The outstanding loans are reported in accordance with section 11-7-112, C.R.S., as amended.

THE YEARS OF TRANSITION

On January 9, 1991, the Colorado Division of Banking (the Division") received professional accreditation from the National Conference of State Bank Supervisors ("CSBS"). Professional accreditation from that national organization has been achieved by only 20 other states. CSBS accreditation marked a major milestone for the Division. In May of 1988, the Division received a critical performance audit recommending 68 needed improvements. Six task forces reviewed the Division's operations and developed a comprehensive improvement plan. During 1990, the final policies and controls were implemented, which enabled the Division to achieve national recognition as a well-run bank regulatory organization within three years following the audit.

During 1990, the Division continued toward its goal of full automation. The examination process was completely automated. Off-site monitoring has been expanded. Federal bank regulations and updated may now be researched by staff on the Division's library computer, utilizing a compact disk rather than numerous volumes of looseleaf legal service binders. Ongoing efforts to automate the Division will improve bank regulatory oversight while lowering the associated costs to the industry.

During 1990, a new specialty examination program, testing state bank compliance with the Uniform Consumer Credit Code, was developed. Existing specialty exam programs for trust compliance and public deposit protection were expanded.

A comprehensive employee training policy was implemented during 1990 to bring current employee regulatory and computer skills up-to-date. Individual training plans, tailored to each employee's needs, were developed. All employees received substantial amounts of training this year.

While the Division's primary goal, obtaining professional accreditation, has been accomplished, efforts to improve automation, bank supervisory procedures, and the overall efficiency of the organization present ongoing challenges for Division management and staff.

A. Definitions

For purposes of this regulation the term reviewer shall mean such public accountant or other independent person(s) as determined by the Banking Board.

B. Examination Scope

For the purposes of C.R.S. 11-3-115(3)(b) a state bank (institution) at a minimum shall perform annually the procedures as set forth in Appendix A as the scope of a directors' examination. The recommended procedures are intended to address the high risk areas common to all financial institutions. However, each institution must review its own particular business and determine if additional procedures are required to cover other high risk areas. The reviewer should be informed of and permitted access to all examination reports, administrative orders, and any additional communications between the institution and the Division of Banking, including the Colorado State Banking Board, as well as, the appropriate federal regulatory agency. The reviewer should obtain institution management's written representation that he or she has been informed of and granted access to all such documents prior to completion of the field work.

C. Extent of Testing

Where the procedures set forth in Appendix A require testing or determinations to be made, sampling may be used. Both judgmental and statistical sampling may be acceptable methods of selecting samples to test. Sample sizes should be consistent with generally accepted auditing standards or as agreed upon by the reviewer and the institution client. In any event, the sampling method and extent of testing, including sample size(s) used, should be disclosed in the directors' examination report.

D. Reports to be Filed with the Division of Banking

After the completion of the procedures or agreed-upon procedures set forth in Appendix A, the independent reviewer should evaluate the results of his/her work and promptly prepare and submit a report addressed to the board of directors of the institution. 2. Review the Board of Directors' minutes to determine that the loan policies have been reviewed and approved. Through review of the Board of Directors' minutes and through inquiry of executive officers, determine whether the Board of Directors revises the policies and procedures periodically as needed.
 3. Obtain Loan Committee (or, if applicable, Board of Directors' minutes) and, through a comparison of loans made throughout the period with lending policies, determine whether loans are being made within the loan authorization policy.
 4. Select a sample of borrowers (including loans from each major category) and determine through examination of loan files and other institution reports whether lending and collection policies are being followed (e.g., type of loan is in accordance with loan policy, funds were not advanced until after loan approval was received from proper loan authorization level, loan is within collateral policies, insurance coverage is adequate, and institution is named as loss payee).
 5. Select a sample of borrowers from each major category of secured loans and determine through examinations of files and other institution reports whether collateral policies are being followed (e.g., loan is adequately collateralized, documentation is present and properly prepared, assignments are perfected, and collateral is properly valued, marketable, and has not become susceptible to deterioration in realizable value).

11. Confirm a sample of all loans within each major category. Include past due and nonaccrual loans in the verification process.
12. Review multiple loans to the same borrower with the same person as guarantor to determine if they were made on consecutive days to circumvent the loan authorization policy and to determine whether policies and procedures are designed to assure that all related credits are considered in loan granting and administration. Review these loans for relationships to institutions insiders or their related interests.
13. From reports to the board on the status of loans identified as warranting special attention, review the disposition of a sample of loans no longer appearing on these reports.

 - a. Descriptions
 - b. Interest rate
 - c. Maturity
 - d. Par value, or number of shares
 - e. Cost
 - f. Market value on date of transaction (if different than cost)
3. Using the same sample items, analyze the securities register for accuracy and confirm the existence of the sample items by examining securities physically held in the institution and confirming the safekeeping of those securities held by others.

