Department Description

Mission and Vision Statements

MISSION STATEMENT

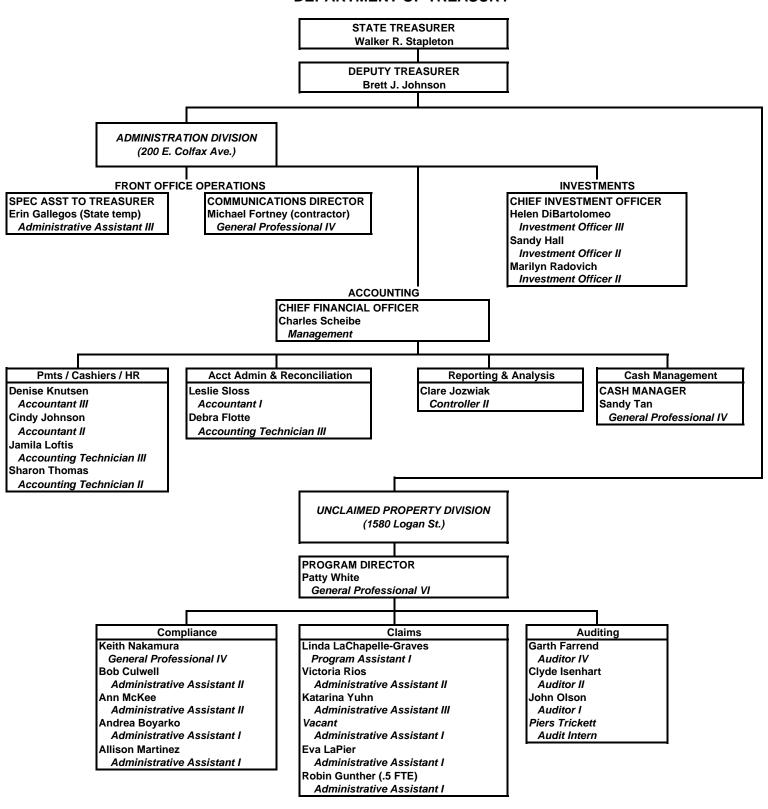

"The Colorado State Treasury is the constitutional custodian of the public's funds. It is the Treasury's duty to manage and account for the citizen's tax dollars from the time they are received until the time they are disbursed. The Treasury's staff is committed to safeguarding and managing the people's monies with the same diligence and care as they do their own.

"The mission of the Unclaimed Property Section is to reunite all owners (or heirs) with their unclaimed or abandoned property."

VISION STATEMENT

"The Colorado State Treasury staff will continually strive to better serve the citizens of Colorado. Central to this goal is the continued introduction and use of new technologies to provide improved access to services for both citizens and other governmental agencies."

DEPARTMENT OF TREASURY

Background Information

The Treasury Department's Budget is organized in three distinct sections: **Administration, Unclaimed Property,** and **Special Purpose.**

Administration

The State Treasurer and his staff serve the citizens of Colorado by providing banking and investment services for all funds deposited with the state treasury. As funds are deposited, they are invested in statutorily authorized investments. Simultaneously, the Treasury ensures that sufficient funds are maintained in cash accounts to meet the State's daily cash needs. The income earned on its investments augments the State's revenues from taxes and fees and decreases the tax burden on Colorado's citizens.

Accounting

On a daily basis, the accounting section records and reconciles all the cash that flows into and out of the State's operating account. The accounting section also manages the disbursement of flow-through funds such as the Highway User's Tax apportionment, Minerals Management funds, and miscellaneous federal funds. Within the Treasury, the accounting staff has significant additional responsibilities. These include:

- Calculation and allocation of monthly investment earnings to funds eligible to earn interest
- Reconciliation of the database of Treasury's investments
- Accounting for and distributing the payments received by the State under the Master Tobacco Settlement Agreement and the Tobacco Tax moneys collected under Amendment 35
- Preparing and managing cash flow estimates for the disclosures required for Treasury's annual Tax and Revenue Anticipation Notes
- Managing the Property Tax Deferral Program for Seniors and Active Military Personnel
- Calculating and disbursing payments for the Senior Citizen and Disabled Veteran Property Tax Exemption Program
- Issuing cash flow notes on behalf of those school districts participating in the Treasury's interest free school loan program, including ongoing monitoring of actual vs. projected cash flow information
- Administering the K-12 school district intercept program and the higher education intercept program
- Administering the Charter School Intercept and Moral Obligation Credit Enhancement Program
- Accounting for the investment of custodial funds from state-issued Certificates of Participation and Enterprise Revenue Bonds deposited with the Treasury

The accounting section also provides cashier services for the State. The cashiers are responsible for daily tracking of all cash receipts, monitoring all the deposits made by other agencies in the State's operating account, updating the State's bank balances throughout the day, and initiating electronic transfers from the State to recipients of state and fiduciary funds.

Finally, the Accounting section handles the department's own administrative functions such as budgeting, personnel, payroll, accounts payable, purchasing, and records retention. Treasury does not have a dedicated IT staff member; and, therefore, has an agreement with the Governor's Office of Information Technology to host Treasury's server and to provide desktop support.

Cash Management

Treasury's Cash Manager manages the State's banking service agreements. The State currently maintains agreements with three primary banks; one includes lockbox services where taxpayers' payments are deposited, another the State's operating account and custody/safekeeping services, and the third covers transactional accounts in remote areas of the State from which deposits are regularly swept to the main operating account. On-going banking efforts include ensuring effective bank services and controls for State agencies, closing unused or redundant bank accounts, opening new accounts or cash management services for State agencies, and assisting with the resolution of any concerns or problems between State agencies and the banks.

The credit card agreement with Wells Fargo which became effective October 31, 2009 continues to be very popular with governmental entities and political subdivisions of the State. Two political subdivisions signed participation agreements in the past year bringing the total to date to ten municipalities and counties and twenty political subdivisions. This compares to a total of eleven entities that chose to participate under the previous agreement.

The Cash Manager is the State's administrator for the Cash Management Improvement Act (CMIA) agreement with the Federal Government. The CMIA regulates the transfer of federal grant funds among federal and State agencies. CMIA regulations require State agencies to request reimbursement from federal agencies for grant disbursements following a process that minimizes bank balances, avoids negative balances, and eliminates interest earnings. Excess or deficit interest earnings, if any, are calculated each year and paid by the entity with the liability. The Cash Manager manages the CMIA on behalf of State agencies and is the primary contact for the Federal Management Service. Pursuant to federal regulations she identifies grants to be included in the agreement (those in excess of \$54.0 million) and calculates State disbursement patterns that are the basis of the reimbursement schedules. She negotiates the annual agreement and prepares the annual report of excess or deficit interest earnings.

Last, the Cash Manager prepares requests-for-qualifications and negotiates and finalizes the contracts for professional advisors assisting in the Treasury's annual note issuances, and for other services bid out by the Treasury in any given year. In the past year, the Cash Manager completed a request-for-proposal (RFP) for banking services for the Treasury and dozens of different State agencies, as well as the University of Colorado (CU) system. The inclusion of the CU system increases the opportunity for volume discounts and eliminates the costs of a separate but duplicative State banking service RFP. The RFP requested general cash management services, custody and safekeeping services, as well as specialized services such as those for Family Support Registry and the WIC Program. The final selection of banks has been completed, and all contracts are expected to be effective by December 31, 2013.

Investments

The Investment section manages several distinct investment portfolios with the primary objectives of, in order of importance, legality, safety, liquidity and yield.

<u>The Treasurer's Pooled Funds (TPOOL/TCASH)</u> provide state agencies with the liquidity of a money market fund while normally generating a higher yield than a typical money market fund. Most state funds, including the General Fund, are held in TPOOL/TCASH.

Ongoing statutory changes oblige many enterprises to remit their tax remittances to the Department of Revenue electronically. With electronic remittance, funds are processed more quickly, providing the investment officers with more accurate and timely cash balance information. This improved information allows the investment division to better invest the money on deposit with the Treasury while still maintaining sufficient liquidity to meet the state's obligations. See the "State Investment Reports as of 09/30/13" section at the end of this request for TPOOL/TCASH's balances and performance.

