# About CU

# CU History

The University of Colorado dates back to the early days of Colorado. At its first session in 1861, the Colorado territorial legislature passed an act providing for the creation of a university in Boulder. To establish the university, the legislature appropriated \$15,000, which was matched by Boulder residents. The Civil War delayed the formal founding of the university until 1876, the year Colorado became a state. The doors to Old Main opened on September 5, 1877. Old Main still stands and is used by many members of the university community.

CU has grown dramatically since its early days. It is now a system with four campuses: Boulder, Colorado Springs, Denver and the Anschutz Medical Campus. In 1974 the Board of Regents officially established the CU System, led by a president, with each campus led by a chancellor. The Colorado Springs campus began in the 1920s as an extension center for the Boulder campus. By the 1960s the extension center had grown to more than 1,200 students. A gift of the land and buildings of the Cragmor Sanatorium provided a permanent site for the campus, and in 1965, the extension center became the University of Colorado Colorado Springs. The Denver Campus also began as an extension site, first offering courses from Boulder in 1912. It became an official extension center in 1957 with authority to grant degrees, and then became an autonomous CU campus in 1974. It shares the Auraria campus with the Community College of Denver and Metropolitan State College of Denver. The health sciences center began on the Boulder campus in 1883, but moved to Denver in 1925. It also became an autonomous CU campus and eventually outgrew its Denver space. In 1995 the federal government decommissioned the U.S. Army Medical Garrison at Fitzsimons in Aurora and conveyed the property to the university. The health sciences center subsequently moved to what is now known as the Anschutz Medical Campus. In 2004, the Denver and health sciences campuses merged to form one institution, although they maintain their separate locations and unique roles in the CU system.

Today, more than 57,000 students and nearly 8,000 instructional and research faculty members make CU the largest institution of higher education in the state. Over the years, CU has developed programs that have responded to the state's need for comprehensive baccalaureate and graduate education. It has also developed programs that are especially sensitive to the needs of the communities it serves. Boulder has strengths in science and engineering and is the only public university in the state to offer a law degree. Colorado Springs distinguishes itself in space and electronics research, which creates a mutually supportive relationship with some of the area's main industries. The Denver Campus offers programs in architecture and planning, business, and public administration that serve the needs of its urban population, and the Anschutz Medical Campus is recognized nationally for its research and teaching and for its outstanding outreach programs, which serve both urban and rural communities while contributing to the education of health sciences students.

# CU Governance

The State of Colorado, through the governor's office and the legislature, provides oversight of the University of Colorado as a state institution. The 11-member **Colorado Commission on Higher Education** (CCHE) acts as a central policy and coordinating board for Colorado public higher education. Members are appointed by the governor and confirmed by the senate. One commissioner is appointed from each congressional district; four are appointed at large. The CCHE works in consultation with Colorado's eight governing boards of higher education to develop and implement legislative directives and statewide higher education policy.

The University of Colorado is governed by a nine member **Board of Regents**, as established by the Colorado Constitution. Regents are constitutionally charged with the general supervision of the university and fiduciary oversight. Board members serve staggered six-year terms. One member is elected from each of the state's seven congressional districts; two are elected at large.

- Michael Carrigan, Denver (District 1); term expires 2017
- Joseph Neguse, Boulder (District 2); term expires 2015
- Glen Gallegos, Grand Junction (District 3); term expires 2019
- Sue Sharkey, Windsor (District 4); term expires 2017
- Kyle Hybl, Colorado Springs (District 5); term expires 2019
- James Geddes, Sedalia (District 6); term expires 2015
- Irene Griego, Lakewood (District 7); term expires 2019
- Steve Bosely, Louisville (at large); term expires 2017
- Stephen Ludwig, Aurora (at large); term expires 2019

It is a guiding principle of the **shared governance** recognized by the Board of Regents that the faculty and the administration collaborate in major decisions affecting the academic welfare of the university. The faculty takes the lead in decisions concerning selection of new faculty. The administration takes the lead in establishing university priorities and managing matters of accountability, internal operations, and external relations of the university. In every case, the faculty and the administration participate in the governance and operation of the university as provided by and in accordance with the laws and policies of the Board of Regents and the laws and regulations of the State of Colorado.

## Administration

President Bruce D. Benson is the principal executive officer of the **CU System** and carries out the policies and programs established by the Board of Regents. The President's executive staff at the CU System are:

- Kathleen Bollard, Vice President and Academic Affairs Officer
- Leonard Dinegar, Senior Vice President and Chief of Staff
- Tanya Mares Kelly-Bowry, Vice President, Government Relations
- Ken McConnellogue, Vice President for Communication
- Patrick T. O'Rourke, Vice President, University Counsel and Secretary of the Board of Regents
- E. Jill Pollock, Vice President, Employee and Information Services
- Todd Saliman, Vice President and Chief Financial Officer

Each **CU campus** is governed by a chancellor. The chancellor is the chief academic and administrative officer responsible to the president for the conduct of the affairs of their respective campus in accordance with the policies of the Board of Regents. An executive vice chancellor oversees the operation of the Anschutz Medical Campus.

- Philip P. DiStefano, Chancellor, University of Colorado Boulder
- Pamela Shockley-Zalabak, University of Colorado Colorado Springs
- Don Elliman, University of Colorado Denver|Anschutz Medical Campus
- Lilly Marks, Executive Vice Chancellor, Anschutz Medical Campus

The **Faculty Council** is the representative governing body of the Faculty Senate. The chair or other designated representative of the Faculty Council is the spokesperson for the faculty when addressing the Board of Regents on matters of importance to shared governance.

