EXECUTIVE DIRECTOR

REPORT OF THE EXECUTIVE DIRECTOR

This is the 1979-80 Annual Report of the Colorado Department of Revenue, the 39th such report submitted in fulfillment of the requirements of Section 24-35-102, C.R.S. 1973.

As described in recent Annual Reports, emphasis continues to be placed on the three principal goals of the Department; to increase compliance with all the statutes for which the Department is held responsible, to improve equity so that fairness of the system may be enhanced, and to improve efficiency of production.

Although a vital performance indicator, the extent of tax compliance often is difficult to assess. Tax Administrators everywhere are concerned about "the underground economy"; the economic system created primarily to evade taxation. Also, the "Tax Protest" movement remains a national issue. But in Colorado, there is little evidence of widespread tax evasion or of a strong tax protest movement. Because taxation is essentially a voluntary system, tax compliance is related to public acceptance of both the methodology of tax collection and the use of tax funds. In Colorado, the methodology is fair and the use of funds is generally perceived as reasonable.

One of the steps that the Department of Revenue has taken to encourage tax compliance is the promulgation of a "Statement of Philosophy"; a document setting out in writing the rules of conduct for all Departmental employees (the Statement of Philosophy appears in its entirety immediately following the Executive Director's Report). Also the Department has encouraged the General Assembly to simplify existing tax statutes. The Report of the "Tax Simplification Study Group" contains recommendations for reducing the tax return preparation burden, as well as recommendations for reducing administrative processing steps. Simplification and compliance are closely related. These issues were addressed this summer by the Interim Finance Committee of the General Assembly and several important legislative proposals were voted out of committee for consideration at the 1981 General Assembly session. The Department hopes that these tax simplification measures will be enacted into law. In addition to the "Statement of Philosophy" and the "Tax Simplification" efforts, and Department continues to place high priority on the auditing program, on Collection and Enforcement efforts and on the activities of the Multistate Tax Compact.

Tax equity issues were dealt with to a limited extent by the General Assembly this year. The 1980 "Tax Package" was aimed at tax relief rather than tax equity per se, and provided adjustments in tax burdens to many different taxpayers (see the Legislative Digest in this report for a detailed review of tax legislation passed at the 1980 General Assembly session). In addition, the Legislature provided funds to prepare a current analysis of the economic and demographic characteristics of those who pay the individual income tax. This Tax Profile will be presented to the General Assembly early in 1981, will provide the data necessary to evaluate the State's tax equity situation, and perhaps will encourage Legislative action.

The Department places great emphasis on efficiency. As a result, the cost of collections, a general indicator of efficiency, continues to decrease. This year, the Department made major changes in tax processing and in cash management; in both cases increasing the speed of the operating systems.

The Department has undergone a major reorganization since last year. The Organization Chart on page 13 shows the new structure. Additional emphasis is placed on Data Processing, Operations and Taxpayer Service. Those areas now are at the Division level, the concept being that much of the long-range success of the Department is tied to effective performance in those three areas.

The Report contains a great deal of information, in the taxation field as well as in the other areas of Departmental responsibility. The reader is encouraged to carefully study this Report. It is an interesting and useful document.

### STATEMENT OF PHILOSOPHY COLORADO DEPARTMENT OF REVENUE

The Colorado Department of Revenue (the "Department") is responsible for the collection, administration and enforcement of state taxes in accordance with the United States and Colorado Constitutions and the laws passed by the Colorado General Assembly.

The foundation for effective collection of taxes for the State of Colorado is the voluntary compliance system. Therefore, the function of the Department is to encourage and achieve the highest possible degree of voluntary compliance with the tax laws and to conduct itself as to warrant the highest degree of public confidence in its integrity and efficiency. Tax laws must be administered in a fair, reasonable, and prompt manner.

In order for the Department to carry out its functions in accordance with the philosophical guidelines stated above, the Department is committed to the best of its ability, to do the following:

- -- Insure that all taxpayers pay their lawful share of taxes.
- -- Determine the extent of compliance and direct the energy and resources of the Department to the reasons for non-compliance. The Department should be rigorous in requiring compliance with law and should be relentless in its attack on illegal tax devices and fraud.
- -- Perform audits and make adjustments in a prompt and fair manner, with no favoritism or discrimination among taxpayers.
- -- Educate the public on important tax provisions fairly and vigorously, without regard to whether any particular provision is one which raises or reduces revenue for the state.
- -- Insure that overpayments and refunds are made promptly and with the same emphasis as collections, assessments, and penalties.
- -- Seek only that information from taxpayers necessary for fair administration and enforcement, and maintain confidentiality of all information as required by statute.
- -- Prepare regulations promptly in a simple, straightforward manner that is consistent with the intent of the law and enhances voluntary compliance.
- -- Make assessments and adjustments in accordance with law and Department regulations and procedures. In no event should any assessment or adjustment be made solely on the theory that the assessment involved is so small that the taxpayer will not bother to protest.

