STAR 512	Design and Data Analysis for Researchers II	4

Technical Electives - B

A maximum of 3 credits may be selected from the following courses:

ENGR 422	Technology Entrepreneurship	3
ENGR 502	Engineering Project and Program Management	3
ENGR 525	Intellectual Property and Invention Systems	3
FIN 305	Fundamentals of Finance	3
IDEA 310B	Design Thinking Toolbox: 3D Modeling	2
IDEA 310D	Design Thinking Toolbox: Digital Imaging	1
MGT 305	Fundamentals of Management	3
MGT 340	Fundamentals of Entrepreneurship	3
MKT 305	Fundamentals of Marketing	3

Major Completion Map

Distinctive Requirements for Degree Program:

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus.

Freshman

Semester 1

CBE 160	MATLAB for Chemical and Biological Eng
CHEM 111	General Chemistry I (GT-SC2)
CHEM 112	General Chemistry Lab I (GT-SC1)
LIFE 102	Attributes of Living Systems (GT-SC1)
MATH 160	Calculus for Physical Scientists I (GT-MA1)

Select one group from the following:

Group A:

CBE 101 Introduction to Chemical and Biological Engr

Group B:

CBE 101A Introduction to Chemical and Biological Engr. Lecture

Professional Science Master's in Biomanufacturing and Biotechnology

The Professional Science Master's (PSM) in Biomanufacturing and Biotechnology is ideal for students who want to prepare for careers in a variety of industries that use bioprocesses, biomanufacturing, and biotechnology. The program is also designed to provide opportunities for professionals working in these industries to get the training they may need to advance in their careers. The program includes a balanced combination of bioscience, engineering, and business courses, appropriate for students with either a science or engineering background. The program culminates with an internship experience at a partnering organization, company, government entity, or non-profit, where the student puts into practice their bioscience, engineering, and business training.

The PSM in Biomanufacturing and Biotechnology is an affiliated Professional Science Master's (PSM) degree. Affiliation is administered by the Commission on Affiliation of PSM Programs (<https://www.professionalsciencemasters.org/>) (formerly named PSM National Office) to ensure a strong and distinctive PSM brand. The PSM is designed for students who are seeking a graduate degree in science or mathematics and understand the need for developing workplace skills valued by top employers.

Requirements Effective Fall 2019

First Year

Fall		Credits
BC 411	Physical Biochemistry	4
BC 563	Molecular Genetics	4
BUS 500	Foundations for Business Impact	2
Total Credits		10

Spring		
BC 565	Molecular Regulation of Cell Function	4
BC 571	Quantitative Biochemistry	1
BUS 601	Quantitative Business Analysis	2
Select a 3-credit technical elective from:		3
BIOM 525/ MECH 525	Cell and Tissue Engineering	
CBE 570	Biomolecular Engineering/Synthetic Biology	
GES 542	Biobased Fuels, Energy, and Chemicals	
Total Credits		10

Second Year		
Fall		
BUS 614	Accounting Concepts	2
BUS 620	Leadership and Teams	2
CBE 504/BIOM 504	Fundamentals of Biochemical Engineering	3
CBE 505	Biochemical Engineering Laboratory	1
CBE 522/BIOM 522	Bioseparation Processes	3
Select a 2-credit business elective from:		2
BUS 626 ¹	Managing Human Capital	
BUS 640	Financial Principles and Practice	
BUS 655	Marketing Management	
Total Credits		13

Spring		
CBE 687	Internship	7
Total Credits		7
Program Total Credits:		40

A minimum of 40 credits are required to complete this program.

¹ Offered Spring term only.

Department of Civil and Environmental Engineering

Office in Engineering Building, Room A203
(970) 491-5048
[engr.colostate.edu/ce/](https://www.engr.colostate.edu/ce/) (<https://www.engr.colostate.edu/ce/>)

Professor Charles D. Shackelford, Department Head
Shannon Miller, Undergraduate Advisor
Susheela Mallipudi, Graduate Advisor

The Department of Civil and Environmental Engineering administers undergraduate degrees in Civil Engineering and in Environmental Engineering and graduate degrees in Civil Engineering.

Undergraduate Majors

- Major in Civil Engineering
- Major in Environmental Engineering

Minor

- Minor in Environmental Engineering

Graduate Graduate Programs in Civil and Environmental Engineering

Graduate programs leading to the Master of Science (M.S.), Master of Engineering (M.E.), and Doctor of Philosophy (Ph.D.) degrees are offered. Focus areas include construction engineering and management (Ph.D. only), environmental engineering, geoengineering, groundwater engineering, hydraulic engineering/stream restoration and river mechanics, hydrologic science and engineering, irrigation and drainage engineering, structural engineering and structural mechanics, water and international development, water resources planning and management, and fluid mechanics/dynamics.

A practice-oriented, course-work only, Master of Engineering (M.E.) degree program is available to students with a baccalaureate degree in engineering. Individuals with undergraduate degrees in some science programs also are eligible for the M.E., but typically are required to complete background engineering courses at the undergraduate level in addition to the required courses for their graduate degree. Master of Engineering tracks are offered in environmental engineering, geotechnical engineering, infrastructure engineering, irrigation engineering, structural engineering, and water resources engineering.

Students interested in graduate work should refer to the Graduate and Professional Bulletin or the Department of Civil and Environmental Engineering (<https://www.engr.colostate.edu/ce/>).

Certificates

- Hydraulic Design
- Tailings Engineering

Master's Programs

- Master of Science in Civil Engineering, Plan A*
- Master of Science in Civil Engineering, Plan B*
- Master of Engineering, Plan C, Civil Engineering Specialization
- Bachelor-Master Accelerated Master's Program (AMP) (<https://www.engr.colostate.edu/ce/amp/>)

Ph.D.

- Ph.D. in Civil Engineering*

* Please see department for program of study.

Courses

Civil Engineering (CIVE)

CIVE 102 Introduction to Civil and Environmental Engr Credits: 3 (2-2-0)

Course Description: Civil and environmental engineering professions, computer applications related to civil and environmental engineering; engineering design concepts.

Prerequisite: None.

Restriction: Must be a: Undergraduate.

Registration Information: Walter Scott College of Engineering majors only. Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 103 Engineering Graphics and Computing Credits: 3 (2-3-0)

Course Description: Introduction to the profession and academia; principles of civil engineering design; graphical, and written communication.

Prerequisite: CIVE 102 or ENGR 101.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CIVE 202 Numerical Modeling and Optimization Credits: 3 (2-2-0)

Course Description: Fundamentals of programming and application to numerical modeling and optimization of civil and environmental engineering systems.

Prerequisite: (CIVE 103) and (MATH 159, may be taken concurrently or MATH 160, may be taken concurrently).

Registration Information: Must register for lecture and laboratory. Civil engineering, environmental engineering or engineering science majors only. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 203 Engineering Systems and Decision Analysis Credits: 3 (2-2-0)

Course Description: Civil engineering infrastructure systems, numerical and decision analysis techniques, applications of risk analysis.

Prerequisite: CIVE 202.

Registration Information: Civil engineering, environmental engineering, and engineering science majors only. Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 260 Engineering Mechanics-Statics Credits: 3 (3-0-0)

Course Description: Forces using vector notation; static equilibrium of rigid bodies; friction, virtual work, centroids, and moments of inertia.

Prerequisite: (MATH 159 or MATH 160) and (PH 141).

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 261 Engineering Mechanics-Dynamics Credits: 3 (3-0-0)

Course Description: Kinematics and kinetics of particles and rigid bodies; concepts of work-energy and impulse-momentum; computer applications; vector notation.

Prerequisite: CIVE 260.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 300 Fluid Mechanics Credits: 3 (3-0-0)

Course Description: Fluid properties; statics, kinematics, and dynamics of fluid motion including viscous and gravitational effects.

Prerequisite: (CIVE 261 and MATH 340, may be taken concurrently) and (MECH 237, may be taken concurrently or MECH 337, may be taken concurrently).

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 301 Fluid Mechanics Laboratory Credit: 1 (0-3-0)

Course Description: Fluid properties; statics, kinematics, and dynamics of fluid motion including viscous and gravitational effects.

Prerequisite: CIVE 300, may be taken concurrently.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CIVE 302 Evaluation of Civil Engineering Materials Credits: 3 (2-3-0)

Course Description: Behavior and properties of construction materials, instrumentation, use of statistical tools, material standards, material selection, quality control.

Prerequisite: CHEM 111 and CIVE 360.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

CIVE 303 Infrastructure and Transportation Systems Credits: 3 (3-0-0)

Course Description: Principles of infrastructure systems, transportation systems, applications of spatial data and GIS, project management and engineering economy.

Prerequisite: CIVE 260.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 305 Intermediate AutoCAD Credits: 3 (2-2-0)

Course Description: Creating layouts and templates, objects, graphic patterns and symbols, inserting and managing external references, and creating isometric drawings.

Prerequisite: CIVE 103.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 322 Basic Hydrology Credits: 3 (3-0-0)

Course Description: Hydrologic cycle, soil moisture, groundwater, runoff processes, applications in water resources and environmental engineering.

Prerequisite: (CIVE 300 or CBE 331 or WR 416) and (CIVE 203 or STAT 301 or STAT 315).

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 330 Ecological Engineering Credits: 3 (3-0-0)

Course Description: Principles of ecological engineering and design of sustainable ecosystems.

Prerequisite: (BZ 110 and BZ 111 or BZ 120 or LIFE 102 or SOCR 240) and (CHEM 113) and (CIVE 300 or LIFE 320).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 339 Environmental Engineering Concepts Credits: 3 (3-0-0)

Course Description: Fundamental topics of environmental engineering, including water chemistry, chemical and biological reactions for water and wastewater treatment, reactor design for water and wastewater treatment processes, sanitary and storm sewer design, hazardous waste management, noise pollution, and sanitary landfill design.

Prerequisite: (CHEM 113) and (CBE 331 or CIVE 300 or MECH 342).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 355 Introduction to Geotechnical Engineering Credits: 3 (3-0-0)

Course Description: Soil behavior, stress-strain and strength properties, application to earth pressure, slope and foundation problems.

Prerequisite: CIVE 360.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 356 Geotechnical Engineering Laboratory Credit: 1 (0-3-0)

Course Description: Laboratory to demonstrate standard methods of soils testing, methods of data collection, analysis of results.

Prerequisite: CIVE 355, may be taken concurrently.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CIVE 360 Mechanics of Solids Credits: 3 (3-0-0)

Course Description: Stresses and deformations in structural members and machine elements, combined stresses, stress transformation.

Prerequisite: CIVE 260.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 367 Structural Analysis Credits: 3 (3-0-0)

Course Description: Determination of actions in and deformations of determinate and indeterminate structures.

Prerequisite: CIVE 360.

Terms Offered: Fall, Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 371 Study Abroad--Peru: Grand Challenges in Engineering in Peru Credits: 3 (0-0-3)

Course Description: Faculty-led study abroad program that includes cultural, language, and engineering instruction.

Prerequisite: None.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 401 Hydraulic Engineering Credits: 3 (3-0-0)

Course Description: Basic principles of fluid mechanics applied to practical problems in hydraulic engineering.

Prerequisite: CIVE 300.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 402 Senior Design Principles Credits: 3 (2-2-0)

Course Description: Design of civil engineering systems, nontechnical and economic design considerations, project organization, design project development and presentation.

Prerequisite: (CIVE 300) and (CIVE 303 or CHEM 245).

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 403 Senior Project Design Credits: 3 (2-2-0)

Course Description: Design of civil engineering systems, nontechnical and economic design considerations, project organization, design project development and presentation.

Prerequisite: CIVE 402.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 405 Sustainable Civil/Environmental Engineering Credits: 3 (3-0-0)

Course Description: Concepts of sustainable engineering principles in civil and environmental engineering. Life cycle analysis. Life cycle cost analysis. LEED and Envision rating systems. Resiliency concepts.

Prerequisite: CIVE 203 or STAT 315.

Registration Information: Junior standing. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 413 Environmental River Mechanics Credits: 3 (3-0-0)

Course Description: Fluvial geomorphology, river hydraulics, sediment transport, and river response with special emphasis on environmental aspects.

Prerequisite: CIVE 300 or WR 416.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 423 Groundwater Engineering Credits: 3 (3-0-0)

Course Description: Development of groundwater resources; origin, movement, distribution of water below ground surface.

Prerequisite: CIVE 300 or CBE 331 or WR 416.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 425 Soil and Water Engineering Credits: 3 (2-3-0)

Course Description: Control of the soil-water-plant medium for optimum plant growth and environmental protection.

Prerequisite: CBE 331 or CIVE 300 or SOCR 240.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 437 Wastewater Treatment Facility Design Credits: 3 (3-0-0)

Course Description: Design concepts and principles for wastewater treatment systems and unit processes, principles of treatment plant operation.

Prerequisite: (CIVE 300) and (CIVE 438, may be taken concurrently).

Registration Information: Credit not allowed for both CIVE 437 and ENVE 437.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 438 Fundamentals of Environmental Engr Credits: 3 (3-0-0)

Course Description: Core topics of environmental engineering including water quality and chemistry, wastewater removal and treatment, air pollution, noise pollution, and sanitary landfill design. Sustainability, green engineering and ethics are also discussed.

Prerequisite: (CBE 331 or CIVE 300 or MECH 342) and (CHEM 113).

Registration Information: Walter Scott Jr. College of Engineering majors only. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 439 Applications of Environmental Engr Concepts Credits: 3 (2-3-0)

Course Description: Design concepts related to environmental engineering problems with a focus on design projects.

Prerequisite: CIVE 339.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 440 Nonpoint Source Pollution Credits: 3 (3-0-0)

Course Description: Principles, processes, impacts and control of nonpoint source pollution of surface and groundwater.

Prerequisite: CIVE 300 or CIVE 322 or SOCR 240 or WR 416.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 441 Water Quality Analysis and Treatment Credits: 3 (2-3-0)

Course Description: Physical, chemical and biological methods for the characterization of waters and wastewaters.

Prerequisite: CIVE 339, may be taken concurrently or CIVE 438, may be taken concurrently.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CIVE 442 Air Quality Engineering Credits: 3 (3-0-0)

Course Description: Air pollution problems and solutions, at scales ranging from local to global. Quantitative analysis of chemical and physical processes governing air pollutants in natural and built environments.

Prerequisite: (CBE 331 or CIVE 300 or MECH 342) and (CHEM 113).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 455 Applications in Geotechnical Engineering Credits: 3 (3-0-0)

Course Description: Geotechnical engineering applications of earth retaining structures, foundations, dams and embankments, geosynthetics, waste containment systems.

Prerequisite: CIVE 355.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 458 Environmental Geotechnics Credits: 3 (3-0-0)

Course Description: Application of principles from soil physics, soil chemistry, soil mechanics, hydrogeology, and geotechnical engineering to solve problems in Environmental Geotechnics related to engineered containment of contaminants and remediation of contaminated sites for the protection of human health and the environment.

Prerequisite: CIVE 355.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 466 Design and Behavior of Steel Structures Credits: 3 (3-0-0)

Course Description: Loads acting on a structure; behavior and design of steel members, connections, and systems.

Prerequisite: CIVE 367.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 467 Design of Reinforced Concrete Structures Credits: 3 (3-0-0)

Course Description: Design and behavior of reinforced concrete structural members.

Prerequisite: CIVE 367.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 495 Independent Study Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 496 Group Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 502 Fluid Mechanics Credits: 3 (3-0-0)

Course Description: Fundamental physical concepts of fluid mechanics, including ideal and viscous fluid flows and boundary-layers.

Prerequisite: CIVE 300.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 505 Structural Inspection, Management and Repair Credits: 3 (3-0-0)

Course Description: Modes of deterioration for existing structures; techniques for structural inspection, modeling deterioration and evaluating structures; asset management strategies; failure case studies; repair techniques.

Prerequisite: CIVE 466 or CIVE 467.

Registration Information: Credit not allowed for both CIVE 505 and CIVE 580B1.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 506 Wind Effects on Structures Credits: 3 (3-0-0)

Course Description: Analysis of wind effects on buildings and structures; deterministic and probabilistic methods; aerodynamic loading and response; codes and standards.

Prerequisite: CIVE 300.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 507 Transportation Engineering Credits: 3 (3-0-0)

Course Description: Principles of highway engineering, transportation engineering and bridge engineering with a focus on design.

Prerequisite: CIVE 261 and CIVE 303 and CIVE 367.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 508 Bridge Engineering Credits: 3 (3-0-0)

Course Description: Introduces the fundamentals of bridge engineering, including bridge basics, bridge loads, bridge analysis and bridge design.

Prerequisite: CIVE 367.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 510 Applied Hydraulic System Design Credits: 3 (3-0-0)

Course Description: Operational management systems, data collection, real-time control, management modeling, rehabilitation and retrofit, maintenance.

Prerequisite: CIVE 401.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 511 Coastal Engineering Credits: 3 (3-0-0)

Course Description: Coastal processes (waves, tides, storm surge, currents, coastal morphology, deltas) and their effects on infrastructure design and eco-protection.

Prerequisite: CIVE 401.

Registration Information: Credit not allowed for both CIVE 511 and CIVE 580A6.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 512 Irrigation Systems Design Credits: 3 (3-0-0)

Course Description: Irrigation systems principles and design procedures for operation of sprinkler, trickle, and surface irrigation systems.

Prerequisite: CIVE 322 or CIVE 425.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 513 Morphodynamic Modeling Credits: 3 (3-0-0)

Course Description: Principles and techniques for simultaneous modeling of flow, sediment transport, and channel evolution to address problems in river morphodynamics.

Prerequisite: CIVE 300.

Registration Information: Sections may be offered: Online. Credit not allowed for both CIVE 513 and CIVE 581A9.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 514 Hydraulic Structures/Systems Credits: 3 (3-0-0)

Course Description: Analysis and design of hydraulic structures which make up components of water resource systems.

Prerequisite: CIVE 401.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 518 Sprinkler and Trickle Irrigation Systems Credits: 3 (3-0-0)

Course Description: Basic principles, design, and evaluation of pressurized irrigation systems.

Prerequisite: CIVE 300 and CIVE 425.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 519 Irrigation Water Management Credits: 3 (3-0-0)

Course Description: Soil, plant, water, and atmospheric engineering principles for the determination of crop water needs to sustain agricultural production and the environment.

Prerequisite: CIVE 322 or SOCR 370.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 520 Physical Hydrology Credits: 3 (3-0-0)

Course Description: Hydrologic, atmospheric processes in the water cycle; linear systems, hydrologic response; geomorphologic description of hydrologic processes, response.

Prerequisite: CIVE 322 or CIVE 322.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 521 Hydrometry Credits: 3 (2-3-0)

Course Description: Principles, methods, instruments, and equipment for measuring water quantity and water quality variables in nature.

Prerequisite: CIVE 322.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: Yes.

CIVE 524 Modeling Watershed Hydrology Credits: 3 (2-2-0)

Also Offered As: WR 524.

Course Description: Development and application of watershed models: structure, calibration, evaluation, sensitivity analysis, simulation.

Prerequisite: (CIVE 203 or STAT 301 or STAT 315) and (CIVE 322 or WR 416).

Registration Information: Must register for lecture and laboratory. Credit not allowed for both CIVE 524 and WR 524.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 525 Water Engineering International Development Credits: 3 (3-0-0)

Course Description: Planning and design of small-scale and low-cost water supply and wastewater systems for rural communities in developing countries.

Prerequisite: CIVE 339 or CIVE 401 or CIVE 438.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

CIVE 526 Pollution, Exposure, and the Environment Credits: 3 (3-0-0)

Course Description: Basic principles and applications of quantitative exposure science with an emphasis on exposure measurement; exposure pathway and data analysis; exposure modeling; and the development and application of novel methodological, technological, and statistical tools for exposure science.

Prerequisite: CHEM 113 and MATH 160.

Registration Information: Sections may be offered: Online. Credit not allowed for both CIVE 526 and CIVE 580B4.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 527 Tools for Food-Energy-Water Systems Analysis Credits: 3 (2-2-0)

Course Description: Analysis of complex food-energy-water (FEW) issues to explore prevailing relationships under varying conditions. Introduction to tools and approaches for systems thinking and FEW analysis, including frameworks for system analysis, data mining, life cycle assessment, triple bottom line analysis, and multi-criteria decision analysis.

Prerequisite: CHEM 103 or CHEM 107 or CHEM 111.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Must register for lecture and laboratory. Credit not allowed for both CIVE 527 and CIVE 580B6.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 528 Assessing the Food, Energy, Water Nexus Credits: 3 (3-0-0)

Also Offered As: GES 528.

Course Description: A broad overview of Food/Energy/Water (FEW) nexus issues, including the science underpinning FEW and the trade-offs, socio-economic constraints, and policy limitations inherent in FEW challenges. Introduction to tools that enhance systems-level thinking and problem solving.

Prerequisite: CHEM 103 or CHEM 107 or CHEM 111.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Written consent of instructor. Credit allowed for only one of the following courses: CIVE 528, CIVE 580B5, or GES 528.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 529 Environmental Organic Chemistry Credits: 3 (3-0-0)

Course Description: Fate and transport of organic compounds in natural and engineered environments.

Prerequisite: MATH 160 and CHEM 111.

Registration Information: Credit not allowed for both CIVE 529 and CIVE 580A5.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 530 Environ Engr at the Water-Energy-Health Nexus Credits: 3 (3-0-0)

Course Description: Key principles and applications of state-of-the-art technologies at the water-energy-health nexus. Emerging technologies that produce clean water and energy from unconventional water resources such as wastewater and saline water, as well as new approaches (e.g., using environmental nanotechnology) that prevent water-borne diseases beyond conventional disinfection.

Prerequisite: CHEM 113 and MATH 161.

Registration Information: Credit not allowed for both CIVE 530 and CIVE 580B3.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 531 Groundwater Hydrology Credits: 3 (3-0-0)

Course Description: Groundwater occurrence, distribution, movement, exploration and recharge, well hydraulics and design, interaction of ground and surface water.

Prerequisite: CIVE 300 or CBE 331 or MECH 342.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 532 Wells and Pumps Credits: 3 (3-0-0)

Course Description: Well field hydraulics, well drilling methods, well design, aquifer test methods, pumping systems, well maintenance, storage/distribution systems.

Prerequisite: (CIVE 423 and CHEM 111) and (CIVE 531 or GEOL 452).

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 533 Biomolecular Tools for Engineers Credits: 3 (2-3-0)

Also Offered As: BIOM 533.

Course Description: Theoretical and practical aspects of biomolecular laboratory tools—PCR, cloning, sequencing, single-molecule optical techniques and live-cell imaging.

Prerequisite: BMS 300 or MIP 300.

Registration Information: Must register for lecture and laboratory. Credit not allowed for BIOM 533, CIVE 533 and ECE 533.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

CIVE 534 Applied and Environmental Molecular Biology Credits: 3 (2-2-0)

Course Description: Environmental microbiology and molecular biology tools used to investigate both natural systems and engineered processes.

Prerequisite: CIVE 540.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 537 Residuals Management Credits: 3 (3-0-0)

Course Description: Planning and design for processing and disposal of residuals including solid wastes, sludges, and hazardous wastes.

Prerequisite: CIVE 300.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 538 Aqueous Chemistry Credits: 3 (3-0-0)

Course Description: Principles of solution chemistry applied to aquatic systems.

Prerequisite: CHEM 113 and MATH 340.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 539 Water and Wastewater Analysis Credits: 3 (2-3-0)

Course Description: Chemical and biological methods of assessing water quality; significance of chemicals in aquatic systems.

Prerequisite: CHEM 113 and MATH 340.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall (odd years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 540 Advanced Biological Wastewater Processing Credits: 3 (3-0-0)
Also Offered As: CBE 540.

Course Description: Fundamentals of environmental biotechnology: environmental microbiology, microbial kinetics, basic reactor design, wastewater treatment.

Prerequisite: CBE 320 or CIVE 339 or CIVE 438.

Registration Information: Sections may be offered: Online. Credit not allowed for both CBE 540 and CIVE 540.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 541 Physical Chemical Water Treatment Processes Credits: 3 (3-0-0)

Course Description: Theory and practice of separations and conversions in water treatment process. Reactor theory, filtration, adsorption, mass transfer, oxidation, membrane technologies, biological reactors, disinfection.

Prerequisite: CIVE 439.

Registration Information: Section may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 542 Water Quality Modeling Credits: 3 (3-0-0)

Course Description: Chemical, physical, and biological processes defining surface water quality, construction and application of computer models for lakes and streams.

Prerequisite: None.

Registration Information: Must have taken two semesters of chemistry; one course in hydrology or water quality.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 543 Instrumental Environmental Analysis Credits: 3 (2-3-0)

Course Description: Environmental sampling and preservation techniques followed by the instrumental analysis of the samples.

Prerequisite: CHEM 113.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 544 Water Resources Planning and Management Credits: 3 (3-0-0)

Course Description: Management and planning of natural and constructed water systems. Integrated management and case studies of water use and environmental resources.

Prerequisite: CIVE 322.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 546 Water Resource Systems Analysis Credits: 3 (2-2-0)

Course Description: Applications of systems analysis and optimization techniques in water resources planning and management.

Prerequisite: (CIVE 322, may be taken concurrently) and (ENGR 510, may be taken concurrently or MATH 510, may be taken concurrently).

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 547 Statistics for Environmental Monitoring Credits: 3 (3-0-0)

Also Offered As: STAT 547.

Course Description: Applications of statistics in environmental pollution studies involving air, water, or soil monitoring; sampling designs; trend analysis; censored data.

Prerequisite: STAT 301.

Registration Information: Credit not allowed for both CIVE 547 and STAT 547. Sections may be offered: Online.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 549 Drainage and Wetland Engineering Credits: 3 (3-0-0)

Course Description: Drainage and wetlands design for agricultural and natural resource applications. Water table modification for nonpoint sources pollution control.

Prerequisite: CIVE 322 or SOCR 370 or SOCR 470.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 550 Foundation and Retaining Wall Engineering Credits: 3 (3-0-0)

Course Description: Mechanics and methodology of foundation engineering, selection and design of foundation systems, retaining wall design, and application of principles to related special problems.

Prerequisite: CIVE 355.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 555 Mining Geotechnics Credits: 3 (3-0-0)

Course Description: Challenges associated with mine tailings and mine waste management, including relevant geotechnical and geoenvironmental engineering factors. Case studies are used to illustrate important concepts.

Prerequisite: CIVE 355.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 556 Slope Stability, Seepage, and Earth Dams Credits: 3 (3-0-0)

Course Description: Slope stability, seepage analysis and control, and earth dam and embankment design in Geotechnical Engineering practice. Students will gain an understanding of the theory, design, and analysis necessary to evaluate slope stability, seepage, and earth dam problems.

Prerequisite: CIVE 355.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 558 Containment Systems for Waste Disposal Credits: 3 (3-0-0)

Course Description: Basic principles governing the design of containment systems used in waste disposal applications.

Prerequisite: CIVE 355.

Registration Information: Sections may be offered: Online.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 559 Special Topics in Geotechnical Engineering Credits: 3 (3-0-0)

Course Description: Advanced topics in geotechnical engineering including expansive soils, unsaturated soil mechanics, soil-structure interaction and mining geotechnics.

Prerequisite: CIVE 355.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 560 Advanced Mechanics of Materials Credits: 3 (3-0-0)

Course Description: Analysis of stress and strain failure theory; selected topics in solid mechanics, plate analysis; introduction to elastic stability.

Prerequisite: CIVE 360.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 561 Advanced Steel Behavior and Design Credits: 3 (3-0-0)

Course Description: Behavior of steel components and systems. Design of composite members, plate girders, and bolted and welded connections.

Prerequisite: CIVE 466.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 562 Fundamentals of Vibrations Credits: 3 (3-0-0)

Course Description: Free and forced vibrations of single, two, and multiple degree of freedom systems. Closed-form and numerical solutions.

Prerequisite: CIVE 261 and CIVE 360.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 564 Principles of Structural Load Modeling Credits: 3 (3-0-0)

Course Description: Modern structural load modeling and analysis techniques for buildings and other structures exposed to natural and man-made hazards.

Prerequisite: (CIVE 203) and (CIVE 466 or CIVE 467).

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Credit not allowed for both CIVE 564 and CIVE 581A7.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 565 Finite Element Method Credits: 3 (3-0-0)

Course Description: Theory and application in elasticity, porous flow, heat conduction, and other engineering problems.

Prerequisite: MATH 340.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 566 Intermediate Structural Analysis Credits: 3 (3-0-0)

Course Description: Work and energy concepts, curved members and arches, matrix analysis of linear systems, numerical techniques.

Prerequisite: CIVE 367.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 567 Advanced Concrete Design Credits: 3 (3-0-0)

Course Description: Behavior of reinforced and prestressed concrete members; development of design methods; behavior and design of slabs, shearwalls, and buildings.

Prerequisite: CIVE 467.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 568 Design of Masonry and Wood Structures Credits: 3 (3-0-0)

Course Description: Behavior and design of structures and structural components constructed of masonry or engineered wood.

Prerequisite: CIVE 466 or CIVE 467.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 571 Pipeline Engineering and Hydraulics Credits: 3 (3-0-0)

Course Description: Water supply, wastewater, stormwater, oil and gas, and industrial applications. Emphasis on pressurized water pipelines.

Prerequisite: CIVE 300.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 572 Analysis of Urban Water Systems Credits: 3 (2-2-0)

Course Description: Behavior and interaction of urban water distribution and collection systems; how system state and driving variables affect system performance.

Prerequisite: CIVE 300 and CIVE 401.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 573 Urban Stormwater Management Credits: 3 (3-0-0)

Course Description: Effects of urbanization on watershed hydrology and receiving waters; control practices to mitigate effects using mathematical models.

Prerequisite: (CIVE 322) and (CIVE 401).

Registration Information: Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 574 Civil Engineering Project Management Credits: 3 (3-0-0)

Course Description: Principles of civil engineering project management including proposals, contracts, scheduling, quality assurance, budgeting, and risk management.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 575 Sustainable Water and Waste Management Credits: 3 (3-0-0)

Course Description: The science, engineering, and policy behind sustainable water and waste practices. Sustainable urban water and wastewater management.

Prerequisite: CIVE 322.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 576 Engineering Applications of GIS and GPS Credits: 3 (2-2-0)

Course Description: Integration of GPS and GIS in the planning and decision making process, application to case study.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 577 GIS in Civil and Environmental Engineering Credits: 3 (2-2-0)

Course Description: GIS technology for spatial design/analysis; applications in facilities management, urban infrastructure, water resources, environmental engineering.

Prerequisite: (CIVE 300) and (CIVE 322).

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 578 Infrastructure and Utility Management Credits: 3 (3-0-0)

Course Description: Infrastructure and utility planning, management, and security. Systems approach to life cycle management. Problems, analysis, decision support systems.

Prerequisite: None.

Registration Information: Ten credits of engineering, economics, public administration, or planning courses. Sections may be offered: Online.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 584 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 592A Seminar: Fluid Mechanics and Wind Engineering Credit: 1 (0-0-1)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 592E Seminar: Geotechnical Engineering Credit: 1 (0-0-1)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 592G Seminar: Environmental Engineering Credit: 1 (0-0-1)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 592L Seminar: Space Engineering Credit: 1 (0-0-1)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 596A Group Study: Fluid Mechanics/Wind Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 596B Group Study: Hydraulics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 596C Group Study: Hydrology and Water Resources Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 596D Group Study: Mechanics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 596E Group Study: Geotechnical Engineering Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 596F Group Study: Structures Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 596G Group Study: Environmental Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 596H Group Study: Water Resource Planning and Management Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 596I Group Study: Groundwater Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 596J Group Study: Bioresource and Agricultural Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 604 Fluid Turbulence and Modeling Credits: 3 (3-0-0)****Course Description:** Engineering concepts for transport of pollutants, toxic and flammable species, sand, and snow. Fluid modeling, numerical and analytical approaches.**Prerequisite:** CIVE 300.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring.**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.**CIVE 607 Computational Fluid Dynamics Credits: 3 (3-0-0)****Course Description:** Numerical methods used in computational solutions of hydraulics, environmental and wind engineering problems.**Prerequisite:** CIVE 300.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**CIVE 610 Special Topics in Hydraulics Credits: 3 (3-0-0)****Course Description:** Advanced topics in hydraulics, hydromechanics, environmental hydraulics, and computational hydraulics.**Prerequisite:** CIVE 502.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**CIVE 612 Open Channel Flow Credits: 4 (4-0-0)****Course Description:** Steady, uniform, and non-uniform flow; backwater curves; flow through bridge piers, transitions, and culverts; spatially varied and unsteady flow.**Prerequisite:** CIVE 502.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring.**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.**CIVE 613 River Restoration Design Credits: 3 (3-0-0)****Course Description:** Analysis and design for assisting the recovery of hydrologic, geomorphic, and ecological processes and ecosystem services in degraded river systems.**Prerequisite:** CIVE 401.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**CIVE 622 Risk Analysis of Water/Environmental Systems Credits: 3 (3-0-0)****Course Description:** Risk and uncertainty analysis applied to hydrology, hydraulics, groundwater, water resources, and environmental engineering systems.**Prerequisite:** (CIVE 322) and (STAT 315).**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall.**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.**CIVE 625 Quantitative Eco-Hydrology Credits: 3 (3-0-0)****Course Description:** Quantitative examination of the hydrologic and ecologic mechanisms underlying climate-soil-vegetation and soil moisture dynamics.**Prerequisite:** CIVE 322 or WR 416.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**CIVE 626 Integrated Analysis of Coupled Water Issues Credits: 3 (3-0-0)****Course Description:** Integrative systems and policy analysis applied to coupled human-water systems from interdisciplinary technical and institutional perspectives.**Prerequisite:** GR 304 or WR 304.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.

CIVE 631 Computational Methods in Subsurface Systems Credits: 3 (3-0-0)

Course Description: Numerical flow models; finite difference and finite element methods; parameter identification, stochastic modeling and advanced analytical solutions.

Prerequisite: (MATH 340) and (CIVE 531).

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 638 Groundwater Quality and Contaminant Transport Credits: 3 (3-0-0)

Course Description: Analysis of hydrochemical data. Advection with and without mixing. Retardation of reactive solutes. Design of groundwater quality investigations.

Prerequisite: CIVE 531.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 645 Computer-Aided Water Management and Control Credits: 3 (2-2-0)

Course Description: Real-time management and control of water resource systems; applications of computer control concepts to improve system performance.

Prerequisite: CIVE 546 or CIVE 577.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 655 Advanced Soil Mechanics Credits: 3 (3-0-0)

Course Description: Advanced topics in shear strength and consolidation of soils; stress paths; anisotropy; submergence; partial and radial drainage; numerical methods.

Prerequisite: CIVE 355.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 657 Oral Communication in Geo-Engineering Credit: 1 (1-0-0)

Course Description: Principles of technical oral communication in geotechnical engineering, creating presentations, delivering presentations, listening and responding to questions.

Prerequisite: CIVE 550 or CIVE 556 or CIVE 558 or CIVE 655.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 658 Remediation Systems - Subsurface Contamination Credits: 3 (3-0-0)

Course Description: Applications in geoenvironmental engineering practice involving design of in situ containment and remediation systems.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 659 Advanced Topics in Geo-Engineering Credits: 3 (3-0-0)

Course Description: Advanced topics in geotechnical and geoenvironmental engineering including: (1) chemical diffusion, (2) theoretical saturated and unsaturated soil mechanics, (3) numerical modeling, (4) coupled physico-chemico-mechanical processes.

Prerequisite: CIVE 355.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 661 Stochastic Methods in Structural Dynamics Credits: 3 (3-0-0)

Course Description: Time-dependent excitations are modeled using stochastic processes, enabling prediction of random dynamic response under time-dependent excitations.

Prerequisite: CIVE 562.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both CIVE 661 and CIVE 681A3.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 662 Foundations of Solid Mechanics Credits: 3 (3-0-0)

Course Description: Analysis of stress and strain in solids emphasizing linear elasticity and plasticity; introduction to creep, viscoelasticity, and finite deformations.

Prerequisite: CIVE 560.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 663 Structural Stability Credits: 3 (3-0-0)

Course Description: Structural stability analysis of buildings and other structures; mathematical and mechanics tools for investigating stability of equilibrium.

Prerequisite: CIVE 560 and CIVE 566.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both CIVE 663 and CIVE 680A6.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 664 Mechanics of Fatigue and Fracture Credits: 3 (3-0-0)

Course Description: Fracture mechanics including linear elastic, elastic-plastic, and dynamic fracture; on ductile and cleavage fracture in metals.

Prerequisite: CIVE 560.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 665 Wind Engineering Credits: 3 (3-0-0)

Course Description: Fundamental elements of wind engineering, including wind climatology, structural dynamics, random vibrations, bluff body aerodynamics, wind effects on structures, wind resistant design, modeling, analysis, and simulation tools.

Prerequisite: CIVE 300.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online. Credit not allowed for both CIVE 504 and CIVE 665.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 667 Advanced Structural Analysis Credits: 3 (3-0-0)

Course Description: Analysis program development, application of finite element analysis, computer-assisted analysis, introduction to nonlinear analysis.

Prerequisite: CIVE 566.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 668 Structural Reliability--Theory, Application Credits: 3 (3-0-0)

Course Description: Theory of structural reliability as it relates to analysis, design, construction, and maintenance of structural and mechanical systems.

Prerequisite: CIVE 203 or STAT 315.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both CIVE 563 and CIVE 668.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 695A Independent Study: Fluid Mechanics and Wind Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 695B Independent Study: Hydraulics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 695C Independent Study: Hydrologic Science and Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 695D Independent Study: Mechanics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 695E Independent Study: Geotechnical Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 695F Independent Study: Structures Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 695G Independent Study: Environmental Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 695H Independent Study: Water Resource Planning and Management Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 695J Independent Study: Bioresource and Agricultural Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 695K Independent Study: Water and International Development Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 695L Independent Study: Construction Engineering and Management Credits: Var[1-18] (0-0-0)

Course Description: A) Fluid mechanics and wind engineering. B) Hydraulics. C) Hydrology and water resources. D) Mechanics. E) Geotechnical engineering, F) Structures, G) Environmental Engineering. H) Water resource planning and management, I) Groundwater. J) Bioresource and agricultural engineering. K) Water and International Development, L) Construction Engineering & Management.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 696A Group Study: Fluid Mechanics and Wind Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 696B Group Study: Hydraulics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 696C Group Study: Hydrology and Water Resources Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 696D Group Study: Mechanics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 696E Group Study: Geotechnical Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 696F Group Study: Structures Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 696G Group Study: Environmental Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 696H Group Study: Water Resource Planning and Management Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 696I Group Study: Groundwater Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 696J Group Study: Bioresource and Agricultural Engineering Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 699A Thesis: Fluid Mechanics and Wind Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 699B Thesis: Hydraulics Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 699C Thesis: Hydrologic Science and Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 699D Thesis: Mechanics Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 699E Thesis: Geotechnical Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 699F Thesis: Structures Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 699G Thesis: Environmental Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 699H Thesis: Water Resource Planning and Management Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 699J Thesis: Bioresource and Agricultural Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 699K Thesis: Water and International Development Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 703 Special Topics in Fluid Mechanics Credits: 3 (3-0-0)****Course Description:** Advanced topics in fluid mechanics; associated experimental and numerical techniques.**Prerequisite:** CIVE 502.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall (odd years).**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.**CIVE 716 Erosion and Sedimentation Credits: 3 (3-0-0)****Course Description:** Sediment properties; resistance to flow; incipient motion and bedforms; sediment transport, reservoir sedimentation.**Prerequisite:** CIVE 502.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall.**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.**CIVE 717 River Mechanics Credits: 3 (3-0-0)****Course Description:** Characteristics of rivers, mechanics of sediment and water discharge emphasizing alluvial systems, channel stabilization, control, response.**Prerequisite:** CIVE 716.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.

CIVE 721 Stochastic Water and Environmental Systems Credits: 3 (3-0-0)

Course Description: Stochastic analysis of water and environmental systems. Simulation, forecasting, spatial analysis, modeling changes, stochastic differential equations.

Prerequisite: CIVE 622.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 724 River Basin Morphology Credits: 3 (3-0-0)

Course Description: Analysis of river basin properties including their connections to statistical theories and erosion processes and their hydrologic implications.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 742 Advanced Topics in Environmental Engineering Credits: 3 (2-3-0)

Course Description: Selected topics from current environmental engineering research including molecular methods, water/wastewater treatment, hazardous water remediation.

Prerequisite: CIVE 540.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 751 Soil Dynamics Credits: 3 (3-0-0)

Course Description: Soil behavior under dynamic loading; stress wave propagation; foundation response to vibratory and transient loading; elements of earthquake effects.

Prerequisite: CIVE 355.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 766 Theory of Plates and Shells Credits: 3 (3-0-0)

Course Description: Classical plate, shell and membrane theory for isotropic and layered anisotropic media. Analytic and computational solution techniques.

Prerequisite: CIVE 560.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (even years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 767 Structural Dynamics and Earthquake Engineering Credits: 3 (3-0-0)

Course Description: Analysis, behavior, and design of structural systems subjected to dynamic loads, including earthquakes, wind, and ocean waves.

Prerequisite: CIVE 562 and CIVE 667.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (odd years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 799A Dissertation: Fluid Mechanics and Wind Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 799B Dissertation: Hydraulics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 799C Dissertation: Hydrologic Science and Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 799D Dissertation: Mechanics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 799E Dissertation: Geotechnical Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 799F Dissertation: Structures Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 799G Dissertation: Environmental Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 799H Dissertation: Water Resource Planning and Management Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 799J Dissertation: Bioresource and Agricultural Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 799K Dissertation: Water and International Development Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 799L Dissertation: Construction Engineering and Management Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Major in Civil Engineering

The undergraduate Civil Engineering program provides a solid base in the physical sciences, mathematics, engineering fundamentals, and design and management concepts. The All-University Core Curriculum (AUCC) (<https://catalog.colostate.edu/general-catalog/all-university-core-curriculum/aucc/>) provides a broad background in communication, liberal arts, humanities, and social sciences. In addition to offering courses in the various sub-disciplines of Civil Engineering, the Civil Engineering curriculum covers design practices, information technology, technical communications, project management, and engineering ethics. The program culminates in a year-long, term-based, senior capstone

design experience. Preparation for high-level professional practice is emphasized. The Fundamentals of Engineering (FE) exam is the first step toward registration as a licensed Professional Engineer (PE), an important professional credential for civil engineers. Thus, students in this major are encouraged to take the FE exam prior to graduation.

Participation in internships, volunteer activities, professional organizations, and cooperative education opportunities is highly recommended to enhance practical training and development. Graduates who pursue advanced studies are prepared for higher level technical responsibilities.

The educational outcomes and objectives of this major can be found on the Department of Civil and Environmental Engineering website (<https://www.engr.colostate.edu/ce/>). The Civil Engineering major is accredited by the Engineering Accreditation Commission of ABET (<http://abet.org>).

Potential Occupations

Students who obtain a Bachelor of Science degree in Civil Engineering from CSU are prepared to solve some of the world's most critical climate change, resiliency, and sustainability problems. Graduates will be able to repair, redesign, and rebuild aging infrastructure around the world, from highways and buildings to water systems and disaster prevention. Employment opportunities should be plentiful in the foreseeable future.

Civil engineers are employed in many different organizations, including small and large consulting firms, local, state, and federal governmental agencies, and industrial companies such as construction, petroleum, and aerospace firms. Civil engineers also may find opportunities in specialized design, research, and teaching.

Some example job titles for graduates with a Bachelor of Science degree in Civil Engineering (BSCE) include, but are not limited to, civil engineer, transportation engineer, hydraulic engineer, water resources engineer, structural engineer, geotechnical engineer, geoenvironmental engineer, groundwater engineer, hydrologist, urban/regional planner, infrastructure engineer or manager, contract administrator, construction engineer or manager, building construction inspector, facilities engineer or manager, industrial transportation specialist, industrial designer/engineer, construction materials engineer, irrigation engineer, mining engineer, mining and petroleum research engineer, technical sales engineer, and educator.

Requirements Effective Fall 2023

Freshman

		AUCC	Credits
CHEM 111	General Chemistry I (GT-SC2)	3A	4
CHEM 112	General Chemistry Lab I (GT-SC1)	3A	1
CIVE 102	Introduction to Civil and Environmental Engr		3
CIVE 103	Engineering Graphics and Computing		3
CO 150	College Composition (GT-CO2)	1A	3
MATH 160	Calculus for Physical Scientists I (GT-MA1)	1B	4
MATH 161	Calculus for Physical Scientists II (GT-MA1)	1B	4
PH 141	Physics for Scientists and Engineers I (GT-SC1)	3A	5
Diversity, Equity, and Inclusion		1C	3
Total Credits			30

Sophomore

CHEM 113	General Chemistry II		3
CIVE 202	Numerical Modeling and Optimization		3
CIVE 203	Engineering Systems and Decision Analysis		3
CIVE 260	Engineering Mechanics-Statics		3
CIVE 261	Engineering Mechanics-Dynamics		3
CIVE 360	Mechanics of Solids		3
MATH 261	Calculus for Physical Scientists III		4
MECH 237	Introduction to Thermal Sciences		3
Science Technical Elective (see list below)			3
Historical Perspectives		3D	3
Social and Behavioral Sciences		3C	3
Total Credits			34

Junior

CIVE 300	Fluid Mechanics		3
CIVE 301	Fluid Mechanics Laboratory		1
CIVE 302	Evaluation of Civil Engineering Materials		3

ENGR 550/ MATH 550	Numerical Methods in Science and Engineering	3

Additional Technical Electives – Select 0-6 credits from the following:

BC 351	Principles of Biochemistry	4
CHEM 245	Fundamentals of Organic Chemistry	4
CHEM 341	Modern Organic Chemistry I	3
CON 370	Asphalt Pavement Materials and Construction ¹	3
ERHS 446	Environmental Toxicology	3
GEOL 442	Applied Geophysics	4
GR 323/NR 323	Remote Sensing and Image Interpretation	3
LIFE 320	Ecology	3
MATH 332	Partial Differential Equations	3
MATH 369	Linear Algebra I	3
MIP 300	General Microbiology	3
NR 319	Introduction to Geospatial Science	4

A maximum of one course may be selected from the following:

FIN 305	Fundamentals of Finance ¹	3
MGT 305	Fundamentals of Management ¹	3
MKT 305	Fundamentals of Marketing ¹	3

¹ Students may need to obtain an override or approval from the respective department to take this course.

Major Completion Map

Under Distinctive Requirements for Degree Program:

TO DECLARE MAJOR: Engineering is a controlled major: students are admitted into the major only if they meet established academic standards. Please see competitive major requirements or the advisor in the department for more information.

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus. To qualify for

graduation, Civil Engineering majors must achieve a minimum 2.000 grade point average at CSU in all courses in engineering, mathematics, physics, and chemistry as well as courses taken as technical electives.

Distinctive Requirements for Degree Program:

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus.

Major in Environmental Engineering

Environmental engineers design solutions that prevent future pollution as well as correct existing pollution problems. The undergraduate curriculum in Environmental Engineering is based on a strong foundation in physical, chemical, and biological sciences, mathematics, and engineering fundamentals. The All-University Core Curriculum (AUCC) provides a broad background in communication, liberal arts, humanities, and social sciences. Upper-division courses address engineering applications for prevention and control of air, water, and land pollution. Required courses that are specific to the Environmental Engineering major come from several engineering and science disciplines, including organic and environmental chemistry, microbiology, hydrology, statistics, environmental toxicology, and water treatment. Technical electives provide specialization in a particular area of interest. Seniors complete the same year-long, capstone design experience as Civil Engineering majors, working in teams on real-world engineering problems.

Participation in student professional societies, other campus organizations, internships, and volunteer activities is highly recommended to foster personal growth and professional development. The Fundamentals of Engineering (FE) exam is the first step toward registration as a licensed Professional Engineer (PE), an important professional credential for environmental engineers. Therefore, students are encouraged to take the FE exam prior to graduation. The educational outcomes and objectives for the Environmental Engineering program, along with additional information on this major, are given at Department of Civil and Environmental Engineering website (<https://www.engr.colostate.edu/ce/>). The Environmental Engineering major is accredited by the Engineering Accreditation Commission of ABET (<http://abet.org/>).

Freshman

		AUCC	Credits

CHEM 112	General Chemistry Lab I (GT-SC1)	3A	1
CIVE 102	Introduction to Civil and Environmental Engr		3

Potential Occupations

Students who obtain a Bachelor of Science degree in Environmental Engineering from CSU are well prepared to solve some of the world's most challenging environmental problems, such as providing for sustainable resources of high quality water and air for the world's expanding population in the face of the growing detrimental impacts resulting from climate change, such as prolonged drought and increased famine. The need to solve these challenging problems will contribute to the increased demand for the services of environmental engineers, both in the U.S. and abroad. Environmental engineers typically are employed in designing pollution prevention equipment and systems, designing environmental monitoring systems, implementing both government and industry environmental regulations, designing water and wastewater treatment systems, and restoring ecosystem health.

Graduates of the Environmental Engineering degree program from CSU are qualified for entry-level positions with regulatory agencies, engineering consulting firms, and environmental divisions of large corporations, particularly in the energy and manufacturing industries. Some example job titles for graduates include, but are not limited to, hydraulic engineer, water resources engineer, environmental engineer, geoenvironmental engineer, reclamation engineer, stormwater engineer, floodplain manager, groundwater engineer, hydrologist, urban/regional planner, water infrastructure engineer or manager, contract administrator, facilities engineer or manager, irrigation engineer, ecological engineer, and educator. Graduate study in a specific area of interest is highly recommended to enhance the ability to undertake more advanced technical responsibilities upon graduation.

Minor in Environmental Engineering

In order to permit undergraduate students in any engineering major to take advantage of CSU's environmental expertise, the Department of Civil and Environmental Engineering offers a minor in Environmental Engineering. The minor is designed to broaden the academic background of undergraduate engineering students seeking a career in environmental fields, and to provide fundamentals required to pursue a graduate degree in environmental engineering or related fields.

Requirements Effective Fall 2020

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Required Courses		
Select 9 credits from the following:		9
CIVE 330	Ecological Engineering	
CIVE 438	Fundamentals of Environmental Engr ¹	

CIVE 440	Nonpoint Source Pollution
CIVE 442	Air Quality Engineering
Elective Courses	
Select 12 credits from the following, of which at least 3 credits must be upper-division:	
12	
ATS 350	Introduction to Weather and Climate
ATS 351	Introduction to Weather and Climate Lab
BC 351	Principles of Biochemistry
BZ 471	Stream Biology and Ecology
BZ 472	Stream Biology and Ecology Laboratory
CHEM 245	Fundamentals of Organic Chemistry
CHEM 246	Fundamentals of Organic Chemistry Laboratory
CHEM 341	Modern Organic Chemistry I
CHEM 345	Organic Chemistry I
CIVE 330	Ecological Engineering ²
CIVE 413	Environmental River Mechanics
CIVE 423	Groundwater Engineering
CIVE 437	Wastewater Treatment Facility Design
CIVE 440	Nonpoint Source Pollution ²
CIVE 442	Air Quality Engineering ²

MECH 463	Building Energy Systems
MIP 300	General Microbiology
MIP 432/ESS 432	Microbial Ecology
PHIL 345	Environmental Ethics

Program Total Credits: 21

¹ Students in the Civil Engineering major cannot use CIVE 438 for credit in the minor.
² May be allowed if not taken as a required course.

Graduate Certificate in Hydraulic Design

This certificate will give students an introduction to applied hydraulic design concepts and practices with this three-course series that instills the key core competencies and skills needed to practice as a hydraulic engineer. Students learn how, and why, to apply aspects of hydraulic structures. This certificate program prepares engineers or other professionals in the water, energy, or environmental resources to lead hydraulic design projects from concept creation to implementation. Whenever water must be managed, moved or stored, some form of hydraulic design is required to facilitate these processes.

Learning Outcomes

1. Relating the definition, application, and essential importance of hydraulic engineering to the completion of many civil & environmental engineering projects
2. Extending hydraulic-engineering knowledge substantially beyond the baccalaureate level
3. Understanding the roles of various hydraulic structures and systems
4. Understanding the main hydraulics processes associated with the performance of hydraulic structures and systems
5. Choosing pertinent instrumentation and methods for measuring and monitoring the hydraulics processes associated with hydraulic structures and systems

Students will gain an advanced-level understanding of key concepts and tool sets required in hydraulic engineering as applied in the development of many engineering projects.

Requirements Effective Fall 2023

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Select 9 credits from the following:		9
CIVE 511	Coastal Engineering	
CIVE 512	Irrigation Systems Design	
CIVE 513	Morphodynamic Modeling	
CIVE 514	Hydraulic Structures/Systems	

CIVE 556	Slope Stability, Seepage, and Earth Dams
CIVE 571	Pipeline Engineering and Hydraulics
CIVE 612	Open Channel Flow
CIVE 613	River Restoration Design

Program Total Credits: 9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Tailings Engineering

This certificate will give students an introduction to tailings and mine waste concepts and practices with this four-course series that instills key core competencies and skills needed to practice as a tailings engineer. Students learn how, and why, to apply aspects of tailings engineering. This certificate program prepares engineers or other professionals in the geotechnical and geoenvironmental engineering needed to practice the environmental stewardship of mine waste from planning through implementation to post closure.

Learning Outcomes

- Upon successful completion, students will be able to:
1. Identify fundamental components tailings management.
 2. Define fundamental properties of tailings and mine waste that govern engineering behavior.
 3. Analyze engineering performance of tailings and mine waste storage facilities.
 4. Assess strength, volume change, and fluid flow behavior of tailings.
 5. Collaborate on environmental, social, and governance (ESG) aspects of tailings management.

Program Requirements Effective Fall 2023

Additional coursework may be required due to prerequisites.

Program Total Credits: 12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate program.

Master of Engineering, Plan C, Civil Engineering Specialization

The Master of Engineering, Plan C, Civil Engineering Specialization focuses on enhancing the expertise of working professionals. Engineers who want to further their careers with industrial firms and governmental agencies or those who want to pursue a career in private practice should consider this degree.

Requirements

Effective Summer 2015

Code	Title	Credits
Courses		
Required Courses ¹		9
CIVE Courses		12-15
Electives		
Electives		6-9
Program Total Credits:		30

A minimum of 30 credits are required to complete this program.

¹ Select courses with approval of advisor and graduate committee.

Department of Electrical and Computer Engineering

Office in Engineering Building, Room 104
(970) 491-6600
[engr.colostate.edu/ece/](http://www.engr.colostate.edu/ece/) (<http://www.engr.colostate.edu/ece/>)

Professor Edwin Chong, Department Head
Courtney Johnsrud, Academic Advisor
Elaine Linde, Academic Advisor
Katya Stewart-Sweeney, Graduate Advisor

Undergraduate Majors

- Major in Computer Engineering
 - Aerospace Systems Concentration
 - Embedded and IoT Systems Concentration
 - Networks and Data Concentration
 - VLSI and Integrated Circuits Concentration
- Major in Electrical Engineering
 - Aerospace Concentration
 - Electrical Engineering Concentration
 - Lasers and Optical Engineering Concentration
- Major in Biomedical Engineering combined with Computer Engineering
- Major in Biomedical Engineering combined with Electrical Engineering, Electrical Engineering Concentration
- Major in Biomedical Engineering combined with Electrical Engineering, Lasers and Optical Engineering Concentration

Minor

- Minor in Computer Engineering

Graduate Graduate Programs in Electrical and Computer Engineering

Graduate programs leading to the Master of Science, Master of Engineering (Electrical Engineering and Computer Engineering specializations), and Doctor of Philosophy degrees are offered in several areas. Online Master of Engineering degrees in Electrical Engineering and Computer Engineering are also available. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Electrical and Computer Engineering (<http://www.engr.colostate.edu/ece/>) Department (<http://www.engr.colostate.edu/ece/>).

Certificates

- Aerospace: Satellites, Radars and Remote Sensing
- Computer Systems Engineering
- Data Engineering
- Embedded Systems

Master's Programs

- Master of Science in Computer Engineering, Plan A
- Master of Science in Computer Engineering, Plan B
- Master of Science in Electrical Engineering, Plan A
- Master of Science in Electrical Engineering, Plan B
- Master of Engineering, Plan C, Computer Engineering Specialization
- Master of Engineering, Plan C, Electrical Engineering Specialization

Ph.D.

- Ph.D in Computer Engineering
- Ph.D. in Electrical Engineering

Courses

Electrical and Computer Engineering (ECE)

ECE 101 Foundations in ECE Credit: 1 (1-0-0)

Course Description: Introduction to the field of Electrical and Computer Engineering, including exploration of the diversity of technical areas, application of the engineering method, and investigation of a range of potential careers. Hands-on application of technical concepts through completion of an Arduino-based project.

Prerequisite: None.

Restrictions: Must not be a: Junior, Senior. Must be a: Undergraduate.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 102 Digital Circuit Logic Credits: 4 (3-2-0)

Course Description: Fundamentals of digital circuit logic, including Boolean algebra; Karnaugh maps; multiplexers, decoders, ROMs, PLAS, flip-flops, counters; sequential networks; and state tables.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ECE 103 DC Circuit Analysis Credits: 3 (2-2-0)

Course Description: Basic DC circuit analysis, including the use of relevant software to solve problems and analyze results from projects.

Prerequisite: MATH 159 with a minimum grade of C or MATH 160 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ECE 202 Circuit Theory Applications Credits: 4 (3-3-0)

Course Description: Basic circuit analysis techniques and applications to engineering design problems.

Prerequisite: ECE 103 with a minimum grade of C and MATH 161 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

ECE 204 Introduction to Electrical Engineering Credits: 3 (3-0-0)

Course Description: Basic analog and digital circuits and systems; introduction to electromechanical devices.

Prerequisite: MATH 161 and PH 142.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 232 Introduction to Project Practices Credit: 1 (1-0-0)

Course Description: Development of project skills and professionalism within the electrical and computer engineering (ECE) discipline through individual and group project work guided by ECE industry leaders.

Prerequisite: ECE 202, may be taken concurrently or ECE 395B, may be taken concurrently or ECE 495B, may be taken concurrently.

Registration Information: Credit not allowed for both ECE 232 and ECE 280A1.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 251 Introduction to Microcontrollers and IoT Credits: 4 (3-3-0)

Course Description: Microprocessor organization, Internet of Things (IoT) platforms, microprocessor coding using C and assembly language, I/O techniques, real-time interfaces, and applications.

Prerequisite: ECE 102 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ECE 303 Introduction to Communications Principles Credits: 3 (3-0-0)

Also Offered As: STAT 303.

Course Description: Basic concepts in design and analysis of communication systems.

Prerequisite: MATH 340, may be taken concurrently and MATH 261 with a minimum grade of C.

Registration Information: Sections may be offered: Online. Credit not allowed for both ECE 303 and STAT 303.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 311 Linear System Analysis I Credits: 3 (3-0-0)

Course Description: Continuous and discrete time signals and systems representations in time and frequency domain; time convolution.

Prerequisite: None.

Registration Information: (ECE 202 with a minimum grade of C; ECE 331 or concurrent registration; ECE 341 or concurrent registration; MATH 340 with a minimum grade of C) or (ECE 202 with a minimum grade of C; MATH 340 with a minimum grade of C and (CS 356 or concurrent registration) or ECE 451 or concurrent registration or ECE 528 or concurrent registration).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 312 Linear System Analysis II Credits: 3 (3-0-0)

Course Description: Laplace and Z transforms, applications to modulation, filtering and sampling, state space representation.

Prerequisite: ECE 311 with a minimum grade of C.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 331 Electronics Principles I Credits: 4 (3-3-0)

Course Description: Discrete component semiconductor devices, characteristics and applications. Rectifier circuits, single-stage and multi-stage amplifiers.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory. (ECE 202 with a minimum grade of C; ECE 311, may be taken concurrently; ECE 341, may be taken concurrently; MATH 340 with a minimum grade of C; PH 142 with a minimum grade of C) or (ECE 202 with a minimum grade of C; ECE 311, may be taken concurrently; ECE 451, may be taken concurrently; MATH 340 with a minimum grade of C; PH 142 with a minimum grade of C; CS 356, may be taken concurrently or ECE 528, may be taken concurrently).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

ECE 332 Electronics Principles II Credits: 4 (3-3-0)

Course Description: Discrete and integrated-circuit amplifiers-frequency response, negative feedback.

Prerequisite: ECE 331 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ECE 340 Electromagnetics for Computer Engineering Credits: 3 (3-0-0)

Course Description: Fundamentals of electromagnetic theory for computer engineering; applications of electromagnetics in VLSI design, silicon photonics, radar, antenna, and communication; vector analysis; static electromagnetic fields; boundary conditions; time-varying electromagnetic field; Maxwell's equations; connection between circuit theory and electromagnetics; waveguides, and fiber optics.

Prerequisite: ECE 202 with a minimum grade of C and MATH 161 with a minimum grade of C.

Registration Information: Junior standing. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 341 Electromagnetic Fields and Devices I Credits: 3 (3-0-0)

Course Description: Basic concepts of electrostatic and magnetostatic fields.

Prerequisite: PH 142 with a minimum grade of C and MATH 340 with a minimum grade of C and ECE 202 with a minimum grade of C and ECE 311, may be taken concurrently and ECE 331, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 342 Electromagnetic Fields and Devices II Credits: 3 (3-0-0)

Course Description: Basic concepts of time varying electromagnetic fields and transmission lines.

Prerequisite: ECE 341 with a minimum grade of C.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 395A Independent Study Credits: Var[1-6] (0-0-0)

Course Description: Development and implementation of a project in an Electrical and Computer Engineering field of special interest under the supervision of a faculty member.

Prerequisite: None.

Registration Information: Contact department for registration. May be taken up to 6 times for credit.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ECE 395B Independent Study: Open Option Project Credits: Var[1-6] (0-0-0)

Course Description: Students will work on an array of different electrical and computer engineering projects independently or under the guidance of industry mentors. Projects will be initiated by students or outside sources and will consist of small-scale service/outreach projects or market-driven projects that simulate a business environment.

Prerequisite: None.

Registration Information: Contact department for registration. May be taken up to 6 times for credit.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

ECE 395C Independent Study : Vertically Integrated Project Credits: Var[1-6] (0-0-0)

Course Description: Explore and develop comprehensive applications of electrical and computer engineering technologies as a member of a team, especially as they relate to active research areas of CSU faculty members.

Prerequisite: None.

Registration Information: Contact department for registration. May be taken up to 6 times for credit.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

ECE 401 Senior Design Project I Credits: 3 (1-4-0)

Course Description: Advanced project, seminar series, formal written report, and oral presentation.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory. (ECE 312 with a minimum grade of C or (PH 314 with a minimum grade of C and PH 353 with a minimum grade of C); ECE 332 with a minimum grade of C; ECE 342 with a minimum grade of C) or (ECE 311 with a minimum grade of C; 4 courses from the following: CS 356, ECE 312 with a minimum grade of C, ECE 331 with a minimum grade of C, ECE 332 with a minimum grade of C, ECE 450 and ECE 451, ECE 452, ECE 456, ECE 528).

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ECE 402 Senior Design Project II Credits: 3 (1-4-0)

Course Description: Advanced project, formal report, and oral presentation.

Prerequisite: ECE 401.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ECE 403 Intro to Optical Techniques in Biomedical Eng Credits: 3 (3-0-0)
Also Offered As: BIOM 403.

Course Description: Engineering design principles of optical characterization techniques for biomedical systems, including optical spectroscopy and microscopy of biomolecules and tissues.

Prerequisite: CHEM 111 and PH 142 with a minimum grade of C.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: BIOM 403, BIOM 481A3, ECE 403, or ECE 481A3.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 404 Experiments in Optical Electronics Credits: 2 (1-3-0)

Course Description: Experiments in optical electronics and lasers.

Prerequisite: None.

Registration Information: Must have concurrent registration in ECE 441. Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 411 Control Systems Credits: 3 (3-0-0)

Course Description: Control system analysis and design for linear systems: stability and performance; time and frequency domain techniques.

Prerequisite: ECE 312 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 412 Digital Control and Digital Filters Credits: 3 (3-0-0)

Course Description: FIR and IIR digital filter design, analog and digital invariance and direct digital control algorithms, hybrid systems analysis.

Prerequisite: ECE 411.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 415 Semiconductor Physics and Junctions Credits: 2 (2-0-0)

Course Description: The fundamental physics of semiconductor band structure and of the modifications that occur by doping. These fundamental concepts allow for developing the model of a pn junction diode, which is the basic unit of electronic devices.

Prerequisite: (MATH 340 with a minimum grade of C or MATH 345 with a minimum grade of C) and (PH 142 with a minimum grade of C).

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Credit allowed for only one of the following: ECE 415, ECE 471A, or ECE 471B.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 421 Telecommunications I Credits: 3 (3-0-0)

Course Description: Digital communication (source coding; modulation and detection; channel coding), analog communication (modulation).

Prerequisite: (ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C) and (ECE 312 with a minimum grade of C).

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 430 Fourier and Wavelet Analysis with Apps Credits: 3 (3-0-0)

Also Offered As: MATH 430.

Course Description: Fourier analysis and transforms, FFTs; sampling theorems, computational algorithms; wavelets; applications to communication, imaging, and compression.

Prerequisite: MATH 340 or MATH 345.

Registration Information: Credit not allowed for both ECE 430 and MATH 430.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 431 Biomedical Signal and Image Processing Credits: 3 (3-0-0)

Also Offered As: BIOM 431.

Course Description: Principles, features and mathematical processing of biomedical signals and images including interference and noise filtering and feature enhancement.

Prerequisite: (ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C) and (ECE 311 with a minimum grade of C and PH 142 with a minimum grade of C).

Registration Information: Sections may be offered: Online. Credit not allowed for both BIOM 431 and ECE 431.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 441 Optical Electronics Credits: 3 (3-0-0)

Course Description: Concepts of modern physics, optical properties of atoms, light sources, lasers, optical detectors, optical cavities, and optical fiber transmission.

Prerequisite: ECE 340 with a minimum grade of C or ECE 342 with a minimum grade of C.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 444 Antennas and Radiation Credits: 3 (3-0-0)

Course Description: Retarded potential theory, antenna arrays, long wire antennas, dipoles, aperture antennas, receiving antennas.

Prerequisite: ECE 340 with a minimum grade of C or ECE 342 with a minimum grade of C.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 445 Digital Logic Synthesis Credits: 3 (3-0-0)

Course Description: Application of a top-down design methodology to optimize circuits to achieve better power, performance, timing, and area. Advanced concepts in logic optimization, simulation and testing, and synchronous and asynchronous circuits, as well as a comprehensive review of high-level hardware description languages and the extraction of gate-level circuits from these representations.

Prerequisite: ECE 102 with a minimum grade of C.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit not allowed for both ECE 445 and ECE 480A4.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 450 Digital System Design Laboratory Credit: 1 (0-3-0)

Course Description: Small digital circuits are designed and simulated using very high speed hardware description language and synthesis tools.

Prerequisite: None.

Registration Information: Must have concurrent registration in ECE 451.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 451 Digital System Design Credits: 3 (3-0-0)

Course Description: State machines with PLAs as controllers and small computers; timing and race elimination considerations; state and microprogramming implementation.

Prerequisite: ECE 102 with a minimum grade of C and ECE 202 with a minimum grade of C.

Registration Information: Concurrent registration in ECE 450.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 452 Computer Organization and Architecture Credits: 3 (3-0-0)

Course Description: CPU design; microarchitecture; data path and control path; pipelining; memory system; I/O system; program optimization by system software/hardware.

Prerequisite: CS 250 with a minimum grade of C or CS 270 with a minimum grade of C or ECE 251 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 455 Introduction to Robot Programming/Simulation Credits: 3 (3-0-0)

Course Description: Fundamentals of simulating and programming of workcells that include robots and other articulated objects.

Prerequisite: CS 152 with a minimum grade of C or CS 162 with a minimum grade of C or CS 163 with a minimum grade of C or CS 164 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 456 Computer Networks Credits: 4 (3-3-0)

Course Description: Circuit/packet switching, protocols, LAN/MAN, TCP/IP, error correction, wireless LANS, mobile networks.

Prerequisite: (CS 152 with a minimum grade of C or CS 162 with a minimum grade of C or CS 163 with a minimum grade of C or CS 164 with a minimum grade of C) and (ECE 251 with a minimum grade of C) and (ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C) and (ECE 311 with a minimum grade of C).

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 457 Fourier Optics Credits: 3 (3-0-0)

Course Description: Introduction to optical systems for signal and information processing with emphasis on Fourier optics.

Prerequisite: ECE 311 with a minimum grade of C and ECE 342 with a minimum grade of C.

Registration Information: Sections may be offered: Online. Credit not allowed for both ECE 457 and ECE 502.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 461 Power Systems Credits: 4 (3-2-0)

Course Description: Multi-phase power systems; power generation, transformer design, power distribution, power costs.

Prerequisite: ECE 332 with a minimum grade of C.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Must register for lecture and laboratory.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 465 Electrical Energy Generation Technologies Credits: 3 (3-0-0)

Course Description: Various electrical energy generation alternatives. Comparisons based on cost, reliability, availability and environmental impact.

Prerequisite: ECE 202 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 466 Integrated Lighting Systems Credits: 3 (3-0-0)

Course Description: Technical underpinnings of light sources, their associated heat sink fixtures and power electronics drivers.

Prerequisite: ECE 331.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 495A Independent Study Credits: Var[1-6] (0-0-0)

Course Description: Development and implementation of a project in an electrical and computer engineering field of special interest under the supervision of a faculty member.

Prerequisite: None.

Registration Information: Junior standing. Contact department for registration. May be taken up to 6 times for credit.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ECE 495B Independent Study: Open Option Project Credits: Var[1-6] (0-0-0)

Course Description: Students will work on an array of different electrical and computer engineering projects independently or under the guidance of industry mentors. Projects will be initiated by students or outside sources and will consist of small-scale service/outreach projects or market-driven projects that simulate a business environment.

Prerequisite: None.

Registration Information: Junior standing. Contact department for registration. May be taken up to 6 times for credit.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

ECE 495C Independent Study: Vertically Integrated Projects Credits: Var[1-6] (0-0-0)

Course Description: Explore and develop comprehensive applications of electrical and computer engineering technologies as a member of a team, especially as they relate to active research areas of CSU faculty members.

Prerequisite: None.

Registration Information: Junior standing. Contact department for registration. May be taken up to 6 times for credit.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

ECE 502 Advanced Fourier Optics Credits: 4 (3-0-1)

Course Description: Introduction to optical systems for signal and information processing with emphasis on Fourier optics. Engineering design principles, models, and computational techniques for forward optical imaging and optical image reconstruction.

Prerequisite: ECE 311 with a minimum grade of C and ECE 342 with a minimum grade of C and MATH 340 with a minimum grade of C.

Registration Information: Junior standing. Must register for lecture and recitation. Sections may be offered: Online. Credit not allowed for both ECE 457 and ECE 502.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 503 Ultrafast Optics Credits: 3 (3-0-0)

Course Description: Principles and theory behind ultrashort pulse generation, amplification, and manipulation.

Prerequisite: (ECE 341) and (ECE 342 or ECE 343).

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 504 Physical Optics Credits: 3 (3-0-0)

Course Description: Classical optics from first principles; basic electromagnetic theory to wave and geometric guides.

Prerequisite: ECE 342 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 505 Nanostructures: Fundamentals and Applications Credits: 3 (3-0-0)

Course Description: Fundamentals of quantum confinement; nanostructures optical properties; fabrication and characterization.

Prerequisite: ECE 342 and PH 353.

Registration Information: Sections may be offered: Online.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 506 Optical Interferometry and Laser Metrology Credits: 3 (3-0-0)

Course Description: High resolution metrology techniques utilizing and interferometric sensors using lasers and other light sources.

Prerequisite: ECE 342 and ECE 441.

Registration Information: Sections may be offered: Online.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 507 Plasma Physics and Applications Credits: 3 (3-0-0)

Course Description: Fundamental principles and industrial applications of plasmas.

Prerequisite: ECE 342.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 512 Digital Signal Processing Credits: 3 (3-0-0)

Course Description: Discrete time signals and systems, digital filter design and implementation, fast algorithms, quantization effects.

Prerequisite: ECE 312 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 513 Digital Image Processing Credits: 3 (3-0-0)

Course Description: Image acquisition and display systems, image enhancement, restoration and encoding, image analysis; real-life applications.

Prerequisite: (ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C) and (ECE 312 with a minimum grade of C).

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 514 Applications of Random Processes Credits: 3 (3-0-0)

Course Description: Bit-error rates, signal-to-noise power ratios, signal detection, signal estimation, Wiener filters, and applications of these concepts in electrical and computer engineering.

Prerequisite: (ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C) and (ECE 312 with a minimum grade of C).

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 516 Information Theory Credits: 3 (3-0-0)

Course Description: Information measures and their properties; lossless data compression; channel capacity; channel coding theorem; rate distortion theorem.

Prerequisite: (ECE 303 or STAT 303) and (ECE 421).

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 517 Advanced Optical Imaging Credits: 3 (3-0-0)

Also Offered As: BIOM 517.

Course Description: Engineering design principles of advanced optical imaging techniques and image formation theory.

Prerequisite: ECE 342 with a minimum grade of C or MATH 340 with a minimum grade of C or MATH 345 with a minimum grade of C.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: BIOM 517, BIOM 581B7, ECE 517 or ECE 581B7.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 518 Biophotonics Credits: 3 (3-0-0)**Also Offered As:** BIOM 518.**Course Description:** Engineering design principles of optical instrumentation for medical diagnostics. Light propagation and imaging in biological tissues.**Prerequisite:** ECE 342 with a minimum grade of C or ECE 457 with a minimum grade of C or MATH 340 with a minimum grade of C or MATH 345 with a minimum grade of C.**Restriction:** Must not be a: Freshman, Sophomore.**Registration Information:** Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: BIOM 518, BIOM 581A9, ECE 518 or ECE 581A9.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 519 Network Centric Systems Credits: 3 (2-3-0)****Course Description:** Network science concepts, fundamentals of network-centric systems, and case studies.**Prerequisite:** (CS 165 with a minimum grade of C) and (DSCI 369 with a minimum grade of C or ECE 303 with a minimum grade of C or ECE 312 with a minimum grade of C or ECE 421 with a minimum grade of C or ECE 456 with a minimum grade of C or MATH 369 with a minimum grade of C or STAT 303 with a minimum grade of C).**Restriction:** Must not be a: Freshman, Sophomore, Junior.**Registration Information:** Senior standing. Must register for lecture and laboratory. Sections may be offered: Online. Credit not allowed for both ECE 519 and ECE 581B8.**Term Offered:** Spring (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 520 Optimization Methods--Control and Comm. Credits: 3 (3-0-0)****Course Description:** Linear and nonlinear optimization theory and methods; applications in systems, control, and communication.**Prerequisite:** (DSCI 369 or MATH 369) and (MATH 317).**Restriction:** Must not be a: Freshman, Sophomore.**Registration Information:** Sections may be offered: Online.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 521 Satellite Communication Credits: 3 (3-0-0)****Course Description:** Principles of satellite communication systems engineering.**Prerequisite:** ECE 421.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 522 Random Walks Credits: 3 (3-0-0)****Also Offered As:** MATH 522.**Course Description:** Mathematical aspects of random walks and diffusion processes. Stochastic modeling of complex systems.**Prerequisite:** (ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C or STAT 315 with a minimum grade of C) and (ECE 312 with a minimum grade of C or ECE 457 with a minimum grade of C or MATH 469 with a minimum grade of C).**Restriction:** Must not be a: Freshman, Sophomore.**Registration Information:** Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: ECE 522, ECE 681A2, and MATH 522.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 523 Electronic Properties of Materials Credits: 3 (3-0-0)****Also Offered As:** MSE 523.**Course Description:** Introduction to the electronic properties of materials, including band structures, quantum mechanics and optical characteristics.**Prerequisite:** MATH 340 or MATH 345.**Restriction:** Must not be a: Freshman, Sophomore, Junior.**Registration Information:** Senior standing. Credit allowed for only one of the following: ECE 523, ECE 580B7, ECE 580B8, ECE 580C2, MSE 523, MSE 580B7, MSE 580B8, MSE 580C2.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 526 Biological Physics Credits: 3 (3-0-0)****Also Offered As:** BIOM 526.**Course Description:** Mathematical and physical modeling of biological systems. Mass transport in cellular environments. Electrical/mechanical properties of biomolecules.**Prerequisite:** (MATH 340 or MATH 345) and (PH 122 or PH 142).**Restriction:** Must not be a: Freshman, Sophomore.**Registration Information:** Credit not allowed for both BIOM 526 and ECE 526. Sections may be offered: Online.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 527A Biosensing: Cells as Circuits Credit: 1 (1-0-0)****Also Offered As:** BIOM 527A.**Course Description:** Treatment of biological cells as circuits and their electrical time-dependent function and frequency-dependent impedance. Topics include the Hodgkin-Huxley circuit model, diffusion equation, and modeling action potential propagation.**Prerequisite:** (BIOM 101 or LIFE 102) and (CHEM 111) and (MATH 340 or MATH 345) and (PH 142).**Registration Information:** Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527A, BIOM 581B1, ECE 527A, or ECE 581B1.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.

ECE 527B Biosensing: Signal and Noise in Biosensors Credit: 1 (1-0-0)
Also Offered As: BIOM 527B.

Course Description: Quantitative treatment of concepts of noise, interference and signal including noise types and spectra, filtering, and limitations imposed by noise. Example applications to Biosensors.

Prerequisite: (MATH 340, may be taken concurrently or MATH 345, may be taken concurrently) and (PH 142).

Registration Information: Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527B, BIOM 581B2, ECE 527B, or ECE 581B2.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 527C Biosensing: Sensor Circuit Fundamentals Credit: 1 (1-0-0)

Also Offered As: BIOM 527C.

Course Description: Introduction to circuit concepts used in sensors, including review of basic circuit elements of resistors, capacitors, and MOS (Metal-Oxide-Semiconductor transistors) elements. Fundamentals of the application of MOS circuits for signal conditioning and amplification and how sensor's backend signal processing is carried out after the sensor signal transduction stage.

Prerequisite: (BIOM 101 or LIFE 102) and (MATH 340, may be taken concurrently or MATH 345, may be taken concurrently) and (PH 142).

Registration Information: Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527C, BIOM 581B3, ECE 527C, or ECE 581B3.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 527D Biosensing: Electrochemical Sensors Credit: 1 (1-0-0)

Also Offered As: BIOM 527D.

Course Description: Introduction to the electrochemistry, and applications of electrochemical methods, used for detection of certain classes of chemicals and molecules.

Prerequisite: (BIOM 101 or LIFE 102) and (CHEM 111) and (MATH 255 or MATH 261) and (PH 142).

Registration Information: Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527D, BIOM 581B5, ECE 527D, or ECE 581B5.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 527E Biosensing: Affinity Sensors Credit: 1 (1-0-0)

Also Offered As: BIOM 527E.

Course Description: Fundamentals of affinity sensor application and design, including optical and electrical approaches and technologies.

Prerequisite: (BIOM 101 or LIFE 102) and (CHEM 111) and (MATH 340, may be taken concurrently or MATH 345, may be taken concurrently) and (PH 142).

Registration Information: Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527E, BIOM 581B4, ECE 527E, or ECE 581B4.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 527F Biosensing: Biophotonic Sensors Using Refractive Index Credit: 1 (1-0-0)

Also Offered As: BIOM 527F.

Course Description: Operating principles of optical biosensors based on changes in refractive index, such as thin films, ring-resonators, Mach-Zehnder interferometers, and other evanescent wave sensors. Basic supporting optical concepts, including thin-film interference, optical waveguides and evanescent waves.

Prerequisite: (BIOM 527E or ECE 527E) and (MATH 340, may be taken concurrently or MATH 345, may be taken concurrently) and (PH 142).

Registration Information: Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527F, BIOM 581B6, ECE 527F, or ECE 581B6.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 528 Embedded Systems and Machine Learning Credits: 4 (3-2-0)

Also Offered As: CS 528.

Course Description: Machine learning for embedded computing systems; hardware/software optimizations for machine learning; hardware accelerators for deep learning; data reuse and sharing techniques; memory and network design for machine learning acceleration; anomaly detection and adversarial learning; advanced applications of machine learning in embedded applications.

Prerequisite: CS 250 with a minimum grade of C or CS 270 with a minimum grade of C or ECE 251 with a minimum grade of C.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Must register for lecture and laboratory. Sections may be offered: Online. Credit allowed for only one of the following: CS 528, CS 581C1, ECE 528, or ECE 581C1.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 532 Dynamics of Complex Engineering Systems Credits: 3 (3-0-0)

Also Offered As: SYSE 532.

Course Description: Higher-level behavior and issues that emerge from interaction between components in complex socio-technical systems.

Prerequisite: ECE 501, may be taken concurrently or ENGR 501, may be taken concurrently or SYSE 501, may be taken concurrently.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: ECE 532, ENGR 532, or SYSE 532.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 534 Analog Integrated Circuit Design Credits: 4 (3-2-0)

Course Description: Design methods for state-of-the-art analog integrated circuits including CMOS op-amps, comparators, and phase-locked loops.

Prerequisite: ECE 332 with a minimum grade of C.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Must register for lecture and laboratory.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 536 RF Integrated Circuit Design Credits: 3 (3-0-0)

Course Description: Design of state-of-the-art ICs for RF applications including CMOS low-noise amplifiers, voltage-controlled oscillators, mixers and power amplifiers.

Prerequisite: ECE 332.

Registration Information: Sections may be offered: Online.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 537 Biomedical Signal Processing Credits: 3 (3-0-0)

Also Offered As: BIOM 537.

Course Description: Modeling and classification of biosignals (e.g. EEG, ECG, EMG), covering adaptive filtering, wavelets, support vector machines, neural networks, and handling problems with overfitting of noisy data.

Prerequisite: ECE 303 or ECE 311 or MATH 340 or STAT 303.

Registration Information: Sections may be offered: Online. Credit not allowed for both BIOM 537 and ECE 537.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 538 Design/Analysis of Analog Digital Interface Credits: 4 (3-3-0)

Course Description: Topics of interface circuit designs analog and digital interfaces. Basic concept of designing and analyzing analog and digital interface circuits.

Prerequisite: ECE 312 with a minimum grade of C and ECE 332 with a minimum grade of C and ECE 451 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 540 Computational Electromagnetics Credits: 3 (3-0-0)

Course Description: Computational techniques for practical applications in electromagnetic fields, devices, scattering, propagation, and radiation.

Prerequisite: ECE 340 with a minimum grade of C or ECE 342 with a minimum grade of C.

Restriction: Must not be a: Freshman, Sophomore.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 541 Applied Electromagnetics Credits: 3 (3-0-0)

Course Description: High- and low-frequency electromagnetics, wave propagation, radiation, and scattering, wireless and guided-wave systems, bioelectromagnetics.

Prerequisite: ECE 340 with a minimum grade of C or ECE 342 with a minimum grade of C.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Credit not allowed for both ECE 541 and ECE 580B5.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 544 Silicon Photonics for Computing Systems Credits: 3 (3-0-0)

Course Description: Introduction to the modeling, analysis, design, and applications of silicon photonic devices and circuits.

Prerequisite: (PH 141) and (ECE 303 with a minimum grade of C or STAT 301 with a minimum grade of C or STAT 303 with a minimum grade of C or STAT 315 with a minimum grade of C).

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit not allowed for both ECE 544 and ECE 580B6.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 545 FPGA Signal Processing/Software-Defined Radio Credits: 3 (3-0-0)

Course Description: Theory, design principles, and implementation of digital signal processing algorithms on Field Programmable Gate Array (FPGA) devices, and their applications, ranging from telecommunications to scientific equipment.

Prerequisite: ECE 312 with a minimum grade of C and ECE 451 with a minimum grade of C.

Registration Information: Sections may be offered: Online. Credit not allowed for both ECE 545 and ECE 580B4.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 546 Laser Fundamentals and Devices Credits: 3 (3-0-0)

Course Description: Amplification of light, laser excitation mechanisms, laser devices, characteristics and design.

Prerequisite: ECE 441.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 548 Microwave Theory and Component Design Credits: 3 (3-0-0)

Course Description: Fundamentals of microwave engineering, components, devices, and measurements.

Prerequisite: ECE 342 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 549 Radar Systems and Design Credits: 3 (3-0-0)

Course Description: Fundamental ideas of radar operation and basic design of various radar types including current topics.

Prerequisite: ECE 340 with a minimum grade of C or ECE 342 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 554 Computer Architecture Credits: 3 (3-0-0)

Course Description: Fundamentals of computer design, multiprocessors and thread-level parallelism, storage systems, and interconnection networks and clusters.

Prerequisite: ECE 452 or CS 470.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 555 Advanced Robotics–Redundancy & Optimization Credits: 3 (3-0-0)

Course Description: Advanced analysis, design, and control of kinematically redundant articulated objects, including both robotic and biological systems.

Prerequisite: (ECE 455) and (DSCI 369 or MATH 369).

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 556 AI for Radar and Remote Sensing Credits: 3 (3-0-0)

Course Description: Radar and remote sensing using techniques from artificial intelligence (AI) and data science, with applications to areas such as precipitation observation, identification, classification, estimation, and prediction.

Prerequisite: (CS 152 with a minimum grade of C or CS 162 with a minimum grade of C or CS 163 with a minimum grade of C or CS 164 with a minimum grade of C) and (ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C) and (DSCI 369 with a minimum grade of C or MATH 369 with a minimum grade of C).

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit not allowed for both ECE 556 and ECE 580C3.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 558 Manycore System Design Using Machine Learning Credits: 3 (3-0-0)

Course Description: Fundamentals of manycore system design and electronic design automation (EDA). Design problems created by increased complexity and specialization of modern manycore systems and an exploration of traditional solutions, their deficiencies, and how machine learning can be utilized to address these problems.

Prerequisite: CS 470 with a minimum grade of C or ECE 452 with a minimum grade of C.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit not allowed for both ECE 558 and ECE 580B9.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 560 Foundations of Fine-Grain Parallelism Credits: 4 (3-2-0)

Also Offered As: CS 560.

Prerequisite: CS 475.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 561 Hardware/Software Design of Embedded Systems Credits: 4 (3-3-0)

Also Offered As: CS 561.

Course Description: Embedded systems design including system level modeling, design space exploration, hardware-software partitioning, high level synthesis.

Prerequisite: CS 250 with a minimum grade of C or CS 270 with a minimum grade of C or CS 470 or ECE 251 with a minimum grade of C or ECE 452.

Registration Information: Must register for lecture and laboratory. Credit not allowed for both CS 561 and ECE 561. Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 562 Power Electronics I Credits: 3 (3-0-0)

Course Description: Switch mode and resonant converters, control using switch averaged dynamic models, modeling of all circuit components including sources, loads, and switches.

Prerequisite: ECE 332 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 565 Electrical Power Engineering Credits: 3 (3-0-0)

Also Offered As: ENGR 565.

Course Description: Analysis of power systems in terms of current, voltage, and active/reactive power; introduction of computer-aided tools for power systems.

Prerequisite: (ECE 332 with a minimum grade of C) and (ECE 340 with a minimum grade of C or ECE 342 with a minimum grade of C).

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Sections may be offered: Online. Credit not allowed for both ECE 565 and ENGR 565.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 566 Grid Integration of Wind Energy Systems Credits: 3 (3-0-0)

Course Description: Aspects of integration of wind energy conversion systems (WECS) to electric power transmission grids.

Prerequisite: ECE 461 or ECE 565.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Sections may be offered: Online. Credit not allowed for both ECE 566 and ENGR 566.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 569 Micro-Electro-Mechanical Devices Credits: 3 (3-0-0)

Also Offered As: MECH 569.

Course Description: Micro-electro-mechanical processes and applications in sensors, optics, and structures.

Prerequisite: ECE 331 with a minimum grade of C or MECH 344 with a minimum grade of C.

Registration Information: Credit not allowed for both ECE 569 and MECH 569. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 571 VLSI System Design Credits: 4 (3-2-0)

Course Description: Design of integrated circuits at the system level, including cell design, digital systems, parallel architecture, and systolic arrays.

Prerequisite: ECE 450 and ECE 451.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 572 Semiconductor Transistors Credit: 1 (1-0-0)

Course Description: Quantitative analysis of electric field, carrier and current distributions in MOSFETs and bipolar junction transistors; scaling, non-idealities.

Prerequisite: (ECE 331 with a minimum grade of C) and (ECE 415, may be taken concurrently or ECE 471B).

Registration Information: This is a partial semester course.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 573 Semiconductor Optoelectronics Laboratory Credits: 3 (1-4-0)

Course Description: Experimental characterization techniques for semiconductor optoelectronic devices and design and testing of related electronic circuits.

Prerequisite: ECE 415.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Must register for lecture and laboratory.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 574 Optical Properties in Solids Credits: 3 (3-0-0)

Course Description: Light propagation and interaction with materials; linear and non-linear optical properties.

Prerequisite: ECE 441 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 578 Satellite Data Analysis Credits: 3 (3-0-0)

Course Description: Broad exposure to a variety of traditional and modern statistical methods for filtering and analyzing satellite data and imagery. Topics include fundamentals in statistics, time-series analysis, filter design, image processing techniques, spatial analysis of data fields such as principal component analysis, cluster analysis, etc. Solve common data analysis problems in satellite remote sensing.

Prerequisite: (ECE 303 with a minimum grade of C or STAT 301 with a minimum grade of C or STAT 303 with a minimum grade of C or STAT 315 with a minimum grade of C) and (ECE 311 with a minimum grade of C).

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 579 Global Navigation Satellite Systems Credits: 3 (3-0-0)

Course Description: Provides a fundamental understanding of Global Navigation Satellite Systems (GNSS), including GNSS satellite constellations, satellite orbits, ground monitoring stations functions, GNSS receivers, GNSS measurement errors and correction techniques, recent advancements in GPS and other international GNSS, and applications of GNSS. Learn to use a variety of GNSS receivers to collect data, to compute receiver position, velocity, and time, and to analyze GNSS data.

Prerequisite: (CS 152 with a minimum grade of C or CS 162 with a minimum grade of C or CS 163 with a minimum grade of C or CS 164 with a minimum grade of C) and (ECE 311 with a minimum grade of C and MATH 261 with a minimum grade of C and PH 142 with a minimum grade of C).

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit not allowed for both ECE 579 and ECE 580C5.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 587 Internship Credits: Var[1-6] (0-0-0)

Course Description: Internship experience in Electrical or Computer Engineering.

Prerequisite: ECE 312 or ECE 456.

Registration Information: Graduate standing.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

ECE 604 Nonlinear Optics Credits: 3 (3-0-0)

Course Description: Principles of nonlinear optics, symmetry properties, multiple order nonlinear phenomenon, and nonlinear spectroscopy.

Prerequisite: ECE 504 and PH 451.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 611 Nonlinear Control Systems Credits: 3 (3-0-0)

Course Description: Controller analysis and design for nonlinear systems.

Prerequisite: ECE 412.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 612 Robust Control Systems Credits: 3 (3-0-0)

Course Description: Introduction to modern robust control theory techniques for analysis and design of large-scale uncertain multivariable systems.

Prerequisite: ECE 411.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 614 Principles of Digital Communications Credits: 3 (3-0-0)

Course Description: Information theory, optimal receiver design, waveform coding, error correcting coding.

Prerequisite: ECE 514.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 641 Electromagnetics Credits: 3 (3-0-0)

Course Description: Electrostatics, magnetostatics, boundary value problems, EM induction, quasi-statics, Maxwell's equations.

Prerequisite: ECE 342.

Restriction: Must be a: Graduate, Professional.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 642 Time Harmonic Electromagnetics Credits: 3 (3-0-0)

Course Description: Maxwell's equations, radiation, boundary value problem, dyadic Green's functions, scattering theory.

Prerequisite: ECE 641.

Restriction: Must be a: Graduate, Professional.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 650 Extreme Ultraviolet and Soft X-Ray Radiation Credits: 3 (3-0-0)

Course Description: Fundamental principles of short wavelength electromagnetic radiation.

Prerequisite: ECE 342.

Restriction: Must be a: Graduate, Professional.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 652 Estimation and Filtering Theory Credits: 3 (3-0-0)

Course Description: Linear and Nonlinear parameter and state estimation methods; Optimal Kalman state estimation and applications.

Prerequisite: ECE 514 or STAT 525.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 653 Detection Theory Credits: 3 (3-0-0)

Course Description: Neyman-Pearson and Bayes detectors and properties, matched filter and matched subspace detectors, distributed detection, and applications.

Prerequisite: ECE 652.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both ECE 651 and ECE 653.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 656 Machine Learning and Adaptive Systems Credits: 3 (3-0-0)

Course Description: Adaptive system theory, statistical pattern recognition, supervised and unsupervised learning, support vector machines, manifold learning, applications.

Prerequisite: ECE 512.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 658 Internet Engineering Credits: 4 (3-3-0)

Also Offered As: CS 658.

Course Description: Link technologies, multiple access, hardware and software for internetworks routing, switching flow control, multicast, performance, and applications.

Prerequisite: ECE 456 or CS 457.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online. Credit not allowed for both ECE 658 and CS 658.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 661 Advanced Topics in Embedded Systems Credits: 4 (3-3-0)

Course Description: Embedded systems design: networks on chip, novel memory architectures, synthesis algorithms, optimization for low power, fault tolerance, security.

Prerequisite: (ECE 452) and (ECE 561 or CS 561).

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 666 Topics in Robotics Credits: 3 (3-0-0)

Course Description: Recent advances in robotics, automation, and intelligent systems.

Prerequisite: ECE 455.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 670B Topics in Architecture/Systems: Performance Evaluation and Modeling Credits: Var[1-4] (0-0-0)

Also Offered As: CS 670B.

Course Description:

Prerequisite: ECE 554 or CS 570.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both CS 670B and ECE 670B.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 670C Topics in Architecture/Systems: Distributed Systems Credits: Var[1-4] (0-0-0)

Also Offered As: CS 670C.

Course Description:

Prerequisite: ECE 554 or CS 570.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both CS 670C and ECE 670C.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 670D Topics in Architecture/Systems: Architecture of Advanced Systems Credits: Var[1-4] (0-0-0)**Also Offered As:** CS 670D.**Course Description:****Prerequisite:** ECE 554 or CS 570.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Credit not allowed for both CS 670D and ECE 670D.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 673 Thin Film Growth Credits: 3 (3-0-0)****Course Description:** Microstructures of physically vapor-deposited films; thin-film morphological development; atomistic processes of condensation, nucleation, and growth.**Prerequisite:** CHEM 474 or CHEM 476 or MECH 337 or PH 361 or PH 531.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Online.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 695 Independent Study Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ECE 697 Group Study Credits: Var[1-6] (0-0-0)****Also Offered As:** ENGR 697.**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Credit not allowed for both ECE 697 and ENGR 697.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 699 Thesis Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ECE 742 Topics in Electromagnetics Credits: 3 (3-0-0)****Course Description:** Applications of wave propagation and scattering to microwave radar, Doppler radar, meteorological radar applications.**Prerequisite:** ECE 641.**Restriction:** Must be a: Graduate, Professional.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 752 Topics in Signal Processing Credits: 3 (3-0-0)****Course Description:** Adaptive filtering, spectral estimation, sonar/radar signal processing, and detection/classification schemes.**Prerequisite:** (ECE 512) and (ECE 514 or STAT 525).**Restriction:** Must be a: Graduate, Professional.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 777 X-Ray Lasers Credits: 3 (3-0-0)****Course Description:** Fundamentals, design, and implementation of soft X-ray lasers and X-ray optics.**Prerequisite:** ECE 546.**Restriction:** Must be a: Graduate, Professional.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 795 Independent Study Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ECE 799 Dissertation Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Major in Computer Engineering

From self-driving cars to smart cities, we live in a hyper-connected world. As the smart thinkers behind today's smart devices and systems, computer engineers hold the key to understanding, advancing, and protecting the security of next generation technologies.

A degree in computer engineering from CSU will help you make an impact beyond their computer screen. Affording a big picture view of how technology works, computer engineers look at the interplay between hardware and software to create solutions that benefit society. Have an interest in robotics, artificial intelligence, machine learning, neural networks, or data science? With coursework designed to help you understand, advance, and protect the security of next generation technologies, our professors will arm you with knowledge to drive innovation, whether creating an elegant device that fits in the palm of your hand or optimizing a colossal system to manage and move data.

While our undergraduate program gives you the option to keep your studies broad, you may also specialize in one of the following concentrations:

- Aerospace Systems
- Embedded and IoT Systems
- Networks and Data
- VLSI and Integrated Circuits

Career Opportunities

A field of endless possibilities, career paths for computer engineers are largely dependent on personal interests. Computer Engineering alumni hold positions such as software engineer for a tech giant, designer for a start-up company, and program manager for NASA. In addition to being one of the most lucrative college majors, Computer Engineering currently ranks among the top 10 majors in demand for bachelor's, master's, and doctoral degrees according to the National Association of Colleges and Employers. Almost every industry recruits computer engineering graduates, including aerospace, biomedical and healthcare, clean energy, robotics, climate science, manufacturing, agriculture, and transportation.

Program Objectives and Outcomes

The Computer Engineering program educational objectives are designed and implemented around the following three principal attributes: mastery, innovation, and leadership.

Graduates of the Computer Engineering program will be able to:

1. Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors. Communicate effectively with a range of audiences
2. Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
3. Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives

4. Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
5. Acquire and apply new knowledge as needed, using appropriate learning strategies

Requirements Effective Fall 2023

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in Electrical Engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. ECE courses required for the major at the 100, 200, and 300 level must be passed with a minimum grade of C (2.000); grades below a C will require the student to retake the course. ECE courses designated as an elective are exempt from the C or higher minimum grade requirement.

Major in Computer Engineering, Aerospace Systems Concentration

Aerospace engineering is a broad and dynamic field that centers on the design, construction, and science behind aircraft and spacecraft. Intended for undergraduate computer engineering majors, the aerospace concentration offers students a computer engineering degree foundation and specialized training in the aerospace discipline. Coursework will focus on applications of key computer engineering principles in the areas of computer systems, programming, deep-space communications, robotics, flight avionics, and more. These courses will enable and encourage students to solve complex engineering problems in aerospace such as improved safety-critical hardware design, real-time software programming, satellite communications, and remote sensing methods. Computer engineering students concentrating in aerospace will

experience first-hand the necessity of their major in innovating new solutions to support humanity's ascent to the stars.

Requirements Effective Fall 2023

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in Electrical Engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. ECE courses required for the major at the 100, 200, and 300 level must be passed with a minimum grade of C (2.000); grades below a C will require the student to retake the course. ECE courses designated as an elective are exempt from the C or higher minimum grade requirement.

Major in Computer Engineering, Embedded and IoT Systems Concentration

Approaching innovation from a holistic perspective is key to advancing our hyper-connected world. The interdisciplinary embedded and IoT computing concentration takes a bird's eye view of computer engineering to help students understand how electronic devices, software, and networks function together to enable end-to-end solutions. Take a smart home, for example. Rather than designing one aspect of the solution, such as the temperature sensors on a thermostat, this concentration will help students design and optimize software and hardware technologies across the entire spectrum to enable an integrated, smart system. Centering on the science and design of both hardware and software for computing systems across applications ranging from medical imaging tools to wearable electronic devices, students will work on complex engineering problems such as improving energy-efficiency in mobile devices, integrating artificial intelligence into computing platforms,

and developing solutions for reliability and security in safety critical applications. Coursework focuses on applications of key computer engineering principles in the areas of computer architecture, embedded systems, internet-of-things (IoT), machine learning, computer security, software algorithms, and more.

Requirements Effective Fall 2023

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in Electrical Engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. ECE courses required for the major at the 100, 200, and 300 level must be passed with a minimum grade of C (2.000); grades below a C will require the student to retake the course. ECE courses designated as an elective are exempt from the C or higher minimum grade requirement.

