³ Select at least two upper-division regular or experimental GEOL courses (300-381, 402-481, 500-581) for a minimum of five credits. A maximum of two credits may be satisfied by non-regular courses (courses ending in -82 to -99) and GEOL 401, which may only count once.

⁴ STAT 315 can be used to fulfill technical elective requirement if not taken for statistics requirement in junior year.

⁵ Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major in Geology, Geophysics Concentration

The Geophysics concentration combines a strong foundation in geology with additional depth in geophysics, physics, mathematics, and associated quantitative, data analysis, and computer skills. The concentration provides strong preparation for employment in a wide

variety of public- and private-sector geosciences, resources, national defense, and geotechnical careers, and for graduate education in geophysics, seismology, geodynamics, energy, water, environmental science, space science, and many other disciplines.

Major in Geology, Hydrogeology Concentration

The Hydrogeology concentration provides a rigorous education in geological aspects of surface and subsurface water science, resources and applications, while ensuring that students are well prepared for a variety of geosciences careers. Students will be particularly well prepared for employment in environmental, water resource, geotechnical,

and groundwater disciplines, and for public- or private-sector careers managing or assessing water resources. The concentration provides strong preparation for graduate education in hydrogeology and other water science, environmental, and resource disciplines.

Minor in Geology

The minor in Geology is available to students in all majors to provide knowledge and curricular depth in geosciences, broadly encompassing

geology, geophysics, environmental geology, and hydrogeology. Students who may particularly benefit from a geology minor include those

within the Colleges of Natural Resources, Natural Science, Business, Engineering, Health and Human Sciences, and Agricultural Sciences.

Requirements Effective Fall 2019

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Required Courses		
Select one group from the following for four credits:		4
Group A:		
GEOL 120 & GEOL 121	Exploring Earth - Physical Geology (GT-SC2) and Introductory Geology Laboratory (GT-SC1)	
Group B:		
GEOL 122 & GEOL 121	The Blue Planet - Geology of Our Environment (GT-SC2) and Introductory Geology Laboratory (GT-SC1)	
Group C:		
GEOL 124 & GEOL 121	Geology of Natural Resources (GT-SC2) and Introductory Geology Laboratory (GT-SC1)	
Group D:		
GEOL 150	Physical Geology for Scientists and Engineers	
Group E:		
GEOL 110 & GEOL 121	Introduction to Geology-Parks and Monuments (GT-SC2) and Introductory Geology Laboratory (GT-SC1)	
GEOL 154	Historical and Analytical Geology	4
Selected Courses		
Select a minimum of 13 credits of GEOL coursework, of which at least 12 credits must be upper-division (300- to 400-level).		
A maximum of two credits may be satisfied by non-regular courses (courses ending in -82 to -99), of which only one credit may be GEOL 401.		
GEOL *** Geology Electives		13
Program Total Credits:		21

Master of Science in Geosciences, Plan A

The Master of Science in Geosciences, Plan A program provides best-practice preparation for employment in major fields of the geoscience professions. This is a normative working degree for many energy, environmental, natural resource, regulatory, and other professionals. Each graduate student follows a custom-tailored program of coursework and research developed with their advisor and graduate committee and documented in their thesis. Strengths of the program include diverse scientific specializations, an interdisciplinary approach to addressing

earth resource education, professional preparation, global research interests, field research, and close student/faculty working relationships.

Faculty in the department advise M.S. students in the wide range of subdisciplines represented within the department, including geophysics, economic geology, environmental geology, geochemistry, geochronology, geodynamics, geomorphology, hydrogeology, igneous and metamorphic petrology, petroleum geology, sedimentology, sedimentary petrology, seismology, paleoclimatology, glaciology, stratigraphy, structural geology, and tectonics. Students work with their advisor and graduate committee to identify a curriculum specific to their academic needs and goals. Prospective students should contact appropriate faculty advisors in the department to discuss their interests and develop a program plan.

Requirements Effective Fall 2019

A minimum of 30 semester credit hours are required to complete this program.

At least 16 credits must be at the graduate level (500-level or higher).

At least 15 credits in courses numbered 500-581, 600-681, or 700-781 are required and should be selected in consultation with the student's advisor.

Up to 6 of the 30 credits may be for GEOL 699 Thesis.

With permission of the advisor and committee, 300- or 400-level course credits may be applied to the degree.

Completion and successful oral defense of a thesis is a degree requirement.

Ph.D. in Geosciences

Geosciences Ph.D. students contribute original basic and applied research during the completion of their degrees, leading to a wide range of careers spanning Earth science, including geology, seismology, economic geology, environmental geology, glaciology, paleoclimatology, geochemistry, geophysics, geochronology, geodynamics, geomorphology, hydrogeology, igneous and metamorphic petrology, petroleum geology, sedimentology, sedimentary petrology, stratigraphy, structural geology, tectonics, and more. Students work with their advisor and graduate committee to identify and pursue their dissertation topic with a curriculum that is specific to their academic needs and goals. Prospective students should contact relevant faculty advisors in the department to discuss their interests.

Requirements Effective Fall 2018

Ph.D. students must complete 72 semester credits beyond those required for the B.S. degree. They must satisfy a breadth requirement by:

Taking a six-credit upper-division or graduate-level course sequence outside of the student's discipline. Most students will take their breadth requirement courses outside of their department.

At least 10 credits beyond the master's degree must be earned in regular courses numbered 500-level or above.

A minimum of 72 credits are required to complete this program.

Courses

Subjects in this department include: Natural Resource Recreation and Tourism (NRRT).

Natural Resource Recreation and Tourism (NRRT)

NRRT 193 New to the Major Seminar Credit: 1 (0-0-1)

Course Description: Introduces students new to the Human Dimensions of Natural Resources and Natural Resource Tourism majors to faculty, department, college and university resources, careers, research, outreach, advising resources, and other students.

Prerequisite: None.

Restriction: Must be a: Undergraduate.

Registration Information: Undergraduate standing. This is a partial semester course. Required field trips. Sections may be offered: Online. Credit not allowed for both NRRT 180A1 and NRRT 193.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 231 Principles-Parks/Protected Area Management Credits: 3 (3-0-0)

Course Description: Provide a broad but comprehensive understanding of the history, challenges, and practices of parks and protected areas management.

Prerequisite: None.

Registration Information: Sections may be offered: Online. Required field trips.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 262 Principles of Environmental Communication Credits: 3 (3-0-0)

Course Description: Principles of environmental communication, education, and interpretation for managing natural and cultural resources.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 270 Principles of Natural Resource Tourism Credits: 3 (3-0-0)

Course Description: Tourism and private commercial outdoor recreation industry in America.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 301 Conservation Leadership Credits: 3 (3-0-0)

Course Description: Approaches to conservation leadership.

Prerequisite: NRRT 262 and NRRT 231.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 320 International Issues-Recreation and Tourism Credits: 3 (3-0-0)

Course Description: History, development, and preservation of international parks, preserves, tourist and historical sites.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 321 Travel Abroad-Marine Ecotourism-Bahamas Credits: 3 (1-3-1)

Course Description: Environmental and socio-cultural aspects of marine ecotourism in the Bahamas.

Prerequisite: None.

Registration Information: Minimum GPA 2.500; 3 credits in natural sciences. Passport and ability to swim will be required.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 322 Study Abroad--Italy: Introduction to Culinary Tourism Credits: 3 (0-0-3)

Course Description: Overview of the culinary tourism industry applied to the leading culinary destination, Italy. Explores defining components of culinary tourism, development of this growing sector in the Tuscan area, Italian culinary attractions, festivals and events, the introduction of marketing, promotion and branding of culinary tourism, current global trends in the culinary tourism industry, related special topics and the future of the industry related to Italy.

Prerequisite: NRRT 270.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing. Offered as Mixed Face-to-Face. Credit not allowed for both NRRT 322 and NRRT 382A.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 330 Social Aspects of Natural Resource Management Credits: 3 (3-0-0)

Course Description: Review social science concepts and research important to the way humans use and manage natural resources. Using lectures and readings on social theory and management frameworks, dissect current natural resource management issues. Case study presentations, exercises, and discussions will connect various social science approaches and theoretical frameworks to their natural resource applications.

Prerequisite: None.

Registration Information: Sophomore standing. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 331 Management of Parks and Protected Areas Credits: 3 (2-3-0)

Course Description: Comprehensive assessment of problems confronted by park professionals and the techniques and tools applied to their solution.

Prerequisite: NRRT 231 and NRRT 330.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 340 Principles in Conservation Planning and Mgmt Credits: 3 (3-0-0)

Course Description: Social, economic, legal, and ecological concepts that shape planning and management frameworks within conservation.

Prerequisite: NRRT 231.

Registration Information: Required field trips.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 350 Wilderness Leadership Credits: 3 (2-2-0)

Course Description: Practical and philosophical aspects of wilderness usage including safety, group dynamics, and backcountry skills.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 351 Wilderness Instructors Credits: 3 (2-2-0)

Course Description: Preparation to safely lead and instruct groups in outdoor wilderness programs; further refine skills including judgement and leadership.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

NRRT 362 Environmental Conflict Management Credits: 3 (3-0-0)

Course Description: Theoretical, critical and practical approaches to negotiation, mediation and conflict management strategies related to natural resources.

Prerequisite: NRRT 262.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 368 Biodiversity Conservation Culture/Business Credits: 3 (3-0-0)

Course Description: Introduction to biological and cultural diversity. Examine biocultural conservation, a framework for ensuring just and effective approaches to conservation. Explore how culture and cultural diversity shape conservation across space and time. This ranges from local communities with diverse knowledge systems to the burgeoning global movement to link environmental, social and governance factors of businesses with environmental conservation initiatives.

Prerequisite: NRRT 231.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 371 Techniques in Interpretation Credits: 3 (2-1-0)

Course Description: Intermediate techniques in interpretation including exhibit design and construction, personal program development and visitor studies.

Prerequisite: NRRT 262.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 372 Tourism Promotion Credits: 3 (3-0-0)

Course Description: Explores different approaches for tourism marketing in order to develop a sound background in the field. Addresses the forces that drive change in the tourism marketplace; how marketing managers can most effectively position their services, destination and products, through a systems approach to capture today's traveler. Basic concepts and skills in tourism marketing are examined through problems and characteristics specific to tourism.

Prerequisite: NRRT 270.

Registration Information: Sophomore standing. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 376 Human Dimensions Research and Analysis Credits: 3 (2-2-0)

Course Description: Applies human dimensions (recreation) research and analysis techniques to natural resource issues. Predicated on the assumption that the best way to learn research methodology and statistics is to become directly involved in the process of scientific inquiry. Consequently, a considerable amount of time is devoted to conducting research tasks (e.g., developing surveys, analyzing data).

Prerequisite: STAT 201.

Registration Information: Sophomore standing. Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 384 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

NRRT 400 Environmental Governance Credits: 3 (3-0-0)

Course Description: Theory and practice of prevalent environmental governance approaches in diverse social and environmental contexts.

Prerequisite: NRRT 231.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 401 Collaborative Conservation Credits: 3 (3-0-0)

Course Description: Guiding principles and practices for effectively engaging stakeholders in conservation issues and natural resource management.

Prerequisite: NRRT 231 or NRRT 262.

Registration Information: Required field trips. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 402 Cultural and Political Ecology Credits: 3 (3-0-0)

Course Description: Exploration of cultural and political ecology, the study of (un)equal control of, and access to, natural resources, focuses on human-environment interactions, with particular attention to the social and cultural meanings of resources. Entails the interrogation of definitions of nature and culture, interactions between society and nature, and natural resource management, access and control.

Prerequisite: NRRT 231.

Registration Information: Junior standing. Credit not allowed for both NRRT 402 and NRRT 480A1.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 425 Communication for Tourism Credits: 3 (3-0-0)

Course Description: Exploration and practical application of communication theories, concepts, and techniques for successful communication in the context of tourism industry practice.

Prerequisite: NRRT 372.

Registration Information: Junior standing.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 431 Integrated Planning for Conservation Credits: 3 (3-0-0)

Course Description: Integrated planning practices within public and private lands that work at the interface of social and ecological dimensions of conservation.

Prerequisite: (NRRT 231) and (LAND 220 or LIFE 220).

Restriction: Must be a: Undergraduate.

Registration Information: Junior standing. Required field trips.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 439 Open Space and Natural Area Management Credits: 3 (3-0-0)

Course Description: Acquisition of, planning for, and management of local government and private open space and natural areas.

Prerequisite: NR 440 or NRRT 331.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 440 Applications in Environmental Communication Credits: 3 (3-0-0)

Course Description: Application of tools and techniques for communicating to audiences about issues related to conservation, environment and sustainability.

Prerequisite: NRRT 262.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 441 Spatial Analysis of Protected Areas Credits: 3 (2-2-0)

Course Description: Spatial analytical techniques used in planning and managing protected areas, including locating, managing, and assessing parks.

Prerequisite: NRRT 231.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 442 Tourism Planning Credits: 3 (3-0-0)

Course Description: Examines the relationship among tourists, tourist developments and the planning of tourist attractions and services.

Focuses on the planning of tourist resources and programs within a geographic region, as well as at a destination and site level. Planning tools and design concepts are reviewed and analyzed. A regional strategic planning process is applied to the development of a regional tourism plan in Colorado.

Prerequisite: NRRT 270.

Registration Information: Junior standing. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 460 Tourism Event and Conference Planning Credits: 3 (3-0-0)

Course Description: Foundation in planning, organizing, and producing tourism special events and conferences. Functions and strategies necessary for effective tourism event management.

Prerequisite: NRRT 270.

Registration Information: Junior standing. Sections may be offered: Online. Credit not allowed for both NRRT 460 and RRM 460.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 462 Environmental Communication-Natural Resources Credits: 3 (3-0-0)

Course Description: Exploration and application of theories, concepts, and techniques for successful environmental communication in natural resources.

Prerequisite: NRRT 262.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 463 Non-Profit Administration in Conservation Credits: 3 (3-0-0)

Course Description: Role of NGOs in protected-area management and conservation education; models for development, including grant writing, in conservation.

Prerequisite: NRRT 231 and NRRT 262.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 470 Tourism Impacts Credits: 3 (3-0-0)

Course Description: Examine the impacts of tourism from several distinct, but interrelated perspectives: social, political, economical, environmental, and technological. Limits to future tourism growth are discussed and possible strategies to mitigate impacts are detailed. Case studies are used to highlight issues discussed.

Prerequisite: NRRT 270.

Registration Information: Junior standing. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 471 Starting and Managing Tourism Enterprise Credits: 3 (3-0-0)

Course Description: Concepts surrounding the starting, planning, and managing of a tourism business with a small business creation and management approach. Focus is given to: (1) connections between commercial recreation/tourism and entrepreneurship, (2) starting and managing a business including selecting the form of business, raising funds, financial/marketing management, and (3) legal aspects including identifying and minimizing risks, supervision of workers and employment laws.

Prerequisite: NRRT 231 or NRRT 270.

Registration Information: Junior standing. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 473 Ski Area Management Credits: 3 (3-0-0)

Course Description: Ski area management; history and trends, ski area operations, human resource management, environmental issues, liability, resort planning and design.

Prerequisite: NRRT 270.

Registration Information: Senior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 475 Leadership for Conservation Action Credits: 3 (2-0-1)

Course Description: Develop knowledge and skills important for leading others to achieve positive outcomes in conservation. Fundamental leadership and systems-thinking principles are applied to analyze case studies in conservation, and determine courses of action that positively affect conservation. Through building self-awareness, exploring leadership strategies, and systems-thinking, skills are gained to make a difference in socio-ecological systems.

Prerequisite: NRRT 340.

Restriction: Must be a: Undergraduate.

Registration Information: Junior standing. Must register for lecture and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

NRRT 483 Off-Campus Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

NRRT 487 Internship Credits: Var[4-12] (0-0-0)

Course Description:

Prerequisite: NR 377.

Registration Information: Junior standing. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

NRRT 495A Independent Study: Administration Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

NRRT 495B Independent Study: Management Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

NRRT 495C Independent Study: Interpretation Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

NRRT 496 Group Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

NRRT 499 Senior Thesis Credits: Var[1-18] (0-0-0)

Course Description: Independent research project culminating in thesis presented to faculty mentor.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

NRRT 505 Environmental Education History and Theory Credits: 3 (3-0-0)

Course Description: History and theories, planning and instruction; outcomes, historical events; ecological literacy; experiential learning models.

Prerequisite: None.

Registration Information: Upper-division course in natural resources. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 506 Methods in Environmental Education Research Credits: 3 (3-0-0)

Course Description: Research methods and designs; literature reviews, needs assessments and program evaluation of environmental education in informal settings.

Prerequisite: None.

Registration Information: Upper-division course in natural resources. Offered as a correspondence course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 507 Environmental Education Planning Credits: 3 (3-0-0)

Course Description: Informal learning theory; evaluation models focused on education in informal settings such as nature centers, zoos, etc.

Prerequisite: None.

Registration Information: One upper-division course in natural resources, biological sciences, or ecology. Offered as a correspondence course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 508 Current Issues in Environmental Education Credits: 3 (3-0-0)

Course Description: Impact of current events, legislation, demographic changes, and other events on informal environmental education.

Prerequisite: None.

Registration Information: One upper-division course in natural resources, biological sciences, or ecology. Offered as a correspondence course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 517 Climate Change Communication and Engagement Credits: 2 (2-0-0)

Also Offered As: NR 517.

Course Description: Explore ways in which effective community engagement can shape responses to climate change. Gain the skills and knowledge required to work alongside communities to respond to climate change more effectively and equitably.

Prerequisite: None.

Restriction: Must be a Graduate.

Registration Information: Bachelor's degree required. Offered as an online course only. Credit not allowed for both NR 517 and NRRT 517.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 520 Perspectives on Ski Area Management Credits: 2 (2-0-0)

Course Description: Introduction to the history of skiing, the ski industry, and ski area management around the world.

Prerequisite: None.

Registration Information: Bachelor's degree required. This is a partial semester course. Offered as an online course only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 521 Sustainable Ski Area Management Credits: 2 (2-0-0)

Course Description: Examines sustainability issues that relate specifically to ski resort development and management.

Prerequisite: NRRT 520, may be taken concurrently.

Registration Information: This is a partial semester course. Sections may be offered: Online. Offered every Spring term and every other Fall term.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 522 Ski Area Operations and Human Resources Credits: 2 (2-0-0)

Course Description: Examines ski area operations and services.

Prerequisite: NRRT 520, may be taken concurrently.

Registration Information: This is a partial semester course. Sections may be offered: Online. Offered every Spring term and every other Fall term.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 523 Strategic Ski Area Marketing and Management Credits: 2 (2-0-0)

Course Description: Examines strategic management and marketing concepts within a ski area context.

Prerequisite: NRRT 520, may be taken concurrently.

Registration Information: This is a partial semester course. Sections may be offered: Online. Offered every Spring term and every other Fall term.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 524 Ski Area Finance and Investment Credits: 2 (2-0-0)

Course Description: Examines finance and investment considerations relevant to ski area operations and management.

Prerequisite: NRRT 520, may be taken concurrently.

Registration Information: This is a partial semester course. Sections may be offered: Online. Offered every Spring term and every other Fall term.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 525 Ski Area Planning and Development Credits: 2 (2-0-0)

Course Description: Examines the various planning and design considerations for ski area development and expansion.

Prerequisite: NRRT 520, may be taken concurrently.

Registration Information: This is a partial semester course. Sections may be offered: Online. Offered every Spring term and every other Fall term.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 530 Insight into the Adventure Tourism Industry Credits: 2 (2-0-0)

Course Description: Definitions of adventure tourism, and relevant leisure, outdoor education, and tourism theories and frameworks are discussed and critically examined. Key stakeholders are identified, along with current and future trends, opportunities, and challenges. The need for sustainable practices and cross-cultural understanding and communication within adventure tourism is also emphasized.

Prerequisite: None.

Registration Information: This is a partial semester course. Offered as an online course only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 531 Building an Adventure Tourism Enterprise Credits: 2 (2-0-0)

Course Description: Entrepreneurial skills and know-how to successfully build an adventure tourism enterprise. As most adventure tourism businesses are small-to-medium enterprises, there is a need for students to understand the fundamentals of how to develop an adventure tourism concept and turn it into a successful business.

Prerequisite: None.

Registration Information: This is a partial semester course. Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 532 Leading the Adventure Tourism Experience Credits: 2 (2-0-0)

Course Description: Skills and knowledge to successfully plan and lead an adventure tourism experience. Focus is given to leadership and facilitation strategies, guiding standards and best practices, and the importance of environmental and cultural education and interpretation for guests. This is in addition to quality programming and logistics, ensuring guest safety through risk mitigation, emergency planning and crisis management, public relations, and guest management.

Prerequisite: NRRT 530, may be taken concurrently.

Registration Information: This is a partial semester course. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 533 Adventure Tourism Policy and Planning Credits: 2 (2-0-0)

Course Description: Key stakeholders and policies that influence the adventure tourism industry. This involves a detailed examination of adventure tourism standards and regulations, in addition to broader government policies that influence the environment within which the adventure tourism industry is situated. As many adventure tourism ventures operate on public lands, the role of public land agencies and their relationships with adventure tourism operators are also closely examined.

Prerequisite: NRRT 530, may be taken concurrently.

Registration Information: This is a partial semester course. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 534 Applications in the Outdoor Products Industry Credits: 2 (2-0-0)

Course Description: Outdoor products industry and the various steps involved in developing an outdoor product and bringing it to market. Focus is placed on identifying and understanding the outdoor products consumer, product development processes, product aesthetics and functionality, the unique characteristics of branding, selling, and distributing outdoor products, current and future trends, and the diverse career opportunities that exist within the outdoor products industry.

Prerequisite: NRRT 530, may be taken concurrently.

Registration Information: This is a partial semester course. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 541 Overview & Trends of Agritourism Management Credits: 2 (2-0-0)

Course Description: Introductory agritourism sector concepts and emerging business opportunities. Identify and assess agritourism sector data describing industry supply and demand attributes and examine key distinguishing aspects of agritourism enterprise. Regulatory frameworks and policy, community and economic development dimensions, and relevant case studies specific to new agritourism oriented opportunities.

Prerequisite: None.

Registration Information: Graduate standing. This is a partial semester course. Offered as an online course only. Required field trips.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 542 Spatial & Community Dimensions of Agritourism Credits: 2 (2-0-0)

Course Description: Advanced analysis methodology and the use of data in enterprise valuation, market analysis and the assessment of the agritourism sector. Distinguishing aspects of agritourism supply and economic development dimensions that target tourism demand enhancement. Creative market assessment methods are employed to illustrate concepts and analysis, including spatial, economic impact and trip evaluation techniques.

Prerequisite: None.

Registration Information: Graduate standing. This is a partial semester course. Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 545 Culinary Tourism Credits: 2 (2-0-0)

Course Description: Aspects of tourism concepts and assessment of the culinary sector in relation to the supply and demand experience attributes. Explores frameworks related to the culinary community, policy, and training dimensions, and reviews case studies specific to new and ongoing culinary tourism oriented opportunities.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. This is a partial semester course. Sections may be offered as Mixed Face-to-Face or Online. Credit not allowed for both NRRT 545 and NRRT 580A2.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 548 Agritourism Enterprise Management Credits: 2 (2-0-0)

Course Description: Examines the role of agritourism in the agricultural economy and provides students with frameworks to identify and assess opportunities for agritourism development. Focusing on determinants of business success and the role and importance of comprehensive business planning. Students will develop and present a comprehensive business plan for a prototype agritourism business as a requirement of this course.

Prerequisite: None.

Registration Information: Graduate standing. This is a partial semester course. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 550 Ecotourism Credits: 3 (3-0-0)

Course Description: Concept of ecotourism, impacts associated with ecotourism, and role of education/interpretation in mitigating these impacts.

Prerequisite: NRRT 470.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 565 Research-Human Dimensions Natural Resources Credits: 3 (3-0-0)

Course Description: Theory, research, literature review, hypothesis development, scientific writing, proposal development.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 567 Tourism Entrepreneurship Credits: 2 (2-0-0)

Course Description: Explore the dynamics that influence tourism entrepreneurship, including how to think like an entrepreneur, the entrepreneurial ecosystem, and how to plan for adapting to issues; learn financial and organizational components of starting a tourism enterprise, and how to identify and acquire start-up funding; and apply entrepreneurial thinking, strategies, theories, and technical skills to address complex socio-environmental issues and conservation through experiential learning.

Prerequisite: None.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Admission to the Master of Tourism Management program. Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 600 Tourism Industry Concepts and Practices Credits: 2 (2-0-0)

Course Description: Fundamental tourism theories and concepts that lay the groundwork for understanding tourists and the tourism industry. Based on the interdisciplinary nature of tourism studies, covers the broad range of fundamental theories and interrelated concepts that guide decision-making in the tourism industry. Focuses on several key themes aimed to capture the primary areas of conceptual thinking and analysis in contemporary tourism.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course. Sections offered as Mixed Face-to-Face or Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 601 Tourism Research Methods and Application I Credits: 2 (2-0-0)

Course Description: Introduction to the role and importance of data in tourism. Examine data collection methods, presentation of data, and interpretation. Explore qualitative and quantitative research methods utilized within the tourism industry, techniques to summarize and interpret data, and best practices for communication.

Prerequisite: STAT 201 or STAT 301.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course. Sections may be offered as Mixed Face-to-Face or Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 602 Tourism Research Methods and Application II Credits: 2 (2-0-0)

Course Description: Quantitative analysis methods to specific tourism problems. Students explore visitor intercept techniques and identify other local, regional, national and international institutional data sources, including "Big Data" analytic engines. Using these sources, students estimate destination demand, supply and economic impact as well as perform competitive analysis in a variety of settings.

Prerequisite: NRRT 601, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course. Sections may be offered as Mixed Face-to-Face or Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 605 Human Dimensions of Natural Resources Theory Credits: 3 (3-0-0)

Course Description: Review social science concepts and research important to the management and conservation of natural resources. Examine current conservation issues, and how those issues can be addressed through an understanding of human thought and behavior.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online or Mixed Face-to-Face.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 608 Nature, Outdoor Recreation--Human Well-being Credits: 2 (2-0-0)

Course Description: Investigate the importance of spending time and travelling outdoors in nature for human well-being. Examine the scientifically proven physical, cognitive, emotional, and social benefits that result from time spent in nature, and how these are achieved through tourism. Immersion in nature is linked to positive conservation outcomes. Examine the role of nature and wellness in achieving tourism and conservation outcomes.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Master of Tourism Management program. This is a partial semester course. Sections may be offered as Mixed Face-to-Face or Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 609 Tourism and Conservation Credits: 2 (2-0-0)

Course Description: Provides the landscape view that situates how tourism, conservation, and natural resource management come together. Examine the history of public lands and protected areas around the world. Explore the evolution of the relationship between tourism and conservation, and the way in which different international agreements on biodiversity and climate change affect tourism and conservation.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Master of Tourism Management program. This is a partial semester course. Sections may be offered as Mixed Face-to-Face or Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 610 Tourism and Conservation Management Credits: 2 (2-0-0)

Course Description: Tourism and conservation management practices necessary for the delivery of quality tourism experiences while advancing a sound conservation ideology and goals. This includes an evaluation of conceptual tools commonly used in tourism and visitor management. The role and importance of tourism outfitters and guides is also highlighted, with attention given to concessions management, permitting, and other special use authorization on public lands and protected areas.

Prerequisite: NRRT 609, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course. Sections may be offered as Mixed Face-to-Face or Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 615 Sustainable Tourism Development Foundation Credits: 2 (2-0-0)

Course Description: Theory, practice, history, terminology and issues surrounding sustainable tourism development. Sustainable tourism planning and management are examined in the context of sustainable livelihoods. A comprehensive survey of sustainable tourism components – including indicators of sustainability, community participation, poverty alleviation, alternative tourism, governance and power, and socio-environmental responsibility – will be covered from a systems thinking perspective.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course. Sections offered as Mixed Face-to-Face or Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 620 Organizational Management in Tourism Credits: 2 (2-0-0)

Course Description: Application of management concepts to tourism organizations. Topics include managing ethics, diversity, and globalization; planning, decision-making, and competitive advantage; organizational structure and design; leading individuals and groups, and controlling communication and information technology. Discussions, exercises, and case studies will allow students to apply management principles to the tourism organizations.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course. Sections offered as Mixed Face-to-Face or Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 624 Tourism Accounting Fundamentals Credit: 1 (1-0-0)

Course Description: Introduction to tourism accounting. Topics include basics of financial accounting within a tourism context, introduction to basic finance, economic concepts, and the development, interpretation, and analysis of financial statements for tourism businesses.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Master of Tourism Management program. This is a partial semester course. Sections may be offered as Mixed Face-to-Face or Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 625 Communication/Conflict Management in Tourism Credits: 2 (2-0-0)

Course Description: Managerial communication skills and negotiation tools and their implications for effective organizational communication and management of potential conflicts faced by managers in the tourism industry.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course. Sections offered as Mixed Face-to-Face or Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 630 Protected Areas and Global Conservation Credits: 3 (3-0-0)

Course Description: Study international categories of protected areas, including those outlined by the World Conservation Union (IUCN). Targets and methods associated with biodiversity conservation help evaluate conservation progress. Explore the economic benefits of protected areas and apply fundamentals of conservation biology (e.g., population dynamics, species niches, and habitat requirements) to the design and management of protected areas.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Master of Park and Protected Area Management program. Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 631 Protected Area Planning and Management Credits: 3 (3-0-0)

Course Description: Successful protected area management is facilitated by forward-thinking systems design, efficient allocation of resources, and timely and appropriate responses to changes in conditions, all of which rely on effective planning. Develop the tools to apply planning frameworks in diverse contexts, gain competence at participatory planning methods, development of implementation schedules, adaptive management, and evaluation of management effectiveness.

Prerequisite: NRRT 630, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Master of Park and Protected Area Management program. Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 632 Public Use and Recreation in Protected Areas Credits: 3 (3-0-0)

Course Description: Develops the full range of skills and tools needed to reap the benefits of visitation while controlling its negative effects on natural resources, adjacent communities, or other visitors. Addresses issues of tourism planning at the national, regional, and unit levels, tourism value chains, management of private concessions, public use zoning, and techniques for onsite management of visitors.

Prerequisite: NRRT 631, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Master of Park and Protected Area Management program. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 633 Protected Areas and Resource Management Credits: 3 (3-0-0)

Course Description: Focus on evolving natural and cultural resource management challenges. Address competing use challenges through management of biodiversity, timber, and non-timber forest products, water, agriculture and grazing, and mineral resources, along with management of cultural sites and resources and restoration of degraded landscapes and seascapes. Learn methods for monitoring changes in biodiversity, buffer zone, and corridor management.

Prerequisite: NRRT 631, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Master of Park and Protected Area Management program. Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 634 Protected Area Policy and Finance Credits: 3 (3-0-0)

Course Description: The complex nature of many environmental challenges means protected area managers need to understand key actors, processes, and institutions involved in policy, governance and finance at multiple scales. Examine these connections and the many ways protected areas agencies generate revenue, access and use government budgets, and obtain additional resources from other sources to be able to fulfill their mandates.

Prerequisite: NRRT 631, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Master of Park and Protected Area Management program. Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 635 Infrastructure Management in Protected Areas Credits: 3 (3-0-0)

Course Description: Develop skills to plan, create, manage, and maintain infrastructure in protected areas. Acquire hands-on experience in the planning and implementation of on-the-ground projects, development strategies, site analysis, contractor and volunteer management, as well as monitoring and maintenance programs. Explore technologies that can help managers achieve goals (i.e. GIS, telemetry, camera traps, drones, SMART, etc.).

Prerequisite: NRRT 631, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Master of Park and Protected Area Management program. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 636 Social Context of Protected Areas Credits: 3 (3-0-0)

Course Description: Focus on concepts defining sociocultural dimensions inherent to protected area management including gender, culture, community, organization, stakeholders, and networks. Cases on biosphere reserves, sacred sites, indigenous territories, transboundary protected areas, extractive reserves, and urban protected areas. Analyses of social and political conflicts, human rights controversies, safeguards, and application of free, prior, and informed consent.

Prerequisite: NRRT 631, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Master of Park and Protected Area Management program. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 637 Leadership, Management, and Protected Areas Credits: 3 (3-0-0)

Course Description: Explore and contrast key leadership, management concepts, and approaches in the protected area context. Critical topics covered in case studies and coursework include team cohesion and leadership development, inclusivity and equity, the role of volunteers and managing volunteer programs, institutional hiring options, and the role of capacity development. Emerging leadership/management topics linked to protected area management are considered.

Prerequisite: NRRT 631, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Master of Park and Protected Area Management program. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 638 Protected Area Data and Decision-Making Credits: 3 (3-0-0)

Course Description: Presents social science methods for collecting and analyzing data to inform management decisions, especially when working with buffer zone communities and stakeholders. Understand the importance of information collected from the public, including traditional ecological knowledge. Learn data-driven management techniques and conduct ethical social science research in consideration of cultural differences and inherent biases.

Prerequisite: NRRT 631, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Master of Park and Protected Area Management program. Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 639 Threats and Frontiers in Protected Areas Credits: 3 (3-0-0)

Course Description: Examine emerging threats and new frontiers in protected area management. Issues such as climate change, invasive species, novel ecosystems, mega-development projects, and exclusivity are addressed alongside recent developments such as protection of night skies and natural sounds. Apply tools such as scenario and action planning to evaluate proposed mitigation strategies including compensation for ecosystem services, citizen science, and decarbonization.

Prerequisite: NRRT 631, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Master of Park and Protected Area Management program. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 640 Protected Area Communication Credits: 3 (3-0-0)

Course Description: Communicate effectively with diverse protected areas audiences through effective message planning and dissemination, audience analysis, development of specific communication strategies, communication outreach and engagement, and evaluation of communication efforts. Specific approaches such as thematic interpretation, environmental education, engaging the media, and social media are developed with detailed content, case studies, and student projects.

Prerequisite: NRRT 631, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Master of Park and Protected Area Management program. Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 650 Financial Management in Tourism Credits: 2 (2-0-0)

Course Description: Apply financial concepts to the management of tourism businesses. Financial accounting aspects of finance, including development and analysis of financial statements are covered. Management accounting aspects of finance include forecasting and budgeting; analysis of profit, and profitability; and working capital management. Application of capital budgeting techniques, time value of money, and business valuation are emphasized.

Prerequisite: NRRT 624.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course. Sections offered as Mixed Face-to-Face or Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 655 Marketing Tourism Products and Destinations Credits: 2 (2-0-0)

Course Description: Marketing theories, concepts, and applications within a travel and tourism organizational context. The travel and tourism industry has unique characteristics that create a variety of problems and opportunities specific to that industry and important for tourism marketing professionals.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course. Sections offered as Mixed Face-to-Face or Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 656 Tourism Digital and Social Media Marketing Credit: 1 (1-0-0)

Course Description: Provides best practices on how to communicate across digital and social media platforms for tourism businesses and destination. Learn about trend analysis and big data role in influencing campaign delivery. Examine platforms, capabilities, and articulate appropriate goals for social and digital tourism campaigns. Critically evaluate campaign objectives, identify relevant markets and develop tourism campaigns.

Prerequisite: NRRT 655.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course. Sections may be offered as Mixed Face-to Face or Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 660 Law and Legal Liability in Tourism Credits: 2 (2-0-0)

Course Description: Concepts of legal liability, business law, and risk management to travel, tourism, and hospitality organizations. Topics include contract law; agency law; business organization and formation; torts and legal liability; employment law and labor-management relations, and the protection of organization assets through risk management.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course. Sections offered as Mixed Face-to-Face or Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 662 Global Tourism Policy Credits: 2 (2-0-0)

Course Description: Major international policies, trends, and challenges facing tourism. Provides an understanding of policies, programs, and regulations and how international tourism is affected.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course. Sections may be offered as Mixed Face-to-Face or Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 665 Survey Research and Analysis Credits: 3 (2-2-0)

Course Description: Survey research, design, and analysis in human dimensions of natural resources.

Prerequisite: STAT 301.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 666 Qualitative Research in NRRT Credits: 3 (3-0-0)

Course Description: Qualitative approaches to tourism research and techniques from a range of disciplinary backgrounds; methodological aspects.

Prerequisite: NRRT 565.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 667 MTM Capstone Credits: 2 (2-0-0)

Course Description: Coalesce everything learned in the Master of Tourism Management program through an 8-week team project. Work with community partners to conduct an applied research or consultancy project, and then provide a final written and oral report to present to the stakeholders. Students are expected to conduct themselves professionally, develop their networking and leadership skills, and work cooperatively in teams.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Master of Tourism Management program. Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 671 Strategic Management for Travel and Tourism Credits: 2 (2-0-0)

Course Description: Factors, tools, and techniques for strategic management of a travel and tourism business or organization.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course. Sections may be offered as Mixed Face-to-Face or Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 677 Project Mgmt and Tourism Event Planning Credits: 2 (2-0-0)

Course Description: Applies project management knowledge and skills to the planning of tourism events. Event planning, logistics, and management best practices are discussed within the context of leisure, cultural, sporting, lifestyle and business meetings and events.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Master of Tourism Management program. This is a partial semester course. Sections may be offered as Mixed Face-to-Face or Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 678 Tourism Leadership Credits: 2 (2-0-0)

Course Description: Introduction to the fundamentals of leadership theory and different leadership styles. Apply this knowledge at an individual, organizational, and community level within a tourism context. The role of leadership in service excellence, crisis and change management, and sustainability is examined, with a focus on providing the necessary skills to develop resilient tourism industry leaders.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Master of Tourism Management program. This is a partial semester course. Sections may be offered as Mixed Face-to-Face or Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 679A Current Topics in Nature Based Tourism Credit: 1 (0-0-1)

Course Description: Current topics in nature-based travel and tourism.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Graduate standing. Students will enroll for this course during both the Fall and Spring semesters.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 679B Current Topics in Nature Based Tourism Credit: 1 (0-0-1)

Course Description: Current topics in nature-based travel and tourism.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Graduate standing. Students will enroll for this course during both the Fall and Spring semesters.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 695A Independent Study: Administration Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

NRRT 695B Independent Study: Management Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

NRRT 695C Independent Study: Interpretation Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

NRRT 695D Independent Study: Landscape Planning Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

NRRT 698 Research Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

NRRT 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

NRRT 765 Applied Multivariate Analysis Credits: 3 (2-2-0)

Course Description: Application and interpretation of multivariate statistics to human dimensions in natural resources, recreation, and tourism.

Prerequisite: NRRT 665.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

NRRT 784 Supervised College Teaching Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**NRRT 798 Research Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**NRRT 799 Dissertation Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Major in Human Dimensions of Natural Resources

The source of many challenges in natural resources involves human behavior, and solutions to those challenges requires innovative problem-solving, a deep understanding of complex issues, and collective action. This major is focused on understanding the social aspects of natural resources, and developing the skills to assess, plan and implement strategies that lead to successful conservation. Curriculum for this major trains students in the areas of communication, leadership, systems thinking, collaboration, conflict management, decision-making, social science research in conservation, and conservation planning and management.

Learning Outcomes

Students will:

- Comprehend the institutions, policies and actors that influence conservation outcomes and historical perspectives
- Understand the role of social science in achieving conservation outcomes
- Recognize and articulate the interdependencies and linkages within social-ecological systems, and how these linkages assist in

understanding the drivers, processes and outcomes of environmental issues

- Gain appreciation for the value and benefit in addressing environmental issues through inclusive processes that invite a diversity of perspectives, world views and ways of knowing
- Acquire skills to critically analyze social science research, and examine the role between human dimensions research and environmental decision-making
- Gain skills to effectively engage stakeholders in conservation action, and recognize their personal strengths and limits in influencing others to achieve positive conservation outcomes
- Acquire skills to effectively plan, design and deliver communication campaigns to achieve environmental outcomes
- Comprehend and critically analyze the policies, institutions and actors that influence environmental decision-making at different scales
- Gain the skills to effectively address conservation problems through application of theory, inquiry, planning and related techniques

Potential Occupations

Students are prepared for various positions with local, state and federal land management and natural resource agencies in the United States. Opportunities are also available both domestically and abroad with non-governmental, and nonprofit conservation and development organizations as well as private foundations. Examples of the types of positions include conservation planner/administrator, environmental communication specialist, conservation/environmental educator, nature center coordinator, visitor services manager, public outreach coordinator, public information officer, protected area manager, park/wilderness ranger, communication coordinator, policy liaison, environmental analyst, sustainability manager and others.

More Information

Major in Natural Resource Tourism

Graduates possess technical skills in problem solving, systems planning, integrative team decision making, quantitative analysis, oral and verbal communications, and computer operations. Graduates are familiar with skills useful in a business setting and the historic evolution of environmental conservation. Additionally, graduates develop an appreciation for how their discipline contributes to environmental stewardship and sustainability. Two concentrations are offered – Global Tourism and Natural Resource Tourism.

Learning Outcomes

Students will demonstrate:

- Written and oral communication skills, with a focus on writing skills. Student writing and speaking will embody characteristics that represent attention to high quality communication skills, including substance of the issue addressed, organization of the paper or presentation, mechanics, and evidence.
- Research and analytical skills. These skills will include the ability to generate a problem statement, associated research questions, data acquisition methodologies, synthesis of related information and the development of management implications and conclusions.

- Planning skills. These will involve an ability to implement the planning process, including setting goals and objectives, acquiring relevant background information, synthesizing information, conceptualizing ideas, constructing alternative courses of action, making recommendations and considering ways of evaluating decisions.

Accelerated Program

The major in Natural Resource Tourism includes an accelerated program option (<https://provost.colostate.edu/accelerated-programs/>) for students to graduate on a faster schedule. Accelerated Programs typically include 15-16 credits each fall and spring semester for three years, plus 6-9 credits over two to three summer sessions (<https://summer.colostate.edu/acceleratedprograms/>). Students who enter CSU with prior credit (AP, IB, transfer, etc.) may use applicable courses to further accelerate their graduation. Visit the Office of the Provost website for additional information about Accelerated Programs (<https://provost.colostate.edu/accelerated-programs/>).

Potential Occupations

Graduates primarily work in a variety of private commercial tourism and recreation enterprises. Competition can be intense for full time/permanent positions in highly attractive natural resource locations, although ample opportunities exist to gain experience through seasonal/temporary and volunteer work. Participation in a high quality, pre-approved internship is required for the degree. Graduates who go on for advanced studies can attain more responsible positions with the possibility of rising to top professional levels.

Career opportunities available to graduates in the global and natural resource tourism concentrations include, but are not limited to: retail relations manager; social media planner; convention sales coordinator; marketing/public relations specialist; trip counselor; travel account manager; food and beverage supervisor; small tourism enterprise/ecotourism owner/manager; regional sales director; account executive; director of trail development; tourism planner; travel pricing and demand analyst; concession specialist; marketing/sales manager; conference/meeting/event planner; resort services director; member relations

director; purchasing manager; camp and nature center director; tourist information center manager; sustainable energy director.

Concentrations

- Global Tourism Concentration
- Natural Resource Tourism Concentration

More Information

To learn more about the Global Tourism or Natural Resource Tourism concentrations, or to declare one of these concentrations, please click here (<https://warnercnr.colostate.edu/hdnr/undergraduate-study/undergraduate-program-advising/>) to schedule an individualized face-to-face or virtual meeting with an advisor.

Major in Natural Resource Tourism, Global Tourism Concentration

The Global Tourism concentration is focused on a unique blend of subjects. Business and tourism topics provide students with planning, management, marketing, financial, and entrepreneurship skills essential in the tourism industry. Because sustainable tourism requires a healthy natural environment, the environment is another area of study. Finally, students are provided cross-cultural experience by learning a second language, studying at a university abroad, and participating in an international internship.

More Information

To learn more about the Global Tourism concentration, or to declare this concentration, please click here (<https://warnercnr.colostate.edu/hdnr/undergraduate-study/undergraduate-program-advising/>) to schedule an individualized face-to-face or virtual meeting with an advisor.

Major in Natural Resource Tourism, Natural Resource Tourism Concentration

The Natural Resource Tourism curriculum emphasizes courses in tourism management, marketing and planning, natural resources, business, entrepreneurship, and social science to develop appropriate skills for work in recreation and tourism enterprises. The department works closely with several natural resource-focused Colorado resorts and private tourism enterprises.

More Information

Graduate Certificate in Adventure Tourism

The Graduate Certificate in Adventure Tourism is a 6 course, 12-credit offering that provides theoretical, managerial, and entrepreneurial knowledge and skills required for successfully developing and managing land-, water-, and air-based adventure tourism enterprises.

Effective Fall 2017

Additional coursework may be required due to prerequisites.

Code	Title	Credits
NRRT 530	Insight into the Adventure Tourism Industry	2
NRRT 531	Building an Adventure Tourism Enterprise	2
NRRT 532	Leading the Adventure Tourism Experience	2
NRRT 533	Adventure Tourism Policy and Planning	2
NRRT 534	Applications in the Outdoor Products Industry	2
NRRT 655	Marketing Tourism Products and Destinations	2
Program Total Credits:		12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Agritourism Management

The Graduate Certificate in Agritourism Management is a 6 course, 12 credit offering that provides students with practical, managerial, and theoretical skills needed for the successful creation and management of an agritourism operation.

Effective Fall 2019

Additional coursework may be required due to prerequisites.

Code	Title	Credits
NRRT 541	Overview & Trends of Agritourism Management	2
NRRT 542	Spatial & Community Dimensions of Agritourism	2
NRRT 545	Culinary Tourism	2
NRRT 548	Agritourism Enterprise Management	2
NRRT 650	Financial Management in Tourism	2
RRM 520	Lodging Management	2
Program Total Credits:		12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Communications for Conservation

The Graduate Certificate in Communications for Conservation is a 6-course, 12-credit offering covering concepts and strategies, research and case studies, and tools and skills for successful conservation communications. Focus is given to various methods of community and stakeholder outreach, and public and media relations as they relate to conservation and conservation planning.

Effective Spring 2019

Additional coursework may be required due to prerequisites.

Code	Title	Credits
NR 569	Conservation Communication Fundamentals	2

NR 570	Conservation Managers – Media Communications	2
NR 571	New Media Communications for Conservation	2
NR 572	Strategic Communications for Conservation	2
NR 573	Conservation Crisis Communications	2
NR 574	Advanced Communications for Conservation	2

Program Total Credits: 12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Ski Area Management

The graduate certificate in ski area management is a 6 course, 12 credit offering that provides students with the management, finance, and operational knowledge required for successful ski area management and operations. Principles relating to sustainability, strategic management, marketing, human resource management, finance and investment, and planning and development are examined and applied within a ski area context.

Effective Fall 2015

Additional coursework may be required due to prerequisites.

Code	Title	Credits
NRRT 520	Perspectives on Ski Area Management	2
NRRT 521	Sustainable Ski Area Management	2
NRRT 522	Ski Area Operations and Human Resources	2
NRRT 523	Strategic Ski Area Marketing and Management	2
NRRT 524	Ski Area Finance and Investment	2
NRRT 525	Ski Area Planning and Development	2

Program Total Credits: 12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Master of Conservation Leadership, Plan C

The Master of Conservation Leadership, Plan C, is a graduate degree which prepares leaders to address complex conservation issues at local, regional, and global scales. The program is built around principles of experiential learning, inter-disciplinary instruction, and applied approaches. Our students work closely with a network of practitioners and organizations throughout the program. Conservation leadership is the option for individuals seeking to make a difference in the lives and ecosystems of our planet.

Master of Park and Protected Area Management, Plan C (M.P.P.M.)

The Master of Park and Protected Area Management (M.P.P.M.) program is offered through CSU Online by the Department of Human Dimensions of Natural Resources (HDNR) in partnership with Central China Normal University (CCNU). It is designed to develop an understanding of theory, research, and practice related to protected areas, and is aimed at preparing students for leadership roles as highly knowledgeable practitioners within the field. Through the integration of social and ecological science, students will gain a holistic understanding of protected area values, services, and governance, as well as the expertise to operationalize those values through effective planning and management of public use, concessions, finance strategies, community collaboration, and human capacity development.

Requirements Effective Spring 2022

Program Total Credits:		33

A minimum of 33 credits are required to complete this program.

Master of Tourism Management, Plan C (M.T.M)

The Master of Tourism Management program is a professional master's degree that teaches the skills needed by future leaders of the rapidly expanding global tourism industry. It takes a holistic approach to learning that blends sustainable tourism practices, strategic analysis, and tourism industry expertise based on input from its advisory board.

The M.T.M. program is available on-campus (<https://warnercnr.colostate.edu/hdnr/master-tourism-management/>) or through CSU Online (<https://www.online.colostate.edu/degrees/tourism-management/>). It requires the completion of 30 credits. There are 18 required credits, and up to 12 credits of the elective courses may be used to earn a graduate certificate in Adventure Tourism (<https://www.online.colostate.edu/certificates/adventure-tourism/>), Ski Area Management (<https://www.online.colostate.edu/certificates/ski-area-management/>), or C (<https://www.online.colostate.edu/certificates/agritourism-management/>)ommunications for Conservation (<https://www.online.colostate.edu/certificates/communications-for-conservation/>). Students are required to work with their Program Coordinator to determine their approved course plan.

Learning Objectives

Upon successful completion of this program, students will be able to:

1. Discuss the importance of nature-based tourism in today's society and its ability to contribute to socio-cultural, economic, and environmental well-being.
2. Critically assess key trends within, and affecting, the tourism industry, and how to capitalize on current and future opportunities.
3. Utilize nature-based tourism as a tool for community and destination development through the conservation of natural resources.
4. Identify and implement relevant, sustainable business strategies and tools for strategic nature-based tourism development.
5. Implement business fundamentals to successfully operate a nature-based tourism operation.
6. Critically evaluate management and conservation challenges associated with tourism development in public and private spaces.
7. Communicate professionally with a wide range of industry, community, government, and third-sector stakeholders.

Requirements Effective Fall 2023

Code	Title	Credits
Required Courses: ¹		
NRRT 567	Tourism Entrepreneurship	2
NRRT 600	Tourism Industry Concepts and Practices	2
NRRT 609	Tourism and Conservation	2
NRRT 610	Tourism and Conservation Management	2
NRRT 615	Sustainable Tourism Development Foundation	2
NRRT 620	Organizational Management in Tourism	2
NRRT 667	MTM Capstone	2
NRRT 671	Strategic Management for Travel and Tourism	2
NRRT 679A	Current Topics in Nature Based Tourism	1
NRRT 679B	Current Topics in Nature Based Tourism	1
Electives (select a minimum of 12 credits from the following): ²		12
NR 569	Conservation Communication Fundamentals	
NR 570	Conservation Managers – Media Communications	
NR 571	New Media Communications for Conservation	
NR 572	Strategic Communications for Conservation	
NR 573	Conservation Crisis Communications	
NR 574	Advanced Communications for Conservation	
NRRT 520	Perspectives on Ski Area Management	
NRRT 521	Sustainable Ski Area Management	
NRRT 522	Ski Area Operations and Human Resources	
NRRT 523	Strategic Ski Area Marketing and Management	
NRRT 524	Ski Area Finance and Investment	
NRRT 525	Ski Area Planning and Development	
NRRT 530	Insight into the Adventure Tourism Industry	
NRRT 531	Building an Adventure Tourism Enterprise	
NRRT 532	Leading the Adventure Tourism Experience	
NRRT 533	Adventure Tourism Policy and Planning	
NRRT 534	Applications in the Outdoor Products Industry	
NRRT 601	Tourism Research Methods and Application I	
NRRT 602	Tourism Research Methods and Application II	
NRRT 625	Communication/Conflict Management in Tourism	
NRRT 650	Financial Management in Tourism	
NRRT 655	Marketing Tourism Products and Destinations	
NRRT 660	Law and Legal Liability in Tourism	
NRRT 662	Global Tourism Policy	
NRRT 677	Project Mgmt and Tourism Event Planning	

NRRT 678	Tourism Leadership
Program Total Credits:	
30	

A minimum of 30 credits are required to complete this program.

- ¹ Memorandum of Understanding (MOU) with international universities may identify culturally specific course substitutions and total credits.
- ² For those international students enrolled in this program, the number of directed electives credits (approved by the advisor) is to be consistent with the MOU with the cooperating international university.

College of Natural Sciences

Office in Statistics Building, Room 117
(970) 491-1300
[natsci.colostate.edu](http://www.natsci.colostate.edu) (<http://www.natsci.colostate.edu>)

Professor Simon Tavener, Interim Dean
Professor Santiago Di Pietro, Associate Dean for Research
Dr. Lisa Dysleski, Associate Dean of Undergraduate Programs
Dr. Darrell Whitley, Interim Associate Dean

Undergraduate Majors

- Biochemistry
- Biological Science
- Chemistry
- Computer Science
- Data Science
- Mathematics
- Natural Sciences
- Physics
- Psychology
- Statistics
- Zoology

Undergraduate Minors

- Applied Data Science
- Biochemistry
- Bioinformatics
- Botany
- Chemistry
- Computer Science
- Data Science
- Machine Learning
- Mathematics
- Mathematical Biology
- Physics
- Statistics
- Zoology

For a complete list of departmental program offerings (including certificates), see individual department catalog pages.

College-Wide Graduate Programs: Master's Programs

- Master of Natural Sciences Education, Plan C
- Professional Science Master's in Natural Sciences, Biological Data Analytics Specialization
- Professional Science Master's in Natural Sciences, Microscope Imaging Technology Specialization
- Professional Science Master's in Natural Sciences, Zoo, Aquarium, and Animal Shelter Management Specialization

Interdisciplinary Graduate Programs

- Master of Science in Materials Science and Engineering, Plan A and Plan B
- Ph.D. in Materials Science and Engineering

College Programs

Our goal is to provide an extraordinary education to students in order to prepare them for science careers in industry, modern research, and academia. In addition, the College of Natural Sciences provides foundational courses in the biological, mathematical, behavioral, and physical sciences for CSU's seven other colleges, supporting CSU's broad liberal arts and general education objectives.

Undergraduate Majors

The college's eight departments offer twelve undergraduate majors, all leading to a Bachelor of Science degree which requires a minimum of 120 credits including 42 or more credits in upper-division courses. The undergraduate major in Neuroscience is offered jointly with the College of Veterinary Medicine and Biomedical Sciences.

A major should be chosen based with both educational and career objectives in mind. Students earning degrees in College of Natural Sciences majors will be well prepared to succeed in careers in biochemistry, biology, chemistry, computer science, mathematics, physics, and statistics, including middle/high school science and math instruction. Students who plan to enter a human- or animal-health profession must formally declare an academic major. There is no specific premedical, pre-veterinary, etc. major at CSU because health profession programs do not require a specific major, only specific courses. Majors such as Biological Sciences, Biochemistry, Chemistry, Psychology and Zoology are popular for students interested in a career in the health professions.

All College of Natural Sciences students have the ability to work with an academic advisor to plan the coursework necessary to graduate from CSU. The College of Natural Sciences also provides students with the opportunity to seek specialized career counseling from a career education manager in the CSU Career Center. Our services are offered to all Natural Sciences students and alumni in all aspects of their career development. Additionally, pre-health professions advisors are available at the Collaborative for Student Achievement (<http://studentachievement.colostate.edu/>), located in Canvas Stadium, East Building, 1415 Meridian Ave.

The college provides multiple opportunities for students to become engaged outside the classroom, including science-based student organizations, the Amplify Community (a residential learning community), and undergraduate research opportunities.

Education Abroad

Education abroad programs are available to all students in the College of Natural Sciences. Because the knowledge of another culture is valuable in understanding one's own and because culture influences the process of science, students are encouraged to participate in an educational experience outside of the United States as part of their overall program at CSU. Students interested in education abroad should plan, well in advance, by discussing opportunities with their academic advisor and by visiting the Education Abroad Office (<https://international.colostate.edu/educationabroad/>) through the Office of International Programs. The Education Abroad office offers information about credit and non-credit opportunities (service-learning/volunteer, research, internships), as well as support prior to and during travel, information about scholarships and financial aid, and specific resources for adult learners & veterans, students with disabilities, and students from diverse economic, educational, ethnic and social backgrounds.

Graduate Programs

Faculty and graduate students in the College of Natural Sciences are engaged in cutting-edge research in multiple disciplines and the college is proud of the graduate student education it provides. Master of Science and Doctor of Philosophy degrees are offered by all departments and a Master of Natural Sciences Education is offered through the college. The college also offers Professional Science Master's in Natural Sciences degrees with specializations in Biological Data Analytics, Microscope Imaging Technology, and Zoo, Aquarium and Animal Shelter Management. For detailed information about graduate degree programs, please consult the appropriate department and see the Graduate and Professional Bulletin.

Major in Data Science

Data Science is the discovery of knowledge and insight through the analysis of data. As such, it draws on the study of algorithms and their implementation from computer science, the power of abstraction and of geometric and topological formalism from mathematics, and the modeling and analysis of data from statistics. It has emerged as a separate field in response to the avalanche of data from web enabled sensors and instrumentation, mobile devices, web logs and transactions, and the availability of computing power for data storage and analysis. Modern data is challenging not only due to its large scale, but also because it is increasingly heterogeneous and unstructured. Information gleaned from this data none-the-less is revolutionizing diverse areas of human endeavor from health policy to high energy physics.

Major in Data Science, Neuroscience Concentration

Data Science is the discovery of knowledge and insight through the analysis of data. As such, it draws on the study of algorithms and their implementation from Computer Science, the power of abstraction and of geometric and topological formalism from Mathematics, and the modeling and analysis of data from Statistics. It has emerged as a separate field in response to the avalanche of data from web enabled

sensors and instrumentation, mobile devices, web logs and transactions, and the availability of computing power for data storage and analysis. Modern data is challenging not only due to its large scale, but also because it is increasingly heterogeneous and unstructured. Information gleaned from this data none-the-less is revolutionizing diverse areas of human endeavor from health policy to high energy physics.

¹ The calculus requirement for the major may alternatively be satisfied by completion of MATH 160, MATH 161, and MATH 261.

Major Completion Map**Distinctive Requirements for Degree Program:**

TO PREPARE FOR FIRST SEMESTER: The curriculum for the Major in Data Science assumes students enter college prepared to begin a year-long calculus sequence (either MATH 155/MATH 255 or MATH 160/MATH 161) in the first semester of their first year. LIFE 102 requires high school chemistry as a prerequisite; CHEM 111 requires Algebra II as a prerequisite (this prerequisite is met by having Algebra II by test credit, transfer credit, or placement out of MATH 117 and MATH 118 on Math Placement Exam).

Minor in Applied Data Science

Students with a minor in Applied Data Science will receive essential training in computer science, mathematics and statistics in order to apply methods of modern data science within their major field of study.

Requirements Effective Fall 2020

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

STAT 440	Bayesian Data Analysis	3
STAT 460	Applied Multivariate Analysis	3

¹ Courses used to satisfy degree (program) requirements outside this minor cannot count toward completing minor *electives*. (I.e. If using a course to complete a major, the student must take a different course for the minor elective.)

For example: A CS student using STAT 342 as a technical elective as part of their CS degree, cannot count this course as a minor elective in the DSCI minor.

Minor in Data Science

Students with a minor in Data Science will receive foundational training in modern data science to complement and enhance their major field of study.

Requirements

Effective Fall 2023

Additional coursework may be required due to prerequisites.

Major in Natural Sciences

The Bachelor of Science in Natural Sciences meets the needs of two audiences:

- Students who wish to become high school or junior high/middle school science teachers.
- Students who seek a broad exposure to mathematics and the physical sciences, rather than specialization in one discipline.

Learning Outcomes

Students will demonstrate:

- Skills to critically interpret scientific data.
- Logical and critical thinking.
- The ability to analyze and solve complex problems.
- Strong written and oral communication skills.

Potential Occupations

Graduates with *licensure in secondary science education* will find a strong demand for high school and junior high/middle school teachers in

Colorado and elsewhere in the nation. In addition, these graduates will also have the background required for graduate science education programs.

With proper planning, *physical science* graduates can meet requirements for professional schools (e.g., medicine or law) or graduate programs in the basic or applied sciences. Internships and volunteer activities can provide practical training and experience.

Secondary Education

The Bachelor of Science in Natural Sciences provides the scientific subject matter, education classes, and the classroom experience required for secondary science education licensure in Colorado.

Concentrations in the Natural Sciences major include: Biology Education, Chemistry Education, Geology Education, and Physics Education.

The program includes science courses in a concentration such as Biology, Geology, Physics, Chemistry; the All-University Core Curriculum and professional classes in the Center for Educator Preparation (CEP) (<http://cep.chhs.colostate.edu>) program in the School of Education. In addition, the CEP program helps schedule classroom visits and practica. The experience culminates in a semester of student teaching under the supervision of a master teacher.

Concentrations

- Biology Education Concentration
- Chemistry Education Concentration
- Geology Education Concentration
- Physical Science Concentration

Major in Natural Sciences, Physical Science Concentration

The Physical Science concentration begins with two semesters each of calculus, chemistry, and physics, plus a semester of biological science. Students then complete the major by earning two minors selected from Biochemistry, Chemistry, Computer Science, Geology, Mathematics, Statistics, or Physics. Completion of the double minor gives an unusual

breadth in the physical sciences. Recent graduates have pursued careers in the sciences. Others use this background as a basis for graduate work and research or for entry into medical or veterinary professional programs.

¹ Declare and complete two minors from the following list: Biochemistry, Chemistry, Computer Science, Geology, Mathematics, Physics, Statistics, Applied Statistics.

² Complete a 3 credit course satisfying AUCC category 4B that is offered within a major that is the same as one of the minors that will be completed.

³ Complete a 3 credit course satisfying AUCC category 4C that is offered within a major that is the same as one of the minors that will be completed.

⁴ Complete a 3 credit course satisfying AUCC category 4A that is offered within a major that is the same as one of the minors that will be completed.

⁵ Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- and 400-level).

¹ Select course(s) in consultation with advisor.

All Physics Education majors must maintain a 2.75 GPA and receive a C or better in all content and education courses for licensure. All course work must be completed prior to Student Teaching (AUCC 4A/4B/4C requirement). Admission into the teacher licensure program is required for phase II education courses and above.

Master of Natural Sciences Education, Plan C (M.N.S.E.)

The Master of Natural Sciences Education, Plan C (M.N.S.E.) is an online degree program designed for:

- Current science teachers with a desire to learn new pedagogical techniques that contribute to student learning and engagement;
- Current science teachers who want the flexibility to teach other natural science disciplines by enhancing their knowledge in biology, chemistry, physics, Earth science, and environmental science;
- Current non-science teachers with a natural science undergraduate degree who would like to pursue science teaching positions;
- Current non-science teachers with a related undergraduate degree (computer science, agriculture, engineering) and a strong science background who would like to pursue science teaching positions; and,
- Individuals with strong science backgrounds and past or current experience in educational settings who would like to earn a master's degree in science education and separately pursue a teaching certification.

¹ The independent study requires enrollment in the summer session after completing the program's course requirements. It involves weekly meetings of the student with her/his research advisor, but does not require full-time residency on campus.

² The research experience requires full time enrollment in the summer session after completing the program's course requirements. Instructors are graduate student advisors who hold regular faculty appointments in the Departments of Biology, Chemistry, or Physics.

Professional Science Master's in Natural Sciences, Biological Data Analytics Specialization

The Professional Science Master's (PSM) program with a specialization in Biological Data Analytics is a graduate degree program that was designed in coordination with leaders in the biotechnology industries in order to ensure that students will have the scientific, business, and communication skills required to be competitive for jobs in these industries. Students will develop skills that will allow them to analyze data from genomic, transcriptomic, proteomic, and metabolomic studies to find statistically relevant information, while interfacing with biologists in data interpretation and experimental design.

The PSM in Natural Sciences, Biological Data Analytics Specialization is an affiliated Professional Science Master's (PSM) degree. Affiliation is administered by the Commission on Affiliation of PSM Programs

(<https://www.professionalsciencemasters.org/>) (formerly named PSM National Office) to ensure a strong and distinctive PSM brand. The PSM is designed for students who are seeking a graduate degree in science or mathematics and understand the need for developing workplace skills valued by top employers.

Requirements Effective Fall 2021

Because this program is intended to serve students with a wide range of backgrounds, each student must work with an advisor to determine an appropriate selection of courses.

First Year		Credits
BUS 500	Foundations for Business Impact	2
DSCI 510	Linux as a Computational Platform	1
DSCI 511	Genomics Data Analysis in Python	2
NSCI 693C	Graduate Seminar: Biological Data Analytics	1
Select one course from the following:		1-3
BC 601	Responsible Conduct in Biochemistry	
BUS 505	Legal and Ethical Environment of Business	
CM 666/PHIL 666	Science and Ethics	
GRAD 544	Ethical Conduct of Research	
NSCI 575/GRAD 575	Ethical Issues in Big Data Research	
Select one course from the following:		3-4
ERHS 535	R Programming for Research	
STAR 511	Design and Data Analysis for Researchers I	
Select a minimum of 3 credits from the following:		3-4
BC 563 ¹	Molecular Genetics	
CM 505	Nucleic Acids for Non-Life Scientists	
CM 506	Protein Basics for NonBiologists	
MIP 543	RNA Biology	
Total Credits		13-17
Second Year		
DSCI 512	RNA-Sequencing Data Analysis	1
MGT 340	Fundamentals of Entrepreneurship	3

NSCI 693C	Graduate Seminar: Biological Data Analytics	1
NSCI 696F	Group Study: Biological Data Analytics Project Proposal	6
Select one course from the following:		3-4
BC 563 ¹	Molecular Genetics	
MIP 543	RNA Biology	
Select one course from the following:		3-4
ERHS 544/STAT 544	Biostatistical Methods for Quantitative Data	
STAR 512	Design and Data Analysis for Researchers II	
Electives (select from the list below with approval of advisor) ²		4-10
Total Credits		21-29
Program Total Credits:		40

A minimum of 40 credits are required to complete this program.

Electives

Code	Title	Credits
Math/Computational Electives:		
BC 571	Quantitative Biochemistry	
CS 548/STAT 548		
DSCI 475	Topological Data Analysis	
MATH 532	Mathematical Modeling of Large Data Sets	
Statistics Electives:		
ERHS 534	SAS and Epidemiologic Data Management	
HORT 579	Mass Spectrometry Omics-Methods and Analysis	
STAR 511	Design and Data Analysis for Researchers I	
Science Electives:		
BC 512	Principles of Macromolecular Structure	
BC 565	Molecular Regulation of Cell Function	
BC 663	Gene Expression	
MIP 543	RNA Biology	
MIP 565/BZ 565	Next Generation Sequencing Platform/Libraries	
MIP 570	Functional Genomics	
MIP 576/BSPM 576	Bioinformatics	
Business Electives:		
MGT 430	Leadership and Social Responsibility	
MGT 450		
Communications Electives:		
GRAD 550	STEM Communication	

¹ BC 563 is generally required in either the first or second year, but may be waived if the student has sufficient prior coursework.

² Select enough elective credits to bring the program total to a minimum of 40 credits. Students are required to take elective courses from at

least 2 of the 5 categories. Electives may be taken in the first or second year with the approval of advisor.

Professional Science Master's in Natural Sciences, Microscope Imaging Technology Specialization

The Professional Science Master's (PSM) in Natural Sciences, Microscope Imaging Technology Specialization program prepares graduate students for employment as microscopists or managers of light microscope cores in academic, government or private sector businesses, or in research laboratories. Students gain the scientific, business, and communication skills required to be competitive for management jobs in these positions. Students learn how to analyze images, automate data collection and analysis, deal with large data sets, and interface between bioscientists and engineers for experimental design, selecting the optimal imaging system, and in data acquisition and interpretation. Students also obtain skills for business management and operation.

The PSM in Natural Sciences, Microscope Imaging Technology Specialization is an affiliated Professional Science Master's (PSM) degree. Affiliation is administered by the Commission on Affiliation of PSM Programs (<https://www.professionalsciencemasters.org/>) (formerly named PSM National Office) to ensure a strong and distinctive PSM brand. The PSM is designed for students who are seeking a graduate degree in science or mathematics and understand the need for developing workplace skills valued by top employers.

Requirements Effective Fall 2019

Students may need to take additional coursework in Biochemistry, Biology, Chemistry, Computer Science, Mathematics, Physics, or Statistics.

Code	Title	Credits
BC 565	Molecular Regulation of Cell Function	4
BC 665A	Advanced Topics in Cell Regulation: Microscopic Methods	2

MGT 340	Fundamentals of Entrepreneurship	3

NSCI 677	Microscopic Image Collection & Processing	2
NSCI 687D	Internship: Microscopy (4 x 10 weeks; var. Cr)	8
NSCI 693D	Graduate Seminar: Microscopy	1
NSCI 696D	Group Study: Microscopy Proposal	6
Select one of the following Business/Marketing electives:		2-3
BUS 500	Foundations for Business Impact	
BUS 501	Business Communication—Multicultural Audience	
MGT 430	Leadership and Social Responsibility	
MGT 440	New Venture Management	
Select one:		2
BC 404	Comprehensive Biochemistry Laboratory	
CM 502/NB 502	Techniques in Molecular & Cellular Biology	

Program Total Credits: 35-36

A minimum of 35 credits are required to complete this program.

Professional Science Master's in Natural Sciences – Zoo, Aquarium, and Animal Shelter Management Specialization

The Professional Science Master's (PSM) in Natural Sciences – Zoo, Aquarium, and Animal Shelter Management Specialization is a unique opportunity to blend business skills and applied science with a specific focus on helping animal organizations. Our two-year Professional Science Master's degree program focuses on experiential learning and development of skills in addition to academic learning.

The PSM in Natural Sciences, Zoo, Aquarium, and Animal Shelter Management Specialization is an affiliated Professional Science Master's (PSM) degree. Affiliation is administered by the Commission on Affiliation of PSM Programs (<https://www.professionalsciencemasters.org/>) (formerly named PSM National Office) to ensure a strong and distinctive PSM brand. The PSM is designed for students who are seeking a graduate degree in science or mathematics and understand the need for developing workplace skills valued by top employers.

Department of Biochemistry and Molecular Biology

Office in Molecular and Radiological Biosciences Building, Room 111
(970) 491-5602
bmb.colostate.edu (<http://www.bmb.colostate.edu>)

Professor Laurie A. Stargell, Chair

Undergraduate Majors

- Major in Biochemistry
 - ASBMB Concentration
 - Data Science Concentration
 - Health and Medical Sciences Concentration
 - Pre-Pharmacy Concentration

Minor

- Minor in Biochemistry

Change Of Major Process

- To schedule an appointment with an advisor, please visit Biochemistry and Molecular Biology Advising (<https://www.bmb.colostate.edu/undergraduate-students/advising/>).

Graduate

Graduate Programs in Biochemistry

The department offers graduate programs leading to Master of Science and Doctor of Philosophy degrees. Students interested in graduate work should refer to the Graduate and Professional Bulletin, and the department's website (<https://www.bmb.colostate.edu/>).

Master's Programs

- Master of Science in Biochemistry, Plan A*
- Master of Science in Biochemistry, Plan B*
- Professional Science Master's in Natural Sciences, Biological Data Analytics Specialization
- Professional Science Master's in Natural Sciences, Microscope Imaging Technology Specialization

Ph.D.

- Ph.D. in Biochemistry*

*Please see department (<https://www.bmb.colostate.edu/>) for program of study.

Courses

Biochemistry and Molecular Biology (BC)

BC 192 Biochemistry Freshman Seminar Credits: 2 (1-0-1)

Course Description: Introduction to curriculum and career options for biochemistry majors.

Prerequisite: None.

Registration Information: Must register for lecture and recitation.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BC 295 Introductory Independent Study Credits: Var[1-3] (0-0-0)

Course Description: Apply principles and knowledge being learned in first and second year life sciences and chemistry courses.

Prerequisite: LIFE 102 or CHEM 112, may be taken concurrently.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BC 351 Principles of Biochemistry Credits: 4 (4-0-0)

Course Description: Structure and function of biological molecules; biocatalysis; metabolism and energy transduction.

Prerequisite: (BZ 110 or BZ 120 or LIFE 102) and (CHEM 241 or CHEM 245 or CHEM 341 or CHEM 345).

Registration Information: For majors in biological sciences, engineering, and preprofessional students in the health sciences. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BC 353 Pre-Health Genetics Credits: 4 (4-0-0)

Course Description: Applies and extends the biochemical concepts learned in BC 351 to macromolecules and molecular processes based on nucleic acids.

Prerequisite: BC 351.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BC 360 Responsible Conduct in Biochemical Research Credit: 1 (1-0-0)

Course Description: Research ethics and the responsible conduct of research.

Prerequisite: LIFE 212.

Registration Information: Sophomore standing. Biochemistry majors only. This is a partial semester course.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BC 401 Comprehensive Biochemistry I Credits: 3 (3-0-0)

Course Description: Macromolecular structure and dynamics; membranes; enzymes; bioenergetics.

Prerequisite: (CHEM 245 or CHEM 343, may be taken concurrently or CHEM 346, may be taken concurrently) and (MATH 155 or MATH 160).

Registration Information: Sophomore standing. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BC 403 Comprehensive Biochemistry II Credits: 3 (3-0-0)

Course Description: Metabolic pathways and their regulation; cellular biochemistry.

Prerequisite: (BC 351 or BC 401) and (CHEM 245 or CHEM 341 or CHEM 345).

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BC 404 Comprehensive Biochemistry Laboratory Credits: 2 (0-6-0)

Course Description: Experimental approaches to studying macromolecules, metabolism, and gene expressions.

Prerequisite: (BC 401, may be taken concurrently) and (CHEM 246 or CHEM 344 or CHEM 346) and (LIFE 212 and LIFE 203).

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

BC 405 Comprehensive Biochemistry II--Honors Recitation Credit: 1 (0-0-1)

Course Description: Read and discuss current literature related to material presented in BC 403.

Prerequisite: None.

Registration Information: Must have concurrent registration in BC 403. For students participating in the Honors program.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BC 406A Investigative Biochemistry: Protein Biochemistry Credits: 2 (0-4-0)

Course Description: Advanced inquiry-based protein chemistry and molecular biology lab.

Prerequisite: BC 404.

Registration Information: This is a partial semester course.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

BC 406B Investigative Biochemistry: Molecular Genetics Credits: 2 (1-3-0)

Course Description: Advanced biochemical and molecular biological techniques and a problem-solving approach to molecular genetics.

Prerequisite: BC 404.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

BC 406C Investigative Biochemistry: Cellular Biochemistry Credits: 2 (1-3-0)

Course Description: Advanced biochemical and molecular biological techniques and a problem-solving approach to cellular biochemistry.

Prerequisite: BC 404.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

BC 411 Physical Biochemistry Credits: 4 (3-0-1)

Course Description: Thermodynamics; reaction rates; quantum chemistry; spectroscopy; macromolecular folding and interactions; ligand binding; enzyme kinetics; membranes.

Prerequisite: (BC 351 with a minimum grade of B or BC 401) and (CHEM 113) and (MATH 161 or MATH 255).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BC 441 3D Molecular Models for Biochemistry Credit: 1 (0-1.5-.5)

Course Description: Computer instruction to construct 3D models of proteins and nucleic acids using leading software.

Prerequisite: BC 401, may be taken concurrently.

Registration Information: Must register for laboratory and recitation.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BC 463 Molecular Genetics Credits: 3 (3-0-0)

Course Description: Molecular basis of gene structure, replication, repair, recombination, and expression.

Prerequisite: (BC 401 with a minimum grade of C, may be taken concurrently or BC 351 with a minimum grade of C) and (LIFE 201B with a minimum grade of C or BZ 350 with a minimum grade of C).

Registration Information: Credit not allowed for both BC 463 and BC 563.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BC 464 Molecular Genetics Recitation Credit: 1 (0-0-1)

Course Description: Methods used to study the molecular basis of gene structure, replication, repair, recombination, and expression.

Prerequisite: (LIFE 201B) and (BC 351, may be taken concurrently or BC 401, may be taken concurrently).

Registration Information: Must have concurrent registration in BC 463.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BC 465 Molecular Regulation of Cell Function Credits: 3 (3-0-0)

Course Description: Molecular regulation of cell organization, membrane formation, organelle biogenesis, cell communication, shape and motility, growth, aging, and death.

Prerequisite: (LIFE 210) and (BC 403, may be taken concurrently or BC 351).

Registration Information: Sections may be offered: Online. Credit not allowed for both BC 465 and BC 565.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BC 466 Molecular Regulation of Cell Function-Honors Credit: 1 (0-0-1)
Course Description: Discussions of current articles in cell biology including methods and molecular mechanisms that explain cell behavior in health and disease.

Prerequisite: None.

Registration Information: Must have concurrent registration in BC 465.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BC 467 Biochemistry of Disease Credits: 3 (3-0-0)

Course Description: Biochemical basis of specific human diseases.

Prerequisite: BC 401.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BC 475 Mentored Research Credits: 3 (0-6-1)

Course Description: Plan and conduct mentored research with weekly discussion of progress, presentation at all-university symposium, and submission of written report.

Prerequisite: BC 404.

Registration Information: Must register for laboratory and recitation. Maximum of 9 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BC 484 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description: Assist in teaching selected courses in biochemistry and molecular biology.

Prerequisite: None.

Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BC 487A Internship Credits: Var[1-18] (0-0-0)

Course Description: Work experience with an approved preceptor outside of a university laboratory environment.

Prerequisite: BC 401 and BC 403 and BC 404.

Registration Information: Written consent of instructor. Minimum GPA of 2.0.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BC 487B Internship: International Credits: Var[1-18] (0-0-0)

Course Description: Research in foreign host laboratory in contact with CSU mentor.

Prerequisite: BC 401 and BC 463 and BC 495 - at least 1 credit.

Registration Information: Selection by departmental committee. BC 495 (one credit in lab of CSU mentor).

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BC 493 Senior Seminar Credit: 1 (0-0-1)

Course Description: Critical analysis of selected literature in biochemistry and molecular biology.

Prerequisite: None.

Registration Information: BC 401 or concurrent registration.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

BC 495 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Minimum cumulative GPA of 3.0.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BC 496 Group Study Credits: Var[1-18] (0-0-0)

Course Description: Faculty-directed exploration of areas of special interest in biochemistry and molecular biology.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BC 498 Research Credits: Var[1-6] (0-0-0)

Course Description: Supervised laboratory research in biochemistry and molecular biology.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BC 499A Thesis: Laboratory Research-Based Credits: 3 (0-0-3)

Course Description: Laboratory-based research thesis.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BC 499B Thesis: Literature Based Credits: 3 (0-0-3)

Course Description: Thesis - Literature-based in Gen. Biochemistry.

Prerequisite: BC 493.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BC 499C Thesis: Literature-based in Health and Med Sci Credits: 3 (0-0-3)

Course Description: Thesis - Literature-based in Health and Med. Sci.

Prerequisite: BC 493.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BC 499D Thesis: Literature-based in Pre-Pharmacy Credits: 3 (0-0-3)

Course Description: Thesis - Literature-based in Pre-Pharmacy.

Prerequisite: BC 493.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BC 499E Thesis: Literature-based in Neurobiochemistry Credits: 3 (0-0-3)

Course Description: Thesis - Literature-based in Neurobiochemistry.

Prerequisite: BC 493, may be taken concurrently.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BC 499F Thesis: Literature-Based in Data Science Credits: 3 (0-0-3)

Course Description: Thesis - Literature-based in Data Science.

Prerequisite: BC 493.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BC 511 Structural Biology I Credits: 4 (3-0-1)

Course Description: Structural principles of biological macromolecules and techniques of structural analysis.

Prerequisite: BC 401, may be taken concurrently.

Registration Information: Must register for lecture and recitation.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BC 512 Principles of Macromolecular Structure Credit: 1 (1-0-0)

Course Description: Physical interactions controlling folding and solution behavior of biological macromolecules, including proteins, nucleic acids, and membranes.

Prerequisite: BC 411, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BC 513 Enzymology Credit: 1 (1-0-0)

Course Description: Kinetic methods, mechanism, and regulation of enzyme catalysis.

Prerequisite: BC 403.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BC 517 Metabolism Credits: 2 (2-0-0)

Course Description: Design and regulation of metabolic pathways.

Prerequisite: BC 351 and BC 403.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BC 521 Principles of Chemical Biology Credits: 3 (3-0-0)

Also Offered As: CHEM 521.

Course Description: Principles of chemical biology. Chemical methods for understanding and controlling the structure and function of biopolymers.

Prerequisite: CHEM 245 or CHEM 343 or CHEM 346.

Registration Information: Credit not allowed for both BC 521 and CHEM 521.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BC 563 Molecular Genetics Credits: 4 (3-0-1)

Course Description: Mechanisms of replication, transcription, processing, translation, and packaging of genetic material, emphasizing original literature and methods.

Prerequisite: BC 401 and LIFE 201B.

Registration Information: Must register for lecture and recitation. Credit not allowed for both BC 563 and BC 463.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BC 565 Molecular Regulation of Cell Function Credits: 4 (3-0-1)

Course Description: Molecular regulation of cell organization, membrane formation, organelle biogenesis, cell communication, shape and motility, growth, aging, and death.

Prerequisite: (LIFE 210) and (BC 351 or BC 403, may be taken concurrently).

Registration Information: Credit not allowed for both BC 565 and BC 465. Must register for lecture and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BC 566 Advanced Topics in Mitotic Processes Credit: 1 (1-0-0)

Course Description: Mitotic spindle, microtubules, kinetochores, and molecular motors, specifically during cell division.

Prerequisite: BC 465 or BC 565.

Restriction: .

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BC 571 Quantitative Biochemistry Credit: 1 (1-0-0)

Course Description: Introduction to statistics, error analysis, and curve fitting of biochemical data with a focus on practical examples.

Prerequisite: BC 511, may be taken concurrently.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BC 589 Current Trends in Molecular Biosciences Credits: 2 (1-2-0)

Course Description: Biochemical and molecular biological foundations of molecular genetics/genetic engineering; molecular analysis of genes.

Prerequisite: None.

Registration Information: B.S. or B.A. in biology or chemistry; secondary school teaching certification required. Offered as an online course only.

Term Offered: Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

BC 598 Research Credits: Var[1-9] (0-0-0)

Course Description: Biochemistry research in a research laboratory.

Prerequisite: BC 401.

Registration Information: Written consent of advisor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BC 601 Responsible Conduct in Biochemistry Credit: 1 (1-0-0)

Course Description: Design of experiments; error and fraud, publishing/grant application submission, scientific misconduct, classic examples of fraud, case studies.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring. (even years).

Grade Mode: Traditional.

Special Course Fee: No.

BC 611 Structural Biology II Credits: 2 (2-0-0)

Course Description: Structure and interactions of biological macromolecules related to function.

Prerequisite: BC 511.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BC 663 Gene Expression Credits: 2 (2-0-0)

Course Description: Eukaryotic transcription mechanisms with emphasis on methods of study and regulatory mechanisms.

Prerequisite: BC 563.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BC 665A Advanced Topics in Cell Regulation: Microscopic Methods Credits: 2 (2-0-0)

Course Description: Analysis of cell behavior, function and regulation.

Prerequisite: BC 565.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BC 665B Advanced Topics in Cell Regulation: Modern Methods Credits: 2 (2-0-0)

Course Description: Modern methods in cell biology.

Prerequisite: BC 565.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BC 695 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

BC 698 Research Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

BC 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

BC 701 Grant Proposal Writing and Reviewing Credit: 1 (1-0-0)

Course Description: Didactic and hands-on experience with locating funding sources, writing effective grant proposals, and the review process in the bio-molecular sciences.

Prerequisite: (BC 403) and (BC 511, may be taken concurrently) and (BC 563, may be taken concurrently).

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Instructor Option.

Special Course Fee: No.

BC 711A Advanced Topics in Structural Biology: Protein Structure and Function Credit: 1 (1-0-0)

Course Description:

Prerequisite: BC 511 and BC 611.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BC 711B Advanced Topics in Structural Biology: Membrane Proteins Credit: 1 (1-0-0)

Course Description:

Prerequisite: BC 511 and BC 611.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BC 711C Advanced Topics in Structural Biology: Protein-DNA Interactions Credit: 1 (1-0-0)

Course Description:

Prerequisite: BC 511 and BC 611.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BC 711D Advanced Topics in Structural Biology: Biomolecular Spectroscopy Credit: 1 (1-0-0)

Course Description:

Prerequisite: BC 511 and BC 611.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BC 711E Advanced Topics in Structural Biology: Biomolecular NMR Credit: 1 (1-0-0)

Course Description:

Prerequisite: BC 511 and BC 611.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BC 711F Advanced Topics in Structural Biology: Macromolecular X-ray Crystallography Credit: 1 (1-0-0)**Course Description:****Prerequisite:** BC 511 and BC 611.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**BC 763A Advanced Molecular Genetics Topics: Chromatin and Transcription Credit: 1 (1-0-0)****Course Description:****Prerequisite:** BC 663, may be taken concurrently.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**BC 763B Advanced Molecular Genetics Topics: Transcriptional Control - Co-Activators and Corepressors Credit: 1 (1-0-0)****Course Description:****Prerequisite:** BC 663, may be taken concurrently.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**BC 763C Advanced Molecular Genetics Topics: Concepts and Techniques of Genetic Analysis Credit: 1 (1-0-0)****Course Description:****Prerequisite:** BC 663, may be taken concurrently.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**BC 784 Supervised College Teaching Credits: Var[1-3] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**BC 793 Seminar Credit: 1 (0-0-1)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**BC 795 Independent Study Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**BC 796 Group Study Credits: Var[1-5] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**BC 798 Research Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**BC 799 Dissertation Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.

Major in Biochemistry

As the name suggests, biochemistry links biology and chemistry. Biochemistry is most simply defined as the chemistry of living systems. It is the science that tries to explain how "lifeless" molecules work together to make "living" organisms. The methods of chemistry and molecular biology are used to study the structure and behavior of the complex molecules found in biological materials and the ways these molecules interact to form cells, tissues, and whole organisms. Biochemistry provides the basis for advances in human and veterinary medicine, agriculture, and biotechnology. Biochemists may participate in interdisciplinary research and development projects alongside chemical engineers, biologists, microbiologists, agronomists, physicians, and other professionals. They investigate the molecular mechanisms of such diseases as AIDS, diabetes, cancer, heart disease and stroke, and develop solutions to environmental problems through biotechnology.

The Biochemistry major provides a student with a strong, well-balanced background in the biological, physical, and mathematical sciences. As a Biochemistry major, studies include macromolecular structure and function; cellular biochemistry; metabolism; gene expression, DNA and protein structure, DNA replication and repair; cell organization, communication, growth, aging, and death. Students are also required to take courses in physics, organic chemistry, and statistical measurements and methods used in research. Independent study and internships (typically during the junior and senior years, but could start in the freshman year) provide opportunities for experiential learning and working closely with the faculty, sometimes leading to authorship of original publications.

Learning Outcomes

Students will be able to:

- Describe the basic concepts of chemistry, biology, biochemistry, molecular biology, and cellular biology
- Critically analyze, and present the methods, results, and conclusions of scientific papers in the current biochemical literature, and orally present technical material in a clear and comprehensible form

- Use a variety of laboratory instruments and techniques, interpret experimental results, and design new experiments
- Demonstrate the ability to perform original research in biochemistry and molecular biology

Potential Occupations

Possible career opportunities include, but are not limited to: process research technician, production/quality assurance lab technician, biomedical/pharmaceutical researcher or salesperson, molecular biologist, biophysicist, cytologist, toxicologist, crime scene investigator, industrial hygienist, dairy technologist, environmental analyst, hygienist, chemist, wastewater treatment chemist, food and drug inspector, museum technician, teacher, writer, fisheries biologist, research analyst, and medical or clinical lab technologist. Many biochemistry majors go on to earn higher degrees in graduate school or health care related professional schools, leading to careers in medicine, veterinary medicine, pharmacy, or law.

Concentrations

- ASBMB Concentration (American Society for Biochemistry and Molecular Biology)
- Data Science Concentration
- Health and Medical Sciences Concentration
- Pre-Pharmacy Concentration

Major in Biochemistry, ASBMB Concentration

The American Society for Biochemistry and Molecular Biology (ASBMB) concentration in Biochemistry is composed of a “core” set of courses comprised of 24 credits of primarily upper division coursework (22/24 credits are 400 level), along with a total of 9 “bioscience elective” credits selected from a list provided by the department. This option gives the student 13 “free elective” credits, which they can use to pursue a minor, a double major, and/or other academic interests. Thus, this concentration is designed to provide a broad background in biochemistry and can be tailored to meet the individual needs of specific students. The ASBMB concentration is recommended for students considering teaching and/or research as a career. Students who graduate from this program can state on their resume that they graduated from an “ASBMB program.” If desired, students can take a 1-hour ASBMB exam during the spring semester of their senior year. Students who pass the exam will additionally receive degree certification from ASBMB. Accreditation (and certification) by ASBMB confirms that our undergraduate degree program meets very high standards, and thus will enhance the credentials of our graduating seniors.

Requirements
Effective Fall 2023

A minimum grade of C (2.000) must be earned for BC 493 and all biochemistry (BC) and LIFE subject code lecture and laboratory courses at or above the 200-level required in the biochemistry major.

Biosciences Electives List – Select a minimum of 9 credits in consultation with advisor

A minimum of 3 credits must be selected from Group A; a maximum of 6 credits may be selected from group B; a maximum of 3 credits may be selected from Group C.

Code	Title	Credits
Group A – Select 3-9 credits from the following:		
BMS 300	Principles of Human Physiology	4
BMS 301	Human Gross Anatomy	5
BMS 305	Domestic Animal Gross Anatomy	4
BMS 330	Microscopic Anatomy	4
BMS 345	Functional Neuroanatomy	4
BMS 360	Fundamentals of Physiology	4

BMS 420	Cardiopulmonary Physiology	3
BMS 430	Endocrinology	3
BMS 450	Pharmacology	3
BMS 500	Mammalian Physiology I	4
ERHS 332	Principles of Epidemiology	3
FSHN 350	Human Nutrition	3
HES 319	Neuromuscular Aspects of Human Movement	4
HES 403	Physiology of Exercise	3
VS 331	Histology	4

Group B – Select 0-6 credits from the following:

BC 467	Biochemistry of Disease	3
BIOM 306/BTEC 306	Bioprocess Engineering	4
BIOM 504/CBE 504	Fundamentals of Biochemical Engineering	3

BMS 325	Cellular Neurobiology	3
BMS 405	Nerve and Muscle-Toxins, Trauma and Disease	3
BSPM 462/BZ 462/ MIP 462	Parasitology and Vector Biology	5
BZ 220	Introduction to Evolution	3
BZ 311	Developmental Biology	4
BZ 360	Bioinformatics and Genomics	4
BZ 401	Comparative Animal Physiology	3
BZ 440	Plant Physiology	3
BZ 455	Human Heredity and Birth Defects	3
BZ 476/BZ 576	Genetics of Model Organisms	3
CHEM 334	Quantitative Analysis Laboratory	1
CHEM 335	Introduction to Analytical Chemistry	3
CHEM 433	Clinical Chemistry	3
ERHS 450	Introduction to Radiation Biology	3
FSHN 470	Integrative Nutrition and Metabolism	3
FTEC 350	Fermentation Microbiology	2
FTEC 460	Brewing Science II	4
MIP 300	General Microbiology	3
MIP 302	General Microbiology Laboratory	2
MIP 342	Immunology	4
MIP 343	Immunology Laboratory	2
MIP 351	Medical Bacteriology	3
MIP 352	Medical Bacteriology Laboratory	3
MIP 420	Medical and Molecular Virology	4
MIP 425	Virology and Cell Culture Laboratory	2
MIP 443	Microbial Physiology	4
MIP 450	Microbial Genetics	3
NB 501	Cellular and Molecular Neurophysiology	2

Group C – Select 0-3 credits from the following:

BC 406A	Investigative Biochemistry: Protein Biochemistry	2
BC 475	Mentored Research	3
BC 487A	Internship	Var.
BC 495	Independent Study	Var.
BC 496	Group Study	Var.

¹ Select from the list of courses in categories 3B-3D (six credits [two courses] must come from 3B; one course each from categories 3C and 3D) in the AUCC. Only 3 of the 6 credits required for Arts and Humanities may come from intermediate (L*** 200 and L*** 201) foreign language courses.

² Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major Completion Map

Distinctive Requirements for Degree Program:

TO PREPARE FOR FIRST SEMESTER: The curriculum for the Biochemistry major - ASBMB concentration assumes students enter college prepared to begin a year-long calculus sequence (either MATH 155/MATH 255 or MATH 160/MATH 161) in the first semester of their first year. LIFE 102 requires high school chemistry as a prerequisite; CHEM 111 requires Algebra II as a prerequisite (this prerequisite is met by having Algebra II by test credit, transfer credit, or placement out of MATH 117 and MATH 118 on Math Placement Exam).

A minimum grade of C (2.000) must be earned for BC 493 and all biochemistry (BC) and LIFE subject code lecture and laboratory courses at or above the 200-level required in the biochemistry major.

Major in Biochemistry, Data Science Concentration

The Data Science concentration in Biochemistry builds on the general biochemistry core set of courses (24 credits of primarily upper division courses) and includes 21 data science specific course credits. This option gives the student 3 “free elective” credits, which they can use to complete either data science elective, bioscience elective, or second semester physics courses. This concentration is designed to provide a solid background in biochemistry, molecular genetics and cell biology, augmented with computer science, mathematics and statistics. The

data science concentration is recommended for students interested in a career in life science data analysis. Students who graduate with this concentration obtain the skills necessary for organizing, analyzing and communicating the meaning of massive data sets.

Requirements Effective Fall 2023

A minimum grade of C (2.000) must be earned for BC 493 and all biochemistry (BC) and LIFE subject code lecture and laboratory courses at or above the 200-level required in the biochemistry major.

Major in Biochemistry, Health and Medical Sciences Concentration

This concentration augments the ASBMB Concentration with additional coursework in anatomy and physiology, biochemistry of disease, and either a medical internship or mentored research by requiring an

additional 14-15 credits of concentration-specific coursework. The Health and Medical Sciences concentration is geared toward students interested in a number of health professions including, but not limited to, medicine, veterinary, dentistry, physician assistant and physical therapy.

Requirements Effective Fall 2022

A minimum grade of C (2.000) must be earned for BC 493 and all biochemistry (BC) and LIFE subject code lecture and laboratory courses at or above the 200-level required in the biochemistry major.

Students successfully completing the program can state on their resume that they graduated from an "American Society for Biochemistry and Molecular Biology (ASBMB) accredited program." Further, students also have the option of taking a 1-hour ASBMB exam during the spring semester of their senior year. Student who pass the exam will additionally receive degree certification from ASBMB.

Program Total Credits:			120

¹ Select from the list of courses in categories 3B-3D (six credits [two courses] must come from 3B; one course each from categories 3C and 3D) in the AUCC. Only 3 of the 6 credits required for Arts and Humanities may come from intermediate (L*** 200 and L*** 201) foreign language courses.

² Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

TO PREPARE FOR FIRST SEMESTER: The curriculum for the Biochemistry major - Health and Medical Sciences concentration assumes students enter college prepared to begin a year-long calculus sequence (either MATH 155/MATH 255 or MATH 160/MATH 161) in the first semester of their first year. LIFE 102 requires high school chemistry as a prerequisite; CHEM 111 requires Algebra II as a prerequisite (this prerequisite is met by having Algebra II by test credit, transfer credit, or placement out of MATH 117 and MATH 118 on Math Placement Exam).

A minimum grade of C (2.000) must be earned for BC 493 and all biochemistry (BC) and LIFE subject code lecture and laboratory courses at or above the 200-level required in the biochemistry major.

Major in Biochemistry, Pre-Pharmacy Concentration

This concentration augments the ASBMB Concentration with additional coursework in physiology, microbiology, immunology, economics and public speaking. This concentration fulfills the prerequisite courses for admission to most pharmacy schools. It is also an appropriate concentration for a career as a medical technician.

Requirements Effective Fall 2022

A minimum grade of C (2.000) must be earned for BC 493 and all biochemistry (BC) and LIFE subject code lecture and laboratory courses at or above the 200-level required in the biochemistry major.

If students successfully complete an additional 1-credit course, Responsible Conduct in Biochemical Research BC 360, they can state on their resume that they graduated from an "American Society for Biochemistry and Molecular Biology (ASBMB) accredited program." Further, students also have the option of taking a 1-hour ASBMB exam during the spring semester of their senior year. Student who pass the exam will additionally receive degree certification from ASBMB.

Minor in Biochemistry

The minor in Biochemistry is valuable to students majoring in any biological or physical science, or in engineering. The minor requires a sound chemistry background, provides fundamental courses in molecular biosciences, and augments the latter with more specialized courses in biochemistry and molecular genetics.

Requirements Effective Fall 2010

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Lower Division		
LIFE 201B	Introductory Genetics: Molecular/Immunological/Developmental (GT-SC2)	3
LIFE 203	Introductory Genetics Laboratory	2
LIFE 210	Introductory Eukaryotic Cell Biology	3
LIFE 212	Introductory Cell Biology Laboratory	2

BC 403	Comprehensive Biochemistry II	3
BC 404	Comprehensive Biochemistry Laboratory	2
Select one from the following:		3-4
BC 411	Physical Biochemistry	
BC 463	Molecular Genetics	
BC 465	Molecular Regulation of Cell Function	
BC 493	Senior Seminar	1
Program Total Credits:		22-23

Department of Biology

From cells to the biosphere, the Biology Department makes discoveries about fundamental questions in our living world, and we use this new knowledge to make Earth a better place. CSU Biology is a place where everyone is welcome to indulge their curiosity about the living world.

Office in the Biology Building, Room 111
(970) 491-7011
[biology.colostate.edu](http://www.biology.colostate.edu) (<http://www.biology.colostate.edu>)

Professor Deborah M. Garrity, Chair

Undergraduate Majors

- Major in Biological Science
 - Biological Science Concentration
 - Botany Concentration
- Major in Zoology

Minors

- Minor in Botany
- Minor in Zoology

Graduate Graduate Programs in Biology

The department offers graduate programs leading to Master of Science and Doctor of Philosophy degrees in Biological Science. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Biology (<http://www.biology.colostate.edu>).

Master's Programs

- Master of Science in Biological Science, Plan A and Plan B
- Professional Science Master's in Natural Sciences – Zoo, Aquarium, and Animal Shelter Management Specialization

Ph.D. Programs

- Ph.D. in Biological Science

Courses

BZ 101 Humans and Other Animals (GT-SC2) Credits: 3 (3-0-0)

Course Description: Intended for non-science majors, exploring the genetic basis of common life processes, including form and function of the human body, evolution, and biodiversity. A number of current and controversial socio-scientific issues are addressed.

Prerequisite: None.

Registration Information: Credit not allowed for students who have already taken BZ 110 or LIFE 102 or LIFE 103. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).

BZ 104 Basic Concepts of Plant Life (GT-SC2) Credits: 3 (3-0-0)

Course Description: Broad concepts of biology with major emphasis on plant life.

Prerequisite: None.

Registration Information: For nonscience and physical science majors. Sections may be offered: Online. Credit not allowed for students who have already taken BZ 120 or LIFE 102 or LIFE 103.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).

BZ 105 Basic Concepts of Plant Life Laboratory (GT-SC1) Credit: 1 (0-2-0)

Course Description: Laboratory exercises covering fundamental biological concepts related to plants and plant-like organisms.

Prerequisite: BZ 104, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/ lab (GT-SC1).

BZ 110 Principles of Animal Biology (GT-SC2) Credits: 3 (3-0-0)

Course Description: General features (body form, physiology, life history, ecology) and evolutionary relationships of major phyla of animals.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).

BZ 111 Animal Biology Laboratory (GT-SC1) Credit: 1 (0-3-0)

Course Description: Laboratory exercises demonstrating major features of animal biology and major phyla of animals.

Prerequisite: BZ 110, may be taken concurrently.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/ lab (GT-SC1).

BZ 120 Principles of Plant Biology (GT-SC1) Credits: 4 (3-3-0)

Course Description: Diversity of relationships of plants and their structural and functional characteristics.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/ lab (GT-SC1).

BZ 192 First Year Seminar–Biology/Zoology Credit: 1 (1-0-0)

Course Description: Introduction to the biological science and zoology majors through development of academic skills necessary for success within the sciences, exposure to academic resources, science career pathways, research, and relevant topics like globalization and diversity in science fields.

Prerequisite: None.

Registration Information: Freshman only. This is a partial semester course. Credit not allowed for both BZ 180A1 and BZ 192.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 212 Animal Biology-Invertebrates Credits: 4 (3-3-0)

Course Description: General biology of invertebrates; their characteristics, classification, and adaptations.

Prerequisite: LIFE 103 or BZ 110 and BZ 111.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

BZ 214 Animal Biology-Vertebrates Credits: 4 (3-3-0)

Course Description: Evolution of the anatomical, morphological, physiological and ecological characteristics of vertebrate animals. Provides foundation for advanced training in ichthyology, herpetology, ornithology and mammalogy. Includes a dissection-based lab to provide in-depth exploration of the external and internal anatomy of the nine extant classes of vertebrates.

Prerequisite: BZ 111 and BZ 110 or LIFE 103.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

BZ 220 Introduction to Evolution Credits: 3 (3-0-0)

Course Description: Fundamental concepts in evolutionary biology.

Prerequisite: BZ 110 or BZ 120 or LIFE 102 or LIFE 103.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 223 Plant Identification Credits: 3 (2-2-0)

Course Description: Relationships and identification of flowering plants.

Prerequisite: BZ 120 or LIFE 103.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

BZ 240 Synthetic Biology-Principles and Applications Credits: 3 (3-0-0)

Course Description: Biological principles underlying the contemporary practice of synthetic biology, along with relevant concepts from a wide range of disciplines. Diverse applications are explored at an introductory level.

Prerequisite: LIFE 102.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 296 Group Study-Biology Credits: Var[1-3] (0-0-0)

Course Description: Faculty-directed group investigation of areas of special interest in biology.

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 300 Animal Behavior Credits: 3 (3-0-0)

Course Description: Evolutionary and mechanistic approaches to understanding why and how animals behave the way they do.

Integrative approach linking behavior to brain, genes and hormones at the mechanistic level and to ecology to explain its functional and evolutionary basis.

Prerequisite: BZ 220.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 310 Cell Biology Credits: 4 (3-3-0)

Course Description: Structure and function of cells emphasizing molecular mechanisms. Communication, metabolism, motility, genetics, growth, and reproduction.

Prerequisite: (BZ 110 or BZ 120 or LIFE 103) and (CHEM 113).

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

BZ 311 Developmental Biology Credits: 4 (3-2-0)

Course Description: Developmental aspects of growth and differentiation in plants and animals.

Prerequisite: BZ 310.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

BZ 325 Plant Systematics Credits: 4 (3-2-0)

Course Description: Principles and contemporary methods of classification of plants and the application of modern phylogenetic theory in comparative biology.

Prerequisite: BZ 220.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 329A Herpetology: Lecture Credits: 3 (3-0-0)

Course Description: Integrates knowledge and competencies spanning all scales of biology—molecules to ecosystems—using amphibians and reptiles as focal taxa.

Prerequisite: BZ 110 and BZ 111 or LIFE 102 and LIFE 103.

Restriction: Must not be a: Freshman.

Registration Information: Credit not allowed for both BZ 329 and BZ 329A.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 329B Herpetology: Laboratory Credit: 1 (0-2-0)

Course Description: Integrates knowledge and competencies spanning all scales of biology—molecules to ecosystems—using amphibians and reptiles as focal taxa. Emphasis on specimen-based learning of systematics and taxonomy, form and function, and biodiversity patterns.

Prerequisite: BZ 329A, may be taken concurrently.

Restriction: Must not be a: Freshman.

Registration Information: Credit not allowed for both BZ 329 and BZ 329B.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 330A Mammalogy: Lecture Credits: 3 (3-0-0)

Course Description: Integrates knowledge and competencies spanning all scales of biology – molecules and evolutionary history to management and ecosystems – using mammals as a focal taxon.

Prerequisite: BZ 110 and BZ 111 or LIFE 103.

Restriction: Must not be a: Freshman.

Registration Information: Required field trips. Credit not allowed for both BZ 330 and BZ 330A.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 330B Mammalogy: Laboratory Credit: 1 (0-2-0)

Course Description: Integrates knowledge and competencies spanning all scales of biology, molecules to ecosystems, using mammals as focal taxa. Emphasis on specimen-based learning of systematics and taxonomy, form and function, and biodiversity patterns.

Prerequisite: (BZ 110 and BZ 111 or LIFE 103) and (BZ 330A, may be taken concurrently).

Restriction: Must not be a: Freshman.

Registration Information: Credit not allowed for both BZ 330 and BZ 330B.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 331 Developmental Plant Anatomy Credits: 4 (2-4-0)

Course Description: Structure of plant cells, tissues, and organs as they develop.

Prerequisite: BZ 120 or LIFE 103.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 333 Introductory Mycology Credits: 4 (2-4-0)

Course Description: Introduction to the biology and evolutionary history of groups of fungi including classification, structure, morphogenesis, phylogeny, genetics, and reproduction.

Prerequisite: BZ 120 or LIFE 103.

Registration Information: Must register for lecture and laboratory.

Required field trips.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

BZ 335 Ornithology Credits: 3 (2-3-0)

Course Description: Biology of birds, especially behavior, ecology, and identification in the laboratory and field.

Prerequisite: BZ 111 and BZ 110 or LIFE 103.

Registration Information: Must register for lecture and laboratory.

Required field trips.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

BZ 338 Comparative Morphology of Vascular Plants Credits: 4 (2-4-0)

Course Description: Origin, evolution, structure, and reproduction of the vascular plants, including comparative study of organs occurring in each group.

Prerequisite: BZ 120 or LIFE 103.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 340 Field Mammalogy Credits: 4 (1-6-0)

Course Description: An intensive field course that introduces field wildlife techniques through the lens of studying the evolutionary relationships, ecology, and conservation of Colorado mammals. Opportunities to learn about wildlife handling and study techniques and apply them in independent research projects. A significant portion of the course is spent in the field, primarily at the CSU Mountain Campus in the mountains northwest of Fort Collins.

Prerequisite: BZ 110 or LIFE 103.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing. Must register for lecture and laboratory. Required field trips. Credit not allowed for both BZ 340 and BZ 380A3.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 342 Exploring Range Shifts in a Changing World Credits: 3 (3-0-0)

Course Description: A structured, team-based research project that guides students through learning the skills needed to search for, obtain, clean, and analyze distributional data from publicly available sources, including iNaturalist and global museum databases. The data is used to explore a question of how distributions are changing over time, including correlating those changes with abiotic and anthropogenic changes, such as climate change, urbanization, or the introduction of nonnative species.

Prerequisite: BZ 220.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing. Credit not allowed for both BZ 342 and BZ 381A2.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 348 Theory of Population and Evolutionary Ecology Credits: 4 (3-3-0)

Also Offered As: MATH 348.

Course Description: Principles and methods for building, analyzing, and interpreting mathematical models of ecological and evolutionary problems in biology.

Prerequisite: MATH 155 or MATH 160.

Registration Information: Must register for lecture and laboratory. Credit allowed for only one of the following: BZ 348, BZ 548, MATH 348.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 349 Tropical Ecology and Evolution Credits: 3 (3-0-0)

Course Description: Broad introduction to terrestrial and aquatic tropical biodiversity and the ecological and evolutionary processes that generate and maintain it.

Prerequisite: BZ 220.

Restriction: Must not be a: Freshman.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 350 Molecular and General Genetics Credits: 4 (3-0-1)

Course Description: Mendelian, molecular, and population genetics emphasizing the molecular basis of genetics.

Prerequisite: (BZ 110 or BZ 120 or LIFE 102) and (STAT 201, may be taken concurrently or STAT 301, may be taken concurrently or STAT 307, may be taken concurrently or ERHS 307, may be taken concurrently).

Registration Information: Must register for lecture and recitation. Primarily for students in biological sciences.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 360 Bioinformatics and Genomics Credits: 4 (3-0-1)

Course Description: Introductory genomics, bioinformatics, and computer programming concepts for biologists.

Prerequisite: BZ 110 or BZ 120 or LIFE 102.

Registration Information: Must register for lecture and recitation.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 384 Supervised College Teaching Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: 3.0 overall GPA; written consent of instructor; grade of A in course with which student assists. A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 401 Comparative Animal Physiology Credits: 3 (3-0-0)

Course Description: Physiological mechanisms of digestion, metabolism, osmoregulation, excretion, circulation, and respiration in vertebrates and invertebrates that allow them to function and survive in varied environments.

Prerequisite: BZ 214.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 415 Marine Biology Credits: 4 (3-0-1)

Course Description: Marine organisms, habitats, and communities.

Prerequisite: LIFE 320.

Registration Information: Must register for lecture and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 418 Ecology of Infectious Diseases Credits: 4 (3-0-1)

Course Description: Ecological perspectives of infectious disease outbreaks in wildlife and human populations.

Prerequisite: LIFE 320.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 420 Evolutionary Medicine Credits: 3 (3-0-0)

Course Description: Integration of evolutionary biology with behavior, genetics, and ecology to understand health and disease. Exploration of insights into medical research and practice (diagnosis and therapy) and human health from an evolutionary standpoint. Fundamentals of evolution, and the importance of evolutionary biology in understanding the ultimate and proximate causes of human disease. Engage in scientific discourse.

Prerequisite: BZ 110 and BZ 111 or LIFE 102.

Registration Information: Sophomore standing.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 424 Principles of Systematic Science Credits: 3 (3-0-0)

Also Offered As: BSPM 424.

Course Description: Introduction to the core principles of systematic science and exploration of issues including speciation, taxonomy and classification, constructing and evaluating hypotheses of evolutionary relationships, characters used in taxonomy, species descriptions, the taxonomic literature, museums and museum science, and careers in systematic science.

Prerequisite: BZ 220.

Registration Information: Credit not allowed for both BSPM 424 and BZ 424.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: Yes.

BZ 425 Conservation and Population Genomics Credits: 3 (3-0-0)

Course Description: Introduction to molecular genetic markers for questions in ecology, evolution, behavior, and conservation.

Prerequisite: BZ 220.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 430 Animal Behavior and Conservation Credits: 3 (3-0-0)

Course Description: The interface between animal behavior and conservation biology, exploring how behavioral tools can be applied to conservation problems.

Prerequisite: (BZ 110 and BZ 111 or LIFE 103) and (BZ 300).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 433 Behavioral Genetics Credits: 3 (3-0-0)

Course Description: An integrative view of genetic basis of animal behavior, with emphasis on complex behaviors and societal implications of genetics research.

Prerequisite: LIFE 102 or LIFE 103.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 435A Study Abroad--Honduras: Field Course--Dolphin Behavior and Physiology Credits: 2 (0-0-2)

Course Description: Field program offers an 8-day research experience to Roatan, Honduras. Study animal behavior, animal physiology, and conservation methods at the Roatan Institute for Marine Science (RIMS). Classroom lectures and discussions provide the framework to develop an understanding of the subject matter. Develop the skills necessary to conduct preliminary research.

Prerequisite: BZ 110 and BZ 111 or BZ 120 or LIFE 102.

Registration Information: Sophomore standing. This is a partial semester course.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 435B Study Abroad--Mexico: Practices in Marine Biology and Ecology Credits: 3 (0-0-3)

Course Description: Exposure to two of the most productive and biologically diverse marine areas in North America. Living in a landlocked state makes it hard to bring marine biology to life. However, studying the organisms/ecosystems in Baja California Sur is an opportunity to experience first-hand the subject matter that is normally only read about in textbooks. Venture into the field and gain practical knowledge from fieldwork that strengthens research skills.

Prerequisite: LIFE 320.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore Standing. Written consent of instructor. This is a partial semester course. Students apply through Office of International Programs.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 440 Plant Physiology Credits: 3 (3-0-0)

Course Description: Functions and activities of plants.

Prerequisite: BZ 120 or LIFE 103.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 441 Plant Physiology Laboratory Credits: 2 (0-2-1)

Course Description: Laboratory applications of plant physiology principles.

Prerequisite: BZ 440, may be taken concurrently.

Registration Information: Must register for laboratory and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

BZ 449A Study Abroad: Ecology/Conservation--Ecuadorian Biodiversity Credits: 4 (0-0-4)

Course Description: Winter (January) study abroad experience in Ecuador. First-hand exposure to the unparalleled biodiversity of Ecuador. Ecuador is an ideal location to learn about tropical biodiversity, because it houses an enormous diversity of tropical ecosystems in a relatively small geographic area, all of which are very accessible. Students will visit these ecosystems—including cloud forest, páramo, and lowland Amazonian rainforest.

Prerequisite: BZ 220.

Registration Information: Junior standing. Written consent of instructor.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 450 Plant Ecology Credits: 4 (3-2-0)

Course Description: Relation of plants to their environment.

Prerequisite: LIFE 103 or BZ 120.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 455 Human Heredity and Birth Defects Credits: 3 (3-0-0)

Course Description: Human heredity and its individual and social implications; causes of congenital defects.

Prerequisite: BZ 110 and BZ 111 or LIFE 103.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 460 Genome Evolution Credits: 4 (3-0-1)

Course Description: Evolution of DNA, RNA, and proteins; use of genomic data to infer evolutionary history and processes.

Prerequisite: (BZ 220) and (BZ 310 or BZ 350).

Registration Information: Must register for lecture and recitation.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 462 Parasitology and Vector Biology Credits: 5 (3-4-0)

Also Offered As: BSPM 462 and MIP 462.

Course Description: Protozoa, helminths, and insects and related arthropods of medical importance; systematics, epidemiology, host damage and control.

Prerequisite: (BZ 110 or LIFE 103) and (BZ 212 or LIFE 206 or MIP 302).

Registration Information: Must register for lecture and laboratory. Credit allowed for only one of the following: BZ 462, BSPM 462, MIP 462.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 471 Stream Biology and Ecology Credits: 3 (3-0-0)

Course Description: Biology and ecology of running waters.

Prerequisite: LAND 220 or LIFE 220 or LIFE 320.

Restriction: Must not be a: Freshman.

Registration Information: Sections may be offered: Mixed Face-to-Face.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 472 Stream Biology and Ecology Laboratory Credit: 1 (0-3-0)

Course Description: Field sampling and laboratory analysis of habitats, biota, and ecological relationships in running waters.

Prerequisite: BZ 471, may be taken concurrently.

Registration Information: Required field trips.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: Yes.

BZ 475 Marine Mammalogy Credits: 3 (3-0-0)

Course Description: Taxonomy, evolution, morphology, physiological adaptations, behavior, and ecology of marine animals.

Prerequisite: BZ 214.

Registration Information: Junior standing. Credit not allowed for both BZ 475 and BZ 481A3.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 476 Genetics of Model Organisms Credits: 3 (3-0-0)

Also Offered As: BZ 576.

Course Description: Advanced topics in model genetic systems including molecular and developmental genetics.

Prerequisite: BZ 350 or LIFE 201A or LIFE 201B or SOCR 330.

Registration Information: Junior standing. Credit not allowed for both BZ 476 and BZ 576.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 477 Genome Editing Laboratory Credits: 2 (1-3-0)

Course Description: Learn theory and application of CRISPR/Cas genome editing. Design and create genome editing constructs to induce genetic modifications that lead to visible phenotypes using the model plant Arabidopsis. By sequencing the DNA of modified plants, students are able to link genotypic changes to their phenotypic consequences.

Prerequisite: BZ 310 or BZ 350 or LIFE 201 or SOCR 330.

Registration Information: Must register for lecture and laboratory. Credit allowed for only one of the following: BZ 477, BZ 480A7, or SOCR 480A7.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

BZ 478 Biology and Behavior of Cats Credits: 3 (3-0-0)

Also Offered As: VS 478.

Course Description: Comprehensive inquiry into how aspects of physiology, neurobiology, development and genetics influence the behavior of domestic cats. Evolution and domestication are explored as contextual reference for some behavior problems, and differentiated from true abnormal behavior. Emphasis is on interpreting scientific experiments in feline biology.

Prerequisite: BZ 220.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit not allowed for both BZ 478 and VS 478.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 479 Biology and Behavior of Dogs Credits: 3 (3-0-0)

Also Offered As: VS 479.

Course Description: Interactions of physiology, neurobiology, and genetics on behavior of domestic dogs, and how evolution and domestication influence behavioral traits.

Prerequisite: BZ 220.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit not allowed for both BZ 479 and VS 479.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 482A Study Abroad: Field Marine Biology Credits: 4 (0-0-4)

Course Description: Exposure to two of the most productive and biologically diverse marine areas in North America. Field sampling and exploration of marine ecosystems from levels of primary production to the top level predators. Students will learn a wide variety of hands on sampling techniques and data analyses with the goal of comparing the marine ecology of the Baja peninsula.

Prerequisite: BZ 415 and BZ 496.

Registration Information: Junior Standing. Written consent of instructor. Students to apply through Office of International Programs.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 482D Study Abroad--Kenya: Behavior and Biology of African Mammals Credits: 3 (0-0-3)

Course Description: Biology, behavior, physiology and evolutionary adaptation of African mammals to their ecological niches. Explore the complexities of human-wildlife conflict, conservation research and management strategies.

Prerequisite: BZ 220.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. This is a partial semester course. Offered as Mixed Face-to-Face. Required field trips.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 487 Internship Credits: Var[1-12] (0-0-0)

Course Description: Supervised work-related research experience in laboratory or field setting with consultation and approval of a regular faculty member.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 492A Seminar: Behavior Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 492B Seminar: Ecology Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 492C Seminar: Genetics Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 492D Seminar: Ornithology Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 492E Seminar: Herpetology Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 492F Seminar: Evolution Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 492G Seminar: Departmental Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 495 Independent Study Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 7 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 496 Group Study—Biology Credits: Var[1-3] (0-0-0)

Course Description: Faculty-directed group investigation of areas of special interest in biology.

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 498 Laboratory or Field Research Credits: Var[1-6] (0-0-0)

Course Description: Supervised laboratory or field research in biology, botany, or zoology.

Prerequisite: None.

Registration Information: Written consent of research mentor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 505 Cognitive Ecology Credits: 3 (3-0-0)

Course Description: The evolutionary ecology of mechanisms related to information processing and decision-making in animals.

Prerequisite: BZ 300.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 510 Zoophysiological Ecology Credits: 3 (3-0-0)

Course Description: Concepts, principles, and examples of adaptive physiological strategies used by animals.

Prerequisite: (BMS 300 or BMS 360 or BZ 401) and (LIFE 320 or LAND 220 or LIFE 220).

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 515 Physiological Ecology of Marine Vertebrates Credits: 3 (3-0-0)

Course Description: Physiological adaptations of vertebrates to different marine environments.

Prerequisite: (BZ 214 and BZ 330) and (BC 351 or BC 401 or BMS 300 or BZ 401).

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 520 Advanced Systematics Credits: 3 (3-0-0)

Also Offered As: BSPM 520.

Course Description: Theory and practice of modern systematics.

Prerequisite: BZ 325 or BZ 424 or BSPM 424.

Registration Information: Credit not allowed for both BZ 520 and BSPM 520.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 525 Advanced Conservation & Evolutionary Genomics Credits: 4 (3-0-1)

Course Description: Population genetic theory and application of genomic methods to conservation.

Prerequisite: (BZ 220 and BZ 350) and (STAT 301 or STAT 307).

Registration Information: Junior standing. Must register for lecture and recitation.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 526 Evolutionary Ecology Credits: 3 (3-0-0)

Also Offered As: BSPM 526.

Course Description: Adaptation to abiotic and biotic environments; how current ecological processes interact with evolutionary history.

Prerequisite: LIFE 320 or LAND 220 or LIFE 220.

Registration Information: Credit not allowed for both BZ 526 and BSPM 526.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 530 Ecological Plant Morphology Credits: 2 (2-0-0)

Course Description: Adaptive significance and evolution of plant form and structure.

Prerequisite: (BZ 220) and (LIFE 320 or BZ 450).

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 535 Behavioral and Cognitive Ecology Credits: 3 (3-0-0)

Course Description: Evolutionary and theoretical perspectives in animal behavior using examples from model empirical systems. Emphasis on decision rules and social behavior.

Prerequisite: BZ 300 with a minimum grade of B.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 540 Translocation in Plants Credits: 2 (2-0-0)

Course Description: Transport of sugars, organic and inorganic ions, water, and hormones across membranes and through vascular systems of plants.

Prerequisite: BZ 331 and BZ 440.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 544 Presenting Research in Biology Credits: 2 (2-0-0)

Course Description: Procedures for preparing and presenting results of biological research in scientific journals and at professional meetings.

Prerequisite: None.

Registration Information: Written consent of instructor.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

BZ 548 Theory of Population and Evolutionary Ecology Credits: 4 (3-3-0)

Course Description: Principles and methods for building, analyzing, and interpreting mathematical models of ecological and evolutionary problems in biology; research module.

Prerequisite: MATH 155 or MATH 160.

Registration Information: Must register for lecture and laboratory. Credit allowed for only one of the following: BZ 548, BZ 348, MATH 348.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 560 Teaching and Communicating Science Credits: 3 (3-0-0)

Course Description: Nature of science, scientific reasoning, scientific argumentation, communication theories, and instructional strategies are explored. Develop science argumentation and communication skills in undergraduate courses and in informal settings. Create materials for a professional portfolio.

Prerequisite: (STAT 201 or STAT 204 or STAT 301 or STAT 307 or STAT 315) and (BZ 220 or LIFE 320) and (BZ 350 or LIFE 203 or SOCR 330).

Registration Information: Intended for students in a life science program. Credit allowed for only one of the following: BZ 560, BZ 670 or BZ 680A1.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 565 Next Generation Sequencing Platform/Libraries Credit: 1 (0-2-0)

Also Offered As: MIP 565.

Course Description: Theoretical and experimental aspects of next generation sequencing experiments with a focus on the Illumina platform. Students will create and sequence metagenomic and 16S rDNA libraries from soil samples and unknown bacterial cultures.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. This is a partial semester course. Credit allowed for only one of the following: BZ 565, CM 581A2, or MIP 565.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 568 Sustaining River Ecosystems in Changing World Credits: 3 (3-0-0)

Also Offered As: FW 568.

Course Description: Applying the concepts and principles of freshwater ecosystem structure and function to develop a multidisciplinary and integrated understanding of the approaches and methods for restoring and sustainably managing these systems in the face of increasing human demands and rapid climate change.

Prerequisite: None.

Restriction: .

Registration Information: Senior standing. Credit allowed for only one of the following: BZ 568, BZ 680A2, FW 568, and FW 680A2.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 570 Molecular Aspects of Plant Development Credits: 3 (3-0-0)

Course Description: Molecular mechanisms that regulate diverse vegetative and reproductive developmental processes in plants.

Prerequisite: BC 463 or BZ 350 or MIP 450 or SOCR 330.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 572 Phytoremediation Credits: 3 (3-0-0)

Course Description: Environmental cleanup using plants.

Prerequisite: BZ 120 or LIFE 103.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 575 Molecular and Genomic Evolution Credits: 3 (3-0-0)

Also Offered As: BSPM 575.

Course Description: Molecular, biological mechanisms of evolutionary change: mutation; selection; gene expression/regulation; changes in whole-genome architecture.

Prerequisite: BZ 220 and BZ 350.

Registration Information: Credit not allowed for both BZ 575 and BSPM 575.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 576 Genetics of Model Organisms Credits: 4 (3-0-1)

Also Offered As: BZ 476.

Course Description: Advanced topics in model genetic systems including molecular and developmental genetics.

Prerequisite: BZ 350 or LIFE 201A or LIFE 201B or SOCR 330.

Registration Information: Junior standing. Credit not allowed for both BZ 576 and BZ 476.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BZ 584 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 6 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 587A Internship: General Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 587B Internship: Herbarium Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 594 Independent Study Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 642 Plant Metabolism Credits: 3 (3-0-0)

Course Description: Biosyntheses and transformations of important plant metabolites.

Prerequisite: BC 351 and BZ 440.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

BZ 692A Seminar: Behavior Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 692C Seminar: Ecology Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 692D Seminar: Genetics Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 692E Seminar: Ornithology Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 692G Seminar: Evolution Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 692H Seminar: Departmental Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 695 Independent Study Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 698 Research Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BZ 784 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Maximum of 6 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Major in Biological Science

Biology is the study of all living things—including microscopic bacteria and viruses, plants and animals, and their relationship to their environments. Biology majors study the structure and function of cells, organ systems and tissues of animals and plants, ecology (the relationship between living things and their environment), animal behavior, genetics/genomics and evolution. They learn about physiology, behavior, genetics and heredity, aquatic systems, microscopic organisms such as bacteria, and techniques for diverse areas ranging from field research to biotechnology. This major provides a solid foundation of understanding the basic biological sciences. It also offers an opportunity to choose an area of emphasis within life sciences that relates to particular career goals (for example: pre-health biology; cellular, molecular and genetic biology; behavioral biology; microbiology; botany; zoology; ecology; aquatic biology; evolution, genetics and systematics; etc.).

Learning Outcomes

In addition to mastery of biological knowledge and skills, students will:

- Interpret scientific data both mathematically and statistically.
- Demonstrate organizational and laboratory skills.
- Define scientific hypotheses and design experiments or observations to test them.
- Work effectively in groups.
- Demonstrate strong writing and oral communication skills.

Potential Occupations

Training in biology prepares students for a wide variety of occupations. A degree in biological science offers a broad foundation for professional degrees in nursing, dental, medical or veterinary school, and a number of health professions such as physician's assistant, physical therapy, occupational therapy, optometry or public health. Graduates often pursue advanced degrees in life sciences to carry out basic research or advance into leadership positions in industry. Participation in internships and/or laboratory research experience is highly recommended and strongly encouraged by the department to enhance practical training and development. Our biology graduates have gone on to careers as:

- Aquarium, zoo, and museum worker
- Assistant research scientist
- Research technician in industry or university laboratories
- Biology photographer
- Biotechnologist
- Brewery laboratory assistant
- Fisheries biologist or conservationist
- Consumer product researcher
- Marine bacteriologist
- Field ecologist
- Nuclear medicine technician
- Park naturalist
- Pharmaceutical researcher or salesperson
- Public health officer
- Science librarian
- Environmental educator, health specialist, or impact specialist
- Industrial hygienist
- Occupational therapist (with a master's degree)

- Medical or clinical laboratory technologist

Combining biology with additional skills can lead to other exciting transdisciplinary careers. Biology and computer science can be linked to the ever-expanding and exciting area of bioinformatics. Biology and writing can be incorporated into a career as a technical writer or science fiction novelist. Biology and visual arts combine in medical and scientific illustration. Biology and other humanities may lead to studies of the history of science or medicine. Work in both biology and philosophy/religion can be incorporated in careers in bioethics. Biology is linked with psychology for the neuroscientist or genetic counselor. Study biology and political science to work in environmental law or be a patent lawyer in biotechnology. Try mixing biology and business to get into hospital administration, small business or biotechnology administration. Specialized master's degrees are designed for many of these unique career paths.

Change of Major Process

- **For future or incoming CSU students:** Please contact Admissions (<https://admissions.colostate.edu/>) to declare Biological Science.
- **For current on-campus CSU students:** To learn more about Biological Science and decide if you are interested in declaring, you must first review the major requirements (<https://www.biology.colostate.edu/undergraduate-students/>), then sign up for and attend a Major Information Session (<https://www.biology.colostate.edu/advising/>):
 - These are 50-minute group sessions led by advisors with individualized course recommendations and built-in time to answer your questions.
 - If you are exploring the Biological Science major, or if you are registering before your session, we recommend you review the program links above and register for any open courses that you are eligible to add.

Concentrations

- Biological Science Concentration
- Botany Concentration

Major in Biological Science, Biological Science Concentration

This curriculum provides a broad background in the basic biological sciences, and permits students to select courses in areas of particular interest. The major is especially useful in meeting the pre-professional requirements in the biosciences. Students desiring this preparation should also check the appropriate pre-professional requirements.

The curriculum includes a two-semester introductory biology sequence, cell biology, developmental biology, ecology, evolution, and genetics. Required courses in the physical sciences include a minimum of one year in introductory chemistry and in physics (with labs), and at least one course in organic chemistry (with lab), and one in biochemistry. A calculus course and a statistics course are also required. In addition, students must complete a minimum of 18 upper-division credits of which 9 credits must be from "BZ" courses.

Department of Biology Undergraduate Programs (<https://www.biology.colostate.edu/undergraduate-students/>)

Requirements Effective Fall 2023

To be qualified for graduation, students in the Biological Science major must have a minimum grade of C- in each of their biological, physical science, and mathematical courses used to meet requirements for the major. This applies to courses taken as substitutions for meeting these requirements. The minimum scholastic average acceptable for graduation is 2.000 computed only for courses attempted at CSU.

BZ 487	Internship
BZ 495	Independent Study
BZ 498	Laboratory or Field Research

Major Completion Map

Distinctive Requirements for Degree Program:

TO PREPARE FOR FIRST SEMESTER: The curriculum for the Biological Sciences major -Biological Sciences concentration assumes students enter college prepared to take calculus. Entering students who are not prepared to take calculus will need to fulfill pre-calculus requirements in the first semester. LIFE 102 requires high school chemistry as a prerequisite; CHEM 111 requires Algebra II as a prerequisite (this prerequisite is met by having Algebra II by test credit, transfer credit, or placement out of MATH 117 and MATH 118 on Math Placement Exam). Earned grade of C or better is required in each of their biological, physical science, and mathematical courses used to meet requirements for the major. It is recommended that you do not take BZ 310 and BZ 350 together.

Major in Biological Science, Botany Concentration

Botany is the general study of plants and plant-like organisms from microscopic algae to giant redwoods, from mushrooming fungi to flowering angiosperms. Plant anatomy, how plants grow and develop, and how they survive and interrelate within their environments are topics of study. For students who like the outdoors, a career in plant ecology, taxonomy, or forestry might be appealing. Students attracted to the

beauty and design of the microscopic world might enjoy a career in plant anatomy or plant developmental biology. Those interested in chemistry might enjoy plant biochemistry, molecular biology, or plant biotechnology. Those intrigued by plant diseases might become plant pathologists and the mathematically oriented might explore systems ecology, genetics, or plant biotechnology.

The botany curriculum begins with a solid foundation in mathematics, the biological sciences, chemistry, organic chemistry, physics, evolution, and genetics. Botany emphasizing terrestrial plant studies including plant systematics, anatomy, and ecology, biochemistry, and earth sciences round out the core. Botany students also take liberal arts and communications courses to give breadth to their education.

Major in Zoology

Zoologists study animals—their origin, behavior, diseases, and life processes. Some experiment with live animals in controlled or natural surroundings while others study the structure and function of animal cells, tissues, and organ systems. Some zoologists go on to study veterinary medicine. Zoologists participate in research that has practical outcomes in farming, medicine, pharmacy, wildlife conservation, and pest control. Zoology encompasses many specialties. At CSU, students may focus on general training in animal biology or choose a concentration in the following areas: animal behavior, development, aquatic biology, ecology (how animals adapt to their environments), genetics and evolution, invertebrate organisms, cellular/molecular biology and physiology, systematics, and morphology of vertebrate organisms.

The curriculum is designed to provide a basic understanding of zoology through a variety of laboratory experiences in combination with the study of basic theories and defining concepts. The program encourages flexibility, strength, and depth. The course work includes a two-semester introductory biology sequence, one course each in invertebrates and vertebrates, and courses in evolution and ecology. Required courses in the physical sciences include a minimum of one year of introductory chemistry and at least one course in organic chemistry, two courses in physics (all with labs) and one in biochemistry. A course each in calculus and statistics is also required. In addition, students select a minimum of 15 credits of Zoology courses in their chosen areas of concentration.

Learning Outcomes

In addition to mastery of biological knowledge and skills, students will:

- Interpret scientific data.
- Demonstrate strong organizational and laboratory skills.
- Define scientific hypotheses and design experiments to test them.

- Work effectively in groups.
- Demonstrate strong writing and oral communication skills.

Potential Occupations

This major prepares students to work in various areas of zoology, such as research or private industry, or to begin graduate school or professional studies. Career opportunities include medical biotechnology, research technician, protective agencies such as shelters and refuges, trainers and handlers, animal-related business, aquatic/marine biologists, exotic animal specialists, and wildlife conservation. It is an appropriate major for students planning to attend medical or veterinary school. Graduates often pursue advanced degrees to carry out basic research or advance into leadership positions in industry. Participation in internships, laboratory, or research opportunities is highly recommended and encouraged by the department to enhance practical training and development.

Additional careers for Zoology majors include, but are not limited to: aquarium and museum curator/director; zoo keeper, animal trainer and instructor, science librarian, environmental technician, fish and wildlife technician, veterinary technician/assistant, marine bacteriologist or biologist or ecologist, humane society positions, cytotechnologist, ecologist, fisheries biologist or conservationist, laboratory technician, marketing researcher, medical technologist, park ranger, pharmaceutical sales representative, production supervisor, quality analysis technician in food or pharmaceutical industry, radiation protection technician, research technician, industrial hygienist, wildlife photographer.

Change of Major Process

- **For future or incoming CSU students:** Please contact Admissions (<https://admissions.colostate.edu/>) to declare Zoology.
- **For current on-campus CSU students:** To learn more about Zoology and decide if you are interested in declaring, you must first review the Zoology Major Requirements (<https://www.biology.colostate.edu/undergraduate-students/>). Then sign up for and attend a Major Information Session (<https://www.biology.colostate.edu/advising/>):
 - These are 50-minute group sessions led by advisors with individualized course recommendations and built-in time to answer your questions.
 - If you are exploring the Zoology major, or if you are registering before your session, we recommend you review the Zoology Major Requirements link above and register for any open courses that you are eligible to add.

Requirements Effective Fall 2023

To be qualified for graduation, students in the Zoology major must have a minimum grade of C- in each of their biological, physical science, and mathematical courses used to meet requirements for the major. This applies to courses taken as substitutions for meeting these requirements. The minimum scholastic average acceptable for graduation is 2.000 computed only for courses attempted at CSU.

A maximum of 6 credits may be selected from the following courses:

BMS 300	Principles of Human Physiology
BMS 305	Domestic Animal Gross Anatomy
MIP 300	General Microbiology
MIP 302	General Microbiology Laboratory
MIP 315	Pathology of Human and Animal Disease
MIP 342	Immunology
MIP 343	Immunology Laboratory

A maximum of 3 credits may be selected from the following courses:

BZ 384	Supervised College Teaching
BZ 487	Internship
BZ 495	Independent Study
BZ 498	Laboratory or Field Research

¹ Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

² CHEM 341, CHEM 343, and CHEM 344 may be taken as an alternative to CHEM 245 and CHEM 246.

Major Completion Map**Distinctive Requirements for Degree Program:**

TO PREPARE FOR FIRST SEMESTER: The curriculum for the Zoology major assumes students enter college prepared to take calculus. Entering students who are not prepared to take calculus will need to fulfill pre-calculus requirements in the first semester. LIFE 102 requires high school chemistry as a prerequisite; CHEM 111 requires Algebra II as a prerequisite (this prerequisite is met by having Algebra II by test credit,

transfer credit, or placement out of MATH 117 and MATH 118 on Math Placement Exam). Earned grade of C or better is required in each of their biological, physical science, and mathematical courses used to meet requirements for the major. Term 5 may have to be adjusted if the

student chooses 2 semesters of Organic Chemistry. It is recommended that you do not take BZ 350 and BZ 310 together.

Minor in Botany

The minor in Botany is offered to provide interested students with maximum breadth and depth in botanical science utilizing a limited number of requirements. The program also serves to broaden the academic background of students seeking employment in the interdisciplinary job market associated with the plant sciences.

Department of Biology Undergraduate Programs (<https://www.biology.colostate.edu/undergraduate-students/>)

Requirements Effective Fall 2007

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Lower Division

Master of Science in Biological Science

Studies in the Department of Biology's (<https://www.biology.colostate.edu/>) Master of Science in Biological Science (Plan A and Plan B) degree program span everything from molecules to ecosystems and involve the study of organisms across all domains of life. Topics are rooted in both basic and applied research. Students work and study at sites within Colorado, across the United States, and around the world. Some general areas of investigation include:

- anatomy/morphology
- behavior

Plan A Effective Fall 2018

Code	Title	Credits
Coursework completed in consultation with advisor		30
BZ 699	Thesis	
Minimum of 24 credits earned at CSU		
Minimum of 21 credits earned at CSU since admission to the Graduate School		
Minimum of 16 credits earned at CSU at the 500-level or higher		
Minimum of 12 credits earned at CSU in regular courses at the 500-level or higher (which excludes courses ending in -82 through -99)		
Program Total Credits:		30

A minimum of 30 credits are required to complete this program.

Additional Program Requirements:

- No specific courses must be taken in satisfaction of Departmental degree requirements; however, the candidate must be able to demonstrate a general knowledge of biological science as well as competence in specific areas of concentration.
- A graduate student participating in an advanced degree program of the Department of Biology must meet with the Graduate Advisory Committee at least once annually, and the student shall submit an annual report of progress toward the degree, signed by their Graduate Advisory Committee, to the Department Chair for review.
- A graduate degree in Biological Science indicates that the individual has achieved a professional level of competence in research as well as formal classwork. Consequently satisfactory progress in a research program must parallel the effort in coursework.

- A completed thesis must be submitted to the Graduate Advisory Committee and approved following a successful oral defense (final examination).

Plan B

Effective Fall 2018

Code	Title	Credits

Courses

Subjects in the department include: Chemistry (CHEM).

Chemistry (CHEM)

CHEM 103 Chemistry in Context (GT-SC2) Credits: 3 (3-0-0)

Course Description: Chemistry, chemical principles from more conceptual, less mathematical perspective; how chemical substances, chemical reactions affect our daily lives.

Prerequisite: None.

Registration Information: For students who do not plan to take additional courses in chemistry. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).

CHEM 104 Chemistry in Context Laboratory (GT-SC1) Credit: 1 (0-2-0)

Course Description: Laboratory applications of principles covered in CHEM 103.

Prerequisite: CHEM 103, may be taken concurrently.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/ lab (GT-SC1).

CHEM 105 Problem Solving in General Chemistry Credits: 2 (1-0-1)

Course Description: Foundational problem-solving skills in general chemistry to support students for later success in general chemistry courses.

Prerequisite: MATH 118 or MATH 120 or MATH 127 or MATH 141 or MATH 155 or MATH 160 or MATH 161 or MATH 229 or MATH 261.

Registration Information: This is a partial semester course. Must register for lecture and recitation.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 107 Fundamentals of Chemistry (GT-SC2) Credits: 4 (4-0-0)

Course Description: Atomic/molecular theory, gases, liquids, solids, solutions, acid/base and oxidation/reduction reactions, kinetics, selected topics. Quantitative reasoning but with less focus on mathematical calculations than CHEM 111/CHEM 113.

