ANNUAL REPORT
OF THE
State Board of Equalization
FOR THE YEAR 1911

In compliance with section 88 of an act entitled "An act relating to public revenue, and repealing all other acts or parts of acts in conflict therewith," approved March 22, 1902, I have the honor to submit herewith a report of the proceedings of the State Board of Equalization for the year 1911.

The Eighteenth Session of the General Assembly of the State of Colorado passed the Tax Commission bill, presented to it by the State Board of Equalization, and this bill became a law June 15, 1911.

The purpose of the Tax Commission law was to divest the State Board of Equalization of all statutory duties and powers theretofore conferred upon it by the Legislature, it having been found that the state officials, with their many duties relating to their own offices, were not able to attend to the duties of such work as devolved upon the Board of Equalization. Under the provisions of the Tax Commission bill, the Tax Commission should have taken effect on and after June 15, 1911. At the same time that the Tax Commission bill was presented to the Legislature, a codification of the present revenue laws of the state was also presented. In this codification it was provided that all levies made by city, county or state should decrease in proportion as the valuation of the state and counties increase, allowing an increase of 6 per cent. This codification of the revenue law failed of passage in the Legislature, and, by reason of this, the Governor and Treasurer, who were the appointing powers named in the Tax Commission bill, did not make the appointment of the Tax Commission until May of the year 1912, it being deemed inadvisable to place the Tax Commission under the burden of increasing valuations of the state to full cash value, when no limit had been applied to the levies to protect the taxpayers of the state.

The serious difficulties which might throw the state's finances into confusion by failure of the appointment of the Tax Commission were not realized until the beginning of the present year, when some of the railroad companies, heretofore assessed by the State Board of Equalization, contending that that Board had no jurisdiction of original assessment of such companies, the same having been transferred to the Tax Commission, failed and refused to file statements recognizing the jurisdiction of the Board, and proceeded to make arrangements to have their properties assessed by the local assessors. This forced the determination to submit certain inquiries to the Supreme Court as to the constitutionality of the Tax Commission law, and the powers and duties of the Tax Commission. The Supreme Court answered the inquiries propounded to it by the Governor and the Attorney General of this state, thereby determining that the State Board of Equalization had no further jurisdiction over the valuation and assessment of the properties heretofore assessed by them; and immediately thereafter the Governor and Treasurer appointed the Tax Commission, as provided in Chapter 216 of the Session Laws of 1911. Since that time the State Board of Equalization has been relieved of all of the duties theretofore pertaining to that office and delegated to it by statute, and has been left free to perform such constitutional duties as are imposed upon it by the constitution of this state.

The Legislature also passed a bill, submitted to it by the Governor, asking for a constitutional amendment abolishing the State Board of Equalization and substituting therefor a State Tax Commission. This constitutional amendment will be voted upon by the people of this state on November 5 next. Should this amendment carry, the State Board of Equalization will pass entirely out of existence. In any event, this, in all probability, will be the last report submitted by the State Board of Equalization, as all future reports will probably be included in the reports submitted by the Tax Commission.

During the year 1911 the State Board of Equalization held meetings commencing with the third day of April, being the first Monday of that month, as provided by statute, and held meetings from day to day, up to and including June 15, 1911, when the work of valuation and assessment of the properties of railroad, telephone, telegraph, sleeping-car, car-line and express companies was completed. During that period the Board heard the representatives of the various companies in regard to the properties they represented, among them being the following:

- Mr. E. B. Field, Jr., vice-president, Colorado Telephone Company.
- Mr. H. W. Conard, tax agent, Colorado Midland Railway Company.
