## Major in Family and Consumer Sciences

Family and Consumer Sciences is an exciting field with many career opportunities. The mission of this interdepartmental major prepares professionals dedicated to enhancing the well-being of individuals and families and the communities and environments in which they function.

Students graduate with an interdisciplinary perspective about the challenges encountered by consumers and families. Family and Consumer Sciences students attain skills to assist families and consumers with quality of life decisions and challenges related to interpersonal/human relationships, consumer and financial resource management, personal development, nutrition and wellness, and balancing family and work. This program emphasizes management and problem solving skills needed to be a responsible and productive individual, family member, and worker. Students take course work primarily in Family and Consumer Sciences and in the Departments of Human Development and Family Studies, Food Science and Human Nutrition, and Design and Merchandising.

Students have the option of the Family and Consumer Sciences concentration or the Family and Consumer Sciences Education concentration. Graduates qualify to sit for the examination to be certified in Family and Consumer Sciences (CFCS) with the American Association of Family and Consumer Sciences.

## Learning Goals

Students will:

- demonstrate an understanding and comprehension of the family and consumer sciences body of knowledge
- demonstrate, at a professional level, oral and written communication and problem solving proficiency within Family and Consumer Sciences
- demonstrate synthesis and integration of the specialized Family and Consumer Sciences body of knowledge through an engaged learning experience
- choose, examine, and assess the impact of civic engagement relevant to Family and Consumer Sciences

## Potential Occupations

Graduates' career opportunities include, but are not limited to, cooperative extension/agent, consumer program development, consultant, product representative, consumer information specialist, customer assurance specialist, writer/developer of informational or educational materials, governmental, community, and non-profit agency worker, and Peace Corps volunteer. Teaching opportunities at the middle school, junior high, high school, or post-secondary level are available upon completion of the education concentration.

The major provides a strong foundation for graduate work. Graduate degree opportunities are available in the School of Education or specific departments related to family and consumer sciences (Design and Merchandising, Food Science and Human Nutrition, Human Development and Family Studies, Social Work, Occupational Therapy, etc.).

## Concentrations

- Family and Consumer Sciences Concentration
- Family and Consumer Sciences Education Concentration

## Major in Family and Consumer Sciences, Family and Consumer Sciences Concentration

The Family and Consumer Sciences concentration provides students with a focus on consumer and family well-being, growth and development of family members, and the relationship of households to their environment. The concentration is interdisciplinary, bringing together courses in human development, family studies, nutrition and foods, consumer sciences, apparel and textiles, and design and merchandising.

It is highly recommended that students participate in internships, volunteer activities, or cooperative extension opportunities to enhance their experiences and development. Graduates who seek advanced degrees attain higher level professional positions.

The concentration includes All-University Core Curriculum courses, subject matter courses, and elective courses to enhance personal and professional development.

FSHN 503 Issues in Dietetics Practice Credits: 3 (0-0-3)
Course Description: Environment in which foodservice, hospitality, and healthcare organizations operate; impact of change on hospitality and healthcare organizations.

## Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
FSHN 504 Micronutrients Credits: 3 (0-0-3)
Course Description: Coordination of structure and function related to metabolic needs as a basis for evaluating micronutrient needs in normal or altered metabolic states.
Prerequisite: None.
Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
FSHN 505 Nutrition and Physical Activity in Aging Credits: 3 (0-0-3)
Course Description: Physiological changes during aging and impacts on
health and disease; focus on successful aging with emphasis on physical activity and nutrition.
Prerequisite: None.
Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
FSHN 506 Nutrition and Human Performance Credits: 3 (0-0-3)
Course Description: Relationship of specific nutrients and optimal nutrition to physical efficiency and performance.
Prerequisite: None.
Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FSHN 507 Nutrition Education in the Community Credits: 3 (0-0-3) Course Description: Principles and practices of teaching individuals and groups to translate nutrition knowledge into action. Emphasis on research and evaluation.
Prerequisite: None.
Registration Information: Admission to GP-IDEA program in dietetics.
Offered as an online course only.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
FSHN 508 International Nutrition and World Hunger Credits: 3 (0-0-3)
Course Description: Magnitude, causes, and nature of hunger and undernurturing; programs and policies to alleviate hunger.
Prerequisite: None.
Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
FSHN 509 Nutrition Counseling and Education Methods Credits: 3 (0-0-3)
Course Description: Application of learning theories and nutrition counseling with individuals and groups in the community and clinical settings.
Prerequisite: None.
Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
FSHN 510 Pediatric Clinical Nutrition Credits: 3(0-0-3)
Course Description: Physiological, biochemical and nutritional aspects of disease processes relevant to infants and children up to 18 years of age. Prerequisite: None.
Registration Information: Admission to GP-IDEA program in dietetics.
Offered as an online course only.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
FSHN 511 Maternal and Child Nutrition Credits: 3 (0-0-3)
Course Description: Behavioral, physiological and public health issues impacting dietary and nutritional factors that support growth and development.
Prerequisite: None.
Registration Information: Admission to GP-IDEA program in dietetics; written permission of instructor. Offered as an online course only.
Terms Offered: Fall, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
FSHN 512 Nutritional Aspects of Oncology Credits: 3(0-0-3)
Course Description: Relationships between nutrition and cancer including the role of nutrition in specific cancers, cancer prevention and patient management.
Prerequisite: None.
Registration Information: Admission to GP-IDEA program in dietetics.
Offered as an online course only.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FSHN 520 Advanced Medical Nutrition Therapy Credits: 3 (3-0-0)
Course Description: Role of nutrition in etiology and treatment of selected disorders.
Prerequisite: FSHN 550 or FSHN 551.
Registration Information: FSHN 550 or FSHN 551 or admission to GP-
IDEA program in Dietetics. Sections may be offered: Online.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.
FSHN 525 Nutrition Education Theories and Practice Credits: 2 (2-0-0)
Course Description: Examination of current theories, skills, and models used in nutrition education programs as preparation for research and practice.
Prerequisite: FSHN 350.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
FSHN 540 Nutrigenomics and Advanced Lipid Metabolism Credits: 3 (0-0-3)
Course Description: How nutrients regulate gene expressions
(nutrigenetics) and how genotype influences an individual's nutrient requirements (nutrigenomics).
Prerequisite: None.
Registration Information: Admission to GP-IDEA program in Dietetics.
Offered as an online course only.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
FSHN 550 Advanced Nutritional Science I Credits: 3 (3-0-0)
Course Description: Protein, vitamin, mineral metabolism; human studies, animal models.
Prerequisite: (BC 351 or BC 403) and (FSHN 350).
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
FSHN 551 Advanced Nutritional Science II Credits: 3(3-0-0)
Course Description: Carbohydrate, lipid, energy metabolism; human
studies, animal models.
Prerequisite: (BC 351 or BC 403) and (FSHN 350).
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
FSHN 575 Nutrition Education for a Healthy Heart Credit: 1 (0-0-1)
Course Description: Nutrition-related issues of atherosclerotic cardiovascular disease risk reduction and background in the art/science of facilitating behavior change.
Prerequisite: None.
Registration Information: Offered as an online course only.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.

## Food Technology (FTEC)

FTEC 110 Food-From Farm to Table Credits: 3 (3-0-0)
Course Description: Commercial food processing, related to preservation and enhancing of food quality, safety, and value.
Prerequisite: None.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option. Special Course Fee: No.
FTEC 210 Science of Food Fermentation Credits: 3(2-2-0)
Course Description: Science, history, culture, gastronomy, safety, health, and nutrition aspects of fermented foods and beverages.
Prerequisite: (CHEM 107 or CHEM 111) and (LIFE 205 or BZ 111 and BZ 110).
Registration Information: Must register for lecture and laboratory. Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.
FTEC 350 Fermentation Microbiology Credits: 2 (2-0-0)
Course Description: Integration of fermentation science, microbiology, and chemistry.
Prerequisite: CHEM 245 or FTEC 210 or LIFE 206 or MIP 302.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
FTEC 360 Brewing Processes Credits: 3 (1-4-0)
Course Description: Influence of raw material selection, malting, mashing, boiling, and fermentation on quality of beverages.
Prerequisite: CHEM 245 and FTEC 210.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.
FTEC 400 Food Safety Credits: 3 (3-0-0)
Course Description: Safety of human food emphasizing safe production, processing, marketing, preparation, consumption, and regulations.
Prerequisite: CHEM 107 or CHEM 111.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option. Special Course Fee: No.
FTEC 422 Brewing Analysis and Quality Control Credits: 2 (1-2-0)
Course Description: Assessment, quantification, and control of various aspects of commercial beer production.
Prerequisite: FTEC 460.
Registration Information: Must register for lecture and laboratory.
Required field trips.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

FTEC 430 Sensory Evaluation of Fermented Products Credits: 2(1-2-0)
Course Description: Application of sensory evaluation techniques to the
study of fermented foods.
Prerequisite: FSHN 301 or FTEC 210.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: Yes.
FTEC 440 Refining and Packaging Technology Credits: 2 (2-0-0)
Course Description: Science, technology, and management of refining and packaging.
Prerequisite: FTEC 360.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
FTEC 447 Food Chemistry Credits: 2 (2-0-0)
Course Description: Chemistry of food constituents as related to food quality and stability.
Prerequisite: CHEM 245 or CHEM 345.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
FTEC 460 Brewing Science and Technology Credits: 3(2-2-0)
Course Description: Scientific and technical aspects of brewing, fermenting, finishing, and evaluating microbrewed style of lagers and ales.
Prerequisite: (CHEM 245) and (MATH 118).
Registration Information: 21 years of age. Must have completed 60 credits. Must register for lecture and laboratory.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.
FTEC 465 Food Production Management Credits: 2 (2-0-0)

Prerequisite: FSHN 350 or FTEC 360.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.
FTEC 570 Food Product Development Credits: 2 (2-0-0)
Course Description: Food product concepts, feasibility, and evaluation. Prerequisite: FTEC 447.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.
FTEC 572 Food Biotechnology Credits: 2 (2-0-0)
Course Description: Interrelationships among microorganisms, food processing methods, advances in biotechnology and food quality, spoilage, shelf-life and safety.
Prerequisite: MIP 334.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
FTEC 574 Current Issues in Food Safety Credits: 2 (2-0-0)
Course Description: Current food safety issues from field to table; microbiological, consumer, processing, and agricultural issues.
Prerequisite: None.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
FTEC 576 Cereal Science Credits: 2 (2-0-0)
Course Description: Chemistry and functionality of cereal grain components and their importance in human nutrition.
Prerequisite: FTEC 447.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

FTEC 578 Bioactives and Probiotics for Health Credits: 3(2-0-1) Course Description: Mechanisms through which functional foods and probiotics modulate intracellular signal transduction and protein expression in chronic disease states.
Prerequisite: (BC 351) and (LIFE 205 or MIP 300).
Registration Information: Must register for lecture and recitation.
Sections may be offered: Online.
Terms Offered: Fall, Spring (even years).
Grade Mode: Traditional.

## Major in Hospitality Management

The Hospitality Management major combines courses in food service, lodging, event planning, nutrition, and business to provide students with a strong skill set for entry into hospitality professions. Elective credits allow students to take courses in areas of interest to enhance their education. The curriculum has a strong emphasis on management skills required for success in the hospitality industry.

The Hospitality Management program maintains strong ties with the foodservice, lodging, and event planning industries locally, state-wide, and nationally to connect graduates with a wide variety of employment opportunities in the expanding commercial and non-commercial segments of the hospitality management industry. The hospitality industry is the second largest employer in Colorado and the United States. The department oversees internships in the industry and aids in job placement upon graduation.

## Learning Outcomes

Students will demonstrate:

- A conceptual understanding and systems approach to the business of hospitality management.
- The ability to make logical decisions by organizing, analyzing, and interpreting information and formulating rational solutions in a hospitality business environment.
- The knowledge and skills to successfully manage a hospitality operation, including allocating resources such as time, labor, and material inputs to achieve customer satisfaction.
- An understanding of the managerial functions of planning, organizing, directing, staffing, controlling, and budgeting in various hospitality environments.
- The behaviors of effective, ethical leaders by demonstrating the fundamental principles of leadership in a hospitality business environment

## Potential Occupations

Participation in the experiential learning laboratory, The Aspen Grille, and internship opportunities are highly recommended to enhance practical training and development. The hospitality industry encompasses careers in restaurants, hotels, resorts, spas, event venues, catering, breweries and wineries, bed and breakfast inns, ski areas, business and industry dining venues, hospitals, correctional facilities, and military facilities in the United States and around the world.

Examples of careers include, but are not limited to: restaurant managers, caterers, event planners, wedding planners, banquet managers, hotel sales and marketing, hotel guest operations, hospitality real estate acquisition, hotel manager, food writing and media, brewery hospitality operations, commercial wine and liquor sales, chef, purchasing agent, conference coordinator, guest service agent, tourist attraction manager, spa operations manager, housekeeping manager, time share sales and marketing, bed \& breakfast owner/manager, travel agent, school food service manager, hospitality food and equipment sales representative, health inspector, hospital food service manager, food importer, and country club manager.

## Major in Nutrition and Food Science

Public interest regarding the importance of nutrition to health and fitness is at a high level and increasing. The Nutrition and Food Science major involves integration of the biological, medical, and social sciences and their application to the improvement of human nutrition and fitness, prevention of chronic disease, and improved quality of life. The major is both science and human service oriented.

Nutrition and Food Science graduates gain a scientific understanding of the principles of human nutrition, the role of nutrition in the prevention and management of disease, delivery of nutritional care, and the
principles of nutrition assessment and food preparation. Additionally, graduates know the techniques of interviewing, counseling, information management, and effective communication.

Four concentrations are currently available in this major - Dietetics and Nutrition Management, Nutrition and Fitness, Nutritional Sciences (premed), and Food Safety and Nutrition.

## Learning Outcomes

Students will demonstrate:

- Ability to identify nutrition-related public health problems, integrate information from basic nutrition sciences, critically analyze data, and develop appropriate conclusions
- Discipline-specific knowledge, skills, and competencies needed in the field of dietetics and nutrition. Examples include knowledge of medical nutrition therapy; nutrition and metabolism; program planning, monitoring, and evaluation; management in school nutrition programs and long-term care; food safety; and the role of food in the promotion of health
- Competent application of nutrition knowledge and skills in a work environment, including an ability to calculate and/or define diets for various health/disease conditions, screen individuals for nutritional risk, determine nutrient requirements across the lifespan, and calculate enteral and parental nutrition formulations; determine costs of services/ operations, interpret financial data, and prepare a budget
(See Dietetics and Nutrition Management concentration (http:// fshn.chhs.colostate.edu/students/undergraduate/nutrition-food-science/ dietetics.aspx) on website for specific learning outcomes for the ACEND accredited dietetics program).

## Potential Occupations

Participation in community outreach, internships, volunteer activities, or cooperative education opportunities is highly recommended to enhance career planning, skills, and development. Graduates who go on for advanced studies can attain more responsible leadership positions with the possibility of rising to top professional levels.

Some examples of career opportunities include, but are not limited to: dietitian or nutritionist in health care, hospitals, long-term care, schools, state or county health agencies, health clubs, corporate wellness programs, grocery stores/food chains, or private practice; community nutritionist; biomedical scientist; restaurant manager; caterer; quality assurance specialist; food scientist; food inspector; food technologist, food plant manager; food service manager in hospitals, schools, or longterm care. The median salary for Registered Dietitians is \$49,500 - the range is $\$ 38,976-\$ 64,993$.

Students interested in teaching nutrition and/or food science content at the secondary education level should explore the interdepartmental concentration in Family and Consumer Sciences Education at the beginning of this college section. The Family and Consumer Sciences Education concentration allows students to combine their interests in nutrition, wellness/health, food science, culinary arts, and/or catering with teaching. Family and Consumer Sciences Education students take course work in the Department of Food Science and Human Nutrition, Design and Merchandising, and Human Development and Family Studies as well as complete an education sequence which qualifies them for a secondary teaching license. The demand for secondary family and consumer sciences teachers exceeds the supply in Colorado as well as nationally. Therefore, job placement is extremely high with starting salaries in the $\$ 34,000-\$ 37,000$ range for a nine-month teaching position.

Students may choose from among four concentrations under the Nutrition and Food Science major.

## Major in Nutrition and Food Science, Dietetics and Nutrition Management Concentration

The Dietetics and Nutrition Management concentration provides a broad background in clinical nutrition, health promotion, and food service management. The science-based curriculum includes nutritional assessment, application of food theory, and course work focusing on nutritional counseling and medical nutrition therapy. The concentration is designed to prepare students for a dietetic internship and a professional career in medical nutrition therapy or community-based nutrition programs. The Accredited Didactic Program option of the Dietetics and Nutrition Management concentration is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND). This concentration is open to all students interested in becoming registered dietitians. However, students must qualify to continue in the Accredited Didactic Program option by meeting the prerequisites for the Dietetic Practice Seminar (FSHN 392) in their junior year. These prerequisites are an overall GPA of 3.0 and grades of "B" or better in FSHN 150, FSHN 300/ FSHN 301, and basic sciences (CHEM 107/CHEM 108, or CHEM 111, CHEM 112, CHEM 113; CHEM 245, CHEM 246; LIFE 102 or BZ 110, BZ 111; BMS 300, BMS 302; FSHN 150; FSHN 300, FSHN 301). Students who do not meet these requirements are encouraged to exercise their repeat/delete options in those courses which are lower than a " $B$ " grade if they wish to be considered for the Accredited Didactic Program option. The Childhood Nutrition option prepares students for supervisory positions in the school nutrition program. The Gerontology Nutrition option prepares students for supervisory positions in food service management in long-term care and rehabilitation or for working with community programs providing nutrition services to older individuals.

1 This program is accredited by ACEND and prepares students to be eligible to apply for dietetic internships. Application to the program is made in the summer preceding the last four semesters of the program.
2 Select one course each from the lists in categories 3D and 3 E , and two courses from category 3 B of the All-University Core Curriculum (AUCC), for a total of 12 credits.
3 Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400level).

## Major Completion Map

Distinctive Requirements for Degree Program:
Admission to the Accredited Didactic Program requires a minimum 3.000 GPA and grades of B or better in LIFE 102, CHEM 107 and CHEM 108, or CHEM 111, CHEM 112, and CHEM 113; CHEM 245, CHEM 246, BMS 300, BMS 302, FSHN 150, FSHN 300, and FSHN 301. Students must also have 2.800 cumulative GPA by 60 credits to remain in Dietetics.

1 Select one course each from the lists in categories 3D and 3E, and two courses from category 3B of the All-University Core Curriculum (AUCC), for a total of 12 credits.
2 Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400level).

Students may complete this major/option at 120 credits by selecting CHEM 107, CHEM 108, and BUS 150 in the freshman year. Students wishing to complete the Gerontology Interdisciplinary Minor should consult with advisors about course selection. Completion of the major/option and the minor will exceed the 120 credit total.

# Major in Nutrition and Food Science, Food Safety and Nutrition Concentration 

The Food Safety and Nutrition concentration blends a strong science base with courses in food science, food safety, food microbiology, and nutrition. The curriculum prepares students for employment in the food industry or in government in such areas as quality assurance,
product development, research, food inspection, sensory evaluation, and consumer education. The concentration also provides an excellent background for a graduate program. Students in the concentration are encouraged to participate in the interdisciplinary minor in Food Science/ Safety to further their understanding of the continuum of responsibility shared through the food system in ensuring that food is safe and healthful. By addition of several elective courses, students can also meet ACEND (http://www.eatrightacend.org/ACEND) course requirements.

The nutrition and fitness concentration prepares students for employment as nutrition and fitness counselors and personal lifestyle coaches in health care settings, commercial establishments, public health settings, or private practice. The curriculum blends a strong
science base with course work in exercise science, nutrition, teaching, and counseling. The concentration also provides an excellent background for a graduate program. By the addition of several elective courses, students can meet ACEND didactic course requirements if they meet requirements for FSHN 392.

## Major in Nutrition and Food Science, Nutritional Sciences Concentration

The Nutritional Sciences concentration provides a strong background in natural and biomedical sciences and nutrition, making it an appropriate preparation for graduate study, medical school, or a career in nutritional
research, biomedical research, or college teaching. This concentration forms the basis for a pre-medical professional program. By addition of several elective courses, students can meet ACEND course requirements if they meet requirements for FSHN 392.

## Minor in Nutrition

This minor provides an opportunity for a non-major to gain a significant orientation to a food, nutrition, and health-related field. The courses in the minor in Nutrition have a significant number of prerequisites that should be examined carefully before selecting the minor. Although open to any interested student, the Nutrition minor would be most easily taken by students majoring in a life science discipline such as biology or health and exercise science.

## Requirements Effective Fall 2004

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upperdivision (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

## Department of Health and Exercise Science

Office in Health and Exercise Science Complex, B220 Moby (970) 491-5081
hes.chhs.colostate.edu (http://hes.chhs.colostate.edu)
Professor Barry Braun, Department Head

## Undergraduate Majors

- Major in Health and Exercise Science
- Health Promotion Concentration
- Sports Medicine Concentration

## Graduate

## Graduate Programs in Health and Exercise Science

The department offers two graduate degrees: the Master of Science in Health and Exercise Science, and the Doctor of Philosophy in Human Bioenergetics. Students interested in a Master's degree in Public Health with a focus in Health and Exercise Science can refer to the School of Public Health (http://publichealth.colostate.edu). Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Health and Exercise Science (http:// hes.chhs.colostate.edu).

## Master Programs

- Master of Science in Health and Exercise Science, Plan A
- Master of Science in Health and Exercise Science, Plan B
- Master of Science in Health and Exercise Science, Plan A, Exercise Science and Nutrition Specialization

## Ph.D.

- Ph.D. in Human Bioenergetics

## Courses

## Health and Exercise Science (HES)

HES 100A Beginning Physical Education: Aerobic Exercise Credit: 1 (0-3-0)
Course Description: Physical activities for the development of personal motor skills.

## Prerequisite: None.

Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.
HES 100C Beginning Physical Education: Soccer Credit: 1 (0-3-0)
Course Description: Physical activities for the development of personal motor skills.

## Prerequisite: None.

Terms Offered: Fall, Spring, Summer.
Grade Modes: S/U within Student Option, Trad within Student Option. Special Course Fee: No.
HES 100D Beginning Physical Education: Self-Defense Credit: 1 (0-3-0)
Course Description: Physical activities for the development of personal motor skills.

## Prerequisite: None.

Terms Offered: Fall, Spring, Summer.
Grade Modes: S/U within Student Option, Trad within Student Option. Special Course Fee: No.
HES 100E Beginning Physical Education: Tennis Credit: 1 (0-3-0)
Course Description: Physical activities for the development of personal motor skills.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Modes: S/U within Student Option, Trad within Student Option. Special Course Fee: No.

