The Department of Construction Management offers graduate study leading to the Master of Science degree. The focus is on professional programs that successfully combine theory and application with a strong emphasis in applied management. The master's program is an advanced curriculum designed to allow students to tailor a portion of the requirements to meet individual interests and goals.

## Minor in Construction Management

### About the Minor

The Construction Management minor is designed to provide students an opportunity to study basic concepts of construction, materials, techniques, design, and managerial skills required for the construction industry. The CM minor has admission criteria and consists of nine courses beginning with CON 101 Introduction to Construction Management. The minor will take students a minimum of five semesters to complete.

### How to Add the CM Minor

Students must meet with a CM Advisor to declare interest in the minor and will be given an override to register for CON 101. An online application must be completed and once a student satisfies the following criteria he or she will be admitted to the minor and allowed to register for additional required CON courses.

### Admission Criteria

- Earn a minimum 2.750 cumulative CSU GPA
- Complete CON 101 with a "B" grade or better
- Complete CO 150 with a "B" grade or better
- Complete MATH 125 with a "C" grade or better

Once a student has met the minimum requirements listed above he or she is eligible to apply to the CM Minor program. Students are admitted each semester in May and December.

## Requirements Effective Fall 2015

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

## Graduate Graduate Programs in Design and Merchandising

The department offers graduate programs leading to a Master of Science degree in Design and Merchandising. Students may specialize in Apparel and Merchandising or Interior Design. For more information about program emphases and requirements, contact the department. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Design and Merchandising (<http://www.dm.chhs.colostate.edu>).

## Learning Outcomes

Design and Merchandising graduate students will:

- Demonstrate mastery of design and merchandising concepts and theories in their respective focal areas, including apparel design and production, consumer behavior, creativity, merchandising, interior design, product development, social/cultural/historical aspects of dress and design, sustainability/resilience, and textile science.
- Critically review and interpret research through a review of literature relevant to a research problem or challenge.
- Demonstrate an understanding of how to conduct and implement original research in design and merchandising as demonstrated through problem identification, literature review, study design, data collection, and data analysis/interpretation.
- Effectively communicate outcomes of design and merchandising research in diverse presentation formats (e.g., oral, written, visual).

- Be successful in procuring positions in industry or academia and/or admission to doctoral-level programs.
- Be involved in co-curricular activities.

## Major in Apparel and Merchandising

The Apparel and Merchandising program emphasizes the study of product design and development; promotion, distribution, and retailing; and consumer behavior in the global environment, while fostering cultural awareness and a commitment to social responsibility. There are three concentrations in the major: Apparel Design and Production, Merchandising, and Product Development.

### Learning Outcomes

Students will demonstrate their understanding and apply core design, merchandising, textiles science, and technical skills relative to their program areas. The three concentrated areas include:

- Apparel Design and Production core skills will include, but are not limited to: use of industry-related technology for sketching pattern drafting, marker making, constructing; and crossing disciplines to include properties of design conceptual development technical production specifications communication, materials sourcing, and marketing strategies.

- Merchandising core skills will include, but are not limited to: domestic and global retailing, merchandise buying, sales and customer service, product forecasting, product promotion, consumer behavior; and crossing disciplines to include knowledge and skills in accounting/budgeting, purchasing, management, and marketing.
- Product Development core skills will include, but are not limited to: market research, product design and development, prototypes, specification sheets, global sourcing, and supply chain management. Skills in this concentration are enhanced through industry related technology. Students in the Apparel and Merchandising major will be able to assess and synthesize multiple factors in creating/producing quality products, services, and design solutions. The factors will address human, design, industry and business, global, science, and technology sensitivities.

Students will be able to describe their understanding of multiple processes that are involved in the practice of apparel design and production, merchandising, and product development. These processes include but are not limited to critical and creative thinking, communication, ethics, social responsibility and sustainability, collaborative, and interdisciplinary.

Students will distinguish and demonstrate qualities of professionalism and business practice that contribute to the industry, and advance the value of their knowledge to the near and/or built environments.

Students will enroll in Internships credits at least one semester before graduation and a pre-internship course during their third year in the major. Placement with businesses and organizations in national and international settings are intended to facilitate depth and integration of knowledge in the study of apparel and merchandising and to enhance students' professional development and career opportunities. Students with a 2.500 GPA are eligible to participate in department-facilitated internships.

Students who engage in co-curricular learning experiences will have the opportunity to visit apparel and fashion headquarters, manufacturers, and markets, network with industry professionals, engage in project based learning experiences, assist with department recruiting events and new student orientations, and participate in a variety of leadership events.

### Potential Occupations

Example careers for Apparel Design and Production graduates include, but are not limited to: apparel and fashion designer, computer-aided design (CAD) manager, creative director, design director, fashion illustrator, fashion magazine editorial contributor, fashion stylist, pattern-maker, technical designer, trend/fashion forecaster.

Example careers for Merchandising graduates include, but are not limited to: brand/product merchandise manager, merchandise buyer, retail analyst, retail manager, retail store/website planner, resident buying office administrator, sales representative, showroom coordinator/manager, inventory control agent, consumer or market researcher, product trend analyst, advertising and promotions coordinator/manager, public relations specialist, social media specialist, and visual merchandiser.

Example careers for Product Development graduates include, but are not limited to: consumer or market researcher, product designer/developer, prototype engineer, import/export specialist, sourcing agent, product testing specialist, production manager, quality control agent, and sourcing agent.

## Concentrations

- Apparel Design and Production Concentration
- Merchandising Concentration
- Product Development Concentration

## Major in Apparel and Merchandising, Apparel Design and Production Concentration

In the Apparel Design & Production concentration, the curriculum focuses on the development of knowledge and skills necessary to engage in the design of textile and apparel goods for an identified target market, including coursework in aesthetics and design, fashion/trend forecasting, fashion illustration, pattern development; material selection (e.g., fibers, fabrics, dyes/finishes), apparel construction techniques, computer-aided design (CAD), historic textiles and costume, and social-psychological aspects of dress.

Students applying to the Apparel Design and Production concentration are accepted first into the Apparel and Merchandising major. Full acceptance into the Apparel Design and Production concentration requires passing the Portfolio Review held in the spring semester. Industry professionals in the field of apparel design and manufacturing will evaluate portfolios. The 20 to 25 highest scoring students will be accepted into the Apparel Design and Production concentration and become eligible to take the Apparel Design and Production courses in the concentration.

## Major Completion Map

### Distinctive Requirements for Degree Program:

Competitive Selection process: Portfolio Review required for all students who desire to declare Apparel Design and Production (ADAZ) concentration. Upon successful passing of the Portfolio Review, students are able to take AM 143. No course requirements to submit a Portfolio, however, a minimum 2.500 cumulative reported GPA is required. 20#25 students selected each Fall and can then declare ADAZ concentration # those are then permitted to enroll in AM 143, AM 241, AM 244, AM 341, AM 345, AM 446.

## Major in Apparel and Merchandising, Product Development Concentration

The Product Development concentration offers unique learning opportunities in developing and innovating consumer products. This concentration will teach students necessary skills and knowledge for product development, including market potential analysis, trend forecasting, technology and material research, concept development, product line development, computer-aided design, technical package, packaging/branding strategies, pricing and costing, product line management, quality assurance, sourcing, supply chain management, and new venture start-up.

Students in this concentration will gain competence to be successful industry professionals or entrepreneurs through market-driven, industry-sponsored projects, which allows them to develop further networks with the real world. Students graduating with this concentration often pursue careers in highly technical product development fields such as outdoor products or sportswear industries.

## Major Completion Map

### Distinctive Requirements for Degree Program:

Product Development in apparel and merchandising involves market research and definition, design and development, engineer of prototypes, launch and contextual assessment/refinement, and promotion. This concentration is designed to develop in students a comprehensive knowledge of product development along with the skills necessary for bringing new products to market.

Product developers operate in a changing, competitive environment, managing cultural differences, and balancing contemporary aesthetics with business practices. Product developers are employed in assorted textile and apparel industries, and can position their expertise to address functional design problems for medical solutions, such as hospital gowns, or for profession-related solutions, such as firefighting protective clothing. Product developers are also employed in the outdoor and activewear industry to design for performance and technical solutions.

It is essential that a Product Developer learn and master key knowledge, skills and abilities including social psychological and physiological factors, global business and industry acumen, science and technology, critical and creative thinking, ethics and sustainability, along with communication and interpersonal skills.

## Minor in Merchandising

A minor in Merchandising provides students in other majors an opportunity to expand their knowledge of merchandising. The minor may be of special interest to students majoring in areas such as art, business, and journalism and technical communication. The perspectives gleaned by selecting a Merchandising minor both enhance understanding of the student's major program and expand career opportunities available to the student.

The Apparel and Merchandising program emphasizes study in apparel and textile design, product development, marketing and retailing of consumer goods, and sourcing of products. The program encompasses global study of the cultural/historical economic, and scientific aspects of the textile and apparel industry, while fostering understanding of consumer behavior and socially responsible business practices.

## Requirements Effective Fall 1999

**Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.**

**Additional coursework may be required due to prerequisites.**

## Major in Interior Design

The Interior Design program exemplifies the definition of the professional interior designer as qualified by education, experience, and examination to enhance the function and quality of life, increase productivity, and protect the health, safety, and welfare of the public. The program is accredited by the Council for Interior Design Accreditation (CIDA).

Students seeking to apply to the Interior Design major at CSU first are admitted to CSU as Pre-Interior Design. All students who wish to be considered for admission to Interior Design will be required to complete the Interior Design Scenario. Selective advancement into the major is based on the score received at the Interior Design Scenario determined by external reviewers who assess student competencies in writing, drawing, problem solving, and conceptual frameworks. A cohort of approximately 40 students is selected upon completion of the Interior Design Scenario. The Design Scenario occurs annually in spring semester. See the Department of Design and Merchandising (<http://www.dm.chhs.colostate.edu>) website for more information regarding the Interior Design Scenario.

In order to participate in the Interior Design Scenario students must have the following:

- GPA of 2.5 or higher.
- Completion of or current enrollment in INTD 129 and INTD 166 or equivalent. Equivalent courses from other institutions must be approved at least two weeks prior to the Interior Design Scenario by the Interior Design transfer advisor.

The Interior Design department Academic Success Coordinator will work with Pre-Interior Design students and advise them on their current performance in relation to the possibility of their admission to Interior Design.

Faculty in the Interior Design program value learning as a collaborative effort inviting diversity, design research as a basis for excellence in design practice, and new models for learning to respond to new ways of working. The program guides students toward becoming dedicated interior designers who have strong communication skills, are active as team players and creative problem solvers, and who make a positive impact in the practice of interior design. Students engage in research-based problem solving, providing a solid transition from education to practice in a global community. An internship in interior design practice is required for graduation.

The Interior Design graduate will learn the entirety of the design process, beginning with assessment of client needs through design programming, development of alternative design solutions, development of conceptual and theoretical frameworks, selection of furniture and finish materials, construction documentation, core compliance, and contract administration including project management and post-occupancy evaluation methodologies. In addition, students take course work in construction/ building systems and codes, business principles in interior design, computer-aided design and drafting, animation, multimedia, graphic visualization, interior design history, and sustainable practices.

The teaching facilities include design studios; display, resource, and critique spaces; and computer labs.

## Learning Outcomes

- Interior Design core skills will include but are not limited to: applications of history and culture; space and form; color and light; fixtures, equipment, and finish materials; environmental systems; building systems, and interior construction; technology; and regulations.
- Students in the Interior Design major will be able to assess and synthesize multiple factors in creating/producing quality products, services, and design solutions. The factors will address human, design, industry and business, global, science and technology sensitivities.
- Students will be able to describe their understanding of multiple processes that are involved in the practice of interior design. These processes include but are not limited to critical and creative thinking,

communication, ethics, social responsibility and sustainability, collaborative and interdisciplinary.

- Students will distinguish and demonstrate qualities of professionalism and business practice that contribute to the industry, and advance the value of their knowledge to the near and/or built environments.
- Students will enroll in Internships credits at least one semester before graduation.
- Students who engage in co-curricular learning experiences will have the opportunity to network with industry professionals, engage in project based learning experiences, assist with department recruiting events and new student orientations, and attend a variety of leadership events.

## Potential Occupations

Students are prepared as entry-level interior designers with competency in design fundamentals, space planning and programming, code compliance, lighting, materials research, project management, and professional practices in the design of diverse interior spaces.

Graduates seek employment in interior design and architecture firms as residential, corporate, retail, health care, institutional, education, and hospitality designers. Graduates also work in lighting design, product development, marketing, research, design-related journalism, illustration, facility management, showroom management, and as manufacturers' representatives.

### Distinctive Requirements for Degree Program:

First year students are identified as Pre#Interior Design (INT0). Students who qualify for the Selective Advancement Design Scenario must have INTD 129, INTD 166 and a cumulative reported GPA of 2.500 or better to participate. 35#40 students are selected to advance to the Second Year in Interior Design and majors are changed to Interior Design (INTD#BS). The Interior Design major is a cohort program # when students pass the Design Scenario, semesters 3, 4, 5, 6, 7, and 8 are sequential.

The CSU Educator Preparation Program is nationally accredited by the Council for the Accreditation of Educator Preparation (CAEP) and state accredited by the Colorado Department of Education and the Colorado Department of Higher Education.

Section 207 of Title II of the Higher Education Act mandates that the Department of Education collect data on state requirements for teacher certification and licensure, as well as data on the performance of teacher preparation programs. The Title II Institutional Report for CSU is available through the Educator Preparation website (<http://www.cep.chhs.colostate.edu/school/accreditation.aspx>).

## Learning Outcomes

Students will demonstrate:

- Employment of innovative instructional methods to promote student success and to meet state and national standards
- Understanding of how students differ in their approaches to learning and create instructional opportunities that are adapted to diverse learners
- Mastery of the content knowledge students will use for teaching a subject
- Ability to impact learning of P-12 students through course work and field experiences
- Knowledge about careers in teaching and of education governance

## Potential Occupations

Examples include: public or private school teacher, principal, staff developer, educational sales, school counselor, school social worker, school occupational therapist, curriculum specialist, human resources trainer, post-secondary teacher, and early childhood center director.

One of the most important ways to help people and to impact our society is through involvement in schools. Teachers make lasting contributions to our nation and its many generations of learners. Teacher education programs at CSU serve the needs of individuals preparing to teach in most

secondary areas, K-12 art, foreign languages, instructional technology, and music, or early childhood education. CSU is one of the public institutions in Colorado designated to offer programs leading towards a career and technical (vocational) credential. Candidates for teacher licensure are skilled in a teaching concentration and educational methodology. These students take their professional education course work concurrently while completing their content area coursework. Candidates may complete licensure while enrolled in an undergraduate program or after completing a bachelor's degree at an accredited university.

Endorsements available through the program include:

## Approved Majors for Teacher Endorsements

At CSU, the following are the approved majors for each endorsement area. Undergraduate teacher licensure candidates must be majoring in one of the approved majors that align with their endorsement area for admission to the teacher preparation program.

For detailed four-year curriculum on the degrees listed below, refer to the specific program in this catalog.

Endorsement	Approved Major for Licensure	College	Program Link
Agricultural Education	Agricultural Education (B.S.)	Agricultural Sciences	Major in Agricultural Education, Teacher Development Concentration
Art	Art (B.A.)	Liberal Arts	Major in Art, Art Education Concentration

## Admission to Teacher Licensure

Students who wish to pursue an endorsement program should apply for admission to the Teacher Preparation Program in the Center for Educator Preparation. Formal admission to the Teacher Preparation Program is based upon completion of a minimum of 30 semester credits and successful completion of the following:

- Submission of written application
- Submission of reference forms
- Field experience documentation (20 hour form)
- 2.75 cumulative GPA; 3.00 GPA for admission to the social studies endorsement
- Evidence of oral English proficiency
- Background check (custom background check for CSU's Teacher Preparation Program)
- Successful completion of Phase I education courses (EDUC 275 and EDUC 340)
- Verification of lawful presence

(Note: Admission requirements are subject to change based on program and state licensing requirements and laws.)

Detailed information about the admission process and specific deadline dates for admission are available in the Center for Educator Preparation (<http://www.cep.chhs.colostate.edu>) Advising Center, Education Building, Room 111.

## Student Teaching

Teacher licensure candidates apply for student teaching placement one semester before student teaching. Candidates must pass the state licensing exam in their respective teaching content area by mid-April or mid-October before the student teaching experience. Additionally, candidates must demonstrate acceptable professional dispositions and academic fitness. Student teaching must be completed at an approved school. Placement is contingent upon acceptance of the student by a school system. All assignments are made by CSU. The experience is full time for the specific time period.

## Requirements for Licensure

Colorado licensure requires completion of an approved teacher preparation program and the recommendation of the institution at which the program was completed. The Co-Chairs and Student Teaching Coordinator in the Center for Educator Preparation serve as the licensure officers for CSU. Additional requirements of the Colorado Department of Education and the Colorado Department of Higher Education include the successful completion of the state licensing exam. Successful completion of the approved teacher preparation program at CSU does not guarantee successful completion of the state licensing exam. The Center for Educator Preparation does not assume responsibility for the successful completion of the state licensing exam.

CSU's approved teacher preparation program requirements include completion of a baccalaureate degree, completion of content area and professional education course work, and fulfillment meeting the Colorado Performance Based Standards for teachers at the proficient or advanced proficient level. Additionally, all grades in professional education and content courses must be a C or better for licensing. The minimum scholastic average acceptable for completion of the Teacher Preparation Program and recommendation for licensing is 2.75 computed for all course work, except for social studies where a 3.00 GPA is required.

CSU reserves the right to not recommend a student for licensure on the basis of unacceptable professional dispositions and academic fitness/performance.

## Professional Education Coursework for Licensure

The professional education requirements listed below apply to all teaching endorsement areas except early childhood education where EDUC 400, EDUC 425, and EDUC 426 are required in place of EDUC 350, EDUC 386, EDUC 450, and EDUC 486E. Additional courses may be required by specific endorsement areas. For clarification, refer to individual coursework check sheets which can be obtained in the Education Building, Room 111, and online (<http://www.cep.chhs.colostate.edu>).

Candidates in all endorsement areas must complete appropriate methods courses the semester prior to enrolling in student teaching. (EDUC/EDCT 4XX - level courses)

## Career and Technical Education

Individuals desiring to teach in or administer career and technical programs in the state of Colorado must qualify for a credential in addition to a teaching license. Those who plan to qualify as career and technical education (CTE) teachers or directors must meet the requirements for a CTE credential established by the Community Colleges of Colorado and the Colorado Department of Education. Credentialing questions may be directed to the Department of Education, (303) 866-6628.

## Professional Education Course Requirements

The professional education course requirements listed under Professional Education Coursework for Licensure apply to all teaching endorsement areas in career and technical education.

## Agricultural Education

Kellie Enns, Ph.D., Program Chair

Candidates studying Agricultural Education are prepared to teach youth and adults in high schools, community colleges, junior colleges, area career and technical schools, and technical institutes. Two thousand hours in the agriculture industry are required in addition to completion of the agriculture curriculum and professional education coursework.

For the detailed four-year curriculum, refer to the College of Agricultural Sciences, Department of Agricultural and Resource Economics, major in Agricultural Education, or contact the Center for Educator Preparation Advising Center in the Education Building, Room 111.

## Family and Consumer Sciences

Dawn Mallette, Ph.D., Program Chair

Candidates majoring in Family and Consumer Sciences with a concentration in Family and Consumer Sciences Education are prepared to be employed as teachers in middle schools, junior or senior high schools, community and junior colleges, area career and technical schools, and technical institutes.

For the detailed four-year curriculum, refer to the interdepartmental major in Family and Consumer Sciences, Family and Consumer Sciences Education concentration, under the School of Education.

## Technology Education

Laurie Craig, Degree Advisor

The B.S. degree program in Engineering Science with an Engineering Education concentration provides students with opportunities to enter junior and senior high school laboratories to teach engineering design principles and concepts in an exciting engineering and technology education classroom. The program consists of a balanced mix of mathematics, science, and engineering courses with additional professional education coursework in the Center for Educator Preparation leading to a B.S. degree in Engineering Science and teacher licensure in Technology Education (Engineering). For details see <http://www.engr.colostate.edu/students/future-students/teachengineering/index.php>

For the detailed degree and licensure curriculum, refer to the major in Engineering Science, Teacher Education concentration, in the College of Engineering.

[soe.chhs.colostate.edu](http://soe.chhs.colostate.edu) (<http://soe.chhs.colostate.edu>)

The School of Education offers graduate programs leading to a Master of Education in Education and Human Resource Studies, a Master of Science in Student Affairs in Higher Education, and a Doctor of Philosophy degree in Education and Human Resource Studies.

Master of Education specializations are available in Adult Education and Training; Counseling and Career Development which is approved by the Council for Accreditation of Counseling and Related Educational Programs; Education Sciences; and Organizational Learning, Performance and Change.

The Master of Science degree in Student Affairs in Higher Education follows the Council for the Advancement of Standards in higher education.

Doctoral degree specializations are available in Education Sciences; Higher Education Leadership; Organizational Learning, Performance and Change; and School Leadership.

Regional Graduate Program status has been given to the doctoral degree by the Western Interstate Commission on Higher Education (WICHE). This arrangement, approved by the State of Colorado, permits citizens of other states to pay resident tuition rates under certain conditions. Contact the School of Education for further details.

Non-degree programs are also available that lead to licensure/credential/endorsement as a school principal.

Students interested in graduate work should refer to the Graduate and Professional Bulletin and the School of Education. (<http://soe.chhs.colostate.edu>)

The Center for Educator Preparation (CEP) (<http://cep.chhs.colostate.edu>) is the office at CSU responsible for licensure of K-12 teachers in 15 content areas, and of public school principals, K-12.

## Major in Family and Consumer Sciences

Family and Consumer Sciences is an exciting field with many career opportunities. The mission of this interdepartmental major prepares professionals dedicated to enhancing the well-being of individuals and families and the communities and environments in which they function.

Students graduate with an interdisciplinary perspective about the challenges encountered by consumers and families. Family and Consumer Sciences students attain skills to assist families and consumers with quality of life decisions and challenges related to interpersonal/human relationships, consumer and financial resource management, personal development, nutrition and wellness, and balancing family and work. This program emphasizes management and problem solving skills needed to be a responsible and productive individual, family member, and worker. Students take course work primarily in Family and Consumer Sciences and in the Departments of Human Development and Family Studies, Food Science and Human Nutrition, and Design and Merchandising.

Students have the option of the Family and Consumer Sciences concentration or the Family and Consumer Sciences Education concentration. Graduates qualify to sit for the examination to be certified in Family and Consumer Sciences (CFCS) with the American Association of Family and Consumer Sciences.

### Learning Goals

Students will:

- demonstrate an understanding and comprehension of the family and consumer sciences body of knowledge
- demonstrate, at a professional level, oral and written communication and problem solving proficiency within Family and Consumer Sciences
- demonstrate synthesis and integration of the specialized Family and Consumer Sciences body of knowledge through engaged learning experiences
- choose, examine, and assess the impact of civic engagement relevant to Family and Consumer Sciences

### Potential Occupations

Graduates' career opportunities include but are not limited to: cooperative extension/agent, consumer information specialist,

program development, consultant, product representative, consumer information specialist, customer assurance specialist, writer/developer of informational or educational materials, governmental, community, and non-profit agency worker, child/youth family advocacy, family financial officer, wellness director, and Peace Corps volunteer. Teaching opportunities at the middle school, junior high, high school, or post-secondary level are available upon completion of the education concentration.

The major provides a strong foundation for graduate work. Graduate degree opportunities are available in the School of Education or specific departments related to family and consumer sciences (Design and Merchandising, Food Science and Human Nutrition, Human Development and Family Studies, Social Work, Occupational Therapy, etc.).

### Concentrations

- Family and Consumer Sciences Concentration
- Family and Consumer Sciences Education Concentration

## Major in Family and Consumer Sciences, Family and Consumer Sciences Concentration

The Family and Consumer Sciences concentration provides students with a focus on consumer and family well-being, growth and development of family members, and the relationship of households to their environment. The concentration is interdisciplinary, bringing together courses in human development, family studies, nutrition and foods, consumer sciences, personal finance, apparel and textiles, and design and merchandising.

It is highly recommended that students participate in internships, volunteer activities, or cooperative extension opportunities to enhance their experiences and development. Graduates who seek advanced degrees attain higher level professional positions.

The concentration includes All-University Core Curriculum courses, subject matter courses, and elective courses to enhance personal and professional development.

## Major in Family and Consumer Sciences, Family and Consumer Sciences Education Concentration

Family and Consumer Sciences Education directly addresses the needs of youth, families, and consumers. Helping to shape the future, teachers of family and consumer sciences impact the lives of individuals, the health of families, and the welfare of society.

The Education concentration has as its mission to *teach and model best educational practices to prepare emerging teachers as learners, collaborators, and leaders*. The Family and Consumer Sciences licensure program includes general education courses, subject matter courses, and teacher preparation courses.

Students apply for the licensure program in their junior year and participate in practicum experiences working closely with classroom teachers and students in area schools. Throughout the phases of the licensure program, teacher candidates are placed in a middle school and a high school where they apply professional knowledge and refine their instructional skills. While student teaching, they work closely with

a Family and Consumer Sciences mentor teacher(s) and a university professor(s).

Teacher candidates completing the program meet the requirements for the Bachelor of Science degree in Family and Consumer Sciences, a Colorado Initial Teaching License in Family and Consumer Sciences, and a Family and Consumer Sciences Career and Technical Education endorsement (1200 hours of paid work experience related to FCS is required for the CTE endorsement).

This concentration is accredited and approved by the Colorado Department of Higher Education (CDHE) and the Colorado Department of Education (CDE). Nationally, it is approved by the Teacher Education Accreditation Council.

Students interested in pursuing a teaching license through CSU may refer to the School of Education section in this chapter for general information. Detailed information about the Center for Educator Preparation (CEP) (<http://cep.chhs.colostate.edu>) program and licensure requirements is available in the Education Building, Room 111.

## Graduate Certificate in Adult Basic Education

The Adult Basic Education certificate is offered for practitioners and administrators who do not need the Adult Basic Education Authorization (ABEA) from the state of Colorado. This may include those from other states. The four courses in the Certificate are the same as those authorized by the Colorado Department of Education. The Graduate Certificate in Adult Basic Education is earned through documented evidence and demonstrated competency in foundational knowledge in adult basic education and family literacy.

\*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

## Graduate Certificate in Campus Crisis Management

From natural disasters to student illness outbreaks, emergencies can happen every day. Being able to plan ahead, as well as respond when crises arise, can help minimize the impact on your students and your institution. Students finishing this certificate program will have the skills to deal directly with the crisis, the stakeholders involved, and the media through an understanding of:

- Crisis management in schools and universities, including planning, prevention, response, and recovery
- Human relations skills across various educational settings
- Law in student affairs

The Campus Crisis Management graduate certificate is a five course, 15 credit offering that introduces its students to many facets of campus

crisis management, including law in student affairs, human relations in education, and more. This certificate requires a completed bachelor's degree, and a 3.000 grade point average.

## Graduate Certificate in Facilitating Adult Learning

The Facilitating Adult Learning graduate certificate will provide students with theoretical knowledge and practical skills to effectively design and deliver instruction for adult learners within their unique settings. Teaching the adult learner requires a different skill set from teaching the younger K-12 student. This skill set includes the art of facilitation. Facilitating allows faculty and students to become co-learners in the educational setting.

## Master of Education in Education and Human Resources Studies, Counseling and Career Development Specialization

The Counseling and Career Development (CCD) program is designed to prepare professional counselors for positions in public schools, higher education systems, counseling centers and other arenas. With coursework that provides a strong foundation in knowledge as well as guided practicum and internship experiences through supervision and self-discovery, this master's degree prepares you to effectively counsel people of all ages in developing self-awareness, exploration, and decision-making skills.

The Council for Accreditation of Counseling and Related Educational Programs (CACREP) accredits this program, unique within the state of Colorado for its career development emphasis. Students may opt to begin the accreditation process to become a Licensed Professional Counselor (LPC). Students may choose from the following CACREP specialties:

**School Counseling:** Students who are preparing to specialize as school counselors will demonstrate the professional knowledge and skills necessary to promote the academic, career, and personal/social development of all P–12 students through data-informed school counseling programs.

**Career Counseling:** Students who are preparing to specialize as career counselors will demonstrate the professional knowledge and skills necessary to help people develop life-career plans, with a focus on the interaction of work and other life roles.

