PUBLIC WELFARE IN COLORADO

1960

Offices of the State Department of Public Welfare were moved to the new State Services Building during the period from February to May 1960, putting all staff members under one roof for the first time in many years.

The maximum monthly old age pension payment was increased from \$105 to \$106 per month with the March payment and to \$107 in September. Increases were based on advances in the cost of living index. Nursing home patients were allowed to retain the increases to provide for personal needs and clothing.

The allowance for personal needs and clothing for Aid to the Needy Disabled, Aid to the Blind, and Aid to Dependent Children recipients in medical institutions was increased from the basic five dollars to a maximum of six dollars per month beginning with the March 1960 payment.

Physicians' services to pensioners in nursing homes were revised to provide a maximum of six calls per calendar quarter for chronic or continued illness, with a total maximum set at 12 calls per calendar quarter for an acute illness or acute manifestations of a chronic illness.

Care of terminal cancer cases was provided under the pension medical program through arrangements with Sands House in Denver, and Blue Shield. The pensioner pays the first \$100 for care each month; the remainder of the cost is paid from the pension medical fund. Effective March 20, 1960 Sands House was also approved, on a nursing home basis, for care of Aid to the Needy Disabled and Aid to the Blind terminal cancer cases.

Monthly food allowances were increased in the Aid to Dependent Children, Aid to the Needy Disabled, and Aid to the Blind programs, effective in July 1960, giving a child under six \$13, a child six through twelve \$16, and a child thirteen through seventeen \$21. The amount budgeted for adults remains at \$20 per month.

Policies regarding employment income were revised effective April 1, 1960. The revisions provide that: (1) the recipient may receive his full assistance grant for the month in which employment begins, (2) only net income will be deducted from budgeted requirements, and (3) other employment expenses may be deducted for transportation, union dues or assessments, purchase and up-keep of uniforms required by the job, or costs of training and education connected with the job.

Effective September 15, 1960, the time limit on hospitalization for old age pensioners was reduced from thirty to twenty-one days. Extensions beyond 21 days require the approval of the Director of Medical Services. Re-admission to a hospital within 30 days after discharge is permitted only on approval by the Director of Medical Services.

Amendments of the Old Age, Survivors, and Disability Insurance program during 1960 increased benefits to surviving children and will affect the Aid to Dependent Children program. The benefits, effective in December 1960, concern the

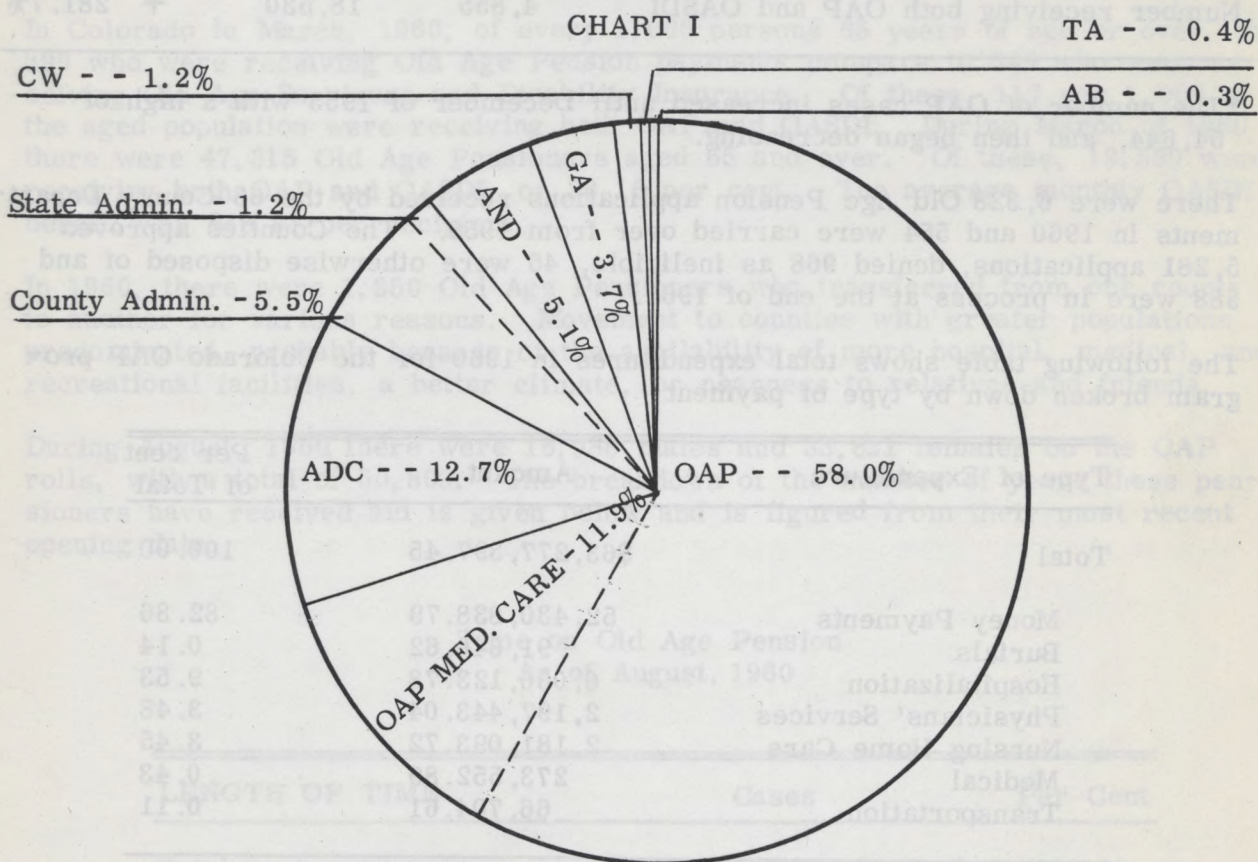

following five groups: (1) two children only; (2) two children and one other beneficiary; (3) three children only; (4) four children only; and (5) other categories where less than the family maximum is paid because one or more beneficiaries are working.

