

MESSAGE FROM THE DIRECTOR

During 2011, the Division finalized rules and internal control procedures that allowed casinos to implement

electronic promotional credit systems (EPCS) beginning in January 2012. Casinos can now download promotional credits from either player club accounts or other promotional accounts to slot machines for play by their patrons. Other regulatory reform efforts in 2012 included rule changes that allow casinos to use noncashable chips for table games play, which have been implemented.

The Division of Gaming worked in conjunction with the industry on the research, analysis, rules and Internal Control Minimum Procedures (ICMP) to allow delayed and offline tickets. The allowance of delayed and offline tickets will benefit the industry by permitting more than one ticket to be printed in the event of a minor communication break between the slot machine and the ticketing system. The information is stored in the slot machine and when communication is restored the ticket information is sent to the ticketing system. This will allow the industry increased efficiency in using the built-in features of the system. A rules workshop was held on March 19, 2013 to finalize the rule draft for presentation to the Commission. Once the rules are approved and the ICMP are effective the industry can begin the implementation and use of this functionality.