## Ph.D. in Education and Human Resource Studies, Higher Education Leadership Specialization

The Higher Education Leadership (HEL) specialization is designed to prepare higher education administrators to advance their careers at universities and colleges. The program's coursework provides practical knowledge and skills in leadership, research, and the unique challenges faced by institutions of higher education, including enrollment management, student services, academic support leadership, and housing and auxiliary services. This doctoral degree offers a cohort structure in a predominantly online format utilizing video conferencing to provide support, networking, and strong learning interactions.

## Ph.D. in Education and Human Resource Studies, Organizational Learning, Performance, and Change Specialization

The Organizational Learning, Performance, and Change (OLPC) specialization is designed to help working executives, researchers, and academics develop the skills needed to improve organizational effectiveness, enhance decision-making, and develop analysis and research expertise. The program's coursework is grounded in organizational, strategic and change management theory, focusing on a combination of sociological, systems, psychological, and economic approaches to performance improvement strategies. This doctoral degree is a cohort structure offered as face-to-face, bi-weekly Saturday meetings held in downtown Denver.

Subjects in this department include: Food Science and Human Nutrition (FSHN) and Food Technology (FTEC) and Hospitality Management (RRM).

### Food Science and Human Nutrition (FSHN)

**FSHN 125 Food and Nutrition in Health Credits: 2 (2-0-0)**

**Course Description:** Nutritional quality and safety of food related to human health.

**Prerequisite:** None.

**Terms Offered:** Fall, Spring.

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**FSHN 150 Survey of Human Nutrition Credits: 3 (3-0-0)**

**Course Description:** Basic nutrition principles and concepts; their application to personal health and interactions with societal and environmental issues.

**Prerequisite:** None.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 192 First Year Seminar Credit: 1 (0-0-1)**

**Course Description:** Facilitate a successful transition to college for new incoming students by emphasizing personal growth and identifying campus resources.

**Prerequisite:** None.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 300 Food Principles and Applications Credits: 3 (3-0-0)**

**Course Description:** Application of food preparation theories to modification and evaluation of food products.

**Prerequisite:** (CHEM 103 or CHEM 107 or CHEM 111) and (FSHN 150).

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 301 Food Principles and Applications Laboratory Credits: 2 (0-6-0)**

**Course Description:** Techniques and manipulative skills for preparation and evaluation of standard and modified food products.

**Prerequisite:** FSHN 300, may be taken concurrently.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** Yes.

**FSHN 350 Human Nutrition Credits: 3 (3-0-0)**

**Course Description:** Metabolism of macro and micronutrients; physiologic basis underlying dietary recommendations for human health. Nutrients, dietary requirements for physical well-being; evaluation of various diets.

**Prerequisite:** (BMS 300, may be taken concurrently) and (CHEM 245 or CHEM 341).

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 360 Nutrition Assessment Credits: 2 (2-0-0)**

**Course Description:** Principles of anthropometric, dietary, and biochemical assessment of nutritional status.

**Prerequisite:** FSHN 350.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 386A Practicum: Food Service Management Credits: 2 (0-0-4)**

**Course Description:**

**Prerequisite:** None.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** S/U Sat/Unsat Only.

**Special Course Fee:** No.

**FSHN 386B Practicum: Gerontology Credits: 3 (0-0-9)**

**Course Description:**

**Prerequisite:** None.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** S/U Sat/Unsat Only.

**Special Course Fee:** No.

**FSHN 386C Practicum: School Nutrition Credits: 3 (0-0-9)**

**Course Description:**

**Prerequisite:** None.

**Terms Offered:** Fall, Spring.

**Grade Mode:** S/U Sat/Unsat Only.

**Special Course Fee:** No.

**FSHN 392 Dietetic Practice Seminar Credit: 1 (0-0-1)**

**Course Description:** Pre-professional skills to prepare students for the pursuit of careers in the field of dietetics.

**Prerequisite:** (CHEM 107 with a minimum grade of B and CHEM 108 with a minimum grade of B or CHEM 111 with a minimum grade of B and CHEM 112 with a minimum grade of B and CHEM 113 with a minimum grade of B) and (LIFE 102 with a minimum grade of B or BZ 111 with a minimum grade of B and BZ 110 with a minimum grade of B) and (BMS 300 with a minimum grade of B and BMS 302 with a minimum grade of B and FSHN 150 with a minimum grade of B and FSHN 300 with a minimum grade of B and FSHN 301 with a minimum grade of B).

**Registration Information:** 3.000 overall GPA.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 428 Nutrition Teaching and Counseling Techniques Credits: 3 (3-0-0)**

**Course Description:** Objectives, principles, and organization of subject matter for nutrition education and counseling.

**Prerequisite:** FSHN 350.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 444 Nutrition and Aging Credit: 1 (1-0-0)**

**Course Description:** Effect of aging on nutrient needs and impact of nutrition on successful aging and health in the elderly.

**Prerequisite:** FSHN 150.

**Registration Information:** Admission to Gerontology Interdisciplinary Studies Program can be substituted for FSHN 150. Credit not allowed for both FSHN 444 and FSHN 459. Sections may be offered: Online.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 445 Early Childhood Health, Safety, and Nutrition Credits: 3 (0-0-3)**

**Registration Information:** Graduate standing. Offered as an online course only.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 532 Emerging Issues in Nutrition Credits: 3 (2-0-1)**

**Course Description:** Principles related to emerging areas of nutrition and their role in health promotion. Focus is on current research related to micronutrients and supplements, sports nutrition, food safety and technology, food systems, nutrition and aging, and nutrigenomics.

**Prerequisite:** FSHN 530.

**Registration Information:** Graduate standing. Offered as an online course only.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 540 Nutrigenomics and Advanced Lipid Metabolism Credits: 3 (0-0-3)**

**Course Description:** How nutrients regulate gene expressions (nutrigenetics) and how genotype influences an individual's nutrient requirements (nutrigenomics).

**Prerequisite:** None.

**Registration Information:** Admission to GP-IDEA program in Dietetics. Offered as an online course only.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 550 Advanced Nutritional Science I Credits: 3 (3-0-0)**

**Course Description:** Protein, vitamin, mineral metabolism; human studies, animal models.

**Prerequisite:** (BC 351 or BC 403) and (FSHN 350).

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 551 Advanced Nutritional Science II Credits: 3 (3-0-0)**

**Course Description:** Carbohydrate, lipid, energy metabolism; human studies, animal models.

**Prerequisite:** (BC 351 or BC 403) and (FSHN 350).

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 575 Nutrition Education for a Healthy Heart Credit: 1 (0-0-1)**

**Course Description:** Nutrition-related issues of atherosclerotic cardiovascular disease risk reduction and background in the art/science of facilitating behavior change.

**Prerequisite:** None.

**Registration Information:** Offered as an online course only.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 586 Practicum-Advanced Clinical Nutrition Credits:****Var[1-3] (0-0-0)**

**Course Description:**

**Prerequisite:** None.

**Term Offered:** Summer.

**Grade Mode:** S/U Sat/Unsat Only.

**Special Course Fee:** No.

**FSHN 587A Internship: Clinical Dietetics Credits: 6 (0-18-0)**

**Course Description:**

**Prerequisite:** None.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Instructor Option.

**Special Course Fee:** No.

**FSHN 587B Internship: Community Dietetics Credits: 6 (0-18-0)**

**Course Description:**

**Prerequisite:** None.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Instructor Option.

**Special Course Fee:** No.

**FSHN 587C Internship: Food Service Management Credits: 6 (0-18-0)**

**Course Description:**

**Prerequisite:** None.

**Terms Offered:** Fall, Spring, Summer.

**Special Course Fee:** No.

**FSHN 620 Community Nutrition Planning and Evaluation Credits: 3 (2-0-1)**

**Course Description:** Community nutrition assessment; nutrition program planning and evaluation, nutrition policy analysis.

**Prerequisite:** FSHN 350.

**Restriction:** Must be a: Graduate, Graduate cooperative program, Professional.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 628 Advanced Nutrition Counseling Techniques Credits: 2 (2-0-0)**

**Course Description:** Principles, strategies and techniques for interviewing, assessing and providing nutrition counseling in community settings.

**Prerequisite:** None.

**Restriction:** Must be a: Graduate, Graduate cooperative program, Professional.

**Term Offered:** Fall.

**Grade Mode:** Instructor Option.

**Special Course Fee:** No.

**FSHN 630 Integrative Exercise and Nutrition Metabolism Credits: 3 (3-0-0)**

**Also Offered As:** HES 630.

**Course Description:** Advances in integrative human metabolism under conditions of changing energy flux.

**Prerequisite:** HES 610 and FSHN 551.

**Restriction:** Must be a: Graduate, Professional.

**Registration Information:** Credit not allowed for both FSHN 630 and HES 630.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 640 Selected Topics in Nutritional Epidemiology Credits: 2 (2-0-0)**

**Course Description:** Overview of topics in nutritional epidemiology; study design, interpretation of findings, linkage of data to action.

**Prerequisite:** (FSHN 350) and (STAT 301 or STAT 307 or ERHS 307).

**Restriction:** Must be a: Graduate, Professional.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 650A Recent Developments in Human Nutrition: Protein, Vitamins, and Minerals Credits: 2 (2-0-0)**

**Course Description:** Appraisal of literature on human nutritional status.

**Prerequisite:** FSHN 550.

**Restriction:** Must be a: Graduate, Graduate cooperative program, Professional.

**Term Offered:** Fall (even years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 650B Recent Developments in Human Nutrition: Carbohydrates, Lipids, and Energy Credits: 2 (2-0-0)**

**Course Description:** Appraisal of literature on human nutritional status.

**Prerequisite:** FSHN 551.

**Restriction:** Must be a: Graduate, Professional.

**Term Offered:** Fall (odd years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 650C Recent Developments in Human Nutrition: Genomic, Proteomics, and Metabolomics Credits: 2 (2-0-0)**

**Course Description:** Appraisal of literature on human nutritional status.

**Restriction:** Must be a: Graduate, Professional.

**Term Offered:** Spring (even years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 660 Women's Issues in Lifecycle Nutrition Credits: 2 (2-0-0)**

**Course Description:** Current nutritional issues related to selected stages of the lifecycle compared to normal adult nutritional needs.

**Prerequisite:** FSHN 459.

**Restriction:** Must be a: Graduate, Professional.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 661 International Nutrition Credits: 2 (2-0-0)**

**Course Description:** Roles of technological programs and international agencies in meeting nutritional needs.

**Prerequisite:** FSHN 350.

**Restriction:** Must be a: Graduate, Professional.

**Term Offered:** Fall (even years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 670 Laboratory Methods Credits: 2 (1-2-0)**

**Course Description:** Laboratory techniques and instrumentation in nutrition and food science.

**Prerequisite:** CHEM 245 or CHEM 246.

**Restriction:** Must be a: Graduate, Professional.

**Registration Information:** Must register for lecture and laboratory.

**Term Offered:** Fall (odd years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 675 Regulation of Energy Intake Credits: 3 (3-0-0)**

**Course Description:** Central and peripheral mechanisms controlling energy intake with emphasis on humans. Current theories, experimental approaches, and new research.

**Prerequisite:** FSHN 350 and PSY 454.

**Restriction:** Must be a: Graduate, Professional.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FSHN 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)**

## Food Technology (FTEC)

**FTEC 110 Food-From Farm to Table Credits: 3 (3-0-0)****Course Description:** Commercial food processing, related to preservation and enhancing of food quality, safety, and value.**Prerequisite:** None.**Term Offered:** Spring.**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.**FTEC 210 Science of Food Fermentation Credits: 3 (2-2-0)****Course Description:** Science, history, culture, gastronomy, safety, health, and nutrition aspects of fermented foods and beverages.**Prerequisite:** (CHEM 107 or CHEM 111) and (LIFE 102 or BZ 111 and BZ 110).**Registration Information:** Must register for lecture and laboratory.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** Yes.

**FTEC 350 Fermentation Microbiology Credits: 2 (2-0-0)**

**Course Description:** Integration of fermentation science, microbiology, and chemistry.

**Prerequisite:** CHEM 245 or FTEC 210 or LIFE 206 or MIP 302.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FTEC 360 Brewing Processes Credits: 3 (1-4-0)**

**Course Description:** Influence of raw material selection, malting, mashing, boiling, and fermentation on quality of beverages.

**Prerequisite:** CHEM 245 and FTEC 210.

**Registration Information:** Must register for lecture and laboratory.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FTEC 400 Food Safety Credits: 3 (3-0-0)**

**Course Description:** Safety of human food emphasizing safe production, processing, marketing, preparation, consumption, and regulations.

**Prerequisite:** CHEM 107 or CHEM 111.

**Term Offered:** Fall.

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**FTEC 422 Brewing Analysis and Quality Control Credits: 2 (1-2-0)**

**Course Description:** Assessment, quantification, and control of various aspects of commercial beer production.

**Prerequisite:** FTEC 460, may be taken concurrently and FTEC 360.

**Registration Information:** Must register for lecture and laboratory.

Required field trips.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** Yes.

**FTEC 430 Sensory Evaluation of Fermented Products Credits: 2 (1-2-0)**

**Course Description:** Application of sensory evaluation techniques to the study of fermented foods.

**Prerequisite:** FSHN 301 or FTEC 210.

**Term Offered:** Spring (odd years).

**Grade Mode:** Traditional.

**Special Course Fee:** Yes.

**FTEC 440 Refining and Packaging Technology Credits: 2 (2-0-0)**

**Course Description:** Science, technology, and management of refining and packaging.

**Prerequisite:** FTEC 360.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FTEC 447 Food Chemistry Credits: 2 (2-0-0)**

**Course Description:** Chemistry of food constituents as related to food quality and stability.

**Prerequisite:** CHEM 245 or CHEM 345.

**Term Offered:** Spring (odd years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FTEC 460 Brewing Science and Technology Credits: 3 (2-2-0)**

**Course Description:** Scientific and technical aspects of brewing, fermenting, finishing, and evaluating microbrewed style of lagers and ales.

**Prerequisite:** (CHEM 245) and (MATH 118).

**Registration Information:** 21 years of age. Must have completed 60 credits. Must register for lecture and laboratory.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** Yes.

**FTEC 465 Food Production Management Credits: 2 (2-0-0)**

**Course Description:** Production, operation, and management techniques used in the food industry at company, local and international levels.

**Prerequisite:** FTEC 360, may be taken concurrently.

**Term Offered:** Fall (odd years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FTEC 478 Phytochemicals and Probiotics for Health Credits: 2 (2-0-0)**

**Course Description:** Examination of phytochemistry and probiotic organisms important in human health.

**Prerequisite:** BC 351.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FTEC 487 Internship Credits: Var[1-15] (0-0-0)**

**Course Description:**

**Prerequisite:** None.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Instructor Option.

**Special Course Fee:** No.

**FTEC 492 Seminar: Fermentation Science and Food Safety Credits: 2 (1-0-1)**

**Course Description:** Capstone seminar in fermentation science and food safety.

**Prerequisite:** None.

**Registration Information:** Senior standing.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FTEC 495 Independent Study Credits: Var[1-18] (0-0-0)**

**Course Description:**

**Prerequisite:** None.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Instructor Option.

**Special Course Fee:** No.

**FTEC 496A Group Study Fermentation Science: Current Issues Credit: 1 (0-0-1)**

**Course Description:**

**Prerequisite:** FSHN 350 or FTEC 360.

**Term Offered:** Spring (even years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FTEC 496B Group Study Fermentation Science: Functional Foods in Health Credit: 1 (0-0-1)**

**Course Description:**

**Prerequisite:** FSHN 350 or FTEC 360.

**Term Offered:** Spring (even years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**FTEC 570 Food Product Development Credits: 2 (2-0-0)****Course Description:** Food product concepts, feasibility, and evaluation.**Prerequisite:** FTEC 447.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**FTEC 572 Food Biotechnology Credits: 2 (2-0-0)****Course Description:** Interrelationships among microorganisms, food processing methods, advances in biotechnology and food quality, spoilage, shelf-life and safety.**Prerequisite:** MIP 334.**Term Offered:** Spring (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**FTEC 574 Current Issues in Food Safety Credits: 2 (2-0-0)****Course Description:** Current food safety issues from field to table; microbiological, consumer, processing, and agricultural issues.**Prerequisite:** None.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**FTEC 576 Cereal Science Credits: 2 (2-0-0)****Course Description:** Chemistry and functionality of cereal grain components and their importance in human nutrition.**Prerequisite:** FTEC 447.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**FTEC 578 Phytochemicals and Probiotics for Health Credits: 3 (2-0-1)****Also Offered As:** HORT 578.**Course Description:** Examination of phytochemicals and probiotic organisms important in human health.**Prerequisite:** BC 351.**Registration Information:** Senior standing. Must register for lecture and recitation. Credit not allowed for both FTEC 578 and HORT 578.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**FTEC 698 Research Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FTEC 699 Thesis Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FTEC 799 Dissertation Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

## Hospitality Management-RRM (RRM)

**RRM 101 Hospitality Industry Credits: 3 (3-0-0)****Course Description:** Food service, lodging, and tourism industries; exploration of various industry segments and career opportunities.**Prerequisite:** None.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**RRM 200 Hotel Operations Credits: 3 (3-0-0)****Course Description:** Front office and room management as related to resorts and hotels. Computer application, financial controls, employee and guest relations.**Prerequisite:** RRM 101.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**RRM 310 Food Service Systems-Operations Credits: 3 (3-0-0)****Course Description:** Technical operations: menu planning, evaluation, recipe standardization, forecasting, food cost, sanitation, hospital food distribution systems.**Prerequisite:** None.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**RRM 311 Food Service Systems-Production and Purchasing Credits: 3 (3-0-0)****Course Description:** Quantity food production principles, purchasing specifications, market channels.**Prerequisite:** RRM 310.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**RRM 312 Hospitality Human Resource Management Credits: 3 (2-0-1)****Course Description:** Principles and practices of employee management in the hospitality industry including employment process, training, legal aspects, performance.**Prerequisite:** RRM 310.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**RRM 330 Alcohol Beverage Control and Management Credits: 2 (2-0-0)****Course Description:** Classification, production, and service of controlled beverages; management of facilities and people; safe service training; financial controls.**Prerequisite:** CHEM 103, may be taken concurrently or CHEM 107, may be taken concurrently or CHEM 111, may be taken concurrently.**Term Offered:** Fall.**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.

**RRM 340 Restaurant Operations Credits: 4 (0-8-0)**

**Course Description:** Principles, practices, philosophies, systems for daily operation of casual or fine dining restaurant; focus on developing solutions to problems.

**Prerequisite:** RRM 101, may be taken concurrently.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**RRM 345 Food, Beverage, and Labor Cost Control Credits: 3 (3-0-0)**

**Course Description:** Cost control for food, beverage, and labor in the hospitality industry.

**Prerequisite:** ACT 205 and CS 110.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**RRM 350 Hospitality Marketing Credits: 3 (3-0-0)**

**Course Description:** Operations marketing, including consumer behaviors, marketing strategies, and marketing plans in the hospitality industry.

**Prerequisite:** RRM 101.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**RRM 386 Practicum Credits: 3 (0-0-9)**

**Course Description:** Practicum in Hospitality Management.

**Prerequisite:** RRM 101.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** S/U Sat/Unsat Only.

**Special Course Fee:** No.

**RRM 400 Food and Society Credits: 3 (2-0-1)**

**Course Description:** Exploration of the influence of food, dining, and nutrition on cultural aspects of the human experience.

**Prerequisite:** (SOC 100 or PSY 100) and (AMST 100 or AMST 101 or ANTH 140 or NR 320 or HIST 252 or HIST 255 or ETST 250 or ETST 252 or ETST 255 or HIST 101 or HIST 150 or HIST 151 or HIST 171 or HIST 250 or HIST 121) and (AGRI 270 or HIST 170 or AM 250 or ANTH 200 or LJPN 250 or LB 170 or LB 171 or ETST 100 or PHIL 170 or SA 482 or E 238 or E 245 or HIST 100 or ETST 205 or ETST 253 or ETST 256 or PF 110 or HIST 115 or HIST 120 or IE 116 or IE 270 or IE 370 or HORT 171 or SOCR 171 or SOC 205 or POLS 232 or POLS 131 or POLS 241 or ECON 211 or LCHI 250 or LARA 250 or LFRE 250 or LGER 250 or LRUS 250 or LSPA 250 or AGRI 116).

**Registration Information:** Must register for lecture and recitation.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**RRM 410 Food Safety Management Credits: 2 (2-0-0)**

**Course Description:** Management and practical applications of safe food service including sanitation, food borne illness, worker hygiene, proper food temperatures and handling, hazard analysis critical control points, local/state/federal health rules and regulations. ServSafe® Manager Certification.

**Prerequisite:** (CHEM 103 or CHEM 107 or CHEM 111) and (RRM 310).

**Registration Information:** Junior standing.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**RRM 415 Catering Techniques and Culinary Arts Credits: 3 (0-6-0)**

**Course Description:** Management of advanced techniques in culinary technique; catering of food and beverages for special functions.

**Prerequisite:** RRM 311.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** Yes.

**RRM 450 Leadership in the Hospitality Industry Credits: 3 (3-0-0)**

**Course Description:** Exploration of leadership skills, their relationship to ethics through self-analysis, and leading change in the hospitality industry.

**Prerequisite:** RRM 310 and MGT 305.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**RRM 460 Event and Conference Planning Credits: 3 (3-0-0)**

**Also Offered As:** NRRT 460.

**Course Description:** Foundation in planning, organizing, and producing special events and conferences. Functions and strategies for effective event management.

**Prerequisite:** NRRT 270 or RRM 101.

**Registration Information:** Credit not allowed for both RRM 460 and NRRT 460.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**RRM 487 Internship: Hospitality Management Credits: 3 (0-0-9)**

**Course Description:**

**Prerequisite:** RRM 200 and RRM 311, may be taken concurrently.

**Registration Information:** Junior standing.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** S/U Sat/Unsat Only.

**Special Course Fee:** No.

**RRM 492 Seminar on Hospitality Management Credits: 3 (0-0-3)**

**Course Description:** Applying and synthesizing service knowledge and management functions; project discussions, benchmark presentations, execution of a capstone project.

**Prerequisite:** MKT 305.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Instructor Option.

**Special Course Fee:** Yes.

**RRM 500 Understanding Food Credits: 3 (3-0-0)**

**Course Description:** Role of food in the creation of identity, as a driver of technology, and the prominent role food plays in the media.

**Prerequisite:** RRM 400.

**Registration Information:** RRM 400 or admission to the GPIdea M.S. in Dietetics program. Sections may be offered: Online.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**RRM 510 Foodservice Management Credits: 2 (1-0-1)**

**Course Description:** Analysis of a wide variety of foodservice operations, including procurement, forecasting, operational design, and menu planning.

**Prerequisite:** NRRT 402 or NRRT 471.

**Registration Information:** Must register for lecture and recitation. This is a partial-semester course. Offered as Mixed Face-to-Face only.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**RRM 520 Lodging Management Credits: 2 (1-0-1)**

**Course Description:** Operating standards and practices essential to the profitability of a hotel, lodging, and accommodation enterprise.

**Prerequisite:** NRRT 442 or NRRT 471.

**Registration Information:** Must register for lecture and recitation. This is a partial-semester course. Offered as Mixed Face-to-Face only.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**RRM 604 Research Methods in Food and Nutrition Credits: 3 (3-0-0)**

**Course Description:** Research techniques used in food and nutrition disciplines. Emphasis on design, preparation, and evaluation of research.

**Prerequisite:** EDRM 606 or STAT 301 or STAT 311.

**Restriction:** Must be a: Graduate, Professional.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**RRM 686 Practicum-Food Service Management Credit: 1 (0-4-0)**

**Course Description:** Food production, menu planning, nutritional analysis and food costing.

**Prerequisite:** None.

**Restriction:** Must be a: Graduate, Professional.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

## Major in Fermentation Science and Technology

Fermentation Science and Technology (<http://www.fshn.chhs.colostate.edu/students/undergraduate/fermentation-science>) is a multi-disciplinary major focusing on the science of

fermented foods and beverages. The curriculum focuses on the science of the processes and methods involved with using microorganisms in the commercial production of fermented products. Courses in the major also emphasize the safety, culinary, and nutritional aspects of fermented foods and beverages. This major prepares students for employment in the fermented food and beverage industries in such roles as product development, processing, quality assurance and control, sensory evaluation, packaging, distribution, and plant management. Students enrolled in this major have the opportunity to participate in industry activities and professional organizations to increase their practical understanding of fermented food and beverage production, processing methods, and specific techniques.

## Learning Outcomes

Students will demonstrate:

- Ability to integrate biological and chemical processes to quality and stability of fermented foods, and to critique and effectively communicate the relationships among processing of fermented foods, nutrition, and food safety.
- Discipline specific knowledge of the skills and competencies needed in fermentation science and technology. Examples include knowledge of food chemistry, sensory evaluation of fermented products, brewing processes, refining and packaging technology, food production management, and fermentation microbiology.
- Understanding of classification, production, financial aspects, consumption, and service of controlled beverages, including effective management of facilities and people with emphasis on safe service training and management.
- Competent application of science, history, culture, safety, health, and nutrition dimensions of fermented foods and beverages.

## Potential Occupations

Partnerships with industry help provide field experience and internships for majors in Fermentation Science and Technology. The food industry is the largest in the world and fermentation science is a rapidly emerging area so the future is promising. Examples of careers include fermentation scientist, food scientist, food technologist, food health inspector, food safety specialist, brewer, biotechnologist, quality control analyst, sensory analyst, food microbiologist, or entrepreneur.

## Major in Hospitality Management

The Hospitality Management major combines courses in food service, lodging, event planning, nutrition, and business to provide students with a strong skill set for entry into hospitality professions. Elective credits allow students to take courses in areas of interest to enhance their education. The curriculum has a strong emphasis on management skills required for success in the hospitality industry.

The Hospitality Management program maintains strong ties with the foodservice, lodging, and event planning industries locally, state-wide, and nationally to connect graduates with a wide variety of employment opportunities in the expanding commercial and non-commercial segments of the hospitality management industry. The hospitality industry is the second largest employer in Colorado and the United States. The department oversees internships in the industry and aids in job placement upon graduation.

## Learning Outcomes

Students will demonstrate:

- A conceptual understanding and systems approach to the business of hospitality management.
- The ability to make logical decisions by organizing, analyzing, and interpreting information and formulating rational solutions in a hospitality business environment.
- The knowledge and skills to successfully manage a hospitality operation, including allocating resources such as time, labor, and material inputs to achieve customer satisfaction.

- An understanding of the managerial functions of planning, organizing, directing, staffing, controlling, and budgeting in various hospitality environments.
- The behaviors of effective, ethical leaders by demonstrating the fundamental principles of leadership in a hospitality business environment.

## Potential Occupations

Participation in the experiential learning laboratory, The Aspen Grille, and internship opportunities are highly recommended to enhance practical training and development. The hospitality industry encompasses careers in restaurants, hotels, resorts, spas, event venues, catering, breweries and wineries, bed and breakfast inns, ski areas, business and industry dining venues, hospitals, correctional facilities, and military facilities in the United States and around the world.

Examples of careers include, but are not limited to: restaurant managers, caterers, event planners, wedding planners, banquet managers, hotel sales and marketing, hotel guest operations, hospitality real estate acquisition, hotel manager, food writing and media, brewery hospitality operations, commercial wine and liquor sales, chef, purchasing agent, conference coordinator, guest service agent, tourist attraction manager, spa operations manager, housekeeping manager, time share sales and marketing, bed & breakfast owner/manager, travel agent, school food service manager, hospitality food and equipment sales representative, health inspector, hospital food service manager, food importer, and country club manager.

### Distinctive Requirements for Degree Program:

Students should maintain 2.500 GPA by the end of Sophomore year. Students may substitute RRM 415 for RRM 340, and should discuss their desired choice with faculty or advisor the end of Freshman year. Hospitality Management students may also take RRM 487 Hospitality Internship, or RRM 386 Work Practicum which requires attendance at an internship meeting by end of Sophomore year.

## Major in Nutrition and Food Science

Public interest regarding the importance of nutrition to health and fitness is at a high level and increasing. The Nutrition and Food Science major involves integration of the biological, medical, and social sciences and their application to the improvement of human nutrition and fitness, prevention of chronic disease, and improved quality of life. The major is both science and human service oriented.

Nutrition and Food Science graduates gain a scientific understanding of the principles of human nutrition, the role of nutrition in the prevention and management of disease, delivery of nutritional care, and the principles of nutrition assessment and food preparation. Additionally, graduates know the techniques of interviewing, counseling, information management, and effective communication.