HES 100J Beginning Physical Education: Volleyball Credit: 1 (0-3-0)
Course Description: Physical activities for the development of personal motor skills.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
HES 100K Beginning Physical Education: Swimming Credit: 1 (0-3-0)
Course Description: Physical activities for the development of personal motor skills.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
HES 100L Beginning Physical Education: Golf Credit: 1 (0-3-0)
Course Description: Physical activities for the development of personal motor skills.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.
HES 100M Beginning Physical Education: Basketball Credit: 1 (0-3-0)
Course Description: Physical activities for the development of personal motor skills.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Modes: S/U within Student Option, Trad within Student Option. Special Course Fee: No.
HES 100N Beginning Physical Education: Racquetball Credit: 1 (0-3-0)
Course Description: Physical activities for the development of personal motor skills.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
HES 1000 Beginning Physical Education: Weight Training Credit:
1 (0-3-0)
Course Description: Physical activities for the development of personal motor skills.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Modes: S/U within Student Option, Trad within Student Option. Special Course Fee: No.
HES 100P Beginning Physical Education: Ice Skating Credit: 1 (0-3-0)
Course Description: Physical activities for the development of personal motor skills.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.
HES 102A Physical Education Activities: Aquatic Conditioning Credit: 1 (0-3-0)
Course Description: Physical activities for the development of personal motor skills.
Prerequisite: None.
Registration Information: Intermediate swimming ability.
Terms Offered: Fall, Spring, Summer.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

HES 102C Physical Education Activities: Special Activities Credit: 1 (0-3-0)
Course Description: Physical activities for the development of personal motor skills.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.
HES 102D Physical Education Activities: Advanced Swimming Credit: 1 (0-3-0)
Course Description: Physical activities for the development of personal motor skills.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Modes: S/U within Student Option, Trad within Student Option. Special Course Fee: No.

HES 102F Physical Education Activities: Conditioning and
Fitness Credit: 1 (0-3-0)
Course Description: Physical activities for the development of personal motor skills.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Modes: S/U within Student Option, Trad within Student Option. Special Course Fee: No.

HES 102G Physical Education Activities: Athletics Credit: 1 (0-3-0)
Course Description: Physical activities for the development of personal motor skills.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.
HES 120 Introduction to Health and Exercise Science Credit: 1 (1-0-0)
Course Description: Health and Exercise Science major, career options, campus resources, tools for academic success, various health-related topics.
Prerequisite: None.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HES 145 Health and Wellness Credits: 3 (3-0-0)
Course Description: Personal health behaviors and personal choice in response to wellness.
Prerequisite: None.
Registration Information: Credit not allowed for both HES 145 and HES
143. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
HES 207 Anatomical Kinesiology Credits: 3 (2-2-0)
Course Description: Anatomical, physiological, and mechanical fundamentals of human movement.
Prerequisite: MATH 125, may be taken concurrently.
Registration Information: Must register for lecture and laboratory.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

HES 232 Techniques of Teaching Group Exercise Credit: 1 (0-2-0)
Course Description: Learn practical skills for the instruction of various group fitness activities. Emphasis is on physiological principles related to group fitness, as well as choreography, safety, and modifications for diverse populations and current trends.
Prerequisite: HES 207.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HES 232A Techniques of Teaching Physical Activity: Weight
Training Credit: 1 (0-2-0)
Course Description: Practical and theoretical aspects of teaching
individual sports with special emphasis on materials, teaching
techniques, and analyzing skills.
Prerequisite: None.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HES 240 First Aid and Emergency Care Credits: 2 (1-2-0)
Course Description: Principles, applied techniques emphasizing emergency rescue and care. Meets requirements for Red Cross Advanced First Aid and Emergency Care Credential.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.
HES 303 Biomechanics and Neurophysiology Credits: 3 (3-0-0)
Course Description: Study and elementary analysis of human motion
based on anatomical, neurophysiological, and mechanical principles.
Prerequisite: HES 207.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HES 307 Biomechanical Principles of Human Movement Credits:
4 (3-2-0)
Course Description: Study and elementary analysis of human motion based on anatomical and mechanical principles.
Prerequisite: (HES 207 or BMS 301) and (PH 121 or PH 141).
Registration Information: Must register for lecture and laboratory.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
HES 309 Methods of Coaching Credits: 2 (2-0-0)
Course Description: Preparation to coach in an interscholastic athletic situation.
Prerequisite: None.
Registration Information: Sections may be offered: Online.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.

HES 319 Neuromuscular Aspects of Human Movement Credits:
4 (3-2-0)
Course Description: Neuromuscular anatomy and physiology of human movement. Applied/integrated topics: aging, muscle fatigue, training,
force control, and neuromuscular disease.
Prerequisite: BMS 300 and HES 207.
Registration Information: Must register for lecture and laboratory.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HES 332F Techniques of Teaching Individual Sports: Weight
Training Credit: 1 (0-2-0)
Course Description: Practical and theoretical aspects of teaching weight training with special emphasis on materials, teaching techniques, and analyzing skills.
Prerequisite: None.
Registration Information: Corresponding laboratory or competency in area.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HES 332H Techniques of Teaching Individual Sports: Aerobics Credit: 1 (0-2-0)
Course Description: Practical and theoretical aspects of teaching
aerobics with special emphasis on materials, teaching techniques, and analyzing skills.
Prerequisite: None.
Registration Information: Corresponding laboratory or competency in area.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HES 340 Exercise Prescription Credits: 3 (2-2-0)
Course Description: Theory and practice of exercise prescription for healthy individuals, cardiac patients, and other special populations according to the American College of Sports Medicine (ACSM) guidelines. Includes the practice of proper lifting and spotting techniques, manipulation of training variables, and design of safe, effective, and efficient individual workout programs.
Prerequisite: BMS 300 with a minimum grade of $C$ and FSHN 150 with a minimum grade of $C$ and HES 145 with a minimum grade of $C$ and HES 207 with a minimum grade of $C$.
Registration Information: Must register for lecture and laboratory. Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HES 345 Population Health and Disease Prevention Credits: 3 (3-0-0) Course Description: Causes of disease throughout the lifespan and interventions designed to prevent disease.
Prerequisite: HES 145.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

HES 354 Theory of Health Behavior Credits: 3 (3-0-0)
Course Description: Health behavior $(\mathrm{HB})$ theories and their application to health promotion (HP) programs. Multi-level factors that interactively impact human HBs, theoretical foundations for these factors, and the relationship between HBs \& selected health outcomes. Discuss application of HB theories, and examine HP programs that have applied these theories in different settings and high risk populations.
Prerequisite: HES 145 or PSY 100.
Registration Information: Junior standing.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HES 355 Integration of Health Behaviors Credits: 3 (3-0-0)
Course Description: Designed to guide students in applying their
knowledge of health behavior change to individuals with various health
challenges. Explores a variety of health topics including understanding stress and coping and managing stress, behavioral factors in chronic disease, and behavioral health.
Prerequisite: HES 340 and HES 354.
Registration Information: Completion of 60 credits.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HES 379 Psychology and Sport Credits: 3 (3-0-0)
Course Description: Psychological and social implications involved in teaching physical education and coaching athletics.
Prerequisite: PSY 100 and HES 145 with a minimum grade of $C$ and HES 207 with a minimum grade of $C$ and BMS 300 with a minimum grade of $C$.
Registration Information: Must have taken the following courses and maintained a minimum GPA of 2.500 in them: HES 145; HES 207; BMS 300.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HES 386 Practicum-Adult Fitness Credits: 2 (1-2-0)
Course Description: Adult fitness.
Prerequisite: HES 232 and HES 340 with a minimum grade of C .
Registration Information: Must have earned a cumulative 2.750 GPA in:
BMS 300, FSHN 150, HES 145, and HES 207. Must register for lecture and laboratory.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
HES 403 Physiology of Exercise Credits: 4 (3-2-0)
Course Description: Effects of exercise on tissues, organs, and systems of the body.
Prerequisite: (BMS 300 or BMS 360) and (LIFE 102).
Registration Information: Must register for lecture and laboratory.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: Yes.
HES 405 Exercise Testing Instrumentation Credits: 2 (1-2-0)
Course Description: Theory and operation of devices commonly employed in quantifying factors related to exercise.
Prerequisite: HES 403.
Registration Information: Must register for lecture and laboratory.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

HES 410 Bioethics: Concepts and Controversies Credits: 3(2-0-1)
Course Description: Origins of bioethics and analysis of cases/ controversies in contemporary bioethics.
Prerequisite: PHIL 205.
Registration Information: PHIL 205 or 7 credits of AUCC-science category 3A.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HES 420 Electrocardiography and Exercise Management Credits:
3 (2-2-0)
Course Description: Interpretation of 12-lead ECG tracings, administering exercise tests, and prescribing exercise program for healthy individuals and special populations.
Prerequisite: BMS 300.
Registration Information: Must register for lecture and laboratory.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.
HES 434 Physical Activity Throughout the Lifespan Credits: 3 (3-0-0)
Course Description: Impact of physical activity on biology and physiology of human development and aging processes.
Prerequisite: BMS 300.
Registration Information: Credit not allowed for both HES 434 and HES 444.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
HES 444 Successful Aging: Role of Physical Activity Credits: 2 (2-0-0)
Course Description: Biology and physiology of healthy aging and impact of disease and physical activity on aging processes.
Prerequisite: LIFE 102 or BZ 110.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
HES 455 Health Promotion Programming Credits: 3 (3-0-0)
Course Description: Investigation of established health promotion
programs with special emphasis on design, implementation, and evaluation of programming models.
Prerequisite: HES 355 and HES 386A and HES 403.
Registration Information: Senior standing. Credit not allowed for both HES 455 and HES 456.
Terms Offered: Fall, Spring (every third year).
Grade Mode: Traditional.
Special Course Fee: No.
HES 476 Exercise and Chronic Disease Credits: 3 (3-0-0)
Course Description: Interaction of physical activity with pathophysiology
and treatment of chronic diseases and conditions.
Prerequisite: BC 351 and FSHN 350 and HES 403.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

HES 484 Supervised College Teaching Credits: Var[1-5] (0-0-0)

## Course Description:

Prerequisite: None.
Registration Information: Maximum of 10 credits allowed in course.
A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
HES 486A Practicum: Adaptive Correctives Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
HES 486B Practicum: Wellness Program Management Credits:
$\operatorname{Var}[1-3]$ (0-0-0)
Course Description:
Prerequisite: HES 386B and BMS 300 with a minimum grade of C and HES 145 with a minimum grade of $C$ and HES 207 with a minimum grade of C and FSHN 150 with a minimum grade of C.
Registration Information: 2.5 GPA.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
HES 486C Practicum: Coaching Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
HES 487 Internship Credits: 15 (0-0-40)
Course Description: Practical application of knowledge and skills in a professional situation.
Prerequisite: HES 486B and BMS 300 with a minimum grade of C and
HES 145 with a minimum grade of $C$ and HES 207 with a minimum grade of $C$ and FSHN 150 with a minimum grade of $C$.
Registration Information: 2.5 GPA.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
HES 492 Health and Exercise Science Seminar Credits: 3 (0-0-3)
Course Description: Integration and reflection on health and exercise science disciplinary knowledge.
Prerequisite: None.
Registration Information: Senior standing.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
HES 495A Independent Study: Health Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

HES 495B Independent Study: Biomechanics Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
HES 495C Independent Study: Exercise Science Credits:
$\operatorname{Var}[1-18]$ (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
HES 495D Independent Study: Neuromuscular Physiology Credits:
$\operatorname{Var}[1-18]$ (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
HES 495E Independent Study: Honors Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
HES 496A Group Study: Health Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
HES 496B Group Study: Athletics Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
HES 496C Group Study: Biomechanics Credits: $\operatorname{Var}[1-18]$ (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
HES 496D Group Study: Exercise Science Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
HES 496E Group Study: Neuromuscular Physiology Credits:
$\operatorname{Var}[1-18]$ (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

HES 520 Advanced Exercise Testing and Prescription Credits: 3(2-2-0)
Course Description: Theory and practice of exercise testing and
prescription in apparently healthy and diseased populations.
Prerequisite: HES 403.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.
HES 530 Clinical Biomechanics Credits: 3 (3-0-0)
Course Description: Effect of external loads on internal tissues; concern
for injury, injury prevention, and rehabilitation.
Prerequisite: BMS 301 and HES 307.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HES 531 Muscle and Joint Mechanics Credits: 3 (3-0-0)
Course Description: Integrate muscle, tendon, and location of bone
attachment into a comprehensive understanding of human movement at the single- and multi-joint level.
Prerequisite: BMS 301 and HES 307.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.
HES 545 Evolutionary Basis for Health and Fitness Credits: 3 (3-0-0)
Course Description: Evolutionary basis for human health and fitness
based upon dietary and exercise patterns for pre-agricultural humans.
Prerequisite: HES 403 and FSHN 350.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HES 556 Wellness and Health Promotion Concepts Credits: 3 (3-0-0)
Course Description: Discussion of theory and application of health promotion in various settings.
Prerequisite: None.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
HES 600 Research Design in Health/Exercise Science Credits: 3 (3-0-0)
Course Description: The research process including design,
implementation, proposal synthesis and statistical considerations
applied to health and exercise science.
Prerequisite: STAT 100 to 481 - at least 1 course.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
HES 602 Advanced Physiology of Exercise Credits: 3(3-0-0)
Course Description: Integrative exercise physiology covering metabolism, cardiovascular physiology, pulmonary physiology, and neuromuscular
physiology in humans.
Prerequisite: HES 403.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

HES 603 Advanced Topics in Exercise Physiology Credits: 3 (3-0-0)
Course Description: Advanced principles of theoretical and applied exercise physiology at molecular, cellular, and systemic levels.
Prerequisite: HES 403.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
HES 610 Exercise Bioenergetics Credits: 3 (3-0-0)
Course Description: Biology of energy transfer reactions related to human locomotion and exercise performance in both healthy individuals and disease states.
Prerequisite: HES 403.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
HES 619 Advanced Neural Control of Movement Credits: 3 (3-0-0)
Course Description: Neuroanatomical, neurophysiological, and applied
topics on the control of force and human movement.
Prerequisite: BMS 300 and BMS 301 and HES 403.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
HES 630 Integrative Exercise and Nutrition Metabolism Credits:
3 (3-0-0)
Also Offered As: FSHN 630.
Course Description: Advances in integrative human metabolism under conditions of changing energy flux.
Prerequisite: FSHN 551 and HES 610.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both FSHN 630 and HES 630.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HES 645 Epidemiology of Health and Physical Activity Credits: 3 (3-0-0)
Course Description: Foundation in chronic disease epidemiology that will enable students to evaluate the current epidemiologic literature.
Prerequisite: HES 600.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HES 650 Health Promotion Programming Credits: 3 (3-0-0)
Course Description: Development of skills in health promotion program design, implementation and evaluation.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HES 656 Comprehensive Stress Management Credits: 3 (3-0-0)
Course Description: Relationship between stress and illness emphasizing
methods to impact its detrimental effects.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
HES 684 Supervised College Teaching Credits: $\operatorname{Var}[1-18]$ (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
HES 686A Practicum: Adult Fitness-Human Performance Clinical/
Research Laboratory Credits: $\operatorname{Var}[1-3]$ (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Current CPR certification.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
HES 686B Practicum: Wellness Management Credits: Var[1-3] (0-0-0)

## Course Description:

Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Current CPR certification.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
HES 686C Practicum: Youth Fitness and Skill Development Credits:
$\operatorname{Var}[1-3]$ (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Current CPR certification.
Terms Offered: Fall, Spring, Summer.
Grade Modes: Instructor Option, Traditional.
Special Course Fee: No.
HES 686D Practicum: Health and Exercise Science Research Credits:
$\operatorname{Var}[1-3]$ (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Current CPR certification.
Terms Offered: Fall, Spring, Summer.

## Major in Health and Exercise Science

Students may choose from two concentrations offered in the Health and Exercise Science major-Health Promotion or Sports Medicine.

## Learning Outcomes

Students will demonstrate:

- Practical knowledge and skills (stress/fitness testing, leadership, administrative, teaching/communication, customer service, and professional attitude) in exercise science and health promotion through laboratory and/or practicum and internship experiences
- Ability to synthesize, integrate, apply, and communicate health and exercise science disciplinary knowledge through structured written assignments and oral presentations
- Skills and knowledge required to successfully compete for employment within the discipline or compete for graduate or professional school placement

## Potential Occupations

The United States and other developed countries are struggling with an aging and increasingly unhealthy population. Understanding the role of physical activity in preventing and treating disease and maintaining optimal health at any age is critical. Graduates trained in the foundations of human movement such as physiology, anatomy, biomechanics and neurophysiology, AND the ability to apply this knowledge to enhance the health, well-being and functional performance of the public, will be in high demand.

We take pride in training students in Health and Exercise Science to be strong critical thinkers who can express themselves clearly in written and oral form, view the world from multiple perspectives and are models of professional behavior and citizenship: qualities that will serve them well in any career they choose to pursue. Graduates that follow the Health Promotion track also acquire theoretical and handson training that makes them competitive for career opportunities in a wide variety of areas including, but not limited to: corporate fitness/ wellness, community health/wellness, public health, health behavior change, exercise technicians, cardiac rehabilitation, personal trainers, group exercise/fitness instructors, fitness/ medical equipment sales, and
recreation directors. In the Sports Medicine track, graduates acquire more grounding in foundations of human movement. This training provides excellent preparation for the further education required for careers as physicians, physical therapists, college professors, physician assistants, occupational therapists, molecular imaging, and respiratory therapists.

## Concentrations

- Health Promotion Concentration
- Sports Medicine Concentration

## Major in Health and Exercise Science, Health Promotion Concentration

A concentration in Health Promotion provides content and experience in promoting positive health behaviors, such as physical activity, weight management, stress management, smoking cessation, and ergonomics, to name a few. Students are prepared for numerous careers in a variety of allied health fields. Specifically, graduates have found employment in corporations as wellness/fitness specialists, as hospital and community health promotion directors, in insurance-based health promotion programs, medical settings, hotel wellness facilities, university health promotion centers, and in health and fitness clubs. The curriculum focuses on health promotion program development, implementation, and evaluation. Other course work includes chemistry, anatomy, physiology of exercise, marketing, advertising, accounting, and more. Students also have opportunities for practical field experiences before graduating. We are proud that the Health Promotion concentration track of the Health and Exercise Science major was ranked \#1 in the country by the Association for Worksite Health Promotion.

## Cardiac Care Internship Requirements ${ }^{2}$

Students enrolling in internships in cardiac care must take HES 420 prior to the internship. Students may use elective credits in the sophomore, junior, or senior year to do so. A minimum grade of B (3.00) is required in HES 420 prior to internship placement.

| Code | Title | Credits |
| :--- | :--- | :--- |
| HES 420 | Electrocardiography and Exercise Management |  |

It is recommended, but not required, that students enrolling in cardiac care internships take the following courses using elective credit from the sophomore, junior, or senior years.

| BMS 420 | Cardiopulmonary Physiology | 3 |
| :--- | :--- | :--- |
| BMS 450 | Pharmacology | 3 |

1 Students with current certification in Adult, Infant, and Child CPR; General First Aid; and AED may replace this course with 2 elective credits.
2 Students selecting an internship in cardiac care must take HES 420 prior to enrolling in the internship. See requirements and recommendations for cardiac care internships above.
3 Select enough elective credits to bring the program total to a minimum of 120-121 credits, of which at least 42 must be upper-division (300- to 400-level).

## Major Completion Map

The Major Completion Map for this concentration will be published in the 17-18 General Catalog. Students should consult with their Advisor or visit the Department for the current Major Completion Map requirements.

## Major in Health and Exercise Science, Sports Medicine Concentration

The Sports Medicine concentration is a preprofessional program that offers a science-based education dealing specifically with the application of the natural sciences to the study of health and exercise science.

In the Sports Medicine track, graduates acquire more grounding in foundations of human movement. This track provides excellent preparation for the further education required for careers as physicians, physical therapists, college professors, physician assistants, occupational therapists, pharmacology, molecular imaging, and respiratory therapists.

This concentration was structured for two types of students:

1. those seeking preprofessional preparation in medical fields, physical therapy, or allied health fields and
2. students planning to pursue an advanced degree (master's and/or Ph.D.) in exercise science or related field.

Some of the courses required for this concentration include chemistry, biology, physics, anatomy, kinesiology, biomechanical principles of human movement, exercise testing, biochemistry, organic chemistry, human nutrition, and rehabilitation exercise.

## Online Degree Programs

The major in Human Development and Family Studies (HDFS) is offered in two formats, both leading to a Bachelor of Science degree. We offer on-campus classes to local degree-seeking students, and we offer distance students the HDFS degree through the Division of Continuing Education and CSU Online. The Online Bachelor of Science Degree in HDFS (http://www.online.colostate.edu/degrees/hdfs) provides a high quality university education that is flexible, convenient, and accessible for working and distance students. The courses in the online program are the same as the on-campus courses. The five concentrations are available online with only some limitations, as not all CSU courses are available online. The online Bachelor of Science degree in HDFS carries the full accreditation of CSU and is indistinguishable on student transcripts from the on-campus version of the degree. The Gerontology Interdisciplinary Minor and courses required to pursue a variety of certifications are also available online.

## Gerontology Interdisciplinary Minor

The Gerontology Interdisciplinary Minor is a 21-23 credit program, housed in HDFS and available on-campus as well as online, that provides students with the opportunity to earn an undergraduate minor in gerontology. The Gerontology Interdisciplinary Minor helps students to develop an understanding of the aging process, including the biological, psychological and social aspects of adult development and aging. Admission is ongoing throughout the year. The full program may be found under University-Wide Instructional Programs.

## Graduate

## Graduate Programs in Human Development and Family Studies

The Department of Human Development and Family Studies offers two specializations leading to the Master of Science degree in Human Development and Family Studies (HDFS), and one doctoral program in Applied Developmental Science. The focus of the department is the development of the individual and the family throughout the lifespan. Our graduate programs provide students with an advanced understanding of human behavior and development, as well as with skills enabling them to contribute to scholarship and professional practice.

Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Human Development and Family Studies (http://www.hdfs.chhs.colostate.edu/students). (http:// hdfs.chhs.colostate.edu/students/masters)

## Master Programs

The Master of Science degree in HDFS (Plan A thesis option only) has two specializations, one in Prevention Science and one in Marriage and Family Therapy. Curricula in both programs include core courses in individual development and family theories, issues in HDFS, and research methods, as well as a research thesis.

- Master of Science in HDFS, Prevention Science Specialization
- Master of Science in HDFS, Marriage \& Family Therapy Specialization

## Ph.D.

- Ph.D. in Applied Developmental Science

## Major in Early Childhood Education

(Effective Spring Semester 2015, the major in Early Childhood Education replaces the preparation for teacher licensure in Early Childhood Education, Birth through Grade 3. Contact the department for details.)

In collaboration with the Center for Educator Preparation (CEP) (http://cep.chhs.colostate.edu) within the School of Education (http://soe.chhs.colostate.edu) (SOE), the Department of Human Development and Family Studies (HDFS) (http:// www.hdfs.chhs.colostate.edu) provides a competitive-entry Early Childhood Education Major requiring an application in the sophomore year for possible admission in the junior year. The
degree enables students to apply for Early Childhood teacher licensure and D (http://www.coloradoofficeofearlychildhood.com/ \#!director-qualifications/c15f)irector Qualifi (http:// www.coloradoofficeofearlychildhood.com/\#!director-qualifications/ c15f)cation (http://www.coloradoofficeofearlychildhood.com/\#!directorqualifications/c15f) in the state of Colorado, and will thus qualify students to engage in a number of early childhood professions: teaching grades P-3 in public or private schools in Colorado, teaching in Head Start or other preschool or childcare programs, establishing a business as a family child care or center child care provider, or serving as director of a childcare center. An understanding of human development and family studies provides a strong foundation for students desiring a license to teach young children between the ages of 0 and 8 . Knowledge of lifespan developmental processes and family systems prepares future teachers to work in partnership with parents and grandparents in educating children. Students aspiring to work with children between the ages of 0 and 8 can apply during their sophomore year to the major in Early Childhood Education. If accepted, students take courses in HDFS and SOE as a part of their degree requirements.

