2019-2020 Annual Report of the Broadband Fund to the General Assembly

Pursuant to section 40-15-509.5 (9) C.R.S. the Broadband Deployment Board (Board) is required to report annually on the projects supported by the Broadband Fund including the number of projects; the location of each project; the amount of funding received for each project; and a description of each project.

The Broadband Deployment Board awarded \$32,039,347.78 in grants from the Broadband Fund to 43 rural broadband infrastructure deployment projects. When complete the projects will provide broadband access to over 21,000 households.

Broadband Project Descriptions

2016 Cohort

16-0083	Nucla-Naturita Telephone Company
Project Location	Gobblers Knob Upgrade
Total Project Cost	\$57,779
Funds Awarded	\$43,334
Project Status	Complete
Project Summary	The project is a microwave enhancement of the grantee's Gobblers Knob site located approximately 6 miles west of Nucla, to the San Miguel Basin area, via the grantee's microwave site at Pony Draw. The enhancement will be accomplished with a 2 hop microwave capable of 700 Mbps. The microwave will connect to an Adtran TA5000 DSL shelf supplying the 48 connected households with broadband internet access.
16-0084	NE Colorado Cellular, Inc. dba Viaero Wireless
Project Location	Sheridan Lake, Towner and Brandon Project
Total Project Cost	\$634,799
Funds Awarded	\$395,452
Project Status	Complete
Project Summary	The grantee will construct two 195 foot towers designated as Sheridan Lake North, located approximately 9.52 miles Northwest of Sheridan Lake and Sheridan Lake South, located approximately 10.4 miles South of the Sheridan Lake. 3.65 GHz TDD base stations and associated antenna and transmission lines will be installed on each tower of the new towers and on each the existing Towner and Sheridan operated by the grantee. Microwave radios and associated antenna and transmission lines will be installed on each of the new towers.
16-0085	Chaffee County Telecom LLC, dba Colorado Central Telecom
Project Location	Twin Lakes and Southern Lake County Project
Total Project Cost	\$384,452
Funds Awarded	\$288,338
Project Status	Complete
Project Summary	The project requires the construction of two new tower sites: One at the Granite heliport and another at Sugarloaf Mountain near Turquoise Lake. Colorado Central Telecom will incorporate both 4G LTE and Wi-Fi 802.11ac MIMO in its last-mile fixed wireless infrastructure. Grantee's last-mile microwave links will be backhauled through the Granite heliport site. From there, the Granite site will be backhauled to Colorado Central Telecom's Methodist Mountain tower using a licensed Trango GigaPlus 2+0 microwave radio. Backhaul for the Methodist tower can be routed to either Center, Salida or Nathrop via a licensed microwave Trango GigaPlus 2+0 radio.
16-0086	CenturyLink Inc.
Project Location	Hudson and Keenesburg Project
Total Project Cost	\$299,200
Funds Awarded	\$299,156
Project Status	Complete
Project Summary	The grantee will upgrade (5) Digital Subscriber Line Access Multiplexer's (DSLAM) located at (1) 450 5th Ave Hudson, (2) 605 Ash Hudson, (3) 374 Woodard Ave Keenesburg, (4) 7799 Weld County Rd 59, Keenesburg, (5) 80 S Main Keenesburg. Grantee will install fiber to the DSLAM's located at (1) 450 5th Ave Hudson, (2) 605 Ash Hudson, (3) 374 Woodard Ave

COLORADO

Department of
Regulatory Agencies

Executive Director's Office

Keenesburg, (4) 7799 Weld County Rd 59, Keenesburg, (5) 80 S Main Keenesburg. Grantee will test all equipment and ensure Broadband internet access with at least 25 Mbps download and 3 Mbps upload and sufficient latency to allow for real-time communications to the last mile connections identified in the Right of First Refusal Written Plan.