The Public School Permanent Fund (PSPF) is a constitutionally mandated permanent trust. The principal of the Fund is made up of money earned from the sale or rental of lands and mineral royalties held in the school land trust and overseen by the State Land Board (public schools land income). Both the principal and interest on this Fund are exempt from the requirements of section 20 article X of the state constitution. A unique feature of this Fund is that the General Assembly must make up any capital losses the Fund may suffer from the General Fund. To minimize the likelihood of such an event, the portfolio is structured to preserve principal and, only then, to maximize income. Several changes were made to the distribution of Public School Lands Income in the 2009 legislative session. Beginning in August 2009, 50% of the gross public schools land income is credited to the Public School Capital Construction Assistance Fund created in C.R.S. 22-43.7-104 (part of the Building Excellent Schools Today or BEST Act). In addition, for a portion of FY 2008-09 and all of FY 2009-10 and FY 2010-11, all public schools land income that was not transferred to the Public School Capital Assistance Fund or used for the administration of the State Land Board plus all of the Fund's investment earnings, were

transferred to the State Public School Fund, which provides moneys for the School Finance Act. Therefore, no deposits were being made into the Permanent Fund. In the 2011 legislative session, Senate Bill (SB) 11-230 continued this distribution through the end of FY 2012-13; however, in the 2012 legislative session, SB 12-145 capped the amount of moneys to be transferred to the State Public School Fund for FY 2011-12 only. This allowed \$38.17 million to be deposited into the Permanent Fund. Then in the 2013 legislative session, SB 13-112 capped the amount of moneys to be transferred to the State Public School Fund for FY 2012-13. This bill allowed \$20.77 million to be deposited into the Permanent Fund. Per SB 13-260, for FY 2013-14, the State Public School Fund will receive only the first \$16 million of the Permanent Fund's investment earnings. The balance of the public schools land income not transferred to the Public School Capital Assistance Fund or used for the administration of the State Land Board will be deposited into the Permanent Fund. See the "State Investment Reports as of 09/30/13" section at the end of this request for this Fund's balance and performance.

The Major Medical Insurance Fund (MMIF) is a special fund within the Department of Labor and Employment. The investment portfolio was originally designed to be comprised of money in excess of current needs that was to be held to meet the future medical and indemnity expenses of claimants. Investments in this Fund of approximately \$205 million were liquidated and transferred to the General Fund during FY 2002-03. During FY 2008-09 there was a \$69.5 million transfer to the General Fund per SB 09-208. On March 31, 2010, there was a \$26.5 million transfer to the General Fund per SB 09-279. On June 30, 2011, there was a \$10.0 million transfer to the General Fund per SB 11-164. During the 2009 legislative session, the structure of the MMIF was revised (see C.R.S. 8-46-102). The new design requires the Director of the Division of Workers Compensation (Division) to set a surcharge rate that enables the Division to meet the anticipated obligations of each fiscal year, as well as maintain a balance to cover one year's claims plus expected administrative costs. \$83.0 million of the MMIF is currently designated as a component of the State's Emergency Reserve. See the "State Investment Reports as of 09/30/13" section at the end of this request for this Fund's balance and performance.

The Colorado Prepaid Tuition Fund (CPTF) was originally established to provide families with an opportunity to pay in advance for future college education expenses. The investment goal of the Fund was to achieve a rate of return that allows CollegeInvest, the manager of the program, to ensure that it has sufficient funds on hand to meet the college related expenses of those students upon whose behalf it has entered into these prepaid tuition contracts. In February 2003, the Colorado Prepaid Tuition program was closed to new contracts; and, although the funds remained in the custody of the Treasurer, the board of CollegeInvest was given sole authority to make investment decisions for the remaining funds under C.R.S. 23-3.1-106. In July 2013, due to a study which deemed the fund actuarially unsound and no longer financially viable, CollegeInvest announced it would be closing the fund on November 1, 2013 in an effort to ensure that the remaining investors do not lose any money.

The Unclaimed Property Tourism Promotion Trust Fund (UPTPT) was created by C.R.S. 38-13-116.7. The Fund consists of all proceeds collected through the sale of securities in the custody of the State Treasurer as the administrator of Unclaimed Property. The principal of this Fund will only be expended to pay claims and the interest earned from the deposit and investment of the moneys is credited to the Colorado State Fair Authority Cash Fund, the Agriculture Management Fund, and the Colorado Travel and Tourism Promotion Fund. \$5.0 million of the UPTPTF is currently designated as a component of the State's Emergency Reserve. See additional information regarding this Fund in the Unclaimed Property section which begins below; and see the "State Investment Reports as of 09/30/13" section at the end of this document for this Fund's balance and performance.

For each of the portfolios it manages, the Department, in addition to constitutional and statutory guidance, has developed a written investment policy explicitly stating the appropriate goals, investment standards, level of liquidity, degree of credit risk, duration or average life, and other performance measures. The Treasurer has also established an investment advisory committee incorporating private sector investment professionals, and a representative of each of the agencies for which the Fund is managed to assist him in developing these policies.

A critical aspect of the implementation of these policies and the daily functioning of the investment section is the use of an online data and analytical system (Bloomberg). The Bloomberg System assists the investment managers in identifying and analyzing specific investments for either purchase or sale. Absent access to the Bloomberg System and subscriptions to credit services and an electronic trading system, the Investment section's capacity to meet its constitutional, statutory and policy objectives would be severely limited.

Several years ago Treasury added another critical investment tool, BondEdge. BondEdge is a software package consisting of analytical and database modules which provide the investment officers with comprehensive fixed income portfolio analytics. The system simulates various market environments to forecast performance results and respond to reporting demands.

The State's Time Deposit Program makes monies available to eligible public depositories on a weekly basis. The Certificate of Deposit (CD) rates are set by Treasury, and the collateralization of the deposits is administered by the Public Deposit Protection Act section of the Division of Banking. The Treasury offers a 3-month, 6-month and 1-year CD each week. Participation in the Time Deposit Program is predominantly by community banks on the eastern plains and western slope.

Unclaimed Property

The Unclaimed Property program was established in 1987, codified at C.R.S. 38-13-101, et seq., to locate owners of dormant or abandoned property and return their property to them. The law was expanded subsequently to include all types of companies and business entities, with limited exceptions. The law also covers public institutions, including courts, municipalities, most governmental subdivisions/agencies, public corporations or authorities, non-profit entities, hospitals, utilities, estates, trusts, or any other legal or commercial entity. The Division accepts encrypted reports on its website. Currently 100 percent of non-state holders with 20 or more items report electronically (a requirement since March 2007); and the division continues to work with state agencies on reporting in this prescribed format.

The Unclaimed Property Division also includes a small audit section that is charged with ensuring holder compliance with the reporting requirement. This section participates in seminars to educate citizens and businesses about the Unclaimed Property Act and the related compliance responsibilities. In FY 2012-13, the Division held or participated in eleven seminars and other outreach programs throughout the state, including Denver (2), Firestone, Brighton (2), Pueblo, Glenwood Springs, Lakewood, Littleton, Hugo, and Lamar. The Division also participated in one videocast to Wyoming and Arizona. The seminars reached more than 350 people from industries such as auto dealers, CPA firms, law firms, banks and credit unions, retail businesses, gas and petroleum stations (with food centers), restaurants, medical/dental clinics, school systems, hospitals, and municipal facilities. In addition to field audits where the auditors conduct onsite audits, the audit section conducts "Desk Audits". The Desk Audit Program is designed to improve unclaimed property compliance by contacting non-compliant companies and providing them with information about the Colorado Unclaimed Property Program. Businesses are contacted by telephone, letter and questionnaire and are encouraged to review their records for potential unclaimed property. The auditors then assist the business with reporting their unclaimed property. The field audits initiated during FY 2012-13 included large, multilevel businesses that were ongoing for several months, and some medium sized, mixed product businesses, such as petroleum/food stores. Collections from the completed field audits in FY 2012-13 totaled more than \$1 million. The Desk Audit Program placed special emphasis on non-reporting medical practices, temporary employment agencies, convenience stores, gas and oil companies, private colleges, food distributors, hi-tech companies, apartment and homeowner association managers, restaurants, and retail and wholesale businesses. Audit collections increased significantly in FY 2012-13 to more than \$1.8 million. Successful results with desk audits allows the auditors to put a greater emphasis on large and difficult field audits, and to devote time and resources to performing holder outreach and education to inform businesses about the Unclaimed Property Law, and how to report.

Since the program's inception the Treasury has returned more than \$275 million to citizens. Colorado businesses typically identify millions of dollars worth of unclaimed property during the reporting process. In many cases these businesses contact the property holders directly and return the money directly to them rather than transferring it to the Treasury. Due to these dual efforts, more than half a million owners or their heirs have had unclaimed property returned to them since the program began.