Prerequisite: MATH 117 or MATH 120 or MATH 127 or MATH 141, may be taken concurrently or MATH 155, may be taken concurrently or MATH 160, may be taken concurrently or MATH 161, may be taken concurrently or MATH 229, may be taken concurrently or MATH 261, may be taken concurrently.

Registration Information: For students in science-related programs requiring one semester of general chemistry. Sections may be offered: Online. Credit allowed for only one of the following: CHEM 107, CHEM 111, CHEM 117, or CHEM 120.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).

CHEM 108 Fundamentals of Chemistry Laboratory (GT-SC1) Credit: 1 (0-2-0)

Course Description: Laboratory applications of principles presented in CHEM 107.

Prerequisite: CHEM 107, may be taken concurrently.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: CHEM 108, CHEM 112, or CHEM 121.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/ lab (GT-SC1).

CHEM 111 General Chemistry I (GT-SC2) Credits: 4 (3-0-1)

Course Description: Fundamental aspects of chemistry and chemical principles; emphasis on structure, bonding, and stoichiometry.

Prerequisite: MATH 118 or MATH 120 or MATH 127 or MATH 141 or MATH 155 or MATH 160 or MATH 161 or MATH 229 or MATH 261.

Registration Information: Must register for lecture and recitation. Intended for science majors. Students should complete the sequence CHEM 111, CHEM 112, CHEM 113, and CHEM 114. Credit allowed for only one of the following: CHEM 107, CHEM 111, CHEM 117, or CHEM 120.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).

CHEM 112 General Chemistry Lab I (GT-SC1) Credit: 1 (0-3-0)

Course Description: Laboratory applications of principles covered in CHEM 111.

Prerequisite: CHEM 111, may be taken concurrently or CHEM 117, may be taken concurrently.

Registration Information: Credit not allowed for both CHEM 112 and CHEM 108.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/ lab (GT-SC1).

CHEM 113 General Chemistry II Credits: 3 (3-0-0)

Course Description: Acid/base equilibria, kinetics, thermodynamics, solubility, oxidation-reduction reactions, electrochemistry, selected topics.

Prerequisite: (CHEM 107 or CHEM 111 or CHEM 117) and (MATH 120 or MATH 124 or MATH 127 or MATH 141, may be taken concurrently or MATH 155, may be taken concurrently or MATH 160, may be taken concurrently or MATH 161, may be taken concurrently or MATH 229, may be taken concurrently or MATH 261, may be taken concurrently).

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 114 General Chemistry Lab II Credit: 1 (0-3-0)

Course Description: Laboratory applications of principles covered in CHEM 113.

Prerequisite: (CHEM 108 or CHEM 112) and (CHEM 113, may be taken concurrently).

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

CHEM 115 General Chemistry II Recitation Credit: 1 (0-0-1)

Course Description: Problem solving applied to topics in, e.g., acid/base equilibria, kinetics, thermodynamics, solubility, oxidation-reduction reactions, electrochemistry.

Prerequisite: None.

Registration Information: Must have concurrent registration in CHEM 113.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 117 General Chemistry I for Chemistry Majors Credits: 3 (3-0-0)

Course Description: Fundamental aspects of chemistry and chemical principles, with an emphasis placed on atomic and molecular structure, bonding and stoichiometry.

Prerequisite: MATH 118 or MATH 120 or MATH 127 or MATH 141 or MATH 155 or MATH 160 or MATH 161 or MATH 229 or MATH 261.

Registration Information: Must have concurrent registration in CHEM 192. Credit allowed for only one of the following: CHEM 107, CHEM 111, CHEM 117, or CHEM 120.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 120 Foundations of Modern Chemistry (GT-SC2) Credits: 4 (3-0-1)

Course Description: Fundamental aspects of chemistry and chemical principles, with an emphasis placed on modern atomic and molecular structure theory, structure and reactivity.

Prerequisite: MATH 118 or MATH 120 or MATH 127 or MATH 141 or MATH 155 or MATH 160 or MATH 161 or MATH 229 or MATH 261.

Registration Information: Intended for Chemistry majors. Must register for lecture and recitation. Credit allowed for only one of the following: CHEM 107, CHEM 111, CHEM 117, or CHEM 120.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).

CHEM 121 Foundations of Modern Chemistry Laboratory (GT-SC1) Credit: 1 (0-3-0)

Course Description: Laboratory applications of principles covered in CHEM 120.

Prerequisite: CHEM 120, may be taken concurrently.

Registration Information: Intended for Chemistry majors. Credit allowed for only one of the following: CHEM 108, CHEM 112, or CHEM 121.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/ lab (GT-SC1).

CHEM 192 Introductory Seminar in Chemistry Credits: 2 (0-0-2)

Course Description: Small-group discussions of aspects of chemistry.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 231 Foundations of Analytical Chemistry Credits: 3 (3-0-0)

Course Description: Fundamental chemical measurement science. Measuring chemical composition, either qualitative or quantitative, is essential to interact with the world and understand chemistry. Importance of equilibrium in making measurements.

Prerequisite: CHEM 111 and CHEM 112 or CHEM 120 and CHEM 121.

Registration Information: Chemistry majors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 232 Foundations of Analytical Chemistry Lab Credits: 2 (0-6-0)

Course Description: Laboratory applications of principles of analytical chemistry.

Prerequisite: CHEM 114 or CHEM 231, may be taken concurrently.

Registration Information: Chemistry majors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CHEM 241 Foundations of Organic Chemistry Credits: 4 (3-0-1)

Course Description: Nomenclature, structure, bonding, reactions, mechanisms, synthesis, and the stereochemistry of organic compounds.

Prerequisite: CHEM 111 and CHEM 113 or CHEM 120.

Registration Information: Must register for lecture and recitation. Credit allowed for only one of the following: CHEM 241, CHEM 245, CHEM 341, or CHEM 345.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 242 Foundations of Organic Chemistry Laboratory Credit: 1 (0-3-0)

Course Description: Laboratory applications of organic chemistry principles.

Prerequisite: (CHEM 114 or CHEM 121) and (CHEM 241, may be taken concurrently).

Registration Information: Chemistry majors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CHEM 245 Fundamentals of Organic Chemistry Credits: 4 (4-0-0)

Course Description: Nomenclature, structure, bonding, reactions, mechanisms, synthesis, stereochemistry of organic compounds.

Prerequisite: CHEM 107 or CHEM 113.

Registration Information: Intended for students in science-related programs requiring one semester of organic chemistry. Credit allowed for only one of the following: CHEM 245, CHEM 341, and CHEM 345. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 246 Fundamentals of Organic Chemistry Laboratory Credit: 1 (0-2-0)

Course Description: Laboratory applications of principles presented in CHEM 245.

Prerequisite: (CHEM 108 or CHEM 112 or CHEM 114) and (CHEM 245, may be taken concurrently).

Registration Information: Credit not allowed for students who have already taken CHEM 344.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

CHEM 261 Fundamentals of Inorganic Chemistry Credits: 3 (3-0-0)

Course Description: Preparation, structures, properties, and reactions of chemical elements and inorganic compounds; periodic trends, organizing principles; applications.

Prerequisite: CHEM 113, may be taken concurrently.

Registration Information: Credit not allowed for both CHEM 261 and CHEM 263.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 263 Foundations of Inorganic Chemistry Credits: 4 (3-0-1)

Course Description: Preparation, structures, properties, and reactions of chemical elements and inorganic compounds; periodic trends, organizing principles; applications.

Prerequisite: CHEM 111 and CHEM 112 or CHEM 120 and CHEM 121.

Registration Information: Must have concurrent registration in CHEM 264. Must register for lecture and recitation. Chemistry majors only. Credit not allowed for both CHEM 261 and CHEM 263.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 264 Foundations of Inorganic Chemistry Laboratory Credit: 1 (0-3-0)

Course Description: Synthetic techniques and instrumental methods in inorganic chemistry.

Prerequisite: CHEM 111 and CHEM 112 or CHEM 120 and CHEM 121.

Registration Information: Must have concurrent registration in CHEM 263. Chemistry majors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CHEM 301 Advanced Scientific Writing--Chemistry (GT-CO3) Credits: 3 (3-0-0)

Course Description: Advanced scientific writing using the read-analyze-write approach to writing scientific journal articles.

Prerequisite: (CO 150) and (CHEM 232 or CHEM 242 or CHEM 264 or CHEM 322 or CHEM 334 or CHEM 344 or CHEM 345 or CHEM 498).

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Advanced Writing 2, Advanced Writing (GT-CO3).

CHEM 311 Introduction to Nanoscale Science Credits: 3 (3-0-0)

Prerequisite: (CHEM 113) and (CHEM 346 or CHEM 343).

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 315 Foundations of Polymer Chemistry Credits: 3 (3-0-0)

Course Description: Synthesis, characterization, and applications of polymeric materials.

Prerequisite: CHEM 241 or CHEM 245 or CHEM 341 or CHEM 345.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 320 Chemistry of Additions Credits: 3 (3-0-0)

Course Description: Chemical processes of addition; receptor binding, molecular deactivation, and feedback in the context of protein-substrate molecular interactions.

Prerequisite: CHEM 241 or CHEM 245 or CHEM 341 or CHEM 345.

Registration Information: Junior standing.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 321 Foundations of Chemical Biology Credits: 4 (3-0-1)

Course Description: Principles of chemical biology. Chemical methods for understanding and controlling the structure and function of biopolymers.

Prerequisite: CHEM 241 or CHEM 341.

Registration Information: Must register for lecture and recitation.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 322 Foundations of Chemical Biology Laboratory Credit: 1 (0-3-0)

Course Description: Chemical biology approaches used to illustrate how chemistry can be applied to manipulate and study biological problems using a combination of experimental techniques ranging from organic chemistry, analytical chemistry, biochemistry, molecular biology, biophysical chemistry, and cell biology.

Prerequisite: BC 351, may be taken concurrently or CHEM 321, may be taken concurrently.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CHEM 333 Forensic Chemistry Credits: 3 (3-0-0)

Course Description: Basic knowledge related to the application of chemical principles in forensic sciences. Techniques discussed are hair, soil, dye, glass, ammunition, drugs, and biological materials analysis. These techniques are used to support evidence on and off the crime scene.

Prerequisite: (LIFE 102) and (CHEM 108 or CHEM 114 or CHEM 232) and (CHEM 241 or CHEM 245 or CHEM 341).

Restriction: Must not be a: Freshman.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 334 Quantitative Analysis Laboratory Credit: 1 (0-3-0)

Course Description: Laboratory applications of principles presented in CHEM 335.

Prerequisite: CHEM 114 and CHEM 335, may be taken concurrently.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 335 Introduction to Analytical Chemistry Credits: 3 (3-0-0)

Course Description: Modern and classical applications and methods in analytical chemistry including statistical, kinetic, spectroscopic, and chromatographic analysis.

Prerequisite: CHEM 113 with a minimum grade of C and CHEM 334, may be taken concurrently.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 338 Environmental Chemistry Credits: 3 (3-0-0)

Course Description: Processes that control the fate of chemicals in the environment. Focus on the chemistry of the atmosphere, hydrosphere, and soils, especially as it pertains to pollution of these environmental compartments. Topics covered in the course may include smog and air pollution, ocean acidification, acid mine drainage, pesticide chemistry, and heavy metal contamination.

Prerequisite: (CHEM 107 or CHEM 113 or CHEM 120 or CHEM 231 or CHEM 263) and (CHEM 241 or CHEM 245 or CHEM 341 or CHEM 345).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 341 Modern Organic Chemistry I Credits: 3 (3-0-0)

Course Description: Structures, nomenclature, dynamics, spectroscopy, and reactions of organic molecules.

Prerequisite: CHEM 113.

Registration Information: Credit allowed for only one of the following: CHEM 341, CHEM 245, and CHEM 345.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 343 Modern Organic Chemistry II Credits: 3 (3-0-0)

Course Description: Continued studies of reactions and mechanisms of organic molecules and biological chemistry.

Prerequisite: CHEM 241 with a minimum grade of C- or CHEM 245 with a minimum grade of C- or CHEM 341 with a minimum grade of C- or CHEM 345 with a minimum grade of C-.

Registration Information: Credit not allowed for both CHEM 343 and CHEM 346.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 344 Modern Organic Chemistry Laboratory Credits: 2 (0-6-0)

Course Description: Laboratory applications of modern organic chemistry.

Prerequisite: CHEM 114 and CHEM 343, may be taken concurrently.

Registration Information: Intended for science majors. Credit not allowed for both CHEM 344 and CHEM 246.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

CHEM 345 Organic Chemistry I Credits: 4 (3-3-0)

Course Description: Structure, nomenclature, dynamics, spectroscopy, reactions of organic molecules. Laboratory applications of principles presented in lecture.

Prerequisite: CHEM 113 and CHEM 114.

Registration Information: Chemistry majors only. Must register for lecture and laboratory. Students should plan to complete the sequence CHEM 345, CHEM 346. Credit allowed for only one of the following: CHEM 245, CHEM 341, and CHEM 345.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

CHEM 346 Organic Chemistry II Credits: 4 (3-3-0)

Course Description: Continue studies of reactions and mechanisms of organic molecules. Laboratory applications of principles presented in lecture.

Prerequisite: CHEM 345.

Registration Information: Chemistry majors only. Must register for lecture and laboratory. Students should plan to complete the sequence CHEM 345 and CHEM 346. Credit not allowed for both CHEM 343 and CHEM 346.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CHEM 371 Fundamentals of Physical Chemistry Credits: 4 (4-0-0)

Course Description: Quantum mechanics; molecular structure and spectroscopy; statistical and equilibrium thermodynamics; kinetics.

Prerequisite: (CHEM 232) and (MATH 161 or MATH 271) and (PH 141).

Registration Information: Chemistry majors only. Credit allowed for only one of the following CHEM 371, CHEM 473, or CHEM 474.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 372 Fundamentals of Physical Chemistry Lab Credit: 1 (0-3-0)

Course Description: Laboratory experiments illustrate the Fundamentals of Physical Chemistry, including atomic and molecular spectroscopy, thermochemistry, chemical equilibrium, and kinetics.

Prerequisite: CHEM 371, may be taken concurrently.

Registration Information: Chemistry majors only. Credit not allowed for both CHEM 372 and CHEM 475.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CHEM 384 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: CHEM 100 to 499 - at least 20 credits.

Registration Information: Written consent of department chair. Maximum of 12 credits for any combination of CHEM 384, CHEM 487, CHEM 495, CHEM 498. A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CHEM 431 Instrumental Analysis Credits: 4 (3-3-0)

Course Description: Instrumental methods of chemical analysis.

Prerequisite: CHEM 371 and CHEM 372 or CBE 310, may be taken concurrently or CHEM 473, may be taken concurrently or CHEM 474, may be taken concurrently.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

CHEM 433 Clinical Chemistry Credits: 3 (2-3-0)

Course Description: Principles and methodology of clinical chemistry. Laboratory experience in methodology and method development.

Prerequisite: (CHEM 232 or CHEM 334) and (BC 404 or CHEM 322).

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: Yes.

CHEM 440 Advanced Organic Chemistry Laboratory Credits: 2 (0-6-0)

Course Description: Advanced techniques in organic synthesis, mechanisms of reactions, structure determination.

Prerequisite: CHEM 242 or CHEM 344 or CHEM 346.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

CHEM 442 Chemistry of Hemp and Cannabis Credits: 3 (2-3-0)

Course Description: Examine characteristics of cannabis chemical families and the pharmacological properties. Study the methods for isolation, separation, processing and the transformation into commercial products within the context of chemical principles. Examine analytic techniques for quantitation.

Prerequisite: (CHEM 241 or CHEM 245 or CHEM 341 and CHEM 343) and (CHEM 113 or CHEM 231 or CHEM 335) and (CHEM 232 or CHEM 334) and (CHEM 242 or CHEM 246 or CHEM 344).

Registration Information: Must register for lecture and laboratory. Credit not allowed for both CHEM 442 and CHEM 480A3.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CHEM 445 Synthetic Organic Chemistry Credits: 3 (3-0-0)

Course Description: Functional group interconversions, carbonyl chemistry, alkene synthesis, pericyclic reactions, metal-mediated reactions, synthetic planning and retrosynthesis, stereocontrolled reactions.

Prerequisite: CHEM 241 or CHEM 343 or CHEM 346.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 448 Medicinal Chemistry Credits: 3 (3-0-0)

Course Description: Foundational understanding of how drugs function and affect biological systems, overview of the pharmaceutical industry, synthetic chemistry relevant to therapeutic compounds, introduction to process (scale up) chemistry, case studies of drug development.

Prerequisite: CHEM 241 or CHEM 343 or CHEM 346.

Registration Information: Sections may be offered: Online. Credit not allowed for both CHEM 448 and CHEM 480A2.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 451 Foundations of Catalytic Chemistry Credits: 3 (3-0-0)

Course Description: Foundational aspects of catalytic chemistry applied to homogeneous and heterogeneous systems utilizing molecular and biological catalysts as well as nano and supported catalytic materials.

Prerequisite: (CHEM 241 or CHEM 343 or CHEM 346) and (CHEM 261 or CHEM 263) and (BC 351 or CHEM 321) and (CHEM 371 or CHEM 473 or CHEM 474).

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 461 Inorganic Chemistry Credits: 3 (3-0-0)

Course Description: Concepts, models to explain structural, spectroscopic, magnetic, thermodynamic, and kinetic properties of inorganic compounds; symmetry, group theory.

Prerequisite: (CHEM 261 or CHEM 263) and (CBE 310 or CHEM 371 or CHEM 474).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 462 Inorganic Chemistry Laboratory Credits: 2 (0-6-0)

Course Description: Synthetic techniques and instrumental methods in inorganic chemistry.

Prerequisite: CHEM 461, may be taken concurrently.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CHEM 465 Chemistry of Sustainable E-Waste Management Credit: 1 (1-0-0)

Course Description: A chemistry complement to a trans-disciplinary overview of the electronics industry. Focus on the chemistry of the extraction, use, and toxicity of electronics materials.

Prerequisite: (CHEM 263) and (BC 351 or CHEM 321) and (CHEM 371) and (GES 465, may be taken concurrently or MSE 465, may be taken concurrently).

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 473 Foundations of Physical Chemistry Credits: 4 (4-0-0)

Course Description: Quantum chemistry; molecular structure and spectroscopy; equilibrium thermodynamics; kinetics.

Prerequisite: (CHEM 113) and (MATH 161 or MATH 255 or MATH 271) and (PH 122 or PH 142).

Registration Information: Credit allowed for only one of the following CHEM 371, CHEM 473, or CHEM 474.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 474 Physical Chemistry I Credits: 3 (3-0-0)

Course Description: Quantum chemistry; applications to bonding, molecular structure, and spectroscopy.

Prerequisite: (CHEM 113) and (MATH 261 or MATH 272) and (PH 142).

Registration Information: Credit allowed for only one of the following CHEM 371, CHEM 473, or CHEM 474.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 475 Physical Chemistry Laboratory I Credit: 1 (0-3-0)

Course Description: Physiochemical experiments; emphasis on quantum mechanics/spectroscopy; interpretation/presentation of data; formal lab reports.

Prerequisite: (CBE 310, may be taken concurrently or CHEM 473, may be taken concurrently or CHEM 474, may be taken concurrently) and (CHEM 334).

Registration Information: Credit not allowed for both CHEM 372 and CHEM 475.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CHEM 476 Physical Chemistry II Credits: 3 (3-0-0)

Course Description: Statistical thermodynamics; applications to phase and chemical equilibria; kinetics.

Prerequisite: CHEM 371 or CHEM 474.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 477 Physical Chemistry Laboratory II Credit: 1 (0-3-0)

Course Description: Physiochemical experiments; emphasis on thermodynamics/statistical mechanics/kinetics; interpretation/presentation of data; formal lab reports.

Prerequisite: CHEM 475.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CHEM 487 Internship Credits: Var[1-12] (0-0-0)

Course Description: Supervised work experience in approved off-campus chemical laboratory setting. Consultation with faculty adviser/instructor.

Prerequisite: CHEM 476.

Registration Information: Maximum of 12 credits allowed for any combination of CHEM 384, CHEM 487, CHEM 495, and CHEM 498.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CHEM 493 Senior Seminar Credits: 2 (0-0-2)

Course Description: Critical analysis of selected literature; develop presentation of technical topic; required oral presentation.

Prerequisite: CHEM 371 or CHEM 473 or CHEM 474.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 495 Independent Study Credits: Var[1-3] (0-0-0)

Prerequisite: CHEM 100 to 499 - at least 9 credits.

Grade Mode: Instructor Option.

Special Course Fee: No.

CHEM 498 Research Credits: Var[1-3] (0-0-0)

Prerequisite: CHEM 100 to 499 - at least 20 credits.

Grade Mode: Instructor Option.

Special Course Fee: No.

CHEM 499 Senior Thesis Credits: 2 (0-0-2)

Course Description: Preparation of a written thesis and an oral defense, based upon undergraduate research performed or an internship experience, under the guidance of a thesis advisor and thesis committee.

Prerequisite: CHEM 487 or CHEM 498.

Registration Information: Senior standing. Written consent of department chair.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 511 Solid State Chemistry Credits: 3 (3-0-0)

Course Description: Physical and descriptive chemistry of solids including characterization and synthetic methods.

Prerequisite: CHEM 461 and CHEM 476.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 515 Polymer Chemistry Credits: 3 (3-0-0)

Course Description: Fundamentals of polymer chemistry: synthesis, characterization, physical properties.

Prerequisite: CHEM 346 and CHEM 476.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 517 Chemistry of Electronic Materials Credits: 3 (3-0-0)

Course Description: Chemical aspects of preparation and processing of materials in electronic devices, "molecular electronics," and nanostructured materials.

Prerequisite: CHEM 571A, may be taken concurrently or CHEM 571B, may be taken concurrently.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 521 Principles of Chemical Biology Credits: 3 (3-0-0)

Also Offered As: BC 521.

Prerequisite: CHEM 245 or CHEM 343 or CHEM 346.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 522 Methods of Chemical Biology Credits: 2 (2-0-0)

Course Description: Approaches to quantitative chemical biology, visualization, study and characterization of macromolecules and macromolecular-dependent processes.

Prerequisite: BC 351 with a minimum grade of B or BC 401 with a minimum grade of B.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 530A Advanced Topics in Chemical Analysis: Environmental Chemical Analysis Credit: 1 (1-0-0)

Course Description:

Prerequisite: CHEM 431, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 530B Advanced Topics in Chemical Analysis: Absorption and Emission Spectroscopy Credit: 1 (1-0-0)

Course Description:

Prerequisite: CHEM 431, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 530C Advanced Topics in Chemical Analysis: Bioanalytical Chemistry Credit: 1 (1-0-0)

Course Description:

Prerequisite: CHEM 431, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 530D Advanced Topics in Chemical Analysis: Statistical Analysis in Analytical Chemistry Credit: 1 (1-0-0)

Course Description:

Prerequisite: CHEM 431, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 530E Advanced Topics in Chemical Analysis: Mass Spectrometry Credit: 1 (1-0-0)

Course Description:

Prerequisite: CHEM 431, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 530F Advanced Topics in Chemical Analysis: Analysis of Materials Credit: 1 (1-0-0)

Course Description:

Prerequisite: CHEM 431, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 532 Advanced Chemical Analysis II Credits: 3 (3-0-0)

Course Description: Advanced optics; instrumentation and methodology for analytical spectroscopy; computer applications.

Prerequisite: CHEM 431.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 533 Chemical Separations Credits: 3 (3-0-0)

Course Description: Fundamentals and applications of chemical separations.

Prerequisite: CHEM 335 and CHEM 431.

Terms Offered: Fall, Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 537 Electrochemical Methods Credits: 3 (3-0-0)

Course Description: Theory and methods of electrochemistry; applications of modern electrochemical techniques.

Prerequisite: CHEM 431.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 539A Principles of NMR and MRI: Basic NMR Principles Credit: 1 (1-0-0)

Course Description:

Prerequisite: CHEM 474.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 539B Principles of NMR and MRI: NMR Diffusion Measurements-2D NMR and MRI Credit: 1 (1-0-0)

Course Description:

Prerequisite: CHEM 474.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 539C Principles of NMR and MRI: Advanced NMR and MRI Techniques Credit: 1 (1-0-0)

Course Description:

Prerequisite: CHEM 474.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 541 Organic Molecular Structure Determination Credits: 2 (2-0-0)

Course Description: Determination of organic molecular structure by spectroscopic methods.

Prerequisite: CHEM 440.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 543 Structure/Mechanisms in Organic Chemistry Credits: 2 (2-0-0)

Course Description: Structure including stereochemistry and conformational isomerism; reactivity and mechanisms in organic chemistry.

Prerequisite: CHEM 343 or CHEM 346.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 545 Synthetic Organic Chemistry I Credits: 3 (3-0-0)

Course Description: Reactions and synthesis in organic chemistry.

Prerequisite: CHEM 543.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 547 Physical Organic Chemistry Credits: 3 (3-0-0)

Course Description: Mechanisms, theory, kinetics, and thermodynamics.

Prerequisite: CHEM 543.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 548 Organometallics in Synthesis Credits: 2 (2-0-0)

Course Description: Fundamental aspects of organometallic chemistry applied to organic synthesis.

Prerequisite: CHEM 545.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 549 Synthetic Organic Chemistry II Credits: 2 (2-0-0)

Course Description: Strategies for the total synthesis of natural products.

Prerequisite: CHEM 545.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 550A Materials Chemistry: Hard Materials Credit: 1 (1-0-0)

Course Description: Structure and bonding; crystallography; properties; synthesis; characterization of metals, semiconductors, and network solids.

Prerequisite: (CHEM 343 or CHEM 346) and (CHEM 461 and CHEM 476).

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 550B Materials Chemistry: Soft Materials Credit: 1 (1-0-0)

Course Description: Structure and bonding, mechanisms, properties, applications, synthesis, characterization of polymers, complex fluids, and biomaterials.

Prerequisite: (CHEM 343 or CHEM 346) and (CHEM 461 and CHEM 476).

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 550C Materials Chemistry: Nanomaterials Credit: 1 (1-0-0)

Course Description: Structure and bonding, synthesis, properties, characterization of carbon nanotubes, metal and semiconductor nanocrystals, and nanocomposites.

Prerequisite: (CHEM 343 or CHEM 346) and (CHEM 461 and CHEM 476).

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 551 Catalytic Chemistry Credits: 3 (3-0-0)

Course Description: Fundamental aspects of catalytic chemistry applied to homogeneous and heterogeneous systems utilizing molecular catalysts as well as nano and supported catalytic materials.

Prerequisite: (CHEM 343 or CHEM 346) and (CHEM 461 and CHEM 476).

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 555 Chemistry of Sustainability Credits: 3 (3-0-0)

Course Description: The central role of chemistry for achieving sustainability in key areas including chemicals and materials, energy, and environment.

Prerequisite: (BC 411 or CBE 310 or CHEM 476) and (CHEM 343 or CHEM 346).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 560 Foundations of Inorganic Synthesis Credit: 1 (1-0-0)

Prerequisite: CHEM 461.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 561 Inorganic Synthesis Credits: 2 (2-0-0)

Course Description: Chemistry of compounds of representative elements and transition metals.

Prerequisite: CHEM 560, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 563A Physical Methods in Inorganic Chemistry: Group Theory Credit: 1 (1-0-0)

Course Description: Modern experimental methods in inorganic chemistry.

Prerequisite: CHEM 461.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 563B Physical Methods in Inorganic Chemistry: Vibrational Spectroscopy Credit: 1 (1-0-0)

Course Description: Modern experimental methods in inorganic chemistry.

Prerequisite: CHEM 461.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 563C Physical Methods in Inorganic Chemistry: Electronic Structure and Magnetism Credit: 1 (1-0-0)

Course Description: Modern experimental methods in inorganic chemistry.

Prerequisite: CHEM 461.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 563D Physical Methods in Inorganic Chemistry: Magnetic Spectroscopies Credit: 1 (1-0-0)

Course Description: Modern experimental methods in inorganic chemistry.

Prerequisite: CHEM 461.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 563E Physical Methods in Inorganic Chemistry: Advanced Nuclear Magnetic Resonance Spectroscopy Credit: 1 (1-0-0)

Course Description: Modern experimental methods in inorganic chemistry.

Prerequisite: CHEM 461.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 563F Physical Methods in Inorganic Chemistry: Other Structural Methods Credit: 1 (1-0-0)

Course Description: Modern experimental methods in inorganic chemistry.

Prerequisite: CHEM 461.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 565 Inorganic Mechanisms Credits: 3 (3-0-0)

Course Description: Fundamental tools, key principles, selected classic case histories of inorganic and organometallic mechanistic chemistry, emphasizing kinetic methods.

Prerequisite: CHEM 476.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 566 Bioinorganic Chemistry Credits: 3 (3-0-0)

Course Description: Biological-inorganic chemistry, including key principles, prototype systems, classic papers, and problems.

Prerequisite: CHEM 461.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 567 Crystallographic Computation Credit: 1 (1-0-0)

Course Description: Theory and practice of structural computations using single crystal X-ray diffraction data.

Prerequisite: CHEM 474 with a minimum grade of C-.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 569 Chemical Crystallography Credits: 3 (3-0-0)

Course Description: Theory and practice of determination of crystal and molecular structure by single crystal X-ray and neutron diffraction.

Prerequisite: CHEM 474.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 570 Chemical Bonding Credits: 3 (3-0-0)

Course Description: Electronic structure methods; chemical bonding models; intermolecular interactions.

Prerequisite: CBE 310 or CHEM 474.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 571A Quantum Chemistry: Foundations Credits: 2 (2-0-0)

Course Description: Simple systems; symmetry; approximate methods; time dependent methods; molecular structures.

Prerequisite: CBE 310 or CHEM 474.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 571B Quantum Chemistry: Electronic Structure Credit: 1 (1-0-0)

Course Description: Simple systems; symmetry; approximate methods; time dependent methods; molecular structures.

Prerequisite: CHEM 571A, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 573A Chemical Spectroscopy: Interactions of Light and Matter Credit: 1 (1-0-0)

Course Description: Introduction to the fundamentals of spectroscopies used in chemical analysis from the perspective of time dependent quantum mechanics. Time-dependent perturbation theory, absorption and emission of radiation, two-level systems, and electronic, vibrational and rotational transitions.

Prerequisite: CHEM 571A.

Registration Information: This is a partial semester course.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 573B Chemical Spectroscopy: Electromagnetic Fields in Practice Credit: 1 (1-0-0)

Course Description: Foundation in electromagnetic fields used in chemical spectroscopy. Dispersion and phase, the measurement of electromagnetic fields, properties of short optical pulses, and modulating electromagnetic fields.

Prerequisite: CHEM 431.

Registration Information: This is a partial semester course.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 573C Chemical Spectroscopy: Condensed Phase Spectroscopy Credits: 2 (2-0-0)

Course Description: Foundations of spectroscopic measurements conducted on condensed phase chemical systems. Use of quantum mechanics and statistical mechanics to describe Response Theory, density matrix formalism, correlation functions, line shapes and spectral fluctuations, response functions, and the use of polarization in spectroscopy.

Prerequisite: CHEM 571A and CHEM 576.

Registration Information: This is a partial semester course.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 573D Chemical Spectroscopy: Nonlinear Spectroscopy Credit: 1 (1-0-0)

Course Description: Foundations of multidimensional spectroscopic measurements conducted on chemical systems.

Prerequisite: CHEM 573A and CHEM 573C.

Registration Information: This is a partial semester course.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 573E Chemical Spectroscopy: Spectroscopic Instrumentation Credit: 1 (1-0-0)

Course Description: Instrumentation used to carry out spectroscopic measurements in chemistry research. Lasers and other light sources, optics, and detectors, spectroscopic techniques, and electronic and digital interfacing specific to spectroscopic instrumentation.

Prerequisite: CHEM 431.

Registration Information: This is a partial semester course.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 573F Chemical Spectroscopy: Computational Spectroscopy Credit: 1 (1-0-0)

Course Description: Theory and computational techniques to compute and analyze molecular spectra, including aspects of quantum mechanics and statistical mechanics. Emphasis on implementation and computation of molecular spectra.

Prerequisite: CHEM 571A and CHEM 571B and CHEM 575 and CHEM 576.

Registration Information: This is a partial semester course.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 575 Fundamentals of Chemical Thermodynamics Credit: 1 (1-0-0)

Course Description: Fundamental thermodynamic concepts and some applications to chemical problems.

Prerequisite: CBE 310 or CHEM 476 or PH 361.

Registration Information: This is a partial-semester course.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 576 Statistical Mechanics Credits: 2 (2-0-0)

Course Description: Principles of statistical mechanics with applications to chemical systems.

Prerequisite: CHEM 575, may be taken concurrently.

Registration Information: This is a partial-semester course.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 577 Surface Chemistry Credits: 3 (3-0-0)

Course Description: Capillarity; interfacial thermodynamics, electrical aspects of surface chemistry, adsorbed layers.

Prerequisite: CBE 310 or CHEM 476.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 578A Computational Chemistry: Electronic Structure Credit: 1 (1-0-0)

Course Description: Electronic structure calculations of energetic and structural properties of molecules and chemical reactions.

Prerequisite: CHEM 571A and CHEM 571B.

Registration Information: This is a partial semester course.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 578B Computational Chemistry: Molecular Dynamics Credit: 1 (1-0-0)

Course Description: Molecular Dynamics simulations of liquids to compute static and time dependent properties. Applications include biological and materials chemistry.

Prerequisite: CHEM 576.

Registration Information: This is a partial semester course.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 579 Chemical Kinetics Credits: 3 (3-0-0)

Course Description: Elementary reactions, unimolecular reactions, reactions in solution, gas phase ion chemistry, photochemistry, and kinetic modeling.

Prerequisite: CBE 310 or CHEM 476.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 601 Responsible Conduct in Chemistry Research Credit: 1 (1-0-0)

Course Description: Appropriate conduct in research, publishing, intellectual property decisions, job hunting, and negotiating; social responsibilities of scientists.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 641 Organic Reaction Mechanisms Credits: 2 (2-0-0)

Course Description: Organic reaction mechanisms, including using arrows to show electron movement; heterolytic, radical, and pericyclic reactions.

Prerequisite: CHEM 545.

Restriction: Must be a: Graduate, Professional.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 651A Special Topics in Chemistry: Analytical Chemistry Credits:

Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

CHEM 651B Special Topics in Chemistry: Inorganic Chemistry Credits:

Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

CHEM 651C Special Topics in Chemistry: Organic Chemistry Credits:

Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

CHEM 651D Special Topics in Chemistry: Physical Chemistry Credits:

Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

CHEM 651E Special Topics in Chemistry: Materials Chemistry Credits:
Var[1-4] (0-0-0)

Course Description: Discussion of current topics in materials chemistry.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 651F Special Topics in Chemistry: Chemical Biology Credits:
Var[1-4] (0-0-0)

Course Description: Discussion of current topics in chemical biology.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 651G Special Topics in Chemistry: Chemistry Education Credits:
Var[1-4] (0-0-0)

Course Description: Discussion of current topics in chemistry education.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 695 Independent Study Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CHEM 698 Research Credits: Var[1-9] (0-0-0)

Course Description: Graduate research in chemistry for students who do not plan to write an M.S. thesis.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Graduate standing in chemistry.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CHEM 699 Thesis Credits: Var[1-15] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CHEM 702 Independent Research Proposal Credit: 1 (0-0-1)

Course Description: Preparation, submission, and defense of an independent research proposal; creative and original thinking about research problems in modern chemistry.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Ph.D. candidacy.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

CHEM 751 Methods of Chemistry Laboratory Instruction Credit: 1 (1-0-0)

Course Description: Basic materials, methods, and skill development related to teaching undergraduate chemistry laboratory courses.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

CHEM 752 Advanced Chemical Instruction Credit: 1 (0-0-1)

Course Description: Advanced materials, methods, and presentation skills development related to teaching undergraduate chemistry courses.

Prerequisite: CHEM 751.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 773 Atomic and Molecular Spectroscopy Credits: 3 (3-0-0)

Course Description: Time-dependent methods; multiphoton and nonlinear spectroscopy; fundamentals of rotational, vibrational, electronic and magnetic resonance spectroscopy.

Prerequisite: CHEM 571A or CHEM 571B.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 775 Pillars of Physical Chemistry Credit: 1 (1-0-0)

Course Description: Fundamental concepts in physical chemistry through reading and discussing primary literature.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CHEM 784 Supervised College Teaching Credits: Var[1-2] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CHEM 793 Seminar Credit: 1 (0-0-1)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CHEM 795A Independent Study: Inorganic Chemistry Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CHEM 795B Independent Study: Analytical Chemistry Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CHEM 795C Independent Study: Biological Chemistry Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CHEM 795D Independent Study: Physical Chemistry Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CHEM 799 Dissertation Credits: Var[1-15] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Major in Chemistry

This Bachelor of Science in Chemistry is certified by the American Chemical Society (ACS). Chemistry, the central science, engages biochemistry, biology, engineering, and environmental and materials sciences. Chemists synthesize compounds ranging from life-enhancing medicines to the materials of modern society, with the understanding that there can be unintended consequences. Chemists collect and analyze data used in policy decisions, including those involving the air, food, soil, and water. Chemists develop materials and processes that are safer, and are more energy and material efficient. Chemists develop processes for the recovery and conversion of waste to raw material.

With these important and diverse roles, chemists need to be skilled at the various arts of chemistry, conversant with other scientists as well as policy decision makers, and cognizant of the diverse impacts that their works have on society. Chemistry majors develop a solid foundation in general chemistry and mathematics, followed by coursework in organic chemistry, analytical chemistry, physical chemistry, inorganic chemistry, chemical biology, and physics. The curriculum is rounded out by courses in the liberal and communications arts.

Learning Outcomes

Upon earning a bachelor of science degree in chemistry, students will be able to:

- Demonstrate foundational skills and knowledge in all the major sub-disciplines of chemistry (analytical, biological, inorganic, materials, organic, and physical).

- Demonstrate rigorous in-depth skills and knowledge in at least two of the sub-disciplines.
- Exhibit valuable laboratory skills in all fundamental areas of chemistry, enabling them to contribute effectively to a professional laboratory as well as engage in original research.
- Use visualization tools, theory, computation, and simulations to explain experimental results, make predictions, and test hypotheses.
- Obtain, organize, and critically evaluate chemical information, and effectively present it coherently through oral and written discourse with specialists and non-specialists alike.
- Ethically and responsibly engage their knowledge of chemistry to address current global and societal challenges.
- Apply sustainability principles that incorporate complex environmental, economic, and social factors.

Potential Occupations

Chemists are employed in a vast array of professional fields in private industry, government, and education. Chemists work in research and development, analysis and testing, consulting, industrial quality control and assurance, environmental resource management, and forensics. Principal employers are petrochemical firms, biotechnology firms, consumer chemical firms, environmental testing laboratories, pharmaceutical companies, agricultural companies, governmental regulatory agencies, governmental and educational research laboratories, and manufacturing firms. Many chemists are also engaged in startup

companies. Chemistry is also an excellent major for those preparing for careers in veterinary medicine and the health professions. Students whose career goals involve teaching at the secondary school level have the opportunity to complete the teacher licensure program through the School of Education (<http://soe.chhs.colostate.edu/>).

Many possible occupations for chemists include, but are not limited to: agricultural chemist, air and water quality analyst, biochemical technician, chemical sales and marketing representative, clinical chemist, consultant, educator, forensic analyst, laboratory technician/bench chemist, materials analyst, patent examiner, pharmaceutical chemist, polymer technician, technical writer, and toxicologist.

Concentrations

- Environmental Chemistry Concentration
- Forensic Chemistry Concentration
- Health Sciences Concentration
- Sustainable Chemistry Concentration

Requirements

Effective Fall 2022

Chemistry majors must achieve a minimum grade of C (2.000) in all the listed courses required for the major in chemistry.

Freshman

		AUCC	Credits
CHEM 120 ¹	Foundations of Modern Chemistry (GT-SC2)	3A	4
CHEM 121 ¹	Foundations of Modern Chemistry Laboratory (GT-SC1)	3A	1
CHEM 192	Introductory Seminar in Chemistry		2
CHEM 241 ²	Foundations of Organic Chemistry		4
CHEM 242 ²	Foundations of Organic Chemistry Laboratory		1
CHEM 263	Foundations of Inorganic Chemistry		4
CHEM 264	Foundations of Inorganic Chemistry Laboratory		1
CO 150	College Composition (GT-CO2)	1A	3
Select one course from the following:			4
MATH 155	Calculus for Biological Scientists I (GT-MA1)	1B	
MATH 160	Calculus for Physical Scientists I (GT-MA1)	1B	
Arts and Humanities		3B	3
Diversity, Equity, and Inclusion		1C	3
Total Credits			30

Sophomore

CHEM 231	Foundations of Analytical Chemistry		3
CHEM 232	Foundations of Analytical Chemistry Lab		2
CHEM 322	Foundations of Chemical Biology Laboratory		1
Select one course from the following:			4
BC 351	Principles of Biochemistry		
CHEM 321	Foundations of Chemical Biology		
Select one group from the following:			8
Group A			
MATH 271	Applied Mathematics for Chemists I		
MATH 272	Applied Mathematics for Chemists II		

Group B

MATH 161	Calculus for Physical Scientists II (GT-MA1)	1B
MATH 261	Calculus for Physical Scientists III	

Select one course from the following: 5

PH 121	General Physics I (GT-SC1)	3A
PH 141	Physics for Scientists and Engineers I (GT-SC1)	3A

Select one course from the following: 5

PH 122	General Physics II (GT-SC1)	3A
PH 142	Physics for Scientists and Engineers II (GT-SC1)	3A

Total Credits 28

Junior

CHEM 371	Fundamentals of Physical Chemistry		4
CHEM 372	Fundamentals of Physical Chemistry Lab	4A	1

Select one course from the following: 2		
CHEM 493	Senior Seminar	4C
CHEM 499 ⁴	Senior Thesis	4C
In-depth Chemistry Courses (see list below) 8		
Advanced Electives (see list below) 12		
Electives ⁵ 10		

Total Credits 32

Program Total Credits: 120

In-depth Chemistry Courses

- At least 5 credits must come from AUCC 4B designated courses: CHEM 431, CHEM 440, CHEM 445, CHEM 461, CHEM 476.

- At least 3 credits must come from laboratory course or lab components of lecture/laboratory courses: CHEM 431, CHEM 433, CHEM 440, CHEM 462, CHEM 477, or CHEM 498.

Code	Title	AUCC	Credits
CHEM 311	Introduction to Nanoscale Science		3
CHEM 315	Foundations of Polymer Chemistry		3
CHEM 320	Chemistry of Addictions		3
CHEM 333	Forensic Chemistry		3
CHEM 338	Environmental Chemistry		3
CHEM 431	Instrumental Analysis	4B	4
CHEM 433	Clinical Chemistry		3
CHEM 440	Advanced Organic Chemistry Laboratory	4B	2
CHEM 445	Synthetic Organic Chemistry	4B	3
CHEM 448	Medicinal Chemistry		3
CHEM 461	Inorganic Chemistry	4B	3
CHEM 462	Inorganic Chemistry Laboratory		2

CHEM 476	Physical Chemistry II	4B	3
CHEM 477	Physical Chemistry Laboratory II		1
CHEM 498	Research		1-3

Advanced Electives

Code	Title	Credits
ATS 350	Introduction to Weather and Climate	2
ATS 351	Introduction to Weather and Climate Lab	1
ERHS 320	Environmental Health–Water Quality	3
ERHS 332	Principles of Epidemiology	3
ERHS 400	Radiation Safety	3
ERHS 410	Environmental Health-Air and Waste Management	3
ERHS 430	Human Disease and the Environment	3
ERHS 446	Environmental Toxicology	3
ERHS 448	Environmental Contaminants	3
ERHS 450	Introduction to Radiation Biology	3

STAT

¹ Students who complete General Chemistry in Freshman year (CHEM 111 or CHEM 107, CHEM 112 or CHEM 108, and CHEM 113, CHEM 114) do not have to take CHEM 120 and CHEM 121.

² Students may complete the organic requirement by taking CHEM 341, CHEM 343, and CHEM 344. Students who take CHEM 245/CHEM 246 may complete the organic chemistry requirement by taking CHEM 343/CHEM 344. For both sets of these students, CHEM 343/CHEM 344 together count as an in-depth chemistry course.

³ CHEM 301 is recommended.

⁴ CHEM 499 Senior Thesis by department approval. Students fulfilling the AUCC 4C requirement with CHEM 499 must write a thesis and present it to the department.

⁵ Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major Completion Map

Distinctive Requirements for Degree Program:

TO PREPARE FOR FIRST SEMESTER: The curriculum for the new American Chemical Society Certified Chemistry major assumes students enter college prepared to take calculus. Entering students who are not prepared to take calculus will need to fulfill pre-calculus requirements in the first semester. CHEM 111 and CHEM 120 require Algebra II as a prerequisite (this prerequisite is met by having Algebra II by test credit, transfer credit, or placement out of MATH 117 and MATH 118 on Math Placement Exam). Earned grades of C (2.000) or better are required in all listed courses for the major in chemistry.

Major in Chemistry, Environmental Chemistry Concentration

Environmental chemistry is the application of chemical principles to the study of the natural environment, including air, water, land and the biosphere. This concentration is recommended for students who wish to pursue a career in environmental management, or in the fundamental study of environmental systems. This concentration is also suitable for students planning to attend law or professional school or pursue graduate studies in environmental chemistry.

Chemistry majors in the environmental track are encouraged to participate in undergraduate research. Ample opportunities exist for undergraduate students to become involved in ground-breaking research in the laboratories of individual faculty members. Students have access to state-of-the-art equipment in faculty laboratories and the Analytical Resources Core facility, including NMR, FTIR, UV/Vis, fluorescence, and mass spectrometers, vacuum lines, x-ray diffractometers and many more. Undergraduate research is strongly encouraged for any

student considering a career in chemistry, and many students complete supervised research for academic credit.

Learning Outcomes

- Articulate the interconnected chemical processes, both naturally occurring and human caused, that shape the environment.
- Develop and apply analytical skills to measure environmental chemical species and quantify their role in environmental chemistry.
- Effectively communicate the results of the collection and analysis of data used in policy decisions for questions involving the air, food, soil, and water.
- Apply interdisciplinary knowledge from biology, microbiology, statistics, and engineering to answer environmental questions.

Requirements Effective Fall 2022

Chemistry majors must achieve a minimum grade of C (2.000) in all the listed courses required for the major in chemistry.

Major in Chemistry, Forensic Chemistry Concentration

Forensic chemistry is the application of chemical analysis principles to criminal investigation. Students interested in pursuing careers in the laboratory analysis of forensic evidence or criminal investigation, or attend law school, or study forensic science in graduate school are recommended to choose this concentration.

Chemistry majors in the forensic track are encouraged to participate in undergraduate research. Ample opportunities exist for undergraduate students to become involved in ground-breaking research in the laboratories of individual faculty members. Students have access to state-of-the-art equipment in faculty laboratories and the Analytical Resources Core facility, including NMR, FTIR, UV/Vis, fluorescence, and mass spectrometers, vacuum lines, x-ray diffractometers and many more. Undergraduate research is strongly encouraged for any student considering a career in chemistry, and many students complete

supervised research for academic credit. Development of skills in all of the aforementioned analytical techniques will enable graduates to pursue a forensic analyst or researcher career.

Learning Outcomes

- Design chemical experiments to comprehensively investigate forensic samples.
- Apply interdisciplinary knowledge from biology, microbiology, statistics, criminal justice, and anthropology to answer forensic and legal questions.

Requirements Effective Fall 2022

Chemistry majors must achieve a minimum grade of C (2.000) in all the listed courses required for the major in chemistry.

Major in Chemistry, Health Sciences Concentration

The health science concentration compliments a students' chemistry knowledge with content from biology, anatomy, physiology, and microbiology. This concentration is recommended for students who wish to pursue a career in the medical, veterinary, pharmacy, dentistry, and allied fields. The additional course work is designed to enable students to fulfill the prerequisite requirements for health sciences professional programs.

Chemistry majors in the health sciences concentration are encouraged to participate in undergraduate research. Ample opportunities exist for undergraduate students to become involved in ground-breaking research in the laboratories of individual faculty members. Students have access to state-of-the-art equipment in faculty laboratories and the Analytical Resources Core facility, including NMR, FTIR, UV/Vis, fluorescence, and mass spectrometers, vacuum lines, x-ray diffractometers and many more. Undergraduate research is strongly encouraged for any student

considering a career in the sciences, and many students complete supervised research for academic credit. Development of laboratory and research skills result in transferable skills that a graduate can apply towards a career in the health sciences.

Learning Outcomes

- Identify the anatomical features of humans or domestic animals and define their physiological roles.
- Articulate the role chemistry plays in disease and its treatment.
- Apply interdisciplinary knowledge from chemistry and related fields (biology, microbiology, anatomy, physiology and psychology) to problems and questions in the health sciences.

Requirements Effective Fall 2022

Chemistry majors must achieve a minimum grade of C (2.000) in all the listed courses required for the major in chemistry.

¹ Students who complete General Chemistry in Freshman year (CHEM 111 or CHEM 107, CHEM 112 or CHEM 108, CHEM 113, CHEM 114) do not have to take CHEM 120 and CHEM 121.

² Students may complete the organic chemistry requirement by taking CHEM 341, CHEM 343, and CHEM 344. Students who take CHEM 245/CHEM 246 may complete the organic chemistry requirement by taking CHEM 343/CHEM 344. For both sets of these

students, CHEM 343/CHEM 344 together count as an in-depth chemistry course.

³ CHEM 301 is recommended.

⁴ CHEM 499 by department approval. Students fulfilling the AUCC 4C requirement with CHEM 499 must write a thesis and present it to the department.

Major Completion Map

Distinctive Requirements for Degree Program:

TO PREPARE FOR FIRST SEMESTER: The curriculum for the new American Chemical Society Certified Chemistry major assumes students enter college prepared to take calculus. Entering students who are not prepared to take calculus will need to fulfill pre-calculus requirements in the first semester. CHEM 111 and CHEM 120 require Algebra II as a

prerequisite (this prerequisite is met by having Algebra II by test credit, transfer credit, or placement out of MATH 117 and MATH 118 on Math Placement Exam). Earned grades of C (2.000) or better are required in all listed courses for the major in chemistry. Students with credit for CHEM 111 CHEM 112, CHEM 113, CHEM 114 do not need to take CHEM 120, CHEM 121. Students with credit for CHEM 341, CHEM 343, CHEM 344 do not need to take CHEM 241, CHEM 242.

Major in Chemistry, Sustainable Chemistry Concentration

The sustainable chemistry concentration is recommended for students who wish to pursue a career in the interdisciplinary field of sustainability, including renewable energy, green materials, pollution control, and waste remediation. Because sustainability requires that chemists be well rounded, students will take courses that develop an understanding of the social, economic, and environmental pillars of sustainability as well as the intrinsic interconnectedness of these areas.

Chemistry majors in the sustainability track are encouraged to participate in undergraduate research. Ample opportunities exist for undergraduate students to become involved in ground-breaking research in the laboratories of individual faculty members. Students have access to state-of-the-art equipment in faculty laboratories and the Analytical Resources Core facility, including NMR, FTIR, UV/Vis, fluorescence, and mass spectrometers, vacuum lines, x-ray diffractometers and many more. Undergraduate research is strongly encouraged for any student considering a career in chemistry, and many students complete supervised research for academic credit. Development of skills in all of

the aforementioned analytical techniques will enable graduates to pursue a consultant, educator, or researcher career.

- Effectively communicate the results of the collection and analysis of data used in policy decisions for questions involving the air, food, soil, and water.

Learning Outcomes

- Describe the unintended consequences associated with the synthesis of compounds ranging from life-enhancing medicines to the materials of modern society.
- Articulate the thought process used to develop safer, more energy and material efficient processes, including the recovery and conversion of waste to raw material—the principles of Green chemistry.

Requirements Effective Fall 2022

Chemistry majors must achieve a minimum grade of C (2.000) in all the listed courses required for the major in chemistry.

Minor in Chemistry

The Department of Chemistry offers a minor in Chemistry to interested students from other disciplines. A minor in Chemistry provides students the opportunity to land a job in the intersection of multiple fields, like veterinary technician, research associate, teacher, environmental coordinator, laboratory analyst, computational analyst, among other interdisciplinary careers. Pursuing a Chemistry minor is also a valuable asset to prepare for any professional or graduate degree..

Requirements Effective Fall 2023

A minimum grade of C- is required in all of the courses required for the minor.

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Graduate courses in chemistry and other disciplines ¹		12-15
CHEM 751	Methods of Chemistry Laboratory Instruction	1
CHEM 784	Supervised College Teaching	1
CHEM 793	Seminar	2
Electives		2-5
CHEM 698	Research ²	9

Program Total Credits: 30

A minimum of 30 credits are required to complete this program.

Additional Requirements

- Incoming students must demonstrate undergraduate proficiency in analytical, inorganic, organic, and physical chemistry by having received (at their undergraduate institution) or by receiving (upon matriculation at CSU) a B- in the appropriate undergraduate course(s) or by passing an exam in the aforementioned subjects administered by the chemistry department, or by any combination of these ways to demonstrate undergraduate proficiency in the four subjects.
- Students must pass 2 cumulative exams, or the equivalent³, which are given monthly 9 times each year, in no more than 12 attempts.
- Students must pass a faculty-refereed scientific presentation. Students may fulfill this requirement in one of three ways:

- Students may give a public seminar based on the scientific literature;
- Students may give a public seminar based on their thesis research;
- Students may pass the Preliminary Oral Exam for the Ph.D. degree.

¹ Select courses with advisor approval according to department guidelines.

² Up to 9 credits of CHEM 698 may be satisfied by CHEM 799.

³ See instructions available from the chemistry department.

- Minor in Machine Learning

Change of Major Process

The Computer Science Department is a competitive major because we want students to be set up for success. To be eligible to declare the Major in Computer Science, the Minor in Computer Science, or the Minor in Machine Learning, students must meet the following requirements:

- CSU GPA of 2.5 or greater
- 'C' or better in CS 162 or CS 163 or CS 164; and
- 'C' or better in CS 165 or MATH 156 or MATH 160

For more information, or to declare the Computer Science major or one of our minors, students should meet with a Computer Science advisor to discuss degree requirements, career opportunities, undergraduate research, department resources and policies. Visit the Computer Science Advising website (<https://compsci.colostate.edu/advising/>) for more information on how to schedule an appointment.

If a student does not meet the requirements yet, we encourage them to:

- Take the following courses to work towards the major/minor control requirements: CS 150B, CS 152, CS 162, CS 164, CS 165, CS 220.
- Participate in the Computer Science community through applicable Computer Science Department clubs.

Graduate Graduate Programs in Computer Science

The department offers Master of Science, Master of Computer Science, and Doctor of Philosophy degree programs in Computer Science. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Computer Science (<http://www.cs.colostate.edu>).

Master's Programs

- Master of Science in Computer Science, Plan A
- Master of Science in Computer Science, Plan B*
- Master of Computer Science, Plan C (M.C.S.)

Ph.D.

- Ph.D. in Computer Science*

* Please see department for program of study.

Courses

Subjects in this department include: Computer Science (CS) and Computing Technology (CT).

Computer Science (CS)

CS 110 Personal Computing Credits: 4 (3-3-0)

Course Description: Hardware/software concepts, Internet services, OS commands, electronic presentations, spreadsheets, databases, programming concepts.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory. Credit not allowed for both CS 110 and BUS 150. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CS 150A Culture and Coding: Java (GT-AH3) Credits: 3 (2-2-0)

Course Description: Survey of computer science, formal logic, and computational thinking. Explores the historical, gender, and cultural perspectives on the role of technology in society. Includes learning basic elements of the Java programming language. Write small programs, and construct written arguments on ways in which technology influences our modern culture. Previous computer science experience not necessary.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online. Credit allowed for only one of the following: CS 150, CS 150A, or CS 150B.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Arts & Humanities 3B, Ways of Thinking (GT-AH3).

CS 150B Culture and Coding: Python (GT-AH3) Credits: 3 (2-2-0)

Course Description: Survey of computer science, formal logic, and computational thinking. Explores the historical, gender, and cultural perspectives on the role of technology in society. Includes learning basic elements of the Python programming language. Write small programs, and construct written arguments on ways in which technology influences our modern culture. Previous computer science experience not necessary.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online. Credit allowed for only one of the following: CS 150, CS 150A, or CS 150B.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Arts & Humanities 3B, Ways of Thinking (GT-AH3).

CS 152 Python for STEM Credits: 2 (1-0-1)

Course Description: Introductory Python programming for students with no prior programming experience focusing on STEM disciplines. Topics include variables, types, operators, expressions, conditionals, loops, functions, lists, dictionaries, strings, file input/output, and modules. Programming is motivated with examples and assignments from various STEM fields.

Prerequisite: CS 163 or MATH 124 with a minimum grade of B or MATH 125 with a minimum grade of B or MATH 126 with a minimum grade of B or MATH 127 with a minimum grade of B or MATH 141 with a minimum grade of C or MATH 155 with a minimum grade of C or MATH 156 with a minimum grade of C or MATH 157 with a minimum grade of C or MATH 159 with a minimum grade of C or MATH 160 with a minimum grade of C.

Registration Information: Must register for lecture and recitation.

Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

CS 155 Introduction to Unix Credit: 1 (1-0-0)

Course Description: Unix shell commands, utilities (editors, sorting, file management), shell scripting.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

CS 156 Introduction to C Programming I Credit: 1 (1-0-0)

Course Description: Basic elements of language structure, data types, expressions, program control flow and modularity.

Prerequisite: (CS 155, may be taken concurrently) and (MATH 118 or MATH 127).

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

CS 157 Introduction to C Programming II Credit: 1 (1-0-0)

Course Description: More basic design types, function usage and strings. Arrays, user-defined types and structures, enumerated types, recursion, dynamic storage allocation.

Prerequisite: (CS 156, may be taken concurrently) and (MATH 118 or MATH 127).

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

CS 158 Mathematical Algorithms in C Credit: 1 (0-2-0)

Also Offered As: MATH 158.

Course Description: Compilers, expressions, variable types, control statements, pointers, logical statements, plotting, secant method, trapezoidal rule, recursion.

Prerequisite: MATH 151 and CS 156 and MATH 160.

Registration Information: Credit not allowed for both CS 158 and MATH 158.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 162 CS1--Introduction to Java Programming Credits: 2 (1-0-1)

Course Description: Introduction to java and object oriented programming concepts. Topics include variables, assignment, expressions, operators, Booleans, conditionals, characters and strings, loops, arrays, objects and classes, file input/output, interfaces, recursion, lists, and sorting. Covers four pillars of object oriented programming: Encapsulation, Abstraction, Inheritance, and Polymorphism. Assumes prior programming experience.

Prerequisite: CS 150B with a minimum grade of B or CS 152 with a minimum grade of B, may be taken concurrently or CS 163.

Registration Information: Must register for lecture and recitation. This is a partial semester course. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 163 CS1---No Prior Programming Experience Credits: 4 (3-2-0)

Course Description: Computer programming for students without previous programming experience. Topics include variables, assignment, expressions, operators, booleans, conditionals, characters and strings, control loops, arrays, objects and classes, file input/output, interfaces, recursion, lists, and sorting.

Prerequisite: CIS 240 with a minimum grade of C or CS 150A with a minimum grade of C or CS 150B with a minimum grade of C or CS 152 with a minimum grade of C or MATH 120 with a minimum grade of C or MATH 124 with a minimum grade of C or MATH 127 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online. Credit allowed for only one of the following courses: CS 160, CS 163, or CS 164.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

CS 164 CS1--Computational Thinking with Java Credits: 4 (3-2-0)

Course Description: Learn computational thinking using Java as the primary language. Problem formulation and decomposition, data representation, and algorithmic design. Coding concepts include expressions, operators, Booleans, conditionals, characters and strings, loops, arrays, objects and classes, file input/output, interfaces, recursion, lists, and sorting. Covers four pillars of object oriented programming: Encapsulation, Abstraction, Inheritance, and Polymorphism.

Prerequisite: CIS 240 with a minimum grade of B or CS 150A with a minimum grade of B or CS 150B with a minimum grade of B or CS 152 with a minimum grade of B or CS 163.

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 165 CS2--Data Structures Credits: 4 (3-2-0)

Course Description: Object oriented concepts, assertions, inheritance, polymorphism, algorithms and data structures using an object oriented language.

Prerequisite: CS 162 with a minimum grade of C or CS 163 with a minimum grade of C or CS 164 with a minimum grade of C or CIS 340 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online. Credit not allowed for both CS 165 and CS 200.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 192 First-Year Seminar-Computer Science Credit: 1 (0-0-1)

Course Description: Computer science as a field of study and a major program at CSU. Addresses career exploration, research experience opportunities, post-graduation planning, and building a skill base of successful academic strategies.

Prerequisite: None.

Restriction: Must be a: Undergraduate.

Registration Information: Freshman and sophomore Computer Science and Applied Computing Technology majors only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 201 Ethical Computing Systems (GT-AH3) Credits: 3 (3-0-0)

Also Offered As: PHIL 201.

Course Description: Survey of contemporary ethical issues in information technology and software development. Explore moral, social, and legal issues with information technology in the modern world. Construct arguments based on modern ethical issues, and issues explored through science fiction.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Arts & Humanities 3B, Ways of Thinking (GT-AH3).

CS 214 Software Development Credits: 3 (2-0-1)

Course Description: Development of large software systems. Design and enhance the features and quality of a large system while using tools for software engineering and project management.

Prerequisite: CS 165 with a minimum grade of C.

Registration Information: Must register for lecture and recitation.

Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 220 Discrete Structures and their Applications Credits: 4 (3-0-1)

Course Description: Integer representations and properties, propositions, predicates, sets, functions, program proofs, induction, counting, complexity; Python implementations of these concepts.

Prerequisite: (CS 150A with a minimum grade of B or CS 150B with a minimum grade of B or CS 152 with a minimum grade of B or CS 162 with a minimum grade of C or CS 163 with a minimum grade of C or CS 164 with a minimum grade of C) and (MATH 155 or MATH 156 or MATH 159 or MATH 160).

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing. Must register for lecture and recitation. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 250 Computer Systems Foundations Credits: 4 (3-0-1)

Course Description: Foundations of computer systems encompassing processors, networks, storage, and computing frameworks. Discussion of processors, cores, and co-processors (GPUs, TPUs). Speed differential across the memory hierarchy and the implications of caching. Data structures for storage systems. Overview of parallel and distributed computing frameworks. Future computing systems including neuromorphic computing.

Prerequisite: CS 162 with a minimum grade of C or CS 163 with a minimum grade of C or CS 164 with a minimum grade of C.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing. Must register for lecture and recitation. Sections may be offered: Online. Credit not allowed for both CS 250 and CS 280A1.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 253 Software Development with C++ Credits: 4 (3-0-1)

Course Description: Developing and modifying large software. Relating programming language to its machine implementation. C++ programming for experienced programmers.

Prerequisite: CS 165 with a minimum grade of C.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online. Credit not allowed for both CS 253 and CT 301.

Terms Offered: Fall, Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CS 270 Computer Organization Credits: 4 (3-2-0)

Course Description: Data representation, arithmetic, assembly and C language, digital logic and systems, Boolean algebra, circuits, CPU and memory models, state machines.

Prerequisite: CS 163 with a minimum grade of C or CS 164 with a minimum grade of C.

Registration Information: Sophomore standing. Computer Science and Applied Computing Technology majors only. Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 295 Independent Study Credits: Var[1-4] (0-0-0)

Course Description: Investigation of special topics under direction of computer science faculty.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CS 310H Design Thinking Toolbox: Mixed Reality Design Credits: 3 (3-0-0)

Also Offered As: IDEA 310H.

Course Description: Introduction to topics in virtual and augmented reality. Learn how to create virtual (i.e., artificial) worlds using a game engine to provide hands-on experience and promote "iterative tinkering" through exploration of various design processes.

Prerequisite: CS 253 or IDEA 210.

Registration Information: Sophomore standing. Sections may be offered: Online. Credit not allowed for both CS 310H and IDEA 310H.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: Yes.

CS 312 Modern Web Applications Credits: 3 (2-2-0)

Course Description: Development of the modern web application. Emphasis on the essentials needed to create fully functional web applications including rich graphical content and dynamic content, using modern web standards. Explore service-based architecture, web UX design, asynchronous content delivery, and full-stack development.

Prerequisite: CIS 340 with a minimum grade of C or CS 165 with a minimum grade of C or JTC 370 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online. Credit allowed for only one of the following: CIS 410, CS 312, or CT 310.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 314 Software Engineering Credits: 3 (3-0-0)

Course Description: Principles, concepts, and techniques associated with team-based development of large, complex software systems. Topics include teamwork, configuration management, project management, requirements engineering, and systematic testing techniques. Use software tools in the context of a Scrum-based Agile development project.

Prerequisite: CS 214 with a minimum grade of C or CS 253 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 320 Algorithms--Theory and Practice Credits: 3 (3-0-0)

Course Description: Analysis, design, implementation and applications of algorithms.

Prerequisite: (CS 220 with a minimum grade of C and CS 165 with a minimum grade of C) and (MATH 155 with a minimum grade of C or MATH 156 with a minimum grade of C or MATH 160 with a minimum grade of C) and (DSCI 369 with a minimum grade of C or MATH 229 with a minimum grade of C or MATH 369 with a minimum grade of C).

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 345 Machine Learning Foundations and Practice Credits: 3 (3-0-0)

Course Description: Machine learning algorithms and tools for predictive modeling presented using case studies that inform their use in real-world applications.

Prerequisite: (CS 220 with a minimum grade of C) and (CS 150B with a minimum grade of C or CS 152 with a minimum grade of C or CS 165 with a minimum grade of C or DSCI 235 with a minimum grade of C) and (MATH 155 with a minimum grade of C or MATH 156 with a minimum grade of C or MATH 159 with a minimum grade of C or MATH 160 with a minimum grade of C) and (STAT 301 with a minimum grade of C or STAT 302A with a minimum grade of C or ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C or STAT 307 with a minimum grade of C or STAT 315 with a minimum grade of C).

Registration Information: Sections may be offered: Online. Credit not allowed for both CS 345 and DSCI 445.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 356 Systems Security Credits: 3 (3-0-0)

Course Description: Computer and system security, authentication, access control, malicious software, and software security.

Prerequisite: CS 214 with a minimum grade of C or CS 253 with a minimum grade of C or CS 370 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 370 Operating Systems Credits: 3 (3-0-0)

Course Description: Introduction to operating systems including memory organization, I/O control, multitasking, process control, coordination, and resource management.

Prerequisite: (CS 165 with a minimum grade of C) and (CS 250 with a minimum grade of C or CS 270 with a minimum grade of C or ECE 251 with a minimum grade of C).

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 410 Introduction to Computer Graphics Credits: 4 (3-2-0)

Course Description: Graphics hardware and software; drawing simple objects; coordinate transformations in 2D and 3D; modeling and viewing complex 2D and 3D objects.

Prerequisite: (CS 214 with a minimum grade of C or CS 253 with a minimum grade of C) and (DSCI 369 with a minimum grade of C or MATH 229 with a minimum grade of C or MATH 369 with a minimum grade of C).

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 414 Object-Oriented Design Credits: 4 (3-3-0)

Course Description: Object-oriented methods for large-scale software systems. Software design for reuse using patterns. WWW applications in languages, e.g., Java.

Prerequisite: CS 314 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 415 Software Testing Credits: 4 (3-2-0)

Course Description: Systematic approaches to software testing, theoretical foundations, and the current state of practice. Techniques and tools that improve software testing and overall development skills.

Prerequisite: CS 314 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 420 Introduction to Analysis of Algorithms Credits: 4 (3-0-1)

Prerequisite: CS 320 with a minimum grade of C.

Grade Mode: Traditional.

Special Course Fee: No.

CS 422 Automata, Logic, and Computation Credits: 4 (3-2-0)

Course Description: Foundations for modeling and analysis of computational systems. Topics include finite-state automata, regular expressions, pushdown automata, context-free languages, Turing machines and decidability, reducibility, logical theories.

Prerequisite: CS 320 with a minimum grade of C or ECE 312 with a minimum grade of B or MATH 360 with a minimum grade of B or MATH 366 with a minimum grade of B.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online. Credit not allowed for both CS 422 and CS 480A4.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 425 Introduction to Bioinformatics Algorithms Credits: 4 (3-2-0)

Course Description: Algorithms for analysis of large scale biological data.

Prerequisite: (BZ 360 with a minimum grade of C or CS 320 with a minimum grade of C) and (CS 345 with a minimum grade of C).

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 430 Database Systems Credits: 4 (3-2-0)

Course Description: Database analysis, design, administration, implementation, hierarchical, network relational models; data sublanguages; query facilities.

Prerequisite: CS 314 with a minimum grade of C or CS 370 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 435 Introduction to Big Data Credits: 4 (3-2-0)

Course Description: Fundamental issues in Big Data. Examine issues related to data organization, storage, retrieval, analysis and knowledge discovery at scale. Topics include large-scale data analysis, scalable computing frameworks, data storage systems, and semi-structured data models. Involves hands-on programming assignments and term project using real-world datasets.

Prerequisite: CS 320 with a minimum grade of C or CS 370 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 440 Introduction to Artificial Intelligence Credits: 4 (3-2-0)

Course Description: Concepts, representations, and algorithms for solving search, logical reasoning and machine learning problems.

Prerequisite: CS 320 with a minimum grade of C and CS 345 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 445 Introduction to Machine Learning Credits: 4 (3-2-0)

Course Description: Fundamental concepts and methods of computational data analysis, including pattern classification, prediction, visualization, and recent topics in deep learning.

Prerequisite: (CS 165 with a minimum grade of C) and (CS 345 with a minimum grade of C or DSCI 445 with a minimum grade of C and DSCI 235 with a minimum grade of C) and (DSCI 369 with a minimum grade of C or MATH 229 with a minimum grade of C or MATH 369 with a minimum grade of C).

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online. Credit not allowed for both: CS 445 and CS 480A3.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 453 Introduction to Compiler Construction Credits: 4 (3-0-1)

Course Description: Functional components of a compiler: modules, interfaces, lexical and syntax analysis, error recovery, resource allocation, code generation.

Prerequisite: CS 314 with a minimum grade of C.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 454 Principles of Programming Languages Credits: 4 (3-3-0)

Course Description: Language design concepts; functional programming; interpreter support for environments, procedures, recursion, types, objects; language paradigms.

Prerequisite: CS 253 with a minimum grade of C and CS 320 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 455 Introduction to Distributed Systems Credits: 4 (3-2-0)

Course Description: Distributed systems including model of distributed computations; concurrency; thread pools and scalable servers; distributed mutual exclusion; cloud computing; distributed graph algorithms; data representation formats; atomic transactions; large-scale storage systems; distributed shared memory; and overlays.

Prerequisite: CS 370 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. CS majors and minors only. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 456 Modern CyberSecurity Credits: 4 (3-2-0)

Course Description: Contemporary cyber-security issues; techniques, programs, tools and methods for examining contemporary cyber-attacks and cyber-defenses.

Prerequisite: CS 356 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 457 Computer Networks and the Internet Credits: 4 (3-3-0)

Course Description: Principles of communications, local area networks, communication protocols, TCP/IP, and the Internet.

Prerequisite: (CS 214 with a minimum grade of C or CS 253 with a minimum grade of C) and (CS 370 with a minimum grade of C) and (STAT 301 with a minimum grade of C or STAT 303 with a minimum grade of C or ECE 303 with a minimum grade of C or STAT 307 with a minimum grade of C or ERHS 307 with a minimum grade of C or STAT 311 with a minimum grade of C or STAT 315 with a minimum grade of C).

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 458 Blockchain Principles and Applications Credits: 4 (3-2-0)

Course Description: Presents various aspects of blockchain technology including distributed ledgers and consensus, internal mechanisms, smart contracts and DApps (distributed applications). Focus on Naivecoin, Bitcoin and Ethereum as case studies. Explore various application areas for blockchains including elections, supply chain management and others. Engage hands-on in the design, implementation and evaluation of DApps.

Prerequisite: CS 314 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online. Credit not allowed for both CS 458 and CS 481A3.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 462 Engaging in Virtual Worlds Credits: 4 (3-2-0)

Course Description: A hands-on introduction to the fundamental concepts and practices required to design, develop, and adapt virtual 3D worlds using mature, state-of-the-art tools. Basics of 3D modeling, scene construction, lighting, rendering, and properties; bringing objects into motion, characters to life, and interactions into the world.

Prerequisite: (CS 214 with a minimum grade of C or CS 253 with a minimum grade of C) and (DSCI 369 with a minimum grade of C or MATH 229 with a minimum grade of C or MATH 369 with a minimum grade of C).

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 464 Principles of Human-Computer Interaction Credits: 4 (3-2-0)

Course Description: History and trends in human-computer interaction; user-centered design techniques; prototyping; experimental methods for the evaluation of technology.

Prerequisite: CS 214 with a minimum grade of C or CS 253 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 470 Computer Architecture Credits: 4 (3-2-0)

Course Description: Instruction set; hardwired, microprogramming; memory; arithmetic; I/O and buses; performance evaluation; pipelining, RISC.

Prerequisite: CS 370.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 475 Parallel Programming Credits: 4 (3-3-0)

Course Description: Parallel programming techniques for shared-memory and message-passing systems; process synchronization, communication; example languages.

Prerequisite: CS 320 with a minimum grade of C or CS 370 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 486 Practicum Credits: Var[1-4] (0-0-0)

Course Description: Supervised work experience in approved computer science setting with periodic consultation of faculty.

Prerequisite: None.

Registration Information: Maximum of 12 credits allowed for any combination of CS 486, CS 495.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CS 495 Independent Study Credits: Var[1-18] (0-0-0)

Prerequisite: None.

Grade Mode: Instructor Option.

Special Course Fee: No.

CS 498 Research Credits: Var[1-4] (0-0-0)

Prerequisite: None.

Grade Mode: Instructor Option.

Special Course Fee: No.

CS 501 Introduction to Research in Computer Science Credit: 1 (2-0-0)

Course Description: Develop the skills needed to effectively participate in graduate work (both orally and in writing) and learn how to successfully function in academic discourse communities. Participate in a number of rotations related to current research interests of department faculty, explore advanced research in the field, and develop skills to produce research.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: May be taken twice for credit. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

CS 510 Image Computation Credits: 4 (3-3-0)

Course Description: Image generation theory and implementation, image manipulation/interpretation. Ray tracing, geometric and photometric manipulation, image matching.

Prerequisite: CS 410.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CS 514 Software Product and Process Evaluation Credits: 4 (3-3-0)

Course Description: Software development process modeling and evaluation; software metrics, testing, verification, validation; experimental methods in software engineering.

Prerequisite: CS 414.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 515 Software Maintenance & Evolution Credits: 4 (3-2-0)

Course Description: Software maintenance fundamentals, software evolution principles, software properties and paradigms, software decay and aging, software change management, software quality, software refactoring, mining software repositories, defect prediction and effort estimation, and software documentation.

Prerequisite: CS 414.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Must register for lecture and laboratory. Sections may be offered: Online. Credit not allowed for both CS 515 and CS 581A3.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 517 Software Specification and Design Credits: 4 (3-3-0)

Course Description: Rigorous techniques for modeling, specifying, and analyzing software requirements and designs; reusable software development.

Prerequisite: CS 414.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 518 Distributed Software System Development Credits: 4 (3-2-0)

Course Description: Principles of developing distributed systems; middleware technologies and techniques for building complex distributed component-based systems.

Prerequisite: CS 414.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 520 Analysis of Algorithms Credits: 4 (3-3-0)

Course Description: Asymptotic complexity, algorithm complexity, and problem complexity; the Master Method; parallel algorithms; algorithm design.

Prerequisite: CS 420.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CS 522 Foundations of Cyber-Physical Systems Credits: 4 (3-2-0)

Course Description: Principles of design, specification, modeling, and analysis of cyber-physical systems and software. Topics include model-based design, formal methods for specification and verification, and control theory.

Prerequisite: CS 320 or CS 420.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Must register for lecture and laboratory. Credit not allowed for both CS 522 and CS 581A4.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 525 Bioinformatics Algorithms Credits: 4 (3-2-0)

Course Description: Computational methods for analysis of DNA/protein sequences and other biological data, including deep learning and other machine learning methods.

Prerequisite: (CS 320 with a minimum grade of C and CS 345 with a minimum grade of C) and (STAT 301 with a minimum grade of C or ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C or STAT 307 with a minimum grade of C or STAT 315 with a minimum grade of C) and (DSCI 369 with a minimum grade of C or MATH 369 with a minimum grade of C).

Restriction: .

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online. Credit not allowed for both CS 425 and CS 525.

Grade Mode: Traditional.

Special Course Fee: No.

CS 528 Embedded Systems and Machine Learning Credits: 4 (3-2-0)

Also Offered As: ECE 528.

Course Description: Machine learning for embedded computing systems; hardware/software optimizations for machine learning; hardware accelerators for deep learning; data reuse and sharing techniques; memory and network design for machine learning acceleration; anomaly detection and adversarial learning; advanced applications of machine learning in embedded applications.

Prerequisite: CS 250 with a minimum grade of C or CS 270 with a minimum grade of C or ECE 251 with a minimum grade of C.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Must register for lecture and laboratory. Sections may be offered: Online. Credit allowed for only one of the following: CS 528, CS 581C1, ECE 528, or ECE 581C1.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 530 Fault-Tolerant Computing Credits: 4 (3-3-0)

Course Description: Achieving high reliability and fault tolerance. Fault modeling, testing, reliability evaluation, redundancy, fault tolerance. (NT-0)

Prerequisite: CS 370.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CS 533 Database Management Systems Credits: 4 (3-2-0)

Course Description: Theory and implementation of concurrency control, recovery, and query processing as it applies to centralized and distributed systems.

Prerequisite: CS 430.

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 535 Big Data Credits: 4 (3-3-0)

Course Description: Topics in scalable computing models, optimization algorithms, large-scale non-traditional data storage frameworks including graph, key-value, and column-family storage systems; data stream analysis; scalable prediction models and in-memory storage systems.

Prerequisite: CS 435 with a minimum grade of B.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 540 Artificial Intelligence Credits: 4 (3-3-0)

Course Description: Knowledge representation and reasoning, search, planning, evolutionary computation, data mining, information retrieval, intelligent Web, agent systems.

Prerequisite: CS 440.

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 542 Natural Language Processing Credits: 4 (3-2-0)

Course Description: A survey of fundamental concepts, mathematical foundations, and algorithms in natural language processing and computational linguistics. Computational analysis of language data on all levels using methods that include finite state machines; n-gram language models; Bayesian, generative, and conditional models; hidden Markov models; statistical parsing; distributional semantics; and neural networks.

Prerequisite: CS 345 with a minimum grade of C.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 545 Machine Learning Credits: 4 (3-3-0)

Course Description: Computational methods that allow computers to learn; neural networks, decision trees, genetic algorithms, bagging and boosting.

Prerequisite: CS 440.

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 553 Algorithmic Language Compilers Credits: 4 (3-3-0)

Course Description: Compiler construction; lexical scanner generators, parser generators, dataflow analysis, optimization.

Prerequisite: CS 453.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 555 Distributed Systems Credits: 4 (3-2-0)

Course Description: Principles, paradigms, protocols and algorithms underlying modern distributed systems.

Prerequisite: CS 455.

Registration Information: Must register for lecture and laboratory.

Computer Science graduate students only. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 556 Computer Security Credits: 4 (3-2-0)

Course Description: Topics in computer security: concepts, threats, risks, access control models, trusted systems, cryptography, authentication.

Prerequisite: CS 356 or CS 455.

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 557 Advanced Networking Credits: 4 (3-3-0)

Course Description: Core internet protocols, including transport, routing, and security protocols. Protocol design principles. Network measurements and assessment.

Prerequisite: CS 457.

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 559 Quantitative Security Credits: 4 (3-2-0)

Course Description: Quantitative assessment of security risks in computing systems. Approaches involve data-based analysis of vulnerabilities, their exploitation, the impact of security breaches and the economy of risk-control measures.

Prerequisite: (CS 356 with a minimum grade of B) and (STAT 301 with a minimum grade of B or STAT 315 with a minimum grade of B).

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 560 Foundations of Fine-Grain Parallelism Credits: 4 (3-2-0)

Also Offered As: ECE 560.

Course Description: Programming novel architectures; performance tuning; automatic parallelization; program transformation; polyhedral model; equational programming.

Prerequisite: CS 475.

Registration Information: Must register for lecture and laboratory. Credit not allowed for both CS 560 and ECE 560. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 561 Hardware/Software Design of Embedded Systems Credits: 4 (3-3-0)

Also Offered As: ECE 561.

Course Description: Embedded systems design including system level modeling, design space exploration, hardware-software partitioning, high level synthesis.

Prerequisite: CS 250 with a minimum grade of C or CS 270 with a minimum grade of C or CS 470 or ECE 251 with a minimum grade of C or ECE 452.

Registration Information: Must register for lecture and laboratory. Credit not allowed for both CS 561 and ECE 561. Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CS 567 3D User Interfaces Credits: 4 (3-2-0)

Course Description: Introduction to the theory of interaction design for 3D user interfaces (3DUI). Interaction (selection, manipulation, travel, and wayfinding), virtual environments, and application to 3DUI. Relevance of 3DUI principles to traditional displays, virtual reality, augmented reality, and mixed reality.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 570 Advanced Computer Architecture Credits: 4 (3-3-0)

Course Description: Pipelined CPU design. Superscalar architectures and instruction-level parallelism. Cache and memory hierarchy design. Storage systems.

Prerequisite: CS 470.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CS 575 Parallel Processing Credits: 4 (3-3-0)

Course Description: Parallel and distributed computing models, algorithms, mapping and performance evaluations, parallel computing tools and applications.

Prerequisite: CS 475.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CS 612 Topics in Computer Graphics Credits: 4 (3-2-0)

Course Description: Computer graphics research topics.

Prerequisite: CS 510.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 614A Advanced Topics in Software Engineering: Specification and Design Credits: 4 (3-3-0)

Course Description:

Prerequisite: CS 514 or CS 517 or CS 518.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 614B Advanced Topics in Software Engineering: Testing and Verification Credits: 4 (3-3-0)

Course Description:

Prerequisite: CS 514 or CS 517 or CS 518.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 614C Advanced Topics in Software Engineering: Software Environments and Tools Credits: 4 (3-3-0)

Course Description:

Prerequisite: CS 514 or CS 517 or CS 518.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 614D Advanced Topics in Software Engineering: Software Measurement, Analysis, & Evaluation Credits: 4 (3-3-0)

Course Description:

Prerequisite: CS 514 or CS 517 or CS 518.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 614E Advanced Topics in Software Engineering: Application Domains Credits: 4 (3-3-0)

Course Description:

Prerequisite: CS 514 or CS 517 or CS 518.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 620 Advanced Topics in Algorithms Credits: 4 (3-2-0)

Course Description: Designing and analyzing algorithms and data structures; illustrations from a variety of problem domains.

Prerequisite: CS 520.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CS 635 Advanced Fault-Tolerant Computing Credits: 4 (3-3-0)

Course Description: Advanced topics and recent developments in high reliability and fault-tolerant systems.

Prerequisite: CS 530.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 640 Advanced Artificial Intelligence I Credits: 2 (2-0-0)

Course Description: Research topics in artificial intelligence: genetic algorithms, neural networks, connectionist models; machine learning; planning, automated reasoning.

Prerequisite: CS 540.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 641 Advanced Artificial Intelligence II Credits: 2 (2-0-0)

Course Description: Advanced research topics in artificial intelligence.

Prerequisite: CS 640.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 645 Advanced Machine Learning: Neural Networks Credits: 4 (3-2-0)

Course Description: Study of machine learning research literature and implementations of algorithms for neural networks and reinforcement learning.

Prerequisite: CS 545 with a minimum grade of C.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 646 Machine Learning in Bioinformatics Credits: 4 (3-2-0)

Course Description: Recent research on the applications of machine learning in bioinformatics.

Prerequisite: CS 545 or STAT 560.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 653 Topics in Programming Language Implementation Credits: 4 (3-3-0)

Course Description: Data dependence analysis; code generation.

Prerequisite: CS 553.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 655 Advanced Topics in Distributed Systems Credits: 4 (3-2-0)

Course Description: Issues related to robustness, replication, consistency, scalability, isolation and privacy in large-scale distributed systems.

Prerequisite: CS 555.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 656A Advanced Topics in Computer Security: Formal Models of Computer Security Credits: 4 (3-2-0)

Course Description: Advanced research topics in computer security.

Prerequisite: CS 556.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 656B Advanced Topics in Computer Security: Models for Privacy and Application Security Credits: 4 (3-2-0)

Course Description: Advanced research topics in computer security.

Prerequisite: CS 556.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 656C Advanced Topics in Computer Security: Network Security Credits: 4 (3-2-0)

Course Description: Advanced research topics in computer security.

Prerequisite: CS 556.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 657 Advanced Topics in Computer Networking Credits: 4 (3-2-0)

Course Description: Advanced research topics in computer networks.

Prerequisite: CS 557.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CS 658 Internet Engineering Credits: 4 (3-3-0)

Also Offered As: ECE 658.

Course Description: Link technologies, multiple access, hardware and software for internetworks routing, switching flow control, multicast, performance, and applications.

Prerequisite: CS 457 or ECE 456.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online. Credit not allowed for both ECE 658 and CS 658.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CS 670B Topics in Architecture/Systems: Performance Evaluation and Modeling Credits: Var[1-4] (0-0-0)

Also Offered As: ECE 670B.

Course Description:

Prerequisite: CS 570 or ECE 554.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both CS 670B and ECE 670B.

Grade Mode: Traditional.

Special Course Fee: No.

CS 670C Topics in Architecture/Systems: Distributed Systems Credits: Var[1-4] (0-0-0)

Also Offered As: ECE 670C.

Course Description:

Prerequisite: CS 570 or ECE 554.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both CS 670C and ECE 670C.

Grade Mode: Traditional.

Special Course Fee: No.

CS 670D Topics in Architecture/Systems: Architecture of Advanced Systems Credits: Var[1-4] (0-0-0)

Also Offered As: ECE 670D.

Course Description:

Prerequisite: CS 570 or ECE 554.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both CS 670D and ECE 670D.

Grade Mode: Traditional.

Special Course Fee: No.

CS 675 Advanced Parallel Computing Credits: 4 (3-3-0)

Course Description: Parallel computing, computational models, parallel languages and algorithms, distributed simulation, Internet and mobile computing, parallel search.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor. Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CS 692 Seminar Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

CS 695 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CS 696 Group Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CS 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CS 787 Internship Credit: 1 (0-3-0)

Course Description: Summer internship experience in computer science.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CS 793 Research Seminar in Computer Science Credits: 4 (0-0-4)

Course Description: Research methods in specific areas of computer science.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Graduate standing in computer science.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

CS 799 Dissertation Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Computing Technology (CT)

CT 301 C++ Fundamentals Credits: 2 (1-0-1)

Course Description: C++ syntax, memory management, file input/output, pointers, references, exceptions, and object-oriented programming in C++.

Prerequisite: CS 162 with a minimum grade of C or CS 163 with a minimum grade of C or CS 164 with a minimum grade of C.

Registration Information: Must register for lecture and recitation.

Sections may be offered: Online. Credit not allowed for both CS 253 and CT 301.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CT 320 Network and System Administration Credits: 4 (3-3-0)

Course Description: Installation of network and operating system services, management and support; upgrades, security, backups.

Prerequisite: CS 156 or CS 270.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

Major in Computer Science

Computer science is about creating innovative solutions to complex, real-world problems. Students in this major study step-by-step computational methods for solving problems by encoding, storing, tracking and transforming information. Computer science is much broader than just programming. It is informed by the theory and architecture of computing devices, and the tools and practices used to design and implement software.

The computer science major at CSU provides students a broad background in the field while simultaneously allowing students to focus on specific areas. We offer the following concentrations:

- Artificial Intelligence and Machine Learning
- Computer Science Education
- Computing Systems
- Human-Centered Computing
- Networks and Security
- Software Engineering
- General Computer Science

The department offers a wide range of specialized senior-level courses where students can explore in depth different areas of computer science including: big data, computer networks, distributed systems, artificial

intelligence, machine learning, computational biology / bioinformatics, human-computer interaction, database systems, compilers, parallel programming, object oriented design, software testing, cybersecurity, blockchain, virtual worlds, and advanced topics in algorithms and theory of computer science.

Learning Outcomes

Upon completing this program, students will be able to:

- Understand how to use the principles of computing to design and develop software and computing systems.
- Work effectively in teams to develop computational solutions to complex problems.
- Communicate technical ideas effectively in writing and verbally.
- Practice CS in an ethical and socially responsible manner, with an awareness of biases that can result from their indiscriminate use.
- Confidently pursue graduate studies or professional employment in the field of computer science.

Potential Occupations

Our computer science students and graduates are in high demand. Their proven performance attracts annual recruiting visits by industry, government agencies, and research laboratories. Internships are readily available to enhance students' skills and marketability.

Career opportunities for computer science graduates include:

Software developer, database programmer, computer systems analyst, network architect, web developer, information security analyst, data scientist, computer and information systems manager, IT project manager, cybersecurity analyst, UX designer, cloud engineer, systems architect, mobile application developer, and educator.

Major in Computer Science, Artificial Intelligence and Machine Learning Concentration

Artificial intelligence (AI) and machine learning (ML) are about creating intelligent systems – systems that perceive and respond to the world around them. AI and ML systems are everywhere, in our cars and smartphones, and businesses of all sizes are investing in these areas.

The AI/ML concentration combines a rigorous computer science degree with coursework in AI, ML, and big data. This concentration also provides students the necessary foundational coursework and skills in math, statistics, and data science.

Learning Outcomes

Upon completing this program, students will be able to:

- Develop AI and ML approaches for complex real-world problems.
- Deploy high-performance computing tools for the analysis of large datasets.
- Use a broad range of AI and ML tools, techniques, and algorithms.
- Apply AI and ML tools in an ethical and socially responsible manner, with an awareness of biases that can result from their indiscriminate use.
- Communicate results of complex analyses verbally and in writing using appropriate visualization techniques.

- Confidently pursue graduate studies or professional employment in AI/ML and computer science.

Machine learning engineer, data scientist, business intelligence developer, big data engineer, data mining analyst, natural language processing analyst, computer vision engineer.

Potential Occupations

In addition to the career opportunities open to all computer science graduates, the AI/ML concentration opens career paths that include:

Requirements Effective Fall 2023

A minimum grade of C (2.000) is required in CO 150 and in all CS, DSCI, MATH, and STAT courses which are required for graduation .

Freshman

		AUCC	Credits
CO 150	College Composition (GT-CO2)	1A	3
MATH 156 or 160 ¹	Mathematics for Computational Science I (GT-MA1) Calculus for Physical Scientists I (GT-MA1)	1B	4
Select one group from the following: ²			5-9
Group A:			
CS 150A or 150B	Culture and Coding: Java (GT-AH3) Culture and Coding: Python (GT-AH3)	3B	
CS 162 or 164	CS1—Introduction to Java Programming CS1—Computational Thinking with Java		
Group B:			
Arts and Humanities		3B	
CS 152	Python for STEM		
CS 162 or 164	CS1—Introduction to Java Programming CS1—Computational Thinking with Java		
Group C:			
Arts and Humanities		3B	
CS 163	CS1—No Prior Programming Experience		
CS 201/PHIL 201	Ethical Computing Systems (GT-AH3)	3B	3
Select at least two courses totaling a minimum of 7 credits from the following (one course must be or include the sequenced laboratory):			7
AA 100 & AA 101	Introduction to Astronomy (GT-SC2)	3A	
ANTH 120 & ANTH 121	Human Origins and Variation (GT-SC2)	3A	
BZ 110 & BZ 111	Principles of Animal Biology (GT-SC2)	3A	
BZ 120	Principles of Plant Biology (GT-SC1)	3A	
CHEM 107 & CHEM 108	Fundamentals of Chemistry (GT-SC2)	3A	
CHEM 111 & CHEM 112	General Chemistry I (GT-SC2)	3A	
GEOL 120 & GEOL 121	Exploring Earth - Physical Geology (GT-SC2)	3A	
GEOL 122 & GEOL 121	The Blue Planet - Geology of Our Environment (GT-SC2)	3A	
GEOL 124 & GEOL 121	Geology of Natural Resources (GT-SC2)	3A	
GEOL 150	Physical Geology for Scientists and Engineers	3A	
HONR 292A	Honors Seminar: Knowing in the Sciences	3A	
LIFE 102	Attributes of Living Systems (GT-SC1)	3A	
LIFE 103	Biology of Organisms-Animals and Plants (GT-SC1)	3A	
LIFE 201A	Introductory Genetics: Applied/Population/Conservation/Ecological (GT-SC2)	3A	

LIFE 201B	Introductory Genetics: Molecular/Immunological/Developmental (GT-SC2)	3A	
LIFE 220/LAND 220	Fundamentals of Ecology (GT-SC2)	3A	
NR 150	Oceanography (GT-SC2)	3A	
PH 121	General Physics I (GT-SC1)	3A	
PH 122	General Physics II (GT-SC1)	3A	
PH 141	Physics for Scientists and Engineers I (GT-SC1)	3A	
PH 142	Physics for Scientists and Engineers II (GT-SC1)	3A	
Diversity, Equity, and Inclusion		1C	3
Electives ³			1-5
Total Credits			30
Sophomore			
CS 165	CS2--Data Structures		4
CS 220	Discrete Structures and their Applications		4
Select one group from the following:			4-5
Group A			
CS 214	Software Development		
CT 301	C++ Fundamentals		
Group B			
CS 253	Software Development with C++		
Select one course from the following:			4
CS 250	Computer Systems Foundations		
CS 270	Computer Organization		
MATH 256 or 161	Mathematics for Computational Science II Calculus for Physical Scientists II (GT-MA1)		4
Select one course from the following:			3-4
DSCI 369	Linear Algebra for Data Science		
MATH 369	Linear Algebra I		
Select one course from the following:			1-3
STAT 301	Introduction to Applied Statistical Methods		
STAT 302A	Statistics Supplement: General Applications		
STAT 307	Introduction to Biostatistics		
STAT 315	Intro to Theory and Practice of Statistics		
Historical Perspectives		3D	3

Major in Computer Science, Computer Science Concentration

The Computer Science#general concentration is a broad program that prepares students for any introductory position in the computer science field and many other fields, including business, natural sciences, health, research, engineering, defense and more.

This concentration offers students options to customize their knowledge and skill set on top of core computer science concepts, allowing them to tailor their education to their passions. Students can focus on a specific research area (<https://compsci.colostate.edu/research/>) in their 400-level coursework or take a breadth focus – a little bit of everything – for a broader perspective. Students can also complete a second major or minor, producing a highly interdisciplinary degree.

This concentration allows students to build on multiple different skill sets from across the other concentrations. The knowledge, skill set and

focus students create within this concentration varies depending on the courses taken.

Learning Outcomes

Upon completing this program, students will be able to:

- Leverage teamwork to develop innovative, logical approaches to solving complex real-world problems.
- Analyze and improve processes and outcomes.
- Communicate technical skills verbally and in writing.
- Confidently pursue graduate studies or professional employment in computer science.

Potential Occupations

This broad concentration is easily applicable to numerous industries and careers. Based on the courses chosen, potential occupations may be listed below, in other concentrations and as cross-disciplinary careers.

Potential occupations include: software engineer, mobile app developer, data scientist, big data engineer, machine learning engineer, virtual and augmented reality developer, cybersecurity analyst, bioinformatics engineer, computational chemist, mixed-reality artist, data journalist and many more.

Requirements Effective Fall 2023

A minimum grade of C (2.000) is required in CO 150 and in all CS, DSCI, MATH, STAT and departmental Technology Focus Elective courses which are required for graduation.

Major in Computer Science, Computer Science Education Concentration

Computer science is the study of algorithms and software systems: their theory, analysis, design, efficiency, implementation, maintenance, and application. Computer Science Educators seek to advance the fundamental quality of computer science education by having a deeper understanding on how students learn combined with the complexities of the computational mindset that is developed through computer science.

Computer Science Education students will engage in coursework related to both computer science and education, and their intersection, the growing field of computer science education. Through course work, service learning, and student teaching, this degree will prepare students to enter the field as a K-12 teachers. Furthermore, this degree will serve as preparation for admission into advanced degree programs and college level teaching and research in the field of computer science education.

Course work includes the same core foundation expected of all computer science concentrations, and course work specific to computer science education and teaching standards including web development, software engineering, and networking.

Learning Outcomes

Upon completing this program, students will be able to:

- Demonstrate proficiency in the areas of software design and development, computing systems, and algorithmic analysis. Students will have a thorough grounding in the key principles and practices of computing, and in the mathematical and scientific principles of computation.
- Work effectively in groups to develop computational solutions to complex problems.
- Communicate ideas effectively, both generally and specifically, with regard to technology and computing.
- Demonstrate strong pedagogical practices related to education and computational thinking.

- Develop lesson plans related to computer science with artifact generation and statistical analysis of artifacts and student performance.
- Demonstrate the variety of fields in which computer science is applied, with direct knowledge in fields relating to the CO Standards for CS Education (algorithms, data structures, web development, networking and security)

employment, or directly enter employment as K-12 computer science / technology education teachers.

Students interested in pursuing a teaching license through CSU may refer to the Center for Educator Preparation (<http://www.cep.chhs.colostate.edu/>) and the School of Education for general information.

Potential Occupations

Upon completing this program, students can either attend graduate school in computer science, find professional computer-related

Requirements Effective Fall 2023

Major in Computer Science, Computing Systems Concentration

Computing systems are integrated devices that input, output, process, and store data and information. Computing systems encompass a wide range, from simple sensors and hardware components to phones, laptops, desktops, and entire data centers. Computing systems specialists are challenged to provide ever increasing levels of performance from these systems.

The Computing Systems concentration provides students the necessary tools to solve important and demanding systems problems at scale. Students will learn how to design and assess computer systems from a holistic perspective that encompasses distributed and parallel algorithms, big data, systems software, networking, compiler design, and artificial intelligence/machine learning.

Data is our most valuable resource. Large scale data are being generated by programs, sensors, and simulations. Drawing timely and effective insights from these data are at the heart of modern problems in computer science and society in general. The Computing Systems concentration includes courses that teach you how to accomplish this goal, from storing, transporting, organizing, and extracting insights from data to expressing programs that execute in parallel and distributed environments encompassing hundreds of thousands of cores.

Learning Outcomes

Upon completing this program, students will be able to:

- Design scalable systems for computational and data intensive problems.
- Design distributed and parallel algorithms to analyze large data sets.
- Leverage diverse computing architectures in support of problem solutions.
- Program accelerators/coprocessors (e.g., for deep learning).
- Confidently pursue graduate studies or professional employment in computer systems and computer science.

Potential Occupations

In addition to the career opportunities open to all computer science graduates, the Computing Systems concentration opens career paths that include:

Cloud applications designer, systems designer, data scientist, big data analyst, compiler designer, database specialist, and supercomputing applications specialist.

Requirements Effective Fall 2023

A minimum grade of C (2.000) is required in CO 150 and in all CS, DSCI, MATH, STAT and departmental Technical Elective courses which are required for graduation.

Freshman

		AUCC	Credits

Major in Computer Science, Human-Centered Computing Concentration

Human-centered computing (HCC) focuses on developing tools that improve the relationship between people and technology so that people

can concentrate on the problem rather than the technology. The ultimate goal of HCC is to make the computer invisible.

Human-centered computing involves designing, developing, and deploying human-centric computer systems. In this concentration students will learn techniques for human-computer interaction using gestures, mobile devices, large surfaces, and virtual environments.

Students will also learn how to design and conduct human-subject experiments and understand the role of HCC in developing human-centric artificial intelligence systems. The concentration provides rich interdisciplinary training in computer vision, machine learning, design and psychology.

Learning Outcomes

Upon completing this program, students will be able to:

- Design interactive systems using state-of-the-art HCC techniques.
- Design and conduct human-subject experiments.
- Build complex 3D worlds for user interaction (e.g., virtual and augmented reality).
- Confidently pursue graduate studies or professional employment in HCC and computer science.

Potential Occupations

In addition to the career opportunities open to all computer science graduates, the HCC concentration opens career paths that include:

User experience designer, virtual and augmented reality developer, and human-centric developer for intelligent systems.

Requirements

Effective Fall 2023

A minimum grade of C (2.000) is required in CO 150 and in all CS, DSCI, MATH, STAT, and Technical Elective courses which are required for graduation.

Major in Computer Science, Networks and Security Concentration

Networks connect computers and other devices so they can share information. The Networks and Security concentration involves designing, building, and maintaining networks and protecting them from cyberattacks.

Network and security technology is vitally important to almost every modern field of human endeavor including biology, physics, agriculture, medicine, defense, and more.

There is explosive demand for professionals who can understand the underlying principles of networks and security, incorporate them into products and practices, and provide defensive capabilities against cyber threats.

The Networks and Security concentration provides students core and elective courses on computer networking, systems security (including the latest trends and technologies in cyber-security), ethical hacking, operating systems, databases, and software. Students will develop fundamental skills in security architecture and analysis, cryptography, system vulnerabilities and attack vectors, malware analysis and defense, intrusion detection and protection, network architecture, engineering and network software development. The *CSU Cyber-Security Center of Excellence* expands upon these course offerings with lab equipment, research topics, and certification opportunities.

Learning Outcomes

Upon completing this program, students will be able to:

- Work effectively in teams to develop computational solutions to complex problems.

- Develop products and technologies that provide network/cyber-security solutions or incorporate these technologies into products that require security or network capabilities.
- Analyze technologies and situations for cyber vulnerabilities to develop improvements to attack and defense methodologies.
- Communicate technical ideas effectively in writing and verbally.
- Confidently pursue graduate studies or professional employment in networks and security and computer science.

Potential Occupations

In addition to the career opportunities open to all computer science graduates, the networks and security concentration opens career paths that include:

Software developer, software architect, network security analyst, software project manager, computer systems security analyst, computer and information systems manager, and R&D jobs for both cyber-security attack and defense.

Employers in a wide range of fields recognize the need for network and cyber-security architecture and implementations within their domains, which creates R&D and management opportunities across a wide job market.

Requirements Effective Fall 2023

A minimum grade of C (2.000) is required in CO 150 and in all CS, DSCI, MATH, STAT and departmental Technical Elective courses which are required for graduation.

Freshman

		AUCC	Credits
CO 150	College Composition (GT-CO2)	1A	3

Major in Computer Science, Software Engineering Concentration

Software engineering involves designing, implementing, and maintaining computer programs. Developing modern software systems requires more than programming skills and core computer science concepts. It requires software engineering skills, which are in high demand in the software industry.

The Software Engineering concentration focuses on the concepts, techniques, and tools necessary for software analysis, design, testing, maintenance, and teamwork. Courses will include hands-on work with the software engineering tools used in industry.

This concentration combines a rigorous computer science degree with courses in software design, software testing, project management, and system analysis and design.

Learning Outcomes

Upon completing this program, students will be able to:

- Work effectively in teams to develop computational solutions to complex problems.
- Communicate technical ideas effectively in writing and verbally.
- Confidently pursue graduate studies or professional employment in software engineering and computer science.

Potential Occupations

In addition to the career opportunities open to all computer science graduates, the software engineering concentration opens career paths that include:

Software developer, software architect, full-stack developer, software project manager, database programmer, computer systems analyst, web developer, computer and information systems manager, UX designer, cloud engineer, and mobile application developer.

Requirements Effective Fall 2023

A minimum grade of C (2.000) is required in CO 150 and in all CS, CIS, DSCI, MATH, and STAT courses which are required for graduation.

Minor in Bioinformatics

At the intersection of biology and computer science, bioinformatics is the study of applying computational tools to collect and analyze complex biological data such as genomic sequences.

A minor in Bioinformatics will give students interested in biology a foundation in programming that will complement their biology backgrounds. In addition to programming, students will take basic courses in statistics and machine learning, leading up to coursework in bioinformatics.

Please contact a department advisor for more information.

Requirements Effective Fall 2023

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

A minimum grade of a C (2.000) is required in all courses required for the minor.

Code	Title	Credits
BZ 360	Bioinformatics and Genomics	4
CS 220	Discrete Structures and their Applications	4
CS 345	Machine Learning Foundations and Practice	3

CS 425	Introduction to Bioinformatics Algorithms	4
Select one course from the following:		4
MATH 155	Calculus for Biological Scientists I (GT-MA1)	
MATH 156	Mathematics for Computational Science I (GT-MA1)	
MATH 160	Calculus for Physical Scientists I (GT-MA1)	
Select one course from the following:		2-3
CS 150B	Culture and Coding: Python (GT-AH3)	
CS 152	Python for STEM	
Select one course from the following:		3-4
BZ 110	Principles of Animal Biology (GT-SC2)	
BZ 120	Principles of Plant Biology (GT-SC1)	
LIFE 102	Attributes of Living Systems (GT-SC1)	
Select one course from the following:		2-4
CS 163	CS1—No Prior Programming Experience	
CS 164	CS1—Computational Thinking with Java	
DSCI 235	Data Wrangling	
Select one course from the following:		3
STAT 301	Introduction to Applied Statistical Methods	
STAT 303/ ECE 303	Introduction to Communications Principles	
STAT 307	Introduction to Biostatistics	
STAT 315	Intro to Theory and Practice of Statistics	
Program Total Credits:		29-33

Minor in Computer Science

Computer science and programming skills are in high demand in every field. Most jobs now require them.

A minor in Computer Science will give students a foundation in software development, programming, and computer and information theory. Students will begin with a gradual introduction to programming and data structures. Then students can take courses in an area of emphasis that complements their current degree.

This customized minor can significantly boost a student's career opportunities and success.

Computer Science has competitive entrance requirements. Please contact a department advisor for more information.

Requirements Effective Fall 2023

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

A minimum grade of C (2.000) is required in all courses required for the minor.

Code	Title	Credits
Lower Division		
Select one course from the following:		2-4
CS 162	CS1—Introduction to Java Programming	
CS 163	CS1—No Prior Programming Experience	
CS 164	CS1—Computational Thinking with Java	
CS 165	CS2—Data Structures	4
Select one course from the following:		3-4
CS 214	Software Development	
CS 220	Discrete Structures and their Applications	
CS 250	Computer Systems Foundations	
CS 253	Software Development with C++	
CS 270	Computer Organization	
Upper Division		
CS***	Courses numbered 300- or above ¹	12
Program Total Credits:		21-24

¹ Excluding CS 480-499.

Minor in Machine Learning

Machine learning (ML) is the science of creating algorithms that learn from data. ML systems are everywhere, from cars and smartphones to various home devices. Businesses of all sizes are investing in ML technology. ML is also ubiquitous across the sciences: Many areas of science generate large amounts of data and rely on ML to assist in making new discoveries in fields ranging from particle physics to medicine.

The ML minor provides students a path that includes introductory and advanced machine learning courses along with the necessary foundational coursework and skills in computing, math, and statistics.

Learning Outcomes

Upon successful completion of this program, students will be able to:

1. Develop ML approaches for complex real-world problems.
2. Use a broad range of ML tools, techniques, and algorithms.
3. Apply ML tools in an ethical and socially responsible manner, with an awareness of biases that can result from their indiscriminate use.
4. Communicate results of complex analyses using appropriate visualization techniques.

Computer Science has competitive entrance requirements. Please contact a department advisor for more information.

Requirements Effective Fall 2022

A minimum grade of C (2.000) is required in all courses required for the minor.

Additional coursework may be required due to prerequisites.

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Code	Title	Credits
CS 165	CS2—Data Structures	4
CS 220	Discrete Structures and their Applications	4
CS 345	Machine Learning Foundations and Practice	3
CS 445	Introduction to Machine Learning	4

Select one course from the following:

2-4

CS 162	CS1—Introduction to Java Programming
CS 163	CS1—No Prior Programming Experience
CS 164	CS1—Computational Thinking with Java

Select one course from the following:

3-4

DSCI 369	Linear Algebra for Data Science
MATH 369	Linear Algebra I

Select one course from the following:

1-3

STAT 301	Introduction to Applied Statistical Methods
STAT 302A	Statistics Supplement: General Applications
STAT 303/ECE 303	Introduction to Communications Principles
STAT 307	Introduction to Biostatistics
STAT 315	Intro to Theory and Practice of Statistics

Program Total Credits:**21-26**

Master of Science in Computer Science, Plan A

The Master of Science in Computer Science, Plan A is a research-based degree which includes coursework, research, and a thesis. The degree is appropriate for students who intend to go on to work in computer science research and development for industry or government, or those seeking more advanced research training in a computer science Ph.D. program.

Requirements Effective Fall 2010

At least 35 credits of graduate course work, including up to 8 credits of CS 699.

Master of Computer Science, Plan C (M.C.S.)

The Master of Computer Science, Plan C degree is a professional (non-research) degree consisting of coursework only. This degree is intended for students desiring an advanced credential in computer science to enhance their technical abilities and knowledge of state-of-the-art computer science principles to apply as software engineers in organizational settings (industry, government, etc.).

Requirements Effective Fall 2010

A total of 35 semester hours in lecture and laboratory courses are required for graduation. At least 20 of these credits must be in computer sciences courses at the 500-level or above (graduate level courses). No independent study credits of any kind will be accepted toward meeting the 35 hour requirement.

Department of Mathematics

Office in Weber Building, Room 101
(970) 491-1303
[math.colostate.edu](http://www.math.colostate.edu) (<http://www.math.colostate.edu>)

Professor Kenneth McLaughlin, Chair

Undergraduate Majors

- Major in Mathematics
 - Actuarial Science Concentration
 - Applied Mathematics Concentration
 - Computational Mathematics Concentration
 - General Mathematics Concentration
 - Mathematics Education Concentration

Minors

- Minor in Mathematics
- Minor in Mathematical Biology

Graduate Graduate Programs in Mathematics

The department offers the Master of Science and Doctor of Philosophy degrees with programs in pure and applied mathematics. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Mathematics (<http://www.math.colostate.edu>).

Master's Programs

- Master of Science in Mathematics, Plan A*
- Master of Science in Mathematics, Plan B*

Ph.D.

- Ph.D. in Mathematics*

* Please see department for program of study.

Courses Mathematics (MATH)

MATH 101 Math in the Social Sciences (GT-MA1) Credits: 3 (2-2-0)

Course Description: Voting theory, power indices, fair division, apportionment, circuits and trees, list processing, descriptive statistics, probability.

Prerequisite: None.

Registration Information: Does not satisfy the prerequisite for MATH 117. Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Quantitative Reasoning 1B, Mathematics (GT-MA1).

MATH 105 Patterns of Phenomena (GT-MA1) Credits: 3 (2-0-1)

Course Description: Applications of mathematical ideas and mode of thought in the arts and humanities, focusing on classification, recognition.

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Quantitative Reasoning 1B, Mathematics (GT-MA1).

MATH 116 Precalculus Supplement for Success in Math Credit: 1 (1-0-0)

Course Description: Supplemental academic instruction developing skills to succeed in precalculus courses and future mathematics and STEM courses.

Prerequisite: None.

Restriction: Must be a: Undergraduate.

Registration Information: Concurrent registration in face-to-face section of MATH 117 and MATH 118. Approval by department representative required.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 117 College Algebra in Context I (GT-MA1) Credit: 1 (1-0-0)

Course Description: Functions as mathematical models. Linear, quadratic, and polynomial functions considered symbolically, graphically, numerically, and contextually.

Prerequisite: None.

Registration Information: Math Placement Tool or ELM Tutorial required. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Additional Information: Quantitative Reasoning 1B, Mathematics (GT-MA1).

MATH 118 College Algebra in Context II (GT-MA1) Credit: 1 (1-0-0)

Course Description: Reciprocals of linear functions, rational functions, and power functions considered symbolically, graphically, numerically, and contextually.

Prerequisite: MATH 117, may be taken concurrently.

Registration Information: MATH 117 or Math Placement Tool required. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Additional Information: Quantitative Reasoning 1B, Mathematics (GT-MA1).

MATH 120 College Algebra (GT-MA1) Credits: 3 (3-0-0)

Course Description: Examine ideas of quantity, variable, rate of change, and formula. Develop meaningful formulas and graphs to represent the patterns (linear, quadratic, exponential) of how two quantities change together, and develop and interpret function formulas and graphs to represent quantitative relationships in applied contexts.

Prerequisite: None.

Registration Information: Math Placement Tool or ELM Tutorial required. Credit allowed for only one of the following: MATH 120, MATH 124, or MATH 127.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Quantitative Reasoning 1B, Mathematics (GT-MA1).

MATH 124 Logarithmic and Exponential Functions (GT-MA1) Credit: 1 (1-0-0)

Course Description: Definition and graphs of exponential and logarithmic functions, properties of logarithmic functions, exponential and logarithmic equations, applications.

Prerequisite: MATH 118, may be taken concurrently.

Registration Information: MATH 118 or Math Placement Tool required. Sections may be offered: Online. Credit not allowed for both MATH 120 and MATH 124.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Additional Information: Quantitative Reasoning 1B, Mathematics (GT-MA1).

MATH 125 Numerical Trigonometry (GT-MA1) Credit: 1 (1-0-0)

Course Description: Definition and graphs of trigonometric functions, laws of sines and cosines, solutions of right and oblique triangles, applications.

Prerequisite: MATH 118, may be taken concurrently.

Registration Information: MATH 118 or Math Placement Tool required. Sections may be offered: Online. Credit not allowed for both MATH 125 and MATH 127.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Additional Information: Quantitative Reasoning 1B, Mathematics (GT-MA1).

MATH 126 Analytic Trigonometry (GT-MA1) Credit: 1 (1-0-0)

Course Description: Inverse trigonometric functions, trigonometric identities, solving trigonometric equations.

Prerequisite: MATH 125, may be taken concurrently.

Registration Information: MATH 125 or Math Placement Tool required. Sections may be offered: Online. Credit not allowed for both MATH 126 and MATH 127.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Additional Information: Quantitative Reasoning 1B, Mathematics (GT-MA1).

MATH 127 Precalculus (GT-MA1) Credits: 4 (4-0-0)

Course Description: Examine ideas of quantity, variable, rate of change, and formula that are necessary for succeeding in and learning precalculus and calculus. Develop meaningful formulas and graphs to represent the patterns (linear, quadratic, exponential, trigonometric) of how two quantities change together, and develop and interpret function formulas and graphs to represent quantitative relationships in applied contexts.

Prerequisite: None.

Registration Information: Math Placement Tool or ELM Tutorial required. Credit allowed for only one of the following: MATH 120, MATH 125, MATH 126, or MATH 127.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Additional Information: Quantitative Reasoning 1B, Mathematics (GT-MA1).

MATH 141 Calculus in Management Sciences (GT-MA1) Credits: 3 (3-0-0)

Course Description: Analytic geometry, limits, equilibrium of supply and demand, differentiation, integration, applications of the derivative, integral.

Prerequisite: MATH 118.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following courses: MATH 141, MATH 155, MATH 159, or MATH 160.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Quantitative Reasoning 1B, Mathematics (GT-MA1).

MATH 151 Mathematical Algorithms in Matlab I Credit: 1 (0-2-0)

Course Description: Statements, expressions and variable assignments, scripts, control statements and logical statements. Newton's method, Simpson's rule, recursion.

Prerequisite: MATH 141 or MATH 155 or MATH 160.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 152 Mathematical Algorithms in Maple Credit: 1 (0-2-0)

Course Description: Iteration and recursion, control and logical statements, expressions, functions, data types, binary numbers, symbolic manipulation of terms.

Prerequisite: MATH 141 or MATH 155 or MATH 160.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 155 Calculus for Biological Scientists I (GT-MA1) Credits: 4 (4-0-0)

Course Description: Limits, continuity, differentiation, and integration of elementary functions with applications in the biosciences.

Prerequisite: None.

Registration Information: MATH 124; MATH 125 or MATH 127. Credit allowed for only one of the following courses: MATH 141, MATH 155, MATH 159, or MATH 160. Programmable graphing calculator required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Quantitative Reasoning 1B, Mathematics (GT-MA1).

MATH 156 Mathematics for Computational Science I (GT-MA1) Credits: 4 (4-0-0)

Course Description: Sets; relations; number systems; functions; sequences and series; concepts of differential and integral calculus as relevant to computational science.

Prerequisite: None.

Registration Information: MATH 124 with a B or better; MATH 126 with a B or better or MATH 127 with a B or better. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Quantitative Reasoning 1B, Mathematics (GT-MA1).

MATH 157 One Year Calculus IA (GT-MA1) Credits: 3 (3-0-0)

Course Description: Algebra and trigonometry, study skills for calculus. Limits, continuity, differentiation of elementary functions with applications.

Prerequisite: None.

Registration Information: MATH 118; MATH 124 or concurrent registration; MATH 125; MATH 126 or concurrent registration or MATH 127.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Quantitative Reasoning 1B, Mathematics (GT-MA1).

MATH 158 Mathematical Algorithms in C Credit: 1 (0-2-0)

Also Offered As: CS 158.

Course Description: Compilers, expressions, variable types, control statements, pointers, logical statements, plotting, secant method, trapezoidal rule, recursion.

Prerequisite: MATH 151 and CS 156 and MATH 160.

Registration Information: Credit not allowed for both MATH 158 and CS 158.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 159 One Year Calculus IB (GT-MA1) Credits: 3 (3-0-0)

Course Description: Study skills for calculus. Differentiation and integration of elementary functions with applications. Conic section.

Prerequisite: None.

Registration Information: MATH 124; MATH 126; MATH 157 or MATH 127; MATH 157. Credit allowed for only one of the following: MATH 141, MATH 155, MATH 159, or MATH 160.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Quantitative Reasoning 1B, Mathematics (GT-MA1).

MATH 160 Calculus for Physical Scientists I (GT-MA1) Credits: 4 (3-2-0)

Course Description: Limits, continuity, differentiation, and integration of elementary functions with applications; conic sections.

Prerequisite: None.

Registration Information: MATH 124 with a B or better; MATH 126 with a B or better or MATH 127 with a B or better. Must register for lecture and laboratory. Sections may be offered: Online. Credit allowed for only one of the following courses: MATH 141, MATH 155, MATH 159 or MATH 160.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Quantitative Reasoning 1B, Mathematics (GT-MA1).

MATH 161 Calculus for Physical Scientists II (GT-MA1) Credits: 4 (3-2-0)

Course Description: Transcendental functions, integration techniques, polar coordinates, sequences and series, with mathematical software.

Prerequisite: (MATH 124 or MATH 127) and (MATH 159 or MATH 160).

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Quantitative Reasoning 1B, Mathematics (GT-MA1).

MATH 192 First Year Seminar in Mathematical Sciences Credit: 1 (0-0-1)

Course Description: Introduction to the richness and variety of problems addressed by mathematical language and techniques; resources and available careers.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 229 Matrices and Linear Equations Credits: 2 (2-0-0)

Course Description: Linear systems, matrix arithmetic, homogeneous coordinates, complex numbers, eigenvalues, eigenvectors, applications to discrete dynamical systems.

Prerequisite: MATH 141 or MATH 155 or MATH 160.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MATH 230 Discrete Mathematics for Educators Credits: 3 (2-2-0)

Course Description: Voting theory, fair division, graph theory, linear programming, probability, teaching in small groups, proof techniques, mathematical technology.

Prerequisite: MATH 161 and EDUC 275, may be taken concurrently.

Registration Information: Credit not allowed for both MATH 230 and MATH 330.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 235 Introduction to Mathematical Reasoning Credits: 2 (2-0-0)

Course Description: Mathematical statements and proof techniques, induction, set theory, inequalities, number systems, functions.

Prerequisite: MATH 156 or MATH 161 or MATH 271.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 255 Calculus for Biological Scientists II Credits: 4 (4-0-0)

Course Description: Derivatives and integrals of functions of several variables, differential and difference equations, matrices, applications in the biosciences.

Prerequisite: (MATH 126, may be taken concurrently) and (MATH 155).

Registration Information: Credit not allowed for both MATH 255 and MATH 261. Programmable graphing calculator required.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Quantitative Reasoning 1B.

MATH 256 Mathematics for Computational Science II Credits: 4 (4-0-0)

Course Description: Methods from vector calculus, advanced calculus, and analytic geometry as relevant to machine learning and data science. Optimization.

Prerequisite: (MATH 156 or MATH 161) and (DSCI 369 or MATH 369).

Registration Information: Sections may be offered: Online. Credit not allowed for both MATH 256 and MATH 281A2.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 261 Calculus for Physical Scientists III Credits: 4 (4-0-0)

Course Description: Vector functions, partial differentiation, cylindrical and spherical coordinates, multiple integrals, line integrals, Green's theorem.

Prerequisite: MATH 161.

Registration Information: Sections may be offered: Online. Credit not allowed for both MATH 255 and MATH 261.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 269 Geometric Introduction to Linear Algebra Credits: 2 (2-0-0)

Course Description: A first introduction to linear algebra with a geometric rather than a computational approach.

Prerequisite: MATH 117 or MATH 120 or MATH 127.

Restriction: Must be a: Undergraduate.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 271 Applied Mathematics for Chemists I Credits: 4 (4-0-0)

Course Description: Series and limits, Taylor series, complex variables, first- and second- order ordinary differential equations, matrices, linear transformations, determinants, and eigenvalues.

Prerequisite: MATH 155 or MATH 159 or MATH 160.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 272 Applied Mathematics for Chemists II Credits: 4 (4-0-0)

Course Description: Vector fields, partial differentiation, cylindrical and spherical coordinates, multiple integrals, line integrals, the Wave and the Schrödinger equations, separation of variables method. Inner Product Spaces. Fourier Series.

Prerequisite: MATH 271.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 301 Introduction to Combinatorial Theory Credits: 3 (3-0-0)

Course Description: Counting problems; binomial coefficients; proof techniques in combinatorics; recurrence relations and generating functions; graph theory, including walks, trees, and planar graphs.

Prerequisite: MATH 161.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 317 Advanced Calculus of One Variable Credits: 3 (3-0-0)

Course Description: Convergence of sequences, series: limits, continuity, differentiation, integration of one-variable functions.

Prerequisite: (MATH 156 or MATH 161) and (CS 220 or MATH 230 or MATH 235).

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 331 Introduction to Mathematical Modeling Credits: 3 (3-0-0)

Course Description: Problem formulation. Modeling, theoretical and empirical. Variable selection. Derivation and simulation of solutions. Model testing including prediction.

Prerequisite: (MATH 161, may be taken concurrently) and (MATH 229, may be taken concurrently or DSCI 369 or MATH 369, may be taken concurrently).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 332 Partial Differential Equations Credits: 3 (3-0-0)

Course Description: Partial differential equations, separation of variables, Fourier series and transforms, Laplace, heat and wave equations.

Prerequisite: MATH 340 or MATH 345.

Registration Information: Credit not allowed for both MATH 332 and MATH 530.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 340 Intro to Ordinary Differential Equations Credits: 4 (3-2-0)

Course Description: First and second order equations, series, Laplace transforms, linear algebra, eigenvalues, first order systems of equations, numerical techniques.

Prerequisite: MATH 255 or MATH 261.

Registration Information: Sections may be offered: Online. Must register for lecture and laboratory. Credit not allowed for both MATH 340 and MATH 345.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 345 Differential Equations Credits: 4 (3-2-0)

Course Description: First and second order equations, Laplace transforms, first order systems of equations, numerical methods, applied linear algebra, linearization.

Prerequisite: (MATH 255 or MATH 261) and (MATH 229 or DSCI 369 or MATH 369).

Registration Information: Must register for lecture and laboratory. Credit not allowed for both MATH 340 and MATH 345.

Terms Offered: Fall, Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 348 Theory of Population and Evolutionary Ecology Credits: 4 (3-3-0)

Also Offered As: BZ 348.

Course Description: Principles and methods for building, analyzing, and interpreting mathematical models of ecological and evolutionary problems in biology.

Prerequisite: MATH 155 or MATH 160.

Registration Information: Must register for lecture and laboratory. Credit allowed for only one of the following: BZ 348, BZ 548, MATH 348.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 360 Mathematics of Information Security Credits: 3 (3-0-0)

Course Description: Codes, ciphers, Chinese remainder theorem, primality testing, public key ciphers, RSA, finite fields, discrete algorithms, AES encryption.

Prerequisite: (MATH 156 or MATH 161) and (MATH 229 or DSCI 369 or MATH 369).

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 366 Introduction to Abstract Algebra Credits: 3 (3-0-0)

Course Description: Sets, integers, polynomials, real and complex numbers, groups, integral domains, and fields; development of skills for proving theorems.

Prerequisite: MATH 156 or MATH 161 or MATH 271.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 369 Linear Algebra I Credits: 3 (3-0-0)

Course Description: Linear systems, matrices, subspaces of Euclidean spaces, linear transformations on Euclidean spaces, eigenvalues, eigenvectors.

Prerequisite: MATH 156 or MATH 161 or MATH 255 or MATH 271.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 384 Supervised College Teaching Credit: 1 (1-0-0)

Course Description: Skills for effective tutoring of precalculus mathematics; design and implementation of the Individualized Mathematics Program.

Prerequisite: None.

Registration Information: Written consent of instructor. May not be used to satisfy Mathematics degree requirements. A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

MATH 405 Introduction to Number Theory Credits: 3 (3-0-0)

Course Description: Diophantine equations; distribution of primes; multiplicative functions; finite fields; quadratic reciprocity; quadratic number fields.

Prerequisite: MATH 360 or MATH 366.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MATH 417 Advanced Calculus I Credits: 3 (3-0-0)

Course Description: Topology of Euclidean spaces, limits, derivatives and integrals on Euclidean spaces. Implicit functions and the implicit function theorem.

Prerequisite: (MATH 317) and (DSCI 369 or MATH 369).

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 418 Advanced Calculus II Credits: 3 (3-0-0)

Course Description: Line and surface integrals, series, sequences and series of functions.

Prerequisite: MATH 417.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MATH 419 Introduction to Complex Variables Credits: 3 (3-0-0)

Course Description: Analyticity, Cauchy integral theorem and formula, Taylor and Laurent series, residue calculus, conformal mapping and harmonic functions.

Prerequisite: MATH 261.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 425 History of Mathematics Credits: 3 (3-0-0)

Course Description: Historical development of geometry, arithmetic, algebra, and calculus from ancient times to 20th century.

Prerequisite: (EDUC 331) and (DSCI 369 and MATH 317 or DSCI 369 and MATH 366 or MATH 317 and MATH 366 or MATH 317 and MATH 369 or MATH 366 and MATH 369).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 430 Fourier and Wavelet Analysis with Apps Credits: 3 (3-0-0)

Also Offered As: ECE 430.

Course Description: Fourier analysis and transforms, FFTs; sampling theorems, computational algorithms; wavelets; applications to communication, imaging, and compression.

Prerequisite: MATH 340 or MATH 345.

Registration Information: Credit not allowed for both ECE 430 and MATH 430.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 435 Projects in Applied Mathematics Credits: 3 (1-4-0)

Course Description: Open-ended projects with emphasis on problem identification and formulation, team approach, and reporting results.

Prerequisite: (CS 150A or CS 150B or CS 152 or CS 163 or CS 164 or CS 165 or CS 253 or MATH 151) and (MATH 229 or DSCI 369 or MATH 369) and (MATH 340 or MATH 345).

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 450 Introduction to Numerical Analysis I Credits: 3 (3-0-0)

Course Description: Solutions of systems of linear and nonlinear equations, interpolation, approximation.

Prerequisite: (CS 150A or CS 150B or CS 152 or CS 163 or CS 164 or CS 165 or CS 253 or MATH 151) and (MATH 255 or MATH 261).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 451 Introduction to Numerical Analysis II Credits: 3 (3-0-0)

Course Description: Numerical computation of eigenvalues, numerical solution of ordinary and partial differential equations.

Prerequisite: (CS 150A or CS 150B or CS 152 or CS 163 or CS 164 or CS 165 or CS 253 or MATH 151) and (MATH 340 or MATH 345).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 455 Mathematics in Biology and Medicine Credits: 3 (3-0-0)

Course Description: Models in population biology, cell division, host-parasoid systems, bacterial growth and predator-prey systems.

Prerequisite: BZ 348 or MATH 255 or MATH 340 or MATH 345 or MATH 348.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MATH 460 Information and Coding Theory Credits: 3 (3-0-0)

Course Description: Entropy, mutual information, channel capacity, channel coding theorem, syndrome decoding, BCH codes, recent developments.

Prerequisite: (MATH 360 or MATH 366) and (DSCI 369 or MATH 369).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 463 Post-Quantum Cryptography Credits: 3 (3-0-0)

Course Description: Exploration of secure communication in an environment where an adversary has a quantum computer. Survey of known quantum attacks on classical public key cryptosystems, and a detailed study of some of the leading candidates for quantum-resistant protocols.

Prerequisite: (MATH 161) and (DSCI 369 or MATH 369).

Registration Information: Credit not allowed for both MATH 463 and MATH 480A1.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MATH 466 Abstract Algebra I Credits: 3 (3-0-0)

Course Description: Comprehensive introduction to groups, rings, and fields.

Prerequisite: MATH 235 or MATH 360 or MATH 366.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 467 Abstract Algebra II Credits: 3 (3-0-0)

Course Description: Advanced topics in abstract algebra: Euclidean domains, abstract vector spaces, extension fields, Galois theory.

Prerequisite: (DSCI 369, may be taken concurrently or MATH 369, may be taken concurrently) and (MATH 466).

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MATH 469 Linear Algebra II Credits: 3 (3-0-0)

Course Description: Abstract vector spaces, general theory of linear transformations, theory of determinants, canonical forms.

Prerequisite: (MATH 161) and (DSCI 369 or MATH 369).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 470 Euclidean and Non-Euclidean Geometry Credits: 3 (3-0-0)

Course Description: Topics from real Euclidean, affine metric and non-Euclidean geometries emphasizing methods and connections with other areas of mathematics.

Prerequisite: (MATH 261) and (MATH 229 or DSCI 369 or MATH 369).

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 472 Introduction to Topology Credits: 3 (3-0-0)

Course Description: Topologies on sets, continuous functions, homeomorphisms. Sequences and convergence, metric spaces, connectedness, path-connectedness. Separation properties. Compactness, Countability axioms.

Prerequisite: MATH 317.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MATH 474 Introduction to Differential Geometry Credits: 3 (3-0-0)

Course Description: Local and global geometry of curves and surfaces in Euclidean space, curvature, covariant differentiation, geodesics and the Gauss-Bonnet theorem.

Prerequisite: (MATH 261) and (DSCI 369 or MATH 369).

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MATH 476 Topics in Mathematics Credits: 3 (3-0-0)

Course Description: Study experiences which deal with established content areas in mathematics.

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 484 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Written consent of instructor. A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

MATH 487 Internship Credits: Var[1-16] (0-0-0)

Course Description: A work-learn experience integrating classroom theory with practical experience.

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MATH 495 Independent Study Credits: Var[1-18] (0-0-0)

Prerequisite: None.

Grade Mode: Instructor Option.

Special Course Fee: No.

MATH 498 Undergraduate Research in Mathematics Credits: Var[1-3] (0-0-0)

Prerequisite: None.

Grade Mode: Instructor Option.

Special Course Fee: No.

MATH 501 Combinatorics I Credits: 3 (3-0-0)

Course Description: Puzzles, numbers and counting, subsets, recurrence relations, generating functions, inversion, counting with symmetry, networks, matchings.

Prerequisite: (MATH 301) and (MATH 360 or MATH 366).

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 502 Combinatorics II Credits: 3 (3-0-0)

Course Description: Graph algorithms, external set theory; partitions, Hadamard matrices, q-binomials, finite geometries, strongly regular graphs, triple systems, designs.

Prerequisite: MATH 501.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 505 Teaching Problem Solving in Mathematics K-12 Credits: 3 (0-0-3)

Course Description: Problem-solving strategies, cooperative learning, and manipulatives for K-12 classroom.

Prerequisite: None.

Registration Information: Offered as telecourse only. Teacher licensure required.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 507 Advanced Reasoning in Mathematics Credits: 3 (3-0-0)

Course Description: General proof techniques, proof in abstract algebra, proof in analysis, and proof in combinatorics.

Prerequisite: None.

Registration Information: This is a partial semester course. Sections may be offered: Online.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 510 Linear Programming and Network Flows Credits: 3 (3-0-0)

Course Description: Optimization methods; linear programming, simplex algorithm, duality, sensitivity analysis, minimal cost network flows, transportation problem.

Prerequisite: MATH 261 or MATH 315.

Registration Information: Credit not allowed for both MATH 510 and ENGR 510.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 517 Introduction to Real Analysis Credits: 3 (3-0-0)

Course Description: Euclidean and metric spaces, compactness, continuity, sequences, series, multivariable differentiation, inverse and implicit function theorems.

Prerequisite: MATH 417 and MATH 369.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 519 Complex Variables I Credits: 3 (3-0-0)

Course Description: Analytic functions, complex integration theory, singularities, elementary functions, and mapping.

Prerequisite: MATH 317.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 520 Nonlinear Programming Credits: 3 (3-0-0)

Prerequisite: MATH 510.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 522 Random Walks Credits: 3 (3-0-0)

Also Offered As: ECE 522.

Course Description: Mathematical aspects of random walks and diffusion processes. Stochastic modeling of complex systems.

Prerequisite: (ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C or STAT 315 with a minimum grade of C) and (ECE 312 with a minimum grade of C or ECE 457 with a minimum grade of C or MATH 469 with a minimum grade of C).

Registration Information: Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: ECE 522, ECE 681A2, and MATH 522.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MATH 525 Optimal Control Credits: 3 (3-0-0)

Course Description: Theory and application of optimal control and optimal estimation theory; continuous and discrete time systems; Pontryagin maximum principle.

Prerequisite: MATH 340 or MATH 345.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MATH 530 Mathematics for Scientists and Engineers Credits: 3 (3-0-0)

Course Description: Proof-oriented linear algebra, ordinary and partial differential equations.

Prerequisite: MATH 340 or MATH 345.

Registration Information: Primarily for students in the Mathematics Graduate Interdisciplinary Studies Program. Credit not allowed for both MATH 332 and MATH 530.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 532 Mathematical Modeling of Large Data Sets Credits: 3 (3-0-0)

Course Description: Mathematical theory and algorithms for modeling large data sets. Application to real world problems. Emphasis on geometric ideas.

Prerequisite: MATH 369 or MATH 530.

Registration Information: Preparedness to do programming in a standard language required.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 535 Foundations of Applied Mathematics Credits: 3 (3-0-0)

Course Description: Calculus of variations, perturbation methods, models of continuum, dimensional analysis, stochastic models, integral equations, diffusion.

Prerequisite: MATH 340 or MATH 345.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 540 Dynamical Systems Credits: 3 (3-0-0)

Course Description: Linear and nonlinear systems, orbits, phase space, flows of vector fields, stability, bifurcation theory, chaos, strange attractors and applications.

Prerequisite: MATH 369 and MATH 417.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 545 Partial Differential Equations I Credits: 3 (3-0-0)

Course Description: Second order linear PDEs, elliptic and parabolic equations, equations of math physics, separation of variables, Fourier series.

Prerequisite: MATH 340 or MATH 345 or MATH 530.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 546 Partial Differential Equations II Credits: 3 (3-0-0)

Course Description: Distribution theory, Green's functions, Sobolev spaces, elliptic and parabolic equations.

Prerequisite: MATH 545.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 550 Numerical Methods in Science and Engineering Credits: 3 (3-0-0)

Also Offered As: ENGR 550.

Course Description: Numerical methods, including finite elements, finite differences, spectral methods, method of lines, and conservation laws; stability and convergence analysis for PDEs; and applications in science and engineering.

Prerequisite: MATH 340 or MATH 345 or MATH 530.

Registration Information: Sections may be offered: Online. Credit not allowed for both ENGR 550 and MATH 550.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 560 Linear Algebra Credits: 3 (3-0-0)

Course Description: Finite dimensional vector spaces, inner products, dual spaces, transformations, projections, adjoints, norms, eigenvalues, eigenvectors.

Prerequisite: MATH 369.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 561 Numerical Analysis I Credits: 3 (3-0-0)

Course Description: Numerical linear algebra, solving nonlinear systems, least squares, and minimization.

Prerequisite: (CS 156 or CS 253 or MATH 151) and (MATH 560).

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 566 Introduction to Abstract Algebra I Credits: 3 (3-0-0)

Course Description: Analysis of algebraic structures including groups, rings, fields, and vector spaces.

Prerequisite: MATH 366.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 567 Introduction to Abstract Algebra II Credits: 3 (3-0-0)

Course Description: Field theory, Galois theory, and advanced linear algebra.

Prerequisite: MATH 566.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 569A Linear Algebra for Data Science: Matrices and Vectors Spaces Credit: 1 (1-0-0)

Course Description: A basic introduction to matrices and linear algebra with preparation to pursue further studies in the applications of matrices with an emphasis on the foundations of data science.

Prerequisite: MATH 124 and MATH 126 or MATH 127.

Restriction: Must be a: Graduate.

Registration Information: Graduate students in Mathematics may not take this course for credit. Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 569B Linear Algebra for Data Science: Geometric Techniques for Data Reduction Credit: 1 (1-0-0)

Course Description: Projections, data fitting and over-determined linear systems, eigenvectors and eigenvalues, the spectral theorem for symmetric matrices, data driven bases, principal component analysis, the singular value decomposition.

Prerequisite: MATH 569A.

Restriction: Must be a: Graduate.

Registration Information: Sections may be offered: Online. Credit not allowed for both MATH 569B and MATH 580A3.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 569C Linear Algebra for Data Science: Matrix Factorizations and Transformations Credit: 1 (1-0-0)

Course Description: Advanced algorithms for the characterization of data using matrix factorizations and transformations.

Prerequisite: MATH 569B.

Restriction: Must be a: Graduate.

Registration Information: Sections may be offered: Online. Credit not allowed for both MATH 569C and MATH 580A4.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 569D Linear Algebra for Data Science: Theoretical Foundations Credit: 1 (1-0-0)

Course Description: Theoretical development of linear algebraic tools for data science; theorem and proof driven.

Prerequisite: MATH 569C.

Restriction: Must be a: Graduate.

