

HB 10-1014 Report

Calendar Year 2012 Annual Report of Fatal Crashes in State Highway Work Areas

Section 1. Purpose:

The HB 10-1014 requires the Department of Transportation and the Colorado State Patrol to annually present a joint report to the Transportation and Energy Committee of the House of Representatives and the Transportation Committee of the Senate regarding fatal accidents occurring in state highway work areas.

Section 2. Calendar Year 2012 Work Zone Fatality Data:

CDOT conducted an analysis of data derived from the Fatality Analysis Reporting System (FARS) to determine the number and attributes of work zone fatalities occurring in state highway work areas during Calendar Year 2012. The FARS System contains data on all vehicle crashes in the United States that occur on a public roadway and involves a fatality. A couple of comments about the query are necessary:

- CDOT has chosen to use the ANSI D-16.1-2007 (Manual on Classification of Motor Vehicle Traffic Accidents) federal definition of “work zones” to determine the total number of crashes/fatalities. This standard does not differentiate between construction and maintenance work zones.
- In keeping with the state statutory definition of “construction zones”, troopers and other officers investigating crashes have not indicated whether or not workers are present in the construction zone at the time of these fatal crashes. The legal definition does not differentiate between a construction zone with workers present and one without active work taking place.

As requested in HB 10-1014, the following information is provided: **Summary of total number of fatal crashes and total number of individuals killed**

In Calendar Year 2012, there were a total of 6 fatal crashes statewide in state highway work zones in which 8 people died. This is 1 more crash but two less fatalities than 2011 or 20% reduction.

Appendix A contains a summary of the statewide fatal crashes in state highway work areas for Calendar Year 2012.

A. Categorization of total number of individuals killed (DOT employees, contractors or subcontractors, other individuals)

In Calendar Year 2012, the 8 fatalities consisted of five drivers and three workers. In 2012, fatal accidents in state highway work areas during the year for CDOT employees, contractors, or subcontractors was three. The accident summary and categorization below provides the facts of the events. The accident was reviewed by the Safety Advisory Committee and no findings were

identified to develop new measures to prevent fatal accidents. The construction site after review by the Colorado State Patrol and the engineering staff found no deficiencies in the traffic control plan or action by the flagger.

SUMMARY - Fatality on Colorado Highway 69 near Westcliffe

Date: July 31, 2012

Location: Colorado Highway 69 near Westcliffe, in Custer County at Milepost 58

Time: 13:24

CDOT Construction Project: Yes

Fatal for Sub-Contractor, Mountain Barricade, Inc., male employee who was designated as a flagger;

Fatal for Citizens involved: 1 person from Vehicle #1

Accident Narrative: Vehicle #1 was traveling northbound on Colorado 69, entering a construction zone with a line of five vehicles stopped for a flag man. Vehicle #2 was stopped behind vehicle #3, who was stopped behind vehicle #4 who was stopped behind a vehicle that ended up being not contracted, who was stopped behind vehicle #5. A flag man (pedestrian #6 was standing in front of vehicle #5). All of the topped vehicles were in the northbound lane of Colorado 69. Vehicle #1 attempted to swerve to the right as it contacted the rear of vehicle #2. Vehicle #2 rotated counter-clockwise as it traveled northbound until the rear-right side of vehicle #2 collided with the left rear of vehicle #3. Simultaneously, the left tires of vehicle #1 collided with the right side of vehicle #3. Vehicle #1 continued on the west side of Colorado 69, now rotating clockwise, and rolling 1 time and coming to rest on its wheels facing east. Vehicle #3 traveled northbound and collided with the rear of vehicle #4. Both of those vehicles came to rest on the roadway facing north. During this time, vehicle #1 was off the right side of Colorado 69. However, it then returned to the roadway, colliding with the right side of vehicle #5 and causing it to slide off the west side of Colorado 69. At this time, the flag man (pedestrian #6 attempted to flee the crash by traveling northwest bound. Vehicle #1, then traveled onto Colorado 69 in the same direction and collided with the pedestrian. Vehicle #1 then rolled 1/ time, spilling its load of oil drilling poles. Vehicle #1 came to final rest jackknifed on its top facing west. Pedestrian #6 came to final rest off the west side of the roadway, under the poles.