Unclaimed Property has been featured repeatedly on nationally-televised programs such as <u>60 Minutes</u>, and <u>Good Morning America</u>, and various programs on the Public Broadcasting System generating hundreds of calls and claims with each occurrence and contributing to the increased number of inquiries and claims. Locally, most of the television stations, and many radio stations featured interviews with the Treasurer discussing various aspects of the Unclaimed Property Program. The Treasury ran a large ad in the Denver Post, and regional newspapers across the state, reminding Coloradans that the Treasury is holding more than \$800 million and that the online list contains more than two million names, and urged people to "call and check for their name". The statewide ads generated thousands of calls and claims from people finding their names on the list.

In FY 2012-13, the Unclaimed Property section returned \$22.6 million to nearly 15,000 claimants. The division continues to refine the electronic service for claimants through the Statewide Internet Portal Authority. This service allows citizens to search the unclaimed property database and to directly download a claim form to complete and submit. Along with the hardcopy claims received, more than 33,000 claims were filed online in FY 2012-13, totaling over 59,000 claims being filed and processed in the Division during the year. In addition, a claimant may inquire online as to the status of his claim. The success of all these efforts is a constant increase in citizen inquiries and claims. Inquiries to the Department increased by nearly 80%, growing from approximately 77,000 inquiries in FY 2007-08 to approximately 138,000 inquiries in FY 2008-09; and the total number of inquiries has held fairly steady since then with only the type of inquiries varying from year to year. In FY 2012-13, many inquiries were received in the Division by email. During the current fiscal year the Treasury anticipates continuing to pursue a broad approach to publicizing the unclaimed property list of names during the annual publication. These include television and radio advertising coordinated with the ads and lists in newspapers throughout the state.

C.R.S. 38-13-115 requires the Treasurer to sell unclaimed securities of Colorado citizens held by a third party. In FY 2004-05, Treasury began the liquidation process and deposited money into the Trust Fund. More than \$51 million from the first two sales of securities was deposited into the newly created Unclaimed Property Tourism Promotion Trust Fund in FY 2004-05. Additional funds totaling approximately \$8 million were deposited into the Unclaimed Property Tourism Promotion Trust Fund in September 2005 and approximately another \$5 million was deposited in September 2006. Sales were then suspended due to the turbulent fiscal conditions in the years to follow and resumed in FY 2009-10 when the sale of securities resulted in collections of nearly \$39 million. In FY 2011-12, the sale was completed in September 2011; and the sales from one year of security holdings totaled \$6.8 million. In September 2012, the sales of securities totaled \$13.9 million.

The Department's Investment Section manages the Unclaimed Property Tourism Promotion Trust Fund as a separate account. Beginning in February 2009, C.R.S. 38-13-116.7 established a new distribution pattern for the interest earned on the Fund. The new allocation of the interest earned is as follows: 1) 25% to the Colorado State Fair Authority Cash Fund; 2) 65% to the Agriculture Management Fund; and 3) 10% to the Colorado Travel and Tourism Promotion Fund.

In FY 2005-06, the division was able to implement the provisions of C.R.S. 38-13-117.3 – 117.7. These statutes direct the Treasury to review all approved claims that exceed \$600 for possible interception to satisfy specified outstanding fees, fines or child support obligations. The division routinely checks these claims against lists submitted by the Judicial Department (JUD), the Department of Revenue (DOR), and the Department of Human Services (DHS). The total dollar amount of "Intercepted" claims by department in FY 2012-13 was as follows: JUD \$42,446; DHS \$28,710; and DOR \$130,296.

Throughout the year, the Unclaimed Property Division also receives and processes unclaimed safe deposit boxes. In FY 2012-13, the total number of safe deposit items reported was 2,468. This reflects the push that was made in the previous year to ask the banks to "catch up" on remitting safe deposit box contents. Other FY 2012-13 statistics: 7,162 items inventoried, 166 items returned, and the total amount of cash from safe deposits boxes deposited was \$14,624, all very consistent with the prior fiscal year.

Special Purpose

The special purpose programs include the Property Tax Deferral Program for Seniors and Active Military Personnel, the Senior Citizen and Disabled Veteran Property Tax Exemption Program, CoverColorado, Highway Users Tax Funds, and the Fire and Police Pension Fund.

Property Tax Deferral Program for Seniors and Active Military Personnel

This program provides loans to pay the property taxes for qualified Colorado citizens who make application. During the 2002 legislative session, C.R.S. 39-3.5-105.5 and 105.7 were revised, changing the funding of this program from a General Fund appropriation to an investment as a loan to the taxpayer. Liens are placed on the property and interest is calculated annually. The interest rate floats with the 10 year Treasury note, changing each year in February. The current rate is set at 1.625%. There are no limits to the number of applications the Department may receive; and there are limited eligibility requirements. As of April 30, 2013, Treasury had 617 participants in the program.

The Treasury uses an Access database to manage this program. Additionally, Treasury uses an annual self-verification process to monitor existing participants thus ensuring their continued eligibility for the program. Also, in conjunction with Central Collections, the Department aggressively pursues delinquent accounts.

Senior Citizen and Disabled Veteran Property Tax Exemption

Created by the passage of Referendum A, which was approved by the voters in November of 2000, and codified at C.R.S. 39-3-201 et seq., this program originally exempted one-half of the first \$200,000 of a home's value from property taxation for citizens over the age of 65 who have lived in their current homes for at least 10 years. It also applies to surviving spouses of qualified taxpayers. The first payment to counties was made in April of 2003. The Treasury, in conjunction with the Department of Local Affairs has developed and maintains an extensive database for the program to ensure that distributions are correctly calculated and disbursed.

Language in Referendum A gave the legislature the authority to lower the amount of assessed residential property that may be exempted from taxes. Due to the State budget shortfall, C.R.S 39-3-203 was revised to decrease this amount to zero for tax years after January 1, 2003 but before January 1, 2006. Consequently no payments were made for FY 2003-04 through FY 2005-06. The exemption was reinstated to one-half of the first \$200,000 beginning with FY 2006-07. Treasury made \$79.8 million in payments to counties in FY 2007-08; and \$85.6 million in FY 2008-09. However, again due to a State budget shortfall, C.R.S. 39-3-203 was revised for the 2009 property tax year, reducing the amount of assessed residential property that may be exempted from taxes by a qualifying senior from \$200,000 to \$0, leaving the exemption for qualified disabled veterans, noted below, intact. SB 10-190 continued the 2009 reduction through the 2011 property tax year. Consequently, Treasury made only \$1.3 million in payments to counties in FY 2009-10, \$1.6 million in FY 2010-11, and \$1.8 million in FY 2011-12. The assessed residential property that may be exempted from taxes by a qualifying senior returned to one-half of the first \$200,000 beginning in the 2012 property tax year; therefore, Treasury made \$102.7 million in payments to counties in FY 2012-13.

Referendum E, approved during the 2006 general election, allows the senior homestead exemption to be extended to veterans who have a service-connected disability that has been rated as 100% permanent, as well as their surviving spouses. This exemption was codified by revising the definitions in C.R.S. 39-3-202.

CoverColorado

This is a non-profit organization providing individual, major-medical health insurance to eligible Colorado residents who are denied access to health insurance due to preexisting chronic medical conditions. Prior to restructuring CoverColorado's funding during the 2008 legislative session, the transfers to CoverColorado from the principal and interest in the Unclaimed Property Trust Fund (UPTF) were projected to be approximately 52 percent of their total program expenses in FY 2008-09. After restructuring, CoverColorado received 25% of its funding from the UPTF, 50% from insurance premiums paid by participants, and 25% from assessments on insurers. The amount of the annual subsidy from the UPTF was based upon a statutorily required actuarial analysis; and the amount available for transfer to CoverColorado was determined after reserving an amount for future claims through the Unclaimed Property Division and for the operations of that program. However, during the 2013 legislative session, House Bill (HB) 13-1115 ceased transfers from the UPTF to CoverColorado effective May 1, 2013 and repealed CoverColorado as of March 31, 2015. Therefore, in FY 2012-13, only \$32.2 million was transferred to CoverColorado from the UPTF; and the appropriation of \$36.5 million for FY 2013-14, and thereafter, was eliminated.

Highway User Tax Funds (HUTF)

The annual calculation, allocation and distribution of HUTF to Colorado counties and municipalities, and the Department of Transportation are responsibilities of the Treasury. Estimates for future HUTF disbursements are based on projections from the Legislative Council Office.