Registration Information: Sections may be offered: Online. Credit not allowed for both MATH 569D and MATH 580A5.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 570 Topology I Credits: 3 (3-0-0)

Course Description: Point-set topology including basic set theory, continuity, product and quotient spaces, metrization, compactness, and connectedness.

Prerequisite: MATH 417 or MATH 472.

Term Offered: Fall (odd years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 571 Topology II Credits: 3 (3-0-0)

Course Description: Fundamental group, free groups and presentations, and manifolds.

Prerequisite: MATH 566 and MATH 570.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MATH 574 Intro to Mathematics Education Research Credits: 3 (3-0-0)

Course Description: Synthesize mathematics education research, learn about research methods in mathematics education research, suggest areas of research most useful to advancing the field, and discuss classroom practice implications.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Credit not allowed for both MATH 574 and MATH 581A4.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 584 Supervised College Teaching Credit: 1 (0-0-1)

Course Description:

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

MATH 592 Seminar in Mathematics Credit: 1 (0-0-1)

Course Description:

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MATH 601 Advanced Combinatorics I Credits: 3 (3-0-0)

Course Description: Special numbers, mobius inversions, transversals, partial orders, different sets, codes, t-designs.

Prerequisite: MATH 502 and MATH 566.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 602 Advanced Combinatorics II Credits: 3 (3-0-0)

Course Description: Hypergeometric functions, graph algorithms, hadamard matrices, strongly regular graphs, association schemes.

Prerequisite: MATH 601.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 605A Number Theory: Algebraic Number Theory Credits: 3 (3-0-0)

Course Description:

Prerequisite: MATH 519, may be taken concurrently and MATH 566 and MATH 567, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 605B Number Theory: Arithmetic Geometry Credits: 3 (3-0-0)

Course Description:

Prerequisite: MATH 519, may be taken concurrently and MATH 566 and MATH 567, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 605C Number Theory: Elliptic Curves Credits: 3 (3-0-0)

Course Description:

Prerequisite: MATH 519, may be taken concurrently and MATH 566 and MATH 567, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 617 Integration and Measure Theory Credits: 3 (3-0-0)

Course Description: Riemann-Cauchy integration theory, sigma-algebras, Lebesgue theory of measure and integration, Fubini's Theorem, Radon-Nikodym theorem, Lp spaces.

Prerequisite: MATH 517.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 618 Advanced Real Analysis Credits: 3 (3-0-0)

Course Description: Normed linear spaces, Banach and Hilbert spaces, elements of functional analysis.

Prerequisite: MATH 560 and MATH 617.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 619 Complex Variables II Credits: 3 (3-0-0)

Course Description: Infinite products, entire functions, analytic continuation, Riemann surfaces, other topics.

Prerequisite: MATH 519.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 620 Variational Methods and Optimization I Credits: 3 (3-0-0)

Course Description: Unconstrained and constrained infinite dimensional optimization, calculus of variations, applications.

Prerequisite: MATH 570 or MATH 517.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 621 Variational Methods and Optimization II Credits: 3 (3-0-0)

Course Description: Unconstrained and constrained infinite dimensional optimization, variational inequalities, Lagrange multipliers, control, applications.

Prerequisite: MATH 620.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 633 Industrial and Applied Mathematics Credits: 3 (2-2-0)

Course Description: Team solution of problems arising in industrial and applied mathematics. Problem formulation, solution proposal, implementation and analysis.

Prerequisite: MATH 530 or MATH 560 or MATH 561.

Restriction: Must be a: Graduate, Professional.

Registration Information: Preparedness to do programming in a standard language required. Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 640 Ordinary Differential Equations I Credits: 3 (3-0-0)

Course Description: Existence and uniqueness, continuation, continuous dependence, linear systems, and stability.

Prerequisite: (MATH 340 or MATH 345 or MATH 530) and (MATH 369 and MATH 517).

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (odd years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 641 Ordinary Differential Equations II Credits: 3 (3-0-0)

Course Description: Topics selected from nonlinear boundary value problems, periodic phenomena, differential operators, and others.

Prerequisite: MATH 640.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 645 Advanced Partial Differential Equations I Credits: 3 (3-0-0)

Course Description: Abstract methods for linear partial differential equations.

Prerequisite: MATH 546.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MATH 646 Advanced Partial Differential Equations II Credits: 3 (3-0-0)

Course Description: Problems in nonlinear partial differential equations.

Prerequisite: MATH 645.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MATH 651 Numerical Analysis II Credits: 3 (3-0-0)

Course Description: Interpolation, approximation, quadrature, initial and boundary value problems.

Prerequisite: MATH 561.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 652 Advanced Numerical Methods for PDEs Credits: 3 (3-0-0)

Course Description: Theory of numerical methods for solution of PDEs: convergence and stability properties; error estimation; approximation theory.

Prerequisite: MATH 545 or MATH 560 or MATH 617.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 666 Advanced Algebra I Credits: 3 (3-0-0)

Course Description: Theory of rings and algebras with applications.

Prerequisite: MATH 567.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 667 Advanced Algebra II Credits: 3 (3-0-0)

Course Description: Advanced topics from algebra: representation theory, Wedderburn theory, bilinear forms, multilinear and homological algebra.

Prerequisite: MATH 666.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 670 Introduction to Differential Manifolds Credits: 3 (3-0-0)

Course Description: Finite-dimensional differential manifolds, submanifolds, vector fields and flows, Lie groups and algebras.

Prerequisite: MATH 560.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MATH 672 Projective Geometry I Credits: 3 (3-0-0)

Course Description: Algebraic sets in projective space, the Nullstellensatz, rational maps and functions, coordinate rings, Hilbert functions, dimension, degree.

Prerequisite: MATH 567.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 673 Projective Geometry II Credits: 3 (3-0-0)

Course Description: Topics selected from curves and surfaces, sheaf theory, algebraic geometry, singularity theory, vector bundles.

Prerequisite: MATH 672.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 674 Mathematics Education Theoretical Perspective Credits: 3 (3-0-0)

Course Description: Analysis, synthesis, and re-conceptualization of theoretical perspectives that are adopted in mathematics education research.

Prerequisite: MATH 574.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both MATH 674 and MATH 680A2.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 675 Topics in Mathematics Education Credits: 3 (3-0-0)

Course Description: Contemporary topics in mathematics education research. Content will vary and may include assessment, access and equity in mathematics teaching and learning, embodied cognition at the collegiate level, backwards design, research in undergraduate mathematics education, technology for teaching and learning mathematics, etc.

Prerequisite: MATH 574.

Restriction: Must be a: Graduate, Professional.

Registration Information: May be taken up to 5 times for credit.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 676 Topics in Mathematics Credits: 3 (3-0-0)

Course Description: Advanced study experiences which deal with established content areas in mathematics.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: May be taken up to 5 times for credit.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 687 Internship Credits: Var[1-9] (0-0-0)

Course Description: A work-learn experience integrating classroom theory with practical experience.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MATH 693 Seminar in Mathematics Credits: 3 (0-0-3)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MATH 695 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MATH 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MATH 717 Functional Analysis I Credits: 3 (3-0-0)

Course Description: Topological vector spaces; Banach and Hilbert spaces.

Prerequisite: MATH 618.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (odd years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 718 Functional Analysis II Credits: 3 (3-0-0)

Course Description: Spectral theory, operator theory, semigroups of transformations, and distribution theory.

Prerequisite: MATH 717.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MATH 750 Numerical Methods and Models I Credits: 3 (3-0-0)

Course Description: Derivation of model equations, introduction to solution techniques and computing.

Prerequisite: MATH 561.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MATH 751 Numerical Methods and Models II Credits: 3 (3-0-0)

Course Description: Convergence, stability, error estimates and computing.

Prerequisite: MATH 561.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MATH 793 Seminar in Mathematics Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MATH 798 Research Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MATH 799 Dissertation Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Major in Mathematics

Mathematics is the science of numbers, shapes, probabilities, and measurements. It is a universal language in which information is stated in the simplest possible form. Mathematics has a dual nature—it is an independent discipline valued for its precision and elegance, and it is an essential source of ideas and techniques for other scientific endeavors.

The undergraduate program is structured to provide a broad liberal arts education in mathematics, a strong set of core courses, and flexibility to choose from a broad range of courses. The liberal arts component requires students to acquire a broad background in communication skills, humanities, social sciences, and natural sciences. The major core focuses on developing students' understanding and appreciation of the mathematical sciences, problem solving skills, and their ability to combine knowledge and skills in productive ways. Core mathematics subjects include calculus and advanced calculus, linear algebra, methods of proof, abstract algebra, computer programming, and statistics.

Four concentrations are available in the program: Actuarial Science, Applied Mathematics, General Mathematics, and Mathematics Education.

Learning Outcomes

Graduates will:

- Obtain a solid background in theoretical mathematics and will be able to participate in mathematical work in a variety of fields or continue on to graduate school.
- Be able to apply a range of mathematical and statistical tools to a diverse set of problems as presented to them in either employment or the pursuit of further education.
- Be capable of describing their mathematical assumptions and results to colleagues.

Accelerated Program

The major in Mathematics, General Mathematics concentration and Mathematics Education concentration, includes an accelerated program

option (<https://provost.colostate.edu/accelerated-programs/>) for students to graduate on a faster schedule. Accelerated Programs typically include 15-16 credits each fall and spring semester for three years, plus 6-9 credits over two to three summer sessions (<https://summer.colostate.edu/acceleratedprograms/>). Students who enter CSU with prior credit (AP, IB, transfer, etc.) may use applicable courses to further accelerate their graduation. Visit the Office of the Provost website for additional information about Accelerated Programs (<https://provost.colostate.edu/accelerated-programs/>).

Potential Occupations

The Mathematics major prepares students for a wide variety of occupations in business, industry, government, and education. Actuarial science graduates who have passed the first two professional actuary exams can expect to find positions with excellent entry-level salaries. Applied mathematics graduates continue to find employment opportunities in government and private industry. Many pursue advanced degrees in mathematics, computational science, or engineering. About one-third of general mathematics graduates continue on to graduate school in mathematics or other disciplines, with the rest finding employment in a large variety of capacities. Education students spend a semester teaching a classroom and have excellent job placement. Participation in internships, volunteer activities, or cooperative education opportunities is highly recommended to enhance practical training and development. Graduates who continue to pursue advanced degrees can attain more responsible positions with the possibility of rising to top professional levels.

Career opportunities include, but are not limited to: applied mathematician, actuary, engineer, statistician, financial analyst/advisor, computer programmer, computer systems analyst, mortgage officer, market analyst, risk analyst, tax auditor, accountant, math educator.

Concentrations

- Actuarial Science Concentration
- Applied Mathematics Concentration
- General Mathematics Concentration
- Mathematics Education Concentration

Major in Mathematics, Actuarial Science Concentration

The Actuarial Science concentration trains students how to use mathematics, statistics, business, and economics to analyze and plan for future situations involving financial uncertainties and risks. This concentration is designed to qualify students to take the first two examinations administered by the Society of Actuaries (<https://www.soa.org/member/>) and provides the foundation for the remaining examinations.

Requirements Effective Fall 2022

A minimum grade of C (3.000) is required in all mathematics, statistics, and computer science courses that are required for graduation.

Freshman

Major in Mathematics, Applied Mathematics Concentration

The Applied Mathematics concentration prepares students for careers as applied mathematicians working in business, government, and industry. It is recommended that students supplement the core mathematical program with courses in their chosen application area; for example, engineering, public health, finance, electronics, or geology. Course requirements emphasize mathematical foundations as well as the

application of mathematics in other disciplines. In particular, students receive training in numerical analysis, mathematical modeling, statistics, and computing, as well as a solid preparation for further study.

Requirements Effective Fall 2023

A minimum grade of C is required in all mathematics, statistics, and computer science courses that are required for graduation.

Major in Mathematics, General Mathematics Concentration

The General Mathematics concentration is a liberal arts program providing both a strong mathematics core and many free electives. This concentration is well suited for students who want to combine mathematics with other areas, e.g. business, law, computer science (<http://www.cs.colostate.edu/>), or statistics (<http://www.stat.colostate.edu/>). It is also good for students who want to prepare for graduate study in mathematics (<https://mathematics.colostate.edu/graduate-students/>).

The career options for General Math majors are vast and varied. A few examples include working with the National Security Agency, the military,

in education, computing or engineering firms. The General concentration also prepares students for graduate work in mathematics or related fields. Mathematics is a great option for pre-law and pre-med students. Additional resources on jobs for mathematics majors can be found at: Mathematical Association of America (<http://mathcareers.maa.org/>) American Mathematical Society (<http://www.ams.org/profession/>) Society for Industrial and Applied Mathematics (<http://www.siam.org/careers/thinking.php>)

Requirements Effective Fall 2022

A minimum grade of C (2.000) is required in all mathematics, statistics, and computer science courses that are required for graduation.

Freshman

Major in Mathematics, Mathematics Education Concentration

The Major in Mathematics, Mathematics Education Concentration is a professionally oriented program designed to prepare students for a secondary teaching certificate in Mathematics. Students in this concentration take a strong mathematics core, including the proofs-oriented course in advanced calculus required in the other concentrations. The program aims to prepare leaders in secondary education.

Students interested in pursuing a teaching license through CSU may refer to the Center for Educator Preparation (<http://www.cep.chhs.colostate.edu/>) and the School of Education for general information.

Requirements Effective Fall 2022

A minimum grade of C (2.000) is required in all mathematics, statistics, and computer science courses that are required for graduation.

Minor in Mathematics

The Department of Mathematics offers a minor in Mathematics for those students who wish to acquire a more extensive knowledge of mathematical sciences in support of their personal interests or major area of study. If you are majoring in a technical area such as engineering or computer science, your major requirements may put you just one or two courses short of a minor in Mathematics. To earn a minor, you must complete a calculus sequence and then take 12 credits of upper-division (300+) mathematical sciences. Of these 12 credits, 9 credits must be in mathematics, but the remaining 3 credits can be in CS, MATH, STAT, or DSCI.

Requirements Effective Fall 2016

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

A minimum grade of C is required in each MATH, STAT, and CS course required for the minor in mathematics.

Code	Title	Credits
Select one group from the following:		8
Group A:		
MATH 155	Calculus for Biological Scientists I (GT-MA1)	
MATH 255	Calculus for Biological Scientists II	
Group B:		
MATH 160	Calculus for Physical Scientists I (GT-MA1)	
MATH 161	Calculus for Physical Scientists II (GT-MA1)	
Group C:		
MATH 160	Calculus for Physical Scientists I (GT-MA1)	
MATH 271	Applied Mathematics for Chemists I	
Choose 6-7 credits from the following: ¹		6-7
MATH, STAT, or CS Upper-Division (300- to 400- level) courses		
MATH 229	Matrices and Linear Equations	
MATH 261	Calculus for Physical Scientists III	
MATH 272	Applied Mathematics for Chemists II	
Upper-Division Mathematics Electives (300- 400- level MATH courses) ²		9
Program Total Credits:		23

¹ At least 3 credits must be from the upper-division (300- to 400-level) courses.

² Courses ending in –80 to –99 cannot be used to satisfy upper-division (300- to 400-level) requirements.

Minor in Mathematical Biology

The minor in Mathematical Biology is designed for students of the life sciences who wish to acquire a broader base of quantitative expertise in support of their major area of study. The minor includes courses on the mathematical modeling of biological systems.

Requirements Effective Fall 2011

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

A minimum grade of C is required in all mathematics, statistics, and computer science courses including all MATH, STAT, or CS joint-listed courses required for the minor in mathematical biology.

Code	Title	Credits
Select one group from the following:		8
Group A:		
MATH 155	Calculus for Biological Scientists I (GT-MA1)	
MATH 255	Calculus for Biological Scientists II	
Group B:		
MATH 160	Calculus for Physical Scientists I (GT-MA1)	
MATH 161	Calculus for Physical Scientists II (GT-MA1)	
MATH 369	Linear Algebra I	3
STAT 307	Introduction to Biostatistics	3
or STAT 315	Intro to Theory and Practice of Statistics	
MATH 348/BZ 348	Theory of Population and Evolutionary Ecology	4
MATH 455	Mathematics in Biology and Medicine	3

Department of Physics

Office in Engineering Building, Room 124
(970) 491-6206
[physics.colostate.edu](http://www.physics.colostate.edu) (<http://www.physics.colostate.edu>)

Professor Jacob Roberts, Chair

Undergraduate Majors

- Major in Physics
 - Applied Physics Concentration
 - Physics Concentration

Minor

- Minor in Physics

Change of Major Process

- **Future or incoming students:** Please contact the Office of Admissions (<https://admissions.colostate.edu>) to declare a Major in Physics. Incoming students specifically, please contact Prof. Martin Gelfand (martin.gelfand@colostate.edu) immediately after declaring Physics to make sure you receive appropriate advising before the start of the semester. Please feel free to contact Prof. Gelfand if you have questions about Physics before declaring the major as well.
- **Current on-campus CSU students:** To learn more about Physics and decide if you are interested in declaring, please contact Prof. Martin Gelfand (martin.gelfand@colostate.edu) to arrange a meeting.
 - In order to complete the program as rapidly as possible, students who are considering Physics should make progress every semester in Mathematics, completing Precalculus as soon as possible, and then taking MATH 160, followed either by MATH 161, MATH 261, and MATH 340 or MATH 271 and MATH 272. The latter sequence has limited availability, so the former is more common.
 - PH 141 should be taken either concurrently with or immediately following MATH 160. Please contact Prof. Gelfand for advice on this matter.
 - Another course it is helpful to take early is CS 150B.

Graduate Graduate Programs in Physics

Graduate programs in Physics and Applied Physics lead to Master of Science and Doctor of Philosophy degrees. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Physics (<http://www.physics.colostate.edu>).

Master's Programs

- Master of Science in Physics, Plan A*
- Master of Science in Physics, Plan B*

Courses

Subjects in this department include: Astronomy (AA) and Physics (PH).

Astronomy (AA)

AA 100 Introduction to Astronomy (GT-SC2) Credits: 3 (3-0-0)

Course Description: Description of the various objects found in the heavens as well as the principles and techniques employed in investigations of these objects.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).

AA 101 Astronomy Laboratory (GT-SC1) Credit: 1 (0-2-0)

Course Description: Conduct observations, experiments, and simulations to develop an intuitive understanding of astronomical phenomena.

Prerequisite: AA 100, may be taken concurrently.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/ lab (GT-SC1).

AA 250 Introduction to Astrophysics Credits: 3 (3-0-0)

Course Description: Comprehensive introduction to astrophysics, including: observational astronomy, stellar evolution, cosmology, exoplanets, and astrobiology.

Prerequisite: (MATH 161 or MATH 255 or MATH 271) and (PH 122 or PH 142).

Registration Information: Credit allowed for only one of the following: AA 250, AA 280A1, and AA 380A1.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AA 495 Independent Study in Astrophysics Credits: Var[1-6] (0-0-0)**Course Description:****Prerequisite:** None.**Registration Information:** Written consent of instructor.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Physics (PH)

PH 110 Physics of Everyday Phenomena (GT-SC2) Credits: 3 (3-0-0)**Course Description:** Fundamental concepts of physics and elementary quantitative reasoning applied to phenomena in everyday life and beyond.**Prerequisite:** None.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**Additional Information:** Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).**PH 111 Physics of Everyday Phenomena Laboratory (GT-SC1) Credit: 1 (0-2-0)****Course Description:** Experiments dealing with basic physics concepts including explorations of everyday phenomena.**Prerequisite:** PH 110, may be taken concurrently.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**Additional Information:** Biological & Physical Sciences 3A, Natural & Physical Sciences w/ lab (GT-SC1).**PH 121 General Physics I (GT-SC1) Credits: 5 (3-2-1)****Course Description:** Concepts of force, torque, energy, momentum, work used to cover fluids, waves, sound, temperature, heat; biological, physical examples (noncalculus).**Prerequisite:** MATH 120 and MATH 125, may be taken concurrently or MATH 124 and MATH 125, may be taken concurrently or MATH 127 or MATH 155, may be taken concurrently or MATH 157, may be taken concurrently or MATH 160, may be taken concurrently.**Registration Information:** Must register for lecture, lab, and recitation. Credit not allowed for both PH 121 and PH 141.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**Additional Information:** Biological & Physical Sciences 3A, Natural & Physical Sciences w/ lab (GT-SC1).**PH 122 General Physics II (GT-SC1) Credits: 5 (3-2-1)****Course Description:** Electricity including electrostatics and simple circuits; magnetism; optics; nuclear physics, radiation; biological, physical examples (noncalculus).**Prerequisite:** PH 121 or PH 141.**Registration Information:** Must register for lecture, lab, and recitation. Credit not allowed for both PH 122 and PH 142.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**Additional Information:** Biological & Physical Sciences 3A, Natural & Physical Sciences w/ lab (GT-SC1).**PH 141 Physics for Scientists and Engineers I (GT-SC1) Credits: 5 (3-2-1)****Course Description:** Forces, energy, momentum, angular momentum, oscillations, waves, heat, thermodynamics (calculus based).**Prerequisite:** None.**Registration Information:** (MATH 126 or concurrent registration; MATH 155 or concurrent registration) or (MATH 127 or concurrent registration; MATH 155 or concurrent registration) or MATH 159 or concurrent registration or MATH 160 or concurrent registration. Must register for lecture, lab, and recitation. Credit not allowed for both PH 121 and PH 141.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**Additional Information:** Biological & Physical Sciences 3A, Natural & Physical Sciences w/ lab (GT-SC1).**PH 142 Physics for Scientists and Engineers II (GT-SC1) Credits: 5 (3-2-1)****Course Description:** Electricity and magnetism, circuits, light, optics (calculus based).**Prerequisite:** (PH 141) and (MATH 161, may be taken concurrently or MATH 255, may be taken concurrently or MATH 271, may be taken concurrently).**Registration Information:** Must register for lecture, lab, and recitation. Credit not allowed for both PH 142 and PH 122.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**Additional Information:** Biological & Physical Sciences 3A, Natural & Physical Sciences w/ lab (GT-SC1).**PH 193 Introductory Seminar in Physics Credit: 1 (0-0-1)****Course Description:** An orientation to the discipline of physics and the undergraduate major.**Prerequisite:** None.**Restrictions:** Must not be a: Junior, Senior. Must be a: Undergraduate.**Registration Information:** Credit not allowed for both PH 180A2 and PH 193.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**PH 210 Introduction to Computing in Physics Credits: 3 (3-0-0)****Course Description:** An introduction to the use of computers in physics focusing on the design, implementation, and application of algorithms used to solve common physics problems, utilizing Python.**Prerequisite:** (CS 150B or CS 152) and (PH 141).**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**PH 245 Introduction to Electronics Credits: 3 (2-3-0)****Course Description:** AC circuits, physical bases and applications of electronic devices.**Prerequisite:** MATH 161 and PH 142.**Registration Information:** Must register for lecture and laboratory.**Term Offered:** Fall.**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.

PH 293 Selected Topics in Physics Credit: 1 (1-0-0)

Course Description: Selected topics in physics with emphasis on depth of understanding.

Prerequisite: PH 142.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PH 298 Introductory Research Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PH 314 Introduction to Modern Physics Credits: 4 (3-0-1)

Course Description: Relativity; quantum mechanics; atomic structure; applications to solid-state, nuclear, and elementary particle physics.

Prerequisite: (MATH 261, may be taken concurrently or MATH 272, may be taken concurrently) and (PH 142).

Registration Information: Must register for lecture and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PH 315 Modern Physics Laboratory Credits: 2 (0-4-0)

Course Description: Experiments in modern physics.

Prerequisite: PH 314, may be taken concurrently.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PH 327 Analytical Techniques for Physics Credits: 3 (3-0-0)

Course Description: Applications to physics of curvilinear coordinate systems, line/surface integrals, linear algebra, ordinary/partial differential eqs., probability.

Prerequisite: (MATH 261) and (MATH 340 or MATH 345) and (PH 142 and PH 314).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PH 341 Mechanics Credits: 4 (4-0-0)

Course Description: Particle dynamics, translation and rotation of rigid bodies, moving coordinate systems, Lagrangian mechanics, matrix and tensor methods.

Prerequisite: (MATH 340 or MATH 345) and (PH 141).

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PH 351 Electricity and Magnetism Credits: 4 (4-0-0)

Course Description: Electrostatics, magnetostatics, currents, time-dependent electric and magnetic fields, radiation.

Prerequisite: (MATH 340 or MATH 345) and (PH 142).

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PH 353 Optics and Waves Credits: 4 (3-3-0)

Course Description: Geometrical optics; wave optics; interference, diffraction, and polarization; quantum optics.

Prerequisite: MATH 261 and PH 142.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PH 361 Physical Thermodynamics Credits: 3 (3-0-0)

Course Description: Laws of thermodynamics; thermodynamic potentials; applications such as fluids, phase transitions, electrical and magnetic systems, binary mixtures.

Prerequisite: MATH 261 and PH 142.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PH 384 Supervised College Teaching Credits: Var[1-5] (0-0-0)

Course Description: Participation as a physics tutor.

Prerequisite: PH 121 or PH 141.

Registration Information: Written consent of department chair required. A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PH 425 Advanced Physics Laboratory Credits: 2 (0-4-0)

Course Description: Advanced experiments in electricity and magnetism, statistical physics and quantum mechanics.

Prerequisite: PH 315 and PH 451.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PH 451 Introductory Quantum Mechanics I Credits: 3 (3-0-0)

Course Description: Schrodinger's theory of wave mechanics, potential wells, harmonic oscillators, wave packets, operators, angular momentum.

Prerequisite: (MATH 272 or MATH 340 or MATH 345) and (PH 314 with a minimum grade of C).

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PH 452 Introductory Quantum Mechanics II Credits: 3 (3-0-0)

Course Description: Approximation techniques, perturbation theory, identical particles and spin, structure and spectra of atoms and molecules, hydrogen atom.

Prerequisite: PH 451.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PH 462 Statistical Physics Credits: 3 (3-0-0)

Course Description: Maxwell-Boltzmann, Fermi-Dirac, and Bose-Einstein distribution functions; kinetic theory; applications to solids, metals, semiconductors, and gases.

Prerequisite: MATH 340 and PH 314 and PH 361.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PH 492 Seminar Credit: 1 (0-0-1)

Course Description: Preparation and presentation of seminars on selected modern topics.

Prerequisite: PH 315.

Registration Information: Written consent of instructor required.

Term Offered: Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

PH 495 Independent Study Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PH 498 Research Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PH 517 Chaos, Fractals, and Nonlinear Dynamics Credits: 3 (3-0-0)

Course Description: Strange attractors, fractal dimensions, Lyapunov exponents, multifractal spectrum, period doubling, universality, intermittency, time-delay embedding.

Prerequisite: (MATH 261 and PH 341) and (MATH 340 or MATH 345).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PH 521 Introduction to Lasers Credits: 3 (3-0-0)

Course Description: Stimulated emission; laser resonators; theory of laser oscillation; specific laser systems; applications.

Prerequisite: (MATH 340 and PH 353) and (CHEM 476 or PH 451).

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PH 522 Introductory Laser Laboratory Credit: 1 (0-2-0)

Course Description: Experiments providing hands-on experiences with lasers.

Prerequisite: PH 521, may be taken concurrently.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PH 531 Introductory Condensed Matter Physics Credits: 3 (3-0-0)

Course Description: Crystal structures and bonding, electronic levels and vibrations, dielectric, optical and magnetic properties, quasiparticles, superconductivity.

Prerequisite: PH 451 and PH 361.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PH 561 Elementary Particle Physics Credits: 3 (3-0-0)

Course Description: Particle interactions and detection techniques. Quark model, scattering models and standard model of electroweak interactions, physics of colliders.

Prerequisite: PH 451.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PH 571 Mathematical Methods for Physics I Credits: 3 (3-0-0)

Course Description: Vector analysis, eigenvalues and eigenvectors, infinite series, method of Frobenius, complex variables, contour integration.

Prerequisite: MATH 340.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PH 572 Mathematical Methods for Physics II Credits: 3 (3-0-0)

Course Description: Partial differential equations, Sturm-Liouville theory, special functions, Green's functions, Fourier series, Fourier and Laplace transforms.

Prerequisite: PH 571.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PH 621 Classical Mechanics Credits: 3 (3-0-0)

Course Description: Central forces, scattering, noninertial reference frames, Coriolis force, Lagrange's and Hamilton's equations, small oscillations, continuum mechanics.

Prerequisite: (PH 341) and (PH 571, may be taken concurrently).

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PH 631 Modern Topics in Condensed Matter Physics Credits: 3 (3-0-0)

Course Description: Selected topics in modern condensed matter physics. Examples include topological phases of matter, superconductivity, heavy fermions, density functional theory, surfaces and interfaces.

Prerequisite: PH 531.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

PH 641 Electromagnetism I Credits: 3 (3-0-0)

Course Description: Electrostatics in a vacuum and a medium, general solution of Laplace's equation, Green's functions, magnetostatics in a vacuum and a medium.

Prerequisite: (PH 351) and (PH 571).

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PH 642 Electromagnetism II Credits: 3 (3-0-0)

Course Description: Maxwell's equations, electromagnetic waves, radiation by accelerated charges, special relativity, Lagrangian formulation of electromagnetism.

Prerequisite: PH 641.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PH 651 Quantum Mechanics I Credits: 3 (3-0-0)

Course Description: WKB theory, Heisenberg picture, 3D wells, hydrogen atom, time-independent perturbation theory, angular momentum and spin, Clebsch-Gordan coefficients.

Prerequisite: (PH 452) and (PH 571, may be taken concurrently).

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PH 652 Quantum Mechanics II Credits: 3 (3-0-0)

Course Description: Wigner-Eckhart theorem, symmetries, density matrix, identical particles, interaction picture, time-dependent perturbation theory, scattering.

Prerequisite: PH 651.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PH 671 Statistical Mechanics Credits: 3 (3-0-0)

Course Description: Canonical and grand-canonical ensembles; Maxwell-Boltzmann, Bose-Einstein, and Fermi-Dirac statistics; density operator; Bose-Einstein condensation.

Prerequisite: (PH 452 and PH 462) and (PH 571, may be taken concurrently).

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PH 692 Seminar Credit: 1 (0-0-1)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

PH 693 Current Topics in Physics Research Credits: 3 (0-0-3)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Term Offered: Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

PH 698 Research Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PH 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PH 721 Advanced Atomic, Molecular, Optical Physics Credits: 3 (3-0-0)

Course Description: Atomic and molecular structure, interaction of atoms and molecules with radiation, laser cooling, atomic and molecular traps, experimental design, and a survey of contemporary experiments.

Prerequisite: PH 652, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both PH 721 and PH 780A1.

Term Offered: Spring (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

PH 722 Quantum Electronics Credits: 3 (3-0-0)

Course Description: One- and two-photon spectroscopy; broadening mechanisms; nonlinear optics; coherent phenomena; experimental methods.

Prerequisite: PH 521.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PH 731 Condensed Matter Theory Credits: 3 (3-0-0)

Course Description: Second quantization; electrons; phonons; electron-phonon interaction; superconductivity; magnetism; spin waves; density-functional methods; symmetry.

Prerequisite: (PH 462) and (PH 531) and (PH 652).

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

PH 762 Elementary Particle Theory Credits: 3 (3-0-0)

Course Description: Symmetries, electrodynamics, renormalization, and the running coupling constant. Hadron structure, QCD, gauge symmetry and electroweak interaction.

Prerequisite: PH 561 and PH 652.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

PH 770 Quantum Theory Credits: 3 (3-0-0)

Course Description: Formal scattering theory; relativistic quantum mechanics, quantum theory of radiation, symmetries and statistics, many-body theory.

Prerequisite: PH 652.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PH 784 Supervised College Teaching Credits: Var[1-5] (0-0-0)

Course Description: Supervised teaching of general physics laboratory and recitation sections.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PH 793A Seminar: Condensed Matter Physics Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

PH 793B Seminar: Laser Spectroscopy/Quantum Electronics Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

PH 793C Seminar: Statistical Mechanics Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

PH 793D Seminar: Mathematical Physics Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

PH 793E Seminar: High Energy Physics Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

PH 795 Independent Study Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PH 799 Dissertation Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Major in Physics

Physics is the study of motion, matter, and energy. It is the most fundamental of sciences, and provides the essential underpinning of chemistry, biology, astronomy, and geology. Physicists probe the structure of atomic nuclei, study exotic states of matter that occur at ultra-low temperatures, and develop theories that predict the origin and destiny of the universe. Physics has practical applications to a wide variety of tasks such as fabricating very large scale integrated circuits, producing high efficiency solar cells, and developing nanomachines, high-power lasers, and scanners for imaging activity within the human brain. Fundamental research in physics has led to many important inventions, including the transistor, the computer, the internet, the flat panel display, and the cell phone.

The Physics major begins with an emphasis on fundamentals in the basic sciences and mathematics to provide students with a broad foundation. Subsequent course work is designed to develop analytical and experimental abilities that allow students to solve problems involving the technical applications of physics. The curriculum includes courses on classical mechanics, modern physics, quantum mechanics, electricity and magnetism, and thermal physics. A strong liberal arts program rounds out the major and provides educational breadth. Participation in undergraduate research is strongly encouraged since it enhances practical training and expands employment opportunities, as well as being expected of anyone applying to research-based graduate programs.

Two concentrations are offered: Physics and Applied Physics. The former is the standard concentration, and is recommended for students planning to apply to graduate programs in Physics or related disciplines. The latter requires the student to select a specific "field": there are a variety to choose from, and each has its own menu of associated electives. The Applied Physics concentration is ideal for students who are double-majoring in other technical disciplines, or who anticipate further education towards a career in health professions (including, notably, Medical Physics).

Learning Outcomes

Successful graduates will:

- Obtain a solid background in experimental and theoretical physics. This will include a conceptual understanding of mechanics, electromagnetism, thermal physics, and quantum mechanics as applied to important model systems and real systems.

- Acquire the contemporary skills and knowledge necessary for positions in a variety of occupations or for admission to graduate or professional schools.
- Carry out experiments on diverse physics phenomena using electrical and optical techniques; analyze data using statistical methods appropriately; identify systematic errors; and relate the results to core physics content at the advanced undergraduate level.
- Appropriately apply physics theories to physical systems qualitatively and quantitatively, including identifying a proper theoretical approach, using relevant mathematical techniques, and applying justifiable approximations.
- Communicate the results of experiments and theoretical analyses in writing and orally.

Potential Occupations

Physics majors who go into the workforce directly after graduation use their training in a variety of settings. The primary employers for our graduates have been large aerospace/defense and electronics companies, as well as software firms and other types of high-tech companies. In addition to the more obvious jobs in those settings, such as computer programming, quality control, and engineering, our students have also been hired in training and sales capacities. High school teaching is a possibility: there are several pathways for students with undergraduate Physics degrees to obtain teaching credentials. Physics graduates possess excellent mathematical and analytical skills that are useful in business and finance as well.

Our majors have gone on to research-based graduate programs in disciplines including Physics, Astrophysics, Applied Physics, Applied Mathematics, Atmospheric Science, and Quantitative Biology. Those earning graduate degrees can work in college teaching and at industrial, government, and academic research labs and reach the highest professional levels.

Health Physics and Medical Physics are two less-known career paths that offer great opportunities for students interested in the direct application of physics to human well-being. The former is concerned with protecting people from dangers associated with ionizing radiation, while the latter involves working with x-ray machines and radioisotopes in clinical settings. Both require Master's degrees in the discipline, and a Physics major is the preferred undergraduate preparation.

Concentrations

- Applied Physics Concentration
- Physics Concentration

Major in Physics, Applied Physics Concentration

The Applied Physics concentration combines fundamental course work in physics with a selection of courses in a related field. Eight fields are available:

- The **Electronics, Semiconductors, and Optics** field and the **Materials and Fluids** field are designed for students interested in rapidly changing technology or in areas that overlap the boundaries of traditional engineering disciplines.
- The **Computers** field provides a foundation for the application of modern computer technology to problems in physics, the development of new types of computers, and jobs in computer programming.
- The **Chemistry** field combines thorough knowledge of both chemistry and physics, which is useful in such interdisciplinary areas as materials science, surface science, and physical chemistry/chemical physics.
- The **Medical Physics** field and the **Biophysics** field prepare students for further study in medical physics (the application of physics technologies to medical practice), health physics (radiation safety and protection), or biophysics, and are also appropriate for students planning careers in traditional health professions.
- The **Geophysics** field prepares students for further study in geophysics and careers involving application of physical methods in geology.
- The **Data Science** field provides students with the tools to analyze large data sets using contemporary statistical methods.

With this concentration, it is also possible for students to design a custom field (in consultation with departmental advisors) to meet their specific needs.

Requirements Effective Fall 2023

Each course used to meet requirements of the concentration need a minimum grade of C-, including courses to satisfy AUCC Categories 1, 2, and 3A.

Freshman

		AUCC	Credits
CO 150	College Composition (GT-CO2)	1A	3

¹ For students who change majors from Electrical Engineering or are double-majoring in Electrical Engineering, please see an advisor for possible substitutions.

² Other courses in AUCC Category 2 may be accepted if they are taken prior to declaring the Physics major or are taken to meet requirements of another major.

³ A minimum of 6 credits must be 300-, 400-, or 500-level.

⁴ Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300-, 400-level, or 500-level).

Major Completion Map

Distinctive Requirements for Degree Program:

Required PH courses above the 100-Level are typically offered only Fall or Spring, not both. A grade of C- or better is required in all courses used to meet requirements of the major, except for unrestricted electives and courses taken to satisfy All-University Core Curriculum (AUCC) categories 1A, 1C, 3B, 3C, and 3D. Courses in a Selected Field list have additional prerequisites. Any student considering the Applied Physics concentration should meet with an advisor as soon as possible.

Major in Physics, Physics Concentration

The Physics concentration provides a broad background in physics that serves as a base for later specialization, either in graduate school or on the job. It is designed for those seeking greater insight into physics and an introduction to more advanced topics and methods. Students who obtain a degree in Physics with the Physics concentration are prepared

for a career in industry or government, or for advanced study at the graduate level.

Requirements Effective Fall 2023

Each course used to meet requirements of the concentration need a minimum grade of C-, including courses to satisfy AUCC Categories 1, 2, and 3A.

Freshman

			AUCC	Credits

Minor in Physics

Most technical fields require some background in physics. A minor in Physics can provide students with an increased understanding of the foundations of their chosen major. For students majoring in Computer Science and Mathematics, a minor in Physics can offer experience in applying the skills acquired in their major to concrete physical problems.

Requirements Effective Fall 2018

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

A minimum grade of C- is required in all courses applying toward the minor in physics.

Code	Title	Credits

Substitutions require approval of the Key Advisor.

Department of Psychology

Office in Behavioral Sciences Building, Room 201
(970) 491-3799

psychology.colostate.edu (<https://psychology.colostate.edu/>)

Professor Don Rojas, Chair

Undergraduate Majors

- Major in Psychology
 - Addictions Counseling Concentration
 - Clinical/Counseling Psychology Concentration
 - General Psychology Concentration
 - Industrial/Organizational Concentration
 - Mind, Brain, and Behavior Concentration

Change of Major Process

- **For future or incoming CSU students:** Please contact Admissions (<https://admissions.colostate.edu/>) to declare Psychology.
- **For current on-campus CSU students:** To learn more about Psychology and decide if you are interested in declaring, you must first review our major (<https://psychology.colostate.edu/undergraduate-students/>) and then sign up for and attend a Psychology Major Information Session (<https://psychology.colostate.edu/ugadvising/>):
 - These are 60-minute group sessions led by advisors with individualized course recommendations and built-in time to answer your questions.
 - If you are exploring Psychology or if you are registering before your session, we recommend you review the concentration links above and register for any open courses that you are eligible to add. Many Psychology courses will open to non-Psychology majors after a certain date. Summer courses are open to all majors.
 - Helpful classes to complete early (depending on concentration choice)
 - PSY 100
 - MATH 117, MATH 118, and MATH 124 or higher-level math
 - LIFE 102
 - Any 3 credit SPCM course
 - Any 3 or 4 credit CS course
 - Any 3 credit PHIL course

Graduate Graduate Programs in Psychology

The department offers graduate programs leading to Master of Science and Doctor of Philosophy degrees. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Psychology. (<http://www.colostate.edu/Depts/Psychology/>)

Certificates

- Applied Positive Psychology
- Organizational Development
- Performance Management
- Substance Use Disorder Identification and Treatment

Master's Programs

- Master of Addiction Counseling in Psychology, Plan C (M.A.C.P.)
- Master of Addiction Counseling in Psychology and Social Work (M.A.C.P. / M.S.W.)
- Master of Applied Industrial/Organizational Psychology, Plan C (M.A.I.O.P.)
- Master of Science in Psychology, Plan A*
- Master of Science in Psychology, Plan B*

Ph.D.

- Ph.D. in Psychology*

* Please see department for program of study.

Courses

Psychology (PSY)

PSY 100 General Psychology (GT-SS3) Credits: 3 (3-0-0)

Course Description: Principles of psychology emphasizing empirical approaches; theories and research on learning, individual differences, perception, social behavior.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Social & Behavioral Sciences 3C, Human Behavior, Culture, or Social Frameworks (GT-SS3).

PSY 121 Psychology of Happiness and Wellbeing Credit: 1 (1-0-0)

Course Description: Provides the tools of happiness and wellbeing.

Drawing on the science of wellbeing and positive psychology, learn how to engage in exercises and activities to help manage stress and increase wellbeing. Topics include mindfulness, meaning and purpose, gratitude, positive relationships, positive body and health, goals, positive emotions, and character strengths. The focus is using tools to be resilient and happy.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PSY 152 Science of Learning Credits: 3 (3-0-0)

Course Description: The science of learning and remembering with an emphasis on strategies and methods that students can use to enhance their learning and studying.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Social & Behavioral Sciences 3C.

PSY 182A Study Abroad--Costa Rica: Psychology First-Year Seminar Credit: 1 (0-0-1)

Course Description: Opportunity to learn cross-cultural psychology and the role of psychologists in Costa Rica. Address career options, curriculum planning, and build a skill base of successful academic strategies.

Prerequisite: None.

Registration Information: This is a partial semester course. Credit not allowed for both PSY 182A and PSY 192.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 192 Psychology First-Year Seminar Credit: 1 (0-0-1)

Course Description: Introduction to and discussion of topics in the major branches of psychology.

Prerequisite: None.

Registration Information: Sections may be offered: Online. Credit not allowed for both PSY 182A and PSY 192.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 210 Psychology of the Individual in Context Credits: 3 (3-0-0)

Course Description: Psychological explanations of cultural, social, and individual differences in behavior.

Prerequisite: PSY 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 250 Research Design and Analysis I Credits: 3 (3-0-0)

Course Description: Design, analysis, and reporting of psychological research.

Prerequisite: PSY 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 252 Mind, Brain, and Behavior Credits: 3 (3-0-0)

Course Description: Psychological, physiological, and evolutionary explanations of perception, cognition, and behavior.

Prerequisite: PSY 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 253 Human Factors and Engineering Psychology Credits: 3 (3-0-0)

Course Description: Introduction to human factors psychology and its connection to engineering psychology. Engineering psychology involves understanding the human mind as it relates to technology and systems. Human factors psychology applies knowledge of human behavior to the development and refinement of technology, training, and systems.

Prerequisite: None.

Registration Information: Offered as an online course only. Credit not allowed for both PSY 253 and PSY 280A1.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 260 Child Psychology Credits: 3 (3-0-0)

Course Description: Description and explanation of development of human behavior emphasizing theory and research concerned with infant and child.

Prerequisite: PSY 100.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 292A Seminar: Industrial/Organizational Credit: 1 (0-0-1)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 292B Seminar: Mind, Brain & Behavior Credit: 1 (0-0-1)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 292C Seminar: Controversial Issues in Psychology Credit: 1 (0-0-1)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 292D Seminar: Special Topics in Psychology Credits:

Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 295 Independent Study Credits: Var[1-3] (0-0-0)

Course Description: Individual investigation of a special topic in psychology under direction of faculty.

Prerequisite: None.

Registration Information: Enrollment limited to one per student per semester.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 296 Group Study Credits: Var[1-3] (0-0-0)

Course Description: Collective investigation of a special topic in psychology under direction of faculty.

Prerequisite: None.

Registration Information: Enrollment limited to one per student per semester.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 300 Positive Psychology Credits: 3 (3-0-0)

Course Description: Current research and theory pertaining to the study of strengths, flourishing, happiness, meaning, and well-being.

Prerequisite: PSY 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 305 Psychology of Religion Credits: 3 (3-0-0)

Course Description: Survey of research on religion from a psychological perspective.

Prerequisite: PSY 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PSY 310 Basic Counseling Skills Credits: 3 (3-0-0)

Course Description: Psychologically-based interpersonal communication skills; rapport building, gathering information and bringing about change in others.

Prerequisite: PSY 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 311A Basic Counseling Skills Laboratory: CACI Credits: 2 (0-4-0)

Course Description: Application of psychologically-based interpersonal communication skills in drug addiction treatment, for students seeking CACI certification.

Prerequisite: PSY 310, may be taken concurrently.

Registration Information: Credit not allowed for both PSY 311A and PSY 311B.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 311B Basic Counseling Skills Laboratory: Non-CACI Credits: 2 (0-4-0)

Course Description: Application of psychologically-based interpersonal communication skills, for students who are not seeking CACI certification.

Prerequisite: (PSY 100) and (PSY 310, may be taken concurrently).

Registration Information: Credit not allowed for both PSY 311B and PSY 311A.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 315 Social Psychology Credits: 3 (3-0-0)

Course Description: Social psychological theory and research findings emphasizing research methodology; applications to contemporary social problems.

Prerequisite: PSY 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 316 Environmental Psychology Credits: 3 (3-0-0)

Course Description: Social psychological theory and research on effects of behavior on the environment; environmental influences on behavior.

Prerequisite: PSY 100.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 317 Social Psychology Laboratory Credits: 2 (0-4-0)

Course Description: Review of research techniques in social psychology. Computer simulations with applications to contemporary social problems.

Prerequisite: PSY 250 and PSY 315, may be taken concurrently.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 320 Psychopathology Credits: 3 (3-0-0)

Course Description: Definition and description of psychopathology; theory and research on factors in etiology and treatment of behavior disorders.

Prerequisite: PSY 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 325 Psychology of Personality Credits: 3 (3-0-0)

Course Description: Theory and research related to personality as a psychological concept; analytic, phenomenological, and behavioristic views.

Prerequisite: PSY 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 327 Psychology of Women Credits: 3 (2-0-1)

Course Description: Contemporary theory and research focusing on emotional, cognitive, biosocial, and interpersonal contributions to female identity and sex role.

Prerequisite: PSY 100.

Registration Information: Must register for lecture and recitation.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 328 Psychology of Human Sexuality Credits: 3 (3-0-0)

Course Description: Biopsychosocial review of human sexuality including cross cultural analysis, sexual development, social perspectives and values, sexual dysfunction, sexual healing interventions, and intersectional-sexological analysis of the human sexual experience.

Prerequisite: HDFS 101 or PSY 100 or SOWK 105.

Registration Information: Junior standing. Sections may be offered: Online. Credit not allowed for both PSY 228 and PSY 328.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 330 Clinical and Counseling Psychology Credits: 3 (3-0-0)

Course Description: Conceptualization of clients, assessment, intervention techniques for behavior change, research methods, ethical issues.

Prerequisite: PSY 100.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 335 Forensic Psychology Credits: 3 (3-0-0)

Course Description: The psychology of crime and criminal behavior, including theory on deviance, the criminal mind, and the root causes of violence in society.

Prerequisite: PSY 100.

Registration Information: Junior or senior standing. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 340 Organizational Psychology Credits: 3 (3-0-0)

Course Description: Theories and research on interpersonal relations, work group processes, decision making, power, and change strategies within organizations.

Prerequisite: PSY 250.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 341 Organizational Psychology Laboratory Credit: 1 (0-2-0)

Course Description: Application of organizational psychology through simulations and field involvements.

Prerequisite: PSY 340, may be taken concurrently.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 345 Occupational Health Psychology Credits: 3 (3-0-0)

Course Description: Overview of seminal and current research on topics of work stress and occupational health psychology.

Prerequisite: PSY 100.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 350 Research Design and Analysis II Credits: 3 (3-0-0)

Course Description: Design, analysis, and reporting of psychological research.

Prerequisite: PSY 250.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 352 Learning and Memory Credits: 3 (3-0-0)

Course Description: Research, theory, and applications regarding conditioning, learning, and retention in animals and humans.

Prerequisite: PSY 252.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 354 Human-Computer Interaction Credits: 3 (3-0-0)

Course Description: Theoretical and applied areas of psychology and computer science in the area of human-computer interaction.

Prerequisite: PSY 100.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 360 Psychology of Drug Addiction Treatment Credits: 3 (3-0-0)

Course Description: Psychological theory and method for treating substance use addictions.

Prerequisite: PSY 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 362 Professional Issues in Addiction Treatment Credits: 3 (3-0-0)

Course Description: Diversity, ethno-cultural, and ethical issues in drug addiction treatment.

Prerequisite: PSY 100, may be taken concurrently.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 364 Infectious Diseases and Substance Use Credits: 3 (0-0-3)

Course Description: Infectious disease transmission/progression related to substance use, risk assessment and treatment of substance users in alcohol and drug treatment.

Prerequisite: PSY 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 366 Foundational Addiction Counseling Skills Credits: 3 (3-0-0)

Course Description: Entry level training in the treatment of substance use disorders with a focus on introductory motivational interviewing and group therapy for individuals with substance use disorders.

Prerequisite: PSY 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 370 Psychological Measurement and Testing Credits: 3 (3-0-0)

Course Description: Measurement theory including scale properties, reliability, and validity; construction and evaluation of psychological tests.

Prerequisite: PSY 250.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 371 Psychological Measurement and Testing Lab Credit: 1 (0-2-0)

Course Description: Exercises and problems in test administration, norming, reliability, validity, and scale construction.

Prerequisite: PSY 370, may be taken concurrently.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 384 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description: Supervised teaching, training, and discussion leadership in undergraduate courses.

Prerequisite: PSY 100.

Registration Information: Written consent of department chair. A maximum of 10 combined credits for all 384 and 484 courses are counted toward graduation requirements. Enrollment limited to one per student per semester.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 392 Honors Seminar: Current Topics in Psychology Credits: 2 (0-0-2)

Course Description: Research areas in psychology; reading and discussing current journal articles.

Prerequisite: PSY 100 and PSY 250.

Registration Information: Enrollment in University Honors Program required.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

PSY 401 History and Systems of Psychology Credits: 3 (3-0-0)

Course Description: Philosophical and scientific underpinnings of psychology; major historical developments in psychology; schools of psychological thought.

Prerequisite: PSY 250.

Registration Information: Junior or senior standing. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 410 Psychobiology of Addictions Credits: 3 (3-0-0)

Course Description: Biological basis of the psychology of addictions.

Prerequisite: PSY 250 and PSY 252.

Restriction: .

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 437 Psychology of Gender Credits: 3 (3-0-0)

Course Description: Psychology of gender in cultural context.

Prerequisite: PSY 100.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 440 Industrial Psychology Credits: 3 (3-0-0)

Course Description: The application of psychological theories and principles to understand how people behave in the workplace and to improve workers' productivity and well-being.

Prerequisite: PSY 250.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 441 Industrial Psychology Laboratory Credit: 1 (0-2-0)

Course Description: Hands-on experience with concepts such as job analysis, performance appraisals, interviews, and training, designed to supplement information provided in PSY 440.

Prerequisite: PSY 440, may be taken concurrently.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 450 Applied Research Methods in Psychology II Credits: 4 (3-2-0)

Course Description: Interpretation and reporting of psychological research findings.

Prerequisite: PSY 350.

Registration Information: Must register for lecture and laboratory. Enrollment in University Honors Program required.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 451 Evaluating Data Visualizations Credit: 1 (0-2-0)

Course Description: Empirical evaluation of the effectiveness of and biases in data visualizations through design of experiments, calculation of performance measures, and interpretation of user studies related to visualizations. Hands-on experience running experiments, analyzing data, and disseminating the results.

Prerequisite: STAT 158.

Registration Information: Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 452 Cognitive Psychology Credits: 3 (3-0-0)

Course Description: Human thinking processes as related to perception, attention, memory, knowledge representation, reasoning, decision making, and problem solving.

Prerequisite: PSY 252.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 453 Cognitive Psychology Laboratory Credits: 2 (0-4-0)

Course Description: Exercises in laboratory research in perceptual processes, attention, memory, language, problem solving, and decision making.

Prerequisite: PSY 452, may be taken concurrently and PSY 250.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 454 Biological Psychology Credits: 3 (3-0-0)

Course Description: Research and theory on the biological basis of behavior.

Prerequisite: PSY 252.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 455 Biological Psychology Laboratory Credits: 2 (0-4-0)

Course Description: Laboratory exercises in biological psychology.

Prerequisite: PSY 454, may be taken concurrently and PSY 250.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 456 Sensation and Perception Credits: 3 (3-0-0)

Course Description: Review of research on physiological substrates of sensation; methods of scaling sensory experience; role of perception in behavioral adaptation.

Prerequisite: PSY 252.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 457 Sensation and Perception Laboratory Credits: 2 (0-4-0)

Course Description: Review of research on physiological substrates of sensation; methods of scaling sensory experience; role of perception in behavioral adaption.

Prerequisite: PSY 456, may be taken concurrently and PSY 250.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 458 Cognitive Neuroscience Credits: 3 (3-0-0)

Course Description: Review of the human brain and its mediation of cognitive processes.

Prerequisite: PSY 252.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 459 Cognitive Neuroscience Laboratory Credits: 2 (0-4-0)

Course Description: Laboratory exercises in cognitive neuroscience.

Prerequisite: PSY 458, may be taken concurrently and PSY 250.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 460 Child Exceptionality and Psychopathology Credits: 3 (3-0-0)

Course Description: Definition and description of child exceptionality and psychopathology; theory and research in etiology, educational implications, and treatment.

Prerequisite: PSY 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 465 Adolescent Psychology Credits: 3 (3-0-0)

Course Description: Contemporary theory and research on adolescence including physiological and psychological changes, social influences.

Prerequisite: PSY 100.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 484 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description: Advanced supervised teaching, training, and discussion leadership in undergraduate courses.

Prerequisite: PSY 100.

Registration Information: Written consent of department chair required. A maximum of 10 combined credits for all 384 and 484 are counted towards graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 486 Practicum Credits: Var[1-3] (0-0-0)

Course Description: Supervised work experience in approved psychological setting with periodic consultation of faculty.

Prerequisite: None.

Registration Information: Enrollment limited to one per student per semester.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 487 Internship Credits: Var[1-3] (0-0-0)

Course Description: Supervised affiliation with and/or service work in approved psychological setting.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 488 Field Placement Credits: Var[1-3] (0-0-0)

Course Description: Supervised affiliation with and/or service work in approved psychological setting.

Prerequisite: None.

Registration Information: Enrollment restricted to students in the Addictions Counseling Concentration or Counseling/Clinical Concentration. Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: Yes.

PSY 492A Seminar: Applied Social Psychology Credits: Var[1-3] (0-0-0)

Course Description: Review of theory, research and/or practice relevant to various subtopics in social psychology.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Grade Modes: Instructor Option, Traditional.

Special Course Fee: No.

PSY 492B Seminar: Cognitive Psychology Credits: Var[1-3] (0-0-0)

Course Description: Review of theory, research and/or practice relevant to various subtopics in cognitive psychology.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 492C Seminar: Counseling/Clinical Psychology Credits: Var[1-3] (0-0-0)

Course Description: Review of theory, research and/or practice relevant to various subtopics in counseling/clinical psychology.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 492D Seminar: Industrial/Organizational Psychology Credits: Var[1-3] (0-0-0)

Course Description: Review of theory, research and/or practice relevant to various subtopics in industrial/organizational psychology.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 492E Seminar: Perceptual and Brain Sciences Credits: Var[1-3] (0-0-0)

Course Description: Review of theory, research and/or practice relevant to various subtopics in perceptual/brain sciences.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 492F Seminar: Special Topics in Psychology Credits: Var[1-3] (0-0-0)

Course Description: Review of theory, research and/or practice relevant to various subtopics in psychology.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 493 Capstone Seminar Credits: 3 (0-0-3)

Course Description: Special, controversial, and emerging topics in psychology, considered in the context of foundational knowledge and principles from the field.

Prerequisite: PSY 210 and PSY 250 and PSY 252.

Registration Information: Senior standing. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 495A Independent Study: Applied Social Psychology Credits: Var[1-3] (0-0-0)

Course Description: Individual investigation in applied social psychology under direction of faculty.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 495B Independent Study: Cognitive Psychology Credits: Var[1-3] (0-0-0)

Course Description: Individual investigation in cognitive psychology under direction of faculty.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 495C Independent Study: Counseling/Clinical Psychology Credits: Var[1-3] (0-0-0)

Course Description: Individual investigation in counseling/clinical psychology under direction of faculty.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 495D Independent Study: Industrial/Organizational Psychology Credits: Var[1-3] (0-0-0)

Course Description: Individual investigation in industrial/organizational psychology under direction of faculty.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 495E Independent Study: Perceptual and Brain Sciences Credits: Var[1-3] (0-0-0)

Course Description: Individual investigation of the psychology of perceptual and brain sciences under direction of faculty.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 495F Independent Study: Special Topics in Psychology Credits: Var[1-3] (0-0-0)

Course Description: Individual investigation of topics in psychology under direction of faculty.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 496A Group Study: Applied Social Psychology Credits: Var[1-3] (0-0-0)

Course Description: Collective investigation of applied social psychology under direction of faculty.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 496B Group Study: Cognitive Psychology Credits: Var[1-3] (0-0-0)

Course Description: Collective investigation of cognitive psychology under direction of faculty.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 496C Group Study: Counseling/Clinical Psychology Credits: Var[1-3] (0-0-0)

Course Description: Collective investigation of counseling/clinical psychology under direction of faculty.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 496D Group Study: Industrial/Organizational Psychology Credits: Var[1-3] (0-0-0)

Course Description: Collective investigation of industrial/organizational psychology under direction of faculty.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 496E Group Study: Perceptual and Brain Sciences Credits: Var[1-3] (0-0-0)

Course Description: Collective investigation of perceptual and brain sciences within psychology under direction of faculty.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 496F Group Study: Special Topics in Psychology Credits: Var[1-3] (0-0-0)

Course Description: Collective investigation of topics in psychology under direction of faculty.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 498A Research: Applied Social Psychology Credits: Var[1-3] (0-0-0)

Course Description: Independent research project in applied social psychology, culminating in a formal research paper.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 498B Research: Cognitive Psychology Credits: Var[1-3] (0-0-0)

Course Description: Independent research project in cognitive psychology, culminating in a formal research paper.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 498C Research: Counseling/Clinical Psychology Credits: Var[1-3] (0-0-0)

Course Description: Independent research project in counseling/clinical psychology, culminating in a formal research paper.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 498D Research: Industrial/Organizational Psychology Credits: Var[1-3] (0-0-0)

Course Description: Independent research project in industrial/organizational psychology, culminating in a formal research paper.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 498E Research: Perceptual and Brain Sciences Credits:

Var[1-3] (0-0-0)

Course Description: Independent research project in perceptual and brain sciences within psychology, culminating in a formal research paper.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 498F Research: Special Topics in Psychology Credits:

Var[1-3] (0-0-0)

Course Description: Independent research project on special topics in psychology, culminating in a formal research paper.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 499A Thesis: Applied Social Psychology Credits: Var[1-3] (0-0-0)

Course Description: Independent research project in applied social psychology, culminating in a thesis presented to a faculty committee.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 499B Thesis: Cognitive Psychology Credits: Var[1-3] (0-0-0)

Course Description: Independent research project in cognitive psychology, culminating in a thesis presented to a faculty committee.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 499C Thesis: Counseling/Clinical Psychology Credits:

Var[1-3] (0-0-0)

Course Description: Independent research project in counseling/clinical psychology, culminating in a thesis presented to a faculty committee.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 499D Thesis: Industrial/Organizational Psychology Credits:

Var[1-3] (0-0-0)

Course Description: Independent research project in industrial/organizational psychology, culminating in a thesis presented to a faculty committee.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 499E Thesis: Perceptual and Brain Sciences Credits:

Var[1-3] (0-0-0)

Course Description: Independent research project in perceptual/brain sciences within psychology, culminating in a thesis presented to a faculty committee.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 499F Thesis: Special Topics in Psychology Credits: Var[1-3] (0-0-0)

Course Description: Independent research project in a topic area of psychology, culminating in a thesis presented to a faculty committee.

Prerequisite: None.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 500 Advanced Introduction to Positive Psychology Credits:

3 (3-0-0)

Course Description: Explore the theoretical and empirical foundations of positive psychology with emphasis on learning to evaluate and develop science-based positive psychology applications. Examine topics like meaning, purpose, character strengths, relationships, health, emotions, spirituality, leadership, and education.

Prerequisite: None.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 515 Women's Health Credits: 3 (3-0-0)

Course Description: Current issues in women's health.

Prerequisite: None.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

PSY 517 Perspectives in Global Health Credits: 3 (0-0-3)

Also Offered As: IE 517.

Course Description: Science, skills, and beliefs directed at the maintenance and improvement of health for all people.

Prerequisite: None.

Registration Information: Credit not allowed for both PSY 517 and IE 517.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

PSY 522 Positive Sport Psychology Credits: 3 (3-0-0)

Course Description: Introduction to theory, research, and practical application related to personal growth, well-being, and peak performance among athletes, leveraging the disciplines of positive psychology and sport psychology.

Prerequisite: None.

Restriction: Must be a Graduate.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 550 Responsible Conduct of Psychological Research Credit: 1 (1-0-0)

Course Description: Application of professional norms and research ethics in the conduct of psychological research.

Prerequisite: None.

Registration Information: Graduate standing or consent of instructor. This is a partial-semester course.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 559A Independent Study: Applied Social Psychology Credits: Var[1-3] (0-0-0)

Course Description: Individual investigation of a topic in applied social psychology under direction of faculty.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 595B Independent Study: Cognitive Psychology Credits: Var[1-3] (0-0-0)

Course Description: Individual investigation of a topic in cognitive psychology under direction of faculty.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 595C Independent Study: Counseling/Clinical Psych Credits: Var[1-3] (0-0-0)

Course Description: Individual investigation of a topic in counseling/clinical psychology under direction of faculty.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 595D Independent Study: Industrial/Organizational Psychology Credits: Var[1-3] (0-0-0)

Course Description: Individual investigation of a topic in industrial/organizational psychology under direction of faculty.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 595E Independent Study: Perceptual/Brain Sciences Credits: Var[1-3] (0-0-0)

Course Description: Individual investigation of a topic in perceptual and brain sciences under direction of faculty.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 595F Independent Study: Special Topics in Psychology Credits: Var[1-3] (0-0-0)

Course Description: Individual investigation of a special topic in psychology under direction of faculty.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 596A Group Study: Applied Social Psychology Credits: Var[1-3] (0-0-0)

Course Description: Collective investigation of a topic in applied social psychology under direction of faculty.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 596B Group Study: Cognitive Psychology Credits: Var[1-3] (0-0-0)

Course Description: Collective investigation of a topic in cognitive psychology under direction of faculty.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 596C Group Study: Counseling/Clinical Psych Credits: Var[1-3] (0-0-0)

Course Description: Collective investigation of a topic in counseling/clinical psychology under direction of faculty.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 596D Group Study: Industrial/Organizational Psych Credits: Var[1-3] (0-0-0)

Course Description: Collective investigation of a topic in industrial/organizational psychology under direction of faculty.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 596E Group Study: Perceptual/Brain Sciences Credits: Var[1-3] (0-0-0)

Course Description: Collective investigation of a topic in perceptual and brain sciences under direction of faculty.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 596F Group Study: Special Topics in Psychology Credits: Var[1-3] (0-0-0)

Course Description: Collective investigation of a special topic in psychology under direction of faculty.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 600A Advanced Psychology: History Credits: 3 (3-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 600B Advanced Psychology: Cognitive Neuroscience Credits: 3 (3-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 600C Advanced Psychology: Neuropsychology Credits: 3 (3-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 600D Advanced Psychology: Sensation and Perception Credits: 3 (3-0-0)

Also Offered As: NB 600.

Course Description: Neural mechanisms of human perception; color and depth perception, pitch, loudness, and the effects of aging.

Prerequisite: PSY 100 to 799 - at least 15 credits and PSY 456.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both PSY 600D and NB 600.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 600E Advanced Psychology: Animal Learning Credits: 3 (3-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 600F Advanced Psychology: Human Learning and Memory Credits: 3 (3-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 600G Advanced Psychology: Social Credits: 3 (3-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 600H Advanced Psychology: Lifespan Development Credits: 3 (3-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 600I Advanced Psychology: Personality Credits: 3 (3-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 600J Advanced Psychology: Health Psychology Credits: 3 (3-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 600K Advanced Psychology: Measurement Credits: 3 (3-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both PSY 600K and PSY 605.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 600L Advanced Psychology: Human Performance, Motor and Intellectual Capacities Credits: 3 (3-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 600M Advanced Psychology: Cognitive Processes Credits: 3 (3-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 601 Measurement Laboratory Credit: 1 (0-2-0)

Course Description: Laboratory experience using measurement concepts and procedures.

Prerequisite: PSY 600K, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

PSY 605 Applied Measurement Theory Credits: 3 (0-0-3)

Course Description: Study and application of measurement theory and methods for test construction and validation.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Plan C graduate program in Applied Industrial/Organizational Psychology. Credit not allowed for both PSY 605 and PSY 600K. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 610 Counseling and Clinical Pre-Practicum I Credits: 3 (3-0-0)

Course Description: Basic assessment and intervention skills; accurate observation, conceptualization, and response.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 611 Counseling and Clinical Pre-Practicum II Credits: 3 (3-0-0)

Course Description: Counseling and clinical techniques; assessment and intervention strategies; special applications.

Prerequisite: PSY 610.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 612 Introduction to Addiction Counseling Credits: 3 (3-0-0)

Course Description: Therapies used to treat individuals with substance use disorders, with an emphasis on empirically supported treatments.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Master of Addiction Counseling.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 613 Advanced Addiction Counseling Credits: 3 (3-0-0)

Course Description: Advanced therapies used to treat individuals with substance use disorders, with an emphasis on empirically supported treatments.

Prerequisite: PSY 612.

Restriction: Must be a: Graduate, Professional.

Registration Information: Psychology graduate students.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 620 Addiction Counseling Concepts Credits: 4 (4-0-0)

Course Description: Client records management, client assessment, diagnoses and treatment practices for addiction counselors. Develop the basic skills necessary to create and maintain therapeutic relationship.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the MACP. Sections may be offered: Online. Credit not allowed for both PSY 620 and PSY 680A2.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 621 Psychology of Calling and Meaningful Work Credits: 3 (3-0-0)

Course Description: Overview of theory, research and practice related to calling and meaningful work. Topics occupy the intersection of positive psychology, vocational psychology, and organizational behavior. Introduction to historical, philosophical, theoretical, methodological, and practical implications of the accumulating research related to career development, work, and eudaimonic well-being.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 623 Positive Education Credits: 3 (3-0-0)

Course Description: Examines the field of positive education through a multilevel approach including student, staff, and community wellbeing, core theories and concepts in positive education, and advances and research on implementing positive education programs and assessing their effects. This course is for people interested in educational systems that teach academic content and also help students develop the best potential and cultivate skills for wellbeing.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 624 Positive Career Counseling and Coaching Credits: 3 (3-0-0)

Course Description: Theory, research, and evidence-based best-practices for career development counseling and coaching from a positive psychology perspective.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PSY 625 Positive Organizations and Leadership Credits: 3 (3-0-0)

Course Description: Theory, research, and applications within Positive Organizational Scholarship (POS) and positive leadership.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

PSY 643 Industrial/Organizational Psychology I Credits: 3 (3-0-0)

Course Description: Integration of multiple perspectives for examining work organizations, roles, and relationships, and organizational entry and socialization.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both PSY 643 and PSY 647.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 644 Industrial/Organizational Psychology II Credits: 3 (3-0-0)

Course Description: Multiple perspectives for examining individual and organizational development, orientation to organizations, and science and practice in industrial/organizational psychology.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 645 Industrial/Organizational Psychology at Work I Credits: 2 (2-0-0)

Course Description: Integrating theory, research, and practice in industrial/organizational settings. Assessment and development of applications of psychology in organizations.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 646 Industrial/Organizational Psychology at Work II Credits: 2 (2-0-0)

Course Description: Development and application of scientific, ethical, and professional standards and competencies in applying psychology in industrial/organizational settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 647 Applied Industrial Psychology Credits: 3 (0-0-3)

Course Description: Applications of theory and methods for recruitment, selection, training, and performance management within organizations.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Plan C graduate program in Applied Industrial/Organizational Psychology. Credit not allowed for both PSY 647 and PSY 643. Offered as an online course only.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 648 Applied Organizational Psychology Credits: 3 (0-0-3)

Course Description: Study of work behavior, roles, and relationships within organizations.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Plan C graduate program in Applied Industrial/Organizational Psychology. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 652 Methods of Research in Psychology I Credits: 4 (3-2-0)

Course Description: Psychological research emphasizing hypothesis testing and simple research designs, introducing general linear model approach.

Prerequisite: STAT 300 to 499 - at least 1 course.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory. Credit not allowed for both PSY 652 and PSY 662.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 653 Methods of Research in Psychology II Credits: 4 (3-2-0)

Course Description: Advanced research designs emphasizing general linear model approach.

Prerequisite: PSY 652.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Must register for lecture and laboratory. Credit not allowed for both PSY 653 and PSY 663

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 655A Research Issues and Models in Psychology:Applied Credits: 3 (3-0-0)

Course Description: Generation and development of research ideas, evaluating approaches, interpreting and reporting findings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 655B Research Issues and Models in Psychology: General Experimental Credits: 3 (3-0-0)

Course Description: Generation and development of research ideas, evaluating approaches, interpreting and reporting findings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 660 Applied Cross-Cultural Industrial/Organizational Psychology Credits: 3 (0-0-3)

Course Description: Cultural differences in the application of individual and organizational interventions to improve human and organizational effectiveness.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Plan C graduate program in Applied Industrial/Organizational Psychology; PSY 647 or PSY 648. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 661 Applied Organizational Development Credits: 3 (0-0-3)

Course Description: Techniques and interventions for developing, improving and effecting change in organizations through diagnosis, planned change, and survey feedback.

Prerequisite: PSY 648.

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as an online course only. Admission to the Plan C graduate program in Applied Industrial/Organizational Psychology.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 662 Applied Psychological Research Methods I Credits: 4 (0-0-4)

Course Description: Psychological research emphasizing hypothesis testing and simple research designs, the general linear model approach with emphasis on application.

Prerequisite: STAT 300 to 499 - at least 1 course.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Plan C graduate program in Applied Industrial/Organizational Psychology. Credit not allowed for both PSY 662 and PSY 652. Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 663 Applied Psychological Research Methods II Credits: 4 (0-0-4)

Course Description: Advanced research designs emphasizing general linear model approach with emphasis on application.

Prerequisite: PSY 662.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Plan C graduate program in Applied Industrial/Organizational Psychology. Credit not allowed for both PSY 663 and PSY 653. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 665 Applied Psychological Research Design Credits: 3 (0-0-3)

Course Description: Review of scientific method, generation of hypotheses, and design of laboratory and field research studies.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Plan C graduate program in Applied Industrial/Organizational Psychology; any graduate applied statistics course. Offered as an online course only.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 666 Succession Planning and Leadership Development Credits: 3 (0-0-3)

Course Description: Examines modern theories of leadership, strategies for succession planning; training, coaching, mentoring, professional development for leadership.

Prerequisite: PSY 648.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Plan C graduate program in Applied Industrial/Organizational Psychology. Offered as an online course only.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 667 Competency Modeling and Criterion Development Credits: 3 (0-0-3)

Course Description: Conducting job analyses and competency modeling within organizations, application of the results of those processes to criterion development.

Prerequisite: PSY 647.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Plan C graduate program in Applied Industrial/Organizational Psychology. Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 668 Workforce Training and Development Credits: 3 (0-0-3)

Course Description: An overview of adult learning theory, emphasizing the role of I/O psychology in identifying, designing, transferring, and evaluating training.

Prerequisite: PSY 647.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Plan C graduate program in Applied Industrial/Organizational Psychology. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 669 Capstone: Practicum and Skills Development Credits: 3 (0-0-3)

Course Description: Refine I/O consulting skills through applied research/consulting projects with actual organizations, working in virtual teams with faculty mentors.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Plan C graduate program in Applied I/O Psychology; 32 hours of program requirements. Offered as an online course only.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 670 Psychological Measurement-Personality Credits: 3 (3-0-0)

Course Description: Construction, administration, interpretation of objectional measures of personality including aptitudes, abilities, interests.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 672 Psychological Assessment Credits: 3 (3-0-0)

Course Description: Use of test data to determine cognitive functioning and predict behavior; supervised test administration and interpretation.

Prerequisite: PSY 670.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 675 Ethics and Professional Psychology Practice Credits: 3 (3-0-0)

Course Description: Ethical practice of psychology, duty-to-warn statutes, Colorado law, problematic ethical situations.

Prerequisite: PSY 611.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Master of Addiction Counseling.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 677 Psychology of Women, Men, and Gender Credits: 3 (0-0-3)

Course Description: Focuses on the psychology of women, men and gender, by intersectionalities, and in cultural, transnational context. Topics include gendered life paths; gender and the media; gender and relationships; gender and health, gender and work; and gender and globalization.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 684 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description: Supervised teaching, training and discussion leadership in undergraduate courses.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 686A Practicum: Counseling and Diagnosis I Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: PSY 611.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 686C Practicum:Industrial/Organizational I Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: PSY 692B.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 686D Practicum: School I Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: PSY 692B.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 686E Practicum: Applied Social I Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: PSY 611.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 686F Practicum:Perceptual and Brain Sciences I Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: PSY 611.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 686G Practicum: Cognitive I Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: PSY 611.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 692A Seminar: Applied Social Psychology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 692B Seminar: Cognitive Psychology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 692C Seminar: Counseling Psychology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 692D Seminar: Industrial/Organizational Psychology Credits:

Var[1-3] (0-0-0)

Course Description: Seminar on advanced topics in industrial/organizational psychology.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 692E Seminar: Perceptual and Brain Sciences Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 753 Structural Equation Modeling Credits: 3 (3-0-0)

Course Description: Fundamental concepts and application of Structural Equation Modeling, a statistical framework which is more flexible than regression analysis and is at the core of many modern approaches to analyzing complex datasets.

Prerequisite: PSY 652 and PSY 653.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 754 Multivariate Analysis in Behavioral Sciences Credits: 3 (3-0-0)

Course Description: Multivariate analysis, including factor and component analysis, applied to psychological research.

Prerequisite: PSY 653.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

PSY 775 Diversity Issues in Counseling Credits: 3 (3-0-0)

Course Description: Diversity issues in clients and counselors such as gender, race, age, sexual orientation, education, religion, disability, socioeconomic status.

Prerequisite: PSY 611.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 776 Business and Practice of Addiction Counseling Credits: 3 (3-0-0)

Course Description: Business aspects and professional development issues associated with a career in addiction counseling.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Psychology graduate students or admission to the Master of Addiction Counseling.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 784 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description: Philosophy, approaches, and techniques of college-level instruction; supervised teaching with consultation of faculty.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 786A Advanced Practicum: Counseling and Diagnosis II Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: PSY 686A.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 786C Advanced Practicum: Industrial/Organizational II Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: PSY 686C.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 786D Advanced Practicum: School II Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: PSY 686D.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 786E Advanced Practicum: Clinical Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: PSY 686A or PSY 686C or PSY 686D or PSY 686E or PSY 686F or PSY 686G.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 786F Advanced Practicum: Supervision Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: PSY 686A or PSY 686C or PSY 686D or PSY 686E or PSY 686F or PSY 686G.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 786G Advanced Practicum: Applied Social II Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: PSY 686E.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 786H Advanced Practicum: Perceptual and Brain Sciences II Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: PSY 686F.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 786I Advanced Practicum: Cognitive II Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: PSY 686G.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

PSY 786J Advanced Practicum: Vocational Assessment Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** PSY 610 and PSY 727.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**PSY 787 Internship Credits: Var[1-18] (0-0-0)****Course Description:** Supervised work experience under departmental guidelines in approved psychological agency or setting.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**PSY 792A Advanced Seminar: Applied Social Psychology Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Graduate cooperative program, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**PSY 792B Advanced Seminar: Cognitive Psychology Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**PSY 792C Advanced Seminar: Counseling Psychology Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**PSY 792D Advanced Seminar: Industrial/Organizational Psychology Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Graduate cooperative program, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**PSY 792E Advanced Seminar: Perceptual and Brain Sciences Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**PSY 792F Advanced Seminar: Special Topics in Psychology Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**PSY 793 Clinical Supervision of Addiction Counseling Credits: 3 (3-0-0)****Course Description:** Tools and models in the supervision and treatment of addictions.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Admission to the Master of Addiction Counseling.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**PSY 795A Independent Study: Applied Social Psychology Credits: Var[1-3] (0-0-0)****Course Description:** Independent investigation of a topic in applied social psychology under direction of faculty.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Primarily for doctoral candidates in psychology.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**PSY 795B Independent Study: Cognitive Psychology Credits: Var[1-3] (0-0-0)****Course Description:** Independent investigation of a topic in cognitive psychology under direction of faculty.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Primarily for doctoral candidates in psychology.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**PSY 795C Independent Study: Counseling/Clinical Psych Credits: Var[1-3] (0-0-0)****Course Description:** Independent investigation of a topic in counseling/clinical psychology under direction of faculty.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Primarily for doctoral candidates in psychology.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**PSY 795D Independent Study: Industrial/Organizational Psychology Credits: Var[1-3] (0-0-0)****Course Description:** Independent investigation of a topic in industrial/organizational psychology under direction of faculty.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Primarily for doctoral candidates in psychology.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.

PSY 795E Independent Study: Perceptual/Brain Sciences Credits: Var[1-3] (0-0-0)

Course Description: Independent investigation of a topic in perceptual and brain sciences under direction of faculty.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Primarily for doctoral candidates in psychology.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 795F Independent Study: Special Topics in Psychology Credits: Var[1-3] (0-0-0)

Course Description: Independent investigation of a special topic in psychology under direction of faculty.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Primarily for doctoral candidates in psychology.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

PSY 799A Dissertation: Applied Social Psychology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 799B Dissertation: Cognitive Psychology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 799C Dissertation: Counseling Psychology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 799D Dissertation: Industrial/Organizational Psych Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

PSY 799E Dissertation: Perceptual and Brain Sciences Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Major in Psychology

Psychology is one of the most popular and versatile majors. The major emphasizes a strong background in the natural sciences (e.g., mathematics, chemistry, biology, statistics, human physiology), writing, and research.

Electives enable students to obtain a second major or minor in a field of interest or take pre-professional courses and graduate with:

1. A combination of courses and experiences to qualify for semiprofessional jobs in psychological settings or closely-related fields (e.g., addictions counseling);
2. A combination of courses providing a background for careers outside of psychology (e.g., human resources);
3. Pre-professional courses for potential admittance into professional training programs (e.g., medicine, occupational therapy, veterinary medicine); and/or
4. A complement of courses for potential admittance into psychology graduate school programs. Advanced degrees are often a prerequisite for professional careers in psychology.

Learning Outcomes

Upon completing the degree, students will:

- Attain a solid foundation in the natural sciences.
- Demonstrate strong analytical, mathematical, and statistical skills.
- Identify, describe, and demonstrate knowledge of the major branches of psychology.
- Describe, evaluate, and apply methods for conducting research and analyzing data in psychology.
- Demonstrate the ability to analyze, synthesize, and evaluate material from psychology.
- Demonstrate the ability to write and communicate effectively on topics in psychology.
- Appraise the diversity, complexity and intersectionality of human experience.
- Apply ethical standards to evaluate psychological science and practice.
- Engage in professional development and lifelong learning.

Accelerated Program

The major in Psychology, General Psychology concentration, includes an accelerated program option (<https://provost.colostate.edu/accelerated-programs/>) for students to graduate on a faster schedule. Accelerated Programs typically include 15-16 credits each fall and spring semester for three years, plus 6-9 credits over two to three summer sessions (<https://summer.colostate.edu/acceleratedprograms/>). Students who enter CSU with prior credit (AP, IB, transfer, etc.) may use applicable courses to further accelerate their graduation. Visit the Office of the Provost website for additional information about Accelerated Programs (<https://provost.colostate.edu/accelerated-programs/>).

Potential Occupations

A B.S. degree in Psychology prepares students for a variety of career opportunities. Because of the strong science orientation, students develop a number of important skills required in a broad range of occupations. Skills such as written and oral communication, cooperation,

analytical and critical thinking, and a background in the sciences demonstrate versatility and an ability to pursue a variety of career paths. Participating in paid or volunteer work, internships, research, study abroad and experiential education opportunities are highly recommended to increase students' employment opportunities.

Possible career opportunities include, but are not limited to: addictions counselor, human services worker, case worker, mental health services worker, probation officer, community relations officer, educator, program developer/administrator, human resources administrator, labor relations representative, compensation and benefits administrator, public relations specialist/special events administrator, advertising producer/writer, account services representative, media representative, market researcher, government program administrator, business manager, buying agent, sales representative, real estate broker, industrial/organizational consultant, psychometrician, neuropsychologist (with advanced degree), cognitive neuroscientist (with advanced degree), engineering psychologist (with advanced degree), clinical psychologist (with advanced degree), family therapist (with advanced degree), lawyer (with advanced degree), occupational therapist (with advanced degree), veterinarian (with advanced degree) or physician (with advanced degree).

Concentrations

- Addictions Counseling Concentration
- Clinical/Counseling Psychology Concentration
- General Psychology Concentration

- Industrial/Organizational Concentration
- Mind, Brain, and Behavior Concentration

Major in Psychology, Addictions Counseling Concentration

The Addictions Counseling concentration provides students with an undergraduate degree in psychology while completing the required courses for becoming certified addictions technicians in the state of Colorado. Besides coursework, students are required to complete internship hours at an approved facility. Students who are interested in the clinical/counseling field of psychology, but do not wish to seek an advanced degree in psychology, may find this an attractive concentration.

Requirements Effective Fall 2022

Students must have a C or better in each of the following courses: PSY 100, PSY 192, PSY 210, PSY 250, PSY 252, PSY 311A, PSY 350, and the two lecture-lab pairs in psychology (for the AUCC 4A, 4B requirement).

Maximum of 12 credits allowed toward graduation for any combination of PSY 295, PSY 296, PSY 384, PSY 484, PSY 486, PSY 487, PSY 488, PSY 495A-PSY 495F, PSY 496A-PSY 496F, PSY 498A-PSY 498F, PSY 499A-PSY 499F.

Major in Psychology, Clinical/Counseling Psychology Concentration

The Clinical/Counseling Psychology concentration prepares students to pursue graduate education and careers in clinical and counseling psychology. Students in this concentration complete a set of core courses that focus on the application of psychological principles to personal and interpersonal functioning, assessment, and intervention. In addition to coursework, students are required to complete an internship at an approved facility as part of their capstone experience.

Requirements Effective Fall 2022

Students must have a C or better in each of the following courses: PSY 100, PSY 192, PSY 210, PSY 250, PSY 252, PSY 330, PSY 350, and the two lecture-lab pairs in psychology (for the AUCC 4A, 4B requirement).

Maximum of 12 credits allowed toward graduation for any combination of PSY 295, PSY 296, PSY 384, PSY 484, PSY 486, PSY 487, PSY 488, PSY 495A-PSY 495F, PSY 496A-PSY 496F, PSY 498A-PSY 498F, PSY 499A-PSY 499F.

¹ Select any CS course except CS 192 or variable credit options. Some courses with this prefix will also satisfy the AUCC 3B requirement.

² Select any PHIL course except variable credit options. Some courses with this prefix will satisfy the AUCC 3B requirement.

³ Select any course in category 3C of the AUCC except HONR 492 or any PSY course.

⁴ Select any SPCM course except variable credit options. Some courses with this prefix will satisfy the AUCC 3B requirement.

⁵ Students should select a total of two lecture/lab pairs of courses over the junior and senior years. Two pairs are necessary to satisfy AUCC Cat 4A and 4B requirements.

⁶ Select one course from this list, excluding variable credit options, that is not counted elsewhere. Acceptable MATH options are MATH 141, MATH 155, MATH 156, MATH 157, MATH 159, MATH 160, MATH 161, MATH 255, MATH 3** (excluding MATH 384) and MATH 4** (excluding MATH 484, MATH 487, MATH 495, MATH 498).

⁷ Students may substitute other subtopics with department approval.

⁸ Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major Completion Map

Distinctive Requirements for Degree Program: Students must have a C or better in each of the following courses: PSY 100, PSY 192, PSY 210, PSY 250, PSY 252, PSY 330, PSY 350, and the two lecture-lab pairs in psychology (for the AUCC 4A, 4B requirement).

Maximum of 12 credits allowed for graduation for any combination of PSY 295, PSY 296, PSY 384, PSY 484, PSY 486, PSY 487, PSY 488, PSY 495A-PSY 495F, PSY 496A-PSY 496F, PSY 498A-PSY 498F, PSY 499A-PSY 499F.

Major in Psychology, General Psychology Concentration

Students who prefer a broad view of the field often choose the General Psychology concentration. Students in this concentration can tailor the psychology lecture/lab pair and upper division psychology elective requirements to fit their interests. Students with an interest in the applied applications of psychology are encouraged to participate in internships, while those with an interest in pursuing an advanced degree in graduate school are encouraged to seek research experience with a faculty member.

Requirements Effective Fall 2022

Students must have a C or better in each of the following courses: PSY 100, PSY 192, PSY 210, PSY 250, PSY 252, PSY 350, PSY 493, and the two lecture-lab pairs in psychology (for the AUCC 4A, 4B requirement).

Maximum of 12 credits allowed toward graduation for any combination of PSY 295, PSY 296, PSY 384, PSY 484, PSY 486, PSY 487, PSY 488, PSY 495A-PSY 495F, PSY 496A-PSY 496F, PSY 498A-PSY 498F, PSY 499A-PSY 499F.

Major in Psychology, Industrial/Organizational Concentration

The Industrial/Organizational concentration prepares students to move into the workforce with a bachelor's degree or to pursue graduate education in industrial/organizational psychology. Students in this concentration take seminars that focus on psychology in the workplace. These seminars cover topics such as leadership, work-life balance, training, and motivation. Students are strongly encouraged to participate in experiential education opportunities to enhance their marketability in the workforce, such as internships. Students are also encouraged to work as research assistants in order to strengthen their graduate school applications.

Requirements Effective Fall 2022

Students must have a C or better in each of the following courses: PSY 100, PSY 192, PSY 210, PSY 250, PSY 252, PSY 350, PSY 493, and the three lecture-lab pairs in psychology (for the AUCC 4A, 4B requirement).

Maximum of 12 credits allowed toward graduation for any combination of PSY 295, PSY 296, PSY 384, PSY 484, PSY 486, PSY 487, PSY 488, PSY 495A-PSY 495F, PSY 496A-PSY 496F, PSY 498A-PSY 498F, PSY 499A-PSY 499F.

MATH 992, MATH 993, MATH 994, MATH 995, MATH 996, MATH 997, MATH 998, MATH 999, MATH 1000.
- ⁸ May be taken to satisfy this category if not already counted elsewhere.

- ⁹ PSY 492D content changes from semester to semester, and the course may be taken for credit multiple times.
- ¹⁰ A maximum of 3 credits from any combination of PSY 495D, PSY 496D, PSY 498D, and PSY 499D.
- ¹¹ Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major Completion Map

Distinctive Requirements for Degree Program:

Students must have a C or better in each of the following courses: PSY 100, PSY 192, PSY 210, PSY 250, PSY 252, PSY 350, PSY 493, and the three lecture-lab pairs in psychology (for the AUCC 4A, 4B requirement).

Maximum of 12 credits allowed toward graduation for any combination of PSY 295, PSY 296, PSY 384, PSY 484, PSY 486, PSY 487, PSY 488, PSY 495A-PSY 495F, PSY 496A-PSY 496F, PSY 498A-PSY 498F, PSY 499A-PSY 499F.

Major in Psychology, Mind, Brain, and Behavior Concentration

The Mind, Brain, and Behavior Concentration prepares students to be competitive candidates for graduate programs in cognitive psychology, cognitive neuroscience, behavioral neuroscience, and sensation and perception. Many students considering a career in medicine or an allied health profession also choose to complete this concentration. Students acquire a stronger science and quantitative background compared to the other concentrations in psychology. Students are encouraged to participate as undergraduate research assistants and work with a faculty member on a research project.

Requirements Effective Fall 2022

Students must have a C or better in each of the following courses: PSY 100, PSY 192, PSY 210, PSY 250, PSY 252, PSY 350, PSY 493, and the two lecture-lab pairs in psychology (for the AUCC 4A, 4B requirement).

Maximum of 12 credits allowed toward graduation for any combination of PSY 295, PSY 296, PSY 384, PSY 484, PSY 486, PSY 487, PSY 488, PSY 495A-PSY 495F, PSY 496A-PSY 496F, PSY 498A-PSY 498F, PSY 499A-PSY 499F.

- ¹ Select any CS course except CS 192 or variable credit options. Some courses with this prefix will also satisfy the AUCC 3B requirement.
- ² Select any PHIL course except variable credit options. Some courses with this prefix will satisfy the AUCC 3B requirement.
- ³ Select any course in category 3C of the AUCC except HONR 492 or any PSY course.
- ⁴ Select any SPCM course except variable credit options. Some courses with this prefix will satisfy the AUCC 3B requirement.
- ⁵ Select one course from this list, excluding variable credit options, that is not counted elsewhere.
- ⁶ Two PSY lecture courses from the set of PSY 452, PSY 454, PSY 456, PSY 458 are needed to satisfy the AUCC 4B requirement, and two PSY laboratory courses from the set of PSY 453, PSY 455, PSY 457, and PSY 459 are needed to satisfy the AUCC 4A requirement.
- ⁷ Selections may include any 300- or 400-level courses from DSCI, MATH, or STAT that is not counted elsewhere.
- ⁸ Select any 300- or 400-level course from BC, BMS, BZ, CHEM, CS, or PH, excluding variable credit courses, that is not counted elsewhere.

⁹ Selection may include any 300- or 400-level laboratory course from BC, BMS, BZ, CHEM, CS, DSCI, MATH, PH, or STAT, not counted elsewhere.

¹⁰ Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major Completion Map

Distinctive Requirements for Degree Program:

Students must have a C or better in each of the following courses: PSY 100, PSY 192, PSY 210, PSY 250, PSY 252, PSY 350, PSY 493, and the two lecture-lab pairs in psychology (for the AUCC 4A, 4B requirement).

Maximum of 12 credits allowed toward graduation for any combination of PSY 295, PSY 296, PSY 384, PSY 484, PSY 486, PSY 487, PSY 488, PSY 495A-PSY 495F, PSY 496A-PSY 496F, PSY 498A-PSY 498F, PSY 499A-PSY 499F.

Graduate Certificate in Applied Positive Psychology

The Graduate Certificate in Applied Positive Psychology provides foundational knowledge about the scientific study of human excellence, performance, and wellbeing, while also helping professionals gain skills to understand, develop, and use science-grounded practices and interventions in more specialized areas. The knowledge and skills learned in this certificate may be applied to students' own lives or to professional topics in leadership, work and organizations, education, sports, and psychotherapy.

Requirements Effective Fall 2021

Additional coursework may be required due to prerequisites.

Code	Title	Credits
PSY 500	Advanced Introduction to Positive Psychology	3
Select three courses from the following:		9
PSY 522	Positive Sport Psychology	
PSY 621	Psychology of Calling and Meaningful Work	
PSY 623	Positive Education	
PSY 624	Positive Career Counseling and Coaching	
PSY 625	Positive Organizations and Leadership	
Program Total Credits:		12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Organizational Development

The Graduate Certificate in Organizational Development provides an introduction to the concepts and practices related to systems and technologies that facilitate organizational change and enhance organizational effectiveness. This certificate is designed for professionals involved with recruitment, selection, placement, training, and performance management of employees and staff in organizations.

Effective Fall 2017

Additional coursework may be required due to prerequisites.

Code	Title	Credits
PSY 648	Applied Organizational Psychology	3
PSY 661	Applied Organizational Development	3
PSY 666	Succession Planning and Leadership Development	3
Program Total Credits:		9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Performance Management

The Graduate Certificate in Performance Management provides an introduction to the concepts and practices related to systems and technologies that help manage the performance of individuals in organizations. The certificate is designed for professionals involved with recruitment, selection, placement, training, and performance management of employees and staff in organizations.

Effective Fall 2017

Additional coursework may be required due to prerequisites.

Code	Title	Credits
PSY 647	Applied Industrial Psychology	3
PSY 667	Competency Modeling and Criterion Development	3
PSY 668	Workforce Training and Development	3
Program Total Credits:		9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Substance Use Disorder Identification and Treatment

The Graduate Certificate in Substance Use Disorder Identification and Treatment provides mental and behavioral health clinicians with the skills needed to identify and treat substance use disorders across the lifespan and the diverse groups that typically suffer from substance use disorders. The coursework provides specific education on empirically supported screening tools and interventions for substance use disorders, including screening, brief intervention, and referral to treatment, motivational interviewing, cognitive behavioral therapy for addictions, and treating diverse populations.

Requirements Effective Fall 2021

Additional coursework may be required due to prerequisites.

Code	Title	Credits
PSY 613	Advanced Addiction Counseling	3
PSY 710	Advanced Addiction Treatments	3
PSY 724	Motivational Interviewing	3
PSY 726	Neuropharmacology of Addiction	3
Program Total Credits:		12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Master of Addiction Counseling in Psychology, Plan C (M.A.C.P.)

The Master of Addiction Counseling in Psychology is designed to provide students the education needed to become a licensed addiction counselor. With this degree and licensure, graduates are able to enter the workforce as treatment providers for those struggling with substance use and substance use disorders. The program is structured as one year of course work and one year of internship in order to satisfy state requirements for certification and licensure.

Requirements Effective Fall 2022

First Year		
Fall		Credits
PSY 612	Introduction to Addiction Counseling	3
PSY 675	Ethics and Professional Psychology Practice	3
PSY 724	Motivational Interviewing	3
PSY 726	Neuropharmacology of Addiction	3
Total Credits		12

Spring		
PSY 613	Advanced Addiction Counseling	3
PSY 620	Addiction Counseling Concepts	4
PSY 775	Diversity Issues in Counseling	3
PSY 793	Clinical Supervision of Addiction Counseling	3
Total Credits		13
Second Year		
Fall		
PSY 787	Internship	9
Total Credits		9
Spring		
PSY 787	Internship	9
Total Credits		9
Program Total Credits:		43

A minimum of 43 credits are required to complete this program.

Master of Applied Industrial/Organizational Psychology, Plan C (M.A.I.O.P.)

The Master of Applied Industrial/Organizational Psychology, Plan C (M.A.I.O.P.) degree program studies the behavior of individuals in businesses and organizations to determine how to improve performance and productivity for the organization. Students learn how to use research and measurement skills to solve practical workplace issues and to apply the principles of psychology to human resources and leadership challenges within an organization. This degree is practitioner-oriented, providing practical knowledge and skills focusing on research and consulting.

Requirements Effective Spring 2009

First Year		Credits
PSY 605	Applied Measurement Theory	3
PSY 647	Applied Industrial Psychology	3
PSY 648	Applied Organizational Psychology	3
PSY 662	Applied Psychological Research Methods I	4
PSY 663	Applied Psychological Research Methods II	4
PSY 666	Succession Planning and Leadership Development	3
Total Credits		20

Second Year

PSY 660	Applied Cross-Cultural Industrial/Organizational Psychology	3
PSY 661	Applied Organizational Development	3
PSY 665	Applied Psychological Research Design	3
PSY 667	Competency Modeling and Criterion Development	3
PSY 668	Workforce Training and Development	3
PSY 669	Capstone: Practicum and Skills Development	3
Total Credits		18
Program Total Credits:		38

A minimum of 38 credits are required to complete this program.

Department of Statistics

Office in Statistics Building, Room 102
(970) 491-6546
stat.colostate.edu (<http://www.stat.colostate.edu>)

Professor Haonan Wang - Department Chair
Professor Mary Meyer - Associate Chair
Ben Prytherch and Stacy Edmondson - Undergraduate Advisors

Undergraduate Major

- Major in Statistics

Minor

- Minor in Statistics

Certificate

- Sports Statistics and Analysis

Graduate Graduate Programs in Statistics

The department offers graduate programs leading to Master of Applied Statistics, Master of Science and Doctor of Philosophy degrees. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Statistics (<http://www.stat.colostate.edu>).

Certificates

- Data Analysis
- Theory and Applications of Regression Models

Master's Programs

- Master of Applied Statistics, Plan C (M.A.S.)
 - Master of Applied Statistics, Plan C, Data Science Specialization
 - Master of Applied Statistics, Plan C, Statistical Science Specialization
- Master of Science in Statistics, Plan A*
- Master of Science in Statistics, Plan B*

Ph.D.

- Ph.D. in Statistics*

* Please see department for program of study.

Courses

Subjects in this department include: Applied Statistics (STAA), Applied Statistics for Researchers (STAR) and Statistics (STAT).

Applied Statistics (STAA)

STAA 551 Regression Models and Applications Credits: 2 (2-0-0)

Course Description: Model estimation and goodness of fit for linear models; confidence intervals for prediction and estimation; lack of fit, model diagnostics, transformations, model selection, influential observations, collinearity, interaction, weighted least squares, imputation.

Prerequisite: MATH 369 and STAT 315.

Restriction: Must be a Graduate.

Registration Information: Admission to the Master of Applied Statistics or admission to the Graduate Certificate in Theory and Applications of Regression Models. Written consent of instructor. This is a partial semester course. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

STAA 552 Generalized Regression Models Credits: 2 (2-0-0)

Course Description: Categorical data analysis, estimation and testing for contingency tables, introduction to generalized linear models, logit and probit models for binary regression, extensions to nominal and ordinal multcategory responses, count data, Poisson and negative binomial regression, log-linear models.

Prerequisite: STAA 551, may be taken concurrently or STAR 512 or STAT 512 or STAT 540.

Registration Information: Written consent of instructor. This is a partial semester course. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

STAA 553 Experimental Design Credits: 2 (2-0-0)

Course Description: Analysis of variance, covariance, randomized block, latin square, factorial, balanced and unbalanced designs. Applications to agriculture, biosciences. Implementation in SAS and R.

Prerequisite: (STAA 551 or STAT 540) and (STAA 562 or STAT 530).

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Written consent of instructor. This is a partial semester course. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAA 554 Mixed Models Credits: 2 (2-0-0)

Course Description: Topics in linear models that have both fixed and random predictors: split-plot and related designs, mixed-effects factorials, repeated measures, random coefficients, and spatial models for designed experiments. Introduction to generalized linear and nonlinear mixed models. Statistical topics will be integrated with implementation in SAS and R.

Prerequisite: STAA 552.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Must have concurrent registration in STAA 553. Written consent of instructor. This is a partial semester course. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAA 555 Statistical Consulting Skills Credit: 1 (1-0-0)

Also Offered As: STAT 555.

Course Description: Skills necessary to collaborate with non-statisticians. Communicate both verbally and in writing with collaborators while honing in on study objectives and identifying measures and factors. Readings of selected papers and texts and mock client sessions and shadowing. Common statistical tools necessary for statistical consulting will be reviewed.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered online. Credit not allowed for both STAA 555 and STAT 555.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

STAA 556 Statistical Consulting Credits: 2 (2-0-0)

Course Description: Effective consulting to meet with clients, analyze real data, and prepare reports.

Prerequisite: STAA 500 to 599 - at least 28 credits.

Registration Information: Written consent of instructor. This is a partial semester course. Sections may be offered: Online.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

STAA 561 Probability with Applications Credits: 2 (2-0-0)

Course Description: Random variables, continuous and discrete distributions, expectations, joint and conditional distributions, moments and moment generating functions, transformations, order statistics.

Prerequisite: MATH 369 or STAT 315.

Restriction: Must be a: Graduate.

Registration Information: Admission to the Master of Applied Statistics or admission to the Graduate Certificate in Theory and Applications of Regression Models. Written consent of instructor. This is a partial semester course. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

STAA 562 Mathematical Statistics with Applications Credits: 2 (2-0-0)

Course Description: Theory and applications of estimations, testing, and confidence intervals. Computer simulations, sampling from the normal distribution.

Prerequisite: STAA 561, may be taken concurrently or STAT 520.

Registration Information: Written consent of instructor. This is a partial-semester course.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

STAA 565 Quantitative Reasoning Credit: 1 (1-0-0)

Course Description: Confounding, types of bias such as selection bias and regression effect bias, Simpson's paradox, experiments versus observational studies.

Prerequisite: STAA 551 or STAR 512, may be taken concurrently or STAT 512.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. This is a partial semester course. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAA 566 Data Visualization Methods Credit: 1 (1-0-0)

Course Description: Principles of effective graphs, data visualization methods, grammar of graphics, multi-panel conditioning, exploratory data analysis using graphics, 3D plotting, ROC curves, data wrangling.

Prerequisite: STAA 551, may be taken concurrently or STAR 512, may be taken concurrently or STAT 512.

Restriction: Must be a: Graduate.

Registration Information: Admission to Master of Applied Statistics program or Graduate Certificate in Data Analysis. This is a partial semester course. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

STAA 567 Computational and Simulation Methods Credit: 1 (1-0-0)

Course Description: Statistical computation and simulation methods used to estimate probability distribution of non-standard test statistics, find estimators, test hypotheses, and compute confidence intervals. Optimization, bootstrapping, pivoting techniques.

Prerequisite: (STAA 551, may be taken concurrently or STAT 512, may be taken concurrently or STAT 540, may be taken concurrently) and (STAA 561, may be taken concurrently or STAT 511A or STAT 511B or STAT 520, may be taken concurrently).

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Written consent of instructor. This is a partial semester course. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

STAA 568 Topics Industrial/Organizational Statistics Credit: 1 (1-0-0)

Course Description: Six Sigma techniques, DMAIC, CT trees, VOC tools, data collection, process capability, capability metrics, graphical data exploration, and process control.

Prerequisite: (STAA 553, may be taken concurrently or STAR 512, may be taken concurrently or STAT 512) and (STAA 561 or STAR 511 or STAT 511A or STAT 520).

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. This is a partial semester course. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAA 571 Survey Statistics Credits: 2 (2-0-0)

Course Description: Survey design, simple random, stratified, and cluster samples. Estimation and variance estimation.

Prerequisite: (STAA 551 or STAT 540) and (STAA 562 or STAT 530).

Registration Information: Written consent of instructor. This is a partial semester course.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAA 572 Nonparametric Methods Credits: 2 (2-0-0)

Course Description: Rank-based methods, nonparametric inferential techniques, scatterplot smoothing, nonparametric function estimation, environmental applications.

Prerequisite: (STAA 551, may be taken concurrently or STAR 512, may be taken concurrently or STAT 512 and STAT 540, may be taken concurrently) and (STAA 561, may be taken concurrently or STAR 511, may be taken concurrently or STAT 511A or STAT 511B or STAT 520, may be taken concurrently).

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. This is a partial semester course.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

STAA 573 Analysis of Time Series Credits: 2 (2-0-0)

Course Description: Exploratory analysis of time series, including periodicity and trends, moving average and auto-regressive models, estimation and forecasting. Financial and environmental applications.

Prerequisite: (STAA 551, may be taken concurrently or STAT 540, may be taken concurrently) and (STAA 561, may be taken concurrently or STAT 520, may be taken concurrently).

Restriction: Must be a: Graduate.

Registration Information: Admission to Master of Applied Statistics program or Graduate Certificate in Data Analysis; students in the Graduate Certificate in Data Analysis require permission of the instructor. This is a partial semester course. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAA 574 Methods in Multivariate Analysis Credits: 2 (2-0-0)

Course Description: Multivariate ANOVA, principal components, factor analysis, cluster analysis, discrimination analysis.

Prerequisite: STAA 551, may be taken concurrently and STAA 561.

Registration Information: Written consent of instructor. This is a partial semester course.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAA 575 Applied Bayesian Statistics Credits: 2 (2-0-0)

Course Description: Bayesian analysis of statistical models, prior and posterior distributions, computing methods, interpretation.

Prerequisite: (STAA 552) and (STAA 562 or STAT 530) and (STAA 567).

Registration Information: Written consent of instructor. This is a partial semester course.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAA 576 Methods in Spatial Statistics Credits: 2 (2-0-0)

Course Description: Covariance estimation, covariance/variogram models, spatial regression models, spatial prediction, spatial point patterns.

Prerequisite: (STAA 552) and (STAA 561 or STAT 520).

Restriction: Must not be a: Graduate.

Registration Information: Graduate standing. Written consent of instructor. This is a partial semester course. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAA 577 Statistical Learning and Data Mining Credits: 2 (2-0-0)

Course Description: Applications-oriented overview into how to use statistical methods to do data mining, inference, and prediction.

Prerequisite: STAA 551, may be taken concurrently and STAA 561.

Registration Information: This is a partial semester course. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAA 578 Machine Learning Credits: 2 (2-0-0)

Course Description: K-means clustering, perceptron algorithm, evaluating model performance, neural networks, learning theory and dimension reduction.

Prerequisite: STAA 577, may be taken concurrently.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. This is a partial semester course. Sections may be offered: Online. Credit not allowed for both CS 545 and STAA 578.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Applied Statistics for Researchers (STAR)

STAR 501 Data Wrangling/Visualization for Researchers Credits: 2 (2-0-0)

Course Description: Data manipulation in R, importing and exporting data, variable transformation, converting dataset formats, generating summary statistics, principles of effective graphs, data visualization methods, exploratory data analysis using graphics, multi-panel plotting, high-density plotting, 3D plotting.

Prerequisite: STAR 511 or STAT 511A or STAT 511B.

Restriction: Must be a: Graduate.

Registration Information: Does not apply to Master of Applied Statistics program. Sections may be offered: Online. Credit not allowed for both STAR 501 and STAT 580A3.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAR 502 Multivariate Analysis for Researchers Credits: 2 (2-0-0)

Course Description: Multivariate ANOVA, principal components, factor analysis, cluster analysis, discriminant analysis.

Prerequisite: STAR 511 or STAT 511A or STAT 511B.

Restriction: Must be a: Graduate.

Registration Information: Does not apply to Master of Applied Statistics program. Sections may be offered: Online. Credit not allowed for both STAR 502 and STAT 581A4.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

STAR 511 Design and Data Analysis for Researchers I Credits: 4 (3-0-1)

Course Description: Statistical methods for experimenters and researchers emphasizing design and analysis of experiments.

Prerequisite: STAT 301 or STAT 307 or STAT 311 or STAT 315.

Registration Information: Must register for lecture and recitation.

Sections may be offered: Online. Credit not allowed for both STAR 511 and STAT 511A. Credit not allowed for both STAR 511 and STAT 511B.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

STAR 512 Design and Data Analysis for Researchers II Credits: 4 (3-0-1)

Course Description: Statistical methods for experimenters and researchers emphasizing design and analysis of experiments.

Prerequisite: STAR 511 or STAT 511A.

Registration Information: Must register for lecture and recitation.

Sections may be offered: Online. Credit not allowed for both STAR 512 and STAT 512.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

STAR 513 Regression Models for Researchers Credits: 2 (2-0-0)

Course Description: Model estimation and goodness of fit for linear models; confidence intervals for prediction and estimation; lack of fit, model diagnostics, transformations, model selection, influential observations, collinearity, interaction, polynomial regression, regression with dummy variables, weighted least squares, imputation.

Prerequisite: STAR 511 or STAT 511A or STAT 511B.

Restriction: Must be a: Graduate.

Registration Information: Does not apply to Master of Applied Statistics program. Sections may be offered: Online. Credit not allowed for both STAR 513 and STAT 581A3.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

STAR 514 Experimental Design/Analysis for Researchers Credits: 2 (2-0-0)

Course Description: Analysis of variance, covariance, randomized block, latin square, factorial, balanced and unbalanced designs. Applications to agriculture, biosciences. Implementation in R and JMP.

Prerequisite: STAR 511 or STAT 511A or STAT 511B.

Restriction: Must be a: Graduate.

Registration Information: Sections may be offered: Online. Credit not allowed for both STAR 514 and STAT 580A4.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

STAR 531 Generalized Regression Models for Researchers Credits: 2 (2-0-0)

Course Description: Categorical data analysis, estimation and testing for contingency tables, introduction to generalized linear models, logit and probit models for binary regression, extensions to nominal and ordinal multicategory responses, count data, Poisson and negative binomial regression, log-linear models.

Prerequisite: STAR 512 or STAR 513 or STAT 512.

Restriction: Must be a: Graduate.

Registration Information: Does not apply to Master of Applied Statistics program. Sections may be offered: Online. Credit not allowed for both STAR 531 and STAT 581A5.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

STAR 532 Mixed Models for Researchers Credits: 2 (2-0-0)

Course Description: Topics in linear models that have both fixed and random predictors: split-plot and related designs, mixed-effects factorials, repeated measures, random coefficients, and spatial models for designed experiments. Introduction to generalized linear and nonlinear mixed models.

Prerequisite: STAR 512 or STAR 514 or STAT 512.

Restriction: Must be a: Graduate.

Registration Information: Does not apply to Master of Applied Statistics program. Sections may be offered: Online.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

STAR 534 Machine Learning for Researchers Credits: 2 (2-0-0)

Course Description: K-means clustering, perceptron algorithm, evaluating model performance, neural networks, learning theory and dimension reduction.

Prerequisite: STAR 512 or STAR 513 or STAT 512.

Restriction: Must be a: Graduate.

Registration Information: Does not apply to Master of Applied Statistics program. Sections may be offered: Online.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

STAR 695 Independent Study in Applied Statistics Credits: Var[1-3] (0-0-0)

Course Description: Application of statistics to a student's specific research, guided by a statistician. Intended for students who are not in the Statistics department.

Prerequisite: STAR 511 or STAT 511A or STAT 511B.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor. Credit not allowed for both STAR 695 and STAT 681A1.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Statistics (STAT)

STAT 100 Statistical Literacy (GT-MA1) Credits: 3 (2-0-1)

Course Description: Learn to be an intelligent consumer of statistical information. Concepts of randomness and probability, variation, types of measurement, errors in measurement, experiments versus observational studies, Simpson's paradox, biases in statistical studies, p-value.

Prerequisite: None.

Restriction: Must be a: Undergraduate.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Quantitative Reasoning 1B, Mathematics (GT-MA1).

STAT 158 Introduction to R Programming Credit: 1 (1-0-0)

Course Description: Programming using the R Project for the Statistical Computing. Data objects, for loops, if statements, using packages.

Prerequisite: None.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 192 First-Year Seminar in Statistics Credit: 1 (0-0-1)

Course Description: Explore careers in statistics and the variety of problems encountered by statisticians.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 201 General Statistics (GT-MA1) Credits: 3 (2-0-1)

Course Description: Graphs, descriptive statistics, confidence intervals, hypothesis tests, correlation and simple regression, tests of association. Use JMP software to analyze data.

Prerequisite: None.

Registration Information: Must register for lecture and recitation.

Sections may be offered: Online. Credit not allowed for both STAT 201 and STAT 204.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

Additional Information: Quantitative Reasoning 1B, Mathematics (GT-MA1).

STAT 204 Statistics With Business Applications (GT-MA1) Credits: 3 (2-0-1)

Course Description: Statistical methods in business; descriptive methods, simple probability, sampling distributions, confidence intervals, hypothesis testing, correlation, simple and multiple regression, practical concerns in inference. Use Excel software to analyze data.

Prerequisite: None.

Registration Information: Must register for lecture and recitation.

Sections may be offered: Online. Credit not allowed for both STAT 201 and STAT 204.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Quantitative Reasoning 1B, Mathematics (GT-MA1).

STAT 301 Introduction to Applied Statistical Methods Credits: 3 (3-0-0)

Course Description: Statistical methods in science; descriptive methods, simple probability, sampling distributions, confidence intervals, hypothesis testing, statistical power, one-way ANOVA, correlation, simple and multiple regression, interaction, practical concerns in inference (e.g. interpreting p-values, publication bias), reading and evaluating statistical results in published papers and popular media. Emphasis on using software rather than hand calculation to conduct analyses.

Prerequisite: MATH 117 or MATH 118 or MATH 120 or MATH 124 or MATH 125 or MATH 126 or MATH 127 or MATH 141 or MATH 155 or MATH 159 or MATH 160.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: STAT 301, STAT 302A, STAT 307, or STAT 311.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option, Traditional.

Special Course Fee: No.

STAT 302A Statistics Supplement: General Applications Credit: 1 (1-0-0)

Course Description: Statistical power, one-way ANOVA, and multiple regression with indicator variables and interaction.

Prerequisite: STAT 201 with a minimum grade of B or STAT 204 with a minimum grade of B.

Registration Information: Credit allowed for only one of the following: STAT 301, STAT 302A, or STAT 381A1.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 303 Introduction to Communications Principles Credits: 3 (3-0-0)

Also Offered As: ECE 303.

Course Description: Basic concepts in design and analysis of communication systems.

Prerequisite: MATH 340, may be taken concurrently and MATH 261 with a minimum grade of C.

Registration Information: Sections may be offered: Online. Credit not allowed for both ECE 303 and STAT 303.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 305 Sampling Techniques Credits: 3 (3-0-0)

Course Description: Sample designs: simple random, stratified, systematic, cluster, unequal probability, two-phase; methods of estimation and sample size determination.

Prerequisite: STAT 301 or STAT 307 or ERHS 307 or STAT 311 or STAT 315.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

STAT 307 Introduction to Biostatistics Credits: 3 (3-0-0)

Course Description: Biostatistical methods; confidence intervals, hypothesis tests, simple correlation and regression, one-way analysis of variance.

Prerequisite: MATH 117 or MATH 118 or MATH 120 or MATH 124 or MATH 125 or MATH 126 or MATH 127 or MATH 141 or MATH 155 or MATH 160.

Registration Information: Credit allowed for only one of the following: STAT 301, STAT 307, or STAT 311.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

STAT 311 Statistics for Behavioral Sciences I Credits: 3 (3-0-0)

Course Description: Statistical literacy, quantitative reasoning, statistical methods in SPSS including ANOVA, regression, logistic regression, and categorical data.

Prerequisite: MATH 117 or MATH 118 or MATH 124 or MATH 125 or MATH 126 or MATH 127 or MATH 141 or MATH 155 or MATH 159 or MATH 160.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: ERHS 307, STAT 301, STAT 307, STAT 311 or STAT 315.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

STAT 312 Statistics for Behavioral Sciences II Credits: 3 (3-0-0)

Course Description: One-way analysis of variance, factorial designs, blocked designs, multiple comparisons of means, and multiple regression.

Prerequisite: STAT 311.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

STAT 315 Intro to Theory and Practice of Statistics Credits: 3 (3-0-0)

Course Description: Descriptive statistics, probability theory, random variables, sampling distributions, hypothesis testing, confidence intervals, ANOVA, simple and multiple regression. R software is utilized for analyzing real world data sets.

Prerequisite: MATH 155 or MATH 156 or MATH 159 or MATH 160.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 316 Games and Gambling Credit: 1 (1-0-0)

Course Description: Application of probability concepts to games of chance and gambling contests.

Prerequisite: STAT 315.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 331 Intermediate Applied Statistical Methods Credits: 3 (3-0-0)

Course Description: Covers applied regression methods, including: interaction; model assumptions and diagnostics, selection, and validation; penalized estimation; GLMs; mixed models; factorial ANOVA; ANCOVA. Also covers basic categorical data analysis and non-parametrics. Strong emphasis on application and interpretation; lesser emphasis on mathematics. Assignments involve reproducing analyses in published scientific papers and open ended data analysis projects. Data analyses are performed using JMP software.

Prerequisite: STAT 301 or STAT 315.

Registration Information: Credit not allowed for both STAT 331 and STAT 380A1.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 340 Multiple Regression Analysis Credits: 3 (3-0-0)

Course Description: Estimation and testing for linear, polynomial, and multiple regression models; analysis of residuals; selection of variables; nonlinear regression.

Prerequisite: STAT 301 or STAT 307 or ERHS 307 or STAT 311 or STAT 315.

Terms Offered: Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

STAT 341 Statistical Data Analysis I Credits: 3 (3-0-0)

Course Description: Estimation and inference based upon Gaussian linear regression models; residual analysis; variable selection; non-linear regression.

Prerequisite: (STAT 158) and (STAT 301 or STAT 307 or STAT 311 or STAT 315).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 342 Statistical Data Analysis II Credits: 3 (3-0-0)

Course Description: Single-factor analysis of variance models; multi-factor analysis of variance models; randomized block design; Latin squares; split-plot design.

Prerequisite: STAT 340 or STAT 341.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 350 Design of Experiments Credits: 3 (3-0-0)

Course Description: Analysis of variance, covariance; randomization; completely randomized, randomized block, latin-square, split-plot, factorial and other designs.

Prerequisite: STAT 301 or STAT 307 or ERHS 307 or STAT 311 or STAT 315.

Terms Offered: Fall, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

STAT 351 Sports Statistics and Analytics I Credits: 3 (3-0-0)

Course Description: Statistical methodology for sports data with emphasis on the unique aspects of analyzing sports data. Topics include summary statistics, probability, simulation, and statistical inference for sports data.

Prerequisite: (STAT 158) and (STAT 201 or STAT 204 or STAT 301 or STAT 307 or STAT 315).

Registration Information: Sections may be offered: Online. Credit not allowed for both STAT 351 and STAT 381A2.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 358 Introduction to Statistical Computing in SAS Credits: 2 (2-0-0)

Course Description: Statistical procedures and database operations using the SAS programming language.

Prerequisite: STAT 315 or STAT 341.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 384 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description: Participation as a statistics tutor.

Prerequisite: STAT 342.

Registration Information: Sophomore standing. Written consent of advisor. A maximum of 10 combined credits for all 384 and 484 courses are counted toward graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 400 Statistical Computing Credits: 3 (3-0-0)

Course Description: Computationally intensive statistical methods: optimization for statistical problems; simulation & Monte Carlo methods; resampling methods; smoothing.

Prerequisite: (CS 150 or CS 152 or CS 163 or CS 164) and (STAT 420, may be taken concurrently).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 420 Probability and Mathematical Statistics I Credits: 3 (3-0-0)

Course Description: Probability, random variables, distribution functions, and expectations; joint and conditional distributions and expectations; transformations.

Prerequisite: MATH 255 or MATH 261.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

STAT 421 Introduction to Stochastic Processes Credits: 3 (3-0-0)

Course Description: Modeling phenomena with stochastic processes and the simulation and analysis of stochastic process models.

Prerequisite: (MATH 229 or MATH 369) and (STAT 420).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 430 Probability and Mathematical Statistics II Credits: 3 (3-0-0)

Course Description: Theories and applications of estimation, testing, and confidence intervals, sampling distributions including normal, gamma, beta X-squared, t, and F.

Prerequisite: STAT 420.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

STAT 440 Bayesian Data Analysis Credits: 3 (3-0-0)

Course Description: Applied Bayesian data analysis, Bayesian inference and interpretation of results, computing methods including MCMC, model selection and evaluation.

Prerequisite: (STAT 315 or STAT 420) and (STAT 341).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 451 Sports Statistics and Analytics II Credits: 3 (3-0-0)

Course Description: Introduction to data collection, data management, data visualization, statistical and machine learning methods related to exploratory and predictive analysis of sports data. Real world examples from baseball, football, basketball, hockey, and soccer are covered.

Prerequisite: STAT 351.

Registration Information: Sections may be offered: Online. Credit not allowed for both STAT 380A2 and STAT 451.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 460 Applied Multivariate Analysis Credits: 3 (3-0-0)

Course Description: Principles for multivariate estimation and testing; multivariate analysis of variance, discriminant analysis; principal components, factor analysis.

Prerequisite: (STAT 341) and (DSCI 369 or MATH 229 or MATH 340 or MATH 369).

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

STAT 472 Statistical Research--Design, Data, Methods Credits: 3 (0-0-3)

Course Description: Statistical research skills including data analysis, problem solving, report writing, oral communication, and planning experiments.

Prerequisite: STAT 342.

Restriction: Must be a: Undergraduate.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 495 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

STAT 498 Undergraduate Research in Statistics Credits: Var[1-3] (0-0-0)

Course Description: Research skills and techniques; includes both oral and written communication of results.

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

STAT 500 Statistical Computer Packages Credit: 1 (0-2-0)

Course Description: Comparison, evaluation, and use of computer packages for univariate and multivariate statistical analyses.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Admission to the Master of Applied Statistics program or Theory and Applications of Regression Models certificate program. This is a partial semester course. Sections may be offered: Online.

Term Offered: Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

STAT 501 Statistical Science Credit: 1 (1-0-0)

Course Description: Overview of statistics theory; use in agriculture, business, environment, engineering; modeling; computing; statisticians as researchers/consultants.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

STAT 520 Introduction to Probability Theory Credits: 4 (4-0-0)

Course Description: Probability, random variables, distributions, expectations, generating functions, limit theorems, convergence, random processes.

Prerequisite: MATH 369 and MATH 261 and MATH 317.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

STAT 521 Stochastic Processes I Credits: 3 (3-0-0)

Course Description: Characterization of stochastic processes. Markov chains in discrete and continuous time, branching processes, renewal theory, Brownian motion.

Prerequisite: STAT 520.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 523 Quantitative Spatial Analysis Credits: 3 (3-0-0)

Also Offered As: NR 523.

Course Description: Techniques in spatial analysis: point pattern analysis, spatial autocorrelation, trend surface and spectral analysis.

Prerequisite: ERHS 307 or STAT 301 or STAT 307.

Registration Information: Credit not allowed for both STAT 523 and NR 523.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 524 Financial Statistics Credits: 3 (3-0-0)

Also Offered As: FIN 524.

Course Description: Probability and statistical concepts and quantitative tools used in financial modeling and decision-making.

Prerequisite: MATH 345 and STAT 420.

Registration Information: Admission to MSBA program with Financial Risk Management specialization can substitute for MATH 345. Credit not allowed for both STAT 524 and FIN 524. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 525 Analysis of Time Series I Credits: 3 (3-0-0)

Course Description: Trend and seasonality, stationary processes, Hilbert space techniques, spectral distribution function, fitting ARIMA models, linear prediction.

Prerequisite: STAT 430.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

STAT 530 Mathematical Statistics Credits: 3 (3-0-0)

Course Description: Sampling distributions, estimates, testing, confidence intervals, exact and asymptotic theories of maximum likelihood and distribution-free methods.

Prerequisite: STAT 520.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

STAT 540 Data Analysis and Regression Credits: 3 (3-0-0)

Course Description: Introduction to multiple regression and data analysis with emphasis on graphics and computing.

Prerequisite: STAT 300 to 481 - at least 6 credits.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 544 Biostatistical Methods for Quantitative Data Credits: 3 (3-0-0)

Also Offered As: ERHS 544.

Course Description: Regression and analysis of variance methods applied to both observational studies and designed experiments in the biological sciences.

Prerequisite: STAT 301 or STAT 307 or ERHS 307.

Registration Information: Credit not allowed for both STAT 544 and ERHS 544.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

STAT 547 Statistics for Environmental Monitoring Credits: 3 (3-0-0)

Also Offered As: CIVE 547.

Course Description: Applications of statistics in environmental pollution studies involving air, water, or soil monitoring; sampling designs; trend analysis; censored data.

Prerequisite: STAT 301.

Registration Information: Credit not allowed for both STAT 547 and CIVE 547. Sections may be offered: Online.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

STAT 555 Statistical Consulting Skills Credit: 1 (1-0-0)**Also Offered As:** STAA 555.**Course Description:** Skills necessary to collaborate with non-statisticians. Communicate both verbally and in writing with collaborators while honing in on study objectives and identifying measures and factors. Readings of selected papers and texts and mock client sessions and shadowing. Common statistical tools necessary for statistical consulting will be reviewed.**Prerequisite:** None.**Restriction:** Must be a: Graduate.**Registration Information:** Graduate standing. Sections may be offered online. Credit not allowed for both STAA 555 and STAT 555.**Term Offered:** Fall.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**STAT 556 Directed Statistical Consulting Credits: 2 (1-2-0)****Course Description:** Skills necessary to collaborate with non-statisticians, including project management, presentation, and technical writing. Serve in the walk-in consulting lab. Collaborate on a semester-long active CSU project identified by the instructor. Engage in all phases of the long-term project.**Prerequisite:** STAA 555 or STAT 555.**Restriction:** Must be a: Graduate.**Registration Information:** Graduate standing. Must register for lecture and laboratory.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**STAT 560 Applied Multivariate Analysis Credits: 3 (3-0-0)****Course Description:** Multivariate analysis of variance; principal components; factor analysis; discriminant analysis; cluster analysis.**Prerequisite:** STAT 520 and STAT 540.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**STAT 570 Nonparametric Statistics Credits: 3 (3-0-0)****Course Description:** Distribution and uses of order statistics; nonparametric inferential techniques, their uses and mathematical properties.**Prerequisite:** STAT 430.**Terms Offered:** Spring, Summer.**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.**STAT 586 Practicum in Consulting Techniques Credit: 1 (0-0-1)****Course Description:** Instruction on planning studies, writing reports, and interacting with clients. Attend and critique consulting sessions.**Prerequisite:** STAT 540.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**STAT 592 Seminar Credit: 1 (0-0-1)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**STAT 600 Statistical Computing Credits: 3 (3-0-0)****Course Description:** Optimization and integration in statistics; Monte Carlo methods; simulation; bootstrapping; density estimation; smoothing.**Prerequisite:** STAT 520 and STAT 540.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**STAT 604 Managerial Statistics Credits: 2 (2-0-0)****Also Offered As:** BUS 604.**Course Description:** Introduction to statistical thinking and methods used to support managerial decision making.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Admission to the MBA program. Credit not allowed for both STAT 604 and BUS 604.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**STAT 605 Theory of Sampling Techniques Credits: 3 (3-0-0)****Course Description:** Survey designs; simple random, stratified, cluster samples; theory of estimation; optimization techniques for minimum variance or costs.**Prerequisite:** (STAT 301 or STAT 307 or ERHS 307 or STAT 311 or STAT 315) and (STAT 430).**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring.**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.**STAT 620 Introduction to Measure Theoretic Probability Credits: 3 (3-0-0)****Course Description:** Introduction to rigorous probability theory in real Euclidean spaces based on a foundation of measure theory.**Prerequisite:** STAT 520.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**STAT 623 Spatial Statistics Credits: 3 (3-0-0)****Course Description:** Spatial autocorrelation, geostatistical models and kriging, analysis/modeling of point patterns, discretely-indexed spatial models.**Prerequisite:** STAT 430.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**STAT 630 Advanced Statistical Data Analysis Credits: 3 (3-0-0)****Course Description:** Advanced statistical modeling techniques and data analysis methods, including likelihood-based methods, M-estimation, bootstrap and EM algorithm, and other advanced topics. For example, Jackknife, permutation tests, and nonparametric statistics.**Prerequisite:** STAT 530 and STAT 620 and STAT 640.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Credit not allowed for both STAT 630 and STAT 680A2.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.

STAT 640 Design and Linear Modeling I Credits: 4 (4-0-0)

Course Description: Introduction to linear models; experimental design; fixed, random, and mixed models.

Prerequisite: MATH 369 and STAT 540.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

STAT 645 Categorical Data Analysis and GLIM Credits: 3 (3-0-0)

Course Description: Generalized linear models, binary and polytomous data, log linear models, quasilielihood, survival data models.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must have concurrent registration in STAT 640.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

STAT 650 Design and Linear Modeling II Credits: 3 (3-0-0)

Course Description: Mixed factorials; response surface methodology; Taguchi methods; variance components.

Prerequisite: STAT 640.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

STAT 670 Bayesian Statistics Credits: 3 (3-0-0)

Course Description: Bayesian statistical theory and applications, including Markov chain Monte Carlo methods which are used to facilitate inference for more complex statistical models.

Prerequisite: STAT 530, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 673 Hierarchical Modeling in Ecology Credits: 3 (3-0-0)

Also Offered As: FW 673.

Course Description: Hierarchical ecological modeling using common forms of data in fish and wildlife studies and emphasizing spatial and temporal aspects of analysis.

Prerequisite: ESS 575 or STAT 420.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both STAT 673 and FW 673.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

STAT 675A Topics in Statistical Methods: Sampling Credits:

Var[1-3] (0-0-0)

Course Description:

Prerequisite: STAT 430.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 684 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description: Guidance and instruction in effective teaching of college courses in statistics.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in M.S. or Ph.D. program in statistics.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

STAT 695 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

STAT 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

STAT 720 Probability Theory Credits: 3 (3-0-0)

Course Description: Measure theoretic probability, characteristic functions; convergence; laws of large numbers; central limit, extreme value, asymptotic theory.

Prerequisite: STAT 620.

Restriction: Must be a: Graduate, Professional.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 730 Advanced Theory of Statistics I Credits: 4 (4-0-0)

Course Description: Minimal sufficiency, maximal invariance; Neyman-Pearson theory; Fisher, Kullback-Leibler information; asymptotic properties of maximum-likelihood methods.

Prerequisite: STAT 530 and STAT 720.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 740 Advanced Statistical Methods Credits: 3 (3-0-0)

Course Description: Generalized additive models; recursive partitioning regression and classification; graphical models and belief networks; spatial statistics.

Prerequisite: STAT 640.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must have concurrent registration in STAT 730.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

STAT 792 Seminar Credit: 1 (0-0-1)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

STAT 793 Seminar on Advanced Statistical Methods Credits: 3 (0-0-3)**Course Description:****Prerequisite:** STAT 640.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Must have concurrent registration in STAT 730. May be taken up to two times for credit.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**STAT 795 Independent Study Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**STAT 796 Group Study Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**STAT 799 Dissertation Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Major in Statistics

Statistics is the science of modeling, summarizing, and analyzing data. Statisticians help people produce trustworthy data, analyze the data, and present the results in a useful manner. Statisticians work with people from other professional backgrounds to solve practical problems. They provide crucial guidance in determining what information is reliable and which predictions can be trusted. An exciting aspect of the field is the diversity of areas where statistical methods are used; this is one reason

for continuing strong demand for well-trained statisticians. With the popularity of big data and the focus on quantitative analysis in many fields, there will continue to be a high demand for graduates with a statistics major or minor. Students who succeed in the field of statistics typically have strong quantitative skills, analytical minds, and like to help other people solve problems.

Learning Outcomes

Students completing this program will be able to:

- Conceptualize analytical questions in terms of a model,
- Apply their knowledge of the core set of statistical methods,
- Perform data analysis using statistical software,
- Interpret and communicate statistical results,
- Either attend graduate school in statistics or find professional employment in a statistics field upon completion of a statistics major.

Potential Occupations

Statisticians find employment in a wide range of industries including medicine (evaluating new medicines and medical treatments), computing, business, market research, natural resources, government, industrial quality control, social science research, and more. Almost every industry has a statistician or a group of statisticians somewhere in the organization. Graduate school is also an option after graduation. Many of our undergraduate majors have continued on to graduate school in statistics, either at CSU or other universities. Almost all statistics majors are able to find work in this field and/or gain entrance to graduate school after successfully completing a statistics degree.

To learn more about a Major in Statistics please see our Advising page (<https://statistics.colostate.edu/advising/>), or contact us at stats@stat.colostate.edu.

Requirements Effective Fall 2022

A minimum grade of C (2.000) is required in each CS, DSCI, MATH, and STAT course required for the major.

Freshman

¹ Select upper-division (300- to 400-level) statistics, data science, mathematics, or computer science (excluding courses ending in -82 to -99).

² Select 400-level Statistics courses (excluding courses ending in -82 to -99).

³ Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major Completion Map

Distinctive Requirements for Degree Program:

To Prepare for First Semester: The Curriculum for the Statistics Major assumes students enter college prepared to take calculus. Entering students who are not prepared to take calculus will need to fulfill pre-calculus requirements in the first semester. A minimum grade of C (2.000) is required in all CS, DSCI, MATH, and STAT courses which are required by the major.

Minor in Statistics

Students with a minor in Statistics will receive training in statistical methods, tailored to the aspect of statistics that they choose to emphasize. The minor has 12 credits of electives, giving lots of flexibility in course choices. Statistical skills are in demand across a wide range of disciplines. A minor in statistics is a valuable complement to many majors in the physical, biological, Earth, social and human sciences. Statistical skills are also in high demand in most private industries and government organizations.

If you are interested a minor in Statistics, please see our advising page (<https://statistics.colostate.edu/advising/>) or contact our department at stats@stat.colostate.edu.

Requirements Effective Fall 2023

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

A minimum grade of C must be achieved in all STAT courses required for the minor in statistics.

Certificate in Sports Statistics and Analysis

The Certificate in Sports Statistics and Analytics will provide students with the knowledge and skills needed to work in the expanding field of sports analytics. Students will be able to acquire sports data using data scraping techniques and use these sports data to create graphical visualizations, generate summary statistics, build probabilistic models, assess hypothesis using statistical methods, create and evaluate regression models, implement machine learning algorithms, and present research findings in person and on paper.

Learning Outcomes

Upon successful completion, students will be able to:

1. Analyze the unique aspects of sports data and modeling sports data.
2. Acquire sports data using data scraping techniques and R packages.
3. Create graphical and visual summaries of sports data.
4. Utilize theory and methods from probability, statistics, and machine learning to analyze sports data.
5. Write summary and project reports related to unique sports datasets.

6. Orally present research findings related to sports analytics to a general audience.

Requirements Effective Fall 2023

Additional coursework may be required due to prerequisites.

Code	Title	Credits
STAT 351	Sports Statistics and Analytics I	3
STAT 451	Sports Statistics and Analytics II	3
Select one of the following:		3
STAT 331	Intermediate Applied Statistical Methods	
STAT 400	Statistical Computing	
STAT 421	Introduction to Stochastic Processes	
STAT 440	Bayesian Data Analysis	
STAT 460	Applied Multivariate Analysis	

Program Total Credits: 9

Graduate Certificate in Data Analysis

The Graduate Certificate in Data Analysis provides a solid background in data analysis using modern software for professionals or graduate students in diverse fields who are seeking a short-term program that will strengthen their statistical skills.

Effective Fall 2022

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Select 4 Credits from the following:		4
STAR courses 500-549		
Select 6 credits from the following:		6
ANEQ 565	Interpreting Animal Science Research	
BZ 578/MIP 578	Genetics of Natural Populations	
CIS 575	Applied Data Mining and Analytics in Business	
CIVE 547/ STAT 547	Statistics for Environmental Monitoring	
CIVE 622	Risk Analysis of Water/Environmental Systems	
ERHS 535	R Programming for Research	
NR 512	Spatial Statistical Modeling-Natural Resources	
STAR courses 500-549		

Program Total Credits: 10

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Theory and Applications of Regression Models

The Graduate Certificate in Theory and Applications of Regression Models covers applications of regression analysis, generalized regression models, probability and mathematical statistics and other topics in

statistical analysis. The focus is on the practical methods in regression analysis, understanding patterns and structure in data, and the explanation of findings.

Distinctive Requirements for Certificate: GSLL 3095 and GSLL 3096 (or STAT 500) are required skills courses and should be taken first. GSLL 3095 is intended not only as a review, but also as instruction in using the math skills in a statistical context. It does not replace the math prerequisites indicated. GSLL 3096 covers use of SAS and R programming. STAT 500 is a 1-credit version of GSLL 3096.

Effective Spring 2017

Additional coursework may be required due to prerequisites.

Select two credits from the following:		2
STAA 565	Quantitative Reasoning	
STAA 566	Data Visualization Methods	
STAA 567	Computational and Simulation Methods	
STAA 574	Methods in Multivariate Analysis	
Program Total Credits:		10

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Master of Applied Statistics, Plan C, Data Science Specialization

The Master of Applied Statistics, Plan C, Data Science Specialization emphasizes practical methods in statistics and data science, focusing on applications and computational aspects rather than theory. The goal of this degree is to enable students to start working as data scientists in business, industry, or government immediately after graduation. Students receive a strong background in statistical and business computing while completing this degree. Full-time students complete the M.A.S. degree in less than a year; however, this degree may also be completed part-time, either online or on campus. Students who succeed in the field of data science typically have strong quantitative skills, analytical minds, and like to help others solve problems.

Requirements Effective Fall 2021

Microbiology

College Programs

A concern for health and the diseases of animals and humans provides the unifying theme for the undergraduate, professional, and graduate programs of the College of Veterinary Medicine and Biomedical Sciences (CVMBS)—a manifestation of the concept of One Health. The College combines teaching, research, and public service activities in basic biomedical disciplines such as anatomy, neurobiology, physiology, microbiology, pathology, and radiological health sciences, with applied disciplines such as clinical veterinary medicine and surgery, diagnostic imaging, radiology, clinical laboratory sciences, epidemiology, and environmental health sciences. Graduates of the College in either the veterinary sciences or the biomedical sciences serve society in the broadest sense: they represent the concept that there is but “one

medicine” supporting “one health” with human and animal health intimately interrelated within their environments.

Major Courses of Study

The CVMBS offers undergraduate, professional, and graduate courses of study. There are two undergraduate programs leading to the Bachelor of Science, with majors in Biomedical Sciences and Neuroscience in partnership with the College of Natural Sciences. The Bachelor of Science degree requires a minimum of 120 credits with a minimum of 42 credits in upper-division courses. The four-year professional veterinary medical program leads to the Doctor of Veterinary Medicine degree; students in this program typically complete a baccalaureate degree prior to program admission. Graduate studies in each of the four departments of the college lead to Master of Science and Doctor of Philosophy degrees with selected professional master's programs serving emerging needs in society and through practitioner skill development.

Education Abroad

Education abroad programs are available to students in the CVMBS. Because the knowledge of at least one other culture is valuable in understanding our own, students are strongly encouraged to study outside the United States. Students interested in education abroad should plan far in advance by discussing opportunities with their academic advisor and by visiting the Office of International Programs (<http://international.colostate.edu>) in Laurel Hall.

Continuing and Distance Education

The CVMBS supports the veterinary profession by offering continuing education courses that enable practicing veterinarians to obtain new medical information and meet the Colorado Veterinary Practice Act continuing education requirements for re-licensure. The College shares responsibility for continuing education and maintains close liaison with the American Veterinary Medical Association (AVMA), the Colorado Veterinary Medical Association (CVMA), the Colorado Board of Veterinary Medicine, and the Western Interstate Commission for Higher Education (WICHE). Innovative programs like Health Professions preparation—for students finishing essential courses to prepare to pursue health professions—are offered through CSU Online.