16-0087
 Project Location PC Telcorp, Inc., dba PC Telcom
 Ovid, Sedgwick and Julesburg Project
 Total Project Cost \$85,232
 Funds Awarded \$55,400
 Project Status Complete
 Project Summary Grantee will replace existing Alvarion wireless access points and antennas with Telrad LTE wireless access points and antennas on the "Sedgwick Tower" and "Julesburg Tower." Work will include running new cables, installing equipment, adjusting equipment and testing equipment to ensure service of at least 25 Mbps downstream and 3 Mbps upstream speeds with latency that allows for real-time communications.

16-0088
 Project Location Optimus Communications LLC
 Collbran Colorado and Eastern Plateau Valley Project
 Total Project Cost \$150,000
 Funds Awarded \$112,500
 Project Status Complete
 Project Summary Grantee will purchase and install wireless microwave backhaul equipment at the Optimus Communications LLC main office in Grand Junction. This equipment will connect to new microwave backhaul equipment purchased and installed by grantee on the existing Palisade Point tower on the Grand Mesa. The Palisade Point equipment will connect to the Cable Head End building in Collbran CO. Grantee will use Cisco routing equipment and DOCSIS 3.0 system for internet distribution over the cable infrastructure. Grantee will purchase, build and install a solar powered communications site with a microwave link from Palisade Point to the Vega tower. Grantee will purchase and install three 120 degree 5.8Ghz antenna and three 5.8 Ghz radios at the Vega tower. Grantee will purchase and install an additional microwave link from the Cable Head End to the Plateau City tower. Grantee will purchase and install four 90 degree 5.8Ghz antenna and 12 AC 5.8 Ghz radios at the Cable Head End tower and the Plateau City tower.

16-0089
 Project Location CenturyLink Inc.
 Ridgeway
 Total Project Cost \$841,200
 Funds Awarded \$841,200
 Project Status Complete
 Project Summary The grantee will upgrade eight Digital Subscriber Line Access Multiplexer's (DSLAM) located at: (1) 97 Chipeta Dr., (2) 1000 Clinton, (3) 265 N Lena, (4) 501 W Otto, (5) 109 Village SQ, (6) 222 Vista DR (7) 125 S Lena ST (8) 309 Sherman. Grantee will install fiber to the DSLAM's located at (1) 97 Chipeta Dr., (2) 1000 Clinton, (3) 265 N Lena, (4) 501 W Otto, (5) 109 Village SQ, (6) 222 Vista DR (7) 125 S Lena ST (8) 309 Sherman. Grantee will test all equipment and ensure Broadband internet access with at least 25 Mbps download and 3 Mbps upload and sufficient latency to allow for real-time communications to the last mile connections identified in the Right of First Refusal Written Plan. At least 750 of the locations served must have availability of speeds of 100/10, at least 100 of the locations served must have availability of speeds of 40/20, and at least 140 of the locations served must have availability of speeds of 40/5.

16-0090
 Project Location Futurum Communications Corporation dba Forethought.net
 Red Cliff

Total Project Cost \$93,471
 Funds Awarded \$70,103
 Project Status Complete
 Project Summary From the CenturyLink Fiber Demarc, grantee will install fiber through two Ski Cooper buildings, trenching from edge of Ski Cooper building to Lift Hut and through existing conduit from Hut. At the Lift House grantee will construct a mount, engineered by manufacturer to the Lift House infrastructure. On this structure grantee will install a 4ft. Dish pointing to Red Cliff. At Red Cliff a reciprocal licensed radio will be installed on 80ft tower being built by the Town of Red Cliff. Grantee will deploy LTE Fixed wireless radio equipment from the Red Cliff tower. LTE fixed wireless will deliver 25MB/5MB and potentially higher speeds as standard evolves. Grantee will purchase, install and test all equipment ensuring broadband internet service to the Town of Red Cliff of at least 25 Mbps download and 3 Mbps upload with latency sufficient to enable real time communications.

