Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

¹ BUS 220 and BUS 225 will fulfill the AUCC 3B requirement. If BUS 201 is selected, 3 additional credits in AUCC 3B must be completed before graduation.

Second Concentration Major Completion Map**Distinctive Requirements for Degree Program:**

To Declare this Major: Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting academic requirements will be accepted. For details contact the Office of Admissions.

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as “Undeclared Business Interest” and must meet the requirements below. To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at Colorado State and a grade of B- or higher in ECON 202 and a grade of C- or higher in each course (total of 3 credits) from the following: MATH 117, MATH 118, MATH 124, MATH 125, MATH 126, MATH 141, or a higher level calculus course.

External transfer students who have completed a minimum of 15 graded credits with a 3.000 cumulative GPA and a grade of B- or higher in ECON 202 and a grade of C- or higher in each course (total of 3 credits) from the following: MATH 117, MATH 118, MATH 124, MATH 125, MATH 126, MATH 141, or a higher level calculus course. External transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

To Prepare for First Semester: The Curriculum for the Business Administration- Human Resource Management concentration assumes students will be able to successfully complete the College of Business Math requirement within the first year.

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Major in Business Administration, Management and Innovation Concentration

The Management and Innovation concentration prepares students to be leaders and innovators who affect change in today's dynamic business

environment. Students gain a deep knowledge in planning, organizing, and leading diverse workforces in modern organizations. Students also learn to think strategically, behave in a socially responsible and ethical manner, and manage innovation in teams and throughout the organization. Students take a rigorous core of courses in leadership, entrepreneurship, and human resource management. They can then select a blend of electives to further develop their knowledge and skills in leadership, entrepreneurship and innovation, consulting, or global management.

Learning Objectives

Students will demonstrate:

1. Knowledge of leadership approaches and theories and skill in selecting the most appropriate leadership style according to its usefulness in varied task, diverse employee, and global contexts.

2. Knowledge of value creation and the mindset to create value for their broader communities through new venture start-up, corporate entrepreneurship, and social and sustainable venturing.
3. Knowledge of the employee lifecycle and preparedness to manage this lifecycle including acquiring, developing, rewarding, and leading employees in a strategic, legal, and ethical manner.

Accelerated Program

This concentration includes an accelerated program option (<https://provost.colostate.edu/accelerated-programs/>) for students to graduate on a faster schedule. Accelerated Programs typically include 15-16 credits each fall and spring semester for three years, plus 6-9 credits over two to three summer sessions (<https://summer.colostate.edu/acceleratedprograms/>). Students who enter CSU with prior credit (AP, IB, transfer, etc.) may use applicable courses to further accelerate their graduation. Visit the Office of the Provost website for additional

information about Accelerated Programs (<https://provost.colostate.edu/accelerated-programs/>).

Potential Occupations

Some examples include, but are not limited to the following: Account Manager, Business Analyst, Business Manager, Client Services Manager, Customer Service, Entrepreneur, Human Resources Manager, Logistics/Distribution Manager, Management Consultant, Office Manager, Operations Manager, Production Manager, Project Manager, Recruiter, Retail Manager, Sales Representative, Small Business Owner, Supply Manager, Trainer/Facilitator

Requirements

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

¹ BUS 220 and BUS 225 will fulfill the AUCC 3B requirement. If BUS 201 is selected, 3 additional credits in AUCC 3B must be completed before graduation.

Second Concentration Major Completion Map

Distinctive Requirements for Degree Program:

To Declare this Major: Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting academic requirements will be accepted. For details contact the Office of Admissions.

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as “Undeclared Business Interest” and must meet the requirements below. To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at Colorado State and a grade of B- or higher in ECON 202 and a grade of C- or higher in each course (total of 3 credits) from the following: MATH 117, MATH 118, MATH 124, MATH 125, MATH 126, MATH 141, or a higher level calculus course.

External transfer students who have completed a minimum of 15 graded credits with a 3.000 cumulative GPA and a grade of B- or higher in ECON 202 and a grade of C- or higher in each course (total of 3 credits) from the following: MATH 117, MATH 118, MATH 124, MATH 125, MATH 126, MATH 141, or a higher level calculus course. External transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

To Prepare for First Semester: The Curriculum for the Business Administration-Management and Innovation concentration assumes students will be able to successfully complete the College of Business Math requirement within the first year.

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Major in Business Administration, Supply Chain Management Concentration

This program is designed to develop in students a comprehensive knowledge of global supply chain management (SCM) along with the skills necessary for implementing strategic, efficient, and effective SCM practices in contemporary business enterprises. SCM Professionals operate in a dynamic and changing world, managing resources and relationships with suppliers and customers worldwide. They are commonly responsible for practices related to managing products, information, and cash flows through the global value chain including product development, forecasting demand, managing production and service operations, purchasing materials, order fulfillment, distribution, returns management, trade compliance, and customer service. SCM Professionals are employed in every industry and are essential in ensuring a company's offerings provide value for its customers. It is essential that an SCM professional learn and master key knowledge, skills, and abilities including critical thinking, ethics, change management, communication, negotiation and conflict management, business acumen, interpersonal skills, and organizational leadership skills. In addition to the All-University Core Curriculum, course work for

a concentration in Supply Chain Management includes the College of Business Core and various management electives that allow the student to structure a program around his or her educational and/or career interests.

Learning Objectives

Students will demonstrate:

1. Knowledge and skills adequate to assume entry-level SCM positions in the broad spectrum of organizations and be prepared to pursue careers in a wide variety of organizations and industries;
2. Knowledge of how global supply chains operate and skills to make decisions to support strategic and tactical activities to manage efficient and effective supply chains;
3. An understanding of ethical decision making skills with respect to dealing with supplier and customer organizations; and
4. An understanding of the skills required to manage risk, innovation, and the dynamics of supply chains in the current global economy.

Potential Occupations

Some examples include, but are not limited to the following titles: Supply Chain Consultant, Process Improvement Manager, Operations Manager, Supply Chain Analyst, Sustainability Specialist, Buyer, Supply Manager, Purchasing Manager, Materials Supervisor, Production Manager, Logistics Analyst, Transportation Analyst, Transportation Manager, Account Manager, Warehouse Supervisor, Demand Planner/Forecaster.

Requirements

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Program Total Credits:			120

- ¹ BUS 220 and BUS 225 will fulfill the AUCC 3B requirement. If BUS 201 is selected, 3 additional credits in AUCC 3B must be completed before graduation.
- ² Students who have taken FIN 305 and/or MKT 305 prior to admission to the College of Business may substitute those courses to satisfy the category 4A and 4B requirements. All other students are required to take FIN 300 and MKT 300 to satisfy categories 4A and 4B.
- ³ Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level). A minimum of 6 elective credits must be upper-division.

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

Major Completion Map

Distinctive Requirements for Degree Program:

To Declare this Major: Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting academic requirements will be accepted. For details contact the Office of Admissions.

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business

is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as "Undeclared Business Interest" and must meet the requirements below. To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at Colorado State and a grade of B- or higher in ECON 202 and a grade of C- or higher in each course (total of 3 credits) from the following: MATH 117, MATH 118, MATH 124, MATH 125, MATH 126, MATH 141, or a higher level calculus course.

External transfer students who have completed a minimum of 15 graded credits with a 3.000 cumulative GPA and a grade of B- or higher in ECON 202 and a grade of C- or higher in each course (total of 3 credits) from the following: MATH 117, MATH 118, MATH 124, MATH 125, MATH 126, MATH 141, or a higher level calculus course.. External transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

To Prepare for First Semester: The Curriculum for the Business Administration-Supply Chain Management concentration assumes students will be able to successfully complete the College of Business Math requirement within the first year.

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Minor in Entrepreneurship and Innovation

The minor in Entrepreneurship and Innovation prepares students to play crucial roles (as founders, investors, advisors, policy makers, and executives) in the greater entrepreneurial ecosystem, including new venture start-ups, corporate entrepreneurship, social and sustainable ventures, and government entities. Consisting of 24 credits, the minor combines required entrepreneurship courses from the College of Business with selected electives across majors with an entrepreneurial nature.

Learning Objectives

Upon successful completion, students will be able to:

1. Describe the role that founders, investors, advisors, policy makers, and executives play in the greater entrepreneurial ecosystem.
2. Develop an entrepreneurial mindset which will help students to draw upon their own technical knowledge to identify opportunities.
3. Apply business principles (including the development of a business plan, management, marketing, and financing concepts) to bring ideas to fruition.
4. Develop pitch and networking skills to facilitate their entrepreneurial journey.

Requirements

Effective Spring 2023

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Sophomore standing required for acceptance into the minor.

Students must have a minimum GPA of 2.500 for acceptance into the minor.

Students must complete each course in the minor with a grade of C (2.000) or better.

Code	Title	Credits
Required Courses:		
FIN 309	Fundamentals of Entrepreneurial Finance	3
MGT 330	Creativity, Innovation, and Value Creation	3

MKT 362	Professional Selling
MKT 370	Digital Marketing

Program Total Credits: 24-25

Certificate in Entrepreneurship

The Certificate in Entrepreneurship is composed of a series of courses providing students with the knowledge and skills to successfully develop and assess the viability of for-profit and not-for-profit "social and sustainable" business concepts. Students will learn how to plan for the funding and launching of new ventures, whether they are standalone businesses or new ventures within an existing company. The Certificate in Entrepreneurship is open to all students.

Learning Objectives

Students will:

1. Develop an awareness of the entrepreneurial environment.
2. Develop an entrepreneurial mindset.
3. Learn the process of opportunity identification.
4. Develop networks.
5. Learn to conduct resource analyses.
6. Learn basics of intellectual property and financing.
7. Learn how to prepare a comprehensive strategy for launching a business.
8. Develop a full business plan.

Requirements Effective Fall 2024

Additional coursework may be required due to prerequisites.

Code	Title	Credits
MGT 340	Fundamentals of Entrepreneurship	3
Select at least three credits from the following:		3
ENGR 422	Technology Entrepreneurship	
IDEA 455/ MGT 455	Designing for Defense

Program Total Credits: 9-10

Certificate in Leadership in Organizations

The College of Business offers the Certificate in Leadership in Organizations to students majoring in Business Administration. This certificate provides students with a research-based understanding of leadership principles and experience-based skill development opportunities. These leadership competencies are valuable for job attainment, job performance, and career progression for students of all concentrations in the College of Business.

Requirements Effective Spring 2015

Additional coursework may be required due to prerequisites.

Code	Title	Credits
MGT 410	Leadership and Organizational Behavior	3
MGT 411	Leading High Performance Teams	3
MGT 476	Negotiation and Conflict Management	3

Program Total Credits: 9

Certificate in Managing Human Resources

The College of Business offers the Certificate in Managing Human Resources to students majoring in Business Administration. This certificate will give students a basic understanding of the functional areas of human resource management to add to their specific major area. Students can expect an introduction to the field of human resource management including employment law, recruitment, selection, training and development, performance management, and compensation.

Requirements Effective Spring 2015

Additional coursework may be required due to prerequisites.

Code	Title	Credits
MGT 310	Human Resource Management	3
Select two of the following courses:		6
MGT 350	Employment Relations: The Legal Environment	

MGT 374	Total Rewards and Performance Management
MGT 474	Human Resource Planning and Development

Program Total Credits:

9

Certificate in Operations, Logistics and Supply Management

The College of Business offers the Certificate in Operations, Logistics and Supply Management to business students. The certificate gives students expertise in the core areas of supply chain management (SCM) and prepares them for SCM careers. Companies seek employees able to mitigate risk in global supply chains, grasp the cost trade-offs inherent to various SCM activities, and build relationships with key trading partners. This certificate will give students the ability to add value through coordination of functions and firms.

Learning Objectives

This certificate provides real-world, hands-on learning experiences to prepare for decisions required for purchasing, producing, moving, and providing goods and services on a global basis.

Requirements Effective Fall 2021

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Select 3 of the following courses:		
MGT 375	Advanced Supply Management	9
MGT 376	Advanced Service and Manufacturing Operations	
MGT 377	Advanced Logistics	
MGT 486B	Practicum: Supply Chain Management	
Program Total Credits:		9

Graduate Certificate in Global Supply Chain Management

The Graduate Certificate in Global Supply Chain Management is designed to develop in students a comprehensive knowledge of global supply chain management (SCM) along with the skills necessary for implementing strategic, efficient, and effective SCM practices. SCM Professionals operate in a dynamic and changing world, managing resources and relationships with suppliers and customers worldwide. Managers are commonly responsible for practices related to managing products, information and cash flows through the global value chain including product development, forecasting demand, managing production and service operations, purchasing materials, order fulfillment, logistics and distribution, returns management, trade compliance, and customer service.

Students interested in graduate work should refer to the Graduate and Professional Bulletin.

Learning Objectives

Students who successfully complete the Graduate Certificate in Global Supply Chain Management will demonstrate knowledge and the capability to:

1. Define supply chain management and articulate its role in companies being able to operate effectively and efficiently.
2. Identify how global supply chains leverage purchasing, manufacturing, and logistics to operate and make decisions to support strategic and tactical activities.
3. Recognize the role of supply chains play in ethics, risk management, innovation, and both environmental and social sustainability efforts.
4. Integrate leadership, decision making skills, and relationship best practices with respect to dealing with supplier and customer organizations.

Requirements Effective Fall 2023

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Required Courses:		
BUS 601	Quantitative Business Analysis	2
BUS 650	Supply Chain Management	2
MGT 675	Purchasing and Supply Management	1
MGT 676	Service and Production Operations	1
MGT 677	Logistics and Distribution	1
Elective Courses (Choose 1):		2-3
BUS 627	Essentials of Negotiations	
GES 520	Issues in Global Environmental Sustainability	
Program Total Credits:		9-10

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Courses Marketing (MKT)

MKT 300 Marketing Credits: 3 (3-0-0)

Course Description: Market and buyer analysis, product and service development, pricing, promotion, advertising, selling, and distribution.

Prerequisite: AREC 202 or ECON 202.

Registration Information: Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online. Credit not allowed for both MKT 300 and MKT 305.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 305 Fundamentals of Marketing Credits: 3 (3-0-0)

Course Description: Overview of marketing activities involved in provision of products and services to customers, including target markets and managerial aspects.

Prerequisite: None.

Registration Information: Sections may be offered: Face-to-Face, Online, or Mixed Face-to-Face. Credit not allowed for both MKT 300 and MKT 305.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 307 Fundamentals of Sports Marketing Credits: 3 (3-0-0)

Course Description: General marketing and the application within sporting related contexts. Focuses on the nature and scope of marketing a sports franchise as well as marketing traditional products or services with the assistance of sports figures.

Prerequisite: None.

Registration Information: This is a partial semester course. Offered as an online course only. Sport Management Minors only. Credit not allowed for both MKT 307 and MKT 367.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 315 Marketing Communication Design Credits: 3 (3-0-0)

Course Description: Creating multiple kinds of marketing communications using graphic design software.

Prerequisite: MKT 300 or MKT 305.

Registration Information: Business majors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 320 Integrated Marketing Communications Credits: 3 (3-0-0)

Course Description: Principles and practices of managing promotional activities including advertising, sales promotion, and other major media.

Prerequisite: MKT 300 or MKT 305.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 330 Business Customer Relationships Credits: 3 (3-0-0)

Course Description: Managing relationships with distribution channel intermediaries and business customers.

Prerequisite: MKT 300 or MKT 305.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 360 Retailing Credits: 3 (3-0-0)

Also Offered As: DM 360.

Course Description: Examination of retailing principles and practices, including merchandise management, retailing strategy, supply chain management, store management, and sustainable retail operations.

Prerequisite: MKT 300 or MKT 305.

Registration Information: Credit not allowed for both DM 360 and MKT 360.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 361 Buyer Behavior Credits: 3 (3-0-0)

Course Description: Marketing analysis of buying behavior of individuals, households, businesses, and not-for-profit organizations.

Prerequisite: MKT 300 or MKT 305.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 362 Professional Selling Credits: 3 (3-0-0)

Course Description: Persuasive personal communications in selling consumer and industrial products and services.

Prerequisite: MKT 300 or MKT 305.

Registration Information: Sections may be offered: Face-to-Face, Online, or Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 363 Sales Management Credits: 3 (3-0-0)

Course Description: Recruiting, selecting, training, compensating, motivating, supervising, and evaluating a sales force.

Prerequisite: MKT 300 or MKT 305.

Registration Information: Sections may be offered: Face-to-Face, Online, or Mixed Face-to-Face.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 364 Product Design Credits: 3 (3-0-0)

Course Description: Designing innovative products, services, brands, and experiences is critical for creating value within all kinds of organizations in the marketplace and society. Creative problem solving to define design challenges, create concepts with low-fidelity prototyping, evaluate assumptions using co-creation, and communicate ideas with stakeholders. Internalize and practice the frameworks, processes, and tools for leading a product innovation process in any kind of organization.

Prerequisite: MKT 300 or MKT 305.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 365 International Marketing Credits: 3 (3-0-0)

Course Description: Analysis of international markets and development of strategic and tactical options for marketing across national boundaries.

Prerequisite: MKT 300 or MKT 305.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 366 Services Marketing Credits: 3 (3-0-0)

Course Description: Customer service issues and unique challenges involved in marketing and management of services operations.

Prerequisite: MKT 300 or MKT 305.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 367 Sports Marketing Credits: 3 (3-0-0)

Course Description: The nature and scope of applying marketing strategy and tactics in the sports marketing environment.

Prerequisite: MKT 300 or MKT 305.

Restriction: Must not be a: Freshman.

Registration Information: Sections may be offered: Face-to-Face or Mixed Face-to-Face. Credit not allowed for both MKT 307 and MKT 367.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 370 Digital Marketing Credits: 3 (3-0-0)

Course Description: Introduction to digital marketing: the landscape and tactics needed to execute marketing strategy in an online, connected, world.

Prerequisite: MKT 300 or MKT 305.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Course Description: International setting focusing on multi-country contexts. Emphasis on consumer and business customer behavior in today's global environment.

Prerequisite: MKT 300 or MKT 305.

Registration Information: Written consent of instructor.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 486 Marketing Practicum Credits: 3 (0-0-3)

Course Description: To give students the experience of working on a real marketing problem with a team at a sponsoring firm.

Prerequisite: MKT 300 or MKT 305.

Registration Information: Written consent of instructor required.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 487 Internship Credits: 3 (0-0-9)

Course Description:

Prerequisite: MKT 300.

Registration Information: Written consent of instructor required. Maximum of 3 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MKT 492 Seminar Credits: 3 (0-0-3)

Course Description:

Prerequisite: MKT 300 or MKT 305.

Registration Information: Written consent of instructor required.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

MKT 495 Independent Study Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: 2.75 GPA or better.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MKT 496 Group Study Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MKT 498 Research Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MKT 568 Sport Marketing Credits: 2 (2-0-0)

Course Description: Examines sport marketing information systems, pricing strategies, media relations, promotional methods, and endorsements as they relate to marketing theories. Practical applications and principles.

Prerequisite: SPMT 533, may be taken concurrently.

Restriction: Must be a: Graduate.

Registration Information: This is a partial semester course. Sections may be offered: Online.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 600 Marketing Management and Strategy Credits: 3 (3-0-0)

Course Description: Processes of customer value creation and value capture; marketing strategy analysis.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to a master's program in business.

Term Offered: Spring.

MKT 610 Qualitative Marketing Research Methods Credit: 1 (1-0-0)

Course Description: Overview of qualitative research methods including focus groups, in-depth interviews, observations, and projective techniques.

Prerequisite: BUS 655.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial-semester course. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 611 Quantitative Marketing Research Methods Credit: 1 (1-0-0)

Course Description: Overview of the field of business research, with a focus on quantitative research methods.

Prerequisite: BUS 601 and BUS 655.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial-semester course. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 621 Search Engine Marketing and Optimization Credit: 1 (1-0-0)

Course Description: Focuses on search engine optimization (SEO), search engine marketing (SEM), and improving the visibility of webpage(s) in the "organic results" through a variety of SEO tactics. Use paid activities (using the Google AdWords platform) to drive traffic from the search engine results page.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to a master's program in business.

This is a partial semester course. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 650 Data Analytics Credits: 2 (2-0-0)

Course Description: Examine the pivotal role of marketing research in the data analytics process. Emphasis on research design, experimental design, sampling theory and various data collection methods. Evaluate the reliability and validity of marketing research data and data analysis tools (SPSS/SAS/R) and report on research findings.

Prerequisite: BUS 601 and BUS 655.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 651 Applied Data Analytics Credits: 2 (2-0-0)

Course Description: Introduces the scope of the secondary data environment and teaches the analytic techniques used by marketers to transform data into decision making information. Focuses on primary data collection techniques, advanced analytic techniques and their application to marketing decision making.

Prerequisite: MKT 650.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 661 Consumer Behavior Credit: 1 (1-0-0)

Course Description: Marketing analysis of buying behavior of individual consumers.

Prerequisite: BUS 655.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial-semester course. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 662 Strategic Selling for Business Customers Credit: 1 (1-0-0)

Course Description: Examination of sales strategies, sales tactics and best practices in professional selling with a primary context in business selling.

Prerequisite: BUS 655.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial-semester course. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 664 Design Thinking for Sustainable Enterprise Credits: 3 (3-0-0)

Course Description: Guides students in generating sustainable products, services, and business models. Topics build on a foundational understanding of markets and strategies that address triple bottom line imperatives. Emphasizes applying design thinking tools, cross-disciplinary insights, qualitative research, low-fidelity prototyping, and experimentation.

Prerequisite: MKT 601.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 667 Services Marketing Management Credit: 1 (1-0-0)

Course Description: Fundamental concepts and strategies that differentiate the marketing of services from the marketing of tangible goods, including customer satisfaction.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Master of Business Administration; Master of Sport Management, Sport Marketing Specialization; Graduate Certificate in Marketing Management; or Graduate Certificate in Entrepreneurship and Innovation. This is a partial semester course. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 670 Digital Marketing Credit: 1 (1-0-0)

Course Description: Overview of digital marketing tactics. Focuses on the practical application of tactics in support of basic business strategies as they apply to the online world of marketing, including websites, analytics, content marketing, email marketing, and emerging technologies, among other digital based topics. Particular focus will be given to measurement in a digital world through analytics and metrics.

Prerequisite: None.

Registration Information: Admission to Master of Business Administration or the Graduate Certificate in Marketing Management. This is a partial semester course. Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 686 Marketing Practicum Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: (CIS 505 and CIS 570 and CIS 575) and (CIS 576 or CIS 601) and (MKT 651, may be taken concurrently).

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MKT 692 Seminar Credits: 3 (0-0-3)

Course Description: Critical review and discussion of relevant marketing topics.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MKT 695 Independent Study Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: 3.25 GPA or better.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

Major in Business Administration, Marketing Concentration

This program will provide its students with a comprehensive knowledge of marketing along with the skills necessary for effective decision making in a business environment that is diverse, global, and highly competitive. As defined by the American Marketing Association, marketing is the activity, set of institutions, and processes for creating, communicating, delivering, and exchanging offerings that have value for customers, clients, partners, and society at large. Organizations engage in marketing activities, such as conducting market research, developing new products, establishing pricing approaches, designing marketing communications, and building customer relationships. Marketing is people-oriented and ever changing. A person's analytical and creative abilities are brought to bear on developing solutions to various marketing problems while operating within a continuously evolving marketplace. In addition to the All-University Core Curriculum, course work for a major in business administration/marketing includes calculus, economics, statistics, and business foundation classes along with courses that specifically examine marketing issues and practices.

Freshman

		AUCC	Credits
BUS 100 or 105	Introduction to Business Exploration of Business		1
Select one course from the following: ¹			1-3
BUS 201	Foundations of Sustainable Enterprise		
BUS 225	Fostering Sustainable Organizations (GT-AH3)	3B	
CIS 200	Business Information Systems		3
CO 150	College Composition (GT-CO2)	1A	3
ECON 202	Principles of Microeconomics (GT-SS1)	3C	3
Complete 3 credits from the following:			3

Learning Objectives

Students will demonstrate the ability to:

1. Identify a marketing problem and key influences on that problem, to use appropriate qualitative and quantitative analysis and market research techniques to evaluate the marketing problem, and to evaluate alternative solutions;
2. Make a final recommendation that thoroughly addresses the problem/opportunity based on: making reasonable assumptions; considering appropriate customer, competitor, and company constraints; clearly addressing the marketing issues; and demonstrating an understanding of the interrelationships of marketing concepts;
3. Use marketing terminology correctly;
4. Develop persuasive and convincing arguments that support recommendations; and
5. Design a marketing plan.

Accelerated Program

The Marketing concentration includes an accelerated program option (<https://provost.colostate.edu/accelerated-programs/>) for students to graduate on a faster schedule. Accelerated Programs typically include 15-16 credits each fall and spring semester for three years, plus 6-9 credits over two to three summer sessions (<https://summer.colostate.edu/acceleratedprograms/>). Students who enter CSU with prior credit (AP, IB, transfer, etc.) may use applicable courses to further accelerate their graduation. Visit the Office of the Provost website for additional information about Accelerated Programs (<https://provost.colostate.edu/accelerated-programs/>).

Potential Occupations

Between one-fourth and one-third of the civilian labor force is employed in marketing-related positions. Examples of possible careers include, but are not limited to:

marketing strategy planning, brand management, product development, market research, digital marketing, pricing management, sales management, advertising, and promotion management.

Requirements

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Program Total Credits:			120

¹ BUS 220 and BUS 225 will fulfill the AUCC 3B requirement. If BUS 201 is selected, 3 additional credits in AUCC 3B must be completed before graduation.

² Students who have taken FIN 305 and/or MKT 305 prior to admission to the College of Business may substitute those courses to satisfy the category 4A and 4B requirements. All other students are required to take FIN 300 and MKT 300 to satisfy categories 4A and 4B.

³ Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level). A minimum of 6 elective credits must be upper-division.

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

Major Completion Map

Distinctive Requirements for Degree Program:

To Declare this Major: Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting

academic requirements will be accepted. For details contact the Office of Admissions.

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as "Undeclared Business Interest" and must meet the requirements below. To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at Colorado State and a grade of B- or higher in ECON 202 and a grade of C- or higher in each course (total of 3 credits) from the following: MATH 117, MATH 118, MATH 124, MATH 125, MATH 126, MATH 141, or a higher level calculus course.

External transfer students who have completed a minimum of 15 graded credits with a 3.000 cumulative GPA and a grade of B- or higher in ECON 202 and a grade of C- or higher in each course (total of 3 credits) from the following: MATH 117, MATH 118, MATH 124, MATH 125, MATH 126, MATH 141, or a higher level calculus course. External

transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

successfully complete the College of Business Math requirement within the first year.

To Prepare for First Semester: The Curriculum for the Business Administration-Marketing concentration assumes students will be able to

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Major in Business Administration, Sustainable Business Concentration

This program provides students with a comprehensive knowledge of sustainable business management approaches and strategies. Firms, organizations, and employers of all sizes are recognizing their role in shaping a more just society and sustainable environment. In today's workforce, social and sustainable business expertise is a required competency for nearly all roles and the availability of sustainability-focused jobs is growing rapidly. Most large companies now produce sustainability reports and measure, manage, and report on environmental, social, and governance (ESG) goals.

This program focuses on providing students with subject matter knowledge and experience to effectively integrate economic, social, and environmental goals into their work or business strategy. As a result of this concentration, students will develop knowledge regarding approaches and trends in sustainable business, understand the role of business in addressing sustainability and social issues, drive sustainable marketing and consumption, and develop leadership skills to shape responsible business practice. Graduates will be able to harness emerging trends in green business for strategic positioning and social/environmental good.

In addition to the All-University Core Curriculum, course work for a concentration in Sustainable Business includes the College of Business

Core and various electives that allow the student to structure a program around their educational and/or career interests.

Learning Objectives

Upon successful completion, students will be able to:

1. Identify the impacts of climate change and biodiversity loss, among other social and environmental sustainability issues, on business and society.
2. Understand how business practice contributes to global sustainability challenges.
3. Recognize and articulate the role of business in addressing sustainability issues.
4. Analyze the ethical, legal, regulatory, strategic, and financial implications inherent in business situations and apply that knowledge to make sustainable and responsible decisions.
5. Apply their knowledge to effectively integrate economic, social, and environmental goals into their work or business strategy.
6. Harness emerging trends in green business for strategic positioning and social/environmental good.

Requirements

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

¹ Students in the Sustainable Business Concentration are strongly encouraged to take BUS 225. BUS 220 and BUS 225 will fulfill the AUCC 3B requirement. If BUS 201 is selected, 3 additional credits in AUCC 3B must be completed before graduation.

² Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level). A minimum of 6 elective credits must be upper-division.

Major Completion Map

Distinctive Requirements for Degree Program:

To Declare this Major: Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting academic requirements will be accepted. For details contact the Office of Admissions.

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly

to the College of Business will be admitted as “Undeclared Business Interest” and must meet the requirements below. To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at Colorado State and a grade of B- or higher in ECON 202 and a grade of C- or higher in each course (total of 3 credits) from the following: MATH 117, MATH 118, MATH 124, MATH 125, MATH 126, MATH 127, MATH 141, or a higher level calculus course.

External transfer students who have completed a minimum of 15 graded credits with a 3.000 cumulative GPA and a grade of B- or higher in ECON 202 and a grade of C- or higher in each course (total of 3 credits) from the following: MATH 117, MATH 118, MATH 124, MATH 125, MATH 126, MATH 127, MATH 141, or a higher level calculus course.. External transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

To Prepare for First Semester: The Curriculum for the Business Administration-Sustainable Business concentration assumes students will be able to successfully complete the College of Business Math requirement within the first year.

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Minor in Music Business

Step beyond textbooks and learn directly from the professionals who engage with Colorado State Music Business. Hear how a music festival operates from a founder of the Coachella Valley Music and Arts Festival.

Get the scoop about recording contracts or life on the road touring from Big Head Todd or Griz as well as members of Mumford and Sons, The Avett Brothers, Eagles and Phish. Discover the opportunities in agency and management or other careers from folks in firms that have represented Elton John, Michael Jackson, Radiohead, AC/DC and Bruce Springsteen and/or run major labels, publishing companies, marketing firms, and more.

The Minor in Music Business is a 21-credit program covering key foundational business knowledge and practical skills involving the contemporary music business. This Minor prepares you to understand and navigate an industry unlike any other. The primary function is to offer graduates a fundamental understanding of the music business marketplace by learning the vocabulary and workings of the industry, identifying major stakeholders, and exploring career and entrepreneurial opportunities within this growing field. Whether you're preparing for a career as a performer or plan to impact the industry with a supporting role as a producer or engineer, at a record label or publisher, in concert promotion, as an agent or artist manager, as legal representation, or an array of other endeavors, the Music Business Minor lays the foundation for a career in an evolving, exploding, and fast-paced industry.

Learning Objectives

Upon successful completion, students will be able to:

1. Construct and analyze financial and operating reports, and use this information to make various business decisions.
2. Explain the appropriate basic business principles, and how to apply those principles in various contexts.
3. Perform quantitative analyses, explain the results, and use the information to make decisions.
4. Speak the unique language of the music business and communicate with industry professionals.

5. Utilize skills in operations, marketing, intellectual property, finance, and other business skills to make various Music Business contributions.

CSU MUSIC BUSINESS

Eric.Griffin@colostate.edu

Requirements Effective Fall 2023

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

A minimum grade of C (2.000) or better is required in all courses.

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Required Courses:		
ACT 205	Fundamentals of Accounting	3
BUS 250	Music Business--Shifting the Social Landscape (GT-SS3)	3
BUS 361	Principles of Music Marketing	3
BUS 362	Making Money in Music	3

Select one course from the following: ¹		3
MGT 305	Fundamentals of Management	
MKT 305	Fundamentals of Marketing	
Select one course from the following:		3
BUS 205	Legal and Ethical Issues in Business	
BUS 220	Ethics in Contemporary Organizations (GT-AH3)	
MGT 340	Fundamentals of Entrepreneurship	
MKT 320	Integrated Marketing Communications	
MKT 362	Professional Selling	
MKT 370	Digital Marketing	
MKT 375	Social Media Marketing	

Program Total Credits: **21**

¹ If a student selects MKT 305, they may take any of the course options below. If a student selects MGT 305, they must take BUS 205, BUS 220, or MGT 340.

Certificate in Business-To-Business Selling

The Business-to-Business Selling certificate provides an opportunity to develop significant knowledge and experience in addressing business customers' needs and building long-term mutually beneficial relationships. Learn about approaches for attracting customers, planning for and conducting meetings with business customers, managing a sales force, designing channels of distribution, and developing marketing strategies. This certificate may provide career advancement opportunities within selling, sales management, and business-to-business marketing.

Learning Objectives

Upon successful completion, students will be able to:

1. Discuss what business customers expect from vendors and business partners.
2. Conduct customer and competitive analyses as an input into the sales process.
3. Learn the planning and implementation of trust-based sales encounters with business customers.
4. Identify effective sales strategies.
5. Learn recruiting, selection, training and leadership of sales force.

Requirements Effective Fall 2020

Additional coursework may be required due to prerequisites.

Code	Title	Credits
MKT 330	Business Customer Relationships	3
MKT 362	Professional Selling	3
MKT 363	Sales Management	3
Program Total Credits:		9

Certificate in Customer Experience Management

The Customer Experience Management certificate provides management skills and strategic insights for providing consumers with satisfying experiences across a cross-section of markets, including retailing, hospitality, and entertainment. Customers' experiences often extend into online contexts. This certificate will provide an understanding of digital tools used to attract customers and address their needs for information and online services.

Learning Objectives

This certificate provides students with an understanding of marketing strategies and tactics for creating favorable (1) online experiences; (2) retail/service environments; and (3) service-related interactions.

Requirements Effective Summer 2016

Additional coursework may be required due to prerequisites.

Code	Title	Credits
MKT 360/DM 360 or MKT 367	Retailing Sports Marketing	3
MKT 366	Services Marketing	3
MKT 370	Digital Marketing	3
Program Total Credits:		9

Certificate in Market Research and Data Analytics

This certificate provides students with a comprehensive view of the tools that marketing managers use to understand markets and evaluate their marketing efforts. Gain valuable insight into the traditional qualitative and quantitative research methods used to collect primary data, as well as the advanced analytic techniques used by marketers to transform secondary data into decision-making information. Access to data gathered through digital marketing efforts is central to the analytical methods used by marketing managers.

Learning Objectives

Students will:

1. Learn the tools marketing managers use to understand markets, and evaluate their marketing efforts.
2. Learn the traditional qualitative and quantitative research methods used in collecting primary data.
3. Understand advanced analytic techniques used by marketers to transform secondary data into decision making information.
4. Analyze how to access data gathered through digital marketing efforts.
5. Gain experience with social media, website management, content marketing, web analytics and search engine optimization.

Requirements Effective Fall 2016

Additional coursework may be required due to prerequisites.

Code	Title	Credits
MKT 370	Digital Marketing	3
MKT 410	Marketing Research	3
MKT 450	Marketing Analytics	3
Program Total Credits:		9

Certificate in Marketing Communication and Branding

The Marketing Communication and Branding certificate is designed to train for effectively communicating with customers across a variety of channels and in developing effective branding strategies. Students completing this certificate could pursue employment at an ad agency or an agency specializing in branding, digital marketing, or sales promotion. Students gain knowledge, skills, and experiences for employment as a marketing communications or digital marketing specialist.

Learning Objectives

This certificate provides students with an in-depth understanding of the concepts, issues, terminology and methodologies related to the discipline and practice of branding and marketing communication design.

Requirements

Effective Summer 2016

Additional coursework may be required due to prerequisites.

Code	Title	Credits
MKT 315	Marketing Communication Design	3
MKT 320	Integrated Marketing Communications	3
MKT 370	Digital Marketing	3

Hear how a music festival operates from a founder of the Coachella Valley Music and Arts Festival. Get the scoop about recording contracts or touring from Big Head Todd or Griz as well as members of Mumford and Sons, The Avett Brothers and Phish. Discover the opportunities in agency and management or other careers from folks in firms that have represented Elton John, Michael Jackson, Radiohead, AC/DC and Bruce Springsteen and/or run major labels, publishing companies, marketing firms, and more.

The Certificate in Music Business is a 3-course, 9-credit program covering concepts and practical skills involving the contemporary music business.

This certificate prepares you to understand and navigate an industry unlike no other. The primary function is to offer graduates a fundamental understanding of the music business marketplace by learning the vocabulary and workings of the industry, identifying major stakeholders,

and exploring career and entrepreneurial opportunities within this growing field. Whether you're preparing for a career as a performer or plan to impact the industry with a supporting role as a producer or engineer, at a record label or publisher, in concert promotion, as an agent or artist manager, as legal representation, or an array of other endeavors, the certificate lays the foundation for a career in an evolving, exploding and fast-paced industry.

Learning Objectives

Upon successful completion, students will be able to:

1. Delineate the various economies within the music industry.
2. Provide analysis of the revenue and income models available within the music industry.
3. Describe common contract language related to music-business deals.
4. Identify the entrepreneurial opportunities for graduates in the entertainment field.
5. Describe the principles of marketing required for both artist-discovery and promotion of artists (both emerging and established).

Requirements

Effective Fall 2022

Additional coursework may be required due to prerequisites.

Code	Title	Credits
BUS 361	Principles of Music Marketing	3
BUS 362	Making Money in Music	3

Program Total Credits:		9

Certificate in Strategic Marketing

The Strategic Marketing certificate provides experience in marketing decision-making and planning. Students will be exposed to frameworks and concepts that are central to developing marketing strategies. Courses that center on different components of marketing will provide experience in addressing a wide variety of marketing problems.

Learning Objectives

This certificate will provide students with frameworks for assessing the marketing environment and developing appropriate and effective marketing strategies. Students will gain significant experience in marketing decision making across key areas, including advertising/promotion, pricing, channels of distribution, and product development.

Requirements

Effective Summer 2016

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Select three courses from the following:		9
MKT 320	Integrated Marketing Communications	
MKT 330	Business Customer Relationships	
MKT 364	Product Design	

MKT 440 Pricing and Financial Analysis in Marketing

Program Total Credits: 9

Graduate Certificate in Marketing Management

The Graduate Certificate in Marketing Management provides students with a foundation in marketing and the opportunity to acquire an in-depth understanding of marketing topics. The initial required courses introduce marketing concepts. Students develop marketing strategy and planning skills in a second required course. Elective courses allow students to develop deeper knowledge in areas of interest, including sales management, consumer behavior, services marketing, search engine optimization, and market research. The program should benefit current MBA students as well as business people seeking to gain additional marketing knowledge. The program stresses application and targets working managers.

Students interested in graduate work should refer to the Graduate and Professional Bulletin.

Learning Objectives

Students will:

1. Define and examine in-depth all elements of marketing management, marketing strategy, and the various sub-fields of marketing including consumer behavior, marketing research, sales, services marketing, and digital marketing.
2. Explain how various environments impact markets and strategies, including economic, legal, regulatory, cultural, and competitive environments.
3. Describe various types of personal consumers by their primary and secondary purchasing characteristics, including demographics, psychographics, culture, and other characteristics.
4. Describe characteristics of business-to-business transactions, including differences in markets and products, differences in the purchasing process, and the formation and termination of relationships.
5. Define key elements of marketing strategy, including market segmentation, target market, pricing strategies, and various go-to-market strategies.
6. Master key elements of product development and design, including branding strategies.
7. Design and build market research studies of both a qualitative and quantitative nature, including interpretation of data and managerial implications of such interpretation.
8. Apply a process for developing a marketing strategy: a) analyze customers, competitors, company, and context; b) develop a positioning; and c) develop a marketing strategy based on a target market with integrated decisions on price, promotion, place, and product.

Requirements Effective Fall 2023

Additional coursework may be required due to prerequisites.

Code	Title	Credits
BUS 655	Marketing Management	2
BUS 656	Marketing Strategy and Planning	2
Select five credits from the following courses:		5
MKT 568	Sport Marketing	
MKT 610	Qualitative Marketing Research Methods	
MKT 611	Quantitative Marketing Research Methods	
MKT 621	Search Engine Marketing and Optimization	
MKT 661	Consumer Behavior	
MKT 662	Strategic Selling for Business Customers	
MKT 667	Services Marketing Management	
MKT 670	Digital Marketing	

Program Total Credits: 9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

College-Wide Graduate Programs

Master's Programs

Master of Engineering, Plan C, Advanced Manufacturing Specialization
Master of Engineering, Plan C, Aerospace Engineering Specialization
Master of Engineering, Plan C, Biomedical Engineering Specialization

Master of Engineering, Plan C, Chemical Engineering Specialization
Master of Engineering, Plan C, Civil Engineering Specialization
Master of Engineering, Plan C, Computer Engineering Specialization
Master of Engineering, Plan C, Electrical Engineering Specialization
Master of Engineering, Plan C, Mechanical Engineering Specialization
Master of Engineering, Plan C, Systems Engineering Specialization

The mission of the Walter Scott, Jr. College of Engineering is to educate, innovate, cultivate and engage in order to generate new knowledge, improve quality of life and positively impact society.