Graduate Programs

Programs leading to the Master of Science and Doctor of Philosophy degrees are offered in all departments of the College.

Students with Bachelor of Science or Doctor of Veterinary Medicine (DVM) degrees, or well-qualified students who are currently pursuing veterinary medicine degrees, are eligible to study for advanced degrees in the Departments of Biomedical Sciences; Clinical Sciences; Environmental and Radiological Health Sciences; and Microbiology, Immunology, and Pathology.

The CVMBS and the College of Business have created a combined five-year **DVM-MBA** program of study that can result in earning both the Master of Business Administration (MBA) degree and the DVM degree. All applicants to the DVM program are encouraged to consider enhancing their veterinary education by including a one-year start to an MBA degree. This program allows selected students to start an MBA degree in the year prior to starting the DVM program. After successfully completing the first year of the MBA program, students will be guaranteed admission to the first year of the DVM program and will be expected to complete the remaining MBA course requirements concurrently with the first two years of the DVM curriculum. This program was undertaken to improve training of our students in veterinary practice management, business and

economics beyond what is currently offered as core content within the DVM curriculum.

Combining the expertise from public/environmental health and veterinary medicine and partnering with the Colorado School of Public Health (<http://publichealth.ucdenver.edu>), the College has created a five-year **DVM-MPH** program which provides specialty training in veterinary medicine and public health. Students spend the first year in the Master of Public Health (MPH) program, years two and three jointly in the DVM and MPH programs, and then years four and five focusing on completing the DVM requirements. Given the threats to public health from zoonotic diseases, changing ecosystems due to climate, and enhanced need for health professionals versed in the interplay of human, animal and environmental factors, DVM-MPH graduates bring a critical skill set to bear down on issues of significant public impact.

The CVMBS and the Department of Animal Sciences within the College of Agricultural Sciences have partnered in developing a **DVM-MS-Animal Sciences** five-year combined degree, aimed at offering robust training in livestock production, animal health, industry and economics to future livestock veterinarians. Students will be optimally equipped to provide animal health services, advise individuals within production units, provide leadership within professional organizations, and contribute to knowledge development through research. Students complete graduate coursework in Animal Sciences and initiate clinical/field research in the first year, then complete research requirements during the subsequent four years of DVM training.

There is a national need for veterinarians who can serve as the bridge between research and all aspects of animal health and welfare. The College has developed a seven-year **DVM-PhD** program that integrates clinical and research training to provide a dual degree to selected candidates. Numerous outstanding research opportunities exist in diverse areas that complement DVM training, including cancer biology, infectious disease, neurosciences, reproductive biology, epidemiology, orthopedic sciences, environmental health and toxicology. The typical DVM/PhD program progresses as follows:

- basic graduate study and laboratory rotations (year one)
- first two years of DVM training plus electives and graduate work (years two and three)
- exclusive research work in the PhD program (years four and five)
- completion of the DVM training (years six and seven)

For detailed information about CVMBS graduate programs, view the CVMBS (<https://vetmedbiosci.colostate.edu/degree-programs/graduate/>) (<http://csu-cvmbs.colostate.edu/academics/Pages/default.aspx>) website. Information on DVM combined degrees may be viewed on the DVM Program (<https://vetmedbiosci.colostate.edu/dvm/>) website.

Interdepartmental Program Doctor of Veterinary Medicine (DVM)

A four-year professional Doctor of Veterinary Medicine (DVM) program is offered annually to approximately 154 students. Each year, approximately 142 students are admitted to the DVM program located on the main CSU campus in Fort Collins, Colorado. Additionally, up to 14 students are admitted to the CSU-University of Alaska Fairbanks (UAF) 2+2 DVM Program. These students complete the first two years of the four-year program in Fairbanks, Alaska, and join the larger cohort to complete years three and four in Fort Collins. Students in the 2+2 Program graduate with a DVM degree from CSU, and enjoy unique opportunities at UAF in

small animal sports medicine, rural outreach, conservation, and wildlife medicine.

Because the number of applicants exceeds the number of students who can be admitted to any class, the members of the DVM Admissions Committee for the CVMBS carefully evaluate each applicant in a holistic manner to recommend those best qualified. Information concerning the academic program which leads to the DVM degree may be found in the Graduate and Professional Bulletin or online (<https://vetmedbiosci.colostate.edu/dvm/admission-requirements/>).

The full course of study requires four years beyond completion of the pre-veterinary requirements. While exceptional students may complete pre-veterinary requirements in two to three years and then be accepted into the DVM Program, it is much more common that students complete a baccalaureate degree or graduate degree, followed by four years in the professional program.

Pre-Veterinary Training for the Doctor of Veterinary Medicine Program

Students may complete pre-professional (pre-veterinary) training at any accredited institution whether these courses are part of a regularly offered baccalaureate program or whether the courses are taken as “stand alone” choices independent of a degree program. Courses must be substantially equivalent in subject content and level as offered for pre-veterinary students at CSU.

Inquiries regarding equivalent or substitute courses that may be taken *specifically* to meet pre-veterinary requirements should be directed to DVMAdmissions@colostate.edu. There is also a form for requests (Prerequisite Substitute Course Request (<https://vetmedbiosci.colostate.edu/dvm/admission-requirements/>)), which is submitted to DVMAdmissions@colostate.edu.

The minimum course requirements for admission to the DVM program, exclusive of electives, are:

- Arts, Humanities, Behavioral and Social Sciences – at least 12 semester credits. (The required credits for English composition explicit in most programs of study as all university requirements—see category that follows—do not fulfill these requirements.)
- Biological Sciences – at least 3 semester credits in genetics; 3 semester credits in cell biology; 3 semester credits in Systems Physiology; a laboratory associated with a biological science course
- Chemistry – at least 3 semester credits in biochemistry (requiring organic chemistry as a prerequisite) and a laboratory associated with a chemistry course.
- English Composition – at least 3 semester credits.
- Physics – at least 4 semester credits with laboratory.
- Statistics – at least 3 semester credits (upper-division course preferred).
- Additional Biomedical Science courses (upper division) - 9 credits

In addition to these minimum course requirements, 15 credits of elective courses are required. Highly recommended courses include anatomy, cell biology, developmental biology, histology, immunology, microbiology, nutrition, physiology, and computer science. These courses will enhance the student's preparation for the DVM program.

The pre-veterinary requirements include a total of 60 semester credits that must be completed prior to admission to the DVM program. Students may apply prior to completing all prerequisite requirements; however, in order to assure the most competitive application, one is

encouraged to have the majority of the prerequisites completed at the time of application. The large majority of students will complete the pre-veterinary requirements as part of a baccalaureate program. Exceptional students may apply for admission to the DVM program when only the pre-veterinary requirements are met.

Students who wish to pursue pre-professional veterinary medicine training (sufficient to meet minimum requirements to apply to the CSU DVM Program) through courses offered at CSU as part of their undergraduate degree program will find detailed information online (<https://vetmedbiosci.colostate.edu/dvm/admission-requirements/>).

Combined Degree Programs

CSU offers four combined degree programs, pairing the DVM with a graduate degree. These include the DVM-MBA, DVM-MPH, DVM-MS-Animal Sciences, and DVM-PhD. Please see "Graduate Programs" above for detailed information.

Food Animal Veterinary Career Incentive Program

There are many vacancies and numerous career opportunities in all sectors of private livestock practice, including mixed animal practice and specialty practices in dairy cattle, beef cow-calf, beef feedlots, sheep, small ruminants and swine. There are also many opportunities in public practice including food safety and inspection, communicable disease management, and regulatory veterinary medicine. Many practitioners and producers have found it difficult to recruit new graduates into food and fiber animal practice, especially in rural communities. Reduced veterinary participation in food and fiber production animal medicine may contribute to increased vulnerability of livestock industries to emerging infectious diseases, exotic and zoonotic diseases, public health risks from food safety and quality problems, lowered public confidence in animal agricultural products, as well as threats to the national economy. Thus, the overarching goal of the Food Animal Veterinary Career Incentive Program (FAVCIP) is to create a sustainable source of future veterinarians for underserved disciplines and geographic regions central to the future of safe and successful food and fiber animal production. This program includes a plan of academic work, experience, and mentoring that encompasses undergraduate and veterinary medical education and meets specific needs of animal agriculture through a cooperative venture of the CVMBBS and the Department of Animal Sciences in the College of Agricultural Sciences. It should be noted that DVM students who do not complete the FAVCIP may still focus coursework and clinical experiences on livestock medicine, especially in years three and four.

Undergraduate students with a strong interest in the discipline will be encouraged to follow the FAVCIP curriculum and program requirements (<https://vetmedbiosci.colostate.edu/dvm/special-degree-programs/>) as they complete their Bachelor of Science in Animal Science at CSU.

Doctor of Veterinary Medicine

A four-year professional program in veterinary medicine is offered annually to approximately 156 students. Each year, approximately 142 students are admitted to the DVM program located on the main CSU campus in Fort Collins, Colorado. Additionally, up to 14 students are admitted to the CSU-University of Alaska Fairbanks (UAF) 2+2 DVM program, completing the first 2 years of the 4-year program in Fairbanks, Alaska, and joining the larger cohort to complete years 3 and 4 in Fort Collins. These students graduate with a DVM degree from CSU and enjoy unique opportunities at UAF in small animal sports medicine, rural outreach, conservation, and wildlife medicine.

Because the number of applicants exceeds the number of students who can be admitted to any class, the members of the Admissions Committee for the CVMBBS carefully evaluate each applicant to recommend those best qualified. Information concerning the academic program which leads to the DVM degree may be found in the Graduate and Professional Bulletin or online (<https://vetmedbiosci.colostate.edu/dvm/admission-requirements/>).

The full course of study requires four years beyond completion of the pre-veterinary requirements. While exceptional students may complete pre-veterinary requirements in two to three years and then be accepted into the DVM program, it is much more common that students complete a baccalaureate degree or graduate degree, followed by four years in the professional program.

Requirements Effective Fall 2023

Major in Biomedical Sciences

The interdisciplinary Biomedical Science major (BMS) is designed to provide students in-depth training in the applied life sciences. The program prepares students for employment by public sector and government agencies, private industry, academic institutions, as well as graduate study in medicine, veterinary medicine, and related biomedical and health fields. Students will begin their studies with foundational science courses including biology, physics, general chemistry, organic chemistry, math, and statistics, and then choose an area of concentration (anatomy and physiology, environmental public health or microbiology and infectious disease) to tailor their educational experiences to specific career objectives.

The basic science curriculum meets many requirements for entrance into professional schools. Experiential learning opportunities are encouraged and could include participating in laboratory research, teaching/tutoring in selected courses, volunteer experiences and leadership positions within student club(s), study abroad, internships, and honors curriculum. These opportunities are encouraged with the student's interests and career goals as the focus.

Learning Outcomes

- Obtain a foundational knowledge in math and science and be able to integrate knowledge from the molecular to the systemic level
- Demonstrate critical thinking and the ability to analyze scientific data to solve complex problems as an individual and as a member of a team
- Demonstrate effective organization, leadership, and laboratory skills
- Demonstrate strong writing and oral communication skills necessary to communicate scientific knowledge to a range of audiences

Potential Occupations

A Bachelor of Science degree in Biomedical Sciences will provide students with a variety of opportunities for further study or employment

in the broad area of biomedical sciences. The coursework is designed to prepare students for health-related graduate and professional programs. Post-graduate opportunities will include additional studies in specialty areas of physiology such as neuroscience, reproductive endocrinology, cardiopulmonary, and patho-physiology. Employment opportunities can be found in government at the local, state, and national levels; research in a variety of settings such as university, industry, and private laboratories; education; administration and management; and industry such as biotechnology, pharmaceuticals, and medical devices. Students will be exposed to skill sets which are necessary in a competitive, ever changing job market.

Concentrations

- Anatomy and Physiology
- Environmental Public Health
- Microbiology and Infectious Disease

Major in Biomedical Sciences, Anatomy and Physiology Concentration

This program prepares students for a wide variety of opportunities which have a basis in cellular and molecular biology, human/animal anatomy and physiology. In addition to enrolling in required courses, students will have opportunities to engage in elective courses and laboratory research in specialty areas of endocrinology, pharmacology, pathophysiology, neurophysiology, reproductive physiology, and cardiopulmonary physiology. In this process, students are able to tailor their educational experiences to specific career objectives. The curriculum will prepare graduates to pursue further studies in professional schools for medicine, veterinary medicine, pharmacy, dentistry, and optometry, as well as other programs such as nursing, physician assistant and physical therapy. The Anatomy and Physiology concentration will also prepare students for graduate studies in animal and human health sciences as well as for employment in a variety of innovative and developing fields in biotechnology.

The basic science curriculum meets many requirements for entrance into professional schools. Experiential learning opportunities are encouraged and could include participating in laboratory research, teaching/tutoring in selected courses, volunteer experiences and leadership positions within student club(s), study abroad, internships, and honors curriculum. These opportunities are encouraged with the student's interests and career goals as the focus.

¹ See Concentration Elective notes directly above the course list.

² Select enough free electives at student's discretion to complete degree program of 120 credits. Enough upper division (300- and 400-level) credits must be taken to bring total number of upper division credits to 42.

Major Completion Map

Distinctive Requirements for Degree Program:

To Declare Major: competitive entry controls required and capped enrollment in place. Please contact Director of Student Success in the CVMBS Student Success Center for more information.

To Prepare for First Semester: The curriculum for the anatomy and physiology concentration assumes students enter college prepared to take calculus. Entering students who are not prepared to take calculus will need to fulfill pre-calculus requirements in the first semester. Those pre-calculus requirements are listed as benchmark courses in

Freshman Semester 1 below. LIFE 102 requires high school chemistry as a prerequisite; CHEM 111 requires Algebra II as a prerequisite (this prerequisite is met by having Algebra II by test credit, transfer credit, or placement out of MATH 117 and MATH 118 on Math Placement Exam.

Freshman

Semester 1		Critical	Recommended	AUCC	Credits

Major in Biomedical Sciences, Environmental Public Health Concentration

Environmental Public Health is a branch of public health that studies how biological, chemical, and physical factors in natural and built environments impact human health and disease. Students will learn how to help prevent injuries and disease by managing environmental hazards and promoting healthier air, water, soil, homes, workplaces, and communities. The EPH concentration within the Biomedical Sciences major is one of only 28 programs nationwide to be fully accredited by the standards of the **National Environmental Health Science and Protection Accreditation Council**, and the only such program in Colorado.

Students begin their studies with foundational science courses in biology, physics, general chemistry, organic chemistry, biochemistry, microbiology, physiology, math, and statistics, and then use these basic sciences as tools to solve environmental public health problems. Students are involved in actual and simulated field projects with data gathering and analysis, characterization of environmental public health problems, evaluation of alternative solutions, and presentation of results in written and oral formats. All Environmental Public Health students complete a professional internship for academic credit with a private sector company or public health agency.

Special Opportunities:

- A capstone internship which allows students to put their coursework into practice under the guidance of a qualified mentor. A pre-internship seminar course prepares students in the essentials of resume & cover letter writing, interviewing, networking and securing the internship.
- Access to exclusive internships for students from accredited EPH programs, such as National Environmental Public Health Internship Program (<https://www.neha.org/nephip/>) and the US Public Health Service JRCOSTEP (<https://www.usphs.gov/students/>).
- EPH in Mexico summer study abroad program (<https://myedabroad.colostate.edu/?FuseAction=Programs.ViewProgramAngular&id=12188>) at CSU's Todos Santos campus, offering Water Quality and Air & Waste Management courses
- BS & MPH dual degree program which offers the opportunity to earn your bachelor's degree and the Master of Public Health degree (<https://publichealth.colostate.edu/dual-degree/bs-mp/>) in 5 years.
- BS & MS dual degree program which offers the opportunity to earn your bachelor's degree and the Master of Science in Radiological Health, Health Physics specialization (<https://vetmedbiosci.colostate.edu/degree-programs/graduate/ms-radiological-health/health-physics/>) in 5 years.

Potential Occupations:

Occupations of Environmental Public Health alumni include, but are not limited to: environmental public health specialist, industrial hygienist, toxicologist, epidemiologist, air quality analyst, water quality manager, pollution prevention specialist, hazardous and solid waste specialist, occupational safety specialist, radiation safety officer, disaster assistance team leader, emergency manager, environmental consultant, and health educator. In addition, Environmental Public Health is excellent preparation for entry into medical school, veterinary school and other health-related professional programs as well as masters and PhD programs in a variety of scientific disciplines.

Requirements Effective Fall 2022

Freshman

		AUCC	Credits
CHEM 111	General Chemistry I (GT-SC2)	3A	4
CHEM 112	General Chemistry Lab I (GT-SC1)	3A	1
CHEM 113	General Chemistry II		3
CHEM 114	General Chemistry Lab II		1
CO 150	College Composition (GT-CO2)	1A	3
ERHS 220	Environmental Health		3
LIFE 102	Attributes of Living Systems (GT-SC1)	3A	4
MIP 260	The World of Parasites		3
VMBS 100	Introduction to Biomedical Sciences Major		2

Select a minimum of 3 credits from the following:

3-4

MATH 118	College Algebra in Context II (GT-MA1)	1B
MATH 124	Logarithmic and Exponential Functions (GT-MA1)	1B
MATH 125	Numerical Trigonometry (GT-MA1)	1B
MATH 126	Analytic Trigonometry (GT-MA1)	1B
MATH 155	Calculus for Biological Scientists I (GT-MA1)	1B
MATH 160	Calculus for Physical Scientists I (GT-MA1)	1B

Total Credits**27-28****Sophomore**

ERHS 230	Environmental Health Field Methods		3
MIP 300	General Microbiology		3
MIP 302	General Microbiology Laboratory		2

Select one course from the following:

4

BMS 300	Principles of Human Physiology
BMS 360	Fundamentals of Physiology

Select one course from the following:

5

PH 121	General Physics I (GT-SC1)	3A
PH 141	Physics for Scientists and Engineers I (GT-SC1)	3A

Select one course from the following:

3

STAT 301	Introduction to Applied Statistical Methods
STAT 307	Introduction to Biostatistics

Select one group from the following:

8

Group A

CHEM 245	Fundamentals of Organic Chemistry
CHEM 246	Fundamentals of Organic Chemistry Laboratory
CHEM 338 or ERHS 448	Environmental Chemistry Environmental Contaminants

Group B

CHEM 341	Modern Organic Chemistry I
CHEM 343	Modern Organic Chemistry II
CHEM 344	Modern Organic Chemistry Laboratory

Social and Behavioral Sciences

3C

3

Total Credits**31****Junior**

Total Credits					17
Program Total Credits:					120

Major in Biomedical Sciences, Microbiology and Infectious Disease Concentration

Microbiology is the study of organisms, many of which are too small to be seen with the naked eye, including fungi, protists, and bacteria, as well as acellular agents such as viruses and prions. Microbiology emerged as a distinct science in the late nineteenth century, with the discovery that microorganisms are the cause of many infectious diseases, and that they play essential roles in ecosystems (such as the microbiome) and in industrial processes. Much work in this field is directed toward the cure, control, or eradication of disease in humans and animals, as well as understanding how microbes support health and life. Genetically engineered microorganisms can also be used for the production of improved foods, new drugs and vaccines, and for removing toxic wastes and spills from the environment. Unfortunately, some microbes have received considerable attention as potential agents of bioterrorism and biowarfare, and consequently much work is being done to counter such threats.

Students completing the undergraduate Biomedical Sciences degree program with a concentration in Microbiology and Infectious Diseases acquire knowledge and laboratory skills in the structure, physiology, genetics, pathogenicity, ecology, and taxonomy of microorganisms, as well as immunological techniques. Students engage in authentic hypothesis-driven research problems in inquiry-based laboratory courses. Required courses in biological sciences, chemistry, physics, and mathematics support the major. Ample opportunities exist for undergraduates to obtain laboratory research experience and many student researchers have presented at conferences and have been awarded research grants or fellowships.

A Bachelor of Science degree in Biomedical Sciences with a concentration in Microbiology and Infectious Disease prepares graduates well for continued education in a professional or graduate degree program or for employment in the field.

Learning Outcomes

- **Core Knowledge:** Students will apply and integrate the fundamentals of chemistry, microbial biology, and biochemistry and key principles from the following five core areas of the discipline: immunology, bacteriology, virology, microbial physiology, and microbial genetics.
- **Relevance/Impact:** Students will demonstrate an awareness of issues at the forefront of the discipline and will evaluate the important interaction between microbes and society, from their beneficial use in industrial, biotechnological, and clinical applications to their role as etiologic agents of infectious disease in humans and animals.
- **Communication Skills:** Students will assimilate factual and conceptual information and effectively communicate disciplinary knowledge to both science literate and general audiences through written or verbal presentations.
- **Laboratory Skills:** Students will demonstrate proficiency using microbiological and immunological laboratory techniques employed in clinical, industrial, and research laboratories, and will be able to explain the principles behind the procedures, employ mathematical computations, properly execute the procedures, interpret the results correctly, and analyze the results to draw a conclusion.

Potential Occupations

The curriculum, with the proper selection of departmental electives, meets the requirements for entrance into most professional programs in veterinary and human medicine, and is ideal preparation for students desiring a career as a veterinarian, physician, physician assistant, pharmacist, medical laboratory scientist, optometrist, or dentist. The degree also prepares students for graduate (PhD or MS) studies in various biological sciences, and also provides students with the knowledge and skills to go directly into a career. Career opportunities will continue to grow because microbiology is at the center of complex issues facing our world today, as well as at the forefront of fast-paced innovation and development. Employment opportunities exist in biotechnology (vaccine and therapeutics, pharmaceutical, food, beverage, and medical device industries); government public health agencies (CDC, FDA, and state and municipal health departments); and primary research institutions, such as universities.

For more information about the Microbiology & Infectious Disease concentration under the Biomedical Sciences Major, please visit the College of Veterinary Medicine and Biomedical Sciences (<https://vetmedbiosci.colostate.edu/degree-programs/undergraduate/>).

Concentration Electives

Code	Title	Credits
Select a minimum of 18 credits from the following not taken elsewhere in the program. CHEM 343 may count as a Concentration Elective for students who select organic chemistry Group B in the Sophomore year.		
A minimum of two laboratory courses MUST be selected from the following:		
MIP 150	Introduction to Research Methods	
MIP 335	Food Microbiology Laboratory	

MIP 343	Immunology Laboratory
MIP 352	Medical Bacteriology Laboratory
MIP 401	Laboratory Research Methods in Microbiology
MIP 425	Virology and Cell Culture Laboratory
MIP 433/ESS 433	Microbial Ecology Laboratory
MIP 462/ BSPM 462/BZ 462	Parasitology and Vector Biology
MIP 550	Microbial and Molecular Genetics Laboratory

Two unique courses (for a maximum of 6 credits) may be selected from the following:

MIP 298	Introductory Research	
MIP 384	Supervised College Teaching	
MIP 495	Independent Study	
MIP 498	Research	
ANEQ 460	Meat Safety	2
BC 404	Comprehensive Biochemistry Laboratory	2
BC 463	Molecular Genetics	3
BMS 301	Human Gross Anatomy	5
BMS 302	Laboratory in Principles of Physiology	2
BMS 305	Domestic Animal Gross Anatomy	4
BMS 325	Cellular Neurobiology	3
BMS 330	Microscopic Anatomy	4
BMS 345	Functional Neuroanatomy	4
BMS 401	Laboratory Research in Biomedical Sciences	4
BMS 420	Cardiopulmonary Physiology	3
BMS 450	Pharmacology	3
BMS 460	Essentials of Pathophysiology	3
BSPM 302	Applied and General Entomology	2
BZ 220	Introduction to Evolution	3
BZ 310	Cell Biology	4
BZ 333	Introductory Mycology	4
BZ 350	Molecular and General Genetics	4
BZ 360	Bioinformatics and Genomics	4
BZ 418	Ecology of Infectious Diseases	4
CHEM 334	Quantitative Analysis Laboratory	1
CHEM 335	Introduction to Analytical Chemistry	3
CHEM 343	Modern Organic Chemistry II ¹	3
ERHS 220	Environmental Health	3
ERHS 320	Environmental Health–Water Quality	3
ERHS 332	Principles of Epidemiology	3
ERHS 340	Cancer Biology, Medicine, and Society	2
ERHS 350	Principles of Occupational Safety and Health	3
ERHS 410	Environmental Health-Air and Waste Management	3
ERHS 430	Human Disease and the Environment	3
ERHS 446	Environmental Toxicology	3
ERHS 448	Environmental Contaminants	3
ERHS 502	Fundamentals of Toxicology	3
ERHS 567	Cell and Molecular Toxicology Techniques	3
FTEC 360	Brewing Processes	4
FTEC 460	Brewing Science II	4
FTEC 574	Current Issues in Food Safety	2

SOCR 456	Soil Microbiology Laboratory	1

VS 331	Histology	4
VS 333	Domestic Animal Anatomy	4

¹ CHEM 343 may count as a Concentration Elective for students who select organic chemistry Group B in the Sophomore year.

² Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major Completion Map

Distinctive Requirements for Degree Program:

To Declare Major: competitive entry controls required and capped enrollment in place. Please contact Director of Student Success in the CVMBS Student Success Center for more information.

To prepare for first semester: The curriculum for the microbiology and infectious disease concentration assumes students enter college prepared to take MATH 124. Entering students who are not prepared to take MATH 124 will need to prerequisite requirements in the first semester. Those requirements are listed as benchmark courses in Freshman Semester 1 below. LIFE 102 requires high school chemistry as a prerequisite; CHEM 111 requires Algebra II as a prerequisite (this prerequisite is met by having Algebra II by test credit, transfer credit, or placement out of MATH 117 and MATH 118 on Math Placement Exam).

Freshman

Program Total Credits:			120

Department of Biomedical Sciences

Professor Bret Smith, Department Head

Undergraduate Majors

- Major in Biomedical Sciences
 - Anatomy and Physiology Concentration
 - Environmental Public Health Concentration
 - Microbiology and Infectious Disease Concentration
- Major in Neuroscience
 - Behavioral and Cognitive Neuroscience Concentration
 - Cell and Molecular Neuroscience Concentration

Minor

- Minor in Biomedical Sciences

Graduate Graduate Programs in Biomedical Sciences

Graduate programs lead to the Master of Science and Doctor of Philosophy degrees in Biomedical Sciences. Students interested in graduate work should refer to the Graduate and Professional Bulletin or the Department of Biomedical Sciences (<https://vetmedbiosci.colostate.edu/bms/>).

Master's Programs

- Master of Science in Biomedical Sciences, Plan A
- Master of Science in Biomedical Sciences, Plan B
- Master of Science in Biomedical Sciences, Plan B, Anatomical and Physiological Sciences Specialization

Office in H120 Anatomy/Zoology Building
(970) 491-6187
vetmedbiosci.colostate.edu/bms/ (<https://vetmedbiosci.colostate.edu/bms/>)

- Master of Science in Biomedical Sciences, Plan B, Reproductive Technology Specialization

Ph.D.

- Ph.D. in Biomedical Sciences

Courses

Biomedical Sciences (BMS)

BMS 192 First Year Seminar in Biomedical Sciences Credit: 1 (0-0-1)

Course Description: The university and its resources, college survival skills, careers in the biomedical sciences; current issues in health and biotechnology.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 200 Concepts in Human Anatomy and Physiology Credit: 1 (0-0-1)

Course Description: Basic concepts in the anatomy and physiology of the human body.

Prerequisite: None.

Registration Information: Must have concurrent registration in BMS 300.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 260 Biomedical Sciences Credits: 3 (2-0-1)

Course Description: Opportunities and challenges in biomedical sciences; business of science, ethics, model systems, cellular and systemic physiology.

Prerequisite: LIFE 102.

Registration Information: Must register for lecture and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 296 Honors--Physiological Concepts Credit: 1 (0-0-1)

Course Description: Honors breakout session integrating physiological concepts for students in BMS 260.

Prerequisite: None.

Registration Information: Must have concurrent registration in BMS 260.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 300 Principles of Human Physiology Credits: 4 (4-0-0)

Course Description: Physiology of humans.

Prerequisite: (BZ 101 or BZ 110 or LIFE 102) and (CHEM 103 or CHEM 107 or CHEM 111).

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 301 Human Gross Anatomy Credits: 5 (3-2-1)

Course Description: Structure and function of the human body. Study of prosected human cadavers; clinical applications; living anatomy.

Prerequisite: BZ 110 or LIFE 102.

Registration Information: Must register for lecture, laboratory, and recitation.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

BMS 302 Laboratory in Principles of Physiology Credits: 2 (1-3-0)

Course Description: Basic physiology lab exercises.

Prerequisite: BMS 300, may be taken concurrently or BMS 360, may be taken concurrently.

Registration Information: Must register for lecture and laboratory. Credit not allowed for both BMS 302 and BMS 320.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

BMS 304 Applied Food and Fiber Animal Anatomy Credits: 3 (1-2-1)

Course Description: Provide functional knowledge of anatomy for major food and fiber animals. Describe major diseases affecting these animals, and communicate with producers and veterinarians about the animals and their care.

Prerequisite: BZ 110 or LIFE 102.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing. Must register for lecture, lab, and recitation. Credit not allowed for both BMS 304 and BMS 380A2.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

BMS 305 Domestic Animal Gross Anatomy Credits: 4 (3-3-0)

Course Description: Comparative gross anatomy of domestic carnivores, ruminants, and horses.

Prerequisite: BZ 110 or LIFE 102.

Registration Information: Must register for lecture and laboratory. Credit not allowed for both BMS 305 and VS 333.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

BMS 310 Anatomy for the Health Professions Credits: 4 (3-3-0)

Course Description: Gross anatomy of the human body from a regional perspective, utilizing clinical applications as a basis for anatomical understanding.

Prerequisite: LIFE 000 to 499 - at least 3 credits.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 320 Virtual Laboratory in Physiology Credits: 2 (0-4-0)

Course Description: Physiology lab exercises using a virtual laboratory simulation system.

Prerequisite: BMS 300, may be taken concurrently or BMS 360, may be taken concurrently.

Registration Information: Credit not allowed for both BMS 320 and BMS 302. Offered as an online course only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 325 Cellular Neurobiology Credits: 3 (3-0-0)

Course Description: Cellular and molecular bases of nervous system function and behavior.

Prerequisite: BMS 300 or BMS 360.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 330 Microscopic Anatomy Credits: 4 (3-3-0)

Course Description: Microscopic anatomy of mammalian tissue.

Prerequisite: BMS 300 or BMS 360.

Registration Information: Must register for lecture and laboratory. Credit not allowed for both BMS 330 and VS 331.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 345 Functional Neuroanatomy Credits: 4 (3-2-0)

Course Description: Functional systems and circuits of the human brain and spinal cord.

Prerequisite: BMS 300 or BMS 360.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

BMS 360 Fundamentals of Physiology Credits: 4 (4-0-0)

Course Description: Cell, tissue, and organ function related to integrated whole body function.

Prerequisite: (BZ 110 or LIFE 102) and (CHEM 245, may be taken concurrently or CHEM 341, may be taken concurrently).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 384 Supervised College Teaching Credits: Var[1-5] (0-0-0)

Course Description: Supervision by and work with graduate teaching assistants in small group learning sessions involving students enrolled in BMS 300.

Prerequisite: BMS 300 or BMS 360.

Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 400 Neuroanatomy Through Clinical Case Studies Credit: 1 (0-0-1)

Course Description: Neuroanatomical case studies to reinforce and apply information gained in BMS 345, Functional Neuroanatomy.

Prerequisite: BMS 345, may be taken concurrently.

Registration Information: Biomedical sciences majors only. Required field trips.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 401 Laboratory Research in Biomedical Sciences Credits: 4 (0-9-1)

Course Description: Hands-on experience in laboratory research methods for students working individually on a project which stems from a larger research project of a faculty member's laboratory. All students will work in the same facility equipped with appropriate equipment and supplies to conduct the student research proposal.

Prerequisite: BMS 300 or BMS 360.

Registration Information: Must register for laboratory and recitation.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 405 Nerve and Muscle-Toxins, Trauma and Disease Credits: 3 (3-0-0)

Course Description: Structure, composition, function of nerves and muscles, etiology of genetic and autoimmune neuromuscular diseases, alteration by toxins and nerve gas.

Prerequisite: BMS 325 or BMS 345.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 409 Human and Animal Reproductive Biology Credits: 3 (3-0-0)

Course Description: Basis for male and female reproductive function in humans and animals.

Prerequisite: BMS 300 or BMS 360.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 420 Cardiopulmonary Physiology Credits: 3 (3-0-0)

Course Description: Normal and pathophysiology of cardiovascular and pulmonary systems.

Prerequisite: BMS 300 or BMS 360.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 421 Perspectives in Cardiopulmonary Diseases Credits: 2 (1-0-1)

Course Description: Pathophysiology of cardiopulmonary diseases.

Prerequisite: BMS 420, may be taken concurrently.

Registration Information: Must register for lecture and recitation. Biomedical sciences majors only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 425 Introduction to Systems Neurobiology Credits: 3 (3-0-0)

Course Description: Functional organization of the nervous system at the circuit level in producing simple and complex behaviors, sensations and cognition.

Prerequisite: BMS 325.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 430 Endocrinology Credits: 3 (3-0-0)

Course Description: Physiology of the glands of internal secretion.

Prerequisite: BMS 300 or BMS 360.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 450 Pharmacology Credits: 3 (3-0-0)

Course Description: Pharmacologic principles, absorption, distribution, metabolism, excretion, side effects, and actions of drugs.

Prerequisite: (BMS 300 or BMS 360) and (BC 351 or LIFE 210).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 460 Essentials of Pathophysiology Credits: 3 (3-0-0)

Course Description: Integration of different facets of mechanisms underlying health and disease.

Prerequisite: BMS 300 or BMS 360.

Registration Information: Biomedical sciences majors only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 461 Pathophysiology Perspectives Credits: 2 (0-0-2)

Course Description: Capstone course in pathophysiology for biomedical sciences majors.

Prerequisite: BMS 460, may be taken concurrently.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 487 Internship Credits: Var[1-6] (0-0-0)

Course Description: Work/research experience with an approved preceptor outside of a university laboratory.

Prerequisite: None.

Registration Information: Written consent of department required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 495 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 496A Honors: Human Gross Anatomy Credits: Var[1-3] (0-0-0)

Course Description: Honors breakout session for students in Human Gross Anatomy.

Prerequisite: BMS 301, may be taken concurrently.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 496B Honors: Physiology Lab Credits: Var[1-3] (0-0-0)

Course Description: Honors breakout session for students in Physiology Lab.

Prerequisite: BMS 302, may be taken concurrently.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 496C Honors: Physiology Case Studies Credits: Var[1-3] (0-0-0)

Course Description: Honors breakout session for students in Physiology Case Studies.

Prerequisite: BMS 360, may be taken concurrently.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 496D Honors: Animal Gross Anatomy Credits: Var[1-3] (0-0-0)

Course Description: Honors breakout session for students in Animal Gross Anatomy.

Prerequisite: BMS 305, may be taken concurrently.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 498 Research Credits: Var[1-3] (0-0-0)

Course Description: Faculty-directed research in biomedical sciences.

Prerequisite: BMS 300 or BMS 360.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 500 Mammalian Physiology I Credits: 4 (4-0-0)

Course Description: Cell physiology of nerve, skeletal, cardiac and smooth muscle with an emphasis on how cellular functions integrate into systems behavior.

Prerequisite: BMS 300 or BMS 360.

Registration Information: Credit not allowed for both BMS 500 and NB 501. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 501 Mammalian Physiology II Credits: 4 (4-0-0)

Course Description: Respiratory, renal, digestive, endocrine, metabolic, and reproductive function.

Prerequisite: BMS 300 or BMS 360.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 502 Readings in Cellular Neurobiology Credit: 1 (0-0-1)

Also Offered As: NB 500.

Course Description: Faculty directed exploration of key literature in the neurosciences.

Prerequisite: (BZ 100 to 481 - at least 1 course or BIO 100 to 481 - at least 1 course or LIFE 100 to 481 - at least 1 course) and (BC 100 to 481 - at least 1 course and PH 100 to 481 - at least 1 course) and (MATH 141 or MATH 155 or MATH 160 to 161 - at least 1 course or MATH 255 or MATH 261) and (BMS 325) and (BMS 500, may be taken concurrently or NB 501, may be taken concurrently).

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Senior standing. Written consent of instructor. Credit not allowed for both BMS 502 and NB 500.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 503 Developmental Neurobiology Credits: 3 (3-0-0)

Also Offered As: NB 503.

Course Description: Molecular mechanisms involved in development of nervous system including differentiation, growth, pathfinding, and synaptogenesis.

Prerequisite: (BIO 100 to 481 or BZ 100 to 481 or LIFE 100 to 481) and (BC 100 to 481 and PH 100 to 481) and (MATH 141 or MATH 155 or MATH 160 to 161 or MATH 255 or MATH 261).

Registration Information: Credit not allowed for both BMS 503 and NB 503.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 505 Neuronal Circuits, Systems and Behavior Credits: 3 (3-0-0)

Also Offered As: NB 505.

Course Description: Anatomical and physiological organization of the nervous system.

Prerequisite: BMS 325 or BMS 500 or NB 501.

Registration Information: Credit not allowed for both BMS 505 or NB 505.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 521 Comparative Reproductive Physiology Credits: 3 (3-0-0)

Course Description: A comparative overview of reproduction in vertebrates (focusing on mammals) emphasizing both conserved and species-specific aspects of physiology.

Prerequisite: BMS 300 or BMS 360.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 531 Domestic Animal Dissection Credits: 3 (0-9-0)

Course Description: Dissection of domestic animals.

Prerequisite: BMS 305.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

BMS 540 Assisted Reproductive Technologies Lab I Credits: 3 (1-6-0)

Course Description: Principles and fundamental skills of assisted reproduction technologies, including sterile methods for collecting and culturing oocytes, in vitro fertilization and embryo culture.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Admission to the Master of Science in Biomedical Sciences, Plan B, Reproductive Technology Specialization. Must register for lecture and laboratory. Credit not allowed for both BMS 540 and BMS 580A2.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 541 Assisted Reproductive Technologies Lab II Credits: 3 (1-6-0)

Course Description: Principles and fundamental skills needed for assisted reproductive technologies, including advanced techniques for splitting, obtaining biopsies from and transferring embryos; as well as learning the latest industry techniques for collecting, staining, manipulating and labeling embryos.

Prerequisite: BMS 540.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Admission to the Master of Science in Biomedical Sciences, Plan B, Reproductive Technology Specialization. Must register for lecture and laboratory. Credit not allowed for both BMS 541 and BMS 580A3.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 545 Neuroanatomy Credits: 5 (3-4-0)

Course Description: Nervous system structure and function presented from a systems perspective; applied and comparative aspects are emphasized.

Prerequisite: None.

Registration Information: Written consent of instructor required. Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

BMS 575 Human Anatomy Dissection Credits: 4 (0-8-0)

Course Description: Regional approach to human gross anatomy through laboratory dissection of human cadaver.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

BMS 610A Managing a Career in Science: Survival Skills for Coursework (M.S.) Credit: 1 (1-0-0)

Course Description: Survival skills for professionals. How to succeed in science, including writing, teaching, speaking; finding the right job.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 610B Managing a Career in Research: Survival Skills for Research (M.S. and Ph.D.) Credit: 1 (1-0-0)

Course Description: Survival skills for professionals. How to succeed in science, including improving writing, teaching, speaking; finding the right job.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 619 Advanced Human Gross Anatomy Credits: 2 (0-0-2)

Course Description: Clinical application of human anatomy through case-based study.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

BMS 631 Mechanisms of Hormone Action Credits: 2 (2-0-0)

Course Description: Synthesis, secretion, and mechanisms of action of hormones.

Prerequisite: BMS 430 or BMS 501.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

BMS 632 Metabolic Endocrinology Credits: 2 (2-0-0)

Course Description: Endocrine regulation of metabolic homeostasis; effects of exercise or pregnancy.

Prerequisite: BMS 631.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

BMS 633 Domestic Animal Anatomy-Case Discussions Credits: 2 (0-0-2)

Course Description: Clinical case discussions utilized in advanced understanding of domestic animal anatomy and physiology.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must have concurrent registration in BMS 531.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 640 Reproductive Physiology and Endocrinology Credits: 4 (4-0-0)

Course Description: Reproductive physiology and endocrinology of vertebrate animals.

Prerequisite: BMS 501.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

BMS 642 Research Techniques for Gametes and Embryos Credit: 1 (0-3-0)

Course Description: Collection, storage, evaluation, in vitro manipulation, and replacement of sperm, oocytes, embryos, and other reproductive tissues.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Biomedical Sciences graduate program required.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 643 Applied Andrology Credits: 2 (1-3-0)

Course Description: The male side of reproduction including the development of the male reproductive tract, hormonal control of the tract and spermatogenesis, fundamentals of spermatogenesis and seminal plasma and the physiology of sperm. Current methods for collecting, analyzing, cryopreserving and preparing sperm for either artificial insemination or in vitro fertilization.

Prerequisite: BMS 300 or BMS 360 or BMS 409.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory. Credit not allowed for both BMS 643 and BMS 680A2.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 692 Seminar-Classics in Neurosciences Credit: 1 (0-0-1)

Course Description: Review of classic papers in the neurosciences.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Biomedical Sciences graduate program required.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 695A Independent Study: Developmental Anatomy Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 695B Independent Study: Microscopic Anatomy Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 695C Independent Study: Neuroanatomy Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 695D Independent Study: Radiographic Anatomy Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 695E Independent Study: Surgical Anatomy Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 695F Independent Study: Gross Anatomy Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 696 Group Study-Neurosciences Credits: Var[1-3] (0-0-0)

Course Description: Current topics in neuroscience; how to evaluate scientific presentations.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

BMS 742 Ethical Issues in Human Assisted Reproduction Credit: 1 (1-0-0)

Course Description: Journal club style seminar focusing on ethical issues that arise around assisted reproductive techniques in humans. Open discourse around controversial topics ranging from genetic modification of embryos to LGBTQIA reproductive rights.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both BMS 742 and BMS 780A1.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BMS 784 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 792A Seminar: Biomedical Sciences Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 792B Seminar: Neurophysiology Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 792C Seminar: Reproductive Physiology Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 795A Independent Study: Endocrinology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 795B Independent Study: Neurophysiology Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 795C Independent Study: Cell Physiology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 795D Independent Study: Cardiopulmonary Physiology Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 795E Independent Study: Reproductive Physiology Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 796A Group Study: Topics in Neuroscience Credits: Var[1-4] (0-0-0)

Also Offered As: NB 796C.

Course Description: Faculty-directed exploration of areas of special interest in neuroscience.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor. May not be taken concurrently with NB 796C.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

BMS 796B Group Study: Cardiopulmonary Physiology Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Major in Neuroscience

Molecular, Cellular and Integrative Neurosciences Special Academic Unitmcin.colostate.edu/Undergrad (<http://mcin.colostate.edu/Undergrad/>)

Assistant Professor Phillip L. Quirk, Undergraduate Program Director

Office in:

Physiology 228

1680 Campus Delivery

970-491-6408

The Molecular, Cellular and Integrative Neuroscience Special Academic Unit offers an interdisciplinary undergraduate degree program with faculty in five different colleges and ten departments. Two different concentrations are offered as programs of study: Behavioral and Cognitive Neuroscience and Cell and Molecular Neuroscience. Both concentrations have a strong foundation in mathematics, physics, chemistry and biological sciences that utilize a common core for the first two years, differing in only a single course for each concentration, thus making it easy to switch between concentrations if a student's interest changes during the first two years. Both concentrations require completion of an undergraduate thesis, providing significant opportunities for experiential learning in research laboratories in which they work closely with faculty, and which sometimes lead to authorship of original publications. Electives allow students in one concentration to acquire breadth and depth in the other area, if desired.

Learning Outcomes

Students will obtain:

- A command of basic concepts in chemistry, physics, biology, biochemistry, molecular biology, and cellular biology as well as a more in-depth understanding of the structure and function of the nervous system.
- An understanding of how the brain works, from molecules to the mind, and how its function becomes disrupted in diseases and following brain injury.

- The ability to critically analyze and present the methods, results, and conclusions of scientific papers in the current neuroscience literature, and orally present technical material in a clear and comprehensible form.
- Experience in the use of a variety of laboratory techniques, ability to critically interpret experimental results, and ability to design new experiments.
- The ability to perform original research or to critically analyze published work to advance an understanding of a specific area of neuroscience by preparing and defending an undergraduate thesis.

Potential Occupations

Possible career opportunities for students with a B.S. in Neuroscience include, but are not limited to: research technician, medical or clinical lab technologist, production/quality assurance lab technician, pharmaceutical research worker or salesperson, human resource specialist, neurotoxicology technician, teacher, writer, and research analyst. Many Neuroscience majors go to professional schools in medicine, veterinary medicine, or health sciences, or into graduate programs encompassing virtually all areas of biomedical sciences and psychology.

Concentrations

- **Behavioral and Cognitive Neuroscience Concentration**
- **Cell and Molecular Neuroscience Concentration**

Major in Neuroscience, Behavioral and Cognitive Neuroscience Concentration

Overview

The Behavioral and Cognitive Neuroscience concentration integrates an understanding of neuroanatomy with the mechanisms of sensation/perception and learning/memory, generally applied to human behavior. Its focus is at the functional level of neuronal systems and networks. It differs from classical psychology in providing a more in-depth cellular and molecular basis for understanding behavior and neurological disorders that influence behavior. Graduates with this concentration are well prepared for many graduate and professional degree programs in health professions, as well as for careers in a variety of clinical settings, non-profit disease oriented foundations, and private sector organizations in either research-related or human resource service-related positions.

Major in Neuroscience, Cell and Molecular Neuroscience Concentration

The Cell and Molecular Neuroscience (CMN) concentration integrates neuroanatomy with the cellular and molecular basis of nervous system function. Its focus is to understand cellular processes in neurons and glia at the molecular level. It differs from degree programs in biochemistry or biomedical sciences by its specific focus on the nervous system. Required courses in microbiology, immunology, biochemistry, and advanced cell biology provide an excellent background for students interested in pursuing careers in medicine or biomedical research through graduate or professional schools. However, graduates with this concentration should also be well qualified for any positions in academia, government or the private sector where knowledge of cell and molecular processes is required, whether or not it is applied to the nervous system.

Students in the CMN Concentration with strong research interests and a GPA of 3.250 or above may qualify for early entry into the M.S. degree

program in Biochemistry while pursuing the B.S. degree program in Neuroscience. Early entry requires that students have identified a faculty member willing to mentor them in their laboratory research for the M.S. degree and that they have obtained permission from the Neuroscience program and the Department of Biochemistry and Molecular Biology to apply to the graduate school for this. Students can apply to the graduate program (allowing them access to courses above those at the 500 level) during the semester that they complete 75 or more credits. Students will be moved from undergraduate to graduate standing the semester after they complete 120 or more credits. At that time they begin paying graduate tuition and fees and will lose all undergraduate institutional and scholarship aid, but they can qualify for many graduate assistantships and fellowships. Both degrees can be awarded during the same semester but the M.S. degree cannot be awarded before completing the requirements of the B.S. degree.

Minor in Biomedical Sciences

The minor in Biomedical Sciences provides students with a useful complement to majors in Animal Science, Biochemistry, Biological Science, Health and Exercise Science, Human Development and Family Studies, Neuroscience, Psychology, and other biomedical science areas. The program offers a variety of courses which serve to broaden the background of students pursuing professional careers in biomedical sciences, human and veterinary medicine, and a variety of health-related disciplines. Candidates begin the program with a course in physiology. The remainder of the required 21 credits is selected to complement the student's educational goals and interests.

Requirements Effective Fall 2018

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

A minimum grade of C (2.000) in either BMS 300 or BMS 360 will be required for those students who are seeking to graduate with a minor in biomedical sciences.

Master of Science in Biomedical Sciences, Plan A

The traditional Master of Science in Biomedical Sciences, Plan A is a research-based program and typically takes two to three years to complete. While less comprehensive than a Ph.D., students complete a meaningful and original research project, which culminates in writing and defending a thesis. This option is designed for motivated students who have the ability to develop critical thinking skills and conduct research in one of the three primary areas of study in our department: cardiovascular physiology, reproductive physiology, and neurobiology. Visit the Department of Biomedical Sciences (<http://csu-cvmb.colostate.edu/academics/bms/Pages/master-science-biomedical-sciences.aspx>) for more information.

Master of Science in Biomedical Sciences, Plan B, Anatomical and Physiological Sciences Specialization

The Master of Science in Biomedical Sciences, Plan B, Anatomical and Physiological Sciences Specialization, is a one-year, non-thesis, coursework-intensive program, with an emphasis on upper-division and graduate-level coursework in gross anatomy, physiology, and neurobiology. The program can be completed in one year, culminating in written comprehensive exams. It was created to provide increased academic strength to students who aspire to attend professional school; however, it also serves students pursuing various careers in the biomedical sciences by providing them a solid biomedical foundation which can be applied to many career paths. Students must choose one of the following options to focus their studies: human anatomy, neurobiology, or animal anatomy. Visit the Department of Biomedical Sciences (<https://vetmedbiosci.colostate.edu/degree-programs/>)

graduate/ms-biomedical-sciences/anatomical-and-physiological-sciences/) for more information.

Master of Science in Biomedical Sciences, Plan B, Reproductive Technology Specialization

The Master of Science in Biomedical Sciences, Plan B, Reproductive Technology Specialization is a one-year, non-thesis study of Assisted Reproductive Technologies (ART), culminating in writing a scholarly paper based on a research project or reproductive topic and the completion of an internship. It provides students with in-depth laboratory training in *in vitro* embryo production based on a bovine model, including techniques such as *in vitro* fertilization, embryo and semen cryopreservation and vitrification, embryo biopsy and micromanipulation, and basic maintenance of an assisted reproduction laboratory and all associated equipment. The curriculum prepares students for careers in applied reproduction, especially careers in human or bovine embryology, as well as application to professional or graduate school. Visit the Department of Biomedical Sciences (<https://vetmedbiosci.colostate.edu/degree-programs/graduate/ms-biomedical-sciences/assisted-reproductive-technologies/>) for more information.

BMS 500	Mammalian Physiology I	
BMS 501	Mammalian Physiology II	
Select one course from the following:		1
BMS 610A	Managing a Career in Science: Survival Skills for Coursework (M.S.)	
GRAD 544	Ethical Conduct of Research	
Selected Courses		
Select 6-8 credits from the following: (No more than 4 credits at the 300- or 400-level will count toward the master's degree) ³		6-8

ANEQ 510	Bovine Reproduction Management
BC 463	Molecular Genetics
BMS 430	Endocrinology
BMS 501	Mammalian Physiology II
BMS 631	Mechanisms of Hormone Action
BMS 632	Metabolic Endocrinology
BMS 640	Reproductive Physiology and Endocrinology
BZ 455	Human Heredity and Birth Defects
CM 666/PHIL 666	Science and Ethics
FW 465	Managing Human-Wildlife Conflicts
FW 469	Conservation and Management of Large Mammals
FW 555	Conservation Biology
STAR 511	Design and Data Analysis for Researchers I
VS 626	Infertility and Genital Disease

Required Scholarly Paper ²

Program Total Credits	30
------------------------------	-----------

A minimum of 30 credits are required to complete this program.

¹ Students must undertake an extensive laboratory project or internship working with oocyte culture IVF, embryo development, or cryopreservation.

² Students must complete a scholarly paper detailing their extensive laboratory project or internship BMS 795E.

³ Select additional courses with advisor approval.

Ph.D. in Biomedical Sciences

The Ph.D. in Biomedical Sciences is research-based and typically takes five to six years to complete, culminating in writing and defending a dissertation. This option is more comprehensive in scope than the research-based master's degree and is designed for motivated students who have the ability to develop critical thinking skills and conduct original research in one of the three primary areas of study in the Department of Biomedical Sciences: cardiovascular physiology, reproductive physiology, and neurobiology. Visit the Department of Biomedical Sciences (<https://vetmedbiosci.colostate.edu/degree-programs/graduate/phd-biomedical-sciences/>) for more information.

Requirements Effective Fall 2021

Dissertation		
BMS 799	Dissertation	Var
Program Total Credits:		72

A minimum of 72 credits are required to complete this program.

¹ Select courses with approval of advisor and graduate committee.

Department of Clinical Sciences

Office in Veterinary Teaching Hospital, 300 West Drake Road, Room A201
(970) 297-1274
vetmedbiosci.colostate.edu/cs/ (<https://vetmedbiosci.colostate.edu/cs/>)

Professor Wayne Jensen, Department Head

Faculty in the Department of Clinical Sciences participate in training professional veterinary medical students and graduate students. For the veterinary medical student curriculum, students are instructed in the diagnosis, medical and surgical treatment, and prevention and management of domestic and exotic animal diseases. Through field service clinical experience, students receive on-the-farm training in livestock herd health management and production medicine. Our major clinical training center is the Veterinary Teaching Hospital, which operates state-of-the-art primary and referral services in all areas of small animal medicine and surgery, equine, and agricultural animal clinical care.

Undergraduate

No undergraduate major is offered.

Graduate Graduate Programs in Clinical Sciences

Graduate programs offered in the department lead to Master of Science or Doctor of Philosophy degrees. Particular research focus areas within the department include epidemiology, musculoskeletal diseases, cancer biology, cardiovascular diseases, regenerative medicine, and infectious diseases of animals.

The department also offers a three-year combined master's degree and residency program in large and small animal surgery, anesthesiology, cardiology, dentistry, internal medicine, neurology, oncology, ophthalmology, dermatology, small and large animal sports medicine and rehabilitation, large and small animal theriogenology, and emergency and critical care medicine. These training programs

partially fulfill requirements for board certification in these specialties. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Clinical Sciences (<https://vetmedbiosci.colostate.edu/cs/>).

Master's Program

- Master of Science in Clinical Sciences

Ph.D.

- Ph.D. in Clinical Sciences*

* Please see department for program of study.

Courses Clinical Sciences (VS)

VS 301 Human-Animal Interactions Credits: 3 (1-0-2)

Course Description: Explore various topics and current research related to human-animal interactions.

Prerequisite: None.

Registration Information: Completion of AUCC Category 2. Must register for lecture and recitation. Offered as an online course only. Credit not allowed for both VS 280A1 and VS 301.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

VS 310 Communication Skills for Animal Professions Credits: 3 (3-0-0)

Course Description: Professional training and specifically tailored communication skills designed to meet the needs of animal professionals.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

VS 331 Histology Credits: 4 (3-2-0)

Course Description: Analysis of animal cells, tissues, and organs emphasizing light microscopy.

Prerequisite: LIFE 102.

Registration Information: Must register for lecture and laboratory. Credit not allowed for both VS 331 and BMS 330. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

VS 333 Domestic Animal Anatomy Credits: 4 (3-3-0)

Course Description: Comparative functional anatomy of the dog, horse, and cow.

Prerequisite: BZ 110 or LIFE 102.

Registration Information: Must register for lecture and laboratory. Credit not allowed for both VS 333 and BMS 305. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

VS 401 Human Animal Interactions Credits: 3 (3-0-0)

Course Description: Roles animals play in society, and the impact of human and animal relationships.

Prerequisite: None.

Registration Information: Completion of AUCC Category 2. Offered as an online course only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

VS 410 Pets Forever – Supporting the Life-Long Bond Credits: 3 (1-4-0)

Course Description: Opportunity to engage with older adults and individuals with disabilities and their companion animals. Enrichment of students' experience through the opportunity to gain community service experience.

Prerequisite: HDFS 101 or PSY 100 or SOWK 110.

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

VS 478 Biology and Behavior of Cats Credits: 3 (3-0-0)

Also Offered As: BZ 478.

Course Description: Comprehensive inquiry into how aspects of physiology, neurobiology, development and genetics influence the behavior of domestic cats. Evolution and domestication are explored as contextual reference for some behavior problems, and differentiated from true abnormal behavior. Emphasis is on interpreting scientific experiments in feline biology.

Prerequisite: BZ 220.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit not allowed for both BZ 478 and VS 478.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

VS 479 Biology and Behavior of Dogs Credits: 3 (3-0-0)

Also Offered As: BZ 479.

Course Description: Interactions of physiology, neurobiology, and genetics on behavior of domestic dogs, and how evolution and domestication influence behavioral traits.

Prerequisite: BZ 220.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit not allowed for both BZ 479 and VS 479.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

VS 495 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

VS 510 Cancer Biology Credits: 3 (3-0-0)**Also Offered As:** ERHS 510.**Course Description:** Cancer biology will address each of the hallmarks of cancer, including sustained proliferative signaling, evasion of growth suppression, invasion and metastasis, replicative immortality, angiogenesis, resisting cell death, genome instability and mutation, tumor promoting inflammation, deregulation of cellular energetics and avoidance of immune destruction. Lectures will integrate the biology behind these hallmarks with strategies for the treatment and prevention of cancer.**Prerequisite:** BC 351 or BC 403, may be taken concurrently or BZ 310 or CM 501.**Registration Information:** Credit not allowed for both ERHS 510 and VS 510.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**VS 533 Epidemiology of Infectious Diseases/Zoonoses Credits: 3 (2-0-1)****Also Offered As:** MIP 533.**Course Description:** Epidemiologic features of infectious and parasitic diseases that have a major impact on community medicine.**Prerequisite:** MIP 300.**Registration Information:** Must register for lecture and recitation. Credit not allowed for both MIP 533 and VS 533.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**VS 562 Applied Data Analysis Credits: 3 (3-0-0)****Course Description:** Data management, application and interpretation of statistical analysis, and reporting of results for students in health science fields.**Prerequisite:** STAT 301 or STAT 307.**Registration Information:** Credit not allowed for VS 562, EDRM 606 and PBHL 560.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**VS 570 Issues in Animal Agriculture Credits: 2 (2-0-0)****Also Offered As:** AGRI 570.**Course Description:** Issues that have a major impact on the direction of changes in animal agriculture.**Prerequisite:** None.**Registration Information:** Credit not allowed for both VS 570 and AGRI 570.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**VS 579 Applied Animal Behavior Credits: 4 (3-2-0)****Also Offered As:** NSCI 579.**Course Description:** How animals learn, perceive their work, and behave, and how all of those intersect to alter behavior in managed care.**Prerequisite:** BZ 300 or BZ 478 or BZ 479.**Restriction:** Must not be a: Freshman, Sophomore.**Registration Information:** Junior standing. Must register for lecture and laboratory. Sections may be offered: Online. Credit not allowed for both NSCI 579 and VS 579.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**VS 600 Clinical Correlations in Large Animal Med Credit: 1 (1-0-0)****Course Description:** Comprehensive review of selected medical diseases of both equine and livestock species in a case based format. Develop an advanced understanding of the pathophysiology, diagnosis, treatment and prevention of these diseases and become familiar with the pertinent primary literature of the last three years.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Online or Mixed Face-to-Face.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**VS 602 Scientific Evaluation of Medical Literature Credits: 2 (1-0-1)****Course Description:** Method of evaluating scientific literature. Designed as a practical, rather than theoretical, approach to a literature search. Encourages research of scientific publications. The different sources of databases available and the methods of retrieving the literature are addressed.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Must register for lecture and recitation.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**VS 605 Comparative Anesthesiology Credits: 2 (2-0-0)****Course Description:** Techniques in anesthesia for large and small animals.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring (every third year).**Grade Mode:** Traditional.**Special Course Fee:** No.**VS 606 Comparative Anesthesiology Laboratory Credit: 1 (0-3-0)****Course Description:** Techniques in anesthesia for large and small animals.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Must have concurrent registration in VS 605.**Term Offered:** Spring (every third year).**Grade Mode:** Traditional.**Special Course Fee:** No.**VS 612 Plastic and Reconstructive Surgery Credits: 2 (2-0-0)****Course Description:** Advances in surgical patient care, surgical instrumentation, and reconstruction.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** DVM degree or equivalent professional medicine degree.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**VS 613 Plastic and Reconstructive Surgery Laboratory Credit: 1 (0-3-0)****Course Description:** Advances in surgical patient care, surgical instrumentation, and reconstruction.**Prerequisite:** VM 786B.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.

VS 626 Infertility and Genital Disease Credits: 2 (2-0-0)

Course Description: Infectious and noninfectious causes of reproductive failure in food animals.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

VS 628 Physiology and Pathophysiology Credits: 3 (3-0-0)

Course Description: Overview of the normal physiology and pathophysiology of disease states of mammalian organ systems.

Prerequisite: BMS 500 and BMS 501.

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as Mixed Face-to-Face. DVM degree or equivalent professional medicine degree can substitute for BMS 500; BMS 501.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

VS 630 Orthopedic Surgery Credits: 3 (3-0-0)

Course Description: Techniques, devices, and prosthetic materials in rehabilitating musculoskeletal problems.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

VS 631 Orthopedic Surgery Laboratory Credit: 1 (0-3-0)

Course Description: Procedures applied to skeletal preparations and living animals.

Prerequisite: (VM 786A or VM 786B) and (VS 630, may be taken concurrently).

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

VS 642 Ophthalmology Credits: 5 (4-2-0)

Course Description: Instrumentation, ocular therapeutics, and clinical ophthalmology.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

VS 644 Principles of Theriogenology Credits: 2 (2-0-0)

Course Description: Provide basic and practical understanding of reproduction in domestic species. Including the anatomy and physiology of males and females, gamete development, fertilization, embryonic development, parturition and early neonatal care; focusing on domestic animals. In addition to basic normal physiology, characteristic disease states and potential treatments will be discussed, as well as methods for improving reproductive capabilities, such as artificial insemination and embryo transfer.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

VS 645 Surgery of the Eye Credits: 3 (2-3-0)

Course Description: Techniques, indications, and complications.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

VS 648 Food Animal Production and Food Safety Credits: 2 (2-0-0)

Also Offered As: VM 648.

Course Description: Basic orientation to food animal production units, herd health concepts, and issues of food safety from preharvest through processing and distribution.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Enrollment in Food Science/Safety Graduate Interdisciplinary Studies program required. Credit not allowed for both VS 648 and VM 648.

Term Offered: Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

VS 650 Comparative Abdominal Surgery Credits: 3 (3-0-0)

Course Description: New techniques in surgery of abdominal viscera.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

VS 651 Comparative Abdominal Surgery Laboratory Credit: 1 (0-3-0)

Course Description: Reparative and reconstructive abdominal surgical procedures.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: DVM degree or equivalent professional medicine degree.

Term Offered: Fall (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

VS 655A Veterinary Echocardiography: Fundamentals Credits: 2 (1-3-0)

Course Description: Fundamentals of small animal veterinary echocardiographic skills and interpretation are covered.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to professional curriculum in veterinary medicine. Must register for lecture and laboratory.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

VS 655B Veterinary Echocardiography: Advanced Topics Credits: 3 (3-0-0)

Course Description: High level analysis of echocardiographic techniques and applications in the clinical setting.

Prerequisite: VS 655A.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to professional curriculum in veterinary medicine.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

VS 660 Neurology and Neurosurgery Credits: 3 (3-0-0)

Course Description: Diagnostic and surgical techniques for the nervous system.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

VS 661 Neurology and Neurosurgery Laboratory Credit: 1 (0-2-0)

Course Description: Laboratory practice of comparative neurology (large and small animal), neurosurgical techniques and procedures.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course. DVM degree or equivalent professional medicine degree required.

Term Offered: Spring (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

VS 665A Advanced Topics in Veterinary Cardiology: Cardiopulmonary Pathophysiology Credits: 3 (3-0-0)

Course Description: The pathobiology, advanced diagnostics, and treatment strategies for animals and humans with spontaneous cardiovascular disease.

Prerequisite: BMS 420.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

VS 665B Advanced Topics in Veterinary Cardiology: Heart Failure and Cardiac Biomarkers Credits: 2 (2-0-0)

Course Description: Review of the pathophysiology of heart failure. Discuss the diagnostic and therapeutic approach to heart failure. Clinical trial design will be reviewed prior to summarizing recent clinical trial results in humans and dogs.

Prerequisite: BMS 420.

Restriction: Must be a: Graduate, Professional.

Registration Information: DVM degree or equivalent professional medicine degree required, or by instructor permission.

Term Offered: Fall (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

VS 665C Advanced Topics in Veterinary Cardiology: Invasive Catheterization & Hemodynamics Credits: 2 (2-0-0)

Course Description: Technical aspects of cardiac catheterization, focusing on pathophysiologic data that can be obtained during invasive catheterization procedures and interventional treatment options available.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

VS 665D Advanced Topics in Veterinary Cardiology: Cardiac Electrophysiology & Arrhythmias Credits: 2 (2-0-0)

Course Description: Advanced review of cardiac electrophysiology including ion channels, action potentials, cardiac conduction, automaticity, and cellular mechanisms of arrhythmogenesis. Interpretation of electrocardiogram and cardiac arrhythmia diagnosis in animals and humans. Basic principles of treatment of cardiac interventions including electrophysiology studies and interventions.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both VS 665D and VS 680A1.

Term Offered: Fall (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

VS 665E Advanced Topics in Veterinary Cardiology: Cardiovascular Imaging Credits: 2 (2-0-0)

Course Description: Highlight the pathobiology, advanced diagnostics, and treatment strategies for animals with spontaneous cardiovascular disease.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: DVM degree or equivalent professional medicine degree required, or by instructor permission.

Term Offered: Spring (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

VS 665F Advanced Topics in Veterinary Cardiology: Congenital Heart Disease Credits: 2 (2-0-0)

Course Description: Overview and in-depth analysis of congenital malformations of the heart and great vessels in veterinary species, with comparison to the same diseases in humans. Complex lesions are emphasized, with a focus on pathophysiology, diagnostic findings, and therapeutic interventions.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

VS 673 Thoracic and Cardiovascular Surgery Credits: 3 (3-0-0)

Course Description: Surgical approaches to the thorax and the central and peripheral cardiovascular system.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: DVM degree or equivalent professional medicine degree required.

Term Offered: Fall (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

VS 674 Thoracic and Cardiovascular Surgery Lab Credit: 1 (0-3-0)

Course Description: Surgical procedures applied to the chest, heart, and vessels.

Prerequisite: (VM 786A or VM 786B) and (VS 673, may be taken concurrently).

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

VS 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

VS 701 Postgraduate Medicine I Credits: Var[1-3] (0-0-0)

Course Description: Comprehensive review, update of immunology, emergency medicine, dermatology, and endocrinology.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

VS 702 Postgraduate Medicine II Credits: Var[1-3] (0-0-0)

Course Description: Comprehensive review, update of neurology, gastroenterology, and ophthalmology.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

VS 703 Postgraduate Medicine III Credits: Var[1-3] (0-0-0)

Course Description: Comprehensive review, update of oncology, cardiology, reproduction, ophthalmology, and radiology.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

VS 704 Postgraduate Medicine IV Credits: Var[1-3] (0-0-0)

Course Description: Comprehensive review, update of hematology, nephrology, urology, respiratory, hepatic, and pancreatic.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

VS 716 Advanced Studies in Reproduction Credits: 2 (2-0-0)

Course Description: Biochemical and physiological basis for problems in reproduction.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

VS 718 Cancer Biology Clinical Practicum Credits: 2 (0-0-4)

Course Description: Exposes graduate students engaged in laboratory cancer research to cancer from a clinical perspective, through VTH clinical rotations.

Prerequisite: ERHS 510 or VS 510.

Restriction: Must be a: Graduate, Professional.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

VS 732 Veterinary Sports Medicine and Rehabilitation Credit: 1 (1-0-0)

Also Offered As: VM 732.

Course Description: An introduction to the principles and practice of sports medicine and rehabilitation in veterinary medicine.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: VM 732: Admission to professional curriculum in veterinary medicine. All courses must be taken in prescribed sequence in the PVM program. VS 732: DVM or equivalent professional degree or consent of instructor.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

VS 733 Advanced Veterinary Epidemiology Credits: 4 (4-0-0)

Course Description: Advanced epidemiological and statistical techniques for the design and analysis of research projects.

Prerequisite: (ERHS 532) and (ERHS 542 or ERHS 544 or STAR 511 or STAR 512 or VS 662).

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

VS 750 Clinical and Applied Pharmacology Credits: 2 (2-0-0)

Course Description: Factors involved in drug dosing and variability of drug response. Applications in veterinary and human medicine.

Prerequisite: BMS 450.

Restriction: Must be a: Graduate, Professional.

Registration Information: DVM degree or equivalent professional medicine degree can substitute for BMS 450.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

VS 760 Methods in Orthopaedic Research Credits: 3 (2-0-1)

Course Description: Methods utilized in orthopaedic research will be presented by reviewing basic principles followed by examples of use in research projects.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

VS 784 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

VS 792 Seminar Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

VS 795A Independent Study: Small Animal Medicine Credits: Var[1-5] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Maximum of 5 credits allowed in course.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**VS 795B Independent Study: Large Animal Medicine Credits: Var[1-5] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Maximum of 5 credits allowed in course.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**VS 795C Independent Study: Small Animal Surgery Credits: Var[1-5] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Maximum of 5 credits allowed in course.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**VS 795D Independent Study: Equine Surgery Credits: Var[1-5] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Maximum of 5 credits allowed in course.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**VS 795G Independent Study: Equine Orthopedics Credits: Var[1-5] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Maximum of 5 credits allowed in course.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**VS 795H Independent Study: Large Animal Reproduction Credits: Var[1-5] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Maximum of 5 credits allowed in course.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**VS 795I Independent Study: Anesthesiology Credits: Var[1-5] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Maximum of 5 credits allowed in course.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**VS 795J Independent Study: Cardiology Credits: Var[1-5] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Maximum of 5 credits allowed in course.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**VS 795K Independent Study: Neurology Credits: Var[1-5] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Maximum of 5 credits allowed in course.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**VS 795L Independent Study: Dermatology Credits: Var[1-5] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Maximum of 5 credits allowed in course.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**VS 795N Independent Study: Ophthalmology Credits: Var[1-5] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Maximum of 5 credits allowed in course.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**VS 795O Independent Study: Herd Health Management Credits: Var[1-5] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Maximum of 5 credits allowed in course.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**VS 795P Independent Study: Equine Lameness Credits: Var[1-5] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Maximum of 5 credits allowed in course.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

VS 795S Independent Study: Epidemiology Credits: Var[1-5] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Graduate cooperative program, Professional.**Registration Information:** Maximum of 5 credits allowed in course.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**VS 795T Independent Study: Human-Animal Bond Credits:****Var[1-5] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Maximum of 5 credits allowed in course.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**VS 795U Independent Study: Oncology Credits: Var[1-10] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**VS 796 Group Study-Medicine Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Graduate cooperative program, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**VS 798 Research Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**VS 799 Dissertation Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Master of Science in Clinical Sciences

Requirements Effective Fall 2020

First Year	Credits
Approved electives	10
Total Credits	10

Second Year

Approved electives	10
Total Credits	10

Third Year

Approved electives	10
Total Credits	10

Program Total Credits: 30

A minimum of 30 credits are required to complete this program and are chosen from courses relevant to the student's residency program. At least 16 of the credit hours earned at CSU must be in 500-level or higher courses, and at least 12 of those 16 must be regular course work. Regular course work is defined as courses other than independent or group studies, thesis/dissertation credits, supervised college teaching, unique title courses offered through the Division of Continuing Education and any courses graded pass/fail.

Department of Environmental and Radiological Health Sciences

Office in Environmental Health Building, Room 106A

(970) 491-7038

Professor Alexander Brandl, Interim Department Head

Undergraduate

Minor

- Minor in Environmental Health

Graduate

Graduate Programs in Environmental and Radiological Health Sciences

The department offers graduate programs leading to Master of Science and Doctor of Philosophy degrees in Environmental Health and Radiological Health Sciences. Areas of emphasis in environmental health include epidemiology, occupational health, industrial hygiene, ergonomics, and environmental toxicology. Areas of emphasis in Radiological Health include cancer biology, cellular and molecular radio-biology, radiation oncology, radiation protection/health physics, radiochemistry, radioecology, and veterinary radiology. Students interested in graduate work should refer to the Department of Environmental and Radiological Health Sciences (<https://vetmedbiosci.colostate.edu/erhs/>) website.

Certificate

- Radiological and Nuclear Safety

Master's Programs

- Master of Science in Environmental Health, Plan A
- Master of Science in Environmental Health, Plan B, Environmental Health and Safety Specialization
- Master of Science in Environmental Health, Plan A, Epidemiology Specialization
- Master of Science in Environmental Health, Plan B, Epidemiology Specialization
- Master of Science in Environmental Health, Plan A, Industrial Hygiene Specialization
- Master of Science in Environmental Health, Plan B, Industrial Hygiene Specialization
- Master of Science in Environmental Health, Plan A, Occupational Ergonomics and Safety Specialization
- Master of Science in Radiological Health Sciences, Plan A and Plan B

- Master of Science in Radiological Health Sciences, Plan A, Health Physics Specialization
- Master of Science in Radiological Health Sciences, Plan B, Health Physics Specialization
- Master of Science in Toxicology, Plan A
- Master of Science in Toxicology, Plan B

Ph.D.

- Ph.D. in Environmental Health
- Ph.D. in Environmental Health, Epidemiology Specialization
- Ph.D. in Environmental Health, Industrial Hygiene Specialization
- Ph.D. in Environmental Health, Occupational Ergonomics and Safety Specialization
- Ph.D. in Radiological Health Sciences
- Ph.D. in Toxicology

Courses

Environmental and Radiological Health Services (ERHS)

ERHS 220 Environmental Health Credits: 3 (3-0-0)

Course Description: Impact of people on the physical and biological environment as well as impact of the environment on people; emphasis placed on human health.

Prerequisite: BZ 101, may be taken concurrently or BZ 104, may be taken concurrently or BZ 110, may be taken concurrently or BZ 120, may be taken concurrently or LIFE 102, may be taken concurrently.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 230 Environmental Health Field Methods Credits: 3 (0-6-0)

Course Description: Field and laboratory techniques necessary for practice of environmental health.

Prerequisite: CHEM 113 with a minimum grade of C and CHEM 114 with a minimum grade of C.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ERHS 320 Environmental Health--Water Quality Credits: 3 (3-0-0)

Course Description: Identify natural and man-made contaminants that impact water quality and human health; biological, chemical, and physical treatment techniques used to protect water quality.

Prerequisite: MIP 300, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 321A Study Abroad--Mexico: Environmental Public Health--Water Quality Credits: 3 (0-0-3)

Course Description: Utilize community input from Todos Santos to examine and communicate strategies for prevention of and treatment techniques for water contaminants of environmental public health concern.

Prerequisite: MIP 300.

Registration Information: Offered as Mixed Face-to-Face. Credit not allowed for both ERHS 320 and ERHS 321A.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 332 Principles of Epidemiology Credits: 3 (3-0-0)

Course Description: Use of epidemiological methods in studying distribution of diseases in human populations.

Prerequisite: STAT 301, may be taken concurrently or STAT 307, may be taken concurrently.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 340 Cancer Biology, Medicine, and Society Credits: 2 (2-0-0)

Course Description: Overview of the molecular mechanisms of cancer biology and genetics. Introduction to cancer medicine and the societal issues of cancer.

Prerequisite: LIFE 102 or LIFE 162 or LIFE 210.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Credit not allowed for ERHS 210 and ERHS 340.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 350 Principles of Occupational Safety and Health Credits: 3 (3-0-0)

Course Description: Industrial and airborne hazards, disease prevention, hazard control and evaluation.

Prerequisite: (BMS 300) and (CHEM 245 or CHEM 341) and (ERHS 230) and (PH 121 or PH 141).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 400 Radiation Safety Credits: 3 (3-0-0)

Course Description: Radiation physics, dosimetry, radiation measurement, emergencies and waste management. Essentials of radiation safety.

Prerequisite: CHEM 112 and ERHS 450 and PH 122.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 405 Fundamentals of Ergonomics Credits: 2 (2-0-0)

Course Description: Basic skills, knowledge, and abilities in ergonomics; focus on musculoskeletal injury prevention.

Prerequisite: None.

Registration Information: One college-level animal biology or anatomy/physiology or engineering design course or concurrent registration.

Offered as an online course only. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 410 Environmental Health-Air and Waste Management Credits: 3 (3-0-0)

Course Description: Preventing and managing hazards from air pollution sources and handling waste; administrative management for air and waste programs.

Prerequisite: (CHEM 245, may be taken concurrently or CHEM 341, may be taken concurrently or CHEM 346, may be taken concurrently) and (ERHS 230).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 411A Study Abroad--Mexico: Air Quality and Waste Management Credits: 3 (0-0-3)

Course Description: Examines strategies for preventing and managing hazards from air pollution sources and solid, hazardous, medical and radiological wastes with a focus on program management strategies that reflect the needs of the community of Todos Santos in Baja Sur, Mexico.

Prerequisite: CHEM 245 or CHEM 345.

Registration Information: Offered as Mixed Face-to-Face. Credit not allowed for both ERHS 410 and ERHS 411A.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 430 Human Disease and the Environment Credits: 3 (2-0-1)

Course Description: Overview of the human diseases which are associated with the environment.

Prerequisite: (BMS 300 or BMS 360) and (MIP 300) and (STAT 301 or STAT 307).

Registration Information: Must register for lecture and recitation.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 446 Environmental Toxicology Credits: 3 (3-0-0)

Course Description: Essentials of environmental toxicology based on problem-oriented discussions addressing environmental impacts of organic/inorganic chemicals.

Prerequisite: CHEM 241 or CHEM 245 or CHEM 343 or CHEM 345.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 448 Environmental Contaminants Credits: 3 (3-0-0)

Course Description: Pathways of exposure and behavior of environmental contaminants. Exposure assessment in environmental health protection.

Prerequisite: CHEM 241 or CHEM 245 or CHEM 341 or CHEM 345.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 450 Introduction to Radiation Biology Credits: 3 (3-0-0)

Course Description: Genetic and somatic effects of radiation on cells, tissues, and the whole organism; tumor therapy; carcinogenesis; risks vs. benefits of radiation.

Prerequisite: LIFE 102.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 479 Environmental Health Practice Credit: 1 (0-0-1)

Course Description: Networking, preparation of resume and statement of qualifications for professional internship or employment.

Prerequisite: ERHS 230, may be taken concurrently.

Registration Information: Written consent of instructor. This is a partial-semester course.

Term Offered: Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 484 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description: Assist with environmental health course teaching under guidance of faculty in classroom, laboratory or field.

Prerequisite: ERHS 220 and ERHS 230.

Restriction: Must be a: Undergraduate.

Registration Information: Sophomore standing. Written consent of instructor. A maximum of 10 combined credits for all 384 and 484 courses are counted toward graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 487 Internship-Environmental Health Credits: Var[4-7] (0-0-0)

Course Description: Professional field practice in environmental health with a public or private sector agency.

Prerequisite: ERHS 479.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 494 Independent Study in Environmental Health Credits:

Var[1-18] (0-0-0)

Course Description: Directed independent study or project under faculty guidance.

Prerequisite: ERHS 220.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 498 Research Credits: Var[1-4] (0-0-0)

Course Description: Research in environmental and radiological health sciences.

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 501 Biological Basis of Public Health Credits: 2 (2-0-0)

Course Description: Broad overview of biological basis of underlying major public health problems, focusing on risk factors, pathogenesis, and pathophysiology, plus a review of the anatomy and physiology of selected major organ systems and associated diseases. Describe and identify public health problems with an understanding of the clinical terminology, the underlying biological mechanisms, and the biological impact of disease in public health.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program.

Registration Information: Graduate standing.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 502 Fundamentals of Toxicology Credits: 3 (3-0-0)

Course Description: Fundamental principles of toxicology; dose-response, organ targets, toxic agents.

Prerequisite: (BMS 300 or BMS 360) and (CHEM 245 or CHEM 341 or CHEM 345).

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 503 Toxicology Principles Credit: 1 (1-0-0)

Course Description: Principles of toxicology for applications in industrial hygiene and environmental public health.

Prerequisite: CHEM 113 and LIFE 102.

Registration Information: This is a partial semester course.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 504 Occupational and Environmental Toxicology Credits: 2 (2-0-0)

Course Description: Toxic effects of harmful agents found in occupational and environmental settings.

Prerequisite: ERHS 446 or ERHS 502 or ERHS 503, may be taken concurrently.

Registration Information: This is a partial semester course.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 505 Publishing in Epidemiology and Public Health Credit: 1 (1-0-0)

Course Description: Explore all aspects of publishing in a peer reviewed scientific journal in the public health field, including literature searches, citation methods, structure of a manuscript, and the peer review process. Examines the process to conduct a systematic review.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 507A Toxicology Toolbox: Fundamentals Credit: 1 (1-0-0)

Course Description: Qualitative description of toxicant molecules relevant to their behavior in biological systems and the environment. Quantitative characterization of toxicant concentrations (dose) and how they change with time (toxicokinetics).

Prerequisite: ERHS 446, may be taken concurrently or ERHS 448, may be taken concurrently or ERHS 502, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 507B Toxicology Toolbox: Metabolism and Disposition Credit: 1 (1-0-0)

Course Description: Qualitative and quantitative description of toxicant molecules and the consequences of molecular alterations resulting from biotransformation. The role of reactive molecules in toxic effects. Quantification of toxicant behavior in biological systems.

Prerequisite: ERHS 502, may be taken concurrently or ERHS 504, may be taken concurrently or ERHS 601, may be taken concurrently.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 510 Cancer Biology Credits: 3 (3-0-0)**Also Offered As:** VS 510.**Course Description:** Cancer biology will address each of the hallmarks of cancer, including sustained proliferative signaling, evasion of growth suppression, invasion and metastasis, replicative immortality, angiogenesis, resisting cell death, genome instability and mutation, tumor promoting inflammation, deregulation of cellular energetics and avoidance of immune destruction. Lectures will integrate the biology behind these hallmarks with strategies for the treatment and prevention of cancer.**Prerequisite:** BC 351 or BC 403, may be taken concurrently or BZ 310 or CM 501.**Registration Information:** Credit not allowed for both ERHS 510 and VS 510.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**ERHS 515 Non-Ionizing Radiation Safety Credits: 2 (2-0-0)****Course Description:** Evaluation and safe use of non-ionizing radiation sources. Calculation of safe distances for exposure and maximum permissible exposures.**Prerequisite:** (CHEM 107 or CHEM 113) and (MATH 118 or MATH 120 or MATH 127) and (PH 122 or PH 142).**Registration Information:** Sections may be offered: Online.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**ERHS 520 Environmental and Occupational Health Issues Credits: 3 (3-0-0)****Course Description:** Issues in environmental and occupational health sciences in the context of public health and regulatory concerns.**Prerequisite:** BZ 110 or CHEM 103 or CHEM 107 or CHEM 111 or ERHS 220 or LIFE 102.**Registration Information:** Admission to the Master of Public Health program can be substituted for LIFE 102. Sections may be offered: Online. Credit not allowed for both ERHS 520 and PBHL 530.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**ERHS 526 Industrial Hygiene Credits: 3 (3-0-0)****Course Description:** Theory and application of industrial hygiene principles to management of the occupational environment.**Prerequisite:** (CHEM 245 or CHEM 341 or CHEM 345) and (ERHS 520, may be taken concurrently) and (PH 110 or PH 121).**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**ERHS 527 Industrial Hygiene Laboratory Credit: 1 (0-3-0)****Course Description:** Industrial hygiene field monitoring equipment and techniques.**Prerequisite:** ERHS 526, may be taken concurrently.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**ERHS 528 Occupational Safety Credits: 3 (3-0-0)****Course Description:** Introduction to occupational safety hazard recognition and control.**Prerequisite:** ERHS 350.**Term Offered:** Spring (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ERHS 530 Radiological Physics and Dosimetry I Credits: 3 (3-0-0)****Course Description:** Theory and detection of ionizing radiation; measurement and calculation of exposure and dose.**Prerequisite:** (MATH 155 or MATH 160) and (PH 122).**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**ERHS 531 Nuclear Instruments and Measurements Credits: 2 (1-3-0)****Course Description:** Instrument systems for measurements and identification of ionizing radiations.**Prerequisite:** ERHS 530, may be taken concurrently.**Registration Information:** Must register for lecture and laboratory.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**ERHS 532 Epidemiologic Methods Credits: 3 (2-0-1)****Course Description:** Method of epidemiologic investigation and study design. Applications to disease control with literature examples.**Prerequisite:** ERHS 307 or STAT 307.**Registration Information:** Must register for lecture and recitation.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**ERHS 534 SAS and Epidemiologic Data Management Credits: 3 (3-0-0)****Course Description:** Basic concepts and skills necessary for data management and analyses using SAS programming in epidemiology studies.**Prerequisite:** None.**Registration Information:** Graduate standing in Environmental Health.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**ERHS 535 R Programming for Research Credits: 3 (2-2-0)****Course Description:** In-depth instruction on data collection, data management, programming, and visualization, using data examples relevant to academic research. Taught using the statistical programming language R, but the principles will be translatable to other programming languages (e.g., Python, Matlab, SAS). Conducting reproducible research in R and how to construct custom functions and bundle these in a shareable R package.**Prerequisite:** None.**Registration Information:** Graduate standing. Must register for lecture and laboratory.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.

ERHS 536 Advanced Occupational Health Credits: 3 (3-0-0)

Course Description: Advanced topics in occupational health emphasizing contemporary issues, topics, trends, and problems in the field of industrial hygiene.

Prerequisite: ERHS 446 or ERHS 526.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 537A R Programming: Research I Credit: 1 (1-0-0)

Course Description: Introduction to data collection, data management, programming, and visualization, using data examples relevant to academic research. Taught using the statistical programming language R, but the principles are translatable to other programming languages (e.g., Python, Matlab, SAS). Focuses on getting students started using R programming within their scientific research.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. This is a partial semester course. Credit allowed for only one of the following: ERHS 535, 537A, or ERHS 580A3.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 537B R Programming: Research II Credits: 2 (1-3-0)

Course Description: In-depth instruction on data collection, data management, programming, and visualization, using data examples relevant to academic research. Taught using the statistical programming language R, but the principles are translatable to other programming languages (e.g., Python, Matlab, SAS). Provides extensive coverage on conducting reproducible research in R and introduces advanced topics like how to construct custom functions and build interactive data displays.

Prerequisite: ERHS 537A, may be taken concurrently or ERHS 581A3.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Must register for lecture and laboratory. This is a partial semester course. Credit allowed for only one of the following: ERHS 535, ERHS 537B, or ERHS 581A4.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 538 Geographic Information Systems and Health Credits: 3 (1-3-1)

Course Description: Applications of geographic information systems (GIS) in public health. Topics include geographic theory, spatial data, cartography, data visualization, spatial analysis, geocoding, primary and secondary data acquisition, and application of GIS for epidemiologic analyses.

Prerequisite: ERHS 532.

Registration Information: Must register for lecture, lab, and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 540 Principles of Ergonomics Credits: 3 (3-0-0)

Course Description: Theory and practice of ergonomics.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 541 Ergonomics in Product and Process Design Credits: 3 (3-0-0)

Course Description: Application of ergonomics to design of products and processes with respect to health, safety, function, and quality.

Prerequisite: ERHS 540.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 542 Biostatistical Methods for Qualitative Data Credits: 3 (3-0-0)

Course Description: Statistical analysis of categorical data as obtained in epidemiology, toxicology, occupational health, and clinical sciences.

Prerequisite: STAT 301 or ERHS 307 or STAT 307.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 544 Biostatistical Methods for Quantitative Data Credits: 3 (3-0-0)

Also Offered As: STAT 544.

Course Description: Regression and analysis of variance methods applied to both observational studies and designed experiments in the biological sciences.

Prerequisite: STAT 301 or ERHS 307 or STAT 307.

Registration Information: Credit not allowed for both ERHS 544 and STAT 544.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 546 Environmental Exposure Assessment Credits: 2 (2-0-0)

Course Description: Approaches and techniques for quantitative characterization of environmental exposure to harmful agents via inhalation, ingestion, and dermal pathways.

Prerequisite: ERHS 448, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 547 Equipment and Instrumentation Credits: 3 (0-6-0)

Course Description: Sample collection, quality control, theory and application of equipment and instrumentation for analysis and confirmation of organic-inorganic chemicals.

Prerequisite: CHEM 241 or CHEM 245 or CHEM 341 or CHEM 345.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

ERHS 549 Environmental Health Risk Assessment Credits: 3 (3-0-0)

Course Description: Environmental contamination and health effects of chemicals using risk assessment, management and communication approaches.

Prerequisite: ERHS 332 or ERHS 446 or ERHS 502 or ERHS 503 or ERHS 532.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 550 Principles of Radiation Biology Credits: 5 (5-0-0)

Course Description: Dose-response relationships; physical, chemical, and biological modification of radiation damage; radiation oncology; radiation genetics and oncogenesis.

Prerequisite: (BZ 310) and (ERHS 450 or ERHS 530).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 551A Radiation Biology Principles for Medicine: Principles of Radiation Biology Credits: 2 (2-0-0)

Course Description: Biological responses to radiation exposure; DNA damage and repair, cell killing and survival, carcinogenesis and genetic effects.

Prerequisite: BZ 310.

Registration Information: Credit not allowed for both ERHS 551A and ERHS 550. Offered only online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 551B Radiation Biology Principles for Medicine: Principles of Radiation Oncology Credits: 2 (2-0-0)

Course Description: Application of basic radiation biology to the clinical application of radiation therapy. Radiation sensitivity and tolerance is evaluated based on normal tissue architecture and kinetics. The mechanisms of acute and late radiation effects are elucidated. The impact of time, dose, and fractionation on tumor control and radiation effects are clarified and related to established and newer treatment modalities, including combination therapies and emerging technologies.

Prerequisite: ERHS 551A.

Registration Information: Credit not allowed for both ERHS 551B and ERHS 550. Offered only online.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 551C Radiation Biology Principles for Medicine: Principles of Radiation Protection Credit: 1 (1-0-0)

Course Description: Radiation risk assessment and protection; risk versus benefit associated with environmental and medical exposures.

Prerequisite: ERHS 551B.

Registration Information: Credit not allowed for both ERHS 551C and ERHS 550. Offered only online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 555 Quantitative Methods for Radiation Safety Credits: 3 (3-0-0)

Course Description: Analytical methods used in health physics, radioecology and radiochemistry. Quantification of uncertainty in radioactive samples and dosimetry.

Prerequisite: ERHS 530, may be taken concurrently.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 556 Monte Carlo Methods in Health Physics Credits: 3 (3-0-0)

Course Description: Monte Carlo methods for the assessment of complex systems or macroscopic quantities on basis of statistical nature of microscopic components.

Prerequisite: ERHS 530, may be taken concurrently.

Registration Information: Eligibility for access to government software.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 560 Health Impact Assessment Credits: 2 (1-2-0)

Course Description: Application of a Health Impact Assessment approach to systematically judge the potential health effects of a policy or project and the distribution of those effects within the population.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program.

Registration Information: Graduate standing. Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 561 Radiation Public Health Credits: 2 (2-0-0)

Course Description: Aspects of radiation public health for students in health physics with emphasis on contemporary issues in radiation protection.

Prerequisite: ERHS 400 and ERHS 450 or ERHS 530 and ERHS 550, may be taken concurrently.

Registration Information: ERHS 400 with written consent of instructor or ERHS 530.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 563 Environmental Contaminant Modeling I Credits: 2 (2-0-0)

Course Description: Mathematical modeling of radionuclide and chemical transport in aquatic and terrestrial ecosystems.

Prerequisite: MATH 155.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ERHS 565 Chemical and Biological Warfare Agents Credits: 2 (2-0-0)

Course Description: Current understanding of chemical and biological agents used in asymmetric warfare.

Prerequisite: CHEM 241 or CHEM 245 or CHEM 341 or CHEM 345.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 566 Forensic Toxicology Credits: 3 (2-2-0)

Course Description: Toxic effects of commonly encountered abused substances and laboratory methods to identify and measure these.

Prerequisite: CHEM 241 or CHEM 245 or CHEM 341 or CHEM 345.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ERHS 567 Cell and Molecular Toxicology Techniques Credits: 3 (0-6-0)

Course Description: Hands-on techniques exposure to molecular toxicology.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

ERHS 568 Pharmaceutical and Regulatory Toxicology Credits: 3 (3-0-0)

Course Description: Toxicology as applied in public (regulatory) and private (pharmaceutical, industrial) sectors.

Prerequisite: ERHS 446, may be taken concurrently or ERHS 502, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 569 Immunotoxicology Credits: 3 (2-0-1)

Course Description: Must register for lecture and recitation.

Prerequisite: ERHS 446 and MIP 342 or ERHS 502 or ERHS 503.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 570 Radioecology Credits: 2 (2-0-0)

Course Description: Environmental transport and exposure assessment of radioactive and other contaminants; estimating risk for human health and ecological impacts.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ERHS 573 Design and Conduct of Epidemiologic Research Credits: 2 (2-0-0)

Course Description: Design and implement an epidemiologic study from the development of a research question and study design through data analysis and dissemination.

Prerequisite: ERHS 532 or PBHL 570.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 595B Independent Study: Large Animal Radiology Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 595D Independent Study: Radiation Therapy Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 595E Independent Study: Radiation Physics Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 595F Independent Study: Dosimetry Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 595G Independent Study: Radiation Chemistry Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 595H Independent Study: Radiation Biology Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 595I Independent Study: Radiological Health Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 595J Independent Study: Radiation Ecology Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 595K Independent Study: Microcomputer Analysis Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 596C Group Study: Toxicology Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 601 Metabolism and Disposition of Toxic Agents Credits: 3 (3-0-0)

Course Description: Metabolism of toxic agents and effects on their fate in the body. Covalent and non-covalent interactions with cellular targets.

Prerequisite: ERHS 502.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 602 Toxicological Mechanisms Credits: 3 (3-0-0)

Course Description: Role of cellular information systems in toxic mechanisms: DNA expression, signal transduction and control of cellular processes.

Prerequisite: ERHS 502.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 603 Toxicological Pathology Credits: 3 (3-0-0)

Course Description: Toxicological study of pharmacologic, chemical and environmental agents and resulting morphologic and cellular changes.

Prerequisite: BMS 300 or BMS 360.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 611 Cancer Genetics Credits: 2 (2-0-0)

Course Description: Role of genetic background in determining individual susceptibility to cancer.

Prerequisite: BZ 350 or MIP 450.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 630 Radiological Physics and Dosimetry II Credits: 3 (3-0-0)

Course Description: Calculations and measurement techniques for dosimetry shielding and protection from ionizing radiations.

Prerequisite: ERHS 530.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 632 Techniques in Radiation Dosimetry Credit: 1 (0-3-0)

Course Description: Techniques for determining the absorbed dose in tissue from ionizing radiations.

Prerequisite: ERHS 630, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 633 Radiation Detection Methods in Radiobiology Credit: 1 (0-3-0)

Course Description: Detection and measurement of ionizing radiation appropriate for radiobiologists.

Prerequisite: ERHS 630, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 636 Industrial Hygiene Control Methods Credits: 3 (3-0-0)

Course Description: Controlling occupational exposures to chemical agents, emphasizing local exhaust ventilation; personal protective devices.

Prerequisite: ERHS 526 and ERHS 536, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 637 Environment, Safety, and Health Management Credits: 3 (3-0-0)

Course Description: Environment, safety, and health management systems for occupational health practitioners; major environmental and DOT regulatory standards and laws.

Prerequisite: ERHS 526.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 638 Geospatial Analysis for Environmental Health Credits: 3 (2-2-0)

Course Description: Introduction to acquisition, organization, and analysis of data relevant to environmental health. Data sources covered include regulatory and low-cost ground-based air sensors, remote sensing (satellite) products, climate and weather model output, as well as data on water quality, traffic and mobility, and housing and sociodemographics. Methodological topics covered include geostatistical models, downscaling, predictive modeling, and machine learning.

Prerequisite: STAR 512 or STAR 531 or STAT 512.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 640 Advanced Epidemiology Methods I Credits: 3 (3-0-0)

Course Description: In-depth exploration of key epidemiologic concepts and methods.

Prerequisite: ERHS 532 or PBHL 570.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 642 Applied Logistic Regression Credits: 3 (3-0-0)

Course Description: Basic and advanced concepts of logistic regression with focus on practical applications in epidemiology using SAS.

Prerequisite: ERHS 532 and ERHS 542.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 656 Occupational Noise Control Credits: 3 (3-0-0)

Course Description: Measurement and control of industrial or environmental noise emphasizing practical solutions.

Prerequisite: ERHS 527.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 658 Environmental and Occupational Epidemiology Credits: 2 (2-0-0)

Course Description: Epidemiologic methods and concepts for and about the study of environmental and occupational determinants of disease presented through lectures and discussions based on relevant literature. Emphasis on the most suitable epidemiologic approaches to characterize the health effects of selected environmental and occupational agents.

Prerequisite: ERHS 532 or PBHL 570.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 665 Radiochemistry Credits: 3 (2-3-0)

Course Description: Radionuclide separation and measurement and radiotracer applications in physical and biological systems.

Prerequisite: (CHEM 114 and MATH 155) and (ERHS 530, may be taken concurrently).

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 670 Directed Readings Credits: Var[1-3] (0-0-0)

Course Description: Advanced study through supervised readings on specialized topics.

Prerequisite: ERHS 520.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 671 Experimental Radioecology Credit: 1 (0-3-0)

Course Description: Experimental techniques used in radioecological and environmental radioactivity studies.

Prerequisite: (ERHS 400 or ERHS 532) and (ERHS 570).

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ERHS 675 Environmental Health Regulatory Compliance Credits: 3 (3-0-0)

Course Description: Requirements and strategies for meeting obligations under regulations and laws involved in environmental and occupational health protection.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: 15 credits of ERHS courses 500-level or above or written consent of instructor.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 679 Occ Env Health Interdisciplinary Symposium Credits: 2 (0-0-2)

Course Description: Evaluation of occupational and environmental health issues, through multidisciplinary interactions in seminars and field visits.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in a graduate program related to occupational, environmental, or public health. May be repeated for credit. Required field trips.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

ERHS 684 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description: Participation in environmental health course teachings under guidance of faculty in classroom, laboratory, or field.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 687 Internship Credits: Var[1-6] (0-0-0)

Course Description: Advanced study or research in environmental health with a governmental agency, private sector entity, or research facility.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 692 Seminar Credit: 1 (0-0-1)

Course Description: Professional seminar series with student interaction on weekly basis; topics presented by outside experts, faculty, or doctoral candidates.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 693A Research Seminar: Epidemiology Credit: 1 (0-0-1)

Course Description: Presentation of student research and discussion of publications from scientific literature.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 693B Research Seminar: Industrial Hygiene Credit: 1 (0-0-1)

Course Description: Presentation of student research and discussion of publications from scientific literature.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 693C Research Seminar: Toxicology Credit: 1 (0-0-1)

Course Description: Presentation of student research and discussion of publications from scientific literature.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 693D Research Seminar: Health Physics Credit: 1 (0-0-1)

Course Description: Presentation of student research and discussion of publications from scientific literature.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

ERHS 695A Independent Study: Epidemiology Credits: Var[1-18] (0-0-0)

Course Description: Specialized study in epidemiology under supervision of faculty.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 695B Independent Study: Occupational and Environmental Health Credits: Var[1-18] (0-0-0)

Course Description: Specialized study in occupational and environmental health under supervision of faculty.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 695C Independent Study: Toxicology Credits: Var[1-18] (0-0-0)

Course Description: Specialized study in toxicology under supervision of faculty.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 695D Independent Study: Radiation Chemistry Credits: Var[1-18] (0-0-0)

Course Description: Specialized study in radiation chemistry under supervision of faculty.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 695E Independent Study: Radiation Ecology Credits: Var[1-18] (0-0-0)

Course Description: Specialized study in radiation ecology under supervision of faculty.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 695F Independent Study: Cancer Biology Credits: Var[1-18] (0-0-0)

Course Description: Specialized study in cancer biology under supervision of faculty.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 695G Independent Study: Health Physics Credits: Var[1-18] (0-0-0)

Course Description: Specialized study in health physics under supervision of faculty.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 695H Independent Study: Exposure Assessment Credits: Var[1-18] (0-0-0)

Course Description: Specialized study in exposure assessment under supervision of faculty.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 695I Independent Study: Small Animal Radiology Credits: Var[1-18] (0-0-0)

Course Description: Specialized study in small animal radiology under supervision of faculty.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 695J Independent Study: Large Animal Radiology Credits: Var[1-18] (0-0-0)

Course Description: Specialized study in large animal radiology under supervision of faculty.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 695K Independent Study: Special Techniques in Radiology Credits: Var[1-18] (0-0-0)

Course Description: Specialized study in special techniques in radiology under supervision of faculty.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 695L Independent Study: Radiation Therapy Credits: Var[1-18] (0-0-0)

Course Description: Specialized study in radiation therapy under supervision of faculty.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 695M Independent Study: Computed Tomography Credits: Var[1-18] (0-0-0)

Course Description: Specialized study in computed tomography under supervision of faculty.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 695N Independent Study: Magnetic Resonance Imaging Credits: Var[1-18] (0-0-0)

Course Description: Specialized study in magnetic resonance imaging under supervision of faculty.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 695O Independent Study: Ultrasound Credits: Var[1-18] (0-0-0)

Course Description: Specialized study in ultrasound under supervision of faculty.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 695P Independent Study: Nuclear Medicine Credits: Var[1-18] (0-0-0)

Course Description: Specialized study in nuclear medicine under supervision of faculty.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 696A Group Study: Epidemiology Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: ERHS 520.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 696B Group Study: Industrial Hygiene Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: ERHS 520.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 696C Group Study: Toxicology Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 696D Group Study: Health Physics Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: ERHS 530.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 698 Research Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 701 Advanced Diagnostic Imaging Modalities Credits: 4 (4-0-0)

Course Description: Interpretation/applications of advanced imaging methods including ultrasound, nuclear medicine, magnetic resonance imaging and computed tomography.

Prerequisite: VM 786A or VM 786B.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 701A Advanced Diagnostic Imaging Modalities: Small Animal Imaging Credits: 3 (3-0-0)

Course Description: Interpretation/applications of advanced imaging methods as applied to small animals including ultrasound, nuclear medicine, magnetic resonance imaging and computed tomography.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course. Credit allowed for only one of the following courses: ERHS 701, ERHS 701A, or ERHS 701C. Credit is allowed for both ERHS 701A and ERHS 701B.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 701B Advanced Diagnostic Imaging Modalities: Large Animal Credit: 1 (1-0-0)

Course Description: Interpretation/applications of advanced imaging methods as applied to large animals including ultrasound, nuclear medicine, magnetic resonance imaging and computed tomography.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course. Credit allowed for only one of the following courses: ERHS 701, ERHS 701B, or ERHS 701C. Credit is allowed for both ERHS 701A and ERHS 701B.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 701C Advanced Diagnostic Imaging Modalities: Small and Large Animal Imaging Credits: 4 (4-0-0)

Course Description: Interpretation/applications of advanced imaging methods including ultrasound, nuclear medicine, magnetic resonance imaging and computed tomography. Covers both small and large animal imaging.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both ERHS 701 and ERHS 701C. Students registering for ERHS 701C may not also receive credit for either ERHS 701A and/or ERHS 701B.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 702A Methods in Radiation and Cancer Biology: Mammalian Cell Culture Techniques Credit: 1 (0-3-0)

Course Description: Provides basic information to grow mammalian cells and control and monitor the cell behaviors after irradiation. Focus on mammalian cell culture basics and further biological endpoints after irradiation.

Prerequisite: ERHS 550, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both CM 702B and ERHS 702A.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 702B Methods in Radiation and Cancer Biology: Radiation Molecular Biology Techniques Credit: 1 (0-3-0)

Course Description: Learn how to carry out molecular biology analysis with radiation. Focus on quantifying the changes in DNA, RNA, and proteins in mammalian cells. Learn techniques with actual sample handling.

Prerequisite: ERHS 550, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both CM 702C and ERHS 702B.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 702C Methods in Radiation and Cancer Biology: Radiation Cytogenetics Credit: 1 (0-3-0)

Course Description: Learn how to carry out cytogenetic techniques and analyze DNA damage and chromosome aberrations under a microscope and other equipment. Focus on detecting DNA damage in mammalian cell culture exposed to ionizing radiation and other chemical mutagens.

Prerequisite: ERHS 550, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both CM 702D and ERHS 702C.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 705 Advanced Small Animal Diagnostic Imaging Credits: 4 (4-0-0)

Course Description: Interpretation/applications of diagnostic imaging modalities as applied to small animal medicine, including radiography, fluoroscopy, nuclear medicine, magnetic resonance imaging, and computed tomography.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 706 Advanced Equine Diagnostic Imaging Credits: 2 (2-0-0)

Course Description: Interpretation principles and applications for advanced diagnostic imaging modalities in horses including radiology, ultrasound, nuclear medicine, magnetic resonance imaging and computed tomography. Should be familiar with medical terminology and general principles of clinical veterinary or human medicine and imaging.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 711 Advanced Radiographic Interpretation Credits: Var[1-4] (0-0-0)

Course Description: Radiographic interpretation of disease processes of all major systems in large and small animals.

Prerequisite: VM 786A or VM 786B.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 712 Physics of Diagnostic Imaging Credits: 3 (3-0-0)

Course Description: Physics of imaging for radiology, ultrasound, computerized tomography, magnetic resonance, and nuclear medicine.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: DVM or equivalent professional veterinary medicine degree required.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 714 Radiation Therapy Physics Credits: 3 (3-0-0)

Course Description: Radiation therapy physics, photon and electron production for therapeutic use, teletherapy, brachytherapy, radiation protection and quality assurance.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: DVM or health physics, physics, or engineering graduate student.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 721 Radiation Oncology Credits: Var[1-3] (0-0-0)

Course Description: Management of spontaneous and experimental tumors with emphasis on radiation therapy.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 726 Aerosols and Environmental Health Credits: 3 (3-0-0)

Course Description: Properties and behavior of environmental and occupational aerosols emphasizing how airborne particles affect health of humans and the environment.

Prerequisite: PH 141.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 730 Principles of Flow Cytometry & Cell Sorting Credits: 2 (1-2-0)

Also Offered As: MIP 730.

Course Description: Explores the background of flow cytometry, fluorescent molecules, experimental design, Flow Cytometry data Analysis, applications, and principles of cell sorting.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory. This is a partial semester course. Credit not allowed for both ERHS 730 and MIP 730.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 732 Advanced Epidemiological Analysis Credits: 2 (2-0-0)

Course Description: Provides the opportunity to implement theoretical expertise through designing and conducting advanced epidemiologic research analyses. Gain in-depth experience analyzing datasets from the environmental epidemiology literature.

Prerequisite: (ERHS 534 or ERHS 535) and (ERHS 640) and (STAR 511 or STAT 511A or STAT 511B).

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 733 Environmental Carcinogenesis Credits: 3 (3-0-0)

Course Description: Molecular and cellular mechanisms by which environmental carcinogens exert effects.

Prerequisite: BC 403.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 740 Advanced Epidemiology Methods II Credits: 3 (3-0-0)

Course Description: Provides a strong foundation for understanding the theoretical basis of currently used epidemiologic methods and also to help acquire an understanding of the process of developing novel approaches. Emphasizes drawing causal inference from epidemiologic studies and evaluate strengths and limitations of different estimation approaches in light of specific studies and potential sources of bias.

Prerequisite: (ERHS 640) and (STAR 512 or STAT 512).

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 750 Grant Writing for Environmental Health Credits: 2 (2-0-0)

Course Description: Explores the most common mechanisms of research grant proposals and covers all major aspects of developing an original grant proposal. Peer review concepts are also covered.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 751 Advanced Radiation Biology I Credits: 3 (3-0-0)

Course Description: Molecular and cellular mechanisms of radiation damage and repair; mammalian radiation genetics.

Prerequisite: ERHS 550.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 753 Advanced Radiation Biology II Credits: 3 (3-0-0)

Course Description: Perturbations in cell cycle and cell population growth kinetics by radiation; radiation effects on normal tissues; radiation oncogenesis.

Prerequisite: ERHS 550.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 760 Interpreting Epidemiologic Evidence Credits: 2 (2-0-0)

Course Description: Seeks to enhance versatility in combining subject matter knowledge and command of epidemiologic methods to make appropriate inferences from available research. Judge causality and identify gaps that future research needs to strengthen understanding of the substantive epidemiologic evidence.

Prerequisite: ERHS 740.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ERHS 765 Environmental Contaminant Modeling II Credit: 1 (0-3-0)

Course Description: Development and analysis of advanced computer models for radionuclide and chemical transport in aquatic and terrestrial ecosystems.

Prerequisite: ERHS 563 and ERHS 570.

Restriction: Must be a: Graduate, Professional.

Term Offered: Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

ERHS 770 Radiation/Cancer Biology-Comparative Oncology Credit: 1 (0-0-1)

Course Description: Seminar series covering current aspects of radiation and cancer biology pertinent to comparative oncology. Present individual projects and lead discussion of presentation topics.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

ERHS 784 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 786 Practicum Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: ERHS 530.

Restriction: Must be a: Graduate, Professional.

Term Offered: Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 787 Internship Credits: Var[1-6] (0-0-0)

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 792 Seminar Credit: 1 (0-0-1)

Course Description: Professional seminar series with student interaction on weekly basis; topics presented by outside experts, faculty, or doctoral candidates.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 793 Seminar Credit: 1 (0-0-1)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 795A Independent Study: Epidemiology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 795B Independent Study: Occupational and Environmental Health Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 795C Independent Study: Toxicology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 795D Independent Study: Radiation Chemistry Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 795E Independent Study: Radiation Ecology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 795F Independent Study: Cancer Biology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ERHS 795G Independent Study: Health Physics Credits:**Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ERHS 795H Independent Study: Exposure Assessment Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ERHS 795I Independent Study: Small Animal Radiology Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ERHS 795J Independent Study: Large Animal Radiology Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ERHS 795K Independent Study: Special Techniques in Radiology Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ERHS 795L Independent Study: Radiation Therapy Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ERHS 795M Independent Study: Computed Tomography Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ERHS 795N Independent Study: Magnetic Resonance Imaging Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ERHS 795O Independent Study: Ultrasound Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ERHS 795P Independent Study: Nuclear Medicine Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ERHS 796 Group Study Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ERHS 799 Dissertation Credits: Var[1-18] (0-0-0)****Course Description:** Doctoral-level research and preparation of dissertation.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Minor in Environmental Health

Environmental Health is a branch of public health that studies how biological, chemical, and physical factors in natural and built environments impact human health and disease. Students will learn how to help prevent injuries and disease by managing environmental hazards and promoting healthier air, water, soil, homes, workplaces, and communities. A minor in Environmental Health (EH) will benefit students majoring in a variety of biosciences who want to leverage and integrate EH skill sets into their professional endeavors (e.g., medicine, dentistry, law, research, industry) as well as those students interested in career options in environmental public health, private sector occupational health and safety, environmental toxicology, and environmental epidemiology.

Requirements Effective Fall 2023

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Required Core Courses		
ERHS 220	Environmental Health	3
ERHS 320	Environmental Health–Water Quality	3
Select one course from the following:		3
ERHS 332	Principles of Epidemiology	
ERHS 446	Environmental Toxicology	
ERHS Courses (Select 6 credits not previously taken from the following):		6
ERHS 230	Environmental Health Field Methods	
ERHS 332	Principles of Epidemiology	
ERHS 350	Principles of Occupational Safety and Health	
ERHS 405	Fundamentals of Ergonomics	
ERHS 410	Environmental Health–Air and Waste Management	
ERHS 430	Human Disease and the Environment	
ERHS 446	Environmental Toxicology	
ERHS 448	Environmental Contaminants	
ERHS 450	Introduction to Radiation Biology	
Department Electives List (Select 6 credits not previously taken – see list below)		6
Program Total Credits:		21

Department Electives List

Code	Title	Credits
AB 410	Understanding Pesticides	3
BMS 360	Fundamentals of Physiology	4
BMS 430	Endocrinology	3
BMS 460	Essentials of Pathophysiology	3
BSPM 302	Applied and General Entomology	2
BSPM 462/BZ 462/ MIP 462	Parasitology and Vector Biology	5
BZ 310	Cell Biology	4
BZ 350	Molecular and General Genetics	4
CIVE 423	Groundwater Engineering	3

CIVE 425	Soil and Water Engineering	3
CIVE 437	Wastewater Treatment Facility Design	3
CIVE 438	Fundamentals of Environmental Engr	3
CIVE 439	Applications of Environmental Engr Concepts	3
CIVE 440	Nonpoint Source Pollution	3

Graduate Certificate in Radiological and Nuclear Safety

The Department of Environmental and Radiological Health Sciences (<https://vetmedbiosci.colostate.edu/erhs/>)

This certificate allows opportunities for students and professionals (e.g., employed by the military or in the nuclear sector) who are interested in obtaining basic knowledge of radiological and nuclear safety for specific applications in their workplace to further their education and training in their individual sub-fields without having to complete the formal requirements of a comprehensive graduate degree. Completing the certificate allows the students to have this credential appear on their transcripts, which may serve as confirmation for their employer of their professional training. Also, credits earned in the course of completing the graduate certificate may be applied towards fulfillment of the requirements for a graduate degree at a later date.

Effective Fall 2019

Additional coursework may be required due to prerequisites.

Code	Title	Credits
ERHS 530	Radiological Physics and Dosimetry I	3
ERHS 561	Radiation Public Health	2
Select 7-8 credits from the following:		7-8

ERHS 515	Non-Ionizing Radiation Safety
ERHS 531	Nuclear Instruments and Measurements
ERHS 550	Principles of Radiation Biology ¹
ERHS 551A	Radiation Biology Principles for Medicine: Principles of Radiation Biology ¹
ERHS 551B	Radiation Biology Principles for Medicine: Principles of Radiation Oncology ¹
ERHS 551C	Radiation Biology Principles for Medicine: Principles of Radiation Protection ¹
ERHS 570	Radioecology
ERHS 630	Radiological Physics and Dosimetry II
ERHS 632	Techniques in Radiation Dosimetry

Program Total Credits: 12-13

¹ Credit not allowed for both ERHS 550 and any of the following: ERHS 551A, ERHS 551B or ERHS 551C.

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Master of Science in Environmental Health, Plan A

This program provides graduate students with broad experience in environmental health. Our program is guided by the concepts and principles as delineated by the National Environmental Health Association, which defines environmental health as "the science and practice of preventing human injury and illness and promoting well-being by: identifying and evaluating environmental sources and hazardous agents and limiting exposures to hazardous physical, chemical, and biological agents in air, water, soil, food and other environmental media or settings that may adversely affect human health." Recognizing that environments may also have beneficial impacts on communities, we also seek to understand the positive impact of built and natural environments on mental and physical health.

The flexible nature of this program allows students to design their graduate coursework to meet specific professional goals and will prepare students to work in a number of settings including public and private sectors as well as academia. Our goal is to provide students with critical analytic tools, subject-matter expertise, and problem-solving skills to be at the forefront of leadership and scholarship in the field of environmental health.

Learning Outcomes

- 1) Evaluate, qualitatively and quantitatively, risks of exposures emanating from built and natural environments of public health concern.
- 2) Anticipate emerging environmental health issues.
- 3) Assess health impacts of environmental exposures.
- 4) Interpret control and remediation strategies to mitigate environmental hazards.
- 5) Describe management strategies for achieving programmatic goals in environmental health.

6) Develop strategies to obtain compliance within an environmental health regulatory framework.

7) Communicate environmental risk to technical and lay populations.

Requirements Effective Fall 2023

Code	Title	Credits
Core Requirements:		
CIVE 526	Pollution, Exposure, and the Environment	3
Select one group from the following:		3
Group A:		
ERHS 502	Fundamentals of Toxicology	
Group B:		
ERHS 503	Toxicology Principles	
ERHS 504	Occupational and Environmental Toxicology	
ERHS 520	Environmental and Occupational Health Issues	3

or PBHL 570	Epidemiology for Public Health	
ERHS 560	Health Impact Assessment	2
STAR 511	Design and Data Analysis for Researchers I	4
Select one course from the following:		1
GRAD 550	STEM Communication	
PBHL 696	Public Health Group Study	
ERHS 699	Thesis	3-6
Electives (500-level or above) ^{1, 2}		5-8
Program Total Credits:		30

A minimum of 30 credits are required to complete this program.

¹ Electives must be approved by the student's advisor and graduate committee.

² PPA 555 is recommended if offered during the student's time on campus.

Master of Science in Environmental Health, Plan B, Environmental Health and Safety Specialization

Please contact the Department of Environmental and Radiological Health Sciences (<https://vetmedbiosci.colostate.edu/erhs/>) for more information.

Requirements Effective Fall 2014

Code	Title	Credits
Core Courses		
ERHS 503	Toxicology Principles	1
ERHS 504	Occupational and Environmental Toxicology	2
ERHS 526	Industrial Hygiene	3

ERHS 528	Occupational Safety	3
ERHS 637	Environment, Safety, and Health Management	3
ERHS 675	Environmental Health Regulatory Compliance	3

Selected CoursesSelect at least two courses from the following: ¹ 6

ERHS 400 or ERHS 530	Radiation Safety Radiological Physics and Dosimetry I	
ERHS 410	Environmental Health-Air and Waste Management	
ERHS 536	Advanced Occupational Health	
ERHS 540	Principles of Ergonomics	
ERHS 549	Environmental Health Risk Assessment	

Select a minimum of 11 credits from the following: 11

ATS 555	Air Pollution	
ATS 560	Air Pollution Measurement	
CIVE 547/ STAT 547 or VS 562	Statistics for Environmental Monitoring Applied Data Analysis	
ERHS 527	Industrial Hygiene Laboratory	
ERHS 531	Nuclear Instruments and Measurements	
ERHS 541	Ergonomics in Product and Process Design	
ERHS 546	Environmental Exposure Assessment	
ERHS 636	Industrial Hygiene Control Methods	
ERHS 656	Occupational Noise Control	
ERHS 658	Environmental and Occupational Epidemiology	
ERHS 695B	Independent Study: Occupational and Environmental Health ²	
ERHS 726	Aerosols and Environmental Health	

Program Total Credits: 32

A minimum of 32 credits are required to complete this program.

¹ Additional courses from this list may be taken to count toward the program total.² Students may apply a maximum of 3 credits of Independent Study toward the degree.

A comprehensive exam is required.

Master of Science in Environmental Health, Plan A, Epidemiology Specialization

Department of Environmental and Radiological Health Sciences

The field of epidemiology is defined as the study of the distribution and determinants of disease, injury, and health in populations, with an ultimate goal of disease prevention and control. Epidemiology is one of the core sciences of public health and serves as the foundation for the design and analysis of research studies. The Master of Science in Environmental Health, Plan A, Epidemiology Specialization offers both theoretical knowledge and applied experiences in epidemiology, with a focus on quantitative methods. The skills and knowledge gained

in the program are applied to a broad range of risk factors and health outcomes.

Requirements Effective Fall 2021

² Students are required to take ERHS 695B for the professional paper requirement.

³ One additional course approved by student's committee.

⁴ Select three credits of statistics with approval of advisor and graduate committee.

⁵ Students who do not have at least one year of occupational and/or environment health professional experience must complete an internship consisting of at least 400 hours of work time. Internships must be approved by the student's advisor and graduate committee according to the program's Internship Handbook.

Master of Science in Environmental Health, Occupational Ergonomics and Safety Specialization, Plan A

Department of Environmental and Radiological Health Sciences

The Master of Science in Environmental Health, Occupational Ergonomics and Safety Specialization, Plan A, is based on a multidisciplinary group of faculty and courses aimed at enhancing the workplace in terms of safety, process, and product quality, and the quality of work life. The foundation of the program is driven by the utilization of a systems approach in human-centered design and in the most current safety theories and practice. The program integrates a multidisciplinary approach from psychology, engineering, the health sciences, and safety to better understand and optimize human well-being and overall system performance in the workplace.

Graduates from this master's program are typically employed as health and safety managers, ergonomic consultants, safety specialists, human factor specialists, and risk analysts. Companies hiring our graduates often include manufacturing companies, consulting firms, municipalities, universities, medical device companies, and insurance companies.

Program Total Credits:		37

A minimum of 37 credits are required to complete this program.

Master of Science in Radiological Health Sciences

The Master of Science in Radiological Health Sciences focuses on cancer research and the role of ionizing radiation in inducing, diagnosing and treating cancer.

Learning Objectives

Graduates with a Master of Science in Radiological Health Sciences are able to:

- Apply knowledge of radiation exposure on health and of related fields, including radiation physics, radiation chemistry, radiation biology and statistics.
- Apply knowledge of radiation exposure for the purpose of diagnosis and cancer therapy.
- Formulate a hypothesis, design and conduct experiments, analyze and interpret data.
- Function with some independence in multi-disciplinary teams.
- Identify and solve problems associated with the effects of radiation exposure on health.
- Adhere to the standards of professional and ethical responsibility of the field.
- Communicate effectively both orally and in writing.

Plan A Effective Fall 2021

Code	Title	Credits
ERHS 550	Principles of Radiation Biology ¹	5
ERHS 699	Thesis	3-6
ERHS 770	Radiation/Cancer Biology-Comparative Oncology ²	2
STAR 511	Design and Data Analysis for Researchers I	4
Select one of the following courses:		3
ERHS 530	Radiological Physics and Dosimetry I	
ERHS 712	Physics of Diagnostic Imaging	
ERHS 714	Radiation Therapy Physics	
Electives (500-level or above) ³		10-13
Program Total Credits:		30

A minimum of 30 credits are required to complete this program.

¹ ERHS 551A, ERHS 551B, or ERHS 551C may be substituted.

² Take in two semesters for a total of 2 credits.

³ Electives must be approved by the student's advisor and graduate committee (typically composed of 3-4 members). Electives are determined by the faculty to ensure that they meet the requirements of minimum credits and of non-regular vs. regular credit requirements set by the graduate school.

Plan B Effective Fall 2021

Code	Title	Credits
Select one of the following courses:		3-5
ERHS 450	Introduction to Radiation Biology	
ERHS 550	Principles of Radiation Biology ¹	
Select one of the following courses:		1
ERHS 770	Radiation/Cancer Biology-Comparative Oncology	
VS 792	Seminar

STAR 511	Design and Data Analysis for Researchers I	
STAT 307	Introduction to Biostatistics	
VS 562	Applied Data Analysis	
Select one of the following courses:		3
ERHS 530	Radiological Physics and Dosimetry I	
ERHS 712	Physics of Diagnostic Imaging	
ERHS 714	Radiation Therapy Physics	
Electives (500-level or above) ²		17-20
Program Total Credits:		30

A minimum of 30 credits are required to complete this program.

A prospective or high-quality retrospective research project is required. Research projects must be reviewed and approved by the student's advisor and graduate committee. The final exam/oral defense includes two basic parts. First, the student presents the results of their research project and answers questions on the design, results and possible future directions of this project. In the second part of the exam, the student will need to answer more general questions related to diagnostic imaging similar to the topics they need to study for the American College of Veterinary Radiology (ACVR) board.

¹ ERHS 551A, ERHS 551B, or ERHS 551C may be substituted.

² Electives must be approved by the student's advisor and graduate committee (typically composed of 3-4 members). Electives are determined by the faculty to ensure that they meet the requirements of minimum credits and of non-regular vs. regular credit requirements set by the graduate school.

Master of Science in Radiological Health Sciences, Plan A, Health Physics Specialization

Department of Environmental and Radiological Health Sciences

Health physics is the discipline associated with using radiation for the benefit of society. This includes applying scientific principles as well as practical knowledge to ensure that these benefits are obtained without unreasonable risks to humans or the environment. The profession has evolved into a necessary part of all applications that involve radiation, including the use of radiation in medical and industrial settings. Sources of radiation range from naturally occurring radioactivity to man-made sources of radiation, such as reactors. Successful professionals in health physics have broad backgrounds in physics, biology, and instrumentation, and understand risks and risk analysis.

The required course work is structured to provide a sound foundation in the basic skills essential to the health physics profession. Students may concentrate on specific areas of interest through a wide selection of elective courses. The formal course work is supplemented by laboratory exercises, field trips, and research.

The M.S. in Radiological Health Sciences, Plan A, Health Physics Specialization is accredited by the Applied Sciences Accreditation Commission of ABET (<https://www.abet.org/>).

Requirements Effective Fall 2021

Elective		
500-level or greater elective ²		3
Program Total Credits:		32-35

A well-written, comprehensive, and scholarly professional paper prepared on a topic approved by the student's graduate committee that is successfully defended in an oral examination.

¹ ERHS 555, ERHS 563 and ERHS 570 may only be used from the list if they have NOT been previously selected for the preceding requirements.

² Elective course must be approved by the student's graduate committee.

Master of Science in Toxicology, Plan A

Department of Environmental and Radiological Health Sciences

Toxicology is the study of the effects of chemicals and other potentially harmful agents on biological systems. The field draws upon the sciences of biology, chemistry, biochemistry, physiology, cell and molecular biology, neuroscience, and pathology. The core curriculum provides a comprehensive background in toxicology, enhanced by elective offerings in the department and the many related basic and health science courses available at CSU.

The M.S. in Toxicology, Plan A, prepares students for industry, government, and academia research careers. Graduates also find professional employment in public and private sector positions such as environmental protection, risk assessment, or product safety evaluation. This program provides an excellent basis for students seeking admission to a doctoral degree program in toxicology or a related field.

Requirements Effective Fall 2022

Code	Title	Credits
Core Courses		
ERHS 502	Fundamentals of Toxicology	3
ERHS 601	Metabolism and Disposition of Toxic Agents	3
ERHS 602	Toxicological Mechanisms	3
ERHS 603	Toxicological Pathology	3
ERHS 693C	Research Seminar: Toxicology	1
Toxicology Courses ^{1,2}		
Select at least 9 credits from the following:		9
BMS 450	Pharmacology	
ERHS 446	Environmental Toxicology	
ERHS 448	Environmental Contaminants	
ERHS 504	Occupational and Environmental Toxicology	
ERHS 507A	Toxicology Toolbox: Fundamentals

ERHS 568	Pharmaceutical and Regulatory Toxicology	
ERHS 569	Immunotoxicology	
ERHS 733	Environmental Carcinogenesis	
Other Requirements		
Electives ^{1,2,3}		3-5
Thesis		
ERHS 699	Thesis	3-5
Program Total Credits:		30

A minimum of 30 credits are required to complete this program.

¹ Courses selected in consultation with advisor and graduate committee.

² No more than 6 credits of courses below 500-level may be included in the program.

³ No more than a total of 3 credits of Internship, Independent Study, Group Study, and Research courses may be included in the program.

Master of Science in Toxicology, Plan B

Department of Environmental and Radiological Health Sciences

Toxicology is the study of the effects of chemicals and other potentially harmful agents on biological systems. The field draws upon the sciences of biology, chemistry, biochemistry, physiology, cell and molecular biology, neuroscience, and pathology. The core curriculum provides a comprehensive background in toxicology, enhanced by elective offerings in the department and the many basic and health science courses available at CSU.

The non-thesis M.S. in Toxicology, Plan B transitions graduates into MD, DVM, PharmD, and other professional programs, and prepares students for research careers in industry, government, and academia. Graduates can also find professional employment in public and private sector positions such as environmental protection, risk assessment, or product safety evaluation.

Requirements Effective Fall 2022

Code	Title	Credits
Core Courses		
ERHS 502	Fundamentals of Toxicology	3
ERHS 601	Metabolism and Disposition of Toxic Agents	3
ERHS 602	Toxicological Mechanisms	3
ERHS 603	Toxicological Pathology	3
ERHS 693C	Research Seminar: Toxicology	1

ERHS 567	Cell and Molecular Toxicology Techniques	
ERHS 568	Pharmaceutical and Regulatory Toxicology	
ERHS 569	Immunotoxicology	
ERHS 733	Environmental Carcinogenesis	
Other Requirements		
Electives ^{1,2,3}		10
Program Total Credits:		32

A minimum of 32 credits are required to complete this program.

- ¹ Courses selected in consultation with advisor and graduate committee.
- ² A maximum of 7 credits below the 500-level may be included in the program.
- ³ No more than a total of 6 credits of Internship, Independent Study, Group Study, and Research courses may be included in the program.

Successful completion of a comprehensive examination is required.

OR with the consent of the major advisor and program coordinator, preparation of a professional paper under the direction of a Toxicology faculty member may be completed in place of the comprehensive examination. For this option, the student must register for ERHS 695C.

Ph.D. in Environmental Health

This program provides graduate students with broad experience in environmental health. Our program is guided by the concepts and principles as delineated by the National Environmental Health Association, which defines environmental health as “the science and practice of preventing human injury and illness and promoting well-being by: identifying and evaluating environmental sources and hazardous agents and limiting exposures to hazardous physical, chemical, and biological agents in air, water, soil, food and other environmental media or settings that may adversely affect human health.” Recognizing that environments may also have beneficial impacts on communities, we also seek to understand the positive impact of built and natural environments on mental and physical health.

The flexible nature of this program allows students to design their graduate coursework to meet specific professional goals and will prepare students to work in a number of settings including public and private sectors as well as academia. Our goal is to provide students with critical analytic tools, subject-matter expertise, and problem-solving skills to be

at the forefront of leadership and scholarship in the field of environmental health.

As an inherently multidisciplinary field, our PhD program strives to have students have broad exposure to the core sciences/pillars in environmental health (epidemiology, toxicology, exposure assessment, and policy) to be successfully collaborate and work across the field, while allowing students to pursue a depth of knowledge in a specific subject matter area that are required of all doctoral programs.

Learning Objectives

- 1) Evaluate, qualitatively and quantitatively, risks of exposures emanating from built and natural environments of public health concern.
- 2) Anticipate emerging environmental health issues.
- 3) Assess health impacts of environmental exposures.
- 4) Design and develop control and remediation strategies to mitigate environmental hazards.
- 5) Implement management strategies for achieving programmatic goals in environmental health.
- 6) Develop strategies to obtain compliance within an environmental health regulatory framework.
- 7) Communicate environmental risk to technical and lay populations.

Requirements Effective Fall 2023

Code	Title	Credits
Core Requirements:		
CIVE 526	Pollution, Exposure, and the Environment	3
Select one group from the following:		3
Group A:		
ERHS 502	Fundamentals of Toxicology

STAR 534	Machine Learning for Researchers	
ERHS 799	Dissertation	12-18
Electives (500-level or above) ^{1, 2}		32
Program Total Credits:		72-79

A minimum of 72 credits are required to complete this program.

¹ Students may apply an earned Master's degree for up to 30 credits toward the PhD requirements.

² Electives must be approved by the student's advisor and graduate committee.

Ph.D. in Environmental Health, Epidemiology Specialization

Department of Environmental and Radiological Health Sciences

The field of epidemiology is defined as the study of the distribution and determinants of disease, injury, and health in populations, with the ultimate goal of disease prevention and control. Epidemiology is one of the core sciences of public health and serves as the foundation for the design and analysis of research studies. The Ph.D. in Environmental Health, Epidemiology Specialization offers both theoretical knowledge and applied experiences in epidemiology, with a focus on quantitative methods. The skills and knowledge gained in the program can be applied to a broad range of risk factors and health outcomes.

RCR		
Responsible Conduct Research Training ⁶		0
Program Total Credits:		72

A minimum of 72 credits are required to complete this program.

¹ Required for MAP ERC Trainees.

² Maximum of 4 credits allowed.

³ Minimum of 6 credits in 2 courses with approval of advisor and graduate committee.

⁴ Select three credits of statistics with approval of advisor and graduate committee.

⁵ Other ERHS 500-level or higher courses may be approved on a case by case basis by the graduate advisory committee.

⁶ Required of all Ph.D. students enrolled in the program.

Ph.D. in Environmental Health, Occupational Ergonomics and Safety Specialization

Department of Environmental and Radiological Health Sciences

The Ph.D. in Environmental Health, Occupational Ergonomics and Safety Specialization is based on a multidisciplinary group of faculty and courses aimed at enhancing the workplace in terms of safety, process and product quality, and the quality of work life. The foundation of the program is driven by the utilization of a systems approach in human-centered design and in the most current safety theories and practice. The program integrates a multidisciplinary approach from psychology, engineering, the health sciences and safety to better understand and optimize human well-being and overall system performance in the workplace.

The Ph.D. program has the flexibility for students to pursue research related to ergonomics and safety from approaches in psychology, engineering, the health sciences, and occupational epidemiology. Graduates from the Ph.D. program are typically employed in leadership positions in the field of occupational safety and health. Many of our doctoral level graduates are professors at universities, program managers and directors at multinational companies, researchers at private and public organizations, as well as managing consultants in industry.

Ph.D. in Radiological Health Sciences

The Ph.D. in Radiological Health Sciences focuses on the study of radiation and its effects on humans, society, and the environment.

Areas of emphasis include cancer research and the role of ionizing radiation in inducing, diagnosing, and treating cancer; radiation biology, health physics, radioecology and radiochemistry. The core curriculum provides a comprehensive background in the radiation and radiological sciences, enhanced by elective offerings in the department. The program is designed to support the development of students into independent scientists and to prepare them for careers in industry, government, and academia.

Requirements Effective Fall 2021

ERHS 712	Physics of Diagnostic Imaging	
ERHS 714	Radiation Therapy Physics	
Electives (500-level or above) ^{3,4}		31-37
Program Total Credits:		72

A minimum of 72 credits are required to complete this program.

¹ ERHS 551A, ERHS 551B, or ERHS 551C may be substituted.

² Take in four semesters for a total of 4 credits.

³ Electives must be approved by the student's advisor and graduate committee.

⁴ Students may apply an earned Master's degree for up to 30 credits toward the PhD requirements.

Ph.D. in Toxicology

Department of Environmental and Radiological Health Sciences

Toxicology is the study of the effects of chemicals and other potentially harmful agents on biological systems. The field draws upon the sciences of biology, chemistry, biochemistry, physiology, cell and molecular biology, neuroscience, and pathology. The core curriculum provides a comprehensive background in toxicology, enhanced by elective offerings in the department and the many related basic and health science courses available at CSU. The Ph.D. in Toxicology prepares students for research careers in industry, government, and academia. The emphasis is on developing the abilities of the student to progress to a career as an independent scientist.

Graduate Graduate Programs in Microbiology, Immunology and Pathology

The department offers graduate programs leading to Master of Science, Doctor of Philosophy, and combined Doctor of Veterinary Medicine/Doctor of Philosophy degrees. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Microbiology, Immunology and Pathology. (<https://vetmedbiosci.colostate.edu/mip/>)

The research programs in the department provide excellent opportunities for graduate training in fundamentals of modern investigative microbiology, immunology, and pathobiology. An emphasis is placed on a multi-disciplinary approach to research problems. Areas of research strength in the department include bacteriology, immunology, mycobacterial diseases, prion biology, vector borne infectious diseases, and virology. Please visit the Department of Microbiology (<https://vetmedbiosci.colostate.edu/mip/>) for more information.

Master's Programs

- Master of Science in Microbiology, Plan A*
- Master of Science in Microbiology, Plan B

Ph.D.

- Ph.D. in Microbiology*
- Ph.D. in Pathology*

* Please see department for program of study.

Courses Microbiology, Immunology, and Pathology (MIP)

MIP 101 Introduction to Human Disease (GT-SC2) Credits: 3 (3-0-0)

Course Description: Survey of human systems and diseases.

Prerequisite: None.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).

MIP 149 The Microbial World Credits: 3 (3-0-0)

Course Description: Importance of microbiology in daily life, with emphasis on positive and negative roles of microbes, infectious disease, and current microbiology issues.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 150 Introduction to Research Methods Credits: 3 (0-6-0)

Course Description: Undergraduate research experience highlighting fundamental skills of laboratory research while working towards the goal of novel microbial discovery.

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 192 Microbiology First-Year Seminar Credits: 2 (0-0-2)

Course Description: Introduction to microbiology major and faculty; academic and career planning; information sources in biomedical sciences.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 250 Eukaryotic Microbiology Credits: 3 (3-0-0)

Course Description: Cell biology topics with emphasis on eukaryotic microbes. Topics include the central dogma of molecular biology, cell structure and function, and cell membranes as they relate to the importance of the host cell as well as parasites. Spotlight microbes will be studied that depict many eukaryotic processes important in cell biology, human health, and scientific models.

Prerequisite: CHEM 111, may be taken concurrently and LIFE 102.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 260 The World of Parasites Credits: 3 (3-0-0)

Course Description: Introduction to parasitology; evolution, ecology, epidemiology, physiology, and morphology of representative parasites of every group.

Prerequisite: BZ 110 or LIFE 102.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 275 Microcomputing Applications in Microbiology Credits: 2 (1-0-1)

Course Description: Network software on MS-DOS microcomputers will be used to acquire and analyze data and information that are commonly encountered in microbiology.

Prerequisite: None.

Registration Information: Must register for lecture and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 292 Early Career Preparation in Microbiology Credits: 2 (0-0-2)

Course Description: Designed for sophomores who are interested in exploring career options beyond graduate/professional schools. Converse with professionals in various fields and receive training in professional skills that facilitate securing and succeeding in future jobs, including producing quality science communication, crafting a resume/CV, writing a cover letter, and identifying personal strengths and growth area.

Prerequisite: None.

Registration Information: Credit not allowed for both MIP 280A3 and MIP 292.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 298 Introductory Research Credits: Var[1-3] (0-0-0)

Course Description: Freshman/sophomore research experience in a working research environment.

Prerequisite: None.

Registration Information: Written consent of instructor required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MIP 300 General Microbiology Credits: 3 (3-0-0)

Course Description: Structure, function, development, physiology, and molecular biology of microorganisms emphasizing bacteria.

Prerequisite: (BZ 110 or BZ 120 or LIFE 102) and (CHEM 245, may be taken concurrently or CHEM 341, may be taken concurrently or CHEM 345, may be taken concurrently).

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 302 General Microbiology Laboratory Credits: 2 (0-4-0)

Course Description: Laboratory skills and techniques for isolating, characterizing, and identifying bacteria.

Prerequisite: MIP 300, may be taken concurrently.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 303 General Microbiology--Honors Recitation Credit: 1 (0-0-1)

Course Description: Research and present topics related to the material presented in MIP 300.

Prerequisite: None.

Registration Information: Participation in the Honors Program required. Must have concurrent registration in MIP 300. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 315 Pathology of Human and Animal Disease Credits: 3 (3-0-0)

Course Description: Biological systems critical to mammalian physiology and how each is affected by metabolic, genetic, environmental, and infectious agents.

Prerequisite: BZ 110 or LIFE 102.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 334 Food Microbiology Credits: 3 (3-0-0)

Course Description: Microorganisms in the spoilage of foods. Methods of control of microorganisms in food and the major food-borne diseases.