4. Balance investment subledger(s) or reconcile computer-generated trial balances with the general ledger control accounts for each type of security .
5. Review policies and procedures for controls which are designed to ensure that unauthorized transactions do not occur. Ascertain through reading of policies, procedures, and BOD minutes whether investment officers and/or appropriate committee members have been properly authorized to purchase/sell investments and whether there are limitations or restrictions on delegated responsibilities.
6. Obtain a schedule of the book, par, and market values of securities as well as their rating classifications. Test the accuracy of the market values of a sample of securities and compare the ratings listed to see that they correspond with those of the rating agencies. Test gains and losses on disposal of investment securities by sampling sales transactions and:
 - a. Determining sales prices by examining invoices or brokers' advices;
 - b. Checking for the use of trade date accounting and the computation of book value on trade date;

- (b) Does not involve more than the normal risk of repayment or present other unfavorable features.

(2) Prior approval

RULES AND REGULATIONS OF
THE STATE BANK COMMISSIONER

Emergency Rule IB-14

Scope of Directors' Examinations [11-22-109(5)(e)]

A. Definitions

For purposes of this regulation the term reviewer shall mean such public accountant or other independent person(s) as determined by the Banking Board.

B. Examination Scope

For the purposes of C.R.S. 11-22-109(5)(e) an industrial bank (institution) at a minimum shall perform annually the procedures as set forth in Appendix A as the scope of a directors' examination. The recommended procedures are intended to address the high risk areas common to all financial institutions. However, each institution must review its own particular business and determine if additional procedures are required to cover other high risk areas. The reviewer should be informed of and permitted access to all examination reports, administrative orders, and any additional communications between the institution and the Division of Banking, including the Colorado State Banking Board, as well as, the appropriate federal regulatory agency. The reviewer should obtain institution management's written representation that he or she has been informed of and granted access to all such documents prior to completion of the field work.

C. Extent of Testing

Where the procedures set forth in Appendix A require testing or determinations to be made, sampling may be used. Both judgmental and statistical sampling may be acceptable methods of selecting samples to test. Sample sizes should be consistent with generally accepted auditing standards or as agreed upon by the reviewer and the institution client. In any event, the sampling method and extent of testing, including sample size(s) used, should be disclosed in the directors' examination report.

D. Reports to be Filed with the Division of Banking

After the completion of the procedures or agreed-upon procedures set forth in Appendix A, the independent reviewer should evaluate the results of his/her work and promptly prepare and submit a report addressed to the board of directors of the institution. This report should detail the findings and suggestions resulting from performance of these auditing procedures. Independent reviewers should include in their report, as a minimum:

- (1) Financial statements (balance sheet and statement of earnings as of the examination date);

- (2) The accounts or items on which the procedures were applied;
- (3) The sampling methods used;
- (4) The procedures and agreed-upon extent of testing performed;
- (5) The accounting basis either generally accepted accounting principles (GAAP) or regulatory required accounting on which the accounts or items being audited are reported;
- (6) The reviewer's findings; and
- (7) The date as of which the procedures were performed.

The reviewer should sign and date the report, which should also disclose the reviewer's business address.

The institution must send a copy of this report, the engagement letter, and any management letter or similar letter of recommendations to the Division of Banking and the appropriate federal regulators within 30 days after its receipt, but no later than 150 days after the date of examination. In addition, each institution should promptly notify the Division of Banking when any reviewer is engaged to perform a directors' examination and when a change in its reviewer occurs.

E. References

Generally acceptable accounting principles are issued by the Financial Accounting Standard Board which is a arm of the Financial Accounting Foundation, an independently chartered institution.

Appendix A Emergency Rule IB-14

For the purposes of C.R.S. 11-22-109(5)(e) an industrial bank (institution), at a minimum, shall have the following procedures performed annually.

A. LOANS

1. Determine that the institution has policies that address the lending and collection functions. Read the institution's loan policies to determine whether they address the following items:
 - a. General fields of lending in which the institution will engage and the types of loans within each field;
 - b. Descriptions of the institution's normal trade area and circumstances under which the institution may extend credit to borrowers outside of such area;
 - c. Limitations on the maximum volume of each type of loan product in relation to total assets;
 - d. Responsibility of the Board of Directors in reviewing, ratifying, or approving loans;
 - e. Lending authority of the loan or executive committee (if such a committee exists);
 - f. Adherence to legal limits;
 - g. Types of secured and unsecured loans which will be granted;
 - h. Circumstances under which extensions or renewals of loans are granted.
 - i. Guidelines for rates of interest and terms of repayment for secured and unsecured loans;
 - j. Documentation required by the institution for each type of secured and unsecured loans;
 - k. Limitations on the amount advanced in relation to the value of various types of collateral;
 - l. Limitations on the extension of credit through overdrafts;
 - m. Level or amount of loans granted in specific industries or specific geography locations;
 - n. Guidelines for participations purchased and/or sold;
 - o. Guidelines for documentation of new loans prior to approval and updating loan files throughout the life of the loan;
 - p. Guidelines for loan review procedures by institution personnel including:
 - i. An identification or grouping of loans that warrant the special attention of management;
 - ii. For each loan identified, a statement or indication of the reason(s) why the particular loan merits special attention; and
 - iii. A mechanism for reporting periodically to the board on the status of each loan identified and the action(s) taken by management.

