

Colorado State Patrol

Strategic Plan

2012 - 2016

Dear members,

As we embark on 2012, the Colorado State Patrol continues to safeguard public safety for the citizens of Colorado. By adhering to our core values and guiding principles, we are able to reflect on our success during the past year while planning and striving for future excellence.

Establishing a new set of Guiding Principles in 2010, the Colorado State Patrol is dedicated to its Commitment to Members, Alignment of Partnerships, and Leveraging Technology. All three of these principles support our efforts to transform from an organization focused on traffic safety to a law enforcement agency focused on overall public safety. We encourage employees to succeed professionally and personally and we are providing each with the opportunity to advance their education and careers by utilizing the International Association of Chiefs of Police (IACP) Leadership in Police Organizations (LPO). As partnerships are integral to our overall success, we continue to enhance our relationships with federal, state and local agencies to share and maximize resources, reduce response time, and increase respect for one another. By leveraging technology, we are increasing our law enforcement capabilities through the exchange of information and utilization of data-driven strategies to proactively address traffic mitigation and crime prevention.

Members uphold the Patrol's Core Values of Honor, Duty, and Respect, and it is our dedication to these shared values that serve as the foundation for national recognition as a leader in public safety.

Our guiding principles and core values have served us well during the past year and we will continue to provide the state of Colorado with more efficiency and adaptability to the changing priorities of the communities we serve.

The 2012-2016 Strategic Plan serves as a guiding document for the Colorado State Patrol and provides a roadmap for the future.

Respectfully,

2012 - 2016 Strategic Plan Executive Summary

Since our origin in 1935, the Colorado State Patrol has focused on preserving human life and protecting property within our communities. We continue to strive towards achieving our mission through the development and implementation of multifaceted strategies that are adaptive, innovative and integrated into our belief in the core values of Honor, Duty and Respect.

Our collective success in meeting public safety needs within the state is a result of the organization's focused approach to providing dedicated and professional law enforcement services. The 2012 - 2016 Strategic Plan has been developed through a comprehensive process, which involved input from members at all levels within the organization. The Strategic Plan is designed to provide all agency members and key stakeholders from external entities with a shared vision and roadmap for our future.

A Progressive Law Enforcement Agency

The Colorado State Patrol was created to "...promote safety, protect human life and preserve the highways of this state by the courteous and strict enforcement of the laws and regulations of this state relating to highways and the traffic on such highways" (CRS 24-33.5-201). The members of the Colorado State Patrol have maintained a focus on traffic safety initiatives, while accepting the challenges of a more diverse public safety mission.

Intelligence-Led Policing

Intelligence-led policing is a business model that focuses on coalescing analyzed data with human knowledge, to develop targeted strategies for the allocation and deployment of resources. Through intelligence-led policing tactics, the agency will have the ability to identify problems and develop realistic prevention and response plans. By institutionalizing processes that use predictive technology, the Colorado State Patrol has the opportunity to rapidly adjust mission-critical strategies and resource deployment.

Mission

The mission of the Colorado State Patrol is to ensure a safe and secure environment for all persons by utilizing the strengths of our members to provide professional law enforcement services that reflect our core values of Honor, Duty and Respect.

A Progressive Law Enforcement Agency

When originally legislated in 1935, the Colorado State Patrol was created to "...promote safety, protect human life and preserve the highways of this state by the courteous and strict enforcement of the laws and regulations of this state relating to highways and the traffic on such highways". (CRS 24-33.5-201) The Colorado State Patrol has evolved over the last 76 years into a multifaceted and complex law enforcement agency. The Road to Public Safety

Since our inception as the "Courtesy Patrol," charged with enforcing vehicle laws and providing protection to the governor, our organization has transformed and diversified into a multitude of public safety specialties. Over time, the Colorado State Patrol has become a nationally recognized leader in law enforcement for traffic safety initiatives that dramatically reduced the loss of life and property as a result of fatal and injury crashes. In addition to our expertise in traffic safety, we are also leading the state's efforts in public safety through homeland security, immigration enforcement, hazardous material regulations and commercial motor vehicle safety. The CSP continues to be a proven leader in providing exemplary public safety services in all endeavors.

Through our commitment to our guiding principles and core values of honor, duty and respect, the Colorado State Patrol will continue to advance into the 21st century as a leader in law enforcement. The central focus of ensuring the safety of others has never wavered and we remain committed as we focus on the future.

Intelligence-Led Policing

The use of timely and accurate data to drive law enforcement operations toward a more efficient and effective resource deployment is the benchmark for 21st century policing and the foundation of intelligence-led policing. Intelligence-led policing has been utilized within the United States for many years and has been a valuable method in reducing crime. Whether related to potential traffic crashes, terrorism, drug trafficking, auto-theft, or any other criminal act, the collection and analysis of unrelated information is valuable when utilized as a potential predictive indicator of future illegal or dangerous behavior.

The Colorado State Patrol utilizes intelligence-led policing methodologies in every aspect of its business and public safety strategies. All members, regardless of rank or position, have a role in ensuring the efficient deployment and effective use of Patrol resources. There are numerous ways in which intelligence-led policing measures are employed throughout the Patrol; however, there are consistent methodologies that provide the foundation for effective intelligence-led programs.

The diagram illustrates the process by which all members engage in intelligence-led policing.

Utilizing this data-driven approach, members can generate tactics and interventions based on the analysis of available information. Depending on the information available, analysis can be conducted to provide management insight into critical areas that may impact the achievement of the Patrol's strategic goals.

This methodology provides a framework for the Colorado State Patrol to successfully leverage technology while applying shared-experiences to achieve our goals and objectives, thereby creating a safer environment for the people of Colorado.

To achieve the objective of creating a more efficient, effective and elegant state government, Colorado is applying the principles of Lean management to strengthen processes and empower our members to cultivate continuous improvement. Lean management principles involve a systematic approach to continuously improving service delivery by reducing waste and enhancing overall customer value. By utilizing successful Lean principles, the members of the Colorado State Patrol will be better able to realize our vision of outstanding service, performance and results. To accomplish this, Lean thinking requires a fundamental shift in the culture of government from a top-down to an inside-out approach. It is not a tactic or a cost reduction program, but a way of thinking and acting for an entire government.

The Colorado State Patrol will further enhance the strengths of its current workforce with qualified and diverse applicants. By partnering with the Public Affairs Section and the Media Center, the CSP Selections Unit will use targeted marketing campaigns to attract the most qualified candidates from a pool of diverse applicants. Retention of qualified members remains a priority to our agency. The Patrol will continually strive to provide an environment in which members can develop personally and professionally.

The Colorado State Patrol is pursuing accreditation from the Commission on Accreditation for Law Enforcement Agencies (CALEA). The CALEA process will improve public safety services by systematically conducting an internal review and assessment of the agency's policies and procedures, and making adjustments wherever necessary to meet a set of international law enforcement standards. This process will reinforce standardized policies, timely reviews, and help provide consistency at all levels of the organization. The achievement of the CALEA accreditation is recognized as the professional benchmark for today's law enforcement agency.

Application of Guiding Principles