Major in Computer Engineering, Networks and Data Concentration

Networking is a rapidly evolving field that focuses on the ubiquitous connectivity of people, machines, and things. Whether shopping online, using GPS navigation, or connecting with friends on social media, our online activities are on the rise – and we are straining our technology infrastructure with the mind-boggling amounts of data we generate every day. Combining topics from electrical engineering, computer science, and mathematics, this concentration will teach students how to optimize and bolster network systems that process the ever-growing volume of data we produce through our high-tech gadgets and applications. Experiencing first-hand the innovative technologies that fuel the digital information revolution, students will work on complex engineering problems, such as emerging 5G/6G networks, deep-space communication, Internet of Things, and social networks. The concentration offers an electrical and computer engineering foundation with specialized training in the

networks field. Coursework focuses on applications of key engineering principles in the areas of digital systems, communication systems, robotics, embedded systems, cybersecurity and more.

Requirements Effective Fall 2023

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in Electrical Engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. Major in Computer Engineering, VLSI and Integrated Circuits Concentration

Very large-scale integration, or VLSI, is the process used to design and create computer chips that enable everything from smart watches to virtual reality applications. This concentration offers students a foundation in computer engineering with specialized training in the VLSI and microelectronics disciplines. VLSI focuses on developing advanced electronic circuits and systems to compute massive amounts of data and turn it into meaningful information. For example, when sensors on self-driving cars collect data to assess the vehicle's surroundings, such as lane markings, pedestrians, and road signs, VLSI provides the "smarts" to turn that sensing data into actionable insights to control the car. Coursework in this concentration focuses on applications of key computer engineering principles in the areas of digital systems, computer-aided design, integrated circuits, embedded systems and microelectronics, computer networks, and more. These courses will

enable and encourage students to design, analyze, optimize, and implement components, circuits, and systems that are essential in our daily lives.

Requirements Effective Fall 2023

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in Electrical Engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. ECE courses required for the major at the 100, 200, and 300 level must be passed with a minimum grade of C (2.000); grades below a C will require the student to retake the course. ECE courses designated as an elective are exempt from the C or higher minimum grade requirement.

Major in Electrical Engineering

You may think that electrical engineering is magic - and it kind of is. Electrical engineering is filled with daring visionaries and bright minds who engage, imagine, and invent. We are the masters of power and energy and light and systems that can turn science fiction into living, breathing science. We are the force that connects people and technologies with elegant devices that fit in the palm of your hand and colossal systems that are beyond imagination. Is that magic? Almost. And we'd love to show you how it works.

Students choose between three concentrations. The Electrical Engineering concentration covers a broad range of electrical engineering subdisciplines and allows a student to focus on their particular area of interest using technical electives. The Lasers and Optical Engineering concentration focuses on optics and waves, optical electronics, optical information processing, and communications. The Aerospace concentration offers students an electrical engineering degree foundation and specialized training in the aerospace discipline, including deep-space communications, robotics, embedded systems, flight avionics, and more.

Concentrations

- Aerospace Concentration
- Electrical Engineering Concentration
- Lasers and Optical Engineering Concentration

Career Opportunities

The smarts inside your smart home. The radars and satellites that measure weather and climate. The imaging tools that help physicians peer inside the human body. Electrical engineering makes it all possible. With a degree in electrical engineering, you will have the skills and knowledge to drive innovation in virtually any field. For more than a decade, electrical engineering has ranked among the top majors in demand across a broad range of industries, according to the National Association of Colleges and Employers. That means your knowledge will allow you to make difference in a fulfilling career, while earning a high paying salary.

Major in Electrical Engineering, Aerospace Concentration

Aerospace engineering is a broad and dynamic field that centers on the design, construction, and science behind aircraft and spacecraft. Intended for undergraduate electrical engineering majors, the aerospace

concentration offers students an electrical engineering degree foundation and specialized training in the aerospace discipline. Coursework will focus on applications of key electrical engineering principles in the areas of deep-space communications, robotics, embedded systems, flight avionics, and more. These courses will enable and encourage students to solve complex engineering problems in aerospace such as improved satellite communications, electric propulsion technologies, and remote sensing methods. Electrical engineering students concentrating in aerospace will experience first-hand the necessity of their major in innovating new solutions to support humanity's ascent to the stars.

Requirements Effective Fall 2023

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in ECE courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. In addition, ECE courses required for the major at the 100, 200, and 300 level must be passed with a minimum grade of C (2.000); grades below a C will require the student to retake the course. ECE courses designated as an elective are exempt from the C or higher minimum grade requirement.

Major in Electrical Engineering, Electrical Engineering Concentration

Electrical engineering is a broad discipline that is essential to our everyday lives. Our professors will teach students to think like an engineer to drive what's next in technology and create a better world for all, from advanced medical devices to self-driving cars to smart homes.

Our students are imaginative and inventive and love the thrill of problem-solving. Whether working on a senior design project that satisfies real customer requirements to participating in a day-long hacker competition, students will have the opportunity to turn their bold ideas into original projects at every level of our program.

Electrical and Computer Engineering (ECE) courses and research areas span a range of disciplines that include:

- Biomedical Engineering
- Communications and Signal Processing
- Computer Engineering
- Controls and Robotics
- Electromagnetics and Remote Sensing
- Lasers and Photonics

Program Objectives and Outcomes

The ECE program educational objectives are designed and implemented around the following three principal attributes: mastery, innovation, and leadership.

Graduates of the Electrical Engineering program will be able to:

1. Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics

2. Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. Communicate effectively with a range of audiences
4. Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. Acquire and apply new knowledge as needed, using appropriate learning strategies

Requirements Effective Fall 2023

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in ECE courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. ECE courses required for the major at the 100, 200, and 300 level must be passed with a minimum grade of C (2.000); grades below a C will require the student to retake the course. ECE courses designated as an elective are exempt from the C or higher minimum grade requirement.

Major Completion Map

Distinctive Requirements for Degree Program:

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus.

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in electrical engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. ECE courses required for the major at the 100, 200, and 300 level must be passed with a minimum grade of C (2.000); grades below a C will require the student to retake the course. ECE courses designated as an elective are exempt from the C or higher minimum grade requirement.

Major in Electrical Engineering, Lasers and Optical Engineering Concentration

From cancer detection to faster computing, lasers and optics improve today's world. You will be prepared for success in today's high-tech world through stimulating coursework and unique hands-on projects in the field of lasers and optics. You will learn a new way of thinking that teaches the importance of creativity and innovation in solving complex societal problems.

Electrical and computer engineering (ECE) courses and research span a range of disciplines that include:

- Biomedical Engineering
- Communications and Signal Processing
- Computer Engineering
- Controls and Robotics
- Electromagnetics and Remote Sensing
- Lasers and Photonics

Career Opportunities

A field of endless possibilities, electrical engineering career paths are largely dependent on personal interests. Electrical engineering alumni hold positions ranging from a designer at a start-up company to a research scientist for the U.S. Naval Research Laboratory. In addition to being one of the most lucrative college majors, for the past decade electrical engineering has ranked among the top 10 majors in demand for bachelor's, master's, and doctoral degrees, according to the National Association of Colleges and Employers. Almost every industry recruits electrical engineering graduates, such as aerospace, biomedical, energy, robotics, manufacturing, and automotive.

Program Objectives and Outcomes

The ECE program educational objectives are designed and implemented around the following three principal attributes: mastery, innovation, and leadership.

Graduates of the ECE program will be able to:

1. Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics

2. Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. Communicate effectively with a range of audiences
4. Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. Acquire and apply new knowledge as needed, using appropriate learning strategies

Requirements Effective Fall 2023

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in Electrical Engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. ECE courses required for the major at the 100, 200, and 300 level must be passed with a minimum grade of C (2.000); grades below a C will require the student to retake the course. ECE courses designated as an elective are exempt from the C or higher minimum grade requirement.

Minor in Computer Engineering

The Minor in Computer Engineering prepares students who want to complement their background in computer science or other applied science disciplines with knowledge of computer hardware design, microcontroller software programming, and hardware-software codesign to support a well-rounded knowledge of working with computing systems.

Requirements Effective Fall 2023

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

CS 270	Computer Organization	
Select a minimum of 15 credits from the following:		15
ECE 202 or ECE 204	Circuit Theory Applications Introduction to Electrical Engineering	
ECE 340	Electromagnetics for Computer Engineering	
ECE 445	Digital Logic Synthesis	
ECE 450	Digital System Design Laboratory	
ECE 451	Digital System Design	
ECE 452	Computer Organization and Architecture	
ECE 455	Introduction to Robot Programming/ Simulation	
ECE 495A	Independent Study ¹	
ECE 495B	Independent Study: Open Option Project ¹	
ECE 495C	Independent Study: Vertically Integrated Projects ¹	
ECE 519	Network Centric Systems	
ECE 528/CS 528	Embedded Systems and Machine Learning	
ECE 544	Silicon Photonics for Computing Systems	
ECE 554	Computer Architecture	
ECE 558	Manycore System Design Using Machine Learning	
ECE 561/CS 561	Hardware/Software Design of Embedded Systems	
ECE 571	VLSI System Design	
Program Total Credits:		23

¹ A total 3 credits of Independent Study may apply toward total degree requirements. This includes credit awarded for ECE 495A, ECE 495B, ECE 495C combined.

Graduate Certificate in Aerospace: Satellites, Radars and Remote Sensing

Start developing the skills you need to break into the rapidly evolving aerospace industry. The Graduate Certificate in Aerospace: Satellites, Radars and Remote Sensing provides an introduction to aerospace engineering disciplines, including satellites, radars and remote sensing. A graduate certificate requires completion of 9 credits of 500-level and above graduate work. Students may apply for and complete just the certificate or may apply for both the certificate and a degree program. This allows students to start with the certificate and continue to a more advanced degree.

Learning Outcomes

1. Interpret and distinguish space science and engineering, as well as various applications in communications, remote sensing, navigation, and environmental monitoring.

2. Extend working knowledge about the payload and orbital mechanics of the space systems dedicated to producing mission data and then relaying that data back to Earth.

3. Understand radar and satellite sensors (e.g., nuclear detonation detector, radiometer), their system components and design.

4. Interpret radar and satellite observations and extract information through remote sensing data analytics.

5. Expand beyond traditional focus on maximizing utilization of individual satellite programs, towards a broader view of how multidisciplinary space observations may be integrated from the larger constellation of global observing platforms.

6. Adapt to expected changes in radar and satellite technologies (e.g., CubeSat), as well as information technologies (e.g., artificial intelligence) to conduct fundamental and applied space research to understand global changes and meet societal needs.

Requirements Effective Fall 2023

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Select a minimum of 9 credits from the following courses:		9
ATS 550	Atmospheric Radiation and Remote Sensing	
ECE 521	Satellite Communication	
ECE 548	Microwave Theory and Component Design	
ECE 549	Radar Systems and Design	
ECE 556	AI for Radar and Remote Sensing	
ECE 578	Satellite Data Analysis	
ECE 579	Global Navigation Satellite Systems	
Program Total Credits:		9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Computer Systems Engineering

The Graduate Certificate in Computer Systems Engineering is designed for students and professionals seeking knowledge and skills in state-of-the-art parallel hardware architectures, parallel software programming, algorithms, and networking technologies. Students stay current on rapidly advancing technology and learn to problem-solve for future challenges.

Effective Fall 2021

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Select three courses from the following: ¹		11-12
CS 530	Fault-Tolerant Computing	
CS 545	Machine Learning	
CS 556	Computer Security	

CS 575	Parallel Processing
ECE 528/CS 528	Embedded Systems and Machine Learning
ECE 554	Computer Architecture
ECE 558	Manycore System Design Using Machine Learning
ECE 561/CS 561	Hardware/Software Design of Embedded Systems
ECE 658/CS 658	Internet Engineering
ECE 661	Advanced Topics in Embedded Systems

Program Total Credits: 11-12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

¹ At least one ECE course is required.

Graduate Certificate in Data Engineering

The certificate program provides education on both Theoretical Foundation (TF) of Data Engineering and Applications (AP) of Data Engineering in specific engineering domains. The certificate requires completing 12 credits of coursework. At least 6 credits must be taken from courses listed under the Theoretical Foundation (TF) category. These courses provide training on the central theory and methods of Data Engineering, informed by physical and dynamical models that generally arise in engineering processes. At least 3 credits must be taken from courses listed under the Applications (AP) category. These courses provide training on applications of Data Engineering methods in specific engineering domains, by tailoring and applying data analysis to specific data acquisition techniques and models that are suitable for a particular engineering domain. The domains currently include Signal and Image Processing, Biomedical Engineering, Computer Engineering, and Systems Engineering. Lists of approved TF courses and AP courses are provided under "Program Requirements".

Requirements Effective Fall 2022

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Theoretical Foundations (TF)		
Select a minimum of 6 credits from the following: ¹		6-9
ECE 514	Applications of Random Processes	
ECE 520	Optimization Methods—Control and Comm.	
or ENGR 510	Engineering Optimization: Method/Application	
ECE 652	Estimation and Filtering Theory	
ECE 656	Machine Learning and Adaptive Systems	
SYSE 571	Analytics in Systems Engineering	
Applications (AP)		
Select a minimum of 3 credits from the following list of courses for specific engineering application domains:		3-6
AP: Signal and Image Processing		
ECE 512	Digital Signal Processing	

ECE 513	Digital Image Processing
---------	--------------------------

AP: Biomedical Engineering

ECE 517/ BIOM 517	Advanced Optical Imaging
BIOM 526/ ECE 526	Biological Physics
ECE 537/ BIOM 537	Biomedical Signal Processing

AP: Computer Engineering

ECE 528/CS 528	Embedded Systems and Machine Learning
ECE 554	Computer Architecture
ECE 561/CS 561	Hardware/Software Design of Embedded Systems
ECE 658/CS 658	Internet Engineering

AP: Systems Engineering

SYSE 532/ ECE 532	Dynamics of Complex Engineering Systems
SYSE 569	Cybersecurity Awareness for Systems Engineers

Program Total Credits 12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

¹ ECE 520 and ENGR 510 cannot be both taken to satisfy this requirement.

Graduate Certificate in Embedded Systems

The Graduate Certificate in Embedded Systems provides an introduction to embedded systems, including hardware design and software engineering principles. Students learn to apply electrical engineering, computer engineering, and computer science principles in real-world embedded platforms.

Effective Fall 2021

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Select three courses from the following: ¹		11-12
CS 545	Machine Learning	
CS 560/ECE 560	Foundations of Fine-Grain Parallelism	
CS 575	Parallel Processing	
ECE 528/CS 528	Embedded Systems and Machine Learning	
ECE 554	Computer Architecture	
ECE 558	Manycore System Design Using Machine Learning	
ECE 561/CS 561	Hardware/Software Design of Embedded Systems	
ECE 661	Advanced Topics in Embedded Systems	
Program Total Credits:		11-12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

¹ At least one ECE course is required.

Master of Science in Computer Engineering, Plan A

From self-driving cars to smart cities, we live in a hyper-connected world. As the smart thinkers behind today's smart devices and systems, computer engineers hold the key to understanding, advancing, and protecting the security of next generation technologies and data networks. The Master of Science in Computer Engineering, Plan A produces professionals capable of applying in-depth knowledge, creativity, and research experience to drive innovation in virtually any field. This program creates professionals with depth and breadth of knowledge to keep pace with a rapidly evolving high-tech field. Offering a highly customizable curriculum, this program specializes in the following focus areas: biomedical engineering, communications and signal processing, computer engineering, controls and robotics, electromagnetics and remote sensing, and lasers and photonics.

Students pursuing the Plan A degree complete a research-orientated plan of study involving a thesis and coursework. Students interested in graduate work should refer to CSU's Graduate and Professional Bulletin and the Electrical and Computer Engineering Department (<http://www.engr.colostate.edu/ece/>) website.

Requirements Effective Spring 2017

Code	Title	Credits
Regular Courses ^{1,2}		21
ECE 699	Thesis	9
Program Total Credits:		30

¹ Select courses with approval of advisor and graduate committee. Courses not accepted as regular include all courses ending in the range -82 through -99.

² A maximum of 6 credits of 400-level undergraduate courses can be used toward the degree. Up to 8 credits at the 400-level are permitted when at least one course is a 4 credit course. Remaining credits must be in 500-level or higher courses.

Master of Science in Computer Engineering, Plan B

From self-driving cars to smart cities, we live in a hyper-connected world. As the smart thinkers behind today's smart devices and systems, computer engineers hold the key to understanding, advancing, and protecting the security of next generation technologies and data networks.

The Master of Science in Computer Engineering, Plan B produces professionals capable of applying in-depth knowledge and creativity to analyze, design, develop, and improve computer systems in technically demanding careers to drive innovation in virtually any field. Students interested in graduate work should refer to CSU's Graduate and

Professional Bulletin and the Electrical and Computer Engineering Department (<http://www.engr.colostate.edu/ece/>) website.

Requirements Effective Spring 2017

Code	Title	Credits
Select one group from the following:		
Group A		
Regular Courses ^{1,2}		32
Group B		
Regular Courses ^{1,2}		27
ECE 695	Independent Study	3
Program Total Credits		30-32

¹ Select courses with approval of advisor and graduate committee. Courses not accepted as regular include all courses ending in the range -82 through -99.

² A maximum of 6 credits of 400-level undergraduate courses can be used toward the degree. Up to 8 credits at the 400-level are permitted when at least one course is a 4 credit course. Remaining credits must be in 500-level or higher courses.

Master of Science in Electrical Engineering, Plan A

Arthur C. Clark said, "Any sufficiently advanced technology is indistinguishable from magic." The Master of Science in Electrical Engineering, Plan A produces leaders who make the magic happen in our modern world. From electric cars to smartphones to Global Positioning Systems, our graduates turn ideas into reality.

This program creates professionals with depth and breadth of knowledge, as well as the skills and mindset to continue to evolve and grow in a constantly changing high-tech environment. Offering a highly customizable curriculum, this program specializes in the following focus areas: biomedical engineering, communications and signal processing, computer engineering, controls and robotics, electromagnetics and remote sensing, lasers and photonics.

Students pursuing the M.S. in Electrical Engineering, Plan A complete a research-orientated plan of study involving a thesis and coursework. Interested applicants should refer to CSU's Graduate and Professional Bulletin (<http://catalog.colostate.edu/general-catalog/graduate-bulletin/>) and the Electrical and Computer Engineering website (<http://www.engr.colostate.edu/ece/>).

Requirements Effective Summer 2015

Code	Title	Credits
Courses		
Regular Courses ^{1,2}		21
Thesis		
ECE 699	Thesis	9
Program Total Credits:		30

A minimum of 30 credits are required to complete this program.

¹ Courses not accepted as regular include all courses ending in -82 to -99. Only 6 credits allowed at the 400-level.

² Select courses with approval of advisor and graduate committee.

Master of Science in Electrical Engineering, Plan B

The Master of Science in Electrical Engineering, Plan B creates capable professionals with depth and breadth of knowledge, as well as the skills and mindset to continue to evolve and grow in a constantly changing high-tech environment. Offering a highly customizable curriculum, this program specializes in the following focus areas: biomedical engineering, communications and signal processing, computer engineering, controls and robotics, electromagnetics and remote sensing, lasers and photonics.

Interested applicants should refer to CSU's Graduate and Professional Bulletin (<http://catalog.colostate.edu/general-catalog/graduate-bulletin/>) and the Electrical and Computer Engineering website (<http://www.engr.colostate.edu/ece/>).

Requirements Effective Spring 2019

Code	Title	Credits
Select one group from the following:		
Group A		
Regular Courses	^{1, 2, 3}	32
Group B		
ECE 695	Independent Study	3
Regular Courses	^{1, 2}	27
Program Total Credits		30-32

A minimum of 30 credits are required to complete this program.

¹ Select courses with approval of advisor and graduate committee. Courses not accepted as regular include all courses ending in the range -82 through -99.

² A maximum of 6 credits of 400-level undergraduate courses can be used toward the degree. Up to 8 credits at the 400-level are permitted when at least one course is a 4 credit course. Remaining credits must be in 500-level or higher courses.

³ The final examination taken includes relevant questions from each course taken by the student for the degree.

Master of Engineering, Plan C, Computer Engineering Specialization

From self-driving cars to smart cities, we live in a hyper-connected world. As the smart thinkers behind today's smart devices and systems, computer engineers hold the key to understanding, advancing, and protecting the security of next generation technologies and data networks.

The Master of Engineering, Plan C, Computer Engineering Specialization produces professionals with broad engineering backgrounds who are

capable of applying in-depth knowledge and creativity to drive innovation in virtually any field. Students have flexibility to develop a plan of study in their area of interest. Students interested in graduate work should refer to CSU's Graduate and Professional Bulletin (<http://catalog.colostate.edu/general-catalog/graduate-bulletin/>) and the Electrical and Computer Engineering Department (<http://www.engr.colostate.edu/ece/>) website.

Requirements Effective Fall 2016

Code	Title	Credits
Regular Courses	^{1, 2}	30
Program Total Credits:		30

¹ Courses not accepted as regular include all courses ending in the range -82 through -99. Select courses with approval of advisor.

² A maximum of 6 credit hours of 400-level undergraduate courses can be used towards the degree. Up to 8 credit hours at the 400-level are permitted when at least one course is a 4 credit course. Remaining credits must be in 500-level or higher courses.

Master of Engineering, Plan C, Electrical Engineering Specialization

The Master of Engineering, Plan C, Electrical Engineering Specialization focuses on enhancing the expertise of working electrical engineering professionals. Engineers who want to further their careers with engineering related firms and governmental agencies should consider this degree. Students have flexibility to develop a plan of study in their area of interest. Students interested in graduate work should refer to CSU's Graduate and Professional Bulletin (<http://catalog.colostate.edu/general-catalog/graduate-bulletin/>) and the Electrical and Computer Engineering Department (<http://www.engr.colostate.edu/ece/>) website.

Ph.D. in Computer Engineering

The Ph.D. in Computer Engineering creates future leaders in the thriving field of computer engineering. Under the tutelage of renowned computer engineering faculty, graduates of this program produce significant contributions and original research to advance next generation electronics and computing.

Offering a highly customizable curriculum, this program specializes in the following areas: biomedical engineering, communications

and signal processing, computer engineering, controls and robotics, electromagnetics and remote sensing, and lasers and photonics.

Students pursuing a Ph.D. in Computer Engineering complete a research-oriented plan of study involving a dissertation and coursework. Interested applicants should refer to CSU's Graduate and Professional Bulletin and the Electrical and Computer Engineering Department (<http://www.engr.colostate.edu/ece/>) website.

Courses

Mechanical Engineering (MECH)

MECH 103 Introduction to Mechanical Engineering Credits: 3 (3-0-0)

Course Description: Introduction to mechanical engineering, including relevant programming and computer technologies such as MATLAB and Excel.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 104A Study Abroad--Germany: Introduction to Mechanical Engineering Credits: 3 (0-0-0)

Course Description: Introduction to mechanical engineering, and relevant programming and computer technologies, including MATLAB and Excel. Exploration of global engineering in Berlin, Germany. Explore concepts through guest lectures, discussion with German engineers, and visits to German engineering companies.

Prerequisite: None.

Registration Information: Written consent of advisor. Credit allowed for only one of the following: MECH 103, MECH 104A, or MECH 182A.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 105 Mechanical Engineering Problem Solving Credits: 3 (3-0-0)

Course Description: Programming and engineering problem solving techniques, algorithms and processes based on first principles of physics and calculus.

Prerequisite: (MATH 159, may be taken concurrently or MATH 160, may be taken concurrently) and (MECH 103 and PH 141, may be taken concurrently).

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 102 and MECH 105.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 200 Introduction to Manufacturing Processes Credits: 3 (2-2-0)

Course Description: Engineering drawings, materials, manufacturing, and safety. Hand tools, cutting, drilling, the lathe, mill and numerical control.

Prerequisite: MECH 105.

Registration Information: Mechanical Engineering and Biomedical Engineering-Mechanical Engineering dual majors only. Must register for lecture and laboratory. Credit not allowed for both MECH 200 and MECH 200A. Credit not allowed for both MECH 200 and MECH 200B.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 200A Introduction to Manufacturing Processes: Lecture Credits: 2 (2-0-0)

Course Description: Introduction to engineering drawings, materials, manufacturing processes, and shop safety. Fundamentals and principles associated with hand tools, cutting, grinding, the lathe, mill, and numerical control.

Prerequisite: MECH 105.

Registration Information: Mechanical Engineering and Biomedical Engineering-Mechanical Engineering dual majors only. Credit not allowed for both MECH 200 and MECH 200A. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 200B Introduction to Manufacturing Processes : Laboratory Credit: 1 (0-2-0)

Course Description: Applied introduction to engineering drawings, materials, manufacturing processes, and shop safety. Basic hand tools, cutting, grinding, the lathe, mill, introduction to numerical control. Experiential learning is emphasized through hands-on laboratory activities.

Prerequisite: MECH 200A, may be taken concurrently.

Registration Information: Mechanical Engineering and Biomedical Engineering-Mechanical Engineering dual majors only. Credit not allowed for both MECH 200 and MECH 200B.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 201 Engineering Design I Credits: 2 (1-2-0)

Course Description: Engineering design methods used to portray three-dimensional objects and visually communicate design information, with an emphasis on computer-aided design using parametric solid modeling, and geometric dimensioning / tolerancing.

Prerequisite: MECH 105.

Registration Information: Must register for lecture and laboratory. Sections may be offered as Mixed Face-to-Face or Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 202 Engineering Design II Credits: 3 (2-2-0)

Course Description: The engineering design process with emphasis on teamwork, ideation, decision-making, and project planning as applied to a group design project in mechanical engineering.

Prerequisite: (MECH 200, may be taken concurrently or MECH 200A, may be taken concurrently and MECH 200B, may be taken concurrently) and (MECH 201).

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 231 Engineering Experimentation Credits: 3 (2-2-0)

Course Description: Measurement systems, experimental design, and data acquisition / analysis techniques for engineering applications.

Prerequisite: (MECH 102 or MECH 105) and (PH 142).

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 237 Introduction to Thermal Sciences Credits: 3 (3-0-0)

Course Description: First and second laws of thermodynamics, properties of substances, energy conversion, heat transfer, thermodynamic applications.

Prerequisite: (MATH 159 or MATH 160) and (PH 141).

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 262 Engineering Mechanics Credits: 4 (4-0-0)

Course Description: Forces, static equilibrium, mass center, moments of inertia, kinematics and kinetics of particles and rigid bodies.

Prerequisite: (MATH 161) and (PH 141).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 301A Engineering Design III: Finite Element Analysis Credit: 1 (0-2-0)

Course Description: Application of computer-aided finite element analysis (FEA) tools for the simulation and prediction of robustness and performance of mechanical components and assemblies.

Prerequisite: CIVE 360 and MECH 202, may be taken concurrently and MECH 342.

Registration Information: This is a partial semester course. Sections may be offered: Mixed Face-to-Face or Online. Credit not allowed for both (MECH 301 and MECH 301A) or (MECH 301A and MECH 302).

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 301B Engineering Design III: Computational Fluid Dynamics Credit: 1 (0-2-0)

Course Description: Application of computer-aided computational fluid dynamics (CFD) tools for the simulation and prediction of robustness and performance of mechanical components and assemblies.

Prerequisite: CIVE 360 and MECH 202, may be taken concurrently and MECH 301A, may be taken concurrently and MECH 342.

Registration Information: This is a partial semester course. Sections may be offered: Mixed Face-to-Face or Online. Credit not allowed for both (MECH 301 and MECH 301B) or (MECH 301B and MECH 302).

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 307 Mechatronics and Measurement Systems Credits: 4 (3-3-0)

Course Description: Mechatronic and measurement system analysis and design; applied electronics; data acquisition; microcontroller interfacing and programming.

Prerequisite: CIVE 261 and ECE 204 and MATH 340 and MECH 231.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 324 Dynamics of Machines Credits: 4 (3-2-0)

Course Description: Analysis and synthesis of moving machinery.

Prerequisite: CIVE 261 and MATH 340, may be taken concurrently.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 325 Machine Design Credits: 3 (3-0-0)

Course Description: Design of mechanical components to avoid failure during operation. Stress analysis, failure theories, and specific mechanical components in design context.

Prerequisite: CIVE 360.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 331 Introduction to Engineering Materials Credits: 4 (3-2-0)

Course Description: Characteristics of metallic, plastic, and ceramic material; basic principles which relate properties of materials to their atomic and microstructure.

Prerequisite: CHEM 111 and CHEM 112 and MECH 231.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 331A Introduction to Engineering Materials: Lecture Credits: 3 (3-0-0)

Course Description: Characteristics of metallic, plastic, and ceramic materials; basic principles that relate properties of materials to their atomic and micro-structure.

Prerequisite: CHEM 111 and CHEM 112 and MECH 231.

Registration Information: Mechanical engineering and biomedical engineering-mechanical engineering dual majors only. Sections may be offered: Online. Credit not allowed for both MECH 331 and MECH 331A.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 331B Introduction to Engineering Materials : Lab Credit: 1 (0-2-0)

Course Description: Experiments to study and test metallic, plastic, and ceramic material, including approaches to relate properties of materials to their atomic and micro-structure.

Prerequisite: CHEM 111 and CHEM 112 and MECH 231 and MECH 331A, may be taken concurrently.

Registration Information: Mechanical engineering and biomedical engineering-mechanical engineering dual majors only. Sections may be offered: Online. Credit not allowed for both MECH 331 and MECH 331B.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 337 Thermodynamics Credits: 4 (3-0-1)

Course Description: First and second laws of thermodynamics, properties of pure substances, analysis of open and closed thermodynamic systems, applications of thermodynamic principles to power and refrigeration cycles.

Prerequisite: MATH 261 and PH 141.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 338 Thermal/Fluid Sciences Laboratory Credit: 1 (0-3-0)

Course Description: Experimental methods in heat transfer, fluid flow, and thermodynamics.

Prerequisite: MECH 337 and MECH 342 and MECH 344, may be taken concurrently.

Registration Information: Biomedical Engineering with ME and Mechanical Engineering majors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 342 Fluid Mechanics for Mechanical Engineers Credits: 3 (3-0-0)

Course Description: Thermodynamic properties of fluids, control volume and differential analysis, conservation of mass, momentum, and energy, measurements, dimensional analysis, boundary layer theory, Navier-Stokes equations and exact solutions; internal and external flows, lift and drag, mechanical engineering applications such as pumps, compressors, turbines, and airfoils.

Prerequisite: MATH 340 and PH 141 and MECH 337, may be taken concurrently.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 344 Heat and Mass Transfer Credits: 3 (3-0-0)

Course Description: Thermal transport properties of substances, conduction, convection, radiation, transient heat transfer, numerical methods, and heat exchangers.

Prerequisite: MECH 342.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 392 Graduate Education and Research Seminar Credit: 1 (0-0-1)

Course Description: Research in graduate school and industry as a career option for mechanical engineers.

Prerequisite: MECH 231 and MECH 237.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

MECH 403 Energy Engineering Credits: 3 (3-0-0)

Course Description: Energy generation, conversion, distribution, storage, and efficiency, including analysis of power generation systems associated with fossil fuels, biofuels, solar, wind, geothermal, hydropower, tidal, and nuclear energy.

Prerequisite: CBE 310 or MECH 237 or MECH 337 or PH 361.

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 303 and MECH 403.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 407 Laser Applications in Mechanical Engineering Credits: 3 (3-0-0)

Course Description: Review of electromagnetic waves; applications of lasers and optics in engineering, e.g., position sensing, flowfield measurement, cutting and welding.

Prerequisite: PH 142.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 408 Applied Engineering Economy Credits: 3 (3-0-0)

Course Description: The basic principles and calculations of engineering economy with application to real problems, including energy and the environment.

Prerequisite: MATH 161.

Registration Information: Credit not allowed for both MECH 408 and MECH 410. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 411 Manufacturing Engineering Credits: 3 (3-0-0)

Course Description: Casting, forming, machining, and welding processes used in manufacturing operations.

Prerequisite: (CIVE 360) and (MECH 331 or MECH 331A and MECH 331B).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 417 Control Systems Credits: 3 (3-0-0)

Course Description: Feedback and forward loop control design and simulation; discrete time and frequency domain methods with implementation considerations.

Prerequisite: MATH 340 and MECH 307.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 420 Aerospace Structures Credits: 3 (3-0-0)

Course Description: Analysis of aerospace structures; introduction to theory of elasticity, stress analysis of thin-walled structures in bending, torsion, and shear, and finite element methods and applications to aerospace structures.

Prerequisite: MATH 340 and MECH 325.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 421 Fundamentals of Wind Energy Credits: 3 (3-0-0)

Course Description: Fundamental concepts and principles of operation of wind turbines, wind resource prospecting, wind turbine siting and layout, economics of wind power generation, and introduction to design of wind turbines.

Prerequisite: (CIVE 260 or MECH 262) and (MATH 261).

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 421 and MECH 481A5.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 424 Advanced Dynamics Credits: 3 (3-0-0)

Course Description: The fundamentals of kinematics and dynamics of rigid bodies with applications to mechanical engineering. Hamilton's principle and Lagrange's equations for lumped-parameter extended bodies and distributed systems.

Prerequisite: MECH 324.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 425 Mechanical Engineering Vibrations Credits: 4 (3-2-0)

Course Description: Vibrations applied to rotating machinery and structures. SDOF and MDOF systems, mode shapes, vibration measurements and control. Hands-on lab.

Prerequisite: MECH 324.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 426 Advanced Machine Design Credits: 3 (3-0-0)

Course Description: Advanced design of mechanical components to avoid / control failure during operation. Design and implementation of specific machine components for real-world applications, including correlations with advanced materials and advanced computational tools.

Prerequisite: (MECH 325) and (MECH 331 or MECH 331A and MECH 331B).

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 428 Probabilistic Design Credits: 3 (3-0-0)

Course Description: Modeling of uncertainty, probability distributions, determination of distributions from observed data, fundamental reliability analysis methods, Monte-Carlo simulation, reliability-based design, topology optimization, generative design, design for manufacturing, prognostics fundamentals.

Prerequisite: (MATH 261 and MECH 325) and (MECH 231 or STAT 315).

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 431 Metals and Alloys Credits: 3 (3-0-0)

Course Description: Engineering metals and alloys, modification of properties by alloying, plastic deformation, and heat treatment. Fundamentals of physical metallurgy.

Prerequisite: MECH 331 or MECH 331A and MECH 331B.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 432 Engineering of Nanomaterials Credits: 3 (3-0-0)

Course Description: Structure, properties, and processing of extremely small (10 to the minus 9 m) synthetic and natural materials.

Prerequisite: MECH 331 or MECH 331A and MECH 331B.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 434 Materials Selection for Mechanical Design Credits: 3 (3-0-0)

Course Description: Procedures for selecting the optimal material(s) for mechanical engineering design under multiple constraints, including reliability, safety, functionality, cost, and environmental impact.

Prerequisite: (MECH 325) and (MECH 331 or MECH 331A and MECH 331B).

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 434 and MECH 481A3.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 436 Green Engineering--Materials and Environment Credits: 3 (3-0-0)

Also Offered As: MSE 436.

Course Description: Principles of green engineering in the context of materials, human dependence on materials, and the environmental consequences of materials selection. Perspective, background, methods, and data for evaluating and designing with materials to minimize the environmental impact.

Prerequisite: MECH 325 and MECH 331A.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: MECH 436, MECH 481A4, or MSE 436.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 437 Internal Combustion Engines Credits: 3 (2-0-1)

Course Description: Application of thermodynamics, heat transfer, and fluid mechanics to internal combustion engines.

Prerequisite: MECH 344.

Registration Information: Must register for lecture and recitation.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 450 Aerospace Propulsion Credits: 3 (3-0-0)

Course Description: Basic concepts of aerospace propulsion.

Foundational concepts of thermodynamics, compressible flow, and boundary layer theory. Characteristics, operation and analysis of air breathing and rocket propulsion applications.

Prerequisite: MECH 342.

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 450 and MECH 480A8.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 460 Aeronautics Credits: 3 (3-0-0)

Course Description: Thermodynamics and fluid mechanics principles applied to the mechanics, aerodynamics, performance, stability, and control of airplanes.

Prerequisite: MECH 342.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 463 Building Energy Systems Credits: 3 (3-0-0)

Course Description: Comfort, psychrometrics, loads, solar radiation, heating and cooling system design, transport, solar system design, economics.

Prerequisite: MECH 344.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 464 Injection Molding Credits: 3 (3-0-0)

Course Description: Part design, material selection, mold design, processing, post-processing operations, and cost estimation for injection molding.

Prerequisite: (MECH 200 or MECH 200A) and (MECH 301A) and (MECH 331 or MECH 331A and MECH 331B).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 468 Space Propulsion and Power Engineering Credits: 3 (3-0-0)

Course Description: Orbital mechanics and space missions; chemical, nuclear, and electric rockets; nuclear heat sources; thermoelectric and photovoltaic devices.

Prerequisite: ECE 204 and MECH 337 and MECH 342.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 470 Biomedical Engineering Credits: 3 (3-0-0)

Also Offered As: BIOM 470.

Course Description: Engineering application in human/animal physiology, diagnosis of disease, treatment, rehabilitation, human genome manipulation.

Prerequisite: (MATH 155 or MATH 160) and (PH 141).

Registration Information: Credit not allowed for both MECH 470 and BIOM 470.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 476 Mechanical Engineering Data Analysis in R Credits: 3 (3-0-0)

Course Description: The use of the R language for data analysis in mechanical engineering, including data cleaning and manipulation, exploratory data analysis and visualization, and applications related to sampling and measurement, calibration, figures of merit, and modeling.

Prerequisite: MECH 201.

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 476 and MECH 481A6.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 477 Algorithms in Scientific Computing Credits: 3 (3-0-0)

Course Description: Numerical methods for scientific computing relevant to problems arising in mechanical and aerospace engineering, with an emphasis on applications, mathematical principles and algorithms, code development, and tool building.

Prerequisite: MATH 340 or MATH 345.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 478 Computational Fluid Dynamics Credits: 3 (3-0-0)

Course Description: Introduction to fundamentals of numerical analysis, ordinary differential equations and partial differential equations related to fluid mechanics. Study of error control, stability considerations, and convergence issues. Application of modern CFD software including geometry building, mesh generation, solution methods, and flow analysis and visualization.

Prerequisite: MECH 342.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 486A Engineering Design Practicum: I Credits: 4 (1-6-0)

Course Description: Capstone engineering design project; transition experience to the mechanical engineering profession in industry and graduate education.

Prerequisite: (MECH 301 or MECH 301B, may be taken concurrently and MECH 301A) and (MECH 307) and (MECH 324, may be taken concurrently or MECH 325, may be taken concurrently) and (MECH 331 or MECH 331A and MECH 331B) and (MECH 344).

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 486B Engineering Design Practicum: II Credits: 4 (1-6-0)

Course Description: Capstone engineering design project; transition experience to the mechanical engineering profession in industry and graduate education.

Prerequisite: MECH 301B and MECH 324 and MECH 325 and MECH 338 and MECH 486A.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 495 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MECH 498A Engineering Research Practicum: I Credits: 4 (1-6-0)

Course Description: Capstone engineering research project; transition experience to graduate research and education.

Prerequisite: (MECH 301 or MECH 301A and MECH 301B, may be taken concurrently) and (MECH 307) and (MECH 324, may be taken concurrently or MECH 325, may be taken concurrently) and (MECH 331 or MECH 331B and MECH 344 and MECH 331A).

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 498B Engineering Research Practicum: II Credits: 4 (1-6-0)

Course Description: Capstone engineering research project; transition experience to graduate research and education.

Prerequisite: MECH 301B and MECH 324 and MECH 325 and MECH 338 and MECH 498A.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 502 Advanced/Additive Manufacturing Engineering Credits: 3 (3-0-0)

Course Description: Materials, controls, and mechanics applied to additive manufacturing; rapid prototyping; direct digital manufacturing.

Prerequisite: (MECH 202) and (MECH 331 or MECH 331A and MECH 331B).

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 505 Steam Power Plants Credits: 3 (3-0-0)

Course Description: Technology review and application of engineering sciences and economics to the analysis and design of vapor power generation systems. Vapor power cycles, steam generation, and auxiliary systems associated with power plants. Overall design of power plants as well as component design. Fossil fuel and nuclear energy systems are considered.

Prerequisite: MECH 337.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered: Online. Required field trips. Credit not allowed for both MECH 505 and MECH 581A3.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 507 Laser Diagnostics for Thermosciences Credits: 3 (3-0-0)

Course Description: Basics of optics, spectroscopy, and lasers. Physics and applications of laser diagnostic techniques used in thermosciences.

Prerequisite: PH 142.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 509 Design and Analysis in Engineering Research Credits: 3 (3-0-0)

Course Description: Design, model building, analysis and reporting in engineering and manufacturing research and experimentation.

Prerequisite: MATH 340 and STAT 315.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 513 Simulation Modeling and Experimentation Credits: 3 (3-0-0)

Course Description: Logic/analytic modeling in simulations. Event and transient entity-based simulation languages. Simulation design, experimentation and analysis.

Prerequisite: STAT 315.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 515 Advanced Topics in Mechanical Vibrations Credits: 3 (2-2-0)

Course Description: Structural modal analysis, rotordynamics, and torsional vibrations. Lectures are supported with practical application labs.

Prerequisite: MECH 324.

Registration Information: Junior standing. Must register for lecture and laboratory.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 516 Life Cycle and Techno-Economic Assessment Credits: 3 (3-0-0)

Course Description: Techniques for effective sustainability assessment of engineering process and products, including factors such as upstream energy and material burdens, model boundaries, sensitivity analysis, end of life, material and energy recycling, scalability, and optimization. Engineering process models will be used to assess technologies through economic feasibility and life cycle impacts.

Prerequisite: (MECH 331 or MECH 331A and MECH 331B) and (MECH 344).

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 516 and MECH 681A3.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 517 Chemical Rocket Propulsion Credits: 3 (3-0-0)

Course Description: Principles of chemical rocket propulsion theory, including practical applications of rocket propulsion system design and analysis.

Prerequisite: MECH 342.

Registration Information: Credit not allowed for both MECH 517 and MECH 581A4.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 518 Orbital Mechanics Credits: 3 (3-0-0)

Course Description: Orbital elements, motion, and analyses, including the design and characterization of the common orbit regimes and orbital maneuver options and design. Emphasis on developing technical analytical capabilities, engineering judgement, and intuitive understanding of orbital maneuvers.

Prerequisite: MATH 340 and PH 142.

Restriction: Must be a: Graduate.

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 518 and MECH 580B3.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 519 Aerospace Vehicles Trajectory and Performance Credits: 3 (3-0-0)

Course Description: Trajectory modeling physics and philosophy, and implementation of theories to create and optimize trajectories to several orbits. Launch vehicle conceptual design and sizing, optimal staging, and definition of margins and prediction of mission losses.

Prerequisite: MATH 340 and PH 142.

Restriction: Must be a: Graduate.

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 519 and MECH 580B4.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 520 Finite Element Analysis in Mechanical Engr Credits: 3 (3-0-0)

Course Description: Application of FEA as a tool to analyze mechanical engineering problems.

Prerequisite: (CIVE 360) and (MATH 340 or MATH 530).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 524 Principles of Dynamics Credits: 3 (3-0-0)

Course Description: Kinematics and dynamics of rigid body motion; Lagrangian and Hamiltonian formulations of mechanics; applications to engineering problems.

Prerequisite: MECH 324.

Restriction: Must be a: Graduate.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 525 Cell and Tissue Engineering Credits: 3 (3-0-0)

Also Offered As: BIOM 525.

Course Description: Cell and tissue engineering concepts and techniques with emphasis on cellular response, cell adhesion kinetics, and tissue engineering design.

Prerequisite: BC 351 or BMS 300 or BMS 500 or BZ 310 or NB 501.

Registration Information: Credit only allowed for one of the following: MECH 525, BIOM 525, and CBE 525. Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 527 Hybrid Electric Vehicle Powertrains Credits: 3 (3-0-0)

Course Description: Hybrid powertrains and modeling including vehicle dynamics, internal combustion engine, electric motor, energy storage, and control.

Prerequisite: MECH 307.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 529 Advanced Mechanical Systems Credits: 3 (3-0-0)

Course Description: Modeling, analysis, and synthesis of practical mechanical devices in which dynamic response is dominant consideration.

Prerequisite: MECH 307.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 530 Advanced Composite Materials Credits: 3 (3-0-0)

Course Description: Materials aspects of advanced composite constituents and how their combination yields synergistic results.

Prerequisite: (CIVE 360) and (MECH 331 or MECH 331A and MECH 331B).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 531 Materials Engineering Credits: 3 (3-0-0)

Also Offered As: BIOM 531.

Course Description: Selection of structural engineering materials by properties, processing, and economics; materials for biomedical and biotechnology applications.

Prerequisite: MECH 331 or MECH 331A and MECH 331B or MECH 431.

Registration Information: Credit not allowed for both BIOM 531 and MECH 531. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 532 Materials Issues in Mechanical Design Credits: 3 (3-0-0)

Also Offered As: BIOM 532.

Course Description: Failure mechanisms from materials viewpoint with emphasis on use in design. Fracture, creep, fatigue, and corrosion.

Prerequisite: MECH 331 or MECH 331A and MECH 331B.

Registration Information: Credit not allowed for both BIOM 532 and MECH 532. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 533 Composites Product Development Credits: 3 (2-2-0)

Course Description: Practical application of advanced fiber reinforced materials in mechanical design, including composite constituent materials selection, performance, analysis, and manufacturing.

Prerequisite: (CIVE 360) and (MECH 331 or MECH 331A and MECH 331B).

Registration Information: Graduate standing. Must register for lecture and laboratory. Credit not allowed for both MECH 533 and MECH 580A6.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 534 Energy & Env. Impacts of Transportation Credits: 3 (3-0-0)

Course Description: Energy use and environmental impacts of the transportation sector. Topics include vehicle design, dynamics and efficiency; combustion and emission formation; internal combustion engines, fuel cells, batteries, and powertrains; conventional and alternative fuels; travel demand and modes; and life cycle analysis and criteria pollutant emissions.

Prerequisite: MECH 337.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered: Online. Credit not allowed for both MECH 534 and MECH 580A8.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 535 Mechanics of Composite Materials Credits: 3 (3-0-0)

Course Description: Classical lamination theory of fiber-reinforced composite materials; Mechanical behavior of composite laminates and honeycomb structures; Failure modes and failure criteria. Design of composite structures; Computer modeling of composites.

Prerequisite: (MATH 340 and MECH 325) and (MECH 331 or MECH 331A and MECH 331B).

Registration Information: Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 537 Processing of Polymer Composites Credits: 3 (3-0-0)

Course Description: Basic principles of the processing science of polymer composites, physical and chemical phenomena that occur during manufacturing processes, and solutions to address issues that arise.

Prerequisite: (CIVE 360) and (MECH 331 or MECH 331A and MECH 331B).

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 537 and MECH 581A9.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 538 Mechanical Engineering Thermodynamics Credits: 3 (3-0-0)

Course Description: First and second laws of thermodynamics applied to engineering devices and systems. Introduction to exergy, equilibrium, chemical reactions, thermodynamic relations, and special topics.

Prerequisite: MECH 337.

Restriction: .

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 539 Advanced Fluid Mechanics Credits: 3 (3-0-0)

Course Description: Kinematics, Navier-Stokes equations, vorticity, viscous flows, scaling analysis, boundary layers, secondary flows, entropy generation and transport, stability and transition, turbulence.

Prerequisite: CIVE 300 or MECH 342.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 543 Biofluid Mechanics Credits: 3 (3-0-0)

Course Description: Fluid dynamic concepts for understanding fluid motion in living organs/organisms; advanced research applications.

Prerequisite: (BIOM 421 or CBE 331 or CIVE 300 or MECH 342) and (BMS 300 and PH 121 or PH 141 and BMS 300 or BMS 420).

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 544 Advanced Heat Transfer Credits: 3 (3-0-0)

Course Description: Fundamentals and engineering applications of heat transfer including conduction, convection, and radiation.

Prerequisite: MECH 344.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 551 Physical Gas Dynamics I Credits: 3 (3-0-0)

Course Description: Characteristics of real gases in reacting and nonequilibrium systems; equilibrium air; statistical mechanics, chemical thermodynamics.

Prerequisite: MECH 342.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 552 Applied Computational Fluid Dynamics Credits: 3 (3-0-0)

Course Description: Introductory theory of CFD, formulation of engineering problems for CFD analyses, mesh generation, solver settings, and postprocessing.

Prerequisite: CIVE 300 or CBE 331 or MECH 342.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 553 Industrial Engines Credits: 3 (3-0-0)

Course Description: Technology review, and application of engineering sciences and economics to the analysis and design of large industrial engines. Combustion cycles, fuels, emissions control, and auxiliary systems associated with industrial engines are examined. Study overall systems design of engines as well as application requirements and design limitations.

Prerequisite: MECH 337.

Restriction: Must be a: Graduate.

Registration Information: Sections may be available: Online. Credit not allowed for MECH 553 and MECH 580B1.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 557 Turbomachinery Credits: 3 (3-0-0)

Course Description: Application of fundamental principles of thermodynamics and fluid mechanics to turbomachinery. Topics include types of turbomachines, selection of an appropriate fluid machinery, derivation of energy transfer equations, engineering analysis and design, and performance characteristics.

Prerequisite: MECH 337 and MECH 342.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 558 Combustion Credits: 3 (3-0-0)

Course Description: Combustion processes: explosions, detonations, flame propagation, ignition, generation of pollutants in moving and stationary energy conversion systems.

Prerequisite: MECH 342.

Registration Information: Sections may be offered: Online.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 564 Fundamentals of Robot Mechanics and Controls Credits: 3 (3-0-0)

Course Description: Kinematics of robots, controls for robots.

Prerequisite: MECH 417.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 567 Broad-Beam Ion Sources Credits: 3 (3-0-0)

Course Description: Physical processes in broad-beam electron-bombardment ion sources for space propulsion and ion machining applications.

Prerequisite: MATH 340.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 568 Computational Methods for Mechanical Eng. Credits: 3 (3-0-0)

Course Description: Fundamental principles which provide the foundation for the software and algorithms used in Mechanical Engineering.

Prerequisite: MATH 450 or MATH 451.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 569 Micro-Electro-Mechanical Devices Credits: 3 (3-0-0)

Also Offered As: ECE 569.

Course Description: Micro-electro-mechanical processes and applications in sensors, optics, and structures.

Prerequisite: MECH 344 with a minimum grade of C or ECE 331 with a minimum grade of C.

Registration Information: Credit not allowed for both ECE 569 and MECH 569. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 570 Bioengineering Credits: 3 (3-0-0)

Also Offered As: BIOM 570.

Course Description: Physiological and medical systems analysis using engineering methods including mechanics, fluid dynamics, control electronics, and signal processing.

Prerequisite: CBE 332 or ECE 311 or MECH 331A.

Registration Information: Sections may be offered: Online. Credit not allowed for both BIOM 570 and MECH 570.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 573 Structure and Function of Biomaterials Credits: 3 (3-0-0)

Also Offered As: BIOM 573.

Course Description: Structure-function relationships of natural biomaterials; application to analysis of biomimetic materials and biomaterials used in medical devices.

Prerequisite: MECH 331 or MECH 331A and MECH 331B.

Registration Information: Sections may be offered: Online. Credit not allowed for both BIOM 573 and MECH 573.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 574 Bio-Inspired Surfaces Credits: 3 (3-0-0)

Also Offered As: BIOM 574.

Course Description: Analysis of surface functionalities of various biological species; identification of design principles.

Prerequisite: MECH 342 and CHEM 111.

Registration Information: Sections may be offered: Online. Credit not allowed for both BIOM 574 and MECH 574.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 575 Solar and Alternative Energies Credits: 3 (3-0-0)

Course Description: Solar radiation, flat-plate collectors, energy storage, space heating and cooling, power generation, applications, simulation.

Prerequisite: MECH 337 and MECH 342 and MECH 344.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 576 Quantitative Systems Physiology Credits: 4 (4-0-0)

Also Offered As: BIOM 576.

Course Description: Quantitative, model-oriented approach to cellular and systems physiology with design examples from biomedical engineering.

Prerequisite: BMS 300 and CHEM 113 and MATH 340 and PH 142.

Registration Information: Credit not allowed for both BIOM 576 and MECH 576. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 577 Aerosol Physics and Technology Credits: 3 (3-0-0)

Course Description: Aerosols and their applications in science and engineering, air pollution control, atmospheric science, and public health. Topics cover the physical and chemical principles underlying the behavior of particles suspended in air, including particle size, aerodynamics, motion of particles in a force field, particle size statistics, and optical and electrical properties.

Prerequisite: PH 141.

Registration Information: Senior standing. Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 578 Musculoskeletal Biosolid Mechanics Credits: 3 (3-0-0)

Also Offered As: BIOM 578.

Course Description: Application of engineering concepts to quantify the mechanical behavior of load-bearing biological tissues and orthopaedic implant performance.

Prerequisite: CIVE 360.

Registration Information: Graduate standing. Sections may be offered: Online. Credit not allowed for both BIOM 578 and MECH 578.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 579 Cardiovascular Biomechanics Credits: 3 (3-0-0)

Also Offered As: BIOM 579.

Course Description: Bio-mechanical principles and approaches applied in cardiovascular research.

Prerequisite: MATH 340 and PH 142.

Restriction: Must be a: Graduate.

Registration Information: Graduate students only. Sections may be offered: Online. Credit allowed for only one of the following: BIOM 579, BIOM 581A8, MECH 579, or MECH 581A8.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 628 Applied Fracture Mechanics Credits: 3 (3-0-0)

Course Description: Stress distribution near cracks; energy criteria for fracture; design criteria; fracture toughness testing.

Prerequisite: CIVE 560.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 630 Biologically Inspired Robotics Credits: 3 (3-0-0)

Course Description: Analysis of various locomotion methods (e.g. terrestrial, aquatic, and aerial) found in animals or insects and examination of a variety of biologically inspired robots utilizing these locomotion capabilities.

Prerequisite: MECH 564.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 630 and MECH 681A4.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 631 Defects in Crystals Credits: 3 (3-0-0)

Also Offered As: MSE 631.

Course Description: Mechanics, thermodynamics and kinetics of defects in crystalline solids including point defects, dislocations, and grain boundaries.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: MECH 631, MSE 631, or MECH 681A2.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 657 Advanced Computational Gas Dynamics Credits: 4 (3-2-0)

Course Description: Advanced computational algorithms for gas dynamics.

Prerequisite: MECH 568.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 658 Advanced Combustion Theory and Modeling Credits: 3 (3-0-0)

Course Description: Asymptotic structure of flames, limit phenomena and multi-phase combustion.

Prerequisite: MECH 558.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 661 Theory/Control of Internal Combustion Engines Credits: 3 (3-0-0)

Course Description: Theory and applications of internal combustion engines. Alternative fuels, engine control, and pollution prevention.

Prerequisite: MECH 437.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 671 Orthopedic Tissue Biomechanics Credits: 3 (3-0-0)

Also Offered As: BIOM 671.

Course Description: Linear elastic, finite deformation, and viscoelastic theories applied to the mechanical behavior of orthopedic tissues (bone, tendon, cartilage).

Prerequisite: CIVE 560.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both BIOM 671 and MECH 671.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

MECH 692 Seminar Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MECH 695A Independent Study: Bioengineering Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MECH 695B Independent Study: Energy Conversion Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MECH 695C Independent Study: Environmental Engineering Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MECH 695D Independent Study: Heat and Mass Transfer Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MECH 695E Independent Study: Industrial and Systems Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MECH 695F Independent Study: Mechanics and Design Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MECH 695G Independent Study: Computer-Assisted Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MECH 695H Independent Study: Robotics Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MECH 695I Independent Study: Solar Engineering Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MECH 695J Independent Study: Computational Fluids Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MECH 695K Independent Study: Materials Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MECH 695L Independent Study: Plasma Engineering Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MECH 695M Independent Study: Motorsport Engineering Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

MECH 699A Thesis: Bioengineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

MECH 699B Thesis: Energy Conversion Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

MECH 699C Thesis: Environmental Engineering Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

MECH 699D Thesis: Heat and Mass Transfer Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

MECH 699E Thesis: Industrial and Systems Engineering Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

MECH 699F Thesis: Mechanics and Design Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

MECH 699G Thesis: Computer-Assisted Engineering Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

MECH 699H Thesis: Robotics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

MECH 699I Thesis: Solar Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

MECH 699J Thesis: Computational Fluids Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

MECH 699K Thesis: Materials Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

MECH 699L Thesis: Plasma Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MECH 699M Thesis: Motorsport Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MECH 699N Thesis: Aerospace Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MECH 699O Thesis: Advanced Manufacturing Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

MECH 778 Advanced Computational Modeling of Fluids Credits:

3 (3-0-0)

Course Description: Advanced topics in computational fluid dynamics, finite element methods, and linear/nonlinear engineering optimization techniques.

Prerequisite: MECH 568.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 784 Supervised College Teaching Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MECH 799A Dissertation: Bioengineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MECH 799B Dissertation: Energy Conversion Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MECH 799C Dissertation: Environmental Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MECH 799D Dissertation: Heat and Mass Transfer Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MECH 799E Dissertation: Industrial and Systems Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MECH 799F Dissertation: Mechanics and Design Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MECH 799G Dissertation: Computer-Assisted Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MECH 799H Dissertation: Robotics Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MECH 799I Dissertation: Solar Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MECH 799J Dissertation: Computational Fluids Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MECH 799K Dissertation: Materials Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MECH 799L Dissertation: Plasma Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MECH 799M Dissertation: Motorsport Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Major in Mechanical Engineering

Is making a difference important to you? Do you like putting ideas and designs to work? Are you interested in collaborating and working in teams with others? Would you enjoy the challenge of inventing sustainable energy devices, leading computer-aided product design, or biomedical research? Does creating new designs for the hybrid

electric vehicle industry, or new airplanes in the fields of aeronautics and aerospace sound interesting? Would designing or doing research and development in a wide range of industrial and governmental enterprises appeal to you? Does studying thermal sciences and the integration of electronic and mechanical devices interest you? If your answer to any of these questions is “yes,” then a major in Mechanical Engineering may be for you.

Mechanical engineers are creative problem solvers who design, develop, and manufacture the machines and instrumentation that run energy, building, environmental, and transportation systems. Examples include biomedical devices, ground/air/space vehicles, robots, environmental control equipment, and power plants.

In Mechanical Engineering, students take basic science and mathematics courses while beginning their engineering studies in design and computing. A broad spectrum of classes is designed to sharpen problem-solving skills. The senior year focuses on a year-long capstone design course to help students in the transition from college to an engineering career. Students also choose technical electives from the energy, automotive, material science, manufacturing, dynamic systems, robotics and controls, simulation and modeling, and biomedical engineering areas. Participation in labs provides an active learning environment and further develops design, modeling, and analytical skills.

Mechanical Engineering at CSU is dedicated to graduating ethical mechanical engineers who:

- Make an impact on society's global, grand engineering challenges
- Act as innovative and creative engineering designers who identify, analyze, and solve complex problems
- Function as accomplished thinkers with hands-on practical skills
- Serve as local, regional, and global collaborators and communicators
- Commit to life-long learning
- Uphold the CSU Principles of Community which encompass inclusion, integrity, respect, service, and social justice

Program Educational Objectives

Mechanical Engineering Bachelor of Science graduates will be able to accomplish the following within the first few years after graduation:

- Identify, analyze, formulate, and solve engineering problems associated with their professional position, both independently and in a team environment
- Manage multi-faceted and multi-disciplinary projects with significant legal, ethical, regulatory, social, environmental, and economic considerations using a broad systems perspective

- Communicate effectively with colleagues, professional clients, and the public
- Demonstrate commitment and progress in lifelong learning, professional development, and leadership

Student Outcomes

Graduates of the undergraduate Mechanical Engineering program will be prepared to:

- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- Communicate effectively with a range of audiences
- Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
- Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- Acquire and apply new knowledge as needed, using appropriate learning strategies

Potential Occupations

Graduates from the Department of Mechanical Engineering are expected to have the fundamental knowledge required for the successful practice of mechanical engineering. CSU engineering graduates are well prepared for a professional career. The Department boasts a 100% pass rate on the Fundamentals of Engineering professional examination. Participating in internships, co-curricular and volunteer activities, and cooperative education opportunities is highly recommended to enhance practical training and development. Students who continue on to pursue a graduate education can attain more responsible positions with the possibility of rising to top professional levels.

Major Completion Map

Distinctive Requirements for Degree Program:
TO DECLARE MAJOR: Competitive entry controls required and capped enrollment in place. Incoming students please see the Office of Admissions to declare. Current CSU students please see your assigned advisor for information about the waitlist.

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus.

Major in Mechanical Engineering, Advanced Manufacturing Concentration

Advanced Manufacturing explores manufacturing techniques, automation, simulation, and processing of materials. This concentration is available to all mechanical engineering students who wish to delve

deeper into manufacturing topics. Students will have a solid foundation in manufacturing topics through their mechanical engineering major. With the addition of the concentration in advanced manufacturing, students will earn a specialized focus in advanced manufacturing, providing additional depth in this topic area.

Major in Mechanical Engineering, Aerospace Engineering Concentration

Aerospace engineering covers the design, construction and science of aircraft and spacecraft. Designed for undergraduate mechanical engineering majors, the aerospace concentration offers students a mechanical engineering degree foundation and specialized training in the aerospace discipline. Coursework will focus on aerospace fundamentals,

including fluid flow mechanics, propulsion, materials, and manufacturing. The required courses will provide an introduction to the processing steps required in aerospace development, with a focus on the design, manufacturing, and life cycle costs of a specific product.

Graduate Certificate in Advanced Manufacturing

The Graduate Certificate in Advanced Manufacturing provides students with the basic competencies, skills, and experience needed to advance their careers in a manufacturing industry. A graduate certificate requires completion of 9 credits of 500-level and above graduate work. Students may apply for and complete just the certificate or may apply for both the certificate and a degree program. This allows students to start with the certificate and continue to a more advanced degree.

Requirements Effective Spring 2022

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Select 9 credits from the following courses:		
MECH 502	Advanced/Additive Manufacturing Engineering	9
MECH 513	Simulation Modeling and Experimentation	
MECH 529	Advanced Mechanical Systems	
MECH 530	Advanced Composite Materials	
MECH 531/ BIOM 531	Materials Engineering	
MECH 533	Composites Product Development	
MECH 537	Processing of Polymer Composites	
MECH 564	Fundamentals of Robot Mechanics and Controls	
MSE 502A	Materials Science & Engineering Methods: Materials Structure and Scattering	
Program Total Credits:		9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Aerospace Engineering

The Graduate Certificate in Aerospace Engineering provides an introduction to aerospace engineering disciplines, including fluid flow, propulsion, and structures. A graduate certificate requires completion of 9 credits of 500-level and above graduate work. Students may apply for and complete just the certificate or may apply for both the certificate and

a degree program. This allows students to start with the certificate and continue to a more advanced degree.

Requirements Effective Fall 2023

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Select 9 credits from the following courses:		
MECH 507	Laser Diagnostics for Thermosciences	
MECH 515	Advanced Topics in Mechanical Vibrations	
MECH 517	Chemical Rocket Propulsion

MECH 558	Combustion	
MECH 567	Broad-Beam Ion Sources	
MECH 568	Computational Methods for Mechanical Eng.	
MECH 658	Advanced Combustion Theory and Modeling	
Program Total Credits:		9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Master of Engineering, Plan C, Mechanical Engineering Specialization

The Master of Engineering, Plan C, Mechanical Engineering Specialization is an online or on-campus degree program focused on enhancing the expertise of working professionals or continuing students who are looking to keep up with the pace of innovation within their industry and advance in their careers. Engineers who want to further their careers with industrial firms and governmental agencies or those who want to

pursue a career in private practice should consider this degree. This is a coursework-only degree program with no thesis requirement.

Requirements Effective Summer 2023

General Program Requirements:

- Minimum 30 total credits of regular coursework (i.e. courses that are not numbered -8* or -9*)
- Minimum 21 credits, taken at CSU, that are 500-level or above
- Minimum 24 credits of MECH subject code coursework
- Minimum 21 credits taken after program admission

Students can take any courses as long as they meet the broad program requirements, above. Students who are specifically interested in the disciplines of materials engineering or biomedical engineering may find the elective guides, below, helpful in identifying coursework.

MECH 569/ECE 569	Micro-Electro-Mechanical Devices	3

Master of Science in Mechanical Engineering, Plan A

The Master of Science in Mechanical Engineering, Plan A is ideal for students who are interested in advancing their career in industry or research. The program combines valuable classroom instruction with research experiences. Students conduct research under the supervision of a faculty advisor, often the Principal Investigator (P.I.), for a government or industry sponsored project. The student's research, in conjunction with thesis credits and coursework, culminates in an article for submission to a peer-reviewed journal and a final thesis.

Learning Objectives

1. Bring together faculty members and graduate students in a diverse community of scholars having a common interest in advanced professional study and creative work.
2. Extend the boundaries of the mechanical engineering profession by developing advanced technologies to provide creative solutions to global problems such as energy, environment and human health.
3. Consideration of a challenging problem utilizing analytical, experimental, and/or design techniques 1) to determine and explain the behavior of a simple system or 2) to bring into logical order the techniques of a field which has experienced random growth.
4. Develop new analytical knowledge, experimental knowledge, design knowledge, or a combination thereof.

Requirements Effective Fall 2023

Code	Title	Credits
Select 2 courses from the following:		6-7
CBE 521	Mathematical Modeling for Chemical Engineers	
CIVE 560	Advanced Mechanics of Materials	
ENGR 550/ MATH 550	Numerical Methods in Science and Engineering	
MATH 530	Mathematics for Scientists and Engineers	
MECH 529	Advanced Mechanical Systems	
MECH 532/ BIOM 532	Materials Issues in Mechanical Design	
MECH 538	Mechanical Engineering Thermodynamics	
MECH 539	Advanced Fluid Mechanics	
MECH 544	Advanced Heat Transfer	
MECH 568	Computational Methods for Mechanical Eng.	
Electives ¹		11-18
Select one from the following:		6-12
MECH 699A	Thesis: Bioengineering	
MECH 699B	Thesis: Energy Conversion	
MECH 699C	Thesis: Environmental Engineering	
MECH 699D	Thesis: Heat and Mass Transfer	
MECH 699E	Thesis: Industrial and Systems Engineering	
MECH 699F	Thesis: Mechanics and Design	
MECH 699G	Thesis: Computer-Assisted Engineering	
MECH 699H	Thesis: Robotics	
MECH 699I	Thesis: Solar Engineering	
MECH 699J	Thesis: Computational Fluids	
MECH 699K	Thesis: Materials	
MECH 699L	Thesis: Plasma Engineering	
MECH 699M	Thesis: Motorsport Engineering	
Program Total Credits:		30

A minimum of 30 credits are required to complete this program. Of the 30 minimum credits required for this program, at least 24 credits must be at the 500-level or above and earned at CSU.

¹ Select courses with approval of advisor and graduate committee.

Master of Science in Mechanical Engineering, Plan B

The Master of Science in Mechanical Engineering, Plan B is ideal for students who are interested in advancing their career in industry or research. The program combines valuable classroom instruction with research experiences. Students conduct research under the supervision of a faculty advisor, often the Principal Investigator (P.I.), for a government or industry sponsored project.

Learning Objectives

1. Bring together faculty members and graduate students in a diverse community of scholars having a common interest in advanced professional study and creative work.
2. Extend the boundaries of the mechanical engineering profession by developing advanced technologies to provide creative solutions to global problems such as energy, environment and human health.
3. Consideration of a challenging problem utilizing analytical, experimental, and/or design techniques 1) to determine and explain the behavior of a simple system or 2) to bring into logical order the techniques of a field which has experienced random growth.
4. Develop new analytical knowledge, experimental knowledge, design knowledge, or a combination thereof.

Ph.D. in Mechanical Engineering

The Ph.D. in Mechanical Engineering is ideal for students looking to pursue advanced-level careers in industry, research, or academia. Students pursuing a Ph.D. in Mechanical Engineering undertake advanced research under the mentorship of a faculty advisor (Principal Investigator), most often on a government or industry funded project as a paid research assistant. The degree plan involves consideration of a challenging problem utilizing analytical, experimental, and/or design techniques. This research – in addition to coursework, exams, journal articles, and dissertation credits – culminates in a final dissertation. The dissertation contains new analytical knowledge, experimental knowledge, design knowledge, or a combination thereof. The dissertation must make an original contribution to the field.

MECH 799L	Dissertation: Plasma
MECH 799M	Dissertation: Motorsport Engineering

Program Total Credits: 72

A minimum of 72 credits are required to complete this program. Of the 72 minimum credits required for this program, at least 21 credits must be at the 500-level or above and earned at CSU. Minimum of 15 credits with the MECH subject code. Minimum 12 credits in regular courses numbered 500 and above (not including dissertation, independent study, or supervised teaching).

¹ Select courses with approval of advisor and graduate committee.

² A maximum of 30 credits may be accepted from an engineering master's degree.

School of Biomedical Engineering

Scott Bioengineering Building, Suite 225
 engr.colostate.edu/sbme (<http://www.engr.colostate.edu/sbme/>)
 (970) 491-7157

Professor Stuart Tobet, Director
 Professor Kevin Lear, Associate Director; and Director, Undergraduate Programs
 Associate Professor Ketul Popat, Interim Director, Undergraduate Programs

The School of Biomedical Engineering (SBME) stands on a foundation of strong faculty and research programs from four CSU colleges: the Walter Scott, Jr. College of Engineering, and the Colleges of Health and Human Sciences, Natural Sciences, and Veterinary Medicine & Biomedical Sciences. The unique structure of the School involves over 70 faculty members representing 14 departments to provide an interdisciplinary focus on improving health, fighting disease, and aiding persons with disabilities. Academic excellence across diverse fields converges into three primary areas of research: (1) regenerative and rehabilitative medicine, (2) imaging and diagnostics, and (3) medical devices and therapeutics.

At the graduate level, SBME offers a Master of Science and a Doctor of Philosophy in Bioengineering, and a Master of Engineering (online and on campus) with a specialization in Biomedical Engineering. See the Graduate and Professional Bulletin for graduate program listings. The Walter Scott, Jr. College of Engineering offers a Bachelor of Science in Biomedical Engineering with a unique five-year program where graduates receive two B.S. degrees: one in Biomedical Engineering and the other in one of four traditional engineering areas - Chemical & Biological Engineering, Computer Engineering, Electrical Engineering, or Mechanical Engineering. An undergraduate Biomedical Engineering Interdisciplinary Minor is also offered.

Biomedical engineering lies at the interface of engineering, biology, and medicine. With over 40 state-of-the-art biomedical and engineering research labs, including the world-renowned Veterinary Teaching Hospital and Animal Cancer Center, we offer hands-on experience for undergraduate and graduate students to work alongside leading researchers. CSU provides a rich environment for interdisciplinary research and day-to-day collaborations and is positioned to offer unique bioengineering degree programs due to our faculty expertise, the interdisciplinary nature of the SBME, and the highly-ranked veterinary program. Our Biomedical Engineering programs integrate biological, chemical, physical, and mathematical sciences with engineering principles and clinical studies, and our graduates are well prepared for careers in research, education, veterinary or human medicine, and industry.

Biomedical engineers are involved in a wide variety of activities on a daily basis. Practical applications of biomedical engineering include development, design, production, research, and/or teaching in areas such as:

- Designing biomedical materials, medical devices, instrumentation and equipment (software/firmware/hardware) for therapeutics such as pacemakers, assistive devices, joint replacement materials, prosthetics, surgical tools.
- Developing or improving therapies for fighting cancer, tuberculosis, or other illnesses and diseases (e.g., nanoscaffolding for localized chemotherapy delivery, telemetric sensors to determine healing rates in bone fractures or to detect key chemicals in live tissue with high temporal and spatial resolution)
- Finding better ways to image and/or diagnose illnesses (e.g., using laser-based imaging to detect viruses, developing ways to increase electrical signals to detect threats to food safety and security, designing biosensors to diagnose cancer cells, developing software to determine toxic pesticide levels in people)

Potential Occupations

Biomedical engineering applies engineering principles to medicine and improving quality of life for humans and animals. Biomedical engineers

work in a variety of settings. Some biomedical engineers spend their days in the lab, researching new devices and systems that solve medical and health care-related problems. Others might work in clinical settings, run biomedical-focused enterprises, design/manufacture new therapies or diagnostics, assist medical facilities with engineering equipment, processes and/or systems, or engage in regulatory affairs or patent law. Our graduates are well prepared for careers in research, education, or industry.

Undergraduate Undergraduate Bachelor of Science Programs in Biomedical Engineering

The Bachelor of Science program in Biomedical Engineering has five pathways, each of which provide depth in a traditional area of engineering and breadth in biomedical engineering knowledge and applications. The coursework in these five pathways is designed to support biomedical engineering, and to satisfy the curricular requirements of one of five traditional engineering degrees as administered by partner engineering departments.

The five curricular pathways for the BME B.S. degree are:

- B.S. degree in Biomedical Engineering combined with a B.S. degree in Chemical and Biological Engineering
- B..S. degree in Biomedical Engineering combined with a B.S. degree in Computer Engineering
- B.S. degree in Biomedical Engineering combined with a B.S. degree in Electrical Engineering, Electrical Engineering Concentration
- B.S. degree in Biomedical Engineering combined with a B.S. degree in Electrical Engineering, Laser and Optical Concentration
- B.S. degree in Biomedical Engineering combined with a B.S. degree in Mechanical Engineering

Each BME pathway requires a minimum of 157-158 credit hours of coursework, depending on the selected pathway, nominally distributed over five years.

In the first two years, students take introductory biomedical engineering courses as well as foundational math, science, and engineering courses. The third year and fourth years solidify expertise in the traditional engineering major while building strength in biomedical engineering, life and physical sciences courses. The following years allow students to build a more thorough understanding of biomedical engineering, and their studies culminate in a Senior Design project in the fifth year that provides hands-on experience with an interdisciplinary team of peers. This combination of practical application and traditional academic rigor support the breadth and depth of this fairly unique program, and provides excellent preparation and market value for graduates' next steps in industry, academia, or research.

The Bachelor of Science in Biomedical Engineering at Colorado State University is accredited by the Accreditation Board for Engineering and Technology (ABET). It was first accredited in 2016, and this accreditation is retroactive for all prior graduates of the B.S. in biomedical engineering program. The partner majors include electrical engineering (EE), chemical and biological engineering (CBE), and mechanical engineering (MECH) and these three degree programs are accredited by the Engineering Accreditation Commission of ABET.

The educational objectives of the biomedical engineering program are to prepare our students to:

- Demonstrate high professional, social, and ethical standards while examining and addressing the global impact of technology to improve quality of life in society and environment
- Apply broad and deep knowledge, practical experiences, and creativity to solving problems at the interface of engineering and the life sciences as individuals and team members
- Use their multidisciplinary background to foster communication and collaboration across professional and disciplinary boundaries
- Recognize and expand the scope of their knowledge, continue self-directed learning, and identify and create professional opportunities for themselves and others

Successful graduates in Biomedical Engineering will have the ability to:

- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- Communicate effectively with a range of audiences
- Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
- Function effectively on a multidisciplinary team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- Acquire and apply new knowledge as needed, using appropriate learning strategies
- Apply principles of engineering, biology, human physiology, chemistry, calculus-based physics, mathematics (through differential equations), and statistics;
- Solve bio/biomedical engineering problems, including those associated with the interaction between living and non-living systems;
- Analyze, model, design, and realize bio/biomedical engineering devices, systems, components, or processes; and
- Make measurements on and interpret data from living systems

BME Bachelor of Science Programs

- Biomedical Engineering, B.S. combined with Chemical and Biological Engineering, B.S.
- Biomedical Engineering, B.S. combined with Computer Engineering, B.S.
- Biomedical Engineering, B.S. combined with Electrical Engineering, B.S., Electrical Engineering Concentration
- Biomedical Engineering, B.S. combined with Electrical Engineering, B.S., Lasers and Optical Engineering Concentration

- Biomedical Engineering, B.S. combined with Mechanical Engineering, B.S.

Undergraduate Certificate

- Certificate in Global Biomedical Engineering

Graduate Graduate Program in Biomedical Engineering

Students interested in graduate work should refer to the Graduate and Professional Bulletin (<http://catalog.colostate.edu/general-catalog/graduate-bulletin/>) or the (<http://www.engr.colostate.edu/ce/degreeinfo.shtml/>) School of Biomedical Engineering.

Certificate

- Biomaterials and Tissue Engineering

Master's Programs

- Master of Engineering, Plan C, Biomedical Engineering Specialization
- Master of Science in Bioengineering

Ph.D.

- Ph.D. in Bioengineering

Courses Biomedical Engineering (BIOM)

BIOM 100 Overview of Biomedical Engineering Credit: 1 (1-0-0)

Course Description: Overview of the field of biomedical engineering with an emphasis on the roles of mechanical, electrical, and chemical/biological engineering principles.

Prerequisite: None.

Restriction: Must be a: Undergraduate.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: BIOM 100, BIOM 101, BIOM 109, or BIOM 180A1.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 101 Introduction to Biomedical Engineering Credits: 3 (3-0-0)

Course Description: Basic principles, fundamentals in biomedical engineering including molecular, cellular and physiological principles, major areas such as biomechanics.

Prerequisite: None.

Registration Information: Credit allowed for only one of the following: BIOM 100, BIOM 101, BIOM 109, or BIOM 180A1. Credit not allowed for both BIOM 101 and BIOM 200.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 109 Principles of Biomedical Engineering Credit: 1 (1-0-0)

Course Description: Fundamental principles of biomedical engineering and commonalities with mechanical, electrical, and chemical/biological engineering. Emphasis on the application of engineering design in a biomedical context. Introduction to industrial and academic career paths.

Prerequisite: None.

Registration Information: Offered as an online course only. Only offered for high school students who are concurrently enrolled in the complementary in-person course at a participating high school. Credit allowed for only one of the following: BIOM 100, BIOM 101, BIOM 109, or BIOM 180A1.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 200 Fundamentals of Biomedical Engineering Credits: 2 (2-0-0)

Course Description: Application of engineering analysis to physiology and biomedical engineering topics.

Prerequisite: BIOM 100, may be taken concurrently and LIFE 102 and MATH 160.

Restriction: Must be a: Undergraduate.

Registration Information: Sections may be offered: Online. Credit not allowed for both BIOM 101 and BIOM 200.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 300 Problem-Based Learning Biomedical Engr Lab Credits: 4 (1-4-1)

Course Description: Group problem-based learning approach to problems spanning all core areas of biomedical engineering.

Prerequisite: (BIOM 101 or BIOM 200 or BIOM 100 and CBE 205 and MECH 262) and (MATH 340 or MATH 345).

Registration Information: Junior standing. Must register for lecture, lab, and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

BIOM 304 Global Challenges and Collaborations in BME Credits: 3 (3-0-0)

Course Description: Foundational elements of cross-cultural competence in the biomedical engineering field, considering social, political, and economic differences in areas such as medical device design, regulation, technology transfer, and ethics.

Prerequisite: BIOM 100 or BIOM 101.

Restrictions: Must not be a: Freshman. Must be a: Undergraduate.

Registration Information: Sophomore standing. Offered as Mixed Face-to-Face. Credit not allowed for both BIOM 304 and BIOM 380A2.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 306 Bioprocess Engineering Credits: 4 (3-2-0)

Also Offered As: BTEC 306.

Course Description: Material, energy balances; fluid flow, heat exchange, mass transfer; application to operations in food, fermentation, other bioprocess industries.

Prerequisite: (CHEM 107 or CHEM 111) and (PH 121 or PH 141).

Registration Information: Must register for lecture and laboratory. Credit not allowed for both BIOM 306 and BTEC 306.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 350A Study Abroad--Ecuador: Prosthetics Credits: Var[1-2] (0-0-0)

Course Description: Design and fabricate prosthetics for under-served populations in Ecuador. Course experience will occur in Quito, Ecuador in partnership with Range of Motion Project (ROMP), a non-profit healthcare organization.

Prerequisite: None.

Registration Information: Credit not allowed for both BIOM 350A and BIOM 382A.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 350B Study Abroad--Portugal: Biomedical Engineering and Healthcare Credit: 1 (0-0-1)

Course Description: Intercultural exchange in Portugal, with a focus on becoming familiar with pharmaceutical production, regulatory affairs and quality control, product development, and practices in biotechnology and biomedical engineering. Visits to historic and cultural sites and pharmaceutical, biomedical, biotechnology, and healthcare facilities.

Prerequisite: None.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 403 Intro to Optical Techniques in Biomedical Eng Credits: 3 (3-0-0)

Also Offered As: ECE 403.

Course Description: Engineering design principles of optical characterization techniques for biomedical systems, including optical spectroscopy and microscopy of biomolecules and tissues.

Prerequisite: CHEM 111 and PH 142 with a minimum grade of C.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: BIOM 403, BIOM 481A3, ECE 403, or ECE 481A3.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 421 Transport Phenomena in Biomedical Engineering Credits: 3 (3-0-0)

Course Description: Engineering models of active and passive mechanisms of momentum. Heat and mass transport in mammalian cells, tissues, and organ systems.

Prerequisite: (BMS 300) and (CBE 332 or MECH 344).

Registration Information: Sections may be offered: Online. Credit not allowed for both BIOM 330 and BIOM 421.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 422 Quantitative Systems and Synthetic Biology Credits: 3 (3-0-0)

Course Description: In-depth analysis of the quantitative systems approach to biology and biological engineering at the molecular and cellular scales.

Prerequisite: BIOM 421 or CBE 320.

Registration Information: Sections may be offered: Online. Credit not allowed for both BIOM 400 and BIOM 422.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 431 Biomedical Signal and Image Processing Credits: 3 (3-0-0)
Also Offered As: ECE 431.

Course Description: Principles, features and mathematical processing of biomedical signals and images including interference and noise filtering and feature enhancement.

Prerequisite: (ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C) and (ECE 311 with a minimum grade of C and PH 142 with a minimum grade of C).

Registration Information: Sections may be offered: Online. Credit not allowed for both BIOM 431 and ECE 431.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 441 Biomechanics and Biomaterials Credits: 3 (3-0-0)

Course Description: Principles of biomechanics, biofluids, and biomaterials.

Prerequisite: (BMS 300, may be taken concurrently and CIVE 360 and MECH 324, may be taken concurrently) and (MECH 331, may be taken concurrently or MECH 331B, may be taken concurrently and MECH 331A, may be taken concurrently) and (MECH 342).

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 470 Biomedical Engineering Credits: 3 (3-0-0)

Also Offered As: MECH 470.

Course Description: Engineering application in human/animal physiology, diagnosis of disease, treatment, rehabilitation, human genome manipulation.

Prerequisite: (PH 141) and (MATH 155 or MATH 160).

Registration Information: Credit not allowed for both BIOM 470 and MECH 470.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 476 Biomedical Engineering Clinical Practicum Credits: Var[1-3] (0-0-0)

Course Description: Biomedical lab work or research project in hospital, clinical, or other medical environment.

Prerequisite: BMS 300.

Restrictions: Must not be a: Freshman, Sophomore. Must be a: Undergraduate.

Registration Information: Written consent of department chair. Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BIOM 486A Biomedical Design Practicum: Capstone Design I Credits: 4 (0-0-10)

Course Description:

Prerequisite: (BIOM 300) and (BIOM 421 and CBE 320 and CBE 442 or ECE 342 and BIOM 431 and ECE 311 and ECE 332 or MECH 301B, may be taken concurrently and MECH 307 and BIOM 441 and MECH 301A or BIOM 441 and MECH 301 and MECH 307).

Restrictions: Must not be a: Freshman, Sophomore, Junior. Must be a: Undergraduate.

Registration Information: Senior standing. Enrollment in biomedical engineering major.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 486B Biomedical Design Practicum: Capstone Design II Credits: 4 (0-0-10)

Course Description:

Prerequisite: (BIOM 486A) and (CBE 451 or ECE 312 or MECH 325 and MECH 344 or PH 353).

Restrictions: Must not be a: Freshman, Sophomore, Junior. Must be a: Undergraduate.

Registration Information: Senior standing. Enrollment in biomedical engineering major.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 495 Independent Study Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BIOM 504 Fundamentals of Biochemical Engineering Credits: 3 (3-0-0)
Also Offered As: CBE 504.

Course Description: Application of chemical engineering principles to enzyme kinetics, fermentation and cell culture, product purification, and bioprocess design.

Prerequisite: CBE 205.

Registration Information: Senior standing. Sections may be offered: Online. Credit not allowed for both BIOM 504 and CBE 504.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 517 Advanced Optical Imaging Credits: 3 (3-0-0)

Also Offered As: ECE 517.

Course Description: Engineering design principles of advanced optical imaging techniques and image formation theory.

Prerequisite: ECE 342 with a minimum grade of C or MATH 340 with a minimum grade of C or MATH 345 with a minimum grade of C.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: BIOM 517, BIOM 581B7, ECE 517 or ECE 581B7.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 518 Biophotonics Credits: 3 (3-0-0)**Also Offered As:** ECE 518.**Course Description:** Engineering design principles of optical instrumentation for medical diagnostics. Light propagation and imaging in biological tissues.**Prerequisite:** ECE 342 with a minimum grade of C or ECE 457 with a minimum grade of C or MATH 340 with a minimum grade of C or MATH 345 with a minimum grade of C.**Restriction:** Must not be a: Freshman, Sophomore.**Registration Information:** Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: BIOM 518, BIOM 581A9, ECE 518 or ECE 581A9.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 522 Bioseparation Processes Credits: 3 (3-0-0)****Also Offered As:** CBE 522.**Course Description:** Analysis of processes to recover and purify fermentation products.**Prerequisite:** CBE 331.**Registration Information:** Sections may be offered: Online. Credit allowed for only one of the following: BIOM 522, CBE 522, or CBE 581A2.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 525 Cell and Tissue Engineering Credits: 3 (3-0-0)****Also Offered As:** MECH 525.**Course Description:** Cell and tissue engineering concepts and techniques with emphasis on cellular response, cell adhesion kinetics, and tissue engineering design.**Prerequisite:** BC 351 or BMS 300 or BMS 500 or BZ 310 or NB 501.**Registration Information:** Credit allowed for only one of the following: BIOM 525, CBE 525, MECH 525. Sections may be offered: Online.**Term Offered:** Spring. (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 526 Biological Physics Credits: 3 (3-0-0)****Also Offered As:** ECE 526.**Course Description:** Mathematical and physical modeling of biological systems. Mass transport in cellular environments. Electrical/mechanical properties of biomolecules.**Prerequisite:** (MATH 340 or MATH 345) and (PH 122 or PH 142).**Restriction:** Must not be a: Freshman, Sophomore.**Registration Information:** Credit not allowed for both BIOM 526 and ECE 526. Sections may be offered: Online.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 527A Biosensing: Cells as Circuits Credit: 1 (1-0-0)****Also Offered As:** ECE 527A.**Course Description:** Treatment of biological cells as circuits and their electrical time-dependent function and frequency-dependent impedance. Topics include the Hodgkin–Huxley circuit model, diffusion equation, and modeling action potential propagation.**Prerequisite:** (BIOM 101 or LIFE 102) and (CHEM 111) and (MATH 340 or MATH 345) and (PH 142).**Registration Information:** Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527A, BIOM 581B1, ECE 527A, or ECE 581B1.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 527B Biosensing: Signal and Noise in Biosensors Credit: 1 (1-0-0)****Also Offered As:** ECE 527B.**Course Description:** Quantitative treatment of concepts of noise, interference and signal including noise types and spectra, filtering, and limitations imposed by noise. Example applications to Biosensors.**Prerequisite:** (MATH 340, may be taken concurrently or MATH 345, may be taken concurrently) and (PH 142).**Registration Information:** Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527B, BIOM 581B2, ECE 527B, or ECE 581B2.**Term Offered:** Spring (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 527C Biosensing: Sensor Circuit Fundamentals Credit: 1 (1-0-0)****Also Offered As:** ECE 527C.**Course Description:** Introduction to circuit concepts used in sensors, including review of basic circuit elements of resistors, capacitors, and MOS (Metal-Oxide-Semiconductor transistors) elements. Fundamentals of the application of MOS circuits for signal conditioning and amplification and how sensor's backend signal processing is carried out after the sensor signal transduction stage.**Prerequisite:** (BIOM 101 or LIFE 102) and (MATH 340, may be taken concurrently or MATH 345, may be taken concurrently) and (PH 142).**Registration Information:** Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527C, BIOM 581B3, ECE 527C, or ECE 581B3.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 527D Biosensing: Electrochemical Sensors Credit: 1 (1-0-0)****Also Offered As:** ECE 527D.**Course Description:** Introduction to the electrochemistry, and applications of electrochemical methods, used for detection of certain classes of chemicals and molecules.**Prerequisite:** (BIOM 101 or LIFE 102) and (CHEM 111) and (MATH 255 or MATH 261) and (PH 142).**Registration Information:** Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527D, BIOM 581B5, ECE 527D, or ECE 581B5.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.

BIOM 527E Biosensing: Affinity Sensors Credit: 1 (1-0-0)**Also Offered As:** ECE 527E.**Course Description:** Fundamentals of affinity sensor application and design, including optical and electrical approaches and technologies.**Prerequisite:** (BIOM 101 or LIFE 102) and (CHEM 111) and (MATH 340, may be taken concurrently or MATH 345, may be taken concurrently) and (PH 142).**Registration Information:** Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527E, BIOM 581B4, ECE 527E, or ECE 581B4.**Term Offered:** Spring (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 527F Biosensing: Biophotonic Sensors Using Refractive Index Credit: 1 (1-0-0)****Also Offered As:** ECE 527F.**Course Description:** Operating principles of optical biosensors based on changes in refractive index, such as thin films, ring-resonators, Mach-Zehnder interferometers, and other evanescent wave sensors. Basic supporting optical concepts, including thin-film interference, optical waveguides and evanescent waves.**Prerequisite:** (BIOM 527F or ECE 527F) and (MATH 340, may be taken concurrently or MATH 345, may be taken concurrently) and (PH 142).**Registration Information:** Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527F, BIOM 581B6, ECE 527F, or ECE 581B6.**Term Offered:** Spring (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 531 Materials Engineering Credits: 3 (3-0-0)****Also Offered As:** MECH 531.**Course Description:** Selection of structural engineering materials by properties, processing, and economics; materials for biomedical and biotechnology applications.**Prerequisite:** MECH 331 or MECH 331A and MECH 331B or MECH 431.**Registration Information:** Credit not allowed for both BIOM 531 and MECH 531. Sections may be offered: Online.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 532 Materials Issues in Mechanical Design Credits: 3 (3-0-0)****Also Offered As:** MECH 532.**Course Description:** Failure mechanisms from materials viewpoint with emphasis on use in design. Fracture, creep, fatigue, and corrosion.**Prerequisite:** MECH 331 or MECH 331A and MECH 331B.**Registration Information:** Credit not allowed for both BIOM 532 and MECH 532. Sections may be offered: Online.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 533 Biomolecular Tools for Engineers Credits: 3 (2-3-0)****Also Offered As:** CIVE 533.**Course Description:** Theoretical and practical aspects of biomolecular laboratory tools—PCR, cloning, sequencing, single-molecule optical techniques and live-cell imaging.**Prerequisite:** BMS 300 or MIP 300.**Registration Information:** Must register for lecture and laboratory. Credit not allowed for BIOM 533, CIVE 533 and ECE 533.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** Yes.**BIOM 537 Biomedical Signal Processing Credits: 3 (3-0-0)****Also Offered As:** ECE 537.**Course Description:** Modeling and classification of biosignals (e.g. EEG, ECG, EMG), covering adaptive filtering, wavelets, support vector machines, neural networks, and handling problems with overfitting of noisy data.**Prerequisite:** ECE 303 or ECE 311 or MATH 340 or STAT 303.**Registration Information:** Sections may be offered: Online. Credit not allowed for both BIOM 537 and ECE 537.**Term Offered:** Spring (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 570 Bioengineering Credits: 3 (3-0-0)****Also Offered As:** MECH 570.**Course Description:** Physiological and medical systems analysis using engineering methods including mechanics, fluid dynamics, control electronics, and signal processing.**Prerequisite:** CBE 332 or ECE 311 or MECH 331A.**Registration Information:** Sections may be offered: Online. Credit not allowed for both BIOM 570 and MECH 570.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 573 Structure and Function of Biomaterials Credits: 3 (3-0-0)****Also Offered As:** MECH 573.**Course Description:** Structure-function relationships of natural biomaterials; application to analysis of biomimetic materials and biomaterials used in medical devices.**Prerequisite:** MECH 331 or MECH 331A and MECH 331B.**Registration Information:** Sections may be offered: Online. Credit not allowed for both BIOM 573 and MECH 573.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 574 Bio-Inspired Surfaces Credits: 3 (3-0-0)****Also Offered As:** MECH 574.**Course Description:** Analysis of surface functionalities of various biological species; identification of design principles.**Prerequisite:** MECH 342 and CHEM 111.**Registration Information:** Sections may be offered: Online. Credit not allowed for both BIOM 574 and MECH 574.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.