The University of Colorado **Staff Council** serves as the university-wide representative body for communicating to the administration and Board of Regents matters of concern to exempt professionals and classified staff employees on all campuses.

The **Intercampus Student Forum** serves as the university-wide representative body for communicating to the administration and Board of Regents matters of concern to the students on all campuses.

# Role and Mission of CU Campuses

Each CU campus is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools and plays a distinct and complementary role within the CU System. The roles and missions of the state's public institutions are recorded in the Colorado Revised Statutes.

## University of Colorado Boulder

The Boulder campus of the University of Colorado shall be a comprehensive graduate research university with selective admission standards. The Boulder campus of the University of Colorado shall offer a comprehensive array of undergraduate, master's, and doctoral degree programs. . . (CRS: 23-20-101(1)(a))

## University of Colorado Colorado Springs

The Colorado Springs campus of the University of Colorado shall be a comprehensive baccalaureate and specialized graduate research university with selective admission standards. The Colorado Springs campus shall offer liberal arts and sciences, business, engineering, health sciences, and teacher preparation undergraduate degree programs, and a selected number of master's and doctoral degree programs. . . (CRS: 23-20-101(1)(c))

## University of Colorado Denver|Anschutz Medical Campus

The **Denver** campus of the University of Colorado shall be an urban comprehensive undergraduate and graduate research university with selective admission standards. The Denver campus shall offer baccalaureate, master's, and a limited number of doctoral degree programs, emphasizing those that serve the needs of the Denver metropolitan area. . . (CRS: 23-20-101(1)(b))

The **Health Sciences Center** campus of the University of Colorado shall offer specialized baccalaureate, first-professional, master's, and doctoral degree programs in health-related disciplines and professions. It shall be affiliated with the University of Colorado Hospital and other health care facilities that offer settings for education, clinical practice, and basic and applied research. . . (CRS: 23-20-101(1)(d))

Student FTE (full-time equivalent students) is calculated by dividing total student credit hours by 30 (per the policy of the Colorado Commission on Higher Education, which assumes a full-time student takes 30 credit hours per year).

Students at the Anschutz Medical Campus typically take more than 30 credit hours in a year. Therefore, the CCHE formula overestimates FTE for Anschutz.

Includes all employees reported for the IPEDS Human Resources Survey for Fall 2012; excludes student and other temporary employees and those on leave without pay.

To be consistent with IPEDS reporting conventions, library faculty (including tenured and tenure track) are reported as staff. Similarly, most professional research assistants and senior professional research assistants are reported as staff, although they are classified as research faculty by the University of Colorado.

## Top Faculty Honors, 2012-13

**David Wineland**, a lecturer in CU-Boulder's physics department and a researcher at the National Institute of Standards and Technology, won the **2012 Nobel Prize** in physics for his work using laser cooling to trap individual ions, allowing researchers to manipulate and measure individual quantum systems. He shared the prize with France's Serge Haroche.

Distinguished Professor **Kristi Anseth** of CU-Boulder's chemical and biological engineering department and Professor **Henry Kapteyn** of the physics department were elected into the **National Academy of Sciences**. This is a top honor recognizing scientists and engineers for their distinguished and continuing achievements in original research.

**Bryan Haugen**, MD, and **Marvin Schwarz**, MD, professors of medicine at the Anschutz Medical Campus, were elected to the **Association of American Physicians**. The nonprofit, professional organization was founded in 1885 for "the advancement of scientific and practical medicine."

**Milos Popovic**, assistant professor of electrical, computer and energy engineering at CU-Boulder, was awarded the prestigious **Packard Fellowship in Science and Engineering**. Popovic was one of 16 scientific researchers from universities across the country to receive the fellowship in 2012 .

**Veronica Vaida**, a professor of chemistry and biochemistry and a fellow of the Cooperative Institute for Research in Environmental Sciences at CU- Boulder, was inducted into the **American Academy of Arts and Sciences**. She was elected to the academy in recognition of her exceptional achievements in scientific research.

# Faculty Excellence

CU encourages faculty to excel both in the classroom and in research and scholarship. Excellence in teaching ensures that students derive all they can from faculty, and research is vital to a comprehensive university because it helps faculty stay at the forefront of their fields. CU supports its faculty through professional development programs that aim to improve the quality of undergraduate and graduate teaching.

The University of Colorado extends the title "**distinguished professor**" to recognize the outstanding contributions of CU faculty members to their academic disciplines, as attested to by national or international recognition and/or their significant public service achievements. To receive this honor, candidates must demonstrate exemplary teaching and distinguished scholarship or creative work.

The **President's Teaching Scholars** program brings together faculty from all CU campuses who have been recognized for their excellence in teaching, as well as research and creative work. Each scholar receives a stipend for two years, can access campus funds reserved for promoting teaching excellence, and holds the title of President's Teaching Scholar for the life of their association with the University of Colorado. Teaching scholars contribute to their campuses by participating in various university-sponsored activities designed to foster and recognize teaching excellence. They design, develop, and execute their own projects to enhance students' learning experiences. The signature project of the program's designers is the Colorado Learning Assessment Studies, or CLAS, a research project focusing on how students best learn and how faculty can best engage students in their learning.