Students are encouraged to check the program of study as a small number of prerequisites are required prior to entry in the major. The Early Childhood Education Major uses a cohort model, and admits a limited number of students, typically between 25-30, each year. The admission process takes place once a year in the spring, with the admitted candidates starting in the fall. Students in the Early Childhood

Education major achieve both Early Childhood Education core learning outcomes, obtained through HDFS and SOE courses, and all learning outcomes required by the Colorado Department of Education for Early Childhood Education licensure. (http://www.cde.state.co.us/cdeprof/ checklist-initialtoprofessionalteacher)

## Learning Outcomes

Students will demonstrate:

- Content knowledge and understanding of theory, research, and practice relevant to optimizing the development, health, and wellbeing of children and families in the context of the larger social environment.
- Effective written and oral communication skills appropriate for early childhood educators interfacing with colleagues, children, and parents/guardians.
- The ability to access, critically evaluate, and apply multiple forms of information related to children and families.
- Professional and leadership skills with individuals and families, including ethical and culturally sensitive conduct.
- Knowledge and skill in teaching and assessing literacy, mathematics, social studies, science, music, art, and physical education in early childhood.

## Major Completion Map

## Distinctive Requirements for Degree Program:

Students seeking admission to the Early Childhood Education (ECE) Major with teacher licensure must formally apply and be accepted. The admission process into the program takes place once a year in the spring with the admitted candidates starting the program the following fall. All coursework within the Center for Educator Preparation (CEP) requires a 4 semester (or 2 year) consecutive commitment to complete, therefore EDUC subject code courses must be taken in the semester indicated. Requirements for applying to the ECE major: 1) Must have a 2.75 GPA or better, 2) Suggested to have completed 60 credits (or more) by the end of the semester in which the student is applying (typically students apply their second semester sophomore year), 3) Must have 20 hours of volunteer or work service with children ages $0 \# 8$ years (experience must have been within the last 5 years), 4) Must have 3 references. All HDFS subject code courses and EDUC subject code courses must be completed with a grade of C or higher. Students will be required to pass a criminal arrest record background check prior to participating in field placement courses. Students will complete a graduation contract with an HDFS Academic Advisor during the first two weeks of the semester in which they are graduating.

To help guide students in their career planning, there are five concentrations within the Human Development and Family Studies major. The HDFS Major Program of Study consists of the HDFS foundational courses, which are required for all students regardless of concentration, 15 credits selected from the list of courses within students' chosen concentration, and additional electives to reach 120 credits as required for graduation. Students must declare a minimum of one concentration and may not declare more than two concentrations in the HDFS major. The declared concentration(s) are listed on the students' transcripts and thus indicate specialized training within the HDFS degree program.

## Human Development and Family Studies Concentration

The Human Development and Family Studies Concentration is a general concentration that is available to HDFS majors who do not choose one of the more specific concentrations. This general concentration is an excellent choice for students who are interested in a lifespan or more general focus in HDFS and are not seeking the specialized training offered in the other four concentrations. Students choosing this concentration will be preparing to enter a variety of different careers or graduate programs, as outlined above. The curriculum includes primarily HDFS, psychology, and social work courses as well as selected courses from other disciplines for a well-rounded and robust education in human development and family studies. By selecting this concentration, students have an opportunity to participate in a variety of experiential learning courses and internship options as they explore and prepare for their career path and additional credentialing options. Please note that the HDFS general concentration does not appear on students' transcripts.

## Early Childhood Professions Concentration

The courses in the Early Childhood Professions Concentration prepare students for careers in early childhood education as well as professional work with children across a variety of settings, including working with children with special needs. This concentration is an ideal choice for first and second year HDFS majors who plan to apply to the competitive on-campus Early Childhood Education Major during their sophomore year. Additionally, this concentration is the preferred choice for students interested in the early childhood education careers that do not require teacher licensure, or for students who will pursue a graduate degree and licensure in childhood education. Students interested in working with children with special needs, those seeking director qualifications in early childhood education, and those seeking other relevant credentials would also benefit from choosing this concentration. The curriculum incorporates courses from several disciplines that focus on early child development, education, diversity, and professional skills.

## Pre-Health Professions Concentration

Many students pursuing an HDFS degree plan to apply to graduate or professional programs in a variety of health professions. The Pre-Health Professions Concentration prepares students for these careers and supports their goals of obtaining graduate training. Some of the careers students in this concentration pursue are: allied health practitioner, anesthesiologist assistant, child life specialist, chiropractor, dentist, medical doctor, music therapist, naturopathic or complementary medicine practitioner, nurse, occupational therapist, optometrist, pharmacist, physical therapist, physician's assistant, podiatrist, speech and language pathologist, or veterinarian. The courses within this concentration include a focus on science and also help prepare students to work with individuals (and their families) with disabilities, mental and physical illness, or those experiencing death, dying, or grief. In addition,
students in this concentration are strongly encouraged to consult with pre-professional advisors in the Center for Advising and Student Achievement for specific course (and corresponding course prerequisite) recommendations based on the credentials that they are pursuing, as the prerequisite requirements vary for graduate and professional programs.

## Prevention and Intervention Sciences Concentration

The Prevention and Intervention Sciences Concentration is designed for students who are preparing for careers in the helping and human services professions such as counselors, educators, and social service providers, as well as for students seeking a research career in human development and family studies or a related field. This concentration is an excellent choice for students interested in careers requiring either a bachelor's degree or additional credentials. Concentration coursework emphasizes evidence-based programs, and students will learn how to design and implement community-based prevention and intervention programs for youth, adults, and families. Students can either focus on a specific aspect of the lifespan or choose courses across the lifespan.

## Leadership and Entrepreneurial Professions Concentration

The Leadership and Entrepreneurial Professions Concentration guides students who are preparing for entry-level or long-term leadership positions in organizations that promote the optimal development of individuals and families. Students in this concentration may intend to work in organizations as directors, managers, or owners. This concentration includes coursework in finance, management, marketing, public policy, professional communication, and leadership. This concentration is also appropriate for students preparing for careers in legal services, such as lawyers or politicians. Students in this concentration may choose to pursue additional credentials in leadership, business and entrepreneurship.

## Online Degree Program

The HDFS major is offered in two formats, both leading to a Bachelor of Science degree. We offer on-campus classes to local degree-seeking students, and we also offer the HDFS degree online through CSU Online (http://www.online.colostate.edu). The Online Bachelor of Science Degree in HDFS (http://www.online.colostate.edu/degrees/hdfs) provides a world-class university education that is flexible, convenient, and accessible for working and distance students. The HDFS courses are the same in the online degree program as they are in the on-campus program, with many of the same faculty teaching both courses. The five HDFS concentrations are available online with only some limitations, as not all CSU courses are available online. The online Bachelor of Science degree in HDFS carries the full accreditation of CSU and is indistinguishable on student transcripts from the on-campus version of the degree.

## Major in Human Development and Family Studies, Early Childhood Professions Concentration

The courses in the Early Childhood Professions Concentration prepare students for careers in early childhood education as well as professional work with children across a variety of settings, including working with children with special needs. This concentration is an ideal choice for first and second year HDFS majors who plan to apply to the competitive oncampus Early Childhood Education Major during their sophomore year.

This concentration is also the preferred choice for students interested in the early childhood education careers that do not require teacher licensure, or for students who will pursue a graduate degree and licensure in childhood education. Students interested in working with children with special needs, those seeking director qualifications in early childhood education, and those seeking other relevant credentials would also benefit from choosing this concentration. The curriculum incorporates courses from several disciplines that focus on early child development, education, diversity, and professional skills.

## Major Completion Map

Distinctive Requirements for Degree Program:
Human Development and Family Studies is an open-entry major for freshmen. For sophomores and above, students must complete and/or be enrolled in HDFS 101, PSY 100 or SOC 100 in order to declare HDFS. HDFS subject code courses must be completed with a grade of $C$ or higher. Students will be required to pass a criminal arrest record background check prior to participating in the internship course their senior year. The internship comprises
the HDFS 477 and HDFS 488B (requires a background check through CBI, FBI) courses which must be taken concurrently. Students will complete a graduation contract with an HDFS Academic Advisor during the first two weeks of the semester in which they are graduating.

## Major in Human Development and Family Studies, Human Development and Family Studies Concentration

The Human Development and Family Studies Concentration is a general concentration that is available to HDFS majors who do not choose one of the more specific concentrations. This general concentration is an excellent choice for students who are interested in a lifespan or more general focus in HDFS and are not seeking the specialized training offered in the other four concentrations. Students choosing this
concentration will be preparing to enter a variety of different careers or graduate programs, as outlined above. The curriculum includes primarily HDFS, psychology, and social work courses as well as selected courses from other disciplines for a well-rounded and robust education in human development and family studies. By selecting this concentration, students have an opportunity to participate in a variety of experiential learning courses and internship options as they explore and prepare for their career path and additional credentialing options. Please note that the HDFS general concentration does not appear on students' transcripts.

# Major in Human Development and Family Studies, Leadership and Entrepreneurial Professions Concentration 

The Leadership and Entrepreneurial Professions Concentration guides students who are preparing for entry-level or long-term leadership positions in organizations that promote the optimal development of
individuals and families. Students in this concentration may intend to work in organizations as directors, managers, or owners. This concentration includes coursework in finance, management, marketing, public policy, professional communication, and leadership. This concentration is also appropriate for students preparing for careers in legal services, such as lawyers or politicians. 1 Of the 12 required credits of concentration elective courses, a minimum of 6 credits must be HDFS courses and a minimum of 9 credits must be upper-division (300- to 400-level). Courses may not double-count for more than one HDFS concentration.
2 Students with substantial career-relevant experience may petition to replace HDFS 488E with a three-course upper-division (300-to 400-level) cognate defined with and approved by the advisor. The additional 1-4 credits required for the cognate can be double-counted as electives but not as concentration courses.
3 Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400 level).
4 Courses selected to fulfill All-University Core Curriculum (AUCC) requirements may not double count toward the Leadership and Entrepreneurial Professions Concentration Course requirement.
5 Students in the concentration may select a maximum of 6 credits of HDFS 497A, HDFS 497B, HDFS 497C, HDFS 497D, HDFS 497E, with a maximum of 3 credits per subtopic.

## Major Completion Map

Distinctive Requirements for Degree Program:
Human Development and Family Studies is an open-entry major for freshmen. For sophomores and above, students must complete and/or be enrolled in HDFS 101, PSY 100 or SOC 100 in order to declare HDFS. HDFS subject code courses must be completed with a grade of C or higher. Students will be required to pass a criminal arrest record background check prior to participating in the internship course their senior year. The internship comprises
the HDFS 477 and HDFS 488E courses which must be taken concurrently. Students will complete a graduation contract with an HDFS Academic Advisor during the first two weeks of the semester in which they are graduating.

## Major in Human Development and Family Studies, Pre-Health Professions Concentration

Many students pursuing an HDFS degree plan to apply to graduate or professional programs in a variety of health professions. The Pre-Health Professions Concentration prepares students for these careers and supports their goals of obtaining graduate training. Some of the careers students in this concentration pursue are: allied health practitioner, anesthesiologist assistant, child life specialist, chiropractor, dentist, medical doctor, music therapist, naturopathic or complementary
medicine practitioner, nurse, occupational therapist, optometrist, pharmacist, physical therapist, physician's assistant, podiatrist, speech and language pathologist, or veterinarian. The courses within this concentration include a focus on science and also help prepare students to work with individuals (and their families) with disabilities, mental and physical illness, or those experiencing death, dying, or grief. In addition, students in this concentration are strongly encouraged to consult with pre-professional advisors in the Center for Advising and Student Achievement for specific course (and corresponding course prerequisite) recommendations based on the credentials that they are pursuing, as the prerequisite requirements vary for graduate and professional programs.

## Major in Human Development and Family Studies, Prevention and Intervention Sciences Concentration

The Prevention and Intervention Sciences Concentration is designed for students who are preparing for careers in the helping and human services professions such as counselors, educators, and social service providers, as well as for students seeking a research career in human development
and family studies or a related field. This concentration is an excellent choice for students interested in careers requiring either a bachelor's degree or additional credentials. Concentration coursework emphasizes evidence-based programs, and students will learn how to design and implement community-based prevention and intervention programs for youth, adults, and families. Students can either focus on a specific aspect of the lifespan or choose courses across the lifespan.

# Master of Science in Human Development and Family Studies, Plan A, Marriage and Family Therapy Specialization 

The Marriage and Family Therapy (MFT) program, which is accredited by the Commission on the Accreditation of Marriage \& Family Therapy Education, provides a specific professional curriculum that prepares graduates for licensure as Marriage and Family Therapists. Courses focus on individual and family development, evidence-based clinical practices, social-justice frameworks, and research methods. MFT students also complete a thesis. Training includes practica and internships with live supervision in the CSU Center for Family and Couple Therapy as well as Campus Connections: Therapeutic Mentoring At Risk Youth and other clinical programs. MFT graduates go on to work as therapists in private practice or at for-profit and non-profit mental health agencies. Some students enter doctoral programs upon graduation, including our Applied Developmental Science doctoral program.

For more information, please visit Department of Human Development \& Family Studies Marriage and Family Therapy Program (http:// www.hdfs.chhs.colostate.edu/students/masters/mft.aspx).

## Master of Science in Human Development and Family Studies, Plan A, Prevention Science Specialization

Coursework in the Prevention Science specialization focuses on the processes of lifespan development and normative family functioning, as well as theories of prevention science and risk and resilience. Students gain skills such as program planning and evaluation, program administration, grant writing, research design, and technical communication. Graduates of the Prevention Science program enter careers in program evaluation, policy analysis, education, and the management of prevention and intervention programs in human services. For students who are interested in prevention-oriented research careers, this specialization articulates well with the Applied Developmental Science doctoral program.

For more information, please visit Department of Human Development \& Family Studies Prevention Science Program (http:// www.hdfs.chhs.colostate.edu/students/masters/ps.aspx).

## Ph.D. in Applied Developmental Science

The Ph.D. program in Applied Developmental Science (ADS) emphasizes how research regarding basic processes in human development can be used to prevent problems and enhance well-being across the lifespan. Students gain knowledge in lifespan human development theory, empirical research skills to conduct high-quality basic and applied research, and the abilities to translate science into practices and programs that address a wide range of social and public health problems. Graduates from the ADS program have the basic knowledge and the applied skills to work in settings such as academia, for-profit and not-forprofit research and advocacy organizations, governmental and human services agencies, or community agencies with programs designed to enhance health and well-being of individuals, families, and communities.

Students can enter the ADS program with a completed master's degree or with a completed bachelor's degree. Students entering with a bachelor's will be required to complete a master's in Human Development and Family Studies (HDFS), with a specialization in Prevention Science or Marriage and Family Therapy.

For more information, please visit Department of Human Development \& Family Studies Ph.D. in Applied Developmental Science (http:// www.hdfs.chhs.colostate.edu/students/doctoral).

## Department of Occupational Therapy

Occupational Therapy Building, Room 200
(970) 491-6253
ot.chhs.colostate.edu (http://ot.chhs.colostate.edu)
Dr. Anita Bundy, Department Head
Known nationally and internationally for its excellence, the Department of Occupational Therapy is ranked among the top 10 programs in the nation by U.S. News and World Report. It is recognized by CSU as a Program of Research and Scholarly Excellence and it has been designated as a Program of Excellence by the state of Colorado. The department offers graduate-level education to prepare students as leaders in the field of occupational therapy.

The occupational therapy program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), 4720 Montgomery Lane, Suite 200, Bethesda, MD 20814-3449; (301) 652-6611. The National Board for Certification in Occupational Therapy (NBCOT) is the credentialing agency responsible for the development and implementation of the certification process for OT practitioners.

Students interested in more information regarding prerequisite and application requirements may contact the department at (970) 491-6253 or otinfo@colostate.edu.

## Graduate

## Graduate Programs in Occupational Therapy

The Occupational Therapy Department offers the following degree programs:

- Master of Science in Occupational Therapy (M.S.)
- Master of Occupational Therapy (M.O.T.)
- Post-Professional Master of Science (M.S.)
- Ph.D. in Occupation and Rehabilitation Science

[^7]generalist practice and provides students with the knowledge and skills necessary to support people of all ages who have special needs by addressing daily challenges related to their life roles and assisting them in maximizing their independence.

Students with a bachelor's degree in occupational therapy pursue the Post-Professional Master of Science (http://www.ot.chhs.colostate.edu/ students/post-professional.aspx) degree. Under the guidance of an advisor, students complete an individualized program of study and a thesis project that is designed to add to the profession's understanding of human performance and participation in everyday occupations and contexts.

The interdisciplinary Doctor of Philosophy (Ph.D.) degree in Occupation and Rehabilitation Science (http://www.ot.chhs.colostate.edu/students/ phd. aspx) offers graduate training in research that is dedicated to assisting people of all ages and abilities perform and participate in everyday occupations as a source of lifelong meaning, development, health, and well-being. The program was created to meet the national demand for Ph.D. trained scientists and educators in occupational therapy and related disciplines. Upon graduation, students typically pursue academic careers in research and higher education, although additional career opportunities exist in industry and government.

Please contact the Occupational Therapy Department for further details by calling (970) 491-6253 or emailing the department at otinfo@colostate.edu.

Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Occupational Therapy (http://ot.chhs.colostate.edu).

## Major in Social Work

Social work is distinguished by a tradition of concern for people and their interactions with society. Social work professionals are community problem solvers who intervene in organizational settings, communities, social service agencies, groups, individuals, and families with goals of enhancing well-being and promoting social and economic justice. Most social workers are employed in fields such as child welfare and family services, mental health, medical social work, school social work, corrections, community organization, or advocacy.

The Social Work curriculum focuses on the practical application of social work principles, policies, and practices within human rights and social justice perspectives. Students acquire a professional social work foundation transferable to different settings, population groups, and problem areas. Attention is devoted to understanding the social welfare system in the U.S., and working with individuals, families, and communities to affect desired change. Several practical experiences are required. Students work with an agency participant throughout their sophomore year, and then as seniors, participate in a social work agency internship. The curriculum also includes a strong liberal arts base in social science research and statistics, arts, humanities, social science, and natural sciences.

CSU students are admitted to the School of Social Work (SSW) when they declare Social Work as a major. Two professional organizations, The National Association of Social Workers (NASW) and the Council on Social Work Accreditation (CSWE) guide social work practice and education. The NASW develops the Code of Ethics for practicing social workers The CSWE accredits bachelors and masters social work educational programs in the United States. The BSW program is accredited by CSWE.

## Learning Outcomes

Graduating seniors will have demonstrated:

- Skills in conceptualizing and applying knowledge of social welfare policy and services, a systems perspective, theory, community resources, and community policy-making processes and practices.
- Knowledge and mastery of the foundation competencies as required by the CSWE for accreditation of the BSW degree.
- An understanding of the social work code of ethics including mastery of skills in maintaining client confidentiality, establishing professional boundaries, and resolving ethical dilemmas that are presented in case situations

## Potential Occupations

Social Work graduates are employed in a variety of settings including welfare agencies, schools, hospitals, clinics, institutions, community centers, public health, corrections, and group homes. Entry-level job opportunities are plentiful. Graduates should be willing to work with people of all ages and in a multitude of circumstances and settings. Opportunities to work with older adults are especially prevalent. Internships are required. Graduates of the BSW program are eligible to apply for advanced standing in MSW social work programs.

Some examples of career opportunities include, but are not limited to: child welfare worker, adolescent group home counselor, crisis counselor, child protection worker, adult protection worker, geriatric social worker, case manager, nursing home administrator, medical social service counselor, community outreach coordinator, youth program counselor, home health worker, occupational social services worker, foster parent consultant, probation officer, client advocate, victim-witness program counselor, program manager, substance abuse counselor, domestic violence counselor, or adoption worker.

## Progression in the Major

Progression in the Major in the SSW is guided by standards required by both NASW (http://socialworkers.org/pubs/code/code.asp) and CSWE (http://cswe.org/File.aspx?id=41861) to ensure compliance with accreditation standards and that SSW students meet nationally recognized ethical requirements for their profession.

The NASW (http://socialworkers.org/pubs/code/code.asp) Code of Ethics requires that social workers act ethically in their work with clients. It also requires that social workers take action when their colleagues are not acting competently or ethically. The CSWE (http://cswe.org/ File.aspx?id=41861) requires that social work programs describe the procedures for informing students of the program's criteria for evaluating students' academic and professional performance and that the program have policies and procedures for terminating students' enrollment in the social work program for reasons of academic and professional performance.

To meet the requirements of these professional governing bodies, the SSW has developed this Progression in the Major procedure. Progression in the Major is a time in a student's academic career when faculty and students can review each student's character and fitness for the profession of social work. Prior to enrolling in the 300 level practice courses (SOWK 340, SOWK 341, SOWK 342), students must apply for Progression in the Major. Approval of the Progression in the Major application is a prerequisite for enrollment in SOWK 340. Generally students who have 60 or more credits must apply for progression in order to graduate in the following four semesters. The application for Progression in the Major will be distributed in SOWK 286A and SOWK 286B.

As a professional program, academic performance and fitness to proceed in the SSW program requires a minimum grade point average, completion of required course work, and behaviors appropriate to the performance of social work. Problems in student performance may be addressed with the student at any time in the student's academic career in the SSW.

## Student Expectations for Progression:

- Maintain a minimum GPA of 2.5 in SOWK course work; a grade of $C$ or better in all SOWK coursework; 2.0 in overall university course work; 2.0 in All University Core Curriculum (AUCC) course work.
- Demonstrate conduct that complies with the CSU Student Code of Conduct.
- Demonstrate conduct that adheres to the NASW Code of Ethics and social work values in interactions with faculty, peers, the community, organizations and clients.
- Remain free of criminal convictions while enrolled in the SSW and CSU.
- Refrain from substance use that interferes with the performance of responsibilities to clients and agencies and/or interferes with classroom performance.
- Demonstrate behavior that prioritizes the welfare of those to whom the student has a responsibility such as clients and coworkers.
- Refrain from any behaviors that cause harm to clients, including romantic or sexual relationships.
- Demonstrate respect for all persons and appreciation for race, age, color, religion, national origin or ancestry, sex, gender, disability, veteran status, genetic information, sexual orientation, or gender identity or expression.
- Demonstrate sound judgment, both in work with clients and in regard to oneself, such as seeking professional help for physical and emotional problems that interfere with professional functioning.
- Demonstrate honesty and integrity in work with client systems and in the classroom.

## Review Process

Concerns regarding a student's application for progression will be reported to the Director of the BSW Program. Concerns may be identified during the Progression in the Major application review process or at any time before or after progression. Progression applications will be reviewed by the Director of the BSW Program. Concerns regarding any of the foregoing student expectations will be addressed by the BSW Director directly with the student and the student's advisor. Major concerns regarding the student's ability to proceed in the program will be reviewed by the Director of the BSW program with the administrative team of the SSW, including but not limited to the Director of the SSW. A meeting will then be scheduled for review of the concerns with the student, faculty member(s) involved, the Director of the BSW Program and the Director of SSW. Review of concerns may result in one or more of the following resolutions, through the Director of SSW:

- Dismissal or resolution of the expressed concerns.
- A probationary period which includes a remediation contract with the student to address concerns that will be monitored by the BSW Program Director or designated faculty.
- Dismissal of the student from the Social Work major.
- A report to the CSU Office of Conflict Resolution and Student Conduct Services, in the event the concerns include possible violations of the Student Conduct Code.