A new Veteran's Pension Law became effective July 1, 1960. Veterans may elect to receive benefits under either the new law or old law. The policy adopted in this area permits the veteran to use his own discretion as to the more beneficial long range plan.

A Colorado Supreme Court Decision upheld an Arapahoe County District Court Decision that a person living on the Fort Logan military reservation gains residence in both Colorado and Arapahoe County.

Per Cent Expenditures, by Program, for Public Welfare in Colorado - 1960

CHART I

SOURCE OF FUNDS FOR PUBLIC WELFARE IN COLORADO - 1960

TOTAL	100.00%	\$90,592,201.79
Federal	41.45%	37,546,994.07
State	49.25%	44,619,732.62
County	9.30%	8,425,475.10

OLD AGE PENSION

During the year 1960, the Old Age Pension caseload showed a decrease from 53,168 on January 1 to 52,434 on December 31, which is a net decrease of 734 cases or 1.4 per cent. The primary reason for this decrease is the increase in the number of Old Age, Survivors, and Disability Insurance recipients and benefits paid them, as indicated by the following figures:

COLORADO	March 1950	March 1960	Increase
State population aged 65 and over	115,600	158,200	+ 36.8%
Number receiving OASDI	15,259	68,220	+ 347.1%
Number receiving OAP	46,471	47,315*	+ 1.8%
Number receiving both OAP and OASDI	4,855	18,530	+ 281.7%

*The number of OAP cases increased until December of 1955 with a high of 54,644, and then began decreasing.

There were 6,328 Old Age Pension applications received by the 63 County Departments in 1960 and 554 were carried over from 1959. The Counties approved 5,281 applications, denied 968 as ineligible, 45 were otherwise disposed of and 588 were in process at the end of 1960.

The following table shows total expenditures in 1960 for the Colorado OAP program broken down by type of payment:

Type of Expenditure	Amount	Per cent of Total
Total	\$63,277,397.45	100.00
Money Payments	52,430,838.79	82.86
Burials	91,640.62	0.14
Hospitalization	6,036,123.78	9.53
Physicians' Services	2,197,443.04	3.48
Nursing Home Care	2,181,093.72	3.45
Medical	273,552.89	0.43
Transportation	66,704.61	0.11

Of the total expenditures of \$63,277,397.45 for Old Age Pensioners, \$25,127,583.43 or 39.71 per cent was provided through Federal funds, and \$38,149,814.02 or 60.29 per cent was provided through State funds. The total expenditure in 1959 was \$62,288,624.28, and the 1960 total represents an increase of 1.58 per cent.

Health and medical payments increased from \$8,718,528.78 in 1959 to \$10,754,918.04 in 1960, which is an increase of 23.36 per cent. More information is given in the Medical Care section of this report, page 14.

The maximum monthly payment of \$105 per pensioner was increased by one dollar in March 1960 and again in September, bringing the maximum monthly payment to \$107 for the remainder of the year.

The average monthly money payment for 1960 was \$83.06, or slightly less than the 1959 average monthly money payment of \$83.54.

Two states--New York with \$113.90 and Connecticut with \$113.38--showed a higher average monthly payment to recipients of Old Age Assistance than Colorado with payments of \$99.71 for the month of December of 1960. Payment figures include vendor payments for medical care.

During March, 1960, the Colorado recipient rate was 299 per 1,000 population aged 65 years and over. Recipient rates per 1,000 population age 65 years and over were higher in Louisiana with 517, Mississippi with 421, Alabama with 378, Oklahoma with 362, and Georgia with 333.

In Colorado in March, 1960, of every 1,000 persons 65 years of age or over, the 299 who were receiving Old Age Pension payments compare to 545 who were receiving Old Age, Survivors, and Disability Insurance. Of these, 117 per 1,000 of the aged population were receiving both OAP and OASDI. During March of 1960 there were 47,315 Old Age Pensioners aged 65 and over. Of these, 18,530 were receiving both OAP and OASDI, or 39.16 per cent. The average monthly OASDI benefit was \$45.91 per recipient.

In 1960, there were 1,250 Old Age Pensioners who transferred from one county to another for various reasons. Movement to counties with greater populations predominated, probably because of the availability of more hospital, medical, and recreational facilities, a better climate, or nearness to relatives and friends.

During August, 1960, there were 16,988 males and 33,821 females on the OAP rolls, with a total of 50,809. The breakdown of the number of years these pensioners have received aid is given below and is figured from their most recent opening date:

Time on Old Age Pension
As of August, 1960

LENGTH OF TIME	Cases	Per Cent
Total	50,809	100.00
Less than 1 year	4,582	9.02
1 year, less than 3	9,163	18.03
3 years, less than 5	6,744	13.27
5 years, less than 10	14,104	27.76
10 years, less than 15	10,450	20.57
15 years or more	5,766	11.35

AID TO DEPENDENT CHILDREN

For the year 1960, the Aid to Dependent Children program, including Incentive Budgeting, averaged 7,400 families monthly as compared to an average of 7,054 families during 1959, or an increase of 5 per cent. The number of children receiving services each month averaged 22,505, or slightly over 3 children per family. On January 1, 1960, there were 7,101 families in the program with 21,560 children, and on December 31, 1960, there were 7,716 families with 23,518 children receiving benefits, or an increase of 615 cases and 1,958 children. There were 263 families transferring from one county to another in 1960, or about 3.5 per cent of those receiving aid.