Four concentrations are currently available in this major – Dietetics and Nutrition Management, Nutrition and Fitness, Nutritional Sciences (pre-med), and Food Safety and Nutrition.

## Learning Outcomes

Students will demonstrate:

- Ability to identify nutrition-related public health problems, integrate information from basic nutrition sciences, critically analyze data, and develop appropriate conclusions
- Discipline-specific knowledge, skills, and competencies needed in the field of dietetics and nutrition. Examples include knowledge of medical nutrition therapy; nutrition and metabolism; program planning, monitoring, and evaluation; management in school nutrition programs and long-term care; food safety; and the role of food in the promotion of health
- Competent application of nutrition knowledge and skills in a work environment, including an ability to calculate and/or define diets for

various health/disease conditions, screen individuals for nutritional risk, determine nutrient requirements across the lifespan, and calculate enteral and parental nutrition formulations; determine costs of services/ operations, interpret financial data, and prepare a budget

(See Dietetics and Nutrition Management concentration (<http://fshn.chhs.colostate.edu/students/undergraduate/nutrition-food-science/dietetics.aspx>) on website for specific learning outcomes for the ACEND accredited dietetics program).

## Potential Occupations

Participation in community outreach, internships, volunteer activities, or cooperative education opportunities is highly recommended to enhance career planning, skills, and development. Graduates who go on for advanced studies can attain more responsible leadership positions with the possibility of rising to top professional levels.

Some examples of career opportunities include, but are not limited to: dietitian or nutritionist in health care, hospitals, long-term care, schools, state or county health agencies, health clubs, corporate wellness programs, grocery stores/food chains, or private practice; community nutritionist; biomedical scientist; restaurant manager; caterer; quality assurance specialist; food scientist; food inspector; food technologist, food plant manager; food service manager in hospitals, schools, or long-term care. The median salary for Registered Dietitians is \$49,500 – the range is \$38,976-\$64,993.

Students interested in *teaching* nutrition and/or food science content at the secondary education level should explore the interdepartmental concentration in Family and Consumer Sciences Education at the beginning of this college section. The Family and Consumer Sciences Education concentration allows students to combine their interests in nutrition, wellness/health, food science, culinary arts, and/or catering with teaching. Family and Consumer Sciences Education students take course work in the Department of Food Science and Human Nutrition, Design and Merchandising, and Human Development and Family Studies as well as complete an education sequence which qualifies them for a secondary teaching license. The demand for secondary family and consumer sciences teachers exceeds the supply in Colorado as well as nationally. Therefore, job placement is extremely high with starting salaries in the \$34,000-\$37,000 range for a nine-month teaching position.

Students may choose from among four concentrations under the Nutrition and Food Science major.

## Concentrations and Options

- Dietetics and Nutrition Management Concentration
  - Accredited Didactic Program Option
  - Childhood Nutrition Option
  - Gerontology Nutrition Option
- Food Safety and Nutrition Concentration

- Nutrition and Fitness Concentration
- Nutritional Sciences Concentration

## Major in Nutrition and Food Science, Dietetics and Nutrition Management Concentration

The Dietetics and Nutrition Management concentration provides a broad background in clinical nutrition, health promotion, and food service management. The science-based curriculum includes nutritional assessment, application of food theory, and course work focusing on nutritional counseling and medical nutrition therapy. The concentration is designed to prepare students for a dietetic internship and a professional career in medical nutrition therapy or community-based nutrition programs. The Accredited Didactic Program option of the Dietetics and Nutrition Management concentration is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND). This concentration is open to all students interested in becoming registered dietitians. However, students must qualify to continue in the Accredited Didactic Program option by meeting the prerequisites for the Dietetic Practice Seminar (FSHN 392) in their junior year. These prerequisites are an overall GPA of 3.0 and grades of “B” or better in FSHN 150, FSHN 300/ FSHN 301, and basic sciences (CHEM 107/CHEM 108, or CHEM 111, CHEM 112, CHEM 113; CHEM 245, CHEM 246; LIFE 102 or BZ 110, BZ 111; BMS 300, BMS 302; FSHN 150; FSHN 300, FSHN 301). Students who do not meet these requirements are encouraged to exercise their repeat/delete options in those courses which are lower than a “B” grade if they wish to be considered for the Accredited Didactic Program option. The Childhood Nutrition option prepares students for supervisory positions in the school nutrition program. The Gerontology Nutrition option prepares students for supervisory positions in food service management in long-term care and rehabilitation or for working with community programs providing nutrition services to older individuals.

<sup>1</sup> This program is accredited by ACEND and prepares students to be eligible to apply for dietetic internships. Application to the program is made in the summer preceding the last four semesters of the program.

<sup>2</sup> Select one course each from the lists in categories 3D and 3E, and two courses from category 3B of the All-University Core Curriculum (AUCC), for a total of 12 credits.

<sup>3</sup> Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

## Major Completion Map

### Distinctive Requirements for Degree Program:

Admission to the Accredited Didactic Program requires a minimum 3.000 GPA and grades of B or better in LIFE 102, CHEM 107 and CHEM 108, or CHEM 111, CHEM 112, and CHEM 113; CHEM 245, CHEM 246, BMS 300, BMS 302, FSHN 150, FSHN 300, and FSHN 301. Students must also have 2.800 cumulative GPA by 60 credits to remain in Dietetics.

## Major in Nutrition and Food Science, Food Safety and Nutrition Concentration

The Food Safety and Nutrition concentration blends a strong science base with courses in food science, food safety, food microbiology, and nutrition. The curriculum prepares students for employment in the food industry or in government in such areas as quality assurance,

product development, research, food inspection, sensory evaluation, and consumer education. The concentration also provides an excellent background for a graduate program. Students in the concentration are encouraged to participate in the interdisciplinary minor in Food Science/Safety to further their understanding of the continuum of responsibility shared through the food system in ensuring that food is safe and healthful. By addition of several elective courses, students can also meet ACEND (<http://www.eatrightacend.org/ACEND>) course requirements.

## Major in Nutrition and Food Science, Nutrition and Fitness Concentration

The nutrition and fitness concentration prepares students for employment as nutrition and fitness counselors and personal lifestyle coaches in health care settings, commercial establishments, public health settings, or private practice. The curriculum blends a strong

science base with course work in exercise science, nutrition, teaching, and counseling. The concentration also provides an excellent background for a graduate program. By the addition of several elective courses, students can meet ACEND didactic course requirements if they meet requirements for FSHN 392.

## Major in Nutrition and Food Science, Nutritional Sciences Concentration

The Nutritional Sciences concentration provides a strong background in natural and biomedical sciences and nutrition, making it an appropriate preparation for graduate study, medical school, or a career in nutritional

research, biomedical research, or college teaching. This concentration forms the basis for a pre-medical professional program. By addition of several elective courses, students can meet ACEND course requirements if they meet requirements for FSHN 392.

## Master of Science in Food Science and Nutrition

The Master of Science in Food Science and Nutrition includes advanced studies of nutrition science, food microbiology, preservation and safety, health properties of food and food components, and the development and dissemination of nutrition principles in the community. Thesis (Plan A) and non-thesis (Plan B) are available. A minimum of 35 credits is required for the MS degree. Please see the department (<http://www.fshn.chhs.colostate.edu>) for more information.

## Master of Science in Food Science and Nutrition, Dietetics Option (online)

### GPIdea Online Master's Program Designed for Registered Dietitian Nutritionists

The GPIdea (Great Plains Interactive Distance Education Alliance) program offers a fully online M.S. in Food Science and Nutrition for Registered Dietitian Nutritionists working in the field. The program is offered through a partnership of 8 different Universities (Colorado State University, Kansas State University, Kansas University Medical Center, University of Nebraska, Oklahoma State, Iowa State, South Dakota State and North Dakota State). The collaboration provides a rich offering of courses provided by expert faculty from each institution while earning a degree from CSU.

Programs of study are designed to allow students the flexibility to individualize coursework and research to their specialty, interests and career focus. The GPIdea program objectives are to:

- Develop research skills, stimulate independent thought, and provide up-to-date knowledge in foods, nutrition, and food service and business management.

- Promote health and disease management through food and nutrition programs and make a difference in the lives of others by advancing the level of practice of registered dietitian nutritionists.

**It is important to note that the program is open to those who are registered dietitian nutritionists (RD, RDNs) only. This program is not a didactic program in dietetics.**

Program Total Credits:

37

A minimum of 37 credits are required to complete this program.

<sup>1</sup> 500-level or higher statistics course approved by advisor and graduate committee.

## Ph.D. in Food Science and Nutrition

The Ph.D. in Food Science and Nutrition includes advanced studies of nutrition science, food microbiology, preservation and safety, health properties of food and food components, and the development and dissemination of nutrition principles in the community. A minimum of 72 credits is required for the Ph.D. degree. A minimum of 42 credits is required with a master's degree in the same field of study. Contact the department (<http://www.fshn.chhs.colostate.edu/students/graduate/doctoral>) for more information.

## Minor in Nutrition

This minor provides an opportunity for a non-major to gain a significant orientation to a food, nutrition, and health-related field. The courses in the minor in Nutrition have a significant number of prerequisites that should be examined carefully before selecting the minor. Although open to any interested student, the Nutrition minor would be most easily taken by students majoring in a life science discipline such as biology or health and exercise science.

## Requirements Effective Fall 2004

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

## Undergraduate Majors

- Major in Health and Exercise Science
  - Health Promotion Concentration
  - Sports Medicine Concentration

## Graduate Graduate Programs in Health and Exercise Science

The department offers two graduate degrees: the Master of Science in Health and Exercise Science, and the Doctor of Philosophy in Human Bioenergetics. Students interested in a Master's degree in Public Health with a focus in Health and Exercise Science can refer to the School of Public Health (<http://publichealth.colostate.edu>). Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Health and Exercise Science (<http://hes.chhs.colostate.edu>).

## Master Programs

- Master of Science in Health and Exercise Science, Plan A
- Master of Science in Health and Exercise Science, Plan B

## Ph.D.

- Ph.D. in Human Bioenergetics

## Courses Health and Exercise Science (HES)

**HES 100A Beginning Physical Education: Aerobic Exercise Credit: 1 (0-3-0)**

**Course Description:** Physical activities for the development of personal motor skills.

**Prerequisite:** None.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** S/U Sat/Unsat Only.

**Special Course Fee:** No.

**HES 100C Beginning Physical Education: Soccer Credit: 1 (0-3-0)**  
**Course Description:** Physical activities for the development of personal motor skills.

**Prerequisite:** None.

**Terms Offered:** Fall, Spring, Summer.

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**HES 100J Beginning Physical Education: Volleyball Credit: 1 (0-3-0)**  
**Course Description:** Physical activities for the development of personal motor skills.

**Prerequisite:** None.

**Terms Offered:** Fall, Spring, Summer.

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**HES 100M Beginning Physical Education: Basketball Credit: 1 (0-3-0)**  
**Course Description:** Physical activities for the development of personal motor skills.

**Prerequisite:** None.

**Terms Offered:** Fall, Spring, Summer.

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**HES 100N Beginning Physical Education: Racquetball Credit: 1 (0-3-0)**  
**Course Description:** Physical activities for the development of personal motor skills.

**Prerequisite:** None.

**Terms Offered:** Fall, Spring, Summer.

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**HES 1000 Beginning Physical Education: Weight Training Credit: 1 (0-3-0)**

**Course Description:** Physical activities for the development of personal motor skills.

**Prerequisite:** None.

**Terms Offered:** Fall, Spring, Summer.

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**HES 102C Physical Education Activities: Special Activities Credit: 1 (0-3-0)**

**Course Description:** Physical activities for the development of personal motor skills.

**Prerequisite:** None.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** S/U Sat/Unsat Only.

**Special Course Fee:** No.

**HES 102F Physical Education Activities: Conditioning and Fitness Credit: 1 (0-3-0)**

**Course Description:** Physical activities for the development of personal motor skills.

**Prerequisite:** None.

**Terms Offered:** Fall, Spring, Summer.

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**HES 102G Physical Education Activities: Athletics Credit: 1 (0-3-0)**  
**Course Description:** Physical activities for the development of personal motor skills.

**Prerequisite:** None.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** S/U Sat/Unsat Only.

**Special Course Fee:** No.

**HES 120 Introduction to Health and Exercise Science Credit: 1 (1-0-0)**  
**Course Description:** Health and Exercise Science major, career options, campus resources, tools for academic success, various health-related topics.

**Prerequisite:** None.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 145 Health and Wellness Credits: 3 (3-0-0)**

**Course Description:** Personal health behaviors and personal choice in response to wellness.

**Prerequisite:** None.

**Registration Information:** Credit not allowed for both HES 145 and HES 143. Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 207 Anatomical Kinesiology Credits: 3 (2-2-0)**

**Course Description:** Anatomical, physiological, and mechanical fundamentals of human movement.

**Prerequisite:** MATH 125, may be taken concurrently.

**Registration Information:** Must register for lecture and laboratory.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 232 Techniques of Teaching Group Exercise Credit: 1 (0-2-0)**

**Course Description:** Learn practical skills for the instruction of various group fitness activities. Emphasis is on physiological principles related to group fitness, as well as choreography, safety, and modifications for diverse populations and current trends.

**Prerequisite:** HES 207.

**Registration Information:** Credit allowed for only one of the following: HES 232, HES 232B, or HES 332H.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 232A Techniques of Teaching Physical Activity: Weight Training Credit: 1 (0-2-0)**

**Course Description:** Practical and theoretical aspects of teaching individual sports with special emphasis on materials, teaching techniques, and analyzing skills.

**Prerequisite:** None.

**Registration Information:** Credit not allowed for both HES 232A and HES 332F.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 240 First Aid and Emergency Care Credits: 2 (1-2-0)**

**Course Description:** Principles, applied techniques emphasizing emergency rescue and care. Meets requirements for Red Cross Advanced First Aid and Emergency Care Credential.

**Prerequisite:** None.

**Registration Information:** Must register for lecture and laboratory.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 303 Biomechanics and Neurophysiology Credits: 3 (3-0-0)**

**Course Description:** Study and elementary analysis of human motion based on anatomical, neurophysiological, and mechanical principles.

**Prerequisite:** HES 207.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 307 Biomechanical Principles of Human Movement Credits: 4 (3-2-0)**

**Course Description:** Study and elementary analysis of human motion based on anatomical and mechanical principles.

**Prerequisite:** (HES 207 or BMS 301) and (PH 121 or PH 141).

**Registration Information:** Must register for lecture and laboratory.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 309 Methods of Coaching Credits: 2 (2-0-0)**

**Course Description:** Preparation to coach in an interscholastic athletic situation.

**Prerequisite:** None.

**Registration Information:** Sections may be offered: Online.

**Term Offered:** Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 319 Neuromuscular Aspects of Human Movement Credits: 4 (3-2-0)**

**Course Description:** Neuromuscular anatomy and physiology of human movement. Applied/integrated topics: aging, muscle fatigue, training, force control, and neuromuscular disease.

**Prerequisite:** BMS 300 and HES 207.

**Registration Information:** Must register for lecture and laboratory.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 340 Exercise Prescription Credits: 3 (2-2-0)**

**Course Description:** Theory and practice of exercise prescription for healthy individuals, cardiac patients, and other special populations according to the American College of Sports Medicine (ACSM) guidelines. Includes the practice of proper lifting and spotting techniques, manipulation of training variables, and design of safe, effective, and efficient individual workout programs.

**Prerequisite:** BMS 300 with a minimum grade of C and FSHN 150 with a minimum grade of C and HES 145 with a minimum grade of C and HES 207 with a minimum grade of C.

**Registration Information:** Must register for lecture and laboratory.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 345 Population Health and Disease Prevention Credits: 3 (3-0-0)**

**Course Description:** Causes of disease throughout the lifespan and interventions designed to prevent disease.

**Prerequisite:** HES 145.

**Registration Information:** Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 354 Theory of Health Behavior Credits: 3 (3-0-0)**

**Course Description:** Health behavior (HB) theories and their application to health promotion (HP) programs. Multi-level factors that interactively impact human HBs, theoretical foundations for these factors, and the relationship between HBs & selected health outcomes. Discuss application of HB theories, and examine HP programs that have applied these theories in different settings and high risk populations.

**Prerequisite:** HES 145 or PSY 100.

**Registration Information:** Junior standing.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 355 Integration of Health Behaviors Credits: 3 (3-0-0)**

**Course Description:** Designed to guide students in applying their knowledge of health behavior change to individuals with various health challenges. Explores a variety of health topics including understanding stress and coping and managing stress, behavioral factors in chronic disease, and behavioral health.

**Prerequisite:** HES 340 and HES 354.

**Registration Information:** Completion of 60 credits.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 379 Psychology and Sport Credits: 3 (3-0-0)**

**Course Description:** Psychological and social implications involved in teaching physical education and coaching athletics.

**Prerequisite:** PSY 100 and HES 145 with a minimum grade of C and HES 207 with a minimum grade of C and BMS 300 with a minimum grade of C.

**Registration Information:** Must have taken the following courses and maintained a minimum GPA of 2.500 in them: HES 145; HES 207; BMS 300.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 386 Practicum—Adult Fitness Credits: 2 (1-2-0)**

**Course Description:** Adult fitness.

**Prerequisite:** HES 232 and HES 340 with a minimum grade of C.

**Registration Information:** Must have earned a cumulative 2.750 GPA in: BMS 300, FSHN 150, HES 145, and HES 207. Must register for lecture and laboratory.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 403 Physiology of Exercise Credits: 4 (3-2-0)**

**Course Description:** Effects of exercise on tissues, organs, and systems of the body.

**Prerequisite:** (BMS 300 or BMS 360) and (LIFE 102).

**Registration Information:** Must register for lecture and laboratory.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 405 Exercise Testing Instrumentation Credits: 2 (1-2-0)**

**Course Description:** Theory and operation of devices commonly employed in quantifying factors related to exercise.

**Prerequisite:** HES 403.

**Registration Information:** Must register for lecture and laboratory.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 410 Bioethics: Concepts and Controversies Credits: 3 (2-0-1)**

**Course Description:** Origins of bioethics and analysis of cases/controversies in contemporary bioethics.

**Prerequisite:** PHIL 205.

**Registration Information:** PHIL 205 or 7 credits of AUCC-science category 3A.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 420 Electrocardiography and Exercise Management Credits: 3 (2-2-0)**

**Course Description:** Interpretation of 12-lead ECG tracings, administering exercise tests, and prescribing exercise program for healthy individuals and special populations.

**Prerequisite:** BMS 300.

**Registration Information:** Must register for lecture and laboratory.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 434 Physical Activity Throughout the Lifespan Credits: 3 (3-0-0)**

**Course Description:** Impact of physical activity on biology and physiology of human development and aging processes.

**Prerequisite:** BMS 300 or HDF5 201.

**Registration Information:** Junior standing. Sections may be offered: Online. Credit not allowed for both HES 434 and HES 444.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 444 Successful Aging: Role of Physical Activity Credits: 2 (2-0-0)**

**Course Description:** Biology and physiology of healthy aging and impact of disease and physical activity on aging processes.

**Prerequisite:** LIFE 102 or BZ 110.

**Registration Information:** Sections may be offered: Online.

**Terms Offered:** Fall, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 455 Health Promotion Programming Credits: 3 (3-0-0)**

**Course Description:** Investigation of established health promotion programs with special emphasis on design, implementation, and evaluation of programming models.

**Prerequisite:** HES 355 and HES 386 and HES 403.

**Registration Information:** Senior standing. Credit not allowed for both HES 455 and HES 456.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 476 Exercise and Chronic Disease Credits: 3 (3-0-0)**

**Course Description:** Interaction of physical activity with pathophysiology and treatment of chronic diseases and conditions.

**Prerequisite:** BC 351 and FSHN 350 and HES 403.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 484 Supervised College Teaching Credits: Var[1-5] (0-0-0)**

**Course Description:**

**Prerequisite:** None.

**Registration Information:** Maximum of 10 credits allowed in course.

A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Instructor Option.

**Special Course Fee:** No.

**HES 486 Practicum—Wellness Program Management Credits: 3 (1-4-0)**

**Course Description:**

**Prerequisite:** HES 386.

**Registration Information:** Junior standing. Must register for lecture and laboratory. Credit not allowed for both HES 486 and HES 486B.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Instructor Option.

**Special Course Fee:** No.

**HES 487 Internship Credits: 12 (0-0-36)**

**Course Description:** Practical application of knowledge, skills, and leadership in a professional situation.

**Prerequisite:** None.

**Registration Information:** Senior standing. Consent of department.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 492 Health and Exercise Science Seminar Credits: 3 (0-0-3)**

**Course Description:** Integration and reflection on health and exercise science disciplinary knowledge.

**Prerequisite:** HES 307 and HES 319 and HES 340 and HES 403.

**Registration Information:** Senior standing.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 495A Independent Study: Health Credits: Var[1-18] (0-0-0)**

**Course Description:**

**Prerequisite:** None.

**HES 619 Advanced Neural Control of Movement Credits: 3 (3-0-0)**

**Course Description:** Neuroanatomical, neurophysiological, and applied topics on the control of force and human movement.

**Prerequisite:** BMS 300 and BMS 301 and HES 403.

**Restriction:** Must be a: Graduate, Professional.

**Term Offered:** Fall (odd years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 630 Integrative Exercise and Nutrition Metabolism Credits: 3 (3-0-0)**

**Also Offered As:** FSHN 630.

**Course Description:** Advances in integrative human metabolism under conditions of changing energy flux.

**Prerequisite:** FSHN 551 and HES 610.

**Restriction:** Must be a: Graduate, Professional.

**Registration Information:** Credit not allowed for both FSHN 630 and HES 630.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 645 Epidemiology of Health and Physical Activity Credits: 3 (3-0-0)**

**Course Description:** Foundation in chronic disease epidemiology that will enable students to evaluate the current epidemiologic literature.

**Prerequisite:** HES 600.

**Restriction:** Must be a: Graduate, Graduate cooperative program, Professional.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 650 Health Promotion Programming Credits: 3 (3-0-0)**

**Course Description:** Development of skills in health promotion program design, implementation and evaluation.

**Prerequisite:** None.

**Restriction:** Must be a: Graduate, Graduate cooperative program, Professional.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 656 Comprehensive Stress Management Credits: 3 (3-0-0)**

**Course Description:** Relationship between stress and illness emphasizing methods to impact its detrimental effects.

**Prerequisite:** None.

**Restriction:** Must be a: Graduate, Professional.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)**

**Course Description:**

**Prerequisite:** None.

**Restriction:** Must be a: Graduate, Professional.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Instructor Option.

**Special Course Fee:** No.

**HES 686A Practicum: Adult Fitness-Human Performance Clinical/ Research Laboratory Credits: Var[1-3] (0-0-0)**

**Course Description:**

**Prerequisite:** None.

**Restriction:** Must be a: Graduate, Professional.

**Registration Information:** Current CPR certification.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Instructor Option.

**Special Course Fee:** No.

**HES 686B Practicum: Wellness Management Credits: Var[1-3] (0-0-0)**

**Course Description:**

**Prerequisite:** None.

**Restriction:** Must be a: Graduate, Professional.

**Registration Information:** Current CPR certification.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Instructor Option.

**Special Course Fee:** No.

**HES 686C Practicum: Youth Fitness and Skill Development Credits: Var[1-3] (0-0-0)**

**Course Description:**

**Prerequisite:** None.

**Restriction:** Must be a: Graduate, Professional.

**Registration Information:** Current CPR certification.

**Terms Offered:** Fall, Spring, Summer.

**Grade Modes:** Instructor Option, Traditional.

**Special Course Fee:** No.

**HES 686D Practicum: Health and Exercise Science Research Credits: Var[1-3] (0-0-0)**

**Course Description:**

**Prerequisite:** None.

**Restriction:** Must be a: Graduate, Professional.

**Registration Information:** Current CPR certification.

**Terms Offered:** Fall, Spring, Summer.

**Grade Modes:** Instructor Option, Traditional.

**Special Course Fee:** No.

**HES 686E Practicum: Applied Health and Exercise Science Credits: Var[1-3] (0-0-0)**

**Course Description:**

**Prerequisite:** None.

**Restriction:** Must be a: Graduate, Professional.

**Registration Information:** Current CPR certification.

**Terms Offered:** Fall, Spring, Summer.

**Grade Modes:** Instructor Option, Traditional.

**Special Course Fee:** No.

**HES 687 Internship Credits: Var[3-9] (0-0-0)**

**Course Description:** Practical application of knowledge and skills in a professional situation.

**Prerequisite:** HES 686A to 686E - at least 1 course.

**Restriction:** Must be a: Graduate, Professional.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 692 Seminar Credit: 1 (0-0-1)**

**Course Description:** Consideration of graduate education in health and exercise science.

**Prerequisite:** None.

**Restriction:** Must be a: Graduate, Graduate cooperative program, Professional.

**Terms Offered:** Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 693 Seminar Credit: 1 (0-0-1)**

**Course Description:** Current topics and issues in health and exercise science.

**Prerequisite:** None.

**Restriction:** Must be a: Graduate, Professional.

**Registration Information:** Maximum of 2 credits allowed in course.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HES 695A Independent Study: Health Credits: Var[1-18] (0-0-0)**

**Course Description:**

**Prerequisite:** None.

**Restriction:** Must be a: Graduate, Graduate cooperative program, Professional.

**Terms Offered:** Fall, Spring, Summer.

## Major in Health and Exercise Science

Students may choose from two concentrations offered in the Health and Exercise Science major—Health Promotion or Sports Medicine.

### Learning Outcomes

Students will demonstrate:

- Practical knowledge and skills (stress/fitness testing, leadership, administrative, teaching/communication, customer service, and professional attitude) in exercise science and health promotion through laboratory and/or practicum and internship experiences
- Ability to synthesize, integrate, apply, and communicate health and exercise science disciplinary knowledge through structured written assignments and oral presentations

- Skills and knowledge required to successfully compete for employment within the discipline or compete for graduate or professional school placement

## Potential Occupations

The United States and other developed countries are struggling with an aging and increasingly unhealthy population. Understanding the role of physical activity in preventing and treating disease and maintaining optimal health at any age is critical. Graduates trained in the foundations of human movement such as anatomy, physiology, exercise prescription and health behavior change AND the ability to apply this knowledge to enhance the health, well-being and functional performance of the public, will be in high demand.

We take pride in training students in Health and Exercise Science to be strong critical thinkers who can express themselves clearly in written and oral form, view the world from multiple perspectives and are models of professional behavior and citizenship: qualities that will serve them well in any career they choose to pursue. Graduates that follow the Health Promotion track also acquire theoretical and hands-on training that makes them competitive for career opportunities in a wide variety of areas including, but not limited to: corporate fitness/wellness, community health/wellness, public health, health behavior change, exercise technicians, cardiac rehabilitation, personal trainers, group exercise/fitness instructors, fitness/ medical equipment sales, and recreation

directors. In the Sports Medicine track, graduates acquire additional course work in areas such as biomechanics, neurophysiology and human nutrition. This training provides excellent preparation for graduate studies in allied health areas and a variety of medical professions.

### Concentrations

- Health Promotion Concentration
- Sports Medicine Concentration

## Major in Health and Exercise Science, Health Promotion Concentration

A concentration in Health Promotion provides academic content and experience in promoting positive health behaviors such as physical activity, weight management, stress management, identification of risk factors associated with chronic disease and exercise prescription. The curriculum focuses on exercise science, behavior change, health promotion program development, business administration, and practical field experiences. This concentration prepares students for careers in a wide variety of allied health fields, such as health/wellness, fitness facilities, sport specific training, clinical rehabilitative settings, corporate health and wellness programs, and non-profit organizations.

### Cardiac Care Internship Requirements

Students enrolling in internships in cardiac care must take HES 420 prior to the internship. Students may use elective credits in the sophomore, junior, or senior year to do so. A minimum grade of B (3.00) is required in HES 420 prior to internship placement.

Code	Title	Credits
HES 420	Electrocardiography and Exercise Management	3

It is recommended, but not required, that students enrolling in cardiac care internships take the following courses using elective credit.