2017 Cohort

17-0001 Delta Montrose Electric Association
 Project Location Paonia, Olathe and Happy Canyon in Delta and Montrose Counties
 Total Project Cost \$6,615,480
 Funds Awarded \$2,646,192
 Project Status Performance Period ended
 Project Summary The project will build out of three service areas: Northwest Paonia, Olathe and the Happy Canyon area outside of the City of Montrose. The project will provide fiber to the premise broadband service to 1,731 residential addresses and 213 business addresses. The project area has a population of 4,159. The applicant provided a list of 40 "community anchor institutions" that would receive service as part of the proposed project. Much of the fiber will be located on existing DMEA utility poles and conduit.

17-0002 NE Colorado Cellular, Inc. dba Viaero Wireless
 Project Location Arriba, Genoa and rural Lincoln County
 Total Project Cost \$1,384,529
 Funds Awarded \$1,038,397
 Project Status Performance Period ended
 Project Summary The grantee will construct two new towers and upgrade equipment on three existing towers to provide service in Arriba, Genoa and rural Lincoln County. Last-mile service provided via fixed wireless, fiber to the towers is used for backhaul.

17-0003 San Luis Valley Rural Electric Cooperative
 Project Location Hermit Lakes, Ptarmigan Meadows, Pearl Lakes and Spring Creek HOA
 Total Project Cost \$939,298
 Funds Awarded \$700,402
 Project Status Performance Period ended
 Project Summary The grantee will provide broadband service over a fiber to the home network utilizing existing electric utility poles in rural Mineral and Hinsdale Counties along CO Highway 149. The project will serve 278 homes and 20 businesses.

17-0004 Inventive Wireless of Nebraska, LLC dba Vistabeam
 Project Location Jackson County
 Total Project Cost \$392,313
 Funds Awarded \$260,313
 Project Status Performance Period ended

COLORADO

Department of
Regulatory Agencies

Executive Director's Office

Project Summary	The grantee will construct eight new towers and use three existing towers to provide broadband service over the 5ghz unlicensed spectrum. The project would provide service to 639 residential addresses and 82 business addresses in Jackson County.
17-0005	Brainstorm Internet Inc.
Project Location	South San Juan County - Cascade Village
Total Project Cost	\$455,000
Funds Awarded	\$268,500
Project Status	Performance Period ended
Project Summary	The grantee will extended fiber from the Purgatory Ski Area approximately 4 miles to Cascade Village, a development with 199 residential addresses and the Benchmark Events and Cultural Center. Last-mile service would be provided using fiber with 1 Gbs symmetrical service.
17-0008	Jade Communications LLC
Project Location	Conejos, Paisaje, Mogote, Fox Creek, Aspen Springs, Bear Creek, Sheep Creek, Ponderosa, & Hocra
Total Project Cost	\$3,663,756
Funds Awarded	\$2,372,817
Project Status	Performance Period ended
Project Summary	The grantee will construct a fiber to the premise project in Conejos County spanning approximately 20 miles along CO17 west of US 285 and Antonito. The project would provide service to 829 residential and 34 businesses and community anchor institutions addresses.
17-0012	SECOM Inc.
Project Location	Las Animas, Springfield and Holly
Total Project Cost	\$1,591,807
Funds Awarded	\$1,193,855
Project Status	Complete
Project Summary	The project would provide service up to 200/200Mbps via a fiber to the premise network to Las Animas, Springfield and Holly.

2018 Cohort

18-0001	Jade Communications LLC
Project Location	San Antonio
Total Project Cost	\$676,126
Funds Awarded	\$507,094
Project Status	Project Underway
Project Summary	The project will provide fiber connections to 93 addresses.
18-0002	Jade Communications LLC
Project Location	Riverdance Ranch
Total Project Cost	\$153,996
Funds Awarded	\$115,497
Project Status	Complete
Project Summary	The project will provide fiber connections to 14 addresses in the Riverdance Ranch subdivision north of Alamosa.

COLORADO

Department of
Regulatory Agencies

Executive Director's Office

18-0003
 Project Location Delta Montrose Electric Association
 Northeast Delta and Southeast Crawford
 Total Project Cost \$3,363,897
 Funds Awarded \$2,334,988
 Project Status Project Underway
 Project Summary The project would provide fiber to the premise internet service in Southeast Crawford and Northeast Delta.

