Colorado Department of Transportation

Fiscal Year 2022-23 Proposed Budget Allocation Plan

Jared Polis | Governor
Shoshana M. Lew | Executive Director

Transportation Commission Members

- Kathy Hall, *Chair* | Grand Junction | District 7
- Don Stanton *Vice-Chair* | Arvada | District 2
- Yessica Holguin | Denver | District 1
- Karen Stuart | Broomfield | District 4
- Eula Adams | Arapahoe County | District 3
- Kathleen Bracke | Fort Collins | District 5
- Barbara Vasquez | Cowdrey | District 6
- Mark Garcia | Durango | District 8
- Lisa Hickey | Colorado Springs | District 9
- Terry Hart | Pueblo | District 10
- Gary Beedy | Genoa | District 11
- Herman Stockinger* | Secretary

Per the attached Resolution #TC-2022-03- , the Transportation Commission presents the Budget for the period July 1, 2022 through June 30, 2023 for approval by the Governor

Approved: _____

Date: _____

Made pursuant to the provisions of Sections 43-1-106 and 43-1-113, C.R.S.

The eleven-member Colorado Transportation Commission provides oversight, policy direction, and makes resource allocation decisions for the Colorado Department of Transportation. The powers and duties of the Commission are set forth in Section 43-1-106 C.R.S. Transportation Commissioners are appointed to four-year terms on a staggered schedule by the Governor, and confirmed by the state Senate. Each Commissioner represents a specific geographic portion of the state, and a map of the state's Transportation Commissions Districts can be found in Figure 1 below.

The members of the Transportation Commission also serve as the board members of the Colorado Bridge Enterprise.

Colorado Aeronautical Board

The Division of Aeronautics is advised by the seven-member Colorado Aeronautical Board, which provides oversight, policy direction, and makes resource allocation decisions for CDOT's Division of Aeronautics. The members of the board are appointed by the Governor and confirmed by the Senate. Appointments are made to ensure a broad representation of the airports throughout the state.

Colorado Aeronautical Board Members

Kenneth Maenpa, Chair | Western Slope Governments

Kent Holsinger, Vice- Chair | Western Slope Governments

Chic Myers, Secretary | Eastern Slope Governments

Mark Van Tine | Aviation Interests-at-Large

Trimbi Szabo | Pilot Organizations

George Merritt | Airport Management

Chaz Tedesco | Eastern Slope Governments

Section 1
Introduction to CDOT

Department Description

The Colorado Department of Transportation is the cabinet level department that plans for, operates, maintains, and constructs the state-owned multimodal transportation system.

The Department's statutory authority resides within Title 43, Article 1, Part 1 of the Colorado Revised Statutes. Section 43-1-106 C.R.S. vests the Colorado Transportation Commission with authority to formulate general policy with respect to the management, construction, and maintenance of public highways and other transportation systems in the state, and to assure the preservation and enhancement of Colorado's environment, safety, mobility, and economics considered in the planning, selection, construction, and operation of all transportation projects in Colorado.

CDOT is responsible for a state highway system that encompasses 9,074 centerline miles (22,996 total lane miles) and includes 3,460 bridges and major structures. This system handles around 33 billion vehicle miles of travel each year. Additionally, CDOT operates Bustang, the state's interregional bus network, with 238,135 passenger trips per year, provides funding for local multimodal projects, and distributes grants to the 74 public-use airports (including one sea-plane base) in Colorado to support the state's aviation network.

Our Vision and Mission

CDOT's vision is to enhance the quality of life and the environment of the citizens of Colorado by creating an integrated transportation system that focuses on safely moving people, goods, and information by offering convenient linkages among modal choices.

CDOT's mission is to provide the best multimodal transportation system for Colorado that most effectively and safely moves people, goods, and information.

CDOT Values

We work together to achieve a high performing **SAFETY** culture. We promote and apply consistent and sustainable work behaviors in everything we do. We foster a safety-focused environment, which is free of discrimination and harassment.

We value our **EMPLOYEES** and the **PEOPLE** of Colorado. We recognize the skills and abilities of our coworkers and communities draw strength from our diversity and commitment to equal opportunity. We advocate for an organizational culture where employees are empowered to speak up and encouraged to participate in providing the best transportation systems for Colorado. We understand that our success depends on teamwork and collaboration with all relevant stakeholders, including government, industry partners, and the communities we are accountable to and serve.

We earn Colorado's **TRUST**. We are honest and responsible in all that we do and hold ourselves to the highest moral and ethical standards. We work to build trust and accountability with all in our collaborations to get the work done. We are intentionally transparent, inclusive, and collaborative as transportation strategies and organizational policies are formed.

We strive to provide the highest level of **CUSTOMER SATISFACTION** and experience. With a can-do attitude, we work together and with others to respond effectively to our internal and external customers' needs. We engage diverse voices in public processes to honor the cultural and environmental integrity of Colorado communities and to better provide access to the full range of transportation resources available. We support our co-workers by recognizing and encouraging their contributions to the workplace.

We are committed to **QUALITY**. We leverage diversity to bring different ideas, experiences, and perspectives to further excel in everything we do. We are transparent and inclusive leaders and problem solvers and hold ourselves to a high level of accountability. We continuously improve our products, services, and practices of financial, social, and environmental stewardship in support of our commitment to provide the best transportation systems for Colorado.

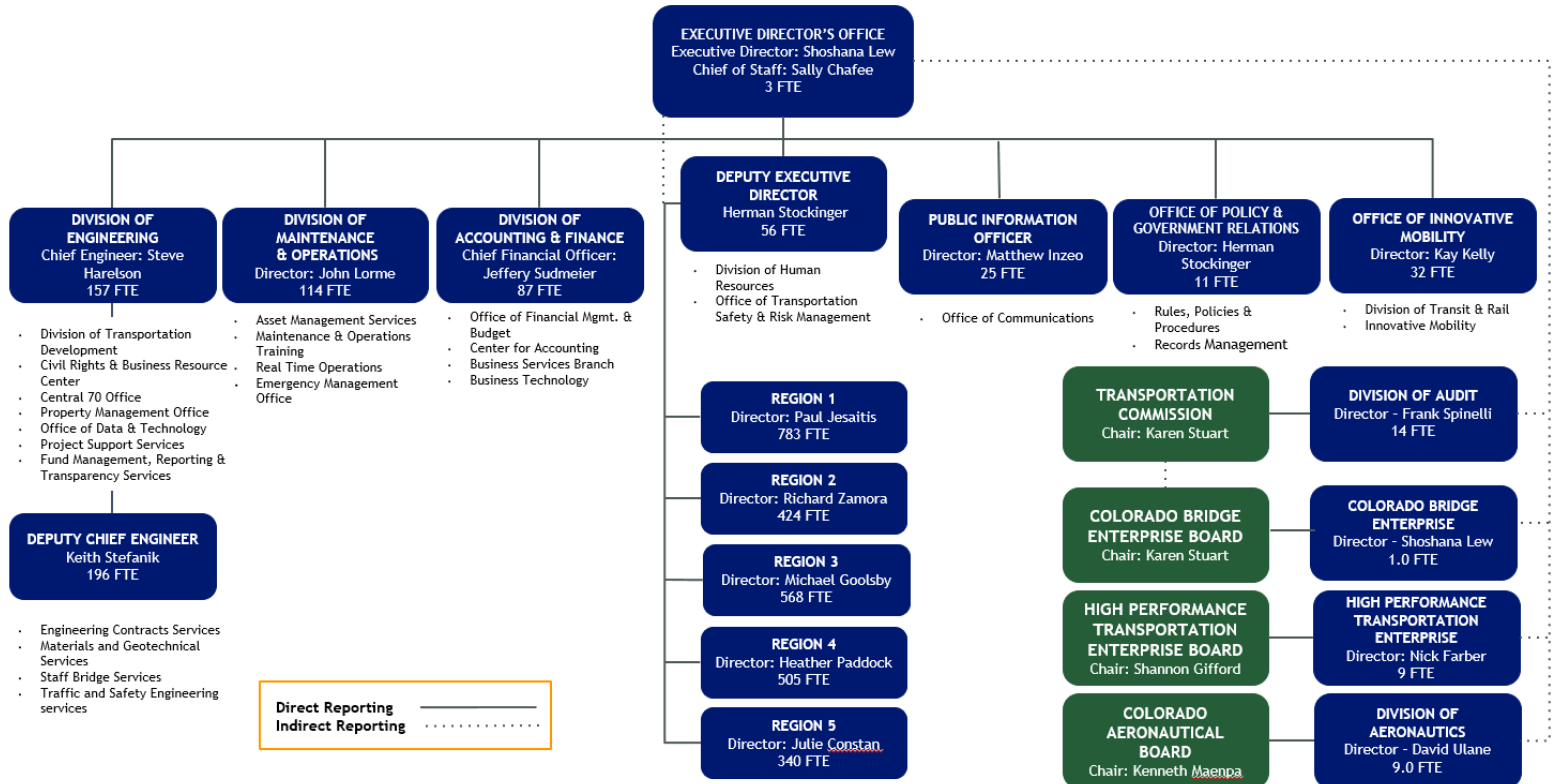

We treat everyone with **RESPECT**. We are kind and civil with everyone, and we act with courage, humility, and accountability.

Organizational Chart

CDOT is organized according to state statutes, the Policy Directives of the Colorado Transportation Commission, and the directives of the Executive Director. The Department's organizational structure is shown below.

CDOT Engineering Regions

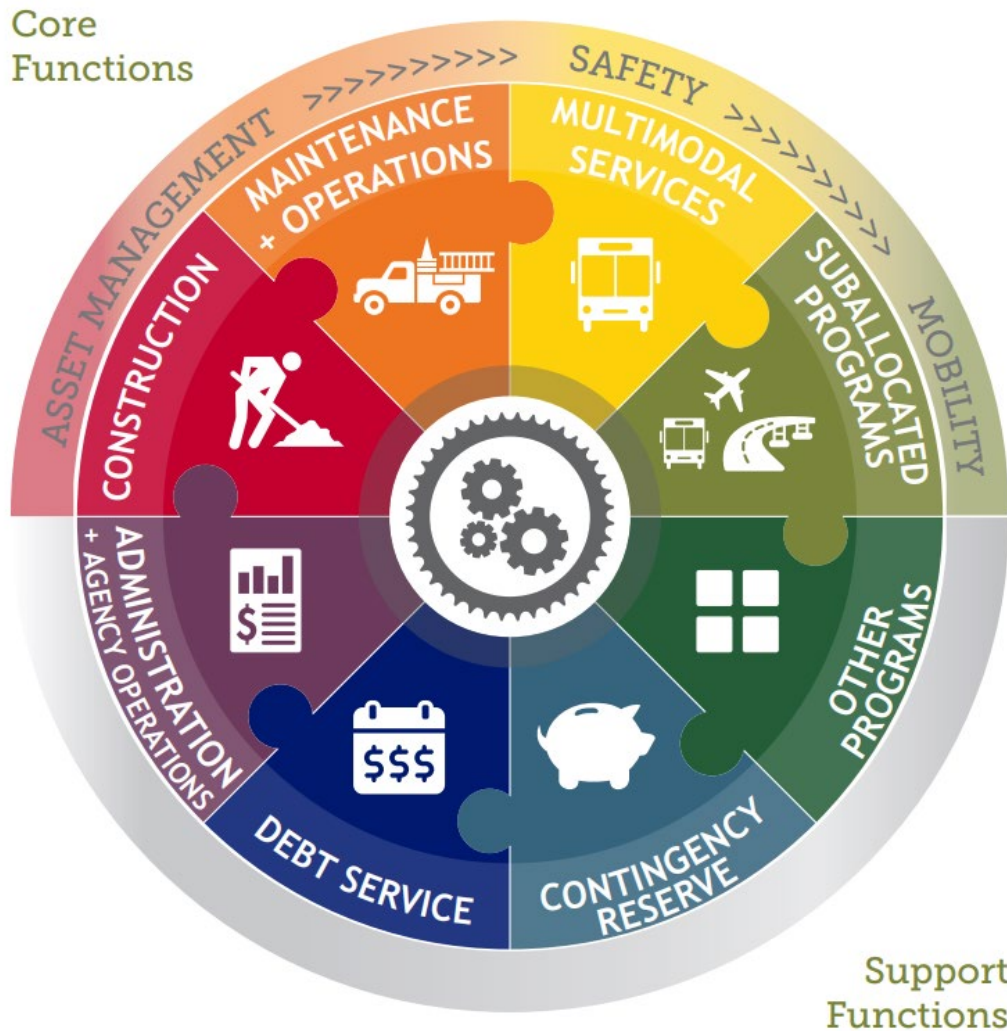

CDOT is divided into five engineering regions. Regional Transportation Directors (RTDs) report to the Department's Deputy Director and each RTD is responsible for implementing and managing CDOT's activities within his or her geographic area. These activities include the design, construction, inspection, and management of all construction projects in a region. The figure below is a map of the five engineering regions.

CDOT Programs and Functions

CDOT administers construction, maintenance & operations, multimodal services, and suballocated programs pursuant to state and federal statute and the policies of the Colorado Transportation Commission. The Department uses these four main categories for the Department’s major core functions, which incorporate safety, mobility, and asset management in each area, plus support functions for the Department’s four core functions.

Core Functions

Construction

Supported by construction contractors, CDOT delivers an annual construction program focused on maintaining the condition of existing assets, improving the safety of the system, and enhancing mobility through major upgrades and expansion of the system. CDOT's construction program includes 13 construction programs organized into three categories: Asset Management, Safety, and Mobility. Funding for construction includes not only the work performed on the road by contractors, but also design, right of way acquisition, and related support costs.

Maintenance and Operations

CDOT maintenance and operations staff are responsible for the daily maintenance and operation of the state transportation system. This includes 13 Maintenance Program Areas focused on activities such as snow and ice removal and pavement repair. This also includes programs focused on ensuring the system operates efficiently, such as Courtesy Patrol and Heavy Tow services to remove inoperable vehicles from traffic, real-time travel information provided to travelers via Variable Message Signs, or the COTRIP website.

Multimodal Services

CDOT works to reduce pollution in our air and congestion on our roads by providing multimodal transportation options through its Office of Innovative Mobility and Division of Transit and Rail. This includes Bustang and Bustang Outrider interregional bus service, strategic investment in multimodal infrastructure such as Mobility Hubs, support for transit and light duty vehicle electrification, and other innovative programs focused on providing more choices to Coloradans.

Suballocated Programs

CDOT administers several suballocated programs, passing funds through to local agencies to prioritize and deliver transportation improvements. This includes transit and aeronautics grant programs, as well as flexible programs, such as STP-Metro and CMAQ, used for a variety of highway and multimodal improvements. Suballocated programs are organized into three categories: Highways, Transit, and Aeronautics.

Support Functions

Administration and Agency Operations

Administration and Agency Operations programs support the Department’s core functions through support services, such as contracting and procurement, development of specifications and standards, materials testing, finance and accounting, and human resources, among others. Salaries and benefits make up the largest portion of Administration and Agency Operations costs. Other examples include software and IT infrastructure, and legal expenses.

Debt Service

CDOT and the Enterprises periodically issue debt and are responsible for annual debt service payments. The majority of this debt is associated with Certificates of Participation (COPs) issued under SB 17-267 for “strategic transportation projects,” bonds issued under the federal Build America Bonds program to advance the replacement of poor bridges under the FASTER Bridge program, and debt held by the High Performance Transportation Enterprise (HPTE) on major toll corridor projects.

Contingency Reserve

CDOT maintains a contingency fund to provide a source of funding for emergencies (such as major rock fall events or flooding), and for other unplanned or unanticipated needs such as the need to commit matching funds for grant opportunities. Ultimately, most contingency funds are allocated to Construction or Maintenance and Operations programs.

Other Programs

CDOT administers several other programs that support its core functions and the achievement of the Department’s mission to provide the best multi-modal transportation system for Colorado. This includes the Department’s planning and research programs, and safety education programs focused on driver education and enforcement activities.

Understanding the CDOT Budget

The budget for most of CDOT’s core and support functions is allocated and directed by the Transportation Commission. This Budget Allocation Plan provides a detailed breakout of CDOT’s budget allocations. Distributions for some programs, such as Surface Treatment, are based on performance systems, allowing CDOT to allocate funding to the areas where they are needed most. Certain programs are funded with a mixture of “flexible” federal apportionments such as National Highway Performance Program and Surface Transportation Program, as well as state Highway User Tax Funds. Other federal programs, such as Transportation Alternatives (TAP), Surface Transportation Program (STP)-Metro, Congestion Mitigation and Air Quality (CMAQ), and Highway Safety Improvement (HSIP) are based on “inflexible” apportionments that must be used for designated purposes per federal authorization act requirements with required state or local match.

The Department’s Revenue Allocation Plan, which is included as Appendix A, represents the amount of revenue the Department anticipates it will receive through the course of the fiscal year, and how it intends to allocate those revenues to each budget program. The Spending Plan, which is included as Appendix B, complements the Revenue Allocation Plan and provides a more comprehensive view of multi-year capital budgets and expenditures.

Revenue Allocation

The Revenue Allocation Plan is included as Appendix A. The Revenue Allocation Plan is developed by forecasting anticipated revenues for the upcoming fiscal year and allocating those revenues to budget programs. These programs are established to serve a specific departmental function, for example, geohazard mitigation, and are organized into categories representing the four core functions, and the four support functions. Core functions are further subdivided into categories for Asset Management, Safety, and Mobility (or highways, transit, multimodal, and aeronautics in the case of suballocated programs).

Each of the budget programs included in the Revenue Allocation Plan are composed of either cost centers or budget pools. In general, cost centers represent the operating portion of the Department’s budget, while budget pools represent the capital portion. While most operating expenditures occur during the fiscal year of the budget, most capital expenditures span multiple fiscal years. Since the state fiscal year ends in the middle of the construction season, even small single season construction projects span multiple fiscal years. Major projects such as the I-25 South Gap can span five or six fiscal years.

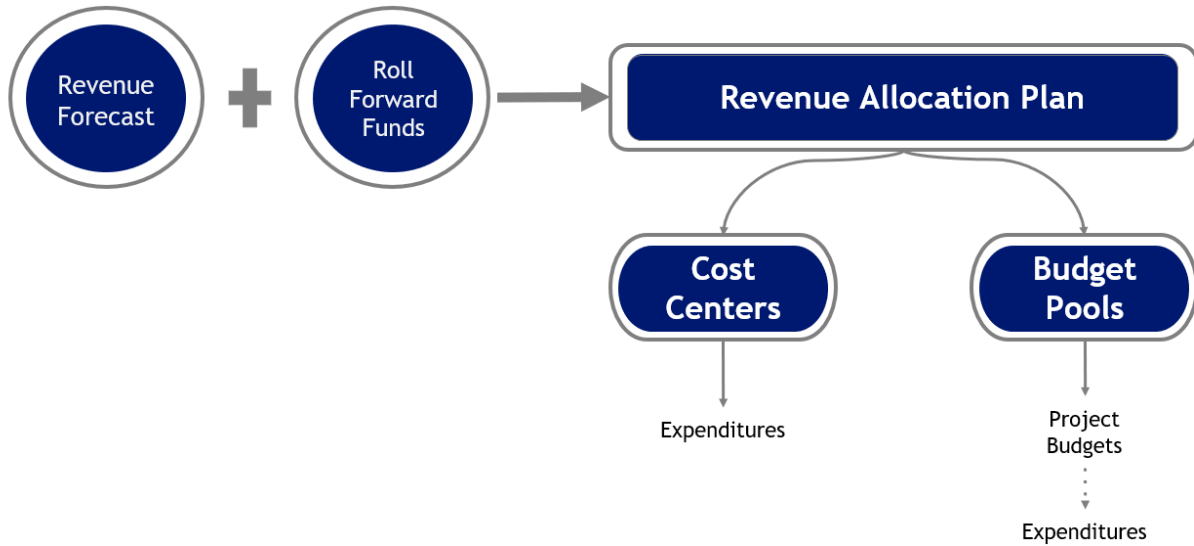

At the end of the fiscal year, budget has either been spent directly from a cost center or it has been budgeted to a project from a budget pool (Appendix C includes information on open projects and project balances). In general, open projects from a prior fiscal year are paid for out of previously received revenues. The Revenue Allocation Plan represents new anticipated revenue that is available for operating expenses during the fiscal year, and for new capital projects.