BMS 420	Cardiopulmonary Physiology	3
BMS 450	Pharmacology	3

- 1 MATH 155 or MATH 160 can be substituted for MATH 118, MATH 124 and MATH 125.
- 2 CHEM 111/CHEM 112 can be substituted for CHEM 107/ CHEM 108, and should be seriously considered by students who want to go on to graduate studies.
- 3 Students may substitute HES 307 and HES 319 for HES 303.
- 4 The minimum GPA for students in the Health Promotion concentration must be at least 2.750 with no grade below a C in the following courses BMS 300, FSHN 150, HES 207, and HES 145 before department approval will be given to register for HES 386.
- 5 Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

## Major in Health and Exercise Science, Sports Medicine Concentration

The Sports Medicine concentration provides a strong science background and a solid grounding in the foundations of human movement. This track is dedicated to preparing students both professionally and academically for their future careers. The Sports Medicine concentration provides excellent preparation for those students seeking pre-professional preparation in medical fields, physical therapy

or other allied health fields or students planning on pursuing an advanced degree (master's and/or Ph.D.) in exercise science or a related field.

Some of the courses required for this concentration include chemistry, biology, physics, anatomy, kinesiology, exercise physiology, biomechanical principles and neuromuscular aspects of human movement, and human nutrition. This concentration provides a comprehensive understanding of health and exercise science while preparing students for post graduate programs.

## Master of Science in Health and Exercise Science, Plan A

The M.S. in Health and Exercise Science, Plan A offers students a health-oriented, science-based curriculum and research experience. The program is a scientifically rigorous, research focused program that prepares students for further education and/or careers in health and exercise science related fields. The program is structured to prepare

students for further education that includes doctoral study, physical and occupational therapy, and medicine (e.g., physicians/physician assistant and nursing). Graduates are represented by careers in: health related research and development and medical and allied health professions.

## Master of Science in Health and Exercise Science, Plan B

The M.S. in Health and Exercise Science, Plan B offers students a health-oriented, science-based curriculum and outreach experience. The program prepares students for further education and/or careers in health and exercise science related fields. Graduates are represented by careers in: health related research and development, hospital or corporate health promotion/wellness, clinical exercise physiology, and medical and allied health professions.

## Ph.D. in Human Bioenergetics

The Ph.D. in Human Bioenergetics prepares students for academic and research careers. The program trains professionals in basic and applied research addressing important aspects of human health and disease, human performance, and human aging. Students will be equipped to serve the state and the nation in a variety of capacities such as basic and applied research scientists in academic, industrial, and public health settings.

**Human Bioenergetics** is the multidisciplinary study of how energy is transferred in cells, tissues and organisms. The manner in which the body regulates energy transfer pathways and processes has a fundamental influence on health. These processes convert food into energy and relate directly to human health across the lifespan and the spectrum of functional capacities from chronic disease to elite athletic performance.

## Online Degree Programs

The major in Human Development and Family Studies (HDFS) is offered in two formats, both leading to a Bachelor of Science degree. We offer on-campus classes to local degree-seeking students, and we offer distance students the HDFS degree through the Division of Continuing Education and CSU Online. The Online Bachelor of Science Degree in HDFS (<http://www.online.colostate.edu/degrees/hdfs>) provides a high quality university education that is flexible, convenient, and accessible for working and distance students. The courses in the online program are the same as the on-campus courses. The five concentrations are available online with only some limitations, as not all CSU courses are available online. The online Bachelor of Science degree in HDFS carries the full

accreditation of CSU and is indistinguishable on student transcripts from the on-campus version of the degree. The Gerontology Interdisciplinary Minor and courses required to pursue a variety of certifications are also available online.

## Gerontology Interdisciplinary Minor

The Gerontology Interdisciplinary Minor is a 21-23 credit program, housed in HDFS and available on-campus as well as online, that provides students with the opportunity to earn an undergraduate minor in gerontology. The Gerontology Interdisciplinary Minor helps students to develop an understanding of the aging process, including the biological, psychological and social aspects of adult development and aging. Admission is ongoing throughout the year. The full program may be found under University-Wide Instructional Programs.

## Graduate Graduate Programs in Human Development and Family Studies

The Department of Human Development and Family Studies offers two specializations leading to the Master of Science degree in Human Development and Family Studies (HDFS), and one doctoral program in Applied Developmental Science. The focus of the department is the development of the individual and the family throughout the lifespan. Our graduate programs provide students with an advanced understanding of human behavior and development, as well as with skills enabling them to contribute to scholarship and professional practice.

Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Human Development and Family Studies (<http://www.hdfs.chhs.colostate.edu/students>). (<http://hdfs.chhs.colostate.edu/students/masters>)

## Master Programs

The Master of Science degree in HDFS (Plan A thesis option only) has two specializations, one in Prevention Science and one in Marriage and Family Therapy. Curricula in both programs include core courses in individual development and family theories, issues in HDFS, and research methods, as well as a research thesis.

## Courses

# Human Development and Family Studies (HDFS)

**HDFS 101 Individual and Family Development (GT-SS3) Credits: 3 (3-0-0)**

**Course Description:** Principles of life-span human development in the context of the family. Theory and research on the influence of family systems on individuals.

**Prerequisite:** None.

**Registration Information:** Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**Additional Information:** Social & Behavioral Sciences 3C, Human Behavior, Culture, or Social Frameworks (GT-SS3).

**HDFS 175 Developmental Psychology Across the Life Span Credits: 3 (0-0-3)**

**Also Offered As:** PSY 175.

**Course Description:** Theory and research on physical, cognitive, and psychosocial human development across the life span.

**Prerequisite:** None.

**Registration Information:** Offered as a telecourse only. Credit not allowed for both HDFS 175 and PSY 175.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HDFS 201 Perspectives in Gerontology Credits: 3 (3-0-0)**

**Course Description:** Multidisciplinary perspectives on a variety of issues in human aging; exploration of careers in gerontology; service-learning with older adults; emphasis on applied gerontology.

**Prerequisite:** HDFS 101 or PSY 100 or SOC 100.

**Registration Information:** Sections may be offered: Online.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HDFS 217 Creative Experiences for Children Credits: 3 (2-0-1)**

**Course Description:** Theories of play and creativity provide the foundation for examining the role of art, music, and literature in early childhood development. Exploration of creative techniques appropriate for young children and how these techniques enhance the child's self-expression, creativity, and development in educational, medical, and therapeutic settings.

**Registration Information:** Completion of 60 credits. Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HDFS 412 Mental and Physical Health in Adulthood Credits: 3 (3-0-0)**

**Course Description:** Mental and physical health of adults, contextual factors of development, and implications for prevention, intervention, and public health planning.

**Prerequisite:** HDFS 312.

**Registration Information:** Completion of 60 credits. Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HDFS 434 Risk and Resilience Across the Lifespan Credits: 3 (3-0-0)**

**Course Description:** Why some individuals are at high risk for poor developmental outcomes, and why certain individuals fare well despite such risks or adversities. Strong developmental emphasis because resilience is viewed as a process, the results of which may not be manifest for years. There is an ecological emphasis because protective and vulnerability factors often reside in families, schools, neighborhoods.

**Prerequisite:** HDFS 310, may be taken concurrently and HDFS 311, may be taken concurrently.

**Registration Information:** Completion of 75 credit minimum. Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HDFS 439 Administration of Early Childhood Programs Credits: 3 (3-0-0)**

**Course Description:** Center administration related to program development and operations, budgeting, state regulations and licensing, and personnel issues.

**Prerequisite:** HDFS 310 or PSY 260.

**Registration Information:** Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HDFS 445 Early Childhood Health, Safety, and Nutrition Credits: 3 (0-0-3)**

**Also Offered As:** FSHN 445.

**Course Description:** Planning, promoting and maintaining healthy lifestyle and safe learning environment for preschool children.

**Prerequisite:** HDFS 310 or PSY 260.

**Registration Information:** Offered as an online only course. Credit not allowed for both HDFS 445 and FSHN 445.

**Terms Offered:** Fall, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HDFS 470 Campus Connections–Mentoring At-Risk Youth Credits: 3 (0-4-2)**

**Course Description:** Service-learning course engaging students as mentors with local at-risk youth.

**Prerequisite:** None.

**Registration Information:** Written consent of instructor. Completion of AUCC 3C Social and Behavioral Sciences. Required background check through CBI, FBI. Course may be taken for a maximum of 9 credits.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** Yes.

**HDFS 475 Entrepreneurs and Leaders in Human Services Credits: 3 (3-0-0)**

**Course Description:** Skills and knowledge about leadership and entrepreneurship in areas pertinent to human development and family studies, as human services, non-profits, and other enterprises related to helping individuals, couples, and families.

**Prerequisite:** HDFS 375.

**Registration Information:** Completion of 60 credits. Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HDFS 477 Professional Skills Development II Credit: 1 (1-0-0)**

**Course Description:** Applications and integration of human development and family background within professional settings.

**Prerequisite:** HDFS 277.

**Registration Information:** Completion of 90 credits. Human Development and Family Studies majors only. Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HDFS 482A Study Abroad: Community Engagement–Mexico Credits: 3 (0-0-3)**

**Course Description:** This two-week summer service learning course involves engaging with youth and their families in conjunction with the Todos Santos Center in Mexico. Students participate in service programming that responds to community opportunities identified by a recent community needs assessment focusing on opportunities for youth and family engagement. Activities include cultural orientation and immersion, reflection of service experience, and collaboration with local professionals.

**Prerequisite:** HDFS 101 or PSY 100 or SOC 100.

**Registration Information:** Sophomore standing. Written consent of instructor. Background check required. Students will apply through the Education Abroad Office.

**Term Offered:** Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**HDFS 484 Supervised College Teaching Credits: Var[1-3] (0-0-0)**

**Course Description:**

**Prerequisite:** None.

**Registration Information:** A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** S/U Sat/Unsat Only.

**Special Course Fee:** No.

**HDFS 488A Field Placement: Human Development and Family Studies Credits: Var[1-14] (0-0-0)**

**Course Description:** Application of human development skills in a professional setting.

**Prerequisite:** HDFS 477, may be taken concurrently.

**Registration Information:** Required background check through CBI, FBI; Human Development and Family Studies majors only. Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

## Major in Early Childhood Education

(Effective Spring Semester 2015, the major in Early Childhood Education replaces the preparation for teacher licensure in Early Childhood Education, Birth through Grade 3. Contact the department for details.)

In collaboration with the Center for Educator Preparation (CEP) (<http://cep.chhs.colostate.edu>) within the School of Education (<http://soe.chhs.colostate.edu>) (SOE), the Department of Human Development and Family Studies (HDFS) (<http://www.hdfs.chhs.colostate.edu>) provides a competitive-entry Early Childhood Education Major requiring an application in the sophomore year for possible admission in the junior year. The degree enables students to apply for Early Childhood teacher licensure and D (<http://www.coloradoofficeofearlychildhood.com/#!director-qualifications/c15f>)irector Qualifi (<http://www.coloradoofficeofearlychildhood.com/#!director-qualifications/c15f>) in the state of Colorado, and will thus qualify students to engage in a number of early childhood professions: teaching grades P-3 in public or private schools in Colorado, teaching in Head Start or other preschool or childcare programs, establishing a business as a family child care or center child care provider, or serving as director of a childcare center. An understanding of human development and family

studies provides a strong foundation for students desiring a license to teach young children between the ages of 0 and 8. Knowledge of lifespan developmental processes and family systems prepares future teachers to work in partnership with parents and grandparents in educating children. Students aspiring to work with children between the ages of 0 and 8 can apply during their sophomore year to the major in Early Childhood Education. If accepted, students take courses in HDFS and SOE as a part of their degree requirements.

Students are encouraged to check the program of study as a number of prerequisites are required prior to entry in the major. The Early Childhood Education Major uses a cohort model, and admits a limited number of students, typically between 25-30, each year. The admission process takes place once a year in the spring, with the admitted candidates starting in the fall. Students in the Early Childhood Education major achieve both Early Childhood Education core learning outcomes, obtained through HDFS and SOE courses, and all learning outcomes required by the Colorado Department of Education for Early Childhood Education licensure. (<http://www.cde.state.co.us/cdeprof/checklist-initialtoprofessionalteacher>)

## Learning Outcomes

Students will demonstrate:

- Content knowledge and understanding of theory, research, and practice relevant to optimizing the development, health, and well-being of children and families in the context of the larger social environment.
- Effective written and oral communication skills appropriate for early childhood educators interfacing with colleagues, children, and parents/guardians.
- The ability to access, critically evaluate, and apply multiple forms of information related to children and families.
- Professional and leadership skills with individuals and families, including ethical and culturally sensitive conduct.
- Knowledge and skill in teaching and assessing literacy, mathematics, social studies, science, music, art, and physical education in early childhood.

## Major Completion Map

### Distinctive Requirements for Degree Program:

Students seeking admission to the Early Childhood Education (ECE) Major with teacher licensure must formally apply and be accepted. The admission process into the program takes place once a year in the spring with the admitted candidates starting the program the following fall. All coursework within the Center for Educator Preparation (CEP) requires a 4 semester (or 2 year) consecutive commitment to complete, therefore EDUC subject code courses must be taken in the semester indicated. Requirements for applying to the ECE major: 1) Must have a 2.75 GPA or better, 2) Suggested to have completed 60 credits (or more) by the end of the semester in which the student is applying (typically students apply their second semester sophomore year), 3) Must have 20 hours of volunteer or work service with children ages 0#8 years (experience must have been within the last 5 years), 4) Must have 3 references. All HDFS subject code courses and EDUC subject code courses must be completed with a grade of C or higher. Students will be required to pass a criminal arrest record background check prior to participating in field placement courses. Students will complete a graduation contract with an HDFS Academic Advisor during the first two weeks of the semester in which they are graduating.

## Major in Human Development and Family Studies

Human Development and Family Studies (HDFS) is an interdisciplinary major focusing on the development of individuals across the lifespan, within the context of family and culture. Students complete foundational coursework in human development (i.e., infancy and childhood, adolescence, emerging and young adulthood, middle and later adulthood/aging) and in the area of family studies. Students become familiar with theory and innovative research in the field and learn to identify diverse factors influencing cognitive, emotional, social, and physical development across the lifespan. Students participate in an internship

in order to apply knowledge and skills acquired in foundational course work. The HDFS major offers five concentrations that enable students to specialize within their degree and prepare for a variety of career paths. In addition to selecting one of five concentrations, students also have the opportunity to work toward the Gerontology Interdisciplinary Minor (<http://catalog.colostate.edu/general-catalog/university-wide-programs/interdisciplinary-studies/gerontology-interdisciplinary-minor>) or director qualifications in early childhood settings, or apply to the Early Childhood Education Major.

## Learning Outcomes

Students will demonstrate:

- Content knowledge and understanding of theory, research, and practice relevant to optimizing the development, health, and well-being of individuals and families across the lifespan in the context of the larger social environment.
- Effective written and oral communication skills appropriate to the field of human development and family studies.
- The ability to access, critically evaluate, and apply multiple forms of information related to individuals and families.
- Professional and leadership skills with individuals and families, including ethical and culturally sensitive conduct.

## Potential Occupations

Graduates with a major in HDFS are prepared to work in a range of human service settings including youth services organizations; early childhood, elementary, adolescent, and parent education programs; health care organizations; juvenile and adult corrections; family and community services; and programs serving older adults, including long-term care facilities. Students interested in teaching human development and family studies content at the secondary level should explore the interdepartmental major in Family and Consumer Sciences, Education Concentration. HDFS graduates are also well prepared to pursue graduate degrees in mental health, behavioral and social sciences, education, health and medicine, or other professional programs.

Some examples of career opportunities with a bachelor's degree in HDFS include, but are not limited to: early childhood teacher, early childhood administrator, adult recreation programmer, career development specialist, family services specialist, human development specialist, adult education teacher, human resources coordinator, youth agency administrator, community outreach worker, women's program administrator, youth intervention and prevention program administrator, youth employment, training, and development specialist, parent educator, children-family educator, child protection worker, family assistance worker, program administrator, public relations specialist, youth services worker, case manager, nonprofit agency administrator, and residential center manager.

To help guide students in their career planning, there are five concentrations within the Human Development and Family Studies major. The HDFS Major Program of Study consists of the HDFS foundational courses, which are required for all students regardless of concentration, 15 credits selected from the list of courses within students' chosen concentration, and additional electives to reach 120 credits as required for graduation. Students must declare a minimum of one concentration and may not declare more than two concentrations in the HDFS major. The declared concentration(s) are listed on the students' transcripts and thus indicate specialized training within the HDFS degree program.

### Human Development and Family Studies Concentration

The Human Development and Family Studies Concentration is a general concentration that is available to HDFS majors who do not choose one of the more specific concentrations. This general concentration is an excellent choice for students who are interested in a lifespan or more general focus in HDFS and are not seeking the specialized training offered in the other four concentrations. Students choosing this concentration will be preparing to enter a variety of different careers or graduate programs, as outlined above. The curriculum includes primarily HDFS, psychology, and social work courses as well as selected courses from other disciplines for a well-rounded and robust education in human development and family studies. By selecting this concentration,

students have an opportunity to participate in a variety of experiential learning courses and internship options as they explore and prepare for their career path and additional credentialing options. Please note that the HDFS general concentration does not appear on students' transcripts.

### Early Childhood Professions Concentration

The courses in the Early Childhood Professions Concentration prepare students for careers in early childhood education as well as professional work with children across a variety of settings, including working with children with special needs. This concentration is an ideal choice for first and second year HDFS majors who plan to apply to the competitive on-campus Early Childhood Education Major during their sophomore year. Additionally, this concentration is the preferred choice for students interested in the early childhood education careers that do not require teacher licensure, or for students who will pursue a graduate degree and licensure in childhood education. Students interested in working with children with special needs, those seeking director qualifications in early childhood education, and those seeking other relevant credentials would also benefit from choosing this concentration. The curriculum incorporates courses from several disciplines that focus on early child development, education, diversity, and professional skills.

### Pre-Health Professions Concentration

Many students pursuing an HDFS degree plan to apply to graduate or professional programs in a variety of health professions. The Pre-Health Professions Concentration prepares students for these careers and supports their goals of obtaining graduate training. Some of the careers students in this concentration pursue are: allied health practitioner, anesthesiologist assistant, child life specialist, chiropractor, dentist, medical doctor, music therapist, naturopathic or complementary medicine practitioner, nurse, occupational therapist, optometrist, pharmacist, physical therapist, physician's assistant, podiatrist, speech and language pathologist, or veterinarian. The courses within this concentration include a focus on science and also help prepare students to work with individuals (and their families) with disabilities, mental and physical illness, or those experiencing death, dying, or grief. In addition, students in this concentration are strongly encouraged to consult with pre-professional advisors in the Center for Advising and Student Achievement for specific course (and corresponding course prerequisite) recommendations based on the credentials that they are pursuing, as the prerequisite requirements vary for graduate and professional programs.

### Prevention and Intervention Sciences Concentration

The Prevention and Intervention Sciences Concentration is designed for students who are preparing for careers in the helping and human services professions such as counselors, educators, and social service providers, as well as for students seeking a research career in human development and family studies or a related field. This concentration is an excellent choice for students interested in careers requiring either a bachelor's degree or additional credentials. Concentration coursework emphasizes evidence-based programs, and students will learn how to design and implement community-based prevention and intervention programs for youth, adults, and families. Students can either focus on a specific aspect of the lifespan or choose courses across the lifespan.

### Leadership and Entrepreneurial Professions Concentration

The Leadership and Entrepreneurial Professions Concentration guides students who are preparing for entry-level or long-term leadership positions in organizations that promote the optimal development of individuals and families. Students in this concentration may intend

to work in organizations as directors, managers, or owners. This concentration includes coursework in finance, management, marketing, public policy, professional communication, and leadership. This concentration is also appropriate for students preparing for careers in legal services, such as lawyers or politicians. Students in this concentration may choose to pursue additional credentials in leadership, business and entrepreneurship.

#### Online Degree Program

The HDFS major is offered in two formats, both leading to a Bachelor of Science degree. We offer on-campus classes to local degree-seeking students, and we also offer the HDFS degree online through CSU Online (<http://www.online.colostate.edu>). The Online Bachelor of Science Degree in HDFS (<http://www.online.colostate.edu/degrees/hdfs>) provides a world-class university education that is flexible, convenient, and accessible for working and distance students. The HDFS courses are the same in the online degree program as they are in the on-campus program, with many of the same faculty teaching both courses. The five HDFS concentrations are available online with only some limitations, as not all CSU courses are available online. The online Bachelor of Science degree in HDFS carries the full accreditation of CSU and is indistinguishable on student transcripts from the on-campus version of the degree.

## Major Completion Map

### Distinctive Requirements for Degree Program:

Human Development and Family Studies is an open-entry major for freshmen. For sophomores and above, students must complete and/or be enrolled in HDFS 101, PSY 100 or SOC 100 in order to declare HDFS. HDFS subject code courses must be completed with a grade of C or higher. Students will be required to pass a criminal arrest record background check prior to participating in the internship course their senior year. The internship comprises the HDFS 477 and HDFS 488B (requires a background check through CBI, FBI) courses which must be taken concurrently. Students will complete a graduation contract with an HDFS Academic Advisor during the first two weeks of the semester in which they are graduating.

## Major in Human Development and Family Studies, Leadership and Entrepreneurial Professions Concentration

The Leadership and Entrepreneurial Professions Concentration guides students who are preparing for entry-level or long-term leadership positions in organizations that promote the optimal development of

individuals and families. Students in this concentration may intend to work in organizations as directors, managers, or owners. This concentration includes coursework in finance, management, marketing, public policy, professional communication, and leadership. This concentration is also appropriate for students preparing for careers in legal services, such as lawyers or politicians. Students in this concentration may choose to pursue additional credentials in leadership, business and entrepreneurship.

## Requirements

## Major Completion Map

### Distinctive Requirements for Degree Program:

Human Development and Family Studies is an open-entry major for freshmen. For sophomores and above, students must complete and/or be enrolled in HDFS 101, PSY 100 or SOC 100 in order to declare HDFS. HDFS subject code courses must be completed with a grade of C or higher. Students will be required to pass a criminal arrest record background check prior to participating in the internship course their senior year. The internship comprises the HDFS 477 and HDFS 488E courses which must be taken concurrently. Students will complete a graduation contract with an HDFS Academic Advisor during the first two weeks of the semester in which they are graduating.

## Major in Human Development and Family Studies, Pre-Health Professions Concentration

Many students pursuing an HDFS degree plan to apply to graduate or professional programs in a variety of health professions. The Pre-Health Professions Concentration prepares students for these careers and supports their goals of obtaining graduate training. Some of the careers students in this concentration pursue are: allied health practitioner, anesthesiologist assistant, child life specialist, chiropractor, dentist, medical doctor, music therapist, naturopathic or complementary

medicine practitioner, nurse, occupational therapist, optometrist, pharmacist, physical therapist, physician's assistant, podiatrist, speech and language pathologist, or veterinarian. The courses within this concentration include a focus on science and also help prepare students to work with individuals (and their families) with disabilities, mental and physical illness, or those experiencing death, dying, or grief. In addition, students in this concentration are strongly encouraged to consult with pre-professional advisors in the Center for Advising and Student Achievement for specific course (and corresponding course prerequisite) recommendations based on the credentials that they are pursuing, as the prerequisite requirements vary for graduate and professional programs.

# Major in Human Development and Family Studies, Prevention and Intervention Sciences Concentration

The Prevention and Intervention Sciences Concentration is designed for students who are preparing for careers in the helping and human services professions such as counselors, educators, and social service providers, as well as for students seeking a research career in human development

and family studies or a related field. This concentration is an excellent choice for students interested in careers requiring either a bachelor's degree or additional credentials. Concentration coursework emphasizes evidence-based programs, and students will learn how to design and implement community-based prevention and intervention programs for youth, adults, and families. Students can either focus on a specific aspect of the lifespan or choose courses across the lifespan.

<sup>1</sup> Of the 15 credits of concentration courses, a minimum of 9 credits must be HDFS courses and a minimum of 12 credits must be upper-division (300- to 400-level). Courses may not double-count for more than one HDFS concentration.

<sup>2</sup> Students with substantial career-relevant experience may petition to replace HDFS 488D with a three-course upper-division cognate defined with and approved by the advisor. The additional 1-4 credits required for the cognate can be double-counted as electives but not as concentration courses.

<sup>3</sup> Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

## Major Completion Map

### Distinctive Requirements for Degree Program:

Human Development and Family Studies is an open-entry major for freshmen. For sophomores and above, students must complete and/or be enrolled in HDFS 101, PSY 100 or SOC 100 in order to declare HDFS. HDFS subject code courses must be completed with a grade of C (2.000) or higher. Students will be required to pass a criminal arrest record background check prior to participating in the internship course their senior year. The internship comprises the HDFS 477 and HDFS 488D courses which must be taken concurrently. Students will complete a graduation contract with an HDFS Academic Advisor during the first two weeks of the semester in which they are graduating.

## Master of Science in Human Development and Family Studies, Plan A, Marriage and Family Therapy Specialization

The Marriage and Family Therapy (MFT) specialization, which is accredited by the Commission on the Accreditation of Marriage & Family Therapy Education (<http://coamfte.org/iMIS15/coamfte/home.aspx>), provides a specific professional curriculum that prepares graduates for licensure as Marriage and Family Therapists. Courses focus on individual and family development, evidence-

based clinical practices, social-justice frameworks, and research methods. MFT students also complete a thesis. Training includes practica and internships with live supervision in the CSU Center for Family and Couple Therapy (<http://www.cfct.chhs.colostate.edu>) as well as Campus Connections: Therapeutic Mentoring At Risk Youth (<http://www.hdfs.chhs.colostate.edu/students/undergraduate/campusconnections>) and other clinical programs. MFT graduates go on to work as therapists in private practice or at for-profit and non-profit mental health agencies. Some students enter doctoral programs upon graduation, including our Ph.D. in Applied Developmental Science (<http://catalog.colostate.edu/general-catalog/colleges/health-human-sciences/human-development-family-studies/applied-developmental-science-phd>).

For more information, please visit Department of Human Development & Family Studies Marriage and Family Therapy Program (<http://www.hdfs.chhs.colostate.edu/students/masters/mft.aspx>).

## Master of Science in Human Development and Family Studies, Plan A, Prevention Science Specialization

Coursework in the Prevention Science specialization focuses on the processes of lifespan development and normative family functioning, as well as theories of prevention science and risk and resilience. Students gain skills such as program planning and evaluation, program administration, grant writing, research design, and technical communication. Graduates of the Prevention Science specialization enter careers in program evaluation, policy analysis, education, the non-profit sector, and the management of prevention and intervention programs in human services. For students who are interested in prevention-oriented research careers, this specialization articulates well with related doctoral programs, including our Ph.D. in Applied Developmental Science (<http://catalog.colostate.edu/general-catalog/colleges/health-human-sciences/human-development-family-studies/applied-developmental-science-phd>).

For more information, please visit Department of Human Development & Family Studies Prevention Science Program (<http://www.hdfs.chhs.colostate.edu/students/masters/ps.aspx>).

## Ph.D. in Applied Developmental Science

The Ph.D. program in Applied Developmental Science (ADS) emphasizes how research regarding basic processes in human development can be used to prevent problems and enhance well-being across the lifespan. Students gain knowledge in lifespan human development theory, empirical research skills to conduct high-quality basic and applied research, and the abilities to translate science into practices and programs that address a wide range of social and public health problems. Graduates from the ADS program have the basic knowledge and the applied skills to work in settings such as academia, for-profit and not-for-profit research and advocacy organizations, governmental and human services agencies, or community agencies with programs designed to enhance health and well-being of individuals, families, and communities.

Students can enter the ADS program with a completed master's degree or with a completed bachelor's degree. Students entering with a bachelor's will be required to complete a master's in Human Development and Family Studies (HDFS), with a specialization in Prevention Science (<http://catalog.colostate.edu/general-catalog/colleges/health-human-sciences/human-development-family-studies/plan-a-ms-human-development-family-studies-prevention-science-specialization>) or Marriage and Family Therapy (<http://catalog.colostate.edu/general-catalog/colleges/health-human-sciences/human-development-family-studies/plan-a-ms-human-development-family-studies-marriage-therapy-specialization>).

## Department of Occupational Therapy

Occupational Therapy Building, Room 200  
(970) 491-6253  
[ot.chhs.colostate.edu](http://ot.chhs.colostate.edu) (<http://ot.chhs.colostate.edu>)

Dr. Anita Bundy, Department Head

Known nationally and internationally for its excellence, the Department of Occupational Therapy is ranked among the top 10 programs in the nation by *U.S. News and World Report*. It is recognized by CSU as a Program of Research and Scholarly Excellence and it has been designated as a Program of Excellence by the state of Colorado. The department offers

graduate-level education to prepare students as leaders in the field of occupational therapy.