Engineers are critically involved in every facet of modern technological society, processing information, designing systems and equipment, maintaining society's infrastructure, solving environmental and energy problems, and helping attain desired levels of efficiency and comfort. The Walter Scott, Jr. College of Engineering continues its tradition—a tradition as old as CSU—of providing world-class training in the basic fields of engineering through both undergraduate instruction and graduate programs strongly supported by modern research facilities and distinguished faculty.

College Programs

The Engineering Accreditation Commission of ABET (<http://www.abet.org>) accredits all engineering undergraduate programs.

Undergraduate programs are administered by the Departments of Chemical and Biological Engineering, Civil and Environmental Engineering, Electrical and Computer Engineering, and Mechanical Engineering. These departments offer four-year programs leading to Bachelor of Science degrees. Although emphasis is on broad training in basic engineering, students may specialize to some extent by proper choice of technical electives. Additionally, the School of Biomedical Engineering offers a program in which students attain two degrees in five-years. Graduates of this program receive two degrees: one B.S. in Biomedical Engineering and the other B.S. in one of three traditional engineering areas: Chemical and Biological Engineering, Electrical Engineering, or Mechanical Engineering.

Students may consider simultaneously completing the requirements for a second major. See Second Major Requirements for a complete description of the program. A student may pursue a minor program of study inside or outside the Walter Scott, Jr. College of Engineering in conjunction with the desired engineering major.

Walter Scott, Jr. College of Engineering General Objectives and Outcomes

Outcomes

Graduates of the undergraduate engineering programs will be able to demonstrate:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. An ability to communicate effectively with a range of audiences
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts

5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies

Objectives

Individual program outcomes and objectives are provided within the respective departments' websites and below, in this catalog.

Cooperative Education Program

The cooperative education program is an academic rotational program in which students work at least three semesters, two of which are fall or spring, in an assignment related to their major. Each work semester, cooperative education students register for one credit hour of *Engineering Cooperative Experience* to maintain their full-time student status. Three cooperative education credit hours may be substituted for a technical elective in their major. Cooperative education students gain at least a year of work experience, typically with the same employer, while earning a competitive salary. The cooperative education program allows participants to explore their chosen engineering discipline, build a powerful resume, develop a network of professional contacts, and support their academic expenses.

International Opportunities

Education Abroad programs are available to students in the Walter Scott, Jr. College of Engineering. Because knowledge of other cultures is valuable in understanding our own, students are strongly encouraged to take a summer or semester to study outside the United States as part of their overall program at CSU. Students interested in study abroad should plan far in advance by discussing opportunities with their academic advisor and by visiting the Office of International Programs (<http://international.colostate.edu>) in Laurel Hall.

Registration as a Professional Engineer

Registration and licensing are required under certain legally defined circumstances in order to practice as an engineer. The Walter Scott, Jr. College of Engineering actively encourages all of its students to fulfill the necessary requirements as soon as they are eligible. The Fundamentals of Engineering Examination (FE) administered by the State Board of Registration for Professional Engineers and Professional Land Surveyors may be taken by seniors from ABET accredited programs during the two semesters prior to graduation. After the required practical experience is completed, the Principles and Practice of Engineering Examination (PE) may be taken for licensure in the engineering profession.

Career Readiness

Within the Walter Scott Jr. College of Engineering, the Engineering Success Center (<http://www.engr.colostate.edu/engineering-success-center/>) provides comprehensive career services and career preparation as part of the Office of Academic and Student Affairs. The center delivers a full spectrum of programs supporting the professional development and placement of undergraduate engineers while considering the workforce needs of its industry partners. Student services include resume reviews, job search advice, career fairs, salary negotiation tactics, mock interviews, cooperative education partnerships, and the opportunity to engage with diverse student organizations.

Admission Information

Students may be admitted to a specific undergraduate major in this college or choose to explore all areas of engineering as an Engineering Open Option student. Engineering Open Option students must specify their choice of major prior to registration for the sophomore year. Should the demand for any engineering major exceed the capacity to maintain a high-quality education, the college may find it necessary to limit enrollment in some majors.

High School Graduates

See General Policies for Undergraduate Admissions for specific Walter Scott, Jr. College of Engineering requirements. The required units listed are minimums. Students desiring to enter the engineering majors are urged to take available advanced math, English, computer skills, and natural sciences classes.

Course Placement and Advising for Freshmen

All entering first-year students are required to take the Mathematics Placement Tool (<https://placement.math.colostate.edu/welcome/directory.html>) prior to registration during their respective summer Ram Orientation session. The examination results, together with other information about students, are used by both professional and faculty advisors to counsel students.

Transfer Students

Advisors in each department are available to assist students who wish to transfer. Should the demand for any engineering major exceed the capacity to maintain a high-quality education, individual departments may find it necessary to enforce more stringent requirements.

Transfer of credits earned at other colleges and universities within Colorado is facilitated by the articulation agreements from one university to another on course equivalencies.

Change of Major to Engineering

Students who wish to change from another CSU major are selected for admission once at the end of each term; students are admitted based on academic criteria. Some majors may specify more stringent requirements in math and science or other courses. Engineering courses are normally open to engineering majors only.

Curricular Requirements

The curricula of the Walter Scott, Jr. College of Engineering include courses in engineering, mathematics, science, humanities, and social sciences. During the first two years, all engineering students take coursework emphasizing mathematics, physics, chemistry, and basic engineering; because all branches of engineering rely on this foundation. The junior and senior years are devoted primarily to a balanced selection of specialized engineering courses. The minimum number of credits for graduation with a Bachelor of Science degree varies by engineering major.

Good engineers are not only competent to render professional service in their fields of specialization, but are able to assume leadership roles as citizens. To broaden students' perspectives in non-technical areas, the programs in engineering require a minimum of 12 to 15 credits in arts and humanities and behavioral and social sciences to be selected from anthropology, economics, foreign languages, history, literature, philosophy, political science, psychology, and sociology. Courses in art, geography, music, speech, and theater may also be selected with the prior

approval of the advisor. These courses must be selected in such a way that they also meet All-University Core Curriculum requirements.

The ability to express oneself clearly and concisely in both written and oral forms is a great asset to the engineer who is often called upon to prepare reports in which clarity, organization, and precision are essential. For this reason, engineering students must do more than meet the minimum English course requirements. In fact, the development of communication skills is emphasized throughout the engineering curricula. This emphasis is especially evident in laboratory and design-oriented courses, in which the presentation of both oral and written reports is a major component.

The Walter Scott, Jr. College of Engineering requires a minimum grade point average of 2.000 in required engineering, mathematics, chemistry, and physics courses as a graduation requirement. Additional minimum grade requirements apply in some engineering majors.

An engineer applies physical understanding and analytical techniques to the *design* of devices and systems needed by modern society. The preparation of an engineer, therefore, must include engineering design experience. To meet this objective, all undergraduate engineering students must participate in a well-structured sequence of design-related courses culminating in a capstone design experience in order to graduate.

Graduate Programs in Biomedical Engineering

Programs leading to a Master of Engineering, Master of Science, and Doctor of Philosophy degrees are offered at CSU. The graduate programs in Bioengineering (M.S. and Ph.D.) integrate physical, chemical, and mathematical sciences with engineering principles and clinical studies. There are boundless opportunities for research, ranging from new therapies and imaging modalities for fighting cancer, to improving the design of vital medical equipment used in open heart surgery, or developing the next generation of gene therapies and engineered tissues. CSU is uniquely positioned to offer this advanced degree program. The highly-ranked Veterinary Medical Center and the Professional Veterinary Medicine Program (<https://vetmedbiosci.colostate.edu/dvm/>) are co-located with engineering and sciences on the CSU campus, providing a rich environment for interdisciplinary research and day-to-day collaborations.

Other Graduate Programs under the Walter Scott, Jr. College of Engineering

The Walter Scott, Jr. College of Engineering also offers an M.S. and a Ph.D. in Systems Engineering, as well as graduate-level interdisciplinary studies programs in Extreme Ultraviolet and Optical Science and Technology, and Systems Engineering. Students interested in graduate work should refer to the Graduate and Professional Bulletin.

Master of Engineering, Plan C, Advanced Manufacturing Specialization

The Master of Engineering, Plan C, Advanced Manufacturing Specialization is an on-campus or online degree program (<https://www.online.colostate.edu/degrees/advanced-manufacturing/>) focused on providing students with the competencies, skills, and experience to

advance in careers in a manufacturing industry. The curriculum includes subjects in manufacturing processes and process control, factory systems and supply chains, business fundamentals and the product development process. This is a coursework-only degree program with no thesis requirement.

Students interested in graduate work should refer to the Graduate and Professional Bulletin.

Learning Objectives

Students will:

1. Execute a wide range of activities inherent in the design and manufacture of world-class products, including designing products, selecting materials, determining and applying manufacturing processes and systems design, and validating products.
2. Remain abreast of and effectively execute advanced manufacturing and design technology as it evolves, including CAD/CAM/CAE and state of the art manufacturing machinery, tools, and equipment.
3. Integrate different manufacturing processes into an effective system for producing goods that can compete in the world market. This includes scheduling production, managing inventory, utilizing information systems, and creating system simulations.

Requirements Effective Summer 2023

Program Total Credits:		30

A minimum of 30 credits are required to complete this program.¹

¹ Of the 30 minimum credits required for this program, at least 21 credits must be at the 500-level or above and earned at CSU.

Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees in the Graduate and Professional Bulletin.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website

12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Master of Engineering, Plan C, Aerospace Engineering Specialization

The Master of Engineering, Plan C, Aerospace Engineering Specialization is an on-campus or online degree program focused on providing students with aerospace engineering-relevant content, in disciplines such as Fluid Flow, Propulsion, Structures, and Materials and Manufacturing. This program is intended for professional students who have an undergraduate degree in engineering and are working in the aerospace industry. This is a coursework-only degree program with no thesis requirement.

[Students interested in graduate work should refer to the](#) Graduate and Professional Bulletin.

Learning Objectives

The Aerospace Engineering Program prepares graduates to achieve the following objectives:

1. Utilize and apply advanced mathematical, computational, design and / or experimental skills.
2. Identify, formulate and solve advanced problems in aerospace engineering.
3. Effectively communicate technical ideas through reports, presentations, or other media at the high-level associated with graduate education.
4. Acquire knowledge in one or more sub-disciplines associated with aerospace engineering and technical areas of interest.
5. Display knowledge about contemporary research in aerospace engineering and related disciplines, ethical standards of conducting research, analyzing data and disseminating information as part of the engineering profession.
6. Analyze data, report findings, and draw conclusions that result in original contributions to knowledge in aerospace engineering and / or related fields.

Requirements Effective Fall 2023

Code	Title	Credits
Foundational Courses (Select at least one course from two different groups for a minimum of 6 credits):		6
Group A:		

ENGR 550/ MATH 550	Numerical Methods in Science and Engineering
MECH 568	Computational Methods for Mechanical Eng.
Group B:	
MECH 538	Mechanical Engineering Thermodynamics
MECH 539	Advanced Fluid Mechanics
Group C:	
CIVE 560	Advanced Mechanics of Materials
MECH 532/ BIOM 532	Materials Issues in Mechanical Design
Technical Electives (see list below)	
24	
Program Total Credits:	
30	

Technical Electives (Select at least eight courses from the below technical electives or the above foundational courses for a minimum of 24 credits):

Code	Title	Credits
Fluid Flow Technical Electives:		
MECH 478	Computational Fluid Dynamics	
MECH 507	Laser Diagnostics for Thermosciences	
MECH 551	Physical Gas Dynamics I	
MECH 552	Applied Computational Fluid Dynamics	
Propulsion Technical Electives:		
MECH 468	Space Propulsion and Power Engineering	
MECH 517	Chemical Rocket Propulsion	
MECH 518	Orbital Mechanics	
MECH 519	Aerospace Vehicles Trajectory and Performance	
MECH 557	Turbomachinery	
MECH 558	Combustion	
MECH 567	Broad-Beam Ion Sources	
MECH 658	Advanced Combustion Theory and Modeling	
Structures Technical Electives:		
MECH 425	Mechanical Engineering Vibrations	
MECH 426	Advanced Machine Design	
MECH 515	Advanced Topics in Mechanical Vibrations	
MECH 520	Finite Element Analysis in Mechanical Engr	
MECH 535	Mechanics of Composite Materials	
Materials & Manufacturing Technical Electives:		
MECH 502	Advanced/Additive Manufacturing Engineering	
MECH 530	Advanced Composite Materials	
MECH 531/ BIOM 531	Materials Engineering	
MECH 533	Composites Product Development	
MECH 537	Processing of Polymer Composites	
Systems Engineering Technical Electives:		
ENGR 570	Coupled Electromechanical Systems	
MECH 417	Control Systems	
MECH 513	Simulation Modeling and Experimentation	
MECH 524	Principles of Dynamics	

SYSE 501	Foundations of Systems Engineering
SYSE 530	Overview of Systems Engineering Processes

A minimum of 30 credits are required to complete this program.¹

¹ Of the 30 minimum credits required for this program, at least 21 credits must be at the 500-level or above and earned at CSU.

Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees in the Graduate and Professional Bulletin.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website

13. Submit a signed Thesis/ Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/ dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Master of Engineering, Plan C, Biomedical Engineering Specialization

The Master of Engineering, Plan C, Biomedical Engineering Specialization focuses on enhancing the expertise of working engineering professionals. Engineers and scientists who want to further their careers with engineering related firms and governmental agencies should consider this degree. Students have flexibility to develop a plan of study in their area of interest.

Students interested in graduate work should refer to CSU's Graduate and Professional Bulletin and the School of Biomedical Engineering (<http://www.engr.colostate.edu/sbme/>) website.

Learning Objectives

Students will:

1. Review the fundamental science and engineering principles relevant to biomedical engineering.
2. Demonstrate an advanced technical knowledge of evolving areas associated with the biomedical engineering field so the students can be successful in their chosen field of work.
3. Develop critical thinking related to the engineering principles relevant to biomedical engineering.
4. Apply knowledge of fundamentals in biomedical engineering to relevant real-life problems.

Requirements Effective Fall 2021

Code	Title	Credits
Core Course Requirements		
BIOM 570/MECH 570	Bioengineering	3
BIOM 576/MECH 576	Quantitative Systems Physiology	4
Foundation Courses		
Select a minimum of 9 credits from the following:		9
BIOM 517/ ECE 517	Advanced Optical Imaging	
BIOM 525/ MECH 525	Cell and Tissue Engineering	
BIOM 526/ ECE 526	Biological Physics	
BIOM 531/ MECH 531	Materials Engineering	

BIOM 533/ CIVE 533 or CIVE 534	Biomolecular Tools for Engineers ¹ Applied and Environmental Molecular Biology
BIOM 537/ ECE 537	Biomedical Signal Processing
BIOM 573/ MECH 573	Structure and Function of Biomaterials
BIOM 574/ MECH 574	Bio-Inspired Surfaces

Depth Courses

Select a minimum of 11 credits from the following not taken in another category: 11

ANEQ 565	Interpreting Animal Science Research
BC 565	Molecular Regulation of Cell Function
BIOM 504/ CBE 504	Fundamentals of Biochemical Engineering
BIOM 518/ ECE 518	Biophotonics
BIOM 527A/ ECE 527A	Biosensing: Cells as Circuits
BIOM 531/ MECH 531	Materials Engineering
BIOM 532/ MECH 532	Materials Issues in Mechanical Design
BIOM 578/ MECH 578	Musculoskeletal Biosolid Mechanics
BIOM 579/ MECH 579	Cardiovascular Biomechanics
BIOM 586A	Biomedical Clinical Practicum
BIOM 586B	Biomedical Clinical Practicum
BIOM 592	Seminar
BMS 500	Mammalian Physiology I
BMS 501	Mammalian Physiology II
BMS 575	Human Anatomy Dissection
BMS 631	Mechanisms of Hormone Action
CBE 503	Transport Phenomena Fundamentals
ECE 512	Digital Signal Processing
ERHS 712	Physics of Diagnostic Imaging
HES 531	Muscle and Joint Mechanics
MECH 502	Advanced/Additive Manufacturing Engineering
MECH 530	Advanced Composite Materials
MECH 543	Biofluid Mechanics
MIP 651	Immunobiology
NB 505/BMS 505	Neuronal Circuits, Systems and Behavior

Breadth Courses

Select a minimum of 3 credits from the following: 3

MATH 530	Mathematics for Scientists and Engineers
MATH 535	Foundations of Applied Mathematics
MATH 545	Partial Differential Equations I
MATH 550/ ENGR 550	Numerical Methods in Science and Engineering
MATH 560	Linear Algebra

STAR 512	Design and Data Analysis for Researchers II
Program Total Credits:	
30	

A minimum of 30 credits are required to complete this program.²

¹ Students with a strong background in Cellular and Molecular Biology may substitute CM 502 for BIOM 533 or CIVE 534.

² Students must take a minimum of 15 credits of biomedical engineering (BIOM) courses.

Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees in the Graduate and Professional Bulletin.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website

13. Submit a signed Thesis/ Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/ dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Master of Engineering, Plan C, Systems Engineering Specialization Learning Objectives

Upon successful completion, students will be able to:

1. Use systems engineering thinking and frameworks to effectively design, analyze, and implement integrated systems solutions.
2. Effectively use applied Systems Engineering tools such as modeling and simulation of a system (including digital twinning), risk analysis, or other skills required for systems engineering professional roles.
3. Analyze systems interfaces between stakeholder, technical domains effectively and efficiently.
4. Exemplify a variety of roles in multi-disciplinary teams including systems engineer, technical expert, and leader.

Requirements Effective Fall 2024

Code	Title	Credits
Core Courses		
ENGR 502	Engineering Project and Program Management	3
or CIS 600A or CIS 670	Project Management: Information Technology Advanced IT Project Management	
ENGR 531	Engineering Risk Analysis	3
SYSE 501	Foundations of Systems Engineering	3
SYSE 530	Overview of Systems Engineering Processes	3

Department of Atmospheric Science About the Department

Our top-rated department focuses on graduate education, cutting-edge research, and public service. We currently have 23 faculty members and approximately 80 graduate students. We also have around 50 full-time researchers and an outstanding and dedicated support staff. Our diverse areas of research (<https://www.atmos.colostate.edu/research/>) include: Cloud Microphysics, Severe Storms and Mesoscale Meteorology; Atmospheric Chemistry and Air Quality; Radiation and Remote Sensing; Climate and Atmosphere-Ocean Dynamics; Global Biogeochemical Cycles and Ecosystems; Data Assimilation, Machine Learning, and Causal Discovery; and Education and Work Force Development. We offer graduate degrees at both the M.S. and Ph.D. levels. Graduate

students typically find employment in government research laboratories, academic institutions, the private sector, and military services.

For additional information on graduate programs and the application process, please visit the Department of Atmospheric Science website (<https://www.atmos.colostate.edu/>), Application Overview (<https://www.atmos.colostate.edu/grad-prog/graduate-program/>), and Atmospheric Science Graduate Student Guide (<https://www.atmos.colostate.edu/documents/GraduateStudentGuide2022.pdf>).

Contact Information

Professor Eric D. Maloney, Department Head
 Sarah Tisdale, Graduate Advisor
 Atmospheric Science West Building, Foothills Campus
 3915 W. Laporte Ave
 Fort Collins, CO 80521
 Email: info@atmos.colostate.edu

Undergraduate

No undergraduate major is offered. Undergraduates interested in atmospheric science at the graduate level are encouraged to major in engineering, physics, chemistry, or mathematics.

Graduate Graduate Programs in Atmospheric Science

The department offers a Master of Science and a Doctor of Philosophy in Atmospheric Science. Students interested in graduate work should refer to the Graduate and Professional Bulletin or visit the department website (<https://www.atmos.colostate.edu/>).

M.S. Program

Students that complete a thesis-based M.S. program acquire the knowledge and proficiency needed in the field of atmospheric science, allowing them to either continue their education at the PhD level, or seek employment in a wide range of careers (such as weather and climate forecasting and prediction, insurance, government labs, NGOs, environmental consulting). Successful students in the M.S. program demonstrate the following (as determined by their committee):

1. Broad knowledge of the fundamental areas of atmospheric science that include Climate and Atmospheric Dynamics, Weather and Weather Systems, Radiation and Remote Sensing, and Atmospheric Chemistry. This knowledge is gained through core curriculum, electives, weekly cross-disciplinary colloquia, and area-specific group meetings.
2. Understanding and practice of research ethics and broader issues related to social responsibility through a responsible conduct of research course, research projects, and weekly colloquia.
3. Completion of a high-quality original research project.
4. Proficiency in oral and written communication of research through presentations at professional conferences/meetings and preparation of manuscripts for professional journals.

Prerequisites

- Bachelor of Science (B.S.) degree in physics, mathematics, atmospheric science, engineering, chemistry, or related field with a cumulative GPA of at least 3.0
- Calculus-based math course sequence including differential equations and vector analysis
- Calculus-based physics course sequence including kinetics, electricity and magnetism, and some modern topics

Plan A (Thesis)

A minimum of 30 semester credits plus thesis is required. At least 19 credits must be earned in structured academic courses. 11 credits may be in special studies, graduate seminars, and research. Of the total 30 credits, 20 must have the ATS subject code.

All M.S. students must complete the following required courses (required courses account for 13 credit hours):

- ATS 601 Atmospheric Dynamics I (2 credits)
- ATS 606 Introduction to Climate (2 credits)
- ATS 620 Thermodynamics and Cloud Physics (2 credits)
- ATS 621 Atmospheric Chemistry (2 credits)
- ATS 622 Atmospheric Radiation (2 credits)
- ATS 693 Responsible Research in Atmospheric Science (1 credit)
- One of the following:
 - ATS 640 Introduction to Synoptic Dynamics (2 credits)
 - ATS 641 Introduction to Mesoscale Dynamics (2 credits)

All M.S. students must also complete 6 elective credit hours in structured classes. Electives may include any structured class at the 500/600-level. With written advisor approval, electives may also include structured 700-level classes and/or structured graduate courses in other departments. Audited classes do not count towards the M.S. degree.

A student may substitute an alternate course for a required class if:

1. A course similar to the required class has already been completed at the graduate level with a grade of B or higher
2. The student's advisor, the department head, and the instructor of the required course approve the substitution in writing

A student's program of study, and any deviations therein from department degree requirements, requires department head approval.

ATS 784 does not count toward the 19 structured credits. ATS 699A-O and ATS 784 are graded as S/U.

In addition to meeting the formal credit requirements for the M.S. as described above, all graduate students enrolled in the department are expected to attend the weekly department colloquium series. These colloquia are an important part of the total instructional program. Details can be found on the colloquium page (<http://www.atmos.colostate.edu/colloquia/>) on the ATS website.

Ph.D. Program

The department offers a Ph.D. program for students who want to obtain the highest academic degree available in the field of atmospheric science. Students who earn a Ph.D. must demonstrate significant intellectual achievement, high scholarly ability, and a great breadth of

knowledge. Successful students in the Ph.D. program demonstrate the following:

1. Deep knowledge in multiple areas in atmospheric science achieved through elective courses and weekly colloquia.
2. Skillful ability to formulate a science problem, review literature, propose an experiment, and analyze data at a level appropriate for academic or professional success. This ability is assessed through a three-part PhD Preliminary Examination (research prospectus, written exam related to the research/prospectus, and an oral exam by the PhD Committee).
3. Proficiency in (1) written communication through a dissertation and peer-reviewed research articles and (2) oral communication through presentations at professional conferences/meetings.
4. For students interested in gaining teaching experience, acquire basic training in teaching through teaching assistantships and other opportunities.

Prerequisites

- Successful completion of an M.S. degree with thesis in atmospheric science, physics, math, engineering, chemistry, or related field
- Demonstration of aptitude for research

Course Requirements

Ph.D. students must take a minimum of 42 semester credits beyond the (thesis option) master's degree (or 72 semester credits beyond the bachelor's degree). At least 21 credits beyond the master's degree (or 37 credits beyond the bachelor's degree) must be earned in courses numbered 500 or above.

- Ph.D. students are required to take two structured courses per academic year. Students must register for the courses, and only one may be taken as an audit. The structured courses can be selected from the 500, 600, or 700 level. With written advisor approval, the courses may also include structured graduate classes from other departments. When the student is within one semester of graduation, the student and advisor may petition the Department Head, in writing, for a waiver of the "two courses per year" requirement. While ATS 784 (Supervised College Teaching) is not considered a structured academic course, it is allowed to count towards the two courses per academic year Ph.D. requirement.
- Successful completion of ATS 693 (1 cr), Responsible Conduct of Research, offered every spring semester.

In addition to meeting the formal credit requirements for the Ph.D. as described above, all graduate students enrolled in the department are expected to attend the weekly department colloquium series. These colloquia are an important part of the total instructional program. Details can be found on the colloquium page (<http://www.atmos.colostate.edu/colloquia/>) on the ATS website.

Evaluation Mechanisms

- Successful completion of the department preliminary exam that includes background, methods, and current research that applies to the specific area(s) encompassing the candidate's proposed research topic
- Successful research topic proposal presentation
- Dissertation prepared under the mentorship of the student's advisor and graduate committee that meets the following criteria: displays

original and creative scholarship, contributes new knowledge to the field of atmospheric science, and expresses good literate style.

- Successful defense of a dissertation before the student's graduate committee and any other members of the academic and scientific communities who desire to attend

The student's graduate committee is charged with ensuring the student gains breadth in atmospheric science during their tenure in the program. Accordingly, the graduate committee may make recommendations on coursework to be completed prior to graduation.

Courses

Atmospheric Science (ATS)

ATS 150 Science of Global Climate Change (GT-SC2) Credits: 3 (3-0-0)

Course Description: The relationship between carbon combustion and global warming; the impacts of climate change on people, ecosystems, and society; the costs and benefits of mitigation and adaptation; the categories of policy response; and engineering approaches to address climate change.

Prerequisite: None.

Restriction: Must be a: Undergraduate.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).

ATS 350 Introduction to Weather and Climate Credits: 2 (2-0-0)

Course Description: Behavior of atmosphere and its influence upon human's activities.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ATS 351 Introduction to Weather and Climate Lab Credit: 1 (0-3-0)

Course Description: Actual weather data, visualization of meteorological phenomena, in-depth discussion of current environmental issues.

Prerequisite: ATS 350, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ATS 440 Sea Level Rise and a Sustainable Future Credits: 3 (3-0-0)

Also Offered As: GES 440.

Course Description: Overview of sea level rise (SLR), with lectures on basic geophysics of SLR, the projected future impacts from climate models, and uncertainty around these projections. Impacts of SLR are discussed in a historical, present, and future context, focusing on social, cultural, economic, and political dimensions.

Prerequisite: None.

Registration Information: Completion of AUCC categories 1A, 1B, and 3A. Credit allowed for only one of the following: ATS 440, GES 440, or GES 480A3.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ATS 495 Independent Study Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ATS 542 Paleoclimate Credits: 3 (3-0-0)****Also Offered As:** GEOL 542.**Course Description:** A survey of past climate and Earth system states, from the Archean to the Holocene. Special emphasis on extreme climates and on time periods where there remains substantial model-data disagreement. Role of paleoclimate in understanding future warming and evolution of the Earth system.**Prerequisite:** GEOL 154.**Restriction:** Must not be a: Freshman.**Registration Information:** Credit allowed for only one of the following:

ATS 542, ATS 580B1, GEOL 542, or GEOL 580B1.

Term Offered: Spring (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 543 Global Climate Change Credits: 2 (2-0-0)****Also Offered As:** ESS 543.**Course Description:** Climate change science, climate change impacts, and climate change mitigation, including discussions of current topics in climate change.**Prerequisite:** BZ 300 to 499 - at least 3 credits or CHEM 300 to 499 - at least 3 credits or LIFE 300 to 499 - at least 3 credits.**Registration Information:** Sections may be offered: Online. Credit not allowed for both ATS 543 and ESS 543.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 550 Atmospheric Radiation and Remote Sensing Credits: 3 (3-0-0)****Course Description:** Introduction to the role of remote sensing measurements in observing and monitoring land and ocean, atmospheric temperature, humidity, trace gases, aerosols, clouds, and precipitation. Coverage of the fundamentals of atmospheric radiation to explain a variety of remote sensing techniques, and hands-on experience in collecting real-world data to connect satellite remote sensing theory and practice for weather and climate variables.**Prerequisite:** MATH 261 and PH 142.**Registration Information:** Sections may be offered: Online.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 555 Air Pollution Credits: 3 (3-0-0)****Course Description:** Nature, ambient concentrations, sources, sinks, and physiological activities of pollutants; meteorology; legislation; social and economic factors.**Prerequisite:** (CHEM 113) and (MATH 261 or MATH 340) and (PH 122 or PH 142).**Term Offered:** Spring (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 556 Climate Intervention to Cool a Warming Planet Credits: 2 (2-0-0)****Course Description:** Introduction to the climate system and its modification by human activities, different potential climate intervention methods, and the social, legal and political issues salient to the topic.**Prerequisite:** None.**Restriction:** Must not be a: Freshman, Sophomore.**Registration Information:** Junior standing. Completion of AUCC categories 1A, 1B, and 3A. Credit not allowed for both ATS 556 and ATS 580A4.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 560 Air Pollution Measurement Credits: 2 (1-3-0)****Course Description:** Examination and application of techniques for air pollution measurement. Includes sampling and analysis of gases, aerosols, and precipitation.**Prerequisite:** CHEM 114.**Registration Information:** Must register for lecture and laboratory.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 601 Atmospheric Dynamics I Credits: 2 (2-0-0)****Course Description:** Equations of motion; earth's rotation; balanced motion; vorticity and Rossby waves; shallow water models; potential vorticity.**Prerequisite:** (MATH 530) and (MATH 261).**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 602 Atmospheric Dynamics II Credits: 2 (2-0-0)****Course Description:** Sound waves, gravity waves, Rossby waves; numerical weather prediction; baroclinic instability; general circulation; tropical dynamics.**Prerequisite:** ATS 601.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 604 Atmospheric Modeling Credits: 3 (3-0-0)****Course Description:** Design of numerical models of the atmosphere; applications to current problems. Emphasis on practical understanding of relevant numerical methods.**Prerequisite:** ATS 601.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 605 Atmospheric Circulations Credits: 3 (3-0-0)****Course Description:** Observations and theory of the general circulation of the atmosphere, with emphasis on understanding physical mechanisms.**Prerequisite:** ATS 602, may be taken concurrently.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.

ATS 606 Introduction to Climate Credits: 2 (2-0-0)

Course Description: Global energy balance, surface energy balance, the hydrological cycle, atmosphere general circulation, ocean general circulation, climate variability, climate sensitivity and feedbacks.

Prerequisite: (MATH 530) and (MATH 261).

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ATS 607 Computational Methods for Atmospheric Science Credits: 3 (3-0-0)

Course Description: Computer programming tools unique to and common in the atmospheric sciences.

Prerequisite: ATS 601, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ATS 610 Physical Oceanography Credits: 3 (3-0-0)

Course Description: Foundations of ocean circulation theory and the general circulation of the oceans using observational data and rotating tank experiments.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ATS 620 Thermodynamics and Cloud Physics Credits: 2 (2-0-0)

Course Description: Equilibrium thermodynamics, cloud microphysics, precipitation formation, and cloud electrification.

Prerequisite: MATH 340 and PH 142.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ATS 621 Atmospheric Chemistry Credits: 2 (2-0-0)

Course Description: Overview of chemical kinetics and equilibria; sources and sinks of pollutants; photochemistry and smog formation; aqueous-phase chemistry; acid rain.

Prerequisite: CHEM 114 and MATH 340 and PH 142.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ATS 622 Atmospheric Radiation Credits: 2 (2-0-0)

Course Description: Role of radiation in the energy balance of the climate system; Absorption and scattering of solar radiation; Emission and absorption of terrestrial radiation; Interactions of radiation with clouds and aerosols; Role of radiative active trace gases.

Prerequisite: ATS 620.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ATS 623 Atmospheric Boundary Layer Credits: 2 (2-0-0)

Course Description: Equations for shallow atmospheric motions; thermal instability of a fluid layer; atmospheric turbulence; flow stability; 1-D mixed layer models.

Prerequisite: ATS 601, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ATS 631 Introduction to Atmospheric Aerosols Credits: 2 (1-3-0)

Course Description: Physical, chemical and microphysical characteristics of atmospheric particulate matter; measurement principles and techniques.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ATS 632 Interpreting Satellite Observations Credits: 2 (1-3-0)

Course Description: Broad theoretical and practical overview of satellite observations of atmospheric composition. Introduction to the theoretical foundations of satellite composition retrievals of both gases and aerosols, and the associated strengths and weaknesses of commonly used atmospheric products.

Prerequisite: ATS 621 and ATS 622.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory. Credit not allowed for both ATS 632 and ATS 681A1.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ATS 640 Synoptic Meteorology Credits: 2 (1-2-0)

Course Description: Synoptic-scale weather systems; thermodynamic diagrams; vertical motion; fronts; cyclones and anticyclones.

Prerequisite: ATS 601, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ATS 641 Mesoscale Meteorology Credits: 2 (1-2-0)

Course Description: Mesoscale weather systems; instabilities; orographic flows; dynamics of convective storms; organized convection.

Prerequisite: ATS 640.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ATS 650 Measurement Systems and Theory Credits: 2 (2-0-0)

Course Description: Surface and upper air measurement systems; theory and system response, sensor design; automated data collection, analysis and display systems.

Prerequisite: PH 142 and STAT 301.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ATS 651 Data Assimilation in Numerical Models Credits: 3 (3-0-0)

Course Description: Methods for combining theoretical understanding encoded in complex weather and climate models with real-world observations. Applications include weather prediction and other problems in the geosciences.

Prerequisite: (MATH 530) and (MATH 340 and STAT 301).

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ATS 652 Atmospheric Remote Sensing Credits: 2 (2-0-0)

Course Description: Concepts of electromagnetic and acoustic wave propagation; active and passive remote sensing techniques including radar, lidar, thermal emission systems.

Prerequisite: ATS 622.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ATS 655 Objective Analysis in Atmospheric Sciences Credits: 3 (3-0-0)

Course Description: Objective analysis of geophysical data: general statistics; matrix methods; time series analysis. Emphasis on applications to real-world data.

Prerequisite: ATS 601 or MATH 530.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ATS 660 Social Responsibility in Atmospheric Science Credits: 2 (2-0-0)

Course Description: Structure and resources for preparation in addressing issues of participation, representation, and inclusion challenges that are unique to the field of atmospheric science. A diversity of scholarship to develop a robust understanding of foundational concepts and practices for personal and social change and incorporate and disseminate these concepts through atmospheric science research.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both ATS 660 and ATS 680A3.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ATS 693 Responsible Research in Atmospheric Science Credit: 1 (0-0-1)

Course Description: Scientific misconduct; ethical publishing; record keeping; data management; professional skills applicable to atmospheric science.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must be admitted to Atmospheric Science degree program.

Term Offered: Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

ATS 695A Independent Study: Atmosphere/Ocean Coupling Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 695B Independent Study: Atmospheric Science Topics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 699A Thesis: Global Climate Change Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 699B Thesis: Land-Atmosphere Interactions Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 699C Thesis: Tropical Meteorology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

ATS 699D Thesis: Weather Systems Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 699E Thesis: Remote Sensing Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 699F Thesis: Ocean-Atmosphere Interactions Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 699G Thesis: General Circulation Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 699H Thesis: Remote Sensing of Climate Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 699I Thesis: Atmospheric Chemistry Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 699J Thesis: Aerosol and Cloud Microphysics Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 699K Thesis: Dynamic Meteorology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 699L Thesis: Data Assimilation and Causality Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

ATS 699M Thesis: Mesoscale Meteorology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 699N Thesis: Dynamics and Physics of Clouds Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 699O Thesis: Mesoscale Modeling Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 699P Thesis: Radiation Transfer Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

ATS 699Q Thesis: Radar Meteorology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 699R Thesis: Aerosol and Cloud Chemistry Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 699S Thesis: Climate Dynamics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 699T Thesis: Climate Analysis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

ATS 699U Thesis: Tropospheric Chemistry Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 699V Thesis: Atmospheric Variability Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ATS 703 Numerical Weather Prediction Credits: 2 (2-0-0)****Course Description:** Quasi-geostrophic approximation; barotropic, baroclinic, primitive equation, and general circulation models; numerical methods.**Prerequisite:** ATS 602.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 704 Large-Scale Atmospheric Dynamics Credits: 2 (2-0-0)****Course Description:** Quasi-static, quasi-geostrophic equations; planetary waves; geostrophic adjustment; barotropic, baroclinic instability; frontogenesis; tropical cyclones.**Prerequisite:** ATS 602.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 707 Atmospheric Waves and Vortices Credits: 3 (2-0-1)****Course Description:** Atmospheric wave motions and embedded vortices spanning mountain waves to large-scale Rossby waves and critical layers.**Prerequisite:** ATS 605.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Must register for lecture and recitation.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 708 Middle Atmospheric Dynamics Credits: 3 (3-0-0)****Course Description:** Dynamics of the stratosphere and mesosphere with emphasis on the lower and middle stratosphere.**Prerequisite:** ATS 602.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 710 Geophysical Vortices Credits: 3 (3-0-0)****Course Description:** Observational, experimental, and theoretical aspects of geophysical vortices, such as hurricanes, polar lows, tornadoes, and dust devils.**Prerequisite:** ATS 602.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 711 Microclimate Credits: 2 (2-0-0)****Course Description:** Momentum, heat, water, and trace gas fluxes near the earth's surface, including fluxes between the atmosphere and the land/ocean/ice surfaces.**Prerequisite:** (ATS 623) and (MATH 340).**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 712 Dynamics of Clouds Credits: 3 (3-0-0)****Course Description:** General theory of cloud dynamics; parameterization of microphysics and radiation; models of fog, stratocumuli, cumulonimbi, and orographic clouds.**Prerequisite:** ATS 623.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 715 Atmospheric Oxidation Processes Credits: 2 (2-0-0)****Course Description:** Atmospheric hydrocarbon and nitrogen oxide reactions; aqueous phase scavenging and reactions; chemical pathways in the atmosphere.**Prerequisite:** ATS 621.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 716 Air Quality Characterization Credits: 2 (1-2-0)****Course Description:** Planning, executing, and reporting on a measurement campaign to characterize local air quality.**Prerequisite:** (ATS 560) and (ATS 555 or ATS 621).**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Must register for lecture and laboratory.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 721 Theoretical Topics in Radiative Transfer Credits: 3 (3-0-0)****Course Description:** Physics of atmospheric radiation; theoretical techniques used to show radiation transfer equation.**Prerequisite:** ATS 622.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 722 Atmospheric Radiation and Energetics Credits: 3 (2-0-1)****Course Description:** Radiative transfer in the atmosphere; implications on remote sensing and energetics.**Prerequisite:** ATS 622.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Must register for lecture and recitation.**Term Offered:** Spring (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.

ATS 724 Cloud Microphysics Credits: 2 (2-0-0)

Course Description: Theories and observations of nucleation; cloud droplet spectra broadening; precipitation growth and breakup; ice multiplication; cloud electrification.

Prerequisite: ATS 621.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ATS 730 Mesoscale Modeling Credits: 3 (3-0-0)

Course Description: Development of basic equations used in mesoscale models and methodology of solution

Prerequisite: ATS 602 and ATS 623.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ATS 735 Mesoscale Dynamics Credits: 3 (3-0-0)

Course Description: Analysis of physical and dynamical processes that initiate, maintain, and modulate atmospheric mesoscale phenomena.

Prerequisite: ATS 602.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ATS 737 Satellite Observation of Atmosphere and Earth Credits: 3 (3-0-0)

Course Description: Satellite measurements; basic orbits and observing systems; applications of remote probing and imaging to investigations of atmospheric processes.

Prerequisite: ATS 622 and ATS 652.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ATS 740 Atmospheric Electricity Credits: 2 (2-0-0)

Course Description: Foundations of atmospheric electricity, including global electric circuit and the role of thunderstorms in maintaining this circuit, thunderstorm electrification processes based on non-inductive charging theory, lightning detection based on RF and optical sensing, and lightning phenomena including Transient Luminous Events.

Prerequisite: ATS 620.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor. Credit not allowed for both ATS 740 and ATS 780A3.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ATS 741 Radar Meteorology Credits: 3 (3-0-0)

Course Description: Radar systems; radar equation and applications; multiple Doppler observation and processing; radar studies of mesoscale systems.