Any budget remaining at the end of the fiscal year in a cost center or budget pool (in the case of a budget pool, funding that that has not been budgeted to a specific project), rolls forward (“Roll Forward Budget”) and is amended into the budget for the new fiscal year. Roll forward budget for the prior fiscal year will be amended into the FY 2022-23 Annual Budget after the close of FY 2021-

22 in July, 2022. With respect to capital programs, the bulk of expenditures lag about one year behind the year the dollars were budgeted.

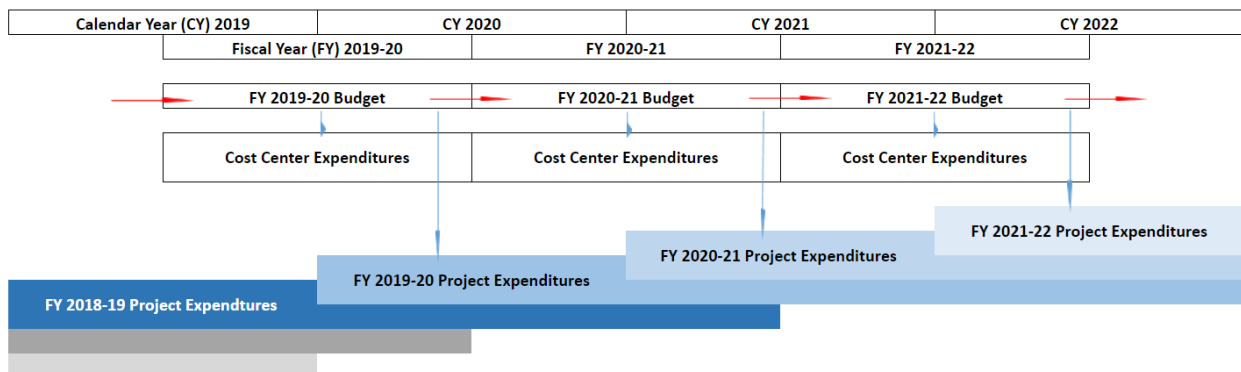

CDOT Budget Allocation

Spending Plan

The Department developed a new Spending Plan, included as Appendix B, to communicate the complex nature of multi-year capital budgeting more clearly. The Spending Plan is populated with the Department’s anticipated expenditures for FY 2022-23 by budget category, using the same primary budget categories that are used in the Revenue Allocation Plan (e.g. Capital Construction, Maintenance and Operations, etc.). These expenditures include spending from budgets that originated in revenue allocations from multiple prior years.

Illustrative Flow of Budget and Expenditures

CDOT Strategic Goals

Colorado Governor Jared Polis has set out four key priority areas, also known as the “The Bold Four,” focused on reducing the high cost of living in our state and creating a Colorado where everyone has an opportunity to succeed.

Transportation is an integral part of these key priority areas, ensuring that all Coloradans have equitable access to multimodal transportation options that help drive the economy and give citizens access to jobs, healthcare, and education, while reducing the transportation sector’s impact on the environment.

The Colorado Department of Transportation (CDOT) identified three Strategic Policy Initiatives (SPIs) for FY 2022-23. Additional information on the Department’s SPIs can be found in the Department’s Performance Plan.

FY 2021-22 Strategic Policy Initiative

Wildly Important Goal #1
WHOLE SYSTEM, WHOLE SAFETY
Improve the safety of Colorado’s Transportation System

Wildly Important Goal #2
CLEAN TRANSPORTATION
Reduce pollution in our air and congestion on our roads

Wildly Important Goal #3
ACCOUNTABILITY & TRANSPARENCY
Respond effectively to our internal and external customers’ needs

FY 2022-23 Decision Items

The Department submitted the following decision items as part of the Governor's November 1 Budget Request to the legislature:

- **Temporary Fuel Products Fee Reduction** - Eliminates CDOT's portion of the Perfluoroalkyl and Polyfluoroalkyl Substances (PFAS) fee on fuel products. This results in a total reduction of about \$3.7 million in revenue over two years.
- **Multimodal Transportation and Mitigation Options Fund (MMOF) Rollforward Authority** - The Department requested three years of rollforward authority for every future MMOF appropriation. This is intended to align the MMOF with other state capital construction appropriations by providing three fiscal years to spend each appropriation.
- **First Time Drunk Driver (FTDD) Spending Authority** - HB 21-1317 transferred \$2.0 million from the Marijuana Tax Cash Fund to the FTDD Account. With the increased fund balance, the Department was able to request a full \$1.5 million appropriation from this account for FY 2022-23.

Detailed information on these proposals can be found on the Office of State Planning and Budgeting website: <https://www.colorado.gov/governor/OSPB>

Decision items that are submitted by divisions and regions as part of the Department's Annual Budget will be included in the draft Final Budget Allocation Plan that is presented to the Transportation Commission for review in February 2022.

Section 2 CDOT Revenue Sources

CDOT Funding

Under the State Constitution (Article X Section 18), the revenue collected from state motor vehicle fuel taxes and fees and license and registration fees must be used for the construction, maintenance, and supervision of the state's public highways. The revenues from these sources are deposited in the Highway Users Tax Fund (HUTF) and distributed to CDOT, counties, and municipalities based on formulas in state statute.

In addition to HUTF revenue, CDOT also receives funding from the state's General Fund, federal funding, and revenue from other smaller sources. Most of the Department's funding is deposited in the State Highway Fund (SHF), which is CDOT's primary cash fund. Most of the funding in the SHF is continuously appropriated and allocated at the discretion of the Transportation Commission.

CDOT also has four Enterprises: the Colorado Bridge and Tunnel Enterprise, the High-Performance Transportation Enterprise (HPTE), the Clean Transit Enterprise, and the Nonattainment Area Air Pollution Mitigation Enterprise. An enterprise is a self-supporting, government-owned business that receives revenue in return for the provision of a good or service. Enterprise revenue is not subject to statewide revenue limits under TABOR.

Transportation Finance in Colorado

Historically, CDOT's primary sources of revenue have been state (\$0.22 per gallon) and federal (\$0.184 per gallon) fuel taxes, as well as state vehicle registration fees. Over time, the declining purchasing power from fuel excise taxes and increasing fuel efficiency have diminished the Department's ability to maintain the state's transportation system.

In response, the Colorado General Assembly provided additional one-time funding for the maintenance and expansion of the state's highway through several General Fund transfers and SB 17-267 Lease-Purchase agreements. While this one-time funding helped fund critical projects statewide, it only provided temporary support to the Department's budget.

Senate Bill 21-260 *Sustainability of the Transportation System*, which was passed in the 2021 legislative session, created several new fuel and registration fees to increase the Department's funding and provide long-term support for the Department's construction and maintenance operations. It also allocates additional funding from the federal American Rescue Plan Act and the state General Fund.

This section provides an overview of CDOT's historical revenue and provides additional information on expected revenue changes from the passage of SB 21-260.

Transportation Revenue Forecasting

The Office of Financial Management and Budget (OFMB) maintains an annual revenue model that is used to guide CDOT's budget-setting process. OFMB's revenue team updates the model each quarter to monitor the course of a current year's fiscal performance, as well as inform the budget for future years. Some of the data used by the model includes, but is not limited to:

- National economic performance indicators, such as the year-over-year percent change in real U.S. GDP growth.
- State population data such as net immigration, annual vehicle miles traveled (VMT) in Colorado, and the historical performance of the Highway User Tax Fund.
- Bureau of Labor Statistics & Bureau of Economic Analysis data, such as historical and forecasted year-over-year percent changes in personal income and the consumer price index.
- The forecasted, aggregated interest rates on new car loans annually, and retail gasoline prices from the Energy Information Administration.
- Estimated vehicle costs, including federal or state rebates for certain vehicles, as well vehicle fuel efficiency, and annual vehicle scrappage rates.

The model also includes federally or state-appropriated funding from grants or other sources, such as the Federal Highway and Federal Transit Administrations (FHWA & FTA), and the National Highway Traffic Safety Administration (NHTSA).

The outputs from this model are used to develop the Annual Revenue Allocation Plan. During the annual budget development process, CDOT staff reconciles annual projected revenues with the expenditure requests from all of the Department's divisions and executive management and updates the Revenue Allocation Plan as decisions are made. OFMB staff provides draft and final versions of the Revenue Allocation Plan for formal review and approval by the Transportation Commission, which then becomes CDOT's official budget for the next fiscal year.

State Revenue and Expenditure Limits

Colorado voters approved Amendment 1 to the State Constitution (Article X, Section 20) in 1992, commonly known as the Taxpayer's Bill of Rights (TABOR). TABOR limits growth in fiscal year spending for state and local governments, and any revenue collected in excess of current spending limits must be refunded to taxpayers. More information on TABOR refund mechanisms can be found [here](#).

TABOR requires state and local governments to obtain approval from voters to establish new taxes, raise tax rates, or issue multiyear bonded debt. TABOR prohibits a state property tax, local income taxes, and the taxation of income at different tax rates.

Referendum C. Voters passed referendum C in 2005, and it triggered a five-year "time-out period" from the limits imposed under TABOR. During this period, the state was authorized to retain and spend all of the revenue it collected. At the end of this time-out period, the year in which the state collected the highest amount of revenue (FY 2007-08) became the state's new revenue limit. This new revenue limit is adjusted for inflation and population every year.

CDOT Revenue Sources

Table 1 below provides an historical overview of CDOT’s revenue, and each revenue source is described in more detail below.

CDOT Revenue Overview (millions)

Budget Category	FY 2018-19	FY 2019-20	FY 2020-21	FY 2021-22	FY 2022-23
	Actual	Actual	Actual	Budget*	Proposed
Highway Users Tax Fund – CDOT Portion	\$580.7	\$552.2	\$549.4	\$546.8	\$560.7
General Fund/ARPA	\$346.5	\$105.0	\$1.0	\$324.0	\$0.7
SB 17-267 Lease-Purchase Agreements	\$424.2	\$559.8	\$620.6	\$500.0	\$0.0
Federal Programs	\$625.6	\$690.4	\$856.3	\$642.2	\$644.9
Aeronautics	\$33.9	\$26.6	\$12.3	\$20.0	\$35.1
Miscellaneous	\$47.4	\$50.6	\$34.9	\$31.9	\$30.9
State Multimodal Funding	\$82.1	\$29.9	\$154.4	\$22.2	\$24.5
State Safety Education Funding	\$2.8	\$3.8	\$2.3	\$3.9	\$2.9
State Infrastructure Bank	\$0.7	\$0.7	\$0.4	\$0.2	\$0.3
Capital Construction Fund	\$0.8	\$0.5	\$0.5	\$0.8	\$1.0
Total	\$2,144.5	\$2,019.6	\$2,232.1	\$2,091.9	\$1,300.8

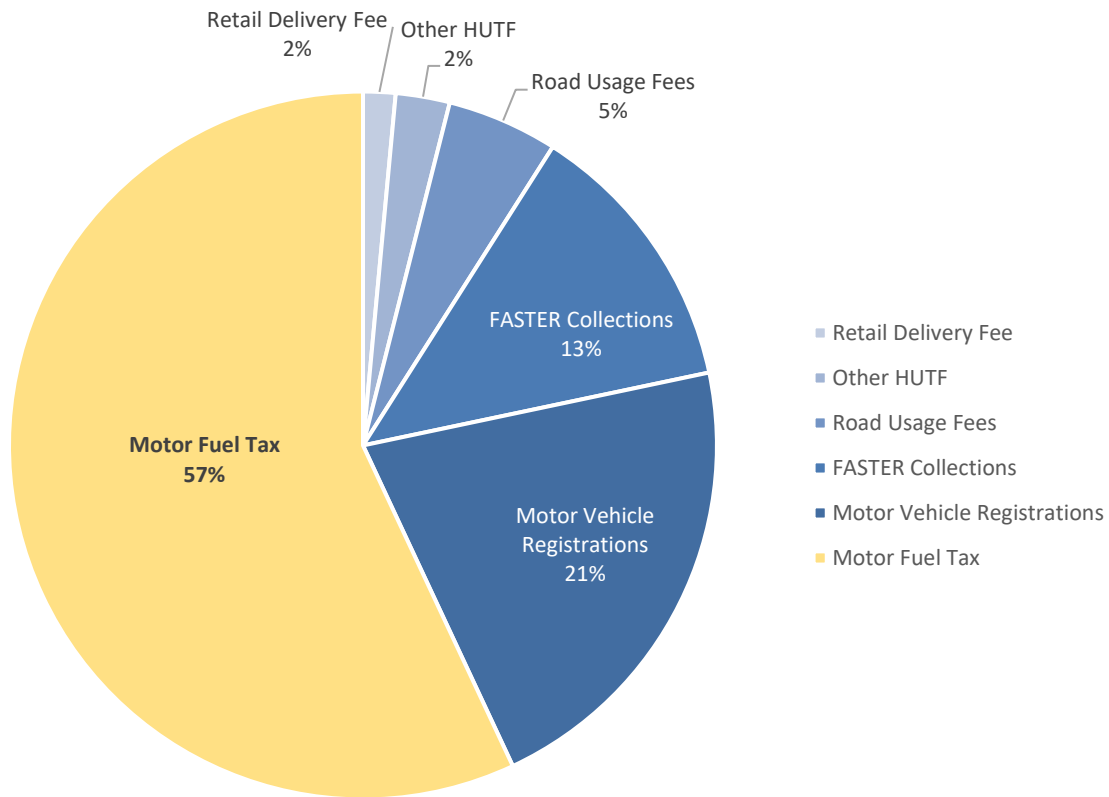

Highway Users Tax Fund Overview

The Highway Users Tax Fund (HUTF) is comprised of state-levied fuel taxes and fees associated with the operation of motor vehicles in the state. The State Treasurer distributes the HUTF proceeds between CDOT, counties, and municipal governments according to statutory formulas. The distribution of HUTF Revenue is shown in the figure below.

Statewide HUTF Revenue

HUTF Revenue

The table summarizes CDOT’s portion of HUTF Revenue, and each source of revenue is described in more detail below.

HUTF Revenue History (millions)

	FY 2018-19 Actual	FY 2019-20 Actual	FY 2020-21 Actual	FY 2021-22 Budget	FY 2022-23 Proposed
HUTF Distribution – CDOT Allocation*	\$580.7	\$552.2	\$536.5	\$546.8	\$520.2
Motor Fuel Taxes	\$325.4	\$307.0	\$295.9	\$299.3	\$304.8
Vehicle Registration Fees	\$116.2	\$109.6	\$105.7	\$106.9	\$108.9
Miscellaneous	\$23.2	\$21.9	\$21.1	\$21.4	\$21.8
FASTER Revenue – CDOT Allocation	\$115.8	\$113.7	\$113.8	\$119.2	\$84.8
Road Safety Surcharge	\$80.0	\$80.6	\$80.3	\$82.8	\$54.4
Late Registration Fees	\$13.1	\$11.8	\$17.9	\$12.4	\$13.2
Daily Vehicle Rental Fee	\$21.9	\$20.4	\$14.9	\$22.8	\$16.6
Oversize/Overweight Surcharge	\$0.8	\$0.9	\$0.7	\$1.2	\$0.6
Unregistered Vehicle Fine	\$0.0	\$0.0	\$0.0	\$0.0	\$0.0

Motor Fuel Taxes - State excise taxes are levied at 22 cents per gallon for gasoline and 20.5 cents per gallon for diesel/special fuel.

Road Usage Fee - SB 21-260 created the road usage fee, which will be assessed on each gallon of gasoline and diesel. This fee will be phased in between FY 2022-23 to FY 2031-32. Beginning in FY 2032-33, this fee will be annually adjusted for inflation based on the National Highway Cost Construction Index. The Road Usage Fee schedule is shown below.

Fiscal Year	Road Usage Fee - Gasoline
FY 2022-23	\$0.02
FY 2023-24	\$0.03
FY 2024-25	\$0.04
FY 2025-26	\$0.05
FY 2026-27	\$0.06
FY 2027-28	\$0.07
FY 2028-29	\$0.08
FY 2029-30	\$0.08
FY 2030-31	\$0.08
FY 2031-32	\$0.08

Retail Delivery Fees - SB 21-260 imposed new fees on retail deliveries that are subject to the state sales tax, which are collected from the purchaser by the retailer. These fees are assessed by the state, the Statewide Bridge and Tunnel Enterprise, and four new enterprises created in the bill. The initial fee rates are shown in the table below. In subsequent years, these fees will be adjusted for inflation based on the Denver-Aurora-Lakewood Consumer Price Index. The fees will only be adjusted for inflation in future years if the sum of the adjustments to all the fees results in an increase of at least one whole cent. The state’s share of this revenue is distributed to the HUTF and the Multimodal Transportation and Mitigation Options Fund. The table below outlines the initial fee rates for retail delivery fees.

Retail Delivery Fees	FY 2022-23 Fee Rate
State (Highway Users Tax Fund and Multimodal Options Fund)	8.4 cents / delivery
Bridge and Tunnel Enterprise	2.7 cents / delivery
Community Access Enterprise	6.9 cents / delivery
Clean Fleet Enterprise	5.3 cents / delivery
Clean Transit Enterprise	3.0 cents / delivery
Air Pollution Mitigation Enterprise	0.7 cents / delivery
Total of Retail Delivery Fees	27.0 cents / delivery

Age and Weight-Based Vehicle Registration Fees - Annual registration fees based on the age and weight of a vehicle are deposited in the HUTF. These fees are outlined in the table below.

Fee	Amount
Weight-based Registration Fees	\$3.00 for motorcycles \$6.00 for passenger vehicles up to 2,000 pounds, plus \$0.20 extra per 100 pounds (up to 4,500 pounds) \$12.50 for passenger vehicles 4,500 pounds or more, plus \$0.60 for each additional 100 pounds

Age-based Registration Fees

\$12.00 for vehicles under 7 years' old
\$10.00 for vehicles between 7 and 10 years' old
\$7.00 for vehicles 11 years and older

Plug-in Electric Motor Vehicle Registration Fee - The state currently assesses a \$50 annual registration fee on plug-in hybrid electric vehicles and battery electric vehicles. Of this fee, 60 percent is allocated to the HUTF and 40 percent is allocated to the Electric Vehicle Grant Fund in the Colorado Energy Office.

Pursuant to SB 21-260, this fee amount will annually increase with inflation beginning in FY 2022-23.

Electric Vehicle Road Usage Equalization Fee - SB 21-260 imposes an additional road usage equalization registration fee on regular and commercial plug-in electric vehicles. Fees on passenger vehicles will be phased in through FY 2031-32. Beginning in FY 2032-33, this fee will be annually adjusted for inflation using the National Highway Cost Construction Index. The fee schedule for passenger vehicles is shown below.