Prerequisite: LIFE 205 or MIP 300.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 335 Food Microbiology Laboratory Credits: 2 (0-4-0)

Course Description: Laboratory skills and techniques related to the presence of microorganisms in food, production, and preservation.

Prerequisite: (LIFE 206 or MIP 302) and (MIP 334, may be taken concurrently).

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 342 Immunology Credits: 4 (3-0-1)

Course Description: Principles of immunology: components of the immune system, interactions of humoral and cellular elements, and clinical applications of basic concepts.

Prerequisite: (BZ 310 or BZ 350 or LIFE 201B or LIFE 210 or MIP 250) and (CHEM 245, may be taken concurrently or CHEM 341, may be taken concurrently or CHEM 345, may be taken concurrently) and (MIP 300).

Registration Information: Must register for lecture and recitation.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 343 Immunology Laboratory Credits: 2 (0-4-0)

Course Description: Techniques used in research and clinical immunology, including diagnostic problem solving and data analysis.

Prerequisite: MIP 302 and MIP 342, may be taken concurrently.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 351 Medical Bacteriology Credits: 3 (3-0-0)

Course Description: Bacteria which cause human and veterinary diseases; host-parasite relationships, disease mechanisms, prevention, and therapy.

Prerequisite: MIP 342.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 352 Medical Bacteriology Laboratory Credits: 3 (0-6-0)

Course Description: Laboratory skills and techniques necessary for identifying medically important bacteria.

Prerequisite: MIP 302 and MIP 351, may be taken concurrently.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 384 Supervised College Teaching Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Written consent of department required. Maximum of 10 credits allowed in course. A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MIP 400A Capstone in Microbiology: Medical Microbiology Credits: 2 (2-0-0)

Course Description:

Prerequisite: (MIP 342) and (MIP 351, may be taken concurrently or MIP 420, may be taken concurrently).

Registration Information: Written consent of department required.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 400B Capstone in Microbiology: Biotechnology Credits: 2 (0-0-2)

Course Description:

Prerequisite: (BC 351 or BC 401) and (MIP 300).

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 400C Capstone in Microbiology: Immunology Credits: 2 (2-0-0)

Course Description:

Prerequisite: (MIP 342) and (MIP 351, may be taken concurrently or MIP 420, may be taken concurrently).

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 400D Capstone in Microbiology: Microbial Diversity/

Ecology Credits: 2 (2-0-0)

Course Description:

Prerequisite: (MIP 342) and (MIP 351, may be taken concurrently or MIP 420, may be taken concurrently).

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 400E Capstone in Microbiology: Microbial Genetics Credits: 2 (2-0-0)

Course Description:

Prerequisite: (MIP 342) and (MIP 351, may be taken concurrently or MIP 420, may be taken concurrently).

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 400F Capstone in Microbiology: Virology Credits: 2 (2-0-0)

Course Description:

Prerequisite: (MIP 342) and (MIP 351, may be taken concurrently or MIP 420, may be taken concurrently).

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 400G Capstone in Microbiology: Service Learning Credits: 2 (2-0-0)

Course Description:

Prerequisite: (MIP 342) and (MIP 351, may be taken concurrently or MIP 420, may be taken concurrently).

Registration Information: Written consent of department required.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 400H Capstone in Microbiology: Prion Biology Credits: 2 (2-0-0)

Course Description: Discussion of literature on a topic of importance to the research community in the discipline.

Prerequisite: (MIP 342) and (MIP 351, may be taken concurrently or MIP 420, may be taken concurrently).

Registration Information: Junior standing. Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 400I Capstone in Microbiology: Mycobacterial Biology Credits: 2 (2-0-0)

Course Description: Discussion of literature on a topic of importance to the research community in the discipline.

Prerequisite: (MIP 342) and (MIP 351, may be taken concurrently or MIP 420, may be taken concurrently).

Registration Information: Junior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 400J Capstone in Microbiology: Big Data Sets in Microbiology Credits: 2 (2-0-0)

Course Description: Discussion of literature on a topic of importance to the research community in the discipline.

Prerequisite: (MIP 342) and (MIP 351, may be taken concurrently or MIP 420, may be taken concurrently).

Registration Information: Junior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 400K Capstone in Microbiology: Parasitology Credits: 2 (2-0-0)

Course Description: Discussion of literature on a topic of importance to the research community in the discipline.

Prerequisite: (MIP 260 and MIP 342) and (MIP 351, may be taken concurrently or MIP 420, may be taken concurrently).

Registration Information: Junior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 400L Capstone in Microbiology: Microbiome Biology Credits: 2 (2-0-0)

Course Description: Discussion of literature on a topic of importance to the research community in the discipline.

Prerequisite: (MIP 342) and (MIP 351, may be taken concurrently or MIP 420, may be taken concurrently).

Registration Information: Junior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 400M Capstone in Microbiology: Vector Biology Credits: 2 (2-0-0)

Course Description: Discussion of literature on a topic of importance to the research community in the discipline.

Prerequisite: (MIP 342 and MIP 462) and (MIP 351, may be taken concurrently or MIP 420, may be taken concurrently).

Registration Information: Junior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 400N Capstone in Microbiology: Environmental Sustainability & Health Science Credits: 2 (2-0-0)

Course Description: Discussion of literature on a topic of importance to the research community in the discipline.

Prerequisite: (MIP 342) and (MIP 351, may be taken concurrently or MIP 420, may be taken concurrently).

Registration Information: Junior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 400O Capstone in Microbiology: Pathology of Infectious Disease Credits: 2 (2-0-0)

Course Description: Discussion of literature on a topic of importance to the research community in the discipline.

Prerequisite: (MIP 315 and MIP 342) and (MIP 351, may be taken concurrently or MIP 420, may be taken concurrently).

Registration Information: Junior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 400P Capstone in Microbiology: Veterinary Microbiology Credits: 2 (2-0-0)

Course Description: Discussion of literature on a topic of importance to the research community in the discipline.

Prerequisite: (MIP 342) and (MIP 351, may be taken concurrently or MIP 420, may be taken concurrently).

Registration Information: Junior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 400Q Capstone in Microbiology: One Health Credits: 2 (2-0-0)

Course Description: Discussion of literature on a topic of importance to the research community in the discipline.

Prerequisite: (MIP 342) and (MIP 351, may be taken concurrently or MIP 420, may be taken concurrently).

Registration Information: Junior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 400R Capstone in Microbiology: Food Microbiology Credits: 2 (2-0-0)

Course Description: Discussion of literature on a topic of importance to the research community in the discipline.

Prerequisite: (MIP 342) and (MIP 351, may be taken concurrently or MIP 420, may be taken concurrently).

Registration Information: Junior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 400S Capstone in Microbiology: Biofilm Biology Credits: 2 (2-0-0)

Course Description: Discussion of literature on a topic of importance to the research community in the discipline.

Prerequisite: (MIP 342) and (MIP 351, may be taken concurrently or MIP 420, may be taken concurrently).

Registration Information: Junior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 401 Laboratory Research Methods in Microbiology Credits: 4 (0-6-1)

Course Description: Hands-on experience in laboratory research methods for students working individually on a project which stems from a larger research project of a faculty member's laboratory. All students will work in the same facility equipped with appropriate equipment and supplies to conduct the student research project.

Prerequisite: MIP 150 and MIP 300 and MIP 302.

Restriction: Must be a: Undergraduate.

Registration Information: Biomedical sciences majors and Microbiology and Infectious Disease Concentration students only. Must register for laboratory and recitation.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 410 Foundations of Modern Biotechnology Credits: 2 (2-0-0)

Course Description: An introductory overview to fundamental strategies used to genetically engineer plants, animals, aquatic lifeforms, microbes for a biotechnology purpose; surveying the diverse applications of modern day biotechnology in human medicine, bioremediation, forensic science, etc.

Prerequisite: BC 351, may be taken concurrently and MIP 300.

Restrictions: Must not be a: Freshman, Sophomore. Must be a: Undergraduate.

Registration Information: Junior standing. Credit not allowed for both MIP 410 and MIP 480A2.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 420 Medical and Molecular Virology Credits: 4 (4-0-0)

Course Description: Principles of animal virology: structure, classification, assay, diagnosis, control, replication, genetics, host-parasite relationships.

Prerequisite: (MIP 342) and (BC 351, may be taken concurrently or BC 401, may be taken concurrently).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 425 Virology and Cell Culture Laboratory Credits: 2 (0-4-0)

Course Description: Isolation and characterization of viruses. Viral diagnostic and cell culture techniques.

Prerequisite: MIP 302 and MIP 420, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 432 Microbial Ecology Credits: 3 (2-0-1)

Also Offered As: ESS 432.

Course Description: Principles of microorganism interactions with their living and non-living environments; implications for the environment, plants, and animals.

Prerequisite: MIP 300.

Registration Information: Must register for lecture and recitation. Credit not allowed for both ESS 432 and MIP 432.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 433 Microbial Ecology Laboratory Credit: 1 (0-3-0)

Also Offered As: ESS 433.

Course Description: Experimental microbial ecology; the design, conduct and interpretation of experiments that illustrate basic principles of microbial ecology.

Prerequisite: MIP 300.

Registration Information: Must be taken concurrently with ESS 432 or MIP 432. Credit not allowed for both ESS 433 and MIP 433.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 443 Microbial Physiology Credits: 4 (3-0-1)

Course Description: Structure, function of bacterial constituents; comparison with other organisms. Bacterial growth, energy production, biosynthesis.

Prerequisite: (MIP 300) and (BC 351 or BC 401).

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 450 Microbial Genetics Credits: 3 (3-0-0)

Course Description: Principles of genetics at molecular level; mutation, recombination, complementation, suppression, control of gene expression, and recombinant DNA.

Prerequisite: (MIP 300) and (BC 351, may be taken concurrently or BC 401, may be taken concurrently).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 462 Parasitology and Vector Biology Credits: 5 (3-4-0)

Also Offered As: BSPM 462 and BZ 462.

Course Description: Protozoa, helminthes, and insects and related arthropods of medical importance; systematics, epidemiology, host damage and control.

Prerequisite: (BZ 110 or LIFE 103) and (MIP 302 or LIFE 206 or BZ 212).

Registration Information: Credit allowed for only one of the following: MIP 462, BSPM 462, BZ 462. Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 470 Graduate Fellowship Proposal Preparation Credit: 1 (0-0-1)

Course Description: Guidance for the process of preparing a proposal for submission to the National Science Foundation.

Prerequisite: None.

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Senior standing. This is a partial semester course. Credit not allowed for both MIP 470 and MIP 481A2.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

MIP 492 Senior Professional Development Seminar Credits: 2 (1-0-1)

Course Description:

Prerequisite: MIP 342.

Registration Information: Microbiology majors only. Must register for lecture and recitation.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 495 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: MIP 300.

Registration Information: Written consent of department required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MIP 496 Group Study Credits: Var[1-3] (0-0-0)

Course Description: Faculty-supervised investigation of areas of special interest in microbiology, virology, microbial physiology, or microbial genetics.

Prerequisite: None.

Registration Information: Written consent of instructor required.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 498 Research Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: MIP 302.

Registration Information: Written consent of instructor required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MIP 520 Fundamentals of Prion Biology Credit: 1 (1-0-0)

Course Description: Current state of prion research, future research directions, and the relationship of prion disease with other disease systems. Critical reading and synthesis of the literature, with an emphasis on writing skills.

Prerequisite: (BC 351 or MIP 342) and (MIP 300).

Registration Information: Junior standing. Credit not allowed for both MIP 520 and MIP 581A3.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 525 Flow Cytometry for Immunology Credit: 1 (1-0-0)

Course Description: Understand and interpret flow cytometry principles. Background of flow cytometry, experimental design, applications, and brief explanation of cell sorting.

Prerequisite: MIP 342 or MIP 651.

Registration Information: Senior standing. This is a partial semester course. Credit not allowed for both MIP 525 and MIP 581A4.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 530 Advanced Molecular Virology Credits: 4 (3-0-1)

Course Description: Virus-host interactions at the molecular and cellular level.

Prerequisite: (BC 351 or BC 401) and (BC 463 or MIP 450).

Registration Information: Must register for lecture and recitation.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 533 Epidemiology of Infectious Diseases/Zoonoses Credits: 3 (2-0-1)

Also Offered As: VS 533.

Course Description: Epidemiologic features of infectious and parasitic diseases that have a major impact on community medicine.

Prerequisite: MIP 300.

Registration Information: Credit not allowed for both MIP 533 and VS 533. Must register for lecture and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 535 Vector Collection and Identification Methods Credit: 1 (0-4-0)

Course Description: Training for the collection and morphological identification of mosquitoes and ticks.

Prerequisite: None.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Written consent of instructor. This is a partial semester course. Required field trips. Credit not allowed for both MIP 535 and MIP 580A4.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 540 Fundamentals of Biosafety and Biosecurity Credits: 2 (2-0-0)

Course Description: Practical applications of biosafety and biosecurity principles, including lab practices and regulatory aspects of research involving infectious microorganisms and rDNA.

Prerequisite: MIP 300.

Restriction: .

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 542 Pillars of Immunology Credits: 2 (2-0-0)

Course Description: Explore the fundamental discoveries in immunology through review of pillar publications that shape the current understanding of modern immunology.

Prerequisite: MIP 342.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Credit not allowed for both MIP 542 and MIP 580B4.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 543 RNA Biology Credits: 3 (3-0-0)

Course Description: Gene expression and regulation that occurs at the level of RNA (e.g., splicing, stability, export, translation, RNAi, etc.).

Prerequisite: BC 351, may be taken concurrently or BC 401, may be taken concurrently.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 545 Microbial Metagenomics/Genomics Data Analysis Credits: 2 (2-0-0)

Course Description: Microbiomes, microbes and their genetic material present in a host/environment, are linked to risk of disease in humans, animals, and plants. Metagenomics, including 16S rRNA community survey methods and shotgun metagenomics, use high throughput sequencing technology to provide insight into the composition and potential function of microbiomes. Hands-on experience with using bioinformatics and statistical tools necessary to process and analyze the resulting large datasets.

Prerequisite: (DSCI 510) and (STAR 511 or STAT 511A).

Registration Information: Senior standing. This is a partial semester course. Credit not allowed for both MIP 545 and MIP 581A2.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 550 Microbial and Molecular Genetics Laboratory Credits: 4 (2-6-0)

Course Description: Use of both in vivo genetics and in vitro molecular techniques to study gene structure, function, and regulation in bacteria.

Prerequisite: MIP 302 and MIP 450.

Registration Information: Written consent of department required. Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

MIP 555 Principles and Mechanisms of Disease Credits: 3 (3-0-0)

Course Description: Principles of disease processes; emphasis on reactivity of the diseased cell, tissue, organ, or organism.

Prerequisite: BMS 300.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 563 Biology of Disease Vectors Credits: 3 (3-0-0)

Course Description: Vector physiology and genomics, new strategies in vector control, and vector/host interactions.

Prerequisite: MIP 462 or BSPM 462 or BZ 462.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 565 Next Generation Sequencing Platform/Libraries Credit: 1 (0-2-0)

Also Offered As: BZ 565.

Course Description: Theoretical and experimental aspects of next generation sequencing experiments with a focus on the Illumina platform. Students will create and sequence metagenomic and 16S rDNA libraries from soil samples and unknown bacterial cultures.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. This is a partial semester course. Credit allowed for only one of the following: BZ 565, CM 581A2, or MIP 565.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 570 Functional Genomics Credits: 3 (2-2-0)

Course Description: State-of-the-art genomic tools with applications to studies of pathogenesis and pathophysiology of infectious diseases.

Prerequisite: MIP 300 and MIP 302 and MIP 443 and MIP 450.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 573A Bacterial Pathogenesis: Introduction to Mechanisms Credit: 1 (1-0-0)

Course Description: First in a series of three modules designed to conceptualize and integrate the complex cellular and molecular processes that occur when bacteria infect the host and cause disease. Classic and contemporary examples used to provide introductory concepts for a broad range of pathogens to define diverse mechanisms of pathogenesis in molecular and genetic terms.

Prerequisite: MIP 300.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. This is a partial semester course. Credit not allowed for both MIP 573A and MIP 580B1.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 573B Bacterial Pathogenesis: Mechanisms and Lifestyle Credit: 1 (1-0-0)

Course Description: Junior standing. This is a partial semester course. Credit not allowed for both MIP 573B and MIP 580B2.

Prerequisite: MIP 300 and MIP 573A, may be taken concurrently.

Restriction: Must not be a: Freshman, Sophomore.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 573C Bacterial Pathogenesis: Evading Host Defenses Credit: 1 (1-0-0)

Course Description: Third module of series designed to conceptualize and integrate the complex cellular and molecular processes that occur when bacteria infect the host and cause disease.

Prerequisite: (MIP 342, may be taken concurrently) and (MIP 573B, may be taken concurrently).

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. This is a partial semester course. Credit not allowed for both MIP 573C and MIP 580B3.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 576 Bioinformatics Credits: 3 (3-0-0)

Also Offered As: BSPM 576.

Course Description: Technical computing across platforms using bioinformatics tools in molecular analysis.

Prerequisite: BC 463 or BZ 310 or BZ 350 or CM 501 or CS 155 or ERHS 332 or MIP 275 or MIP 300 or MIP 450 or STAT 307.

Registration Information: Credit not allowed for both MIP 576 and BSPM 576.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 611 Advanced Microbiological Research Methods Credits: 4 (2-0-2)

Course Description: In-depth presentation of the ever-growing arsenal of techniques needed to be an effective experimental microbiologist/molecular biologist.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Written consent of instructor. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 612 Applied Immunology Credits: 3 (3-0-0)

Course Description: Application of classic and modern principles in immunology currently being used in the medical, biotechnology and basic research fields.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online. Enrollment in the face-to-face offering of the course requires admission to the M.S. in Microbiology, Immunology, and Pathology, Plan B.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 613 Applied Microbiology and Virology Credits: 4 (4-0-0)

Course Description: Application of bacteria, fungi and viruses in translational research, from drug and vaccine development to the generation of clean energy.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online. Enrollment in the face-to-face offering of the course requires admission to the M.S. in Microbiology, Immunology, and Pathology, Plan B.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 614 Medical Microbiology Credits: 3 (3-0-0)

Course Description: In-depth examination of the pathogenic mechanisms of medically important bacteria, fungi, parasites and viruses.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online. Enrollment in the face-to-face offering of the course requires admission to the M.S. in Microbiology, Immunology, and Pathology, Plan B.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 615 Ophthalmic Pathology Credit: 1 (1-0-0)

Course Description: Background in normal ocular histology as well as pathologic changes in the eye, taught through a combination of lectures and class discussions.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 616 Modern Molecular Biology for Microbiologists Credits: 4 (3-0-1)

Course Description: Develop a working knowledge in the theory and applications of modern molecular biology to applied and translational research uses in microbiology.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the MS in Microbiology, Immunology, and Pathology, Plan B program. Must register for lecture and recitation. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 617 Principles of Biodefense/Emerging Pathogens Credits: 3 (3-0-0)

Course Description: In-depth analysis of the physiology, biology and epidemiology of biodefense agents and emerging pathogens.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the MS in Microbiology, Immunology, and Pathology, Plan B program. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 618 MIP Masters Seminar Series Credit: 1 (0-0-1)

Course Description: Foster the development of MIP master's students by improving communication skills and discussion of cutting edge research.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the MS in Microbiology, Immunology, and Pathology, Plan B program. May be taken twice for credit. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 619 MIP Masters Topics Credits: 2 (1-0-1)

Course Description: Foster the development of MIP master's students by improving communication skills and discussion of cutting edge research.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the MS in Microbiology, Immunology, and Pathology, Plan B program. Must register for lecture and recitation. May be taken twice for credit. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 620 Advanced Prion Biology Credit: 1 (1-0-0)

Course Description: Advanced mechanisms and theories of prion diseases and other protein misfolding neurodegenerative diseases.

Prerequisite: MIP 520.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both MIP 620 and MIP 680A3.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 624 Advanced Topics in Microbial Ecology Credits: 2 (1-0-1)

Course Description: Recent conceptual developments in microbial ecology, emphasizing theoretical aspects of microbial ecology, particularly in an evolutionary context.

Prerequisite: (MIP 300) and (ESS 432 or MIP 432).

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 628 Immunity to Infection Credits: 3 (3-0-0)

Course Description: How microorganisms have evolved to counteract the immune system and how the immune system has evolved to resist microbes.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 630 Advances in Microbial Physiology Credits: 3 (3-0-0)

Course Description: Contemporary developments in bacterial structure, function, metabolism, and genetics.

Prerequisite: MIP 443.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 636 Mechanisms of Viral Infection and Disease Credits: 4 (3-0-1)

Course Description: Cytopathic mechanisms, pathogenetic events in viral diseases; host response and antiviral immunity; cancer induction by DNA and RNA viruses.

Prerequisite: MIP 420 or MIP 530.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 643 Grant Writing for Microbiology/Pathology Credit: 1 (1-0-0)

Course Description: To effectively communicate ideas, goals and approaches in a scientific grant proposal.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in an MIP graduate program.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 651 Immunobiology Credits: 3 (3-0-0)

Course Description: Structure, function, regulation of immunoglobulins and the immune system. Cellular immunity including transplantation and cancer.

Prerequisite: MIP 342.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 654 Research Policies and Regulations Credit: 1 (1-0-0)

Course Description: Reviews CSU and federal policies, rules, and regulations on integrity, use of humans and animals, authorship, data, genetics, etc., using case studies.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 666 Writing Scientific Manuscripts Credits: 3 (0-0-3)

Course Description: Writing biological science manuscripts for publication.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 670 Molecular Immunology and Immunogenetics Credits: 3 (3-0-0)

Course Description: Molecular basis and genetics of immune response. Biochemistry of immunologically mediated diseases.

Prerequisite: MIP 651.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 675 Advanced Bioanalytic Pathology Credits: 2 (2-0-0)

Course Description: Laboratory medicine for post-graduate veterinarians and professional veterinary medical students.

Prerequisite: VM 724.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor or DVM degree required.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 687 BioPharma Internship Credit: 1 (0-0-3)

Course Description: Gain experience with a supervised mock project that encompasses the various biopharmaceutical areas while working with experienced staff leading the various units.

Prerequisite: MIP 540 and MIP 611.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the MS Microbiology Plan B program. Written consent of instructor. This is a partial semester course. Background check required. Credit not allowed for both MIP 681A3 and MIP 687.

Term Offered: Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

MIP 698 Research Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in an MIP graduate program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MIP 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in an MIP graduate program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MIP 700 Topics in Microbiology Credit: 1 (1-0-0)

Course Description: Current literature in bacteriology, virology, genetics, and immunology.

Prerequisite: MIP 300.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 710 Research Team Mentoring Credit: 1 (1-0-0)

Course Description: Research skills and techniques to effectively mentor in a research laboratory setting.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both MIP 710 and MIP 780A3.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 720 Methods of Carbohydrate Analysis Credits: 2 (1-3-0)

Course Description: Structural analysis of complex carbohydrates using gas chromatography, mass spectrometry, and nuclear magnetic resonance.

Prerequisite: CHEM 346.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring (odd years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

MIP 730 Principles of Flow Cytometry & Cell Sorting Credits: 2 (1-2-0)

Also Offered As: ERHS 730.

Course Description: Explores the background of flow cytometry, fluorescent molecules, experimental design, Flow Cytometry data Analysis, applications, and principles of cell sorting.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory. This is a partial semester course. Credit not allowed for both ERHS 730 and MIP 730.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 740 Microbial and Molecular Genetics Credits: 3 (2-0-1)

Course Description: Molecular biology and genetics of prokaryotic and eukaryotic cells and their viruses; strategies for genetic manipulation.

Prerequisite: MIP 450.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 760 Mechanisms of Bacterial Pathogenesis Credits: 3 (2-0-1)

Course Description: Mechanisms of bacterium-host interaction at molecular and cellular levels in pathogenesis of bacterial disease.

Prerequisite: BC 351 and MIP 342.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 765 Comparative Neuropathology Credits: 2 (1-2-0)

Course Description: Spontaneous diseases of nervous system of domesticated, laboratory, and wild animals.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 766 Cytopathology--Clinical Pathology Credit: 1 (0-0-1)

Course Description: Discussion of cytology cases that are diagnostically challenging, medically interesting, or classic case examples. Discussions and microscopic reviews of the cases will be led by a clinical pathologist.

Prerequisite: MIP 786A and MIP 786B and MIP 786C.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Term Offered: Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

MIP 767 Advanced General Pathology Credits: 3 (3-0-0)

Course Description: In-depth, detailed study of general pathology and molecular mechanisms of disease. Help prepare students in the Anatomic and/or Clinical Pathology Residency prepare for the ACVP Board examination. Enhance the pathology knowledge and skills of Professional Veterinary Medicine students and graduate students in related disciplines.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 768 Advanced Clinical Pathology Credits: 2 (2-0-0)

Course Description: In-depth clinical pathology (cytology, hematology, and biochemistry) for post-professional students in CVMBBS residency and/or graduate degree programs.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both MIP 768 and MIP 781A2.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MIP 778 Pathobiology of Laboratory Animals Credits: 3 (3-0-0)

Course Description: Unique natural biology and diseases of laboratory animal species emphasizing clinical, diagnostic, morphologic and clinical pathologic features.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 779 Laboratory Animal Pathology Rotation Credit: 1 (1-0-0)

Course Description: Using case material compiled from submissions to the Laboratory Animal Resources necropsy service, the VTH Diagnostic services, the Armed Forces Institute of Pathology, and other resources, analyze selected slides demonstrating histologic pathology in laboratory animals. Prepare a description of the slide, provide a diagnosis and a brief summary of the pathogenesis.

Prerequisite: MIP 778.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both MIP 779 and MIP 780A1.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MIP 784 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of department required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MIP 786A Practicum: Comparative Gross and Histologic Pathology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Post-DVM graduate students only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MIP 786B Practicum: Surgical Pathology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Post-DVM graduate students only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MIP 786C Practicum: Clinical Pathology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Post-DVM graduate students only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MIP 786D Practicum: Comparative Medicine Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Post-DVM graduate students only.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MIP 792A Seminar: Research/Graduate Credits: Var[1-3] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** M.S. and Ph.D. candidates only. Maximum of 3 credits allowed per subtopic.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MIP 792B Seminar: Research/Faculty Credits: Var[1-3] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** M.S. and Ph.D. candidates only. Maximum of 3 credits allowed per subtopic.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Minor in Microbiology

A minor in Microbiology will be of considerable benefit to students majoring in biological science, natural science, food science, biochemistry, some fields of engineering, and other science-related fields.

The program is a good complement for graduates with an interest in food microbiology, immunology, medical microbiology and diagnostics, microbial genetics, or molecular biology. Additionally, some of the required and elective coursework overlaps with the interdisciplinary programs (IDPs) in molecular biology and food safety, and can be counted for both the minor and the IDP. Minors also complete classroom laboratories (MIP 302, which is required, and one additional elective lab from the approved departmental minor elective list).

Requirements Effective Fall 2020

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Core Courses		
MIP 300	General Microbiology	3

MIP 302	General Microbiology Laboratory	2
MIP 342	Immunology	4

Selected Courses (select a minimum of 12 credits from the following lists)

Select at least one from the following: 3-4

MIP 351	Medical Bacteriology
MIP 420	Medical and Molecular Virology

Select at least one from the following: 3-4

MIP 443	Microbial Physiology
MIP 450	Microbial Genetics

Select 4-6 credits not taken above, including one laboratory course, from the following: 4-6

MIP 250	Eukaryotic Microbiology
MIP 260	The World of Parasites
MIP 334	Food Microbiology
MIP 335	Food Microbiology Laboratory ¹
MIP 343	Immunology Laboratory ¹
MIP 351	Medical Bacteriology
MIP 401	Laboratory Research Methods in Microbiology ¹
MIP 420	Medical and Molecular Virology
MIP 425	Virology and Cell Culture Laboratory ¹
MIP 432/ESS 432	Microbial Ecology
MIP 443	Microbial Physiology
MIP 450	Microbial Genetics
MIP 462/BZ 462/ BSPM 462	Parasitology and Vector Biology ¹
MIP 498	Research

Program Total Credits: 21

¹ Laboratory course.

Master of Science in Microbiology, Plan B

The fully online non-thesis Master of Science in Microbiology program is designed to strengthen the scientific academic portfolio of those seeking professional degrees and provide differentiating preparation for those seeking careers in industry. Students work with one of the leading microbiology and immunology departments in the nation as they develop professional knowledge and skills.

With the growth of biotechnology and the increase in technology and specialization in applied microbiological sciences, there is a significant national need for additional educational opportunities for individuals wishing to pursue a career in these industries. In addition, many students wish to pursue additional post-baccalaureate studies due to a variety of interests such as improved preparation for professional (medical, veterinary, DO, etc.) schools or Ph.D. programs. The Department of Microbiology, Immunology, and Pathology's (<https://vetmedbiosci.colostate.edu/mip/>) Master of Science in Microbiology online program provides an excellent opportunity to meet these needs. As a recognized world leader in infectious disease basic and translational research (including over \$144 million in active extramurally funded research programs, including a good variety of translational efforts that interface with industrial partners), the Department of

Microbiology, Immunology, and Pathology is uniquely positioned to effectively provide high-quality advanced microbiology and immunology training.

Learning Objectives

The overall goal of the online program is to give each student a competitive advantage for their career in industry or continued academic and professional studies. To develop this advantage, the program leverages your undergraduate education and training in life science and provides the advanced knowledge and skills required through:

1. A rigorous curriculum designed to provide cutting-edge knowledge in both theoretical and applied aspects of microbiology, virology, immunology, and molecular biology.
2. A strong emphasis on aspects of the discipline that are useful in real world employment scenarios.
3. A well-rounded curriculum that includes the development of vital professional skills such as verbal and written communication, responsible conduct of research, and biosafety/biosecurity.
4. Active communication with regional and national representatives from the pharmaceutical, biotech, government, and public health sectors to ensure that the program's curriculum remains pertinent and effective.
5. A high-level of communication in the program to facilitate active mentoring, networking and career discussions, and access to real-world research expertise within the Department of Microbiology, Immunology, and Pathology.

Requirements Effective Fall 2021

Code	Title	Credits
MIP 540	Biosafety in Research Laboratories	2
MIP 611	Advanced Microbiological Research Methods	4
MIP 612	Applied Immunology	3
MIP 613	Applied Microbiology and Virology	4
MIP 614	Medical Microbiology	3
MIP 616	Modern Molecular Biology for Microbiologists	4
MIP 617	Principles of Biodefense/Emerging Pathogens	3
MIP 618	MIP Masters Seminar Series ¹	2
MIP 619	MIP Masters Topics ²	4
MIP 654	Research Policies and Regulations	1

Program Total Credits: 30

A minimum of 30 credits are required to complete this program.

¹ Students must take MIP 618 twice for 1 credit each time, Fall and Spring semesters, for a program total of 2 credits.

² Students must take MIP 619 twice for 2 credits each time, Fall and Spring semesters, for a program total of 4 credits.

A scholarly paper is required for this degree.

A minimum of 24 credits must be earned at CSU.

GRADUATE AND PROFESSIONAL BULLETIN

The *Graduate and Professional Bulletin* is designed to provide post baccalaureate students and prospective students with the information which is most essential. It is not a comprehensive source.

A complete listing of graduate programs and degrees may be found by visiting the Graduate School (<https://graduateschool.colostate.edu/programs/>).

The policies and procedures in the Graduate and Professional Bulletin apply to all graduate students, except for Doctor of Veterinary Medicine (<https://vetmedbiosci.colostate.edu/dvm/>) (DVM) students.

CSU reserves the right at any time, without notice, to change, modify, or cancel any course, program, procedure, policy, financial requirement, or disciplinary arrangement set forth in this catalog whenever, in its sole discretion, it determines such action to be appropriate. Furthermore, CSU will not be responsible for any failure to present or complete any course or program or to perform any other activity, function, or obligation mentioned in this catalog. Since changes may occur at any time, students must check the relevant website (as noted throughout this catalog).

CSU Student Conduct Code

The Student Conduct Code (<https://resolutioncenter.colostate.edu/student-conduct-code/>) exists to notify students, faculty, and staff of the specific expectations Colorado State University holds related to student behavior and the rights and responsibilities that accompany being a student and participating in student clubs or organizations.

Functions and Organization of the Graduate School

The purpose of the Graduate School is to promote high quality education and specialized training and to further the scholarly research and creative artistry with which such education is intimately linked. The advanced study necessary for graduate degrees requires the discovery of new knowledge, the original application or adaptation of existing knowledge, or esthetic contribution to the culture. Accordingly, graduate students perform research or do artistic work. Similarly, the faculty who are responsible for graduate education are themselves researchers or artists whose responsibilities include the transmission of their own creative skills and abilities to their students. The graduate educational mission of CSU and the research/artistic mission of CSU complement and reinforce each other and go forward in mutual interdependence.

Through the offering of the best graduate education available, CSU seeks to provide the skills and training necessary to a rapidly changing society and also to provide the basis for individual gratification and fulfillment on the part of its graduates.

Graduate degrees are awarded by CSU as an overall institution. Accordingly, CSU has specified that certain academic practices and procedures shall apply to all graduate degrees regardless of the departments and colleges in which study is undertaken. As is the case in most quality universities, some consistency of requirements has

been found desirable. The Graduate School is the unit which applies and administers these requirements.

This activity involves several discrete kinds of functions. First, the Graduate School monitors all students' progress through the entire graduate career, from sending out preliminary information on admissions to graduation. It maintains student records on application, admission, credits earned, formal programs of study, academic standing, progress toward the degree, and graduation. Additionally, it provides a regular flow of information to students and faculty regarding these practices so that the necessary steps can be taken as easily and conveniently as possible.

The Graduate School maintains an active liaison with students both on matters of overall interest and at the level of individual concerns. The former typically involves close contact with the Graduate Student Council, the campus-wide organization of graduate students, or its officers. The latter centers around matters which particular students raise as specific single cases.

The Graduate School collects and maintains information on the condition of the graduate educational mission of CSU. It concerns itself with institution-wide policies and practices that may affect this condition and will implement particular arrangements or make recommendations to the Faculty Council as appropriate.

Formal student involvement in the Graduate School proceeds through the Graduate Student Council. The Student Council consists of one student representative and one alternate from each department offering programs leading to advanced degrees. The Council elects its own officers and nominates graduate students for memberships on Faculty Council and Graduate School committees.

Admissions Requirements and Procedures

Application: U.S. Citizens or Permanent Residents
 Application: International Students
 Language Requirements
 Application Deadline Dates for Graduate School and Financial Support
 Readmission
 Transfer of Graduate Credits from Other Institutions
 Credit for Graduate Courses Taken at CSU Prior to Admission to a Graduate Program
 Students of Veterinary Medicine
 Accelerated Master's Degree Programs
 Dual and Joint Master's Degree Programs

CSU's graduate admissions program is designed to foster excellence in scholarship and promote diversity within the student population while assuring equal opportunity to all applicants.

The ultimate criterion for admission is applicant potential for attaining an advanced degree at CSU. However, the resources of CSU are limited and not all applicants who possess this potential can be admitted. Thus, selection is made taking into account a range of factors: past academic performance as indicated by transcripts of formal collegiate work, degrees completed, standardized examination scores (for example, the Graduate Record Examination or Graduate Management Admission Test), geographic residence, leadership qualities, recommendations from qualified references, economic status, ethnic origin, and racial background.

CSU does not set quotas for people possessing particular ethnic, gender, or racial characteristics. However, the vitality of CSU and the quality of the educational experience to be enjoyed by all students depend in part on the existence of a diverse student population. Thus, CSU actively seeks applicants from many backgrounds and with diverse characteristics. The institution is committed to a truly heterogeneous University community.

Application: U.S. Citizens or Permanent Residents

Students apply online (<http://gradadmissions.colostate.edu/apply/>). In addition to the online application, a non-refundable application fee must be electronically submitted.

The on-line application will be electronically submitted to the Office of Graduate Admissions and then forwarded to the appropriate academic departments. With this system, most documents are uploaded directly by the applicant. Regarding letters of recommendation, recommenders will be notified and prompted to provide a recommendation letter through the online system. The letter of recommendation will be automatically processed and submitted to the student's online file. Regardless of citizenship, applicants may be required to demonstrate proof of English language proficiency, if they do not have a degree from an institution where the primary language of instruction is English.

The following must be sent directly to the Office of Graduate Admissions at Colorado State University, 1062 Campus Delivery, Fort Collins, CO 80523-1062.

1. One official transcript of all collegiate work completed post-high school. Additionally separate transcripts are not required for study abroad credits if the GPA and credits are recorded on the transcript of the university that sponsored the study abroad experience. CSU transcripts are not required. Training course transcripts from branches of the U.S. military that show credit received with neither grades nor degrees awarded are exempt from the transcript requirement.
2. Test scores such as GRE or GMAT, if required by department, should be submitted with institution code 4075.

The application fee is not refundable even if the application is withdrawn or admission denied, nor is it applied to tuition and fees if the applicant subsequently enrolls. The non-refundable application fee must be paid, waived, or deferred before the application can be reviewed.

Only persons with bachelor's degrees from colleges or universities accredited by one of the major regional accrediting agencies are eligible to apply. Degrees from schools which do not possess overall, institutional accreditation or which have only specialized accreditation cannot be accepted. This policy does not apply to admission for accelerated master's degree programs (AMPs, see Accelerated Master's Programs), however, AMP students must earn their bachelor's degrees prior to, or concurrent with, the award of their graduate degrees.

An undergraduate grade point average of 3.000 (A = 4.000) is required for unconditional admission. Departments may petition the Graduate School to waive the 3.000 minimum undergraduate grade point average requirement under unusual circumstances. Applicants must present strong countervailing evidence that successful completion of a degree program is likely. Examples of the kinds of evidence that might be considered are explanation of extenuating circumstances that affected the undergraduate GPA and how circumstances have

changed to favor success as a graduate student, a grade of B or better in graduate-level courses taken elsewhere or at CSU as a guest, high scores on standardized tests required by the program, excellent letters of recommendation, relevant professional experience, and other indicators of exceptional motivation and performance. A positive recommendation by the department is required in such cases. Some departments may waive their specific requirements under similarly exceptional and compelling circumstances. However, they are not required to do so and many cannot, due to space and resource considerations.

If the minimum GPA requirement is waived and the applicant is accepted by the Graduate School, the applicant will be provisionally admitted and placed immediately on academic probation. The student must achieve a term GPA of 3.000, averaged across all coursework that is traditionally graded (A through F), in the first semester, or the student will be dismissed from the Graduate School. This policy applies to all provisionally admitted graduate students.

Departments may have requirements in addition to or more stringent than those of the Graduate School. Applicants are strongly urged to contact the department in which they intend to study. Meeting the minimum CSU or department standards does not entitle an applicant to admission. Meeting such standards only insures consideration of the application. Since CSU cannot accommodate all who meet the minimum standards, it reserves the right to select individuals for admission on the basis of merit in such a way as to promote the best interests of CSU and the society as a whole and to maximize the potential for individual accomplishment.

Admissions decisions are made by the Graduate School after strong consideration of recommendations made by academic departments. Decisions made by the Graduate School to deny admission are final and not subject to appeal by the applicant. Among departments where the number of admitted students is capped each year, the selection of admitted students not only considers the qualifications discussed above, but the competitiveness of the applicant pool and available resources of the department.

Persons not seeking advanced degrees may be recommended for admission as non-degree students if space permits and if they meet the academic admission requirements. Advanced course work, research experience, teacher recertification, and specialized training are among the objectives of students requesting admission in this category.

Students who have not been admitted to graduate study but who take courses on some other basis have no assurance that such courses will be acceptable in a degree program. Credits taken prior to admission to Graduate School may be allowed, but acceptance of any courses in a graduate degree program is at the discretion of the student's graduate committee and the Graduate School and will not be calculated in the student's GPA.

Courses taken by CSU *undergraduates* may, under certain circumstances, be subsequently credited toward graduate degrees at CSU.

Undergraduates who enroll in 500-level courses that are not applied toward the bachelor's degree may request that an exclusion statement be placed on their academic records for no more than 9 credits. Students cannot exclude any courses below the 500 level under this policy. *Courses at the 600 level are automatically excluded from use for an undergraduate degree.*

Accelerated Master's Program (AMP) students who wish to double count up to 9 credits of 500 level courses must submit a AMP Double Count Courses GS Form 4 (GS form 4 (<https://graduateschool.colostate.edu/wp-content/uploads/2022/01/Example-GS4-Form.pdf>)) once admitted

into the Graduate School and prior to completing your undergraduate degree. Double counted courses must appear on the formal program of study (GS form 6 (<https://graduateschool.colostate.edu/wp-content/uploads/2020/08/G6-Example-8-28-2020.pdf>)) filed during the first semester after Graduate School admission.

Permission to double count courses from the bachelor's degree does not assure acceptance of these credits toward a graduate degree program. No course will be accepted for transfer with a grade of B- or less. Both departmental and Graduate School approval is required at the time of filing the formal program of study.

Those with bachelor's or advanced degrees who desire to complete requirements for certification as teacher, administrator, counselor, reading specialist, or vocational certification must contact the School of Education. Individuals seeking professional certification in other areas must contact the departments concerned.

The submission of any false information or fraudulent documents in connection with the application process is grounds for rejection of the application or dismissal from the Graduate School regardless of the nature of other credentials.

Application: International Students

Application procedures are similar to those for U.S. citizens or permanent resident students. Refer to U.S. Citizens or Permanent Residents information for instructions.

The following materials must be sent directly from the institution or testing service to the Office of Graduate Admissions at Colorado State University, 1062 Campus Delivery, Fort Collins, CO 80523-1062.

1. An official transcript of all collegiate work completed along with a certified translation into English.
2. Scores on the Test of English as a Foreign Language (TOEFL), International English Language Testing System (IELTS), or Pearson Test of English (PTE) Academic. Test scores should be submitted with institution code 4075.
 - a. When the CSU graduate degree program is taught in the student's native language, the TOEFL, IELTS, or the PTE Academic requirement will be waived.
 - b. Students are exempted from the TOEFL, IELTS, or PTE Academic requirement if the official language of their country is English or if they have recently earned a degree at a university in the United States.
3. Test scores such as GRE or GMAT, if required by department, should be submitted with institution code 4075.

Required items for Immigration Document Issuance

These items are not required for the application review process, but will be required if officially admitted. The following materials must be uploaded to your CSU application:

1. Certified proof of financial support
2. Passport copy

Departmental requirements for additional materials such as standardized tests (e.g. GRE or GMAT) are the same as for U.S. students. Regulations regarding deadlines and application fees are likewise the same as for U.S. students.

Information on application deadlines and application fees is contained in the U.S. Citizens or Permanent Residents section.

The U.S. Bureau of Citizenship and Immigration Services requires CSU to have proof of financial support before immigration documentation can be issued. Immigration documentation is needed to obtain a visa. The following link provides more information: <https://international.colostate.edu/iss/students/obtain-your-immigration-documents/>

All international students and their accompanying dependents are required to maintain adequate health insurance during their stay at CSU.

Only persons with degrees equivalent to U.S. 4-year bachelor's degrees are qualified to apply for admission. Further, it is a CSU regulation that international applicants should be among the top students in their classes.

CSU requires that proficiency in English language be demonstrated either by the TOEFL, IELTS, or PTE Academic tests prior to admissions. The minimum TOEFL score for admission without condition is 80 for the (internet-based exam). Contact the Graduate School for guidance on interpreting paper-based exam scores. The minimum IELTS score for admission without condition is 6.5. The minimum PTE Academic Score for admission without condition is 58. Official scores, taken within two years prior to admission, must be submitted directly from the testing agency.

To be considered for conditional admission, a student must have a minimum TOEFL score of 50 on the internet-based test, a minimum IELTS score of 5.5 or PTE scores from 40-57. After receiving conditional admission, the student must satisfactorily complete the Intensive English Program offered through the Office of International Programs. Enrollment in regular CSU academic courses is at the discretion of the admitting department and the Intensive English Program. Approval of both the department and the Graduate School is necessary for conditional admission.

Generally, however, applicants should achieve satisfactory TOEFL, IELTS or PTE Academic scores before arriving on the CSU campus.

The individual departments may have requirements or standards in addition to or more stringent than those of CSU. Students must contact the department in which they intend to study for additional information. Consult the Department Head or Program Contact Persons for the proper addresses.

The paragraphs in the preceding section on U.S. Citizens or Permanent Residents on academic requirements, how students are selected for admission, non-degree study, previous undergraduate work at Colorado State, certification, and the consequences of presenting any materials that are not genuine, also apply to international students.

Language Requirements

English is the language of instruction at CSU. Adequate knowledge of that language is expected. The various departments generally evaluate students in this regard, and they may require students to secure remedial instruction if necessary.

Students whose native language is not English must demonstrate capability through the TOEFL examinations or other means (see above).

Some departments may require a knowledge of one or more foreign languages for advanced degrees. For information the student should contact the department.

Application Deadline Dates for Graduate School and Financial Support

Individual degree programs establish their own application deadline dates for Graduate School and financial aid support. General deadlines for the receipt of complete applications are as follows: Fall Semester, April 1; Spring Semester, September 1; Summer Term, January 1. Please consult the degree program or department website for exact deadline dates. Applications completed later than published deadlines may be considered depending on space and resources available. Late applications that cannot be considered may be updated by the applicant or the department to a later semester or term; otherwise the application will be withdrawn. Except for Accelerated Master's Program (AMP) admissions, applications cannot be accepted more than fifteen months in advance of the term in which study is to begin.

Students who wish to be considered for fellowships, assistantships, or other forms of merit- or competency-based financial support may be subject to earlier deadlines. See Application for Financial Support.

Term	Applying to Graduate School Only	Applying to Graduate School and Financial Support
Fall	April 1 st	February 15 th
Spring	September 1 st	July 15 th
Summer	January 1 st	November 15 th

Personal Identifier/Social Security Number

The personal identifier for all CSU students is the CSUID. The CSUID is a nine-digit unique numeric identifier that begins with the digit 8 and is assigned by the ARIES student information system. The Social Security number (SSN) is no longer used at CSU as a personal identifier.

All students are requested to submit a Social Security number (SSN) at the time of admission or before initial enrollment at CSU. The Social Security number is maintained as a secure data element in the student information system and is not accessible as directory information or to unauthorized persons. International students are encouraged to file for a Social Security number although they are not eligible for Social Security benefits. Students' disclosure of the social security number is required for financial aid purposes, employment, and state and federal reports required by law.

The Social Security number is released to agencies or individuals outside CSU only at the request of the student or in accordance with federal and state requirements in regard to financial aid awards; Internal Revenue Service for student employee salary reporting and 1098T/1098E reporting; and State Controller's debt collection procedure. CSU has strict policies protecting and prohibiting the use of SSN and uses every reasonable effort to hide and protect SSN.

Readmission

Graduate students enrolled in a degree or certificate program are required to be continuously enrolled. If there is an interruption in successive semester-to-semester registration in a degree program, enrollment will lapse and graduate students will need to reapply for admission. This

applies to all graduate students, on-campus resident instruction or on-line. There is a non-refundable readmission fee.

Readmission is not required for Guest registration or courses taken outside of a degree program.

For a certificate-seeking post-baccalaureate student not enrolled in a degree-program, or, if there is a lapse in continuous enrollment in a certificate program, students will be required to complete a new application. There is a non-refundable application fee.

Transfer of Graduate Credit from Other Institutions

Credit may be transferred to a graduate program at CSU with the approval of advisor, committee, and Graduate School. There is no right to transfer credits; each case is assessed individually and accepted or rejected on its merits. The number of credits that may be transferred is limited. See requirements for the number of credits that may be earned at CSU after admission to the Graduate School under the descriptions of the various degree programs and in Credit Requirements section.

Individual credits used to fulfill requirements for previously earned degrees are not accepted for transfer credit.

Requests to transfer graduate credit earned at another university must be accompanied by official transcripts. Courses accepted for transfer must be at the equivalent level of CSU's regular courses at the 500 level or above. Arrangements for transfer of credit are made when the program of study is submitted (see Program of Study). In general, credits transferred must be part of a graduate curriculum. However, credits that are part of a post baccalaureate professional curriculum in Medicine, Veterinary Medicine, Dentistry, Pharmacy, Law, or Divinity may be so transferred if they address the intellectual bases of a graduate discipline.

Credits earned at institutions not accredited by one of the major regional accrediting agencies are not acceptable for transfer; except that a CSU academic department may petition the Graduate School to have graduate level credits earned from an international institution accepted as transfer credit. Grades in courses accepted for transfer will not be included in calculation of the grade point average. No course will be accepted for transfer with a grade of B- or less.

CSU may establish bilateral cooperative agreements with other institutions within the Colorado State University System (CSU-Pueblo (<http://www.csupueblo.edu/Pages/default.aspx>) and CSU-Global (<https://csuglobal.edu/>)) that permit transfer to CSU of up to half of the total required credits for a specific master's degree.

Procedures

1. Any bilateral agreement must be formal, proposed by an academic department, signed by the Provost/Academic Vice-President, and approved by the Committee on Scholarship, Research and Graduate Education (COSRGE). It must refer to a particular named master's degree now offered by CSU.
2. Courses offered for transfer under these arrangements must be:
 - a. The exact equivalents of particular courses at CSU and so certified by the Faculty Council Curriculum Committee.
 - b. Taught by persons who are Faculty or Affiliate Faculty of CSU.
3. Persons who seek to avail themselves of such transfer privileges must be admitted to graduate school at CSU. No more than nine credits offered for transfer may be earned prior to such admission.

This means that students must apply for and secure admission well in advance of actual transfer to CSU.

4. Persons who transfer credits under such a bilateral agreement may also transfer credits under the normal procedures as described in this Bulletin. Such transfers may not exceed six credits and the total number of transferred credits, under bilateral agreement and normal procedure combined, may not exceed half the total required for the master's program.
5. Credits submitted or transferred under such special agreements must be earned by a person enrolled as either a graduate student or a post baccalaureate student at the cooperating institution. Credits earned prior to the award of a bachelor's degree or those used to fulfill requirements for a previously earned degree are not accepted.
6. Additional regulations and restrictions as described in this Bulletin under the section Transfer of Graduate Credit from Other Institutions also apply to bilateral agreement transfers.

Credit for Graduate Courses Taken at CSU Prior to Admission to a Graduate Program

Certain CSU courses taken after receipt of a bachelor's degree but prior to formal admission to a graduate program may contribute to graduate degree requirements (see Credit Requirements for the degree pursuing). Grades earned in such courses will not be included in the calculation of grade point averages. No course will be accepted for transfer with a grade of B- or less.

Students of Veterinary Medicine

A student in the College of Veterinary Medicine and Biomedical Sciences who holds a bachelor's degree and who meets the requirements for admission to the Graduate School may pursue work concurrently toward the degrees of Doctor of Veterinary Medicine and Master of Science if approved in advance by the Dean of the College of Veterinary Medicine and Biomedical Sciences and the Dean of the Graduate School. Credits applied on one degree may not be used in meeting requirements for the other. Refer to the Doctor of Veterinary Medicine program (<http://csu-cvmb.colostate.edu/dvm-program/Pages/default.aspx>) or the Graduate School (<http://www.graduateschool.colostate.edu/>) for more information.

Accelerated Master's Degree Programs

Accelerated master's programs (AMP) partner an undergraduate and a master's degree graduate program within or between departments, programs, or SAUs in the same or differing colleges, in a streamlined path that reduces the time to earn a master's degree. Undergraduate students are admitted internally by the participating programs and are guaranteed conditional admission to the partnering graduate program during their undergraduate career. Final admission to the graduate program and Graduate School is granted when students meet the minimum graduate program and Graduate School admissions criteria upon completion of the bachelor's degrees.

Undergraduate students in AMPs may enroll for a maximum of nine credits of 500-level regular coursework while paying the undergraduate tuition rate. These credits will be counted toward the undergraduate degree. Regular, 500-level courses with grades of B or better will be transferred and double-counted toward the graduate degree, as courses taken prior to final admission to the graduate program.

If the nine credits taken fulfill the requirements of a graduate certificate, the graduate certificate may be awarded once the student is enrolled in the partnering graduate degree. Graduate students must apply for

the graduate certificate program and pay the application fee for the certificate to be conferred.

To participate in an AMP, undergraduate students complete an internal AMP application created by the partnering undergraduate and graduate programs. The timing of the application and its requirements are defined by the partnering programs. The minimum undergraduate GPA acceptable for entrance into an AMP is 3.000. Students may be admitted into the AMP at any point the partnering programs of the AMP so choose.

Students must complete the Graduate School application and pay the Graduate School application fee during their final undergraduate year.

To be eligible to offer an AMP, partnering programs must submit, and have approved by the department head(s), college dean(s), and Graduate School, a one-time Memorandum of Understanding (MOU), available from the Graduate School. The minimum requirements for the MOU are:

1. Description of the purpose of the AMP.
2. List participating undergraduate and graduate program codes.
3. List the internal admissions requirements for students participating in the AMP. All undergraduate students must have a GPA of 3.000 or higher to be admitted by the programs.
4. Students will be advised of the following:
 - a. Admitted undergraduate students are guaranteed conditional admission to the partnering graduate program.
 - b. Students may enroll in up to nine credits of 500-level regular course work of the graduate program as undergraduates, while paying the undergraduate tuition rate. These credits will be counted toward the undergraduate degree. Regular, 500-level courses with grades of B or better will be transferred and double-counted toward the graduate degree, as courses taken prior to final admission to the graduate program.
 - c. Students must complete the Graduate School application and pay the application fee during their final year as undergraduates. Graduate applications will not be accepted earlier than one year prior to starting the graduate program.
 - d. Students must complete and submit the GS4 Double Count Form (<https://graduateschool.colostate.edu/wp-content/uploads/2022/01/Example-GS4-Form.pdf>) in RAMweb during their final undergraduate semester and prior to completing the undergraduate degree.
 - e. Final admission to the partnering graduate program and the Graduate School is granted when students meet the minimum graduate program and Graduate School admissions criteria upon completion of their bachelors' degrees.
 - f. Students must earn 21 credits after admission to the Graduate School for a master's degree.
 - g. If applicable, students will be advised that if the nine credits taken fulfill the requirements of a graduate certificate, the graduate certificate can be awarded once the student is enrolled in the partnering graduate degree. Graduate students must apply for the graduate certificate program and pay the application fee for the certificate to be conferred.

h. This is a continuous enrollment program requiring students to be continuously registered in fall and spring semesters - both upon the completion of the undergraduate degree and throughout the completion of the AMP. Deferral of enrollment into the master's program is not permitted and continuous registration (CR) may not be used until the second semester in which a student is officially admitted to a graduate program.

5. Provide contacts of department staff members that will be managing the AMP.

6. Approval signatures of the department head(s), college dean(s), and the Dean of the Graduate School.

Departments offering AMP programs with unique requirements, incentives or other elements in addition to those stated above must request approval from the Graduate School for the specific terms they wish to address. The final terms of the agreement will be stipulated in an MOU between the Graduate School and the partnering programs.

Dual and Joint Master's Degree Programs

Dual and joint degree programs partner two master's degree programs within or between departments, colleges, programs, or SAUs in the same or differing college. Such dual and joint programs have been formally reviewed and approved through the University's curricular processes. A dual degree program results in the simultaneous conferral of two separate degrees. A joint degree program results in the conferral of a single degree with both programs listed on the diploma. For either the dual or joint degree program, a defined number of credits is shared between the two program areas, so that the total number of credits is less than that for two individual degrees.

Applicants must meet the minimum qualifications of the Graduate School (see section on Application: U.S. Citizens or Permanent Residents (<https://gradadmissions.colostate.edu/apply/>)), as well as any additional qualifications of the dual or joint program.

For new students, applicants must apply online (<https://gradadmissions.colostate.edu/apply/>) to the dual or joint program (see section on Application: U.S. Citizens or Permanent Residents (<https://gradadmissions.colostate.edu/apply/>)). There is a single application process and only one application fee is submitted. If the student is already enrolled in one master's degree, and wishes to switch to a dual or joint master's degree program, the student must complete the Request for Change of Department and/or Degree Program (GS7) form (<https://graduateschool.colostate.edu/forms/>) and submit it to the Graduate School.

Inter-University Graduate Programs

The earning of a graduate degree is a wide-ranging, challenging intellectual experience. It certainly involves mastery of important subject matter. It may require the possession of knowledge in addition to that acquired through course work and also the ability to creatively synthesize and interpret that knowledge. Further, research or artistic projects are often an integral part of graduate study as may be field responsibilities or service obligations. Since graduate work extends beyond completion of course work in several ways, it is often the case that some form of culminating event, be it comprehensive examination, thesis, or other undertaking is part of the degree program.

Graduate Enrollment Requirement

Posthumous Degree

The graduate experience, involving as many dimensions as it does, requires careful and comprehensive planning. This planning is done by the student, the advisor, and the graduate committee. Of course, it should take place early in the graduate career. The necessity for planning underlies the advisory system, the limitation on the number of credits that may be transferred, and requirements that certain amounts of the work in any degree program must be completed at CSU after admission to the Graduate School. These are all explained below.

Comprehensive planning assures that the greatest possible benefit will be gained from graduate study. Depending on discipline, career objectives, and particular curricular needs, unique study plans may be arranged for students on an individual basis.

Just as the scope of activities involved in earning a graduate degree is extensive and complex, so is the necessary evaluation of student performance. Students must not only demonstrate the ability to earn satisfactory grades in their courses, but must also show that they possess those more elaborate abilities and skills essential to the various academic and professional fields. The advisor and graduate committee have the primary responsibility for assessing these broader dimensions of student progress.

The requirements set forward in this section are those of CSU as a whole. However, the various programs may have additional requirements not listed here. These requirements must also be met in completing a degree. Please consult the department for appropriate information. See the Areas of Study within the Graduate Degrees (<http://graduateschool.colostate.edu/programs/>) section in the Graduate School website.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website.

Students should consult this schedule whenever they approach important steps in their careers.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/ Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/ dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

The Advisory System

Since thoughtful planning is vital to a graduate student career, a comprehensive arrangement for advising has been established. Each student is initially assigned a faculty member as advisor by the head of the department in which the major is pursued.

A permanent advisor will be selected from among departmental faculty once initial entry to the program has been completed. (The temporary advisor may assume this role if appropriate.)

The advisor is the chief source of advice in the planning process. This individual works closely with the student throughout the graduate career on all matters related to the degree program.

A close, cordial, and professional relationship is therefore of the utmost importance. Both student and advisor should work at achieving mutual understanding and respect.

Except for those pursuing Plan C master's degrees, each student has an individual graduate advisory committee. Members of the committee should be chosen on the basis of the student's interests, the student's experience with faculty members, and the advisor's knowledge and expertise. The makeup of a graduate committee must be approved by the department head and, of course, agreed to by the potential members themselves. It is well for the student to assume the responsibility of securing these approvals and agreements.

The purpose of the committee is to make available to the student a broad range of knowledge and expertise. It aids in general advising of the student and assists in planning the major elements of the program. The committee also evaluates student progress throughout the graduate career. It may provide assessments at various stages and it administers the final examination. The committee is not responsible for reminding students of published deadlines nor for monitoring procedural details. The student should manage such matters independently.

The committee must consist of at least three faculty members for a master's degree program and at least four for a doctoral degree program. The members are as follows:

1. The advisor who serves as chairperson of the committee and who must hold academic faculty rank as a professor, associate professor, or assistant professor¹ of any appointment type within the department or program granting the degree;
2. One or more additional members from the department;
3. Any non-departmental faculty member who may be appropriate; and
4. One member from an outside department who, appointed by the Dean of the Graduate School, represents the Graduate School. The outside committee member appointed by the Dean of the Graduate School must hold a tenured, tenure-track, contract, continuing, transitional, joint, or emeritus/emerita faculty appointment at CSU. The outside member should serve as an impartial external evaluator on the committee, ensuring quality of scholarship and fairness in process.
5. Non-CSU employees may obtain faculty affiliate appointments in an academic department in order to be eligible to serve on graduate committees. They may also be appointed to such committees through a nomination process that is reviewed and approved by CoSRGE (Faculty Council Committee on Scholarship, Research, and Graduate Education).

¹ Departments may specify in their Codes whether Senior or Master Instructors may serve as graduate student advisors.

Please contact the Human Resource staff member of the appropriate department to determine the appointment designation of a potential committee member.

Due to the interdisciplinary nature of some scholarship at CSU, conflicts of interest in advisory committees between members or between the student and one or more members may not be avoidable. When a conflict of interest exists, a written report must be submitted by the chair of the advisory committee to the Dean of the Graduate School that includes:

1) the names of those involved in the conflict of interest, 2) the nature of the conflict of interest, 3) a plan to manage the conflict of interest. Failure to disclose a conflict of interest is a violation of CSU Policy (Faculty and Staff Manual: D.7.7. (<https://facultycouncil.colostate.edu/faculty-manual-section-d/#D77>), Appendix 2, Appendix 6 (<https://facultycouncil.colostate.edu/media/sites/43/2018/03/2017-appendix-7-addition.pdf>)). Individuals who are not academic faculty but who have special expertise may serve on committees in addition to the prescribed members, but may not vote regarding examination results.

Plan C master's students are required to have an advisor but not a committee.

The advisor is identified and the committee is appointed through filing a GS Form 6 (<http://graduateschool.colostate.edu/policies-and-procedures/forms/#GS6>) with the Graduate School. It is the student's responsibility to identify an advisor and a committee, all of whom are willing and qualified to serve. The student's department chair or designee will use their best efforts to facilitate selection of the committee and subsequent changes therein. With notification, temporary replacement of a member may be arranged. A member, including the advisor, may resign from the committee in accordance with any applicable provisions in the student's departmental code. In such cases, the affected student and their department chair will be notified promptly by the departing member. It is then the student's responsibility to obtain a replacement. Any permanent changes are recorded through the filing of GS Form 9A (<http://graduateschool.colostate.edu/policies-and-procedures/forms/#GS9A>) with the Graduate School.

Persons who are not academic faculty (as defined in the Academic Faculty and Administrative Professional Manual (<http://facultycouncil.colostate.edu/faculty-manual/>)) of CSU may be appointed full voting members of graduate student advisory committees in the following manner. A person may be nominated for membership on a specific student's committee. This is accomplished by submission of the following materials to the department head: 1) a resume, 2) relevant supporting material, 3) a statement from the nominated individual that indicates whether or not there is a conflict of interest with any of the committee members or student. If there is a conflict of interest, the chair of the advisory committee must submit a written plan to manage the conflict of interest. If, using procedures and criteria outlined in the departmental code, the department head judges the appointment appropriate, they shall forward a recommendation and all materials to the Dean of the Graduate School. The Dean of the Graduate School shall bring the nomination to the appropriate Faculty Council Committee, which shall act on the nomination.

A person so approved shall be eligible to serve on the committee for the duration of the student's work toward the degree. The Graduate School shall maintain a roster of such appointments. Although approval is granted with respect to a particular student's committee, such members may serve on other student committees in the same department with additional departmental approval provided that such service shall not extend beyond five years of the original appointment.

Such non-faculty appointments are subject to the following restrictions.

1. Such an appointee may not serve as an outside member of graduate committees.
2. Service may not be as the sole advisor of the student.
3. The appointee must have a degree equivalent to that sought by the student. In the case of professional doctorate graduate committees, an appointee without an equivalent degree may be nominated if the

appointee has a substantial and relevant employment record in an applied setting.

4. The appointee must not be a student at CSU.
5. No more than one such person may serve on any graduate student's committee.
6. The person appointed should be an addition to the minimum number now required on graduate committees and not a replacement for required faculty. The advisor may invite others to participate in the examination in a nonvoting, advisory capacity.

Program of Study

Each student must prepare a Program of Study, a document which lists all courses taken in pursuit of the degree. This is the formal statement of what is done to achieve the degree, the summary of all academic planning. The advisor and the committee are heavily involved in the development of the Program of Study. The Program of Study must be filed with the Graduate School before the time of the fourth regular semester registration. Students who fail to meet this requirement may be denied subsequent registration. For Accelerated Master's Programs (AMP) Admission students, program of study forms (GS Form 6 (<http://graduateschool.colostate.edu/policies-and-procedures/forms/#GS6>)) must be filed by the end of the second week of the students' first semester after admission to Graduate School. Courses listed and approved on this form for graduate requirements will be automatically excluded from the undergraduate degree program of the student. The Graduate School reviews each program of study (GS Form 6 (<http://graduateschool.colostate.edu/policies-and-procedures/forms/#GS6>)) and determines whether the program of study conforms to University policy. That is, an early graduation check is performed. Problems are reported to students so that they can be corrected at an early date.

While it is important to plan the Program of Study early in the graduate career, it is not necessarily permanently fixed. Plans may develop and change. Modifications must be formally recorded, however, and the advisor, department head, and the Graduate School must approve. Courses which have been taken and for which a grade has been received (A through F, I, S or U) may not be removed from the Program of Study. Changes in program of study or committee membership should be made with extreme care since no additional comprehensive checks are made until the time of graduation.

The Program of Study is submitted on GS Form 6; any changes are recorded on GS Form 25 (<http://graduateschool.colostate.edu/policies-and-procedures/forms/#GS25>), Application for Graduation.

Scholastic Standards

To meet the requirements for graduation and to remain in good academic standing, a student must demonstrate acceptable performance in course work after being admitted to a graduate program. This requires a cumulative 3.000 grade point average (GPA) in each of the following GPA categories:

1. Overall course GPA, defined as the GPA calculated from all regular and non-regular courses graded traditionally (A through F).
 - Regular courses with course numbers less than X82.
 - Non-regular courses with numbers X82 to X99.
2. Regular course GPA, defined as the GPA calculated from all regular courses graded traditionally.

3. Program of Study overall GPA, defined as the GPA calculated from all traditionally graded regular and non-regular courses listed on the approved program of study.
4. Program of Study regular GPA, defined as the GPA calculated from all traditionally graded regular courses listed on the approved program of study.

A minimum GPA of 3.000 in categories 1 and 2 are required to remain in good academic standing. For graduation, a minimum GPA of 3.000 is required in all four categories.

Separate GPAs are calculated based on courses taken as a master's or doctoral student. For example, changing from a master's degree to a doctoral degree, or vice versa, will create separate GPAs based on grades received in coursework taken at each degree level.

In addition, good academic standing requires *satisfactory* progress in the overall graduate program. Students' individual graduate advisory committees may render judgments as to whether satisfactory progress is being made toward the degree, taking into account all aspects of academic performance and promise, not necessarily coursework alone. A positive judgment is required to remain in good academic standing.

Failure to maintain good academic standing due to a cumulative grade point average less than 3.000 results in being placed on an Academic Dismissal Warning. The Academic Dismissal Warning period extends for one semester beyond the one in which this status is acquired. Exceptions to the Academic Dismissal Warning period are:

- New regularly admitted students will not be placed on Academic Dismissal Warning until they have completed 12 regular credits or two semesters of graduate work, whichever comes first, and
- Students who were admitted after waiver of the minimum undergraduate GPA requirement are considered provisionally admitted. Such students must achieve a regular and overall GPA of 3.000 or higher their first semester or they will be dismissed from their programs and the Graduate School.

During the Academic Dismissal Warning period, the student must register for traditionally graded courses that affect the grade point average. With permission of the student's advisory committee, the student may register for continuous registration instead of traditionally graded courses. Continuous registration may be used to extend the Academic Dismissal Warning period for a maximum of two semesters, after which traditionally graded courses must be taken. Students on Academic Dismissal Warning are subject to dismissal by the academic department or the Dean of the Graduate School at the end of the Academic Dismissal Warning semester unless good academic standing has been regained. This requires adequate improvement in cumulative grade point averages (3.000) and/or satisfactory progress as determined by the student's graduate advisory committee. Students not making satisfactory progress due to their grade point average are encouraged to contact their advisors and/or advisory committees in order to set up a meeting to create a progress plan.

Accelerated Master's Programs (AMP) students in combined bachelor's/master's degree programs who have accumulated at least 120 credit hours of course work and who fail to maintain a 3.000 GPA in their graduate course work as outlined above will be placed on Academic Dismissal Warning by the Graduate School and will have one semester in which to improve their cumulative grade point averages to no less than 3.000 in their graduate course work. Failure to bring the cumulative graduate GPA to at least 3.000 will result in dismissal from the Graduate School with no re-enrollment permitted prior to completion of the

bachelor's degree. AMP students who are dismissed from the Graduate School, and who are still in good standing within their undergraduate programs, will be permitted to complete their undergraduate degrees. These students can petition the Registrar to reinstate courses to be applied toward their undergraduate degrees.

Grades of C or higher must be earned in all courses on a Program of Study. Outside of the Program of Study, D grades may be accepted in background courses, but such courses must be included in the computation of the cumulative grade point average. There is no repeat/repair option in Graduate School. If a student repeats a course that is on the Program of Study, both courses will be listed on the Program of Study. The Program of Study GPA will be calculated with the higher course grade only, and not with the average grade of both courses. The grades for both courses are included in the GPA calculation for the overall course GPA and regular course GPA from courses taken within and outside of the Program of Study. Graduate students may take 100 and 200 level courses for general enlightenment or to satisfy a background requirement. These courses are not to be included in the student's program of study, and grades earned in such courses will not be considered in computing the graduate grade point averages described above. Once admitted to a graduate program, grades earned in courses 300 level and above will be considered in computing the graduate GPA. Standards and requirements for off-campus graduate study are the same as those standards and requirements on campus. The academic department head has the basic responsibility for the implementation of this policy. Note that only courses with a grade of B or better may be accepted as transfer courses and such courses are not included in the student's calculation of grade point averages.

For thesis, dissertation, research, and independent study graduate courses, the number of student credit hours earned will be determined using a base rate of 48 hours of student effort per credit hour. The faculty advisor, or other department official, shall estimate the total number of hours of student effort required over the length of the semester. This effort shall include consultation with the advisor, as well as library, laboratory, field, or studio work. The total number of hours shall be divided by 48 and the resultant quotient (rounded off to a whole number) shall define the number of credits to be awarded.

Diagnostic Examination

A diagnostic examination is administered by a number of departments before the first registration to determine the areas in which there may be inadequate preparation. Results from the diagnostic examination are used in planning remedial course work when needed and in preparing the Program of Study (GS Form 6 (<http://graduateschool.colostate.edu/policies-and-procedures/forms/#GS6>)).

Final Examinations

Each candidate for a degree, except for Plan C master's students, must pass a final examination which must be held by the published deadlines of the student's graduating term. The examining committee is normally the student's graduate committee with the advisor serving as chairperson. If a department chooses to administer a common examination to its Plan B master's candidates, a departmental faculty examining committee may serve this function. The common exam must be cumulative in nature and rigorous to assess mastery of program learning objectives. Plans and arrangements for a common final examination for Plan B candidates must be approved and on file with the Graduate School in advance of the examining date.

Voting at all final oral examinations shall be limited to the members of the student's committee, and a majority vote is necessary to pass the examination. A tie vote is interpreted as failure to pass the examination. Committee members who are not academic faculty do not have a vote on the final examination.

Providing the committee approves, a candidate who fails the final examination may be reexamined once and, for the reexamination, may be required to complete further work. The reexamination must be held no later than 12 months after the first examination. The examination must not be held earlier than two months after the first examination unless the student agrees to a shorter time period. Failure to pass the second exam results in dismissal from the Graduate School.

The student is responsible for submitting the Report of Final Examination (GS Form 24 (<http://graduateschool.colostate.edu/policies-and-procedures/forms/#GS24>)) to the Graduate School Office within two working days after results are known; this must be by the published deadline of the student's graduating term.

Participation in final examinations by the student and/or one or more members of the examining committee may be virtual via electronic link so long as all are participating simultaneously and all committee members and the student have agreed to this in advance.

Time Limit

There is a ten-year time limit for completion of the master's or doctoral degrees.

Courses to be applied toward fulfilling the requirements for the master's and doctoral degrees, including any which may have been transferred from another institution, must have been registered for and completed within the ten years immediately preceding the date of completion of requirements for the degrees.

Continuous Registration

All students admitted to a graduate program at CSU are required to be continuously registered in the fall and spring semester throughout their degree programs. This policy applies from the time of first enrollment through the graduation term. Students may fulfill this requirement by registering for any graduate credit-bearing course (regular or non-regular). As an alternative, students may opt for a Continuous Registration (CR) status. Registration for CR status is accomplished in the same way as registration for courses. Section ID numbers appear in the class schedule under the CR subject code. Students registering for CR will be assessed a fee for each semester of CR registration. Students who register for CR on or after the first day of the term will be charged a Late Registration Fee. Students must be either enrolled for at least one credit or must register for CR during the term (fall, spring, summer) they graduate.

Students enrolled in CR have access to library services and campus computing services; they pay a mandatory University Technology Fee. CR students may also choose to purchase CSU student health insurance and/or access the CSU Health Network for a fee.

The maximum number of CR semesters a student may enroll in during their degree program is ten (10). When a student is in their first (1st), fourth (4th) and eighth (8th) semesters of CR, the student's advisory committee is required to review the student's progress and intentions related to degree completion, with input from the student. Upon completion of the review, a report that provides a student plan which

includes academic expectations and an accompanying timeline for satisfactory progress for the degree will be forwarded to the department head/chair and student. A registration hold will be placed on a student with more than 10 semesters of CR unless the student's department head has submitted the student's progression plan and a petition to the Dean of the Graduate School to extend the number of CR semesters to a specific number beyond 10.

Students may register for CR for the following reasons:

1. They do not require the use of University resources (other than those listed above), but are actively working on their degree requirements. Students who are utilizing CSU facilities to conduct their research must not enroll in CR; instead, they must enroll in the appropriate number of research, thesis or dissertation credits. See Contact Hour Guidelines (<https://curriculum.colostate.edu/media/sites/130/2017/01/CONTACT-HOURS-GRID.pdf>) on the Curriculum & Catalog website (<https://curriculum.colostate.edu/>) for information regarding faculty contact time needed to generate credit hours.
2. They will not be working on their degree requirements, but will be leaving the University for professional or personal reasons (e.g., mission service, medical or parental leave, work) or an official assignment for CSU.

Subject to the established time limits for the earning of graduate degrees and the various academic requirements, CR registrants need not apply for readmission should they wish to take additional graduate courses. Such students are ensured a place in their graduate programs as long as they remain in good academic standing. However, students who do not register will need to apply for readmission for their next semester of enrollment.

The availability of the CR option shall not supersede any other registration requirements to which students may be subject at the University, Department, or Program level. For example, the credit bearing registration requirement for graduate assistantships applies to all students appointed to these positions. Similarly, some units may adopt more stringent CR policies than that expressed here.

Graduate Enrollment Requirement

Graduate degree candidates must be either enrolled for at least one credit or must register for CR during the term (fall, spring, or summer) they will graduate.

Posthumous Degree

In exceptional circumstances, the Board of Governors of Colorado State University may award degrees posthumously.

Evaluation of Graduate Students and Graduate School Appeals Procedure

Evaluation of Graduate Students
Informal and Formal Complaints
Graduate School Appeals Procedure

Evaluation of Graduate Students

Graduate students are students, apprentices to the professions, and, when they hold an assistantship or other paid position, student employees. Each of these roles has its own rights and responsibilities. Graduate students are responsible for knowing any special expectations and requirements of their department and program. They are expected to remain in good academic standing by making satisfactory progress toward the degree (see Scholastic Standards) and must at all times have an advisor. In the event that an advisor resigns from that position, it is the student's responsibility to obtain a replacement.

Department codes shall designate a system for periodic evaluation of progress toward completion of the degree. The student and the advisor share responsibility for scheduling evaluations. Results of such evaluations will be sent to the department head and to the graduate student being evaluated.

When a student's graduate advisory committee or an appropriate departmental graduate committee finds that a student is not making satisfactory progress toward the degree due to factors other than grade point average, and that satisfactory progress cannot be anticipated, a plan should be created, and the following steps should be taken.

1. Schedule a meeting with the student, advisor, and the department head that provides reasonable notice of the issues to be covered. If the student is a graduate assistant (GA), the supervisor is to be included in the meeting as well. The student has the right to include an advocate or mentor in the meeting.
2. During the meeting, inform the student of the concerns, create a progress plan with the student, and develop a timeline and inform the student of the potential consequences (e.g., recommendation for dismissal) if progress is not satisfactory. If the student has a disability, inform the student of their right to request reasonable accommodations from the Student Disability Center or OEO (if the student is a GA).
3. A written summary of the meeting will be shared with all parties and copied to the Dean of the Graduate School so that the Dean is informed. A copy of the summary shall be maintained in a departmental file.
4. The committee should keep in contact with the student to provide support and give feedback during the progress plan timeline and document such contacts and their outcomes.
5. At the end of the timeline, if progress is not adequate, the committee may recommend dismissal from the program and/or termination of an assistantship if applicable (See Termination of Graduate Assistants). The recommendation must include documentation of the steps taken with justification for the action. The recommendation is forwarded to the Department Head for approval and the Dean of the Graduate School for final action.

Graduate students have the right to appeal certain academic decisions, before any action is taken, as described under Graduate School Appeals Procedure. Appeals of grades and academic integrity decisions must utilize appropriate procedures described in the General Catalog. Students alleging termination of assistantships or dismissal from the graduate program on grounds of unlawful discrimination are advised to consult with the Office of Equal Opportunity. (For information on the "at will" employment status of graduate assistants, see Assistantships.).

Dismissals for misconduct and violations of the Student Code are addressed by Student Conduct Services (<https://resolutioncenter.colostate.edu/student-conduct-code/>).

Informal and Formal Complaints

This section explains CSU's policy on student complaints for matters not covered by other policies. If a student has a complaint related to sexual misconduct, sexual harassment, sex discrimination, or other discrimination, the student should contact the Office of Equal Opportunity (OEO) and consult CSU policies on Discrimination and Harassment, Title IX Sexual Harassment, Bullying in the Workplace, and Violence in the Workplace. In addition, students should use the CSU System's Compliance Reporting Hotline when the subject matter of the complaint concerns alleged fraud, abuse, waste of University resources, or violation of any law or regulation by the University in connection with its official business functions. Complaints related to research misconduct can be reported by contacting the Research Integrity and Compliance Review Office.

Otherwise, addressing conflict in a direct and professional manner is an important part of graduate student professional development. Occasions will arise when a student has a conflict with or complaint about a fellow student, a faculty member or staff, or their advisor. When this happens, the student should first attempt to resolve the issue directly with the person involved by making an appointment with the person and communicating their concern in a calm and professional manner.

Students are encouraged to seek help from Conflict Resolution Services of the Student Resolution Center to learn how to communicate their concerns with the involved person. Students should also consult with their network of mentors, including graduate committee members or others who support the student in areas of academics, career development, and well-being, for guidance on how to resolve the conflict.

If speaking directly to the person involved does not resolve the issue, the student should seek informal resolution through the department chair or through Conflict Resolution Services. Conflict Resolution Services staff are available to facilitate conversations and help mediate conflict so that issues can be resolved informally. With the permission of the student, Conflict Resolution Services may involve the department chair, dean of the Graduate School, or others as appropriate in seeking a resolution.

If the conflict or complaint is related to employment as a graduate student assistant or student hourly position, the student should seek guidance from the Office of Equal Opportunity or the Office of the Ombuds.

Procedures for Filing a Written Complaint

If the issue or problem still exists after informal attempts at resolution, a student may initiate the formal complaint procedure as described in the CSU Student Complaint Reporting Policy and the accompanying online Student Complaint Form. All formal complaints must be submitted in writing and must be signed by the student (including electronic or digital facsimile signatures clearly attributable to the student, for example the student's name in an email message received from the student's CSU email account). The online Student Complaint Form is provided as a tool for presenting a written complaint but is not required.

Written complaints other than those submitted through the online Student Complaint Form must be sent to the following physical or email address:

Graduate School

Attn: Dean of the Graduate School
 108 Student Services Building
 1005 Campus Delivery
 Fort Collins, CO 80523-1005
 Email: gradschool@colostate.edu

The Graduate School will notify the student with an acknowledgement that the complaint was received.

Complaint Review and Resolution Process

The Graduate School is not an advocate for any party to a dispute but is an advocate for a fair process. Acting as a neutral third party, the Dean of the Graduate School or their designee will engage with the student and appropriate CSU officials to resolve the complaint and assure a fair process. Depending on the complaint, the Dean of the Graduate School or designee may involve the department chair, college dean, Vice Provost for Faculty Affairs, OEO, and/or Office of Legal Counsel.

If the resolution involves terminating the advisor-student relationship, the Dean of the Graduate School and the Vice Provost for Faculty Affairs will determine the distribution of responsibility of finding a new advisor, and graduate assistantship support if the student is a graduate assistant, between the student and the advisor's department.

A record of the complaint and its disposition will be maintained in the Graduate School. Information in the complaint will be made available to regulatory agencies and accrediting bodies, including the Higher Learning Commission and the Colorado Department of Higher Education, as required in accordance with applicable laws, regulations, and policies.

Protection from Retaliation

Colorado State University prohibits retaliation as set forth by the CSU Retaliation and Whistleblower Protection Policy. No student shall be retaliated against for bringing forward an informal complaint or for submitting a formal written complaint. This includes any forms of retaliation that threatens or takes materially adverse actions or omissions against a student that interferes with the student's education, training, and future career opportunities.

Graduate School Appeals Procedure

Graduate students may appeal decisions concerning unsatisfactory performance on graduate preliminary or final examinations (see this section), academic probation for reasons of unsatisfactory progress toward the degree other than insufficient grade point average, termination of or election to void an assistantship for reasons set forth in the terms and conditions applicable to graduate assistant appointments, or dismissal from the graduate program for academic reasons to the Dean of the Graduate School. Grading decisions in courses are subject to appeal according to the University's policy on Appeals of Grading Decisions, as set forth in the Academic Faculty and Administrative Professional Staff Manual (<http://facultycouncil.colostate.edu/faculty-manual/>).

A student has a total of 35 working days to make a formal appeal to the Dean of the Graduate School from the date when an appealable decision has been made that is of concern to the student. Prior to submitting an appeal to the Dean of the Graduate School, the student should discuss the decision with the academic officer(s) whose actions are challenged in an informal attempt to resolve concerns. (Academic officers may include the student's advisor, graduate committee, department head, supervisor, etc.) If the matter is not resolved to the student's satisfaction, the student

may initiate a formal appeal by submitting the matter in writing to the Dean of the Graduate School. In the written appeal:

1. the student must clearly identify the actions being challenged,
2. the rationale for the challenge
3. the person(s) against whom the complaint is made, and
4. the redress sought.

If an appeal is not filed within 35 working days following the adverse recommendation or decision, then this recommendation or decision will become final. If an appeal is filed within 35 working days, then the decision regarding the appeal is final. The original adverse recommendation or decision being appealed by the student remains in effect until the appeal is final.

The Dean of the Graduate School shall implement the appeal procedures below, keeping records of the case. A review panel, composed of two faculty members with degrees at the level being pursued by the student appellant or higher and one graduate student pursuing a degree at that level or above, will be appointed. One faculty member will be appointed by the Dean of the Graduate School and another faculty member will be appointed by the dean of the college in which the student appellant's program is located. These appointees will be from departments other than that of the student appellant, but they should be from related disciplines so they are reasonably familiar with the standard procedures in that department. In the event that either the Dean of the Graduate School or the dean is a principal in the case, the Provost will appoint appropriate faculty members. The Graduate Student Council will provide a list of graduate students pursuing graduate degrees who are willing to serve on review panels from which the Dean of the Graduate School will appoint a student who is from a different department than the student appellant, but who should be from a related discipline. In the event that the Dean of the Graduate School is a principal in the case, the Provost will appoint the student member.

The Review Panel will consider the case in detail. It must review any written record of the case. It must afford the student appellant an opportunity to appear in person before it and consider any relevant written materials the student may wish to bring to its attention. The panel will hear from the academic officer(s) whose action is being appealed and may confer with other involved parties. It shall evaluate any other information it deems important to its deliberations. Written summaries of the deliberations will be kept. To overcome the presumption of good faith in the performance judgment by the advisor, supervisor, and/or graduate committee, an appeal must demonstrate that the evaluation was based upon matters that are inappropriate or irrelevant to academic performance and applicable professional standards and that consideration of those matters was the deciding factor in the evaluation. If the panel finds in favor of the student by a majority vote, it will make appropriate recommendations to the Dean of the Graduate School, such as reassignment to another advisor and/or graduate committee, administration of another examination, or alternative assistantship assignment. The Dean of the Graduate School and the dean of the college involved shall jointly review the case, giving due consideration to the panel's report and recommendations. Following consultation with the Provost, as appropriate, the Dean of the Graduate School shall make the final decision of CSU. In the event where the Dean of the Graduate School is a principal in the case, the duties of the Dean of the Graduate School, with respect to this case, shall be transferred to the Provost. In the event that the decision recommends termination of an assistantship due to unavailability of funds or other conditions beyond CSU's control or due to a lack of performance of assigned duties and functions as set forth in

the terms and conditions applicable to graduate assistant appointments, the termination must be approved by the Board of Governors, or the President, as its delegated representative.

Other appeal or reporting processes available to students are included below.

1. Students may appeal disciplinary issues, subject to the University Discipline Process, through the Student Resolution Center. (<https://resolutioncenter.colostate.edu/>)
2. Students may file a complaint regarding what a person may believe to be an act of discrimination or harassment, based on race/ethnicity, eg, color, religion, national origin, or ancestry, sex gender, disability, veteran status, genetic information, sexual orientation, or gender identity or expression to the Office of Equal Opportunity (<http://oeo.colostate.edu/>).
3. Procedures to report observed, suspected, or apparent Research Misconduct can be accessed through Research Integrity and Compliance Review Office (<https://www.research.colostate.edu/research-misconduct/>).

Master's Degrees

Master's Degrees

Master of Fine Arts Degree

Dual and Joint Master's Degrees

CSU offers a variety of master's degrees. The features and requirements of these degrees are summarized in the Programs A-Z section of the Catalog.

Master's Degrees

An important distinction is made between Plan A and Plan B, Plan C, and the Professional Science Master's. The former, Plan A option, requires the preparation of a thesis. The thesis is typically a written formal document which addresses, in an original fashion, some important concern of the discipline. A thesis involves significant independent work. A certain number of credits are allowed for the preparation of the thesis. The Plan B degree does not require a thesis; instead, either a scholarly paper, exam, portfolio, or similar project is required.

Plan C master's degree options are distinguished in two ways. First generally, only course work is required. No thesis, project, or final examination is required; however, some specific programs may require an internship, practicum, or other experience consistent with expressed goals of the program, as approved by the University Curriculum Committee. Second, Plan C options are designed for professional degrees; thus, this option is not available in the M.A. or M.S. Further, within any given department, Plan C degrees may not bear the same title as those with Plan A or Plan B options. Please note, however, that not every professional degree need offer the Plan C option.

The Professional Science Master's (PSM) degree option (30 credit minimum) is designed to meet the following curriculum requirements: 1) a majority of credits must be earned in advanced science, technology, engineering, math and/or computational sciences courses over the two year program; 2) there must be a professional skills component; and 3) a capstone activity based on an experiential component, that includes a field placement course (e.g. internship, practicum, affiliation, field work) must be a part of the curriculum. No thesis, project, or final examination is required. The PSM is to provide managers for organizations that provide technology-based outcomes in public,

private, government, or non-profit sectors. PSMs must conform to the nationally accepted academic criteria for the PSM curriculum as determined by the Commission on Affiliation of PSM Programs (<https://www.professionalsciencemasters.org/>) (formerly named PSM National Office) (psmoffice@sciencemasters.com).

An active advisory board composed of individuals from industry, business, government, non-profit organizations, and CSU faculty is required; advisory board members serve to provide advice on the program curriculum, assist with student projects and placement, and interact individually with students. To be recognized as a PSM degree, programs must first be approved by the Commission on Affiliation of PSM Programs, and subsequently approved and routed through the paths required by the CSU Faculty Council, Curricular Policies and Procedures Handbook. PSM specializations are listed in the Graduate and Professional Bulletin.

Credit Requirements (Master's Degrees)

The minimum number of required credits for all master's degrees is 30. However, individual departments may have credit requirements in excess of the minimum university requirement. For example, terminal professional degrees may have a minimum credit requirement that exceeds 60. The number of 500-level or above credits earned for master's degrees varies: a minimum of 50% for Plans A and B, and 21 or a minimum of 50% whichever is more for Plan C's and Professional Science Master's degrees. Additionally, at least 12 of the 500-level or more credits must be in regular courses for all master's degrees. Other courses may be at the 300-400 level or may be in courses not defined as regular. A minimum of 24 credits must be earned at CSU, 21 of which must be earned after admission to the Graduate School. Plan C master's and Professional Science Master's programs may not include independent study, research, or supervised college teaching credits toward the degree unless one or more of these are required by the program, as approved by the University Curriculum Committee. Additionally, Plan C master's may not include internship or practicum credits toward the degree unless one or both are required by the program, as approved by the University Curriculum Committee. Credits earned in pursuit of one master's degree may not be used for a second except in those cases where an M.A. degree is applied to the M.F.A. (see section on Master of Fine Arts Degree) or when the student is enrolled in an approved dual or joint master's degree program (see section on Dual and Joint Master's Degrees).

Final Examination (Master's Degrees)

Master's Plan A and Plan B students are required to complete and pass a final examination/defense. At the discretion of the committee, the final examination may be oral or written, or both. At least one week before the final examination the advisor must inform the student and the committee member of the nature and scope of the examination.

Master of Fine Arts Degree

This is a terminal degree for practicing professionals in the visual or literary arts. In general, it requires at least three years of full time study beyond the baccalaureate or at least one year of full time study beyond the Master of Arts degree.

This degree requires the preparation of a major artistic work. This work, whether in the form of a product of the visual arts, a performance, or a written manuscript, must

1. demonstrate a level of creativity sufficient to establish the student as a member of the appropriate artistic community, and
2. stand in its own right as a significant aesthetic or literary contribution. This work is presented as an M.F.A. thesis.

Credit Requirements (Master of Fine Arts Degree)

Total credit requirements vary from 48 to 60 according to the department in which the degree is earned. Further, individual departments may have requirements in excess of CSU minimums laid out in the Catalog.

The number of 500-level or above credits earned for the Master of Fine Arts must be a minimum of 50%; of that number, 12 must be in regular courses. Other courses may be at the 300-400 level or may be in courses not defined as regular. In general, a minimum of 32 credits must be earned at CSU, 21 of which must be earned after formal admission to the Graduate School.

However, if a previously completed Master of Arts degree is submitted in partial fulfillment of the requirements, up to 30 credits may be accepted toward the program. If this option is used, no additional transfer credits may be accepted. In this case, a minimum of 18 credits must be earned after formal admission to the M.F.A. program.

Final Examination (Master of Fine Arts Degree)

A final examination is required for the Plan A degree. The final examination may be oral or written or both. At least one week before the final examination, the adviser must inform the student and the committee members of the nature and scope of the examination.

Dual and Joint Master's Degrees

Dual and joint degree programs partner two intra-university master's degree programs within or between departments, programs, or SAUs in the same or differing colleges. A dual degree program results in the simultaneous conferral of two separate degrees. A joint degree program results in the conferral of a single degree with both programs listed on the diploma. For either the dual or joint degree program, a defined number of credits is shared between the two program areas, so that the total number of credits is less than that for two individual degrees.

Dual and joint degree programs must be reviewed and approved through the University's curriculum review and approval processes. Additionally, graduate program partners of a dual or joint master's degree program must submit, and have approved by the Graduate School, a onetime Memorandum of Understanding (MOU) that details the administrative oversight, financial agreements (including distribution of differential tuition and special fees), advisory and graduate committee requirements, other agreements, and curriculum of the dual or joint program. Contact the Dean of the Graduate School for details of the review and approval processes for new dual or joint degree program, and for details of the MOU format.

Students in a dual or joint master's degree program must meet all admissions requirements and all the curricular requirements for the dual or joint program. See the Dual and Joint Master's Degree Programs section of Admissions Requirements and Procedures for details on applying to a dual or joint master's degree program. All other Graduate School and Graduate and Professional Bulletin policies are to be met, including time limits.

A graduate committee is required unless both degree program areas of a dual or joint master's program are Plan C master's programs. The graduate committee must include faculty members from both academic areas, as well as an outside committee member not associated with either degree program area. See the Advisory System section of Requirements for All Graduate Degree, Graduate Study for more details.

See the Collaborative Degree Program section of Inter-University Graduate Programs for information on collaborative degree programs that partner a CSU graduate program with a graduate program at an international university.

Credit Requirements (Dual and Joint Master's Degrees)

Graduate programs that are accredited through a professional organization must align their curriculum with curricular standards of the accrediting body when participating in a dual or joint master's degree program.

No more than 50% of credits from the degree with lower credit requirements may be double-counted for both degrees. For example, if one master's degree requires 30 credits and the other degree requires 42 credits, no more than 15 credits can be double-counted toward both degrees. In addition to regular courses, double-counted credits may include practicum, internship, research, and thesis credits. Double-counting of credits will be granted only for credits earned at Colorado State University and completed with a grade of "B" or higher or a grade of "S" if applicable.

If a dual-degree student is dismissed from the Graduate School due to academic standing or failure to make academic progress, the student may be readmitted, in accordance with Graduate School policy, to only one of the programs (see the Readmission section of Admissions Requirements and Procedures). The student will no longer be eligible to participate in the dual or joint master's degree program.

Final Examination (Dual and Joint Master's Degrees)

A joint master's degree may have a single thesis, exam, project, or portfolio component that integrates content from both degree program areas, as appropriate to the degree type (plan A, B, or C).

If one or both of the academic areas of a dual degree has a thesis, exam, project, or portfolio component, a final thesis defense, examination, or project/portfolio presentation must be held covering the combined thesis, exam, or project/portfolio component. One thesis, exam, project, or portfolio is submitted to satisfy the requirements of both degrees of a dual degree program.

If a thesis, exam, project, or portfolio-based degree is combined with a coursework only degree in a dual degree program, the thesis, exam, project, or portfolio should integrate content from both degree program areas.

If a final examination is required for either a dual or joint degree program, the final examination may be oral or written, or both as determined by the examination committee. At least one week before the final examination, the advisor must inform the student and the committee members of the nature and scope of the examination.

Doctoral Degree

The doctoral degree is the highest academic degree offered by CSU. Those who earn it must demonstrate significant intellectual achievement, scholarly ability, and breadth of knowledge. The nature of the degree program will vary greatly depending on the type of doctoral degree and discipline involved. There are two types of doctoral degrees that may be earned, the doctor of philosophy (Ph.D.) and the professional doctorate (P.D.). There are several important distinctions between the Ph.D. and the P.D. The defining characteristics of each are as follows:

1. The Ph.D. and the P.D. degrees are distinguishable from each other based on the courses comprising the programs' curricula, student learning outcomes, and measures of student success. The New Degree Program Proposal must address these components as part of the Provost's and the University Curriculum Committee's review process for such proposals.
2. For the Ph.D., the scholarly, scientific, and creative outcomes are expected to contribute to the knowledge base of the field. Extensive original research or creative activity relevant to the discipline is required. The preparation of a dissertation that presents the results of sustained research or investigation of an important intellectual problem is mandatory.
3. For the P.D., the experiential, scientific, and creative outcomes are expected to contribute to the highest level of professional skills and the application of such skills and knowledge in the profession and its practice. Applied research, clinical research, or extensive advanced experience relevant to the profession is required. The preparation of a dissertation that presents the results of an applied project relevant to the profession is mandatory for non-accredited programs; programs accredited through a national organization may require other capstone experiences or a dissertation.

Credit Requirements (Ph.D., P.D.)

A minimum of 72 semester credits beyond the baccalaureate degree is required for both the Ph.D and the P.D.

For students who submit a master's degree in partial fulfillment of these requirements: A master's degree from an accredited college or university may be accepted for a maximum of 30 credits. In addition, up to ten credits in courses earned after the date on which the master's degree was awarded may be accepted in transfer if approved by the student's advisory committee, the department, and the Graduate School (<https://graduateschool.colostate.edu/>). A minimum of 32 credits must be earned at CSU after admission to a doctoral program. At least 21 credits beyond the master's degree must be earned in courses numbered 500 or above.

For students enrolled in a continuous master's/doctoral program at CSU: All courses taken during the master's program may be applied to the doctoral degree, even if the total master's degree credits exceed 30. These courses must be specified on the doctoral program of study and approved by the student's advisory committee, the doctoral department, and the Graduate School. Continuous programs are those in which the student is admitted to the doctoral program and formally registers for the Fall or Spring semester immediately following receipt of the master's degree. All other prescribed credit requirements of the master's and doctoral degrees remain in effect in such cases.

For students who do not submit a master's degree in partial fulfillment of these requirements: Up to ten credits earned at an accredited college

or university may be accepted for transfer if approved by the student's advisory committee, the department, and the Graduate School. A minimum of 62 credits must be earned at CSU after admission to a doctoral program. At least 37 credits beyond the bachelor's degree must be earned in courses numbered 500 or above.

A professional, post baccalaureate degree in Medicine, Veterinary Medicine, Dentistry, Pharmacy, Law, or Divinity may be accepted for a maximum of 30 credits. The institution granting such a degree must be certified by one of the major regional accrediting agencies. Students contemplating this option may be required to pass an equivalency examination to assure they possess levels of knowledge and skill generally expected of master's degree holders.

P.D. Requirements

Requirements for a P.D. may vary based on the presence or absence of an accreditation process. P.D. programs that are accredited through a national organization will identify curricular content, process, and outcome requirements for the degree to meet the accreditation standards. These curricular requirements may take precedence over Graduate School requirements; however, the minimum number of credits and their level are Graduate School requirements regardless of accreditation standards. P.D. programs that are not accredited must conform to Graduate School requirements.

Departments or Special Academic Units with a P.D. program must form an active advisory board composed of CSU faculty and individuals from outside of CSU who are leaders in the discipline from applied settings. Advisory board members serve to provide advice on the program curriculum, assist with student projects and placements, and interact individually with students.

The Graduate School requires the following P.D. program components:

1. Programs that do not require relevant work experience for admission must include a significant experiential component within the curriculum.
2. Curricula must include a minimum of 18 credits of course work at the 500 level or above that reflect professionalism and applied or translational knowledge and fulfill the learning objectives of the programs. The 18 credits of coursework must meet the following criteria:
 - a. A minimum of 6 credits is included within each of the two categories (professionalism, applied or translational knowledge),
 - b. at least 9 credits must be regular coursework, and
 - c. up to 9 credits may be non-regular coursework. (Scholastic Standards (<http://catalog.colostate.edu/general-catalog/graduate-bulletin/graduate-study/procedures-requirements-all-degrees/#scholastic-standards>)).
3. The preparation of a dissertation is required for non-accredited programs. The dissertation is a formal, written document which presents the results of an applied or clinical research project on an issue relevant to the profession and practice. The dissertation must represent an independent intellectual achievement and must make a meaningful contribution to the creation, use, and improvement of knowledge in the context of a profession and practice. Students typically earn a number of research credits while completing the work which underlies the dissertation.

4. At least one graduate committee member must have or have had a substantial and relevant employment record in an applied setting and meet the Graduate School requirements for membership (Graduate Advisor and Committee Makeup (<http://graduateschool.colostate.edu/policies-and-procedures/advisor-committee/>)). The committee chair must submit a request for approval of the individual that includes proof of the Advisory Committee's endorsement of the individual and a description of the individual's substantial and relevant employment record in an applied setting to the dean of the Graduate School.

Ph.D. Requirements

The preparation of a dissertation is required. The dissertation is a formal, written document which presents the results of sustained research or investigation on an important intellectual problem. The dissertation must represent independent, intellectual achievement and must make a meaningful contribution to the knowledge, accumulated wisdom, or culture of the field in which it is written. Students typically earn a number of research credits while completing the work which underlies the dissertation.

When programs within the same department have both a Ph.D. and a non-accredited P.D., Ph.D. students in the department offering the P.D. may enroll in one or more of the 18 P.D. credits that meet the professionalism and applied/translational knowledge requirement. However, these credits may NOT count toward the 72 credits beyond the baccalaureate required for the Ph.D.; they will be in addition to that number. Credits earned in P.D. specific courses cannot be part of the program of study for any Ph.D. student.

Doctoral Residency Requirement (Ph.D., P.D.)

There is no CSU residency requirement for doctoral degree programs; however, such requirements may exist at the department level. Students should check with their departments about such policies. Whether or not a residency requirement exists, registration policies as outlined above must be followed.

Doctoral Preliminary Examination (Ph.D., P.D.)

A preliminary examination shall be administered at least two terms before the final examination to determine whether the student is qualified to continue toward the doctorate. The usual procedure is to have written examinations in the field of specialization and supporting areas followed by an oral examination. In order to assure full information to all concerned (student, major professor, all committee members, department head, Graduate School), the intention to hold a doctoral Preliminary Examination is to be publicized two weeks in advance by the advisor. The student is responsible for obtaining the Report of Preliminary Examination (GS Form 16 (<https://graduateschool.colostate.edu/wp-content/uploads/2022/02/2022-GS16-Example.pdf>)) from their RAMweb (<https://ramweb.colostate.edu/registrar/Public/Login.aspx>) account and returning it to the Graduate School, appropriately completed, after the conclusion of the examination.

Providing the committee approves, a candidate who fails the preliminary examination may be reexamined once and, for the reexamination, may be required to complete further work. The reexamination must be held no later than 12 months after the first examination. The examination must

not be held earlier than two months after the first examination, unless the student agrees to a shorter time period. Failure to pass the second exam results in dismissal from the Graduate School.

Participation in oral examinations by the student and/or one or more members of the examining committee may be via electronic link so long as all are participating simultaneously and all committee members and the student have agreed to this in advance.

Doctoral Candidacy (Ph.D., P.D.)

Doctoral students at CSU are considered to achieve "candidacy" for the degree upon passage of preliminary examinations. Candidates generally retain that status through the completion of the degree. However, candidacy is lost if

1. the student is placed on probation due to insufficient grade point average;
2. the student's graduate advisory committee finds insufficient progress is being made toward the degree; or
3. the student is dismissed for academic or disciplinary reasons.

The students who lose candidacy may regain it, when appropriate, through the established procedures for improving grade point average, demonstrating satisfactory progress, or achieving readmission.

Doctoral Final Examination (Ph.D., P.D.)

At least one month before the final examination, the advisor will inform the student and the committee members of the nature and scope of the examination. Normally, the final examination will cover primarily the dissertation, but additional subject matter, specified by the committee at the time of the preliminary examination, may also be covered. Dissertation defenses are open to all members of the CSU community and the public at large. In order to assure timely notification across the entire campus, advisors should announce this information to the CSU community and public at large at least two weeks in advance. Advisors may publicize the defense through CSU's electronic announcement and message delivery system. The chairperson of the committee shall have the prerogative to decide whether those in attendance (outside of the committee) should be allowed to ask questions of the candidate during an oral examination.

Graduate Certificates

Graduate Certificate Program

Graduate Certificates are optional and are offered by certain departments, special academic units (SAUs), or colleges. A Graduate Certificate consists of a minimum of 9 specified credits and not more than 15 credits, all of which must be at the graduate level (500- to 700-level). A minimum of 9 credits must be regular coursework; credits beyond 9 can be non-regular coursework. A student must earn a cumulative GPA of 3.000 or better and a minimum of a "C" in all courses in the Graduate Certificate. All coursework must be traditionally graded.

A Graduate Certificate may include courses from one or more academic units or special academic units. For certificates involving courses from two or more units, the coordinating department is indicated in the List of Graduate Certificates.

Guest and degree-seeking students with bachelor's degrees are eligible to apply to participate in the Graduate Certificate Program. Students

must apply for admission into the program and for the conferral of the certificate. Students must be enrolled at CSU to receive and complete the certificate requirements. Graduate certificates by title are noted on the student's academic record (transcript). For degree seeking students this is at the time of degree conferral. The certificate title is not on the diploma. See the Graduate School website (<https://graduateschool.colostate.edu/programs/>) for details.

Graduate Specializations

Within graduate degree programs, certain well-defined "specializations" may be offered. A Graduate Specialization is a formal Faculty Council approved program with a defined curriculum addressing a specialty within one of the graduate degree programs. Specializations are automatically listed on transcripts. Please visit the Graduate School website (<http://graduateschool.colostate.edu/?s=specializations>) for a listing of degrees and available specializations.

Graduate Thesis and Dissertation

Although a thesis or dissertation is planned and executed with the advice and supervision of the advisor and committee, the student must assume primary responsibility both in terms of the content of the document and in terms of its format and presentation.

Graduate students may be responsible for all or part of the expense of their thesis/dissertation research. This expense is highly variable depending on the discipline, the research topic, and the availability of support from funded projects, sponsored programs, or academic departments.

Theses and dissertations submitted for graduate degrees must be completed in the English language. In circumstances in which scholarship would be enhanced if these documents are completed in a foreign language, this must be approved by the student's committee and the Chair/Head of the program. In such cases, an English translation of the title and abstract must be included in the document.

The candidate must submit to the Graduate School the Thesis/Dissertation Submission Form and submit their thesis/dissertation electronically by the published deadline date listed on the Graduate School website. Students should consult these deadlines whenever they approach important steps in their careers. Suggestions for preparation of the manuscript may be found in the Thesis and Dissertation Formatting Guide (<http://graduateschool.colostate.edu/for-current-students/completing-your-degree/thesis-dissertation/>).

Students have the right to disseminate the findings of their theses and dissertations more broadly than is accomplished by archiving and microfilming. Prompt publication of important results is clearly in the best interests of the academic community and society as a whole. Students are therefore encouraged to bring such results to the manuscript submission stage within one year of the award of the degree.

Master's theses and doctoral dissertations are electronically archived by the Libraries and ProQuest/UMI. General information on copyrights, publication, and embargos may be found in the Thesis and Dissertation Formatting Guide (<http://graduateschool.colostate.edu/for-current-students/completing-your-degree/thesis-dissertation/>). As a public institution, CSU exposes bibliographic information about theses and dissertations on the Internet for purposes of discovery and retrieval. One of the functions of CSU is the generation and dissemination of contributions of knowledge and culture. The fundamental purpose of

theses and dissertations is to make such contributions openly available for public benefit.

Graduation Procedures

Application for Graduation

A graduate student must apply for graduation by submitting to the Graduate School Office an Application for Graduation (GS Form 25 (<https://graduateschool.colostate.edu/forms/g25-application-for-graduation-instructions/>)). Deadlines are available on the Graduate School website (<http://graduateschool.colostate.edu/policies-and-procedures/deadline-dates/>). For students in combined bachelor's/master's degree programs (Accelerated Master's Programs (AMP) Admissions), an application for graduation from the Graduate School must be either contemporaneous or subsequent to filing an application for receiving the bachelor's degree. Students must be registered during the semester they graduate as specified under Graduate Enrollment Requirement above.

Clearance for Graduation

Departmental requirements (i.e., language requirement, preparation of required papers for publication) and discrepancies in grades for graduation term must be completed by the end of the graduation term.

Failure to meet all requirements during the term requested on GS Form 25 (<https://graduateschool.colostate.edu/forms/g25-application-for-graduation-instructions/>) will necessitate reapplication for graduation (online). Diplomas will be mailed approximately six to eight weeks after the end of the graduation term to the mailing address on file with CSU.

Inter-University Graduate Programs

Collaborative Degree Program

A collaborative degree is one that partners a CSU graduate program with a similar graduate program at an international university in order to allow students to transfer credits between the two programs and earn a degree at CSU. Both CSU and international students must earn a minimum of 60% of the degree credits at CSU and the remaining credits at the international university in either a master's or PhD degree.

The coursework for the degree program offered at the collaborating university must meet CSU standards. The courses accepted for transfer from the collaborating university to the CSU program must be equivalent in credit and content. These courses must be listed, evaluated and approved by the CSU department offering the degree; these courses must provide similar content and student learning outcomes and be reflected in the course syllabi as such. The coursework/syllabi that will be transferred from the collaborating university must be translated into English by the collaborating university for evaluation purposes.

International universities, colleges, or degree granting institutions must be invited to participate in a Collaborative Degree Program by a CSU program department. Such institutions must be accredited by a major regional accrediting agency in order to be eligible to participate in a Collaborative Degree Program. An Academic Collaboration Agreement must be signed between CSU and the international partner university with details of the Collaborative Degree Program, including admission and degree requirements, number of students eligible to participate, insurance, travel, enrollment, and other administrative issues. Collaborative degree students must meet all Graduate School

admission and degree requirements. (See the Graduate School website (<http://graduateschool.colostate.edu/>) for more details.) Academic Collaboration Agreements are facilitated through the Office of International Programs and must be reviewed and approved by the following individuals from CSU: Dean, Department Head, and Program Director of the program wishing to create a Collaborative Degree Program; Legal Counsel; International Programs; Provost; Graduate School; individuals from the international university that have the authority to sign in support of the Academic Collaboration Agreement. When a student is completing a master's thesis or doctoral dissertation an additional agreement, the Co-Directed Graduate Study Agreement (aka "Cotutelle"), must also be completed and signed by the relevant parties that specifies the co-direction of the work and other pedagogical and publication-related issues. When students meet the requirements for the Collaborative Degree Program, CSU independently confers the degree. The collaborating university may also independently confer a degree. A review process to monitor the quality and outcomes of the Collaborative Degree Program will be established by the department. Data will be reported to the College Dean and Graduate School or as stipulated in the review process.

Graduate Assistantships

Assistantships

Graduate Assistantship-Terms and Conditions of Appointment
Termination of Graduate Assistants

Assistantships

Assistantship awards offer a stipend to the student in return for certain specified services to CSU. The stipend is treated as income (subject to withholding taxes) and both CSU and the student agree to a formal appointment when an assistantship is arranged. Both the amount of the stipend and the extent of time commitment vary from case to case and are set forth in the appointment.

Performance of the assistantship duties provides the student with valuable experience which contributes to professional and career development. Most graduate student support at CSU and many other American universities is in the form of assistantships.

Teaching assistantships involve payment for services related to undergraduate instruction. Some form of experience, skill, or aptitude is necessary for appointment. The duties typically involve grading papers, compiling biographies, monitoring laboratories, conducting discussion sections, or teaching an entire class. Some of these duties require that teaching assistants be able to communicate effectively in English. Usually, teaching assistant duties are confined to beginning-level undergraduate classes.

Departments will conduct the ASCSU course survey for each teaching assistant who is the instructor of record for a course. For teaching assistants who are not the instructor of record but with significant undergraduate teaching contact, departments will ensure that an appropriate survey is completed. These surveys and records of other student feedback will be maintained as part of the department's information base and made available to faculty and administration for future assessment of the policy's effectiveness.

Teaching assistants required to take the TOEFL, IELTS, or the PTE Academic for admission will also be evaluated for their ability to communicate orally in English by their departments. The evaluation will

occur prior to pedagogical exposure in the undergraduate classroom using a mechanism that is commensurate with the teaching expectations for their positions. A committee, appointed by the department, shall offer evaluative feedback to potential teaching assistants and determine whether they are capable of teaching in the program. This evaluation shall become part of the student's file. Departments will use the results of both the oral evaluation and course surveys, when available, in determining whether a teaching assistant communicates effectively in English. Teaching assistants unable to communicate effectively in English will be given assistance to help them become more proficient before being reevaluated and assigned responsibilities for classroom instruction.

Teaching assistantships are funded by the state of Colorado as part of the resident instruction budget. Teaching assistantships include payment of tuition on behalf of the student as an added benefit.

Research assistantships are basically similar to teaching assistantships except that recipients are given basic research assignments. The precise nature of the duties will vary depending on the nature of the discipline, the particular projects under way in the department, and the interests and skills of the students. Often the work required is related to the student's course work; in some instances it may directly contribute to thesis, dissertation, or other degree requirements. Generally, research assistantship work is an important part of the process of becoming an active participant in the discipline.

Research assistantships are typically funded through external research grants obtained by members of the faculty. A research assistantship contract may provide for payment of tuition, but this is not necessarily the case.

Residence hall, counseling, and athletic assistantships may be available. Residence hall assistantships sometimes include room, board, and tuition in addition to stipends. Write the Office of Housing and Dining Services (<http://housing.colostate.edu/contact-us/>) for residence hall assistantships.

Graduate Assistantship - Terms and Conditions of Appointment

The following terms and conditions apply to all graduate students being appointed as Graduate Assistants. The Graduate Assistant Appointment and Certification Form generated by the academic department should be signed only after reading the terms and conditions set forth below and those noted on the Graduate Assistant Appointment and Certification Form.

All appointments of a student (the "Student") as a Graduate Assistant (the "Appointment") by Colorado State University (the "University") are effective on the date set forth beside the student's signature on the Graduate Assistant Appointment and Certification Form, subject to final approval ("Final Approval") by the Board of Governors of the Colorado State University System or the individual to whom the Board has delegated such authority (its "delegated representative").

The stipend payable to a Graduate Assistant, as specified on a Graduate Assistant Appointment and Certification Form, is offered in return for services and shall be deemed taxable compensation. Tuition remission, if specified on a Graduate Assistant Appointment and Certification Form, is provided in the form of financial aid, independently of the stipend, as a qualified tuition reduction given for educational purposes under Section 117 of the Internal Revenue Code.

A Graduate Assistant may be appointed as a Support Assistant, a Teaching Assistant, or a Research Assistant, or some combination thereof, as specified on a Graduate Assistant Appointment and Certification Form. Support Assistants provide administrative services; they are typically located in non-academic units like Housing or Athletics, but may be found in any office. Teaching Assistants help in the provision of educational services to undergraduates. Responsibilities may range from grading papers through leading discussions or lab sessions to complete independent teaching of a class. Research Assistants typically work with a professor on a project of importance to scholarship. The particular nature of Student's duties will be specified in writing, to the Student by the student's advisor or a departmental representative.

Full-time graduate students should not be appointed to more than a half-time assistantship or hold a sum of part-time assistantships greater than half-time. A half-time assistantship (.5 FTE) usually involves an average of about 20 hours of service per week of a nominal 40 hour workweek. Stipends will vary by department and by the duties assigned as well as the skills, competencies, and experience exhibited by the student. However, the stipend for half-time assistants must be paid no less than the Graduate School's officially established minimum monthly amount. Contact the Graduate School for information on the amount of this minimum for any given year. A quarter-time assistantship (.25 FTE) usually involves an average of about 10 hours of service per week of a nominal 40 hour workweek. Those with such assignments, must be paid a minimum of half of this amount. Any other level of appointment (e.g. less than 25% or between 26% and 49%) must be paid at least the prorated established minimum stipend. The level of appointment, amount of stipend and any tuition remission for each Graduate Assistant shall be as set forth on the Graduate Assistant Appointment and Certification Form.

Signature of the Graduate Assistant Appointment and Certification Form by the Student and Final Approval by the Board of Governors of the Colorado State University System or its delegated representative shall constitute a legally binding employment agreement (the "Agreement") between the University and Student. Such Agreement shall be subject to the following terms and conditions::

1. Appointment as a Graduate Assistant is expressly conditioned upon:
 - a. Student securing admission to a graduate degree program and the Graduate School, and registering for and completing at least one (1) on-campus credit during each fall and spring semester, and such credits as the appointing department may require each summer term during which the appointment is in effect.
 - b. Student's conformance to each of the following: maintaining good academic standing at Colorado State University; maintaining at least a 3.0 grade point average in each of the various categories (regular courses and overall) specified in the Scholastic Standards section of the Graduate and Professional Bulletin after having attained 12 credits of regular coursework or two semesters of graduate work, whichever comes first; not being placed on academic probation; and for non-native speakers of English, taking and obtaining a satisfactory score on prescribed language competency tests.
 - c. Continued association with and enrollment in an academic department and the absence of suspension, dismissal, expulsion, or withdrawal from the University, Graduate School, or department.
 - d. Student's performance of assigned duties and functions in a timely and competent fashion.
 - e. A routine background check, if applicable, is completed and reviewed in compliance with the Colorado State University policy regarding background checks.
- Conditions A through C above shall be deemed conditions precedent which must be met by the Student in order to remain eligible for appointment as a Graduate Assistant. Failure to meet conditions A through C above shall render the appointment voidable at the option of the University, which option may be exercised by discontinuing payment of the stipend. Failure to meet the conditions set forth in D and E above may result in termination of the Appointment, subject to Paragraph 5 below. Termination of or election to void the Appointment shall terminate the stipend payable thereunder, although such action shall not result in forfeiture of the tuition remission for the semester in which it occurs.
2. The University and the Student understand and agree that the stipend portion of an Assistantship is not a scholarship award; rather it is an appointment which involves the performance of services in return for reasonable compensation in the form of stipend. Tuition remission may also be provided in the form of financial aid, independently of the stipend, as a qualified tuition reduction given for educational purposes under Section 117 of the Internal Revenue Code.
3. The term of appointment as a Graduate Assistant and the stipend and tuition remission amounts specified in a Graduate Assistant appointment and Certification Form may reflect the anticipated continuation of the appointment for more than one academic semester, which is set forth as an administrative convenience only. Notwithstanding any such provisions, the term of appointment as a Graduate Assistant and Student's right to receive the stipend and tuition remission during any succeeding academic semester is not guaranteed by the University and no offer of future appointment shall be implied.
4. The University (or the appointing department) reserves the right to terminate the Appointment because of unavailability of funds or other conditions beyond its control upon thirty days written notice to Student, said notice effective when posted in a U.S. Mail Depository with sufficient postage attached thereto. Termination of the appointment shall terminate the stipend payable thereunder, although termination shall not result in forfeiture of the tuition remission for the semester in which such termination occurs.
5. Pursuant to State Statute C.R.S. 24-19-104, all Graduate Assistants are "employees at will" and their employment may be terminated by either party at any time, for any reason or no reason. Termination of at-will employees does not generally require pre-termination due process. However, except for non-renewals of employment following the end of a stated employment period or election to void an appointment due to failure of conditions A through C under Paragraph 1 above, the Provost/Academic Vice President must review and approve any recommendations concerning the termination of a Graduate Assistant Appointment, including a determination, based on advice from the Office of the General Counsel, as to whether any pre-termination due process is appropriate under the circumstances. Approval of the Board of Governors of the Colorado State University System or its delegated representative is required prior to any final action on such terminations. The provisions of this section shall not be interpreted to authorize the termination of any Graduate Assistant for any reason that is contrary to applicable federal, state, or local law. Termination of or an election to void an Assistantship shall be subject to appeal in accordance with the Graduate Appeals Procedure set forth in the Graduate and Professional Bulletin.
6. Payments will be made on the last work day of the month. All payments will be deposited directly in a bank or forwarded to the

address indicated on the Earnings Disposition/Address Form. Students must report to their major department to complete the necessary forms.

7. **Benefits:** Between semesters Graduate Assistants usually concentrate on their research and associated library work. To the extent that the supervising faculty member and department head concur, Graduate Assistants may use such periods for leave. Graduate Assistants are covered by the University's liability insurance and by Workers' Compensation. The Graduate School provides a health insurance contribution to help offset the cost of health insurance to qualifying graduate assistants. See the Graduate School's Assistantship Health Insurance Contribution (<https://graduateschool.colostate.edu/financial/assistantships/assistantship-health-contribution/>) for details and eligibility criteria. Graduate Assistants may also qualify for parental leave benefits. See the Graduate Student Parental Leave policy (<http://policylibrary.colostate.edu/policy.aspx?id=743>) for eligibility and application form details.
8. The Colorado Uniform Jury Selection and Service Act applied to persons appointed as Graduate Assistants and they must be excused for jury service as required by thereunder.
9. A Graduate Assistant may be required to participate in a retirement program depending on the number of credit hours for which they are enrolled and the number of hours of work required. Contribution to such a retirement program shall follow the University's rules and regulations currently in effect for such enrollment. More detailed information concerning participation in the student retirement plan is available from the Student Employment Services Office.
10. The appointment period specified on the Graduate Assistant Appointment and Certification Form may be renewed by the Department by generating a new Graduate Assistant Appointment and Certification Form requiring Student signature.
11. Increases in the amount of the stipend from that originally indicated on the Graduate Assistant Appointment and Certification Form will not require Student signature.
12. Changes other than those noted on #11 (e.g., type of assistantship, level of service, decrease in stipend, or tuition payment arrangements) require the drawing of a new Graduate Assistant Appointment and Certification Form for student signature.

Termination of Graduate Assistants

Pursuant to State Statute, C.R.S. 24-19-104, all graduate assistants are "employees at will." Their employment is subject to such administrative termination procedures as may be appropriate under the circumstances of each case. Advisors and/or department heads must consult with the Associate Dean of the Graduate School prior to taking any actions concerning terminations of assistantships before the end of the stated employment period. Except for non-renewals of employment following the end of stated employment periods or election to void an appointment as set forth in the terms and conditions applicable to graduate assistant appointments, the Provost/Academic Vice President must review and endorse any recommendation concerning the termination of graduate assistants. Approval of the President or Provost/Academic Vice President as the delegated representatives of the Board of Governors is required for any final action on such terminations. Stipends payable under graduate assistantships shall be terminated upon discontinuance of association with the appointing department, dismissal, placement on academic probation, or withdrawal from CSU. Such actions will not cause forfeiture of the tuition remission for the semester in which such action occurs. The provisions of this section shall not be interpreted to authorize the

termination of any graduate assistant for any reason that is contrary to applicable federal, state, or local law.

Termination of an assistantship shall be subject to appeal in accordance with the Graduate Appeals Procedure.

Financial Support

Merit or Competency-Based Financial Support
 Application for Financial Support
 Financial Aid
 Types and Amounts of Aid
 Credit Requirements
 Satisfactory Academic Progress Standards
 Fellowships and Traineeships
 Income Taxes
 Veteran's Education Benefits
 Sponsored Students
 Student Employment
 Awards from Outside Agencies

There are two broad categories of financial support available to graduate students. The first is awarded on the basis of academic merit or the possession of competencies that permit the performance of specific services. The second is based on demonstrated student financial need.

Merit or Competency-Based Financial Support

Awards are generally arranged or initiated at the level of the academic department. Students should contact the department head on all related matters.

Application for Financial Support

Deadlines

Most merit- or competency-based financial support is awarded on an academic year basis beginning in the Fall Semester. The primary deadline for receipt of complete applications for such support is February 15. Persons who wish to be considered should submit an application for admission. This will ensure consideration for all types of support that might be available. The first review and award cycle will begin immediately after February 15.

Applications completed later than this date will be considered as availability of funds permits. Some departmentally-based awards, particularly in the form of research assistantships and teaching assistantships, may be awarded on a later schedule. Also, ad hoc funding opportunities may become available at various times throughout the year.

Applicants who intend to begin their studies in the Spring Semester or Summer term should submit application for admission (<http://www.graduateschool.colostate.edu/prospective-students/apply/>) and application for financial support by the appropriate primary deadline date, July 15 or November 15 respectively. Again, this will ensure consideration for all types of support that might be available. Applications completed later than these dates may be considered for any appropriate departmentally-based or ad hoc awards.

Some forms of financial support applications may require other specification as indicated below.

Financial Aid

Application Requirements

1. Be admitted to the graduate school in a regular program of study.
2. Complete a Free Application for Federal Student Aid (<https://studentaid.gov/h/apply-for-aid/fafsa/>) (FAFSA). This will require your Federal Student Aid (FSA) ID Username and Password. If you have not created an FSA ID, you will be prompted to do so on the FAFSA website.

Address/Phone/Fax

The Office of Financial Aid (<https://financialaid.colostate.edu/>)
Division of Enrollment and Access
Centennial Hall, Colorado State University
Fort Collins, CO 80523-1065
Email: financialaid@colostate.edu
Phone: (970) 491-6321
Fax: (970) 491-5010
<https://financialaid.colostate.edu/>

Types and Amounts of Aid

Title	Amounts per year	Availability of funds
Federal Direct Stafford Loan		
Subsidized Loan	Not available for Graduate Students	N/A
Unsubsidized Loan	Not to exceed \$20,500 per school year	Unlimited
Supplemental Unsubsidized Loan (Veterinary medical students only)	Up to \$20,000 per school year	Unlimited
Health Professions Loan (Veterinary medical students only)	up to \$20,000	Limited
Federal Work-Study	Up to \$3,000	Limited
Colorado Graduate Grant	\$7500	Limited

Graduate fellowships and graduate teaching and research assistantships are offered through a student's respective department.

Funding

All financial aid, other than Federal Direct Loans, is awarded to the most disadvantaged students until funds have been exhausted. Federal Direct Loans are awarded on an ongoing basis.

Website

Please visit the Office of Financial Aid (<https://financialaid.colostate.edu/>) website for information on applying for financial aid, types of financial aid, costs, paying your bill, residency requirements, scholarship searches, how to contact us, etc.

Credit Requirements

Graduate students must be enrolled in at least five (5) credits to receive Federal Direct Loans. A financial aid award is based on full-time enrollment (9 credit hours); if a student is enrolled part-time, financial aid may be reduced and/or delayed. A student registered for Continuous Registration is not eligible to receive financial aid and is also not eligible for a loan deferment.

Satisfactory Academic Progress Standards

Students applying for and/or receiving financial aid are expected to maintain satisfactory academic progress. Failure to perform at established levels may result in students becoming ineligible for financial aid. Students' total number of credits are also evaluated, and students may not exceed established credit limits. Additionally, if a student receives all "F", "U", and/or "W" grades, they will be required to verify the last date of attendance and may be required to return up to 50% of the financial aid received. Copies of the complete policy (<https://financialaid.colostate.edu/financial-aid-guide/>) are available online within the Financial Aid Guide.

Fellowships and Traineeships

All fellowship awards are based on merit and are highly competitive.

These forms of support involve outright awards to cover educational expenses and may in some cases cover tuition, fees, and other direct expenses. They do not require any service on the part of the student. Several programs funded by a variety of private and public sources may be available at any given time. Graduate fellowship awards are available. These awards are designed to be part of a full support package and, hence, are usually supplementary to an assistantship appointment. Departments nominate promising candidates for these awards in response to a call in the fall of each year. Fellowships are given in recognition of academic excellence, student contribution to any of the goals of the CSU strategic plan (e.g., undergraduate instruction, diversity), and departmental quality.

The Martin Luther King, Jr. Graduate Scholarship provides support each year for a graduate student at CSU. It is awarded on the basis of academic excellence and contributions to the enhancement of individuals from ethnically diverse populations.

Income taxes

Assistantship stipends are considered payment for services rendered and are thus subject to regular income taxation. Appropriate amounts are withheld from stipend checks as per Internal Revenue Service Requirements.

Tuition payments made on behalf of graduate assistants may be considered "qualified tuition reductions," not subject to income taxation. However, this is explicitly dependent upon the proper execution of the formal contract described above.

Fellowship awards are considered taxable income. However, tuition and certain other direct educational expenditures may be excluded. Most fellowship holders will incur some tax liability. CSU will not deduct from fellowship checks to cover this liability; paying the taxes is a matter of individual responsibility. Fellowship holders should be aware of this additional liability in planning their financial affairs.

Veteran's Education Benefits

The Office of the Registrar (<https://registrar.colostate.edu/>) assists the U.S. Department of Veterans Affairs (VA) in providing certification for the following education benefits:

Under Title 38, U.S. Code

- Chapter 30 (Montgomery G.I. Bill®)
- Chapter 31 (Veteran Readiness and Employment)
- Chapter 32 (Post-Vietnam Era)
- Chapter 33 (Post-9/11 G.I. Bill®)
- Chapter 35 (Dependents Educational Assistance)

Under Title 10, U.S. Code

- Chapter 1606 (Selected Reserve/National Guard Members)
- Chapter 1607 REAP (Reserve Education Assistance Program)

In addition, the Office of Military & Veteran Benefits will advise and assist students in:

- Meeting residency requirements under the Veterans Choice Act of 2014, Colorado's GI Promise or the Yellow Ribbon Program
- Requesting and obtaining Joint Service Transcripts and other transcripts from military training
- Obtaining additional campus services

Students eligible for any of these benefits must contact the Office of Military and Veteran Benefits (<https://registrar.colostate.edu/military-veterans/>) in the Office of the Registrar prior to the expected date of enrollment. Applicants should apply to CSU in a degree-seeking major or for teacher licensure before applying for veterans' education benefits.

A description of the services (<https://alvs.colostate.edu/veteran-services/>) CSU provides may be found online. Regulations governing receipt of veteran's education benefits, Standards of Progress, and other policies (<https://registrar.colostate.edu/military-veterans/>) are also available online.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at <https://www.benefits.va.gov/gibill> (<https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.benefits.va.gov%2Fgibill&data=05%7C01%7CJerry.Becker%40ColoState.EDU%7Cdc9438d303e4437bd49a08da4d4cd2d6%7Caf58802ff7a4bb1ab21367ff2e6f0b%7C0%7C0%7C637907289593659224%7CUnknown%7CTWFpbGZsb3d8eyJWljiMC4wLjAwMDAiLCJQIjoiV2luMzliLCJBTiI6IklhaWwucjYXVC6Mn0%3D%7C3000%7C%7C%7C&sdata=A2iSOEjiEcyHIHAveLmR%2FZuTuxmbMCWTpb%2BpcAFD%2Bko%3D&reserved=0>).

Sponsored Students

Sponsored students are those whose tuition, fees, or expenses are paid by an employer government agency or other sponsoring agency. Many international students, as well as some from the U.S., fall under this category. In cases where sponsors provide direct support for students' research activities, special custodial accounts must be established. Additional fees are associated with this service. Specific information on these accounts is provided to each student at the time of admission, and additional advice may be obtained from the Graduate School (<https://graduateschool.colostate.edu/>), or in the case of international students, from the Office of International Programs (<https://international.colostate.edu/>), to the attention of the International Sponsored Student Coordinator, International Student and Scholar Services (ISSS).

Student Employment

Office in the Lory Student Center
(970) 491-5714

Employment opportunities available include the Work-Study Program, on-campus departmental positions, and community part-time employment. Refer to the Student Employment Services (<http://ses.colostate.edu/>) website for more details.

Awards from Outside Agencies

Many foundations and government agencies offer awards for particular purposes. Often, individual interested students must initiate application procedures. The Graduate School (<https://graduateschool.colostate.edu/>) provides information on the use of a computerized process to locate graduate funding. Information on Fulbright and Rotary Scholarships is available from the Office of International Programs (<https://international.colostate.edu/>). Information for Marshall or Rhodes grants can be obtained through the Honors Program (<http://honors.colostate.edu/>).

Tuition, Fees, and Expenses

Graduate Charges for Technology/Term
Doctor of Veterinary Medicine Students Enrolled in 9-24 Credits
Special Fees
Paying Your Bill
Conditions that Affect the Assessment of Charges
Additional Academic Expenditures
Personal Expenses
"In-State Residency" for Tuition Classification Purposes

Authority to set tuition rates is vested in the governing boards of Colorado's state institutions of higher education. The tuition rates which apply to any succeeding fiscal year will not be known until June of each year. The Board of Governors of the CSU System, therefore, reserves the right to change tuition and fee schedules and related policies, including the time, date, and method for payment, at any time.

By registering for a course, a student acknowledges legal and financial responsibility for any and all tuition and fees assessed as a result of

registration. Students must follow, and are financially responsible for, formal add/drop and withdrawal procedures at CSU. Non-attendance does not relieve a student of financial responsibility. A student whose account becomes delinquent will be held responsible for paying any late payment charges, collection agency fees up to 40% of the debt, and all costs and expenses including reasonable attorney fees that CSU incurs in its collection efforts. CSU will not register a student, release a diploma or proof of degree, nor provide official transcripts to any current or former student who has past due financial obligations to CSU.

Graduate Students (Except Doctor of Veterinary Medicine Students)

Resident and Non Resident fees can be found on the Tuition & Fees (<https://financialaid.colostate.edu/base-tuition/>) website.

Approved WICHE Programs

To view a list of approved programs, visit our Graduate Programs webpage (<https://graduateschool.colostate.edu/programs/>) and use the search term “WRGP” for a current list of WRGP approved programs. Use the icons in the upper right to toggle the view between grid and list style.

Graduate Charges for Technology/Term

Fees can be found on the Tuition & Fees (<https://financialaid.colostate.edu/base-tuition/>) website.

Doctor of Veterinary Medicine Students Enrolled in 9-24 Credits

Fourth-year veterinary students are assessed tuition on a credit basis for each semester since their class schedules vary during the three-semester period. Fees (<https://financialaid.colostate.edu/base-tuition/>) for fourth-year veterinary students are assessed over three semesters in equal payments. The University Technology Fee is also assessed to fourth-year students for the summer term.

Special Fees

In addition to the regular charges which all students are assessed, other fees may be applicable at certain times or for certain groups of students pursuing particular activities.

Admission (U.S. citizen/permanent resident) application fee	\$60.00
Admission (International) application fee	\$70.00

Admission for certificate program only (U.S. citizen/permanent resident and international) application fee	\$60.00
Reapplication fee	\$150.00
Continuous registration fee	\$150.00 per semester
Late registration fee	\$50.00
Transcript fee per copy	Refer to https://registrar.colostate.edu/transcripts (https://registrar.colostate.edu/transcripts/)
Course Fees	Certain courses carry a special fee which is assessed at the time of registration. The costs vary and are determined annually. The current fees for each course can be found at https://financialaid.colostate.edu/base-tuition/ (https://financialaid.colostate.edu/base-tuition/). The fees are for the use of materials or other specific expenditures necessary for the conduct of instruction.
International and Scholar Services	The International Student and Scholar Services administrative charge is \$175 each semester. Charges are subject to change.

Nonrefundable Fees

Please refer to the General Catalog for more information on Tuition and Fees.

Paying Your Bill

Payment of Student Accounts

Any student who completes registration agrees to pay the University as follows:

Charges	Fall	Spring	Summer
Tuition, fees, residence hall charges, health insurance and other institutional charges	September 10 th	February 10 th	Due when billed

Charges incurred after the bill date for the semester will be billed mid-month of the following month and have a due date of the 10th of the month after that statement date or the following business day if the 10th falls on a weekend or University holiday.

University charges are due by the date specified on your bill. Due dates are the 10th of each month unless the 10th falls on a weekend or holiday. In those cases, the due date is the following work day. Payment of all CSU charges is to be received in the University Cashier's Office or cashiering system by the due date to avoid late payment penalties. Penalties include a late payment charge and holds on CSU services. Payments by check are processed when received – postmarks do not apply and future dates are not honored.

Students are responsible for all charges on their account and arrangement of payments due. Payments should only be made when a balance due exists on an account. Credit card overpayments will be credited back to the originating card. All other overpayments will be refunded via mailed check to the student.

In support of CSU's Green Initiatives, CSU implemented e-billing effective in Fall 2010. Billing notifications are e-mailed to Rams e-mail addresses. Students can then log into RAMweb to view their University Billing Statement. Additional billing notifications may be sent to alternate e-mail addresses maintained by the student on RAMweb. Students who are sponsored by a third party may request direct billing to the sponsor for tuition, fees, and other related educational expenses. Detailed information on sponsor billing is available upon request from the Office of Financial Aid. Arrangements for sponsor billing must be made prior to the student account due dates to prevent late payment penalties.

"Billing Information" in RAMweb (<https://ramweb.colostate.edu/>) provides more information on setting up a billing address, billing statement information, accepted payment methods, credit balance refunds, and education tax credit information.

Late Payment Penalties

Late Payment Charges

Mailed payments must reach the University Cashier's Office, 6015 Campus Delivery, by 4:00 p.m. Mountain Standard Time (MST) on the due date (postmarks do not apply). Online payments must be made by 2:00 p.m. MST on the due date for the payment to be considered timely. Penalties in the amount of 1.5% of the past due balance will be assessed monthly for the purpose of encouraging prompt payment. Failure to pay amounts due may also result in referral of outstanding balances to a collection agency. These agencies may take legal action to collect past due balances. Further, CSU reserves the right to impose a penalty fee and financial hold for returned checks.

Registration, Transcript, and Diploma Holds

Unpaid past due balances may cause a hold on registration, transcripts, and diplomas. CSU will not register a student, release a diploma or proof of degree, nor provide an official transcript or diploma to any student or former student who has past due financial obligations to CSU until the hold is removed. The release of the hold may be expedited by paying the past due balance in full.

Returned Checks

Any person who presents a check to CSU, either paper or electronic, that is not accepted for payment by the bank (due to insufficient funds, stopped payment, non-existent account, or other reason for which the person is responsible) is charged a penalty as provided by state law. Contact the Treasury Services Office, 555 S. Howes Street First Floor, for the current returned check penalty fee.

CSU sends a notice to the person who presents a check that is not accepted for payment by the bank. In the case of students, the notice is mailed to the student's billing address on file with CSU. Within the time specified in the notice, the person is expected to make payment by guaranteed funds including cash, cashier's check, money order, wire transfer, or accepted credit cards. The payment must be equal to the total of the invalid check plus penalty fee if applicable. Failure to do so will result in action deemed appropriate under the circumstances. If the original presentation of the returned check allowed a student to register for an academic term and full payment of the check plus penalty fee

is not made within the time specified in the notice, the student's class schedule may be cancelled.

Conditions that Affect the Assessment of Charges

Tuition and fees for a student registering for a combination of regular on-campus courses, or Continuing Education (CSU Online) courses will be assessed individually according to the schedule established for each. Students who are off campus for full-time internships, practica, or professional affiliations, and who are not concurrently enrolled in other on-campus experiences or courses, may be assessed a reduced student fee. CSU usually pays the tuition on behalf of teaching assistants (full-time registrants who receive a stipend of at least \$1,370.00 per month). Research assistantship stipends are typically paid from research grants received by faculty members. Tuition charges may also be paid from these grant funds on behalf of the students, but practice is highly variable. Information should be requested from the department head or the faculty member serving as principal investigator on a particular grant. All students are directly responsible for the payment of fees.

Accelerated Master's Programs (AMP) Admission students enrolled in combined bachelor's/master's degree programs will be assessed tuition at the undergraduate rate until they have accumulated 120 credits towards their baccalaureate degree after which they will be assessed tuition at the graduate rate. Such students likewise become eligible to hold Graduate Assistantships at the same transitional time.

Additional Academic Expenditures

Graduate students may be responsible for all or part of the costs involved in the preparation of theses, dissertations, or other pieces of scholarly work required in the academic program. The expenses of an appropriate research or artistic project are highly variable, depending on the discipline, the specific nature of the work involved, and the availability of resources from funded projects, students' sponsoring agencies, or the academic departments. In some cases, students may pay such costs directly. In others, departments may request that funds be deposited in a special account in advance.