Prerequisite: ATS 652.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ATS 742 Tropical Meteorology Credits: 2 (2-0-0)

Course Description: Overview of the tropical atmosphere, monsoons, intraseasonal variability, hurricanes, theory of tropical convection and the large-scale circulation.

Prerequisite: ATS 601 and ATS 602 and ATS 606.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ATS 743 Interactions of the Ocean and Atmosphere Credits: 3 (3-0-0)

Course Description: Ocean-atmosphere interactions in observations, theory, and models. Time mean atmosphere-ocean circulations through climate variability and change.

Prerequisite: ATS 602.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ATS 745 Atmospheric General Circulation Modeling Credits: 3 (3-0-0)

Course Description: Current problems in modeling of the general circulation of the atmosphere.

Prerequisite: ATS 602 and ATS 605.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ATS 750 Climate Dynamics: Atmospheric Variability Credits: 3 (3-0-0)

Course Description: Analysis and interpretation of large-scale patterns of climate variability and observed climate change.

Prerequisite: ATS 605 and ATS 655.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ATS 752 Inverse Methods in Atmospheric Science Credits: 2 (2-0-0)

Course Description: Introduction to inverse modeling, with particular application to remote sensing retrievals, flux inversions and data assimilation.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Ph.D. standing in Atmospheric Science required.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ATS 753 Global Hydrologic Cycle Credits: 3 (3-0-0)

Course Description: Hydrologic cycle, moisture transport and air-ground exchange; water budgets of meteorological phenomena; climatology of atmospheric water.

Prerequisite: (ATS 601) and (ATS 622 or ATS 652).

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ATS 755 Theoretical and Applied Climatology Credits: 3 (3-0-0)**Course Description:** Current topics in climate research.**Prerequisite:** ATS 606.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 760 Global Carbon Cycle Credits: 2 (2-0-0)****Course Description:** Exchanges of CO₂ between the atmosphere, the land surface, and oceans. Biogeochemical processes. Micrometeorological and inverse flux estimation.**Prerequisite:** ATS 606.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 761 Land-Atmosphere Interactions Credits: 2 (2-0-0)****Course Description:** Exchange of energy, water, momentum, and carbon between the land surface and the atmosphere.**Prerequisite:** ATS 606.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 762 Biosphere-Chemistry-Climate Interactions Credits: 2 (2-0-0)****Course Description:** Explore the sensitivity of the climate system to atmospheric chemical composition with emphasis on connections to biospheric processes and feedbacks.**Prerequisite:** ATS 621.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 765 Climate Dynamics-Ocean Variability Credits: 3 (3-0-0)****Course Description:** Climate variability on time scales of years to millennia with focus on the role of the ocean circulation. Approach through dynamical systems theory.**Prerequisite:** ATS 606.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 770 Ocean Modeling Credits: 3 (3-0-0)****Course Description:** Conceptual and numerical ocean models and their application to current problems in climate science and biogeochemical cycles.**Prerequisite:** ATS 601.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 772 Aerosol Physics, Chemistry, Clouds & Climate Credits: 3 (3-0-0)****Course Description:** The physics and chemistry of atmospheric aerosols including composition, size, and interaction with radiation and clouds, including the development of research-grade models of aerosols, clouds, and radiation.**Prerequisite:** (CHEM 114 and MATH 161) and (PH 122 or PH 142).**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ATS 784 Supervised College Teaching Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ATS 786 Practicum Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ATS 795 Independent Study Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ATS 796 Group Study Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ATS 799A Dissertation: Global Climate Change Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ATS 799B Dissertation: Land-Atmosphere Interactions Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

ATS 799C Dissertation: Tropical Meteorology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 799D Dissertation: Weather Systems Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 799E Dissertation: Remote Sensing Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 799F Dissertation: Ocean-Atmosphere Interactions Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 799G Dissertation: General Circulation Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 799H Dissertation: Remote Sensing of Climate Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 799I Dissertation: Atmospheric Chemistry Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 799J Dissertation: Aerosol and Cloud Microphysics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 799K Dissertation: Dynamic Meteorology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 799L Dissertation: Data Assimilation and Causality Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 799M Dissertation: Mesoscale Meteorology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 799N Dissertation: Dynamics and Physics of Clouds Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 799O Dissertation: Mesoscale Modeling Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 799P Dissertation: Radiation Transfer Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 799Q Dissertation: Radar Meteorology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 799R Dissertation: Aerosol and Cloud Chemistry Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 799S Dissertation: Climate Dynamics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 799T Dissertation: Climate Analysis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

ATS 799U Dissertation: Tropospheric Chemistry Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ATS 799V Dissertation: Atmospheric Variability Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Department of Chemical and Biological Engineering

Office in Engineering, Room AR102

(970) 491-5252

cbe.colostate.edu (<http://cbe.colostate.edu>)

Professor Christie A.M. Peebles, Interim Department Head

Undergraduate Majors

- Major in Chemical and Biological Engineering
 - Advanced Materials Concentration
 - Biomanufacturing Concentration
 - Molecular Medicine Concentration
 - Sustainable Engineering Concentration
- Major in Biomedical Engineering combined with Chemical and Biological Engineering

Graduate Graduate Programs in Chemical and Biological Engineering

The department offers graduate programs leading to Master of Engineering, Master of Science, and Doctor of Philosophy degrees. Students interested in graduate work should refer to the Graduate and Professional Bulletin or the Department of Chemical and Biological Engineering. (<https://www.engr.colostate.edu/cbe/>)

Master's Programs

- Master of Science in Chemical Engineering, Plan A*
- Master of Science in Chemical Engineering, Plan B*
- Master of Engineering, Plan C, Chemical Engineering Specialization*
- Professional Science Master's in Biomanufacturing and Biotechnology

Ph.D.

Ph.D. in Chemical Engineering*

* Please see department for program of study.

Courses Chemical and Biological Engineering (CBE)

CBE 101 Introduction to Chemical and Biological Engr Credits: 3 (2-2-0)

Course Description: Engineering design and problem solving; technical presentation skills; basic computer programming.

Prerequisite: CBE 160, may be taken concurrently.

Registration Information: Must register for lecture and laboratory. Credit not allowed for both CBE 101 and CBE 101A. Credit not allowed for both CBE 101 and CBE 101B.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CBE 101A Introduction to Chemical and Biological Engr: Lecture Credits: 2 (2-0-0)

Course Description: Overview of fundamentals of chemical and biological engineering, including conservation and rate processes, transport phenomena, engineering design and problem solving, and applications. Complemented by CBE 101B for laboratory experience.

Prerequisite: CBE 160, may be taken concurrently.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: CBE 101, CBE 101A, or CBE 104A.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CBE 101B Introduction to Chemical and Biological Engr:**Laboratory Credit: 1 (0-2-0)**

Course Description: Laboratory experiences to illustrate fundamentals of chemical and biological engineering, including conservation and rate process, fluid flow, and heat and mass transfer.

Prerequisite: CBE 101A, may be taken concurrently.

Registration Information: Credit allowed for only one of the following: CBE 101, CBE 101B, or CBE 104A.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CBE 104A Study Abroad--Denmark: Intro to Chemical and Biological Engineering Credits: 3 (0-0-3)

Course Description: Fundamentals of chemical and biological engineering, including conservation and rate process, engineering design and problem solving, and relevant applications. Exploration of engineering practices, challenges, and projects while on site in Denmark through guest lectures, discussions with practicing engineers, and visits to engineering and biotechnology facilities.

Prerequisite: None.

Registration Information: This is a partial semester course. Credit not allowed for CBE 101A and CBE 104A. Credit not allowed for CBE 101B and CBE 104A.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

CBE 160 MATLAB for Chemical and Biological Eng Credit: 1 (0-2-0)

Course Description: Introduction to MATLAB programming for Chemical and Biological Engineering applications.

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CBE 201 Material and Energy Balances Credits: 3 (3-0-0)

Course Description: Principles of chemistry, physics, and mathematics applied to development of material and energy balances; illustration of concepts.

Prerequisite: (CBE 101 or CBE 101A or CBE 104A or CBE 160, may be taken concurrently or MATH 151, may be taken concurrently) and (LIFE 102, may be taken concurrently and CHEM 111 and PH 141, may be taken concurrently).

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CBE 205 Fundamentals of Biological Engineering Credits: 3 (3-0-0)

Course Description: Introduction to the application of the principles of engineering and biology to the analysis, design, and optimization of bioprocesses.

Prerequisite: (CBE 101 or CBE 101A or CBE 104A) and (CBE 160 and LIFE 102).

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CBE 210 Thermodynamic Process Analysis Credits: 3 (3-0-0)

Course Description: Thermodynamic fundamentals and applications to ideal and non-ideal mixtures, power cycles, and chemical equilibria.

Prerequisite: CBE 201 with a minimum grade of C and MATH 261, may be taken concurrently.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following courses: CBE 210, ENGR 337, MECH 237, or MECH 337.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Traditional.

Special Course Fee: No.

CBE 310 Molecular Concepts and Applications Credits: 3 (3-0-0)

Course Description: Application of modern molecular theory to chemical and biological engineering problems in thermodynamics, chemical kinetics, and transport phenomena.

Prerequisite: (CBE 210 with a minimum grade of C) and (MATH 340).

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CBE 320 Chemical and Biological Reactor Design Credits: 3 (3-0-0)

Course Description: Mechanisms and rates of chemical reactions; design of homogeneous and heterogeneous reactors; biological reactions and reactors.

Prerequisite: CBE 205 with a minimum grade of C and CBE 310 with a minimum grade of C and CBE 330 with a minimum grade of C and CBE 332, may be taken concurrently.

Registration Information: Sections may be offered: Online.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

CBE 330 Process Simulation Credits: 3 (3-0-0)

Course Description: Analysis of chemical and biological engineering problems by numerical simulation.

Prerequisite: (CBE 210 with a minimum grade of C) and (MATH 340).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CBE 331 Momentum Transfer and Mechanical Separations Credits: 3 (3-0-0)

Course Description: Fluid properties; conservation equations; compressible and incompressible flow; pumping and metering; mixing; separation of fluid-solid mixtures.

Prerequisite: (CBE 210 with a minimum grade of C) and (MATH 340).

Registration Information: Credit allowed for only one of the following courses: CBE 331, CIVE 300, ENGR 342, or MECH 342.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CBE 332 Heat and Mass Transfer Fundamentals Credits: 3 (3-0-0)

Course Description: Thermal processes; steady and unsteady conduction; convective heat transfer; radiation; heat exchanger design; mass transfer by diffusion and convection.

Prerequisite: CBE 330 with a minimum grade of C and CBE 331 with a minimum grade of C.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CBE 333 Chemical and Biological Engineering Lab I Credits: 2 (0-5-0)

Course Description: Laboratory experiments involving material balances, thermodynamics, and momentum and heat transfer. Data analysis; written and oral reports.

Prerequisite: CBE 332.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: Yes.

CBE 393 Professional Development Seminar Credit: 1 (0-0-1.5)

Course Description: Topics in engineering professional development, including an introduction to engineering ethics and codes of conduct, effective teams, innovation, project management, diversity, and community engagement.

Prerequisite: None.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CBE 406 Introduction to Transport Phenomena Credits: 3 (3-0-0)

Course Description: Fundamental treatment of momentum and mass transport processes; dimensional analysis for parameter identification and order of magnitude estimation.

Prerequisite: CBE 332.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CBE 430 Process Control and Instrumentation Credits: 3 (3-0-0)

Course Description: Measurement and control of process variables; transient chemical and biological processes; feedback, feedforward, and computer control concepts.

Prerequisite: CBE 320 with a minimum grade of C and CBE 442 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CBE 442 Separation Processes Credits: 4 (4-0-0)

Course Description: Analysis of chemical and biological separations based on thermodynamics, diffusion, and convective mass transfer; design of separations equipment.

Prerequisite: CBE 332 with a minimum grade of C.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CBE 443 Chemical and Biological Engineering Lab II Credits: 2 (0-5-0)

Course Description: Laboratory experiments involving advanced chemical and biological engineering concepts. Data analysis; written and oral reports.

Prerequisite: CBE 442.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CBE 451 Chemical and Biological Engineering Design I Credits: 3 (2-2-0)

Course Description: Chemical and biological process synthesis and simulation; engineering economics principles.

Prerequisite: CBE 442, may be taken concurrently and CBE 320 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CBE 452 Chemical and Biological Engineering Design II Credits: 3 (2-2-0)

Course Description: Projects requiring students to design a chemical and/or biological process with cost estimation and constraint analysis; written and oral reports.

Prerequisite: CBE 442 with a minimum grade of C and CBE 451 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CBE 495 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CBE 496 Group Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CBE 501 Chemical Engineering Thermodynamics Credits: 3 (3-0-0)

Course Description: Definition, correlation, and estimation of thermodynamic properties; nonideal chemical and physical equilibria.

Prerequisite: CBE 202 and MATH 340.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CBE 502 Advanced Reactor Design Credits: 3 (3-0-0)

Course Description: Nonideal flow and tracers, reactions and diffusion, evaluation of complex kinetics, stability of reactors. Biochemical reactor examples.

Prerequisite: CBE 320 and CBE 332.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CBE 503 Transport Phenomena Fundamentals Credits: 3 (3-0-0)

Course Description: General topics in transport phenomena; analytical and numerical solutions of laminar flows; perturbation techniques; coupled transport.

Prerequisite: CBE 406.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CBE 504 Fundamentals of Biochemical Engineering Credits: 3 (3-0-0)

Also Offered As: BIOM 504.

Course Description: Application of chemical engineering principles to enzyme kinetics, fermentation and cell culture, product purification, and bioprocess design.

Prerequisite: CBE 205.

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Senior standing. Sections may be offered: Online. Credit not allowed for both BIOM 504 and CBE 504.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CBE 505 Biochemical Engineering Laboratory Credit: 1 (0-3-0)

Course Description: Fermentation technology, bioprocess control, and protein purification.

Prerequisite: CBE 504, may be taken concurrently.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: Yes.

CBE 514 Polymer Science and Engineering Credits: 3 (3-0-0)

Course Description: Fundamentals of polymer science: synthesis, characterization, processing of polymers. Physical properties of polymers; rheology of melts and solutions.

Prerequisite: (CHEM 343 or CHEM 346) and (CBE 310 or CHEM 474).

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CBE 521 Mathematical Modeling for Chemical Engineers Credits: 3 (3-0-0)

Course Description: Application of mathematical models to analysis and design of chemical reactors and separation processes.

Prerequisite: MATH 340.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CBE 522 Bioreseparation Processes Credits: 3 (3-0-0)

Also Offered As: BIOM 522.

Course Description: Analysis of processes to recover and purify fermentation products.

Prerequisite: CBE 331.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: BIOM 522, CBE 522, or CBE 581A2.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CBE 524 Bioremediation Credit: 1 (1-0-0)

Course Description: Use of biotechnology for site remediation. Biodegradation, bioreactor design, and in situ bioremediation.

Prerequisite: CBE 540 or CIVE 540.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CBE 540 Advanced Biological Wastewater Processing Credits: 3 (3-0-0)

Also Offered As: CIVE 540.

Course Description: Fundamentals of environmental biotechnology: environmental microbiology, microbial kinetics, basic reactor design, wastewater treatment.

Prerequisite: CBE 320 or CIVE 339 or CIVE 438.

Registration Information: Sections may be offered: Online. Credit not allowed for both CBE 540 and CIVE 540.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CBE 543 Membranes for Biotechnology and Biomedicine Credits: 3 (3-0-0)

Course Description: Polymeric membrane formation, modification, module design and applications to bioseparation and biomedical separations and tissue engineering.

Prerequisite: CHEM 343 and CBE 310.

Registration Information: Sections may be offered: Online. Credit not allowed for both BIOM 543 and CBE 543.

Grade Mode: Traditional.

Special Course Fee: No.

CBE 560 Engineering of Protein Expression Systems Credits: 3 (3-0-0)

Course Description: Application of engineering principles to the design, optimization, and manufacturing of engineered microbial strains and mammalian cell lines for the production of recombinant proteins.

Prerequisite: CBE 205.

Registration Information: Sections may be offered: Online. Credit not allowed for both CBE 560 and CBE 581A1.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CBE 570 Biomolecular Engineering/Synthetic Biology Credits: 3 (3-0-0)

Course Description: Rational design and evolutionary methods for engineering functional protein and nucleic acid systems.

Prerequisite: (BC 351) and (CHEM 341 or CHEM 345).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CBE 613 Advanced Transport Phenomena Credits: 3 (3-0-0)

Course Description: Fundamental studies of multicomponent mass, energy, and momentum transport, with applications in advanced materials, biomedical and biochemical systems.

Prerequisite: (MATH 530) and (ATS 601 or CIVE 502 or CBE 503).

Restriction: Must be a: Graduate, Professional.

Grade Mode: Traditional.

Special Course Fee: No.

CBE 621 Advanced Process Control Credits: 3 (3-0-0)

Course Description: Application of modern control theory to chemical processes. Computer control aspects emphasized.

Prerequisite: CBE 430.

Restriction: Must be a: Graduate, Professional.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CBE 660 System and Parameter Identification Credits: 3 (3-0-0)

Course Description: Principles and methods for selecting the most appropriate equations, and properties within those equations, to mathematically simulate physical phenomena.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Graduate standing.

Grade Mode: Traditional.

Special Course Fee: No.

CBE 687 Internship Credits: Var[1-10] (0-0-0)

Course Description: Supervised work at an approved organization with periodic faculty evaluation.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

CBE 693 Research Conduct and Practices Credit: 1 (0-0-1)

Course Description: Introduction to research, the graduate degree process, and the graduate chemical engineering program, including responsible conduct in research, developing research questions, keeping research notebooks, and laboratory safety.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

CBE 695 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CBE 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CBE 707 Advanced Topics in Biochemical Engineering Credit: 1 (1-0-0)

Course Description: Advanced biochemical engineering topics.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CBE 793 Seminar Credit: 1 (0-0-1)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

CBE 795 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CBE 799 Dissertation Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Major in Chemical and Biological Engineering

Chemical and biological engineering is a powerful blend of basic sciences and the skills to quantitatively describe, predict, and control all changes of matter. This provides the foundation to create cutting-edge materials and products, to design new devices to improve health or the environment, and to design processes for the safe production of chemicals and biochemicals, the production of alternative energy sources, and prevention of hazardous waste.

The Chemical and Biological Engineering curriculum is based on the sciences of physics, chemistry, biology, and mathematics. It includes engineering science and design methods, as well as humanities and social sciences. Students can pursue interdisciplinary studies programs or minors. Popular options include minors in chemistry, mathematics, environmental engineering, and biomedical engineering. The curriculum is well-aligned to meet pre-health profession requirements. The Chemical and Biological Engineering program provides an environment that promotes a sense of professionalism, the development of project management skills, and an appreciation for the value of life-long learning. Graduates of our program are well prepared to enter a variety of professions, or to pursue further education. The broad, strong scientific basis of chemical and biological engineering has kept our graduates consistently near or at the top in salary and demand among B.S. graduates.

The Chemical and Biological Engineering major is accredited by the Engineering Accreditation Commission of ABET (<http://abet.org>).

Concentrations

While our undergraduate program gives students the option to keep their studies broad, they may also specialize in one of the following concentrations:

- Advanced Materials Concentration
- Biomanufacturing Concentration
- Molecular Medicine Concentration
- Sustainable Engineering Concentration

Program Learning Objectives

The Chemical and Biological Engineering program at CSU will empower graduates with the educational foundation to:

1. Be highly successful, as defined by accomplishments, advanced certifications, and job satisfaction, in chemical and biological engineering practice, post-graduate education, or other careers making use of engineering knowledge.
2. Be identified for both their mastery of fundamental chemical and biological engineering principles and their creative application of those principles to the solution of problems across a diverse range of career disciplines.
3. Be recognized as critical, creative and independent thinkers who use their technical expertise and leadership to address the needs of society and advance their fields of expertise.
4. Be recognized for their effectiveness in teamwork, communication, and service to society through their professional contributions.
5. Hold paramount health and safety of the public and the environment.
6. Demonstrate the highest standards of professional, ethical, and civic responsibility in all endeavors.
7. Demonstrate continued professional growth through a commitment to lifelong learning.

Student Outcomes

Graduates of the undergraduate Chemical and Biological Engineering programs will have the ability to:

1. Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors

3. Communicate effectively with a range of audiences
4. Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. Acquire and apply new knowledge as needed, using appropriate learning strategies.

Potential Occupations

Chemical and Biological Engineering graduates find employment in the biotechnology, biomedical, microelectronics, environmental, consulting, alternative energy, petroleum, chemical, food, pharmaceutical and other private sector industries and with government agencies. Participation in undergraduate research, internships, volunteer activities, or cooperative education opportunities is highly recommended to enhance practical training and development. Graduates who go on for advanced studies can attain more responsible positions with the possibility of rising to top professional levels. In addition to pursuing M.S. and Ph.D. degrees in chemical and biological engineering and related fields, some of our graduates have obtained M.D., D.V.M., law, and M.B.A. degrees.

Requirements Effective Fall 2024

Freshman

		AUCC	Credits
CBE 160	MATLAB for Chemical and Biological Eng		1
CHEM 111	General Chemistry I (GT-SC2)	3A	4
CHEM 112	General Chemistry Lab I (GT-SC1)	3A	1
CHEM 113	General Chemistry II		3
CHEM 114	General Chemistry Lab II		1
CO 150	College Composition (GT-CO2)	1A	3
LIFE 102	Attributes of Living Systems (GT-SC1)	3A	4
MATH 160	Calculus for Physical Scientists I (GT-MA1)	1B	4
MATH 161	Calculus for Physical Scientists II (GT-MA1)	1B	4
PH 141	Physics for Scientists and Engineers I (GT-SC1)	3A	5
Select one group from the following:			3

Group A:	
CBE 101	Introduction to Chemical and Biological Engr
Group B:	
CBE 101A	Introduction to Chemical and Biological Engr: Lecture
CBE 101B	Introduction to Chemical and Biological Engr: Laboratory
Group C:	
CBE 104A	Study Abroad--Denmark: Intro to Chemical and Biological Engineering

Total Credits **33**

Sophomore

CBE 201	Material and Energy Balances	3
CBE 205	Fundamentals of Biological Engineering	3

CBE 210	Thermodynamic Process Analysis		3
CHEM 341	Modern Organic Chemistry I		3
CHEM 343	Modern Organic Chemistry II		3
CHEM 344	Modern Organic Chemistry Laboratory		2
MATH 261	Calculus for Physical Scientists III		4

Major in Chemical and Biological Engineering, Advanced Materials Concentration

An education in chemical and biological engineering provides the intellectual foundation for our graduates to work on solutions to society's

biggest problems (both current and future problems). For example, our graduates could go on to develop innovative materials and products, to design new devices to improve animal or human health or environmental health, and to design processes for the safe production of chemicals and biochemicals, the production of alternative energy sources, and prevention of hazardous waste. The possibilities are limitless. Chemical and biological engineering is a powerful blend of basic sciences and the skills to quantitatively describe, predict, and control all changes of matter.

Our curriculum is based on the sciences of physics, chemistry, biology, and mathematics. It includes engineering science and design methods, as well as humanities and social sciences. The Chemical and Biological Engineering program provides an environment that promotes a sense of professionalism, the development of project management skills, and an appreciation for the value of life-long learning. Graduates of our program are well prepared to enter a variety of professions, or to pursue further advanced education. The broad, strong scientific basis of chemical and biological engineering has kept our graduates consistently near or at the top in salary and demand among B.S. graduates.

Advanced Materials Concentration

The Advanced Materials concentration aims to educate students on understanding the relationship between the properties of a material and its molecular structure. This knowledge will provide students with the principles and tools to either modify existing materials for enhanced performance, or to generate new materials with tailored properties

for addressing issues of high relevance in modern society, such as those related to efficiency, health, and sustainability. Examples include smart biomaterials that are responsive to external stimuli, bio-inspired materials, biodegradable and sustainable materials, materials for additive manufacturing, nano-engineered materials, and materials for extreme environments. The coursework in this concentration encompasses a wide range of disciplines, including polymer science and engineering, nanotechnology, biomaterials science, and tissue engineering.

The Chemical and Biological Engineering major is accredited by the Engineering Accreditation Commission of ABET (<http://abet.org>).

Requirements Effective Fall 2024

Students may enroll in either the standalone major or (at most) one of the concentrations under the Major in Chemical and Biological Engineering.

Major in Chemical and Biological Engineering, Biomanufacturing Concentration

An education in chemical and biological engineering provides the intellectual foundation for our graduates to work on solutions to society's biggest problems (both current and future problems). For example, our graduates could go on to develop innovative materials and products, to design new devices to improve animal or human health or environmental health, and to design processes for the safe production of chemicals and biochemicals, the production of alternative energy sources, and prevention of hazardous waste. The possibilities are limitless. Chemical and biological engineering is a powerful blend of basic sciences and the skills to quantitatively describe, predict, and control all changes of matter. Our curriculum is based on the sciences of physics, chemistry, biology, and mathematics. It includes engineering science and design methods, as well as humanities and social sciences. The Chemical and Biological Engineering program provides an environment that promotes a sense of professionalism, the development of project management skills, and an appreciation for the value of life-long learning. Graduates of our program are well prepared to enter a variety of professions, or to pursue further advanced education. The broad, strong scientific basis of chemical and

biological engineering has kept our graduates consistently near or at the top in salary and demand among B.S. graduates.

Biomanufacturing Concentration

Biomanufacturing is a broad and growing field that combines biology and engineering to produce valuable products on a large scale using living organisms like bacteria, yeast, or mammalian cells. It is a field that has significant impact on various industries such as pharmaceuticals, agriculture, food and beverage production, and other bioproducts such as fuels, chemicals, and materials. The biomanufacturing concentration offers students a chemical and biological engineering foundation with specialized training in biomanufacturing. Coursework will focus on further building biological and engineering core competencies in various areas of biomanufacturing. These courses will enable and encourage students to solve complex engineering problems in biomanufacturing. Professionals in this field are in demand to develop and manage bioproduction processes. It is a field that is constantly evolving and holds promise for addressing various global challenges, such as healthcare, energy, and sustainability.

The Chemical and Biological Engineering major is accredited by the Engineering Accreditation Commission of ABET (<http://abet.org/>).

Requirements

Effective Fall 2024

Students may enroll in either the standalone major or (at most) one of the concentrations under the Major in Chemical and Biological Engineering.

Major in Chemical and Biological Engineering, Molecular Medicine Concentration

An education in chemical and biological engineering provides the intellectual foundation for our graduates to work on solutions to society's biggest problems (both current and future problems). For example, our graduates could go on to develop innovative materials and products, to design new devices to improve animal or human health or environmental health, and to design processes for the safe production of chemicals and biochemicals, the production of alternative energy sources, and prevention of hazardous waste. The possibilities are limitless. Chemical and biological engineering is a powerful blend of basic sciences and the skills to quantitatively describe, predict, and control all changes of matter. Our curriculum is based on the sciences of physics, chemistry, biology, and mathematics. It includes engineering science and design methods, as well as humanities and social sciences. The Chemical and Biological Engineering program provides an environment that promotes a sense of professionalism, the development of project management skills, and an appreciation for the value of life-long learning. Graduates of our program are well prepared to enter a variety of professions, or to pursue further advanced education. The broad, strong scientific basis of chemical and

biological engineering has kept our graduates consistently near or at the top in salary and demand among B.S. graduates.

Molecular Medicine Concentration

Molecular medicine is a dynamic field focused on discovering the hidden molecular and genetic abnormalities that give rise to diseases and developing therapies grounded in molecular approaches to correct them. It emphasizes the significance of understanding cellular and molecular events and interventions, moving away from the traditional emphasis on patients and their organs. In the pursuit of this goal, engineers and scientists engaged in molecular medicine utilize a blend of physical, chemical, biological, bioinformatics, and medical methodologies to elucidate molecular structures and processes. Coursework in this concentration will focus on these same areas.

The Chemical and Biological Engineering major is accredited by the Engineering Accreditation Commission of ABET (<http://abet.org/>).

Requirements Effective Fall 2024

Students may enroll in either the standalone major or (at most) one of the concentrations under the Major in Chemical and Biological Engineering.

Major in Chemical and Biological Engineering, Sustainable Engineering Concentration

An education in chemical and biological engineering provides the intellectual foundation for our graduates to work on solutions to society's biggest problems (both current and future problems). For example, our graduates could go on to develop innovative materials and products, to design new devices to improve animal or human health or environmental

health, and to design processes for the safe production of chemicals and biochemicals, the production of alternative energy sources, and prevention of hazardous waste. The possibilities are limitless. Chemical and biological engineering is a powerful blend of basic sciences and the skills to quantitatively describe, predict, and control all changes of matter. Our curriculum is based on the sciences of physics, chemistry, biology, and mathematics. It includes engineering science and design methods, as well as humanities and social sciences. The Chemical and Biological Engineering program provides an environment that promotes a sense of professionalism, the development of project management skills, and an appreciation for the value of life-long learning. Graduates of our program

are well prepared to enter a variety of professions, or to pursue further advanced education. The broad, strong scientific basis of chemical and biological engineering has kept our graduates consistently near or at the top in salary and demand among B.S. graduates.

Sustainable Engineering Concentration

Sustainable Engineering aims to develop strategies to create and maintain the conditions under which humans and nature can exist in productive harmony to support present and future generations. In addition to a chemical and biological engineering foundation, the breadth of topics relevant to sustainable engineering concentration will give students the ability to choose elective courses tailored to their interests in sustainability. Topics include ecosystem/environmental engineering,

life cycle assessment, sustainable chemistry, air and water quality, and systems engineering. These courses will enable and encourage students to solve the complex engineering problems at the core of sustainable engineering.

The Chemical and Biological Engineering major is accredited by the Engineering Accreditation Commission of ABET (<http://abet.org/>).

Program Total Credits:					130

Professional Science Master's in Biomanufacturing and Biotechnology

The Professional Science Master's (PSM) in Biomanufacturing and Biotechnology is ideal for students who want to prepare for careers in a variety of industries that use bioprocesses, biomanufacturing, and biotechnology. The program is also designed to provide opportunities for professionals working in these industries to get the training they may need to advance in their careers. The program includes a balanced combination of bioscience, engineering, and business courses, appropriate for students with either a science or engineering background. The program culminates with an internship experience at a partnering organization, company, government entity, or non-profit, where the student puts into practice their bioscience, engineering, and business training.

The PSM in Biomanufacturing and Biotechnology is an affiliated Professional Science Master's (PSM) degree. Affiliation is administered by the Commission on Affiliation of PSM Programs (<https://www.professionalsciencemasters.org/>) (formerly named PSM National Office) to ensure a strong and distinctive PSM brand. The PSM is designed for students who are seeking a graduate degree in science or

mathematics and understand the need for developing workplace skills valued by top employers.

[Students interested in graduate work should refer to the Graduate and Professional Bulletin.](#)

Learning Objectives

Graduates will demonstrate:

1. A working knowledge of the core areas of biochemistry, including genetics, structural biology, cell biology, and molecular biology.
2. Ability to apply engineering problem solving and design skills to analyze, design, and optimize continuous and batch bioprocesses for production and purification of value-added products.
3. Professional leadership, communication, and strategic decision making skills.
4. Ability to integrate current bioscience, engineering, and business theory and techniques into their knowledge base and professional pursuits.
5. Ability to identify ethical issues in business and biotechnology, and understand the ethical implications of practicing their profession in society.

Requirements Effective Fall 2019

First Year

Fall		Credits
BC 411	Physical Biochemistry	4
BC 563	Molecular Genetics	4
BUS 500	Foundations for Business Impact	2
Total Credits		10
Spring		
BC 565	Molecular Regulation of Cell Function	4
BC 571	Quantitative Biochemistry	1
BUS 601	Quantitative Business Analysis	2
Select a 3-credit technical elective from:		3
BIOM 525/ MECH 525	Cell and Tissue Engineering	
CBE 570	Biomolecular Engineering/Synthetic Biology	
GES 542	Biobased Fuels, Energy, and Chemicals	
Total Credits		10

Second Year

Fall		
BUS 614	Accounting Concepts	2
BUS 620	Leadership and Teams	2
CBE 504/BIOM 504	Fundamentals of Biochemical Engineering	3
CBE 505	Biochemical Engineering Laboratory	1
CBE 522/BIOM 522	Bioseparation Processes	3
Select a 2-credit business elective from:		2
BUS 626 ¹	Managing Human Capital	
BUS 640	Financial Principles and Practice	

BUS 655	Marketing Management	
Total Credits		13
Spring		
CBE 687	Internship	7
Total Credits		7
Program Total Credits:		40

A minimum of 40 credits are required to complete this program.

¹ Offered Spring term only.

Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees in the Graduate and Professional Bulletin.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website

13. Submit a signed Thesis/Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Department of Civil and Environmental Engineering

Office in Engineering Building, Room A203
(970) 491-5048
[engr.colostate.edu/ce/](https://www.engr.colostate.edu/ce/) (<https://www.engr.colostate.edu/ce/>)

Professor Charles D. Shackelford, Department Head
Shannon Miller, Undergraduate Advisor
Susheela Mallipudi, Graduate Advisor

The Department of Civil and Environmental Engineering administers undergraduate degrees in Civil Engineering and in Environmental Engineering and graduate degrees in Civil Engineering.

Undergraduate Majors

- Major in Civil Engineering
- Major in Environmental Engineering

Minor

- Minor in Environmental Engineering

Graduate Graduate Programs in Civil and Environmental Engineering

Graduate programs leading to the Master of Science (M.S.), Master of Engineering (M.E.), and Doctor of Philosophy (Ph.D.) degrees are offered. The graduate academic subdisciplines include agricultural water management, construction engineering and management (Ph.D. only), environmental engineering, geoenvironment, hydraulic engineering and fluid mechanics, hydrologic science and engineering, structural engineering and mechanics, water and international development, and water resources planning and management.

A practice-oriented, course-work only, Master of Engineering (M.E.) degree program is available to students with a baccalaureate degree in

engineering. Individuals with undergraduate degrees in some science programs also are eligible for the M.E., but typically are required to complete background engineering courses at the undergraduate level in addition to the required courses for their graduate degree. Master of Engineering tracks are offered in civil infrastructure engineering, environmental engineering, geotechnical engineering, irrigation engineering, structural engineering, and water resources engineering.

Students interested in graduate work should refer to the Graduate and Professional Bulletin or the Department of Civil and Environmental Engineering (<https://www.engr.colostate.edu/ce/>).

Certificates

- Food-Energy-Water Systems (FEWS)
- Hydraulic Design
- Tailings Engineering

Master's Programs

- Master of Science in Civil Engineering, Plan A*
- Master of Science in Civil Engineering, Plan B*
- Master of Engineering, Plan C, Civil Engineering Specialization
- Bachelor-Master Accelerated Master's Program (AMP) (<https://www.engr.colostate.edu/ce/amp/>)

Ph.D.

- Ph.D. in Civil Engineering*

* Please see department for program of study.

Courses

Subjects in this department include: Civil Engineering (CIVE)

Civil Engineering (CIVE)

CIVE 102 Introduction to Civil and Environmental Engr Credits: 3 (2-2-0)

Course Description: Civil and environmental engineering professions, computer applications related to civil and environmental engineering; engineering design concepts.

Prerequisite: None.

Restriction: Must be a: Undergraduate.

Registration Information: Walter Scott College of Engineering majors only. Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 103 Engineering Graphics and Computing Credits: 3 (2-3-0)

Course Description: Introduction to the profession and academia; principles of civil engineering design; graphical, and written communication.

Prerequisite: CIVE 102 or ENGR 101.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CIVE 182A Study Abroad--London: Intro to Civil and Environmental Engineering Credits: 3 (0-0-3)

Course Description: Introduction to civil and environmental engineering, including infrastructure, design processes, engineering ethics, sustainability, and relevant software. Exploration of global engineering in London, England, exploring concepts through guest lectures, field trips to London infrastructure, and visits to English engineering companies.

Prerequisite: None.

Registration Information: Written consent of advisor. This is a partial semester course. Credit not allowed for both CIVE 102 and CIVE 182A.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 202 Numerical Modeling and Optimization Credits: 3 (2-2-0)

Course Description: Fundamentals of programming and application to numerical modeling and optimization of civil and environmental engineering systems.

Prerequisite: (CIVE 103) and (MATH 159, may be taken concurrently or MATH 160, may be taken concurrently).

Registration Information: Must register for lecture and laboratory. Civil engineering, environmental engineering or engineering science majors only. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 203 Engineering Systems and Decision Analysis Credits: 3 (2-2-0)

Course Description: Civil engineering infrastructure systems, numerical and decision analysis techniques, applications of risk analysis.

Prerequisite: CIVE 202.

Registration Information: Civil engineering, environmental engineering, and engineering science majors only. Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 260 Engineering Mechanics-Statics Credits: 3 (3-0-0)

Course Description: Forces using vector notation; static equilibrium of rigid bodies; friction, virtual work, centroids, and moments of inertia.

Prerequisite: (MATH 159 or MATH 160) and (PH 141).

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 261 Engineering Mechanics-Dynamics Credits: 3 (3-0-0)

Course Description: Kinematics and kinetics of particles and rigid bodies; concepts of work-energy and impulse-momentum; computer applications; vector notation.

Prerequisite: CIVE 260.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 300 Fluid Mechanics Credits: 3 (3-0-0)

Course Description: Fluid properties; statics, kinematics, and dynamics of fluid motion including viscous and gravitational effects.

Prerequisite: (CIVE 261 and MATH 340, may be taken concurrently) and (MECH 237, may be taken concurrently or MECH 337, may be taken concurrently).

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following courses: CBE 331, CIVE 300, ENGR 342, or MECH 342.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 301 Fluid Mechanics Laboratory Credit: 1 (0-3-0)

Course Description: Fluid properties; statics, kinematics, and dynamics of fluid motion including viscous and gravitational effects.

Prerequisite: CIVE 300, may be taken concurrently.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CIVE 302 Evaluation of Civil Engineering Materials Credits: 3 (2-3-0)

Course Description: Behavior and properties of construction materials, instrumentation, use of statistical tools, material standards, material selection, quality control.

Prerequisite: CHEM 111 and CIVE 360.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

CIVE 303 Infrastructure and Transportation Systems Credits: 3 (3-0-0)

Course Description: Principles of infrastructure systems, transportation systems, applications of spatial data and GIS, project management and engineering economy.

Prerequisite: CIVE 260.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 305 Intermediate AutoCAD Credits: 3 (2-2-0)

Course Description: Creating layouts and templates, objects, graphic patterns and symbols, inserting and managing external references, and creating isometric drawings.

Prerequisite: CIVE 103.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 322 Basic Hydrology Credits: 3 (3-0-0)

Course Description: Hydrologic cycle, soil moisture, groundwater, runoff processes, applications in water resources and environmental engineering.

Prerequisite: (CIVE 203 or CIVE 201 or STAT 301 or STAT 315) and (CIVE 300 or CBE 331 or WR 416).

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 330 Ecological Engineering Credits: 3 (3-0-0)

Course Description: Principles of ecological engineering and design of sustainable ecosystems.

Prerequisite: (BZ 110 and BZ 111 or BZ 120 or LIFE 102 or SOCR 240) and (CHEM 113) and (CIVE 300 or LIFE 320).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 339 Environmental Engineering Concepts Credits: 3 (3-0-0)

Course Description: Fundamental topics of environmental engineering, including water chemistry, chemical and biological reactions for water and wastewater treatment, reactor design for water and wastewater treatment processes, sanitary and storm sewer design, hazardous waste management, noise pollution, and sanitary landfill design.

Prerequisite: (CHEM 113) and (CBE 331 or CIVE 300 or MECH 342).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 355 Geotechnical Engineering Credits: 3 (3-0-0)

Course Description: Soil behavior, stress-strain and strength properties, application to earth pressure, slope and foundation problems.

Prerequisite: CIVE 360.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 356 Geotechnical Engineering Laboratory Credit: 1 (0-3-0)

Course Description: Laboratory to demonstrate standard methods of soils testing, methods of data collection, analysis of results.

Prerequisite: CIVE 355, may be taken concurrently.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CIVE 360 Mechanics of Solids Credits: 3 (3-0-0)

Course Description: Stresses and deformations in structural members and machine elements, combined stresses, stress transformation.

Prerequisite: CIVE 260.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 367 Structural Analysis Credits: 3 (3-0-0)

Course Description: Determination of actions in and deformations of determinate and indeterminate structures.

Prerequisite: CIVE 360.