Fiscal Year	Annual Battery Electric Vehicle Fee	Annual Plug-in Hybrid Electric Vehicle Fee
FY 2021-22	\$0.00	\$0.00
FY 2022-23	\$4.00	\$3.00
FY 2023-24	\$8.00	\$5.00
FY 2024-25	\$12.00	\$8.00
FY 2025-26	\$16.00	\$11.00
FY 2026-27	\$26.00	\$13.00
FY 2027-28	\$36.00	\$16.00
FY 2028-29	\$51.00	\$19.00
FY 2029-30	\$66.00	\$21.00
FY 2030-31	\$81.00	\$24.00
FY 2031-32	\$96.00	\$27.00

In lieu of the regular equalization fee, electric commercial vehicles will pay an annual registration fee based on weight. For FY 2022-23, this fee is \$50 for vehicles 10,001 pounds to 16,000 pounds; \$100 for vehicles 16,001 pounds to 26,000 pounds; and \$150 for vehicles greater than 26,000 pounds. Beginning in FY 2023-24, this fee will be annually adjusted for inflation based on the National Highway Cost Construction Index.

FASTER Revenue - In 2009, the General Assembly passed SB 09-108, also known as the Funding Advancements for Surface Transportation and Economic Recovery (FASTER) Act. This bill created new motor vehicle fees, fines, and surcharges to fund road, bridge, and public transit projects. The fees and surcharges created by FASTER are outlined below.

Statewide FASTER Revenue (millions)

	FY 2018-19	FY 2019-20	FY 2020-21	FY 2021-22	FY 2022-23
	Actual	Actual	Actual	Budget*	Proposed
Statewide FASTER Distribution	\$192.9	\$189.5	\$194.4	\$198.7	\$141.4
Road Safety Surcharge	\$133.3	\$134.4	\$136.0	\$138.0	\$90.7
Vehicle Registration Late Fee	\$21.8	\$19.6	\$20.4	\$20.7	\$22.0
Vehicle Rentals	\$36.5	\$33.9	\$36.0	\$38.0	\$27.7
Surcharge on Oversize Vehicle Permits	\$1.3	\$1.6	\$2.0	\$2.0	\$1.0
Unregistered Vehicle Fine	\$0.0	\$0.0	\$0.0	\$0.0	\$0.0

Road Safety Surcharge - The Road Safety Surcharge applies to every registered vehicle, and it ranges between \$16 and \$39, depending on the vehicle. The amount of the Road Safety Surcharge is set in statute (§43-4-804(1) C.R.S.).

SB 21-260 temporarily reduces the Road Safety Surcharge fee for two years. For all registration periods between January 1, 2022, and January 1, 2024, the amount of each Road Safety Surcharge is reduced by \$5.55.

Late Registration Fees - In Colorado, motor vehicles must be registered annually. At the end of each registration period, motor vehicle owners have a one-month grace period to renew their registration. The FASTER late registration fee is charged when a motor vehicle is registered after the grace period. The fee is \$25 for each month the vehicle registration is late, and up to \$100 total. The county office that collects the late registration fee retains \$10 of the fee.

Daily Vehicle Rental Fee - All car rental companies in Colorado are required to collect a fee of \$2 for each day a vehicle is rented. With the passage of SB 21-260, this fee will be increased by inflation annually beginning in FY 2022-23.

Oversize/Overweight Vehicle Surcharges - Special permits are required when a vehicle exceeds the size and weight restrictions for Colorado’s roadways. CDOT is responsible for approving and issuing all special permits. This surcharge is due any time a vehicle requires a single-trip permit to travel, and ranges between \$15 and \$400 depending on the vehicle’s size and weight and the duration of the permit.

Miscellaneous HUTF Revenue - This category includes revenue from traffic penalties and judicial collections, interest earnings, and various cash program revenues.

HUTF Distribution

HUTF revenue is distributed to CDOT, counties, and municipalities based on statutory formulas. The statewide distribution of HUTF funding is shown in Table 5 and described below.

Total Statewide HUTF Revenue (millions)

	FY 2018-19 Actual	FY 2019-20 Actual	FY 2020-21 Actual	FY 2021-22 Budget*	FY 2022-23 Proposed
Statewide HUTF Distribution	\$1,115.2	\$1,076.5	\$1,071.3	\$1,076.4	\$1,114.9
Distributions to other State Agencies	\$161.0	\$167.7	\$172.5	\$181.2	\$191.1
CDOT	\$580.7	\$552.2	\$549.4	\$546.8	\$560.7
Counties	\$215.3	\$204.5	\$203.4	\$202.2	\$210.3
Municipalities	\$147.7	\$141.2	\$140.7	\$140.8	\$147.5
Distributed for Other Purposes	\$10.5	\$10.9	\$5.3	\$5.3	\$5.3

HUTF revenue is allocated based on different statutory formulas, which are described below.

First Stream Revenue - First stream HUTF revenue consists of the following:

- proceeds from the first \$0.07 of fuel excise taxes
- vehicle license plate, identification plate, and placard fees
- driver license, motor vehicle title and registration, and motorist insurance identification fees
- proceeds from the Plug-in Electric Vehicle Registration Fee
- proceeds from the passenger-mile tax levied on commercial bus services
- interest earnings

After “off-the-top” distributions to the Colorado State Patrol and the Department of Revenue, 65 percent of first stream revenue is distributed to CDOT, 26 percent is distributed to counties, and 9 percent is distributed to municipalities.

Second Stream Revenue - Second stream HUTF revenue consists of motor fuel taxes in excess of the first \$0.07 and age-based registration fees. Of this revenue, 60 percent is distributed to CDOT, 22 percent to counties, and 18 percent to municipalities.

Third Stream Revenue - Third stream revenues include the fees, surcharges, and fine revenues authorized by FASTER that are distributed to CDOT. Of this revenue, \$15.0 million is set aside for spending on transit projects, and the remaining funding is distributed using the same formula as second stream revenue.

SB 21-260 Allocation - The distributions of revenues from the newly created Road Usage Fee, Electric Vehicle Road Usage Equalizations Fees, and retail delivery fees are described below.

Road Usage Fees - Revenue from these fees are distributed to the HUTF using the same formula as second stream revenue.

Electric Vehicle Road Usage Equalization Fees - Revenue from the fees assessed on passenger electric vehicles are distributed from the HUTF using the same formula as second stream revenue. Of the revenue generated from commercial electric vehicles, 70 percent is distributed to the HUTF, and 30 percent is distributed directly to the State Highway Fund for freight-related projects. The portion distributed to the HUTF is distributed using the same formula as second stream revenue.

Retail Delivery Fees - Of the revenue generated from the state’s portion of Retail Delivery fee, 71.1 percent is distributed to the HUTF and 28.9 percent is distributed to the Multimodal Transportation and Mitigation Options Fund. Of the revenue deposited in the HUTF, 40 percent is paid to the State Highway Fund, 33 percent is paid to counties, and 27 percent is paid to municipal governments.

Revenue from the Retail Delivery Fee may be used for transit-related projects needed to integrate different transportation modes.

Impact of COVID-19 Pandemic

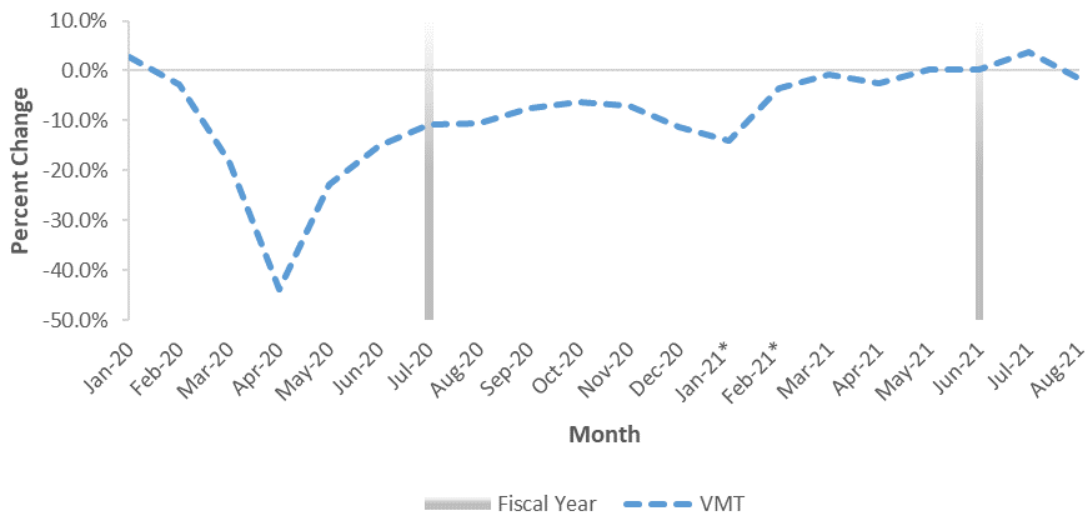

Overall, CDOT revenue decreased substantially in 2020 and 2021 due to the impacts of the COVID-19 pandemic. As shown in the table below, measures taken to reduce the spread of the virus resulted in a substantial drop in Vehicle Miles Traveled (VMT) throughout 2020 and early 2021. With the increased distribution of vaccines and corresponding rollback of restrictions in recent months, the state’s VMT has been gradually returning to pre-pandemic levels.

CDOT’s primary source of state revenue comes from taxes on fees on the sale of gasoline and special fuels, as well as various vehicle registration fees. Gasoline taxes and fees are assessed on the number of gallons of gasoline sold. With the drop of VMT throughout 2020 and 2021, overall assessments on gasoline and special fuels decreased substantially between FY 2019-20 to the current FY 2021-22.

Year over Year VMT Patterns

Monthly VMT Compared to Pre-pandemic Levels

January 2020 - August 2021

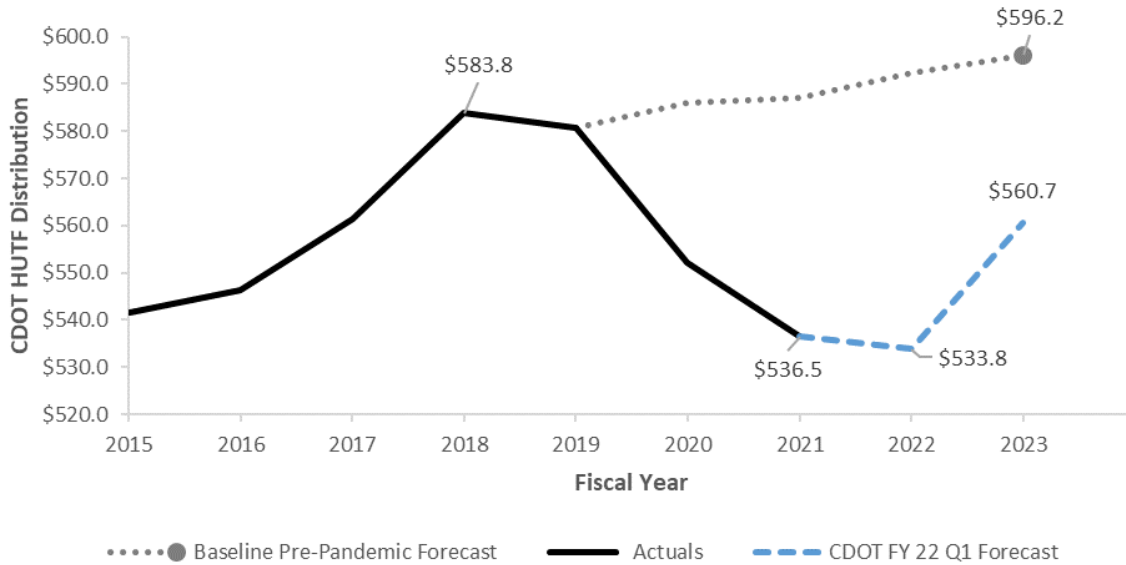

CDOT revenue is expected to increase substantially in FY 2022-23 as VMT returns to pre-pandemic levels. While the Department anticipates revenue to increase in future fiscal years, there is significant risk within the current forecast. For example, future actions taken to prevent the spread of the virus or behavior changes resulting from the pandemic (such as an increase in working from home) may impact VMT in future months. The figure below provides an overview of the

Department’s recent quarterly forecasts and compares them to the Department’s pre-pandemic forecast.

CDOT HUTF Distribution Outlook

FY 22 Q1 Forecasts, Actuals, & Pre-pandemic Baseline
FY 15 - FY 23 (in millions \$)

SB 17-267 – Sustainability of Rural Colorado

Senate Bill (SB) 17-267 directed the State Treasurer to execute lease-purchase agreements on existing state facilities to generate revenue for priority transportation projects. These agreements function as sales of state property to private investors, and they require investors to immediately lease the buildings back to the state. Leases are renewed annually for up to 20 years, after which the state resumes ownerships of the buildings.

Revenue from SB 17-267 Lease-Purchase Agreements (millions)

	FY 2017-18	FY 2018-19	FY 2019-20	FY 2020-21	FY 2021-22
	Actual	Actual	Actual	Budget	Final
General Fund	\$0.00	\$424.20	\$559.80	\$500.00	\$500.00
SB 17-262	\$0.0	\$424.2	\$559.8	\$620.6	\$500.0

Senate Bill 17-267 required the State Architect to select a list of state facilities with a net present value of at least \$2.0 billion. Between FY 2018-19 and FY 2021-22, the State Treasurer will execute lease-purchase agreements on these facilities in amounts of up to \$500 million annually. The state's obligation for lease payments may not exceed \$150 million annually, or \$3.0 billion over 20 years.

Pursuant to this bill, the debt service is paid as follows:

1. General Fund: first \$9 million
2. State Highway Fund: next \$50 million
3. General Fund or any other legally available source: anything remaining after the first \$59 million, up to \$150 million

Since its passage in 2017, SB 17-267 has been modified by subsequent bills, which are described below.

HB 20-1376 - Transportation Transfers

To help offset the revenue decline created by the COVID-19 pandemic and related economic recession, the General Assembly passed HB 20-1376. This bill altered the SB 17-267 debt service formula.

Under this bill, the debt service will be paid as follows in FY 2020-21 and FY 2021-22:

1. General Fund: first \$9 million
2. State Highway Fund: next \$62 million
3. General Fund or any other legally available source: anything remaining after the first \$71 million, up to \$150 million

Beginning in FY 2022-23, the annual debt service formula will return to the original formula created in SB 17-267.

HB 20-1377 - COP Issuance

This bill, which was passed in the 2020 Legislative Session, diverted \$49 million from the second SB 17-267 issuance to the Capital Construction Fund for statewide controlled maintenance projects.

General Fund Appropriations and Transfers

Over the past 40 years, CDOT has received varying levels of funding from the state's General Fund. Figure 10 below provides an overview of General Fund spending on transportation since FY 1979-80.

SB 17-267 is expected to raise up to \$2.0 billion in revenue for priority transportation projects

Historical General Fund Transfers to Transportation

While CDOT does not currently have a dedicated stream of General Fund revenue, recent legislation has dedicated money from the General Fund to CDOT, counties, and municipalities for transportation purposes. With one exception, funding from the General Fund is typically transferred to the State Highway Fund or the Highway Users Tax Fund, and not appropriated directly in the Long Bill. As such, General Fund transfers appear in the Long Bill as informational-only cash funds. Recent funding transferred from the General Fund to transportation is described in more detail below.

General Fund Transfers to the State Highway Fund (millions)

	FY 2018-19 Actual	FY 2019-20 Actual	FY 2020-21 Actual	FY 2021-22 Budget*	FY 2022-23 Proposed
General Fund Transfers	\$346.5	\$105.0	\$1.0	\$324.0	\$0.7
SB 18-001	\$346.5	\$105.0	\$0.0	\$0.0	\$0.0
SB 19-262	\$0.0	\$0.0	\$0.0	\$0.0	\$0.0
HB 20-1360	\$0.0	\$0.0	\$1.0	\$0.0	\$0.0
SB 21-110	\$0.0	\$0.0	\$0.0	\$30.0	\$0.0
SB 21-260	\$0.0	\$0.0	\$0.0	\$170.0	\$0.7
SB21-265	\$0.0	\$0.0	\$0.0	\$124.0	\$0.0

SB 18-001 - Transportation Infrastructure Funding

This bill committed General Fund transfers to transportation for FY 2018-19 and FY 2019-20.

For FY 2018-19, SB 18-001 transferred \$495.0 million as follows:

- \$346.5 million to CDOT;
- \$74.25 million to counties and cities; and
- \$74.25 to the newly created Multimodal Transportation Options Fund (MMOF).

For FY 2019-20, SB 18-001 transferred \$150.0 million as follows:

- \$105.0 million to CDOT;
- \$22.5 million to counties and cities; and
- \$22.5 million to the MMOF.

Of the amount transferred to the Multimodal Transportation and Mitigation Options Fund in FY 2018-19, \$2.5 million was set aside for the Southwest Chief and Front Range Rail Commission. The remaining funding must be expended on multimodal transportation projects. More information on these transfers can be found in the State Multimodal Transportation Funding Section.

SB 19-262 - General Fund Transfer to the Highway Users Tax Fund

For FY 2019-20, this bill transferred \$100 million from the General Fund to the Highway Users Tax Fund (HUTF), and allocated this funding as follows:

- 60 percent to CDOT
- 22 percent to counties
- 18 percent to municipalities

HB 20-1360 - Long Bill

For FY 2020-21, the Long Bill (statewide budget bill) directly appropriated \$1.0 million from the General Fund, which is dedicated for transportation services for vulnerable populations.

SB 21-110

This bill transferred \$30 million from the General Fund to the State Highway Fund to provide additional funding for the Department's Revitalizing Main Streets program. This program helps communities across the state implement transportation-related projects that improve safety and yield long-term benefits to community main streets.

SB 21-260 - Sustainability of the Transportation System

This bill created several one-time and ongoing General Fund transfers to transportation, which are described in more detail below.

On July 1, 2021, this bill transfers \$170 million from the General Fund to the State Highway Fund.

Between FY 2024-25 to FY 2031-32, the bill makes the following annual General Fund Transfers:

- \$10.5 million to the Multimodal Transportation and Mitigation Options Fund
- \$7.0 million to the State Highway Fund for the Revitalizing Main Streets and Safer Main Streets programs. This funding may be expended for multimodal projects.

Between FY 2024-25 to FY 2031-32, the bill makes the following annual General Fund Transfers:

- \$100.0 million from FY 2024-25 to FY 2028-29; out of this transfer, \$10 million must be spent to mitigate the environmental and health impacts of increased air pollution
- \$82.5 million from FY 2029-30 to FY 2031-32

Additionally, this bill transfers \$115 million of the revenue that is retained after increasing the excess state revenues cap to transportation. These transfers will occur over multiple fiscal years. Of this funding, 94 percent is transferred to the Multimodal Transportation and Mitigation Options Fund and 6 percent is transferred to the State Highway Fund for the Revitalizing Main Streets and Safer Main Streets programs.

SB 21-265 - Transfer from General Fund to State Highway Fund

This bill provided a one-time transfer of \$124.0 million from the General Fund to the State Highway Fund. House Bill 20-1376 suspended for two fiscal years (FY 2020-21 and FY 2021-22) the \$50 million annual General Fund transfers to assist with SB 17-267 debt service, and also required CDOT to pay an additional \$12.0 million in debt service for both fiscal years that would have otherwise been covered by the General Fund. Therefore, the Department's debt service obligation from the State Highway Fund was increased by a total of \$62.0 million for both fiscal years. This bill is intended to restore the full amount to the State Highway Fund.