Students may appeal these decisions using established university and SSW procedures.

## Practicum and Internship

Students directly apply classroom knowledge, skills, and social work values through a six-credit supervised practicum, SOWK 286A and SOWK 286B, in the sophomore year. In this practicum, students are matched with community agencies which require background checks before placement.

In the senior year, students fulfill a 10 -credit field placement in a social work agency or program in a community setting. Field placement agencies generally require background checks also, Examples of available field placements include child and public welfare programs; hospitals, homeless and women's shelters, rehabilitation and mental health agencies, schools, adolescent residential care, geriatric centers,
and correction programs. In their field placement and under supervision, students have the opportunity to demonstrate the required CSWE competencies.

## Master of Social Work

The Master of Social Work degree offered by CSU features a nationally recognized advanced generalist curriculum. Students are prepared for roles as social work practitioners in complex, diverse, and dynamic settings and learn to promote human rights and individual, community, and global well-being. The School of Social Work offers different programs options for completing the MSW degree. There are four campus-based programs, two distance learning options, and a dual degree MSW-MPH. All of our program options utilize a cohort model.

1. Full-time two year - This is the standard two year program. It follows the cohort model, starting every fall. Students attend fulltime for four semesters - fall, spring, and the following fall and spring on campus, in-person instruction. (Schedule here (http:// www.ssw.chhs.colostate.edu/students/graduate/oncampusMSW/ schedule_fulltime.aspx).)
2. Part-time three year days - This option begins in fall and takes three years to complete, breaking down the first full-time year into two part-time years. During the majority of these years, students attend classes on campus either Monday or Tuesday of each week, with the field placement falling in their fourth semester. The final year is still a full-time year, as the field placement requirement cannot be reduced. The schedule (http://www.ssw.chhs.colostate.edu/ students/graduate/oncampusMSW/schedule_parttime.aspx) for this final year is identical to the full-time program's second year.
3. Part-time evenings - This part-time format takes 27 months to complete and begins during the summer term. Classes are hybrid which means that $50-75 \%$ of class time is online. During most terms, in-person classes will take place on Tuesday and Thursday evenings starting at 5:00 p.m. every other week. This format operates on a cohort model which currently admits students every other year. The next cohort will start in Summer 2018.
4. Advanced Standing On Campus - This option is available only to those who have earned a BSW from a program accredited by the Council on Social Work Education and have earned that degree within the past seven years. The BSW degree must be granted prior to the beginning of advanced standing classes. Students attend one full year consisting of three semesters, starting with the summer term. (Schedule here (http://www.ssw.chhs.colostate.edu/students/ graduate/oncampusMSW/schedule_advancedstanding.aspx).)
5. Distance Learning options - The School of Social Work also offers a part-time hybrid program that utilizes online and in-person instruction based at the cohort location of either Denver or Colorado Springs.
a. The Denver cohort begins January 2017 (application deadline 6/1/16) with Advanced Standing beginning in January 2018 (application deadline 6/1/17).
b. The next Colorado Springs cohort is projected to begin in January 2018 (application deadline 6/1/17) with Advanced Standing beginning in January 2019 (application deadline 6/1/18). For more information visit the Distance MSW Program (http://www.ssw.chhs.colostate.edu/students/graduate/ distanceMSW) section.
6. MSW/MPH Dual Degree - In partnership with Colorado School of Public Health, the School of Social Work will be offering a dual degree MSW/MPH program. For information visit the MSW/MPH section (http://www.ssw.chhs.colostate.edu/students/graduate/MPH/ indexMPH.aspx).

The MSW program is accredited by the Council on Social Work Education, which enables students to pursue professional licensure upon program completion. Additionally, our program is approved by the Colorado Department of Education for school social work licensure, for those students who elect to complete the additional course requirement (SOWK 560) or seek our graduate certificate in PreK-12 School Social Work.

## - Master's Programs

- Master in Arts Leadership and Cultural Management, Plan C

The College of Liberal Arts aims to educate committed and active citizens and to develop in them an understanding of humans, including their history, literature, and art; their social, political, and economic systems; and their relationship to the environment. The College offers courses in
the arts, humanities, and social sciences, which constitute the foundation of a liberal arts education.

## College Programs

Undergraduate majors lead to one of three degrees: Bachelor of Arts, Bachelor of Fine Arts, or Bachelor of Music. Descriptions of the specific departmental and interdepartmental majors and concentrations in the College of Liberal Arts are located in the following pages.

Students should consider simultaneously completing the requirements of a second major or a departmental or interdisciplinary minor, either in the College of Liberal Arts or in another college. With careful planning, numerous combinations are possible within four years of study.

The minimum scholastic average acceptable for graduation in any college program is a 2.000 average in all major courses in addition to the university's overall grade point average requirement of 2.000 for Colorado State courses.

## Undergraduate Career Opportunities and Career Counseling

Graduates from the College of Liberal Arts enter a remarkable variety of careers. Degrees from the College of Liberal Arts prepare students for success in their professional, personal, and civic lives. The skills and dispositions students develop through study in the liberal arts are widely sought. In preparing themselves for future career opportunities students are encouraged to work closely with Academic Support Coordinators, departmental mentors, and career counselors. Through these conversations students will be encouraged to develop resumes, interviewing skills, and articulation of the ways in which their skills will benefit potential employers. Students should also consider participating in internships to gain practical work experience.

## Prelaw

Clark C, Room 336B
(970) 491-0704
courtenay.daum@colostate.edu
Prelaw adviser, Dr. Courtenay Daum
Students preparing for law school can choose any major. Law schools seek above-average students with broad educational backgrounds and excellent communication, and analytical skills. Prelaw students, regardless of major, should design a course of study that develops their skills in speaking, writing and analytical capabilities. Law schools require an undergraduate degree for admission. Visit the Department of Political Science (http://politicalscience.colostate.edu/undergraduate/pre-law)for more information.

## Education Abroad

Because the knowledge of at least one other culture is valuable in understanding our own, students are encouraged to take a semester or longer to study outside of the United States as part of their overall program at CSU. Students interested in education abroad should plan, far in advance, by discussing opportunities with their advisor and by visiting the Office of International Programs (http:// educationabroad.colostate.edu) in Laurel Hall.

## Foreign Service Officer Career

Students interested in a career as a foreign service officer may prepare for both the general Foreign Service Officer Examination and the associated language examination within the following majors: economics; history; international studies; journalism and technical communication; languages, literatures, and cultures; liberal arts; political science; or sociology.

## Graduate Programs

A variety of liberal arts advanced degrees are available in the College. Academic degrees offered are Doctor of Philosophy, Master of Arts, Master of Science, Master of Fine Arts, and Master of Music. The last two are generally considered professional degrees.

The College offers three interdisciplinary master's degrees. The Department of Anthropology offers a master's degree in Anthropology with a specialization in International Development, with courses from across CSU. The Departments of English and Languages, Literatures and Cultures offer a joint master's program in foreign languages and the
teaching of English as a second/foreign language. The LEAP Institute for the Arts offers a Master's in Arts Leadership and Cultural Management in collaboration with the College of Business, the College of Liberal Arts and others, that prepares students for leadership opportunities within and outside of the creative sector. Information on all three degree programs may be obtained from any participating department.

For detailed information about graduate programs, contact individual departments. See also the Graduate and Professional Bulletin.

1 Students are required to participate in the Professional Learning Institute (PLI) program as a requirement for graduation. The program consists of eleven PLI workshops distributed by focus areas as follows: Global and Cultural Diversity (2 workshops), Innovation (2 workshops), Leadership (2 workshops), Civic and Public Engagement ( 2 workshops), and Ethics ( 3 workshops). Each workshop is between 1-2 hours long and no outside preparation is required to attend any of the workshops. Attendance at the required workshops may be spread over the student's five year program.
from the following subject codes: ANTH, ART, CO, D, E, ECON, ETST, GR, HIST, JTC, L***, LB, MU, PHIL, POLS, PSY, SOC, SPCM, TH, WS. Courses used to fulfill All-University Core Curriculum (AUCC) requirements may not be double-counted toward this major requirement.
3 Select 18 upper-division (300- to 400-level) credits from at least two subject codes in the arts and humanities or social sciences disciplines: ANTH, ART, CO, D, E, ECON, ETST, GR, HIST, JTC, L***, LB, MU, PHIL, POLS, PSY, SOC, SPCM, TH, WS. No more than 6 credits of Psychology (PSY) may count toward this major requirement.
4 Select from the list of CLA AUCC 4B courses (above).

5 Select from College of Engineering, Engineering Science list of courses.
6 Students may need to obtain a prerequisite override from the department to enroll in this course.

## Major Completion Map

Distinctive Requirements for Degree Program:
TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus. Students
are required to participate in the Professional Learning Institute (PLI) program as a requirement for graduation. The program consists of eleven PLI workshops distributed by focus areas as follows: Global and Cultural Diversity (2 workshops), Innovation (2 workshops), Leadership (2 workshops), Civic and Public Engagement (2 workshops), and Ethics (3 workshops). Each workshop is between 1-2 hours long and no outside preparation is required to attend any of the workshops. Attendance at the required workshops may be spread over the student's five-year program.

## International Studies Course Selection

Students must select a geographic option area, and from that select a minimum total of 18 credits, 15 of which must be Upper-Division (300- to 400-level), from at least three subject codes, from the following groups of courses.

- Select at least 6 credits from 1) History and Politics;
- Select at least 3 credits from 2) Thought and Cultures;
- Select at least 6 credits from 3) International Studies (course list applies to all geographic option areas);
- Select an additional minimum of 3 credits from among the three groups to bring the total to 18.

1 Students are required to participate in the Professional Learning Institute (PLI) program as a requirement for graduation. The program consists of eleven PLI workshops distributed by focus areas as follows: Global and Cultural Diversity (2 workshops), Innovation (2 workshops), Leadership (2 workshops), Civic and Public Engagement ( 2 workshops), and Ethics ( 3 workshops). Each workshop is between 1-2 hours long and no outside preparation is required to attend any of the workshops. Attendance at the required workshops may be spread over the student's five year program.
2 Courses are to be selected with the approval of the Engineering advisor. A minimum of 7 credits must be upper-division (300- to 400level)

3 Each student is required to complete a minor in a foreign language. Contact the Department of Languages, Literatures and Cultures.
4 Students may need to obtain an override in order to register for some courses. For Engineering courses, students should see the appropriate Engineering department. For International Studies courses, students should contact the instructor.

5 To fulfill the International Studies Course Selection requirement, select a minimum total of 18 credits, of which at least 15 must be upper-division ( 300 - to 400 -level), from a minimum of three different subject codes. Students will choose an International Studies geographic option area, and from those course lists select: a minimum of 6 credits from 1) History and Politics; a minimum of 3 credits from 2) Thought and Culture; a minimum of 6 credits from 3) International Studies (list is same for all option areas); and an additional minimum of 3 credits of choice from lists 1,2 , or 3 .
Select one course from the list of courses in category 3B of the AllUniversity Core Curriculum (AUCC) except for $\mathrm{L}^{* * *}$ language courses. Credit allowed for only one of LCHI 365, LGEN 465B, LJPN 365. French (LFRE), German (LGER), or Spanish (LSPA) only. French (LFRE) or German (LGER) only
${ }^{0}$ To count toward the International Studies Course Selection, travel abroad must be to a country or area covered by the chosen geographic option.

## Distinctive Requirements for Degree Program:

TO DECLARE MAJOR: Engineering is a controlled major: students are admitted into the major only if they meet established academic standards. Please see competitive major requirements or the advisor in the Department for more information.

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus. Students are required to participate in the Professional Learning Institute (PLI) program as a requirement for graduation. The program consists of eleven PLI workshops distributed by focus areas as follows: Global and Cultural Diversity ( 2 workshops), Innovation (2 workshops), Leadership (2 workshops), Civic and Public Engagement (2 workshops), and Ethics ( 3 workshops). Each workshop is between 1-2 hours long and no outside preparation is required to attend any of the workshops. Attendance at the required workshops may be spread over the student's five-year program.

## Major in International Studies

Andrea Williams, Director
The International Studies major is an interdisciplinary program designed to help students understand the nature of diverse cultures and peoples. There are four concentrations: Asian Studies, European Studies, Latin American Studies, and Middle East and North African Studies. Courses are required in foreign language, geography, political science, economics, history, and international studies, with other elective courses chosen from these and many more disciplines across the college and university.

## Learning Outcomes

Graduates of the International Studies major will demonstrate that they are competent and capable in:

- Writing effectively about the themes of International Studies and related fields
- Communicating cross-culturally through written and oral expression
- Thinking critically about international issues
- Applying an interdisciplinary approach to knowledge

## Potential Occupations

Graduates in International Studies apply their education in a wide variety of careers, including those in international business, nonprofit organizations, academics, public policy, law, government, city planning, engineering, environmental sustainability and clean energy, information systems, journalism, publishing, education, sales and marketing, management and administration, artistic production, mass media, communications, museums, entertainment, foreign service, and many other areas in need of intelligent, well-rounded, and broadly world-educated people. Some International Studies graduates enter graduate or professional schools for more specialized study in either international studies or one of many other disciplines. To enhance their career opportunities, majors are encouraged to consider participating in paid or volunteer work or internship opportunities, and to study abroad.

# Major in Interdisciplinary Liberal Arts 

## Dean's Office

Clark Building, Room C138
(970) 491-5421
libartsmajor.colostate.edu (http://libartsmajor.colostate.edu)

## Kevin Foskin, Director

The Interdisciplinary Liberal Arts major is a degree program combining the humanities, the arts, languages and literature, and social sciences so as to foster interdisciplinary knowledge, core career competencies, personal development, professional excellence, interpersonal confidence and expertise, and a deeper understanding of the complex world in which we live. Interdisciplinary Liberal Arts majors can select between the Interdisciplinary Liberal Arts major and a five-year joint program with dual degrees in Liberal Arts (B.A.) and Engineering Science (B.S.).

To further increase depth and focus, and to enhance expertise and career opportunities, Interdisciplinary Liberal Arts students are required to complete a minor or an interdisciplinary minor from within the College of Liberal Arts.

## Learning Outcomes

Students will demonstrate the following skills:

- Writing effectively about the knowledge and perspectives of their field of study, including
a. organization in a manner that aids the readers' comprehension as well as the writer's purpose;
b. use of accepted grammatical form, spelling, and punctuation;
c. use of language in a style that is appropriate to the writer's purpose;
d. effective support of claims; and
e. clear citation of information sources.
- Speaking effectively, including
a. creation of a logically constructed message;
b. adaptation of that message to a particular audience;
c. use of accepted grammatical forms of standard American English dialect;
d. use of appropriate and engaging language; and
e. use of effective delivery skills.
- Thinking critically about contemporary issues, particularly within their field of study, including
a. description of a policy, position, or artifact;
b. analysis of the policy, position, or artifact by identifying issues or articulating and then applying a critical framework or perspective; and
c. clear articulation and support of conclusions based on that analysis/identification of issues.

## Potential Occupations

Graduates in Interdisciplinary Liberal Arts apply their education in a wide variety of careers and/or academic professions, including public policy, politics, healthcare, artistic production, mass media, engineering, law, city planning, business, information systems, international business, journalism, publishing, education, sales and marketing, management and administration, government, communications, museum work, entertainment, foreign service, and many others. Many continue on to graduate or professional schools for more specialized study. To enhance their career, academic or professional opportunities, majors are encouraged to participate in paid or volunteer work or internship opportunities.

## Requirements

## Effective Spring 2015

## Second Field Requirement

Students in the Interdisciplinary Liberal Arts major must complete one of the following choices:

- A minor
- An interdisciplinary minor
- A second major
- 21 credits in a single language to include at least 6 upper-division (300-to 400-level) credits. At least 6 upper-division credits in this choice must be completed at CSU. (Completion of this choice is not transcripted.)

# Master in Arts Leadership and Cultural Management, Plan C (M.A.L.C.M.) 

University Center for the Arts, Room 303

Constance DeVereaux (constance.devereaux@colostate.edu), Director
The LEAP Institute for the Arts at CSU opens possibilities for career and life through visionary leadership, creative entrepreneurship, impassioned advocacy, and public engagement through a deeper understanding of arts and culture. This Special Academic unit in the College of Liberal Arts is pleased to offer a Masters in Arts Leadership and Cultural Management.

This graduate degree program helps students to apply their creative talents and develop new skills to meet the rising demand for entrepreneurial arts management professionals and visionary
organizational leaders. We believe the arts serve a valuable purpose in society, and we need leaders and entrepreneurs to ensure their success. Often, however, those best suited to serve in these roles-those who are passionate about their creative work and making positive change in the community-lack formal administrative and entrepreneurial training. This arts administration master's helps students fill their knowledge gaps, so they can do the work that they love, and be more successful at it. Students will gain the foundational skills they need to operate their own business, or take on leadership roles and impact meaningful change in an organization. The program covers a broad range of entrepreneurial subjects, including finance management, media communication, policy, project planning, events management and community engagement. These are skills that not only will be immediately applicable to their career today, but will provide valuable insight to help students make informed decisions throughout their career.

The Masters in Arts Leadership and Cultural Management is a two-year 32 credit program available both in person and $100 \%$ online. For more information about the program, admissions, or the LEAP Institute for the Arts, please visit LEAP Institute for the Arts (http://leap.colostate.edu).

## Graduate Programs in Anthropology

The department offers graduate programs leading to a Master of Arts degree (Plan A thesis option or Plan B portfolio option). It also has a Master of Arts specialization in each of four programmatic areas: Health and Well-Being, Humans and the Environment, International Development and Globalization, and Professional Methods and Techniques. Students may develop a research project or professional program in these programmatic areas, or in any area related to our faculty's research interests.

Health and Well-Being-Studies the ways that human health and wellness are influenced by past and present sociocultural, environmental, biological, and biocultural forces, by drawing from broad and holistic perspectives on human well-being.

Humans and the Environment-Investigates how past and present human activities influence the environment; the ways ecological and other processes affect human evolution and the human condition today; and the resilience of social and ecological systems.

International Development and Globalization-examines how local societies respond to global influences; the extent to which cultural meanings, beliefs, institutions, structures of inequality, and social relations between genders and among kin are changing as a result; and how processes of economic and community development can improve basic aspects of human welfare.

Professional Methods and Techniques-develops skills in a wide range of methods and techniques used by professionals in applied anthropology, federal and state natural resource agencies, and other arenas of social, historical, biological and spatial research about humans. These include qualitative research and interview protocols, quantitative analysis, GIS and remote sensing, archaeological field survey, historic archaeological methods, culture and heritage resource management, and paleoanthropological methods.

Students interested in graduate work should refer to the Graduate and Professional Bulletin,and the department's website (http:// anthropology.colostate.edu).

Prerequisite: GR 000 to 99999 - at least 3 credits.
Registration Information: Junior standing.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
GR 304 Sustainable Watersheds Credits: 3(3-0-0)
Also Offered As: WR 304
Course Description: Effects of climate, land use, and water use on the sustainability of water quantity and quality.
Prerequisite: None.
Registration Information: Completion of the AUCC 1B mathematics requirement. Credit not allowed for both GR 304 and WR 304.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
Additional Information: Biological \& Physical Sciences 3A.
GR 311 GIS for Social Scientists Credits: 3 (1-4-0)
Course Description: Applications of GIS techniques useful to the social sciences. Mapping techniques and GIS toolkits are practiced in lab. Prerequisite: GR 100.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
GR 315 Quantitative Geographical Methods Credits: 3(3-0-0)
Course Description: Methods to collect, analyze, display, and model geographic data.
Prerequisite: GR 100.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
GR 320 Cultural Geography Credits: 3 (3-0-0)
Course Description: Geographic analysis of cultural phenomena, elements emphasizing human-land relationships and spatial patterns of agriculture, cities, language, religion.
Prerequisite: GR 100.
Registration Information: Sections may be offered: Online.
Term Offered: Fall (odd years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

GR 323 Remote Sensing and Image Interpretation Credits: 3(2-2-0) Also Offered As: NR 323.
Course Description: Remote sensing systems and applications; characteristics of photographic, scanner and radar images; imagery interpretations.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Credit allowed for only one of the following: GR 323, GR 503, NR 323, NR 503.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
GR 330 Urban Geography Credits: 3(3-0-0)
Course Description: Spatial distribution of urban areas and the geographic similarities and contrasts that exist between and within them. Prerequisite: GR 100.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
GR 331 Geography of Farming Systems Credits: 3(3-0-0)
Course Description: Geographic analysis of farming systems worldwide and by region; their development over time, human-land relationships, and spatial patterns.
Prerequisite: GR 100.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
GR 345 Geography of Hazards Credits: 3 (3-0-0)
Course Description: Causes, effects, distributional patterns, and human adjustments to environmental hazards.
Prerequisite: GR 210.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
GR 348 Biogeography Credits: 3 (3-0-0)
Course Description: Species distribution of plants and animals in relation to earth history and environments, evolution, and ecology.
Prerequisite: GR 000 to 99999 - at least 3 credits.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
GR 410 Climate Change: Science, Policy, Implications Credits: 3(3-0-0) Course Description: Implications and consequences for earth systems including the cryosphere, hydrosphere, and biosphere.
Prerequisite: GR 000 to 9999 - at least 3 credits.
Registration Information: Junior standing.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
GR 415 The Geography of Commodities Credits: 3 (3-0-0)
Course Description: Social relations, international trade, and environmental impacts surrounding the production, transportation, exchange and consumption of commodities.
Prerequisite: GR 100.
Registration Information: Junior standing.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

GR 420 Spatial Analysis with GIS Credits: 4 (3-2-0)
Course Description: Theory, application of geographic information systems for spatial analysis; conceptual basis of GIS, nature and use of geographic data, case studies.
Prerequisite: GR 000 to 99999 - at least 3 credits.
Registration Information: Credit not allowed for both GR 420 and NR 322.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
GR 430 Land Change Science and Remote Sensing Credits: 3(3-0-0)
Course Description: Local case studies and global cases of land-use/ land-cover changes in rural, peri-urban, and urban areas.
Prerequisite: GR 100.
Registration Information: Junior standing.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.
GR 431 Land Change Science Lab Credit: 1 (0-3-0)
Course Description: Utilize advanced remote sensing techniques and satellite images, air photos, and ancillary data to investigate land-use and land-cover changes.
Prerequisite: GR 323 or NR 323 or GR 503 or NR 503.
Registration Information: Must have concurrent registration in GR 430.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.
GR 448 Forest Biogeography and Climate Change Credits: 3 (3-0-0)
Course Description: Forest adaptation and conservation in relation to global change with a focus on climate change.
Prerequisite: ESS 211 or ESS 311 or F 311 or GR 100 or GR 210 or ESS 210 or GR 303 or GR 348 or GR 410.
Registration Information: Junior standing.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
GR 487 Internship Credits: $\operatorname{Var}[1-9]$ (0-0-0)
Course Description: Academic-based work experience with selected organizations or agencies. Supervised application of principles of geography.
Prerequisite: GR 100 to 499 - at least 9 credits.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
GR 493 Capstone Credit: 1 (1-0-0)
Course Description: Exploration of the linkages among geographic subfields and other natural and social sciences as well as how professional geographers approach issues.
Prerequisite: GR 303 with a minimum grade of A++, may be taken concurrently or GR 410 with a minimum grade of A++, may be taken concurrently or GR 415 with a minimum grade of A++, may be taken concurrently or GR 430 with a minimum grade of A++, may be taken concurrently.
Term Offered: Fall. Spring.
Grade Mode: Traditional.
Special Course Fee: No.

