Biennial Report

OF THE

Colorado State Board of Examiners of Barbers

For the Two Years Ending November 30, 1912.

TO THE HONORABLE ELIAS M. AMMONS,
Governor of the State of Colorado.

THE STATE LEGISLATURE and
THE BARBERS OF COLORADO:

Gentlemen:

Since the Barber Law was placed on the Statute books of the State of Colorado, there has been a marked improvement in barber shops in every particular. Especially is this true from the standpoint of proficiency and sanitation. The incompetent workman is compelled to serve his apprenticeship and pass examination before he can practice as a licensed Barber. The so called Tin Can Shop, and there were many of them when the law first went into effect, are a thing of the past. In our first tour of the state we found many shops with a can on the stove for hot water purposes, in many cases the same hot towel was used all day long and dipped in the same can of water regardless of conditions of customer and faces. We are glad to be able to report that these conditions have been entirely eliminated.

CONSUMPTIVES.

Since the law went into effect there has been approximately seventy-five applicants who had consumption or tubercular disease and when the law was explained to them and they found that they had to pass a physical examination, the inevitable result was that they never returned for permit or permission to work. This alone should be sufficient to show the necessity of the Barber law to every citizen in the State of Colorado.

HABITUAL DRUNKENNESS.

We have revoked for habitual drunkenness, since the law went into effect fifteen licenses, and have on several occasions refused to issue permits to applicants who were in an intoxicated condition. The improvement along this line has been beneficial to both Barber and customer.

INCOMPETENCY.

We have refused licenses to over eighty-five applicants who failed to pass practical and written examinations, some few of these after having failed, applied for apprentice license that they might continue in the business and perfect their trade, under the instruction of a competent licensed barber.

FAILURE TO APPEAR FOR EXAMINATION.

Since the inception of the Barber Law, over 233 who have taken out permits, have failed to appear at any of the examination points throughout the state for examination. This is probably due to the fact that applicants were afraid to stand examination or because of some contagious or infectious disease, and have applied their energy's to other vocations not detrimental to public welfare and health or who have left the State.

SEWERS AND CESSPOOLS.

On our first tour of the State, after the law went into effect we found many shops in Cities and Towns who had strict sewer and cess-pool ordinances that were not connected with either, and naturally threw their waste water into the street, where the public was liable to infection from the germs which are always in waste water from wash bowls and bath tubs. This feature when brought to the attention by Barber's Board to the authorities in cities and towns, were specially remedied and the law complied with. Today there are few shops in the State of Colorado where any of these conditions exist.

STERILIZATION AND CLEAN TOWELS.

The law is that every barber must sterilize his or her tools prior to the use upon each and every person and that each and every customer be served with a clean towel both hot and cold where hot towels are used. This is a feature of the law most essential to the welfare of the public and is the hardest feature of the law for the board to enforce. Here is where the public could be of very material assistance to the Board if they would demand that this provision of the law be complied with, as it is impossible for the Board to be present on all occasions and at all shops where this violation is being practised daily. One word from the public or the patron of the barber shop would do more to enforce this feature of the law than volumes from the Board. We would like to impress upon the public the danger of the use of towels the second time without first having been laundered and the neglect to sterilize all barber tools.

PROSECUTION.

We have brought prosecutions in various parts of the State for violations of the Barber Law and have had universal success with the exceptions of Denver and Boulder counties. The prosecuting attorneys of these two counties, for some unknown cause to the Board have failed to do their plain duty in the enforcement of this law, especially is this true in the City and County of Denver. The outgoing prosecuting attorney has openly declared this law to be unconstitutional, this in our

judgment is a far-fetched statement and wholly unbecoming of a public prosecutor. This we believe should be left to the courts to decide. So far as Boulder county is concerned, where Mr. Carlson is public prosecutor, we have some violations of this law at the present time, he has repeatedly promised this board through request by the outgoing governor to take these cases up and dispose of them, but up to date has failed to do so.

THE BARBER LAW LIKE ALL OTHER LAWS.

The Barber Law will be violated, for there are always those who expend more energy in the violation than in the enforcement of the law so it should not be expected that the Barber Law will ever be enforced in its entirety, but on the whole it is a good law for both barber and customer. It has done much to elevate the barber fraternity in general and has given to the public sanitary conditions never before enjoyed by patrons of barber shops in Colorado.

IN CONCLUSION.

We note there has been a bill introduced in the Senate of the Nineteenth General Assembly to repeal the Barber Law and while we are at a loss to know what motive prompted this action other than some disgruntled barber who has probably been compelled to clean up and comply with the provisions of this law, yet we want to call the attention of the membership of the Nineteenth General Assembly to the fact that this law is self sustaining and in no case is it possible to create any indebtedness on the State of Colorado. The law is wholly maintained by the barbers themselves and the public is the real beneficiary. So in all fairness and justice we respectfully request you to do a little investigating as to the benefits that are to be derived from this law before you pass final judgment upon it.

A copy of the Barber Law will be found in back of this report.