SUMMARY

Date: 11/20/2012

Location: WB C470 @ Broadway

Time: 1152

CDOT Construction Project: No

CDOT Permitted: Yes

County Project: Yes, Douglas County

Fatal for Contractor: 2 fatalities of sub-contractor

Vehicle #1 was exiting WB C-470 in the #2 lane of the exit ramp preparing to turn left onto SB Broadway. Vehicle #2 was traveling NB on Broadway merging from the #1 through lane to the #2 left turn lane to turn west onto C-470. Driver 1 stated that the brakes on the vehicle malfunctioned and he could not stop at the light at the bottom of the ramp from C-470. He swerved off the left side of the exit ramp and traveled up the embankment on the southeast corner of the intersection. Vehicle #1 struck 2 pedestrians, who were construction workers that were standing on the southeast corner of the intersection. Vehicle #1 went airborne before traveling into the NB lanes of Broadway. Vehicle #1 struck Vehicle #2's right front with its left front. Vehicle #2 veered toward the #2 left turn lane and came to a stop. Vehicle #1 traveled SB in the NB lanes of Broadway in a southeasterly direction and struck an excavator that was stopped on the east side of Broadway. Pedestrian 1 came to rest in the #1 left turn lane of NB Broadway. Pedestrian 2 came to rest in the #1 through lane of NB Broadway.

Both pedestrians were construction workers that were working in the construction zone on NB Broadway. The Excavator that was struck by Vehicle #1 was a construction vehicle that was stopped on the east side of Broadway and was involved in the construction. Both pedestrians were wearing reflection vests. Vehicle #1 came to rest in the #2 left turn lane facing northwest. Vehicle #1 came to rest in the #3 through lane of NB Broadway on its wheels facing south.

B. Copy of the Accident Report Form DR 2447 for each fatal crash

Appendix B contains the Accident Report for each of the 6 fatal crashes.

Appendix C contains state's historical crashes, both on-system and off-system.

Section 3. Work Zone Safety Program Update:

HB 10-1014 requests a description of both ongoing and newly implemented measures taken by CDOT to prevent fatal accidents in work zones. A description of CDOT's Work Zone Safety and Mobility (WZSM) Process Review and a cooperative effort between CDOT and CSP related to the development and implementation of a statewide work zone safety campaign is provided below.

A. Work Zone Safety and Mobility (WZSM) Process Review

In September 2004, the Federal Highway Administration (FHWA) published updates to the work zone regulations at 23 CFR 630 Subpart J referred to as the *Work Zone Safety and Mobility Rule* (WZSM Rule). In December 2007, FHWA added new regulations at 23 CFR 630 Subpart K referred to as the *Temporary Traffic Control Devices Rule*. Both are applicable to all Federal-Aid Highway Projects with the intent to improve work zone management and decrease the likelihood of fatalities and injuries to road users and workers exposed to motorized traffic. The Safety and Mobility Rule was effective on October 12, 2007 and the Subpart K was effective on December 4, 2008.

The WZSM Rule requires a process review at least every two years to assess the effectiveness and consistency of work zone safety and mobility policies and practices at the project level for both design and construction. The review also evaluated CDOT's processes and procedures as they relate to WZSM at both the program and project levels. A process review was just recently completed in December of 2012.

The CDOT review team found that the 2010 recommendations have been implemented:

- The WZSM Overview PowerPoint document that was presented during information sessions was updated, posted on the internet and a notification notifying all stakeholders of its location.
- The CDOT Construction Manual was revised to require Project Managers to notify designers of any adjustments to the Traffic Control Plan.
- The CDOT WZSM procedures were revised to recommend draft traffic control or phasing plans be discussed prior to the Field Inspection Review.
- The 2012 CDOT Process Review team developed questions related to WZSM for contractors (i.e. Construction Superintendents and Traffic Control Supervisors) and reviewed the 2010 survey/results to further refine the questions to make them more beneficial for the Process Review.

