SECTION I. GENERAL

Letter of Transmittal and Introduction

LETTER OF TRANSMITTAL

Denver, Colorado, December 1, 1928.

To His Excellency,

WILLIAM H. ADAMS,
Governor of Colorado.

Dear Sir:

The Public Utilities Commission of the State of Colorado has the honor to transmit to you herewith for your consideration and approval its fourteenth and fifteenth annual reports for the fiscal years ended November 30, 1927, and November 30, 1928.

The Commission has endeavored, in as brief a manner as possible consistent with the facts, to convey to you some conception of the vast scope of its activities and the voluminous amount of important and detail matter passing through this department; also the results obtained in the disposition of same and the benefits derived therefrom by the public. To that end it is earnestly hoped the report will prove of interest and value.

All formal orders and decisions are published in a series of reports entitled, "Decisions of the Public Utilities Commission of the State of Colorado," now numbering five volumes. Volume VI, which contains decisions issued since January 1, 1920, is compiled and ready for the printer, but, owing to lack of funds, has not been published at the time of this report.

Respectfully,

OTTO BOCK,
DANIEL S. JONES,
WORTH ALLEN.
Commissioners.

Attest:

JOHN W. FLINTHAM, Secretary.

FOREWORD

The biennial period, December 1, 1926, to November 30, 1928, marks the busiest period of the Commission's existence. This is attributed to the enforcement of House Bill No. 430 enacted by the 26th General Assembly and which became effective July 30, 1927. Additional work was called for in nearly every department of the Commission and the rate and accounting departments were many times swamped, necessitating overtime and holiday work.

The Commissioners were kept extremely busy holding hearings, which averaged over one each working day, and rendering opinions and orders and explaining the new law to many callers. In order to give some idea of the work accomplished it is interesting to glance back over the previous years and make a comparison of the work accomplished. This can best be done by studying the comparative figures given elsewhere in this report showing the cases and applications filed and disposed of and the hearings held all over the state. During the period of this report 25.8% of the formal cases and 54.2% of the applications filed since the inception of the Commission, August 12, 1914, took place. Rate problems and construction and extension of electrical utilities have also called for more time and attention of the Commission and its one Electrical Engineer. Forty-five of these cases were filed during this period as compared to eight filed during 1925 and 1926.

During this period a total of six hundred and thirty-eight formal hearings have been held as compared with one hundred and ninety-five for 1925 and 1926 and one hundred and fourteen for 1923 and 1924. Of the six hundred and thirty-eight hearings, three hundred and eleven were conducted in Denver and three hundred and twenty-seven at points outside of Denver. Nine hundred and eighty-seven decisions in formal cases were rendered as compared to two hundred and thirty-six for the preceding biennial period, the startling increase being in applications for certificates of public convenience and necessity filed by motor vehicle operators. Since August 1, 1927, the effective date of the motor vehicle act, and November 30, 1928, highway taxes of \$88,299.94 were assessed, of which \$81,617.20 were collected, these collections averaging better than 99%. Special collections, for filing fees, payment for certificates, copies of records, etc., amounted to \$9,075.13, which was paid into the treasury of the state to the credit of the General Fund. During this biennial period \$108,400 was appropriated for the Commission, augmented by \$4,163.55 from the Public Utilities Commission Special Fund,

making a total of \$112,563.55 available, with disbursement of \$99,000.13, leaving an unexpended balance of \$13,563.42 which was returned to the General Fund. For the previous biennial period total appropriations were \$83,628.22 and total disbursements, \$79,028.54, including \$3,928.22 and \$1,387.17 respectively account Public Utilities Commission Special Fund. Detail of disbursements and various savings effected are given elsewhere in this report under the heading of Auditing and Statistical Department .

The following summary comparison with the previous biennial period is self explanatory :

	FILED		DECIDED	
	Period	Period	Period	Period
	Dec. 1, 1926 Nov. 30, 1928	Dec. 1, 1924 Nov. 30, 1926	Dec. 1, 1926 Nov. 30, 1928	Dec. 1, 1924 Nov. 30, 1926
Formal Complaints.....	79	30	110	17
Applications	438	424	824	213
Investigation and Suspension Cases.....	27	8	53	6
Informal Complaints.....	134	114	134	114
Total	678	576	1,121	350

FORMAL COMPLAINTS

During this period one hundred and ten formal complaints were disposed of, the majority being cases where motor vehicle transportation lines were operating without a certificate of public convenience and necessity, investigation of physical plant, operation and service of electric plant, unreasonable fruit rates in Colorado, construction of switch on railroad, continue service, unreasonable electric rates, prohibit construction of electric line without certificate, unfair auto rates (sightseeing), discrimination, rates and charges for hydrant rental, extension of electric lines, meter deposit for payment of electric bill, removal of stockyards, restoration of railroad service, furnishing cars, etc.

There are 31 formal cases and complaints pending, the most important of which are the reasonableness of coal rates, vegetable rates and hay rates in Colorado, fat stock cattle rates, cut rates sightseeing, unreasonable sightseeing rates, attempt to collect commissions from sightseers, orders to show cause for operating without certificate, petition to deny certificate, etc.

A synopsis of each complaint disposed of during the biennial period will be found in another section of this report.

APPLICATIONS

A brief classification of applications filed as compared with similar data for the previous biennial period is as follows:

	Period Dec. 1, 1926 Nov. 30, 1928	Period Dec. 1, 1924 Nov. 30, 1926
Motor Vehicle Carriers for Certificates of Public Convenience and Necessity.....	278	290
Grade Crossings.....	20	37
Remove tracks, close stations, cessation and curtailment of train service—steam roads.....	11	44
Waiving of freight undercharges.....	34	32
Exercise franchise rights of Electrical, Water and Telephone utilities.....	45	8
Miscellaneous	50	10
Total	438	421

A synopsis of each application disposed of during the instant period is carried in another section of this report.

Applications disposed of during this period totaled 824 involving approximately in equal proportion the various classes of applications filed as shown above.

During this period fifty-three cases on the Investigation and Suspension Docket were closed up.

A satisfactory adjustment of 134 informal complaints filed was accomplished without the necessity of hearings. This involved the operations of the various public utilities within the state in many different phases.

HEARINGS HELD

The Commission has adhered to its established policy of holding its hearings in or near the various localities affected, in order to get first hand information to be decided and also save witnesses the expense in coming to Denver; while this practice has kept the Commission away from headquarters, in some instances, for several days at a time, it feels it has undoubtedly made its work more effective, and has served to bring it in closer touch with the various communities and to make those interested more familiar with the process by which the issues are determined. Hearings held were as follows:

	1927			1928	
	Denver	Outside		Denver	Outside
Dec., 1926.....	10	5	Dec., 1927.....	12	18
Jan., 1927.....	2	1	Jan., 1928.....	4	0
Feb., 1927.....	30	0	Feb., 1928.....	16	3
Mar., 1927.....	6	19	Mar., 1928.....	10	12
Apr., 1927.....	6	5	Apr., 1928.....	30	75
May, 1927.....	31	52	May, 1928.....	12	14
June, 1927.....	8	15	June, 1928.....	11	11
July, 1927.....	10	2	July, 1928.....	9	11
Aug., 1927.....	15	6	Aug., 1928.....	3	10
Sept., 1927.....	6	12	Sept., 1928.....	20	19
Oct., 1927.....	25	10	Oct., 1928.....	22	10
Nov., 1927.....	4	16	Nov., 1928.....	9	1
	<hr/>	<hr/>		<hr/>	<hr/>
	153	143		158	184

From the above it will be noted that 311 hearings were held in Denver and 327 elsewhere in the state, a total of 638 hearings in two years or more than one hearing a day for every working day in the year.