Applications in 1960 numbered 4,353, of which, 288 applications for Aid to Dependent Children were carried over from 1959 and 4,065 were received in 1960. Of these, 3,137 were approved, 819 were denied as ineligible, 26 were otherwise disposed of, and 371 were in process at the end of the year.

Expenditures, including vendor payments for medical care and Incentive Budgeting, totalled \$11,534,278.13 for 1960. This is an increase of 9.26 per cent over 1959 when expenditures were \$10,556,056.79. Money payments in 1960 to recipients amounted to \$11,126,428.42, or 96.46 per cent of the total, as compared to 1959 money payments of \$10,052,146.89, showing an increase for 1960 of 11.68 per cent. Medical payments for 1960 amounted to \$407,849.71, or 3.54 per cent of the total, as compared to 1959 money payments of \$493,909.90, showing a decrease for 1960 of 17.42 per cent. Monthly money payments averaged \$125.30 per family, which is \$32.32 monthly per person.

"Public Assistance, 1960" reprinted from the Annual Report of the U.S. Department of Health, Education, and Welfare states on page 7 that:

"As of June, 1960 the national average monthly payment, including medical care, amounts to \$67.90 for an aged recipient compared with \$29.08 for recipients of ADC. This disparity is undoubtedly related to the greater need of aged for medical care and the availability of such care. It also reflects greater acceptance of old age as a reason for dependency than of divorce, separation, desertion, or unmarried parenthood which cause the dependency of about 60 per cent of the children receiving ADC in the U.S. today."

A total expenditure of \$75,170.85 was made during the year 1960 for ADC Incentive Budgeting in Denver County.

Aid to Dependent Children Families and Children
Receiving OASDI Payments for Selected Months

Date	Families		Children		Total	Average Monthly Payment Per Family	
	Number on OASDI	Per Cent of ADC	Number on OASDI	Per Cent of ADC		ADC	OASDI
March 1960	387	5.28	1,046	4.72	\$146.48	\$83.95	\$62.53
February 1959	391	5.48	1,147	5.35	140.40	76.17	64.23
February 1958	364	5.60	1,041	5.34	135.21	78.60	56.61
February 1957	308	5.08	889	4.94	133.64	72.82	60.82
February 1956	333	5.68	980	5.74	130.49	70.79	59.70

The ratio of the number of both families and children receiving OASDI to the total receiving ADC benefits has varied little the past five years as indicated by the table above.

Length of Time on Aid to Dependent Children Program
Since Approval or Most Recent Reinstatement

Length of Time	Total Cases	Adults	Children	Per Cent of Total
TOTAL	7,716	6,433	23,518	100.00
Less than one year	1,654	1,379	5,042	21.44
One but less than 5 years	3,841	3,202	11,705	49.77
5 but less than 10 years	1,498	1,249	4,567	19.42
10 but less than 15 years	550	459	1,677	7.13
15 years and over	173	144	527	2.24

Nearly 91 per cent of the above cases have been under the program for less than ten years.

Children in the Household by Age

AGE	Number of Children	Per Cent
TOTAL	23,518	100.00
Less than 6 years old	7,659	32.57
6 but under 13	10,408	44.25
13 but under 16	3,932	16.72
16 but under 18	1,519	6.46

Those under age 13 who could not normally be expected to hold even a part-time job make up over 76 per cent of the children in the program.

AID TO THE NEEDY DISABLED

The number of cases receiving Aid to the Needy Disabled increased from 5,582 in January, 1960, to a high for the year of 5,664 in December, 1960. This was a net increase of 82 cases or 1.5 per cent. The monthly average was 5,638 cases during the twelve-month period.

Aid to the Needy Disabled applications totalled 2,852, of which 334 were carried over from 1959 and 2,518 were received during 1960. Of these applications 1,880 were approved, 600 were denied as ineligible, 4 were otherwise disposed of, and 368 were in process at the end of the year.

Payments for Aid to the Needy Disabled, including medical payments and Incentive Budgeting, totalled \$4,651,579.38 for 1960 as compared to \$4,388,496.59 for 1959, an increase of \$263,083.00 or 6 per cent. The ceiling of \$85 was removed in 1959 and payments since that time have been on the basis of budgeted need less income. The average monthly assistance payment for the year was \$68.75 compared to \$65.40 during 1959. Increases in the average payments are a result of inclusion of nursing home care in the money payment to recipient nursing home patients.

Assistance payments in 1960 amounted to \$4,489,198.37 as compared to \$4,245,207.01 in 1959; medical payments totalled \$162,381.01 for 1960 as compared to \$143,289.58 in 1959. Included in expenditures are the 1960 Incentive Budgeting payments of \$6,287.29 for assistance and \$170.19 for medical care. Expenditures for money payments to recipients were 5.7 per cent higher than during 1959. Medical vendor payment expenditures increased 13.3 per cent.