BIOM 576 Quantitative Systems Physiology Credits: 4 (4-0-0)**Also Offered As:** MECH 576.**Course Description:** Quantitative, model-oriented approach to cellular and systems physiology with design examples from biomedical engineering.**Prerequisite:** BMS 300 and CHEM 113 and MATH 340 and PH 142.**Registration Information:** Credit not allowed for both BIOM 576 and MECH 576. Sections may be offered: Online.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 578 Musculoskeletal Biosolid Mechanics Credits: 3 (3-0-0)****Also Offered As:** MECH 578.**Course Description:** Application of engineering concepts to quantify the mechanical behavior of load-bearing biological tissues and orthopaedic implant performance.**Prerequisite:** CIVE 360.**Restriction:** Must be a: Graduate.**Registration Information:** Graduate standing. Sections may be offered: Online. Credit not allowed for both BIOM 578 and MECH 578.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 579 Cardiovascular Biomechanics Credits: 3 (3-0-0)****Also Offered As:** MECH 579.**Course Description:** Bio-mechanical principles and approaches applied in cardiovascular research.**Prerequisite:** MATH 340 and PH 142.**Restriction:** Must be a: Graduate.**Registration Information:** Graduate students only. Sections may be offered: Online. Credit allowed for only one of the following: BIOM 579, BIOM 581A8, MECH 579, or MECH 581A8.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 586A Biomedical Clinical Practicum Credits: 2 (1-2-0)****Course Description:** Graduate-level activity that includes biomedical research or design of a new medical device, as well as essential elements of professional development.**Prerequisite:** (BMS 300 or BMS 500) and (BIOM 570 or MECH 570).**Registration Information:** Must register for lecture and laboratory.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 586B Biomedical Clinical Practicum Credits: 4 (1-6-0)****Course Description:** Graduate-level activity, such as biomedical research or design of a new medical device, for exposure to the hospital/clinical environment.**Prerequisite:** (BMS 300 or BMS 500) and (BIOM 570 or MECH 570).**Registration Information:** Must register for lecture and laboratory.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 592 Seminar Credits: Var[1-3] (0-0-0)****Course Description:** Student and research faculty presentations, guest and invited extramural speakers.**Prerequisite:** None.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**BIOM 671 Orthopedic Tissue Biomechanics Credits: 3 (3-0-0)****Also Offered As:** MECH 671.**Course Description:** Linear elastic, finite deformation, and viscoelastic theories applied to the mechanical behavior of orthopedic tissues (bone, tendon, cartilage).**Prerequisite:** CIVE 560.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Credit not allowed for both BIOM 671 and MECH 671.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Maximum of 6 credits allowed in course; may not be used to satisfy degree requirements requiring bioengineering courses.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**BIOM 695 Independent Study Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**BIOM 699 Thesis Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**BIOM 750 Grant Proposal Writing and Reviewing Credit: 1 (1-0-0)****Course Description:** Preparation and review of applications for fellowships and grants.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Written consent of instructor.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 784 Supervised College Teaching Credits: Var[1-6] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**BIOM 786 Practicum-Laboratory Rotations Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

BIOM 795 Independent Study Credits: Var[1-6] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**BIOM 798 Research-Laboratory Rotations Credits: Var[1-6] (0-0-0)****Course Description:** Doctoral laboratory rotation.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**BIOM 799 Dissertation Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Dual Degree Program: Biomedical Engineering combined with Chemical and Biological Engineering

Requirements Effective Fall 2023

Freshman

		AUCC	Credits
BIOM 100	Overview of Biomedical Engineering		1
CBE 160	MATLAB for Chemical and Biological Eng		1
CHEM 111	General Chemistry I (GT-SC2)	3A	4
CHEM 112	General Chemistry Lab I (GT-SC1)	3A	1
CHEM 113	General Chemistry II		3
LIFE 102	Attributes of Living Systems (GT-SC1)	3A	4
MATH 160	Calculus for Physical Scientists I (GT-MA1)	1B	4
MATH 161	Calculus for Physical Scientists II (GT-MA1)	1B	4
PH 141	Physics for Scientists and Engineers I (GT-SC1)	3A	5
Select one group from the following:			3
Group A:			
CBE 101	Introduction to Chemical and Biological Engr		
Group B:			
CBE 101A	Introduction to Chemical and Biological Engr: Lecture		
CBE 101B	Introduction to Chemical and Biological Engr: Laboratory		
Total Credits			30

Sophomore

CBE 201	Material and Energy Balances		3
CBE 205	Fundamentals of Biological Engineering		3
CBE 210	Thermodynamic Process Analysis		3
CHEM 114	General Chemistry Lab II		1
CHEM 341	Modern Organic Chemistry I		3
CHEM 343	Modern Organic Chemistry II		3
CHEM 344	Modern Organic Chemistry Laboratory		2
CO 150	College Composition (GT-CO2)	1A	3
MATH 261	Calculus for Physical Scientists III		4
MATH 340	Intro to Ordinary Differential Equations		4
MECH 262	Engineering Mechanics		4
Total Credits			33

Junior

BC 351	Principles of Biochemistry		4
BIOM 300	Problem-Based Learning Biomedical Engr Lab		4
BMS 300	Principles of Human Physiology		4

CBE 310	Molecular Concepts and Applications		3
CBE 320	Chemical and Biological Reactor Design		3
CBE 330	Process Simulation		3
CBE 331	Momentum Transfer and Mechanical Separations		3
CBE 332	Heat and Mass Transfer Fundamentals		3
CBE 393	Professional Development Seminar		1
Social and Behavioral Sciences		3C	3

Total Credits **31**

Senior

BIOM 421	Transport Phenomena in Biomedical Engineering		3
BIOM 422	Quantitative Systems and Synthetic Biology		3
CBE 333	Chemical and Biological Engineering Lab I		2
CBE 430	Process Control and Instrumentation		3
CBE 442	Separation Processes		4
CBE 443	Chemical and Biological Engineering Lab II		2
CBE 451	Chemical and Biological Engineering Design I		3
PH 142	Physics for Scientists and Engineers II (GT-SC1)	3A	5
STAT 315	Intro to Theory and Practice of Statistics		3
BME Broad Elective (see list below)			3
Arts and Humanities		3B	3

Total Credits **34**

Fifth Year

BIOM 486A	Biomedical Design Practicum: Capstone Design I	4A,4B,4C	4
BIOM 486B	Biomedical Design Practicum: Capstone Design II	4A,4B,4C	4
BME Technical Elective ¹			5
CBE Technical Elective			5
Advanced Writing		2	3
Arts and Humanities		3B	3
Diversity, Equity, and Inclusion		1C	3
Historical Perspectives		3D	3

Total Credits **30**

Program Total Credits: **158**

BME Technical Electives - Select 5 credits

Code	Title	Credits			
BC 401	Comprehensive Biochemistry I	3	BIOM 522/CBE 522	Bioseparation Processes	3
BC 403	Comprehensive Biochemistry II	3	BIOM 525/MECH 525	Cell and Tissue Engineering	3
BC 404	Comprehensive Biochemistry Laboratory	2	BIOM 526/ECE 526	Biological Physics	3
BC 411	Physical Biochemistry	4	BIOM 527A/ ECE 527A	Biosensing: Cells as Circuits	1
BC 463	Molecular Genetics	3	BIOM 527B/ ECE 527B	Biosensing: Signal and Noise in Biosensors	1
BC 465	Molecular Regulation of Cell Function	3	BIOM 527C/ ECE 527C	Biosensing: Sensor Circuit Fundamentals	1
BC 565	Molecular Regulation of Cell Function	4	BIOM 527D/ ECE 527D	Biosensing: Electrochemical Sensors	1
BIOM 350A	Study Abroad–Ecuador: Prosthetics	1-2	BIOM 527E/ ECE 527E	Biosensing: Affinity Sensors	1
BIOM 431/ECE 431	Biomedical Signal and Image Processing	3	BIOM 527F/ ECE 527F	Biosensing: Biophotonic Sensors Using Refractive Index	1
BIOM 441	Biomechanics and Biomaterials	3	BIOM 531/MECH 531	Materials Engineering	3
Select a maximum of 3 credits from the following:			BIOM 533/CIVE 533	Biomolecular Tools for Engineers	3
BIOM 476	Biomedical Engineering Clinical Practicum		BIOM 537/ECE 537	Biomedical Signal Processing	3
BIOM 495	Independent Study				
BIOM 504/CBE 504	Fundamentals of Biochemical Engineering	3			
BIOM 518/ECE 518	Biophotonics	3			

BIOM 570/MECH 570	Bioengineering	3	HES 420	Electrocardiography and Exercise Management	3
BIOM 573/MECH 573	Structure and Function of Biomaterials	3	HES 476	Exercise and Chronic Disease	3
BIOM 574/MECH 574	Bio-Inspired Surfaces	3	MATH 455	Mathematics in Biology and Medicine	3
BIOM 576/MECH 576	Quantitative Systems Physiology	4	MECH 543	Biofluid Mechanics	3
BIOM 578/MECH 578	Musculoskeletal Biosolid Mechanics	3	MIP 300	General Microbiology	3
BIOM 579/MECH 579	Cardiovascular Biomechanics	3	MIP 302	General Microbiology Laboratory	2
BMS 301	Human Gross Anatomy	5	MIP 342	Immunology	4
BMS 302	Laboratory in Principles of Physiology	2	MIP 343	Immunology Laboratory	2
BMS 310	Anatomy for the Health Professions	4	MIP 351	Medical Bacteriology	3
BMS 320	Virtual Laboratory in Physiology	2	MIP 352	Medical Bacteriology Laboratory	3
BMS 325	Cellular Neurobiology	3	MIP 420	Medical and Molecular Virology	4
BMS 345	Functional Neuroanatomy	4	MIP 443	Microbial Physiology	4
BMS 405	Nerve and Muscle-Toxins, Trauma and Disease	3	MIP 450	Microbial Genetics	3
BMS 409	Human and Animal Reproductive Biology	3	NB 500/BMS 502	Readings in Cellular Neurobiology	1
BMS 420	Cardiopulmonary Physiology	3	CBE Technical Electives - Select 5 credits		
BMS 430	Endocrinology	3	Code	Title	Credits
BMS 450	Pharmacology	3	Select 5 credits from the following:		
BMS 500	Mammalian Physiology I	4	AB 410	Understanding Pesticides	3
BMS 501	Mammalian Physiology II	4	ATS 555	Air Pollution	3
BMS 503/NB 503	Developmental Neurobiology	3	ATS 560	Air Pollution Measurement	2
BMS 505/NB 505	Neuronal Circuits, Systems and Behavior	3	BC 401	Comprehensive Biochemistry I	3
BZ 310	Cell Biology	4	BC 403	Comprehensive Biochemistry II	3
BZ 311	Developmental Biology	4	BC 404	Comprehensive Biochemistry Laboratory	2
BZ 350	Molecular and General Genetics	4	BC 411	Physical Biochemistry	4
BZ 476/BZ 576	Genetics of Model Organisms	3	BC 441	3D Molecular Models for Biochemistry	1
CBE 505	Biochemical Engineering Laboratory	1	BC 463	Molecular Genetics	3
CBE 543	Membranes for Biotechnology and Biomedicine	3	BC 464	Molecular Genetics Recitation	1
CHEM 334	Quantitative Analysis Laboratory	1	BC 517	Metabolism	2
CHEM 335	Introduction to Analytical Chemistry	3	BC 521/CHEM 521	Principles of Chemical Biology	3
CHEM 433	Clinical Chemistry	3	BIOM 350A	Study Abroad--Ecuador: Prosthetics	1-2
CHEM 539A	Principles of NMR and MRI: Basic NMR Principles	1	BIOM 517/ECE 517	Advanced Optical Imaging	3
CHEM 539B	Principles of NMR and MRI: NMR Diffusion Measurements-2D NMR and MRI	1	BIOM 525/MECH 525	Cell and Tissue Engineering	3
CHEM 539C	Principles of NMR and MRI: Advanced NMR and MRI Techniques	1	BIOM 526/ECE 526	Biological Physics	3
CM 501	Advanced Cell Biology	4	BIOM 531/MECH 531	Materials Engineering	3
CM 502/NB 502	Techniques in Molecular & Cellular Biology	2	BIOM 532/MECH 532	Materials Issues in Mechanical Design	3
ECE 569/MECH 569	Micro-Electro-Mechanical Devices	3	BIOM 533/CIVE 533	Biomolecular Tools for Engineers	3
ERHS 332	Principles of Epidemiology	3	BIOM 537/ECE 537	Biomedical Signal Processing	3
ERHS 450	Introduction to Radiation Biology	3	BIOM 573/MECH 573	Structure and Function of Biomaterials	3
ERHS 502	Fundamentals of Toxicology	3	BIOM 574/MECH 574	Bio-Inspired Surfaces	3
ERHS 510/VS 510	Cancer Biology	3	BIOM 576/MECH 576	Quantitative Systems Physiology	4
ERHS 540	Principles of Ergonomics	3	BIOM 579/MECH 579	Cardiovascular Biomechanics	3
FSHN 470	Integrative Nutrition and Metabolism	3	BMS 301	Human Gross Anatomy	5
HES 307	Biomechanical Principles of Human Movement	3	BMS 302	Laboratory in Principles of Physiology	2
HES 319	Neuromuscular Aspects of Human Movement	4	BMS 305	Domestic Animal Gross Anatomy	4
HES 403	Physiology of Exercise	3	BMS 325	Cellular Neurobiology	3
			BMS 330	Microscopic Anatomy	4
			BMS 345	Functional Neuroanatomy	4
			BMS 409	Human and Animal Reproductive Biology	3
			BMS 420	Cardiopulmonary Physiology	3
			BMS 430	Endocrinology	3
			BMS 450	Pharmacology	3

BMS 460	Essentials of Pathophysiology	3	CHEM 555	Chemistry of Sustainability	3
BMS 500	Mammalian Physiology I	4	CHEM 569	Chemical Crystallography	3
BMS 501	Mammalian Physiology II	4	CHEM 570	Chemical Bonding	3
BMS 503/NB 503	Developmental Neurobiology	3	CHEM 575	Fundamentals of Chemical Thermodynamics	1
BMS 505/NB 505	Neuronal Circuits, Systems and Behavior	3	CHEM 576	Statistical Mechanics	2
BMS 545	Neuroanatomy	5	CHEM 577	Surface Chemistry	3
BMS 575	Human Anatomy Dissection	4	CHEM 579	Chemical Kinetics	3
BSPM 302	Applied and General Entomology	2	CIVE 322	Basic Hydrology	3
BSPM 361	Elements of Plant Pathology	3	CIVE 330	Ecological Engineering	3
BZ 310	Cell Biology	4	CIVE 360	Mechanics of Solids	3
BZ 311	Developmental Biology	4	CIVE 401	Hydraulic Engineering	3
BZ 348/MATH 348	Theory of Population and Evolutionary Ecology	4	CIVE 413	Environmental River Mechanics	3
BZ 350	Molecular and General Genetics	4	CIVE 423	Groundwater Engineering	3
BZ 360	Bioinformatics and Genomics	4	CIVE 438	Fundamentals of Environmental Engr	3
CBE 406	Introduction to Transport Phenomena	3	CIVE 439	Applications of Environmental Engr Concepts	3
CBE 501	Chemical Engineering Thermodynamics	3	CIVE 440	Nonpoint Source Pollution	3
CBE 502	Advanced Reactor Design	3	CIVE 442	Air Quality Engineering	3
CBE 503	Transport Phenomena Fundamentals	3	CIVE 520	Physical Hydrology	3
CBE 504/BIOM 504	Fundamentals of Biochemical Engineering	3	CIVE 531	Groundwater Hydrology	3
CBE 505	Biochemical Engineering Laboratory	1	CIVE 538	Aqueous Chemistry	3
CBE 514	Polymer Science and Engineering	3	CIVE 560	Advanced Mechanics of Materials	3
CBE 521	Mathematical Modeling for Chemical Engineers	3	CM 501	Advanced Cell Biology	4
CBE 522/BIOM 522	Bioseparation Processes	3	CM 502/NB 502	Techniques in Molecular & Cellular Biology	2
CBE 524	Bioremediation	1	CS 165	CS2--Data Structures	4
CBE 540/CIVE 540	Advanced Biological Wastewater Processing	3	CS 220	Discrete Structures and their Applications	4
CBE 570	Biomolecular Engineering/Synthetic Biology	3	CS 270	Computer Organization	4
CHEM 261	Fundamentals of Inorganic Chemistry	3	ECE 204	Introduction to Electrical Engineering	3
CHEM 311	Introduction to Nanoscale Science	3	ECE 430/MATH 430	Fourier and Wavelet Analysis with Apps	3
CHEM 334	Quantitative Analysis Laboratory	1	ENGR 510	Engineering Optimization: Method/ Application	3
CHEM 335	Introduction to Analytical Chemistry	3	ENGR 550/ MATH 550	Numerical Methods in Science and Engineering	3
CHEM 338	Environmental Chemistry	3	ERHS 320	Environmental Health--Water Quality	3
CHEM 431	Instrumental Analysis	4	ERHS 332	Principles of Epidemiology	3
CHEM 433	Clinical Chemistry	3	ERHS 410	Environmental Health-Air and Waste Management	3
CHEM 440	Advanced Organic Chemistry Laboratory	2	ERHS 446	Environmental Toxicology	3
CHEM 461	Inorganic Chemistry	3	ERHS 448	Environmental Contaminants	3
CHEM 522	Methods of Chemical Biology	2	ERHS 450	Introduction to Radiation Biology	3
CHEM 532	Advanced Chemical Analysis II	3	ERHS 502	Fundamentals of Toxicology	3
CHEM 537	Electrochemical Methods	3	ERHS 503	Toxicology Principles	1
CHEM 539A	Principles of NMR and MRI: Basic NMR Principles	1	ERHS 510/VS 510	Cancer Biology	3
CHEM 539B	Principles of NMR and MRI: NMR Diffusion Measurements-2D NMR and MRI	1	ERHS 530	Radiological Physics and Dosimetry I	3
CHEM 539C	Principles of NMR and MRI: Advanced NMR and MRI Techniques	1	ERHS 542	Biostatistical Methods for Qualitative Data	3
CHEM 541	Organic Molecular Structure Determination	2	ERHS 547	Equipment and Instrumentation	3
CHEM 543	Structure/Mechanisms in Organic Chemistry	2	F 311	Forest Ecology	3
CHEM 545	Synthetic Organic Chemistry I	3	FTEC 447	Food Chemistry	2
CHEM 547	Physical Organic Chemistry	3	GEOL 150	Physical Geology for Scientists and Engineers	4
			GEOL 452	Hydrogeology	4
			GEOL 454	Geomorphology	4

GES 441	Analysis of Sustainable Energy Solutions	3	MECH 507	Laser Diagnostics for Thermosciences	3
GES 542	Biobased Fuels, Energy, and Chemicals	3	MECH 509	Design and Analysis in Engineering Research	3
HES 307	Biomechanical Principles of Human Movement	3	MECH 513	Simulation Modeling and Experimentation	3
HES 319	Neuromuscular Aspects of Human Movement	4	MECH 524	Principles of Dynamics	3

STAT 430	Probability and Mathematical Statistics II	3
STAT 460	Applied Multivariate Analysis	3

A maximum of 3 credits may be selected from the following courses:

ENGR 422	Technology Entrepreneurship
ENGR 502	Engineering Project and Program Management
ENGR 525	Intellectual Property and Invention Systems
FIN 305	Fundamentals of Finance
IDEA 310B	Design Thinking Toolbox: 3D Modeling
IDEA 310D	Design Thinking Toolbox: Digital Imaging
MGT 305	Fundamentals of Management
MGT 340	Fundamentals of Entrepreneurship
MKT 305	Fundamentals of Marketing

BME Broad Electives – Select 3 credits

Code	Title	Credits
AB 410	Understanding Pesticides	3
ATS 555	Air Pollution	3
ATS 560	Air Pollution Measurement	2
BC 401	Comprehensive Biochemistry I	3
BC 403	Comprehensive Biochemistry II	3
BC 404	Comprehensive Biochemistry Laboratory	2
BC 411	Physical Biochemistry	4

BC 441	3D Molecular Models for Biochemistry	1
BC 463	Molecular Genetics	3
BC 464	Molecular Genetics Recitation	1
BC 465	Molecular Regulation of Cell Function	3
BC 517	Metabolism	2
BC 521/CHEM 521	Principles of Chemical Biology	3
BC 563	Molecular Genetics	4
BIOM 350A	Study Abroad--Ecuador: Prosthetics	1-2
BIOM 431/ECE 431	Biomedical Signal and Image Processing	3
BIOM 441	Biomechanics and Biomaterials	3
BIOM 504/CBE 504	Fundamentals of Biochemical Engineering	3
BIOM 517/ECE 517	Advanced Optical Imaging	3
BIOM 518/ECE 518	Biophotonics	3
BIOM 522/CBE 522	Bioseparation Processes	3
BIOM 525/MECH 525	Cell and Tissue Engineering	3
BIOM 526/ECE 526	Biological Physics	3
BIOM 527A/ ECE 527A	Biosensing: Cells as Circuits	1
BIOM 527B/ ECE 527B	Biosensing: Signal and Noise in Biosensors	1
BIOM 527C/ ECE 527C	Biosensing: Sensor Circuit Fundamentals	1
BIOM 527D/ ECE 527D	Biosensing: Electrochemical Sensors	1
BIOM 527E/ ECE 527E	Biosensing: Affinity Sensors	1
BIOM 527F/ ECE 527F	Biosensing: Biophotonic Sensors Using Refractive Index	1
BIOM 531/MECH 531	Materials Engineering	3
BIOM 532/MECH 532	Materials Issues in Mechanical Design	3
BIOM 533/CIVE 533	Biomolecular Tools for Engineers	3
BIOM 537/ECE 537	Biomedical Signal Processing	3
BIOM 570/MECH 570	Bioengineering	3
BIOM 573/MECH 573	Structure and Function of Biomaterials	3
BIOM 574/MECH 574	Bio-Inspired Surfaces	3
BIOM 576/MECH 576	Quantitative Systems Physiology	4
BIOM 578/MECH 578	Musculoskeletal Biosolid Mechanics	3
BIOM 579/MECH 579	Cardiovascular Biomechanics	3
BMS 301	Human Gross Anatomy	5
BMS 302	Laboratory in Principles of Physiology	2
BMS 305	Domestic Animal Gross Anatomy	4
BMS 310	Anatomy for the Health Professions	4
BMS 320	Virtual Laboratory in Physiology	2
BMS 325	Cellular Neurobiology	3
BMS 330	Microscopic Anatomy	4
BMS 345	Functional Neuroanatomy	4
BMS 405	Nerve and Muscle-Toxins, Trauma and Disease	3
BMS 409	Human and Animal Reproductive Biology	3
BMS 420	Cardiopulmonary Physiology	3
BMS 430	Endocrinology	3
BMS 450	Pharmacology	3
BMS 460	Essentials of Pathophysiology	3

BMS 500	Mammalian Physiology I	4	CHEM 560	Foundations of Inorganic Synthesis	1
BMS 501	Mammalian Physiology II	4	CHEM 566	Bioinorganic Chemistry	3

¹ Select a total of 5 credits from Approved BME Technical Electives for BME+CBE Program. A maximum of 3 total credits of BIOM 476 and BIOM 495 may count as BME Technical Elective credit.

Major Completion Map

Distinctive Requirements for Degree Program:

TO DECLARE MAJOR: Engineering is a controlled major: students are admitted into the major only if they meet established academic standards. Please see competitive major requirements or the advisor in the Department for more information.

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus and chemistry.

To qualify for graduation, students in the biomedical engineering combined with chemical and biological engineering program must achieve a minimum 2.000 grade point average at CSU in all courses in engineering, mathematics, computer science, statistics, physics, and chemistry as well as courses taken as technical electives.

Freshman

Semester 1		Critical	Recommended	AUCC	Credits
BIOM 100	Overview of Biomedical Engineering	X			1
CHEM 111	General Chemistry I (GT-SC2)	X		3A	4
CHEM 112	General Chemistry Lab I (GT-SC1)	X		3A	1
LIFE 102	Attributes of Living Systems (GT-SC1)	X		3A	4
MATH 160	Calculus for Physical Scientists I (GT-MA1)	X		1B	4
Total Credits					14

Semester 2		Critical	Recommended	AUCC	Credits
CBE 160	MATLAB for Chemical and Biological Eng	X			1
CHEM 113	General Chemistry II	X			3
MATH 161	Calculus for Physical Scientists II (GT-MA1)	X		1B	4
PH 141	Physics for Scientists and Engineers I (GT-SC1)	X		3A	5
Select one group from the following:					3

Group A:

CBE 101 Introduction to Chemical and Biological Engr

Group B:

CBE 101A Introduction to Chemical and Biological Engr: Lecture

CBE 101B Introduction to Chemical and Biological Engr: Laboratory

Total Credits					16
----------------------	--	--	--	--	-----------

Sophomore

Semester 3		Critical	Recommended	AUCC	Credits
CBE 201	Material and Energy Balances	X			3
CBE 205	Fundamentals of Biological Engineering	X			3
CHEM 114	General Chemistry Lab II	X			1
CHEM 341	Modern Organic Chemistry I	X			3
CO 150	College Composition (GT-CO2)		X	1A	3
MATH 261	Calculus for Physical Scientists III	X			4
Total Credits					17

Semester 4		Critical	Recommended	AUCC	Credits
CBE 210	Thermodynamic Process Analysis	X			3
CHEM 343	Modern Organic Chemistry II	X			3
CHEM 344	Modern Organic Chemistry Laboratory	X			2
MATH 340	Intro to Ordinary Differential Equations	X			4
MECH 262	Engineering Mechanics		X		4
Total Credits					16

Junior

Semester 5		Critical	Recommended	AUCC	Credits
BMS 300	Principles of Human Physiology	X			4
CBE 310	Molecular Concepts and Applications	X			3
CBE 330	Process Simulation	X			3
CBE 331	Momentum Transfer and Mechanical Separations	X			3
STAT 315	Intro to Theory and Practice of Statistics				3
Total Credits					16

Semester 6		Critical	Recommended	AUCC	Credits
BC 351	Principles of Biochemistry		X		4
BIOM 300	Problem-Based Learning Biomedical Engr Lab	X			4
CBE 320	Chemical and Biological Reactor Design	X			3
CBE 332	Heat and Mass Transfer Fundamentals	X			3
CBE 393	Professional Development Seminar	X			1

Social and Behavioral Sciences			3C	3	
Total Credits				18	
Senior					
Semester 7		Critical	Recommended	AUCC	Credits
BIOM 421	Transport Phenomena in Biomedical Engineering	X			3
CBE 333	Chemical and Biological Engineering Lab I	X			2
CBE 442	Separation Processes	X			4
CBE 451	Chemical and Biological Engineering Design I	X			3
BME Broad Elective (see list below)					3
Total Credits					15
Semester 8		Critical	Recommended	AUCC	Credits
BIOM 422	Quantitative Systems and Synthetic Biology	X			3
CBE 430	Process Control and Instrumentation				3
CBE 443	Chemical and Biological Engineering Lab II	X			2
PH 142	Physics for Scientists and Engineers II (GT-SC1)		X	3A	5
Arts and Humanities				3B	3
Total Credits					16
Fifth Year					
Semester 9		Critical	Recommended	AUCC	Credits
BIOM 486A	Biomedical Design Practicum: Capstone Design I	X		4A,4B,4C	4
BME Technical Elective (See List on Requirements Tab)			X		3
CBE Technical Elective (See List on Requirements Tab)			X		2
Diversity, Equity, and Inclusion				1C	3
Advanced Writing				2	3
Total Credits					15
Semester 10		Critical	Recommended	AUCC	Credits
BIOM 486B	Biomedical Design Practicum: Capstone Design II	X		4A,4B,4C	4
BME Technical Elective (See List on Requirements Tab)		X			2
CBE Technical Elective (See List on Requirements Tab)		X			3
Arts and Humanities				3B	3
Historical Perspectives				3D	3
The benchmark courses for the 10th semester are the remaining courses in the entire program of study		X			
Total Credits					15
Program Total Credits:					158

Dual Degree Program: Biomedical Engineering combined with Computer Engineering

Requirements

Effective Fall 2023

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering

requires a cumulative grade point average of at least 2.000 in Electrical Engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. In addition, it is required that students retake any Electrical Engineering course at the 300-level or below in which they receive a grade below C (2.000).

Computer Engineering (CpE) Electives (11-18 credits)

Code	Title	Credits
Group 1 - Choose 11-12 credits from the list below: ²		11-12
ECE 450	Digital System Design Laboratory	
ECE 451	Digital System Design	
ECE 452	Computer Organization and Architecture	
ECE 456	Computer Networks	
ECE 528/CS 528	Embedded Systems and Machine Learning	
Group 2 - Choose 0-3 credits from the list below: ²		0-3
DSCI 320	Optimization Methods in Data Science	
ECE 312	Linear System Analysis II	
Group 3 - Chose 0-3 credits from the list below: ^{2,3}		0-3
ECE 101	Foundations in ECE	
ECE 395A	Independent Study ³	
ECE 395B	Independent Study: Open Option Project ³	
ECE 395C	Independent Study : Vertically Integrated Project ³	

Technical Electives (2-9 credits)

Code	Title	Credits
Choose 2 - 9 credits from the list below: ^{2,3}		
CS 310H/IDEA 310H	Design Thinking Toolbox: Mixed Reality Design	3
CS 314	Software Engineering	3
CS 320	Algorithms--Theory and Practice	3
CS 345	Machine Learning Foundations and Practice	3
CS 356	Systems Security	3
CS 370	Operating Systems	3
CS 4XX Any CS course at the 400-level, excluding CS 457 and CS 470		
CS 5XX Any CS course at the 500-level		
DSCI 475	Topological Data Analysis	2
ECE 340	Electromagnetics for Computer Engineering	3
ECE 495A	Independent Study ³	1-3

ECE 495B	Independent Study: Open Option Project ³	1
ECE 495C	Independent Study: Vertically Integrated Projects ³	1
ECE 4XX Any ECE course at the 400-level		
ECE 5XX Any ECE course at the 500-level, excluding ECE 532/SYSE 532		
MATH 360	Mathematics of Information Security	3
MATH 450	Introduction to Numerical Analysis I	3
MATH 451	Introduction to Numerical Analysis II	3
MATH 460	Information and Coding Theory	3
MECH 564	Fundamentals of Robot Mechanics and Controls	3
STAT 421	Introduction to Stochastic Processes	3

¹ Students must take a total of 7 credits from either of these groups: Group A: CS 150B + CS 164 - OR - Group B: AUCC 3B + CS 163 - OR - Group C: AUCC 3B + CS 152 + CS 162. Recommended sequence for most incoming students is Group A: **CS 150B to CS 164**.

² Students are required to complete 20 credits of CpE electives (11 - 18 credits of CpE Electives and 2-9 credits of Technical Electives); in addition to 3 credits of BME Technical Electives to reach the required 157-158 total program credits.

³ A maximum total 6 credits of ECE Independent Study may apply toward total degree requirements, including ECE 395A, ECE 395B, ECE 395C and ECE 495A, ECE 495B, ECE 495C combined. A maximum total 3 credits of BIOM Independent Study may apply toward total degree requirements, including BIOM 476 and BIOM 495.

Major Completion Map

Distinctive Requirements for Degree Program:

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus.

The undergraduate programs in Biomedical Engineering synergize with our partner major undergraduate degrees by providing additional coursework in biology, chemistry, physiology, statics, dynamics and biomedical engineering to synthesize robust dual degree programs.

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in Electrical Engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. In addition, it is required that

students retake any Electrical Engineering course at the 300-level or below in which they receive a grade below C (2.000).

¹ Students must take a total of 7 credits from either of these groups:
Group A: CS 150B + CS 164 - OR - Group B: AUCC 3B + CS 163 - OR -
Group C: CS 152 + CS 162. Recommended sequence for most incoming students is Group A: CS 150B to CS 164.

² CS 152, CS 162, CS 163 and CS 164 may be taken as BME Broad Electives ONLY when not taken to fulfill degree requirements. Credit not allowed for both CS 163 and CS 164.

Major Completion Map

Distinctive Requirements for Degree Program:

TO DECLARE MAJOR: Engineering is a controlled major: students are admitted into the major only if they meet established academic standards. Please see competitive major requirements or the advisor in the Department for more information.

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus and chemistry. To qualify for graduation, students in the biomedical engineering combined with chemical and biological engineering program must achieve a minimum 2.000 grade point average at CSU in all courses in engineering, mathematics, computer science, statistics, physics, and chemistry as well as courses taken as technical electives.

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in ECE courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. In addition, it is required that students retake any Electrical Engineering course at the 300-level or below in which they receive a grade below a C (2.000).

Dual Degree Program: Biomedical Engineering combined with Electrical Engineering, Lasers and Optical Engineering Concentration

Requirements Effective Fall 2023

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering

requires a cumulative grade point average of at least 2.000 in ECE courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. In addition, it is required that students retake any Electrical Engineering course at the 300-level or below in which they receive a grade below a C (2.000).

BME Broad Elective (see list below)			3
Arts and Humanities		3B	3
Diversity, Equity, and Inclusion		1C	3
Historical Perspectives		3D	3

Total Credits	34
----------------------	-----------

Program Total Credits:	158-160
-------------------------------	----------------

ECE Lasers & Optical Engineering Technical Electives List – Select 9 credits

Code	Title	Credits
ECE 312	Linear System Analysis II	3
ECE 415	Semiconductor Physics and Junctions	2
ECE 430/MATH 430	Fourier and Wavelet Analysis with Apps	3
A maximum of 3 credits from the following may be used to satisfy this requirement:		var.
ECE 495A	Independent Study	
ECE 495B	Independent Study: Open Option Project	
ECE 495C	Independent Study: Vertically Integrated Projects	
ECE 503	Ultrafast Optics	3
ECE 504	Physical Optics	3
ECE 505	Nanostructures: Fundamentals and Applications	3
ECE 506	Optical Interferometry and Laser Metrology	3
ECE 507	Plasma Physics and Applications	3
ECE 517/BIOM 517	Advanced Optical Imaging	3
ECE 518/BIOM 518	Biophotonics	3
ECE 523/MSE 523	Electronic Properties of Materials	3
ECE 526/BIOM 526	Biological Physics	3
ECE 527B/BIOM 527B	Biosensing: Signal and Noise in Biosensors	1

ECE 527F/BIOM 527F	Biosensing: Biophotonic Sensors Using Refractive Index	1
ECE 546	Laser Fundamentals and Devices	3
ECE 572	Semiconductor Transistors	1
ECE 573	Semiconductor Optoelectronics Laboratory	3
ECE 574	Optical Properties in Solids	3
MATH 419	Introduction to Complex Variables	3
PH 315	Modern Physics Laboratory	2
PH 425	Advanced Physics Laboratory	2
PH 452	Introductory Quantum Mechanics II	3
PH 462	Statistical Physics	3

BME Broad Electives - Select 3 credits

Code	Title	Credits
AB 410	Understanding Pesticides	3
ATS 555	Air Pollution	3
ATS 560	Air Pollution Measurement	2
BC 351	Principles of Biochemistry	4
BC 401	Comprehensive Biochemistry I	3
BC 403	Comprehensive Biochemistry II	3
BC 404	Comprehensive Biochemistry Laboratory	2
BC 411	Physical Biochemistry	4
BC 441	3D Molecular Models for Biochemistry	1
BC 463	Molecular Genetics	3

BC 464	Molecular Genetics Recitation	1	BMS 500	Mammalian Physiology I	4
BC 465	Molecular Regulation of Cell Function	3	BMS 501	Mammalian Physiology II	4
BC 517	Metabolism	2	BMS 503/NB 503	Developmental Neurobiology	3
BC 521/CHEM 521	Principles of Chemical Biology	3	BMS 505/NB 505	Neuronal Circuits, Systems and Behavior	3
BC 563	Molecular Genetics	4	BMS 545	Neuroanatomy	5
BIOM 350A	Study Abroad-Ecuador: Prosthetics	1-2	BMS 575	Human Anatomy Dissection	4
BIOM 421	Transport Phenomena in Biomedical Engineering	3	BSPM 302	Applied and General Entomology	2
BIOM 422	Quantitative Systems and Synthetic Biology	3	BSPM 361	Elements of Plant Pathology	3
BIOM 441	Biomechanics and Biomaterials	3	BZ 310	Cell Biology	4
BIOM 504/CBE 504	Fundamentals of Biochemical Engineering	3	BZ 311	Developmental Biology	4
BIOM 517/ECE 517	Advanced Optical Imaging	3	BZ 348/MATH 348	Theory of Population and Evolutionary Ecology	4
BIOM 518/ECE 518	Biophotonics	3	BZ 350	Molecular and General Genetics	4
BIOM 522/CBE 522	Bioseparation Processes	3	BZ 360	Bioinformatics and Genomics	4
BIOM 525/MECH 525	Cell and Tissue Engineering	3	BZ 420	Evolutionary Medicine	3
BIOM 526/ECE 526	Biological Physics	3	BZ 476/BZ 576	Genetics of Model Organisms	3
BIOM 527A/ ECE 527A	Biosensing: Cells as Circuits	1	CBE 330	Process Simulation	3
BIOM 527B/ ECE 527B	Biosensing: Signal and Noise in Biosensors	1	CBE 406	Introduction to Transport Phenomena	3
BIOM 527C/ ECE 527C	Biosensing: Sensor Circuit Fundamentals	1	CBE 501	Chemical Engineering Thermodynamics	3
BIOM 527D/ ECE 527D	Biosensing: Electrochemical Sensors	1	CBE 502	Advanced Reactor Design	3
BIOM 527E/ ECE 527E	Biosensing: Affinity Sensors	1	CBE 503	Transport Phenomena Fundamentals	3
BIOM 527F/ ECE 527F	Biosensing: Biophotonic Sensors Using Refractive Index	1	CBE 505	Biochemical Engineering Laboratory	1
BIOM 531/MECH 531	Materials Engineering	3	CBE 514	Polymer Science and Engineering	3
BIOM 532/MECH 532	Materials Issues in Mechanical Design	3	CBE 521	Mathematical Modeling for Chemical Engineers	3
BIOM 533/CIVE 533	Biomolecular Tools for Engineers	3	CBE 524	Bioremediation	1
BIOM 537/ECE 537	Biomedical Signal Processing	3	CBE 540/CIVE 540	Advanced Biological Wastewater Processing	3
BIOM 570/MECH 570	Bioengineering	3	CBE 570	Biomolecular Engineering/Synthetic Biology	3
BIOM 573/MECH 573	Structure and Function of Biomaterials	3	CHEM 246	Fundamentals of Organic Chemistry Laboratory	1
BIOM 574/MECH 574	Bio-Inspired Surfaces	3	CHEM 261	Fundamentals of Inorganic Chemistry	3
BIOM 576/MECH 576	Quantitative Systems Physiology	4	CHEM 311	Introduction to Nanoscale Science	3
BIOM 578/MECH 578	Musculoskeletal Biosolid Mechanics	3	CHEM 334	Quantitative Analysis Laboratory	1
BIOM 579/MECH 579	Cardiovascular Biomechanics	3	CHEM 335	Introduction to Analytical Chemistry	3
BMS 301	Human Gross Anatomy	5	CHEM 338	Environmental Chemistry	3
BMS 302	Laboratory in Principles of Physiology	2	CHEM 343	Modern Organic Chemistry II	3
BMS 305	Domestic Animal Gross Anatomy	4	CHEM 344	Modern Organic Chemistry Laboratory	2
BMS 310	Anatomy for the Health Professions	4	CHEM 346	Organic Chemistry II	4
BMS 320	Virtual Laboratory in Physiology	2	CHEM 431	Instrumental Analysis	4
BMS 325	Cellular Neurobiology	3	CHEM 433	Clinical Chemistry	3
BMS 330	Microscopic Anatomy	4	CHEM 440	Advanced Organic Chemistry Laboratory	2
BMS 345	Functional Neuroanatomy	4	CHEM 461	Inorganic Chemistry	3
BMS 405	Nerve and Muscle-Toxins, Trauma and Disease	3	CHEM 522	Methods of Chemical Biology	2
BMS 409	Human and Animal Reproductive Biology	3	CHEM 532	Advanced Chemical Analysis II	3
BMS 420	Cardiopulmonary Physiology	3	CHEM 537	Electrochemical Methods	3
BMS 430	Endocrinology	3	CHEM 539A	Principles of NMR and MRI: Basic NMR Principles	1
BMS 450	Pharmacology	3	CHEM 539B	Principles of NMR and MRI: NMR Diffusion Measurements-2D NMR and MRI	1
BMS 460	Essentials of Pathophysiology	3	CHEM 539C	Principles of NMR and MRI: Advanced NMR and MRI Techniques	1

CHEM 541	Organic Molecular Structure Determination	2	CS 5** - Any 500-level CS course		
CHEM 543	Structure/Mechanisms in Organic Chemistry	2	DSCI 320	Optimization Methods in Data Science	3
CHEM 545	Synthetic Organic Chemistry I	3	DSCI 369	Linear Algebra for Data Science (credit not allowed for both DSCI 369 and MATH 369)	3-4
CHEM 547	Physical Organic Chemistry	3	or MATH 369	Linear Algebra I	
CHEM 555	Chemistry of Sustainability	3	ECE 312	Linear System Analysis II	3
CHEM 560	Foundations of Inorganic Synthesis	1	ECE 4** - Any 400-level ECE course not otherwise required for the degree; also excluding ECE 495		
CHEM 566	Bioinorganic Chemistry	3	ECE 5** - Any ECE 500-level course		
CHEM 567	Crystallographic Computation	1	ENGR 300	3D Printing Lab for Engineers	1
CHEM 569	Chemical Crystallography	3	ENGR 422	Technology Entrepreneurship	3
CHEM 570	Chemical Bonding	3	ENGR 510	Engineering Optimization: Method/ Application	3
CHEM 575	Fundamentals of Chemical Thermodynamics	1	ENGR 525	Intellectual Property and Invention Systems	3
CHEM 576	Statistical Mechanics	2	ENGR 570	Coupled Electromechanical Systems	3
CHEM 577	Surface Chemistry	3	ERHS 320	Environmental Health-Water Quality	3
CHEM 578A	Computational Chemistry: Electronic Structure	1	ERHS 332	Principles of Epidemiology	3
CHEM 579	Chemical Kinetics	3	ERHS 400	Radiation Safety	3
CIVE 322	Basic Hydrology	3	ERHS 410	Environmental Health-Air and Waste Management	3
CIVE 330	Ecological Engineering	3	ERHS 430	Human Disease and the Environment	3
CIVE 360	Mechanics of Solids	3	ERHS 446	Environmental Toxicology	3
CIVE 367	Structural Analysis	3	ERHS 448	Environmental Contaminants	3
CIVE 401	Hydraulic Engineering	3	ERHS 450	Introduction to Radiation Biology	3
CIVE 413	Environmental River Mechanics	3	ERHS 502	Fundamentals of Toxicology	3
CIVE 423	Groundwater Engineering	3	ERHS 503	Toxicology Principles	1
CIVE 438	Fundamentals of Environmental Engr	3	ERHS 510/VS 510	Cancer Biology	3
CIVE 439	Applications of Environmental Engr Concepts	3	ERHS 530	Radiological Physics and Dosimetry I	3
CIVE 440	Nonpoint Source Pollution	3	ERHS 540	Principles of Ergonomics	3
CIVE 442	Air Quality Engineering	3	ERHS 542	Biostatistical Methods for Qualitative Data	3
CIVE 520	Physical Hydrology	3	ERHS 547	Equipment and Instrumentation	3
CIVE 524/WR 524	Modeling Watershed Hydrology	3	ERHS 560	Health Impact Assessment	2
CIVE 531	Groundwater Hydrology	3	ESS 353	Global Change Impacts, Adaptation, Mitigation	3
CIVE 538	Aqueous Chemistry	3	F 311	Forest Ecology	3
CIVE 560	Advanced Mechanics of Materials	3	FIN 305	Fundamentals of Finance	3
CIVE 562	Fundamentals of Vibrations	3	FSHN 470	Integrative Nutrition and Metabolism	3
CM 501	Advanced Cell Biology	4	FTEC 447	Food Chemistry	2
CM 502/NB 502	Techniques in Molecular & Cellular Biology	2	GEOL 150	Physical Geology for Scientists and Engineers	4
May choose one of the following if not otherwise taken to meet degree requirements ²			GEOL 452	Hydrogeology	4
CS 152	Python for STEM ²		GEOL 454	Geomorphology	4
CS 162	CS1-Introduction to Java Programming ²		GES 441	Analysis of Sustainable Energy Solutions	3
CS 163	CS1-No Prior Programming Experience ²		GES 542	Biobased Fuels, Energy, and Chemicals	3
CS 164	CS1-Computational Thinking with Java ²		HES 207	Anatomical Kinesiology	4
CS 165	CS2-Data Structures	4	HES 307	Biomechanical Principles of Human Movement	3
CS 220	Discrete Structures and their Applications	4	HES 319	Neuromuscular Aspects of Human Movement	4
CS 253	Software Development with C++	4	HES 403	Physiology of Exercise	3
CS 270	Computer Organization	4	HES 420	Electrocardiography and Exercise Management	3
CS 314	Software Engineering	3	HES 476	Exercise and Chronic Disease	3
CS 320	Algorithms-Theory and Practice	3			
CS 356	Systems Security	3			
CS 370	Operating Systems	3			
CS 4** - Any 400-level CS course except CS 495					

HORT 579	Mass Spectrometry Omics-Methods and Analysis	3	MATH 569D	Linear Algebra for Data Science: Theoretical Foundations	1
IDEA 310B	Design Thinking Toolbox: 3D Modeling	2	MECH 200	Introduction to Manufacturing Processes	3

STAT 421	Introduction to Stochastic Processes	3			

¹ Students must take a total of 7 credits from either of these groups: Group A: CS 150B + CS 164 - OR - Group B: AUCC 3B + CS 163 - OR - Group C: AUCC 3B + CS 152 + CS 162. Recommended sequence for most incoming students is Group A: **CS 150B to CS 164**.

² CS 152, CS 162, CS 163 and CS 164 may be taken as BME Broad Electives ONLY when not taken to fulfill degree requirements. Credit not allowed for both CS 163 and CS 164.

Major Completion Map

Distinctive Requirements for Degree Program:

TO DECLARE MAJOR: Engineering is a controlled major: students are admitted into the major only if they meet established academic standards. Please see competitive major requirements or the advisor in the department for more information.

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus and chemistry.

To qualify for graduation, students in the biomedical engineering combined with chemical and biological engineering program must achieve a minimum 2.000 grade point average at CSU in all courses in engineering, mathematics, computer science, statistics, physics, and chemistry as well as courses taken as technical electives.

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in ECE courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. In addition, it is required that students retake any Electrical Engineering course at the 300-level or below in which they receive a grade below a C (2.000).

Freshman

Semester 1		Critical	Recommended	AUCC	Credits
BIOM 100	Overview of Biomedical Engineering	X			1
CHEM 111	General Chemistry I (GT-SC2)	X		3A	4
CO 150	College Composition (GT-CO2)		X	1A	3
ECE 102	Digital Circuit Logic	X			4
MATH 160	Calculus for Physical Scientists I (GT-MA1)	X		1B	4
Total Credits					16
Semester 2		Critical	Recommended	AUCC	Credits
ECE 103	DC Circuit Analysis	X			3
LIFE 102	Attributes of Living Systems (GT-SC1)	X		3A	4
MATH 161	Calculus for Physical Scientists II (GT-MA1)	X		1B	4
PH 141	Physics for Scientists and Engineers I (GT-SC1)	X		3A	5
Total Credits					16

Sophomore

Semester 3		Critical	Recommended	AUCC	Credits
BIOM 200	Fundamentals of Biomedical Engineering	X			2
CHEM 112	General Chemistry Lab I (GT-SC1)		X	3A	1
Select from one of the following groups:		X			3-4
Group A					
CS 150B	Culture and Coding: Python (GT-AH3)	X		3B,3B	
Group B					
CS 152	Python for STEM	X			
CS 162	CS1—Introduction to Java Programming	X			
Group C					
CS 163	CS1—No Prior Programming Experience	X			
MATH 261	Calculus for Physical Scientists III	X			4
PH 142	Physics for Scientists and Engineers II (GT-SC1)	X		3A	5
Total Credits					15-16

Semester 4		Critical	Recommended	AUCC	Credits
ECE 202	Circuit Theory Applications	X			4
ECE 232	Introduction to Project Practices	X			1
ECE 303/ STAT 303	Introduction to Communications Principles	X			3
MATH 340	Intro to Ordinary Differential Equations	X			4
PH 314	Introduction to Modern Physics	X			4
Total Credits					16

Junior

Semester 5		Critical	Recommended	AUCC	Credits
ECE 311	Linear System Analysis I	X			3
ECE 331	Electronics Principles I	X			4
ECE 341	Electromagnetic Fields and Devices I	X			3
Select from the following to complete group sequence:		X			3-4
Group A					
CS 164	CS1—Computational Thinking with Java	X			
Group B					
Arts and Humanities		X		3B	
Group C					
Arts and Humanities		X		3B	
Total Credits					13-14

Semester 6		Critical	Recommended	AUCC	Credits
BIOM 300	Problem-Based Learning Biomedical Engr Lab	X			4
BMS 300	Principles of Human Physiology		X		4
ECE 332	Electronics Principles II	X			4
ECE 342	Electromagnetic Fields and Devices II	X			3
Total Credits					15

Senior

Semester 7		Critical	Recommended	AUCC	Credits
CHEM 113	General Chemistry II		X		3
ECE 404	Experiments in Optical Electronics	X			2
ECE 441	Optical Electronics	X			3
MECH 337	Thermodynamics		X		4
PH 353	Optics and Waves	X			4
Total Credits					16

Semester 8		Critical	Recommended	AUCC	Credits
BIOM 431/ ECE 431	Biomedical Signal and Image Processing	X			3
CHEM 245	Fundamentals of Organic Chemistry		X		4
ECE 457	Fourier Optics	X			3
ECON 202	Principles of Microeconomics (GT-SS1)		X	3C	3
MECH 262	Engineering Mechanics	X			4
Total Credits					17
Fifth Year					
Semester 9		Critical	Recommended	AUCC	Credits
BIOM 486A	Biomedical Design Practicum: Capstone Design I	X		4A,4B,4C	4
PH 451	Introductory Quantum Mechanics I	X			3
Select one course from the following:			X		3
CO 301B	Writing in the Disciplines: Sciences (GT-CO3)			2	
JTC 300	Strategic Writing and Communication (GT-CO3)		X	2	
ECE Lasers & Optical Engineering Technical Electives (See List on Requirements tab)			X		4
Diversity, Equity, and Inclusion			X	1C	3
Total Credits					17
Semester 10		Critical	Recommended	AUCC	Credits
BIOM 486B	Biomedical Design Practicum: Capstone Design II	X		4A,4B,4C	4
BME Broad Elective (See List on Requirements Tab)		X			3
ECE Lasers & Optical Engineering Technical Electives (See List on Requirements tab)		X			4
Arts and Humanities		X		3B	3
Historical Perspectives		X		3D	3
The benchmark courses for the 10th semester are the remaining courses in the entire program of study.		X			
Total Credits					17
Program Total Credits:					158-160

Dual Degree Program: Biomedical Engineering combined with Mechanical Engineering

Requirements

Effective Fall 2023

Freshman		AUCC	Credits
BIOM 100	Overview of Biomedical Engineering		1
CHEM 111	General Chemistry I (GT-SC2)	3A	4

Select one group from the following:			4
Group A:			
MECH 331	Introduction to Engineering Materials		
Group B:			
MECH 331A	Introduction to Engineering Materials: Lecture		
MECH 331B	Introduction to Engineering Materials : Lab		
MECH 338	Thermal/Fluid Sciences Laboratory		1
MECH 344	Heat and Mass Transfer		3
BME Broad Electives (see list below)			3
Advanced Writing		2	3
Arts and Humanities		3B	3
Total Credits			32

Fifth Year

BIOM 486A	Biomedical Design Practicum: Capstone Design I	4A,4B,4C	4
BIOM 486B	Biomedical Design Practicum: Capstone Design II	4A,4B,4C	4
BME Technical Elective (See list below)			6
MECH Technical Elective ¹			3
Arts and Humanities		3B	3
Diversity, Equity, and Inclusion		1C	3
Historical Perspectives		3D	3
Social and Behavioral Sciences		3C	3
Total Credits			29
Program Total Credits:			157

BME Technical Elective List

Code	Title	Credits		
BC 351	Principles of Biochemistry	4	BIOM 574/MECH 574 Bio-Inspired Surfaces	3
BC 401	Comprehensive Biochemistry I	3	BIOM 576/MECH 576 Quantitative Systems Physiology	4
BC 403	Comprehensive Biochemistry II	3	BIOM 578/MECH 578 Musculoskeletal Biosolid Mechanics	3
BC 404	Comprehensive Biochemistry Laboratory	2	BIOM 579/MECH 579 Cardiovascular Biomechanics	3
BC 411	Physical Biochemistry	4	BMS 301 Human Gross Anatomy	5
BC 463	Molecular Genetics	3	BMS 302 Laboratory in Principles of Physiology	2
BC 465	Molecular Regulation of Cell Function	3	BMS 310 Anatomy for the Health Professions	4
BC 565	Molecular Regulation of Cell Function	4	BMS 320 Virtual Laboratory in Physiology	2
BIOM 350A	Study Abroad--Ecuador: Prosthetics	1-2	BMS 325 Cellular Neurobiology	3
BIOM 421	Transport Phenomena in Biomedical Engineering	3	BMS 345 Functional Neuroanatomy	4
BIOM 422	Quantitative Systems and Synthetic Biology	3	BMS 405 Nerve and Muscle-Toxins, Trauma and Disease	3
BIOM 431/ECE 431	Biomedical Signal and Image Processing	3	BMS 409 Human and Animal Reproductive Biology	3
BIOM 476	Biomedical Engineering Clinical Practicum	1-3	BMS 420 Cardiopulmonary Physiology	3
BIOM 495	Independent Study	1-6	BMS 430 Endocrinology	3
BIOM 504/CBE 504	Fundamentals of Biochemical Engineering	3	BMS 450 Pharmacology	3
BIOM 518/ECE 518	Biophotonics	3	BMS 500 Mammalian Physiology I	4
BIOM 522/CBE 522	Bioseparation Processes	3	BMS 501 Mammalian Physiology II	4
BIOM 525/MECH 525	Cell and Tissue Engineering	3	BMS 503/NB 503 Developmental Neurobiology	3
BIOM 526/ECE 526	Biological Physics	3	BMS 505/NB 505 Neuronal Circuits, Systems and Behavior	3
BIOM 527A/ ECE 527A	Biosensing: Cells as Circuits	1	BZ 310 Cell Biology	4
BIOM 527B/ ECE 527B	Biosensing: Signal and Noise in Biosensors	1	BZ 311 Developmental Biology	4
BIOM 527C/ ECE 527C	Biosensing: Sensor Circuit Fundamentals	1	BZ 350 Molecular and General Genetics	4
BIOM 527D/ ECE 527D	Biosensing: Electrochemical Sensors	1	BZ 476/BZ 576 Genetics of Model Organisms	3
BIOM 527E/ ECE 527E	Biosensing: Affinity Sensors	1	CBE 330 Process Simulation	3
BIOM 527F/ ECE 527F	Biosensing: Biophotonic Sensors Using Refractive Index	1	CBE 505 Biochemical Engineering Laboratory	1
BIOM 531/MECH 531	Materials Engineering	3	CBE 543 Membranes for Biotechnology and Biomedicine	3
BIOM 533/CIVE 533	Biomolecular Tools for Engineers	3	CHEM 334 Quantitative Analysis Laboratory	1
BIOM 537/ECE 537	Biomedical Signal Processing	3	CHEM 335 Introduction to Analytical Chemistry	3
BIOM 570/MECH 570	Bioengineering	3	CHEM 343 Modern Organic Chemistry II	3
BIOM 573/MECH 573	Structure and Function of Biomaterials	3	CHEM 344 Modern Organic Chemistry Laboratory	2
			CHEM 346 Organic Chemistry II	4
			CHEM 433 Clinical Chemistry	3
			CHEM 539A Principles of NMR and MRI: Basic NMR Principles	1
			CHEM 539B Principles of NMR and MRI: NMR Diffusion Measurements-2D NMR and MRI	1
			CHEM 539C Principles of NMR and MRI: Advanced NMR and MRI Techniques	1

CM 501	Advanced Cell Biology	4
CM 502/NB 502	Techniques in Molecular & Cellular Biology	2
ECE 569/MECH 569	Micro-Electro-Mechanical Devices	3
ERHS 332	Principles of Epidemiology	3
ERHS 450	Introduction to Radiation Biology	3
ERHS 502	Fundamentals of Toxicology	3
ERHS 510/VS 510	Cancer Biology	3
ERHS 540	Principles of Ergonomics	3
FSHN 470	Integrative Nutrition and Metabolism	3
HES 307	Biomechanical Principles of Human Movement	3
HES 319	Neuromuscular Aspects of Human Movement	4
HES 403	Physiology of Exercise	3
HES 420	Electrocardiography and Exercise Management	3
HES 476	Exercise and Chronic Disease	3
MATH 455	Mathematics in Biology and Medicine	3
MECH 543	Biofluid Mechanics	3
MIP 300	General Microbiology	3
MIP 302	General Microbiology Laboratory	2
MIP 342	Immunology	4
MIP 343	Immunology Laboratory	2
MIP 351	Medical Bacteriology	3
MIP 352	Medical Bacteriology Laboratory	3
MIP 420	Medical and Molecular Virology	4
MIP 443	Microbial Physiology	4
MIP 450	Microbial Genetics	3
NB 500/BMS 502	Readings in Cellular Neurobiology	1
NB 501	Cellular and Molecular Neurophysiology	2

BME Broad Electives

Code	Title	Credits
AB 410	Understanding Pesticides	3
ATS 555	Air Pollution	3
ATS 560	Air Pollution Measurement	2
BC 351	Principles of Biochemistry	4
BC 401	Comprehensive Biochemistry I	3
BC 403	Comprehensive Biochemistry II	3
BC 404	Comprehensive Biochemistry Laboratory	2
BC 411	Physical Biochemistry	4
BC 441	3D Molecular Models for Biochemistry	1
BC 463	Molecular Genetics	3
BC 464	Molecular Genetics Recitation	1
BC 465	Molecular Regulation of Cell Function	3
BC 517	Metabolism	2
BC 521/CHEM 521	Principles of Chemical Biology	3
BC 563	Molecular Genetics	4
BIOM 350A	Study Abroad--Ecuador: Prosthetics	1-2
BIOM 421	Transport Phenomena in Biomedical Engineering	3
BIOM 422	Quantitative Systems and Synthetic Biology	3

BIOM 431/ECE 431	Biomedical Signal and Image Processing	3
BIOM 504/CBE 504	Fundamentals of Biochemical Engineering	3
BIOM 517/ECE 517	Advanced Optical Imaging	3
BIOM 518/ECE 518	Biophotonics	3
BIOM 522/CBE 522	Bioseparation Processes	3
BIOM 525/MECH 525	Cell and Tissue Engineering	3
BIOM 526/ECE 526	Biological Physics	3
BIOM 527A/ ECE 527A	Biosensing: Cells as Circuits	1
BIOM 527B/ ECE 527B	Biosensing: Signal and Noise in Biosensors	1
BIOM 527C/ ECE 527C	Biosensing: Sensor Circuit Fundamentals	1
BIOM 527D/ ECE 527D	Biosensing: Electrochemical Sensors	1
BIOM 527E/ ECE 527E	Biosensing: Affinity Sensors	1
BIOM 527F/ ECE 527F	Biosensing: Biophotonic Sensors Using Refractive Index	1
BIOM 531/MECH 531	Materials Engineering	3
BIOM 532/MECH 532	Materials Issues in Mechanical Design	3
BIOM 533/CIVE 533	Biomolecular Tools for Engineers	3
BIOM 537/ECE 537	Biomedical Signal Processing	3
BIOM 570/MECH 570	Bioengineering	3
BIOM 573/MECH 573	Structure and Function of Biomaterials	3
BIOM 574/MECH 574	Bio-Inspired Surfaces	3
BIOM 576/MECH 576	Quantitative Systems Physiology	4
BIOM 578/MECH 578	Musculoskeletal Biosolid Mechanics	3
BIOM 579/MECH 579	Cardiovascular Biomechanics	3
BMS 301	Human Gross Anatomy	5
BMS 302	Laboratory in Principles of Physiology	2
BMS 305	Domestic Animal Gross Anatomy	4
BMS 310	Anatomy for the Health Professions	4
BMS 320	Virtual Laboratory in Physiology	2
BMS 325	Cellular Neurobiology	3
BMS 330	Microscopic Anatomy	4
BMS 345	Functional Neuroanatomy	4
BMS 405	Nerve and Muscle-Toxins, Trauma and Disease	3
BMS 409	Human and Animal Reproductive Biology	3
BMS 420	Cardiopulmonary Physiology	3
BMS 430	Endocrinology	3
BMS 450	Pharmacology	3
BMS 460	Essentials of Pathophysiology	3
BMS 500	Mammalian Physiology I	4
BMS 501	Mammalian Physiology II	4
BMS 503/NB 503	Developmental Neurobiology	3
BMS 505/NB 505	Neuronal Circuits, Systems and Behavior	3
BMS 545	Neuroanatomy	5
BMS 575	Human Anatomy Dissection	4
BSPM 302	Applied and General Entomology	2
BSPM 361	Elements of Plant Pathology	3
BZ 310	Cell Biology	4

BZ 311	Developmental Biology	4	CHEM 570	Chemical Bonding	3
BZ 348/MATH 348	Theory of Population and Evolutionary Ecology	4	CHEM 575	Fundamentals of Chemical Thermodynamics	1
BZ 350	Molecular and General Genetics	4	CHEM 576	Statistical Mechanics	2
BZ 360	Bioinformatics and Genomics	4	CHEM 577	Surface Chemistry	3
BZ 420	Evolutionary Medicine	3	CHEM 578A	Computational Chemistry: Electronic Structure	1
BZ 476/BZ 576	Genetics of Model Organisms	3	CHEM 579	Chemical Kinetics	3
CBE 330	Process Simulation	3	CIVE 322	Basic Hydrology	3
CBE 406	Introduction to Transport Phenomena	3	CIVE 330	Ecological Engineering	3
CBE 501	Chemical Engineering Thermodynamics	3	CIVE 367	Structural Analysis	3
CBE 502	Advanced Reactor Design	3	CIVE 401	Hydraulic Engineering	3
CBE 503	Transport Phenomena Fundamentals	3	CIVE 413	Environmental River Mechanics	3
CBE 505	Biochemical Engineering Laboratory	1	CIVE 423	Groundwater Engineering	3
CBE 514	Polymer Science and Engineering	3	CIVE 438	Fundamentals of Environmental Engr	3
CBE 521	Mathematical Modeling for Chemical Engineers	3	CIVE 439	Applications of Environmental Engr Concepts	3
CBE 524	Bioremediation	1	CIVE 440	Nonpoint Source Pollution	3
CBE 540/CIVE 540	Advanced Biological Wastewater Processing	3	CIVE 442	Air Quality Engineering	3
CBE 570	Biomolecular Engineering/Synthetic Biology	3	CIVE 520	Physical Hydrology	3
CHEM 246	Fundamentals of Organic Chemistry Laboratory	1	CIVE 524/WR 524	Modeling Watershed Hydrology	3
CHEM 261	Fundamentals of Inorganic Chemistry	3	CIVE 531	Groundwater Hydrology	3
CHEM 311	Introduction to Nanoscale Science	3	CIVE 538	Aqueous Chemistry	3
CHEM 334	Quantitative Analysis Laboratory	1	CIVE 560	Advanced Mechanics of Materials	3
CHEM 335	Introduction to Analytical Chemistry	3	CIVE 562	Fundamentals of Vibrations	3
CHEM 338	Environmental Chemistry	3	CM 501	Advanced Cell Biology	4
CHEM 343	Modern Organic Chemistry II	3	CM 502/NB 502	Techniques in Molecular & Cellular Biology	2

¹ Select 3 credits from any of the following: Any 400- or 500-level MECH course except MECH 486A, MECH 486B, MECH 495, MECH 498A, or MECH 498B.

Major Completion Map

Distinctive Requirements for Degree Program:

TO DECLARE MAJOR: Engineering is a controlled major: students are admitted into the major only if they meet established academic standards. The biomedical engineering combined with mechanical engineering program has additional admissions requirements and enrollment limits. Please see competitive major requirements or the advisor in the Department for more information.

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus and chemistry. To qualify for graduation, students in the biomedical engineering combined with mechanical engineering must achieve a minimum 2.000 grade point average at CSU in all courses in engineering, mathematics, computer science, statistics, physics, and chemistry as well as courses taken as technical electives.

Freshman

Semester 1		Critical	Recommended	AUCC	Credits
BIOM 100	Overview of Biomedical Engineering	X			1
CHEM 111	General Chemistry I (GT-SC2)	X		3A	4
CHEM 112	General Chemistry Lab I (GT-SC1)		X	3A	1
CO 150	College Composition (GT-CO2)		X	1A	3
MATH 160	Calculus for Physical Scientists I (GT-MA1)	X		1B	4
MECH 103	Introduction to Mechanical Engineering	X			3
Total Credits					16

Semester 2		Critical	Recommended	AUCC	Credits
LIFE 102	Attributes of Living Systems (GT-SC1)	X		3A	4
MATH 161	Calculus for Physical Scientists II (GT-MA1)	X		1B	4
MECH 105	Mechanical Engineering Problem Solving	X			3
PH 141	Physics for Scientists and Engineers I (GT-SC1)	X		3A	5
Total Credits					16

Sophomore

Semester 3		Critical	Recommended	AUCC	Credits
BIOM 200	Fundamentals of Biomedical Engineering	X			2
CIVE 260	Engineering Mechanics-Statics	X			3
MATH 261	Calculus for Physical Scientists III	X			4
MECH 201	Engineering Design I	X			2
PH 142	Physics for Scientists and Engineers II (GT-SC1)	X		3A	5
Total Credits					16

Semester 4		Critical	Recommended	AUCC	Credits
CHEM 113	General Chemistry II		X		3
CIVE 261	Engineering Mechanics-Dynamics	X			3
MATH 340	Intro to Ordinary Differential Equations	X			4
MECH 231	Engineering Experimentation	X			3
Select one group from the following:					3
Group A:					
MECH 200	Introduction to Manufacturing Processes	X			
Group B:					
MECH 200A	Introduction to Manufacturing Processes: Lecture	X			
MECH 200B	Introduction to Manufacturing Processes : Laboratory	X			
Total Credits					16

Junior

Semester 5		Critical	Recommended	AUCC	Credits
CIVE 360	Mechanics of Solids	X			3
MECH 202	Engineering Design II	X			3
MECH 337	Thermodynamics	X			4
MECH 342	Fluid Mechanics for Mechanical Engineers	X			3
STAT 315	Intro to Theory and Practice of Statistics		X		3
Total Credits					16

Semester 6		Critical	Recommended	AUCC	Credits
BIOM 300	Problem-Based Learning Biomedical Engr Lab	X			4
BMS 300	Principles of Human Physiology	X			4
CHEM 245	Fundamentals of Organic Chemistry		X		4
MECH 324	Dynamics of Machines	X			4
Total Credits					16

Senior				
Semester 7				
BIOM 441	Biomechanics and Biomaterials	Critical	Recommended	AUCC
ECE 204	Introduction to Electrical Engineering	X		
MECH 325	Machine Design		X	
Select one group from the following:				4
Group A:				
MECH 331	Introduction to Engineering Materials	X		
Group B:				
MECH 331A	Introduction to Engineering Materials: Lecture	X		
MECH 331B	Introduction to Engineering Materials : Lab	X		
BME Technical Elective			X	
Total Credits				16
Semester 8				
MECH 301A	Engineering Design III: Finite Element Analysis	X		
MECH 301B	Engineering Design III: Computational Fluid Dynamics	X		
MECH 307	Mechatronics and Measurement Systems	X		
MECH 338	Thermal/Fluid Sciences Laboratory		X	
MECH 344	Heat and Mass Transfer		X	
Advanced Writing			X	2
Arts and Humanities			X	3B
Total Credits				16
Fifth Year				
Semester 9				
BIOM 486A	Biomedical Design Practicum: Capstone Design I	X		4A,4B,4C
BME Technical Elective (See List on Requirements tab)			X	
MECH Technical Elective (See approved courses on Requirements Tab)			X	
Diversity, Equity, and Inclusion				1C
Social and Behavioral Sciences			X	3C
Total Credits				16
Semester 10				
BIOM 486B	Biomedical Design Practicum: Capstone Design II	X		4A,4B,4C
BME Technical Elective (See List on Requirements tab)		X		
Arts and Humanities		X		3B
Historical Perspectives		X		3D
The benchmark courses for the 10th semester are the remaining courses in the entire program of study.		X		
Total Credits				13
Program Total Credits:				157

Certificate in Global Biomedical Engineering

This certificate draws together themes relevant to the study of global biomedical engineering, from cross-cultural competence, international communication, issues facing developing countries, regulatory affairs and quality standards in the U.S. and abroad.

Learning Outcomes

Upon successful completion, students will be able to:

1. Discuss cross-cultural competence in the biomedical engineering field, considering social, political, and economic differences in areas such as medical device design, regulation, technology transfer, and ethics.
2. Participate in globally focused experience(s) or projects related to the field of biomedical engineering.
3. Describe global, economic, environmental, and societal impacts of engineering solutions.

Program Requirements Effective Fall 2023

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Required Course:		
BIOM 304	Global Challenges and Collaborations in BME	3
Required International Experience (minimum 1 credit):		1
BIOM 350A	Study Abroad--Ecuador: Prosthetics	
BIOM 495	Independent Study ¹	
Select a minimum of 5 credits from the following in order to bring the program total credits to 9:		5
ANTH 416	Gender, Culture, and Health	
GES 450	Global Sustainability and Health	
GR 305	Geography of Global Health	
HES 345	Population Health and Disease Prevention	
LSPA 340	Spanish for Animal Health and Care Fields	
LSPA 346	Spanish for Health Care	
SPCM 434	Intercultural Communication	
Program Total Credits:		9

¹ Independent Study must be approved with a Global BME focus.

Graduate Certificate in Biomaterials and Tissue Engineering

This graduate certificate provides biomedical engineering students, engineering professionals, and eligible individuals from other disciplines with specialized training in biomaterials and tissue engineering. Students understand materials by properties, processing, and economics for biomedical and biotechnology applications. Students gain knowledge of biomaterials used in medical devices and analyze functionalities of various biological species in tissue engineering and to identify design materials for biological engineering purposes.

Requirements Effective Fall 2020

Additional coursework may be required due to prerequisites.

Code	Title	Credits
BIOM 570/MECH 570	Bioengineering	3
Select any three courses:		9
BIOM 525/ MECH 525	Cell and Tissue Engineering	
BIOM 531/ MECH 531	Materials Engineering	
BIOM 573/ MECH 573	Structure and Function of Biomaterials	
BIOM 574/ MECH 574	Bio-Inspired Surfaces	
Program Total Credits:		12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Master of Science in Bioengineering

The Master of Science in Bioengineering curriculum includes core courses in advanced mathematics and statistics, bioengineering, and biomolecular technology, as well as technical electives chosen from numerous engineering and life science courses. The curriculum is designed to provide flexibility and support for a student's research specialty. M.S. students are involved in the design and regulatory approval of advanced medical technologies, as well as the manufacturing of health care products. Each student's research is guided by an advisor and contributes to the knowledge base in the scientific community that forms the basis of the student's thesis. Funding opportunities are available for M.S. students.

Strengths of the program include:

- Research leading to major advances in a health care field
- Nationally and internationally recognized faculty from over a dozen departments
- Coverage of regulatory issues and approval processes with animal and human subjects
- Conducting research in state-of-the-art facilities, including the nationally renowned Veterinary Teaching Hospital
- Community of innovators on the cutting edge of research in cancer, orthopaedics, cardiovascular diseases, nanotechnology, biosensors, and more

Requirements

Intra-University in Colleges of Health and Human Sciences, Engineering, Natural Sciences, Veterinary Medicine & Biomedical Sciences

Effective Fall 2021

Core Course Requirements		
BIOM 533/CIVE 533	Biomolecular Tools for Engineers	3
BIOM 570/MECH 570	Bioengineering	3
BIOM 576/MECH 576	Quantitative Systems Physiology	4
BIOM 592	Seminar ¹	2
BIOM 699	Thesis	8
Select three credits from the following:		3
MATH 530	Mathematics for Scientists and Engineers	
MATH 535	Foundations of Applied Mathematics	
MATH 545	Partial Differential Equations I	
MATH 550/ ENGR 550	Numerical Methods in Science and Engineering	
MATH 560	Linear Algebra	
MATH 569A	Linear Algebra for Data Science: Matrices and Vectors Spaces	
MATH 569B	Linear Algebra for Data Science: Geometric Techniques for Data Reduction	
MATH 569C	Linear Algebra for Data Science: Matrix Factorizations and Transformations	
MATH 569D	Linear Algebra for Data Science: Theoretical Foundations	
Select four credits from the following:		4
STAR 501	Data Wrangling/Visualization for Researchers	

STAR 502	Multivariate Analysis for Researchers	
STAR 512	Design and Data Analysis for Researchers II	
STAR 513	Regression Models for Researchers	
STAR 514	Experimental Design/Analysis for Researchers	
STAR 531	Generalized Regression Models for Researchers	
STAR 532	Mixed Models for Researchers	
STAR 534	Machine Learning for Researchers	
Electives ²		3
Program Total Credits:		30

A minimum of 30 credits are required to complete this program.³

¹ BIOM 592 must be taken in two semesters.

² Select a minimum of 3 credits of Engineering courses 500-level or above with approval of advisor.

³ Program Total Credits must include a minimum of 21 semester credits earned at CSU (not including thesis or independent study) in 500-level (or above) regular courses.

Ph.D in Bioengineering

A Ph.D. in Bioengineering student performs original research guided by an advisor and contributes to the knowledge base in the scientific community. Students may be involved in the design and regulatory approval of advanced medical technologies, as well as the manufacturing of health care products. Funding opportunities include research or teaching assistantships and fellowships. Lab rotations, funded as graduate research assistantships, are available for top Ph.D. candidates and offer a one-year opportunity for students to rotate through research labs within the School of Biomedical Engineering to find the ideal match of research project and advisor for their dissertation research.

The Ph.D. curriculum includes core courses in advanced mathematics and statistics, biomedical engineering, and biotechnology, as well as technical electives chosen from numerous engineering and life science courses. The curriculum is designed to provide flexibility and support the chosen research specialty. Students are required to complete a Ph.D. qualifying process, present a research plan in a preliminary exam, and defend completed research in a final exam/dissertation defense.

Strengths of the program include the following:

- Opportunities to develop major advances in the health care field
- Nationally and internationally recognized faculty from over a dozen departments
- Practical and academic experience with regulatory issues and approval processes with animal and human subjects
- Conducting research in state-of-the-art facilities, including the nationally renowned Veterinary Teaching Hospital
- Community of innovators on the cutting edge of research in cancer, orthopedics, cardiovascular disease, nanotechnology, biosensors, and more

Graduate Programs in Systems Engineering

The Master of Engineering program produces graduates who can design and manage complex multidisciplinary engineering systems with a rigorous systems engineering approach. The applied focus in courses builds skills that can be utilized immediately in current projects and prepares students for future career opportunities.

Graduates of the Master of Science program will be capable of designing and managing complex multidisciplinary engineering systems with a rigorous systems engineering approach. The research component of the thesis- and project-based M.S. programs equips students with cutting edge skills in specific focus areas, preparing them for future career opportunities.

The Ph.D. prepares students to become leaders in systems engineering. Throughout the program, students produce significant academic contributions in terms of original research to the field, driving advancements and leading to improvements in energy efficiency, environmental impact, cybersecurity, and economic growth, among other areas of application for systems engineering.

The Doctor of Engineering in Systems Engineering degree will include core studies in systems engineering and its applications to complex systems in a working environment. The curriculum includes professional and applied/translational courses, a systems engineering practicum, and a dissertation to assist working professionals in attaining a higher level of value for their organizations.

- Master of Engineering, Plan C, Systems Engineering Specialization

Ph.D.

Ph.D. in Systems Engineering

Professional Doctorate

Doctor of Engineering in Systems Engineering

Graduate Certificates

Certificate in Systems Engineering Practice

Courses

SYSE 501 Foundations of Systems Engineering Credits: 3 (3-0-0)

Course Description: Functional components of systems engineering, application of systems engineering to practical problems, system life-cycle process.

Prerequisite: None.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: ECE 501, ENGR 501, or SYSE 501.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 505 Systems Thinking for the Real World Credits: 3 (3-0-0)

Course Description: Application of systems thinking language, tools, and framework for solving real-world complex issues.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online. Credit not allowed for both SYSE 505 and SYSE 580A2.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 512 Systems Sensing and Imaging Analysis Credits: 3 (3-0-0)

Course Description: Sensing, sampling, filtering, transducing, and transmission of information to transform physical data to the digital domain. Subsequent processing of image and digital data, restoration, analysis and classification to problems in inspection, authentication, color science, biometrics, and signal/image characterization.

Prerequisite: ECE 303 or STAT 303 or STAT 315.

Registration Information: Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online. Credit not allowed for both SYSE 512 and ENGR 681A2.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 530 Overview of Systems Engineering Processes Credits: 3 (3-0-0)

Course Description: Systems engineering life-cycle process and analysis techniques. Reliability and robustness.

Prerequisite: ECE 303 or STAT 303 or STAT 315.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: ECE 530, ENGR 530, or SYSE 530.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 532 Dynamics of Complex Engineering Systems Credits: 3 (3-0-0)

Also Offered As: ECE 532.

Course Description: Higher-level behavior and issues that emerge from interaction between components in complex socio-technical systems.

Prerequisite: ECE 501, may be taken concurrently or ENGR 501, may be taken concurrently or SYSE 501, may be taken concurrently.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: ECE 532, ENGR 532, or SYSE 532.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 534 Human Systems Integration Credits: 3 (3-0-0)

Course Description: Evaluation of human capabilities and limitations when designing and evaluating complex systems in order to enhance safety, efficiency, usability, and reduce life cycle costs.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Bachelor's degree required. Sections may be offered: Face-to-Face, Online, or Mixed Face-to-Face. Credit not allowed for both ENGR 581A4 and SYSE 534.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 541 Engineering Data Design and Visualization Credits: 3 (3-0-0)

Course Description: Data design, aggregation and filtering, intuitive data exploration, effective communication of patterns, summaries, and findings, and methods of archiving for engineers.

Prerequisite: ECE 303 or STAT 303 or STAT 315.

Registration Information: Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online. Credit not allowed for both ENGR 580A5 and SYSE 541.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 549 Secure Vehicle and Industrial Networking Credits: 3 (3-0-0)

Course Description: Theoretical and practical applications of secure communications in automotive and industrial networked systems. Industry standards used to understand challenges of balancing requirements for cybersecurity and functional performance. Networks include IP networks, Ethernet, in-vehicle networks, Controller Area Networks, SAE J1939 and diagnostic systems. Coverage includes physical connections, encoding, message framing, media access control, error detection, cryptography and application security.

Prerequisite: CS 163 or CS 164.

Registration Information: Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online. Credit not allowed for both ENGR 580A6 and SYSE 549.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 567 Systems Engineering Architecture Credits: 3 (3-0-0)

Course Description: Observation/classification of systems architecture. Systems architecture principles and critical evaluation through design studies.

Prerequisite: ECE 501 or ENGR 501 or SYSE 501.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: ECE 567, ENGR 567, or SYSE 567.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 569 Cybersecurity Awareness for Systems Engineers Credits: 3 (3-0-0)

Course Description: Cybersecurity principles, practices, technologies, design approaches, and terminology needed to incorporate cybersecurity principles into effective systems designs.

Prerequisite: ENGR 501 or SYSE 501.

Registration Information: Bachelor's degree required. Sections may be offered: Online. Credit allowed for only one of the following: ENGR 569, ENGR 580A4, or SYSE 569.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 571 Analytics in Systems Engineering Credits: 3 (3-0-0)

Course Description: Focus on the appropriate application of data mining, knowledge generation, data analytics and data algorithmics to large complex systems. Demystify "big data" for systems engineers as applied to intelligent systems.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Bachelor's degree required. Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online. Credit not allowed for both ENGR 571 and SYSE 571.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 573 Cost Optimization for Systems Engineers Credits: 3 (3-0-0)

Course Description: Techniques and strategies to respond to requirements, design, development and manufacturing decisions, while optimizing for cost at the organizational, program, and project level.

Prerequisite: ENGR 502 and ENGR 531.

Restriction: Must be a: Graduate.

Registration Information: Sections may be offered: Face-to-Face, Online, or Mixed Face-to-Face. Credit not allowed for both ENGR 581A3 and SYSE 573.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 596 Group Study-Systems Engineering Skills Credits: Var[1-2] (0-0-0)

Course Description: Topics related to building specialized skills relevant for the systems engineering field.

Prerequisite: None.

Registration Information: Bachelor's degree required. Sections may be offered: Online.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 597 Group Study in Systems Engineering Credits: 3 (0-0-3)

Course Description: Special and contemporary topics in the field of systems engineering.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered: Online.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 602 Systems Requirements Engineering Credits: 3 (3-0-0)

Course Description: Introduction to the rigorous requirements process within systems engineering, including system requirements analysis, requirements decomposition, allocation, tracking, verification, and validation.

Prerequisite: (ENGR 501 or SYSE 501) and (ENGR 530 or SYSE 530).

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: ENGR 602, ENGR 680A2, or SYSE 602.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 603 Introduction to Systems Test and Evaluation Credits: 3 (3-0-0)

Course Description: Test and evaluation of systems at both the component and systems levels to provide insights into how systems succeed or fail based on test methodologies.

Prerequisite: ENGR 502 and ENGR 531.

Restriction: Must be a: Graduate, Professional.

Registration Information: Bachelor's degree required. Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online. Credit allowed for only one of the following: ENGR 603, ENGR 680A3, or SYSE 603.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 667 Advanced Model-Based Systems Engineering Credits: 3 (3-0-0)

Course Description: Theory and application of formal systems architecture modeling.

Prerequisite: ENGR 567 or SYSE 567.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online. Credit not allowed for both ENGR 567 or SYSE 567.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 695 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

SYSE 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

SYSE 710 Leadership/Innovation in Systems Engineering Credits: 3 (3-0-0)

Course Description: Background in technical leadership skill sets, systems engineering skillsets, and intellectual toolkit to develop a successful applied and translational research project/practicum.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Bachelor's degree required. Sections may be offered: Online. Course is not available for credit toward the PhD in Systems Engineering. Credit not allowed for both ENGR 710 and SYSE 710.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 711 Ethics in Systems Engineering Credit: 1 (0-0-1)

Course Description: Ethical principles and their application to systems engineering.

Prerequisite: ENGR 501 or SYSE 501.

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as an online course only. Credit not allowed for both ENGR 711 and SYSE 711.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 786 Applied Systems Engineering Practicum Credits: Var[1-9] (0-0-0)

Course Description: Research techniques, critical thinking, evaluation criteria, and methods of technical writing.

Prerequisite: ENGR 710 or SYSE 710.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of advisor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

SYSE 795 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

SYSE 799A Dissertation: PhD Credits: Var[1-18] (0-0-0)

Course Description: Dissertation for PhD in System Engineering Program.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of advisor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

SYSE 799B Dissertation: Professional Doctorate Credits: Var[1-9] (0-0-0)**Course Description:****Prerequisite:** SYSE 786.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Written consent of advisor. Admission to Professional Doctorate of Engineering, Systems Engineering.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.

Master of Science in Systems Engineering

Graduates of the Master of Science in Systems Engineering are capable of designing and managing complex multidisciplinary engineering systems with a rigorous systems engineering approach. The research component of the thesis- and project-based M.S. programs equip students with cutting edge skills in specific focus areas, preparing them for future career opportunities.

SYSE 799B	Dissertation: Professional Doctorate	9
Additional credits required to complete this degree:		30
Applicable Master's Degree Credit (a maximum of 30 credits may be accepted from a master's degree)		
Technical courses as advised (500-level or higher)		
Program Total Credits:		72

A minimum of 72 credits are required to complete this program.

¹ If required courses or the equivalent have not been taken, they must be taken prior to any other technical elective.

² Other courses may be selected with advisor approval.

Ph.D. in Systems Engineering

The Ph.D. in Systems Engineering prepares students to become leaders in systems engineering. Throughout the program, students produce significant academic contributions, in terms of original research, to the field. These contributions drive advancements and lead to improvements in energy efficiency, environmental impact, cybersecurity, and economic growth, among other areas of application for systems engineering.

Requirements Effective Fall 2023

Code	Title	Credits
Core Requirements		
Select 7 courses from the following:		21
ENGR 502	Engineering Project and Program Management	
or CIS 600A	Project Management: Information Technology	
or CIS 670	Advanced IT Project Management	
ENGR 510	Engineering Optimization: Method/Application	
ENGR 520	Engineering Decision Support/Expert Systems	
ENGR 525	Intellectual Property and Invention Systems	
ENGR 531	Engineering Risk Analysis	
ENGR 533	Spaceflight and Biological Systems	
ENGR 540	Design Analysis of Engineering Experiments	
ENGR 565/ ECE 565	Electrical Power Engineering	
ECE 566	Grid Integration of Wind Energy Systems	
ENGR 570	Coupled Electromechanical Systems	
MECH 513	Simulation Modeling and Experimentation	
SYSE 501	Foundations of Systems Engineering	
SYSE 505	Systems Thinking for the Real World	
SYSE 512	Systems Sensing and Imaging Analysis	
SYSE 530	Overview of Systems Engineering Processes	
SYSE 532/ ECE 532	Dynamics of Complex Engineering Systems	
SYSE 534	Human Systems Integration	
SYSE 541	Engineering Data Design and Visualization	
SYSE 549	Secure Vehicle and Industrial Networking	
SYSE 567	Systems Engineering Architecture	
SYSE 569	Cybersecurity Awareness for Systems Engineers	
SYSE 571	Analytics in Systems Engineering	
SYSE 573	Cost Optimization for Systems Engineers	
SYSE 602	Systems Requirements Engineering	
SYSE 603	Introduction to Systems Test and Evaluation	
SYSE 667	Advanced Model-Based Systems Engineering	
Technical Electives ¹		18

Research		
SYSE 799A	Dissertation: PhD ²	33
Program Total Credits:		72

A minimum of 72 credits are required to complete this program.

- ¹ Select 18 credits with approval by student's advisory committee. A maximum of 6 credit hours are permitted at the 400-level. The remainder must be at the 500-level or above.
- ² 3 credit hours of SYSE 795 may be used by students who have had their Ph.D. research, which was performed while enrolled at CSU, accepted for publication (completely or with minor revisions) in at least two peer-reviewed journal or conference publications may fill out a form listing citations and validating documentation and have the form approved by the student's Ph.D. committee.

Graduate Certificate in Systems Engineering Practice

The Graduate Certificate in Systems Engineering Practice introduces students to systems engineering concepts and practices with coursework that instills the key core competencies and skills needed to practice as a systems engineer with complex systems involving hardware and embedded software. This certificate prepares engineers or other professionals in aerospace technology, energy, biosciences, environmental resources, and other fields to lead systems engineering development from concept creation through the system lifecycle. Students who finish SYSE 501 with at least a B+ (87%) or higher in the course can bypass the INCOSE knowledge exam for either ASEP certification or CSEP certification.

Requirements Effective Fall 2020

Additional coursework may be required due to prerequisites.

Code	Title	Credits
ENGR 502	Engineering Project and Program Management	3
or CIS 600A	Project Management: Information Technology	
or CIS 670	Advanced IT Project Management	
ENGR 531	Engineering Risk Analysis	3
SYSE 501	Foundations of Systems Engineering	3
SYSE 530	Overview of Systems Engineering Processes	3
Program Total Credits:		12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

College of Health and Human Sciences

Office in L.L. Gibbons Building, Room 217
(970) 491-6331
www.chhs.colostate.edu (<https://www.chhs.colostate.edu>)

Professor Lise Youngblade, Dean
Professor Jennifer Aberle, Associate Dean for Undergraduate Affairs
Professor Matthew Hickey, Associate Dean for Research and Graduate Programs
Associate Professor Michelle Foster, Assistant Dean for Diversity, Equity, Inclusion, and Justice

Undergraduate Majors

- Apparel and Merchandising
- Construction Management
- Early Childhood Education
- Family and Consumer Sciences
- Fermentation Science and Technology
- Health and Exercise Science
- Hospitality and Event Management
- Human Development and Family Studies
- Interior Architecture and Design
- Nutrition and Food Science
- Social Work

Undergraduate Minors

- Construction Management
- Design Thinking
- Health and Exercise Science
- Merchandising
- Nutrition

Interdisciplinary Minors

- Food Science/Safety Interdisciplinary Minor
- Gerontology Interdisciplinary Minor

Undergraduate Certificates

- Design Thinking
- Youth Mentoring with Campus Connections

Graduate Programs and Certificates

- Construction Management
- Design and Merchandising (<http://catalog.colostate.edu/general-catalog/colleges/health-human-sciences/design-merchandising/#graduatetext>)
- Food Science and Human Nutrition
- Health and Exercise Science
- Human Development and Family Studies
- Human-Centered Design Thinking
- Occupational Therapy
- School of Education
- School of Social Work

College Programs

The College of Health and Human Sciences (<https://www.chhs.colostate.edu/>) comprises six academic departments and two schools focused on promoting the health and well-being of people, their environments, and the communities in which they live. The College's programs offer professional education and research opportunities for careers and lifelong learning through a solid grounding in the natural sciences, social sciences, and humanities with courses specific to each discipline.

Learning in the College is applied, experiential, and takes place in a variety of settings on and off-campus, forging strong links between the classroom and the workplace. All of the College's programs combine classroom instruction with hands-on experiences in state-of-the-art computer laboratories, research laboratories, specialized centers and institutes, and with faculty who emphasize student success and support diverse learning styles. The College offers numerous scholarships (<https://www.chhs.colostate.edu/academics/scholarships/>) and supports student learning and basic needs through a variety of University resources.

Education Abroad

Education abroad programs are available to all students in the College of Health and Human Sciences. Students interested in education abroad should plan in advance, by discussing opportunities with their academic advisor and by visiting the Education Abroad office in Laurel Hall. The Education Abroad office offers information about credit and non-credit opportunities (service-learning/volunteer, research, internships), as well as support prior to and during travel, information about scholarships and financial aid, and specific resources for adult learners & veterans, students with disabilities, and students from diverse economic, educational, ethnic and social backgrounds.

Career Opportunities and Career Education

College of Health and Human Sciences prepares students for success in a variety of careers to promote and improve the health and well-being of people, their environments, and communities. While students' education focuses on a specific academic discipline, through courses and other experiences, they will build skills that transfer to many different careers and fields. The College's Career Development resources and Career Education Manager (<https://www.chhs.colostate.edu/after-college/>)

career-development/) are here to support students with their career and professional development.

Online and Distance Education

The College supports access to education by offering undergraduate and graduate courses and degree programs and several non-credit professional development opportunities online. For details about the College's online courses, degree programs, and certificates, please visit CSU Online.

Minor in Design Thinking

The Minor in Design Thinking, offered on-campus and through CSU Online, provides students with an opportunity to develop creative methods and processes for solving societal problems. This human-centered approach engages users and stakeholders in interdisciplinary co-design processes and applies elementary or emerging technologies to develop prototypes that improve spaces, objects, services, problems, and ideas benefitting daily experiences and overall quality of life. Students will gain an awareness of the impact of design thinking and its application – to their major, discipline, or profession.

Learn more about the Minor in Design Thinking, including which courses are offered each semester, on the Nancy Richardson Design Center website. (<https://www.chhs.colostate.edu/rdc/learn/earn-undergraduate-certificate-or-minor-in-design-thinking/>)

Requirements Effective Fall 2023

Courses from this list may not double-count for the Undergraduate Certificate in Design Thinking.

Students cannot earn both the certificate and minor in Design Thinking.

Additional coursework may be required due to prerequisites.

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Code	Title	Credits
Required Courses:		
IDEA 110	Design Your Life with Social Impact (GT-SS3)	3
IDEA 210	Introduction to Design Thinking (GT-AH1)	3
Select a minimum of 9-12 credits from the following courses:		9-12
IDEA 310A	Design Thinking Toolbox: Paper Products	
IDEA 310B	Design Thinking Toolbox: 3D Modeling	
IDEA 310D	Design Thinking Toolbox: Digital Imaging	
IDEA 310E	Design Thinking Toolbox: Foundations of Woodworking	
IDEA 310F	Design Thinking Toolbox: Foundations of Textile Design	
IDEA 310G	Design Thinking Toolbox: Infographics	
IDEA 310H/ CS 310H	Design Thinking Toolbox: Mixed Reality Design	
IDEA 310I	Design Thinking Toolbox: Foundations of Metal Fabrication	
IDEA 310J	Design Thinking Toolbox: Graphic Noveling	

IDEA 310K	Design Thinking Toolbox: Technical Sketching and Illustration	
IDEA 310L	Design Thinking Toolbox : Creating Things That Think	
IDEA 310M	Design Thinking Toolbox: Co-designing with Communities	
IDEA 310N	Design Thinking Toolbox: Post-Digital Imaging/Printmaking	
IDEA 310O	Design Thinking Toolbox: Digital Interaction and Game Design	
IDEA 310Q	Design Thinking Toolbox: 3D Animation and Storytelling	
IDEA 320B	Design Thinking Toolbox: Advanced 3D Modeling	
IDEA 320E	Design Thinking Toolbox: Advanced Woodworking	
IDEA 320F	Design Thinking Toolbox: Advanced Textile Design	
IDEA 320I	Design Thinking Toolbox: Advanced Metal Fabrication	
Select a minimum of 3-6 credits from the following courses:		3-6
IDEA 384	Supervised College Teaching	
IDEA 424/ MGT 424	Design Thinking in Social Entrepreneurship	
IDEA 450	Design Thinking Collaborative	
IDEA 455/ MGT 455	Designing for Defense	
IDEA 487	Internship	
IDEA 496	Group Study

Certificate in Design Thinking

Open to all undergraduate students on-campus and through CSU Online, the Certificate in Design Thinking will improve not only the way students learn and find solutions to problems in their current coursework, but will also help make students more employable with sought-after marketable skills. Students will gain an awareness of the impact of design thinking and its application – regardless of discipline, profession, or major.

Learn more about the Certificate in Design Thinking, including planned course offerings each semester, on the Nancy Richardson Design Center website. (<https://www.chhs.colostate.edu/rdc/learn/certificate-in-design-thinking/>)

Requirements Effective Fall 2023

Courses from this list may not double-count for the Minor in Design Thinking.

Students cannot earn both the certificate and minor in Design Thinking.

Additional coursework may be required due to prerequisites.

Graduate Certificate in Human-Centered Design Thinking

The Graduate Certificate in Human-Centered Design Thinking, offered through CSU Online, brings together learners from diverse disciplines who aspire to improve personal creativity and/or initiate and lead change in their respective fields. Courses prepare students with theories, strategies, and methods pertaining to the entire innovation process – from stakeholder research and problem finding through prototyping, user testing, and beyond.

Learn more about the Graduate Certificate in Human-Centered Design Thinking on the CSU Online website. (<https://www.online.colostate.edu/certificates/human-centered-design-thinking/>)

Requirements Effective Fall 2023

Additional coursework may be required due to prerequisites.

Department of Construction Management

Office in Guggenheim Hall, Room 102
(970) 491-7353

www.chhs.colostate.edu/cm (<https://www.chhs.colostate.edu/cm/>)

The Construction Management (CM) program at CSU is one of the top-recognized programs in the nation. Since its inception in 1946, more than 6,000 students have graduated, many of them going on to become leaders in their field. The program is accredited by the American Council for Construction Education.

Construction management is the overall planning, coordination, and control of a project from inception to completion. The CM major addresses issues related to the management of multiple project sites and the applications of resource management, schedule control, cost control, design, and other requirements of the construction process. Design elements concentrate on the relationship between the built environment and the comfort of its inhabitants while safety education emphasizes the health of the individual worker.

Undergraduate Program

A major in Construction Management provides a strong foundation for professional careers in the construction industry. The curriculum integrates technology and innovative management systems with the basics of civil engineering, business and management, and the communication skills required to be successful in today's world. Coursework includes construction methods, estimating, scheduling, computer technologies, architectural principles, fundamentals of management and law, steel and concrete structures, and soils. The curriculum incorporates hands-on labs for most courses. This diverse program creates a broad range of career options for graduates. Learn more about the undergraduate program on the department website. (<https://www.chhs.colostate.edu/cm/programs-and-degrees/b-s-in-construction-management/>)

Graduate Program

The Department of Construction Management offers graduate study leading to the Master of Science degree. **The Master's Degree in the Department of Construction Management at CSU is a STEM (Science, Technology, Engineering, and Mathematics) program.** The focus of the department is on professional programs that successfully combine theory and application with a strong emphasis in research. The master's program is an advanced curriculum designed to allow students to tailor a portion of the specialization requirements to meet individual interests and goals. Learn more about the master's program on the department website. (<https://www.chhs.colostate.edu/cm/programs-and-degrees/m-s-in-construction-management/>)

Undergraduate Major

- Major in Construction Management

Minor

- Minor in Construction Management

Graduate Graduate Programs in Construction Management

The graduate program in Construction Management provides an environment that supports graduate students in their development of knowledge necessary to enhance professional practice and apply research to management decisions that impact organizations in an

emerging global economy. The master's program is an advanced curriculum designed to allow students to tailor a portion of the specialization requirements to meet individual interests and goals.

Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Construction Management (<http://cm.chhs.colostate.edu>).

Master's Programs

- Master of Science in Construction Management, Plan A
- Master of Science in Construction Management, Plan B

Courses

Construction Management (CON)

CON 101 Introduction to Construction Management Credits: 3 (3-0-0)
Course Description: Introduction to the construction industry; including methods, practices, trends, careers, and constituencies involved in the design and construction process.

Prerequisite: None.

Registration Information: Pre-Construction Management Majors and Construction Management Majors and Minors Only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 131 Graphic Communications for Construction Credits: 2 (0-4-0)
Course Description: Reading technical drawings, 2D/3D visualization, manual drafting techniques, introduction to design software applications.

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 151 Construction Materials and Methods Credits: 3 (3-0-0)
Course Description: Materials and methods utilized in the construction of the built environment.

Prerequisite: None.

Registration Information: Agricultural Education, Interior Architecture and Design, Pre-Interior Architecture and Design majors, and Construction Management majors and minors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 192 Construction Management Seminar Credit: 1 (0-0-1)
Course Description: Introduction to the construction management major, career paths, industry sectors, campus resources, and tools for academic success. Information and skills necessary to succeed in the construction management major.

Prerequisite: CON 101.

Registration Information: Construction management majors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 251 Materials Testing and Processing Credits: 2 (1-2-0)

Course Description: Testing of construction materials for standards and quality. Conduct material tests, document and interpret results.

Prerequisite: CON 151 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Construction Management Majors Only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CON 253 Surveying and Construction Layout Credits: 2 (0-2-1)

Course Description: Surveying fundamentals related to construction: project layout, measurement procedures, vertical controls, line and grade, and surveying instrument operation.

Prerequisite: (CON 131 with a minimum grade of C) and (MATH 125 or MATH 127 or MATH 160).

Registration Information: Construction management, environmental horticulture, and landscape architecture majors only. Must register for laboratory and recitation. Credit not allowed for both CON 253 and CON 261.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CON 261 Construction Surveying Credits: 3 (2-3-0)

Prerequisite: (CON 131 with a minimum grade of C or INTD 166) and (MATH 125 or MATH 160).

Grade Mode: Traditional.

Special Course Fee: No.

CON 265 Plan Reading and Quantity Survey Credits: 3 (2-2-0)

Course Description: Practice in construction document reading, interpretation and analysis for quantity surveying and material quantity organizing using industry-recognized methods including, but not limited to, a project manual-based work breakdown structure.

Prerequisite: CON 131 with a minimum grade of C and CON 151 with a minimum grade of C.

Registration Information: Construction management majors and minors only. Must register for lecture and laboratory. Required field trips.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 267 Construction Management Pre-Internship Credit: 1 (0-0-1)

Course Description: Skills and concepts related to successful internships within the construction management industry.

Prerequisite: CON 265 with a minimum grade of C.

Registration Information: Construction Management Majors Only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 270 Introduction to Road Construction Credits: 3 (3-0-0)

Course Description: Steps necessary to construct a paved roadway from conception, land acquisition and finance through paving operations and trafficking.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CON 317 Safety Management Credits: 2 (2-0-0)

Course Description: Construction safety management, accident prevention, and hazard control. Federal, state, and local regulation compliance.

Prerequisite: None.

Registration Information: Construction Management majors and minors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 350A Study Abroad--Construction Management: European Perspectives Credits: 3 (0-0-3)

Course Description: A study of the physical resources and the human behaviors, which inform design and construction. Exploration of infrastructure and its relationship to resources, materials, and the culture in which it exists. Review of international perspectives of the built environment of Europe, past and present trends, and what the future holds. Survey of construction over time and trends in the preservation of existing infrastructure.

Prerequisite: None.

Registration Information: Sophomore standing. This is a partial semester course. Required field trips.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

CON 351 Construction Field Management Credits: 2 (1-2-0)

Course Description: Applications of materials and methods in construction; administrative and organizational planning for construction field practice.

Prerequisite: CON 251, may be taken concurrently and CON 317, may be taken concurrently.

Registration Information: Must register for lecture and laboratory. Construction management majors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 352 Metal Fabrication for Construction Credits: 2 (1-2-0)

Course Description: Shaping, cutting, and joining of structural and non-structural metal. Emphasis on jobsite safety, economics, and efficiency.

Prerequisite: CON 251.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CON 353 Field Management for Construction Credits: 3 (1-2-1)

Course Description: Applications of materials and methods in construction; administrative and organizational planning for construction field practice.

Prerequisite: (CON 251, may be taken concurrently) and (CON 253 or CON 261) and (CON 317, may be taken concurrently).

Registration Information: Construction management majors only. Must register for lecture, lab, and recitation. Credit not allowed for both CON 351 and CON 353.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CON 358 Structural Systems for Construction I Credits: 3 (3-0-0)

Course Description: Behavior of structural components and systems, overview of structural engineering analysis and the design process for construction.

Prerequisite: (CON 151 with a minimum grade of C) and (MATH 125 or MATH 160).

Registration Information: Construction management majors only. Credit not allowed for CON 358 and CON 359.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 359 Structures I Credits: 4 (4-0-0)

Prerequisite: (CON 151 with a minimum grade of C) and (MATH 125).

Grade Mode: Traditional.

Special Course Fee: No.

CON 360 Electrical Systems in Construction Credits: 3 (2-2-0)

Course Description: Electrical terminology, theory, components, systems, and applications within the construction industry.

Prerequisite: CON 265 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Construction Management Majors Only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 365 Construction Estimating Credits: 3 (2-2-0)

Course Description: Industry-recognized methods for work item analysis, quantity surveying, resource estimating, and bid development using a work breakdown structure.

Prerequisite: CON 265 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Construction Management majors and minors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 366 Construction Equipment and Methods Credits: 3 (2-2-0)

Course Description: Equipment and methods used in heavy-highway, heavy-civil and utility construction. Equipment and crew productivity. Equipment ownership and operating costs. Estimating, planning and directing heavy construction operations.

Prerequisite: CON 265 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Construction Management majors and minors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 367 Construction Contracts/Project Administration Credits: 3 (3-0-0)

Course Description: Construction contracts and clauses, stakeholder responsibilities, disputes, resolution methods and risk. Utilization of construction administration documents, systems and procedures to meet project requirements.

Prerequisite: CON 351, may be taken concurrently or CON 353, may be taken concurrently.

Registration Information: Construction management majors and minors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 370 Asphalt Pavement Materials and Construction Credits: 3 (2-2-0)

Course Description: Constituents of asphalt pavements; manufacture of asphalt cement, emulsions, and cutbacks; material properties and behavior.

Prerequisite: None.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Construction management and civil engineering majors only. Must register for lecture and laboratory. Required field trips.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 371 Mechanical and Plumbing Systems Credits: 3 (3-0-0)

Course Description: Heating, ventilation, air conditioning, plumbing, and fire suppression in the built environment.

Prerequisite: CON 360, may be taken concurrently or INTD 276, may be taken concurrently.

Registration Information: Interior Design and Construction Management Majors Only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 372 Concrete Material Properties and Construction Credits: 3 (2-2-0)

Course Description: Concrete material properties and behavior, analysis of concrete mixtures, advanced concrete applications for construction, forensic analysis of concrete reports, concrete construction quality assurance and quality control.

Prerequisite: CON 251 with a minimum grade of C-.

Registration Information: Must register for lecture and laboratory. Credits not allowed for both CON 372 and CON 380A1.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CON 384 Supervised College Teaching Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 450 Travel Abroad-Sustainable Building Credits: 3 (3-0-0)

Also Offered As: INTD 450.

Course Description: Major components of sustainable design and construction, energy, healthy buildings, natural resources and other environmental issues.

Prerequisite: None.

Registration Information: Credit not allowed for both CON 450 and INTD 450.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

CON 458 Structural Systems for Construction II Credits: 3 (3-0-0)

Course Description: Review and analysis of shop drawings and details for structural systems. Overview of cast-in-place and prestressed concrete systems. Design of structural wood systems, connections, and formwork for cast-in-place concrete.

Prerequisite: CON 358 with a minimum grade of C or CON 359 with a minimum grade of C.

Registration Information: Construction management majors only. Credit not allowed for both CON 458 and CON 459.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 459 Structures II Credits: 4 (4-0-0)

Course Description: Design of formwork, falsework, and shoring.

Prerequisite: CON 359.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 461 Construction Scheduling Credits: 3 (2-2-0)

Course Description: Strategies and techniques for efficient project control, scheduling of project activities and projects with an emphasis on Critical Path Methodology.

Prerequisite: CON 365 with a minimum grade of C.

Registration Information: Construction management majors and minors only. Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 462 Financial Management for Construction Credits: 3 (3-0-0)

Course Description: Financial statements, financial ratios, time value of money, cash flow analysis and financial reporting for construction companies.

Prerequisite: (ACT 205 or ACT 210) and (CON 365 with a minimum grade of C and CON 461, may be taken concurrently).

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 464 Construction Leadership Credits: 3 (1-0-2)

Course Description: Leading projects and people in a construction business and application of skills in a construction-based community service learning project.

Prerequisite: CON 365 and CON 367, may be taken concurrently.

