

COLORADO
Office of the State Controller
Department of Personnel
& Administration

November 3, 2014

The Honorable Mark Ferrandino
Speaker of the House
Colorado General Assembly

The Honorable Morgan Carroll
President of the Senate
Colorado General Assembly

Dear Sir and Madam,

In accordance with CRS 24-75-212, we submit the Report of Federal Assistance as Reported by Colorado State Agencies for the fiscal year ending June 30, 2014. All agencies substantially complied with the reporting requirements. Select elements captioned "Not Reported" indicates that an element was required but not provided in a manner sufficient for the Office of the State Controller to include in the report.

The Fiscal Year 2014 federal expenditures were \$9.379 billion, and have increased from the Fiscal Year 2013 expenditures by approximately \$498 million. This primarily relates to an increase of \$830 million in expenditures at the Department of Health Care Policy and Financing, which was partially offset by a decrease of \$292 million in Unemployment Insurance assistance.

The attached schedule was compiled from information provided by state agencies and has not been audited or verified by our office. However, the State Auditor will audit the data supporting the schedule as part of the Statewide Single Audit, and any audit adjustments will be incorporated in the final Schedule of Expenditures of Federal Awards (SEFA) printed in the Auditor's Single Audit Report, in the format prescribed by the Federal government.

If you have any questions concerning this report please contact Tammy Nelson at 303.866.2659.

Sincerely,

Robert Jaros, CPA, MBA, JD
State Controller

Cc: Henry Sobanet

DAA							
DEPARTMENT OF EDUCATION							
10.555							
DAA	10.555	National School Lunch Program (NLSP)	FOOD AND CONSUMER SERVICE, DEPARTMENT OF AGRICULTURE	\$3,417,600	0.00%	National School Lunch Program--The USDA provides funds to the CDE Office of School Nutrition (OSN) for the National School Lunch Program. School districts across the state serve reimbursable meals (meeting strict criteria) each day to enrolled students and then file a reimbursement claim with the OSN. The OSN pays these claims on a monthly basis, and school districts use the funds especially to pay for the costs of food and labor. All lunch funds received by CDE go directly to school districts for reimbursement.	\$2,472,644 matching funds are required and appropriated for this grant in Fund 1130 APPR 5540.
10.559							
DAA	10.559	Summer Food Service Program for Children	FOOD AND CONSUMER SERVICE, DEPARTMENT OF AGRICULTURE	\$102,104	9.62%	Summer Food Service Program--The USDA provides funds to the CDE Office of School Nutrition (OSN) for the Summer Food Service Program. About 75 sponsors (school districts and other organizations) participate in the program, providing meals to school children when school is out of session. These sponsors file a reimbursement claim with the OSN. The OSN pays these claims on a monthly basis, and sponsors use the funds to pay for the cost of the program (administrative and operating expenses). Funds received by CDE from the USDA go to sponsors for reimbursement and also cover the state administrative expense for running this program.	None
10.560							
DAA	10.560	State Administrative Expenses for Child Nutrition	FOOD AND CONSUMER SERVICE, DEPARTMENT OF AGRICULTURE	\$1,590,259	8.10%	State Administrative Expenses (SAE)--The USDA provides funds to the CDE Office of School Nutrition (OSN) to cover the state administrative expense for running the Child Nutrition Programs. These funds are used to pay salaries, cover the cost of training and workshops, fund the cost of developing materials and resources for school districts, and provide for other administrative expenses. SAE is also used for supporting the system used by the OSN and school districts for reimbursement.	None

10.579							
DAA	10.579	Child Nutrition Discretionary Grants Limited Availability	FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE	\$64,495	1.79%	Direct Certification Grant -- The USDA provides funds to the CDE Office of School Nutrition (OSN) to assist States agencies in improving their direct certification processes and rates.	None
10.582							
DAA	10.582	Fresh Fruit and Vegetable Program	FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE	\$57,644	1.64%	School Fresh Fruit & Veg--The USDA provides funds to the CDE Office of School Nutrition for the Fresh Fruit and Vegetable Program. Elementary schools with high free and reduced eligibility percentages are eligible to apply annually. Selected schools provide fresh fruits and vegetables during the school day to enrolled students, outside of breakfast and lunch times. The schools' respective districts file a reimbursement claim with the OSN. The OSN pays these claims on a monthly basis, and districts use the funds primarily to pay for food costs. 10% of the reimbursement may be used for administrative expenses. Funds received by CDE from the USDA go directly to school districts for reimbursement.	None
11.557							
DAA	11.557	Broadband Technology Opportunities Program (BTOP)	DEPARTMENT OF COMMERCE	\$3,852	9.62%	The Colorado State Library has partnered with Native American tribes and its neediest libraries to enhance public computer access at 88 locations in low-income, diverse and underserved areas. Additional partnerships include community organizations and state agencies that have worked with libraries to deliver programming to meet identified needs of residents for computer/Internet skills training, education, workforce development and improve access for the disabled.	None

84.010							
DAA	84.010	Title I Grants to Local Educational Agencies	OFFICE OF ELEMENTARY AND SECONDARY EDUCATION, DEPARTMENT OF EDUCATION	\$3,832,740	5.06%	Title I, Part A is the largest federal program supporting both elementary and secondary education. The program's resources are allocated based upon the poverty rates of students enrolled in schools and districts and are designed to help ensure that all children meet challenging state academic standards.	None
84.011							
DAA	84.011	Migrant Education: State Grant Program	OFFICE OF ELEMENTARY AND SECONDARY EDUCATION, DEPARTMENT OF EDUCATION	\$1,079,136	9.31%	The purpose of these funds are to provide supplemental academic and social services to migrant students and families. 72% of the total funds are used as sub-grants to local education agencies or BOCES serving a migrant region of the state. They used these funds to provide supplemental academic support through direct instruction, tutoring, GED prep, or other educational programming needed per our state needs assessment. A large part of the funds are used for identification and recruitment of students. Funds are also used for family literacy and social services (i.e. dental care, glasses, healthcare, counseling, etc). The other 18% of the funds are used for a combination of state administration of the grant and state activities to support the regions and their staff. Administration includes, but not limited to, applications, monitoring of regions, state training, state parent advisory councils, re-interviewing of families for quality control, data management, professional development for regional staff, and travel for required federal meetings. The state activities include professional development for capacity building, assistance with identification and recruitment, conducting a state needs assessment and service delivery plan, as well as evaluation of the program.	None
84.013							
DAA	84.013	Title I State Agency Program for Neglected and Delinquent Children	OFFICE OF ELEMENTARY AND SECONDARY EDUCATION, DEPARTMENT OF EDUCATION	\$479,439	0.00%	Title I, Part D provides funds for youth in state-operated institutions or community day programs. It also provides assistance to school districts who work with local correctional facilities. Colorado receives formula funds based on the number of students in state institutions and costs per pupil.	None

84.287							
DAA	84.287	Twenty-First Century Community Learning Centers	OFFICE OF EDUCATION RESEARCH AND IMPROVEMENT, DEPARTMENT OF EDUCATION	\$1,329,361	4.98%	This grant program distributes funds to qualified applicants pursuant to Title IV, Part B, of the Elementary and Secondary Education Act (ESEA). Specifically the program provides opportunities for academic and enrichment programming, including tutorial services to help students (particularly students in high-poverty areas and those who attend low-performing schools) meet state and local student performance standards in core academic subjects such as reading and mathematics. It offers students a broad array of additional services and programs, such as youth development activities, drug and violence prevention programs, counseling programs, art, music, and recreation programs, STEM (Science, Technology, Engineering and Math) programs, and character education programs, that are designed to align with the school day. These out-of-school time programs most frequently occur before and after school and during the summer. The program also provides parent education and support for families of the children attending the 21st CCLC program.	None
84.323							
DAA	84.323	Special Education - State Personnel Development	OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES, DEPARTMENT OF EDUCATION	\$1,023,593	9.42%	The award to Colorado is used to improve professional development and coaching support for educators across the state, in order to improve academic and behavioral outcomes for students with disabilities. Funds were used for: hiring trainers and coaches with expertise in either academic or behavioral supports; room rental for trainings; travel and lodging for participants, trainers, and coaches; contracting with Parent/Family agencies to support family, school and community partnering; educational materials, and evaluation services.	None
84.326							
DAA	84.326	Special Education: Personnel Preparation to Improve Services and Results for Children with Disabilities	OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES, DEPARTMENT OF EDUCATION	\$133,569	8.89%	Funds have been used to provide technical assistance, professional development, monitoring, and general supervision activities to administrative units and state operated programs across the state, specific to programs and services for students with disabilities and identified as requiring special education and related services. Do we include flow through funding to AUs and SOPs here?	None

STATE AGENCY	CFDA	FEDERAL PROGRAM	FEDERAL AGENCY	EXPENSES	ADMIN EXPENSES	PURPOSE OF GRANT	OBLIGATIONS TO THE STATE OF COLORADO
84.330							
DAA	84.330	Advanced Placement Program (Advanced placement Test Fee; Advanced Placement Incentive Program Grants)	OFFICE OF ASSISTANT SECRETARY FOR ELEMENTARY AND SECONDARY EDUCATION, DEPARTMENT OF EDUCATION	\$362,700	0.00%	Funds have been used to provide for exam fees incurred by eligible students taking advanced placement or International Bacalaurrette exams.	None
84.358							
DAA	84.358	Rural Education	OFFICE OF ELEMENTARY AND SECONDARY EDUCATION, DEPARTMENT OF EDUCATION	\$22,539	9.63%	Part B of Title VI of the No Child Left Behind Act of 2001 establishes three separate Rural Education Achievement Program (REAP) initiatives. Each is designed to help rural districts that may lack the personnel and resources to compete effectively for federal competitive grants and that often receive grant allocations in amounts that are too small to be effective in meeting their intended purposes. The three initiatives are: <ul style="list-style-type: none"> •The Alternative Uses of Funds Authority •The Small, Rural School Grant Program •The Rural and Low-Income School Program 	None
84.360							
DAA	84.360	School Dropout Prevention Program	OFFICE OF ELEMENTARY AND SECONDARY EDUCATION, DEPARTMENT OF EDUCATION	\$719,301	7.12%	This grant represents a five-year, 14.1 million grant through the U.S. Department of Education's High School Graduation Initiative Program. This grant involves partnering with 55 Colorado high schools to increase graduation rates. There are two level of activities. Level 1 involves providing resources to 33 schools to implement dropout prevention and recovery projects that are research based and provide support, enrichment and motivation to students at risk of dropping out or that seek to reenter and complete school. Examples of services include: credit recovery programs, truancy interventions, review of school policies to determine if they are promoting a positive school climate and aligned with effective practices. Level 2 involves providing professional development and training opportunities for staff to build capacity in implementing best practices to decrease dropout rates. Examples include: training on early warning systems to identify students off-track to graduate and review of best practices in credit recovery.	None

66.802							
FAA	66.802	Superfund State, Political Subdivision, and Indian Tribe Site_Specific Cooperative Agreements	OFFICE OF SOLID WASTE AND EMERGENCY RESPONSE, ENVIRONMENTAL PROTECTION AGENCY	\$1,335	2.19%	This funding is to provide the State's participation in the federal Brownfields program. CDPHE uses these funds to coordinate cleanup efforts on brownfield sites working with EPA, local government agencies, developers and local communities. It helps to assure that there is not duplication of efforts between programs, and assists private and public developments of properties that have contamination issues that are complication development efforts.	The State would have no continuing obligation. We would continue operating the Colorado Brownfields Revolving Loan Fund (CBRLF) using program income, however we would no longer offer sub-grants to locals governments, and we have a limited pool of funds available for loans.
FAA	66.802	Superfund State, Political Subdivision, and Indian Tribe Site_Specific Cooperative Agreements	OFFICE OF SOLID WASTE AND EMERGENCY RESPONSE, ENVIRONMENTAL PROTECTION AGENCY	\$785,105	1.22%	This grant funds on-going response actions at the named mixed ownership sites.	The State would have no financial obligation if this funding ceased. However, environmental exposures would remain.
FAA	66.802	Superfund State, Political Subdivision, and Indian Tribe Site_Specific Cooperative Agreements	OFFICE OF SOLID WASTE AND EMERGENCY RESPONSE, ENVIRONMENTAL PROTECTION AGENCY	\$32,552	40.75%	This agreement provides funding for the construction and commissioning of a water treatment plant at the Central City/Clear Creek Superfund site.	The state is responsible for funding 10 percent of the cost of construction of the water treatment plant. Once the plant is operational, the state is responsible for 10 percent of the O&M costs for the first ten years of operation. After ten years the state is responsible for 100 percent of the operation and maintenance of the plant.
FAA	66.802	Superfund State, Political Subdivision, and Indian Tribe Site_Specific Cooperative Agreements	OFFICE OF SOLID WASTE AND EMERGENCY RESPONSE, ENVIRONMENTAL PROTECTION AGENCY	\$253,218	5.95%	Original purpose of the cooperative agreement was to fund the long-term operation and maintenance of the Central City/Clear Creek Operable Unit 3 Argo Tunnel Water Treatment Plant in Idaho Springs. The current project is to fund the construction of process improvements to the Plant in order to reduce operating costs and improve efficiency. Original purpose of the cooperative agreement was to fund the long-term operation and maintenance of the Central City/Clear Creek Operable Unit 3 Argo Tunnel Water Treatment Plant in Idaho Springs. The current project is to fund the construction of process improvements to the Plant in order to reduce operating costs and improve efficiency.	The state is responsible for funding 100 percent of the operation and maintenance of the plant. The state is responsible for funding 10 percent of the process improvements Project.

