REPORT OF THE EXECUTIVE DIRECTOR

This forty-fifth annual report of the Department of Revenue is submitted in fulfillment of Section 24-35-102(3) C.R.S. which requires that the Executive Director inform the Governor and the General Assembly of "the efficient discharge of all responsibilities assigned by law or directive." The report covers the period between July 1, 1985 and June 30, 1986. It is with great pleasure that I report that to the best of my knowledge, all statutorily and administratively assigned responsibilities have been carried out faithfully and well.

The report, in addition to fulfilling the statutory requirement, is a significant source of information on Colorado state taxes. The report includes a detailed review of the Department of Revenue's organizational structure, a digest of all relevant tax legislation passed at the 1986 General Assembly session and the latest values for the many statistical series which comprise the heart of this report.

During the 1987 General Assembly session, this Annual Report should prove even more useful than usual for tax planning purposes. For the first time in many years, almost all important taxes will be under review. There are a number of forces at work which suggest that legislative action is inevitable. Of course, the principal factor is the Federal Tax Reform Act of 1986, but also demanding attention is the impact of the Federal Gramm-Rudman Act, pressure in behalf of economic development and infrastructure repair, the State-Local tax imbalance and Colorado's currently underperforming tax system.

The 1987 General Assembly session also is a time of opportunity. The Department of Revenue has consistently supported tax simplification. A simple tax system heightens taxpayer acceptance and therefore, tax compliance, and can be administered more efficiently. It is hoped that simplification will be included as an important criterion in developing the 1987 tax package.

ESTATE TAX

The Colorado Inheritance Tax, a tax on the right to receive property by descent or testamentary gift, shall by statute continue in full force and effect until all of the taxes collectible from the estates of decedents dying on or before December 31, 1979, have been collected.

The Colorado Gift Tax, a tax on the gratuitous transfer of property, has been abolished for transfers occurring on or after January 1, 1980. The Colorado Gift Tax shall by statute continue in full force and effect until all of the taxes collectible as a result of transfers of property by gifts occurring on or before December 31, 1979, have been collected.

The Colorado Estate Tax replaces the Inheritance Tax for decedents with a date of death on or after January 1, 1980. The Estate Tax provides for the pickup of the state death tax credit allowable on the United States Estate Tax Return. This credit results in a reduction in the federal tax equal to the amount paid

If the decedent died during the 1986 calendar year, representatives of the estate would not be required to file a Colorado Estate Tax Return unless the gross estate exceeded \$500,000 the figure that triggers the filing requirement for the United States Estate Tax Return. Currently there is an unlimited marital deduction.

During fiscal year 1985-86, sales totaled \$108.9 million. Superinstant game sales totaled \$101.4 million and Traditional game sales totaled \$7.5 million.

In November 1985, the Lottery introduced a new and different Traditional game called "Million Dollar Sweepstakes". The game was authorized by the state legislature in its 1985 general session. In "Million Dollar Sweepstakes", tickets sold for \$5 and players had the chance to win \$1 million in a lump-sum payment.

September 1, 1986, as required by statute, the Colorado Lottery Commission authorized transfer of \$29.2 million to the state. The Conservation Trust Fund received \$11.7 million, the Colorado Division of Parks and Outdoor Recreation \$2.9 million and the state Capital Construction Fund \$14.6 million.

The production of the first 15,000 tons per day of oil shale or 10,000 barrels per day of shale oil, whichever is greater, is exempt from the tax. Through June 30, 1982, a credit against the tax equal to 25% of the tax is allowed for underground in situ methods.

COAL

60 cents per ton of coal adjusted 1% for every 3 points change in the index of producer (wholesale) prices for all commodities prepared by the Bureau of Labor Statistics, United States Department of Labor. A fractional point increase less than 1/2 point is disregarded and 1/2 point or more is treated as a full point. Adjustments to the rate of tax are determined each quarter from the January 1978 producer price index of 200.1 to the index for the month immediately preceding a tax quarter.

No tax is imposed on the first 25,000 tons produced each quarter1/. A credit against the tax equal to 50% of the tax is allowed for coal produced from underground mines. An additional credit against the tax equal to 50% of the tax is allowed for the production of lignitic coal as classified by the American Society for Testing Materials in their D 388 standard.

^{1/} For the period July 1, 1984 through June 30, 1990 the tonnage exempt from severance tax is increased from 8,000 tons per quarter to 25,000 tons per quarter.
