## **INTRODUCTION**

According to data filed with the Secretary of State's office, paid solicitors conducting charitable solicitation campaigns in Colorado collected over \$190 million in donations on behalf of their clients in 2008. Of this total, \$90 million reached the charitable organizations after expenses for the campaigns were deducted, which represents 47.7% of the total donations, down from 48.7% in 2007.

Please note that nothing in the statute or regulations requires a paid solicitor to distinguish between contributions raised in Colorado and contributions raised nationally in the solicitation campaign financial report, so the data in the annual report consists of a mixture of national and Colorado-specific results.

Charitable organizations use a variety of methods to raise funds to support their missions. The one many think of first (contracting with a paid solicitor), is used by a relatively small number of charities, but these direct mail, radio, and telemarketing campaigns have a big public impact. The 2008 Annual Report on Charitable Solicitations sheds light on these campaigns, so Colorado residents can see where their donations go.

The report covers the period from December 1, 2007 – November 30, 2008. It is based on the results of 280 solicitation campaign financial reports.

In addition to the information provided in this report, the Secretary of State's electronic charities database contains annually updated disclosure information filed by 6,851 charitable organizations, 136 paid solicitors, and 43 professional fundraising consultants. These registration statements include basic identifying information on all registered entities, such as the entity's location, legal form and date of formation, and executive personnel. In addition, charitable organizations list their charitable purpose, directors, and tax-exempt status, and they file annual financial statements listing revenues and expenses. Consumers are encouraged to consult these registration statements in addition to the annual survey of professional fundraising campaigns. Additional information can be requested from a charitable organization directly. For example, the organization may publish its own annual report containing a detailed financial statement and other educational material concerning its mission and program services. Most charitable organizations registered with the Secretary of State also file federal Form 990 or Form 990-EZ annual information returns with the Internal Revenue Service. If so, they are required by law to provide a copy of such forms as well as a copy of their IRS tax-exempt application upon request.

Collectively, these sources of information help answer one of the most frequently asked questions among potential donors – where does the donation go?

## **PURPOSE OF THE REPORT**

The purpose of the 2008 Annual Report on Charitable Giving is to provide valuable information to consumers who are considering making donations to charitable organizations. It includes a survey of fundraising activities conducted by professional fundraisers on behalf of charitable organizations registered to solicit contributions in Colorado. The report is required by Title 6, Article 16 of the Colorado Revised Statutes, the Colorado Charitable Solicitations Act.

Thousands of charitable organizations in Colorado provide vital services not otherwise provided by government or the private sector, and the vast majority of these organizations are pursuing their missions with tremendous dedication and integrity. The goal of the charities registration program and the annual report is to *increase the confidence of potential donors as they make their giving decisions*, which will lead to *increased donations for legitimate and efficient charitable organizations*. The registration program and annual report are also intended to assist charitable organizations in making informed decisions when contracting with paid solicitors.

## **THE COLORADO CHARITABLE SOLICITATIONS ACT**

Title 6, Article 16, Colorado Revised Statutes.

The Colorado Charitable Solicitations Act applies to three broad categories of filers: charitable organizations, paid solicitors, and professional fundraising consultants. A **charitable organization** is defined as any person who is or holds himself out to be established for any benevolent, educational, philanthropic, humane, scientific, patriotic, social welfare or advocacy, public health, environmental conservation, civic, or other eleemosynary purpose, any person who operates for the benefit of the objectives of law enforcement officers, firefighters, other persons who protect the public safety, or veterans, or any person who in any manner employs a charitable appeal or an appeal which suggests that there is a charitable purpose as the basis for any solicitation. A **paid solicitor** is a person who, for monetary compensation, performs any service in which contributions will be solicited in Colorado by such compensated person or by any compensated person he or she employs to solicit for contributions. It should be noted that a director, officer, or compensated employee who is directly employed by a 501 (c) (3), (c) (4), (c) (8), (c) (10), or (c) (19) charitable organization is not considered a paid solicitor, nor is a bona fide volunteer. Fundraising activities by such persons will be reflected in the charitable organization's financial statements (which can be viewed online in the charitable database), not in the annual report on charitable solicitations, which is concerned with solicitation campaigns directed by paid solicitors. Finally, a **professional fundraising consultant** is any person, other than a bona fide officer or regular employee of a charitable organization, who is retained by a charitable organization for a fixed fee or rate under a written agreement to plan, manage, advise, consult, or prepare material for a solicitation of contributions for a charitable organization, but who does not solicit contributions or employ, procure, or engage any compensated person to solicit contributions.