STATE AGENCY	CFDA	FEDERAL PROGRAM	FEDERAL AGENCY	EXPENSES	ADMIN EXPENSES	PURPOSE OF GRANT	OBLIGATIONS TO THE STATE OF COLORADO
FAA	66.802	Superfund State, Political Subdivision, and Indian Tribe Site_Specific Cooperative Agreements	OFFICE OF SOLID WASTE AND EMERGENCY RESPONSE, ENVIRONMENTAL PROTECTION AGENCY	\$367,387	12.98%	Clear Creek OU4 RA- To perform remedial action of Central City/Clear Creek Operable Unit 4. Actions include mine waste remediation and sediment control, mine water source control and passive treatment.	State has provided assurances to fund 10 percent of remedial actions and 100 percent of operation and maintenance.
FAA	66.802	Superfund State, Political Subdivision, and Indian Tribe Site_Specific Cooperative Agreements	OFFICE OF SOLID WASTE AND EMERGENCY RESPONSE, ENVIRONMENTAL PROTECTION AGENCY	\$30,484	19.59%	This grant funds surface remedial actions at the Captain Jack Superfund Site.	The State would have no continuing obligations. However, all clean-up work at the site would cease and environmental exposures would continue.
FAA	66.802	Superfund State, Political Subdivision, and Indian Tribe Site_Specific Cooperative Agreements	OFFICE OF SOLID WASTE AND EMERGENCY RESPONSE, ENVIRONMENTAL PROTECTION AGENCY	\$72,981	14.44%	This grant funds remedial action for OU-1 of the Chem Sales Superfund Site.	The State has no long-term obligations under this award and work at the Site would cease resulting in continuing environmental exposures.
FAA	66.802	Superfund State, Political Subdivision, and Indian Tribe Site_Specific Cooperative Agreements	OFFICE OF SOLID WASTE AND EMERGENCY RESPONSE, ENVIRONMENTAL PROTECTION AGENCY	\$17,004	46.55%	The grant funds long-term surface and ground water monitoring at the California Gulch Superfund site. The work under this grant is a continuation of long-term data collection at the site.	The State would have no financial obligation if this grant ceased. However much of the data collected under this award would be required as part of the remedial action for OU-12 and most of the activities funded under this grant would most likely have to shift to a new cooperative agreement.
FAA	66.802	Superfund State, Political Subdivision, and Indian Tribe Site_Specific Cooperative Agreements	OFFICE OF SOLID WASTE AND EMERGENCY RESPONSE, ENVIRONMENTAL PROTECTION AGENCY	\$873,779	2.44%	Clear Creek OU4 RA- To perform remedial action of Central City/Clear Creek Operable Unit 4 at the Quartz Hill site. Actions include mine waste remediation through regrading and capping mine waste repository.	State has provided assurances to fund 10 percent of remedial actions and 100 percent of operation and maintenance.
FAA	66.802	Superfund State, Political Subdivision, and Indian Tribe Site_Specific Cooperative Agreements	OFFICE OF SOLID WASTE AND EMERGENCY RESPONSE, ENVIRONMENTAL PROTECTION AGENCY	\$1,392	34.06%	This grant funds long-term monitoring for OUII of the Chem Sales Superfund Site.	The State would assume all financial responsibility for this site.

The workplan is a dynamic document that is refined each year according to recommendations from the Center's leadership, management and staff. The following are changes in the workplan since the Year 2 version in 2010: <ul style="list-style-type: none"> • Adjustments to the long-term health outcome objectives. Five-year health objectives for the Center's work were developed by the integration planning team in late 2008. For the year 3 version of the workplan, baseline measurements were adjusted for consistency and 2013 targets were refined. In addition, the list was augmented as a result of the Center's continuing work in defining core indicators. Additions include: fruit and vegetable consumption for adults, youth and children; smoking cessation attempts for adults; and dental caries experience among children in third grade. • Increased focus on health systems. With recent legislated and voluntary changes in healthcare and health insurance, public health agencies have been challenged with defining their role and identifying points of influence in the new healthcare landscape. In 2010, the Center established a Health Systems 	1/4 Match (25%). Matched with State Cash Fund grantee program and personal services

DEPARTMENT OF HUMAN SERVICE							
10.551							
IHA	10.551	Supplemental Nutrition Assistance Program	FOOD AND CONSUMER SERVICE, DEPARTMENT OF AGRICULTURE	\$787,258,815	0.00%	The Food Assistance program (known on the national level as the Supplemental Nutrition Assistance Program or "SNAP") exists to provide monthly food benefits to qualifying applicant households. Individuals must apply for benefits, be interviewed, and must meet certain tests, including federally established income and resource tests to be determined eligible for monthly benefits. Although a maximum monthly benefit amount is set by household size and determined annually by USDA, Food and Nutrition Services, the final allotment for a household is calculated by formula and based on information gathered from the interview as well as supporting verification. Federal funds support the full cost of food assistance benefits provided to recipients who are approved. Recipients redeem benefits at locally approved retailers through use of an electronic benefits transaction (EBT) card.	There are no matching obligations for this grant.
10.555							
IHA	10.555	National School Lunch Program (NLSP)	FOOD AND CONSUMER SERVICE, DEPARTMENT OF AGRICULTURE	\$10,751,892	0.00%	This pass-through grant funding is meant to account for the commodities received through the National School Lunch Program (NSLP). 10.561

STATE AGENCY	CFDA	FEDERAL PROGRAM	FEDERAL AGENCY	EXPENSES	ADMIN EXPENSES	PURPOSE OF GRANT	OBLIGATIONS TO THE STATE OF COLORADO
IHA	10.561	State Administrative Matching Grants for the Special Nutrition Assistance Program	FOOD AND CONSUMER SERVICE, DEPARTMENT OF AGRICULTURE	\$15,989,223	77.21%	The Food Assistance Program (known at the federal level as the Supplemental Nutrition Assistance Program) is a mandatory federal entitlement program that provides monthly food benefits and is considered the nation's safety net in the prevention of hunger. Colorado served 225,249 qualifying households statewide as of August 2012, and 499,273 individuals. Local offices in 64 counties administer the program and determine new and on-going eligibility for individuals who submit paper or on-line applications. Approved applicants redeem benefits at approved retailers through use of an electronic benefits card. In addition to the determination of eligibility for benefits, the program also manages the processes for claim determination, overpayment collection and fraud investigation. The State office is responsible for the oversight of all program operations, including the development of rules and procedures, conducting management evaluations of local office operations, and creating monitoring and reporting processes to ensure program compliance with federal and state rules. Employment First is Colorado's implementation of the federally mandated SNAP Employment and Training Program, a program designed to support increased employability through the provision of education and training by means of case management, job search assistance, and work experience in public and non-profit worksites through workfare for individuals who receive food assistance benefits and are determined able to work. This program is operated at the local level in 27 of the 64 counties and can be administered either through the local departments of health or human services or by a non-profit service provider. In May 2012 the caseload served 14,233 individuals. The goal of the SNAP Nutrition Education program is to improve the likelihood that SNAP participants will make healthy food choices within a limited budget and choose active lifestyles consistent with the current USDA Dietary Guidelines for Americans. Research and evidenced based SNAP-Ed curricula in Colorado are provided through two Colorado universities and two non-profit organizations. The total projected number of individuals to be served in this program from October 2011-September 2012 is 10,762.	Parts of this grant require a 50% match and some require no match.

STATE AGENCY	CFDA	FEDERAL PROGRAM	FEDERAL AGENCY	EXPENSES	ADMIN EXPENSES	PURPOSE OF GRANT	OBLIGATIONS TO THE STATE OF COLORADO
10.568							
IHA	10.568	Emergency Food Assistance Program (Administrative Costs)	FOOD AND CONSUMER SERVICE, DEPARTMENT OF AGRICULTURE	\$6,926,665	0.00%	The grant funding is meant to cover the program administrative needs for the grant funding services under the Emergency Food Assistance Program (TEFAP).	All State administrative expenses need to be match \$1 to \$1 with State funds. For administrative reimbursement to Recipient Agencies there are no matching obligations.
10.576							
IHA	10.576	Senior Farmers Market Nutrition Program	FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE	\$6,392	3.13%	This grant is to provide fresh, nutritious, unprepared, locally grown fruits, vegetables, herbs and honey from farmers markets, roadside stands and community supported agriculture programs to low-income seniors, and to increase the consumption of agricultural commodities by expanding, developing, or aiding in the development and expansion of domestic farmers markets, roadside stands, and community supported agriculture programs.	There are no matching obligations for this grant.
17.235							
IHA	17.235	Senior Community Service Employment Program	EMPLOYMENT AND TRAINING ADMINISTRATION, DEPARTMENT OF LABOR	\$858,460	1.25%	To foster individual economic self sufficiency; provide training in meaningful part-time opportunities in community service activities for unemployed low-income persons who are age 55 years of age or older, particularly persons who have poor employment prospects; and to increase the number of older persons who may enjoy the benefits of unsubsidized employment in both the public and private sectors.	10% Match consisting of State/Local funds
32.001							
IHA	32.001	Communications Information and Assistance and Investigation of Complaints	FEDERAL COMMUNICATIONS COMMISSION	\$11,982	107.12%	To increase public knowledge of communications function and participation in Federal Communications Commission (FCC) proceedings. To help maintain efficient and responsible systems of public communications by stimulating participation in FCC activities and through investigation of complaints.	There are no matching obligations for this grant.

STATE AGENCY	CFDA	FEDERAL PROGRAM	FEDERAL AGENCY	EXPENSES	ADMIN EXPENSES	PURPOSE OF GRANT	OBLIGATIONS TO THE STATE OF COLORADO
64.005							
IHA	64.005	Grants to States for Construction of State Home Facilities	VETERANS HEALTH ADMINISTRATION, DEPARTMENT OF VETERANS AFFAIRS	\$960,570	0.00%	This is used to report capital federal funding grants received for construction and renovation projects at the State Veterans Nursing Homes facilities. The U.S. Department of Veterans Affairs (VA) provides grants to qualified nursing homes for the construction of or improvement to existing facilities or for life safety modifications to the facility. Life safety modifications protect residents from fire, smoke, heat, and toxic fumes.	In order to receive the federal funding, the State Veterans Nursing Homes must meet VA requirements, which include maintaining a 75% daily veteran census. The grant is a 65/35 funding split. The VA provides 65% of the funding for the project while the State provides 35% of the funding.
64.014							
IHA	64.014	Veterans State Domiciliary Care	VETERANS HEALTH ADMINISTRATION, DEPARTMENT OF VETERANS AFFAIRS	\$314,357	0.00%	This is used to report federal funding grants or per diem for veterans residing at the Colorado State Veterans Center at Homelake domiciliary facility. Rates are determined by the VA and vary depending on the location of the facility. Per diem at the domiciliary is considerably less than other per diem payments made for residents in nursing home care. Per diem payments are used to provide care for the veteran residents at the home. This care includes room and board and medical care.	In order to receive the federal funding, the Colorado State Veterans Center at Homelake must meet VA requirements, which include maintaining a 75% daily veteran census. The veteran receiving the per diem must meet the eligibility criteria established by the VA. If the state fails to achieve the 75% daily veteran census, then the state would be obligated to refund the per diem payments back to the VA.
64.015							
IHA	64.015	Veterans State Nursing Home Care	VETERANS HEALTH ADMINISTRATION, DEPARTMENT OF VETERANS AFFAIRS	\$23,864,890	0.00%	This is used to report federal funding grants for residents who qualify for Medicare Part A and/or Medicare Part B services. Medicare Part A covers certain services needed daily in a skilled nursing facility for up to 100 days. These funds cover the costs of certain services, which include meals, physical therapy, occupational therapy, speech therapy, social services, medications, medical supplies, and medical equipment. Medicare Part B covers certain medically necessary services not covered by Medicare Part A, which includes doctor's services, laboratory tests, and preventative services.	In order to receive the Medicare A and Medicare B federal funding, the residents of the State Veterans Nursing Homes must meet eligibility criteria established by the Centers for Medicare and Medicaid Services. The nursing homes are audited on a regular basis by federal auditors. If it is found that payments were received in error, then the state is obligated to refund funds back to the federal government.

STATE AGENCY	CFDA	FEDERAL PROGRAM	FEDERAL AGENCY	EXPENSES	ADMIN EXPENSES	PURPOSE OF GRANT	OBLIGATIONS TO THE STATE OF COLORADO
84.126							
IHA	84.126	Rehabilitation Services_Vocational Rehabilitation Grants to States	OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES, DEPARTMENT OF EDUCATION	\$26,680,534	17.40%	Provides grants to states to support services designed to help individuals with disabilities prepare for and engage in gainful employment consistent with their strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice. Eligible individuals are those who have a physical or mental impairment that results in a substantial impediment to employment, who can benefit from vocational rehabilitation (VR) services for employment, and who require VR services.	The state-matching requirement is 21.3 percent.
84.169							
IHA	84.169	Independent Living_State Grants	OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES, DEPARTMENT OF EDUCATION	\$54,440	0.00%	This program offers formula grants to states for one or more of the following purposes: to provide resources to statewide independent living councils (SILCs); and to provide independent living (IL) services to individuals with significant disabilities.	10% state match and/or in-kind resources requirements of federal funds drawdown.
84.177							
IHA	84.177	Rehabilitation Services_Independent Living Services for Older Individuals Who are Blind	OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES, DEPARTMENT OF EDUCATION	\$211,103	0.00%	Grants are made to states to support services for individuals age 55 or older whose severe visual impairment makes competitive employment difficult to obtain but for whom independent living goals are feasible.	10% state match and/or in-kind resources requirements of federal funds drawdown.

STATE AGENCY	CFDA	FEDERAL PROGRAM	FEDERAL AGENCY	EXPENSES	ADMIN EXPENSES	PURPOSE OF GRANT	OBLIGATIONS TO THE STATE OF COLORADO
84.181							
IHA	84.181	Special Education-Grants for Infants and Families	OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES, DEPARTMENT OF EDUCATION	\$1,439,554	70.14%	The \$7 million annual grant provides early intervention services for infants and toddlers, birth through two years, who have developmental delays or disabilities and increases the capacity of families to support their children's well-being. The services and supports provided include enhancements to child development in the areas of cognition, speech, communication, physical development, motor development, vision, hearing, social and emotional development, self-help skills, parent-child interaction, and early identification, screening and assessment services. Services are provided through contracts with twenty Community Centered Boards in cooperation with the Colorado Department of Education and in accordance with the requirements of the Individuals with Disabilities Act (IDEA) and include direct services provided in home or community settings and service coordination. Approximately 11,000 infants and toddlers and their families are referred, determined eligible and receive services annually.	This grant has no matching requirements. However the State funds expended must be the equal to the State funds expended in the previous year.
84.187							
IHA	84.187	Supported Employment Services for Individuals with the Most Significant Disabilities	OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES, DEPARTMENT OF EDUCATION	\$316,153	0.00%	This program provides grants to assist states in developing and implementing collaborative programs with appropriate entities to provide programs of supported employment services for individuals with the most significant disabilities who require supported employment services to achieve employment outcomes. Grant funds are administered under a state plan supplement to the Title I state plan for vocational rehabilitation (VR) services designated by each state.	There are no matching obligations for this grant.

