REPORT OF THE EXECUTIVE DIRECTOR

This forty-fourth annual report of the Department of Revenue covers the period between July 1, 1984 and June 30, 1985. The report is submitted in fulfillment of the requirements of 24-35-102(3) which requires the Executive Director to inform the Governor and the General Assembly of "the efficient discharge of all responsibilities assigned by law or directive." To the best of my knowledge, all Departmental responsibilities have been carried out faithfully.

This year, the Department was selected by the Legislative Audit Committee for a Performance Audit by the State Auditor. I was gratified by the results. While the audit recommended change and improvement in several areas, by and large the audit confirmed that the Department was meeting its responsibilities. The Report Summary states:

"Our review of the public need for the Department disclosed that the Department's enforcement and regulatory functions are necessary for State government. The Department is generally well managed and most employees are committed to their jobs and working hard. Over the last ten years, the volume of work processed by the Department has increased while the number of staff has decreased. Therefore, there are fewer people to do greater volumes of work."

The following table from the Performance Audit supports the conclusions reached above.

Notes: ¹Full-time equivalent staff (FTE) Excludes Lottery Division.

The Performance Audit, which is dated June 1985, provides an excellent analysis of the Department's activities and effectiveness. It is worthwhile reading.

As usual, the Annual Report is a significant statistical and informational source as well as a document in fulfillment of a statutory requirement. The Report contains a detailed review of the organizational structure of the Department, a digest of all relevant tax legislation passed at the last General Assembly session, a continuation of all usual statistical series and is the source of information in forecasting state revenues.

States that the objective of the participating jurisdictions shall be to obtain more efficient and economical transportation by allowing the operation of motor vehicles which do not exceed a weight to be determined by an established formula, to facilitate the operation of motor vehicles among the various jurisdictions, to secure congressional approval of the agreement, and to encourage development of broad, uniform size and weight standards on a national basis.

Effective May 22, 1985. Adds 24-60 (entire part 25).

H.B. 1188 -- Enforcement of tax compliance - amnesty - increased penalties - appropriation. Directs the executive director of the department of revenue to conduct a plan of amnesty during the 1985-86 fiscal year which will permit delinquent taxpayers having liability for payment of the following state taxes, for which reports or returns were required to be filed before January 1, 1985, to satisfy such liability without fine or other penalty: Income taxes, estate taxes, sales and use taxes, gasoline and special fuel taxes, cigarette taxes, severance taxes, local sales and use taxes collected by the department, regional transportation district sales taxes, gross ton-mile taxes, and passenger-mile taxes. Excludes delinquent taxpayers to whom notices of tax deficiency have been mailed from the program of amnesty.

Allows to expire a regulation of the department of revenue concerning gambling conducted by charitable and nonprofit organizations on premises licensed under the liquor code; and the "3 + 3" affirmative action rules of the department of personnel.

Effective May 31, 1985.

H.B. 1375 -- Fiscal policy of the state - portion concerning administration. Beginning with the fiscal year 1986-87, places a \$50,000,000 cap on the amount of sales and use tax revenue allocated to the highway users tax fund, and eliminates the repeal of such allocations which was scheduled to occur on July 1, 1986. Repeals a provision which coordinated cessation of the municipal distribution of the sales and use tax funds from the highway users tax fund with the repeal of sales and use tax allocations to the highway users tax fund.

Requires that moneys transferred out of the severance tax trust fund prior to July 1, 1985, to avoid a budget deficit shall be restored to the fund out of general fund moneys by June 30, 1986. Also provides that the 25% excess, which may be appropriated without regard to the 7% limit on increases in general fund appropriations, shall be available for appropriation during the regular session next following the controller's submission of financial statements of the amount of such excess. Provides that the base for calculating the limitation on general fund appropriations will be increased for 1986-87, rather than for 1985-86, by the amount of the prior year's appropriations outside the 7% limit. Sets the level of the required reserve at 5% of general fund appropriations for the fiscal year 1986-87 and thereafter. ESTATE TAX

The Colorado Inheritance Tax, a tax on the right to receive property by descent or testamentary gift, shall by statute continue in full force and effect until all of the taxes collectible from the estates of decedents dying on or before December 31, 1979, have been collected.

The Colorado Gift Tax, a tax on the gratuitous transfer of property, has been abolished for transfers occurring on or after January 1, 1980. The Colorado Gift Tax shall by statute continue in full force and effect until all of the taxes collectible as a result of transfers of property by gifts occurring on or before December 31, 1979, have been collected.

The Colorado Estate Tax replaces the Inheritance Tax for decedents with a date of death on or after January 1, 1980. The Estate Tax provides for the pickup of the state death tax credit allowable on the United States Estate Tax Return. This credit results in a reduction in the federal tax equal to the amount paid to the state.

