Fifth Biennial Report
OF
THE STATE CIVIL SERVICE COMMISSION
OF
Colorado

Denver, Colorado, November 30, 1928.

The State Civil Service Commission herewith presents a report of its proceedings during the biennial period of 1927 and 1928 under the Constitutional Amendment adopted by the people on November 5, 1918, and subsequent act of the Legislature, Chapter 20, Session Laws of 1919.

HISTORY OF ORGANIZATION

The appointment of Commissioner W. V. Roberts expired December 30, 1926, and to this vacancy Governor Clarence J. Morley appointed William T. Lambert, Jr., issuing the following executive order:

ORDERED:

That Mr. William T. Lambert, Jr., of Sedalia, Douglas County, Colorado, be and he hereby is appointed State Civil Service Commissioner, for a term of six years, commencing December 31, 1926.

GIVEN under my hand and the Executive Seal this thirtieth day of December, A. D. 1926.

(Signed) CLARENCE J. MORLEY,

(Seal)

Governor.

At a meeting of the commission held January 3, 1927, Commissioner Hamroek was continued as president of the commission. At this time the personnel of the Commission is as follows:

Col. P. J. Hamroek, President, term expires December 30, 1928.

Elizabeth Quereau, Commissioner, term expires December 30, 1930.

William T. Lambert, Jr., Commissioner, term expires December 30, 1932.

The County Commissioners' Association circulated petitions during the last biennium in an attempt to repeal Article XII,

Section 13 of the Constitution. The Colorado State Civil Service Employes' Association examined the petitions and on discovering evidence of fraud, filed a protest with the Secretary of State. A hearing on this protest was held, at which witnesses appeared and testified under oath as to personal knowledge of unlawful practices in the circulating of the petitions. At the conclusion of the hearing the Secretary of State refused to accept the petitions. An appeal by the County Commissioners' Association was made to the District Court and then to the Supreme Court. The decision upheld the action of the Secretary of State and recommended that the circulators of the petitions bearing irregularities be prosecuted by the District Attorney.

The commission has established a system of efficiency reports in the form of personal data sheets made out by the heads of departments. An earnest co-operation of the heads of departments and institutions in rating employes fairly and impartially will be very valuable to the state in the development of the merit system.

The responsibility for inefficiency in the service must rest squarely upon the heads of departments and institutions. Employes who are incompetent or inattentive to their duties will be dismissed from the service when proof of their unfitness is placed before the commission.

Every effort will be made to show the appropriation committees of the General Assembly the needs of the commission. If these committees will make an investigation of what is required of the commission, confidence is felt that the requested appropriations will be allowed.

The classified service, which comprises practically every appointive position in the state service, totals thirteen hundred and twenty-four (1,324) employes; nine hundred three (903) male and four hundred twenty-one (421) female.

There are eight hundred thirty-six (836) permanent employes in positions in the classified service; three hundred forty-five (345) provisionals and one hundred forty-three (143) temporary employes. The greatest number of provisional employes are in institutions, occupying positions for which it has been practically impossible to establish eligible lists, on account of the very small salaries paid. Employes in these positions are changing constantly, few, if any, remaining longer than a month or two at one time. It must further be kept in mind the complete inadequacy of the yearly appropriation for examination of three hundred seventy-five (\$375.00) dollars.

The commission holds formal weekly meetings, at which all matters pertaining to the employment of persons in the classified service are discussed. Informal meetings are called whenever the business of the commission warrants.

A complete and detailed record of the employment of every person in the classified service is kept in the office of the commis-

sion. Any changes affecting an employe are recorded in the minutes of the meeting of the commission, on a roster card containing the name and other pertinent information relative to an employe's employment, and in a permanent book roster, so that a complete and detailed record of every employe is available at all times.

Payrolls containing the names of all employes in the classified service are certified by the commission each month. Payrolls must agree in every respect with the roster on file in the office of the commission.

LEGAL OPINIONS

January 8, 1927. The Attorney General in an opinion to Commissioner Lambert held that paragraph 2 of Rule 1 of the Rules and Regulations of the Civil Service Commission is void and should be rescinded.

January 8, 1927. An opinion to the effect that the Civil Service Commission has the power to suspend and remove an employe and cannot delegate its power to any appointing officer.

January 13, 1927. The Attorney General held that charges filed against an employe need not be verified.

May 11, 1927. An opinion regarding the civil service cash fund; that House Bill 338 abolishing said fund is valid and constitutional.

June 2, 1927. The Attorney General held that membership in the General Assembly did not disqualify Robert E. Norvell and W. S. Hill from holding the respective positions of Assistant Superintendent of Maintenance, State Highway Department, and Field Organizer, Director of Markets, because said positions are "employments" rather than "civil offices."

April 19, 1928. An opinion to the Secretary of State—copy to this commission—to the effect that the Secretary of State as head of the department has the authority to substitute two part time clerks for one full time clerk, so long as the appropriation for the position is not exceeded.

July 23, 1927. An opinion regarding the newly created position of Coal Mine Inspector, Industrial Commission; holding that the eligible list of coal mine inspectors is not appropriate for the above position and that an examination should be held for the establishing of an eligible list for the new position.

SUPREME COURT DECISIONS

Action in mandamus brought by J. H. Duncan against State Civil Service Commission and State Auditor to compel payment of his salary as Commander of the Soldiers and Sailors Home from November 15, 1925, to April 15, 1926. Judgment awarded by District Court. The Civil Service Commission and State Auditor appealed the case to the Supreme Court, which body held that said Duncan was a *de facto* officer during the period in question, and entitled to the salary.