STATE AGENCY	CFDA	FEDERAL PROGRAM	FEDERAL AGENCY	EXPENSES	ADMIN EXPENSES	PURPOSE OF GRANT	OBLIGATIONS TO THE STATE OF COLORADO
84.265							
IHA	84.265	Rehabilitation Training_State Vocational Rehabilitation Unit In-Service Training	OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES, DEPARTMENT OF EDUCATION	\$6,321	0.00%	Of the funds appropriated for the Rehabilitation Training Program 15 percent must be used to support in-service training. In FY 2010 the Rehabilitation Training Program made 75 basic in-service training awards to state VR agencies to support projects for training state VR agencies' personnel in program areas essential to the effective management of the VR programs under the Rehabilitation Act and in skill areas that enable VR personnel to improve their ability to provide VR services leading to employment outcomes for individuals with disabilities. The In-Service Training Program continued to play a critical role in helping state VR agencies to develop and implement their CSPD standards for hiring training and retaining qualified rehabilitation professionals to provide for succession planning to provide leadership development and capacity-building and to provide training on the Rehabilitation Act in their respective states.	10% Match requirements of federal fund drawdown.

93.090							
IHA	93.090	Guardianship Assistance	ADMINISTRATION FOR CHILDREN AND FAMILIES, DEPARTMENT OF HEALTH AND HUMAN SERVICES	\$34,071	45.03%	Title IV-E of the Social Security Act provides federal reimbursement to states that provide guardianship assistance payments for the care of children by relatives who have assumed legal guardianship of eligible children for whom they previously cared for as foster parents. Federal assistance is available to support the care of children who meet the eligibility requirements and their siblings under certain situations as specified in the statute. All relatives assuming guardianship of such children are eligible for the nonrecurring expenses associated with obtaining legal guardianship up to \$2,000. The reimbursement rate is equal to the State's Federal Medical Assistance Percentage (FMAP) rate (currently 50%) for the total amount expended for kinship guardianship assistance payments. The federal match rates for related administrative and training costs are 50% and 75%, respectively. In SFY 2012, Relative Guardianship Assistance payments were made on behalf of 11 children.	This open-ended entitlement program provides a federal match for all eligible state expenditures. State General Fund and local cash funds provide the non-federal share and balance of funding.

IHA	93.674	Chafee Foster Care Independence Program	ADMINISTRATION FOR CHILDREN AND FAMILIES, DEPARTMENT OF HEALTH AND HUMAN SERVICES	\$419,217	85.11%	Colorado's Chafee Foster Care Independence Program (CFCIP) program provides services and support for youth who are likely to remain in foster care until 18 years of age to make the transition to self-sufficiency through services like assistance in obtaining a high school diploma, career exploration, vocational training, job placement and retention, training in daily living and financial management skills, substance abuse prevention, and preventive health activities. In 2011, award funds were used by counties to provide direct services statewide, as well as to provide administration of the grant, coordination of adolescent services, youth leadership development, county capacity building, and educational supports. CFCIP provided 24,242 services, and served 1,135 youth in 2011, according to the Colorado National Youth in Transition Database (NYTD).	This grant has a 20% matching obligation. This obligation is met by local cash funds for supportive services provided by the county.
93.734							
IHA	93.734	Empowering Older Adults and Adults with Disabilities through Chronic Disease Self-Management Education Programs □ financed by 2012 Prevention and Public Health Funds (PPHF-2012)	ADMINISTRATION ON AGING, DEPARTMENT OF HEALTH AND HUMAN SERVICES	\$221,158	16.37%	The overall purpose of this funding opportunity is to help ensure that evidence-based self-management education programs are embedded into the nation's health and long-term services and supports systems. This effort will help preserve and expand the prevention program distribution and delivery systems that were developed through previous AoA grants. This funding is supportive of the HHS Strategic Framework on Multiple Chronic Conditions in bringing to scale and enhancing sustainability of evidence-based, self-management programs. It also helps to address the Healthy People 2020 objectives to increase the proportion of older adults with one or more chronic health conditions who report confidence in managing their conditions and to increase the proportion of older adults who receive Medicare benefits for Diabetes Self-Management Training.	There are no matching obligations for this grant.

93.958							
IHA	93.958	Block Grants for Community Mental Health Services	SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION, DEPARTMENT OF HEALTH AND HUMAN SERVICES	\$1,250,686	86.51%	This grant funds various community mental health services and activities to include: community based mental health services for coloradoans who do not have health insurance (all ages), consumer based advocacy, behavioral health planning council activities, mental health crisis service call center services, training, other community based services and Department/Division personnel, operating, and indirect costs.	Administrative expenses for this series of grants cannot exceed five percent of the total grant award. There are no matching obligations for this grant.
93.959							
IHA	93.959	Block Grants for Prevention and Treatment of Substance Abuse	SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION, DEPARTMENT OF HEALTH AND HUMAN SERVICES	\$7,206,252	7.38%	The SAPT Block Grant provides an annual distribution of funds for the purpose of planning, implementing and evaluating activities to prevent and treat substance abuse and other related activities. The Federal support is provided for addiction prevention and treatment services and it empowers the State to design solutions to specific addiction problems that are experienced locally. Funds are typically sub-awarded to public and non-profit service providers for the provision of SAPT services. The services include direct services to patients experiencing primary problems for alcohol and patients experiencing primary problems with illicit and licit drugs. The services encompass outreach, detoxification, methadone maintenance, outpatient counseling, residential rehabilitation, abuse monitoring, vocational counseling, case management, hospital based outpatient care and program administration. The grant also funds education, counseling, and other activities designed to reduce the risk of substance abuse. The approximately \$26 million grant is awarded annually.	There are no matching obligations for this grant. The "Maintenance of Effort" requirements are listed: The State must for each fiscal year maintain aggregate State expenditures for authorized activities by the principal agency at a level that is not less than the average level of such expenditures maintained by the State for two State preceding fiscal years and the State must maintain expenditures at not less than the calculated fiscal year 1994 base amount for substance abuse treatment services for pregnant women and women with dependent children.

96.001							
IHA	96.001	Social Security: Disability Insurance	SOCIAL SECURITY ADMINISTRATION	\$22,046,826	8.22%	Social Security pays State Vocational Rehabilitation (VR) agencies for the cost of the service they provide to people receiving Social Security Disability Insurance (SSDI) benefits or Supplemental Security Income (SSI) payments based on disability or blindness if certain conditions are met. The services provided by a State VR agency are identified in the Rehabilitation Act of 1973, as amended, and are spelled out in an agreement between the individual with a disability and the VR counselor in an individualized plan for employment. The services must result in the individual's return to work for at least nine continuous months at a substantial earnings level, which is referred to as substantial gainful activity.	There are no matching obligations for this grant. The "Maintenance of Effort" requirements are listed: The State must for each fiscal year maintain aggregate State expenditures for authorized activities by the principal agency at a level that is not less than the average level of such expenditures maintained by the State for two State preceding fiscal years and the State must maintain expenditures at not less than the calculated fiscal year 1994 base amount for substance abuse treatment services for pregnant women and women with dependent children.

NAA	14.228	Community Development Block Grants/State's Program and Non-Entitlement Grants in Hawaii	COMMUNITY PLANNING AND DEVELOPMENT, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT	\$1,004,596	100.00%	CDBG funds affordable housing projects, Economic Development projects creating jobs and Public Facility type projects (water, sewer, child care, health clinics, etc.) primarily benefitting low to moderate income persons in the more rural areas of the state. Funds are split equally at the beginning of the program year by project type and may be adjusted if demand for a particular type is necessary. CDBG funding is provided to Colorado in two ways: 1. Through a direct allocation to seven (7) entitlement counties: Adams, Jefferson, Broomfield, Denver, Douglas, El Paso and Arapahoe; and thirteen (13) entitlement cities: Arvada, Aurora, Boulder, Centennial, Colorado Springs, Fort Collins, Grand Junction, Greeley, Lakewood, Longmont, Loveland, Pueblo and Westminster. 2. Through a direct allocation to the State to be used in the fifty-seven (57) non-entitlement counties. The State uses CDBG funds in the non-entitlement counties to carry out economic development; production and preservation of affordable housing; and community development and revitalization.	Program allows the State's administrative costs at \$100K plus 3% of total grant. The state is required to provide a match on the 3% portion.
14.231							
NAA	14.231	Emergency Shelter Grants Program	COMMUNITY PLANNING AND DEVELOPMENT, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT	\$79,753	100.00%	The purpose of the ESG program is to assist individuals and families quickly regain stability in permanent housing after experiencing a housing crisis or homelessness.	DOLA's subgrantees provides a 5% match of the contracted amount.

WBA	15.227	Distribution of Receipts to State and Local Governments	BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR	\$173,361,990	0.00%	Treasury distributes Royalties Mgmt money (FML) according to a statutory formula per CRS 34-63-102. Explanations of purpose from subrecipient agencies: CDE -- FML funds are general purpose revenues appropriated by the General Assembly to help fund the "State share of districts' total program funding" as required by the Public School Finance Act of 1994 (as amended). The funds are used to provide a per pupil level of funding for all Colorado School Districts. DHE – FML funds to the Higher Education Federal Mineral Lease Revenue Fund are used to pay debt service owed on COPs issued by Treasury on behalf of institutions of higher education. The funds are administered under the provision of Colorado statute Title 23, Article 19.9. FML funds to the Higher Education Maintenance and Reserve Fund can be used either for debt service if the Revenue Fund falls short or for appropriation by the general assembly if General Fund revenues fall short. DOLA – Under the FML Act, approximately 49% of rents and royalties from mineral production on federal lands are returned back to the state of origin for planning, construction and maintenance of public facilities in areas socially and economically impacted by the mineral leasing development that occurs on federal lands. DNR – FML funds support grants and loans for water projects as well as the administrative expenses of the Water Conservation Board.	none

FOOTNOTES - REPORT OF FEDERAL ASSISTANCE AS REPORTED BY COLORADO STATE AGENCIES FOR THE FISCAL YEAR ENDING JUNE 30, 2014

Note 1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the State of Colorado agencies and institutions of higher education. The information in this schedule is presented in accordance with the requirements of the Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Under A-133, an award is considered expended when certain events related to the award occur. These include:

- Expenditure/expense transactions associated with grants, cost reimbursement contracts, cooperative agreements, and direct appropriations. The State of Colorado recognizes expenditures/expenses on the modified accrual or full accrual basis depending on the fund used. See note 5 of the Basic Financial Statements for additional information.
- Disbursement of amounts entitling the state to an interest subsidy
- Use of loan proceeds under loan and loan guarantee programs
- Distribution or consumption of food commodities
- Receipt of property or surplus property
- Disbursement of funds to subrecipients **(not included for this report)**
- The period when insurance is in force
- Receipt or use of program income

As a result of these criteria, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements.

Note 2. Report Organization - Federal Assistance as Reported by Colorado State Agencies

The Report is organized first by grant-level data and then by agency-level data. The grant-level data further grouped into cash assistance and noncash assistance. Within these subgroups, the information is sorted by agency indicator. In accordance with House Bill 12-1009, the report includes the following new elements: Purpose, Percent Expended for Administration, Obligations Imposed. Additionally, the following agency-level information is required: Percentage of Federal Funds in Relation to Total Funds, Operating Plan with a Five Percent Reduction in Federal Funds, and Operating Plan with a Twenty-Five Percent Reduction in Federal Funds. The additional elements in HB12-1009 are not required of the Judicial Department or Institutions of Higher Education, however, we have chosen to report the Percent Expended for Administration calculated as the indirect cost divided by total expense for these agencies. It is not comparable to the administrative percentages of the other agencies and departments of the State.

Note 3. Other Assistance

Most noncash assistance is reported on the final pages of the Federal Assistance Reported by State Agencies. The following provides additional information about amounts shown in the report that federal agencies consider to be assistance.

- A. The State Department of Labor and Employment expended \$798,030,929 for grant 17.225 - Unemployment Insurance for Federal Employee Compensation Act (FECA) Reimbursable, Federal Extended Benefits, Temporary Extended Unemployment Compensation (TEUC) Benefit Payments and Emergency Unemployment Compensation 2008 (EUC08) Benefit Payments. The total expenditure amount includes the federal portion of the grants and the required state match in the amounts of \$247,242,327 and \$550,778,602, respectively. For Fiscal Year 2014, there are no American Recovery and Reinvestment Act (ARRA) funds included.
- B. The State Department of Higher Education expended \$289,737,874 for grant 84.032 - Federal Family Education Loans. Of this amount, \$265,824,269 has been or will be received from the federal government related to incentive fees and reinsurance costs of student loan defaults paid to lenders. The remaining amount is made up of new loan issuances of \$23,209,392 of which the majority was guaranteed by other entities. The outstanding balance of the Federal Family Education Loan program since its inception was \$9,298,656,180 as of June 30, 2014.
- C. The State Department of Human Services expended \$787,258,815 for grant 10.551 Supplemental Nutrition Assistance Program (SNAP). The reported expenditures for benefits under the Supplemental Nutrition Assistance Program (SNAP) (CFDA No. 10.551) are supported by both regularly appropriated funds and incremental funding made available under section 101 of the American Recovery and Reinvestment Act of 2009. The portion of total expenditures for SNAP benefits that is supported by Recovery Act funds varies according to fluctuations in the cost of the Thrifty Food Plan, and to changes in participating households' income, deductions, and assets. This condition prevents USDA from obtaining the regular and Recovery Act components of SNAP benefits expenditures through normal program reporting processes. As an alternative, USDA has computed a weighted average percentage to be applied to the national aggregate SNAP benefits provided to households in order to allocate an appropriate portion thereof to Recovery Act funds. This methodology generates

FOOTNOTES - REPORT OF FEDERAL ASSISTANCE AS REPORTED BY COLORADO STATE AGENCIES FOR THE FISCAL YEAR ENDING JUNE 30, 2014

valid results at the national aggregate level but not at the individual State level. Therefore, we cannot validly disaggregate the regular and Recovery Act components of our reported expenditures for SNAP benefits. At the national aggregate level, however, Recovery Act funds account for 7.79 percent of USDA's total expenditures for SNAP benefits in the Federal fiscal year ended September 30, 2013.

