NA = Not Applicable

¹ The highway diesel gross volume total reported here is calculated differently than in the 551M report to the FHWA. The FHWA highway diesel gross volume total excludes the total refunded.

² The highway alternative fuels refunded total reported here is calculated differently than in the 551M report to the FHWA. The FHWA highway alternative fuels refunded total excludes refunds for CNG and LNG gallons used in aviation. This difference also affects the FHWA calculation for the net volume taxed total.

³ Refunds are reported monthly based on refund claims received that month.