Action in mandamus brought by J. R. Hamroek against the Public Utilities Commission to compel recognition as the person certified by the Civil Service Commission to be the most fit and of the highest excellence for appointment to the position of inspector. Judgment awarded by District Court. Public Utilities Commission appealed the case to Supreme Court, which affirmed

the judgment of the District Court and held that the Public Utilities Commission had no authority to refuse the certification of relator, who was entitled to the position.

On petition of Bernard Cummings, the District Court awarded him a writ of *certiorari* to review an order of the State Civil Service Commission terminating his provisional appointment as Assistant Commissioner of Securities under the Secretary of State. Case appealed by the Civil Service Commission to the Supreme Court, where judgment was reversed—the latter tribunal holding that a provisional appointment may be terminated at any time by the Civil Service Commission or the head of a department.

Petition for an initiated amendment to repeal Section 13 of Article XII of the State Constitution was filed with Secretary of State; protest made by State Civil Service Employees Association through its president, Charles J. Moynihan. The Secretary of State sustained the protest and the District Court, upon review, affirmed the latter's action. Appeal made by petitioners to Supreme Court, where judgment of lower court was affirmed in a decision holding that the petitions were circulated with a reckless disregard of the law; that the guilty should be prosecuted and punished.

Action brought by John L. East against the State Civil Service Commission, alleging that he should have been certified by the commission as the person most fit and of the highest excellence for the position of Warden, State Reformatory. Demurrer overruled in District Court. Case was not appealed.

RECOMMENDATIONS

We recommend to the Legislature that the biennial appropriation of seven hundred fifty (\$750.00) dollars for the examining work be increased. It is eminently proper that the work of choosing fit persons should be absolutely divorced from politics. This cannot be done without adequate funds. We find that it is the experience of Civil Service Commissions throughout the United States that the merit system is a subject of education. It must be made clear that the selection of candidates by competitive examinations is practical, fair and impartial. We find that other commissions have spent large sums of money and much time in educating the people to a belief in this system. Civil Service has been adopted by nine states, and over two hundred and fifty of the largest American municipalities. It is an important factor in the economic and efficient performance of the public business. Governments are operated *not* for the financial profit of a few

political leaders and their office-holding friends, but for the benefit of *all* the people.

The present commission is now in touch with certain authorities looking toward a re-classification and re-standardization of the service.

An objective for the future should be the establishment of a retiring fund; the states of New York, New Jersey and Massachusetts have such a fund. It is badly needed in our state and would be a help to the classified service in establishing an honorable discharge to those old employes of the state who for many years have had a record for efficiency and good conduct, and, through no fault of their own, must be retired.

Appointments and employments in and promotions to offices and places of trust and employment in the classified civil service of the State shall be made according to merit and fitness, to be ascertained by competitive tests of competence, the person ascertained to be the most fit and of the highest excellence to be first appointed. All appointees shall be qualified electors of the State of Colorado, except as to those offices or positions held by the Civil Service Commission to require special training and technical qualifications, in which cases competitive tests need not be limited to qualified electors and may be held without the State.

The classified civil service of the State shall comprise all appointive public officers and employes and the places which they hold, except the following: Judges of courts of record and one stenographer of each judge, one clerk for each court of record, persons appointed to perform judicial functions, receivers, jurors, members of boards or commissions appointed by the Governor and serving without pay, members of the State Industrial Commission, of the Public Utilities Commission and of the State Civil Service Commission, the Governor's private secretary and three confidential employes of his office, appointees to fill vacancies in elective offices, one deputy of each elective officer, the position involving the duties incident at present to the position of that deputy of the Secretary of State, known as Deputy Commissioner of Labor and the incumbent thereof, officers and teachers in educational institutions not reformatory or charitable in character, all attorneys at law serving as such, and the officers and employes of the General Assembly.

Persons in the classified service shall hold their respective positions during efficient service and shall be graded and compensated according to standards of efficient service which shall be the same for all persons having like duties. They shall be removed or disciplined only upon written charges, which may be filed by the head of a department or by any citizen of the State, for failure to comply with such standards, or for the good of the service, to be finally and promptly determined by the Commission upon inquiry and after an opportunity to be heard. No person shall be discharged for a political or a religious reason. In cases of emergency or for employment of an essentially temporary character, the Commission may authorize temporary employment without a competitive test.

Laws shall be made to enforce the provisions of this section and to establish a State Civil Service Commission to consist of three members who shall be appointed for overlapping terms by the Governor alone and who shall be persons of known devotion to the merit system.

The first three Commissioners appointed hereunder shall hold for two, four and six years respectively. Thereafter the term of a Commissioner shall be six years, except where an appointment is made to fill an unexpired term. A salary of not less than \$2,500 per annum shall be paid to each commissioner. The making and enforcement of rules to carry out the purposes of this amendment and of the laws enacted in pursuance hereof, the alteration and rescission of such rules, the conduct of all competitive tests, the determination of all removal or disciplinary cases, the standardization of all positions, the determination of standards of efficient service and the determination of the grades of all positions in the classified service shall be vested in the Commission. No person in the classified service shall be paid until a certificate is furnished by the Commission that the appointment has been made pursuant to law.

Adequate appropriations shall be made to carry out the purposes of this Section and in the absence of such adequate appropriations, the salaries and expenses of the Commission shall be paid as are the salaries and expenses of the Executive officers of the State government.

All persons holding positions in the classified service as herein defined when this section takes effect shall retain their positions until removed under the provisions of the laws enacted in pursuance hereof.

This section shall be self-executing.

Approved by the People November 5th, 1918.

Proclaimed by the Governor December 31st, 1918.
