GOVERNOR

REPORT OF THE EXECUTIVE DIRECTOR

This 1981-82 Annual Report is the forty-first report submitted in fulfillment of the requirements of 24-35-102(3) CRS 1973 to inform the Governor and the General Assembly of "the efficient discharge of all responsibilities assigned by law or directive". Many other Departments, Divisions, and Agencies of the State also are required to submit annual reports. To a certain extent, these reports may be viewed as purely ceremonial and hence, unnecessary. After all, the current level of gubernatorial, legislative, public and media review goes much deeper than this Report.

For that reason, this Report differs somewhat from others. This Report is designed to be less a summary of the Department's activities of the last year and more of a working research document. The statistical tables are the heart of the Report.

As far as summarizing the Department's activities are concerned, I am pleased to report that 1981-82 was a successful year. All assigned duties were accomplished. The Department was extremely successful in several important areas. Taxpayer Service is now a significant contributor to the overall operation of the Department. Even with static staffing levels, more tax service is being provided than ever before.

The processing of individual income tax returns was accomplished faster and more accurately than in the prior year. 1981's H.B. 1219 required the State to pay penalty and interest on refunds not processed within 45 days (60 days after April 1). The Department's response was excellent. Only a handful of returns exceeded the time limit and only insignificant late payments needed to be made.

Cash management continues to be a high priority of the Department. Performance has improved in each of four successive years. Modern alternative systems are being studied which may improve the cash deposit system even further.

The Department becomes more automated every year; part of the long-range plan for dealing with increased workload without increased staffing. Also, data processing permits the Department to meet the ever increasing public expectation toward service, accuracy, and timeliness. Each of the Divisions of the Department has become sensitive to and extensive users of data processing. Tax administration today is a matter of systems management in a highly automated environment.

There are other areas of the Department which also made important gains last year. The Auditing and Tax Compliance programs continue to improve. Service levels of the Liquor Division are much better. The Ports of Entry Division, in spite of major cutbacks, has produced significant results in overweight truck enforcement.

The performance of the last Division to be mentioned in this summary, the Motor Vehicle Division, can be described as "outstanding". Public response to its Driver Licensing operations is universally positive. Its other operations similarly are held in high regard.

As stated earlier, this Report is intended primarily to be a useful research document. After some preparatory sections, including a comprehensive Legislative Digest, separate sections cover each major tax. In each section is included a copy of the tax reporting form, a brief description of the tax, the rate of taxation, significant volume indicators, collection data, and other pertinent statistical information. The following taxes are covered: Alcoholic Beverages, Tax, Cigarette Tax, Corporate and Individual Income Taxes, Mileage and Fuel Taxes, Motor Vehicle Taxes and Fees, State and Local Sales and Use Taxes, and the Severance Tax.

Current economic conditions and revenue trends indicate that the 1983 General Assembly session will be extensively concerned with tax issues. This Report should be helpful to Legislators and others interested in State fiscal affairs.

Effective February 19, 1982. Repeals 42-2-123(5)(w).

H.B. 1146 - Overweight vehicles - penalties. Exempts vehicles equipped with self-compactors and used solely for the transportation of trash from provisions limiting the gross weight upon any axle of a vehicle. Provides for legislative review of this exemption after January 1, 1987. Limits the speed of all such exempted vehicles to 45 mph. Prohibits operators of exempted vehicles from driving them on the Colorado interstate highway system.

Exempts overweight vehicles loaded with explosives or hazardous materials from certain unloading requirements.

Changes penalties for violations of provisions limiting wheel and axle loads and the gross weight of a vehicle.

Effective April 23, 1982. Adds 42-4-1001(2)(f). Amends 42-4-406(2)(b); 42-4-408(2); 42-4-1501(3)(a)(II).

H.B. 1172 -- Traffic summons - signed acceptance. Requires only a person who does not have a valid Colorado drivers license to give written acknowledgment of guilt or give his signed promise to appear in court in order to be released after an arrest for a traffic violation. Provides that tender of a summons or penalty assessment notice constitutes notice to appear in court or to pay the fine. Makes it a class 2 traffic offense to fail to appear to answer certain traffic offenses.

Effective July 1, 1982. Amends 42-4-1505(5). Repeals and re-enacts 42-4-1511.

H.B. 1232 -- Traffic offenses - drug- or alcohol-related. Makes numerous substantive changes in the law, primarily in the area of penalties and alternatives thereto, including the following:

Eliminates the chemical testing of urine to determine the alcohol content of blood; authorizes certified paramedics and emergency medical technicians to withdraw blood for testing; increases from 3 to 9 months the period of license revocation for a person refusing to take such test when an officer has filed a sworn report that he had reasonable grounds to believe the person was driving while under the influence (DUI) or while impaired (DWAI). Prohibits a court from accepting a guilty plea to a non-alcohol or non-drug related traffic offense unless the prosecutor advises that he cannot establish a prima facie case under the original charge.

