## INTRODUCTORY.

In compliance with section 86-A of the Revenue Act of 1902, I beg to submit the annual report of this department for the year 1905, showing the proceedings of the Board in assessing the property in this State owned and controlled by railroad, telephone, telegraph, express, sleeping and other car line companies, used for such purposes, within the State of Colorado, during the year ending December 31, 1904, and in equalizing the assessments in the several counties of the State.

In my last report the attention of the Fifteenth General Assembly was called to the importance of this department, and to the fact that a very large percentage of the revenue realized from taxation (amounting to about one-sixth of the total) comes from the class of property over which the State Board of Equalization exercises control.

The need of a suitable appropriation was emphasized in the report, in order that the full requirements of the statute might be met in securing information "relative to the assessment of corporate property, both within and without the limits of the State," and in compiling statistics for the use of the Board, that it might more intelligently perform its duties. The legislature, however, did not see fit to make any appropriation for such purpose, and for this reason the department has been considerably embarrassed in performing the duties imposed upon it.

The duties of the members of this Board in assessing the property coming under its supervision, and the difficulties to be overcome, are not fully appreciated or understood by the general public.

The levy and collection of taxes for the support of the local and State governments, upon the basis of the dollar value of all property, is one of the most essential functions of a commonwealth, and necessarily becomes a matter of deepest concern to the assessing power. The public can have no knowledge of the amount of work involved in the examination of the voluminous reports and data required by this law from the different companies using and controlling property in this State, and of the greater amount of work involved in gathering general information in order that the Board may intelligently make such assessments, except as these facts may be reflected by final results; and while these assessments, when reached, have almost invariably been the unanimous judgment of the Board, it must not be presumed that the members were of one mind in the beginning,

or followed the same line of reasoning in reaching a conclusion, but the discussions arising over such differences of opinion tended to bring out so many additional facts, and so to explain existing conditions, that invariably, when the final determination was reached, each felt satisfied with its correctness.

Since the Constitution of Colorado limits the levy for State purposes to four mills on the dollar, the local assessment of property is of most important interest to this Board, as upon the taxes thus raised must depend the support of all of our State institutions, as well as meeting the expenses incident to the State, legislative, judicial and executive departments. For this reason the Board has inquired into local assessments, examined assessors and others under oath; examined the sale of real property, and compared the consideration named in the conveyance with the actual assessment upon such properties; and in all other practicable ways has sought information which would enable it to equalize with fairness the assessments of the several counties of the State. The work of the Board in this connection, together with the results obtained from the increased attendance of the county assessors at the annual meeting held in Denver for the purpose of comparing the respective assessments made, has caused more uniform assessments to prevail throughout the State, as witnessed by the rapidly decreasing number of complaints in this regard filed with the Board.

On account of the Revenue Act of 1902 being a revision of all former laws, with many new provisions added, necessarily many legal questions have arisen in regard thereto, which have been referred to the Attorney-General, and I desire to state that all legal opinions concerning such matters have been cheerfully and promptly rendered the Board by that department.

During the past three years I have made special effort to obtain the latest laws of the different states and territories, and the reports of the assessing bodies therein, with reference to the assessment and taxation of the class of property over which this department has jurisdiction, with the result that such laws and reports are now available at this office for the use of the members of the Board, and of all others desirous of obtaining such information.

R. R. LEESE.  
Secretary.

#### Afternoon Session, 3 o'clock p. m.

The Board convened, with all members present.

Mr. Miller, Attorney-General, presented written opinion, in compliance with request of Board, as to its power to make changes in the assessments of the various counties for the current year. The same was read at length.

Upon motion, the following order of the Board was duly made:

It being the opinion of the State Board of Equalization, upon satisfactory information submitted, that the assessors of the counties of Logan and Morgan have assessed certain kinds of property in said counties palpably and manifestly below its true value, and that such delinquency and under-valuation operate as a fraud upon the State revenues, and that such revenues will be seriously impaired thereby; that in the county of Logan the assessor has returned agricultural land at an average value of \$4.97 per acre, whereas the same should be valued at not less than \$8.00 per acre; grazing land assessed at 77 cents per acre, whereas the same should be valued at an average of not less than \$1.25 per acre, and that horses valued at \$13.99 per head should have an average value of not less than \$18.00 per head; that the aforesaid valuations are grossly and unjustly below the valuations of the same kind of property in other counties of the State, it is ordered that all assessed property in the county of Logan be raised six (6) per cent. for the year 1905; and that in the county of Morgan, the assessor thereof has assessed agricultural land at \$7.96 per acre, whereas the same should be valued at not less than \$10.00 per acre; that cattle are assessed at an average of \$8.05 per head, whereas the same should be valued at an average of not less than \$10.00 per head, and that said valuations are grossly and unjustly below the valuations of the same kind of property in other counties in the State; it is therefore

ordered that the aggregate value of all assessed property in the county of Morgan for the year 1905 be raised four (4) per cent.

On motion, it was ordered that the assessors of Logan and Morgan counties be notified at once of the action of the Board.

The minutes of the meetings, commencing September 11th, were read and approved.

On motion, the Board adjourned.

Monday, November 20, 1905, 2 p. m.

The State Board of Equalization met in special session, pursuant to the call of the Governor. Present: Jesse F. McDonald, Governor; James Cowie, Secretary of State; Alfred E. Bent, Auditor, and N. C. Miller, Attorney General.

Governor McDonald stated that the purpose of the meeting was to consider what action the Board desired to take relative to the order issued by the Board, October 16, 1905, directed to the assessor of Morgan county, the latter having filed with the Board a notice of appeal and bond, in the sum of \$100.00, stating that he had taken an appeal to the District Court of the Eighth Judicial District, sitting in and for the county of Morgan.

Mr. Miller then made motion that the Secretary of the Board be instructed not to approve the bond, for the reason that no appeal is allowed in this matter, which motion was seconded by Mr. Cowie, and unanimously adopted.

Mr. Cowie then made motion that the Attorney-General be instructed to take such action in the matter of this appeal as he deemed advisable. The motion was seconded by Mr. Bent, and unanimously adopted by the Board.

Upon motion, an adjournment was taken, subject to call of Governor.

The following communication was received from the Attorney-General:

"December 21, 1905.

"The appeal of George F. Brownlee vs. The State Board of Equalization, taken to the District Court of Morgan County, was dismissed on the 15th day of December, by order of the district judge.

"N. C. MILLER,  
"Attorney-General."