- q. Collection procedures, including, but not limited to, actions to be taken against borrowers who fail to make timely payments;
 - r. Guidelines for nonaccrual loans (i.e., when an asset should be placed on nonaccrual, individuals responsible for identifying non-performing assets and placing them on nonaccrual, and circumstances under which an asset will be placed back on accrual.); and
 - t. Guidelines for in-substance foreclosures.
2. Review the Board of Directors' minutes to determine that the loan policies have been reviewed and approved. Through review of the Board of Directors' minutes and through inquiry of executive officers, determine whether the Board of Directors revises the policies and procedures periodically as needed.
 3. Obtain Loan Committee (or, if applicable, Board of Directors' minutes) and, through a comparison of loans made throughout the period with lending policies, determine whether loans are being made within the loan authorization policy.
 4. Select a sample of borrowers (including loans from each major category) and determine through examination of loan files and other institution reports whether lending and collection policies are being followed (e.g., type of loan is in accordance with loan policy, funds were not advanced until after loan approval was received from proper loan authorization level, loan is within collateral policies, insurance coverage is adequate, and institution is named as loss payee).
 5. Select a sample of borrowers from each major category of secured loans and determine through examinations of files and other institution reports whether collateral policies are being followed (e.g., loan is adequately collateralized, documentation is present and properly prepared, assignments are perfected, and collateral is properly valued, marketable, and has not become susceptible to deterioration in realizable value).
 6. Review policies for checking floor plan merchandise, warehouse inventory and accounts receivable by responsible institution personnel and test for compliance.
 7. Determine whether participations purchased and participations sold transactions have been reported to and authorized by the Board of Directors or Loan Committee, if applicable, through review of appropriate minutes.
 8. On a test basis, review participations purchased to confirm that the institution does its own independent credit analysis. Also review participation documents and determine that terms and conditions between the lead institution and participants are specified, including:
 - a. Which party is paid first;
 - b. What happens in the event of default;
 - c. How set-offs received by either institution are to be treated;
 - d. How collection expenses are to be divided; and
 - e. Who is responsible to collect the note in the event of default

9. Confirm sample of participations purchased and participations sold with participating institutions to verify that they are legitimate transactions and that they are properly reflected as being with or without recourse in the institution's records.
10. Balance detail ledgers or reconcile computer generated trial balances with the general ledger control accounts for each major category of loans, including loans carried as past due or in a nonaccrual status.
11. Confirm a sample of all loans within each major category. Include past due and nonaccrual loans in the verification process.
12. Review multiple loans to the same borrower with the same person as guarantor to determine if they were made on consecutive days to circumvent the loan authorization policy and to determine whether policies and procedures are designed to assure that all related credits are considered in loan granting and administration. Review these loans for relationships to institutions insiders or their related interests.
13. From reports to the board on the status of loans identified as warranting special attention, review the disposition of a sample of loans no longer appearing on these reports.
14. Test loan interest income and accrued interest by:
 - a. Determining the institutions method of calculating and recording interest accruals;
 - b. Obtaining trial balances of accrued interest;
 - c. Testing the reconciliation of the trial balances to the general ledger;
 - d. Determining that interest accruals are not made on nonaccrual loans;
 - e. Selecting sample items from each major category of loans
 - i. Determining the stated interest rate and appropriate treatment of origination fees and costs,
 - ii. Testing receipt of payments and correctness of entries to applicable general ledger accounts.
 - iii. Calculating accrued interest and comparing it to the trial balance, and
 - iv. Reviewing recorded book value for appropriate accretion of discount (net origination fees) and amortization of premium (net origination costs); and
 - f. Performing an analytical review of yields on each major category of loans for reasonableness.

B. ALLOWANCE FOR LOAN LOSSES

1. Test charge-offs and recoveries for proper authorization and/or reporting by reference to the board of directors' minutes. Review charged-off loans for any relationship with institution insiders or their related interests.

2. Review the institution's computation of the amount needed in the allowance for loan losses as of the end of the most recent quarter. Documentation should include consideration of the following matters:
 - a. General, local, national, and international (if applicable) economic conditions;
 - b. Trends in loan growth and depth of lending staff with expertise in these areas;
 - c. Concentrations of loans (e.g., by type, borrower, geographic area, and sector of the economy);
 - d. The extent of renewals and extensions to keep loans current;
 - e. The collectibility of nonaccrual loans;
 - f. Trends in the level of delinquent and classified loans compared with previous loan loss and recovery experience;
 - g. Results of regulatory examinations; and
 - h. The collectibility of specific loans on the "watch list" taking into account borrower financial status, collateral type and value, payment history, and potential permanent impairment.