Personal Expenses

Health Insurance

The CSU Student Health Insurance Plan is designed to work in conjunction with the student fee-funded services provided at the CSU Health Network. The plan, underwritten by Aetna Life Insurance Company and its affiliates ("AETNA"), provides students with access to comprehensive, high quality care. Plan benefits are provided both within the CSU Health Network and when services are provided off campus, outside the CSU Health Network. Fee-paying students are eligible to enroll in this plan.

Graduate students who are enrolled in less than six (6) RI credits may opt into coverage by completing an enrollment form at the CSU Student Insurance Office (information in the Student Insurance Office) before the plan enrollment/cancellation deadline. Graduate students enrolled in LESS THAN six (6) resident instruction (RI) credits will NO LONGER be automatically enrolled.

Students enrolled in six or more resident instruction credit hours are automatically enrolled in the plan and are subject to the mandatory insurance requirement. These students must demonstrate proof of enrollment in comparable insurance in order to opt out via the CSU Student Health Insurance Waiver (<https://health.colostate.edu/student-health-insurance/>) process. Students who have been granted a waiver in the fall semester will be automatically waived in the spring semester as well. All waiver requests must be submitted by the published enrollment/cancellation deadline.

If you do not waive out of the plan by the enrollment/cancellation deadline, your student account will be billed for the premium. Due to the terms of the insurance carrier, no exceptions can be made. Information about the enrollment/cancellation deadline (<http://health.colostate.edu/student-health-insurance/>) for each semester is available online.

Note for International Students: International students are required to hold health insurance regardless of their enrollment status. You will be automatically enrolled in the CSU Student Health Insurance Plan and must show proof of enrollment in a comparable plan through the waiver process if you wish to opt out.

For more information visit the CSU Health Network (<https://health.colostate.edu/>) or the Graduate School (<https://graduateschool.colostate.edu/financial/assistantships/assistantship-health-contribution/>) websites.

Living Expenses

Since individual habits and needs vary greatly from individual to individual, it is difficult to produce a standard estimate of overall living expenses. Information on housing options and costs is available through Housing and Dining Services (<http://housing.colostate.edu/>) and the Office of Off-Campus Life (<https://ocl.colostate.edu/>).

New students should be aware that expenses incurred as a graduate student are likely to be higher than as an undergraduate. The purchase of research supplies, the acquisition of a personal library, attendance of seminars, conferences and meetings, and general change of lifestyle are some of the factors that may account for this.

International students particularly may incur high costs. Many necessary articles cannot be transported as luggage and may have to be purchased after arrival at CSU. Clothing appropriate to the climate may have to be acquired. A detailed estimate of expenses including out-of-state tuition and fees, living expenses, and cost of mandatory health insurance for a full calendar year (two semesters and a summer term) may be obtained from the Office of International Programs (<http://www.international.colostate.edu/>) or emailing iss@colostate.edu.

"In-State Residency" for Tuition Classification Purposes

O (<http://sfs.colostate.edu/>) Office of Financial Aid (<http://financialaid.colostate.edu/>)
Centennial Hall
1065 Campus Delivery
(970) 491-6321
Fax: (970) 491-5010

Classification of students for tuition purposes is governed by State Statute ("tuition law") which sets forth conditions for a student being considered as "in-state" for purposes of tuition classification. The tuition

law is contained in sections 23-7-101 to 23-7-4-204, of the Colorado Revised Statutes. Although individuals may be considered state residents for voting or other legal purposes after being in the state for a short period of time, the tuition law specifies additional requirements for classification as "in-state" for tuition purposes. The tuition law, which applies to all public institutions of higher education in Colorado, is subject to judicial interpretation and change at any time by the Colorado Legislature. CSU must apply the rules set forth in the Colorado Revised Statutes, and is not free to make exceptions except as specifically permitted under the Statute.

Note: This information is considered to be general guidance and is not legal advice. Refer to State Statute to review the actual law.

Definition of "In-State Residency" for Tuition Purposes

Under the Colorado tuition law, the term "in-state" student means: "A student who has been domiciled in Colorado for one year or more immediately preceding the first day of classes for the term for which such status is claimed." Further the tuition law states: "Attendance at an institution of higher education, public or private, within the state of Colorado shall not alone be sufficient to qualify for domicile in Colorado."

The Statute states that the applicant has the burden of providing clear and convincing evidence that a Colorado domicile has been established for the required one-year period. CSU may require completion of appropriate forms and additional documentation as necessary to make a determination of domicile. After registration, the initial tuition classification will remain unchanged absent clear and convincing evidence to the contrary.

In-state classification requires a domicile in Colorado for 12 months on or prior to the first day of classes of each semester. "Domicile" is the legal term used to describe the place where a person has chosen to make a true fixed and permanent home. Domicile is made up of two components: physical presence and evidence of intent. **Both** physical presence and evidence of intent must be established for 12 months on or prior to the first day of classes. A student can only establish domicile in Colorado for tuition purposes if they intend to reside permanently in the state and meet the definition of a "Qualified Person."

Initial residency determination for tuition purposes of any student enrolling at CSU is concluded by the Office of Admissions. To be initially considered for in-state classification you must answer all residency questions completely and accurately on the application and submit requested evidence substantiating their claim. Failure to do so will result in classification as out-of-state for tuition purposes.

In-State Status: Other Circumstances

Exceptions to the one-year residence requirement exist for the following:

- Colorado National Guard members
- Active-duty military stationed in Colorado
- Honorably-discharged members of the U.S. Armed Forces
- Returning active-duty military members
- Canadian military stationed in Colorado
- Employees of companies moving to Colorado receiving government economic incentives

For detailed explanation of the requirements for these exceptions, including spouse eligibility, go to CSU's Office of Financial Aid (<https://financialaid.colostate.edu/>) or the Colorado Higher Education Residency

Guide (<https://cdhe.colorado.gov/summary-tuition-classification-regulations/>).

International Students

International students who are lawful permanent residents or who are admitted as refugees are eligible to establish domicile for tuition purposes. Nonimmigrant aliens who are residing in Colorado for purposes other than education may qualify for in-state status after one year of Colorado domicile. A nonimmigrant with the following student visa categories cannot qualify for in-state tuition classification: F-1, F-2, H-3, H-4 (if the visa holder is the spouse or child of an H-3), J-1 and J-2 (if the J-1 visa holder is a student or trainee), M-1 and M-2.

Petition for Reclassification

A petition may be filed if a student wishes to contest out-of-state classification or if the student has subsequently become eligible for in-state status. Petitions will be processed only for students who have been admitted to CSU and currently enrolled for the semester in which they are requesting a change in classification. Please review the Office of Financial Aid (<https://financialaid.colostate.edu/>) website for more information.

A student's current tuition classification will remain until they have received notification from the Office of Financial Aid Tuition Classification Officer indicating a residency change has been approved. Students who are petitioning for in-state classification remain responsible for paying their tuition based upon current tuition classification. Students are strongly urged to petition as early as possible within the submission window dates provided on the Office of Financial Aid (<http://financialaid.colostate.edu/>) website in order to receive a response of their tuition classification prior to the beginning of the semester.

Petition Process/Deadline

The Office of Financial Aid must receive completed petitions no later than the published deadline date for the semester for which you are petitioning. Deadlines (<https://financialaid.colostate.edu/petition-process-and-deadlines/>) are provided on our website. Petitions will not be accepted after the published deadline date and incomplete petitions will not be accepted and/or reviewed for that semester, and your tuition classification and tuition assessment will remain nonresident for that term. Petitioners will be notified of the results of their petition by mail. Please allow 4-8 weeks for notification. If additional information is required, the additional information must be submitted within two weeks of the communication sent to the petitioner unless special arrangements are made with the Tuition Classification Officer.

Decisions made by the Tuition Classification Officer may be appealed by CSU's Residency Appeals Committee. A student wanting to appeal the decision to the Residency Appeals Committee must contact the Office of Financial Aid no later the deadline date provided in the letter in which the decision was conveyed to the petitioner. The decision of the Residency Appeals Committee is the final University determination for that specific semester. In addition, there are no provisions in the Tuition Classification Statutes for retroactive compliance.

The fact that you do not qualify for in-state status in any other state does not guarantee in-state status in Colorado; in-state classification is governed solely by Colorado statute. The tuition classification statute places the burden of proof on the petitioner to provide clear and convincing evidence of eligibility.

Any student who provides false information to avoid paying out-of-state tuition may be subject to legal and/or disciplinary actions.

Enrollment and Academic Records

Information about credits, enrollment status, credit overloads, class schedules, registration process, registration waitlist, course overrides, late registration, registration cancellation prior to start of term, and repeating a course may be found in the Registration section of the General Catalog.

About Grades

About Withdrawals

Class Attendance and Final Exams

Assessment of Tuition and Fees Based on Registration Changes in Full or Part-Time Status

Tuition and fees will be adjusted for students that go above or below the full-time credit assessment cut-off during the add/drop period at the beginning of the semester. The specific dates are listed in the appropriate online class schedule. After this deadline, there is no adjustment in tuition and fees if students withdraw from any portion of the courses for which they are registered.

Continuous Registration

All students admitted to a graduate degree program are required to be continuously enrolled in their degree program in the fall and spring semesters. This policy applies from the time of first enrollment through the graduation term. Students should contact their advisor if they do not plan to register for at least one credit of course work or research. Students graduating in summer term are required to be registered for at least one credit or Continuous Registration (CR). Students registering for CR will be assessed a fee for each semester of CR registration. If Continuous Registration is added on or after the first day of the term, a \$50 late registration charge will be applied. See Special Fees.

Students enrolled for Continuous Registration in any term may not be considered enrolled full time for the purposes of, for example, financial aid, student loans, visas, or employment. Moreover, to receive full privileges for the summer term, students must be enrolled either in the summer or for the following fall term.

Credit Load

Graduate assistants are required to register for at least one credit of course work and/or research during fall and spring terms. Assistants who have an appointment in effect in the summer must register for such credits as the appointing department may require. Students on other forms of financial assistance should register for the number of credits required by the sponsor.

Schedule Changes and the Add/Drop and Withdrawal Periods

See Schedule Changes

Registration Alternatives

Independent Study

Independent study is a type of learning that supplements regular, supervised classroom instruction by permitting the student to carry

such learning even further, working independently under necessary and sufficient guidance of a supervising instructor. While details of each independent study project are negotiated by the student and instructor, the expectation is that at least three hours per week of directed effort on the student's part is required for each credit. Personal contact (face-to-face, telephone, Internet, or other forms of communication) is expected.

The instructor and the student shall specify, in writing, the requirements the student should fulfill to complete the course, including due date, contact expectations, number of credits, and other pertinent information. The instructor, student, and department head shall sign this statement and retain a copy. Upon completion of the project, a copy or description of the work involved shall be retained in the department for at least seven years.

About Grades

See Grade Points

Student Option Satisfactory/Unsatisfactory

Satisfactory/Unsatisfactory registration for graduate students is subject to limitations imposed by graduate committees and departments. Required courses listed on the program of study may not be taken on a "student-option satisfactory/unsatisfactory" basis. Courses which are offered "satisfactory/unsatisfactory only" or "instructor option satisfactory/unsatisfactory" are acceptable. Background courses may be taken "student-option satisfactory/unsatisfactory" if department policies permit. Registration for satisfactory/unsatisfactory should be approved by the advisor prior to enrollment and cannot be altered except during the schedule change period. Repeating a course on a satisfactory/unsatisfactory basis for which a previous traditional grade was assigned will not alter the effect of the previous grade on the GPA. For "student-option satisfactory/unsatisfactory" courses:

- A correct satisfactory/unsatisfactory registration including advisor approval is the express responsibility of each student.
- Performance equivalent to a grade of C or better is recorded as S (Satisfactory); performance equivalent to a D or F is recorded as U (Unsatisfactory). Neither the S nor the U are used in calculating the CSU grade point average.
- A grade for a course taken as satisfactory/unsatisfactory may not be converted to a traditional grade for purposes of improving the GPA to meet graduation or scholastic requirements.
- When it is determined that an ineligible student is or has been registered for a satisfactory/unsatisfactory course, a traditional grade will be assigned.

Amendments to the Bulletin

Specifics on these amendments may be found on the Faculty Council (<http://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) **webpage**.

Faculty Council approved changes to ACCELERATED MASTER'S DEGREE PROGRAM on May 2, 2023. This modification is found in the Faculty Council agenda (<http://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) (05-02-23, pg 47).

Faculty Council approved changes to SCHOLASTIC STANDARDS on April 4, 2023. This modification is found in the Faculty Council minutes (<http://>

facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/) on page 6.

Faculty Council approved the addition of INFORMAL AND FORMAL COMPLAINTS. This addition was approved on February 1, 2022 and is found on page 3 of the Faculty Council minutes (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>).

Faculty Council approved changes to INTER-UNIVERSITY GRADUATE PROGRAMS, Collaborative Degree Program, on October 5, 2021. This modification is found in the Faculty Council minutes (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 8.

Faculty Council approved changes to ADMISSIONS REQUIREMENTS AND PROCEDURES, Track II Admissions on October 5, 2021. This modification is found in the Faculty Council minutes (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 7.

Faculty Council approved changes to ADMISSIONS REQUIREMENTS AND PROCEDURES, Integrated Degree Program and Integrated Degree Programs Plus Admissions, Application: U.S. Citizens or Permanent Residents, Application: International Students on May 4, 2021. This modification is found on the Faculty Council Agenda (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) (05-04-21).

Faculty Council approved changes to Graduate certificates on April 6, 2021. This modification is found in the Faculty Council minutes (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 11.

Faculty Council approved changes to Requirements for all degrees on April 6, 2021. This modification is found in the Faculty Council minutes (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 10.

Faculty Council approved changes to Scholastic Standards on March 2, 2021. This modification is found in the Faculty Council minutes (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 11.

Faculty Council approved changes to Graduate Assistantship - Terms and conditions of Appointment on March 2, 2021. This modification is found in the Faculty Council minutes (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 11.

Faculty Council approved changes to The Advisory System on October 6, 2020. This modification is found in the Faculty Council minutes (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 5.

Faculty Council approved changes to the Intrauniversity Graduate Programs on October 6, 2020. This modification is found in the Faculty Council minutes (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 5.

Faculty Council approved changes to The Advisory System - non academic measurements on March 3, 2020. This modification is found on the Faculty Council Agenda (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) (03-03-20) on page 53.

Faculty Council approved adding Dual and Joint Master's Degrees to Graduate Study, Master's Degrees on February 4, 2020. This modification is found in the Faculty Council minutes (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 3. The full text of *Dual and Joint Master's Degrees* can be found on the Faculty Council Agenda (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) (02-04-20) on pages 38-40.

Faculty Council approved changes to Admissions Requirements and Procedures on February 4, 2020. This modification is found in the Faculty Council minutes (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 4. The full text of Admissions Requirements and Procedures can be found on the Faculty Council Agenda (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) (02-04-20) on page 41.

Faculty Council approved changes to Integrated Degree Program and Integrated Degree Program Plus Admissions, The Advisory System, Graduate Assistantship – Terms and Conditions of Appointment, and Definition of “In-State Residency” for Tuition Purposes on December 3, 2019. This modification is found in the Faculty Council minutes (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on pages 6-7. The full text of *Integrated Degree Program and Integrated Degree Program Plus Admissions, The Advisory System, Graduate Assistantship – Terms and Conditions of Appointment, and Definition of “In-State Residency” for Tuition Purposes* can be found on the Faculty Council Agenda (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) (12-03-19) on page 52-53.

Faculty Council approved changes to the Graduate Assistantship - Terms and Conditions of Appointment on December 3, 2019. This modification is found in the Faculty Council minutes (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 7. The full text of the *Graduate Assistantship - Terms and Conditions of Appointment* can be found on the Faculty Council Agenda (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) (12-03-19) on page 56.

Faculty Council approved changes to the Requirements for all Graduate Degrees and Graduation Procedures on November 5, 2019. This modification is found in the Faculty Council minutes (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 7.

Faculty Council approved changes to the Graduate Certificate Program section on November 5, 2019. This modification is found in the Faculty Council minutes (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 8.

Faculty Council approved changes to the Scholastic Standards on November 5, 2019. This modification is found in the Faculty Council minutes (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 10.

Faculty Council approved changes to the Readmission policy section on October 1, 2019. This modification is found in the Faculty Council minutes (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 7-8.

Faculty Council approved changes to the Scholastic Standards on May 1, 2018. This modification is found in the Faculty Council minutes (<https://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 53.

facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/) on page 6-7.

Faculty Council approved changes to the Master's Degrees on April 3, 2018. This modification is found in the Faculty Council minutes (<http://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 18.

Faculty Council approved the changes to the continuous registration policy on December 5, 2017. This modification is found in the Faculty Council minutes (<http://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 10.

Faculty Council approved the changes to the advisory system policy on December 5, 2017. This modification is found in the Faculty Council minutes (<http://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 8.

Faculty Council approved the changes to the US Citizen application GPA provisional Admit policy on November 7, 2017. This modification is found in the Faculty Council minutes (<http://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 68.

Faculty Council approved changes to the Doctoral Degree, adding a professional doctorate. These changes were approved on April 4, 2017 on page 120 of the Faculty Council minutes (<http://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>).

Faculty Council approved revisions to Master's Degrees, Credit Requirements. These changes were approved on April 4, 2017 on page 118 of the Faculty Council minutes (<http://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>).

Faculty Council approved changes to the Graduate Study section, adding Graduate Specializations. These changes were approved on December 6, 2016 on page 21 of the Faculty Council minutes (<http://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>).

Faculty Council approved changes to the Admissions Requirements and Procedures. These changes were approved on November 1, 2016 and are found on page 13 of the Faculty Council minutes (<http://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>).

Faculty Council approved modifications to the Evaluation of Graduate Students. These changes were approved on October 4, 2016 and are found on page 10 of the Faculty Council minutes (<http://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>).

Faculty Council approved the changes to the continuous registration policy on September 6, 2016. This modification is found in the Faculty Council minutes (<http://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) on page 13.

Faculty Council approved the addition of the Student Conduct Code to the Graduate and Professional Bulletin. This addition was approved on October 4, 2016 and is found on page 10 of the Faculty Council minutes (<http://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>).

Faculty Council approved the changes to the continuous registration policy on September 6, 2016. This modification is found on page 11 of

the Faculty Council minutes (<http://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>).

Faculty Council (12-1-15 minutes) approved additional wording regarding 100 and 200 level courses taken by graduate students and transfer course grade requirements. The full text of the changes to *Scholastic Standards* can be found on the Faculty Council Agenda (<http://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) (12-1-15) page 28.

Faculty Council (11-3-15 minutes) approved a wording change regarding the process appointing advisors and committee members. The full text of the changes to *The Advisory System* can be found on the Faculty Council Agenda (<http://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) (11-3-15) page 45.

Faculty Council (9-1-15 minutes) approved the addition of the Pearson Test of English (PTE) as an acceptable test for English proficiency. The full text of the changes to the *Application: International Students* in the *Admissions Requirements and Procedures* section can be found on the Faculty Council Agenda (<http://facultycouncil.colostate.edu/faculty-council-meeting-dates-agendas-minutes/>) (9-1-15) page 127.

May 5, 2015 Faculty Council Revision to The Advisory System, Plan C master's students - Graduate Study - Requirements for All Graduate Degrees - The Advisory System.

March 4, 2015 Faculty Council Revision to Combined Degree Programs removal from this section – B.5 Combined Degree Programs – references to Track III were updated to Integrated Degree Program (IDP)

February 3, 2015 Faculty Council Revision to Collaborative Degree Program – E.4 Collaborative Degree Program.

December 2, 2014 Faculty Council Revision to Professional Science Master's – E.2 Master's Degrees

December 2, 2014 Faculty Council Revision to Appeals – E.1.4. Graduate School Appeals Procedure

December 2, 2014 Faculty Council Revision to Combined Degree Admissions and Track III Admissions to IDP and SDP- D.3 Combined Degree Programs and D.3.1 Track III Admissions

November 4, 2014 Faculty Council Revision to Scholastic Standards – E.1.3 Scholastic Standards

September 2, 2014 Faculty Council Revision to Combined Degree Program – revisions to section B: "The Graduate School", to section D: "Admission Requirements and Procedures" - D.1 Application: U.S. Citizens or Permanent Residents - D.3. Track III Admissions, section E. "Graduate Study": E.1.2 Program of Study – and section G. "Tuition, Fees, and Expenses"- G.7 Conditions That Affect the Assess of Charges

September 2, 2014 Faculty Council Revision to TOEFL/IELTS Requirement – D.5 Application: International Students

September 2, 2014 Faculty Council Revision to Graduate Certificate Program – E.6 Graduate Certificate Program

May 20, 2014 Faculty Council Revisions to Track III – The Graduate School B.5, B 5.1, Admission Requirements and Procedures D.1, D.3, D.3.1, Graduate Study E.1.2 and Tuition Fees and Expenses G.7.

April 2, 2013 Faculty Council Revision to New Graduate Degree Programs – The Graduate School B.1

April 2, 2013 Faculty Council Revision to Public Dissemination of Theses and Dissertations – Graduate Study E.5

April 2, 2013 Faculty Council Revision to Credit Requirements – Graduate Student 2.1, Table 1 and E.3.1

March 5, 2013 Faculty Council Revision to Probation Procedures – Scholastic Standards E.1.2

November 5, 2012 Faculty Council Revision to Graduate Assistantships – Financial Support F.2.3

September 4, 2012 Faculty Council Revision to the Probationary Period – Scholastic Standards E.1.3

February 7, 2012 Faculty Council Revision to the Enrollment and Academic Records – Degree Conferral

February 7, 2012 Faculty Council Revision to the Admissions Requirements and Procedures – Application- International Students

October 4, 2011 Faculty Council Revision to the Admissions Requirements and Procedures – Application: International Students

September 8, 2011 Faculty Council Revision to the Admissions Requirements and Procedures - "Application: International Students" Section

April 5, 2011 Faculty Council Revision to the Enrollment and Academic Records – Schedule Changes and the Add/Drop and Withdrawal Periods

April 5, 2011 Faculty Council Revision to the Enrollment and Academic Records – Traditional Grading – Plus/Minus

February 17, 2011 Faculty Council Revisions to the Student Rights and Responsibilities – "Academic Integrity" Section

February 10, 2011 Faculty Council Revisions to the Enrollment and Academic Records - "Called to Active Military Duty" Section

February 10, 2011 Faculty Council Revisions to the Graduate Study - "Table 2. Summary of Procedures for the Master's and Doctor of Philosophy Degrees" & "Dissertation and Thesis" Section

December 10, 2009 Faculty Council Revision to the Admissions Requirements and Procedures - "Application: American Citizens", "Track II Admissions", & "Application: International Students" Sections

November 18, 2009 Faculty Council Revision to the Graduate Study - "The Advisory System" Section

March 12, 2009 Faculty Council Revision to the Admissions Requirements and Procedures - "Application: American Citizens" Section

March 12, 2009 Faculty Council Revision to the Admissions Requirements and Procedures - "Application: International Students" Section

March 12, 2009 Faculty Council Revisions to the Admissions Requirements and Procedures - "Application: International Students" Section

CSU EXTENDED CAMPUS/CSU ONLINE

CSU Office of Engagement and Extension brings CSU's educational resources, programs and services to local communities across Colorado and beyond. An array of life-long learning opportunities is offered.

CSU Online offers undergraduate and graduate degrees, graduate certificates, and hundreds of credit courses in order to help move careers forward. CSU's online students receive the same education, learn from the same faculty, and earn the same regionally accredited degree(s) as students on campus. Learn more about CSU's online, distance, hybrid, and off-campus programs.

Professional Education offers professional and personal development programs in both online and in-person settings. We deliver lifelong, educational content to benefit alumni, business, and communities based on community needs and trends.

Osher Lifelong Learning Institute (OLLI) offers a mix of engaging learning opportunities for adults of all ages, with special consideration of those 50 and older. Members learn, build new friendships, and take an active part in discovering more about the world - both locally and globally.

Collaboration Campuses offer educational solutions (for example degrees, certificates, noncredit offerings and learning pathways) for the modern learner, facilitating place-based learning opportunities across diverse program offerings. We build community partnerships and facilitate connections to engage and work together on local community and workforce needs.

ABOUT CSU

One of the nation's top public research universities, Colorado State University touches the lives of people in Colorado, across the nation, and around the world through our mission of access, discovery, and engagement.

Inspired by our land-grant heritage, Colorado State University is committed to excellence, setting the standard for public research universities in teaching, research, service and extension for the benefit of the citizens of Colorado, the United States and the world. And we do it in an environment of accountability and responsibility, grounded in integrity, equity, and transparency.

Last fall, CSU welcomed more than 27,000 students, 65 percent of whom are Colorado residents and 28 percent of whom come from diverse backgrounds. The university also hosts some 2,500 international students typically from more than 110 countries, while more than 1,600 students typically participate in education abroad. All of these students come to CSU join our inclusive and welcoming community.

Committed to excellence, the university offers 74 undergraduate degree programs, 15 of which are also available online; 140 master's degree programs, 42 of which are offered online; 65 doctoral programs, 4 of which are offered online; and 62 graduate certificates, 56 of which are offered online. We have a student:faculty ratio of 17:1, which means that our extraordinary teachers in all disciplines interact with our students directly, whether in the classroom, the lab, or the field. World-class teaching and research mean academic programs that consistently rank among the best in the nation and world.

Colorado State University is designated as a Carnegie R1 (very high research activity) institution, with \$407 million in sponsored research. We are recognized internationally for our work in such diverse and critical fields as cancer research, atmospheric science, animal science, climate change, forest and wildlife management, engineering, and water management.

The CSU Office of Engagement applies research via CSU Online, CSU Extension, and the Colorado Water Center by connecting communities with shared solutions through education, research, and leadership.

Colorado State University is also, proudly, the most sustainable university in the country and one of the most sustainable in the world. We were the first university in the nation to receive a Platinum designation – the highest available – from the Association for the Advancement of Sustainability in Higher Education, and we earned our third Platinum rating in 2020.

Land-Grant Tradition

Our Land-Grant Mission

Colorado State University is a land-grant institution, a uniquely American idea built on the belief that anyone who wants a college or university education should have the opportunity to get it. Offering that access in

the mid-19th century was a revolutionary concept, one that still is central to our land-grant mission today.

The Morrill Act of 1862 created land-grant colleges at a tumultuous time of converging social, political, and cultural changes in the United States, during the American Civil War and an era of westward expansion driven by a belief in "Manifest Destiny" – the idea that the nation was destined to expand across the continent.

The grants of land offered to the states by the Federal government to fund the new colleges – and as homesteads to settlers who would populate the west and to build railroads that would transport people and goods there – came directly from the dispossession of Native American nations and people who had inhabited that land for centuries.

To be a land-grant university in the 21st century requires we not only acknowledge that history, but also recognize the pain and harm it caused that still resonates today. A first step on that path was CSU's adoption of a Land Acknowledgment (<https://landacknowledgment.colostate.edu/>) in 2018. But we still face difficult questions about both the acquisition of land on which the university was built and the grants that helped fund its operation. CSU is committed to moving forward in a process of engagement, working to address those historical wrongs and bridge the equity gap that remains.

The spirit of the Morrill Act itself was and is one of access and inclusion. Those core values continue to guide CSU today.

We prize the diversity and rich history that different peoples and populations bring to our academic community. That is the true spirit of the Morrill Act itself, focused on teaching, research and service, creating new knowledge and putting it to work on behalf of all the people we serve.

We believe in the transformational power of education to prepare the next generation of scientists, artists, educators, entrepreneurs and more. As an R1 institution, CSU ranks among the top research universities in the country. Faculty and students engage in purpose-driven research to address some of our world's most complex and perplexing challenges. CSU scholarship, discovery, and innovation improve the quality of life for people in Colorado, across the nation, and around the world.

We set a high standard in our Principles of Community – inclusion, integrity, respect, service, and social justice – and are committed to excellence in carrying out all aspects of CSU's historic land-grant mission.

Outreach, Research and Extension

Colorado Agricultural Experiment Station
Colorado State Forest Service
Colorado Water Center
Environmental Learning Center
Extension

Colorado Agricultural Experiment Station

University Services Center, Room 408
601 South Howes Street
(970) 491-5371

Agricultural research has been part of Colorado State University (CSU) since the institution's beginning. In 1888, the Colorado General Assembly

established the Colorado Agricultural Experiment Station (CAES) (<http://aes.agsci.colostate.edu/>) as the contributor to the federally-created state agricultural experiment station system established by the Hatch Act, currently encompassing all fifty states and United States territories.

The CAES is an integral part of CSU and a unit within the College of Agricultural Sciences. The Colorado Agricultural Experiment Station creates and disseminates knowledge related to agriculture and natural resources with the overarching goal of enhancing economic viability and environmental sustainability in ways that are socially acceptable. Further, the CAES applies this knowledge to solving practical problems of producers and consumers.

The CAES supports faculty, staff, and students across CSU who conduct research on crop and livestock production, food systems, and natural resources problems. Our research is conducted in Fort Collins in seven of eight colleges, in more than 15 academic departments, and at nine off-campus research centers located throughout the state. The CAES is not a place but rather is an administrative umbrella that oversees research programs taking place on campus and at seven research centers across Colorado. These research centers are the Agricultural Research, Development and Education Center (ARDEC) near Fort Collins, the Arkansas Valley Research Center in Rocky Ford, the Eastern Colorado Research Center in Akron, the Plainsman Research Center in Walsh, the San Luis Valley Research Center in Center, the Southwestern Research Center in Yellow Jacket, and the Western Colorado Research Center with locations near Orchard Mesa, Roger's Mesa, and Fruita.

Agricultural research programs include the traditional areas of producing and processing food products such as wheat, beef, potatoes, fruits, and vegetables, as well as discovering how foods and diets influence human nutrition and health, new kinds of textiles we wear, the ornamental plants and gardens we enjoy, and sustainable use of rangelands where high-quality water comes from and which support grazing livestock and wildlife.

The CAES partners with CSU Extension, industry, schools, and any others who can help get new information and technologies into the hands of those who need it.

Colorado State Forest Service

State Office is located at the Foothills Campus, Building 1050
(970) 491-6303

The Colorado State Forest Service (CSFS) (<http://csfs.colostate.edu>) is a service and outreach agency of the Warner College of Natural Resources and provides staffing for the Division of Forestry within the Colorado Department of Natural Resources. Headquartered in Fort Collins and with 17 field offices throughout the state, the mission of the CSFS is "to achieve stewardship of Colorado's diverse forest environments for the benefit of present and future generations". The CSFS is organized into four management areas and is staffed by approximately 105 full- and part-time employees and more than 100 seasonal employees. The CSFS provides forestry outreach and education and administers forest management programs and projects, treating thousands of acres of forestland every year. The agency works with landowners, communities, and government agencies to improve forest health and resilience to wildfire, climate change, insects, and diseases. The CSFS also grows and distributes seedling trees and shrubs for reforestation and other

conservation purposes, and assists the forest products harvesting and manufacturing industries to increase utilization of Colorado wood.

Colorado Water Center

Offices in Engineering Building, Room E102
(970) 491-6308
watercenter.colostate.edu (<https://watercenter.colostate.edu/>)

The **Colorado Water Center** is one of 54 Water Resources Research Institutes created by the Water Resources Act of 1964, which collectively form the National Institutes for Water Resources. As a division under CSU's Office of Engagement and Extension, the Center aims to connect all water expertise in Colorado's higher education system with research and education needs of Colorado's water managers and users, building on the rich water history at Colorado State University. The Center leads interdisciplinary research, education, and outreach to address complex and evolving water-related challenges by fostering collaboration between higher education and water stakeholders, synthesizing objective water knowledge to inform decision-making, and inspiring the next generation of water leaders.

Environmental Learning Center

Offices in Michael Smith Natural Resources Building, Room 103
Program site at 2400 South County Road 9 Ft. Collins, CO 80525
(970) 491-1661

Staff of the Environmental Learning Center (ELC) (<http://www.csuelc.org/>) work to connect people with nature by facilitating educational, inclusive and safe experiences in the natural environment. The ELC provides a diversity of programs to groups throughout the community. This includes public schools, scout troops, CSU groups, service organizations, and many others.

Extension

Offices in University Square, Room 102
(970) 491-6281

Colorado State University Extension (CSUE) empowers Coloradans to address important and emerging community needs using dynamic, science-based educational resources. For over 100 years, CSUE has helped people find the answers they need, bringing the University's research-based resources to local communities. CSUE has offices across Colorado and serves all 64 counties.

Part of CSU's Office of Engagement and Extension, CSUE's outreach supports their land-grant mission, with a focus across a broad range of needs and critical areas including economic & community development, food & agriculture, health & well-being, natural resources & sustainability, and youth & family.

Through the CSUE internship program (<https://intern.colostate.edu/>), students from across CSU colleges engage in outreach projects in communities across the state. Intern experiences combine research, program delivery and dissemination efforts with hands-on learning.

CSU System

Colorado State University System

555 17th St., Ste. 1000

Denver, CO 80202
(303) 534-6290

The Colorado State University System (<http://www.csusystem.edu/>) has four campuses with distinct roles and missions that together serve the state, region, country, and the world, educating more than 40,000 new and returning scholars annually. Colorado State University in Fort Collins, the System's flagship, is a doctoral-granting R1 research university and the state's land grant institution. Colorado State University-Pueblo is a comprehensive, regionally focused university and a federally designated Hispanic-Serving Institution offering both graduate and undergraduate degree programs. CSU-Global is the nation's first independent, 100 percent online public university, created to serve learners in Colorado and beyond. The CSU Spur campus, currently under construction at the National Western Center in Denver, will focus on the themes of water, food, and health, offering experiential educational opportunities for all ages. The CSU System is led by a Chancellor who works with the appointed Board of Governors of the CSU System to further the role and mission of the System universities and ensure exceptional service to Colorado.

Board of Governors of the Colorado State University System

The Board of Governors (<http://www.csusystem.edu/board-of-governors/board-members/>) consists of 15 members, nine of whom are voting members appointed by the Governor, as provided in Colo. Rev. Stat. § 23-30-101. The remaining members represent the component universities of the Colorado State University System, with one faculty member and one student leader from each campus.

The Board of Governors fosters the sustainable growth of Colorado State University, Colorado State University–Pueblo, and Colorado State University–Global and supports these separate and distinct institutions through thoughtful planning and resource development. The Board strives to maintain each institution's flexibility to address challenges and opportunities that arise as the institutions seek to fulfill their statutory missions, consistent with the policies of the Colorado Department of Higher Education

The Board also supports opportunities for cooperation in program and resource sharing among the institutions and facilitates System-wide financial accountability.

Accreditation

All academic and professional degrees and all course credits earned at CSU are institutionally accredited by The Higher Learning Commission (<https://www.hlcommission.org/>) to provide assurance that course credits and degrees earned at CSU meet rigorous quality standards. Accreditation is a requirement for federal financial aid funding and may be a requirement for some employment opportunities, professional licensure, and graduate education.

230 South LaSalle Street, Suite 7-500
Chicago, IL 60604-1411

Many of CSU's academic programs are accredited through professional organizations in their disciplines. Details are available on the pages for individual Degree Programs. A comprehensive list of accredited academic programs may be found on CSU's Accreditation website. (<https://www.ir.colostate.edu/accreditation-2/>)

Assessment of Program Quality and Continuous Improvement

Academic degree programs are periodically reviewed through an internal process to assure the relevancy and high quality expected of a CSU degree. Each degree program defines meaningful student learning outcomes that identify the specific knowledge, competencies, skills, abilities, and values that students should be able to demonstrate upon completion. Defensible standards for evaluating whether students are achieving those outcomes are established and monitored. Appropriate assessment of student learning outcomes may include both direct and indirect measures (comprehensive exams, thesis projects, internship evaluations, reflective journals, peer comparisons, job placement rates, graduate school acceptance rates etc.). Departments are responsible for the collection and analysis of learning outcomes data and additionally responsible to demonstrate that the findings are used in a process of continuous quality improvement within the degree program.

University Leadership

Operations Team

Fort Collins Community

Photo courtesy of the City of Fort Collins.

Colorado State University's main campus is located in **Fort Collins**, a vibrant and diverse community of some 170,000 residents near the foothills of the Rocky Mountains and alongside the banks of the Cache La Poudre River. Residents enjoy a moderate, four-season climate with an average of 300 days of sunshine and 14.5 inches of precipitation annually.

Fort Collins maintains an array of parks and recreational opportunities, offering easy access to bike trails, hiking, skiing, water sports, rafting, fishing, and other outdoor sports.

Located about an hour north of Denver on Interstate 25 and about 45 minutes south of Cheyenne, Wyoming, the city is within an hour's drive of major recreational areas, including Estes Park, Red Feather Lakes, Horsetooth Reservoir, the Roosevelt National Forest, Rocky Mountain National Park, and several mountain parks.

Fort Collins offers safe and reliable public transportation through Transfort – including MAX Bus Rapid Transit, FLEX regional transport, and the late-night Gold Route. There also are 200 miles of on-street and off-street trails for pedestrians and bicycles, and 35 miles of multi-use trail. In 2018, Fort Collins was named the No. 1 City in America for Cycling by PeopleForBikes.

The city is home to an active and varied arts and entertainment community, anchored by arts and entertainment venues, including the Lincoln Center and several museums and theater companies. Fort Collins also hosts a multi-location public library district, a civic symphony, and a vibrant live local music scene. The Colorado State University Center for the Arts also serves both the local community and hosts a wide range of campus events, include athletics, guest speakers, exhibits, theater, cinema, and concerts.

The natural beauty of its mountain setting, excellent climate, robust transportation systems, and wide range of outdoor and cultural opportunities combine to make Fort Collins an outstanding place to live and learn.

FACULTY

Faculty

Name 1774	Position 1701	Education
Abdel-Ghany, Salah	Associate Professor	Masters, Zagazig University, Zagazig, Egypt, 1992 Doctorate, Biology, General, Colorado State University, 2001
Abdo, Zaid	Professor	Doctorate, Computer Science, Univerity of Idaho, 2005
Abdunabi, Ramadan	Senior Instructor	Bachelors, University of Benghazi, Libya, 1995 Masters, University of Twente, Enschede, Netherlands, 2004 Masters, Colorado State University, 2010 Doctorate, Colorado State University, 2013
Aberle, Jennifer	Professor	Bachelors, Stanford University, 1997 Masters, Colorado State University, 2003 Doctorate, Colorado State University, 2007
Abrams, Katie	Associate Professor	Bachelors, Agricultural Business and Management, General, Purdue University, 2005 Masters, Agricultural Business and Management, General, University of Florida, 2007 Doctorate, Agricultural Business and Management, General, University of Florida - Gainesville, 2010
Abutayeh, Mo	Assistant Professor	Bachelors, Chemical Engin., University of South Florida, 1997 Masters, Chemical Engin., University of South Florida, 1999 Doctorate, Chemical Engin., University of South Florida, 2010

Achter, Jeffrey	Professor	Bachelors, Mathematics, Brown University, 1992 Doctorate, Mathematics, University of Pennsylvania, 1998
Ackerson, Chris	Professor	Bachelors, Biochemistry, University of Texas - Austin, 1998 Doctorate, Biophysics, Stanford University, 2005
Adair, Lori	Instructor	Bachelors, University of Michigan, 1990 Masters, Univeristy of Michigan, 1992
Adams, Henry	Associate Professor	Bachelors, Mathematics, Stanford University, 2007 Doctorate, Mathematics, Stanford, 2013
Adams, Jim	Associate Professor	Bachelors, Michigan Technological University, 1986 Masters, Air Force Institute of Technology, 1988 Doctorate, Wright State University, 2004
Adams, Rod	Instructor	Bachelors, Psychology, General, Oklahoma State University, 1985 Masters, English Composition, Colorado State University, 1999 Masters, Philosophy, Colorado State University, 2003
Adityavarman, RYADI	Associate Professor	Bachelors, Architecture, Universitas Katolik Parahyangan, 1989 Masters, Architecture, University of Colorado, 1992 Masters, University of Texas-Austin, 1996
Affeldt, Robert	Instructor	
Aflatoony, Lida	Assistant Professor	Masters, Politecnico di Milano, 2010 Doctorate, University of Missouri, 2022

Aguilar, Christine	Instructor	Bachelors, Education, General, U of N. Colorado, 1994 Masters, Educational Supervision, U of Wyo, 2000 Doctorate, Educational Evaluation, Research and Statistics, Other, Colorado State University, 2013	Albrecht, Don	Instructor	Bachelors, Industrial Design, CA State Univ @ San Jose, 1977 Masters, Unknown, 2012
Ahola, Jason	Professor	Bachelors, Animal Sciences, General, Penn State Univ, 1995 Masters, Animal Sciences, General, Colorado State University, 1997 Doctorate, Animal Sciences, General, Colorado State University, 2004	Alcorn-Borodach, Kara	Instructor	
Aichele, Stephen	Assistant Professor	Bachelors, University of California at Santa Barbara, 1994 Doctorate, University of California at Davis, 2013	Alexander, Ruth	Instructor	Bachelors, History, Other, CTY COL OF NY, 1976 Masters, History, Other, U OF CALIFORNIA, 1983 Doctorate, History, Other, CORNELL UNIV, 1990
Akkina, Ramesh	Professor	Professional, Veterinary Medicine (D.V.M.), AP AGRCLTR UNIV, 1972 Masters, Veterinary Medicine (D.V.M.), U OF AGRCLTR SC, 1975 Doctorate, Veterinary Medicine (D.V.M.), U OF MINNESOTA, 1982	Allen, Anna	Associate Professor	Bachelors, Computer Science, University of Guelph, 2005 Masters, Organic Chemistry, University of Guelph, 2007 Doctorate, Organic Chemistry, Princeton University, 2012
Alaszkiewicz, Paula	Assistant Professor	Bachelors, McGill University, 2013 Masters, London College of Fashion, 2014 Doctorate, Concordia University, 2020	Allen, Ashlee	Senior Instructor	Bachelors, Business Administration and Management, General, University of Colorado - Boulder, 1997 Bachelors, Spanish Language and Literature, University of Colorado - Boulder, 2004 Masters, Teaching English as a Second Language/Foreign Language, University of Nevada, 2009
Albert, Lumina	Associate Professor	Doctorate, University of Madras, 2006	Aloise-Young, Patricia	Associate Professor	Bachelors, Psychology, General, University of Florida, 1985 Masters, Psychology, General, University of Florida, 1988 Doctorate, Psychology, General, University of Florida, 1990
Alberts, Eli	Senior Instructor	Masters, Leiden University, Cen for Non-Wesetrn Studies, The Netherlands, 2002 Doctorate, East and Southeast Asian Languages and Literatures, Other, University of Pennsylvania, 2005	Alshaibi, Usama	Associate Professor	Bachelors, Film/Cinema Studies, Columbia College, Chicago, 1997 Masters, Film/Cinema Studies, University of Colorado, Boulder, 2015

Altarawneh, Amani	Assistant Professor	Bachelors, Mu'tah University, 2005 Masters, Computer Science, Bridgewater State University, 2010 Doctorate, University of Tennessee at Chattanooga	Anderson, Ashley	Associate Professor	Bachelors, Journalism, University of Missouri - Columbia, 2002 Masters, Communications, General, Georgetown University, 2007 Doctorate, Mass Communications, University of Wisconsin - Madison, 2012
Altschul, Andrew	Associate Professor	Masters, University of California, Irvine, 2004	Anderson, Brooke	Associate Professor	Bachelors, North Carolina State University, 2002 Bachelors, North Carolina State University, 2004 Masters, Yale University, 2006 Doctorate, Yale University, 2010
Alvarez, Daniel	Senior Instructor	Bachelors, Philosophy, Colorado State University, 2004 Masters, Philosophy, Colorado State University, 2010	Anderson, Chuck	Professor	Bachelors, Computer and Information Sciences, General, U OF NEBR, 1978 Masters, Computer and Information Sciences, General, U OF MASS, 1982 Doctorate, Computer and Information Sciences, General, U OF MASS, 1986
Amberg, Gregory	Professor	Bachelors, Biology, General, Idaho State University, 1994 Masters, Pharmacology, Human and Animal, Idaho State University, 1998 Doctorate, Physiology, Human and Animal, University of Nevada - Reno, 2002	Anderson, Joan	Instructor	Bachelors, Fashion Merchandising, Colorado State University, 1991 Masters, Fashion Merchandising, Colorado State University, 1996 Doctorate, Education, Other, Colorado State University, 2001
Amberg, Marti	Assistant Professor	Bachelors, Psychology, General, Idaho State University, 1996 Masters, Experimental Psychology, Idaho State University, 2000 Doctorate, Experimental Psychology, University of Nevada Reno, 2002	Anderson, Karrin	Professor	Bachelors, Communications, General, Metropolitan State College, 1993 Masters, Communications, General, Colorado State University, 1995 Masters, Women's Studies, Colorado State University, 1995 Doctorate, Communications, General, Indiana University, 1998
Amend, Tom	Instructor	Bachelors, University of Northern Colorado, 2016 Masters, University of Northern Colorado, 2017			
Amidon, Tim	Associate Professor	Doctorate, University of Rhode Island, 2014			
Ancell, Michelle	Senior Instructor	Bachelors, Colorado State University, 1996			
Andales, Allan	Professor	Bachelors, Univ of the Philippines, Los BAnos, 1990 Masters, Iowa State Univ, 1995 Doctorate, Iowa State Univ, 1998			

Anderson, Sharon	Professor	Bachelors, English Teacher Education, UNIV WYOMING, 1978 Masters, Counselor Education Counseling and Guidance Services, UNIV WYOMING, 1981 Doctorate, Counseling Psychology, UNIV DENVER, 1993	Aoki, Eric	Professor	Bachelors, Communications, General, California State University, Fresno, 1990 Masters, Communications, General, California State University, Fresno, 1992 Doctorate, Communications, Other, University of Washington, 1997
Anderson, Tori	Instructor	Bachelors, Biology, General, Colorado State University - Pueblo, 2008 Masters, Plant Breeding and Genetics, Colorado State University, 2010	Apodaca, Denise	Senior Instructor	Bachelors, Piano Performance, 1994 Masters, Northwestern University, 1996 Masters, Northwestern University, 1996
Andrews, Ellie	Instructor	Bachelors, Amherst College, 2006 Masters, The Pennsylvania State University, 2012 Doctorate, Cornell University, 2020	Appleby, Marcus	Instructor	
Andrews, Richard	Instructor	Bachelors, University of California Berkeley, 1990 Masters, Savannah College of Art and Design, 2011	Applegate, Tanya	Assistant Professor	Professional, Veterinary Medicine (D.V.M.), Colorado State University, 2013
Angeloni, Lisa	Professor	Bachelors, Biological Sciences/Life Sciences, Other, Univ. of California, Berkeley, 1995 Doctorate, Biological Sciences/Life Sciences, Other, Univ. of California, San Diego, 2001	Arabi, MAZDAK	Professor	Bachelors, University of Tehran, 1998 Masters, University of Tehran, 2000 Doctorate, Purdue University, 2005
Anthony, Russ	Professor	Bachelors, Animal Sciences, General, KANSAS ST UNIV, 1977 Masters, Animal Sciences, Other, U NEBRASKA, 1979 Doctorate, Biochemistry, U WYOMING, 1983	Aragon, Antonette	Associate Professor	Bachelors, Political Science, General, Colorado College, 1990 Masters, Speech Teacher Education, Colorado State University, 1993 Doctorate, Education, General, Colorado State University, 2003
Antolin, Michael	Professor	Bachelors, Biology, General, U OF PENN, 1981 Masters, Zoology, General, U OF ALBERTA, 1985 Doctorate, Biology, General, FLORIDA ST UNIV, 1990	Arai, Shiori	Associate Professor	
			Archambeau, Nicole	Associate Professor	Bachelors, University of Wyoming, 1994 Masters, University of Montana, 1996 Masters, University of California, Los Angeles (UCLA), 2002 Doctorate, University of California, Santa Barbara (UCSB), 2009
			Archibeque, Shawn	Professor	Doctorate, Nutritional Sciences, Texas AM, 2003

Archie, Andre	Associate Professor	Bachelors, Philosophy, Colorado State University, 1996 Masters, Philosophy, Duquesne University, 1998 Doctorate, Philosophy, Duquesne University, 2002	Aronis, Carolin	Assistant Professor	Bachelors, The College of Management, Tel Aviv, 2002 Masters, The Hebrew University of Jerusalem, 2007 Doctorate, Hewbrew University of Jerusalem, 2015
Argueso, Cris	Associate Professor	Doctorate, Cornell University, 2004	Arthun, Erik	Assistant Professor	Bachelors, Concordia College, 2004 Doctorate, Colorado State University, 2011
Argueso, Juan Lucas	Professor	Bachelors, Engin., General, University of Sao Paulo - Brazil, 1993 Masters, Plant Breeding and Genetics, University of Sao Paulo - Brazil, 1997 Doctorate, Biochemistry, Cornell University, 2004	Arthur, Tori	Associate Professor	Bachelors, James Madison University, 1999 Doctorate, American University, 2006 Doctorate, Bowling Green State University, 2016
Aristoff, David	Associate Professor	Bachelors, Mathematics, university of michigan, 2005 Doctorate, Mathematics, University of Texas, 2011	Asel, Nicole	Associate Professor	Bachelors, Ithaca College, 2001 Masters, University of North Carolina at Greensboro, 2004 Doctorate, University of Colorado, Boulder, 2013
Armstrong, Gabriel	Instructor	Bachelors, Colorado State University	Aster, Rick	Professor	Bachelors, Computer Engin., University of Wisconsin, Madison, 1983 Masters, Geophysics and Seismology, University of Wisconsin-Madison, 1986 Doctorate, Earth and Planetary Sciences, Scripps Institution of Oceanography, Univ of California, San Diego, 1991
Arneson, Erin	Assistant Professor	Bachelors, Kansas State University, 2006 Masters, University of Washington, 2014 Doctorate, University of Colorado Boulder, 2018	Atadero, Rebecca	Professor	Bachelors, Colorado State University, 2002 Masters, University of California, San Diego, 2004 Doctorate, University of California, San Diego, 2006
Arnett, Ed	Instructor		Attai, Nikoli	Assistant Professor	Masters, University of the West Indies, 2013 Doctorate, Women and Gender Studies Institute, University of Toronto, 2019
Arnold, Liz	Assistant Professor	Masters, Mathematics, Other, Humboldt State University, 2010 Doctorate, Mathematics Teacher Education, Montana State University, 2016 Masters, Mathematical Statistics, Montana State University, 2016			
Arnold, Olivia	Instructor	Bachelors, Natural Resources Conservation, General, UC Berkley, 2002 Masters, California State Univ Northridge, 2006			

Aubry, Lise	Associate Professor	Bachelors, Biology, General, Universite Paul Sabatier Toulouse III, France, 2003 Masters, Ecology, Universite Paul Sabatier Toulouse III, France, 2005 Doctorate, Ecology, Universite Paul Sabatier Toulouse III, France, 2009
Ausubel, Ramona	Assistant Professor	Bachelors, Pitzer College, 2001 Bachelors, Pitzer College, 2001 Masters, University of California, Irvine, 2008
Avery, Anne	Professor	Bachelors, Mount Holyoke College, MA, 1982 Professional, University of Pennsylvania, PA, 1990 Doctorate, Cornell University, NY, 1991
Avery, Paul	Professor	Bachelors, Cornell University, 1987 Professional, University of Pennsylvania, 1991 Doctorate, Colorado State University, 2002
Ayala, Robert	Assistant Professor	Bachelors, Music Theory and Composition, Trinity University, 1988 Masters, Music Theory and Composition, The Ohio State University, 1992 Masters, Library Science/Librarianship, University of North Texas, 2010
Azimi-Sadjadi, Mahmood	Professor	Bachelors, Electrical, Electronics and Communication Engin., U OF TEHRAN, 1977 Masters, Electrical, Electronics and Communication Engin., IMPERIAL COL,UK, 1978 Doctorate, Electrical, Electronics and Communication Engin., IMPERIAL COL,UK, 1982
Aziz, Asad	Master Instructor	Doctorate, University of Colorado, 2008
Bachtel, Jeremy	Assistant Professor	
Bacon, Joel	Professor	Bachelors, Mathematics, Baylor University, 1994 Bachelors, Music - Piano and Organ Performance, Baylor University, 1995 Masters, Music - Piano and Organ Performance, Baylor University, 1998 Doctorate, Musicology and Ethnomusicology, Universitat fur Musik und darstellende Kunst, 2004
Badia, Lynn	Associate Professor	Doctorate, University of North Carolina at Chapel Hill, 2014
Bae, JB	Assistant Professor	Bachelors, Seoul National University, 2003 Masters, Seoul National University, 2008 Doctorate, University of California, Los Angeles, 2015
Baer, Helen	Assistant Professor	Bachelors, Political Science, General, California Polytechnic State University, 1996 Masters, Library Science/Librarianship, University of Texas at Austin, 1998
Bailey, Larissa	Professor	Bachelors, Biology, General, Mesa State College, 1993 Masters, Medical Biomathematics and Biometrics, North Carolina State University, 1997 Doctorate, Zoology, General, North Carolina State University, 2002
Bailey, Ryan	Associate Professor	Bachelors, Brigham Young University, 2006 Masters, University of Guam, 2008 Doctorate, Colorado State University, 2012

Bailey, Susan	Professor	Bachelors, Biological Sciences/Life Sciences, Other, Colorado State University, 1976 Masters, University of New Mexico School of Medicine, 1996 Doctorate, University of New Mexico School of Medicine, 2000	Bamburg, James	Professor	Bachelors, Chemistry, General, U OF ILLINOIS, 1965 Doctorate, Biochemistry, U OF WISCONSIN, 1969
Bailey, Travis	Professor	Bachelors, Univ of Florida, 1995 Bachelors, Univ of Florida, 1995 Doctorate, Univ of Minnesota, 2001	Bandar, Jeff	Assistant Professor	Bachelors, Chemistry, General, Saint John's University, 2009 Masters, Chemistry, General, Columbia University, 2011 Masters, Chemistry, General, Columbia University, 2011 Doctorate, Chemistry, General, Columbia University, 2014
Bain, Grant	Instructor	Doctorate, University of Arkansas, 2010	Bandhauer, Todd	Associate Professor	Bachelors, Iowa State University, 1999 Masters, Iowa State University, 2002 Doctorate, Georgia Institute of Technology, 2011
Baker, Dan	Associate Professor	Bachelors, Montana State University, 1999 Masters, Montana State University, 2001 Doctorate, Colorado State University, 2009	Bangerth, Wolfgang	Professor	Doctorate, Mathematics, Heidelberg University, 2002
Baker, Seth	Instructor		Baral, Srijana	Assistant Professor	Bachelors, Tribhuvan University, 2006 Masters, University of Georgia, 2009 Doctorate, University of Georgia, 2022
Baker, Susan	Professor	Bachelors, Food Sciences and Tech, Meredith College, Raleigh, NC, 1980 Masters, North Carolina State University, 1994 Doctorate, North Carolina State University, 2003	Barbier, Edward	Professor	Bachelors, Yale University, 1979 Masters, London School of Economics and Political Science, 1980 Doctorate, Birkbeck College, University of London, 1986
Balgopal, Meena	Professor	Bachelors, Animal Sciences, General, UNIVERSITY OF ILLINOIS URBANA CAMPUS, 1991 Masters, Entomology, UNIVERSITY OF WISCONSIN COLLEGES, 1994 Doctorate, Zoology, General, NORTH DAKOTA STATE UNIVERSITY MAIN CAMPUS, 2007	Barbier, Jo	Associate Professor	Bachelors, University College London, University of London, 1988 Masters, University College London, University of London, 1991 Doctorate, University College London, University of London, 2000
Ball, Jodie	Instructor				
Ballouli, Khalid	Instructor	Bachelors, Texas AM University, 2006 Masters, Texas AM University, 2008 Doctorate, Texas AM University, 2011			

Bareither, Chris	Associate Professor	Bachelors, University of Idaho, 2004 Masters, University of Wisconsin, Madison, 2006 Doctorate, University of Wisconsin, Madison, 2010	Barnes, Elizabeth	Professor	Bachelors, Mathematics, University of Minnesota, 2007 Bachelors, Physics, General, University of Minnesota, 2007 Doctorate, Atmospheric Sciences and Meteorology, University of Washington - Seattle, 2012
Barfield, Jennifer	Assistant Professor	Bachelors, Animal Sciences, General, North Carolina State University, 2000 Doctorate, University of New Orleans, 2007	Barnhart, Hannah	Instructor	
Barisas, George	Professor	Bachelors, University of Kansas, 1965 Bachelors, Chemistry, General, OXFORD UNIV, 1967 Masters, Chemistry, General, YALE UNIV, 1969 Doctorate, Chemistry, General, YALE UNIV, 1971	Barrett, Myra	Associate Professor	Bachelors, Psychology, General, Stanford University, 1999 Professional, Veterinary Medicine (D.V.M.), Colorado State University, 2006 Masters, Colorado State University, 2010
Bark, Dave	Assistant Professor	Bachelors, Univ of Illinois At Urbana, 2004 Masters, Georgia Inst of Tech, 2007 Doctorate, Georgia Inst of Tech, 2010	Bartels, Randy	Professor	Bachelors, OKLAHOMA ST, 1997 Masters, UNIV OF MICH, 1999 Doctorate, UNIV OF MICH, 2002
Barker, Lorie	Instructor	Doctorate, Unknown, 2017	Barth, Kurt	Associate Professor	Bachelors, Mechanical Engin., C.S.U., 1990 Masters, Mechanical Engin., C.S.U., 1994
Barnard, Nick	Instructor	Bachelors, Texas Tech University, 1993 Masters, Western Oregon University, 2000	Bartner, Lisa	Associate Professor	Professional, Unknown, 2008
Barnes (Fothergill), Wendy	Associate Professor	Bachelors, Communications, General, Colorado State University, 1996 Masters, Educational/Instructional Media Tech./Technician, University of Northern Colorado, 2001 Certificate, Educational Supervision, Colorado State University, 2011 Doctorate, Educational Supervision, Colorado State University, 2011	Basile, Vincent	Associate Professor	Bachelors, Anthropology, Franklin Marshall College, 1999 Masters, Science Teacher Education, General, University of Colorado Denver, 2005 Doctorate, Curriculum and Instruction, University of Colorado - Boulder, 2015
			Basrak, Bojan	Visiting Professor	
			Bass, Luke	Associate Professor	Professional, Veterinary Medicine (D.V.M.), Colorado State University, 2007
			Batchelor, Ann	Assistant Professor	Bachelors, Erskine College, 1973 Masters, Clemson University, 1975
			Bates, Haley	Associate Professor	Bachelors, Metal and Jewelry Arts, University of North Texas, 1994 Masters, Metal and Jewelry Arts, Cranbrook Academy of Art, 2002

Baudoin Farah, Andrea	Assistant Professor		Becker, Tony	Associate Professor	Bachelors, Millersville University of Pennsylvania, 2003 Doctorate, Northern Arizona University, 2011 Masters, Georgia State University
Bauerle, Bill	Professor	Bachelors, Nursery Operations and Management, Colorado State University, 1995 Masters, Horticulture Science, University of Washington, 1997 Doctorate, Plant Physiology, Cornell University, 2001	Bedford, Kate	Instructor	
Baumgart, Jeff	Instructor	Associates, Community College of the Air Force, 1999 Bachelors, Faulkner University, 2001 Bachelors, Faulkner University, 2001 Masters, Colorado State University, 2007 Masters, Colorado State University, 2010	Bednar, Rachel	Instructor	Bachelors, English Language and Literature, General, University of Iowa, 2009 Masters, English Teacher Education, Colorado State University, 2020
Baxter, Aryn	Assistant Professor	Bachelors, Gordon College, 2005 Masters, University of Minnesota, 2008 Doctorate, University of Minnesota, 2014	Beer, Laura	Associate Professor	Bachelors, New York University, 1984 Masters, New York University, 1988 Doctorate, University of Northern Colorado, 2012
Bayham, Jude	Associate Professor	Bachelors, Economics, Other, California State University, Chico, 2006 Masters, Agricultural Economics, University of Idaho, 2009 Doctorate, Economics, Other, Washington State University, 2013	Bejarano, Judy	Senior Instructor	Bachelors, University of Northern Colorado, 1984 Masters, University of Colorado, 1989
Beachy-Quick, Dan	Professor	Bachelors, University of Denver, 1995 Doctorate, University of Iowa, 2000	Belawadi, Sumanth	Instructor	
Bechara, Sam	Associate Professor	Associates, Highline Community College, 2005 Bachelors, Washington State University, 2008 Doctorate, Colorado State University, 2012	Belisle, John	Professor	Doctorate, Colorado State University, 1992
Becker, Chris	Senior Instructor	Masters, University of Heidelberg, Germany, 1999 Doctorate, University of Heidelberg, Germany, 2003 Doctorate, University of Kaisers Lautern, Germany, 2010	Belk, Keith	Professor	Bachelors, Colorado State University, 1983 Masters, Colorado State University, 1986 Doctorate, Texas AM University, 1992
			Bell, Christopher	Associate Professor	Bachelors, Socio-Psychological Sports Studies, Crewe Alsager, 1991 Masters, Exercise Sciences/Physiology and Movement Studies, Manchester Metropolitan University, 1994 Doctorate, Exercise Sciences/Physiology and Movement Studies, University of Western Ontario, 1999

Bell, Michael	Professor	Bachelors, Religion/ Religious Studies, University of Florida, 1996 Bachelors, Applied Mathematics, General, Metropolitan State College in Denver, 2001 Masters, Atmospheric Sciences and Meteorology, Colorado State University, 2006 Doctorate, Atmospheric Sciences and Meteorology, Naval Postgraduate School, 2010	Berg, Marni	Master Instructor	Masters, Political Science, General, University of Colorado, 1991 Bachelors, Political Science, General, University of Colorado, 1998 Doctorate, Political Science, General, Colorado State University, 1999
Bellamy, Cayla	Assistant Professor	Bachelors, University of Georgia, 2009 Masters, University of Georgia, 2012 Doctorate, Indiana University, 2015	Berger, Joel	Professor	Bachelors, Biology, General, California State University, Northridge, 1974 Masters, Biology, General, California State University Northridge, 1975 Doctorate, Biology, General, University of Colorado, 1978
Ben-Hur, Asa	Professor	Bachelors, Physics, General, Hebrew University, Jerusalem, 1993 Masters, Physics, General, Hebrew University, Jerusalem, 1995 Doctorate, Information Sciences and Systems, Technion - Israel Institute of Technology, 2001	Berger, Joshua	Assistant Professor	Bachelors, McGill University, 2006 Doctorate, Cornell University, 2012
Bennett, Jenny	Instructor	Bachelors, Colorado State University, 2017 Masters, Colorado State University, 2020	Bernagozzi, Jason	Associate Professor	Bachelors, Film/Video and Photographic Arts, Other, Kansas City Art Institute, 2008 Masters, Film/Video and Photographic Arts, Other, Alfred University, 2010
Benoit, Steve	Associate Professor	Bachelors, Electrical, Electronics and Communication Engin., Rose-Hulman Institute of Technology, 1990 Bachelors, Physics, General, Rose-Hulman Institute of Technology, 1990 Masters, Mathematics, Colorado State University, 2006 Doctorate, Mathematics, Colorado State University, 2011	Bernard, MG	Instructor	
Benzel, Susan	Instructor	Bachelors, CSU, 1988	Bernasek, Alexandra	Professor	Bachelors, Economics, General, U OF SYDNEY, 1984 Masters, Economics, General, U OF MICHIGAN, 1989 Doctorate, Economics, General, U OF MICHIGAN, 1992
			Berning, Joshua	Professor	Bachelors, Valparaiso University, 1996 Masters, University of Idaho, 2003 Doctorate, Washington State University, 2008
			Bernstein, Barbara	Professor	Certificate, Zoology, General, OBERLIN COLLEGE, 1964 Masters, Cell Biology, CA INST OF TECH, 1966 Doctorate, Neuroscience, COLO STATE UNIV, 1991

Bernstein, Elliot	Professor	Bachelors, Chemistry, General, PRINCETON UNIV, 1963 Doctorate, Chemistry, General, CALTECH, 1967	Bigler, Michelle	Instructor	Bachelors, Mathematics Teacher Education, Montana State University, 1988 Certificate, Mathematics, Other, Continuing Education, 2007 Masters, Elementary, Middle and Secondary Education Administration, Colorado State University, 2009
Berry, Chris	Associate Professor	Bachelors, University of Tennessee at Chattanooga, 2010 Masters, University of Tennessee at Chattanooga, 2012 Doctorate, University of Arkansas, 2017	Billingsley, Ethan	Instructor	
Betten, Anton	Professor	Bachelors, Mathematics, Technical University Karlsruhe, 1991 Masters, Mathematics, University of Bayreuth Germany, 1995 Doctorate, Mathematics, University of Bayreuth Germany, 2000	Birmingham, Daniel	Associate Professor	Bachelors, Economics, Other, Michigan State University, 1998 Masters, Education, General, University of Northern Colorado, 2003 Masters, Elementary, Middle and Secondary Education Administration, University of Northern Colorado, 2006 Doctorate, Teacher Education, Multiple Levels, Michigan State University, 2013
Beuret, Chris	Instructor		Biser-Suarez, Courtenay	Master Instructor	Bachelors, Spanish Language and Literature, Western Maryland College, 1986 Masters, Spanish Language Teacher Education, Univ. Ill., Urbana-Champaign, 1991
Bhattarai, Niroj	Assistant Professor	Bachelors, Hiram College, 2002 Masters, San Diego State University, 2004 Doctorate, Colorado State University, 2017	Bishop, James	Instructor	
Biegert, Jeff	Instructor	Bachelors, Berklee College of Music Bachelors, Siebel Institute of Technology	Black, Ray	Associate Professor	Bachelors, California State University Sacramento, 1999 Doctorate, University of Chicago, 2011
Bielak, Allison	Associate Professor	Bachelors, Psychology, General, University of Winnipeg, Canada, 2002 Masters, Psychology, General, University of Victoria, Canada, 2004 Doctorate, Psychology, General, University of Victoria, Canada, 2008	Blackburn, Heather	Assistant Professor	Doctorate, CSU, 2009
Bigler, Libby	Instructor	Bachelors, Colorado State University, 2011	Blackwell Jr, Marion	Instructor	Bachelors, Fire Services Administration, University of Memphis, 1998 Masters, Fire Services Administration, Grand Canyon University, 2005

Blair, Darrell	Senior Instructor	Masters, University of Northern Colorado, 2008 Bachelors, Colorado State University Doctorate, University of Tennessee	Blunt, Tamla	Instructor	Bachelors, Horticulture Science, Colorado State university, 2000 Masters, Plant Pathology, Colorado State University, 2004 Doctorate, Plant Pathology, Colorado State University, 2012
Blake Oliver, Tiffany	Associate Professor	Bachelors, Sonoma State University, 1998 Masters, Eastman School of Music, 2000 Doctorate, Eastman School of Music, 2006	Bohn, Andrea	Associate Professor	Bachelors, Stephens College, 1984 Professional, University of Minnesota, 1988 Doctorate, Colorado State University, 1997
Blanchard, Nathaniel	Assistant Professor	Bachelors, Computer Science, Hanover College, 2013 Masters, Computer Science, University of Notre Dame, 2017 Doctorate, Computer Science, University of Notre Dame, 2019	Boice, Jocelyn	Associate Professor	Bachelors, Mathematics, Smith College, 1999 Masters, Library Science, Other, Syracuse University, 2013
Blanchard, Sam	Instructor	Bachelors, Computer Science, Ball State University, 1990 Masters, Computer and Information Sciences, General, Ball State University	Bombaci, Sara	Assistant Professor	Bachelors, Biology, General, Fort Lewis College, 2010 Masters, Natural Resources Conservation, General, Colorado State University, 2014 Doctorate, Ecology, Colorado State University, 2018
Blecker, Lisa	Instructor	Bachelors, New College of Florida, 1997 Masters, Colorado State University, 2002	Bonanno, Alessandro	Professor	Masters, Agricultural Economics, University of Connecticut, 2003 Doctorate, Agricultural Economics, University of Connecticut, 2007
Bleedorn, Jason	Associate Professor	Bachelors, Iowa State University, 2001 Professional, University of Illinois, 2005	Bond, Laurel	Senior Instructor	Bachelors, English Language and Literature, General, Colorado State University, 2001 Masters, Teaching English as a Second Language/Foreign Language, Colorado State University, 2007
Blocker, Christopher	Associate Professor	Bachelors, Business Marketing and Marketing Management, Texas Christian University, 1998 Masters, Business Administration and Management, General, Texas Christian University, 2000 Doctorate, Business Marketing and Marketing Management, University of Tennessee, 2007	Bond, Tami	Professor	Bachelors, Uni of Washington, 1993 Masters, Univ of Cal at Berkeley, 1995 Doctorate, University of Washington, 2000

Boon, June	Instructor	Bachelors, Zoology, General, U OF S FLORIDA, 1977 Masters, Basic Medical Sciences, Other, COLO STATE UNIV, 1983	Boscan, Pedro	Professor	Professional, Veterinary Medicine (D.V.M.), Barquisimeto, Venezuela, 1996 Doctorate, Medical Physiology, University of Bristol, 2001
Boone, Randall	Professor	Bachelors, Oregon State University, 1986 Masters, University of Maine, 1991 Doctorate, Wildlife and Wildlands Management, University of Maine, 1996	Bosco-Lauth, Angela	Assistant Professor	Bachelors, Microbiology/ Bacteriology, Colorado State University, 2006 Doctorate, Medical Microbiology, Colorado State University, 2010 Professional, Veterinary Medicine (D.V.M.), Colorado State University, 2017
Borch, Thomas	Professor	Bachelors, Chemistry, Other, UNIV OF COPENHAGEN, 1997 Masters, Chemistry, Other, UNIV OF COPENHAGEN, 1999 Doctorate, Environmental Science/ Studies, MONTANA STATE UNIV, 2003	Boss, Keara	Associate Professor	Bachelors, University of Massachusetts, 2003 Professional, North Carolina State University, 2008
Borello, Emelie	Instructor	Bachelors, Computer and Information Sciences, General, University of Phoenix, 2004 Masters, Colorado State University, 2015	Bousselot, Jennifer	Assistant Professor	Bachelors, Iowa State University, 2001 Masters, Iowa State University, 2003 Doctorate, Colorado State University, 2010
Borlee, Brad	Associate Professor	Bachelors, Plant Pathology, University of Wisconsin - Madison, 1998 Doctorate, Plant Pathology, University of Wisconsin-Madison, 2006	Bowen, Richard	Professor	Professional, Veterinary Medicine (D.V.M.), COLO STATE UNIV, 1973 Masters, Physiology, Human and Animal, COLO STATE UNIV, 1977 Doctorate, Colorado State University, 1982
Borlee, Grace	Assistant Professor	Bachelors, Biology, General, Monmouth College, 1998 Doctorate, Plant Pathology, University of Wisconsin - Madison, 2003	Bowen, Stephanie	Instructor	Doctorate, University of Wyoming, 1998
Borowiec, Marek	Assistant Professor	Bachelors, Biology, General, University of Wroclaw, 2007 Masters, Zoology, General, University of Wroclaw, 2009 Doctorate, Entomology, University of CA Davis, 2016	Bowser, Gillian	Associate Professor	Bachelors, Biology, General, Northwestern University, 1982 Masters, Zoology, General, University of Vermont, 1988 Doctorate, Biology, General, University of Missouri-St Louis, 1998
			Boyd, Jodi	Instructor	
			Bracken, Anna	Instructor	Bachelors, Physiological Psychology/ Psychobiology, UCLA Masters, Basic Medical Sciences, Other, Colorado State University

Bradbury, Kelly	Assistant Professor	Doctorate, Ohio State University, 2009
Bradley, Richard	Professor	Bachelors, Physics, General, U OF TORONTO, 1979 Doctorate, Physics, General, STANFORD UNIV, 1985
Bradley, Steven	Instructor	
Bradley, Thomas	Professor	Bachelors, Univ of California, 2000 Masters, Mechanical Engineering, 2003 Doctorate, Georgia Inst of Tech, 2008
Brady, Shawn	Master Instructor	Bachelors, Philosophy, University of North Florida, 2007 Masters, Philosophy, Colorado State University, 2010
Brady, Tracy	Master Instructor	Bachelors, American (United States) History, University of Colorado, 1984 Masters, American (United States) History, Colorado State University, 1994 Doctorate, American (United States) History, University of Colorado, 2004
Brandl, Alexander	Professor	Bachelors, Physics, General, University of New Mexico, 1996 Masters, Physics, General, University of New Mexico, 1999 Doctorate, Physics, General, University of New Mexico, 2002
Braun, Barry	Professor	Bachelors, Biology, General, University of Pennsylvania, 1982 Masters, Exercise Sciences/Physiology and Movement Studies, University of Massachusetts-Amherst, 1990 Doctorate, Nutritional Sciences, University of California-Berkeley, 1993

Braunstein, Elissa	Professor	Bachelors, Development Economics and International Development, Cornell University, 1988 Masters, Development Economics and International Development, University of California at San Diego, 1992 Doctorate, International Economics, University of Massachusetts, 2000
Brazenwood, Arian	Instructor	
Brazile, William	Professor	Bachelors, Biology, General, University of Southern Colorado, 1990 Masters, University of Southern Colorado, 1992 Doctorate, Environmental Health, Colorado State University, 1996
Brekel, Josh	Instructor	
Brennan, Patrick	Professor	Bachelors, National Univ of Ireland, 1961 Masters, National Univ of Ireland, 1962 Doctorate, Trinity College, Dublin, 1965
Bresnan, Mark	Instructor	Doctorate, University of Iowa, 2009
Brewer, Samuel	Assistant Professor	Doctorate, University of Maryland, 2012 Bachelors, Appalachian State University
Briggs, Amanda	Instructor	
Bright, Alan	Professor	Doctorate, Recreation Products/Services Marketing Operations, Colorado State University, 1993
Bright, Charlotte	Professor	Bachelors, Music - Piano and Organ Performance, University of Iowa, 1998 Masters, Social Work, University of Iowa, 2000 Doctorate, Social Work, Washington University, 2008

Brislen, Lilian	Assistant Professor	Bachelors, Beloit College, 2004 Masters, University of Kentucky, 2012 Doctorate, University of Kentucky, 2017	Bruyere, Brett	Professor	Bachelors, Political Science, General, Washington State University, 1993 Masters, Parks, Recreation and Leisure Studies, Colorado State University, 2000 Doctorate, Environmental Science/Studies, Colorado State University, 2003
Bromley, Will	Instructor	Bachelors, Mathematics, Colorado State University, 2005 Masters, Education, General, Colorado State University, 2009	Bryan, Sean	Master Instructor	Bachelors, Geology, Carleton College, 2004 Masters, Geological Sciences, Other, University of Colorado, 2007 Doctorate, Geological Sciences, Other, University of Colorado, 2010
Brooks, Jordan	Instructor		Bubar, Roe	Professor	Bachelors, Psychology, General, University of New Hampshire, 1980 Doctorate, Law (LL.B., J.D.), University of Colorado, 1987
Brooks, Ryan	Master Instructor	Bachelors, Animal Sciences, General, Virginia Tech, 2007 Masters, Animal Sciences, General, Colorado State University, 2010	Buchanan, Kristen	Professor	Bachelors, University of Manitoba, 1998 Masters, University of Alberta, 2000 Doctorate, University of Alberta, 2004
Brookshier, Lindsay	Senior Instructor	Masters, Colorado State University, 2017	Buchanan, Norm	Professor	Doctorate, Physics, General, University of Alberta, 2003 Professional, Florida State University, 2003
Brothers, Allyson	Associate Professor	Bachelors, Roanoke College, 2003 Masters, Penn State University, 2008 Doctorate, Colorado State University, 2016	Buckley, Cara	Instructor	Bachelors, The Pennsylvania State University, 1998 Masters, Colorado State University, 2001
Broussard, Josiane	Associate Professor	Doctorate, University of Chicago, 2010	Buffington, Marc	Instructor	Bachelors, University of Northern Colorado, 2005 Certificate, Secondary Teacher Education, University of Northern Colorado, 2005 Masters, Educational Supervision, Colorado State University, 2011 Certificate, Education Administration and Supervision, Other, Colorado State University, 2012
Brown, Brett	Senior Instructor	Bachelors, Unknown			
Brown, Cynthia	Professor	Doctorate, Ecology, University of California Davis, 1998			
Brown, Kristina	Instructor				
Brown, Mark	Associate Professor	Bachelors, Natural Resources Management and Protective Services, Other, Colorado State University, 1999 Masters, Medical Biochemistry, Georgetown University, 2002 Doctorate, Agricultural Animal Breeding and Genetics, University of Texas, 2007			
Brown, Samantha	Assistant Professor	Bachelors, Psychology, Other, College of Saint Rose, 2007 Masters, Psychology, Other, University of Denver, 2010 Doctorate, Social Work, University of Denver, 2016			

Bukowski, Kristen	Instructor	Bachelors, The Colorado College, 2011 Masters, Colorado State University, 2016	Burns, Kelly	Instructor	Bachelors, University of Missouri at Kansas City, 2003 Masters, Rockhurst University, Kansas City, Missouri, 2005
Bundy, Anita	Professor	Doctorate, Boston University, 1987	Burns, Tim	Assistant Professor	Bachelors, Duquesne University, 2005 Masters, Eastman School of Music, 2009 Doctorate, Eastman School of Music, 2014 Masters, Eastman School of Music, 2014
Bunning, M.	Professor	Bachelors, Biology, General, Cameron University, 1976 Masters, Botany, General, Oklahoma State University, 1980 Doctorate, Food Sciences and Tech, Colorado State University, 2007	Burt, Melissa	Associate Professor	Masters, Colorado State University, 2008 Doctorate, Atmospheric Sciences and Meteorology, Colorado State University, 2016
Burcham, Daniel	Assistant Professor	Bachelors, The Ohio State University, 2007 Masters, University of Delaware, 2009 Doctorate, University of Massachusetts Amherst, 2020	Burton, Jenna	Associate Professor	Bachelors, Bowdoin College, 1994 Professional, The Ohio State University, 2006 Masters, Colorado State University, 2011
Burghardt, Carl	Professor	Bachelors, Speech and Rhetorical Studies, PENN STATE UNIV, 1975 Masters, Communications, Other, U OF WISCONSIN, 1977 Doctorate, Communications, Other, U OF WISCONSIN, 1982	Burzynska, Aga	Associate Professor	Bachelors, Univeristy of Perugia, Italy, 2005 Masters, Internatioanl Max Planck Research School in Goettingen, Germany, 2007 Doctorate, International Max Planck Research School of the Lifecourse, Humboldt University, 2011
Burke, Colleen	Instructor	Bachelors, Colorado State University Masters, Colorado State University	Butki, Brian	Associate Professor	Bachelors, Psychology, General, University of Wyoming, 1992 Masters, Health and Physical Education, General, University of Wyoming, 1993 Doctorate, Exercise Sciences/Physiology and Movement Studies, University of North Carolina Greensboro, 1998
Burke, Kimberly	Instructor	Bachelors, Colorado State University, 2012 Masters, Colorado State University, 2014	Butler, Charles	Professor	Bachelors, Management Science, U OF S FLORIDA, 1970 Masters, Management Science, U OF S FLORIDA, 1975 Doctorate, TEXAS A M, 1981
Burke-Lund, Patricia	Instructor	Bachelors, Counseling Psychology, Rutgers University, 1997 Masters, Colorado State University	Butler, Sharon	Associate Professor	Professional, Colorado State University, 1986
Burkhardt, Jesse	Associate Professor	Masters, Yale University, 2011 Doctorate, Economics, General, Yale University, 2016			
Burnes, Ellen	Instructor	Bachelors, Allegheny College, 1990 Professional, University of Texas , Austin, 1995 Doctorate, Oregon State University, 2001			
Burns, Greg	Assistant Professor	Professional, Colorado State University, 1996			

Butnor, Ashby	Associate Professor	Bachelors, Philosophy and Religion, University of Richmond, 1996 Masters, Philosophy, University of Hawaii, Manoa, 1999 Doctorate, Philosophy, University of Hawaii Manoa, 2009	Canetto, Silvia Sara	Professor	Doctorate, Experimental Psychology, UNIV OF PADUA, 1977 Masters, Psychology, General, HEBREW U OF JER, 1983 Doctorate, Clinical Psychology, NORTHWESTERN U, 1987
Butters, Gregory	Associate Professor	Bachelors, Chemistry, General, U OF CALIFORNIA - Riverside, 1983 Bachelors, Environmental Science/ Studies, University of California - Riverside, 1983 Doctorate, Soil Sciences, U OF CALIFORNIA, 1987	Cannon, Joe	Professor	Bachelors, Marquette University, 1982 Doctorate, University of North Carolina at Chapel Hill, 1992
Byrne, Patrick	Professor	Bachelors, Biology, General, Wahington University, 1970 Masters, Horticulture Science, University of Missouri, 1978 Doctorate, Agronomy and Crop Science, UNIVERSITY OF MISSOURI, 1987	Canto Carrillo, Maria Ines	Assistant Professor	Doctorate, University of California, Santa Barbara, 2016
Cada, Chryss	Instructor	Bachelors, University of Colorado, 1990	Carcasson, Martin	Professor	Bachelors, Communications, General, Texas AM, 1994 Masters, Texas AM University, 1998 Doctorate, Communications, General, Texas A M, 2004
Cadaret, Caitlin	Assistant Professor	Bachelors, California State University Chico, 2014 Masters, Univ of Nebraska Lincoln, 2017 Doctorate, Univ of Nebraska - Lincoln, 2019	Carignan, Erin	Assistant Professor	Masters, Sand Diego State University, 2006
Cafaro, Philip	Professor	Bachelors, University of Chicago, 1984 Masters, University of Georgia, 1988 Doctorate, Philosophy, Boston University, 1997	Carlson, Kenneth	Professor	Bachelors, Chemical Engin., University of Wisconsin, 1982 Masters, Civil Engin., General, Colorado State University, 1992 Doctorate, Civil Engin., General, University of Colorado, 1996
Cale, Jim	Associate Professor	Bachelors, Missouri ST, 2001 Masters, Purdue University, 2003 Doctorate, Purdue University, 2007	Carlson, Laurie	Associate Professor	Bachelors, English Language and Literature, General, Moorhead State University, 1985 Masters, College/ Postsecondary Student Counseling and Personnel Services, Western Washington University, 1993 Doctorate, Counselor Education Counseling and Guidance Services, University of Arkansas, 2000
Campbell, Ryan	Senior Instructor	Masters, Colorado State University, 2006			
Camper, Matt	Master Instructor	Masters, Entomology, Colorado State University, 2007			

Carlyon, Jonathan	Associate Professor	Bachelors, Spanish Language and Literature, Univ. of Connecticut- Storrs, 1995 Masters, Spanish Language and Literature, Univ. of Connecticut, 1998 Doctorate, Spanish Language and Literature, Univ. of Connecticut -Storrs, 2003	Carroll, Renee	Instructor	Masters, University of Denver, 2004 Doctorate, University of Denver, 2017
Carman, Scott	Assistant Professor	Bachelors, Cornell University, 1994 Masters, Landscape Architecture, Harvard University, 1997	Carter, Ellison	Associate Professor	Bachelors, Indiana University, 2004 Masters, University of Texas, Austin, 2009 Doctorate, University of Texas, Austin, 2013
Carnevale, Elaine	Professor	Bachelors, Colorado State University, 1981 Professional, Veterinary Medicine (D.V.M.), Colorado State University, 1985 Masters, Physiology, Human and Animal, Colorado State University, 1989 Doctorate, Physiology, Human and Animal, University of Wisconsin, 1993	Carter, Genesee	Associate Professor	Doctorate, University of New Mexico, 2013
Carney, Patrick	Instructor		Carvalho, Pedro	Assistant Professor	Bachelors, Universidade Federal de Mato Grosso do Sul- Brazil, 2012 Masters, University of Illinois-Urbana-Champaign, 2016 Doctorate, Pennsylvanie State University, 2020
Carolan, Michael	Professor	Bachelors, University of Iowa, 1997 Masters, Iowa State University, 1999 Doctorate, Sociology, Iowa State University, 2002	Caspari, Horst	Professor	Masters, Horticulture Science, Rheinische Friedrich-Wilhelms-Universitat Bonn, 1989 Doctorate, Horticulture Science, Rheinische Friedrich-Wilhelms-Universitat Bonn, 1993
Carr Childers, Leisl	Associate Professor	Bachelors, Pepperdine University, 1993 Masters, Pepperdine University, 2005 Doctorate, Univ of Nevada, Las Vegas, 2011	Cassidy, Nancy	Instructor	
Carroll, Jeff	Assistant Professor	Masters, Environmental Science/Studies, Yale School of Forestry and Environmental Studies., 2012	Castillo, Daniela	Senior Instructor	Masters, California State University, 2001 Masters, Savannah College of Art Design, 2008 Bachelors, Technological Institute of Higher Studies of Monterrey Mexico City
Carroll, Michael	Instructor	Bachelors, University of North Carolina, 2001 Masters, University of Florida, 2004 Doctorate, University of Florida, 2009	Catalano, Devan	Assistant Professor	Bachelors, Colorado State University, 2013 Masters, University of Minnesota, 2016 Doctorate, University of Minnesota, 2019
			Catalano, Lori	Associate Professor	Bachelors, Iowa State University, 1986 Masters, University of Pennsylvania, 1992

Cavaliere, Christina	Assistant Professor	Bachelors, Environmental/ Environmental Health Engin., Washington College, 1999 Masters, Travel-Tourism Management, James Cook University Queensland Australia, 2006 Doctorate, Philosophy, University of Otago: Dunedin New Zealand, 2017	Chappell, Kelly	Associate Professor	Doctorate, Mathematics, University of Washington, 1997
Cavalieri, Renzo	Professor	Bachelors, Mathematics, University of Milano, 1999 Doctorate, Mathematics, University of Utah, 2005	Charkowski, Amy	Professor	Bachelors, Plant Pathology, University of Wisconsin-Madison, 1993 Doctorate, Plant Pathology, Cornell University, 1998
Cavanagh, Amanda	Assistant Professor	Bachelors, Biology, General, Georgetown University, 2007 Professional, Veterinary Medicine (D.V.M.), Auburn University, 2012	Charriez, Laston	Assistant Professor	Masters, Purdue University
Cavanagh, Tom	Instructor	Doctorate, Colorado State University, 2004	Chatterjee, Delphi	Professor	Bachelors, Organic Chemistry, Visav Bharati Univ, 1973 Masters, Organic Chemistry, Visav Bharati Univ, 1975 Doctorate, Chemistry, Other, UNIV OF LONDON, 1980
Cavdar, Gamze	Associate Professor	Bachelors, International and Comparative Education, Ankara University, 1994 Doctorate, International and Comparative Education, University of Utah, 2006	Chatterjee, Sushmita	Professor	Bachelors, Presidency College (India), 1998 Masters, University of Calcutta, 2000 Masters, Pennsylvania State University, 2004 Doctorate, Pennsylvania State Univ, 2009
Chaffee, Virginia	Senior Instructor	Bachelors, Southwest Missouri State University, 2003 Masters, Humboldt State University, 2010	Chavez, Ernest	Professor	Bachelors, Psychology, General, U OF NEW MEXICO, 1971 Masters, Psychology, General, WASHINGTON S U, 1973 Doctorate, Clinical Psychology, WASHINGTON S U, 1976
Champ, Joseph	Associate Professor	Doctorate, Journalism and Mass Communication, Other, University of Colorado-Boulder, 2001	Chavez, Jose	Professor	Bachelors, Agricultural Engineerin, 1992 Masters, Irrigation Engineering, 1999 Doctorate, Biological Ag Engineering, 2005
Chan, Joshua	Assistant Professor	Doctorate, Technical University of Denmark, 2015	Chavez, Sabra	Instructor	Bachelors, Colorado State University, 2007 Masters, Colorado State University, 2015
Chanda, Soham	Assistant Professor	Doctorate, Neuroscience, State University of New York, 2010	Chen, Adela	Associate Professor	Doctorate, Univeristy of Georgia, 2011
Chang, Chung-Fu	Professor	Masters, Dance, University CA, Irvine, 1998	Chen, Baohua	Assistant Professor	
Chang, Jooyeon	Instructor	Doctorate, University of Texas at Austin, 2019			

Chen, Chaoping	Associate Professor	Bachelors, Biochemistry, Nanjing University, 1987 Masters, Genetics, Plant and Animal, Chinese Academy of Science, 1990 Doctorate, Microbiology/Bacteriology, Purdue University, 1999	Cheney, Margaret	Professor	Bachelors, Mathematics, Oberlin College, 1976 Doctorate, Mathematics, Indiana University, 1982
Chen, Eugene	Professor	Bachelors, Shangrao Teachers College, 1985 Masters, Nankai University, 1988 Doctorate, University of Massachusetts-Amherst, 1995	Cheng, Tony	Professor	Bachelors, Political Science, General, Whitman College, 1990 Masters, Forestry, General, University of Minnesota, 1993 Doctorate, Forest Management, Oregon State University, 1999
Chen, Haonan	Assistant Professor	Bachelors, Electrical, Electronics and Communication Engin., Chongqing University of Posts Telecom, 2010 Masters, Electrical, Electronic and Communications Engin. Tech./Tec, Colorado State University, 2013 Doctorate, Electrical and Electronic Engin.-Related Technol./Technician, Colorado State University, 2017	Chennault, Carrie	Assistant Professor	Bachelors, Accounting, University of Texas at Austin, 2008 Masters, Agricultural Business and Management, General, Iowa State University, 2014 Doctorate, Agricultural Business and Management, General, Iowa State University, 2019
Chen, Hua	Associate Professor	Bachelors, Physics, General, Zhengzhou University, 2006 Doctorate, Physics, General, University of Tennessee at Knoxville, 2012	Chermack, Thomas	Professor	Bachelors, Human Resources Management, Other, University of Minnesota, 1999 Doctorate, Human Resources Management, Other, University of Minnesota, 2003
Chen, Suren	Professor	Bachelors, Tung Ji University, 1994 Masters, Tung Ji University, 1997 Doctorate, Louisiana State University, 2004	Chicco, Adam	Professor	Bachelors, Business Management and Administrative Services, Other, Marietta College, 1993 Masters, Exercise Sciences/Physiology and Movement Studies, Temple University, 1999 Doctorate, Exercise Sciences/Physiology and Movement Studies, University of Northern Colorado, 2004
Chen, Thomas	Professor	Bachelors, Electrical, Electronics and Communication Engin., SHANGHAI UNIV, 1982 Doctorate, Electrical, Electronics and Communication Engin., UNIV OF EDINBUR, 1986	Chien, Claire	Assistant Professor	Bachelors, National Pingtung University of Education, 2006 Masters, National Cheng Kung University, 2012 Doctorate, The University of Arizona, 2018

Childers, Michael	Associate Professor	Bachelors, Western State College, 1995 Masters, Colorado State University, 1997 Doctorate, History, Other, Univ of Nevada, Las Vegas, 2010	Choi, Jane	Associate Professor	Bachelors, Parsons School of Design, 1997 Masters, Landscape Architecture, Harvard, 1997
Chisholm, Sandra	Instructor	Bachelors, Consumer Economics and Science, Glasgow Caledonian University, 1993 Masters, Textile Sciences and Engin., Iowa State University, 1995 Doctorate, Clothing/Apparel and Textile Studies, Iowa State University, 1998	Chong, Edwin	Professor	Bachelors, UNIV OF ADELAIDE, 1987 Masters, PRINCETON UNIV, 1989 Doctorate, PRINCETON UNIV, 1991
Chitwood-Brown, Jessica	Assistant Professor	Bachelors, University of Arkansas Fort Smith, 2012 Masters, University of Arkansas, 2016 Doctorate, University of Florida, 2020	Chouinard, Hayley	Professor	Bachelors, Montana State University, 1991 Masters, Applied and Resource Economics, Montana State University, 1994 Doctorate, University of California Berkeley, 2002
Chiu, Christine	Professor	Bachelors, Atmospheric Sciences and Meteorology, National Central Univesity - Taiwan, 1992 Masters, Atmospheric Sciences and Meteorology, National Central University - Taiwan, 1994 Doctorate, Atmospheric Sciences and Meteorology, Purdue University, 2003	Choun, Jeanne Marri	Instructor	Bachelors, English Language and Literature, General, Colorado State Univiersity, 2010 Masters, English Language and Literature, General, Colorado State University, 2020 Certificate, English Language and Literature, General, NA Certificate, NA
Chiu, Chuchang	Master Instructor	Bachelors, Journalism, Chengchi University, Taiwan, 1979 Masters, Mass Communications, University of Minnesota, 1982	Chung, Hye Seung	Professor	Bachelors, Ewha Women's University, Seoul, Korea, 1994 Masters, LCollege of Stover Island, C.U.N.Y., 1999 Doctorate, University of California, Los Angeles, 2004
Choi, Eunhee	Instructor	Bachelors, Political Science, General, Kyunghee University, Seoul, South Korea, 2004 Masters, Social Work, Yonsei University, Seoul, South Korea, 2007 Doctorate, Social Work, University of Pittsburgh, 2013	Chung, Jean	Assistant Professor	Doctorate, Stanford University, 2012
			Clapp, Tod	Associate Professor	Bachelors, Colorado State University, 1996 Masters, Colostate University, 1999 Doctorate, Medical Neurobiology, Colorado State University, 2004
			Clark, Alena	Instructor	

Clark, Jon	Professor	Bachelors, Business Administration and Management, General, MICH STATE UNIV, 1968 Masters, Finance, General, E MICHIGAN UNIV, 1972 Doctorate, Management Information Systems and Business Data Processing, CASE WESTERN RE, 1977	Cleary, Rebecca	Assistant Professor	Bachelors, University of Connecticut, 2005 Masters, University of Connecticut, 2007 Doctorate, University of Wisconsin, 2013
Clark, Maggie	Associate Professor	Bachelors, Miami University, Oxford, OH, 1999 Masters, Colorado State University, 2005 Doctorate, Colorado State University, 2007	Clements, William	Professor	Bachelors, Biology, General, FLORIDA STATE U, 1978 Masters, Biology, General, FLORIDA STATE U, 1982 Doctorate, Zoology, General, VA POLYTECH INS, 1988
Clark, Nathan	Senior Instructor	Bachelors, Agriculture/ Agricultural Sciences, General, Michigan State University, 2000 Certificate, University of Arizona, 2001 Masters, Colorado State University, 2014	Cloud, Doug	Associate Professor	Doctorate, Carnegie Mellon University, 2014
Clay, Colin	Professor	Bachelors, Animal Sciences, General, COLO STATE UNIV, 1979 Masters, Physiology, Human and Animal, COLO STATE UNIV, 1983 Doctorate, Physiology, Human and Animal, COLO STATE UNIV, 1988	Coats, Jennifer	Senior Instructor	Doctorate, Texas A M University, 1997
Claycomb, Ryan	Professor	Bachelors, American University, 1995 Masters, University of Maryland, 1998 Doctorate, University of Maryland, 2004	Coburn, Tim	Professor	Bachelors, Mathematics, Abilene Christian University, 1973 Masters, Mathematical Statistics, Oklahoma State University, 1975 Doctorate, Mathematical Statistics, Oklahoma State University, 1980
Cleary, Anne	Professor	Bachelors, Psychology, General, John Carroll University, 1997 Masters, Experimental Psychology, Case Western Reserve University, 1999 Doctorate, Experimental Psychology, Case Western Reserve University, 2001	Coffino, Kara	Associate Professor	Bachelors, Individual and Family Development Studies, General, University of California Berkeley, 2002 Masters, Organizational Behavior Studies, Columbia University - Teachers College, 2007 Doctorate, Curriculum and Instruction, University of Minnesota - Twin Cities, 2012
			Cohen, Adrienne	Assistant Professor	Doctorate, Yale University
			Cohen, Robert	Professor	Bachelors, Biochemistry, University of California, Berkeley, 1974 Doctorate, Biochemistry, University of California, Berkeley, 1980
			Cole, Haley	Instructor	Bachelors, University of Wyoming, 2019 Masters, Texas AM University-Commerce, 2021

Cole, Laura	Associate Professor	Bachelors, University of Missouri, 2001 Doctorate, University of Michigan, 2013	Conrad, Steve	Associate Professor	Bachelors, Engin., Other, University of Arizona, 1998 Bachelors, Psychology, General, University of Arizona, 1998 Doctorate, Environmental Science/Studies, Simon Fraser University, 2016 Masters, Environmental Science/Studies, Arizona State University, 2016
Coleman, Stephen	Associate Professor	Bachelors, Agriculture/Agricultural Sciences, General, University of Kentucky, 2003 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), University of Kentucky, 2006 Doctorate, Veterinary Clinical Sciences (M.S., Ph.D.), University of Kentucky, 2011	Conroy, Samantha	Associate Professor	Bachelors, Missouri State University, 2004 Masters, University of Missouri-Kansas City, 2006 Doctorate, University of Arkansas, 2014
Colgan, Jasmine	Instructor		Contino, Erin	Associate Professor	Bachelors, Animal Sciences, Other, Colorado State University, 1999 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 2009 Professional, Veterinary Medicine (D.V.M.), Colorado State University, 2010
Collett Jr, Jeff	Professor	Bachelors, Chemical Engin., MIT, 1984 Masters, Environmental/Environmental Health Engin., CA INST TECH, 1985 Doctorate, Environmental/Environmental Health Engin., CA INST TECH, 1989	Conway, Thomas	Master Instructor	Bachelors, Colorado State University, 2004 Masters, Colorado State University, 2007
Collier, Mary Jane	Professor	Doctorate, Unknown, 1982	Cook, Jeff	Instructor	
Collins, Sayuri	Senior Instructor	Bachelors, Kagawa University, Japan, 1983 Masters, Colorado State University, 1988	Cook, Kelliann	Instructor	
Conant, Rich	Professor	Bachelors, University of Colorado, Bldr., 1990 Doctorate, Ecology, ARIZONIA STATE UNIVERSITY, 1997	Cooke, Crystal	Instructor	Bachelors, Colorado State University, 2007 Masters, Colorado State University, 2011 Doctorate, University of Maryland, 2018
Condit, Hillary	Instructor		Cooley, Daniel	Professor	Bachelors, Mathematics, University of Colorado, 1994 Masters, Applied Mathematics, General, University of Colorado, 2002 Doctorate, Applied Mathematics, General, University of Colorado, 2005
Connell, Eileen	Instructor	Bachelors, Sociology, University of Northern Colorado, 1995 Masters, Sociology, University of Northern Colorado, 1997 Doctorate, Colorado State University, 2006			
Conner, Brad	Professor	Bachelors, Psychology, General, UCLA, 1997 Masters, Clinical Psychology, UCLA, 1999 Doctorate, Clinical Psychology, UCLA, 2006			
Connor, Caleb	Instructor				

Cooner, Donna	Professor	Doctorate, Education Administration and Supervision, General, Texas AM University, 1989	Cottrell, Stuart	Professor	Bachelors, Western Illinois University, 1980 Masters, Florida International University, 1987 Doctorate, Pennsylvania State University, 1993
Cooper, Camilla	Associate Professor				
Cooper, Julia	Instructor	Bachelors, University of Wyoming, 2016 Masters, University of Iowa, 2021	Coultas, Chris	Instructor	
Cooper, Leroy	Instructor	Bachelors, Biology, General, MIT/ Cambridge, 1959 Masters, Philosophy, Columbia University, NYC, 1968	Countryman, Amanda	Associate Professor	Bachelors, Agricultural Economics, University of Arizona, 2005 Masters, Agricultural Economics, Texas AM University, 2007 Doctorate, Agricultural Economics, Purdue University, 2010
Cooperman, Matthew	Professor	Bachelors, Colgate University, 1986 Masters, University of Colorado, 1992 Professional, Ohio University, 1998	Cowle, Liz	Assistant Professor	Bachelors, Tulane University, 2015 Masters, Tulane University, 2015 Doctorate, Univeristy of Arkansas, 2021
Cornwall, Jeff	Assistant Professor	Bachelors, Brigham Young University, 2011 Doctorate, Pennsylvania State University, 2022 Masters, Brigham Young University	Crabtree, Heather	Instructor	Bachelors, Purdue University, 2009 Masters, Colorado State University, 2022
Correa, Maite	Associate Professor	Bachelors, University of Duesto, Spain, 2000 Masters, University of Arizona, 2003 Doctorate, University of Arizona, 2008	Crair, Stu	Instructor	Bachelors, University of Maryland, College Park, 2001
Correia, Joel	Assistant Professor		Cramer, Catie	Assistant Professor	Bachelors, Colorado State University, 2012 Masters, University of Wisconsin-Madison, 2014 Doctorate, University of Wisconsin - Madison, 2018
Corsale, Maia	Instructor				
Costanigro, MARCO	Professor	Bachelors, Agricultural Business and Management, General, University of Bologna, Italy, 1974 Doctorate, Agricultural Economics, Washington State University, 2007 Masters, Washington State University, 2007	Crans, Debbie	Professor	Bachelors, Chemistry, General, University of Copenhagen, 1978 Masters, Chemistry, General, University of Copenhagen, 1980 Doctorate, Organic Chemistry, HARVARD UNIV, 1985
Cotrufo, Francesca	Professor	Bachelors, Biology, General, University of Naples, Italy, 1991 Doctorate, Soil Sciences, Lancaster Univ/Institute of Terrestrial Ecology, UK, 1995	Crasovscaia, Natasha	Instructor	Masters, Colorado State University, 2012
			Craver, Joshua	Assistant Professor	Bachelors, Mississippi State University, 2012 Masters, Kansas State University, 2014 Doctorate, Purdue University, 2018
			Crick, Dean	Professor	Doctorate, University of Western Ontario, 1989

Cronin, Kevin	Instructor	Bachelors, Colorado State University, 2002 Masters, Colorado State University - Global, 2012	Cusack, Daniela	Associate Professor	Bachelors, Wesleyan University, 1999 Masters, Environmental Science/Studies, Yale, 2003 Doctorate, Environmental Science/Studies, UC Berkeley, 2009
Crooks, Kevin	Professor	Bachelors, Zoology, General, Colorado State University, 1989 Masters, Ecology, Univ of Calif - Santa Cruz, 1994 Doctorate, Biology, General, Univ of California - San Diego, 1999	Dahl, Jamie	Assistant Professor	Bachelors, Forest Management, Pennsylvania State University, 2004 Masters, Pennsylvania State University, 2006
Cross, Jeni	Professor	Bachelors, Sociology, Colorado State University, 1993 Masters, Sociology, U. Calif-Davis, 1996 Doctorate, Sociology, U. Calif-Davis, 2001	Daigle, Tiffany	Instructor	
Crozier, Clarissa	Instructor	Bachelors, University of Northen Colorado	Daily, Jeremy	Associate Professor	Doctorate, Wright State University, 2006
Cundiff, Elisa	Instructor		Dandy, David	Professor	Bachelors, Chemical Engin., U OF CALIFORNIA-Davis, 1981 Masters, Chemical Engin., CALTECH, 1983 Doctorate, Chemical Engin., CALTECH, 1987
Cunningham, Sam	Assistant Professor	Bachelors, Texas Tech University, 2002 Masters, Texas AM University, 2005 Doctorate, Animal Sciences, General, Texas AM University, 2008	Daniels, Josh	Associate Professor	Doctorate, Veterinary Medicine (D.V.M.), University of Wisconsin - Madison, 1999 Doctorate, Veterinary Clinical Sciences (M.S., Ph.D.), Washington State University, 2008
Curl, Kelly	Associate Professor	Bachelors, Villanova University, 1999 Masters, Landscape Architecture, University of Pennsylvania, 2002	Dannahower, Heather	Instructor	
Currin-McCulloch, Jen	Assistant Professor	Bachelors, Psychology, General, North Carolina State Univrsity, 1993 Masters, Social Work, University of Georgia, 1995 Doctorate, Philosophy, University of Texas at Austin, 2019	Daum, Courtenay	Professor	Bachelors, Political Science, General, University of Delaware, 1997 Masters, American Government and Politics, Univeristy of Delaware, 1998 Doctorate, American Government and Politics, Georgetown University, 2004
Curry, Scott	Assistant Professor	Bachelors, Colorado State University, 2015 Masters, Colorado State University, 2017	Daunhauer, Lisa	Associate Professor	Bachelors, Journalism, University of Florida, 1989 Masters, Occupational Therapy, Boston University, 1996 Doctorate, Occupational Therapy, Boston University, 2004
Curtis, Stanley	Assistant Professor	Bachelors, University of Alabama, 1986 Masters, Cleveland Insitute of Music, 1988 Doctorate, Indiana University, 2005			

Davalos, Deana	Professor	Bachelors, Psychology, General, Texas AM University, 1994 Masters, Counseling Psychology, Colorado State University, 1997 Doctorate, Counseling Psychology, Colorado State University, 2000	Davis, Leslie	Senior Instructor	Bachelors, Colorado State University, 2012 Bachelors, Colorado State University, 2013 Masters, Colorado State University, 2016 Masters, Colorado State University, 2016
Davenport, Frances	Assistant Professor	Doctorate, Earth and Planetary Sciences, Stanford University, 2022	Davis, Seth	Associate Professor	Bachelors, Forestry, General, Northern Arizona University, 2006 Masters, Entomology, Northern Arizona University, 2008 Doctorate, Forestry Sciences, Northern Arizona University, 2011
David, Jim	Professor	Bachelors, University of Georgia, 2000 Masters, University of Georgia, 2002 Doctorate, Florida State University, 2006	Davletshin, Marat	Assistant Professor	Masters, University of Rochester, NY, 2012 Doctorate, University of Arkansas, 2020
David-Chavez, Dominique	Assistant Professor	Bachelors, Montana State University, 2014 Doctorate, Colorado State University, 2019	Dayan, Franck	Professor	Bachelors, Stephen F. Austin State University, 1988 Masters, Stephen F. Austin State University, 1992 Doctorate, Botany, General, Auburn University, 1995
Davies, Ashley	Master Instructor	Bachelors, Utah Valley University, 2008 Masters, Colorado State University, 2010	de Brito, Paulo	Instructor	Bachelors, Mackenzie University, 2001 Masters, Universidade de Sao Paulo, 2006 Masters, Colorado State University, 2010
Davies, Ewan	Assistant Professor	Bachelors, Mathematics, University of Cambridge, 2012 Masters, Mathematics, University of Cambridge, 2013 Doctorate, London School of Economics and Political Science	De Long, Susan	Associate Professor	Bachelors, Univ of Calif. Berkeley, 1999 Masters, Univ of Texas at Austin, 2005 Doctorate, Univ of Texas at Austin, 2009
Davies, Patti	Professor	Doctorate, University of Wyoming, 1995	Dean, Gregg	Professor	Bachelors, Pre-Veterinary Studies, Colorado State University, 1985 Professional, Veterinary Medicine (D.V.M.), Colorado State University, 1988 Doctorate, Pathology, Human and Animal, Colorado State University, 1991
Davis, DeAunn	Instructor	Bachelors, Northwestern University, 2003 Masters, DePaul University, 2007 Doctorate, University of Utah, 2014	Dean, Tom	Professor	Doctorate, University of Colorado, 1992
Davis, Jessica	Professor	Bachelors, Agronomy and Crop Science, Cornell University, 1983 Masters, Texas Tech University, 1984 Doctorate, Texas A M University, 1989			

Decker, Derek	Assistant Professor	Bachelors, Elementary Teacher Education, University of Montana, 2004 Masters, Curriculum and Instruction, University of Phoenix, 2006 Doctorate, Education Administration and Supervision, Other, Colorado State University, 2017	Delmore, Bob	Professor	Bachelors, Food Sciences and Tech, California Polytechnic State University - San Luis Doispo, 1991 Masters, Animal Sciences, General, University of Nebraska, 1993 Doctorate, Animal Sciences, General, Colorado State University, 1998
Decker, Joy	Instructor	Bachelors, Elementary, Middle and Secondary Education Administration, The University of Montana, 2003 Masters, Curriculum and Instruction, The University of Phoenix, 2006	Delmore, Lynn	Instructor	Bachelors, California Polytechnic State University, 1991 Masters, Animal Sciences, General, University of Nebraska-Lincoln, 1993 Doctorate, Colorado State University, 1998
Deines, Burton	Master Instructor	Masters, Colorado State University, 1996	Delosh, Ed	Associate Professor	Bachelors, Psychology, General, Northwestern University, 1992 Masters, Cognitive Psychology and Psycholinguistics, Purdue University, 1994 Doctorate, Cognitive Psychology and Psycholinguistics, Purdue University, 1996
Delahunty, Gerald	Professor	Bachelors, English Literature (British and Commonwealth), UNIV COL DUBLIN, 1968 Masters, Linguistics, UNIV COL DUBLIN, 1970 Doctorate, Linguistics, U OF CALIFORNIA, 1981	DeLuca, Jennifer	Professor	Bachelors, Biology, General, University of North Carolina, Chapel Hill, 1994 Doctorate, Cell and Molecular Biology, Other, University of California, Santa Barbara, 2000
DeLay, Nathan	Assistant Professor	Bachelors, Rocky Mountain College, 2009 Masters, University of Colorado Denver, 2013 Doctorate, Washington State University, 2018	Deming, Monica	Senior Instructor	Bachelors, Graphic Design, Commercial Art and Illustration, University of Nebraska, 1988 Masters, Drawing, Colorado State University, 1996
Delee, Floris	Instructor	Bachelors, Catholic University - Antwerp	DeMirjyn, Maricela	Associate Professor	Bachelors, University of California, Santa Barbara, 1995 Masters, San Diego State University, 2000 Doctorate, University of California, Santa Barbara, 2005
Delgado, Maria	Assistant Professor	Bachelors, Construction and Building Finishers and Managers, Other, Colorado State University, 2010 Masters, Architecture, University of Colorado-Denver, 2013 Doctorate, Architectural Urban Design and Planning, University of Colorado-Denver, 2018	DeMoulpied, Jason	Assistant Professor	
			DeNise, Rick	Instructor	

Denler, Melissa	Assistant Professor	Doctorate, University of Kansas
Denning, Scott	Professor	Bachelors, Geology, UNIV OF MAINE, 1984 Masters, Atmospheric Sciences and Meteorology, CSU, 1993 Doctorate, Atmospheric Sciences and Meteorology, CSU, 1995
Denniston, David	Associate Professor	Doctorate, Animal Sciences, General, New Mexico State University, 2001
Dewey, Tanya	Assistant Professor	
DeYoung, Wendy	Assistant Professor	Bachelors, Health and Physical Education, General, University of Northern Colorado, 1982 Masters, Exercise Sciences/Physiology and Movement Studies, University of Denver, 1986
Di Pietro, Santiago	Professor	Bachelors, University of Buenos Aires, 1996 Doctorate, University of Buenos Aires, 2001
Dicesare, Catherine	Associate Professor	Bachelors, Art History, Criticism and Conservation, Florida State University, 1990 Masters, Art History, Criticism and Conservation, Syracuse University, 1994 Doctorate, Art History, Criticism and Conservation, University of New Mexico, 2002
Dickerson, Will	Associate Professor	Bachelors, English Language and Literature, General, Ohio University, 2011 Masters, English Language and Literature, General, Marshall University, 2013 Masters, Library Science, Other, Kent State University, 2014

Dickinson, Greg	Professor	Bachelors, Communications, General, Walla Walla College, 1987 Masters, Speech and Rhetorical Studies, University of California, Davis, 1990 Doctorate, Speech and Rhetorical Studies, University of Southern California, 1994
Dickison, Brenda	Instructor	Bachelors, Psychology, General, Evergreen State College, 1975 Masters, Social Work, University of Washington, 1982
Diddi, Sonali	Associate Professor	Certificate, Business Administration and Management, General, Central Queensland Univ, 2009 Masters, Clothing/Apparel and Textile Studies, RMIT University, 2009 Doctorate, Clothing/Apparel and Textile Studies, Iowa State Univ, 2014
Didier, John	Associate Professor	Doctorate, History, Other, Princeton University, 1998
Diehl, Manfred	Professor	Bachelors, Psychology, General, Rheinische Friedrich-Wilhelms Univ Bonn Germany, 1980 Masters, Rheinische Friedrich-Wilhelms Univ Bonn Germany, 1984 Doctorate, Penn State University, 1991
Diffrient, Scott	Professor	Bachelors, Film/Cinema Studies, University of Southern Mississippi, 1996 Masters, Film/Cinema Studies, City University of New York, 1999 Doctorate, Film/Cinema Studies, UCLA, 2005
Dik, Bryan	Professor	Bachelors, Psychology, General, Calvin College, 1998 Doctorate, Counseling Psychology, University of Minnesota, 2005

Dillard, Seth	Associate Professor	Certificate, University of Iowa EMSLRC, 1996 Bachelors, Mechanical Engin., University of Iowa, 2004 Doctorate, Mechanical Engin., University of Iowa, 2011	Literature, Univ of California, Santa Cruz, 1992 Masters, Linguistics, University of South Carolina, 1996
Dillon, Jasmine	Assistant Professor	Bachelors, Texas AM University, 2011 Masters, Texas AM University, 2013 Doctorate, Penn State University, 2019	Masters, Social Work, Colorado State University, 2014
Dineen, Mark	Associate Professor	Bachelors, Landscape Architecture, University of Illinois, 2006 Masters, Cranbrook Academy of Art, 2013	Bachelors, Biochemistry, St. Peter's College, 1975 Masters, Chemistry, General, Univ of Pennsylvania, 1977 Doctorate, Chemistry, General, University of Pennsylvania, 1981 Masters, Business, General, Colorado State University, 1999
Dinenno, Frank	Professor	Bachelors, Exercise Sciences/Physiology and Movement Studies, University of Arizona, 1996 Masters, Exercise Sciences/Physiology and Movement Studies, University of Colorado - Boulder, 1998 Doctorate, Exercise Sciences/Physiology and Movement Studies, University of Colorado Boulder, 2000	Bachelors, Adams State College, 1990 Doctorate, Colorado State University, 1995
Dinise-Halter, Amy	Assistant Professor	Bachelors, Liberal Arts and Sciences/Liberal Studies, California State University Fullerton, 2003 Masters, Higher Education Administration, Indiana University Bloomington, 2005 Doctorate, Higher Education Administration, University of Northern Colorado, 2014	Bachelors, Animal Sciences, General, Colorado State University, 2008
DiRado, Paul	Senior Instructor	Bachelors, Agricultural Business and Management, General, Whitman College, 2007 Masters, Philosophy, University of Kentucky, 2011 Doctorate, Philosophy, University of Kentucky, 2015	Bachelors, Biology, General, University of Wisconsin, 2007 Masters, Higher Education Administration, University of Utah, 2010 Doctorate, Education Administration and Supervision, General, university of Utah, 2019
Discoe, Christine	Senior Instructor	Bachelors, French Language and	Doctorate, Civil Engin., General, Colorado State University, 1992
Distaso, Cheryl	Instructor		Doctorate, Ohio State University, 2000
DiVerdi, Joseph	Associate Professor		Bachelors, Boston University, 2003
Dobos, Karen	Professor		Doctorate, Oklahoma State University, 1999
Docheff, Joshua	Instructor		Bachelors, Biology, General, Frostburg State University, 2000 Masters, Toxicology, The University of Georgia, 2002 Doctorate, Toxicology, Colorado State University, 2007
Dockendorff, Kari	Assistant Professor		
Doe, William	Instructor		
Doherty Jr, Paul	Professor		
Dombrowski, Stephen	Instructor		
Donavan, D Todd	Associate Professor		
Dooley, Gregory	Associate Professor		

Dos Santos Hernandez, Pablo	Instructor	Bachelors, University of Southern Mississippi, 2012 Masters, Baylor University, 2014	Du, Andrew	Assistant Professor	Doctorate, The George Washington University, 2017
Dossani, Asad	Assistant Professor	Masters, London School of Economics, 2007 Masters, University of Oxford, 2011 Doctorate, University of California San Diego, 2018	Dudley, Natalie	Instructor	Bachelors, English Teacher Education, Colorado State University, 2004 Masters, English Teacher Education, Colorado State University, 2010
Dow, Steven	Professor	Bachelors, Cell Biology, University of Virginia, 1978 Professional, Veterinary Medicine (D.V.M.), University of Georgia, 1982 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 1987 Doctorate, Biological Immunology, Colorado State University, 1992	Duerr, Felix	Professor	Professional, Veterinary Medicine (D.V.M.), School of Veterinary Medicine-Hanover, Germany, 2001 Doctorate, Veterinary Clinical Sciences (M.S., Ph.D.), School of Veterinary Medicine - Hanover, Germany, 2002 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 2007
Dowers, Kristy	Associate Professor	Bachelors, Cognitive Psychology and Psycholinguistics, Massachusetts Institute of Technology, 1988 Professional, Veterinary Medicine (D.V.M.), Colorado State University, 1997 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 2003	Duffy, Andrea	Associate Professor	Doctorate, Georgetown University, 2013
Downing, Jason	Senior Instructor	Masters, Minnesota State University - Mankato, 2002	Duffy, Robert	Professor	Bachelors, Lafayette College, 1981 Masters, University of Delaware, 1983 Doctorate, American Government and Politics, Brandeis University, 1991
Draeger, Michelle	Assistant Professor	Bachelors, Marquette University, 2006 Doctorate, Oklahoma State University, 2018	Dumitrache, Ciprian	Assistant Professor	Bachelors, Aerospace, Aeronautical and Astronautical Engin., University Politehnica of Bucharest Doctorate, Mechanical Engin., Colorado State University Masters, Aerospace, Aeronautical and Astronautical Engin., Georgia Institute of Technology
Draper, Bruce	Professor	Bachelors, Computer Science, Yale University, 1984 Masters, Computer Science, University of Massachusetts Amherst, 1987 Doctorate, Computer Science, University of Massachusetts Amherst, 1993	Dunbar, Brian	Professor	Bachelors, Architecture, U OF MICHIGAN, 1979 Masters, Architecture, U OF MICHIGAN, 1981

Duncan, Colleen	Professor	Bachelors, Queen's University, 1998 Professional, University of Saskatchewan, 2003 Masters, University of Saskatchewan, 2005 Doctorate, Colorado State University, 2009	Eakman, Aaron	Associate Professor	Bachelors, University of North Dakota, 1989 Masters, Western Michigan University, 1992 Doctorate, University of Southern California, 2007
Duncan, Pamela	Master Instructor	Bachelors, Political Science, General, University of California, 1980 Masters, American Government and Politics, Colorado State University, 1983 Doctorate, Political Science and Government, Other, Colorado State University, 2003	Easley, Eric	Senior Instructor	Masters, Colorado State University, 2014 Bachelors, Colorado State University
Dungy, Camille	Professor	Bachelors, Stanford University, 1995 Masters, University of North Carolina, Greensboro, 1997	Easley, Jeremiah	Associate Professor	Bachelors, College of Charleston, 2002 Professional, Veterinary Medicine (D.V.M.), VA-MD Regional College of Veterinary Medicine, 2007
Dunn, Dean	Instructor	Bachelors, Colorado State University, 1983 Masters, Colorado State University, 1993	Ebel, Greg	Professor	Bachelors, English Language and Literature, General, University of Minnesota, Twin Cities, 1991 Masters, Public Health, General, Harvard School of Public Health, 1997 Doctorate, Epidemiology, Harvard School of Public Health, 2000
Dunn, Tom	Associate Professor	Bachelors, University of Richmond, 2002 Masters, Syracuse University, 2005 Doctorate, University of Pittsburgh, 2011	Ebert-Uphoff, Imme	Professor	Masters, University of Karlsruhe, Germany, 1993 Masters, Johns Hopkins University, 1996 Doctorate, Johns Hopkins University, 1997
Duran Mancipe, Sandra M	Assistant Professor		Eddington, Cass	Instructor	Masters, Colorado State University, 2012 Bachelors, Utah Valley University
Durand, Mark	Instructor	Masters, Unknown, 1990	Edmondson, Stacy	Instructor	
Durre, Holger	Instructor		Edwards, Melissa	Instructor	
Duval, Dawn	Professor	Bachelors, Biochemistry, University of Nevada, Reno, 1990 Doctorate, Pharmacology, Human and Animal, University of Nevada, Reno, 1994	Edwards-Callaway, Lily	Associate Professor	Bachelors, Amherst College, 2002 Masters, University of Rhode Island, 2006 Doctorate, Colorado State University, 2009
Eakes, Joe	Master Instructor	Bachelors, Auburn University, 1981 Masters, Auburn University, 1984 Doctorate, Virginia Polytechnic Institute, 1989	Eftekhari Shahroudi, Kamran	Professor	Bachelors, Loughborough Univ of Tech, 1988 Professional, Delft University of Tech, 1994 Masters, MIT, 2009

Egret, Cookie	Instructor	Masters, Colorado State University
Ehlers-Zavala, Fabiola	Professor	Bachelors, Universidad Carolica de Valparaiso, 1992 Masters, Illinois State University, 1994 Doctorate, Illinois State University, 1999
Ehrhart, Nicole	Professor	Professional, Veterinary Medicine (D.V.M.), University of Pennsylvania, 1990 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 1994
Eilertson, Kirsten	Associate Professor	Bachelors, Mathematics, Saint Olaf College, 2006 Doctorate, Mathematical Statistics, Cornell University, 2011
Elam, Lindsay	Assistant Professor	Masters, University of Florida, 2015 Professional, University of Florida, 2015
Elder, John	Professor	Doctorate, University of Virginia, 1995
Eldridge, Brandy	Instructor	Doctorate, Unknown, 2010
Elf, Jessica	Assistant Professor	Bachelors, University of Florida, 2004 Masters, Public Health, Other, Johns Hopkins Bloomberg School of Public Health, 2009 Doctorate, Public Health, Other, Johns Hopkins Bloomberg School of Public Health, 2016
Eliassen, Carson	Instructor	
Elkins, Evan	Associate Professor	Masters, University of Texas Austin, 2009 Doctorate, University of Wisconsin Madison, 2015 Bachelors, English Language and Literature/Letters, Other, Michigan State University

Elkins, Mary	Instructor	Bachelors, English Language and Literature, General, Emmanuel College, Boston, 1966 Masters, English Language and Literature, General, Southern Illinois University, 1968 Doctorate, Southern Illinois University, 1979
Elliott, Addy	Senior Instructor	Bachelors, Sociology, TEXAS CHRISTIAN UNIVERSITY, 1997 Masters, Soil Sciences, COLORADO STATE UNIVERSITY, 2004
Elliott, Jon	Associate Professor	Bachelors, Construction and Building Finishers and Managers, Other, Pennsylvania College of Technology, 2004 Masters, Construction and Building Finishers and Managers, Other, Colorado State University, 2010 Doctorate, Education, General, Colorado State University, 2013
Ellison, Nicole	Assistant Professor	Bachelors, Civil Engin., General, Florida State University, 1995 Masters, Civil Engin., General, University of Colorado, Denver, 2015 Doctorate, Civil Engin., General, University of Colorado, Denver, 2017
Emami, Sanam	Associate Professor	Bachelors, History, General, James Madison University, 1993 Masters, Ceramics Arts and Ceramics, Alfred University, 2002
Emanouilov, Oleg	Professor	Bachelors, Mathematics, Moscow State University, 1986 Masters, Mathematics, Moscow State University, 1986 Doctorate, Mathematics, Moscow State University, 1991
Embry, ryan	Instructor	

Emery, Noah	Assistant Professor	Bachelors, Psychology, General, Arizona State University, 2012 Masters, Clinical Psychology, University of South Dakota, 2015 Doctorate, Clinical Psychology, University of South Dakota, 2018	Evans, Samantha	Assistant Professor	Bachelors, Chemistry, General, Colorado State University, 2008 Doctorate, University of California -Davis, 2013 Professional, Veterinary Medicine (D.V.M.), University of California - Davis, 2015
Engle, Terry	Professor	Bachelors, Animal Sciences, General, Colorado State University, 1993 Masters, Animal Sciences, Other, Colorado State University, 1996 Doctorate, Animal Sciences, Other, North Carolina State University, 1999	Everett, Derek	Senior Instructor	Bachelors, Western State College of Colorado, Gunnison, 2001 Masters, Colorado State University, 2003 Doctorate, University of Arkansas, Fayetteville, 2008
Enns, Kellie	Associate Professor	Bachelors, Animal Sciences, General, Washington State University, 1993 Masters, Agriculture/ Agricultural Sciences, General, Colorado State University, 1996 Doctorate, Education, General, Colorado State University, 2008	Ex, Seth	Associate Professor	Bachelors, Forestry, General, Utah State University, 2009 Masters, Forestry Sciences, Colorado State University, 2011 Doctorate, Forestry Sciences, Colorado State University, 2014
Enns, Mark	Professor	Bachelors, Biology, General, Tabor College, 1987 Masters, Animal Sciences, General, CSU, 1991 Doctorate, Animal Sciences, General, CSU, 1995	Eykholt, Richard	Associate Professor	Bachelors, Mathematics, University of California, 1978 Bachelors, Physics, General, U OF CALIFORNIA, 1978 Masters, Physics, General, U OF CALIFORNIA, 1980 Doctorate, Physics, General, U OF CALIFORNIA, 1984
Erickson, Peter	Associate Professor	Doctorate, University of Chicago, 2014	Fabiano, Ted	Instructor	
Essah, Samuel	Associate Professor	Doctorate, Agronomy and Crop Science, Alabama A M University, 1999	Fails, Anna	Associate Professor	Bachelors, Biology, General, University of Arizona, 1983 Professional, Veterinary Medicine (D.V.M.), Colorado State University, 1987 Doctorate, Anatomy, Colorado State University, 1999
Ettema, Rob	Professor	Bachelors, Auckland University, NZ, 1975 Masters, Auckland University, NZ, 1977 Doctorate, Auckland University, NZ, 1980	Fairbank Jr, William	Professor	Bachelors, Physics, General, POMONA COLLEGE, 1968 Masters, Physics, General, STANFORD UNIV, 1969 Doctorate, Physics, General, STANFORD UNIV, 1974

Fairchild, Ana	Master Instructor	Bachelors, Music, General, Benedictine College, 1988 Bachelors, Spanish Language and Literature, Benedictine College, 1988 Masters, Spanish Language and Literature, Colorado State University, 1992 Masters, Accounting, Other, Regis University, 2000	Faris, Suzanne	Professor	Bachelors, Design and Visual Communications, Purdue University, 1994 Bachelors, Painting, Purdue University, 1994 Masters, Sculpture, University of Colorado, 2001
Faircloth, Susan	Professor	Bachelors, History, General, Appalachian State University Doctorate, Education Administration and Supervision, General, The Pennsylvania State Univ Masters, Counselor Education Counseling and Guidance Services, The Pennsylvania State University	Farmer, Delphine	Professor	Bachelors, Chemistry, General, McGill University, 2000 Masters, Environmental Science/Studies, University of California, Berkeley, 2001 Doctorate, Chemistry, General, University of California, Berkeley, 2006
Fankell, Doug	Assistant Professor	Bachelors, Architectural Engin., University of Wyoming, 2011 Masters, Civil Engin., General, University of California, Berkely, 2012 Doctorate, Mechanical Engin., University of Colorado, Boulder, 2017	Farmer, Joe	Instructor	Masters, Colorado State University, 1997
Fantz, Todd	Senior Instructor	Bachelors, Civil Engin., General, University of Colorado, 1995 Masters, Physics Teacher Education, University of Colorado Denver, 2002 Doctorate, Colorado State University, 2009	Fassnacht, Steven	Professor	Bachelors, Civil Engin., General, University of Waterloo, 1992 Masters, Civil Engin., General, University of Waterloo, 1995 Doctorate, Civil Engin., General, University of Waterloo, 2000
Farah, Shahzadi	Instructor	Bachelors, Pakistan Institute of Engineering and Applied Sciences, 2007 Masters, University of Engineering Taxila, 2012 Masters, Colorado State University, 2016	Fatehiboroujeni, Soheil	Assistant Professor	Bachelors, Mechanical Engin., Sharif University, 2012 Masters, Mechanical Engin., University of California Merced, 2016 Doctorate, Mechanical Engin., University of California Merced, 2018
			Fattor, Eric	Senior Instructor	Bachelors, University of Portland, 1996 Masters, International Relations and Affairs, University of Denver, 2000 Doctorate, University of Denver
			Faw, Meara	Associate Professor	Masters, University of Washington, 2011 Doctorate, Communications, General, University of Washington, 2014 Bachelors, Whitworth University

Felix, Oscar	Assistant Professor	Bachelors, International Relations and Affairs, US INTL UNIV, 1988 Masters, Higher Education Administration, Colorado State University, 1993 Doctorate, Human Resources Management, Other, Colorado State University, 2002	Fetsch, Robert	Professor	Bachelors, Philosophy, Conception Seminary, 1967 Masters, St. Mary's University, San Antonio, TX, 1967 Masters, Theological Studies and Religious Vocations, Other, ST MARY'S U, 1970 Masters, Counseling Psychology, OLOFTLU, 1972 Doctorate, Counselor Education Counseling and Guidance Services, U OF WYOMING, 1979
Fellmann, Connie	Associate Professor	Doctorate, Anthropology, New York University, 2011	Fidler, Deborah	Professor	Bachelors, Psychology, Other, Cornell University, 1996 Masters, Educational Psychology, University of California, Los Angeles, 1998 Doctorate, Educational Psychology, University of California, Los Angeles, 2001
Fenton, Michael	Instructor	Bachelors, Art, General, University of Northern Colorado, 1997 Masters, Art History, Criticism and Conservation, University of Northern Colorado, 2001	Field, Stuart	Associate Professor	Bachelors, Physics, General, Stanford University, 1981 Masters, Physics, General, University of Chicago, 1982 Doctorate, Physics, General, University of Chicago, 1986
Ferguson, Craig	Instructor		Fielder, James	Instructor	Masters, American Military University, 2005 Masters, Air Command Staff College, 2011 Doctorate, The University of Iowa, 2012
Ferreira, Copper	Senior Instructor	Bachelors, Brevard College, 2003 Masters, Arizona State University, 2005 Masters, University of Western Ontario, 2007	Finan, Kimber	Instructor	
Ferreira, Wesley	Professor	Bachelors, University of Western Ontario, 2003 Masters, Arizona State University, 2006 Doctorate, Arizona State University, 2013	Fink, Gwendolyn	Instructor	Bachelors, Christian Brothers College, 1986 Masters, University of Memphis, 2004
Ferrer, Kim	Instructor	Bachelors, Sculpture, Colorado State University, 1991 Masters, Sculpture, Colorado State University, 2004	Finke, Richard	Professor	Bachelors, Chemistry, General, UNIV COLORADO, 1972 Doctorate, Chemistry, General, STANFORD UNIV, 1976
Ferri, Anna	Assistant Professor				

Firooz, Janet	Instructor	Bachelors, Southern Methodist University, 1989 Masters, Harvard University, 1990 Masters, Penn State University, 1994
Firooz, Jon	Senior Instructor	Bachelors, Colorado Statue Univeristy, 1996
Fischer, Emily	Professor	Bachelors, Atmospheric Sciences and Meteorology, University of British Columbia, 2002 Masters, Earth and Planetary Sciences, University of New Hampshire, 2005 Doctorate, Atmospheric Sciences and Meteorology, University of Washington, 2010
Fischer, Jenny	Instructor	Bachelors, Fine Arts and Art Studies, Other, Colorado State University, 1998
Fisher, Chris	Professor	Doctorate, Anthropology, University of Wisconsin-Madison, 2000
Fisher, Gwen	Professor	Bachelors, Psychology, General, Pennsylvania State University, 1995 Masters, Industrial and Organizational Psychology, Bowling Green State University, 1999 Doctorate, Industrial and Organizational Psychology, Bowling Green State University, 2001
Fleming, Kate	Instructor	Bachelors, Colorado State University, 2012
Fletcher, Harrison	Associate Professor	Masters, Vermont College of Fine Arts, 2006

Fling, Brett	Associate Professor	Bachelors, Exercise Sciences/Physiology and Movement Studies, University of Northern Colorado, 2002 Masters, Exercise Sciences/Physiology and Movement Studies, University of Massachusetts - Amherst, 2007 Doctorate, Exercise Sciences/Physiology and Movement Studies, University of Michigan, 2011
Flippen, Paul	Associate Professor	Bachelors, Art History, Criticism and Conservation, University of Texas at Austin, 1995 Bachelors, Fine/Studio Arts, University of Texas at Austin, 1995 Masters, Art History, Criticism and Conservation, Pratt Institute, 2000 Masters, Painting, Pratt Institute, 2000
Folkestad, James	Professor	Bachelors, History, General, University of Colorado, 1989 Masters, California State University - Long Beach, 1993 Doctorate, Texas AM, 1996
Folsom, Jennifer	Senior Instructor	Masters, Colorado State University, 2008 Bachelors, Roosevelt University
Fontana, Anna	Senior Instructor	Bachelors, Colorado State University, 1997 Masters, Stanford University, 2006
Fonte, Steven	Associate Professor	Bachelors, University of California, Davis, 1998 Masters, Oregon State University, 2003 Doctorate, University of California Davis, 2010
Foskin, Kevin	Associate Professor	Bachelors, English Language and Literature, General, COLO STATE UNIV, 1989 Masters, English Creative Writing, COLO STATE UNIV, 1991

Foster, Michelle	Professor	Doctorate, Georgia State University, 2005 Bachelors, Spelman College	Freeman, Hilary	Master Instructor	Bachelors, Mathematics, Colorado State University, 2000 Masters, Mathematics, Colorado State University, 2002
Foy, Brian	Professor	Bachelors, University of Notre Dame, 1994 Doctorate, Tulane University, 2001	Fremstad, Anders	Associate Professor	Bachelors, Georgetown University, 2006 Doctorate, Economics, Other, University of Massachusetts, Amherst, 2015
Francois, Ron	Professor	Bachelors, McGill University, 1988 Masters, University of Maryland, 1994 Doctorate, University of Maryland, 1998	Frisbie, David	Professor	Bachelors, Biochemistry, University of Wisconsin-River Falls, 1987 Professional, Veterinary Medicine (D.V.M.), University of Wisconsin-Madison, 1992 Masters, Medical Pathology, Colorado State University, 1996 Doctorate, Molecular Biology, Colorado State University, 1999
Frank, Chad	Associate Professor	Bachelors, Microbiology/Bacteriology, Colorado State University, 2003 Masters, Anatomy, Colorado State University, 2004 Professional, Veterinary Medicine (D.V.M.), Michigan State University, 2008 Masters, Pathology, Human and Animal, Purdue University, 2011	Frohlich, Miranda	Instructor	
Franzel, Amber	Instructor	Bachelors, Social Work, Colorado State University, 2002 Masters, Social Work, University of Michigan, 2005 Certificate, University of Michigan, 2007	Fruhauf, Christine	Professor	Bachelors, Ecology, Ohio State University, 1997 Certificate, Gerontology, University of Akron, 2000 Masters, Family/Consumer Resource Management, Other, University of Akron, 2000 Doctorate, Individual and Family Development Studies, General, Virginia Polytechnic Institute, 2003
Frazier, Jason	Associate Professor	Bachelors, Design and Applied Arts, Other, Missouri State University, 1993 Masters, Design and Applied Arts, Other, Colorado State University, 2007	Frye, Melinda	Professor	Bachelors, Nursing (R.N. Training), Linfield College, 1987 Professional, Veterinary Medicine (D.V.M.), Colorado State University, 1996 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 2001 Doctorate, Biological Sciences/Life Sciences, Other, Colorado State University, 2005
Frazier, Kendal	Instructor	Bachelors, Kansas State University, 1973			
Frederiksen, Heidi	Instructor	Bachelors, Music, General, Colorado State University, 1992 Bachelors, University of Northern Colorado, 1996 Masters, Education, General, Colorado State University, 2003 Doctorate, Education, General, Colorado State University, 2010			

Fu, Sherry	Assistant Professor	Bachelors, Tianjin University of Finance and Economic, 2013 Masters, City University of Hong Kong, 2014 Doctorate, Oklahoma State University, 2022	Gallen, Sean	Assistant Professor	Doctorate, Earth and Planetary Sciences, North Carolina State University, 2013
Fulford, Devon	Instructor	Masters, University of Denver, 2014	Galvin, Kathleen	Professor	Bachelors, Anthropology, COLO STATE UNIV, 1971 Masters, Anthropology, COLO STATE UNIV, 1979 Doctorate, Anthropology, SUNY BINGHAMTON, 1985
Funk, Chris	Professor	Bachelors, Biology, General, Wesleyan University, 1994 Doctorate, Ecology, University of Montana, 2004	Ganster, Margot	Instructor	Bachelors, State University of NY @ Albany, 1988 Masters, Stevens Institute of Technology, 1991
Fyffe, Lisa	Assistant Professor	Bachelors, Occupational Therapy, Colorado State University, 1999 Masters, Colorado State University, 2006	Gao, Wei	Professor	Bachelors, Anhui Normal University, 1988 Bachelors, Atmospheric Sciences and Meteorology, Nanjing Institute of Meteorology, 1988 Masters, Mississippi State University, 1992 Doctorate, Purdue University, 1997
Gaddy, Vidya	Instructor	Bachelors, Computer Science, Colorado State University, 2019 Masters, Computer Science, Colorado State University, 2021	Gardner, Danielle	Assistant Professor	Bachelors, Rice University, 2016 Masters, Michigan State University, 2018 Doctorate, Michigan State University, 2021
Gadomski, Ben	Associate Professor	Bachelors, Trine University, 2009 Doctorate, Colorado State University, 2015	Garifi, Susie	Instructor	Bachelors, Colorado State University, 1998 Masters, New York University, 2004
Gaines, Dana	Senior Instructor	Bachelors, Social Work, Colorado State University, 2001 Masters, Social Work, Colorado State University, 2005	Garrett, Andrew	Instructor	Bachelors, Environmental Health, Colorado State University, 2014 Masters, Basic Medical Sciences, Other, Colorado State University, 2017
Gaines, Todd	Associate Professor	Bachelors, Soil Sciences, Colorado State University, 2004 Masters, Colorado State University, 2006 Doctorate, Colorado State University, 2009	Garrett, Joe	Instructor	Bachelors, Metropolitan State University of Denver, 2007 Masters, University of Southern California, 2016
Galante, Larry	Instructor	Bachelors, University of Virginia, 2009 Masters, Colorado State University, 2019	Garrity, Deborah	Professor	Bachelors, Biology, General, Colorado State University, 1989 Doctorate, Molecular Biology, Cornell University, 1998
Gallagher, Grace	Assistant Professor	Bachelors, Arizona State University, 2012 Masters, Arizona State University, 2016			
Gallagher-Abbott, Kelly	Instructor				
Gallegos, Thomas	Instructor	Bachelors, College of St. Scholastica, Duluth MN, 2015 Masters, Colorado State University, 2018			