On March 2, 2009, the Funding Advancements for Surface Transportation and Economic Recovery (FASTER) bill was signed into law and codified at C.R.S. 43-4-801 et seq. FASTER generates additional revenues for statewide transportation improvements. Revenues generated from the Road Safety Surcharge, Oversize/Overweight Surcharge, Rental Car Surcharges, and late vehicle registration fees are credited to the HUTF and distributed per statute to the Department of Transportation, counties, and municipalities.

Fire and Police Pension Association (FPPA)

Although previously suspended, in FY 2005-06, statute reinstated an annual payment to the FPPA to subsidize the unfunded liability in its "Old Hire" pension plans. The General Assembly appropriated \$25.3 million in FY 2005-06 and \$34.8 million in both FY 2006-07 and FY 2007-08. Then, due to the State budget shortfall, C.R.S. 31-30.5-307 was revised, eliminating the annual contribution to the FPPA for FY 2008-09 through FY 2010-11. The annual contribution of \$25.3 million was reinstated beginning in FY 2011-12; however, SB 11-221 reduced that contribution by \$20 million. SB 11-221 also reduced the FY 2012-13 contribution by \$15.3 million and delayed the final contribution until FY 2018-19. However, during the 2013 legislative session, SB 13-234 instructed that a final balloon payment of \$132.4 million be made from the General Fund to the FPPA on May 31, 2013.

Other Programs

Charter School Intercept and Moral Obligation Program

C.R.S. 22-30.5-406 allows a charter school entitled to receive moneys from the State to request that the State Treasurer make direct payments of principal and interest on capital construction bonds on its behalf. The Treasury withholds the moneys needed to make these payments from the monthly equalization payments to the Charter Authorizer (the school district in which the charter school is located or the State Charter School Institute). The Treasurer will only perform an intercept for a charter school that receives sufficient state equalization money to cover the entire annual amount of the principal and interest payments. This program enhances the charter school's ability to obtain favorable financing terms on its bonds. As of September 30, 2013, Treasury had 61 participants in the intercept program.

In addition to this intercept program the Treasury oversees a complementary program: the "Moral Obligation Program." This program enhances the credit of a "qualified charter school." A qualified charter school is one that has obtained an investment grade credit assessment on a "stand alone" basis. The enhancement enables these qualified schools to obtain more favorable financing terms on their capital construction bonds. The program is funded from a separate source of moneys from which the Treasury would make bond payments in the case of a default by a charter school. C.R.S. 22-30.5-407 created the State Charter School Interest Savings Account within the State Charter School Debt Reserve Fund. Each qualified charter school allowed into this program annually pays ten basis points of the principal amount of bonds outstanding into this fund. At September 30, 2013, the fund had a balance of \$3.2 million. In the event that a default occurs that exhausts the balance in the fund, as well as the \$1 million appropriated in FY 2002-03 from the State Education Fund, the statute directs the Governor to notify the General Assembly so that it may consider whether to appropriate funds to pay off the bonds. This last element is the "moral obligation" aspect of the program. Failure by the State to make such an appropriation could have a substantial negative effect on the State's credit and almost certainly interfere with its ability to issue certificates of participation. The statutory cap of the outstanding par value of the bonds issued by charter schools under this program was legislatively increased from \$200 million to \$400 million in 2006. As of September 30, 2013, the outstanding par value of the bonds issued under the moral obligation program was \$393.4 million.

K-12 School District Intercept Program

The program created in C.R.S. 22-41-110 requires the Treasurer to make timely payments of principal and interest on school district bonds if the district is unable to do so. If the Treasurer makes such a payment, he shall recover the amount forwarded by withholding amounts from the school district's payments of the State's share of the district's total program funding and/or from school district property tax and specific ownership tax revenues. With this security in place, school districts across the State have been able to receive greatly enhanced ratings on their bond issues. The program, created in 1991, automatically covers all school districts except those which have expressly opted out of the program. Since the program's inception, Treasury has never made a bond payment on behalf of a school district. As of June 30, 2013, the outstanding par value of the bonds issued under the school district intercept program was approximately \$8.0 billion.

Higher Education Intercept Program

Based on the success of the State's school district intercept program explained above, in 2008 the legislature created a parallel program for revenue bonds issued by Colorado state-supported institutions of higher education, enacted as C.R.S. 23-5-139. In this program, the Treasurer is required to make timely payments of principal and interest on revenue bonds issued by qualified state-supported institutions of higher education if the institution is unable to do so. If the Treasurer makes such a payment, he shall recover that amount by withholding amounts from the institution's payments of the State's fee-for-service contract with the institution, from any other State support for the institution, and from any unpledged tuition moneys collected by the institution. With this security in place, the State's public institutions of higher education receive greatly enhanced ratings on their bond issues. Unlike the school district program, institution bonds must meet certain qualifications to be covered by the program: 1) at the time of issuance, the maximum total annual debt service payments of the revenue bond issue and any other bonds to which this section applies issued by the same institution are one hundred percent or less of the institution's prior year fee-for-service contract revenue; and 2) the institution must have pledged certain other institution revenues to the bond holders. As of September 30, 2013, there were nine institutions of higher education participating and the outstanding par value of the bonds issued under the higher education intercept program was approximately \$1.1 billion.

11/01/2013 Page 16

Short-term Note Issuance

Due to the highly irregular flows of revenues into the state, Treasury issues short term tax and revenue anticipation notes. This financing provides funds to meet the state's liquidity needs in months when the state's general fund experiences a deficit. Interest on the notes and their costs of issuance are paid from investment earnings and premium. In July 2013, Treasury issued \$500 million in tax and revenue anticipation notes which mature in June 2014.

In July 2013, the Treasury also issued \$130 million in short term notes on behalf of the State of Colorado Education Loan Program to fund cash flow shortages in school districts. An additional issuance of approximately \$235 million for this program will occur in January 2014. These notes also mature in June 2014; and the repayment of the notes is from the property tax collections of the participating local school districts.

Higher Education Lease Purchase Agreements

In 2008, the General Assembly enacted C.R.S. 23-1-106.3 authorizing the Treasurer to execute lease purchase agreements on behalf of the State for certain capital projects at state-supported institutions of higher education as specified in House Journal Resolution (HJR) 08-1042. The legislation sets the term of maturity and maximum annual lease payment amounts. The repayment source for these transactions is the Higher Education Federal Mineral Lease Revenues Fund created in C.R.S. 23-19.9-102. C.R.S. 23-1-106.3 also specifies that the Treasurer will make an annual determination of the sufficiency of money in the Higher Education Federal Mineral Lease Revenues Fund for entering into additional lease purchase agreements in subsequent years. \$230.8 million in Certificates of Participation (COPs) were issued on November 6, 2008. The proceeds of the certificates funded twelve projects at institutions of higher education per HJR 08-1042 (projects 1-11 plus project 13). The unspent proceeds from these twelve projects was approved to fund an additional eleven projects at institutions of higher education per a letter from the Capital Development Committee dated September 6, 2012.

Responding to historically low rates in the tax exempt market, a portion of the 2008 COPs were restructured to realize both budgetary and present value savings. \$35.9 million of refunding higher education Certificates of Participation were issued in December 2009, which saved the state \$12.8 million from FY 2009-10 through FY 2011-12.

Building Excellent Schools Today (BEST) Lease Purchase Agreements

In 2008, House Bill 08-1335 (the BEST Act) was signed into law (codified as C.R.S. 22-43.7-101 et seq.). This legislation authorizes the Treasurer to execute lease purchase agreements on behalf of the State for certain kindergarten through twelfth grade public school capital projects. The legislation allows the Public School Capital Construction Assistance Board to recommend projects to be funded through these lease purchase agreements with annual lease payments that do not exceed, in total, \$20 million in FY 2008-09, \$40 million in FY 2009-10, \$60 million in FY 2010-11, and \$80 million in FY 2011-12 and any year thereafter. Of this amount, the State is responsible for funding lease payments not to exceed half the total. School districts, charter schools or Boards of Cooperative Educational Services provide "matching" amounts to make any additional lease payments up to the total. The Treasurer makes lease payments from the Public School Capital Construction Assistance Fund, which receives moneys from school trust lands and from the Colorado Lottery. \$87.1 million in Certificates of Participation Qualified School Construction Bonds were issued on August 12, 2009 to fund the awards recommended by the Assistance Board and approved by the State Board of Education. On March 16, 2010, \$85.7 million in taxable Build America certificates and \$14.0 million in tax exempt certificates, \$119.8 million in taxable Build America certificates, and \$2.0 million in tax exempt certificates were issued to fund the third round of awards. On December 8, 2011, \$146.6 million in tax exempt certificates were issued to fund the fourth round of awards. On December 6, 2012, \$196.0 million in tax exempt certificates were issued to fund the fifth round of awards.