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

AXX – Department of Personnel and Administration

Percentage of federal funds in relation to total funds: 0.12%

Operating Plan with a Five Percent Reduction in Federal Funds

State Archives: No impact to Archives

Division of Central Services: This was an ARRA grant for the Energy Performance Contract (EPC). This was a one-time grant, but if we have another EPC, the amount that was received by the grant would be included in the financing.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

State Archives: No impact to Archives

Division of Central Services: This was an ARRA grant for the Energy Performance Contract (EPC). This was a one-time grant, but if we have another EPC, the amount that was received by the grant would be included in the financing.

BXX - Department of Agriculture

Percentage of federal funds in relation to total funds: 8.94%

Operating Plan with a Five Percent Reduction in Federal Funds

Although the Department is anticipating a near 5% reduction in federal funding, the impacts of such reductions would not significantly affect department operations since federal funds only account for approximately 10% of the department budget. These reductions would be absorbed and affected programs would adjust operations accordingly. No losses of FTE or major programmatic impacts are expected.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

As stated previously, federal funding only accounts for approximately 10% of the overall budget; therefore a reduction of 25% or more would result in minor impacts to the department. These impacts would include loss of grant funding for local conservation districts, weed free programs, federally mandated certification programs, and possibly a very low number of FTE (1.0-3.0).

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

CXX – Department of Corrections

Percentage of federal funds in relation to total funds: 0.56%

The majority of DOC's federal assistance monies are used to fund specific projects that enhance the opportunities provided to inmates through therapeutic and vocational programs while they are either incarcerated or in a community corrections setting. The Department relies on State funds for its day to day operations. DOC has no ARRA funds remaining.

Operating Plan with a Five Percent Reduction in Federal Funds

The impact that a five percent reduction in the amount of federal monies received would have to be determined on a case by case basis. As all these monies are used to fund programs that benefit inmates, the Department of Corrections would be put in a position where it would have to prioritize which programs are most critical to its mission statement. The Department would then have to decide whether to cut operational costs, and as a result, opportunities for inmates, or attempt to find funding elsewhere so that the program objectives can still be met. Those programs that were not determined to be critical would inevitably suffer cuts to operational costs and might fall short of their goals.

Sex Offender Reentry – This one time grant would have to cut their program's operational costs in order to make up for a reduction in funding.

CISCO Networking Academy – This one time grant was seed money for a vocational program that will be funded by DOC's educational department in years to come. This grant has ended as of 8/31/2013. A reduction in federal funding would not affect it.

Prison Rape Elimination Act – This one time grant allows DOC to continue increasing its efforts to remain compliant with the Prison Rape Elimination Act. A five percent reduction might affect the effectiveness of the program. However, a reduction in operational costs and possible DOC general fund financial help may mitigate this loss.

International Training Center – This is a cooperative agreement between DOC's Correctional Industries and the Department of State. The funds received are provided by the countries that participate in the training sessions.

Fostering Desistance through Effective Supervision – This is a cooperative agreement between DOC and the Department of Justice. A five percent reduction would affect the effectiveness of the program. A reduction in the amount of inmates going through the program would compensate for a reduction in funding.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

A twenty five percent reduction in federal funding would significantly impact the Sex Offender Reentry program, the Prison Rape Elimination Act program and the Fostering Desistance through Effective Supervision program. In all likelihood, these three programs would have to be completely discontinued. If services were to continue under this type of reduction, they would be woefully inadequate. There is no feasible option within DOC's budgeting constraints to cover such a large gap in financial resources

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

DXX - Department of Education (CDE)

Percentage of federal funds in relation to total funds: 7.56%

Operating Plan with a Five Percent Reduction in Federal Funds

In the event of a 5% reduction, the Department would review all programs affected and consider reductions in the following order:

- Reduce any temporary employees.
- Repurpose or reassign remaining staff to program, where retirements or resignations have occurred.
- Travel, training, and official functions will be reduced and/or replaced by more cost effective alternatives, such as webinars.
- Review operating costs to determine whether there are possible reductions there.
- Review of contracts to determine if there are reductions to contracts or contracts can be eliminated, while still meeting the minimum requirements of federal awards.
- The Department would also review all staff paid from federal grants in an effort to identify vacancies that may not be filled or reductions in staff that may be necessary.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

Please see above. The analysis above will be necessary for reductions of 25% as well.

However, if reductions are as high as 25%, it could significantly impair or compromise the Department's ability to accept or administer those grants from the Federal Government. It is likely that some programs would not have sufficient staff or other resources to continue meeting the federal requirements within the grants affected.

EXX - Office of the Governor

Percentage of federal funds in relation to total funds: 11.41%

Operating Plan with a Five Percent Reduction in Federal Funds

Offices of the Governor: The federal program for EAA is Screening, Brief Intervention, and Referral to Treatment (SBIRT). SBIRT is a public health approach to the delivery of early intervention and treatment services for people with substance use disorders and those at risk of developing these disorders. If we were experience a 5% or more reduction, some of the services provided would need to be reduced or eliminated.

Lieutenant Governor: The federal program for EBA ended at the end of June 30, 2013. There are no known federal moneys that will be received in FY 2014-15

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

Commission on Community SRVC: Our program can withstand a 5% budget cut but it would force the program to put one staff member on half-time.

Office of Economic Development: All federal money received by the agency is grant money. Each grant has a particular program and agreed upon budget between OEDIT and the federal agency. In the event of a federal grant reduction OEDIT would recompute the program services and budget. The recomputed budget would be approved by the federal agency. Once approved OEDIT would work with vendors to adjust the scope of work for contracts and purchase orders. OEDIT would also work with partner agencies at the local level to adjust program services.

Colorado Energy Office: All federal money received by the agency is grant money. Each grant has a particular program and agreed upon budget between CEO and the federal agency. In the event of a federal grant reduction CEO would reevaluate the program services and budget. The recomputed budget would have to be approved by the federal agency. Once approved, CEO would work with vendors to adjust contracts and purchase orders. CEO would also work with partner agencies at the local level to adjust program services.

Obviously, the result of the reduction would have a negative impact on program offerings unless the office was able to reallocate state funds to fill the void left by the reduction of federal moneys. It should also be noted that some CEO personnel costs are covered by federal grants, meaning the office would either have to reallocate state funds to fill the void left by the reduction of federal moneys, if possible, or reduce its staff head count.

Office of Information Tech: If there is a reduction of between 5 and 25% in the federal funds allocated to the Broadband grant, we would look at the expenditures that we could cut out of the remaining years of the grant. It is possible that we could cut some of the personnel and equipment expenses, either by not hiring a position or releasing a position before the grant period is complete. In the latter case, this would have a significant impact in our ability to deliver on the grant.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

Offices of the Governor: The federal program for EAA is Screening, Brief Intervention, and Referral to Treatment (SBIRT). SBIRT is a public health approach to the delivery of early intervention and treatment services for people with substance use disorders and those at risk of developing these disorders. If we were experience a 25% or more reduction, some of the services provided would need to be reduced or eliminated.

Lieutenant Governor: The federal program for EBA ended at the end of June 30, 2013. There are no known federal moneys that will be received in FY 2014-15

Commission on Community SRVC: A 25% budget cut would reduce the program's budget by about \$86,000. Personnel costs are 78% of the budget, so the program would be forced to cut the equivalent of 1.2 average salaries.

Office of Economic Development: All federal money received by the agency is grant money. Each grant has a particular program and agreed upon budget between OEDIT and the federal agency. In the event of a federal grant reduction OEDIT would recompute the program services and budget. The recomputed budget would be approved by the federal agency. Once approved OEDIT would work with vendors to adjust the scope of work for contracts and purchase orders. OEDIT would also work with partner agencies at the local level to adjust program services.

Colorado Energy Office: All federal money received by the agency is grant money. Each grant has a particular program and agreed upon budget between CEO and the federal agency. In the event of a federal grant reduction CEO would reevaluate the program services and budget. The recomputed budget would have to be approved by the federal agency. Once approved, CEO would work with vendors to adjust contracts and purchase orders. CEO would also work with partner agencies at the local level to adjust program services.

Obviously, the result of the reduction would have a negative impact on program offerings unless the office was able to reallocate state funds to fill the void left by the reduction of federal moneys. It should also be noted that some CEO personnel costs are covered by federal grants, meaning the office would either have to reallocate state funds to fill the void left by the reduction of federal moneys, if possible, or reduce its staff head count.

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

Office of Information Tech: If the amount of federal funds is reduced by 25% or more, this would have a critical impact on our ability to deliver the products and activities as required by the grant award. This would be an amount of approximately \$1 million, and the grant has spent approximately \$2 million. It would require us to cut personnel and equipment both in planned hires and work to the extent of not having necessary staff for the final year(s) of the grant.

FXX - Department of Public Health and Environment (CDPHE)

Percentage of federal funds in relation to total funds: 56.01%

Operating Plan with a Five Percent Reduction in Federal Funds

PLAN: The impact of a 5% reduction to federal funding is difficult to quantify as the department has over 300 federal grants – some that are categorical and specific to individual programs and others that are block grants and impact many different areas. One example of a potential reduction is the elimination of the Preventive Health Block Grant. In the past, when the same action happened, the department requested a General Fund reduction to some existing programs to fund critical programs traditionally funded by the Preventive Health Block Grant. The department is evaluating options for this fiscal year. If a categorical grant was reduced by 5% the department would evaluate the federal directions regarding that reduction. Reductions could be taken in personnel and administrative costs at the state level, or the reductions could be passed on as programmatic reductions (i.e. services to citizens). This would have a downstream impact; the decrease with federal funds translates to decreased contract funding awards to local communities that receive grants/contracts from the many funding opportunities. Similarly, if funds were reduced across the board to all federal grants, reductions would be evaluated (using federal directions as a guideline) to initiate personnel and programmatic reductions. The department would have to weigh the costs and effects of reducing some programs in order to preserve others.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

PLAN: The impact of a 25% reduction to federal funding is difficult to quantify as the department has over 300 federal grants – some that are categorical and specific to individual programs and others that are block grants and impact many different areas. One example of a potential reduction is the elimination of the Preventive Health Block Grant. In the past, when the same action happened, the department requested a General Fund reduction to some existing programs to fund critical programs traditionally funded by the Preventive Health Block Grant. The department is evaluating options for this fiscal year. If a categorical grant was reduced by 25% the department would evaluate the federal directions regarding that reduction. Reductions could be taken in personnel and administrative costs at the state level, in addition the reductions would be passed on and programmatic reductions (i.e. services to citizens) would result. This would have a downstream impact; the decrease with federal funds translates to decreased contract funding awards to local communities that receive grants/contracts from the many funding opportunities. In almost all cases the Department would not be able to absorb a 25% reduction without impacting services. Similarly, if funds were reduced across the board to all federal grants, reductions would be evaluated (using federal directions as a guideline) to initiate personnel and programmatic reductions. The department would have to weigh the costs and effects of reducing some programs in order to preserve others.

GXX - Department of Higher Education (Excluding Institutions)

Percentage of federal funds in relation to total funds: 27.23%

Operating Plan with a Five Percent Reduction in Federal Funds

Department of Higher Education:

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

- For CFDA # 84.367B Improving Teacher Quality grants, the amount of grant funds awarded to IHEs to provide training of teachers would be reduced to the lower funding level.
- For CFDA #84.378A College Access Challenge grant, the number of scholarships provided to low income student would be reduced.
- For CFDA #84.334S Gaining Early Awareness and Readiness for Undergraduate Programs, the annual contribution of funds to a scholarship trust fund would be reduced. In time, the number of scholarships provided to low income student would be reduced.

State Historical Society: The agency has a very small amount of Federal dollars and would be able to cut 5% by limiting travel and operating costs and covering a small portion out of minority gaming funds.

College Assist:

- A five percent reduction in federal fees paid would result in a \$4.6 million reduction in College Assist's annual revenue. College Assist has had discussions with the primary service provider/vendor, Nelnet Guarantee Services (NGS); to determine a mutually agreeable operating plan should federal moneys be reduced on a scale of 5-7%. Should this happen, NGS has agreed to renegotiate their contract fees prior to the contract renewal date to help keep College Assist solvent. Additionally, operational costs of both College Assist and College In Colorado, which is funded through College Assist, would be evaluated to help make up any remaining deficit.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

Department of Higher Education:

- For CFDA # # 84.367B Improving Teacher Quality grants, the amount of grant funds awarded to IHEs to provide training of teachers would be reduced to the lower funding level.
- For CFDA #84.378A College Access Challenge grant, the number of scholarships provided to low income student would be reduced. Efforts to provide outreach to low income high school students about higher education would be retained.
- For CFDA #84.334S Gaining Early Awareness and Readiness for Undergraduate Programs, the annual contribution of funds to a scholarship trust fund would be reduced. In time, the number of scholarships provided to low income student would be reduced. In time, the number of scholarships provided to low income student would be reduced.

State Historical Society: The agency would have to move payroll and operating costs over to the minority share of gaming funds to cover the 25% cut. If there were vacancies at the time, the agency would not fill the position until funding allows. Also, the agency would look to increase earned revenue by adjusting file search, class and workshop fees to minimize the effect of any federal fund cuts. This would be done by assessing other Western state preservation offices and aligning fees with the market trends.

College Assist:

- A twenty-five percent reduction in federal fees paid would result in a \$23.0 million reduction in College Assist's annual revenue. College Assist would be unable to remain in operation with such a significant loss of revenue. In this event, College Assist would work to transfer the student loan portfolio and Federal Fund guarantee to another federal guarantee agency. By doing this, College Assist would prevent further loss to the Operating Fund, with the goal of maintaining the highest Operating Fund level as possible. The College Assist Operating fund would be used to fund the State's college access outreach program, College In Colorado, and a limited number of College Assist staff to manage the funds.

