

COLORADO MIDWIFERY REGISTRATION 2011 STATISTICAL SUMMARY

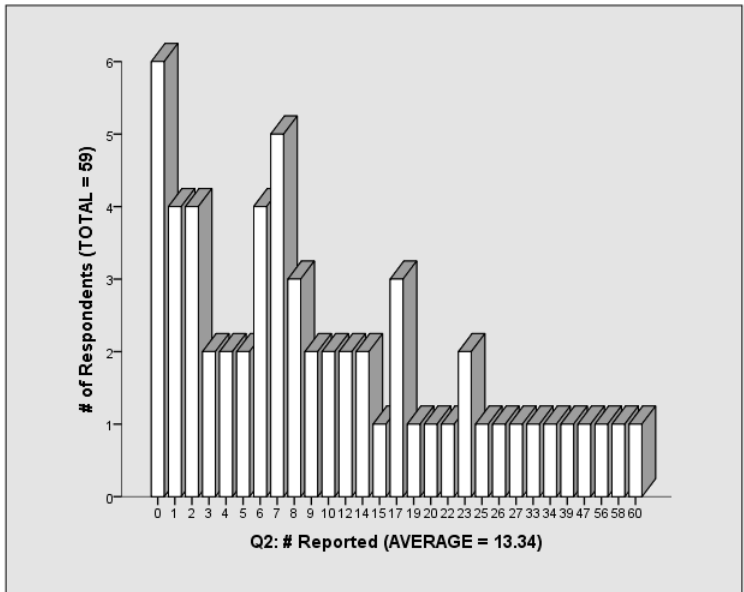

(Statistics for the period 10-01-2010 through 09-30-2011)

Registered Direct-Entry Midwives answered the following questions by submitting their data during the 2011 renewal cycle. The reporting period was October 1, 2010 through September 30, 2011. Respondents entered a value of “0” if their answer to any question was “zero”.

1. The number of women to whom midwifery care was provided (this is the total number of women who received care from the reporting midwife, including women who transferred into or out of the midwife's care):

2. The number of women receiving only midwifery care (this is the number of women who received care from the reporting midwife ONLY. Women who received lab tests or ultrasounds should be counted in this category. Women who consulted with or transferred care to a Physician or other Allied Healthcare Provider during pregnancy, should not be included in this category):
