Region 3

- \$425,000 – Transportation Commission Contingency Reserve (TCCRF) – West Vail Pass -Black Gore Creek Bridge (*F-11-AS*) – Emergency Bridge Restoration – This bridge was scheduled for an upcoming Maintenance project to replace 16 severed anchor bolts. However, an inspection on 11/5/2010 revealed that the primary load path for the structure has been interrupted, warranting an emergency status, as a failure of the remaining anchor bolts would cause the south-eastern end of the bridge to deflect upward, creating an immediate threat to public health, welfare, and safety, and adversely impacting the preservation of the interstate infrastructure. I-70 traffic is down to one lane in the eastbound direction until restoration work can be completed and a determination made that it is safe to reopen the lane to traffic. SAFETY INVESTMENT CATEGORY

“Services, programs, and projects that reduce fatalities, injuries, and property damage for all users of the system”

Budget actions requested:

PROGRAM DELIVERY INVESTMENT CATEGORY

“Support functions that enable the delivery of CDOT’s programs and services”

Budget actions requested:

- \$125,759 – Transfer Transportation Contingency Reserve Fund (TCCRF) to Payroll Cost Center (C0674-010) – The FY 2010 separation pay process was insufficiently funded at fiscal year end. (C0674-010/1000...)
- \$9.2 million of Transportation Commission Contingency funds and \$8.9 million of local funds is requested to support the Division of Transit and Rail's 2011 FTA program.
CONTINGENT UPON RECONCILIATION AND REPAYMENT OF FY 2010 LOAN.

Colorado receives federal transit funds from the Federal Transit Administration (FTA) through a formula grant program. The CDOT Transit and Rail Division is a pass-through agency for the FTA funds. CDOT contracts with local agencies using federal dollars to provide operating, capital, and administrative funding. Contracts follow a calendar year. Currently, Congress has not passed a transportation appropriations bill nor a reauthorization bill for federal fiscal year 2011, that began October 1, and in recent years has not passed such bills until a few months into the fiscal year, choosing instead to enact continuing resolutions that only provide partial funding which hampers contract execution.

It appears to be the case that Congress will not enact a law in time to execute contracts by January 1, 2011. Without funds to cover these grants, DTR cannot contract with the local grant recipients. DTR is aware of the current fiscal constraints and has prioritized its loan request. Operating funds are critical to local transit providers; at this time DTR is requesting a \$9.2 million loan from the Commission's contingency fund to cover operating contracts in order to prevent a disruption of service for the local transit operators. DTR's intent is to repay the loan when federal funds become available for 2011. This arrangement has been approved by the Commission for the last several years. Following is a breakdown of the requested funding for operating expenses:

OPERATING

<u>Grant Program</u>	<u>Federal Funds</u>	<u>Local</u>	<u>Total Funds</u>
5310 - Mobility Management	\$315,000	\$65,000	\$ 380,000