During March of 1960, 366 AND recipients also received Old Age, Survivors, and Disability Insurance with average payments for that month of \$43.35. A breakdown by ages follows:

AND Recipients Also Receiving OASDI Payments - March 1960

Age	Cases	Average OASDI Payments
TOTAL	366	\$43.35
Aged 18-49	34	27.13
Aged 50-64	146	49.29
Aged 65 and Over	186	41.65

There were 126 AND recipients who transferred from one county to another in 1960.

1/ DOES NOT INCLUDE DATA FOR THE MEDICAL ASSISTANCE FOR THE AGED PROGRAM. THE AVERAGES WERE: U.S. AVERAGE, \$195.75; MASSACHUSETTS, \$197.54; MICHIGAN, \$224.46; WEST VIRGINIA, \$65.24; AND OKLAHOMA NOT COMPUTED, BASE TOO SMALL. 2/ NOT COMPUTED FOR GUAM AND THE VIRGIN ISLANDS, FEWER THAN 50 RECIPIENTS. 3/ NOT COMPUTED FOR FLORIDA, TEXAS, AND VERMONT, DATA ESTIMATED; GUAM, FEWER THAN 50 CASES; AND IDAHO, DATA NOT AVAILABLE. 4/ BASED ON DATA INCLUDING AN UNKNOWN NUMBER OF CASES RECEIVING MEDICAL CARE, HOSPITALIZATION, AND BURIAL ONLY, AND TOTAL PAYMENTS FOR THESE SERVICES.

AID TO THE BLIND

Total expenditures for Aid to the Blind decreased to \$304,804.34 as compared to \$331,114.31 spent in 1959. Payments for assistance amounted to \$250,443.28 in 1960, a decrease of one-fourth of one per cent from the \$251,075.81 spent in 1959. Treatment also decreased in 1960 to \$27,769.32 in comparison to \$51,899.38 spent in 1959.

Cases receiving Aid to the Blind continued to decline in number. The average monthly caseload for Aid to the Blind award cases in 1960 was 290 or a decrease of 5.2 per cent from the 1959 figure of 306. Treatment cases showed a monthly average of 17 in 1960 as compared to 30 in 1959, a decrease of 43.3 per cent, probably due to wider use by pensioners of treatment for eye conditions under the Old Age Pension Medical Care Program.

The monthly average assistance payment for 1960 was \$71.95.

Applications for Aid to the Blind money payments in 1960 totalled 79 with 10 carried over from 1959. Of these, 49 were approved, 19 were denied as ineligible, one was otherwise disposed of, and 10 were in process at the end of the year.

Applications for treatment totalled 120 in 1960 with 14 carried over from 1959. Of these, 86 were approved, 15 were denied as ineligible, and 19 were in process at the end of the year.

Seven of the 291 Aid to the Blind recipients received OASDI payments averaging \$57.16 during March 1960.

There were 14 Aid to the Blind recipients who transferred from one county to another.

COLORADO STATE DEPARTMENT

Public Welfare Library
State Services Building
Denver 3, Colorado

TUBERCULOSIS ASSISTANCE

Expenditures in 1960 for Tuberculosis Assistance totalled \$350,254.43. This amount represents a decrease from \$395,999.15 spent in 1959, or 13.06 per cent. A major part of the decrease comes from the placing of more cases on outpatient care, which is less expensive than hospital or sanitarium care.

There were 228 Tuberculosis Assistance applications received in 1960 and three carried over from 1959, making a total of 231. Of these, 229 were approved, one was denied as ineligible, and one was pending at the end of the year.

The monthly average caseload was 199 during 1960, 203 during 1959, and 217 during 1958.

At the close of 1960, there were 60 cases in hospitals and sanitariums and 294 were on an outpatient basis. In comparison, at the close of 1959 there were 68 cases in hospitals and sanitariums, 120 in clinics and 108 receiving outpatient care; on December 31, 1958, 92 cases were in hospitals and sanitariums, 100 cases were in clinics and 95 were receiving outpatient care.

The following table shows a comparison by reasons for terminating sanitarium cases during 1958, 1959, and 1960.

REASON FOR TERMINATION	Year		
	1958	1959	1960
TOTAL	173	153	171
Transferred to Outpatient Care	107	98	121
Death	14	14	25
Non-tuberculous	7	7	11
To Another Facility	6	2	6
Discharged	20	15	4
Left Against Advice	16	12	2
No Longer in Need	1	5	2
Disciplinary	2	0	0

There were nine persons with tuberculosis who moved from one county to another in 1960.

MEDICAL CARE

Historical Development

- September, 1957 - Began hospitalization, physicians' services under contract with Blue Cross - Blue Shield and drugs for Aid to Dependent Children and Aid to the Blind, and drugs only for Aid to the Needy Disabled.
- January 20, 1958 - Started nursing home care and limited transportation for Old Age Pensioners.
- February 1, 1958 - Added Hospitalization and Physicians' Services for Old Age Pensioners with Blue Cross - Blue Shield as fiscal agent. As experience was gained and funds became available other OAP services were added--physicians' transportation and services, and drugs for patients in nursing homes in December 1958; cataract surgery; and home and office calls in July 1959.