Management of the State's Financial Obligations

The Treasurer's Office assumed the responsibilities of managing the State's financial obligations after enactment of SB 12-150. During FY 2012-13, the Treasurer's Office worked diligently to put these new duties into motion. Treasury has promulgated Colorado's first State Public Finance Policy – which was viewed favorably by financial markets as well as credit rating agencies.

Treasury has taken an immediate leadership role in analyzing the State's outstanding financial obligations, identifying two refinancing opportunities, resulting in over \$6.6 million in total savings for the Department of Transportation Revenue Anticipation Notes and the University of Colorado Fitzsimons' Certificates of Participation.

Financial obligations have numerous annual post-issuance compliance measures required by both the Securities Exchange Commission (SEC) and the Internal Revenue Service (IRS). Treasury's analysis of these measures lead to an overhaul of the State's post-issuance compliance procedures required by the SEC and the IRS, implementing new procedures and processes to bring the State into compliance. For the first time, the State is 100% in compliance with these post-issuance requirements.

Prior Year Legislation

HB 13-1205: Concerning the Investment of State Monies by the State Treasurer.

This bill provides additional flexibility in investing State monies in the following ways:

Redefines the statutory definition of "loss" to a more portfolio-based approach. Previously, statutes did not allow any kind of loss of principal to any individual investment – which provides little flexibility in portfolio maximization. This bill reflected a more industry standard, portfolio-based approach with respect to loss.

Updates statutory language that allows the State Treasurer to invest in securities denominated in US dollars. This portion of **the bill** was based on a recommendation by the Legislative Audit Committee. This recommendation was already implemented in local investment statutes through last year's HB 12-1005.

Allows the Treasurer to invest state monies in municipal bonds and covered bonds. This bill requires that such investments are rated in at least one of the highest two rating categories by a nationally recognized rating organization.

HB 13-1102: Concerning the Exemption to the "Unclaimed Property Act" for Gift Cards Issued by Small Businesses.

This bill helped cut red tape for smaller businesses that issue gift cards for customers. Any small business which earns no more than \$200,000 in gift card revenue per year is now exempt from reporting requirements. This pro-business bill will help small businesses by providing an exemption to reporting requirements that are tedious and onerous for smaller business operations.

SB 13-199: Concerning Modification of the Standard for Determining Whether Bonds Issued by a State Supported Institution of Higher Education Qualify for the Higher Education Revenue Bond Intercept Program.

Sponsored by the Capital Development Committee, this bill helps re-define debt capacity along the lines of a more industry standard "coverage ratio," as well as a ratings requirement to promote greater financial health for Higher Education borrowers.

The prior formula defined debt capacity by using an arbitrary line item – Fee For Service – as the max**imum** annual debt service capacity. It was an awkward line item that that could **not** even be used for debt service payments. Under SB 13-199, the requirements are as follows:

- Dept capacity is defined as 150% coverage of available revenue versus annual debt service.
- Requires any Higher Education institution to have a rating of at least "A" by a nationally recognized rating organization.

Hot Issues

Consolidation of the State's Financial Obligations Within the Treasurer's Office:

Continuing the consolidation process of the State's financial obligations: This document mentions several successful milestones of implementing SB 12-150 which centralized the State's public financial management, including the promulgation of the State's first Public Finance Policy, identifying over \$6 million in refinancing savings, and strengthening the state's post-issuance compliance measures. As we continue to improve and streamline these processes, there will be additional opportunities to make financial management more efficient:

- Qualified vendor pools: Prior to SB 12-150, financial management was decentralized, disorganized, and executed on a case-by-case basis. Now that financial management is centralized, the Treasurer's Office can improve this service to agencies in many ways. One immediate improvement is to create qualified pools of vendors, including legal counsel, banking and underwriting entities, and other services. This will help streamline the time required to execute the State's financial transactions.
- In-depth analysis and disclosure of the State's finances: Under a decentralized system, numerous capital leases and Certificates of Participation were managed individually by each agency so there was no way to truly aggregate these obligations. Now that the process is centralized, the Treasurer's Office plans on working to offer analysis to the public so they can better understand the State's outstanding financial obligations.

Workload Indicators

Administration

Workload Indicators	FY 10-11 Actual	FY 11-12 Actual	FY 12-13 Actual
Number of Treasury Pool investment purchases / Average dollar amount per purchase	518 / \$32.8 million	649 / \$30.4 million	562 / \$33.1 million
Number of HUTF payments produced	3,951 EFT pymts / 25 warrants	3,948 EFT pymts / 28 warrants	3,941 EFT pymts / 25 warrants
Number of deferred property applications processed	513	474	429
Number of participants in charter intercept program (Number of these in "moral obligation" program)	53 (31)	57 (31)	60 (32)
Number of school districts participating in interest free loan program	23	17	17
Number of cash-related documents processed **	1,258,729	1,188,736	1,151,766
Number of checks received / Dollar amount of checks received	309,647 / \$749.8 million	248,005 / \$683.5 million	177,609 / \$656.8 million
Dollar amount of electronic deposits accounted for	\$23.3 billion	\$23.1 billion	27.2 billion

^{**} Agencies with an interest-eligible fund are charged a transaction fee by Treasury based on the number of documents processed for that fund each year.

Significant Administration Accomplishments

To accelerate receipt of all funds coming into the Treasury Department

- **1.1.1** Continued to train other agency personnel on alternative cash concentration procedures such as the use of Internet based bank transfers to quickly and efficiently move money to the State's main operating account.
- **1.1.2** Continued to research and evaluate potential means to electronically transmit bank deposits seeking ones that meet the appropriate standards of accuracy, ease of use, and cost effectiveness.

To conservatively and safely invest the portfolios to preserve principal and consistently provide income

- **1.2.1** Earned \$107 million of income for all funds managed in FY 2012-13.
- **1.2.2** No investments in default or nonpaying status.
- 1.2.3 Exceeded the investment portfolio benchmark by 114 basis points.

To disburse funds efficiently

- **1.3.1** Maintained a timely process related to the applications for the senior property tax deferral program and the associated disbursements to the county treasurers.
- **1.3.2** Maintained a timely process related to intercepting bond payment funds from charter schools participating in the Charter Intercept Program and forwarding same to their chosen bank.

To provide efficient and timely cash flow monitoring

- **1.4.1** Successfully completed note issuances on behalf of school districts to meet their cash flow needs, while minimizing the program's cost to the state's General Fund.
- **1.4.2** Ensured that all outstanding interest free loans to school districts were repaid on time.
- **1.4.3** Maintained a timely process to transfer funds to CoverColorado from Unclaimed Property as required.
- **1.4.4** Maintained a timely process, with the assistance of the Department of Revenue, to transfer tobacco taxes collected under Amendment 35 to various State agencies.
- **1.4.5** Continued to maintain a database to monitor the general obligation bonds issued by school districts under the School District Intercept Program, C.R.S. 22-41-110.

To improve cash management and ensure adequate liquidity through better forecasting

- **1.5.1** Continued to refine cash flow forecasting methodology.
- **1.5.2** Continued to meet with the Office of State Planning and Budgeting (OSPB), the Department of Revenue and Legislative Council to ensure accurate cash flow information for legislature and credit rating agencies.
- **1.5.3** Cost effectively issued Tax Revenue Anticipation Notes to aid in cash flow management, sizing the issuance to minimize interest expense.

To improve banking services

- **1.6.1** Continued to evaluate banking services for improved reporting, cash management, and earnings on funds on deposit.
- **1.6.2** Completed a request-for-proposal for banking services and the selection of banks. All contracts are expected to be effective by December 31, 2013.

To provide technical assistance to local governments

1.7.1 Continued to instruct local government finance officials on the State's master credit card agreement.

To continue and improve the Building Excellent Schools Today program

- **1.8.1** Continued to refine and improve the process for constructing lease purchase financing for the program.
- **1.8.2** Successfully issued \$196 million of Tax Exempt Certificates of Participation (COPs) in December 2012.

To continue to improve and streamline the State's management of its financial obligations

- **1.9.1** Promulgated the State's first Public Finance Policy, helping provide clarity to financial markets related to the process by which the State manages its finances.
- **1.9.2** Identified two refinancing opportunities, resulting in over \$6.6 million in total savings for the Department of Transportation's Revenue Anticipation Notes and the University of Colorado Fitzsimons' Certificates of Participation.
- **1.9.3** Managed an overhaul of the State's post-issuance compliance procedures required by the Securities Exchange Commission and the Internal Revenue Service, implementing new procedures and processes to bring the State into complicance.