The occupational therapy program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), 4720 Montgomery Lane, Suite 200, Bethesda, MD 20814-3449; (301) 652-2682. The National Board for Certification in Occupational Therapy (NBCOT) is the credentialing agency responsible for the development and implementation of the certification process for OT practitioners.

Students interested in more information regarding prerequisite and application requirements may contact the department at (970) 491-6253 or [otinfo@colostate.edu](mailto:otinfo@colostate.edu).

## Graduate Graduate Programs in Occupational Therapy

The Occupational Therapy Department offers the following degree programs:

- Master of Science in Occupational Therapy (M.S.)
- Master of Occupational Therapy (M.O.T.)
- Post-Professional Master of Science (M.S.)
- Ph.D. in Occupation and Rehabilitation Science

Students with a bachelor's degree in a discipline outside of occupational therapy pursue the Master of Science (<http://www.ot.chhs.colostate.edu/students/professional.aspx>) or the Master of Occupational Therapy (<http://www.ot.chhs.colostate.edu/students/professional.aspx>) degree. The program focuses on preparation for a broad-based, advanced-generalist practice and provides students with the knowledge and skills necessary to support people of all ages who have special needs by addressing daily challenges related to their life roles and assisting them in maximizing their independence.

Students with a bachelor's degree in occupational therapy pursue the Post-Professional Master of Science (<http://www.ot.chhs.colostate.edu/students/post-professional.aspx>) degree. Under the guidance of an advisor, students complete an individualized program of study and a thesis project that is designed to add to the profession's understanding of human performance and participation in everyday occupations and contexts.

The interdisciplinary Doctor of Philosophy (Ph.D.) degree in Occupation and Rehabilitation Science (<http://www.ot.chhs.colostate.edu/students/phd.aspx>) offers graduate training in research that is dedicated to assisting people of all ages and abilities perform and participate in everyday occupations as a source of lifelong meaning, development, health, and well-being. The program was created to meet the national demand for Ph.D. trained scientists and educators in occupational therapy and related disciplines. Upon graduation, students typically pursue academic careers in research and higher education, although additional career opportunities exist in industry and government.

Please contact the Occupational Therapy Department for further details by calling (970) 491-6253 or emailing the department at [otinfo@colostate.edu](mailto:otinfo@colostate.edu).

Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Occupational Therapy (<http://ot.chhs.colostate.edu>).

## Ph.D. in Occupation and Rehabilitation Science

### Requirements Effective Fall 2012

**Ph.D. course requirements include a minimum of 72 credits for each of three entry routes:**

**Entry A:** For students enrolled in the continuous Master's/Ph.D. degree program in occupational therapy at CSU, 18 credits of the CSU M.S. degree in Occupational Therapy will apply toward partial fulfillment of the required 72 credits.

**Entry B:** For students who submit a previously earned Master's degree, up to 30 credits may be accepted toward partial fulfillment of the required 72 credits. All potential credits accepted toward partial fulfillment of the requirements below must be approved by the student's graduate committee, the Department of Occupational Therapy, and the Graduate School.

**Entry C:** For students who do not submit a Master's degree in partial fulfillment of the required 72 credits, up to 10 credits earned after the bachelor's degree maybe accepted for transfer. Only courses taken at a 500-level or higher will be considered. All potential credits accepted toward partial fulfillment of the requirements below must be approved by the student's graduate committee, the Department of Occupational Therapy, and the Graduate School.

- Public Health
- Family Services
- Gerontology
- Behavioral Health
- Policy/Legislative Work
- Mental Health
- Addictions
- Medical/Health
- School Social Work
- Corrections
- Community Organization/Advocacy

The Social Work curriculum focuses on the practical application of social work principles, research, policies, and practices within human rights and social justice perspectives. Students acquire a professional social work knowledge-based skills and values transferable to different settings, population groups, and problem areas. Students apply a person-in-environment lens to engage and intervene with social systems locally, nationally, and globally. Several practical experiences are required through intensive internship programs. Both the BSW and MSW programs are accredited by the Council on Social Work Education.

## Major in Social Work

Social work is distinguished by a tradition of concern for people and their interactions with society. Social work professionals are community problem solvers who intervene in organizational settings, communities, social service agencies, groups, individuals, and families with goals of enhancing well-being and promoting social and economic justice. Most social workers are employed in fields such as child welfare and family services, mental health, medical social work, school social work, corrections, community organization, or advocacy.

The Social Work curriculum focuses on the practical application of social work principles, policies, and practices within human rights and social justice perspectives. Students acquire a professional social work foundation transferable to different settings, population groups, and problem areas. Attention is devoted to understanding the social welfare system in the U.S., and working with individuals, families, and communities to affect desired change. Several practical experiences are required. Students work with an agency participant throughout their sophomore year, and then as seniors, participate in a social work agency internship. The curriculum also includes a strong liberal arts base in social science research and statistics, arts, humanities, social science, and natural sciences.

CSU students are admitted to the School of Social Work (SSW) when they declare Social Work as a major. Two professional organizations, The National Association of Social Workers (NASW) and the Council on Social Work Accreditation (CSWE) guide social work practice and education. The NASW develops the Code of Ethics for practicing social workers. The CSWE accredits bachelors and masters social work educational programs in the United States. The BSW program is accredited by CSWE.

## Learning Outcomes

Graduating seniors will have demonstrated:

- Skills in conceptualizing and applying knowledge of social welfare policy and services, a systems perspective, theory, community resources, and community policy-making processes and practices.
- Knowledge and mastery of the foundation competencies as required by the CSWE for accreditation of the BSW degree.
- An understanding of the social work code of ethics including mastery of skills in maintaining client confidentiality, establishing professional boundaries, and resolving ethical dilemmas that are presented in case situations.

## Potential Occupations

Social Work graduates are employed in a variety of settings including welfare agencies, schools, hospitals, clinics, institutions, community centers, public health, corrections, and group homes. Entry-level job opportunities are plentiful. Graduates should be willing to work with people of all ages and in a multitude of circumstances and settings. Opportunities to work with older adults are especially prevalent.

Internships are required. Graduates of the BSW program are eligible to apply for advanced standing in MSW social work programs.

Some examples of career opportunities include, but are not limited to: child welfare worker, adolescent group home counselor, crisis counselor, child protection worker, adult protection worker, geriatric social worker, case manager, nursing home administrator, medical social service counselor, community outreach coordinator, youth program counselor, home health worker, occupational social services worker, foster parent consultant, probation officer, client advocate, victim-witness program counselor, program manager, substance abuse counselor, domestic violence counselor, or adoption worker.

## Progression in the Major

Progression in the Major in the SSW is guided by standards required by both NASW (<http://socialworkers.org/pubs/code/code.asp>) and CSWE (<http://cswe.org/File.aspx?id=41861>) to ensure compliance with accreditation standards and that SSW students meet nationally recognized ethical requirements for their profession.

The NASW (<http://socialworkers.org/pubs/code/code.asp>) Code of Ethics requires that social workers act ethically in their work with clients. It also requires that social workers take action when their colleagues are not acting competently or ethically. The CSWE (<http://cswe.org/File.aspx?id=41861>) requires that social work programs describe the procedures for informing students of the program's criteria for evaluating students' academic and professional performance and that the program have policies and procedures for terminating students' enrollment in the social work program for reasons of academic and professional performance.

To meet the requirements of these professional governing bodies, the SSW has developed this Progression in the Major procedure. Progression in the Major is a time in a student's academic career when faculty and students can review each student's character and fitness for the profession of social work. Prior to enrolling in the 300 level practice courses (SOWK 340, SOWK 341, SOWK 342), students must apply for Progression in the Major. Approval of the Progression in the Major application is a prerequisite for enrollment in SOWK 340. Generally students who have 60 or more credits must apply for progression in order to graduate in the following four semesters. The application for Progression in the Major will be distributed in SOWK 286A and SOWK 286B.

As a professional program, academic performance and fitness to proceed in the SSW program requires a minimum grade point average, completion of required course work, and behaviors appropriate to the performance of social work. Problems in student performance may be addressed with the student at any time in the student's academic career in the SSW.

## Student Expectations for Progression:

- Maintain a minimum GPA of 2.500 in SOWK course work; a grade of C- or better in all SOWK coursework; 2.000 in overall university course work; 2.000 in All University Core Curriculum (AUCC) course work.
- Demonstrate conduct that complies with the CSU Student Code of Conduct.
- Demonstrate conduct that adheres to the NASW Code of Ethics and social work values in interactions with faculty, peers, the community, organizations and clients.
- Remain free of criminal convictions while enrolled in the SSW and CSU.

- Refrain from substance use that interferes with the performance of responsibilities to clients and agencies and/or interferes with classroom performance.
- Demonstrate behavior that prioritizes the welfare of those to whom the student has a responsibility such as clients and coworkers.
- Refrain from any behaviors that cause harm to clients, including romantic or sexual relationships.
- Demonstrate respect for all persons and appreciation for race, age, color, religion, national origin or ancestry, sex, gender, disability, veteran status, genetic information, sexual orientation, or gender identity or expression.
- Demonstrate sound judgment, both in work with clients and in regard to oneself, such as seeking professional help for physical and emotional problems that interfere with professional functioning.
- Demonstrate honesty and integrity in work with client systems and in the classroom.

## Review Process

Concerns regarding a student's application for progression will be reported to the Director of the BSW Program. Concerns may be identified during the Progression in the Major application review process or at any time before or after progression. Progression applications will be reviewed by the Director of the BSW Program. Concerns regarding any of the foregoing student expectations will be addressed by the BSW Director directly with the student and the student's advisor. Major concerns regarding the student's ability to proceed in the program will be reviewed by the Director of the BSW program with the administrative team of the SSW, including but not limited to the Director of the SSW. A meeting will then be scheduled for review of the concerns with the student, faculty member(s) involved, the Director of the BSW Program and the Director

of SSW. Review of concerns may result in one or more of the following resolutions, through the Director of SSW:

- Dismissal or resolution of the expressed concerns.
- A probationary period which includes a remediation contract with the student to address concerns that will be monitored by the BSW Program Director or designated faculty.
- Dismissal of the student from the Social Work major.
- A report to the CSU Office of Conflict Resolution and Student Conduct Services, in the event the concerns include possible violations of the Student Conduct Code.

Students may appeal these decisions using established university and SSW procedures.

## Practicum and Internship

Students directly apply classroom knowledge, skills, and social work values through a six-credit supervised practicum, SOWK 286A and SOWK 286B, in the sophomore year. In this practicum, students are matched with community agencies which require background checks before placement.

In the senior year, students fulfill a 10-credit field placement in a social work agency or program in a community setting. Field placement agencies generally require background checks also. Examples of available field placements include child and public welfare programs; hospitals, homeless and women's shelters, rehabilitation and mental health agencies, schools, adolescent residential care, geriatric centers, and correction programs. In their field placement and under supervision, students have the opportunity to demonstrate the required CSWE competencies.

## Master of Social Work

The Master of Social Work degree offered by CSU features a nationally recognized advanced generalist curriculum that is accredited by the Council on Social Work Education (CSWE). Students are prepared for roles as social work practitioners in complex, diverse, and dynamic settings and learn to promote human rights and individual, community, and global health and well-being. The School of Social Work offers different program options for completing the MSW degree. There are full-time and part-time campus-based programs, part-time distance learning options, and a dual degree MSW-MPH. All of our program options utilize a cohort model.

- 1. Full-time two year** – This is the standard two year program. It follows the cohort model, starting every fall. Students attend full-time for four semesters - fall, spring, and the following fall and spring on campus, in-person instruction. ([Schedule here](#).)
- 2. Part-time three year** – This option begins in fall and takes three years to complete, breaking down the first full-time year into two part-time years. The final year is a full-time year, as the field placement requirement cannot be reduced. The [schedule](#) for this final year is identical to the full-time program's second year.
- 3. Advanced Standing On Campus** – This option is available only to those who have earned a BSW from a program accredited by the Council on Social Work Education within the past seven years. The BSW degree must be granted prior to the beginning of advanced standing classes. Students attend one full year consisting of three semesters, starting with the summer term. ([Schedule here](#).)
- 4. Distance Learning options** – The School of Social Work also offers a part-time hybrid program that utilizes online and in-person instruction based at the cohort locations of Denver, Colorado Springs, and Boulder/Longmont. For additional information please visit the [Distance MSW Program website](http://www.ssw.chhs.colostate.edu/students/graduate/distanceMSW) (<http://www.ssw.chhs.colostate.edu/students/graduate/distanceMSW>).

5. **MSW/MPH Dual Degree** – In partnership with Colorado School of Public Health, the School of Social Work will be offering a dual degree MSW/MPH program. For information visit the [MSW/MPH section](#).

## Ph.D. in Social Work

The curriculum leading to the degree of Ph.D. in Social Work combines a core curriculum in social work with outside coursework drawn from related disciplines, and includes thorough training in research methodology and data analysis. The curriculum allows the student reasonable flexibility in tailoring programs of study to his or her special area(s) of interest under the guidance of their advisor and committee.

## College-Wide Graduate Programs

### Master's Programs

Master in Arts Leadership and Cultural Management, Plan C

The College of Liberal Arts aims to educate committed and active citizens and to develop in them an understanding of humans, including their history, literature, and art; their social, political, and economic systems; and their relationship to the environment. The College offers courses in the arts, humanities, and social sciences, which constitute the foundation of a liberal arts education.

## College Programs

Undergraduate majors lead to one of three degrees: Bachelor of Arts, Bachelor of Fine Arts, or Bachelor of Music. Descriptions of the specific departmental and interdepartmental majors and concentrations in the College of Liberal Arts are located in the following pages.

Students should consider simultaneously completing the requirements of a second major or a departmental or interdisciplinary minor, either in the College of Liberal Arts or in another college. With careful planning, numerous combinations are possible within four years of study.

The minimum scholastic average acceptable for graduation in any college program is a 2.000 average in all major courses in addition to the university's overall grade point average requirement of 2.000 for Colorado State courses.

## Undergraduate Career Opportunities and Career Counseling

Graduates from the College of Liberal Arts enter a remarkable variety of careers. Degrees from the College of Liberal Arts prepare students for success in their professional, personal, and civic lives. The skills and dispositions students develop through study in the liberal arts are widely sought. In preparing themselves for future career opportunities students are encouraged to work closely with Academic Support Coordinators, departmental mentors, and career counselors. Through these conversations students will be encouraged to develop resumes, interviewing skills, and articulation of the ways in which their skills will benefit potential employers. Students should also consider participating in internships to gain practical work experience.

## Prelaw

Clark C, Room 336B  
 (970) 491-0704  
[courtenay.daum@colostate.edu](mailto:courtenay.daum@colostate.edu)

Prelaw adviser, Dr. Courtenay Daum

Students preparing for law school can choose any major. Law schools seek above-average students with broad educational backgrounds and excellent communication, and analytical skills. Prelaw students, regardless of major, should design a course of study that develops their skills in speaking, writing and analytical capabilities. Law schools require an undergraduate degree for admission. Visit the Department of Political Science (<http://politicalscience.colostate.edu/undergraduate/pre-law>) for more information.

## Education Abroad

Because the knowledge of at least one other culture is valuable in understanding our own, students are encouraged to take a semester or longer to study outside of the United States as part of their overall program at CSU. Students interested in education abroad should plan, far in advance, by discussing opportunities with their advisor and by visiting the Office of International Programs (<http://educationabroad.colostate.edu>) in Laurel Hall.

## Foreign Service Officer Career

Students interested in a career as a foreign service officer may prepare for both the general Foreign Service Officer Examination and

the associated language examination within the following majors: economics; history; international studies; journalism and technical communication; languages, literatures, and cultures; liberal arts; political science; or sociology.

## Graduate Programs

A variety of liberal arts advanced degrees are available in the College. Academic degrees offered are Doctor of Philosophy, Master of Arts, Master of Science, Master of Fine Arts, and Master of Music. The last two are generally considered professional degrees.

The College offers three interdisciplinary master's degrees. The Department of Anthropology offers a master's degree in Anthropology with a specialization in International Development, with courses from across CSU. The Departments of English and Languages, Literatures and Cultures offer a joint master's program in foreign languages and the teaching of English as a second/foreign language. The LEAP Institute for the Arts offers a Master's in Arts Leadership and Cultural Management in collaboration with the College of Business, the College of Liberal Arts and others, that prepares students for leadership opportunities within and outside of the creative sector. Information on all three degree programs may be obtained from any participating department.

For detailed information about graduate programs, contact individual departments. See also the Graduate and Professional Bulletin.

The Dual Degree in Interdisciplinary Liberal Art, B.A. and Engineering Sciences, B.S. is a rigorous but flexible five-year program combining an Engineering curriculum with an Interdisciplinary Liberal Arts curriculum. Upon completion students receive degrees in Engineering Science and Interdisciplinary Liberal Arts, having gained 1) a wide degree of exposure to key liberal arts traditions (Humanities, Social sciences and Arts) in a self-designed program of interdisciplinary study and 2) professional competency and expertise in Engineering Sciences.

Graduates will be able to:

- Write effectively about the knowledge and perspectives of their field of study
- Speak effectively in a wide variety of public speaking situations
- Think critically, analytically and problem solve contemporary issues, particularly within their self-defined Liberal Arts field of study
- Apply expertly mathematics, the physical sciences, and engineering fundamentals
- Define, analyze, formulate, and synthesize engineering problems associated with their professional position, both independently and in diverse, multidisciplinary and interdisciplinary team environments

- Actively contribute to multi-faceted and multi-disciplinary projects with significant legal, ethical, regulatory, social, cultural, environmental, and economic considerations using a broad systems perspective
- Communicate effectively with colleagues, professional clients, and the public
- Demonstrate commitment and progress in lifelong learning including further graduate education, professional development including active participation in professional societies, and leadership positions

- Actively participate in innovative and entrepreneurial related projects
- Recognize the need for, and an ability to engage in life-long learning
- Achieve a knowledge of contemporary issues
- Master an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice

<sup>1</sup> Students are required to participate in the Professional Learning Institute (PLI) program as a requirement for graduation. The program consists of eleven PLI workshops distributed by focus areas as follows: Global and Cultural Diversity (2 workshops), Innovation (2 workshops), Leadership (2 workshops), Civic and Public Engagement (2 workshops), and Ethics (3 workshops). Each workshop is between 1-2 hours long and no outside preparation is required to attend any of the workshops. Attendance at the required workshops may be spread over the student's five year program.

<sup>2</sup> Select from the following subject codes: ANTH, ART, CO, D, E, ECON, ETST, GR, HIST, JTC, L\*\*\*, LB, MU, PHIL, POLS, PSY, SOC, SPCM, TH, WS. Courses used to fulfill All-University Core Curriculum (AUCC) requirements may not be double-counted toward this major requirement.

<sup>3</sup> Select 18 upper-division (300- to 400-level) credits from at least two subject codes in the arts and humanities or social sciences disciplines: ANTH, ART, CO, D, E, ECON, ETST, GR, HIST, JTC, L\*\*\*, LB, MU, PHIL, POLS, PSY, SOC, SPCM, TH, WS. No more than 6 credits of Psychology (PSY) may count toward this major requirement.

<sup>4</sup> Select from the list of CLA AUCC 4B courses (above).

<sup>5</sup> Select from College of Engineering, Engineering Science list of courses.

<sup>6</sup> Students may need to obtain a prerequisite override from the department to enroll in this course.

## Major Completion Map

### Distinctive Requirements for Degree Program:

**TO PREPARE FOR FIRST SEMESTER:** The curriculum for this major assumes students enter college prepared to take calculus. Students are required to participate in the Professional Learning Institute (PLI) program as a requirement for graduation. The program consists of eleven PLI workshops distributed by focus areas as follows: Global and Cultural Diversity (2 workshops), Innovation (2 workshops), Leadership (2 workshops), Civic and Public Engagement (2 workshops), and Ethics (3 workshops). Each workshop is between 1-2 hours long and no outside preparation is required to attend any of the workshops. Attendance at the required workshops may be spread over the student's five-year program.

## Dual Degree in Engineering Science (B.S.) and International Studies (B.A.)

This is a rigorous and rewarding five-year dual degree program that combines the Engineering Science and International Studies majors. Upon completion, students receive degrees in Engineering Science and International Studies, as well as a foreign language minor. This program is ideal for engineering students with global interests. It provides both the applied expertise as well as the cultural literacy and linguistic competency to succeed in international and multicultural professional environments. In addition to the Engineering Science curriculum,

students choose a focus in one of four geographic concentrations (Asia, Europe, Latin America, Middle East/North Africa) as well as a related foreign language. Students in this program also study abroad during their academic career.

### Requirements Effective Spring 2017

To qualify for graduation, Engineering Science majors must achieve a minimum 2.000 grade point average at CSU in all courses in engineering, mathematics, computer science, statistics, physics, and chemistry as well as courses taken as technical electives

## International Studies Course Selection

Students must select a geographic option area, and from that select a minimum total of 18 credits, 15 of which must be Upper-Division (300- to 400-level), from at least three subject codes, from the following groups of courses.

- Select at least 6 credits from 1) History and Politics;
- Select at least 3 credits from 2) Thought and Cultures;
- Select at least 6 credits from 3) International Studies (course list applies to all geographic option areas);
- Select an additional minimum of 3 credits from among the three groups to bring the total to 18.

<sup>1</sup> Students are required to participate in the Professional Learning Institute (PLI) program as a requirement for graduation. The program consists of eleven PLI workshops distributed by focus areas as follows: Global and Cultural Diversity (2 workshops), Innovation (2 workshops), Leadership (2 workshops), Civic and Public Engagement (2 workshops), and Ethics (3 workshops). Each workshop is between 1-2 hours long and no outside preparation is required to attend any of the workshops. Attendance at the required workshops may be spread over the student's five year program.

<sup>2</sup> Courses are to be selected with the approval of the Engineering advisor. A minimum of 7 credits must be upper-division (300- to 400-level)

<sup>3</sup> Each student is required to complete a minor in a foreign language. Contact the Department of Languages, Literatures and Cultures.

<sup>4</sup> Students may need to obtain an override in order to register for some courses. For Engineering courses, students should see the appropriate Engineering department. For International Studies courses, students should contact the instructor.

- <sup>5</sup> To fulfill the International Studies Course Selection requirement, select a minimum total of 18 credits, of which at least 15 must be upper-division (300- to 400-level), from a minimum of three different subject codes. Students will choose an International Studies geographic option area, and from those course lists select: a minimum of 6 credits from 1) History and Politics; a minimum of 3 credits from 2) Thought and Culture; a minimum of 6 credits from 3) International Studies (list is same for all option areas); and an additional minimum of 3 credits of choice from lists 1, 2, or 3.
- <sup>6</sup> Select one course from the list of courses in category 3B of the All-University Core Curriculum (AUCC) except for L\*\*\* language courses.
- <sup>7</sup> Credit allowed for only one of LCHI 365, LGEN 465B, LJPN 365.
- <sup>8</sup> French (LFRE), German (LGER), or Spanish (LSPA) only.
- <sup>9</sup> French (LFRE) or German (LGER) only
- <sup>10</sup> To count toward the International Studies Course Selection, travel abroad must be to a country or area covered by the chosen geographic option.

## Major Completion Map

### Distinctive Requirements for Degree Program:

**TO DECLARE MAJOR:** Engineering is a controlled major: students are admitted into the major only if they meet established academic standards. Please see competitive major requirements or the advisor in the Department for more information.

**TO PREPARE FOR FIRST SEMESTER:** The curriculum for this major assumes students enter college prepared to take calculus. Students are required to participate in the Professional Learning Institute (PLI) program as a requirement for graduation. The program consists of eleven PLI workshops distributed by focus areas as follows: Global and Cultural Diversity (2 workshops), Innovation (2 workshops), Leadership (2 workshops), Civic and Public Engagement (2 workshops), and Ethics (3 workshops). Each workshop is between 1-2 hours long and no outside preparation is required to attend any of the workshops. Attendance at the required workshops may be spread over the student's five-year program.

## Major in International Studies

Office in Clark Building, Room C214  
(970) 491-3295  
inst.colostate.edu (<http://inst.colostate.edu>)

Andrea Williams, Director

The International Studies major is an interdisciplinary program designed to help students understand the nature of diverse cultures and peoples. There are four concentrations: Asian Studies, European Studies, Latin American Studies, and Middle East and North African Studies. Courses are required in foreign language, geography, political science, economics, history, and international studies, with other elective courses chosen from these and many more disciplines across the college and university.

### Learning Outcomes

Graduates of the International Studies major will demonstrate that they are competent and capable in:

- Writing effectively about the themes of International Studies and related fields
- Communicating cross-culturally through written and oral expression
- Thinking critically about international issues
- Applying an interdisciplinary approach to knowledge

## Potential Occupations

Graduates in International Studies apply their education in a wide variety of careers, including those in international business, non-profit organizations, academics, public policy, law, government, city planning, engineering, environmental sustainability and clean energy, information systems, journalism, publishing, education, sales and marketing, management and administration, artistic production, mass media, communications, museums, entertainment, foreign service, and many other areas in need of intelligent, well-rounded, and broadly world-educated people. Some International Studies graduates enter graduate or professional schools for more specialized study in either international studies or one of many other disciplines. To enhance their career opportunities, majors are encouraged to consider participating in paid or volunteer work or internship opportunities, and to study abroad.

## Major in Interdisciplinary Liberal Arts Learning Outcomes

Dean's Office  
Clark Building, Room C138  
(970) 491-5421  
libartsmajor.colostate.edu (<http://libartsmajor.colostate.edu>)

Kevin Foskin, Director

The Interdisciplinary Liberal Arts major is a degree program combining the humanities, the arts, languages and literature, and social sciences so as to foster interdisciplinary knowledge, core career competencies, personal development, professional excellence, interpersonal confidence and expertise, and a deeper understanding of the complex world in which we live. Interdisciplinary Liberal Arts majors can select between the Interdisciplinary Liberal Arts major and a five-year joint program with dual degrees in Liberal Arts (B.A.) and Engineering Science (B.S.).

To further increase depth and focus, and to enhance expertise and career opportunities, Interdisciplinary Liberal Arts students are required to complete a minor or an interdisciplinary minor from within the College of Liberal Arts.

Students will demonstrate the following skills:

- Writing effectively about the knowledge and perspectives of their field of study, including
  - a. organization in a manner that aids the readers' comprehension as well as the writer's purpose;
  - b. use of accepted grammatical form, spelling, and punctuation;
  - c. use of language in a style that is appropriate to the writer's purpose;
  - d. effective support of claims; and
  - e. clear citation of information sources.
- Speaking effectively, including
  - a. creation of a logically constructed message;
  - b. adaptation of that message to a particular audience;
  - c. use of accepted grammatical forms of standard American English dialect;
  - d. use of appropriate and engaging language; and
  - e. use of effective delivery skills.
- Thinking critically about contemporary issues, particularly within their field of study, including

- a. description of a policy, position, or artifact;
- b. analysis of the policy, position, or artifact by identifying issues or articulating and then applying a critical framework or perspective; and
- c. clear articulation and support of conclusions based on that analysis/identification of issues.

politics, healthcare, artistic production, mass media, engineering, law, city planning, business, information systems, international business, journalism, publishing, education, sales and marketing, management and administration, government, communications, museum work, entertainment, foreign service, and many others. Many continue on to graduate or professional schools for more specialized study. To enhance their career, academic or professional opportunities, majors are encouraged to participate in paid or volunteer work or internship opportunities.

## Potential Occupations

Graduates in Interdisciplinary Liberal Arts apply their education in a wide variety of careers and/or academic professions, including public policy,

## Minor in Arts Leadership and Administration

University Center for the Arts, Room 303  
(970) 491-3746  
[leap.colostate.edu](http://leap.colostate.edu) (<http://leap.colostate.edu>)

Constance DeVereaux, Director

LEAP Institute for the Arts believes that knowledge of the arts and cultures of our world are the foundation for career and life, opening possibilities for leadership, entrepreneurship, successful advocacy, and transformative public engagement. Students completing the minor are able to translate aesthetic and cultural

knowledge into the concrete abilities needed in all sectors of the economy including private enterprise, non-profit leadership, and public administration. This Special Academic Unit in the College of Liberal Arts offers the Minor in Arts Leadership and Administration. The LEAP minor provides students with added skills for increased career options in positions of leadership in the arts, in the cultural domain, and beyond. Students learn the skills of management, entrepreneurship, leadership, and effective public engagement. Students will be prepared for career paths in creative industries, public policy, community organizations, social justice, or for creating and managing self-owned enterprises. Students complete 24 cross-disciplinary credits, 12 of which are upper-division.