REGULATION OF MOTOR VEHICLE CARRIERS

The Commission has now had over a year of regulation of automobile common carriers as provided in H. B. 430 which became effective August 1, 1927, and it has meant much extra work especially in the Auditing, Rate and Inspection Departments. The Auditing and Rate Departments by strenuous effort, cheerful co-operation and much hard work has endeavored to handle this increase in work without extra help and many times have had to work overtime to keep up with this and their other duties. Through the Auditing Department since August 1, 1927, automobile common carrier reports have been checked each month, bills sent out and highway tax amounting to \$88,299.94 has been assessed for 15 months of which \$81,617.20 for 14 months has been collected and turned over to the State Treasurer. Tax assessed is for 15 months as November, 1928, reports are just coming in now. Tax collected is for 14 months as October, 1928, tax is not due until December 10, 1928. Thus it will be seen that this tax alone collected and paid into the State Treasury is more than the entire appropriation to cover the expense of all phases of the Commission's work.

BEFORE THE INTERSTATE COMMERCE COMMISSION

- Docket No. 17,000. Rate Structure Investigation. Part 2. Western Trunk Line Class Rates. Ex Parte No. 87. Sub. 1. Class rates within Western Trunk Line territory. Attorney for Commission attended hearings at Chicago and Denver, and presented evidence at Denver. Brief filed August 8, 1928.
- Docket No. 17,000. Part 9. Rate Structure Investigation. Live Stock. Western District rates. Attorney for Commission attended hearings at Salt Lake City, Kansas City and Chicago. Brief filed September 14, 1928.
- Docket No. 17,000. Part 7. Rate Structure Investigation. Grain and grain products within western district and for export. Attorney for Commission attended hearings at Dallas, Texas, and Chicago, Illinois. Brief to be filed by December 31st.
- Docket No. 13,535 and 17,166. Petition filed on behalf of Commission to institute investigation of rates on potatoes in cases numbered above and that effective dates of prior orders be postponed. Case pending.
- Docket No. 17,000. Part 10. Rate Structure Investigation. Hay. Attorney for Commission attended hearings at Denver. Evidence presented. Case pending.
- Docket No. 16,113. State of Colorado, et al., vs. Atchison, Topeka & Santa Fe Railway Company, et al. Rates on potatoes in earload lots from Greeley, Colorado, district to destinations in Arkansas, Tennessee, Mississippi and Alabama in decision date Sept. 29, found unreasonable, and rates from same district to destinations in Missouri, Arkansas, Tennessee and Alabama found unduly prejudicial. Rates from same district to other destinations in western trunk line, southwestern and Missouri Valley territories found not unreasonable or otherwise unlawful. Prescribed reasonable rates for future. September 29, 1928.
- Docket No. 16,614. State of Colorado, et al., vs. Atchison, Topeka & Santa Fe Railway Company, et al. Rates on cabbage in earload lots from Greeley district to certain destinations in Arkansas and Oklahoma in decision date Sept. 29, found unreasonable. Rates to destinations in Illinois in Western Trunk Line, Southwestern and Missouri Valley territories found not unreasonable or otherwise unlawful. Reasonable rates for future prescribed. September 29, 1928.
- Finance Docket No. 4555. This is an application by The Denver and Salt Lake Railway Company for a certificate of public convenience and necessity to construct and operate a line of railroad between Orestod and Dotsero, both in Eagle County, Colorado. At the request of the Interstate Commerce Com-

mission, the Public Utilities Commission heard this application, commencing September 18, 1928. Thereafter they made their recommendations as to the disposition of this matter to the Interstate Commerce Commission. No final order has been entered as yet by the Interstate Commerce Commission.

IN THE SUPREME COURT

Public Utilities Commission, et al., vs. City of Loveland. Writ of error to District Court of Larimer County to review order of latter court in the matter of stop order against operation of power line by Loveland in certain territory outside city limits. Case pending.

FEDERAL DISTRICT COURT

The Greeley Transportation Company, a corporation, vs. Bock, et al.

J. Grant, et al., vs. Boatright, et al.

Honeyman vs. Bock, et al.

The last three cases were consolidated for argument before a three-judge court sitting at Denver. They involved applications made by the plaintiff in each case for injunctions restraining the Public Utilities Commission and the attorney general from interfering with the operation by the plaintiffs of motor trucks for hire upon the public highways of the state without certificates of public convenience and necessity. In the first two cases, interlocutory injunctions had been entered and these were dissolved and the application for permanent injunctions was denied in each instance. March 27, 1928.

IN DISTRICT COURTS

Alfred T. Burbridge vs. The Public Utilities Commission, et al. In the District Court of Weld County. Application for writ of certiorari to review an order of the Commission denying to plaintiff a certificate of public convenience and necessity as a motor vehicle carrier. Writ dissolved and case dismissed, affirming order of the Commission. July 17, 1928.

E. V. Morrison vs. The Public Utilities Commission, et al. In the District Court of Weld County. Same general question involved as in Burbridge case above. Writ dissolved and order of Commission affirmed. July 17, 1928.

N. J. Fitzmorris vs. The Public Utilities Commission. In the District Court of Weld County. Same questions and same decision as in Burbridge and Morrison cases above. July 17, 1928.

William John Honeyman vs. The Public Utilities Commission. In the District Court of El Paso County. Writ of certiorari to

review action of the Commission in denying application for certificate of public convenience and necessity. Motion to quash writ of certiorari sustained. Time to amend allowed and writ amended. Case dismissed by petitioner. August 20, 1928.

Town of Georgetown, et al., vs. Colorado and Southern Railway Company, The Public Utilities Commission, et al. In the District Court of Clear Creek County. Suit to enjoin Commission and others from enforcing order permitting Colorado and Southern to abandon passenger service from Denver to points in Clear Creek County. Motions filed on behalf of Commission. Case pending.

L. M. White vs. The Public Utilities Commission, et al. In the District Court of the City and County of Denver. Petition for writ of review to construe order of Commission denying certificate of public convenience and necessity as motor vehicle carrier. Case pending.

People vs. Albert J. Herbertson. In the District Court of the City and County of Denver. Petition to enjoin operation of motor vehicle carrier without certificate of public convenience and necessity. Pending.

People vs. L. N. White as The L. N. White Transfer Company. In the District Court of the City and County of Denver. Petition to enjoin operation of motor vehicle carrier without certificate of public convenience and necessity. Pending.

People vs. Tony Archer. In the District Court of the City and County of Denver. Petition to enjoin operation of motor vehicle carrier without certificate of public convenience and necessity. Pending.

People vs. F. G. Tiller. In the District Court of the City and County of Denver. Petition to enjoin operation of motor vehicle carrier without certificate of public convenience and necessity. Pending.

People vs. The Mid-West Transit Company, a corporation. In the District Court of the City and County of Denver. Petition to enjoin operation of motor vehicle carrier without certificate of public convenience and necessity. Pending.

People vs. John Monett, as The Western Transportation Company. In the District Court of the City and County of Denver. Petition to enjoin operation of motor vehicle carrier without certificate of public convenience and necessity. Pending.