C. SECURITIES

1. Review the investment policies and procedures established by the institution's board of directors (BOD). Review the BOD (or investment committee) minutes for evidence that these policies and procedures are periodically reviewed and approved. The policies and procedures should include, but not be limited to:
 - a. Investment objectives, including use of "held for sale" and trading activities;
 - b. Permissible types of investments;
 - c. Diversification guidelines to prevent undue concentration;
 - d. Maturity schedules;
 - e. Limitation on quality ratings;
 - f. Hedging activities and other uses of futures, forwards, options, and other financial instruments;
 - g. Handling exceptions to standard policies;
 - h. Valuation procedures and frequency;
 - i. Limitations on the investment authority of officers; and
 - j. Frequency of periodic reports to the BOD on securities holdings.
2. Test the investment procedures and ascertain whether information reported to the BOD (or investment committee) for securities transactions is in agreement with the supporting data by comparing the following information on such reports to the trade tickets for a sample of items (including futures, forwards, and options):
 - a. Descriptions
 - b. Interest rate
 - c. Maturity

- d. Par value, or number of shares
 - e. Cost
 - f. Market value on date of transaction (if different than cost)
3. Using the same sample items, analyze the securities register for accuracy and confirm the existence of the sample items by examining securities physically held in the institution and confirming the safekeeping of those securities held by others.
 4. Balance investment subledger(s) or reconcile computer-generated trial balances with the general ledger control accounts for each type of security .
 5. Review policies and procedures for controls which are designed to ensure that unauthorized transactions do not occur. Ascertain through reading of policies, procedures, and BOD minutes whether investment officers and/or appropriate committee members have been properly authorized to purchase/sell investments and whether there are limitations or restrictions on delegated responsibilities.
 6. Obtain a schedule of the book, par, and market values of securities as well as their rating classifications. Test the accuracy of the market values of a sample of securities and compare the ratings listed to see that they correspond with those of the rating agencies. Review the institution's documentation on any permanent declines in value that have occurred among the sample of securities to determine that any recorded declines in market value are appropriately computed. Examine the institution's computation of the allowance account for securities, if any, for proper presentation and adequacy.
 7. Test securities income and accrued interest by:
 - a. Determining the institution's method of calculating and recording interest accruals;
 - b. Obtaining trial balances of accrued interest;
 - c. Testing the reconciliation of the trial balances to the general ledger;
 - d. Determining that interest accruals are not made on defaulted issues;
 - e. Selecting items from each type of investment and money market holdings:
 - i. Determining the stated interest rate and most recent interest payment date of coupon instruments by reference to sources of such information that are independent of the institution,
 - ii. Testing timely receipt of interest payments and correctness of entries to applicable general ledger accounts.
 - iii. Calculating accrued interest and comparing it to the trial balance,
 - iv. Reviewing recorded book value for appropriate accretion of discount and amortization of premium; and
 - f. Performing an analytical review of yields on each type of investment and money market holdings for reasonableness.
 8. Review investment accounts for volume of purchases, sales activity and length of time securities have been held. Inquire as to the institution's intent and ability to hold securities until maturity. (If there is frequent trading in an investment account, such activity may be inconsistent with the notion that the institution has the intent and ability to hold securities to maturity.) Test gains and losses on disposal of investment securities by sampling sales transactions and:
 - a. Determining sales prices by examining invoices or brokers'

- advices;
- b. Checking for the use of trade date accounting and the computation of book value on trade date;
- c. Determining that the general ledger has been properly relieved on the investment, accrued interest, premium, discount and other related accounts;
- d. Recomputing the gain or loss and compare to the amount recorded in the general ledger; and
- e. Determining that the sales were approved by the BOD or a designated committee or were in accordance with policies approved by the BOD.

D. INSIDER TRANSACTIONS

NOTE: For purposes of this section of the procedures, insiders include all affiliates of the institution (including its parent holding company) and all subsidiaries of the institution, as those terms are defined in section 23A of the Federal Reserve Act, as well as the institution's executive officers, directors, principal shareholders, and their related interests, as those terms are defined in section 215.2 of Federal Reserve Regulation O.

1. Review the institution's policies and procedures to ensure that extensions of credit to and other transactions with insiders are addressed. Ascertain that these policies include specific guidelines defining fair and reasonable transactions between the institution and insiders and test insider transactions for compliance with these guidelines and statutory and regulatory requirements. Ascertain that the policies and procedures on extensions of credit comply with the requirements of Federal Reserve Regulation O.
2. Obtain an institution-prepared list of insiders, including any business relationships they may have other than as nominal customer. Also obtain a list of extensions of credit to and other transactions that the institution, its affiliates, and its subsidiaries have had with insiders that are outstanding as of the audit date or that have occurred since the prior year's external auditing procedures were performed. Compare these lists to those prepared for the prior year's external auditing program to test for completeness.
3. Review the board of directors' minutes, loan trial balances, supporting loan documentation, and other appropriate institution records in conjunction with the list of insiders obtained from the institution to verify that a sample of extensions of credit to and transactions with insiders were:

- a. In compliance with institution policy for similar transactions and were at prevailing rates and terms at that time;
 - b. Subjected to the institution's normal underwriting criteria and deemed by the institution to involve no more than a normal degree of risk or present no other unfavorable features;
 - c. Approved by the board of directors in advance with the interested party abstaining from voting; and
 - d. Within the aggregate lending limits imposed by Regulation O or other legal limits.
4. Review the institution's policies and procedures to ensure that expense accounts of individuals who are executive officers, directors, and principal shareholders are addressed and test a sample of the actual expense account records for compliance with these policies and procedures.