Information about the program is at [leap.colostate.edu](http://leap.colostate.edu). To declare the Minor in Arts Leadership and Administration, contact [leap.colostate.edu](http://leap.colostate.edu) (<http://leap.colostate.edu>) or (970) 491-3746.

## Graduate Graduate Programs in Anthropology

The department offers graduate programs leading to a Master of Arts degree (Plan A thesis option or Plan B portfolio option). It also has a Master of Arts specialization in each of four programmatic areas: Health and Well-Being, Humans and the Environment, International Development and Globalization, and Professional Methods and Techniques. Students may develop a research project or professional program in these programmatic areas, or in any area related to our faculty's research interests.

**Health and Well-Being**—Studies the ways that human health and wellness are influenced by past and present sociocultural, environmental, biological, and biocultural forces, by drawing from broad and holistic perspectives on human well-being.

**Humans and the Environment**—Investigates how past and present human activities influence the environment; the ways ecological and other processes affect human evolution and the human condition today; and the resilience of social and ecological systems.

**International Development and Globalization**—examines how local societies respond to global influences; the extent to which cultural meanings, beliefs, institutions, structures of inequality, and social relations between genders and among kin are changing as a result; and how processes of economic and community development can improve basic aspects of human welfare.

**Professional Methods and Techniques**—develops skills in a wide range of methods and techniques used by professionals in applied anthropology, federal and state natural resource agencies, and other arenas of social, historical, biological and spatial research about humans. These include qualitative research and interview protocols, quantitative analysis, GIS and remote sensing, archaeological field survey, historic archaeological methods, culture and heritage resource management, and paleoanthropological methods.

Students interested in graduate work should refer to the Graduate and Professional Bulletin, and the department's website (<http://anthropology.colostate.edu>).

## Courses

Subjects in this department include: Anthropology (ANTH) and Geography (GR).

## Anthropology (ANTH)

**ANTH 100 Introductory Cultural Anthropology (GT-SS3) Credits: 3 (3-0-0)**

**Course Description:** Human societies and their cultural setting; variation in beliefs, social customs, and technologies; human differences in anthropological terms.

**Prerequisite:** None.

**Registration Information:** Sections may be offered: Online.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**Additional Information:** Social & Behavioral Sciences 3C, Human Behavior, Culture, or Social Frameworks (GT-SS3).

**ANTH 120 Human Origins and Variation (GT-SC2) Credits: 3 (3-0-0)**

**Course Description:** Mechanisms of evolution; genetics. Living primate biology, behavior, and history. Human evolutionary history. Human variation and adaptation.

**Prerequisite:** None.

**Registration Information:** Mixed face-to-face is a partial semester course. Sections may be offered: Online. Credit not allowed for both ANTH 180A1 and ANTH 120.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**Additional Information:** Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).

**ANTH 121 Human Origins and Variation Laboratory (GT-SC1) Credit: 1 (0-2-0)**

**Course Description:** Labs demonstrating genetic and evolutionary processes, comparative skeletal anatomy, human evolution through fossil casts, and modern human variation.

**Prerequisite:** ANTH 120, may be taken concurrently.

**Registration Information:** Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** Yes.

**Additional Information:** Biological & Physical Sciences 3A, Natural & Physical Sciences w/ lab (GT-SC1).

**ANTH 140 Introduction to Prehistory (GT-HI1) Credits: 3 (3-0-0)**

**Course Description:** Origins of human society from the Stone Age to urban civilization using architecture, art, tools, and other material remains.

**Prerequisite:** None.

**Registration Information:** Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**Additional Information:** Historical Perspectives 3D, History (GT-HI1).

**ANTH 200 Cultures and the Global System (GT-SS3) Credits: 3 (3-0-0)**

**Course Description:** Analyze diversity, cultural responses, and adaptations of smaller-scale societies to emerging global trends.

**Prerequisite:** None.

**Registration Information:** Sections may be offered: Online.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**Additional Information:** Global & Cultural Awareness 3E, Human Behavior, Culture, or Social Frameworks (GT-SS3).

**ANTH 225 Anthropology of the Arts Credits: 3 (3-0-0)**

**Course Description:** Explores the arts (both visual and performing) from the perspective of cultural anthropology. What is art and how is the category differently constructed cross-culturally? Why and how do people make, consume, and identify with expressive culture? How can the visual and performing arts help us to develop a deeper understanding of how human beings make meaning? Read a variety of ethnographic texts that illuminate these and related questions.

**Prerequisite:** None.

**Term Offered:** Fall (odd years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 235 Indigenous Peoples of North America Credits: 3 (3-0-0)**

**Course Description:** Explores Native groups of North America from an anthropological perspective, and utilizes a culture area framework as a basis for investigation. Culture area framework is largely based on historical material—how these people have lived in the recent past. Evaluating how these groups live in the present. Contemporary issues, globalization, and local responses to local concerns.

**Prerequisite:** None.

**Registration Information:** Sections may be offered: Online. Credit not allowed for both ANTH 235 and ANTH 280A2.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 260 Introduction to Field Archaeology Credits: 2 (1-2-0)**

**Course Description:** Field methods including map preparation and interpretation, site location and recording, site excavation, and stratigraphy.

**Prerequisite:** ANTH 140.

**Registration Information:** Must register for lecture and laboratory.

**Term Offered:** Summer.

**Grade Mode:** Instructor Option.

**Special Course Fee:** No.

**ANTH 275 Introduction to Forensic Anthropology Credits: 3 (3-0-0)**

**Also Offered As:** SOC 275.

**Course Description:** Forensic anthropological theory and methods including estimation of age-at-death, sex, stature, ancestry, and trauma analysis.

**Prerequisite:** None.

**Registration Information:** Credit not allowed for both ANTH 275 and SOC 275. Sections may be offered: Online.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 295 Independent Study Credits: Var[1-3] (0-0-0)**

**Course Description:**

**Prerequisite:** None.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Instructor Option.

**Special Course Fee:** No.

**ANTH 310 Peoples and Cultures of Africa Credits: 3 (3-0-0)**

**Course Description:** Sub-Saharan lifestyles including marriage and family, traditional government, religion and magic, ecology and economy, art, music, and literature.

**Prerequisite:** ANTH 100.

**Term Offered:** Spring (even years).

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**ANTH 312 Modern Indian Culture and Society Credits: 3 (3-0-0)**

**Course Description:** Anthropological contributions to the understanding of contemporary India.

**Prerequisite:** ANTH 100 or ANTH 200.

**Term Offered:** Spring (odd years).

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**ANTH 313 Modernization and Development Credits: 3 (3-0-0)**

**Course Description:** Processes by which cultures change and modernize, 1989 to the present.

**Prerequisite:** ANTH 100 or ANTH 200.

**Registration Information:** Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 314 Southeast Asian Cultures and Societies Credits: 3 (3-0-0)**

**Course Description:** Colonial and post-colonial cultures, globalization processes, and changing ethnic and gender identities in Southeast Asian societies.

**Prerequisite:** ANTH 100 or ANTH 200.

**Term Offered:** Spring (even years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 315 Global Mobilities—The African Diaspora Credits: 3 (3-0-0)**

**Course Description:** Globalization and transnationalism with a focus on the circulation of people, ideas, and cultural products and practices between Africa and the rest of the world. By situating Africans as both producers and consumers of transnational ideas and products, we will develop an understanding of Africa beyond popular representations of violence and crisis.

**Prerequisite:** ANTH 100 or ANTH 200 or GR 100 or SOC 100.

**Registration Information:** Junior standing.

**Term Offered:** Spring (odd years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 317 Anthropology of Human Rights Credits: 3 (3-0-0)**

**Course Description:** Human rights from the perspective of cultural anthropology through its theoretical and practical dimensions. Contemporary human rights debates within the context of cultural plurality in a globalized world. Engages the intersection between global dynamics and community experiences by addressing the human rights dimensions of refugees and migration, indigenous communities, women and children, health, religious practices, among others.

**Prerequisite:** ANTH 100 or ANTH 200.

**Registration Information:** Offered as an online course only.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 319 Latin American Peasantries Credits: 3 (3-0-0)**

**Course Description:** Sociocultural, economic, and political responses of Latin American peasantries to poverty and global processes.

**Prerequisite:** ANTH 100 or ANTH 200 or ETST 100.

**Registration Information:** Credit not allowed for both ANTH 319 and ETST 319.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 322 The Anthropology of Religion Credits: 3 (3-0-0)**

**Course Description:** Major anthropological theories and descriptions of religious beliefs and practices. Religion in a cross-cultural and evolutionary perspective.

**Prerequisite:** ANTH 100 or ANTH 200.

**Term Offered:** Fall (odd years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 329 Cultural Change Credits: 3 (3-0-0)**

**Course Description:** Cultural change and effects of directed global forces; colonial origins of underdevelopment on small-scale societies.

**Prerequisite:** ANTH 100 or ANTH 200.

**Term Offered:** Fall (odd years).

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**ANTH 330 Human Ecology Credits: 3 (3-0-0)**

**Course Description:** Roles of technology, economics, social organization, and ideology in human adaptations to and survival in natural and cultural environments.

**Prerequisite:** (ANTH 100 or ANTH 200) and (ANTH 120 or BZ 101 or LAND 220 or LIFE 220).

**Registration Information:** Sections may be offered: Online.

**Term Offered:** Fall (even years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 333 Anthropology of Sex and Reproduction Credits: 3 (3-0-0)**

**Course Description:** Contemporary scholarship on issues in the anthropology of reproduction, including the relationship between production and reproduction and between the corporeal body and the body politic, the disciplinary power of the state, public controversies such as abortion and maternal-fetal conflict, and the symbolism and metaphors of procreation and parenthood. We will use "reproduction" as an analytic strategy to shed light on the cultural politics of gender, power, and sexuality.

**Prerequisite:** ANTH 100 or ANTH 200.

**Registration Information:** Sophomore standing. Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 334 Narrative Traditions and Social Experience Credits: 4 (3-2-0)**

**Course Description:** Relationship between narrative traditions and social contexts of their creation.

**Prerequisite:** ANTH 100 or ANTH 200 or E 140 or SOC 100.

**Term Offered:** Spring (even years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 335 Language and Culture Credits: 3 (3-0-0)**

**Course Description:** Human language and primate communication, nonverbal channels, sociolinguistics, and language change.

**Prerequisite:** None.

**Term Offered:** Fall (odd years).

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**ANTH 336 Art and Culture Credits: 3 (3-0-0)**

**Course Description:** Art expression is a defining factor in cultural identity and representation in a modern world where geographical and political borders are diminishing.

**Prerequisite:** ANTH 100 or ANTH 200.

**Restriction:** .

**Registration Information:** Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 338 Gender and Anthropology Credits: 3 (3-0-0)**

**Course Description:** Theory, themes, and debates in anthropological gender studies, ethnographic survey of women and men cross-culturally.

**Prerequisite:** ANTH 100 or ANTH 200.

**Registration Information:** Sections may be offered: Online.

**Term Offered:** Spring (odd years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 340 Medical Anthropology Credits: 3 (3-0-0)**

**Course Description:** Cultural adaptation to disease; non-Western theories of health and disease; categories, causes, cures; learned roles of patients and healers.

**Prerequisite:** ANTH 100 or ANTH 200.

**Term Offered:** Fall (odd years).

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**ANTH 343 Applied Medical Anthropology Credits: 3 (3-0-0)**

**Course Description:** How and why we get sick and what sickness means from biological, social and cultural perspectives.

**Prerequisite:** ANTH 100 or ANTH 200.

**Registration Information:** Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 350 Archaeology of North America Credits: 3 (3-0-0)**

**Course Description:** Native American life, tools, architecture, religion, food-getting from cultures of 12,000 years ago or earlier until European contact.

**Prerequisite:** ANTH 140.

**Registration Information:** Sections may be offered: Online.

**Terms Offered:** Fall, Spring (odd years).

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**ANTH 351 Archaeology of Europe and Africa Credits: 3 (3-0-0)**

**Course Description:** Human culture, tools, art, religion, social life, subsistence, and paleoecology from 4 million B.C. to 1200 B.C. in the Old World.

**Prerequisite:** ANTH 140.

**Term Offered:** Spring (even years).

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**ANTH 352 Geoarchaeology Credits: 3 (3-0-0)**

**Course Description:** Analytical techniques, concepts, and field methodologies from the earth sciences to better understand the archaeological record.

**Prerequisite:** ANTH 140.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 359 Colorado Prehistory Credits: 3 (2-0-1)**

**Course Description:** Human behavioral responses to environmental diversity, cultural adaptation, Pleistocene and recent climates, anthropogenic environmental change.

**Prerequisite:** None.

**Registration Information:** Must register for lecture and recitation.

**Term Offered:** Fall.

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**ANTH 360 Archaeological Investigation Credits: 3 (2-2-0)**

**Course Description:** Investigation of the archaeological record, how the record was formed, and how archaeological data are analyzed and interpreted.

**Prerequisite:** ANTH 140.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 365 Quantifying Anthropology Credits: 3 (3-0-0)**

**Course Description:** Managing, quantifying and illustrating anthropological data-sets with appropriate software.

**Prerequisite:** ANTH 100 or ANTH 120 or ANTH 140 or ANTH 200.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 370 Primates Credits: 3 (3-0-0)**

**Course Description:** Behavioral patterns, ecological relationships, and communication of nonhuman primates.

**Prerequisite:** ANTH 120 or BZ 101.

**Registration Information:** Sections may be offered: Online.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 371 Growing Up Primate Credits: 3 (3-0-0)**

**Course Description:** Primates generally have extended periods of growth compared to other mammals; however, there is considerable variation across the Primate Order. Evolution of primate growth and reproductive strategies, critically evaluates current models of life history variation, examines the ways that primate taxa negotiate trade offs (e.g. current versus future reproduction), and explains the role of human sociality in the evolution of our unique life history parameters.

**Prerequisite:** ANTH 120 or BZ 101.

**Registration Information:** Junior standing.

**Term Offered:** Spring (even years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 372 Human Osteology Credits: 3 (2-2-0)**

**Course Description:** Human bones and teeth in a review of functional human evolution.

**Prerequisite:** ANTH 120 or BZ 101 or BZ 110 or LIFE 102.

**Registration Information:** Must register for lecture and laboratory.

**Term Offered:** Fall.

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**ANTH 373 Human Evolution Credits: 3 (3-0-0)**

**Course Description:** Current topics and debates in human evolution concentrating on biocultural changes in the human lineage.

**Prerequisite:** ANTH 120 or BZ 110.

**Registration Information:** Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** Yes.

**ANTH 374 Human Biological Variation Credits: 3 (2-0-1)**

**Course Description:** Biological diversity of human populations; history of development of race concept.

**Prerequisite:** ANTH 120 or BZ 101 or BZ 110 or LIFE 102.

**Registration Information:** Must register for lecture and recitation.

Sections may be offered: Online.

**Term Offered:** Spring (even years).

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**ANTH 375 Evolution of Primate Behavior Credits: 3 (3-0-0)**

**Course Description:** Primate behavior from an evolutionary perspective, drawing on a variety of studies of humans, primates, and mammals.

**Prerequisite:** ANTH 120 or BZ 110 or LIFE 102.

**Registration Information:** Junior standing. Sections may be offered: Online.

**Term Offered:** Spring (odd years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 376 Evolution of Human Adaptation Credits: 3 (2-0-1)**

**Course Description:** Unique characteristics of humans: bipedalism, encephalization, dentition, birth process, an attenuated period of development.

**Prerequisite:** ANTH 120 or BZ 110 or LIFE 102.

**Registration Information:** Must register for lecture and recitation.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 378 Bipedal Apes Credits: 3 (3-0-0)**

**Course Description:** Human bipedal walking within a comparative framework of primate locomotion and anatomy. Specific focus is on kinematics and kinetics of soft- and hard-tissues including analysis of extant primate locomotion, morphology, and development. Discussions focus on debates in primate functional anatomy and locomotion including hypotheses surrounding the origins and evolution bipedal walking and running and possible maladaptations of being a human biped.

**Prerequisite:** ANTH 120 or BZ 101.

**Registration Information:** Junior standing.

**Term Offered:** Spring (even years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 379 Evolutionary Medicine and Human Health Credits: 3 (3-0-0)**

**Course Description:** Evolutionary medicine refers to the application of evolutionary theory to the study of human health, disease, and modern medicine. This theoretical perspective provides a deeper lens with which to investigate health, moves us beyond mechanistic explanations of disease, and constructs an anthropological framework for interpreting the evolution of human physiological diversity.

**Prerequisite:** ANTH 120 or BZ 101 or BZ 110 or LIFE 102.

**Registration Information:** Sophomore standing.

**Term Offered:** Fall (odd years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 400 History of Anthropological Thought Credits: 3 (3-0-0)**

**Course Description:** Anthropological theory from its beginnings in 19th century through recent developments into the 20th century.

**Prerequisite:** (ANTH 100 or ANTH 200) and (ANTH 140 and ANTH 120 and ANTH 121).

**Registration Information:** Junior or senior standing. Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 411 Indians of South America Credits: 3 (0-0-3)**

**Course Description:** Ethnographic and cultural characteristics of South American indigenous groups and the current critical issues they face.

**Prerequisite:** ANTH 100 or ANTH 200 or ANTH 413 or ANTH 414 or ETST 414.

**Registration Information:** Offered as an online course only.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 412 Indians of North America Credits: 3 (3-0-0)**

**Course Description:** Native American peoples, their cultural variation across the continent, and cultural encounters with colonial expansion.

**Prerequisite:** ANTH 100 or ANTH 200 or ANTH 413 or ANTH 414 or ETST 414.

**Registration Information:** Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 413 Indigenous Peoples Today Credits: 3 (3-0-0)**

**Course Description:** Contemporary cultural and social issues of indigenous peoples around the globe, including North and South American Indians and Australian Aborigines.

**Prerequisite:** ANTH 200 or ANTH 412 or ANTH 414 or ETST 414.

**Term Offered:** Fall.

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**ANTH 414 Development in Indian Country Credits: 3 (3-0-0)**

**Also Offered As:** ETST 414.

**Course Description:** Critical examination of history, public policy, and tribal strategies for economic development and natural resource management in Indian Country.

**Prerequisite:** None.

**Registration Information:** Credit not allowed for both ANTH 414 and ETST 414.

**Term Offered:** Fall (odd years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 415 Indigenous Ecologies and the Modern World Credits: 3 (3-0-0)**

**Course Description:** Impact of the modern world in indigenous peoples' relationship to their environments and natural resources.

**Prerequisite:** None.

**Registration Information:** Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 416 Gender, Culture, and Health Credits: 3 (3-0-0)**

**Course Description:** Examine the role of anthropology in current global health issues paying particular attention to culture and gender.

**Prerequisite:** ANTH 100 or ANTH 200.

**Registration Information:** Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 422 Comparative Legal Systems Credits: 3 (3-0-0)**

**Also Offered As:** SOC 422.

**Course Description:** Traditional approaches to law, competing concepts of law in the global system, and experiences of minorities in state legal systems.

**Prerequisite:** ANTH 100 or SOC 100.

**Registration Information:** Credit not allowed for both ANTH 422 and SOC 422.

**Term Offered:** Spring (even years).

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**ANTH 423 Cultural Psychiatry Credits: 3 (3-0-0)**

**Course Description:** Social determinants of mental health. Cross-cultural health and healing. Cultural contexts of U.S./Western and Indigenous/non-Western psychiatries.

**Prerequisite:** ANTH 100 or ANTH 200.

**Term Offered:** Fall (even years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 438 Approaches to Community-Based Development Credits: 3 (0-0-3)**

**Course Description:** Explores the structure and practice of community development globally, engaging in critical analysis of different approaches and their impact.

**Prerequisite:** ANTH 100 or ANTH 200.

**Registration Information:** Offered as an online course only.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 439 Community Mobilization Credits: 3 (0-0-3)**

**Course Description:** Structural, social, and psychological barriers that inhibit cooperation and collective action.

**Prerequisite:** ANTH 100 or ANTH 200.

**Registration Information:** Offered as an online course only.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**ANTH 440 Theory in Cultural Anthropology Credits: 3 (3-0-0)**

**Course Description:** Theoretical paradigms used to explain culture including evolutionary, functional, ecological, political economy, postmodernism, and hegemony.

**Prerequisite:** ANTH 100 or ANTH 200.

**Terms Offered:** Fall, Spring (odd years).

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**ANTH 441 Method in Cultural Anthropology Credits: 3 (3-0-0)**

**Course Description:** Methodological orientations and research techniques. Ethnographic and cross-cultural approaches including quantitative and formal models.

**Prerequisite:** ANTH 100 or ANTH 200.

**Term Offered:** Spring (odd years).

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**ANTH 442 Ethnographic Field School Credits: Var[3-8] (0-0-0)**

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**GR 331 Geography of Farming Systems Credits: 3 (3-0-0)**

**Course Description:** Geographic analysis of farming systems worldwide and by region; their development over time, human-land relationships, and spatial patterns.

**Prerequisite:** GR 100.

**Term Offered:** Spring (odd years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**GR 333 Glaciers and Climate Change Credits: 3 (3-0-0)**

**Course Description:** Glacier mass balance, dynamics, past fluctuations, and glaciers' relation to climate change.

**Prerequisite:** GR 100 or GR 210 or GEOL 120 or GEOL 122 or GEOL 124 or GEOL 150.

**Registration Information:** Credit allowed for only one of the following: GEOL 381A2, GR 333 and GR 381A2.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**GR 345 Geography of Hazards Credits: 3 (3-0-0)**

**Course Description:** Causes, effects, distributional patterns, and human adjustments to environmental hazards.

**Prerequisite:** GR 210.

**Term Offered:** Spring (odd years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**GR 348 Biogeography Credits: 3 (3-0-0)**

**Course Description:** Species distribution of plants and animals in relation to earth history and environments, evolution, and ecology.

**Prerequisite:** GR 000 to 99999 - at least 3 credits.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**GR 410 Climate Change: Science, Policy, Implications Credits: 3 (3-0-0)**

**Course Description:** Implications and consequences for earth systems including the cryosphere, hydrosphere, and biosphere.

**Prerequisite:** GR 000 to 9999 - at least 3 credits.

**Registration Information:** Junior standing.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**GR 415 The Geography of Commodities Credits: 3 (3-0-0)**

**Course Description:** Social relations, international trade, and environmental impacts surrounding the production, transportation, exchange and consumption of commodities.

**Prerequisite:** GR 100.

**Registration Information:** Junior standing.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**GR 420 Spatial Analysis with GIS Credits: 4 (3-2-0)**

**Course Description:** Theory, application of geographic information systems for spatial analysis; conceptual basis of GIS, nature and use of geographic data, case studies.

**Prerequisite:** GR 000 to 99999 - at least 3 credits.

**Registration Information:** Credit not allowed for both GR 420 and NR 322.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**GR 430 Land Change Science and Remote Sensing Credits: 3 (3-0-0)**

**Course Description:** Local case studies and global cases of land-use/land-cover changes in rural, peri-urban, and urban areas.

**Prerequisite:** GR 100.

**Registration Information:** Junior standing.

**Term Offered:** Spring (even years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**GR 431 Land Change Science Lab Credit: 1 (0-3-0)**

**Course Description:** Utilize advanced remote sensing techniques and satellite images, air photos, and ancillary data to investigate land-use and land-cover changes.

**Prerequisite:** GR 323 or NR 323 or GR 503 or NR 503.

**Registration Information:** Must have concurrent registration in GR 430.

**Term Offered:** Spring (even years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**GR 448 Forest Biogeography and Climate Change Credits: 3 (3-0-0)**

**Course Description:** Forest adaptation and conservation in relation to global change with a focus on climate change.

**Prerequisite:** ESS 211 or ESS 311 or F 311 or GR 100 or GR 210 or ESS 210 or GR 303 or GR 348 or GR 410.

**Registration Information:** Junior standing.

**Term Offered:** Spring (odd years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**GR 487 Internship Credits: Var[1-9] (0-0-0)**

**Course Description:** Academic-based work experience with selected organizations or agencies. Supervised application of principles of geography.

**Prerequisite:** GR 100 to 499 - at least 9 credits.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**GR 493 Capstone Credit: 1 (1-0-0)**

**Course Description:** Exploration of the linkages among geographic sub-fields and other natural and social sciences as well as how professional geographers approach issues.

**Prerequisite:** GR 303 with a minimum grade of A++, may be taken concurrently or GR 410 with a minimum grade of A++, may be taken concurrently or GR 415 with a minimum grade of A++, may be taken concurrently or GR 430 with a minimum grade of A++, may be taken concurrently.

**Term Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

## Major in Anthropology

The mission of the Anthropology Department is to

1. offer and maintain instructional programs that provide a comprehensive overview and analyses of people and their cultures, both past and present;
2. conduct research in order to advance and expand knowledge of the fields of anthropology and geography;
3. participate actively in programs of interdisciplinary research.

The Department of Anthropology houses a faculty of cultural anthropologists, archaeologists, biological anthropologists, and geographers whose scholarship spans the breadth of the human experience. The program prepares undergraduate students to describe, analyze, and interpret the human condition. An examination of the social, environmental, and evolutionary contexts in which the human species is embedded defines most course work in the discipline. The program is integrative, drawing from geography, biology, the humanities, and other social and natural sciences. Geography figures prominently in our program and provides an important spatial lens through which human groups are examined over time. Four programmatic areas define faculty research and scholarship with which students can engage: humans and the environment, international development and globalization, health and well-being, and professional methods and techniques. In the education of undergraduates, the department values and promotes experiential training, primary research, and public engagement and education.

The research endeavors of the anthropology faculty are trans-disciplinary and international, they are interested in diverse topics including but not limited to contemporary culture, ethnicity, linguistics, comparative religion, virtual worlds, subsistence patterns, archaeology, human ecology, human anatomy, evolution, biogeography, land cover/land use patterns, glaciology, and the behavior of non-human primates.

Anthropology majors follow a liberal arts curriculum that provides a broad education with an emphasis on learning how to learn. The department has ten research and teaching laboratories and three summer field schools; the Ethnographic Field School at the Pine Ridge

Indian Reservation, the Archaeology Field School, and the Paleontology Field School.

Undergraduate students can pursue a general anthropology degree, learning about the diversity of the human existence from a broad and holistic perspective. Students can also declare a concentration within the program. Declaring a concentration allows for a focused course of study, specializing in the particular subfield of interest. Within each concentration (Archaeology, Biological Anthropology, Cultural Anthropology and Geography), specific categories of classes guide students in learning the major theories, methods, and applications related to modern practice of our discipline. Along with our offerings of world class field schools, archaeological, biological, and ethnographic methods and geographical techniques are encouraged in order to further gain experience and perspective. Upon graduation, students are prepared for jobs or advanced training in graduate school. Students come away with a respect and appreciation for the diversity of human existence.

## Learning Outcomes

Students will:

- Demonstrate knowledge related to a basic appreciation of anthropology and its potential including:
  - a. respect for the similarities and differences that characterize human cultures over time and across space;
  - b. the theoretical perspectives that anthropologists use to comprehend these similarities and differences;
  - c. the methods and tools used to describe and analyze them; and
  - d. how the relationship between theory, methods, and data intersects.
- Integrate anthropological concepts across subfields or with other social sciences and humanities disciplines, and articulate their anthropological understandings through papers written and presented during their senior year.
- Use what they have learned in their anthropology courses in future activities after graduation.

## Potential Occupations

Anthropology, like many majors in the liberal arts, provides students with a broad academic background suitable for a variety of jobs in the public and private sectors. Anthropology majors are trained to think independently and critically, communicate effectively, and function in a multicultural world. Employers appreciate liberal arts majors for their multiple skills and their ability to adapt to a variety of tasks and work environments. Participating in internships and cooperative education opportunities is highly recommended to enhance students' practical training and development. Careers for graduates are available in international development, health care, education, business, natural resource management, and government. Graduates who go on for advanced studies can pursue careers in anthropology or attain advanced positions with the possibility of rising to top professional levels.

Some career opportunities for anthropology graduates include, but are not limited to: museum curator/researcher, genealogist, international relief representative, salvage archaeologist, collections assistant, resource specialist, classical or historical anthropologist, cultural affairs officer, diplomatic service representative, immigration or foreign service officer, linguist, educational television researcher, forensic osteologist, biographical writer, scientific/technical writer, reporter, ethnographic photographer, anthropological linguist, rural development worker, ethnic groups' special concerns advocate, intercultural educator, medical

anthropologist, grant writer, psychological anthropologist, international development administrator, public relations representative, public opinion pollster, sales/marketing representative, consultant for cross-cultural relations, personnel worker, geographic information systems specialist.