Old Age Pension

The increased utilization by pensioners of physicians' services, nursing home care, transportation, drugs, and home and office calls is indicated by the rise in total expenditures for medical care in the past three years:

	1958 - \$5,705,897.25	1959 - \$8,718,528.78	1960 - \$10,754,918.04
<u>Hospitalization:</u>	<u>1958*</u>	<u>1959</u>	<u>1960</u>
Number of Admissions	16,652	22,113	22,645
Total Days in Hospital	189,749	261,328	262,337
Average Stay in Days	11.39	11.82	11.58
Expenditures	\$3,784,783.26	\$5,209,851.23	\$6,036,123.78
Average Cost Per Stay	\$227.29	\$235.60	\$266.55
Average Cost Per Day	\$19.95	\$19.94	\$23.01

*Program began February 1958.

Increased usage of medical care and increased hospital rates account for the 17.44 per cent rise in expenditures from 1959 to 1960.

There were 8,585 male and 14,060 female hospital admissions during 1960. Utilization of hospitals by male pensioners is somewhat higher than for female pensioners. Male pensioners numbered slightly over one-third of the total caseload, but accounted for 37.91 per cent of hospital admissions in 1960.

Of the 22,645 admissions, 4,836 were for diseases of the circulatory system including heart diseases, 3,651 were for diseases of the digestive system, 2,804 were for accidents, poisoning and violence, 2,599 had respiratory disorders, 2,023 were

for diseases of the nervous system, and the remainder were for allergies, urinary, bones, skin, senility, blood, infective, psychoneurotic, and other diseases or illnesses.

Physicians' Services: Expenditures, which include physicians' services in hospitals, nursing homes, and home and office calls totalled \$2,197,443.04 in 1960 as compared to \$1,381,304.91 in 1959 or an increase of 59.08 per cent. Home and office calls were not instituted until July of 1959.

Physicians' Services	1958	1959	1960
TOTAL	\$696,633.06	\$1,381,304.91	\$2,197,443.04
In Hospitals	696,633.06	1,192,324.81	1,668,807.29
In Nursing Homes	-	44,730.00 ^{1/}	100,421.25
Home and Office Calls	-	159,723.50 ^{2/}	428,214.50
Number of Calls		(46,718)	(123,826)

^{1/} Program was started in December, 1958.

^{2/} Program was started in July of 1959.

On January 1, 1960 a new Blue Shield schedule for physicians' services was adopted providing for an increase in fees. Consequently this explains the major part of the increase from 1959 to 1960 of 39.96 per cent for physicians' services in hospitals. The 124.50 per cent increase in physicians' services in nursing homes is also a result of the above increase in the Blue Shield fees schedule, the increased utilization of physicians' services, the change from a monthly call allowance to a quarterly basis, and an increase in the number of pensioners in nursing homes. In December 1959 there were 2,471 pensioners in nursing homes as compared to 2,796 in December 1960. The increase in payments for home and office calls can be attributed to greater utilization of the program as indicated above.

Nursing Home Care: The pensioner pays \$100 per month for his nursing home care from his pension or other sources; and a supplemental amount, if required, up to a maximum of \$95 is paid from the medical care program.

Supplemental Amounts Paid for Nursing Home Care

Year	Amount	Per Cent Increase Over Prior Year
1958	\$1,184,100.73	Started, January 1958
1959	1,804,723.75	+ 52.41
1960	2,181,093.72	+ 20.85

Drug expenditures for pensioners in nursing homes during 1960 were \$273,552.89 or an increase of 49.53 per cent over the 1959 figure of \$182,942.85.

Transportation: Expenditures for transportation increased 12.78 per cent from \$59,144.65 in 1959 to \$66,704.61 in 1960.

MEDICAL CARE - Cont. Aid to Dependent Children

Medical care for ADC began in September, 1957, and for the remainder of that year \$139,999.01 was spent. The following table gives the expenditures for the period 1958-60:

Medical Care Services	1958	1959	1960
TOTAL	\$484,200.07	\$493,909.90	\$407,849.71
Blue Cross Premium Payments	319,416.28	338,181.30	300,398.63
Blue Shield Premium Payments	115,788.42	111,035.30	60,706.42
Drug Payments	48,995.37	44,693.30	46,744.66
Per Cent Change from preceding year	-	+ 2.01	- 17.42

The 17.42 per cent decrease in 1960 is due principally to a reduction in premiums.

Aid to the Needy Disabled

Aid to the Needy Disabled medical care program provides drugs only. Expenditures for 1957-60 follow:

