2024 Colorado Insurance Industry Statistical Report

August 2025

It is my pleasure to present the *2025 Colorado Insurance Industry Statistical Report*. The Colorado Division of Insurance prepares this annual report to serve as a guide for individuals and industry representatives who want to know the financial status and market share of companies selling insurance in Colorado. The report includes data from commercial insurers, health maintenance organizations, non-profit organizations, captives and self-insurance pools. With a few exceptions, data represents figures as of December 31, 2024, and comes from information filed with the Division or the National Association of Insurance Commissioners (NAIC).

What do Colorado consumers purchase?

During 2024, Colorado citizens spent more than \$56 billion in premium to 1847 companies. The report shows in detail which lines of business account for the largest percent of total premiums paid by Colorado consumers. The following lines of business account for 95.4 percent of total insurance premiums:

- Accident and health insurance – 38.0%
- Annuities – 15.1%
- Private passenger automobile insurance – 13.5%
- Homeowners – 9.2%
- Life insurance – 6.0%
- Other liability – 4.4%
- Commercial multiple peril – 2.5%
- Commercial auto – 2.2%
- Workers' compensation – 1.9%
- Inland Marine – 1.1%
- Fire – 0.9%
- Title – 0.6%

Where are premium dollars spent?

This report shows how companies spend premiums by providing the loss ratios for individual companies. A **loss ratio** is the ratio between the premiums paid to an insurance company and the claims settled by the company. It is usually expressed as a percentage of losses incurred to premiums earned. **Premiums earned** are those premiums paid by consumers for insurance coverage. **Losses incurred** are the amounts paid by companies to cover costs covered by this insurance coverage.

A higher loss ratio means that more of the premium dollar went to claims and benefits, and less overhead and profit. For example:

- If an insurance company reports \$1 million in premiums earned and \$750,000 in incurred losses, their loss ratio would be 75 percent.
- If a company reports \$1 million in premiums earned and \$350,000 in incurred losses, then their loss ratio would be 35 percent.

The losses incurred and loss ratios reported in this report do not include **loss adjustment expenses**, which are costs and expenses that are incurred by the company in the investigation, appraisal, adjustment, settlement, litigation, defense or appeal of a claim, including court costs, cost of surety and appeal bonds, and post-judgment interest.

In reports prior to 2024 all dollar amounts were reported in thousands and due to rounding, a zero in those tables may have represented a value anywhere from -499 to 499 dollars.

Are more copies of this report available?

This report is available online at <https://www.colorado.gov/pacific/dora/colorado-insurance-industry-statistical-report>.

I hope you find the report useful. If you have any questions, please contact Kelly Schultz at kelly.schultz@state.co.us or 303-894-7481.

Sincerely,

Michael Conway
Commissioner of Insurance

The **Colorado Division of Insurance** regulates the insurance industry and assists consumers and other stakeholders with insurance issues.

DORA is dedicated to preserving the integrity of the marketplace and is committed to promoting a fair and competitive business environment in Colorado. Consumer protection is our mission.