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

HXX - Colorado Department of Transportation (CDOT)

Percentage of federal funds in relation to total funds: 43.93%

Operating Plan with a Five Percent Reduction in Federal Fund

According to Rob Andresen, Would first seek to determine if there were unobligated funds remaining from prior grants and use any such available funds in response to a reduction. If old funds were not available or did not cover the reduction, would then eliminate funding for the lowest-ranking capital equipment projects awarded funding to make up for the reduction (given that awards of operating funds are considered to be the highest priority to protect). If the above steps did not result in making up for the reduction, all projects selected for operating funding would be reduced by 5%. Programs operate on a calendar funding year and begin 1/1/14*.

According to Greg Goldman, In the event of a further reduction in federal funds available, the Division will reprioritize expenses through planning to spend within the existing obligated limits. Capital planning is a critical function that needs to be performed on a regular basis, throughout the state to secure financing and prioritize necessary projects with limited funds. During SFY12, the FAA changed the local match from 5% to 10%, essentially doubling the local investment with a 5% change in federal funds. This change directly cost the State Aviation fund roughly \$2 million, with an additional \$2 million contributed by Cities, Counties, and Operating Authorities of Colorado Public airports. When the FAA invests in capital improvements in the State of Colorado, the State and local authorities contribute the match, whether it's 5 or 10% or 25%. The Federally required "match" on aviation related projects has remained at 10% in SFY13 and SFY14.

According to Carol Gould, all programs that were selected for funding would be reduced by 5%. Programs operate on a federal funding year and begin 10/1/13. All agencies that were recommended for funding received letters stating awards were contingent on appropriation of funds at the federal level.

According to Pat Saffo, CDOT's Federal funds are restricted by Federal law to use in projects specifically designated for maintaining the States Highway Infrastructure. CDOT programs these funds through a Resource Allocation Methodology, by which the Transportation Commission sub-allocates total available funding to Regional and Staff Branches Program Managers, who select specific projects from the Statewide Transportation Improvement Program (STIP). These projects are consistent with the corridor visions, goals, and strategies in the Statewide Long Range Plan (LRP). These funds are programmed in Regional Pools by Program and Fiscal Year which are used to fiscally constrain the STIP. In the event of a Federal Reduction in funding, these Pools are proportionally reduced by TC direction and selected STIP projects would be either reduced in total cost/scope or delayed into future years to return the highway construction program back into fiscal constraint by year. High Performance Transportation Enterprise: CDOT's Federal funds are restricted by Federal law to use in projects specifically designated for maintaining the States Highway Infrastructure. CDOT programs these funds through a Resource Allocation Methodology, by which the Transportation Commission sub-allocates total available funding to Regional and Staff Branches Program Managers, who select specific projects from the Statewide Transportation Improvement Program (STIP). These projects are consistent with the corridor visions, goals, and strategies in the Statewide Long Range Plan (LRP). These funds are programmed in Regional Pools by Program and Fiscal Year which are used to fiscally constrain the STIP. In the event of a Federal Reduction in funding, these Pools are proportionally reduced by TC direction and selected STIP projects would be either reduced in total cost/scope or delayed into future years to return the highway construction program back into fiscal constraint by year.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

According to Rob Andresen, The same process described above would be followed, except that programs that scored lowest in the selection process would receive a proportionate reduction in funding based on their score. Programs operate on a calendar funding year and begin 1/1/14*.

According to Greg Goldman, What's different about FAA spending is the funds are directed to the airport, and not "passed-through" a State agency. So, when the investment mix changes a demand is made on State and local funds to complete the necessary infrastructure improvements. It is anticipated that the impact on the State Aviation Fund of a 25% reduction in federal funds would be upwards of \$10 million dollars, with an additional \$10 million being contributed by Colorado Local governments. This change will require a

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

“reprioritization” of projects to spend within the existing availability of State Funds. (i.e. less projects will be funded and completed due to a very limited state revenue source for aviation and airports)

According to Carol Gould, All programs recommended for funding would be reviewed and those programs that scored lowest in the selection process would be denied funding. Programs operate on a federal funding year and begin 10/1/14*.

According to Pat Saffo, CDOT’s Federal funds are restricted by Federal law to use in projects specifically designated for maintaining the States Highway Infrastructure. CDOT programs these funds through a Resource Allocation Methodology, by which the Transportation Commission sub-allocates total available funding to Regional and Staff Branches Program Managers, who select specific projects from the Statewide Transportation Improvement Program (STIP). These projects are consistent with the corridor visions, goals, and strategies in the Statewide Long Range Plan (LRP). These funds are programmed in Regional Pools by Program and Fiscal Year which are used to fiscally constrain the STIP. In the event of a Federal Reduction in funding, these Pools are proportionally reduced by TC direction and selected STIP projects would be either reduced in total cost/scope or delayed into future years to return the highway construction program back into fiscal constraint by year.

*All agencies that were recommended for funding received contracts/letters stating awards were contingent on appropriation of funds at the federal level.

IXX- Department of Human Services

Percentage of federal funds in relation to total funds: 58.32%

The Department’s FY 2013-14 federal appropriations totaled \$612,167,352 of its total appropriation of \$2,187,196,360. This amount represents 28% of the Department’s budget.

Operating Plan with a Five Percent Reduction in Federal Funds A federal funding reduction of 5% equals \$30,608,367.

Office of Economic Security

Administers the following federally funded programs: Supplemental Nutrition Assistance (SNAP), Food Distribution, and Temporary Aid to Needy Families, Child Support Enforcement, Refugee Assistance, and the Low Income Energy Assistance Programs. These programs also receive funding from the General Fund and various other sources.

In the event of a reduction of 5% of federal funds, programs operated by this Office would result in a reduce benefits to eligible individuals, reductions in administrative and oversight at the state and county levels, reduction of funding to community partners to distribute food to grantees including food pantries, community service organizations, and other contractors.

Office of Early Childhood

Administers the following federally funded programs: Individuals with Disabilities Education Act, Race to the Top Early Learning Challenge Grant, Maternal Infant Home Visitation, Promoting Safe and Stable Families, Child Care Development Fund, and Head Start.

In the event of a reduction of 5% of federal funds, programs administered by this Office would reduce professional development opportunities for contractors, adjust the scope of work, reduce services to children and families, reduce allocations to counties for service provision, reduce in administrative services, and reduce quality initiatives.

Office of Community Access and Independence

Administers the following federally funded programs: Colorado State Veterans Community Living Centers, vocational rehabilitation, regional centers for individuals with developmental disabilities, state independent living centers, independent living programs, services for aging adults and seniors, and disability determination services.

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

In the event of a 5% reduction in federal funding, programs administered by this Office would reduce the scope of improvements to 24/7 facilities, reduce services to eligible individuals, reduce grant amounts to contractors and providers, eliminate of staff, and reduce in training and technical assistance.

Office of Behavioral Health

Administers the following federally funded programs: substance abuse treatment and mental health services.

In the event of a 5% reduction in federal funding, programs administered by this Office would reduce primary prevention programs and treatment programs.

Office of Children, Youth & Families

Administers the following federally funded programs: child welfare related programs, and juvenile justice programs.

A reduction of 5% of federal funding would result in a reduction of services for families including adoption, reunification, education, and independent living; reduction in training related to child abuse and neglect and family violence; reduction in funding available to counties to provide services to children and their families.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds . A federal funding reduction of 25% is \$153,041,838.

Office of Economic Security: In addition to the operating plan above, the Office of Economic Security would reduce technical assistance and training for the programs it administers.

Office of Early Childhood: In addition to the operating plan previously discussed, the Office would restrict eligibility criteria for affected programs.

Office of Community Access and Independence: In addition to the operating plan discussed above, the Office would reduce caseworkers and other positions, and training opportunities.

Office of Behavioral Health: In addition to the operating reductions previously discussed the Office would reduce staff.

Office of Children, Youth & Families: In addition to the operating plan previously discussed, the Office would reduce staff and administrative activities.

KAA - Department of Labor and Employment (CDLE)

Percentage of federal funds in relation to total funds: 30.76%

Operating Plan with a Five Percent Reduction in Federal Funds

CDLE would continue to operate but reducing the program(s) by 5% would cause reduced services and/or limited staff reductions thru early retirements or limited layoffs to cover the reduction to be determined by Executive Management and the Executive Director.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

CDLE would have to make cuts in staff that would extend to some degree into the support areas such as HR, Finance, Purchasing, etc. but the projected cuts would mainly include staff of those direct services programs. This would impact the service delivery causing increases in the probability of delay of service delivery to clients. CDLE would still operate but at a reduced capacity equivalent to the reduction in federal moneys.

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

LAA - Department of Law

Percentage of federal funds in relation to total funds: 2.64%

Operating Plan with a Five Percent Reduction in Federal Funds

Federal money received by the Department of Law relates to Medicaid Fraud Investigations. If Federal money was to decrease for either program by 5%, activity would decrease accordingly..

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

Federal money received by the Department of Law relates to Medicaid Fraud Investigations. If Federal money was to decrease for either program by 25%, activity would decrease accordingly.

NXX - Department of Local Affairs

Percentage of federal funds in relation to total funds: 24.59%

Operating Plan with a Five Percent Reduction in Federal Funds

Division of Local Government: The Mission of the Division of Local Government is to provide high quality technical and financial assistance services to local governments and communities throughout Colorado to enable them to achieve sustainable community development.

One of the division's goals (goal #4) is to improve local government's capacity to administer and implement grants awarded. A decrease in funding through sequestration would result in a reduction in the amount of funds available to help address local government's priorities. Specifically, input measures would be changed from:

Input Measures in the Strategic Plan would be affected as follows:

For 5% reduction:

Reduce projected FY 2014-15 Competitive grant dollars available from 93.0 mil to 90.1 mil.

Reduce projected FY 2014-15 Formula grant dollars available from \$123.0 mil to \$119.4 mil.

Outcome Measures in the Strategic Plan would be affected as follows:

For 5% reduction:

Reduce projected Competitive Dollars Leveraged from \$100 mil to \$97 mil

Reduce Estimated New Jobs Created by Competitive Grants with leverage from 1,703 to 1,643.

Following is a breakdown by federal grant:

1. Community Services Block Grant - CSBG

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

5% reduction Output: Formula grants to eligible entities would be reduced. Outcome: approximately 5,787 fewer low-income people will be served throughout Colorado.

2. Community Development Block Grant - CDBG

5% reduction Output: DOLA would be unable to fund 1.5 major infrastructure projects in rural Colorado, figured with an estimated award of \$550,00 per project. These grants are made to low and moderate income towns or counties and impacts the sustainability of their communities. Outcome: These grants leverage other dollars and support construction jobs. Assuming a dollar-for-dollar leverage, approximately 9 fewer jobs would be created.

3. Federal Mineral Lease – FML

5% reduction Output: DOLA would be unable to fund 2 one million dollar grants. These grants usually are for large scale infrastructure dealing with water, sewer, roads or other major projects critical to local governments that impact livability and sustainability of communities throughout the state. Outcome: Leverage for these large scale projects varies. Assuming a 2:1 leverage to grant, 54 fewer jobs would be created.

4. EPA Water/Sewer File Project – CWSRF and DWSRF

5% reduction Output: DOLA's capacity to evaluate the financial capacity, support the application process, improve customer accountability and management procedures of communities seeking to comply with the Clean Water Act and the Safe Drinking Water Act would be reduced. Outcome: For 2013, the programs processed 26 requests for funding from applicants, at an average cost of \$11,364 per applicant. A 5% funding reduction would remove \$2,471 from the program's budget for application processing.

Division of Housing:

A. Housing Programs

Since 2010, the Division of Housing (DOH) has had a nearly 50% reduction in its Federal HOME program. This took DOH from \$8.4 million to \$4.6 million. HUD allows 10% of HOME funds to be used for administrative costs. The reduction in funds has already caused a loss of more than \$400,000 of administrative funding. Although the funding has been cut, the statutory program requirements have been diminished and often require long-term monitoring of programs up to 30 years. Additionally, DOH manages Community Development Block Grant (CDBG) which faced a 2% reduction in the 2014 allocation, Emergency Solutions Grants (ESG) and Housing Opportunities for Persons with Aids (HOPWA). Since 2010, these other Federal programs have been cut through sequestration by an averaging of 3%.

DOH has worked through these cuts through attrition and by not filling vacancies. Additionally, reserves have been tapped to also cover shortages. Any additional cuts would potentially reduce staff further.

The mission of DOH is to improve the access of all Coloradans to decent, affordable housing. With rental vacancy rates at 13 year lows nearing 4% and the average rent exceeding \$1,000, the need for affordable rental housing is compounding. Among renter households making \$20,000 or less (\$20,000 = approx. 34% Area Median Income), there are 142,000 households paying 35% or more of their income toward housing. At Colorado's minimum wage of \$8.00/hour, a person only makes \$16,640.

Additional cuts to funding for affordable housing will reduce the availability of new affordable housing for the homeless, persons with disabilities and the working poor. A 5% cut, equals a loss of \$31,000 for administrative expenses and a loss of \$417,000 funds for housing, which equates to 1,900 fewer families being served and housed.

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

B. Section 8 Program

Housing Assistance Payments:

- A five percent reduction in the dollars allocated to rental payments would be accomplished through attrition resulting in fewer people assisted.

Administrative fees:

- A five percent reduction in the administrative fees can be realized using vacancy savings and/or operational cost containment.

C. Daily Operations

In the event of a 5% reduction, which we have already seen in most of our Federal Programs, the Division of Housing would or have taken the following approach to continue operations:

- Reduce Mailings / Fed-Ex costs
- Reduce travel costs by creating field offices which allows staff to conduct same day travels as opposed to overnight stays
- Cut back on membership fees where possible
- Attend / conduct more webinar trainings allowing DOH to cut back on travel costs
- Limit trainings where possible without negatively affecting the integrity of the programs and / or staff..

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

Division of Local Government: The Mission of the Division of Local Government is to provide high quality technical and financial assistance services to local governments and communities throughout Colorado to enable them to achieve sustainable community development.