**Professional fundraising consultants** do not need to register unless they will have custody or control of contributions from a solicitation, but they are subject to other requirements concerning contracts, banking, and record-keeping. They are also obligated to provide financial reports of solicitation campaigns directly to the charitable organizations, but since they are not required to

file these financial reports with the Secretary of State, their activities are not reflected in the annual report.

**Paid solicitors**, in addition to filing annual registration statements, must file a solicitation notice before commencing a solicitation campaign, then must file a financial report on the results of such a campaign within 90 days of its conclusion. The annual report summarizes the results of these solicitation campaigns.

## **THE ROLE OF THE SECRETARY OF STATE**

The Secretary of State issues registration numbers to charities, paid solicitors, and professional fundraising consultants, and publishes an annual report on charitable solicitations.

When the Colorado Charitable Solicitations Act was amended in the spring of 2001, legislators designated the Secretary of State as the responsible officer for creating and maintaining an electronic charities registration program and publishing an annual report on charitable solicitations activities. Persons subject to its requirements electronically file all required documents directly on the Secretary of State's web site, and the information is immediately made available for public inspection in the charitable database. Any consumer who has questions about a charitable organization, paid solicitor, or professional fundraising consultant can review their filings from any location with a connection to the Internet. Such instant access and wide availability greatly speeds the decision-making process for potential donors and makes consumers a key ally in the Secretary of State's efforts to monitor charitable solicitations activities in Colorado.

Each registrant is assigned a registration number, the status of which may change, depending on whether or not its filings are up-to-date, whether it is still active, and whether it has been subject to disciplinary action. Consumers can easily determine whether or not a charitable organization, paid solicitor, or professional fundraising consultant is properly registered and has filed all the necessary reports in a timely manner. With this new program, it is possible to defend oneself against an unscrupulous telemarketer by simply asking for the caller's registration number and confirming the entity's status on the web site. If it is not registered, insist that it register or explain why it is not subject to the registration requirements before considering making a donation.

Bearing in mind that most charitable organizations have honest intentions, engage in perfectly legal professional fundraising campaigns that conform with industry standards, and provide vital, effective services to our communities, if you have any doubts about a particular solicitor's representation (pitch), or if you have any other concerns about the activities of a charitable organization, paid solicitor, or professional fundraising consultant, you can lodge a complaint with the Secretary of State on the web site, by email to [charitable@sos.state.co.us](mailto:charitable@sos.state.co.us), or by calling the Charitable Solicitations Section of the Licensing Division at (303) 894-2200, ext. 6487. Depending on the nature of the complaint, the Secretary of State may contact the charitable organization or professional fundraiser directly in order to achieve compliance with legal filing requirements, or she may refer the matter to the Colorado Attorney General or appropriate District Attorney.

## **PUTTING THE INFORMATION TO USE**

The information in the annual report provides important clues as to whether or not donations solicited by professional fundraisers are being used as donors intended. While most donors understand that fundraising entails costs, many are not aware of the amount of those costs for a particular solicitation campaign, nor do they have an objective standard in mind regarding appropriate fundraising costs.