Removes all penalty provisions relating to DUI or DWAI from the misdemeanor classification schedule for traffic offenses and provides specific penalties therefor, the severity of which are dependent upon whether the offender has had prior convictions, and the time intervening between convictions. Requires sentences to include specified numbers of hours of useful public service to be performed by the offender.

Permits sentences for imprisonment of a first offender to include suspension of the sentence if the offender completes a presentence alcohol and drug evaluation and meets the financial obligations imposed in such programs. For second and subsequent offenses, a mandatory minimum term of imprisonment must be served, after which the balance of a sentence may be suspended if the offender receives a presentence alcohol and drug evaluation, satisfactorily completes the prescribed education or treatment program, and abstains from the use of alcohol for one year from date of sentencing, such abstinence to be monitored by the treatment facility. Failure to meet the requirements results in the suspended sentence being reimposed.

Authorizes the court to take the driver's license of any offender convicted of DUI upon a finding that public safety would be endangered if the offender were allowed to drive, and requires the court to take the license of anyone convicted a second time within 5 years of such offenses. Failure to surrender a license shall be contempt of court.

Subjects persons convicted of DUI or DWAI to the payment of \$25 to the crime victim compensation fund and to probation for up to 2 years for purposes of alcohol treatment.

Transfers the alcohol and drug driving safety program from the highway safety division to the division of alcohol and drug abuse in the department of health.

Requires a court to take judicial notice of methods of testing and the devices used in testing blood and breath to determine alcohol content, when such are certified by the department of health.

Authorizes the court, upon a conviction of DUI or DWAI, to require the offender to be fingerprinted and photographed by the sheriff, with placement of such records in the court's file as prima facie evidence, with respect to prior convictions, of the person's identity at any subsequent trial of the offender.

Amends the presumption provisions to include analysis of a person's breath alcohol level.

Authorizes a law enforcement officer to stop any person he reasonably suspects of DUI or DWAI, and permits the officer to require the person so stopped to identify himself and explain his actions. Such stopping shall not constitute an arrest.

Gives counties 1/2 of fines collected as a result of convictions for such offenses occurring in unincorporated areas.

Requires the department of revenue to keep a separate file of all abstracts of court records of all dismissals of drug- or alcohol-related offenses, and all such records involving such charges when the convictions resulting were on non-alcohol or non-drug charges.

Sets out penalties for driving when one's license has been suspended or revoked for an alcohol-related traffic offense.

Creates a fund in the state treasurer's office for the prevention of drunk driving and the enforcement of laws thereon, and provides for annual appropriations thereto in the general appropriation bill. Authorizes the division of highway safety to allocate 80% of available funds to local governments establishing prevention and enforcement programs and 20% to the division of alcohol and drug abuse for state programs. Requires all persons convicted or pleading guilty to a drug- or alcohol-related offense to pay \$50 into the new fund, and \$10 to the county treasurer of the county involved.

Applies to offenses committed on or after the effective date.

Effective July 1, 1982. Adds 42-4-1202(4)(a)(III); (4)(b)(II), (III); (4)(c)(I), (II); (4)(d)(I), (II), (III), (IV); (4)(e), (f), (g); 42-4-1202.1; 42-4-1202.2; 24-1-119(5)(b)(II); 24-41-119(1)(c); 42-1-215(1)(d); 42-2-130(1)(f), (g); 43-4 Part 4. Repeals 42-4-1202(2)(e).

Sales and Use:

S.B. 43 -- Reporting of sales and use taxes imposed by local governments. Requires every county, city, and town to file with the department of revenue a copy of every new sales and use tax ordinance or resolution within 10 days of its effective date and a copy of every such existing ordinance or resolution by July 1, 1982. States that failure to file does not give rise to a refund claim by any taxpayer.

Effective March 11, 1982. Adds 29-2-106(7).

H.B. 1166 -- Sales and use tax - fuel used for residential use or commercial consumption. Removes the repeal dates for the exemptions from the sales and use tax of fuel used for residential use. Also makes permanent the sales and use taxes on fuel used for commercial consumption. Repeals a conflicting provision which would have reimposed the tax on both residential and commercial fuels.

Effective April 27, 1982. Amends 39-26-104(1)(d.1); 39-26-114(1)(a)(XXI); 39-26-203(1)(z). Repeals 39-26-104(1)(d.2).

H.B. 1168 -- Sales and use tax - exemption for property used in processing products. Exempts from the state sales and use taxes tangible personal property used in processing food products which are intended to be ultimately sold at retail for human consumption when the property either becomes an integral part of the food product or is used to make the food product more marketable and is rendered unfit for further use in the process. Adds nuclear fuel to the list of sales of various fuels used for various industrial purposes and declared to be wholesale sales. Exempts from the state sales and use taxes sales of refractory materials and carbon electrodes for manufacturing iron and steel, and sales of inorganic chemicals used in processing vanadium-uranium ores.

Effective July 1, 1982. Adds 39-26-114(14). Amends 39-26-102(20), (21); 39-26-203(1)(f), (g).