Terms Offered: Fall, Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 371 Study Abroad--Peru: Grand Challenges in Engineering in Peru Credits: 3 (0-0-3)

Course Description: Faculty-led study abroad program that includes cultural, language, and engineering instruction.

Prerequisite: None.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 401 Hydraulic Engineering Credits: 3 (3-0-0)

Course Description: Basic principles of fluid mechanics applied to practical problems in hydraulic engineering.

Prerequisite: CIVE 300.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 402 Senior Design Principles Credits: 3 (2-2-0)

Course Description: Design of civil engineering systems, nontechnical and economic design considerations, project organization, design project development and presentation.

Prerequisite: (CIVE 300) and (CIVE 303 or CHEM 245).

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 403 Senior Project Design Credits: 3 (2-2-0)

Course Description: Design of civil engineering systems, nontechnical and economic design considerations, project organization, design project development and presentation.

Prerequisite: CIVE 402.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 405 Sustainable Civil/Environmental Engineering Credits: 3 (3-0-0)

Course Description: Concepts of sustainable engineering principles in civil and environmental engineering. Life cycle analysis. Life cycle cost analysis. LEED and Envision rating systems. Resiliency concepts.

Prerequisite: CIVE 203 or STAT 315.

Registration Information: Junior standing. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 413 Environmental River Mechanics Credits: 3 (3-0-0)

Course Description: Fluvial geomorphology, river hydraulics, sediment transport, and river response with special emphasis on environmental aspects.

Prerequisite: CIVE 300 or WR 416.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 421 Global Water Challenges Credits: 3 (3-0-0)

Course Description: Cross-cultural competence in the engineering and environmental sciences fields, focusing on global, social, economic, regulatory, and technological differences in water resource management, water quality management, and water/wastewater treatment. Interactions between domestic students and those at partner institutions in Central Asia.

Prerequisite: None.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Completion of AUCC categories 3A or 3C.

Sections may be offered: Online. Credit not allowed for both CIVE 421 and CIVE 480A4.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 423 Groundwater Engineering Credits: 3 (3-0-0)

Course Description: Development of groundwater resources; origin, movement, distribution of water below ground surface.

Prerequisite: CIVE 300 or CBE 331 or WR 416.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 425 Soil and Water Engineering Credits: 3 (2-3-0)

Course Description: Control of the soil-water-plant medium for optimum plant growth and environmental protection.

Prerequisite: CBE 331 or CIVE 300 or SOCR 240.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 437 Wastewater Treatment Facility Design Credits: 3 (3-0-0)

Course Description: Design concepts and principles for wastewater treatment systems and unit processes, principles of treatment plant operation.

Prerequisite: (CIVE 300) and (CIVE 438, may be taken concurrently).

Registration Information: Credit not allowed for both CIVE 437 and ENVE 437.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 438 Fundamentals of Environmental Engr Credits: 3 (3-0-0)

Course Description: Core topics of environmental engineering including water quality and chemistry, wastewater removal and treatment, air pollution, noise pollution, and sanitary landfill design. Sustainability, green engineering and ethics are also discussed.

Prerequisite: (CBE 331 or CIVE 300 or MECH 342) and (CHEM 113).

Registration Information: Walter Scott Jr. College of Engineering majors only. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 439 Applications of Environmental Engr Concepts Credits: 3 (2-3-0)

Course Description: Design concepts related to environmental engineering problems with a focus on design projects.

Prerequisite: CIVE 339.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 440 Nonpoint Source Pollution Credits: 3 (3-0-0)

Course Description: Principles, processes, impacts and control of nonpoint source pollution of surface and groundwater.

Prerequisite: CIVE 300 or CIVE 322 or SOCR 240 or WR 416.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 441 Water Quality Analysis and Treatment Credits: 3 (2-3-0)

Course Description: Physical, chemical and biological methods for the characterization of waters and wastewaters.

Prerequisite: CIVE 339, may be taken concurrently or CIVE 438, may be taken concurrently.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CIVE 442 Air Quality Engineering Credits: 3 (3-0-0)

Course Description: Air pollution problems and solutions, at scales ranging from local to global. Quantitative analysis of chemical and physical processes governing air pollutants in natural and built environments.

Prerequisite: (CBE 331 or CIVE 300 or MECH 342) and (CHEM 113).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 455 Applications in Geotechnical Engineering Credits: 3 (3-0-0)

Course Description: Geotechnical engineering applications of earth retaining structures, foundations, dams and embankments, geosynthetics, waste containment systems.

Prerequisite: CIVE 355.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 458 Environmental Geotechnics Credits: 3 (3-0-0)

Course Description: Application of principles from soil physics, soil chemistry, soil mechanics, hydrogeology, and geotechnical engineering to solve problems in Environmental Geotechnics related to engineered containment of contaminants and remediation of contaminated sites for the protection of human health and the environment.

Prerequisite: CIVE 355.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 466 Design and Behavior of Steel Structures Credits: 3 (3-0-0)

Course Description: Loads acting on a structure; behavior and design of steel members, connections, and systems.

Prerequisite: CIVE 367.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 467 Design of Reinforced Concrete Structures Credits: 3 (3-0-0)

Course Description: Design and behavior of reinforced concrete structural members.

Prerequisite: CIVE 367.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 495 Independent Study Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 496 Group Study Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 502 Fluid Mechanics Credits: 3 (3-0-0)****Course Description:** Fundamental physical concepts of fluid mechanics, including ideal and viscous fluid flows and boundary-layers.**Prerequisite:** CIVE 300.**Registration Information:** Sections may be offered: Online.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**CIVE 505 Structural Inspection, Management and Repair Credits: 3 (3-0-0)****Course Description:** Modes of deterioration for existing structures; techniques for structural inspection, modeling deterioration and evaluating structures; asset management strategies; failure case studies; repair techniques.**Prerequisite:** CIVE 466 or CIVE 467.**Registration Information:** Credit not allowed for both CIVE 505 and CIVE 580B1.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**CIVE 506 Wind Effects on Structures Credits: 3 (3-0-0)****Course Description:** Analysis of wind effects on buildings and structures; deterministic and probabilistic methods; aerodynamic loading and response; codes and standards.**Prerequisite:** CIVE 300.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**CIVE 507 Transportation Engineering Credits: 3 (3-0-0)****Course Description:** Principles of highway engineering, transportation engineering and bridge engineering with a focus on design.**Prerequisite:** CIVE 261 and CIVE 303 and CIVE 367.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**CIVE 508 Bridge Engineering Credits: 3 (3-0-0)****Course Description:** Introduces the fundamentals of bridge engineering, including bridge basics, bridge loads, bridge analysis and bridge design.**Prerequisite:** CIVE 367.**Term Offered:** Spring (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**CIVE 510 Applied Hydraulic System Design Credits: 3 (3-0-0)****Course Description:** Operational management systems, data collection, real-time control, management modeling, rehabilitation and retrofit, maintenance.**Prerequisite:** CIVE 401.**Term Offered:** Fall.**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.**CIVE 511 Coastal Engineering Credits: 3 (3-0-0)****Course Description:** Coastal processes (waves, tides, storm surge, currents, coastal morphology, deltas) and their effects on infrastructure design and eco-protection.**Prerequisite:** CIVE 401.**Registration Information:** Credit not allowed for both CIVE 511 and CIVE 580A6.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**CIVE 512 Irrigation Systems Design Credits: 3 (3-0-0)****Course Description:** Irrigation systems principles and design procedures for operation of sprinkler, trickle, and surface irrigation systems.**Prerequisite:** CIVE 322 or CIVE 425.**Registration Information:** Sections may be offered: Online.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**CIVE 513 Morphodynamic Modeling Credits: 3 (3-0-0)****Course Description:** Principles and techniques for simultaneous modeling of flow, sediment transport, and channel evolution to address problems in river morphodynamics.**Prerequisite:** CIVE 300.**Registration Information:** Sections may be offered: Online. Credit not allowed for both CIVE 513 and CIVE 581A9.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**CIVE 514 Hydraulic Structures/Systems Credits: 3 (3-0-0)****Course Description:** Analysis and design of hydraulic structures which make up components of water resource systems.**Prerequisite:** CIVE 401.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**CIVE 515 River Mechanics Credits: 3 (3-0-0)****Course Description:** The complex fluvial processes that occur in rivers and the implications for engineering applications. Topics include the controls of river complexity, fundamentals of river hydraulics, sediment transport mechanisms, ecological links to river morphology, river restoration applications, and mathematical modeling of river hydraulics.**Prerequisite:** CIVE 300 and CIVE 401.**Registration Information:** Sections may be offered: Online.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**CIVE 518 Sprinkler and Trickle Irrigation Systems Credits: 3 (3-0-0)****Course Description:** Basic principles, design, and evaluation of pressurized irrigation systems.**Prerequisite:** CIVE 300 and CIVE 425.**Term Offered:** Spring.**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.

CIVE 519 Irrigation Water Management Credits: 3 (3-0-0)

Course Description: Soil, plant, water, and atmospheric engineering principles for the determination of crop water needs to sustain agricultural production and the environment.

Prerequisite: CIVE 322 or SOCR 370.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 520 Physical Hydrology Credits: 3 (3-0-0)

Course Description: Hydrologic, atmospheric processes in the water cycle; linear systems, hydrologic response; geomorphologic description of hydrologic processes, response.

Prerequisite: CIVE 322 or CIVE 322.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 521 Hydrometry Credits: 3 (2-3-0)

Course Description: Principles, methods, instruments, and equipment for measuring water quantity and water quality variables in nature.

Prerequisite: CIVE 322.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: Yes.

CIVE 524 Modeling Watershed Hydrology Credits: 3 (2-2-0)

Also Offered As: WR 524.

Course Description: Development and application of watershed models: structure, calibration, evaluation, sensitivity analysis, simulation.

Prerequisite: (CIVE 203 or STAT 301 or STAT 315) and (CIVE 322 or WR 416).

Registration Information: Must register for lecture and laboratory. Credit not allowed for both CIVE 524 and WR 524.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 525 Water Engineering International Development Credits: 3 (3-0-0)

Course Description: Planning and design of small-scale and low-cost water supply and wastewater systems for rural communities in developing countries.

Prerequisite: CIVE 339 or CIVE 401 or CIVE 438.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

CIVE 526 Pollution, Exposure, and the Environment Credits: 3 (3-0-0)

Course Description: Basic principles and applications of quantitative exposure science with an emphasis on exposure measurement; exposure pathway and data analysis; exposure modeling; and the development and application of novel methodological, technological, and statistical tools for exposure science.

Prerequisite: CHEM 113 and MATH 160.

Registration Information: Sections may be offered: Online. Credit not allowed for both CIVE 526 and CIVE 580B4.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 527 Tools for Food-Energy-Water Systems Analysis Credits: 3 (2-2-0)

Course Description: Analysis of complex food-energy-water (FEW) issues to explore prevailing relationships under varying conditions. Introduction to tools and approaches for systems thinking and FEW analysis, including frameworks for system analysis, data mining, life cycle assessment, triple bottom line analysis, and multi-criteria decision analysis.

Prerequisite: CHEM 103 or CHEM 107 or CHEM 111.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Must register for lecture and laboratory. Credit not allowed for both CIVE 527 and CIVE 580B6.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 528 Assessing the Food, Energy, Water Nexus Credits: 3 (3-0-0)
Also Offered As: GES 528.

Course Description: A broad overview of Food/Energy/Water (FEW) nexus issues, including the science underpinning FEW and the trade-offs, socio-economic constraints, and policy limitations inherent in FEW challenges. Introduction to tools that enhance systems-level thinking and problem solving.

Prerequisite: CHEM 103 or CHEM 107 or CHEM 111.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Written consent of instructor. Credit allowed for only one of the following courses: CIVE 528, CIVE 580B5, or GES 528.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 529 Environmental Organic Chemistry Credits: 3 (3-0-0)

Course Description: Fate and transport of organic compounds in natural and engineered environments.

Prerequisite: MATH 160 and CHEM 111.

Registration Information: Credit not allowed for both CIVE 529 and CIVE 580A5.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 530 Environ Engr at the Water-Energy-Health Nexus Credits: 3 (3-0-0)

Course Description: Key principles and applications of state-of-the-art technologies at the water-energy-health nexus. Emerging technologies that produce clean water and energy from unconventional water resources such as wastewater and saline water, as well as new approaches (e.g., using environmental nanotechnology) that prevent water-borne diseases beyond conventional disinfection.

Prerequisite: CHEM 113 and MATH 161.

Registration Information: Credit not allowed for both CIVE 530 and CIVE 580B3.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 531 Groundwater Hydrology Credits: 3 (3-0-0)

Course Description: Groundwater occurrence, distribution, movement, exploration and recharge, well hydraulics and design, interaction of ground and surface water.

Prerequisite: CIVE 300 or CBE 331 or MECH 342.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 532 Wells and Pumps Credits: 3 (3-0-0)

Course Description: Well field hydraulics, well drilling methods, well design, aquifer test methods, pumping systems, well maintenance, storage/distribution systems.

Prerequisite: (CIVE 423 and CHEM 111) and (CIVE 531 or GEOL 452).

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 533 Biomolecular Tools for Engineers Credits: 3 (2-3-0)

Also Offered As: BIOM 533.

Course Description: Theoretical and practical aspects of biomolecular laboratory tools—PCR, cloning, sequencing, single-molecule optical techniques and live-cell imaging.

Prerequisite: BMS 300 or MIP 300.

Registration Information: Must register for lecture and laboratory. Credit not allowed for BIOM 533, CIVE 533 and ECE 533.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

CIVE 534 Applied and Environmental Molecular Biology Credits: 3 (2-2-0)

Course Description: Environmental microbiology and molecular biology tools used to investigate both natural systems and engineered processes.

Prerequisite: CIVE 540.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 537 Residuals Management Credits: 3 (3-0-0)

Course Description: Planning and design for processing and disposal of residuals including solid wastes, sludges, and hazardous wastes.

Prerequisite: CIVE 300.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 538 Aqueous Chemistry Credits: 3 (3-0-0)

Course Description: Principles of solution chemistry applied to aquatic systems.

Prerequisite: CHEM 113 and MATH 340.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 539 Water and Wastewater Analysis Credits: 3 (2-3-0)

Course Description: Chemical and biological methods of assessing water quality; significance of chemicals in aquatic systems.

Prerequisite: CHEM 113 and MATH 340.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall (odd years).

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 540 Advanced Biological Wastewater Processing Credits: 3 (3-0-0)
Also Offered As: CBE 540.

Course Description: Fundamentals of environmental biotechnology: environmental microbiology, microbial kinetics, basic reactor design, wastewater treatment.

Prerequisite: CBE 320 or CIVE 339 or CIVE 438.

Registration Information: Sections may be offered: Online. Credit not allowed for both CBE 540 and CIVE 540.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 541 Physical Chemical Water Treatment Processes Credits: 3 (3-0-0)

Course Description: Theory and practice of separations and conversions in water treatment process. Reactor theory, filtration, adsorption, mass transfer, oxidation, membrane technologies, biological reactors, disinfection.

Prerequisite: CIVE 439.

Registration Information: Section may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 542 Water Quality Modeling Credits: 3 (3-0-0)

Course Description: Chemical, physical, and biological processes defining surface water quality, construction and application of computer models for lakes and streams.

Prerequisite: None.

Registration Information: Must have taken two semesters of chemistry; one course in hydrology or water quality.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 543 Instrumental Environmental Analysis Credits: 3 (2-3-0)

Course Description: Environmental sampling and preservation techniques followed by the instrumental analysis of the samples.

Prerequisite: CHEM 113.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 544 Water Resources Planning and Management Credits: 3 (3-0-0)

Course Description: Management and planning of natural and constructed water systems. Integrated management and case studies of water use and environmental resources.

Prerequisite: CIVE 322.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 546 Water Resource Systems Analysis Credits: 3 (2-2-0)

Course Description: Applications of systems analysis and optimization techniques in water resources planning and management.

Prerequisite: (CIVE 322, may be taken concurrently) and (ENGR 510, may be taken concurrently or MATH 510, may be taken concurrently).

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 547 Statistics for Environmental Monitoring Credits: 3 (3-0-0)

Also Offered As: STAT 547.

Course Description: Applications of statistics in environmental pollution studies involving air, water, or soil monitoring; sampling designs; trend analysis; censored data.

Prerequisite: STAT 301.

Registration Information: Credit not allowed for both CIVE 547 and STAT 547. Sections may be offered: Online.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 549 Drainage and Wetland Engineering Credits: 3 (3-0-0)

Course Description: Drainage and wetlands design for agricultural and natural resource applications. Water table modification for nonpoint sources pollution control.

Prerequisite: CIVE 322 or SOCR 370 or SOCR 470.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 550 Foundation and Retaining Wall Engineering Credits: 3 (3-0-0)

Course Description: Mechanics and methodology of foundation engineering, selection and design of foundation systems, retaining wall design, and application of principles to related special problems.

Prerequisite: CIVE 355.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 551 The Material Point Method Credits: 3 (3-0-0)

Course Description: Basic elements of the material point method, covering theory, and developing computational code to solve problems in solids, fluids, and soil mechanics.

Prerequisite: CIVE 261 and MATH 340.

Registration Information: Sections may be offered: Online. Credit not allowed for both CIVE 551 and CIVE 580B7.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 555 Mining Geotechnics Credits: 3 (3-0-0)

Course Description: Challenges associated with mine tailings and mine waste management, including relevant geotechnical and geoenvironmental engineering factors. Case studies are used to illustrate important concepts.

Prerequisite: CIVE 355.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 556 Slope Stability, Seepage, and Earth Dams Credits: 3 (3-0-0)

Course Description: Slope stability, seepage analysis and control, and earth dam and embankment design in Geotechnical Engineering practice. Students will gain an understanding of the theory, design, and analysis necessary to evaluate slope stability, seepage, and earth dam problems.

Prerequisite: CIVE 355.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 558 Containment Systems for Waste Disposal Credits: 3 (3-0-0)

Course Description: Basic principles governing the design of containment systems used in waste disposal applications.

Prerequisite: CIVE 355.

Registration Information: Sections may be offered: Online.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 559 Special Topics in Geotechnical Engineering Credits: 3 (3-0-0)

Course Description: Advanced topics in geotechnical engineering including expansive soils, unsaturated soil mechanics, soil-structure interaction and mining geotechnics.

Prerequisite: CIVE 355.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 560 Advanced Mechanics of Materials Credits: 3 (3-0-0)

Course Description: Analysis of stress and strain failure theory; selected topics in solid mechanics, plate analysis; introduction to elastic stability.

Prerequisite: CIVE 360.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 561 Advanced Steel Behavior and Design Credits: 3 (3-0-0)

Course Description: Behavior of steel components and systems. Design of composite members, plate girders, and bolted and welded connections.

Prerequisite: CIVE 466.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 562 Fundamentals of Vibrations Credits: 3 (3-0-0)

Course Description: Free and forced vibrations of single, two, and multiple degree of freedom systems. Closed-form and numerical solutions.

Prerequisite: CIVE 261 and CIVE 360.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 564 Principles of Structural Load Modeling Credits: 3 (3-0-0)

Course Description: Modern structural load modeling and analysis techniques for buildings and other structures exposed to natural and man-made hazards.

Prerequisite: (CIVE 203) and (CIVE 466 or CIVE 467).

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Credit not allowed for both CIVE 564 and CIVE 581A7.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 565 Finite Element Method Credits: 3 (3-0-0)

Course Description: Theory and application in elasticity, porous flow, heat conduction, and other engineering problems.

Prerequisite: MATH 340.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 566 Intermediate Structural Analysis Credits: 3 (3-0-0)

Course Description: Work and energy concepts, curved members and arches, matrix analysis of linear systems, numerical techniques.

Prerequisite: CIVE 367.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 567 Advanced Concrete Design Credits: 3 (3-0-0)

Course Description: Behavior of reinforced and prestressed concrete members; development of design methods; behavior and design of slabs, shearwalls, and buildings.

Prerequisite: CIVE 467.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 568 Design of Masonry and Wood Structures Credits: 3 (3-0-0)

Course Description: Behavior and design of structures and structural components constructed of masonry or engineered wood.

Prerequisite: CIVE 466 or CIVE 467.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 571 Pipeline Engineering and Hydraulics Credits: 3 (3-0-0)

Course Description: Water supply, wastewater, stormwater, oil and gas, and industrial applications. Emphasis on pressurized water pipelines.

Prerequisite: CIVE 300.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 572 Analysis of Urban Water Systems Credits: 3 (2-2-0)

Course Description: Behavior and interaction of urban water distribution and collection systems; how system state and driving variables affect system performance.

Prerequisite: CIVE 300 and CIVE 401.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 573 Urban Stormwater Management Credits: 3 (3-0-0)

Course Description: Effects of urbanization on watershed hydrology and receiving waters; control practices to mitigate effects using mathematical models.

Prerequisite: (CIVE 322) and (CIVE 401).

Registration Information: Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 574 Civil Engineering Project Management Credits: 3 (3-0-0)

Course Description: Principles of civil engineering project management including proposals, contracts, scheduling, quality assurance, budgeting, and risk management.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 575 Sustainable Water and Waste Management Credits: 3 (3-0-0)

Course Description: The science, engineering, and policy behind sustainable water and waste practices. Sustainable urban water and wastewater management.

Prerequisite: CIVE 322.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 576 Engineering Applications of GIS and GPS Credits: 3 (2-2-0)

Course Description: Integration of GPS and GIS in the planning and decision making process, application to case study.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 577 GIS in Civil and Environmental Engineering Credits: 3 (2-2-0)

Course Description: GIS technology for spatial design/analysis; applications in facilities management, urban infrastructure, water resources, environmental engineering.

Prerequisite: (CIVE 300) and (CIVE 322).

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 578 Infrastructure and Utility Management Credits: 3 (3-0-0)
Course Description: Infrastructure and utility planning, management, and security. Systems approach to life cycle management. Problems, analysis, decision support systems.
Prerequisite: CIVE 303.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIVE 584 Supervised College Teaching Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 592A Seminar: Fluid Mechanics and Wind Engineering Credit: 1 (0-0-1)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 592E Seminar: Geotechnical Engineering Credit: 1 (0-0-1)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 592G Seminar: Environmental Engineering Credit: 1 (0-0-1)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 592L Seminar: Space Engineering Credit: 1 (0-0-1)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 596A Group Study: Fluid Mechanics/Wind Engineering Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 596B Group Study: Hydraulics Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 596C Group Study: Hydrology and Water Resources Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 596D Group Study: Mechanics Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 596E Group Study: Geotechnical Engineering Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 596F Group Study: Structures Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 596G Group Study: Environmental Engineering Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 596H Group Study: Water Resource Planning and Management Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 596I Group Study: Groundwater Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 596J Group Study: Bioresource and Agricultural Engineering Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIVE 604 Fluid Turbulence and Modeling Credits: 3 (3-0-0)

Course Description: Engineering concepts for transport of pollutants, toxic and flammable species, sand, and snow. Fluid modeling, numerical and analytical approaches.

Prerequisite: CIVE 300.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 607 Computational Fluid Dynamics Credits: 3 (3-0-0)

Course Description: Numerical methods used in computational solutions of hydraulics, environmental and wind engineering problems.

Prerequisite: CIVE 300.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 610 Special Topics in Hydraulics Credits: 3 (3-0-0)

Course Description: Advanced topics in hydraulics, hydromechanics, environmental hydraulics, and computational hydraulics.

Prerequisite: CIVE 502.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 612 Open Channel Flow Credits: 4 (4-0-0)

Course Description: Steady, uniform, and non-uniform flow; backwater curves; flow through bridge piers, transitions, and culverts; spatially varied and unsteady flow.

Prerequisite: CIVE 502.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 613 River Restoration Design Credits: 3 (3-0-0)

Course Description: Analysis and design for assisting the recovery of hydrologic, geomorphic, and ecological processes and ecosystem services in degraded river systems.

Prerequisite: CIVE 401.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 622 Risk Analysis of Water/Environmental Systems Credits: 3 (3-0-0)

Course Description: Risk and uncertainty analysis applied to hydrology, hydraulics, groundwater, water resources, and environmental engineering systems.

Prerequisite: (CIVE 322) and (STAT 315).

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 625 Quantitative Eco-Hydrology Credits: 3 (3-0-0)

Course Description: Quantitative examination of the hydrologic and ecologic mechanisms underlying climate-soil-vegetation and soil moisture dynamics.

Prerequisite: CIVE 322 or WR 416.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 626 Integrated Analysis of Coupled Water Issues Credits: 3 (3-0-0)

Course Description: Integrative systems and policy analysis applied to coupled human-water systems from interdisciplinary technical and institutional perspectives.

Prerequisite: GR 304 or WR 304.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 631 Computational Methods in Subsurface Systems Credits: 3 (3-0-0)

Course Description: Numerical flow models; finite difference and finite element methods; parameter identification, stochastic modeling and advanced analytical solutions.

Prerequisite: (MATH 340) and (CIVE 531).

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 638 Groundwater Quality and Contaminant Transport Credits: 3 (3-0-0)

Course Description: Analysis of hydrochemical data. Advection with and without mixing. Retardation of reactive solutes. Design of groundwater quality investigations.

Prerequisite: CIVE 531.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 645 Computer-Aided Water Management and Control Credits: 3 (2-2-0)

Course Description: Real-time management and control of water resource systems; applications of computer control concepts to improve system performance.

Prerequisite: CIVE 546 or CIVE 577.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 655 Advanced Soil Mechanics Credits: 3 (3-0-0)

Course Description: Advanced topics in shear strength and consolidation of soils; stress paths; anisotropy; submergence; partial and radial drainage; numerical methods.

Prerequisite: CIVE 355.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 657 Oral Communication in Geo-Engineering Credit: 1 (1-0-0)

Course Description: Principles of technical oral communication in geotechnical engineering, creating presentations, delivering presentations, listening and responding to questions.

Prerequisite: CIVE 550 or CIVE 556 or CIVE 558 or CIVE 655.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 658 Remediation Systems - Subsurface Contamination Credits: 3 (3-0-0)

Course Description: Applications in geoenvironmental engineering practice involving design of in situ containment and remediation systems.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 659 Advanced Topics in Geo-Engineering Credits: 3 (3-0-0)

Course Description: Advanced topics in geotechnical and geoenvironmental engineering including: (1) chemical diffusion, (2) theoretical saturated and unsaturated soil mechanics, (3) numerical modeling, (4) coupled physico-chemico-mechanical processes.

Prerequisite: CIVE 355.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 661 Stochastic Methods in Structural Dynamics Credits: 3 (3-0-0)

Course Description: Time-dependent excitations are modeled using stochastic processes, enabling prediction of random dynamic response under time-dependent excitations.

Prerequisite: CIVE 562.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both CIVE 661 and CIVE 681A3.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 662 Foundations of Solid Mechanics Credits: 3 (3-0-0)

Course Description: Analysis of stress and strain in solids emphasizing linear elasticity and plasticity; introduction to creep, viscoelasticity, and finite deformations.

Prerequisite: CIVE 560.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 663 Structural Stability Credits: 3 (3-0-0)

Course Description: Structural stability analysis of buildings and other structures; mathematical and mechanics tools for investigating stability of equilibrium.

Prerequisite: CIVE 560 and CIVE 566.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both CIVE 663 and CIVE 680A6.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 664 Mechanics of Fatigue and Fracture Credits: 3 (3-0-0)

Course Description: Fracture mechanics including linear elastic, elastic-plastic, and dynamic fracture; on ductile and cleavage fracture in metals.

Prerequisite: CIVE 560.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 665 Wind Engineering Credits: 3 (3-0-0)

Course Description: Fundamental elements of wind engineering, including wind climatology, structural dynamics, random vibrations, bluff body aerodynamics, wind effects on structures, wind resistant design, modeling, analysis, and simulation tools.

Prerequisite: CIVE 300.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online. Credit not allowed for both CIVE 504 and CIVE 665.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 667 Advanced Structural Analysis Credits: 3 (3-0-0)

Course Description: Analysis program development, application of finite element analysis, computer-assisted analysis, introduction to nonlinear analysis.

Prerequisite: CIVE 566.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

CIVE 668 Structural Reliability--Theory, Application Credits: 3 (3-0-0)

Course Description: Theory of structural reliability as it relates to analysis, design, construction, and maintenance of structural and mechanical systems.

Prerequisite: CIVE 203 or STAT 315.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both CIVE 563 and CIVE 668.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CIVE 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 695A Independent Study: Fluid Mechanics and Wind Engineering Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 695B Independent Study: Hydraulics Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 695C Independent Study: Hydrologic Science and Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 695D Independent Study: Mechanics Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 695E Independent Study: Geotechnical Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 695F Independent Study: Structures Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 695G Independent Study: Environmental Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 695H Independent Study: Water Resource Planning and Management Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 695J Independent Study: Bioresource and Agricultural Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 695K Independent Study: Water and International Development Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 695L Independent Study: Construction Engineering and Management Credits: Var[1-18] (0-0-0)****Course Description:** A) Fluid mechanics and wind engineering. B) Hydraulics. C) Hydrology and water resources. D) Mechanics. E) Geotechnical engineering, F) Structures, G) Environmental Engineering. H) Water resource planning and management, I) Groundwater. K) Water and International Development, L) Construction Engineering & Management.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 696A Group Study: Fluid Mechanics and Wind Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

CIVE 696B Group Study: Hydraulics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 696C Group Study: Hydrology and Water Resources Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 696D Group Study: Mechanics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 696E Group Study: Geotechnical Engineering Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 696F Group Study: Structures Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 696G Group Study: Environmental Engineering Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 696H Group Study: Water Resource Planning and

Management Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 696I Group Study: Groundwater Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 696J Group Study: Bioresource and Agricultural

Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 699A Thesis: Fluid Mechanics and Wind Engineering Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 699B Thesis: Hydraulics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 699C Thesis: Hydrologic Science and Engineering Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 699D Thesis: Mechanics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 699E Thesis: Geotechnical Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CIVE 699F Thesis: Structures Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 699G Thesis: Environmental Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 699H Thesis: Water Resource Planning and Management Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 699J Thesis: Bioresource and Agricultural Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 699K Thesis: Water and International Development Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 703 Special Topics in Fluid Mechanics Credits: 3 (3-0-0)****Course Description:** Advanced topics in fluid mechanics; associated experimental and numerical techniques.**Prerequisite:** CIVE 502.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall (odd years).**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.**CIVE 721 Stochastic Water and Environmental Systems Credits: 3 (3-0-0)****Course Description:** Stochastic analysis of water and environmental systems. Simulation, forecasting, spatial analysis, modeling changes, stochastic differential equations.**Prerequisite:** CIVE 622.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**CIVE 724 River Basin Morphology Credits: 3 (3-0-0)****Course Description:** Analysis of river basin properties including their connections to statistical theories and erosion processes and their hydrologic implications.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Written consent of instructor.**Term Offered:** Spring (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**CIVE 742 Advanced Topics in Environmental Engineering Credits: 3 (2-3-0)****Course Description:** Selected topics from current environmental engineering research including molecular methods, water/wastewater treatment, hazardous water remediation.**Prerequisite:** CIVE 540.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Must register for lecture and laboratory.**Term Offered:** Spring (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**CIVE 751 Soil Dynamics Credits: 3 (3-0-0)****Course Description:** Soil behavior under dynamic loading; stress wave propagation; foundation response to vibratory and transient loading; elements of earthquake effects.**Prerequisite:** CIVE 355.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Spring (even years).**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.**CIVE 766 Theory of Plates and Shells Credits: 3 (3-0-0)****Course Description:** Classical plate, shell and membrane theory for isotropic and layered anisotropic media. Analytic and computational solution techniques.**Prerequisite:** CIVE 560.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall (even years).**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.**CIVE 767 Structural Dynamics and Earthquake Engineering Credits: 3 (3-0-0)****Course Description:** Analysis, behavior, and design of structural systems subjected to dynamic loads, including earthquakes, wind, and ocean waves.**Prerequisite:** CIVE 562 and CIVE 667.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall (odd years).**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.**CIVE 799A Dissertation: Fluid Mechanics and Wind Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

CIVE 799B Dissertation: Hydraulics Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 799C Dissertation: Hydrologic Science and Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 799D Dissertation: Mechanics Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 799E Dissertation: Geotechnical Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 799F Dissertation: Structures Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 799G Dissertation: Environmental Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 799H Dissertation: Water Resource Planning and Management Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 799J Dissertation: Bioresource and Agricultural Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 799K Dissertation: Water and International Development Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CIVE 799L Dissertation: Construction Engineering and Management Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Major in Civil Engineering

The undergraduate Civil Engineering program provides a solid base in the physical sciences, mathematics, engineering fundamentals, and design and management concepts. The All-University Core Curriculum (AUCC) provides a broad background in communication, liberal arts, humanities, and social sciences. In addition to offering courses in the various sub-disciplines of Civil Engineering, the Civil Engineering curriculum covers design practices, information technology, technical communications, project management, and engineering ethics. The program culminates in a year-long, term-based, senior capstone design experience. Preparation for high-level professional practice is emphasized. The Fundamentals of Engineering (FE) exam is the first step toward registration as a licensed Professional Engineer (PE), an important professional credential for civil engineers. Thus, students in this major are encouraged to take the FE exam prior to graduation.

Participation in internships, volunteer activities, professional organizations, and cooperative education opportunities is highly recommended to enhance practical training and development. Graduates who pursue advanced studies are prepared for higher level technical responsibilities.

The educational outcomes and objectives of this major can be found on the Department of Civil and Environmental Engineering website (<https://www.engr.colostate.edu/ce/>). The Civil Engineering major is accredited by the Engineering Accreditation Commission of ABET (<http://abet.org>).

Learning Objectives

Upon successful completion, students will be able to:

1. Identify, analyze, formulate, and design solutions to Civil Engineering problems, both independently and in a team environment;
2. Apply considerations of technical, legal, regulatory, social, environmental, and economic factors towards managing multi-faceted and multi-disciplinary projects;

3. Communicate effectively in both technical and non-technical settings with co-workers, professional clients, and the public; and
4. Demonstrate commitment and progress in lifelong learning, professional development, and leadership, including participation in continuing education courses, workshops, and/or graduate study, and the pursuit of licensure as a Professional Engineer.

Potential Occupations

Students who obtain a Bachelor of Science degree in Civil Engineering from CSU are prepared to solve some of the world's most challenging problems involving critical climate change, resiliency, and sustainability. Graduates will be able to repair, redesign, and rebuild aging infrastructure around the world, from highways and buildings to water systems and disaster mitigating structures. Employment opportunities will be plentiful for the foreseeable future.

Civil engineers are employed in many different organizations, including small and large consulting firms, local, state, and federal governmental

agencies, and industrial companies such as construction, petroleum, mining, and aerospace firms. Civil engineers also may find opportunities in specialized design, research, and teaching.

Some possible job titles for graduates with a Bachelor of Science degree in Civil Engineering (BSCE) include, but are not limited to, civil engineer, transportation engineer, hydraulic engineer, water resources engineer, structural engineer, geotechnical engineer, geoenvironmental engineer, groundwater engineer, hydrologist, urban/regional planner, infrastructure engineer or manager, contract administrator, construction engineer or manager, building construction inspector, facilities engineer or manager, industrial transportation specialist, industrial designer/engineer, construction materials engineer, irrigation engineer, mining engineer, mining and petroleum research engineer, technical sales engineer, and educator.

Requirements Effective Fall 2023

Freshman

		AUCC	Credits
CHEM 111	General Chemistry I (GT-SC2)	3A	4
CHEM 112	General Chemistry Lab I (GT-SC1)	3A	1
CIVE 102	Introduction to Civil and Environmental Engr		3
CIVE 103	Engineering Graphics and Computing		3
CO 150	College Composition (GT-CO2)	1A	3
MATH 160	Calculus for Physical Scientists I (GT-MA1)	1B	4
MATH 161	Calculus for Physical Scientists II (GT-MA1)	1B	4
PH 141	Physics for Scientists and Engineers I (GT-SC1)	3A	5
Diversity, Equity, and Inclusion		1C	3
Total Credits			30

Sophomore

CHEM 113	General Chemistry II		3
CIVE 202	Numerical Modeling and Optimization		3
CIVE 203	Engineering Systems and Decision Analysis		3
CIVE 260	Engineering Mechanics-Statics		3
CIVE 261	Engineering Mechanics-Dynamics		3
CIVE 360	Mechanics of Solids		3
MATH 261	Calculus for Physical Scientists III		4
MECH 237	Introduction to Thermal Sciences		3
Science Technical Elective (see list below)			3
Historical Perspectives		3D	3
Social and Behavioral Sciences		3C	3
Total Credits			34

Junior

CIVE 300	Fluid Mechanics		3
CIVE 301	Fluid Mechanics Laboratory		1
CIVE 302	Evaluation of Civil Engineering Materials		3
CIVE 303	Infrastructure and Transportation Systems		3
CIVE 322	Basic Hydrology		3
CIVE 355	Introduction to Geotechnical Engineering		3
CIVE 356	Geotechnical Engineering Laboratory		1

CIVE 367	Structural Analysis		3
CIVE 467	Design of Reinforced Concrete Structures		3
MATH 340	Intro to Ordinary Differential Equations		4
Advanced Writing		2	3
Arts and Humanities		3B	3

Total Credits		33
----------------------	--	-----------

Senior

CIVE 401	Hydraulic Engineering		3
CIVE 402	Senior Design Principles	4A,4B	3
CIVE 403	Senior Project Design	4C	3
CIVE 438	Fundamentals of Environmental Engr		3
CIVE 466	Design and Behavior of Steel Structures		3
Civil Engineering Technical Electives (see list below)			15
Arts and Humanities		3B	3

Total Credits		33
----------------------	--	-----------

Program Total Credits:		130
-------------------------------	--	------------

Science Technical Electives – Select a minimum of 3 credits

Code	Title	Credits
BSPM 102	Insects, Science, and Society (GT-SC2)	3
BZ 110	Principles of Animal Biology (GT-SC2)	3
BZ 120	Principles of Plant Biology (GT-SC1)	4
ESS 210/GR 210	Physical Geography	3
GEOL 120	Exploring Earth - Physical Geology (GT-SC2)	3
GEOL 122	The Blue Planet - Geology of Our Environment (GT-SC2)	3
GEOL 150	Physical Geology for Scientists and Engineers	4
HORT 171/SOCR 171	Environmental Issues in Agriculture (GT-SS3)	3
LAND 220/LIFE 220	Fundamentals of Ecology (GT-SC2)	3
LIFE 102	Attributes of Living Systems (GT-SC1)	4
MIP 149	The Microbial World	3
NR 120A	Environmental Conservation (GT-SC2)	3
NR 130	Global Environmental Systems (GT-SC2)	3
NR 150	Oceanography (GT-SC2)	3
SOCR 240	Introductory Soil Science	4

Civil Engineering Technical Electives – Select a minimum of 15 credits

Select a minimum of 9 credits from the Engineering Technical Electives; a maximum of 6 credits may be selected from the Additional Technical Electives. Only 3 credits of a 4- or 5-credit course will apply toward this requirement.