It may help to know that the **BBB Wise Giving Alliance** ([www.give.org](http://www.give.org)), affiliated with the Council of Better Business Bureaus, has established a set of non-binding Standards of Charitable Accountability as a guide to evaluating the efficiency of fundraising campaigns. According to its web site, The Standards for Charity Accountability were developed with professional and technical assistance from representatives of small and large charitable organizations, the accounting profession, grant making foundations, corporate contributions officers, regulatory agencies, research organizations and the Better Business Bureau system. The BBB Wise Giving Alliance also commissioned significant independent research on donor expectations to ensure that the views of the general public were reflected in the standards. Some of the key standards that may interest potential donors include:

- ❑ With respect to an organization's finances, charities should spend at least 65% of total expenses on program activities, i.e., Total Program Service Expenses divided by Total Expenses should be at least 65%.
- ❑ Charities should spend no more than 35% of related contributions on fund raising, i.e., Total Fund Raising Expenses divided by Total Related Contributions should be no more than 35%. Related contributions include donations, legacies, and other gifts received as a result of fund raising efforts.
- ❑ Charities should avoid accumulating funds that could be used for current program activities. To meet this standard, the charity's unrestricted net assets available for use should not be more than three times the size of the past year's expenses or three times the size of the current year's budget, whichever is higher.
- ❑ Make available to all, on request, complete annual financial statements prepared in accordance with generally accepted accounting principles.
- ❑ Include in the financial statements a breakdown of expenses (e.g., salaries, travel, postage, etc.) that shows what portion of these expenses was allocated to program, fund raising, and administrative activities.
- ❑ Accurately report the charity's expenses, including any joint cost allocations, in its financial statements. For example, audited or un-audited statements which inaccurately claim zero fund raising expenses or otherwise understate the amount a charity spends on fund raising, and/or overstate the amount it spends on programs will not meet this standard.

The **American Institute of Philanthropy (AIP)** ([www.charitwatchdog.org](http://www.charitwatchdog.org)) is another well-known charity watchdog that makes very similar recommendations, including:

- ❑ A charity should spend 60% or more of its Total Expenses on its charitable programs, with the remaining percentage being spent on Fundraising and General Administration.
- ❑ It should not cost more than \$35 to raise \$100 of funds. In other words, Total Fundraising Expenses divided by Total Related Contributions should be no more than 35%. AIP defines *related* contributions as money that is brought in as a result of fundraising activities. AIP is critical of charities that erroneously compare their cost to raise money with Total Income, which, according to AIP, can include patient revenue, investment income, sales proceeds and other items that are not affected by fundraising outlays. AIP says this faulty comparison often makes a charity's fundraising efficiency appear better than it actually is.
- ❑ AIP examines a charity's reserves of available assets to determine how long it could continue to operate at current levels without any additional fundraising. It defines a charity's "years of available assets" as funds currently available for the charity's use, including investments that the charity has set aside as a reserve but could choose to spend if it wanted to do. AIP recommends a reserve of less than three years and gives a failing grade to the "least needy" groups with reserves of more than five years, believing that the public's donations are most urgently needed by charities that do not have large reserves of available assets.

The Secretary of State has provided links to the Wise Giving Alliance, the American Institute of Philanthropy, and other organizations, such as Charity Navigator, Wall Watchers' MinistryWatch, and the Evangelical Council for Financial Responsibility that rate charitable organizations later in this report. These frequently-cited industry standards for evaluating charities are very useful tools, and they are an important part of the picture to be sure, but such attempts to objectively measure the efficiency of charitable organizations should be placed in context. Here are some questions a person might ask that could provide more perspective to an individual fundraising campaign:

- ❑ Is the purpose of the campaign simply to raise as much money as possible, to acquire new donors for the future, to reinstate lapsed donors, or is it for some other purpose, which is merely a part of the overall fundraising strategy?
- ❑ Does the solicitation campaign directly serve some other program purpose of the charity beyond the raising of funds in this particular solicitation campaign?
- ❑ Are there other sources of revenue?
- ❑ Has the organization conducted similar campaigns in the past? Is this a newly-created organization?
- ❑ Are there donor restrictions on the use of funds, exceptional bequests, or a stigma associated with a cause and environmental or political events beyond an organization's control?

A charity's total fundraising costs may not resemble those of a particular campaign directed by a paid solicitor, so it is important to view all of the charity's financial information. The information in the annual report -- when considered alongside the information in a charitable organization's annual registration and financial statement -- can provide valuable insights, though, and consistently high fundraising costs may be a cause for concern and warrant a closer look by donors.