Capital Construction Fund

Each year, the Department is required to submit a request for funding to the Capital Development Committee (CDC) of the General Assembly (43-1-113 (2.5) C.R.S.). In recent years, the CDC has allocated \$500,000 to CDOT for capital development projects.

Referendums C and D went to voters in 2005, which together would have allowed the state to borrow up to \$1.7 billion for transportation projects, with Referendum C providing the funding to repay the debt. When C passed and D failed, the General Assembly began appropriating Capital Development Funds to CDOT. These appropriations have provided \$500,000 annually to CDOT since FY 2010-11.

Additionally, CDOT received additional funding from the CDC in FY 2018-19 for a San Luis Valley Doppler Weather Radar partnership and in FY 2020-22 for weather radar systems in southwest Colorado. The table below provides an overview of funding from the Capital Construction Fund.

CDOT Capital Construction Appropriations

	Controlled Maintenance	Capital Renewal & Recapitalization	Capital Expansion	Capital IT Projects
FY 2017-18	\$0	\$500,000	\$0	\$0
FY 2018-19	\$0	\$500,000	\$302,000	\$0
FY 2019-20	\$0	\$500,000	\$0	\$0
FY 2020-21	\$0	\$500,000	\$0	\$0
FY 2021-22	\$0	\$500,000	\$300,000	\$0

Federal Sources of Revenue

In addition to state sources of funding, CDOT relies on revenue from the federal government. Federal funding for highway and transit projects primarily comes from the Federal Highway Trust fund, which is funded with federal fuel taxes. In recent years, fuel taxes have been insufficient to fully fund the Federal Highway Trust fund, and it has been supplemented by transfers from the federal General Fund.

This section outlines Colorado’s federal funding in more detail, which is summarized in the table below.

CDOT Federal Funding Summary (millions)

	FY 2018-19 Actual	FY 2019-20 Actual	FY 2020-21 Actual	FY 2021-22 Budget*	FY 2022-23 Proposed
Federal Revenue	\$625.6	\$690.4	\$856.3	\$642.2	\$644.9
Federal Highway Revenue	\$563.6	\$611.0	\$610.4	\$556.3	\$556.1
Federal Highway Revenue - Local Match*	\$21.2	\$22.6	\$22.3	\$22.7	\$22.9
Federal Transit Revenue	\$20.0	\$38.4	\$23.4	\$37.9	\$38.1
Federal Transit Revenue - Local match*	\$12.1	\$11.0	\$10.7	\$18.0	\$18.1
Federal Safety Revenue	\$8.7	\$7.4	\$7.3	\$7.3	\$9.7
SB 21-260 - ARPA Transfer	\$0.0	\$0.0	\$182.2	\$0.0	\$0.0

Federal Highway Revenue

On December 4, 2015, President Obama signed into law the Fixing America’s Surface Transportation Act, or FAST Act. The FAST Act authorizes \$305 billion over federal fiscal years 2016 through 2020 for the US Department of Transportation’s (USDOT) highway, highway and motor vehicle safety, public transportation, motor carrier safety, hazardous materials safety, rail, and research programs. In addition to the multiyear Authorization Act mentioned above, federal revenues depend on the passage of an annual Appropriations Act, or the extension of an act via “Continuing Resolution,” in order to obligate federal resources and receive subsequent cash reimbursement. Colorado receives approximately 1.36 percent of the national total of “formula” funds distributed by the Federal Highway Administration (FHWA). Additionally, the State may receive discretionary grants from the

USDOT, such as RAISE or INFRA, which are not projected as part of the revenue allocation model but could increase overall federal revenues.

The Federal Highway Trust Fund finances most federal government spending for highways and transit. The Highway Account in the Highway Trust fund is funded by various excise and sales taxes, which are summarized in Table 10 below. All Federal-aid projects must be in an approved STIP, and the FHWA must authorize projects in advance. State spending on authorized projects is reimbursed by the FHWA, and most federal-aid funding programs require a state or local match.

The FAST Act expires after federal fiscal year 2020. Congress passed a Continuing Resolution through September 2021. As of this writing, Congress has passed an additional Continuing Resolution into federal fiscal year 2022.

On August 10, 2021, the Senate passed the Infrastructure Investment and Jobs Act. This bill includes a reauthorization of surface transportation funding over five years and additional appropriations for U.S. Department of Transportation programs.

The Department estimates that Colorado would receive a total of \$3.9 billion for federal-aid highway programs over 5 years under this bill. This represents an increase of approximately \$950 million over five years over our current baseline, or about \$190 million per year. About \$45 million is dedicated to a new program focused on bridge repair and replacement, and about \$37.5 million per year is dedicated to a new Carbon Reduction program and a new Risk and Resiliency program, and the rest is spread across existing programs. Federal transit funding to Colorado would also increase by about \$140 million to \$183.0 million per year for five years.

Additionally, about \$57.0 million would be available over 5 years to support expansion of the EV charging network in the state. Colorado would also be able to apply for the additional funding for competitive grant programs.

As of this writing, the Infrastructure Investment and Jobs Act has not been passed into law, and the information in this report is subject to change. Upon passage of a new surface transportation reauthorization, the Department will analyze the bill and incorporate it into financial plans.

Federal Aid Highway Program Excise and Sales Taxes

Tax Type	Gross Tax Rate	Net to the Highway Account
Fuel Taxes (Proceeds go to the Highway and Mass Transit Accounts)		
Gasoline	18.4 cents per gallon	15.44 cents per gallon
Diesel	24.4 cents per gallon	21.44 cents per gallon
Gasohol (10% ethanol)	18.3 cents per gallon	10.14 cents per gallon
Special Fuels		
General rate	18.4 cents per gallon	15.44 cents per gallon
Liquefied petroleum gas	18.3 cents per gallon	16.2 cents per gallon
Liquefied natural gas	24.3 cents per gallon	22.44 cents per gallon
M85 (from natural gas)	9.25 cents per gallon	7.72 cents per gallon
Compressed natural gas	48.54 cents per thousand cubic feet	38.83 cents per thousand cubic feet
Non fuel taxes (all proceeds go to the Highway Account)		
Tires		
0-40 pounds	No Tax	
41-70 pounds	15¢ per pound in excess of 40 pounds	
71 to 90 pounds	\$4.50 plus 30¢ per pound in excess of 70 pounds	
More than 90 pounds	\$10.50 plus 50¢ per pound in excess of 90 pounds	
Truck and trailer sales	12.0 percent of retailer's sales price for tractors and trucks over 33,000 lbs. gross vehicle weight (GVW) and trailers over 26,000 lbs. GVW	
Heavy vehicle use	Annual tax: Trucks 55,000 lbs. and over GVW, \$100 plus \$22 for each 1,000 lbs. (or fraction thereof) in excess of 55,000 lbs. (maximum tax of \$550)	

Federal Transit Revenue

The Federal Transit Administration (FTA) provides financial and technical assistance to local public transit systems and oversees safety measures and technology research. FTA funding for local transit projects comes from the Mass Transit Account of the Highway Trust Fund, which is currently supported by the motor fuel taxes shown in the table below.

Local sources of revenue are used to match FTA apportionments, and the amount of local matching funding is shown in table above.

Federal Excise Taxes Supporting the Mass Transit Account

Tax Type	Tax Rate
Gasoline	2.86 cents per gallon
Diesel	2.86 cents per gallon
Gasohol (10% ethanol)	2.86 cents per gallon
Special Fuels	
General rate	2.86 cents per gallon
Liquefied petroleum gas	2.13 cents per gallon
Liquefied natural gas	1.86 cents per gallons
M85 (from natural gas)	1.43 cents per gallon
Compressed natural gas	9.71 cents per thousand cubic feet

Federal Safety Revenue

The National Highway Transportation Safety Administration (NHTSA) administers grant programs for state safety projects. This funding supports programs for state and community highway safety, traffic safety information systems, alcohol-impaired driving countermeasures, and motorcyclist safety.

Federal Stimulus Funding

CDOT is receiving Federal Stimulus funding through three different pieces of legislation: (1) The CARES Act of 2020 (2) The Coronavirus Response and Relief Supplemental Appropriation Act (CRRSAA), and (3) The American Rescue Plan Act of 2021 (ARPA). The Department also received state stimulus funding from SB 21-110, SB 21-260 and SB 21-265.

CARES Act (March 2020)

The Coronavirus Aid, Relief, & Economic Security (CARES) Act was signed into law providing \$2 trillion in support for a variety of industries affected by COVID-19, including the transit industry which was allocated \$25 billion in funding. This transit funding was provided to support transit operations to prevent, prepare for, and respond to COVID-19.

Of the \$25 billion in transit funds for the nation, funds were allocated by formula as follows:

- Urbanized Areas Formula Program (49 USC 5307): \$22.7 billion
- Formula Grants for Rural Areas (49 USC 5311): \$2.2 billion
- Tribal Transit Formula Program: \$3 million
- FTA administration and oversight: \$75 Million

Beginning January 20, 2020, all activities normally eligible under the Urbanized Area (49 USC 5307) and Rural Area (49 USC 5311) formula programs were eligible for CARES Act funding, including Operating (including Administrative cost), Capital (preventive maintenance, rolling stock), and Planning. Colorado received \$325.3 million, of which CDOT received \$39.8 million.

Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA) (H.R. 133)

The Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (CRRSAA) is a \$900 billion bill that provides funding for transportation, education, and other Coronavirus relief. CRRSAA was included in the Consolidated Appropriations Act, 2021 (H.R. 133), a \$2.3 trillion spending bill that combined the \$900 billion in stimulus relief for the COVID-19 pandemic in the United States with a \$1.4 trillion omnibus federal government spending bill for the 2021 federal fiscal year (the omnibus bill portion itself combining 12 separate annual appropriations bills). The funding was signed into law by the President on December 27, 2020.

Of the \$900 Billion, CRRSAA included \$14 billion to support the transit industry during the COVID-19 public health emergency. The bill also included \$9.8 billion in flexible COVID-19 relief funding for highways with 100 percent federal share. CDOT has been working to move quickly and distribute dollars equitably.

Highway Funding – Of the \$9.8 billion flexible relief funding, CDOT received \$134,249,400. These funds may be used for preventive maintenance, routine maintenance, operations, personnel, including salaries of employees, and no state match is required. Funds were allocated based on the Surface Transportation Block Grant (STBG) Program formula, which allocates more than half of the funding on the basis of population.

Of the total amount, \$48.9 million was suballocated to Metropolitan Planning Organizations, as shown in the table below.

Metropolitan Planning Organization (MPO)	Allocation
DRCOG	\$36,280,780
Pikes Peak	\$8,548,463
North Front Range	\$4,041,362
TOTAL	\$48,870,605

Transit Funding – Of the \$14 billion allocated to support the transit industry, Colorado will receive \$284.1 million, of which \$78.4 million will flow through CDOT. The remaining \$205.7 million in funds coming to Colorado will flow directly from the Federal Transit Administration (FTA) to urban transit agencies such as RTD, TransFort, Pueblo Transit, and Grand Valley Transit (Grand Junction). CRRSAA directs transit recipients to prioritize payroll and operational needs.

The FTA funds that CDOT is responsible for managing are sub-allocated by program: 1) \$78.1 million in Section 5311 funds for rural transit agencies (transit outside urbanized areas), 2) \$0.2 million in Section 5310 funds (seniors & persons with disabilities) to small urban areas, and 3) \$0.1 million in Section 5310 funds for rural areas.

The FTA does not have a sub-allocation formula for 5311 rural transit agencies and relies on CDOT to make that allocation. The largest pool of funds (\$78.1 million) will be allocated proportionally based on the size of agency budgets.

American Rescue Plan Act of 2021 (ARPA) (H.R. 1319)

CDOT received \$343.5 million from the American Rescue Plan (H.R. 1319) via SB 21-260 Sustainability of the Transportation System. These funds are an allocation of the State and Local Fiscal Recovery Funds (SLFRF) from the US Treasury and will fall into the revenue replacement and provision of

government services expenditure categories. The funds were available upon transfer on June 30, 2021, and costs can be incurred through December 31, 2024. The Treasury Interim Final Rule further clarified that as long as funds are obligated by December 31, 2024, the performance period extends through December 31, 2026.

Aeronautics Revenue

CDOT’s Division of Aeronautics provides financial assistance to Colorado’s 74 public use airports, promotes aviation safety and education, and promotes economic development through the development, operation, and maintenance of the state aviation system. Sources of aeronautics revenue are described in more detail below, and information on the distribution of this funding can be found in the Revenue Allocation section.

CDOT Division of Aeronautics Revenue (millions)

	FY 2018-19	FY 2019-20	FY 2020-21	FY 2021-22	FY 2022-23
	Actual	Actual	Actual	Budget*	Proposed
Aeronautics Revenue	\$33.9	\$26.6	\$12.3	\$20.0	\$35.1
Aeronautics Revenue	\$33.9	\$26.6	\$12.3	\$20.0	\$35.1

Gasoline Excise Taxes - Colorado collects a tax of \$0.06 per gallon of gasoline used to propel non-turbo-propeller and non-jet aircraft, and a tax of \$0.04 per gallon of gasoline used to propel turbo-propeller and jet aircraft.

Aviation Fuel Sales Tax - The state assesses a sales tax of 2.9 percent of the value of all aviation fuel sold in Colorado.

Federal Aviation Administration Funding - From time to time, the Division of Aeronautics is the recipient of Federal Aviation Administration (FAA) Airport Improvement Program (AIP) grants, generally for AIP-eligible statewide planning efforts.

Miscellaneous State Highway Fund Revenue

In addition to motor fuel taxes and registration fees, there are various smaller sources of revenue to the State Highway Fund. Examples of this revenue include proceeds from the sale of state property, interest earned on the money in the cash fund, and the issuance of oversize/overweight permits.

Miscellaneous State Highway Fund Revenue (millions)

	FY 2018-19 Actual	FY 2019-20 Actual	FY 2020-21 Actual	FY 2021-22 Budget*	FY 2022-23 Proposed
Miscellaneous SHF Revenue	\$47.4	\$50.6	\$36.4	\$31.9	\$30.9
Permits	\$8.2	\$8.7	\$9.0	\$9.1	\$7.6
Service Charges	\$7.1	\$2.3	\$5.6	\$5.6	\$5.4
Sales	\$8.6	\$15.4	\$2.8	\$2.8	\$4.5
Damage Awards	\$4.2	\$4.6	\$4.6	\$4.6	\$4.5
Interest Earned	\$17.6	\$18.2	\$9.5	\$4.5	\$3.6
Property	\$1.6	\$1.4	\$1.4	\$1.4	\$1.4
Intergovernmental Services	\$0.0	\$0.0	\$2.0	\$2.0	\$2.0
PFAS Program	\$0.0	\$0.0	\$1.6	\$1.8	\$1.9

State Multimodal Transportation Funding

In addition to State highway funding, CDOT receives revenue for multimodal transportation projects, including transit, bike, and pedestrian projects. Most of this funding is transferred to local governments to assist with local multimodal projects, while the remainder is retained by CDOT for statewide multimodal initiatives.

Colorado's rapidly increasing population has led to an increase in congestion and greater wear on the state's roadways. Given the Department's current long-term revenue outlook, funding for multimodal projects will be critical to help keep the roads safe, reduce vehicle travel, and reduce the state's greenhouse gas emissions.

While funding for multimodal transportation has increased in recent years, most of this funding has been one-time funding from the state's General Fund. The long-term funding dedicated to multimodal projects is currently limited in future years.

This section outlines the revenue used for multimodal transportation projects.

State Multimodal Programs (millions)

	FY 2018-19 Actual	FY 2019-20 Actual	FY 2020-21 Actual	FY 2021-22 Budget*	FY 2022-23 Proposed
State Multimodal Funding	\$82.1	\$29.9	\$154.4	\$22.2	\$24.5
Multimodal Transportation Options Fund	\$71.8	\$22.5	\$146.8	\$0.0	\$17.6
Southwest Chief Rail Commission	\$2.6	\$0.1	\$0.1	\$14.9	\$0.0
Rail and Transit - State Highways	\$5.0	\$5.0	\$5.0	\$5.0	\$5.0
Bustang	\$2.7	\$2.3	\$2.5	\$2.3	\$1.9

Multimodal Transportation and Mitigation Options Fund - In 2018, SB 18-001 created the Multimodal Transportation Options Fund and transferred a total of \$94.25 million in one-time funding from the General Fund (after a \$2.5 million set-aside for the Southwest Chief and Front Range Rail Commission). Of this funding, 85 percent (\$80.12 million) must be granted to local

governments, and 15 percent (\$14.13 million) is retained by CDOT for multimodal projects. More information on the allocation of this funding can be found in the CDOT Budget Allocation Section.

Senate Bill 19-125 - CDOT Supplemental Appropriations Bill. Senate Bill 18-001 was passed after the passage of the Long Bill, and there was no opportunity for CDOT to seek an appropriation from the legislature for \$71.75 million in funds transferred to the MTOF for FY 2018-19.

CDOT received a supplemental appropriation to use the MMOF funding in Senate Bill 19-125. This appropriation is available to the Department through the end of FY 2022-23.

The FY 2019-20 portion of MTOF funding was appropriated in the Long Bill for FY 2019-20, and this funding is available to the Department through the end of FY 2023-24.

SB 21-260 - Sustainability of the Transportation System - SB 21-260 renamed the Multimodal Transportation Options Fund to the Multimodal Transportation and Mitigation Options Fund. In addition to the multimodal projects that could previously be funded from this cash fund, the Department can also fund greenhouse gas mitigation projects with this funding.

Additionally, this fund will receive ongoing funding from the newly created Retail Delivery Fee and dedicated General Fund transfers. This fund receives 28.9 percent of the state portion of the retail delivery fees.

Southwest Chief and Front Range Passenger Rail Commission (Passenger Rail Commission) - The Passenger Rail Commission was created by SB 17-153. It coordinates and oversees efforts by state and local governments, and cooperates with Kansas, New Mexico, Amtrak, and BNSF Railway, to ensure completion of track repairs and upgrades required to continue Southwest Chief Rail service in Colorado.

Front Range Passenger Rail. SB 18-001 provided \$2.5 million for studies, staffing, and Federal Grant match to formulate a proposal for Front Range passenger rail service. Updates on the Passenger Rail Commission and Front Range Passenger Rail can be found [here](#).

American Rescue Plan Act - On July 1, 2021, SB 21-260 transferred \$12 million from the Multimodal Transportation and Mitigation Options Fund to the Southwest Chief and Front Range Passenger Rail Commission Fund to provide additional funding for the Southwest Chief La Junta Route restoration program. On February 15, 2022, the bill transfers an additional \$2.5 million to the Southwest Chief and Front Range Passenger Rail Commission Fund.

Front Range Passenger Rail District Creation - SB 21-238 repeals the current Passenger Rail Commission on May 15, 2022 and creates the Front Range Passenger Rail District. The new district will extend from Wyoming to New Mexico along the I-25 corridor, and it will have the authority to develop, finance, and operate an interconnected rail system. The remaining balance in the Passenger Rail Commission's cash fund will be transferred to the new Passenger Rail district on July 1, 2022.

State Rail and Transit - Each year, \$15 million from the FASTER Road Safety Surcharge is annually set aside for transit projects. FASTER transit funds are split between local transit grants (\$5 million per year) and statewide projects (\$10 million per year).