GR 495 Independent Study Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.
GR 503 Remote Sensing and Image Analysis Credits: 4 (3-3-0)
Also Offered As: NR 503.
Course Description: Interpretation and analysis of photographic, multispectral scanner, and radar data; sensor systems; applications to resource management.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Credit allowed for only one of the following: GR 503, GR 323, NR 323, NR 503.
Term Offered: Fall.

## Major in Anthropology

The mission of the Anthropology Department is to

1. offer and maintain instructional programs that provide a comprehensive overview and analyses of people and their cultures, both past and present;
2. conduct research in order to advance and expand knowledge of the fields of anthropology and geography;
3. participate actively in programs of interdisciplinary research.

The Department of Anthropology houses a faculty of cultural anthropologists, archaeologists, biological anthropologists, and geographers whose scholarship spans the breadth of the human experience. The program prepares undergraduate students to describe, analyze, and interpret the human condition. An examination of the social, environmental, and evolutionary contexts in which the human species is embedded defines most course work in the discipline. The program is integrative, drawing from geography, biology, the humanities, and other social and natural sciences. Geography figures prominently in our program and provides an important spatial lens through which human groups are examined over time. Four programmatic areas define faculty research and scholarship with which students can engage: humans and the environment, international development and globalization, health and well-being, and professional methods and techniques. In the education of undergraduates, the department values and promotes experiential training, primary research, and public engagement and education.

The research endeavors of the anthropology faculty are trans-disciplinary and international, they are interested in diverse topics including but not limited to contemporary culture, ethnicity, linguistics, comparative religion, virtual worlds, subsistence patterns, archaeology, human ecology, human anatomy, evolution, biogeography, land cover/land use patterns, glaciology, and the behavior of non-human primates.

Anthropology majors follow a liberal arts curriculum that provides a broad education with an emphasis on learning how to learn. The department has ten research and teaching laboratories and three summer field schools; the Ethnographic Field School at the Pine Ridge Indian Reservation, the Archaeology Field School, and the Paleontology Field School.

Undergraduate students can pursue a general anthropology degree, learning about the diversity of the human existence from a broad and holistic perspective. Students can also declare a concentration within the program. Declaring a concentration allows for a focused course of study, specializing in the particular subfield of interest. Within each concentration (Archaeology, Biological Anthropology, Cultural Anthropology and Geography), specific categories of classes guide students in learning the major theories, methods, and applications related to modern practice of our discipline. Along with our offerings of world class field schools, archaeological, biological, and ethnographic methods and geographical techniques are encouraged in order to further gain experience and perspective. Upon graduation, students are prepared for jobs or advanced training in graduate school. Students come away with a respect and appreciation for the diversity of human existence.

## Learning Outcomes

Students will:

- Demonstrate knowledge related to a basic appreciation of anthropology and its potential including:
a. respect for the similarities and differences that characterize human cultures over time and across space;
b. the theoretical perspectives that anthropologists use to comprehend these similarities and differences;
c. the methods and tools used to describe and analyze them; and
d. how the relationship between theory, methods, and data intersects.
- Integrate anthropological concepts across subfields or with other social sciences and humanities disciplines, and articulate their anthropological understandings through papers written and presented during their senior year.
- Use what they have learned in their anthropology courses in future activities after graduation.

## Potential Occupations

Anthropology, like many majors in the liberal arts, provides students with a broad academic background suitable for a variety of jobs in the public and private sectors. Anthropology majors are trained to think independently and critically, communicate effectively, and function in a multicultural world. Employers appreciate liberal arts majors for their multiple skills and their ability to adapt to a variety of tasks and work environments. Participating in internships and cooperative education opportunities is highly recommended to enhance students' practical training and development. Careers for graduates are available in international development, health care, education, business, natural resource management, and government. Graduates who go on for advanced studies can pursue careers in anthropology or attain advanced positions with the possibility of rising to top professional levels.

Some career opportunities for anthropology graduates include, but are not limited to: museum curator/researcher, genealogist, international relief representative, salvage archaeologist, collections assistant, resource specialist, classical or historical anthropologist, cultural affairs officer, diplomatic service representative, immigration or foreign service officer, linguist, educational television researcher, forensic osteologist, biographical writer, scientific/technical writer, reporter, ethnographic photographer, anthropological linguist, rural development worker, ethnic groups' special concerns advocate, intercultural educator, medical anthropologist, grant writer, psychological anthropologist, international development administrator, public relations representative, public opinion
pollster, sales/marketing representative, consultant for cross-cultural relations, personnel worker, geographic information systems specialist.

1 ANTH 100 fulfills All-University Core Curriculum (AUCC) category 3C. Taking ANTH 100 in the freshman year will eliminate the requirement for 3 credits of Social and Behavioral Sciences in the sophomore year. If ANTH 200 is chosen in the freshman year instead, then 3 credits of Social and Behavioral Sciences will be required in the sophomore year, selected from the list of courses in category 3C of the AUCC.
2 ANTH 200 fulfills AUCC category 3E. Taking ANTH 200 in the freshman year will eliminate the requirement for 3 credits of Global and Cultural Awareness in the sophomore year. If ANTH 100 is chosen in the freshman year instead, then 3 credits of Global and Cultural Awareness will be required in the sophomore year, selected from the list of courses in category 3E of the AUCC.
3 Additional Humanities courses taken in the freshman and senior years for a total of six credits must include two subject codes, selected from among the following: ART, D, CO, E, ETST 430, L***, LB 192 (Arts and Humanities sections only), MU, PHIL, SPCM, TH.
4 Select 7 credits including two subject codes and at least one formal laboratory from the following: AA, BMS, BIO, BZ, CHEM, GEOL, GR 210, LIFE, MATH, NR, NSCI, PH, SOCR, and STAT.

Select a total of 9 credits over the sophomore, junior and senior years as shown, and including at least two subject codes, from the following: ECON, HIST, JTC, POLS, PSY, SOC, LB 192 (social science sections only), ETST (except ETST 430).

7 ANTH 493 must be taken concurrently with one of the AUCC 4A anthropology courses listed with ANTH 493 in the senior year. Using Competencies (AUCC 4A) must be taken concurrently with ANTH 493. Courses approved for AUCC category 4A taken in the sophomore, junior, or senior year and not concurrently with ANTH 493 and not included in the approved list in the program will not count toward completion of the 4A requirement for this major. Students taking Senior Honors Thesis (HONR 499, 3 credits) are also required to register for ANTH 493 (1 credit).
8 Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

## Major in Anthropology, Archaeology Concentration

The Archaeology concentration at CSU focuses on the Americas and includes prehistoric and historic archaeology. The faculty members of this sub-discipline have expertise in:

- Rocky Mountain and Plains Archaeology
- Paleo-Indian Studies
- Hunter-Gatherer Ecology
- Taphonomy
- Zooarchaeology
- Public Archaeology
- Andean Archaeology
- Inca and Spanish Empires
- Mining Communities
- Mesoamerican Archaeology
- Landscape Archaeology
- Legacies of Resilience Project (LORE-LPG)

Special resources include the Center for Mountain and Plains
Archaeology; the MesoAmerican lab; and the Cultural Resources section of the Center for the Ecological Study of Military Lands. The archaeology program sponsors an annual field school each summer and houses the CSU Archaeological Repository.

| 3 | Additional Humanities courses taken in the freshman and senior years for a total of six credits must include two subject codes, selected from among the following: ART, D, CO, E, ETST 430, L***, LB 192 (Arts and Humanities sections only), MU, PHIL, SPCM, TH. |
| 4 | Select 6 credits including two subject codes from the following: AA, BMS, BIO, BZ, CHEM, GEOL, GR 210, LIFE, MATH, NR, NSCI, PH, SOCR, and STAT. |

5
Select a total of 9 credits over the sophomore, junior and senior years as shown and including at least two subject codes from the following: ECON, HIST, JTC, POLS, PSY, SOC, LB 192 (social science sections only), ETST (except ETST 430).
6 ANTH 493 must be taken concurrently with one of the AUCC 4A cultural anthropology courses listed with ANTH 493 in the senior year. Using Competencies (AUCC 4A) must be taken concurrently with ANTH 493. Courses approved for AUCC category 4A taken in the sophomore, junior, or senior year and not concurrently with ANTH 493 and not included in the approved list in the program will not count toward completion of the 4A requirement for this major. Students taking Senior Honors Thesis (HONR 499, 3 credits) also are required to register for ANTH 493 (1 credit).
7 Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300 to 400-level).

## Major in Anthropology, Biological Anthropology Concentration

Over the past half century biological anthropology has undergone tremendous change from a discipline that was defined by a descriptive, typological approach to human morphology to one that includes both experimental and comparative analyses in a population based framework.

Biological anthropologists continue to cross traditional disciplinary boundaries and interact with both the physical and natural sciences, including biology, anatomy, genetics, chemistry, biometry, or endocrinology as well as the social sciences.

The expertise of existing faculty in Biological Anthropology at CSU includes:

- Human skeletal biology
- Evolutionary theory
- Neanderthal paleobiology and paleobiogeography
- Dental anthropology
- Public Health
- Early hominid feeding ecology
- Taphonomy
- Plio-Pleistocene Africa
- Pleistocene Asia

Special resources include the Paleoanthropology and Zooarchaeology lab, the Human Origins Lab and the Bioanthropology Lab. Existing faculty also have geographic foci significant to their research. Research areas include Uzbekistan, Kazakhstan, Tanzania, and Mexico.

1 ANTH 100 fulfills All-University Core Curriculum (AUCC) category 3C. Taking ANTH 100 in the freshman year will eliminate the requirement for 3 credits of Social and Behavioral Sciences in the sophomore year. If ANTH 200 is chosen in the freshman year instead, then 3 credits of Social and Behavioral Sciences will be required in the sophomore year, selected from the list of courses in category 3C of the AUCC.
ANTH 200 fulfills AUCC category 3E. Taking ANTH 200 in the freshman year will eliminate the requirement for 3 credits of Global and Cultural Awareness in the sophomore year. If ANTH 100 is chosen in the freshman year instead, then 3 credits of Global and Cultural Awareness will be required in the sophomore year, selected from the list of courses in category 3E of the AUCC.

Additional Humanities courses taken in the freshman and senior years for a total of six credits must include two subject codes, selected from among the following: ART, D, CO, E, ETST 430, L***, LB 192 (Arts and Humanities sections only), MU, PHIL, SPCM, TH.
4 Select a total of 9 credits over the sophomore, junior and senior years as shown, and including at least two subject codes, from the following: ECON, HIST, JTC, POLS, PSY, SOC, LB 192 (social science sections only), ETST (except ETST 430).
Capstone topic must focus on geography. ANTH 493 must be taken concurrently with one of the AUCC 4A anthropology courses listed with ANTH 493 in the senior year. Using Competencies (AUCC 4A) must be taken concurrently with ANTH 493. Courses approved for AUCC category 4A taken in the sophomore, junior, or senior year and not concurrently with ANTH 493 and not included in the approved list in the program will not count toward completion of the 4A requirement for this major. Students taking Senior Honors Thesis (HONR 499, 3 credits) are also required to register for ANTH 493 ( 1 credit). level).

## Major in Anthropology, Cultural Anthropology Concentration

The Cultural Anthropology concentration focuses on contemporary experiences of culturally distinct communities encountering a rapidly globalizing political economy. Students are provided with robust training in mixed methods, community-based approaches, and applied anthropology. Topically, faculty investigate issues related to the transformation of individual experience and community relations within the context of economic development, governmental and nongovernmental policy, and environmental change. Increasingly, faculty seek to understand the way subjective and material well-being are impacted by the rapidly changing contexts of modernity. Topics of research interest include:

- Human-Environment Interactions
- Community and Economic Development
- Health and Well-Being
- Cultural Psychiatry
- Disasters and Resilience
- Gender
- Culture Continuity and Change

Passionate about teaching, faculty strive to bring excitement and relevance to the classroom by infusing it with their practical field experiences. Cultural faculty conduct their research in India, Southeast Asia, Central Asia, East Africa, the Caribbean, New Orleans, Native North America, and in virtual reality. Students concentrating in Cultural Anthropology explore issues of place and space, cultural theory, cultural content and methods.

## Minor in Anthropology

Anthropology focuses on a cross-cultural view of humanity, and broadly conceived dimensions of human behavior. Description and explanation of human activities in other societies provide a sense of perspective for individuals operating within their own culture. A minor may be focused on one or more of the sub-disciplinary divisions such as biology, archaeology, cultural anthropology, or applied anthropology; or it may be distributed across the fields like the major requirements.

## Requirements Effective Fall 2001

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upperdivision (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

## Minor in Geography

The minor in Geography examines the critical interactions among space, place, people and the built and natural environment to interpret the
spatial and temporal distribution of features and processes, applying spatial techniques and information technologies such as Geographic Information Systems (GIS) and remote sensing.

## Requirements Effective Fall 2015

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upperdivision (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

## Master of Arts in Anthropology Plan A

The thesis option must consist of a minimum of 30 semester credits of course work concentrated in anthropological areas relevant to the participant's professional goals. The thesis is the culmination of a research project carried out by the student under the guidance of his or her advisor. A final examination consists of a defense of the thesis, as well as other parts of the program of study.

## Plan B

The non-thesis option is intended for students seeking development of an understanding of anthropology which will allow them to move on to a PhD program in anthropology, or be incorporated in their work. Plan $B$ students are expected to take a more broadly distributed series of courses and to show less specialization than that which characterizes Plan A programs of study.

Requirements for Plan B are a minimum of 36 credits of study. Students must complete a portfolio of work demonstrating both the breadth of their understanding of anthropology and their own area of specialization, selected in consultation with the student's advisor. A final examination consists of a defense of the portfolio, as well as other parts of the program of study.

## Major in Art, B.F.A.

Throughout history, art has been a fundamental language of the human spirit. Visual arts express human experience through an ever-widening range of media and materials, some of which include: oils, acrylics,
pastels, charcoal, clay, plaster, steel, bronze, wood, copper, litho stones, and computers. Visual artists create abstract works and images of objects, people, nature, topography, and events. The Department of Art and Art History offers several options of study. The B.F.A. (Bachelor of Fine Arts) degree in studio art and the B.A. (Bachelor of Arts) degree in art history, art education, or studio art are all professional degrees, leading to related art careers.

## Learning Outcomes

Students will demonstrate:

- Fundamental knowledge and mastery of media and processes necessary to communicate meaning in a work of art.
- Ability to communicate clearly about their own art and the art of others.
- Knowledge about contemporary art and motivation to view and discuss current local, regional, and national exhibitions. Students well versed on contemporary art would:
a. regularly read reviews of exhibitions in local and national newspapers;
b. regularly read art periodicals;
c. attend multiple exhibitions; and
d. be knowledgeable about contemporary artists in their discipline (i.e., nationally known painters, sculptors, etc.).

## Potential Occupations

Art graduates possess a number of transferable communication, analytical, and critical thinking skills, and as a result find positions in academia, in addition to roles as freelance artists, graphic designers, art educators, art historians, studio fine artists and as "creatives" in government and industry. Many employers appreciate art majors for their multiple skills and their ability to adapt to a variety of tasks and work environments. Participation in internships, cooperative education, and service learning opportunities is highly recommended to enhance practical training and development. Graduates who go on for advanced studies can attain more responsible positions with the possibility of rising to top professional levels.

Depending on student interests, the electives taken, or the concentration selected, available career choices include, but are not limited to: art appraiser, art director, art therapist, exhibit designer, art critic, jeweler, gallery director, graphic design artist, free lance artist, sculptor, woodworker, welder, foundry worker, studio photographer, technical illustrator, painter, textile designer, weaver, art educator, art historian, art curator, art librarian, art museum educator, web page designer, photo lab technician, art restorer, and master printer.

## Bachelor of Fine Arts (B.F.A.)

The B.F.A. degree is a professional program for careers in studio art. Students have an opportunity to concentrate in one of ten studio fields: Drawing, Electronic Art, Graphic Design, Fibers, Metalsmithing, Painting, Photo Image Making, Pottery, Printmaking, and Sculpture. The curriculum progression in the department is similar within the concentrations and some concentrations may have restrictions. Freshmen study foundation courses in the fine arts, which include drawing, painting, sculpture, and art history. Sophomores explore various concentration courses and become familiar with the studio practices for the concentration studios housed in separate wings that feature large, well-equipped studio spaces designed for exploration of work in a specific media. Juniors and seniors
focus on advanced topics in their chosen concentration by taking one upper-division course in their chosen field each semester.

## Concentrations

- Drawing Concentration
- Electronic Art Concentration
- Fibers Concentration

## Major in Art, B.A.

Throughout history, art has been a fundamental language of the human spirit. Visual arts express human experience through an ever-widening range of media and materials, some of which include: oils, acrylics, pastels, charcoal, clay, plaster, steel, bronze, wood, copper, litho stones, and computers. Visual artists create abstract works and images of objects, people, nature, topography, and events. The Department of Art and Art History offers several options of study. The B.F.A. (Bachelor of Fine Arts) degree in studio art and the B.A. (Bachelor of Arts) degree in art
history, art education, or studio art are all professional degrees, leading to related art careers.

## Learning Outcomes

Students will demonstrate:

- Fundamental knowledge and mastery of media and processes necessary to communicate meaning in a work of art.
- Ability to communicate clearly about their own art and the art of others.
- Knowledge about contemporary art and motivation to view and discuss current local, regional, and national exhibitions. Students well versed on contemporary art would:
a. regularly read reviews of exhibitions in local and national newspapers;
b. regularly read art periodicals;
c. attend multiple exhibitions; and
d. be knowledgeable about contemporary artists in their discipline (i.e., nationally known painters, sculptors, etc.).

## Potential Occupations

Art graduates possess a number of transferable communication, analytical, and critical thinking skills, and as a result find positions in academia, in addition to roles as freelance artists, graphic designers, art educators, art historians, studio fine artists and as "creatives" in government and industry. Many employers appreciate art majors for their multiple skills and their ability to adapt to a variety of tasks and work environments. Participation in internships, cooperative education, and service learning opportunities is highly recommended to enhance practical training and development. Graduates who go on for advanced studies can attain more responsible positions with the possibility of rising to top professional levels.

Depending on student interests, the electives taken, or the concentration selected, available career choices include, but are not limited to: art appraiser, art director, art therapist, exhibit designer, art critic, jeweler, gallery director, graphic design artist, free lance artist, sculptor, woodworker, welder, foundry worker, studio photographer, technical illustrator, painter, textile designer, weaver, art educator, art historian, art
curator, art librarian, art museum educator, web page designer, photo lab technician, art restorer, and master printer.

## Concentrations

- Art Education Concentration
- Art History Concentration
- Studio Concentration

## Bachelor of Arts, Art Education Concentration

The Art Education concentration embraces the artist-teacher concept, which allows students to develop a studio concentration while preparing to teach art at the K-12 level. The program is comprehensive, meaning students take course work to prepare them to teach at the elementary and secondary school levels. The Art Education program enjoys good working relationships with school districts in the state of Colorado. Students integrate studio, art history, criticism, and aesthetics as they observe and teach-through a variety of experiences-in the public schools.

Students interested in pursuing a teaching license through CSU may refer to the Center for Educator Preparation (CEP) (http:// cep.chhs.colostate.edu/students/teacher/admissions.aspx), College of Health and Human Sciences section for general information.

Art Education students must maintain a 2.75 cumulative GPA for admission to the Art Education program, eligibility for student teaching placement, and licensure.

## Bachelor of Arts, Art History Concentration

Art History provides a basic preparation in art history for graduate studies; careers in research and teaching at the college level; for
positions in museums, libraries, or private collections; or for writing and criticism in the arts. Graduate studies or advanced-level classes are necessary for advancement. In-depth study in a second field allows students to refine their focus.

## Requirements

## Effective Fall 2016

A minimum grade of $C(2.000)$ must be achieved in each upper-division art course in the student's concentration. The minimum scholastic average acceptable for graduation is 2.000 computed only for courses attempted at CSU.

## Bachelor of Arts, Studio Concentration

The Studio concentration gives students a liberal education with a focus on one or more of the visual arts. The concentration enables graduates
to incorporate their specialty into their careers and life activities. People who are knowledgeable about art may contribute much by supporting community arts activities and teaching others.

## Requirements

## Effective Fall 2016

A minimum grade of $C(2.000)$ must be achieved in each upper-division art course in the student's concentration. The minimum scholastic average acceptable for graduation is 2.000 computed only for courses attempted at CSU.

## Graduate

## Graduate Programs in Communication Studies

The graduate program leads to a Master of Arts in Communication Studies. Graduate coursework, as well as a required thesis for the Plan A master's, enables students to develop expertise in one or a combination of three areas of emphasis:

1. media and visual culture;
2. relational and organizational communication; and/or
3. rhetoric and civic engagement.

In each of these areas, students select course work from among the following topics:

1. contemporary issues in media, media theories, media audiences, media texts, and media industries;
2. communication theories, communication and diversity, interpersonal theories, and discourse and organization; or
3. public address, rhetoric and public affairs, rhetorical theory, rhetorical criticism, rhetoric of everyday life, and feminist theory.

The Plan B master's provides a Deliberative Practices Specialization with coursework in deliberative theory and practice, a practicum, and an Independent Study serving as the culminating report in lieu of a thesis.

Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Communication Studies (http://communicationstudies.colostate.edu).

## Major in Communication Studies

Communication Studies majors receive a broad-based, liberal arts education, designed to equip them for the challenges of the $21^{\text {st }}$ century, the need to adapt to a rapidly changing workplace, and the likelihood of more than one career. The major encompasses many facets of media and visual culture, relational and organizational communication, and rhetoric and civic engagement. Along with courses in communication studies, the major requires courses in the arts and humanities, the social sciences, and history, and a minor or second major.

The department's goals for undergraduate majors include helping students to achieve an outstanding education in communication studies, to further their knowledge and understanding of human communication, and to provide leadership in communication activities. In so doing, we hope to help students prepare for successful careers, the duties of citizenship, and productive and rewarding lives.

## Learning Outcomes

Students will demonstrate:

- Totality: Students will be able to demonstrate a comprehensive understanding of the Communication Studies discipline. They will be able to discuss the central topics in the field related to history, theory, and research. Students' knowledge of the field will also span several contexts of communication scholarship, including media and visual culture, relational and organizational communication, and rhetoric and civic engagement.
- Synthesis: In addition to having a comprehensive understanding of the foundational concepts, theories and research domains in the Communication Studies discipline, students will be able to integrate what they have learned in these areas and apply their knowledge to address contemporary issues salient to their personal, professional, and civic lives.
- Skillfulness: Central to the Communication Studies discipline is the development of strong oral and written skills. Students will be able to construct and deliver high-quality, evidence-based arguments tailored to specific audiences. Additionally, students will be able to thoughtfully and ethically critique the oral and written work of their peers (as well as communicators in other professional and public settings).

## Potential Occupations

The Communication Studies major, like many liberal arts majors, provides students with a broad academic background suitable for a variety of jobs in the public and private sectors. Majors are trained to think independently and critically, communicate effectively, and function in a multicultural world. Employers appreciate Communication Studies majors for their multiple skills and their ability to adapt to a variety of tasks and work environments.