### **TIPS ON WISE GIVING**

Even though donors can usually rely on charities to be good stewards of their donations and to operate an efficient organization, it is still very important to be informed and cautious when considering your charitable giving options, especially in response to telephone solicitations. Unscrupulous solicitors rely on the fact that many donors do not monitor the use of their donations, so unsuspecting donors usually do not even become aware of the fact that their generous and heart-felt contributions may have been wasted. Your charitable contributions should actually reach the people in need of your assistance. Charitable organizations should not need to worry that their contributions may be impacted by donor uncertainty. Reputable charities welcome questions from potential donors, so don't hesitate to ask questions or request materials by mail.

So what should you know before donating to a charitable organization?

Naturally, donors want to know whether or not the charitable organization is fulfilling its charitable purpose in an effective manner through its program services and/or educational activities. While this question cannot always be answered simply by consulting the annual report or an entity's registration and financial statements filed with the Secretary of State, certain basic information can go a long way toward reassuring you of an organization's ability to carry out its mission. Most of the information listed below comes from the Attorney General and Secretary of State's jointly produced brochure, "*10 Tips on Wise Giving.*"

1. First, you should confirm that the charity (and/or paid solicitor) is registered with the Secretary of State by asking for the registration number. If a paid solicitor is calling on behalf of a charitable organization, ask for *both* registration numbers.
2. Check the charity's disclosure and financial statements at [www.sos.state.co.us](http://www.sos.state.co.us) before donating.
3. If it's important to you that your donation be tax-deductible, you should confirm the organization's tax-exempt status, because donations are potentially tax-deductible only to specific types of tax-exempt organizations (**see Appendix**). Unlike organizations exempt under section 501(c)(3), organizations exempt under sections 501(c)(4) through (c)(9), in most cases, are not eligible to receive tax-deductible contributions. Do not be misled by the mere disclosure of a federal employer identification number (FEIN). Any organization can apply for a FEIN without ever applying to the IRS for tax-exempt status; by itself, this information is meaningless.

4. Be wary if the charity fails to provide information about its finances. Reputable charities will gladly provide the information requested.
5. Determine how much of your donation will actually go to the charitable organization. The annual report details the results of each completed solicitation campaign conducted by paid solicitors, so potential donors can see the gross proceeds, an itemization of expenses, and the percentage of gross proceeds retained by the charity for a particular campaign. To see a charitable organization's overall contributions and fundraising expenses, consult the annual registration statements it files with the Secretary of State, the federal annual information returns it files with the Internal Revenue Service (Form 990, 990-EZ, or 990-PF), and/or the charity's own financial statements (an audited or reviewed financial statement is best, although smaller charities may not be able to afford such accounting services).
6. Request printed material that describes the charity's programs, details how it uses its money, and lists its address and phone number. Be wary if the charity does not want to provide information about its programs and finances. Reputable charities will gladly provide the information requested.
7. Watch out for charities with names that sound similar to well-known organizations. Sometimes these sound-alike names are simply intended to confuse donors.
8. Do not pay in cash – donate by check made payable to the charity.
9. If solicited in person, ask to see the solicitor's and charity's identification.
10. Keep in mind that some well-known organizations, such as the Red Cross, will never solicit contributions over the telephone.
11. Beware of unsolicited email. Instead, go directly to the organization's web site, or call to make donations.
12. If you feel uncomfortable, simply say, "No thank you."

## THE TABLES

### (1) Distribution of Solicitation Campaigns

This chart shows what percentage of all solicitation campaigns fell within certain bands of “percentage of gross proceeds retained by charity.”

### (2) Paid Solicitor Summary

Aggregates all campaigns for which a particular solicitor has filed a solicitation campaign financial report. Shows gross collected, total expenses, average percent to charity, lowest percentage of gross proceeds to charity, highest percentage of gross proceeds to charity. “Average percent to charity” is calculated by dividing the Net to Charity by Gross Proceeds for each paid solicitor. . The “Clients” column includes charities on whose behalf campaign reports were filed from Dec. 1, 2007 – Nov. 30, 2008. If the number of clients is less than the number of campaigns listed, this is due to the fact that the paid solicitor ran more than one campaign for the same client.