The \$5 million in local transit grants are awarded competitively by CDOT, while the \$10 million in statewide funds are programmed by the CDOT Division of Transit and Rail to statewide,

interregional, and regional projects. Local recipients are required to provide a minimum 20 percent local match. Among the types of projects that have been awarded are the purchase or replacement of transit vehicles, construction of multimodal stations, and acquisition of equipment for consolidated call centers.

Bustang - Bustang is an interregional bus service operated by the Department that connects commuters along the I-25 Front Range and I-70 Mountain Corridors. Bustang links local transit systems together and addresses demand for reliable transit alternatives along the highest traveled corridors of the state. Additional information on Bustang Routes can be found in Revenue Allocation section.

The primary source of revenue for Bustang is fare revenue, and total Bustang fare revenue is shown in the table below.

Bustang Fare Revenue

Fiscal Year	Ridership	Fare Revenue
FY 2015-16	102,503	\$1,014,589
FY 2016-17	155,864	\$1,551,435
FY 2017-18	194,064	\$1,844,669
FY 2018-19	238,135	\$2,637,877
FY 2019-20	189,538	\$2,082,088
Total	880,104	\$9,130,658

State Safety Education Programs

In addition to the Federal safety funding the state gets from NHTSA, the state funds several other safety programs, primarily focused on impaired driving programs. These programs are described below.

State Safety Programs (millions)

	FY 2018-19 Actual	FY 2019-20 Actual	FY 2020-21 Actual	FY 2021-22 Budget*	FY 2022-23 Proposed
State Safety Education Programs	\$2.8	\$3.8	\$2.3	\$3.9	\$2.9
Law Enforcement Assistance Fund	\$0.3	\$0.4	\$0.4	\$0.3	\$0.4
First Time Drunk Driver	\$1.5	\$2.5 *	\$1.5	\$2.6	\$1.5
Marijuana Impaired Driving Program	\$1.0	\$1.0	\$0.5	\$1.0	\$1.0

*The FY 2019-20 budget for the First Time Drunk Driver program includes a one-time appropriation of \$1.0 million from the Marijuana Tax Cash Fund.

*The FY 2021-22 forecast for the First Time Drunk Driver program includes a \$2.0 million appropriation from HB 21-1317

Law Enforcement Assistance Fund - Every person who is convicted of, or pleads guilty to, driving under the influence (DUI) pays a fine of \$75, of which \$60 is credited to the Law Enforcement Assistance Fund (LEAF). After appropriations to the Colorado Department of Public Health and Environment (CDPHE) for evidential breath alcohol testing and the Colorado Bureau of Investigation (CBI) for toxicology lab services, the remainder of the funding is diverted to CDOT (80 percent) and the Department of Human Services (DHS) (20 percent). CDOT's portion of this funding is used to increase the law enforcement presence on public highways during periods of the year known to have a higher incidence of impaired driving.

First Time Drunk Driver - Under current state law, a driver must pay a \$95 reinstatement fee to reinstate a driver license that was cancelled or denied. Of this fee, \$22 is deposited in the First Time Drunk Driving (FTDD) Offender Account. After appropriations to the Colorado Department of Revenue (DOR) for costs related to ignition interlock devices, the remainder of this funding is appropriated to CDOT and used for the High Visibility Enforcement (HVE) periods required by statute.

Enforcement episodes include, but are not limited to, specific dates that have high incidences of impaired driving crashes, such as St. Patrick's Day, 4th of July, Labor Day, etc. CDOT implements the enforcement episodes based on problem identification analysis.

Marijuana Tax Cash Fund - The Marijuana Tax Cash Fund is funded by state sales and excise taxes on medical and recreational marijuana. CDOT currently receives an annual appropriation to fund outreach and education on marijuana impaired driving. In addition to outreach and education on impaired driving. Marijuana Cash Tax Funds have been used to fund local law enforcement in their efforts to enforce impaired driving laws.

Education and Outreach - In 2020 the Colorado Department of Transportation launched a new campaign developed for Coloradans, by Coloradans, to curb marijuana-impaired driving across the state. The campaign is based on feedback gathered during the Colorado Cannabis Conversation which engaged over 80,000 cannabis consumers on the topic. The new ad campaign aims to give consumers pause and consider the risks of driving high. The ads remind Coloradans that "lives are at stake every time you get behind the wheel." The campaign can be seen online, on connected TV, in print, at dispensaries and heard on the radio. CDOT is also continuing its partnership with the cannabis industry to help educate consumers about the laws and risks of driving under the influence of cannabis - and providing resources to help them make responsible decisions. To learn more about CDOT's new campaign and view creative materials, visit DriveHighDUI.com.

State Infrastructure Bank

The Colorado State Infrastructure Bank (SIB) is a revolving fund created by the General Assembly that is authorized to make loans to public and private entities to facilitate the financing of transportation projects in the state. The fund receives interest income from the fund's loan portfolio and the fund's cash balance. More information on how this revenue is distributed can be found in the CDOT Revenue sources section.

State Infrastructure Bank (millions)

	FY 2018-19	FY 2019-20	FY 2020-21	FY 2021-22	FY 2022-23
	Actual	Actual	Actual	Budget*	Proposed
State Infrastructure Bank	\$0.5	\$0.5	\$0.7	\$0.7	\$0.4
State Infrastructure Bank	\$0.5	\$0.5	\$0.7	\$0.7	\$0.4

Section 3 CDOT Revenue Allocation

CDOT Revenue Allocation

Each year, the Transportation Commission allocates the estimated revenue that will be available for the upcoming budget year to CDOT’s various programs. The Revenue Allocation Plan (“one sheet”) summarizes the estimated FY 2022-23 revenue that will be allocated to each line of CDOT’s budget. This section describes the allocation of the Department’s revenue in more detail, and the one-sheet can be found in Appendix A.

The Department has created several categories to provide increased transparency into the department’s spending. The department’s budget categories are split between Core Functions and Support Functions.

The figure below summarizes how funding is distributed between each program for FY-2022-23. More detailed information on each of the Department’s core and support functions can be found in the sections below.

Core Functions

- Capital Construction
- Maintenance and Operations
- Suballocated Programs
- Multimodal Services

Support Functions

- Administration and Agency Operations
- Debt Service
- Contingency Reserve
- Other Programs

CDOT Core and Support Functions

Capital Construction

Supported by construction contractors, CDOT delivers an annual construction program focused on maintaining the condition of existing assets, improving the safety of the system, and enhancing mobility through major upgrades and expansion of the system. CDOT’s construction program includes 14 construction programs organized into three categories: Asset Management, Safety, and Mobility. Funding for construction includes not only the work performed on the road by contractors, but also design, right of way acquisition, and related support costs.

Recent increases in funding can be attributed to one-time General Fund transfers, as described in the Revenue Allocation section above.

CDOT Capital Construction Allocations

	FY 2018-19	FY 2019-20	FY 2020-21	FY 2021-22	FY 2022-23
	Budget	Budget	Budget	Budget	Proposed
Asset Management	\$426.9	\$318.9	\$325.2	\$336.1	\$330.1
Surface Treatment	\$313.7	\$222.0	\$223.2	\$223.3	\$225.6
Structures	\$57.0	\$56.6	\$51.8	\$61.9	\$61.2
System Operations	\$41.3	\$24.1	\$31.4	\$34.3	\$26.9
Geohazards Mitigation	\$8.4	\$9.7	\$12.3	\$10.1	\$10.0
Permanent Water Quality Mitigation	\$6.5	\$6.5	\$6.5	\$6.5	\$6.5
Safety	\$121.1	\$140.6	\$127.6	\$115.3	\$115.3
Highway Safety Improvement Program	\$43.1	\$44.0	\$32.8	\$33.1	\$32.9
Railway-Highway Crossings Program	\$3.4	\$3.5	\$3.6	\$3.6	\$3.8
Hot Spots	\$2.2	\$2.2	\$2.2	\$2.2	\$2.2
FASTER Safety	\$67.4	\$68.5	\$67.6	\$69.2	\$69.2
ADA Compliance	\$5.0	\$22.4	\$21.4	\$7.2	\$7.2
Mobility	\$653.0	\$626.5	\$520.8	\$520.9	\$72.5
Regional Priority Program	\$48.7	\$48.4	\$48.4	\$48.4	\$50.0
Strategic Projects	\$583.5	\$555.0	\$450.0	\$450.0	\$0.0
National Highway Freight Program	\$20.8	\$23.1	\$22.4	\$22.5	\$22.5
Total	\$1,201.0	\$1,086.0	\$973.6	\$972.3	\$517.9

Asset Management

Surface Treatment - The Department’s surface treatment program maintains the quality of the pavement on state highways at the highest possible level. Department staff utilizes pavement management software and annual data collection to make recommendations on the segments of the state highway system should be prioritized for rehabilitation.

The main sources of funding for the surface treatment program are State Highway Funds and federal reimbursement for eligible expenditures.

Structures - This program provides inspection and inventory of the statewide structures, manages all essential repairs and critical findings for statewide structural asset programs, and evaluates permits required for oversized and overweight vehicles.

The main sources of funding for the surface treatment program are State Highway Funds and federal reimbursement for eligible expenditures.

System Operations - This program is focused on implementing new and innovative technology, deploying and integrating statewide Intelligent Technology Systems (ITS), incorporating automated performance measures, and extending technical resources to CDOT regions in the areas of traffic signal and ramp metering. This program also leads and/or participates in the development and implementation of arterial and freeway management strategies throughout the state.

Geohazards Mitigation - Mountain and canyon corridors are affected by several geologic hazards such as debris flow, embankment distress, landslides, rockfalls, rockslides, and sinkholes. The Geohazards Program designs mitigation plans, reviews consultant designs, performs site inspections during construction, responds to rock falls, and other geological hazards-related emergencies. Other work includes responding to requests from Maintenance, Engineering, and the public when slope issues are observed. The current inventory of recognized geological hazards throughout the state is just over 3,000.

The main source of revenue for the Geohazards Program is the State Highway Fund.

Permanent Water Quality Mitigation - The primary goal of the Permanent Water Quality (PWQ) Program is to treat pollution in stormwater from CDOT roadways before it flows into Colorado's rivers, lakes and streams. Pollutants from CDOT roadways include oil and grease, copper, any fluids from vehicles, lead and chloride. The PWQ Control Measures (CMs) that clean these pollutants from stormwater include swales, basins or ponds, and porous surfaces. Each of these CMs capitalizes on natural mechanisms, such as sediment removal or infiltrating water through the ground, to eliminate roadway pollutants from entering surface and ground water.

The PWQ Program is a regulatory program that is evaluated by the Colorado Department of Public Health and Environment through CDOT's storm water (MS4) permit. CDOT Headquarters staff support Regions in assessing whether or not PWQ Control Measures (CMs) are required on transportation projects, in tracking CMs in a statewide inventory, and in ensuring CMs are inspected and maintained to promote healthy Colorado water. The scenic byways throughout Colorado are maintained and improved through CDOT's Permanent Water Quality Program.

The main source of revenue for this program is the State Highway Fund and federal reimbursement for eligible expenditures.

Safety

Highway Safety Improvement Program - The primary goal of the Highway Safety Improvement Program (HSIP) program is to achieve a significant reduction in fatalities and serious injuries on all publicly maintained roads. This includes public roads not owned by the state and roads on tribal lands. To comply with this program, CDOT is required to develop a strategic highway safety plan that identifies and analyzes highway safety programs and opportunities, create projects to reduce the identified safety problems, and evaluate and update the plan on a regular basis.

Beginning In FY 2020-21, \$11.4 million of HSIP funding was diverted to the Department's new Strategic Safety Program, which is described in more detail below. The main sources of funding for the HSIP program are State Highway Funds and federal reimbursement for eligible expenditures.

Railway-Highway Crossings Program - The Railway-Highway Crossings program is a federally mandated program for the elimination of hazards at railway-highway crossings. The purpose of this program is to reduce the number of injuries and fatalities at public crossings throughout the state. Nationwide, since the program's inception in 1987 through 2014, for which the most recent data is available, fatalities at public crossings have decreased by 57 percent. The overall reductions in fatalities come despite an increase in vehicle miles traveled on roadways and an increase in passenger and freight traffic on railways.

The main sources of revenue to the Railway-Highway Crossings program are federal highway funds and local matching funds.

Hot Spots - This is a CDOT safety program that seeks to mitigate minor unforeseen issues that need immediate attention, as well as add funding to ongoing projects for unforeseen safety issues discovered during the project process.

The main sources of funding for the Hot Spots program are State Highway Funds and federal reimbursement for eligible expenditures.

FASTER Safety - FASTER safety funding is used for road safety projects, defined in statute as a construction, reconstruction, or maintenance project the Transportation Commission, a county, or municipality determines is needed to enhance roadway safety. Projects that have been funded with FASTER safety funding include pavement and other asset management projects, intersection and interchange improvements, shoulders and safety-related widening, and wildlife fencing.

FASTER Safety projects are funded through distributions of revenue generated by Senate Bill 09-108, which are credited to the Highway Users Tax Fund. This funding source is described in more detail in the State Revenue Section above.

ADA Compliance - The landmark Americans with Disabilities Act (ADA) mandates that qualified individuals with disabilities shall not be excluded from participation in, denied the benefit of, or be subjected to discrimination under any program or activity.

For CDOT and its sub-recipients, these services or activities are any that are transportation related. These can include but are not limited to: roadways, contiguous walkways, intersections, rest areas, roadside emergency telephones, public conveyances such as buses and light rail, and literature related to any of these. CDOT is pursuing an aggressive strategy of upgrading curb ramps through regular program delivery, as well as committing dedicated funding toward curb ramp upgrading to achieve ADA compliance within five years.

The main sources of funding for the ADA Compliance program are State Highway Funds and federal reimbursement for eligible expenditures.

Mobility

Regional Priority Program - The objective of the Regional Priority Program (RPP) is to supplement the formula-driven funding allocations to the five CDOT engineering regions with flexible state

funding. This funding is used at the discretion of each Regional Transportation Director, in consultation with local elected officials and other stakeholders in each region. RPP funds are distributed to the CDOT Regions according to a formula that is weighted on these factors: 50 percent population, 35 percent state highway system lane miles, and 15 percent state highway system truck Vehicle Miles Traveled (VMT).

The RPP is funded through annual Transportation Commission allocations of State Highway Funds with federal reimbursement for eligible expenditures.

Strategic Projects - Funding from General Fund transfers, as described in the General Fund Transfers section, primarily goes to strategic construction projects. This line currently includes funding from SB 17-267, SB 18-001, and SB 19-262.

National Highway Freight Program - The National Highway Freight Program (NHFP) is a formula-based program with the purpose of improving the efficient movement of freight on the National Highway Freight Network (NHFN). The NHFN includes the interstates, several small segments of other corridors important to freight movement, and approximately 240 miles of Critical Urban and Critical Rural Freight Corridors to be designated by the state.

The main sources of funding for the NHFP are State Highway Funds and federal reimbursement for eligible expenditures.

Maintenance and Operations

CDOT maintenance and operations staff are responsible for the daily maintenance and operation of the state transportation system. This includes Maintenance Program Areas focused on activities such as snow and ice removal and pavement repair, and programs focused on ensuring the system operates efficiently, such as Courtesy Patrol and Heavy Tow services to remove inoperable vehicles from traffic, and real-time travel information provided to travelers via Variable Message Signs, or the COTRIP website.

Maintenance and Operations Allocations

	FY 2018-19 Budget	FY 2019-20 Budget	FY 2020-21 Budget	FY 2021-22 Budget	FY 2022-23 Proposed
Asset Management	\$329.8	\$315.4	\$332.9	\$312.3	\$335.6
Maintenance Program Areas	\$272.8	\$263.4	\$265.2	\$263.5	\$271.3
Express Lane Corridor Mtce and Ops	\$0.0	\$2.3	\$2.9	\$5.0	\$13.0
Property	\$20.2	\$17.6	\$29.3	\$19.9	\$27.9
Capital Equipment	\$26.8	\$22.1	\$23.5	\$23.9	\$23.4
Maintenance Reserve Fund	\$10.0	\$10.0	\$12.0	\$0.0	\$0.0
Safety	\$0.0	\$0.0	\$11.4	\$11.4	\$11.4
Strategic Safety Program	\$0.0	\$0.0	\$11.4	\$11.4	\$11.4
Mobility	\$20.6	\$20.6	\$24.6	\$24.0	\$20.7
Real-time Traffic Operations	\$10.6	\$10.6	\$14.6	\$14.0	\$10.7
ITS Investments	\$10.0	\$10.0	\$10.0	\$10.0	\$10.0
Total	\$350.4	\$336.0	\$368.9	\$347.7	\$367.7

Asset Management

Maintenance Program Areas - To provide statewide consistency in service, CDOT uses a performance-based budgeting system for its maintenance program. The Maintenance Levels of Service (MLOS) system includes an annual physical rating and/or survey to gauge conditions for approximately 64 activities or system categories. The measured items all fall under six Maintenance Program Areas (MPA):

- Roadway Surface;
- Roadside Facilities;
- Roadside Appearance;
- Structure Maintenance;
- Tunnel Activities; and
- Snow and Ice Control.

Additionally, there are operational MPA's that are funded through MLOS but are not measured and assigned a letter grade:

- Traffic services;
- Materials, Equipment, and Buildings; and
- Planning and Scheduling.

Funding in Maintenance Program Areas

	FY 2018-19	FY 2019-20	FY 2020-21	FY 2021-22	FY 2022-23
	Budget	Budget	Budget	Budget	Proposed
Maintenance Program Areas	\$272.9	\$263.3	\$265.3	\$263.4	\$271.3
Roadway Surface	\$37.5	\$36.5	\$36.8	\$40.4	\$40.6
Roadside Facilities	\$25.0	\$24.4	\$24.5	\$21.4	\$21.9
Roadside Appearance	\$11.0	\$10.7	\$10.8	\$9.8	\$10.1
Structure Maintenance	\$6.3	\$6.1	\$6.2	\$5.4	\$5.6
Tunnel Activities	\$6.1	\$6.0	\$6.0	\$4.0	\$4.9
Snow and Ice Control	\$82.6	\$79.2	\$79.8	\$79.1	\$83.5
Traffic Services	\$68.4	\$65.4	\$65.9	\$69.0	\$70.1
Materials, Equipment, and Buildings	\$18.2	\$17.7	\$17.4	\$17.5	\$17.8
Planning and Scheduling	\$17.8	\$17.3	\$17.9	\$16.8	\$16.9

There are 13 service levels established for each MPA, with calculations translated to a scale of A+ through F, with A+ being the highest service level and F being the lowest.

The main source of funding to the CDOT maintenance program is the State Highway Fund.

Express Lanes Corridor Maintenance and Operations - Formerly referred to as Toll Corridor General Purpose Lanes. This budget is used to pay for general purpose lane maintenance activities in express lanes corridors, such as US-36 and Central 70, where a third party is performing this work on CDOT's behalf. The main source of revenue for this program is the State Highway Fund.

Property - This budget is used for CDOT's inventory of over 1,200 buildings, which include vehicle storage facilities, sand sheds, office buildings and lab facilities, as well as a limited number of employee housing facilities and storage sheds.

In addition to ongoing maintenance and repair, the structural conditions of each building are evaluated and graded annually. CDOT's goal is to maintain 85 percent or more of its buildings at a level C or better, on an A through F rating scale. Existing buildings are assessed for replacement or refurbishment to maintain desired condition levels. The main source of revenue for this program is the State Highway Fund.