Generally, the 2012 review revealed that the Regions recognize that while implementing WZSM procedures adds construction costs to projects, the procedures add safety value to work zones. The 2012 review team determined that the following items need to be addressed, which will be in 2013:

- The 2014 CDOT Process Review should develop questions related to WZSM for maintenance and review the survey/results to further refine the questions to make them more beneficial for the Process Review.
- CDOT should develop a standardized method of documenting and regulating traffic queues and/or delays, based on the WZSM Procedures, Sec 630.10 (3)(i) of the CDOT Standard Specifications for Road and bridge Construction, and the Regions' Lane Closure strategies.
- The WZSM Procedures should be updated to be consistent with the current specifications.
- The WZSM Procedures should be revised to include a traffic control work zone debriefing process.
- The WZSM Procedures should be updated to ensure that important TMP (Traffic Management Plan) components are addressed and included in all future significant project TMP's.

B. Traffic Control Reviews

Six inspections were conducted in each of the six CDOT Regions. In each Region, the team attempted to review at least one nighttime operation, two CDOT Maintenance operations, and one full office review of a construction project, including traffic control documents.

The inspections consisted of a drive-thru of each project with information and comments recorded on a standard form. The office review included a review of project safety plan, the Method of Handling Traffic (MHT) and other traffic control related documentation. Following completion of the inspection and entry of data and comments, an overall percentage score was assigned to each project. The percent score was communicated to project or region personnel and was reported to FHWA in September of 2012. Project percentages were averaged to formulate a Region and Statewide average. Maintenance operations were scored similarly but are reported separately. The scores for the construction projects reviewed without prior notification are also reported separately below.

Results of the annual inspections form the basis for identifying needed changes and improvements to ensure continuous improvement in program results. Region staff will be expected to make changes as appropriate in the design process and in maintenance procedures, as well as in individual project management. Staff Branches will use the results to identify and support needed improvements in standards, specifications, procedures and training.

The goal for FY12 was a statewide average quality rating of 90%, with no individual projects rated below 85%. The average statewide quality rating for the 24 engineering projects was a 95.5%. There were two construction projects of the 24 (18 with prior notification and 6 with no notification) reviewed that received a score below 85%. The statewide average of the 18 construction projects that received notification was 96.1%. The statewide average of the 6 construction projects that did not receive prior notification was 93.8%. The statewide average for the 12 maintenance activities was 92.6%.

C. Slow for the Cone Zone Campaign and Enforcement –

To increase awareness and improve construction work zone safety, every summer beginning in June and continuing through September, the Colorado Department of Transportation (CDOT) partners with the Colorado State Patrol (CSP) troop offices and other local law enforcement agencies to conduct the "Slow for the Cone Zone" campaign, which entails overtime enforcement on highly-visible construction projects across Colorado. This enforcement is provided to protect the workers from dangerous driving.