18-0004
 Project Location Delta Montrose Electric Association
 est Spring Creek
 Total Project Cost \$1,519,970
 Funds Awarded \$759,985
 Project Status Project Underway
 Project Summary The project would provide fiber to the premise internet service in West Spring Creek.

18-0005
 Project Location Global Broadband Corporation
 Red Feather Lakes and Crystal Lakes
 Total Project Cost \$756,042
 Funds Awarded \$567,031
 Project Status Project Underway
 Project Summary The project will provide wireless service to 797 addresses in the Red Feather Lakes area. The project will require the construction of new towers.

18-0006
 Project Location SECOM Inc.
 Pritchett
 Total Project Cost \$237,845
 Funds Awarded \$178,384
 Project Status Project Underway
 Project Summary The project will provide fiber to the premise service to 125 addresses in Pritchett.

18-0014
 Project Location Viaero
 Peetz
 Total Project Cost \$880,386
 Funds Awarded \$660,289
 Project Status Project Underway
 Project Summary The project will provide service to 105 addresses in the Stoneham/Peetz area of Logan County.

Winter 2019 Cohort

19-0005
 Project Location xb7-BEMA Broadband
 Big Elk Meadows in Larimer County
 Total Project Cost \$97,769
 Funds Awarded \$64,627
 Project Status Project Underway
 Project Summary The Project will provide access to broadband services by building last mile infrastructure for the community of Big Elks in Larimer County. Big Elks in Larimer County is currently unserved/underserved due to its remote and difficult to reach location, and this project intends to serve 170 residences and approx. 500 residents.

19-0009	StratusIQ
Project Location	Sun Hills in El Paso County
Total Project Cost	\$690,836
Funds Awarded	\$518,127
Project Status	Project Underway
Project Summary	The proposed project will connect 106 addresses, or 400-500 people to access FTTH Infrastructure using (GPON) technology to deliver plans with up to 1Gbps download speeds and up to 250Mbps upload speeds for every home. StratusIQ is also expanding the project to other underserved homes even if they are not included the Sun Hills Development, located in El Paso County.
19-0011	Global Broadband Corporation
Project Location	Glacier View Meadows in Larimer County
Total Project Cost	\$896,426
Funds Awarded	\$672,319
Project Status	Project Underway
Project Summary	Global Broadband is targeting 376 unique residential and small business and home based business addresses in the Glacier View Meadows subdivision within Larimer County, Colorado and the surrounding area. The project will provide access to a broadband network to the Glacier View Meadows community through the installation of a new wireless tower. Global Broadband will also install the necessary power, metering, backup systems, etc. to support the tower location and facilitate service. Global Broadband will also either provide backhaul Internet access through an aerial fiber link or the middle mile backhaul link will be provided by microwave from the tower located in Red Feather Lakes.
19-0013	Colorado Central Telecom
Project Location	Chalk Creek Canyon
Total Project Cost	\$1,620,961
Funds Awarded	\$1,215,721
Project Status	Project cancelled due to unresolved easement issues
Project Summary	The project will provide broadband via fixed wireless to 50 households and via FTTH to an additional 221 households in the Chalk Creek Canyon.

Summer 2019 Cohort

19-0018	Futurum Communications Corporation dba Forethought.net
Project Location	Cripple Creek
Total Project Cost	\$1,102,301
Funds Awarded	\$825,904
Project Status	Project Underway
Project Summary	This project proposes to build out new fiber (GPON) and middle mile services through Gigabit broadband to approximately 773 households in Cripple Creek in Teller County.
19-0019	Brainstorm Internet
Project Location	Ouray
Total Project Cost	\$1,025,302
Funds Awarded	\$757,250
Project Status	Project Underway