E. INTERNAL CONTROLS - GENERAL ACCOUNTING AND ADMINISTRATIVE CONTROLS

1. Review the board of directors' minutes to verify that account reconciliation policies have been established and approved and are reviewed periodically by the BOD. Determine that management has implemented appropriate procedures to ensure the timely completion of reconciliations of accounting records and the timely resolution of reconciling items.
2. Determine whether the institution's policies regarding segregation of duties and required vacations for employees (including those involved in the EDP function) have been approved by the BOD and verify that these policies and the implementing procedures established by management are periodically reviewed, are adequate, and are followed.
3. Confirm a sample of deposits in each of the various types of deposit accounts maintained by the institution. Inquire about controls over dormant deposit accounts.
4. Test to determine that reconciliations are prepared for all significant asset and liability accounts and their related accrued interest accounts, if any, such as "due from" accounts; NOW accounts; money market deposit accounts; other savings deposits; certificates of deposit; and other time deposits. Review reconciliations for:
 - a. Timeliness and frequency;
 - b. Accuracy and completeness; and
 - c. Review by appropriate personnel with no conflicting duties.
5. Compare a sample of balances per reconciliations to the general ledger and supporting trial balances.
6. Examine detail and aging of a sample of reconciling items from those accounts whose reconciliations have been tested and reviewed and a sample of items in suspense, clearing, and work-in-process accounts by:

- a. Testing aging;

APPENDIX A IB-32

A. Restrictions and criteria relating to capital components - mandatory convertible securities

- 1) There are two basic types of mandatory convertible securities: "equity contract notes" - securities that obligate the holder to take common or perpetual preferred stock of the issuer in lieu of cash for repayment of principal, and "equity commitment notes" - securities that are redeemable only with the proceeds from the sale of common or perpetual preferred stock. Both equity commitment notes and equity contract notes qualify as primary capital for bank holding companies, but only equity contract notes qualify as primary capital for banks.
- 2) Criteria applicable to both types of mandatory convertible securities:
 - a. The securities must mature in 12 years or less.
 - b. The maximum amount of mandatory convertible securities that may be counted as primary capital is limited to 20% of primary capital, exclusive of mandatory convertible securities.
 - c. The issuer may redeem securities prior to maturity only with the proceeds from the sale of common or perpetual preferred stock of the bank or bank holding company.
 - d. Holders of the securities may not accelerate the payment of principal except in the event of bankruptcy, insolvency, or reorganization.
 - e. The securities must be subordinate in right of payment to all senior indebtedness of the issuer. In the event that the proceeds of the securities are reloaned to an affiliate, the loan must be subordinated to the same degree as the original issue.
 - f. An issuer that intends to dedicate the proceeds of an

issue of common or perpetual preferred stock to satisfy the funding requirements of an issue of mandatory convertible securities generally must make such a dedication during the quarter in which the new common or preferred stock is issued. As a general rule, if the dedication is not made within the prescribed period, then the securities issued may not at a later date be dedicated to the retirement or redemption of the mandatory convertible securities.

B. Conditions applicable to secondary capital components to qualify as capital:

- 1) A bank's secondary capital includes limited-life preferred stock and long-term, unsecured (which in the case of banks, must be subordinated to deposits) debt.
- 2) The secondary components must meet the following conditions to qualify as capital:
 - a. The instrument must have an original weighted-average maturity of at least 7 years.
 - b. The instrument must be unsecured.
 - c. The instrument must clearly state on its face that it is not a deposit and not insured by a federal agency.
 - d. Bank debt instruments must be subordinated to claims of depositors.
 - e. The aggregate amount of limited-life preferred stock and subordinate debt qualifying as capital may not exceed 50% of the amount of the bank's primary capital.

IB-33

1. A bank must have and maintain a minimum level of primary capital to adjusted total assets of 5 1/2% and a minimum level of total capital to adjusted total assets of 6%.
2. Higher than minimum capital ratios may be required for an individual bank when the Banking Board believes that the bank's capital is or may become inadequate in view of its circumstances. For example, higher capital ratios may be appropriate for:
 - (a) A newly chartered bank;
 - (b) A bank receiving special supervisory attention;
 - (c) A bank which has or is expected to have losses resulting in capital inadequacy;
 - (d) A bank having a high proportion of off-balance sheet risks, especially standby letters of credit; or exposed to a high degree of asset depreciation or interest rate, funding, transfer, or similar risks; or having a low level of liquid assets in relation to short-term liabilities;

The Federal Home Loan Bank Act, 12 USC 1424, provides Federal Home Loan Bank membership to any eligible bank insured by the Federal Deposit Insurance Corporation.

The Federal Home Loan Bank Act, also known as 12 USC 1424, amended 1989, is a law enacted by the United States Congress and administered by the Federal Housing Finance Board. This rule does not include amendments to or editions of the referenced material later than the effective date of the rule, November 30, 1990. For detailed information pertaining to these provisions, please contact the secretary for the State Banking Board at 303 W. Colfax, Suite 650, Denver, Colorado 80204, (303)620-4358.