### (3) Solicitation Campaigns Sorted by Paid Solicitor

Results of each individual solicitation campaign for which a campaign report was filed. Sorted by paid solicitor. Lists campaign dates, gross proceeds, expenses, net to charity, percentage of gross proceeds to charity.

### (4) Solicitation Campaigns Sorted by Charitable Organization

Results of each individual solicitation campaign for which a campaign report was filed. Sorted by charitable organization. Lists campaign dates, gross proceeds, expenses, net to charity, percentage of gross proceeds to charity.

### (5) Solicitation Campaigns Sorted by Percent to Charity

Results of each individual solicitation campaign for which a campaign report was filed. Sorted by “percent to charity.” Lists campaign dates, gross proceeds, expenses, net to charity, percentage of gross proceeds to charity.

### (6) Charity Revenue and Expense Highlights

Main revenue and expense items reported by each registered charity, regardless of whether or not it contracted with a commercial fundraiser. Sorted alphabetically.

### (7) Colorado Charity Revenue and Expense Highlights

Same as Table 6, only narrowed to Colorado charitable organizations, i.e., charitable organizations with principal address in Colorado.

(8) Campaign Reports vs. Solicitation Notices Comparison (Contracts Not Percentage-Based)

A report based on contracts that were not percentage-based, Tables 8 compares the *predicted* results of a solicitation campaign as disclosed by paid solicitors on solicitation notices to the *actual* results of a campaign as reported on solicitation campaign financial reports.

(9) Campaign Reports vs. Solicitation Notices Comparison (Percentage-Based Contracts)

A report based on percentage-based contracts, Tables 9 compares the *predicted* results of a solicitation campaign as disclosed by paid solicitors on solicitation notices to the *actual* results of a campaign as reported on solicitation campaign financial reports.

*Note: Names are displayed in tables as entered by the organizations.*

**COLORADO SECRETARY OF STATE'S OFFICE**

**ANNUAL REPORT ON CHARITABLE SOLICITATIONS**

**2008**

**Part 2**

**P**art Two of the 2008 Annual Report provides summary financial information

for all 5,815 charitable organizations that filed financial reports covering any accounting period that ended in 2007. Information believed to be of particular interest to potential donors has been excerpted from the complete financial report for each organization. *On the revenue side, only Total Revenue and Contributions are displayed in Table 6 and Table 7 of the Annual Report.* Each organization's complete financial report includes additional revenue categories for Government Grants, Program Service Revenue, Investments, Special Events and Activities, Sales, and Other Expenses. *On the expense side, Table 6 and Table 7 display only Total Expenses, Program Services Expenses, Fundraising Expenses, and Administration-Management-General Expenses.* Each organization's complete financial report includes additional expense categories for Payments to Affiliates and Other Expenses, which are not reflected in this report.

The financial information displayed is information that was on file with the Secretary of State's office as of November 30, 2008 at 11:59 p.m. Since financial reports are due by the 15<sup>th</sup> day of the fifth month following the close of an organization's fiscal year, the due dates vary. Nevertheless, the last 2007 reports due were those of calendar year organizations, whose accounting periods ended on Dec. 31, 2007. The initial due date for calendar year organizations was May 15, 2008. Since up to two extensions of the deadline may be requested by a charitable organization (three months each), all 2007 financial reports were due by Nov. 15, 2007, at the latest. The number of organizations listed in Table 6 (5,815) is less than the total number of charities in the registry (6,851), as of 12/01/08), because many charities are overdue with their filings. Any organization that has not yet reported on an accounting period that ended in 2007 is now delinquent or suspended. ***If it is suspended, it should not be soliciting contributions from the public until its filings are brought up to date.***

For a number of reasons, it is possible that a charitable organization could be registered now, despite not being listed in Part Two of the 2008 Annual Report. Similarly, an organization listed in this report may have had its registration withdrawn, suspended, or revoked since publication, so the reader is encouraged to check the online Charitable Database for the most current information on any charitable organization.