Garry, Franklyn	Professor	Bachelors, Biology, General, CORNELL UNIV, 1977 Professional, Veterinary Medicine (D.V.M.), CORNELL UNIV, 1981 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), OHIO STATE UNIV, 1987	Gensmer, Kristi	Instructor	Masters, Anthropology, Colorado State University, 2012
Garvey, Sara	Instructor	Bachelors, Psychology, General, Miami University, 2004 Masters, Clinical Psychology, The Citadel, 2008 Masters, Social Psychology, Colorado State University, 2012 Doctorate, Social Psychology, Colorado State University, 2015	Gentile, Christopher	Professor	Bachelors, Exercise Sciences/Physiology and Movement Studies, Skidmore College, 1999 Masters, Foods and Nutrition Science, University of Colorado at Boulder, 2003 Doctorate, Dietetics/Human Nutritional Services, Virginia Polytechnic Institute State University, 2006
Gates, Timothy	Professor	Bachelors, Agricultural Engin., Louisiana State University AM College, 1978 Masters, Civil Engin., General, Colorado State University, 1980 Doctorate, Civil Engin., General, University of California, Berkeley, 1988	Gentry-Weeks, Claudia	Associate Professor	Doctorate, Univ Of Oklahoma, 1985
Gavin, Bill	Associate Professor	Bachelors, Moorhead State University, 1973 Masters, University of Miami, 1977 Doctorate, Experimental Psychology, University of Miami, 1979	George, Luke	Master Instructor	Masters, Biology, General, Reed College, 1978 Masters, Biology, General, University of New Mexico, 1981 Doctorate, Biology, General, University of New Mexico, 1987
Gavin, Michael	Professor	Bachelors, Biology, General, Bowdoin College, 1995 Doctorate, Ecology, University of Connecticut, 2002	Geornaras, Gina	Professor	Doctorate, Cell and Molecular Biology, Other, University of the Witwatersrand, 2000
Geiss, Brian	Professor	Bachelors, Univ of Kansas, 1997 Doctorate, St. Louis University School of Medicine, 2002	Gerst, Katie	Assistant Professor	Bachelors, Michigan State University, 2006 Bachelors, Michigan State University, 2006 Masters, Northern Illionis University, 2009 Doctorate, Texas Tech University, 2017
Gelfand, Martin	Associate Professor	Bachelors, Physics, General, UNIV PENN, 1984 Doctorate, Physics, General, CORNELL UNIV, 1990	Ghosh, Sam	Instructor	Masters, Texas Tech University, 1997 Doctorate, Unknown, 2016
Geller, Jon	Instructor		Ghosh, Soham	Assistant Professor	Bachelors, Mechanical Engin., Jadavpor University, 2008 Masters, Mechanical Engin., Indian Institute of Techonolgy, 2010 Doctorate, Mechanical Engin., Purdue University, 2014
			Ghosh, Sudipto	Professor	Doctorate, Purdue University, 2000

Gibbons, Alyssa	Assistant Professor	Bachelors, Psychology, General, University of Evansville, 2000 Masters, Industrial and Organizational Psychology, University of Illinois, Champaign, 2003 Doctorate, Industrial and Organizational Psychology, University of Illinois, Champaign, 2007	Glick, Scott	Associate Professor	Bachelors, Accounting, University of Northern Colorado, 1982 Masters, Public Administration, University of Wyoming, 1991 Masters, Construction and Building Finishers and Managers, Other, Colorado State University, 2004 Doctorate, Education, General, Colorado State University, 2007
Giberson, Paul	Instructor	Bachelors, Colorado State University, 2001 Masters, Higher Education Administration, Colorado State, 2005	Glidewell, Kyle	Instructor	Masters, Colorado State University, 2011
Gibson, Katie	Professor	Bachelors, Loyola Marymount University, Los Angeles, 1998 Masters, California State University, Northridge, 2000 Doctorate, Pennsylvania State University, 2004	Gloeckner, Gene	Professor	Bachelors, Tech. Teacher Education/Industrial Arts Teacher Education, OHIO STATE UNIV, 1974 Masters, Industrial Design, COLO STATE UNIV, 1977 Doctorate, Tech. Teacher Education/Industrial Arts Teacher Education, OHIO STATE UNIV, 1983
Gillespie, Maria	Assistant Professor	Bachelors, Mathematics, MIT, 2010 Masters, Mathematics, Cambridge University, 2011 Doctorate, Mathematics, University of California Berkeley, 2016	Glycenfer, Frances	Senior Instructor	Masters, University of Colorado, Boulder, 1982 Bachelors, University of Colorado Boulder
Gilliland, Dave	Professor	Bachelors, University of Tennessee, 1981 Masters, Georgia State University, 1986 Doctorate, Georgia State University, 1997	Goar, Allison	Senior Instructor	Bachelors, Western Washington University, 2011 Masters, Colorado State University, 2016
Ginsberg, Ricki	Associate Professor	Doctorate, University of Connecticut, 2017	Goble, Dan	Professor	Bachelors, The University of Northern Colorado, 1983 Masters, The University of Texas at Austin, 1986 Doctorate, The University of Texas at Austin, 1993
Glantz, Mica	Professor	Bachelors, Anthropology, University of Pennsylvania, 1990 Doctorate, Anthropology, University of Pennsylvania, 1999	Goble, Patricia	Instructor	Bachelors, Music Teacher Education, University of Northern Colorado, 1983 Masters, Music - Voice and Choral/Opera Performance, New England Conservatory of Music, 2014
Gleason, Cindy	Instructor	Bachelors, Education, General, Iowa State University, 1984 Masters, Education, General, Colorado State University, 2009			

Goemans, Chris	Professor	Bachelors, Economics, General, University of Maine, 1997 Masters, Economics, General, University of Colorado, 2000 Doctorate, Economics, General, University of Colorado, 2006	Gollapudi, Aparna	Professor	Bachelors, Delhi University, 1988 Masters, Delhi University, 1991 Masters, Delhi University, 1993 Doctorate, University of Connecticut, 2006
Goes, Iasmin	Assistant Professor	Bachelors, Freie Universitat Berlin, Germany, 2012 Masters, Freie Universitat Berlin, Germany, 2015 Masters, University of Texas at Austin, 2019 Doctorate, University of Texas at Austin, 2020	Gonzalez-Juarrero, Mercedes	Professor	Bachelors, Univ Complutense de Madrid, 1982 Masters, Univ Complutense de Madrid, 1982 Doctorate, Univ Autonoma de Madrid, 1990
Goetz, Bradley	Professor	Bachelors, Landscape Architecture, COLO STATE UNIV, 1990 Masters, Landscape Architecture, HARVARD UNIV, 1992	Gonzalez-Voller, Jessica	Associate Professor	Bachelors, Psychology, General, Florida International University, 2009 Masters, Liberal Arts and Sciences/ Liberal Studies, Nova Southeastern University, 2011 Doctorate, Counselor Education Counseling and Guidance Services, University of Central Florida, 2015
Goh, Clara	Assistant Professor	Bachelors, University of Sydney, Australia, 1997 Bachelors, University of Sydney, Australia, 2002 Certificate, ACVS, 2011 Certificate, Surgical Oncology, 2011	Goodrich, Laurie	Professor	Bachelors, Pathology, Human and Animal, University of Connecticut, 1987 Doctorate, Veterinary Medicine (D.V.M.), University of Illinois, 1991 Masters, Pharmacology, Human and Animal, Virginia Tech University, 1996 Professional, Cell and Molecular Biology, Other, Cornell University, 2004
Gohl, Matt	Instructor	Bachelors, Colorado State University	Goodrum, Paul	Professor	Bachelors, Civil Engin., General, University of Washington, 1993 Masters, Civil Engin., Other, University of Texas at Austin, 1994 Doctorate, Civil Engin., Other, University of Texas at Austin, 2001
Goldsmith, Andrew	Assistant Professor	Bachelors, Temple University, 2005 Masters, Indiana University, 2007 Doctorate, Texas AM, 2015			
Goldstein, Liba	Professor	Bachelors, Biology, General, Middlebury College, 1997 Doctorate, Environmental Science/ Studies, University of California Santa Cruz, 2004			
Golicic, Susan	Professor	Bachelors, Wayne State University, 1989 Masters, University of Tennessee, 1997 Doctorate, University of Tennessee, 2003			

Gordon, Victoria	Instructor	Bachelors, Missouri State University, 1990 Masters, University of Kansas, 1993 Doctorate, University of Illinois-Springfield, 2004	Gravdahl, John	Professor	Bachelors, Graphic Design, Commercial Art and Illustration, COLO STATE UNIV, 1980 Masters, Graphic Design, Commercial Art and Illustration, SYRACUSE UNIV, 1991
Gorelik, Yerachmiel	Instructor	Masters, Kollel Menachem Rabbinical Institute, 1999	Gray, Jessica	Instructor	Masters, Social Work, Colorado State University, 2010
Gorin, Moti	Associate Professor	Doctorate, Philosophy, Rice University, 2013 Masters, University of Pennsylvania, 2015	Gray, Terry	Instructor	Doctorate, Molecular Biology, University of Oregon, 1985
Graff, Gregory	Professor	Bachelors, Cornell University, 1992 Masters, Ohio State University, 1995 Masters, University of CA, Berkley, 1999 Doctorate, University of California, Berkley, 2002	Greenough, Forest	Associate Professor	Doctorate, University of Northern Colorado, 2005
Graham, Dan	Associate Professor	Bachelors, Psychology, General, Providence College, 2003 Masters, Social Psychology, University of California Irvine, 2006 Doctorate, Psychology, General, University of California Irvine, 2009	Greves, Jason	Instructor	
Graham, James	Professor	Bachelors, Biology, General, U OF MINNESOTA, 1979 Doctorate, Pathology, Human and Animal, CORNELL UNIV, 1985	Gries, Casey	Assistant Professor	
Graham, James	Professor	Doctorate, University at Buffalo, 2006	Griffenhagen, Gregg	Assistant Professor	Professional, Unknown, 2009
Grandin, Temple	Professor	Bachelors, Psychology, General, Franklin Pierce College, 1970 Masters, Animal Sciences, General, Arizona State University, 1975 Doctorate, Animal Sciences, General, University of Illinois, 1989	Grigg, Neil	Professor	Bachelors, Military Technol., Unites States Military Academy, 1961 Masters, Water Resources Engin., Auburn University, 1965 Doctorate, Water Resources Engin., Colorado State University, 1969
Grant, Allison	Instructor		Grim, Frederique	Professor	Doctorate, French Language Teacher Education, University of Illinois at Urbana-Champaign, 2005
Grant, Dani	Instructor		Gross, Michael	Professor	Bachelors, Arizona State University, 1988 Masters, University of Southern California, 1990 Doctorate, Arizona State University, 1998
Grapes, Dawn	Associate Professor	Bachelors, Western, 1988 Masters, Colorado State University, 2008 Doctorate, University of Colorado Boulder, 2012	Grosse, Larry	Instructor	Doctorate, Texas AM University, 1987
			Gu, Mengmeng	Professor	Bachelors, Beijing Forestry University, China, 1998 Masters, Beijing Forestry University, China, 2001 Doctorate, University of Arkansas, 2006

Gudmestad, Robert	Professor	Bachelors, History, General, North Dakota State, 1987 Masters, History, General, University of Richmond, 1993 Doctorate, American (United States) History, Louisiana State Univ., 1999	Guzik, Stephen	Assistant Professor	Bachelors, Royal Military College of Canada, 1998 Masters, Laval University, 2003 Doctorate, University of Toronto, 2010
Guieu, Liz	Assistant Professor		Haddock, Shelley	Professor	Bachelors, University of Utah, 1990 Masters, Colorado State University, 1995 Doctorate, Colorado State University, 2001
Guillaumin, Julien	Associate Professor	Professional, Veterinary Medicine (D.V.M.), Nantes Veterinary School, France, 2001	Haghighi, Mehzaad	Instructor	
Guo, Tian	Assistant Professor		Hagman, Jess	Associate Professor	Bachelors, California Polytechnic Institute, San Luis Obispo, 2007 Masters, California Polytechnic Institute, San Luis Obispo, 2009 Doctorate, San Diego State University, University of California, San Diego, 2014
Guo, Yanlin	Assistant Professor	Bachelors, Southeast University, China, 2007 Masters, Hong Kong Polytechnic University, 2010 Doctorate, University of Notre Dame, 2015	Hall, Ed	Associate Professor	Bachelors, Biology, General, University of Massachusetts, Amherst, 1997 Doctorate, Ecology, University of Minnesota, 2006
Gurvich, Zhanna	Instructor	Bachelors, Clark University, 1989 Masters, Southern Methodist University, 1994	Hall, Kelly	Associate Professor	Bachelors, Chemistry, General, Lafayette College, 1992 Professional, Veterinary Medicine (D.V.M.), University of Minnesota, 1998 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), University of Minnesota School of Public Health, 2013
Gustafson, Daniel	Professor	Bachelors, Biology, General, Santa Clara University, 1987 Doctorate, Pharmacology, Human and Animal, University of Nevada, 1992	Hallahan, Kirk	Instructor	Doctorate, University of Wisconsin Madison, 1995
Gutierrez, Crystal	Instructor	Bachelors, Psychology, General, Saint Mary's College of California, 2014 Masters, Counseling Psychology, Colorado State University, 2018 Doctorate, Counseling Psychology, Colorado State University, 2020	Halseth, Annie	Instructor	
Gutierrez-Rodriguez, Eduardo	Associate Professor	Masters, University of California Davis, 2010 Doctorate, University of California Davis, 2012 Masters, University of California Davis, 2012	Halsey, Day	Senior Instructor	Bachelors, Tufts University, 2001 Masters, Auburn University, 2006
Gutilla, Molly	Associate Professor	Masters, Ohio State University, 2004 Doctorate, Unknown, 2017			

Ham, Jay	Professor	Bachelors, Agronomy and Crop Science, Kansas State Univ, 1984 Masters, Agronomy and Crop Science, Oklahoma State Univ, 1986 Doctorate, Soil Sciences, Texas A M, 1990			Doctorate, Physiology, Human and Animal, Texas AM University, 1986
Hamid, Idris	Professor	Bachelors, Physics, Other, Georgia State University, 1990 Masters, Physics, Other, University of Buffalo, New York, 1996 Doctorate, Philosophy, University of Buffalo, New York, 1998	Hanson, Lea	Instructor	Bachelors, Psychology, General, University of North dakota, 2001 Masters, Higher Education Administration, Colorado State University, 2003 Doctorate, Education Administration and Supervision, Other, Colorado State University, 2012
Hamilton, Karyn	Professor	Bachelors, Nutritional Sciences, Montana Statue University Bozeman, 1989 Masters, Exercise Sciences/Physiology and Movement Studies, Montana State University Bozeman, 1996 Doctorate, Exercise Sciences/Physiology and Movement Studies, University of Florida, 2000	Hanson, Lea	Assistant Professor	Bachelors, Psychology, General, University of North dakota, 2001 Masters, Higher Education Administration, Colorado State University, 2003 Doctorate, Education Administration and Supervision, Other, Colorado State University, 2012
Hanks, Laura	Instructor	Bachelors, University of Louisiana Lafayette, 2010 Masters, CSU College of BUsiness, 2019	Hardegree-Ullman, Emily	Associate Professor	Bachelors, University of Arizona Doctorate, Rensselaer Polytechnic Institute Masters, Rensselaer Polytechnic Institute
Hanna, Roger	Associate Professor	Bachelors, University of California at Los Angeles, 1988 Masters, New York University, 1991	Harden, Erika	Instructor	Bachelors, West Virginia Weselyan College Doctorate, Rutgers University Masters, University of Colorado@Denver
Hansen, Jeffrey	Professor	Bachelors, Biological Sciences/Life Sciences, Other, Oakland University, 1980 Doctorate, Biochemistry, University of Wisconsin-Madison, 1986	Hardy, Michelle	Instructor	Bachelors, Music, Other, Loyola University, 1995 Masters, Colorado State University, 2011
Hansen, Thomas	Professor	Bachelors, Animal Sciences, General, Colorado State University, 1980 Masters, Physiology, Human and Animal, Texas AM University, 1984	Harkless, Tricia	Instructor	
			Harman, Jennifer	Associate Professor	Bachelors, Psychology, General, CUNY Hunter College, 1996 Masters, Counseling Psychology, Columbia University, Teachers College, 1998 Doctorate, Social Psychology, University of Connecticut, 2005

Harms, Kathryn	Instructor	Bachelors, Ball State University, 2013 Masters, University of Colorado, 2016	Harry, Dennis	Professor	Bachelors, Geophysics and Seismology, Texas A M University, 1981 Masters, Geophysics and Seismology, Texas A M University, 1983 Doctorate, Geophysics and Seismology, University of Texas at Dallas, 1989
Harp, Elizabeth	Instructor	Bachelors, University of North Carolina Asheville, 2004 Doctorate, Colorado State University, 2018	Hart, Sarah	Assistant Professor	Bachelors, Environmental Science/ Studies, Mount Allison University, 2007 Masters, Geography, University of Victoria, 2009 Doctorate, Geography, University of CO Boulder, 2014
Harper, Chris	Associate Professor	Bachelors, Civil Engin., General, University of Colorado, 2005 Masters, Civil Engin., Other, University Of Colorado, 2007 Doctorate, Civil Engin., Other, University of Colorado, 2014	Harton, John	Professor	Bachelors, Physics, General, University of California, Davis, 1982 Doctorate, Elementary Particle Physics, MIT, 1988
Harris, Adam	Assistant Professor	Associates, Caldwell Community College Technical Institute, 2011 Bachelors, Zoology, General, North Carolina State University, 2013 Professional, Veterinary Medicine (D.V.M.), North Carolina State University, 2017	Harvey, Ashley	Professor	Bachelors, Florida State University, 1994 Masters, Colorado State University, 1998 Doctorate, Purdue University, 2005
Harris, Eirik	Associate Professor	Bachelors, Pomona College, 1999 Masters, University of California, San Diego, 2001 Masters, University of Michigan, 2003 Doctorate, University of Utah, 2009	Harvey, Madeline	Associate Professor	Bachelors, Dance, University of North Carolina, 2010 Masters, Dance, Jacksonville University, 2016
Harris, Mac	Assistant Professor	Bachelors, Animal Sciences, General, University of Connecticut, 2013 Professional, Veterinary Medicine (D.V.M.), North Carolina State University, 2017	Harvey, Matthew	Instructor	
Harris, Peter	Associate Professor	Bachelors, University of Edinburgh, 2008 Masters, University of London, 2009 Doctorate, University of Texas, 2015	Hassel, Diana	Professor	Bachelors, Animal Sciences, General, University of California, Davis, 1989 Professional, Veterinary Medicine (D.V.M.), University of California, Davis, 1993 Doctorate, Pathology, Human and Animal, University of California, Davis, 2003
Harrow, Del	Professor	Bachelors, Visual and Performing Arts, University of Oregon, 1999 Masters, Ceramics Arts and Ceramics, Alfred University, 2005			

Hastings, Pat	Associate Professor	Bachelors, Rice University, 2007 Bachelors, Rice University, 2007 Masters, University of California, Berkeley, 2013 Doctorate, University of California, Berkeley, 2017	Heineman, Kristin	Senior Instructor	Bachelors, University of New Mexico, 2007 Doctorate, University of Newcastle, NSW Australia, 2013
Hatzel, Jennifer	Associate Professor	Professional, Veterinary Medicine (D.V.M.), Western University, 2007 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), University of Florida, 2011	Heintz Nelson, Kris	Instructor	Masters, University of Northern Colorado, 2008
Hausermann, Heidi	Associate Professor	Doctorate, Geography, University of Arizona, 2010	Heisserer-Miller, Randyn	Assistant Professor	Bachelors, Oklahoma State University, 2005 Masters, Music - Voice and Choral/Opera Performance, New England Conservatory of Music, 2010 Masters, Library Science/Librarianship, University of Missouri - Columbia, 2020
Haussler, Kevin	Associate Professor	Bachelors, Biological Sciences/Life Sciences, Other, University of Nebraska - Lincoln, 1984 Professional, Veterinary Medicine (D.V.M.), The Ohio State University, 1988 Doctorate, Medical Pathology, University of California - Davis, 1997	Hellyer, Peter	Professor	Professional, Veterinary Medicine (D.V.M.), The Ohio State University, 1983
Havrilla, Caroline	Assistant Professor	Bachelors, Education, General, Michigan State University, 2010 Bachelors, Biology, General, University of Memphis, 2014 Doctorate, Ecology, University of Colorado Boulder, 2019	Hemming-Schroeder, Elizabeth	Assistant Professor	Bachelors, University of Wisconsin, 2013 Doctorate, University of California, 2018
Hebert, Kate	Assistant Professor	Bachelors, Psychology, General, Gonzaga University, 2013 Masters, Cognitive Psychology and Psycholinguistics, Arizona State University, 2016 Doctorate, Cognitive Psychology and Psycholinguistics, Arizona State University, 2019	Hempel, Lynn	Associate Professor	Bachelors, Syracuse University, 1987 Masters, London School of Economics, 1992 Doctorate, Duke University, 2003
Hector, Rachel	Assistant Professor	Professional, Unknown, 2012	Henao Tamayo, Marcela	Associate Professor	Professional, Medicine (M.D.), Universidad de Antioquia, 1999 Doctorate, Microbiology/Bacteriology, Colorado State University, 2009
			Hendrickson, Dean	Professor	Professional, Veterinary Medicine (D.V.M.), Colorado State University, 1988 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Cornell University, 1992
			Henke, Saffron	Associate Professor	Bachelors, University of Iowa, 1996 Masters, University of Washington, 2001
			Henle, Chris	Professor	Doctorate, Colorado State University, 2001

Henry, Chuck	Professor	Bachelors, Missouri Southern State College, 1994 Doctorate, Analytical Chemistry, University of Arkansas, 1998	Hess, Tanja	Professor	Bachelors, Veterinary Medicine (D.V.M.), Universida Federal Fluminense, 1990 Masters, Veterinary Medicine (D.V.M.), Universiade Federal Rural Do Rio De Janeiro, 1997 Doctorate, Virginia Polytechnic Institute and State University, 2005
Henry, Edward	Assistant Professor	Doctorate, Anthropology, Washington University in St. Louis	Heuberger, Adam	Associate Professor	Bachelors, University of Wisconsin-Madison, 2004 Masters, University of Wisconsin-Madison, 2008 Doctorate, Colorado State University, 2011
Henry, Kimberly	Professor	Bachelors, Health and Physical Education/Fitness, Other, Indiana University of Pennsylvania, 1994 Masters, Colorado State University, 1996 Doctorate, Health and Medical Biostatistics, The Pennsylvania State University, 2002	Heyliger, Paul	Professor	Bachelors, Civil Engin., General, Colorado State University, 1981 Masters, Civil Engin., General, Colorado State University, 1983 Doctorate, Engin. Science, Virginia Polytech Institute State University, 1986
Hentschell, Roze	Professor	Bachelors, Vassar College, 1992 Masters, Univ of CA, Santa Barbara, 1995 Doctorate, Univ of CA, Santa Barbara, 1998	Hickey, Matthew	Professor	Bachelors, Exercise Sciences/Physiology and Movement Studies, Western Carolina University, 1988 Masters, Exercise Sciences/Physiology and Movement Studies, Virginia Tech, 1990 Doctorate, Biochemistry, Ball State University, 1993
Hepburn, Susan	Professor	Bachelors, Pennsylvania State University, 1989 Masters, Vanderbilt University, 1996 Doctorate, Vanderbilt University, 2000	Hill, Megan	Assistant Professor	Doctorate, University of Florida, 2018
Herber, Daniel	Assistant Professor	Doctorate, University of Illinois at Urbana Champaign, 2017	Hines, Dean	Instructor	Bachelors, Colorado State University, 1990 Masters, Colorado State University, 2010
Herman, Alison	Assistant Professor	Doctorate, Unknown, 2018			
Herrera-Alonso, Margarita	Associate Professor	Doctorate, University of Massachusets, Amhurst, 2004			
Hess, Ann	Professor	Bachelors, Mathematics, Other, University of Hartford, 1998 Masters, Mathematical Statistics, Colorado State University, 2001 Doctorate, Mathematical Statistics, Colorado State University, 2005			

Hirchi, Mohammed	Associate Professor	Associates, Sociology, University at Rennes, France, 1987 Bachelors, French Language and Literature, Indiana University, 1991 Masters, French Language and Literature, Indiana University, 1993 Doctorate, French Language and Literature, Indiana University, 2000 Masters, Business Administration and Management, General, Colorado State University, 2002	Hoffman, Doug	Professor	Bachelors, General Marketing Operations, OHIO STATE UNIV, 1981 Masters, University of Kentucky, 1984 Doctorate, General Marketing Operations, UNIV KENTUCKY, 1987
			Hoffman, Jordan	Instructor	Bachelors, University of Missouri Columbia, 2016 Bachelors, University of Missouri Columbia, 2016 Masters, Microbiology/Bacteriology, Johns Hopkins, 2019
Hitt, Matthew	Associate Professor	Bachelors, Sociology, Colorado State University, 2007 Masters, The Ohio State University, 2011 Doctorate, The Ohio State University, 2014	Hogan, Michael	Associate Professor	Bachelors, Sociology, Univ. of Illinois, 1990 Masters, Sociology, Univ. of Illinois, 1992 Doctorate, Criminology, Florida State University, 1998
Ho, Shing	Professor	Bachelors, Chemistry, General, Franklin Marshall College, 1979 Doctorate, Biochemistry, Northwestern University, 1984	Hoke, Kim	Professor	Bachelors, Biology, General, Stanford University, 1994 Doctorate, Neuroscience, Stanford University Medical Center, 2002
Hoag, Dana	Professor	Bachelors, Farm and Ranch Management, COLO STATE UNIV, 1980 Masters, Agricultural Economics, COLO STATE UNIV, 1981 Doctorate, Agricultural Economics, WASHINGTON STATE, 1984	Hollenbeck, Eric	Professor	Bachelors, Music - General Performance, University Illinois, 1993 Masters, Music - General Performance, Kent State, 1995 Doctorate, Northwestern University, 2006
Hoerndli, Fred	Associate Professor	Doctorate, University of Zuerich, 2005 Masters, University of Lausanne	Hollinger, Reed	Professor	Bachelors, Clarkson University, 2011
Hoffman, Chad	Professor	Bachelors, Forestry Sciences, Northern Arizona University, 2003 Masters, Forestry Sciences, Northern Arizona University, 2005 Doctorate, University of Idaho, 2011	Hollinshead, Fiona	Associate Professor	Professional, Veterinary Medicine (D.V.M.), University of Sydney, Australia, 1996 Doctorate, Veterinary Clinical Sciences (M.S., Ph.D.), University of Sydney, Australia, 2004
			Hollis, Megan	Senior Instructor	Bachelors, York College, 2004 Masters, Colorado State University, 2011

Holm, David	Professor	Bachelors, Plant Sciences, General, UNIV OF IDAHO, 1972 Masters, Plant Sciences, General, UNIV OF IDAHO, 1974 Doctorate, Horticulture Services Operations and Management, General, U OF MINNESOTA, 1977	Hufbauer, Ruth	Professor	Bachelors, University of California, Berkeley, 1991 Doctorate, Entomology, Cornell University, 1999
Holt, Timothy	Professor	Bachelors, Chemistry, General, Fort Lewis College, 1980 Professional, Veterinary Medicine (D.V.M.), Colorado State University, 1988	Huff, Alyson	Instructor	Bachelors, Philosophy, Saint Cloud State University, 2002 Masters, Philosophy, Colorado State University, 2005
Holz, Leah	Instructor	Doctorate, University of Colorado Boulder, 2018	Hughes, Kelly	Assistant Professor	Bachelors, Biochemistry, University of Colorado - Boulder, 2005 Professional, Veterinary Medicine (D.V.M.), Western University of Health Sciences, 2011 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Oregon State University, 2014
Hoppers, Sarrah	Assistant Professor		Hughes, Kit	Associate Professor	Bachelors, Art History, Criticism and Conservation, Bucknell University, 2006 Masters, University of Texas at Austin, 2009 Doctorate, University of Michigan - Madison, 2015
Horton, Kyle	Assistant Professor	Bachelors, Biology, General, Canisius College, 2011 Masters, Wildlife and Wildlands Management, University of Delaware, 2013 Doctorate, Ecology, University of Oklahoma, 2017	Hughes, Shannon	Associate Professor	Bachelors, Social Work, Florida State University, 2002 Masters, Social Work, Florida State University, 2004 Doctorate, Social Work, Florida International University, 2010
Howard, Lahoma	Instructor	Masters, CSU, 2012	Hulpke, Alexander	Professor	Doctorate, Mathematics, RWTH Aachen, 1996
Hoxmeier, Charlie	Assistant Professor		Humphrey, Michael	Assistant Professor	Bachelors, William Jewell College, 1991 Masters, New York University, 2010 Doctorate, Colorado State University, 2017
Hoxmeier, John	Associate Professor	Bachelors, Management Science, U OF NEB - LINC, 1977 Masters, Management Information Systems and Business Data Processing, CO STATE UNIV, 1978 Doctorate, Business, General, UNIV CO - BOULD, 1994	Hung, Victor	Instructor	Masters, Colorado State University, 2009
Hoyer, Naomi	Assistant Professor	Bachelors, Biology, General, Mount Holyoke College, 1997 Professional, Veterinary Medicine (D.V.M.), Colorado State University, 2002	Hupfer, Levon	Instructor	
Huang, Dongzhou	Assistant Professor	Bachelors, University of Science and Technology of China, 2016 Doctorate, Rice University, 2022			

Hurrell, Jim	Professor	Bachelors, Earth and Planetary Sciences, University of Indianapolis, 1984 Masters, Atmospheric Sciences and Meteorology, Purdue University, 1986 Doctorate, Atmospheric Sciences and Meteorology, Purdue University, 1990	Hyatt, Doreene	Professor	Bachelors, Point Loma Nazarene College, 1989 Certificate, Point Loma Nazarene College, 1989 Doctorate, Microbiology/Bacteriology, University of Arizona, 1996
Huseby, Medora	Associate Professor	Bachelors, Biochemistry, University of Minnesota, 2004 Bachelors, Chemistry, General, Institute of Technology Univ of Minnesota, 2004 Doctorate, Biochemistry, University of Minnesota, 2009	Hyllegard, Karen	Professor	Bachelors, Spanish Language and Literature, William Smith College, 1985 Masters, Fashion Merchandising, Oregon State University, 1989 Doctorate, Clothing/Apparel and Textile Studies, University of Maryland, 1998
Hutcheson, Kathy	Senior Instructor	Bachelors, Exercise Sciences/Physiology and Movement Studies, University of Manitoba, 1985 Masters, Exercise Sciences/Physiology and Movement Studies, Northern Arizona University, 1987 Doctorate, Exercise Sciences/Physiology and Movement Studies, University of Northern Colorado, 1997	Inzer, Lonnie	Instructor	Bachelors, Parks, Recreation, Leisure and Fitness Studies, Other, Colorado State University, 1981 Masters, Public Relations and Organizational Communications, Fort Hays State University, 2004
Hutchins, Zach	Professor	Bachelors, Brigham Young University, 2005 Masters, University of North Carolina at Chapel Hill, 2008 Doctorate, University of North Carolina at Chapel Hill, 2010	Irvin, Maurice	Senior Instructor	Masters, Colorado State University, 2015
Huyvaert, Kate	Instructor	Bachelors, Biology, General, Wake Forest University, 1995 Masters, Biology, General, Wake Forest University, 1999 Doctorate, Biology, General, University of Missouri, 2004	Iverson, Terry	Professor	Bachelors, Rice University, 1998 Masters, University of Wisconsin - Madison, 2006 Doctorate, University of Wisconsin-Madison, 2009
Huzieff, Julia	Senior Instructor	Bachelors, University of Brest, France, 2002 Masters, University of Brest / University of Aix-Marseille III, France, 2004	Ivie Jr, Kenny	Senior Instructor	Bachelors, Basic Medical Sciences, Other, Colorado State University, 2011 Masters, Basic Medical Sciences, Other, Colorado State University, 2012
			Jablonski, Becca	Associate Professor	Bachelors, History, General, Cornell University, 2003 Masters, Univ of London, 2007 Doctorate, City/Urban, Community and Regional Planning, Cornell University, 2014
			Jackson, Heather	Senior Instructor	

Jackson, Jessica	Associate Professor	Masters, University of California, Santa Cruz, 2013 Doctorate, University of California, Santa Cruz, 2017
Jackson, Mary	Professor	Masters, Medical Biochemistry, ENSA - Rennes - France, 1994 Doctorate, Biochemistry, ENSA - Rennes - France, 1998
Jacobi, Bonnie	Associate Professor	Bachelors, Mount Holyoke College, 1991 Masters, University of Texas, 1995 Doctorate, University of Houston, 2001
Jacobi, Tobi	Professor	Bachelors, Univ. of WI at Steven Point, 1995 Masters, Univ. of IL at Chicago, 1998 Professional, Syracuse University, 2003
Jacobsen, Jaime	Assistant Professor	Masters, Montana State University, 2008 Doctorate, Montana State University
Jaggers, Keith	Instructor	Bachelors, Political Science, General, University of Michigan, 1986 Doctorate, Political Science, General, University of Colorado, 1996
Janssens, Brandan	Assistant Professor	Professional, University of Pretoria
Jarrett, Jordan	Assistant Professor	Bachelors, Structural Engin., Colorado State University, 2007 Masters, Structural Engin., Colorado State University, 2009 Doctorate, Structural Engin., Virginia Tech, 2013
Jathar, Shantanu	Associate Professor	Bachelors, Govt. College of Engineering, India, 2004 Masters, University of Minnesota, 2007 Doctorate, Carnegie Mellon University, 2012

Jayanty, Sastry	Professor	Bachelors, Chemistry, General, Andhra University, 1988 Masters, Biochemistry, Allahabad University, 1992 Doctorate, Molecular Biology, Pune University, 1998
Jayasumana, Anura	Professor	Bachelors, Electrical, Electronics and Communication Engin., U ON SRILANKA, 1978 Masters, Electrical, Electronics and Communication Engin., MICHIGAN ST, 1982 Doctorate, Electrical, Electronics and Communication Engin., MICHIGAN ST, 1984
Jeckel, Kimberly	Assistant Professor	Bachelors, Psychology, Other, University of California San Diego, 1993 Masters, Dietetics/ Human Nutritional Services, Colorado State University, 1998 Doctorate, Basic Medical Sciences, Other, Colorado State University, 2005
Jennings, Louise	Professor	Bachelors, Psychology, General, Bates College, 1984 Masters, Educational/ Instructional Media Tech./Technician, Harvard University, 1987 Doctorate, Education, General, University of California - Santa Barbara, 1996
Jensen, Wayne	Professor	Professional, Veterinary Medicine (D.V.M.), Colorado State University, 1984 Doctorate, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 1991 Masters, Business Administration and Management, General, Colorado State University, 2005

Jetley, Gaurav	Assistant Professor	Bachelors, Saint Mary's University, 2012 Masters, University of South Florida, 2016 Doctorate, University of South Florida, 2020	Johnson, Sarah	Instructor	Bachelors, St. Olaf College, 1978 Bachelors, University of Minnesota, 1983 Masters, Colorado State University, 1989
Jia, Gaofeng	Associate Professor	Bachelors, Beijing Jiaotong University, 2007 Masters, Beijing Jiaotong University, 2009 Doctorate, University of Notre Dame, 2014	Johnson, Sarah	Associate Professor	Doctorate, Florida State University, 2013 Bachelors, University of Vermont Masters, Florida State University
Johannes, Chad	Associate Professor	Bachelors, University of Nebraska, 1993 Professional, Kansas State University, 1997	Johnson, Thomas	Professor	Bachelors, Industrial/Manufacturing Tech./Technician, Southern Illinois University, 1989 Masters, Business Administration and Management, General, University of Illinois, Chicago, 1991 Masters, Environmental/Environmental Health Engin., Northwestern University, 1993 Doctorate, Health Physics/Radiologic Health, Purdue University, 1998
Johnson, Ben	Instructor	Bachelors, Industrial/Manufacturing Tech./Technician, Colorado State University, 1995 Masters, Industrial/Manufacturing Tech./Technician, Colorado State University, 1997	Johnson, Zachary	Professor	Bachelors, Landscaping Operations and Management, Colorado State University, 1993 Masters, Landscape Architecture, University of Colorado at Denver, 2003
Johnson, Brett	Professor	Bachelors, Zoology, General, U OF WISCONSIN, 1983 Masters, Zoology, General, OHIO STATE UNIV, 1986 Doctorate, Zoology, General, U OF WISCONSIN, 1993	Johnston, Derek	Professor	Bachelors, McDaniel College, 1993 Masters, American University, 1997 Doctorate, University of Colorado at Boulder, 2001
Johnson, Emily	Instructor	Masters, Colorado State University, 2012 Doctorate, Colorado State University, 2017 Bachelors, Iowa State University	Johnston, Matthew	Professor	Bachelors, Biology, General, John Carroll University, 1995 Professional, Veterinary Medicine (D.V.M.), University of Pennsylvania, 1999
Johnson, Erik	Associate Professor	Bachelors, University of Colorado, 2001 Masters, University of Southern Oregon, 2004 Masters, University of Colorado, Boulder, 2007 Doctorate, University of Colorado, 2013	Johnston, Price	Associate Professor	Bachelors, Mesa State College, 2002 Masters, University of Florida, 2005
Johnson, Merrill	Professor	Bachelors, West Texas State University, 1974 Masters, Arizona State University, 1977 Doctorate, University of Georgia, 1981			

Jones, Kelly	Associate Professor	Bachelors, Biology, General, Meredith College, 2000 Masters, Natural Resources Management and Policy, North Carolina State University, 2005 Doctorate, Forestry and Related Sciences, Other, University of Wisconsin, 2011	Kaiser, Leann	Associate Professor	Bachelors, Hospitality and Recreation Marketing Operations, General, University of Wyoming, 1999 Masters, Hospitality and Recreation Marketing Operations, General, Arizona State University, 2000 Doctorate, Adult and Continuing Teacher Education, University of Wyoming, 2008
Jones, Tiffany	Assistant Professor	Masters, Social Work, Loyola Marymount University, 2014 Masters, Social Work, University of Washington, 2016 Doctorate, Social Work, University of Washington, 2018	Kampf, Stephanie	Professor	Bachelors, Geological Sciences, Other, Williams College, 1998 Masters, Geological Sciences, Other, University of Nevada, Reno, 2002 Doctorate, Civil Engin., General, University of Washington, 2006
Jordan, Erin	Instructor	Bachelors, Grinnell College, 1993 Masters, University of Iowa, 1995 Doctorate, University of Iowa, 2000	Kanatous, Shane	Professor	Bachelors, Marine/Aquatic Biology, L.I.U. at Southampton, 1990 Doctorate, Exercise Sciences/Physiology and Movement Studies, Texas A M University, 1997
Jordan, Taylor	Instructor	Bachelors, Hastings College, 2014 Masters, Colorado State University, 2020	Kang, Soo	Professor	Bachelors, Teaching English as a Second Language/Foreign Language, Wonkwang Univ. South Korea, 1996 Masters, Hospitality/Administration Management, Kansas State University, 1999 Doctorate, Hospitality and Recreation Marketing Operations, General, Kansas State University, 2002
Juul, Jamie	Assistant Professor	Doctorate, Mathematics, University of Rochester, 2015	Kannan, Bharad	Assistant Professor	Bachelors, Delhi University, India, 2008 Masters, Christ University India, 2010 Doctorate, University of Colorado, Boulder, 2016
Kading, Rebekah	Associate Professor	Bachelors, Entomology, University of Delaware, 2000 Masters, Entomology, University of Arkansas, 2002 Doctorate, Molecular Biology, Johns Hopkins Bloomberg School of Public Health, 2007			
Kahwaji, Omar	Instructor	Masters, Colorado State University, 2011			

Kanno, Yoichiro	Associate Professor	Bachelors, Law (LL.B., J.D.), Meiji University, Japan, 2000 Masters, Environmental Science/Studies, Dalhousie University, Canada, 2002 Doctorate, Natural Resources Management and Policy, University of Connecticut, 2010	Kawcak, Christopher	Professor	Bachelors, Pre-Veterinary Studies, University of Nevada-Reno, 1988 Professional, Veterinary Medicine (D.V.M.), Colorado State University, 1991 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 1995 Doctorate, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 1998
Kaplan, Andee	Assistant Professor	Masters, Mathematics, University of Texas Austin, 2010 Masters, Mathematical Statistics, Iowa State University, 2014 Doctorate, Mathematical Statistics, Iowa State University, 2017	Keaton, Ajhanai	Instructor	Bachelors, Colorado State University, 2015 Masters, University of Texas at Austin, 2017 Doctorate, University of Connecticut, 2021
Karkhoff-Schweizer, Roxann	Associate Professor	Bachelors, Bemidjii State University, 1981 Doctorate, University of North Dakota, Grand Forks, ND, 1988	Keiser, Kurt	Instructor	Bachelors, Fire Science/Firefighting, Southern Illinois University, 1995
Karoly, Hollis	Assistant Professor	Bachelors, Biological and Physical Sciences, University of Pennsylvania, 2010 Masters, Psychology, General, University of Colorado at Boulder, 2013 Doctorate, Psychology, General, University of Colorado at Boulder, 2018	Keller, Kayleigh	Assistant Professor	Bachelors, Emory University Doctorate, University of Washington Masters, University of Washington
Kasser, Jeff	Associate Professor	Bachelors, Philosophy, University of Michigan, 1987 Doctorate, Philosophy, University of Michigan, 1999	Kelly, Eugene	Professor	Bachelors, Range Science and Management, COLO STATE UNIV, 1980 Masters, Agronomy and Crop Science, COLO STATE UNIV, 1984 Doctorate, Soil Sciences, UNIV OF CALIFOR, 1989
Kato, Takamitsu	Associate Professor	Doctorate, Molecular Biology, Colorado State University, 2006	Kelp, Nicole	Assistant Professor	Bachelors, Biochemistry, Washington State university, 2014 Bachelors, Cell Biology, Washinton State University, 2014 Doctorate, Medical Molecular Biology, Washington State University, 2017
Kavadia, Hemant	Instructor	Bachelors, Dhirubhai Ambani Institute, Gujarat India, 2008 Masters, University of Florida, Gainesville, 2009	Kennan, Alan	Associate Professor	Bachelors, Cornell University, 1991 Doctorate, University of Wisconsin, Madison, 1997

Kennedy, Alexis	Assistant Professor	Bachelors, Rutgers University, 2009 Masters, Rutgers University, 2012	Kim, James	Associate Professor	Bachelors, Music Teacher Education, University of Southern California, 1994 Masters, Music - Voice and Choral/Opera Performance, University of Southern California, 1996 Doctorate, Music - Voice and Choral/Opera Performance, University of Cincinnati, 2003
Kennedy, Jack	Instructor	Masters, University of Iowa, 1981 Bachelors, University of Iowa	Kim, Jangyul	Associate Professor	Bachelors, English Literature (British and Commonwealth), Sogang University, 1986 Masters, Public Relations and Organizational Communications, Sogang University, 1995 Doctorate, Mass Communications, University of Florida, 2005
Kent, Suzanne	Associate Professor	Bachelors, Anthropology, University of Colorado, Boulder, 1994 Masters, Anthropology, Michigan State University, 2005 Doctorate, Anthropology, Michigan State University, 2008	Kim, Joon	Professor	Bachelors, Sociology, New School for Social Research, 1992 Masters, Sociology, Univ. California, Berkeley, 1994 Doctorate, Sociology, Univ. California, Berkeley, 1999
Kesikli, Egemen	Instructor	Bachelors, St Olaf College, 2012 Masters, University of Texas at Austin, 2014 Doctorate, University of Colorado, Boulder, 2017	Kim, Kyeoung Hee	Senior Instructor	Bachelors, Kyongsang University, 1995 Masters, Shimane university, 1999
Keys, Pat	Assistant Professor	Bachelors, Willamette University, 2005 Masters, University of Washington, 2010 Doctorate, Stockholm University, 2016	Kim, Seonah	Associate Professor	Doctorate, University of Florida
Khakhar, Arjun	Assistant Professor	Bachelors, John Hopkins Doctorate, University of Washington	Kim, Seonil	Associate Professor	Doctorate, New York University, 2011 Bachelors, Chung-Ang University (Seoul Korea) Masters, University of Georgia
Khrebtan-Hoerhager, Julia	Associate Professor	Masters, Univ of Zhytomyr, Ukraine, 2001 Masters, University of Stuttgart, Germany, 2006 Doctorate, University of Denver, 2011	Kim, Youngsung	Assistant Professor	Bachelors, Handong Global University, 2008 Masters, Seoul National University, 2015 Doctorate, University at Albany, State University of New York, 2020
Kiehne, Elizabeth	Assistant Professor	Bachelors, Arizona State University, 2010 Masters, Social Work, Arizona State University, 2014 Doctorate, Social Work, Arizona State University, 2019			
Killingsworth, John	Associate Professor	Bachelors, University of Nebraska, 2010 Masters, University of Nebraska, 2012 Doctorate, University of Nebraska, 2014			

King, Amanda	Instructor	Bachelors, Colorado State University, 2000 Certificate, Texas Christian University, 2019	Kirch, Brett	Assistant Professor	Bachelors, Animal Sciences, General, Univ of Nebraska, 1984 Masters, Agricultural Animal Nutrition, Kansas State Univ, 1989 Doctorate, Agronomy and Crop Science, University of Nebraska-Lincoln, 1995 Professional, Veterinary Medicine (D.V.M.), Iowa State University, 2003
King, Emily	Associate Professor	Bachelors, Applied Mathematics, General, Texas AM University, 2003 Masters, Mathematics, Texas AM University, 2005 Doctorate, Mathematics, University of Maryland, 2009	Kissell, Kevin	Assistant Professor	Bachelors, Art History, Criticism and Conservation, Colorado State University, 1997 Masters, Clothing/Apparel and Textile Studies, Colorado State University, 2000 Masters, Fiber, Textile and Weaving Arts, Colorado State University, 2008
King, Melissa	Associate Professor	Professional, Veterinary Medicine (D.V.M.), Colorado State University, 1997 Doctorate, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 2011	Kitchens, John	Senior Instructor	Masters, Louisiana State University, 1999 Doctorate, University of North Carolina, Chapel Hill, 2007 Masters, Northern Arizona University, 2013
Kinkel, Traci	Instructor	Bachelors, Colorado State University, 2003 Doctorate, University of Texas Southwestern Medical Center, 2008	Klein, Julia	Professor	Bachelors, Political Science, General, Cornell University, 1990 Masters, University of California Berkeley, 1995 Doctorate, University of California Berkeley, 2003
Kinner, Scott	Instructor	Bachelors, Anderson University, 2002 Masters, Colorado State University, 2008	Klein, Michael	Instructor	
Kinnett, Seth	Instructor	Bachelors, DePauw University, 2005 Masters, Illinois Institute of Technology, 2009 Doctorate, DePaul University, 2023	Knapp, Alan	Professor	Bachelors, Biology, General, Idaho State University, 1978 Masters, Botany, General, University of Wyoming, 1981 Doctorate, Botany, General, University of Wyoming, 1988
Kipper, Matt	Professor	Bachelors, Iowa State University, 2000 Doctorate, Iowa State University, 2004	Knarvik, Nyssa	Assistant Professor	Bachelors, St Lawrence University, 2007 Masters, University of Albany, 2010
Kirby, Michael	Professor	Bachelors, Mathematics, MA INST OF TECH, 1984 Masters, Mathematics, BROWN UNIV, 1986 Doctorate, Mathematics, BROWN UNIV, 1988			
Kirby, Rachel	Associate Professor	Bachelors, Oberlin College, 1987 Masters, Washington University, 1990 Doctorate, Washington University, 1995			

Knight, Andrew	Associate Professor	Bachelors, University of Wisconsin - La Crosse, 2002 Masters, University of Minnesota, 2006 Doctorate, University of North Dakota, 2013	Koenig, Gwen	Instructor	Bachelors, Social Work, University of Cincinnati, 1993 Masters, Social Work, University of Cincinnati, 1994
Knight, David	Assistant Professor	Bachelors, Spanish Language Teacher Education, Purdue University, 2001 Masters, Curriculum and Instruction, University of Colorado-Boulder, 2005 Doctorate, Natural Resources Management and Policy, Colorado State University, 2015	Kogan, Lori	Professor	Bachelors, Psychology, General, Avila College, 1991 Masters, Experimental Psychology, Colorado State University, 1997 Doctorate, Counseling Psychology, Colorado State University, 2002
Knight, John	Instructor	Bachelors, Chemistry, Other, Eastern New Mexico University, 1979 Masters, Education, Other, Colorado State University, 2003	Kokoska, Mary-Ann	Professor	Bachelors, Fine/Studio Arts, Queen's University, 1982 Masters, Concordia University, 1991
Knight-Baughman, Rebekah	Instructor	Bachelors, Psychology, General, California State University, Fullerton, 1996 Masters, Clinical Psychology, Fuller Graduate School of Psychology, 2000 Masters, Theology/Theological Studies, Fuller Theological Seminar, 2003 Doctorate, Clinical Psychology, Fuller Graduate School of Psychology, 2005	Kokoszka, Piotr	Professor	Masters, Applied Mathematics, General, Wtoclav Poltechnic, 1988 Doctorate, Applied Mathematics, General, Wtoclav Polytechnic, 1990 Doctorate, Mathematics, Boston University, 1993
Knobloch, Katie	Associate Professor	Bachelors, Manship School of Mass Communication, Louisiana State U, 2005 Masters, Manship School of Mass Communication, Louisiana State U, 2008 Doctorate, Communications, General, University of Washington, 2012	Komarek, Tim	Associate Professor	
Kodrich, Kris	Associate Professor	Doctorate, Indiana University, 2000	Koons, David	Professor	Bachelors, Biology, General, Montana State University, 1998 Masters, Fishing And Fisheries Sciences and Management, Montana State University, 2001 Doctorate, Wildlife and Wildlands Management, Auburn University, 2005
			Koontz, Stephen	Professor	Bachelors, Agricultural Economics, Virginia polytechnic Institute State University, 1983 Masters, Agricultural Economics, Virginia Polytechnic Inst State University, 1985 Doctorate, Univ of Illinois @ Champaign Urbana, 1991
			Kopel, Philip	Assistant Professor	Masters, Mathematics, Tulane, 2010 Doctorate, Mathematics, UC Davis, 2016

Korostyshevsky, David	Instructor	Masters, University of New Mexico, 2014 Doctorate, University of Minnesota, 2021 Doctorate, University of Minnesota, 2021 Bachelors, University of New Mexico Bachelors, University of Toledo	Krapf, Diego	Professor	Bachelors, Hebrew University of Jerusalem, 1997 Masters, Hebrew University of Jerusalem, 2000 Doctorate, Hebrew University of Jerusalem, 2004
Korpics, Franco	Instructor		Kreidenweis, Sonia	Professor	Bachelors, Chemical Engin., MANHATTAN COLL, 1983 Masters, Chemical Engin., CAL INST TECH, 1985 Doctorate, Chemical Engin., CAL INST TECH, 1989
Korytova Magstadtova, Stepanka	Instructor	Bachelors, University of Southampton, UK Doctorate, Charles University, Prague, CZ Masters, University of Nebraska	Kreider, Jodie	Senior Instructor	Bachelors, Colorado State University, 2001 Masters, Washington University - St Louis, 2004 Doctorate, University of Arizona, 2008
Koski, Anthony	Professor	Bachelors, Biology, General, KNOX COLLEGE, 1979 Masters, Agronomy and Crop Science, OHIO STATE UNIV, 1983 Doctorate, Agronomy and Crop Science, OHIO STATE UNIV, 1986	Kreutz, Robert	Instructor	Bachelors, Music Teacher Education, Colorado State University, 1994 Masters, Music Conducting, University of Denver, 1998
Koslovsky, Matt	Assistant Professor	Bachelors, Mathematics, The University of Texas, 2011 Doctorate, Biostatistics, The University of Texas Health Science Center, 2016	Krieg, Annie	Senior Instructor	Bachelors, Lawrence University, 2001 Masters, University of Pittsburgh, 2004 Doctorate, University of Pittsburgh, 2010
Koza, Jenn	Instructor	Bachelors, Chadron State, 2004 Masters, Chadron State, 2007 Certificate, Walden University, 2016	Krishnaswamy, Nikhil	Assistant Professor	Bachelors, DePaul University, 2010 Masters, Brandeis University, 2013 Doctorate, Brandeis University
Koza, Rick	Instructor	Masters, Chadron State College, 1982 Masters, Chadron State College, 1992 Doctorate, University of Wyoming, 1999	Kroll, Stephan	Professor	Bachelors, Mathematics, Other, University of Dortmund (Germany), 1991 Masters, Economics, General, Univ of Wyoming, 1996 Doctorate, Economics, General, Univ of Wyoming, 1999
Krafchick, Jen	Professor	Bachelors, Drexel University, 1992 Masters, CSU, 2003 Certificate, Colorado State University, 2004 Doctorate, Individual and Family Development Studies, Other, Colorado State University, 2007	Krueger, Michael	Instructor	Bachelors, Colorado State University, 1995 Professional, Lewis Clark College, 2002

Krukowski, Kipp	Instructor	Bachelors, Youngtown State University, 1999 Masters, Carnegie Mellon University, 2001 Doctorate, Oklahoma State University, 2019	LaGasse, Blythe	Professor	Bachelors, University of Kansas, 2001 Masters, Colorado State University, 2004 Doctorate, University of Kansas, 2009
Krummel, Amber	Associate Professor	Bachelors, Portland State University, 2001 Doctorate, Chemistry, General, University of Wisconsin - Madison, 2007	Lajarin-Encina, Aitor	Assistant Professor	Bachelors, University of Basque, 2002 Masters, University of California, 2015
Kuhnen, Kevin	Instructor	Bachelors, Colorado State University, 2006 Masters, Colorado State University, 2017	Lamb, Michael	Instructor	Masters, University of Alaska Anchorage, 2011
Kummerow, Christian	Professor	Certificate, U OF CA, BERK, 1982 Doctorate, U OF MN, 1987	Lambert, Cei	Instructor	Masters, Colorado State University, 2015
Kutcher, Ben	Instructor		Lana, Susan	Professor	Professional, Veterinary Medicine (D.V.M.), Colorado State University, 1993 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 1997
Kutcher, Lisa	Professor	Bachelors, Chapman University, 1995 Doctorate, University of Colorado, 1999	Landers, Stu	Instructor	Bachelors, History, General, University of North Florida, 1990 Certificate, Teaching English as a Second Language/Foreign Language, Univ of Cambridge/Aust TESOL Training CTR, 2001 Masters, Teaching English as a Second Language/Foreign Language, Monterey Inst of Int'l Studies, 2004
Kutz, Mesa	Instructor	Bachelors, University of Arkansas, 2021	Landfester, Petra	Associate Professor	Bachelors, University of Northern Colorado, 2001 Masters, Colorado State University, 2003 Certificate, University of Colorado Boulder, 2010 Doctorate, UC Boulder, 2012
Kwiatkowski, Lynn	Professor	Bachelors, Anthropology, Univ of Massachusetts, Amherst, 1983 Masters, Anthropology, Univ of California, Berkeley, 1989 Doctorate, Anthropology, Univ of California, Berkeley, 1994			
Kwon, Jain	Assistant Professor	Bachelors, YeonGyung-Dahng, Changdeokgung Palace, 1995 Masters, Fine Arts and Art Studies, Other, Ewha Women's University, Seoul, Korea, 1998 Doctorate, University of Minnesota, 2010			
L'Orange, Christian	Associate Professor	Bachelors, Colorado State University, 2008 Masters, Colorado State University, 2009 Doctorate, Colorado State University, 2013			
La Belle, Jason	Professor	Doctorate, Anthropology, Southern Methodist University, 2005			

Landolt, Gabriele	Professor	Professional, Veterinary Medicine (D.V.M.), University of Zurich, Switzerland, 1993 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), University of Zurich, Switzerland, 1995 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), University of Wisconsin-Madison, 2000 Doctorate, Virology, University of Wisconsin-Madison, 2005	Lappin, Michael	Professor	Bachelors, Veterinary Medicine (D.V.M.), OKLA ST UN, 1977 Professional, Veterinary Medicine (D.V.M.), OKLA ST UN, 1981 Doctorate, Parasitology, UNIV GEORGIA, 1988
			LaQuatra, Jeff	Senior Instructor	Bachelors, Music - General Performance, The Cleveland Institute of Music, 1992 Masters, Music - General Performance, University of Denver, 1995
			Lark, Dan	Assistant Professor	Doctorate, East Carolina University, 2014
Lane, Shelly	Professor	Bachelors, The Ohio State University, 1975 Doctorate, UTHSC-SA, 1984	LaRocca, Tom	Assistant Professor	Doctorate, University of Colorado - Boulder, 2012
Lange, Alex	Assistant Professor	Masters, College/Postsecondary Student Counseling and Personnel Services, The University of Georgia, 2014 Bachelors, Liberal Arts and Sciences/Liberal Studies, Florida Atlantic University, 2021 Doctorate, Education Administration and Supervision, General, University of Iowa, 2021	Larsen, David	Instructor	Masters, Colorado State University, 2007
			LaRue, Susan	Professor	Professional, Veterinary Medicine (D.V.M.), U OF GEORGIA, 1977 Masters, Surgical/Operating Room Technician, COLO STATE UNIV, 1986 Doctorate, Radiation Biology/Radiobiology, COLO STATE UNIV, 1992
Langstraat, Lisa	Associate Professor	Bachelors, Southern Illinois Univ. at Edwardsville, 1985 Masters, Southern Illinois Univ. at Edwardsville, 1987 Doctorate, Purdue University, 1996	Latham, Monica	Assistant Professor	Bachelors, Liberal Arts and Sciences/Liberal Studies, Utah State University, 1994 Masters, Library Science/Librarianship, Emporia State, 2016
Lanning, Shari	Assistant Professor	Professional, Unknown, 2006	Lavoie, Anna	Assistant Professor	Bachelors, Biology, General, University of Massachusetts Boston, 2003 Masters, Biology, General, University of Massachusetts Boston, 2007 Doctorate, Geography, Texas AM, 2015
Lanz, Megan	Senior Instructor	Bachelors, Music, General, University of North Texas, 2004 Masters, Music, General, University of Nevada Las Vegas, 2006 Doctorate, Music Teacher Education, University of Nevada Las Vegas, 2010	Laybourn, Paul	Professor	Bachelors, Biology, General, U OF CALIFORNIA, 1981 Doctorate, Biochemistry, U OF CALIFORNIA, 1989

Layden, Paul	Master Instructor	Bachelors, Recreation Products/Services Marketing Operations, Colorado State University, 1991 Masters, Recreation Products/Services Marketing Operations, Colorado State University, 1998	Lebsock, Steph	Instructor	Bachelors, Colorado State University, 2012 Bachelors, Colorado State University, 2012 Masters, University of South Dakota, 2018
Leach, Heather	Associate Professor	Bachelors, Exercise Sciences/Physiology and Movement Studies, University of South Alabama, 2005 Masters, Exercise Sciences/Physiology and Movement Studies, University of Texas at Arlington, 2008 Doctorate, Exercise Sciences/Physiology and Movement Studies, University of Houston, 2013	Leck, Emily	Instructor	
Leach, Jan	Professor	Bachelors, Microbiology/Bacteriology, UNIVERSITY OF NEBRASKA, LINCOLN, 1975 Masters, Microbiology/Bacteriology, UNIVERSITY OF NEBRASKA, LINCOLN, 1977 Doctorate, Plant Pathology, University of Wisconsin, Madison, 1981	Lee, Debbie	Assistant Professor	Bachelors, Stanford University, 2011 Doctorate, Emory University, 2018
Lear, Kevin	Professor	Bachelors, Electrical, Electronics and Communication Engin., UNIV COLO BOULD, 1984 Masters, Electrical, Electronics and Communication Engin., STANFORD UNIV, 1985 Doctorate, Electrical, Electronics and Communication Engin., STANFORD UNIV, 1990	Lee, Juhyun	Instructor	Bachelors, Hoseo University, 2007 Masters, Bard College, 2014 Doctorate, Arizona State University, 2019
Leary, Del	Associate Professor	Doctorate, Medical Physics/Biophysics, Dalhousie University, 2013	Lee, Julia	Assistant Professor	Bachelors, Ewha Womans University, 2004 Masters, Yonsei University, 2007 Doctorate, University of California, Los Angeles, 2015
			Lee, Kim	Instructor	Bachelors, Texas State University, 1989 Masters, Texas State University, 1994 Doctorate, University of Incarnate Word, 2014
			Lee, Sanghun	Assistant Professor	Bachelors, Inha University, 1997 Masters, Inha University, 1999 Doctorate, University of Illinois at Urban Champaign, 2005
			Lee, Wendy	Instructor	Bachelors, Individual and Family Development Studies, General, Colorado State University, 1994 Masters, Social Work, Colorado State University, 2007 Certificate, Unknown, 2008
			Lehene, Marius	Professor	Bachelors, Economics, General, Babes-Bolyai University, 1996 Masters, Fine/Studio Arts, Southern Methodist University, 2001

Leisz, Steve	Professor	Bachelors, American Studies/Civilization, Georgetown University, 1986 Masters, Environmental Science/Studies, University of Wisconsin-Madison, 1996 Doctorate, Geography, University of Copenhagen, 2007			
Leslie, Drew	Associate Professor	Bachelors, The University of Michigan, 2002 Masters, Manhattan School of Music, 2004 Doctorate, University of Texas at Austin, 2009			
Lessor, Edward	Master Instructor	Bachelors, University of Chicago, 1989 Masters, Florida State University, 2002			
Levalley, Steve	Professor	Bachelors, Animal Sciences, General, COLO STATE UNIV, 1976 Masters, Agricultural Animal Breeding and Genetics, COLO STATE UNIV, 1978 Doctorate, COLORADO STATE UNIVERSITY, 1999			
Levinger, Nancy	Professor	Bachelors, Physics, Other, NORTHWESTERN UNIVERSITY, 1983 Doctorate, Chemical and Atomic/Molecular Physics, UNIVERSITY OF COLORADO BOULDER, 1990			
Lewis, Angela	Assistant Professor	Bachelors, Social Sciences, General, University of Northern Colorado, 2000 Masters, Curriculum and Instruction, University of Wyoming, 2007 Doctorate, Curriculum and Instruction, University of Wyoming, 2016			
Lewis, Howard	Instructor	Bachelors, Parks, Recreation and Leisure Studies, Colorado State University, 1980 Masters, Occupational Safety and Health			
					Tech./Technician, West Virginia University, 1983 Doctorate, Curriculum and Instruction, University of Southern California, 1992
Lewis, Megan	Associate Professor	Bachelors, English Language and Literature, General, Kenyon College, Gambier, OH, 1991 Masters, Drama/Theater Arts, General, Johns Hopkins University, Baltimore, MD, 1994 Doctorate, Drama/Theater Literature, History and Criticism, University of Minnesota, Minneapolis, MN, 2001			
Lewis, Seth	Instructor	Doctorate, University of Northern Colorado, 2020			
Li, Kaigang	Associate Professor	Bachelors, Biology Teacher Education, Anhui Normal University, 1993 Masters, Exercise Sciences/Physiology and Movement Studies, China Institute of Sport Science, 1996 Doctorate, Health and Physical Education/Fitness, Other, Indiana University, 2010			
Li, Yan	Associate Professor	Bachelors, Materials Science, Donghua University, Shanghai, 2000 Masters, Materials Science, Donghua University, Shanghai, 2003 Doctorate, Textile Sciences and Engin., Cornell University, 2009			
Liepkalns, Justine	Associate Professor	Bachelors, Eckerd College, 2004 Masters, Tufts University, 2005 Doctorate, Emory University, 2012			

Light, Ellie	Senior Instructor	Bachelors, Colorado State University, 2006 Masters, Communications, General, Colorado State University, 2009 Doctorate, Communications, General, University of Utah, 2015	Liu, Jiangguo	Professor	Bachelors, Mathematics, Wuhan University, 1983 Masters, Mathematics, University of South Carolina, 1999 Doctorate, Mathematics, University of South Carolina, 2001
Limlamai, Naitnaphit	Assistant Professor	Bachelors, Boston College Doctorate, University of Michigan Masters, University of Notre Dame	Lockwood, Dale	Associate Professor	Doctorate, Unknown, 2002
Lindenbaum, John	Associate Professor	Bachelors, International Relations and Affairs, Princeton University, 1999 Doctorate, Geography, University of California, Berkeley, 2009	Lodha, Neha	Associate Professor	Bachelors, Electrical, Electronic and Communications Engin. Tech./Tec, DA-IICT, India, 2005 Doctorate, Exercise Sciences/Physiology and Movement Studies, University of Florida, 2011
Lindsay, James	Professor	Doctorate, History, General, University of Wisconsin - Madison, 1994	Lohwasser, Eric	Assistant Professor	Bachelors, Bentley University, 2007 Masters, Bentley University, 2008 Doctorate, Drexel University, 2019
Lindsey, John	Instructor	Bachelors, Colorado State University, 2009 Masters, University of Colorado, Boulder, 2011	Long, Marilee	Professor	Bachelors, Journalism, COLO STATE UNIV, 1981 Masters, Journalism and Mass Communication, Other, U OF WISCONSIN, 1986 Doctorate, Mass Communications, U OF WISCONSIN, 1991
Little, Ann	Professor	Bachelors, History, General, Bryn Mawr, 1990 Masters, American (United States) History, University of Pennsylvania, 1991 Doctorate, American (United States) History, University of Pennsylvania, 1996	Long, Ziyu	Associate Professor	Masters, Organizational Behavior Studies, Purdue University, 2011 Doctorate, Organizational Behavior Studies, Purdue, 2015 Bachelors, Communication University of China
Little, Jamie	Instructor	Bachelors, Social Work, Colorado Sate University, 2006 Masters, Social Work, Colorado State University, 2009	Longacre, Wesley	Instructor	Bachelors, Baylor University, 2004 Masters, Wake Forest University, 2013 Doctorate, University of Colorado - Boulder, 2017
Littlefield, Joanne	Instructor	Bachelors, Southern Illinois University, 1977 Masters, Arizona State University, 2004 Doctorate, Colorado State University, 2016			

Loomis, Jayne	Senior Instructor	Bachelors, Psychology, General, California State University - Northridge, 1975 Masters, Education, General, Colorado State University, 1982	Luft, Gregory	Professor	Bachelors, Journalism, COLO STATE UNIV, 1980 Masters, Broadcast Journalism, AMERICAN UNIV, 1984
Lopes, Tobin	Associate Professor	Bachelors, Mathematics, Claremont Mckenna College, 1993 Masters, Education, General, Colorado State University, 2002 Doctorate, Education Administration and Supervision, General, Penn. State University, 2006	Luna, Jessie	Assistant Professor	Bachelors, University of Southern California, 2006 Masters, Graduate Inst of Int Dev Studies Geneva Switzerland, 2012 Doctorate, University of Colorado - Boulder, 2018
Lopez Ramirez, Carmen	Senior Instructor	Bachelors, Colorado State University, 2009 Masters, Colorado State University, 2012	Lundeberg, Pam	Instructor	
Lopez-Cabrales, Maria	Professor	Bachelors, Spanish Language and Literature, Universidad de Cadiz, 1990 Masters, Spanish Language and Literature, University of Pittsburgh, 1993 Certificate, Latin American Studies, University of Pittsburgh, 1995 Doctorate, Spanish Language and Literature, University of Pittsburgh, 1996	Luo, Jie	Professor	Bachelors, Fudan University, 1995 Masters, Fudan University, 1998 Doctorate, Univ of Connecticut, 2002
Lopinski, Nicole	Instructor	Bachelors, University of Michigan-Dearborn, 2013 Masters, Wayne State University, 2017	Luong, Gloria	Associate Professor	Bachelors, Univeristy of California, Riverside, 2006 Masters, Univeristy of California, Irvine, 2008 Doctorate, University of California, Irvine, 2012
LoTemplio, Sara	Assistant Professor	Doctorate, University of Utah	Lynham, Sue	Associate Professor	Bachelors, Business/ Managerial Economics, University of Stellenbosch, SA, 1980 Masters, Organizational Behavior Studies, University of Minnesota, 1992 Masters, Education, Other, Univ of Minnesota, 1997 Doctorate, Education, Other, University of Minnesota, 2000
Lucas-Thompson, Rachel	Associate Professor	Bachelors, Beloit College, 2003 Masters, University of California, Irvine, 2005 Doctorate, University of California, Irvine, 2009	Lyons, Michael	Associate Professor	Bachelors, Marquette University, 1984 Masters, Marquette University, 1987 Doctorate, Purdue University, 1992
Luchs-Nunez, Jenny	Assistant Professor	Bachelors, Marquette University, 2008 Doctorate, University of Connecticut, 2022	Ma, Kaka	Associate Professor	Bachelors, University of Science and Technology, 2006 Doctorate, UC Davis, 2010
Luedke, Lauren	Assistant Professor		Maaland, Kristina	Instructor	Masters, Colorado State University, 2007
Lueshen, Kristy	Instructor				

MacDonald, Bradley	Professor	Bachelors, Political Science, General, UNC CHAPEL HILL, 1981 Masters, Political Science and Government, Other, UCLA, 1987 Doctorate, Political Science and Government, Other, UCLA, 1991	MacPhail, Catriona	Professor	Bachelors, Biology, General, Rice University, 1992 Professional, Veterinary Medicine (D.V.M.), Texas A M University, 1996 Doctorate, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 2007

Mansfield, Mike	Senior Instructor	Bachelors, Auburn University, 1986 Masters, University of South Alabama, 1998 Doctorate, University of Alabama, 2005	Markman, Gideon	Professor	Bachelors, University of Colorado, 1994 Doctorate, University of Colorado, 1999
Mao, KuoRay	Associate Professor	Bachelors, California State University-Fullerton, 2004 Masters, University of Kansas, 2009 Doctorate, University of Kansas, 2015	Markus, Steven	Associate Professor	Doctorate, Microbiology/ Bacteriology, New York University, 2003
Maranian, Brandy	Instructor	Bachelors, United States Military Academy, West Point, 1987 Masters, Boston University, 1990	Marques, Luciana	Instructor	Doctorate, University of Colorado Boulder, 2017
Marchant, Tasha	Instructor	Doctorate, Unknown, 2005	Martey, Rosa	Professor	Associates, Communications, General, Y, 2005
			Martin Quijada, Carmen	Instructor	Bachelors, Universidad Finis Terrae, 2011 Masters, Ohio University, 2013 Doctorate, Purdue University, 2018
			Martin, Jennifer	Associate Professor	Bachelors, Animal Sciences, General, Texas Tech University, 2007 Masters, Animal Sciences, General, Texas Tech University, 2010 Doctorate, Texas Tech University, 2014

Martin, Jessica	Instructor	Bachelors, Psychology, General, Lafayette College, 2004 Masters, Mental Health Services, Other, University of Albany - SUNY, 2005 Doctorate, Counseling Psychology, University at Albany - SUNY, 2011
Martin, KELLY	Professor	Bachelors, Gonzaga Univ., 1999 Masters, Creighton Univ., 2002 Doctorate, Washington State Univ., 2007
Martin, Tiffany	Assistant Professor	Bachelors, Animal Sciences, General, University of Nevada Reno, 2011 Professional, Veterinary Medicine (D.V.M.), Colorado State University, 2015 Masters, CSU, 2019
Martinez, Doreen	Associate Professor	Bachelors, Psychology, General, Mansfield University, 1987 Masters, Exercise Sciences/Physiology and Movement Studies, West Virginia University, 1988 Doctorate, Sociology, Syracuse University, 2003
Martonis, Amy	Senior Instructor	Bachelors, Social Work, Asbury University, 1999 Masters, Social Work, University of Kentucky, 2005
Marvel, Sarah	Assistant Professor	Professional, Veterinary Medicine (D.V.M.), University of Wisconsin, 2009 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 2013
Marvin, William	Associate Professor	Bachelors, University of Denver, 1985 Doctorate, Univ. of Minnesota, 1998

Marx, Nick	Associate Professor	Bachelors, Communications, Other, University of Wisconsin Mad, 2003 Masters, Communications, Other, University of Texas at Austin, 2006 Doctorate, Communications, Other, University of Wisconsin-Madison, 2012
Marzolf, Greg	Assistant Professor	
Masciarelli, Kyla	Senior Instructor	Bachelors, Elementary Teacher Education, College of Charleston, 2007 Masters, Teaching English as a Second Language/Foreign Language, Colorado State University, 2013
Masden, Dana	Master Instructor	Bachelors, Miami University, 2005 Masters, Colorado State University, 2008
Mason, Esten	Professor	Bachelors, Texas AM University, 2003 Doctorate, Texas AM University, 2009
Mason, Gary	Associate Professor	Bachelors, Colorado State University, 1980 Professional, Veterinary Medicine (D.V.M.), Texas AM University, 1988 Masters, Texas AM University, 1989 Doctorate, University of Tennessee-Knoxville, 1999
Mason, Shannon	Instructor	Masters, Texas AM University, 2007
Mathiason, Candace	Professor	Bachelors, Microbiology/Bacteriology, University of Wyoming, 1983 Masters, Parasitology, University of Wyoming, 1987 Doctorate, Pathology, Human and Animal, Colorado State University, 2010

Matlock, Sarah	Senior Instructor	Bachelors, Equestrian/ Equine Studies, Horse Management and Training, Colorado State University, 2011 Masters, Colorado State University, 2014	McCue, Patrick	Professor	Bachelors, Biology, General, S U NY POTSDAM, 1978 Professional, Veterinary Medicine (D.V.M.), U CA, DAVIS, 1986 Doctorate, Pathology, Human and Animal, U CA, DAVIS, 1993
Matney, Casey	Instructor	Bachelors, Oregon State University, 2000 Masters, Oregon State University, 2004 Doctorate, Oregon State University, 2010	McFarlane, Zachary	Instructor	Masters, Colorado State University, 2012 Bachelors, University of Northern Colorado
Matthews, Dave	Instructor	Bachelors, Computer Science, University of Nebraska, 1979 Masters, Computer Science, Colorado State University, 2013	McGilvray, Kirk	Associate Professor	Doctorate, Colorado State University, 2009
Maxwell, Kit	Instructor	Bachelors, Colorado State University, 1993	McGoldrick, Mac	Instructor	Masters, East Asian Studies, Cornell University, 1996
May, Deb	Instructor		McGrath, Daniel	Assistant Professor	Bachelors, Geology, Bowdoin College, 2006 Masters, Geography, University of Colorado Boulder, 2009 Doctorate, Geography, University of Colorado Boulder, 2013
Maynard, Travis	Professor	Bachelors, College of William and Mary, 1993 Masters, University of Denver, 2002 Doctorate, University of Connecticut, 2007	McGrath, Stephanie	Associate Professor	Professional, Michigan State University, 2006 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 2011
Mayo, Christie	Associate Professor	Bachelors, Pre- Veterinary Studies, Clemson University, 2003 Professional, Veterinary Medicine (D.V.M.), Univeristy of Georgia, 2006 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 2010 Doctorate, Pathology, Human and Animal, University of California, Davis, 2012	McGrew, Ashley	Associate Professor	Bachelors, Biological Sciences/Life Sciences, Other, University of Northern Colorado, 2004 Doctorate, Pathology, Human and Animal, Colorado State University, 2011 Doctorate, Veterinary Medicine (D.V.M.), Colorado State University, 2013
McClurg, Jedidiah	Assistant Professor	Bachelors, University of Iowa, 2009 Masters, Computer Science, Northwestern University, 2013 Doctorate, University of Colorado Boulder, 2018	McGuire, John	Associate Professor	Masters, Florida State University, 2001 Doctorate, University of Alabama, 2012
McConigley, Nina	Assistant Professor	Bachelors, Saint Olaf College Masters, University of Houston Masters, University of Wyoming			
McCosh, Rick	Assistant Professor				

McIvor, David	Associate Professor	Bachelors, Political Science, General, Western Washington University, 2002 Masters, Political Science and Government, Other, Duke University, 2006 Doctorate, Political Science and Government, Other, Duke University, 2010	McLean, Jennifer	Associate Professor	Bachelors, Biology, General, Concordia College, Moorhead, MN, 1996 Doctorate, Microbiology/Bacteriology, Colorado State University, 2003
McKay, John	Professor	Bachelors, Biology, General, SUNY Albany, 1995 Doctorate, Ecology, University of Montana, 2001	McNally, Andy	Associate Professor	Bachelors, University of Cambridge, 2003 Masters, University of Cambridge, 2003 Doctorate, University of Cambridge, 2011 Masters, University of Cambridge, 2011
McKelfresh, David	Instructor	Bachelors, Political Science, General, COLO STATE UNIV, 1974 Masters, College/Postsecondary Student Counseling and Personnel Services, COLO STATE UNIV, 1976 Doctorate, College/Postsecondary Student Counseling and Personnel Services, University of Northern Colorado, 1987	McShane, Katie	Professor	Bachelors, Philosophy, Northwestern University, 1993 Doctorate, Philosophy, University of Michigan, 2002
McKenna, Kelly	Associate Professor	Bachelors, Communications, General, Colorado State University, 1996 Masters, Human Resources Management, Other, Colorado State University, 2012 Doctorate, Educational/Instructional Media Tech./Technician, University of Northern Colorado, 2016	McWhorter, Brenna	Instructor	
McKita, Richard	Senior Instructor	Bachelors, Philosophy, West Virginia Wesleyan College, 1977 Masters, Philosophy, Duquesne University, 1987	Means, Morgann	Instructor	Bachelors, Colorado Mesa University, 2010 Masters, Colorado State University, 2013
McLain, Jesse	Instructor		Medford, June	Professor	Bachelors, University of Maryland, 1980 Doctorate, Biology, General, Yale University, 1986
			Mehaffy, Carolina	Assistant Professor	Bachelors, Univ De Los Andes, Colombia, 2001 Masters, Univ de los Andes, Colombia, 2002 Doctorate, Microbiology/Bacteriology, Colorado State University, 2009
			Mehany, Mohammed	Associate Professor	Bachelors, Construction and Building Finishers and Managers, Other, Arab Academy for Science and Technology, Egypt, 2007 Masters, Colorado State University, 2009 Doctorate, Civil Engin., Other, Colorado State University, 2014
			Mehrian, Mathew	Instructor	
			Meier, Zach	Instructor	Bachelors, Mathematics, Colorado State University, 2006
			Meindl, Alison	Associate Professor	

Melby, Chris	Professor	Bachelors, Physical Education Teaching and Coaching, COLO STATE UNIV, 1973 Masters, Nutritional Sciences, University Northern Colorado, 1976 Doctorate, Foods and Nutrition Science, LOMA LINDA UNIV, 1982 Masters, Foods and Nutrition Science, LOMA LINDA UNIV, 1982	Merline, Anne Marie	Master Instructor	Bachelors, Elementary, Middle and Secondary Education Administration, New England College, 1985 Masters, Liberal Arts and Sciences/ Liberal Studies, Boston University, 1990 Doctorate, Higher Education Administration, Boston University, 1998
Melzer, Susan	Assistant Professor	Bachelors, Colorado State University, 2002 Masters, Univ. of CO, Boulder, 2004 Doctorate, Colorado State University, 2009	Merz, Emily	Assistant Professor	Bachelors, Art, General, Carnegie Mellon, 2000 Masters, Psychology, General, University of Pittsburgh, 2008 Doctorate, Clinical Psychology, University of Pittsburgh, 2012
Melzer, Susan	Associate Professor	Bachelors, Colorado State University, 2002 Masters, Univ. of CO, Boulder, 2004 Doctorate, Colorado State University, 2009	Metcalf, Jessica	Associate Professor	Doctorate, University of Colorado, 2007
Memoli, Amanda	Senior Instructor	Bachelors, Penn State University, 2007 Masters, Colorado State University, 2015	Metcalf, John	Instructor	Bachelors, Colorado State University, 1996
Meneghetti, Costanza	Associate Professor	Bachelors, University of Vernice, Italy, 2001 Doctorate, Georgia State University, 2008	Meyer, Andrew	Instructor	Bachelors, University of Wisconsin, 2011 Masters, Colorado State University, 2018
Menendez, Jaclyn	Instructor		Meyer, Carolyn	Assistant Professor	Bachelors, University of Kentucky College of Agriculture Doctorate, University of Kentucky College of Agriculture
Menoni, Carmen	Professor	Bachelors, Physics, General, UNIV OF ROSARIO, 1978 Doctorate, Physics, General, COLO STATE UNIV, 1987	Meyer, Linda	Associate Professor	Bachelors, History, General, Colorado State University, 1995 Masters, Colorado State University, 2000
Mercurio, Zachary	Instructor	Bachelors, Educational/ Instructional Media Design, James Madison University, 2006 Masters, Higher Education Administration, Colorado State University, 2006 Doctorate, Unknown, 2019	Meyer, Lynda	Instructor	
			Meyer, Mary	Professor	Bachelors, Physics, General, University of Wyoming, 1983 Masters, Mathematics, University of Wyoming, 1986 Doctorate, Mathematical Statistics, University of Michigan, 1996
			Meyers-Bass, Beth	Senior Instructor	Masters, Communications, General, Colorado State University, 2003
			Miao, Hong	Associate Professor	Doctorate, University of Calgary, 2008

Michael, John	Assistant Professor	Bachelors, Sathyabama University, 2007 Doctorate, Washington State University	Miller, Patrick	Instructor	Bachelors, Agronomy and Crop Science, Purdue University, 1986 Masters, Agronomy and Crop Science, Texas A M University, 1989 Doctorate, Plant Sciences, Other, Colorado State University, 1998
Michalos, Chris	Instructor	Doctorate, Colorado State University, 2016			
Miguel, Julia	Instructor				
Milholland, Eric	Assistant Professor	Doctorate, Unknown, 2015 Bachelors, Colorado State University Bachelors, Colorado State University Masters, Colorado State University	Miller, Ray	Assistant Professor	Bachelors, Eckerd College, 2005 Masters, University of Pittsburgh, 2011 Doctorate, University of Pittsburgh, 2015
Milholland, Michelle	Instructor	Bachelors, Univeristy of Wisconsin Masters, Colorado State University	Miller, Steven	Professor	Bachelors, Electrical, Electronics and Communication Engin., University of California at San Diego, 1995 Masters, Atmospheric Sciences and Meteorology, Colorado State University, 1997 Doctorate, Atmospheric Sciences and Meteorology, Colorado State University, 2000
Miller, Alyssia	Assistant Professor	Bachelors, The Pennsylvania State University, 2013 Masters, The University of Alabama, 2014 Doctorate, The University of Alabama, 2018			
Miller, Chad	Assistant Professor	Bachelors, Oranamental Horticulture Operations and Management, Univ of Wisconsin-River Falls, 2002 Masters, Oranamental Horticulture Operations and Management, Cornell University, 2005 Doctorate, Oranamental Horticulture Operations and Management, Cornell University, 2010	Miller-Dickerson, Kiley	Instructor	Masters, Colorado State University, 2017
			Milliken, Laurel	Instructor	Bachelors, Colorado State University, 2009 Masters, Colorado State University, 2016 Masters, Colorado State University, 2021
Miller, Diane	Instructor	Bachelors, Montana State University, 1975 Masters, Montana State University, 1986	Minas, Ioannis	Associate Professor	Bachelors, Agriculture/ Agricultural Sciences, Other, Aristotle University Thessaloniki, 2007 Masters, Aristotle University Thessaloniki, 2010 Doctorate, Horticulture Science, Aristotle University Thessaloniki, 2014
Miller, Erika	Assistant Professor	Bachelors, Oregon State University, 2010 Masters, University of Washington, 2013 Doctorate, University of Washington, 2018	Minihan, Christina	Instructor	Bachelors, Colorado State University, 2009 Doctorate, Colorado State University Masters, Colorado State University
Miller, Margaret	Senior Instructor	Bachelors, Indiana University, 1978 Masters, University of Wisconsin, 1985	Miranda, Rick	Professor	Bachelors, Mathematics, C OF HOLY CROSS, 1974 Doctorate, Mathematics, MIT, 1979

Mitchell, L.A.	Instructor	Bachelors, Colorado State University, 1997 Masters, Colorado State University, 1998	Mooney, Kristin	Instructor	Bachelors, Psychology, General, Stanford University, 1988 Masters, Social Work, University of Denver, 1991
Mitchell, Rob	Professor	Bachelors, Weber State University, 2001 Masters, Indiana University, 2004 Doctorate, Indiana University, 2006	Mooney, Michael	Associate Professor	Bachelors, Massachusetts Institute of Technology, 2008 Masters, Princeton, 2010 Doctorate, Princeton University, 2014
Mitchell, Todd	Associate Professor	Bachelors, Oberlin College, 1996 Masters, Colorado State University, 2002	Moore, Emily	Associate Professor	Bachelors, Art History, Criticism and Conservation, Swarthmore College, 2001 Masters, English Creative Writing, West Virginia University, 2004 Masters, Art History, Criticism and Conservation, University of California, Berkeley, 2007 Doctorate, Art History, Criticism and Conservation, University of California, Berkeley, 2012
Miyake, Garret	Professor	Bachelors, Chemistry, General, Pacific University, 2005 Doctorate, Inorganic Chemistry, Colorado State University, 2011	Moore, John	Professor	Bachelors, Zoology, General, University of California-Santa Barbara, 1978 Masters, Zoology, General, Michigan State University, 1981 Doctorate, Zoology, General, Colorado State University, 1986 Masters, Mathematical Statistics, Colorado State University, 1996
Mola, John	Assistant Professor		Moore, Linda	Instructor	
Moloney, Chris	Instructor	Bachelors, Univ of Miami, 2008 Masters, George Washington Univ, 2011	Moore, Russell	Associate Professor	Bachelors, Animal Sciences, General, Brigham Young University, 2000 Professional, Veterinary Medicine (D.V.M.), Purdue University, 2006
Monnet, Eric	Professor	Professional, Veterinary Medicine (D.V.M.), Ecole veterinaire, Maisons, France, 1988 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 1996 Doctorate, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 1997	Moore-Foster, Rhyannon	Assistant Professor	Professional, Michigan State University, 2013
Montgomery Moore, Karen	Senior Instructor	Masters, Colorado State University, 2015			
Montgomery, Tai	Associate Professor	Bachelors, Oregon State University, 2002 Doctorate, Oregon State University, 2008			
Montrose, Luke	Assistant Professor	Bachelors, Heidelberg College, 2007 Doctorate, University of Montana, 2015			
Moon, Heather	Instructor				
Mooney, Daniel	Assistant Professor	Bachelors, Agricultural Economics, Michigan State University, 2001 Masters, Agricultural Economics, University of Wisconsin-Madison, 2007 Doctorate, University of Wisconsin-Madison, 2017			

Moraes, Marcia	Assistant Professor	Bachelors, Information Sciences and Systems, Pontifical Catholic University of Rio Grande do Sul, 1997 Masters, Computer Science, Pontifical Catholic Univ of Rio Grande do Sul, 1999 Doctorate, Computer Science, Federal University of Rio Grande do Sul, 2004	Moseman, Eleanor	Professor	Bachelors, German Language and Literature, University of North Carolina at Chapel Hill, 1995 Masters, Art History, Criticism and Conservation, Bryn Mawr College, 2000 Doctorate, Art History, Criticism and Conservation, Bryn Mawr College, 2006
Morasch, Nathalie	Senior Instructor	Bachelors, Lancaster University, 2002 Masters, University of Illinois, 2004 Doctorate, University of Illinois, 2011	Mosko, Beth	Instructor	Masters, Colorado State University, 2011
Moreno, Elynar	Instructor		Mosley, Moriah	Instructor	Bachelors, Colorado State University, 2019
Moreno, Julie	Assistant Professor	Bachelors, Texas AM, College Station, 2004 Doctorate, Cell and Molecular Biology, Other, Colorado State University, 2009	Moss, Steven	Instructor	Bachelors, Liberal Arts and Sciences/ Liberal Studies, State University of New York Buffalo, 1973 Masters, Social Work, University of Denver, 1978
Morgan, Emily	Associate Professor	Bachelors, Denison University, 2000 Masters, University of North Carolina, Greensboro, 2007	Most, David	Associate Professor	Masters, Biostatistics, UNC-Chapel Hill, 1993 Masters, Sociology, Johns Hopkins University, 1994 Doctorate, Educational Statistics and Research Methods, UCLA, 2002
Morgan, Lisa	Instructor	Bachelors, Middlebury College, 1981	Mott, Jill	Instructor	
Morisette, Elizabeth	Instructor	Bachelors, NCSU School of Design, 1994 Masters, Maryland Institute College of Art, 2007	Moulton, Matt	Assistant Professor	Bachelors, Mathematics, University of Florida - Gainesville, 2007 Masters, Counselor Education Counseling and Guidance Services, University of Houston, 2013 Doctorate, Educational/ Instructional Media Design, University of Georgia, 2018
Morris, Geoffrey	Associate Professor	Bachelors, University of Ottawa, 2002 Doctorate, University of Chicago, 2007	Mueller, Jennifer	Professor	Bachelors, Mathematics, University Nebraska - Lincoln, 1991 Masters, Mathematics, University Nebraska - Lincoln, 1993 Doctorate, Mathematics, University of Nebraska - Lincoln, 1997
Morris, Kristen	Associate Professor	Bachelors, Colorado State University, 2007 Masters, Colorado State University, 2011 Doctorate, Cornell, 2015			
Morrison, Ryan	Associate Professor	Bachelors, WA State university, 2005 Masters, WA State university, 2006 Doctorate, University of NM, 2014			
Morse, Jenny	Senior Instructor	Bachelors, Bowdoin College, 2002 Masters, University of Colorado Boulder, 2007 Doctorate, University of Illinois Chicago, 2013			

Mueller, Megan	Assistant Professor	Bachelors, St Olaf College, 2008 Masters, University of Minnesota - Twin Cities, 2013 Doctorate, Tufts University, 2017	Muntoreanu, Roberto	Assistant Professor	Bachelors, Pontificia Universida De Catolica, 2001 Masters, The University of Kansas, 2017
Mueller, Nathan	Associate Professor	Bachelors, Biology, General, Saint Olaf College, 2007 Doctorate, Natural Resources Conservation, General, University of Minnesota, 2013	Murillo, Cindy	Instructor	Doctorate, University of New Mexico, 2008
Mueller, Rachel	Professor	Bachelors, Biology, General, University of California Berkeley, 1995 Doctorate, Biology, General, University of California Berkeley, 2005	Mushinski, David	Professor	Bachelors, The College of William and Mary, 1979 Professional, University of Virginia School of law, 1983 Masters, University of Wisconsin, Madison, 1994 Doctorate, University of Wisconsin, Madison, 1996
Mui, Mei Lun	Assistant Professor		Myers, Brent	Associate Professor	Bachelors, University of Oklahoma, 2004 Doctorate, University of Oklahoma Health Science Center, 2010
Mumford, Troy	Associate Professor	Bachelors, Brigham Young University, 1996 Doctorate, Purdue University, 2002	Myhren, Bill	Instructor	
Mumme, Stephen	Professor	Bachelors, Political Science, General, ARIZONA ST U, 1973 Masters, Political Science, General, ARIZONA ST U, 1975 Doctorate, Political Science, General, U OF ARIZONA, 1981	Mykles, Donald	Professor	Bachelors, Biology, General, U OF CALIFORNIA, 1973 Doctorate, Zoology, General, U OF CALIFORNIA, 1979
Munoz, Susana	Associate Professor	Bachelors, Political Science, General, Iowa State University, 1995 Masters, Higher Education Administration, Colorado State University, 2000 Doctorate, Higher Education Administration, Iowa State, 2008	Myrick, Chris	Professor	Bachelors, Natural Resources Management and Policy, University of California Berkeley, 1992 Masters, Ecology, University of California Davis, 1996 Doctorate, Ecology, University of California Davis, 1998
Munshi, Amit	Assistant Professor		Nachappa, Punya	Associate Professor	Doctorate, Kansas State University, 2008
Munsky, Brian	Associate Professor	Bachelors, Penn State, 2000 Masters, Penn State University, 2002 Doctorate, UC Santa Barbara, 2008	Nakamura, Akiko	Assistant Professor	Doctorate, Virginia Polytechnic Institute and State University, 2013
			Nalam, Vamsi	Assistant Professor	Masters, Oregon State University, 2004 Doctorate, University of North Texas, 2012
			Nam, Aerang	Instructor	Bachelors, Kyungpook National Uni, Daegu, KOREA, 2006 Masters, Seoul National University, Seoul, Korea

Nam, Rosa	Assistant Professor	Bachelors, University of Texas Doctorate, University of Houston	Nelson, Brad	Assistant Professor	Professional, Veterinary Medicine (D.V.M.), University of Wisconsin-Madison, 2009 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 2013 Doctorate, Colorado State University, 2017
Namuth-Covert, Deana	Professor	Bachelors, University of Nebraska-Lincoln, 1990 Masters, Colorado State University, 1993 Doctorate, Colorado State University, 1998	Nelson, Christy	Instructor	Masters, Colorado State University, 2019
Narayanan Nair, Mahesh	Associate Professor	Bachelors, Kerala Agricultural University, 2009 Masters, University of Kentucky, 2012 Doctorate, University of Kentucky, 2017	Nelson, Peter	Associate Professor	Bachelors, Princeton University, 2003 Doctorate, University of California, Berkeley, 2010
Naug, Dhruba	Professor	Bachelors, Zoology, General, University of Delhi, 1990 Masters, Zoology, General, University of Delhi, 1992 Doctorate, Ecology, Indian Institute of Science, 1999	Nelson, Tracy	Professor	Bachelors, Athletic Training and Sports Medicine, Colorado State University, 1991 Masters, Public Health Education and Promotion, University of Northern Colorado - Greeley, 1993 Doctorate, Physiological Psychology/ Psychobiology, Penn State, 1998
Naughton, Blake	Professor	Bachelors, Stanford University, 1997 Masters, Harvard University, 1998 Doctorate, Stanford University, 2004	Neophytou, Andreas	Assistant Professor	Bachelors, Neuroscience, Colorado College, 2006 Masters, Public Health, General, Cyprus International Institute for the Environment and Public Health, 2008 Doctorate, Epidemiology, Harvard T.H. Chan School of Public Health, 2013
Nazemi, Reza	Assistant Professor	Bachelors, Aerospace, Aeronautical and Astronautical Engin., Sharif University of Technology, 2013 Masters, Mechanical Engin., Michigan Technological University, 2015 Doctorate, Mechanical Engin., Georgia Institute of Technology, 2020	Nett, Terry	Professor	Bachelors, Animal Sciences, General, MONTANA STATE U, 1968 Doctorate, Physiology, Human and Animal, WASHINGTON ST U, 1972
Neilson, Jamie	Associate Professor	Bachelors, Lehigh University, 2006 Doctorate, University of California - Santa Barbara, 2011	Neuwal, Jennifer	Associate Professor	Bachelors, Zoology, Other, Washington University, 1995 Doctorate, Unknown, 2008
Nekrasova-Beker, T	Associate Professor	Doctorate, Northern Arizona University, 2011			

Nguyen, Nate	Assistant Professor	Masters, Binghamton University, 2013 Doctorate, University of Iowa, 2019 Bachelors, Binghamton University	Niemiec, Rebecca	Assistant Professor	Bachelors, Biology, General, Dartmouth College, 2013 Doctorate, Environmental Science/Studies, Stanford University, 2018
Nichols, Kimberly	Associate Professor	Associates, Liberal Art and Sciences, General Studies and Humanities, West Valley College, 1992 Associates, Social Sciences, General, West Valley College, 1992 Bachelors, Anthropology, Univ of CA at Santa Cruz, 1995 Masters, Anthropology, Univ of CO at Boulder, 1998	Nikdast, Mahdi	Associate Professor	Bachelors, Azad University of Najafabad, Iran, 2009 Doctorate, Hong Kong university of Science Technology, 2014
Nickoloff, Jac	Professor	Bachelors, Biochemistry, University of California, Santa Barbara, 1978 Doctorate, Biochemistry, University of Colorado, 1984	Nikolaev, Boris	Assistant Professor	Bachelors, Manchester College, 2006 Doctorate, University of South Florida, 2013
Nielsen, Aaron	Assistant Professor	Bachelors, Electrical and Electronic Engin.-Related Technol./Technician, Colorado State University, 2007 Masters, Electrical and Electronic Engin.-Related Technol./Technician, University of Colorado - Boulder, 2008 Masters, Applied Mathematics, General, University of Colorado - Denver, 2012 Masters, Colorado State University, 2014 Doctorate, Applied Mathematics, General, University of Colorado, Denver, 2018	Niles, Gene	Associate Professor	Bachelors, Agricultural Animal Nutrition, Oklahoma State University, 1972 Professional, Veterinary Medicine (D.V.M.), Oklahoma State Univeristy, 1975 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Oklahoma State University, 2002
Niemann, Jeffrey	Professor	Bachelors, University of Colorado, 1993 Masters, Massachusetts Institute of Technology, 1997 Doctorate, Massachusetts Institute of Technology, 2001	Nishimura, Erin	Associate Professor	Doctorate, Biology, General, UC Berke, 2010
			Nishimura, Marc	Associate Professor	Doctorate, Stanford University, 2005
			Noblitt, Cheri	Instructor	Bachelors, Colorado State University, 2011 Masters, University of Hawaii, 2014
			Nordgren, Tara	Associate Professor	Doctorate, University of Nebraska Medical Center, 2011 Bachelors, George Mason University
			North, Kurtis	Master Instructor	Bachelors, Colorado State University, 1999 Masters, Communications, General, Colorado State University, 2001 Certificate, ITC-International Training, 2004
			Norton, Andrew	Professor	Doctorate, Entomology, University of California, Berkeley, 1995
			Notaros, Branislav	Professor	Bachelors, University of Belgrade, 1988 Masters, University of Belgrade, 1992 Doctorate, University of Belgrade, 1995

Notaros, Olivera	Senior Instructor	Bachelors, Univ of Belgrade, 1989 Masters, Univ of Belgrade, 1993
Nottle, Bridget	Assistant Professor	
Nout-Lomas, Yvette	Associate Professor	Professional, Veterinary Medicine (D.V.M.), Utrecht University, 1999 Doctorate, Neuroscience, The Ohio State University, 2006
Nowacki, Jeffrey	Associate Professor	Bachelors, University of New Mexico, 2005 Masters, University of New Mexico, 2009 Doctorate, University of New Mexico, 2014
Nowak, Kristy	Associate Professor	Bachelors, Psychology, Other, Whitman College, 2007 Masters, Library Science, Other, University of Kentucky, 2011
Nulty, Clara	Instructor	
Numa, Guy	Associate Professor	Bachelors, Universite Paris Dauphine, 2003 Masters, Universite Paris Dauphine, 2006 Doctorate, Universite Paris Dauphine, 2009
O'Connor, Benjamin	Senior Instructor	Bachelors, New Mexico State, 1988
O'Dell, Gretchen	Associate Professor	Bachelors, Carleton College, 2000 Masters, University of Wisconsin, 2003 Doctorate, University of Wisconsin, 2009
O'Reilly, Mike	Master Instructor	Bachelors, Construction and Building Finishers and Managers, Other, Virginia Polytechnic Institute, 1979 Masters, Civil Engin., General, University of South Carolina, 1987
Obluda, Dan	Instructor	Bachelors, University of Northern Colorado, 2009 Masters, University of Northern Colorado, 2011 Doctorate, University of Colorado Boulder, 2021

Obregon Henao, Andres	Assistant Professor	Professional, CES, 1999 Professional, Universidad de Antioquia, 2005 Doctorate, Microbiology/ Bacteriology, Colorado State University, 2013
Ocheltree, Troy	Associate Professor	Bachelors, Biology, General, University of Minnesota-Morris, 1997 Masters, Forestry and Related Sciences, Other, University of Idaho, 2002 Doctorate, Agronomy and Crop Science, Kansas State University, 2012
Ode, Paul	Professor	Bachelors, Biology, General, Earlham College, 1986 Masters, Entomology, Univ Wisconsin - Madison, 1990 Doctorate, Entomology, Univ Wisconsin - Madison, 1994
Odonnell-Allen, Cindy	Professor	Bachelors, Univ. of Oklahoma, 1987 Masters, Univ. of Oklahoma, 1994 Doctorate, Univ. of Oklahoma, 1999
Ogle, Jennifer	Professor	Bachelors, Clothing/ Apparel and Textile Studies, Iowa State University, 1993 Masters, Family and Community Studies, University of Illinois-Champaign, 1995 Doctorate, Clothing/ Apparel and Textile Studies, Iowa State University-Ames, 1999
Ogle, Stephen	Professor	Bachelors, Emory University, Atlanta, GA, 1992 Masters, University of Wyoming, 1995 Doctorate, University of Wyoming, 2000
Ohlendorf, Alex	Assistant Professor	Bachelors, University of California, San Diego Certificate, Texas A M Masters, University of California, Davis Professional, University of California, Davis

Oien, Janet	Instructor	Bachelors, Mathematics, Colorado State University, 2004 Masters, Mathematics, Colorado State University, 2006	Omur-Ozbek, Pinar	Associate Professor	Bachelors, Middle East Technical University, Ankara, Turkey, 2002 Masters, Virginia Tech, 2004 Doctorate, Virginia Tech, 2008
Olbin, Svetlana	Associate Professor	Bachelors, Architecture, University of Belgrade, 1990 Masters, Architecture, University of Belgrade, 2000 Doctorate, Construction/Building Tech./Technician, Virginia Tech, 2005	Oprea, Iuliana	Associate Professor	Doctorate, Mathematics, INLN-CNRS, Nice, France, 1994
Oling, Lori	Associate Professor	Bachelors, History, General, University of Colorado, Boulder, 1987 Masters, Library Science, Other, University of Illinois, Urbana-Champaign, 1990	Opsal, Tara	Associate Professor	Doctorate, University of Colorado, 2009 Bachelors, University of Colorado
Oliver, Murray	Instructor	Bachelors, Royal Northern College of Music, 2002 Masters, Eastman School of Music, 2004	Orsi, Jared	Professor	Doctorate, History, General, University of Wisconsin, 1999
Olivo-Delgado, Carlos	Associate Professor	Bachelors, Chemistry, General, Universidad del Turabo, Gurabo, PR, 2001 Masters, Environmental Science/Studies, Universidad del Turabo, Gurabo, PR, 2003 Doctorate, Curriculum and Instruction, University of Puerto Rico, San Juan, PR, 2007	Orswell, Nicole	Instructor	Bachelors, English Teacher Education, University of Northern Colorado, 1993 Masters, Education, General, University of Phoenix, 1999
Olsen, Daniel	Professor	Bachelors, Eastern Oregon State College, 1987 Masters, Oregon State University, 1990 Doctorate, C.S.U, 1999	Ortega, Francisco	Assistant Professor	Bachelors, Computer Science, Florida International University, 2007 Masters, Computer Science, Florida International University, 2008 Doctorate, Computer Science, Florida International University, 2014
Olver, Christine	Professor	Bachelors, University of North Carolina, Chapel Hill, 1983 Professional, Ohio State University, 1987 Doctorate, Ohio State University, 1994	Ortega, Lilyana	Associate Professor	Bachelors, University of Illinois at Urbana, 2008 Masters, Michigan State University, 2010 Doctorate, University of Illinois at Urbana-Champaign, 2014
Oman, Rachel	Associate Professor		Orton, Chris	Professor	Professional, Veterinary Medicine (D.V.M.), WASHINGTON ST U, 1978 Masters, Physiology, Human and Animal, OHIO STATE UNIV, 1982 Doctorate, Physiology, Human and Animal, COLO STATE UNIV, 1989

Osborne, Erika	Professor	Bachelors, Fine/Studio Arts, University of Utah, 2000 Masters, Fine/Studio Arts, University of New Mexico, 2005	Palmer, Ross	Professor	Bachelors, Pre-Veterinary Studies, Kansas State University, 1982 Doctorate, Veterinary Medicine (D.V.M.), Kansas State University, 1984 Masters, Medical Physiology, University of Georgia, 1989
Ozbek, Mehmet E.	Professor	Bachelors, Civil Engin., General, Middle East Technical University, 2002 Masters, Civil Engin., General, Virginia Tech, 2004 Doctorate, Civil Engin., General, Virginia Tech, 2007	Palmquist, Michael	Professor	Bachelors, English Language and Literature, General, ST OLAF COLL, 1980 Masters, English Language and Literature, General, CARNEGIE MELLON, 1989 Doctorate, Speech and Rhetorical Studies, CARNEGIE MELLON, 1990
Pabilonia, Kristy	Professor	Bachelors, University of Colorado, 1996 Professional, Colorado State University, 2002 Doctorate, Microbiology/Bacteriology, Colorado State University, 2012	Paltrinieri, Lorella	Master Instructor	Bachelors, English Language and Literature/Letters, Other, Italian School of Languages, 1991
Pacheco, Becky	Assistant Professor		Panetta, Holly	Instructor	Bachelors, Journalism, Colorado State University, 1997 Doctorate, Law (LL.B., J.D.), University of Denver, 2003
Padilla, Moises	Instructor	Bachelors, Business Administration and Management, General, University of Nebraska, 2010 Masters, Higher Education Administration, Colorado State University, 2012	Pante, Michael	Associate Professor	Bachelors, Anthropology, Rutgers University, 2001 Masters, Agricultural Business and Management, General, Rutgers University, 2006 Doctorate, Anthropology, Rutgers University, 2010
Paisley, Suzanna	Instructor		Parada, German	Senior Instructor	Bachelors, Chemical Engin., Iowa State University Doctorate, Chemical Engin., Massachusetts Institute of Technology
Pallickara, Sangmi	Professor	Bachelors, Physics, General, Sookmyung University, 1993 Masters, Computer and Information Sciences, Other, Syracuse University, 2000 Doctorate, Computer Science, Florida State Univeristy, 2003	Parker, Airica	Senior Instructor	Bachelors, Stephens College, 2003 Masters, Alaska University, 2010
Pallickara, Shrideep	Professor	Bachelors, Electrical, Electronics and Communication Engin., Bombay University, 1994 Masters, Computer Engin., Syracuse University, 1998 Doctorate, Computer Engin., Syracuse University, 2001			

Partridge, Craig	Professor	Bachelors, History, General, Harvard University, 1983 Masters, Computer Science, Harvard University, 1988 Doctorate, Computer Science, Harvard University, 1992	Pawliuk, Christine	Associate Professor	Bachelors, Economics, General, Simmons College, 2005 Masters, Library Science/Librarianship, University of Hawaii, 2007 Masters, Business Administration and Management, General, University of Hawaii, 2012
Paschke, Mark	Professor	Bachelors, Forestry Sciences, University of Illinois at Urbana-Champaign, 1986 Masters, Forestry, General, University of Illinois at Urbana-Champaign, 1989 Doctorate, Biology, General, University of Illinois, 1993	Payant, Nathan	Instructor	Bachelors, Music Teacher Education, Northern State University, 2003 Masters, Music Conducting, Colorado State University, 2009 Doctorate, Music Conducting, University of Colorado, Boulder, 2019
Pasricha, Sudeep	Professor	Doctorate, UC Irvine, 2008	Payne, Sarah	Associate Professor	Bachelors, History, General, Nebraska Wesleyan University, 1998 Masters, American (United States) History, University of Wyoming, 2001 Doctorate, American (United States) History, University of New Mexico, 2010
Patel, Amit	Associate Professor	Doctorate, Computer Science, Duke University, 2010	Peccoud, Jean	Professor	Masters, Univ of Paris Orsay, 1987 Doctorate, Univ Joseph Foyer, 1991
Paton, Robert	Professor	Masters, University of Cambridge, 2004 Doctorate, University of Cambridge, 2008	Pech, Isabelle	Instructor	Masters, University of Oregon, 2007 Masters, UNIVERSITE LUMIERE, 2011
Patton, Carl	Instructor	Bachelors, Physics, General, MA INST OF TECH, 1963 Masters, Electrical, Electronics and Communication Engin., CA INST OF TECH, 1964 Doctorate, Electrical, Electronics and Communication Engin., CA INST OF TECH, 1967	Pedersen, Mary	Professor	Bachelors, Biological Sciences/Life Sciences, Other, Univ of CA 0 Santa Barbara, 1973 Masters, Public Health, Other, Univ of CA - Los Angeles, 1976 Doctorate, Public Health, Other, Univ of CA - LA, 1980
Paul, Lauren	Instructor	Masters, CU Denver, 2011	Pedros-Gascon, Antonio	Associate Professor	Bachelors, University of Coruna, 2002 Doctorate, Ohio State University, 2007 Masters, Ohio State University, 2007
Paustian, Keith	Professor	Bachelors, Forestry Sciences, Colorado State University, 1977 Masters, Forestry Sciences, Colorado State University, 1980 Doctorate, Ecology, SWEDISH UNIVERSITY OF AGRICULTURAL SCIENCES, 1987			

Peebles, Christie	Associate Professor	Bachelors, Texas Tech University, 2002 Doctorate, Rice University, 2008	Perera, Rushika	Associate Professor	Bachelors, Biology, General, Goshen College, 1995 Bachelors, Chemistry, General, Goshen College, 1995 Doctorate, Biological Sciences/Life Sciences, Other, Purdue University, 2002
Peel, Jennifer	Professor	Bachelors, Biochemistry, The Pennsylvania State University, 1996 Masters, Epidemiology, Emory University School of Public Health, 1998 Doctorate, Epidemiology, Emory University, 2003	Perry, Gregory	Professor	Bachelors, Agricultural Economics, Utah State University, 1981 Masters, Agricultural Economics, Utah State University, 1982 Doctorate, Agricultural Economics, Texas A M, 1986
Peel, Kraig	Instructor	Bachelors, Animal Sciences, General, Angelo State University, 1987 Masters, Animal Sciences, Other, Texas AM University, 1997 Doctorate, Animal Sciences, Other, Texas AM University, 2000	Perry, Rick	Instructor	Doctorate, University of Arkansas, 2018
Peers, Graham	Professor	Bachelors, University of British Columbia, 1997 Doctorate, McGill University, 2005	Persch, Andy	Associate Professor	Doctorate, The Ohio State University, 2014
Peersen, Olve	Professor	Bachelors, Biological Sciences/Life Sciences, Other, Carnegie Mellon University, 1988 Doctorate, Biophysics, Yale University, 1994	Peters, Caiti	Assistant Professor	Bachelors, University of San Diego, 2013 Masters, Colorado State University, 2015 Doctorate, Colorado State University, 2018
Peila-Shuster, Jackie	Associate Professor	Bachelors, Occupational Therapy, Colorado State University, 1991 Masters, Education, General, Colorado State University, 2004 Doctorate, Counselor Education Counseling and Guidance Services, Colorado State University, 2011	Peterson, Christopher	Professor	Bachelors, Mathematics, Haverford College, Haverford PA, 1985 Masters, Mathematics, Duke University, 1989 Doctorate, Mathematics, Duke University, 1994
Pena, Anita	Professor	Bachelors, The Johns Hopkins Univ, 2001 Masters, Stanford Univ, 2004 Doctorate, Stanford Univ, 2007	Peterson, Josh	Instructor	Bachelors, University of Colorado - Boulder, 1996 Masters, Colorado State University, 2001
Pendergast, Seth	Assistant Professor	Bachelors, Southeastern University, 2008 Masters, Florida State University, 2014 Doctorate, University of Utah, 2018	Peth, James	Assistant Professor	Bachelors, Miami University Doctorate, Colorado State University Masters, University of Arizona
			Pezeshki, Ali	Professor	Bachelors, Tehran University, 1999 Masters, Tehran University, 2001 Doctorate, C.S.U., 2004
			Pezzanite, Lynn	Assistant Professor	
			Phillips, Michael	Instructor	Masters, Colorado State University, 2007

Phillips, Rebecca	Professor	Bachelors, The Florida State University, 1995 Masters, University of South Florida, 2001 Doctorate, Louisiana State University, 2007	Pippen, John	Assistant Professor	Bachelors, Tennessee Technological University, 2006 Masters, University of Tennessee, 2009 Doctorate, University of Western Ontario, 2015
Pickett, Melissa	Instructor	Bachelors, Business Administration and Management, Other, Colorado State University, 2001	Pires, Chris	Professor	Bachelors, University of California Berkeley, 1990 Doctorate, University of Wisconsin Madison, 2000
Pieplow, Sarah	Senior Instructor	Masters, Colorado State University, 2013	Pitts, Elissa	Instructor	Bachelors, Mathematics and Computer Science, Colorado School of Mines, 1995 Masters, Applied Mathematics, Other, Colorado State University, 1997
Pierce, Jeffrey	Professor	Bachelors, Chemical Engin., Northeastern University, Boston, Ma., 2003 Doctorate, Chemical Engin., Carnegie Mellon, Pittsburg, Pa., 2008	Piyaratne, Panduka	Assistant Professor	Doctorate, Unknown, 2018
Pierro, Evelyn	Senior Instructor	Bachelors, English Language and Literature, General, Colorado State University, 1993 Masters, German Language and Literature, Colorado State University, 2000 Masters, Teaching English as a Second Language/Foreign Language, Colorado State University, 2000	Place, Sara	Associate Professor	Bachelors, Cornell University, 2008 Doctorate, University of California, 2012
Piffarero, Minnie	Senior Instructor	Bachelors, Chemical Engin., Colorado State University, 1991 Masters, Chemical Engin., University of Colorado, 1994	Plastini, Johnny	Associate Professor	Bachelors, Fine/Studio Arts, University of California, Santa Cruz, 2008 Masters, Printmaking, Tyler School of Art, 2012
Pinaud, Olivier	Professor	Doctorate, Applied Mathematics, General, Universate Toulouse III, France, 2003 Doctorate, Applied Mathematics, General, Universite Lyon 1, France, 2010	Podell, Brendan	Assistant Professor	Bachelors, Microbiology/Bacteriology, Colorado State University, 2003 Doctorate, Veterinary Medicine (D.V.M.), Colorado State University, 2008 Certificate, Colorado State University, 2011 Doctorate, Pathology, Human and Animal, Colorado State University, 2014
Pinedo, Pablo	Professor	Professional, Veterinary Medicine (D.V.M.), University of Chile, 1993 Doctorate, University of Florida, 2008	Poelking, Kevin	Instructor	Masters, Colorado State University, 2019
			Poff, N LeRoy	Professor	Bachelors, Biology, General, Hendrix College, 1978 Masters, Environmental Science/Studies, Indiana University, 1984 Doctorate, Biology, General, Colorado State University, 1989

Pooler, Sarah	Senior Instructor	Bachelors, Colorado State University, 1986	Prawel, David	Associate Professor	Masters, SUNY, 1980
Popat, Ketul	Professor	Bachelors, M.S. University - India, 1998 Masters, Illinois Inst of Tech, 2000 Doctorate, Universit of Illinois at Chicago, 2003	Prendergast, Joy	Instructor	Bachelors, Jerusalem Academy of Music and Dance, 2018
Popichak, Katriana	Assistant Professor	Bachelors, Microbiology/ Bacteriology, Colorado State University, 2011 Masters, Cell and Molecular Biology, Other, Colorado State University, 2018	Prenni, Jessica	Professor	Doctorate, Analytical Chemistry, University of Colorado, 2002
Portillo, Jasmin	Instructor		Preston, Dan	Assistant Professor	Bachelors, Oregon State University, 2009 Doctorate, University of Colorado, 2015
Potter, Brianna	Assistant Professor	Bachelors, University of California, 2010 Professional, University of Tennessee, 2015	Previant, Wilfred	Assistant Professor	Bachelors, Forest Management, University of Minnesota, 1998 Bachelors, Wildlife and Wildlands Management, Colorado State University, 2003 Doctorate, Forestry Sciences, Michigan Technological University, 2015
Pouchet, Louisnoel	Associate Professor	Doctorate, INRIA Saclay, 2010	Pries, Rachel	Professor	Bachelors, Mathematics, Brown University, 1994 Doctorate, Mathematics, University of Pennsylvania, 2000
Powers, Jaye	Senior Instructor	Masters, Colorado State University, 2004 Bachelors, University of Colorado	Prieto, Amy	Professor	Bachelors, Williams College, 1996 Doctorate, Inorganic Chemistry, University of California Berkeley, 2001
Prabhu, Vinayak	Assistant Professor	Bachelors, Engin., General, Indian Institute of Technology, 1999 Doctorate, Computer Engin., University of California at Berkeley, 2008	Prince, Mark	Associate Professor	Bachelors, Psychology, General, Columbia University, 2002 Masters, Psychology, General, San Diego State University, 2007 Doctorate, Clinical Psychology, Syracuse University, 2014 Masters, Mathematical Statistics, Syracuse University, 2014
Prasad, Ashok	Associate Professor	Bachelors, St Stephens College, New Dehli, 1985 Masters, Delhi School of Economics, 1988 Masters, Brandeis University, 2004 Doctorate, Brandeis University, 2006	Proctor, Jeremy	Master Instructor	Bachelors, Colorado State University, 2002 Masters, Colorado State University, 2006
Prasad, Josh	Assistant Professor	Bachelors, Cognitive Psychology and Psycholinguistics, Univesity of Michigan, 2011 Masters, Psychology, General, Wake Forest University at Winston-Salem, 2014 Masters, Industrial and Organizational Psychology, Michigan State University, 2017 Doctorate, Industrial and Organizational Psychology, Michigan State University, 2019	Prytherch, Ben	Senior Instructor	Bachelors, Mathematical Statistics, Colorado State University, 2008 Masters, Mathematical Statistics, Colorado State University, 2013

Purdy, Andrea	Associate Professor	Bachelors, International Relations and Affairs, Wichita State University, 1978 Bachelors, Spanish Language and Literature, Wichita State University, 1978 Masters, Spanish Language and Literature, Texas Tech University, 1981 Doctorate, Texas Tech University, 1987	Quinn, Jason	Professor	Bachelors, Colorado State University, 2002 Masters, Colorado State University, 2004 Doctorate, Colorado State University, 2011
Puttlitz, Christian	Professor	Bachelors, Michigan State University, 1992 Masters, Clemson University, 1993 Doctorate, University of Iowa, 1999	Quirk, Phillip	Assistant Professor	Bachelors, University Wisconsin Milwaukee, 1991 Masters, Colorado State University, 1996 Doctorate, Colorado State University, 1999
Pyle, David	Instructor	Bachelors, University of Colorado, Denver, 1981	Quynn, Kristina	Associate Professor	Bachelors, University of Colorado, Boulder, 1994 Masters, Montana State University, 1998 Doctorate, Michigan State University, 2009
Qahri-Saremi, Hamed	Assistant Professor	Bachelors, Iran University of Science and Technology, 2003 Masters, Tarbiat Modares University, 2005 Doctorate, McMaster University, 2014	Raabis, Sarah	Assistant Professor	Doctorate, University of Wisconsin Professional, Tufts University
Qian, Yaling	Professor	Bachelors, Biology, General, Hangzhou Teacher's College, 1981 Masters, Botany, General, Nanjing Agricultural University, 1988 Doctorate, Horticulture Science, Kansas State University, 1996	Raadik Cottrell, Jana	Assistant Professor	Bachelors, Art, General, Tallinn University, 1989 Masters, Parks, Recreation and Leisure Studies, Wageningen University, 2005 Doctorate, Natural Resources Conservation, General, Colorado State University, 2010
Quackenbush, Sandra	Professor	Bachelors, The Ohio State University, 1979 Masters, Colorado State University, 1987 Doctorate, Colorado State University, 1994	Rabensteine, Michael	Instructor	Bachelors, Cal Poly San Luis Obispo, 1991 Masters, Colorado State University, 2020
Quillmann, Ursula	Assistant Professor	Associates, Mathematics, Gavilan Community College, 1988 Masters, Geology, University of Colorado at Boulder, 2006 Doctorate, Geology, University of Colorado at Boulder, 2014	Racey, Noah	Assistant Professor	Bachelors, The Boston Conservatory
			Radford, Donald	Professor	Bachelors, Mechanical Engin., U BRITISH COLUM, 1980 Masters, Metallurgical Engin., U BRITISH COLUM, 1982 Doctorate, Material Engin., RENSSELAER POLY, 1987
			Rael, Lauren	Instructor	Bachelors, Colorado State University, 2016
			Ragan, Izabela	Assistant Professor	
			Raguet-Schofield, Melissa	Senior Instructor	Doctorate, Anthropology, University of Illinois, 2010
			Raines, Karen	Associate Professor	Masters, University of Texas at Arlington, 1985 Doctorate, CSU, 1990

Rajopadhye, Sanjay	Professor	Doctorate, Computer Science, University of Utah, 1986	University of Illinois-Urbana, 2008
Ramer, Rachelle	Assistant Professor	Bachelors, Mathematics, Goshen College, 2004 Masters, Medical Physics/Biophysics, University of Texas at SA Health Sci Center, 2008 Masters, Library Science, Other, University of Illinois at Urbana-Champaign, 2013	Bachelors, Kansas State University, 1996 Masters, Oklahoma State University, 2011 Doctorate, Oklahoma State University, 2013
Ramsdell, Howard	Associate Professor	Bachelors, Chemistry, General, POMONA COLLEGE, 1973 Doctorate, Biochemistry, OREGON STATE U, 1986	Bachelors, Chemistry, General, University of Puget Sound, 1974 Doctorate, Chemistry, General, California Institute of Technology, 1980
Randall, David	Professor	Bachelors, Aerospace, Aeronautical and Astronautical Engin., OHIO ST UNIV, 1971 Masters, Aerospace, Aeronautical and Astronautical Engin., OHIO ST UNIV, 1971 Doctorate, Atmospheric Sciences and Meteorology, UNIV OF CALIF, 1976	Bachelors, Atmospheric Sciences and Meteorology, University of Miami, 2007 Bachelors, Music, General, University of Miami, 2007 Masters, Atmospheric Sciences and Meteorology, University of Washington, 2011 Doctorate, Atmospheric Sciences and Meteorology, University of Washington, 2014
Randall, Elissa	Professor	Bachelors, History, General, Univ. of North Carolina-Chapel Hill, 1993 Professional, Veterinary Medicine (D.V.M.), VA-MD Regional College of Veterinary Medicine, 2001 Masters, Colorado State University, 2005	Bachelors, Psychology, General, Drury University, 2007 Masters, Counseling Psychology, Colorado State University, 2012 Doctorate, Counseling Psychology, Colorado State University, 2014
Rankin, Frederick	Professor	Bachelors, University of Florida, 1988 Doctorate, Texas A M, 1999	Bachelors, Geology, Colorado State University, 1985 Masters, Geology, University of Arizona, 1989 Doctorate, Geology, Colorado State University, 2001
Rao, Sangeeta	Associate Professor	Bachelors, Veterinary Medicine (D.V.M.), ANGR Agricultural University, Hyderabad, India, 1994 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), ANGR Agricultural University, Hyderabad, India, 1996 Doctorate, Epidemiology,	Bachelors, University of South Florida, 2002 Masters, Illinois State University, 2008 Doctorate, Illinois State University, 2015
Rapley, Eric	Associate Professor		
Rappe, Anthony	Professor		
Rasmussen, Kristen	Associate Professor		
Rassti, Roxanne	Instructor		
Rathburn, Sara	Professor		
Ratliff, Catherine	Senior Instructor		
Ravishankara, A. R. Ravi	Professor		Bachelors, University of Mysore, India, 1968 Masters, University of Mysore, India, 1970 Doctorate, University of Florida, 1975

Rawlinson, Jennifer	Associate Professor	Bachelors, Animal Sciences, General, Cornell University, 1995 Professional, Veterinary Medicine (D.V.M.), Cornell University, 1998	Reid, Louann	Professor	Bachelors, English Language and Literature, General, LINFIELD COLLEG, 1974 Masters, English Teacher Education, Washington State University, 1977 Doctorate, English Teacher Education, New York University, 1991
Ray, Indrajit	Professor	Doctorate, Information Sciences and Systems, George Mason University, 1997	Reid, Robin	Professor	Bachelors, Zoology, General, Duke University, 1979 Masters, Botany, General, University of Washington, 1983 Doctorate, Range Science and Management, Colorado State University, 1992
Ray, Indrakshi	Professor	Doctorate, George Mason University, 1997	Reinke, Jennifer	Associate Professor	Bachelors, University of Minnesota, 2004 Masters, Concordia University St. Paul, 2007 Doctorate, University of Minnesota, 2013
Raynolds, Laura	Professor	Bachelors, Sociology, BOWDOIN COLLEGE, 1981 Masters, Social Sciences and History, Other, CORNELL UNIV, 1987 Doctorate, Social Sciences and History, Other, CORNELL UNIV, 1993	Reiser, Raoul	Associate Professor	Bachelors, Mechanical Engin., Cornell University, 1991 Masters, Exercise Sciences/Physiology and Movement Studies, University of Texas, 1993 Doctorate, Mechanical Engin., Colorado State University, 2000
Reardon, Kenneth	Professor	Bachelors, Chemical Engin., UNIV OF PENN, 1981 Masters, Chemical Engin., CALIF INST TECH, 1983 Doctorate, Chemical Engin., CALIF INST TECH, 1987	Reisfeld, Brad	Professor	Bachelors, Chemical Engin., University of California - Davis, 1984 Masters, Chemical Engin., Pennsylvania State University, 1986 Doctorate, Chemical Engin., Northwestern University, 1990
Reddy, Anireddy	Professor	Bachelors, Botany, General, NG COLLEGE, 1976 Masters, Botany, General, KAKATIYA UNIV, 1979 Doctorate, Molecular Biology, JAWAHARLAL NEHR, 1984	Reising, Steven	Professor	Bachelors, Washington Univ in St. Louis, 1989 Masters, Washington Univ in St. Louis, 1991 Doctorate, Stanford University, 1998
Reeve, Andrea	Instructor	Masters, Curriculum and Instruction, Western Kentucky University, 1970			
Reeves, Justin	Instructor				
Regan, Dan	Assistant Professor	Bachelors, Biology, General, University of Georgia, 2007 Professional, Veterinary Medicine (D.V.M.), University of Georgia, 2011			

Reist, Noreen	Professor	Bachelors, Physiology, Human and Animal, Univ. of California at Berkeley, 1982 Doctorate, Neuroscience, Stanford University, 1990	Rhoades, Ryan	Associate Professor	Bachelors, Oklahoma State University, 2001 Masters, Animal Sciences, General, Texas AM University, 2004 Doctorate, Animal Sciences, General, Texas AM University, 2008
Rettig, Patricia	Associate Professor	Bachelors, English Language and Literature, General, Wittenberg University, 1996 Masters, Library Science/Librarianship, University of Maryland, 1998	Rhodes, Davina	Associate Professor	Bachelors, New College of Florida, 1999 Masters, University of Illinois, 2007 Doctorate, University of South Carolina, 2014
Reynolds, Ben	Assistant Professor	Bachelors, Chemistry, General, Northern Arizona University, 1997 Masters, Chemistry, General, Arizona State University, 1999	Rhodes, Matthew	Professor	Bachelors, Psychology, General, Francis Marion University, 1999 Masters, Cognitive Psychology and Psycholinguistics, Florida State University, 2002 Doctorate, Cognitive Psychology and Psycholinguistics, Florida State University, 2004
Reynolds, Melissa	Professor	Bachelors, Chemistry, General, Washington State University, 1997 Doctorate, Chemistry, General, University of Michigan, 2004	Rice, Collin	Assistant Professor	Bachelors, Simpson College, 2007 Masters, University of Missouri, 2009 Doctorate, University of Missouri, 2012
Reynolds, Stephen	Professor	Bachelors, Carleton College, 1977 Masters, University of Minnesota, 1983 Doctorate, Environmental Health, University of Minnesota, 1991	Richards, Tracy	Associate Professor	Bachelors, Psychology, General, Colorado State University, 1997 Masters, Counseling Psychology, Colorado State University, 2001 Doctorate, Counseling Psychology, Colorado State University, 2003
Rezende, Marlis	Associate Professor	Professional, Veterinary Medicine (D.V.M.), Universidade Federal Rural do Rio de Janeiro, 1996 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Universidade Estadual Paulista-UNESP, 2000 Doctorate, Veterinary Clinical Sciences (M.S., Ph.D.), Universidade Estadual Paulista-UNESP, 2003	Rickard, Kathryn	Associate Professor	Bachelors, Psychology, General, UNIV OF ALABAMA, 1979 Masters, Psychology, General, UNIV OF GEORGIA, 1981 Doctorate, Clinical Psychology, UNIV OF GEORGIA, 1983
			Ridley, John	Associate Professor	Bachelors, Geology, Queen's College, Cambridge, U.K., 1978 Doctorate, Geology, University of Edinburgh, U.K., 1982

Rieker, Julie	Professor	Bachelors, Syracuse University, 1987 Masters, The Pennsylvania State University, 1990 Doctorate, The Pennsylvania State University, 1992	Roberts, Jacob	Professor	Bachelors, Physics, General, University of Notre Dame, 1994 Doctorate, Optics, University of Colorado, 2001
Riep, Dave	Associate Professor	Bachelors, Communications, General, Asbury College, 1998 Masters, Art History, Criticism and Conservation, University of Kentucky, 2005 Professional, University of Iowa, 2011	Roberts, Robyn	Assistant Professor	Bachelors, Biology, General, Indiana University, 2011 Doctorate, Plant Pathology, University of Wisconsin-Madison, 2016
Riggs, Nathaniel	Professor	Bachelors, University of Washington, 1996 Masters, The Pennsylvania State University, 2001 Doctorate, Penn State University, 2003	Robertson, Gregory	Assistant Professor	Doctorate, Microbiology/Bacteriology, Louisiana State University, 2000
Riley, Kathie	Instructor	Bachelors, University of Northern Colorado, 1980 Professional, University of Denver, 1986	Robinson, Ann	Instructor	
Ritsema, Chris	Senior Instructor	Bachelors, Miami University, 1991 Masters, University of Arkansas, 1994 Doctorate, University of Arkansas, 2001	Robinson, Arnold	Instructor	Bachelors, Nicholss State University, 2005 Masters, Nicholls State University, 2007 Doctorate, Florida Atlantic University, 2014
Ritten, John	Associate Professor	Bachelors, Arizona State University, 2001 Masters, New Mexico State University, 2004 Doctorate, Colorado State University, 2008	Robinson, Gina	Instructor	Bachelors, Psychology, General, Vanderbilt University, 1984 Professional, Law (LL.B., J.D.), Washington University, School of Law, 1987
Rizzo, CK	Assistant Professor	Bachelors, University of North Carolina at Chapel Hill, 2010 Masters, Colorado State University, 2012 Doctorate, Colorado State University, 2015	Robinson, Trenten	Instructor	Bachelors, Colorado State University, 2017 Masters, Colorado State University, 2019
Roberts, Anthony	Associate Professor	Bachelors, Sociology, University of Wyoming, 2008 Masters, University of California Riverside, 2010 Doctorate, University of California Riverside	Rocca, Jorge	Professor	Bachelors, Physics, General, U ROSARIO-ARGEN, 1978 Doctorate, Electrical, Electronics and Communication Engin., COLO STATE UNIV, 1983
Roberts, Bonnie	Associate Professor	Doctorate, Unknown, 2017	Rocca, Monique	Associate Professor	Bachelors, Biological Sciences/Life Sciences, Other, Stanford University, 1996 Professional, Ecology, Duke University, 2004
			Rodgers, Tim	Senior Instructor	Bachelors, University of California Davis, 1976 Doctorate, University of California, Santa Cruz, 1982 Masters, University of Oregon, 1999

Rogers, Jack	Instructor	Bachelors, Long Island University, 1996 Masters, Georgia State University, 2012
Rogers, Zac	Associate Professor	Bachelors, University of Nevada, Reno, 2009 Doctorate, Arizona State University, 2015 Masters, Arizona State University
Rojas, David	Assistant Professor	Professional, National Autonomous University of Mexico, Mexico City, Mexico, 2004 Masters, Autonomous University of Barcelona, Barcelona, Spain, 2009 Doctorate, University Pompeu Fabra, Barcelona, Spain, 2013
Rojas, Don	Professor	Bachelors, Psychology, General, Colorado State University, 1990 Masters, Experimental Psychology, Colorado State University, 1992 Doctorate, Experimental Psychology, Colorado State University, 1995
Roller, James	Senior Instructor	Bachelors, University of California at Santa Cruz, 1994 Masters, Colorado State University, 2010
Romagni, Domenica	Assistant Professor	Bachelors, Philosophy, John Hopkins University, 2010 Masters, Philosophy, Princeton University, 2015 Doctorate, Philosophy, Princeton University, 2018
Roman-Muniz, Noa	Professor	Professional, Veterinary Medicine (D.V.M.), University of Wisconsin-Madison, 2001 Masters, Adult and Continuing Education Administration, Colorado State University, 2004

Ronayne, Michael	Associate Professor	Bachelors, Geological Sciences, Other, Ohio University, 1994 Masters, Miscellaneous Physical Sciences, Other, University of Arizona, 1996 Doctorate, Miscellaneous Physical Sciences, Other, Stanford University, 2008
Roper, John	Instructor	Doctorate, Grand Canyon Univ, 2021
Roper, Kody	Assistant Professor	Bachelors, Psychology, General, Fort Lewis College, 2014 Masters, Counselor Education Counseling and Guidance Services, Colorado State University, 2016 Doctorate, Counselor Education Counseling and Guidance Services, Colorado State University, 2021
Rosecrance, John	Professor	Bachelors, Physical Therapy, California State University, 1981 Masters, Physical Therapy, University of North Carolina, 1986 Doctorate, Occupational Therapy, University of Iowa, 1993
Rosen, Lee	Professor	Bachelors, Psychology, Other, U OF MINNESOTA, 1978 Masters, Clinical Psychology, SUNY Stony Brook, 1982 Doctorate, Clinical Psychology, SUNY Stony Brook, 1984
Rosenberg, Corey	Assistant Professor	Bachelors, Univ of Wyoming, 1993 Doctorate, Univ of Wyoming, 1998
Ross, Eric	Professor	Bachelors, Biophysics, Yale University, 1996 Doctorate, Biochemistry, Mayo Foundation, 2001
Ross, Matthew	Assistant Professor	Bachelors, Ecology, University of Colorado at Boulder, 2010 Doctorate, Ecology, Duke University, 2017
Rothfeder, Robin	Assistant Professor	

Rotner, Jaime	Instructor	Masters, Colorado State University, 2007
Rout, Emily	Assistant Professor	Bachelors, Biology, General, Colby College, 2007 Professional, Veterinary Medicine (D.V.M.), Colorado State University, 2013
Rowe, Karen	Instructor	Bachelors, Business Teacher Education (Vocational), Colorado College (UNC), 1969 Masters, Business Teacher Education (Vocational), Colorado State University, 1983 Doctorate, Business Teacher Education (Vocational), Colorado State University, 1987
Rowh, Marta	Instructor	
Rubino, Nick	Instructor	Bachelors, Colorado State University, 2007
Ruch-Gallie, Rebecca	Associate Professor	Professional, Veterinary Medicine (D.V.M.), Colorado State University, 1999 Masters, Epidemiology, Colorado State University, 2002
Ruegg, Kristen	Associate Professor	Doctorate, University of California, Berkley, 2007
Rugenstein, Jeremy	Assistant Professor	Bachelors, Earth and Planetary Sciences, Rice University, 2009 Doctorate, Earth and Planetary Sciences, Stanford University, 2016
Rugenstein, Maria	Assistant Professor	Bachelors, Environmental Science/ Studies, ETH Zurich, 2009 Masters, Atmospheric Sciences and Meteorology, ETH Zurich, 2011 Doctorate, Atmospheric Sciences and Meteorology, ETH Zurich, 2016
Rush, Jill	Instructor	Bachelors, Elementary, Middle and Secondary Education Administration, Kansas State University, 1994

Rushing, Jess	Assistant Professor	Bachelors, Florida State University, 2007 Masters, Florida State University, 2009 Doctorate, University of Kentucky, 2019
Russon, David	Instructor	
Rutledge, Steven	Professor	Bachelors, Physics, General, UNIV OF MISSOURI, 1978 Doctorate, Atmospheric Sciences and Meteorology, UNIV OF WASH, 1983
Ruzicka, Becky	Instructor	
Ryan, Ajean	Associate Professor	Bachelors, Painting, University of California at Los Angeles, 1993 Masters, Sculpture, University of California at Berkeley, 2000
Ryan, Elizabeth	Professor	Bachelors, Bowling Green State University, 1996 Masters, University of Rochester, School of Medicine Dentistry, 2003 Doctorate, University of Rochester, 2006
Ryan, Patricia	Associate Professor	Doctorate, University of South Florida, 1995
Saavedra Rodriguez, Karla	Assistant Professor	Bachelors, Biology, General, Universidad Autonoma de Nuevo Leon Mexico, 1998 Masters, Entomology, Universidad Autonoma de Nuevo Leon Mexico, 2004 Doctorate, Entomology, Universidad Autonoma de Nuevo Leon Mexico, 2007
Sabbath, Karyl	Master Instructor	Bachelors, Bowling Green State University, 1979 Masters, Northern Arizona University, 1982 Doctorate, Ohio University, 1988
Sabin, Eleanor	Instructor	Bachelors, Rhode Island School of Design, 2006 Masters, Cranbrook Academy of Art, 2016
Sadar, Miranda	Associate Professor	Bachelors, Colorado State University, 2005 Professional, Colorado State University, 2009