Code	Title	Credits
Engineering Technical Electives – Select 9-15 credits from the following:		
CIVE 305	Intermediate AutoCAD	3
CIVE 330	Ecological Engineering	3
CIVE 405	Sustainable Civil/Environmental Engineering	3

CIVE 413	Environmental River Mechanics	3
CIVE 423	Groundwater Engineering	3
CIVE 437	Wastewater Treatment Facility Design	3
CIVE 439	Applications of Environmental Engr Concepts	3
CIVE 440	Nonpoint Source Pollution	3
CIVE 442	Air Quality Engineering	3
CIVE 455	Applications in Geotechnical Engineering	3
CIVE 458	Environmental Geotechnics	3
CIVE 502	Fluid Mechanics	3
CIVE 505	Structural Inspection, Management and Repair	3
CIVE 507	Transportation Engineering	3
CIVE 508	Bridge Engineering	3
CIVE 510	Applied Hydraulic System Design	3
CIVE 511	Coastal Engineering	3
CIVE 512	Irrigation Systems Design	3
CIVE 513	Morphodynamic Modeling	3
CIVE 514	Hydraulic Structures/Systems	3
CIVE 519	Irrigation Water Management	3
CIVE 520	Physical Hydrology	3
CIVE 521	Hydrometry	3
CIVE 524/WR 524	Modeling Watershed Hydrology	3
CIVE 525	Water Engineering International Development	3
CIVE 529	Environmental Organic Chemistry	3
CIVE 530	Environ Engr at the Water-Energy-Health Nexus	3
CIVE 531	Groundwater Hydrology	3
CIVE 533/BIOM 533	Biomolecular Tools for Engineers	3
CIVE 538	Aqueous Chemistry	3
CIVE 540/CBE 540	Advanced Biological Wastewater Processing	3
CIVE 541	Physical Chemical Water Treatment Processes	3

CIVE 542	Water Quality Modeling	3	CON 370	Asphalt Pavement Materials and Construction ¹	3
CIVE 544	Water Resources Planning and Management	3	ERHS 446	Environmental Toxicology	3
CIVE 547/STAT 547	Statistics for Environmental Monitoring	3	GEOL 442	Applied Geophysics	4
CIVE 549	Drainage and Wetland Engineering	3	GR 323/NR 323	Remote Sensing and Image Interpretation	3
CIVE 550	Foundation and Retaining Wall Engineering	3	LIFE 320	Ecology	3
CIVE 555	Mining Geotechnics	3	MATH 332	Partial Differential Equations	3
CIVE 556	Slope Stability, Seepage, and Earth Dams	3	MATH 369	Linear Algebra I	3
CIVE 558	Containment Systems for Waste Disposal	3	MIP 300	General Microbiology	3
CIVE 559	Special Topics in Geotechnical Engineering	3	NR 319	Introduction to Geospatial Science	4
CIVE 560	Advanced Mechanics of Materials	3	A maximum of one course may be selected from the following:		
CIVE 561	Advanced Steel Behavior and Design	3	FIN 305	Fundamentals of Finance ¹	3
CIVE 562	Fundamentals of Vibrations	3	MGT 305	Fundamentals of Management ¹	3
CIVE 565	Finite Element Method	3	MKT 305	Fundamentals of Marketing ¹	3
CIVE 566	Intermediate Structural Analysis	3			
CIVE 567	Advanced Concrete Design	3			
CIVE 568	Design of Masonry and Wood Structures	3			
CIVE 571	Pipeline Engineering and Hydraulics	3			
CIVE 572	Analysis of Urban Water Systems	3			
CIVE 573	Urban Stormwater Management	3			
CIVE 574	Civil Engineering Project Management	3			
CIVE 575	Sustainable Water and Waste Management	3			
CIVE 576	Engineering Applications of GIS and GPS	3			
CIVE 578	Infrastructure and Utility Management	3			
ENGR 550/ MATH 550	Numerical Methods in Science and Engineering	3			
Additional Technical Electives – Select 0-6 credits from the following:					
BC 351	Principles of Biochemistry	4			
CHEM 245	Fundamentals of Organic Chemistry	4			
CHEM 341	Modern Organic Chemistry I	3			

¹ Students may need to obtain an override or approval from the respective department to take this course.

Major Completion Map

TO DECLARE MAJOR: Engineering is a controlled major: students are admitted into the major only if they meet established academic standards. Please see competitive major requirements or the advisor in the department for more information.

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus. To qualify for graduation, Civil Engineering majors must achieve a minimum 2.000 grade point average at CSU in all courses in engineering, mathematics, physics, and chemistry as well as courses taken as technical electives.

Distinctive Requirements for Degree Program:

Major in Environmental Engineering

Environmental engineers design solutions to prevent future environmental damage as well as reduce and resolve existing pollution problems. The undergraduate curriculum in Environmental Engineering is based on a strong foundation in physical, chemical, and biological sciences, mathematics, and engineering fundamentals. The All-University

Core Curriculum (AUCC) provides a broad background in communication, liberal arts, humanities, and social sciences. Upper-division courses address engineering applications for prevention and control of air, water, and land pollution. Required courses that are specific to the Environmental Engineering major come from several engineering and science disciplines, including organic and environmental chemistry, microbiology, hydrology, statistics, environmental toxicology, and water treatment. Technical electives provide specialization in a particular

area of interest. Seniors complete the same year-long, capstone design experience as Civil Engineering majors, working in teams on real-world engineering problems. Graduates who pursue advanced studies are prepared for higher-level technical responsibilities.

Participation in student professional societies, other campus organizations, internships, and volunteer activities is highly recommended to foster personal growth and professional development. The Fundamentals of Engineering (FE) exam is the first step toward registration as a licensed Professional Engineer (PE), an important professional credential for environmental engineers. Therefore, students are encouraged to take the FE exam prior to graduation. The educational outcomes and objectives for the Environmental Engineering program, along with additional information on this major, are given at Department of Civil and Environmental Engineering website (<https://www.engr.colostate.edu/ce/>). The Environmental Engineering major is accredited by the Engineering Accreditation Commission of ABET (<http://abet.org/>).

Learning Objectives

1. Demonstrate technical excellence and innovation in the ability to identify, analyze, formulate, and design resilient and sustainable Environmental Engineering solutions, both independently and in a team environment;
2. Apply considerations of technical, legal, regulatory, social, environmental, economic, and ethical factors multi-faceted and multi-disciplinary projects and programs;
3. Communicate effectively in both technical and non-technical settings using a variety of media and modes of communication with co-workers, clients, stakeholders, policy-makers, and the public;
4. Demonstrate commitment and progress in lifelong learning, professional development, and leadership, including participation in continuing education courses, workshops, and/or graduate study, and the pursuit of licensure as a Professional Engineer; and

5. Exemplify the skills and capability to engage in activities focused on the betterment of their communities and society as a whole.

Potential Occupations

Students who obtain a Bachelor of Science degree in Environmental Engineering from CSU are well prepared to solve some of the world's most challenging environmental problems, such as providing sustainable sources of high-quality water and air for the world's expanding population. Students will also be equipped to address growing detrimental impacts resulting from climate change, such as flooding, drought, and famine. The need to solve these challenging problems will contribute to the increased demand for the services of environmental engineers, both in the U.S. and abroad. Environmental engineers typically are employed in designing pollution prevention equipment and systems, designing environmental monitoring systems, implementing both government and industry environmental regulations, designing water and wastewater treatment systems, and restoring ecosystem health.

Graduates of the Environmental Engineering degree program from CSU are qualified for entry-level positions with regulatory agencies, engineering consulting firms, and environmental divisions of large corporations, particularly in the energy and manufacturing industries. Some example job titles for graduates include, but are not limited to, hydraulic engineer, water resources engineer, environmental engineer, geoenvironmental engineer, reclamation engineer, stormwater engineer, floodplain manager, groundwater engineer, hydrologist, urban/regional planner, water infrastructure engineer or manager, contract administrator, facilities engineer or manager, irrigation engineer, ecological engineer, and educator. Graduate study in a specific area of interest is highly recommended to enhance the ability to undertake more advanced technical responsibilities upon graduation.

Major Completion Map

Distinctive Requirements for Degree Program:

TO DECLARE MAJOR: Engineering is a controlled major: students are admitted into the major only if they meet established academic standards. Please see competitive major requirements or the advisor in the Department for more information.

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus. To qualify for graduation, Environmental Engineering majors must achieve a minimum 2.000 grade point average at CSU in all courses in engineering, mathematics, computer science, statistics, physics, and chemistry as well as courses taken as technical electives.

Minor in Environmental Engineering

The Department of Civil and Environmental Engineering offers a minor in Environmental Engineering to allow engineering undergraduate students to benefit from CSU's abundance of environmental experts. The minor is designed to broaden the academic background of undergraduate engineering students seeking a career in environmental fields, and to provide fundamentals required to pursue a graduate degree in environmental engineering or related fields.

Learning Objectives

Upon successful completion, students will be able to:

1. Identify current environmental issues and controversies in various mediums (water, air, soil, etc.).
2. Apply science and engineering principles to address environmental problems, including non-point source pollution. Design appropriate units for water supply, water and wastewater treatment, solid waste management, air pollution, and noise pollution control using conventional and unconventional methods.
3. Converse with their peers in the Environmental Engineering field using technical language and terminology.

Requirements Effective Spring 2024

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Required Courses		
Select 9 credits from the following:		9
CIVE 330	Ecological Engineering	
CIVE 438	Fundamentals of Environmental Engr ¹	
CIVE 440	Nonpoint Source Pollution	
CIVE 442	Air Quality Engineering	
Elective Courses		
Select 12 credits from the following, of which at least 3 credits must be upper-division:		12

ATS 350	Introduction to Weather and Climate
ATS 351	Introduction to Weather and Climate Lab
BC 351	Principles of Biochemistry
BZ 471	Stream Biology and Ecology
BZ 472	Stream Biology and Ecology Laboratory

Program Total Credits: **21**

¹ Students in the Civil Engineering major cannot use CIVE 438 for credit in the minor.

² May be allowed if not taken as a required course.

Graduate Certificate in Food-Energy-Water Systems (FEWS)

This certificate will provide students with a broad overview of Food-Energy-Water (FEW) nexus issues, an understanding of the science underpinning FEW issues, working knowledge about the tradeoffs amongst sectors and experience analyzing the socio-economic constraints and policy limitations incumbent on solutions to FEWS challenges. The certificate will equip students with transdisciplinary and systems thinking skills that advance capacity to assess and solve complex FEWS issues.

Learning Objectives

Students who obtain the Graduate Certificate in FEWS will develop:

- 1. Capacity to explain and critically analyze issues related to each food, energy, and water systems and the connections between those systems;
- 2. Capacity to understand and consider tradeoffs and interconnections among FEW sectors in semi-arid regions with scarce water resources;
- 3. Capacity to synthesize broad, integrated perspectives on the interactions among natural and built infrastructure and socioeconomic and policy considerations, including social and environmental justice and public health outcomes;
- 4. Ability to communicate across disciplines and understand jargon, perspectives, and the conceptual frameworks used outside of their core discipline;
- 5. Skills to apply systems thinking tools improve understanding of complex food, energy, water problems.

Requirements Effective Fall 2024

Additional coursework may be required due to prerequisites.

Program Total Credits:		9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Hydraulic Design

This certificate will give students an introduction to applied hydraulic design concepts and practices with this three-course series that instills the key core competencies and skills needed to practice as a hydraulic engineer. Students learn how, and why, to apply aspects of hydraulic structures. This certificate program prepares engineers or other professionals in the water, energy, or environmental resources to lead hydraulic design projects from concept creation to implementation. Whenever water must be managed, moved or stored, some form of hydraulic design is required to facilitate these processes.

Learning Objectives

Upon successful completion, students will be able to:

- 1. Relate the definition, application, and essential importance of hydraulic engineering to the completion of many civil & environmental engineering projects.
- 2. Extend hydraulic-engineering knowledge substantially beyond the baccalaureate level.
- 3. Describe the roles of various hydraulic structures and systems.
- 4. Explain the main hydraulics processes associated with the performance of hydraulic structures and systems.
- 5. Choose pertinent instrumentation and methods for measuring and monitoring the hydraulics processes associated with hydraulic structures and systems.

6. Gain an advanced-level understanding of key concepts and tool sets required in hydraulic engineering as applied in the development of many engineering projects.

Requirements Effective Fall 2023

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Select 9 credits from the following:		9
CIVE 511	Coastal Engineering	
CIVE 512	Irrigation Systems Design	
CIVE 513	Morphodynamic Modeling	
CIVE 514	Hydraulic Structures/Systems	
CIVE 556	Slope Stability, Seepage, and Earth Dams	
CIVE 571	Pipeline Engineering and Hydraulics	
CIVE 612	Open Channel Flow	
CIVE 613	River Restoration Design	
Program Total Credits:		9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Tailings Engineering

This certificate will give students an introduction to tailings and mine waste concepts and practices with this four-course series that instills key core competencies and skills needed to practice as a tailings engineer. Students learn how, and why, to apply aspects of tailings engineering. This certificate program prepares engineers or other professionals in the geotechnical and geoenvironmental engineering needed to practice the environmental stewardship of mine waste from planning through implementation to post closure.

Learning Objectives

Upon successful completion, students will be able to:

1. Identify fundamental components tailings management.
2. Define fundamental properties of tailings and mine waste that govern engineering behavior.
3. Analyze engineering performance of tailings and mine waste storage facilities.
4. Assess strength, volume change, and fluid flow behavior of tailings.
5. Collaborate on environmental, social, and governance (ESG) aspects of tailings management.

Program Requirements Effective Fall 2023

Additional coursework may be required due to prerequisites.

Code	Title	Credits

Select 3 courses from the following:		9
CIVE 556	Slope Stability, Seepage, and Earth Dams	

CIVE 558	Containment Systems for Waste Disposal
CIVE 559	Special Topics in Geotechnical Engineering
CIVE 655	Advanced Soil Mechanics
CIVE 659	Advanced Topics in Geo-Engineering

Program Total Credits: 12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate program.

Master of Engineering, Plan C, Civil Engineering Specialization

The Master of Engineering, Plan C, Civil Engineering Specialization is a non-research oriented degree program focused on enhancing the expertise of civil and environmental engineering professionals. The degree also provides an opportunity for practicing engineers to upgrade their technical skills and learn new skills. The M.E. degree is based entirely on coursework and offers flexibility for designing a program of study consisting of courses in civil and environmental engineering in addition to credits in other departments which are in the student's area of interest.

Requirements Effective Summer 2015

Code	Title	Credits
Courses		
Required Courses ¹		9
CIVE Courses		12-15

Electives		6-9
Program Total Credits:		30

A minimum of 30 credits are required to complete this program.

¹ Select courses with approval of advisor and graduate committee.

Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees in the Graduate and Professional Bulletin.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration

3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/ Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/ dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Electrical and Computer Engineering (ECE)

ECE 101 Foundations in ECE Credit: 1 (1-0-0)

Course Description: Introduction to the field of Electrical and Computer Engineering, including exploration of the diversity of technical areas, application of the engineering method, and investigation of a range of potential careers. Hands-on application of technical concepts through completion of an Arduino-based project.

Prerequisite: None.

Restrictions: Must not be a: Junior, Senior. Must be a: Undergraduate.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 102 Digital Circuit Logic Credits: 4 (3-2-0)

Course Description: Fundamentals of digital circuit logic, including Boolean algebra; Karnaugh maps; multiplexers, decoders, ROMs, PLAS, flip-flops, counters; sequential networks; and state tables.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ECE 103 DC Circuit Analysis Credits: 3 (2-2-0)

Course Description: Basic DC circuit analysis, including the use of relevant software to solve problems and analyze results from projects.

Prerequisite: MATH 159 with a minimum grade of C or MATH 160 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ECE 202 Circuit Theory Applications Credits: 4 (3-3-0)

Course Description: Basic circuit analysis techniques and applications to engineering design problems.

Prerequisite: ECE 103 with a minimum grade of C and MATH 161 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

ECE 204 Introduction to Electrical Engineering Credits: 3 (3-0-0)

Course Description: Basic analog and digital circuits and systems; introduction to electromechanical devices.

Prerequisite: MATH 161 and PH 142.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 232 Introduction to Project Practices Credit: 1 (1-0-0)

Course Description: Development of project skills and professionalism within the electrical and computer engineering (ECE) discipline through individual and group project work guided by ECE industry leaders.

Prerequisite: ECE 202, may be taken concurrently or ECE 395B, may be taken concurrently or ECE 495B, may be taken concurrently.

Registration Information: Credit not allowed for both ECE 232 and ECE 280A1.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 251 Introduction to Microcontrollers and IoT Credits: 4 (3-3-0)

Course Description: Microprocessor organization, Internet of Things (IoT) platforms, microprocessor coding using C and assembly language, I/O techniques, real-time interfaces, and applications.

Prerequisite: ECE 102 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ECE 303 Introduction to Communications Principles Credits: 3 (3-0-0)

Also Offered As: STAT 303.

Course Description: Basic concepts in design and analysis of communication systems.

Prerequisite: MATH 340, may be taken concurrently and MATH 261 with a minimum grade of C.

Registration Information: Sections may be offered: Online. Credit not allowed for both ECE 303 and STAT 303.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 311 Linear System Analysis I Credits: 3 (3-0-0)

Course Description: Continuous and discrete time signals and systems representations in time and frequency domain; time convolution.

Prerequisite: None.

Registration Information: (ECE 202 with a minimum grade of C; ECE 331 or concurrent registration; ECE 341 or concurrent registration; MATH 340 with a minimum grade of C) or (ECE 202 with a minimum grade of C; MATH 340 with a minimum grade of C and (CS 356 or concurrent registration) or ECE 451 or concurrent registration or ECE 528 or concurrent registration).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 312 Linear System Analysis II Credits: 3 (3-0-0)

Course Description: Laplace and Z transforms, applications to modulation, filtering and sampling, state space representation.

Prerequisite: ECE 311 with a minimum grade of C.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 331 Electronics Principles I Credits: 4 (3-3-0)

Course Description: Discrete component semiconductor devices, characteristics and applications. Rectifier circuits, single-stage and multi-stage amplifiers.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory.

(ECE 202 with a minimum grade of C; ECE 311, may be taken concurrently; ECE 341, may be taken concurrently; MATH 340 with a minimum grade of C; PH 142 with a minimum grade of C) or (ECE 202 with a minimum grade of C; ECE 311, may be taken concurrently; MATH 340 with a minimum grade of C; PH 142 with a minimum grade of C; CS 356, may be taken concurrently or ECE 451, may be taken concurrently or ECE 528, may be taken concurrently).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

ECE 332 Electronics Principles II Credits: 4 (3-3-0)

Course Description: Discrete and integrated-circuit amplifiers-frequency response, negative feedback.

Prerequisite: ECE 331 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ECE 340 Electromagnetics for Computer Engineering Credits: 3 (3-0-0)

Course Description: Fundamentals of electromagnetic theory for computer engineering; applications of electromagnetics in VLSI design, silicon photonics, radar, antenna, and communication; vector analysis; static electromagnetic fields; boundary conditions; time-varying electromagnetic field; Maxwell's equations; connection between circuit theory and electromagnetics; waveguides, and fiber optics.

Prerequisite: ECE 202 with a minimum grade of C and MATH 161 with a minimum grade of C.

Registration Information: Junior standing. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 341 Electromagnetic Fields and Devices I Credits: 3 (3-0-0)

Course Description: Basic concepts of electrostatic and magnetostatic fields.

Prerequisite: PH 142 with a minimum grade of C and MATH 340 with a minimum grade of C and ECE 202 with a minimum grade of C and ECE 311, may be taken concurrently and ECE 331, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 342 Electromagnetic Fields and Devices II Credits: 3 (3-0-0)

Course Description: Basic concepts of time varying electromagnetic fields and transmission lines.

Prerequisite: ECE 341 with a minimum grade of C.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 395A Independent Study Credits: Var[1-6] (0-0-0)

Course Description: Development and implementation of a project in an Electrical and Computer Engineering field of special interest under the supervision of a faculty member.

Prerequisite: None.

Registration Information: Contact department for registration. May be taken up to 6 times for credit.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ECE 395B Independent Study: Open Option Project Credits: Var[1-6] (0-0-0)

Course Description: Students will work on an array of different electrical and computer engineering projects independently or under the guidance of industry mentors. Projects will be initiated by students or outside sources and will consist of small-scale service/outreach projects or market-driven projects that simulate a business environment.

Prerequisite: None.

Registration Information: Contact department for registration. May be taken up to 6 times for credit.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

ECE 395C Independent Study : Vertically Integrated Project Credits: Var[1-6] (0-0-0)

Course Description: Explore and develop comprehensive applications of electrical and computer engineering technologies as a member of a team, especially as they relate to active research areas of CSU faculty members.

Prerequisite: None.

Registration Information: Contact department for registration. May be taken up to 6 times for credit.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

ECE 401 Senior Design Project I Credits: 3 (1-4-0)

Course Description: Advanced project, seminar series, formal written report, and oral presentation.

Prerequisite: None.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Must register for lecture and laboratory. (ECE 232 with a minimum grade of C; ECE 312 with a minimum grade of C or (PH 314 with a minimum grade of C and PH 353 with a minimum grade of C); ECE 332 with a minimum grade of C; ECE 342 with a minimum grade of C) or (ECE 232 with a minimum grade of C; ECE 311 with a minimum grade of C; 4 courses from the following: CS 356, ECE 312 with a minimum grade of C, ECE 331 with a minimum grade of C, ECE 332 with a minimum grade of C, ECE 450 and ECE 451, ECE 452, ECE 456, ECE 528).

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ECE 402 Senior Design Project II Credits: 3 (1-4-0)

Course Description: Advanced project, formal report, and oral presentation.

Prerequisite: ECE 401.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

ECE 403 Intro to Optical Techniques in Biomedical Eng Credits: 3 (3-0-0)

Also Offered As: BIOM 403.

Course Description: Engineering design principles of optical characterization techniques for biomedical systems, including optical spectroscopy and microscopy of biomolecules and tissues.

Prerequisite: CHEM 111 and PH 142 with a minimum grade of C.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: BIOM 403, BIOM 481A3, ECE 403, or ECE 481A3.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 404 Experiments in Optical Electronics Credits: 2 (1-3-0)

Course Description: Experiments in optical electronics and lasers.

Prerequisite: None.

Registration Information: Must have concurrent registration in ECE 441. Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 411 Control Systems Credits: 3 (3-0-0)

Course Description: Control system analysis and design for linear systems: stability and performance; time and frequency domain techniques.

Prerequisite: ECE 312 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 412 Digital Control and Digital Filters Credits: 3 (3-0-0)

Course Description: FIR and IIR digital filter design, analog and digital invariance and direct digital control algorithms, hybrid systems analysis.

Prerequisite: ECE 411.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 415 Semiconductor Physics and Junctions Credits: 2 (2-0-0)

Course Description: The fundamental physics of semiconductor band structure and of the modifications that occur by doping. These fundamental concepts allow for developing the model of a pn junction diode, which is the basic unit of electronic devices.

Prerequisite: (MATH 340 with a minimum grade of C or MATH 345 with a minimum grade of C) and (PH 142 with a minimum grade of C).

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Credit allowed for only one of the following: ECE 415, ECE 471A, or ECE 471B.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 421 Telecommunications I Credits: 3 (3-0-0)

Course Description: Digital communication (source coding; modulation and detection; channel coding), analog communication (modulation).

Prerequisite: (ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C) and (ECE 312 with a minimum grade of C).

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 430 Fourier and Wavelet Analysis with Apps Credits: 3 (3-0-0)

Also Offered As: MATH 430.

Course Description: Fourier analysis and transforms, FFTs; sampling theorems, computational algorithms; wavelets; applications to communication, imaging, and compression.

Prerequisite: MATH 340 or MATH 345.

Registration Information: Credit not allowed for both ECE 430 and MATH 430.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 431 Biomedical Signal and Image Processing Credits: 3 (3-0-0)

Also Offered As: BIOM 431.

Course Description: Principles, features and mathematical processing of biomedical signals and images including interference and noise filtering and feature enhancement.

Prerequisite: (ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C) and (ECE 311 with a minimum grade of C and PH 142 with a minimum grade of C).

Registration Information: Sections may be offered: Online. Credit not allowed for both BIOM 431 and ECE 431.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 441 Optical Electronics Credits: 3 (3-0-0)

Course Description: Concepts of modern physics, optical properties of atoms, light sources, lasers, optical detectors, optical cavities, and optical fiber transmission.

Prerequisite: ECE 340 with a minimum grade of C or ECE 342 with a minimum grade of C.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 444 Antennas and Radiation Credits: 3 (3-0-0)

Course Description: Retarded potential theory, antenna arrays, long wire antennas, dipoles, aperture antennas, receiving antennas.

Prerequisite: ECE 340 with a minimum grade of C or ECE 342 with a minimum grade of C.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 445 Digital Logic Synthesis Credits: 3 (3-0-0)

Course Description: Application of a top-down design methodology to optimize circuits to achieve better power, performance, timing, and area. Advanced concepts in logic optimization, simulation and testing, and synchronous and asynchronous circuits, as well as a comprehensive review of high-level hardware description languages and the extraction of gate-level circuits from these representations.

Prerequisite: ECE 102 with a minimum grade of C.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit not allowed for both ECE 445 and ECE 480A4.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 450 Digital System Design Laboratory Credit: 1 (0-3-0)

Course Description: Small digital circuits are designed and simulated using very high speed hardware description language and synthesis tools.

Prerequisite: None.

Registration Information: Must have concurrent registration in ECE 451.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 451 Digital System Design Credits: 3 (3-0-0)

Course Description: State machines with PLAs as controllers and small computers; timing and race elimination considerations; state and microprogramming implementation.

Prerequisite: ECE 102 with a minimum grade of C and ECE 202 with a minimum grade of C.

Registration Information: Concurrent registration in ECE 450.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 452 Computer Organization and Architecture Credits: 3 (3-0-0)

Course Description: CPU design; microarchitecture; data path and control path; pipelining; memory system; I/O system; program optimization by system software/hardware.

Prerequisite: CS 250 with a minimum grade of C or CS 270 with a minimum grade of C or ECE 251 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 455 Introduction to Robot Programming/Simulation Credits: 3 (3-0-0)

Course Description: Fundamentals of simulating and programming of workcells that include robots and other articulated objects.

Prerequisite: CS 152 with a minimum grade of C or CS 162 with a minimum grade of C or CS 163 with a minimum grade of C or CS 164 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 456 Computer Networks Credits: 4 (3-3-0)

Course Description: Circuit/packet switching, protocols, LAN/MAN, TCP/IP, error correction, wireless LANS, mobile networks.

Prerequisite: (CS 152 with a minimum grade of C or CS 162 with a minimum grade of C or CS 163 with a minimum grade of C or CS 164 with a minimum grade of C) and (ECE 251 with a minimum grade of C) and (ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C) and (ECE 311 with a minimum grade of C).

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 457 Fourier Optics Credits: 3 (3-0-0)

Course Description: Introduction to optical systems for signal and information processing with emphasis on Fourier optics.

Prerequisite: ECE 311 with a minimum grade of C and ECE 342 with a minimum grade of C.

Registration Information: Sections may be offered: Online. Credit not allowed for both ECE 457 and ECE 502.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 461 Power Systems Credits: 4 (3-2-0)

Course Description: Multi-phase power systems; power generation, transformer design, power distribution, power costs.

Prerequisite: ECE 332 with a minimum grade of C.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Must register for lecture and laboratory.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 465 Electrical Energy Generation Technologies Credits: 3 (3-0-0)

Course Description: Various electrical energy generation alternatives. Comparisons based on cost, reliability, availability and environmental impact.

Prerequisite: ECE 202 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 466 Integrated Lighting Systems Credits: 3 (3-0-0)

Course Description: Technical underpinnings of light sources, their associated heat sink fixtures and power electronics drivers.

Prerequisite: ECE 331.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 495A Independent Study Credits: Var[1-6] (0-0-0)

Course Description: Development and implementation of a project in an electrical and computer engineering field of special interest under the supervision of a faculty member.

Prerequisite: None.

Registration Information: Junior standing. Contact department for registration. May be taken up to 6 times for credit.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

ECE 495B Independent Study: Open Option Project Credits: Var[1-6] (0-0-0)

Course Description: Students will work on an array of different electrical and computer engineering projects independently or under the guidance of industry mentors. Projects will be initiated by students or outside sources and will consist of small-scale service/outreach projects or market-driven projects that simulate a business environment.

Prerequisite: None.

Registration Information: Junior standing. Contact department for registration. May be taken up to 6 times for credit.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

ECE 495C Independent Study: Vertically Integrated Projects Credits: Var[1-6] (0-0-0)

Course Description: Explore and develop comprehensive applications of electrical and computer engineering technologies as a member of a team, especially as they relate to active research areas of CSU faculty members.

Prerequisite: None.

Registration Information: Junior standing. Contact department for registration. May be taken up to 6 times for credit.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

ECE 502 Advanced Fourier Optics Credits: 4 (3-0-1)

Course Description: Introduction to optical systems for signal and information processing with emphasis on Fourier optics. Engineering design principles, models, and computational techniques for forward optical imaging and optical image reconstruction.

Prerequisite: ECE 311 with a minimum grade of C and ECE 342 with a minimum grade of C and MATH 340 with a minimum grade of C.

Registration Information: Junior standing. Must register for lecture and recitation. Sections may be offered: Online. Credit not allowed for both ECE 457 and ECE 502.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 503 Ultrafast Optics Credits: 3 (3-0-0)

Course Description: Principles and theory behind ultrashort pulse generation, amplification, and manipulation.

Prerequisite: (ECE 341) and (ECE 342 or ECE 343).

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 504 Physical Optics Credits: 3 (3-0-0)

Course Description: Classical optics from first principles; basic electromagnetic theory to wave and geometric guides.

Prerequisite: ECE 342 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 505 Nanostructures Fundamentals and Applications Credits: 3 (3-0-0)

Course Description: Fundamentals of quantum confinement; nanostructures optical properties; fabrication and characterization.

Prerequisite: ECE 342 with a minimum grade of C and PH 353.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Sections may be offered: Online.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 506 Optical Interferometry and Laser Metrology Credits: 3 (3-0-0)

Course Description: High resolution metrology techniques utilizing and interferometric sensors using lasers and other light sources.

Prerequisite: ECE 342 and ECE 441.

Registration Information: Sections may be offered: Online.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 507 Plasma Physics and Applications Credits: 3 (3-0-0)

Course Description: Fundamental principles and industrial applications of plasmas.

Prerequisite: ECE 342.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 512 Digital Signal Processing Credits: 3 (3-0-0)

Course Description: Discrete time signals and systems, digital filter design and implementation, fast algorithms, quantization effects.

Prerequisite: ECE 312 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 513 Digital Image Processing Credits: 3 (3-0-0)

Course Description: Image acquisition and display systems, image enhancement, restoration and encoding, image analysis; real-life applications.

Prerequisite: (ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C) and (ECE 312 with a minimum grade of C).

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 514 Applications of Random Processes Credits: 3 (3-0-0)

Course Description: Bit-error rates, signal-to-noise power ratios, signal detection, signal estimation, Wiener filters, and applications of these concepts in electrical and computer engineering.

Prerequisite: (ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C) and (ECE 312 with a minimum grade of C).

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 516 Information Theory Credits: 3 (3-0-0)

Course Description: Information measures and their properties; lossless data compression; channel capacity; channel coding theorem; rate distortion theorem.

Prerequisite: (ECE 303 or STAT 303) and (ECE 421).

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 517 Advanced Optical Imaging Credits: 3 (3-0-0)

Also Offered As: BIOM 517.

Course Description: Engineering design principles of advanced optical imaging techniques and image formation theory.

Prerequisite: ECE 342 with a minimum grade of C or MATH 340 with a minimum grade of C or MATH 345 with a minimum grade of C.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: BIOM 517, BIOM 581B7, ECE 517 or ECE 581B7.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 518 Biophotonics Credits: 3 (3-0-0)

Also Offered As: BIOM 518.

Course Description: Engineering design principles of optical instrumentation for medical diagnostics. Light propagation and imaging in biological tissues.

Prerequisite: ECE 342 with a minimum grade of C or ECE 457 with a minimum grade of C or MATH 340 with a minimum grade of C or MATH 345 with a minimum grade of C.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: BIOM 518, BIOM 581A9, ECE 518 or ECE 581A9.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 519 Network Centric Systems Credits: 3 (2-3-0)

Course Description: Network science concepts, fundamentals of network-centric systems, and case studies.

Prerequisite: (CS 165 with a minimum grade of C) and (DSCI 369 with a minimum grade of C or ECE 303 with a minimum grade of C or ECE 312 with a minimum grade of C or ECE 421 with a minimum grade of C or ECE 456 with a minimum grade of C or MATH 369 with a minimum grade of C or STAT 303 with a minimum grade of C).

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Senior standing. Must register for lecture and laboratory. Sections may be offered: Online. Credit not allowed for both ECE 519 and ECE 581B8.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 520 Optimization Methods--Control and Comm. Credits: 3 (3-0-0)

Course Description: Linear and nonlinear optimization theory and methods; applications in systems, control, and communication.

Prerequisite: (DSCI 369 or MATH 369) and (MATH 317).

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 521 Satellite Communication Credits: 3 (3-0-0)

Course Description: Principles of satellite communication systems engineering.

Prerequisite: ECE 421.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 522 Random Walks Credits: 3 (3-0-0)**Also Offered As:** MATH 522.**Course Description:** Mathematical aspects of random walks and diffusion processes. Stochastic modeling of complex systems.**Prerequisite:** (ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C or STAT 315 with a minimum grade of C) and (ECE 312 with a minimum grade of C or ECE 457 with a minimum grade of C or MATH 469 with a minimum grade of C).**Restriction:** Must not be a: Freshman, Sophomore.**Registration Information:** Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: ECE 522, ECE 681A2, and MATH 522.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 526 Biological Physics Credits: 3 (3-0-0)****Also Offered As:** BIOM 526.**Course Description:** Mathematical and physical modeling of biological systems. Mass transport in cellular environments. Electrical/mechanical properties of biomolecules.**Prerequisite:** (MATH 340 or MATH 345) and (PH 122 or PH 142).**Restriction:** Must not be a: Freshman, Sophomore.**Registration Information:** Credit not allowed for both BIOM 526 and ECE 526. Sections may be offered: Online.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 527A Biosensing: Cells as Circuits Credit: 1 (1-0-0)****Also Offered As:** BIOM 527A.**Course Description:** Treatment of biological cells as circuits and their electrical time-dependent function and frequency-dependent impedance. Topics include the Hodgkin–Huxley circuit model, diffusion equation, and modeling action potential propagation.**Prerequisite:** (BIOM 101 or LIFE 102) and (CHEM 111) and (MATH 340 or MATH 345) and (PH 142).**Registration Information:** Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527A, BIOM 581B1, ECE 527A, or ECE 581B1.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 527B Biosensing: Signal and Noise in Biosensors Credit: 1 (1-0-0)****Also Offered As:** BIOM 527B.**Course Description:** Quantitative treatment of concepts of noise, interference and signal including noise types and spectra, filtering, and limitations imposed by noise. Example applications to Biosensors.**Prerequisite:** (MATH 340, may be taken concurrently or MATH 345, may be taken concurrently) and (PH 142).**Registration Information:** Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527B, BIOM 581B2, ECE 527B, or ECE 581B2.**Term Offered:** Spring (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 527C Biosensing: Sensor Circuit Fundamentals Credit: 1 (1-0-0)****Also Offered As:** BIOM 527C.**Course Description:** Introduction to circuit concepts used in sensors, including review of basic circuit elements of resistors, capacitors, and MOS (Metal-Oxide-Semiconductor transistors) elements. Fundamentals of the application of MOS circuits for signal conditioning and amplification and how sensor's backend signal processing is carried out after the sensor signal transduction stage.**Prerequisite:** (BIOM 101 or LIFE 102) and (MATH 340, may be taken concurrently or MATH 345, may be taken concurrently) and (PH 142).**Registration Information:** Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527C, BIOM 581B3, ECE 527C, or ECE 581B3.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 527D Biosensing: Electrochemical Sensors Credit: 1 (1-0-0)****Also Offered As:** BIOM 527D.**Course Description:** Introduction to the electrochemistry, and applications of electrochemical methods, used for detection of certain classes of chemicals and molecules.**Prerequisite:** (BIOM 101 or LIFE 102) and (CHEM 111) and (MATH 255 or MATH 261) and (PH 142).**Registration Information:** Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527D, BIOM 581B5, ECE 527D, or ECE 581B5.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 527E Biosensing: Affinity Sensors Credit: 1 (1-0-0)****Also Offered As:** BIOM 527E.**Course Description:** Fundamentals of affinity sensor application and design, including optical and electrical approaches and technologies.**Prerequisite:** (BIOM 101 or LIFE 102) and (CHEM 111) and (MATH 340, may be taken concurrently or MATH 345, may be taken concurrently) and (PH 142).**Registration Information:** Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527E, BIOM 581B4, ECE 527E, or ECE 581B4.**Term Offered:** Spring (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 527F Biosensing: Biophotonic Sensors Using Refractive Index Credit: 1 (1-0-0)****Also Offered As:** BIOM 527F.**Course Description:** Operating principles of optical biosensors based on changes in refractive index, such as thin films, ring-resonators, Mach-Zehnder interferometers, and other evanescent wave sensors. Basic supporting optical concepts, including thin-film interference, optical waveguides and evanescent waves.**Prerequisite:** (BIOM 527E or ECE 527E) and (MATH 340, may be taken concurrently or MATH 345, may be taken concurrently) and (PH 142).**Registration Information:** Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527F, BIOM 581B6, ECE 527F, or ECE 581B6.**Term Offered:** Spring (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.

ECE 528 Embedded Systems and Machine Learning Credits: 4 (3-2-0)**Also Offered As:** CS 528.**Course Description:** Machine learning for embedded computing systems; hardware/software optimizations for machine learning; hardware accelerators for deep learning; data reuse and sharing techniques; memory and network design for machine learning acceleration; anomaly detection and adversarial learning; advanced applications of machine learning in embedded applications.**Prerequisite:** CS 250 with a minimum grade of C or CS 270 with a minimum grade of C or ECE 251 with a minimum grade of C.**Restriction:** Must not be a: Freshman, Sophomore.**Registration Information:** Junior standing. Must register for lecture and laboratory. Sections may be offered: Online. Credit allowed for only one of the following: CS 528, CS 581C1, ECE 528, or ECE 581C1.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 532 Dynamics of Complex Engineering Systems Credits: 3 (3-0-0)****Also Offered As:** SYSE 532.**Course Description:** Higher-level behavior and issues that emerge from interaction between components in complex socio-technical systems.**Prerequisite:** ECE 501, may be taken concurrently or ENGR 501, may be taken concurrently or SYSE 501, may be taken concurrently.**Registration Information:** Sections may be offered: Online. Credit allowed for only one of the following: ECE 532, ENGR 532, or SYSE 532.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 534 Analog Integrated Circuit Design Credits: 4 (3-2-0)****Course Description:** Design methods for state-of-the-art analog integrated circuits including CMOS op-amps, comparators, and phase-locked loops.**Prerequisite:** ECE 332 with a minimum grade of C.**Restriction:** Must not be a: Freshman, Sophomore.**Registration Information:** Junior standing. Must register for lecture and laboratory.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 536 RF Integrated Circuit Design Credits: 3 (3-0-0)****Course Description:** Design of state-of-the-art ICs for RF applications including CMOS low-noise amplifiers, voltage-controlled oscillators, mixers and power amplifiers.**Prerequisite:** ECE 332.**Registration Information:** Sections may be offered: Online.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 537 Biomedical Signal Processing Credits: 3 (3-0-0)****Also Offered As:** BIOM 537.**Course Description:** Modeling and classification of biosignals (e.g. EEG, ECG, EMG), covering adaptive filtering, wavelets, support vector machines, neural networks, and handling problems with overfitting of noisy data.**Prerequisite:** ECE 303 or ECE 311 or MATH 340 or STAT 303.**Registration Information:** Sections may be offered: Online. Credit not allowed for both BIOM 537 and ECE 537.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 538 Design/Analysis of Analog Digital Interface Credits: 4 (3-3-0)****Course Description:** Topics of interface circuit designs analog and digital interfaces. Basic concept of designing and analyzing analog and digital interface circuits.**Prerequisite:** ECE 312 with a minimum grade of C and ECE 332 with a minimum grade of C and ECE 451 with a minimum grade of C.**Restriction:** Must not be a: Freshman, Sophomore.**Registration Information:** Must register for lecture and laboratory.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 540 Computational Electromagnetics Credits: 3 (3-0-0)****Course Description:** Computational techniques for practical applications in electromagnetic fields, devices, scattering, propagation, and radiation.**Prerequisite:** ECE 340 with a minimum grade of C or ECE 342 with a minimum grade of C.**Restriction:** Must not be a: Freshman, Sophomore.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 541 Applied Electromagnetics Credits: 3 (3-0-0)****Course Description:** High- and low-frequency electromagnetics, wave propagation, radiation, and scattering, wireless and guided-wave systems, bioelectromagnetics.**Prerequisite:** ECE 340 with a minimum grade of C or ECE 342 with a minimum grade of C.**Restriction:** Must not be a: Freshman, Sophomore.**Registration Information:** Credit not allowed for both ECE 541 and ECE 580B5.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 544 Silicon Photonics for Computing Systems Credits: 3 (3-0-0)****Course Description:** Introduction to the modeling, analysis, design, and applications of silicon photonic devices and circuits.**Prerequisite:** (PH 141) and (ECE 303 with a minimum grade of C or STAT 301 with a minimum grade of C or STAT 303 with a minimum grade of C or STAT 315 with a minimum grade of C).**Restriction:** Must not be a: Freshman, Sophomore.**Registration Information:** Junior standing. Sections may be offered: Online. Credit not allowed for both ECE 544 and ECE 580B6.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 545 FPGA Signal Processing/Software-Defined Radio Credits: 3 (3-0-0)****Course Description:** Theory, design principles, and implementation of digital signal processing algorithms on Field Programmable Gate Array (FPGA) devices, and their applications, ranging from telecommunications to scientific equipment.**Prerequisite:** ECE 312 with a minimum grade of C and ECE 451 with a minimum grade of C.**Registration Information:** Sections may be offered: Online. Credit not allowed for both ECE 545 and ECE 580B4.**Grade Mode:** Traditional.**Special Course Fee:** No.

