- This report includes all the proposals submitted during fiscal year 2015. Typically, proposals are funded or declined within six to twelve months after submission. There may be some overlap with the annual reports for awards that were received during fiscal year 2015, but there is no one-to-one relationship between proposals and awards in these reports.
- The number of proposals is calculated from the total number of submissions during the fiscal year.
- The value of proposals is calculated from the total estimated cost for all budget periods proposed. These amounts include direct and indirect costs and often are higher than the actual awarded amount.

- A sponsored project award is transferred from an external sponsor to UCB under a grant, cooperative agreement, contract, purchase order or any other legally binding agreement. These awards differ from gifts, which are managed by the CU Foundation, because they include terms that restrict how the funds will be managed and expended.
- The total number of awards is calculated from the total number of funding increments for all projects (account numbers) during the fiscal year, e.g. some awards may be distributed to two, three or more projects for management purposes and have multiple funding increments during the fiscal year.
- The value of awards is calculated from the amount of funds obligated by the sponsor during the fiscal year for one budget period, not the total estimated cost for multiple budget periods, i.e. some awards receive incremental funding that may spread out the total obligations over several years. Award totals include direct and indirect costs.
- The report includes all the award actions taken during fiscal year 2015 (7/1/2014 6/30/2015). Typically, an award is received 6-12 months after submission of a proposal. There may be some overlap with proposals submitted during FY15, but there is no one-to-one relationship between proposals and awards in these reports.

Notes

- Affiliated Funds are defined as support to faculty members managed by departments or units other than the faculty member's home departments or units. The "total activity" of the faculty member(s) in a particular department can be estimated by adding the department/unit award amount with the affiliated fund amount.

- If a single account number has been assigned each affiliated department gets full credit for the total dollar amount received.

- If multiple account numbers have been assigned each department gets credit for only the dollar amount associated with each individual account number.