If the decedent died during the 1985 calendar year, representatives of the estate would not be required to file a Colorado Estate Tax Return unless the gross estate exceeded \$400,000 the figure that triggers the filing requirement for the United States Estate Tax Return. Currently there is an unlimited marital deduction.

INCOME TAX

COLORADO LOTTERY

In 1980, sixty percent of Coloradoans voting cast ballots in favor of a proposed constitutional amendment authorizing the Colorado General Assembly to establish a state-supervised lottery. The amendment stated: "Unless otherwise provided by statute, all proceeds from the lottery, after deduction of prizes and expenses, shall be allocated to the conservation trust fund of the state for distribution to municipalities for park, recreations, and open space purposes."

In 1982, the General Assembly approved S.B. 119 implementing the Colorado Lottery, adding the state capitol construction fund and the state division of parks and recreation as lottery fund recipients. On January 24, 1983, the Colorado Lottery began sales.

One dollar Lottery tickets offering instant prizes are sold at more than 2,600 retail outlets.

During FY 1984-85 the Colorado Lottery earned \$105 million. On September 1, 1985, as required by statute, \$32 million (32%) was returned to the state. Of that, \$12.8 million was disbursed to the conservation trust fund, \$3.2 million to the state division of parks and outdoor recreation and \$16 million to the capitol construction fund.

October 1, 1984 the Colorado Lottery became the first state to offer a "SuperInstant" game format (an instant ticket game with weekly grand prize drawings).

SALES AND USE TAX RATES

The sales and use tax rate for fiscal year 1984/85 was 3% except for the month of July 1984 when the rate was 3 1/2%^{1/}.

In addition to the sales and use tax, there is imposed (effective May 1, 1983), a tax of 0.1% on certain tourist related transactions. Amounts collected from this tax are not included in this section of the Annual Report.

DEFINITIONS

- Gross Sales: Total receipts for all sales and services, both taxable and nontaxable, from Colorado retail sales tax returns.
- Wholesale Sales: Sales to other licensed dealers for purpose of resale.
- Retail Sales: Gross sales less wholesale sales.
- Total Deductions: Sales for services and tangible personal property which are not subject to tax. The following, while not all inclusive, represent major nontaxable items: wholesale sales; interstate commerce sales; sales to government, religious or charitable institutions; admissions; lodgings over 30 days; gasoline; cigarettes; food for off premises consumption; prescription drugs and prosthetic devices; certain machinery and machine tools; certain livestock and feed for livestock; seeds; newspapers; and fuel used in residences for light, heat and power.
- Net Taxable Sales: Gross sales less total deductions.
- Filing Requirements: Returns are due monthly if sales tax liability is \$300 or more per month. If sales tax liability is under \$300 a month, returns are due quarterly. Wholesale businesses only file annual returns.

^{1/} The sales and use tax rate of 3% was increased to 3 1/2% for the period May 1, 1983 through July 31, 1984.

87 1/2% of ad valorem taxes on oil and gas royalty or leasehold interests are allowed as a credit against the tax due.

METALLIC MINERALS

Amount of Gross Income	Tax Rate
First \$11,000,000	No Tax
Amount exceeding \$11,000,000	2.25%

Ad valorem taxes on producing mines, as described in 39-6-107 Colorado Revised Statutes, not to exceed 50% of the severance tax liability are allowed as a credit against the tax due.

MOLYBDENUM

15¢ per ton of molybdenum ore

OIL SHALE

The tax applies 180 days after an oil shale facility commences commercial production:

<u>Year</u>	<u>Tax Rate On Gross Proceeds</u>
1st	1%
2nd	2%
3rd	3%
4th and subsequent years	4%

The production of the first 15,000 tons per day of oil shale or 10,000 barrels per day of shale oil, whichever is greater, is exempt from the tax. Through June 30, 1982, a credit against the tax equal to 25% of the tax is allowed for underground in situ methods.

COAL

60¢ per ton of coal adjusted 1% for every 3 points change in the index of producer (wholesale) prices for all commodities prepared by the Bureau of Labor Statistics, United States Department of Labor. A fractional point increase less than 1/2 point is disregarded and 1/2 point or more is treated as a full point. Adjustments to the rate of tax are determined each quarter from the January 1978 producer price index of 200.1 to the index for the month immediately preceding a tax quarter.

No tax is imposed on the first 25,000 tons produced each quarter^{1/}. A credit against the tax equal to 50% of the tax is allowed for coal produced from underground mines. An additional credit against the tax equal to 50% of the tax is allowed for the production of lignitic coal as classified by the American Society for Testing Materials in their D 388 standard.

^{1/} For the period July 1, 1984 through June 30, 1987 the tonnage exempt from severance tax is increased from 8,000 tons per quarter to 25,000 tons per quarter.
