would certainly require some combination of eliminating positions, closing regional offices, and/or reverting the entire program to federal enforcement.

The first option would be to seek a replacement source of funding. Barring that, a 25% reduction in SHIP funding would produce a significant change the number of sub-grantees in Colorado cities and towns that work directly with consumers and/or a reduction in their level of support. We would also cut back significantly on face to face counselor trainings around the state, eliminate annual planning meetings, and reduce FTEs in the Division of Insurance office.

A 25% reduction in SMP funding would translate to the elimination of annual planning meetings, reductions in printing, supplies, mailings, reduction in the funding of sub-grantees and a reduction in FTEs in the Division of Insurance office.

A 25% reduction in Capacity Building funding would mean a corresponding reduction of Hispanic Outreach and a reduction in funding to sub-grantees.

Division of Insurance: The same applies as the 5% scenario, however, the Division does not foresee a circumstance when they would have the vacancy savings available to absorb a 25% cut, therefore the impact to the Division would be greater as existing staff would be unable absorb the additional duties required by the grant and the requirements of the ACA.

Public Utilities Commission:

- **GAS PIPELINE:** Response would depend. Statutorily, regulated utilities may not be billed for regulation beyond 2/10th of 1% of their gross intrastate operating revenue. The revenue multiplier can be adjusted below this cap. If the 25% reduction would cause the multiplier to go beyond the cap, the PUC could not absorb the expenses and administrative actions would be necessary. Although it would be a violation of the US DOT Pipeline Safety Certification, such administrative actions would be expected to include the reduction/discontinuance of inspecting propane systems (unless they have filed for a CPCN and are a "utility"), and the reduction/discontinuance of inspecting any gathering pipeline operator because they are not "utilities." If such a reduction would not cause the multiplier to reach the cap then other utilities would absorb the additional expense of pipeline regulation with no net impact to the program.
- **GAPS One-Call Center:** This is a one-time Grant that will be completed by the end of Calendar Year 2014. In the event of a 25% reduction, the Commission would take action to limit its use of outside expertise to conduct data analysis and methods development.
- **E-911 GRANT PROGRAM:** See above.
- **SERA:** In the event of a 25% reduction, the Commission would take action to limit its use of outside expertise on dockets before the Commission. However, there are currently limited funds available as this Grant expires in September 2013.
- **The Prescription Drug Monitoring Program (PDMP)** is funded for day to day operations from a fee attached to the licenses of controlled substance prescribers. Consequently, should the amount of money be reduced by 25%, there will be no impact on the program except that the enhancements to the program funded by the federal moneys may not be completed. The program will remain operational.

TXX - Department of Revenue

Percentage of federal funds in relation to total funds: 0.16%

Operating Plan with a Five Percent Reduction in Federal Funds

If the Division of Motor Vehicles were to receive a grant reduction of any kind due to a reduction in federal funding, the applicable project budget would be reduced by that amount. All grants managed by the Division of Motor Vehicles are special purpose grants designed to specifically fund a project or program for a set amount of time. The budget is developed based on the scope of the proposed project and the scope would need to be adjusted to reflect any reductions. For example, when the notice of available funds is published from a federal agency, the Department develops a project plan that fits within the scope of the approved program areas and a budget that is reasonably accommodated by available funding. If the amount available is reduced, the project scope would be scaled back to reflect the reductions.

If there were a 5% reduction in EUDL funding for the Liquor Enforcement Division, the Division would not be able to conduct operations at the same level as in the past eight years. These operations serve as a deterrent for retail establishments and for minors attending major venue events. It is anticipated that the violation rate for underage sales and minors in possession may increase if the current level of enforcement is not maintained.

The Division would submit a funding request to obtain additional personal services funding to allow it to sustain the level of operations made possible by use of federal funds for overtime and minor operatives.

A 5% decrease in funding to the Tax Division—Mineral Audit Section could be absorbed by reducing the federal audit work plan coverage.

At this time, the Department does not manage any ARRA funding.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

If the Division of Motor Vehicles were to receive a grant reduction of any kind due to a reduction in federal funding, the applicable project budget would simply be reduced by that amount. All grants managed by the Division of Motor Vehicles are special purpose grants designed to specifically fund a project or program for a set amount of time. The budget is developed based on the scope of the proposed project and the scope would need to be adjusted to reflect any reductions. For example, when the notice of available funds is published from a federal agency, the Department develops a project plan that fits within the scope of the approved program areas and a budget that is reasonably accommodated by available funding. If the amount available is reduced, the project scope would be scaled back to reflect the reductions.