Please bear in mind that the information summarized in this report reflects the general financial condition of charitable organizations registered to solicit contributions in Colorado. The totals do not reflect activity in Colorado alone. More specifically, *Total Contributions* as listed in the report does not reflect total donations by Coloradans. Such information on total donations by Colorado residents must be culled from data contained in individual federal income tax returns, which can be found on the Internal Revenue Service's web site ([www.irs.gov](http://www.irs.gov)) in the Statistic of Income Bulletin.

Each revenue and expense category included in Table 6 and Table 7 is explained in detail below. Total Revenue and Total Expenses are taken from the organization's overall

financial report, so these amounts reflect more than the sum of the specific revenue and expense items included in Table 6 and Table 7.

***Contributions (Revenue)***

*(Corresponds to Line 1a + Line 1b + Line 1c of the Form 990, or line 1 of the Form 990-EZ).* This amount corresponds to the sum of line 1a + line 1b + line 1c of the Form 990. Enter the gross amounts of contributions, gifts, grants, and bequests, that the organization received directly from the public and through special events. Include amounts received from individuals, trusts, corporations, estates, and foundations, or raised by an outside professional fundraiser. Include all funds raised by an outside fundraiser in a charity's name and not just the amount actually received by the charity. Include contributions and grants from public charities and other exempt organizations that are neither fundraising organizations nor affiliates of the filing organization. If the organization is a sponsoring organization that maintains one or more donor advised funds, include gross amounts of contributions, gifts, grants, and bequests received for all donor advised funds the organization maintains. Report membership dues and assessments that represent contributions from the public rather than payments for benefits received or payments from affiliated organizations. Report amounts contributed by a commercial co-venture as a contribution received directly from the public. These are amounts received by an organization (donee) for allowing an outside organization (donor) to use the donee's name in a sales promotion campaign. Also enter the total contributions received indirectly from the public through solicitations campaigns conducted by federated fundraising agencies and similar fundraising organizations (such as a United Way organization and certain sectarian federations), and from other organizations closely associated with the reporting organization (including contributions received from a parent organization, subordinate, or another organization with the same parent).

***Program Services (Expense)***

*(Corresponds to Line 13 of the Form 990; no corresponding entry on the Form 990-EZ).* Program services are mainly those activities that the reporting organization was created to conduct and which, along with any activities commenced subsequently, form the basis of the organization's current exemption from tax. They may be self-funded or funded out of contributions, accumulated income, investment income, or any other source. Program services can also include the organization's unrelated trade or business activities. For example, publishing a magazine is a program service even though the magazine contains both editorials and articles that further the organization's exempt purpose and advertising, the income from which is taxable as unrelated business income. If an organization receives a grant to do research, produce an item, or perform a service, either to meet the grantor's specific needs or to benefit the public directly, the costs incurred represent program service expenses. Do not treat these costs as fundraising expenses, even if you report the grant as a contribution above.

***Administration – Management – General (Expense)***

*(Corresponds to Line 14 of the 990; no corresponding entry on the 990-EZ).* Report the organization's expenses for overall function and management, rather than for its direct conduct of fundraising activities or program services. Overall management usually includes the salaries and expenses of the chief officer of the organization and that officer's staff. If part of their time is spent directly supervising program services and fundraising activities, their salaries and expenses should be allocated among those functions. Other expenses to report here include those for meetings of the board of directors or similar group; committee and staff meetings (unless held in connection with specific program services or fundraising activities); general legal services; accounting (including patient accounting and billing); general liability insurance; office management; auditing, personnel, and other centralized services; preparation, publication, and distribution of an annual report; and investment expenses. Report only general here. Do not use this field to report costs of special meetings or other activities that relate to fundraising or specific program services.

***Fundraising (Expense)***

*(Corresponds to Line 15 of the 990, no corresponding entry on the 990-EZ):* Fundraising expenses are the total expenses incurred in soliciting contributions, gifts, grants, etc. Report as fundraising expenses all expenses, including allocable overhead costs, incurred in (a) publicizing and conducting fundraising campaigns, including any fees paid to outside fundraisers for solicitation campaigns they conducted or for consultation services connected with a solicitation of contributions by the organization itself; (b) soliciting bequests and grants from foundations or other organizations, or government grants; (c) participating in federated fundraising campaigns; (d) preparing and distributing fundraising manuals, instructions, and other materials; and (e) conducting special events that generate contributions in addition to revenue.

