## Letter of Transmittal

January 1, 1923.

To His Excellency,

OLIVER H. SHOUP,  
Governor of Colorado.

Sir: There is herewith submitted as required under Section 68, Chapter 44, Session Laws of Colorado, 1913, the report of your State Bank Commissioner, setting forth general statements relative to financial condition of state and private banks and trust companies, under supervision of this Department.

During the past two years, many unusual conditions have arisen, occasioned largely through errors in judgment and over desire to extend far greater credit for speculative ventures than has ever previously existed. Consequently, when a period of deflation became effective, the amount of floating notes and securities was far greater than could be absorbed or realized upon, which produced a most embarrassing situation.

With declining deposits throughout the state, covering a period of several months, it required close attention on the part of bankers to be able to meet their obligations in the usual course of business.

Many small banks with insufficient capital resorted to the reprehensible practice of endorsing "without recourse" vast amounts of paper, which, in turn, must be guaranteed by officers and directors, thereby creating a situation exhausting all available personal credit of said officers. Therefore, in an emergency, there was no alternative other than closing the institution. While it does not appear that a legal restriction may be imposed, nevertheless, every effort has been put forth by this Department to obtain reductions and payment of such paper at the earliest possible time, so in many sections of the state this result is of especial benefit.

The above mentioned condition will materially explain the following statements relative to liquidation of banks now under the control of this office, and it is with extreme regret your Commission must report that in twenty-four months it was necessary to take charge of eighteen banks for the purpose of adjustment or liquidation, which throws upon the official force greater responsibility and work than in any preceding period. This has only been accomplished by earnest co-operation of employees and sufficient funds to carry out the work necessary.

Prevailing conditions in farming communities, low prices of products and car shortage during the past year, have been a hardship unexpected, and a most generous attitude, necessarily, has been assumed by the Department in handling the situation, both as regards operating institutions and those in process of liquidation.

Your Commissioner has to report the following as to number of examinations and receipts of this office, the latter being in excess of expenditures required:

	No. Examinations	Receipts
For the year 1921.....	531	\$26,140.75
1922.....	490	24,913.04

During the past two years, a number of banks have passed out of the Department by consolidation or closing, either by liquidation or nationalizing. Consequently, there resulted a reduction in number of examinations and also a loss in revenue, which might indicate loss of time by employees. However, wish to call attention to the fact that additional work is entailed in every case where control for adjustment is assumed, taking time far in excess of the general time of examinations, which has been accomplished without added help or expense.

In justice to the deputies and employees of this office, I personally desire to express appreciation of the conscientious work accomplished throughout the period, being both efficient and harmonious.

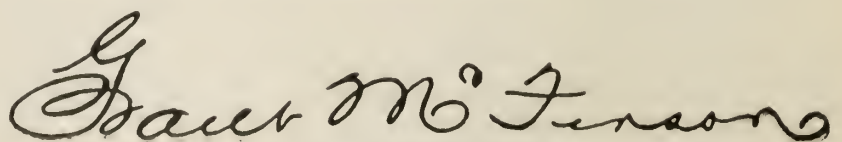

Through the courtesy of the Auditing Board, the writer was able to attend the annual meeting of Supervisors of State Banks, held in Detroit July 18-21, 1922, and can report the benefits from these sessions as having been of great assistance in the determination of problems and the policy of this Department. I am very pleased to state that Colorado is looked upon with favor from the fact that Denver was selected for the convention point of the coming summer session out of eleven invitations, this being secured by the generous support of the Denver Clearing House, together with members of the banking profession.

Your able counsel during the past two years has been of great help and benefit, assisting me in outlining a course which would result favorably to the people of this State, and for which I wish to express my appreciation and thanks.

The several Departments have all extended every courtesy, and especial mention and credit is due Mr. Charles Roach, Deputy Attorney General, as, during the period, many serious legal problems have been submitted for opinion and instructions regarding settlement.

Present conditions would indicate that while much has been accomplished in the way of betterment, it would seem that extreme care should be exercised in business matters.

Respectfully submitted,

State Bank Commissioner,