People of the State of Colorado, ex rel. Public Utilities Commission vs. D. E. Tilden. In the District Court of the City and County of Denver. Petition to enjoin operation of motor vehicle carrier without certificate of public convenience and necessity. Pending.

People of the State of Colorado, ex rel. The Public Utilities Commission, vs. Harry Large and Otto Peterson, operating as Large and Peterson. In the District Court of the City and County of Denver. Petition to enjoin operation of motor vehicle carrier without certificate of public convenience and necessity. Pending.

DEPARTMENTAL ACTIVITIES

A brief outline of some of the work accomplished and the routine detail handled by the several divisions of the Commission's staff is as follows:

RATE DEPARTMENT

In addition to the handling of regular routine work, viz., all reparation orders, undercharge claims, special authorities for changes in rates and service on short notice and the inspection and filing of tariffs, this department handles all correspondence and has numerous conferences and telephonic requests in connection with railroad and motor vehicle carriers, rates and service.

REPARATIONS

During the biennial period six hundred and fifty authorities were granted to utilities authorizing changes in rates and service upon less than the statutory thirty days' notice as compared with five hundred and ninety-three authorities granted for the previous period. For the instant period these authorities are classified as follows: Steam railroads, five hundred and thirty-six; electric railways, six; motor vehicle carriers, ninety-two, and electric utilities, sixteen, which involved reductions in rates and/or changes in service which were beneficial to the public interest.

During the year 1928 considerable time was devoted in participation in hearings before the Interstate Commerce Commission under its Docket 17,000, which is an investigation instituted by that body under the Hoch-Smith Resolution. It prepared testimony and exhibits in both the class rate and the grain rate investigations, also assisted the Attorney General's office in the preparation of briefs in these cases in which it was argued that the class rates and the grain rates from and to Colorado should be reduced.

It also participated in hearings before this Commission in both motor vehicle and railroad rate cases. Through the assistance of this department, the rate situation among the sightseeing operators at Colorado Springs and Manitou was put upon a uniform basis, all operators filing the same rates for all trips. This was a particularly acute situation and caused the Commission considerable trouble and complaints.

Owing to the lack of understanding amongst motor vehicle carriers, this department is kept exceptionally busy in an en-

deavor to enlighten these operators in complying with the rules and regulations governing the compiling and filing of tariffs and time schedules.

RAILWAY AND HYDRAULIC ENGINEERING DEPARTMENT RAILWAYS

As heretofore, the Commission's activities in railroad matters, other than rates, have been directed towards the greater safety, comfort and service for the public.

ACCIDENTS

It is a matter of much gratification to note that no serious railway accidents have occurred during the period of this report in the operation of railroads in the state. This is not the result of luck, but due to several very good and substantial reasons, among which are the efforts that have been put forth to secure more careful operation of the railroads by the employees; more substantial roadway construction, as well as better equipment; improvement in the line and grade of track; installation of block signals and protection against floods. Much of this, of course, is due to the natural improvements that may result in any continued service, but it cannot be denied that the supervision that this Commission and the Interstate Commerce Commission exercises over the railroads has contributed much to the results that are now apparent. Reports heretofore have contained accounts of bad accidents, but there are none to report in this.

RAILROAD CROSSINGS

The establishment, abandonment and change in railroad crossings come under the jurisdiction of the Commission. With the great increase in motor traffic, grade crossings provide places of great danger to this traffic. During the year 1928, 46 accidents at crossings have occurred as compared with 77 accidents during the previous year. Twenty-seven persons were killed as compared with 30 the previous year, and 47 were injured as compared with 64 the previous year. This shows considerable reduction in fatalities at grade crossings over the previous year, but still the results are matters of much concern. The Commission has continued to exercise great care in the establishment of new crossings. During the year 1928, 9 grade crossing applications have been considered and 5 were granted. Six grade crossings have been replaced or abandoned by change in line of highway or by a separation of grade so that there has been an actual decrease of one in grade crossings during the year 1928. This is an unusual record. The entire solution of the grade crossing accidents would be in the separation of grades at the crossing. This, of course, is impracticable but much progress is being made in this line by the Highway Department in the relocation of the main highways or by a separation of grades where the old highways are improved. The

main travel being on these highways, the actual dangers at grade crossings are being reduced by this policy.

A general order of the Commission requires all common carrier trucks and busses to come to a full stop and drivers thereof to see that it is safe to pass over a grade crossing. The Commission has further strengthened the enforcement of this rule by having a "STOP" sign for common carriers placed at all grade crossings used by motor vehicle common carriers. The result of this order shows that no accident has happened to any common carrier motor vehicle during the past year, and when it is considered that not one accident has happened to the thousands of cars operated by the 236 common carrier companies or individuals operating by the authority of this Commission, it is conclusive proof that if all motor vehicles were required to stop and see that crossing is clear before crossing it, there would be no accidents if the requirement should be strictly observed as is done by the common carriers. A law requiring all motor vehicles to stop at grade crossings before crossing the track is badly needed for the further safety of travel at these crossings, and it is hoped that such a law can be enacted by the coming legislature. The Commission has now exhausted its authority in this direction and can, therefore, do no more, although it is positive that this is now the one greatest measure of safety that can be provided at grade crossings.

The Commission has ordered the installation of wig-wag signals at two crossings where it was considered the dangers required them.

NEW CONSTRUCTION

There have only been two instances of new construction during the period of this report. One was the construction of a broad gauge line by the Dodge City and Cimarron Valley Railway, a subsidiary of the Atchison, Topeka and Santa Fe Railway Company, from Manter, Kansas, to Pritchett, Colorado, a distance of 55.81 miles, of which 47.24 miles were in Colorado. The other was the construction of a branch line of the Union Pacific Railroad Company, extending a distance of 2.5 miles in a generally easterly direction in Larimer County from Ripley, Colorado.

IMPROVEMENTS

Railroads have continued to improve their service and note must be made of the great improvements that have been made by The Denver and Rio Grande Western Railroad Company. This company has continued the improvements in its main line, greatly eliminating the heavy curvature, ballasting and improving its roadbed. Much new rail has been laid, replacing the lighter rail with a one-hundred-pound section. Block signals have been installed over most of its mountain main line district and soon all this will be block signaled. Heavy expenditures have been made by this company on its track and equipment and its track now compares very favorably with other first-class railroads.

The application filed by The Denver and Salt Lake Western Railroad Company for the construction of the Dotsero Cut-Off with the Interstate Commerce Commission on December 24, 1924, was heard in Denver by this Commission on September 18 to 21 inclusive, at the request of the Interstate Commerce Commission, and written recommendations have been forwarded to the Interstate Commerce Commission, which decides the case.

On June 27, 1927, M. L. Moauro filed a complaint against the Wolf Creek Railroad Company and The Denver and Salt Lake Railway Company asking for an order of the Commission requiring the Wolf Creek Railroad Company to extend its track to a proposed coal operation on complainant's property which has been the subject of investigation and hearing by the Commission. A decision in the matter was made. The matter is now pending on application for rehearing.

ABANDONMENTS

The Colorado and Southern Railway Company has been authorized to abandon and dismantle numerous side tracks that were installed for the service of coal and metal mines that have now been exhausted, or other industries that have been abandoned. The total of this trackage amounts to 10.39 miles.