ECE 546 Laser Fundamentals and Devices Credits: 3 (3-0-0)

Course Description: Amplification of light, laser excitation mechanisms, laser devices, characteristics and design.

Prerequisite: ECE 441.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 548 Microwave Theory and Component Design Credits: 3 (3-0-0)

Course Description: Fundamentals of microwave engineering, components, devices, and measurements.

Prerequisite: ECE 342 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 549 Radar Systems and Design Credits: 3 (3-0-0)

Course Description: Fundamental ideas of radar operation and basic design of various radar types including current topics.

Prerequisite: ECE 340 with a minimum grade of C or ECE 342 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 554 Computer Architecture Credits: 3 (3-0-0)

Course Description: Fundamentals of computer design, multiprocessors and thread-level parallelism, storage systems, and interconnection networks and clusters.

Prerequisite: ECE 452 or CS 470.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 555 Advanced Robotics—Redundancy & Optimization Credits: 3 (3-0-0)

Course Description: Advanced analysis, design, and control of kinematically redundant articulated objects, including both robotic and biological systems.

Prerequisite: (ECE 455) and (DSCI 369 or MATH 369).

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 556 AI for Radar and Remote Sensing Credits: 3 (3-0-0)

Course Description: Radar and remote sensing using techniques from artificial intelligence (AI) and data science, with applications to areas such as precipitation observation, identification, classification, estimation, and prediction.

Prerequisite: (CS 152 with a minimum grade of C or CS 162 with a minimum grade of C or CS 163 with a minimum grade of C or CS 164 with a minimum grade of C) and (ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C) and (DSCI 369 with a minimum grade of C or MATH 369 with a minimum grade of C).

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit not allowed for both ECE 556 and ECE 580C3.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 558 Manycore System Design Using Machine Learning Credits: 3 (3-0-0)

Course Description: Fundamentals of manycore system design and electronic design automation (EDA). Design problems created by increased complexity and specialization of modern manycore systems and an exploration of traditional solutions, their deficiencies, and how machine learning can be utilized to address these problems.

Prerequisite: CS 470 with a minimum grade of C or ECE 452 with a minimum grade of C.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit not allowed for both ECE 558 and ECE 580B9.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 560 Foundations of Fine-Grain Parallelism Credits: 4 (3-2-0)

Also Offered As: CS 560.

Prerequisite: CS 475.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 561 Hardware/Software Design of Embedded Systems Credits: 4 (3-3-0)

Also Offered As: CS 561.

Course Description: Embedded systems design including system level modeling, design space exploration, hardware-software partitioning, high level synthesis.

Prerequisite: CS 250 with a minimum grade of C or CS 270 with a minimum grade of C or CS 470 or ECE 251 with a minimum grade of C or ECE 452.

Registration Information: Must register for lecture and laboratory. Credit not allowed for both CS 561 and ECE 561. Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 562 Power Electronics I Credits: 3 (3-0-0)

Course Description: Switch mode and resonant converters, control using switch averaged dynamic models, modeling of all circuit components including sources, loads, and switches.

Prerequisite: ECE 332 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 565 Electrical Power Engineering Credits: 3 (3-0-0)

Also Offered As: ENGR 565.

Course Description: Analysis of power systems in terms of current, voltage, and active/reactive power; introduction of computer-aided tools for power systems.

Prerequisite: (ECE 332 with a minimum grade of C) and (ECE 340 with a minimum grade of C or ECE 342 with a minimum grade of C).

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Sections may be offered: Online. Credit not allowed for both ECE 565 and ENGR 565.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 566 Grid Integration of Wind Energy Systems Credits: 3 (3-0-0)

Course Description: Aspects of integration of wind energy conversion systems (WECS) to electric power transmission grids.

Prerequisite: ECE 461 or ECE 565.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Sections may be offered: Online. Credit not allowed for both ECE 566 and ENGR 566.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 569 Micro-Electro-Mechanical Devices Credits: 3 (3-0-0)

Also Offered As: MECH 569.

Course Description: Micro-electro-mechanical processes and applications in sensors, optics, and structures.

Prerequisite: ECE 331 with a minimum grade of C or MECH 344 with a minimum grade of C.

Registration Information: Credit not allowed for both ECE 569 and MECH 569. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 571 VLSI System Design Credits: 4 (3-2-0)

Course Description: Design of integrated circuits at the system level, including cell design, digital systems, parallel architecture, and systolic arrays.

Prerequisite: ECE 450 and ECE 451.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 572 Semiconductor Transistors Credit: 1 (1-0-0)

Course Description: Quantitative analysis of electric field, carrier and current distributions in MOSFETs and bipolar junction transistors; scaling, non-idealities.

Prerequisite: (ECE 331 with a minimum grade of C) and (ECE 415, may be taken concurrently or ECE 471B).

Registration Information: This is a partial semester course.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 573 Semiconductor Optoelectronics Laboratory Credits: 3 (1-4-0)

Course Description: Experimental characterization techniques for semiconductor optoelectronic devices and design and testing of related electronic circuits.

Prerequisite: ECE 415.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Must register for lecture and laboratory.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 574 Optical Properties in Solids Credits: 3 (3-0-0)

Course Description: Light propagation and interaction with materials; linear and non-linear optical properties.

Prerequisite: ECE 441 with a minimum grade of C.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 578 Satellite Data Analysis Credits: 3 (3-0-0)

Course Description: Broad exposure to a variety of traditional and modern statistical methods for filtering and analyzing satellite data and imagery. Topics include fundamentals in statistics, time-series analysis, filter design, image processing techniques, spatial analysis of data fields such as principal component analysis, cluster analysis, etc. Solve common data analysis problems in satellite remote sensing.

Prerequisite: (ECE 303 with a minimum grade of C or STAT 301 with a minimum grade of C or STAT 303 with a minimum grade of C or STAT 315 with a minimum grade of C) and (ECE 311 with a minimum grade of C).

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 579 Global Navigation Satellite Systems Credits: 3 (3-0-0)

Course Description: Provides a fundamental understanding of Global Navigation Satellite Systems (GNSS), including GNSS satellite constellations, satellite orbits, ground monitoring stations functions, GNSS receivers, GNSS measurement errors and correction techniques, recent advancements in GPS and other international GNSS, and applications of GNSS. Learn to use a variety of GNSS receivers to collect data, to compute receiver position, velocity, and time, and to analyze GNSS data.

Prerequisite: (CS 152 with a minimum grade of C or CS 162 with a minimum grade of C or CS 163 with a minimum grade of C or CS 164 with a minimum grade of C) and (ECE 311 with a minimum grade of C and MATH 261 with a minimum grade of C and PH 142 with a minimum grade of C).

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit not allowed for both ECE 579 and ECE 580C5.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 587 Internship Credits: Var[1-6] (0-0-0)

Course Description: Internship experience in Electrical or Computer Engineering.

Prerequisite: ECE 312 or ECE 456.

Registration Information: Graduate standing.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

ECE 604 Nonlinear Optics Credits: 3 (3-0-0)

Course Description: Principles of nonlinear optics, symmetry properties, multiple order nonlinear phenomenon, and nonlinear spectroscopy.

Prerequisite: ECE 504 and PH 451.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 611 Nonlinear Control Systems Credits: 3 (3-0-0)

Course Description: Controller analysis and design for nonlinear systems.

Prerequisite: ECE 412.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 612 Robust Control Systems Credits: 3 (3-0-0)

Course Description: Introduction to modern robust control theory techniques for analysis and design of large-scale uncertain multivariable systems.

Prerequisite: ECE 411.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 614 Principles of Digital Communications Credits: 3 (3-0-0)

Course Description: Information theory, optimal receiver design, waveform coding, error correcting coding.

Prerequisite: ECE 514.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 641 Electromagnetics Credits: 3 (3-0-0)

Course Description: Electrostatics, magnetostatics, boundary value problems, EM induction, quasi-statics, Maxwell's equations.

Prerequisite: ECE 342.

Restriction: Must be a: Graduate, Professional.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 642 Time Harmonic Electromagnetics Credits: 3 (3-0-0)

Course Description: Maxwell's equations, radiation, boundary value problem, dyadic Green's functions, scattering theory.

Prerequisite: ECE 641.

Restriction: Must be a: Graduate, Professional.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 650 Extreme Ultraviolet and Soft X-Ray Radiation Credits: 3 (3-0-0)

Course Description: Fundamental principles of short wavelength electromagnetic radiation.

Prerequisite: ECE 342.

Restriction: Must be a: Graduate, Professional.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 652 Estimation and Filtering Theory Credits: 3 (3-0-0)

Course Description: Linear and Nonlinear parameter and state estimation methods; Optimal Kalman state estimation and applications.

Prerequisite: ECE 514 or STAT 525.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 653 Detection Theory Credits: 3 (3-0-0)

Course Description: Neyman-Pearson and Bayes detectors and properties, matched filter and matched subspace detectors, distributed detection, and applications.

Prerequisite: ECE 652.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both ECE 651 and ECE 653.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 656 Machine Learning and Adaptive Systems Credits: 3 (3-0-0)

Course Description: Adaptive system theory, statistical pattern recognition, supervised and unsupervised learning, support vector machines, manifold learning, applications.

Prerequisite: ECE 512.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 658 Internet Engineering Credits: 4 (3-3-0)

Also Offered As: CS 658.

Course Description: Link technologies, multiple access, hardware and software for internetworks routing, switching flow control, multicast, performance, and applications.

Prerequisite: ECE 456 or CS 457.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online. Credit not allowed for both ECE 658 and CS 658.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 661 Advanced Topics in Embedded Systems Credits: 4 (3-3-0)

Course Description: Embedded systems design: networks on chip, novel memory architectures, synthesis algorithms, optimization for low power, fault tolerance, security.

Prerequisite: (ECE 452) and (ECE 561 or CS 561).

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory.

Sections may be offered: Online.

Grade Mode: Traditional.

Special Course Fee: No.

ECE 666 Topics in Robotics Credits: 3 (3-0-0)

Course Description: Recent advances in robotics, automation, and intelligent systems.

Prerequisite: ECE 455.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

ECE 670B Topics in Architecture/Systems: Performance Evaluation and Modeling Credits: Var[1-4] (0-0-0)**Also Offered As:** CS 670B.**Course Description:****Prerequisite:** ECE 554 or CS 570.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Credit not allowed for both CS 670B and ECE 670B.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 670C Topics in Architecture/Systems: Distributed Systems Credits: Var[1-4] (0-0-0)****Also Offered As:** CS 670C.**Course Description:****Prerequisite:** ECE 554 or CS 570.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Credit not allowed for both CS 670C and ECE 670C.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 670D Topics in Architecture/Systems: Architecture of Advanced Systems Credits: Var[1-4] (0-0-0)****Also Offered As:** CS 670D.**Course Description:****Prerequisite:** ECE 554 or CS 570.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Credit not allowed for both CS 670D and ECE 670D.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 673 Thin Film Growth Credits: 3 (3-0-0)****Course Description:** Microstructures of physically vapor-deposited films; thin-film morphological development; atomistic processes of condensation, nucleation, and growth.**Prerequisite:** CHEM 474 or CHEM 476 or MECH 337 or PH 361 or PH 531.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Online.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 695 Independent Study Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ECE 697 Group Study Credits: Var[1-6] (0-0-0)****Also Offered As:** ENGR 697.**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Credit not allowed for both ECE 697 and ENGR 697.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 699 Thesis Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ECE 742 Topics in Electromagnetics Credits: 3 (3-0-0)****Course Description:** Applications of wave propagation and scattering to microwave radar, Doppler radar, meteorological radar applications.**Prerequisite:** ECE 641.**Restriction:** Must be a: Graduate, Professional.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 752 Topics in Signal Processing Credits: 3 (3-0-0)****Course Description:** Adaptive filtering, spectral estimation, sonar/radar signal processing, and detection/classification schemes.**Prerequisite:** (ECE 512) and (ECE 514 or STAT 525).**Restriction:** Must be a: Graduate, Professional.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 777 X-Ray Lasers Credits: 3 (3-0-0)****Course Description:** Fundamentals, design, and implementation of soft X-ray lasers and X-ray optics.**Prerequisite:** ECE 546.**Restriction:** Must be a: Graduate, Professional.**Grade Mode:** Traditional.**Special Course Fee:** No.**ECE 795 Independent Study Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**ECE 799 Dissertation Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Major in Computer Engineering

From self-driving cars to smart cities, we live in a hyper-connected world. As the smart thinkers behind today's smart devices and systems, computer engineers hold the key to understanding, advancing, and protecting the security of next generation technologies.

A degree in computer engineering from CSU will help you make an impact beyond your computer screen. Affording a big picture view of how technology works, computer engineers look at the interplay between hardware and software to create solutions that benefit society. Have an interest in robotics, artificial intelligence, machine learning, neural networks, or data science? With coursework designed to help you understand, advance, and protect the security of next generation technologies, our professors will arm you with knowledge to drive

innovation, whether creating an elegant device that fits in the palm of your hand or optimizing a colossal system to manage and move data.

While our undergraduate program gives you the option to keep your studies broad, you may also specialize in one of the following concentrations:

- Aerospace Systems
- Embedded and IoT Systems
- Networks and Data

Career Opportunities

A field of endless possibilities, career paths for computer engineers are largely dependent on personal interests. Computer Engineering alumni hold positions such as software engineer for a tech giant, designer for a start-up company, and program manager for NASA. In addition to being one of the most lucrative college majors, Computer Engineering currently ranks among the top 10 majors in demand for bachelor's, master's, and doctoral degrees according to the National Association of Colleges and Employers. Almost every industry recruits computer engineering graduates, including aerospace, biomedical and healthcare, clean energy, robotics, climate science, manufacturing, agriculture, and transportation.

Learning Objectives

The Computer Engineering program educational objectives are designed and implemented around the following three principal attributes: mastery, innovation, and leadership.

Graduates of the Computer Engineering program will be able to:

1. Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.

2. Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. Communicate effectively with a range of audiences.
4. Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. Acquire and apply new knowledge as needed, using appropriate learning strategies.

Requirements Effective Fall 2023

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in Electrical Engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. ECE courses required for the major at the 100, 200, and 300 level must be passed with a minimum grade of C (2.000); grades below a C will require the student to retake the course. ECE courses designated as an elective are exempt from the C or higher minimum grade requirement.

¹ Recommended sequence for most incoming students is Group A: CS 150B to CS 164.

² Students will use 0-14 credits of Group 2 and Group 3 Engineering Electives and 4-20 credits of Technical Electives to reach the required total of 126 program credits.

³ A total of 6 credits of Independent Study may apply toward total degree requirements. This includes credit awarded for ECE 395A, ECE 395B, ECE 395C and ECE 495A, ECE 495B, ECE 495C combined.

Major Completion Map

Distinctive Requirements for Degree Program:

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus.

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering

requires a cumulative grade point average of at least 2.000 in Electrical Engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. ECE courses required for the major at the 100, 200, and 300 level must be passed with a minimum grade of C (2.000); grades below a C will require the student to retake the course. ECE courses designated as an elective are exempt from the C or higher minimum grade requirement.

Major in Computer Engineering, Aerospace Systems Concentration

Aerospace engineering is a broad and dynamic field that centers on the design, construction, and science behind aircraft and spacecraft. Intended for undergraduate computer engineering majors, the aerospace concentration offers students a computer engineering degree foundation and specialized training in the aerospace discipline. Course work will focus on applications of key computer engineering principles in the areas of computer systems, programming, deep-space communications, robotics, flight avionics, and more. These courses will enable and encourage students to solve complex engineering problems in aerospace such as improved safety-critical hardware design, real-time software programming, satellite communications, and remote sensing methods. Computer engineering students concentrating in aerospace will

experience first-hand the necessity of their major in innovating new solutions to support humanity's ascent to the stars.

Requirements Effective Fall 2023

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in Electrical Engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. ECE courses required for the major at the 100, 200, and 300 level must be passed with a minimum grade of C (2.000); grades below a C will require the student to retake the course. Major in Computer Engineering, Embedded and IoT Systems Concentration

Approaching innovation from a holistic perspective is key to advancing our hyper-connected world. The interdisciplinary embedded and IoT computing concentration takes a bird's eye view of computer engineering

to help students understand how electronic devices, software, and networks function together to enable end-to-end solutions. Take a smart home, for example. Rather than designing one aspect of the solution, such as the temperature sensors on a thermostat, this concentration will help students design and optimize software and hardware technologies across the entire spectrum to enable an integrated, smart system. Centering on the science and design of both hardware and software for computing systems across applications ranging from medical imaging

tools to wearable electronic devices, students will work on complex engineering problems such as improving energy-efficiency in mobile devices, integrating artificial intelligence into computing platforms, and developing solutions for reliability and security in safety critical applications. Course work focuses on applications of key computer engineering principles in the areas of computer architecture, embedded systems, internet-of-things (IoT), machine learning, computer security, software algorithms, and more.

requires a cumulative grade point average of at least 2.000 in Electrical Engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. ECE courses required for the major at the 100, 200, and 300 level must be passed with a minimum grade of C (2.000); grades below a C will require the student to retake the course. ECE courses designated as an elective are exempt from the C or higher minimum grade requirement.

¹ Recommended sequence for most incoming students is Group A: CS 150B to CS 164.

² A total of 6 credits of Independent Study may apply toward total degree requirements. This includes credit awarded for ECE 395A, ECE 395B, ECE 395C and ECE 495A, ECE 495B, ECE 495C combined.

³ Course may count as a Technical Elective ONLY when not taken as part of the major requirements. The course cannot count as credit toward both major and technical elective requirements.

Major Completion Map

Distinctive Requirements for Degree Program:

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus.

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in Electrical Engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. ECE courses required for the major at the 100, 200, and 300 level must be passed with a minimum grade of C (2.000); grades below a C will require the student to retake the course. ECE courses designated as an elective are exempt from the C or higher minimum grade requirement.

Major in Computer Engineering, Networks and Data Concentration

Networking is a rapidly evolving field that focuses on the ubiquitous connectivity of people, machines, and things. Whether shopping online, using GPS navigation, or connecting with friends on social media, our online activities are on the rise – and we are straining our technology infrastructure with the mind-boggling amounts of data we generate every day. Combining topics from electrical engineering, computer science, and mathematics, this concentration will teach students how to optimize and bolster network systems that process the ever-growing volume of data we produce through our high-tech gadgets and applications. Experiencing first-hand the innovative technologies that fuel the digital information revolution, students will work on complex engineering problems, such as emerging 5G/6G networks, deep-space communication, Internet of Things, and social networks. The concentration offers an electrical and computer engineering foundation with specialized training in the

networks field. Coursework focuses on applications of key engineering principles in the areas of digital systems, communication systems, robotics, embedded systems, cybersecurity and more.

Requirements Effective Fall 2023

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in Electrical Engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. ECE courses required for the major at the 100, 200, and 300 level must be passed with a minimum grade of C (2.000); grades below a C will require the student to retake the course. ECE courses designated as an elective are exempt from the C or higher minimum grade requirement.

Major in Electrical Engineering

You may think that electrical engineering is magic - and it kind of is. Electrical engineering is filled with daring visionaries and bright minds who engage, imagine, and invent. We are the masters of power, energy, light, and systems that can turn science fiction into living, breathing science. We are the force that connects people and technologies with elegant devices that fit in the palm of your hand and colossal systems that are beyond imagination. Is that magic? Almost. And we'd love to show you how it works.

Students choose between three concentrations. The Electrical Engineering concentration covers a broad range of electrical engineering subdisciplines and allows a student to focus on their particular area of interest using technical electives. The Lasers and Optical Engineering concentration focuses on optics and waves, optical electronics, optical information processing, and communications. The Aerospace concentration offers students an electrical engineering degree foundation and specialized training in the aerospace discipline, including deep-space communications, robotics, embedded systems, flight avionics, and more.

Concentrations

- Aerospace Concentration
- Electrical Engineering Concentration
- Lasers and Optical Engineering Concentration

Career Opportunities

The smarts inside your smart home. The radars and satellites that measure weather and climate. The imaging tools that help physicians

peer inside the human body. Electrical engineering makes it all possible. With a degree in electrical engineering, you will have the skills and knowledge to drive innovation in virtually any field. For more than a decade, electrical engineering has ranked among the top majors in demand across a broad range of industries, according to the National Association of Colleges and Employers. That means your knowledge will allow you to make difference in a fulfilling career, while earning a high paying salary.

Major in Electrical Engineering, Aerospace Concentration

Aerospace engineering is a broad and dynamic field that centers on the design, construction, and science behind aircraft and spacecraft. Intended for undergraduate electrical engineering majors, the aerospace concentration offers students an electrical engineering degree foundation and specialized training in the aerospace discipline. Coursework will focus on applications of key electrical engineering principles in the areas of deep-space communications, robotics, embedded systems, flight avionics, and more. These courses will enable and encourage students to solve complex engineering problems in aerospace such as improved satellite communications, electric propulsion technologies, and remote sensing methods. Electrical engineering students concentrating in aerospace will experience first-hand the necessity of their major in innovating new solutions to support humanity's ascent to the stars.

Learning Objectives

Upon successful completion, students will be able to:

1. Identify, formulate, and solve engineering problems by applying principles of engineering, science, and mathematics.

2. Apply the engineering design process to produce solutions that meet specified needs with consideration for public health and safety, welfare, as well as global, cultural, social, environmental, and economic factors.
3. Communicate effectively with a range of audiences.
4. Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.

7. Acquire and apply new knowledge as needed, using appropriate learning strategies.

Requirements

Effective Fall 2023

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in ECE courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. In addition, ECE courses required for the major at the 100, 200, and 300 level must be passed with a minimum grade of C (2.000); grades below a C will require the student to retake the course. ECE courses designated as an elective are exempt from the C or higher minimum grade requirement.

Major Completion Map

Distinctive Requirements for Degree Program:

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus.

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in electrical engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. ECE courses required for the

major at the 100, 200, and 300 level must be passed with a minimum grade of C (2.000); grades below a C will require the student to retake the

course. ECE courses designated as an elective are exempt from the C or higher minimum grade requirement.

Major in Electrical Engineering, Electrical Engineering Concentration

Electrical engineering is a broad discipline that is essential to our everyday lives. Our professors will teach students to think like an engineer to drive what's next in technology and create a better world for all, from advanced medical devices to self-driving cars to smart homes.

Our students are imaginative and inventive and love the thrill of problem-solving. Whether working on a senior design project that satisfies real customer requirements to participating in a day-long hacker competition, students will have the opportunity to turn their bold ideas into original projects at every level of our program.

Electrical and Computer Engineering (ECE) courses and research areas span a range of disciplines that include:

- Biomedical Engineering
- Communications and Signal Processing
- Computer Engineering
- Controls and Robotics
- Electromagnetics and Remote Sensing
- Lasers and Photonics

Learning Objectives

The ECE program educational objectives are designed and implemented around the following three principal attributes: mastery, innovation, and leadership.

Graduates of the Electrical Engineering program will be able to:

1. Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.

2. Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. Communicate effectively with a range of audiences.
4. Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. Acquire and apply new knowledge as needed, using appropriate learning strategies.

Requirements Effective Fall 2023

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in ECE courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. ECE courses required for the major at the 100, 200, and 300 level must be passed with a minimum grade of C (2.000); grades below a C will require the student to retake the course. ECE courses designated as an elective are exempt from the C or higher minimum grade requirement.

Major in Electrical Engineering, Lasers and Optical Engineering Concentration

The Electrical and Computer Engineering (ECE) department is the premier place to prepare for a successful career in lasers and optics – a field that advances the science of light. Lasers hold the potential for generating a limitless form of clean energy, and they are used for everything from improving cancer detection to creating powerful computer chips. Plans are underway to build a new \$150 million laser facility at CSU. That means you will gain skills and knowledge from professors who are driving innovation at one of the most powerful laser facilities in the world.

Electrical and Computer Engineering (ECE) courses and research span a range of disciplines that include:

- Biomedical Engineering
- Communications and Signal Processing
- Computer Engineering
- Controls and Robotics
- Electromagnetics and Remote Sensing
- Lasers and Photonics

Career Opportunities

A field of endless possibilities, electrical engineering career paths are largely dependent on personal interests. Electrical engineering alumni hold positions ranging from a designer at a start-up company to a research scientist for the U.S. Naval Research Laboratory. In addition to being one of the most lucrative college majors, for the past decade electrical engineering has ranked among the top 10 majors in demand for bachelor's, master's, and doctoral degrees, according to the National Association of Colleges and Employers. Almost every industry recruits

electrical engineering graduates, such as aerospace, biomedical, energy, robotics, manufacturing, and automotive.

Learning Objectives

The ECE program educational objectives are designed and implemented around the following three principal attributes: mastery, innovation, and leadership.

Graduates of the ECE program will be able to:

1. Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. Communicate effectively with a range of audiences.
4. Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. Acquire and apply new knowledge as needed, using appropriate learning strategies.

Requirements Effective Fall 2023

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in Electrical Engineering courses as a graduation requirement. It is the responsibility

of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. ECE courses required for the major at the 100, 200, and 300 level must be passed with a minimum grade of C (2.000); grades below a C will require the student to retake the course. ECE courses designated as an elective are exempt from the C or higher minimum grade requirement.

PH 462	Statistical Physics	3

¹ Recommended sequence for most incoming students is Group A: CS 150B to CS 164.

² Project must be a laser and optical engineering topic.

³ A total of 3 credits of Independent Study may apply toward the total degree requirements. This includes credit awarded for ECE 395A, ECE 395B, ECE 395C and ECE 495A, ECE 495B, ECE 495C combined.

Major Completion Map

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus.

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in electrical engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. ECE courses required for the major at the 100, 200, and 300 level must be passed with a minimum grade of C (2.000); grades below a C will require the student to retake the course. ECE courses designated as an elective are exempt from the C or higher minimum grade requirement.

Minor in Computer Engineering

The Minor in Computer Engineering prepares students who want to complement their background in computer science or other applied science disciplines with knowledge of computer hardware design, microcontroller software programming, and hardware-software codesign to support a well-rounded knowledge of working with computing systems.

Learning Objectives

Students successfully completing this program will be able to:

1. Solve digital circuit logic problems and implement logic on programmable devices.
2. Design software to program embedded and Internet of Things (IoT) hardware platforms.

3. Identify and explain interactions between hardware and software in computing systems.
4. Apply computer hardware architecture for general purpose and accelerator processing.
5. Prepare for jobs as computer engineers, including software architects and computer architects.

Requirements Effective Fall 2023

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Code	Title	Credits
ECE 102	Digital Circuit Logic	4
Select one course from the following:		4
ECE 251	Introduction to Microcontrollers and IoT	
CS 250	Computer Systems Foundations	
CS 270	Computer Organization	
Select a minimum of 15 credits from the following:		15
ECE 202 or ECE 204	Circuit Theory Applications Introduction to Electrical Engineering	
ECE 340	Electromagnetics for Computer Engineering	
ECE 445	Digital Logic Synthesis	
ECE 450	Digital System Design Laboratory	
ECE 451	Digital System Design	
ECE 452	Computer Organization and Architecture	
ECE 455	Introduction to Robot Programming/ Simulation	
ECE 495A	Independent Study ¹	
ECE 495B	Independent Study: Open Option Project ¹	
ECE 495C	Independent Study: Vertically Integrated Projects ¹	
ECE 519	Network Centric Systems	
ECE 528/CS 528	Embedded Systems and Machine Learning	
ECE 544	Silicon Photonics for Computing Systems	
ECE 554	Computer Architecture	
ECE 558	Manycore System Design Using Machine Learning	
ECE 561/CS 561	Hardware/Software Design of Embedded Systems	
ECE 571	VLSI System Design	
Program Total Credits:		23

¹ A total 3 credits of Independent Study may apply toward total degree requirements. This includes credit awarded for ECE 495A, ECE 495B, ECE 495C combined.

Graduate Certificate in Aerospace: Satellites, Radars and Remote Sensing

Start developing the skills you need to break into the rapidly evolving aerospace industry. The Graduate Certificate in Aerospace: Satellites, Radars and Remote Sensing provides an introduction to aerospace engineering disciplines, including satellites, radars and remote sensing. A graduate certificate requires completion of 9 credits of 500-level and above graduate work. Students may apply for and complete just the certificate or may apply for both the certificate and a degree program. This allows students to start with the certificate and continue to a more advanced degree.

Students interested in graduate work should refer to CSU's Graduate and Professional Bulletin (<http://catalog.colostate.edu/general-catalog/graduate-bulletin/>).

Learning Objectives

Students will:

1. Interpret and distinguish space science and engineering, as well as various applications in communications, remote sensing, navigation, and environmental monitoring.
2. Extend working knowledge about the payload and orbital mechanics of the space systems dedicated to producing mission data and then relaying that data back to Earth.
3. Understand radar and satellite sensors (e.g., nuclear detonation detector, radiometer), their system components and design.
4. Interpret radar and satellite observations and extract information through remote sensing data analytics.
5. Expand beyond traditional focus on maximizing utilization of individual satellite programs, towards a broader view of how multidisciplinary space observations may be integrated from the larger constellation of global observing platforms.
6. Adapt to expected changes in radar and satellite technologies (e.g., CubeSat), as well as information technologies (e.g., artificial intelligence) to conduct fundamental and applied space research to understand global changes and meet societal needs.

Requirements Effective Fall 2023

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Select a minimum of 9 credits from the following courses:		9
ATS 550	Atmospheric Radiation and Remote Sensing	
ECE 521	Satellite Communication	
ECE 548	Microwave Theory and Component Design	
ECE 549	Radar Systems and Design	
ECE 556	AI for Radar and Remote Sensing	
ECE 578	Satellite Data Analysis	
ECE 579	Global Navigation Satellite Systems	
Program Total Credits:		9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Computer Systems Engineering

The Graduate Certificate in Computer Systems Engineering is designed for students and professionals seeking knowledge and skills in state-of-the-art parallel hardware architectures, parallel software programming, algorithms, and networking technologies. Students stay current on rapidly advancing technology and learn to problem-solve for future challenges.

Students interested in graduate work should refer to CSU's Graduate and Professional Bulletin (<http://catalog.colostate.edu/general-catalog/graduate-bulletin/>).

Learning Objectives

Students will:

1. Think critically about computing systems, including hardware, software, and hardware-software co-design issues.
2. Communicate effectively both with technical experts in their field and with experts from related fields who do not have a specific background in computer systems.
3. Assimilate advanced knowledge from disciplines of science and engineering to broaden their expertise in computer systems.

Requirements Effective Fall 2021

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Select three courses from the following: ¹		11-12
CS 530	Fault-Tolerant Computing	
CS 545	Machine Learning	
CS 556	Computer Security	
CS 575	Parallel Processing	
ECE 528/CS 528	Embedded Systems and Machine Learning	
ECE 554	Computer Architecture	
ECE 558	Manycore System Design Using Machine Learning	
ECE 561/CS 561	Hardware/Software Design of Embedded Systems	
ECE 658/CS 658	Internet Engineering	
ECE 661	Advanced Topics in Embedded Systems	
Program Total Credits:		11-12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

¹ At least one ECE course is required.

Graduate Certificate in Data Engineering

The certificate program provides education on both Theoretical Foundation (TF) of Data Engineering and Applications (AP) of Data Engineering in specific engineering domains. The certificate requires completing 12 credits of coursework. At least 6 credits must be taken from courses listed under the Theoretical Foundation (TF) category. These courses provide training on the central theory and methods of Data Engineering, informed by physical and dynamical models that generally arise in engineering processes. At least 3 credits must be taken from courses listed under the Applications (AP) category. These courses provide training on applications of Data Engineering methods in specific engineering domains, by tailoring and applying data analysis to specific data acquisition techniques and models that are suitable for a particular engineering domain. The domains currently include Signal and Image Processing, Biomedical Engineering, Computer Engineering, and Systems Engineering.

Students interested in graduate work should refer to CSU's Graduate and Professional Bulletin (<http://catalog.colostate.edu/general-catalog/graduate-bulletin/>).

Learning Objectives

Students will:

1. Think critically about Data Engineering.
2. Communicate effectively both with technical experts in their field and with experts from related fields who do not have a specific background in Data Engineering.
3. Assimilate advanced knowledge from disciplines of science and engineering to broaden their expertise in Data Engineering.

Requirements Effective Fall 2022

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Theoretical Foundations (TF)		
Select a minimum of 6 credits from the following: ¹		6-9
ECE 514	Applications of Random Processes	
ECE 520	Optimization Methods—Control and Comm.	
or ENGR 510	Engineering Optimization: Method/Application	
ECE 652	Estimation and Filtering Theory	
ECE 656	Machine Learning and Adaptive Systems	
SYSE 571	Analytics in Systems Engineering	
Applications (AP)		
Select a minimum of 3 credits from the following list of courses for specific engineering application domains:		3-6
AP: Signal and Image Processing		
ECE 512	Digital Signal Processing	
ECE 513	Digital Image Processing	
AP: Biomedical Engineering		
ECE 517/ BIOM 517	Advanced Optical Imaging	
BIOM 526/ ECE 526	Biological Physics	
ECE 537/ BIOM 537	Biomedical Signal Processing	
AP: Computer Engineering		
ECE 528/CS 528	Embedded Systems and Machine Learning	
ECE 554	Computer Architecture	
ECE 561/CS 561	Hardware/Software Design of Embedded Systems	
ECE 658/CS 658	Internet Engineering	
AP: Systems Engineering		
SYSE 532/ ECE 532	Dynamics of Complex Engineering Systems	
SYSE 569	Cybersecurity Awareness for Systems Engineers	
Program Total Credits		12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

¹ ECE 520 and ENGR 510 cannot be both taken to satisfy this requirement.

Graduate Certificate in Embedded Systems

The Graduate Certificate in Embedded Systems provides an introduction to embedded systems, including hardware design and software engineering principles. Students learn to apply electrical engineering, computer engineering, and computer science principles in real-world embedded platforms.

Students interested in graduate work should refer to CSU's Graduate and Professional Bulletin (<http://catalog.colostate.edu/general-catalog/graduate-bulletin/>).

Learning Objectives

Students will:

1. Think critically about embedded and Internet-of-Things (IoT) computing.
2. Communicate effectively both with technical experts in their field and with experts from related fields who do not have specific backgrounds in embedded and IoT computing.
3. Assimilate advanced knowledge from disciplines of science and engineering to broaden their expertise in Embedded and IoT computing.

Requirements Effective Fall 2021

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Select three courses from the following: ¹		11-12
CS 545	Machine Learning	
CS 560/ECE 560	Foundations of Fine-Grain Parallelism	
CS 575	Parallel Processing

ECE 554	Computer Architecture	
ECE 558	Manycore System Design Using Machine Learning	
ECE 561/CS 561	Hardware/Software Design of Embedded Systems	
ECE 661	Advanced Topics in Embedded Systems	
Program Total Credits:		11-12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

¹ At least one ECE course is required.

Master of Science in Computer Engineering, Plan A

From self-driving cars to smart cities, we live in a hyper-connected world. As the smart thinkers behind today's smart devices and systems, computer engineers hold the key to understanding, advancing, and protecting the security of next generation technologies and data networks. The Master of Science in Computer Engineering, Plan A produces professionals capable of applying in-depth knowledge, creativity, and research experience to drive innovation in virtually any field. This program creates professionals with depth and breadth of knowledge to keep pace with a rapidly evolving high-tech field. Offering a highly customizable curriculum, this program specializes in the following focus areas: biomedical engineering, communications and signal processing, computer engineering, controls and robotics, electromagnetics and remote sensing, and lasers and photonics.

Students pursuing the Plan A degree complete a research-orientated plan of study involving a thesis and coursework. Students interested in graduate work should refer to CSU's Graduate and Professional Bulletin and the Electrical and Computer Engineering Department (<http://www.engr.colostate.edu/ece/>) website.

Program Learning Objectives

1. Identify, formulate, and solve advanced engineering problems using fundamental computer engineering principles, methodologies, and tools.
2. Apply in-depth knowledge and creativity in a variety of contexts to achieve a significant research objective.
3. Demonstrate effective oral and written communication to convey technical concepts to both engineers and non-engineers.
4. Demonstrate professional behavior and understand the ethical, economic, environmental, and societal impacts of their work.

Institutional Learning Objectives

Program Learning Objectives (PLOs) align with and support the University's Institutional Learning Objectives (ILOs), which are Creativity, Reasoning, Communication, Responsibility, and Collaboration.

Creativity: PLOs 1 and 2 ensure that students can creatively apply their disciplinary expertise to solve complex problems using fundamental computer engineering principles and methods.

Reasoning: PLOs 1 and 2 ensure that students can apply reasoning skills to solve complex problems using fundamental computer engineering principles and methods.

Communication: PLO 3 ensures that students demonstrate effective communication to a variety of audiences.

Responsibility: PLO 4 ensures that students exhibit responsible behavior according to professional standards.

Collaboration: PLOs 3 and 4 ensure that students demonstrate professional skills to engage collaboratively to solve problems in a societal context.

Requirements Effective Fall 2024

ECE 699	Thesis	9
Final Oral Examination		
Program Total Credits:		30

A minimum of 30 credits are required to complete this program.

¹ Courses not accepted as regular include all courses ending in the range -82 through -99.

² A maximum of 8 credit hours of 400-level undergraduate coursework can be counted to the degree. Remaining credits must be in 500-level or higher courses.

³ A maximum of 12 credits hours outside of the ECE department can be counted to the degree.

Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees in the Graduate and Professional Bulletin.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Master of Science in Computer Engineering, Plan B

From self-driving cars to smart cities, we live in a hyper-connected world. As the smart thinkers behind today's smart devices and systems, computer engineers hold the key to understanding, advancing, and protecting the security of next generation technologies and data networks.

The Master of Science in Computer Engineering, Plan B produces professionals capable of applying in-depth knowledge and creativity to analyze, design, develop, and improve computer systems in technically demanding careers to drive innovation in virtually any field. Students interested in graduate work should refer to CSU's Graduate and Professional Bulletin and the Electrical and Computer Engineering Department (<http://www.engr.colostate.edu/ece/>) website.

Program Learning Objectives

1. Identify, formulate, and solve advanced engineering problems using fundamental computer engineering principles, methodologies, and [tools](#).
2. Apply in-depth knowledge and creativity in a variety of contexts to achieve a significant technical [objective](#).
3. [Demonstrate effective oral and written communication to convey technical concepts to both engineers and non-engineers.](#)
4. Demonstrate professional behavior and understand the ethical, economic, [environmental](#), and societal impacts of their [work](#).

¹ Courses not accepted as regular include all courses ending in the range -82 through -99.

² A maximum of 8 credit hours of 400-level undergraduate coursework will be counted to the degree. Remaining credits must be in 500-level or higher courses.

³ A maximum of 12 credit hours outside of the ECE department will be counted to the degree.

⁴ Computer Engineering students can choose from a wide range of topic areas for their courses. See the "Recommended Courses by Topic Area" document and the "Courses" link located on the following webpage: <https://www.engr.colostate.edu/ece/graduates/admissions/>

⁵ ECE MS students will complete a Portfolio by attending five research-based Seminars offered or approved by Electrical and Computer Engineering. Some examples of these Seminars include, but are not limited to:

- Talks by visiting engineers, scientists, that are part of our ECE Seminar Series
- Attending a peer's MS Thesis defense or Ph.D. defense or Ph.D. exam
- For distance students, viewing IEEE (Institute of Electrical and Electronics Engineers) research based webinars available through their professional societies on their website.

Their Portfolio Final Exam requires them to answer two questions for each of the five seminars. These questions were designed by our faculty to ask the student to connect the content of the seminars to principles they learned in their MS courses. The Portfolio is graded by an ECE faculty member and counts as the student's final exam.

⁶ Permission from the ECE department is required to register for ECE 695.

Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees in the Graduate and Professional Bulletin.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/ Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/ dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Master of Science in Electrical Engineering, Plan A

Arthur C. Clark said, “Any sufficiently advanced technology is indistinguishable from magic.” The Master of Science in Electrical Engineering, Plan A produces leaders who make the magic happen in our modern world. From electric cars to smartphones to Global Positioning Systems, our graduates turn ideas into reality.

This program creates professionals with depth and breadth of knowledge, as well as the skills and mindset to continue to evolve and grow in a constantly changing high-tech environment. Offering a highly customizable curriculum, this program specializes in the following focus areas: biomedical engineering, communications and signal processing, computer engineering, controls and robotics, electromagnetics and remote sensing, lasers and photonics.

Students pursuing the M.S. in Electrical Engineering, Plan A complete a research-oriented plan of study involving a thesis and coursework. Interested applicants should refer to CSU’s Graduate and Professional Bulletin (<http://catalog.colostate.edu/general-catalog/graduate-bulletin/>) and the Electrical and Computer Engineering website (<http://www.engr.colostate.edu/ece/>).