COLORADO

Department of
Regulatory Agencies

Executive Director's Office

Project Summary	The Project consists of the creation of a fiber-to-the-home network within Ouray County to provide access to all homes and businesses in Ouray, CO access to a modern, symmetric gigabit fiber on the home broadband network.
19-0020	Brainstorm Internet
Project Location	Norwood
Total Project Cost	\$671,219
Funds Awarded	\$503,414
Project Status	Project Underway
Project Summary	Brainstorm Internet worked with the Town of Norwood to utilize the open trench at the expense of Brainstorm Internet. If it were not for the water project, Brainstorm Internet could not fund a fiber to the home project. The fiber network will provide 1 Gigabit speeds to each end user in addition to VoIP services over the fiber network.
19-0022	YVEA and Luminate Broadband
Project Location	Clark and Hahns Peak Village
Total Project Cost	\$1,144,359.95
Funds Awarded	\$858,269.97
Project Status	Project Underway
Project Summary	The Project intends to build FTTH infrastructure to make available the opportunity to purchase up to 1000 Mbps download and upload speeds to 123 underserved households, or 311 people in part of the Willow Creek Pass subdivision with North Routt County.
19-0023	CableCo, LLC dba South Park Telephone
Project Location	Silverheels Ranch
Total Project Cost	\$1,144,359.95
Funds Awarded	\$858,269.97
Project Status	Project Underway
Project Summary	This project intends to build FTTH Infrastructure using GPON technology to deliver plans up to 1Gbps download speeds and up to 250Mbps upload speeds to 207 underserved households, or approximately 300 people in the Silverheels Ranch subdivision, outside of Fairplay in Park County.
19-0024	Visionary Broadband
Project Location	Archuleta County Broadband Expansion
Total Project Cost	\$716,945
Funds Awarded	\$466,014.50
Project Status	Project Underway
Project Summary	This project intends to build a fixed wireless solution using microwave backhaul links to deliver plans up to 1Gbps download speeds and up to 200Mbps upload speeds to 557 unserved households, or approximately 1,235 people in the counties of Archuleta and Southern Hinsdale Counties.
19-0027	Delta Montrose Electric Association
Project Location	Fairview
Total Project Cost	\$1,138,594.635
Funds Awarded	\$638,158.58
Project Status	Project Underway
Project Summary	This project intends to build FTTH Infrastructure using GPON technology to deliver plans up to 1Gbps / 1Gps upload speeds to 131 underserved households, or 300 people in the Fairview area outside Montrose in Montrose County.
19-0029	Falcon Broadband (Stratus IQ)

COLORADO

Department of
Regulatory Agencies

Executive Director's Office

Project Location	Black Forest Reserve
Total Project Cost	\$378,333.32
Funds Awarded	\$272,500
Project Status	Project Underway
Project Summary	This project intends to build FTTH Infrastructure using GPON technology to deliver plans up to 1Gbps download speeds and up to 250Mbps upload speeds to 398 underserved households, or 910 people outside of La Veta and Cuchara village, an unincorporated community in Huerfano County.
19-0030	Falcon Broadband (Stratus IQ)
Project Location	Latigo Trails
Total Project Cost	\$753,988
Funds Awarded	\$527,791.60
Project Status	Project Underway
Project Summary	This project intends to build FTTH Infrastructure using GPON technology to deliver plans up to 1Gbps download speeds and up to 250Mbps upload speeds to 237 underserved homes, including 17 unbuilt lots, or 1,036 people in the rural subdivision of Latigo Trails in an unincorporated area of El Paso County.
19-0031	Optimus Communications
Project Location	Glade Park
Total Project Cost	\$315,500
Funds Awarded	\$236,625
Project Status	Project Underway
Project Summary	This project intends to provide last mile service utilizing fixed wireless access technology to up to 596 households, or 1,100 people in the community of Glade Park in South Western Mesa County.
19-0032	Clear Creek Broadband, Inc.
Project Location	Eastern Clear Creek County
Total Project Cost	\$1,661,415
Funds Awarded	\$1,246,061
Project Status	Project Underway
Project Summary	This project intends to provide last mile service utilizing fixed wireless access technology to up to 770 households, or 2,000 - 3,000 people in a multiple communities in Eastern Clear Creek County.
19-0033	NETEO
Project Location	Friendship Ranch
Total Project Cost	\$500,000
Funds Awarded	\$375,000
Project Status	Project Underway
Project Summary	This project intends to provide FTTH broadband access to 233 households, or 600 people to the Friendship Ranch community near Bailey in Park County.
19-0036	Futurum Communications Corporation dba Forethought.net
Project Location	Ski Ranches
Total Project Cost	\$713,135.24
Funds Awarded	\$512,801.43
Project Status	Project Underway
Project Summary	The proposed project will provide 100/1000 Mbps connections to 97 addresses through FTTH (GPON), or approximately 400 people in unincorporated areas near Telluride in San Miguel County. The project will install all new fiber-optic cable after obtaining state and