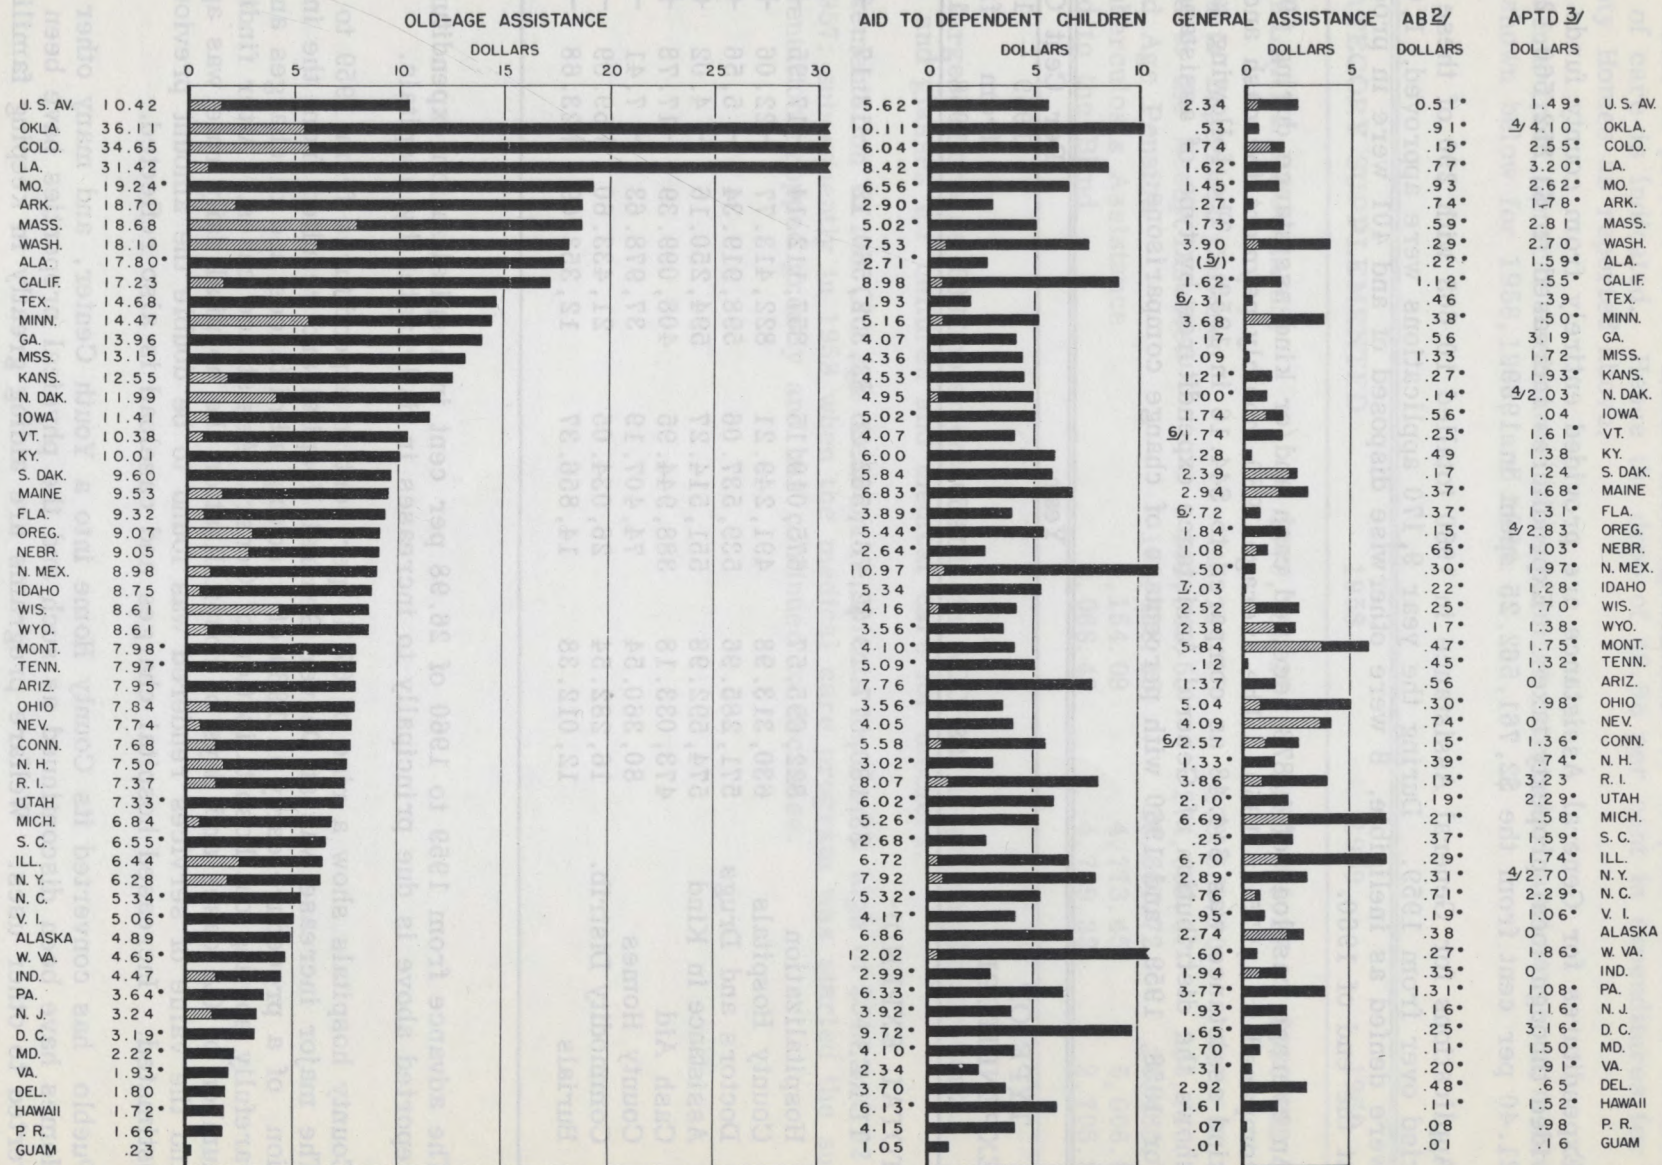

Year	Amount for Drugs	Per Cent Change From Preceding Year
1957	\$ 20,440.48	Started, September, 1957
1958	155,241.44	First full year
1959	143,289.58	- 7.7
1960	162,381.01	+ 13.32

Aid to the Blind

Medical Care Services	1958	1959	1960
TOTAL	\$30,910.25	\$28,139.12	\$26,591.74
Blue Cross Premium Payments	16,843.02	16,533.00	15,624.00
Blue Shield Premium Payments	5,577.13	5,327.30	5,034.40
Drug Payments	8,490.10	6,278.82	5,933.34
Per Cent Change	Started, September, 1957	- 8.97	- 5.50

From September, when the medical care program started through December, 1957 \$7,683.44 was spent on the program.