WATER UTILITIES

The City of Cripple Creek filed a complaint with the Commission on October 26, 1927, against the Cripple Creek Water Company, alleging that because of the decrease in population and decreased number of buildings in the city there was no longer any use for some thirty fire hydrants, and that rates charged for fire hydrants were excessive as compared with those charged in other cities. After an investigation and hearing in the matter, the Commission decided that the city did not require 35 of the 100 fire hydrants in use but denied the application for a reduction in the rates charged for the hydrants.

INFORMAL COMPLAINTS

Many informal complaints have been filed with the Commission relative to railway and water service. All such have been duly investigated and satisfactory adjustments have been made without any serious difficulties. Among such can be mentioned the complaint of the citizens of Vilas, Colorado, against The Atchison, Topeka and Santa Fe Railway Company, alleging that some station and stockyard facilities were necessary at that place. Satisfactory facilities were granted by the railroad company on the request of the Commission.

A complaint filed by the mayor of Silverton on the condition of the Silverton Branch of The Denver and Rio Grande Western Railroad Company was duly investigated and satisfactory repairs were made to the track.

The town of Aguilar complained as to a bridge structure of The Colorado and Southern Railway Company over an arroyo passing through the town as a cause of flood conditions. This was adjusted by the railroad company agreeing to replace the bridge with another bridge structure that would not offer any obstruction to the flood waters in this arroyo. These are given as examples of many other such complaints that have been adjusted.

RAILROAD ABANDONMENTS

Below is given a statement giving the railway trackage abandoned or taken up in Colorado and nearby states for the past years as shown:

Year	Colorado	Louisiana	Texas
1917	79.00	25.00	92.00
1918	18.05	2.02	34.65
1919	34.55	7.00	48.40
1920	46.00	12.89	13.36
1921	438.42	94.61	124.27
1922	44.70	50.33	28.60
1923	23.86	59.13	9.82
1924	60.42	77.10	65.00
1925	30.89	19.94	6.51
1926	46.57	32.87	35.00
192737	2.00	17.65
1928	11.84	17.64	0
	834.67	400.53	475.26

CROSSING ACCIDENTS IN THE YEARS 1927 AND 1928

Comparative Statement of Accidents for Years 1927 and 1928

Years	Auto		Trucks		Pedestrians		Totals		Acci- dents
	Killed	In- jured	Killed	In- jured	Killed	In- jured	Killed	In- jured	
1927	22	40	4	10	5	0	31	50	69
1928	16	39	5	6	0	0	21	45	45
Differences	-6	-1	+1	-4	-5	0	-10	-5	-24

Insofar as the above statement shows quite a decrease in the number of accidents and the fatalities at grade crossings during the year 1928 over the previous year, the results are very gratifying. Such decreases are concrete evidence of efforts to make conditions safer at these crossings, since if no such efforts had been made, it would have been rational to expect an increase rather than a decrease because of the four per cent increase in the number of motor vehicles. The decreases are largely due to two main causes:

First, the agitation for greater safety at crossings and the physical safeguards that have been added.

Second, the elimination of grade crossings by separation of grades or by relocation of highways.

The results obtained should encourage responsible authorities to still greater efforts along these lines to further reduce casualties at grade crossings which are still so serious as to merit the greatest efforts of all. Elimination of grade crossings is the most important thing that can be done to better conditions, and the next best thing that can be done is to require by law all motor vehicles to come to a full stop at the crossing or have these vehicles pass over the crossing in low-speed gear.

The accidents as reported to the Commission for 1928 are distributed as follows:

Railroads	No. Accidents	Fatalities		Ratio of Accidents to Crossings	Comparative Travel at Average Crossing
		Killed	Injured		
Atchison, Topeka and Santa Fe...13	5	9		1 to 32	Above average
Chicago, Burlington & Quincy... 2	1	2		1 to 270	Average
Chicago, Rock Island & Pacific... 2	0	1		1 to 38	Average
Colorado & Southeastern... 0	0	0		0 to 0	Light
Colorado & Southern... 3	1	2		1 to 207	Average
Colorado & Wyoming... 0	0	0		0 to 0	Light
Colorado-Kansas... 0	0	0		0 to 0	Very light
Crystal River & San Juan... 0	0	0		0 to 0	Very light
Colorado, Wyoming & Eastern... 0	0	0		0 to 0	Light
Denver & Rio Grande Western...13	8	14		1 to 65	Average
Denver & Salt Lake... 1	0	1		1 to 114	Slightly below average
Denver Tramway... 3	3	0		City and Suburban
Great Western... 0	0	0		0 to 0	Average
Midland Terminal... 0	0	0		0 to 0	Average
Missouri Pacific... 0	0	0		0 to 0	Average
Rio Grande Southern... 0	0	0		0 to 0	Light
San Luis Central... 0	0	0		0 to 0	Very light
San Luis Valley Southern... 0	0	0		0 to 0	Very light
Silverton Northern... 0	0	0		0 to 0	Very light
Utah Railway... 0	0	0		0 to 0	Very light
Union Pacific... 8	3	16		1 to 53	Above average
Totals... 45	21	45		1 to 85	Average

It is not assumed that the ratio of the number of accidents to the number of crossings gives an absolutely accurate method of comparison. The topography of the country has something to do with the dangers of crossings as well as the volume of the traffic over the crossing, the rate of speed of trains and other local matters. However, it does have some merit as a means of comparison, as the number of crossings has some relation to density of population and hence volume of travel over them. It also has some relation to mileage of railway, and hence to the comparative points of danger.

Of course, it is not to be inferred that all accidents at crossings are caused by the lack of care on the part of the railroads. On the contrary, the largest part of the accidents at crossings is due to the carelessness of the motor vehicle driver, but where the travel is the greatest there are more of such accidents. Such dangers can only be lessened by making them fool-proof and, doubtless, it is the duty of railroads for humanity's sake, if for

no other reason, to do all in their power to make each crossing as safe as it can be made. Railroads may be able to do some things along this line. A bad location for a crossing might be made safer by getting an adjacent location that would be safer, or grades of approaches might be improved, or the alignment in approach to crossings might be improved on complaint of the railroad company or the attention of parties concerned. In some cases it may be advantageous to install signals properly suited to the situation. Unnecessary crossings should be brought to the attention of the Commission in due manner for abolishment. The education of the people to dangers of crossings has some effect. A hearty and earnest effort of all concerned can do much to further reduce fatalities at crossings. The action of the Interstate Commerce Commission in revoking orders for installation of automatic train control devices on railroads so that they could concentrate their efforts towards the elimination of grade crossings, or provide greater safety otherwise, because of the greater dangers of such, clearly shows the relative importance of dangers incident to railway operation. It is hoped, therefore, that greater efforts will be made toward eliminating dangers at crossings.

INSPECTION DEPARTMENT

The Inspection Department was reorganized in 1927 when Inspectors W. C. Reid and A. H. Samuels began work on February 1 after an absence of two years due to lack of appropriation for this department. On October 15, 1927, the Civil Service Commission appointed Mr. Thos. F. Dillon and Mr. John R. Hamrock as inspectors under H. B. 430. Mr. Dillon assumed his duties October 16, 1927. Mr. Hamrock assumed his duties on April 9, 1928.

Soon after the appointment of Mr. Dillon he reorganized this department, showed initiative and executive ability to such an extent that the Commission made him Chief Motor Vehicle Inspector and gave him charge of this department. This action relieved every department, as the Commission and all employees many times were called upon to handle verbal complaints of stranded passengers due mostly to irresponsible interstate wild-cat bus operators. Mr. Dillon systemized this department and brought order out of chaos. Complaints became fewer from day to day until now they are almost entirely eliminated. The Inspection Department made and reported on 337 investigations during the period of this report.