Road Equipment - CDOT relies on a wide variety of heavy road equipment for the maintenance of the state highway system. The fleet includes:

- trucks used to haul asphalt, rocks, and earth
- trucks that plow snow and distribute snow and ice melting materials
- large mobile sweepers
- large landscaping mowers
- a hot plant for producing asphaltic concrete pavement

CDOT has developed an expected useful life for all heavy equipment based on age and usage (mileage or hours), and the Department has a vigorous fleet management system to proactively address the condition of its fleet.

The main source of revenue for this program is the State Highway Fund.

Maintenance Reserve Fund - This funding is used to fund emergency maintenance activities, such as snow and ice removal and wildfire response. The Division of Maintenance and Operations uses this funding to reimburse any budget used for emergency response activities. The main source of revenue for this program is the State Highway Fund.

Safety

Strategic Safety Program - In FY 2020-21, the Transportation Commission approved the transfer of \$11.4 million in funding from the Highway Safety Improvement Program (HSIP) to the newly established Strategic Safety Program. The Strategic Safety Program is focused on decreasing the frequency and severity of accidents through systematic statewide safety improvement programs, which include: 6-inch striping, interstate cable rail, rumble strips, variable speed limit signage, and MASH compliant guardrail.

Mobility

Real-time Traffic Operations - Under this program, the Department removes incidents from Colorado's highways and restores normal traffic operations as safely and quickly as possible. This program includes the State Farm Safety Patrol, which provides limited roadside assistance at no charge to drivers.

ITS Investments - The Colorado Department of Transportation uses advanced technology and information systems to manage and maintain safe and free-flowing state highways and to inform

motorists in Colorado about traffic and roadway conditions. Travel information is provided to the public by a variety of methods including:

- the COTrip.org website displaying Closed Circuit Television (CCTV) images, speed maps and travel times, weather conditions, construction information, alerts (including Amber Alerts), and more
- 511 Interactive Voice Response (IVR) system providing up-to-date road and weather conditions, construction, special events, travel times, and transfers to bordering states and other transportation providers
- Variable Message Signs (VMS) providing travel messages including: closures, alternative routes, road condition information, special events, and real-time trip travel time information

The main sources of funding for this program are State Highway Funds and federal reimbursement for eligible expenditures

Multimodal Services

CDOT works to reduce air pollution and roadway congestion by providing multimodal transportation options through its Office of Innovative Mobility and Division of Transit and Rail. This includes Bustang and Bustang Outrider interregional bus service, strategic investment in multimodal infrastructure such as Mobility Hubs, and support for transit and light duty vehicle electrification.

State Multimodal Allocations

	FY 2018-19 Budget	FY 2019-20 Budget	FY 2020-21 Budget	FY 2021-22 Budget	FY 2022-23 Proposed
Mobility	\$73.9	\$76.0	\$70.1	\$69.8	\$22.1
Innovative Mobility Programs	\$14.9	\$14.9	\$11.1	\$11.1	\$11.6
Strategic Transit	\$48.8	\$53.4	\$50.0	\$50.0	\$2.6
Rail Commission	\$2.5	\$0.0	\$0.1	\$0.4	\$0.0
Bustang	\$7.7	\$7.7	\$8.9	\$8.3	\$7.9

Mobility

Innovative Mobility Programs - The Office of Innovative Mobility incorporates the Division of Transit and Rail, integrating its functions with other means of expanding multimodal transportation options, including ridesharing, electrification, and emerging technologies, providing additional choices to avoid single occupancy vehicle use. Through these initiatives, the Department hopes to reduce total vehicle miles traveled (VMT) per capita in the state and looks to curb the growth of greenhouse gas and ozone causing emissions from transportation-related activities.

Strategic Transit and Multimodal Projects - This program consists for statewide transit funding from Senate Bill 17-267 and Senate Bill 18-001.

Of the funding the Department receives from SB 17-267, 10 percent must be used for transit projects. This funding is funneled into strategic transit projects.

Additionally, SB 18-001 allocated a total of \$94.25 million to the Multimodal Transportation Options Fund. Of this funding, 15 percent must be used for statewide multimodal projects (\$10.8 million in FY 2018-19 and \$3.4 million in FY 2019-20).

SB 21-260 renamed this to the Multimodal Transportation *and Mitigation* Options program, and provides ongoing funding from new fees and General Fund transfers. For FY 2022-23, the Fund is anticipated to receive \$10.9 million transferred from the General Fund and \$6.7 million from the new Retail Delivery fee, for a total of \$17.6 million in funding. The funding will continue to be split 85 percent for local multimodal projects, and 15 percent for statewide multimodal projects.

Rail Commission - SB 18-001 provided \$2.5 million for studies, staffing, and Federal Grant match to formulate a proposal for Front Range passenger rail service. SB 21-260 transferred \$12 million from the Multimodal Transportation and Mitigation Options Fund to the Southwest Chief and Front Range Passenger Rail Commission Fund to provide additional funding for the Southwest Chief La Junta Route restoration program. On February 15, 2022, the bill transfers an additional \$2.5 million to the Southwest Chief and Front Range Passenger Rail Commission Fund. SB 21-238 repeals the current Passenger Rail Commission on May 15, 2022 and creates the Front Range Passenger Rail District, and any remaining balance in the Cash Fund will be transferred to the new Passenger Rail District on July 1, 2022.

Bustang - Since Bustang service began on July 13, 2015, its ridership has increased by more than 300 percent, and it has provided service to more than 690,000 passengers, with ridership averaging more than 19,000 passengers per month in FY 2018-19. Bustang initially started with three routes to Fort Collins, Colorado Springs, and Glenwood Springs from Denver. Since then, additional bus routes have been added, which are discussed below.

Bustang Outrider. In addition to the primary Bustang routes described above, CDOT began the Bustang Outrider program in 2018. Bustang Outrider expanded the program and added a number of routes:

- Lamar - Colorado Springs in service Monday through Friday except major holidays, operated by Senior Resource Development Agency of Pueblo, Inc. (SRDA)
- Alamosa - Salida -Pueblo is in service daily and is also operated by SRDA.
- Gunnison - Salida- Denver is operating in service daily and is operated by Alpine Express Shuttle.
- Durango - Grand Junction has transitioned to Outrider from Roadrunner operating in service daily by Southern Colorado Community Action Agency (SoCoCAA, formerly SUCAP)
- Denver - Salt Lake City - currently operated by Greyhound, and to be replaced in January 2021 as Outrider

Additionally, there are several new routes that are scheduled to begin in 2021, which include:

- Trinidad - Pueblo proposed for 5 days/week service, except major holidays.
- Sterling - Greeley proposed for 5 days/week service, except major holidays.
- Telluride - Grand Junction proposed for 5 days/week service, except major holidays.
- Craig - Denver via U.S. 40 for 7 days/week service, except major holidays.

Snowstang. Starting December 14, 2019, Snowstang provided 40 days of service to the Arapahoe Basin, Loveland, and Steamboat ski areas on Saturdays and Sundays. Depending on the status of the COVID-19 crisis, the Snowstang service may continue for winter 2020-21.

Estes Park. Beginning on August 24, 2019 Bustang ran a 6-week promotional route to Estes Park on Saturdays, Sundays, and Holidays. This route was intended to continue in Summer 2020, but had to cancel operations due to COVID-19 advisories. The service will be provided again in 2021 based depending on ridership demand and available funding.

Effects of COVID-19 on Bustang. The COVID-19 pandemic has led to a decrease in Bustang ridership, routes, and upcoming plans. For the time being, plans for a Bustang service at CSU Fort Collins and a Bustang service to Broncos games are on hold. In addition, all buses are now cleaned daily and subject to other procedural changes to maximize the safety of drivers and passengers.

Suballocated Programs

CDOT administers several suballocated programs, passing funds through to local agencies to prioritize and deliver transportation improvements. This includes transit and aeronautics grant programs and programs such as STP-Metro and CMAQ that are used for a variety of highway and multimodal improvements. Suballocated programs are organized into three categories: Highways, Transit and Multimodal, and Aeronautics.

Suballocated Programs

	FY 2018-19 Budget	FY 2019-20 Budget	FY 2020-21 Budget	FY 2021-22 Budget	FY 2022-23 Proposed
Aeronautics	\$24.2	\$33.3	\$31.8	\$19.3	\$34.3
Aviation System Programs	\$24.2	\$33.3	\$31.8	\$19.3	\$34.3
Highway	\$122.1	\$123.6	\$125.8	\$126.5	\$126.1
STBG-Urban (STP – Metro)	\$54.0	\$55.4	\$55.7	\$56.0	\$55.9
CMAQ	\$50.3	\$50.2	\$50.5	\$50.7	\$50.7
Metropolitan Planning	\$8.4	\$8.6	\$9.1	\$9.2	\$9.2
Off-System Bridge Program	\$9.4	\$9.4	\$10.5	\$10.6	\$10.4
Transit and Multimodal	\$124.3	\$86.8	\$66.6	\$78.4	\$94.9
Recreational Trails	\$1.6	\$1.6	\$1.6	\$1.6	\$1.6
Safe Routes to Schools	\$2.5	\$3.1	\$3.1	\$3.1	\$3.1
Transportation Alternatives Program	\$12.3	\$12.3	\$12.3	\$12.0	\$12.5
Transit Grant Programs	\$46.9	\$47.3	\$49.6	\$61.7	\$62.0
Multimodal Options Program	\$61.0	\$22.5	\$0.0	\$0.0	\$15.0
Revitalizing Main Streets Program	\$0.0	\$0.0	\$0.0	\$0.0	\$0.7
Total	\$270.6	\$243.7	\$224.2	\$224.1	\$255.3

Aeronautics

The Division of Aeronautics promotes the safe operation and accessibility of general aviation and intrastate commercial aviation in Colorado. The objectives of the Division are to:

- set priorities for improving the state’s air transportation system;
- provide financial assistance to maintain and improve Colorado’s 74 public use airports;
- promote aviation safety and education; and

- promote economic development through the development, operation, and maintenance of the state aviation system.

Distribution of Aviation Revenue. Revenue from aviation fuel taxes is distributed to the state airports by CDOT's Division of Aeronautics. Airports receive an amount equal to \$0.04 for each taxable gallon of gasoline sold at each airport, and 65 percent of the sales and use taxes generated at each airport by the aviation fuel sales tax.

Colorado Discretionary Aviation Grant (CDAG) Program. After distributing funding to airports, the remaining funding is used for the Colorado Discretionary Aviation Grant (CDAG) Program. The CDAG Program was developed to maintain and improve the statewide aviation system. This is achieved by providing grants that help meet individual airport and statewide aviation goals and needs.

Highway

Surface Transportation Block Grant (STBG)-Urban Program - The Surface Transportation Program (STP) is a federally mandated program that provides flexible funding to states and localities for projects to preserve and improve the conditions and performance on:

- any Federal-aid highway, bridge, and tunnel projects on any public road;
- pedestrian and bicycle infrastructure; and
- transit capital projects, including intercity bus terminals.

STBG-Urban is a sub-program of STP for urbanized areas with populations greater than 200,000. Project selection for STBG-Urban funds is conducted by federally designated regional Transportation Management Areas (TMAs) comprised of local governments. In Colorado, the Denver Regional Council of Governments (DRCOG), the Pikes Peak Area Council of Governments (PPACG), and the North Front Range Metropolitan Planning Organization (NFRMPO) select projects and the member governments that receive funding contribute matching funds. Project finance is administered by CDOT.

The main sources of revenue to the STBG-Urban program are:

- Federal highway funds equal to the estimated net revenue amount of the STP apportionment set-aside for urban areas with populations exceeding 200,000 (82.79 percent);
- Required local match (17.21 percent); and
- Additional local funds in excess of the required matching amounts.

The annual apportionment of federal spending authority for the STBG-Urban is available for four fiscal years after expiration of the federal legislation under which they are authorized and are subject to the overall obligation limitation on federal highway funding.

Congestion Mitigation and Air Quality - Congestion Mitigation and Air Quality (CMAQ) is a federally mandated program to improve air quality in nonattainment and maintenance areas for ozone, carbon monoxide, and particulate matter. These include the areas of the North Front Range Metropolitan Planning Organization (NFRMPO), the Denver Regional Council of Governments (DRCOG), Aspen, Cañon City, Pagosa Springs, Steamboat Springs, and Telluride.

Funds may be used for transportation projects designed to contribute to the attainment or maintenance of national ambient air quality standards (NAAQS), with a high level of effectiveness in reducing air pollution. More information on the CMAQ program can be found [here](#).

The main sources of revenue to the CMAQ program are:

- Federal highway funds (82.79 percent);
- Required local matching funds (17.21 percent); and
- Additional local funds above the matching requirement.

Federal funds are apportioned according to a formula based on population and severity of pollution in ozone and carbon monoxide areas. These funds remain available for four years after expiration of the federal legislation under which they are authorized and are subject to the overall obligation limitation on federal highway funding.

Metropolitan Planning - The Metropolitan Planning program is a federally mandated program to fund transportation planning processes at federally designated Metropolitan Planning Organizations (MPOs). This planning process establishes a cooperative, continuous, and comprehensive framework for making transportation investment decisions in metropolitan areas with populations exceeding 50,000. The MPOs in Colorado are the Denver Regional Council of Governments (DRCOG), the Pikes Peak Area Council of Governments (PPACG), the North Front Range Metropolitan Planning Organization (NFRMPO), the Pueblo Area Council of Governments, and the Grand Valley MPO (GVMPO).

The main sources of revenue to the Metropolitan Planning program are:

- Federal funds (Federal Highways Administration and Federal Transit Authority) (82.79 percent); and
- Required local matching funds (17.21 percent)

These funds remain available for four years after expiration of the federal legislation under which they are authorized and are subject to the overall obligation limitation on federal highway funding.

Transit and Multimodal

Recreational Trails - The Recreational Trails Program provides funds from the FHWA to States to develop and maintain recreational trails and trail-related facilities for both non-motorized and motorized recreational trail uses.

The Recreational Trails program is funded through federal reimbursement for eligible expenditures.

Safe Routes to Schools - Colorado established The Safe Routes to School (SRTS) program in 2004 to distribute federal and state funding to eligible projects that improve safety for pedestrians and bicyclists in school areas, and encourage children in grades K-8 to safely bicycle and walk to and from school.

Eligible activities include but are not limited to:

- planning, design, and construction of safe school routes for children to walk and bike to and from school;
- planning, design, and construction of facilities for pedestrians and bicyclists to travel to and from school; and

- educating children, parents, and communities about safe walking and bicycling practices and the health benefits that result from walking and bicycling to and from school.

Funds are awarded through a statewide competitive process for construction and education projects chosen by an advisory committee appointed by CDOT's executive director. Since its inception, the Safe Routes to School Program has distributed \$25.6 million in state and federal funds supporting 114 infrastructure and 141 non-infrastructure projects across all regions of the state. For FY 2019-20, 14 projects were recommended for funding, totaling \$5.0 million.

Transportation Alternatives Program - The Transportation Alternatives Program (TAP) was a program established under Section 1122 of MAP-21 and continued as a set-aside under Section 1109 of the FAST Act. The TAP provides funding for bicycle, pedestrian, historic, scenic, and environmental mitigation transportation projects.

Eligible activities include but are not limited to:

- construction, planning, and design of facilities for pedestrians and bicyclists;
- construction of turnouts, overlooks and viewing areas, and preservation of historic transportation facilities;
- some environmental mitigation activities, including vegetation management, and archeological and stormwater mitigation related to highway projects; and
- the recreational trails program.

The main sources of revenue for the Transportation Alternatives program are:

- Federal highway funding (80 percent)
- Local matching funds (20 percent)
- Additional local funds above the matching requirement

Transit Grant Programs - Each year CDOT grants funding out to local entities for transit projects. This funding comes from federal transit funding and state FASTER funding.

Federal Funding. A portion of fuel taxes collected at the federal level is distributed to states for the operation and maintenance of state public transportation systems. This source of funding is described in greater detail the CDOT Revenue sources section.

FASTER Transit grants -The FASTER legislation authorized \$15 million each year for transit funding. Of this funding, \$5 million in local transit grants are awarded competitively by CDOT regional offices. Local recipients are required to provide a minimum 20 percent local match. Among the types of projects that have been awarded are the purchase or replacement of transit vehicles, construction of multimodal stations, and acquisition of equipment for consolidated call centers. The remaining \$10 million in FASTER transit funding is used for statewide, interregional, and regional projects.

Multimodal Options Program - SB 18-001 allocated \$94.25 million to the Multimodal Transportation Options Fund. Of this funding, 85 percent (\$80.12 million) must be used for local multimodal projects, and 15 percent (\$14.13 million) must be used for statewide multimodal projects.

SB 18-001 directed the Transportation Commission to develop a distribution formula based on population and ridership for local government funding. The formula for the local distribution of funding was developed in consultation with the Transit and Rail Advisory Committee, the Statewide Transportation Advisory Committee, transit advocacy organizations, and bicycle and pedestrian organizations. Generally, each funding recipient must match an equal amount to the award they receive from CDOT. However, the Transportation Commission may reduce or exempt the matching requirement for certain local governments due to size or special circumstances.

SB 21-260 renamed this to the Multimodal Transportation *and Mitigation* Options program, and provides ongoing funding from new fees and General Fund transfers. For FY 2022-23, the Fund is anticipated to receive \$10.9 million transferred from the General Fund and \$6.7 million from the new Retail Delivery fee, for a total of \$17.6 million in funding. The funding will continue to be split 85 percent for local multimodal projects, and 15 percent for statewide multimodal projects.

Revitalizing Main Streets Program - This program helps communities across the state implement transportation-related projects that improve safety and yield long-term benefits to community main streets. This is a new line added to the budget beginning in FY 2022-23. The Program was previously funded with one-time allocations from the Strategic Projects line.

In FY 2020-21, SB 21-110 transferred \$30 million from the General Fund to the State Highway Fund to provide additional funding for the Revitalizing Main Streets program. SB 21-260 provides ongoing funding for this program from General Fund transfers. Between FY 2024-25 to FY 2031-32, SB 21-260 transfers \$7.0 million to the State Highway Fund for the Revitalizing Main Streets and Safer Main Streets programs. This funding may be expended for multimodal projects.

Additionally, SB 21-260 transfers \$115 million of the revenue that is retained after increasing the excess state revenues cap to transportation. These transfers will occur over multiple fiscal years. Of this funding, 94 percent is transferred to the Multimodal Transportation and Mitigation Options Fund and 6 percent is transferred to the State Highway Fund for the Revitalizing Main Streets and Safer Main Streets programs.

Administration & Agency Operations

Administration and Agency Operations programs support the Department’s core functions through support services such as contracting and procurement, development of specifications and standards, materials testing, finance and accounting, and human resources, among others. Salaries and benefits make up the largest portion of Administration and Agency Operations costs. Other examples include software and IT infrastructure, and legal expenses.

Administration and Agency Operations Allocations

	FY 2018-19	FY 2019-20	FY 2020-21	FY 2021-22	FY 2022-23
	Budget	Budget	Budget	Budget	Proposed
Administration and Agency Operations	\$81.1	\$111.6	\$100.9	\$102.7	\$108.3
Agency Operations	\$45.3	\$73.3	\$62.6	\$62.6	\$62.6
Administration	\$35.8	\$38.3	\$35.7	\$37.5	\$43.1
Project Initiatives	\$0.0	\$0.0	\$2.6	\$2.6	\$2.6

Agency Operations - This category is the operational budget for the Department, and includes funding for personnel, office supplies and operations, IT infrastructure, and certain Division level programs and initiatives.

Funding for the Agency Operations budget comes from the State Highway Fund.