One of the division's goals (goal #4) is to improve local government's capacity to administer and implement grants awarded. A decrease in funding through sequestration would result in a reduction in the amount of funds available to help address local government's priorities. Specifically, input measures would be changed from:

Input Measures in the Strategic Plan would be affected as follows:

For 25% reduction:

Reduce projected Competitive grant dollars available from 93.0 mil to 78.7 mil.

Reduce projected Formula grant dollars available from \$123.0 mil to \$112.3 mil.

Outcome Measures in the Strategic Plan would be affected as follows:

For 25% reduction:

Reduce projected Competitive Dollars Leveraged from \$100 mil to \$71.5 mil.

Reduce Estimated New Jobs Created by Competitive Grants with leverage from 1,703 to 1,439.

Following is a breakdown by federal grant:

1. Community Services Block Grant – CSBG

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

25% reduction Output: Formula grants to eligible entities would be reduced. Outcome: approximately 28,935 fewer low-income people will be served throughout Colorado.

2. Community Development Block Grant – CDBG

25% reduction Output: DOLA would be unable to fund 3.6 major infrastructure projects in rural Colorado, figured with an estimated award of \$550,000 per project. These grants are made to low and moderate income towns or counties and impacts the sustainability of their communities. Outcome: Assuming a dollar-for-dollar leverage, approximately 21.6 fewer jobs would be created.

3. Federal Mineral Lease – FML

25% reduction Output: DOLA would be unable to fund 9 one million dollar grants. These grants are typically for water, sewer, roads or other large infrastructure requests that impact the livability and sustainability of communities throughout the state. Outcome: Leverage for these large scale projects varies. Assuming a 2:1 leverage to grant ratio, 234 fewer jobs would be created.

4. EPA Water/Sewer File Project – CWSRF and DWSRF

25% reduction Output: DOLA's capacity to evaluate the financial capacity, support the application process, improve customer accountability and management procedures of communities seeking to comply with the Clean Water Act and the Safe Drinking Water Act would be reduced. Outcome: For 2013, the programs processed 26 requests for funding from applicants, at an average cost of \$11,364 per applicant. A 25% funding reduction would remove \$12,356 from the program's budget for application processing.

Division of Housing:

A. Housing Programs

Since 2010, the Division of Housing (DOH) has had a nearly 50% reduction in its Federal HOME program. This took DOH from \$8.4 million to \$4.6 million. HUD allows 10% of HOME funds to be used for administrative costs. The reduction in funds has already caused a loss of more than \$400,000 of administrative funding. Although the funding has been cut, the statutory program requirements have been diminished and often require long-term monitoring of programs up to 30 years. Additionally, DOH manages Community Development Block Grant (CDBG) which faced a 2% reduction in the 2014 allocation, Emergency Solutions Grants (ESG) and Housing Opportunities for Persons with Aids (HOPWA). Since 2010, these other Federal programs have been cut through sequestration by an averaging of 3%.

DOH has worked through these cuts through attrition and by not filling vacancies. Additionally, reserves have been tapped to also cover shortages. Any additional cuts would potentially reduce staff further.

The mission of DOH is to improve the access of all Coloradans to decent, affordable housing. With rental vacancy rates at 13 year lows nearing 4% and the average rent exceeding \$1,000, the need for affordable rental housing is compounding. Among renter households making \$20,000 or less (\$20,000 = approx. 34% Area Median Income), there are 142,000 households paying 35% or more of their income toward housing. At Colorado's minimum wage of \$8.00/hour, a person only makes \$16,640.

Additional cuts to funding for affordable housing will reduce the availability of new affordable housing for the homeless, persons with disabilities and the working poor. A 25% cut, equals a loss of \$155,000 dollars for administrative costs and a loss of \$2,082,000 for housing, which equates to 9,680 fewer families being served and housed.

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

B. Section 8 Programs

Housing Assistance Payments:

A twenty-five percent decrease in the dollars allocated to rental payments would result in:

- An immediate halt to all leasing
- Possible adjustment of the payment standard resulting in program participants paying a larger share of their income towards rent and utilities.
- Possible decrease of the number of bedrooms allocated to a family resulting in families residing in smaller units.
- Termination of families from the program.

Administrative fees:

A twenty-five percent reduction in the administrative fees would result in:

- When staff turnover occurs, vacancies will not be filled.
- No travel or training expenses will be approved.
- Decrease in the dollars allocated to contractors.

C. Daily Operations

In the event of a 25% reduction, which we have seen in 2013 in most of our Federal Programs, the Division of Housing would or have taken the following approach to continue operations:

All of the same items mentioned in I-C above in addition to the following:

- Vacancy Savings – through attrition where possible
- Extend term for replacement of computer equipment from 3 to 5 years
- Join forces with other agencies who perform similar functions
 - Split staff costs with CHFA and others agencies who all conduct HUD monitoring. Currently we have 1 staff member who is 75% employed by DOH and 25% employed by CHFA
- Outsource tasks when feasible and / or allowed

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

- Such as outsourcing HQS inspector and Certified Electrician for the Building Manufactured Section
- Apply for additional HUD grants and / or programs from other state entities such as administering programs for the Governor's energy office
- Reduce cost of printing by enforcing EFT payments for checks, which will ultimately reduce the cost of copy paper and toner cartridges
- Request lower indirect rates or request general funds to cover a portion of the indirect costs
- Request general funds to cover personal and operational costs

OXX – Department of Military Affairs

Percentage of federal funds in relation to total funds: 48.13%

Operating Plan with a Five Percent Reduction in Federal Funds

Division of National Guard and Veterans Affairs: DMVA received approximately 48% (\$13,618,770.13) of its funding from Federal sources during State Fiscal Year 2014. Of those funds, 99.9% were received directly. The funds paid personal services, operations and maintenance costs. DMVA has a Master Cooperative Agreement with NGB for most of the federal funding. The individual programs in the MCA have, 1) all personnel costs, 2) all operational costs, or 3) mixed between personnel and operational costs. The MCA programs pay between 50% and 100% of costs currently depending upon the program and nature of the activity. In the event of a 5% cut to personnel services funding, the Department would find savings in vacancies, cut personnel, or pay a higher percentage of the costs with general fund where allowed. Cuts to operations funding would either require more State share, or reduce some types of maintenance activities that would put facilities at risk of damage. The decisions would be driven by how the Long Bill line is funded. For those lines that are only 100% Federal, program cuts for personal services and operations would be mandatory. DMVA receives one grant as a sub-recipient that pays for two persons. Funding cuts would require a reduction in staffing. The Department of Veterans Affairs pays a flat rate for burials at our cemetery in Grand Junction. The cemetery is operated out of a cash fund that has sufficient fund balance to support a short- term federal funding cut. Long-term cuts would likely require general fund support.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

Division of National Guard and Veterans Affairs: The majority of federal funds are used to support the National Guard facilities and missions. Cuts in federal funding could be devastating to the department. Should the National Guard Bureau reduce the number of authorized troops, DMVA could be compelled to close older armories, maintenance shops and training centers. In addition, closure of newer facilities less than 25 years old would compel the State to pay back a portion of construction costs to the NGB. Approximately 60% of the Human Resources, Accounting, and Purchasing offices are supported at least 50% by federal funding. Without additional State funding, staffing cuts would be required, which will have a detrimental impact on internal controls and timely processing. Force reductions would require leave balance pay-outs that would likely require general fund support.

The effects of a 25% federal funding cut are far reaching. MCA 100% funded facilities programs would reduce operations and maintenance to emergency and minimal sustainment requirements. Personal services would require a reduction in work force.

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

PXX- Department of Natural Resources:

Percentage of federal funds in relation to total funds: 5.94%

Operating Plan with a Five Percent Reduction in Federal Funds

DNR – Executive Director: A five percent reduction, or slightly more, would be absorbed by the Oil and Gas Conservation Commission (OGCC) with little or no programmatic changes. In this regard, it is important to note that the OGCC receives about \$100,000 in federal funding each year, which represents about one percent of the agency's budget. The \$100,000 is received each year from the U.S. Environmental Protection Agency and is for the Underground Injection Program.

Water Conservation Board: CWCB receives 3 different grants from the Federal Emergency Management Administration (FEMA).

The first grant is for the Community Assistance Program (CAP) from FEMA. This grant has been increased to \$142,840 and funds 1 full time employee and their operating expenses. A 5% (\$7,142) reduction would mean the CWCB would have to come up with more money from the CWCB Construction Fund to cover the loss of the federal funds.

- The second grant is for the Risk Map Program also from FEMA to manage the Risk Map and Digital Flood Insurance Rate Maps (DFIRM). This grant has increased to \$120,139 and funds 1 full time employee and their operating expenses. A 5% (\$6,007) reduction would mean the CWCB would have to come up with more money from the CWCB Construction Fund to the federal funds.
- The third grant is for Risk Map and Digital Flood Insurance Rate Maps (DFIRM) for counties and watershed basins in Colorado to update flood maps on a watershed scale. Map updates are done by an Engineer Consulting entity, because of the complexity of the projects. In fiscal year 2014 the CWCB received 3 new grants and had 13 continuing grants for a total of \$1,228,286 from FEMA for Risk Map and Digital Flood Insurance Rate Maps (DFIRM). If the federal government decreased the grants by 5% (\$61,414) the state would either have to put more into the project or ask for the cities, towns, and counties in the watershed basin to put in more money. In fiscal year 2014 the CWCB thinks that it will receive 2 grants totaling \$750,000 for this program.

Division of Water Resources: A 5% cut in the total amount of federal funds that the DWR receives, approximately \$288,000, would result in a reduction of \$14,400. This reduction would result in a scaled back Dam Safety Program which could decrease inspections, internal training, and community outreach. It would also decrease the collection of hydrologic data while decreasing our collaboration efforts with the USGS. No permanent salaries are paid from these federal funds.

Div Reclamation, Mining, Safety:

Coal Regulatory Program/Blasters Certification Program

OSM Grant - 5% reduction = \$159,916 (based on 2014 grant -- \$126,334 federal funds and \$33,582 matching state cash funds)

Revenue request: A request may be considered for state severance tax cash funds to replace the reduction in federal grant funds. This would maintain the current staffing level in the program and protect the state primacy of the Coal Program to avoid erosion in the state's ability to regulate coal mines. Such a request would be contingent on approvals from the Governor's Office and the General Assembly.

Cost reduction: A 5% reduction in both federal funds and the required cash matching funds would jeopardize the funding for approximately 1.5 regulatory FTE and associated operating funds for travel and supplies costs. On average, the loss of one FTE would result in the following regulatory actions not being completed per year: 28 permitting actions, 58 mine site inspections and 1 enforcement/violation action. A delay in permitting actions can negatively impact mine expansions, coal production levels and local economies, and a decrease in inspections increases the risk of environmental issues that are not identified in a timely manner.

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

Inactive Mine Reclamation Program

Office of Surface Mining (OSM) Grant - 5% reduction = \$190,000 (based on projected 2015 grant amount of \$3.8 million)

Bureau of Land Management (BLM)/U.S. Forest Service (USFS) Grants - 5% reduction = \$351,234 (based on total as of 8-14-14)

Revenue request: A request for state severance tax cash funds to backfill this cut would be considered but is not likely. While some mine reclamation funding is currently provided by severance tax, the Department's highest priority use of severance tax in this Division is to maintain regulatory programs (which are currently experiencing pressure due to federal sequestration). While the Department may consider one-time targeted increases here if there were uncommitted moneys available in the severance tax/Operational Account, it is not likely if such revenue is in decline in that fiscal year. As such, the most likely outcome is a cut in the number of inactive mine projects (as described in the cost reduction section below).

Cost reduction: A 5% reduction in federal funds would result in slightly reduced total number of hazardous abandoned mine features and environmental problems the program is able to reclaim and safeguard each year. A corresponding decrease in the program's existing levels of contractual expenditures for outsourced engineering, construction oversight and outreach activities would absorb the cuts. There would be no effect on FTE.

Mine Safety and Training Program

Mine Safety and Health Administration (MSHA) – 5% reduction = \$10,520 (based on 2013-14 grant)

The 5% reduction would further erode the operating funds in the program, but no FTE would be reduced in the program. Reductions to the operating funds will jeopardize the trainers' ability to travel for on-site trainings, causing the program to change to a centralized training arrangement, and shifting the cost for the miners/contractors to travel to that central location.

Division of Parks and Wildlife: A reduction of five percent or more in the total amount of federal moneys received would require the Division to either reduce program budgets, or refinance federally-funded programs with cash funds in order to operate the State Agency.

The majority of Wildlife programs are funded with a combination of Wildlife Cash, federal funds, and Great Outdoors Colorado (GOCO) funds. The largest share of Wildlife revenue is derived from the sale of hunting and fishing licenses. CPW also receives annual apportionments of the federal excise taxes paid by hunters and anglers on firearms, ammunition, fishing equipment and motor boat fuels through the Pittman-Robertson (PR) Wildlife Restoration Act (1937) and the Dingell-Johnson (DJ) Sportfish Restoration Act (1950). The Division also receives a small allocation of federal funding through the annual State Wildlife Grants program. Lastly, CPW wildlife programs receive approximately one-fourth of the lottery proceeds allocated to the Great Outdoors Colorado program. The majority of these funds are available to the Division for more than one year. The annual federal apportionments of PR/DJ that the Division receives are not expected to decline and are dedicated specifically for Wildlife Purpose (in fact, federal fund receipts by Colorado Parks and Wildlife have been increasing). However, CPW recently completed a major review of options for reducing the expenses associated with Wildlife programs, in part due to the declining balance in the Wildlife Cash Fund. Moving forward, the prioritized budget reductions in this plan would likely also be used to guide how the Division would respond to federal revenue reductions. A five percent reduction would equate to a loss of roughly \$1.0 million to the Wildlife programs in CPW. As such, the plan for responding to a cut of this nature would include reductions in operating and capital expenses, implementation of program efficiencies, and implementation of measures to increase cash revenues.