Many majors find employment in public relations/marketing, politics, sales, human relations, government, business management, convention and meeting planning, education, and computer-mediated
communication. Some students move on to graduate work in communication studies and to post-graduate study in law and theology.

Career opportunities include, but are not limited to employee relations specialist, employment counselor, human resource consultant, industrial relations representative, public relations specialist, labor relations consultant, training director, vocational rehabilitation counselor, advance agent, business communicator, equal opportunity representative, foreign service officer, cooperative extension service worker, politician, lobbyist, speechwriter, press agent, literary agent, interviewer, sales representative, scriptwriter, lawyer, teacher.

Internships are available to Communication Studies majors and are highly recommended to enhance practical training and development. Graduates who seek advanced studies can attain more responsible positions with the possibility of rising to top professional levels.

## Major in Economics

Economics is the study of how people and societies use scarce resources to produce the things they want. Economic theory provides a framework for understanding economic issues, analyzing and predicting the likely effects of economic behavior and government policies, and formulating efficient and equitable solutions to pressing economic problems.

A strong liberal arts curriculum including arts and humanities, social and natural sciences, advanced composition, mathematics, and statistics provides the depth and breadth of knowledge needed to systematically and logically analyze problems, generate and test ideas, and develop effective communication and quantitative skills. Economics majors develop an appreciation of economic issues, and learn to analyze and
critically evaluate economic phenomena and policies. The major core includes four semesters of economic theory, a semester of econometrics, a senior capstone seminar, and several semesters of economics electives covering a wide variety of economic topics from environmental and natural resource economics to the history of economic institutions and political economy.

## Learning Outcomes

Students will:

- Display command of basic microeconomic concepts such as rationality, cost/benefit, supply and demand theory, decision making at the margin, monopoly and competition, and efficiency and equity.
- Display command of basic macroeconomic concepts such as aggregate demand and supply, fiscal and monetary policy, and the use of these policies in the macro-economy.
- Understand and analyze basic economic issues found in the news and understand how the economic aspects of society work.

## Potential Occupations

Economists are employed in a wide variety of fields from education and research to business and government. Nonprofit and international organizations use economists in overseas development, environmental conservation, and international relations. Economics, like many liberal arts majors, provides students with a broad academic background suitable for a variety of jobs. Economics majors are trained to think independently and critically, communicate effectively, and function in a multicultural world. Many employers appreciate liberal arts majors for their multiple skills and their ability to adapt to a variety of tasks and work environments. Careers for graduates are available in education, business, and government. Participation in internships or cooperative education opportunities is highly recommended to enhance practical training and development. Graduates who go on for advanced studies can pursue careers in economics or attain advanced positions with the possibility of rising to top professional levels.

Depending on interests, the electives taken, or the minor selected, available career choices include, but are not limited to: commodities/ stock broker, financial analyst, economic forecaster, trust administrator, loan counselor, pension funds administrator, foreign trade analyst, public policy analyst, regional/urban planner, foreign service officer, tax auditor, natural resource analyst, educator, program administrator, researcher, community organizer, environmental activist, international aid organization analyst or administrator, marketing analyst, purchasing agent, public relations/media planner, program consultant, contract administrator, systems evaluator, personnel planner, portfolio administrator, finance manager, secondary school teacher.

## Requirements

## Effective Spring 2013

Economics majors must achieve a minimum grade of 1.670 (C-) in each of the economics courses counted toward the major.

## Major in English

English majors develop an understanding of diverse cultures, literary traditions, and great works of English, American, and world literature. Students expand their ability to analyze a variety of texts and view them through the lenses of diverse critical perspectives. Majors develop the ability to write for both specialized and general audiences. There are five concentrations from which students can choose:

- English Education,
- Language,
- Literature, or
- Writing, Rhetoric and Literacy.

## Learning Outcomes

Students will demonstrate:

- Competency in critical reading and interpretive techniques, including:
- formulating, developing, and supporting interpretive positions with appropriate evidence;
- using technical and conceptual vocabulary knowledgeably;
- using appropriate methodologies, critical approaches, and theoretical perspectives; and
- being original and creative.
- Effective written expression in a variety of genres for a range of audiences on literary and non-literary topics.
- Familiarity with the main writers, texts, genres, and movements in the literary history of the United States and British Isles; and/or the history and development of the English language; and/or literacy issues in their historical contexts.

## Potential Occupations

A major in English prepares students for business, government, or education careers that require broadly educated people who can think critically, communicate effectively, analyze texts, and write well. Many employers appreciate liberal arts majors for their multiple skills and their ability to adapt to a variety of tasks and work environments.

The department encourages experiential education by offering a variety of internship opportunities.

Students are also invited to generate their own positions in fields of interests, as well as pursue established local, regional, or national internships. Graduates who go on for advanced studies can attain more responsible positions with the possibility of rising to top professional levels.

Depending on a student's interests, the electives taken, or the concentration selected, available career choices include, but are not limited to: copy editor; project editor; manuscript reader or story analyst; sales representative; publicity and promotion specialist; advertising coordinator; production specialist; assistant book publicist; contracts and permission specialist; agency or arts administrator; human resource manager; human services program developer; public relations; English teacher; teacher of English as a second language; curriculum developer; education administrator; grant writer; technical writer for business, industry, or science; magazine, newspaper, television, education, or government writer; biographer or writer of prose, fiction, or nonfiction; lyricist.

## Major in English, Creative Writing Concentration

The Creative Writing concentration gives students the opportunity to strengthen their creative writing and reading skills and their imaginations. Students take beginning, intermediate, and advanced courses in one or more of the following genres: fiction, poetry, and nonfiction. Intermediate and advanced courses are primarily workshop classes in which students read and critique one another's work. At the center of all creative
writing courses is the study of craft. Students in the creative writing concentration also take a wide variety of literature classes, which prepare them to be writers by schooling them in literary traditions and styles. An internship program for all English majors offers creative writing students writing and research positions that may lead to employment. In addition, the creative writing program runs a vibrant reading series that gives students the chance to meet visiting writers.

## Major in English, English Education Concentration

The English Education concentration provides students with preparation for teaching in secondary schools. It is designed for students who wish to pursue a career in teaching language arts and offers a range of courses in language, literature, and writing. Students may receive an endorsement from the State of Colorado in English Language Arts. In addition to the
common requirements for the English major, students pursuing teaching licensure take several extra courses in English, as well as education classes through the School of Education.

Students interested in pursuing a teaching license through CSU may refer to the Center for Educator Preparation (CEP) (http:// cep.chhs.colostate.edu).

1 The department requires Licensure majors to take a minimum of 12 credits of upper-division E or CO subject code courses to include the categories listed below. One course may count for two categories if necessary, but students must take a minimum of 12 credits to fulfill this requirement:

- 3 credits must be in literatures of the British Isles before 1830, or in American or European literatures before 1900;
- 3 credits must be in literatures of the British Isles after 1830, or in American or European literatures after 1900;
- 3 credits must be in either breakthroughs (ideological, racial, cultural, gendered) or genre courses;
- One course must be a world literature course;
- One course must be a capstone course (see list in senior year, above).

See the department list for the courses that fulfill these categories.
Any lower or upper-division E subject code course.

## Major Completion Map

Distinctive Requirements for Degree Program:
For admission to Teacher Licensure program, students must have a 2.750 cum. GPA on all work attempted at accredited institutions. For licensure, students must complete all coursework in the teaching concentration and professional education with a grade of C or above and must have a cumulative GPA of 2.750.

## Minor in English

When visiting the English Department office to officially declare an English or English-related minor (http://english.colostate.edu/ undergraduate/english-related-minors), students will be provided with a course guide for that minor. To speak with an advisor regarding your minor, contact Prof. Tobi Jacobi, by phone at (970) 491-3344, by email at tjacobi@colostate.edu, (tjacobi@colostate.edu) or in person during office hours or by appointment in Eddy Hall, Room 349.

For information about English and Composition course offerings and registration procedures for the upcoming semester or summer session, please view the Rambler (http://english.colostate.edu/undergraduate/ publications), the Department's advising newsletter.

## English Minor

The English minor is designed for students with interests in English studies who do not want to complete an English major. With very few exceptions, the minor allows students to choose any English or composition courses to create a program of study specific to their needs and interests.Minimum of 21 credits in courses with E prefix, at least 12 of which must be upper division.

The English Department also offers the Linguistics and Culture Interdisciplinary Minor.

## Requirements

## Effective Spring 1996

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upperdivision (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.
CO 150, E 487A, and E 487B may not count toward the minor. CO 300, CO 301A, CO 301B, CO 301C, CO 301D, CO 302, and CO 401 may count toward the minor. A minimum of 6 credits must be taken at CSU.

## Graduate Program in Ethnic Studies

The Department of Ethnic Studies seeks to teach students to understand the unique and interlocking experiences of racially marginalized groups and to analyze how race intersects with other forces of social differentiation, such as gender, sexuality, and class, in national and international contexts. The program recognizes the importance not only of the history of racial exclusion and marginalization but also the creative ways in which various racial groups sustain their humanity through cultural preservation, transference, and renewal. Ethnic Studies is committed to nurturing students to become culturally aware, astute, civic-minded individuals who strive to strengthen the communities in which they reside. Because the study of ethnic groups intrinsically reveals how race structures life chances and opportunities, the scholarly orientation of the department reflects a commitment to meaningful changes in public policy and social life. The department offers graduatelevel education to prepare students as leaders in the field of ethnic studies.

Students interested in earning a Master of Arts degree in Ethnic Studies should refer to the Graduate and Professional Bulletin and the Department of Ethnic Studies (http://ethnicstudies.colostate.edu).

## Major in Ethnic Studies

Ethnic Studies critically examines the interlocking forces of race, gender, class, sexuality, and other forms of social differentiation that shape the histories and experiences of racially marginalized groups. The programs of study interrogate how these socially constructed ideas impact distribution of social goods, affect life chances, shape identities and worldviews, and reproduce social inequalities. Drawing from interdisciplinary and comparative theoretical frameworks, we bring to bear issues of power, privilege, and social justice pertinent to the experiences of diverse populations in the U.S. and abroad. We are especially committed to nurturing civic-minded and culturally informed students who strive to strengthen the communities in which they reside. In support of the land-grant mission of CSU, Ethnic Studies engages with communities on and off campus in order to effect meaningful change in public policy and social life.

## Learning Outcomes

Upon completion of the programs of study, students will demonstrate:

- An understanding of the key concepts shaping the experiences of various racial and ethnic groups in the United States and abroad.
- Familiarity with social histories and experiences of racial and ethnic groups.
- Effective oral communication, writing, and research skills.
- An increase in critical thinking, intellectual, and personal growth.
- An understanding of the value of social consciousness and personal responsibility.

## Potential Occupations

Both theoretical understandings of and practical experience in crosscultural and inter-ethnic relations are invaluable in today's world. Ethnic Studies graduates work in the following fields and occupations. Education: $K-12$ and adult education (e.g. refugee/immigrant education, diversity training in the private sector); human social services including counseling, health care, and civil service; federal, state, tribal, and local government, and community service; natural resources development and technology transfer: practices, economics, and law in ethnic contexts; communications media such as newspaper, radio, video, and television; archival and museum studies; non-profit agencies; and advanced studies including graduate programs in the social sciences and professional programs (e.g. law, social work).

## Major in Ethnic Studies, Women's Studies Concentration

Eddy Hall, Room 210
(970) 491-6182
womensstudies.colostate.edu (http://womensstudies.colostate.edu)

Coordinated by the Director of the Center for Women's Studies and Gender Research
Dr. Caridad Souza, Director
The Women's Studies Program prepares individuals for the needs and opportunities of an increasingly interconnected and interdependent world. The Major in Ethnic Studies, Women's Studies Concentration allows students to engage the complex indices of intersection including gender, sexuality, race, ethnicity, class, ability, religion, and nationality as analyzed within various disciplines. Women's studies transforms traditional disciplinary assumptions and theories, creates innovative models for teaching and research, and develops practices for challenging systems of power and privilege.

## Learning Outcomes

Upon completion of the program of study, students will demonstrate:

- Knowledge of academic disciplines from feminist and intersectional perspectives
- An understanding of the historic and contemporary contributions of women of all cultures
- Effective oral communication, writing, and research skills
- An increase in critical thinking, intellectual, and personal growth
- A critical ideological understanding regarding women and gender implicit in social institutions

## Potential Occupations

Contemporary career opportunities can be directly enhanced by students who have a women's studies background. Students acquire jobs in the non-profit sector, such as international relief agencies, domestic violence agencies, homeless shelters, after school programs, and children and family services. Other fields our students have entered include public relations, counseling, union organizing, public policy and research, victim
advocacy, and human/civil rights. In several areas such as journalism, communication, business, law, education, and human services, it is now common to choose a career that has a direct focus on women and gender.

In areas that have not traditionally focused on women and gender, an awareness of the history and culture of feminism, women and the intersections of gender, race, class, and sexism can enhance a person's ability to cope with dilemmas and issues related to gender and sex that arise in the workplace. In addition, students in women's studies have the unique opportunity to apply insights from course work to their own lives, helping them to make more informed choices about careers, education, relationships, and community participation.

## Minor Programs

A minor in a foreign language offers opportunities for studying the language and culture of another country and complements many major
fields. A student with a broadly based education, including a foreign language, will be better prepared to deal with changing technological, economic, and social conditions on an international scale. A student who minors in a foreign language may expect to develop sufficient competency to speak and write with reasonable accuracy and fluency while pursuing interest in language, literature, and culture. See the department for specific information on upper-division transfer work in the language of the minor.

All majors and minors in the department must earn a minimum grade of $C$ (a grade of $C$ - is not acceptable) in each upper-division course that carries the LARA, LCHI, LFRE, LGEN, LGER, LITA, LJPN, LLAT, LRUS, LSGN, or LSPA subject code.

## Major in Languages, Literatures, and Cultures

Language majors accomplish:

- Real and measurable functional competencies in the target language
- A practical command of grammar and pronunciation approaching that of a native speaker
- Comprehension in reading and listening
- Ability in speaking and writing in a manner acceptable to an educated native
- A practical command of the culturally defined aspects of the language and related cultural patterns of behavior, including nonverbal communication
- In advanced-level study, a comfortable familiarity with most of the language- and culture-specific characteristics of its literature

The department strongly encourages education or other experiences abroad and has exchange agreements in place with universities in several countries. Students should visit the department prior to studying abroad for clarification on course transfers. Information is available through Education Abroad (http://educationabroad.colostate.edu).

Minors are offered in Chinese, French, German, Japanese, and Spanish, as well as interdisciplinary minors in Arabic, Italian and Russian Studies.

Basic courses may also be taken in Latin and American Sign Language.

## Learning Outcomes

Students will demonstrate:

- Communicative oral skills in the target language, including grammatical accuracy, correct use of tense, fluency, appropriate intonation, suitable vocabulary and discourse devices for expressing opinions or when giving research presentations.
- Communicative writing skills in the target language, including clarity of ideas, grammatical accuracy and appropriate vocabulary, adequate elaboration of ideas through a variety of sentence structures and vocabulary, and logical flow of ideas through the use of discourse organizational devices.
- Analytical skill in literary and cultural texts of the target language, including ability to formulate and present a topic of inquiry, to critically analyze the topic with valid supporting evidence, and to cogently synthesize and summarize the ideas in bibliographical sources and the results of their own analytical inquiry.
- Increased sensitivity to and appreciation of cultural and linguistic differences.

## Potential Occupations

Available career choices include, but are not limited to: bilingual educator, foreign language teacher, translation/interpretation, linguistics, civil service, foreign service and diplomacy, medical fields, social services,
immigration/naturalization, journalism/ broadcasting, customs, banking, import/exports, sales/customer service, publishing, international business, international nonprofit organizations, government/military intelligence, global tourism.

## Major in History

History is an account of our human past and seeks to interpret the course of human affairs through evidence and reason. Historians use written records, images, artifacts, and other materials to understand the past and also the relationship between the past and the present. Historians ask not only what happened and why, but also how the present came to be. History provides insights into how individuals and groups made decisions, exercised power, and responded to change. History helps us to understand how processes-such as revolution, migration, war, ecological disturbance, and globalization-shaped societies over time. It helps us to understand how people grappled with class, ethnicity, gender, and race, and how they conceptualized the world through religion and ideology. History provides a form of knowledge that people in all times and places have used to answer basic questions about the human predicament.

The History major is designed for students to enlarge their knowledge about the past, improve their ability to think logically and critically, and sharpen their powers of written and oral expression. It is an outstanding choice for students planning further professional study in law, medicine, ministry, academia, business, and many other fields.

## Learning Outcomes

Students will demonstrate:

- Ability to analyze and interpret historical materials, such as documents, artifacts, and images
- Ability to engage in chronological reasoning, to understand causation and change over time
- Ability to examine critically how people in the past understood their own history, in scholarly works and in popular forms such as myths or commemorations
- Ability to interpret, write, and speak about the past using evidence and according to the standards and expectations of the historical discipline

## Potential Occupations

Government official in foreign service, national security, military, cultural resources management, and other areas.
History teacher in public and private schools; any professional occupation in business or public service requiring a liberal arts education and skills in research, writing, and the analysis of information. With additional graduate training: lawyer, physician, social worker, minister, librarian, museum curator, archivist, professor, educational administrator, or other professional.

## Concentrations

- General History Concentration
- Language Concentration
- Social and Behavioral Sciences Concentration
- Social Studies Teaching Concentration

## Major in History, General History Concentration

The General History concentration is an excellent choice for students planning careers in history, government service, and other professional
occupations requiring broad intellectual and practical skills. History majors who select the General History concentration must complete another major or minor offered at CSU (except History).

## Requirements

## Effective Spring 2016

A minimum grade of $\mathrm{C}(\mathbf{2 . 0 0})$ must be earned in HIST 492 and all 100-level courses required in the history major.

# Major in Journalism and Media Communication 

The study of journalism, mass communication, and specialized media combines high-level professional training with a broad foundation in the liberal arts. All students complete a common 21 -credit core, including writing, multimedia, and conceptual courses, as well as a capstone course and an internship. Students work closely with a faculty advisor to select an additional 19 credits in a focus area crafted to match their career interests. Practical experience can be gained on the staffs of the daily Rocky Mountain Collegian, the award-winning campus television station CTV, College Avenue magazine, and KCSU-FM Radio. Graduating seniors present professional portfolios for assessment by panels of faculty and communication professionals from Denver and elsewhere in Colorado. Because successful communicators require broad knowledge, this flexible program encourages development of a background in the humanities, social sciences, natural sciences, and in-depth study in an area of interest outside journalism. The addition of a minor or double major in disciplines such as political science, information technology, history, economics, business, communication studies, psychology, the arts, or natural or applied sciences is possible.

The Department of Journalism and Media Communication is one of a relatively small number of departments formally recognized by the Accrediting Council on Education in Journalism and Mass Communications. Participation in volunteer activities, cooperative education opportunities, or communication-related part time jobs is highly recommended to enhance practical training and development.

## Learning Outcomes

Students will demonstrate:

- Competence in writing, editing, and producing media messages as well as in planning, designing, and evaluating effective public information programs
- Knowledge and use of communication theory and research principles to guide the selection of communication audiences, message content and format, and media channels to enhance communication impact
- Understanding of the ethics, laws, and values associated with professional communication activity

## Potential Occupations

The Journalism and Media Communication program emphasizes the role of mass and specialized media in society and prepares students for entry-level work in private business, government, and education. Depending upon the focus of study, students may find career opportunities in a wide variety of professional communication venues. Specific career opportunities may include: advertising copywriter, designer, or producer; agriculture writer, reporter, or editor; attorney specializing in communication law; blogger, columnist, or editorial cartoonist; college professor; communications manager or director; company spokesperson; corporate media specialist; e-mail and direct mail strategist; environmental media specialist; freelance writer, editor, or photographer; health writer, editor, or producer; marketing coordinator; media relations director or strategist; multimedia producer; non-profit communications director; novelist or non-fiction author; reporter or photojournalist for the web, magazines, newspapers, or television; owner of public relations agency or production company; professional speaker; public affairs officer for government agency; public relations agency account executive; publication designer for magazines or newspapers;
radio disc jockey, reporter, or music director; reality television producer, writer, photographer, or on-camera talent; science writer or editor; social media specialist; sports writer, photographer, or producer; technical writer or editor; teacher for any level of K-12 education upon completion of appropriate licensing (see the Center for Educator Preparation (http://cep.chhs.colostate.edu)); television news anchor or program host; television or radio news program producer or director; television documentary producer; travel writer, photographer, or program host;
video editor for news, corporate, or entertainment television; website designer and manager.

## Requirements

All majors in the department must earn a minimum grade of $C$ (a grade of C- is not acceptable) in each course that carries the JTC subject code.

## Effective Spring 2015

## Association for Education in Journalism and Mass Communication Accreditation Requirements

Majors in Journalism and Media Communication must take a minimum of 40 credits of JTC courses and a minimum of 72 credits outside of JTC.
Of the 72 credits outside of JTC, 21 must meet one of the following Second Field criteria with approval of advisor: ${ }^{1}$

1. a Minor;
2. an Interdisciplinary Minor;
3. 21 credits in one subject code;
4. 9 credits from one subject code and 12 credits from a second subject code;
5. a selection of 21 credits comprising a Second Field developed by the student and the advisor.

Courses taken outside of the department may include All-University Core Curriculum (AUCC) courses, Minor or Second Field courses, or any other out-of-department (non-JTC) courses used to complete the major as approved by advisor.

The 40 JTC required credits include 21 credits specified in the curriculum below plus 19 credits of directed electives to create an individualized focus area from the following 4 categories (Writing, Production, Internship/Practicum, Additional credits).

## Directed Electives for Individualized Focus Area

Over the sophomore, junior, and senior years, students must complete a minimum of 19 credits in an individually designed focus area. Students must select those 19 credits from among the following categories and courses in consultation with advisor, as follows:

## Technical and Science Communication Minor

The minor in Technical and Science Communication is designed to educate highly qualified communicators who have interests in specialized academic disciplines and career fields. Because science and technology often involve complicated research and processes, communicating the results of that work requires special skills. This program is designed to prepare students for a wide range of niche career opportunities in media, corporate communication, technology related industries, and scientific environments.

Students in this minor will learn to write and manage communication efforts, with a focus on turning complex ideas and processes into simple, clear messages applicable for publication and electronic delivery via broadcast, cable, or the Web. The accuracy and effectiveness of this communication is especially important as the Internet and the ubiquity of mobile devices make the delivery and consumption of information widely available. Having the skills to interpret and communicate complicated processes provides significant career advantages in one of the highestpaying areas of professional communication.

## Requirements <br> Effective Fall 2013

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upperdivision (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Dr. Daniel Goble, Director, School of Music, Theatre, and Dance

## Undergraduate

The School of Music, Theatre, and Dance at CSU provides a rigorous undergraduate educational experience.

The Music program is focused on the belief that music is both an artistic and intellectual achievement. We offer intense training in specialized music disciplines combined with a balance of core music courses in music history and theory. Most of all, our renowned and versatile faculty are committed to helping students discover their own unique identities through music. We offer B.M. degrees in music therapy, music education, music composition, and music performance as well as a B.A. in music degree. Additionally undergraduates can earn a performance-based music minor.