Administration - The Department’s Administration line is composed of expenditures that meet the criteria outlined in Section 43-1-113 (2)(c)(III), C.R.S. Unlike the majority of CDOT’s budget, funding for Administration is appropriated annually by the Colorado General Assembly and may not exceed 5 percent of the Department’s total budget. This appropriation comes from the State Highway Fund, and does not represent an increase in funding to CDOT. Rather, it is a ceiling set by the legislature on how much of the funding CDOT receives can be spent on administering the Department.

CDOT’s Administration funding is a single line item in the annual Long Bill. Administration activities are not supported by General Funds or federal funds. Several statewide common policies are paid in whole or in part from the Administration line item, including legal services, property & liability insurance, workers’ compensation, and information technology services.

Project Initiatives - This line was newly created for the FY 2020-21 Annual Budget to separate the costs from limited duration internal project initiatives from the ongoing costs to provide operational support to the Department’s programs.

Debt Service

CDOT and the state’s transportation Enterprises periodically issue debt, and are responsible for annual debt service payments. The majority of this debt is associated with Certificates of Participation (COPs) issued under Senate Bill 17-267 for “strategic transportation projects,” bonds issued under the federal Build America Bonds program to advance the replacement of poor bridges under the FASTER Bridge program, and debt held by the High Performance Transportation Enterprise (HPTE) on major toll corridor projects.

Debt Service Allocations

	FY 2018-19 Budget	FY 2019-20 Budget	FY 2020-21 Budget	FY 2021-22 Budget	FY 2022-23 Proposed
Debt Service	\$41.3	\$62.8	\$62.8	\$9.6	\$0.0
Debt Service	\$41.3	\$62.8	\$62.8	\$9.6	\$0.0

SB 17-267 Debt Payments - SB 17-267 directed the state to state to execute lease-purchase agreements on existing state facilities to generate funding for transportation. The Department currently makes debt service payments (in the form of lease payments) on SB 17-267 Certificates of Participation (COPs). SB 17-267 set a \$150 million repayment limit on up to four issuances of Senate Bill 17-267 COPs; CDOT is responsible for up to \$50 million of debt service, and the General Assembly responsible for up to \$100 million. The first issuance of COPs occurred in FY 2018-19, with a total repayment of \$37.5 million. Of this total, CDOT paid \$28.9 million.

As discussed in the Revenue Allocation Section above, HB 20-1376 changed the SB 17-267 debt service formula in response to the COVID-19 pandemic and related economic recession. HB 20-1376 suspended for two fiscal years (FY 2020-21 and FY 2021-22) the \$50 million annual General Fund transfers to assist with SB 17-267 debt service, and also required CDOT to pay an additional \$12.0 million in debt service for both fiscal years that would have otherwise been covered by the General Fund. Therefore, the Department’s debt service obligation from the State Highway Fund was increased by a total of \$62.0 million for both fiscal years. SB 21-265 transferred \$124.0 million from the General Fund to restore the full amount to the State Highway Fund.

SB 21-260 included an additional one-time transfer from the General Fund of \$141.0 million to assist with SB 17-267 debt service. After accounting for debt service obligations in FY 2021-22, the Department anticipates that approximately \$223.5 million will roll forward from FY 2021-22 and be available to cover debt service obligations in FY 2022-23, and therefore the new revenue allocated for debt service in the FY 2022-23 Proposed Budget is \$0.0.

Ongoing Debt Obligations - The Department makes lease payments on a series of COPs issued to renovate or replace CDOT properties. In recent years, CDOT has completed a number of projects to consolidate buildings for region and Department headquarters. A summary of the current outstanding COP debt related to CDOT headquarters buildings can be found in Table 27 below.

CDOT Region 4 Building - This project was completed in CDOT Engineering Region 4. It was completed on time and on budget in November 2016, and it consolidated 13 buildings into 4.

CDOT Region 2 Building - This project was completed in CDOT Engineering Region 2. It was completed on time and on budget in April 2018, and it consolidated 13 buildings into 3.

CDOT Headquarters/Region 1 - This project was completed in May 2018. It was completed under budget and consolidated 32 buildings into 12. It serves as the main headquarters for the Department and Engineering Region 1.

Bridge Enterprise - To accelerate the repair or replacement of Colorado's poor bridges, FASTER created a new enterprise, the Bridge Enterprise (BE), and designated the Transportation Commission to serve as the Bridge Enterprise Board of Directors (Board). The business purpose of the Enterprise is to "finance, repair, reconstruct, and replace any designated bridge in the state" per C.R.S. 43-4-805 (2)(b). Because it was constituted as a government-owned business, the Enterprise may issue revenue bonds to accelerate construction of Colorado's poor bridges. In 2010, the Bridge Enterprise issued \$300 million in revenue bonds under the Build America Bonds Program.

High Performance Transportation Enterprise - The High Performance Transportation Enterprise (HPTE) board supervises and advises the Enterprise's Director, and is authorized to enter into agreements with the Transportation Commission and private industry to finance, build, operate, and maintain transportation infrastructure using innovative financing and contracting methods. The board is also authorized to issue revenue bonds that are payable from user fees generated on corridors owned by the Enterprise.

CDOT Debt Service Allocations

Purpose	Issue	Original Principal	Outstanding Principal
<u>CDOT Certificates of Participation</u>			
Region Headquarters Buildings	Series 2020	\$19,050,000	\$19,050,000
Region Headquarters Buildings	Series 2017	\$58,665,000	\$53,900,000
Headquarters Building	Series 2016	\$70,000,000	\$42,210,000
Refunding 2004 COPs	Series 2012	\$21,075,000	\$2,315,000
	Subtotal	\$168,790,000	\$117,475,000
<u>Rural Colorado Certificates of Participation</u>

C-470 Toll Revenue Bonds	Series 2017A	\$161,795,000	\$161,795,000
I-25 North Express Lane Note	Series 2016	\$23,630,000	\$23,630,000
	Subtotal	\$363,390,231	\$358,179,028
	TOTAL	\$2,485,580,231	\$2,317,859,028

Contingency Reserve

CDOT maintains a contingency fund to provide a source of funding for emergencies (such as major rockfall events or flooding), and for other unplanned or unanticipated needs such as the need to commit matching funds for grant opportunities. Ultimately, the majority of contingency funds are allocated to Construction or Maintenance and Operations programs.

Contingency Reserve Allocations

	FY 2018-19 Budget	FY 2019-20 Budget	FY 2020-21 Budget	FY 2021-22 Budget	FY 2022-23 Proposed
Contingency Reserve	\$0.8	\$23.8	\$15.0	\$0.0	\$1.9
Contingency Fund	\$0.0	\$15.0	\$15.0	\$0.0	\$0.0
Reserve Fund	\$0.8	\$8.8	\$0.0	\$0.0	\$1.9

Contingency Fund - Every year, the Transportation Commission sets aside contingency funding for unforeseen emergencies. There are various emergencies that occur throughout the year that require additional funding to address: large rock fall, landslides, floods, car crashes that do significant damage to the infrastructure, or other natural disasters. These funds are utilized for all of these events. It is difficult to predict the amount needed for responding to these events.

For the FY 2021-22 Annual Budget, the Department did not allocate new revenue to the Contingency Fund to help balance the budget to forecasted revenue for FY 2021-22, which reflected a revenue shortfall associated with the COVID-19 pandemic. Instead, the Department plans to rely on the existing balance in the fund to address unforeseen contingencies during the fiscal year. This action may be required to address a revenue shortfall for the FY 2022-23 budget as well.

Program Reserve Fund - Program Reserve funds are set aside under the purview of the Transportation Commission throughout the fiscal year. This budget can be used for unanticipated funding needs identified during the course of the year, including project funding shortfalls, settlements and grant match. The appropriate amount of funding for this pool is difficult to determine as the needs vary from year to year.

The Contingency and Program Reserve funds are often supplemented during the course of the year through the receipt of unanticipated revenue, including any funds received as part of the FHWA annual redistribution process in which additional federal funds are made available to the state at the end of the fiscal year. The amounts identified above represent initial allocations, and do not include supplemental allocations made over the course of the year.

Special Programs

CDOT administers several other programs that support its core functions and the achievement of the Department’s mission. This includes the Department’s planning and research programs, and safety education programs focused on driver education and enforcement activities.

Special Program Allocations

	FY 2018-19 Budget	FY 2019-20 Budget	FY 2020-21 Budget	FY 2021-22 Budget	FY 2022-23 Proposed
Special Programs	\$25.8	\$27.9	\$25.1	\$24.8	\$27.5
Safety Education*	\$11.2	\$12.9	\$13.0	\$9.9	\$13.3
Planning and Research	\$14.2	\$14.6	\$11.7	\$14.7	\$14.0
State Infrastructure Bank	\$0.4	\$0.4	\$0.4	\$0.2	\$0.3

Safety Education - The Department runs three programs that target education and enforcement of impaired driving. Current safety education programs administered by the Department include the LEAF program, the FTDD program, and a public awareness campaign on impaired driving. The funding for these programs is described in more detail the Revenue Section.

Planning and Research - State Planning and Research (SPR) funds support statewide planning and research activities, and these funds are used to establish a cooperative, continuous, and comprehensive framework for making transportation investment decisions and carry out transportation research activities throughout the state.

State Infrastructure Bank - The Colorado State Infrastructure Bank (SIB) is a revolving fund created by the General Assembly that is authorized to make loans to public and private entities to facilitate the financing of transportation projects in the state.

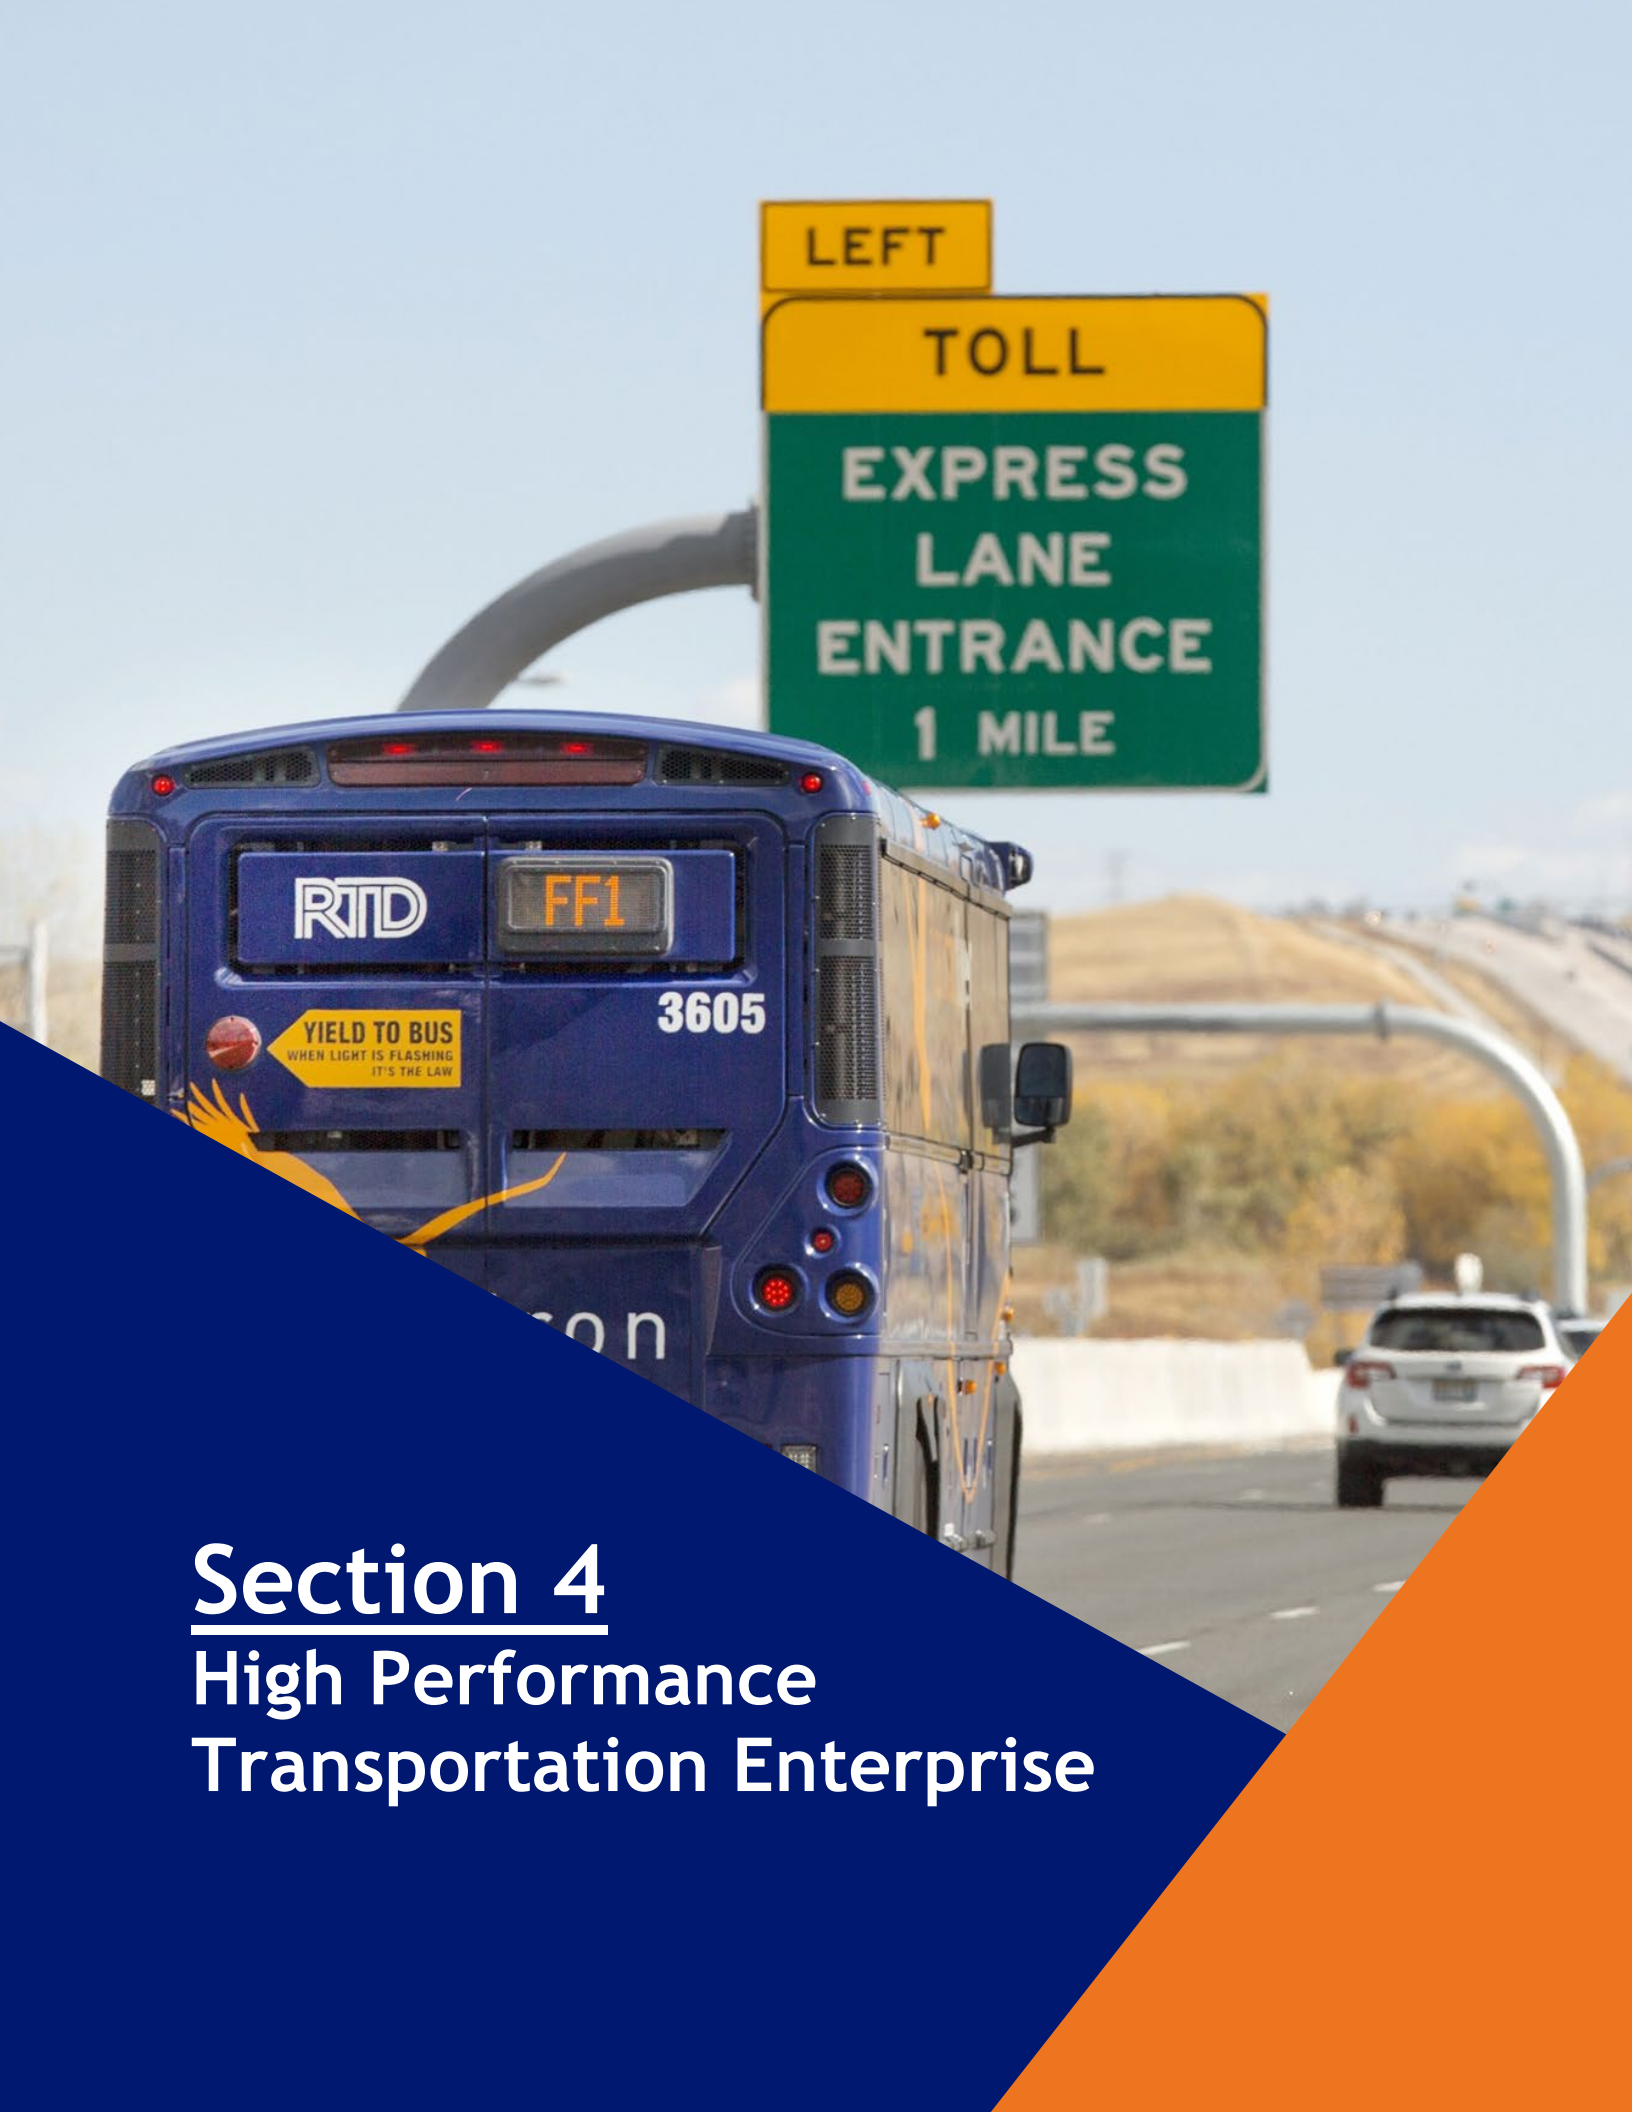

State Infrastructure Bank Projects

Section 4
**High Performance
Transportation Enterprise**

High Performance Transportation Enterprise

The Funding Advancement for Surface Transportation and Economic Recovery Act (Part 8 of Article 4, Title 43, Colorado Revised Statutes), otherwise known as FASTER, created the Colorado High Performance Transportation Enterprise (HPTE) in 2009 as an independent, government-owned business within CDOT. HPTE has the legal responsibility to aggressively seek out opportunities for innovative and efficient means of financing and delivering important surface transportation infrastructure projects in the state. It has the statutory power, among others, to impose tolls and other user fees, to issue bonds, and to enter into contracts with public and private entities to facilitate Public-Private Partnerships (P3s).