- <sup>1</sup> ANTH 100 fulfills All-University Core Curriculum (AUCC) category 3C. Taking ANTH 100 in the freshman year will eliminate the requirement for 3 credits of Social and Behavioral Sciences in the sophomore year. If ANTH 200 is chosen in the freshman year instead, then 3 credits of Social and Behavioral Sciences will be required in the sophomore year, selected from the list of courses in category 3C of the AUCC.
- <sup>2</sup> ANTH 200 fulfills AUCC category 3E. Taking ANTH 200 in the freshman year will eliminate the requirement for 3 credits of Global and Cultural Awareness in the sophomore year. If ANTH 100 is chosen in the freshman year instead, then 3 credits of Global and Cultural Awareness will be required in the sophomore year, selected from the list of courses in category 3E of the AUCC.
- <sup>3</sup> Additional Humanities courses taken in the freshman and senior years for a total of six credits must include two subject codes, selected from among the following: ART, D, CO, E, ETST 430, L\*\*\*, LB 192 (Arts and Humanities sections only), MU, PHIL, SPCM, TH.
- <sup>4</sup> Select 7 credits including two subject codes and at least one formal laboratory from the following: AA, BMS, BIO, BZ, CHEM, GEOL, GR 210, LIFE, MATH, NR, NSCI, PH, SOCR, and STAT.
- <sup>5</sup> Select a total of 9 credits over the sophomore, junior and senior years as shown, and including at least two subject codes, from the following: ECON, HIST, JTC, POLS, PSY, SOC, LB 192 (social science sections only), ETST (except ETST 430).
- <sup>6</sup> Select any course with the ANTH or GR subject code.

<sup>7</sup> ANTH 493 must be taken concurrently with one of the AUCC 4A anthropology courses listed with ANTH 493 in the senior year. Using Competencies (AUCC 4A) must be taken concurrently with ANTH 493. Courses approved for AUCC category 4A taken in the sophomore, junior, or senior year and not concurrently with ANTH 493 and not included in the approved list in the program will not count toward completion of the 4A requirement for this major. Students taking Senior Honors Thesis (HONR 499, 3 credits) are also required to register for ANTH 493 (1 credit).

<sup>8</sup> Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

## Major in Anthropology, Archaeology Concentration

The Archaeology concentration at CSU focuses on the Americas and includes prehistoric and historic archaeology. The faculty members of this sub-discipline have expertise in:

- Rocky Mountain and Plains Archaeology
- Paleo-Indian Studies
- Hunter-Gatherer Ecology
- Taphonomy
- Zooarchaeology
- Public Archaeology

- Andean Archaeology
- Inca and Spanish Empires
- Mining Communities
- Mesoamerican Archaeology
- Landscape Archaeology
- Legacies of Resilience Project (LORE-LPG)

Special resources include the Center for Mountain and Plains Archaeology; the MesoAmerican lab; and the Cultural Resources section of the Center for the Ecological Study of Military Lands. The archaeology program sponsors an annual field school each summer and houses the CSU Archaeological Repository.

## Major in Anthropology, Biological Anthropology Concentration

Over the past half century biological anthropology has undergone tremendous change from a discipline that was defined by a descriptive, typological approach to human morphology to one that includes both experimental and comparative analyses in a population based framework.

Biological anthropologists continue to cross traditional disciplinary boundaries and interact with both the physical and natural sciences, including biology, anatomy, genetics, chemistry, biometry, or endocrinology as well as the social sciences.

The expertise of existing faculty in Biological Anthropology at CSU includes:

- Human skeletal biology

- Evolutionary theory
- Neanderthal paleobiology and paleobiogeography
- Dental anthropology
- Public Health
- Early hominid feeding ecology
- Taphonomy
- Plio-Pleistocene Africa
- Pleistocene Asia

Special resources include the Paleoanthropology and Zooarchaeology lab, the Human Origins Lab and the Bioanthropology Lab. Existing faculty also have geographic foci significant to their research. Research areas include Uzbekistan, Kazakhstan, Tanzania, and Mexico.

## Major in Anthropology, Cultural Anthropology Concentration

The Cultural Anthropology concentration focuses on contemporary experiences of culturally distinct communities encountering a rapidly globalizing political economy. Students are provided with robust training in mixed methods, community-based approaches, and applied anthropology. Topically, faculty investigate issues related to the transformation of individual experience and community relations

within the context of economic development, governmental and nongovernmental policy, and environmental change. Increasingly, faculty seek to understand the way subjective and material well-being are impacted by the rapidly changing contexts of modernity. Topics of research interest include:

- Human-Environment Interactions
- Community and Economic Development
- Health and Well-Being

- Cultural Psychiatry
- Disasters and Resilience
- Gender
- Culture Continuity and Change

Asia, Central Asia, East Africa, the Caribbean, New Orleans, Native North America, and in virtual reality. Students concentrating in Cultural Anthropology explore issues of place and space, cultural theory, cultural content and methods.

## Requirements Effective Spring 2015

Passionate about teaching, faculty strive to bring excitement and relevance to the classroom by infusing it with their practical field experiences. Cultural faculty conduct their research in India, Southeast

<sup>2</sup> ANTH 200 fulfills AUCC category 3E. Taking ANTH 200 in the freshman year will eliminate the requirement for 3 credits of Global and Cultural Awareness in the sophomore year. If ANTH 100 is chosen in the freshman year, then 3 credits of Global and Cultural Awareness will be required in the sophomore year, selected from the list of courses in category 3E of the AUCC.

<sup>3</sup> Additional Humanities courses taken in the freshman and senior years for a total of six credits must include two subject codes, selected from among the following: ART, D, CO, E, ETST 430, L\*\*\*, LB 192 (Arts and Humanities sections only), MU, PHIL, SPCM, TH.

<sup>4</sup> Select 7 credits including two subject codes and at least one formal laboratory from the following: AA, BMS, BIO, BZ, CHEM, GEOL, GR 210, LIFE, MATH, NR, NSCI, PH, SOCR, and STAT.

<sup>5</sup> Select a total of 9 credits over the sophomore, junior and senior years as shown and including at least two subject codes from the following: ECON, HIST, JTC, POLS, PSY, SOC, LB 192 (social science sections only), ETST (except ETST 430).

<sup>6</sup> ANTH 493 must be taken concurrently with one of the AUCC 4A cultural anthropology courses listed with ANTH 493 in the senior year. Using Competencies (AUCC 4A) must be taken concurrently with ANTH 493 Capstone Seminar. Courses approved for AUCC category 4A taken in the sophomore, junior, or senior year and not concurrently with ANTH 493 and not included in the approved list in the program will not count toward completion of the 4A requirement for this major. Students taking Senior Honors Thesis (HONR 499) (3 credits) also are required to register for ANTH 493 (1 credit).

<sup>7</sup> Select enough elective credits to bring program total to a minimum of 120 credits, of which at least 42 must be upper division (300- to 400-level).

## Major in Anthropology, Geography Concentration

Geography at CSU focuses on providing undergraduate students with a broad background in geographic thinking with an emphasis on the traditional geographic focus of understanding dynamic interaction between humans and the environment in an era of rapid global change. Faculty use a wide range of research methods including geographic information systems (GIS), remote sensing, spatial modeling, and dendrochronology to address applied research questions in Colorado, the Rocky Mountains, Southeast Asia, Mesoamerica, Melanesia, and southern South America. Research focus areas include:

- Climate change implications for society and ecosystems
- Land-use and land-cover change
- Biogeography

- Livelihood systems
- Glaciology
- Colorado geography
- Forest biogeography
- Mountains

A concentration and minor in Geography are degree options within the Department of Anthropology. Current courses offered range from introductory courses that introduce students to geography and the two main branches of cultural and physical geography, to advanced courses which focus on methods (e.g. spatial analysis and GIS, remote sensing) and topical subjects such as climate change, forest ecology, mountain geography, the geography of commodities, and land change science.

## Minor in Anthropology

Anthropology focuses on a cross-cultural view of humanity, and broadly conceived dimensions of human behavior. Description and explanation of human activities in other societies provide a sense of perspective for individuals operating within their own culture. A minor may be focused on one or more of the sub-disciplinary divisions such as biology, archaeology, cultural anthropology, or applied anthropology; or it may be distributed across the fields like the major requirements.

## Requirements Effective Fall 2001

**Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.**

**Additional coursework may be required due to prerequisites.**

## Minor in Geography

The minor in Geography examines the critical interactions among space, place, people and the built and natural environment to interpret the spatial and temporal distribution of features and processes, applying

spatial techniques and information technologies such as Geographic Information Systems (GIS) and remote sensing.

## Requirements

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

## Master of Arts in Anthropology

### Plan A

The thesis option must consist of a minimum of 30 semester credits of course work concentrated in anthropological areas relevant to the participant's professional goals. The thesis is the culmination of a research project carried out by the student under the guidance of his or her advisor. A final examination consists of a defense of the thesis, as well as other parts of the program of study.

### Plan B

The non-thesis option is intended for students seeking development of an understanding of anthropology which will allow them to move on to a PhD program in anthropology, or be incorporated in their work. Plan B students are expected to take a more broadly distributed series of courses and to show less specialization than that which characterizes Plan A programs of study.

Requirements for Plan B are a minimum of 36 credits of study. Students must complete a portfolio of work demonstrating both the breadth of their understanding of anthropology and their own area of specialization, selected in consultation with the student's advisor. A final examination consists of a defense of the portfolio, as well as other parts of the program of study.

## Ph.D. in Anthropology

A Ph.D. in anthropology at CSU will be unique in that it will support advanced coursework and research with a focus on place, space, and adaptation. Students will achieve this perspective on the discipline by engaging with a curriculum infused with geographic methods and approaches. This program will provide prospective students with the skills and expertise to address research questions that 1) sit at the intersection of anthropology and geography; 2) apply geographic methods to anthropological questions; and 3) critically evaluate the impact of place and space on human/ecosystem adaptation. In this regard, the Department of Anthropology at CSU will forge a new path for graduate level instruction and research in anthropology; creating a niche that will provide our students with the ability to ask meaningful questions and examine those questions with a set of techniques that also trains them to work outside of academia. The relationships between place, space, and adaptation can be examined at different scales and temporal contexts. These variables also influence health and wellness, group security, ecosystem and human viability, and cultural vitality.

<b>Master's Degree Credit (a maximum of 30 credits may be accepted from a master's degree)</b>		30
Program Total Credits:		72

A minimum of 72 credits are required to complete this program.

Most students entering the Ph.D. program in anthropology will bring in 30 credits from a Master's program in a related field. The above curriculum represents a total of 42 credits beyond the Master's level. If a prospective student has less than 30 credits toward the program, an individualized curriculum plan will be developed by working with primary advisor that will cover possible anthropology deficiencies.

## Major in Art, B.F.A.

Throughout history, art has been a fundamental language of the human spirit. Visual arts express human experience through an ever-widening range of media and materials, some of which include: oils, acrylics,

pastels, charcoal, clay, plaster, steel, bronze, wood, copper, litho stones, and digital media. Visual artists create abstract works and images of objects, people, nature, topography, and events. The Department of Art and Art History offers several options of study. The B.F.A. (Bachelor of Fine Arts) degree in studio art and the B.A. (Bachelor of Arts) degree in art history, art education, or studio art are all professional degrees, leading to related art careers.

## Learning Outcomes

Students will demonstrate:

- Fundamental knowledge and mastery of media and processes necessary to communicate meaning in a work of art.
- Ability to communicate clearly about their own art and the art of others.
- Knowledge about contemporary art and motivation to view and discuss current local, regional, and national exhibitions. Students well versed on contemporary art would:
  - a. regularly read reviews of exhibitions in local and national newspapers;
  - b. regularly read art periodicals;
  - c. attend multiple exhibitions; and
  - d. be knowledgeable about contemporary artists in their discipline (i.e., nationally known painters, sculptors, etc.).

## Potential Occupations

Art graduates possess a number of transferable communication, analytical, and critical thinking skills appropriate for work in traditional business as well as positions in academia and roles as freelance artists, graphic designers, art educators, art historians, studio fine artists and as “creatives” in government and industry. Many employers appreciate art majors for their multiple skills and their ability to adapt to a variety of tasks and work environments. Participation in internships, cooperative education, and service learning opportunities is highly recommended to enhance practical training and development. Graduates who go on for advanced studies can attain more responsible positions with the possibility of rising to top professional levels.

Depending on student interests, the electives taken, or the concentration selected, available career choices include, but are not limited to: art appraiser, art director, art therapist, exhibit designer, art critic, jeweler, gallery director, graphic design artist, free lance artist, sculptor, woodworker, welder, foundry worker, studio photographer, technical illustrator, painter, textile designer, weaver, art educator, art historian, art curator, art librarian, art museum educator, web page designer, photo lab technician, art restorer, and master printer.

## Bachelor of Fine Arts (B.F.A.)

The B.F.A. degree is a professional program for careers in studio art. Students have an opportunity to concentrate in one of ten studio fields: Drawing, Electronic Art, Graphic Design, Fibers, Metalsmithing, Painting, Photo Image Making, Pottery, Printmaking, and Sculpture. The curriculum progression in the department is similar within the concentrations and some concentrations may have restrictions. Freshmen study foundation courses in the fine arts, which include two-dimensional and three-dimensional foundations, drawing, and art history. Sophomores explore various concentration courses and become familiar with the studio practices for the concentration studios housed in separate wings that feature large, well-equipped studio spaces designed for exploration of work in a specific media. Juniors and seniors focus on advanced topics

in their chosen concentration by taking one upper-division course in their chosen field each semester.

## Concentrations

- Drawing Concentration
- Electronic Art Concentration
- Fibers Concentration
- Graphic Design Concentration
- Metalsmithing Concentration
- Painting Concentration
- Photo Image Making Concentration
- Pottery Concentration
- Printmaking Concentration

- Sculpture Concentration

## Major in Art, B.A.

Throughout history, art has been a fundamental language of the human spirit. Visual arts express human experience through an ever-widening range of media and materials, some of which include: oils, acrylics, pastels, charcoal, clay, plaster, steel, bronze, wood, copper, litho stones, and digital media. Visual artists create abstract works and images of objects, people, nature, topography, and events. The Department of Art and Art History offers several options of study. The B.F.A. (Bachelor of Fine Arts) degree in studio art and the B.A. (Bachelor of Arts) degree in art history, art education, or studio art are all professional degrees, leading to related art careers.

## Learning Outcomes

Students will demonstrate:

- Fundamental knowledge and mastery of media and processes necessary to communicate meaning in a work of art.
- Ability to communicate clearly about their own art and the art of others.
- Knowledge about contemporary art and motivation to view and discuss current local, regional, and national exhibitions. Students well versed on contemporary art would:
  - a. regularly read reviews of exhibitions in local and national newspapers;
  - b. regularly read art periodicals;
  - c. attend multiple exhibitions; and
  - d. be knowledgeable about contemporary artists in their discipline (i.e., nationally known painters, sculptors, etc.).

## Potential Occupations

Art graduates possess a number of transferable communication, analytical, and critical thinking skills appropriate for work in traditional business as well as positions in academia and roles as freelance artists, graphic designers, art educators, art historians, studio fine artists and as “creatives” in government and industry. Many employers appreciate art majors for their multiple skills and their ability to adapt to a variety of tasks and work environments. Participation in internships, cooperative

education, and service learning opportunities is highly recommended to enhance practical training and development. Graduates who go on for advanced studies can attain more responsible positions with the possibility of rising to top professional levels.

Depending on student interests, the electives taken, or the concentration selected, available career choices include, but are not limited to: art appraiser, art director, art therapist, exhibit designer, art critic, jeweler, gallery director, graphic design artist, free lance artist, sculptor, woodworker, welder, foundry worker, studio photographer, technical illustrator, painter, textile designer, weaver, art educator, art historian, art curator, art librarian, art museum educator, web page designer, photo lab technician, art restorer, and master printer.

## Concentrations

- Art Education Concentration
- Art History Concentration
- Integrated Visual Studies Concentration
- Studio Concentration

## Major in Art (BA), Art Education Concentration

The Art Education concentration embraces the artist-teacher concept, which allows students to develop a studio concentration while preparing to teach art at the K-12 level. The program is comprehensive, meaning students take course work to prepare them to teach at the elementary and secondary school levels. One full semester of student teaching at both the elementary and secondary levels is preceded by in-depth field work with elementary, secondary, and exceptional populations. The Art Education program enjoys good working relationships with school districts in the state of Colorado. Students integrate studio, art history, criticism, and aesthetics as they observe and teach—through a variety of experiences—in the public schools.

Students interested in pursuing a teaching license through CSU may refer to the Center for Educator Preparation (CEP) (<http://cep.chhs.colostate.edu/students/teacher/admissions.aspx>),

(<http://www.cep.chhs.colostate.edu/students/teacher/admissions.aspx>) College of Health and Human Sciences section for general information.

Art Education students must maintain a 2.75 cumulative GPA for admission to the Art Education program, eligibility for student teaching placement, and licensure.

## Requirements Effective Fall 2016

A minimum grade of C (2.000) must be achieved in each upper-division art course in the student's concentration. The minimum scholastic average acceptable for graduation is 2.000 computed only for courses attempted at CSU.

## Major in Art (BA), Art History Concentration

Art History provides a basic preparation in art history for graduate studies; careers in research and teaching at the college level; for positions in museums, libraries, or private collections; or for writing and criticism in the arts. In addition to a high degree of research experience students will complete a second field or minor and one year of foreign language. Graduate studies or advanced-level classes are necessary for

advancement. In-depth study in a second field allows students to refine their focus.

## Requirements Effective Fall 2016

A minimum grade of C (2.000) must be achieved in each upper-division art course in the student's concentration. The minimum scholastic average acceptable for graduation is 2.000 computed only for courses attempted at CSU.

## Major in Art (BA), Integrated Visual Studies Concentration

The Major in Art, Integrated Visual Studies Concentration is ideal for students to develop skills as makers and thinkers by taking an equal ratio of studio and academic classes that foster critical awareness of how society is reflected and produced through visual means in the twenty-first century.

By making work and interpreting images from art, photography, film, television and commercial imagery, students learn to analyze visual communication from a variety of aesthetic, theoretical, scientific, economic, sociological and historical viewpoints. A combination of studio and academic classes are required. The Bachelor of Arts, Integrated

Visual Studies Concentration enables students to organize multiple approaches to visual thinking that cut across various disciplines into a logical whole. Integrated Visual Studies students will have the curricular flexibility to pursue other academic interests and extracurricular activities with greater intensity, as well as to pursue explorations in the theoretical and technical aspects of art making within a studio practice.

## Master of Fine Arts (M.F.A.)

The M.F.A. program in studio art is designed to promote artistic achievement, creative research, and professional practices. The program's required coursework is structured so that students can benefit from the department's wide range of faculty expertise. In consultation with their advisers, students plan a sequence of elective courses that complements involvement with their primary media. The program also fosters student engagement with faculty and peers through coursework in contemporary art theory, art criticism, and art history.

### Graduate Graduate Programs in Communication Studies

The graduate program leads to a Master of Arts in Communication Studies. Graduate coursework, as well as a required thesis for the Plan A master's, enables students to develop expertise in one or a combination of three areas of emphasis:

1. media and visual culture;
2. relational and organizational communication; and/or
3. rhetoric and civic engagement.

In each of these areas, students select course work from among the following topics:

1. contemporary issues in media, media theories, media audiences, media texts, and media industries;
2. communication theories, communication and diversity, interpersonal theories, and discourse and organization; or
3. public address, rhetoric and public affairs, rhetorical theory, rhetorical criticism, rhetoric of everyday life, and feminist theory.

The Plan B master's provides a Deliberative Practices Specialization with coursework in deliberative theory and practice, a practicum, and an Independent Study serving as the culminating report in lieu of a thesis.

Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Communication Studies (<http://communicationstudies.colostate.edu>).

## Major in Communication Studies

Communication Studies majors receive a broad-based, liberal arts education, designed to equip them for the challenges of the 21<sup>st</sup> century, the need to adapt to a rapidly changing workplace, and the likelihood of more than one career. The major encompasses many facets of media and visual culture, relational and organizational communication, and rhetoric and civic engagement. Along with courses in communication studies, the major requires courses in the arts and humanities, the social sciences, and history, and a minor or second major.

The department's goals for undergraduate majors include helping students to achieve an outstanding education in communication studies, to further their knowledge and understanding of human communication, and to provide leadership in communication activities. In so doing, we hope to help students prepare for successful careers, the duties of citizenship, and productive and rewarding lives.

### Learning Outcomes

Students will demonstrate:

- *Totality*: Students will be able to demonstrate a comprehensive understanding of the Communication Studies discipline. They will be able to discuss the central topics in the field related to history, theory, and research. Students' knowledge of the field will also span several contexts of communication scholarship, including media and visual culture, relational and organizational communication, and rhetoric and civic engagement.
- *Synthesis*: In addition to having a comprehensive understanding of the foundational concepts, theories and research domains in the Communication Studies discipline, students will be able to integrate what they have learned in these areas and apply their knowledge to address contemporary issues salient to their personal, professional, and civic lives.
- *Skillfulness*: Central to the Communication Studies discipline is the development of strong oral and written skills. Students will be able to construct and deliver high-quality, evidence-based arguments tailored to specific audiences. Additionally, students will be able to thoughtfully and ethically critique the oral and written work of their

peers (as well as communicators in other professional and public settings).

### Potential Occupations

The Communication Studies major, like many liberal arts majors, provides students with a broad academic background suitable for a variety of jobs in the public and private sectors. Majors are trained to think independently and critically, communicate effectively, and function in a multicultural world. Employers appreciate Communication Studies majors for their multiple skills and their ability to adapt to a variety of tasks and work environments.

Many majors find employment in public relations/marketing, politics, sales, human relations, government, business management, convention and meeting planning, education, and computer-mediated communication. Some students move on to graduate work in communication studies and to post-graduate study in law and theology.

Career opportunities include, but are not limited to employee relations specialist, employment counselor, human resource consultant, industrial relations representative, public relations specialist, labor relations consultant, training director, vocational rehabilitation counselor, advance agent, business communicator, equal opportunity representative, foreign service officer, cooperative extension service worker, politician, lobbyist, speechwriter, press agent, literary agent, interviewer, sales representative, scriptwriter, lawyer, teacher.

Internships are available to Communication Studies majors and are highly recommended to enhance practical training and development. Graduates who seek advanced studies can attain more responsible positions with the possibility of rising to top professional levels.

## Ph.D. in Communication

The Ph.D. in Communication trains scholars, teachers, and professionals to engage social, political, and professional challenges using advanced expertise in the field of Communication.

The program is shaped by the three areas of expertise present in our department. These three areas examine communication and engagement from three perspectives:

- 1. Interpersonal, Intercultural, and Organizational Communication:** For many individuals, engagement with the public world grows out of their relational lives and is expressed in the organizations to which they belong and in which they work. Professors and students in this area will explore communication in relational or interpersonal systems, organizing and work contexts, and within national and global arenas. Here, the focus is on exploring how individuals respond to and participate as active members in various forms of community, paying special attention to the ways in which communicative actions can create, sustain, and disable engaged citizenship.
- 2. Media and Visual Culture:** In the contemporary, globalized world, engaged citizenship often flows through media and is represented and enacted within popular culture. Professors and students in the area explore the mediation of public culture with particular attention to film, television, digital discourse, and the globalization of media institutions. Here, the focus is on the construction of critical media literacies and understandings of how our mediated forms of communication engage or disengage individuals as community members, empowering or disempowering them as political agents.
- 3. Rhetoric and Civic Engagement:** In popular conversation, "rhetoric" is often understood to mean empty speech. Communication scholars, however, trace the meaning of "rhetoric" to antiquity when thinkers such as Aristotle and Cicero placed rhetorical studies at the center of democratic engagement. Since then, rhetorical studies have explored public engagement and community building, examining the role of communication in civic life. The resurgence of rhetorical studies in the humanities is founded on a renewed sense of the importance of rhetoric to engaged citizenship in the 21st century. Professors and students in this area explore the role of public communication in creating, maintaining, and undermining civic culture.

Although these three areas of departmental emphasis are distinct, the signal strength of the program is the collaborative overlapping of these three areas. As a community, we have developed a cutting-edge doctoral program that takes advantage the shared commitment to study and engage in transformative communication.

**Term Offered:** Spring.

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**ECON 484 Supervised College Teaching Credits: Var[1-3] (0-0-0)**

**Course Description:** Assistance in teaching introductory economics courses.

**Prerequisite:** ECON 304 and ECON 306.

**Registration Information:** Written consent of instructor. A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Instructor Option.

**Special Course Fee:** No.

**ECON 487 Internship Credits: Var[1-3] (0-0-0)**

**Course Description:** Supervised work experience integrating disciplinary learning and career exploration.

**Prerequisite:** ECON 202 with a minimum grade of C and ECON 204 with a minimum grade of C.

**Registration Information:** Written consent of instructor. Economics majors and minors only. Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** S/U Sat/Unsat Only.

**Special Course Fee:** No.

**ECON 492 Seminar Credits: 3 (0-0-3)**

**Course Description:** Summarizes, discusses, and applies issues and policies chosen by the instructor. Emphasis on student participation, discussion, and research.

**Prerequisite:** (AREC 335, may be taken concurrently or ECON 335, may be taken concurrently) and (ECON 304, may be taken concurrently and ECON 306, may be taken concurrently).

**Restriction:** .

**Registration Information:** Senior standing. Sections may be offered: Online.

**Terms Offered:** Fall, Spring.

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**ECON 495 Independent Study Credits: Var[1-3] (0-0-0)**

**Course Description:** Individual investigation of a special topic in economics under direction of faculty.

**Prerequisite:** None.

**Registration Information:** Written consent of instructor. Sections may be offered: Online.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Instructor Option.

**Special Course Fee:** No.

**ECON 501 Quantitative Methods for Economists Credits: 3 (3-0-0)**

**Course Description:** Quantitative methods essential for graduate study in economics; functional forms, optimization, matrix methods, topological modeling.

**Prerequisite:** MATH 141 or MATH 155 or MATH 160.

**Term Offered:** Fall.

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**ECON 504 Applied Macroeconomics Credits: 3 (3-0-0)**

**Course Description:** Application of macroeconomic models to economic growth, economic fluctuations, and policy analysis.

**Prerequisite:** ECON 304 and ECON 306.

**Term Offered:** Spring.

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**ECON 505 History of Economic Thought Credits: 3 (3-0-0)**

## Major in Economics

Economics is the study of how people and societies use scarce resources to produce the things they want. Economic theory provides a framework for understanding economic issues, analyzing and predicting the likely effects of economic behavior and government policies, and formulating efficient and equitable solutions to pressing economic problems.

A strong liberal arts curriculum including arts and humanities, social and natural sciences, advanced composition, mathematics, and statistics provides the depth and breadth of knowledge needed to systematically and logically analyze problems, generate and test ideas, and develop effective communication and quantitative skills. Economics majors develop an appreciation of economic issues, and learn to analyze and critically evaluate economic phenomena and policies. The major core includes four semesters of economic theory, a semester of econometrics, a senior capstone seminar, and several semesters of economics electives covering a wide variety of economic topics from environmental and natural resource economics to the history of economic institutions and political economy.

## Learning Outcomes

Students will:

- Display command of basic microeconomic concepts such as rationality, cost/benefit, supply and demand theory, decision making at the margin, monopoly and competition, and efficiency and equity.
- Display command of basic macroeconomic concepts such as aggregate demand and supply, fiscal and monetary policy, and the use of these policies in the macro-economy.
- Understand and analyze basic economic issues found in the news and understand how the economic aspects of society work.

## Potential Occupations

Economists are employed in a wide variety of fields from education and research to business and government. Nonprofit and international organizations use economists in overseas development, environmental conservation, and international relations. Economics, like many liberal arts majors, provides students with a broad academic background suitable for a variety of jobs. Economics majors are trained to think independently and critically, communicate effectively, and function in a multicultural world. Many employers appreciate liberal arts majors for their multiple skills and their ability to adapt to a variety of tasks and work environments. Careers for graduates are available in education, business, and government. Participation in internships or cooperative education opportunities is highly recommended to enhance practical training and development. Graduates who go on for advanced studies can pursue careers in economics or attain advanced positions with the possibility of rising to top professional levels.

Depending on interests, the electives taken, or the minor selected, available career choices include, but are not limited to: commodities/stock broker, financial analyst, economic forecaster, trust administrator, loan counselor, pension funds administrator, foreign trade analyst, public policy analyst, regional/urban planner, foreign service officer, tax auditor, natural resource analyst, educator, program administrator, researcher, community organizer, environmental activist, international aid organization analyst or administrator, marketing analyst, purchasing agent, public relations/media planner, program consultant, contract administrator, systems evaluator, personnel planner, portfolio administrator, finance manager, secondary school teacher.