Severance:

S.B. 115 -- Severance tax - local government severance tax fund - employee reports. Amends existing provisions requiring producers subject to the severance tax to file a report on the residences of its employees to specify that the actual residences of such employees be stated, giving the number of employees for each municipality or unincorporated area. The report is to be filed annually by April 30, rather than quarterly. Provides that the executive director of the department of revenue send notices to those producers who fail to file such reports and imposes a penalty of \$50 per day for each day of violation.

Defines "producer of crude oil, natural gas, or oil and gas" and "employee of a crude oil, natural gas, or oil and gas operation" for purposes of filing such reports.

Effective April 6, 1982. Amends 39-29-110(1)(d).

- S.B. 139 -- Severance tax - administrative provisions and rule-making authority. Incorporates references to the severance tax law into general administrative provisions of the tax law concerning refund for overpayment of taxes, authority of the executive director of the department of revenue to promulgate rules, and timely filing of tax documents. In extending the executive director's rule-making authority to severance tax, the act limits such authority in that the executive director may not reduce the balance of credit for approved contributions for impact assistance payments by applying the additional percentage already allowed. Prohibits the executive director from readopting any rule, or portion thereof, disapproved by the general assembly pursuant to the legislative rule review process.

Effective April 6, 1982. Amends 39-21-108(3); 39-21-112(1); 39-21-119(1)(a).

- H.B. 1147 -- Severance tax - imposed on carbon dioxide. Imposes a severance tax on carbon dioxide at the same rate and with the same credits as oil and gas.

Effective January 1, 1983. Amends 39-29-102(5); 39-29-105(1).

- H.B. 1158 -- Severance tax - tax credit on oil shale repealed. Repeals a credit which had been allowed with respect to shale oil produced from underground in situ methods; the credit was equal to 25% of the tax due.

Effective July 1, 1982. Repeals 39-29-107(4).

- H.B. 1198 -- Severance tax on oil shale. Imposes the severance tax on an oil shale facility 180 days after it commences commercial production rather than after reaching 50% of design capacity. Defines "commercial production" to mean production in excess of the first 15,000 tons per day of oil shale or 10,000 barrels per day of shale oil, whichever is greater. Calculates daily production by dividing total production of a calendar month by the number of days in the month.

Effective April 2, 1982. Adds 39-29-102(1.5); 39-29-107(2), (3.1).

Miscellaneous:

S.B. 18 -- Public utilities commission - supervision and regulation of motor carriers - funding of administrative expenses. Requires every motor vehicle carrier issued a certificate by or registered with the public utilities commission and every contract carrier by motor vehicle which has been issued a permit by or registered with the public utilities commission to pay an annual identification fee of \$5 to the public utilities commission for each motor vehicle that the carrier owns, controls, or manages and operates within Colorado. All fees collected shall be credited to the public utilities commission motor carrier fund. Provides penalties for failure to pay these fees.

(NOTE: Public Utilities Commission motor carrier fund fees are collected by the department of revenue.)

Effective July 1, 1982. Above provisions to be repealed July 1, 1985, and prior law reinstated. Adds 40-2-110.5; 40-2-110(2)(a)(II); 40-2-110(2)(b)(I); 40-2-110(2)(b)(II). Amends 40-2-110(2)(a)(I).

The statutory rates are those as shown above. However, a reduction in the tax is in effect in the form of a tax credit which is equal to 1/200 of net taxable income not in excess of \$12,017. The effect of this credit is to lower certain statutory percentages by 1/2 of 1%. The tax brackets are indexed for inflation and are adjusted each year by 106% or as determined by the general assembly. Each year the inflation factor will be applied to the amounts derived for the prior year so that the effect will be cumulative. The inflation factor for 1978 is 106%; 1979 is 107%; 1980 is 109%; 1981 is 108%; cumulative, 133.52%.

CORPORATION INCOME TAX RATES

Corporations are taxed at graduated rates applied to the net income derived from Colorado sources. If two or more Colorado income tax returns are filed by members of a controlled group, the reduction from 5% must be apportioned between such returns.

Balance	5

An alternative tax computation of 1/2 of 1% of gross receipts is available to any corporation (1) whose annual gross sales amount to not more than \$100,000 and (2) whose corporation does not own or rent real estate within Colorado.

OIL SHALE

The tax applies 180 days after an oil shale facility commences commercial production:

Year	Tax Rate On Gross Proceeds
1st	1%
2nd	2%
3rd	3%
4th and subsequent years	4%

The production of the first 15,000 tons per day of oil shale or 10,000 barrels per day of shale oil, whichever is greater, is exempt from the tax. Through June 30, 1982, a credit against the tax equal to 25% of the tax is allowed for underground in situ methods.

COAL

60¢ per ton of coal adjusted 1% for every 3 points change in the index of producer (wholesale) prices for all commodities prepared by the Bureau of Labor Statistics, United States Department of Labor. A fractional point increase less than 1/2 point is disregarded and 1/2 point or more is treated as a full point. Adjustments to the rate of tax are determined each quarter from the January 1978 producer price index of 200.1 to the index for the month immediately preceding a tax quarter.
