Note: All tax filing data is subject to change. This table represents a snapshot of the tax returns at the time the data was retrieved. Businesses file monthly, quarterly, or annually, which means that months at the end of the quarter (March, June, September, and December) or calendar year (December) will have higher values.

<sup>1</sup> Starting with 2016, the number of retailers represents the number filing at least one non-zero return in the filing month.

<sup>2</sup> Starting with 2019, the number of returns does not include returns that reported zero sales.

<sup>3</sup> Starting with 2020, state sales tax values are no longer reported due to the implementation of HB19-1245, which changed the availability of state sales tax data for this report.