Registration Information: Must register for lecture and recitation. Written consent of instructor.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 465 Construction Management Professional Practice Credits: 3 (1-0-2)

Course Description: Professional practice using an understanding of the contractual and working relationships among all participants in the design/construction process.

Prerequisite: (CON 461, may be taken concurrently) and (CON 487A or CON 487E or CON 487B).

Registration Information: Construction management majors only. Must register for lecture and recitation.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 469 Soil Mechanics for Construction Credits: 3 (2-0-1)

Course Description: Analysis of the physical characteristics and properties of soil for construction project decision making. Interpretation of soils reports, conducting of testing procedures and evaluation of soils for use as a construction material. Assessment of the impact of soil characteristics on construction activities and project risk.

Prerequisite: CON 366 with a minimum grade of C.

Registration Information: Must register for lecture and recitation. Construction management majors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 471 Project Management for Mechanical Systems Credits: 3 (3-0-0)

Course Description: Fundamental principles of mechanical systems. Presentation and practice of management principles relevant to mechanical projects.

Prerequisite: CON 371 and CON 365, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CON 476 Sustainable Practice-Design and Construction Credits: 3 (3-0-0)

Course Description: Major components of sustainable design/construction: energy, healthy buildings, cultural, natural resources, use, other environment/economic issues.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CON 477 Residential Aging-in-Place and Green Building Credits: 3 (3-0-0)

Course Description: Aging-in-place and green building aspects of the residential construction market.

Prerequisite: CON 265.

Restriction: .

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 487A Internship: Construction Management I Credits: 6 (0-0-18)

Course Description:

Prerequisite: CON 267 and CON 367.

Registration Information: OSHA 10-hour construction safety card.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

CON 487B Internship: Construction Management II Credits: 3 (0-0-9)

Course Description:

Prerequisite: CON 267 and CON 367.

Registration Information: OSHA 10-hour construction safety card; 500 hours documented work experience.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

CON 492A Seminar: Emerging Construction Technologies Credit: 1 (0-0-1)

Course Description: Emerging technologies in construction management practice. Applications of current and cutting-edge software, hardware, processes, tools and equipment in the industry.

Prerequisite: (CON 351 or CON 353) and (CON 365).

Registration Information: Construction Management majors only. Maximum of 3 credits allowed per subtopic. This is a partial semester course. Required field trips.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 492B Seminar: Construction Issues and Trends Credit: 1 (0-0-1)

Course Description: Issues and trends impacting construction project management and field operations. The impact of current trends on project management practice, risk mitigation and project controls.

Prerequisite: (CON 351 or CON 353) and (CON 365).

Registration Information: Construction Management majors only. Maximum of 3 credits allowed per subtopic. This is a partial semester course. Required field trips.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 492C Seminar: Heavy Civil Project Management Credit: 1 (0-0-1)

Course Description: Applications of project management practice for heavy civil construction projects. Exploration of heavy civil construction project management principles and concepts through industry-specific case studies, processes and tutorials.

Prerequisite: (CON 351 or CON 353) and (CON 365).

Registration Information: Construction Management majors only. Maximum of 3 credits allowed per subtopic. This is a partial semester course. Required field trips.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 492D Seminar: Commercial Project Management Credit: 1 (0-0-1)

Course Description: Applications of project management practice for commercial construction projects. Exploration of commercial construction project management principles and concepts through industry-specific case studies, processes and tutorials.

Prerequisite: (CON 351 or CON 353) and (CON 365).

Registration Information: Construction Management majors only. Maximum of 3 credits allowed per course. This is a partial semester course. Required field trips.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 492E Seminar: Residential Project Management Credit: 1 (0-0-1)

Course Description: Applications of project management practice for residential construction projects. Exploration of residential construction project management principles and concepts through industry-specific case studies, processes and tutorials.

Prerequisite: (CON 351 or CON 353) and (CON 365).

Registration Information: Construction Management majors only. Maximum of 3 credits allowed per subtopic. This is a partial semester course. Required field trips.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 495 Independent Study-Construction Management Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 496 Group Study-Construction Management Credits: Var[1-9] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 9 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 502 Research in Construction Management I Credits: 3 (2-0-1)

Course Description: Research, discuss, and present current issues and trends in the construction industry related to business, management, engineering, and technology.

Prerequisite: None.

Registration Information: Must register for lecture and recitation. Credit not allowed for both CON 502 and CON 562.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CON 503 Research in Construction Management II Credits: 3 (3-0-0)

Course Description: Models and methods of disciplined inquiry used in diverse application-based organizations. Preparation to use disciplined inquiry methods to solve applied problems in construction management or related fields. Topics include problem/topic selection, writing research questions and objectives, literature reviews, selection of research methods, data collection and analysis, and conclusions and implications.

Prerequisite: CON 502.

Registration Information: Credit not allowed for both CON 503 and CON 500.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 511 Project Procurement and Preconstruction Credits: 3 (2-0-1)

Course Description: Advanced project procurement procedures with a focus on early design phase planning applications and preconstruction management techniques.

Prerequisite: CON 461, may be taken concurrently.

Registration Information: Must register for lecture and recitation. Credit not allowed for both CON 511 and CON 566.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CON 512 Post-Award Construction Management Credits: 3 (2-0-1)

Course Description: Advanced topics related to post-award construction management issues with a focus on multiple project controls and project risk management.

Prerequisite: CON 461.

Registration Information: Must register for lecture and recitation. Credit not allowed for both CON 512 and CON 560.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 521 Sustainable Building & Infrastructure Systems Credits: 3 (2-0-1)

Course Description: Issues and state-of-the-art resources needed to construct, remodel/retrofit, operate and maintain the built environment (buildings and infrastructure). Specifically, resources will include major materials, components and technologies, as well as energy and water resources are needed in the different life-cycle phases of the building or infrastructure project.

Prerequisite: None.

Registration Information: Must register for lecture and recitation. Credit not allowed for both CON 521 and CON 576.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 561 Applied Productivity Improvement Credits: 3 (3-0-0)

Course Description: Existing and emerging tools for productivity enhancement in project and production environment.

Prerequisite: None.

Registration Information: Admission to the construction management master's program.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 565 Legal Aspects of Construction Process Credits: 3 (3-0-0)

Course Description: Common points of dispute; methods of avoiding disputes among owner, architect, engineer, and contractor.

Prerequisite: None.

Registration Information: Admission to the construction management master's program.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 568 Construction Industry Institute Practices Credits: 3 (3-0-0)

Course Description: Senior executives from the Construction Industry Institute (CII) present best practices developed by CII over the last 25 years.

Prerequisite: CON 367.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CON 569 Regulatory Impact on Construction Credits: 3 (3-0-0)

Course Description: Role government plays in the design and construction of the built environment.

Prerequisite: None.

Registration Information: Admission to the construction management master's program.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 571 Facility Planning and Management Credits: 3 (3-0-0)

Course Description: Planning, organizing and managing large educational and/or commercial facilities.

Prerequisite: None.

Registration Information: Admission to the construction management master's program.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 590 Workshop Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 592 Seminar Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 687 Internship Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Maximum of 6 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 695 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 696 Group Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 698 Research Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 699 Thesis Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Major in Construction Management

The Construction Management major at CSU is one of the top-recognized programs in the nation. Since its inception in 1946, more than 6,000 students have graduated, many of them going on to become leaders in their field. The program is accredited by the American Council for Construction Education.

Construction management is the overall planning, coordination, and control of a project from inception to completion. The Construction Management major addresses issues related to the management of multiple project sites and the applications of resource management, schedule control, cost control, design, and other requirements of the construction process. Design elements concentrate on the relationship between the built environment and the comfort of its inhabitants while safety education emphasizes the health of the individual worker.

A Construction Management major provides a strong foundation for professional careers in the construction industry. The curriculum integrates technology and innovative management systems with the basics of civil engineering, business and management, and the communication skills required to be successful in today's world. Coursework includes construction methods, estimating, scheduling, computer technologies, architectural principles, fundamentals of management and law, steel and concrete structures, and soils. The curriculum incorporates hands-on labs for most courses. This diverse program creates a broad range of career options for graduates.

The Construction Management major is controlled, and all students admitted to CSU or seeking to change their major must first be designated as pre-construction management. The minimum criteria for the Construction Management major are:

- Complete a minimum of 15 credits at CSU
- Earn a minimum 2.750 cumulative CSU GPA
- Complete CON 101 with a "B" grade or better
- Complete CO 150 with a "B" grade or better
- Complete MATH 125 with a "C" grade or better

Once a student has met the minimum requirements listed above, they are eligible to apply to the Construction Management program. Since the Construction Management major does have controlled enrollment, students meeting the above minimum requirements are admitted based on their overall academic performance and space availability.

During their academic career, Construction Management students are required to obtain an internship (full-time structured work experience) position with any one of a variety of construction companies and organizations. Our Phelps Placement Office (<https://www.chhs.colostate.edu/cm/careers-internships-and-recruiting/>) assists current and graduating students, as well as alumni.

Learning Outcomes

Students will develop and demonstrate:

- Professional, analytical, and problem-solving skills related to the career requirements in construction management
- Strong professional communication skills with an emphasis on written, graphic, and verbal skills related to the career requirements in construction management

- Technical proficiency in the following construction management areas: design/engineering, management, materials, methods, estimating, scheduling, safety, surveying, and project administration

The Construction Management undergraduate program is accredited by the American Council for Construction Education (ACCE) and satisfies the requirements of ACCE's mandated Student Learning Outcomes as listed below:

1. Create written communications appropriate to the construction discipline.
2. Create oral presentations appropriate to the construction discipline.
3. Create a construction project safety plan.
4. Create construction project cost estimates.
5. Create construction project schedules.
6. Analyze professional decisions based on ethical principles.
7. Analyze construction documents for the planning and management of construction processes.
8. Analyze the methods, materials, and equipment used to construct projects.
9. Apply construction management skills as a member of a multidisciplinary team.
10. Apply electronic-based technology to manage the construction process.
11. Apply basic surveying techniques for construction layout and control.
12. Understand different methods of project delivery and the roles and responsibilities of all constituencies involved in the design and construction process.
13. Understand construction risk management.
14. Understand construction accounting and cost control.
15. Understand construction quality assurance and control.
16. Understand construction project control processes.
17. Understand the legal implications of the contract, common, and regulatory law to manage a construction project.
18. Understand the basic principles of sustainable construction.
19. Understand the basic principles of structural behavior.
20. Understand the basic principles of mechanical, electrical, and piping systems.

Potential Occupations

The construction industry has become a highly technical industry marked by continuous and dramatic change. There is a continued demand for capable and highly trained construction management professionals who can adapt and become effective leaders in the field.

The Construction Management department prides itself on its in-house intern and job search assistance and counseling. Construction Management continues to boast one of the highest placement rates and entry-level salaries of all majors.

Services provided by the Phelps Placement Office (<https://www.chhs.colostate.edu/cm/careers-internships-and-recruiting/>) include:

- Construction industry career fair hosted each semester
- On-campus interviews and information sessions
- Individual career counseling and assessment
- Job and internship search strategies

- Resume and business correspondence resources
- Year-round intern and job postings

Entry-level occupations include, but are not limited to: field engineer, assistant estimator, project scheduler, cost control engineer, safety engineer, project supervisor, project coordinator, quality assurance specialist, project engineer, assistant project manager, and assistant superintendent. Recruiting Industries include Commercial, Heavy Civil and Heavy Highway, Industrial and Utility, Mechanical and Electrical, Project Controls and Consulting, Residential Development, Specialty Contracting, and Transportation.

Students may consider simultaneously completing the requirements for a minor in Business Administration. Several of the courses required for the minor in Business Administration are also required for the major in Construction Management curriculum.

Learn more about the Construction Management major on the Department of Construction Management website (<https://www.chhs.colostate.edu/cm/programs-and-degrees/b-s-in-construction-management/>).

Requirements Effective Fall 2022

Every student pursuing the Construction Management (CM) major will start as Pre-Construction Management and must meet the following admission requirements before being fully admitted to the Construction Management major:

- Earn a minimum 2.750 cumulative CSU GPA
- Complete CON 101 , Introduction to Construction Management, with a "B" grade or better
- Complete CO 150, College Composition, with a "B" grade or better
- Complete MATH 125, Numerical Trigonometry, with a "C" grade or better

Besides CON 101, Pre-Construction Management students are not able to take CON courses until fully admitted to Construction Management.

Freshman

Program Total Credits:			120

¹ The required internship may be completed in different terms in consultation with an advisor.

² Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major Completion Map

Distinctive Requirements for Degree Program:

Every student pursuing the Construction Management (CM) major will start as Pre-Construction Management and must meet the following admission requirements before being fully admitted to the Construction Management major:

- Earn a minimum 2.750 cumulative CSU GPA
- Complete CON 101, Introduction to Construction Management, with a "B" grade or better
- Complete CO 150, College Composition, with a "B" grade or better
- Complete MATH 125, Numerical Trigonometry, with a "C" grade or better

Besides CON 101, Pre-Construction Management students are not able to take CON courses until fully admitted to Construction Management.

There is a required internship that takes place prior to the student's graduation. Students must complete CON 487A (6-credit) or CON 487B (3-credit) petition for Internship Reduction Packet by the last Friday of October during the fall semester prior to the internship experience.

Master of Science in Construction Management, Plan A

The Department of Construction Management (<https://www.chhs.colostate.edu/cm/>) offers graduate study leading to the Master of Science degree. The graduate program provides an environment that supports graduate students in their development of knowledge necessary to enhance professional practice and apply research to management decisions that impact organizations in an emerging global economy. The master's program is an advanced curriculum designed to allow students to tailor a portion of the requirements to meet individual interests and goals.

The Department of Construction Management at CSU is a Science, Technology, Engineering, and Mathematics (STEM) program.

Our faculty members pursue research opportunities by maintaining a close association with the needs of the regional, national, and global Architecture/Engineering/Construction industry. In pursuing this research, the faculty has identified core research areas that span research, teaching, and outreach activities and provide a common ground for interaction between faculty and students. As the demands of the industry change over time, these research areas may evolve and additional areas may be established.

Current research areas include:

- Construction Education and Workforce Development
- Construction Technology (e.g. Virtual Design and Construction)
- Infrastructure Systems
- Project Delivery and Management
- Sustainability and Resilience

The learning outcomes of this program are:

1. Students will identify research problem(s), develop research question(s), design research methodologies, collect and analyze data, and interpret research results as components of scientific research.
2. Students will develop critical thinking skills needed to conceive, develop, test, and refine scientific ideas and hypotheses.
3. Students will communicate the results of their original research in a clear and well-organized manner both in written (proposal and thesis) and verbal (thesis and oral defense) format.
4. Students will write manuscript(s) for submission to a refereed scientific journal or a conference based on their research.
5. Students will develop expertise in one or more fields of construction management at which the student can successfully function in the profession (either academia or industry).

Each construction management graduate student must complete a final project of professional quality to demonstrate their capability in their area of interest and their readiness for professional practice. The final research project is original work, involving a substantial degree of independent research and analysis. The research project results are presented as either a Thesis (Plan A) or Professional Research Paper (Plan B). Each student will work with their advisor to determine if a thesis or a professional paper is more appropriate. Each graduate student is required to submit an article to a journal or proceedings approved by the adviser prior to graduation.

The goal of the program is to provide graduate students with skills related to advance construction management problem-solving. To attain this goal, the CM department encourages students to perform research that contributes to industry practice or the broader construction knowledge.

Learn more about the Construction Management program on the Department of Construction Management website (<https://www.chhs.colostate.edu/cm/programs-and-degrees/m-s-in-construction-management/>).

CON 502	Research in Construction Management I	3
CON 503	Research in Construction Management II	3
CON 511	Project Procurement and Preconstruction	3
CON 512	Post-Award Construction Management	3
CON 521	Sustainable Building & Infrastructure Systems	3
CON 699	Thesis	6
Electives ¹		9
Program Total Credits:		30

A minimum of 30 credits are required to complete this program.

¹ With approval by advisor. A minimum of one CON graduate elective course is required (other than CON 695). A maximum of 3 credits of CON 695 are allowed.

Master of Science in Construction Management, Plan B

The Department of Construction Management (<https://www.chhs.colostate.edu/cm/>) offers graduate study leading to the Master of Science degree. The graduate program provides an environment that supports graduate students in their development of knowledge necessary to enhance professional practice and apply research that addresses industry challenges and impact organizations in an emerging global economy. The master's program is an advanced curriculum designed to allow students to tailor a portion of the requirements to meet individual interests and goals.

The Department of Construction Management at CSU is a Science, Technology, Engineering, and Mathematics (STEM) program.

Our faculty members pursue research opportunities by maintaining a close association with the needs of the regional, national, and global Architecture/Engineering/Construction industry. In pursuing this research, the faculty has identified core research areas that span research, teaching, and outreach activities and provide a common ground for interaction between faculty and students. As the demands of the industry change over time, these research areas may evolve and additional areas may be established.

Current research areas include:

- Construction Education and Workforce Development
- Construction Technology (e.g. Virtual Design and Construction)

- Infrastructure Systems
- Project Delivery and Management
- Sustainability and Resilience

The learning outcomes of this program are:

1. Students will identify research problem(s), develop research question(s), design research methodologies, collect and analyze data, and interpret research results as components of scientific research.
2. Students will develop critical thinking skills needed to conceive, develop, test, and refine scientific ideas and hypotheses.
3. Students will communicate the results of their original research in a clear and well-organized manner both in written (proposal and professional paper) and verbal (professional paper and oral defense) format.
4. Students will write manuscript(s) for submission to a refereed scientific journal or a conference based on their research.
5. Students will develop expertise in one or more fields of construction management at which the student can successfully function in the profession (either academia or industry).

Each construction management graduate student must complete a final project of professional quality to demonstrate their capability in their area of interest and readiness for professional practice. The final research project is original work, involving a substantial degree of independent research and analysis. The research project results are presented as either a Thesis (Plan A) or Professional Research Paper (Plan B). Each student will work with their advisor to determine if a thesis or a professional paper is more appropriate. Each graduate student is required to submit an article to a journal or proceedings approved by the advisor prior to graduation.

Students who want to develop technical proficiency in a particular area or emphasis may choose Plan B. Professional research paper is not held to the same standards for replicability of the research methodology used for a thesis. Results from a professional paper may be directed toward providing a solution to a specific applied problem for a small audience. There is an expectation that the professional paper could still be published, but the outlets would likely be different than those of a thesis. A minimum of 30 upper-division credits are required for Plan B students.

The goal of the program is to provide graduate students with skills related to advance construction management problem-solving. To attain this goal, the CM department encourages students to perform research that contributes to industry practice or the broader construction knowledge.

Learn more about the Construction Management program on the Department of Construction Management website (<https://www.chhs.colostate.edu/cm/programs-and-degrees/m-s-in-construction-management/>).

Requirements Effective Fall 2019

Minor in Construction Management About the Minor

The Construction Management minor is designed to provide students an opportunity to study basic concepts of construction, materials, techniques, design, and managerial skills required for the construction industry. The minor has entrance criteria and consists of nine courses beginning with CON 101. The minor will take students a minimum of five semesters to complete.

How to add the Construction Management minor

Students must meet with a Construction Management advisor to declare interest in the minor and will be given an override to register for CON 101. Once a student satisfies the entrance criteria, the minor will be added and the student will be allowed to register for additional required Construction Management courses. Students are admitted each semester in May and December.

Entrance Criteria:

- Earn a minimum 2.750 cumulative CSU GPA
- Complete CON 101 with a "B" grade or better
- Complete CO 150 with a "B" grade or better
- Complete MATH 125 with a "C" grade or better

Learn more about the Construction Management minor on the Department of Construction Management website (<https://www.chhs.colostate.edu/cm/programs-and-degrees/minor-in-construction-management/>).

Requirements Effective Fall 2019

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Code	Title	Credits
LOWER DIVISION		
CON 101	Introduction to Construction Management	3
CON 151	Construction Materials and Methods	3
CON 265	Plan Reading and Quantity Survey	3
Select one course from the following:		2-3
CON 131	Graphic Communications for Construction	

INTD 256	Computer-Aided Design for Interior Designers

CON 358	Structural Systems for Construction I	
CON 359	Structures I	
Program Total Credits:		25-27

Department of Design and Merchandising

Nancy Richardson Design Center, Room 114
(970) 491-1629
www.chhs.colostate.edu/dm/ (<https://www.chhs.colostate.edu/dm/>)

Department Head: Karen Hyllegard, Ph.D.

Vision

The Department of Design and Merchandising aims to cultivate leaders among today's students to drive tomorrow's innovative advancements in economic, environmental, and social sustainability across the apparel and merchandising and the interior architecture and design disciplines.

Mission

The Department of Design and Merchandising's mission is to achieve excellence in education and scholarship through community engagement, industry collaboration, creative exploration, and scientific inquiry. As a department, we are committed to advancing and fostering understanding of socially responsible conceptualization, design, adoption, and evaluation of processes, products, and environments that responsively enhance the human experience.

The Department of Design and Merchandising offers undergraduate study in two nationally accredited programs - **Apparel and Merchandising (AM)** and **Interior Architecture and Design (IAD)**. The AM major includes three concentrations: Apparel Design and Production, Product Development, and Merchandising. The Apparel and Merchandising

program is accredited by the Textile and Apparel Program Accreditation Commission of the *International Textile and Apparel Association* and the IAD program is accredited by the *Council for Interior Design Accreditation*. The department also offers a master's degree in Design and Merchandising that allows for a focus in Apparel and Merchandising or Interior Design. The department is housed in the Nancy Richardson Design Center, the Gifford Building, and the Avenir Museum, located in the University Center for the Arts complex. The Avenir Museum has a repository of over 20,000 items of dress, textiles, and interior artifacts representing regional, national, and international cultures.

Undergraduate Majors

- Major in Apparel and Merchandising
 - Apparel Design and Production Concentration
 - Merchandising Concentration
 - Product Development Concentration
- Major in Interior Architecture and Design

Minor

- Minor in Merchandising

Graduate Graduate Programs in Design and Merchandising

The department offers graduate programs leading to a Master of Science degree in Design and Merchandising. Students may specialize in Apparel and Merchandising or Interior Design. For more information about program emphases and requirements, contact the department. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Design and Merchandising (<http://www.dm.chhs.colostate.edu/>).

Learning Outcomes

Design and Merchandising graduate students will:

- Demonstrate mastery of design and merchandising concepts and theories in their respective focal areas, including apparel design and production, consumer behavior, creativity, merchandising, interior design, product development, social/cultural/historical aspects of dress and design, sustainability/resilience, and textile science.
- Critically review and interpret research through a review of literature relevant to a research problem or challenge.
- Demonstrate an understanding of how to conduct and implement original research in design and merchandising as demonstrated through problem identification, literature review, study design, data collection, and data analysis/interpretation.
- Effectively communicate outcomes of design and merchandising research in diverse presentation formats (e.g., oral, written, visual).
- Be successful in procuring positions in industry or academia and/or admission to doctoral-level programs.
- Be involved in co-curricular activities.

Certificate

- Evidence-Based Design (No new students are being admitted to this certificate at this time).

Master's Programs

- Master of Science in Design and Merchandising, Plan A, Apparel and Merchandising Specialization
- Master of Science in Design and Merchandising, Plan B, Apparel and Merchandising Specialization
- Master of Science in Design and Merchandising, Plan A, Interior Design Specialization
- Master of Science in Design and Merchandising, Plan B, Interior Design Specialization

Courses

Subjects in this department include: Apparel and Merchandising (AM), Design and Merchandising (DM), and Interior Architecture and Design (INTD).

Apparel and Merchandising (AM)

AM 101 Fashion Industries Credits: 3 (3-0-0)

Course Description: Development, organization, and trends of domestic and foreign fashion industries.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

AM 110 Apparel and Merchandising Digital Technology Credits: 3 (2-2-0)

Course Description: Introduction to computer technologies used in apparel and merchandising industries.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 130 Awareness and Appreciation of Design Credits: 3 (3-0-0)

Course Description: Awareness and appreciation of design as it exists in the context of everyday life and is expressive of cultural character and human creativity. Awareness and appreciation of design comes as a natural consequence of learning how to recognize and interpret the elements from which it is created.

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Arts & Humanities 3B.

AM 143 Introduction to Apparel Design Credits: 4 (2-4-0)

Course Description: Apparel and garment-pattern development, construction, quality, skill development in technical drawing and rendering.

Prerequisite: None.

Registration Information: Acceptance into Apparel Design and Production program concentration required. Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 220 Textiles Credits: 3 (2-2-0)

Course Description: Introduction to textiles – fibers through finished fabrics and related applications to fashion, home goods, interior design, and related industries. Emphasis on fiber characteristics, yarns, woven and knit fabrics, dyeing, printing, and finishes. Discussion on environmental concerns, care and renovation, fabric innovations, quality issues, and global laws that regulate textiles.

Prerequisite: CHEM 103 and CHEM 104 or CHEM 107 and CHEM 108.

Registration Information: Must register for lecture and laboratory. Credit not allowed for AM 220 and DM 120.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 240 Computer-Aided Apparel Design Credits: 3 (0-6-0)

Course Description: Apparel design using the computer to generate drawings for fabric, graphic logo, and apparel.

Prerequisite: AM 143.

Registration Information: Portfolio review required.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 241 Patternmaking I - Flat Pattern Credits: 3 (1-4-0)

Course Description: Application of patternmaking techniques including sloper drafting and flat pattern manipulation methods for apparel products. Design and construction of original garments using flat pattern manipulation methods to analyze garment fit.

Prerequisite: None.

Registration Information: AM 143; (MATH 117; MATH 118 or MATH 120 or MATH 127). Sophomore standing. Portfolio review required. Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 243 Adobe Photoshop for Textile Design Credits: 3 (3-0-0)

Course Description: Textile design using Adobe Photoshop to generate drawings for surface and structural textile design.

Prerequisite: None.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

AM 244 Fashion Illustration Credits: 3 (1-4-0)

Course Description: Illustration skills using traditional media/computer aided design applications and analysis of visual communication.

Prerequisite: AM 143 and AM 110.

Registration Information: Sophomore standing. Portfolio review required. Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 250 Dress and Human Behavior (GT-SS3) Credits: 3 (3-0-0)

Course Description: Psychological, sociological, and cultural factors influencing diversity in dress and human behavior in domestic and global contexts.

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Social & Behavioral Sciences 3C, Human Behavior, Culture, or Social Frameworks (GT-SS3).

AM 270 Merchandising Processes Credits: 3 (3-0-0)

Course Description: Forecasting, planning, developing, and presenting merchandise lines to meet target market demands.

Prerequisite: None.

Registration Information: AM 101 with a minimum grade of C; AM 130 with a minimum grade of C; (MATH 117; MATH 118) or MATH 120 or MATH 127 or MATH 141.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 275 Product Development I Credits: 3 (2-2-0)

Course Description: Fundamental techniques, technologies, and skills applied to the development of apparel and textile products.

Prerequisite: None.

Registration Information: AM 101 with a minimum grade of C; AM 110 with a minimum grade of C; AM 130 with a minimum grade of C; (MATH 117; MATH 118) or MATH 120 or MATH 127 or MATH 141. Must register for lecture and laboratory. Sections may be offered: Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 290 Workshop Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

AM 321 Advanced Textiles Credits: 3 (3-0-0)

Course Description: Textile product serviceability; effect of fiber structure on properties and performance; new developments.

Prerequisite: AM 220 or DM 120.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 330 Global Sourcing of Textiles and Apparel Credits: 3 (3-0-0)

Course Description: Structure of textiles and apparel industry; global sourcing, production, distribution and consumption of textile and apparel products. Implications for sustainability in the textiles and apparel industry.

Prerequisite: (AM 270 with a minimum grade of C) and (AREC 202 with a minimum grade of C or ECON 202 with a minimum grade of C).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AM 335 Textiles and Apparel Supply Chains Credits: 3 (3-0-0)

Course Description: Managing the flow of materials, information, and finances as they move in a process from supplier to retailers and consumers in a global environment.

Prerequisite: AM 270.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 340 Patternmaking II - Draping Credits: 3 (0-6-0)

Course Description: Apparel designing through basic draping techniques.

Prerequisite: AM 241 with a minimum grade of C and AM 244 with a minimum grade of C.

Registration Information: Sophomore standing. Credit not allowed for both AM 340 and AM 345.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 341 Patternmaking III - Computer-Aided Design Credits: 3 (1-4-0)

Course Description: Computer-aided design (CAD) technology used in apparel sketching, pattern drafting, grading, and marker making.

Prerequisite: AM 340 with a minimum grade of C.

Registration Information: Sophomore standing. Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 342 Computer-Aided Textile Design Credits: 3 (2-2-0)

Course Description: Ethnic textile design traditions and current approaches to textile production in industry and in individual design studios; computer-aided technology and multicultural research used to create repeat, knit, and woven textile designs.

Prerequisite: AM 110.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 344 Adobe Illustrator for Apparel Design Credits: 3 (0-0-3)

Course Description: Apparel design using Adobe Illustrator to generate drawings for garment technical sketching, fashion illustration, and graphic logos.

Prerequisite: AM 243, may be taken concurrently.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

AM 346 Apparel Line Concept Development and Planning Credits: 3 (2-2-0)

Course Description: Use of computer-aided design software to transfer apparel design concepts to garment pattern completion. Develop ideation sketches, fashion illustrations, technical flat drawings, and garment patterns for an original design line.

Prerequisite: AM 244 and AM 340, may be taken concurrently and AM 341, may be taken concurrently and DM 272 with a minimum grade of C.

Restriction: .

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 363 Historic Costume Credits: 3 (3-0-0)

Course Description: Influence of social, political, and economic conditions on costume of predynastic Egypt to present time.

Prerequisite: None.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 364 History of Fashion Designers/Manufacturers Credits: 3 (0-0-3)

Course Description: Fashion designers and manufacturers who established the field and their contemporaries.

Prerequisite: None.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

AM 366 Merchandising Promotion Credits: 3 (3-0-0)

Course Description: Activities used to influence sale of merchandise and services; to promote trends and ideas.

Prerequisite: (AM 270 or MKT 300 or MKT 305) and (DM 272).

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

AM 371 Merchandise Planning and Control Credits: 4 (3-2-0)

Course Description: Retail mathematics for negotiating merchandise acquisition, distribution, and pricing for profitability.

Prerequisite: (ACT 205 or ACT 210) and (AM 270 with a minimum grade of C).

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 373 Apparel Design and Retail Entrepreneurship Credits: 3 (3-0-0)

Course Description: Entrepreneurship opportunities relative to apparel design, product development, and merchandising; development of understanding to initiate an apparel products and/or services business.

Prerequisite: AM 270 and ECON 202.

Registration Information: Junior standing. Required field trips. Credit not allowed for both AM 373 and DM 380A1.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

AM 375 Product Development II Credits: 3 (2-2-0)

Course Description: Product design and development for apparel and other soft goods through industry-driven projects.

Prerequisite: AM 275 with a minimum grade of C and AM 143 and AM 270 with a minimum grade of C and DM 272 with a minimum grade of C.

Registration Information: Must register for lecture and lab. Required field trips.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 376 Prototyping & Testing for Product Development Credits: 3 (2-2-0)

Course Description: Envision, design, prototype, and test innovative apparel and accessory-related products through hands-on experiences with a range of digital design and fabrication tools.

Prerequisite: AM 143 and AM 375, may be taken concurrently.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Must register for lecture and laboratory. Credit not allowed for both AM 376 and AM 380A1.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 384 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

AM 421 Textiles Product Quality Assessment Credits: 3 (2-2-0)

Course Description: Role of quality assurance in product development, production, performance, and user satisfaction with sewn products and the textile and other components of those products.

Prerequisite: AM 220 or DM 120.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 430 International Retailing Credits: 3 (3-0-0)

Course Description: Application of retail principles to analyze the internationalization process of retailing.

Prerequisite: AM 330 and DM 360 or MKT 360.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

AM 446 Apparel Design and Production Credits: 3 (1-4-0)

Course Description: Computer-aided design (CAD) technology used in apparel sketching, pattern drafting, grading and marker making; final portfolio preparation and review.

Prerequisite: AM 346.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 450 Social-Psychological Aspects of Clothing Credits: 3 (3-0-0)

Course Description: Psychological and social factors influencing clothing and its effect on others.

Prerequisite: AM 250 and PSY 100 or SOC 100.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 460 Historic Textiles Credits: 3 (3-0-0)

Course Description: Textiles from a global perspective, focusing on diverse cultures and thematic approaches.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AM 466 Retail Environment Design and Planning Credits: 3 (2-2-0)

Course Description: Application of design/merchandising principles to retail selling environments, including traditional store design/layout, direct mail, and websites.

Prerequisite: AM 130 and AM 270.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

AM 475 Product Development III Credits: 3 (2-2-0)

Course Description: Technology-based product innovation for positive social and environmental impacts.

Prerequisite: AM 335 and AM 375.

Registration Information: Senior standing. Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 479 Merchandising Policies and Strategies Credits: 3 (3-0-0)

Course Description: Examination of merchandising environment as influenced by internal and external factors contributing to production/acquisition, distribution, and retailing decisions in textiles and apparel industries.

Prerequisite: (AM 371) and (AM 330 or DM 360 or MKT 360).

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 495A Independent Study: Merchandising Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

AM 495B Independent Study: Apparel Design and Production Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

AM 495D Independent Study: Textiles and Clothing Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

AM 496A Group Study: Merchandising Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

AM 496B Group Study: Apparel Design Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

AM 496C Group Study: Apparel Production Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

AM 496D Group Study: Textiles and Clothing Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

AM 525 Application of Textile Technology to Design Credits: 3 (1-2-1)

Course Description: Advanced study of textile technology in apparel, merchandising and interior design; recent advances in the field.

Prerequisite: AM 321 or AM 421.

Registration Information: Must register for lecture, laboratory, and recitation.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

AM 546 Theoretical Apparel Design Credits: 3 (1-2-1)

Course Description: Applications of theoretical frameworks and computer-aided design techniques for the development of wearable and fiber art.

Prerequisite: None.

Registration Information: Must register for lecture, laboratory, and recitation.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 550 Appearance, Self, and Society Credits: 3 (0-0-3)

Course Description: Analysis of social science theories and concepts as they apply to appearance and dress research.

Prerequisite: AM 450 or PSY 000 to 9999 - at least 6 credits or SOC 000 to 9999 - at least 6 credits.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

AM 572 Merchandising Theories and Strategies Credits: 3 (0-0-3)

Course Description: Theoretical perspective on the design and development of merchandising strategies for U.S. and global production, distribution, and consumption.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing or written consent of instructor.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

AM 590B Workshop: Apparel Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Design and Merchandising (DM)

DM 192A First Year Seminar: Apparel and Merchandising Credit: 1 (0-0-1)

Course Description: Introduction to the apparel and merchandising major and its concentrations, career options, campus resources, tools for academics, and industry topics.

Prerequisite: None.

Registration Information: Credit not allowed for both DM 192 and DM 192A.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

DM 192B First Year Seminar: Pre-Interior Architecture and Design Credit: 1 (0-0-1)

Course Description: Introduction to interior architecture and design major, career options, campus resources, tools for academics, and industry topics.

Prerequisite: None.

Registration Information: Credit not allowed for both DM 192 and DM 192B.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

DM 272 Consumers in the Marketplace Credits: 3 (3-0-0)

Course Description: Analysis and evaluation of psychological, social, economic, sustainability, and cultural factors that influence consumers in the marketplace.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

DM 360 Retailing Credits: 3 (3-0-0)

Also Offered As: MKT 360.

Course Description: Examination of retailing principles and practices, including merchandise management, retailing strategy, supply chain management, store management, and sustainable retail operations.

Prerequisite: MKT 300 or MKT 305.

Registration Information: Credit not allowed for both DM 360 and MKT 360.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

DM 400 U.S. Travel-New York City Credits: 3 (1-2-1)

Course Description: Interview/analyze designers, manufacturers, buying offices, retail stores, magazine firms, interior design and architecture firms, etc.

Prerequisite: None.

Registration Information: Must have taken 6 credits in the following courses: DM, AM, INTD. Must register for lecture, laboratory, and recitation.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

DM 470A International Design and Merchandising: Apparel Credits: 2 (1-0-1)

Course Description: Historical, cultural, and business aspects of international design and merchandising in selected countries.

Prerequisite: AM 101 and AM 130 and AM 220, may be taken concurrently.

Registration Information: Sophomore standing. Must register for lecture and recitation.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

DM 470B International Design and Merchandising: Interior Design Credits: 2 (1-0-1)

Course Description: Historical, cultural, and business aspects of international design and merchandising in selected countries.

Prerequisite: ART 100 and INTD 129 and INTD 166 and DM 482B, may be taken concurrently.

Registration Information: Must have concurrent registration in DM 482B. Must register for lecture and recitation.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

DM 474 Fashion Show Production and Event Planning Credits: 3 (1-0-2)

Course Description: Planning and implementing full production fashion show of student-designed collections, including promotions and fund-raising activities.

Prerequisite: AM 101 or INTD 129.

Registration Information: Written consent of instructor. Must register for lecture and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

DM 482 Travel Abroad Credit: 1 (0-0-1)

Course Description: Historical, cultural, aesthetic, and business aspects of design and merchandising in the selected country(ies).

Prerequisite: AM 101 and AM 130 and DM 120 and DM 470A, may be taken concurrently.

Registration Information: Must have concurrent registration in DM 470A.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

DM 482A Study Abroad: Design/Merchandising--Scotland/England Credit: 1 (0-0-1)

Course Description: Historical, cultural, aesthetic, and business aspects of international design and merchandising in the selected country(ies).

Prerequisite: DM 470A or DM 470B.

Grade Mode: Traditional.

Special Course Fee: No.

DM 482B Study Abroad--China: Design and Merchandising Credit: 1 (0-0-1)

Course Description: Historical, cultural, aesthetic, and business aspects of international design and merchandising in China.

Prerequisite: DM 470A.

Registration Information: Sophomore standing.

Term Offered: Summer (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

DM 487A Internship: Merchandising Credits: Var[12-16] (0-0-0)

Course Description:

Prerequisite: (AM 371) and (DM 360 or MKT 360) and (DM 492).

Registration Information: GPA 2.50.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 487B Internship: Apparel Design and Production Credits: Var[12-16] (0-0-0)

Course Description:

Prerequisite: AM 244 and DM 492.

Registration Information: GPA 2.50.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 487C Internship: Product Development Credits: Var[12-16] (0-0-0)

Course Description:

Prerequisite: AM 375 and DM 492.

Registration Information: GPA 2.500.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 487F Internship: General Credits: Var[3-16] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Written consent of instructor; GPA 2.500.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 490A Workshop: Merchandising Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 490B Workshop: Apparel Design and Production Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: Yes.

DM 490C Workshop: Interior Design Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 492 Professional Practice Credits: 2 (1-0-1)

Course Description: Professional standards and corporate structure of apparel and merchandising companies in apparel design, product development, and/or merchandising.

Prerequisite: None.

Registration Information: Completion of 60 credits. Must register for lecture and recitation.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

DM 495 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 10 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 496 Group Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of three credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 501 Research and Theory-Design and Merchandising Credits: 3 (0-0-3)

Course Description: Theory and various approaches and philosophies of research in design and merchandising. Critical evaluation and synthesis of scholarly literature.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

DM 510 Consumer Behavior Credits: 3 (3-0-0)

Course Description: Evaluation of psychological, sociological, and cultural theories of consumer behavior through examination of factors that influence decision making.

Prerequisite: None.

Registration Information: Offered as an online course only.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

DM 540 Promotional Strategies in Merchandising Credits: 3 (3-0-0)

Course Description: Integrated marketing communications while fostering cultural and global awareness, social responsibility and ethical decision-making.

Prerequisite: None.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

DM 542 Advanced Computer-Aided Textile Design Credits: 3 (1-4-0)

Course Description: Use of computer-aided design system to produce fabric designs for apparel or interior professional end use.

Prerequisite: AM 342.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: Yes.

DM 551 Research Methods Credits: 3 (3-0-0)

Course Description: Design and methods of research applicable to design and merchandising.

Prerequisite: DM 501.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

DM 563 Care and Exhibit of Museum Collections Credits: 3 (1-2-1)

Course Description: Hands-on experience in management, care, exhibition, and interpretation of museum collections.

Prerequisite: ART 100 to 499 - at least 3 credits or HIST 100 to 499 - at least 3 credits or AM 100 to 499 - at least 3 credits or DM 100 to 499.

Registration Information: Must register for lecture, laboratory and recitation. Required field trips.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

DM 570 Creativity in Design Credits: 3 (0-0-3)

Course Description: Multiple perspectives in creativity integrating theory and research impacting design.

Prerequisite: DM 501.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

DM 573 Entrepreneurship Theories in Apparel & Design Credits: 3 (3-0-0)

Course Description: Theoretical and applied perspectives of entrepreneurship for US and global production, distribution, and consumption of apparel and interior design products and services.

Prerequisite: None.

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Senior standing. Credit not allowed for DM 573 and DM 580A1.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

DM 575 Human Factors in Design Credits: 3 (3-0-0)

Course Description: Theories and contemporary issues related to human factors in consumer product design.

Prerequisite: DM 501, may be taken concurrently.

Registration Information: Senior standing.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

DM 590A Workshop: Merchandising Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 590B Workshop: Apparel Design and Production Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 590C Workshop: Interior Design Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 592 Seminar Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 596 Group Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 684 Supervised College Teaching Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 687 Internship Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**DM 695 Independent Study Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**DM 698 Research Credits: 3 (0-0-3)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Written consent of instructor. Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**DM 699 Thesis Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Interior Architecture and Design (INTD)

INTD 110 Visual Expression of Interior Environments (GT-AH1) Credits: 3 (3-0-0)**Course Description:** Introduction to interior environments conceptualizing the interior architectural environment in the context of an interrelated system of spaces. Observation and analysis of spatial environments as a way of understanding how spatial environments produce and communicate culture as well as are shaped by those who design, navigate, and participate in these spaces.**Prerequisite:** None.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** Yes.**Additional Information:** Arts & Humanities 3B, Arts & Expression (GT-AH1).**INTD 129 Introduction-Interior Architecture & Design Credits: 3 (3-0-0)****Course Description:** Industry perspective to the profession of interior architecture and design through commercial and residential interiors with a focus on the role of key elements such as lighting, color, texture, and pattern on shaping interior architectural environments. Emphasis will be on disciplinary professional values and design process in interior architecture and design.**Prerequisite:** None.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**INTD 166 Visual Communication-Drawing Credits: 3 (1-4-0)****Course Description:** Hand drafting, free-hand sketching, and conceptualization to visually communicate interior architecture and design concepts through drawings.**Prerequisite:** None.**Registration Information:** Must register for lecture and laboratory. Sections may be offered: Online.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**INTD 200 Housing Values in America Credits: 3 (3-0-0)****Course Description:** Housing issues in the U.S.; values, norms, roles of government and building professions; interaction of issues with U.S. public values to meet housing needs.**Prerequisite:** None.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**INTD 201 Two-Dimensional Fundamentals-Interior Design Credits: 3 (0-6-0)****Course Description:** Demonstration of 2-dimensional elements and principles of design incorporating creative thinking, design fundamentals, design communication skills.**Prerequisite:** INTD 129 and INTD 166.**Registration Information:** Design scenario advancement.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**INTD 210 Studio I-Interior Architecture and Design Credits: 3 (1-4-0)****Course Description:** Applying basic concepts of human behavior, anthropometrics, ergonomics, space planning, and furniture arrangement to residential and commercial interiors.**Prerequisite:** INTD 110 and INTD 129 and INTD 166.**Registration Information:** Sophomore standing. Design scenario advancement. Must register for lecture and laboratory. Required field trips.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** Yes.**INTD 236 Three-Dimensional Thinking Credits: 3 (0-6-0)****Course Description:** Demonstration and application in visualizing interior space in three dimensions.**Prerequisite:** INTD 129 and INTD 166.**Registration Information:** Design scenario advancement.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.

INTD 255 Residential Interiors Credits: 3 (0-0-3)

Course Description: Theories, issues, and planning elements that impact the design of residential interiors.

Prerequisite: None.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 256 Computer-Aided Design for Interior Designers Credits: 3 (1-4-0)

Course Description: Use of computer-aided design (CAD), specifically two-dimensional and three-dimensional drafting using PC software.

Prerequisite: INTD 129 and INTD 166.

Registration Information: Design scenario advancement. Must register for lecture and laboratory. Required field trips.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 266 Visual Communication-Digital Multi-Media Credits: 3 (0-6-0)

Course Description: Visual communication using design software applications and multi-media techniques for expressing design ideas.

Prerequisite: None.

Registration Information: Sophomore standing. Design scenario advancement.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 276 Studio II-Interior Architecture and Design Credits: 3 (1-4-0)

Course Description: Introduction to small-scale interior architecture and design projects, including residential, educational, and commercial dining spaces.

Prerequisite: INTD 210 with a minimum grade of C and INTD 266, may be taken concurrently.

Registration Information: Interior Architecture and Design majors only. Must register for lecture and laboratory. Required field trips.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 296A Group Study: Space Planning and Application Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Design scenario advancement.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

INTD 296B Group Study: Design Application Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Design scenario advancement.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

INTD 310 Studio III-Interior Architecture and Design Credits: 4 (1-6-0)

Course Description: Create a comprehensive design that reflects the integration of knowledge of structural and building systems. The design project is guided by a clear brief and developed through an Integrated Design Process, informed at each stage by data and analysis. The project is documented through working drawings, annotated diagrams, and information graphics.

Prerequisite: INTD 276 with a minimum grade of C and INTD 330, may be taken concurrently and INTD 335, may be taken concurrently and INTD 350, may be taken concurrently.

Registration Information: Interior architecture and design majors only. Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 330 Lighting Design Credits: 3 (2-2-0)

Course Description: Application of lighting design in interiors.

Prerequisite: INTD 276 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Required field trips.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 335 Interior Architecture and Design Technologies Credits: 3 (2-2-0)

Course Description: Principles and procedures required in building information modeling for digital design, detailing, documentation, and visualization in interior architecture and design.

Prerequisite: INTD 266.

Registration Information: Must register for lecture and laboratory. Credit not allowed for both INTD 235 and INTD 335.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 336 Color Credits: 3 (0-0-3)

Course Description: Color theories, principles, trends and application in design.

Prerequisite: None.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 340 Interior Materials and Products Credits: 3 (3-0-0)

Course Description: Analysis of materials, finishes, furnishings, objects, and resources for interior architecture and design.

Prerequisite: INTD 350.

Registration Information: Required field trips.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 350 Codes-Health and Safety Credits: 3 (3-0-0)

Course Description: Health, safety, and wellness issues in interiors, including laws, codes, standards, regulations, and guidelines.

Prerequisite: INTD 210, may be taken concurrently.

Registration Information: Required field trips.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 359 History of Interior Architecture and Design Credits: 3 (3-0-0)

Course Description: Survey of interior architecture and design history from ancient times through the present.

Prerequisite: None.

Registration Information: AUCC 2 or concurrent registration. Sections may be offered: Online.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 376 Studio IV-Interior Architecture and Design Credits: 4 (1-6-0)

Course Description: Applications of creative problem-solving, digital and design skills to develop innovative interior design projects with a focus on medium-scale commercial interiors.

Prerequisite: INTD 310 with a minimum grade of C and INTD 340, may be taken concurrently.

Registration Information: Must register for lecture and laboratory.

Required field trips.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 384 Supervised College Teaching Credits: Var[1-10] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

INTD 400 Interior Design Research Proposal Credits: 4 (1-4-1)

Course Description: Research, development, and presentation of a programming proposal for a large scale interior design project with service learning component.

Prerequisite: INTD 376 with a minimum grade of C.

Registration Information: Must register for lecture, laboratory, and recitation. Required field trips.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 410 Evidence-based Design Theory Credits: 3 (3-0-0)

Course Description: Theory and application of evidence-based design processes including research, development, and presentation of a programming proposal for a large scale interior project.

Prerequisite: INTD 310 with a minimum grade of C and PSY 100.

Registration Information: Completion of AUCC category 2.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 450 Travel Abroad-Sustainable Building Credits: 3 (3-0-0)

Also Offered As: CON 450.

Course Description: Major components of sustainable design and construction, energy, healthy buildings, natural resources and other environmental issues.

Prerequisite: None.

Registration Information: Credit not allowed for both INTD 450 and CON 450.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 456 Professional Practice-Interior Arch & Design Credits: 3 (3-0-0)

Course Description: Current design and business practices, project management and communication, exposure to multi-disciplinary ways of working in design. Emphasis on several key aspects of professional practice including entrepreneurship, ethics, and socially mediated communication.

Prerequisite: INTD 476, may be taken concurrently.

Registration Information: Completion of AUCC category 2. Credit not allowed for both INTD 356 and INTD 456.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 476 Capstone-Interior Architecture and Design Credits: 4 (1-6-0)

Course Description: Large scale projects representing research-based design solutions, illustrating synthesis and analysis of entry level professional competencies in interior architecture and design.

Prerequisite: INTD 376 with a minimum grade of C and INTD 410 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 482A Study Abroad--Austria: Alpine Architecture and Sustainable Design Credits: 3 (0-0-3)

Course Description: Investigation of prominent examples that capture the breadth and sustainability aspects of architecture and interior practices in the alpine region of Europe, with a specific focus on Tirol and Vorarlberg in Austria, St. Gallen in Switzerland, and Germany.

Prerequisite: INTD 276 with a minimum grade of C.

Term Offered: Summer (even years).

Grade Mode: Traditional.

Special Course Fee: No.

INTD 487 Internship Credits: Var[3-16] (0-0-0)

Course Description:

Prerequisite: INTD 356 and INTD 376 with a minimum grade of C.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

INTD 495 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 10 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

INTD 496A Group Study: Program Skills Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 10 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

INTD 496B Group Study: Design Application Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 10 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

INTD 550 Universal Design Credits: 3 (3-0-0)

Course Description: Analysis and evaluation of universal design as it applies to diverse population segments and interior environments.

Prerequisite: INTD 376 with a minimum grade of C, may be taken concurrently.

Registration Information: Required field trips.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 575 Problems-Interior Design Credits: Var[1-8] (0-0-0)

Course Description:

Prerequisite: INTD 376 with a minimum grade of C - at least 9 credits.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 578 Trends/Issues in Interior Design Credits: 3 (2-0-1)

Course Description:

Prerequisite: INTD 376 with a minimum grade of C or DM 551.

Registration Information: Must register for lecture and recitation.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 675 Problems-Interior Design Credits: Var[1-8] (0-0-0)

Course Description:

Prerequisite: INTD 575 - at least 4 credits.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Major in Apparel and Merchandising

The Major in Apparel and Merchandising emphasizes the study of apparel and textile design, product development and sourcing, and the promotion, distribution, and retailing of consumer goods in the global environment, while fostering awareness of cultural diversity and a commitment to social responsibility and sustainability. The program encompasses the study of the cultural/historical, economic, social/psychological, and scientific aspects of the textile and apparel industry. There are three concentrations in the major: Apparel Design and Production, Merchandising, and Product Development.

Learning Outcomes

Students will demonstrate mastery of core knowledge and skills specific to their program/concentration areas. There are three concentration areas:

- The APPAREL DESIGN AND PRODUCTION concentration emphasizes study in apparel and textile design with courses in fashion illustration, pattern development, apparel construction techniques, and computer-aided design.
- The MERCHANDISING concentration focuses on the development of merchandise assortments and retailing strategies with courses in consumer behavior, assortment planning, merchandise buying, merchandise promotions, retailing, and global sourcing.
- The PRODUCT DEVELOPMENT concentration focuses on innovation in the development of consumer products with courses in textile science, product sourcing, market potential analysis, trend forecasting, product line development/management, quality assurance, and supply chain management.

Students will demonstrate an understanding of professional practices, processes, and skills utilized in the areas of apparel design and production, merchandising, and product development. These practices, processes, and skills include critical and creative thinking, communication, ethics, social responsibility and sustainability, collaborative problem-solving, and interdisciplinary learning.

Students also will demonstrate professional behaviors and ethical business practices that enhance the well-being of others and contribute to the advancement of the global industry.

Students in the Apparel and Merchandising undergraduate program are required to participate in a department-coordinated internship program that involves a full-time, 12-credit professional experience with nationally and internationally recognized firms and organizations in the apparel industry or a related field. Students with a 2.500 GPA are eligible to participate in department-facilitated internships.

Students who are interested in co-curricular learning experiences have the opportunity to visit apparel and fashion companies and trade shows, network with industry professionals, participate in department-led study tours, engage in project-based learning experiences, assist with department recruiting events and new student orientations, and participate in a variety of leadership events.

Potential Occupations

Career options for Apparel Design and Production graduates include, but are not limited to: apparel and fashion designer, textile designer, creative or design director, fashion illustrator, pattern-maker and/or computer-aided design (CAD) manager, and trend or fashion forecaster.

Career options for Merchandising graduates include, but are not limited to: market researcher or analyst, brand and product manager, merchandise buyer, retail manager, showroom merchandising coordinator or manager, advertising specialist, social media specialist, public relations specialist, and merchandising stylist.

Career options for Product Development graduates include, but are not limited to: product developer, technical designer, 3D digital product creator, product line manager, consumer or market researcher, sourcing agent and import/export specialist, product testing and quality control agent, and prototype engineer.

Concentrations

- Apparel Design and Production Concentration
- Merchandising Concentration
- Product Development Concentration

Learn more about the Apparel and Merchandising Program on the Department of Design and Merchandising website (<https://www.chhs.colostate.edu/dm/programs-and-degrees/b-s-in-apparel-and-merchandising/>).

Major in Apparel and Merchandising, Apparel Design and Production Concentration

The Apparel Design and Production concentration focuses on the development of knowledge and skills necessary to engage in the design and creation of textile and apparel goods for an identified target market. This includes coursework in aesthetics and design, fashion/trend forecasting, fashion illustration, pattern development; material selection (e.g., fibers, fabrics, dyes/finishes), apparel construction techniques, computer-aided design (CAD), historic textiles and costume, and social-psychological aspects of dress.

Students applying to the Apparel Design and Production concentration are accepted first into the Apparel and Merchandising major. Full acceptance into the Apparel Design and Production concentration requires passing the portfolio review held in the spring semester and a minimum 2.500 GPA. Industry professionals in the field of apparel design and manufacturing evaluate student portfolios. Each year, the 20 to 25 students who receive the highest scores on the portfolio evaluation are accepted into the Apparel Design and Production concentration, and they become eligible to enroll in apparel design and production courses.

Learn more about the Apparel Design and Production concentration on the Department of Design and Merchandising website (<https://www.chhs.colostate.edu/dm/programs-and-degrees/b-s-in-apparel-and-merchandising/apparel-design-and-production-concentration/>).

Major in Apparel and Merchandising, Merchandising Concentration

The Merchandising concentration focuses on the development of knowledge and skills necessary to engage in the marketing and retailing of consumer goods for an identified target market. This includes coursework in consumer behavior, entrepreneurship, merchandising processes/management, merchandise buying/procurement, promotion, retailing, retail store design, and the global industry (economics, politics, and trade).

Learn more about the Merchandising concentration on the Department of Design and Merchandising website (<https://www.chhs.colostate.edu/dm/programs-and-degrees/b-s-in-apparel-and-merchandising/merchandising-concentration/>).

Major in Apparel and Merchandising, Product Development Concentration

The Product Development concentration offers unique learning opportunities in developing and innovating consumer products. This

concentration teaches students necessary skills and knowledge for product development, including market potential analysis, trend forecasting, technology and material research, concept development, product line development, computer-aided design, technical package, packaging/branding strategies, pricing and costing, product line management, quality assurance, sourcing, supply chain management, and new venture start-ups.

Students in this concentration gain competence to be successful industry professionals or entrepreneurs through market-driven, industry-sponsored projects, which allows them to develop further networks with the real world. Students graduating with this concentration often pursue careers in highly technical product development fields such as outdoor products or sportswear industries.

Learn more about the Product Development concentration on the Department of Design and Merchandising website (<https://www.chhs.colostate.edu/dm/programs-and-degrees/b-s-in-apparel-and-merchandising/product-development-concentration/>).

Minor in Merchandising

A minor in Merchandising provides students in other majors an opportunity to gain knowledge and skills specific to the field of merchandising. The minor may be of special interest to students majoring in areas such as art, business, and journalism and technical communication. The perspectives gleaned by selecting a Merchandising minor both enhance understanding of the student's major program and expand career opportunities available to the student.

The Apparel and Merchandising program emphasizes study in apparel and textile design, product development and sourcing, and the marketing and retailing of consumer goods. The program encompasses the global study of the cultural/historical, economic, and scientific aspects of the textile and apparel industry while fostering an understanding and implementation of socially responsible business practices.

Learn more about the minor in Merchandising on the Department of Design and Merchandising website (<https://www.chhs.colostate.edu/dm/programs-and-degrees/minor-in-merchandising/>).

Requirements Effective Fall 2022

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Code	Title	Credits
AM 101	Fashion Industries	3
AM 130	Awareness and Appreciation of Design	3
AM 270	Merchandising Processes	3

Program Total Credits: **24-25**

Major in Interior Architecture and Design

The Interior Architecture and Design program prepares students to become professional designers through education, experience, and examination. Students learn to design interior environments that enhance the function and quality of life, increase productivity, and protect the health, safety, and welfare of the public. Faculty prepare students for research-based problem-solving and experiential education rooted in studio instruction, service learning, and internships that encompass cultural, environmental, and historical perspectives. The program is accredited by the Council of Interior Design Accreditation (CIDA) and faculty hold professional certifications in NCIDQ and LEED AP.

Students seeking to apply to the Interior Architecture and Design major at CSU first are admitted to CSU as Pre-Interior Architecture and Design. All students who wish to be considered for admission to Interior Architecture and Design (IAD) major will be required to complete the Degree Advancement Design Scenario practicum. Advancement into the major is based on the review received at the Design Scenario, where external reviewers will assess student competencies in writing for design, sketching, problem-solving, and conceptual frameworks. A cohort of approximately 50-60 students advances based on performance on the Degree Advancement Design Scenario. The Design Scenario occurs annually in the spring semester. Learn more on the Design and Merchandising website (<https://www.chhs.colostate.edu/dm/>) for Degree Advancement Design Scenario (<https://www.chhs.colostate.edu/dm/programs-and-degrees/b-s-in-interior-architecture-and-design/degree-advancement-design-scenario/>).

In order to participate in the Degree Advancement Design Scenario students must have the following:

- GPA of 2.500 or higher.
- Completion of or current enrollment in INTD 110, INTD 129 and INTD 166 or equivalent. Equivalent courses from other institutions must be approved at least two weeks prior to the IAD Design Scenario by the IAD transfer advisor.

The Design and Merchandising Department Academic Success Coordinator will work with Pre-Interior Architecture and Design students and advise them on their current performance in relation to the possibility of their admission to Interior Architecture and Design.

Learning Outcomes

Our program will allow you to explore:

- Creative problem-solving
- Design Thinking
- Global/cultural perspective
- Inclusive design
- Interior architecture design technologies
- Interior construction and building systems
- Life safety and codes
- Space planning
- Sustainable design strategies
- Visual Communication

Students engage in a studio-intensive curriculum that emphasizes research-informed and creative problem-solving. The curriculum underscores the importance of cultural, environmental, and historical perspectives in the design process.

The teaching facilities include design studios and critique spaces; a gallery; a design materials library (<https://www.chhs.colostate.edu/dm/design-library/>); virtual reality computer labs; and fabrication labs (prototyping, woods, metals, and screen printing).

Students will enroll in internship credits at least one semester before graduation.

Students who engage in co-curricular learning experiences will have the opportunity to network with industry professionals, engage in project-based learning experiences, assist with department recruiting events and new student orientations, and attend a variety of leadership events.

Potential Occupations

Students are prepared to practice interior architecture/interior design with competency in design fundamentals, space planning and programming, code compliance, lighting, materials research, project management, and professional practices in the design of diverse interior spaces.

Graduates seek employment in interior design and architecture firms as residential, corporate, retail, health care, institutional, education, and hospitality designers. Graduates also work in lighting design, product development, marketing, research, design-related journalism, illustration, facility management, showroom management, and as manufacturers' representatives.

Learn more about the Interior Architecture and Design major on the (<https://www.chhs.colostate.edu/dm/programs-and-degrees/b-s-in-interior-architecture-and-design/>) Department of Design and Merchandising website (<https://www.chhs.colostate.edu/dm/programs-and-degrees/b-s-in-interior-architecture-and-design/>). (<https://www.chhs.colostate.edu/dm/programs-and-degrees/b-s-in-interior-architecture-and-design/>)

The Nancy Richardson Design Center (<https://www.chhs.colostate.edu/rdc/>) is a multi-disciplinary center located in the College of Health and Human Sciences at CSU, with a mission to foster interdisciplinary creative collaboration. It serves as a design-thinking hub where students from across campus can gather to collaborate, innovate, and prototype creative ideas in formal and informal learning spaces using state-of-the-art equipment and technology. The RDC has four studio/lab

classrooms for hands-on learning, a seminar room for use by professional staff, a small dedicated project room that can also be used for student teams and visiting designers-in-residence, two computer labs, a design exchange (for student presentations, gallery exhibitions, special lectures, and events, etc.), an ideation lab (including virtual reality equipment), prototyping lab (laser cutters, 3D printers, CNC textile equipment, etc.),

metal shop (traditional metalworking tools, welding, as well as state-of-the-art CNC milling machinery), wood shop (traditional woodworking hand and power tools as well as a large 4'x8' CNC router), and a sustainable dark room.

Requirements

Effective Fall 2022

Distinctive Requirements for Degree Program:

First year students are identified as Pre-Interior Architecture and Design (IAD0). Students who qualify for the Selective Advancement Design Scenario must have **INTD 110**, INTD 129, INTD 166 and a cumulative reported GPA of 2.500 or better to participate. All majors in the program must earn a minimum grade of C (2.000) in the studio course sequence to advance to the next studio (i.e., INTD 210, INTD 276, INTD 310, INTD 376, INTD 410).

Program Total Credits:			120

¹ In addition to required courses in the major, students must complete a minimum of 9 credits from one of the following focus areas. These credits may be used to fulfill required courses in a certificate, minor, interdisciplinary minor, second major, or a focused group of courses approved by an advisor.

Focus Areas:

- Art History
- Business Administration
- Design Thinking
- Entrepreneurship
- Gerontology
- Global Environmental Sustainability
- Graphic Design
- Media Studies
- Merchandising
- Real Estate
- Psychology

Any minor or undergraduate certificate at CSU in these or other areas will satisfy for the aforementioned focus area requirement.

A minor in Construction Management **completed in full**, will satisfy for the aforementioned focus area requirement.

² Substitute experiences could include study abroad or elective courses or independent study (service learning) with advisor approval.

³ Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be Upper-Division (300- or 400-level).

Major Completion Map

Distinctive Requirements for Degree Program:

First year students are identified as Pre-Interior Architecture and Design (IAD0). Students who qualify for the Selective Advancement Design Scenario must have **INTD 110**, INTD 129, INTD 166 and a cumulative reported GPA of 2.500 or better to participate. Approximately 40 students are selected to advance to the Second Year and majors are changed to Interior Architecture and Design (IARD-BS). The IARD-BS major is a cohort program - after students pass the Design Scenario, semesters 3, 4, 5, 6, 7, and 8 are sequential.

All majors in the program must earn a minimum grade of C in the studio course sequence to advance to the next studio (i.e., INTD 210, INTD 276, INTD 310, INTD 376, INTD 410).

Students must complete a 12-credit internship prior to graduation. For students who are unable to participate in an internship, substitute experiences could include study abroad or elective courses or independent study (service learning) with advisor approval.

In addition to required courses in the major, students must complete a minimum of 9 credits from one of the following focus areas. These credits may be used to fulfill required courses in a certificate, minor, interdisciplinary minor, second major, or a focused group of courses approved by an advisor.

Focus Areas:

- Art History
- Business Administration

- Design Thinking
- Entrepreneurship
- Gerontology
- Global Environmental Sustainability
- Graphic Design
- Media Studies
- Merchandising
- Real Estate
- Psychology

Any minor or undergraduate certificate at CSU in these or other areas will satisfy for the aforementioned focus area requirement.

A minor in Construction Management **completed in full**, will satisfy for the aforementioned focus area requirement.

Graduate Certificate in Evidence-Based Design

No new students are being admitted to this certificate at this time.

This certificate features skill development, theoretical understanding, and linkage to research approaches, assessment of instruments, exposure to professionals engaged in evidence-based projects, and use of the tools and concepts learned in each course applied to evidence-based research projects in the community. Professionals in design, healthcare, education, engineering, construction, and product manufacturing are the target audience of this sequential cohort-based certificate.

Effective Spring 2016

Additional coursework may be required due to prerequisites.

Code	Title	Credits
DM 501	Research and Theory-Design and Merchandising	3

DM 551	Research Methods	3
INTD 578	Trends/Issues in Interior Design	3
Program Total Credits:		9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Master of Science in Design and Merchandising, Plan A, Apparel and Merchandising Specialization

The M.S. in Design and Merchandising, Plan A, Apparel and Merchandising Specialization offers the opportunity for students to critically explore how apparel products are designed and developed, distributed, and merchandised as well as the ways in which consumers interact with and use those products in various historical and socio-cultural contexts. Emphasis is placed upon fostering cultural awareness and a commitment to social responsibility. The Plan A emphasizes the development of content knowledge and research skills through the completion of an original research study, preparing graduates well for doctoral-level work or for industry positions requiring critical thinking, analytical abilities, and/or depth of knowledge in the field.

Areas of graduate study and research in Apparel and Merchandising include:

- Apparel Design and Production
- Consumer Behavior
- Historic Costume and Textiles
- Merchandising
- Product Development
- Social-Psychological and Cultural Aspects of Dress and Appearance
- Textile Science

Learn more about the M.S. in Design and Merchandising, Plan A, Apparel and Merchandising Specialization, on the Department of Design and Merchandising website. (<https://www.chhs.colostate.edu/dm/programs-and-degrees/m-s-in-design-and-merchandising/apparel-and-merchandising-specialization/>)

³ Select 500-level courses from the AM, DM, or INTD subject codes with approval of advisor.

Master of Science in Design and Merchandising, Plan B, Apparel and Merchandising Specialization

The M.S. in Design and Merchandising, Plan B, Apparel and Merchandising Specialization offers the opportunity for students to critically explore how apparel products are designed and developed, distributed, and merchandised as well as the ways in which consumers interact with and use those products in various historical and cultural contexts. Emphasis is placed upon fostering cultural awareness and a commitment to social responsibility. The Plan B emphasizes the development of content knowledge and critical thinking skills through the completion of a project, preparing graduates well for industry positions requiring higher-order analytical abilities and/or depth of knowledge in the field.

Areas of graduate study and research in Apparel and Merchandising include:

- Apparel Design and Production
- Consumer Behavior
- Historic Costume and Textiles
- Merchandising
- Product Development
- Social-Psychological and Cultural Aspects of Dress and Appearance
- Textile Science

Learn more about the M.S. in Design and Merchandising, Plan B, Apparel and Merchandising Specialization on the Department of Design and Merchandising website. (<https://www.chhs.colostate.edu/dm/programs-and-degrees/m-s-in-design-and-merchandising/apparel-and-merchandising-specialization/>)

Master of Science in Design and Merchandising, Plan A, Interior Design Specialization

The Interior Design specialization of the M.S. in Design and Merchandising offers the opportunity to explore creativity, sustainability, emerging technologies, spatial perception, and human health and wellness within the context of interior design. The Plan A emphasizes the development of content knowledge and research skills through the completion of an original research study, preparing graduates for doctoral-level work or for industry positions requiring critical thinking, analytical abilities, and/or depth of knowledge in the field.

Common contexts for graduate research include workplace, education, healthcare facilities, commercial/institutional spaces, hospitality, etc.

Major areas of specialization for graduate study and research in interior design include:

- Creativity and cognition
- Sense of place
- Sustainable design studies
- Inclusive design and design justice (DEIJ)
- Health, well-being, and resilience
- Theory, sociocultural, and global approaches
- Design pedagogy
- Digital fabrication
- Emerging technologies for design

School of Education

Office in Education Building, Room 202
(970) 491-6317
www.chhs.colostate.edu/soe

Mary Pederson, Interim Director

The School of Education (<https://www.chhs.colostate.edu/soe/>) is part of the College of Health and Human Sciences. Our programs advance teaching, leadership, and research-related skills in order to support students in becoming effective, caring, and transformational educators and leaders.

Offering a variety of degree programs and certificates at the undergraduate, master's and doctoral levels, the School of Education equips graduates to teach, mentor, counsel, and lead a wide array of people and organizations. Learning takes place in a variety of settings, including distance, online, on-campus, and hybrid formats.

The School of Education is committed to scholarly excellence. Partnering with external professional communities through formal partnerships and outreach, centers and institutes, faculty and students use research and engagement to impact social and educational issues. Faculty are comprised of scholars, scholar-practitioners and scholar-activists, with research topics focused on critical social and educational needs of today's organizations and institutions. Programs offer students opportunities for practical application of knowledge and skills gained through coursework, ensuring they are prepared to put their knowledge and skills to work in real-world environments.

Center for Educator Preparation

Office in Education Building, Room 111
(970) 491-5292
www.chhs.colostate.edu/soe/center-for-educator-preparation

The Center for Educator Preparation (<https://www.chhs.colostate.edu/soe/center-for-educator-preparation/>) (CEP) is responsible for licensure of P-12 teachers in 17 content areas, and of K-12 school principals.

Part of the School of Education, the educator preparation program at CSU is nationally accredited by the Association for Advancing Quality in Educator Preparation (AAQEP) and authorized by the Colorado Department of Higher Education and the Colorado Department of Education. CEP consists of clinical practitioners, scholars, scholar-practitioners, and advocates collaboratively preparing educators and school leaders through a Professional Development School model.

Section 207 of Title II of the Higher Education Act mandates that the Department of Education collect data on state requirements for teacher certification and licensure, as well as data on the performance of teacher preparation programs. The Title II Institutional Report for CSU is available through the **School of Education website**.

Learning Outcomes

Students will demonstrate:

- Use of innovative instructional methods to promote student success and to meet state and national standards
- Understanding of how students differ in their approaches to learning and the ability to create instructional opportunities that are adapted to diverse learners
- Mastery of the content knowledge required for teaching a subject
- Ability to impact the learning of P-12 students through course work and field experiences
- Knowledge of careers in teaching and of education governance

Potential Occupations

Examples include:

- Public or private school teacher
- Principal
- Staff developer
- School counselor
- Early childhood center teacher and director
- Post-secondary teacher
- School social worker
- School occupational therapist
- Curriculum specialist
- Human resources trainer
- Educational sales

One of the most important ways to help people and to impact our society is through involvement in schools. Teachers make lasting contributions to our nation and its many generations of learners. Teacher education programs at CSU serve the needs of individuals preparing to teach in:

- Early Childhood Education (PreK-3rd grade)
- Grades K-12: Art, Foreign Languages, Instructional Technology, Music
- Secondary (Grades 7-12): Agricultural Education, Business/Marketing Education, Computer Science (coming soon), English, Family and Consumer Sciences, Mathematics, Science, Social Studies, Speech

CSU is one of the public institutions in Colorado designated to offer programs leading towards a career and technical (vocational) credential. Candidates for teacher licensure are skilled in a teaching concentration and educational methodology. These students take their professional education course work concurrently while completing their content area coursework. Candidates may complete licensure while enrolled in an undergraduate program or after completing a bachelor's degree at an accredited university.

Endorsements available through the program include:

Social Studies	History (B.A.)	Liberal Arts	Major in History, Social Studies Teaching Concentration
Speech	Communication Studies (B.A.)	Liberal Arts	Major in Communication Studies, Speech Teacher Licensure Concentration

Admission to Teacher Licensure

Students who wish to pursue an endorsement program should apply for admission to the CEP teacher preparation program. Students have three different program options - undergraduate, post-bachelor, and Master of Education. Application and admission requirements differ based on which program a student is interested in pursuing. (Note: Admission requirements are subject to change based on program and state licensing requirements and laws.)

For detailed information about application and admission requirements and deadline dates, please contact the Center for Educator Preparation Advising Office (<https://www.chhs.colostate.edu/soe/center-for-educator-preparation/advising/>). We welcome in-person visits, phone calls or email.

Student Teaching

Teacher licensure candidates apply for student teaching placement one semester before student teaching. Candidates must pass the state licensing exam (Praxis) in their respective teaching content area by mid-April or mid-October before beginning their student teaching experience. Additionally, candidates must demonstrate acceptable professional dispositions and academic fitness. Student teaching must be completed at an approved school. Placement is contingent upon acceptance of the student by a school system. All assignments are made by CSU. This experience is full-time for a specified time period.

Requirements for Licensure

Colorado licensure requires completion of an approved teacher preparation program and the recommendation of the institution at which the program was completed. The CEP Co-Directors and Student Teaching Coordinator serve as the licensure officers for CSU. Additional requirements of the Colorado Department of Education and the Colorado Department of Higher Education include the successful completion of the state licensing exam. Successful completion of the approved teacher preparation program at CSU does not guarantee successful completion of the state licensing exam.

Students who successfully complete an approved teacher preparation program will be prepared to pursue licensure in Colorado. Licensure requirements in other states and U.S. territories may differ. Students are encouraged to work with the department and the professional licensure board in the state in which they intend to pursue licensing to ensure all requirements are satisfactorily met. CEP does not assume responsibility for the successful completion of the state licensing exam.

CSU's approved teacher preparation program requirements include completion of a baccalaureate degree, completion of the content area and professional education course work, and fulfillment of the Colorado Performance-Based Standards for teachers at the proficient or advanced proficient level. Additionally, all grades earned in professional education and content courses must be a C or better for licensing. The minimum scholastic average acceptable for completion of the teacher preparation program and recommendation for licensing is 2.750, computed for all course work.

CSU reserves the right to **not** recommend a student for licensure on the basis of unacceptable professional dispositions and academic fitness/performance.

Professional Education Coursework for Licensure

The professional education requirements listed below apply to all teaching endorsement areas except early childhood education where EDUC 400, EDUC 425, and EDUC 426, are required in place of EDUC 350, EDUC 386, EDUC 450, and EDUC 486E. Additional courses may be required by specific endorsement areas. For clarification, refer to individual coursework check sheets which can be obtained in the Education Building, room 111, and on the CEP website (<https://www.chhs.colostate.edu/soe/center-for-educator-preparation/undergraduate-teacher-licensure/>).

Candidates in all endorsement areas must complete appropriate methods courses the semester prior to enrolling in student teaching. (EDUC/EDCT 4XX - level courses)

Career and Technical Education

Individuals desiring to teach in or administer career and technical programs in the state of Colorado must qualify for a credential in addition to a teaching license. Those who plan to qualify as career and technical education teachers or directors must meet the requirements for a CTE credential established by the Community Colleges of Colorado and the Colorado Department of Education. Credentialing questions may be directed to the Department of Education, (303) 866-6628.

Professional Education Course Requirements

The professional education course requirements listed under Professional Education Coursework for Licensure apply to all teaching endorsement areas in career and technical education.

Agricultural Education

Kellie Enns, Ph.D., Program Coordinator

Candidates studying Agricultural Education are prepared to teach youth and adults in high schools, community colleges, junior colleges, area career and technical schools, and technical institutes. Two thousand hours in the agriculture industry are required in addition to the completion of the agriculture curriculum and professional education coursework.

For the detailed four-year curriculum, refer to the Major in Agricultural Education, or contact the Center for Educator Preparation Advising Center in the Education Building, Room 111.

Family and Consumer Sciences

Dawn Mallette, Ph.D., Program Coordinator

Candidates majoring in Family and Consumer Sciences with a concentration in Family and Consumer Sciences Education are prepared to be employed as teachers in middle schools, junior or senior high schools, community and junior colleges, area career and technical schools, and technical institutes.

For the detailed four-year curriculum, refer to the interdepartmental major in Family and Consumer Sciences, Family and Consumer Sciences Education concentration, under the School of Education.

Undergraduate

Majors

- Major in Family and Consumer Sciences

[chhs.colostate.edu/soe/programs-and-degrees](https://www.chhs.colostate.edu/soe/programs-and-degrees/) (<https://www.chhs.colostate.edu/soe/programs-and-degrees/>)

The School of Education offers graduate programs leading to a Master of Arts in Counseling and Career Development, a Master of Education in Education and Human Resource Studies, a Master of Science in Student Affairs in Higher Education, and a Doctor of Philosophy degree in Education and Human Resource Studies.

Master of Arts specializations are available in:

- Career Counseling
- Clinical Mental Health Counseling
- School Counseling

Master of Education specializations are available in:

- Adult Education and Training
- Education Sciences
- Educational Leadership with K-12 Principal Licensure
- Organizational Learning, Performance and Change
- Teacher Licensure

The Master of Science degree in Student Affairs in Higher Education follows the Council for the Advancement of Standards in higher education.

Doctoral degree specializations are available in:

- Education, Equity, and Transformation
- Higher Education Leadership
- Organizational Learning, Performance and Change
- School Leadership

Regional Graduate Program status has been granted to the doctoral degree by the Western Interstate Commission on Higher Education (WICHE). This arrangement, approved by the State of Colorado, permits citizens of other states to pay resident tuition rates under certain conditions. Contact the School of Education for further details.

Non-degree programs are also available that lead to licensure/credential/endorsement as a school principal.

Students interested in graduate work should refer to the Graduate and Professional Bulletin and the School of Education. (<https://www.chhs.colostate.edu/soe/>)

Certificates

- Adult Basic Education
- Campus Crisis Management
- Facilitating Adult Learning
- High Impact On-Demand Solutions Learning
- Postsecondary Access and Success Programs
- Student Affairs Administration
- Student Affairs Management of Auxiliary Enterprises

Master's Programs

- Master of Arts in Counseling and Career Development
 - Master of Arts in Counseling and Career Development, Plan B, Career Counseling Specialization
 - Master of Arts in Counseling and Career Development, Plan B, Clinical Mental Health Counseling Specialization
 - Master of Arts in Counseling and Career Development, Plan B, School Counseling Specialization

Education - Adult (EDAE)

EDAE 495 Independent Study-Adult Education Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDAE 520 Adult Education Credits: 3 (0-0-3)

Course Description: Philosophical foundations, a description of program service areas, adult participation trends, and current issues.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 521 Introduction to Adult Education and Training Credit: 1 (1-0-0)

Course Description: Introduction to concepts and resources for the adult education and training program. Begin capstone portfolio project that continues to develop throughout the program.

Prerequisite: None.

Registration Information: Sections may be offered: Mixed Face-to-Face or Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 530 Adult Basic Education Credits: 3 (2-0-1)

Course Description: Enhance instructor skills in literacy and numeracy instruction for adult learners functioning below the 12th grade equivalency.

Prerequisite: None.

Registration Information: Bachelor's degree or consent of instructor. Must register for lecture and recitation. Offered as an online course only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 540 Teach English as Second Lang—Adult Learners Credits: 3 (2-0-1)

Course Description: Instructors learn the tools necessary to successfully deliver English learning to adult speakers of other languages.,

Prerequisite: None.

Registration Information: Bachelor's degree or consent of instructor. Must register for lecture and recitation. Offered as an online course only.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 582A Study Abroad--Thailand: Spiritual Practices in Thailand Credits: 3 (0-0-3)

Course Description: Historical, social, political, and cultural perspectives that shape lifelong learning in the host country-Thailand. Educational activities are structured to allow reflection of pedagogical approaches and teaching philosophies specific to adult learners. Develop a deep understanding of adult education concepts through immersion, comparison, reflection, and application.

Prerequisite: None.

Registration Information: Offered as Mixed Face-to-Face. Credit not allowed for both EDAE 582A and EDAE 682A.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 582B Study Abroad--Todos Santos: Community Education Workshop Credits: 3 (0-0-3)

Course Description: Real-life, hands-on experience as international community education providers by applying knowledge of program development for adult learners as a response to social problems faced by marginalized populations.

Prerequisite: None.

Registration Information: Senior standing. Offered as Mixed Face-to-Face.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 586 Practicum Credits: Var[1-18] (0-0-0)

Course Description: Participation in field experience relevant to study program and objectives.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDAE 590 Workshop Credits: Var[1-18] (0-0-0)

Course Description: Specially designed learning situations to provide opportunities for concentrated problem-solving experiences.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDAE 601 Philosophy/Organization of Workforce Education Credits: 3 (3-0-0)

Course Description: Principles, philosophy, practices, and innovations of workforce education and human resources.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 620 Processes and Methods Credits: 3 (0-0-3)

Course Description: Processes and methods including helping theories used by adult learning facilitators.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 624 Adult Teaching and Learning I Credits: 3 (0-0-3)

Course Description: Using theory and best practices to design and deliver instruction for adults.

Prerequisite: EDAE 520.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 629 Program Development Credits: 3 (0-0-3)

Course Description: Models for planning, implementing, and evaluating programs for adult learners.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 630 Using Mobile Technology for Training Credits: 3 (1-0-2)

Course Description: Facilitating learning and developing knowledge access through mobile technologies for adult learners. Using mobile technologies to develop a learning event for targeted adult learners.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online or Mixed Face-to-Face.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 639 Instructional Design Credits: 3 (1-0-2)

Course Description: Apply instructional design principles in the development of a course or workshop and explore application of various learning methods.

Prerequisite: EDAE 620 and EDAE 624 and EDRM 600.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 664 Assessment and Evaluation in Adult Education Credits: 3 (2-0-1)

Course Description: Assessment of learning, evaluation of learning events, and determining the value of the training to the adult learners in the organization.

Prerequisite: EDAE 620.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 668 Cognitive Theory and Learning Transfer Credits: 3 (1-0-2)

Course Description: Investigation of learning processes and training strategies that lead to application of learning outside of the classroom.

Prerequisite: EDAE 620 and EDAE 624.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 682 Cultural Applications of Lifelong Learning Credits: 3 (0-0-3)

Course Description: Immersion experience examining cultural differences and establishing lifelong learning practices in Belize.

Prerequisite: EDUC 651.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must have completed 6 credits in the Adult Education and Training specialization under the M.Ed.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 687 Internship Credits: Var[1-18] (0-0-0)

Course Description: Career or job fieldwork experience with an adult education institution, agency, or program.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDAE 692 Seminar-Adult Education Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDAE 695 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDAE 698 Research Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: EDAE 520 and EDAE 624 and EDRM 600.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDAE 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: EDAE 520 and EDAE 624 and EDRM 600.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDAE 724 Adult Teaching and Learning II Credits: 3 (0-0-3)

Course Description: Adult teaching and learning, alternative delivery systems, performance technology, and faculty evaluation.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

Education - Community College (EDCL)

EDCL 675 The Community College Credits: 3 (3-0-0)

Course Description: Role and scope of community college: history, philosophy, organization, administration.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must have concurrent registration in EDCL 702.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDCL 687 Internship Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDCL 701 Higher Education Law Credits: 3 (0-0-3)

Course Description: Legal theory, analysis, and review of cases relevant to higher education.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDCL 702 Community College Curriculum Credits: 3 (2-0-1)

Course Description: Investigation and research of critical curricular issues affecting the community college now and in the future.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must have concurrent registration in EDCL 675. Must register for lecture and recitation.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDCL 703 Community College Leadership Credits: 3 (2-0-1)

Course Description: Investigation and research of critical leadership issues affecting the community college now and in the future.

Prerequisite: EDCL 675.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDCL 750 Simulated Presidential Cabinet I Credits: 3 (0-0-3)

Course Description: Issues and challenges relating to students, faculty, instructional programs, noninstructional programs, and instructional delivery.

Prerequisite: EDCL 701 and EDUC 710.

Restriction: Must be a: Graduate, Professional.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDCL 751 Simulated Presidential Cabinet II Credits: 3 (0-0-3)

Course Description: Issues and challenges relating to internal/external governances, legal authority, institutional revenues, expenditures and insurances, human resources.

Prerequisite: EDCL 701 and EDUC 710.

Restriction: Must be a: Graduate, Professional.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDCL 792 Seminar Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Instructor Option.

Special Course Fee: No.

Education - Counseling/Career Development (EDCO)

EDCO 500 Career and Employment Concepts Credits: 3 (0-0-3)

Course Description: Career and lifestyle studies that provide an understanding of career development, employment concepts, and career counseling resources.

Prerequisite: None.

Registration Information: Bachelor's degree. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDCO 550 Professional School Counseling Credits: 3 (3-0-0)

Course Description: History, professionalism, ethics, program planning and program development of school counseling programs.

Prerequisite: None.

Registration Information: Admission to Counseling and Career Development Program or approval of instructor.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDCO 552 School Counseling Program Delivery/Evaluation Credits: 3 (0-0-3)

Course Description: Effective school counseling program development, delivery, and evaluation.

Prerequisite: EDCO 550.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDCO 590 Workshop Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDCO 625 Foundations of Counseling Credits: 3 (2-0-1)

Course Description: Foundations and techniques of individual guidance and counseling.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in EDCO 650. Must register for lecture and recitation.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDCO 650 Theories of Counseling and Development Credits: 3 (2-0-1)

Course Description: Theories of individual counseling and development.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must have concurrent registration in EDCO 625. Must register for lecture and recitation.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDCO 651 Group Guidance and Counseling Credits: 3 (2-0-1)

Course Description: Theory and techniques of group guidance and counseling.

Prerequisite: EDCO 650.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDCO 652 Ethics in Counseling/Career Development Credits: 3 (3-0-0)

Course Description: Awareness and critical analysis of ethical and legal issues in counseling and career development.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Counseling and Career Development Program.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDCO 653 Counseling for Cultural Diversity Credits: 3 (2-0-1)

Course Description: Influence of cultural differences in delivering culturally responsive counseling.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the M.Ed. Counseling and Career Development specialization or written consent of instructor.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDCO 655 Brief Counseling Credits: 3 (3-0-0)

Course Description: Continued development, knowledge, and use of counseling theories and skills such as solution focus counseling/therapy and motivational interviewing techniques. Develop understanding of the change model (Transtheoretical Model) to assist in helping clients make desired changes in their lives.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Proof of professional counseling liability insurance.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDCO 656 Counseling Assessment and Appraisal Credits: 3 (2-0-1)

Course Description: The topics include (a) history and philosophy of educational, psychological, and vocational testing; (b) introduction to the basic statistical concepts surrounding test validation, scoring and interpretation; (c) essential criteria for evaluating and selecting appropriate assessment instruments; (d) principles of standardized administration and scoring; (e) interpretation of test results and appropriate consultation.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Offered as Mixed Face-to-Face.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDCO 660 Career Development Counseling Credits: 3 (3-0-0)

Course Description: Career development programs and processes over the life span with particular attention to career choice.

Prerequisite: EDCO 500.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDCO 661 Career and Life Design Counseling Credits: 3 (2-0-1)

Course Description: Career and life design counseling knowledge, skills, and practices with a focus on emerging career development and career counseling theories, concepts, and models; career programming and evaluation; and career development and counseling advocacy.

Prerequisite: EDCO 500.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

EDCO 662 Counseling Children and Adolescents Credits: 3 (2-0-1)

Course Description: Counseling theories and interventions applied to the child and adolescent client population.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Counseling and Career Development Program.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDCO 665 Career Development Institute Credits: 3 (1-0-2)

Course Description: Current issues related to employment, employee development, career planning, and labor market information are examined. Site visits and career development audits of local employers as well as other structured activities and assignments encourage students to consider educational and labor market trends and career development within a global society.

Prerequisite: EDCO 500.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Offered as Mixed Face-to-Face. This is a partial semester course. Required field trips.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDCO 670 Introduction to Mental Health Counseling Credits: 3 (3-0-0)

Course Description: How psychopathology is experienced and displayed by the client and the key principles in diagnosing mental health disorders.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDCO 675 Mental Health Counseling and Treatment Credits: 3 (2-0-1)

Course Description: The clinical mental health counseling (CMHC) field and counseling treatment, with a focus on emerging current trends, multicultural considerations, professional issues, and credentialing of CMHCs. Topics include clinical interviewing, case conceptualizations, and treatment and diagnosis of specialty populations.

Prerequisite: EDCO 650 and EDCO 693.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

EDCO 686 Practicum-Guidance and Counseling Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDCO 687 Internship-Guidance and Counseling Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDCO 692 Seminar Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Grade Mode: Traditional.

Special Course Fee: No.

EDCO 693 Seminar-Guidance and Counseling Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDCO 696 Group Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDCO 792A Seminar: Individual Counseling Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDCO 792B Seminar: Group Counseling Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDCO 792C Seminar: Contemplative Practice-Counseling & Education Credits: 3 (0-0-3)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Grade Mode: Instructor Option.

Special Course Fee: No.

Education - Career and Teaching (EDCT)

EDCT 300 Principles of Career and Technical Education Credits: 2 (0-0-2)

Course Description: History, purpose, administration, funding, programs, services and delivery of career and technical education within educational systems.

Prerequisite: None.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDCT 387 Internship Credits: Var[1-18] (0-0-0)

Course Description: Coordinated and supervised experiences in business, industry, or agriculture selected to strengthen the intern's specialty through experience.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDCT 400 Building Student Organizations/Partnerships Credits: 2 (2-0-0)

Course Description: Techniques and methods to implement and advise student leaders; establish and nurture business/industry partners and work-based experiences.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDCT 420 Agricultural Experience and Adult Education Credits: 3 (3-0-0)

Course Description: Developing secondary agriculture experience programs. Organizing and teaching adult education classes in agriculture.

Prerequisite: None.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDCT 425 Methods/Materials in Agricultural Education Credits: 4 (4-0-0)

Course Description: Methods and procedures in teaching and evaluating agricultural education in the classroom and laboratory; vocational foundations; microteaching.

Prerequisite: EDUC 350, may be taken concurrently or EDUC 450, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDCT 431 Methods/Materials in Business Education Credits: 4 (4-0-0)

Course Description: Methods for teaching business education.

Prerequisite: EDUC 350, may be taken concurrently or EDUC 450, may be taken concurrently.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDCT 441 Methods/Materials-Vocational Marketing Education Credit: 1 (1-0-0)

Course Description: Instructional methods and resource materials development for vocational marketing education.

Prerequisite: (EDCT 431) and (EDUC 350, may be taken concurrently or EDUC 450, may be taken concurrently).

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDCT 451 Methods-Family/Consumer Sciences Education Credits: 4 (3-2-0)

Course Description: Teaching methods, processes, and materials for family and consumer sciences education.

Prerequisite: EDUC 350, may be taken concurrently or EDUC 450, may be taken concurrently.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDCT 465 Methods and Materials in Technology Education Credits: 3 (3-0-0)

Course Description: Strategies and practices of teaching in a technical laboratory setting.

Prerequisite: EDUC 350, may be taken concurrently or EDUC 450, may be taken concurrently.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDCT 471 Orientation and Assessment of New Teachers Credits: 2 (2-0-0)

Course Description: Orientation to teaching and individual assessment of teaching skills: development and implementation of professional growth plan.

Prerequisite: None.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDCT 472 Classroom Management Credit: 1 (0-0-1)

Course Description: Orientation to teaching and individual assessment of teaching skills: development and implementation of professional growth plan.

Prerequisite: EDCT 471.

Registration Information: Admission to TAP. Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDCT 473 Communication Strategies Credit: 1 (0-0-1)

Course Description: Introduction to student management techniques and program management. Teachers will create a preliminary plan for instruction.

Prerequisite: EDCT 471.

Registration Information: Admission to TAP. Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDCT 485 Student Teaching Credits: Var[1-18] (0-0-0)

Course Description: Teacher education candidates participate in an intensive and extensive on-site capstone experience within a public school setting.

Prerequisite: (EDCT 425 or EDCT 431 or EDCT 441 or EDCT 451 or EDCT 465) and (EDUC 450).

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: Yes.

EDCT 486 Practicum Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDCT 492 Seminar-Professional Relations Credits: Var[1-18] (0-0-0)

Course Description: Collegial and professional discussions, support, and assistance.

Prerequisite: EDUC 450.

Registration Information: Appropriate special content methods course.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDCT 494 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDCT 496 Group Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDCT 520 Teaching Agricultural Education Credits: Var[1-18] (0-0-0)

Course Description: Methods of teaching recent developments in the field of agriculture and allied industries.

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDCT 571 Vocational Assessment for Special Needs Credits: 3 (0-0-3)

Course Description: Information on techniques regarding vocational assessment of special needs students including traditional and curriculum-based strategies.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDCT 590 Workshop Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDCT 612 Career and Technical Administrative Strategy Credits: 3 (0-0-3)

Course Description: Basic educational systems; the scientific method as a basis for analysis; systems as a tool for planning and decision making.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDCT 693 Seminar Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Education - General (EDUC)

EDUC 265 Culture of Care in Schools Credits: 3 (2-0-1)

Also Offered As: ETST 265.

Course Description: Exploration of the importance of relationships as the focus of education by learning the principles and practices of restorative justice, and culturally appropriate teacher practices.

Prerequisite: None.

Restriction: Must be a: Undergraduate.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online. Credit allowed for only one of the following: EDUC 265, ETST 265, or ETST 281A1.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 275 Schooling in the United States (GT-SS3) Credits: 3 (3-0-0)

Course Description: Historical, social, political, philosophical, cultural, and economic forces that shape the United States public school system. Current issues of educational reform, educational technology, and considerations related to becoming a teacher in the state of Colorado are explored. Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Social & Behavioral Sciences 3C, Human Behavior, Culture, or Social Frameworks (GT-SS3).

EDUC 296 Group Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 320 Educational Psychology Credits: 3 (2-0-1)

Course Description: Psychological conditions of classroom learning and teaching including understanding needs of all children in the classroom.

Prerequisite: None.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 331 Educational Technology and Assessment Credits: 2 (1-2-0)

Course Description: Skills and strategies for the use of appropriate technology and assessment in teacher education.

Prerequisite: EDUC 275 and EDUC 340.

Registration Information: Admission to Teacher Licensure Program. Must register for lecture and laboratory. Credit allowed for only one of the following: EDUC 331, EDUC 480A1, and EDUC 461A.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 340 Literacy and the Learner Credits: 3 (1-2-1)

Course Description: Understanding and supporting literacy and numeracy development. Field experiences, service learning experiences.

Prerequisite: None.

Registration Information: Required background check through CDE, CBI, FBI. 30 credits of course work completed. Must register for lecture, laboratory, and recitation.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 350 Instruction I-Individualization/Management Credits: 3 (2-2-0)

Course Description: Theory, research and practice of teaching at the junior high/middle school level; adapting instruction for individuals including learners with special needs.

Prerequisite: EDUC 275 and EDUC 340.

Registration Information: Must have concurrent registration in EDUC 386. Admission to Teacher Licensure Program. Must register for lecture and laboratory. Includes fieldwork in public schools. Site placement may change due to public school needs.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 365 Diversity and Equity in Lifelong Learning Credits: 3 (3-0-0)

Course Description: Learners critically examine how institutions and societies provide equitable and inequitable learning opportunities and realities, whether intentional or not, and to understand their role in supporting or altering these systems through a multicultural lens.

Prerequisite: None.

Restriction: Must be a: Undergraduate.

Registration Information: Required field trips. Sections may be offered as Mixed Face-to-Face or Online. Credit not allowed for both EDUC 365 and EDUC 380A1.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 375 Comparative Education Credits: 3 (2-0-1)

Course Description: Exploring and comparing education in various countries. Using a variety of lenses as the exploration of the relationship between education, culture and society in a global context to understand schooling around the world. Among the issues discussed will be gender, race, class, socio-political and economic structures and their relationship to the schooling process.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 384 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Undergraduate.

Registration Information: Written consent of instructor. Sections may be offered: Face-to-Face, Online, or Mixed Face-to-Face. A maximum of 10 combined credits for all 384 and 484 courses are counted toward graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDUC 386 Practicum-Instruction I Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: EDUC 275 and EDUC 340.

Registration Information: Must have concurrent registration in EDUC 350. Admission to Teacher Licensure Program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDUC 400 Diagnostic Teaching of Reading Credits: 3 (1-4-0)

Course Description: Development of the knowledge base, skills, and strategies for teaching reading from birth to age 8. Service learning experiences.

Prerequisite: EDUC 275 and EDUC 340 and HDFS 217 and HDFS 310.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 425 Early Childhood Education I Credits: 4 (2-6-0)

Course Description: Integrated methods; theoretical bases; teacher's role; appropriate curriculum; measurement; environments; pedagogy; instructional design and decisions.

Prerequisite: EDUC 275 and EDUC 340.

Registration Information: Admission to Teacher Licensure Program. Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 426 Early Childhood Education II Credits: 4 (2-4-0)

Course Description: Integrated methods; organizing/presenting materials/activities; applying decisions; managing groups; individual instruction; assessment/evaluation.

Prerequisite: EDUC 425.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 450 Instruction II-Standards and Assessment Credits: 4 (2-4-0)

Course Description: Theory, research, and practice of standards-based instruction: assessment, literacy, and technology. Includes work in public schools.

Prerequisite: EDUC 350 and EDUC 386 and EDUC 331.

Registration Information: Must have concurrent registration in EDUC 486E. Must register for lecture and laboratory. Course must be taken semester immediately prior to student teaching semester.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 460 Methods and Materials in Teaching Science Credits: 4 (3-2-0)

Course Description: Current trends in science education, K-12; techniques of experimentation demonstrations; study of equipment, facilities, and resource materials.

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program. Must register for lecture and laboratory. Credit allowed for only one of the following: EDUC 460, EDUC 480A2, and EDUC 461B.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 461A Secondary Science and Technology Education I Credits: 3 (3-0-0)

Course Description: Understandings of, and skills in using, contemporary approaches to pedagogy and planning in science and technology education. Historical understandings, critical analyses, and experiences to guide and engage highly diverse K-12 students in authentic science and technology learning.

Prerequisite: EDUC 275 and EDUC 340.

Registration Information: Accepted into teacher licensure. Science education students only. Part one of a two-part course sequence. Credit allowed for only one of the following: EDUC 331, EDUC 480A1, and EDUC 461A.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 461B Secondary Science and Technology Education II Credits: 3 (3-0-0)

Course Description: Contemporary approaches to pedagogy and planning in science and technology education are applied to instructional design, planning and facilitation in K-12 science and technology learning. Focus is on student-centered approaches and equity-based instruction and assessment.

Prerequisite: EDUC 461A.

Restriction: Must be a: Undergraduate.

Registration Information: Accepted into teacher licensure. Science education students only. Part two of a two-course sequence. Credit allowed for only one of the following: EDUC 460, EDUC 480A2, and EDUC 461B.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 462 Methods and Assessment in Teaching Languages Credits: 4 (4-0-0)

Course Description: Objectives, methods, and resource materials for teaching languages in secondary schools.

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program; oral and written competency in language endorsement area.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

EDUC 463 Methods in Teaching Language Arts Credits: 4 (4-0-0)

Course Description: Objectives, content, and methods of teaching English, speech, and journalism in secondary schools.

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 464 Methods and Materials in Teaching Mathematics Credits: 4 (4-0-0)

Course Description: Problems and techniques of teaching secondary mathematics; evaluation of student achievement and teacher effectiveness.

Prerequisite: MATH 100 to 481 - at least 18 credits.

Registration Information: Admission to Teacher Licensure Program.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 465 Methods and Materials in Social Studies Credits: 4 (4-0-0)

Course Description: Methods of teaching social studies; sources of information and teaching materials and literature for social studies teachers.

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 466 Methods and Assessment in K-12 Art Education Credits: 4 (4-0-0)

Course Description: Objectives, methods, and resource materials for teaching art in elementary and secondary schools.

Prerequisite: EDUC 275.

Registration Information: Admission to Teacher Licensure Program.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 467 Methods in Dance Education Credits: 3 (2-2-0)

Course Description: Objectives, methods, and resource materials for teaching dance in elementary and secondary schools, private studios, and the community at large.

Prerequisite: D 344.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Must register for lecture and laboratory. Required field trips.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 474 Elementary Music Methods I Credits: 2 (1-3-0)

Course Description: Developmentally appropriate strategies and materials for K-6 music instruction; emphasis on common methodologies, resources, standards-based teaching.

Prerequisite: MU 151A.

