Greetings,

I am pleased to publish the 1990 Abstract of Votes Cast which provides as complete a picture of Colorado voting behavior as our data will provide.

Compiled from material filled at our office, this publication profiles the voting patterns of Colorado voters both in the Primary and the General Election.

Some 1,046,139 electors exercised their voice at the polls in November 1990. This abstract is dedicated to those who realize that every voice is critical and counted in determining the direction of local and national governmental affairs. Our system of government would cease to exist without a concerned constituency who participates at every level of the electoral process.

Sincerely,

A handwritten signature in black ink, reading "Natalie Meyer". The signature is fluid and cursive, with the first name "Natalie" being more prominent and the last name "Meyer" following in a similar style.

Referenda initiated by the people require signatures of registered electors in an amount equal to 5% of the votes cast for all candidates for the office of Secretary of State at the previous General Election.

Party affiliation figures differ from "Vote" column as published in Abstract of Votes Cast at the General Election because of deferred registrations (persons who registered after the cut-off date for the General Election), failure to return absentee ballot, and overseas citizens registrations.