2012 Construction Zone Fatalities

Crash				Fatality (Person Involved)									Speed		Condition		Fatal Crash Location	Narrative
No.	Date	Time	Type	Killed	Sex	Age	Action	Factor	Alcohol	Drug	Restrained	Type	Posted	Cited	Road	Weather		
1	06/29/12	1906	Overturn	1	Male	64	Exceeded Safe Posted Speed	Other	no	No	No	Driver	75	75	Blacktop	Dry	I-25 at MM 118.72	Vehicle 1 was traveling on Colorado 25 northbound near milepost 119. Driver of vehicle 1 lost control of vehicle 1 and was ejected. Vehicle 1 rolled 1/4 times and came to final rest on its left side in the left lane facing north. The driver of vehicle 1 came to rest in the median
2	07/31/12	1319	Rear End	2	Male	57	Careless	Distracted/ Other	No	No	Yes	Driver	40	50	Blacktop	Dry	HWY 69 at MM 57.40	Vehicle #1 was weaving northbound on Colorado 69, entering a construction zone with a line of five vehicles stopped for a flag man. Vehicle #2 was stopped behind vehicle #3, who was stopped behind vehicle #4, who was stopped behind a vehicle that ended up being not contacted, who was stopped behind vehicle #5. A flag man (pedestrian #6 was standing in front of vehicle #5) . All of the stopped vehicles were in the northbound lane of Colorado 69. Vehicle #1 attempted to swerve to the right as it contacted the rear of vehicle #2. Vehicle #2 rotated counter-clockwise as it traveled northbound until the rear-right side of vehicle #2 collided with the left rear of vehicle #3. Simultaneously, the left tires of vehicle #1 collided with the right side of vehicle #3. Vehicle #1 continued of the west side of Colorado 69, now rotating clockwise, and rolling 1 time and coming to rest on its wheels facing east. Vehicle #3 traveled northbound and collided with the rear of vehicle #4.
2	07/31/12	1319	Rear End	2	Male	20	Careless	Distracted/ Other	No	No	No	Pedestrian	40	50	Blacktop	Dry	HWY 69 at MM 57.40	Vehicle #1 was west bound Colorado 392 at highlands meadow parkway. Vehicle #2 was east bound Colorado 392 at highlands meadow parkway. Vehicle #1 drifted into the east bound lane and collided its front end with the front of vehicle #2. Vehicle #1 was then pushed backward approximately fifteen feet, while sustaining contact with vehicle #2. Both vehicles came to rest in contact with one another in the east bound lane.
3	10/02/12	1055	Head On	1	Male	41	Lane Violation	DUI	No	Yes	No	Driver	40	40	Blacktop	Dry	HWY 392 38' E of Highlands Meadow PKWY	Vehicle #1 was west bound Colorado 392 at highlands meadow parkway. Vehicle #2 was east bound Colorado 392 at highlands meadow parkway. Vehicle #1 drifted into the east bound lane and collided its front end with the front of vehicle #2. Vehicle #1 was then pushed backward approximately fifteen feet, while sustaining contact with vehicle #2. Both vehicles came to rest in contact with one another in the east bound lane.
4	10/08/12	1239	Sideswipe same	1	Male	58	Lane Violation	None	No	No	Yes	Driver	55	45	Blacktop	Dry	I-25 1078' N of Colfax Ave	TU#1 Traveling NB in lane #4 of I-25 swerved into lane #3 in order to avoid slowing traffic and struck TU #2 who was NB in lane #3. TU #1 rotated clockwise and traveled into lane #2 and into lane #1 where TU #1 was struck by TU #3 traveling NB in lane #1. TU #1 and TU #3 struck the center jersey barrier and came to rest in lane #1 of NB I-25. TU #2 came to a controlled rest north of TU #1 and TU #3
5	10/12/2012	728	Sign	1	Female	23	Reckless	DUI	Unknown	Yes	Unknown	Driver	55	75	Blacktop	Dry	HWY 50 at MM 40.37	Vehicle 1 was traveling eastbound on Colorado highway 50 in the number one lane near mile post 40. Vehicle 2 was traveling westbound on Colorado highway 50 in the number one lane. Vehicle 1 began to rotate counterclockwise across the number one and two lane of westbound Colorado highway 50. Vehicle 1 then struck a construction zone sign while rotating counter clockwise. Vehicle 1 continued back across the number two and one lane of westbound Colorado highway 50 now facing with the rear of the vehicle toward the westbound lanes. Vehicle 1 continued across the painted center median and until vehicle 2 collided with the driver side of vehicle 1 in the number one lane of westbound Colorado highway 50. Vehicle 1 then rotated clockwise and came to rest facing west on the westbound shoulder. Vehicle 2 came to a stop facing northwest in the number two lane of westbound Colorado highway 50.
6	11/20/12	1152	Pedestrian	2	Male	27	Careless	Other	No	No	No	Pedestrian	65	60	Concrete	Dry	C-470 at Broadway	Vehicle #1 was exiting westbound c470 in the #2 lane of the exit ramp preparing to turn left onto southbound Broadway. Vehicle #2 was traveling northbound on northbound Broadway merging from the #1 through lane to the #2 left turn lane to turn west onto c470. Driver #1 stated that the brakes on the vehicle malfunctioned and he could not stop at the light at the bottom of the ramp from c470. Driver #1 chose to swerved off the left side of the exit ramp approximately 135 feet east of the intersection and traveled up the embankment on the southeast corner of the intersection. Vehicle #1 struck 2 pedestrians, who were construction workers that were standing on the southeast corner of the intersection approximately 64 feet south of the intersection and 16 feet east of the east road edge of Broadway. Vehicle #1 went airborne before traveling into the northbound lanes of Broadway and struck a sign post on the southeast corner of the intersection
6	11/20/12	1152	Pedestrian	2	Male	47	Careless	Other	No	No	No	Pedestrian	65	60	Concrete	Dry	C-470 at Broadway	Vehicle #1 was exiting westbound c470 in the #2 lane of the exit ramp preparing to turn left onto southbound Broadway. Vehicle #2 was traveling northbound on northbound Broadway merging from the #1 through lane to the #2 left turn lane to turn west onto c470. Driver #1 stated that the brakes on the vehicle malfunctioned and he could not stop at the light at the bottom of the ramp from c470. Driver #1 chose to swerved off the left side of the exit ramp approximately 135 feet east of the intersection and traveled up the embankment on the southeast corner of the intersection. Vehicle #1 struck 2 pedestrians, who were construction workers that were standing on the southeast corner of the intersection approximately 64 feet south of the intersection and 16 feet east of the east road edge of Broadway. Vehicle #1 went airborne before traveling into the northbound lanes of Broadway and struck a sign post on the southeast corner of the intersection