The Inspection Department has co-operated with the Attorney General and the District Attorney and aided in securing about 25 prosecutions and convictions. Many unlawful operators ceased operation and quit business. About 70 busses and touring cars were seized and not released until they had paid the tax due the state. Many operators were compelled to pay their highway tax and others made to file applications for certificates.

STENOGRAPHIC DEPARTMENT

The very large increase in the volume of work handled by the Commission as a whole has resulted in an unprecedented increase in the work of this department. Each department has grown, especially those dealing with motor vehicle regulation, until it became necessary to augment the stenographic force with an extra stenographer for the heavy months of June, July and August, and in the absence of appropriation by the Legislature for extra help the Commission was forced to pay for this extra service from its General Incidental Fund. Quite an increase in stenographic work has also been made in the Rate, Accounting and Electric Engineer's Departments.

All stenographers, including the Assistant Secretary and the Docket Clerk, regardless of their efficiency, length of service, and knowledge of their work with the Commission, some gained after an experience of over eight years, receive the same salary of \$100.00 per month. The Commission feels that some of these salaries should be increased on a sliding scale, according to duties, responsibility and length of service.

ELECTRIC, GAS, TELEPHONE AND TELEGRAPH ENGINEERING DEPARTMENT

The amount of work in this department has steadily increased throughout the biennial period, most of it developing in connection with electric utilities. This increase in work relates to changes in rates, engineering work brought about by the merging of electric utilities and the formation of new utilities, both gas and electric, and the informal complaints of the patrons of electric, gas, telephone and telegraph utilities. The service of all the above utilities has been extended into new areas. With electric utilities especially, the increase in availability of electricity throughout Colorado has been much greater than in any other two-year period. More customers are served, more classes of service are offered, more suitable types of rates prevail and in many instances a reduction in the cost of electricity has occurred. It is therefore not surprising that the amount of work has been excessive and almost beyond the ability of this department to properly take care of it. This department consists of one Electrical and Gas Engineer, whereas prior to four years ago an engineer and assistant were necessary. That the work has been performed in a fair manner has been due to the facts that:

First, there has not happened to be a big case before the Commission requiring detail engineering investigation such as has been necessary in former years and is likely to occur at any time. It would be next to impossible for the present staff to handle such an investigation in a satisfactory manner for lack of man-power.

Second, the present incumbent of this position as Electrical and Gas Engineer has been able to satisfactorily handle many

rates and complaints not only by his earnest and zealous attention but largely because of his long years of experience and training in such matters. He has been with the Commission for ten years. Otherwise, these could not have been completed without serious delays and much work would not have been completed at all. There are many things connected with the service, records and operations of utilities which should be investigated by this department in order that the Commission have complete knowledge of them. These have been entirely neglected on account of the press of other work.

AUDITING AND STATISTICAL DEPARTMENT

This department consists of a chief accountant and one assistant. The ever-increasing activities of the Commission have likewise affected the duties of this department, while the administration of the provisions of House Bill 430 enacted by the 26th General Assembly, and which became effective July 30, 1927, has increased the work of this department fully one hundred per cent with no consequent provision for additional help to handle same. However, notwithstanding this unusual situation the work of the department has generally moved along in scheduled order, but this was made possible only through intense application and much overtime and several days' assistance each month from the filing clerk.

As of December 31, 1927, there were operating in the State of Colorado and reporting to this Commission the following utilities:

Private Electric Utilities.....	38
Municipal Electric Utilities.....	22
Private Gas Utilities.....	6
Municipal Gas Utilities.....	1
Private Water Utilities.....	23
Municipal Water Utilities.....	88
Private Telephone Utilities.....	49
Private Cable Railroads.....	1
Private Street Railroads.....	8
Switching and Terminal Railways.....	3
Steam Railroads	25
Telegraph Utilities	4
Express Companies	1
Sleeping Car Companies.....	1

Approximately 75 additional municipal utilities operating in the State as of that date did not favor the Commission with a copy of their annual report.

The regular activities of the department may be classified as follows:

1. Examination and verification of all annual reports of utilities operating in the State and reporting to this Commission, together with detail in connection with mailing out blank forms and recording and filing completed reports. These examinations have developed a number of irregularities on the part of smaller utilities in not complying with the provisions of the accounting classifications prescribed by this Commission, and it would appear desirable that the department do some field work in order to bring them into line, since this cannot always be successfully accomplished through correspondence. However, in view of the unusual increase in work from new sources and in other directions, such action must necessarily be held in abeyance until some relief is granted either in the way of additional help or through some other permanent arrangement.

2. Preparation of statistical data for Biennial Reports, the Budget and other financial reports and statements appertaining to this Commission.

3. Audit of books and records of utilities in order to ascertain original cost, capitalization, income, expenditures, operating statistics and rate of return to be used in rate-making cases.

4. Drafting accounting systems and forms of annual reports for utilities. In this connection this department is now confronted with the task of preparing a uniform classification of accounts for use of Motor Vehicle Carriers.

5. Analyzing accounting and statistical exhibits and evidence presented by utilities in rate-making cases.

6. Compiling statistical data from annual reports of utilities operating in Colorado for hearings before the Interstate Commerce Commission, and for state and national boards and bureaus and sundry petitioners for such information.

In addition to its regular duties, during the last biennial period this department has prepared two complete revisions of the Commission's rules and regulations governing Motor Vehicle Carriers and one additional revision of the insurance requirements included therein. Also the 1923-1924 and 1925-1926 biennial reports of the Commission were prepared in this department in their entirety.

The added duties resulting from the administration of House Bill 430 are as follows:

1. Receipt and verification of Motor Vehicle Carriers' monthly reports of passengers carried and freight and express hauled; determination of tax applicable thereto; rendering statements of tax due and accounting for collection of same and numerous detail operations in connection therewith.

2. Receipt, examination and filing of public liability, property damage and cargo insurance policies, and indemnity bonds filed by Motor Vehicle Carriers.

3. Receipt, examination and verification of annual reports filed by Motor Vehicle Carriers.

As of November 30, 1928, there were reporting to this Commission 240 Motor Vehicle Carriers operating under certificates from the Commission and 34 carriers operating without certificates. The tax assessed and collected under the provisions of House Bill 430 from the date same became effective to November 30, 1928, is as follows:

Month	Assessed	Collected
August, 1927	\$ 8,599.55	\$ 8,435.19
September	6,204.05	6,022.71
October	5,070.77	4,912.55
November	4,790.42	4,618.64
December	4,162.89	4,115.31
January, 1928	4,182.91	4,171.37
February	3,758.37	3,744.31
March	4,167.11	4,147.86
April	4,468.04	4,426.21
May	4,933.89	4,911.98
June	6,742.55	6,635.40
July	8,787.76	8,706.01
August	9,809.15	9,549.23
September	6,897.17	6,531.68
*October	5,704.60	688.04
†November71	.71
Total	\$88,299.94	\$81,617.20

*October tax not due until December 10, 1928.

†November reports not due until Dec. 10, 1928, and tax due Jan. 10, 1929

Our collections have averaged better than 99 per cent of the amount assessed and practically the entire amount past due and not collected is assessed against carriers who went out of business before we had an opportunity to make collection.

In this connection it is our opinion that these assessments and collections could be increased from 10 to 25 per cent through field work in the way of checking over carriers' accounts and reports, and it is earnestly urged that some provision be made for additional help in order that this feature of the work may be accomplished.

