

FY 2021 PERFORMANCE PLAN - ANNUAL PERFORMANCE EVALUATION

Strategic Policy Initiatives

The Colorado Department of Transportation (CDOT) FY2020-21 Performance Plan identified three Strategic Policy Initiatives (SPIs) for fiscal year 2021: Whole System, Whole Safety; Clean Transportation; and Accountability and Transparency. The Performance Plan and SPIs capture the Department's strategic and operational priorities, and reflect the overall direction as identified by Department leadership. CDOT has provided this Annual Evaluation report to update progress on the SPIs. Additional details on these SPIs are available in the Department's FY21 Performance Plan, which may be accessed from the Department's external website: [Performance Plan - Strategic Goals](#).

Whole System, Whole Safety

Improve the safety of Colorado's Transportation System, by reducing the overall vehicle crash rate per 100 million vehicle miles traveled by two percent by June 30, 2021 and by six percent by June 30, 2023, from the estimated calendar year 2019 baseline of 223 crashes per 100 million vehicle miles traveled.

Clean Transportation

Reduce pollution in our air and congestion on our roads by reducing vehicle miles traveled (VMT), greenhouse gas emissions, and ozone causing emissions from the transportation sector, using multimodal options, by one percent per capita by June 30, 2021 and by three percent per capita by June 30, 2023, from the pre-COVID estimated calendar year 2019 baseline of 9,300 VMT per capita, 4.20 tons of greenhouse gases (CO₂e) per capita, 2.0 pounds of volatile organic compounds (VOC) per capita, and 9.5 pounds of nitrogen oxides (NO_x) per capita.

Accountability & Transparency

Ensure that pre construction (excluding right of way acquisitions) and construction engineering costs for Senate Bill 17 267 construction projects account for no more than 20 percent of total project costs in fiscal year 2021, and throughout fiscal years 2022 and 2023, down from the current 24 percent.

Whole System, Whole Safety

Initiative Goal: Improve the safety of Colorado's Transportation System

Improve the safety of Colorado's Transportation System, reducing the overall vehicle crash rate per 100 million vehicle miles traveled VMT by two percent by June 30, 2021 and by six percent by June 30, 2023, from the estimated calendar year 2019 baseline of 223 crashes per 100 million vehicle miles traveled.

¹Vehicle Crash Data is subject to a three-month delay as the Department compiles data from the Department of Revenue and hundreds of law enforcement agencies across the state and performs quality assurance on the data. The actual number of vehicle crashes should be considered preliminary until one-year after the close of the reporting year.

²Total Striped Miles is a count of the total completed miles with 6" reflective striping on the state highway system.

³Traffic Incident Management data was updated the September 2020 data in Q2.

¹VMT per capita monthly estimates are provided by the Federal Highway Administration using past reported VMT adjusted for traffic counts reported on a monthly basis from each state delayed 60 days , with current months estimated from CDOT traffic counts. The data is subject to change until final VMT counts are published for the state on June 15, 2021 CY 2020 VMT and June 15, 2022 CY 2021 VMT .

²CO₂e, VOC, and NO_x emissions are estimated using VMT estimates provided monthly from FHWA CDOT traffic counts. This data is independent of the State GHG Rulemaking and GHG Emissions and may be adjusted in the future to coordinate with that effort. Population estimates provided by the Colorado Demographers Office were updated from 2019 estimates to 2020 estimates in October 2021. The updated population estimates changed inputs for our models, which resulted in adjusted greenhouse gases, VOC, and NO_x emission estimates.

³Colorado Energy Office CEO identified a coding error on their VIN decoder that was counting certain hybrids as EVs. The number of new registrations has been updated to reflect the correct number of new registrations after CEO addressed the error.

Accountability and Transparency

Initiative Goal: Limit pre-construction costs to no more than 20 percent of total construction costs

Ensure that pre-construction (excluding right-of-way acquisitions) and construction-engineering costs for Senate Bill 17-267 construction projects account for no more than 20 percent of total project costs in fiscal year 2021, and throughout fiscal years 2022 and 2023, down from the current 24 percent.
