**MEMORANDUM**

DATE: March 16, 2016  
TO: Transportation Commission  
FROM: Maria J. Sobota, Chief Financial Officer  
SUBJECT: Ninth Supplement - FY 2016

---

The project request included in the Supplement are consistent with the FY 2016 through FY 2019 STIP. Funds are available from the Regions' allocations unless otherwise indicated.

Per Transportation Commission direction, Emergency Relief project updates are included in the Budget Supplement.

The RAMP Partnership and Operations Master Summary Report is not being included this month due to the brevity of the meeting. It will return in April.

**Division of Highway Maintenance**

**\$1,569,849** – Transfer from the *Transportation Commission Contingency for Snow and Ice* to the Grand Junction and Durango Maintenance Sections. This request will fund 40% of the projected shortfall within these sections with approximately 33% of the season remaining. (PST-TCS-15)

**RAMP Contingency**

**Region 1**

**\$3,500,000** - *I-25/ARAPAHOE RD INTERCHANGE-RAMP Contingency* -Request additional funds for RAMP project 1-46 based on current estimate prior to advertisement. RAMP approved total cost would increase to \$84,750,000. In addition to the RAMP Contingency funds an additional \$1,250,000 of Highway Safety Improvement funds are also being added. (19192/1000...)

*This item is being included in the Supplement as it increases the RAMP project cost. Please see the Program Management Office memo for more information.*

**Confirmation Item**

**\$5,000,000** – *ER I-70 Glenwood Canyon MP 124.2– TCCRF*- Emergency repair for rockslide in Glenwood Canyon. FHWA has provided \$1,000,000 of Emergency Relief via a “quick release” which should allow for funds to be returned to TCC in the next month. The remaining Federal ER funds will be reimbursed at a later date.

*This action was approved via Confirmation Item in February.*

**Informational Item**

**RoadX**

**\$2,000,000** – *I-25 South Metro/Managed Motorway Demonstration–RoadX*- The Colorado Managed Motorways project would build upon the Intelligent Transportation Systems (ITS) applications already present in the I-25 corridor, including ramp metering and traveler information systems, to improve the overall average speed and vehicular throughput in the corridor during peak demand (rush hour).

*Refer to the January Commission RoadX workshop and memo.*