Since the abolishment of the P. U. C. Special Fund through action of the last General Assembly, the Commission has paid into the treasury of the State to the credit of the General Fund, special collections as follows:

Balance in fund July 8, 1927.....	\$1,971.36
Remitted—July, 1927	693.80
August	242.75
September	133.45
October	222.98
November	224.20
December	208.15
January, 1928	361.35
February	318.55
March	1,118.50
April	371.70
May	682.74
June	285.85
July	614.10
August	229.40
September	287.50
October	483.55
November	625.20
 Total.....	 \$9,075.13

The total expense of the Commission to the State for the biennial period ended November 30, 1928, was as follows:

	Appropriation	Disbursements	Balance Unexpended
3 Commissioners	\$ 24,000.00	\$23,999.88	\$.12
1 Secretary	5,000.00	4,999.96	.04
1 Rate Expert	4,200.00	4,200.00
1 Attorney	4,000.00	4,000.00
1 Auditor and Statistician..	5,000.00	4,999.96	.04
1 Asst. Aud. and Statistician	3,600.00	3,600.00
1 Elec. Gas and Tel. Eng....	5,000.00	4,999.96	.04
1 Ry. and Hydraulic Eng....	5,000.00	4,999.96	.04
1 Asst. Ry. and Hyd. Eng....	3,600.00	3,600.00
1 Reporter	4,200.00	4,200.00
4 Inspectors	14,400.00	10,944.25	3,455.75
1 Filing Clerk	2,400.00	1,600.00	800.00
5 Stenographers	12,000.00	10,454.68	1,545.32
Traveling expense	6,000.00	5,504.57	495.43
Traveling exp. (H. B. 430)	2,000.00	1,322.38	677.62
General and Incidental Exp.	8,000.00	7,382.34	617.66
	<hr/>	<hr/>	<hr/>
	\$108,400.00	\$96,807.94	\$11,592.06
P. U. C. Special Fund	* 4,163.55	2,192.19	† 1,971.36
	<hr/>	<hr/>	<hr/>
Grand Total	\$112,563.55	\$99,000.13	\$13,563.42

*Includes balance of \$2,541.05 as of December 1, 1926.

†Balance transferred to State General Fund July 8, 1927.

For the previous biennial period total appropriations were \$83,628.22 and total disbursements \$79,028.54, including \$3,928.22 and \$1,387.17 respectively, account P. U. C. Special Fund.

The increase over the previous period is accounted for as follows: Appropriation for one attorney, reinstatement of two inspectors, appropriation for one stenographer formerly paid out of P. U. C. Special Fund, \$3,000.00 increased appropriation for general and incidental expense, and the following authorizations for the administration of House Bill 430; two inspectors, one file clerk, one stenographer and \$2,000.00 traveling expense.

REGULATION OF AIR CARRIERS

One activity of the Commission not heretofore reported and which developed in 1928 is the regulation of common carriers by air. On September 8, 1928, U. S. Airways, Inc., filed its application for a certificate of public convenience and necessity to operate an airplane line for the transportation of passengers and express between Denver, Colorado, and Kansas City, Missouri. Hearing was held September 21 and an order issued October 2 granting a certificate. On October 31, 1928, The Colorado Airways, Inc., filed its application for a certificate of public convenience and necessity to operate airplane service for the transportation of passengers, freight and express in and about Denver and Colorado points. This application is now pending.

In the determination of applications of airplane common carriers the Commission has acted in conjunction with the "Colorado Commission of Aeronautics" created by the 26th General Assembly and known as Chapter 64, Session Laws of 1927.

CONCLUSION

The Commission has earnestly endeavored to live up to its full responsibility in both State and National affairs, and, notwithstanding the decrease in force and the increased activities as reported herein, the work of the Commission has generally moved along in regular and scheduled order, but this has been made possible only through the increased effort and intense application and loyalty of every member of the staff.

Very respectfully submitted,

THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF COLORADO
OTTO BOCK,

Chairman.

DANIEL S. JONES,
WORTH ALLEN,
Commissioners.

Attest:

JOHN W. FLINTHAM,
Secretary.

**FORMAL CASES DISPOSED OF FROM DECEMBER 1, 1926,
TO DECEMBER 1, 1928**

Case No. 84

ACTION INSTITUTED BY THE COMMISSION. Re Rules regulating Water, Gas and Electric service.

Supplemental Order issued October 8, 1927. Revised rule No. 18. Heating value of gas.

Case No. 234

INVESTIGATION INITIATED BY THE COMMISSION. Re Amendment to rules regulating the service of gas, electric and water utilities.

Order issued December 5, 1927, dismissing case.

Case No. 272

THE PIKES PEAK CONSOLIDATED FUEL COMPANY vs. THE DENVER AND RIO GRANDE WESTERN RAILROAD COMPANY, et al. Alleged unreasonable rate on coal from Pikeview to Pueblo, Colorado. On defendant's motion for leave to file the second application for rehearing.

Order issued July 14, 1927, denying motion.

Case No. 283

C. H. WILLIAMS & SON vs. FRANK A. HART AND OSCAR BOWMAN. Revoke certificate.

Order issued May 31, 1928, dismissing case.

Case No. 284

C. H. WILLIAMS & SON vs. OTIS WILKERSON AND E. J. MERRIMAN. Operating without a certificate.

Order issued May 31, 1928, dismissing case.

Case No. 286

OVERLAND MOTOR EXPRESS COMPANY vs. GREEN TRANSFER COMPANY. Petition to revoke certificate.

Order issued January 13, 1927, dismissing case.

Case No. 288

J. R. GORDON et al. vs. THE ATCHISON, TOPEKA AND SANTA FE RAILWAY COMPANY. Inadequate train service.

Order issued October 27, 1928, dismissing case without prejudice.

Case No. 289

THE WILEY COMMERCIAL CLUB AND THE HOLLY CHAMBER OF COMMERCE vs. THE ATCHISON, TOPEKA AND SANTA FE RAILWAY COMPANY. Inadequate train service.

Order issued October 27, 1928, dismissing case without prejudice.

Case No. 293

THE LOVELAND BRICK, TILE AND CLAY PRODUCTS COMPANY vs. THE COLORADO AND SOUTHERN RAILWAY COMPANY, CHICAGO, BURLINGTON & QUINCY RAILROAD COMPANY AND UNION PACIFIC RAILROAD COMPANY. Discrimination.

Order issued February 28, 1927, dismissing case.

Case No. 296

THE COLO. & NEW MEXICO COAL OPERATORS ASS'N. vs. A. T. & S. F. RY. CO., C. B. & Q. R. R. CO., C. R. I. & P. RY. CO., C. & S. RY. CO., D. & R. G. W. R. R. CO., U. P. R. R. CO. Discrimination.

Order issued May 31, 1928, prescribing certain rates.

Order issued October 2, 1928, requiring defendants to put into effect on or before November 10, 1928, the rates prescribed by the Commission in its order issued May 31, 1928, Decision No. 1808, except the rates to Limon, Colorado, also denying petition for rehearing.

Case No. 299

H. D. DAVIS vs. LESTER A. BUSEY. Operating auto truck line without a certificate.

Order issued July 7, 1927, dismissing case without prejudice.

Case No. 300

TOWN OF SILVERTON, COLORADO, vs. D. & R. G. W. R. R. CO. Petition to restore through passenger service Durango to Silverton.