Program Learning Objectives

1. Identify, formulate, and solve advanced engineering problems using fundamental electrical engineering principles, methodologies, and tools
2. Apply in-depth knowledge and creativity in a variety of contexts to achieve a significant research objective.
3. Demonstrate effective oral and written communication to convey technical concepts to both engineers and non-engineers.
4. Demonstrate professional behavior and understand the ethical, economic, environmental, and societal impacts of their work.

Institutional Learning Objectives

Program Learning Objectives (PLOs) align with and support the University’s Institutional Learning Objectives (ILOs), which are Creativity, Reasoning, Communication, Responsibility, and Collaboration.

Creativity: PLOs 1 and 2 ensure that students can creatively apply their disciplinary expertise to solve complex problems using fundamental electrical engineering principles and methods.

Reasoning: PLOs 1 and 2 ensure that students can apply reasoning skills to solve complex problems using fundamental electrical engineering principles and methods.

Communication: PLO 3 ensures that students demonstrate effective communication to a variety of audiences.

Responsibility: PLO 4 ensures that students exhibit responsible behavior according to professional standards.

Collaboration: PLOs 3 and 4 ensure that students demonstrate professional skills to engage collaboratively to solve problems in a societal context.

Master of Science in Electrical Engineering, Plan B

The Master of Science in Electrical Engineering, Plan B creates capable professionals with depth and breadth of knowledge, as well as the skills and mindset to continue to evolve and grow in a constantly changing high-tech environment. Offering a highly customizable curriculum, this program specializes in the following focus areas: biomedical engineering, communications and signal processing, computer engineering, controls and robotics, electromagnetics and remote sensing, lasers and photonics.

Interested applicants should refer to CSU's Graduate and Professional Bulletin (<http://catalog.colostate.edu/general-catalog/graduate-bulletin/>) and the Electrical and Computer Engineering website (<http://www.engr.colostate.edu/ece/>).

Program Learning Objectives

1. Identify, formulate, and solve advanced engineering problems using fundamental electrical engineering principles, methodologies, and tools.
2. Apply in-depth knowledge and creativity in a variety of contexts to achieve a significant technical objective.
3. Demonstrate effective oral and written communication to convey technical concepts to both engineers and non-engineers.
4. Demonstrate professional behavior and understand the ethical, economic, environmental, and societal impacts of their work.

Institutional Learning Objectives

Program Learning Objectives (PLOs) align with and support the University's Institutional Learning Objectives (ILOs), which are Creativity, Reasoning, Communication, Responsibility, and Collaboration.

Creativity: PLOs 1 and 2 ensure that students can creatively apply their disciplinary expertise to solve complex problems using fundamental electrical engineering principles and methods.

Reasoning: PLOs 1 and 2 ensure that students can apply reasoning skills to solve complex problems using fundamental electrical engineering principles and methods.

Communication: PLO 3 ensures that students demonstrate effective communication to a variety of audiences.

Responsibility: PLO 4 ensures that students exhibit responsible behavior according to professional standards.

Collaboration: PLOs 3 and 4 ensure that students demonstrate professional skills to engage collaboratively to solve problems in a societal context.

Master of Engineering, Plan C, Computer Engineering Specialization

From self-driving cars to smart cities, we live in a hyper-connected world. As the smart thinkers behind today's smart devices and systems, computer engineers hold the key to understanding, advancing, and protecting the security of next generation technologies and data networks.

The Master of Engineering, Plan C, Computer Engineering Specialization produces professionals with broad engineering backgrounds who are capable of applying in-depth knowledge and creativity to drive innovation in virtually any field. Students have flexibility to develop a plan of study in their area of interest. Students interested in graduate work should refer to CSU's Graduate and Professional Bulletin (<http://catalog.colostate.edu/general-catalog/graduate-bulletin/>) and the Electrical and Computer Engineering Department (<http://www.engr.colostate.edu/ece/>) website.

Program Learning Objectives

1. Identify, formulate, and solve advanced engineering problems using fundamental computer engineering principles, methodologies, and tools.
2. Apply in-depth knowledge and creativity in a variety of contexts to achieve a significant engineering objective.
3. Demonstrate effective oral and written communication to convey technical concepts to both engineers and non-engineers.
4. Demonstrate professional behavior and understand the ethical, economic, environmental, and societal impacts of their work.

Institutional Learning Objectives

Program Learning Objectives (PLOs) align with and support the University's Institutional Learning Objectives (ILOs), which are Creativity, Reasoning, Communication, Responsibility, and Collaboration.

Creativity: PLOs 1 and 2 ensure that students can creatively apply their disciplinary expertise to solve complex problems using fundamental computer engineering principles and methods.

Reasoning: PLOs 1 and 2 ensure that students can apply reasoning skills to solve complex problems using fundamental computer engineering principles and methods.

Communication: PLO 3 ensures that students demonstrate effective communication to a variety of audiences.

Responsibility: PLO 4 ensures that students exhibit responsible behavior according to professional standards.

Collaboration: PLOs 3 and 4 ensure that students demonstrate professional skills to engage collaboratively to solve problems in a societal context.

5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration

6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/ Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/ dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Master of Engineering, Plan C, Electrical Engineering Specialization

The Master of Engineering, Plan C, Electrical Engineering Specialization focuses on enhancing the expertise of working electrical engineering professionals. Engineers who want to further their careers with engineering related firms and governmental agencies should consider this degree. Students have flexibility to develop a plan of study in their area of interest. Students interested in graduate work should refer to CSU's Graduate and Professional Bulletin (<http://catalog.colostate.edu/general-catalog/graduate-bulletin/>) and the Electrical and Computer Engineering Department (<http://www.engr.colostate.edu/ece/>) website.

Program Learning Objectives

1. Identify, formulate, and solve advanced engineering problems using fundamental electrical engineering principles, methodologies, and tools.
2. Apply in-depth knowledge and creativity in a variety of contexts to achieve a significant engineering objective.
3. Demonstrate effective oral and written communication to convey technical concepts to both engineers and non-engineers.
4. Demonstrate professional behavior and understand the ethical, economic, environmental, and societal impacts of their work.

Institutional Learning Objectives

Program Learning Objectives (PLOs) align with and support the University's Institutional Learning Objectives (ILOs), which are Creativity, Reasoning, Communication, Responsibility, and Collaboration.

Creativity: PLOs 1 and 2 ensure that students can creatively apply their disciplinary expertise to solve complex problems using fundamental electrical engineering principles and methods.

Reasoning: PLOs 1 and 2 ensure that students can apply reasoning skills to solve complex problems using fundamental electrical engineering principles and methods.

Communication: PLO 3 ensures that students demonstrate effective communication to a variety of audiences.

Responsibility: PLO 4 ensures that students exhibit responsible behavior according to professional standards.

Collaboration: PLOs 3 and 4 ensure that students demonstrate professional skills to engage collaboratively to solve problems in a societal context.

Requirements Effective Fall 2024

SYSE 711	Ethics in Systems Engineering

Program Total Credits: **30**

A minimum of 30 credits are required to complete this program.

¹ Courses not accepted as regular include all courses ending in the range -82 through -99.

² A maximum of 8 credit hours of 400-level undergraduate credits can be counted to the degree. Remaining credits must be in 500-level or higher courses.

³ A maximum of 15 credit hours outside of the ECE department can be counted to the degree.

Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees in the Graduate and Professional Bulletin.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/dissertation	Refer to published deadlines from the Graduate School website.

14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Ph.D. in Computer Engineering

The Ph.D. in Computer Engineering creates future leaders in the thriving field of computer engineering. Under the tutelage of renowned computer engineering faculty, graduates of this program produce significant contributions and original research to advance next generation electronics and computing.

Offering a highly customizable curriculum, this program specializes in the following areas: biomedical engineering, communications and signal processing, computer engineering, controls and robotics, electromagnetics and remote sensing, and lasers and photonics.

Students pursuing a Ph.D. in Computer Engineering complete a research-oriented plan of study involving a dissertation and coursework. Interested applicants should refer to CSU's Graduate and Professional Bulletin and the Electrical and Computer Engineering Department (<http://www.engr.colostate.edu/ece/>) website.

Program Learning Objectives

1. Identify, formulate, and solve advanced research problems using fundamental computer engineering principles, methodologies, and tools.
2. Produce important contributions and add to the body of knowledge through peer-reviewed, high-impact publications.
3. Demonstrate effective oral and written communication to convey technical concepts to both engineers and non-engineers.
4. Demonstrate professional behavior and understand the ethical, economic, environmental, and societal impacts of their work.
5. Be leaders in Computer Engineering research.

Institutional Learning Objectives

Program Learning Objectives (PLOs) align with and support the University's Institutional Learning Objectives (ILOs), which are Creativity, Reasoning, Communication, Responsibility, and Collaboration.

Creativity: PLOs 1 and 2 ensure that students can creatively apply their disciplinary expertise to solve complex problems using fundamental computer engineering principles and methods.

Reasoning: PLOs 1 and 2 ensure that students can apply reasoning skills to solve complex problems using fundamental computer engineering principles and methods.

Communication: PLOs 2 and 3 ensure that students demonstrate effective communication to a variety of audiences.

Responsibility: PLOs 4 and 5 ensure that students exhibit responsible behavior according to professional standards.

Collaboration: PLOs 3, 4, and 5 ensure that students demonstrate professional skills to engage collaboratively to solve problems in a societal context.

 - Aerospace Engineering Concentration

- Dual Degree Program: Major in Biomedical Engineering Combined with Mechanical Engineering

Change of Major Process (<https://www.engr.colostate.edu/me/change-of-major/>)

How to Change Your Major to Mechanical Engineering (<https://www.engr.colostate.edu/me/change-of-major/>)

Graduate Graduate Programs in Mechanical Engineering

Programs are offered leading to the Master of Science, Master of Engineering (see specializations below), and Doctor of Philosophy. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Mechanical Engineering (<http://www.engr.colostate.edu/me/>).

Certificates

- Advanced Manufacturing
- Aerospace Engineering

Master's Programs

- Master of Science in Mechanical Engineering, Plan A
- Master of Science in Mechanical Engineering, Plan B
- Master of Engineering, Plan C, Advanced Manufacturing Specialization
- Master of Engineering, Plan C, Aerospace Engineering Specialization
- Master of Engineering, Plan C, Mechanical Engineering Specialization

Ph.D.

- Ph.D. in Mechanical Engineering

Courses Mechanical Engineering (MECH)

MECH 103 Introduction to Mechanical Engineering Credits: 3 (3-0-0)

Course Description: Introduction to mechanical engineering, including relevant programming and computer technologies such as MATLAB and Excel.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 104A Study Abroad--Germany: Introduction to Mechanical Engineering Credits: 3 (0-0-0)

Course Description: Introduction to mechanical engineering, and relevant programming and computer technologies, including MATLAB and Excel. Exploration of global engineering in Berlin, Germany. Explore concepts through guest lectures, discussion with German engineers, and visits to German engineering companies.

Prerequisite: None.

Registration Information: Written consent of advisor. Credit allowed for only one of the following: MECH 103, MECH 104A, or MECH 182A.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 105 Mechanical Engineering Problem Solving Credits: 3 (3-0-0)

Course Description: Programming and engineering problem solving techniques, algorithms and processes based on first principles of physics and calculus.

Prerequisite: (MATH 159, may be taken concurrently or MATH 160, may be taken concurrently) and (MECH 103 and PH 141, may be taken concurrently).

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 102 and MECH 105.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 200 Introduction to Manufacturing Processes Credits: 3 (2-2-0)

Course Description: Engineering drawings, materials, manufacturing, and safety. Hand tools, cutting, drilling, the lathe, mill and numerical control.

Prerequisite: MECH 105.

Registration Information: Mechanical Engineering and Biomedical Engineering-Mechanical Engineering dual majors only. Must register for lecture and laboratory. Credit not allowed for both MECH 200 and MECH 200A. Credit not allowed for both MECH 200 and MECH 200B.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 200A Introduction to Manufacturing Processes: Lecture Credits: 2 (2-0-0)

Course Description: Introduction to engineering drawings, materials, manufacturing processes, and shop safety. Fundamentals and principles associated with hand tools, cutting, grinding, the lathe, mill, and numerical control.

Prerequisite: MECH 105.

Registration Information: Mechanical Engineering and Biomedical Engineering-Mechanical Engineering dual majors only. Credit not allowed for both MECH 200 and MECH 200A. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 200B Introduction to Manufacturing Processes :**Laboratory Credit: 1 (0-2-0)****Course Description:** Applied introduction to engineering drawings, materials, manufacturing processes, and shop safety. Basic hand tools, cutting, grinding, the lathe, mill, introduction to numerical control. Experiential learning is emphasized through hands-on laboratory activities.**Prerequisite:** MECH 200A, may be taken concurrently.**Registration Information:** Mechanical Engineering and Biomedical Engineering-Mechanical Engineering dual majors only. Credit not allowed for both MECH 200 and MECH 200B.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** Yes.**MECH 201 Engineering Design I Credits: 2 (1-2-0)****Course Description:** Engineering design methods used to portray three-dimensional objects and visually communicate design information, with an emphasis on computer-aided design using parametric solid modeling, and geometric dimensioning / tolerancing.**Prerequisite:** MECH 105.**Registration Information:** Must register for lecture and laboratory. Sections may be offered as Mixed Face-to-Face or Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**MECH 202 Engineering Design II Credits: 3 (2-2-0)****Course Description:** The engineering design process with emphasis on teamwork, ideation, decision-making, and project planning as applied to a group design project in mechanical engineering.**Prerequisite:** (MECH 200, may be taken concurrently or MECH 200A, may be taken concurrently and MECH 200B, may be taken concurrently) and (MECH 201).**Registration Information:** Must register for lecture and laboratory.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** Yes.**MECH 231 Engineering Experimentation Credits: 3 (2-2-0)****Course Description:** Measurement systems, experimental design, and data acquisition / analysis techniques for engineering applications.**Prerequisite:** (MECH 102 or MECH 105) and (PH 142).**Registration Information:** Must register for lecture and laboratory. Sections may be offered: Online.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** Yes.**MECH 237 Introduction to Thermal Sciences Credits: 3 (3-0-0)****Course Description:** First and second laws of thermodynamics, properties of substances, energy conversion, heat transfer, thermodynamic applications.**Prerequisite:** (MATH 159 or MATH 160) and (PH 141).**Registration Information:** Sections may be offered: Online. Credit allowed for only one of the following: CBE 210, ENGR 337, MECH 237, or MECH 337.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**MECH 262 Engineering Mechanics Credits: 4 (4-0-0)****Course Description:** Forces, static equilibrium, mass center, moments of inertia, kinematics and kinetics of particles and rigid bodies.**Prerequisite:** (MATH 161) and (PH 141).**Registration Information:** Sections may be offered: Online.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**MECH 301A Engineering Design III: Finite Element Analysis Credit: 1 (0-2-0)****Course Description:** Application of computer-aided finite element analysis (FEA) tools for the simulation and prediction of robustness and performance of mechanical components and assemblies.**Prerequisite:** CIVE 360 and MECH 202, may be taken concurrently.**Registration Information:** This is a partial semester course. Sections may be offered: Mixed Face-to-Face or Online. Credit not allowed for both (MECH 301 and MECH 301A) or (MECH 301A and MECH 302).**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**MECH 301B Engineering Design III: Computational Fluid Dynamics Credit: 1 (0-2-0)****Course Description:** Application of computer-aided computational fluid dynamics (CFD) tools for the simulation and prediction of robustness and performance of mechanical components and assemblies.**Prerequisite:** CIVE 360 and MECH 202, may be taken concurrently and MECH 301A, may be taken concurrently and MECH 342, may be taken concurrently.**Registration Information:** This is a partial semester course. Sections may be offered: Mixed Face-to-Face or Online. Credit not allowed for both (MECH 301 and MECH 301B) or (MECH 301B and MECH 302).**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**MECH 307 Mechatronics and Measurement Systems Credits: 4 (3-3-0)****Course Description:** Mechatronic and measurement system analysis and design; applied electronics; data acquisition; microcontroller interfacing and programming.**Prerequisite:** CIVE 261 and ECE 204 and MATH 340 and MECH 231.**Registration Information:** Must register for lecture and laboratory. Sections may be offered: Online.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** Yes.**MECH 324 Dynamics of Machines Credits: 4 (3-2-0)****Course Description:** Analysis and synthesis of moving machinery.**Prerequisite:** CIVE 261 and MATH 340, may be taken concurrently.**Registration Information:** Must register for lecture and laboratory. Sections may be offered: Online.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** Yes.

MECH 325 Machine Design Credits: 3 (3-0-0)

Course Description: Design of mechanical components to avoid failure during operation. Stress analysis, failure theories, and specific mechanical components in design context.

Prerequisite: CIVE 360.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 331 Introduction to Engineering Materials Credits: 4 (3-2-0)

Course Description: Characteristics of metallic, plastic, and ceramic material; basic principles which relate properties of materials to their atomic and microstructure.

Prerequisite: CHEM 111 and CHEM 112 and MECH 231.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 331A Introduction to Engineering Materials: Lecture Credits: 3 (3-0-0)

Course Description: Characteristics of metallic, plastic, and ceramic materials; basic principles that relate properties of materials to their atomic and micro-structure.

Prerequisite: CHEM 111 and CHEM 112 and MECH 231.

Registration Information: Mechanical engineering and biomedical engineering-mechanical engineering dual majors only. Sections may be offered: Online. Credit not allowed for both MECH 331 and MECH 331A.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 331B Introduction to Engineering Materials : Lab Credit: 1 (0-2-0)

Course Description: Experiments to study and test metallic, plastic, and ceramic material, including approaches to relate properties of materials to their atomic and micro-structure.

Prerequisite: CHEM 111 and CHEM 112 and MECH 231 and MECH 331A, may be taken concurrently.

Registration Information: Mechanical engineering and biomedical engineering-mechanical engineering dual majors only. Sections may be offered: Online. Credit not allowed for both MECH 331 and MECH 331B.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 337 Thermodynamics Credits: 4 (3-0-1)

Course Description: First and second laws of thermodynamics, properties of pure substances, analysis of open and closed thermodynamic systems, applications of thermodynamic principles to power and refrigeration cycles.

Prerequisite: MATH 261 and PH 141.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online. Credit allowed for only one of the following: CBE 210, ENGR 337, MECH 237, or MECH 337.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 338 Thermal/Fluid Sciences Laboratory Credit: 1 (0-3-0)

Course Description: Experimental methods in heat transfer, fluid flow, and thermodynamics.

Prerequisite: MECH 337 and MECH 342 and MECH 344, may be taken concurrently.

Registration Information: Biomedical Engineering with ME and Mechanical Engineering majors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 342 Fluid Mechanics for Mechanical Engineers Credits: 3 (3-0-0)

Course Description: Thermodynamic properties of fluids, control volume and differential analysis, conservation of mass, momentum, and energy, measurements, dimensional analysis, boundary layer theory, Navier-Stokes equations and exact solutions; internal and external flows, lift and drag, mechanical engineering applications such as pumps, compressors, turbines, and airfoils.

Prerequisite: MATH 340 and PH 141 and MECH 337, may be taken concurrently.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: CBE 331, CIVE 300, ENGR 342, or MECH 342.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 344 Heat and Mass Transfer Credits: 3 (3-0-0)

Course Description: Thermal transport properties of substances, conduction, convection, radiation, transient heat transfer, numerical methods, and heat exchangers.

Prerequisite: MECH 342.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 392 Graduate Education and Research Seminar Credit: 1 (0-0-1)

Course Description: Research in graduate school and industry as a career option for mechanical engineers.

Prerequisite: MECH 231 and MECH 237.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

MECH 403 Energy Engineering Credits: 3 (3-0-0)

Course Description: Energy generation, conversion, distribution, storage, and efficiency, including analysis of power generation systems associated with fossil fuels, biofuels, solar, wind, geothermal, hydropower, tidal, and nuclear energy.

Prerequisite: CBE 310 or MECH 237 or MECH 337 or PH 361.

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 303 and MECH 403.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 407 Laser Applications in Mechanical Engineering Credits: 3 (3-0-0)

Course Description: Review of electromagnetic waves; applications of lasers and optics in engineering, e.g., position sensing, flowfield measurement, cutting and welding.

Prerequisite: PH 142.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 408 Applied Engineering Economy Credits: 3 (3-0-0)

Course Description: The basic principles and calculations of engineering economy with application to real problems, including energy and the environment.

Prerequisite: MATH 161.

Registration Information: Credit not allowed for both MECH 408 and MECH 410. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 411 Manufacturing Engineering Credits: 3 (3-0-0)

Course Description: Casting, forming, machining, and welding processes used in manufacturing operations.

Prerequisite: (CIVE 360) and (MECH 331 or MECH 331A and MECH 331B).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 417 Control Systems Credits: 3 (3-0-0)

Course Description: Feedback and forward loop control design and simulation; discrete time and frequency domain methods with implementation considerations.

Prerequisite: MATH 340 and MECH 307.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 419 Compressible Flow Credits: 3 (3-0-0)

Course Description: Introduction to compressible fluid dynamics, including speed of sound and Mach number, isentropic 1-D flow in variable area ducts, waves, choked flow, converging-diverging nozzles, moving shocks, blast waves, shock tubes, Rayleigh flow, Fanno flow, normal and oblique shocks, expansion waves, and Crocco's theorem.

Prerequisite: MECH 342.

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 419 and MECH 480A6.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 420 Aerospace Structures Credits: 3 (3-0-0)

Course Description: Analysis of aerospace structures; introduction to theory of elasticity, stress analysis of thin-walled structures in bending, torsion, and shear, and finite element methods and applications to aerospace structures.

Prerequisite: MATH 340 and MECH 325.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 421 Fundamentals of Wind Energy Credits: 3 (3-0-0)

Course Description: Fundamental concepts and principles of operation of wind turbines, wind resource prospecting, wind turbine siting and layout, economics of wind power generation, and introduction to design of wind turbines.

Prerequisite: (CIVE 260 or MECH 262) and (MATH 261).

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 421 and MECH 481A5.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 424 Advanced Dynamics Credits: 3 (3-0-0)

Course Description: The fundamentals of kinematics and dynamics of rigid bodies with applications to mechanical engineering. Hamilton's principle and Lagrange's equations for lumped-parameter extended bodies and distributed systems.

Prerequisite: MECH 324.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 425 Mechanical Engineering Vibrations Credits: 4 (3-2-0)

Course Description: Vibrations applied to rotating machinery and structures. SDOF and MDOF systems, mode shapes, vibration measurements and control. Hands-on lab.

Prerequisite: MECH 324.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 426 Advanced Machine Design Credits: 3 (3-0-0)

Course Description: Advanced design of mechanical components to avoid / control failure during operation. Design and implementation of specific machine components for real-world applications, including correlations with advanced materials and advanced computational tools.

Prerequisite: (MECH 325) and (MECH 331 or MECH 331A and MECH 331B).

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 427A Study Abroad--Europe: Advanced Machine Design Credits: 3 (0-0-3)

Course Description: Advanced design of mechanical components to avoid / control failure during operation. Design and implementation of specific machine components for real-world applications, including correlations with advanced materials and advanced computational tools. Exploration of global engineering in Europe through guest lectures, discussion with European engineers, and visits to European engineering companies.

Prerequisite: (MECH 325) and (MECH 331 or MECH 331A and MECH 331B).

Registration Information: Written consent of instructor.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 428 Probabilistic Design Credits: 3 (3-0-0)

Course Description: Modeling of uncertainty, probability distributions, determination of distributions from observed data, fundamental reliability analysis methods, Monte-Carlo simulation, reliability-based design, topology optimization, generative design, design for manufacturing, prognostics fundamentals.

Prerequisite: (MATH 261 and MECH 325) and (MECH 231 or STAT 315).

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 431 Metals and Alloys Credits: 3 (3-0-0)

Course Description: Engineering metals and alloys, modification of properties by alloying, plastic deformation, and heat treatment. Fundamentals of physical metallurgy.

Prerequisite: MECH 331 or MECH 331A and MECH 331B.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 432 Engineering of Nanomaterials Credits: 3 (3-0-0)

Course Description: Structure, properties, and processing of extremely small (10 to the minus 9 m) synthetic and natural materials.

Prerequisite: MECH 331 or MECH 331A and MECH 331B.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 434 Materials Selection for Mechanical Design Credits: 3 (3-0-0)

Course Description: Procedures for selecting the optimal material(s) for mechanical engineering design under multiple constraints, including reliability, safety, functionality, cost, and environmental impact.

Prerequisite: (MECH 325) and (MECH 331 or MECH 331A and MECH 331B).

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 434 and MECH 481A3.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 436 Green Engineering--Materials and Environment Credits: 3 (3-0-0)

Also Offered As: MSE 436.

Course Description: Principles of green engineering in the context of materials, human dependence on materials, and the environmental consequences of materials selection. Perspective, background, methods, and data for evaluating and designing with materials to minimize the environmental impact.

Prerequisite: MECH 325 and MECH 331A.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: MECH 436, MECH 481A4, or MSE 436.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 437 Internal Combustion Engines Credits: 3 (2-0-1)

Course Description: Application of thermodynamics, heat transfer, and fluid mechanics to internal combustion engines.

Prerequisite: MECH 344.

Registration Information: Must register for lecture and recitation.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 450 Aerospace Propulsion Credits: 3 (3-0-0)

Course Description: Basic concepts of aerospace propulsion.

Foundational concepts of thermodynamics, compressible flow, and boundary layer theory. Characteristics, operation and analysis of air breathing and rocket propulsion applications.

Prerequisite: MECH 342.

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 450 and MECH 480A8.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 460 Aeronautics Credits: 3 (3-0-0)

Course Description: Thermodynamics and fluid mechanics principles applied to the mechanics, aerodynamics, performance, stability, and control of airplanes.

Prerequisite: MECH 342.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 463 Building Energy Systems Credits: 3 (3-0-0)

Course Description: Comfort, psychrometrics, loads, solar radiation, heating and cooling system design, transport, solar system design, economics.

Prerequisite: MECH 344.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 464 Injection Molding Credits: 3 (3-0-0)

Course Description: Part design, material selection, mold design, processing, post-processing operations, and cost estimation for injection molding.

Prerequisite: (MECH 200 or MECH 200A) and (MECH 301A) and (MECH 331 or MECH 331A and MECH 331B).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 468 Space Propulsion and Power Engineering Credits: 3 (3-0-0)

Course Description: Orbital mechanics and space missions; chemical, nuclear, and electric rockets; nuclear heat sources; thermoelectric and photovoltaic devices.

Prerequisite: ECE 204 and MECH 337 and MECH 342.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 476 Mechanical Engineering Data Analysis in R Credits: 3 (3-0-0)

Course Description: The use of the R language for data analysis in mechanical engineering, including data cleaning and manipulation, exploratory data analysis and visualization, and applications related to sampling and measurement, calibration, figures of merit, and modeling.

Prerequisite: MECH 201.

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 476 and MECH 481A6.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 477 Algorithms in Scientific Computing Credits: 3 (3-0-0)

Course Description: Numerical methods for scientific computing relevant to problems arising in mechanical and aerospace engineering, with an emphasis on applications, mathematical principles and algorithms, code development, and tool building.

Prerequisite: MATH 340 or MATH 345.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 478 Computational Fluid Dynamics Credits: 3 (3-0-0)

Course Description: Introduction to fundamentals of numerical analysis, ordinary differential equations and partial differential equations related to fluid mechanics. Study of error control, stability considerations, and convergence issues. Application of modern CFD software including geometry building, mesh generation, solution methods, and flow analysis and visualization.

Prerequisite: MECH 342.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 486A Engineering Design Practicum: I Credits: 4 (1-6-0)

Course Description: Capstone engineering design project; transition experience to the mechanical engineering profession in industry and graduate education.

Prerequisite: (MECH 301 or MECH 301B, may be taken concurrently and MECH 301A) and (MECH 307) and (MECH 324, may be taken concurrently or MECH 325, may be taken concurrently) and (MECH 331 or MECH 331A and MECH 331B) and (MECH 344).

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 486B Engineering Design Practicum: II Credits: 4 (1-6-0)

Course Description: Capstone engineering design project; transition experience to the mechanical engineering profession in industry and graduate education.

Prerequisite: MECH 301B and MECH 324 and MECH 325 and MECH 338 and MECH 486A.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 495 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MECH 498A Engineering Research Practicum: I Credits: 4 (1-6-0)

Course Description: Capstone engineering research project; transition experience to graduate research and education.

Prerequisite: (MECH 301 or MECH 301A and MECH 301B, may be taken concurrently) and (MECH 307) and (MECH 324, may be taken concurrently or MECH 325, may be taken concurrently) and (MECH 331 or MECH 331B and MECH 344 and MECH 331A).

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 498B Engineering Research Practicum: II Credits: 4 (1-6-0)

Course Description: Capstone engineering research project; transition experience to graduate research and education.

Prerequisite: MECH 301B and MECH 324 and MECH 325 and MECH 338 and MECH 498A.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 502 Advanced/Additive Manufacturing Engineering Credits: 3 (3-0-0)

Course Description: Materials, controls, and mechanics applied to additive manufacturing; rapid prototyping; direct digital manufacturing.

Prerequisite: (MECH 202) and (MECH 331 or MECH 331A and MECH 331B).

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 505 Steam Power Plants Credits: 3 (3-0-0)

Course Description: Technology review and application of engineering sciences and economics to the analysis and design of vapor power generation systems. Vapor power cycles, steam generation, and auxiliary systems associated with power plants. Overall design of power plants as well as component design. Fossil fuel and nuclear energy systems are considered.

Prerequisite: MECH 337.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered: Online. Required field trips. Credit not allowed for both MECH 505 and MECH 581A3.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 507 Laser Diagnostics for Thermosciences Credits: 3 (3-0-0)

Course Description: Basics of optics, spectroscopy, and lasers. Physics and applications of laser diagnostic techniques used in thermosciences.

Prerequisite: PH 142.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 509 Design and Analysis in Engineering Research Credits: 3 (3-0-0)

Course Description: Design, model building, analysis and reporting in engineering and manufacturing research and experimentation.

Prerequisite: MATH 340 and STAT 315.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 513 Simulation Modeling and Experimentation Credits: 3 (3-0-0)

Course Description: Logic/analytic modeling in simulations. Event and transient entity-based simulation languages. Simulation design, experimentation and analysis.

Prerequisite: STAT 315.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 515 Advanced Topics in Mechanical Vibrations Credits: 3 (2-2-0)

Course Description: Structural modal analysis, rotordynamics, and torsional vibrations. Lectures are supported with practical application labs.

Prerequisite: MECH 324.

Registration Information: Junior standing. Must register for lecture and laboratory.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 516 Life Cycle and Techno-Economic Assessment Credits: 3 (3-0-0)

Course Description: Techniques for effective sustainability assessment of engineering process and products, including factors such as upstream energy and material burdens, model boundaries, sensitivity analysis, end of life, material and energy recycling, scalability, and optimization. Engineering process models will be used to assess technologies through economic feasibility and life cycle impacts.

Prerequisite: (MECH 331 or MECH 331A and MECH 331B) and (MECH 344).

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 516 and MECH 681A3.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 517 Chemical Rocket Propulsion Credits: 3 (3-0-0)

Course Description: Principles of chemical rocket propulsion theory, including practical applications of rocket propulsion system design and analysis.

Prerequisite: MECH 342.

Registration Information: Credit not allowed for both MECH 517 and MECH 581A4.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

MECH 518 Orbital Mechanics Credits: 3 (3-0-0)

Course Description: Orbital elements, motion, and analyses, including the design and characterization of the common orbit regimes and orbital maneuver options and design. Emphasis on developing technical analytical capabilities, engineering judgement, and intuitive understanding of orbital maneuvers.

Prerequisite: MATH 340 and PH 142.

Restriction: Must be a: Graduate.

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 518 and MECH 580B3.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 519 Aerospace Vehicles Trajectory and Performance Credits: 3 (3-0-0)

Course Description: Trajectory modeling physics and philosophy, and implementation of theories to create and optimize trajectories to several orbits. Launch vehicle conceptual design and sizing, optimal staging, and definition of margins and prediction of mission losses.

Prerequisite: MATH 340 and PH 142.

Restriction: Must be a: Graduate.

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 519 and MECH 580B4.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 520 Finite Element Analysis in Mechanical Engr Credits: 3 (3-0-0)

Course Description: Application of FEA as a tool to analyze mechanical engineering problems.

Prerequisite: (CIVE 360) and (MATH 340 or MATH 530).

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 524 Principles of Dynamics Credits: 3 (3-0-0)

Course Description: Kinematics and dynamics of rigid body motion; Lagrangian and Hamiltonian formulations of mechanics; applications to engineering problems.

Prerequisite: MECH 324.

Restriction: Must be a: Graduate.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 525 Cell and Tissue Engineering Credits: 3 (3-0-0)

Also Offered As: BIOM 525.

Course Description: Cell and tissue engineering concepts and techniques with emphasis on cellular response, cell adhesion kinetics, and tissue engineering design.

Prerequisite: BC 351 or BMS 300 or BMS 500 or BZ 310 or NB 501.

Registration Information: Credit only allowed for one of the following: MECH 525, BIOM 525, and CBE 525. Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 527 Hybrid Electric Vehicle Powertrains Credits: 3 (3-0-0)

Course Description: Hybrid powertrains and modeling including vehicle dynamics, internal combustion engine, electric motor, energy storage, and control.

Prerequisite: MECH 307.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 529 Advanced Mechanical Systems Credits: 3 (3-0-0)

Course Description: Modeling, analysis, and synthesis of practical mechanical devices in which dynamic response is dominant consideration.

Prerequisite: MECH 307.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 530 Advanced Composite Materials Credits: 3 (3-0-0)

Course Description: Materials aspects of advanced composite constituents and how their combination yields synergistic results.

Prerequisite: (CIVE 360) and (MECH 331 or MECH 331A and MECH 331B).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 531 Materials Engineering Credits: 3 (3-0-0)

Also Offered As: BIOM 531.

Course Description: Selection of structural engineering materials by properties, processing, and economics; materials for biomedical and biotechnology applications.

Prerequisite: MECH 331 or MECH 331A and MECH 331B or MECH 431.

Registration Information: Credit not allowed for both BIOM 531 and MECH 531. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 532 Materials Issues in Mechanical Design Credits: 3 (3-0-0)

Also Offered As: BIOM 532.

Course Description: Failure mechanisms from materials viewpoint with emphasis on use in design. Fracture, creep, fatigue, and corrosion.

Prerequisite: MECH 331 or MECH 331A and MECH 331B.

Registration Information: Credit not allowed for both BIOM 532 and MECH 532. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 533 Composites Product Development Credits: 3 (2-2-0)

Course Description: Practical application of advanced fiber reinforced materials in mechanical design, including composite constituent materials selection, performance, analysis, and manufacturing.

Prerequisite: (CIVE 360) and (MECH 331 or MECH 331A and MECH 331B).

Registration Information: Graduate standing. Must register for lecture and laboratory. Credit not allowed for both MECH 533 and MECH 580A6.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 534 Energy & Env. Impacts of Transportation Credits: 3 (3-0-0)

Course Description: Energy use and environmental impacts of the transportation sector. Topics include vehicle design, dynamics and efficiency; combustion and emission formation; internal combustion engines, fuel cells, batteries, and powertrains; conventional and alternative fuels; travel demand and modes; and life cycle analysis and criteria pollutant emissions.

Prerequisite: MECH 337.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered: Online. Credit not allowed for both MECH 534 and MECH 580A8.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 535 Mechanics of Composite Materials Credits: 3 (3-0-0)

Course Description: Classical lamination theory of fiber-reinforced composite materials; Mechanical behavior of composite laminates and honeycomb structures; Failure modes and failure criteria. Design of composite structures; Computer modeling of composites.

Prerequisite: (MATH 340 and MECH 325) and (MECH 331 or MECH 331A and MECH 331B).

Registration Information: Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 537 Processing of Polymer Composites Credits: 3 (3-0-0)

Course Description: Basic principles of the processing science of polymer composites, physical and chemical phenomena that occur during manufacturing processes, and solutions to address issues that arise.

Prerequisite: (CIVE 360) and (MECH 331 or MECH 331A and MECH 331B).

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 537 and MECH 581A9.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 538 Mechanical Engineering Thermodynamics Credits: 3 (3-0-0)

Course Description: First and second laws of thermodynamics applied to engineering devices and systems. Introduction to exergy, equilibrium, chemical reactions, thermodynamic relations, and special topics.

Prerequisite: MECH 337.

Restriction: .

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 539 Advanced Fluid Mechanics Credits: 3 (3-0-0)

Course Description: Kinematics, Navier-Stokes equations, vorticity, viscous flows, scaling analysis, boundary layers, secondary flows, entropy generation and transport, stability and transition, turbulence.

Prerequisite: CIVE 300 or MECH 342.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 543 Biofluid Mechanics Credits: 3 (3-0-0)

Course Description: Fluid dynamic concepts for understanding fluid motion in living organs/organisms; advanced research applications.

Prerequisite: (BIOM 421 or CBE 331 or CIVE 300 or MECH 342) and (BMS 300 and PH 121 or PH 141 and BMS 300 or BMS 420).

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 544 Advanced Heat Transfer Credits: 3 (3-0-0)

Course Description: Fundamentals and engineering applications of heat transfer including conduction, convection, and radiation.

Prerequisite: MECH 344.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 551 Physical Gas Dynamics I Credits: 3 (3-0-0)

Course Description: Characteristics of real gases in reacting and nonequilibrium systems; equilibrium air; statistical mechanics, chemical thermodynamics.

Prerequisite: MECH 342.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 552 Applied Computational Fluid Dynamics Credits: 3 (3-0-0)

Course Description: Introductory theory of CFD, formulation of engineering problems for CFD analyses, mesh generation, solver settings, and postprocessing.

Prerequisite: CIVE 300 or CBE 331 or MECH 342.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 553 Industrial Engines Credits: 3 (3-0-0)

Course Description: Technology review, and application of engineering sciences and economics to the analysis and design of large industrial engines. Combustion cycles, fuels, emissions control, and auxiliary systems associated with industrial engines are examined. Study overall systems design of engines as well as application requirements and design limitations.

Prerequisite: MECH 337.

Restriction: Must be a: Graduate.

Registration Information: Sections may be available: Online. Credit not allowed for MECH 553 and MECH 580B1.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 557 Turbomachinery Credits: 3 (3-0-0)

Course Description: Application of fundamental principles of thermodynamics and fluid mechanics to turbomachinery. Topics include types of turbomachines, selection of an appropriate fluid machinery, derivation of energy transfer equations, engineering analysis and design, and performance characteristics.

Prerequisite: MECH 337 and MECH 342.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 558 Combustion Credits: 3 (3-0-0)

Course Description: Combustion processes: explosions, detonations, flame propagation, ignition, generation of pollutants in moving and stationary energy conversion systems.

Prerequisite: MECH 342.

Registration Information: Sections may be offered: Online.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 564 Fundamentals of Robot Mechanics and Controls Credits: 3 (3-0-0)

Course Description: Kinematics of robots, controls for robots.

Prerequisite: MECH 417.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 567 Broad-Beam Ion Sources Credits: 3 (3-0-0)

Course Description: Physical processes in broad-beam electron-bombardment ion sources for space propulsion and ion machining applications.

Prerequisite: MATH 340.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 568 Computational Methods for Mechanical Eng. Credits: 3 (3-0-0)

Course Description: Fundamental principles which provide the foundation for the software and algorithms used in Mechanical Engineering.

Sections may be offered: Online.

Prerequisite: MATH 450 or MATH 451.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 569 Micro-Electro-Mechanical Devices Credits: 3 (3-0-0)

Also Offered As: ECE 569.

Course Description: Micro-electro-mechanical processes and applications in sensors, optics, and structures.

Prerequisite: MECH 344 with a minimum grade of C or ECE 331 with a minimum grade of C.

Registration Information: Credit not allowed for both ECE 569 and MECH 569. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 570 Bioengineering Credits: 3 (3-0-0)

Also Offered As: BIOM 570.

Course Description: Physiological and medical systems analysis using engineering methods including mechanics, fluid dynamics, control electronics, and signal processing.

Prerequisite: CBE 332 or ECE 311 or MECH 331A.

Registration Information: Sections may be offered: Online. Credit not allowed for both BIOM 570 and MECH 570.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 572 Regenerative Bioengineering with Stem Cells Credits: 3 (3-0-0)

Also Offered As: BIOM 572.

Course Description: Current status and future direction of bioengineering and regenerative technologies with stem cells. Topics include tissue-specific applications of pluripotent stem cells and multipotent adult stem cells, genetic and epigenetic engineering, organoids, and manufacturing, including scale-up, sorting and preservation.