Unclaimed Property

Workload Indicators	FY 10-11 Actual	FY 11-12 Actual	FY 12-13 Actual
Number of claims processed	18,469	16,655	17,568
Number of inquiries handled	>138,000	>135,000	135,000
Number of letters mailed to owners	6,000	6,000	6,000
Number of businesses & reporting services notified	8,150	8,217	8,299
Number of holder reports received (Number of these filed electronically)	9,924 (8,900)	9,160 (9,160)	9,467 (9,467)
Safe deposit (SD) related items:			
Number of SD items reported	2,276	4,422	2,468
Number of SD items inventoried	3,322	7,140	7,162
 Number of SD items returned 	68	167	166
 Number of SD items sold (amount received) 	No Auctions Held	No Auctions Held	No Auctions Held

Significant Unclaimed Property Accomplishments

To communicate existence of Program more effectively to potential owners

- **1.1.1** Pursued an aggressive media program throughout the year to highlight the program, including being repeatedly featured on nationally-televised programs such as <u>60 Minutes</u>, <u>Good Morning America</u>, and <u>PBS</u>.
- **1.1.2** Continued annual publication of unclaimed property holder names, significantly increasing submission of inquiries and claims by citizens. In April 2013, the publication utilized 10 television stations throughout the state, many radio stations, and newspapers in many counties to advertise more than 100,000 new names. The names published were those added to the Unclaimed Property database during the previous year and valued at \$50 or more.

To reduce the administrative burden on holders

- 1.2.1 Continued to make all forms and reporting instructions available on the Treasury website.
- **1.2.2** Continued to enforce the rule requiring all companies with 20 or more items to report to submit the report electronically.
- **1.2.3** Continued to make it possible for companies to submit encrypted reports electronically.
- **1.2.4** Made it possible for companies to remit funds electronically.
- **1.2.5** Made an aggressive effort to call for dormant safe deposit boxes being held by banks.

To educate citizens and businesses about unclaimed property and the related responsibilities for compliance

- **1.3.1** Held eleven seminars and other outreach programs in Denver (2), Firestone, Brighton (2), Pueblo, Glenwood Springs, Lakewood, Littleton, Hugo, and Lamar.
- **1.3.2** Continued efforts to identify and contact potential unclaimed property holders to inform them of requirements to report and the processes for doing so.
- **1.3.3** Sent or delivered claim forms to businesses and government agencies to inform them of unclaimed property that they could claim.

To meet additional statutory requirements

- **1.4.1** Continued to refine the unclaimed property intercept program pursuant to HB 05-1044 to capture unclaimed property owed to meet outstanding governmental debts.
- **1.4.2** Continued to assist other state agencies in implementing a process for reporting and obtaining reimbursements.
- **1.4.3** Continued to make an aggressive effort to dispose of non-valuable safe deposit items held by the Division for three years or longer, in compliance with the Unclaimed Property statute.
- **1.4.4** Scheduled and completed the annual sale of unclaimed securities held by the Division in a timely manner and in compliance with the Unclaimed Property statute.

CHANGE REQUEST for FY 2014-15 BUDGET REQUEST CYCLE

Department:	Treasury
Priority Number:	1 of 2
Change Request Title:	LexisNexis Accurint Research Service

SELECT ONE (click on box):
Supplemental or Budget Request Amendment Criterion:
Not a Supplemental or Budget Request Amendment
An emergency
A technical error which has a substantial effect on the operation of the program
New data resulting in substantial changes in funding needs
Unforeseen contingency such as a significant workload change

Short Summary of Request:

The Unclaimed Property Division's (the Division) mission is to reunite all owners (or heirs) with their unclaimed or abandoned property. From FY 2007-08 to FY 2008-09, annual citizen inquiries to the Division increased from approximately 77,000 to approximately 138,000; and, to date, inquiries have continued at a high level. Consequently, the Division has averaged 135,000 inquiries per year over the past five years; and the resulting claims processed over that same time period has averaged 17,900 per year. Due to the consistent, high volume activity, the average time required to process each claim has doubled – from about 10 weeks to about 20 weeks per claim. The Division has researched various solutions and has identified a technology to help streamline the claims process.

11/01/2013 Page 29

General Description of Request:

Currently, the Division's claims process is a paper-based, labor intensive process. Staff members spend much of their time contacting claimants multiple times via letters, telephone calls, or emails in order to obtain all the necessary information to determine that the claimant is the <u>rightful owner</u> of the property in question. Often these exchanges between the Division and the claimant can take several weeks to complete. In order to significantly reduce the number of claimant contacts, thus reducing claim resolution time, the Division requests funding for a research service, Accurint, offered by LexisNexis.

LexisNexis describes its solution as follows:

- An advanced proprietary linking and analysis technology producing the largest and fastest growing data repository of public records and commercially available data in the country.
- A vast data storehouse containing in excess of 36 billion records drawn from 20,000 disparate sources that map to 585 million unique identities.

Data that Accurint can provide includes verification of whether the individual is living or deceased, an up-to-date address, a list of relatives, and previous addresses – the same type of information that is currently requested from the claimant. LexisNexis states that for government agencies, the standard turnaround time for inquiries is approximately 24 hours. During a discussion with the Unclaimed Property manager in Missouri, who has been using Accurint services for nearly 10 years, it was noted that their modified "paperless" claims process supported by these services allowed them to eliminate a claims backlog.

This technology could also benefit the audit section of the Division. The Division's auditors would be able to utilize Accurint to obtain information for following up on non-reporting companies, locating the subsidiaries of companies, and selecting potential audit candidates.

Consequences if Not Funded:

If this request is not funded, the potential exists for a future violation of C.R.S. 38-13-119: "A person ... whose claim has not been acted upon within ninety days after its filing may bring action to establish the claim in a court of competent jurisdiction, naming the administrator as a defendant. The action must be brought ... within <u>one hundred eighty days</u> after the filing of the claim if he has failed to act on it. If the aggrieved person establishes the claim in an action against the administrator, he shall be entitled to an award of costs and reasonable attorney fees." In this instance, we define "to act on it" as either paying or denying the claim.

Calculations for Request:

Short Summary of Request:

The Department of Treasury's three investment officers utilize three unique investment tools on a day-to-day basis: Bloomberg computer terminals providing live prices and yields; a BondEdge Fixed Income Software System providing analytical and database modules; and Standard & Poor's (S&P) credit research service, CreditWire. A portion of the costs of these tools is allocated to the Department's debt issuances because Treasury relies upon these services to assist it in reinvesting the proceeds of these issuances. However, the changes listed below are making it necessary for Treasury to request additional funds to continue funding these three investment tools at their current levels.

- The percentage of the investment tool costs applicable to Treasury's debt issuances has fallen from 18% to 15%.
- Treasury has seen a recent, bi-annual price increases from both Bloomberg and BondEdge.

11/01/2013 Department of Treasury

General Description of Request:

Using Bloomberg, the Treasury is in direct communication with all the broker/dealers and can bid competitively on spread product with multiple brokers simultaneously, increasing the opportunity to get the best price for the State. Monitoring current spread levels is critical because the spread is a measure of risk in a bond. A bond with a narrow spread is likely to be expensive; a bond with a wide spread is reflective of higher risk. Treasury looks for bonds that represent fair value for the level of assumed risk. Each investment officer needs their own Bloomberg terminal for monitoring bond prices daily in order to identify buy/sell/swap opportunities to enhance book income to the portfolios of the State, and to keep up-to-date on financial and economic conditions that could materially impact investment holdings. There is a potentially enormous opportunity cost to the State due to lack of accurate information.

BondEdge computes risk measures on an option-adjusted basis that allows clients to clearly understand the risk/return profile of securities and portfolios. These measures include effective duration, effective convexity, average life, and yield to maturity/call/worst. Clients can see these measures for each bond in their portfolio, but more important, clients can see the weighted averages for a portfolio, or even a group of portfolios. It offers detailed sector breakdowns showing how each sector contributes to the portfolio's overall risk and extensive book value reporting; and, in addition to the standard reports included with the system, BondEdge allows the client to "slice and dice" portfolios into various risk categories. In addition to showing the current risk measures, BondEdge allows the client to look at projected risk measures based on changing market conditions. This includes up/down shocks to interest rates, as well as widening/tightening credit spreads. Clients can also forecast the impact of yield curve and spread moves.