Order issued November 25, 1927, dismissing case without prejudice.

Case No. 301

McKIE TRANSFER CO. vs. LONGMONT MOTOR EXPRESS. Operating truck line without a certificate.

Order issued May 31, 1928, dismissing case.

Case No. 304

LESTER AUGUSTUS vs. L. S. THIEL et al. Operating without a certificate.

Order issued June 15, 1927, dismissing case.

Case No. 305

WESTERN SLOPE MOTOR WAY, INC. vs. L. E. BUSEY. Operating without a certificate.

Order issued July 7, 1927, dismissing case without prejudice.

Case No. 306

A. T. & S. F. RY. CO., C. & S. RY. CO., D. & R. G. W. R. R. CO. vs. WHITE MOTOR EXPRESS CO. Petition for revocation of certificate.

Order issued July 25, 1927, denying petition.

Case No. 307

FRANK G. BYERS vs. N. R. CARVER. Reckless driving of motor bus.

Order issued January 13, 1927, dismissing case.

Case No. 308

TOWN OF DOLORES, COLORADO, vs. A. A. RUST. Request for investigation of physical plant, operation and service of electric plant at Dolores.

Order issued May 8, 1928, dismissing case.

Case No. 309

PRESSEY FRUIT CO. vs. A. T. & S. F. RY. CO. and D. & R. G. W. R. R. CO. Unreasonable rates on fruit in Colorado and reparation in sum of \$210.37.

Order issued January 5, 1928, granting refund.

Case No. 310

R. M. VAN DEUSEN et al. vs. DENVER & INTERMOUNTAIN R. R. CO. Constructing a switch across Lamar Street in Jefferson County.

Order issued May 31, 1928, dismissing case.

Case No. 311

CITY OF BOULDER, COLORADO vs. DENVER & INTER-URBAN RAILROAD CO. AND WM. H. EDMUNDS, RECEIVER. Order defendant to continue service.

Order issued May 31, 1928, dismissing case.

Case No. 312

TOWN OF LOUISVILLE, COLORADO, vs. DENVER & INTERURBAN R. R. CO. AND WM. H. EDMUNDS, RECEIVER.
Order defendant to continue service.

Order issued May 31, 1928, dismissing case.

Case No. 313

ROY DAVIS et al. vs. LA JARA ELECTRIC CO. Unreasonable electric rates.

Order issued February 6, 1928, dismissing case.

Case No. 315

CLEAR CREEK POWER & DEVELOPMENT CO. vs. PUBLIC SERVICE CO. OF COLORADO. To prohibit further construction or extension of transmission lines in Empire and vicinity.

Order issued June 24, 1927, overruling objection made by plaintiff as to the jurisdiction of the Commission.

Order issued September 20, 1927, dismissing case.

Case No. 316

CADILLAC SIGHT SEEING CO. et al. vs. ANTLERS LIVERY AND TAXICAB CO. et al. Alleged unfair rates.

Order issued July 25, 1927, continuing case for further hearing.

Order issued December 3, 1927, dismissing case.

Case No. 317

WESTERN SLOPE MOTOR WAY, INC., vs. J. A. DIXON. Operating without a certificate.

Order issued July 7, 1927, restraining operation.

Case No. 318

D. & R. G. W. R. R. CO. vs. J. T. TEASLING. Operating without a certificate.

Order issued July 7, 1927, restraining operation.

Case No. 319

COMMERCIAL CLUB OF THE CITY OF LAS ANIMAS, COLORADO, vs. A. T. & S. F. RY. CO. Time table unreasonable.

Combined with I. and S. No. 93.

Case No. 323

JAMES L. PINKUS AND F. M. PINKUS vs. SAM REDMAN. Discrimination.

Order issued April 4, 1928, dismissing case.

Case No. 325

DENVER & INTERMOUNTAIN R. R. CO. vs. M. B. SWENA. Operating truck line between Denver and Golden, Colorado, without a certificate.

Order issued February 23, 1928, to cease and desist operating

Order issued September 11, 1928, to show cause within 10 days why fine should not be imposed for violating the law.

Case No. 327

PIKES PEAK FUEL CO. vs. D. & R. G. W. R. R. CO. Increase in coal rates from Pikeview to Pueblo, Colorado.

Transferred to I. and S. No. 94.

Case No. 329

A. E. BIVENS AND GIO OBERTO vs. JOHN GRAY et al. Operating without a certificate.

Order issued August 24, 1928, to defendants to cease and desist operating as motor vehicle common carriers.

Case No. 330

CITY OF CRIPPLE CREEK, COLO., vs. THE CRIPPLE CREEK WATER CO. Rates and charges for hydrant rental.

Order issued August 27, 1928, relieving the City from using and making payments of rental on 35 hydrants, but denying a reduction in rates on remaining hydrants.

Case No. 331

WELD COUNTY COMMISSIONERS vs. J. E. CLAYBURG. Operating without a certificate.

Order issued January 7, 1928, dismissing case for want of jurisdiction.

Case No. 332

WELD COUNTY COMMISSIONERS vs. S. L. LEACH. Operating without a certificate.

Order issued February 27, 1928, to cease and desist operating.

Case No. 333

WELD COUNTY COMMISSIONERS vs. N. J. SOUTHARD.
Operating without a certificate.

Order issued January 4, 1928, to cease and desist operation and to pay all due and unpaid taxes within 10 days.

Case No. 334

WELD COUNTY COMMISSIONERS vs. A. T. BURBRIDGE
AND THE WESTERN TRANSPORTATION CO. Operating
without a certificate.

Order issued January 4, 1928, to cease and desist operating unless and until lawfully authorized and without prejudice to the rights of the defendant in an action in the nature of certiorari now pending and to pay all due and unpaid taxes within 10 days.

Case No. 335

WELD COUNTY COMMISSIONERS vs. H. LEACH AND
THE GREELEY EXPRESS. Operating without a certificate.

Order issued January 4, 1928, to cease and desist operation and to pay all due and unpaid taxes within 10 days.

Case No. 336

WELD COUNTY COMMISSIONERS vs. F. PLESS AND W.
DAVIS AND PLESS & DAVIS. Operating without a certificate.

Order issued January 7, 1928, to cease and desist operating as motor vehicle carrier and to pay all due and unpaid taxes within 10 days.

Case No. 337

WELD COUNTY COMMISSIONERS vs. C. H. CAPRON
AND THE CAPRON TRUCK LINE. Operating without a certificate.

Order issued January 4, 1928, dismissing case.

Case No. 338

WELD COUNTY COMMISSIONERS vs. E. V. MORRISON
AND THE WINDSOR TRUCK LINE. Operating without a certificate.

Order issued January 4, 1928, to cease and desist operation and to pay all due and unpaid taxes within 10 days.

Case No. 339

WELD COUNTY COMMISSIONERS vs. N. J. FITZMORRIS
AND THE FITZMORRIS TRANSPORTATION CO. Operating
without a certificate.

Order issued January 4, 1928, to cease and desist operation and to pay all unpaid taxes within 10 days.

Case No. 341

PUBLIC SERVICE CO. OF COLORADO vs. CITY OF LONGMONT, COLORADO. Complaint against construction of a proposed extension of the city's electric service north of Loveland until certificate, etc., be issued.

Order issued February 6, 1928, sustaining complaint.

Manager of Paradox Lines advises busses tied up by storm.

