Report Highlights

Section I: Fiscal Year 2005 Sponsored Research Awards

- ◆ CU's sponsored research awards more than doubled between 1995 and 2005, increasing from \$310.6 million to \$630.3 million.
- ◆ Federal funding represented more than 73% of all research funding in 2005.
- ◆ From 2000 to 2005, sponsored research funding at each CU campus either increased or remained fairly constant:
 - Research funding at the Boulder campus increased from \$214.2 million to \$257.6 million (20%).
 - Research funding at the Colorado Springs campus increased from \$3.0 million to \$8.7 million (190%).
 - Research funding at the Downtown Denver campus was at similar levels in 2000 (\$18.7 million) and 2005 (\$18.6 million).
 - Research funding at the Health Sciences Center increased from \$224.0 million to \$345.4 million (54%).

Section II: Fiscal Year 2004 Research and Development Expenditures

- ◆ Over the last three years, National Science Foundation rankings have placed CU among the top 15 public institutions in total research expenditures and among the top 6 in federal research expenditures.
- ◆ CU has consistently been ranked among the top 10 public institutions based on research expenditures in the physical sciences and environmental sciences. CU also ranks among the top 10 public institutions in attracting federal funding in the psychology discipline.

Section III: Fiscal 2003 CU Systemwide R&D Expenditures as reported and ranked by the National Science Foundation (NSF)

- ◆ Based on NSF data from 1998 to 2003, CU experienced the sixth largest five-year increase in federal research expenditures (66%) among the top 20 public and private institutions.
- ◆ NSF rankings place CU 6th among public institutions in terms of 2003 federal research expenditures. Rankings for specific disciplines include:
 - 3rd - Physical Sciences
 - 3rd - Environmental Sciences
 - 5th - Psychology
 - 10th - Life Sciences
 - 11th - Social Sciences
 - 26th - Engineering
 - 26th - Math and Computer Sciences