The majority of Colorado State Parks programs are funded with a combination of Parks Cash funds, federal funds, Great Outdoors Colorado (GOCO) funds, and Lottery funds. CPW Parks programs are predominantly funded by the sale of park visitor passes, permits, user fees, and registrations. State park system also receives annual 10% lottery distribution pursuant to Section 3 of Article XXVII of the State Constitution. The Division receives a small cost-sharing funding from the US Bureau of Reclamation to support five parks in the Northwest Region, a Boat Safety program funding from the United States Coast Guard's Boat Safety Program, a Fuel Mitigation Program funding support from the Federal Emergency Management Agency, and Trails Program funding support from the Interior National Park Service Land and Water Conservation Fund State Assistance Program. Cumulatively these different federal funds are less than 5% of the state park system's annual operational funding. In addition, CPW has cost-sharing agreements with the US Army Corps to upgrade and replace aging capital infrastructure, however, those agreements are in the last years/stages and do not constitute significant capital construction funding support. Lastly, CPW Parks programs receive approximately one-fourth of the lottery proceeds allocated to the Great Outdoors Colorado program. The majority of these funds are available to the Division for more than one year. The annual federal funding that the Division receives is not anticipated to decline and is dedicated for Parks Purpose. However, if there were a five percent reduction in federal funds received for state parks purposes, the exact impact would depend somewhat on the federal source being reduced. A reduction in the Trails Program funding would likely result in less funding being available for trails purposes, for example. Similarly, a reduction in funding from the U.S. Bureau of

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

Reclamation and/or the U.S. Army Corps of Engineers would likely result in less capital funding at the state parks that are cost shared with those federal agencies and/or reductions in service levels. Over the longer term, reduced federal funding at these state parks may result in some capital amenities (paved roads, campgrounds, picnic areas, visitor centers, etc.) being closed and not replaced (or being replaced with smaller, more primitive amenities).

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

DNR – Executive Director: A twenty-five percent reduction, or more, would result in a corresponding reduction in grant related activities that could, depending on the volume of permit application, increase the time required for the OGCC to review and permit new injection wells. Time required for permit approval could increase as FTE hours were reduced. If a funding reduction of this magnitude were to occur, the Department may seek to replace lost federal funding with an offsetting increase in cash appropriated to the OGCC from the Oil and Gas Conservation and Environmental Response Fund. In addition to the fact that revenue exists in the cash fund to support such a request, this option would be strongly considered given the importance of continuing to honor the public trust that oil and gas activities in the State are being appropriately regulated.

Water Conservation Board:

- The first grant is for the Community Assistance Program (CAP) from FEMA. This grant has increased to \$142,840 and funds 1 full time employee and their operating expenses. A 25% (\$35,710) reduction would mean the CWCB would have to come up with more money from the CWCB Construction Fund to cover the loss of the federal funds.
- The second grant is for the Risk Map Program also from FEMA to manage the Risk Map and Digital Flood Insurance Rate Maps (DFIRM). This grant has increased to \$120,139 and funds 1 full time employee and their operating expenses. A 25% (\$30,035) reduction would mean the CWCB would have to come up with more money from the CWCB Construction Fund to the federal funds.
- The third grant is for Risk Map and Digital Flood Insurance Rate Maps (DFIRM) for counties and watershed basins in Colorado to update flood maps on a watershed scale. The analysis the maps are completed are done by an Engineer Consulting entity, because of the complexity of the projects. In fiscal year 2014 the CWCB received 3 new grants and had 10 continuing grants for a total of \$1,228,286 from FEMA for Risk Map and Digital Flood Insurance Rate Maps (DFIRM). If the federal government decreased the grants by 25% (\$307,072) the state would have several options (and might use a mix of these options). First, CWCB could put more cash funds into the project from the CWCB Construction Fund. Second, CWCB could ask for the cities, towns, and counties to put in more money into floodplain mapping efforts. Finally, a reduction of this magnitude might result in less floodplain mapping projects being completed in a fiscal year. In fiscal year 2015 the CWCB thinks that we will receive 2 grants totaling \$750,000 for this program.

Division of Water Resources: A 25% cut in the total amount of federal funds that the DWR receives would result in a reduction of \$72,000. This reduction would result in a scaled back Dam Safety Program which would decrease inspections, internal training, and community outreach. It would also decrease the collection of hydrologic data while decreasing our collaboration efforts with the USGS.

Div Reclamation, Mining, Safety:

Coal Regulatory Program/Blasters Certification Program

OSM Grant-25% reduction = \$799,585 (based on 2014 grant - \$631,672 federal funds and \$167,913 matching state cash funds)

Revenue request: A request for state severance tax cash funds would be considered to protect the state primacy of the Coal Program by avoiding up to 7.5 FTE reductions. Such a request would be contingent on approvals from the Governor's Office and the General Assembly.

Cost reduction: This magnitude of federal funds and cash match reduction would debilitate program functions including permitting, inspection and enforcement. The 25% reduction of \$799,585 would be comprised of a staff reduction of approximately 7.5 FTE and the associated operating expenses. This is a 65% reduction in the program's regulatory staff and functions (out of 11.5 regulatory FTE). Such a staff reduction would result in the following actions not being completed per year: 144 permitting actions, 294 inspections, and 3 enforcement/violation actions. The reductions could lead to significant permitting delays, causing mines to temporarily stop production while waiting for permit approvals. Environmental issues could also arise if not identified in a timely manner due to less frequent site inspections. An OSM/federal government takeover of the program would become

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

likely as the state would not be adequately staffed to perform the regulation of all coal mines in the state. Such a loss of regulatory primacy in the state would result in direct federal government regulation of Colorado's coal mines and disqualifies Colorado from obtaining OSM funds for the Inactive Mine Regulation Program (approximately \$3.8 million per year).

Inactive Mine Reclamation Program

OSM Grant - 25% reduction = \$950,000 (based on projected 2015 grant amount of \$3.8 million)

BLM/USFS Grants - 25% reduction = \$1.75 million (based on total as of 8-14-14)

Revenue request: A request for state severance tax cash funds to backfill this cut would be considered but is not likely. While some mine reclamation funding is currently provided by severance tax, the Department's highest priority use of severance tax in this Division is to maintain regulatory programs (which are currently experiencing pressure due to federal sequestration). While the Department may consider one-time targeted increases here if there were uncommitted moneys available in the severance tax/Operational Account, it is not likely if such revenue is in decline in that fiscal year. As such, the most likely outcome is a cut in the number of inactive mine projects (as described in the cost reduction section below).

Cost reduction: A 25% reduction in federal funds would result in a reduction of approximately 53 hazardous abandoned mine features and 26 acres of mining-disturbed lands the program is able to safeguard and reclaim each year. A portion of the reduction could be absorbed by discontinuing all ongoing contractual expenditures for outsourced engineering, construction oversight and outreach activities. The program would refocus some of its staff resources to ongoing and planned hardrock environmental reclamation projects funded from non-federal sources. Anticipated staff vacancies within the next 5 years will not be backfilled*.

**Federal OSM Title IV Mine Reclamation grant funds are set for reduction from 2015 through 2017 due to automatic formulaic decreases in OSM's "pay-back" program which went into effect with the 2006 re-authorization of SMCRA. IMRP has planned for this reduction in grant amounts; therefore, it is not expected to have an immediate effect on program FTE levels (layoffs) due to anticipated staff retirements.*

Mine Safety and Training Program

Mine Safety and Health Administration (MSHA) – 25% reduction = \$52,600

The federal grant has experienced a 65% reduction in recent years; therefore, strategies to maintain the current quality of miner safety training are being investigated. A 25% reduction from the current funding level of \$210,406 (a reduction of \$52,600) would significantly impact the operating funds for the current 4 FTE and impact their ability to prepare training materials and rent rooms for conducting centralized training sessions. Due to the need to hold centralized training sessions, this shifts a burden of cost either to individual miners/contractors or their companies.

Revenue Considerations: Charging fees for the safety trainings might be considered. This would require rule making and support from the mining industry. Shifting these costs to the mining industry significantly impacts the economic viability of small mining operations.

Division of Parks and Wildlife: A reduction of twenty-five percent or more in the total amount of federal moneys received would require the Division to either reduce program budgets, or refinance federally-funded programs with cash funds in order to operate the State Agency. The annual federal apportionment of PR/DJ that the Division receives is not expected to decline and is dedicated specifically for Wildlife Purpose. The annual federal funding for parks-related programs that the Division receives is not anticipated to decline and is dedicated for Parks Purpose (in fact, federal fund receipts by Colorado Parks and Wildlife have been increasing). However, CPW recently completed a major review of options for reducing the expenses associated with Wildlife programs, in part due to the declining balance in the Wildlife Cash Fund. Moving forward, the prioritized budget reductions in this plan would likely also be used to guide how the Division would respond to federal revenue reductions. As such, the plan for responding to a cut of this nature would include reductions in operating and capital expenses, implementation of program efficiencies, and implementation of measures to increase cash revenues.

If there were a twenty-five percent reduction in federal funds received for state parks purposes, the exact impact would depend somewhat on the federal source being reduced. A reduction in the Trails Program funding would result in less funding being available for trails purposes, for example. Similarly, a reduction in funding from the U.S. Bureau of Reclamation and/or the U.S. Army Corps of Engineers would result in less capital funding at the state parks that are cost shared with those federal agencies and/or reductions in service levels. Over the longer term, reduced federal funding at these state parks would likely result in some capital amenities (paved roads, campgrounds, picnic areas, visitor centers, etc.) being closed and not replaced (or being replaced with smaller, more primitive amenities). At this higher level, it is also possible that some cost-share state parks would either be returned to the federal government (such that they would no longer be operated as state parks), would be turned over to a local government entity to operate, or would be operated as a state wildlife area (which would involve very minimal services and amenities).

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

Notes: As noted above, Colorado Parks and Wildlife has been analyzing a variety of options for reducing its budget (mostly in response to a drawing down of the cash balance in the Wildlife Cash Fund). With a fair degree of flexibility to shift expenditures from one revenue stream to another, this plan would also be consulted in the event of a federal funds decline (although some of the alternatives in this plan are already being implemented to address the cash revenue shortfall). A final copy of this plan can be found at the following web address:

<http://cpw.state.co.us/Documents/Commission/2013/Nov/ITEM%2030-Nov2013PWCMTg-BudgetReductionAlternatives.pdf>

RAA– Department of Public Safety

Percentage of federal funds in relation to total funds: 32.65%

Operating Plan with a Five Percent Reduction in Federal Funds

Currently, federal funds comprise approximately 37% of the department's budget. This is an increase of 43% over the fiscal year 2013 budget which is primarily attributable public assistance payments for the Colorado Floods that occurred in the fall of 2013. The federal assistance we receive supplements and does not supplant program funding. Any reduction in funding impacts the department as well as subrecipients who rely on federal grants in providing essential services. The general trend in the department is that federal funding is declining which places stress on our finances and increases the risk that reduction of staff will be likely. The department makes every effort to reallocate administrative allotments within the federal regulations and locate operational efficiencies to avoid staffing reductions at the 5% level. Some of our grant programs have experienced a decrease in federal financial assistance this year and we have been able to reduce staffing levels through attrition. The federal cuts also affect our local government and nonprofit partners and generally result in a decrease in the number of beneficiaries being served and/or the aggregate financial assistance being reduced. In addition, the department receives assistance that pays for employee overtime in support of activities conducted by law enforcement and terrorism task forces. Decreases in these overtime grants would mean a corresponding reduction in our personnel's participation in crucial task force activities.

Continued annual cuts in federal funding may push reductions beyond the five percent (5%) level which limits the department's ability to effectively manage program goals and objectives and is viewed by grant administrators as a warning sign for the future. At the present time, a sufficient level of flexibility exists to allow program managers to deliver critical services to the state's citizens.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

Currently, federal funds comprise approximately 37% of the department's budget. This is an increase of 43% over the fiscal year 2013 budget which is primarily attributable public assistance payments for the Colorado Floods that occurred in the fall of 2013. The federal assistance we receive supplements and does not supplant program funding. A reduction of 25% or more in funding would demand major adjustments to operating plans and budgets. Administrative and program staff would need to be cut, services in support of the programs would be curtailed and purchases of supplies would be reduced. In addition, awards to subrecipients would also decline accordingly.

A reduction in federal grants of at least one-fourth leaves program managers with very little flexibility will impair the department's ability to provide essential services and jeopardizes public safety over the long term.

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

SXX – Department of Regulatory Agencies

Percentage of federal funds in relation to total funds: 4.77%

Operating Plan with a Five Percent Reduction in Federal Funds

Civil Rights Division:
HUD 14.401

- HUD- CCRD (Colorado Civil Rights Division) would absorb a 5% reduction in federal funds from HUD by limiting its use of operating budget dollars and vacancy savings.

EEOC 30.002

- EEOC- CCRD (Colorado Civil Rights Division) would absorb a 5% reduction in federal funds from HUD by limiting its use of operating budget dollars and vacancy savings.

Division of Insurance: All employees hired with grant funds are term-limited state employees and are aware that their employment ends at the end of the grant period (or at the end of any no cost extension period) in 2014, or sooner if federal funding is lost. Contractors hired with these grant funds are hired with specific start and end dates or on an as-needed basis. There is also standard language in all forms that obligate the state to the effect that if the funding changes or ends, the obligation ends.

The loss of federal funding would have an impact on the Division of Insurance if the grant-funded staff and any contractors/vendors were no longer able to perform the duties required by the grant and the requirements of the Affordable Care Act (ACA). The Division may be able to absorb a portion of the grant-funded staff if vacancy savings exist or additional funding is received from the General Assembly.

HCF (SHIP) 93.779

A 5% reduction in Senior Health Insurance Program (SHIP) funding would result in the elimination of face to face planning meetings with sub-grantees, face to face training for counselors/volunteers, and face to face site visits to sub-grantee agencies. In addition, it would prevent reimbursement for travel to annual training by federal subject matter experts and would cause a reduction in discretionary expenses such as printing of educational materials for consumers.

AOA 93.048

A 5% reduction in Senior Medicare Patrol (SMP) funding would result in the elimination of face to face planning meetings with sub-grantees, face to face training for counselors/volunteers, and face to face site visits to sub-grantee agencies. In addition, it would cause a reduction in discretionary expenses such as printing of educational materials for consumers, statewide outreach activities and consumer advertising.