NARRATIVE
On 6/29/2012 at 1906 I was dispatched to a crash on Colorado 25 northbound near milepost 119 involving a motorcycle. I arrived on scene at 1907 and observed a motorcycle partially in the left lane and the driver in the median. Traffic in the area had slowed down and the motorcycle failed to observe the traffic flow. The driver lost control of the motorcycle and was ejected. The driver was transported by air to Memorial Hospital Main in Colorado Springs, Colorado

UPDATE: D1 turned FATAL 7/9/12 at Memorial

------	----------------------	----------------------	-----------------------------	---------------------------------

Describe Accident
VEHICLE #1 WAS WEAVING NORTHBOUND ON COLORADO 69, ENTERING A CONSTRUCTION ZONE WITH A LINE OF FIVE VEHICLES STOPPED FOR A FLAG MAN. VEHICLE #2 WAS STOPPED BEHIND VEHICLE #3, WHO WAS STOPPED BEHIND VEHICLE #4, WHO WAS STOPPED BEHIND A VEHICLE THAT ENDED UP BEING NOT CONTACTED, WHO WAS STOPPED BEHIND VEHICLE #5. A FLAG MAN (PEDESTRIAN #6 WAS STANDING IN FRONT OF VEHICLE #5). ALL OF THE STOPPED VEHICLES WERE IN THE NORTHBOUND LANE OF COLORADO 69. VEHICLE #1 ATTEMPTED TO SWERVE TO THE RIGHT AS IT CONTACTED THE REAR OF VEHICLE #2. VEHICLE #2 ROTATED COUNTER-CLOCKWISE AS IT TRAVELED NORTHBOUND UNTIL THE REAR-RIGHT SIDE OF VEHICLE #2 COLLIDED WITH THE LEFT REAR OF VEHICLE #3. SIMULTANEOUSLY, THE LEFT TIRES OF VEHICLE #1 COLLIDED WITH THE RIGHT SIDE OF VEHICLE #3. VEHICLE #1 CONTINUED ON THE WEST SIDE OF COLORADO 69, NOW ROTATING CLOCKWISE, AND ROLLING 1 TIME AND COMING TO REST ON ITS WHEELS FACING EAST. VEHICLE #3 TRAVELED NORTHBOUND AND COLLIDED WITH THE REAR OF VEHICLE #4. BOTH OF

NARRATIVE
Vehicle #1 was northbound on Highway 69. Vehicle #2, #3, #4, and #5 were stopped in a construction zone northbound on Highway 69. Vehicle #1 struck Vehicle #2 in the rear, continued off the east shoulder, around the line of vehicles, where it sideswiped Vehicle #3 and Vehicle #5. Vehicle #1 came back onto the roadway, jackknifed across both lanes of travel while striking pedestrian #6 (Flagger), and continued off the west shoulder of the road where it rolled 1/2 time coming to rest on its top. During the roll the driver was ejected and came to rest next to the driver door. After being struck by Vehicle #1, Vehicle #2 was pushed forward into Vehicle #3, causing Vehicle #3 to collide with Vehicle #4. Vehicle #2 then continued off onto the west shoulder of the road where it came to rest on its wheels facing east. Vehicle #3 and Vehicle #4 came to a stop there wheels in the northbound lane of travel facing north. After being struck by Vehicle #1, Vehicle #5 traveled off the west shoulder of the road where it came to rest on its wheels facing west.