Complaint No. 1624 May 16, 1928

J. P. DUNLAVY, TRINIDAD, vs. TRINIDAD ELECTRIC TRANSMISSION RAILWAY AND GAS COMPANY. Cost of electric light connection.

Cost in accordance with schedule on file. Complainant advised to file formal complaint if further action is desired.

Complaint No. 1625 September 29, 1927

EVERGREEN TRANSFER COMPANY, DENVER, vs. M. F. THOMAS. Violation of tariff.

Claim made that violation of tariff was unintentional.

Complaint No. 1626 March 10, 1928

MRS. W. R. MILLIGAN, LITTLETON, vs. COLORADO CENTRAL POWER COMPANY. Increase in light bill.

Matter adjusted satisfactorily.

Complaint No. 1627 May 31, 1928

F. W. BURHORN, DENVER, vs. EVERGREEN PUBLIC SERVICE COMPANY. Controversy over bill.

Items included in bill over which the Commission has no jurisdiction.

Complaint No. 1628 June 6, 1928

E. G. OTLINGER, PLATTEVILLE, vs. COLORADO CENTRAL POWER COMPANY. Meter deposit. Transferred to Case No. 368.

Complaint No. 1629 June 23, 1928

A. MARTENS, OAK CREEK, vs. COLORADO UTILITIES CORPORATION. Hazard account low-hanging electric transmission lines.

Transferred to Case No. 390.

Complaint No. 1630 July 6, 1928

WOODLAWN IMPROVEMENT & PROTECTIVE ASSOCIATION, LITTLETON, vs. COMMONWEALTH LAND COMPANY. Inadequate water supply.

Matter investigated. Supply sufficient at present.

Complaint No. 1631 May 15, 1928

E. AFFOLTER, LOUISVILLE, vs. PUBLIC SERVICE COMPANY OF COLORADO. Inaccuracy of meter.

Matter adjusted.

Complaint No. 1632 July 9, 1928

W. O. ROBERTS, BEDROCK, vs. RIO GRANDE SOUTHERN RAILROAD COMPANY AND PLACERVILLE PARADOX STAGES. Failure to deliver washing machine.

Error in bill of lading.

Complaint No. 1633 June 29, 1928

J. M. BELISLE, OPIHIR, vs. WESTERN COLORADO POWER COMPANY. Deposit and service.

Unfair treatment not shown.

Complaint No. 1634 August 3, 1928

BLAYNEY-MURPHY COMPANY, DENVER, vs. COLORADO RAPID TRANSIT COMPANY. Refusal of shipment.

Transit company advises shipment arrived at dock too late.

Complaint No. 1635 August 11, 1928

PAIST TRAFFIC BUREAU, INC., DENVER, vs. SOUTHEAST TRANSPORTATION COMPANY. Loss and damage claim.

Matter taken up with transportation officials.

Complaint No. 1636 August 10, 1928

STANLEY FRUIT COMPANY, AVON, vs. THE DENVER AND RIO GRANDE WESTERN RAILROAD COMPANY. Delay in furnishing refrigerator car.

Order received after local train had passed.

Complaint No. 1637

June 18, 1928

L. C. SUMMERS ET AL., RED CLIFF, vs. THE DENVER AND RIO GRANDE WESTERN RAILROAD COMPANY. Lack of service at station.

Railroad advises passenger revenue at Redcliff does not necessitate additional station help.

Complaint No. 1638

August 14, 1928

MARIE E. HORMAN, AGENT, MANITOU, vs. WILLIAM IRVINE, P. U. C. No. 119. Commission demanded.

Matter taken up with bus operator.

Complaint No. 1639

August 22, 1928

H. PATTERSON, GRAND JUNCTION, vs. PUBLIC SERVICE COMPANY OF COLORADO. Unfair treatment in regard to rates.

Matter adjusted. Settlement made.

Complaint No. 1640

August 22, 1928

L. C. GERTREN, DENVER, vs. THE MOUNTAIN STATES TELEPHONE AND TELEGRAPH COMPANY. Charge in restoring telephone service.

Matter adjusted satisfactorily.

Complaint No. 1641

August 22, 1928

H. E. PENENBONE, DENVER, vs. THE MOUNTAIN STATES TELEPHONE AND TELEGRAPH COMPANY. Consumer's deposit charge.

No cause for complaint.

Complaint No. 1642

September 15, 1928

H. H. McNASSOR, ARVADA, vs. ARVADA ELECTRIC COMPANY. Proposed change in rates.

Rates adjusted satisfactorily.

Complaint No. 1643

September 16, 1928

CARRIE M. BURLINGAME, RANGELY, vs. HARP BROTHERS. Failure to deliver trunk.

Carrier advises address obliterated.

Complaint No. 1644

September 25, 1928

W. E. KIRKBRIDE, EDGEWATER, vs. PUBLIC SERVICE COMPANY OF COLORADO. Extension policy.

Matter adjusted satisfactorily.

Complaint No. 1645

October 4, 1928

OVERLAND MOTOR EXPRESS COMPANY, BOULDER, vs. DENVER AND LOVELAND TRANSPORTATION COMPANY. Operating as contract carrier and cutting rates.

Manager of Denver and Loveland Transportation Company denies that any of his trucks were at any time used in Boulder.

Complaint No. 1646

October 12, 1928

A. R. LONGMAN, COLORADO SPRINGS, vs. COLORADO SPRINGS MUNICIPAL ELECTRIC PLANT. Poor service.

Service improved.

Complaint No. 1647

October 29, 1928

M. E. GRAHAM, RIFLE, vs. RIFLE CREEK TELEPHONE COMPANY. Poor service.

No jurisdiction. Not a public utility.

Complaint No. 1648

October 29, 1928

F. PAYNE, WHEATRIDGE, vs. MOUNTAIN STATES TELEPHONE AND TELEGRAPH COMPANY. Unreasonable rates.

Rates in accordance with schedule on file. New type of rates suggested.

Complaint No. 1649

November 7, 1928

E. C. CROCKER, RICO, vs. WESTERN COLORADO POWER COMPANY. No discount on bill. Protest against prepayment meter.

Refund made. Use of prepayment meter justified.

Complaint No. 1650

November 7, 1928

UNION PACIFIC RAILROAD COMPANY, OMAHA, NEBRASKA, vs. H. SCHULZ. Failure to stop bus at railroad crossing.

Bus operator notified.

Complaint No. 1651 November 13, 1928

G. C. BRADLEY, ARVADA, vs. MOUNTAIN STATES TELEPHONE & TELEGRAPH COMPANY. Unreasonable rates.

Matter adjusted satisfactorily.

Complaint No. 1652 November 15, 1928

C. W. WHITE, DENVER, vs. PUBLIC SERVICE COMPANY OF COLORADO. Line extension construction cost.

Cost strictly in accordance with company's extension policy.

Complaint No. 1653 November 22, 1928

F. W. BURNHAM, DENVER, vs. PUBLIC SERVICE COMPANY OF COLORADO. Sudden and material increase in electric bill.

Proper adjustment made.

Complaint No. 1654 November 22, 1928

BRADY BROTHERS, MANASSA, vs. PUBLIC SERVICE COMPANY OF COLORADO. Excessive electric power rate.

Company advises new retail power rate will be filed.

Complaint No. 1655 November 24, 1928

MRS. L. OAKES, DENVER, vs. PUBLIC SERVICE COMPANY OF COLORADO. Disconnecting of electric service.

Matter adjusted. Service connected.