county permits and has engineered primary and secondary 10 Gbps transport from the proposed location to the Internet.

19-0037 Force Broadband, LLC
 Project Location Hidden Village
 Total Project Cost \$538,116.20
 Funds Awarded \$349,775.53
 Project Status Project Underway
 Project Summary This project consists of the creation of FTTH Infrastructure with GPON Distribution delivering Broadband Internet Access to 164 (128) homes, or 450-750 people within the Hidden Village Community to include buildout of the fiber-optic backbone through the Hidden Village Community outside Parker within Douglas County.

19-0039 Clearnetworkx
 Project Location Ouray County Log Hill & Surrounding Area
 Total Project Cost \$4,050,146.26
 Funds Awarded \$2,877,990.76
 Project Status Project Underway
 Project Summary Clearnetworkx proposes to deliver a FTTH network utilizing GPON technology with up to 1Gbps speed available to approximately 542 households, or 1,138 end users, to the subdivision of Log Hill & Surrounding areas in Ouray County.

Winter 2020 Cohort

2020-02 Jade Communications
 Project Location Hwy 12 Corridor FTTH Project
 Total Project Cost \$3,544,915.28
 Funds Awarded \$2,607,763.46
 Project Status Project Underway
 Project Summary This project aims to bring FTTH service to 386 addresses (366 households, 20 commercial), or 918 people, to addresses south of La Veta, along the Hwy 12 corridor, and the village of Cuchara in Huerfano County.

2020-03 Delta Montrose Electric Association and Elevate
 Project Location North Mesa
 Total Project Cost \$2,862,165.99
 Funds Awarded \$1,431,083
 Project Status Project Underway
 Project Summary This project aims to bring FTTH service to 438 households (427 residential, 11 commercial), or 1,426 people, to the area of North Mesa in Montrose County.

2020-06 Yampa Valley Electric Association
 Project Location Hahns Peak & Seedhouse Road
 Total Project Cost \$2,425,186.67
 Funds Awarded \$1,455,112
 Project Status Project Underway
 Project Summary This project aims to bring FTTH service to 280 households (260 residential, 0 vacant, 20 commercial), or 657 people, to the area of Hahns Peak Village, the greater area around Steamboat Lake State Park, and Seedhouse Road in Routt County.

COLORADO

Department of
Regulatory Agencies

Executive Director's Office

2020-08
 Project Location Colorado Central Telecom
 Chalk Creek Canyon
 Total Project Cost \$723,720
 Funds Awarded \$542,790
 Project Status Project Underway
 Project Summary This project aims to bring FTTH or Fixed Wireless service to 48 households (48 residential, 0 vacant, 0 commercial), or 105 residents in Deer Valley in Chaffee County.

2020-14
 Project Location Force Broadband
 Black Forest phase 2
 Total Project Cost \$1,144,359.95
 Funds Awarded \$858,269.97
 Project Status Project Underway
 Project Summary This project aims to bring FTTH service to 612 households (579 residential, 0 vacant, 33 commercial), or 1511 residents in the Black Forest in El Paso County.