AOA 93.048

A 5% reduction in Capacity Building funding would result in a reduction in funding to local sub-grantees which increases the risk of them not meeting federal compliance standards and not meeting local outreach and consumer assistance goals meaning fewer consumers received assistance, especially in rural and hard to reach communities.

MIPPA 93.071

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

A 5% reduction in MIPPA funding would result in a reduction in funding to local sub-grantees which increases the risk of them not meeting local outreach and consumer assistance goals meaning fewer consumers received assistance, especially in rural and hard to reach communities.

Public Utilities Commission:

GAS PIPELINE 20.700

It is expected that a 5% reduction could be accommodated within existing resources, and no specific plan would be required.

GAPS ONE-CALL CENTER 20.721

This is a one-time grant used between April 1, 2014 and March 30, 2015.

SERA 81.122

This Grant was intended to be a temporary supplement to State appropriations. We are in the later phase of this grant and a 5% reduction in the grant would not affect the program. The Grant expires in September 2013.

Pharmacy Board: SJS, DUNS – 361914497, US DOJ- PDMP, CFDA – 16.728

The Prescription Drug Monitoring Program (PDMP) is funded for day to day operations from a fee attached to the licenses of controlled substance prescribers. Consequently, should the amount of money be reduced by 5%, there will be no impact on the program except that the enhancements to the program funded by the federal moneys may not be completed. The program will remain operational.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

Civil Rights Division:

HUD- GRANT

- A 25% reduction would be an entirely different matter since CCRD would have to evaluate the viability of the existing program and possible staff reductions. A specific plan at this time must be characterized in general terms, because it would depend on how many cases were completed under the revised federal contract that is 25% less. However, such a large reduction in the rate per completed cases would certainly require some combination of eliminating positions, closing regional offices, and/or reverting the entire program to federal enforcement.

EEOC- GRANT

- A 25% reduction would be an entirely different matter since CCRD would have to evaluate the viability of the existing program and possible staff reductions. A specific plan at this time must be characterized in general terms, because it would depend on how many cases were completed under the revised federal contract that is 25% less. However, such a large reduction in the rate per completed cases would certainly require some combination of eliminating positions, closing regional offices, and/or reverting the entire program to federal enforcement.

Division of Insurance: The same applies as the 5% scenario, however, the Division does not foresee a circumstance when they would have the vacancy savings available to absorb a 25% cut, therefore the impact to the Division would be greater as existing staff would be unable absorb the additional duties required by the grant and the requirements of the ACA.

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

HCF (SHIP) 93.779

In addition to the impact noted above, a 25% reduction in SHIP funding would produce a significant change in the number of local sub-grantees in Colorado cities and towns that work directly with consumers and/or a reduction in their level of support. This would translate into a significant reduction of locations where face to face counseling assistance is available to help older adults and people with disabilities. In addition we would have to reduce the already limited FTE staff in the state office at the Division of Insurance who research and resolve consumer complaints, provide consumer education, and manage program operations.

AOA 93.048

In addition to the impact noted above, a 25% reduction in SMP funding would result in the reduction of the already limited FTE staff in the state office at the Division of Insurance who research and resolve consumer complaints, provide consumer education, and manage program operations.

AOA 93.048

In addition to the impact noted above, a 25% reduction in Capacity Building funding would produce a significant change in the number of local sub-grantees in Colorado cities and towns that work directly with consumers and/or a reduction in their level of support. This would translate into a significant reduction of locations where local assistance is available to help older adults and people with disabilities who have been impacted by fraud and/or abuse.

MIPPA 93.071

A 25% reduction in MIPPA funding would result in an even greater reduction in funding to local sub-grantees that work directly with consumers causing even fewer older adults and people with disabilities to receive local assistance in applying for needed benefits.

Public Utilities Commission:

GAS PIPELINE 20.700

Response would depend. Statutorily, regulated utilities may not be billed for regulation beyond 2/10th of 1% of their gross intrastate operating revenue. The revenue multiplier can be adjusted below this cap. If the 25% reduction would cause the multiplier to go beyond the cap, the PUC could not absorb the expenses and administrative actions would be necessary. Although it would be a violation of the US DOT Pipeline Safety Certification, such administrative actions would be expected to include the reduction/discontinuance of inspecting propane systems (unless they have filed for a CPCN and are a "utility"), the reduction/discontinuance of inspecting any gathering pipeline operator because they are not "utilities," and discontinue the enforcement of excavation damage (future proposed statute change). If such a reduction would not cause the multiplier to reach the cap, then other utilities would absorb the additional expense of pipeline regulation with no net impact to the program.

GAPS ONE-CALL CENTER 20.721

This is a one-time grant used between April 1, 2014 and March 30, 2015.

SERA 81.122

In the event of a 25% reduction, the Commission would take action to limit its use of outside expertise on dockets before the Commission. However, there are currently limited funds available as this Grant expires in September 2013.

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

Pharmacy Board: SJS, DUNS – 361914497, US DOJ- PDMP, CFDA – 16.728

The Prescription Drug Monitoring Program (PDMP) is funded for day to day operations from a fee attached to the licenses of controlled substance prescribers. Consequently, should the amount of money be reduced by 25%, there will be no impact on the program except that the enhancements to the program funded by the federal moneys may not be completed. The program will remain operational.

TXX - Department of Revenue

Percentage of federal funds in relation to total funds: 0.12%

Operating Plan with a Five Percent Reduction in Federal Funds

If the Division of Motor Vehicles were to receive a grant reduction of any kind due to a reduction in federal funding, the applicable project budget would be reduced by that amount. All grants managed by the Division of Motor Vehicles are special purpose grants designed to specifically fund a project or program for a set amount of time. The budget is developed based on the scope of the proposed project and the scope would need to be adjusted to reflect any reductions. For example, when the notice of available funds is published from a federal agency, the Department develops a project plan that fits within the scope of the approved program areas and a budget that is reasonably accommodated by available funding. If the amount available is reduced, the project scope would be scaled back to reflect the reductions.

If there were a 5% reduction in EUDL funding for the Liquor Enforcement Division, the Division would not be able to conduct operations at the same level as in the past eight years. These operations serve as a deterrent for retail establishments and for minors attending major venue events. It is anticipated that the violation rate for underage sales and minors in possession may increase if the current level of enforcement is not maintained.

The Division would submit a funding request to obtain additional personal services funding to allow it to sustain the level of operations made possible by use of federal funds for overtime and minor operatives.

A 5% decrease in funding to the Tax Division—Mineral Audit Section could be absorbed by reducing the federal audit work plan coverage.

At this time, the Department does not manage any ARRA funding.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

If the Division of Motor Vehicles were to receive a grant reduction of any kind due to a reduction in federal funding, the applicable project budget would simply be reduced by that amount. All grants managed by the Division of Motor Vehicles are special purpose grants designed to specifically fund a project or program for a set amount of time. The budget is developed based on the scope of the proposed project and the scope would need to be adjusted to reflect any reductions. For example, when the notice of available funds is published from a federal agency, the Department develops a project plan that fits within the scope of the approved program areas and a budget that is reasonably accommodated by available funding. If the amount available is reduced, the project scope would be scaled back to reflect the reductions.

If there were a 25% reduction in EUDL funding for the Liquor Enforcement Division, the Division would not be able to conduct operations at the same level as in the past eight years. These operations serve as a deterrent for retail establishments and for minors attending major venue events. It is anticipated that the violation rate for underage sales and minors in possession may increase if the current level of enforcement is not maintained.

The Division would submit a funding request to obtain additional personal services funding to allow it to sustain the level of operations made possible by use of federal funds for overtime and minor operatives.

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

A 25% decrease in funding to the Tax Division—Mineral Audit Section would cause a reduction of the FTE funded by the federal government and increase the FTE that are funded by the state to perform severance tax audits, as has happened in the past. Federal audit coverage would decrease and severance tax audit coverage would increase.

At this time, the Department does not manage any ARRA funding.

UHA - Department of Health Care Policy and Financing

Percentage of federal funds in relation to total funds: 48.36%

Operating Plan with a Five Percent Reduction in Federal Funds

The Department receives federal funding for the Medicaid and CHIP programs according to a specific formula in the Social Security Act. It is unlikely that Congress would reduce the federal financial participation rate without also changing other federal requirements for Medicaid or CHIP. Those changes would determine how the Department would respond to a change in federal financing, and they cannot be determined ahead of time. Further, the Department's coverage for optional services under these programs are determined in state statute. The Department cannot unilaterally eliminate benefits or covered populations without a legislative directive. The Department would use the existing budget and legislative processes to collaboratively determine, with stakeholders and the General Assembly, how to proceed in the event of a unilateral reduction in federal funding.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

The Department receives federal funding for the Medicaid and CHIP programs according to a specific formula in the Social Security Act. It is unlikely that Congress would reduce the federal financial participation rate without also changing other federal requirements for Medicaid or CHIP. Those changes would determine how the Department would respond to a change in federal financing, and they cannot be determined ahead of time. VAA - Secretary of State

Percentage of federal funds in relation to total funds: 1.20%

Operating Plan with a Five Percent Reduction in Federal Funds

The overwhelming majority of the agency's federal funding is in continuously appropriated cash funds that are on the agency's balance sheet for Fund 20P. Federal funds accounted for only 1.3 percent of the Department of State's FY 2014 revenues. These federal revenues are dollars paid on a direct 1-for-1 reimbursement basis.

In FY 2014, a cut of five percent in federal receipts would amount to a cut of \$13,827.51 in revenues. Such a reduction would have a minimal impact on the overall operations of the agency and would most likely result in a corresponding cut to expenditures under the grant program (in FY 2014, almost all of our non-interest federal fund revenues were linked to a program funding counties to make accessibility improvements to polling places).

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

The overwhelming majority of the agency's federal funding is in continuously appropriated cash funds that are on the agency's balance sheet for Fund 20P. Federal funds accounted for only 1.3 percent of the Department of State's FY 2014 revenues. These federal revenues are dollars paid on a direct 1-for-1 reimbursement basis.

In FY 2014, a cut of twenty-five percent in federal receipts would amount to a cut of \$69,137.55 in revenues. Such a cut would have a minimal impact on the overall operations of the agency and would most likely result in a corresponding cut to expenditures under the grant program (in FY 2014, almost all of our non-interest federal fund revenues were linked to a program funding counties to make accessibility improvements to polling places).

WXX- Department of Treasury

NOTE: These responses were provided by the subrecipient agencies

Percentage of federal funds in relation to total funds: 8.50%

Operating Plan with a Five Percent Reduction in Federal Funds

CDE -- All of the Federal Mineral Leasing (FML) funds appropriated to the Department of Education are sent to school districts based on a formula defined by the Public School Finance Act of 1994. Therefore, if the FML funds decrease by 5%, the school districts would receive less funds. To maintain funding levels for School Districts, the General Assembly would have to find other general purpose revenue sources to replace the 5% reduction.

DHE – If there were a 5% reduction to moneys transferred to the Higher Education Federal Mineral Lease Revenue Fund, it might be necessary to use funds held in the Higher Education Maintenance and Reserve Fund to make the required COP debt service payments. Thus, there would be less money available in the Maintenance and Reserve Fund to cover General Fund revenue shortfalls.

DOLA – The impact would be a reduction of dollars to direct distribution and less dollars for the competitive grant program. A reduction would impact local government customers that receive direct distribution. 40% of the total funding by formula is reserved for Direct Distribution with the remaining dollars dedicated to competitive grants. A reduction in direct distribution dollars would have a significant negative impact on local governments who have become reliant on these dollars to supplement their budget for operating expenses as well as capital improvements. In regard to the dollars available for competitive grants, this reduction would reduce the dollars available for competitive grants, which vary from \$25,000 to \$1,000,000. Four additional \$1,000,000 grants would not be funded due to this reduction.

DNR – Given the formulaic nature of how this money is distributed, the Department thinks this federal revenue stream is not likely to be reduced as a discretionary federal budget reduction (although fluctuations in this revenue stream related to market issues, such as changes in the prices of oil and gas, are quite common). Regardless, if this revenue source were to be reduced by 5%, the Department would reduce the amount of non-reimbursable grants and water project loans made by that same amount.

Operating Plan with a Twenty-Five Percent Reduction in Federal Funds

CDE -- All of the Federal Mineral Leasing (FML) funds appropriated to the Department of Education are sent to school districts based on a formula defined by the Public School Finance Act of 1994. Therefore, if the FML funds decrease by 25%, the school districts would receive less funds. To maintain funding levels for School Districts, the General Assembly would have to find other general purpose revenue sources to replace the 25% reduction.

REPORT OF COLORADO STATE AGENCIES OPERATING PLANS FOR REDUCTIONS IN FEDERAL FUNDS

DHE – If there were a 25% reduction to moneys transferred to the Higher Education Federal Mineral Lease Revenue Fund, it would be necessary to use funds held in the Higher Education Maintenance and Reserve Fund to make the required COP debt service payments. Thus, there would be less money available in the Maintenance and Reserve Fund to cover General Fund revenue shortfalls.

DOLA -- The impact would be a reduction of dollars to direct distribution and less dollars for the competitive grant program. A reduction would impact local government customers that receive direct distribution. 40% of the total funding by formula is reserved for Direct Distribution with the remaining dollars dedicated to competitive grants. A reduction in direct distribution dollars would have a significant negative impact on local governments who have become reliant on these dollars to supplement their budget for operating expenses as well as capital improvements. In regard to the dollars available for competitive grants, this reduction would reduce the dollars available for competitive grants, which vary from \$25,000 to \$1,000,000. Twenty additional \$1,000,000 grants would not be funded due to this reduction.

DNR – Similar to the scenario above, if this revenue source were reduced by 25%, the Department would reduce the amount of non-reimbursable grants and water project loans made by a like amount. At this higher level, it is very likely that a significant portion of the reduction would specifically be to water project loans. As the Colorado Water Conservation Board generally budgets water project loans based on cash-on-hand (not cash projected to arrive by year end), it would be fairly easy to reduce water project loans if less FML revenue were to arrive than was expected. While it would be easy to budget for such reductions, a reduction in water project loan funding would certainly make it more difficult programmatically to plan for and meet the projected future water supply needs of a growing state.