Registration Information: Admission to Teacher Licensure Program. Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 475 Elementary Music Methods II Credits: 2 (1-3-0)

Course Description: Classroom management, motivational strategies, technology tools, assessment/evaluation of music learning and field experiences in K-6 music education.

Prerequisite: EDUC 474.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 476 Choral Methods for Secondary Schools Credits: 2 (1-3-0)

Course Description: General music classes, choral techniques and literature; current practices and trends.

Prerequisite: MU 217.

Registration Information: Admission to Teacher Licensure Program. Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 477 Instrumental Methods for Secondary Schools Credits: 2 (1-3-0)

Course Description: Organization and administration of instrumental music, grades 5-12.

Prerequisite: MU 217.

Registration Information: Admission to Teacher Licensure Program. Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 485A Student Teaching: Elementary Credits: Var[6-14] (0-0-0)

Course Description: Teacher education candidates participate in an intensive and extensive on-site capstone experience within a public school setting.

Prerequisite: (EDUC 450) and (EDUC 462 or EDUC 466 or EDUC 474 or EDUC 475).

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 485B Student Teaching: Secondary Credits: Var[6-14] (0-0-0)

Course Description: Teacher education candidates participate in an intensive and extensive on-site capstone experience within a public school setting.

Prerequisite: (EDUC 450) and (EDUC 461B or EDUC 463 or EDUC 464 or EDUC 465 or EDUC 466 or EDUC 476 or EDUC 477).

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: Yes.

EDUC 485C Student Teaching: Early Childhood Credits: Var[6-14] (0-0-0)

Course Description: Teacher education candidates participate in an intensive and extensive on-site capstone experience within a public school setting.

Prerequisite: EDUC 426.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: Yes.

EDUC 486A Practicum: K-12 Classroom Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 486B Practicum: Reading Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 486C Practicum: Mathematics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 486D Practicum: Literacy Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 486E Practicum: Instruction II Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDUC 493A Seminar: Professional Relations Credits: Var[1-3] (0-0-0)

Course Description: Collegial and professional discussions, support, and assistance.

Prerequisite: (EDUC 426 or EDUC 450) and (EDUC 485A, may be taken concurrently or EDUC 485B, may be taken concurrently or EDUC 485C, may be taken concurrently or EDCT 485) and (EDUC 460 or EDUC 474 or EDUC 463 or EDUC 464 or EDUC 465 or EDUC 466 or EDUC 475 or EDUC 476 or EDUC 477 or EDCT 425 or EDCT 431 or EDCT 441 or EDCT 451 or EDCT 465 or EDUC 462).

Registration Information: Appropriate special methods course(s).

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDUC 493B Seminar: Assessment of Learning Credits: Var[1-3] (0-0-0)

Course Description: Information and techniques that enable educators to use assessment results to inform planning and instructional practices.

Prerequisite: (EDUC 426 or EDUC 450) and (EDUC 485B, may be taken concurrently or EDUC 485C, may be taken concurrently or EDCT 485, may be taken concurrently or EDUC 485A, may be taken concurrently) and (EDUC 460 or EDUC 462 or EDUC 463 or EDUC 464 or EDUC 465 or EDUC 466 or EDUC 474 or EDUC 475 or EDUC 476 or EDUC 477 or EDCT 425 or EDCT 431 or EDCT 441 or EDCT 451 or EDCT 465).

Registration Information: Appropriate special methods course(s).

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDUC 494 Independent Field Studies Credits: Var[1-18] (0-0-0)

Course Description: Specialized field study in the public schools under direction and supervision of faculty.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 495 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 496 Group Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 502 Human Relations in Education Credits: 3 (3-0-0)

Course Description: Human relations in an individual's educational, organizational, and social activities as applied to various educational settings.

Prerequisite: EDCT 300.

Registration Information: Bachelor's degree can substitute for EDCT 300. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 525C Expert Teaching: Literacy and Numeracy Credits: 3 (0-0-3)

Course Description: Theories related to effective classroom instruction.

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program; Bachelor's degree.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 526 Interdisciplinary Methods Credits: 4 (0-4-2)

Course Description: Theories related to effective classroom instruction.

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program; Bachelor's degree.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 530 Technology Enhanced Learning Credits: 3 (2-2-0)

Course Description: Enhancing instruction and learning through the effective use of technology.

Prerequisite: None.

Registration Information: Bachelor's degree. Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 570 Perspectives of Special Education Credits: 3 (2-2-0)

Course Description: Historical and legal, philosophical foundations, student characteristics, and building collaborative relationships in special education.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 573 Differentiating Instruction for Diverse Needs Credits: 3 (3-0-0)

Course Description: Information techniques, and practice regarding methods for differentiating instruction.

Prerequisite: EDUC 570.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 591A Workshop: Instruction Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 591B Workshop: Community Partnerships Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 591C Workshop: Annenberg/CPB Science Instruction Credits: Var[1-3] (0-0-0)

Course Description: Science pedagogy for practicing K-12 teachers.

Prerequisite: None.

Registration Information: Offered as a telecourse only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDUC 591D Workshop: Annenberg/CPB Mathematics Instruction Credits: Var[1-3] (0-0-0)

Course Description: Mathematics pedagogy for practicing K-12 teachers.

Prerequisite: None.

Registration Information: Offered as a telecourse or an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDUC 591E Workshop: Annenberg/CPB Educ Theory and Issues Credits: Var[1-3] (0-0-0)

Course Description: General educational theory and current issues for practicing K-12 teachers.

Prerequisite: None.

Registration Information: Offered as telecourse only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDUC 591F Workshop: Annenberg/CPB Humanities Instruction Credits: Var[1-3] (0-0-0)

Course Description: English, social studies, or art pedagogy for practicing K-12 teachers.

Prerequisite: None.

Registration Information: Offered as telecourse only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDUC 610 Principles of Supervision and Evaluation Credits: 3 (2-0-1)

Course Description: Supervision and evaluation of instruction including required Colorado evaluation training.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 618 School Law Credits: 3 (3-0-0)

Course Description: Legal framework for operation and management of public and private schools emphasizing legal responsibilities for administrators and teachers.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 651 Multicultural and Special Populations Credits: 3 (2-0-1)

Course Description: Special concerns for working with people of various cultural, ethnic, exceptional, and special interest groups.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Bachelor's degree. Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 660 Advanced Methods-Science and Math Instruction Credits: 3 (0-0-3)

Course Description: Knowledge and skills to improve the teaching of science, technology, engineering, and mathematics for in service K-12 teachers.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as an online course only.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 670 Grant Writing Credits: 3 (1-0-3)

Course Description: Mechanics of proposal writing, including intangibles of the grant-seeker's art.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 675 Analyzing Education Literature Credits: 3 (1-0-2)

Course Description: Analyze, critique, and interpret scholarly literature in the discipline.

Prerequisite: EDRM 700 or EDRM 702 or EDRM 704.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 686A Practicum: Administration Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 686B Practicum: Urban Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 687A Internship: Administration Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 687B Internship: Principal Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Prerequisite: None.

Registration Information: Enrollment in the SAHE program.

Term Offered: Spring (odd years).

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDHE 640A Study Abroad – Global Perspectives: Higher Education and Student Services Credits: 3 (0-0-3)

Course Description: International field experience prepares student affairs professionals to work with culturally diverse student, staff, and faculty populations; students who study abroad and the transitional challenges of returning from international experiences; growing populations of international undergraduate and graduate students, and the increasing demands from the federal government and education institutions for internationalization of higher education.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 650 College Opportunity Program Models Credits: 3 (2-0-1)

Course Description: Examines rationale and structure of postsecondary retention programs that support underrepresented students based on college type and program purpose.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Bachelor's degree or consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 651 Pre-College Program Models Credits: 3 (2-0-1)

Course Description: Rationale and structure of pre-college programs that support underrepresented students' successful enrollment into higher education.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Bachelor's degree required. Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 653 Precollege Access Programs Credits: 3 (3-0-0)

Course Description: Precollege access programs effective practices to support underrepresented middle-high school students to prepare for and enroll in postsecondary.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Bachelor's degree or written consent of instructor Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 655 Foundations of College Opportunity Programs Credits: 3 (2-0-1)

Course Description: Exploration of college opportunity programs for expanding access to American higher education. Understanding the implications of financial aid, opportunity support programs, achievement gaps, policies, and advocacy.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as an online course only. Credit not allowed for EDHE 655 and EDHE 680A1.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 656 Postsecondary Opportunity Programs Practice Credits: 3 (2-0-1)

Course Description: Examines effective college opportunity program practices in context of institutional and student demographics, which support students' transition, persistence, achievement, engagement, and completion. Reviews retention literature and practices focused on low income, first generation, and other underrepresented students.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as an online course only.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 658 Higher Education Enrollment Management Credits: 3 (3-0-0)

Course Description: Holistic understanding of enrollment management beginning with understanding factors shaping students' college choice options and decisions. Exploration of theory, policy and practice of marketing, admissions, financial aid, tuition setting, and retention as critical areas of enrollment management.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 660 Financial Management in Student Affairs Credits: 2 (1-0-1)

Course Description: Budgeting, fiscal planning, and financial administration in student affairs.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in SAHE program; written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 661 Inclusive University Credits: 3 (3-0-0)

Course Description: Exploration of broad range of human differences and their impact in higher education.

Prerequisite: EDHE 673.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in SAHE program. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 662 Trends/Issues/Assessment in Higher Education Credits: 2 (2-0-0)

Course Description: Assessment and research involving students in collegiate settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in the SAHE program. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 670 Foundations and Trends in Student Affairs Credits: 3 (3-0-0)

Course Description: Historical and philosophical foundations, and current trends including analysis of the role of student affairs in higher education.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in SAHE program or one of the graduate certificates--Campus Crisis Management; Student Affairs Management in Auxiliary Enterprises; Student Affairs Administration. Sections may be offered: Online.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 672 Ethical and Practical Issues-Student Affairs Credits: 2 (2-0-0)

Course Description: Ethical principles and standards used in student affairs.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in the SAHE program. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 673 Student Development Theory Credits: 3 (0-0-3)

Course Description: Strategies for application of student development theories in practice.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in SAHE program. Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

Special Course Fee: No.

EDHE 678 Capstone in Higher Education Administration Credits: 3 (3-0-0)

Course Description: Study of the purpose, structure, and role of leadership within the administration of higher education and analysis of current issues as students transition to professional roles.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Student Affairs in Higher Education program. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 692A Seminar: Current Trends and Issues Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in SAHE program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDHE 692B Seminar: Working with Student Groups Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in SAHE program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDHE 692C Seminar: Service Learning Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in SAHE program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDHE 692D Seminar: International Programs Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in SAHE program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDHE 694 Independent Field Studies Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDHE 695 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDHE 771 Higher Education Leadership Credits: 3 (3-0-0)

Course Description: History, purpose, structure, culture, and role of leadership within higher education, with critical issues relevant to present day higher education.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 670 Strategic Human Resource Development Credits: 3 (3-0-0)

Course Description: Examine fundamentals of strategy from a HRD perspective, utilizing management tools, recent research and contemporary theory.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Organizational Learning, Performance and Change specialization.

Term Offered: Summer (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 671 Establish Relations, Diagnose Organizations Credits: 3 (3-0-0)

Course Description: Build relationships with clients and examine current practices to diagnose organizational learning and performance issues.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Organizational Learning, Performance, and Change specialization or written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 672 Change Facilitation Credits: 3 (3-0-0)

Course Description: Roles and responsibilities of change agents and the fundamentals of change: principles, practices, processes, and resistance strategies.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Organizational Learning, Performance and Change specialization.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 673 Plan and Implement Change Interventions Credits: 3 (3-0-0)

Course Description: Plan strategies and facilitate change interventions to improve organizational learning and performance.

Prerequisite: EDOD 677, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Organizational Learning, Performance and Change specialization or written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 674 Analyze Workplace Learning Credits: 3 (3-0-0)

Course Description: Analyze workplace learning and performance issues drawing on foundational principles.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Organizational Learning, Performance and Change specialization or written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 675 Design, Develop, Implement Workplace Learning Credits: 3 (3-0-0)

Course Description: Design, develop, and implement workplace learning and performance interventions drawing on foundational principles.

Prerequisite: EDOD 674.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Organizational Learning, Performance and Change specialization or written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 676 Evaluate Workplace Learning Credits: 3 (3-0-0)

Course Description: Evaluate workplace learning and performance interventions drawing on foundational principles. Examine satisfaction, learning, and performance results.

Prerequisite: EDOD 675, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Organizational Learning, Performance and Change specialization or written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 677 Action Learning and Inquiry Credits: 3 (3-0-0)

Course Description: Literature reviews and data collection methods as the basis for diagnosing organizational learning and performance issues.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Organizational Learning, Performance and Change specialization or written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 678 Assess Change Interventions Credits: 3 (3-0-0)

Course Description: Assess and institutionalize change interventions to improve organizational learning and performance.

Prerequisite: EDOD 500 to 799 - at least 15 credits.

Restriction: Must be a: Graduate, Professional.

Registration Information: 15 credits of EDOD 500-level or above courses or written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 687 Internship Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDOD 692A Seminar: HRD Concepts--Workplace Learning Credits: 3 (0-0-3)

Course Description:

Prerequisite: EDOD 500 to 799 - at least 6 credits.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Organizational Learning, Performance and Change specialization. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDOD 692B Seminar: HRD Concepts--Organizational Learning Credits: 3 (0-0-3)

Course Description:

Prerequisite: EDOD 500 to 799 - at least 6 credits.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Organizational Learning, Performance and Change specialization. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDOD 706 Organizational Learning, Performance, Change Credits: 3 (2-0-1)

Course Description: History, development, and current status of organizational learning, performance and change theory, research and practice (praxis).

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Organizational Learning, Performance and Change specialization under the Education and Human Resource Studies Ph.D. Must register for lecture and recitation. Offered as Mixed Face-to-Face.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 761 Evaluation and Assessment of Interventions Credits: 3 (2-0-1)

Course Description: Evaluation and assessment of organizational learning, performance, and change (OLPC) interventions.

Prerequisite: EDOD 706 and EDOD 768.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Offered as Mixed Face-to-Face.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 765 Strategic Planning of Education for Work Credits: 3 (3-0-0)

Course Description: Human capital as component of strategic planning of education; training and development at national, regional, and organizational levels.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Organizational Learning, Performance and Change specialization.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 766 Scenario Planning in Organizations Credits: 3 (2-0-1)

Course Description: Theory and practice of scenario planning. Application of scenario planning in organizations.

Prerequisite: EDOD 761 and EDOD 769.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Offered as Mixed Face-to-Face.

Term Offered: Summer (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 768 Workforce Development Credits: 3 (3-0-0)

Course Description: Characteristics and elements of workforce development with special attention to the roles and responsibilities of employers and managers.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Organizational Learning, Performance and Change specialization under the Ph.D. in Education and Human Resource Studies. Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 769 Theory and Practice of Change Credits: 3 (3-0-0)

Course Description: Theory, history, characteristics, nature, levels, and types of change and modern conceptual and integrated models of change.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 770 Organizational Culture Credits: 3 (3-0-0)

Course Description: Theories, methods, and practices for evaluating, analyzing, and changing organizational culture.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Organizational Learning, Performance and Change specialization.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 771 Social Foundations of the Workplace Credits: 3 (2-0-1)

Course Description: Social, cultural and political systems in organizations and their implications for employees.

Prerequisite: EDOD 761 and EDOD 769.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Offered as Mixed Face-to-Face.

Term Offered: Summer (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 772 Theory Building in Applied Disciplines Credits: 3 (2-0-1)

Course Description: Theory building in workplace environments. Develop a theory and examine and critique existing theories.

Prerequisite: EDOD 766 and EDOD 771.

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as Mixed Face-to-Face.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 773 Systems Leadership Credits: 3 (2-0-1)

Course Description: A systems conceptualization and approach to leadership and leadership development.

Prerequisite: EDOD 771 and EDOD 772, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Offered as Mixed Face-to-Face.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 786 Practicum Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Organizational Learning, Performance and Change specialization.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDOD 792 Seminar-Human Resource Development Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDOD 799 Dissertation Credits: Var[1-18] (0-0-0)

Course Description: Dissertation research, writing, and defense.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Organizational Learning, Performance and Change specialization.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

Education - Research Methods (EDRM)

EDRM 600 Introduction to Research Methods Credits: 3 (3-0-0)

Course Description: Methods of research, scientific methods, problem identification, research design, preparation and evaluation of research reports.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both AGED 600 and EDRM 600.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 602 Action Research Credits: 3 (3-0-0)

Course Description: Provide educators with knowledge and skills to plan and implement school-based research to improve teaching and learning.

Prerequisite: EDRM 600.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 606 Principles: Quantitative Data Analysis Credits: 3 (3-0-0)

Course Description: Quantitative data analysis in social science research; descriptive statistics; fundamentals of inference.

Prerequisite: (EDRM 600) and (STAT 201).

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Face-to-Face or Mixed Face-to-Face. Credit not allowed for VS 562, EDRM 606 and PBHL 560.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 612 Assessing Students in Educational Settings Credits: 3 (2-0-1)

Course Description: Various ways of assessing students including traditional, authentic, and portfolio techniques for P-20 education.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admissions into a Master's Program within the School of Education.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 663 Autoethnography and Reflective Practice I Credits: 2 (2-0-0)

Course Description: Introduces basic autoethnographic research skills that underpin the creation of the culminating SAHE program portfolio.

Foundational research methods, the portfolio process, cultivating reflective practice, and critical analysis skills are necessary to both conduct autoethnography and develop as a practitioner-scholar.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Student Affairs in Higher Education program. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 664 Autoethnography and Reflective Practice II Credits: Var[1-2] (0-0-0)

Course Description: Apply advanced theoretical concepts and refine autoethnographic data collection, analysis, and writing skills. Focus on use of literature, refining a personal plan to complete the portfolio, and continuing to use data and reflection as tools of effective practice.

Prerequisite: EDRM 663.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Student Affairs in Higher Education program or permission of the instructor. May be taken twice for credit. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 665 Qualitative Methods in Student Affairs Credits: 2 (2-0-0)

Course Description: Introduction to the epistemologies and methodologies related to qualitative frameworks used in student affairs research. How to design a basic qualitative study, including research questions, data collection and analysis, as well as findings and discussion appropriate for topics related to student affairs.

Prerequisite: EDRM 600.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Student Affairs in Higher Education program. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 666 Program Evaluation Credits: 3 (3-0-0)

Course Description: Models and practices of program evaluation in both public and private sector organizations.

Prerequisite: EDRM 600.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 667 Student Affairs Assessment and Evaluation Credits: 3 (3-0-0)

Course Description: Models and practices of assessment and evaluation in collegiate settings.

Prerequisite: EDRM 600.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Student Affairs in Higher Education program or instructor permission required. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 692 Seminar-Research Methods/Proposal Design Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**EDRM 698 Research Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**EDRM 699 Thesis Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**EDRM 700 Quantitative Research Methods Credits: 3 (3-0-0)****Course Description:** Design, data analysis, interpretation of results, and evaluation of educational research studies.**Prerequisite:** EDRM 606, may be taken concurrently.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Face-to-Face or Mixed Face-to-Face.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**EDRM 701 Applied Linear Models-Educational Research Credits: 3 (3-0-0)****Course Description:** General linear model applications in educational research emphasizing conceptual understanding and characteristics of non-experimental designs.**Prerequisite:** EDRM 606.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**EDRM 702 Foundations of Educational Research Credits: 3 (3-0-0)****Course Description:** Philosophical, theoretical, and ethical foundations of educational research.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Face-to-Face or Mixed Face-to-Face.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**EDRM 703 Applied Longitudinal Data Analysis Credits: 3 (3-0-0)****Course Description:** Methods and empirical applications of individual growth modeling and discrete-time event history analysis in educational research.**Prerequisite:** EDRM 701.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.

EDRM 704 Qualitative Research Credits: 3 (3-0-0)

Course Description: Examination of qualitative research theory, methods, and applications to education and the social sciences.

Prerequisite: EDRM 600.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDRM 705 Qualitative Data Analysis Credits: 3 (3-0-0)

Course Description: Examination of qualitative methods of data analysis, data presentation, and use of computer.

Prerequisite: EDRM 704.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDRM 706 Analysis of Variance--Education Research Credits: 3 (3-0-0)

Course Description: Analysis of variance applications in educational research; experimental design and analysis of data from experiments.

Prerequisite: EDRM 700, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 707 Quantitative Data Collection Methods/Analysis Credits: 3 (0-0-3)

Course Description: Selection or development of questionnaires, tests, structured interviews, and observations. Reliability and validity. Reporting educational studies.

Prerequisite: EDRM 700.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 708 Narrative Inquiry Credits: 3 (3-0-0)

Course Description: Theory, methods and design of narrative approaches to research including data collection and analysis applications.

Prerequisite: EDRM 704.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 711 Ethnographic Research Credits: 3 (3-0-0)

Course Description: Theoretical underpinnings, research design, ethics and practical application of ethnographic research in a naturalistic setting.

Prerequisite: EDRM 704.

Restriction: Must be a: Graduate, Professional.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 786 Practicum Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDRM 792A Seminar: Research Methodology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDRM 792B Seminar: Proposal Development Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Term Offered: Fall.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDRM 798 Research Credits: 18 (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDRM 799 Dissertation Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Family + Consumer Sci - (FACS)

FACS 179 Introduction to Family and Consumer Sciences Credits: 2 (2-0-0)

Course Description: Career options in family and consumer sciences; professional leadership responsibilities.

Prerequisite: None.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FACS 320 Finance-Personal and Family Credits: 3 (3-0-0)

Course Description: Management of income, expenditures, credit, savings, investment, insurance, taxes, and assets considering legislation and economic conditions.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FACS 360 Family and Consumer Sciences Research Credits: 3 (1-0-2)

Course Description: Exploration of family and consumer sciences scholarship and research, current trends--nationally and internationally; journals and reports; planning, implementing, and disseminating scholarship and research projects.

Prerequisite: None.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Must register for lecture and recitation. AUCC 2 or concurrent registration. Credit not allowed for both FACS 360 and FACS 380A1.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FACS 479 Colloquium--Family and Consumer Sciences Credits: 2 (0-0-2)

Course Description: Current topics and issues related to professional roles, responsibilities, and opportunities in Family and Consumer Sciences locally, nationally, and globally.

Prerequisite: FACS 179, may be taken concurrently.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Sections may be offered: Mixed Face-to-Face.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FACS 484 Supervised College Teaching Credits: 2 (0-0-2)

Course Description:

Prerequisite: None.

Registration Information: Sophomore standing. Written consent of instructor. A maximum of 10 combined credits for all 384 and 484 courses are counted toward graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FACS 487A Internship: Extension Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FACS 487B Internship: Community Service Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FACS 487C Internship: Business Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FACS 494 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FACS 590 Workshop Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FACS 698 Research Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Major in Family and Consumer Sciences

Family and Consumer Sciences (FCS) is an exciting field with many career opportunities. The mission of this interdepartmental major is to prepare professionals dedicated to enhancing the well-being of individuals, families, and the communities and environments in which they live and/or work.

Students graduate with an interdisciplinary perspective about the challenges encountered by families and consumers. Through coursework, students gain skills to assist families and consumers with quality-of-life decisions and challenges related to interpersonal/human relationships, consumer and financial resource management, personal development, nutrition and wellness, and balancing family and work.

This program emphasizes the management and problem-solving skills needed to be a responsible and productive individual, family member, and worker. Students take coursework in a variety of programs/departments including, but not limited to:

- School of Education, Family and Consumer Sciences
- Human Development and Family Studies
- Food Science and Human Nutrition
- Design and Merchandising
- Health and Exercise Sciences

Students have the option of the FCS concentration or the FCS Education concentration. Upon graduating, students will be eligible to take the exam to be certified in FCS with the American Association of Family and Consumer Sciences.

Learning Goals

Students will:

- demonstrate an understanding and comprehension of the FCS body of knowledge
- demonstrate, at a professional level, oral and written communication and problem-solving proficiency within FCS
- demonstrate synthesis and integration of the specialized FCS body of knowledge through engaged learning experiences
- choose, examine, and assess the impact of civic engagement relevant to FCS

Potential Occupations

Our graduates' career opportunities include, but are not limited to:

- Secondary classroom teacher
- Cooperative extension/agent
- Consumer information specialist
- Program development
- Consultant
- Product representative
- Customer service specialist
- Writer/developer of informational or educational materials
- Governmental, community, and non-profit agency worker
- Child/youth family advocacy
- Family financial officer
- Wellness director
- Peace Corps volunteer

Teaching opportunities at the middle school, junior high, high school, or post-secondary level are available upon completion of the education concentration.

The FCS major provides a strong foundation for graduate work. Graduate degree opportunities are available in the School of Education or other departments related to family and consumer sciences (e.g., Design and Merchandising, Food Science and Human Nutrition, Human Development and Family Studies, Social Work, Occupational Therapy).

Concentrations

- Family and Consumer Sciences Education Concentration
- Interdisciplinary Concentration

Major in Family and Consumer Sciences, Family and Consumer Sciences Education Concentration

Family and Consumer Sciences (FCS) directly addresses the needs of youth, families, and consumers. Helping to shape the future, FCS teachers impact the lives of individuals, the health of families, and the welfare of society.

This concentration is a licensure program that prepares students to teach family and consumer sciences subject matter in middle and high school

classrooms. The program includes general education courses, subject matter courses, and teacher preparation courses.

Students apply for the licensure program in their junior year and participate in practicum experiences working closely with classroom teachers and students in area schools. Throughout the phases of the licensure program, teacher candidates are placed in a middle school and in a high school, where they apply professional knowledge and refine their instructional skills. While student teaching, they work closely with a FCS mentor teacher(s) and a university coach.

Teacher candidates completing the program meet the requirements for the Bachelor of Science degree in FCS, a Colorado Initial Teaching License in FCS, and a FCS Career and Technical Education endorsement (with appropriate work experience hours).

This concentration is accredited and approved by the Colorado Department of Higher Education and the Colorado Department of

Education. Nationally, it is approved by the Association for Advancing Quality in Educator Preparation (AAQEP).

Students interested in pursuing a teaching license through CSU may also contact the School of Education (<https://www.chhs.colostate.edu/soe/>) and the Center for Educator Preparation (CEP). (<https://www.chhs.colostate.edu/soe/center-for-educator-preparation/>)

Students who successfully complete this program will be prepared to pursue licensure in Colorado. Licensure requirements in other states and U.S. territories may differ. Students are encouraged to work with the department and the professional licensure board in the state in which they intend to pursue licensing to ensure all requirements are satisfactorily met.

Major in Family and Consumer Sciences, Interdisciplinary Concentration

The Interdisciplinary concentration provides students with a focus on family and consumer well-being, growth and development of family members, and the relationship of households to their environment. This concentration is interdisciplinary, bringing together coursework in human development, family studies, nutrition and foods, consumer sciences, personal finance, apparel and textiles, design and merchandising, and health and wellness.

It is highly recommended that students participate in internships, volunteer activities, or cooperative extension opportunities to enhance their experiences and development. Graduates who seek advanced degrees often attain higher-level professional positions.

The concentration includes All-University Core Curriculum (<https://catalog.colostate.edu/general-catalog/all-university-core-curriculum/aucc/>) courses, subject matter courses, and elective courses to enhance personal and professional development.

Graduate Certificate in Adult Basic Education

The Graduate Certificate in Adult Basic Education provides training and personal development opportunities for teachers or aspiring teachers in Adult Basic Education (ABE) programs (i.e., literacy, numeracy, high school equivalency) and/or English language learning programs for adult learners. With a focus on foundational skills, methods, and theories for teaching adult learners, the certificate prepares and develops educators who can create effective curricula and learning environments for their adult learners.

Requirements Effective Fall 2017

Additional coursework may be required due to prerequisites.

Code	Title	Credits

EDAE 520	Adult Education	3
EDAE 530	Adult Basic Education	3
EDAE 540	Teach English as Second Lang—Adult Learners	3
EDAE 620	Processes and Methods	3
Program Total Credits:		12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Campus Crisis Management

Emergencies happen. Being prepared to deal with crises can help minimize the impact on your students and institution. This graduate certificate equips you with the skills needed to deal with crises, the stakeholders involved, and the media. Students develop an understanding of:

- Crisis management for schools and universities, including planning, prevention, response, and recovery
- Human relations skills across educational settings
- Law in student affairs

This is a five course, 15-credit offering that introduces you to many facets of campus crisis management. This certificate requires a completed bachelor's degree with a 3.000 grade point average.

Effective Spring 2020

Additional coursework may be required due to prerequisites.

Graduate Certificate in High Impact On-Demand Learning Solutions

The Graduate Certificate in High Impact On-Demand Learning Solutions introduces evidence-based theory that leverages the science of learning to design and develop on-demand digital solutions that support learning and maximize organizational impact. Students gain broad experience in building a wide array of evidence-supported techniques for developing highly targeted on-demand learning resources. Emphasis is placed on boosting durable learning for individuals and within organizations.

Effective Fall 2017

Additional coursework may be required due to prerequisites.

Graduate Certificate in Postsecondary Access and Success Programs

The Graduate Certificate in Postsecondary Access and Success Programs is a five-course, 15-credit offering designed for those working or wanting to work in pre-college preparation programs and/or postsecondary academic and student support services. Often, these programs serve students traditionally underrepresented in higher education as socio-economically disadvantaged students.

Students learn:

- Organizational behavior
- Student development theory
- Foundations of postsecondary access and success programs
- Pre-college and postsecondary program models
- Postsecondary program practices

Learn more about the Graduate Certificate in Postsecondary Access and Success Programs on the CSU Online website (<https://www.online.colostate.edu/certificates/postsecondary-access/>).

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Student Affairs Administration

Develop the skills and knowledge needed to design programs to help postsecondary students' learning and development potential via on-campus experiences. This certificate is designed to help students become competent practitioners with an understanding of:

- How and why students develop during postsecondary years
- Historical and philosophical foundations of student affairs
- Relationships between college students and their social/physical environments
- Higher education's finance environment

Offered online, this four-course, 11-credit program requires a completed bachelor's degree and a 3.000 grade point average.

Effective Spring 2020

Additional coursework may be required due to prerequisites.

Graduate Certificate in Student Affairs Management of Auxiliary Enterprises

Learn to design business solutions that add to campus programs and services through this customizable six-course, 14-credit program. This online graduate certificate blends student affairs concepts and business management practices, ensuring students have the skills needed in the business management of student affairs or auxiliary services. Students learn about:

- Higher education's finance environment
- The historical and philosophical foundations of student affairs
- Organizational leadership and motivation
- Marketing management

The Graduate Certificate in Student Affairs Management of Auxiliary Enterprises requires a completed bachelor's degree and a 3.000 grade point average.

Master of Arts in Counseling and Career Development

The Counseling and Career Development (CCD) Master of Arts integrates academics, research, and engagement to prepare ethical and culturally-responsive counselors who enhance and advocate for all people's mental health, well-being, and life quality. The CCD program offers three specializations accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP): career counseling, clinical mental health counseling, and school counseling.

In this degree program, students experience relevant intrapersonal, interpersonal, and technology-rich learning experiences. All graduates of the CCD program complete:

- 48-credit-hour core curriculum
- 12-credit-hour specialization curriculum
- 100-hour clinical practicum
- 600-hour internship in a setting appropriate for their specialization

All three specializations in the CCD program meet the educational requirements to pursue professional counseling licensure in the State of Colorado. In addition, the School Counseling specialization meets the educational requirements to pursue school counseling licensure/endorsement in Colorado. However, licensure requirements in other states and US territories may differ.

Specializations

- Master of Arts in Counseling and Career Development, Plan B, Career Counseling Specialization-
- Master of Arts in Counseling and Career Development, Plan B, Clinical Mental Health Counseling Specialization
- Master of Arts in Counseling and Career Development, Plan B, School Counseling Specialization

Master of Arts in Counseling and Career Development, Plan B, Career Counseling Specialization

Career counselors partner with individuals seeking to live a life of meaning and purpose through their professional work and personal lives. They provide services in various settings such as higher education, workforce centers, community agencies, and private practice.

Students who specialize as career counselors demonstrate knowledge and skills to help people develop life-career plans, focusing on the interaction of work and life roles. They conduct career interventions such as career counseling, education, planning, management, and guidance. In addition, career counselors engage in counseling dialogues that address individuals' unique cultures, contexts, needs, desires, values, concerns, and barriers.

Students who successfully complete this program will be prepared to pursue professional counseling licensure (LPC) in Colorado. Licensure requirements in other states and U.S. territories may differ. Students are encouraged to work with the department and the professional licensure board in the state where they intend to pursue licensing to ensure all requirements are satisfactorily met.

Master of Arts in Counseling and Career Development, Plan B, Clinical Mental Health Counseling Specialization

In line with the American Counseling Association and the American Mental Health Counselors Association, graduates of the Clinical Mental Health Counseling specialization are prepared to work from a holistic approach, providing counseling services in different health settings such

as inpatient and outpatient hospitals, residential facilities, hospice care centers, or private practice.

Clinical mental health counselors enter a distinct profession with national standards for education, training, and clinical practice. They are highly skilled professionals who provide flexible client-oriented therapy. By combining traditional psychotherapy with a practical problem-solving approach, they facilitate the creation of a dynamic and efficient path for change and problem resolution (ACA/AMHCA).

Students who successfully complete this program are prepared to pursue professional counseling licensure (LPC) in Colorado. Licensure requirements in other states and U.S. territories may differ. Students are encouraged to work with the program and the professional licensure board in the state where they intend to pursue licensing to ensure all requirements are satisfactorily met.

Master of Arts in Counseling and Career Development, Plan B, School Counseling Specialization

Graduates of the School Counseling specialization are prepared to serve as professional school counselors in K-12 educational settings.

Professional school counselors work to meet the academic, social-emotional, and career needs of all students through individual, group, and classroom delivery modalities. Through advocacy, collaboration, and leadership, school counseling graduates serve as systemic change agents. They strive to ensure equitable educational access by engaging in data-informed practice, reducing multi-level barriers, and promoting culturally sensitive decision-making.

Students who successfully complete this program are prepared to pursue school counseling and professional counseling licensure in Colorado. Licensure requirements in other states and U.S. territories may differ. Students are encouraged to work with the program and the professional licensure board in the state where they intend to pursue licensing to ensure all requirements are satisfactorily met.

Master of Education in Education and Human Resource Studies, Plan A, Adult Education and Training Specialization

The Adult Education and Training Specialization is designed to prepare practitioners in the planning, design, development, and instructional

responsibilities needed to teach adult learners in postsecondary, community, and corporate settings.

With coursework that is grounded in current adult learning theory and consistently connected to practice, this master's degree prepares graduates to successfully facilitate, design, and implement a wide range of training and educational programs.

Students may pursue either a research-focused Plan A course sequence or a practitioner-focused Plan B course sequence.

- Plan A requires a professional research paper.
- Plan B culminates in a capstone project in which students demonstrate the integration of their academic knowledge and professional abilities.

Master of Education in Education and Human Resource Studies, Education Sciences Specialization

This master’s specialization prepares students to pursue a Ph.D. This 30-credit specialization focuses on learning theory and building research skills, which will prepare students to continue into a Ph.D. program.

No licensure preparation (teacher and/or administrative) is included in this specialization. Licensure preparation is available in the other MED specializations.

Master of Education in Education and Human Resource Studies, Educational Leadership with K-12 Principal Licensure Specialization

The M.Ed. in Education and Human Resource Studies, Educational Leadership with K-12 Principal Licensure Specialization is a 15-month cohort program that focuses on the development and licensing of P-12 school administrators who are interested in gaining skills to lead either at the building or district level. Applicants must have a bachelor’s degree from an accredited institution, a minimum of 3-years of licensed teaching or special service provider experience and demonstrate leadership potential. The goal of this program is to develop highly qualified leaders whose practice is grounded in research and theory. The program is designed using a relationship-based model that incorporates hybrid instructional formats tailored toward full-time, working educators. The program addresses growing needs for highly qualified educational leaders in P-12 school systems.

Learning Outcomes

To prepare administrators who:

- Demonstrate organizational leadership by strategically developing a vision and mission, leading change, enhancing the capacity of personnel, distributing resources, and aligning systems of communication for continuous school improvement.
- Demonstrate inclusive leadership practices that foster a positive school culture and promote safety and equity for all students, staff, and community.
- Demonstrate instructional leadership by aligning curriculum, instruction and assessment, supporting professional learning, conducting observations, providing actionable feedback, and holding staff accountable for student outcomes.
- Demonstrate professionalism through ethical conduct, reflection, and external leadership.

Master of Education in Education and Human Resource Studies, Organizational Learning, Performance and Change Specialization

The Organizational Learning, Performance and Change Specialization helps develop the hands-on skills, knowledge, and process understanding needed to improve the current (or desired) workplace. Designed for working professionals, this program equips students to impact organization's people and processes.

With coursework focused on strategies to help manage organizational and workplace issues, the applied nature of the program prepares students to meet the demands of today's workplace. Students learn to blend and integrate organization development, change management, performance theory, research, and practice.

Master of Education in Education and Human Resource Studies, Teacher Licensure Specialization

The M.Ed. in Education and Human Resource Studies, Teacher Licensure Specialization is a 12-month cohort program that focuses on the development and licensing of teachers who have earned their undergraduate degrees (or who have met content course requirements) in specific content areas. Applicants must have a bachelor's degree from an accredited institution and have completed all content area courses required for licensure. The goal of this specialization is to develop mature, highly qualified teachers whose practice is grounded in research and theory gained through discovery, practice, demonstration, observation, and reflection. The program is designed following a Professional Development School model, with courses embedded in PK-12 schools. This specialization design leads to participants' strong pedagogical skills, as well as a deep understanding of effective theories of learning. The program addresses the growing needs of schools for highly qualified teachers.

Learning Outcomes

To prepare teachers who:

- Demonstrate mastery of and pedagogical expertise in the content they teach.
- Establish a safe, inclusive, and respectful learning environment for a diverse population of students.
- Plan and deliver effective instruction and create an environment that facilitates learning for their students.
- Demonstrate professionalism through ethical conduct, reflection, and leadership.

Master of Science in Student Affairs in Higher Education

The **M.S. in Student Affairs in Higher Education (SAHE)** program is designed for students seeking careers in student affairs and higher education administration in a college setting. The curriculum is taught by faculty who are both scholars and practitioners. Topics of study include:

- Theories, assessments, and evaluations related to student affairs practice
- Cross-cultural and diversity issues within the context of higher education
- How diverse student learning, developmental theory, and research are relevant to students' education and development
- Current issues and practices in the student affairs profession

A central component of the SAHE program is engaging in intentionally reflective practice as a foundational skill necessary for effective practice in student affairs. This is both a process and an outcome such that reflection-on-action happens in the program to develop practitioner-scholars who can effectively reflect-in-action. The degree is offered in two formats: in-person on CSU's main campus and through CSU Online (<https://www.online.colostate.edu/degrees/student-affairs/>). Students may take additional credits beyond the required amount to strengthen their learning experiences.

Ph.D. in Education and Human Resource Studies, Education, Equity, and Transformation Specialization

The Ph.D. in Education and Human Resource Studies, Education, Equity, and Transformation Specialization is designed to prepare the student for a career as an educational leader, researcher, faculty member, curriculum developer, or similar. For students seeking to impact local, national, and/or international educational systems through research, leadership, curriculum, policy, and practice, this program provides the knowledge and skills to make a lasting impact.

Ph.D. in Education and Human Resource Studies, Higher Education Leadership Specialization

The Ph.D. in Education and Human Resource Studies, Higher Education Leadership Specialization prepares students to work as higher education administrators and leaders to address critical issues impacting college and university environments.

By centering equity and justice in the program's coursework, the student gains analytical research skills, critical thinking skills, and the application of knowledge to lead and transform higher education.

Structured in cohorts, this doctoral program provides a supportive learning platform for learners. It is delivered primarily online, utilizing synchronous video conferencing, with a limited number of on-campus components (dates to be determined by the program faculty).

Ph.D. in Education and Human Resource Studies, Organizational Learning, Performance, and Change Specialization

The Organizational Learning, Performance, and Change doctoral specialization is designed to help managers, directors, executives, researchers, and academics develop the skills needed to improve organizational effectiveness, manage organizational change, enhance decision-making, and develop analysis and research expertise.

The program's coursework is grounded in organizational, strategic, learning, and change management theory. It focuses on a combination of sociological, systems, psychological, and economic approaches to performance improvement and change management strategies.

This doctoral degree is a cohort structure offered as face-to-face, bi-weekly Saturday meetings held in downtown Denver.

Courses

Subjects in this department include: Food Science and Human Nutrition (FSHN) and Food Technology (FTEC) and Hospitality Management (RRM).

Food Science and Human Nutrition (FSHN)

FSHN 125 Food and Nutrition in Health Credits: 2 (2-0-0)

Course Description: Nutritional quality and safety of food related to human health.

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

FSHN 150 Survey of Human Nutrition Credits: 3 (3-0-0)

Course Description: Basic nutrition principles and concepts; their application to personal health and interactions with societal and environmental issues.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 192 First Year Seminar Credit: 1 (0-0-1)

Course Description: Facilitate a successful transition to college for new incoming students by emphasizing personal growth and identifying campus resources.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 220 Intro to Nutrition for Sports and Fitness Credits: 3 (3-0-0)

Course Description: Introduction to nutrition regarding optimal dietary patterns and nutrient intake for general fitness and various forms of sports activities.

Prerequisite: FSHN 150 or FSHN 350.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 300 Food Principles and Applications Credits: 3 (3-0-0)

Course Description: Application of food preparation theories to modification and evaluation of food products.

Prerequisite: (CHEM 103 or CHEM 107 or CHEM 111) and (FSHN 150).

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 301 Food Principles and Applications Laboratory Credits: 2 (0-6-0)

Course Description: Techniques and manipulative skills for preparation and evaluation of standard and modified food products.

Prerequisite: FSHN 300, may be taken concurrently.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

FSHN 340 Food as Preventive Medicine Credits: 3 (3-0-0)

Course Description: Food consumption patterns, individual foods, and specific food constituents (nutrients and phytochemicals) associated with health benefits.

Prerequisite: BZ 110 and BZ 111 or FSHN 150 and LIFE 102.

Restriction: Must be a: Undergraduate.

Registration Information: Credit not allowed for both FSHN 340 and FSHN 380A1.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 350 Human Nutrition Credits: 3 (3-0-0)

Course Description: Focus on the various metabolic pathways through which nutrients pass, the regulation of those pathways, how dysregulation of the pathways can lead to chronic disease, and how these pathways can be targeted for therapeutic opportunities to maximize human health.

Prerequisite: BMS 300, may be taken concurrently or HES 300, may be taken concurrently.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 360 Nutrition Assessment Credits: 2 (2-0-0)

Course Description: Principles of anthropometric, dietary, and biochemical assessment of nutritional status.

Prerequisite: FSHN 350.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 386A Practicum: Food Service Management Credits: 2 (0-0-4)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

FSHN 386B Practicum: Gerontology Credits: 3 (0-0-9)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

FSHN 386C Practicum: School Nutrition Credits: 3 (0-0-9)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

FSHN 392 Dietetic Practice Seminar Credit: 1 (0-0-1)

Course Description: Pre-professional skills to prepare students for the pursuit of careers in the field of dietetics.

Prerequisite: (BZ 111 with a minimum grade of B and BZ 110 with a minimum grade of B or LIFE 102 with a minimum grade of B) and (CHEM 107 with a minimum grade of B and CHEM 108 with a minimum grade of B or CHEM 111 with a minimum grade of B and CHEM 112 with a minimum grade of B and CHEM 113 with a minimum grade of B) and (CHEM 245 with a minimum grade of B and CHEM 246 with a minimum grade of B) and (BMS 300 with a minimum grade of B and BMS 302 with a minimum grade of B and FSHN 150 with a minimum grade of B and FSHN 300 with a minimum grade of B and FSHN 301 with a minimum grade of B).

Registration Information: 3.000 overall GPA.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 428 Nutrition Teaching and Counseling Techniques Credits: 3 (3-0-0)

Course Description: Objectives, principles, and organization of subject matter for nutrition education and counseling.

Prerequisite: FSHN 350.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 444 Nutrition and Aging Credit: 1 (1-0-0)

Course Description: Effect of aging on nutrient needs and impact of nutrition on successful aging and health in the elderly.

Prerequisite: BZ 101 or BZ 110 or LIFE 102.

Registration Information: Offered as an online course only. Credit not allowed for both FSHN 444 and FSHN 459.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 445 Early Childhood Health, Safety, and Nutrition Credits: 3 (0-0-3)

Also Offered As: HDFS 445.

Course Description: Planning, promoting and maintaining healthy life style and safe learning environment for preschool children. Nutrition, first aid and safety, physical activity, identifying and reporting abuse, prevention and management of acute illness and chronic disease and promotion of a high-quality indoor and outdoor environment, targeted for the early childhood education professional.

Prerequisite: HDFS 310.

Registration Information: Completion of 60 credits. Offered as an online course only. Credit not allowed for both FSHN 445 and HDFS 445.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 450 Medical Nutrition Therapy Credits: 5 (4-2-0)

Course Description: Use of nutrition therapy in the treatment of acute conditions and chronic disease states.

Prerequisite: (BMS 300 or HES 300) and (FSHN 350).

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

FSHN 451 Community Nutrition Credits: 3 (3-0-0)

Course Description: Influences on nutritional status, assessment of nutrition problems and needs, planning and evaluation of nutrition intervention programs.

Prerequisite: FSHN 350, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 455 Food Systems--Impact on Health/Food Security Credits: 2 (1-0-1)

Course Description: Conventional and alternative food systems and their impact on nutrition, health, food security, and the environment.

Prerequisite: FSHN 350 or FTEC 447.

Restriction: Must be a: Undergraduate.

Registration Information: Must register for lecture and recitation. Sections may be offered as Mixed Face-to-Face.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 459 Nutrition in the Life Cycle Credits: 3 (3-0-0)

Course Description: Nutritional aspects associated with each phase of human life cycle including pregnancy, infancy, childhood, adolescence, and early and late adulthood.

Prerequisite: FSHN 350.

Registration Information: Credit not allowed for both FSHN 444 and FSHN 459.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 461 International Nutrition and Health Credits: 2 (2-0-0)

Course Description: Survey of the nature and scope of global nutrition issues and their impact on health.

Prerequisite: None.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 470 Integrative Nutrition and Metabolism Credits: 3 (3-0-0)

Course Description: Influence of nutrition on roles and action of hormones and gene expression on metabolism.

Prerequisite: BC 351 and FSHN 350.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 484 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

FSHN 486A Practicum: Counseling Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: FSHN 350.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: Yes.

FSHN 486B Practicum: Nutrition Credits: Var[1-3] (0-0-0)

Course Description: Supervised off-campus experience in nutrition.

Prerequisite: FSHN 350.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FSHN 486C Practicum: Food Service Management Credits: Var[1-3] (0-0-0)

Course Description: Supervised off-campus experience in food service management.

Prerequisite: RRM 310.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FSHN 492 Seminar in Dietetics and Nutrition Credits: 2 (0-0-2)**Course Description:** Capstone seminar in nutrition and dietetics.**Prerequisite:** None.**Restriction:** Must be a: Senior, Senior - 5yr Bachelor, Senior - Post Bachelor, Senior - Second Bachelor.**Registration Information:** Senior standing.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 495A Independent Study: Nutrition Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FSHN 495B Independent Study: Food Service Management Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FSHN 496A Group Study in Dietetics and Nutrition: Energy, Weight Management Credit: 1 (1-0-0)****Course Description:** Current topics in nutrition and professional skills for the dietetics profession.**Prerequisite:** FSHN 350.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 496B Group Study in Dietetics and Nutrition: Sustainable Food Issues Credit: 1 (1-0-0)****Course Description:** Current topics in nutrition and professional skills for the dietetics profession.**Prerequisite:** FSHN 350.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 496C Group Study in Dietetics and Nutrition: Nutrition and Chronic Disease Credit: 1 (1-0-0)****Course Description:** Current topics in nutrition and professional skills for the dietetics profession.**Prerequisite:** FSHN 350.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 496D Group Study in Dietetics and Nutrition: Nutrition for Athletes Credit: 1 (1-0-0)****Course Description:** Current topics in nutrition and professional skills for the dietetics profession.**Prerequisite:** FSHN 350.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 496E Group Study in Dietetics and Nutrition: Food Safety Credit: 1 (1-0-0)****Course Description:** Current topics in nutrition and professional skills for the dietetics profession.**Prerequisite:** FSHN 350.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 496F Group Study in Dietetics and Nutrition: Service Marketing Credit: 1 (1-0-0)****Course Description:** Current topics in nutrition and professional skills for the dietetics profession.**Prerequisite:** FSHN 350.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 496G Group Study in Dietetics and Nutrition: Food and Consumer Issues Credit: 1 (1-0-0)****Course Description:** Current topics in nutrition and professional skills for the dietetics profession.**Prerequisite:** FSHN 350.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 496H Group Study in Dietetics and Nutrition: Public Health and Policy Credit: 1 (1-0-0)****Course Description:** Current topics in nutrition and professional skills for the dietetics profession.**Prerequisite:** FSHN 350.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 496I Group Study in Dietetics and Nutrition: Special Topics Credit: 1 (1-0-0)****Course Description:** Current topics in nutrition and professional skills for the dietetics profession.**Prerequisite:** FSHN 350.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 500 Food Systems, Nutrition, and Food Security Credits: 2 (2-0-0)****Course Description:** Global and local food systems and their potential influence on nutrition and food security.**Prerequisite:** FSHN 350.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 501 Research Methods in Dietetics Credits: 3 (0-0-3)****Course Description:** Testing and generating theory. Methods for collecting and analyzing quantitative and qualitative data, critique of research and proposal development.**Prerequisite:** None.**Registration Information:** Admission to GP-IDEA program in dietetics. Offered as an online course only.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.

FSHN 503 Issues in Dietetics Practice Credits: 3 (0-0-3)

Course Description: Environment in which foodservice, hospitality, and healthcare organizations operate; impact of change on hospitality and healthcare organizations.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 504 Micronutrients Credits: 3 (0-0-3)

Course Description: Coordination of structure and function related to metabolic needs as a basis for evaluating micronutrient needs in normal or altered metabolic states.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 505 Nutrition and Physical Activity in Aging Credits: 3 (0-0-3)

Course Description: Physiological changes during aging and impacts on health and disease; focus on successful aging with emphasis on physical activity and nutrition.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 506 Nutrition and Human Performance Credits: 3 (0-0-3)

Course Description: Relationship of specific nutrients and optimal nutrition to physical efficiency and performance.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 507 Nutrition Education in the Community Credits: 3 (0-0-3)

Course Description: Principles and practices of teaching individuals and groups to translate nutrition knowledge into action. Emphasis on research and evaluation.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 508 International Nutrition and World Hunger Credits: 3 (0-0-3)

Course Description: Magnitude, causes, and nature of hunger and under-nutrition; programs and policies to alleviate hunger.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 509 Nutrition Counseling and Education Methods Credits: 3 (0-0-3)

Course Description: Application of learning theories and nutrition counseling with individuals and groups in the community and clinical settings.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 510 Pediatric Clinical Nutrition Credits: 3 (0-0-3)

Course Description: Physiological, biochemical and nutritional aspects of disease processes relevant to infants and children up to 18 years of age.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 511 Maternal and Child Nutrition Credits: 3 (0-0-3)

Course Description: Behavioral, physiological and public health issues impacting dietary and nutritional factors that support growth and development.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics; written permission of instructor. Offered as an online course only.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 512 Nutritional Aspects of Oncology Credits: 3 (0-0-3)

Course Description: Relationships between nutrition and cancer including the role of nutrition in specific cancers, cancer prevention and patient management.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 520 Advanced Medical Nutrition Therapy Credits: 3 (3-0-0)

Course Description: Role of nutrition in etiology and treatment of selected disorders.

Prerequisite: FSHN 550 or FSHN 551.

Restriction: Must be a Graduate.

Registration Information: FSHN 550 or FSHN 551 or admission to GP-IDEA program in Dietetics. Sections may be offered: Online.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 521 Advanced Medical Nutrition Therapy Lab Credit: 1 (0-2-0)

Course Description: Practical application of the treatment of selected nutrition-related diseases and disorders.

Prerequisite: FSHN 550 and FSHN 551.

Restriction: Must be a Graduate.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

FSHN 525 Nutrition Education Theories and Practice Credits: 2 (2-0-0)

Course Description: Examination of current theories, skills, and models used in nutrition education programs as preparation for research and practice.

Prerequisite: FSHN 350.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 530 Principles of Nutrition Science & Metabolism Credits: 3 (3-0-0)

Course Description: Science of nutrition, including the ingestion and digestion of food, the absorption, transport, and metabolism of macro and micronutrients, energy balance and bodyweight regulation, and relationships to health and risk of disease. Structure, functional roles, and metabolic regulation of carbohydrates, lipids, and proteins during conditions of fasting, feeding, and exercise. The role of vitamins and minerals in cellular and whole body homeostasis.

Prerequisite: BMS 300 or CHEM 245 or FSHN 150 or LIFE 102.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 531 Diet, Nutrition, and Chronic Disease Credits: 3 (2-0-1)

Course Description: Principles related to the role of diet and nutrition in obesity, digestive health, type 2 diabetes, cardiovascular disease, and cancer with a focus on current evidence and best practices for prevention.

Prerequisite: FSHN 530.

Registration Information: Graduate standing. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 532 Emerging Issues in Nutrition Credits: 3 (2-0-1)

Course Description: Principles related to emerging areas of nutrition and their role in health promotion. Focus is on current research related to micronutrients and supplements, sports nutrition, food safety and technology, food systems, nutrition and aging, and nutrigenomics.

Prerequisite: FSHN 530.

Registration Information: Graduate standing. Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 540 Nutrigenomics and Advanced Lipid Metabolism Credits: 3 (0-0-3)

Course Description: How nutrients regulate gene expressions (nutrigenetics) and how genotype influences an individual's nutrient requirements (nutrigenomics).

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in Dietetics. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 550 Advanced Nutritional Science I Credits: 3 (3-0-0)

Course Description: Protein, vitamin, mineral metabolism; human studies, animal models.

Prerequisite: BC 351 or BC 403.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 551 Advanced Nutritional Science II Credits: 3 (3-0-0)

Course Description: Carbohydrate, lipid, energy metabolism; human studies, animal models.

Prerequisite: BC 351 or BC 403.

Restrictions: Must not be a: Freshman, Sophomore, Junior. Must be a: Graduate.

Registration Information: Undergraduates with senior standing may enroll with consent of instructor. Sections offered as Mixed Face-to-Face or Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 561 International Nutrition Studies Credits: 2 (2-0-0)

Course Description: Analysis of global nutrition, malnutrition issues, and their impact on health.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program.

Registration Information: Credit allowed for only one of the following:

FSHN 461, FSHN 561, or FSHN 661.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 586 Practicum-Advanced Clinical Nutrition Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Term Offered: Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

FSHN 587A Internship: Clinical Dietetics Credits: Var[1-6] (0-0-0)

Course Description: Supervised practice in clinical nutrition.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Admission to Master of Science in Food Science and Nutrition, Dietetics Option, Plan B. Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

FSHN 587B Internship: Community Dietetics Credits: Var[1-6] (0-0-0)

Course Description: Supervised practice in community nutrition.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Admission to Master of Science in Food Science and Nutrition, Dietetics Option, Plan B. Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

FSHN 587C Internship: Food Service Management Credits: Var[1-6] (0-0-0)**Course Description:** Supervised practice in food service management.**Prerequisite:** None.**Restriction:** Must be a: Graduate.**Registration Information:** Admission to Master of Science in Food Science and Nutrition, Dietetics Option, Plan B. Written consent of instructor.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**FSHN 590 Workshop Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Term Offered:** Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FSHN 600 Responsible Conduct of Research Credit: 1 (1-0-0)****Course Description:** Responsible conduct of research (RCR) including ethical frameworks, publication practices, human and animal research and data management. Case studies and professional codes of conduct will be used to explore conduct of ethical research in humans and animals and how to avoid and manage research misconduct.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** This is a partial semester course. Credit not allowed for both FSHN 580A2 and FSHN 600.**Term Offered:** Spring.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**FSHN 601 Grant Writing in Nutritional Sciences Credits: 2 (2-0-0)****Course Description:** Examine each of the processes involved in a grant application. Emphasis on NIH grant mechanisms; translates to all forms of academic grant writing.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Credit not allowed for both FSHN 580A3 and FSHN 601.**Term Offered:** Spring (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 620 Community Nutrition Planning and Evaluation Credits: 3 (2-0-1)****Course Description:** Community nutrition assessment; nutrition program planning and evaluation, nutrition policy analysis.**Prerequisite:** FSHN 350.**Restriction:** Must be a: Graduate, Graduate cooperative program, Professional.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 628 Advanced Nutrition Counseling Techniques Credits: 2 (2-0-0)****Course Description:** Principles, strategies and techniques for interviewing, assessing and providing nutrition counseling in community settings.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Graduate cooperative program, Professional.**Term Offered:** Fall.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FSHN 630 Integrative Exercise and Nutrition Metabolism Credits: 3 (3-0-0)****Also Offered As:** HES 630.**Course Description:** Advances in integrative human metabolism under conditions of changing energy flux.**Prerequisite:** HES 610 and FSHN 551.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Credit not allowed for both FSHN 630 and HES 630.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 640 Selected Topics in Nutritional Epidemiology Credits: 2 (2-0-0)****Course Description:** Overview of topics in nutritional epidemiology; study design, interpretation of findings, linkage of data to action.**Prerequisite:** (FSHN 350) and (STAT 301 or STAT 307 or ERHS 307).**Restriction:** Must be a: Graduate, Graduate cooperative program, Professional.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 650A Recent Developments in Human Nutrition: Protein, Vitamins, and Minerals Credits: 2 (2-0-0)****Course Description:** Appraisal of literature on human nutritional status.**Prerequisite:** FSHN 550.**Restriction:** Must be a: Graduate, Graduate cooperative program, Professional.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 650B Recent Developments in Human Nutrition: Carbohydrates, Lipids, and Energy Credits: 2 (2-0-0)****Course Description:** Appraisal of literature on human nutritional status.**Prerequisite:** FSHN 551.**Restriction:** Must be a: Graduate, Graduate cooperative program, Professional.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 650C Recent Developments in Human Nutrition: Genomic, Proteomics, and Metabolomics Credits: 2 (2-0-0)****Course Description:** Appraisal of literature on human nutritional status.**Prerequisite:** FSHN 551.**Restriction:** Must be a: Graduate, Graduate cooperative program, Professional.**Term Offered:** Spring (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 660 Women's Issues in Lifecycle Nutrition Credits: 2 (2-0-0)****Course Description:** Current nutritional issues related to selected stages of the lifecycle compared to normal adult nutritional needs.**Prerequisite:** FSHN 459.**Restriction:** Must be a: Graduate, Graduate cooperative program, Professional.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.

FSHN 675 Regulation of Energy Intake Credits: 3 (3-0-0)

Course Description: Central and peripheral mechanisms controlling energy intake with emphasis on humans. Current theories, experimental approaches, and new research.

Prerequisite: FSHN 350 and PSY 454.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

FSHN 686A Practicum: Counseling Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: FSHN 520.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: Yes.

FSHN 686B Practicum: Nutrition Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

FSHN 686C Practicum: Food Services Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

FSHN 692 Seminar Credit: 1 (0-0-1)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FSHN 695A Independent Study: Food Science Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FSHN 695B Independent Study: Nutrition Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FSHN 695C Independent Study: Food Service Management Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FSHN 696A Group Study: Food Science Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FSHN 696B Group Study: Nutrition Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FSHN 696C Group Study: Dietetics Credit: 1 (0-0-1)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

FSHN 696D Group Study: Exercise and Nutrition Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FSHN 698A Research: Dietetics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the GP-IDEA program in Dietetics. Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

FSHN 698B Research: Nutrition Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**FSHN 698C Research: Food Service Management Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**FSHN 699B Thesis: Nutrition Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FSHN 699C Thesis: Food Service Management Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FSHN 700 Cellular Nutrition Credits: 2 (2-0-0)****Course Description:** Essential nutrient requirements of cells and organs.**Prerequisite:** FSHN 550 and FSHN 551 or BC 403 and BMS 501.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 750 Nutritional Basis of Chronic Disease Credits: 2 (2-0-0)****Course Description:** Role of nutrition in the pathogenesis and prevention of specific chronic diseases.**Prerequisite:** FSHN 550 and FSHN 551.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 792 Seminar-Research Topics in Nutrition Credit: 1 (0-0-1)****Course Description:** Ph.D. seminar in literature review.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 795 Independent Study Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FSHN 796 Group Study Credit: 1 (0-0-1)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FSHN 799 Dissertation-Nutrition Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Food Technology (FTEC)

FTEC 110 Food-From Farm to Table Credits: 3 (2-0-1)**Course Description:** Commercial food processing, related to preservation and enhancing of food quality, safety, and value.**Prerequisite:** None.**Registration Information:** Must register for lecture and recitation.**Sections may be offered:** Face-to-Face, Mixed Face-to-Face, or Online.**Terms Offered:** Fall, Spring, Summer.**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.**FTEC 210 Science of Food Fermentation Credits: 3 (2-2-0)****Course Description:** Science, history, culture, gastronomy, safety, health, and nutrition aspects of fermented foods and beverages.**Prerequisite:** (BZ 111 and BZ 110 or LIFE 102) and (CHEM 107 or CHEM 111) and (FSHN 150).**Registration Information:** Must register for lecture and laboratory.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** Yes.**FTEC 292 Introduction to Fermentation Science Credit: 1 (0-0-1)****Course Description:** Introduction to a multidisciplinary, science-based program of study, and exploring career options and skill development through panel discussions by alumni and industry partners.**Prerequisite:** None.**Restriction:** Must be a: Undergraduate.**Term Offered:** Spring (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**FTEC 350 Fermentation Microbiology Credits: 2 (2-0-0)****Course Description:** Integration of fermentation science, microbiology, and chemistry.**Prerequisite:** BC 351, may be taken concurrently and MIP 300.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.

FTEC 351 Fermentation Microbiology Laboratory Credits: 2 (0-4-0)

Course Description: Introduction to fermentation microbiological practices with relevance to production, quality control, and food safety in the food and beverage industry.

Prerequisite: FTEC 350, may be taken concurrently.

Restriction: Must be a: Undergraduate.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

FTEC 360 Brewing Processes Credits: 4 (3-0-1)

Course Description: Influence of raw material selection, malting, mashing, boiling, and fermentation on quality of beverages.

Prerequisite: CHEM 245 and FTEC 210, may be taken concurrently.

Registration Information: Must register for lecture and recitation.

Required field trips.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 375 Introduction to Fermentation Unit Operations Credits: 4 (3-0-1)

Course Description: Principles related to processes and equipment design in fermented food and beverage industries. Survey of unit operations.

Prerequisite: (FTEC 360) and (PH 121 or PH 141).

Registration Information: Must register for lecture and recitation.

Required field trips. Credit not allowed for both FTEC 375 and FTEC 480A2.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 400 Food Safety Credits: 3 (3-0-0)

Course Description: Safety of human food emphasizing safe production, processing, marketing, preparation, consumption, and regulations.

Prerequisite: CHEM 107 or CHEM 111.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

FTEC 422 Brewing Science I Credits: 4 (3-3-0)

Course Description: Application of scientific and technical aspects of malting, brewing, fermenting, finishing, packaging, and sensory evaluation of beer.

Prerequisite: FTEC 360.

Registration Information: Must register for lecture and laboratory.

Required field trips. 21 years of age.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

FTEC 430 Sensory Evaluation of Food Products Credits: 2 (1-2-0)

Course Description: Application of sensory evaluation techniques to the study of foods.

Prerequisite: FSHN 301 or FTEC 210.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: Yes.

FTEC 440 Packaging Technology Credits: 2 (2-0-0)

Course Description: Science, technology, and management of packaging.

Prerequisite: FTEC 360.

Registration Information: Required field trips.

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 447 Food Chemistry Credits: 2 (2-0-0)

Course Description: Chemistry of food constituents as related to food quality and stability.

Prerequisite: CHEM 241 or CHEM 245 or CHEM 345.

Registration Information: Credit not allowed for both ANEQ 447 and FTEC 447.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 460 Brewing Science II Credits: 4 (3-3-0)

Course Description: Assessment, quantification, and control of all aspects of commercial beer production from malting through packaging and dispensing.

Prerequisite: FTEC 422.

Registration Information: Must register for lecture and laboratory.

Required field trips. 21 years of age.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

FTEC 465 Food Production Operations Credits: 3 (3-0-0)

Course Description: Production, operation, and management techniques used in the food industry at company, local and international levels.

Prerequisite: FTEC 210.

Registration Information: Required field trips.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 478 Phytochemicals and Probiotics for Health Credits: 2 (2-0-0)

Course Description: Examination of phytochemistry and probiotic organisms important in human health.

Prerequisite: BC 351.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 487 Internship Credits: Var[1-15] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FTEC 492 Seminar: Fermentation Science and Food Safety Credits: 2 (1-0-1)

Course Description: Capstone seminar in fermentation science and food safety.

Prerequisite: None.

Registration Information: Senior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 495 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FTEC 496A Group Study Fermentation Science: Current Issues Credit: 1 (0-0-1)

Course Description: Explore emerging health issues associated with fermented foods and beverages.

Prerequisite: FSHN 350 or FTEC 360.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 496B Group Study Fermentation Science: Functional Foods in Health Credit: 1 (0-0-1)

Course Description: Functional foods may be used to maintain overall good health and to prevent, manage, and/or treat disease. Apply nutrition science and fermentation science to learn how foods or food components are functional, their bioavailability, and the physiological effects related to human health.

Prerequisite: FSHN 350 or FTEC 360.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 570 Food Product Development Credits: 2 (2-0-0)

Course Description: Food product concepts, feasibility, and evaluation.

Prerequisite: ANEQ 447 or FTEC 447.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 572 Food Biotechnology Credits: 2 (2-0-0)

Course Description: Interrelationships among microorganisms, food processing methods, advances in biotechnology and food quality, spoilage, shelf-life and safety.

Prerequisite: MIP 334.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 574 Current Issues in Food Safety Credits: 2 (2-0-0)

Course Description: Current food safety issues from field to table; microbiological, consumer, processing, and agricultural issues.

Prerequisite: None.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 576 Cereal Science Credits: 2 (2-0-0)

Course Description: Chemistry and functionality of cereal grain components and their importance in human nutrition.

Prerequisite: ANEQ 447 or FTEC 447.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 578 Phytochemicals and Probiotics for Health Credits: 3 (2-0-1)

Also Offered As: HORT 578.

Course Description: Examination of phytochemicals and probiotic organisms important in human health.

Prerequisite: BC 351.

Registration Information: Senior standing. Must register for lecture and recitation. Credit not allowed for both FTEC 578 and HORT 578.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 698 Research Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FTEC 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FTEC 799 Dissertation Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Hospitality Management-RRM (RRM)

RRM 101 Hospitality Industry Credits: 3 (3-0-0)

Course Description: Food service, lodging, and tourism industries; exploration of various industry segments and career opportunities.

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 200 Hotel Operations Credits: 3 (3-0-0)

Course Description: Front office and room management as related to resorts and hotels. Computer application, financial controls, employee and guest relations.

Prerequisite: RRM 101.

Restriction: Must not be a: Senior.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 310 Food Service Systems-Operations Credits: 3 (3-0-0)

Course Description: Technical operations: menu planning, evaluation, recipe standardization, forecasting, food cost, sanitation, hospital food distribution systems.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 311 Food Service Systems-Production and Purchasing Credits: 3 (3-0-0)

Course Description: Quantity food production principles, purchasing specifications, market channels.

Prerequisite: RRM 310.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 312 Hospitality Human Resource Management Credits: 3 (2-0-1)

Course Description: Principles and practices of employee management in the hospitality industry including employment process, training, legal aspects, performance.

Prerequisite: RRM 310.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 330 Alcohol Beverage Control and Management Credits: 2 (2-0-0)

Course Description: Classification, production, and service of controlled beverages; management of facilities and people; safe service training; financial controls.

Prerequisite: CHEM 103, may be taken concurrently or CHEM 107, may be taken concurrently or CHEM 111, may be taken concurrently.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

RRM 340 Restaurant Operations Credits: 5 (0-10-0)

Course Description: Principles, practices, philosophies, systems for daily operation of casual or fine dining restaurant; focus on developing solutions to problems.

Prerequisite: RRM 101, may be taken concurrently.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 345 Food, Beverage, and Labor Cost Control Credits: 3 (3-0-0)

Course Description: Cost control for food, beverage, and labor in the hospitality industry.

Prerequisite: ACT 205 or ACT 210.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 350 Hospitality Marketing Credits: 3 (3-0-0)

Course Description: Operations marketing, including consumer behaviors, marketing strategies, and marketing plans in the hospitality industry.

Prerequisite: RRM 101.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 355 Culinary Tourism and Hospitality Management Credits: 3 (3-0-0)

Course Description: Understanding and implications of culinary tourism and hospitality management in a global context covering its history, cultural dimension, globalization and localization, marketing and branding, festivals and events, and sustainability issues.

Prerequisite: NRRT 270 or RRM 101.

Restriction: Must be a: Freshman.

Registration Information: Credit not allowed for both NRRT 380A1 and RRM 355.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 371A Study Abroad--Thailand: Hospitality and Tourism in Thailand Credits: 3 (0-0-3)

Course Description: International focus on hospitality and tourism in Thailand. Emphasis on hospitality consumers/travelers and the current trends.

Prerequisite: None.

Registration Information: Credit not allowed for both RRM 371A and RRM 382A.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 386 Practicum Credits: 3 (0-0-9)

Course Description: Practicum in Hospitality Management.

Prerequisite: RRM 101.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

RRM 400 Food and Society Credits: 3 (2-0-1)

Course Description: Exploration of the influence of food, dining, and nutrition on cultural aspects of the human experience.

Prerequisite: SOC 100 or PSY 100.

Restriction: Must not be a: Freshman.

Registration Information: Completion of AUCC 3D and AUCC 1C or AUCC 3E requirements. Must register for lecture and recitation.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 410 Food Safety Management Credits: 2 (2-0-0)

Course Description: Management and practical applications of safe food service including sanitation, food borne illness, worker hygiene, proper food temperatures and handling, hazard analysis critical control points, local/state/federal health rules and regulations. ServSafe® Manager Certification.

Prerequisite: (CHEM 103 or CHEM 107 or CHEM 111) and (RRM 310).

Registration Information: Junior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 450 Leadership in the Hospitality Industry Credits: 3 (3-0-0)

Course Description: Exploration of leadership skills, their relationship to ethics through self-analysis, and leading change in the hospitality industry.

Prerequisite: RRM 310 and MGT 305.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 460 Event and Conference Planning Credits: 3 (2-0-1)

Course Description: Overview of event planning and management.

Explores key concepts critical to the success of any event and current trends in the industry.

Prerequisite: NRRT 270 or RRM 101.

Registration Information: Junior standing. Must register for lecture and recitation. Required field trips. Credit not allowed for both RRM 460 and NRRT 460.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

RRM 487 Internship in Hospitality Management Credits: 5 (0-0-25)

Course Description: Supervised off-campus experience in food and beverage, lodging, or event planning focusing on management tasks and responsibilities.

Prerequisite: RRM 101 and RRM 310, may be taken concurrently.

Registration Information: Sophomore standing. Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

RRM 492 Seminar on Hospitality and Event Management Credits: 3 (0-0-3)

Course Description: Applying and synthesizing service knowledge, leadership, and management functions, planning and executing a capstone project, developing a career portfolio, and networking with industry professionals.

Prerequisite: MKT 305.

Restrictions: Must not be a: Freshman, Sophomore, Junior. Must be a: Undergraduate.

Registration Information: Senior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

RRM 500 Understanding Food Credits: 3 (3-0-0)

Course Description: Role of food in the creation of identity, as a driver of technology, and the prominent role food plays in the media.

Prerequisite: RRM 400.

Registration Information: RRM 400 or admission to GPIdea program in Dietetics. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 510 Foodservice Management Credits: 2 (1-0-1)

Course Description: Analysis of a wide variety of foodservice operations, including procurement, forecasting, operational design, and menu planning.

Prerequisite: NRRT 442 or NRRT 471.

Registration Information: Must register for lecture and recitation. This is a partial semester course. Offered as Mixed Face-to-Face only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 520 Lodging Management Credits: 2 (1-0-1)

Course Description: Operating standards and practices essential to the profitability of a hotel, lodging, and accommodation enterprise.

Prerequisite: NRRT 442 or NRRT 471.

Registration Information: Must register for lecture and recitation. This is a partial-semester course. Offered as Mixed Face-to-Face only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 686 Practicum-Food Service Management Credit: 1 (0-4-0)

Course Description: Food production, menu planning, nutritional analysis and food costing.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Major in Fermentation Science and Technology

Fermentation Science and Technology is a multidisciplinary major focusing on the science of fermented foods and beverages. The curriculum focuses on the science of the processes and methods involved with using microorganisms in the commercial production of fermented products. Courses in the major also emphasize the safety, culinary, and nutritional aspects of fermented foods and beverages. This major prepares students for employment in the fermented food and beverage industries in such roles as product development, processing, quality assurance and control, sensory evaluation, packaging, distribution, and plant management. Students enrolled in this major have the opportunity to participate in industry activities and professional organizations to increase their practical understanding of fermented food and beverage production, processing methods, and specific techniques.

Learning Outcomes

Students will demonstrate:

- Ability to integrate biological and chemical processes related to quality and stability of fermented foods, and to critique and effectively communicate the relationships among the processing of fermented foods, nutrition, and food safety.
- Discipline-specific knowledge of the skills and competencies needed in fermentation science and technology. Examples include knowledge of food chemistry, sensory evaluation of fermented products, brewing processes, refining and packaging technology, food production management, and fermentation microbiology.
- Understanding of classification, production, financial aspects, consumption, and service of controlled beverages, including effective

management of facilities and people with an emphasis on safe service training and management.

- Competent application of science, history, culture, safety, health, and nutrition dimensions of fermented foods and beverages.

Potential Occupations

Partnerships with industry help provide field experience and internships for majors in Fermentation Science and Technology. The food industry is the largest in the world and fermentation science is a rapidly emerging area, so the future is promising. Examples of careers include

fermentation scientist, food scientist, food technologist, food health inspector, food safety specialist, brewer, biotechnologist, quality control analyst, sensory analyst, food microbiologist, and entrepreneur.

Learn more about the Fermentation Science and Technology major on the Department of Food Science and Human Nutrition website (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/b-s-in-fermentation-science-and-technology/>).

Major in Hospitality and Event Management

The Hospitality and Event Management major combines courses in food service, lodging, event planning, entertainment, and entrepreneurship to give students a strong skill set for entry management positions in hospitality professions. Elective credits allow students to take courses in areas of interest to enhance their education. The curriculum strongly emphasizes management and leadership skills required for success in the hospitality industry.

The hospitality industry is the second largest employer in Colorado and the United States. The Hospitality and Event Management program maintains strong ties with the food service, lodging, and event planning industries locally, statewide, and nationally to connect graduates with a wide variety of employment opportunities in the expanding commercial and non-commercial segments of the hospitality management industry. The department oversees practicum and internships in the industry and aids in job placement upon graduation.

Learning Outcomes

Students will demonstrate:

1. A conceptual understanding and systems approach to the business of hospitality management.
2. The ability to make logical decisions by organizing, analyzing, and interpreting information and formulating rational solutions in a hospitality business environment.
3. The knowledge and skills to successfully manage a hospitality operation, including allocating resources such as time, labor, and material inputs to achieve customer satisfaction.
4. An understanding of the managerial functions of planning, organizing, directing, staffing, controlling, and budgeting in various hospitality environments.
5. The behaviors of effective, ethical leaders by demonstrating the fundamental principles of leadership in a hospitality business environment.

Potential Occupations

Participation in the experiential learning laboratory, The Aspen Grille, a student-run campus restaurant, is required and internship and practicum opportunities are highly recommended to enhance practical training and development. The hospitality industry encompasses careers in

restaurants, hotels, resorts, spas, event venues, catering, breweries and wineries, bed and breakfast inns, ski areas, business and industry dining venues, hospitals, correctional facilities, and military facilities in the United States and around the world.

Examples of career positions include but are not limited to restaurant managers, caterers, event planners, wedding planners, banquet managers, hotel sales and marketing, hotel guest operations, hospitality real estate acquisition, hotel managers, food writing and media, brewery hospitality operations, commercial wine and liquor sales, chefs, purchasing agents, conference coordinators, guest service agents, tourist attraction managers, spa operations managers, housekeeping managers, timeshare sales and marketing, bed and breakfast owner/managers, travel agents, school food service managers, hospitality food and equipment sales representatives, health inspectors, hospital food service managers, food importers, and country club managers.

Learn more about the Hospitality and Event Management major on the (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/b-s-in-hospitality-management/>) Department of Food Science and Human Nutrition website (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/b-s-in-hospitality-management/>).

Major in Nutrition and Food Science

Public interest regarding the importance of nutrition to health and fitness is at a high level and increasing. The major in Nutrition and Food Science involves integration of the biological, medical, and social sciences and their application to the improvement of human nutrition and fitness, prevention of chronic disease, and improved quality of life. The major is both science- and human service-oriented.

Nutrition and Food Science graduates gain a scientific understanding of the principles of human nutrition, the role of nutrition in the prevention and management of disease, the delivery of nutritional care, and the principles of nutrition assessment and food preparation. Additionally, graduates know the techniques of interviewing, counseling, information management, and effective communication.

Four concentrations are currently available in this major: Dietetics and Nutrition Management, Nutrition and Fitness, Nutritional Sciences (Pre-Health), and Food Safety and Nutrition.

Learning Outcomes

Students will demonstrate:

- Ability to identify nutrition-related public health problems, integrate information from basic nutrition sciences, critically analyze data, and develop appropriate conclusions
- Discipline-specific knowledge, skills, and competencies needed in the field of dietetics and nutrition. Examples include knowledge of medical nutrition therapy; nutrition and metabolism; program planning, monitoring, and evaluation; management in school nutrition programs and long-term care; food safety; and the role of food in the promotion of health
- Competent application of nutrition knowledge and skills in a work environment, including an ability to calculate and/or define diets for various health/disease conditions; screen individuals for nutritional risk; determine nutrient requirements across the lifespan, and calculate enteral and parental nutrition formulations; determine costs of services/operations, interpret financial data, and prepare a budget

(See the department's website for the Dietetics and Nutrition Management concentration (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/b-s-in-nutrition-and-food-science/dietetics-and-nutrition-management-concentration/>) for specific learning outcomes for the ACEND Accredited Dietetics Program). It is important to understand that to become a registered dietitian nutritionist, one must complete an 8-12 month internship **AFTER** completion of the degree at CSU. Completing this concentration alone and earning the B.S. degree is not sufficient to become a dietitian. Also, as of 2024, to become a registered dietitian nutritionist, one must have a master's degree.

Potential Occupations

Participation in community outreach, internships, volunteer activities, or cooperative education opportunities is highly recommended to enhance career planning, skills, and development. Graduates who go on

to advanced studies can attain more responsible leadership positions with the possibility of rising to top professional levels.

Some examples of career opportunities include, but are not limited to: dietitian or nutritionist in health care, hospitals, long-term care, schools, state or county health agencies, health clubs, corporate wellness programs, grocery stores/food chains, or private practice; community nutritionist; biomedical scientist; restaurant manager; caterer; quality assurance specialist; food scientist; food inspector; food technologist; food plant manager; food service manager in hospitals, schools, or long-term care. As of March 2020, the average salary for registered dietitians is \$51,291, and the salary range is \$39,000-67,000.

Students interested in *teaching* nutrition and/or food science content at the secondary education level should explore the Family and Consumer Sciences Education major.

Students may choose from among four concentrations under the Nutrition and Food Science major.

Concentrations and Options

- Dietetics and Nutrition Management Concentration
 - Accredited Didactic Program Option
 - Childhood Nutrition Option
 - Gerontology Nutrition Option
- Food Safety and Nutrition Concentration (<http://catalog.colostate.edu/general-catalog/colleges/health-human-sciences/food-science-human-nutrition/nutrition-food-science-major-safety-concentration/>) (no new students are being admitted to this program. Please see the Food Science Concentration below).
- Food Science Concentration
- Food Systems Concentration
- Nutrition and Fitness Concentration
- Nutritional Sciences Concentration (<http://catalog.colostate.edu/general-catalog/colleges/health-human-sciences/food-science-human-nutrition/nutrition-food-science-major-nutritional-sciences-concentration/>) (no new students are being admitted to this program. Please see the Pre-Health Nutrition Concentration below).
- Pre-Health Nutrition Concentration

Learn more about the Nutrition and Food Science major on the Department of Food Science and Human Nutrition website (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/b-s-in-nutrition-and-food-science/>).

Major in Nutrition and Food Science, Dietetics and Nutrition Management Concentration

The Dietetics and Nutrition Management concentration provides a broad background in clinical nutrition, health promotion, and food service management. The science-based curriculum includes nutritional assessment, application of food theory, nutrition metabolism, and

coursework focusing on nutritional counseling and medical nutrition therapy. This concentration is open to all students interested in becoming registered dietitians by preparing students for an accredited dietetic internship (see note below) and a professional career in medical nutrition therapy or community-based nutrition programs.

This program is an Accredited Didactic Program in Dietetics (DPD) approved by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND). Students must qualify to continue in the Accredited Didactic Program in Dietetics (DPD) by meeting the prerequisites for the Dietetic Practice Seminar course (FSHN 392) in their junior year. These prerequisites are an overall GPA of 3.000 and grades of "B" or better in:

FSHN 150;
FSHN 300;
FSHN 301;
CHEM 107/CHEM 108;
CHEM 111/CHEM 112/CHEM 113;
CHEM 245;
CHEM 246;
LIFE 102;
BZ 110/BZ 111;
BMS 300; and,
BMS 302.

Students who do not meet these requirements are encouraged to exercise their repeat/repair options in those courses which are lower than a "B" grade if they wish to be considered for the DPD option or seek other nutrition-related concentration options. Students may also choose to focus their education toward specific populations by taking specific courses related to childhood nutrition or gerontology nutrition, in addition to the required courses for the DPD.

The Childhood Nutrition option prepares students for supervisory positions in the school nutrition program. The Gerontology Nutrition option prepares students for supervisory positions in food service management for long-term care and rehabilitation, or for working with community programs providing nutrition services to older individuals.

Please note: To become a registered dietitian, one must: 1) complete the required coursework and obtain the B.S. degree in Dietetics and Nutrition Management; 2) complete an 8-12 month accredited dietetic internship AFTER finishing the B.S. degree; and 3) earn a master's degree (*effective January 2024*). Internships are facilitated separately from obtaining the B.S. degree, and all internships require a vigorous application process. Earning the B.S. degree in the Dietetics and Nutrition Management concentration at CSU is one step toward becoming a registered dietitian, but it is insufficient without then completing the internship and earning a master's degree. After completion of an internship and master's degree, one is then eligible to take the registration exam, the final step toward becoming a registered dietitian. The registered dietitian credential is awarded after successfully passing the registration exam and is facilitated by the Commission on Dietetic Registration (CDR) of the Academy of Nutrition and Dietetics (AND).

- Accredited Didactic Program Option
- Childhood Nutrition Option
- Gerontology Nutrition Option

Learn more about the Dietetics and Nutrition Management concentration on the Department of Food Science and Human Nutrition website (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/b-s-in-nutrition-and-food-science/dietetics-and-nutrition-management-concentration/>).

Major in Nutrition and Food Science, Dietetics and Nutrition Management Concentration, Accredited Didactic Program Option Requirements

Effective Fall 2022

Admission to the Accredited Didactic Program requires a minimum 3.0 GPA and grades of B or better in LIFE 102, CHEM 107 and CHEM 108, or CHEM 111, CHEM 112, and CHEM 113; CHEM 245, CHEM 246, BMS 300, BMS 302, FSHN 150, FSHN 300, and FSHN 301.¹

Total Credits			29
Program Total Credits:			120

¹ Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Students may complete this major/option at 120 credits by selecting CHEM 107, CHEM 108, and BUS 150 in the freshman year. Students wishing to complete the Gerontology Interdisciplinary Minor should consult with advisors about course selection. Completion of the major/option and the minor will exceed the 120 credit total.

Major in Nutrition and Food Science, Food Science Concentration

The Food Science concentration blends a strong science base with courses in food chemistry, food safety, food microbiology and nutrition. The curriculum prepares students for employment in the food industry or in government in such areas as quality assurance, product development, research, food inspection, sensory evaluation, and consumer education.

The concentration also provides a strong background for students interested in pursuing a graduate program.

Learn more about the Food Science Concentration on the Department of Food Science and Human Nutrition website. (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/b-s-in-nutrition-and-food-science/food-safety-and-nutrition-concentration/>)

Major in Nutrition and Food Science, Nutrition and Fitness Concentration

The Nutrition and Fitness concentration prepares students for employment as nutrition and fitness counselors and personal lifestyle coaches in health care settings, commercial establishments, public health settings, or private practice. The curriculum blends a strong science base with course work in nutrition, exercise science, teaching, and counseling. The concentration also provides an excellent background for a graduate program. By the addition of several elective courses, students can meet the Accreditation Council for Education in Nutrition and Dietetics (ACEND) (<https://www.eatrightpro.org/acend/>) didactic course requirements if they meet requirements for FSHN 392.

Please note: To become a registered dietitian, one must: 1) complete the required ACEND coursework and obtain the B.S. degree; 2) complete an 8-12 month accredited dietetic internship AFTER finishing the B.S. degree; and 3) earn a master's degree (*effective January 2024*).

Internships are facilitated separately from obtaining the B.S. degree, and all internships require a vigorous application process. Earning the B.S. degree in the Nutrition and Fitness concentration at CSU along with the additional didactic courses requirements established by ACEND, is one step toward becoming a registered dietitian. But it is insufficient without then completing the internship and earning a master's degree. After completion of a the internship and master's degree, one is then eligible to take the registration exam, the final step toward becoming a registered dietitian. The registered dietitian credential is awarded after successfully passing the registration exam and is facilitated by the Commission on Dietetic Registration (CDR) of the Academy of Nutrition and Dietetics (AND).

Learn more about the Nutrition and Fitness concentration on the Department of Food Science and Human Nutrition website (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/b-s-in-nutrition-and-food-science/nutrition-and-fitness-concentration/>).

Major in Nutrition and Food Science, Pre-Health Nutrition Concentration

The Pre-Health Nutrition concentration provides a strong background in natural and biomedical sciences and nutrition, making it an appropriate preparation for graduate study, medical school, or a career in nutritional

research, biomedical research, or college teaching. This concentration is an excellent pre-health professions curriculum.

Learn more about the Pre-Health Nutrition Concentration on the Department of Food Science and Human Nutrition website. (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/b-s-in-nutrition-and-food-science/nutritional-sciences-concentration/>)

Graduate Certificate in Nutrition Sciences

The Graduate Certificate in Nutrition Sciences is offered for students with a personal or professional interest in nutrition, health promotion, or disease prevention. Courses address the fundamentals of nutrition science and how it is involved in nutrient metabolism, obesity, chronic disease prevention, and other current or controversial areas in nutrition. Each course allows students to develop skills in locating credible sources of nutrition information, analyzing research, and debating contradictory information, all of which support ongoing professional development. Online only.

Effective Fall 2017

Additional coursework may be required due to prerequisites.

Code	Title	Credits
FSHN 530	Principles of Nutrition Science & Metabolism	3
FSHN 531	Diet, Nutrition, and Chronic Disease	3
FSHN 532	Emerging Issues in Nutrition	3
Program Total Credits:		9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Learn more about the Online Graduate Certificate in Nutrition Sciences on the CSU Online website (<https://www.online.colostate.edu/certificates/nutrition-sciences/>).

Master of Science in Food Science and Nutrition, Dietetics Option (online)

No new students are being admitted into this program of study.

The GPIdea program offers a fully online M.S. in Food Science and Nutrition for Registered Dietitian Nutritionists and for graduates of accredited dietetics programs who have verification of completion of didactic requirements. The program is offered through a partnership of universities including Colorado State University. The collaboration provides a rich offering of online courses led by expert faculty from multiple institutions. Students earn their degrees from CSU.

Programs of study are designed to allow students the flexibility to individualize coursework and research to their specialty, interests, and career focus. The GPIdea program objectives are to:

- Develop research skills, stimulate independent thought, and provide up-to-date knowledge in foods, nutrition, and foodservice and business management.
- Promote health and disease management through food and nutrition programs and make a difference in the lives of others by advancing the level of practice of registered dietitian nutritionists.

It is important to note that this program is not a didactic program in dietetics and does not substitute for the completion of an accredited didactic program as the first step to becoming an RDN.

Learn more about the GPIdea program on the Department of Food Science and Human Nutrition website (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/m-s-in-food-science-and-nutrition-dietetics-option-online/>).

A minimum of 35 credits are required to complete this program.

Master of Science in Food Science and Nutrition, Nutrition Specialization

The Master of Science in Food Science and Nutrition, Nutrition Specialization includes work in advanced nutrition science and nutrient metabolism, recent developments in human nutrition, research statistics, and nutritional epidemiology. Additional coursework in basic or applied behavioral sciences is also necessary, with selected electives depending on whether the student's interest is more in community/public health nutrition or nutrition metabolism. Ultimately, the Nutrition Specialization focuses on the relationship between nutrition and health. The program provides students with training for doctoral studies in basic and applied sciences, advanced preparation for professional degrees, and careers in the industry. A minimum of 35 credits is required for the M.S. degree.

Learn more about the Master's in Food Science and Nutrition, Nutrition Specialization on the Department of Food Science and Human Nutrition website (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/m-s-in-food-science-and-nutrition/>).

A minimum of 35 credits are required to complete this program.

Ph.D. in Food Science and Nutrition, Food Science Specialization

The Ph.D. in Food Science and Nutrition, Food Science Specialization includes advanced studies oriented toward food science, food chemistry, food microbiology, food preservation and safety, and health properties of foods and food components.

Most students entering this Ph.D. program will bring in 30 credits from a Master's program in a related field. The curriculum represents a total of 42 credits beyond the Master's level. If a prospective student has less than 30 credits toward the program, an individualized curriculum plan will be developed by working with a primary advisor to cover possible deficiencies.

Learn more about the Ph.D. in Food Science and Nutrition, Food Science Specialization on the Department of Food Science and Human Nutrition website. (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/ph-d-in-food-science-and-nutrition/>)

If a prospective student has less than 30 credits toward the program, an individualized curriculum plan will be developed by working with a primary advisor to cover possible deficiencies.

Minor in Nutrition

The minor in Nutrition provides a rigorous and flexible curriculum for students interested in various aspects of nutrition. The minor can

enhance students' understanding of nutrition and broaden career opportunities for students in any discipline. Flexibility of the minor allows students to tailor the curriculum toward numerous aspects of nutrition, including sports nutrition, clinical nutrition, nutrition and health equity, community and public health nutrition, childhood nutrition, and nutrition and aging.

Learn more about the Minor in Nutrition on the Department of Food Science and Human Nutrition website.

Requirements Effective Fall 2023

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Required Courses:		
BMS 300 or HES 300	Principles of Human Physiology Physiology for Clinical Health Professions	4
FSHN 150	Survey of Human Nutrition	3
FSHN 350	Human Nutrition	3
FSHN 459	Nutrition in the Life Cycle	3
Select a minimum of 9 credits from the following:		9
FSHN 340	Food as Preventive Medicine	
FSHN 360	Nutrition Assessment	
FSHN 428	Nutrition Teaching and Counseling Techniques	
FSHN 450	Medical Nutrition Therapy	
FSHN 451	Community Nutrition	
FSHN 455	Food Systems–Impact on Health/Food Security	
FSHN 461	International Nutrition and Health	
FSHN 470	Integrative Nutrition and Metabolism	
Program Total Credits:		22

Professor Barry Braun, Department Head

The Department of Health and Exercise Science provides undergraduate and graduate education as well as serving as the home for the Human Performance Clinical Research Laboratory, Heart Disease Prevention Program (HDPP), Adult Fitness Program, Noon Hour program, and Fit Cancer program.

The HES **mission** is to create an environment of exceptional teaching and learning, outstanding research and scholarship, and engagement that provides high value to the community. We are committed to our **goal** of producing nationally and internationally recognized research programs and graduates that focus on helping people protect, maintain, and improve their health and quality of life throughout the lifespan.

The Department of Health and Exercise Science provides the following academic program specializations:

- Health and Exercise Science Major (B.S.) with tracks in Health Promotion and in Sports Medicine
- Master's degree in Health and Exercise Science (M.S.)
- Doctorate in Human Bioenergetics (Ph.D.)

Undergraduate Majors

- Major in Health and Exercise Science
 - Health Promotion Concentration
 - Sports Medicine Concentration

Minor

- Minor in Health and Exercise Science

Certificate

- Certificate in Virtual Wellness Programming

Graduate

Graduate Programs in Health and Exercise Science

The department offers two graduate degrees: the Master of Science in Health and Exercise Science, and the Doctor of Philosophy in Human Bioenergetics. Students interested in a Master's degree in Public Health with a focus in Health and Exercise Science can refer to the School of Public Health (<http://publichealth.colostate.edu/>). Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Health and Exercise Science (<http://hes.chhs.colostate.edu>).

Master's Programs

- Master of Science in Health and Exercise Science, Plan A

Ph.D.

- Ph.D. in Human Bioenergetics

Courses

Health and Exercise Science (HES)

HES 102C Physical Education Activities: Special Activities Credit: 1 (0-3-0)

Course Description: Physical activities for the development of personal motor skills.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HES 102G Physical Education Activities: Athletics Credit: 1 (0-3-0)

Course Description: Physical activities for the development of personal motor skills.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HES 120 Introduction to Health and Exercise Science Credit: 1 (1-0-0)

Course Description: Health and Exercise Science major, career options, campus resources, tools for academic success, various health-related topics.

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 145 Health and Wellness Credits: 3 (3-0-0)

Course Description: Personal health behaviors and personal choice in response to wellness.

Prerequisite: None.

Registration Information: Credit not allowed for both HES 145 and HES 143. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 202 Introduction to Exercise Physiology Credits: 3 (3-0-0)

Course Description: Introduction to how cells, tissues and organs function in human health, disease and in response to exercise. Emphasis on the practical application of this material to contemporary issues in health and exercise science.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 207 Anatomical Kinesiology Credits: 4 (3-0-1)

Course Description: Human musculoskeletal anatomy and its application to movement. Also includes selected principles of biomechanics and physiology related to the study of kinesiology.

Prerequisite: None.

Registration Information: Must register for lecture and recitation.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 232 Techniques of Teaching Group Exercise Credit: 1 (0-2-0)

Course Description: Learn practical skills for the instruction of various group fitness activities. Emphasis is on physiological principles related to group fitness, as well as choreography, safety, and modifications for diverse populations and current trends.

Prerequisite: HES 207.

Registration Information: Credit allowed for only one of the following:

HES 232, HES 232B, or HES 332H.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 300 Physiology for Clinical Health Professions Credits: 4 (4-0-0)

Course Description: Integrative understanding of human physiology with a systems based approach that includes examination of the effect of chronic disease on the physiological function of organ systems. Designed for students interested in pursuing careers working with clinical populations.

Prerequisite: (BZ 101 or BZ 110 or LIFE 102) and (CHEM 103 or CHEM 107 or CHEM 111).

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 303 Biomechanics and Neurophysiology Credits: 3 (3-0-0)

Course Description: Study and elementary analysis of human motion based on anatomical, neurophysiological, and mechanical principles.

Prerequisite: HES 207.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 307 Biomechanical Principles of Human Movement Credits: 3 (3-0-0)

Course Description: Study and analysis of human motion based on anatomical and mechanical principles.

Prerequisite: (BMS 301 or HES 207) and (PH 121 or PH 141).

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 309 Methods of Coaching Credits: 2 (2-0-0)

Course Description: Preparation to coach in an interscholastic athletic situation.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 319 Neuromuscular Aspects of Human Movement Credits: 4 (3-2-0)

Course Description: Neuromuscular anatomy and physiology of human movement. Applied/integrated topics: aging, muscle fatigue, training, force control, and neuromuscular disease.

Prerequisite: (FSHN 150 and HES 145 and HES 207) and (BMS 300 or HES 300).

Registration Information: Must register for lecture and laboratory. Must have earned a cumulative 2.500 GPA in: FSHN 150, HES 145, HES 207 and BMS 300 or HES 300.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 340 Exercise Prescription Credits: 3 (2-2-0)

Course Description: Theory and practice of exercise prescription for healthy individuals, cardiac patients, and other special populations according to the American College of Sports Medicine (ACSM) guidelines. Includes the practice of proper lifting and spotting techniques, manipulation of training variables, and design of safe, effective, and efficient individual workout programs.

Prerequisite: (FSHN 150 with a minimum grade of C and HES 145 with a minimum grade of C and HES 207 with a minimum grade of C) and (BMS 300 with a minimum grade of C or HES 300 with a minimum grade of C).

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 345 Population Health and Disease Prevention Credits: 3 (3-0-0)

Course Description: Causes of disease throughout the lifespan and interventions designed to prevent disease.

Prerequisite: HES 145.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 354 Theory of Health Behavior Credits: 3 (3-0-0)

Course Description: Health behavior (HB) theories and their application to health promotion (HP) programs. Multi-level factors that interactively impact human HBs, theoretical foundations for these factors, and the relationship between HBs & selected health outcomes. Discuss application of HB theories, and examine HP programs that have applied these theories in different settings and high risk populations.

Prerequisite: HES 145 and PSY 100.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 355 Integration of Health Behaviors Credits: 3 (3-0-0)

Course Description: Designed to guide students in applying their knowledge of health behavior change to individuals with various health challenges. Explores a variety of health topics including understanding stress and coping and managing stress, behavioral factors in chronic disease, and behavioral health.

Prerequisite: HES 340 and HES 354.

Registration Information: Completion of 60 credits.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 379 Psychology and Sport Credits: 3 (3-0-0)

Course Description: Reciprocal relationship between psychological factors and sport and exercise behavior.

Prerequisite: PSY 100.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 386 Practicum—Adult Fitness Credits: 2 (1-2-0)

Course Description: Adult fitness.

Prerequisite: HES 232 and HES 340 with a minimum grade of C.

Registration Information: Must have earned a cumulative 2.500 GPA in: BMS 300, FSHN 150, HES 145, and HES 207. Must register for lecture and laboratory.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 403 Physiology of Exercise Credits: 3 (3-0-0)

Course Description: Effects of exercise on tissues, organs, and systems of the body.

Prerequisite: BMS 300 or BMS 360 or HES 300.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 404 Physiology of Exercise Laboratory Credit: 1 (0-2-0)

Course Description: Application of the effects of exercise on various systems, organs, and tissues of the body through laboratory experiences.

Prerequisite: HES 403, may be taken concurrently.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 420 Electrocardiography and Exercise Management Credits: 3 (2-2-0)

Course Description: Interpretation of 12-lead ECG tracings, administering exercise tests, and prescribing exercise program for healthy individuals and special populations.

Prerequisite: BMS 300 or BMS 360 or HES 300.

Restriction: Must not be a: Freshman.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 432 Virtual Coaching for Wellness Credits: 3 (2-0-1)

Course Description: Practical application of health and wellness knowledge to a clientele population via a virtual format.

Prerequisite: HES 145.

Restriction: Must not be a: Freshman.

Registration Information: Must register for lecture and recitation. Offered as Mixed Face-to-Face. Credit not allowed for both HES 432 and HES 480A1.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 434 Physical Activity Throughout the Lifespan Credits: 3 (3-0-0)

Course Description: Impact of physical activity on biology and physiology of human development and aging processes.

Prerequisite: BMS 300 or HDFS 201 or HES 300.

Registration Information: Junior standing. Sections may be offered: Online. Credit not allowed for both HES 434 and HES 444.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 450 Introduction to Human Clinical Medicine Credits: 3 (3-0-0)

Course Description: Introductory concepts of clinical medicine including how to take and write a medical history and form a differential diagnosis. Using a case-based approach, common and uncommon diseases and scenarios and the associated medical physiology will be explored. Some basic student-healthcare professional skills are introduced including interpretation of diagnostic tests. Designed for students interested in pursuing a career in medicine.