**Better Business Bureau Standard** Spend no more than 35% of related contributions on fund raising. Related contributions include donations, legacies, and other gifts received as a result of fund raising efforts.

**American Institute of Philanthropy (AIP) Standard** AIP refers to this as the cost to raise \$100. This dollar amount reflects how much is spent to raise each \$100 of funds collected. In AIP's view, \$35 or less to raise \$100 is reasonable for most charities. AIP helps you to judge the fundraising efficiency of a charity by comparing fund-raising expense with related contributions, i.e., money that was brought in as a result of fundraising activities; whereas many charities compare (by pie charts or ratios) their cost to raise money with total income, which can include patient revenue, investment income, sales proceeds and other items that are not affected by fundraising outlays. This ratio is useful because it tells donors how much a charity is spending to obtain your contribution and how much is left to spend on charitable programs and general administration.

**Better Business Bureau Standard:** Spend at least 65% of total expenses on program activities.

**American Institute of Philanthropy (AIP) Standard:** This is the portion of total expenses that is spent on charitable programs. In AIP's view, 60% or greater is reasonable for most charities. The remaining percentage is spent on fundraising and general administration.

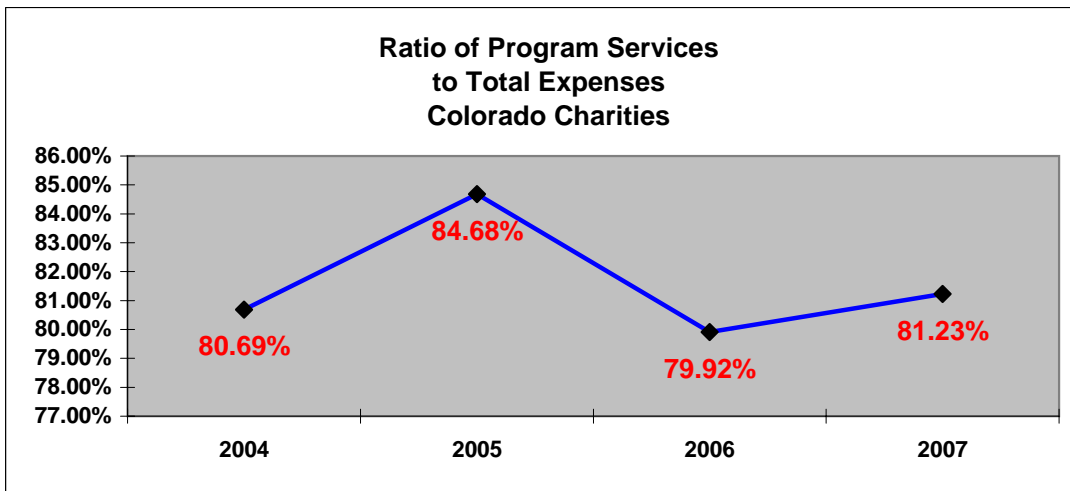

**Charity Navigator Standard (from [www.charitynavigator.com](http://www.charitynavigator.com)):** Charities exist to provide programs and services. They fulfill the expectations of givers when they allocate most of their budgets to providing programs. Charities fail givers expectations when their spending on programs is insufficient. To rate a charity's program expenses, we divide its program expenses by its total functional expenses. Charity Z spends \$2.5 million on program expenses, compared with its overall operating budget of \$3.5 million. Thus, Charity Z spends 71.4% on program expenses. If a charity spends less than a third of its budget on the programs and services it exists to provide, then we automatically give that charity a score of zero for organizational efficiency. Program Expenses < 33.3%: Our data shows that 7 out of 10 charities we've evaluated spend at least 75% of their budget on the programs and services they exist to provide. And 9 out of 10 spend at least 65%. We believe that those spending less than a third of their budget on program expenses are simply not living up to their missions.