NARRATIVE
 Vehicle #1 was west bound Colorado 392 at Highlands Meadow Parkway. Vehicle #2 was east bound Colorado 392 at Highlands Meadow Parkway. Vehicle #1 drifted into the east bound lane and collided its front end with the front of Vehicle #2. Vehicle #1 was then pushed backward approximately fifteen feet, while sustaining contact with Vehicle #2. Both vehicles came to rest in contact with one another in the east bound lane.

Describe Accident

Case # 4A-12-1293

DOR CODE 12S19930

Agency Colorado State Patrol

Accident Date 10/12/2012

Vehicle 1 was traveling eastbound on Colorado Highway 50 in the number one lane near mile post 40. Vehicle 2 was traveling westbound on Colorado Highway 50 in the number one lane. Vehicle 1 began to rotate counter-clockwise across the number one and two lanes of westbound Colorado Highway 50. Vehicle 1 then struck a construction zone sign while rotating counter-clockwise. Vehicle 1 continued back across the number two and one lane of westbound Colorado Highway 50 now facing with the rear of the vehicle toward the westbound lanes. Vehicle 1 continued across the painted center median and until vehicle 2 collided with the driver side of vehicle 1 in the number one lane of westbound Colorado Highway 50. Vehicle 1 then rotated clockwise and came to rest facing west on the westbound shoulder. Vehicle 2 came to a stop facing northwest in the number two lane of westbound Colorado Highway 50.

NARRATIVE

Vehicle #1 was traveling eastbound on Colorado 50 in the left lane of traffic. Vehicle #2 was traveling westbound on Colorado 50 in the left lane of traffic. Driver #1 lost control of vehicle #1 and began to rotate counter clockwise while traveling through the right lane of eastbound 50. Vehicle #1 collided with a construction zone warning sign on the shoulder of eastbound Colorado 50 and then continued rotating counter clockwise across both lanes of eastbound Colorado 50. Vehicle #1 continued into the westbound lanes of Colorado 50 where vehicle #2 collided with the drivers side of vehicle #1 in the left lane. After the collision vehicle #1 rotated clockwise and traveled through the right lane and off of the right side of the roadway. Vehicle #1 came to final rest off the road facing west. Vehicle #2 came to final rest in the right lane of westbound Colorado 50 facing northwest.

NARRATIVE

Vehicle #1 was exiting Westbound C470 in the #2 lane of the exit ramp preparing to turn left onto southbound Broadway. Vehicle #2 was traveling northbound on northbound Broadway merging from the #1 through lane to the #2 left turn lane to turn west onto C470. Driver #1 stated that the brakes on the vehicle malfunctioned and he could not stop at the light at the bottom of the ramp from C470. He swerved off the left side of the exit ramp and traveled up the embankment on the southeast corner of the intersection. Vehicle #1 struck 2 pedestrians, who were construction workers that were standing on the southeast corner of the intersection. Vehicle #1 went airborne before traveling into the northbound lanes of Broadway. Vehicle #1 struck Vehicle #2's right front with its left front. Vehicle #2 veered toward the #2 left turn lane and came to a stop. Vehicle #1 traveled southbound in the northbound lanes of Broadway in a southeasterly direction and struck an excavator that was stopped on the east side of Broadway. Pedestrian #1, Mr. Villalobos, came to rest in the #1 left turn lane of northbound Broadway. Pedestrian #2, Mr. Schwartz, came to rest in the #1 through lane of northbound Broadway.

ADDITIONAL NOTES

Both pedestrians were construction workers that were working in the construction zone on northbound Broadway. The Excavator that was struck by Vehicle #1 was a construction vehicle that was stopped on the east side of Broadway and was involved in the construction. Both pedestrians were wearing reflection vests. Vehicle #1 came to rest in the #2 left turn lane facing northwest. Vehicle #1 came to rest in the #3 through lane of northbound Broadway on its wheels facing south. Vehicle #3 was at rest at the point of impact with vehicle #1 facing north.