The Theatre program emphasizes a reciprocal relationship between practice and scholarly study, combining practical training with theory and history, while stressing creative critical thinking. Students are encouraged to engage intellectual and physical approaches to explore diverse cultural forms, historical traditions, and contemporary theatre practice. During their first two years as Theatre majors, all students will take the same core of courses in all sub-disciplines. Following their sophomore review, students will be directed into one of four concentrations offered to Theatre majors at CSU: Directing, Performance, Playwriting and Dramatic Literature, and Theatrical Design and Production.

The Dance program offers a rigorous program in classical and contemporary dance education culminating in a B.A. in Dance. The degree requires a total of 120 credits with the following focus: technical training and foundations, performance, composition, pedagogy, professional preparation, theatrical production and design, and academics. In the Dance major, students explore the many possibilities for movement expression, along with creativity and scholarly examination, in a challenging and supportive environment.

## Major in Dance

Office in University Center for the Arts, Room 120
(970) 491-5529
dance.colostate.edu (http://dance.colostate.edu)

## Professor Jane Slusarski-Harris, Director

CSU offers a rigorous program in classical and contemporary dance education culminating in a B.A. in Dance. The degree requires a total of 120 credits with the following focus: technical training and foundations, performance, composition, pedagogy, professional preparation, theatrical production and design, and academics. In the Dance major, students explore the many possibilities for movement expression, along with creativity and scholarly examination, in a challenging and supportive environment. Dance major and scholarship auditions for prospective students (high school seniors or transfers) are held during Fall and Spring Visit Days. The audition assesses training background, technical level, and the potential to successfully complete the degree program at an advanced and/or pre professional level. To be placed into the Dance major, students should have professional quality dance training in both ballet and modern technique, be at the intermediate technical level, and have the ability to withstand rigorous daily work throughout the year. Other forms of previous dance training are applicable and highly encouraged. For non-majors, enrollment in dance major technique classes depends on space availability, technical level, and suitability, and takes place during the classes of the first week of the semester. All technique classes are accompanied by accomplished musicians in piano, percussion, and a variety of other instruments. Performance, choreographic, and production opportunities take place each semester and students are encouraged to collaborate with other majors in music, theatre, and the visual arts. Visiting guest artists teach master classes and workshops and choreograph for the students on a regular basis. Supervised student teaching experiences are offered with different age groups and in a variety of situations.

Upon graduation, students will have a theoretical and practical foundation in dance. Graduates will achieve an intermediate/advanced
level of proficiency in modern and ballet technique and be able to apply this knowledge to the areas of professional performance, choreography, and teaching. They will have a foundation in technical production and design which supports dance and theatrical productions. They will have a working knowledge of anatomy, kinesiology, and various movement theories relating to dance techniques. They will have a solid knowledge and appreciation of the history and philosophy of dance from many cultures and time periods.

## Potential Occupations

Dance careers are rigorous and demanding, requiring years of training and discipline. Dance professionals must be versatile with a broad base of experiences in dance or related fields. Dance majors often select a second major such as music, theatre, business, occupational therapy, technical journalism, or exercise and sport science to enhance their job prospects. Experience acquired through extracurricular performances or internships is highly recommended to enhance practical training, development, and career opportunities. Students are encouraged to go on for advanced study at the graduate level in dance in order to secure teaching positions in higher education.

Some examples of the career opportunities in dance include, but are not limited to: professional dancer, professional choreographer, artistic director, university/college faculty, studio owner and faculty, conservatory or school faculty, dance critic, dance therapist, dance somatics specialist, arts manager, lighting designer, costume designer, sound designer, theatre technician, production crew, producer, fashion coordinator, special events coordinator, makeup artist, musical theatre director.

## Major in Music (B.M.)

Our primary goal is to prepare students to become highly skilled music educators, music therapists, performers, composers, and conductors. Program goals encourage and develop high standards of teaching, scholarship, performance, and research in music. We are pleased to offer small academic classes, applied study with highly qualified faculty, and careful attention to advising. Courses in music appreciation, music theory fundamentals, and ensembles are open to all students regardless of major.

A successful audition is required prior to entrance into any B.M. Music degree program.

## Learning Outcomes

Students will demonstrate:

- Ability to perform music from a variety of historical/ style periods, and exhibit the appropriate skills for musical self-expression in juried performances. These skills include: techniques, musicianship, tone, diction/articulation, style, interpretation, and artistry.
- Understanding of the common elements and organizational patterns of music, including musical forms, processes, and structures.
- Knowledge of music history and representative composers and works from each on a defined evaluation instrument.

Students are also expected to learn music literature from all periods through aural and score analysis. Performance skills are tested at the end of the sophomore year and in a graduation recital if required by the degree option. Some programs require satisfactory completion of supervised student teaching, an internship, or a senior project. In addition, all students must pass a piano proficiency examination.

## Potential Occupations

The undergraduate music curricula at CSU can lead to personally fulfilling careers as music educators, music therapists, performers, composers,
and conductors. Music graduates from CSU have successfully gained employment in public and private schools, hospitals and institutions, and as professional performers, conductors, and composers.

## Concentrations and Options

- Composition Concentration
- Music Education Concentration
- Choral Option
- Instrumental Option
- Music Therapy Concentration
- Performance Concentration
- Jazz Studies Option
- Orchestral Instrument Option

## Major in Music (B.M.), Composition Concentration

The Composition concentration is designed to prepare the student to compose original music for a wide variety of venues including live concerts, music to accompany film, video, dance, and theatre. Course work emphasizes comprehensive musicianship throughout the curriculum with particular emphasis on individualized study in music composition.

## Requirements

## Effective Fall 2016

A minimum grade of $C$ is required in all music courses used to satisfy the requirements of the $B M$ in Music, Composition Concentration.

## Major in Music (B.M.), Music Education Concentration

The Music Education program at CSU is one of the leading teacher preparation programs in the nation. Faculty members are in demand as clinicians, guest lecturers, conductors, and researchers. Music Education majors pursue an accredited curriculum that develops musical knowledge and skills, and prepares students to become accomplished music educators. Students must select one of two options: Instrumental or Choral.

Students interested in pursuing a teaching license through CSU may refer to the Center for Educator Preparation (CEP) (http://
cep.chhs.colostate.edu) and the College of Health and Human Sciences section in this catalog or in the Education Building, Room 111.

## Major in Music (B.M.), Performance Concentration

The Bachelor of Music in Performance degree program features extensive private applied instruction by a specialist on each instrument or voice. Many performance opportunities are included in the four-year curriculum, ranging from solo recitals to large and small ensemble participation. Only the most proficient undergraduate musicians are accepted into the Performance degree option and graduation from this program indicates that the student has achieved a high degree of musical achievement. Seven options exist in this concentration: Jazz Studies, Orchestral Instrument, Organ, Piano, Piano Pedagogy, String Pedagogy, and Voice.

In order to complete the Performance concentration using the core, students must select from one of the following options: Orchestral Instrument, Organ, Piano, Piano Pedagogy, or String Pedagogy. The
complete program is 120 credits, 42 of which are to be upper-division (300-400 level).

## Major in Music (B.A.)

This major allows students to study music within a larger context of a liberal education. In comparison to majors leading to the bachelor of music (B.M.), less emphasis is placed on studies specific to music. In lieu of fewer credits in music, the student completes a 21 -credit option in an
area outside of music. In addition, completion of a major paper, lecture/ recital, or full recital is required during the senior year.

A successful audition is required prior to entrance into this B.A. Music degree program.

## Major in Theatre

Office in University Center for the Arts, Room 120
(970) 491-5529
theatre.colostate.edu (http://theatre.colostate.edu)
Professor Price Johnston, Director
As a branch of the arts and humanities, theatre claims a rich history and literature and an equally rich repertoire of embodied knowledge and theory and a varied and complex cultural practice for over 3,000 years. The Theatre Major at CSU emphasizes a reciprocal relationship between practice and scholarly study, combining practical training with theory and history, while stressing creative critical thinking. Students are encouraged to engage intellectual and physical approaches to explore diverse cultural forms, historical traditions, and contemporary theatre practice. They will apply foundational knowledge of cognate disciplines such as history, philosophy, anthropology, political science, film, art, music, and literature through the lens of serious and disciplined study of acting, theatre design and production, dramaturgy, dramatic criticism, storytelling, and playwriting in theory and practice. During their first two
years as Theatre majors, all students will take the same core of courses in all sub-disciplines. Following their sophomore review, students will be directed into one of three concentrations offered to Theatre majors at CSU: General Theatre, Performance, and Design and Technology.

## Concentrations

- Design and Technology Concentration
- Directing Concentration (No new students are being accepted into this concentration.)
- General Theatre Concentration
- Performance Concentration
- Playwriting and Dramatic Literature Concentration (No new students are being accepted into this concentration.)

## Major in Theatre, Design and Technology Concentration

Students whose goal is to earn a Bachelor of Arts degree in Theatre at CSU with a concentration in Design and Technology will be exposed to multiple disciplines and design areas within the performing arts. These disciplines include scenic design and stage management, and courses chosen from: theatrical construction, lighting design and electrics, digital media design, costume design and construction. This program is geared towards creative and imaginative, open-minded individuals with a drive for excellence in the work that they do.

Students in this concentration explore creative concepts on a theoretical level in the classroom and studio while reinforcing their training through practical application in main stage productions of music, theatre, and dance. Students will take on roles as technicians and assistants in production in addition to their course work, and step into leadership roles as designers or production stage managers as they travel through the program. This fully collaborative and interdisciplinary program supports pre-professional development.

Students who complete the Theatrical Design and Technology concentration will be well prepared to enter the competitive professional field for which they have trained as well-rounded, renaissance artists and technicians. They will learn practical industry skills as well as conceptual techniques and begin to develop an artist's aesthetic and worldview. Through real-time production experiences, they will learn to think on their feet and adapt to the rapid-paced, high-energy career in the performing arts. Along with their diplomas, students will graduate with the confidence, skills, portfolios, and industry connections they need to pursue professional careers or seek appointments with graduate level programs.

## Major in Philosophy

Philosophy is the oldest form of systematic, scholarly inquiry. It is the study of the most basic moral, legal, aesthetic, religious, and metaphysical ideas by which we quest for understanding and develop principles of conduct. Philosophers seek to establish standards of evidence, provide rational methods of conflict resolution, establish criteria for just social orders, and create techniques for evaluating ideas and arguments.

The study of philosophy broadens and intensifies liberal education while enhancing interpretive abilities in many fields. The curriculum encourages a broad liberal arts background, including courses in foreign languages and a plan for graduate school and teaching careers in philosophy. The broad relevance of philosophy to other fields permits most students to work toward goals such as professional training in law, medicine, business, or theology. There are three concentrations available to Philosophy majors: General Philosophy; Philosophy and Religion; and Philosophy, Science and Technology. It is not unusual for philosophy majors to also major in other disciplines, and these concentrations combine easily with other majors in the University.

## Learning Outcomes

Philosophy students will:

- Recognize and analyze arguments; reconstruct arguments from major texts in both the history of philosophy and in significant contemporary philosophical work; evaluate these arguments for the validity of argument structures and the truth of premises (soundness); and construct valid and sound arguments of their own in a fashion that is as clear and concise as possible.
- Demonstrate in their senior year knowledge of the works of major figures in the history of philosophy as well as significant current issues from the major sub-disciplines of philosophy, including particularly ethics, metaphysics, and epistemology.
- Demonstrate in their senior year skills in written and oral presentation, engaging in fruitful oral discussion, debate, and formal presentations that are logically coherent, clearly and concisely stated, and accessible to their peers in philosophy.

## Potential Occupations

A major in Philosophy prepares students for a wide variety of professional aspirations, including graduate study in philosophy or other disciplines; training in law, computer technology, social work, health care, the ministry, business; and general intellectual flexibility in a changing world. The high level of skill that Philosophy majors acquire in communication, writing, and analytical and critical thinking enables them to secure jobs in a variety of private and public sector professions and to become leaders in their field.

Depending on the major concentration that a student pursues, available career opportunities include, but are not limited to, public policy analyst, business manager, public administrator, computer programmer,
intelligence officer, legislator, teacher, foreign diplomat, social worker, community developer, philanthropic organizer, physician, lawyer, researcher, writer, theologian, human resources manager, publisher, and ethics consultant, in a variety of fields, e.g., in medicine, business, law, public administration, non-profit administration, engineering, and the sciences.

## Concentrations

- General Philosophy Concentration
- Global Philosophies and Religions Concentration
- Philosophy, Science, and Technology Concentration

## Major in Political Science

Political science is the study of politics and political action in society.
It encompasses international agreements and organizations as well
as the patterns of political action which both create and shape them. It encompasses citizen action and the institutions which produce public policy at the local, state, and national levels within the United States. It encompasses systems of voting, political parties, courts, compared across national political systems. It encompasses the raising of normative questions about the nature and purposes of political life. The presence of politics is felt in all areas and sectors of society at all times. The dynamic and transformative effects of political action are seen virtually everywhere.

The department's curriculum is distributed across five subfields of the discipline: American politics, political theory, comparative politics, international relations, and public policy. Political Science major course work across the subfields of the discipline is complemented by the requirement that each Political Science major completes a designated support option, which includes: a minor in another department, an interdisciplinary minor, the second language support option, the methods support option, or a second major.

## Learning Outcomes

Students majoring in Political Science shall demonstrate the following:

- Ability to reason through political claims and assertions by political actors
- Skill in recognizing and responding to diverse ideological perspectives
- Ability to locate political issues and controversies within their relevant institutional and historical contexts
- Familiarity with the institutional processes of politics in numerous global and domestic political arenas
- Confidence in expressing opinions and presenting analyses of political problems and their solutions.

## Potential Occupations

The Political Science major, like all studies in the liberal arts, provides students with a broad academic background that is serviceable across a broad spectrum of employment in the public and private sectors. Political Science majors are trained to be independent and critical thinkers; to be discerning and active observers and listeners; to communicate persuasively; to constructively engage and solve intellectual and practical problems; to adapt and function effectively in a number of distinct occupational and institutional settings; to function comfortably in a multiethnic, multiracial, and globalizing society. The employment profiles of departmental alumni attest to the breadth of possibilities for today's graduates: public and non-profit organization managers, prosecutors, public policy analysts and consultants, federal law enforcement agents, legislators and legislative analysts, foreign service officers, private attorneys, demographers, criminal investigators, advertising specialists, urban/regional planners, environmental policy analysts, state budget analysts, public relations representatives, market researchers, elementary and high school teachers, international businessmen and businesswomen, lobbyists, novelists, construction industry managers, insurance agents and managers, financiers, and real estate brokers. Some graduates join professions following advanced study in law, international relations, area studies, public administration, public policy analysis, and business management.

## Concentrations

Students may complete the general Political Science major or select one of the following concentrations for a more specialized course of study.

- Environmental Politics and Policy Concentration
- Global Politics and Policy Concentration
- U.S. Government, Law, and Policy Concentration

## Requirements

## Effective Fall 2016

Political science majors must achieve a minimum grade of $\mathrm{C}-(1.670$ ) in each of the political science (POLS) courses counted toward meeting the requirement of the major.

## Political Science, Upper-Division

At least 24 credits of upper-division political science courses must be completed for the major. The 24 credits include the senior capstone course, POLS 492, at least 3 credits of AUCC $4 A$ and $4 B$ in addition to POLS 492, and at least one upper-division course in each of the following five subfields. ${ }^{1}$

## Major in Political Science, Environmental Politics and Policy Concentration

The Department's Environmental Politics and Policy concentration is designed to help students develop the knowledge and skills to analyze the connections between politics and the natural world and pursue careers in environmental politics and policy-making. Graduates may work as policy analysts, advocates, planners, educators or decisionmakers in government agencies, non-profit organizations, businesses
and consulting firms at the local, state, national and international levels. Students will learn about how political forces contribute to environmental degradation, the process for developing environmental policies, strategies to assess the strengths and weaknesses of different policy approaches, and how political forces can be harnessed to develop effective responses to problems such as climate change, water and air pollution, food security, and energy provision. Students will explore these issues from both domestic and global perspectives. Environmental Politics and Policy students are strongly encouraged to complete an internship to gain practical experience working in the field.

## Requirements

## Effective Fall 2016

Political science majors must achieve a minimum grade of $C$ - (1.670) in each of the political science (POLS) courses counted toward meeting the requirement of the major.

## Major in Political Science, Global Politics and Policy Concentration

The Department's Global Politics and Policy concentration is designed to help students develop the knowledge and skills to analyze political relationships between and within countries and to pursue careers in international affairs (http://www.apsia.org/career-guide) (such as working for government agencies, intergovernmental organizations,
international businesses, consulting firms or non-profit organizations in the U.S. and abroad). Students will learn about different systems of government, state-society relations in various parts of the world, the ways that public and private actors interact through international institutions and the global economy, as well as the causes of and responses to domestic and international conflict. Global Politics and Policy students are strongly encouraged to study a foreign language (http://languages.colostate.edu) and to complete some of their
coursework in one of CSU's many study abroad programs (http:// educationabroad.colostate.edu/students).

## Requirements

## Major in Political Science, U.S. Government, Law and Policy Concentration

The Department's U.S. Government, Law, and Policy concentration is designed to prepare students to become future leaders in the public sector. The skills gained in this concentration help prepare students for a variety of careers (for example, government agencies, nonprofits, community organizations, lobbying firms, elected office, political communication, research and policy analysts) as well as prepare students for law and graduate schools. Resources for careers include the American Political Science Association (http://www.apsanet.org/ careersinpoliticalscience) and the Network of Schools of Public Policy, Affairs, and Administration (http://www.naspaa.org/students/careers/ joblinks.asp). The courses in this concentration educate students
about the political processes and the legal environment of all levels of American government as well as the processes of policymaking and the administrative apparatus used to implement public policy. Students will also be exposed to a variety of substantive policy issues including urban policy, energy policy, and environmental policy in the United States. U.S. Government, Law, and Public Policy students are strongly encouraged to complete an internship in one of the many organizations in the broader community. Past students have completed internships with a variety of law firms (http://polisci.colostate.edu/undergraduate/pre-law), the Cities of Fort Collins, Windsor, Loveland, and Westminster, the Colorado General Assembly, and Woodward Governor among others. Students in this concentration are also encouraged to participate in the Legislative Internship Program (http://polisci.colostate.edu/undergraduate/ legislative-internship) during their junior or senior years.

## Requirements

## Effective Fall 2016

Political science majors must achieve a minimum grade of C - (1.670) in each of the political science (POLS) courses counted toward meeting the requirement of the major.

## Minor in Applied Environmental Policy Analysis

The minor in Applied Environmental Policy Analysis will provide students with a rigorous and in-depth study of the public sector environment, practice, and methods for analyzing and developing policy. Each course will also have the environment as a focus in the material, exams, and assignments. At the end of the minor students will be able to recall and explain the basic rationales for public policies; be able to apply rigorous research methods for evaluating policy; and be able to integrate the elements of theory, methods, problem structuring, ethics, analysis and argumentation to generate reports useable in government and nonprofit management. The minor is appropriate for practicing professionals and
current undergraduate students interested in expanding their applied evaluation skills and environmental policy expertise.

## Requirements Effective Spring 2014

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upperdivision (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.
Students must complete each course in the minor with a grade of $C$ or better.

## Minor in Political Science

The minor in Political Science provides a sound academic core for students in other social science or non-social science majors who are interested in politics. It may be particularly useful for persons preparing themselves for careers in law, teaching in the social sciences, journalism, and public service.

## Requirements Effective Spring 1990

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upperdivision (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

## Major in Sociology

Sociology is the study of social life, focusing on the mutual interaction between human groups and institutions. Human beings, through patterned social interactions, construct and reconstruct the social webs within which they live. The nature and type of social relationships are central to their lives. Sociologists study relationships within family units from the most primitive cultures to interactions of large, bureaucratic institutions in major industrialized nations. Social issues are studied in a variety of ways: direct observation of groups; surveying or interviewing individuals; analyzing historical research; and a variety of other methods.

Sociology majors have many opportunities to pursue broad and diverse ranges of interest. Students gain a sense of social perspective, an understanding of human affairs, an ability to think critically, and a capacity to write well. The curriculum includes general courses in the arts and humanities and the social sciences along with sociology course work. A generous selection of electives allows students to major or minor in a complementary discipline. A Sociology major also may enroll in one of the interdisciplinary minors, such as, Latin American and Caribbean Studies, Religious Studies, or Women's Studies.

## Learning Outcomes

Students will:

- Analyze critically the major classical and contemporary theories from the 19th and 20th centuries. Students are expected to demonstrate how well these theories help us understand or explain current social phenomena both in the U.S. and abroad. Students will learn to apply a wide variety of theories, including European critical theory, functionalism, symbolic interactionism, and post-modern theory, in required empirical research.
- Analyze critically sociological phenomena by applying objective social research methodologies. Students will demonstrate a working knowledge of sociological theories and the application of these theories to real world social phenomena. Specifically, students will understand conceptual frameworks associated with
a. social structure (social stratification, ethnic structures, social institutions, small group dynamics, social demography, and social organizations);
b. culture (socialization and the development of personalities, social norms, framing normative assumptions of societies and organizations); and
c. social agency (the behavior of the individual, collective behavior such as with social movements, and the principles of socialpsychology).
- Analyze critically sociological phenomena by applying social statistical techniques. Students will demonstrate a strong working knowledge of statistical techniques including
a. parametric statistics,
b. non-parametric statistics,
c. ordinary least squares statistical analysis, and
d. the application of the SPSS statistical package.

## Potential Occupations

Careers are exceptionally varied. Participating in internships and cooperative education opportunities is highly recommended to enhance practical training and development. Sociology graduates apply their education to a large variety of occupations in the non-profit, private, and public sectors. Because Sociology graduates possess a number of transferable communication, analytical, and people skills, they find positions in government, industry, and academia. Many employers appreciate liberal arts majors for their multiple skills and their ability to adapt to a variety of tasks and work environments. Graduates who go on for advanced studies can pursue careers in sociology or attain advanced positions with the possibility of rising to top professional levels.

Depending on student interests, the electives taken, or the concentration selected, available career choices include, but are not limited to: business manager, personnel director, city manager, clinical social worker, college/ university instructor, human relations director, demographer, government aide, labor relations specialist, market analyst, researcher, medical administrator, police officer, politician, probation/parole officer, program director/manager, public administrator, publishers, sociologist-specialist, consultant, criminologist, lawyer, librarian.

## Concentrations

- Criminology and Criminal Justice Concentration
- Environmental Sociology Concentration
- General Sociology Concentration

## Major in Sociology, Criminology and Criminal Justice Concentration

The Criminology and Criminal Justice concentration supplements general sociological training with course work focused on the social aspects of crime and criminal justice. Sociology majors who opt for the Criminology and Criminal Justice concentration will supplement their general sociological training with course work focused on social aspects of crime and criminal justice. Such students will find the concentration helpful in enhancing their ability to think critically about issues of crime and justice, and in preparing for various careers within the criminal justice system.

## Requirements

## Effective Spring 2015

Sociology majors in the Criminology and Criminal Justice concentration must achieve a minimum grade of C- (1.670) in each Sociology course counted toward the concentration, and in POLS 413 and SOWK 371B or SOWK 371C, if these courses are counted toward the concentration.