Safadi-Chamberlain, Farida	Associate Professor	Bachelors, Animal Sciences, General, University of Jordan, 1977 Masters, Plant Sciences, General, University of Jordan, 1983 Doctorate, Horticulture Science, Colorado State University, 1992	Sampath, Walajabad	Professor	Bachelors, Mechanical Engin., INDIAN INST TEC, 1980 Masters, Mechanical Engin., AZ STATE UNIV, 1982 Doctorate, Mechanical Engin., AZ STATE UNIV, 1985
Sagas, Ernesto	Professor	Bachelors, University of Puerto Rico-Mayaguez, 1986 Masters, University of Florida, 1988 Doctorate, University of Florida, 1993	Sample McMeeking, Laura	Associate Professor	Bachelors, Atmospheric Sciences and Meteorology, Texas AM University, 2003 Masters, Atmospheric Sciences and Meteorology, Colorado State University, 2005
Sagas, Jimena	Associate Professor	Bachelors, Colorado State University, 2009 Certificate, Latin American Studies, Colorado State University, 2009 Masters, Library Science, Other, University of Denver, 2012	Sanford, William	Associate Professor	Bachelors, Geology, Beloit College, 1983 Masters, Geophysics and Seismology, Cornell University, 1986 Doctorate, Agricultural Engin., Cornell University, 1992
Saiz, LeRoy	Instructor	Bachelors, Metropolitan State University, 2011 Masters, Colorado State University, 2014	Sanner, Christian	Assistant Professor	Doctorate, Heidelberg University- Germany
Sakata, Hisashi	Instructor		Sanning, Lee	Master Instructor	Bachelors, Hanover College Indiana, 1991 Doctorate, University of Wyoming, 1999 Doctorate, Indiana University, 2006
Salerno, Jon	Assistant Professor	Bachelors, Biology, General, University of Rochester, 2002 Masters, Ecology, University of California, 2013 Doctorate, Ecology, University of California Davis, 2015	Santangelo, Kelly	Associate Professor	Bachelors, Biology, General, Rochester Institute of Technology, 2000 Professional, Veterinary Medicine (D.V.M.), Cornell University, 2004 Doctorate, Veterinary Clinical Sciences (M.S., Ph.D.), Ohio State University, 2011
Salman, Mo	Professor	Bachelors, Veterinary Medicine (D.V.M.), U OF BAGHDAD, 1973 Masters, Biological Sciences/Life Sciences, Other, U OF CALIFORNIA, 1980 Doctorate, Pathology, Human and Animal, U OF CALIFORNIA, 1983	Santangelo, Tom	Professor	Doctorate, Biochemistry, Cornell University, 2003
Sambur, Justin	Associate Professor	Bachelors, The State University of New York (SUNY), 2006 Doctorate, Colorado State University, 2011	Santistevan, Tiare	Master Instructor	Bachelors, Agriculture/ Agricultural Sciences, Other, Colorado State University, 1999 Masters, Agriculture/ Agricultural Sciences, Other, Colorado State University, 2001

Sarason, Yolanda	Associate Professor	Bachelors, Unspecified, please update, 1979 Masters, Unspecified, please update, 1986 Doctorate, Unspecified, please update, 1997	Scansen, Brian	Professor	Bachelors, Oceanography, University of Washington, 2000 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Michigan State University, 2004 Professional, Veterinary Medicine (D.V.M.), Michigan State University, 2004
Saunders, Kyle	Professor	Bachelors, Political Science, General, Ohio State University, 1994 Masters, Political Science, General, Emory University, 1999 Doctorate, Political Science and Government, Other, Emory University, 2001	Scarborough, Ryan	Instructor	Bachelors, Psychology, General, Rocky Mountain College, 2000 Masters, Social Work, Colorado State University, 2004
Saunders, Mark	Master Instructor	Bachelors, Southern Illinois University, 1998 Masters, Colorado State University, 2005	Schaeffer, Joshua	Associate Professor	Bachelors, The College of Wooster, 2001 Masters, Colorado State University, 2008 Doctorate, Environmental Health, Colorado State University, 2013
Say, Benjamin	Instructor	Bachelors, Computer and Information Sciences, General, University of South Dakota, 2007 Masters, Computer Science, University of South Dakota, 2009	Schaffer, Paula	Associate Professor	Bachelors, Biological Sciences/Life Sciences, Other, Stanford University, 2005 Professional, Veterinary Medicine (D.V.M.), University of Tennessee, 2009
Sbicca, Joshua	Associate Professor	Bachelors, Santa Clara University, 2005 Masters, University of Florida, 2010 Doctorate, University of Florida, 2014	Schaller, Garrett	Assistant Professor	Masters, Texas Tech University, 2013 Masters, Texas Tech University, 2013 Doctorate, University of Texas at Austin, 2020
Scalia IV, Joe	Associate Professor	Bachelors, Bucknell University, 2007 Masters, University of Wisconsin - Madison, 2009 Doctorate, University of Wisconsin - Madison, 2015	Schaller, Zachary	Assistant Professor	Bachelors, Western Colorado University, 2015 Masters, University of California, Irvine, 2016 Doctorate, University of California, Irvine, 2020
Scanga, John	Master Instructor	Bachelors, Animal Sciences, General, Colorado State University, 1996 Masters, Animal Sciences, Other, Colorado State University, 1997 Doctorate, Animal Sciences, General, Colorado State University, 1999	Scharf, Louis	Professor	Bachelors, Electrical, Electronics and Communication Engin., UNIV WASH, 1964 Masters, Electrical, Electronics and Communication Engin., UNIV WASH, 1966 Doctorate, Electrical, Electronics and Communication Engin., UNIV WASH, 1969

Schauer, Grant	Assistant Professor	Doctorate, Biophysics, Univ of PA and Carnegie Mellon Univ, 2013
Schenkel, Alan	Associate Professor	Bachelors, University of Colorado-Boulder, 1993 Doctorate, University of Wisconsin-Madison, 1998
Schicke, Joe	Instructor	Masters, Colorado State University, 2011
Schillo, John	Senior Instructor	Bachelors, Liberal Arts and Sciences/Liberal Studies, St. John's College, 1985 Masters, Teaching English as a Second Language/ Foreign Language, Monterey Institute of International Studies, 1990
Schipanski, Meagan	Associate Professor	Doctorate, Cornell University, 2009 Bachelors, Biology, General, Oberlin College
Schlehuber, Emily	Instructor	
Schlein, Lisa	Assistant Professor	
Schmid, Arlene	Professor	Masters, D'Youville College, 1997 Doctorate, University of Florida, 2005
Schmidt, Jenne	Assistant Professor	Bachelors, Willamette University, 2008 Masters, San Francisco State University, 2012 Doctorate, Washington State University, 2021
Schneider, Lindsey	Assistant Professor	Bachelors, Willamette University, 2008 Masters, University of California - Riverside, 2012 Doctorate, University of California - Riverside, 2016
Schneidmueller, Birgit	Instructor	Bachelors, Tulane University, 2006 Masters, Maastricht University, 2008 Doctorate, York University, Toronto Canada, 2016
Schoessow, Kim	Assistant Professor	Bachelors, University of Miami, 2005 Professional, Washington University in St. Louis, 2008

Schonlau, Rob	Associate Professor	Masters, Brigham Young University, 2004 Masters, University of Washington, 2008 Doctorate, University of Washington, 2010
Schountz, Tony	Professor	Bachelors, Biology, General, Newman University, 1986 Masters, Virology, Emporia State University, 1991 Doctorate, Biological Immunology, Kansas State University, 1996
Schultz, Courtney	Professor	Bachelors, International Relations and Affairs, Stanford University, 1997 Masters, Conservation and Renewable Natural Resources, Other, University of Maryland, College Park, 2004 Doctorate, Forestry, General, University of Montana, 2009
Schumacher, Russ	Professor	Bachelors, VALPARAISO, 2001 Masters, Atmospheric Sciences and Meteorology, Colorado State University, 2003 Doctorate, Atmospheric Sciences and Meteorology, Colorado State University, 2008
Schutt, Derek	Professor	Bachelors, Physics, General, Kalamazoo, 1991 Bachelors, Mathematics, University of Oregon, 1992 Doctorate, Geology, University of Oregon, 2000
Schwebach, Robert	Associate Professor	Bachelors, University of South Dakota, 1980 Bachelors, University of South Dakota, 1981 Masters, University of South Dakota, 1983 Doctorate, University of Nebraska-Lincoln, 1992
Scolere, Leah	Assistant Professor	Doctorate, Communications, General, Cornell University, 2017

Scorza, Valeria	Instructor	Professional, Veterinary Medicine (D.V.M.), La Plata National University (Buenos Aires), 1993 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 2001 Doctorate, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 2007	Sebek, Barbara	Professor	Bachelors, University of Chicago, 1986 Masters, University of Illinois, 1989 Doctorate, University of Illinois, 1994
Scott, Anne	Instructor		Sedlins, Mara	Associate Professor	Bachelors, Psychology, Other, St. Olaf College, 2003 Doctorate, Social Psychology, University of Washington, 2012
Scott, Janelle	Instructor	Bachelors, Cell and Molecular Biology, Other, Marymount University, 2008 Professional, Veterinary Medicine (D.V.M.), Kansas State University, 2012	Seeger, Carol	Professor	Bachelors, Psychology, General, Harvard and Radcliffe Colleges, 1987 Masters, Cognitive Psychology and Psycholinguistics, University of California, Los Angeles, 1991 Doctorate, Cognitive Psychology and Psycholinguistics, University of California, Los Angeles, 1994
Scott, Ryan	Associate Professor	Bachelors, Washington State University, 2012 Masters, University of Washington, 2014 Doctorate, University of Washington, 2017	Seidl, Andrew	Professor	Bachelors, International Economics, University of Wisconsin, 1985 Masters, University of Florida, 1993 Doctorate, University of Florida, 1996
Seabaugh, Katie	Associate Professor	Professional, Veterinary Medicine (D.V.M.), Washington State University, 2007 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 2011	Seidle, Julie	Assistant Professor	
Seabolt, Logan	Instructor		Seim III, Howard	Professor	Bachelors, Veterinary Clinical Sciences (M.S., Ph.D.), WASHINGTON ST U, 1974 Professional, Veterinary Medicine (D.V.M.), WASHINGTON ST U, 1975
Searle, Juliana	Instructor	Bachelors, Individual and Family Development Studies, General, Colorado State University, 2011 Masters, Education, General, Colorado State University, 2013	Seitz, Deanne	Senior Instructor	Associates, Front Range Community College, 1985 Bachelors, Arizona State University, 1992 Masters, Colorado State University, 2016
Sebald, Ann	Associate Professor	Bachelors, Elementary Teacher Education, University of Montana, 1993 Masters, Education of the Deaf and Hearing Impaired, University of Northern Colorado, 1996 Doctorate, Special Education, Other, University of Northern Colorado, 2005	Seman, Michael	Assistant Professor	Bachelors, Pennsylvania State University, 1991 Masters, University of North Texas, 2007 Doctorate, University of Texas at Arlington, 2014

Seng, Stephanie	Instructor	Bachelors, NE Wesleyan University, 1987 Masters, Colorado State University, 1994
Seo, Hyeji	Instructor	Bachelors, Sookmyung Women's University, 2011 Masters, Western Illinois University, 2013 Masters, Michigan State University, 2017 Doctorate, Michigan State University, 2018
Shaby, Ben	Associate Professor	Doctorate, Mathematical Statistics, Cornell University, 2009
Shackelford, Charles	Professor	Bachelors, Civil Engin., General, University of Missouri Rolla, 1980 Masters, Geotechnical Engin., UNIV OF TEXAS, 1983 Doctorate, Geotechnical Engin., UNIV OF TEXAS, 1988
Shaffer, Staci	Instructor	Masters, Univ of Colorado at Denver, 2007
Shakouri, Mahmoud	Assistant Professor	Masters, Unknown, 2012 Masters, Unknown, 2014 Doctorate, Unknown, 2017
Sharpe, Mandy	Instructor	Bachelors, Colorado State University, 2004
Sharvelle, SYBIL	Professor	Bachelors, University of Colorado, 1998 Masters, University of Colorado, 2002 Doctorate, Purdue University, 2006
Shaw, Jane	Professor	Bachelors, Animal Sciences, General, Cornell University, 1990 Professional, Veterinary Medicine (D.V.M.), Michigan State University, 1994 Doctorate, Epidemiology, University of Guelph, 2004

Sheehan, John	Associate Professor	Bachelors, Chemical Engin., University of Pennsylvania, 1979 Masters, Chemical Engin., Lehigh University, 1985 Doctorate, University of Minnesota
Sheflin, Douglas	Senior Instructor	Bachelors, University of Wisconsin-Madison, Madison, WI, 1999 Doctorate, University of Colorado at Boulder, CO, 2012
Shelstad, Mark	Associate Professor	Bachelors, Social Studies Teacher Education, Minnesota, 1990 Masters, Public/ Applied History and Archival Administration, Wisconsin Milwaukee, 1992
Sherlock, Jake	Instructor	Bachelors, University of Wyoming Masters, University of Wyoming
Shi, Chenlu	Assistant Professor	Bachelors, St Francis Xavier University, 2015 Masters, Simon Fraser University, 2017 Doctorate, Simon Fraser University, 2019
Shields, Martin	Professor	Bachelors, Michigan State, 1989 Masters, The Pennsylvania State University, 1991 Doctorate, Agricultural Economics, University of Wisconsin, 1998
Shipman, Patrick	Professor	Bachelors, Linguistics, University of Arizona, 1999 Bachelors, Mathematics, University of Arizona, 1999 Doctorate, Mathematics, University of Arizona, 2004

Shockley, Ken	Professor	Bachelors, Philosophy, University of Wisconsin-Madison, 1993 Masters, Philosophy, SUNY-Buffalo, 1995 Doctorate, Philosophy, Washington University, 2002	Shriner, Jeff	Assistant Professor	Bachelors, Chemistry, General, Hope College, 2007 Masters, Mathematics, Purdue University Fort Wayne, 2010 Doctorate, Mathematics, University of Colorado Boulder, 2015
Shoemaker, Mark	Associate Professor	Bachelors, Mathematics, University of Puget Sound, 2008 Doctorate, Mathematics, University of Michigan, 2013	Shropshire, Sarah	Assistant Professor	Bachelors, Microbiology/Bacteriology, Colorado State University, 2005 Professional, Veterinary Medicine (D.V.M.), Colorado State University, 2011 Doctorate, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 2018
Sholders, Aaron	Associate Professor	Bachelors, Chemistry, General, University of Northern Colorado, 2001 Masters, Biochemistry, Colorado State University, 2003 Doctorate, Biochemistry, Colorado State University, 2006	Shuey, Mark	Senior Instructor	Bachelors, University of Northern Colorado, 2011 Masters, University of Northern Colorado, 2013
Shomaker, Lauren	Associate Professor	Bachelors, University of Virginia, 2001 Masters, University of Denver, 2004 Doctorate, University of Denver, 2007	Shulman, Steven	Professor	Bachelors, Economics, General, UNIV OF MASS, 1977 Masters, Economics, General, UNIV OF MASS, 1979 Doctorate, Economics, General, UNIV OF MASS, 1984
Shonkwiler, Clayton	Associate Professor	Bachelors, Mathematics, Sewanee: The University of the South, 2003 Doctorate, Mathematics, University of Pennsylvania, 2009	Shupe, Abigail	Associate Professor	Bachelors, Indiana University, 2007 Masters, Indiana University, 2009 Doctorate, University of Western Ontario, 2015
Shore, Lynn	Professor	Bachelors, Psychology, General, University of Oregon, 1977 Masters, Industrial and Organizational Psychology, Colorado State University, 1983 Doctorate, Industrial and Organizational Psychology, Colorado State University, 1985	Shuster, Bill	Master Instructor	Bachelors, History, General, Colorado State University, 1987 Masters, Business Communications, University of Northern Colorado, 1992 Masters, Business Administration and Management, General, Colorado State University, 2000
Shores, Matthew	Professor	Bachelors, Gustavus Adolphus College, 1997 Doctorate, Chemistry, General, University of California Berkeley, 2002			
Shrestha, Umit	Assistant Professor				

Shutters, Lynn	Associate Professor	Bachelors, University of Virginia, 1995 Masters, New York University, 2000 Doctorate, New York University, 2004
Sibold, Jason	Professor	Bachelors, Geography, University of Colorado, 1998 Masters, Geography, University of Colorado, 2001 Doctorate, Geography, University of Colorado, 2005
Sica, Rob	Assistant Professor	Masters, Library Science/Librarianship, Florida State University, 2000 Bachelors, Philosophy, Furman University
Sieker, Fritz	Instructor	Bachelors, Civil Engin., Other, University of Wisconsin, 1970 Masters, Civil Engin., Other, University of Wisconsin, 1972 Masters, Computer Science, Colorado State University, 1989
Sikes, Katie	Assistant Professor	
Siller, Thomas	Associate Professor	Bachelors, Civil Engin., General, State University of NY Buffalo, 1979 Masters, Civil Engin., General, University of Massachusetts Amherst, 1981 Doctorate, Civil Engin., General, Carnegie Mellon University, 1988
Simpson, Katie	Associate Professor	Bachelors, Animal Sciences, General, Texas AM University, 2002 Professional, Veterinary Medicine (D.V.M.), Texas AM University, 2006 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Oklahoma State University, 2013
Simpson, Sherona	Instructor	
Simske, Steve	Professor	Doctorate, University of Colorado, Boulder, 1990

Singleton, John	Associate Professor	Bachelors, Geology, Pomona College, 2001 Masters, Geology, University of California at Santa Barbara, 2004 Doctorate, Geology, University of Texas at Austin, 2011
Sink, Elizabeth	Master Instructor	Bachelors, Aquinas College, 1999 Masters, Colorado State University, 2006
Sites, James	Professor	Bachelors, Physics, General, DUKE UNIV, 1965 Masters, Physics, General, CORNELL UNIV, 1968 Doctorate, Physics, General, CORNELL UNIV, 1969
Sivakumar, Gaya	Associate Professor	Doctorate, Communications, Other, University of Wisconsin, 2014
Sjaland-Dillenbeck, Linda	Assistant Professor	Professional, University of Sydney, 2012
Skiba, Hilla	Associate Professor	Bachelors, University of Kansas, 2002 Masters, University of Kansas, 2004 Doctorate, University of Kansas, 2008
Skov, Erik	Instructor	Bachelors, Colorado State University, 2006 Masters, Colorado State University, 2013
Slater, John	Professor	Doctorate, Brandeis University, 2004
Slayden, Richard	Professor	Doctorate, Colorado State Univ, 1997
Slejko, Gina	Associate Professor	Doctorate, University of Colorado, 2009
Sloan, Dan	Associate Professor	Bachelors, Wesleyan University, 2003 Doctorate, Biology, General, University of Virginia, 2011
Sloane, Sarah	Professor	Bachelors, Middlebury College, 1979 Masters, Univ of Mass, Amherst, 1987 Masters, Carnegie Mellon Univ., 1988 Doctorate, Ohio State Univ., 1991
Sly, Brittney	Assistant Professor	Bachelors, Colorado State University, 2006
Smanik, Lauren	Assistant Professor	

Smith II, Frank	Instructor	Bachelors, Air Force Academy, 1984 Masters, Chapman University, 1989 Doctorate, Texas Tech Univ., 2005	Snell, Ann	Instructor	Masters, Marshall University, 1994
Smith, Amy	Instructor		Snell, Mike	Instructor	Bachelors, University of Northern Colorado, 1985 Masters, University of Colorado at Denver, 1998
Smith, Bret	Professor	Bachelors, University of Tennessee Health Science Center, 1985 Doctorate, Gustavus Adolphus College, 1992	Snodgrass, Jeffrey	Professor	Bachelors, Molecular Biology, Vanderbilt University, 1988 Masters, Anthropology, University of California, San Diego, 1990 Doctorate, Anthropology, University of California, San Diego, 1997
Smith, Charles	Master Instructor	Bachelors, Tech. Teacher Education/Industrial Arts Teacher Education, COLO STATE UNIV, 1974 Masters, Tech. Teacher Education/Industrial Arts Teacher Education, COLO STATE UNIV, 1975 Doctorate, Trade and Industrial Teacher Education (Vocational), COLO STATE UNIV, 1987	Snow, Chris	Professor	Bachelors, Massachusetts Institute of Technology, 2000 Doctorate, Stanford University, 2006
Smith, Gary	Professor	Bachelors, Agriculture/Agricultural Sciences, General, CA STATE UNIV, 1960 Masters, Animal Sciences, General, WA STATE UNIV, 1962 Doctorate, Animal Sciences, General, TEXAS AM UNIV, 1968	Sobral, Bruno	Professor	Professional, Civil Engin., Other, Universidade Federal de Vicosa, Vicosa, Minas Gerais, Brazil, 1985 Doctorate, Iowa State University, 1989
Smith, Melinda	Professor	Bachelors, Biology, General, University of Colorado, 1992 Masters, Biology, General, Kansas State University, 1998 Doctorate, Biology, General, Kansas State University, 2002	Solomon, Jennifer	Associate Professor	Bachelors, Political Science, General, University of Buffalo, 1994 Masters, Environmental Science/Studies, Tufts University, 2000 Doctorate, Ecology, University of Florida, 2007
Smith, Ryan	Assistant Professor	Bachelors, Geological Sciences, Other, Brigham Young University Doctorate, Geophysical Engin., Stanford University	Sommer, Peter	Professor	Bachelors, Music - General Performance, University of CO at Boulder, 1999 Masters, Music - General Performance, University of CO Boulder, 2002
Smith, Scott	Instructor	Bachelors, Bluffton University, 1978 Masters, UNLV, 1988 Doctorate, University of Missouri-Columbia, 2001	Sorensen, Leif	Professor	Bachelors, Univ. of California Berkeley, 1994 Masters, San Francisco State University, 1997 Doctorate, New York University, 2005

Soto, Hortensia	Professor	Masters, Mathematics Teacher Education, Chadron State College, 1989 Masters, Mathematics, University of Arizona, 1994 Doctorate, Mathematics Teacher Education, University of Northern Colorado, 1996	Spraker, Terry	Professor	Bachelors, Veterinary Medicine (D.V.M.), COLO STATE UNIV, 1970 Professional, Veterinary Medicine (D.V.M.), COLO STATE UNIV, 1972 Doctorate, Pathology, Human and Animal, COLO STATE UNIV, 1977
Souza, Caridad	Associate Professor	Bachelors, State University of NY College at Oneonta, 1986 Masters, University of California, Berkeley, 1989 Doctorate, University of California, Berkeley, 1995	Sreedharan, Sarath	Assistant Professor	Bachelors, Computer Science, CUSAT (moedl Engg. College), 2011 Masters, Computer Science, Arizon State University, 2016 Doctorate, Computer Science, Arizon State University, 2022
Sowell, Jordan	Senior Instructor	Bachelors, German Language and Literature, Colorado State University, 2003 Masters, Teaching English as a Second Language/Foreign Language, Colorado State University, 2007	Stackhouse-Lawson, Kim	Professor	Bachelors, University of California Davis, 2006 Masters, University of California Davis, 2008 Doctorate, University of California Davis, 2011
Sparks, Brad	Instructor		Stallones, Lorann	Professor	Bachelors, Anthropology, U OF CALIFORNIA, 1974 Doctorate, Epidemiology, U OF TEXAS, 1982
Speidel, Scott	Associate Professor	Bachelors, Animal Sciences, General, California State University Fresno, 1998 Masters, Animal Sciences, General, University of Arizona, 2001 Doctorate, Colorado State University, 2011	Stanley, Michelle	Professor	Bachelors, University of New Hampshire, 1994 Masters, University of Colorado, Boulder, 1996 Doctorate, University of Colorado, Boulder, 2002
Spencer, John	Associate Professor	Bachelors, University of Pennsylvania, PA, 1975 Masters, University of Hawaii, Honolulu, HI, 1981 Doctorate, University of Hawaii, 1986	Stansloski, Mitchell	Professor	Bachelors, Ohio Northern University, 1988 Masters, Mississippi State University, 1996 Doctorate, Colorado State University, 2010
Spencer, Kimberly	Master Instructor	Masters, University of Northern Colorado, 1993 Bachelors, University of Northern Colorado	Stargell, Laurie	Professor	Bachelors, Biology, General, University of Virginia, 1986 Masters, Biology, General, University of Rochester, 1988 Doctorate, Biology, General, University of Rochester, 1993
			Starke, Daniel	Instructor	Bachelors, CSU, 1998 Masters, University of Colorado at Denver, 2006 Certificate, CFA, 2018

Staros, Michelle	Instructor	Associates, Palm Beach Community College, 2005	Stenson, Peter	Instructor	Masters, Colorado State University, 2012 Masters, Western Colorado State, 2017
Stasevich, Tim	Associate Professor	Doctorate, Physics, General, University of Maryland, 2006	Stephens, Jaclyn	Associate Professor	Bachelors, Illinois Wesleyan University, 2007 Masters, Washington University in St. Louis, 2009 Doctorate, University of Nevada, Reno, 2015
Stecula, Dominik	Assistant Professor	Bachelors, University of Michigan-Dearborn, 2008 Masters, McGill University, 2012 Doctorate, University of British Columbia, 2018	Stevens-Rumann, Camille	Associate Professor	Bachelors, Biology, General, Brandeis University, 2007 Masters, Forestry, General, Northern Arizona University, 2011 Doctorate, Natural Resources Conservation, General, University of Idaho, 2015
Steele, Chisato	Instructor	Associates, Hokusei Gakuen Junior College, 1997 Bachelors, University of Nebraska at Kearney, 2006 Masters, University of Nebraska at Lincoln, 2014	Stavis, Dimitris	Professor	Bachelors, Political Science, General, DEPAUW UNIV, 1977 Masters, Political Science, General, U OF ARIZONA, 1983 Doctorate, Political Science, General, U OF ARIZONA, 1987
Steensen, Sasha	Professor	Bachelors, University of Nevada, 1997 Masters, University of Nevada, 2000 Doctorate, SUNY, Buffalo, 2005	Stewart, Jane	Associate Professor	Masters, Forestry, General, University of Vermont, 2003 Doctorate, Plant Pathology, Washington State University, 2011
Steger, Michael	Professor	Bachelors, Psychology, General, Macalester College, 1988 Masters, Counseling Psychology, University of Oregon, 1997 Doctorate, Counseling Psychology, University of Minnesota, 2005	Stickel, Jenn	Instructor	Bachelors, Colorado State University, 2003 Masters, Colorado State University, 2015
Stein, Chris	Senior Instructor	Bachelors, University of Wyoming, 1991 Masters, Colorado State University, 1994	Still Brooks, Kelly	Assistant Professor	Bachelors, Animal Sciences, Other, Berry College, 2001 Professional, Veterinary Medicine (D.V.M.), Cornell University, 2005 Masters, Public Health, General, University of Iowa, 2010
Steinway, Elizabeth	Instructor	Doctorate, The Ohio State University			
Stekelberg, James	Associate Professor	Bachelors, Rutgers University, 2002 Masters, University of Southern California, 2004 Doctorate, University of Southern California, 2013			
Stenglein, Mark	Associate Professor	Bachelors, Mathematics, Washington University in Saint Louis, 1997 Doctorate, Biochemistry, University of Minnesota, 2009			

Stilwell, Jill	Senior Instructor	Bachelors, Graphic Design, Commercial Art and Illustration, Colorado State University, 1991 Masters, Art History, Criticism and Conservation, University of Denver, 1998	Suarez Garcia, Jose	Professor	Bachelors, Foreign Languages and Literatures, General, University of Granada, Spain, 1984 Masters, Spanish Language and Literature, University of Illinois, Urbana, 1986 Doctorate, Spanish Language and Literature, University of Illinois, Urbana, 1991
Stone, Cayla	Instructor	Bachelors, Colorado State University, 2010	Suchman, Erica	Professor	Bachelors, University of California, San Diego, 1987 Doctorate, University of California, Irvine, 1994
Stone-Roy, Leslie	Associate Professor	Bachelors, Biology, General, University of Colorado at Denver, 1990 Doctorate, Cell Biology, University of Colorado Health Sciences Center, 1996	Sudowe, Ralf	Professor	Masters, Philipps-Universitat Marburg, Germany, 1995 Doctorate, Philipps-Universitat Marburg, Germany, 1999
Story, Melinda	Assistant Professor	Professional, Veterinary Medicine (D.V.M.), Colorado State University, 1999	Sueltenfuss, Jeremy	Assistant Professor	Bachelors, Biology, General, Colorado College, 2007 Masters, Ecology, Colorado State University, 2012 Doctorate, Ecology, Colorado State University, 2018
Stright, Lisa	Associate Professor	Bachelors, Civil Engin., General, University of Colorado Boulder, 1995 Masters, Geological Engin., Michigan Tech, 1999 Masters, Petroleum Engin., Stanford University, 2006 Doctorate, Geological Sciences, Other, Stanford University, 2011	Sullivan-Ortiz, Erin	Instructor	Bachelors, Music, General, College of Holy Cross, 2004 Masters, Social Work, Colorado State University, 2011
Stroman, Shilo	Senior Instructor	Masters, Colorado State University, 2008	Suter, Jordan	Professor	Bachelors, Vanderbilt University, 1999 Masters, Applied and Resource Economics, Cornell University, 2003 Doctorate, Applied and Resource Economics, Cornell University, 2008
Stuckey, Tracy	Instructor	Bachelors, Fine/Studio Arts, Florida State University, 2001 Masters, Painting, University of New Mexico, 2005	Sutton, Christina	Senior Instructor	Bachelors, Illinois College, 1984 Masters, Colorado State University, 1991
Stumpf, Kal	Instructor	Bachelors, Western Michigan University, 1984 Masters, University of Wisconsin, 1987 Doctorate, Thomas Jefferson University, 2014	Swann, Debbie	Senior Instructor	Bachelors, Kansas State University, 2006 Masters, Texas State University, 2008
Stutzman, Kami	Instructor		Swanson, Deric	Instructor	Bachelors, Colorado State University
			Swetnam, Sunshine	Assistant Professor	
			Swindler, Wil	Senior Instructor	Bachelors, University of North Texas, 2001

Switzer, Lisa	Instructor		Taylor, Jayme	Assistant Professor	Bachelors, University of Tennessee, Knoxville, 2002
Swygert, Sarah	Assistant Professor	Doctorate, Umass Medical, 2015			Masters, University of Tennessee, Knoxville, 2009
Szamel, Grzegorz	Professor	Masters, Warsaw University, Poland, 1986 Doctorate, Chemistry, General, Warsaw University, Poland, 1990			Doctorate, University of South Carolina, Columbia, 2015
Szczepaniec, Ada	Associate Professor	Bachelors, University of Maryland, 2003 Doctorate, University of Maryland, 2009	Taylor, Pete	Professor	Bachelors, Political Science, General, Trinity University, 1981
Szymanski, Erika	Associate Professor	Doctorate, University of Otago, 2017			Masters, Sociology, Cornell University, 1986
Tamkun, Michael	Professor	Bachelors, Microbiology/ Bacteriology, Univ. of South Florida, Tampa, 1976 Masters, Zoology, General, Univ. of South Florida, Tampa, 1979 Doctorate, Pharmacology, Human and Animal, Univ. of Washington, Seattle, 1983			Doctorate, Sociology, Cornell University, 1991
Tarkinson, Anne	Instructor	Bachelors, Biological and Physical Sciences, Colorado State University, 2007 Certificate, Secondary Teacher Education, Colorado State University, 2008 Masters, Education Administration and Supervision, General, Colorado State University, 2018	Taylor-Massey, Julie	Master Instructor	Masters, Colorado State University, 2004 Doctorate, Psychology, Other, Colorado State University, 2009
Tavani, Daniele	Professor	Masters, Univ. of Rome, 2003 Doctorate, New School for Social Research, 2009 Doctorate, Univ. of Rome, 2009	Teel, Tara	Professor	Masters, Utah State University, 1999 Doctorate, Natural Resources Management and Policy, Colorado State University, 2004
Taylor, Hill	Instructor	Bachelors, North Carolina State University, 1992 Masters, University of North Carolina at Willmington, 1998 Doctorate, Univ. of North Carolina at Chapel Hill, 2005 Masters, University of North Carolina Chapel Hill, 2010	Tellechea, Teresa	Instructor	Bachelors, Autonomia University of Madrid, 1994 Doctorate, Autonomia University of Madrid, 2005
			Telling, Glenn	Professor	Bachelors, Biochemistry, Oxford University, 1980 Masters, Biochemistry, Oxford University, 1983 Doctorate, Biological Immunology, Carnegie Mellon University, 1990
			Temirbekov, Sayat	Instructor	Associates, Institute of Botany, Kazakhstan, 1990 Bachelors, Kazakh State Un-TV, Kazakhstan, 1990 Masters, Kazakh State Un-TV, Kazakhstan, 1990
			Tennant, Britney	Instructor	
			Tesfaye, Dawit	Associate Professor	Bachelors, Alemaya University of Agriculture, 1990 Masters, University of Bonn, 2000 Doctorate, University of Bonn, 2004

Tham, Samuel	Assistant Professor	Bachelors, Truman State University, 2002 Masters, University of Missouri, 2015 Doctorate, Michigan State University, 2019
Thamm, Douglas	Professor	Bachelors, Biology, General, University of Pennsylvania, 1990 Professional, Veterinary Medicine (D.V.M.), University of Pennsylvania, 1995
Thilmany, Dawn	Professor	Bachelors, Iowa State University, 1990 Masters, Univ CA - Davis, 1991 Doctorate, Univ CA, Davis, 1994
Thirion, Rodney	Instructor	Masters, University of Colorado - Denver, 2001
Thoma, Greg	Professor	Bachelors, Chemical Engin., University of Arkansas, 1980 Masters, Chemical Engin., University of Arkansas, 1986 Doctorate, Chemical Engin., Louisian State University, 1994
Thomas, Adam	Senior Instructor	Bachelors, Northwestern University, 1997 Masters, Colorado State University, 2001 Doctorate, Johns Hopkins University, 2016
Thomas, Cliff	Instructor	Bachelors, US Military Academy Doctorate, Organizational Behavior Studies, Colorado State University Masters, Public Policy Analysis, University of Denver
Thomas, Khaleedah	Assistant Professor	Bachelors, Philosophy, University of CA Riverside, 2005 Masters, Criminal Justice Studies, San Jose State University, 2007 Masters, Library Science/Librarianship, San Jose State University, 2011

Thomas, Michael	Associate Professor	Bachelors, Psychology, General, University of California, Riverside, 2005 Masters, Clinical Psychology, Arizona State University, 2007 Doctorate, Clinical Psychology, Airzona State University, 2011
Thompson, David	Professor	Bachelors, Aerospace, Aeronautical and Astronautical Engin., CU BOULDER, 1994 Masters, Atmospheric Sciences and Meteorology, UNIV WA, 1998 Doctorate, Atmospheric Sciences and Meteorology, UNIV WA, 2000
Thompson, Henry	Professor	Bachelors, Environmental Science/Studies, Rutgers University, 1972 Masters, Dietetics/Human Nutritional Services, Rutgers University, 1974 Masters, Rutgers University, 1974 Doctorate, Medical Nutrition, Rutgers University, 1975
Thompson, Walter	Senior Instructor	Bachelors, Aerospace, Aeronautical and Astronautical Engin., Wichita State University, 1983 Masters, Aerospace, Aeronautical and Astronautical Engin., San Diego State University, 1990
Thomson, David	Associate Professor	
Thornton, Christopher	Associate Professor	Bachelors, Civil Engin., General, Colorado State University, 1993 Doctorate, Civil Engin., General, Colorado State University, 1999

Thorsett-Hill, Karen	Professor	Bachelors, Mechanical Engin., University of North Carolina, Charlotte, 1991 Masters, Mechanical Engin., University of North Carolina, Charlotte, 2010 Doctorate, Mechanical Engin., University of North Carolina, Charlotte, 2012	Tong, Tiezheng	Associate Professor	Bachelors, Beijing, 2010 Masters, Tsinghua University, 2010 Doctorate, Northwestern University, 2015
Thorson, Loni	Senior Instructor	Bachelors, Colorado State University, 2007 Masters, Colorado State University, 2012 Masters, Colorado State University, 2012	Tornatzky, Cyane	Associate Professor	Bachelors, Philosophy, College of Wooster, 1988 Masters, Education, General, San Francisco State University, 1997 Masters, Art, General, San Francisco State University, 2008
Thrasher, Pete	Instructor	Bachelors, Purdue University, 1995 Masters, Colorado State University, 2002	Torres, Adam	Senior Instructor	Bachelors, Angelo State University, 2009 Masters, Colorado State University, 2011
Throckmorton, Zach	Associate Professor		Torres-Henderson, Camille	Associate Professor	Professional, Veterinary Medicine (D.V.M.), Colorado State University, 2001
Tillotson, James	Instructor		Toy, Tyler	Instructor	
Titcomb, Georgia	Assistant Professor	Doctorate, University of California, Santa Barbara	Tracy, Brian	Associate Professor	Bachelors, Colorado State University, 1988 Masters, Colorado State University, 1991 Doctorate, University of Maryland, 1998
Tjalkens, Ron	Professor	Bachelors, Biochemistry, University of California San Diego, 1992 Doctorate, Toxicology, University of Colorado Health Sciences Center, 1998	Trembath, Paul	Associate Professor	Bachelors, Comparative Literature, U OF WISCONSIN, 1980 Masters, English Language and Literature, General, U OF WISCONSIN, 1983 Doctorate, English Language and Literature, General, U OF VIRGINIA, 1990
Tobet, Stuart	Professor	Bachelors, Psychology, General, Tulane University, 1978 Masters, Biological Sciences/Life Sciences, Other, Massachusetts Institute of Tec, 1982 Doctorate, Neuroscience, Mass Institute of Technology, 1985	Tremolada, Giovanni	Assistant Professor	Professional, Veterinary Medicine (D.V.M.), University of Milan (Italy), 2006 Doctorate, University of Milan (Italy), 2010 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 2018
Todd, Meagan	Instructor	Bachelors, University of Kentucky, 2007 Masters, University of Kentucky, 2010 Doctorate, University of CO - Boulder, 2017			
Todd, Richard	Assistant Professor				
Tompkins, Sara	Assistant Professor	Bachelors, University of Central Florida, 2001 Masters, University of Western Florida, 2003 Doctorate, Colorado State University, 2006			

Trivedi, Pankaj	Associate Professor	Bachelors, Kurukshetra Univ., Kurukshetra, Harayana, India, 1997 Masters, Gurukul Kangri Univ., Haridwar, Uttarakhand, India, 2000 Doctorate, Kumaun University, Nainital, Uttarakhand, India, 2005	Turtle, Harry	Professor	Bachelors, University of Saskatchewan, 1986 Masters, University of Western Ontario, 1987 Doctorate, University of Alberta, 1991
Tropman, Beth	Professor	Bachelors, Philosophy, The Ohio State University, 1998 Doctorate, Philosophy, Indiana University, Bloomington, 2006	Uchanski, Mark	Associate Professor	Bachelors, Horticulture Science, University of Illinois at Urbana-Champaign, 2002 Doctorate, University of Illinois at Urbana-Champaign, 2007
Troxell, Wade	Associate Professor	Bachelors, Engin. Science, COLO STATE UNIV, 1980 Masters, Mechanical Engin., COLO STATE UNIV, 1982 Doctorate, Mechanical Engin., COLO STATE UNIV, 1987	Undy, Steve	Instructor	Bachelors, University of Michigan, 1983 Bachelors, University of Michigan, 1983 Masters, Purdue University, 1985
Trzebiatowski, Tiffany	Assistant Professor	Bachelors, University of Wisconsin - Madison, 2008 Masters, University of Minnesota, 2011 Doctorate, University of Wisconsin - Madison, 2016	Unnithan, N	Professor	Bachelors, Criminal Justice Studies, KARNATAK UNIV, 1974 Masters, Criminal Justice Studies, U OF SAUGAR, 1976 Doctorate, Sociology, U OF NEBRASKA, 1983
Tsang, Philip	Associate Professor	Doctorate, University of Pennsylvania, 2014	Vaaga, Chris	Assistant Professor	Bachelors, Biology, General, Western State College, 1971 Professional, Medical Tech., Penrose Hospital, 1972 Masters, Physiology, Human and Animal, Colorado State University, 1979 Doctorate, Physiology, Human and Animal, Colorado State University, 1987
Tsunoda, Susan	Professor	Bachelors, Molecular Biology, University of California, San Diego, 1990 Doctorate, Neuroscience, Washington University School of Medicine, 1995	Vader-Lindholm, Connie	Assistant Professor	
Tucker, Dustin	Associate Professor	Bachelors, Philosophy, University of Washington, 2003 Doctorate, Philosophy, University of Michigan, 2011	Valdes Jr, Jose	Instructor	Bachelors, Colorado State University, 1975 Masters, Adult and Continuing Education Administration, Colorado State University, 1977 Masters, Telecommunications, University of Denver, 1991 Masters, Computer and Information Sciences, General, Alameda University, 2007
Tucker, Ruth	Senior Instructor	Bachelors, Carleton College, 1992 Doctorate, SUNY Stony Brook, 1997			
Tulanowski, Elizabeth	Instructor	Masters, Unknown, 2002			

Valdes Vasquez, Rodolfo	Associate Professor	Bachelors, Civil Engin., General, Technological University of Panama, 2000 Masters, Construction and Building Finishers and Managers, Other, Clemson University, 2006 Doctorate, Civil Engin., General, Clemson University, 2011	Van Kalsbeek, Mindy	Instructor	Bachelors, Social Work, Dordt College, 2003 Masters, Social Work, Colorado State University, 2003
Valerio-Holguin, Fernando	Professor	Bachelors, Latin American Studies, Universidad Autonoma de Santo Domingo, 1982 Masters, Hispanic-American Studies, Tulane University, 1987 Doctorate, Spanish Language and Literature, Tulane University, 1994	van Leeuwen, Peter Jan	Professor	Masters, Theoretical and Mathematical Physics, University of Amsterdam, 1987 Doctorate, Physics, General, Technical University of Delft, 1992 Bachelors, Astrophysics, Leiden University
Van Buiten, Charlene	Assistant Professor	Bachelors, University of Connecticut Doctorate, Rutgers	Van Loan, Em	Instructor	
Van Buren, Mary	Professor	Bachelors, Anthropology, University of Oregon, 1982 Masters, Anthropology, University of Arizona, 1984 Doctorate, Anthropology, University of Arizona, 1993	Van Orden, Alan	Professor	Bachelors, Chemistry, General, Brigham Young University, 1990 Doctorate, Chemistry, General, University of California, Berkeley, 1996
Van Campen, Hana	Professor	Bachelors, University of California-Davis, 1975 Masters, University of California-Davis, 1978 Professional, Purdue University, 1984 Doctorate, University of Wisconsin-Madison, 1989	Vance, Thomas	Associate Professor	Bachelors, Central Washington University, 1993 Masters, Pennsylvania State University, 1998 Doctorate, University of Washington Seattle, 2007
van de Lindt, John	Professor	Bachelors, California State Univ, 1993 Masters, Texas A M University, 1995 Doctorate, Texas A M University, 1999	Vancil, Jennifer	Instructor	Bachelors, University of Colorado, 1994 Masters, University of Alaska, Anchorage, 2001
Van Den Heever, Sue	Professor	Bachelors, UNIV OF WITWAT, 1988 Masters, UNIV OF WITWAT, 1994 Doctorate, Colorado State University, 2001	Vanderspek, Paul	Master Instructor	Bachelors, Carleton College, 1989 Masters, University of Iowa, 1995 Masters, Purdue University, 1997
			VandeWoude, Susan	Professor	Bachelors, Chemistry, General, CA INST OF TECH, 1982 Professional, Veterinary Medicine (D.V.M.), VAMD RCVM, 1986

Vans, Marie	Associate Professor	Bachelors, Computer Systems Analysis, California State University, 1989 Masters, Computer Science, Colorado State University, 1992 Doctorate, Computer Science, Colorado State University, 1996 Masters, Library Science, Other, San Jose State University, 2016	Doctorate, Political Science, General, Boston Univeristy, 2007
Vasudevan, Ramaa	Professor	Bachelors, Univ. of Delhi, 1986 Masters, Jawaharlal Nehru Univ, 1988 Masters, Jawaharlal Nehru Univ, 1990 Doctorate, The New School for Social Research, NY, 2006	Bachelors, Comparative Literature, National University of Paraguay, 1981 Masters, Linguistics, University of Kansas, 1986 Doctorate, Linguistics, University of California San Diego, 1993
Vasylyev, Sergei	Instructor	Bachelors, Music - General Performance, University of Michigan, 2003 Masters, Music - General Performance, Rice University, 2006	Bachelors, Theology/Theological Studies, Bethany University, 2003 Masters, Speech and Rhetorical Studies, Colorado State University, 2007 Doctorate, Education, General, Colorado State University, 2013
Vaughan Knaus, Pamela	Senior Instructor	Bachelors, History, General, Colorado State University, 1988 Masters, History, Other, Southern Illinois University, 1992 Doctorate, History, Other, Southern Illinois University, 1996	Bachelors, Univ of Natal, Durban, So Africa, 2000 Masters, University of Natal, Durban, So Africa, 2002 Doctorate, Stanford University, 2007
Veeder, Kate	Instructor	Bachelors, Social Work, University of Northern Iowa, 2006 Masters, Social Work, Colorado State University, 2012	Bachelors, Electrical, Electronics and Communication Engin., INDIAN INST TEC, 1981 Masters, Electrical, Electronics and Communication Engin., COLO STATE UNIV, 1983 Doctorate, Electrical, Electronics and Communication Engin., COLO STATE UNIV, 1986
Veeramachaneni, DN Rao	Professor	Professional, Veterinary Medicine (D.V.M.), AP AGRI UNIV, 1973 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), A P Agricultural University, India, 1976 Doctorate, Physiology, Human and Animal, U OF ILLINOIS, 1985	Bachelors, Massachusetts Inst of Tech, 1981 Masters, Massachusetts Inst of Tech, 1981 Masters, Stanford University, 1985
Velasco, Marcela	Associate Professor	Bachelors, Sociology, University of Massachusetts, 1993 Masters, Latin American Studies, New York University, 1995	Bachelors, King's College Wilkes Barre, Pennsylvania, 1998 Professional, University of Pennsylvania, 2004 Masters, Colorado State University, 2008
Velazquez-Castillo, Maura	Professor		
Veliquette, Abigail	Master Instructor		
Venayagamoorthy, Karan	Professor		
Venkatachalam, Chandra	Professor		
Vermeulen, Bert	Instructor		
Vickery, Kate	Associate Professor		

Vieira, Nicole	Instructor	Doctorate, Unknown, 2003	von Fischer, Joe	Professor	Bachelors, Biology, General, Augustana Coll, Sioux Falls, SD, 1992
Vigh, Jozsef	Professor	Masters, Biology, General, Jozsef Attila University, 1994 Doctorate, Neuroscience, Janus P. University, 1999			Doctorate, Ecology, Cornell University, 2002
Vignerou, Elodie	Instructor		Waack, Peter	Instructor	Professional, Unknown, 1991 Bachelors, University of Wisconsin
Vijayasathya, Leo	Professor	Doctorate, Florida International University, 1994	Wakefield, Russell	Senior Instructor	Bachelors, Computer Science, Colorado State University, 1980 Masters, Computer Science, Colorado State University, 2011
Vilander, Allison	Assistant Professor	Bachelors, Biochemistry, University of Washington, 2006 Professional, Veterinary Medicine (D.V.M.), Washington State University, 2014	Walck, Raye	Assistant Professor	Bachelors, Biology, General, Western State College of Colorado, 1993 Bachelors, Spanish Language and Literature, Western State College of Colorado, 1993 Professional, Veterinary Medicine (D.V.M.), Colorado State University, 1998
Visser, Lance	Associate Professor	Bachelors, Michigan State University, 2007 Professional, Michigan State University, 2010 Masters, Ohio State University, 2014	Walker, Aimee	Assistant Professor	Masters, Colorado State University, 2009 Doctorate, Colorado State University, 2013
Vivanco, Jorge	Professor	Bachelors, Agronomy and Crop Science, Universidad Nacional Agraria, 1994 Doctorate, Plant Pathology, The Pennsylvania State University, 1999	Walker, Debra	Senior Instructor	Bachelors, Colorado State University, 1994 Masters, Colorado State University, 1997
Vogl, Mary	Professor	Bachelors, French Language and Literature, Oberlin College, 1989 Masters, French Language and Literature, Indiana University, 1991 Doctorate, French Language and Literature, Indiana University, 1998	Walker, Sarah	Assistant Professor	
Volckens, John	Professor	Bachelors, Civil Engin., Other, University of Vermont, 1996 Masters, Environmental/Environmental Health Engin., University of North Carolina Chapel Hill, 1999 Doctorate, Environmental/Environmental Health Engin., University of North Carolina Chapel Hill, 2003	Walla, Amy	Instructor	Bachelors, Colorado State University, 1995 Masters, University of Denver, 2003 Masters, University of Denver, 2003
			Wallick, Bryan	Assistant Professor	Bachelors, The Julliard School, 2000 Masters, The Julliard School, 2001 Doctorate, University of Pretoria, 2013
			Walrond, John	Associate Professor	Bachelors, Zoology, General, OHIO UNIV, 1971 Doctorate, Neuroscience, UNIV WISCONSIN, 1979
			Walter, Robin	Instructor	Bachelors, The Colorado College, 2012 Masters, Colorado State University, 2021

Wang, Haonan	Professor	Bachelors, Mathematical Statistics, Nankai University, 1997 Doctorate, Mathematical Statistics, North Carolina-Chapel Hill, 2003	Watkins, Samuel	Instructor	Bachelors, University of Phoenix, 2010 Certificate, Colorado State University, 2012 Masters, Colorado State University, 2013
Wang, Qiang	Professor	Bachelors, Tsinghua University, 1993 Doctorate, Univ of Wisconsin, 2002	Watkins, Steven	Instructor	Bachelors, Religion/ Religious Studies, Southern Nazarene University, 2004 Masters, Education Administration and Supervision, General, Colorado State University, 2018
Wang, Shoujun	Professor				
Wang, Tian	Professor	Masters, Nankai University, 2003 Masters, University of Louisville, 2005 Doctorate, University of Texas at Austin, 2011	Watson, Allison	Assistant Professor	Bachelors, Colorado State University, 2011 Professional, Veterinary Medicine (D.V.M.), Colorado State University, 2016
Wang, Yong	Professor	Bachelors, Tianjin Univer, 1994 Doctorate, Colorado State University, 2007	Watson, Dessa	Instructor	Bachelors, Colorado State University, 2001 Masters, Colorado State University, 2004
Wang, Zhijie	Assistant Professor	Bachelors, Zhejiang University, 2001 Masters, State University of NY at Buffalo, 2004 Doctorate, State University of NY at Buffalo, 2008	Watson, Renae	Associate Professor	Bachelors, English Literature (British and Commonwealth), Eastern Kentucky University, 2009 Masters, English Composition, Eastern Kentucky University, 2011 Masters, Library Science, Other, University of Kentucky, 2014 Masters, Educational/ Instructional Media Design, Purdue University, 2016
Ward, Linnea	Senior Instructor	Masters, Colorado State University, 2012 Doctorate, Colorado State University, 2017	Watson, Ted	Professor	Bachelors, Chemical Engin., UNIV TEXAS-Austin, 1975 Doctorate, Chemical Engin., CAL INST TECH, 1980
Ward, Naomi	Professor	Bachelors, University of Queensland, 1992 Doctorate, University of Warwick, 1997	Waters, Sean	Senior Instructor	Bachelors, California Lutheran University, 2008 Masters, University of Southern California, 2011 Doctorate, George Washington University, 2021
Warden, Mackenzie	Instructor				
Warner, Jessica	Instructor	Bachelors, The University of Michigan, 2004 Masters, University of Texas at Austin, 2009			
Warziniack, Travis	Instructor	Bachelors, Louisiana State University, 1998 Doctorate, University of Wyoming			

Webb, Craig	Professor	Bachelors, Physiology, Human and Animal, University of Wisconsin-Milwaukee, 1981 Masters, Physiology, Human and Animal, University of Wisconsin-Madison, 1986 Doctorate, Neuroscience, Hahnemann University, 1991 Professional, Veterinary Medicine (D.V.M.), University of Wisconsin-Madison, 1997 Masters, Veterinary Clinical Sciences (M.S., Ph.D.), Colorado State University, 2002	Weir, Heather	Assistant Professor	Bachelors, Biological and Physical Sciences, Colorado State University, 1991 Bachelors, Equestrian/Equine Studies, Horse Management and Training, Colorado State University, 1991 Professional, Veterinary Medicine (D.V.M.), Colorado State University, 1995
Webb, Sofia	Instructor		Weir, Tiffany	Professor	Doctorate, Colorado State University, 2008 Bachelors, Pennsylvania State University Masters, Pennsylvania State University
Webb, Tracy	Associate Professor	Bachelors, University of Washington, 1993 Bachelors, University of Washington, 1993 Professional, Ohio State University, 1998 Doctorate, Biological Immunology, Colorado State University, 2008	Weiss, John	Senior Instructor	Bachelors, COLO ST UNIV, 1979 Masters, COLO ST UNIV, 1988
Wei, Yu	Professor	Bachelors, Hebei Forest College, 1994 Doctorate, University of Minnesota, 2004 Masters, University of Minnesota, 2004	Weiss, Steven	Master Instructor	Bachelors, Communications, General, Colorado State University, 1978
Weil, Michael	Professor	Bachelors, Microbiology/Bacteriology, Louisiana State University, 1975 Doctorate, Microbiology/Bacteriology, University of Texas, 1987	Weitzel, Daniel	Assistant Professor	Bachelors, Friedrich-Alexander-University Erlangen Nuremberg, 2011 Masters, Friedrich-Alexander-University Erlangen Nuremberg, 2013 Masters, University of Essex, 2014 Masters, University of Texas at Austin, 2019 Doctorate, University of Texas at Austin, 2020
Weiler, Stephan	Professor	Masters, Stanford, 1988 Doctorate, University of California, 1994	Weldon, Corey	Instructor	Bachelors, Oklahoma State University, 1998 Masters, Colorado State University, 2018
Weinberger, Chris	Associate Professor	Bachelors, Cal Poly, San Luis Obispo, 2001 Masters, Stanford University, 2005 Doctorate, Stanford University, 2009	Welker, Alyson	Senior Instructor	Bachelors, University of Colorado Denver, 2010 Masters, University of Colorado Denver, 2012
			Wellington, Lisa	Instructor	Bachelors, University of Wisconsin, 1988 Masters, University of Wisconsin, 1990
			Wells, Caitlin	Assistant Professor	Doctorate, University of California
			Werner, Alicia	Instructor	
			Wernimont, Theresa	Master Instructor	Masters, Colorado State University, 2007

Wernsing, Sarah	Instructor	Bachelors, Roanoke College, 2005 Masters, University of Northern Colorado, 2009	Wilde, Michelle	Professor	Bachelors, English Language and Literature, General, Oregon State University, 1993 Masters, Library Science/Librarianship, Indiana University - Bloomington, 1996
Wheeler, Michelle	Instructor		Wilhelm, Kyle	Instructor	Bachelors, Music - General Performance, Coe College, 1994 Masters, Music Therapy, The University of Iowa, 2002
White, Allison	Assistant Professor	Bachelors, Occidental College, 2005 Masters, University of Chicago, 2007 Doctorate, University of Texas at Austin, 2014	Wilhelm, Lindsey	Associate Professor	Bachelors, Colorado State University, 2007 Masters, The University of Iowa, 2010 Doctorate, University of Iowa, 2016
Whitley, L	Professor	Bachelors, Anthropology, W KENTUCKY U, 1978 Masters, Anthropology, S ILLINOIS U, 1980 Doctorate, Anthropology, S ILLINOIS U, 1985 Masters, Computer Science, South Illinois, 1986	Wilkes, Jeff	Master Instructor	Bachelors, Civil Engin., General, Texas AM University, 2000 Masters, Colorado State University, 2014
Whitney, Shawn	Instructor	Bachelors, Westmont College, 2000 Masters, Seattle Pacific University, 2003	Wilkins, Mike	Associate Professor	Bachelors, University of Birmingham, UK, 2002 Doctorate, University of Manchester, UK, 2005
Wiebensohn, Scott	Assistant Professor	Bachelors, Elementary Teacher Education, University of Wisconsin - Milwaukee, 2001 Masters, Library Science/Librarianship, University of Denver, 2011	Williams, Cory	Associate Professor	Bachelors, Simon Fraser University, 2000 Doctorate, University of Fairbanks, 2008
Wiese, Claudia	Associate Professor	Bachelors, Biology, General, Technical University, Darmstadt, Germany, 1986 Masters, Biochemistry, Technical University, Darmstadt, Germany, 1990 Doctorate, Cell Biology, Christian Albrechts University, Kiel, Germany, 1995	Williams, Elizabeth	Associate Professor	Bachelors, Alma College, 2001 Masters, Purdue University, 2007 Doctorate, Purdue University, 2011
Wilcox, Frankie	Master Instructor	Bachelors, Colorado State University, 2001 Masters, German Language and Literature, Colorado State University, 2003	Williams, Greg	Instructor	Masters, University of Colorado Denver, 1994 Masters, University of Colorado Denver, 2009
			Williams, John	Professor	Bachelors, C.S.U., 1986 Doctorate, C.S.U., 1991
			Williford, Anne	Associate Professor	Masters, Social Work, University of Texas at Austin, 2000 Doctorate, Social Work, University of Denver, 2009
			Willige, Bjorn	Assistant Professor	Doctorate, University of Munich, Germany, 2011 Masters, University of Bonn, Germany

Willis, Danielle	Senior Instructor	Bachelors, Psychology, General, Fort Lewis College, 2005 Masters, Social Work, Colorado State University, 2010	Wilson, Robert	Professor	Bachelors, Physics, General, UNIV OF LONDON, 1977 Masters, Physics, General, PURDUE UNIV, 1979 Doctorate, Physics, General, PURDUE UNIV, 1983
Willis, Jennie	Associate Professor	Masters, CSU, 1998 Doctorate, CSU, 2005	Wilsterman, Kate	Assistant Professor	Bachelors, Bucknell University, 2014 Doctorate, University of California, 2019
Willis, Megan	Assistant Professor	Doctorate, University of Toronto	Wilusz, Carol	Professor	Bachelors, Imperial Coll - Sci, Tech, Med, 1991 Doctorate, Imperial Coll - Sci, Tech, Med, 1995
Willson, Bryan	Professor	Bachelors, Mechanical Engin., TEXAS AM, 1982 Masters, Mechanical Engin., UNIV OF TEXAS, 1985 Doctorate, Mechanical Engin., UNIV OF TEXAS, 1988	Wilusz, Jeffrey	Professor	Bachelors, Rutgers University, 1981 Doctorate, Duke University, 1985
Wilson, Ander	Associate Professor	Bachelors, Mathematics, University of Vermont, 2004 Masters, Mathematical Statistics, North Carolina State University, 2011 Doctorate, Mathematical Statistics, North Carolina State University, 2014	Windom, Bret	Associate Professor	Bachelors, University of Florida, 2004 Masters, University of Florida, 2006 Doctorate, University of Florida, 2009
Wilson, Emily	Instructor	Bachelors, University of Colorado, 2006 Masters, University of Colorado, 2009 Masters, University of Chicago, 2011 Doctorate, University of Chicago	Windsong, Elena	Associate Professor	Bachelors, Whitman College, Walla Walla, WA, 2002 Masters, Colorado State University, 2006 Doctorate, University of New Mexico, 2015
Wilson, James	Professor	Bachelors, Mathematics, Portland State University, 2002 Masters, Mathematics, University of Oregon, 2004 Doctorate, Mathematics, University of Oregon, 2008	Winger, Quint	Associate Professor	Bachelors, University of Western Ontario, 1994 Masters, University of Western Ontario, 1996 Professional, Texas A M University, 2000
Wilson, Jesse	Associate Professor	Bachelors, Colorado State University, 2004 Masters, Colorado State Univeristy, 2007 Doctorate, Colorado State University, 2010	Wise, Dan	Professor	Bachelors, Oklahoma State University, 1978 Masters, Oklahoma State University, 1979 Doctorate, Colorado State University, 2013 Masters, St Louis University, 2013
Wilson, John	Assistant Professor		Withrow, Stephen	Professor	Bachelors, Biology, General, U OF MINNESOTA, 1970 Professional, Veterinary Medicine (D.V.M.), U OF MINNESOTA, 1972

Witt, Jessica	Professor	Bachelors, Psychology, General, Smith College, 2000 Masters, Cognitive Psychology and Psycholinguistics, University of Virginia, 2003 Doctorate, Cognitive Psychology and Psycholinguistics, University of Virginia, 2007	Worley, DEANNA	Professor	Bachelors, Biological Sciences/Life Sciences, Other, Montana State University, 1995 Professional, Veterinary Medicine (D.V.M.), Colorado State University, 1999
Wittemyer, George	Professor	Bachelors, Biology, General, Colorado College, 1997 Doctorate, Environmental Science/Studies, University of California at Berkeley, 2005	Wotman, Kathryn	Assistant Professor	Bachelors, Animal Sciences, General, Purdue University, 1998 Professional, Veterinary Medicine (D.V.M.), University of Illinois, 2002
Wohl, Ellen	Professor	Bachelors, Geology, ARIZONA STATE U, 1984 Doctorate, Geological Sciences, Other, UNIV OF ARIZONA, 1988	Wright, Amanda	Senior Instructor	Bachelors, Nebraska Wesleyan University, 2002 Masters, Communications, General, Colorado State University, 2004
Wolf, David	Instructor		Wright, DeeDee	Assistant Professor	
Wolfe, Barb	Associate Professor	Doctorate, Texas AM University, 1993 Professional, Texas AM University, 1993	Wright, Nancy	Master Instructor	Bachelors, University of Vermont, 1986 Masters, Marquette University, 1990 Masters, Eastern Washington University, 1998
Wolff, Tami	Instructor	Bachelors, English Teacher Education, Colorado State University, 1998 Certificate, Secondary Teacher Education, Colorado State University, 1998 Masters, English Teacher Education, Colorado State University, 2010	Wrighton, Kelly	Professor	Bachelors, California Polytechnic State University, 2001 Masters, California Polytechnic State University, 2005 Doctorate, University of California Berkely, 2010
Wolfgang, David	Associate Professor	Masters, University of Missouri, 2011 Professional, University of Missouri, 2012 Doctorate, University of Missouri, 2016			
Wong, Sing Wan	Assistant Professor	Bachelors, Biology, General, The Chinese University of Hong Kong Doctorate, Bioengineering and Biomedical Engin., The Chinese University of Hong Kong			

Wu, Mingzhong	Professor	Bachelors, Physics, General, Huazhong University of Science Technology, 1991 Bachelors, Theoretical and Mathematical Physics, Huazhong University of Science and Technology, 1991 Masters, Physics, General, Huazhong University of Science Technology, 1996 Masters, Theoretical and Mathematical Physics, Huazhong University of Science and Technology, 1996 Doctorate, Physics, General, Huazhong University of Science Technology, 1999 Doctorate, Theoretical and Mathematical Physics, Huazhong University of Science and Technology, 1999	Yalen, Deborah	Associate Professor	Bachelors, English Language and Literature, General, Columbia College, 1989 Masters, History, Other, Georgetown University, 1994 Doctorate, European History, University of California Berkeley, 2007
			Yalin, Azer	Professor	Bachelors, QUEEN'S UNIV, 1995 Masters, PRINCETON UNIV, 1997 Doctorate, PRINCETON UNIV, 2000
			Yan, Ruoh-Nan	Professor	Bachelors, Journalism, National Chengchi University, 1993 Masters, General Retailing Operations, University of Arizona, 2001 Doctorate, General Retailing Operations, University of Arizona, 2005
Xiang, Hong	Associate Professor	Bachelors, Wuhan University, China, 2006 Masters, National University of Singapore, 2009 Doctorate, Pennsylvania State University, 2014	Yao, Jian	Associate Professor	Doctorate, Physics, General, University of Colorado Boulder
Xiong, Lina	Associate Professor	Bachelors, Travel-Tourism Management, Jinan University, China, 2006 Masters, Hospitality/ Administration Management, University of Delaware, 2008 Doctorate, Business Administration and Management, General, Temple University, 2014	Yao, Tingting	Professor	Bachelors, Biochemistry, Wuhan University, 1996 Doctorate, Biochemistry, The University of Iowa, 2002
			Yarrington, Doug	Associate Professor	Doctorate, History, General, University of Texas, 1992
			Yoder, Jamie	Associate Professor	Bachelors, Ohio University, 2005 Masters, University of Cincinnati, 2008 Doctorate, Mental Health Services, Other, University of Denver, 2013
Xu, Jun	Associate Professor	Doctorate, University of Wisconsin Madison, 2016	Yost, Dylan	Associate Professor	Doctorate, University of Colorado, 2011 Bachelors, Colorado School of Mines
			Young, Falene	Instructor	Bachelors, CU Denver, 2014 Masters, Colorado State University, 2015

Young, Peter	Professor	Bachelors, Engin. Science, OXFORD UNIV, 1985 Masters, Electrical, Electronics and Communication Engin., UNIV OF FLORIDA, 1988 Doctorate, Electrical, Electronics and Communication Engin., CAL INST TECH, 1993	Zarestky, Jill	Associate Professor	Bachelors, Mathematics, University of Tennessee, 1999 Masters, Applied Mathematics, General, University of Texas, 2002 Doctorate, Adult and Continuing Teacher Education, Texas AM, 2014
Yourdkhani, Mostafa	Assistant Professor	Bachelors, Mechanical Engin., Sharif University of Technology, 2007 Masters, Mechanical Engin., McGill University, 2009 Doctorate, Mechanical Engin., McGill University, 2014	Zeller, Pia	Instructor	Bachelors, University of IL, Urbana-Champaign, 1995 Masters, University of Illinois Urbana Champaign, 1997
Yovovich, Veronica	Assistant Professor		Zeller, Shannon	Senior Instructor	Bachelors, University of New Mexico, 2005 Certificate, One World Training - Boulder, 2011 Masters, Colorado State University, 2015
Yuma, Paula	Associate Professor	Bachelors, Pre-Elementary/Early Childhood/Kindergarten Teacher Education, University of Texas Austin, 2001 Masters, Texas A M Health Science Center, 2003 Doctorate, Social Work, University of Texas Austin, 2014	Zersen, Kristin	Assistant Professor	Professional, Veterinary Medicine (D.V.M.), University of California - Davis, 2014
Zabel, Mark	Professor	Bachelors, Loyola University of Chicago, 1990 Bachelors, Southern Illinois University, 1995 Doctorate, University of Utah, 2001	Zhang, Jonathan Z.	Associate Professor	Bachelors, Rutgers University, 2004 Bachelors, The Graduate School of Business, 2004 Doctorate, The Graduate School of Business, 2011
Zadrozny, Joe	Assistant Professor	Bachelors, Virginia Polytechnic Institute and State University, 2007 Doctorate, University of California, 2013	Zhang, Wen	Assistant Professor	Doctorate, University of Central Florida
Zahrn, Sammy	Professor	Bachelors, Political Science, General, University of Windsor, 1995 Doctorate, Sociology, University of Tennessee, 2003	Zhao, Jianguo	Associate Professor	Bachelors, Harbin Institute of Technology, 2005 Masters, Harbin Institute of Technology, 2007 Doctorate, Michigan State University, 2015
Zamzow, Marie	Senior Instructor	Bachelors, Psychology, General, Colorado State University, 1995 Masters, Social Work, Smith College School for Social Work, 1997	Zhou, Tianjian	Assistant Professor	Bachelors, Mathematical Statistics, University of Science and Technology of China, 2013 Doctorate, Mathematical Statistics, The University of Texas, 2017

Zhou, Wen	Associate Professor	Doctorate, Applied Mathematics, General, Iowa State University, 2010 Doctorate, Mathematical Statistics, Iowa State University, 2014	Zwick-Tapley, Sarah	Instructor	Bachelors, Illinois State University, 1991 Masters, Harvard University/Moscow Art Theatre, 1999
Zhou, Yongcheng	Professor	Bachelors, Mechanical Engin., Northwestern Polytechnical University, 1996 Masters, Mechanical Engin., China Academy of Launch Vehicle Technology, 1999 Doctorate, Applied Mathematics, General, Michigan State University, 2006	Zwicke, Jennifer	Instructor	Certificate, Colorado State University, 2019 Bachelors, Texas AM University Masters, Texas AM University
Zhou, YONGLI	Associate Professor	Bachelors, Computer Science, University of Iowa, 2003 Masters, Library Science, Other, University of Iowa, 2004			
Zimmerman, Donald	Professor	Bachelors, Biology, General, KANSAS STATE U, 1966 Masters, Journalism, KANSAS STATE U, 1968 Doctorate, Mass Communications, U OF WISCONSIN, 1977			
Zimmerman, Toni	Professor	Bachelors, Psychology, General, OHIO UNIVERSITY, 1984 Masters, Clinical Psychology, RADFORD UNIV, 1985 Doctorate, Family and Marriage Counseling, VIRGINIA POLY U, 1991			
Zuniga, Heidi	Associate Professor	Bachelors, English Language and Literature, General, Pacific Lutheran University, 1998 Masters, English Language and Literature, General, Colorado State University, 2002 Masters, Library Science/Librarianship, Clarion University of Pennsylvania, 2008			

KEY TO COURSES

The University reserves the right to change courses in this section without notice. There is no assurance that a given course will be offered in complete accordance with the catalog listing. Since the frequency of course offerings is determined by the department in accordance with program needs, students should consult the online class schedule (available on RAMweb (<https://ramweb.colostate.edu/>)) for courses and sections to be offered in a given term.

Key to Courses of Instruction

CO¹ 150² College Composition (GT-CO2)³ Credits: 3 (3-0-0)⁴

Course Description: Understanding and writing for rhetorical situations; critical reading and response; writing source-based argument for academic and public audiences.⁵

Prerequisite: CO 130.⁶

Registration Information: Must have taken CO 130 or Composition Challenge Exam (score of 3, 4, or 5) or have a SAT Verbal/Critical reading score of minimum 570 or SAT Evidence Based Reading/Writing score of minimum 620 or ACT Composite score of minimum 26 or Directed Self-Placement Survey score of 15. Sections may be offered: Online.⁷

Terms Offered: Fall, Spring, Summer.⁸

Grade Mode: Traditional.⁹

Special Course Fee: No.¹⁰

Additional Information: Intermediate Writing 1A,¹¹ Intermediate Writing (GT-CO2).

Refer to the sections below for an explanation of each numbered item.

1. Course Subject Codes

Courses offered by colleges, departments, or units are indicated by course subject codes, using 2, 3, or 4 letters.

2. Course Numbering

Course numbering is based on the content level of material presented in a course.

100-299	Courses primarily for freshman and sophomore students.
300-499	Courses primarily for junior and senior students. Acceptable for graduate credit for students holding bachelor's degrees when approved by the student's graduate committee.
500-599	Courses primarily for students enrolled in master's level degree programs or equivalents. Qualified junior and senior students may enroll.
600-699	Courses primarily for students enrolled in master's level programs or equivalents. Undergraduate students may not enroll to satisfy undergraduate degree requirements.

700-799

Courses primarily for students enrolled in Ph.D. level programs or equivalents and professional veterinary medicine. Undergraduate students may not enroll.

8000-8999

Not for academic credit, English Language Program Courses.

3. State Guaranteed Transfer (GT- subcode)

By legislation, lower-division CSU courses in categories 1-3 of the All-University Core Curriculum (AUCC) must be submitted to and approved by the Colorado Commission on Higher Education (CCHHE) (<https://cdhe.colorado.gov/students/attending-college/credit-transfer/guaranteed-transfer-gt-pathways-general-education/>) as general education courses guaranteed to transfer among all public higher education institutions within Colorado. The subcode refers to the specific statewide general education category the course fulfills. For a complete listing of the courses approved statewide, visit the CCHHE site (<https://cdhe.colorado.gov/students/attending-college/credit-transfer/guaranteed-transfer-gt-pathways-general-education/>). (<http://higher.ed.colorado.gov/Academics/Transfers/gtPathways/curriculum.html>)

4. Credits and Clock Hour Distribution

The distribution of credit for lecture#laboratory#discussion or recitation class periods per semester is as follows: in the example 04(2#2#1), the number outside the parentheses indicates the number of credits of this course. Inside the parentheses, the first number indicates the number of clock hours spent in lectures each week, the second number indicates the number of clock hours spent in laboratory/studio each week, and the third number indicates the number of clock hours spent in discussion, recitation, seminar, or other each week.

Variable Credit Courses

VAR indicates variable credit with no specific minimum credit or no maximum credit indicated. May vary from 1-18 credits. Prior to registering, students should consult department for the number of credits to register for.

Var[3#9] indicates variable credits with minimum and maximum numbers of credits per term. Prior to registering students should consult the department for the specific number of credits to register for.

The course listing may indicate other credit limitations.

5. Course Description

A description of the content of the course.

6. Prerequisites

Students must meet all course prerequisites prior to registration for a specific course, or acquire the instructor's permission. Students should inquire about overrides with the instructor assigned to teach the class or the department offering the class.

All prerequisites may be considered to have been met if a student presents evidence of credit earned in equivalent courses or if knowledge equivalent to the prerequisites listed is demonstrated.

A department may limit the enrollment in a course; courses may be limited to a specific number of students, to students in specified majors, or to students of specified class levels.

In the listing in this catalog, only the most recent version of a course number is shown as a prerequisite.

7. Registration Information

Additional course information students need prior to registering for a course. Courses are offered Face-to-Face unless otherwise noted. Courses approved for online are identified. Check the class schedule or department for availability. Additional information (e.g., Required Field trips, partial semester courses, etc.) will be listed here. Courses may be offered through CSU Online (<https://www.online.colostate.edu/>).

8. Terms Offered

Fall	Scheduled fall semester
Spring	Scheduled spring semester
Summer	Scheduled summer session

The term or terms listed are those in which the course could be scheduled and offered. Since the frequency of course offerings is determined by the department in accordance with program needs, students should consult the official, applicable online class schedule (available on RAMweb (<https://ramweb.colostate.edu/>)) for courses and sections to be offered in a given term.

The following types of courses do not always list a term; they will be offered when there is sufficient demand: -84, -85, Supervised College Teaching; #86, Practicum; #87, Internship; -88, Field Placement; -89, Cooperative; #90, #91, Workshop; #92, #93, Seminar; #94, #95, Independent Study; #96, #97, Group Study; #98, Research; and #99, Thesis or Dissertation.

9. Grade Mode

Refer to the Glossary for grade mode definitions.

- Traditional letter grades;
- Satisfactory/Unsatisfactory (S/U) grading only;
- Student Option - Traditional or S/U;
- Instructor Option - Traditional or S/U

10. Special Course Fees (<http://provost.colostate.edu/files/2015/05/Comprehensive-List-AY16-FINAL.pdf>)

Certain courses carry a special fee which is assessed at the time a student registers for the course. For a list of current course fees, refer to the Office of the Provost (<https://provost.colostate.edu/student-resources/>).

Certain courses carry a variable fee which is assessed each student enrolled in the course based on expenses that fluctuate (e.g., expendable materials).

11. Additional Information

This notation identifies which, if any, of the categories (i.e., AUCC 1A) the course fulfills in the All-University Core Curriculum (AUCC).

Students are strongly advised to see if their major and concentration has specific courses or course recommendations to meet AUCC requirements.

COURSES A-Z

Key To Courses

Academic English, Adv-AEAD (AEAD)

Courses

AEAD 8310 ESOL – Advanced 3 Academic English, Listening & Speaking for Undergraduates CEUs: 6 (6-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. For students planning to pursue an undergraduate degree. Improve listening comprehension using Level 3 texts; communicate with increasing fluency and accuracy about ideas from course themes.

Prerequisite: AEIN 8210 with a minimum grade of S.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEAD 8312 ESOL – Advanced 3 Academic English, Reading & Writing for Undergraduates CEUs: 6 (6-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. For students planning to pursue an undergraduate degree. Improve reading comprehension using Level 3 texts; complete well-developed and organized Level 3 writing tasks about ideas from course themes.

Prerequisite: AEIN 8212 with a minimum grade of S.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEAD 8313 ESOL – Advanced 3 Academic English, Grammar for Undergraduates CEUs: 6 (6-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. For students planning to pursue an undergraduate degree. Focus on grammatical structures present in Level 3 reading and listening texts; incorporate learned grammatical structures in Level 3 writing and speaking tasks.

Prerequisite: AEIN 8213 with a minimum grade of S.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEAD 8355 ESOL – Advanced 3 Academic English, General Non-Core for Undergraduates CEUs: 3 (3-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. For students planning to pursue an undergraduate degree. Introduce and review technology tools and independent language learning strategies to support language skill development.

Prerequisite: AEIN 8255 with a minimum grade of S.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEAD 8510 ESOL – Advanced 3 Academic English, Listening & Speaking for Graduates CEUs: 6 (6-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. For students with a Bachelor's degree or equivalent. Improve listening comprehension using Level 3 texts; communicate with increasing fluency and accuracy about ideas from course themes.

Prerequisite: AEIN 8210 with a minimum grade of S.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEAD 8512 ESOL – Advanced 3 Academic English, Reading & Writing for Graduates CEUs: 6 (6-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. For students with a Bachelor's degree or equivalent. Improve reading comprehension using Level 3 texts; complete well-developed and organized Level 3 writing tasks about ideas from course themes.

Prerequisite: AEIN 8212 with a minimum grade of S.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEAD 8513 ESOL – Advanced 3 Academic English, Grammar for Graduates CEUs: 6 (6-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. For students with a Bachelor's degree or equivalent. Focus on grammatical structures present in Level 3 reading and listening texts; incorporate learned grammatical structures in Level 3 writing and speaking tasks.

Prerequisite: AEIN 8213 with a minimum grade of S.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEAD 8555 ESOL – Advanced 3 Academic English, General Non-Core for Graduates CEUs: 3 (3-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. For students with a Bachelor's degree or equivalent. Introduce and review technology tools and independent language learning strategies to support language skill development.

Prerequisite: AEIN 8255 with a minimum grade of S++ - at least 1 course, may be taken concurrently.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

Academic English, Basic-AEBA (AEBA)

Courses

AEBA 8110 ESOL – Basic 1 Academic English, Listening & Speaking CEUs: 6 (6-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. Improve listening comprehension using Level 1 texts; communicate with increasing fluency and accuracy about ideas from course themes.

Prerequisite: None.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEBA 8112 ESOL– Basic 1 Academic English, Reading & Writing CEUs: 6 (6-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. Improve reading comprehension using Level 1 texts; complete well-developed and organized Level 1 writing tasks about ideas from course themes.

Prerequisite: None.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEBA 8113 ESOL – Basic 1 Academic English, Grammar CEUs: 6 (6-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. Focus on grammatical structures present in Level 1 reading and listening texts; incorporate learned grammatical structures in Level 1 writing and speaking tasks.

Prerequisite: None.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEBA 8155 ESOL – Basic 1 Academic English, General Non-Core CEUs: 3 (3-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. Introduce and review technology tools and independent language learning strategies to support language skill development.

Prerequisite: None.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

Academic English, Fndtns-AEFN (AEFN)

AEFN 8110 ESOL – Level 1 Foundations Academic English, Listening & Speaking CEUs: 3 (3-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. No previous study in English. Listening comprehension of Foundations 1 texts; communicate with increasing fluency and accuracy about ideas from course themes.

Prerequisite: None.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEFN 8112 ESOL– Level 1 Foundations Academic English, Reading & Writing CEUs: 3 (3-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. No previous study in English. Reading comprehension of Foundations 1 texts; complete well-developed and organized Foundations 1 writing tasks about ideas from course themes.

Prerequisite: None.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEFN 8113 ESOL – Level 1 Foundations Academic English, Grammar CEUs: 3 (3-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. No previous study in English. Focus on grammatical structures present in Foundations 1 reading and listening texts; incorporate learned grammatical structures in Foundations 1 writing and speaking tasks.

Prerequisite: None.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEFN 8155 ESOL – Level 1 Foundations Academic English, General Non-Core CEU: 1.5 (1.5-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. No previous study in English. Introduce and review technology tools and independent language learning strategies to support Foundations 1 language skill development.

Prerequisite: None.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEFN 8210 ESOL – Level 2 Foundations Academic English, Listening & Speaking CEUs: 3 (3-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. Improve listening comprehension using Foundations 2 texts; communicate with increasing fluency and accuracy about ideas from course themes.

Prerequisite: None.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEFN 8212 ESOL – Level 2 Foundations Academic English Reading & Writing CEUs: 3 (3-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. Improve reading comprehension using Foundations 2 texts; complete well-developed and organized Foundations 2 writing tasks about ideas from course themes.

Prerequisite: None.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEFN 8213 ESOL – Level 2 Foundations Academic English, Grammar CEUs: 3 (3-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. Focus on grammatical structures present in Foundations 2 reading and listening texts; incorporate learned grammatical structures in Foundations 2 writing and speaking tasks.

Prerequisite: None.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEFN 8255 ESOL – Level 2 Foundations Academic English, General Non-Core CEU: 1.5 (1.5-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. Introduce and review technology tools and independent language learning strategies to support Foundations 2 language skill development.

Prerequisite: None.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEFN 8310 ESOL – Level 3 Foundations Academic English, Listening & Speaking CEUs: 3 (3-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. Improve listening comprehension using Foundations 3 texts; communicate with increasing fluency and accuracy about ideas from course themes.

Prerequisite: None.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEFN 8312 ESOL – Level 3 Foundations Academic English, Reading & Writing CEUs: 3 (3-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. Improve reading comprehension using Foundations 3 texts; complete well-developed and organized Foundations 3 writing tasks about ideas from course themes.

Prerequisite: None.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEFN 8313 ESOL – Level 3 Foundations Academic English, Grammar CEUs: 3 (3-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. Focus on grammatical structures present in Foundations 3 reading and listening texts; incorporate learned grammatical structures in Foundations 3 writing and speaking tasks.

Prerequisite: None.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEFN 8355 ESOL – Level 3 Foundations Academic English, General Non-Core CEU: 1.5 (1.5-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. Introduce and review technology tools and independent language learning strategies to support Foundations 3 language skill development.

Prerequisite: None.

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

Academic English, NonNative- AENG (AENG)

Courses

AENG 8300 English for Non-Native Speaker – IELTS Prep Class CEUs: 0

Course Description: Not for academic credit. English as a Second Language for non-native speakers. This course focuses on IELTS test preparation. Students will learn about the format of the IELTS exam as well as test taking strategies. Students will practice language skills specific to the IELTS exam tasks, including speaking, listening, reading, and writing.

Prerequisite: None.

Restrictions: Must major/minor in: PLACE General English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AENG 8310 English for Non-native Speakers – Listening & Speaking CEUs: Var[1-18] (18-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. Skills-based course to prepare students for typical listening and speaking tasks in academic setting.

Prerequisite: None.

Restriction: Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AENG 8312 English for Non-Native Speakers – Reading & Writing CEUs: Var[1-18] (18-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. Skills-based course to prepare students for the reading and writing tasks in typical academic settings.

Prerequisite: None.

Restriction: Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AENG 8313 English for Non-native Speakers – Grammar CEUs: Var[1-18] (18-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers Skills-based course to improve grammatical and lexical understanding and accuracy in written and oral communication.

Prerequisite: None.

Restriction: Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AENG 8400 Short-term Programs CEUs: Var[1-18] (0-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers.

Prerequisite: None.

Registration Information: Variable topic short-term programs.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AENG 8420 English for Non-native Speakers - STEM Communication CEUs: Var[1-18] (18-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. In this classroom-based course, students will improve their academic speaking and listening skills as they relate to STEM. Content will focus on STEM based problems and solutions; the instructor will utilize video lectures and other resources to provide content accordingly. Lessons will focus on helping students build vocabulary, engage in class discussion, and improve pronunciation.

Prerequisite: None.

Restriction: Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AENG 8422 English for Non-native Speakers - STEM Global Solutions CEUs: Var[1-18] (18-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. In this course, students will recycle vocabulary and discussion techniques learned in STEM Communication to propose a solution to a global problem. Students will work in groups to discuss the assigned issue, develop an idea, and then present their solution to the class. This task will encourage students to use target vocabulary, key phrases, and build confidence in working with a team in English.

Prerequisite: None.

Restriction: Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AENG 8425 English for Non-native Speakers - STEM Experiential Learning Workshop CEUs: Var[1-18] (0-0-18)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. Experiential learning includes local company visits and STEM workshop sessions. The goal is for students to see real life applications to their field of study within a U.S. context. These experiences are intended to spark student interest in engaging in the global workforce.

Prerequisite: None.

Restriction: Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AENG 8426 English for Non-native Speakers - STEM Recitation CEUs: Var[1-18] (0-0-18)

Course Description: Not for academic credit. English as a Second Language for non-native speakers. In this course students prepare for the STEM workshops and company visits. A faculty member will teach specific vocabulary and prepare students to ask questions during these scheduled lectures and tours so that students can receive maximum benefit. Additionally, the recitation will serve as a time for students to debrief from program courses and events. A portion of recitation time will be used for students to prepare an E-Portfolio capturing experiences during their program.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

Academic English, EngPgm-AEEP (AEEP)

Courses

AEEP 8393 ESOL – Academic English, Preparatory for IELTS Exam CEUs: 3 (3-0-0)

Course Description: Not for academic credit. English as a Second Language for non-native speakers.

Prerequisite: (AEIN 8210 with a minimum grade of S) and (AEIN 8212 with a minimum grade of S) and (AEIN 8213 with a minimum grade of S) and (AEIN 8255 with a minimum grade of S).

Restrictions: Must major/minor in: PLACE Academic English. Must be a: Self Improvement.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

AEEP 8591 ESOL – Academic English, Preparatory for GRE Exam CEU: 1.5 (1.5-0-0)

Course Description: Not for academic credit. GRE Prep course designed for non-native English Speakers.

Prerequisite: None.

Restriction: Must be a: Graduate.

Terms Offered: Fall, Spring.

Special Course Fee: No.

AEEP 8592 ESOL – Academic English, Preparatory for GMAT Exam CEU: 1.5 (1.5-0-0)

Course Description: Not for academic credit. GMAT Prep course designed for non-native English Speakers.

Prerequisite: None.

Restriction: Must be a: Graduate.

Grade Mode: Traditional.

Special Course Fee: No.

ACT 487 Internship Credits: Var[1-6] (0-0-0)

Course Description: Supervised work experience in public, industry, not-for-profit, or governmental accounting.

Prerequisite: ACT 311 and ACT 312 or ACT 311 and ACT 321 or ACT 311 and ACT 330 or ACT 311 and ACT 350 or ACT 312 and ACT 321 or ACT 312 and ACT 330 or ACT 312 and ACT 350 or ACT 321 and ACT 330 or ACT 321 and ACT 350 or ACT 330 and ACT 350.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

ACT 495 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ACT 496 Group Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ACT 498 Research Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

ACT 537 Advanced Taxation of Business Entities Credits: 3 (3-0-0)

Course Description: Federal income tax principles and problems pertaining to corporations and flow-through entities.

Prerequisite: ACT 330.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ACT 540 Professional Ethics and Responsibilities Credits: 3 (3-0-0)

Course Description: Ethical practice of professional accounting.

Prerequisite: ACT 311.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

ACT 541 Forensic Accounting and Fraud Auditing Credits: 3 (3-0-0)

Course Description: Professional practices for addressing the related areas of forensic accounting and fraud.

Prerequisite: ACT 441, may be taken concurrently.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ACT 550 Accounting Information Technologies Credits: 3 (3-0-0)

Course Description: Best practices for information technologies used in accounting systems worldwide.

Prerequisite: ACT 350.

Registration Information: Sections may be offered: Online. Consent of instructor can substitute for ACT 350 for a student with substantial and relevant work experience.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ACT 561 Legal and Regulatory Issues in Accounting Credits: 3 (3-0-0)

Course Description: Contracts, ownership, bankruptcy (debtor/creditor relationship), formation of business entities, regulation of accounting profession.

Prerequisite: BUS 205 or BUS 260.

Term Offered: Spring.

Grade Mode: Traditional.

AS 396A Leadership Laboratory III Credit: 1 (0-2-0)

Course Description: A dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Air and Space Force second lieutenants and complement the AFROTC academic program. Student planned, organized, and executed practicum conducted under the supervision of the Detachment Commander and Operations Flight Commander. Mandatory for students who are members of ROTC or are eligible to pursue a commission as determined by the Detachment Commander.

Prerequisite: AS 296A or AS 296B.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

AS 396B Leadership Laboratory III Credit: 1 (0-2-0)

Course Description: A dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Air and Space Force second lieutenants and complement the AFROTC academic program. Student planned, organized, and executed practicum conducted under the supervision of the Detachment Commander and Operations Flight Commander. Mandatory for students who are members of ROTC or are eligible to pursue a commission as determined by the Detachment Commander.

Prerequisite: AS 296A or AS 296B.

Term Offered: Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

AS 401 National Security/Commissioning Prep I Credits: 3 (3-0-0)

Course Description: Provides the foundation to understand role as military officers and how they are directly tied to our National Security Strategy. Overview of the complex social and political issues facing the military profession.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AS 402 National Security/Commissioning Prep II Credits: 3 (3-0-0)

Course Description: Provides the foundation to understand role as military officers and how they are directly tied to our National Security Strategy. Overview of the complex social and political issues facing the military profession.

Prerequisite: None.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AS 495 Independent Study Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: AS 202.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

AS 496A Leadership Laboratory IV Credit: 1 (0-2-0)

Course Description: A dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Air and Space Force second lieutenants and complement the AFROTC academic program. Student planned, organized, and executed practicum conducted under the supervision of the Detachment Commander and Operations Flight Commander. Mandatory for students who are members of ROTC or are eligible to pursue a commission as determined by the Detachment Commander.

Prerequisite: AS 396A or AS 396B.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

AS 496B Leadership Laboratory IV Credit: 1 (0-2-0)

Course Description: A dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Air and Space Force second lieutenants and complement the AFROTC academic program. Student planned, organized, and executed practicum conducted under the supervision of the Detachment Commander and Operations Flight Commander. Mandatory for students who are members of ROTC or are eligible to pursue a commission as determined by the Detachment Commander.

Prerequisite: AS 396A and AS 396B.

Term Offered: Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

Agricultural Biology-AB (AB) Courses

AB 111 Feeding the World in a Changing Climate (GT-SC2) Credits: 3 (3-0-0)

Course Description: Fundamental concepts of climate change and implications for agriculture and global food security.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).

AB 120 Agricultural Biology--Freshman Orientation Credit: 1 (1-0-0)

Course Description: Introduction to information and skills necessary to succeed in the agricultural biology major.

Prerequisite: None.

Restriction: Must be a: Undergraduate.

Registration Information: This is a partial semester course.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AB 130 Working with Agricultural Biology Data Credit: 1 (1-0-0)

Course Description: Introduction to the scientific method and systems thinking in terms of agricultural biology. Develop a hypothesis based on field observations, collect and analyze data to determine if findings align with the hypothesis. Results are communicated in a written report, and oral presentation.

Prerequisite: AB 120, may be taken concurrently.

Restriction: Must be a: Undergraduate.

Registration Information: This is a partial semester course.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AB 230 Becoming an Agricultural Biology Professional Credit: 1 (1-0-0)

Course Description: Design professional resumes, and develop interpersonal skills to succeed in a professional environment. Develop criteria to write a report from internships, and develop skills in interpretation of qualitative and quantitative agricultural biology data.

Prerequisite: AB 130.

Registration Information: Agricultural biology majors only. This is a partial semester course. Credit not allowed for both AB 230 and AB 270.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AB 270 Agri. Biology Orientation for Transfers Credits: 2 (2-0-0)

Course Description: Introduction to the scientific method and systems thinking in terms of agricultural biology. Develop a hypothesis based on field observations, collect and analyze data. Prepare to become agricultural biology professionals by designing resumes and practicing skills to succeed in a professional environment.

Prerequisite: None.

Registration Information: Agricultural biology majors only. Written consent of instructor. Credit not allowed for both AB 230 and AB 270.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AB 330 Applications in Agricultural Biology I Credits: 2 (2-0-0)

Course Description: Knowledge, skills, and abilities to propose sustainable solutions to biological problems in natural or managed ecosystems. Collectively discuss a diverse set of case studies that incorporate systems approach in solving agricultural biology issues. Hone career plans and professional skills.

Prerequisite: (AB 230 or AB 270) and (BSPM 302).

Restriction: Must be a: Undergraduate.

Registration Information: Agricultural biology majors only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AB 340 Insect Biotechnology Credits: 3 (3-0-0)

Course Description: Introduction to concepts, terminology, and applications of molecular biology techniques as it relates to the entomology. Learn about the use of whole insects, as well as their cells, tissues, and associated bacteria in medical, pharmaceutical, and agricultural applications.

Prerequisite: LIFE 102.

Registration Information: Credit not allowed for both AB 340 and BSPM 280A1.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AB 410 Understanding Pesticides Credits: 3 (3-0-0)

Course Description: Explore the safe and effective use of pesticides, balancing improved pest management and production while minimizing harm to humans and the environment. Analyze pesticide labels to identify procedures for using the pesticide safely, effectively, and legally. Use objective sources of pesticide information to improve pesticide use decision making and to communicate effectively about the risks and benefits of pesticides.

Prerequisite: BZ 100 to 199 - at least 3 credits or CHEM 100 to 199 - at least 3 credits.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: AB 310, AB 410, or BSPM 310.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AB 430 Applications in Agricultural Biology II Credits: 3 (3-0-0)

Course Description: Apply systems thinking and dynamic systems modeling to case studies and a capstone project that poses sustainable solutions to biological problems in natural or managed ecosystems. Hone career plans and professional skills.

Prerequisite: AB 330.

Restriction: Must be a: Undergraduate.

Registration Information: Agricultural biology majors only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AB 451 Integrated Pest Management Credits: 3 (3-0-0)

Course Description: Concepts of integrated pest management and the strategies and tactics employed in the application of these concepts.

Prerequisite: BSPM 302 or BSPM 308 or BSPM 361.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AB 509 Herbicide Selectivity and Action Credits: 3 (3-0-0)

Course Description: Explores the physicochemical properties of herbicides, their selectivity (through placement and metabolism), their mechanism of action, uses in weed management, visual symptoms of herbicide treatment, how plants can evolve resistance to these compounds, and controversial topics related to the use of herbicides.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

AB 511 Microbiome of Plant Systems Credits: 3 (3-0-0)

Course Description: Emphasizes interdisciplinary and cross curricular education with training in disciplines that support an increased understanding of plant associated microbiome and their optimization.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AB 515 Plant Biochemistry in Agriculture Credits: 3 (3-0-0)

Course Description: Experiential learning environment leading to mastery of principles of protein homology modeling, metabolic network analysis, and important plant biochemical pathways. Structure and function of enzymes in metabolic pathways and the contributions of these pathways to plant growth and development.

Prerequisite: HORT 576.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered: Online. Credit allowed for only one of the following: AB 515, BSPM 515 or BSPM 581A2.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

AB 521 Forest Health Issues Credits: 2 (2-0-0)

Course Description: Current topics related to forest and shade tree health from ecosystems to tree defense physiology.

Prerequisite: BZ 120.

Registration Information: This is a partial semester course. Credit not allowed for both AB 521 and BSPM 521.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

AB 523 Advanced Evolution/Classification of Insects Credits: 5 (2-6-0)

Course Description: Identification of major insect groups. Explore field collecting, specimen preservation methods, biodiversity discovery and description, patterns and timeline of insect evolution, classification, and morphology.

Prerequisite: BSPM 302 or BSPM 424.

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Senior standing. Must register for lecture and laboratory. Required field trips. Credit not allowed for both AB 523 and BSPM 523.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: Yes.

AB 529 Pesticide Resistance Evolution and Management Credits: 3 (3-0-0)

Course Description: Examines pesticide resistance, including principles of resistance evolution; resistance mechanisms in arthropods, weeds, and plant pathogens; management approaches; communication strategies; and new developments in technology for pest management, including RNAi and gene drive.

Prerequisite: (LIFE 102 or LIFE 103) and (BZ 346 or SOCR 330).

Registration Information: Sections may be offered: Online. Credit not allowed for both AB 529 and BSPM 580A4.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

AB 551 Advanced Integrated Pest Management Credits: 4 (3-0-1)

Course Description: Concepts of integrated pest management and the strategies and tactics employed in the practical application of these concepts.

Prerequisite: BSPM 302 or BSPM 308 or BSPM 361.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AB 554 Biology of Fungal Plant Pathogens Credits: 2 (2-0-0)

Course Description: Introduction to fungal biology, including ecology, physiology, genetics and diversity of fungal pathogens. Explore fungal lifecycles, modes and genetics of fungal mating and sources of genomic variation, and fungal pathogenesis.

Prerequisite: BSPM 361 or BSPM 365.

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Senior standing. This is a partial semester course. Credit not allowed for both AB 554 and AB 580A1.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

AB 555 Topics in Plant Pathology--Plant Virology Credits: 2 (2-0-0)

Course Description: Learn about the molecular mechanisms behind plant virus transmission, replication, translation, and movement, as well as the drivers for emerging plant viral diseases and methods of biotechnological control. Features that make viruses unique from other plant pathogens are the focus. The differences and similarities between plant viruses and viruses that infect other hosts (e.g. mammals and microbes) are also highlighted.

Prerequisite: (BSPM 361 or MIP 250 or MIP 300 or MIP 303) and (BZ 350).

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. This is a partial semester course. Credit not allowed for both AB 555 and AB 580A2.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

Agricultural Education-AGED (AGED)

Courses

AGED 110 Agriculture Production Systems Credits: 3 (2-3-0)

Course Description: Broad survey of the diverse aspects of Colorado agriculture.

Prerequisite: None.

Registration Information: Required field trips.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

AGED 210 History of Agriculture in the United States Credits: 3 (3-0-0)

Course Description: Relationships in agriculture. Historical/Native American/early practices, industrial agriculture, technologies, philosophy, green revolution.

Prerequisite: CO 150.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Historical Perspectives 3D.

AGED 220 Understanding Agricultural Education Credit: 1 (1-0-0)

Course Description: Understanding different agricultural education systems. Understanding delivery models of agricultural education programs.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

AGED 240 Technical Tool Applications in Ag Education Credits: 2 (1-3-0)

Course Description: Development of safe competencies and applications related to power and technical tools utilized in school-based agricultural education programs.

Prerequisite: None.

Registration Information: Must register for lecture and lab.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

AGED 244 Power, Structure, and Tech. Systems in Ag Ed Credits: 3 (2-3-0)

Course Description: Development of competencies and theory related to agricultural power, structure, and technical systems utilized in school-based agricultural education programs.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

AGED 320 Technology Lab for Ag Education Credit: 1 (0-3-0)

Course Description: Laboratory applications related to the power, structure, and technical systems pathway utilized in school-based agricultural education programs.

Prerequisite: AGED 240, may be taken concurrently or AGED 244, may be taken concurrently.

Registration Information: May be taken twice for credit.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

AGED 330 Program Design and Evaluation in Ag. Literacy Credits: 3 (3-0-0)

Course Description: Design and evaluate programs in agricultural literacy using experiential methods.

Prerequisite: AGED 220.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AGED 420 Developing School-Based Ag Education Programs Credits: 3 (3-0-0)

Course Description: Developing knowledge in the approach and delivery of school-based agricultural education programs.

Prerequisite: AGED 220.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

AGED 430 Methods of Agricultural Literacy Credits: 3 (3-0-0)

Course Description: Prepare and conduct agricultural literacy instructional units to work with a variety of audiences and instructional topics.

Prerequisite: AGED 330.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

AGED 440 Managing Experiences in Ag Ed Laboratories Credit: 1 (0-3-0)

Course Description: Theory, management and pedagogy of delivering safety instruction and experiential curriculum in secondary agricultural education laboratory settings.

Prerequisite: AGED 420.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

AGED 486A Practicum: Agricultural Literacy Credits: Var[1-3] (0-0-0)

Course Description: Experience in the agricultural literacy field.

Prerequisite: (AGED 220) and (AGED 330 or AGED 430).

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

AGED 486B Practicum: On-site Experience in Agricultural Outreach Credits: Var[1-2] (0-0-0)

Course Description: Formalized training on conducting non-formal agricultural education at the National Western Stock Show.

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AGED 486C Practicum: FFA Credits: Var[1-2] (0-0-0)

Course Description: Formalized training on managing FFA experiences, including Career Development Events and Leadership Development Events.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

AGED 487 Internship Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

AGED 495 Independent Study Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

AGED 496 Group Study Credits: Var[1-12] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

AGED 510 American Agricultural Values and Ideology Credits: 3 (3-0-0)

Course Description: Explore how people have conceptualized agriculture in the United States, how agricultural ideologies have shaped our agricultural values, and how differing agricultural ideologies impact the work in agriculture today and in the future.

Prerequisite: None.

Registration Information: Senior standing. Written consent of instructor.

Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

AGED 520 4-H and Youth Programs in Extension Credits: 3 (3-0-0)

Course Description: Youth programs in Extension, including 4-H, are America's largest youth development organization reaching almost 6 million youth. Preparation for a successful career working with 4-H/ youth development programs in Extension as well as other related non-formal education programs.

Prerequisite: AGRI 546.

Registration Information: Offered as an online course only. This is a partial semester course. Credit not allowed for both AGED 520 and AGED 581A1.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

AGED 525 Agricultural and Extension Teaching Credits: 3 (3-0-0)

Course Description: Use research on effective teaching methods to define and deliver educational programs, courses and presentations in formal and non-formal educational settings in agriculture. Apply organization and instructional methods to evaluate, plan, deliver and assess effective educational programs.

Prerequisite: None.

Registration Information: Graduate standing. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AGED 540 Ag Ed Laboratory Management and Safety Credits: 2 (2-0-0)

Course Description: Theory, management, and pedagogy of delivering safety instruction and experiential curriculum in secondary agricultural education laboratory settings.

Prerequisite: EDCT 420.

Restriction: .

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

AGED 587 Internship in Extension Credits: Var[1-2] (0-0-0)

Course Description: First-hand experiences in extension programming.

Prerequisite: AGRI 547.

Registration Information: Graduate standing. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

AGED 600 Evaluation and Applied Research in Extension Credits: 3 (3-0-0)

Course Description: Train extension and other outreach specialists in the basics of program evaluation and research methods. Work with real world scenarios and/or their own field experiences to learn how to strategically design evaluation plans and effectively analyze the data collected. Emphasizing how to improve programming with the collected data.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online. Credit not allowed for both AGED 600 and EDRM 600.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

AGED 692 Agricultural Education Seminar Credit: 1 (0-0-1)

Course Description: Agricultural education focusing on current trends in Extension.

Prerequisite: AGED 587, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrolled in the Master of Agriculture Extension Education or the Graduate Certificate of Teaching in Extension. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AGED 698 Agricultural Education Research Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Master of Agriculture in Agricultural Sciences, Teacher Development Specialization. Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

Agriculture + Resrce Econ-AREC (AREC)

Courses

AREC 192 Orientation to Agricultural and Resource Econ Credit: 1 (0-0-1)

Course Description: First year course in agricultural and resource economics and agricultural education. Information and skills necessary to succeed in majors and build an inclusive community in the Department of Agricultural and Resource Economics.

Prerequisite: None.

Restriction: Must be a: Undergraduate.

Registration Information: This is a partial semester course. Sections may be offered: Online. Credit not allowed for both AREC 180A1 and AREC 192.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 202 Agricultural and Resource Economics (GT-SS1) Credits: 3 (3-0-0)

Course Description: Introduction to decision-making by consumers, firms, and government and the resulting allocation of resources through markets.

Prerequisite: MATH 117, may be taken concurrently or MATH 118, may be taken concurrently or MATH 120, may be taken concurrently or MATH 124 or MATH 125 or MATH 126 or MATH 127, may be taken concurrently or MATH 141 or MATH 155 or MATH 159 or MATH 160.

Registration Information: Sections may be offered: Online. Credit not allowed for both AREC 202 and ECON 202.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Social & Behavioral Sciences 3C, Economic or Political Systems (GT-SS1).

AREC 222 Economics of Food Systems (GT-SS1) Credits: 3 (3-0-0)

Course Description: Examine the food system using an economic lens to understand and compare polarized viewpoints in food production methods and consumption choices. Review the physical, political, and structural context in which the US agricultural system and its actors are embedded. Use economic tools and concepts to analyze different components of the food system, as well as potential tradeoffs associated with different policies and ways to produce and consume food.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Diversity, Equity, & Inclusion 1C, Economic or Political Systems (GT-SS1).

AREC 224 Introduction to Agribusiness Entrepreneurship Credit: 1 (0-0-1)

Course Description: Introductory exposure to entrepreneurship for agribusinesses through presentations by industry professionals.

Prerequisite: AREC 202, may be taken concurrently or ECON 202, may be taken concurrently.

Registration Information: Required field trips. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 230 Agricultural Data Management and Analysis Credits: 3 (2-2-0)

Course Description: A survey of methods and tools to facilitate data gathering, analysis and visualization in a spreadsheet environment. Emphasis on data used in agricultural business and natural resource management.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 240 Issues in Environmental Economics (GT-SS1) Credits: 3 (3-0-0)

Also Offered As: ECON 240.

Course Description: Discussion and economic analysis of current environmental issues with special emphasis on the impact of economic growth.

Prerequisite: None.

Registration Information: Sections may be offered: Online. Credit not allowed for both AREC 240 and ECON 240.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Social & Behavioral Sciences 3C, Economic or Political Systems (GT-SS1).

AREC 305 Agricultural and Resource Enterprise Analysis Credits: 3 (2-2-0)

Course Description: Use of records in agricultural and resource enterprise management; analytical methods, budgets, and planning techniques for improved decision making.

Prerequisite: (CIS 120 or BUS 150 or CS 110) and (AREC 202 or ECON 202).

Registration Information: Sections may be offered: Online. Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 310 Agricultural Marketing Credits: 3 (3-0-0)

Course Description: Market structure, behavior, and performance including futures market and market games theory.

Prerequisite: AREC 202 or ECON 202.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

AREC 311 Agricultural and Resource Product Marketing Credits: 3 (3-0-0)

Course Description: Theory and practice of marketing-differentiated agricultural products and natural resource amenities with focus on strategies and market trends.

Prerequisite: AREC 202 or ECON 202.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 325 Personnel Management in Agriculture Credits: 3 (3-0-0)

Course Description: Human resource issues for agribusiness firms. Managing employees, legal issues, negotiation methods, and benefits packages. Workplace professionalism.

Prerequisite: AREC 202 or ECON 202.

Restriction: .

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 328 Small Agribusiness Management Credits: 3 (3-0-0)

Course Description: Apply business principles to small food enterprises, agribusinesses and cooperatives.

Prerequisite: AREC 202 or ECON 202.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 330 Data-Driven Ag and Res Econ Decision Making Credits: 3 (2-2-0)

Course Description: Examine data used to inform decisions in many agribusiness and natural resource organizations. Preparation to use software (e.g., R and Tableau) to acquire, organize, and visualize data with a specific focus on informing business and policy decisions. Organized around real-world problems informed by industry partners and research projects.

Prerequisite: (AREC 230) and (STAT 201 or STAT 204 or STAT 301 or STAT 307 or STAT 311 or STAT 315).

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 335 Introduction to Econometrics Credits: 3 (3-0-0)

Also Offered As: ECON 335.

Course Description: Estimating statistical regression models of economic relationships; treatment of special problems that may arise in analysis of economic data.

Prerequisite: (ECON 204) and (STAT 201 or STAT 204 or STAT 301 or STAT 307 or STAT 311 or STAT 315) and (MATH 141 or MATH 155 or MATH 160).

Registration Information: Credit not allowed for both ECON 335 and AREC 335. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

AREC 340 Introduction-Economics of Natural Resources Credits: 3 (3-0-0)

Also Offered As: ECON 340.

Course Description: Concepts, theories, institutions; analytical methods for economic evaluation of alternative resource use patterns and land use plans.

Prerequisite: AREC 202 or ECON 202.

Registration Information: Sections may be offered: Online. Credit not allowed for both AREC 340 and ECON 340.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

AREC 341 Environmental Economics Credits: 3 (3-0-0)

Course Description: Economic theories and analytic frameworks are developed and applied to contemporary problems of the use and protection of the natural environment.

Prerequisite: AREC 202 or ECON 202.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 342 Water Law, Policy, and Institutions Credits: 3 (3-0-0)

Course Description: Legal water issues within the context of historical, social and economic development with emphasis on the southwestern United States.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 346 Economics of Outdoor Recreation Credits: 3 (3-0-0)

Also Offered As: ECON 346.

Course Description: Application of benefit-cost framework to public planning for outdoor recreation. Topics include non-market valuation, projecting demand, cost of supplying recreation, and regional economic development.

Prerequisite: AREC 202 or ECON 202.

Registration Information: Sections may be offered: Online. Credit not allowed for both AREC 346 and ECON 346.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 375 Agricultural Law Credits: 3 (3-0-0)

Course Description: Laws, regulations, case decisions affecting ranching and farming in the Rocky Mountain area.

Prerequisite: None.

Restriction: Must be a: Junior.

Registration Information: Junior standing. Sections may be offered: Online.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

AREC 405 Agricultural Production Management Credits: 3 (2-2-0)

Course Description: Economic principles of agricultural production decisions with linear programming analysis of production choices and farm planning.

Prerequisite: AREC 305.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

AREC 408 Agricultural Finance Credits: 3 (3-0-0)

Course Description: Monetary affairs of agribusiness and agricultural production emphasizing credit institutions and procurement, investment, and management.

Prerequisite: AREC 305.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 412 Agricultural Commodities Marketing Credits: 3 (3-0-0)

Course Description: Agricultural marketing and agribusiness principles applied to current marketing problems relating to livestock and field and horticultural crops.

Prerequisite: AREC 310.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

AREC 415 International Agricultural Trade Credits: 3 (3-0-0)

Course Description: Agricultural trade patterns and institutions; trade theory with applications to agriculture. Current issues in agricultural trade.

Prerequisite: AREC 310.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

AREC 419 Commodity Market Trading Experience Credits: 3 (3-0-0)

Course Description: Firsthand experience engaging in futures and options trading in support of business activities. Analyze and trade in commodity markets as investment and risk management tools using economic information to develop trading plans and make use of fundamental and technical analysis to manage trades (real or synthetic). Work in teams, conduct independent research, communicate and justify decision making to other teams, instructors, and industry professionals.

Prerequisite: AREC 310.

Registration Information: May be taken up to two times for credit. A maximum of 6 credits may be taken from AREC 419 and AREC 480A2.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 422 Food Supply Chain Management Credits: 3 (3-0-0)

Course Description: Economic analysis of food supply chains studied through industry case studies.

Prerequisite: AREC 310 or AREC 311.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 428 Agricultural Business Management Credits: 3 (3-0-0)

Course Description: Economic analysis, organization, and management practices of agriculture and food industries studied through simulation, case study, computer labs.

Prerequisite: (AREC 305) and (AREC 310 or AREC 311).

Registration Information: Senior standing. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

AREC 440 Advanced Environmental and Resource Economics Credits: 3 (3-0-0)

Course Description: Microeconomic techniques to rigorously explore economic decision-making and policy as they apply to environmental and natural resource problems.

Prerequisite: (AREC 340 or ECON 340) and (AREC 341 and ECON 306).

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 442 Water Resource Economics Credits: 3 (3-0-0)

Course Description: An in-depth exploration of the role of economics in water resource planning.

Prerequisite: AREC 342 and ECON 306, may be taken concurrently.

Registration Information: Credit not allowed for both AREC 442 and AREC 542.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 444 Economics of Energy Resources Credits: 3 (3-0-0)

Also Offered As: ECON 444.

Course Description: Supply, consumption trends, and projected demand for alternative energy resources in domestic and world perspective; economics of public energy policies.

Prerequisite: ECON 306.

Registration Information: Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: AREC 444, ECON 344, or ECON 444.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 454 Real Estate Appraisal Credits: 3 (3-0-0)

Also Offered As: REL 454.

Course Description: Theoretical principles that underlie real estate appraisal methods. Procedures and practices used in real estate appraisal.

Prerequisite: (AREC 202 or ECON 202) and (AREC 305 or REL 360).

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: AREC 453, AREC 454, REL 453, or REL 454.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 460 Ag- and Resource-Based Economic Development Credits: 3 (3-0-0)

Course Description: Indicators, tools and approaches for agriculture- and natural resource-based economic development in resource dependent countries and communities.

Prerequisite: AREC 202.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 461A Study Abroad--Italy: Economics of the Renaissance in Modern Italy Credits: 3 (0-0-3)

Course Description: The historical and current economics of agriculture and natural resources in Florence, Tuscany and Italy. Focus on (1) The role of culture, creativity and place in economic development; (2) Italian culture in general; (3) the economic and political history of Florence; and (4) the production, markets and economic importance of culture and natural resource-based industries in central Italy.

Prerequisite: AREC 202 or ECON 202.

Registration Information: Sophomore standing. This is a partial semester course. Required field trips. Credit not allowed for both AREC 461A and AREC 482B.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

AREC 461B Study Abroad--Italy: Food and Resource Economics Credits: 3 (0-0-3)

Course Description: In-depth investigation of the food and natural resource-based economy of Italy through an applied economics lens. Economics and policy are used to provide insight into the integration of Italian culture and its principal food and natural resource industries. A theoretical basis for different resource management systems are presented including various methods of cost-benefit analysis, utility theory, property rights structures, government institutions, and cultural and ethical considerations.

Prerequisite: AREC 202 or ECON 202.

Registration Information: Sophomore standing. This is a partial semester course. Credit not allowed for both AREC 461B and AREC 482A.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

AREC 478 Agricultural Policy Credits: 3 (3-0-0)

Course Description: Formulation, evaluation, and administration of public policies affecting the agricultural and natural resource industries in the United States.

Prerequisite: AREC 202 or ECON 202 or AREC 240 or ECON 240.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

AREC 484 Supervised College Teaching Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 10 credits allowed in course. A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

AREC 487 Internship Credits: Var[1-6] (0-0-0)**Course Description:****Prerequisite:** None.**Registration Information:** May be taken for a maximum of 6 credits.

Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**AREC 492 Senior Seminar in Ag and Resource Economics Credit: 1 (0-0-1)****Course Description:** Designed to reflect on experiences within the Department of Agricultural and Resource Economics (DARE) Outcomes: professional development, technical competence, problem-solving skills, communication skills, and leadership.**Prerequisite:** AREC 192.**Restriction:** Must not be a: Freshman, Sophomore, Junior.**Registration Information:** Senior standing. This is a partial semester course.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**AREC 495 Independent Study Credits: Var[1-6] (0-0-0)****Course Description:****Prerequisite:** None.**Registration Information:** May be taken for a maximum of 6 credits.

Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**AREC 496 Group Study Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**AREC 505 Agricultural Production Economics Credits: 3 (3-0-0)****Course Description:** Empirical applications of production economic theory for use of inputs and allocation of resources in agricultural, natural resource sectors.**Prerequisite:** (MATH 141) and (AREC 405 or ECON 306).**Term Offered:** Fall.**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.**AREC 506 Applied Microeconomic Theory Credits: 3 (3-0-0)****Also Offered As:** ECON 506.**Course Description:** Introduction to mathematical models in modern microeconomics, including choices and demand, production and supply, and market structures and failures.**Prerequisite:** ECON 306.**Registration Information:** Credit not allowed for both AREC 506 and ECON 506.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**AREC 507 Applied Welfare and Policy Analysis Credits: 3 (3-0-0)****Course Description:** How policies are crafted to effectively address social issues, especially for agriculture and the environment, and how they impact society.**Prerequisite:** ECON 306.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**AREC 508 Financial Management in Agriculture Credits: 2 (2-0-0)****Course Description:** Systematic approach to understanding and applying financial management in farm businesses.**Prerequisite:** (AREC 408 or FIN 305) and (ECON 306).**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**AREC 510 Agricultural Product Marketing Credits: 3 (3-0-0)****Course Description:** Marketing techniques, industrial organization/competition for agricultural products in US domestic, international trade, and developing country markets.**Prerequisite:** (AREC 310) and (AREC 335 or ECON 335).**Term Offered:** Fall.**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.**AREC 511 Opportunities in the Agricultural Value Chain Credits: 2 (2-0-0)****Course Description:** Explores the economics and business structure of operations within the food and agribusiness system, using readings, field trips and guest speakers.**Prerequisite:** None.**Restriction:** Must be a: Graduate.**Registration Information:** Graduate standing. Required field trips.

Sections may be offered: Online.

Term Offered: Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**AREC 512 Innovation in Agribusinesses Credits: 2 (2-0-0)****Course Description:** Core concepts of entrepreneurship within both private and social enterprises. General applications of innovation and entrepreneurship with particular emphasis on the industries that make up the agricultural and food system.**Prerequisite:** None.**Restriction:** Must be a: Graduate.**Registration Information:** Graduate standing. Sections may be offered: Online.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**AREC 513 Idea Evaluation in Agricultural Value Chains Credits: 2 (2-0-0)****Course Description:** Processes of identifying and evaluating a new idea, applying strategic and design-thinking principles and tools to explore pathways by which it could grow into a viable agribusiness.**Prerequisite:** None.**Restriction:** Must be a: Graduate.**Registration Information:** Graduate standing. Sections may be offered: Online.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.

AREC 514 Entrepreneurial Accounting and Finance Credits: 2 (2-0-0)

Course Description: Foundational background in accounting and financial concepts and mastery of financial tools needed to start a new agribusiness.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 515 Assessing Agricultural and Food Markets Credits: 2 (2-0-0)

Course Description: Foundational background regarding marketing concepts needed to evaluate the potential market for an agricultural or food product or service, using an economics framework.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 516 Business Economics for the Entrepreneur Credits: 2 (2-0-0)

Course Description: Microeconomic framework that a potential entrepreneur can use to analyze business opportunities. Topics include components of cost and revenue and their relevance for new business ventures, determinants and measurement of consumer demand, and alternate forms of business organization and interaction.

Prerequisite: AREC 202 or ECON 202.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 517 Entrepreneurial Identity and Team Formation Credits: 2 (1-2-0)

Course Description: Students explore their emergent identity as "entrepreneur", including their necessary interdependence on other members of a team when engaged in creative endeavors such as innovation or new business development in the agricultural space.

Prerequisite: AREC 513.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 518 Raising Capital in the Agricultural Sector Credits: 2 (2-0-0)

Course Description: Methods to value a startup business and approaches to identifying sources of capital needed to launch and sustain the startup. Emphasis on unique challenges in and sources of raising capital in the agricultural sector.

Prerequisite: AREC 512 and AREC 514.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 519A New Venture Communication: Interpersonal Interactions Credit: 1 (0-2-0)

Course Description: Communicating in the workplace, both orally and in written form. Development of a succinct business proposal.

Prerequisite: AREC 517, may be taken concurrently.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. This is a partial semester course. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 519B New Venture Communication: Making the Pitch Credit: 1 (0-2-0)

Course Description: Emphasis on oral communication when trying to sell a business idea to potential investors. Development of tailored presentations to target audience within moments of opportunity.

Prerequisite: AREC 519A.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 520 Intellectual Property in Food and Agriculture Credits: 2 (2-0-0)

Course Description: Explores the critical role that intellectual property plays in commercial activities within the knowledge economy. Emphasis on strategic management of technology through patents and other control mechanisms, thereby allowing startups to survive and thrive in the knowledge economy with special attention to property developed in the agricultural and food systems.

Prerequisite: AREC 518 and BUS 660.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered: Online.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 521 New Food Product Development Credits: 2 (2-0-0)

Course Description: An overview of the food product development process. Topics include strategies, marketing perspectives, quality controls and supply chains in the food system.

Prerequisite: AREC 515.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered: Online.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 528 Applied Agribusiness Decision Tools Credits: 2 (2-0-0)

Course Description: Applications of quantitative tools for managerial decision-making in the context of an agribusiness.

Prerequisite: (AREC 305 or AREC 408 or FIN 305) and (ECON 306).

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

AREC 530 Agricultural Price Analysis Credits: 3 (3-0-0)

Course Description: Agricultural commodity prices related to neoclassical economics; current literature emphasizing management problems.

Prerequisite: None.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 535 Applied Econometrics Credits: 3 (3-0-0)

Also Offered As: ECON 535.

Course Description: Econometric techniques applied to testing and quantification of theoretical economic relationships drawn from both microeconomics, macroeconomics.

Prerequisite: (AREC 335 or ECON 335) and (ECON 304 or ECON 306).

Registration Information: Credit not allowed for both AREC 535 and ECON 535.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 540 Environmental and Natural Resource Economics Credits: 3 (3-0-0)

Also Offered As: ECON 540.

Course Description: Theory, methods, and policy in environmental and natural resource economics.

Prerequisite: AREC 506 or ECON 506.

Registration Information: Credit not allowed for both AREC 540 and ECON 540.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 541 Environmental Economics Credits: 3 (3-0-0)

Also Offered As: ECON 541.

Course Description: Economics of environmental policy; partial equilibrium and general equilibrium model; pollution; natural environments; population and economic growth.

Prerequisite: ECON 306.

Registration Information: Credit not allowed for both AREC 541 and ECON 541.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

AREC 542 Applied Advanced Water Resource Economics Credits: 3 (3-0-0)

Course Description: Theory and application of economics in water resource planning.

Prerequisite: (ECON 306 and AREC 342 and STAT 301) and (MATH 141 or MATH 155 or MATH 160).

Registration Information: Credit not allowed for both AREC 542 and AREC 442.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 547 Public Lands Planning and Management Credits: 3 (3-0-0)

Course Description: Principles and techniques used by federal land management agencies including Forest Service, Park Service, Fish and Wildlife Service, and BLM.

Prerequisite: AREC 202 or ECON 202.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

AREC 563 Regional Economics-Theory, Methods, and Issues Credits: 3 (3-0-0)

Also Offered As: ECON 563.

Course Description: Tools and methods of regional economics, including supply, demand, and externality analysis. Applications to current urban and regional policy issues.

Prerequisite: ECON 306 and ECON 501, may be taken concurrently.

Registration Information: Credit not allowed for both AREC 563 and ECON 563.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 566 Contemporary Issues in Developing Countries Credits: 3 (3-0-0)

Also Offered As: SOC 566.

Course Description: Social, economic, and technological factors in developing countries.

Prerequisite: None.

Registration Information: Two or more courses in AREC or ECON or SOC. Credit not allowed for both AREC 566 and SOC 566.

Term Offered: Spring (odd years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

AREC 570 Methodology of Economic Research Credits: 3 (3-0-0)

Also Offered As: ECON 530.

Course Description: Philosophical foundations of science and research. Concepts and skills for planning, performing, reporting, and evaluating economic research.

Prerequisite: ECON 304 and ECON 306.

Registration Information: Credit not allowed for both AREC 570 and ECON 530.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

AREC 572 Social Benefit Cost Analysis Credits: 3 (3-0-0)

Course Description: Theory, application of concepts relating to social benefit cost analysis of public projects, policies intended to promote social welfare, and economic growth.

Prerequisite: AREC 202 or ECON 202.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

AREC 586A New Venture Launch Practicum: Explore and Validate Value Proposition Credits: 2 (0-0-4)

Course Description: Team-based development of a new venture or innovation focusing on co-creation of value. Four main areas of competency--(1) entrepreneurial mindset and teamwork; (2) technology and product development; (3) communication and substantiation of value; and (4) business strategy and execution--are developed and demonstrated in the process of preparing to launch a new venture or innovation in the agricultural, food, or related industries.

Prerequisite: AREC 517, may be taken concurrently.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing.

Term Offered: Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

AREC 586B New Venture Launch Practicum: Communicate, Design, and Iterate Credits: 2 (0-0-4)

Course Description: Team-based development of a new venture or innovation focusing on co-creation of value. Four main areas of competency--(1) entrepreneurial mindset and teamwork; (2) technology and product development; (3) communication and substantiation of value; and (4) business strategy and execution--are developed and demonstrated in the process of preparing to launch a new venture or innovation in the agricultural, food, or related industries.

Prerequisite: AREC 586A, may be taken concurrently.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing.

Term Offered: Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

AREC 586C New Venture Launch Practicum: Final Evaluation, Presentation, and Launch Credits: Var[1-6] (0-0-0)

Course Description: Team-based development of a new venture or innovation focusing on co-creation of value. Four main areas of competency--(1) entrepreneurial mindset and teamwork; (2) technology and product development; (3) communication and substantiation of value; and (4) business strategy and execution--are developed and demonstrated in the process of preparing to launch a new venture or innovation in the agricultural, food, or related industries.

Prerequisite: AREC 586B, may be taken concurrently.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Course may be taken multiple times for maximum of 12 credits total.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

AREC 605 Agricultural Production and Cost Analysis Credits: 3 (3-0-0)

Course Description: Empirical application and analysis of production and cost issues in the agricultural and natural resource sectors.

Prerequisite: (AREC 506) and (AREC 535 or ECON 535).

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 606 Microeconomic Analysis I Credits: 3 (3-0-0)

Also Offered As: ECON 606.

Course Description: Advanced price/allocation theory: consumer/producer decisions; uncertainty; market structure; partial/general equilibrium; efficiency/welfare.

Prerequisite: ECON 306 and ECON 501.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both AREC 606 and ECON 606.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 610 Agricultural Marketing and Demand Analysis Credits: 3 (3-0-0)

Course Description: Empirical application and analysis of agricultural marketing and demand issues in the agricultural and natural resource sectors.

Prerequisite: (AREC 506) and (AREC 535 or AREC 635 or ECON 535 or ECON 635).

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 615 Optimization Methods for Applied Economics Credits: 3 (3-0-0)

Course Description: Theory and practice of optimization techniques used in economic applications with emphasis on linear and nonlinear programming.

Prerequisite: AREC 506.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 635 Econometric Theory I Credits: 3 (3-0-0)

Also Offered As: ECON 635.

Course Description: Theory of mathematical statistics and classical linear regression model in context of economic application.

Prerequisite: (AREC 535 or ECON 535) and (ECON 501, may be taken concurrently).

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both AREC 635 and ECON 635.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

AREC 647 Land Use Economics and Spatial Modeling Credits: 3 (3-0-0)

Course Description: Use of spatial data in economic analysis of land use focusing on development patterns, land conservation, spatial externalities and agricultural land.

Prerequisite: (AREC 506 or ECON 506) and (AREC 535 or ECON 535).

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

AREC 660 Development of Rural Resource-Based Economies Credits: 3 (3-0-0)

Course Description: Economic literature-based exploration of human welfare measures and implications of approaches to agriculture and resource-based economic development.

Prerequisite: AREC 506.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 678 Agricultural and Resource Policy Credits: 3 (3-0-0)

Course Description: Evaluate and analyze economic theory, applications and public incentives related to government policies for agriculture and natural resources.

Prerequisite: ECON 306 and MATH 141.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

AREC 695 Independent Study Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

AREC 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

AREC 705 Advanced Production and Technological Change Credits: 3 (3-0-0)

Course Description: Modern theoretical and empirical approaches are applied to understand producer decision-making under uncertainty, technology adoption and effects of innovation, measurements of technical efficiency and productivity, and advanced models of agricultural markets.

Prerequisite: (AREC 605) and (AREC 706, may be taken concurrently or ECON 706, may be taken concurrently) and (AREC 735 or ECON 735).

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

AREC 706 Microeconomic Analysis II Credits: 3 (3-0-0)

Also Offered As: ECON 706.

Course Description: Advanced topics in microtheory: game theory; market imperfections; adverse selection; principal-agent problems; social choice theory; incentives, etc.

Prerequisite: ECON 606.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both AREC 706 and ECON 706.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 710 Advanced Agricultural Marketing Issues Credits: 3 (3-0-0)

Course Description: Theoretical and modeling issues of consumer demand, market structure, product differentiation and market behavior.

Prerequisite: (AREC 610) and (AREC 706, may be taken concurrently or ECON 706, may be taken concurrently) and (AREC 735 or ECON 735).

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

AREC 735 Econometric Theory II Credits: 2 (2-0-0)

Also Offered As: ECON 735.

Course Description: Econometrics models and estimators in econometrics, from fully parametric to semiparametric and nonparametric approaches.

Prerequisite: AREC 635 or ECON 635.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both AREC 735 and ECON 735. This is a partial-semester course.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 736A Advanced Econometric Methods: Discrete Choice Models Credit: 1 (1-0-0)

Also Offered As: ECON 736A.

Course Description: Econometrics analysis of: Discrete Choice Models.

Prerequisite: AREC 735, may be taken concurrently or ECON 735, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both AREC 736A-C and ECON 736A-C. This is a partial-semester course.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 736B Advanced Econometric Methods: Panel Data Models Credit: 1 (1-0-0)

Also Offered As: ECON 736B.

Course Description: Econometrics analysis of: Panel Data Models.

Prerequisite: AREC 735, may be taken concurrently or ECON 735, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both AREC 736A-C and ECON 736A-C. This is a partial-semester course.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 736C Advanced Econometric Methods: Time Series Models Credit: 1 (1-0-0)

Also Offered As: ECON 736C.

Course Description: Econometrics analysis of: Time Series Models.

Prerequisite: AREC 735, may be taken concurrently or ECON 735, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both AREC 736A-C and ECON 736A-C. This is a partial-semester course.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AREC 736D Advanced Econometric Methods: Causal Inference Credit: 1 (1-0-0)**Also Offered As:** ECON 736D.**Course Description:** Introduces the notion of identification in econometrics and covers several commonly used methods for addressing endogeneity.**Prerequisite:** AREC 735 or ECON 735.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** This is a partial semester course. Credit not allowed for both AREC 736D or ECON 736D.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**AREC 740 Advanced Natural Resource Economics Credits: 3 (3-0-0)****Also Offered As:** ECON 740.**Course Description:** Advanced theory, methods, and literature in natural resource economics, including dynamic programming and optimal control.**Prerequisite:** AREC 706 or ECON 706.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Credit not allowed for both AREC 740 and ECON 740.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**AREC 741 Advanced Environmental Economics Credits: 3 (3-0-0)****Also Offered As:** ECON 741.**Course Description:** Advanced theory, methods, and literature in environmental economics.**Prerequisite:** AREC 706 or ECON 706.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**AREC 770 Advanced Methods in Applied Economics Credits: 3 (3-0-0)****Course Description:** Advanced research methods in applied economics: lab and field experiments, non-market valuation and discrete choice experiments.**Prerequisite:** (AREC 706, may be taken concurrently or ECON 706, may be taken concurrently) and (AREC 735 or ECON 735).**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**AREC 784 Supervised College Teaching Credits: Var[1-3] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**AREC 792A Seminar: Agricultural Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**AREC 792B Seminar: International Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**AREC 792C Seminar: Resources Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**AREC 795 Independent Study Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**AREC 799 Dissertation Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Agriculture-AGRI (AGRI)

Courses

AGRI 100 Contemporary Agricultural Systems Credit: 1 (0-3-0)**Course Description:** Designed to bring together students from across the college in a singular course to become more agriculturally literate individuals and develop a sense of connection to the College of Agricultural Sciences and within the agricultural industry. Goals are achieved through quality field experience engagement, frequent reflection, and small group discussions centered around the depth and breadth of the diverse system of agriculture.**Prerequisite:** None.**Restrictions:** Must not be a: Junior, Senior. Must be a: Undergraduate.**Registration Information:** Required field trips. Credit not allowed for both AGRI 100 and AGRI 181A1.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**AGRI 116 Plants and Civilizations (GT-SS3) Credits: 3 (2-0-1)****Also Offered As:** IE 116.**Course Description:** Plant origins and their relationships with cultures/civilizations as food, spices, perfumes, and medicines and in art, religion, wars, slavery, etc.**Prerequisite:** None.**Registration Information:** Must register for lecture and recitation. Credit not allowed for both AGRI 116 and IE 116.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**Additional Information:** Diversity, Equity, & Inclusion 1C, Human Behavior, Culture, or Social Frameworks (GT-SS3).

AGRI 192 Orientation to Agricultural Systems Credit: 1 (0-0-1)

Course Description: Freshman inquiry course in agriculture. Information and skills necessary to succeed in majors in the agricultural sciences.

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 270 World Interdependence-Population and Food (GT-SS3) Credits: 3 (3-0-0)

Also Offered As: IE 270.

Course Description: Survey of world population and food; emphasis on understanding the problems and opportunities in a world context.

Prerequisite: None.

Registration Information: Credit not allowed for both AGRI 270 and IE 270.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Diversity, Equity, & Inclusion 1C, Human Behavior, Culture, or Social Frameworks (GT-SS3).

AGRI 292 Transfer Seminar Credit: 1 (1-0-0)

Course Description: The university and its resources, college success skills, careers in the various disciplines of agriculture; current issues in agriculture.

Prerequisite: None.

Registration Information: Intended for Transfer students.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 300 Issues in Agriculture Credits: 2 (2-0-0)

Course Description: Scientific, technical, cultural, and social issues facing agriculture, and their interrelationships.

Prerequisite: None.

Registration Information: Credit not allowed for both AGRI 300 and AGRI 500. Sections may be offered: Online.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

AGRI 330 Agricultural and Food System Ethics Credits: 3 (3-0-0)

Also Offered As: PHIL 330.

Course Description: Basic concepts in ethics and their application to agriculture and the food system.

Prerequisite: CO 150.

Registration Information: Credit not allowed for both AGRI 330 and PHIL 330.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 383 U.S. Travel-Integrated Resource Management Credits: 2 (0-2-1)

Also Offered As: NR 383.

Course Description: Evaluation of integrated ranch management decision alternatives in conjunction with professional resource managers.

Prerequisite: None.

Registration Information: Credit not allowed for both AGRI 383 and NR 383. Must register for laboratory and recitation. Required field trips.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 496A Group Study: General Credits: Var[1-12] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

AGRI 496B Group Study: Agricultural Ambassadors Credits: Var[1-12] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

AGRI 500 Advanced Issues in Agriculture Credits: 3 (2-0-1)

Course Description: Scientific, technical, cultural, and social issues facing agriculture, and their interrelationships.

Prerequisite: None.

Registration Information: Must register for lecture and recitation.

Sections may be offered: Online. Credit not allowed for both AGRI 300 and AGRI 500.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 510 Sustainable Agriculture Credits: 3 (3-0-0)

Course Description: An interdisciplinary study comparing conventional and alternative land management practices, using an agroecosystem analysis approach.

Prerequisite: None.

Registration Information: Enrollment in INTO Master of Agriculture Pathways or graduate standing. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 511A Study Abroad: Field Applications in Sustainable Agriculture Credit: 1 (0-0-1)

Course Description: Travel to Todos Santos, Mexico for a seven day experience where in-the-field laboratory skills in sustainable agriculture are practiced. Investigate and implement unique, real-time initiatives developed in class while in Todos Santos.

Prerequisite: AGRI 510.

Registration Information: A minimum of a 2.5 GPA. This is a partial semester course.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 515 Urban Horticulture Credits: 3 (3-0-0)

Also Offered As: HORT 515.

Course Description: Investigate and evaluate the techniques of incorporating food production systems in the urban and peri-urban environment.

Prerequisite: HORT 451 or HORT 453.

Registration Information: Credit not allowed for both AGRI 515 and HORT 515. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 521 Emerging Issues and Challenges for Global Agr Credits: 3 (3-0-0)

Course Description: Interdisciplinary course containing tools and knowledge to discuss the emerging challenges of the global agriculture, water, and food system.

Prerequisite: None.

Registration Information: Written consent of instructor. Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 545 Plant Tissue Culture Credits: 2 (2-0-0)

Course Description: Theory, technology, and techniques of cell, organ, tissue, and protoplast culture of plants.

Prerequisite: BZ 440.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 546 Principles of Cooperative Extension Credits: 3 (3-0-0)

Course Description: Traditional and contemporary delivery systems of Cooperative Extension emphasizing structures of nonformal education.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 547 Delivery of Cooperative Extension Programs Credits: 4 (2-0-2)

Course Description: Methods, techniques, and procedures in planning, implementation, and delivery of Cooperative Extension programs.

Prerequisite: None.

Registration Information: Written consent of instructor. Must register for lecture and recitation. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 550 Capacity Building for a Changing Workplace Credits: 3 (3-0-0)

Course Description: A framework for competence in workplaces applies situation analysis/problem-solving to solve real-life agricultural situations shared by experts.

Prerequisite: None.

Registration Information: Graduate standing in agricultural sciences. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 562 Sociology of Food Systems and Agriculture Credits: 3 (2-0-1)

Also Offered As: SOC 562.

Course Description: How agricultural choices generate intended and unintended consequences for human communities and the natural environment.

Prerequisite: SOC 100 or SOC 105.

Registration Information: Credit not allowed for both AGRI 562 and SOC 562.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 570 Issues in Animal Agriculture Credits: 2 (2-0-0)

Also Offered As: VS 570.

Course Description: Issues that have a major impact on the direction of changes in animal agriculture.

Prerequisite: None.

Registration Information: Credit not allowed for both AGRI 570 and VS 570.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 575 Livestock-Wildlife Conflict & Law Credits: 3 (3-0-0)

Course Description: Investigation of the laws and policies surrounding livestock wildlife interaction and conflict at the federal, state, and international levels.

Prerequisite: AGRI 300 or AGRI 500 or AREC 342 or AREC 375 or NR 320 or NR 425 or POLS 361.

Registration Information: Graduate standing. Offered as an online course only. Credit not allowed for both AGRI 575 and AGRI 581A2.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 587A Internship: Domestic Credits: Var[1-12] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Written consent of instructor. Maximum of 12 credits allowed for AGRI 587A-B. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

AGRI 587B Internship: International Credits: Var[1-12] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Written consent of instructor. Maximum of 12 credits allowed for AGRI 587A-B. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

AGRI 602 Bioenergy Policy, Economics, and Assessment Credits: 3 (2-2-0)

Course Description: Bioenergy policy; economic principles applied to biofuel production; evaluation of environmental impacts on bioenergy production.

Prerequisite: AGRI 601 or ENGR 601.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 630 Integrated Decision Making/Management Skills Credits: 3 (3-0-0)

Course Description: Motivation for management, decision making, introduction to systems, information management, introduction to statistics.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 631 Building the Business Credits: 3 (3-0-0)

Course Description: Skills required to organize and implement a modern business enterprise with focus on land-based operations.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 632 Managing for Ecosystem Sustainability Credits: 3 (2-2-0)

Course Description: Impacts of ecological processes, use of mechanism-based understanding, and tools used to manage the ecosystem for sustainability.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 633 Understanding and Managing Animal Resources Credits: 3 (2-2-0)

Course Description: Evaluating nutritional requirements of a variety of animals, how and why requirements vary according to level of production.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 634 Animal Production Systems Credits: 3 (2-2-0)

Course Description: Developing animal management systems for a variety of animal species in a forage-based environment.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 635 Integrated Forage Management Credits: 3 (3-0-0)

Course Description: Development of management plans that integrate diverse forage resources including native rangeland and cultivated forages.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Required field trips. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AGRI 636 Analyzing and Managing the Business Credits: 3 (3-0-0)

Course Description: Assimilating, preparing, and analyzing records; reading financial statements to manage a land-based business.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.