ER IB15 Loan Production Office [11-22-105(4)]

A Loan Production Office (LPO) is defined as a location other than the bank's main office where only the solicitation and origination of loans by employees or agents of an industrial bank or of a subsidiary corporation are conducted, provided that the loans are approved and made at the main office of the bank or at an office of the subsidiary located on the premises of or contiguous to the main office of the bank and which location is subject to notification and fee provisions of this Rule.

Approval of loans at the main office is not intended to be perfunctory, i.e. merely final execution of the loan documents. Approval at the main office shall be in accordance with safe and sound banking practice, including a review of the credit quality of the loan and a determination that it meets the bank's credit standards. In making an independent credit decision, the employee at the main office may consider recommendations made by the LPO as a factor when assessing the credit quality of the loan.

Notice of Intent to Operate an LPO or Notice of Intent to Change Location of an LPO shall be filed with the State Banking Board on a form provided by the Division of Banking at least 30 days prior to the first day of operating at location. The Notice of Intent shall be accompanied by a fee as set by the State Banking Board pursuant to C.R.S. 11-2-103(11). From the effective date of this Rule until July 1, 1991, the filing fee shall be \$50 per application.

Scope of Directors' Examinations [11-23-118(2)]

A. Definitions

For purposes of this regulation the term reviewer shall mean such public accountant or other independent person(s) as determined by the Banking Board.

B. Examination Scope

For the purposes of C.R.S. 11-23-118(2) a trust company (institution) at a minimum shall perform annually the procedures as set forth in Appendix A as the scope of a directors' examination. The recommended procedures are intended to address the high risk areas common to all financial institutions. However, each institution must review its own particular business and determine if additional procedures are required to cover other high risk areas. The reviewer should be informed of and permitted access to all examination reports, administrative orders, and any additional communications between the institution and the Division of Banking, including the Colorado State Banking Board, as well as, the appropriate federal regulatory agency. The auditor should obtain institution management's written representation that he or she has been informed of and granted access to all such documents prior to completion of the field work.

C. Extent of Testing

Where the procedures set forth in Appendix A require testing or determinations to be made, sampling may be used. Both judgmental and statistical sampling may be acceptable methods of selecting samples to test. Sample sizes should be consistent with generally accepted auditing standards or as agreed upon by the reviewer and the institution client. In any event, the sampling method and extent of testing, including sample size(s) used, should be disclosed in the directors' examination report.

D. Reports to be Filed with the Division of Banking

After the completion of the procedures or agreed-upon procedures set forth in Appendix A, the independent reviewer should evaluate the results of his/her audit work and promptly prepare and submit a report addressed to the board of directors of the institution. This report should detail the findings and suggestions resulting from performance of these auditing procedures. Independent reviewers should include in their report, as a minimum:

- (1) financial statements (balance sheet and statement of earnings as of the examination date);
- (2) the accounts or items on which the procedures were applied;
- (3) the sampling methods used;
- (4) the procedures and agreed-upon extent of testing performed;
- (5) the accounting basis either generally accepted accounting principles (GAAP) or regulatory required accounting on which the accounts or items being audited are reported;

(6) the reviewer's findings; and

(7) the date as of which the procedures were performed.

The reviewer should sign and date the report, which should also disclose the reviewer's business address. The institution must send a copy of this report, the engagement letter, and any management letter or similar letter of recommendations to the Division of Banking and, if applicable, to the appropriate federal regulators within 30 days after its receipt, but no later than 150 days after the date of examination. In addition, each institution should promptly notify the Division of Banking when any reviewer is engaged to perform a directors' examination and when a change in its reviewer occurs.

E. References

Appendix A TC-11

For the purposes of C.R.S. 11-23-118(2) a trust company (institution), at a minimum, shall have the following procedures performed annually.

A. SECURITIES

1. Review the investment policies and procedures established by the institution's board of directors (BOD). Review the BOD (or investment committee) minutes for evidence that these policies and procedures are periodically reviewed and approved. The policies and procedures should include, but not be limited to:
 - a. Investment objectives, including use of "held for sale" and trading activities;
 - b. Permissible types of investments;
 - c. Diversification guidelines to prevent undue concentration;
 - d. Maturity schedules;
 - e. Limitation on quality ratings;
 - f. Hedging activities and other uses of futures, forwards, options, and other financial instruments;
 - g. Handling exceptions to standard policies;
 - h. Valuation procedures and frequency;
 - i. Limitations on the investment authority of officers; and
 - j. Frequency of periodic reports to the BOD on securities holdings.