CHART III AMOUNT EXPENDED PER INHABITANT ^{1/} FOR PUBLIC ASSISTANCE PAYMENTS INCLUDING MEDICAL CARE VENDOR PAYMENTS, FISCAL YEAR ENDED JUNE 30, 1960

^{1/} BASED ON POPULATION AS OF APRIL 1, 1960 EXCLUDING ARMED FORCES OVERSEAS PUBLISHED BY BUREAU OF CENSUS. ^{2/} AID TO THE BLIND. ^{3/} AID TO THE PERMANENTLY AND TOTALLY DISABLED.

■ TOTAL PAYMENT. ▨ VENDOR PAYMENTS. * VENDOR PAYMENTS FOR MEDICAL CARE OF LESS THAN 50 CENTS PER INHABITANT. # 3

GENERAL ASSISTANCE

Expenditures for General Assistance are provided entirely from county funds provided through local property taxes. Expenditures increased to \$3,352,560.12 or 21.40 per cent from the \$2,761,562.25 spent in 1959.

Applications for General Assistance in 1960 totalled 10,663 with 290 of these carried over from 1959. During the year 9,170 applications were approved, 1,084 were denied as ineligible, 8 were otherwise disposed of and 401 were in process at the end of 1960.

An average caseload of 1,878 received cash and/or kind assistance during 1960 compared to 1,775 in 1959. The average 1960 monthly payment for cash and/or kind assistance was \$44.48 as compared to \$44.16 in 1959. The following table shows the distribution of General Assistance expenditures by type of assistance for 1958, 1959, and 1960 with percentage of change comparisons:

TYPE OF EXPENDITURE	Year			Per Cent Change	
	1958	1959	1960	1959 from 1958	1960 from 1959
TOTAL EXPENDITURES	\$3,180,577.13	\$2,761,562.25	\$3,352,560.12	-13.17	+21.40
Hospitalization	822,695.57	675,019.15	857,112.14	-17.95	+26.98
County Hospitals	630,313.98	491,249.21	822,413.77	-22.06	+67.41
Doctors and Drugs	571,285.96	539,537.06	598,919.34	- 5.56	+11.01
Assistance in Kind	574,592.98	551,514.27	594,250.16	- 4.02	+ 7.75
Cash Aid	473,033.18	388,944.95	408,099.39	-17.78	+ 4.92
County Homes	80,360.54	74,407.19	37,978.63	- 7.41	-48.96
Commodity Distrib.	16,282.54	26,034.05	21,433.60	+59.89	-17.67
Burials	12,012.38	14,856.37	12,353.09	+23.68	-16.85

The advance from 1959 to 1960 of 26.98 per cent in hospitalization expenditures as reported above is due principally to increases in daily rates by hospitals.

County hospitals show a rise of 67.41 per cent in expenditures from 1959 to 1960. The major increase was at Denver General Hospital and resulted from the institution of a procedure early in 1960 of checking admittances and discharges and carefully sorting out hospitalization of General Assistance cases. After finding the number of GA cases and days of hospitalization the hospital daily rate was applied, and the value of services rendered was found to be double the amount previously estimated. Increased hospital charges and caseload is also reflected.

Pueblo has converted its County Home into a Youth Center, and many other County Homes have been discontinued as such and the physical properties have been diverted to other uses. Welfare programs are aiding greatly in keeping families and

individuals in private homes unless nursing home care, hospitalization or another type of care is indicated. Hence the drop of 48.96 per cent in expenditures for County Homes as reported above.

Payments from General Assistance to supplement categorical assistance payments are shown below for 1958, 1959, and 1960:

CATEGORY SUPPLEMENTED	1958	1959	1960
TOTAL (ALL PROGRAMS)	\$779,781.37	\$585,389.27	\$655,732.33
Aid to Dependent Children	245,181.18	272,569.10	337,807.72
Aid to the Needy Disabled	362,949.53	274,669.67	284,746.23
Old Age Pension	160,428.15	28,667.72	25,465.75
Tuberculosis Assistance	6,154.09	4,773.45	5,006.82
Aid to the Blind	5,068.42	4,709.33	2,705.81

The largest increase in supplementation is in ADC and is primarily for dental care and glasses for children and medical care for mothers.

Supplementation to the Old Age Pension recipients reached a high of \$548,616.92 in 1957; subsequently in 1958 when the medical care program was started the supplementation dropped greatly and has continued to decrease.

CHILD WELFARE

Child Welfare expenditures during 1960 totalled \$1,121,506.50. This was an increase of \$216,303.82 or 23.9 per cent over 1959. County expenditures for Child Welfare Services totalled \$614,837.04 (54.82 per cent), State expenditures totalled \$496,636.75 (44.28 per cent), and Federal expenditures totalled \$10,032.71 (0.90 per cent).

The State participates in payments for board and room, allowances, personal supplies, and clothing for children in approved foster homes and institutions. During 1960 the federal government participated in the payment for care of children in residential treatment centers. Expenditures for transportation, medical care, hospitalization, and care in non-approved foster homes and institutions are made entirely from county funds.