## Requirements Effective Fall 2017

Economics majors must achieve a minimum grade of 1.670 (C-) in each of the economics courses counted toward the major.

## Major in English

English majors develop an understanding of diverse cultures, literary traditions, and great works of English, American, and world literature. Students expand their ability to analyze a variety of texts and view them through the lenses of diverse critical perspectives. Majors develop the ability to write for both specialized and general audiences. There are five concentrations from which students can choose:

- Creative Writing,
- English Education,
- Language,
- Literature, or
- Writing, Rhetoric and Literacy.

## Learning Outcomes

Students will demonstrate:

- Competency in critical reading and interpretive techniques, including:
  - formulating, developing, and supporting interpretive positions with appropriate evidence;
  - using technical and conceptual vocabulary knowledgeably;
  - using appropriate methodologies, critical approaches, and theoretical perspectives; and
  - being original and creative.
- Effective written expression in a variety of genres for a range of audiences on literary and non-literary topics.
- Familiarity with the main writers, texts, genres, and movements in the literary history of the United States and British Isles; and/or the history and development of the English language; and/or literacy issues in their historical contexts.

## Potential Occupations

A major in English prepares students for business, government, or education careers that require broadly educated people who can think critically, communicate effectively, analyze texts, and write well. Many employers appreciate liberal arts majors for their multiple skills and their ability to adapt to a variety of tasks and work environments.

The department encourages experiential education by offering a variety of internship opportunities.

Students are also invited to generate their own positions in fields of interests, as well as pursue established local, regional, or national internships. Graduates who go on for advanced studies can attain more responsible positions with the possibility of rising to top professional levels.

Depending on a student's interests, the electives taken, or the concentration selected, available career choices include, but are not limited to: copy editor; project editor; manuscript reader or story analyst; sales representative; publicity and promotion specialist; advertising coordinator; production specialist; assistant book publicist; contracts and permission specialist; agency or arts administrator; human resource manager; human services program developer; public relations; English teacher; teacher of English as a second language; curriculum developer; education administrator; grant writer; technical writer for business, industry, or science; magazine, newspaper, television, education, or government writer; biographer or writer of prose, fiction, or nonfiction; lyricist.

## Major in English, Creative Writing Concentration

The Creative Writing concentration gives students the opportunity to strengthen their creative writing and reading skills and their imaginations. Students take beginning, intermediate, and advanced courses in one or more of the following genres: fiction, poetry, and nonfiction. Intermediate and advanced courses are primarily workshop classes in which students read and critique one another's work. At the center of all creative writing courses is the study of craft. Students in the creative writing concentration also take a wide variety of literature classes, which prepare them to be writers by schooling them in literary traditions and styles. An internship program for all English majors offers creative writing students writing and research positions that may lead to employment. In addition, the creative writing program runs a vibrant reading series that gives students the chance to meet visiting writers.

## Major in English, English Education Concentration

The English Education concentration provides students with preparation for teaching in secondary schools. It is designed for students who wish to pursue a career in teaching language arts and offers a range of courses in language, literature, and writing. Students may receive an endorsement from the State of Colorado in English Language Arts. In addition to the common requirements for the English major, students pursuing teaching licensure take several extra courses in English, as well as education classes through the School of Education.

Students interested in pursuing a teaching license through CSU may refer to the Center for Educator Preparation (CEP) (<http://cep.chhs.colostate.edu>).

## Major in English, Literature Concentration

The English Department offers a curriculum featuring critical study of literature, ancient through contemporary, in poetry, prose, and drama.

Students will become familiar with major figures and forces, but also with non-traditional writers outside the established canon. Courses in literary theory will give students a sense of the wide variety of approaches that can be applied to the interpretation of texts. In all courses, students practice a number of different types of analytical and critical writing.

## Major in English, Writing, Rhetoric and Literacy Concentration

The Writing, Rhetoric and Literacy Concentration builds on departmental strengths in composition and nonfiction writing, as well as in technology-based writing and writing instruction. It is designed for students who

wish to pursue the study of theories and practices of writing and rhetoric. The Writing, Rhetoric and Literacy Concentration offers students the ability to:

- Study writing in a department that takes a humanistic approach to learning

- Study writing and rhetoric with a focus on genre, audience, invention, and style
- Study writing and writing theory in social, cultural, and historical contexts

## Minor in English

When visiting the English Department office to officially declare an English or English-related minor (<http://english.colostate.edu/undergraduate/english-related-minors>), students will be provided with a course guide for that minor. To speak with an advisor regarding your minor, contact Prof. Tobi Jacobi, by phone at (970) 491-3344, by email at [tjacobi@colostate.edu](mailto:tjacobi@colostate.edu), ([tjacobi@colostate.edu](mailto:tjacobi@colostate.edu)) or in person during office hours or by appointment in Eddy Hall, Room 349.

For information about English and Composition course offerings and registration procedures for the upcoming semester or summer session, please view the *Rambler* (<http://english.colostate.edu/undergraduate/publications>), the Department's advising newsletter.

### English Minor

The English minor is designed for students with interests in English studies who do not want to complete an English major. With very few exceptions, the minor allows students to choose any English or composition courses to create a program of study specific to their needs and interests. Minimum of 21 credits in courses with E prefix, at least 12 of which must be upper division.

The English Department also offers the Linguistics and Culture Interdisciplinary Minor.

## Requirements

### Effective Spring 1996

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

CO 150, E 487A, and E 487B may not count toward the minor. CO 300, CO 301A, CO 301B, CO 301C, CO 301D, CO 302, and CO 401 may count toward the minor. A minimum of 6 credits must be taken at CSU.

## Graduate Certificate in TESOL Education

The Graduate Certificate in TESOL Education provides graduates with practical, theoretical, and critical knowledge of the English language and of methods for teaching it in various social and academic settings. The courses required for the certificate promote reflective inquiry, provide students with the necessary tools for ongoing professional growth, serve as models of effective pedagogy, and introduce students to the various ways in which instruction can be enhanced by contemporary technologies.

### Effective Spring 2018

Additional coursework may be required due to prerequisites.

Code	Title	Credits
E 514	Phonology/Morphology-ESL/EFL	3

E 515	Syntax for ESL/EFL	3
E 526	Teaching English as a Foreign/Second Language	3
E 527	Theories of Foreign/Second Language Learning	3
E 528	Professional ESL Teaching: Theory to Practice	3
Program Total Credits:		15

\*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

## Master of Fine Arts in Creative Writing

The Master of Fine Arts in Creative Writing is for students with advanced abilities in the writing of fiction and poetry. The nationally ranked program offers a balance of intimate and intensive writing workshops with courses in literature, form and technique, and related electives.

## Requirements Effective Fall 2004

Program Total Credits:		48

A minimum of 48 credits are required to complete this program.

<sup>1</sup> This requirement may be waived for students whose undergraduate degree is in another major.

## Master of Arts in English, Creative Nonfiction Specialization

The Creative Nonfiction Specialization offers graduate students an opportunity to develop as writers and readers of creative, or literary, nonfiction. The program is innovative in that students can focus as much on reading and theorizing creative nonfiction as they can on writing it. Investigating the art and craft of creative nonfiction as practitioners and theorists, students encounter and engage genres as different as the personal essay, literary journalism, science writing, memoirs, and lyric essays. Recently the genre of creative nonfiction has expanded in

exciting ways, and students are given the opportunity to study hybrid forms as well. Theses within the program range from a critical analysis of a work of creative nonfiction to a student's own creative nonfiction essays or a single long work.

## Master of Arts in English, Plan A, TESL/TEFL Specialization

The TESL/TEFL Specialization provides graduates with practical, theoretical, and critical knowledge of methods for teaching the English language in various social and academic settings. The program features an integrated core in which a comprehensive understanding of the form and communicative functions of the English language is combined with both general and skill-specific (reading, writing, listening, speaking) pedagogical theories and applications. These courses are designed to promote reflective inquiry, to provide students with the necessary

tools for ongoing professional growth, to serve as models of effective pedagogy, and to introduce students to the various ways in which instruction can be enhanced by contemporary technologies. The connection of theory and practice is enhanced through a variety of supervised teaching experiences, and the completion of a portfolio, project, or thesis.

### Graduate Program in Ethnic Studies

The Department of Ethnic Studies seeks to teach students to understand the unique and interlocking experiences of racially marginalized groups and to analyze how race intersects with other forces of social differentiation, such as gender, sexuality, and class, in national and international contexts. The program recognizes the importance not only of the history of racial exclusion and marginalization but also the creative ways in which various racial groups sustain their humanity through cultural preservation, transference, and renewal. Ethnic Studies is committed to nurturing students to become culturally aware, astute, civic-minded individuals who strive to strengthen the communities in which they reside. Because the study of ethnic groups intrinsically reveals how race structures life chances and opportunities, the scholarly orientation of the department reflects a commitment to meaningful changes in public policy and social life. The department offers graduate-level education to prepare students as leaders in the field of ethnic studies.

Students interested in earning a Master of Arts degree in Ethnic Studies should refer to the Graduate and Professional Bulletin and the Department of Ethnic Studies (<http://ethnicstudies.colostate.edu>).

## Major in Ethnic Studies

Ethnic Studies critically examines the interlocking forces of race, gender, class, sexuality, and other forms of social differentiation that shape the histories and experiences of racially marginalized groups. The programs of study interrogate how these socially constructed ideas impact distribution of social goods, affect life chances, shape identities and worldviews, and reproduce social inequalities. Drawing from interdisciplinary and comparative theoretical frameworks, we bring to bear issues of power, privilege, and social justice pertinent to the experiences of diverse populations in the U.S. and abroad. We are especially committed to nurturing civic-minded and culturally informed students who strive to strengthen the communities in which they reside. In support of the land-grant mission of CSU, Ethnic Studies engages with

communities on and off campus in order to effect meaningful change in public policy and social life.

## Learning Outcomes

Upon completion of the programs of study, students will demonstrate:

- An understanding of the key concepts shaping the experiences of various racial and ethnic groups in the United States and abroad.
- Familiarity with social histories and experiences of racial and ethnic groups.
- Effective oral communication, writing, and research skills.
- An increase in critical thinking, intellectual, and personal growth.
- An understanding of the value of social consciousness and personal responsibility.

## Potential Occupations

Both theoretical understandings of and practical experience in cross-cultural and inter-ethnic relations are invaluable in today's world. Ethnic Studies graduates work in the following fields and occupations. Education: K-12 and adult education (e.g. refugee/immigrant education, diversity training in the private sector); human social services including counseling, health care, and civil service; federal, state, tribal, and local government, and community service; natural resources development and technology transfer: practices, economics, and law in ethnic contexts; communications media such as newspaper, radio, video, and television; archival and museum studies; non-profit agencies; and advanced studies including graduate programs in the social sciences and professional programs (e.g. law, social work).

## Concentrations

- Women's Studies Concentration (No new students are being accepted into this concentration)

## Requirements Effective Fall 2017

## Master of Arts in Ethnic Studies, Plan A

The M.A. in Ethnic Studies explores issues of race and ethnicity as increasing in significance due to deep structural shifts and cultural practices locally, nationally and internationally. Difficult challenges emanate from deeply rooted racial conflicts as well as people, cultures

and capital crossing national borders. The consequence from inattention to this reality are enormous. Comprehending the dynamics from social formations from a multitude of disciplines is critical in identifying the problem areas in which intervention and/or additional research may be necessary. The overarching purpose of this program is to engage a comprehensive understanding of the enduring and transformative nature of race and ethnicity in the United States and around the globe, to develop professional competencies in working with diverse communities, and to bring about meaningful social changes.

## Undergraduate Majors

- Major in Languages, Literatures, and Cultures
  - French Concentration
  - German Concentration
  - Spanish Concentration
  - Teaching Endorsement

## Minor Programs

A minor in a foreign language offers opportunities for studying the language and culture of another country and complements many major fields. A student with a broadly based education, including a foreign language, will be better prepared to deal with changing technological, economic, and social conditions on an international scale. A student who minors in a foreign language may expect to develop sufficient competency to speak and write with reasonable accuracy and fluency while pursuing interest in language, literature, and culture. See the department for specific information on upper-division transfer work in the language of the minor.

**All majors and minors in the department must earn a minimum grade of C (a grade of C- is not acceptable) in each upper-division course that carries the LARA, LCHI, LFRE, LGEN, LGER, LITA, LJPN, LLAT, LRUS, LSGN, or LSPA subject code.**

## Minors

- Minor in Chinese
- Minor in French
- Minor in German
- Minor in Japanese
- Minor in Spanish

## Interdisciplinary Minors

- Arabic Studies
- Italian Studies
- Russian Studies

## Graduate Graduate Programs in Languages, Literatures, and Cultures

Students wishing to pursue advanced studies can earn a Master of Arts degree in Languages, Literatures and Cultures (with specializations in French, German, or Spanish), or follow a program that combines the specializations in French, German, or Spanish with study in another field. Students can also pursue a double degree (Joint Program) in which students earn an M.A. in Languages, Literatures and Cultures (specialization in French, German, or Spanish) and an M.A. in English (specialization of teaching English as a second language or teaching English as a foreign language, TEFL/TESL). Please consult the Graduate and Professional Bulletin.

## Major in Languages, Literatures, and Cultures

### Learning Outcomes

Upon completion of the program of study, students will demonstrate:

- Communicative oral skills in the target language, including grammatical accuracy, correct use of tense, fluency, appropriate intonation, suitable vocabulary and discourse devices for expressing opinions or when giving research presentations.
- Communicative writing skills in the target language, including clarity of ideas, grammatical accuracy and appropriate vocabulary, adequate elaboration of ideas through a variety of sentence structures and vocabulary, and logical flow of ideas through the use of discourse organizational devices.
- Analytical skill in literary and cultural texts of the target language, including ability to formulate and present a topic of inquiry, to critically analyze the topic with valid supporting evidence, and to cogently synthesize and summarize the ideas in bibliographical sources and the results of their own analytical inquiry.
- Increased sensitivity to and appreciation of cultural and linguistic differences.

## Study Abroad

The department strongly encourages education or other experiences abroad and has exchange agreements in place with universities in several countries. Students should visit the department prior to studying abroad for clarification on course transfers. Information is available through Education Abroad (<http://educationabroad.colostate.edu>).

## Major in History

History is an account of our human past and seeks to interpret the course of human affairs through evidence and reason. Historians use written records, images, artifacts, and other materials to understand the past and also the relationship between the past and the present. Historians ask not only what happened and why, but also how the present came to be. History provides insights into how individuals and groups made decisions, exercised power, and responded to change. History helps us to understand how processes—such as revolution, migration, war, ecological disturbance, and globalization—shaped societies over time. It helps us to understand how people grappled with class, ethnicity, gender, and race, and how they conceptualized the world through religion and ideology. History provides a form of knowledge that people in all times and places have used to answer basic questions about the human predicament.

The History major is designed for students to enlarge their knowledge about the past, improve their ability to think logically and critically, and sharpen their powers of written and oral expression. It is an outstanding choice for students planning further professional study in law, medicine, ministry, academia, business, and many other fields.

## Learning Outcomes

Students will demonstrate:

- Ability to analyze and interpret historical materials, such as documents, artifacts, and images
- Ability to engage in chronological reasoning, to understand causation and change over time

- Ability to examine critically how people in the past understood their own history, in scholarly works and in popular forms such as myths or commemorations
- Ability to interpret, write, and speak about the past using evidence and according to the standards and expectations of the historical discipline

## Potential Occupations

Government official in foreign service, national security, military, cultural resources management, and other areas.

History teacher in public and private schools; any professional occupation in business or public service requiring a liberal arts education and skills in research, writing, and the analysis of information. With additional graduate training: lawyer, physician, social worker, minister, librarian, museum curator, archivist, professor, educational administrator, or other professional.

## Concentrations

- General History Concentration
- Language Concentration
- Social and Behavioral Sciences Concentration
- Social Studies Teaching Concentration

## Major in History, General History Concentration

The General History concentration is an excellent choice for students planning careers in history, government service, and other professional occupations requiring broad intellectual and practical skills. History majors who select the General History concentration must complete another major or minor offered at CSU (except History).

## Requirements Effective Spring 2016

**A minimum grade of C (2.00) must be earned in HIST 492 and all 100-level courses required in the history major.**

## Major in Journalism and Media Communication

The study of journalism, mass communication, and specialized media combines high-level professional training with a broad foundation in the liberal arts. All students complete a common 21-credit core, including writing, multimedia, and conceptual courses, as well as a capstone course and an internship. Students work closely with a faculty advisor to select an additional 19 credits in a focus area crafted to match their career interests. Practical experience can be gained on the staffs of the daily *Rocky Mountain Collegian*, the award-winning campus television station CTV, *College Avenue* magazine, and KCSU-FM Radio. Graduating seniors present professional portfolios for assessment by panels of faculty and communication professionals from Denver and elsewhere in Colorado. Because successful communicators require broad knowledge, this flexible program encourages development of a background in the humanities, social sciences, natural sciences, and in-depth study in an area of interest outside journalism. The addition of a minor or double major in disciplines such as political science, information technology, history, economics, business, communication studies, psychology, the arts, or natural or applied sciences is possible.

The Department of Journalism and Media Communication is one of a relatively small number of departments formally recognized by the Accrediting Council on Education in Journalism and Mass Communications. Participation in volunteer activities, cooperative education opportunities, or communication-related part time jobs is highly recommended to enhance practical training and development.

## Learning Outcomes

Students will demonstrate:

- Competence in writing, editing, and producing media messages as well as in planning, designing, and evaluating effective public information programs
- Knowledge and use of communication theory and research principles to guide the selection of communication audiences, message content and format, and media channels to enhance communication impact
- Understanding of the ethics, laws, and values associated with professional communication activity

## Potential Occupations

The Journalism and Media Communication program emphasizes the role of mass and specialized media in society and prepares

students for entry-level work in private business, government, and education. Depending upon the focus of study, students may find career opportunities in a wide variety of professional communication venues. Specific career opportunities may include: advertising copywriter, designer, or producer; agriculture writer, reporter, or editor; attorney specializing in communication law; blogger, columnist, or editorial cartoonist; college professor; communications manager or director; company spokesperson; corporate media specialist; e-mail and direct mail strategist; environmental media specialist; freelance writer, editor, or photographer; health writer, editor, or producer; marketing coordinator; media relations director or strategist; multimedia producer; non-profit communications director; novelist or non-fiction author; reporter or photojournalist for the web, magazines, newspapers, or television; owner of public relations agency or production company; professional speaker; public affairs officer for government agency; public relations agency account executive; publication designer for magazines or newspapers; radio disc jockey, reporter, or music director; reality television producer, writer, photographer, or on-camera talent; science writer or editor; social media specialist; sports writer, photographer, or producer; technical writer or editor; teacher for any level of K-12 education upon completion of appropriate licensing (see the Center for Educator Preparation (<http://cep.chhs.colostate.edu>)); television news anchor or program host; television or radio news program producer or director; television documentary producer; travel writer, photographer, or program host; video editor for news, corporate, or entertainment television; website designer and manager.

## Requirements Effective Spring 2017

All majors in the department must earn a minimum grade of C (a grade of C- is not acceptable) in each course that carries the JTC subject code.

## Association for Education in Journalism and Mass Communication Accreditation Requirements

Majors in Journalism and Media Communication must take a minimum of 40 credits of JTC courses and a minimum of 72 credits outside of JTC.

Of the 72 credits outside of JTC, 21 must meet **one** of the following Second Field criteria with approval of advisor:<sup>1</sup>

1. a Minor;
2. an Interdisciplinary Minor;
3. 21 credits in one subject code;
4. 9 credits from one subject code and 12 credits from a second subject code;
5. a selection of 21 credits comprising a Second Field developed by the student and the advisor.

Courses taken outside of the department may include All-University Core Curriculum (AUCC) courses, Minor or Second Field courses, or any other out-of-department (non-JTC) courses used to complete the major as approved by advisor.

The 40 JTC required credits include 21 credits specified in the curriculum below plus 19 credits of directed electives to create an individualized focus area from the following 4 categories (Writing, Production, Internship/Practicum, Additional credits).

### Directed Electives for Individualized Focus Area

Over the sophomore, junior, and senior years, students must complete a minimum of 19 credits in an individually designed focus area. Students must select those 19 credits from among the following categories and courses in consultation with advisor, as follows:

## Technical and Science Communication Minor

The minor in Technical and Science Communication is designed to educate highly qualified communicators who have interests in specialized academic disciplines and career fields. Because science and technology often involve complicated research and processes, communicating the results of that work requires special skills. This program is designed to prepare students for a wide range of niche career opportunities in media, corporate communication, technology related industries, and scientific environments.

Students in this minor will learn to write and manage communication efforts, with a focus on turning complex ideas and processes into simple, clear messages applicable for publication and electronic delivery via broadcast, cable, or the Web. The accuracy and effectiveness of this communication is especially important as the Internet and the ubiquity of mobile devices make the delivery and consumption of information widely available. Having the skills to interpret and communicate complicated processes provides significant career advantages in one of the highest-paying areas of professional communication.

### Requirements Effective Fall 2013

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

## Master of Communications and Media Management, Plan C (M.C.M.M.)

The Master of Communications and Media Management is designed for students with a bachelor's degree seeking to transition to a communication-related career, or for those seeking to move up into

a management role in their present media profession. The rapid rate of technological change in media technology has created a need for constant retraining and the acquisition of new multimedia knowledge and management skills. The program curriculum is designed to provide students with a comprehensive overview of "new media" developments. Upon completion of the program, students will be prepared to strategize and manage specific communications projects, as well as manage and direct staff members or contract workers in a communications unit within a corporate, educational, or nonprofit organization.

Dr. Daniel Goble, Director, School of Music, Theatre, and Dance

## Undergraduate

The School of Music, Theatre, and Dance at CSU provides a rigorous undergraduate educational experience.

The Music program is focused on the belief that music is both an artistic and intellectual achievement. We offer intense training in specialized music disciplines combined with a balance of core music courses in music history and theory. Most of all, our renowned and versatile faculty are committed to helping students discover their own unique identities through music. We offer B.M. degrees in music therapy, music education, music composition, and music performance as well as a B.A. in music degree. Additionally undergraduates can earn a performance-based music minor.

The Theatre program emphasizes a reciprocal relationship between practice and scholarly study, combining practical training with theory and history, while stressing creative critical thinking. Students are encouraged to engage intellectual and physical approaches to explore diverse cultural forms, historical traditions, and contemporary theatre practice. During their first two years as Theatre majors, all students will take the same core of courses in all sub-disciplines. Following their sophomore review, students will be directed into one of four concentrations offered to Theatre majors at CSU: Directing, Performance, Playwriting and Dramatic Literature, and Theatrical Design and Production.

The Dance program offers a rigorous program in classical and contemporary dance education culminating in a B.A. in Dance. The degree requires a total of 120 credits with the following focus: technical training and foundations, performance, composition,

pedagogy, professional preparation, theatrical production and design, and academics. In the Dance major, students explore the many possibilities for movement expression, along with creativity and scholarly examination, in a challenging and supportive environment.

## Graduate

The department offers graduate programs leading to the Master of Music (M.M.), offering students the skills and experience necessary to become highly skilled music educators, music therapists, performing artists, and conductors.

The vibrant learning environment fosters and supports creativity and growth while high standards of teaching, scholarship, performance and research are developed. We are pleased to offer small academic classes, applied study with highly qualified faculty, and careful attention to advising. With over 100 performance dates a year, performance opportunities are extensive and the department represents the arts on campus in a highly visible and prestigious environment.

Applicants to graduate programs in music must have a B.M., B.M.E., or equivalent bachelor's degree. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the School of Music (<http://music.colostate.edu>).

## Major in Dance

Office in University Center for the Arts, Room 120

(970) 491-5529

[dance.colostate.edu](http://dance.colostate.edu) (<http://dance.colostate.edu>)

Professor Jane Slusarski-Harris, Director

CSU offers a rigorous program in classical and contemporary dance education culminating in a B.A. in Dance. The degree requires a total of 120 credits with the following focus: technical training and foundations, performance, composition, pedagogy, professional preparation, theatrical production and design, and academics. In the Dance major, students explore the many possibilities for movement expression, along with creativity and scholarly examination, in a challenging and supportive environment. Dance major and scholarship auditions for prospective students (high school seniors or transfers) are held during Fall and Spring Visit Days. The audition assesses training background, technical level, and the potential to successfully complete the degree program at an advanced and/or pre professional level. To be placed into the Dance major, students should have professional quality dance training in both ballet and modern technique, be at the intermediate technical level, and have the ability to withstand rigorous daily work throughout the year. Other forms of previous dance training are applicable and highly encouraged. For non-majors, enrollment in dance major technique classes depends on space availability, technical level, and suitability, and takes place during the classes of the first week of the semester. All technique classes are accompanied by accomplished musicians in piano, percussion, and a variety of other instruments. Performance,

choreographic, and production opportunities take place each semester and students are encouraged to collaborate with other majors in music, theatre, and the visual arts. Visiting guest artists teach master classes and workshops and choreograph for the students on a regular basis. Supervised student teaching experiences are offered with different age groups and in a variety of situations.

Upon graduation, students will have a theoretical and practical foundation in dance. Graduates will achieve an intermediate/advanced level of proficiency in modern and ballet technique and be able to apply this knowledge to the areas of professional performance, choreography, and teaching. They will have a foundation in technical production and design which supports dance and theatrical productions. They will have a working knowledge of anatomy, kinesiology, and various movement theories relating to dance techniques. They will have a solid knowledge and appreciation of the history and philosophy of dance from many cultures and time periods.

## Potential Occupations

Dance careers are rigorous and demanding, requiring years of training and discipline. Dance professionals must be versatile with a broad base

of experiences in dance or related fields. Dance majors often select a second major such as music, theatre, business, occupational therapy, technical journalism, or exercise and sport science to enhance their job prospects. Experience acquired through extracurricular performances or internships is highly recommended to enhance practical training, development, and career opportunities. Students are encouraged to go on for advanced study at the graduate level in dance in order to secure teaching positions in higher education.

Some examples of the career opportunities in dance include, but are not limited to: professional dancer, professional choreographer, artistic director, university/college faculty, studio owner and faculty, conservatory or school faculty, dance critic, dance therapist, dance somatics specialist, arts manager, lighting designer, costume designer, sound designer, theatre technician, production crew, producer, fashion coordinator, special events coordinator, makeup artist, musical theatre director.

## Major in Music (B.M.)

Our primary goal is to prepare students to become highly skilled music educators, music therapists, performers, composers, and conductors. Program goals encourage and develop high standards of teaching, scholarship, performance, and research in music. We are pleased to offer small academic classes, applied study with highly qualified faculty, and careful attention to advising. Courses in music appreciation, music theory fundamentals, and ensembles are open to all students regardless of major.

A successful audition is required prior to entrance into any B.M. Music degree program.

## Learning Outcomes

Students will demonstrate:

- Ability to perform music from a variety of historical/ style periods, and exhibit the appropriate skills for musical self-expression in juried performances. These skills include: techniques, musicianship, tone, diction/articulation, style, interpretation, and artistry.
- Understanding of the common elements and organizational patterns of music, including musical forms, processes, and structures.
- Knowledge of music history and representative composers and works from each on a defined evaluation instrument.

Students are also expected to learn music literature from all periods through aural and score analysis. Performance skills are tested at the end of the sophomore year and in a graduation recital if required by the degree option. Some programs require satisfactory completion of supervised student teaching, an internship, or a senior project. In addition, all students must pass a piano proficiency examination.

## Potential Occupations

The undergraduate music curricula at CSU can lead to personally fulfilling careers as music educators, music therapists, performers, composers, and conductors. Music graduates from CSU have successfully gained employment in public and private schools, hospitals and institutions, and as professional performers, conductors, and composers.

## Major in Music (B.M.), Music Education Concentration

The Music Education program at CSU is one of the leading teacher preparation programs in the nation. Faculty members are in demand as clinicians, guest lecturers, conductors, and researchers. Music Education majors pursue an accredited curriculum that develops musical knowledge and skills, and prepares students to become accomplished music educators. Students must select one of two options: Instrumental or Choral.

Students interested in pursuing a teaching license through CSU may refer to the Center for Educator Preparation (CEP) (<http://cep.chhs.colostate.edu>) and the College of Health and Human Sciences section in this catalog or in the Education Building, Room 111.