2. Test the investment procedures and ascertain whether information reported to the BOD (or investment committee) for securities transactions is in agreement with the supporting data by comparing the following information on such reports to the trade tickets for a sample of items (including futures, forwards, and options):
 - a. Descriptions
 - b. Interest rate
 - c. Maturity
 - d. Par value, or number of shares
 - e. Cost
 - f. Market value on date of transaction (if different than cost)
3. Using the same sample items, analyze the securities register for accuracy and confirm the existence of the sample items by examining securities physically held in the institution and confirming the safekeeping of those securities held by others.
4. Balance investment subledger(s) or reconcile computer-generated trial balances with the general ledger control accounts for each type of security .
5. Review policies and procedures for controls which are designed to ensure that unauthorized transactions do not occur. Ascertain through reading of policies, procedures, and BOD minutes whether investment officers and/or appropriate committee members have been properly authorized to purchase/sell investments and whether there are limitations or restrictions on delegated responsibilities.
6. Obtain a schedule of the book, par, and market values of securities as well as their rating classifications. Test the accuracy of the market values of a sample of securities and compare the ratings listed to see that they correspond with those of the rating agencies. Review the institution's documentation on any permanent declines in value that have occurred among the sample of securities to determine that any recorded declines in market value are appropriately computed. Examine the institution's computation of the allowance account for securities, if any, for proper presentation and adequacy.
7. Test securities income and accrued interest by:
 - a. determining the institution's method of calculating and recording interest accruals;
 - b. obtaining trial balances of accrued interest;
 - c. testing the reconciliation of the trial balances to the general ledger;
 - d. determining that interest accruals are not made on defaulted issues;
 - e. selecting items from each type of investment and money market holdings:
 - i. determining the stated interest rate and most recent interest payment date of coupon instruments by reference to sources of such information that are independent of the institution,
 - ii. testing timely receipt of interest payments and correctness of entries to applicable general ledger accounts.
 - iii. calculating accrued interest and comparing it to the trial balance,
 - iv. reviewing recorded book value for appropriate accretion of discount and amortization of premium; and
 - f. performing an analytical review of yields on each type of investment and money market holdings for reasonableness.

8. Review investment accounts for volume of purchases, sales activity and length of time securities have been held. Inquire as to the institution's intent and ability to hold securities until maturity. (If there is frequent trading in an investment account, such activity may be inconsistent with the notion that the institution has the intent and ability to hold securities to maturity.) Test gains and losses on disposal of investment securities by sampling sales transactions and:
 - a. determining sales prices by examining invoices or brokers' advices;
 - b. checking for the use of trade date accounting and the computation of book value on trade date;
 - c. determining that the general ledger has been properly relieved on the investment, accrued interest, premium, discount and other related accounts;
 - d. recomputing the gain or loss and compare to the amount recorded in the general ledger; and
 - e. determining that the sales were approved by the BOD or a designated committee or were in accordance with policies approved by the BOD.
9. Determine that sufficient and adequate securities have been collateralized against uninsured deposits, if applicable.

B. ALLOWANCE FOR FEE RECEIVABLES

1. Review policies and procedures for ensuring the collectibility of fees due.
2. Test charge-offs and recoveries for proper authorization and/or reporting by reference to the board of directors' minutes.
3. Review the institution's computation of the amount needed in the allowance as of the end of the most recent quarter. Documentation should include consideration of the following matters:
 - a. Aging of delinquent fees;
 - b. Ability to offset fees to account assets;
 - c. Valuation and marketability of assets in fee delinquent accounts;
 - d. Trends in the level of delinquent fees as compared with previous loss and recovery experience;
 - e. Monitoring controls; and
 - f. Collection efforts, both internal and through outside sources.

12C. INSIDER TRANSACTIONS

NOTE: For purposes of this section of the procedures, insiders include all affiliates of the institution (including its parent holding company) and all subsidiaries of the institution, as those terms are defined in section 23A of the Federal Reserve Act, as well as the institution's executive officers, directors, principal shareholders, and their related interests, as those terms are defined in section 215.2 of Federal Reserve Regulation O.

1. Review the institution's policies and procedures to ensure that extensions of credit to and other transactions with insiders are addressed. Ascertain that these policies include specific guidelines defining fair and reasonable transactions between the institution and insiders and test insider transactions for compliance with these guidelines and statutory and regulatory requirements. Ascertain that the policies and procedures on extensions of credit comply with the requirements of Federal Reserve Regulation O.

2. Obtain an institution-prepared list of insiders, including any business relationships they may have other than as nominal customer. Also obtain a list of extensions of credit to and other transactions that the institution, its affiliates, and its subsidiaries have had with insiders that are outstanding as of the audit date or that have occurred since the prior year's external auditing procedures were performed. Compare these lists to those prepared for the prior year's external auditing program to test for completeness.
4. Review the institution's policies and procedures to ensure that expense accounts of individuals who are executive officers, directors, and principal shareholders are addressed and test a sample of the actual expense account records for compliance with these policies and procedures.

3. Confirm a sample of deposits in each of the various types of deposit accounts maintained by the institution. Inquire about controls over dormant deposit accounts.
4. Test to determine that reconciliations are prepared for all significant asset and liability accounts and their related accrued interest accounts, if any, such as "due from" accounts; demand deposits; NOW accounts; money market deposit accounts; other savings deposits; certificates of deposit; and other time deposits. Review reconciliations for:
 - a. timeliness and frequency;
 - b. accuracy and completeness; and
 - c. review by appropriate personnel with no conflicting duties.
5. Compare a sample of balances per reconciliations to the general ledger and supporting trial balances.
6. Examine detail and aging of a sample of reconciling items from those accounts whose reconciliations have been tested and reviewed and a sample of items in suspense, clearing, and work-in-process accounts by:
 - a. testing aging;
 - b. determining whether items are followed up on and appropriately resolved on a timely bases; and
 - c. discussing items remaining on reconciliations and in the suspense account with appropriate personnel to ascertain whether any should be written off.