Prerequisite: None.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Completion of AUCC category 3A.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HES 455 Health Promotion Programming Credits: 3 (3-0-0)

Course Description: Investigation of established health promotion programs with special emphasis on design, implementation, and evaluation of programming models.

Prerequisite: HES 355 and HES 386 and HES 403.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 476 Exercise and Chronic Disease Credits: 3 (3-0-0)

Course Description: Interaction of physical activity with pathophysiology and treatment of chronic diseases and conditions.

Prerequisite: BC 351 and FSHN 350 and HES 403.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 478A Sports Medicine Capstone: Seminar Credits: 3 (0-0-3)

Course Description: Integration and reflection on health and exercise science disciplinary knowledge.

Prerequisite: (HES 307 or HES 319) and (HES 340 and HES 403).

Registration Information: Senior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 478B Sports Medicine Capstone: Research Credits: 3 (0-6-0)

Course Description: A capstone experience that provides an opportunity to be involved with research in health and exercise science.

Prerequisite: (HES 307 or HES 319) and (HES 340 and HES 403).

Registration Information: Senior standing. Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 478C Sports Medicine Capstone: Teaching Credits: 3 (0-6-0)

Course Description: A capstone course that provides an opportunity to be involved with instruction of a course in Health and Exercise Science.

Prerequisite: (HES 307 or HES 319) and (HES 340 and HES 403).

Registration Information: Senior Standing. Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 478D Sports Medicine Capstone: Service Learning Credits: 3 (0-6-0)

Course Description: A capstone experience that provides an opportunity to be involved with a service-learning project in the community that applies knowledge of Health and Exercise Science.

Prerequisite: (HES 307 or HES 319) and (HES 340 and HES 403).

Registration Information: Senior Standing. Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 484 Supervised College Teaching Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 10 credits allowed in course. A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 486 Practicum—Wellness Program Management Credits: 3 (1-4-0)

Course Description:

Prerequisite: HES 386.

Registration Information: Junior standing. Must register for lecture and laboratory. Credit not allowed for both HES 486 and HES 486B.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 487 Internship Credits: 12 (0-0-36)

Course Description: Practical application of knowledge, skills, and leadership in a professional situation.

Prerequisite: None.

Registration Information: Senior standing. Consent of department.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 492 Health and Exercise Science Seminar Credits: 3 (0-0-3)

Course Description: Integration and reflection on health and exercise science disciplinary knowledge.

Prerequisite: HES 307 and HES 319 and HES 340 and HES 403.

Registration Information: Senior standing.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 495A Independent Study: Health Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**HES 495B Independent Study: Biomechanics Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**HES 495C Independent Study: Exercise Science Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**HES 495D Independent Study: Neuromuscular Physiology Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**HES 495E Independent Study: Honors Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**HES 496A Group Study: Health Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**HES 496B Group Study: Athletics Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**HES 496C Group Study: Biomechanics Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**HES 496D Group Study: Exercise Science Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**HES 496E Group Study: Neuromuscular Physiology Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**HES 500 Environmental Exercise Physiology Credits: 3 (3-0-0)****Course Description:** Enhance the understanding of human physiology and how the various physiological systems respond to environmental stressors. Integrate previous knowledge of human physiology and apply it to the physiological response to heat stress, cold stress, hyperbaric atmosphere, hypobaric atmosphere, pollution, and sleep deprivation.**Prerequisite:** BMS 420 with a minimum grade of B or HES 403 with a minimum grade of B.**Restriction:** Must not be a: Freshman, Sophomore.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**HES 510 Bioethics--Concepts and Controversies Credits: 3 (2-0-1)****Course Description:** Origins of bioethics and analysis of cases/controversies in contemporary bioethics.**Prerequisite:** None.**Restriction:** Must not be a: Freshman, Sophomore.**Registration Information:** Admission to health and exercise science graduate program or consent of the instructor. Must register for lecture and recitation.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**HES 520 Advanced Exercise Testing and Prescription Credits: 3 (2-2-0)****Course Description:** Theory and practice of exercise testing and prescription in apparently healthy and diseased populations.**Prerequisite:** HES 403.**Registration Information:** Must register for lecture and laboratory.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**HES 530 Clinical Biomechanics Credits: 3 (3-0-0)****Course Description:** Effect of external loads on internal tissues; concern for injury, injury prevention, and rehabilitation.**Prerequisite:** BMS 301 and HES 307.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**HES 531 Muscle and Joint Mechanics Credits: 3 (3-0-0)****Course Description:** Integrate muscle, tendon, and location of bone attachment into a comprehensive understanding of human movement at the single- and multi-joint level.**Prerequisite:** BMS 301 and HES 307.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.

HES 600 Research Design in Health/Exercise Science Credits: 3 (3-0-0)

Course Description: The research process including design, implementation, proposal synthesis and statistical considerations applied to health and exercise science.

Prerequisite: STAT 100 to 481 - at least 1 course.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HES 602 Advanced Physiology of Exercise Credits: 3 (3-0-0)

Course Description: Integrative exercise physiology covering metabolism, cardiovascular physiology, pulmonary physiology, and neuromuscular physiology in humans.

Prerequisite: HES 403.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HES 603 Advanced Topics in Exercise Physiology Credits: 3 (3-0-0)

Course Description: Advanced principles of theoretical and applied exercise physiology at molecular, cellular, and systemic levels.

Prerequisite: HES 403.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HES 608 Physical Activity Intervention Development Credits: 3 (3-0-0)

Course Description: Examination of the current state of the science related to the relationship between physical activity and health outcomes, the theoretical foundations underpinning successful physical activity interventions, and knowledge of how to develop, implement and evaluate physical activity interventions for adults.

Prerequisite: HES 354 or HES 434 or HES 455.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 610 Exercise Bioenergetics Credits: 3 (3-0-0)

Course Description: Biology of energy transfer reactions related to human locomotion and exercise performance in both healthy individuals and disease states.

Prerequisite: HES 403.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HES 619 Advanced Neural Control of Movement Credits: 3 (3-0-0)

Course Description: Neuroanatomical, neurophysiological, and applied topics on the control of force and human movement.

Prerequisite: BMS 300 and BMS 301 and HES 403.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

HES 620 The Science of Healthspan Credits: 3 (3-0-0)

Course Description: A multidisciplinary approach to examining important biomedical topics in healthy aging. Covers topics in the field of biomedical research on healthy aging including: lifespan, healthspan, disease, interventions for maintaining health across the lifespan, and the biology, physiology and sociology of aging, from molecular events to clinical and population function.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HES 630 Integrative Exercise and Nutrition Metabolism Credits: 3 (3-0-0)

Also Offered As: FSHN 630.

Course Description: Advances in integrative human metabolism under conditions of changing energy flux.

Prerequisite: FSHN 551 and HES 610.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both FSHN 630 and HES 630.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 650 Health Promotion Programming Credits: 3 (3-0-0)

Course Description: Development of skills in health promotion program design, implementation and evaluation.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 692 Seminar Credit: 1 (0-0-1)

Course Description: Consideration of graduate education in health and exercise science.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 693 Seminar Credit: 1 (0-0-1)

Course Description: Current topics and issues in health and exercise science.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Maximum of 2 credits allowed in course.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 698 Research Credits: Var[1-18] (0-0-0)**Course Description:** Non-thesis research in health and exercise science.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**HES 699 Thesis Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**HES 700 Professional Skills in Bioenergetics Credits: 3 (2-0-1)****Course Description:** Grant writing, authorship, peer review process, responsible conduct of science, research ethics, professional conduct, career opportunities.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Admission to doctoral program, or admission to M.S. program and written consent of instructor.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**HES 704A Advanced Topics in Bioenergetics: Movement Credits: 3 (3-0-0)****Course Description:** Advanced topics in physiology, biochemistry, biomechanics, and neural control exploring pathogenesis and treatment of chronic disease.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Graduate standing. Maximum of 6 credits allowed in course.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**HES 704B Advanced Topics in Bioenergetics: Physiology Credits: 3 (3-0-0)****Course Description:** Advanced topics in physiology, biochemistry, biomechanics, and neural control exploring pathogenesis and treatment of chronic disease.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Graduate standing. Maximum of 6 credits allowed in course.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**HES 710 Exercise in Disease Prevention Credits: 3 (3-0-0)****Course Description:** Role of exercise/physical activity in the prevention, pathophysiology and treatment of chronic diseases.**Prerequisite:** HES 403 and HES 520.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**HES 784 Supervised College Teaching Credits: Var[1-3] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**HES 793 Bioenergetics Seminar Credit: 1 (0-0-1)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**HES 795 Independent Study Credits: Var[1-3] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**HES 796 Group Study Credits: Var[1-3] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**HES 798 Research Credits: Var[1-3] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**HES 799 Dissertation Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Major in Health and Exercise Science

Students may choose from two concentrations offered in the Major in Health and Exercise Science: Health Promotion or Sports Medicine.

Learning Outcomes

Students will demonstrate:

- Practical knowledge and skill development gained from laboratory assessments, capstone experiences, community engagement, research, practicums, and internships.
- Ability to integrate, apply, and effectively communicate health and exercise science disciplinary knowledge through written assignments, program development, community involvement, and oral presentations.

- The ability to develop professional and influential leadership skills based on a strong ethical foundation and a commitment to diversity, equity, and inclusion.
- Skills and knowledge required to successfully compete for employment within the discipline or compete for graduate or professional school placement

Potential Occupations

The United States and other developed countries are struggling with an aging and increasingly unhealthy population. Understanding the role of physical activity in preventing and treating disease and disability, and maintaining optimal health at any age is critical. There is high demand for graduates trained in the foundations of human movement such as anatomy, physiology, public health, exercise prescription, and health behavior change AND the ability to apply this knowledge to enhance the health, well-being, and functional performance of humans at every age.

We take pride in training students in Health and Exercise Science to be strong critical thinkers who can express themselves clearly in written and oral form, view the world from multiple perspectives, and are models of professional behavior and citizenship: qualities that will serve them well in any career they choose to pursue.

Graduates who choose the Health Promotion concentration also acquire theoretical and hands-on training that makes them competitive for career opportunities in a wide variety of areas including, but not limited to: corporate fitness/wellness, community health/wellness, public health, health behavior change, occupational or physical therapy, cardiac rehabilitation, personal training, group exercise/fitness instructors, and recreation directors.

In the Sports Medicine concentration, graduates acquire additional scientific training in biomechanics, neurophysiology, and human nutrition as well as an opportunity to use their capstone class for real-world experiences in laboratories, clinics, etc. This training provides excellent preparation for graduate studies in medicine, occupational therapy,

chiropractic, physician assistant, physical therapy, and exercise science research.

Concentrations

- Health Promotion Concentration
- Sports Medicine Concentration

Learn more about the Health and Exercise Science major on the Department of Health and Exercise Science website.

Major in Health and Exercise Science, Health Promotion Concentration

The Health Promotion concentration provides academic content and experience in promoting positive health behaviors such as physical activity, weight management, stress management, identification of risk factors associated with chronic disease (cardiovascular rehabilitation, cancer rehabilitation, pulmonary rehabilitation) and exercise prescription. The curriculum focuses on exercise science, behavior change, health promotion program development and practical field experiences. This concentration prepares students for careers in a wide variety of allied health fields for all ages, from youth to older adults. Graduates of this concentration pursue careers working in clinical rehabilitative settings, corporate health and wellness programs, fitness facility management, strength and conditioning, non-profit organizations, public health, chiropractic fields, therapeutic recreation, firefighting, and health/wellness areas. Students in this concentration have also been very successful in continuing their formal education with graduate school.

Learn more about the Health Promotion concentration on the Department of Health and Exercise Science website. (<https://www.chhs.colostate.edu/hes/programs-and-degrees/b-s-in-health-and-exercise-science/health-promotion-concentration/>)

PSY *** Upper-Division course(s)			3-6

Cardiac Care Internship Requirements

Students enrolling in internships in cardiac care must take HES 420 prior to the internship. Students may use elective credits in the sophomore, junior, or senior year to do so. A minimum grade of B (3.000) is required in HES 420 prior to internship placement.

Code	Title	Credits
HES 420	Electrocardiography and Exercise Management	3
It is recommended, but not required, that students enrolling in cardiac care internships take the following courses using elective credit:		
BMS 420	Cardiopulmonary Physiology	3
BMS 450	Pharmacology	3

¹ MATH 155 or MATH 160 can be substituted for MATH 118, MATH 124 and MATH 125.

² CHEM 111/CHEM 112 can be substituted for CHEM 107/ CHEM 108, and should be seriously considered by students who want to go on to graduate studies.

³ Students may substitute HES 307 and HES 319 for HES 303.

⁴ Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major in Health and Exercise Science, Sports Medicine Concentration

The Sports Medicine concentration provides excellent preparation for students seeking careers in medicine, physical therapy, occupational therapy, dentistry, or other similar health careers requiring an advanced degree (Master's and/or Ph.D.). It provides an extensive science background and a solid grounding in the foundations of human movement. Various courses include chemistry, biology, physics,

anatomy, kinesiology, exercise physiology, biomechanical principles and neuromuscular aspects of human movement. This track is dedicated to preparing students academically and professionally for their post-graduate programs and future careers in healthcare.

Learn more about the Sports Medicine concentration on the Department of Health and Exercise Science website.

Minor in Health and Exercise Science

A minor in Health and Exercise Science provides students in other majors with an opportunity to gain knowledge and skills specific to health and exercise science. Students in the minor program will gain core knowledge and skills in the fundamentals of exercise science, including anatomy, physiology, neuropsychology, and biomechanics. Additionally, students can select electives that provide a further understanding of health, and healthy behaviors as they relate to decreasing the risk of chronic disease and disability. The minor may be of special interest to students pursuing graduate programs in medicine and other health professions and health promotion fields.

Learn more about the Minor in Health and Exercise Science on the Department of Health and Exercise Science website. (<https://www.chhs.colostate.edu/hes/programs-and-degrees/b-s-in-health-and-exercise-science/minor-in-health-and-exercise-science/>)

Requirements Effective Fall 2023

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Code	Title	Credits
HES 145	Health and Wellness	3
HES 202	Introduction to Exercise Physiology	3

HES 450	Introduction to Human Clinical Medicine
HES 500	Environmental Exercise Physiology
HES 510	Bioethics—Concepts and Controversies
Total Credits	22

Certificate in Virtual Wellness Programming

The use of virtual platforms in many professions related to health and wellness has dramatically increased in recent years. This undergraduate certificate program will provide students with a strong understanding of health and health behaviors, and they will gain the knowledge and skills to deliver health and wellness-related programming using a virtual format. Additionally, students will be able to identify differential challenges that persons of various identities face and determine how these challenges may best be overcome to lead healthier lifestyles.

Learn more about the Certificate in Virtual Wellness Programming on the Department of Health and Exercise Science website. (<https://www.chhs.colostate.edu/hes/programs-and-degrees/certificate-in-virtual-wellness-programming/>)

Requirements Effective Fall 2022

Additional coursework may be required due to prerequisites.

Code	Title	Credits
HES 354	Theory of Health Behavior	3
HES 432	Virtual Coaching for Wellness	3
SPMT 314	Inclusive Sport Organizations	3
Program Total Credits:		9

Master of Science in Health and Exercise Science, Plan A

The Master of Science in Health and Exercise Science, Plan A, offers students a health-oriented, science-based curriculum and research experience. The program is a scientifically rigorous, research-focused program that prepares students for further education and/or careers in health and exercise science-related fields. The program is structured to prepare students for further education including doctoral study, physical and occupational therapy, and medicine (e.g., physicians, physician assistants, and nursing). Graduates are represented by careers in health-related research and development and medical and allied health professions.

Learn more about the Master's in Health and Exercise Science on the Department of Health and Exercise Science website.

Requirements Effective Fall 2022

Code	Title	Credits
HES 510	Bioethics--Concepts and Controversies	3
HES 600	Research Design in Health/Exercise Science	3
Select 6 credits from the following:		6
HES 500	Environmental Exercise Physiology	
HES 602	Advanced Physiology of Exercise	
HES 608	Physical Activity Intervention Development	
HES 610	Exercise Bioenergetics	
HES 619	Advanced Neural Control of Movement	
HES 620	The Science of Healthspan	

HES 693	Seminar (1 credit seminar, min 2 semesters required) ¹	2
HES 793	Bioenergetics Seminar	1
Statistics ²		3
Electives ³		6
HES 699	Thesis	12
Program Total Credits:		36

A minimum of 36 credits are required to complete this program.

¹ Seminar must be taken for a minimum of 2 credits (2 semesters) but can be taken more than twice.

² Select three credits of statistics with approval of advisor.

³ Select enough 500-level or above elective credits with approval of advisor to bring the program total to 36 credits.

Ph.D. in Human Bioenergetics

The Ph.D. in Human Bioenergetics covers all aspects of Health and Exercise Science. While it primarily prepares students for academic and research careers, it is also a pathway to careers outside academia (e.g. public health, research foundations, footwear/equipment, pharmaceutical, or nutrition industries) that require advanced training in research. The program trains professionals in basic and applied research centered around preventing age-related decline in human health and function, understanding the pathophysiology of disease and disability, as well as designing and testing novel countermeasures and maximizing functional performance in first responders, soldiers, and athletes.

Learn more about the Ph.D. in Human Bioenergetics on the Department of Health and Exercise Science website.

Requirements Effective Fall 2022

Ph.D. course requirements include a minimum of 72 credits for each of three entry routes:

Entry A: For students who have completed the CSU M.S. degree in Health and Exercise Science, up to 30 credits can be applied toward partial fulfillment of the required 72 credits.

Entry B: For students who submit a previously earned Master's degree from an institution other than CSU, up to 30 credits may be accepted toward partial fulfillment of the required 72 credits. All credits accepted toward partial fulfillment of the requirements below must be approved by

the Director of the Health and Exercise Science Graduate Program and the Graduate School.

Entry C: For students who do not submit a Master's degree in partial fulfillment of the required 72 credits, up to 10 credits earned after the bachelor's degree may be accepted for transfer. Only courses taken at a 500-level or higher will be considered. All potential credits accepted toward partial fulfillment of the requirements below must be approved by the student's graduate committee, the Department of Health and Exercise Science, and the Graduate School.

Code	Title	Credits
HES 510	Bioethics--Concepts and Controversies	3
Select 9 credits from the following:		9
HES 500	Environmental Exercise Physiology	
HES 600	Research Design in Health/Exercise Science	
HES 602	Advanced Physiology of Exercise	
HES 608	Physical Activity Intervention Development

Professor Julie Braungart-Rieker, Department Head

Enhancing Healthy Development

Through training, research, and engagement, we examine human development across the lifespan in the context of families, schools, communities, and culture.

Undergraduate Majors

- Major in Early Childhood Education
- Major in Human Development and Family Studies
 - Early Childhood Professions Concentration
 - Human Development and Family Studies Concentration
 - Leadership and Advocacy Concentration
 - Leadership and Entrepreneurial Professions Concentration (No new students are being admitted into this concentration. Please see the Leadership and Advocacy Concentration).
 - Pre-Health Professions Concentration
 - Prevention and Intervention Sciences Concentration

Minor

- Minor in Human Development and Family Studies

Certificate

- Youth Mentoring with Campus Connections

Online Degree Programs

The major in Human Development and Family Studies (HDFS) is offered in two formats, both leading to a Bachelor of Science degree. We offer classes to on-campus degree-seeking students and we offer distance students the HDFS degree through CSU Online (<http://www.online.colostate.edu/degrees/hdfs/>). The major in Human

Development and Family Studies offered through CSU Online provides a flexible, convenient, and accessible format for busy, working, or distance students. The online program of study is the same as the on-campus version, is fully accredited, and is indistinguishable on student transcripts and diplomas from the on-campus version. The Gerontology Interdisciplinary Minor and courses required to pursue a variety of certifications are also available online.

Accelerated Program

The major in Human Development and Family Studies includes an accelerated program option (<https://provost.colostate.edu/accelerated-programs/>) for students to graduate on a faster schedule. Accelerated Programs typically include 15-16 credits each fall and spring semester for three years, plus 6-9 credits over two to three summer sessions (<https://summer.colostate.edu/acceleratedprograms/>). Students who enter CSU with prior credit (AP, IB, transfer, etc.) may use applicable courses to further accelerate their graduation. Visit the Office of the Provost website for additional information about Accelerated Programs (<https://provost.colostate.edu/accelerated-programs/>).

Gerontology Interdisciplinary Minor

The Gerontology Interdisciplinary Minor is housed in HDFS and is available on-campus as well as online. The Gerontology Interdisciplinary Minor offers students the opportunity to earn an undergraduate minor in gerontology with training across multiple disciplines. The Gerontology Interdisciplinary Minor prepares students to work in a variety of fields where it is critical to understand the aging process, including the biological, psychological and social aspects of adult development and aging. Admission is ongoing throughout the year. The full program may be found under University-Wide Instructional Programs.

Graduate Graduate Programs in Human Development and Family Studies

The Department of Human Development and Family Studies (HDFS) offers a Master of Science degree with two specializations and one doctoral program in Applied Developmental Science. The focus of the department is on the study of individual and family development across the lifespan; the development, implementation, and evaluation of intervention and prevention programs for individuals and families at risk; and the influence of social institutions such as schools and communities on development. Our graduate programs advance students' understanding of human behavior and development, as well as enable them to contribute to scholarship and professional practice.

Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Human Development and Family Studies (<http://www.hdfs.chhs.colostate.edu/students/>). (<http://hdfs.chhs.colostate.edu/students/masters/>)

Certificate

- Prevention Program Planning & Evaluation

Master's Programs

There are two specializations offered under the Master of Science in HDFS: Prevention Science and Marriage and Family Therapy. Curricula in both programs include core courses in individual development, family

theories, current research and issues in HDFS, and research methods. A research thesis is also required.

- Master of Science in HDFS, Plan A
- Master of Science in HDFS, Marriage & Family Therapy Specialization, Plan A and Plan B
- Master of Science in HDFS, Plan A, Prevention Science Specialization

Online Master's Program

The online Master of Prevention Science Practice trains graduates to implement evidence-based prevention programs for use at the community-level in preventing mental, emotional, and behavioral disorders. The course work emphasizes lifespan developmental processes and normative family functioning, as well as theories of prevention science and risk and resilience.

- Master of Prevention Science Practice, Plan C (M.P.S.P)

Ph.D.

The program in Applied Developmental Science builds upon coursework completed in a master's program, yet allows for more advanced, tailored, and personalized learning. Doctoral training also emphasizes mentorships with faculty in order to apply coursework to research in students' areas of specialization.

- Ph.D. in Applied Developmental Science

Courses

Human Development and Family Studies (HDFS)

HDFS 101 Individual and Family Development (GT-SS3) Credits: 3 (3-0-0)

Course Description: Principles of life-span human development in the context of the family. Theory and research on the influence of family systems on individuals.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Social & Behavioral Sciences 3C, Human Behavior, Culture, or Social Frameworks (GT-SS3).

HDFS 160 Mentees/First Year Success I Credit: 1 (0-2-0)

Course Description: Mentoring course for first-year underrepresented HDFS students to support successful transition to the university and department through one-to-one peer mentoring with upper class HDFS student, and participation in community activities.

Prerequisite: None.

Restrictions: Must not be a: Sophomore, Junior, Senior. Must be a: Undergraduate.

Registration Information: HDFS majors and freshman only. Written consent of instructor. Students must complete an application and be admitted into the program to register. Credit not allowed for both HDFS 160 and HDFS 180A1.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 170 Mentees/First Year Success II Credit: 1 (0-2-0)

Course Description: Mentoring course that supports successful transition to the university through one-to-one peer and group mentoring with advanced Human Development and Family Studies students. Explore intersecting identities, university resources, professional skill development, and community service through the mentoring relationship.

Prerequisite: HDFS 160.

Restrictions: Must not be a: Sophomore, Junior, Senior. Must be a: Undergraduate.

Registration Information: HDFS majors and freshman only. Written consent of instructor. Credit not allowed for both HDFS 170 and HDFS 180A2.

Term Offered: Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 201 Perspectives in Gerontology Credits: 3 (3-0-0)

Course Description: Multidisciplinary perspectives on a variety of issues in human aging; exploration of careers in gerontology; service-learning with older adults; emphasis on applied gerontology.

Prerequisite: HDFS 101 or PSY 100 or SOC 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 217 Creative Experiences for Children Credits: 3 (2-0-1)

Course Description: Theories of play and creativity as the foundation for examining the role of interdisciplinary interests (arts, music, literature, science, math) in early childhood development. Exploration of creative techniques appropriate for young children (ages 0-8 years) and how these strategies enhance the child's self-expression, creativity, and development in educational, medical, and therapeutic settings. Exploration of curriculum cycle: observation, planning, implementation, reflection, and feedback.

Prerequisite: HDFS 101 or PSY 100.

Registration Information: Must register for lecture and recitation.

Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 250 Introduction to Research Methods Credits: 3 (3-0-0)

Course Description: Interpret, describe, and appraise research in human development and family studies.

Prerequisite: HDFS 101 or PSY 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 275 Foundational Helping Skills Credits: 3 (3-0-0)

Course Description: Introduction to helping skills in healthcare and human service settings including strength-based techniques to support clients and opportunities and challenges related to the well-being of helping professionals. Exploration of ethical practices, including boundaries, scope of practice, and collaboration as well as the impact of culture, bias, and equity in working with individuals, couples, and families.

Prerequisite: HDFS 101 or PSY 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 277 Introductory Seminar in HDFS Credit: 1 (1-0-0)

Course Description: Introduction to human development and family studies field, major and concentration requirements, resources, and career exploration. An inclusive environment to develop and practice the necessary skills to transition to the major and academic expectations of the department and college.

Prerequisite: None.

Registration Information: Human Development and Family Studies or Early Childhood Education majors only. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 286 Practicum Credits: 3 (0-0-6)

Course Description: Career exploration and community placement opportunities to observe individuals/families throughout the lifespan and apply knowledge gained from prior coursework in human development and family studies.

Prerequisite: HDFS 101.

Registration Information: Required background check through CBI, FBI. Offered as an online course only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 310 Infant and Child Development in Context Credits: 3 (3-0-0)

Course Description: Physical, cognitive, and socioemotional development from birth through middle childhood in context of family, relationships, and culture.

Prerequisite: HDFS 101 or PSY 100.

Registration Information: Completion of 30 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 311 Adolescent/Early Adult Development in Context Credits: 3 (3-0-0)

Course Description: Physical, cognitive, and socioemotional development of adolescents and young adults in context of family, relationships, and culture.

Prerequisite: HDFS 101 or PSY 100.

Registration Information: Completion of 30 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 312 Adult Development-Middle Age and Aging Credits: 3 (3-0-0)

Course Description: Developmental issues and processes pertaining to middle and later adulthood. Contexts in which adult development and aging occur are emphasized.

Prerequisite: HDFS 101 or PSY 100.

Registration Information: Completion of 30 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 315 Disability across the Lifespan and Culture Credits: 3 (3-0-0)

Course Description: Use of interdisciplinary perspective to understand individuals who have disabling conditions relevant to careers in health, educational, rehabilitation, and human service professions. Causes, outcomes, and intervention of commonly occurring disabilities and health conditions (e.g., congenital disabilities, diabetes, spinal cord injuries).

Prerequisite: HDFS 101.

Registration Information: Sophomore standing. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 317 Disabilities in Early Childhood Education Credits: 3 (3-0-0)

Course Description: Developmental and learning outcomes in young children with disabilities 0-8 years in the early childhood education context. Examine atypical development, inclusive education, strategies and intervention, and family partnerships relevant to early interventionists, educators, and related services, such as occupational therapy, physical therapy, speech-language pathology, music therapy, and applied behavioral analysis.

Prerequisite: HDFS 310.

Registration Information: Sophomore standing. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 318 Infancy and Toddlerhood Credits: 3 (3-0-0)

Course Description: Physical, cognitive, language, and socio-emotional development from pre-birth through 36 months, with an emphasis on applied settings.

Prerequisite: HDFS 310 or PSY 260.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 332 Death, Dying, and Grief Credits: 3 (3-0-0)

Course Description: Developmental processes of death and dying related to the dying individuals and their families and for human service agencies.

Prerequisite: HDFS 101 or PSY 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 334 Family and Parenthood Across the Lifespan Credits: 3 (3-0-0)

Course Description: Practical, theoretical, and empirical information on the dynamics of family and parenthood across the lifespan. Emphasis on understanding how families and parents in diverse ecological and social contexts experience their roles and relationships. Exploration of factors that contribute to risk as well as evidence-based practices to support and enhance family systems and parents.

Prerequisite: HDFS 101 or PSY 100.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 350 Applied Research Methods Credits: 3 (2-2-0)

Course Description: Analyze, interpret, apply, and write about research findings in human development.

Prerequisite: (HDFS 101 or PSY 100) and (STAT 201 or STAT 301).

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Completion of 60 credits. Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 360 Leadership Through Peer Mentoring I Credit: 1 (0-2-0)

Course Description: Mentoring HDFS students in one-to-one peer mentoring with first-year, underrepresented HDFS students to support their successful transition to the university and department.

Prerequisite: None.

Restrictions: Must not be a: Freshman, Sophomore. Must be a: Undergraduate.

Registration Information: HDFS majors only. Junior standing. Written consent of instructor. Students must complete an application and be admitted into the program to register. May be repeated up to two times for credit.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 370 Leadership Through Peer Mentoring II Credit: 1 (0-2-0)

Course Description: Leadership through one-to-one peer mentoring relationships with first-year Human Development and Family Studies students to support their successful transition to the university and department. Explore intersecting identities, university resources, professional skill development, and community service through the mentoring relationship.

Prerequisite: HDFS 360.

Restrictions: Must not be a: Freshman, Sophomore. Must be a: Undergraduate.

Registration Information: HDFS majors only. Junior standing. Written consent of instructor. May be repeated up to two times for credit.

Term Offered: Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 375 Lifespan Intervention and Prevention Science Credits: 3 (3-0-0)

Course Description: Intervention and prevention approaches and skills to improve the health, mental health, and well-being of families and individuals across the lifespan.

Prerequisite: HDFS 310 and HDFS 311.

Registration Information: Completion of 60 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 402 Couple and Family Studies Credits: 3 (3-0-0)

Course Description: Theory and research concerning couple and family processes; social contexts in which couples and families change over time.

Prerequisite: HDFS 334.

Registration Information: Completion of 60 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 403 Families in the Legal Environment Credits: 3 (3-0-0)

Course Description: The intersection of individuals, children, families and the legal system, including the balance between the right to privacy and government intervention, and social disparities in the legal system. Topics include: establishing the legal parent relationship, adoption, the rights of children and parents, marriage, divorce, dependency and neglect, family violence, disability and estate planning, juvenile delinquency, legalities of gender, and landlord/tenant and housing policy.

Prerequisite: None.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Completion of 60 credits. Offered as an online course only. Required field trips.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 404 Child Life Theory and Practice Credits: 3 (3-0-0)

Course Description: Theories and skills related to effective child life practice in hospitals.

Prerequisite: HDFS 310 or PSY 260.

Registration Information: Sections may be offered: Online.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 410 Promoting Early Socioemotional Development Credits: 3 (3-0-0)

Course Description: Social and emotional development in children ages 3-8: atypical and typical development, developmental theories and models, risk and protective factors, evidence-based programs, and empirically validated teaching strategies for preventing challenging behaviors and fostering adaptive social skills and emotion regulation.

Prerequisite: HDFS 310 and HDFS 334.

Registration Information: Completion of 60 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 411 Developmental Transitions in Adolescence Credits: 3 (3-0-0)

Course Description: Examination of biological, socio-emotional, cognitive, and behavioral changes during adolescence.

Prerequisite: HDFS 311 and HDFS 334.

Registration Information: Completion of 60 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 412 Mental and Physical Health in Adulthood Credits: 3 (3-0-0)

Course Description: Mental and physical health of adults, contextual factors of development, and implications for prevention, intervention, and public health planning.

Prerequisite: HDFS 312.

Registration Information: Completion of 60 credits. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 434 Risk and Resilience Across the Lifespan Credits: 3 (3-0-0)

Course Description: Why some individuals are at high risk for poor developmental outcomes, and why certain individuals fare well despite such risks or adversities. Strong developmental emphasis because resilience is viewed as a process, the results of which may not be manifest for years. There is an ecological emphasis because protective and vulnerability factors often reside in families, schools, neighborhoods.

Prerequisite: HDFS 375.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Completion of 60 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 439 Administration of Early Childhood Programs Credits: 3 (3-0-0)

Course Description: Center administration related to program development and operations, budgeting, state regulations and licensing, and personnel issues.

Prerequisite: HDFS 310.

Registration Information: Completion of 60 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 445 Early Childhood Health, Safety, and Nutrition Credits: 3 (0-0-3)

Also Offered As: FSHN 445.

Course Description: Planning, promoting and maintaining healthy life style and safe learning environment for preschool children. Nutrition, first aid and safety, physical activity, identifying and reporting abuse, prevention and management of acute illness and chronic disease and promotion of a high-quality indoor and outdoor environment, targeted for the early childhood education professional.

Prerequisite: HDFS 310.

Registration Information: Completion of 60 credits. Offered as an online course only. Credit not allowed for both FSHN 445 and HDFS 445.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 470A Campus Connections—Mentoring At-Risk Youth: Youth Mentor Credits: 3 (0-4-2)

Course Description: Service-learning course engaging students as mentors with local at-risk youth.

Prerequisite: None.

Registration Information: Written consent of instructor. Must register for laboratory and recitation. Students must complete an application and a required background check through CBI, FBI. Course may be taken for a maximum of 9 credits.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

HDFS 470B Campus Connections–Mentoring At-Risk Youth: Mentor Coach Credits: 3 (0-4-2)

Course Description: Serve as mentor coach in a service-learning course engaging students as mentors with local at-risk youth.

Prerequisite: HDFS 470 or HDFS 470A.

Registration Information: Written consent of instructor. Must register for laboratory and recitation. Students must complete an application and a required background check through CBI, FBI. Course may be taken for a maximum of 9 credits.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

HDFS 470C Campus Connections–Mentoring At-Risk Youth: Program Administration Credits: 3 (0-4-2)

Course Description: Provide administrative support to a service-learning program for local at-risk youth.

Prerequisite: None.

Registration Information: Written consent of instructor. Must register for laboratory and recitation. Students must complete an application and a required background check through CBI, FBI. Course may be taken for a maximum of 9 credits.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 475 Leadership and Advocacy in Human Services Credits: 3 (2-0-1)

Course Description: Theory and research on leadership as applied to professional communication and decision-making in human services settings. Qualities, responsibilities, and ethical standards essential for successful leadership. Theories and practices related to advocacy including identification of areas of inequality and opportunities for advocacy as human service professionals. Applicable to students pursuing a variety of careers in healthcare, education, human services, and social entrepreneurship.

Prerequisite: HDFS 101 or PSY 100.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Completion of 60 credits. Must register for lecture and recitation. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 477A Professional Preparation: Local Internship Placements Credit: 1 (1-0-0)

Course Description: Exploration of professionalism, workplace issues, leadership and communication skills, goal setting, self-management, and building a professional identity in person, writing, and online. Completion of steps to secure an internship for students seeking a local internship, selecting from a list of pre-approved internship sites within 30 miles of the CSU Fort Collins campus.

Prerequisite: HDFS 350, may be taken concurrently.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Human Development and Family Studies majors only. Offered as an online course only. Credit not allowed for both HDFS 477A and HDFS 478.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 477B Professional Preparation: Distance Internship Placements Credit: 1 (1-0-0)

Course Description: Exploration of professionalism, workplace issues, leadership and communication skills, goal setting, self-management, and building a professional identity in person, writing, and online. Completion of steps to secure own internship site more than 30 miles outside of Fort Collins.

Prerequisite: HDFS 350, may be taken concurrently.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Human Development and Family Studies majors only. Offered as an online course only. Credit not allowed for both HDFS 477B and HDFS 478.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 478 HDFS Professional Development Credit: 1 (1-0-0)

Course Description: Exploration of professionalism, workplace issues, leadership and communication skills, goal setting, self-management, and building a professional identity in person, writing, and online. Understand the skills and attributes required to become a successful HDFS professional.

Prerequisite: HDFS 350, may be taken concurrently.

Registration Information: Completion of 60 credits. Written consent of instructor. Human Development and Family Studies majors only. Sections may be offered: Online. Credit not allowed for both HDFS 477 and HDFS 478.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 484 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 488A Internship: Human Development and Family Studies Credits: Var[4-6] (0-0-0)

Course Description: Provides an opportunity to integrate HDFS classroom knowledge into real-world experiences. Students complete 4-6 credits at an internship site established and approved by the HDFS Department. Weekly meetings with internship site supervisors foster the development of professional skills and feedback to enhance students' performance, conduct, ethics, and communication skills for the workplace.

Prerequisite: HDFS 477A or HDFS 477B.

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Completion of 90 credits. Background check required. Human Development and Family Studies majors only. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 488B Internship: Early Childhood Credits: Var[4-6] (0-0-0)

Course Description: Provides an opportunity to integrate HDFS classroom knowledge into real-world experiences. Students complete 4-6 credits at an internship site established and approved by the HDFS Department. Weekly meetings with internship site supervisors foster the development of professional skills and feedback to enhance students' performance, conduct, ethics, and communication skills for the workplace.

Prerequisite: HDFS 477A or HDFS 477B.

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Completion of 90 credits. Background check required. Human Development and Family Studies majors only. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 488C Internship: Pre-Health Credits: Var[4-6] (0-0-0)

Course Description: Provides an opportunity to integrate HDFS classroom knowledge into real-world experiences. Students complete 4-6 credits at an internship site established and approved by the HDFS Department. Weekly meetings with internship site supervisors foster the development of professional skills and feedback to enhance students' performance, conduct, ethics, and communication skills for the workplace.

Prerequisite: HDFS 477A or HDFS 477B.

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Completion of 90 credits. Background check required. Human Development and Family Studies majors only. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 488D Internship: Prevention/Intervention Science Credits: Var[4-6] (0-0-0)

Course Description: Provides an opportunity to integrate HDFS classroom knowledge into real-world experiences. Students complete 4-6 credits at an internship site established and approved by the HDFS Department. Weekly meetings with internship site supervisors foster the development of professional skills and feedback to enhance students' performance, conduct, ethics, and communication skills for the workplace.

Prerequisite: HDFS 477A or HDFS 477B.

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Completion of 90 credits. Background check required. Human Development and Family Studies majors only. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 488E Internship: Leadership Credits: Var[4-6] (0-0-0)

Course Description: Provides an opportunity to integrate HDFS classroom knowledge into real-world experiences. Students complete 4-6 credits at an internship site established and approved by the HDFS Department. Weekly meetings with internship site supervisors foster the development of professional skills and feedback to enhance students' performance, conduct, ethics, and communication skills for the workplace.

Prerequisite: HDFS 477A or HDFS 477B or HDFS 477.

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Completion of 90 credits. Background check required. Human Development and Family Studies majors only. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 492 Capstone--Evidence-Based Program Proposals Credits: 3 (0-0-3)

Course Description: Research, development, and oral presentations of evidence-based prevention or intervention program proposals from a contextual and developmental perspective.

Prerequisite: HDFS 350.

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Major in Human Development and Family Studies or Early Childhood Education. Completion of 90 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 493 Specialized Seminar Credits: 3 (0-0-3)

Course Description: Advanced study of theory, research, and application in a specialized area.

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 495A Independent Study: Human Development Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 495B Independent Study: Family Studies Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 495C Independent Study: Early Childhood Education Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 497A Group Study: Peer Advising Credits: Var[1-3] (0-0-0)

Course Description: Serve as an active member of the Peer Advising Team by providing assistance to undergraduate students and support to the HDFS advisors to enhance the services provided by the HDFS Undergraduate Advising Office.

Prerequisite: HDFS 277.

Registration Information: Written consent of department required.

Terms Offered: Fall, Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

HDFS 497B Group Study: Undergraduate Outreach and Leadership Credits: Var[1-3] (0-0-0)

Course Description: Application of human development skills in a variety of settings.

Prerequisite: None.

Registration Information: Written consent of department required. A maximum of 3 credits may count toward a student's concentration. Course may be repeated up to nine times for elective credit.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 497C Group Study: Student Respect/Wellness Education Credits: Var[1-3] (0-0-0)

Course Description: Application of human development skills in a variety of settings.

Prerequisite: None.

Registration Information: Written consent of department required. A maximum of 3 credits may count toward a student's concentration. Course may be repeated up to nine times for elective credit.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 497D Group Study: Asian/Pacific American Cultural Center Credits: Var[1-3] (0-0-0)

Course Description: Application of human development skills in a variety of settings.

Prerequisite: None.

Registration Information: Written consent of department required. A maximum of 3 credits may count toward a student's concentration. Course may be repeated up to nine times for elective credit.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 497E Group Study: Rites of Passage Mentoring Program Credit: 1 (0-0-1)

Course Description: Peer mentoring, assisting with a retreat for incoming first year students, attending seminars/community building forums, community service involvement, providing academic resource information, and leadership development. The goal of this course is to improve the academic performance and retention rate of African American first-year and transfer students.

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 497F Group Study: Honors Human Development Credits: Var[1-3] (0-0-0)

Course Description: Application of human development skills in a variety of settings.

Prerequisite: None.

Registration Information: Written consent of department required. A maximum of 3 credits may count toward a student's concentration. Course may be repeated up to nine times for elective credit.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 497G Group Study: Human Development Credits: Var[1-3] (0-0-0)

Course Description: Application of human development skills in a variety of settings.

Prerequisite: None.

Registration Information: Written consent of department required. A maximum of 3 credits may count toward a student's concentration. Course may be repeated up to nine times for elective credit.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 498A Research: Human Development Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 498B Research: Family Studies Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 499 Thesis Credits: Var[1-6] (0-0-0)

Course Description: Independent research project presented to a faculty committee.

Prerequisite: None.

Registration Information: Written consent of department chair.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 500 Issues in Human Development & Family Studies Credits: 3 (2-3-0)

Course Description: A selected, broad issue in human development and family studies emphasizing principles of research.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 505 Human Development for Helping Professionals Credits: 3 (3-0-0)

Course Description: An advanced overview of lifespan development, focusing on wellness promotion and developmental influences on case conceptualization and treatment.

Prerequisite: None.

Registration Information: Graduate standing or written consent of instructor. This is a partial semester course. Offered as an online course only.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 515 Family Systems and Psychopathology Credits: 3 (3-0-0)

Course Description: Assessment and diagnosis of mental illness within the context of family systems.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Admission to Marriage and Family Therapy Program.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 520 Family Therapy Practice: Treatment Planning Credits: 3 (1-2-1)

Course Description: Integration of family/couple therapy theories and practice related to treatment planning and internal family systems therapy.

Prerequisite: None.

Registration Information: Admission to the Marriage and Family Therapy Program.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

HDFS 521 Family Therapy Practice: Common Factors Credits: 3 (1-2-1)

Course Description: Application of common factors - e.g., therapeutic alliance - in family and couple therapy.

Prerequisite: None.

Registration Information: Admission to the Marriage and Family Therapy Program. Must register for lecture, laboratory, and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

HDFS 524 Family Studies Credits: 3 (2-0-1)

Course Description: Major theories and content areas in the field of family studies with an emphasis on family diversity.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Must register for lecture and recitation. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 534 Marriage and Family Therapy Credits: 3 (3-0-0)

Course Description: Theories and techniques.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Admission to Marriage and Family Therapy Program or permission of instructor.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 545 Program Evaluation Methods and Statistics Credits: 3 (3-0-0)

Course Description: Introduction to program evaluation methods, empirical research, data analysis, and interpretation in prevention science.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. This is a partial semester course. Offered as an online course only.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 549 Research Methods I Credits: 3 (3-0-0)

Course Description: Introduction to empirical research, data analysis, and interpretation in Human Development and Family Sciences.

Prerequisite: None.

Registration Information: Required: 3 credits of STAT; 3 credits of upper division behavioral sciences.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 550 Research Methods II Credits: 3 (3-0-0)

Course Description: Research strategies and ethical considerations.

Prerequisite: HDFS 549.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 590A Workshop: Human Development Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 590B Workshop: Family Studies Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 592 Grant Writing--Research/Program Development Credits: 3 (1-0-2)

Course Description: Foundational skills underlying grantsmanship for human services professionals in research, community-based programming, and training or professional development. Interactive development of skills to seek funding, think critically, write technically, and work and plan collaboratively in order to develop strong grant proposals across varying contexts.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 593 Seminar--Human Services Leadership Credit: 1 (0-0-1)

Course Description: Investigates issues relevant to human development and family studies, such as human services, non-profits, and other enterprises related to helping individuals, couples, and families.

Prerequisite: None.

Registration Information: Junior standing. Admission in a graduate program at Colorado State University or consent of instructor. Must have concurrent registration in HDFS 475. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 600 Professional Development Seminar Credit: 1 (0-0-1)

Course Description: Essential professional development topics in the social sciences. Prepare and apply for a variety of post-graduate positions.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: May be repeated multiple times.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 607 Prevention Science Across the Lifespan Credits: 3 (2-0-1)

Course Description: Theory, methods, interventions, and standards of evidence in preventing mental, emotional, and behavioral disorders.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 608 Program Planning and Implementation Credits: 3 (2-2-0)

Course Description: Design or adapt research-based prevention programs from a family-centered, developmentally appropriate perspective.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 609 Prevention Program Evaluation Credits: 3 (3-0-0)

Course Description: Concepts and practices of program evaluation in prevention science.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 610 Risk and Resilience Credits: 3 (3-0-0)

Course Description: Factors influencing risk for poor developmental outcomes and resilience despite risks or adversities. Risk and resilience are presented as developmental processes influenced by ecological factors residing in families, schools, and neighborhoods.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 611 Early Child Development Credits: 3 (3-0-0)

Course Description: Social, emotional, neurophysiological, cognitive, and contextual factors influencing children's development. Research-based applications to promote optimal development.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 612 Adolescent Development Credits: 3 (2-0-1)

Course Description: Review of key theoretical approaches and empirical research pertaining to the developmental period of adolescence using a multidisciplinary framework for understanding the many different and important facets of adolescent health.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 613 Adult Development and Aging Credits: 3 (2-0-1)

Course Description: Biological, psychological, and selected sociological aspects of individual and interpersonal development in adulthood and aging from a life-span perspective.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 620 Family Therapy Practice: Addictions Credits: 3 (1-2-1)

Course Description: Application of marriage and family therapy theories to clinical practice with a focus on addiction and self-of-the-therapist.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Marriage and Family Therapy Program.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

HDFS 621 Family Therapy Practice: Topics in Sexuality Credits: 3 (1-2-1)

Course Description: Integration of family therapy theories and practice related to topics in sexuality, termination and referral, and one's personal theory of change.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Marriage and Family Therapy Program.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

HDFS 624 Skills and Techniques in Family Therapy Credits: 3 (3-0-0)

Course Description: Elaboration of techniques and therapy skills based on theory and research.

Prerequisite: HDFS 534.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Marriage and Family Therapy Program or permission of instructor.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 636 Aging and the Family Credits: 3 (3-0-0)

Course Description: Theory and research relating to topics on aging during middle and late years of family life cycle.

Prerequisite: HDFS 300 to 481 - at least 1 course.

Restriction: Must be a: Graduate, Professional.

Registration Information: One course in adult development or 6 credits of upper-division behavioral science.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 644 Foundations in Family Therapy Credits: 3 (3-0-0)

Course Description: Contemporary research and treatment strategies for parenting problems, family violence, and substance abuse.

Prerequisite: HDFS 534.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Marriage and Family Therapy Program or permission of instructor.

Term Offered: Summer (even years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 650 Multivariate Research Methods I Credits: 3 (2-0-1)

Course Description: Statistical concepts and analysis.

Prerequisite: HDFS 550.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Must register for lecture and recitation.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 676 Professional Skills Development Credits: 3 (3-0-0)

Course Description: Fundamental skills of marriage and family therapy; clinic procedures; case assessment, planning, and management.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Marriage and Family Therapy Program.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 677 Ethical and Legal Issues Credits: 3 (0-0-3)

Course Description: Ethical and legal issues in field of human development and family studies.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 686A Practicum: Human Development Credits: Var[1-15] (0-0-0)

Course Description: Application of human development skills in a variety of professional settings.

Prerequisite: HDFS - at least 9 credits.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 686B Practicum: Family Studies Credits: Var[1-15] (0-0-0)

Course Description: Application of human development skills in a variety of professional settings.

Prerequisite: HDFS - at least 9 credits.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 686D Practicum: Developmental Assessment Credits: Var[1-15] (0-0-0)

Course Description: Application of human development skills in a variety of professional settings.

Prerequisite: HDFS - at least 9 credits.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 697 Group Study Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 698A Research: Human Development Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 698B Research: Family Studies Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: HDFS 550.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 710 Theories of Applied Developmental Science Credits: 3 (3-0-0)

Course Description: Theories of applied developmental science, and implications for intervention and policy.

Prerequisite: HDFS 500.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 750 Multivariate Research Methods II Credits: 3 (3-0-0)

Course Description: Applications of multivariate methods to research in applied developmental science.

Prerequisite: HDFS 650.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 772 Marriage and Family Therapy Supervision Credits: 3 (2-0-1)

Course Description: Prepares professionals to supervise marriage and family therapists in a variety of settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 792A Seminar: Lifespan Socioemotional Development Credits: 3 (0-0-3)

Course Description: Current issues in applied developmental science involving a synthesis of theory, research, and application.

Prerequisite: HDFS 500.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 792B Seminar: Lifespan Cognitive Development Credits: 3 (0-0-3)

Course Description: Current issues in applied developmental science involving a synthesis of theory, research, and application.

Prerequisite: HDFS 500.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 792C Seminar: Special Topics Credits: 3 (0-0-3)

Course Description: Current issues in applied developmental science involving a synthesis of theory, research, and application.

Prerequisite: HDFS 500.

Restriction: Must be a: Graduate, Professional.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 799 Dissertation Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

Major in Early Childhood Education

(Effective Spring Semester 2015, the major in Early Childhood Education replaces the preparation for teacher licensure in Early Childhood Education, Birth through Grade 3. Contact the department for details.)

The Department of Human Development and Family Studies (HDFS), in collaboration with the Center for Educator Preparation (<http://cep.chhs.colostate.edu/>) within the School of Education (<http://soe.chhs.colostate.edu/>) (SOE), provides a competitive-entry major in Early Childhood Education. Students aspiring to work with newborns through children eight years of age can apply to the major in Early

Childhood Education during their sophomore year. The admission process occurs once a year during the spring semester, with the admitted candidates beginning in the fall. If accepted, students take courses in HDFS and SOE as part of their degree requirements.

Interested students are encouraged to check the program of study and consult with HDFS academic advisers, as some prerequisites are required before entry into the major. The Early Childhood Education major uses a cohort model and admits a limited number of students, typically 25-30, each year. Students in the Early Childhood Education major achieve both Early Childhood Education core learning outcomes, obtained through HDFS and SOE courses, and all learning outcomes required by the **Colorado Department of Education for Early Childhood Education licensure**.

The degree enables students to apply for Early Childhood teacher licensure and Director Qualification (https://www.coloradoofficeofearlychildhood.com/oec/OEC_Providers/?p=Providers&s=Professional-Certifications&lang=en) in the state of Colorado. It qualifies students to engage in several early childhood professions supporting the development and education of infants, toddlers, and young children (0 - 8 years). Graduates may work in a range of contexts such as Pre-K to 3rd grade in Colorado public or private schools, Head Start, other preschool or childcare programs, family or center care provider businesses, or serve as directors of childcare centers. An understanding of human development and family studies provides a strong foundation for students desiring a license to teach infants and young children. Knowledge of lifespan developmental processes and family systems prepares future teachers to partner with parents, grandparents, and other caregivers to educate children.

Students who complete this program will be prepared to pursue licensure in Colorado. Licensure requirements in other states and U.S. territories may differ. Students are encouraged to work with the department and the professional licensure board in the state where they intend to pursue licensing to ensure all requirements are satisfactorily met.

Learning Outcomes

Students will demonstrate:

- Content knowledge and understanding of theory, research, and practice relevant to optimizing the development, health, and well-being of children and families in the context of the larger social environment.
- Effective written and oral communication skills appropriate for early childhood educators interfacing with colleagues, children, and parents/guardians.
- The ability to access, critically evaluate, and apply multiple forms of information related to children and families.
- Professional and leadership skills with individuals and families, including ethical and culturally sensitive conduct.
- Knowledge and skill in teaching and assessing literacy, mathematics, social studies, science, music, art, and physical education in early childhood.

Learn more about the Early Childhood Education major on the Department of Human Development and Family Studies website (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/b-s-in-early-childhood-education/>).

Requirements

Effective Fall 2022

Students must complete the following courses with a C (2.000) or better to fulfill requirements for the major: all EDUC courses, all HDFS courses, and PSY 460.

Freshman

		AUCC	Credits
CO 150	College Composition (GT-CO2)	1A	3

¹ BZ 101 or LIFE 102 is required for the major in the freshman year. Select the remaining credits and course(s) from the list of courses in category 3A of the AUCC.

² Select from the list of HIST courses in category 3D of the AUCC.

Major Completion Map

Distinctive Requirements for Degree Program:

Students seeking admission to the Early Childhood Education (ECE) Major with teacher licensure must formally apply and be accepted. The admission process into the program takes place once a year in the spring with the admitted candidates starting the program the following fall. All coursework within the Center for Educator Preparation (CEP) requires a 4 semester (or 2 year) consecutive commitment to complete, therefore EDUC subject code courses must be taken in the semester indicated. Requirements for applying to the ECE major: 1) Must have a 2.75 GPA or better, 2) Suggested to have completed 60 credits (or more) by the end of the semester in which the student is applying (typically students apply their second semester sophomore year), 3) Must have 20 hours of volunteer or work service with children ages 0-8 years (experience must have been within the last 5 years), 4) Must have 3 references. All HDFS subject code courses and EDUC subject code courses must be completed with a grade of C (2.000) or higher. Students will

be required to pass a criminal arrest record background check prior to participating in field placement courses. Students will complete a graduation contract with an HDFS Academic Advisor during the first two weeks of the semester in which they are graduating.

Major in Human Development and Family Studies

Human Development and Family Studies (HDFS) is an interdisciplinary major focusing on the health and development of individuals across the lifespan, within the context of diverse families and social identities. Students complete foundational coursework in human development (i.e., infancy and childhood, adolescence, emerging and young adulthood, middle and later adulthood/aging), family studies, and evidence-based prevention and intervention programming in human services. Students study theory and emerging research in the field and learn to identify risk and protective factors influencing cognitive, emotional, social, and physical development across the lifespan. During their final year, HDFS students apply knowledge and skills from foundational course work through participation in a semester-long internship. Internship is a hallmark of the degree program that serves as a culminating experience preparing students for a professional career with diverse populations, communities, and organizations. The HDFS major offers five concentrations that enable students to specialize within their degree and prepare for a variety of career paths in human services. In addition to selecting one of five concentrations, students have the opportunity to earn the Gerontology Interdisciplinary Minor (<http://catalog.colostate.edu/general-catalog/university-wide-programs/interdisciplinary-studies/gerontology-interdisciplinary-minor/>), work toward Director Qualifications in early childhood settings, or apply to the Major in Early Childhood Education. The HDFS department is committed

to promoting the success and well-being of students from heterogeneous backgrounds and experiences.

Learning Outcomes

Students will demonstrate:

- Content knowledge and understanding of theory, research, and practice relevant to optimizing the development, health, and well-being of individuals and families across the lifespan in the context of the larger social environment.
- Effective written and oral communication skills appropriate to the field of human development and family studies.
- The ability to access, critically evaluate, and apply multiple forms of information related to individuals and families.
- Professional and leadership skills with individuals and families, including ethical and culturally sensitive conduct.

Potential Occupations

Graduates with a major in HDFS are prepared to work in a range of human service sector settings including youth services organizations; early childhood, elementary, adolescent, and parent education programs; health-care settings; juvenile and adult corrections and criminal justice; family and community services; and programs serving older adults, including long-term care facilities. HDFS graduates are also well prepared to pursue graduate studies in mental health, behavioral and social sciences, education, health and medicine, policy and public health, and other professional programs. Students interested in teaching human development and family studies content at the secondary level should

explore the interdepartmental Major in Family and Consumer Sciences, Family and Consumer Sciences Education Concentration.

Some examples of career opportunities students may pursue with a bachelor's degree in HDFS include, but are not limited to: early childhood administrator and teacher, adult recreation programmer, administrator in adult and aging facilities, career development specialist, family services specialist, human development specialist, adult education teacher, human resources coordinator, youth agency administrator, community outreach worker, women's program administrator, youth intervention and prevention program administrator, youth employment, training, and development specialist, parent educator, children-family educator, child protection worker, family assistance worker, program administrator, public relations specialist, student affairs professional, youth services worker, case manager, nonprofit agency administrator, and residential center manager.

To help guide students in career planning, there are five concentrations within the Major in Human Development and Family Studies. The HDFS program of study consists of the HDFS foundational courses, which are required for all students regardless of concentration, 15 credits selected from the list of courses within students' chosen concentration, and additional electives to reach the minimum of 120 credits required for graduation. Students must declare at least one concentration and may declare up to two concentrations in the HDFS major. The declared concentration(s) are listed on the students' transcripts and thus indicate specialized training within the HDFS degree program.

Concentrations

- Early Childhood Professions Concentration
- Human Development and Family Studies Concentration
- Leadership and Advocacy Concentration
- Pre-Health Professions Concentration
- Prevention and Intervention Sciences Concentration

Online Degree Program

The major in Human Development and Family Studies (HDFS) is offered in two formats, both leading to a Bachelor of Science degree. We offer classes to on-campus degree-seeking students and we offer distance students the HDFS degree through CSU Online (<http://www.online.colostate.edu/>). The major in Human Development and Family Studies offered through CSU Online provides a flexible, convenient, and accessible format for busy, working, or distance students. The online program of study is the same as the on-campus version, is fully accredited, and is indistinguishable on student transcripts and diplomas from the on-campus version. The Gerontology Interdisciplinary Minor (<http://catalog.colostate.edu/general-catalog/university-wide-programs/interdisciplinary-studies/gerontology-interdisciplinary-minor/>) and courses required to pursue a variety of certifications are also available online.

Accelerated Program

The major in Human Development and Family Studies includes an accelerated program option (<https://provost.colostate.edu/accelerated-programs/>) for students to graduate on a faster schedule. Accelerated Programs typically include 15-16 credits each fall and spring semester for three years, plus 6-9 credits over three summer sessions (<https://summer.colostate.edu/acceleratedprograms/>). Students who enter CSU with prior credit (AP, IB, transfer, etc.) may use applicable

courses to further accelerate their graduation. Visit the Office of the Provost website for additional information about Accelerated Programs (<https://provost.colostate.edu/accelerated-programs/>).

Learn more about the Human Development and Family Studies major on the Department of Human Development and Family Studies website (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/b-s-in-human-development-and-family-studies/>).

Major in Human Development and Family Studies, Early Childhood Professions Concentration

The courses in the Early Childhood Professions concentration prepare students for careers in early childhood education as well as professional work with children across a variety of settings, including working with children with disabilities, in healthcare settings, and community agencies. This concentration focuses on early childhood development from birth to eight years old and therefore is an ideal choice for first and second year HDFS majors who plan to apply to the competitive on-campus Major in Early Childhood Education during their sophomore year.

This concentration is also the preferred choice for students interested in early childhood education careers that do not require teacher licensure, for students who will pursue a graduate degree and licensure in childhood education, and those interested in combining this concentration with another concentration in pre-health, prevention and intervention sciences, or leadership and advocacy professions. Students interested in working with children with special needs, those seeking director qualifications in early childhood education, and those seeking other relevant credentials would also benefit from choosing this concentration. The curriculum incorporates courses from several disciplines that focus on early childhood development, education, diversity, and professional skills.

Learn more about the Human Development and Family Studies major on the Department of Human Development and Family Studies website. (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/b-s-in-human-development-and-family-studies/>)

Requirements

Effective Fall 2023

A minimum grade of C (2.000) is required in all courses used to satisfy the requirements of the Major in Human Development and Family Studies, Early Childhood Professions Concentration. Courses used as substitutions also require a minimum grade of C (2.000).

¹ Courses selected to fulfill All-University Core Curriculum (AUCC) requirements may not double count toward the Early Childhood Professions Concentration Course requirement.

² Students with substantial concentration-specific work experience may petition the Director of Undergraduate Advising in HDFS to replace HDFS 488B with additional coursework and complete HDFS 478 instead of HDFS 477A or HDFS 477B.

³ Other 300 and 400 level courses related to Diversity, Equity, Inclusion, and Justice are subject to advisor approval.

⁴ Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major Completion Map

Distinctive Requirements for Degree Program:

Human Development and Family Studies is an open-entry major for freshmen. For sophomores and above, students must complete and/or be enrolled in HDFS 101, PSY 100 or SOC 100 in order to declare HDFS. HDFS subject code courses must be completed with a grade of C (2.000) or higher. Background check required prior to participating in the internship course (HDFS 488B) during the senior year. Students will complete a graduation contract with an HDFS Academic Advisor during the first two weeks of the semester in which they are graduating.

Major in Human Development and Family Studies, Human Development and Family Studies Concentration

The Human Development and Family Studies concentration is a general concentration available to HDFS majors who do not choose one of the more specific concentrations. This general concentration is an excellent choice for students who are interested in a lifespan focus or more general focus in HDFS and are not seeking the specialized training offered in the other four concentrations. Students choosing this concentration will be preparing to enter a variety of careers or graduate programs. The curriculum includes primarily HDFS, psychology, and social work courses as well as selected courses from other disciplines for a well-rounded

and robust education in human development and family studies. By selecting this concentration, students have an opportunity to participate in a variety of experiential learning courses and internship options as they explore and prepare for their career path and additional credentialing options. Please note that the HDFS general concentration cannot be paired with one of the other four concentrations because of the more general focus, and does not appear on students' transcripts.

Learn more about the Human Development and Family Studies major on the Human Development and Family Studies website. (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/b-s-in-human-development-and-family-studies/>)

¹ Students with substantial concentration-specific work experience may petition the Director of Undergraduate Advising in HDFS to replace HDFS 488A with additional coursework and complete HDFS 478 instead of HDFS 477A or HDFS 477B.

² Other 300 and 400 level courses related to Diversity, Equity, Inclusion, and Justice are subject to advisor approval.

³ Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major Completion Map

Distinctive Requirements for Degree Program:

Human Development and Family Studies is an open-entry major for freshmen. For sophomores and above, students must complete and/or be enrolled in HDFS 101, PSY 100 or SOC 100 in order to declare HDFS. HDFS subject code courses must be completed with a grade of C (2.000) or higher. Background check required prior to participating in the internship course (HDFS 488A) during the senior year. Students will complete a graduation contract with an HDFS Academic Advisor during the first two weeks of the semester in which they are graduating.

Major in Human Development and Family Studies, Leadership and Advocacy Concentration

The Leadership and Advocacy Concentration guides students who are preparing for leadership in organizations that promote the optimal development of individuals and families, with a focus on equity and inclusion. Students in this concentration are prepared to work with diverse populations across a spectrum of human services positions in healthcare, education, mental health, government, and business, creating possible career pathways into roles of directors, managers, or owners

within these fields. This concentration includes coursework in advocacy and social justice as well as opportunities to study finance, management, marketing, public policy, professional communication, and leadership. This concentration is also relevant for students seeking positions in student affairs, human resources, and non-profit organizations as well as students preparing for careers or advanced study in advocacy and legal services, such as advocates, lawyers, or policy-makers. Students in this concentration may also choose to pursue additional credentials in leadership, business, entrepreneurship, and design thinking.

Learn more about the Human Development and Family Studies major on the Human Development and Family Studies website. (<https://>

www.chhs.colostate.edu/hdfs/programs-and-degrees/b-s-in-human-development-and-family-studies/)

Requirements

Effective Fall 2023

A minimum grade of C (2.000) is required in all courses used to satisfy the requirements of the Major in Human Development and Family Studies, Leadership and Advocacy Concentration. Courses used as substitutions also require a minimum grade of C (2.000).

Major in Human Development and Family Studies, Pre-Health Professions Concentration

Many students pursuing a degree in Human Development and Family Studies plan to apply to graduate or professional programs in a variety of health professions. The Pre-Health Professions concentration

prepares students for these careers and supports their goals of obtaining graduate training. Some of the careers students in this concentration pursue are nurse, dentist, occupational therapist, physical therapist, optometrist, pharmacist, veterinarian, allied health practitioner, anesthesiologist assistant, child life specialist, chiropractor, dentist, medical doctor, music therapist, naturopathic or complementary medicine practitioner, physician's assistant, podiatrist, public health educator, or speech and language pathologist. The courses within this concentration include a focus on science and are designed to prepare students to work with individuals (and their families) with disabilities, mental and physical illness, or those experiencing death, dying, or grief. In addition, students in this concentration are strongly encouraged to consult with the Health Professions Advising (<https://hp.colostate.edu/>) team in the Collaborative for Student Achievement (<http://studentachievement.colostate.edu/>) for the specific course (and corresponding course prerequisite) recommendations based on the credentials that they are pursuing, as the prerequisite requirements vary for graduate and professional programs.

Learn more about the Human Development and Family Studies major on the Department of Human Development and Family Studies website (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/b-s-in-human-development-and-family-studies/>).

Requirements

Effective Fall 2023

A minimum grade of C (2.000) is required in all courses used to satisfy the requirements of the Major in Human Development and Family Studies, Pre-Health Professions Concentration. Courses used as substitutions also require a minimum grade of C (2.000).

Major in Human Development and Family Studies, Prevention and Intervention Sciences Concentration

The Prevention and Intervention Sciences concentration is designed for students who are preparing for careers in the helping and human services professions such as counselors, educators, student affairs

professionals, public health and social service providers, as well as for students seeking a research career in human development and family studies or a related field. This concentration offers students specialized training in programming related to promoting individual, family, and community health and wellness through the lifespan. This concentration is an excellent choice for students interested in careers requiring either a bachelor's degree or additional credentials. Coursework emphasizes evidence-based programs, and students will learn how to design and implement community-based prevention and intervention programs for youth, adults, and families. Students can focus on a specific aspect of the lifespan or choose courses across the lifespan. The course work also serves as an excellent second concentration to students focusing on early childhood, pre-health professions, or leadership and advocacy professions.

Learn more about the Human Development and Family Studies major on the Department of Human Development and Family Studies website (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/b-s-in-human-development-and-family-studies/>).

Minor in Human Development and Family Studies

The Human Development and Family Studies minor provides students across all majors with an opportunity to select course work relevant to their career goals. Students will learn about human development at

various stages of the lifespan, within the context of diverse families and social identities. This minor offers students the opportunity to expand their thinking about how relationships, family, culture, biological make-up, and environmental factors influence outcomes related to thinking skills, physical health, and social-emotional well-being across the life cycle. Students will gain an awareness of how to optimize their own and other's development in their careers and personal lives. The HDFS department

is committed to promoting the success and well-being of students from heterogeneous backgrounds and experiences.

Learning Outcomes

Upon successful completion of the Minor in Human Development and Family Studies, students will have:

1. Foundational knowledge of human development within the context of diverse families, social identities, and environmental influences.
2. Knowledge and skills for optimizing the development, health and well-being of individuals and families relevant to their field(s) of interest.

Learn more about the Minor in Human Development and Family Studies on the Department of Human Development and Family Studies website. (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/>)

Requirements Effective Fall 2023

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- & 400-level) credits. Additional courses may be required due to prerequisites.

Courses from this list may not double-count for the Gerontology Interdisciplinary Minor.

A minimum grade of C (2.000) is required in each course used to satisfy the requirements of the Minor in Human Development and Family Studies. Courses used as substitutions also require a minimum grade of C (2.000).

Certificate in Youth Mentoring with Campus Connections

Campus Connections (CC) Youth Mentoring program is a nationally recognized, award winning, high-impact, multidisciplinary, service-learning experience offered for credit through Human Development and Family Studies at CSU. CC is a structured mentoring program that promotes undergraduate student success at CSU and after graduation, particularly for underrepresented groups of students; promotes the resilience and life success of at-risk youth; prepares clinical graduate students for diverse settings; and responds to community initiatives to better serve at-risk youth and their families.

The 9-credit undergraduate certificate in Youth Mentoring with Campus Connections enables students to develop invaluable professional skills, gain significant experience with adolescents, and evolve as leaders. Based on multiple semesters of involvement with CC, many students launch their careers working with youth in education, social services, criminal justice, and other relevant professions. The CC experience often serves as the focus of their graduate school essays and is highlighted during interviews with employers setting them apart from their peers.

⁴ Participation in Campus Connections research is required for registration into HDFS 498A.

Graduate Certificate in Prevention Program Planning & Evaluation

The online Graduate Certificate in Prevention Program Planning & Evaluation provides graduate students and post-baccalaureate professionals from a variety of disciplines with specialized training in prevention science, including theory, methods, design, implementation, evidence-based practice, and knowledge of evidence-based programs implemented in schools, families, and communities.

This combination of formal education and functional knowledge prepares graduate students and professionals for career advancement in a range of fields that relate to working with individuals and families in the development and evaluation of prevention programming, including working in community agencies, governmental and human services agencies, for-profit and not-for-profit research and advocacy organizations, and at different levels of the educational system, including university-based research and education.

Learn more about the Graduate Certificate in Prevention Program Planning & Evaluation on the CSU Online website. (<https://www.online.colostate.edu/certificates/prevention-program-planning/>)

Requirements Effective Spring 2021

HDFS 608	Program Planning and Implementation	3
HDFS 609	Prevention Program Evaluation	3

Program Total Credits: 12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Master of Prevention Science Practice, Plan C (M.P.S.P.)

The online Master of Prevention Science Practice trains graduates to implement evidence-based prevention programs for use at the community-level in preventing mental, emotional, and behavioral disorders. The course work emphasizes lifespan developmental processes and normative family functioning, as well as theories of prevention science and risk and resilience. Students gain skills such as program planning and evaluation, program administration, grant writing, and technical communication. The curriculum adheres to the Society for Prevention Research's criteria for online Master's programs in Prevention Science. M.P.S.P. graduates are competitive for positions in a variety of health care, social service, or educational agencies with titles such as Social Service Specialist, Social or Community Service Manager, Health Promotion Specialist, Mental Health Consultant, Child Welfare Specialist, Behavior Health Specialist, or Prevention Specialist.

Program Total Credits:		30

A minimum of 30 credits are required to complete this program.

Master of Science in Human Development and Family Studies, Plan A

Human development and family studies (HDFS) focuses on processes of development across the lifespan at the individual level and within families. At the level of the individual, the emphasis is on the causes and correlates of developmental change and stability across the lifespan. Topics of study include biological bases of development, cognitive development (e.g., perception, learning, memory), social-emotional development (e.g., social competence, self-regulation, attachment styles), and development of and in social relationships across the lifespan.

Family studies is a broad, multidisciplinary area of inquiry that can be approached from different levels of analysis and with a wide range of

methodological tools. Research addresses the study of family structures and the connection of family systems with other social structures (e.g., school, workplace, etc.), and their implications for changes in the nature and quality of family relationships. The field of family studies also focuses on the effect of family structure on the development of individuals within the family, as well as relationship dynamics among family members (e.g., parent-child relationships, sibling relationships, cross-generational relationships), and the influences of these dynamics on physical and mental development across the life course.

On their way to the master's degree, students gain knowledge about typical (i.e., normative) and atypical development at the individual level and at the level of the family and related social institutions. This includes knowledge about development-promoting and development-hindering conditions, such as poverty, health disparities, or social disadvantages, and how risk and resilience factors play out over the life course. Students also acquire skills in the application and interpretation of quantitative and qualitative research methods, the rigorous design of research studies, and program planning and evaluation.

Graduates of this program enter careers in different human service and educational settings, including schools, behavioral health organizations, advocacy organizations, organizations serving older adults, and organizations focusing on social policy and public health issues. Graduates are equipped to assist with the design of intervention programs, the analysis of qualitative and quantitative data collected by such programs, and the dissemination of research findings to a broad array of audiences.

Learn more about the Master of Science in Human Development and Family Studies, Plan A on the Department of Human Development and Family Studies website. (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/m-s-in-human-development-and-family-studies/>)

Master of Science in Human Development and Family Studies, Marriage and Family Therapy Specialization, Plan A and Plan B

The Marriage and Family Therapy Specialization, which is accredited by the Commission on the Accreditation of Marriage and Family Therapy Education (<http://coamfte.org>), provides a specific professional curriculum that prepares graduates to work as marriage and family therapists. Courses focus on individual and family development, evidence-based clinical practices, social justice frameworks, and research methods. Students also complete a thesis (Plan A) or capstone project (Plan B). Training includes practicum and internship experiences with live supervision in the CSU Center for Family and Couple Therapy (<https://www.chhs.colostate.edu/cfct/>), CSU Campus Connections: Therapeutic Youth Mentoring (<https://www.chhs.colostate.edu/cc/>), and the CSU Child Trauma and Resilience Assessment Center (<https://www.chhs.colostate.edu/ctrac/>), all located on CSU's campus under the direction of faculty in the MFT program. Most graduates of this program go on to work as therapists in private practice or in mental health agencies. Some students enter doctoral programs upon graduation, including CSU's Ph.D. in Applied Developmental Science.

Learn more about the Master's in Human Development and Family Studies, Marriage and Family Therapy Specialization, Plan A and Plan B, on the Department of Human Development and Family Studies website (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/m-s-in-human-development-and-family-studies/marriage-and-family-therapy-specialization/>).

Ph.D. in Applied Developmental Science

The Ph.D. in Applied Developmental Science emphasizes how basic research in human development can inform programs designed to prevent problems and enhance well-being across the lifespan. Students gain knowledge in lifespan human development theory, basic and applied research skills, and the translation of science into practices and programs to address a wide range of social and public health problems. Graduates from the applied developmental science program are equipped to work in settings such as academia, for-profit, and not-for-profit research and advocacy organizations, governmental and human services agencies, or community agencies that promote the health and well-being of individuals, families, and communities.

Students can enter the applied developmental science program with a completed master's degree or with a completed bachelor's degree. Students entering with a bachelor's degree or a master's degree in a different field are required to complete a master's in

Human Development and Family Studies en route to the Ph.D., with a specialization in Prevention Science (<http://catalog.colostate.edu/general-catalog/colleges/health-human-sciences/human-development-family-studies/plan-a-ms-human-development-family-studies-prevention-science-specialization/>), Marriage and Family Therapy (<http://catalog.colostate.edu/general-catalog/colleges/health-human-sciences/human-development-family-studies/plan-a-ms-human-development-family-studies-marriage-therapy-specialization/>), or general Human Development and Family Studies (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/m-s-in-human-development-and-family-studies/>).

Learn more about the Ph.D. in Applied Developmental Science on the Department of Human Development and Family Studies website (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/ph-d-in-applied-developmental-science/>).

Requirements Effective Fall 2021

Ph.D. course requirements include a minimum of 80 credits for each of four entry routes:

Entry A: For students who have completed the CSU M.S. degree in Human Development and Family Studies (Prevention Science Specialization) or are enrolled in the continuous Master of Science in Human Development and Family Studies (Prevention Science Specialization)/Applied Developmental Science Ph.D. at CSU, up to 43 credits will apply toward partial fulfillment of the required 80 credits.

Entry B: For students who have completed the CSU M.S. degree in Human Development and Family Studies (Marriage and Family Therapy Specialization) or are enrolled in the continuous Master of Science in Human Development and Family Studies (Marriage and Family Therapy Specialization)/Applied Developmental Science Ph.D. at CSU, up to 30 credits will apply toward partial fulfillment of the required 80 credits.

Entry C: For students who submit a previously earned Master's degree from an institution other than CSU, up to 30 credits may be accepted toward partial fulfillment of the required 80 credits. Credit for a previously completed empirical master's thesis will also be granted following approval of the Director of the Applied Developmental Science Program. Students who did not complete an empirical thesis will be required to complete a Master's in HDFS. All credits accepted toward partial fulfillment of the requirements below must be approved by the Director of the Applied Developmental Science Program, the Department of Human Development and Family Studies, and the Graduate School.

Entry D: For students who do not submit a Master's degree in partial fulfillment of the required 80 credits, up to 10 credits earned after the bachelor's degree may be accepted for transfer. Only courses taken at a 500-level or higher will be considered. All credits accepted toward partial fulfillment of the requirements below must be approved by the student's graduate committee, the Department of Human Development and Family Studies, and the Graduate School.

³ Admission to Marriage and Family Therapy Program or permission of instructor.

Department of Occupational Therapy

Occupational Therapy Building, Room 200

(970) 491-6253

www. (<https://www.chhs.colostate.edu/ot/>)chhs.colostate.edu/ot (<http://ot.chhs.colostate.edu>)

Dr. Anita Bundy, Department Head

The Department of Occupational Therapy is ranked among the top 10 programs in the nation by *U.S. News and World Report* and *Best Value Programs*, known nationally and internationally for its excellence. The department offers graduate-level education to prepare students as leaders in the field of occupational therapy. Faculty are engaged in nationally and internationally recognized research and community outreach that meet the needs of people facing challenges in everyday life.

The Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA) is our accrediting body. Their address is 6116 Executive Boulevard, Suite 200, North Bethesda, MD 20852-4929; (301) 652-6611. The National Board for Certification in Occupational Therapy (NBCOT) is the credentialing agency responsible for the development and implementation of the certification process for OT practitioners.

Students interested in more information regarding prerequisite and application requirements may contact the department at (970) 491-6253 or otinfo@colostate.edu.

Graduate Graduate Programs in Occupational Therapy

The Occupational Therapy Department currently offers the following degree programs:

Professional Doctorate

- Doctor of Occupational Therapy (O.T.D.)

Ph.D.

- Ph.D. in Occupation and Rehabilitation Science

Students with a bachelor's degree in a discipline outside of occupational therapy pursue the Doctor of Occupational Therapy (<https://www.chhs.colostate.edu/ot/programs-and-degrees/occupational-therapy-doctorate/>) degree. CSU's entry-level Doctor of Occupational Therapy program is designed using subject- and learner-centered principles. Engaging in active learning with a focus on occupation, graduates become occupational therapy practitioners embracing collaboration and leadership in the field. We have been granted candidacy by our accrediting body and our first CSU-OT OTD cohort of students began in May 2022.

The interdisciplinary Doctor of Philosophy (Ph.D.) degree in Occupation and Rehabilitation Science (<https://www.chhs.colostate.edu/ot/programs-and-degrees/ph-d-in-occupation-and-rehabilitation-science/>) offers graduate training in research dedicated to assisting people of all ages and abilities to perform and participate in everyday occupations as a source of lifelong meaning, development, health, and well-being. The program was created to meet the national demand for Ph.D. trained scientists and educators in occupational therapy and related disciplines. Upon graduation, students typically pursue post-doctoral education or academic careers in higher education; additional career opportunities exist in industry and government.

Please contact the Occupational Therapy Department for further details by calling (970) 491-6253 or emailing the department at otinfo@colostate.edu.

Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Occupational Therapy (<http://ot.chhs.colostate.edu>).

Master's Programs (discontinued)

- Master of Science in Occupational Therapy, Plan A (Discontinued in 2022. No new students are being accepted to this program of study.)
- Master of Occupational Therapy, Plan C (M.O.T.) (Discontinued in 2022. No new students are being accepted to this program of study.)

Courses

Occupational Therapy (OT)

OT 110 Introduction to Occupational Therapy Credits: 3 (3-0-0)

Course Description: Roles and activities in occupational therapy.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

OT 215 Medical Terminology Credit: 1 (0-0-1)

Course Description: Definition and use of medical terms.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

OT 355 The Disability Experience in Society Credits: 2 (1-0-1)

Course Description: Description and exploration of disabling conditions; review of support systems including legal and financial implications.

Prerequisite: PSY 100 or SOC 100.

Registration Information: Must register for lecture and recitation.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 450 Biomechanics of Human Occupation Credits: 3 (0-2-2)

Course Description: Exploration of performance of the activities of daily living in context as impacted by function/dysfunction of the human musculoskeletal system.

Prerequisite: None.

Registration Information: Must register for laboratory and recitation.

Minimum of 4 credits of either combined anatomy and physiology or human anatomy at the 200-level or higher. Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

OT 590 Workshop Credits: Var[1-9] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 597 Group Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 601 Occupation and Rehabilitation Science I Credits: 3 (1-0-2)

Course Description: Multidisciplinary perspectives on human performance and participation in everyday occupations.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to master's degree program in occupational therapy.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 610 Professional Decision Making Credits: 3 (0-2-2)

Course Description: Exploration of the thought processes occupational therapists use when determining how best to address clients' needs.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to master's degree program in occupational therapy.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 611 Reflective and Evidence-Based Practice Credits: 3 (0-0-3)

Course Description: Development of reflective and evidence-based practice skills through integrating and synthesizing fieldwork experiences in OT practice.

Prerequisite: OT 687A to 687Z.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 620 Research to Practice I Credits: 3 (3-0-0)

Course Description: Critically evaluate qualitative and quantitative research processes pertaining to individuals.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to master's degree program in occupational therapy.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 621 Occupational Performance: Infancy-Childhood Credits: 4 (2-2-1)

Course Description: Optimizing occupational performance and participation for infants and children within a contextual framework.

Prerequisite: OT 687A to 687Z.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of the Occupation Therapy Department can be substituted for OT 687.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 630 Occupational Performance: Adult to Old Age I Rec Credits: 3 (0-0-3)

Course Description: Optimizing occupational performance for adults and older adults with attention to roles, satisfaction, competence and activities.

Prerequisite: OT 610 and OT 620 and OT 601.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must have concurrent registration in OT 636; must have concurrent registration in OT 660; must have concurrent registration in OT 665; must have concurrent registration in OT 686C.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 631 Program Assessment and Development Credits: 3 (0-0-3)

Course Description: Assessment of program strengths and needs, followed by development of proposals to support occupational performance and participation.

Prerequisite: OT 687A to 687Z.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of the Occupational Therapy Department can substitute for OT 687A-Z.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 636 Occupational Performance: Adult/Old Age I Lab Credits: 2 (0-4-0)

Course Description: Optimizing occupational performance for adults and older adults with attention to roles, satisfaction, competence, and activities.

Prerequisite: OT 601 and OT 610 and OT 620.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must have concurrent registration in OT 630; Must have concurrent registration in OT 660; Must have concurrent registration in OT 665; Must have concurrent registration in OT 686C.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 640 Research to Practice II Credits: 3 (3-0-0)

Course Description: Critically evaluate qualitative and quantitative research processes pertaining to groups and systems.

Prerequisite: OT 620.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 641 Occupation and Rehabilitation Science II Credits: 3 (1-0-2)

Course Description: Explore historical evolution of topics and the link to future implications for and growth of occupation and rehabilitation science.

Prerequisite: OT 601 and OT 611 and OT 631 and OT 687 to 687*.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 656 Topics on Brain Plasticity and Performance Credits: 3 (2-0-1)

Course Description: Multidisciplinary viewpoints on brain plasticity and its relationship to performance across the lifespan.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Occupational Therapy graduate student or written consent of instructor.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 660 Occupational Performance:Adult/Old Age II Rec Credits: 3 (0-0-3)

Course Description: Foundations of occupational performance for adults and older adults with attention to abilities, skills, and developed capacities.

Prerequisite: OT 610 and OT 620 and OT 601.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must have concurrent registration in OT 630; must have concurrent registration in OT 636; must have concurrent registration in OT 665; must have concurrent registration in OT 686C.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 661 Occupational Performance: Adolescent-Young Adult Credits: 3 (1-2-1)

Course Description: Optimizing occupational performance and participation for youth and young adults within a contextual framework.

Prerequisite: OT 621.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture, laboratory, and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 665 Adult to Old Age II Lab Credits: 2 (0-4-0)

Course Description: Optimizing occupational performance for adults and older adults with attention to abilities, skills, and developed capacities.

Prerequisite: OT 601 and OT 610 and OT 620.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must have concurrent registration in OT 630; must have concurrent registration in OT 636; must have concurrent registration in OT 660; must have concurrent registration in OT 686C.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 666 Optimizing Occupation through Technology Credits: 3 (0-0-3)

Course Description: Use of technology-based resources and/or strategies (current and emerging) to meet client needs in their everyday occupations and contexts.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Occupational Therapy M.O.T., M.S., or Ph.D. program.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 676 Pathokinesiobiological Conditions and Assessment Credits: 3 (3-0-0)

Course Description: Various musculoskeletal imbalances and injuries that present as difficulties in function and participation in everyday activity.

Prerequisite: OT 450.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 686A Fieldwork I: OT Process Credits: Var[1-4] (0-0-0)

Course Description: Level I fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to occupational therapy master's degree program; evidence of professional liability insurance required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 686B Fieldwork I: Seminar Credits: 3 (0-2-2)

Course Description: Level I fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of all first year OT courses; admission to occupational therapy master's degree program; evidence of professional liability insurance required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

OT 686C Fieldwork I: Adult to Old Age Credits: Var[1-4] (0-0-0)

Course Description: Level I fieldwork in various settings.

Prerequisite: OT 686A and OT 610.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 630 and OT 660; evidence of professional liability insurance required.

Terms Offered: Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 686D Fieldwork I: Infancy to Young Adult Credits: Var[1-4] (0-0-0)

Course Description: Level I fieldwork in various settings.

Prerequisite: (OT 687A to 687Z) and (OT 621, may be taken concurrently or OT 661, may be taken concurrently).

Restriction: Must be a: Graduate, Professional.

Registration Information: Evidence of professional liability insurance required.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: Yes.

OT 686E Fieldwork I: Special Interest Credits: Var[1-4] (0-0-0)

Course Description: Level I fieldwork in various settings.

Prerequisite: OT 686A.

Restriction: Must be a: Graduate, Professional.

Registration Information: Evidence of professional liability insurance required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 687A Fieldwork IIA: Acute In-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687B Fieldwork IIA: Rehab In-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687C Fieldwork IIA: SNF/Acute LTC Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687D Fieldwork IIA: General Rehab Out-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687E Fieldwork IIA: Hand Therapy Hospital Out-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687F Fieldwork IIA: Hand Therapy Private Out-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687G Fieldwork IIA: Psych In-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687H Fieldwork IIA: Combined Practice Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687M Fieldwork II: Behavioral Health Community Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687N Fieldwork II: Older Adult Community Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687O Fieldwork II: Older Adult Day Program Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687P Fieldwork II: Adult Day Program Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687Q Fieldwork II: Home Health Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687T Fieldwork II: Other Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688A Fieldwork IIB: Acute In-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688B Fieldwork IIB: Rehab In-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688C Fieldwork IIB: SNF/Acute LTC Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688D Fieldwork IIB: General Rehab Out-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688E Fieldwork IIB: Hand Therapy Hospital Out-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688F Fieldwork IIB: Hand Therapy Private Out-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688G Fieldwork IIB: Psych In-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688H Fieldwork IIB: Combined Practice Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688I Fieldwork IIB: Pediatric Hospital/Unit Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688J Fieldwork IIB: Pediatric Hospital/Out-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688K Fieldwork IIB: Pediatric Community Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688L Fieldwork IIB: Pediatric Out-Patient Clinic Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688M Fieldwork IIB: Behavioral Health Community Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688N Fieldwork IIB: Older Adult Community Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688O Fieldwork IIB: Older Adult Day Program Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688P Fieldwork IIB: Adult Day Program Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688Q Fieldwork IIB: Home Health Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688R Fieldwork IIB: School Early Intervention Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688S Fieldwork IIB: School (PK-12) Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688T Fieldwork IIB: Other Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 690 Workshop Credits: Var[1-9] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 692 Occupation and Rehabilitation Sci Seminar I Credits: 2 (0-0-2)

Course Description: Historical and contemporary legislative, theoretical, scientific, and social foundations that influenced the development of rehabilitation science and occupational science. Evaluation of and scholarly discourse on human performance and participation research. Construction of an integrated research philosophy based upon historical and contemporary foundations of occupational science and rehabilitation science, human performance and participation research, and other related sciences.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Bachelor's degree required. Admission to Occupation and Rehabilitation Science program or approval from course instructor. May be repeated three times for a maximum of 6 credits.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

OT 694 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 696 Group Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 698 Research Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 701 Occupation and Rehabilitation Science III Credits: 3 (0-0-3)

Course Description: Investigation of the intersection of occupational science and rehabilitation science research situated in various paradigms.

Prerequisite: OT 640 and OT 641.

Restriction: Must be a: Graduate, Professional.

Registration Information: Three credits of research must be in quantitative research and three credits must be in qualitative research.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 710 Teaching Occupation and Rehab Science Credits: 3 (0-0-3)

Course Description: Design and implementation of teaching and learning philosophies and approaches in occupation and rehabilitation science contexts.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

OT 720 Occupation and Occupational Therapy Process Credits: 3 (0-0-3)

Course Description: Introduction to the nature of occupation and the basic terminology and theories of the occupational therapy profession. Learn the language of the profession through the Occupational Therapy Practice Framework and learn the basic structure of how to carry out the occupational therapy process. Exploration of the roles of occupational therapy across various settings and populations.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 721. Admission to the Occupational Therapy Doctorate (OTD) program. This is a partial semester course. Offered as Mixed Face-to-Face.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

OT 721 Impacts on Occupation I Credits: 3 (1-0-2)

Course Description: Build competence in analysis of occupation with particular attention to the biomechanical and neurological factors that influence performance in everyday occupations. Occupations and contexts are analyzed with emphasis on neurological and biomechanical body functions and structures. Explore the process of decision-making and justification in selecting interventions.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 720. Admission to the Occupational Therapy Doctorate (OTD) program. Must register for lecture and recitation. This is a partial semester course. Offered as Mixed Face-to-Face.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

OT 722 Foundations for Professional Development Credit: 1 (0-0-1)

Course Description: Learn foundational skills to become an ethical and inclusive occupational therapy practitioner. Explore professional identity formation and the socialization process of professionals. Begin to create a portfolio to document professional development.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Occupational Therapy Doctorate (OTD) program. This is a partial semester course. Offered as Mixed Face-to-Face.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

OT 730 Professional Reasoning and Relationships Credits: 2 (0-0-2)

Course Description: Explore models of professional reasoning, collaborative relationships and group dynamics that guide partnerships with clients, families, peers, and professionals within and outside of occupational therapy. Engage in critical self-examination to develop interpersonal understanding and skills.

Prerequisite: OT 720.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 786B.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 731 Impacts on Occupation II Credits: 3 (0-0-3)

Course Description: Build competence in analysis of occupation with attention to the psychosocial and contextual factors that influence performance in patterns of occupations. Examine personal beliefs, experiences, and biases surrounding psychosocial and contextual factors impacting patterns of occupations. Explore methods to assess and enhance engagement in occupation (i.e., promote, establish/restore, maintain, modify or prevent).

Prerequisite: OT 720 and OT 721.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 786B. Offered as Mixed Face-to-Face.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 732 Adult and Older Adult I Credits: 2 (0-0-2)

Course Description: Build competence in professional reasoning with attention to occupations, person factors, and contexts. Use knowledge of adult and older adult development to select, administer, modify, and interpret assessments and create contextually sensitive occupation-focused interventions for individuals and groups. An emphasis is placed on the role of occupational therapy in inpatient and residential practice settings.

Prerequisite: OT 720 and OT 721 and OT 722.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 733 and OT 786B.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 733 Adult and Older Adult I Lab Credits: 2 (0-4-0)

Course Description: Develop practice skills and professional reasoning needed to optimize occupational performance and participation for adults and older adults with an emphasis on inpatient and residential care settings.

Prerequisite: OT 720 and OT 721 and OT 722.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 732.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 735 Occupational Therapy Research Process I Credits: 3 (1-0-2)

Course Description: Introduction to qualitative research design and methods. Develop skills in locating, appraising and managing evidence to inform, guide, and support the occupational therapy process. Content includes creating research questions, data collection methods, analysis, and synthesis.

Prerequisite: OT 720.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 786B. Must register for lecture and recitation. Offered as Mixed Face-to-Face.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 740 Occupation, Learning, and Change Credits: 3 (1-0-2)

Course Description: Apply conceptual models and theories related to human learning and behavior change to promote development, health, and well-being through occupation. Learning and change principles will be applied at the individual and organization levels.

Prerequisite: OT 731 and OT 735 and OT 786B.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 742 and OT 786C. Must register for lecture and recitation. Offered as Mixed Face-to-Face.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 742 Adult and Older Adult II Credits: 2 (0-0-2)

Course Description: Concurrent registration in OT 740, OT 743, and OT 786C.

Prerequisite: OT 731 and OT 732 and OT 733.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 743 Adult and Older Adult II Lab Credits: 2 (0-4-0)

Course Description: Develop practice skills and professional reasoning to optimize occupational performance, participation, and well-being for adults and older adults with an emphasis on outpatient and community-based settings.

Prerequisite: OT 732 and OT 733.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 742.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 745 Occupational Therapy Research Process II Credits: 3 (1-0-2)

Course Description: Introduction to quantitative research design and analysis. Develop skills in formulation of research questions, study design, analysis and interpretation of data in support of the occupational therapy process.

Prerequisite: OT 735.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 749 and OT 786C. Must register for lecture and recitation. Offered as Mixed Face-to-Face.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 749 Capstone Overview Credit: 1 (0-0-1)

Course Description: Build foundational knowledge about the doctoral capstone and experience. Apply knowledge of data-based decision making to occupational therapy roles, practice contexts, and client populations in which capstone projects occur.

Prerequisite: OT 735.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 745 and OT 786C.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 750 Programmatic Interventions Credits: 3 (0-0-3)

Course Description: Needs assessment and program development process to support occupational performance, participation, and well-being. Engage in professional collaboration to identify new or improved occupation-centered services within a community or organization.

Prerequisite: OT 787.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 759 and OT 786D.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 752 Infancy Through Early Childhood Credits: 2 (0-0-2)

Course Description: Build competence in professional reasoning and the occupational therapy process in infant and early childhood life stages. Focus on childhood occupations given typical and atypical development, health conditions and health factors. Application of the occupational therapy process occurs across diverse roles and environments and considers social inequities, family and cultural practices, and health disparities.

Prerequisite: OT 787.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 753 and OT 786D.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 753 Infancy Through Early Childhood Lab Credit: 1 (0-2-0)

Course Description: Develop competence in practice skills and professional reasoning used for evaluation, intervention planning, and implementation to optimize occupational performance, participation, and well-being for neonates, infants, and young children up to the transition into kindergarten.

Prerequisite: OT 787.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 752 and OT 786D.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 755 Occupational Therapy Research Process III Credits: 3 (0-0-3)

Course Description: Engage in advanced research and evidence-based reflective practice while completing a mini systematic review and best practice statement. Continue developing professional identity by optimizing occupational performance, participation, and well-being.

Prerequisite: OT 745 and OT 787.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 759 and OT 786D.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 759 Capstone Planning Credit: 1 (0-0-1)

Course Description: Learn the specific requirements for three doctoral capstone tracks: (1) needs assessment and program development, (2) systematic review and best practice statement, and (3) research and scholarly activity. Articulate commitment to a doctoral capstone track following small group and online learning community activities.

Prerequisite: OT 787.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 760 Leadership Skills of Change Agents Credits: 2 (0-0-2)

Course Description: Develop skills as a change agent through exploring leadership, management, teamwork, and entrepreneurship in occupational therapy. Demonstrate best practice in building collaborative teams capable of promoting clients' occupational performance, participation and well-being.

Prerequisite: OT 740 and OT 759 and OT 787.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 769 and OT 786E.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 761 Inclusive Technology Credits: 2 (0-2-1)

Course Description: Explore the evolution and impact of information and technology on occupation, health, and well-being across the lifespan. Learn to use technology as a practitioner tool and apply assistive and mainstream technology within the occupational therapy process to optimize human performance and participation at the individual and organization levels.

Prerequisite: OT 787.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for laboratory and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 762 Early Through Middle Childhood Credits: 2 (0-0-2)

Course Description: Build competence in professional reasoning and the occupational therapy process with attention to occupations of children, kindergarten through middle school. Develop skills in the selection, administration, modification, and interpretation of assessments and contextually sensitive occupation-focused interventions. Consider typical and atypical development, family and cultural practices, health and wellness, and health disparities of individuals, groups, and populations.

Prerequisite: OT 752 and OT 753 and OT 786D.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 763, OT 764, and OT 786E.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 763 Early Through Middle Childhood Lab Credit: 1 (0-2-0)

Course Description: Develop competence in practice skills, professional reasoning, and interprofessional collaboration used for evaluation, intervention planning and implementation to optimize occupational performance, participation, and well-being for children from kindergarten through middle school and their families.

Prerequisite: OT 752 and OT 753 and OT 786D.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 762, OT 764, and OT 786E.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 764 Adolescent and Young Adult Credits: 2 (0-0-2)

Course Description: Build competence in the professional reasoning process used for evaluation, intervention planning and implementation, monitoring, and discharge for adolescents and young adults (age 12 - 26 years). Develop skills in the selection, administration, modification, and interpretation of assessments and contextually sensitive occupation-focused intervention approaches. Explore the occupational therapy process across therapist roles and settings while considering social inequities.

Prerequisite: OT 752 and OT 753 and OT 786D.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 762, OT 763, and OT 786E.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 769 Capstone Project and Experience Development Credits: 3 (0-0-3)

Course Description: Create an individualized occupation-centered doctoral capstone project and capstone experience plan. Develop and confirm the capstone experience and one of three capstone project tracks: (1) needs assessment and program development, (2) systematic review and best practice statement, and (3) research and scholarly activity. Collaborative decision-making regarding the scope and nature of the capstone project is supported through online and in-person communication.

Prerequisite: OT 759.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 772 Innovative Practice in Occupational Therapy Credits: 2 (0-0-2)

Course Description: Empower students to be change agents and advocates through creating innovative practice that represents occupational therapy's distinct role and value. Application of knowledge and skills, guided by theories and models, within organizations, communities, and/or populations.

Prerequisite: OT 750 and OT 760 and OT 787.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 786F. This is a partial semester course.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

OT 779 Capstone Project Credit: 1 (0-0-1)

Course Description: In-depth and individualized occupation-centered doctoral capstone project is aligned with the doctoral capstone experience to develop knowledge and skills in an area of interest with integration of diversity and inclusion by finalizing and disseminating a deliverable. Become a collaborative and enduring change agent and leader who is grounded in the perspective of occupation and positively influences individuals, groups, communities, populations, and the profession.

Prerequisite: OT 769.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 784 Supervised College Teaching Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission into a PhD program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 786A Practicum: Research Credits: Var[1-9] (0-0-0)

Course Description: Individualized opportunity for research experiences.

Prerequisite: OT 620.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of advisor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 786B Practicum: Integrative Experiential Learning I Credit: 1 (0-0-2)

Course Description: Engage in fieldwork to explore the role of the occupational therapist in community settings with adults and older adults, with a focus on professional identity formation. Develop skills in building therapeutic alliances, considering diversity, inclusion, and psychosocial factors influencing occupation. Content and experiences from fieldwork are integrated with concurrent occupational therapy courses.

Prerequisite: OT 720 and OT 721 and OT 722.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 730, OT 731, OT 732, and OT 735.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: Yes.

OT 786C Practicum: Integrative Experiential Learning II Credits: 2 (0-0-4)

Course Description: Engage in fieldwork which is integrated with concurrent coursework to explore the role of occupational therapy service delivery with adults and older adults. Assist fieldwork educators with the occupational therapy process to develop novice-level practice skills and professional identity.

Prerequisite: OT 786B and OT 732 and OT 733.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 740, OT 742, OT 745, and OT 749.

Term Offered: Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 786D Practicum: Integrated Experiential Learning III Credit: 1 (0-0-2)

Course Description: Engage in fieldwork that is integrated with concurrent coursework to explore the role of occupational therapy with neonates to adolescents. Assist and collaborate with fieldwork educators and caregivers to implement the occupational therapy process, develop novice level practice skills and professional identity.