Children in foster homes and institutions received a total of 405,833 days of care during 1960. The average daily expenditure per child was \$2.76 while the average monthly expenditure per child was \$76.17. The following table shows obligations by items of care provided. Figures shown have not been adjusted for cancellations or refunds.

ITEM OF CARE	Obligations	Per Cent of Total
TOTAL	\$1,121,506.50	100.00
Foster Care Payments	935,336.42	83.40
Clothing	71,327.81	6.36
Medical Care	33,084.44	2.95
Hospitalization	27,028.31	2.41
Allowance	25,794.65	2.30
Personal Supplies	21,645.08	1.93
Transportation	7,289.79	0.65

A total of 6,978 different children received various services under the Child Welfare Program during 1960.

The Child Welfare caseload at the end of December 1960 totalled 3,936 children. Of these, 1,940 were in the homes of parents, 290 were in the homes of relatives, 1,631 were in foster care--996 in boarding homes, 317 in adoptive homes, 298 in institutions, and 20 in other types of foster care. Protective services to children cases accounted for 1,642 of the 3,936 children.

The monthly average caseload during 1960 was 3,698 children of whom an average of 1,227 children each month were receiving foster care involving the expenditure of funds. A monthly average of 2,049 children were receiving casework services in the homes of parents or relatives. Most of the remaining children were in adoptive homes.

During 1960 an average of 21 homemakers gave care to an average of 55 children per month.

LIBRARY

During 1960 the Library circulated a total of 4,689 items, of which 2,757 were borrowed by county departments of welfare. All of the county departments except 16 used the Library one or more times. The State Staff borrowed 1,932 items.

The ten county departments which had the largest circulation were:

1. Denver	-	1,021	6. Weld	-	117
2. Adams	-	248	7. Yuma	-	113
3. Pueblo	-	205	8. Boulder	-	62
4. Larimer	-	142	9. Jefferson	-	56
5. Mesa	-	119	10. Las Animas	-	50

In addition to circulating 4,689 items, the Library answered a total of 2,091 reference questions during 1960. Most of these questions were answered in 15 minutes or less time, but an hour or longer was required to answer 117 questions.

Besides serving all public welfare employees, the Library gives courtesy reference service to numerous local social agencies, students and faculty of the University of Denver School of Social Work, other State departments, and the general public who seek special information in the field of social welfare. Individual reference service was given to students a total of 170 times during 1960.

A small film library of child welfare films is housed in the CSDPW Library. These films may be booked for showing by any qualified State staff member or county department staff member. A catalogue of these films is available.

THE LIBRARY COUNSELOR, a quarterly annotated bibliography of material in the Library in specific subject areas, is most helpful in keeping the county staffs informed on the over-all book stock of the Library.

SELECTED LIST OF RECENT ADDITIONS, a one sheet, briefly annotated list of current acquisitions, is published from two to four times per month to inform all State and county public welfare employees of new Library purchases. The technical and clerical employees find numerous helpful books on these lists.

PERSONNEL

The staff of the Colorado State Department of Public Welfare is appointed under regulations of the State Civil Service Commission. As of December, 1960, there were 120 employees in the department.

There were 979 employees in the sixty-three county departments of Public Welfare appointed under a state-wide Merit System. Of these, 463 positions were in the four counties in the Denver Metropolitan area. The State Department of Public Welfare establishes and administers the merit system for the selection, retention and promotion of county welfare employees. Through its Personnel Officer, the State Department of Public Welfare administers the compensation and classification plans for county department; and the Personnel and Merit System offices jointly administer rules and regulations for county employees and audit administrative payrolls. The Merit System Council recruits and examines applicants for county positions, certifies names of eligibles to county welfare departments for appointment and hears appeals.

A total of 124 positions were classified and established by the Personnel Office during 1960, and 52 positions were abolished, adding 72 positions during 1960.

Effective January 1960, a new six-step compensation plan was adopted for the four metropolitan county welfare departments--Denver, Adams, Arapahoe, and Jefferson, based upon an annual survey of salary rates in the community. For positions in other county departments, a six-step range was set up for supervisors and case workers with graduate social work training. An eight-step plan was established allowing a choice of any six consecutive steps for other positions in these county departments. At the end of the year, in addition to the four counties on the metropolitan plan, thirty-two counties were paying salaries to all or part of their employees under the highest possible series of steps adopted from the eight-step plan.

Provisions are in effect for salary advancements to employees based on merit and length of service. In September 1960, 846 of 959 county employees were above the minimum step. Of these, 127 were at the "seniority" step.

During the calendar year 1960, the Merit System scheduled four examinations. These were given in February, May, September, and December. Totals by category for these period were as follows:

	Number Applica- tions Received by Position	Number Applica- tions Received by Individual	Number Applica- tions Accepted by Position	Number Applica- tions Accepted by Individual	Positions Placed on Registers	Number Individ- uals Placed on Register
Totals	2,935	1,551	2,399	1,386	1,146	780
Feb.	694	335	574	299	259	167
May	648	355	539	320	271	184
Sept.	887	487	704	419	350	242
Dec.	706	374	582	348	266	187

Staff Development

Activities conducted during 1960 began with a week of orientation for newly appointed county welfare directors in May.

During the summer, 90 individuals from the county welfare staff attended four different workshops given at the University of Denver. Orientation for 39 new case workers was begun in November and will be repeated during 1961.