Every employee of the Department plays a crucial role in creating a public attitude toward the Department. Employees should understand the importance of

conducting themselves in a fair and courteous manner, and in a way that will aid in the attainment of the philosophy set forth herein.

In order to help attain the goals set forth herein, the Department adopts the philosophy set forth in the IRS's "Statement of Principles of Internal Revenue Administration," attached as Exhibit A.

Adopted this 22nd day of September, 1980.

EXHIBIT A

STATEMENT OF PRINCIPLES OF INTERNAL REVENUE TAX ADMINISTRATION

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he is "protecting the revenue". The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Provides that, beginning January 1, 1982, motor vehicles of the model years 1968 through 1982 which are registered in certain front-range counties must be inspected annually. Provides that those vehicles which do not meet the applicable emissions standards must be adjusted as provided in commission regulations and reinspected after the adjustments are made. Provides that, beginning July 1, 1982, motor vehicles of the model year 1981 or a later model year which do not meet the applicable emissions standards shall be issued a certificate of emissions adjustment if not less than \$100, in addition to the cost of adjustments specified in the commission's regulations, has been expended for the reduction of exhaust emissions from the vehicle. Provides that on July 1 of each subsequent year one additional motor vehicle model year is to be included in the program. Requires a visual inspection of emissions control equipment as a part of the inspection and provides that if such equipment has been tampered with or removed that it must be repaired or replaced.

Provides that the commission is to develop and adopt emissions standards which are designed so that not less than 60% of the motor vehicles of the model years 1968 through 1974 which are required to be inspected meet such standards at the time of the first inspection and so that not less than 70% of the motor vehicles of the model years 1975 or later model years which are required to be inspected meet such standards at the time of the first inspection.

Requires the commission to continuously evaluate the program and to report annually to the general assembly on its evaluation. Requires the commission to monitor and analyze ambient air quality. Requires the commission to determine the number of motor vehicles which fail the retest after the required adjustments are made and, if a significant number of vehicles do fail the retest, requires the commission to recommend changes to improve the air pollution control-effectiveness of the program. Requires the commission to assess the methods of controlling or reducing emissions from motor vehicles equipped with newly developed emissions control systems and, if necessary for such vehicles, to develop procedures which require the replacement of inoperative or malfunctioning emissions control equipment. Requires the commission to develop a compilation of approved high altitude modifications or adjustments for motor vehicles.

Requires the executive director of the department of health to establish an information system concerning the program, to administer mechanic licensing examinations, to operate necessary technical centers, and to conduct a study of diesel emissions. Requires the

department of revenue to calibrate inspection station analyzers at least once every 60 days and to evaluate each inspection station through the use of unmarked vehicles at least once each year.

Provides that the fee charged for the emissions inspection shall be as posted by the station, which shall not exceed \$10. Provides that the fee for the adjustments required by commission regulations shall be as posted by the station, which shall not exceed \$15. Provides that the license fee for an inspection station shall be \$25, with a renewal fee of \$10. Provides that the license fee for an emissions mechanic shall be \$10, with an annual renewal fee of \$5.

Provides for termination of the program on January 1, 1988. Provides that the program shall not be deemed to interfere with the enforcement of any motor vehicle part warranty. Provides civil penalties for making, issuing, or knowingly using a counterfeit certification of emissions control and for issuing a certification of emissions control for a motor vehicle which does not qualify for the certification issued.

Repeals the income tax deduction for the fee paid for a required emissions inspection. Repeals the requirement that school districts report annually concerning actions taken to reduce emissions from vehicles used for the transportation of pupils.

The statutory rates are those as shown. However, a reduction in the tax is in effect in the form of a tax credit which is equal to 1/200 of net taxable income not in excess of \$9,000. The effect of this credit is to lower certain statutory percentages by 1/2 of 1%. The tax brackets are indexed for inflation and are adjusted each year by 106% or as determined by the general assembly. Each year the inflation factor will be applied to the amounts derived for the prior year so that the effect will be cumulative. The inflation factor for 1978 is 106%; 1979 is 107%; cumulative, 113.42%.

#### 1979 SURTAX

The surtax is imposed on the Colorado gross income which consists of dividends and interest of natural persons who are residents of Colorado at the rate of 2% upon such income which exceeds \$15,000 per taxpayer.

#### CORPORATION INCOME TAX RATES

Corporations are taxable at the rate of 5% applied to net income derived from Colorado sources. An alternative tax computation of 1/2 of 1% of gross receipts is available to any corporation (1) whose annual gross sales amount to not more than \$100,000 and (2) whose corporation does not own or rent real estate within Colorado.