UHA - Department of Health Care Policy and Financing

Percentage of federal funds in relation to total funds: 43.97%

Operating Plan with a Five Percent Reduction in Federal Funds

The Department receives federal funding for the Medicaid and CHIP programs according to a specific formula in the Social Security Act, whereby the Department receives the least amount of federal funding possible under the formula. It is unlikely that Congress would reduce the federal financial participation rate without also changing other federal requirements for Medicaid or CHIP. Those changes would determine how the Department would respond to a change in federal financing, and they cannot be determined ahead of time. Further, the Department's coverage for optional services under these programs are determined in state statute. The Department cannot unilaterally eliminate benefits or covered populations without a legislative directive. The Department would use the existing budget and legislative processes to collaboratively determine, with stakeholders and the General Assembly, how to proceed in the event of a unilateral reduction in federal funding.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

The Department receives federal funding for the Medicaid and CHIP programs according to a specific formula in the Social Security Act, whereby the Department receives the least amount of federal funding possible under the formula. It is unlikely that Congress would reduce the federal financial participation rate without also changing other federal requirements for Medicaid or CHIP. Those changes would determine how the Department would respond to a change in federal financing, and they cannot be determined ahead of time. Further, the Department's coverage for optional services under these programs are determined in state statute. The Department cannot unilaterally eliminate benefits or covered populations without a legislative directive. The Department would use the existing budget and legislative processes to collaboratively determine, with stakeholders and the General Assembly, how to proceed in the event of a unilateral reduction in federal funding.

VAA - Secretary of State

Percentage of federal funds in relation to total funds: 5.84%

Operating Plan with a Five Percent Reduction in Federal Funds

Not applicable, as reported in the prior year, the HAVA funds the department received are now re-appropriated CF. The funds are projected to go through 2017 with no indication of getting additional funds at this point.

WXX - Department of Treasury

Percentage of federal funds in relation to total funds: 6.19%

Operating Plan with a Five Percent Reduction in Federal Funds

Dept. of Education: All of the Federal Mineral Leasing (FML) funds appropriated to the Department of Education are sent to school districts based on a formula defined by the Public School Finance Act of 1994. Therefore, if the FML funds decrease by 5%, the school districts would receive less funds. To maintain funding levels for School Districts, the General Assembly would have to find other general purpose revenue sources to replace the 5% reduction.

Dept. of Higher Education: If there were a 5% reduction to moneys transferred to the Higher Education Federal Mineral Lease Revenue Fund, it might be necessary to use funds held in the Higher Education Maintenance and Reserve Fund to make the required COP debt service payments. Thus, there would be less money available in the Maintenance and Reserve Fund to cover General Fund revenue shortfalls.

Dept. of Local Affairs: The impact would be a reduction of dollars to direct distribution and less dollars for the competitive grant program. A reduction would impact local government customers that receive direct distribution. 40% of the total funding by formula is reserved for Direct Distribution with the remaining dollars dedicated to competitive grants. A reduction in direct distribution dollars would have a significant negative impact on local governments who have become reliant on these dollars to supplement their budget for operating expenses as well as capital improvements. In regard to the dollars available for competitive grants, this reduction would reduce the dollars available for competitive grants, which vary from \$25,000 to \$1,000,000. Four additional \$1,000,000 grants would not be funded due to this reduction.

Dept. of Natural Resources: Given the formulaic nature of how this money is distributed, the Department thinks this federal revenue stream is not likely to be reduced as a discretionary federal budget reduction (although fluctuations in this revenue stream related to market issues, such as changes in the prices of oil and gas, are quite common). Regardless, if this revenue source were to be reduced by 5%, the Department would reduce the amount of non-reimbursable grants and water project loans made by that same amount.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

Dept. of Education: All of the Federal Mineral Leasing (FML) funds appropriated to the Department of Education are sent to school districts based on a formula defined by the Public School Finance Act of 1994. Therefore, if the FML funds decrease by 25%, the school districts would receive less funds. To maintain funding levels for School Districts, the General Assembly would have to find other general purpose revenue sources to replace the 25% reduction.

Dept. of Higher Education: If there were a 25% reduction to moneys transferred to the Higher Education Federal Mineral Lease Revenue Fund, it would be necessary to use funds held in the Higher Education Maintenance and Reserve Fund to make the required COP debt service payments. Thus, there would be less money available in the Maintenance and Reserve Fund to cover General Fund revenue shortfalls.

Dept. of Local Affairs: The impact would be a reduction of dollars to direct distribution and less dollars for the competitive grant program. A reduction would impact local government customers that receive direct distribution. 40% of the total funding by formula is reserved for Direct Distribution with the remaining dollars dedicated to competitive grants. A reduction in direct distribution dollars would have a significant negative impact on local governments who have become reliant on these dollars to supplement their budget for operating expenses as well as capital improvements. In regard to the dollars available for competitive grants, this reduction would reduce the dollars available for competitive grants, which vary from \$25,000 to \$1,000,000. Twenty additional \$1,000,000 grants would not be funded due to this reduction.

Dept. of Natural Resources: Similar to the scenario above, if this revenue source were reduced by 25%, the Department would reduce the amount of non-reimbursable grants and water project loans made by a like amount. At this higher level, it is very likely that a significant portion of the reduction would specifically be to water project loans. As the Colorado Water Conservation Board generally budgets water project loans based on cash-on-hand (not cash projected to arrive by year end), it would be fairly easy to reduce water project loans if less FML revenue were to arrive than was expected. While it would be easy to budget for such reductions, a reduction in water project loan funding would certainly make it more difficult programmatically to plan for and meet the projected future water supply needs of a growing state.