Review a sample of charged-off reconciling and suspense items for proper authorization.

7. Verify through inquiry and observation that the institution maintains adequate records of its off-balance sheet activities. Review the institution's procedures to determine whether probable or reasonably possible losses exist.

E. INTERNAL CONTROLS - ELECTRONIC DATA PROCESSING CONTROLS

1. Read the BOD's minutes to determine whether the BOD has reviewed and approved the institution's electronic data processing (EDP) policies (including those regarding outside servicers, if any, and the in-house use of individual personal computers (PCs) and personalized programs for official institution records) at least annually, confirm that management has established appropriate implementing procedures, and verify the institution's compliance with these policies and procedures.

- A. Restrictions and criteria relating to capital components - mandatory convertible securities
 - 1) There are two basic types of mandatory convertible securities: "equity contract notes" - securities that obligate the holder to take common or perpetual preferred stock of the issuer in lieu of cash for repayment of principal, and "equity commitment notes" - securities that are redeemable only with the proceeds from the sale of common or perpetual preferred stock.
 - 2) Criteria applicable to both types of mandatory convertible securities:

 - e. The securities must be subordinate in right of payment to all senior indebtedness of the issuer. In the event that the proceeds of the securities are reloaned to an affiliate, the loan must be subordinated to the same degree as the original issue.

f. An issuer that intends to dedicate the proceeds of an issue of common or perpetual preferred stock to satisfy the funding requirements of an issue of mandatory convertible securities generally must make such a dedication during the quarter in which the new common or preferred stock is issued. TC-6

Collateralization of Deposits (11-23-117) Each trust company accepting general and/or fiduciary deposits must provide a letter agreement to the Banking Board detailing the collateralization of said deposits. Such agreement shall include at a minimum the following provisions:

1. a) The Trust Company shall collateralize its deposits by setting aside under the control of the Trust Section of the company:
 - i) Direct obligation of the United States, or other obligations fully guaranteed by the United States as to principal and interest;
 - ii) Readily marketable securities of the classes in which Colorado banks exercising fiduciary powers are authorized or permitted to invest trust funds under the laws of the State of Colorado; or
 - iii) Other readily marketable securities that qualify as investment securities pursuant to the regulations of the Banking Board and the Colorado Trust Company Act.
 - b) The securities under the control of the Trust Section shall be subject to the terms of a written agreement between the Trust Section and the Trust Company which provides that such are held in trust by the Trust Section as collateral solely for the benefit of the depositors whose deposits are secured by such collateral.
 - c) The securities so deposited or securities substituted therefore as collateral shall be at least equal in market value to the amount of Deposits and such securities shall be priced or valued monthly.
 - d) Within 15 days after the end of each month the trust company shall submit a written report for such month to the Division of Banking, which discloses:
 - i) the amount of Deposits not insured by the Federal Deposit Insurance Corporation;
 - ii) the description of the securities collateralizing the Deposits; and
 - iii) the market value of the securities collateralizing the Deposits.
 - e) The average maturity of the securities so deposited shall not exceed two years, and without the prior approval of the Banking Board, no such security shall have a maturity of more than five years, unless the interest rate on such security adjusts to reflect changes in market conditions.
2. The provisions of the preceding paragraph shall cease to be effective as of the close of business on the business

day preceding the business day on which the Deposits of trust company are insured by the Federal Deposit Insurance Corporation, except to the extent that the trust company may be required to collateralize deposits that are not insured by the Federal Deposit Insurance Corporation.

TC-8 Dividends [11-23-116] The approval of the Banking Board shall be required if the total of all dividends declared by such trust company in any calendar year shall exceed the total of its net profits of that year combined with its retained net profits of the preceding two years, less any required transfers to a fund for the retirement of any preferred stock.

TC 9 Investment Limitations [11-23-110(4)] A trust company may, for its own account, purchase Type II and Type III securities, as described in 12 CFR 1, subject to the following restrictions:

- 1) Obligations of any issuer may be purchased up to a limit of 15% of the trust company's total capital provided that the purchase is based on adequate evidence of the maker's ability to perform and
- 2) Obligations of issuers having a maturity date of less than 5 years may be purchased not to exceed 10% of the total capital provided that the purchase is based on adequate evidence of the maker's ability to perform. This limitation shall be separate from and in addition to the limitation contained in paragraph (1) of this subsection.
- 3) The limitations prescribed in (1) and/or (2) are reduced to 5% of total capital when purchase judgement is predicated on reliable estimates as described in 12 CFR 1.

Every trust company shall maintain in its files credit information adequate to demonstrate that it exercised prudence in its decision to purchase and to retain any security in its investment portfolio. Failure to maintain such information could result in the determination that the security is not a permissible trust company investment.

Reference: 12 CFR 1, issued by the Comptroller of Currency under the general authority of the national banking laws, 12 USC 1 et seq. and under specific authority contained in paragraph Seventh of 12 USC 24.

This rule does not include amendments to or editions of the referenced material later than the effective date of the rule, October 30, 1990.