HPTE is an enterprise for purposes of Article X Section 20 of the State Constitution as long as it retains the authority to issue revenue bonds and receives less than 10 percent of its total revenues in grants from state and local governments. HPTE is overseen by a separate Board of Directors that includes external stakeholders from four geographic regions appointed by the Governor.

Innovative Financing

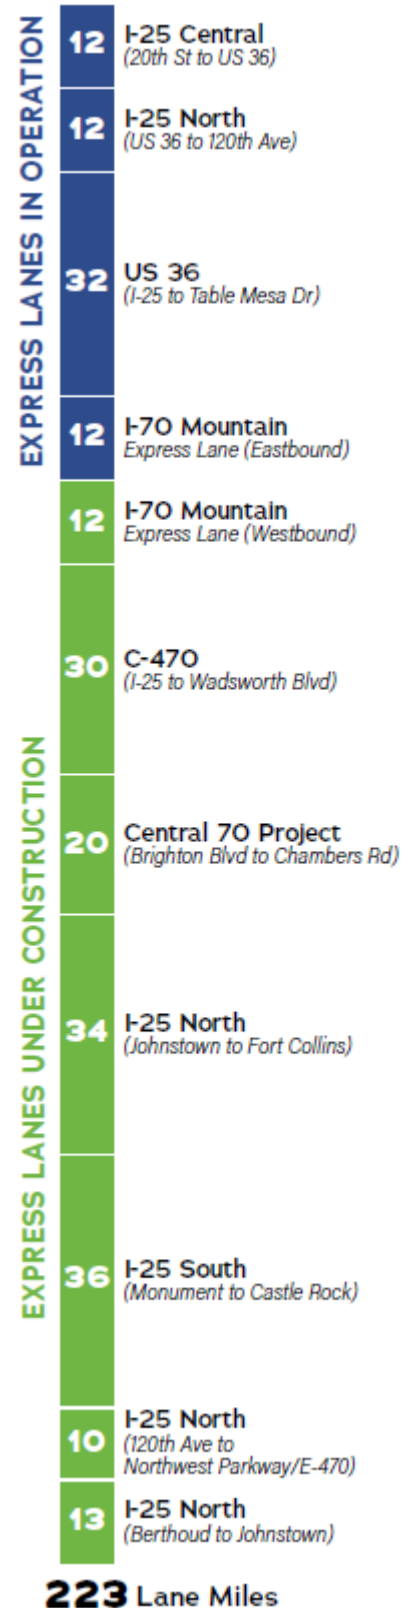

HPTE was formed to pursue innovative means of more efficiently financing important surface transportation infrastructure projects. Since the creation of the Enterprise, nine out of ten HPTE projects have used some form of innovative financing. Innovative financing enabled by HPTE, through Express Lanes, has helped deliver more than \$3 billion in projects in the last five years. HPTE has:

- helped secure \$130 million in federal grant dollars;
- directly attracted \$125 million in private investment; and
- leveraged more than \$1 billion of bond proceeds and other loans to contribute to projects in the state’s most congested regions.

Express Lanes are tolled lanes that run adjacent to the free general purpose lanes. Express Lanes increase roadway capacity and help manage congestion on Colorado highways by adding lanes that provide a choice to drivers.

Since 2015, HPTE has been building its capacity for Express Lane operations and currently has 68 lane miles of Express Lanes in operation and 155 lane miles of Express Lanes under construction or in development. The figure to the right provides the lane miles of operational Express Lanes in Colorado, as well as those currently under construction or development.

HPTE operates and maintains the I-70 Mountain Express Lane (eastbound), as well as the Express Lanes on I-25 North. Plenary Roads Denver (PRD) operates and maintains US 36 and I-25 Central Express Lanes and HPTE provides oversight of those activities.

Express Lanes Network Map

Revenue and Budget Allocation

HPTE Revenue

	FY 2018-19 Budget	FY 2019-20 Budget	FY 2020-21 Budget	FY 2021-22 Budget	FY 2022-23 Forecast
High Performance Transportation Enterprise	\$16.1	\$16.6	\$22.6	\$22.7	\$22.4
Tolling and Managed Lanes Revenue	\$10.7	\$10.8	\$16.7	\$18.4	\$18.3
Interest Income	\$0.2	\$0.2	\$0.3	\$0.3	\$0.1
Fee for Service	\$5.2	\$5.6	\$5.6	\$4.0	\$4.0

Debt Service	\$0.0	\$0.0	\$0.0	\$8.7	\$0.0

Section 5
**Colorado Bridge and
Tunnel Enterprise**

Colorado Bridge and Tunnel Enterprise

On March 2, 2009, former Governor Bill Ritter signed into law Colorado Senate Bill 09-108, Funding Advancement for Surface Transportation and Economic Recovery, otherwise known as FASTER. A portion of the funding designated as the “bridge safety surcharge” is dedicated specifically for Colorado’s most deficient bridges – those bridges identified as structurally deficient or functionally obsolete, and rated “poor” (Bridge Sufficiency Rating less than 50, which was the federal standard at the time the statute was passed) by the Colorado Department of Transportation (CDOT). The surcharge is a nominal dollar amount and does not adjust for inflation overtime.

To assist with this historic focus on Colorado’s poor bridges, FASTER created a new enterprise, the Bridge Enterprise (BE), and designated the Transportation Commission to serve as the Bridge Enterprise Board of Directors (Board). The business purpose of the Enterprise is to “finance, repair, reconstruct, and replace any designated bridge in the state” per C.R.S. 43-4-805 (2) (b). Because it was constituted as a government-owned business, the Enterprise may issue revenue bonds to accelerate construction of Colorado’s poor bridges.

Bridge projects under the Enterprise may include the repair, replacement, or ongoing operation or maintenance, or any combination thereof, of a designated bridge. A current list of FASTER eligible bridges can be found [here](#).

In 2021, SB 21-260 changed the name and scope of the Statewide Bridge Enterprise to the Statewide Bridge and Tunnel Enterprise and authorizes it to impose a Bridge and Tunnel Impact Fee on diesel fuel and a Bridge and Tunnel Retail Delivery Fee.

FASTER Bridges

The condition of different parts of a structure is rated on a scale of 0 to 9 (with 9 being “excellent” and zero being “failed”). Bridge condition is determined based on deck (riding surface), the superstructure (supports immediately beneath the driving surface) or the substructure (foundation and supporting posts and piers), or culvert ratings obtained from periodic structure inspections. The structure is classified as “poor” if the lowest rating is less than or equal to 4 out of 9.

Since the inception of the Bridge Enterprise in July 2009, 334 FASTER-eligible bridges have been identified. As of July 2018, 132 of these bridges have been replaced or repaired, 22 are in construction, and 13 are in the design phase.

In December 2010, the Bridge Enterprise issues \$300 million in bonds to accelerate the replacement and/or reconstruction of poor bridges. As of June 2016, all bond funds have been expended and the Enterprise is in the repayment phase of the bond program.

Revenue and Budget Allocation

Colorado Bridge Enterprise Revenue

	FY 2018-19	FY 2019-20	FY 2020-21	FY 2021-22	FY 2022-23

Section 6

Nonattainment Area Air Pollution Mitigation Enterprise

Nonattainment Area Air Pollution Mitigation Enterprise

SB 21-260 created the Nonattainment Area Air Pollution Mitigation Enterprise within CDOT to mitigate the environmental and health impacts of increased air pollution for motor vehicle emissions in nonattainment areas resulting from the growth in TNC rides and retail deliveries.

The Enterprise’s board consists of five members, including the Executive Directors (or their designees) of the Colorado Department of Public Health and Environment and the Colorado Department of Transportation, and three directors appointed by the Governor. The directors appointed by the Governor serve at the pleasure of the Governor, and the qualifications for appointees are outlined in the bill. Members serve without compensation but must be reimbursed for necessary expenses.

No later than June 1, 2022, the Nonattainment Area Air Pollution Mitigation Enterprise must publish its 10-year plan, including an estimate of the funding needed to implement the plan. The Enterprise must also create and regularly update a dashboard that provides updates on its 10-year plan, regularly engage with the public, and submit an annual report to the General Assembly and the Transportation Commission.

The Transportation Commission is authorized to loan money to the Nonattainment Area Air Pollution Mitigation Enterprise to defray expenses incurred by the enterprise before it receives fee revenue or bond proceeds. This funding is credited to the Nonattainment Area Air Pollution Mitigation Enterprise Initial Expenses Fund, which is continuously appropriated to the enterprise.

Air Pollution Mitigation Per Ride Fee - This bill creates the Air Pollution Mitigation Per Ride Fee, which is paid by Transportation Network Companies for prearranged rides through the company’s digital network and deposited in the continuously appropriated Nonattainment Area Air Pollution Mitigation Enterprise Fund. For prearranged ride requests in FY 2022-23, the maximum fee amount is \$0.225 per ride for regular rides and \$0.1125 per ride for pooled rides or rides in an electric vehicle. In subsequent years, this fee will be adjusted for inflation based on the Denver-Aurora-Lakewood Consumer Price Index in years where the sum of the inflation adjustments for this fee and the Clean Fleet Per Ride Fee result in an increase of one whole cent.

Air Pollution Mitigation Retail Delivery Fee - This bill creates the Air Pollution Mitigation Retail Delivery Fee, which is imposed on each retail delivery order and deposited in the continuously appropriated Nonattainment Area Air Pollution Mitigation Enterprise Fund. For retail delivery orders received in FY 2022-23, the enterprise will impose a fee up to \$0.007 per ride. In subsequent years, this fee will be adjusted based on the Denver-Aurora-Lakewood Consumer Price Index in years where the Department of Revenue adjusts the Retail Delivery Fee for inflation.

Nonattainment Enterprise Revenue

	FY 2018-19	FY 2019-20	FY 2020-21	FY 2021-22	FY 2022-23

	Budget	Budget	Budget	Budget	Proposed
Nonattainment Enterprise	\$0	\$0	\$0	\$0	\$7.1
TBD	\$0	\$0	\$0	\$0	\$7.1
	\$0	\$0	\$0	\$0	

Section 7

Clean Transit Enterprise

Clean Transit Enterprise

SB 21-260 created the Clean Transit Enterprise within CDOT to reduce and mitigate the adverse environmental impacts and health impacts of air pollution and greenhouse gas emissions by supporting the replacement of existing gasoline and diesel transit vehicles with electric motor vehicles.

The Enterprise’s board consists of nine directors, including the Executive Directors (or their designees) of the Colorado Energy Office, the Colorado Department of Public Health and Environment, and the Colorado Department of Transportation, and six directors appointed by the Governor. The directors appointed by the governor serve four-year terms, and the qualifications for appointees are outlined in the bill. Members serve without compensation but must be reimbursed for necessary expenses.

No later than June 1, 2022, the Clean Transit Enterprise must publish its 10-year plan, including an estimate of the funding needed to implement the plan. The Enterprise must also create and regularly update a dashboard that provides updates on its 10-year plan, regularly engage with the public, and submit an annual report to the General Assembly and the Transportation Commission.

The Enterprise must contract with the Air Pollution Control Division to develop proposed rules to support the enterprise’s business services in a manner that maintains compliance with federal and state laws and regulations governing air quality.

The Transportation Commission is authorized to loan money to the Clean Fleet Enterprise to defray expenses incurred by the enterprise before it receives fee revenue or bond proceeds. This funding is credited to the Clean Transit Enterprise Initial Expenses Fund, which is continuously appropriated to the enterprise.

Clean Transit Retail Delivery Fee - This bill creates the Clean Transit Retail Delivery Fee, which is imposed on each retail delivery order and deposited in the continuously appropriated Clean Transit Enterprise Fund. For retail delivery orders received in FY 2022-23, the enterprise will impose a fee up to \$0.03 per ride. In subsequent years, this fee will be adjusted based on the Denver-Aurora-Lakewood Consumer Price Index in years where the Department of Revenue adjusts the Retail Delivery Fee for inflation.

Clean Transit Enterprise Revenue

	FY 2018-19	FY 2019-20	FY 2020-21	FY 2021-22	FY 2022-23

Appendix A

Revenue Allocation Plan

This appendix includes the Department's Final Revenue Allocation Plan. The Revenue Allocation Plan represents how much the Department anticipates it will receive through a variety of revenue sources during the course of the fiscal year, and how it intends to allocate those revenues to specific purposes (budget programs).

In an effort to increase transparency in the budget, the Revenue Allocation Plan will include projected roll-forwards for FY 2021-22 to provide the complete budget that is available for programming in FY 2022-23. The roll forward budget represents remaining balances in programs which have not been encumbered in construction projects or grants, or expended by the end of the fiscal year. The majority of roll-forward balances are already committed to planned projects.

The most current version of the revenue allocation plan can be found here:
<https://www.codot.gov/business/budget/cdot-budget/draft-budget-documents/fy2022-2023-proposed-allocation-plan>

Appendix B

Spending Plan

While the Revenue Allocation Plan shows how new revenue will be allocated across the Department's cost centers and pools each fiscal year, it does not show what the Department plans to spend each fiscal year or expenditure category (i.e. capital, operating or personal services). With this in mind, the Department developed the new Spending Plan to complement the Revenue Allocation Plan, which provides a more comprehensive view of multi-year budgets and expenditures.

The Spending Plan is populated with the Department's anticipated expenditures for FY 2022-23 by budget category, using the same primary budget categories that are used in the Revenue Allocation Plan (eg. Capital Construction, Maintenance and Operations, etc.). Within each primary budget category, expenses are then broken down by General Ledger account code to provide greater visibility into planned expenditures.

For the Capital Construction program, estimated amounts are based on a combination of forecasted spending by the Project Management Office and an average of prior year expenditures. For other budget categories, estimated amounts are based on an average of prior year expenditures and budgeted amounts for FY 2022-23.

For FY 2021-22, the Department estimates that it will spend approximately \$2.3 billion across all program areas, including capital construction, maintenance, sub-allocated programs, administration, etc. The Department intends to update this report quarterly during FY 2022-23, and provide actual expenditures for comparison.

The Spending Plan is a companion document to the Revenue Allocation Plan that estimates both capital program and operating expenditures during the fiscal year. The Plan is based on new revenue and cash balances rolled forward from prior fiscal years, and capital construction expenditures are estimated using project delivery schedules.

The Spending Plan can be found here: <https://www.codot.gov/business/budget/cdot-budget/draft-budget-documents/fy2022-2023-proposed-allocation-plan>

Appendix C

Open Projects and Unexpended Project Balances

As required by Section 43-1-113(6)(a), C.R.S., Appendix C serves as an addendum to the FY 2022-23 budget allocation plan and contains a complete list of all projects budgeted in prior years which have not been deleted or progressed to completion, including the balance of all funds carried over from previous years' budgets, whether resulting from construction or operation for less than the budgeted figure or from incomplete or deleted projects.

A table containing a summary of open projects by fiscal year can be found at the following link: <https://www.codot.gov/business/budget/cdot-budget/draft-budget-documents/fy2022-2023-proposed-allocation-plan>

Appendix D

Planned Projects

As required by Section 43-1-113(2)(c), C.R.S., Appendix D serves as an addendum to the FY 2022-23 budget allocation plan and contains a complete list of all individual planned projects from FY 2021-22 through FY 2024-25. For these purposes, planned projects are those projects planned for award in FY 2021-22, or previously awarded, with anticipated expenditures in FY 2021-22 or FY 2022-23. These figures will increase during the course of the year as additional projects are scheduled for advertisement.

An updated list of planned project expenditures can be found at the following link:
<https://www.codot.gov/business/budget/cdot-budget/draft-budget-documents/fy2022-2023-proposed-allocation-plan>

Appendix E

Total Construction Budget

As required by Section 43-1-113(2)(c), C.R.S Appendix D serves as an addendum to the FY 2022-23 Budget Allocation Plan, and contains a summary of the total construction budget for the given fiscal year.

A summary of the construction budget by Budget Program line, project phase, as well as estimated construction engineering and indirect allocations can be found at the following link:
<https://www.codot.gov/business/budget/cdot-budget/draft-budget-documents/fy2022-2023-proposed-allocation-plan>

Appendix F

Project Indirect Costs and Construction Engineering

As required by Section 43-1-106 (8)(h), C.R.S., Appendix E serves as an addendum to the FY 2022-23 Budget Allocation Plan and contains project indirect costs and construction engineering costs.

Each project participating in the federal program is charged a certain percentage for indirect costs. Indirect costs are cost that cannot be assigned to a particular project but are necessary for the construction program. Examples of indirect costs include personal services charges for supervisory engineering positions, materials testing, and engineering information technology costs.

Construction engineering costs (CE) are those costs that have been incurred for the purpose of ensuring compliance with specific project construction specifications, generally accepted construction standards, associated testing, and materials validation activities. Examples of costs accumulated in the CE budget pools include construction oversight, materials testing, and design services under construction.

The main sources of funds for the Department's project indirect and construction engineering costs are the State Highway Fund and federal reimbursement for eligible expenditures.

Appendix F is an approximation of indirect and CE cost allocations to region and division cost centers in order to support construction programs. It can be found at the following link: <https://www.codot.gov/business/budget/cdot-budget/draft-budget-documents/fy2022-2023-proposed-allocation-plan>

Appendix G

CDOT Personnel Report

Appendix G provides the number of positions and associated salary and benefits costs in the same format as the Revenue Allocation Plan to provide visibility into staffing levels, and budget and expenditures on Department personnel. For FY 2021-22, the Department estimates spending approximately \$294.3 million on staff salaries and benefits for approximately 3,317 positions across CDOT, including the enterprises.

It can be found at the following link: <https://www.codot.gov/business/budget/cdot-budget/draft-budget-documents/fy2022-2023-proposed-allocation-plan>

*Roll forward budget is budget from a prior year that hasn't been committed to a project or expended from a cost center prior to the close of the fiscal year. Estimated Roll forward budget will be incorporated prior to finalizing the FY 2023 budget, and updated after the close of FY 2022.

** \$10M of the FY22 Maintenance Reserve roll forward budget is specifically allocated for Snow and Ice Control
