The above figures were compiled by the Colorado Division of Fire Safety from local fire departments that submit their incidents(s) into the Colorado Fire Incident Reporting System (CFIRS). As of December 31, 2011, **257** fire departments have contributed all or partial data from January – December 2011, which protects about **86%** of Colorado's resident population. For all reporting elements, statistical methods were employed to project estimated actual rates from reported rate.