## Major in Sociology, Environmental Sociology Concentration

The Environmental Sociology concentration takes sociology's long established disciplinary orientation to the world and applies it to the study of nature-society relations. Sociology is about people, institutions,
and behaviors. It is about social interactions and social structures. The task of the sociologist, therefore, is to stand back from commonsense views of the world and understanding the structure and processes of a society as a whole, including global societies. Environmental sociology is about translating these tasks into analysis and action around environmental issues. Some of the pressing contemporary
environmental issues that environmental sociology can be applied to are, for example, transboundary pollution, climate change, biodiversity loss, and water and soil degradation. Students will find the concentration
helpful in preparing them for a growing number of jobs that have a focus in environmentally related matters.

## Major in Sociology, General Sociology Concentration

The General Sociology concentration is designed to provide students with a broad liberal arts education and a greater understanding and insight into the social systems and processes that bear upon everyday lives. Students will find the concentration helpful in enhancing their ability to
grasp the complexities of the world so as to prepare them for a variety of jobs upon graduation. Opportunities for students with bachelor's degrees in Sociology are quite varied. Some go on to work for human service agencies; others work in the fields of criminal justice and urban planning; others enter graduate programs in sociology, education, law, medicine, or social work.

## Minor in Criminology and Criminal Justice

The department offers a minor in Criminology and Criminal Justice for students from other departments who wish some experience in an area outside their majors. Minors require fewer credit hours to complete than majors. Students will focus on the social aspects of crime, deviance, and criminal justice.

## Requirements

## Effective Spring 2014

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upperdivision ( 300 - to 400 -level) credits.

Additional coursework may be required due to prerequisites.
Students must receive a grade of $C$ or higher for each course counting toward the minor.

- The College offers studies and professional training in the management, administration, and scientific investigation of renewable and nonrenewable natural resources. Programs include the study of every component of natural systems with particular emphasis on fish, forests, minerals, range, watershed, wildlife, and outdoor recreation areas.

The Natural Resource Ecology Laboratory, housed in the College, is devoted to research and training in ecosystem science and management.

The College also houses the Center for Environmental Management of Military Lands which is a team of environmental professionals
experienced in the conservation and sustainable management of natural and cultural resources on Department of Defense lands.

## College Programs <br> Undergraduate Majors

The scope of the College's programs is more broadly based than most natural resources schools. There are ten undergraduate curricula, most with specialized concentrations or designated areas of further study. Undergraduate majors in all five departments lead to the Bachelor of Science degree, which requires a minimum of 120 credits. A minimum of 42 credits in upper division courses is required for all majors.

## Field Training Programs

Most undergraduate majors require the completion of a four-week summer field training program (five credits) before their junior year. Summer field instruction is given at the CSU Mountain Campus (http:// mountaincampus.colostate.edu) campus, 55 miles west of Fort Collins. Permanent quarters and meals are provided.

During interim or summer periods, some majors devote several weeks to advanced field training programs off campus. Students taking advanced ROTC should arrange their schedules with their advisors in their junior year to avoid conflicts during senior spring semester. It is recommended for all majors, and required for some, that students have a minimum of one summer of field experience before graduation.

## International Education

International resources management is an increasingly important concern of the Warner College of Natural Resources. It is desirable that students in the College have opportunities to study abroad, just as students from abroad are encouraged to study here. CSU has agreements covering study abroad opportunities with institutions throughout the world. Students may complete one or two semesters of resources management education abroad. Students interested in studying abroad should plan far in advance by discussing opportunities with their academic advisor and by visiting the Office of International Programs (http://international.colostate.edu) in Laurel Hall.

## Graduate Programs

Master of Science and Doctor of Philosophy degree programs are offered in most departments. A program leading to the professional degree, Master of Natural Resources Stewardship, is offered in the Department of Forest and Rangeland Stewardship. The Department of Fish, Wildlife, and Conservation Biology also offers a professional degree, Master of Fish, Wildlife, and Conservation Biology. Descriptions of the various graduate programs may be found in the Graduate and Professional Bulletin or on the departmental websites.

## Admissions Information

Contact: Ethan Billingsley, Director of Undergraduate Programs (970) 491-4994
ethan.billingsley@colostate.edu

## For High School Graduates

High school students are advised to take all the English, science, and mathematics courses possible to prepare for college-level work in natural resources.

## Limitation on Transfer of Credits

Students planning to attend another college or community college prior to enrolling at CSU should follow the freshman program for their chosen
major as closely as possible. To assure that they have the opportunity to complete all degree requirements in four years, they should plan to transfer to CSU no later than the beginning of their junior year. Credits which transfer but are not equivalent to specific curriculum requirements may be used as elective credits.

## Transfer Students

Students are required to choose a major when enrolling. Transfer students, therefore, should follow the departmental curriculum closely. Check the individual major and concentration for specific courses.

## Department of Ecosystem Science and Sustainability

Office in the Natural and Environmental Sciences Building, Room B205 (970) 491-5589

Professor John C. Moore, Department Head
WCNR_ESS_info@Mail.ColoState.edu
warnercnr.colostate.edu/ess-home (http://warnercnr.colostate.edu/esshome)

The Department of Ecosystem Science and Sustainability currently offers a B.S. in Ecosystem Science and Sustainability, a B.S. in Watershed Science, a minor in Watershed Science, an M.S. in Watershed Science, and a Master of Greenhouse Gas Management and Accounting program.

## Undergraduate Majors

- Major in Ecosystem Science and Sustainability
- Major in Watershed Science

## Minors

- Minor in Watershed Science

## Graduate

## Graduate Programs in Ecosystem Science and Sustainability

The department offers graduate programs leading to a Master of Science in Watershed Science or a Master of Science in Greenhouse Gas Management and Accounting. Students interested in graduate
work should refer to the Graduate and Professional Bulletin and website for the Department of Ecosystem Science and Sustainability (http:// warnercnr.colostate.edu/ess-home).

## Master Programs

- Master of Greenhouse Gas Management and Accounting, Plan C (M.G.M.A.)

Master of Science in Watershed Science, Plan A

- Master of Science in Watershed Science, Plan B

## Courses

Subjects in this department include: Ecosystem Science and Sustainability (ESS) and Watershed Science (WR).

## Ecosystem Science and Sustainability (ESS)

ESS 130 System Theory and Information Management Credit: 1 (0-2-0) Course Description: Applying computers, networks, software applications, and the internet for managing information in ecosystem science and sustainability.
Prerequisite: AGRI 140 or BUS 150 or CS 110.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
ESS 210 Physical Geography Credits: 3(3-0-0)
Also Offered As: GR 210.
Course Description: Energy, mass budget, and human impacts on atmosphere, hydrosphere, and continental land surfaces.
Prerequisite: None.
Registration Information: Credit not allowed for both ESS 210 and GR 210.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
ESS 211 Foundations in Ecosystem Science Credits: 3(3-0-0)
Course Description: Linkage between society and ecosystems services as foundation for sustainability of the coupled human-environmental system.
Prerequisite: GR 210 or ESS 210.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
ESS 220 Research Skills for Ecosystem Science I Credit: 1 (0-0-1)
Course Description: Fundamental skills for participating in ecosystem science research through hands-on learning modules.
Prerequisite: None.
Registration Information: Written consent of instructor.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
ESS 221 Research Methods for Ecosystem Science II Credit: 1 (0-0-1)
Course Description: Advanced topics in the practice of the scientific method and participation in research.
Prerequisite: ESS 220.
Registration Information: Written consent of instructor.
Term Offered: Spring
Grade Mode: Traditional.
Special Course Fee: No.

ESS 298 Research Credits: Var[1-3] (0-0-0)
Course Description: Directed ecosystem science research.
Prerequisite: ESS 221, may be taken concurrently.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
ESS 311 Ecosystem Ecology Credits: 3 (3-0-0)
Course Description: Principles of ecosystems ecology, emphasis on their application to coupled natural and human systems.
Prerequisite: ESS 211.
Registration Information: Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
ESS 330 Quantitative Reasoning for Ecosystem Science Credits:
3 (2-2-0)
Course Description: Understanding diverse approaches for using data and models to understand complex ecological systems.
Prerequisite: (ESS 211 or LIFE 320) and (MATH 155 or MATH 160) and (STAT 301 or STAT 307 or STAT 315).
Registration Information: Junior or senior standing.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
ESS 400 Sustainability and Ecosystem Science Credits: 3 (2-0-1)
Course Description: Integrates ecosystems services and sustainability
strategies, application to coupled natural and human systems.
Prerequisite: ESS 311 and ESS 330.
Registration Information: Must register for lecture and recitation.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.
ESS 411 Earth Systems Ecology Credits: 3(2-2-0)
Course Description: Earth as a system, stressing ecological interactions among energy, water, and biogeochemistry.
Prerequisite: ESS 311.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
ESS 440 Practicing Sustainability Credits: 4 (2-0-2)
Course Description: Capstone integration of ecosystem science and sustainability, focused on case studies.
Prerequisite: ESS 311 and ESS 330 .
Registration Information: Senior standing in WCNR. Must register for lecture and recitation.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.
ESS 486 Ecosystem Practicum Credits: 2 (0-0-2)
Course Description: One-week field practicum to examine ecosystem science and sustainability issues in Colorado landscapes.
Prerequisite: ESS 211 and NR 220.
Registration Information: Senior standing. Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 487 Internship Credits: Var[1-6] (0-0-0)
Course Description: Supervised work experience in professional settings related to Ecosystem Science and Sustainability.
Prerequisite: None.
Registration Information: Written consent of instructor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.
ESS 495 Independent Study in Ecosystem Science Credits:
$\operatorname{Var}[1-6]$ (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
ESS 501 Principles of Ecosystem Sustainability Credits: 3(3-0-0)
Course Description: Principles of ecosystem sustainability and threats to sustainability. Students will investigate and develop case studies.
Prerequisite: BZ 300 to 499 or ECOL 300 to 499 or CHEM 300 to 499.
Registration Information: Admission to graduate school. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
ESS 524 Foundations for Carbon/Greenhouse Gas Mgmt Credits:
3 (3-0-0)
Course Description: Foundations for understanding greenhouse gas emissions management and accounting.
Prerequisite: BZ 300 to 499 or ECOL 300 to 499 or CHEM 300 to 499.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
ESS 542 Greenhouse Gas Policies Credits: 2 (0-0-2)
Course Description: Rules, regulations and standards for greenhouse gas
management and accounting.
Prerequisite: ESS 524.
Registration Information: Graduate standing. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
ESS 543 Current Topics in Climate Change Credits: 2 (2-0-0)
Also Offered As: ATS 543.
Course Description: Climate fundamentals and current topics in climate change.
Prerequisite: BZ 300 to 499 or ECOL 300 to 499 or LIFE 300 to 499 or CHEM 300 to 499.
Registration Information: Credit not allowed for both ESS 543 and
ATS 543.<Sections may be offered: Online.br>
Term Offered: Fall.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ESS 545 Applications in Greenhouse Gas Inventories Credits: 4 (2-6-0)
Course Description: Overview of methods for estimating greenhouse gas emissions and mitigation potential for agriculture and forestry activities.

## Prerequisite: ESS 524.

Registration Information: Must register for lecture and laboratory.
Required field trips.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
ESS 565 Niche Models Credits: 4 (3-2-0)
Course Description: Concepts and application of niche models in ecosystem science.
Prerequisite: (BSPM 526 or BZ 526 or BZ 535 or BZ 548 or BZ 561 or ECOL 505 or ECOL 600 or ECOL 610 or ECOL 620 or FW 555 or FW 662) and (STAT 511).
Registration Information: STAT 511 or written consent of instructor. Must register for lecture and laboratory.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.
ESS 575 Models for Ecological Data Credits: 4 (3-2-0)
Course Description: Gaining insight about the operation of ecological processes using models and data.
Prerequisite: MATH 255 and STAT 340.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
ESS 587 Internship Credits: Var[1-6] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.
ESS 625 Ecology of Forest Production Credits: 3 (3-0-0)
Also Offered As: F 625.
Course Description: Develops student expertise in understanding carbon and nutrient flows in forests.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must have taken a 300 -level course in ECOL.
Credit not allowed for both ESS 625 and F 625. Sections may be offered:
Online.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.
ESS 655 Multivariate Analysis for Community Ecology Credits: 2 (2-0-0)
Course Description: Techniques and conceptual understanding for analyzing multivariate ecological data characteristic of community ecology, including ordination, classification, and permanova.
Prerequisite: (STAT 511) and (BZ 500 to 679 - at least 3 credits or ECOL
500 to 679 - at least 3 credits or ESS 500 to 679 - at least 3 credits or FW 500 to 679 - at least 3 credits).
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ESS 660 Biogeochemical Cycling in Ecosystems Credits: 3(3-0-0)
Course Description: Biotic and abiotic processes responsible for distribution and fluxes of elements at ecosystem, landscape, and global

## scales.

Prerequisite: CHEM 245 and SOCR 240 and ECOL 300 to 699.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
ESS 692 Seminar Credit: 1 (0-0-1)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.
ESS 695 Independent Study in Ecosystem Science Credits:
$\operatorname{Var}[1-6]$ (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
ESS 698 Research Credits: $\operatorname{Var}[1-18]$ (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of advisor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.
ESS 699 Thesis Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of advisor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.
ESS 798 Research Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Professional.
Registration Information: Written consent of advisor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.
ESS 799 Dissertation Credits: $\operatorname{Var}[1-18]$ (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Professional.
Registration Information: Written consent of advisor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

## Watershed Science (WR)

WR 304 Sustainable Watersheds Credits: 3 (3-0-0)
Also Offered As: GR 304.
Course Description: Effects of climate, land use, and water use on the sustainability of water quantity and quality.
Prerequisite: None.
Registration Information: Completion of the AUCC 1B Mathematics requirement. Credit not allowed for both WR 304 and GR 304.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
Additional Information: Biological \& Physical Sciences 3A.
WR 406 Seasonal Snow Environments Credits: 3(2-3-0)
Course Description: Evaluation of the physical environment;
characteristics of snow; methods of studying snow; snow safety.
Prerequisite: None.
Restriction: Must be a: Junior, Senior, Senior - 5yr Bachelor, Senior - Post Bachelor, Senior - Second Bachelor.
Registration Information: Junior or senior standing. Must register for lecture and laboratory. Required field trips.
Term Offered: Spring (odd years).
Grade Modes: S/U within Student Option, Trad within Student Option. Special Course Fee: Yes.
WR 416 Land Use Hydrology Credits: 3 (3-0-0)
Course Description: Fundamental concepts in hydrology and effects of land use on hydrologic processes.
Prerequisite: (GEOL 120 or GEOL 122 or GEOL 124 or GEOL 150 or SOCR 240) and (CIVE 202 or STAT 201 or STAT 301 or STAT 307 or STAT 315) and (PH 110 or PH 121 or PH 141).
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option. Special Course Fee: No.
WR 417 Watershed Measurements Credits: 3(2-3-0)
Course Description: Instrument and field techniques in watershed science. Project design and data analysis.
Prerequisite: None.
Registration Information: Must have concurrent registration in WR 416.
Must register for lecture and laboratory. Required field trips.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option. Special Course Fee: Yes.
WR 418 Land Use and Water Quality Credits: 3 (3-0-0)
Course Description: Physical, chemical, biological water quality parameters affecting land use; land management to maintain water quality; water quality standards, legislation.
Prerequisite: None.
Registration Information: CHEM 103; CHEM 104 or CHEM 107; CHEM 108
or CHEM 111; CHEM 112.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

WR 419 Water Quality Laboratory for Wildland Managers Credits:
2 (0-4-0)
Course Description: Sampling and determination of water quality parameters.
Prerequisite: None.
Registration Information: Must have concurrent registration in WR 418.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option. Special Course Fee: Yes.
WR 440 Watershed Problem Analysis Credits: 3(2-2-0)
Course Description: Capstone integration of spatial watershed issues, focused on problem solving in watershed science.
Prerequisite: (NR 322 or NR 319) and (WR 416 and WR 418).
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option. Special Course Fee: No.
WR 465 Eolian and Fluvial Transport Processes Credits: 4 (3-3-0)
Course Description: Fundamental physical principles of eolian and fluvial transport processes.
Prerequisite: PH 141.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option. Special Course Fee: No.
WR 474 Snow Hydrology Credits: 3 (3-0-0)
Course Description: Snowfall, accumulation, distribution, physical
processes in the snowpack, energy balance, ablation and runoff,
measurement methods, runoff forecasting.
Prerequisite: None.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
WR 486 Watershed Field Practicum Credits: 2 (0-6-0)
Course Description: Field visits to watershed management projects and sites of significant field studies.
Prerequisite: None.
Restriction: Must be a: Junior.
Registration Information: Junior standing. Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
WR 487 Internship Credits: Var[1-6] (0-0-0)
Course Description: Supervised work experience in professional settings related to Watershed Science.
Prerequisite: None.
Registration Information: Written consent of instructor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.
WR 492 Seminar Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

WR 495 Independent Study-Watershed Resources Credits:
$\operatorname{Var}[1-18]$ (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
WR 510 Watershed Management in Developing Countries Credits:
2 (2-0-0)
Course Description: Watershed management problems, approaches, and solutions in developing countries.
Prerequisite: CIVE 322 or ENVE 322 or WR 416.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
WR 511 Water Resource Development Credits: 3 (3-0-0)
Course Description: Basic principles of water resource management including surface and subsurface flows.
Prerequisite: None.
Registration Information: Graduate standing. Offered as an online course only. Written consent of instructor.
Term Offered: Spring
Grade Mode: Traditional.
Special Course Fee: No.
WR 512 Water Law for Non-Lawyers Credits: 3 (0-0-3)
Course Description: Basics of water law and policy for Colorado, western states, and the U.S.
Prerequisite: None.
Registration Information: Graduate standing. Written consent of instructor. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
WR 516 Cumulative Effects and Watershed Analysis Credits: 3 (2-0-1)
Course Description: Definition, causal processes, and modeling of cumulative watershed effects; comparison and evaluation of current watershed analysis procedures
Prerequisite: WR 416 and WR 417.
Registration Information: Must register for lecture and recitation.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
WR 520 Evapotranspiration Credits: 2 (2-0-0)
Course Description: Theory, estimation, measurement, simulation, and application of evapotranspiration processes in hydrology.
Prerequisite: PH 122.
Term Offered: Spring
Grade Modes: S/U within Student Option, Trad within Student Option. Special Course Fee: No.

WR 524 Modeling Watershed Hydrology Credits: 3 (2-2-0)
Also Offered As: CIVE 524.
Course Description: Development and application of watershed models: structure, calibration, evaluation, sensitivity analysis, simulation.
Prerequisite: (CIVE 322 or ENVE 322 or WR 416) and (STAT 301 or STAT 315 or CIVE 202) and (MATH 141 or MATH 155 or MATH 160).
Registration Information: Must register for lecture and laboratory. Credit not allowed for both WR 524 and CIVE 524.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
WR 574 Advanced Snow Hydrology Credits: 4 (3-0-1)
Course Description: Snow processes in hydrologic cycle; physical and conceptual methods of modeling; techniques for measuring different states and change rates.
Prerequisite: CIVE 322 or ENVE 322 or WR 416.
Registration Information: Must register for lecture and recitation.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.
WR 575 Snow Hydrology Field Methods Credit: 1 (0-2-0)
Course Description: Field course offering hands-on experience in snow hydrology.
Prerequisite: None.
Registration Information: Enrollment in a graduate program. Required field trips.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
WR 616 Hillslope Hydrology and Runoff Processes Credits: 3(1-0-2)
Course Description: Hillslope hydrology and runoff processes in different environments; implications for management and modeling.
Prerequisite: CIVE 322 or ENVE 322 or WR 416.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture and recitation.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.
WR 674 Data Issues in Hydrology Credits: 3 (3-0-0)
Course Description: Types of data, data sources, data quality, missing data, spatial data, data usage, sensitivity in models, error, presentation of data and results.
Prerequisite: WR 574.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.
WR 692 Seminar Credits: $\operatorname{Var}[1-18]$ (0-0-0)
Course Description:
Prerequisite: None
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

WR 695 Independent Study Credits: $\operatorname{Var}[1-18]$ (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
WR 696 Group Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
WR 698 Research Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
WR 699 Thesis Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
WR 712 Watershed Systems Credits: 3(2-2-0)
Course Description: Dynamic simulation of watershed behavior; application and evaluation of current hydrologic models.
Prerequisite: (WR 416 or CIVE 322 or ENVE 322) and (STAT 340).
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.
WR 714 Water Quality for Wildland Managers Credits: 3(3-0-0)
Course Description: Sampling, statistics of sampling, concepts of ionic equilibrium, water quality modeling, instream flow requirements.
Prerequisite: WR 418.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.
WR 798 Research Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

WR 799 Dissertation Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

## Major in Ecosystem Science and Sustainability

The major in Ecosystem Science and Sustainability provides a strong scientific foundation in ecosystem ecology integrated with a broad knowledge of the cultural, social, economic, and political issues that are shaping the issue of sustainability. Students in the major learn to integrate science into real-world decision making, with the goal of developing sustainable strategies to maintain ecosystem services around the globe. We provide students with a broad base of experiential and collaborative learning opportunities, opportunities for research through our affiliation with the Natural Resource Ecology Laboratory, and the latest scientific knowledge about how organisms interact with their environments to form complex ecosystems. Students begin their program with core courses that build a strong foundation in the physical and natural sciences. Courses in ecosystem science put that core understanding into the context of our natural resources, with coursework in the classroom, laboratory, and field. Capstone courses task groups of students with proposing cutting-edge solutions for sustainability.

## Learning Outcomes

Students in the major are learning:

- How to help people use natural resources in a sustainable way.
- About environmental change at local and global scales.
- How they can identify ways people can adapt to change and improve their lives.
- The amazing connections between different earth system components.
- How to conduct field work in a variety of settings addressing questions important to sustainability.

## Potential Occupations

Completion of the undergraduate degree qualifies students for a wide variety of careers related to natural resource science. Examples of possible careers include: sustainability coordinator, ecologist, environmental educator, invasive species specialist, biological science technician, climate change scientist, natural resource specialist, or corporate environmental consultant. Students completing the undergraduate degree in Ecosystem Science and Sustainability will also be well prepared to succeed in graduate education in a variety of disciplines.

## Major in Watershed Science

Watershed Science is the interdisciplinary study of the natural processes and human activities that affect freshwater resources. Water is a critical component of Earth's ecosystems and is used for human consumption, agriculture, energy production, transportation, and recreation. Sustainable management of freshwater resources is
an increasingly important and complex challenge in Colorado and worldwide. The major in Watershed Science focuses on the physical, chemical, social, and biological factors that affect the quantity, quality, and flux of water through engagement in the field, laboratory, and classroom. Students begin their program with core courses that build a strong foundation in the physical and natural sciences in preparation for upper-division coursework in land use and snow hydrology, water quality,
and watershed problem analysis. Courses emphasize field learning and technical skills, with core classes emphasizing watershed measurements, data analysis, modeling, and research.

## Learning Outcomes

Students will:

- Demonstrate understanding of the key concepts in watershed science including surface and subsurface hydrology and water quality.
- Demonstrate understanding of land use effects on fresh water resources.
- Develop skills in collection and analysis of meteorological, hydrological, and water quality data.
- Develop skills in watershed problem analysis, including the use of watershed models.
- Demonstrate strong critical thinking, writing, and oral communication skills.

## Potential Occupations

Completion of the undergraduate degree qualifies students for a wide variety of careers in hydrology and water resources management. Examples of possible careers include: watershed scientist, hydrologist, water quality analyst, watershed manager, watershed analyst, watershed use specialist, and water conservation specialist. Employment opportunities for graduates are found in consulting firms, governmental agencies, international development and resource management agencies, non-profit organizations, and private industry.