Standard & Poor's CreditWire is a real-time credit ratings and research information service, and can only be obtained through an authorized third party distributor; in this case, over a Bloomberg terminal. It provides immediate access to new issue ratings and analyses and other ratings actions for various sectors and categories. In addition, the service offers other easily accessible lists of issuers, such as those which are on CreditWatch for potential changes in credit quality.

11/01/2013 Department of Treasury

Consequences if Not Funded:

Not fully funding Bloomberg would force Treasury to reduce the number of terminals from three to two; and access to investment information would be limited. By necessity due to time zones, the investment section begins use of the Bloomberg terminals at 6 am, Mountain Time. Until approximately 9:30 each morning one Bloomberg would be reserved exclusively for the short-term cash investment officer. Until the cash is fully invested and the Time Deposit program is priced (Mondays), the intermediate term and long term investment officers would have to share a second Bloomberg for access to their markets. By mid-morning, the intermediate term investment officer would have access to the Bloomberg used by the short-term investment officer. Investment officers still would be able to monitor their markets but not on as timely a basis and would have to rely more upon using the telephone, fax and financial publications which cannot provide financial information with the timeliness, volume, and depth as can Bloomberg. The investment section generates millions of dollars in revenue for the State (\$107 million in FY 2012-13). Decreased access to this system will reduce the amount of revenue the Treasury can generate within the constraints of legality, safety, liquidity and yield.

As for BondEdge, the downside risks relating to interest rates, credit rates, yield curves, and prepayment options in today's volatile market are major factors in investment-related decision making. Without BondEdge, the investment officers have fewer tools available to them to monitor and avoid these risks.

Finally, regarding S&P's CreditWire, recent activity in global markets makes it more critical than ever before that Treasury be able to ensure that its investments are protected, and that the investment officers have information that not only relates to breaking news, but information that details market trends so that Treasury can invest State funds wisely and safely.

(1) ADMINISTRATION

PERSONAL SERVICES

Pursuant to the "State Personnel System Act," C.R.S. 24-50-101 et seq., this line item reflects the division's appropriation for the following:

- Salaries and wages paid to employees, whether full-time, part-time, temporary, or contract (including leaves);
- The employer's contribution to the public employees' retirement association (C.R.S. 24-51-401); and
- As mandated by federal law, the employer's share of Medicare tax paid on behalf of employees hired after March 31, 1986.

For FY 2013-14, the Administration Division of Treasury is appropriated 16.4 full-time equivalent (FTE) employees. As part of the January 2009 10% budget reduction proposal, beginning in FY 2009-10, a portion of the salaries paid to the Treasurer, Deputy Treasurer, and one accounting technician is paid by the Unclaimed Property (UP) Division. For FY 2014-15, Treasury requests the continuation of the existing positions.

HEALTH, LIFE, AND DENTAL

Pursuant to the "State Employees Group Benefits Act," C.R.S. 24-50-601 et seq., this common policy line item reflects the department's appropriation for the employer's share of its employees' health, life, and dental insurance, part of a "total compensation" package as defined in C.R.S. 24-50-104. This appropriation is based on rates provided by the Department of Personnel and Administration (DPA) each year.

SHORT-TERM DISABILITY

Pursuant to the "State Employees Group Benefits Act," C.R.S. 24-50-601 et seq., this common policy line item reflects the department's appropriation for the cost of providing its employees' with a short-term disability plan. The State currently covers 100% of the premium costs. This rate is provided annually by DPA. For FY 2013-14, this common policy appropriation was calculated at 0.19% of base salaries. For both FY 2012-13 and FY 2011-12, this appropriation was calculated at 0.177% of base salaries. For FY 2014-15, this appropriation is calculated at 0.22% of base salaries.

S.B. 04-257 AMORTIZATION EQUALIZATION DISBURSEMENT

Pursuant to C.R.S. 24-51-411, this common policy line item reflects the department's appropriation to make an additional disbursement to the public employees' retirement association beginning January 1, 2006. For FY 2013-14, this common policy appropriation was calculated at an effective rate of 3.60% of base salaries. For FY 2012-13, this appropriation was calculated at an effective rate of 3.20% of base salaries; and for FY 2011-12, it was 2.80%. For FY 2014-15, this appropriation is calculated at an effective rate of 4.00% of base salaries.

S.B. 06-235 SUPPLEMENTAL AMORTIZATION EQUALIZATION DISBURSEMENT

Pursuant to C.R.S. 24-51-411, this common policy line item reflects the department's appropriation to make a supplemental disbursement to the public employees' retirement association beginning January 1, 2008. For FY 2013-14, this common policy appropriation was calculated at 3.25% of base salaries. For FY 2012-13, this appropriation was calculated at an effective rate of 2.75% of base salaries; and for FY 2011-12, it was 2.25%. For FY 2014-15, this appropriation is calculated at 3.75% of base salaries.

SALARY SURVEY

Pursuant to C.R.S. 24-50-104, this common policy line item reflects the department's appropriation to increase annual salaries to remain competitive with public and private employment as determined by the State's personnel director. No increases were approved for FY 2009-10 through FY 2012-13; however, for FY 2013-14, a 2.0% across-the-board market adjustment was approved. For FY 2014-15, per DPA's recommendations, the department's request includes a 1.5% across-the-board market adjustment.

MERIT PAY

Pursuant to C.R.S. 24-50-104, this common policy line item reflects the department's appropriation to provide performance awards as determined by the State's personnel director and relating to the annual employee performance evaluations. No increases were approved for FY 2009-10 through FY 2012-13; however, for FY 2013-14, both base and non-base adjustments based on salary quartiles and performance evaluations were approved. For FY 2014-15, per DPA's recommendations, the department's request includes similar base and non-base adjustments based on salary quartiles and performance evaluations.

WORKERS' COMPENSATION AND PAYMENT TO RISK MANAGEMENT AND PROPERTY FUNDS

This common policy line item reflects the department's common policy appropriation for its share of the statewide insurance costs as determined by DPA and the Office of State Planning & Budgeting (OSPB).

OPERATING EXPENSES

This line item reflects the department's appropriation for certain expenses relating to the daily operations of the Administration Division. These expenses include, but are not limited to, the leasing of terminals and software for the investment officers, telephones, postage, printing, dues and subscriptions, and travel. The FY 2012-13 appropriation included a \$2,470 Decision Item related to the online tools utilized by the Investment Division; however, the appropriation was \$23,218 less than the FY 2011-12 appropriation due to the removal of cyber-security costs. During the budget process for FY 2009-10, Treasury was granted an increase to this line item of \$190 related to mail services and \$4,000 spread out over five years for the National Association of State Treasurers annual dues. Due to the General Fund shortfall, this line item was reduced by \$41,591 in a January 2009 10% budget reduction proposal; and it was further reduced by \$28,012 in a January 2010 supplemental. The FY 2014-15 request includes a \$8,503 Decision Item related to the online tools utilized by the Investment Division.

INFORMATION TECHNOLOGY ASSET MAINTENANCE

This line item reflects the department's appropriation for maintaining and upgrading its information technology hardware and software (including computers and printers) based on standard replacement cycles. The appropriations for FY 2011-12 through FY 2013-14 were the same; and the FY 2014-15 request is for the continuation of that appropriation.

LEGAL SERVICES FOR 575 HOURS

This common policy line item reflects the department's appropriation for fees paid to the Department of Law for counsel and representation of the Treasurer's Office, including the UP Program. The calculation multiplies the number of hours appropriated to Treasury (575 hours) times the common policy blended attorney/paralegal rate per hour as determined by DPA. The FY 2012-13 appropriation was based on a blended rate of \$91.08; the FY 2012-13 was based on a rate of \$77.25; and the FY 2011-12 was based on a rate of \$75.71. The FY 2014-15 request continues the blended rate of \$91.08 rate per instructions from OSPB.

PURCHASE OF SERVICES FROM COMPUTER CENTER

This common policy line item reflects the department's appropriation for the costs associated with statewide computer services provided by the Governor's Office of Information Technology (OIT).

COLORADO STATE NETWORK

This common policy line item reflects the department's appropriation for the costs associated with the multiuse network and paid to OIT. The network provides the department with secure, high-speed broadband access.

MANAGEMENT & ADMINISTRATION OF OIT

This common policy line item reflects the department's appropriation for the information technology costs associated with enterprise management and oversight, and back-office business functions provided by OIT.

