Note: Businesses file monthly, quarterly, or annually, which means that months at the end of the quarter (March, June, September, and December) or calendar year (December) will have higher values.

NR - Not releasable due to taxpayer confidentiality requirements. Total includes NR data.

¹ These industries are defined in the North American Industry Classification System (NAICS). The sequence number is used to sort the NAICS correctly. Industry categories are reported to the Department of Revenue by the taxpayer, and they are not generally audited.

Retail Sales in Major Counties by Industry
January 2025 to Date

Month	Year	Sequence Number ¹	2022 NAICS Code ¹	Industry ¹	County	Number of Retailers ²	Number of Returns ³	Retail Sales
-------	------	------------------------------	------------------------------	-----------------------	--------	----------------------------------	--------------------------------	--------------

² Number of retailers is a count of distinct retailers in each industry. One retailer can have multiple physical and non-physical locations in different industries. The Total value shows the distinct number of retailers in the county.

³ The number of returns can be larger than the number of retailers because a retailer files a return for each physical and/or non-physical location.