Prerequisite: OT 787.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 752 and OT 753.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: Yes.

OT 786E Practicum: Integrated Experiential Learning IV Credit: 1 (0-0-2)

Course Description: Build competence in professional reasoning used for evaluation, intervention planning and implementation for adolescents and young adults (age 12 - 26 years). Engage in lab and mentoring experiences to enhance occupational performance, participation, and well-being across settings while considering social inequities in community contexts.

Prerequisite: OT 752 and OT 753.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 764.

Term Offered: Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 786F Practicum: Integrated Experiential Learning V Credit: 1 (0-0-2)

Course Description: Develop innovative occupation-centered services that demonstrate occupational therapy's distinct role and value. Apply professional reasoning to enhance occupational performance and participation in a population- or community-centered practice area. This fieldwork experience requires independence and autonomy on the part of the student and is integrated with concurrent coursework.

Prerequisite: OT 750 and OT 760 and OT 787.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 772. This is a partial semester course.

Term Offered: Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 787 Level IIA Fieldwork - Adults and Older Adults Credits: 12 (0-0-36)

Course Description: Develop entry-level occupational therapy competence providing occupation-centered practice with adults and older adults through immersion in the occupational therapist role for the equivalent of 12-weeks. Build professional behaviors and identity while bridging the didactic portion of the curriculum during supervised practice. Use professional reasoning gained through the first three semesters of the curriculum while progressively taking on greater responsibility for service delivery.

Prerequisite: OT 742 and OT 743 and OT 786C.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course.

Term Offered: Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 788 Level IIB Fieldwork - Lifespan Experience Credits: 12 (0-0-36)

Course Description: Develop entry-level occupational therapy competence providing occupation-centered practice across the life span through immersion in the occupational therapist role for the equivalent of 12-weeks. Build professional behaviors and identity while bridging the didactic portion of the curriculum during supervised practice.

Use professional reasoning gained through the OTD curriculum while progressively taking on greater responsibility for service delivery.

Prerequisite: OT 762 and OT 764 and OT 769 and OT 786F.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: Yes.

OT 789 Capstone Experience Credits: 14 (0-0-42)

Course Description: Actualize the aim of the entry-level doctorate as a collaborative and enduring change agent and leader who is grounded in the perspective of occupation and positively influences individuals, groups, communities, populations, and the profession. In-depth and individualized experience in a specific area of practice, research, or education aligned with the doctoral capstone project to develop knowledge and skills in an area of interest with responsiveness to diversity and inclusion.

Prerequisite: OT 769 and OT 788.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 792 Occupation and Rehabilitation Sci Seminar II Credits: 2 (0-0-2)

Course Description: Evaluate how historical, legislative, social, scientific, and theoretical influences shape(d) a chosen human performance and participation research topic and synthesize contributions from rehabilitation science, occupational science, and other multidisciplinary sciences and research. Facilitate a scholarly discourse within a community of scholars. Engage in self-directed learning to refine and defend scholarly perspective and integrated research philosophy.

Prerequisite: OT 692.

Restriction: Must be a: Graduate, Professional.

Registration Information: Bachelor's degree required. Admission to Occupation and Rehabilitation Science program or approval from course instructor. May be repeated three times for a maximum of 6 credits.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

OT 794 Independent Study Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission into a PhD program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 796 Group Study Credits: Var[1-6] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Admission into a PhD program.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**OT 799 Dissertation Credits: Var[1-15] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Master of Science in Occupational Therapy, Plan A

Occupational Therapy has transitioned to the Occupational Therapy Doctorate (O.T.D.). No new students are being accepted to the Master's program of study.

Requirements Effective Fall 2015

First Year

Fall		Credits
OT 601	Occupation and Rehabilitation Science I	3
OT 610	Professional Decision Making	3

A minimum of 68 credits are required to complete this program.

¹ Select one 3-credit elective from a department list of approved courses.

² May also be taken in the Fall.

Ph.D. in Occupation and Rehabilitation Science

Effective Fall 2022

Ph.D. course requirements include a minimum of 72 credits for each of three entry routes:

Entry A: For students enrolled in the continuous Master's/Ph.D. degree program in occupational therapy at CSU, 18 credits of the CSU M.S. degree in Occupational Therapy will apply toward partial fulfillment of the required 72 credits.

Entry B: For students who submit a previously earned Master's degree, up to 30 credits may be accepted toward partial fulfillment of the required 72 credits. All potential credits accepted toward partial fulfillment of the requirements below must be approved by the student's graduate committee, the Department of Occupational Therapy, and the Graduate School.

Entry C: For students who do not submit a Master's degree in partial fulfillment of the required 72 credits, up to 10 credits earned after the bachelor's degree may be accepted for transfer. Only courses taken at a 500-level or higher will be considered. All potential credits accepted toward partial fulfillment of the requirements below must be approved by the student's graduate committee, the Department of Occupational Therapy, and the Graduate School.

Code	Title	Credits

Directed Electives ⁴		18-20
Dissertation		

OT 799	Dissertation	15
Program Total Credits:		72

A minimum of 72 credits are required to complete this program.

- ¹ Students will register for two credits of OT 692 for three semesters during the first half of the PhD program.
- ² Students will register for two credits of OT 792 for three semesters during the second half of the PhD program.
- ³ With approval of graduate committee, select three credits of advanced research.
- ⁴ Students must consult with their primary advisor in selecting elective courses.

Doctor of Occupational Therapy (O.T.D.)

CSU's entry-level Doctor of Occupational Therapy program is designed using subject- and learner-centered principles. Engaging in active learning and focusing on occupation, graduates become occupational therapy practitioners who can and will embrace collaboration and leadership in the field. Our candidacy application has been accepted and the CSU-OTD program has entered its first two classes.

Find more information on the Doctor of Occupational Therapy program on the Department of Occupational Therapy website (<https://www.chhs.colostate.edu/ot/programs-and-degrees/occupational-therapy-doctorate/>).

School of Social Work

Office in Education Building, Room 127
(970) 491-6612

www.chhs.colostate.edu/ssw (<https://www.chhs.colostate.edu/ssw/>)

School Leadership:

- Charlotte Bright, Director, School of Social Work
- Anne Williford, PhD Program Director
- Amy Martonis, Assistant Director, MSW Program Director
- Dana Gaines, BSW Program Director

The School of Social Work offers a Bachelor of Social Work (BSW) (<https://www.chhs.colostate.edu/ssw/programs-and-degrees/bachelor-of-social-work/>), Master of Social Work (MSW) (<https://www.chhs.colostate.edu/ssw/programs-and-degrees/master-of-social-work/>) and a Ph.D. in Social Work (<https://www.chhs.colostate.edu/ssw/programs-and-degrees/ph-d-in-social-work/>). Additionally, the school offers several graduate certificate programs (<https://www.chhs.colostate.edu/ssw/programs-and-degrees/>) to enhance training for specialized practice contexts.

Social work professionals are community problem solvers who assess and intervene on multiple levels including organizational settings, communities, social service agencies, groups, individuals, and families. Social workers have social justice goals of enhancing health and well-being and promoting social, economic, and environmental justice.

Employment Opportunities:

- Child Welfare
- Public Health
- Family Services
- Gerontology
- Behavioral Health
- Policy/Legislative Work
- Mental Health
- Addictions
- Medical/Health
- School Social Work
- Corrections
- Community Organization/Advocacy

The Social Work curriculum focuses on the practical application of social work principles, research, policies, and practices within human rights and social justice perspectives. Students acquire professional social work knowledge-based skills and values transferable to different settings, population groups, and problem areas. Students apply a person-in-environment lens to engage and intervene with social systems locally, nationally, and globally. Several practical experiences are required through intensive internship programs. Both the BSW and MSW programs are accredited by the Council on Social Work Education (<https://www.cswe.org/>).

Undergraduate Major

- Major in Social Work
 - Addictions Counseling Concentration

Graduate Programs in Social Work

The School of Social Work offers an M.S.W. degree and a Ph.D. in Social Work. The MSW degree is accredited by the Council on Social

Work Education, with an emphasis in advanced generalist practice. The Ph.D. prepares students for academic positions or for careers in research. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the School of Social Work (<http://www.ssw.chhs.colostate.edu/>).

Certificates

- Advanced Clinical Behavioral Health
- Conflict Resolution and Mediation
- Nonprofit Administration
- PreK-12 School Social Worker
- Social Aspects of Human-Animal Interaction

Master's Programs

- Master of Social Work
- Master of Addiction Counseling in Psychology and Social Work

Ph.D.

- Ph.D. in Social Work

Courses Social Work (SOWK)

SOWK 110 Contemporary Social Welfare Credits: 3 (2-0-1)

Course Description: Principles, values and institutions of U.S. social welfare in context of human need within family, groups, and society.

Prerequisite: None.

Registration Information: Must register for lecture and recitation.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 120 Academic and Career Success Credit: 1 (1-0-0)

Course Description: Skills for general academic success, personal growth, self-management, and knowledge of campus/community resources. Examination of professional opportunities within the field of social work.

Prerequisite: None.

Restriction: Must be a: Undergraduate.

Registration Information: Undergraduate social work majors only. This may be offered as a partial semester course. Sections may be offered: Online. Credit not allowed for both SOWK 120 and SOWK 280A1.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 130 Identity, Power, and Social Justice (GT-SS3) Credits: 3 (3-0-0)

Course Description: Knowledge of historic atrocities and injustices that continue to shape socialization, perpetuating oppression and normalizing power based on identity. Discussion of identity, privilege, oppression, intersectionality, and social location applied to race, class, gender, sexual orientation, ability, and religion. Application of social justice practices to advocate for equity and inclusion of all people.

Prerequisite: None.

Restriction: Must be a: Undergraduate.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Diversity, Equity, & Inclusion 1C, Human Behavior, Culture, or Social Frameworks (GT-SS3).

SOWK 150 Introduction to Social Work Credits: 3 (3-0-0)

Course Description: Introduction to generalist social work, including the history of social welfare in the U.S. and the knowledge, values, skills, practice settings, and populations served across the profession with special emphasis on vulnerable groups. The broad range of theoretical approaches and intervention strategies required are introduced. Practice roles discussed are advocate, broker, counselor, mediator, researcher, and community change agent.

Prerequisite: (PSY 100, may be taken concurrently) and (SOC 100, may be taken concurrently or SOC 105, may be taken concurrently).

Restriction: Must be a: Undergraduate.

Registration Information: Undergraduate students only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 286A Practicum I Credits: 3 (2-0-2)

Course Description: Introductory social work practice skills in communication, relationship development, and professional behavior in the community setting.

Prerequisite: SOWK 150 with a minimum grade of C, may be taken concurrently.

Restriction: Must be a: Undergraduate.

Registration Information: Social Work majors only. Must register for lecture and practicum.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 286B Practicum II Credits: 3 (2-0-2)

Course Description: Introductory social work practice skills in communication, relationship development, and professional behavior in the community setting.

Prerequisite: SOWK 286A with a minimum grade of C.

Restriction: Must be a: Undergraduate.

Registration Information: Social Work majors only. Must register for lecture and practicum.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 300 Research in Applied Professions Credits: 3 (3-0-0)

Course Description: Basic understanding of the research process and research methodologies, including skill in finding, understanding, interpreting, and applying research findings using critical thinking skills. Major emphasis on the steps and procedures to investigate various social problems and interventions that are central to contemporary social work practice while learning how research can be used to improve social work practice and to foster social and economic justice.

Prerequisite: SOC 210, may be taken concurrently or STAT 100, may be taken concurrently or STAT 201, may be taken concurrently or STAT 301, may be taken concurrently or STAT 311, may be taken concurrently.

Restriction: Must be a: Undergraduate.

Registration Information: Completion of AUCC 1B Quantitative Reasoning requirement.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 330 Dismantling Privilege and Oppression Credits: 3 (2-0-1)

Course Description: Knowledge and skill in deconstructing one's own identity, privilege and oppression to apply that process of understanding to a client's unique intersecting identities creating culturally sensitive social work practices.

Prerequisite: SOWK 286A with a minimum grade of C, may be taken concurrently.

Restriction: Must be a: Undergraduate.

Registration Information: Must register for lecture and recitation. Social Work majors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 333 Human Behavior in the Social Environment Credits: 3 (2-0-1)

Course Description: Historic and contemporary theoretical foundations as contributions to practice knowledge in social work. Uses ecological and systems theory as organizing frameworks with critical thinking as a skill for identifying and challenging assumptions. Understanding human behavior theory relevant to social work practice.

Prerequisite: HDFS 101, may be taken concurrently and SOWK 286A with a minimum grade of C, may be taken concurrently and SOWK 330 with a minimum grade of C, may be taken concurrently.

Restriction: Must be a: Undergraduate.

Registration Information: Must register for lecture and recitation. Credit not allowed for both SOWK 233 and SOWK 333. Social Work majors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 340 Generalist Practice-Individuals and Families Credits: 3 (2-0-1)

Course Description: Knowledge and techniques used in applying the generalist planned change process to individual and family system assessments and interventions.

Prerequisite: SOWK 286B with a minimum grade of C, may be taken concurrently.

Restriction: Must be a: Undergraduate.

Registration Information: Must register for lecture and recitation. Progression into the major is required prior to registration.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 341 Generalist Practice-Small Groups Credits: 3 (1-0-2)

Course Description: Knowledge, skills and competencies needed for the planned change process in groups within a generalist framework.

Prerequisite: SOWK 340 with a minimum grade of C, may be taken concurrently.

Restriction: Must be a: Undergraduate.

Registration Information: Must register for lecture and recitation.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 343 Generalist Practice-Organizations Credits: 3 (2-0-1)

Course Description: Knowledge, values, and skills for the planned change process with organizations.

Prerequisite: SOWK 340 with a minimum grade of C, may be taken concurrently.

Restriction: Must be a: Undergraduate.

Registration Information: Must register for lecture and recitation.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 352 Indigenous Women, Children, and Tribes Credits: 3 (3-0-0)

Also Offered As: ETST 352.

Course Description: Historical and contemporary lives of women, children, and tribal communities.

Prerequisite: ETST 100 to 299 - at least 3 credits or WS 200.

Registration Information: Credit not allowed for both ETST 352 and SOWK 352.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 370 Addictions - A Social Work Perspective Credits: 3 (2-0-1)

Course Description: Applying a bio-psychosocial lens to the system of addictions and substance abuse from a social work perspective.

Prerequisite: HDFS 101 or PSY 100.

Registration Information: Sophomore standing. Must register for lecture and recitation. Credit not allowed for SOWK 370 and SOWK 371D.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 371A Fields of Practice: Child Protection Credits: 3 (3-0-0)

Course Description: The evolution of the child welfare system, including the current models, practices, and skills used to protect children and support families.

Prerequisite: None.

Registration Information: Completion of AUCC category 3C required. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 371B Fields of Practice: Juvenile Justice Credits: 3 (3-0-0)

Course Description: History, approaches, theories, and social work practices in the juvenile justice system with a focus on inequity and social justice.

Prerequisite: None.

Registration Information: Completion of AUCC category 3C required. Sections may be offered: Online.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 371C Fields of Practice: Criminal Justice Credits: 3 (3-0-0)

Course Description: History, approaches, theories, and social work practices in the adult justice system with a focus on inequity and social justice.

Prerequisite: None.

Registration Information: Completion of AUCC category 3C required.

Sections may be offered: Online.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 371E Fields of Practice: Social Gerontology Credits: 3 (3-0-0)

Course Description: Application of practice processes in the field of gerontology, including the current models, practices, and skills used in the profession.

Prerequisite: HDFS 101 or PSY 100 or SOC 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 384 Supervised College Teaching Credits: Var[1-5] (0-0-0)

Course Description: Assist instructor in teaching selected classes, group training, or discussion group leadership.

Prerequisite: None.

Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

SOWK 400 Generalist Practice-Communities Credits: 3 (2-0-1)

Course Description: Knowledge and skills to engage with communities, create culturally sensitive change, and evaluate the planned change process.

Prerequisite: SOWK 343 with a minimum grade of C, may be taken concurrently.

Restrictions: Must not be a: Freshman. Must be a: Undergraduate.

Registration Information: Must register for lecture and recitation. Social Work majors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 410 Social Welfare - Policy, Issues, and Advocacy Credits: 3 (2-0-1)

Course Description: Issues and processes shaping social welfare institutions; definitions of social welfare policy; analytical framework for policy analysis.

Prerequisite: (POLS 101 or POLS 103) and (SOWK 400 with a minimum grade of C, may be taken concurrently).

Restriction: Must be a: Undergraduate.

Registration Information: Must register for lecture and recitation.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 450 International Social Welfare and Development Credits: 3 (2-0-1)**Also Offered As:** IE 450.**Course Description:** Framework of social welfare and development in international area; social need with focus on cultures/countries in transition.**Prerequisite:** None.**Registration Information:** Must register for lecture and recitation. Credit not allowed for both SOWK 450 and IE 450.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**SOWK 482A Social Work in Costa Rica Credits: 3 (1-0-2)****Course Description:** International social work practice through exposure to culturally diverse communities in Costa Rica. Examine social problems, social action, and social injustice in the context of global interdependence.**Prerequisite:** None.**Registration Information:** Must register for lecture and recitation. Enrollment in Bachelor of Social Work or Master of Social Work degree program. Demonstrate competency in professional knowledge, values, skills, and affective and cognitive processes for beginning social work practitioners.**Prerequisite:** SOWK 300 and SOWK 341 and SOWK 330 and SOWK 410, may be taken concurrently.**Restriction:** Must be a: Undergraduate.**Registration Information:** Maximum of 10 credits allowed in course.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** Yes.**SOWK 492 Seminar Credits: 3 (0-0-3)****Course Description:** Integrates the knowledge, values, skills, cognitive and affective processes, and behaviors, that develop social work competency while in field placement.**Prerequisite:** SOWK 488, may be taken concurrently.**Restriction:** Must be a: Undergraduate.**Registration Information:** Junior standing.**Terms Offered:** Fall, Spring.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**SOWK 495 Independent Study Credits: Var[1-12] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**SOWK 496 Group Study Credits: Var[1-12] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**SOWK 500 Principles and Philosophy of Social Work Credits: 3 (3-0-0)****Course Description:** Establish larger framework for graduate social work study, and beginning professional practice. Provide an understanding of the nature, history, values, ethics, and practice contexts for social work. Evaluate their goodness-of-fit with the profession, the knowledge base required, and the diverse people, organizations, and communities served by social work.**Prerequisite:** None.**Restriction:** Must be a: Graduate.**Registration Information:** Admission to the MSW program. Sections may be offered: Face-to-Face or Mixed Face-to-Face.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**SOWK 511 Small Systems Practice Skills Credits: 3 (1-0-2)****Course Description:** Foundational practice knowledge and skills for engagement, assessment, intervention, and evaluation with individuals and families within a systems framework.**Prerequisite:** SOWK 500, may be taken concurrently and SOWK 515, may be taken concurrently.**Restriction:** Must be a: Graduate.**Registration Information:** Must register for lecture and recitation.

Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**SOWK 515 Theoretical Foundations for Social Work Credits: 3 (2-0-1)****Course Description:** Historical and contemporary theoretical foundations for social work practice. Ecological and systems theories are presented as organizing frameworks and critical thinking is developed as a skill for identifying and challenging assumptions.**Prerequisite:** SOWK 500, may be taken concurrently.**Restriction:** Must be a: Graduate.**Registration Information:** Graduate standing. Must register for lecture and recitation. Sections may be offered: Face-to-Face or Mixed Face-to-Face.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.

SOWK 520 Social Welfare Policy and Advocacy Credits: 3 (2-0-1)

Course Description: Analysis of how social welfare policies affect the well-being of people and the tools that can be used to advocate for social change.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program.

Registration Information: Admission to the MSW program. Must register for lecture and recitation. Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 530 Anti-Oppressive Social Work Practice Credits: 3 (2-0-1)

Course Description: Developing anti-oppressive practice with a focus on multiculturalism and social justice advocacy. Critically evaluate personal traits, attitudes and values regarding diversity and identity formation while exploring theoretical frameworks for understanding oppression. Analyze the relationships among power, privilege and oppression. Acquiring strategies for combating injustice.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program.

Registration Information: Admission to MSW program. Must register for lecture and recitation. Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 550 Animal Assisted Therapy and Human-Animal Bond Credits: 3 (2-0-1)

Course Description: The nature of the human-animal bond and animal-assisted interventions including animal-assisted activities and animal-assisted therapy presented as intervention methods. Includes various theories, protocols, and therapeutic practice methodologies with people across the lifespan.

Prerequisite: None.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 551 Fundamentals of Mediation Credits: 3 (1-0-2)

Course Description: Knowledge and skills essential to the successful application of mediation for a wide variety of interpersonal conflicts.

Prerequisite: None.

Registration Information: Bachelor's degree. Must register for lecture and recitation. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 552 Conflict Management: Health and Elder Care Credits: 3 (1-0-2)

Course Description: Knowledge, values and skills necessary for the practice of conflict resolution in healthcare and eldercare settings.

Prerequisite: SOWK 551.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 553 Multi-Party Conflict Resolution Credits: 3 (2-0-1)

Course Description: Theories, models, and skills required for design and guidance of multi-party conflict resolution in group, community and organizational settings.

Prerequisite: SOWK 551.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 554 Conflict Resolution in the Workplace Credits: 3 (1-0-2)

Course Description: Knowledge, values and skills necessary for the practice of conflict resolution in the workplace.

Prerequisite: SOWK 551.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 556 Divorce and Family Mediation Credits: 3 (1-0-2)

Course Description: Knowledge and skills essential to the practice of family mediation including divorce and child custody.

Prerequisite: SOWK 551.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 557 Human-Animal Interventions--Grief and Loss Credits: 3 (2-0-1)

Course Description: Knowledge, values, and skills to engage, assess, and intervene with animal caregivers and animal care workers for grief and loss of animals and how animals can mitigate grief and loss.

Prerequisite: None.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 560 Social Work Practice in Schools Credits: 3 (0-0-3)

Course Description: Knowledge and skills essential to the practice of social work in educational settings. Topics include historical, legal, structural, and cultural context of practice in schools, the impact of disability on an individual and a family including special education processes and law, current issues challenging the practitioner in school settings, specific assessment practices covering Functional Behavior Assessment (FBA) and development of Behavior Intervention Plans (BIP).

Prerequisite: None.

Registration Information: Offered as an online course only.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 561 Exceptionalities in Education Credits: 3 (0-0-3)

Course Description: Comprehensive look at the school social worker role in identifying, assessing and intervening with students who have an exceptionality in the educational system in collaboration with other school based professionals. Students will be able to operationalize the different disability categories while assessing social work service provision and advocacy.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Offered as an online course only.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 562 Functional Behavior Assessment Credits: 3 (0-0-3)

Course Description: Functional behavioral assessments (FBA) and behavior intervention plans (BIP) within the educational settings are an integral part of the school social worker role. Develop the knowledge and skills essential to identify the necessary components of the FBA/ BIP and implement a three-tiered prevention model of assessment and intervention in alignment with Colorado Department of Education (CDE) standards. Apply best practice techniques and demonstrate vital data collection.

Prerequisite: SOWK 560.

Restriction: Must be a: Graduate.

Registration Information: Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 588 Field Placement Credits: Var[1-6] (0-0-0)

Course Description: Students integrate and apply professional competencies learned across coursework through direct practice in an agency setting for 270 hours of field education. Students will demonstrate competency in professional knowledge, values, skills, and affective and cognitive processes for beginning social work practitioners.

Prerequisite: SOWK 500 with a minimum grade of C, may be taken concurrently and SOWK 511 with a minimum grade of C, may be taken concurrently and SOWK 515 and SOWK 530, may be taken concurrently.

Restriction: Must be a: Graduate.

Registration Information: Maximum of 6 credits allowed.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: Yes.

SOWK 590 Workshop Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

SOWK 592 Integrative Foundation Field Seminar Credit: 1 (0-0-1)

Course Description: Integration of field placement experiences with foundation year MSW knowledge to enhance skills and shape social work best practices. Each session will focus on integrating students' field placement experiences with knowledge, values, skills, behaviors, and cognitive and affective processes for professional social work practice.

Prerequisite: SOWK 500 with a minimum grade of C and SOWK 515 with a minimum grade of C and SOWK 588, may be taken concurrently.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 600 Methods of Research Credits: 3 (3-0-0)

Course Description: Emphasis on delivering evidence-based practice as well as conducting research to improve social work practice and policy by being effective consumers of research for social work practice and understanding diverse research types, study designs, sampling, measures, and research ethics.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Advanced Standing MSW program. Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 601 Methods of Research II Credits: 3 (3-0-0)

Course Description: Data analysis, computer processing in social work research, and methods for evaluating one's own practice.

Prerequisite: SOWK 600.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 603A Direct Practice: Assessment and Evaluation Credits: 2 (0-0-2)

Course Description: Selection and application of techniques for monitoring and evaluating interventions with individuals, families, and groups.

Prerequisite: SOWK 601.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must have concurrent registration in SOWK 688.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

SOWK 603B Direct Practice: Assessment and Evaluation Credits: 2 (0-0-2)

Course Description: Selection and application of techniques for monitoring and evaluating interventions with individuals, families, and groups.

Prerequisite: SOWK 603A.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must have concurrent registration in SOWK 688.

Term Offered: Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

SOWK 630 Advanced Generalist Practice with Individuals Credits: 3 (2-0-1)

Course Description: Knowledge, values, and skills to engage, assess, intervene, and evaluate individuals using an advanced generalist practice approach.

Prerequisite: SOWK 588 and SOWK 592, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must complete SOWK 588 and SOWK 592 or be admitted to the Advanced Standing MSW program. Must register for lecture and recitation. Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 631 Advanced Community Practice Credits: 3 (1-0-2)

Course Description: Preparing students to engage in and lead community practice that improves the well-being of individuals, families and communities; positively impacts the availability and impact of services and service delivery systems; and seeks to achieve social, economic, and environmental justice.

Prerequisite: SOWK 588 and SOWK 592, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must complete SOWK 588 and SOWK 592 or be admitted to the Advanced Standing MSW program. Must register for lecture and recitation. Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 633 Contemporary Issues in Social Welfare Policy Credits: 3 (1-0-2)

Course Description: Application of social welfare policy analysis models, normative aspects of policy analysis and assessment skills.

Prerequisite: SOWK 588 and SOWK 592, may be taken concurrently.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Must complete SOWK 588 and SOWK 592 or be admitted to the Advanced Standing MSW program. Must register for lecture and recitation. Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 634 Advanced Practice with Families and Groups Credits: 3 (1-0-2)

Course Description: Apply engagement, assessment, and intervention skills, theoretical models, and evidence-based practice approaches in work with families and groups.

Prerequisite: SOWK 630.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 642 Clinical Intervention with Military Personnel Credits: 3 (0-0-3)

Course Description: Clinical framework for working with members of the military including active duty, veterans, and military families, applied to examine common diagnoses and effective interventions, including post-traumatic stress disorder, traumatic brain injury, substance abuse, and suicide. Cognitive behavioral therapy, reactive exposure behavioral therapy, exposure therapy, rehabilitation, animal-assisted therapy, and additional therapies will be investigated.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 660 Nonprofit Program Development Credits: 3 (0-0-3)

Course Description: Application of the tools, knowledge, and understanding of how to provide strength-based nonprofit program development and management.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 661 Nonprofit Financial Development Credits: 3 (0-0-3)

Course Description: Application of the tools, knowledge, and understanding of how to provide strength-based nonprofit financial development.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 662 Nonprofit Volunteer Development & Management Credits: 3 (0-0-3)

Course Description: Theoretical framework for understanding volunteerism and practice skills for building and managing an effective volunteer program.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course. Offered as an online course only.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 676 Psychopharmacology and Community Health Credits: 3 (0-0-3)

Course Description: Foundation in psychopharmacology (i.e. prescribed psychotropic drugs) for non-medically trained professionals practicing in behavioral health.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Bachelor's degree. Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 677 Trauma-Informed Care Credits: 3 (0-0-3)

Course Description: Establishes a foundation for providing trauma mental health services to individuals, families, groups and organizations.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Bachelor's degree. This is a partial semester course. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 678 Social Work Skills for Addictions Practice Credits: 3 (2-0-1)

Course Description: Uses a biopsychosocial framework to explore substance use and the social problem of addictions. Introduction to assessment and intervention skills for addiction services within social work practice from micro to macro systems.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online. Credit not allowed for both SOWK 581A1 and SOWK 678.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 684 Supervised College Teaching Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Maximum of 10 credits allowed.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

SOWK 688 Field Placement Credits: Var[1-10] (0-0-0)

Course Description: Integrate and apply advanced generalist professional competencies learned across coursework through direct practice in an agency setting completing 675 hours. Demonstrate competency in professional knowledge, values, skills, and affective and cognitive processes for advanced generalist social work practitioners.

Prerequisite: SOWK 592 and SOWK 500 with a minimum grade of C and SOWK 511 and SOWK 515 and SOWK 520 and SOWK 530 and SOWK 588 with a minimum grade of S.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Advanced Standing MSW program or SOWK 500 with a C or better; SOWK 511; SOWK 515; SOWK 520; SOWK 530; SOWK 588 with an S grade; SOWK 592. Maximum of 15 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: Yes.

SOWK 695 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

SOWK 696 Group Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

SOWK 698 Advanced Research and Social Work Capstone Credits: 3 (1-0-2)

Course Description: Applied research project designed and implemented in groups to culminate knowledge and skill application. May be conducted with field agency, a community organization, or in alignment with specific School of Social Work faculty research. Groups will evaluate, research, and/or analyze a topic relevant to social work practice at the micro, mezzo, or macro level.

Prerequisite: SOWK 600 with a minimum grade of C.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation.

Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

SOWK 701 Contemporary Issues in Social Work Credits: 3 (1-0-2)

Course Description: Issues and trends currently impacting social work research, professional education, and practice.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation.

Admission to the School of Social Work PhD Program.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 702 Social Welfare Policy Credits: 3 (1-0-2)

Course Description: Social policy analysis and impact on social welfare systems and programs.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 703 Pedagogical Approaches in Social Work Credits: 3 (1-0-2)

Course Description: Pedagogy and practices for teaching social work curriculum.

Prerequisite: SOWK 701.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the School of Social Work PhD Program. Must register for lecture and recitation.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 704 Theory for Applied Social Sciences Credits: 3 (1-0-2)

Course Description: Nature and processes of theory building in social sciences. Issues of epistemology, logic, political and moral philosophy.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 705 Systematic Research for Scientific Inquiry Credits: 3 (1-0-2)

Course Description: Systematic research in areas of interest that summarizes findings from available studies and provides a critique of the current body of evidence in this area.

Prerequisite: SOWK 701.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the School of Social Work PhD Program. Must register for lecture and recitation.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 706 Advanced Research Methods for Social Work Credits: 3 (1-0-2)

Course Description: Qualitative and quantitative social work research methods centered on anti-oppressive and anti-racist frameworks. Topics include ethics and power in research; developing research questions and hypotheses that advance anti-oppressive practice and policy in the field; research designs; sampling and measurement consideration from an anti-oppressive lens; critiquing and evaluating research from an anti-oppressive framework.

Prerequisite: SOWK 701, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 784 Supervised College Teaching Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

SOWK 786 Research Practicum Credits: 3 (0-0-3)

Course Description:

Prerequisite: SOWK 701 and EDRM 700 and EDRM 704.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

SOWK 792 Seminar Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: SOWK 701.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

SOWK 795 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

SOWK 799 Dissertation Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

Major in Social Work

Social work is distinguished by a tradition of concern for people and their interactions with society. Social work professionals are community problem solvers who intervene in organizational settings, communities, social service agencies, groups, individuals, and families with goals of enhancing well-being and promoting social and economic justice. Most social workers are employed in fields such as school social work, community organization, mental health, advocacy, child and family services, medical social work, and judicial systems.

The Social Work curriculum focuses on the practical application of social work principles, policies, and practices within human rights and social justice perspectives. Students acquire a social work practice foundation transferable to different settings, population groups, and problem areas. Attention is devoted to understanding the person in environment in the U.S., and working with individuals, families, and communities to effect the desired change. At the global level, human rights and economic, environmental and social needs are explored through international travel courses. Several practical experiences are required. Students work with an agency participant throughout their sophomore year, and then as seniors, participate in a social work agency internship. International placements may be available. The curriculum also includes a strong liberal arts base in social science research and statistics, arts, humanities, social science, and natural sciences.

CSU students are admitted to the School of Social Work (SSW) when they declare Social Work as a major. Two professional organizations, the National Association of Social Workers (NASW) (<https://www.socialworkers.org/>) and the Council on Social Work Accreditation (CSWE) (<https://www.cswe.org/>) guide social work practice and education. The NASW develops the Code of Ethics (<https://www.socialworkers.org/About/Ethics/Code-of-Ethics/Code-of-Ethics-English/>) for practicing social workers. The CSWE accredits bachelor's and master's social work education programs in the United States. The BSW program is accredited by CSWE.

Learning Outcomes

Graduating seniors will have demonstrated:

- Skills in conceptualizing and applying knowledge of social welfare policy and services, a systems perspective, theory, community resources, and community policy-making processes and practices.
- Knowledge and mastery of the foundation competencies as required by the CSWE for accreditation of the BSW degree.
- An understanding of the social work code of ethics including mastery of skills in maintaining client confidentiality, establishing professional boundaries, and resolving ethical dilemmas that are presented in case situations.

Potential Occupations

Social Work graduates are employed in a variety of settings including schools, hospitals, community non-profits, public health, judicial systems, adult and child welfare agencies, and county treatment centers. Entry-level job opportunities are plentiful. Graduates should be willing to work with people of all ages and in a multitude of circumstances and settings. Internships are required. Graduates of the BSW program are eligible to apply for advanced standing in graduate programs.

Some examples of career opportunities include, but are not limited to: program manager, international development, assisted living and rehabilitation center administrator, medical social service counselor, probation officer, client advocate, victim-witness program counselor, children and family services worker, transition age youth interventionist, crisis counselor, child protection worker, adult protection worker, gerontology, case manager, community outreach coordinator, youth program counselor, home health worker, occupational social services worker, foster parent consultant, addictions treatment counselor, domestic/intimate partner violence counselor, adoption worker.

Progression in the Major

Progression in the Major is guided by standards required by both NASW (<https://www.socialworkers.org/>) and CSWE (<https://www.cswe.org/>) to ensure compliance with accreditation standards, and that students meet nationally recognized ethical requirements for their profession.

The NASW (<https://www.socialworkers.org/>) Code of Ethics (<https://www.socialworkers.org/About/Ethics/Code-of-Ethics/Code-of-Ethics-English/>) requires that social workers act ethically in their work with clients. It also requires that social workers take action when their colleagues are not acting competently or ethically. The CSWE (<https://www.cswe.org/>) requires that social work programs describe the procedures for informing students of the program's criteria for evaluating students' academic and professional performance and that the program has policies and procedures for terminating students' enrollment in the social work program for reasons of academic and professional performance.

To meet the requirements of these professional governing bodies, the School of Social Work (SSW) has developed a Progression in the Major procedure. Progression in the Major is a time in a student's academic career when faculty and students can review each student's readiness for the profession of social work. Prior to enrolling in the 300 level practice courses (SOWK 340, SOWK 341, SOWK 343), students must apply for Progression in the Major. Approval of the Progression in the Major application is a prerequisite for enrollment in SOWK 340. Generally, students who have 60 or more credits must apply for progression to graduate in the following four semesters. The application for Progression in the Major will be described in SOWK 286A and SOWK 286B.

As a professional program, academic performance and readiness to proceed in the SSW program require a minimum grade point average, completion of required course work, and behaviors appropriate to the performance of social work. Concerns in student performance may be addressed with the student at any time in the student's academic career in the SSW. Learn more about the student expectations for progression and review process on the School of Social Work website (<https://www.chhs.colostate.edu/ssw/programs-and-degrees/bachelor-of-social-work/>).

Practicum and Internship

Students directly apply classroom knowledge, skills, and social work values through a six-credit supervised practicum, SOWK 286A, and SOWK 286B, in the sophomore year. In this practicum, students are matched with community agencies that require background checks before placement.

In the senior year, students fulfill a 10-credit field placement in a social work agency or program in a community setting. Field placement agencies also generally require background checks. Examples of available field placements include schools, adolescent service programs, centers serving aging and elderly populations, bilingual community nonprofits, refugee services, and county public service programs, including corrections, adult and child welfare, hospitals, housing insecurity programming, rehabilitation, and mental health agencies.

For a complete list of field placements, students may visit the Field Education page on the School of Social Work website (<https://www.chhs.colostate.edu/ssw/field/>). In their field placement and under supervision, students have the opportunity to demonstrate the required CSWE competencies.

Concentration(s)

- Addictions Counseling Concentration

Learn more about the Social Work major on the School of Social Work website (<https://www.chhs.colostate.edu/ssw/programs-and-degrees/bachelor-of-social-work/>). (<https://www.chhs.colostate.edu/ssw/programs-and-degrees/bachelor-of-social-work/>)

Requirements

Effective Fall 2022

A grade of C (2.000) or above is required in each SOWK course required for the major; a 2.500 overall GPA in all SOWK courses is required for the major.

Graduate Certificate in Advanced Clinical Behavioral Health

The Graduate Certificate in Advanced Clinical Behavioral Health increases the competence and accountability of MSW students, social work professionals, and eligible individuals from other disciplines as they work with clients and interdisciplinary teams around assessment, diagnosis, medication, and trauma.

Effective Spring 2022

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Required Course:		3
SOWK 677	Trauma-Informed Care	
Select two courses from the following:		6
SOWK 642	Clinical Intervention with Military Personnel	
SOWK 676	Psychopharmacology and Community Health	
SOWK 678	Social Work Skills for Addictions Practice	
Program Total Credits:		9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Learn more about the Graduate Certificate in Advanced Clinical Behavioral Health on the CSU Online website (<https://www.online.colostate.edu/certificates/advanced-clinical-behavioral-health/>). (<https://www.online.colostate.edu/certificates/advanced-clinical-behavioral-health/>)

Graduate Certificate in Conflict Resolution and Mediation

The Graduate Certificate in Conflict Resolution and Mediation provides fundamental skills for helping professionals as they work with clients and interdisciplinary teams around the rapidly growing field of mediation. This certificate provides the required 40 hours of training to be recognized as a mediator by the Mediation Association of Colorado (through SOWK 551). Additionally, this certificate prepares students to work with specialized populations requiring conflict resolution services.

Effective Spring 2017

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Required Course:		
SOWK 551	Fundamentals of Mediation	3
Select two of the following courses:		6
SOWK 552	Conflict Management: Health and Elder Care	

SOWK 553	Multi-Party Conflict Resolution
SOWK 554	Conflict Resolution in the Workplace
SOWK 556	Divorce and Family Mediation

Program Total Credits: 9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Learn more about the Graduate Certificate in Conflict Resolution and Mediation on the (<https://www.online.colostate.edu/certificates/conflict-resolution-mediation-certificate/>) CSU Online website (<https://www.online.colostate.edu/certificates/conflict-resolution-mediation-certificate/>).

Graduate Certificate in Nonprofit Administration

The Graduate Certificate in Nonprofit Administration increases the knowledge and skills of human service professionals to provide strengths-based nonprofit program development, financial planning and management, and volunteer recruitment and retention.

Effective Spring 2017

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Required Courses:		
SOWK 660	Nonprofit Program Development	3
SOWK 661	Nonprofit Financial Development	3
SOWK 662	Nonprofit Volunteer Development & Management	3
Program Total Credits:		9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Learn more about the Graduate Certificate in Nonprofit Administration on the CSU Online website.

Graduate Certificate in PreK-12 School Social Worker

PreK-12 School Social Worker is a specialized field of practice devoted to youth and families in educational environments. Social workers within school systems provide services to students to enhance their emotional wellbeing and improve their academic performance using micro, mezzo, and macro practices. By earning this certificate, students obtain the foundational credentials required by the Colorado Department of Education (CDE) to be a Special Services Provider (SSP) in PreK-12 settings. This additional specialized coursework will boost employment marketability.

Learning Outcomes

Students who successfully complete the certificate will be able to:

1. Analyze the roles and functions of social work in school-based practice settings.
2. Apply lessons learned from the history, legislative contexts, and theoretical perspectives of school social work.
3. Recommend practice-based solutions for K-12 students based on the Multi-Tiered System of Supports (MTSS) framework and other cultural, linguistic, and trauma-informed approaches.
4. Perform the assessment process of Functional Behavior Assessment for K-12 students.
5. Create Behavior Intervention Plans for K-12 Students.
6. Propose solutions for students with exceptionalities that account for complex contexts, including attitudes and perceptions, inclusive education, and identification, referral, assessment, and service delivery within Special Education.
7. Perform the core skills necessary to practice the stages of mediation.
8. Apply skills of conflict resolution to assist students and schools.

Effective Spring 2024

Graduate Certificate in Social Aspects of Human-Animal Interaction

The Graduate Certificate in Social Aspects of Human-Animal Interaction (HAI) increases competence and professional skills of eligible individuals who work with animals and those who provide care to animals. This certificate enables students to ethically integrate animals into a variety of treatment settings and create mutually beneficial relationships with animals and the environment.

Requirements Effective Fall 2021

Additional coursework may be required due to prerequisites.

SOWK 677	Trauma-Informed Care	3
Program Total Credits:		9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Master of Social Work

The Master of Social Work (MSW) degree is a nationally recognized Advanced Generalist program accredited by the Council on Social Work Education (CSWE). Our program equips students for versatile career paths from micro to macro settings, such as clinical practice through nonprofit leadership and policy advocacy. In alignment with social work values, our program is anti-oppressive and anti-racist, continually striving to advance diversity, equity, inclusion, and justice in every aspect of social work education and practice. The MSW Program utilizes a cohort model to support a learning community approach to graduate education.

The School of Social Work offers different program options for completing the MSW degree:

1. **Full Program** – For students who have an undergraduate degree in a different discipline, our two-year full-time program starts every fall and is offered in person. Students in this program complete three elective courses, enabling them to complete one of five graduate certificate programs offered by the School of Social Work or to engage in interdisciplinary coursework. This program is 64 credits. View the MSW program schedule (<https://www.chhs.colostate.edu/ssw/programs-and-degrees/master-of-social-work/full-time-msw-program/>).
2. **Advanced Standing** – For students who have earned a BSW from an accredited program within the past seven years, this accelerated path starts every summer and is offered in person. Students complete this program over three semesters for a total of 39 credits, which includes 3 elective credits (1 course). **View the Advanced Standing MSW Program schedule.**
3. **Part-time Online/Hybrid Learning Options** – The School of Social Work also offers a part-time online program completed in three years or in two years for Advanced Standing. Online students meet for one in-person learning weekend per semester at the cohort location. Current cohorts include Fort Collins (off-campus), Boulder/Longmont, and Denver. Please visit the Distance MSW Program website (https://www.online.colostate.edu/degrees/social-work/?utm_source=google&utm_medium=cpc&utm_campaign=3-msw-131001-cpc-google&gclid=CjwKCAjwiOCgBhAgEiwAqv5whPxf-25_bbBixCR88i4RiuHZox_QLb) for more information.
4. **MSW/MPH Dual Degree** (<https://www.chhs.colostate.edu/ssw/programs-and-degrees/master-of-social-work/master-of-social-work-master-of-public-health-program/>) – In partnership with

the Colorado School of Public Health, the School of Social Work offers a dual degree Master of Social Work/Master of Public Health program. For information, visit the MSW/MPH website (<https://www.chhs.colostate.edu/ssw/programs-and-degrees/master-of-social-work/master-of-social-work-master-of-public-health-program/>).

- MACP/MSW Joint Degree – In partnership with CSU's Department of Psychology, the School of Social Work offers a joint degree: Master's in Addiction Counseling in Psychology and Social Work.

Students who successfully complete the MSW program are prepared to pursue licensure in accordance with the Department of Regulatory Agencies (DORA) in Colorado and the Association of Social Work Boards (ASWB). Licensure requirements may vary in different states and US territories.

Learn more about the **Master of Social Work on the School of Social Work website.**

Ph.D. in Social Work

The curriculum leading to the Ph.D. in Social Work combines a core curriculum in social work with outside coursework drawn from related disciplines and includes thorough training in research methodology and

data analysis. The curriculum allows the student reasonable flexibility in tailoring programs of study to their special area(s) of interest under the guidance of their advisor and committee.

Learn more about the Ph.D. in Social Work on the School of Social Work website. (<https://www.chhs.colostate.edu/ssw/programs-and-degrees/ph-d-in-social-work/>)

Benjamin Withers, Dean

The College of Liberal Arts is a **community of arts, humanities, and social science scholars** who study the cultural, social, environmental, and historical context in which we live, and examine what it means to be human. Our students and faculty share a commitment to the well-being of the human community, the natural environment in which we live, and to the inspiration of the human spirit.

(<http://catalog.colostate.edu/general-catalog/colleges/liberal-arts/public-policy-administration-plan-c-mppa/public-policy-specialization/>) The **College of Liberal Arts** aims to educate committed and active citizens and to develop in them an understanding of humans, including their history, literature, and art; their social, political, and economic systems; and their relationship to the environment. The College offers courses in the arts, humanities, and social sciences, which constitute the foundation of a liberal arts education.

Undergraduate Programs (<https://www.libarts.colostate.edu/students/undergraduate-majors-minors/>)

Undergraduate majors lead to one of four degrees: Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Music, or Bachelor of Science. Descriptions of the specific departmental and interdepartmental majors and concentrations in the College of Liberal Arts are located in the following pages. Students should consider simultaneously completing the requirements of a second major or a departmental or interdisciplinary minor, either in the College of Liberal Arts or in another college. With careful planning, numerous combinations are possible within four years of study. The minimum scholastic average acceptable for graduation in any college program is a 2.000 average in all major courses in addition to the university's overall grade point average requirement of 2.000 for CSU courses.

Undergraduate Career Opportunities and Career Counseling (<https://www.libarts.colostate.edu/students/undergraduate-majors-minors/>)

Graduates from the College of Liberal Arts enter a remarkable variety of careers. Degrees from the College of Liberal Arts prepare students for success in their professional, personal, and civic lives. The skills and dispositions students develop through study in the liberal arts are widely sought. In preparing themselves for future career opportunities students are encouraged to work closely with Academic Support Coordinators, departmental mentors, and career counselors. Through these conversations students will be encouraged to develop resumes, interviewing skills, and articulation of the ways in which their skills will benefit potential employers. Students should also consider participating in internships to gain practical work experience.

Prelaw (<https://polisci.colostate.edu/pre-law/>)

Clark A, Room 076

(970) 491-5421

Prelaw advisor: Gina Robinson

Make an appointment by emailing: Gina.Robinson@colostate.edu (gina.robinson@colostate.edu)

Students preparing for law school can choose any major. Law schools seek above-average students with broad educational backgrounds and excellent communication, and analytical skills. Prelaw students, regardless of major, should design a course of study that develops their skills in speaking, writing and analytical capabilities. Law schools require an undergraduate degree for admission. Visit the Department of Political Science (<https://polisci.colostate.edu/pre-law/>) ([\[politicscience.colostate.edu/undergraduate/pre-law/\]\(http://politicscience.colostate.edu/undergraduate/pre-law/\)\) for more information.](http://</p>
</div>
<div data-bbox=)

Education Abroad (<https://www.libarts.colostate.edu/students/education-abroad/>)

Because the knowledge of at least one other culture is valuable in understanding our own, students are encouraged to take a semester or longer to study outside of the United States as part of their overall program at CSU. Students interested in education abroad should plan, far in advance, by discussing opportunities with their advisor and by visiting the Office of International Programs (<http://educationabroad.colostate.edu>) in Laurel Hall.

Graduate Programs (<https://www.libarts.colostate.edu/students/graduate-programs/>)

A variety of liberal arts advanced degrees are available in the College. Academic degrees offered are Doctor of Philosophy, Master of Arts, Master of Science, Master of Fine Arts, and Master of Music. The last two are generally considered professional degrees.

The College offers three interdisciplinary master's degrees. The Department of Anthropology and Geography (<https://anthgr.colostate.edu/graduate-programs/ma-in-anthropology/>) offers a master's degree in Anthropology with a specialization in International Development, with courses from across CSU. The Departments of English and Languages, Literatures and Cultures offer a joint master's program in foreign languages and the teaching of English as a second/foreign language. The LEAP Institute for the Arts offers a Master's in Arts Leadership and Cultural Management in collaboration with the College of Business, the College of Liberal Arts and others, that prepares students for leadership opportunities within and outside of the creative sector. Information on all three degree programs may be obtained from any participating department.

For detailed information about graduate programs, contact individual departments. See also the Graduate and Professional Bulletin.

Major in International Studies

College of Liberal Arts | Interdisciplinary Programs Main Office, Clark C 104
(970) 491-6296

inst.colostate.edu (<http://inst.colostate.edu/>)

Jonathan Carlyon, Interim Director

The International Studies major is an interdisciplinary program designed to help students understand the nature of diverse cultures and peoples. There are five concentrations: Asian Studies, European Studies, Global Studies, Latin American Studies, and Middle East and North African Studies. Courses are required in anthropology & geography, political science, economics, history, foreign language, and international studies, with other elective courses chosen from these and many more disciplines across the college and university.

Learning Outcomes

Graduates of the International Studies major will demonstrate that they are competent and capable in:

- Effectively articulating themes of International Studies and related fields in written and oral contexts
- Critically explaining and evaluating global issues
- Applying an interdisciplinary approach to knowledge
- Practicing positive global change

Potential Occupations

Graduates in International Studies apply their education in a wide variety of careers, including those in international business, non-profit organizations, academics, public policy, law, government, city planning, engineering, environmental sustainability and clean energy, information

systems, journalism, publishing, education, sales and marketing, management and administration, artistic production, mass media, communications, museums, entertainment, foreign service, and many other areas in need of well-rounded and broadly world-educated people. Many International Studies graduates enter graduate or professional schools for more specialized study in either international studies or one of many other disciplines. To enhance their career opportunities, majors are encouraged to consider participating in paid or volunteer work or internship opportunities, and to study abroad.

Accelerated Program

The major in International Studies includes an **accelerated program option** for students to graduate on a faster schedule. Accelerated Programs typically include 15-16 credits each fall and spring semester for three years, plus 6-9 credits over three **summer sessions**. Students who enter CSU with prior credit (AP, IB, transfer, etc.) may use applicable courses to further accelerate their graduation. Visit the Office of the Provost website for additional information about **Accelerated Programs**.

Concentrations

- Asian Studies Concentration
- European Studies Concentration
- Global Studies Concentration
- Latin American Studies Concentration
- Middle East and North African Studies Concentration

L*** 201 Second-Year Language II		3B	3-4
Advanced Writing		2	3
Arts and Humanities		3B	3
Biological and Physical Sciences		3A	7

Electives			5-7
Total Credits			29
Junior			
INST 301	International Studies Research Methods	4B	3
Select one group from the following: ¹			6-10
Group A:			
L*** 300 Third-Year Language I			
L*** 301 Third-Year Language II			
Group B: ²			
L*** 100 First-Year Language I			
L*** 101 First-Year Language II			
Global Studies Concentration Course Selection (see list below)			12
Electives			5-9
Total Credits			30
Senior			
INST 492	Seminar	4A,4C	3
Select one group from the following: ¹			6-8
Group A:			
Electives			
Group B: ²			
L*** 200 Second-Year Language I			
L*** 201 Second-Year Language II			
Global Studies Concentration Course Selection (see list below)			12
Electives ³			7-9
Total Credits			30
Program Total Credits:			120

Global Studies Concentration Course Selection

Students must select a minimum total of 24 credits, 18 of which must be upper-division (300- to 400-level), from at least three subject codes, from the following groups of courses. Select at least 3 credits from each group. Courses cannot double count in other requirements for this major.

Code	Title	AUCC	Credits
1. History and Politics			
Select a minimum of 3 credits from the following:			3
ANTH 459	Gods, Heroes, Stones--Greek Archaeology		
ART 110	Global Art History I		
ART 111	Global Art History II		
ART 212	Global Art History III		
ART 309	Pre-Columbian Art of the Andes		
ART 312	Pre-Columbian Art of Mesoamerica

International Studies Major Course Selection

Students must select a minimum total of 24 credits, 18 of which must be upper-division (300- to 400-level), from at least three subject codes, from the following groups of courses. Select at least 6 credits from 1. History and Politics of Latin America; at least 6 credits from 2. Thought and Cultures of Latin America; and at least 3 credits from 3. International Studies. Select an additional minimum of 9 credits from among the three groups to bring the total to 24.

Code	Title	AUCC	Credits
1. History and Politics of Latin America			
Select a minimum of 6 credits from the following:			6
ANTH 451	Andean Archaeology and Ethnohistory		
ETST 253	Chicanx History and Culture (GT-HI1) 3D		
ETST 261	Latinx Populations in the U.S.		
ETST 370	Caribbean Identities		
ETST 371	The Modern Caribbean		
HIST 353	U.S.-Mexico Borderlands		
HIST 410	Colonial Latin America		
HIST 411	Latin America Since Independence		
HIST 412	Mexico		
HIST 414	Revolutions in Latin America		
HIST 460	Slavery in the Americas		
POLS 331	Politics and Society Along Mexican Border		
POLS 446	Politics of South America		
POLS 447	Politics in Mexico, Central America, Caribbean		
2. Thought and Culture of Latin America			
Select a minimum of 6 credits from the following:			6
ANTH 411	Indians of South America		
ANTH 452	Archaeology of Mesoamerica		
ART 312	Pre-Columbian Art of Mesoamerica		
DM 470A	International Design and Merchandising: Apparel		
or DM 470B	International Design and Merchandising: Interior Design		
ETST 239/E 239	Introduction to Chicano Literature		
ETST 254	La Chicana in Society		
ETST 332	Contemporary Chicanx Issues		
LSPA 310	Approaches to Spanish Literature		
LSPA 313	Introduction to Spanish Translation and Interpreting		
LSPA 335	Issues in Hispanic Culture		
LSPA 345	Business Spanish		
LSPA 365	Introduction to Spanish Cinema		
or LSPA 465B	Studies in Foreign Film: Latin America		
LSPA 435	Caribbean Culture in Hispanic Literature		
LSPA 436	Advanced Latin American Culture		
LSPA 437	Advanced Spanish Culture		

LSPA 441	Advanced Business Spanish
LSPA 445	Women Writers in the Hispanic World
LSPA 449	Spanish-American Literary Movements and Periods
LSPA 452	Genre Studies in Spanish
LSPA 453	Author Studies in Spanish
LSPA 454	Topic Studies in Spanish
PHIL 333	Latin American Philosophy

3. International Studies

Select a minimum of 3 credits from the following:

3

AGRI 270/IE 270	World Interdependence-Population and Food (GT-SS3)	1C
AM 430	International Retailing

Major in Interdisciplinary Liberal Arts

Interdisciplinary Liberal Arts
Clark Building, Room B 331
(970) 491-5421
cla_ilamajor@mail.colostate.edu
libartsmajor.colostate.edu (<http://libartsmajor.colostate.edu>)

Kevin Foskin, Director

& cultural knowledge, innovative thinking, and personal reflection. Our curriculum emphasizes broad intellectual understanding, informed cultural awareness, and spacious interdisciplinary perspective, resulting in a unique and personal academic experience. Students design their own individualized program of study, self-selecting courses from the humanities, social sciences, and the visual-performing arts. Equally, students will accrue career enhancing communication & problem-solving skills essential for success in hundreds of careers awaiting them after graduation. The Interdisciplinary Liberal Arts B.A. degree is purposefully designed to be flexible, adaptive, expansive, and responsive to the changing and evolving academic interests and intellectual needs of our students. It is a major ideally suited for the ever-changing and rapidly-evolving 21st century workplace, preparing students for both existing careers and those not yet imagined. As students change and evolve, so does this major.

To further increase depth and focus, and to enhance expertise and career opportunities, Interdisciplinary Liberal Arts students are required to complete a second field of study, which can be any minor, or a second major, or 21 credits in a foreign language.

Learning Outcomes

- Think analytically and follow lines of thinking in both fact-based argumentation and problem-solving.
- Know and utilize multiple ways of seeing for the purpose of productively living and affecting positive change in the world.
- Write and speak clearly and persuasively in both traditional and emerging (digital) platforms.
- Summarize and communicate information in a variety of traditional and emerging information sharing formats.
- Practice humility, tolerance, and self-criticism and use each to further the fostering of free and flourishing communities and environments, both locally and globally.
- Understand how to work successfully & collaboratively with a variety of disciplinary perspectives and expertise, and to use this integrative ability to get things done.

The Interdisciplinary Liberal Arts major is a multipurpose, broad-based B.A. degree program specializing in analytical problem-solving, human

- Empathize with others and act responsibly & collaboratively in ongoing efforts to ensure a better social, political, cultural, and environmental world.
- Master cultural understanding and sensitivity in the context of informed citizenry, premised on responsible social, democratic, and environmental stewardship locally, nationally, and internationally.

Accelerated Program

The major in Interdisciplinary Liberal Arts includes an accelerated program option (<https://provost.colostate.edu/accelerated-programs/>) for students to graduate on a faster schedule. Accelerated Programs typically include 15-16 credits each fall and spring semester for three years, plus 6-9 credits over two to three summer sessions (<https://summer.colostate.edu/acceleratedprograms/>). Students who enter CSU with prior credit (AP, IB, transfer, etc.) may use applicable courses to further accelerate their graduation. Visit the Office of the Provost website for additional information about Accelerated Programs (<https://provost.colostate.edu/accelerated-programs/>).

Potential Occupations

Graduates in Interdisciplinary Liberal Arts apply their education in a wide variety of careers—existing and forthcoming—and/or academic professions, including public policy, politics, healthcare, artistic production, mass media, engineering, law, city planning, business, information systems, international business, journalism, publishing, education, sales and marketing, management and administration, government, communications, museum work, entertainment, foreign service, and many others. Many also continue on to graduate or professional schools for more specialized study. To enhance their career, academic or professional opportunities, the Interdisciplinary Liberal Arts majors can take advantage of the widest variety of internships, professional practicums, and/or study abroad opportunities of any undergraduate degree on campus.

Requirements

Effective Fall 2022

Second Field Requirement

Students in the Interdisciplinary Liberal Arts major must complete one of the following choices:

- A minor
- An interdisciplinary minor
- A second major
- 21 credits in a single language to include at least 6 upper-division (300- to 400-level) credits. At least 6 upper-division credits in this choice must be completed at CSU. (Completion of this choice is not transcribed.)

Media Studies Minor

Journalism and Media Communication (students with last names A-M)
Clark Building, Room C244
(970) 491-6310

Communication Studies (students with last names N-Z)
Behavioral Sciences Building, Room A203
(970) 491-6140

If you are interested in declaring your minor or if you have minor advising questions, please contact Usama Alshaibi (usama.alshaibi@colostate.edu).

The Media Studies minor provides a foundation for understanding the impacts and roles of mass media in society. Courses focus on media and film history, criticism, law, ethics, social effects, cultural consequences, and multicultural and international media issues. The minor is offered jointly by the Department of Journalism and Media Communication and the Department of Communication Studies. Students in the Journalism and Media Communication major may not use JTC courses to complete

this minor. Students in the Communications Studies major may not use SPCM courses to complete this minor.

Requirements Effective Fall 2021

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Graduate Certificate in Arts Management

The Graduate Certificate in Arts Management provides post-baccalaureate students and professionals from a variety of arts disciplines with specialized training in the field of arts management, administration and creative economies. This program trains students to be arts leaders in policy, advocacy, engagement and theory within community arts sectors at the national, state and local levels. This certificate program prepares post-baccalaureate students and professionals for career advancement and development in a range of areas within the management of for profit and not for profit arts organizations. This program is 12-credits (4 classes) and is offered online and residually.

Learning Outcomes

Students graduating with the Graduate Certificate in Arts Management will demonstrate knowledge and the capability to:

1. Synthesize complex arts management scenarios relating to leadership and operations.
2. Identify the critical differences between arts and culture organizations and other types of businesses, and how those differences can be used to build organizational consensus.
3. Apply leadership methodologies to the varying needs of arts organizations.
4. Recognize financial, leadership, and policy roles within arts organizational systems and cultures and identify the paths to sustainability.

Requirements Effective Spring 2023

Additional coursework may be required due to prerequisites.

Code	Title	Credits

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate program.

Master in Arts Leadership and Cultural Management, Plan C (M.A.L.C.M.)

University Center for the Arts

(970) 491-3746

[artsmanagement.colostate.edu \(https://artsmanagement.colostate.edu/\)](https://artsmanagement.colostate.edu/)

This Special Academic Unit (SAU) within the College of Liberal Arts, offers the degree of Master in Arts Leadership and Cultural Management. This degree is offered residually, online, and hybrid. This program is included in the Accelerated Masters Programs within the Graduate School (<https://artsmanagement.colostate.edu/masters/accelerated-masters-degree/>).

Arts Management at the LEAP Institute for the Arts believes knowledge of the arts and cultures of our world is the foundation for a career in the arts, opening possibilities for leadership, entrepreneurship, successful advocacy, and transformative public engagement. Students completing the degree will be able to meet the rising demand for skilled leaders and experienced management professionals who possess acumen in creative enterprises. This program covers a broad range of knowledge areas such as arts policy, advocacy, disaster planning in the creative economy, technology impacts, law and the arts, event management, project planning, community engagement, and financial structures in the arts, all applicable to careers in multiple arts sectors. In addition, this program emphasizes higher-level, transferable skills for lifelong career advancement.

What can you do with an Arts Management degree?

The demand for creative people with entrepreneurial and administrative skills is on the rise. Arts organizations seek creative leaders who can think differently, integrate knowledge across disciplines, spot and solve problems, and generate creative new ideas.

Possible Career Options

Artistic Director, Executive Director, Production Manager, Creative Strategies, Public Art & Cultural Commissions, Director of Operations, Program and Project Directors, Festival Manager, Development Director, Special Events Coordinator, Exhibition Planner, Financial Manager, Box Office Manager, Community and Corporate Relations, Manager of Artistic Outreach, Donor Relations Manager, Grants Manager, Director of Patron Services, Facility Manager, Volunteer Coordinator, Convention Planner, Community Advocacy, Non-profit administration, Project Assistant, Operations Manager, Arts and Social Justice Leader, International Arts Organization Administrator, Fine Arts and Performing Arts Teacher, Fine Arts Administration, Education Coordinator

The Master's Degree in Arts Leadership and Cultural Management is a 4 semester, 32-credit program. This degree offers two internships within the program of study. The degree is offered as both a residential a fully online or hybrid program. Information about the program is at [artsmanagement.colostate.edu \(https://artsmanagement.colostate.edu/\)](https://artsmanagement.colostate.edu/). Contact us for information on admissions at leap_csu@colostate.edu or call us at (970) 491-3746.

Master of Sport Management, Plan C (M.S.M.)

Graduates of the Master of Sport Management, Plan C program become mid-to-high level sport industry leaders in domestic and global, as well as private, public, and non-governmental sport organizations. Students are prepared to pursue leadership roles within sport, equipped with critical understandings and tools for effective responsiveness to the shifts in industries of sport. Graduates of the program gain practical and theoretical knowledge to pursue a range of mid-high level positions in sport. This specialization has a focus on preparing managers across the sport industry. All curriculum of the program is geared towards providing students with the necessary skills and knowledge to become successful sport industry leaders.

Learning Objectives

1. Identify and analyze ethical, legal, and socio-cultural issues, and formulate responses for use in managerial decision making and policy determinations in sport.
2. Identify and apply organizational theories and frameworks to the practice of sport management leadership and policy.
3. Respond to and engage collaboratively with diverse stakeholders and communities to address social challenges.

4. Employ appropriate methodologies and techniques, and manage strategic planning, as well as financial and human resource management.
5. Assess marketing and media needs, and formulate short term and long term solutions.
6. Develop and demonstrate, execute, and evaluate a sports event.
7. Reflect critically and develop collaborative solutions to address challenges of emerging issues concerning sport management and policy.

Master of Sport Management, Plan C, Sport Marketing Specialization

Graduates of the Master of Sport Management, Plan C, Sport Marketing Specialization program become mid-to-high level sport industry leaders in domestic and global as well as private, public, and non-governmental sport organizations. Students are prepared to pursue leadership roles within sport equipped with critical understandings and tools for effective responsiveness to the shifts in industries of sport. Graduates of the sport management master's program gain practical and theoretical knowledge to pursue a range of mid-high level positions in sport. This specialization has a focus on preparing managers across the sport industry. All curriculum of the program is geared towards providing students with the necessary skills and knowledge to become successful sport industry leaders.

Requirements Effective Fall 2021

Code	Title	Credits
Required Core Courses:		
BUS 655	Marketing Management ¹	2
BUS 656	Marketing Strategy and Planning	2
MKT 568	Sport Marketing	2

SPMT 523	Communications and Media in Sport	2
SPMT 533	Economics and Data Analytics in Sport	2
SPMT 536	Sport and Communities	2
SPMT 545	Sport Governance and Policy	2
SPMT 560	Sport Law	2
SPMT 562	Sport and Ethics	2
SPMT 572	Sport Organizational Communication	2
SPMT 641	Sport Management Capstone	2
SPMT 687	Sport Management Internship	2-4
Select a minimum of three credits from the following MKT electives:		3
MKT 610	Qualitative Marketing Research Methods	
MKT 621	Search Engine Marketing and Optimization	
MKT 661	Consumer Behavior	
MKT 662	Strategic Selling for Business Customers	
MKT 667	Services Marketing Management	
Select a minimum of 6 credits from the following SPMT electives:		6
SPMT 547	Contemporary Sport, Society and Globalization	
SPMT 554	Sport and the Environment	
SPMT 561	Sport Facility and Event Management	
SPMT 575	Risk Management in Sport	
SPMT 592	Sport Management Seminar	
Program Total Credits:		33-35

A minimum of 33 credits are required to complete this program.

¹ Sport Management students will need to obtain a registration override to take this course.

Master of Sport Management, Plan C, Sport Media and Communications Specialization

Professor Michelle Glantz, Chair

Undergraduate

Majors

- Major in Anthropology
 - Archaeology Concentration
 - Biological Anthropology Concentration
 - Cultural Anthropology Concentration
- Major in Geography

Minors

- Minor in Anthropology
- Minor in Geographic Information Science and Geographic Analysis
- Minor in Geography

Certificate

- Museum and Cultural Heritage Studies

Graduate

Graduate Programs in Anthropology

The department offers graduate programs leading to a Master of Arts degree (Plan A thesis option or Plan B portfolio option). It also has a Master of Arts specialization in each of four programmatic areas: Health and Well-Being, Humans and the Environment, International Development and Globalization, and Professional Methods and Techniques. Students may develop a research project or professional program in these programmatic areas, or in any area related to our faculty's research interests.

Health and Well-Being—studies the ways that human health and wellness are influenced by past and present sociocultural, environmental, biological, and biocultural forces, by drawing from broad and holistic perspectives on human well-being.

Humans and the Environment—investigates how past and present human activities influence the environment; the ways ecological and other processes affect human evolution and the human condition today; and the resilience of social and ecological systems.

International Development and Globalization—examines how local societies respond to global influences; the extent to which cultural meanings, beliefs, institutions, structures of inequality, and social relations between genders and among kin are changing as a result; and how processes of economic and community development can improve basic aspects of human welfare.

Professional Methods and Techniques—develops skills in a wide range of methods and techniques used by professionals in applied anthropology, federal and state natural resource agencies, and other arenas of social, historical, biological and spatial research about humans. These include qualitative research and interview protocols, quantitative analysis, GIS and remote sensing, archaeological field survey, historic archaeological methods, culture and heritage resource management, and paleoanthropological methods.

Students interested in graduate work should refer to the Graduate and Professional Bulletin, and the department's website (<http://anthropology.colostate.edu/>).

Master's Programs

- Master of Arts in Anthropology
- Master of Arts in Anthropology, The Anthropology of Health and Well-Being Specialization, Plan A and Plan B
- Master of Arts in Anthropology, Humans and the Environment Specialization, Plan A and Plan B
- Master of Arts in Anthropology, International Development Specialization, Plan A and Plan B
- Master of Arts in Anthropology, Professional Methods and Techniques Specialization, Plan A and Plan B

Ph.D.

- Ph.D. in Anthropology

Courses

Subjects in this department include: Anthropology (ANTH) and Geography (GR).

Anthropology (ANTH)

ANTH 100 Introductory Cultural Anthropology (GT-SS3) Credits: 3 (3-0-0)

Course Description: Human societies and their cultural setting; variation in beliefs, social customs, and technologies; human differences in anthropological terms.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Social & Behavioral Sciences 3C, Human Behavior, Culture, or Social Frameworks (GT-SS3).

ANTH 101 Practicing Anthropology Credit: 1 (0-0-1)

Course Description: Familiarizes majors with the sub-fields of anthropology and provides an overview via practical exercises of foundational skills necessary for success in the anthropology major, CSU, and beyond. Topics include critical thinking and writing, conducting research, scholarly communication, and professional career development, with attention to how these apply to anthropology in particular.

Prerequisite: None.

Registration Information: Anthropology majors only. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 120 Human Origins and Variation (GT-SC2) Credits: 3 (3-0-0)

Course Description: Mechanisms of evolution; genetics. Living primate biology, behavior, and history. Human evolutionary history. Human variation and adaptation.

Prerequisite: None.

Registration Information: Mixed face-to-face is a partial semester course. Sections may be offered: Online. Credit not allowed for both ANTH 180A1 and ANTH 120.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).

ANTH 121 Human Origins and Variation Laboratory (GT-SC1) Credit: 1 (0-2-0)

Course Description: Labs demonstrating genetic and evolutionary processes, comparative skeletal anatomy, human evolution through fossil casts, and modern human variation.

Prerequisite: ANTH 120, may be taken concurrently.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/ lab (GT-SC1).

ANTH 140 Introduction to Archaeology (GT-HI1) Credits: 3 (3-0-0)

Course Description: Origins of human society from the Stone Age to urban civilization using architecture, art, tools, and other material remains.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Historical Perspectives 3D, History (GT-HI1).

ANTH 150 Imagining Sustainability Credits: 3 (3-0-0)

Also Offered As: ESS 150.

Course Description: Science alone cannot imagine the revolutionary changes necessary to sustain future life on our planet. Explore key concepts and practices of sustainability as represented in contemporary fiction, film, and the news media. Interdisciplinary approach will be anthropological and historical, charting the development of sustainability thinking through different epochs of capitalism.

Prerequisite: None.

Registration Information: Credit allowed for only one of the following:

ANTH 150, ANTH 181A1, ESS 150, or ESS 181A1.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 200 Cultures and the Global System (GT-SS3) Credits: 3 (3-0-0)

Course Description: Analyze diversity of smaller-scale societies, and cultural responses and adaptations to emerging global trends.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Diversity, Equity, & Inclusion 1C, Human Behavior, Culture, or Social Frameworks (GT-SS3).

ANTH 225 Anthropology of the Arts Credits: 3 (3-0-0)

Course Description: Explores the arts (both visual and performing) from the perspective of cultural anthropology. What is art and how is the category differently constructed cross-culturally? Why and how do people make, consume, and identify with expressive culture? How can the visual and performing arts help us to develop a deeper understanding of how human beings make meaning? Read a variety of ethnographic texts that illuminate these and related questions.

Prerequisite: None.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 232 Soundscapes-Music as Human Practice Credits: 3 (3-0-0)**Also Offered As:** MU 232.**Course Description:** Musical communities and soundscapes from around the world provide exploration points for how music and sound inform human life. Study everything from playlists to music of distant lands. Ability to read notated music not required.**Prerequisite:** None.**Registration Information:** Previous music experience not required. Credit allowed for only one of the following: ANTH 232, MU 232, or MU 280A2.**Grade Mode:** Traditional.**Special Course Fee:** No.**Additional Information:** Social & Behavioral Sciences 3C.**ANTH 235 Indigenous Peoples of North America Credits: 3 (3-0-0)****Course Description:** Explores Native groups of North America from an anthropological perspective, and utilizes a culture area framework as a basis for investigation. Culture area framework is largely based on historical material—how these people have lived in the recent past. Evaluating how these groups live in the present. Contemporary issues, globalization, and local responses to local concerns.**Prerequisite:** None.**Registration Information:** Sections may be offered: Online. Credit not allowed for both ANTH 235 and ANTH 280A2.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**ANTH 240 Museum and Cultural Heritage Studies Credits: 3 (3-0-0)****Course Description:** Introduction to basic theory and organization of museums and cultural heritage sites including their history, their role in society as places of preservation and education, exhibitions and interpretation, and the relationship between museums and cultural heritage sites and the communities they serve. Emphasis on defining the role of anthropology in today's museums and cultural heritage sites and multidisciplinary approaches to curation.**Prerequisite:** None.**Registration Information:** Required field trips. Sections may be offered: Online. Credit not allowed for both ANTH 240 and ANTH 281A2.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**ANTH 260 Introduction to Field Archaeology Credits: 2 (1-2-0)****Course Description:** Field methods including map preparation and interpretation, site location and recording, site excavation, and stratigraphy.**Prerequisite:** ANTH 140.**Registration Information:** Must register for lecture and laboratory.**Term Offered:** Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ANTH 274 Human Diversity (GT-SC2) Credits: 3 (3-0-0)****Course Description:** Explore human diversity, both physical and genetic, within an evolutionary framework. The scientific method is applied to the sociocultural contexts that give rise to prejudices in order to critically evaluate misconceptions regarding race, gender, and human behaviors deemed 'natural'. Approaching human diversity from an evolutionary perspective dismantles biases that justify prejudice and result in unequal access to power and resources as well as negative health impacts.**Prerequisite:** None.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**Additional Information:** Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).**ANTH 275 Introduction to Forensic Anthropology Credits: 3 (3-0-0)****Also Offered As:** SOC 275.**Course Description:** Forensic anthropological theory and methods including estimation of age-at-death, sex, stature, ancestry, and trauma analysis.**Prerequisite:** None.**Registration Information:** Credit not allowed for both ANTH 275 and SOC 275. Sections may be offered: Online.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** Yes.**ANTH 295 Independent Study Credits: Var[1-3] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ANTH 306A Study Abroad--England: Hadrian's Wall Credits: 3 (0-0-3)****Also Offered As:** HIST 306A.**Course Description:** Develop an understanding of Roman cultural and military history through archaeological analysis of Hadrian's Wall in England.**Prerequisite:** ANTH 160 to 479 - at least 3 credits or HIST 100 to 479 - at least 3 credits.**Registration Information:** Written consent of instructor. Sections offered as Mixed Face-to-Face or Online. Credit allowed for only one of the following: ANTH 306A, ANTH 382F, HIST 306A, or HIST 382F.**Term Offered:** Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**ANTH 310 Peoples and Cultures of Africa Credits: 3 (3-0-0)****Course Description:** Sub-Saharan lifestyles including marriage and family, traditional government, religion and magic, ecology and economy, art, music, and literature.**Prerequisite:** ANTH 100.**Term Offered:** Spring (even years).**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.**ANTH 312 Modern Indian Culture and Society Credits: 3 (3-0-0)****Course Description:** Anthropological contributions to the understanding of contemporary India.**Prerequisite:** ANTH 100 or ANTH 200.**Term Offered:** Spring (odd years).**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.

ANTH 313 Modernization and Development Credits: 3 (3-0-0)

Course Description: Processes by which cultures change and modernize, 1989 to the present.

Prerequisite: ANTH 100 or ANTH 200.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 314 Southeast Asian Cultures and Societies Credits: 3 (3-0-0)

Prerequisite: ANTH 100 or ANTH 200.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 315 Global Mobilities—The African Diaspora Credits: 3 (3-0-0)

Course Description: Globalization and transnationalism with a focus on the circulation of people, ideas, and cultural products and practices between Africa and the rest of the world. By situating Africans as both producers and consumers of transnational ideas and products, we will develop an understanding of Africa beyond popular representations of violence and crisis.

Prerequisite: ANTH 100 or ANTH 200 or GR 100 or SOC 100.

Registration Information: Junior standing.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 317 Anthropology of Human Rights Credits: 3 (3-0-0)

Course Description: Human rights from the perspective of cultural anthropology through its theoretical and practical dimensions.

Contemporary human rights debates within the context of cultural plurality in a globalized world. Engages the intersection between global dynamics and community experiences by addressing the human rights dimensions of refugees and migration, indigenous communities, women and children, health, religious practices, among others.

Prerequisite: ANTH 100 or ANTH 200.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 322 The Anthropology of Religion Credits: 3 (3-0-0)

Course Description: Major anthropological theories and descriptions of religious beliefs and practices. Religion in a cross-cultural and evolutionary perspective.

Prerequisite: ANTH 100 or ANTH 200.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 329 Cultural Change Credits: 3 (3-0-0)

Course Description: Cultural change and effects of directed global forces; colonial origins of underdevelopment on small-scale societies.

Prerequisite: ANTH 100 or ANTH 200.

Term Offered: Fall (odd years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 330 Human Ecology Credits: 3 (3-0-0)

Course Description: Roles of technology, economics, social organization, and ideology in human adaptations to and survival in natural and cultural environments.

Prerequisite: (ANTH 100 or ANTH 200) and (ANTH 120 or BZ 101 or LAND 220 or LIFE 220).

Registration Information: Sections may be offered: Online.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 333 Anthropology of Sex and Reproduction Credits: 3 (3-0-0)

Course Description: Contemporary scholarship on issues in the anthropology of reproduction, including the relationship between production and reproduction and between the corporeal body and the body politic, the disciplinary power of the state, public controversies such as abortion and maternal-fetal conflict, and the symbolism and metaphors of procreation and parenthood. We will use "reproduction" as an analytic strategy to shed light on the cultural politics of gender, power, and sexuality.

Prerequisite: ANTH 100 or ANTH 200.

Registration Information: Sophomore standing. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 334 Narrative Traditions and Social Experience Credits: 4 (3-2-0)

Course Description: Relationship between narrative traditions and social contexts of their creation.

Prerequisite: ANTH 100 or ANTH 200 or E 140 or SOC 100.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 335 Language and Culture Credits: 3 (3-0-0)

Course Description: Human language and primate communication, nonverbal channels, sociolinguistics, and language change.

Prerequisite: None.

Term Offered: Fall (odd years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 336 Art and Culture Credits: 3 (3-0-0)

Course Description: Art expression is a defining factor in cultural identity and representation in a modern world where geographical and political borders are diminishing.

Prerequisite: ANTH 100 or ANTH 200.

Restriction: .

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 338 Gender and Anthropology Credits: 3 (3-0-0)

Course Description: Theory, themes, and debates in anthropological gender studies, ethnographic survey of women and men cross-culturally.

Prerequisite: ANTH 100 or ANTH 200.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 340 Medical Anthropology Credits: 3 (3-0-0)

Course Description: Cultural adaptation to disease; non-Western theories of health and disease; categories, causes, cures; learned roles of patients and healers.

Prerequisite: ANTH 100 or ANTH 200.

Term Offered: Fall (odd years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 343 Applied Medical Anthropology Credits: 3 (3-0-0)

Course Description: How and why we get sick and what sickness means from biological, social and cultural perspectives.

Prerequisite: ANTH 100 or ANTH 200.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 350 Archaeology of North America Credits: 3 (3-0-0)

Course Description: Native American life, tools, architecture, religion, food-getting from cultures of 12,000 years ago or earlier until European contact.

Prerequisite: ANTH 140.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring (odd years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 351 Archaeology of Europe and Africa Credits: 3 (3-0-0)

Course Description: Human culture, tools, art, religion, social life, subsistence, and paleoecology from 4 million B.C. to 1200 B.C. in the Old World.

Prerequisite: ANTH 140.

Term Offered: Spring (even years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 352 Geoarchaeology Credits: 3 (3-0-0)

Course Description: Analytical techniques, concepts, and field methodologies from the earth sciences to better understand the archaeological record.

Prerequisite: ANTH 140.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 353 Archaeology of Rock Art Credits: 3 (3-0-0)

Course Description: Study of prehistoric and recent rock art worldwide from an anthropological and cross-cultural perspective. Provide a strong understanding of what rock art is, how it is recorded, analyzed, and interpreted by archaeologists, and why ancient symbolism and sites are considered important in contemporary society.

Prerequisite: None.

Registration Information: Sophomore standing. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 354 Race/Ethnicity in the Ancient Mediterranean Credits: 3 (3-0-0)

Course Description: Archaeology of the Ancient Mediterranean (specifically Greek and Roman) World as related to race and ethnicity. Examination of how some ancients created their own ethnographical identities and thought through conceptions of ancient races/peoples, and how this world has been appropriated by western European countries, been used as an emblem of whiteness, and served as a pretext for justifying racism today.

Prerequisite: ANTH 140.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 355 Archaeology of the Ancient Nile Credits: 3 (3-0-0)

Course Description: Explore the broad anthropological trends of the archaeology of the Ancient Nile (specifically Egypt and Kush/Nubia). Approaches this world via important archaeological topics and trends that contextualize the historical and socio-political trends, influences, and impetuses to come to a holistic understanding of what it meant to be an ancient Egyptian or Kushite from c. 5000 BCE to the end of Roman Rule in c. 400 CE.

Prerequisite: ANTH 140.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 356 Archaeology of Ancient Roman Food Credits: 3 (3-0-0)

Course Description: Examine the food pathways of the ancient Romans through the material culture of various sites, such as Pompeii and Vindolanda, as well as its social history, particularly how food tied the Romans to the land, their animals, and each other. Utilize experimental archaeology to reproduce recipes from the Roman world and examine the various flavor palates, nutritional profiles, and effort that goes into feeding the various mouths of the ancient world.

Prerequisite: ANTH 140.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 358 Archaeologies of Graffiti Credits: 3 (3-0-0)

Course Description: An in-depth examination of graffiti as a human social behavior and form of material culture in the past and present. Examines the form, function, and context of graffiti across cultures and through time, with regard to the circumstances of its creation. Addresses what lies behind the human urge to leave a mark.

Prerequisite: ANTH 100 or ANTH 120 or ANTH 140 or ANTH 200.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 359 Colorado Prehistory Credits: 3 (2-0-1)

Course Description: Human behavioral responses to environmental diversity, cultural adaptation, Pleistocene and recent climates, anthropogenic environmental change.

Prerequisite: None.

Registration Information: Must register for lecture and recitation.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 360 Archaeological Investigation Credits: 3 (2-2-0)

Course Description: Investigation of the archaeological record, how the record was formed, and how archaeological data are analyzed and interpreted.

Prerequisite: ANTH 140.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 365 Quantifying Anthropology Credits: 3 (3-0-0)

Course Description: Managing, quantifying and illustrating anthropological data-sets with appropriate software.

Prerequisite: ANTH 100 or ANTH 120 or ANTH 140 or ANTH 200.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 370 Primates Credits: 3 (3-0-0)

Course Description: Behavioral patterns, ecological relationships, and communication of nonhuman primates.

Prerequisite: ANTH 120 or BZ 101.

Registration Information: Sections may be offered: Online.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 371 Growing Up Primate Credits: 3 (3-0-0)

Course Description: Primates generally have extended periods of growth compared to other mammals; however, there is considerable variation across the Primate Order. Evolution of primate growth and reproductive strategies, critically evaluates current models of life history variation, examines the ways that primate taxa negotiate trade offs (e.g. current versus future reproduction), and explains the role of human sociality in the evolution of our unique life history parameters.

Prerequisite: ANTH 120 or BZ 101.

Registration Information: Junior standing.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 372 Human Osteology Credits: 3 (2-2-0)

Course Description: Human bones and teeth in a review of functional human evolution.

Prerequisite: ANTH 120 or BZ 101 or BZ 110 or LIFE 102.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 373 Human Evolution Credits: 3 (3-0-0)

Course Description: Current topics and debates in human evolution concentrating on biocultural changes in the human lineage.

Prerequisite: ANTH 120 or BZ 110.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

ANTH 374 Human Biological Variation Credits: 3 (2-0-1)

Course Description: Biological diversity of human populations; history of development of race concept.

Prerequisite: ANTH 120 or BZ 101 or BZ 110 or LIFE 102.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 375 Evolution of Primate Behavior Credits: 3 (3-0-0)

Course Description: Primate behavior from an evolutionary perspective, drawing on a variety of studies of humans, primates, and mammals.

Prerequisite: ANTH 120 or BZ 110 or LIFE 102.

Registration Information: Junior standing. Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 376 Evolution of Human Adaptation Credits: 3 (2-0-1)

Course Description: Unique characteristics of humans: bipedalism, encephalization, dentition, birth process, an attenuated period of development.

Prerequisite: ANTH 120 or BZ 110 or LIFE 102.

Registration Information: Must register for lecture and recitation.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 377 Anthropology Perspectives-Evolution, Society Credits: 3 (3-0-0)

Course Description: Evolutionary science in educating the public is investigated and anthropological knowledge of human evolutionary biology is examined.

Prerequisite: ANTH 120.

Registration Information: Credit not allowed for both ANTH 377 and ANTH 380A2.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 378 Bipedal Apes Credits: 3 (3-0-0)

Course Description: Human bipedal walking within a comparative framework of primate locomotion and anatomy. Specific focus is on kinematics and kinetics of soft- and hard-tissues including analysis of extant primate locomotion, morphology, and development. Discussions focus on debates in primate functional anatomy and locomotion including hypotheses surrounding the origins and evolution bipedal walking and running and possible maladaptations of being a human biped.

Prerequisite: ANTH 120 or BZ 101.

Registration Information: Junior standing.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 379 Evolutionary Medicine and Human Health Credits: 3 (3-0-0)

Course Description: Evolutionary medicine refers to the application of evolutionary theory to the study of human health, disease, and modern medicine. This theoretical perspective provides a deeper lens with which to investigate health, moves us beyond mechanistic explanations of disease, and constructs an anthropological framework for interpreting the evolution of human physiological diversity.

Prerequisite: ANTH 120 or BZ 101 or BZ 110 or LIFE 102.

Registration Information: Sophomore standing.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 382A Study Abroad--Pompeii Italy: Life and Death of a Roman City Credits: 3 (0-0-3)

Course Description: Develop an understanding of Roman cultural, economic, and social history through archaeological analysis of Pompeii and Herculaneum in Italy.

Prerequisite: ANTH 100 to 499 - at least 3 credits or ART 100 to 499 - at least 3 credits or HIST 100 to 499 - at least 3 credits or INST 100 to 499 - at least 3 credits or SOC 100 to 499 - at least 3 credits.

Registration Information: Written consent of instructor. Sections offered as Mixed Face-to-Face.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 400 History of Theory-Anthropology and Geography Credits: 3 (3-0-0)

Also Offered As: GR 400.

Course Description: Anthropological/Geographical theory from its beginnings with Aristotle through recent developments into the 20th century.

Prerequisite: (ANTH 100 or ANTH 200) and (ANTH 140 and ANTH 120 and ANTH 121 or GR 100).

Registration Information: Junior or senior standing. Sections may be offered: Online. Credit not allowed for both ANTH 400 and GR 400.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 401 Psychological Anthropology Laboratory Credit: 1 (0-2-0)

Course Description: Practical research techniques drawn from psychological and cognitive anthropology for investigating the relationship between shared group culture and individual thought and practice. Mixed qualitative and quantitative methods, including using field observations, interviews, and surveys to illuminate "cultural domains" of thought. Emphasis on collaborative group research and hands-on training involving actual field research and data collection and analysis via appropriate software packages.

Prerequisite: ANTH 322, may be taken concurrently or ANTH 423, may be taken concurrently or ANTH 444, may be taken concurrently or ANTH 445, may be taken concurrently.

Registration Information: Junior standing. Repeatable for credit.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 405 Public Anthropology and Global Challenges Credits: 3 (3-0-0)

Course Description: Value of taking scholarship to the communities.

Public scholarship is pointed at many publics and intended to engage actively in the process of solving urgent problems in contrast to traditional scholarship. Focus on the public discourse that addresses disasters, climate change, and global health issues. Critical look at how academic knowledge in these realms serves the public interest.

Prerequisite: ANTH 300 to 499 - at least 3 credits or SOC 300 to 499 - at least 3 credits.

Registration Information: Junior standing.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 411 Indians of South America Credits: 3 (0-0-3)

Course Description: Ethnographic and cultural characteristics of South American indigenous groups and the current critical issues they face.

Prerequisite: ANTH 100 or ANTH 200 or ANTH 413 or ANTH 414 or ETST 414.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 412 Indians of North America Credits: 3 (3-0-0)

Course Description: Native American peoples, their cultural variation across the continent, and cultural encounters with colonial expansion.

Prerequisite: ANTH 100 or ANTH 200 or ANTH 413 or ANTH 414 or ETST 414.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 413 Indigenous Peoples Today Credits: 3 (3-0-0)

Course Description: Contemporary cultural and social issues of indigenous peoples around the globe, including North and South American Indians and Australian Aborigines.

Prerequisite: ANTH 200 or ANTH 412 or ANTH 414 or ETST 414.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 414 Development in Indian Country Credits: 3 (3-0-0)

Also Offered As: ETST 414.

Course Description: Critical examination of history, public policy, and tribal strategies for economic development and natural resource management in Indian country.

Prerequisite: ANTH 100 or ANTH 200 or ETST 100.

Registration Information: Credit not allowed for both ANTH 414 and ETST 414.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 415 Indigenous Ecologies and the Modern World Credits: 3 (3-0-0)

Course Description: Impact of the modern world in indigenous peoples' relationship to their environments and natural resources.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 416 Gender, Culture, and Health Credits: 3 (3-0-0)

Course Description: Examine the role of anthropology in current global health issues paying particular attention to culture and gender.

Prerequisite: ANTH 100 or ANTH 200.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 417 Indigenous Environmental Stewardship Credits: 3 (3-0-0)

Course Description: Sustainability and environmental stewardship are not necessarily modern day concepts. Indigenous peoples of North America have established traditions and beliefs about harmony and kinship with nature. Focus upon stories and belief systems and their influence upon culture, economics, politics, American history, environmental justice and law.

Prerequisite: ANTH 100 or ANTH 200.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 420 Digital Digging--Geophysics in Archaeology Credits: 3 (3-0-0)

Course Description: Introduction to the geophysical methods archaeologists use to prospect for new sites, and develop new questions for known sites. Examines how common geophysical methods work to detect subsurface signatures for human activity. Provides hands-on experience in data collection, processing, and analysis for multiple instruments. Presents diverse theoretical perspectives from the social sciences that can be applied to interpret subsurface spatial signatures at archaeological sites.

Prerequisite: ANTH 100 or ANTH 120 or ANTH 140 or ANTH 200.

Registration Information: Sophomore standing.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 422 Comparative Legal Systems Credits: 3 (3-0-0)

Also Offered As: SOC 422.

Course Description: Traditional approaches to law, competing concepts of law in the global system, and experiences of minorities in state legal systems.

Prerequisite: ANTH 100 or SOC 100.

Registration Information: Credit not allowed for both ANTH 422 and SOC 422.

Term Offered: Spring (even years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 423 Cultural Psychiatry Credits: 3 (3-0-0)

Course Description: Social determinants of mental health. Cross-cultural health and healing. Cultural contexts of U.S./Western and Indigenous/non-Western psychiatries.

Prerequisite: ANTH 100 or ANTH 200.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 438 Approaches to Community-Based Development Credits: 3 (0-0-3)

Course Description: Explores the structure and practice of community development globally, engaging in critical analysis of different approaches and their impact.

Prerequisite: ANTH 100 or ANTH 200.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 439 Community Mobilization Credits: 3 (0-0-3)

Course Description: Structural, social, and psychological barriers that inhibit cooperation and collective action.

Prerequisite: ANTH 100 or ANTH 200.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 440 Theory in Cultural Anthropology Credits: 3 (3-0-0)

Course Description: Theoretical paradigms used to explain culture including evolutionary, functional, ecological, political economy, postmodernism, and hegemony.

Prerequisite: ANTH 100 or ANTH 200.

Terms Offered: Fall, Spring (odd years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 441 Method in Cultural Anthropology Credits: 3 (3-0-0)

Course Description: Methodological orientations and research techniques. Ethnographic and cross-cultural approaches including quantitative and formal models.

Prerequisite: ANTH 100 or ANTH 200.

Term Offered: Spring (odd years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 442 Ethnographic Field School Credits: Var[3-8] (0-0-0)

Course Description: Directed fieldwork with American Indian communities; methodology, protocols, and social relations of ethnographic field research.

Prerequisite: ANTH 100 or ANTH 200 or ANTH 100 to 99999 - at least 9 credits.

Registration Information: Required field trips.

Term Offered: Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: Yes.

ANTH 443 Ethnographic Field Methods Credits: 3 (0-6-0)

Course Description: Directed experiential preparation for applied ethnographic field methods and research questions.

Prerequisite: ANTH 100 or ANTH 200.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 444 Cultures of Virtual Worlds—Research Methods Credits: 3 (3-0-0)

Course Description: Methodologies and directed research related to virtual worlds and internet, gaming, play, and fan communities.

Prerequisite: ANTH 100 or ANTH 200.

Registration Information: Junior standing.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 445 Psychological Anthropology Credits: 3 (3-0-0)

Course Description: Cross-cultural exploration of the human mind by studying the ideas, desires, and practices of individuals in various sociocultural settings.

Prerequisite: ANTH 100 or ANTH 200.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 446 New Orleans and the Caribbean Credits: 3 (3-0-0)

Course Description: New Orleans and the Caribbean connections through colonization, slavery, modernity, legacies of race, gender and class, the expressive arts.

Prerequisite: ANTH 100 or ANTH 200.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 447 Gender Equity in Development Credits: 3 (0-0-3)

Course Description: Various forms of women's power, and potentials for disempowerment within the context of international development.

Prerequisite: ANTH 100 or ANTH 200.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 448 Development and Empowerment Credits: 3 (0-0-3)

Course Description: Development as an economic process of wealth accumulation, as well as a socio-political process of empowerment.

Prerequisite: ANTH 100 or ANTH 200.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 449 Community Development from the Ground Up Credits: 3 (3-0-0)

Course Description: Participatory methods in the monitoring and evaluation of development projects, where multiple stakeholders are involved in the process.

Prerequisite: ANTH 100 or ANTH 200.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 450 Hunter-Gatherer Ecology Credits: 3 (0-0-3)

Course Description: Development of anthropological method and theory; study of contemporary and prehistoric foraging peoples.

Prerequisite: ANTH 100 and ANTH 120 and ANTH 121 and ANTH 140.

Term Offered: Fall (odd years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 451 Andean Archaeology and Ethnohistory Credits: 3 (3-0-0)

Course Description: Prehistory and colonial experiences of native Andean peoples.

Prerequisite: ANTH 100 or ANTH 140.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 452 Archaeology of Mesoamerica Credits: 3 (3-0-0)

Course Description: Ancient cultures and civilizations in Middle America.

Prerequisite: ANTH 140.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 453 Impacts on Ancient Environments Credits: 3 (3-0-0)

Course Description: Major issues and case studies in the archaeology of ancient human societies and their environmental impacts.

Prerequisite: ANTH 140.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 454 Anthropological Perspectives on Food Credits: 3 (3-0-0)

Course Description: A long term perspective on the political economy of human food ways from ancient hunter-gatherers to the present. Topics will include foraging practices, domestication, feasting and emergent social complexity, the role of food in ancient states, and globalization, as well as the modern food economy. Lectures and readings will be based on research in archaeology, cultural anthropology, and biological anthropology.

Prerequisite: ANTH 100 and ANTH 120 or ANTH 100 and ANTH 140 or ANTH 100 and ANTH 200 or ANTH 120 and ANTH 140 or ANTH 120 and ANTH 200 or ANTH 140 and ANTH 200.

Registration Information: Junior standing.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 455 Great Plains Archaeology Credits: 3 (3-0-0)

Course Description: Prehistoric people on Great Plains from earliest hunter-gatherers to historic contact; cultural responses to changing conditions.

Prerequisite: ANTH 140.

Term Offered: Fall (even years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 456 Archaeology and the Public Credits: 3 (3-0-0)

Course Description: Applied archaeology in public settings, including publication, museum display, education, the illicit artifact trade, and other ethical issues.

Prerequisite: (ANTH 140) and (ANTH 252 or ANTH 350 or ANTH 351 or ANTH 352 or ANTH 451 or ANTH 452 or ANTH 453 or ANTH 455 or ANTH 460 or ANTH 465).

Registration Information: 3 additional credits of archaeology required. Required field trips.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 457 Lithic Technology Credits: 3 (2-2-0)

Course Description: Method and theory behind production, use, and discard of stone tools by prehistoric peoples. Hands-on application in laboratory setting.

Prerequisite: ANTH 140.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 458 Archaeology and Cultural Resource Management Credits: 3 (3-0-0)

Course Description: Cultural Resource Management as a career, the network of regulations that form the backbone of the industry, and the process for conducting a CRM investigation as an archaeologist. Topics include cultural resource legislation, project planning, execution, management, client communications, site analysis and evaluation, effects determinations, and agency and tribal consultations. Topical issues including case studies and industry trends will be explored.

Prerequisite: ANTH 100 to 499 - at least 6 credits.

Registration Information: Offered as an online course only.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 459 Gods, Heroes, Stones--Greek Archaeology Credits: 3 (3-0-0)

Course Description: Explores the broad anthropological trends of the archaeology of Ancient Greece. Approaches this world via important archaeological topics that contextualize the historical, religious, economic, and socio-political trends, influences, and impetuses to come to a holistic understanding of what it meant to be an ancient Greek from c. 3000 to 31 BCE.

Prerequisite: ANTH 140.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 460 Field Class in Archaeology Credits: Var[3-8] (0-0-0)

Course Description: Directed fieldwork in local archaeology, site survey, and excavation; recovery, preservation, cataloging, analysis of artifactual and skeletal materials.

Prerequisite: None.

Registration Information: Written consent of instructor. Required field trips.

Term Offered: Summer.

Grade Mode: Instructor Option.

Special Course Fee: Yes.

ANTH 461 Anthropological Report Preparation Credits: 3 (0-0-3)

Course Description: Producing written and oral presentations for anthropological research, employment, or graduate work. Grant writing and manuscript preparation.

Prerequisite: ANTH 460.

Registration Information: Written consent of instructor.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 462 Anthropology Curation and Exhibition Methods Credits: 3 (3-0-0)

Course Description: Current methods and ethics in museum curation, conservation, collections management policies and procedures, exhibition development, and other tasks associated with managing, preserving and displaying anthropological collections (both artifacts and their associated documentation). Practical, hands-on experience in artifact care, management, preservation, and exhibition development.

Prerequisite: None.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing. 3 credits of ANTH or ART or HIST. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 465 Zooarchaeology Credits: 3 (2-2-0)

Course Description: Analysis of animal bones from archaeological sites to develop interpretations of past human behavior.

Prerequisite: ANTH 120 and ANTH 140.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring (odd years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: Yes.

ANTH 469 Archaeology of the Ancient Near East Credits: 3 (3-0-0)

Course Description: Explores the broad anthropological trends of the archaeology of the Ancient Near East. Approaches this world via important archaeological topics that contextualize the historical, religious, economic, and socio-political trends, influences, and impetuses to come to a holistic understanding of what it meant to be a Mesopotamian from c. 5000 to 323 BCE.

Prerequisite: ANTH 140.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 470 Paleontology Field School Credits: 4 (2-4-0)

Course Description: Field methods in fossil excavation, preservation, and curation; the evolution of the primate order.

Prerequisite: ANTH 120 or BZ 110 or LIFE 102.

Registration Information: Required field trips.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

ANTH 472 Human Biology Credits: 3 (3-0-0)

Course Description: Human biological responses to environmental conditions and constraints including diet, nutrition, disease, climate, culture change, and urbanization.

Prerequisite: ANTH 120 or BZ 110 or LIFE 102.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 473 The Neandertals Credits: 3 (2-0-1)

Course Description: Socio-historical foundations of questions regarding Neandertal paleobiology and culture and the Neandertal role in the evolution of Homo sapiens.