CAPITOL COMPLEX LEASED SPACE

The Administration Division of Treasury occupies 4,379 square feet of space in the State Capitol; and this common policy line item reflects the department's appropriation for the cost of maintaining the space as determined by DPA.

COFRS MODERNIZATION

A new line item in FY 2012-13, this common policy line item provides funding for payments to OIT for the State's new financial reporting system, Colorado Operations Resource Engine (CORE). It is calculated by OIT based on the annual payments for the new system and allocated to departments based on actual historical system usage data.

INFORMATION TECHNOLOGY SECURITY

A new line item in FY 2013-14, this common policy line item provides funding to OIT to support the State's cyber security program.

CHARTER SCHOOL FACILITIES FINANCING SERVICES

H.B. 02-1349 created the "Charter School Capital Facilities Financing Act," C.R.S. 22-30.5-401 et seq. Section 406 of the Act provides for the direct payment of charter school bonds by the state treasurer for the purpose of enhancing the charter school's ability to obtain more favorable financing terms; and subsection (c) of the section provides the state treasurer with the authority to withhold administrative costs from the payments made by the Department of Education to the chartering district or the state charter school institute. This subsection also continuously appropriates the funds withheld to the state treasurer; and, therefore, this line item reflects that appropriation. The appropriation has been \$5,000 since inception in FY 2004-05; and Treasury is requesting the continuation of that appropriation for FY 2014-15.

DISCRETIONARY FUND

This line item reflects the treasurer's annual appropriation as an elected state official pursuant to C.R.S. 24-9-105.

(2) UNCLAIMED PROPERTY PROGRAM

PERSONAL SERVICES

Pursuant to the "State Personnel System Act," C.R.S. 24-50-101 et seq., this line item reflects the division's appropriation for the following:

- Salaries and wages paid to employees, whether full-time, part-time, temporary, or contract (including leaves);
- The employer's contribution to the public employees' retirement association (C.R.S. 24-51-401); and
- As mandated by federal law, the employer's share of Medicare tax paid on behalf of employees hired after March 31, 1986.

For FY 2013-14, the UP Division of Treasury is appropriated 15.5 FTE, the same as in the previous two years. For FY 2014-15, Treasury requests the continuation of the existing positions.

OPERATING EXPENSES

This line item reflects the department's appropriation for certain expenses relating to the daily operations of the Unclaimed Property Division. These expenses include, but are not limited to, telephones, postage, printing, dues and subscriptions, and travel. The FY 2012-13 appropriation was \$10,000 more the FY 2011-12 appropriation due to an increase granted for changes in the pricing of the Division's database software support. For both FY 2010-11 and FY 2009-10, the division was granted increases to this line item of \$977 and \$281, respectively, related to mail services. For FY 2008-09, the division was granted an increase to this line item of \$4,194 related to the addition of an audit intern to the staff (Decision Item #4 of the FY 2008-09 Budget Request). The FY 2014-15 request includes a \$30,300 Decision Item related to a LexisNexis online research service.

PROMOTION AND CORRESPONDENCE

Pursuant to C.R.S. 38-13-111 (7), the state treasurer, as administrator of the UP program, can expend up to two percent of the previous year's paid claims for publication and correspondence to promote the program.

This line item reflects the division's appropriation for the costs associated with notifying owners of lost or forgotten assets held in trust by the State, which includes the publishing of an annual list of unclaimed property owners. For FY 2011-12 through FY 2013-14, the appropriation was held constant at \$200,000; and Treasury is requesting the continuation of that appropriation for FY 2014-15.

LEASED SPACE

This line reflects the division's appropriation for rental payments on office space (3,466 square feet) in Logan Tower at 1580 Logan St., Denver. The current lease agreement is a five year lease expiring on June 30, 2016. The FY 2012-13 appropriation was \$55,456; the FY 2013-14 appropriation was \$57,189; and the FY 2014-15 request is \$57,189.

CONTRACT AUDITOR SERVICES

To extend the reach of the division's audit efforts and recover additional property for Colorado citizens, the division is currently contracting with four, third-party auditing firms. Therefore, this line reflects the appropriation for the fees charged by these contracted audit firms. The fees are charged on a contingency basis ranging from 10.25% to 12.00% of the value of the property identified for Colorado citizens. H.B. 09-1301, codified at C.R.S. 38-13-116.5 (2) (b), established a continuous appropriation from the Unclaimed Property Trust Fund to pay these fees.

(3) SPECIAL PURPOSE

SENIOR CITIZEN AND DISABLED VETERAN PROPERTY TAX EXEMPTION

This informational line item reflects the department's appropriation to reimburse local governments for the property taxes lost due to the property tax exemption as discussed in C.R.S. 39-3-201 et seq. The original exemption of 50% of the first \$200,000 of value, authorized in Section 3.5 of Article X of the State Constitution, was approved in 2000. However, for FY 2003-04 through FY 2005-06, no appropriation was made by the General Assembly. The appropriation was re-established in FY 2006-07. Although originally available only to qualifying senior citizens, H.B. 07-1251 implemented a constitutional change to extend the exemption to veterans who were 100% permanently disabled during service. S.B. 09-276 reduced the FY 2009-10 appropriation of \$91.4 million to just \$1 million, suspending the exemption to qualifying senior citizens while leaving the exemption for qualified disabled veterans intact. S.B. 10-190 continued the suspension of the exemption to qualifying senior citizens through FY 2011-12. The exemption was reinstated beginning in FY 2012-13; and the appropriation for FY 2013-14 is \$105.2 million. The FY 2014-15 request of \$117.2 million is based on the September 2013 economic and revenue forecast prepared by Legislative Council.

COVER COLORADO

This informational line item reflected the department's appropriation to subsidize the operations of the CoverColorado program. Since January 1, 2009, 25% of CoverColorado's total program's expenses were funded from the Unclaimed Property Trust Fund (UPTF). However, during the 2013 legislative session, H.B. 13-1115 ceased transfers from the UPTF to CoverColorado effective May 1, 2013 and repealed CoverColorado as of March 31, 2015. Therefore, the appropriation for FY 2013-14, and thereafter, was eliminated.

MEDICAID ADULT DENTAL FUND (S.B. 13-242)

As noted above, H.B. 13-1115 ceased UPTF transfers to CoverColorado. Therefore, S.B. 13-242, under C.R.S. 38-13-116.5, authorizes the UPTF to pay the costs of dental services for adults which was an optional Medicaid service added by the bill.

FIRE AND POLICE PENSION ASSOCIATION (FPPA) – OLD HIRE PLANS

This informational line item reflected the department's continuous appropriation to make the annual transfer mandated by C.R.S. 31-30.5-307. S.B. 09-227 suspended payments for FY 2008-09 through FY 2010-11. Beginning in FY 2011-12, current law required the State to contribute \$25.3 million per year through FY 2014-15 or until the old hire plan become fully funded, whichever is first. However, S.B. 11-221 reduced the FY 2011-12 and the FY 2012-13 payments by \$20.0 million and \$15.3 million, respectively, and pushed the final payment date to FY 2018-19. Then, during the 2013 legislative session, S.B. 13-234 instructed that a final balloon payment of \$132.4 million be made from the General Fund to the FPPA on May 31, 2013. Therefore, the appropriation for FY 2013-14, and thereafter, was eliminated.

STATE EDUCATION FUND (S.B. 13-234)

Per S.B. 13-234, all outstanding state liabilities to old hire pension plans affiliated with the FPPA (noted above) were satisfied with a lump sum payment on May 31, 2013. Because the lump sum payment effectively reduces the transfer of surplus General Fund revenue at the end of FY 2012-13 after final reconciliation, the bill increases General Fund transfers to the State Education Fund for FY 2013-14 through FY 2018-19 under C.R.S. 31-30.5-307.

HIGHWAY USERS TAX FUND - COUNTY PAYMENTS

This informational line item reflects the department's appropriation to make monthly distributions of highway users tax funds to counties per C.R.S 43-4-201 et seq. The appropriation is an estimate based on Legislative Council staff's most current economic and revenue forecast. For each fiscal year's final appropriation, the most current forecast is the March edition; however, the FY 2014-15 request is based on the September 2013 edition.

HIGHWAY USERS TAX FUND -MUNICIPALITY PAYMENTS

This informational line item reflects the department's appropriation to make monthly distributions of highway users tax funds to cities per C.R.S 43-4-201 et seq. The appropriation is an estimate based on Legislative Council staff's most current revenue forecast. For each fiscal year's final appropriation, the most current forecast is the March edition; however, the FY 2014-15 request is based on the September 2013 edition.