Prerequisite: (ANTH 120 or BZ 110) and (ANTH 372 or ANTH 373 or ANTH 374 or ANTH 375 or ANTH 376).

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 474 Human Skeleton Analysis Credits: 3 (2-2-0)

Course Description: Focus on methods and techniques used to reconstruct identity and behavior from the human skeleton applicable to all areas of skeletal biology, including bioarchaeology, paleoanthropology, and forensic anthropology.

Prerequisite: (ANTH 120 or BZ 101) and (ANTH 372).

Registration Information: Senior standing. Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 475 Methods of Analysis in Paleoanthropology Credits: 3 (3-0-0)

Course Description: Practical discussion of techniques used to reconstruct dietary and locomotor behavior and evolutionary relationships in human fossil remains.

Prerequisite: ANTH 373.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 476 The Archaeology of Time Credits: 3 (3-0-0)

Course Description: Concepts, methods, and techniques in the study of archaeological temporalities and chronology building. Examination of major themes running through the current social science literature on notions of time.

Prerequisite: ANTH 140.

Registration Information: Junior standing. Credit not allowed for both ANTH 476 and ANTH 480A4.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 478 Heritage Resource Management Credits: 3 (3-0-0)

Also Offered As: HIST 478.

Course Description: Cultural resource laws and policy; practices commonly employed in management and preservation of these diverse resources.

Prerequisite: None.

Restriction: .

Registration Information: Junior or senior standing. Credit not allowed for both ANTH 478 and HIST 478.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 479 International Development Theory and Practice Credits: 3 (3-0-0)

Also Offered As: IE 479.

Course Description: Contemporary issues in international community and economic development, with practical and theoretical analysis from interdisciplinary perspectives.

Prerequisite: None.

Restriction: Must be a: Junior, Senior, Senior - 5yr Bachelor, Senior - Post Bachelor, Senior - Second Bachelor.

Registration Information: Junior or senior standing. Credit not allowed for both ANTH 479 and IE 479.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 484 Supervised College Teaching Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Written consent of instructor. A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

ANTH 486 Practicum Credits: Var[1-6] (0-0-0)

Course Description: Application of anthropological methods under actual project conditions.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 487 Internship Credits: Var[1-9] (0-0-0)

Course Description: Academic-based work experience with selected organizations or agencies. Supervised application of anthropological principles.

Prerequisite: ANTH 100 to 499 - at least 9 credits.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 492A Seminar: Archaeology Credits: 3 (0-0-3)

Course Description:

Prerequisite: ANTH - at least 6 credits.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ANTH 492B Seminar: Biological Anthropology Credits: 3 (0-0-3)

Course Description:

Prerequisite: ANTH - at least 6 credits.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ANTH 493 Capstone Seminar Credit: 1 (0-0-1)

Prerequisite: None.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 495 Independent Study Credits: Var[1-3] (0-0-0)

Prerequisite: None.

Grade Mode: Instructor Option.

Special Course Fee: No.

ANTH 496 Group Study Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ANTH 500 Development of Anthropological Theory Credits: 3 (3-0-0)

Course Description: Contemporary development of anthropological thought.

Prerequisite: None.

Restriction: Must not be a: Undergraduate.

Registration Information: Undergraduates must have written consent of instructor.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 501 Psychiatric Anthropology Laboratory Credit: 1 (0-2-0)

Course Description: Use tools from psychiatric anthropology to construct culturally-sensitive scales for assessing mental health and subjective well-being. Mixed qualitative and quantitative methods, including using field observations, interviews, and surveys to build and assess well-being measures. Emphasis on collaborative group research and hands-on training involving field research and data collection and analysis via appropriate software packages.

Prerequisite: ANTH 543, may be taken concurrently or ANTH 545, may be taken concurrently or ANTH 546, may be taken concurrently.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Repeatable for credit.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 502 Cultural Analysis of Qualitative Data Credit: 1 (0-2-0)

Course Description: Analysis of qualitative data such as ethnographic field-notes and interviews for cultural content. Topics include: theme analysis, cultural models analysis, grounded theory, and content analysis. Synthesizes inductive, deductive, and abductive approaches to the analysis of qualitative data. Emphasis on practical hands-on training of data collection and analysis techniques in a collaborative research setting, including practice using relevant software.

Prerequisite: ANTH 543, may be taken concurrently or ANTH 545, may be taken concurrently or ANTH 546, may be taken concurrently or ANTH 547, may be taken concurrently or ANTH 566, may be taken concurrently.

Restriction: Must be a: Graduate.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 503 Cognitive Anthropology Field Methods Credit: 1 (0-2-0)

Course Description: Using structured interview methods developed in cognitive anthropology for understanding the cultural influence on human thinking, experience, and behavior. Covered elicitation techniques include: free-lists, pile-sorts, and cultural consensus and consonance forms of analysis. Emphasis on gaining practical hands-on training in cognitive anthropological data collection and analysis techniques in a collaborative research setting, including practice using relevant software.

Prerequisite: ANTH 543, may be taken concurrently or ANTH 545, may be taken concurrently or ANTH 546, may be taken concurrently or ANTH 547, may be taken concurrently or ANTH 566, may be taken concurrently.

Restriction: Must be a: Graduate.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 504 Cultural Analysis of Personal Networks Credit: 1 (0-2-0)

Course Description: Using personal network research techniques to understand the cultural shaping of human connection, behavior, and experience. Practical hands-on training in personal network research techniques in a collaborative research setting, including experience with various data collection and analysis techniques, practice using relevant software, and theory building related to individual and collaborative group projects. Emphasis on anthropological perspectives and applications.

Prerequisite: ANTH 543, may be taken concurrently or ANTH 545, may be taken concurrently or ANTH 546, may be taken concurrently or ANTH 547, may be taken concurrently or ANTH 566, may be taken concurrently.

Restriction: Must be a: Graduate.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 505 Resilience, Well-Being, and Social Justice Credits: 3 (3-0-0)

Course Description: Concepts of resilience, well-being, and social justice in the context of a rapidly changing planet. These concepts are rarely integrated yet each is understood to help diagnose, measure, and solve global-scale problems. Engagement with many views from many fields, including the anthropological lens of a community-level scale, cross-cultural comparison, and holistic analyses.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program.

Registration Information: Graduate standing.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 506 Anthropology of Happiness and the Good Life Credits: 3 (0-0-3)

Course Description: Draws on anthropological and interdisciplinary perspectives to illuminate the sociocultural and evolutionary basis of human happiness and flourishing. Examination of anthropological approaches to value, morality, and social norms; economic, environmental, and social determinants of happiness; sources of human resilience, including religion and play; happiness over the life course; emotions and subjective well-being; biological and health correlates of happiness.

Prerequisite: None.

Restriction: Must be a: Graduate.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 515 Culture and Environment Credits: 3 (3-0-0)

Course Description: Theoretical accounts of societies' variable relationships to their environments, indigenous peoples' interactions with nature in context of modernity.

Prerequisite: None.

Registration Information: Graduate standing.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 520 Women, Health, and Culture Credits: 3 (3-0-0)

Course Description: Women's experiences and interpretations of their health; cultural, political, and economic forces affecting women's health.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Graduate standing.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 521 Gender, Sexuality, and Culture Credits: 3 (3-0-0)

Course Description: Gender and sexuality cross-culturally; theory, cultural constructions, colonialism, class, race, ethnicity, health, violence.

Prerequisite: None.

Restriction: Must not be a: Undergraduate.

Registration Information: Graduate standing.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 528 Economic Anthropology Credits: 3 (0-0-3)

Course Description: Theoretical approaches to the cultural context of economic activity.

Prerequisite: ANTH - at least 9 credits.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 529 Anthropology and Sustainable Development Credits: 3 (0-0-3)

Course Description: Global development goals, poverty and hunger, environmental sustainability, education, and equity.

Prerequisite: ANTH - at least 9 credits.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 530 Human-Environment Interactions Credits: 3 (3-0-0)

Course Description: Paradigms and concepts in ecological anthropology with an emphasis on adaptation and resilience.

Prerequisite: ANTH 000 to 99999 - at least 9 credits.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 532 The Culture of Disaster Credits: 3 (0-0-3)

Course Description: Study of how the human impacts of disaster and the process of recovery are shaped by cultural as well as structural realities.

Prerequisite: None.

Registration Information: Graduate standing.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 535 Globalization and Culture Change Credits: 3 (0-0-3)

Course Description: Evolving paradigms and patterns of globalization and international development; cultural responses – resistance, dependency, fragmented identities.

Prerequisite: ANTH - at least 9 credits.

Term Offered: Fall (even years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 538 Food, Hunger, and Culture Credits: 3 (0-0-3)

Course Description: Explores cultural and social understandings of food cross-culturally, including the symbolic meanings that people attribute to food and its consumption. Critically investigates the intersecting political, economic, social, and cultural influences on hunger, malnutrition, and other health concerns associated with food and nutrition globally. Assesses applied anthropological approaches to reducing hunger and other nutrition related health problems.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program.

Registration Information: Graduate standing. Credit not allowed for both ANTH 538 or ANTH 581A2.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 539 Anthropology of Modernity Credits: 3 (3-0-0)

Course Description: Critical examination of the institutions, values, and processes which constitute the modern world. Impact of modern forces on "traditional" peoples.

Prerequisite: None.

Registration Information: Graduate standing.

Term Offered: Fall (odd years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 540 Medical Anthropology Credits: 3 (0-0-3)

Course Description: Cultural and biocultural approaches to health, illness, and the body; theory and application in medical anthropology.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Graduate standing.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 541 Seminar in Archaeological Method Credits: 3 (1-0-2)

Course Description: Methods of archaeological recovery and interpretation, and process of archaeological analysis and reporting.

Prerequisite: ANTH - at least 9 credits.

Registration Information: Must register for lecture and recitation.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 542 Seminar in Archaeological Theory Credits: 3 (1-0-2)

Course Description: Theories of recovery, reconstruction, and interpretation of the archaeological record.

Prerequisite: ANTH - at least 9 credits.

Registration Information: Must register for lecture and recitation.

Term Offered: Spring (odd years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 543 Foundations of Ethnographic Research Credits: 3 (3-0-0)

Course Description: Mixed qualitative and quantitative field methods to address practical real-world issues. Emphasis on linking theory and method, project formulation, hands-on experience with data collection and analysis, and practical applications such as preparing thesis/dissertation proposals and writing grants. Discussion of a range of anthropological approaches to field research, including applied, public, collaborative, participatory, and community-based ethnographic research.
Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program.

Registration Information: Graduate standing. Credit not allowed for both ANTH 543 and ANTH 643.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 544 From Death to Discovery Credits: 3 (1-0-2)

Course Description: Theoretical perspectives on the decay and fossilization of organisms between their death and discovery.

Prerequisite: ANTH 000 to 99999 - at least 9 credits.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ANTH 545 Global Mental Health--Theory and Method Credits: 3 (3-0-0)

Course Description: Cross-cultural study of mental health and healing; cultural, clinical, and biological perspectives; integration of theory and method.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program.

Registration Information: Graduate standing.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 546 Culture, Mind, and Cognitive Science Credits: 3 (3-0-0)

Course Description: Anthropological contributions to cognitive science. Culture, mind, and social context. Theory building and practical applications.

Prerequisite: None.

Registration Information: Graduate standing.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 547 Mind, Medicine, and Culture Credits: 4 (3-2-0)

Course Description: Cultural-psychological influences on health and healing; mind-body medicine; complementary and alternative medicine; indigenous and spiritual healing.

Prerequisite: None.

Registration Information: Graduate standing.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 548 Theoretical Topics in Cultural Anthropology Credits: 3 (3-0-0)

Course Description: Major theoretical currents in cultural anthropology from the 19th-century to the present. Classical theory alongside contemporary texts that revise or revisit early works. Focus on some major theories and themes that are important in cultural anthropology since the 1960s.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 550A Regional Prehistory: Great Plains Credits: 3 (0-0-3)

Course Description:

Prerequisite: ANTH 350.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 550B Regional Prehistory: Great Basin Credits: 3 (0-0-3)

Course Description:

Prerequisite: ANTH 350.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 550C Regional Prehistory: Southwestern Credits: 3 (0-0-3)

Course Description:

Prerequisite: ANTH - at least 9 credits.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 551 Historical Archaeology Credits: 3 (3-0-0)

Course Description: Theory, methods, and issues in historical archaeology.

Prerequisite: None.

Restriction: Must not be a: Undergraduate.

Registration Information: Graduate standing.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 552 Geoarchaeology Credits: 3 (3-0-0)

Course Description: Application of analytical techniques, concepts, and field methods drawn from the earth sciences to help solve archaeological problems. Issues explored include human and environmental processes involved in archaeological site formation, the sedimentary context of archaeological remains, soils and sediments relevant to archaeology, the relationship between past settlement and landscape evolution, paleoclimatic reconstruction, and human effects on the environment.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Required field trips.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 553 Archaeology of Complex Societies Credits: 3 (0-0-3)

Course Description: Issues in development and organization of complex societies with emphasis on the Americas.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Graduate standing.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 554 Ecological and Social Agent-based Modeling Credits: 3 (2-2-0)

Also Offered As: ESS 554.

Course Description: Exploring the use and making of agent-based models featuring interacting individuals in ecological and social simulation, with examples and projects.

Prerequisite: None.

Restriction: .

Registration Information: Junior standing. Must register for lecture and laboratory. Credit allowed for only one of the following: ANTH 554, ESS 554, or NR 554.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 555 Paleoindian Archaeology Credits: 3 (0-0-3)

Course Description: Archaeology of the Americas during late Pleistocene/early Holocene; background and development of contemporary models.

Prerequisite: ANTH 140.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 556 Bayesian Chronologies in Archaeology Credits: 3 (3-0-0)

Course Description: Methods and techniques in Bayesian chronological modeling applied to archaeological questions.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Credit not allowed for both ANTH 556 and ANTH 680A2.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 566 Field Methods Training in Online Environments Credits: Var[1-3] (0-0-0)

Course Description: Collaborative analysis of ethnographic field data collected in online virtual worlds; mixed methods applicable to other built and natural places and spaces.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: May be repeated for up to 6 credits.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 570 Contemporary Issues-Biological Anthropology Credits: 3 (0-0-3)

Course Description: Theory and applications in biological anthropology focusing on syntheses and interpretations of human biology, variation, adaptability, and evolution.

Prerequisite: None.

Registration Information: Six credits in biological anthropology.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 571 Anthropology and Global Health Credits: 3 (3-0-0)

Course Description: Global health concerns and problems including poverty, urbanization, malnutrition, diet, war and refugees, climate, and environment.

Prerequisite: None.

Restriction: Must not be a: Undergraduate.

Registration Information: Graduate standing.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 572 Human Origins Credits: 3 (0-0-3)

Course Description: Major trends in human evolution through use of detailed case studies and regionally focused primary research.

Prerequisite: None.

Restriction: Must not be a: Undergraduate.

Registration Information: Graduate standing.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 573 Paleoclimate and Human Evolution Credits: 3 (3-0-0)

Course Description: Methods used to reconstruct past environments and understand the effects of past climate on the major trends of human evolution.

Prerequisite: None.

Registration Information: Graduate standing.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 575 Paleoecology Credits: 3 (3-0-0)

Course Description: Introduction to the principles, theories, and methods of paleoecology with examples from paleoanthropology.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 617 Place, Space and Adaptation Credits: 3 (3-0-0)

Course Description: Critical evaluation of the nexus between space, society and environment. An interdisciplinary approach to studying the ways biological, material, historical, political-economic and cultural processes combine to shape human-environment relationships in place-based contexts.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 650 Edge Effects--Place, Embodiment, Environment Credits: 3 (3-0-0)

Also Offered As: ESS 650.

Course Description: Interdisciplinary thinking on questions of place, power, embodiment, and environmental adaptation. Drawing on human geography, ethnography, political ecology, and social-ecological theory, develop an understanding of boundaries and transitional zones as places of complex social and species exchange by looking at some key philosophical texts, but also applying theoretical understanding to specific case studies.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both ANTH 650 and ESS 650.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 660 Field Archaeology Credits: Var[2-10] (0-0-0)

Course Description: Field applications of nondestructive survey methods, advanced cartographic and excavation methods, project supervision skills.

Prerequisite: ANTH 460.

Restriction: Must be a: Graduate, Professional.

Registration Information: Two seasons of field experience may substitute for ANTH 460. Required field trips.

Terms Offered: Fall, Summer.

Grade Mode: Instructor Option.

Special Course Fee: Yes.

ANTH 674 Research Design and Analysis in Anthropology Credits: 4 (3-2-0)

Course Description: Learn how to formulate anthropological research questions, design a research project, organize and analyze data, and visualize and interpret results.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 679 Applications of International Development Credits: 3 (3-0-0)

Also Offered As: IE 679.

Course Description: In-depth interdisciplinary analysis of theoretical and practical issues in implementing economic and community-based international development programs.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Graduate standing. Credit not allowed for both ANTH 679 and IE 679.

Terms Offered: Fall, Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ANTH 686 Practicum-Field Archaeology Credits: Var[1-18] (0-0-0)

Course Description: Direction of anthropological fieldwork under professional supervision.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ANTH 692 Seminar Credits: 3 (0-0-3)

Course Description: Current trends of research in archaeology; cultural and physical anthropology.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

ANTH 695 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ANTH 696 Group Study-Anthropological Theory Credits: Var[1-3] (0-0-0)

Course Description: Intensive analysis of selected topics and theories in anthropology, both historical and contemporary.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

ANTH 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ANTH 792 Special Topics in Anthropology Credits: 3 (0-0-3)

Course Description: A seminar course offering special topics each time the course is taught. Recent readings from the literature will be used to foster discussion.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Grade Mode: Traditional.

Special Course Fee: No.

ANTH 795 Independent Study Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ANTH 799 Dissertation Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Geography (GR)

GR 100 Introduction to Geography (GT-SS2) Credits: 3 (3-0-0)**Course Description:** Major geographic themes applied to selected regions; physical environment, human-land relationships, regional analysis.**Prerequisite:** None.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**Additional Information:** Social & Behavioral Sciences 3C, Geography (GT-SS2).**GR 102 Geography of Europe and the Americas (GT-SS2) Credits: 3 (3-0-0)****Course Description:** Examines the physical and human geographies of Europe, including the former Soviet Union, and the Americas from the Southern Cone to Canada. Focus is on the content of these geographies, why they exist, and their current significance; supported by extensive map analysis.**Prerequisite:** None.**Registration Information:** Credit not allowed for both GR 102 and GR 180A1.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**Additional Information:** Diversity, Equity, & Inclusion 1C, Geography (GT-SS2).**GR 110 Introduction to Physical Geography (GT-SC2) Credits: 3 (3-0-0)****Course Description:** Introduction to the fundamentals of physical geography including climatology, climate change, biogeography, plate tectonics, landforms and soils. Explore the science of mapping the physical earth, spatial analysis and thinking, and human-environment interactions.**Prerequisite:** None.**Registration Information:** Sections may be offered: Online.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**Additional Information:** Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).**GR 111 Introduction to Physical Geography Lab (GT-SC1) Credit: 1 (0-2-0)****Course Description:** Laboratory application of the principles of physical geography.**Prerequisite:** None.**Registration Information:** Sections may be offered: Online.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**Additional Information:** Biological & Physical Sciences 3A, Natural & Physical Sciences w/ lab (GT-SC1).**GR 204 Sustainable Watersheds (GT-SC2) Credits: 3 (3-0-0)****Also Offered As:** WR 204.**Course Description:** Effects of climate, land use, and water use on the sustainability of water quantity and quality.**Prerequisite:** None.**Registration Information:** Credit allowed for only one of the following: GR 204, GR 304, WR 204 or WR 304.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**Additional Information:** Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).**GR 210 Physical Geography Credits: 3 (3-0-0)****Also Offered As:** ESS 210.**Course Description:** Energy, mass budget, and human impacts on atmosphere, hydrosphere, and continental land surfaces.**Prerequisite:** None.**Registration Information:** Credit not allowed for both GR 210 and ESS 210.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**GR 213 Climate Migrants (GT-SS2) Credits: 3 (3-0-0)****Course Description:** Explore the various drivers of migration, emphasizing climate and others including biogeographic, political, economic, and social factors.**Prerequisite:** None.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**Additional Information:** Social & Behavioral Sciences 3C, Geography (GT-SS2).**GR 217 Human-Environment Geographies (GT-SS2) Credits: 3 (3-0-0)****Course Description:** Examines human-environment relationships using geographic theories, geographic methods, and empirical evidence. Explores cross-scalar geographic interactions that shape environmental change and emphasizes critical thinking and small group interactions.**Prerequisite:** None.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**Additional Information:** Social & Behavioral Sciences 3C, Geography (GT-SS2).**GR 220 Mapping, Cartography, and Spatial Thinking Credits: 3 (2-2-0)****Course Description:** Spatial thinking is the science and art of making maps that play a key role in enabling geographers to visualize space and spatial patterns, as well as, convey spatial information to others. Introduction to the science of spatial thinking, including collecting spatial information and making maps, modern geographic information sciences (GIS) that have evolved from cartography, and spatial analysis techniques that are fundamental to Geography.**Prerequisite:** None.**Registration Information:** Must register for lecture and laboratory.**Term Offered:** Spring (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.

GR 303 Mountain Geography Credits: 3 (3-0-0)

Course Description: The physical and human dimensions of mountains. Examples from mountains around the world with case studies from Colorado.

Prerequisite: GR 100 to 499 - at least 3 credits.

Registration Information: Junior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

GR 305 Geography of Global Health Credits: 3 (3-0-0)

Course Description: Study, research and practice of global health using an ecological approach that integrates health with spatial thinking. Focuses on a common set of issues which transcends boundaries, both domestic and international, and a set of actions to address the geographic burden of disease. Key principles and concepts, history of global health transitions, common and emerging health issues.

Prerequisite: ANTH 200 or GR 100 or INST 200.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

GR 311 GIS for Social Scientists Credits: 3 (1-4-0)

Course Description: Applications of GIS techniques useful to the social sciences. Mapping techniques and GIS toolkits are practiced in lab.

Prerequisite: GR 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

GR 315 Quantitative Geographical Methods Credits: 3 (3-0-0)

Course Description: Methods to collect, analyze, display, and model geographic data.

Prerequisite: GR 100.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

GR 320 Cultural Geography Credits: 3 (3-0-0)

Course Description: Geographic analysis of cultural phenomena, elements emphasizing human-land relationships and spatial patterns of agriculture, cities, language, religion.

Prerequisite: GR 100.

Registration Information: Sections may be offered: Online.

Term Offered: Fall (odd years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

GR 323 Remote Sensing and Image Interpretation Credits: 3 (2-2-0)

Also Offered As: NR 323.

Course Description: Remote sensing systems and applications; characteristics of photographic, scanner and radar images; imagery interpretations.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory. Credit allowed for only one of the following: GR 323, GR 503, NR 323, NR 503.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

GR 330 Urban Geography Credits: 3 (3-0-0)

Course Description: Spatial distribution of urban areas and the geographic similarities and contrasts that exist between and within them.

Prerequisite: GR 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

GR 331 Geography of Farming Systems Credits: 3 (3-0-0)

Course Description: Geographic analysis of farming systems worldwide and by region; their development over time, human-land relationships, and spatial patterns.

Prerequisite: GR 100.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

GR 333 Glaciers and Climate Change Credits: 3 (3-0-0)

Course Description: Glacier mass balance, dynamics, past fluctuations, and glaciers' relation to climate change.

Prerequisite: GR 100 or GR 210 or GEOL 120 or GEOL 122 or GEOL 124 or GEOL 150.

Registration Information: Credit allowed for only one of the following: GEOL 381A2, GR 333 and GR 381A2.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

GR 345 Geography of Hazards Credits: 3 (3-0-0)

Course Description: Causes, effects, distributional patterns, and human adjustments to environmental hazards.

Prerequisite: GR 210.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

GR 348 Biogeography Credits: 3 (3-0-0)

Course Description: Species distribution of plants and animals in relation to earth history and environments, evolution, and ecology.

Prerequisite: GR 000 to 99999 - at least 3 credits.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

GR 400 History of Theory-Anthropology and Geography Credits: 3 (3-0-0)

Also Offered As: ANTH 400.

Course Description: Anthropological/Geographical theory from its beginnings with Aristotle through recent developments into the 20th century.

Prerequisite: (ANTH 100 or ANTH 200) and (ANTH 120 and ANTH 121 and ANTH 140 or GR 100).

Registration Information: Junior or senior standing. Sections may be offered: Online. Credit not allowed for both ANTH 400 and GR 400.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

GR 410 Climate Change: Science, Policy, Implications Credits: 3 (3-0-0)

Course Description: Implications and consequences for earth systems including the cryosphere, hydrosphere, biosphere, and human systems.

Prerequisite: GR 100 to 499 - at least 3 credits.

Registration Information: Junior standing.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

GR 415 The Geography of Commodities Credits: 3 (3-0-0)

Course Description: Social relations, international trade, and environmental impacts surrounding the production, transportation, exchange, and consumption of commodities.

Prerequisite: GR 100.

Registration Information: Junior standing.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

GR 418 Development Geographies Credits: 3 (3-0-0)

Course Description: Examines development processes through a critical geography lens. Assesses the social and environmental impacts of various development interventions – from tropical medicine in the colonial era to Green Revolution technologies and current Chinese infrastructural development in Africa.

Prerequisite: GR 100 to 499 - at least 3 credits.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing.

Grade Mode: Traditional.

Special Course Fee: No.

GR 420 Spatial Analysis with GIS Credits: 4 (3-2-0)

Course Description: Theory, application of geographic information systems for spatial analysis; conceptual basis of GIS, nature and use of geographic data, case studies.

Prerequisite: GR 000 to 99999 - at least 3 credits.

Registration Information: Credit not allowed for both GR 420 and NR 322.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

GR 425A Special Topics: Human Geography Credits: Var[1-3] (0-0-0)

Course Description: Special topics in human geography.

Prerequisite: GR 100 to 499 - at least 3 credits.

Registration Information: May be taken for a maximum of 9 credits.

Grade Mode: Traditional.

Special Course Fee: No.

GR 425B Special Topics: Geospatial Geography Credits: Var[1-3] (0-0-0)

Course Description: Special topics in geospatial approaches in geography.

Prerequisite: GR 100 to 499 - at least 3 credits.

Registration Information: May be taken for a maximum of 9 credits.

Grade Mode: Traditional.

Special Course Fee: No.

GR 425C Special Topics: Physical Geography Credits: Var[1-3] (0-0-0)

Course Description: Special topics in physical geography.

Prerequisite: GR 100 to 499 - at least 3 credits.

Registration Information: May be taken for a maximum of 9 credits.

Grade Mode: Traditional.

Special Course Fee: No.

GR 430 Land Change Science and Remote Sensing Credits: 3 (3-0-0)

Course Description: Local case studies and global cases of land-use/land-cover changes in rural, peri-urban, and urban areas.

Prerequisite: GR 100.

Registration Information: Junior standing.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

GR 431 Land Change Science Lab Credit: 1 (0-3-0)

Course Description: Utilize advanced remote sensing techniques and satellite images, air photos, and ancillary data to investigate land-use and land-cover changes.

Prerequisite: GR 323 or NR 323 or GR 503 or NR 503.

Registration Information: Must have concurrent registration in GR 430.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

GR 440 Political Geography Credits: 3 (3-0-0)

Also Offered As: POLS 440.

Course Description: Examines the meaning of political space; states and nations; competition for territory, including methods and justifications; the structure of political space focusing on states; geopolitics; and the state in an era of globalization. Concepts are illustrated by real-world situations.

Prerequisite: GR 100 or POLS 101.

Registration Information: Sophomore standing. Sections may be offered: Online or Mixed Face-to-Face. Credit not allowed for both GR 440 and POLS 440.

Grade Mode: Traditional.

Special Course Fee: No.

GR 448 Forest Biogeography and Climate Change Credits: 3 (3-0-0)

Course Description: Forest adaptation and conservation in relation to global change with a focus on climate change.

Prerequisite: ESS 211 or ESS 311 or F 311 or GR 100 or GR 210 or ESS 210 or GR 303 or GR 348 or GR 410.

Registration Information: Junior standing.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

GR 482A Study Abroad--Vietnam: Land Change Science and Remote Sensing Credits: 3 (0-0-3)

Course Description: Vietnam specific local case studies of land-use/land-cover changes in rural, peri-urban, and urban areas. Integrate these local cases as examples that relate to global cases looking at the drivers of land-use/land-cover changes. The broader implications of these changes are discussed, and examples of these implications are witnessed through field visits.

Prerequisite: GR 100.

Registration Information: Sophomore standing. Credit not allowed for both GR 430 and GR 482A.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

GR 487 Internship Credits: Var[1-9] (0-0-0)

Course Description: Academic-based work experience with selected organizations or agencies. Supervised application of principles of geography.

Prerequisite: GR 100 to 499 - at least 9 credits.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

GR 493 Capstone Seminar Credit: 1 (0-0-1)

Course Description: Exploration of the linkages among the human and physical geography sub-fields, geographic techniques, and other natural and social sciences as well as how professional geographers approach issues.

Prerequisite: None.

Registration Information: Junior standing. Concurrent registration in one of the following AUCC Category 4A courses for the Major in Geography:

GR 303, GR 410, GR 415, or GR 430.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

GR 495 Independent Study Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

GR 503 Remote Sensing and Image Analysis Credits: 4 (3-3-0)

Also Offered As: NR 503.

Course Description: Interpretation and analysis of photographic, multispectral scanner, and radar data; sensor systems; applications to resource management.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory. Credit allowed for only one of the following: GR 323, GR 503, NR 323, or NR 503.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

GR 548 Biogeography Credits: 3 (3-0-0)

Course Description: Species distribution of plants and animals in relation to earth history and environments, evolution, and ecology.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate Standing.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

GR 592 Special Topics in Geography Credits: 3 (0-0-3)

Course Description: Recent papers from the literature will be used to foster discussion among participants.

Prerequisite: None.

Registration Information: Graduate standing.

Grade Mode: Traditional.

Special Course Fee: No.

1) offer and maintain instructional programs that provide a comprehensive overview and analyses of people and their cultures, both past and present;

2) conduct research in order to advance and expand knowledge of the fields of anthropology and geography;

3) participate actively in programs of interdisciplinary research.

The Department of Anthropology and Geography houses a faculty of cultural anthropologists, archaeologists, biological anthropologists, and geographers whose scholarship spans the breadth of the human experience. The program prepares undergraduate students to describe, analyze, and interpret the human condition. An examination of the social, environmental, and evolutionary contexts in which the human species is embedded defines most course work in the discipline. The program is integrative, drawing from geography, biology, the humanities, and other social and natural sciences. Geography figures prominently in our program and provides an important spatial lens through which human groups are examined over time. Four programmatic areas define faculty research and scholarship with which students can engage: humans and the environment, international development and globalization, health and well-being, and professional methods and techniques. In the education of undergraduates, the department values and promotes experiential training, primary research as well as public engagement and education.

The research endeavors of the anthropology faculty are trans-disciplinary and international. They are interested in diverse topics including but not limited to contemporary culture, ethnicity, linguistics, comparative religion, virtual worlds, subsistence patterns, archaeology, human ecology, human anatomy, human evolution, biogeography, land cover/land use patterns, and the behavior of non-human primates.

Anthropology majors follow a liberal arts curriculum that provides a broad education with an emphasis on learning how to learn. The department has ten research and teaching laboratories and three summer field schools; the Ethnographic Field School, the Archaeology Field School, and the Paleontology Field School.

Undergraduate students can pursue a general anthropology degree focused on an appreciation human diversity, past and present, from a broad and holistic perspective. Students can also declare a concentration within the program. Declaring a concentration allows for a focused course of study, specializing in the particular subfield of interest. Within each concentration (Archaeology, Biological Anthropology, and Cultural Anthropology), specific categories of classes guide students in learning the major theories, methods, and applications related to the modern practice of our discipline. Along with our offerings of world class field schools, course work in archaeological, biological, and ethnographic methods and geographical techniques are encouraged in order to further gain experience and perspective. Upon graduation, students are prepared for a diverse array of jobs or advanced training in graduate school. Students come away with a respect and appreciation for the diversity of human existence.

Learning Outcomes

Students will:

- Employ anthropological theory and qualitative/quantitative research methods to describe and analyze human biological and cultural variation over time and across space.

Major in Anthropology

The mission of the Department of Anthropology and Geography is to:

- Describe and evaluate the inter-relationships between environments, health and well-being, and human cultural and biological evolution.
- Synthesize anthropological theory, methods, and data to formulate arguments both orally and in written format.
- Articulate anthropology to non-specialists and explain anthropological concepts across subfields and/or with other social sciences and humanities disciplines.
- Transfer knowledge gained in anthropology program to a career trajectory after graduation.

Potential Occupations

Anthropology, like many majors in the liberal arts, provides students with a broad academic background suitable for a variety of jobs in the public and private sectors. Anthropology majors are trained to think independently and critically, communicate effectively, and function in a multicultural world. Employers appreciate liberal arts majors for their multiple skills and their ability to adapt to a variety of tasks and work environments. Participating in internships and cooperative education opportunities is highly recommended to enhance students' practical training and development. Careers for graduates are available in international development, health care, education, business, natural resource management, and government. Graduates who go on for

advanced studies can pursue careers in anthropology or attain advanced positions with the possibility of rising to top professional levels.

Some career opportunities for Anthropology graduates include, but are not limited to: museum curator/researcher, genealogist, international relief representative, salvage archaeologist, collections assistant, resource specialist, classical or historical anthropologist, cultural affairs officer, diplomatic service representative, immigration or foreign service officer, linguist, educational television researcher, forensic osteologist, biographical writer, scientific/technical writer, reporter, ethnographic photographer, anthropological linguist, rural development worker, ethnic groups' special concerns advocate, intercultural educator, medical anthropologist, grant writer, psychological anthropologist, international development administrator, public relations representative, public opinion pollster, sales/marketing representative, consultant for cross-cultural relations, personnel worker, geographic information systems specialist.

Major in Anthropology, Archaeology Concentration

The Archaeology concentration focuses on the Americas, and includes prehistoric and historic archaeology. The faculty members of this sub-discipline have expertise in:

Rocky Mountain and Plains archaeology
Paleo-Indian studies
Hunter-gatherer ecology
Taphonomy
Zooarchaeology
Public archaeology
Andean archaeology
Inca and Spanish empires

Mining communities
Mesoamerican archaeology
Landscape archaeology
Geoarchaeology
Legacies of Resilience Project (LORE-LPG)

Special resources include the Center for Mountain and Plains Archaeology, the MesoAmerican lab, the Center for Archaeogeophysics and Geoarchaeology, and the Cultural Resources section of the Center for the Ecological Study of Military Lands. The archaeology program sponsors an annual field school each summer and houses the CSU Archaeological Repository.

Major in Anthropology, Biological Anthropology Concentration

Over the past half century, Biological Anthropology has undergone tremendous change from a discipline that was defined by a descriptive, typological approach to human morphology (the study of shape) to one that includes both experimental and comparative analyses in a population-based framework.

Biological anthropologists continue to cross traditional disciplinary boundaries and interact with both the physical and natural sciences including biology, anatomy, genetics, chemistry, biometry, and endocrinology as well as the social sciences.

The expertise of existing faculty in Biological Anthropology at CSU includes:

- Human skeletal biology
- Forensic anthropology
- Evolutionary theory
- Neanderthal paleobiology and paleobiogeography
- Dental anthropology

- Early hominin feeding ecology
- Taphonomy
- Plio-Pleistocene Africa
- Pleistocene Asia
- Primate origins, biology, and locomotion

Two broad themes exist within biological anthropology. The first emphasizes evolutionary theory and morphological transformations, and the second is concerned with adaptations that are the product of the interaction between human biology and culture. Current faculty research addresses both of these themes.

Special resources include the Bone Lab, the Zooarchaeology Lab, the Human Osteology Lab, the 3-D Imaging and Analysis lab, the Center for Paleoanthropological Research, and the Primate Origins lab. The biological anthropology program sponsors an annual paleontology field school each summer in Wyoming. Existing faculty also have geographic foci significant to their research. Research areas include Uzbekistan, Kazakhstan, Croatia, Kenya, and Tanzania.

Requirements Effective Fall 2023

Freshman

		AUCC	Credits
ANTH 100	Introductory Cultural Anthropology (GT-SS3)	3C	3
ANTH 101	Practicing Anthropology		1
ANTH 120	Human Origins and Variation (GT-SC2)	3A	3

Major in Anthropology, Cultural Anthropology Concentration

The Cultural Anthropology concentration focuses on contemporary experiences of culturally distinct communities encountering a rapidly globalizing political economy. Students are provided with robust training in mixed methods, community-based approaches, and applied anthropology. Topically, faculty investigate issues related to the transformation of individual experience and community relations within the context of economic development, governmental and nongovernmental policy, and environmental change. Increasingly, faculty seek to understand the way subjective and material well-being are impacted by the rapidly changing contexts of modernity. Topics of research interest include:

Human-environment interactions
Community and economic development

Health and well-being
Cultural psychiatry
Disasters and resilience
Gender
Culture continuity and change

The faculty are passionate about teaching, and they strive to bring excitement and relevance to the classroom by infusing it with their practical field experiences. Cultural faculty conduct their research in India, Southeast Asia, Central Asia, Africa, the Caribbean, New Orleans, Native North America, and in virtual reality. Students concentrating in Cultural Anthropology explore issues of place and space, cultural theory, cultural content and methods.

Minor in Anthropology

Anthropology focuses on the evolution of the human condition and provides a cross-cultural view of humanity. The description and explanation of human activities in other societies and during different periods of time provides a sense of perspective for individuals operating within their own culture. A minor may be focused on one or more of the sub-disciplinary divisions such as biology, archaeology, cultural anthropology, or applied anthropology. The minor may also be distributed across the fields, similar to the requirements of the major.

To declare this minor, please visit Clark B 218.

Requirements Effective Fall 2001

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Major in Geography

The Geography major is housed in the Department of Anthropology and Geography. Through coursework and internship opportunities, majors are provided with a broad background in geographic thinking. The major emphasizes interactions between humans and the environment in an era of rapid global change. Critical study of diverse relationships between space, place, humans, built and natural environments allows students to interpret geographic features, patterns and processes.

The Geography curriculum also concentrates specifically on mountain ecosystems and human-environment interactions. Coursework takes advantage of faculty expertise in these areas of study, some of which are

specific to the state of Colorado. Geography faculty use a wide range of research methods, including geographic information systems (GIS), remote sensing, spatial modeling, spatial statistics, participatory methods and ethnography to address applied research questions in Colorado, the Rocky Mountains, Patagonia, Southeast Asia, Latin America, Melanesia, and Africa. Undergraduate majors can expect to gain knowledge of and/or participate in faculty research related to:

1. Climate change implications for society and ecosystems
2. Land-use and land-cover change
3. Critical human geography
4. Critical Health geographies
5. Biogeography

6. Livelihood systems
7. Conservation
8. Cultural geography
9. Urban geography
10. Economic geography
11. Political/electoral geography
12. Geography of virtual worlds

The Geography major is built on the core values the Department of Anthropology and Geography promotes. These values emphasize experiential training, primary research, public engagement, and education.

Learning Outcomes:

Students will demonstrate:

1. Mastery of the unifying themes of human and physical geography, as well as knowledge of the diverse conceptual and methodological approaches present in the discipline of geography.
2. The ability to identify, describe, and interpret spatial patterns and structures.
3. A critical understanding of relationships between humans and the environment, with a specific focus on mountain systems and local cultures.

4. An ability to present geographic concepts, approaches, methodologies, and applications in written, oral, cartographic, and other visual forms.
5. An understanding of the discipline's relevance to everyday life.
6. An ability to communicate effectively and respectfully, including critical thinking and discussion skills.

Potential Occupations:

Like many other majors in Liberal Arts, the Geography major provides students with a broad academic background suitable for a variety of jobs in the public and private sectors. Geography majors are trained to think independently and critically, communicate effectively, and function in a multicultural world. Careers for graduates vary depending upon your focus in Geography. Geographers often work in international development, Foreign Service, education, conservation/natural resource management, urban and regional planning, data analysis, data management, GIS analyst, marketing, and business. Graduates who go on to advanced studies can pursue academic careers in geography.

Minor in Geographic Information Science and Geographic Analysis

The Geographic Information Science and Geographic Analysis minor has a broad interdisciplinary application. The analytical methods introduced and the technologies used in the different courses and applied lab work are relevant to many disciplines including: urban and regional planning, marketing and business, archaeology, agriculture, conservation and engineering. This minor is designed for all students desiring to gain a background in the geographic theory, methods, tools and technical skills that will increase their employment potential in any number of applied fields where geographic analysis is a valuable skillset.

Requirements Effective Spring 2021

Additional coursework may be required due to prerequisites.

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Code	Title	Credits
Required Lower Division		
GR 220	Mapping, Cartography, and Spatial Thinking	3
Required Upper Division		
GR 323/NR 323	Remote Sensing and Image Interpretation	3
GR 420	Spatial Analysis with GIS	4
GR 430	Land Change Science and Remote Sensing	3
GR 431	Land Change Science Lab	1
Required Upper Division (Quantitative - choose one)		3
ANTH 365	Quantifying Anthropology	
GR 315	Quantitative Geographical Methods	
Upper Division / Lower Division (Select a minimum of 4 credits)		4
CS 152	Python for STEM	
GR 305	Geography of Global Health	
GR 311	GIS for Social Scientists	
GR 495	Independent Study ¹	
HIST 475	Methods in Digital History	
NR 426	Programming for GIS I	
NR 427	Programming for GIS II	

Program Total Credits: 21

¹ Variable credit course which must have a geospatial component. The appropriateness for the Independent Study to count for the minor will be determined by the instructor leading the Independent Study and the Geography Program Director or Department Chair.

Minor in Geography

The minor in Geography examines the critical interactions among space, place, people and the built and natural environment. These perspectives are used to interpret the spatial and temporal distribution of features and processes by applying spatial techniques and information technologies such as Geographic Information Systems (GIS) and remote sensing.

Requirements Effective Fall 2022

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Core Courses		
GR 100	Introduction to Geography (GT-SS2)	3
GR 320	Cultural Geography	3
Select at least one techniques course from the following: ¹		3-4
GR 323/NR 323	Remote Sensing and Image Interpretation	
GR 420	Spatial Analysis with GIS ²	
NR 322	Intro. to Geographic Information Systems ²	
Selected Courses		
Select enough credits from the following courses to bring program total to a minimum of 21 credits. At least 8-9 of the credits selected here must be GR and/or ANTH courses: ¹		11-12
ANTH 330	Human Ecology	
ANTH 479/IE 479	International Development Theory and Practice	
ESS 210/GR 210	Physical Geography

NR 322	Intro. to Geographic Information Systems ²	
SOC 320	Population-Natural Resources and Environment	
SOC 460	Environmental and Natural Resource Sociology	
Program Total Credits:		21

¹ Credit for the techniques course requirement may not double count toward the minor.

² Credit is not allowed for both GR 420 and NR 322.

Certificate in Museum and Cultural Heritage Studies

Earning a Certificate in Museum and Cultural Heritage Studies prepares students for entry-level careers in museums, cultural heritage sites, and similar venues that promote public outreach and education, and provides a solid foundation for students who wish to pursue advanced studies in the field of museum studies. Core courses introduce students to the history of museum and cultural heritage management, administration, curation, artifact handling, collections management, interpretive planning, exhibitions, education, ethics, and working with indigenous communities.

Requirements Effective Fall 2020

Courses used to satisfy requirements outside this certificate cannot count toward completing this certificate. If using a course toward major/concentration/minor/honors requirements, the student must take a different course for this certificate.

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Required courses:		
ANTH 240	Museum and Cultural Heritage Studies	3
ANTH 462	Anthropology Curation and Exhibition Methods	3
Select one course from the following:		3

ETST 487	Internship–Ethnic Studies ¹	
HIST 487	Internship ¹	
Select one course from the following:		3

ANTH 422/ SOC 422	Comparative Legal Systems	
ANTH 456	Archaeology and the Public	
ANTH 478/ HIST 478	Heritage Resource Management	
ART 496H	Group Study: Art History	
ETST 441	Indigenous Knowledges	
HIST 479	Practice of Public History	
Program Total Credits:		12

¹ Must be museum or cultural heritage related.

Master of Arts in Anthropology

The Master of Arts in Anthropology at CSU prepares students for entrance into a Ph.D. program and for non-academic careers. The program builds on the diverse research interests of our faculty who specialize in cultural anthropology, archaeology, and biological anthropology as well as human and physical geography. The program options include writing a thesis or developing a portfolio as the principle demonstration of preparedness for further study or professional work.

Learning Outcomes

Students who are conferred an M.A. from the Department of Anthropology and Geography will be able to:

1. Demonstrate an understanding of anthropological theory and method and how to apply appropriately.
2. Engage in independent research that addresses academic questions or societal challenges.
3. Demonstrate awareness of and respect for human diversity across space and time.
4. Possess the academic background and skills to enter a Ph.D. program in anthropology or a job related to the discipline.

Requirements Effective Fall 2021 Plan A

The thesis option must consist of a minimum of 30 semester credits of course work concentrated in anthropological areas relevant to the participant's professional goals. The thesis is the culmination of a research project carried out by the student under the guidance of his or her advisor. A final examination consists of a defense of the thesis, as well as other parts of the program of study.

Plan B

The non-thesis option is intended for students seeking development of an understanding of Anthropology which will allow them to move on to a PhD program in Anthropology, or be incorporated in their work. Plan B students are expected to take a more broadly distributed series of courses and to show less specialization than that which characterizes Plan A programs of study.

Requirements for Plan B are a minimum of 35 credits of study. Students must complete a portfolio of work demonstrating both the breadth of

their understanding of Anthropology and their own area of specialization, selected in consultation with the student's advisor. A final examination consists of a defense of the portfolio, as well as other parts of the program of study.

Code	Title	Credits
Core Course		
ANTH 500	Development of Anthropological Theory	3
Methods Course		
Select 3 credits from departmentally approved methods courses list, integrated with the student's program of study in consultation with advisor.		3-4
Electives		
Select at least three credits in a 500 - 700 level anthropology course outside the student's subfield of specialization (archaeology, socio-cultural or biological anthropology) in consultation with advisor.		3
Select at least three credits from a department outside of Anthropology in consultation with advisor. The course should be integrated with the student's program of study.		3
Elective Courses - Select from 12 to 17 credits in courses integrated with the student's program of study in consultation with advisor.		12-17
Additional Credits for Independent Study or Thesis Work		1-6
Program Total Credits:		30-35

- A minimum of 18 hours of regular course work in Anthropology is required. This excludes independent study.
- A maximum of six credits of ANTH 695 allowed towards graduation under the Plan A option. A minimum of 3 credits of ANTH 695 is required toward graduation under the Plan B option.
- A maximum of six credits of ANTH 699 will be allowed towards graduation under Plan A. No credits of ANTH 699 allowed toward graduation under the Plan B option.

Master of Arts in Anthropology, The Anthropology of Health and Well-Being Specialization

The Master of Arts in Anthropology, the Anthropology of Health and Well-Being Specialization studies the ways human health and wellness are influenced by past and present sociocultural, environmental, biological, and biocultural forces by drawing from broad and holistic perspectives on human well-being.

Plan A Effective Fall 2023

Select a minimum of 9 credits from the following:	
ERHS 520	Environmental and Occupational Health Issues
ETST 510	Ethnicity, Race, and Health Disparities in U.S.
FSHN 508	International Nutrition and World Hunger
JTC 630	Health Communication
PSY 515	Women's Health
PSY 517/IE 517	Perspectives in Global Health

Program Total Credits: 35

A minimum of 35 credits are required to complete this program.

¹ Select 3 credits from departmentally approved list of methods courses with approval of advisor and committee.

² Courses listed here constitute a partial list. Other courses may be used with approval of advisor and committee. Select courses with approval of advisor and committee.

³ A maximum total of six 300- to 400-level credits may be used to fulfill the requirements of this specialization under the M.A. Anthropology.

⁴ Any methods course listed in Core Requirements may be included in Supporting Courses if not taken to fulfill the methods requirement.

Students must complete the minimum number of credits specified in the official program of study as approved by the University Curriculum Committee, and all credit requirements specified in the **Graduate and Professional Bulletin** for their degree.

Master of Arts in Anthropology, Humans and the Environment Specialization

The Master of Arts in Anthropology, Humans and the Environment Specialization investigates how past and present human activities influence the environment, the ways ecological and other processes affect human evolution and the human condition today, and the resilience of social and ecological systems.

Master of Arts in Anthropology, International Development Specialization

The Master of Arts in Anthropology, International Development Specialization examines how local societies respond to global influences and the extent to which cultural meanings, beliefs, institutions, structures of inequality, and social relations between genders and among kin are changing as a result. This specialization also explores how economic and community development processes can improve basic aspects of human welfare.

Master of Arts in Anthropology, Professional Methods and Techniques Specialization

The Master of Arts in Anthropology, Professional Methods and Techniques Specialization develops skills in a wide range of methods and techniques used by professionals in applied anthropology, federal, and state natural resource agencies, and other arenas of social, historical, biological, and spatial research about humans. These include qualitative research and interview protocols, quantitative analysis, GIS and remote sensing, archaeological field survey, historic archaeological methods, culture and heritage resource management, and paleoanthropological methods.

ANTH 423	Cultural Psychiatry
ANTH 438	Approaches to Community-Based Development
ANTH 439	Community Mobilization
ANTH 440	Theory in Cultural Anthropology
ANTH 445	Psychological Anthropology
ANTH 446	New Orleans and the Caribbean
ANTH 506	Anthropology of Happiness and the Good Life
ANTH 515	Culture and Environment
ANTH 546	Culture, Mind, and Cognitive Science
ANTH 548	Theoretical Topics in Cultural Anthropology
ANTH 552	Geoarchaeology
ANTH 575	Paleoecology
ANTH 617	Place, Space and Adaptation
ANTH 650/ ESS 650	Edge Effects—Place, Embodiment, Environment

Outside Courses¹

Select a minimum of 9 credits from the following:² 9

HIST 501	Historical Method: Historiography
HIST 502	Historical Method: Archives
HIST 503	Historical Method: Preservation
HIST 504	Historical Method: Museums
JTC 471	Research for Public Communicators
PHIL 415	Logic and Scientific Method
POLS 621	Qualitative Methods in Political Science
POLS 625	Quantitative Methods of Political Research I
SOC 610	Seminar in Methods of Qualitative Analysis
SOC 612	Seminar in Methods of Evaluational Research

SPCM 638	Communication Research Methods
Program Total Credits:	35

A minimum of 35 credits are required to complete this program.

¹ Courses listed here constitute a partial list. Other courses may be used with approval of advisor and committee. Select courses with approval of advisor and committee.

² A maximum total of six 300- to 400-level credits may be used to fulfill the requirements of this specialization under the M.A. Anthropology.

Students must complete the minimum number of credits specified in the official program of study as approved by the University Curriculum Committee, and all credit requirements specified in the **Graduate and Professional Bulletin** for their degree.

Ph.D. in Anthropology

The Ph.D. in Anthropology at CSU supports advanced coursework and research with a focus on place, space, and adaptation. Students achieve this perspective on the discipline by engaging with a curriculum infused with geographic methods and approaches. This program provides students with the skills and expertise to address research questions that 1) sit at the intersection of anthropology and geography, 2) apply geographic methods to anthropological questions, and 3) critically evaluate the impact of place and space on human/ecosystem adaptation.

Requirements Effective Fall 2023

Code	Title	Credits
Core Courses		
ANTH 500	Development of Anthropological Theory	3
Select one of the following two core courses:		3
ANTH 617	Place, Space and Adaptation	
ANTH 650/ ESS 650	Edge Effects--Place, Embodiment, Environment	
Method Courses – 9 credits total		
Select at least 3 credits in ANTH method courses:		3-6
ANTH 372	Human Osteology	
ANTH 438	Approaches to Community-Based Development	
ANTH 441	Method in Cultural Anthropology	
ANTH 442	Ethnographic Field School	
ANTH 443	Ethnographic Field Methods	
ANTH 444	Cultures of Virtual Worlds--Research Methods	
ANTH 449	Community Development from the Ground Up	
ANTH 465	Zooarchaeology	
ANTH 475	Methods of Analysis in Paleoanthropology	
ANTH 501	Psychiatric Anthropology Laboratory	
ANTH 502	Cultural Analysis of Qualitative Data	
ANTH 503	Cognitive Anthropology Field Methods	
ANTH 504	Cultural Analysis of Personal Networks	
ANTH 530	Human-Environment Interactions	
ANTH 541	Seminar in Archaeological Method	

ANTH 543	Foundations of Ethnographic Research	
ANTH 544	From Death to Discovery	
ANTH 545	Global Mental Health–Theory and Method	
ANTH 554/ ESS 554	Ecological and Social Agent-based Modeling	
ANTH 556	Bayesian Chronologies in Archaeology	
ANTH 566	Field Methods Training in Online Environments	
ANTH 573	Paleoclimate and Human Evolution	
ANTH 660	Field Archaeology	
ANTH 674	Research Design and Analysis in Anthropology	
ANTH 686	Practicum-Field Archaeology	
Select at least 3 credits in GR method courses:		3-6
GR 311	GIS for Social Scientists	
GR 420	Spatial Analysis with GIS	
GR 430	Land Change Science and Remote Sensing	
GR 431	Land Change Science Lab	
GR 503/NR 503	Remote Sensing and Image Analysis	

Theory/Topical electives – 15 credits total (Select at least 3 credits from each of the four categories below – these can be fulfilled at the Master's level)

Depending on specific content covered, the following courses could satisfy any of the 3 anthropology (ANTH) sub-disciplines below:

ANTH 684	Supervised College Teaching	
ANTH 692	Seminar	
ANTH 792	Special Topics in Anthropology	
ANTH 795	Independent Study	
Archaeology courses:		3-6
ANTH 542	Seminar in Archaeological Theory	
ANTH 550A	Regional Prehistory: Great Plains	
ANTH 550B	Regional Prehistory: Great Basin	
ANTH 550C	Regional Prehistory: Southwestern	
ANTH 551	Historical Archaeology	
ANTH 552	Geoarchaeology	
ANTH 553	Archaeology of Complex Societies	
ANTH 555	Paleoindian Archaeology	
ANTH 660	Field Archaeology	
ANTH 686	Practicum-Field Archaeology	
Biological Anthropology courses:		3-6
ANTH 570	Contemporary Issues-Biological Anthropology	
ANTH 571	Anthropology and Global Health	
ANTH 572	Human Origins	
ANTH 575	Paleoecology	
Cultural Anthropology courses:		3-6
ANTH 505	Resilience, Well-Being, and Social Justice	
ANTH 506	Anthropology of Happiness and the Good Life	
ANTH 515	Culture and Environment	
ANTH 520	Women, Health, and Culture	
ANTH 521	Gender, Sexuality, and Culture	
ANTH 528	Economic Anthropology	

ANTH 529	Anthropology and Sustainable Development	
ANTH 532	The Culture of Disaster	
ANTH 535	Globalization and Culture Change	
ANTH 538	Food, Hunger, and Culture	
ANTH 540	Medical Anthropology	
ANTH 543	Foundations of Ethnographic Research	
ANTH 545	Global Mental Health—Theory and Method	
ANTH 546	Culture, Mind, and Cognitive Science	
ANTH 547	Mind, Medicine, and Culture	
ANTH 548	Theoretical Topics in Cultural Anthropology	
ANTH 679/IE 679	Applications of International Development	
Geography courses:		3-6
GR 410	Climate Change: Science, Policy, Implications	
GR 415	The Geography of Commodities	
GR 431	Land Change Science Lab	
GR 440/POLS 440	Political Geography	
GR 448	Forest Biogeography and Climate Change	
GR 503/NR 503	Remote Sensing and Image Analysis	
GR 548	Biogeography	
GR 592	Special Topics in Geography	
Dissertation		
ANTH 799	Dissertation	3-12
Outside Department Elective (Select at least 3 credits from subject code other than ANTH or GR)		3
Additional Credits:		3-6
ANTH 684	Supervised College Teaching	
ANTH 692	Seminar	
ANTH 696	Group Study-Anthropological Theory	
ANTH 792	Special Topics in Anthropology	
ANTH 795	Independent Study	
Electives		
Master's Degree Credit (a maximum of 30 credits may be accepted from a master's degree)		30
Program Total Credits:		72

A minimum of 72 credits are required to complete this program.

Most students entering the Ph.D. program in anthropology will bring in 30 credits from a Master's program in a related field. The above curriculum represents a total of 42 credits beyond the Master's level. If a prospective student has less than 30 credits toward the program, an individualized curriculum plan will be developed by working with primary advisor that will cover possible anthropology deficiencies.

Department of Art and Art History

Visual Arts Building
551 W. Pitkin Street
Main Office: Room G100
(970) 491-6774

art.colostate.edu (<http://art.colostate.edu/>)

In the Department of Art and Art History at CSU, we approach learning in a holistic fashion with an eye towards helping students develop their creative problem-solving skills. We emphasize the conceptual and the practical, where the “why” is as important as the “how.” Our program balances ideation and research with hands-on learning and material process. Our visual art degrees are thinking degrees where students learn to communicate within historical and contemporary contexts to find their place in the world.

Dr. Eleanor Moseman, Chair

Our programs:

The Department of Art and Art History offers undergraduate degrees rooted in a progressive, challenging, and engaging curriculum. Our programs offer opportunities for international and interdisciplinary study and support our students' individual paths in research and creative artistry.

Our program begins with our Foundations classes, an intensive inquiry into fundamental questions of time and structure, form and observation, color and composition, and materials and space, along with a global survey of art history that lays the groundwork for an arts education. After completing the requirements of the Foundations Program, students can choose upper-division (300-400 level) courses in one of our ten concentration areas; often students opt to do more than one concentration.

All of our degree programs provide our students with a wide range of desirable job skills. They include creative ideation, visual literacy, time management and organization, project management, research, written and verbal communication skills, emotional intelligence, giving and receiving constructive criticism, problem solving, critical thinking, prioritizing, and discernment, among many others. We support our graduates in being engaged, ambitious, and well equipped to step into the next stage of their lives where their skills, knowledge, and confidence will allow them to pursue a successful career as creative thinkers in the rapidly changing world of the 21st century.

As part of the College of Liberal Arts, students in the Department of Art and Art History have access to career resources (<https://www.libarts.colostate.edu/students/careers/>) that help them create their future. We encourage our students to participate in internships, cooperative education, and service-learning opportunities to enrich their practical training and development.

Undergraduate

Majors

- Major in Art, B.F.A.
 - Art Education Concentration
- Major in Art, B.F.A. (Studio concentrations)
 - Drawing Concentration
 - Electronic Art Concentration
 - Fibers Concentration
 - Graphic Design Concentration
 - Metalsmithing Concentration
 - Painting Concentration
 - Photo Image Making Concentration
 - Pottery Concentration
 - Printmaking Concentration
 - Sculpture Concentration
- Major in Art, B.A.
 - Art History Concentration
 - Integrated Visual Studies Concentration

Minor

- Art History

Certificate

- Art History

Graduate

Graduate Programs in Art

The Art Department offers a Master of Fine Arts degree program with specializations in drawing, fibers, graphic design, metalsmithing and jewelry, painting, printmaking, and sculpture. The program requires 60 credits in two full-time academic years. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the department's website (<http://art.colostate.edu>).

Master's Program

- Master of Fine Arts (M.F.A.)

Courses

Art and Art History (ART)

ART 100 Introduction to the Visual Arts (GT-AH1) Credits: 3 (3-0-0)

Course Description: Exploration of the development of visual arts.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Arts & Humanities 3B, Arts & Expression (GT-AH1).

ART 105 Issues and Practices in Art Credit: 1 (1-0-0)

Course Description: Current issues, practices, and resources in the visual arts; integration of unified vocabulary in various art disciplines.

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 110 Global Art History I Credits: 3 (3-0-0)

Course Description: Art and architecture of the ancient world.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ART 111 Global Art History II Credits: 3 (3-0-0)

Course Description: Art and architecture in the era of global connection.

Prerequisite: ART 110.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 120 Foundations--Time and Structure Credits: 3 (0-6-0)

Course Description: Establishes a foundational understanding of digital literacy as part of a creative practice through the development of experimental media artworks in relation to interdisciplinary concepts.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ART 135 Foundations - Form and Observation Credits: 3 (0-6-0)

Course Description: Foundational understanding of visual literacy as part of a creative practice through the development of two-dimensional artworks exploring form through observational methods in relation to interdisciplinary concepts.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 136 Introduction to Figure Drawing Credits: 3 (0-6-0)

Course Description: Human form as basis for self-expression through various drawing media.

Prerequisite: ART 135.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ART 160 Foundations - Color and Composition Credits: 3 (0-6-0)

Course Description: Establishes a foundational understanding of color and composition as part of a creative practice through the development of artworks using two-dimensional methods in relation to interdisciplinary concepts.

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 170 Foundations - Materials and Space Credits: 3 (0-6-0)

Course Description: Establishes a foundational understanding of materials and space as part of a creative practice through the development of three-dimensional artworks in relation to interdisciplinary concepts.

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 200 Media Arts in Context Credits: 3 (3-0-0)

Course Description: History and contemporary practice of media-based arts. Addresses printmaking, graphic design, photography, film, video, computer-generated imagery, digital fabrication, and other cognate disciplines.

Prerequisite: None.

Registration Information: Offered as an online course only.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Arts & Humanities 3B.

ART 212 Global Art History III Credits: 3 (3-0-0)

Course Description: Global modern and contemporary art and architecture.

Prerequisite: ART 111.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 220 Book Arts--History, Meaning, and Form Credits: 3 (0-6-0)

Course Description: Focuses on book arts and histories from a diverse perspective. Explores and applies conceptual, theoretical, and historical frameworks of the book as an expressive art form.

Prerequisite: CO 150.

Restriction: Must not be a Freshman.

Registration Information: Sophomore standing. Credit not allowed for both ART 220 and ART 280A3.

Grade Mode: Traditional.

Special Course Fee: No.

ART 230 Photo Image Making I Credits: 3 (0-6-0)

Course Description: Photographic imagery as an art medium; exploration of silver-based (film) materials.

Prerequisite: ART 111 and ART 120 and ART 135 and ART 160 and ART 170.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 231 Photo Image Making for Non-Art Majors Credits: 3 (0-6-0)

Course Description: Create photographically-based artworks, and assess works through critical interactions.

Prerequisite: None.

Registration Information: Non-Art majors only. Credit not allowed for both ART 231 and ART 280A1.

Grade Mode: Traditional.

Special Course Fee: No.

ART 235 Drawing Materials and Techniques Credits: 3 (0-6-0)

Course Description: Introducing fundamental skills and knowledge in drawing emphasizing a variety of processes, techniques and materials while exploring thematic topics.

Prerequisite: ART 111 and ART 120 and ART 135 and ART 160 and ART 170.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ART 236 Figure Drawing Credits: 3 (0-6-0)

Course Description: Develop and employ observational drawing methods centered on the motif of the human form. Explore the nature of observation, representation, and the role of the human being and human form in art. Discover the spatial morphology of the human form and analyze a diverse range of drawing genres that use the human form as a motif.

Prerequisite: None.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 240 Pottery I Credits: 3 (0-6-0)

Course Description: Basic techniques of studio ceramics and wheel throwing; exploration of expressive potential in pottery.

Prerequisite: ART 111 and ART 120 and ART 135 and ART 160 and ART 170.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 245 Metalsmithing and Jewelry I Credits: 3 (0-6-0)

Course Description: Introduction to the materials, processes, and concepts that ground the field of contemporary jewelry and metalsmithing. Techniques include metal forming and fabrication processes; jewelry design and construction; surface treatment and finishing processes; behavior and mechanical properties of metals.

Prerequisite: ART 111 and ART 120 and ART 135 and ART 160 and ART 170.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 250 Fibers I Credits: 3 (0-6-0)

Course Description: Fibers and fabric as expressive media; weaving and basic fiber structures; fabric painting and surface techniques.

Prerequisite: ART 111 and ART 120 and ART 135 and ART 160 and ART 170.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 253 Digital Fabrication Credits: 3 (0-6-0)

Course Description: Practical and technical skills within a historical and theoretical context for using computers, in combination with traditional and analog fabrication processes, to shape physical materials and make creative works. Introduces 3D Computer Aided Design (CAD), Computer Aided Machining (CAM), and Computer Numeric Controlled (CNC) Machining including 3D printing, Laser Cutting, and CNC Routing/Milling.

Prerequisite: ART 110 or ART 135 or ART 136 or ART 160 or ART 170.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 255 Introduction to Graphic Design Credits: 3 (0-6-0)

Course Description: An introduction to visual communication design, typography, design systems, and layout.

Prerequisite: ART 111 and ART 120 and ART 135 and ART 160 and ART 170.

Registration Information: 2.55 GPA or better.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 256 Introduction to Electronic Art Credits: 3 (0-6-0)

Course Description: An introduction to interactive and time-based mediums for art making. Course material may include sound art, video, coding and/or animation as a basis for creation.

Prerequisite: ART 111 and ART 120 and ART 135 and ART 160 and ART 170.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 260 Painting I--Fundamentals and Representation Credits: 3 (0-6-0)

Course Description: Beginning oil painting focusing on development of technical skills while exploring concepts of representation in western and non-western art.

Prerequisite: ART 111 and ART 120 and ART 135 and ART 160 and ART 170.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 265 Introduction to Printmaking Credits: 3 (0-6-0)

Course Description: Introduction to the materials, processes, histories, and concepts that ground the field of contemporary printmaking. Explore multiple techniques of printmaking. Develop an individual artistic practice.

Prerequisite: ART 111 and ART 120 and ART 135 and ART 160 and ART 170.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 266 History and Practice of Non-Toxic Printmaking Credits: 3 (1-4-0)

Course Description: Brief history of traditional printmaking practices to provide exposure to contemporary non-toxic printmaking practices through a hands-on studio.

Prerequisite: None.

Restriction: .

Registration Information: Must register for lecture and laboratory. Offered as Mixed Face-to-Face only. Credit not allowed for both ART 266 and ART 380A2.

Grade Mode: Traditional.

Special Course Fee: No.

ART 270 Sculpture I Credits: 3 (0-6-0)

Course Description: Introduction to sculptural techniques and concepts.

Prerequisite: ART 111 and ART 120 and ART 135 and ART 160 and ART 170.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 295A Independent Study: Painting Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ART 295B Independent Study: Printmaking Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ART 295C Independent Study: Sculpture Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: Yes.

ART 295D Independent Study: Fibers Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ART 295E Independent Study: Metalsmithing and Jewelry Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: Yes.

ART 295F Independent Study: Drawing Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ART 295G Independent Study: Graphic Design Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ART 295H Independent Study: Art History Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ART 295I Independent Study: Art Education Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ART 295J Independent Study: Pottery Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ART 295K Independent Study: Photo Image Making Credits:

Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ART 295L Independent Study: Electronic Art Credits: Var[1-4] (0-0-0)

Course Description: Students work with one faculty member to create course content relevant to electronic art.

Prerequisite: ART 100 to 399 - at least 3 credits.

Registration Information: Junior standing. Written consent of instructor. Instructor must approve of proposed course content from student prior to registration.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 309 Pre-Columbian Art of the Andes Credits: 3 (3-0-0)

Course Description: Artistic and architectural traditions of major ancient civilizations in the central Andean region of South America, including the Chavín, Nazca, Moche, Tiwanaku, and Inca cultures from 2500 bce until the sixteenth-century conquest and colonization by Spain.

Prerequisite: ART 212.

Grade Mode: Traditional.

Special Course Fee: No.

ART 310 History of American Art to 1945 Credits: 3 (3-0-0)

Prerequisite: ART 212.

Grade Mode: Traditional.

Special Course Fee: No.

ART 311 Art of West and Central Africa Credits: 3 (3-0-0)

Course Description: Focuses on the arts of West and Central Africa from prehistory through contemporary visual expressions, and engages with current art historical theoretical approaches and practices in order to gain a nuanced understanding of the arts in these respective regions and their relationship to global art production.

Prerequisite: ART 212.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ART 312 Pre-Columbian Art of Mesoamerica Credits: 3 (3-0-0)

Course Description: Artistic and architectural traditions of major ancient civilizations in Mesoamerica, including the Olmecs, Maya, Teotihuacanoes, Mixtecs, and Aztecs, from 1200 bce until the sixteenth-century conquest by Spain.

Prerequisite: ART 212.

Grade Mode: Traditional.

Special Course Fee: No.

ART 313 Art of East and Southern Africa Credits: 3 (3-0-0)

Course Description: Arts of southern and East Africa from prehistory through contemporary visual expressions, and engages with current art historical theoretical approaches and practices to gain a nuanced understanding of the arts in these respective regions and their relationship to global art production.

Prerequisite: ART 212.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ART 314 Women in Art History Credits: 3 (3-0-0)

Prerequisite: ART 212.

Grade Mode: Traditional.

Special Course Fee: No.

ART 315 United States Art 1945-1980 Credits: 3 (3-0-0)

Course Description: Visual art in the United States 1945-1980.

Prerequisite: ART 212.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 316 Art of the Pacific Credits: 3 (3-0-0)

Course Description: Arts of Australia, Indonesia, Melanesia, Micronesia, and Polynesia.

Prerequisite: ART 212.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 317 Native North American Art Credits: 3 (3-0-0)

Course Description: Introduction to historic and contemporary art forms of Native North America, emphasizing the cultural and political contexts.

Prerequisite: ART 212.

Registration Information: Written consent of instructor for non-Art majors.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 320 Global Encounters in Art Credits: 3 (3-0-0)

Course Description: Comparative topics in global art.

Prerequisite: ART 212.

Grade Mode: Traditional.

Special Course Fee: No.

ART 321A Travel Abroad: Studio Workshop in Italy-Drawing Credits: Var[3-5] (0-0-0)

Course Description: Exploration of studio techniques in Italy.

Prerequisite: ART 135.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ART 321B Travel Abroad: Studio Workshop in Italy-Photo Image Making Credits: Var[3-5] (0-0-0)

Course Description: Exploration of studio techniques in Italy.

Prerequisite: ART 230.

Registration Information: ART 230 or portfolio review; written consent of instructor.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ART 321C Travel Abroad: Studio Workshop in Italy-Fibers Credits: Var[3-5] (0-0-0)

Course Description: Exploration of studio techniques in Italy.

Prerequisite: ART 250.

Registration Information: ART 250 or portfolio review; written consent of instructor.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ART 321D Travel Abroad: Studio Workshop in Italy-Sculpture Credits: Var[3-5] (0-0-0)

Course Description: Exploration of studio techniques in Italy.

Prerequisite: ART 270.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ART 324A Study Abroad--Mexico: Art Meets Environment Credits: 3 (0-0-3)

Course Description: Explores the intersection of visual arts, community and environment in Baja California Sur through direct experience, creative practice, collaborative processes and contemporary and historical art theory.

Prerequisite: CO 150.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing. Written consent of instructor. Offered as Mixed Face-to-Face.

Grade Mode: Traditional.

Special Course Fee: No.

ART 325 Concepts in Art Education Credits: 3 (3-0-0)

Course Description: Artistic learning in children, adolescents, adults, and special populations.

Prerequisite: EDUC 275.

Registration Information: Admission to Teacher Licensure Program required.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 326 Art Education Studio Credits: 4 (0-8-0)

Course Description: Art areas required for teacher licensure as indicated by individual student needs.

Prerequisite: ART 325 with a minimum grade of C.

Registration Information: Junior standing. Admission to Teacher Licensure Program required. Written consent of instructor.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 327 Issues in Art Education and the Public Credits: 3 (3-0-0)

Course Description: Introduce students to the concepts relating to Art Education in contemporary society.

Prerequisite: None.

Registration Information: Junior standing. This is a partial semester course. Offered as an online course only.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ART 330 Photo Image Making II Credits: 4 (0-8-0)

Course Description: Studio course designed to develop the growth of photographic expression.

Prerequisite: ART 230.

Registration Information: ART 230 or portfolio review.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 331 Photo Image Making III Credits: 4 (0-8-0)

Course Description: Studio course designed to further growth of concept, materials in photographic expression as an art medium.

Prerequisite: ART 330.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 335 Contemporary Topics in Drawing Credits: 4 (0-8-0)

Course Description: Broadening knowledge and skills in drawing by emphasizing a variety of approaches and materials while exploring contemporary topics.

Prerequisite: ART 235.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 336 Projects in Drawing Credits: 4 (0-8-0)

Course Description: Generate and synthesize drawing-based project work through dedicated artistic research. Identify relevant contemporary issues and formulate personalized drawing practices through in-depth projects. Each project is invented and justified through a written proposal, artist statement, oral presentations, and sketchbook work, prior to fully evaluated tangible works of art.

Prerequisite: ART 335.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 340 Pottery II Credits: 4 (0-8-0)

Course Description: Studio ceramic and wheel throwing techniques; surface treatment, kiln firing, clay and glaze formulation.

Prerequisite: ART 240.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 341 Pottery III Credits: 4 (0-8-0)

Course Description: Form and surface exploration; supportive ceramic technologies; expression in historical pottery.

Prerequisite: ART 340.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 345 Metalsmithing and Jewelry II Credits: 4 (0-8-0)

Course Description: Raising and casting techniques in combination with construction; metal spinning.

Prerequisite: ART 245.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 346 Metalsmithing and Jewelry III Credits: 4 (0-8-0)

Course Description: Forging and enameling techniques on nonferrous and ferrous metals; stone setting.

Prerequisite: ART 245.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 350 Fibers II Credits: 4 (0-8-0)

Course Description: Intermediate fiber structures and fabric and surface design; dyes and pigments; continued investigation of fibers and fabric as expressive media.

Prerequisite: ART 250.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 351 Fibers III Credits: 4 (0-8-0)

Course Description: Investigation of fibers and fabric as expressive media; research in historic textiles.

Prerequisite: ART 250.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 355 Typography and Design Systems Credits: 4 (0-8-0)

Course Description: Emphasis on typographic solutions for advertising, corporate identity, packaging, and publication design.

Prerequisite: ART 255.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 356 Illustration Credits: 4 (0-8-0)

Course Description: Problems emphasizing media, experimental techniques, and compositions.

Prerequisite: ART 255.

Registration Information: Six credits in drawing required in addition to ART 255.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 357 Interactive Media Credits: 4 (0-8-0)

Course Description: Technical, conceptual, and historic aspects of creating interactive electronic media.

Prerequisite: ART 255 or ART 256.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ART 358 Experimental Video Credits: 4 (0-8-0)

Course Description: History, theory, application of experimental video and digital special effects, animation and video techniques as they apply to experimental video.

Prerequisite: ART 255 or ART 256.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ART 360 Painting II--Ideation and Concept Development Credits: 4 (0-8-0)

Course Description: Continuing development of technical skills in oil painting through the use of conceptual prompts.

Prerequisite: ART 260.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ART 361 Painting III--Experimental Approaches Credits: 4 (0-8-0)

Course Description: Broadening knowledge and skill in the painting discipline by introducing experimental processes, methods and materials.

Prerequisite: ART 360.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 365 Lithography and Post-Digital Printmaking Credits: 4 (0-8-0)

Course Description: Exploration of intermediate processes in lithography and post-digital printmaking. Group critiques focus on personal narrative growth as well as concepts surrounding traditional printmaking methods and relevancy in comparison to 21st century technological innovations.

Prerequisite: ART 265.

Restriction: Must not be a: Freshman.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 366 Community and Sustainability in Printmaking Credits: 4 (0-8-0)

Course Description: Focuses on expanding intermediate knowledge of printmaking to incorporate sustainable non-toxic methods and community-based art projects.

Prerequisite: ART 265.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 370 Sculpture II Credits: 4 (0-8-0)

Prerequisite: ART 270.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 371 Sculpture III Credits: 4 (0-8-0)

Course Description: Intermediate-level development of studio practice, exploration of technical process, theory and professionalism.

Prerequisite: ART 270.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 382A Study Abroad in Japan: Art History Credits: 3 (0-0-3)

Course Description: History of Japanese art and architecture experienced on location in Japan.

Prerequisite: ART 110 or ART 120 or ART 135 or ART 160 or ART 170.

Term Offered: Summer (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

ART 382B Study Abroad in Japan: Studio Art Credits: 3 (0-0-3)

Course Description: Investigation of Japanese art and design experienced on location in Japan.

Prerequisite: ART 110 or ART 120 or ART 135 or ART 160 or ART 170.

Term Offered: Summer (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

ART 382C Study Abroad: Art Meets Environment in Baja California Sur Credits: 3 (0-0-3)

Course Description: Explores the intersection of visual arts, community and environment in Baja California Sur through direct experience, creative practice, collaborative processes and contemporary and historical art theory.

Prerequisite: CO 150.

Registration Information: Sophomore standing. Written consent of instructor. Offered as Mixed Face-to-Face.

Grade Mode: Traditional.

Special Course Fee: No.

ART 382D Study Abroad--Italy: Painting Credits: Var[3-5] (0-0-0)

Course Description: Exploration of studio techniques in Italy.

Prerequisite: ART 160.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ART 382E Study Abroad--Japan: Studio Practice Credits: Var[3-5] (0-0-0)

Course Description: Exploration of art production studio techniques in Japan.

Prerequisite: CO 150.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing. Offered as Mixed Face-to-Face.

Term Offered: Summer (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ART 382F Study Abroad--Japan: Studio Research Credits: Var[3-5] (0-0-0)

Course Description: Exploration of how to engage in creative research and documentation of inspirational materials in Japan.

Prerequisite: CO 150.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing. Offered as Mixed Face-to-Face.

Term Offered: Summer (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ART 384 Supervised College Teaching Credits: Var[1-4] (0-0-0)

Course Description: Supervised assistance in instruction.

Prerequisite: None.

Registration Information: Junior or senior standing; written consent of instructor. Maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

ART 392 Undergraduate Professional Practices Seminar Credits: 3 (0-0-3)

Course Description: Skills and tools beneficial in pursuing professional and/or academic goals in the visual arts.

Prerequisite: None.

Registration Information: Junior standing. Sections may be offered: Online.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 400 BFA Portfolio Credit: 1 (1-0-0)

Course Description: Effectively submit capstone work to the University's Digital Repository and a Juried BFA Exhibition while teaching best practices for managing and sharing work after graduation.

Prerequisite: None.

Registration Information: Senior standing. Written consent of instructor. This is a partial semester course.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

ART 409 Museum Collections--Storage to Exhibition Credits: 3 (3-0-0)

Course Description: Introduction to issues involving museum collections. Topics are addressed through readings, documentary films, class discussions, guest speakers, gallery tours, object research, and hands-on projects. Work closely with objects from the Gregory Allcar Museum of Art collection.

Prerequisite: ART 212.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ART 410 Greek Art Credits: 3 (3-0-0)

Prerequisite: ART 212.

Grade Mode: Traditional.

Special Course Fee: No.

ART 411 History of Medieval Art Credits: 3 (3-0-0)

Course Description: Early Christian, Byzantine, Islamic, Romanesque, and Gothic visual art forms.

Prerequisite: ART 212.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ART 412 History of Renaissance Art Credits: 3 (3-0-0)

Prerequisite: ART 212.

Grade Mode: Traditional.

Special Course Fee: No.

ART 414 History of Baroque and Rococo Art Credits: 3 (3-0-0)

Course Description: 17th- and 18th-century visual arts.

Prerequisite: ART 212.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 415 History of 19th Century European Art Credits: 3 (3-0-0)

Course Description: Architecture, sculpture, painting, and other arts in Europe, 1780 - 1900.

Prerequisite: ART 212.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ART 416 History of European Art, 1900 to 1945 Credits: 3 (3-0-0)

Course Description: Visual arts in Europe, 1900 to 1945.

Prerequisite: ART 212.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ART 417 Roman Art Credits: 3 (3-0-0)

Course Description: Roman sculpture, painting, and architecture.

Prerequisite: ART 212.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ART 418 Contemporary Artists and Art Critics Credits: 3 (3-0-0)

Course Description: Critical study of contemporary artists and art criticism.

Prerequisite: ART 212.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 419 Historiography and Methodology of Art History Credits: 3 (3-0-0)

Course Description: Historiography/methodology/research methods in art history.

Prerequisite: None.

Registration Information: Written consent of instructor.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ART 420 Travel Abroad-Art History in Italy Credits: Var[3-5] (0-0-0)

Course Description: Art historical study of painting, sculpture, and architecture in Italy.

Prerequisite: ART 212.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ART 421 Art and Environment Credits: 3 (0-6-0)

Course Description: Interdisciplinary studio/seminar course investigating art's relationship to the environment through readings, field trips, presentations and studio practice.

Prerequisite: ART 136 and ART 160 and ART 170 and ART 200 to 299 - at least 6 credits.

Registration Information: Required field trips. Credit allowed for only one of the following: ART 380A1, ART 421, ART 521 or ART 680A1.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 425 Integrated Visual Studies Credits: 4 (4-0-0)

Course Description: Interdisciplinary and guided study linking systems of knowledge. Students are afforded the space to draw on their breadth of information and artistic mediums to create a capstone project that demonstrates an ability to communicate effectively across verbal, visual, and written forms. Develop skills as makers and thinkers, fostering critical awareness of how society reflects and produces visual meaning.

Prerequisite: None.

Registration Information: Senior standing. Written consent of advisor. 21 credits of upper-division coursework in the BA-Integrated Visual Studies concentration.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 430 Advanced Photo Image Making I Credits: 4 (0-8-0)

Course Description: Advanced problems in use of photo image making as an art medium.

Prerequisite: ART 331.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 431 Advanced Photo Image Making II Credits: 4 (0-8-0)

Course Description: Studio course to refine individual directions and professional goals in photography as an art medium.

Prerequisite: ART 430.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 435 Advanced Drawing I Credits: 4 (0-8-0)

Course Description: Independent projects and identification of personal artistic direction; research in art-related topics.

Prerequisite: ART 336.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ART 436 Advanced Drawing II Credits: 4 (0-8-0)

Course Description: Capstone course; production of professional exhibition-quality work.

Prerequisite: ART 435.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ART 440 Pottery IV Credits: 4 (0-8-0)

Course Description: Advanced individual research in pottery form and expression; supportive technology; expression in contemporary American pottery.

Prerequisite: ART 341.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 441 Pottery V Credits: 4 (0-8-0)

Course Description: Advanced individual research in pottery form and expression of personal subject matter; supportive technology.

Prerequisite: ART 440.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 445 Metalsmithing and Jewelry IV Credits: 4 (0-8-0)

Course Description: Chasing and repousse techniques in two- and three-dimension; inlay, engraving, and etching techniques.

Prerequisite: ART 345 and ART 346.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 446 Metalsmithing and Jewelry V Credits: 4 (0-8-0)

Course Description: Advanced techniques: granulation, electroforming, photoetching, makume, niello, ferrous metals techniques.

Prerequisite: ART 345 and ART 346.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 450 Fibers IV Credits: 4 (0-8-0)

Course Description: Advanced studio problems in expressive use of fibers and fabric.

Prerequisite: ART 350 and ART 351.

Registration Information: Maximum of 8 credits allowed in the course.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 451 Fibers V Credits: 4 (0-8-0)

Course Description: Advanced studio problems in expressive use of fibers and fabric.

Prerequisite: ART 351 or ART 450.

Registration Information: Maximum of 8 credits allowed in course.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 455 Advanced Typography and Design Systems Credits: 4 (0-8-0)

Course Description: Two- and three-dimensional solutions for advertising, corporate identity, packaging, and publication design.

Prerequisite: ART 355.

Registration Information: Maximum of 8 credits allowed in course.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 456 Advanced Illustration Credits: 4 (0-8-0)

Course Description: Projects in editorial and reportorial illustration emphasizing techniques applied to solving problems in advanced composition.

Prerequisite: ART 356.

Registration Information: Maximum of 8 credits allowed in course.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 457 Advanced Interactive Media Credits: 4 (0-8-0)

Course Description: Technical, conceptual, and historic aspects of creating interactive electronic media.

Prerequisite: (ART 255 or ART 256) and (ART 357).

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ART 458 Advanced Experimental Video Credits: 4 (0-8-0)

Course Description: Advanced experimental video and visual effects.

Prerequisite: (ART 255 or ART 256) and (ART 358).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ART 460 Painting IV--Portfolio Projects Credits: 4 (0-8-0)

Course Description: Exploration of the fundamental conceptual and logistical challenges involved in developing a proficient, personal art practice in the discipline of painting.

Prerequisite: ART 361.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 461 Painting V--Capstone Portfolio Projects Credits: 4 (0-8-0)

Course Description: Continuation of personal portfolio development with culminating capstone expectations added.

Prerequisite: ART 460.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 465 Printmaking Research Art, Craft, and Design Credits: 4 (0-8-0)

Course Description: Provides an advanced opportunity of printmaking for professional standards in art, craft, and design. Individual instruction and guidance develops sensitivity to issues surrounding personal artistic voice and group critiques provide an opportunity to further discuss those narratives.

Prerequisite: ART 366.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 466 Printmaking Capstone Portfolio and Exhibition Credits: 4 (0-8-0)

Course Description: Prioritizes preparing printmaking for life as an artist outside of the university setting. Create and curate a professional portfolio of printmaking works for an exhibition off-campus by the end of capstone semester. Other crucial aspects of professional practice such as artist statement formulation, website development, juried exhibition applications, and graduate school/residency considerations are ongoing throughout the semester.

Prerequisite: ART 465.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 470 Sculpture IV Credits: 4 (0-8-0)

Prerequisite: ART 370 and ART 371.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 471 Sculpture V Credits: 4 (0-8-0)

Course Description: Advanced expression using sculptural techniques.

Prerequisite: ART 470.

Registration Information: Maximum of 8 credits allowed in course.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ART 482A Study Abroad: Art History in Italy Credit: 1 (0-0-1)

Course Description: Special topics in Italian art history; most classes will be taught on-site at museums, churches, and galleries in Italy. Focus on the art and architecture of the famed Michelangelo Buonarroti.

Prerequisite: ART 212.

Term Offered: Spring (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

ART 487 Internship Credits: Var[1-4] (0-0-0)

Course Description: Supervised work experience in an approved location.

Prerequisite: None.

Registration Information: Junior or senior standing; written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ART 492A Seminar: Art History Credits: 3 (0-0-3)

Course Description: Topical studies in Art History.

Prerequisite: ART 212.

Grade Mode: Traditional.

Special Course Fee: No.

ART 492B Seminar: Art Education Credits: 3 (0-0-3)

Course Description:

Prerequisite: None.

Registration Information: Must have concurrent registration in ART 326.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ART 495A Independent Study: Painting Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 8 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ART 495B Independent Study: Printmaking Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 8 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: Yes.

ART 495C Independent Study: Sculpture Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 8 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: Yes.

ART 495D Independent Study: Fibers Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 8 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: Yes.

ART 495E Independent Study: Metalsmithing and Jewelry Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 8 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: Yes.

ART 495F Independent Study: Drawing Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 8 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ART 495G Independent Study: Graphic Design Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 8 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ART 495H Independent Study: Art History Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 8 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ART 495I Independent Study: Art Education Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 8 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ART 495J Independent Study: Pottery Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 8 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ART 495K Independent Study: Photo Image Making Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: ART 330.

Registration Information: Maximum of 8 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: Yes.

ART 496A Group Study: Painting Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 8 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ART 510G Advanced Study in Art History: Medieval Art Credits: 3 (3-0-0)

Course Description:

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 510H Advanced Study in Art History: Renaissance Art Credits: 3 (3-0-0)

Course Description:

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 510I Advanced Study in Art History: Baroque and Rococo Art Credits: 3 (3-0-0)

Course Description:

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 510J Advanced Study in Art History: 19th-Century European Art Credits: 3 (3-0-0)

Course Description:

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 510K Advanced Study in Art History: 20th Century European Art Credits: 3 (3-0-0)

Course Description:

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ART 510L Advanced Study in Art History: West and Central Africa Credits: 3 (3-0-0)

Course Description: Focuses on the arts of West and Central Africa from prehistory through contemporary visual expressions. Engages with current art historical theoretical approaches and practices in order to gain a nuanced understanding of the arts in these respective regions and their relationship to global art production.

Prerequisite: None.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ART 510M Advanced Study in Art History: Roman Art Credits: 3 (3-0-0)

Course Description:

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Major in Art, B.F.A.

The Department of Art and Art History offers the **Major in Art, B.F.A. (Bachelor of Fine Arts)** with **two options of study**: the **Art Education Concentration**, and the **Studio concentrations**. Both are considered professional degrees.

The Major in Art, B.F.A., Art Education Concentration, embraces the artist-teacher concept, allowing students to develop a strong studio practice and take coursework to prepare to teach art at the K-12 level. Students engage in philosophical and theoretical studies, contemporary pedagogical practices, and arts-based research to prepare for the complexities of the K-12 art studio. Student teaching, field work, and service learning is expected and prepares students to enter a career as an art educator.

The **Major in Art, B.F.A., Studio concentrations**, are professional degrees for the studio art major. With 10 studio concentrations to choose from (*see list below*), students explore various mediums and gain a foundational knowledge base in art history. Students have opportunities to learn from master artists and study art throughout the ages, delve into different forms of expression, and investigate their impact on society. Students encounter diverse studio environments designed to provide depth and breadth of knowledge, immersive experiences, and mastery of processes necessary to communicate meaning in art. Choices for studio concentrations are in Drawing, Electronic Art, Fibers, Graphic Design, Metalsmithing, Painting, Photo Image Making, Pottery, Printmaking, and Sculpture.

The curriculum progression in the department for the B.F.A. is similar within the concentrations and some concentrations may have restrictions. First-year students complete Foundations courses in form and observation, time and structure, color and composition, materials and space, and global art history. Sophomores explore various concentration courses and become familiar with studio practices for the concentration studios housed in dedicated classrooms that feature large, well-equipped studio spaces designed for exploration. Juniors and seniors focus on advanced topics in their chosen concentration by taking one upper-division course in their chosen field each semester. Additionally, at this level art education students are engaged in pedagogical course work.

Learning Outcomes

Students will demonstrate:

- Fundamental knowledge and mastery of media and processes necessary to communicate meaning in a work of art.
- Ability to communicate clearly about their own art and the art of others in terms of both content and visual form.
- Knowledge about contemporary art and the motivation to view and discuss current local, regional, and national exhibitions.

In addition to the outcomes above, students with an Art Education concentration will be able to:

- Integrate literacy, numeracy, and other skill-building aptitudes while providing appropriate accommodation and differentiation strategies in the art experiences they develop for their students.
- Effectively document, analyze, and reflect on student learning and make appropriate changes for more effective instruction.
- Demonstrate proficiency in all areas of the Colorado Teacher Quality Standards.

Potential Occupations

Students with a B.F.A. in Art possess a number of transferable skills in communication, analysis, and critical thinking that are appropriate for work in traditional business as well as positions in academia and roles as freelance artists, graphic designers, art educators, art historians, studio fine artists and as “creatives” in government, industry, and non-profits. Employers appreciate art majors for their diverse skills and their ability to adapt to a variety of tasks and work environments. Participation in internships, cooperative education, service learning, and education abroad opportunities is highly recommended to enhance practical training and development. Graduates who go on for advanced studies can attain positions involving greater responsibilities with the possibility of rising to top professional levels. Depending on student interests, the electives taken, or the concentration selected, available career choices include, but are not limited to: art appraiser, art director, art therapist, exhibit designer, art critic, jeweler, gallery director, graphic design artist, free lance artist, sculptor, woodworker, welder, foundry worker, studio photographer, technical illustrator, painter, textile designer, weaver, art educator, art curator, art librarian, art museum educator, web page designer, photo lab technician, art restorer, and master printer, among many others.

Concentrations

- Art Education Concentration

Studio Concentrations

- Drawing Concentration
- Electronic Art Concentration
- Fibers Concentration
- Graphic Design Concentration
- Metalsmithing Concentration
- Painting Concentration
- Photo Image Making Concentration
- Pottery Concentration
- Printmaking Concentration
- Sculpture Concentration

Major in Art (B.F.A.), Art Education Concentration

The Art Education concentration embraces the artist-teacher concept, allowing students to develop a strong studio practice and take coursework to prepare to teach art at the K-12 level. Students engage in philosophical and theoretical studies, contemporary pedagogical practices, and arts-based research to prepare for the complexities of the K-12 art studio. Student teaching, field work, and service learning is expected and prepares students to enter a career as an art educator.

Requirements

Effective Fall 2023

The Art Education concentration requires a 2.75 cumulative CSU GPA, and that students pass the PLACE exam. Admission to the Center for Educator Preparation (CEP) (<http://www.cep.chhs.colostate.edu/students/teacher/admissions.aspx>) is also required. Fingerprint and background check.

A minimum grade of C (2.000) or better is required in all Art and Education coursework.

Major in Art (B.F.A.), Drawing Concentration

The Drawing Concentration includes a solid foundation in the basics of drawing, plus a strong emphasis on the advanced development of drawing as an art form in its own right. Initially, courses expose students to working from observation and thinking critically about observation as an attention-orienting skill. A variety of fundamental skills, research habits, techniques, and materials are explored through basic exercises and open projects. Perception skills and visual vocabulary are introduced to students through assignments, group critiques, and discussions. Throughout the program, students are expected to acquire, develop, and refine skills and to engage in an exploration of

personal expression and ideas. Drawing students are expected to be highly motivated individuals dedicated to the practice of drawing as a sophisticated art, and dedicated to thinking critically about their practice. Our program will assist them in developing their making and thinking aptitudes towards a body of work which displays an advanced level of visual challenge and aesthetics, as well as conveying a sense of content and meaning.

Requirements Effective Fall 2023

A minimum grade of C (2.000) or better is required in ART 235, ART 335, ART 336, ART 435, ART 436.

Major in Art (B.F.A.), Electronic Art Concentration

The Electronic Art concentration offers students the chance to create and critique within the context of digital methods and materials. By integrating digital media theories into their creative practice, students work with software and hardware to explore humanity's relationship with the digital realm. These explorations can include game theory, experimental video techniques, net.art, user interface, software creation, the creation of social tools, installation work, physical computing, and

code within the context of visual arts. Electronic art students are also encouraged to incorporate interdisciplinary, interactive, and collaborative practices in their work.

Requirements Effective Fall 2023

A minimum grade of C (2.000) or better is required in ART 357, ART 358, ART 457, ART 458.

Major in Art (B.F.A.), Fibers Concentration

The Fibers concentration fosters creativity and artistic expression in a wide variety of textile media. Students develop skills in visual communication as they investigate the language of textiles and the role of fibers in contemporary art and design. Undergraduate courses provide foundations in weaving and surface-design methods—including fabric printing, painting, dyeing, and embellishment. Classes also promote creative investigation of off-loom constructions, feltmaking, mixed media, and installation.

Studio work is enriched with research in the collections of the Gregory Allcar Museum of Art and the Avenir Museum of Design and

Merchandising. Students receive guidance in professional practices as they direct their talents toward careers in art, design, and education. CSU alumni exhibit their work regionally, nationally, and internationally; teach at public and private schools, colleges, and universities; and lead workshop programs throughout the U.S. Our alumni also jury and curate exhibitions, work as designers, and write for national publications. Study abroad and internship opportunities are available. Suggested non-art electives that would enhance the major include AM 363 and AM 460.

Requirements Effective Fall 2023

A minimum grade of C (2.000) or better is required in ART 350, ART 351, ART 450, ART 451.

Major in Art (B.F.A.), Graphic Design Concentration

The Graphic Design concentration is closely aligned with the artistry, practices, and standards of excellence in the contemporary design professions. With an emphasis on rich processes, conceptual problem-solving, and technical proficiency, students are able to create effective expressions of visual communication in a variety of print and digital media. Experimental explorations of typography, illustration, and design systems are expected from participants of the program, as well as applications of design that address social impact and awareness.

Design theory, history, and professional practices are discussed regularly with faculty. Projects and activities are designed to prepare students for the varied challenges and opportunities for professionals in visual communications.

¹ Select 6 credits of Upper-Division Art History Courses total, at least 3 of which must satisfy AUCC categories 4A and 4B.

² ART 455 and ART 456 may be repeated for up to 8 credits each; 4 credits of each course are required in the Senior year for AUCC category 4C. If ART 455 or ART 456 are repeated for credit, the second

4 credits taken in each course may count toward the Art Elective or the Upper-Division Art Elective requirements.

³ Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major Completion Map

Major in Art (B.F.A.), Metalsmithing Concentration

The Metalsmithing concentration offers students the opportunity to explore a range of traditional techniques and processes, while emphasizing formal and conceptual development within their own artistic practice. Class projects introduce and strengthen technical skills, and provide awareness of both historical and contemporary practice within the field. Students are encouraged to enter regional and national juried exhibitions, to participate in workshops and conferences, and

ultimately to locate and establish a place for themselves within the field of contemporary jewelry and metalsmithing, either professionally, academically, or both.

Requirements Effective Fall 2023

A minimum grade of C (2.000) or better is required in ART 345, ART 346, ART 445, ART 446.

Major in Art (B.F.A.), Painting Concentration

The Painting concentration gives students the ability to explore, develop, and gain personal understanding of the visual language and technical aspects of the painting medium. Additionally, it encourages the development of material experimentation and conceptual thinking in the upper-level courses. Students begin by working from observation, developing skills and proficiency in oils. As students gain skills and abilities with oil paints, they are encouraged to challenge the very notion of what painting is by exploring alternative tools, methods, materials,

and surfaces. Discipline and perseverance are strengthened as students develop a unique voice, conceptually and formally. In their senior year, students work closely with the Painting faculty to develop a distinctive body of work that is sophisticated in its content and scope.

Requirements Effective Fall 2023

A minimum grade of C (2.000) or better is required in ART 360, ART 361, ART 460, ART 461.

Major in Art (B.F.A.), Photo Image Making Concentration

Courses in the Photo Image Making concentration enable students to explore artistic, personally-driven and conceptual aspects of the photographic medium. Projects and assignments encourage each student to explore individual directions, with equal emphasis given to intuitive and intellectual concerns. Student work is evaluated for aesthetic qualities, technical excellence, and conceptual development. The curriculum is designed to help students build a strong foundation in the fundamentals of contemporary photographic practice, while emphasizing the medium's expressive potential and underscoring its connections to the contemporary art world. Interdisciplinary and

experimental work is encouraged, as are more traditional approaches and conventional processes. Facilities are available to enable offerings in a wide range of processes and techniques, from silver-based image production and digital capture/output methods to alternative processes such as cyanotype and palladium printing. Supportive instruction and information are provided for a range of image making strategies that students may wish to pursue.

Major in Art (B.F.A.), Pottery Concentration

The Pottery concentration is committed to providing a comprehensive curriculum in the range of processes and concepts present in contemporary ceramic art. The philosophy of the area encourages the concurrent development of critical, technical, and manual skills. Issues and debates in contemporary crafts, sculpture, architecture, design, and studio pottery are presented alongside a rigorous exploration of forming and decorating processes and technology. Faculty mentor students in refining their artistic voice through the medium of ceramics. Students'

conceptual development and materials-based learning are encouraged through access to a well-equipped studio facility with materials and tools that support experimentation. Students' capstone experience results in a defined body of work that demonstrates conceptual rigor and depth of choices connecting the material and the visual.

Requirements Effective Fall 2023

A minimum grade of C (2.000) or better is required in ART 340, ART 341, ART 440, ART 441.

Major in Art (B.F.A.), Printmaking Concentration

Printmaking courses at the undergraduate level are structured to develop a strong personal artistic vision and instill the self-confidence necessary to allow ongoing creative growth through a variety of media. A sound technical background in Lithography, Screen-Printing, Intaglio, Relief

Woodcut, Post-Digital methods and encouragement of experimental hybrid techniques will provide students with the professional skills needed to cultivate a robust studio practice and explore new innovative research based on that foundation. The community workshop atmosphere of the printmaking area immerses students in group collaboration as well as personal exploration, thus preparing each student for real-world occupational applications of their research. Through sharing visual concepts and technical investigations on a