Prerequisite: BC 351 or BMS 300 or BZ 310.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: BIOM 572, BIOM 580A9, MECH 572, or MECH 580A9.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 573 Structure and Function of Biomaterials Credits: 3 (3-0-0)

Also Offered As: BIOM 573.

Course Description: Structure-function relationships of natural biomaterials; application to analysis of biomimetic materials and biomaterials used in medical devices.

Prerequisite: MECH 331 or MECH 331A and MECH 331B.

Registration Information: Sections may be offered: Online. Credit not allowed for both BIOM 573 and MECH 573.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 574 Bio-Inspired Surfaces Credits: 3 (3-0-0)

Also Offered As: BIOM 574.

Course Description: Analysis of surface functionalities of various biological species; identification of design principles.

Prerequisite: MECH 342 and CHEM 111.

Registration Information: Sections may be offered: Online. Credit not allowed for both BIOM 574 and MECH 574.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 575 Solar and Alternative Energies Credits: 3 (3-0-0)

Course Description: Solar radiation, flat-plate collectors, energy storage, space heating and cooling, power generation, applications, simulation.

Prerequisite: MECH 337 and MECH 342 and MECH 344.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 576 Quantitative Systems Physiology Credits: 4 (4-0-0)

Also Offered As: BIOM 576.

Course Description: Quantitative, model-oriented approach to cellular and systems physiology with design examples from biomedical engineering.

Prerequisite: BMS 300 and CHEM 113 and MATH 340 and PH 142.

Registration Information: Credit not allowed for both BIOM 576 and MECH 576. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 577 Aerosol Physics and Technology Credits: 3 (3-0-0)

Course Description: Aerosols and their applications in science and engineering, air pollution control, atmospheric science, and public health. Topics cover the physical and chemical principles underlying the behavior of particles suspended in air, including particle size, aerodynamics, motion of particles in a force field, particle size statistics, and optical and electrical properties.

Prerequisite: PH 141.

Registration Information: Senior standing. Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 578 Musculoskeletal Biosolid Mechanics Credits: 3 (3-0-0)

Also Offered As: BIOM 578.

Course Description: Application of engineering concepts to quantify the mechanical behavior of load-bearing biological tissues and orthopaedic implant performance.

Prerequisite: CIVE 360.

Registration Information: Graduate standing. Sections may be offered: Online. Credit not allowed for both BIOM 578 and MECH 578.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 579 Cardiovascular Biomechanics Credits: 3 (3-0-0)

Also Offered As: BIOM 579.

Course Description: Bio-mechanical principles and approaches applied in cardiovascular research.

Prerequisite: MATH 340 and PH 142.

Restriction: Must be a: Graduate.

Registration Information: Graduate students only. Sections may be offered: Online. Credit allowed for only one of the following: BIOM 579, BIOM 581A8, MECH 579, or MECH 581A8.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 628 Applied Fracture Mechanics Credits: 3 (3-0-0)

Course Description: Stress distribution near cracks; energy criteria for fracture; design criteria; fracture toughness testing.

Prerequisite: CIVE 560.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 630 Biologically Inspired Robotics Credits: 3 (3-0-0)

Course Description: Analysis of various locomotion methods (e.g. terrestrial, aquatic, and aerial) found in animals or insects and examination of a variety of biologically inspired robots utilizing these locomotion capabilities.

Prerequisite: MECH 564.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online. Credit not allowed for both MECH 630 and MECH 681A4.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 631 Defects in Crystals Credits: 3 (3-0-0)

Also Offered As: MSE 631.

Course Description: Mechanics, thermodynamics and kinetics of defects in crystalline solids including point defects, dislocations, and grain boundaries.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: MECH 631, MSE 631, or MECH 681A2.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 657 Advanced Computational Gas Dynamics Credits: 4 (3-2-0)

Course Description: Advanced computational algorithms for gas dynamics.

Prerequisite: MECH 568.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

MECH 658 Advanced Combustion Theory and Modeling Credits: 3 (3-0-0)

Course Description: Asymptotic structure of flames, limit phenomena and multi-phase combustion.

Prerequisite: MECH 558.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 661 Theory/Control of Internal Combustion Engines Credits: 3 (3-0-0)

Course Description: Theory and applications of internal combustion engines. Alternative fuels, engine control, and pollution prevention.

Prerequisite: MECH 437.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 671 Orthopedic Tissue Biomechanics Credits: 3 (3-0-0)

Also Offered As: BIOM 671.

Course Description: Linear elastic, finite deformation, and viscoelastic theories applied to the mechanical behavior of orthopedic tissues (bone, tendon, cartilage).

Prerequisite: CIVE 560.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both BIOM 671 and MECH 671.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

MECH 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

MECH 692 Seminar Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

MECH 695A Independent Study: Bioengineering Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MECH 695B Independent Study: Energy Conversion Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MECH 695C Independent Study: Environmental Engineering Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MECH 695D Independent Study: Heat and Mass Transfer Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MECH 695E Independent Study: Industrial and Systems Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MECH 695F Independent Study: Mechanics and Design Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MECH 695G Independent Study: Computer-Assisted Engineering Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

MECH 695H Independent Study: Robotics Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MECH 695I Independent Study: Solar Engineering Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MECH 695J Independent Study: Computational Fluids Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MECH 695K Independent Study: Materials Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MECH 695L Independent Study: Plasma Engineering Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MECH 695M Independent Study: Motorsport Engineering Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**MECH 699A Thesis: Bioengineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MECH 699B Thesis: Energy Conversion Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MECH 699C Thesis: Environmental Engineering Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MECH 699D Thesis: Heat and Mass Transfer Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MECH 699E Thesis: Industrial and Systems Engineering Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MECH 699F Thesis: Mechanics and Design Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MECH 699G Thesis: Computer-Assisted Engineering Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MECH 699H Thesis: Robotics Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**MECH 699I Thesis: Solar Engineering Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.

Major in Mechanical Engineering

Is making a difference important to you? Do you like putting ideas and designs to work? Are you interested in collaborating and working in teams with others? Would you enjoy the challenge of inventing sustainable energy devices, leading computer-aided product design, or biomedical research? Does creating new designs for the hybrid electric vehicle industry, or new airplanes in the fields of aeronautics and aerospace sound interesting? Would designing or doing research and development in a wide range of industrial and governmental enterprises appeal to you? Does studying thermal sciences and the integration of electronic and mechanical devices interest you? If your answer to any of these questions is “yes,” then a major in Mechanical Engineering may be for you.

Mechanical engineers are creative problem solvers who design, develop, and manufacture the machines and instrumentation that run energy, building, environmental, and transportation systems. Examples include biomedical devices, ground/air/space vehicles, robots, environmental control equipment, and power plants.

In Mechanical Engineering, students take basic science and mathematics courses while beginning their engineering studies in design and computing. A broad spectrum of classes is designed to sharpen problem-solving skills. The senior year focuses on a year-long capstone design course to help students in the transition from college to an engineering career. Students also choose technical electives from the energy, automotive, material science, manufacturing, dynamic systems, robotics and controls, simulation and modeling, and biomedical engineering areas. Participation in labs provides an active learning environment and further develops design, modeling, and analytical skills.

Mechanical Engineering at CSU is dedicated to graduating ethical mechanical engineers who:

- Make an impact on society’s global, grand engineering challenges.
- Act as innovative and creative engineering designers who identify, analyze, and solve complex problems.
- Function as accomplished thinkers with hands-on practical skills.
- Serve as local, regional, and global collaborators and communicators.
- Commit to life-long learning.
- Uphold the CSU Principles of Community which encompass inclusion, integrity, respect, service, and social justice.

Learning Objectives

Mechanical Engineering Bachelor of Science graduates will be able to accomplish the following within the first few years after graduation:

1. Identify, analyze, formulate, and solve complex engineering problems associated with their professional position, both independently and in a team environment.

2. Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
4. Manage multi-faceted and multi-disciplinary projects with significant legal, ethical, regulatory, social, environmental, and economic considerations using a broad systems perspective.
5. Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
6. Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
7. Communicate effectively with colleagues, professional clients, and the public.
8. Demonstrate commitment and progress in lifelong learning, professional development, and leadership.

Potential Occupations

Graduates from the Department of Mechanical Engineering are expected to have the fundamental knowledge required for the successful practice of mechanical engineering. CSU engineering graduates are well prepared for a professional career. The Department boasts a 100% pass rate on the Fundamentals of Engineering professional examination. Participating in internships, co-curricular and volunteer activities, and cooperative education opportunities is highly recommended to enhance practical training and development. Students who continue on to pursue a graduate education can attain more responsible positions with the possibility of rising to top professional levels.

Major in Mechanical Engineering, Advanced Manufacturing Concentration

Advanced Manufacturing explores manufacturing techniques, automation, simulation, and processing of materials. This concentration is available to all mechanical engineering students who wish to delve

deeper into manufacturing topics. Students will have a solid foundation in manufacturing topics through their mechanical engineering major. With the addition of the concentration in advanced manufacturing, students will earn a specialized focus in advanced manufacturing, providing additional depth in this topic area.

Major in Mechanical Engineering, Aerospace Engineering Concentration

Aerospace engineering covers the design, construction, and science of aircraft and spacecraft. Designed for undergraduate mechanical engineering majors, the aerospace concentration offers students a mechanical engineering degree foundation and specialized training in the aerospace discipline. Coursework will focus on aerospace fundamentals,

including fluid flow mechanics, propulsion, materials, and manufacturing. The required courses will provide an introduction to the processing steps required in aerospace development, with a focus on the design, manufacturing, and life cycle costs of a specific product.

Graduate Certificate in Advanced Manufacturing

The Graduate Certificate in Advanced Manufacturing provides students with the basic competencies, skills, and experience needed to advance their careers in a manufacturing industry. A graduate certificate requires completion of 9 credits of 500-level and above graduate work. Students may apply for and complete just the certificate or may apply for both the certificate and a degree program. This allows students to start with the certificate and continue to a more advanced degree.

[Students interested in graduate work should refer to the Graduate and Professional Bulletin.](#)

Learning Objectives

Students will:

1. Interpret and optimize manufacturing operations given an understanding of manufacturing support systems.
2. Identify and apply the appropriate manufacturing processes for a product given its specification and material properties.
3. Implement and integrate fundamental principles, critical technologies, processing parameters, and strengthening mechanisms of materials towards manufacturing applications.

Requirements Effective Spring 2022

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Select 9 credits from the following courses:		9
MECH 502	Advanced/Additive Manufacturing Engineering	
MECH 513	Simulation Modeling and Experimentation	
MECH 529	Advanced Mechanical Systems	
MECH 530	Advanced Composite Materials	
MECH 531/ BIOM 531	Materials Engineering	
MECH 533	Composites Product Development	
MECH 537	Processing of Polymer Composites	
MECH 564	Fundamentals of Robot Mechanics and Controls	
MSE 502A	Materials Science & Engineering Methods: Materials Structure and Scattering	

Program Total Credits: 9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Aerospace Engineering

The Graduate Certificate in Aerospace Engineering provides an introduction to aerospace engineering disciplines, including fluid flow, propulsion, and structures. A graduate certificate requires completion of 9 credits of 500-level and above graduate work. Students may apply for and complete just the certificate or may apply for both the certificate and a degree program. This allows students to start with the certificate and continue to a more advanced degree.

[Students interested in graduate work should refer to the Graduate and Professional Bulletin.](#)

Learning Objectives

Students will:

1. Interpret and distinguish space science and engineering and their interrelationship.
2. Extend space-related knowledge beyond baccalaureate level.
3. Conceive, design, manufacture, manage, and operate complex space systems.
4. Design space systems, develop projects, and manage projects.

Requirements Effective Fall 2023

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Select 9 credits from the following courses:		9
MECH 507	Laser Diagnostics for Thermosciences	

MECH 515	Advanced Topics in Mechanical Vibrations
MECH 517	Chemical Rocket Propulsion
MECH 518	Orbital Mechanics
MECH 519	Aerospace Vehicles Trajectory and Performance
MECH 520	Finite Element Analysis in Mechanical Engr
MECH 539	Advanced Fluid Mechanics
MECH 551	Physical Gas Dynamics I
MECH 552	Applied Computational Fluid Dynamics
MECH 557	Turbomachinery
MECH 558	Combustion
MECH 567	Broad-Beam Ion Sources
MECH 568	Computational Methods for Mechanical Eng.
MECH 658	Advanced Combustion Theory and Modeling

Program Total Credits: 9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Master of Engineering, Plan C, Mechanical Engineering Specialization

The Master of Engineering, Plan C, Mechanical Engineering Specialization is an online or on-campus degree program focused on enhancing the expertise of working professionals or continuing students who are looking to keep up with the pace of innovation within their industry and advance in their careers. Engineers who want to further their careers with industrial firms and governmental agencies or those who want to pursue a career in private practice should consider this degree. This is a coursework-only degree program with no thesis requirement.

[Students interested in graduate work should refer to the Graduate and Professional Bulletin.](#)

Learning Objectives

Students will:

1. Apply knowledge of mathematics and science towards mechanical engineering problems.
2. Identify, formulate, and solve mechanical engineering problems.
3. Communicate effective mechanical engineering concepts.
4. Have knowledge of and recognize the need for lifelong learning.
5. Learn and develop techniques, skills and tools necessary for mechanical engineering practice.

Requirements Effective Summer 2023

General Program Requirements:

- Minimum 30 total credits of regular coursework (i.e. courses that are not numbered -8* or -9*)
- Minimum 21 credits, taken at CSU, that are 500-level or above

- Minimum 24 credits of MECH subject code coursework
- Minimum 21 credits taken after program admission

Students can take any courses as long as they meet the broad program requirements, above. Students who are specifically interested in the disciplines of materials engineering or biomedical engineering may find the elective guides, below, helpful in identifying coursework.

Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees in the Graduate and Professional Bulletin.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration

6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Master of Science in Mechanical Engineering, Plan A

The Master of Science in Mechanical Engineering, Plan A is ideal for students who are interested in advancing their career in industry or research. The program combines valuable classroom instruction with research experiences. Students conduct research under the supervision of a faculty advisor, often the Principal Investigator (P.I.), for a government or industry sponsored project. The student's research, in conjunction with thesis credits and coursework, culminates in an article for submission to a peer-reviewed journal and a final thesis.

Students interested in graduate work should refer to the Graduate and Professional Bulletin.

Learning Objectives

- Bring together faculty members and graduate students in a diverse community of scholars having a common interest in advanced professional study and creative work.
- Extend the boundaries of the mechanical engineering profession by developing advanced technologies to provide creative solutions to global problems such as energy, environment and human health.
- Consideration of a challenging problem utilizing analytical, experimental, and/or design techniques 1) to determine and explain

the behavior of a simple system or 2) to bring into logical order the techniques of a field which has experienced random growth.

- Develop new analytical knowledge, experimental knowledge, design knowledge, or a combination thereof.

Requirements Effective Fall 2023

Code	Title	Credits
Select 2 courses from the following:		6-7
CBE 521	Mathematical Modeling for Chemical Engineers	
CIVE 560	Advanced Mechanics of Materials

Ph.D. in Mechanical Engineering

The Ph.D. in Mechanical Engineering is ideal for students looking to pursue advanced-level careers in industry, research, or academia. Students pursuing a Ph.D. in Mechanical Engineering undertake advanced research under the mentorship of a faculty advisor (Principal Investigator), most often on a government or industry funded project as a paid research assistant. The degree plan involves consideration of a challenging problem utilizing analytical, experimental, and/or design techniques. This research – in addition to coursework, exams, journal articles, and dissertation credits – culminates in a final dissertation. The dissertation contains new analytical knowledge, experimental knowledge, design knowledge, or a combination thereof. The dissertation must make an original contribution to the field.

[Students interested in graduate work should refer to the Graduate and Professional Bulletin.](#)

Learning Objectives

1. Bring together faculty members and graduate students in a diverse community of scholars having a common interest in advanced professional study and creative work.
2. Extend the boundaries of the mechanical engineering profession by developing advanced technologies to provide creative solutions to global problems such as energy, environment and human health.

School of Biomedical Engineering

Scott Bioengineering Building, Suite 225
[engr.colostate.edu/sbme/](http://www.engr.colostate.edu/sbme/) (<http://www.engr.colostate.edu/sbme/>)
 (970) 491-7157

Professor Stuart Tobet, Director
 Professor Sam Bechara, Interim Director, Undergraduate Programs

The School of Biomedical Engineering (SBME) stands on a foundation of strong faculty and research programs from four CSU colleges: the Walter Scott, Jr. College of Engineering, and the Colleges of Health and Human Sciences, Natural Sciences, and Veterinary Medicine & Biomedical Sciences. The unique structure of the School involves over 70 faculty members representing 14 departments to provide an interdisciplinary focus on improving health, fighting disease, and aiding persons with disabilities. Academic excellence across diverse fields converges into three primary areas of research: (1) regenerative and rehabilitative medicine, (2) imaging and diagnostics, and (3) medical devices and therapeutics.

At the graduate level, SBME offers a Master of Science and a Doctor of Philosophy in Bioengineering, and a Master of Engineering (online and on campus) with a specialization in Biomedical Engineering. See the Graduate and Professional Bulletin for graduate program listings. The Walter Scott, Jr. College of Engineering offers a Bachelor of Science in Biomedical Engineering with a unique five-year program where graduates receive two B.S. degrees: one in Biomedical Engineering and the other in one of four traditional engineering areas - Chemical & Biological Engineering, Computer Engineering, Electrical Engineering, or Mechanical Engineering. An undergraduate Biomedical Engineering Interdisciplinary Minor is also offered.

Biomedical engineering lies at the interface of engineering, biology, and medicine. With over 40 state-of-the-art biomedical and engineering research labs, including the world-renowned Veterinary Teaching Hospital and Animal Cancer Center, we offer hands-on experience for undergraduate and graduate students to work alongside leading researchers. CSU provides a rich environment for interdisciplinary research and day-to-day collaborations and is positioned to offer unique bioengineering degree programs due to our faculty expertise, the interdisciplinary nature of the SBME, and the highly-ranked veterinary program. Our Biomedical Engineering programs integrate biological, chemical, physical, and mathematical sciences with engineering principles and clinical studies, and our graduates are well prepared for careers in research, education, veterinary or human medicine, and industry.

Biomedical engineers are involved in a wide variety of activities on a daily basis. Practical applications of biomedical engineering include development, design, production, research, and/or teaching in areas such as:

- Designing biomedical materials, medical devices, instrumentation and equipment (software/firmware/hardware) for therapeutics such as pacemakers, assistive devices, joint replacement materials, prosthetics, surgical tools.
- Developing or improving therapies for fighting cancer, tuberculosis, or other illnesses and diseases (e.g., nanoscaffolding for localized chemotherapy delivery, telemetric sensors to determine healing rates in bone fractures or to detect key chemicals in live tissue with high temporal and spatial resolution).
- Finding better ways to image and/or diagnose illnesses (e.g., using laser-based imaging to detect viruses, developing ways to increase electrical signals to detect threats to food safety and security, designing biosensors to diagnose cancer cells, developing software to determine toxic pesticide levels in people).

Potential Occupations

Biomedical engineering applies engineering principles to medicine and improving quality of life for humans and animals. Biomedical engineers work in a variety of settings. Some biomedical engineers spend their days in the lab, researching new devices and systems that solve medical and health care-related problems. Others might work in clinical settings, run biomedical-focused enterprises, design/manufacture new therapies or diagnostics, assist medical facilities with engineering equipment, processes and/or systems, or engage in regulatory affairs or patent law. Our graduates are well prepared for careers in research, education, or industry.

Undergraduate Undergraduate Bachelor of Science Programs in Biomedical Engineering

The Bachelor of Science program in Biomedical Engineering has five pathways, each of which provide depth in a traditional area of engineering and breadth in biomedical engineering knowledge and applications. The coursework in these five pathways is designed to support biomedical engineering, and to satisfy the curricular requirements of one of five traditional engineering degrees as administered by partner engineering departments.

The five curricular pathways for the BME B.S. degree are:

1. B.S. degree in Biomedical Engineering combined with a B.S. degree in Chemical and Biological Engineering
2. B.S. degree in Biomedical Engineering combined with a B.S. degree in Computer Engineering
3. B.S. degree in Biomedical Engineering combined with a B.S. degree in Electrical Engineering, Electrical Engineering Concentration
4. B.S. degree in Biomedical Engineering combined with a B.S. degree in Electrical Engineering, Laser and Optical Concentration
5. B.S. degree in Biomedical Engineering combined with a B.S. degree in Mechanical Engineering

Each BME pathway requires a minimum of 157-158 credit hours of coursework, depending on the selected pathway, nominally distributed over five years.

In the first two years, students take introductory biomedical engineering courses as well as foundational math, science, and engineering courses. The third year and fourth years solidify expertise in the traditional engineering major while building strength in biomedical engineering, life and physical sciences courses. The following years allow students to build a more thorough understanding of biomedical engineering, and their studies culminate in a Senior Design project in the fifth year that provides hands-on experience with an interdisciplinary team of peers. This combination of practical application and traditional academic rigor support the breadth and depth of this fairly unique program, and provides excellent preparation and market value for graduates' next steps in industry, academia, or research.

The Bachelor of Science in Biomedical Engineering at Colorado State University is accredited by the Accreditation Board for Engineering and Technology (ABET). It was first accredited in 2016, and this accreditation is retroactive for all prior graduates of the B.S. in biomedical engineering program. The partner majors include electrical engineering (EE), chemical and biological engineering (CBE), and mechanical engineering (MECH) and these three degree programs are accredited by the Engineering Accreditation Commission of ABET.

Learning Objectives

The educational objectives of the Biomedical Engineering program are to prepare our students to:

1. Demonstrate high professional, social, and ethical standards while examining and addressing the global impact of technology to improve quality of life in society and environment
2. Apply broad and deep knowledge, practical experiences, and creativity to solving problems at the interface of engineering and the life sciences as individuals and team members
3. Use their multidisciplinary background to foster communication and collaboration across professional and disciplinary boundaries
4. Recognize and expand the scope of their knowledge, continue self-directed learning, and identify and create professional opportunities for themselves and others

Successful graduates in Biomedical Engineering will have the ability to:

1. Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. Communicate effectively with a range of audiences
4. Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. Function effectively on a multidisciplinary team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. Acquire and apply new knowledge as needed, using appropriate learning strategies
8. Apply principles of engineering, biology, human physiology, chemistry, calculus-based physics, mathematics (through differential equations), and statistics;

9. Solve bio/biomedical engineering problems, including those associated with the interaction between living and non-living systems;
10. Analyze, model, design, and realize bio/biomedical engineering devices, systems, components, or processes; and
11. Make measurements on and interpret data from living systems

BME Bachelor of Science Programs

- Biomedical Engineering, B.S. combined with Chemical and Biological Engineering, B.S.
- Biomedical Engineering, B.S. combined with Computer Engineering, B.S.
- Biomedical Engineering, B.S. combined with Electrical Engineering, B.S., Electrical Engineering Concentration
- Biomedical Engineering, B.S. combined with Electrical Engineering, B.S., Lasers and Optical Engineering Concentration
- Biomedical Engineering, B.S. combined with Mechanical Engineering, B.S.

Undergraduate Certificate

- Certificate in Global Biomedical Engineering

Graduate Graduate Program in Biomedical Engineering

Students interested in graduate work should refer to the Graduate and Professional Bulletin (<http://catalog.colostate.edu/general-catalog/graduate-bulletin/>) or the (<http://www.engr.colostate.edu/ce/degreeinfo.shtml/>) School of Biomedical Engineering (<https://www.engr.colostate.edu/sbme/graduate-programs/>).

Certificate

- Biomaterials and Tissue Engineering

Master's Programs

- Master of Engineering, Plan C, Biomedical Engineering Specialization
- Master of Science in Bioengineering

Ph.D.

- Ph.D. in Bioengineering

Courses

Biomedical Engineering (BIOM)

BIOM 100 Overview of Biomedical Engineering Credit: 1 (1-0-0)

Course Description: Overview of the field of biomedical engineering with an emphasis on the roles of mechanical, electrical, and chemical/biological engineering principles.

Prerequisite: None.

Restriction: Must be a: Undergraduate.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: BIOM 100, BIOM 101, BIOM 109, or BIOM 180A1.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 101 Introduction to Biomedical Engineering Credits: 3 (3-0-0)

Course Description: Basic principles, fundamentals in biomedical engineering including molecular, cellular and physiological principles, major areas such as biomechanics.

Prerequisite: None.

Registration Information: Credit allowed for only one of the following: BIOM 100, BIOM 101, BIOM 109, or BIOM 180A1. Credit not allowed for both BIOM 101 and BIOM 200.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 109 Principles of Biomedical Engineering Credit: 1 (1-0-0)

Course Description: Fundamental principles of biomedical engineering and commonalities with mechanical, electrical, and chemical/biological engineering. Emphasis on the application of engineering design in a biomedical context. Introduction to industrial and academic career paths.

Prerequisite: None.

Registration Information: Offered as an online course only. Only offered for high school students who are concurrently enrolled in the complementary in-person course at a participating high school. Credit allowed for only one of the following: BIOM 100, BIOM 101, BIOM 109, or BIOM 180A1.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 200 Fundamentals of Biomedical Engineering Credits: 2 (2-0-0)

Course Description: Application of engineering analysis to physiology and biomedical engineering topics.

Prerequisite: BIOM 100, may be taken concurrently and LIFE 102 and MATH 160.

Restriction: Must be a: Undergraduate.

Registration Information: Sections may be offered: Online. Credit not allowed for both BIOM 101 and BIOM 200.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 300 Problem-Based Learning Biomedical Engr Lab Credits: 4 (1-4-1)

Course Description: Group problem-based learning approach to problems spanning all core areas of biomedical engineering.

Prerequisite: (BIOM 101 or BIOM 200 or BIOM 100 and CBE 205 and MECH 262) and (MATH 340 or MATH 345).

Registration Information: Junior standing. Must register for lecture, lab, and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

BIOM 304 Global Challenges and Collaborations in BME Credits: 3 (3-0-0)

Course Description: Foundational elements of cross-cultural competence in the biomedical engineering field, considering social, political, and economic differences in areas such as medical device design, regulation, technology transfer, and ethics.

Prerequisite: BIOM 100 or BIOM 101.

Restrictions: Must not be a: Freshman. Must be a: Undergraduate.

Registration Information: Sophomore standing. Offered as Mixed Face-to-Face. Credit not allowed for both BIOM 304 and BIOM 380A2.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 306 Bioprocess Engineering Credits: 4 (3-2-0)

Also Offered As: BTEC 306.

Course Description: Material, energy balances; fluid flow, heat exchange, mass transfer; application to operations in food, fermentation, other bioprocess industries.

Prerequisite: (CHEM 107 or CHEM 111) and (PH 121 or PH 141).

Registration Information: Must register for lecture and laboratory. Credit not allowed for both BIOM 306 and BTEC 306.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 350A Study Abroad--Ecuador: Prosthetics Credits: Var[1-3] (0-0-0)

Course Description: Design and fabricate prosthetics for under-served populations in Ecuador. The experience occurs in Quito, Ecuador in partnership with a local university and Range of Motion Project (ROMP), a non-profit healthcare organization.

Prerequisite: None.

Registration Information: Credit not allowed for both BIOM 350A and BIOM 382A.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 350B Study Abroad--Portugal: Biomedical Engineering and Healthcare Credit: 1 (0-0-1)

Course Description: Intercultural exchange in Portugal, with a focus on becoming familiar with pharmaceutical production, regulatory affairs and quality control, product development, and practices in biotechnology and biomedical engineering. Visits to historic and cultural sites and pharmaceutical, biomedical, biotechnology, and healthcare facilities.

Prerequisite: None.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 350C Study Abroad--Ireland: Biomedical Engineering and Healthcare Credit: 1 (0-0-1)

Course Description: Intercultural exchange in Ireland, focusing on becoming familiar with the pharmaceutical/medical device industry, regulatory affairs and quality control, product development, the Irish healthcare system, and practices in biotechnology and biomedical engineering. Visits to historic and cultural sites and pharmaceutical, biomedical, biotechnology, and healthcare facilities.

Prerequisite: None.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 403 Intro to Optical Techniques in Biomedical Eng Credits: 3 (3-0-0)

Also Offered As: ECE 403.

Course Description: Engineering design principles of optical characterization techniques for biomedical systems, including optical spectroscopy and microscopy of biomolecules and tissues.

Prerequisite: CHEM 111 and PH 142 with a minimum grade of C.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: BIOM 403, BIOM 481A3, ECE 403, or ECE 481A3.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 421 Transport Phenomena in Biomedical Engineering Credits: 3 (3-0-0)

Course Description: Engineering models of active and passive mechanisms of momentum. Heat and mass transport in mammalian cells, tissues, and organ systems.

Prerequisite: (BMS 300) and (CBE 332 or MECH 344).

Registration Information: Sections may be offered: Online. Credit not allowed for both BIOM 330 and BIOM 421.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 422 Quantitative Systems and Synthetic Biology Credits: 3 (3-0-0)

Course Description: In-depth analysis of the quantitative systems approach to biology and biological engineering at the molecular and cellular scales.

Prerequisite: BIOM 421 or CBE 320.

Registration Information: Sections may be offered: Online. Credit not allowed for both BIOM 400 and BIOM 422.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 431 Biomedical Signal and Image Processing Credits: 3 (3-0-0)

Also Offered As: ECE 431.

Course Description: Principles, features and mathematical processing of biomedical signals and images including interference and noise filtering and feature enhancement.

Prerequisite: (ECE 303 with a minimum grade of C or STAT 303 with a minimum grade of C) and (ECE 311 with a minimum grade of C and PH 142 with a minimum grade of C).

Registration Information: Sections may be offered: Online. Credit not allowed for both BIOM 431 and ECE 431.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 441 Biomechanics and Biomaterials Credits: 3 (3-0-0)

Course Description: Principles of biomechanics, biofluids, and biomaterials.

Prerequisite: (BMS 300, may be taken concurrently and CIVE 360 and MECH 324, may be taken concurrently) and (MECH 331, may be taken concurrently or MECH 331B, may be taken concurrently and MECH 331A, may be taken concurrently) and (MECH 342).

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 476 Biomedical Engineering Clinical Practicum Credits: Var[1-3] (0-0-0)

Course Description: Biomedical lab work or research project in hospital, clinical, or other medical environment.

Prerequisite: BMS 300.

Restrictions: Must not be a: Freshman, Sophomore. Must be a: Undergraduate.

Registration Information: Written consent of department chair. Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BIOM 486A Biomedical Design Practicum: Capstone Design I Credits: 4 (0-0-10)

Course Description:

Prerequisite: (BIOM 300) and (BIOM 421 and CBE 320 and CBE 442 or ECE 342 and BIOM 431 and ECE 311 and ECE 332 or MECH 301B, may be taken concurrently and MECH 307 and BIOM 441 and MECH 301A or BIOM 441 and MECH 301 and MECH 307).

Restrictions: Must not be a: Freshman, Sophomore, Junior. Must be a: Undergraduate.

Registration Information: Senior standing. Enrollment in biomedical engineering major.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 486B Biomedical Design Practicum: Capstone Design II Credits: 4 (0-0-10)

Course Description:

Prerequisite: (BIOM 486A) and (CBE 451 or ECE 312 or MECH 325 and MECH 344 or PH 353).

Restrictions: Must not be a: Freshman, Sophomore, Junior. Must be a: Undergraduate.

Registration Information: Senior standing. Enrollment in biomedical engineering major.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BIOM 495 Independent Study Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

BIOM 504 Fundamentals of Biochemical Engineering Credits: 3 (3-0-0)**Also Offered As:** CBE 504.**Course Description:** Application of chemical engineering principles to enzyme kinetics, fermentation and cell culture, product purification, and bioprocess design.**Prerequisite:** CBE 205.**Registration Information:** Senior standing. Sections may be offered: Online. Credit not allowed for both BIOM 504 and CBE 504.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 517 Advanced Optical Imaging Credits: 3 (3-0-0)****Also Offered As:** ECE 517.**Course Description:** Engineering design principles of advanced optical imaging techniques and image formation theory.**Prerequisite:** ECE 342 with a minimum grade of C or MATH 340 with a minimum grade of C or MATH 345 with a minimum grade of C.**Restriction:** Must not be a: Freshman, Sophomore.**Registration Information:** Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: BIOM 517, BIOM 581B7, ECE 517 or ECE 581B7.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 518 Biophotonics Credits: 3 (3-0-0)****Also Offered As:** ECE 518.**Course Description:** Engineering design principles of optical instrumentation for medical diagnostics. Light propagation and imaging in biological tissues.**Prerequisite:** ECE 342 with a minimum grade of C or ECE 457 with a minimum grade of C or MATH 340 with a minimum grade of C or MATH 345 with a minimum grade of C.**Restriction:** Must not be a: Freshman, Sophomore.**Registration Information:** Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: BIOM 518, BIOM 581A9, ECE 518 or ECE 581A9.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 522 Bioseparation Processes Credits: 3 (3-0-0)****Also Offered As:** CBE 522.**Course Description:** Analysis of processes to recover and purify fermentation products.**Prerequisite:** CBE 331.**Registration Information:** Sections may be offered: Online. Credit allowed for only one of the following: BIOM 522, CBE 522, or CBE 581A2.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 525 Cell and Tissue Engineering Credits: 3 (3-0-0)****Also Offered As:** MECH 525.**Course Description:** Cell and tissue engineering concepts and techniques with emphasis on cellular response, cell adhesion kinetics, and tissue engineering design.**Prerequisite:** BC 351 or BMS 300 or BMS 500 or BZ 310 or NB 501.**Registration Information:** Credit allowed for only one of the following: BIOM 525, CBE 525, MECH 525. Sections may be offered: Online.**Term Offered:** Spring. (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 526 Biological Physics Credits: 3 (3-0-0)****Also Offered As:** ECE 526.**Course Description:** Mathematical and physical modeling of biological systems. Mass transport in cellular environments. Electrical/mechanical properties of biomolecules.**Prerequisite:** (MATH 340 or MATH 345) and (PH 122 or PH 142).**Restriction:** Must not be a: Freshman, Sophomore.**Registration Information:** Credit not allowed for both BIOM 526 and ECE 526. Sections may be offered: Online.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 527A Biosensing: Cells as Circuits Credit: 1 (1-0-0)****Also Offered As:** ECE 527A.**Course Description:** Treatment of biological cells as circuits and their electrical time-dependent function and frequency-dependent impedance. Topics include the Hodgkin–Huxley circuit model, diffusion equation, and modeling action potential propagation.**Prerequisite:** (BIOM 101 or LIFE 102) and (CHEM 111) and (MATH 340 or MATH 345) and (PH 142).**Registration Information:** Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527A, BIOM 581B1, ECE 527A, or ECE 581B1.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 527B Biosensing: Signal and Noise in Biosensors Credit: 1 (1-0-0)****Also Offered As:** ECE 527B.**Course Description:** Quantitative treatment of concepts of noise, interference and signal including noise types and spectra, filtering, and limitations imposed by noise. Example applications to Biosensors.**Prerequisite:** (MATH 340, may be taken concurrently or MATH 345, may be taken concurrently) and (PH 142).**Registration Information:** Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527B, BIOM 581B2, ECE 527B, or ECE 581B2.**Term Offered:** Spring (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 527C Biosensing: Sensor Circuit Fundamentals Credit: 1 (1-0-0)****Also Offered As:** ECE 527C.**Course Description:** Introduction to circuit concepts used in sensors, including review of basic circuit elements of resistors, capacitors, and MOS (Metal-Oxide-Semiconductor transistors) elements. Fundamentals of the application of MOS circuits for signal conditioning and amplification and how sensor's backend signal processing is carried out after the sensor signal transduction stage.**Prerequisite:** (BIOM 101 or LIFE 102) and (MATH 340, may be taken concurrently or MATH 345, may be taken concurrently) and (PH 142).**Registration Information:** Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527C, BIOM 581B3, ECE 527C, or ECE 581B3.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.

BIOM 527D Biosensing: Electrochemical Sensors Credit: 1 (1-0-0)**Also Offered As:** ECE 527D.**Course Description:** Introduction to the electrochemistry, and applications of electrochemical methods, used for detection of certain classes of chemicals and molecules.**Prerequisite:** (BIOM 101 or LIFE 102) and (CHEM 111) and (MATH 255 or MATH 261) and (PH 142).**Registration Information:** Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527D, BIOM 581B5, ECE 527D, or ECE 581B5.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 527E Biosensing: Affinity Sensors Credit: 1 (1-0-0)****Also Offered As:** ECE 527E.**Course Description:** Fundamentals of affinity sensor application and design, including optical and electrical approaches and technologies.**Prerequisite:** (BIOM 101 or LIFE 102) and (CHEM 111) and (MATH 340, may be taken concurrently or MATH 345, may be taken concurrently) and (PH 142).**Registration Information:** Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527E, BIOM 581B4, ECE 527E, or ECE 581B4.**Term Offered:** Spring (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 527F Biosensing: Biophotonic Sensors Using Refractive Index Credit: 1 (1-0-0)****Also Offered As:** ECE 527F.**Course Description:** Operating principles of optical biosensors based on changes in refractive index, such as thin films, ring-resonators, Mach-Zehnder interferometers, and other evanescent wave sensors. Basic supporting optical concepts, including thin-film interference, optical waveguides and evanescent waves.**Prerequisite:** (BIOM 527F or ECE 527F) and (MATH 340, may be taken concurrently or MATH 345, may be taken concurrently) and (PH 142).**Registration Information:** Junior standing. This is a partial semester course. Credit allowed for only one of the following: BIOM 527F, BIOM 581B6, ECE 527F, or ECE 581B6.**Term Offered:** Spring (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 531 Materials Engineering Credits: 3 (3-0-0)****Also Offered As:** MECH 531.**Course Description:** Selection of structural engineering materials by properties, processing, and economics; materials for biomedical and biotechnology applications.**Prerequisite:** MECH 331 or MECH 331A and MECH 331B or MECH 431.**Registration Information:** Credit not allowed for both BIOM 531 and MECH 531. Sections may be offered: Online.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 532 Materials Issues in Mechanical Design Credits: 3 (3-0-0)****Also Offered As:** MECH 532.**Course Description:** Failure mechanisms from materials viewpoint with emphasis on use in design. Fracture, creep, fatigue, and corrosion.**Prerequisite:** MECH 331 or MECH 331A and MECH 331B.**Registration Information:** Credit not allowed for both BIOM 532 and MECH 532. Sections may be offered: Online.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 533 Biomolecular Tools for Engineers Credits: 3 (2-3-0)****Also Offered As:** CIVE 533.**Course Description:** Theoretical and practical aspects of biomolecular laboratory tools—PCR, cloning, sequencing, single-molecule optical techniques and live-cell imaging.**Prerequisite:** BMS 300 or MIP 300.**Registration Information:** Must register for lecture and laboratory. Credit not allowed for BIOM 533, CIVE 533 and ECE 533.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** Yes.**BIOM 537 Biomedical Signal Processing Credits: 3 (3-0-0)****Also Offered As:** ECE 537.**Course Description:** Modeling and classification of biosignals (e.g. EEG, ECG, EMG), covering adaptive filtering, wavelets, support vector machines, neural networks, and handling problems with overfitting of noisy data.**Prerequisite:** ECE 303 or ECE 311 or MATH 340 or STAT 303.**Registration Information:** Sections may be offered: Online. Credit not allowed for both BIOM 537 and ECE 537.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 570 Bioengineering Credits: 3 (3-0-0)****Also Offered As:** MECH 570.**Course Description:** Physiological and medical systems analysis using engineering methods including mechanics, fluid dynamics, control electronics, and signal processing.**Prerequisite:** CBE 332 or ECE 311 or MECH 331A.**Registration Information:** Sections may be offered: Online. Credit not allowed for both BIOM 570 and MECH 570.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 572 Regenerative Bioengineering with Stem Cells Credits: 3 (3-0-0)****Also Offered As:** MECH 572.**Course Description:** Current status and future direction of bioengineering and regenerative technologies with stem cells. Topics include tissue-specific applications of pluripotent stem cells and multipotent adult stem cells, genetic and epigenetic engineering, organoids, and manufacturing, including scale-up, sorting and preservation.**Prerequisite:** BC 351 or BMS 300 or BZ 310.**Registration Information:** Sections may be offered: Online. Credit allowed for only one of the following: BIOM 572, BIOM 580A9, MECH 572, or MECH 580A9.**Term Offered:** Spring (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.

BIOM 573 Structure and Function of Biomaterials Credits: 3 (3-0-0)**Also Offered As:** MECH 573.**Course Description:** Structure-function relationships of natural biomaterials; application to analysis of biomimetic materials and biomaterials used in medical devices.**Prerequisite:** MECH 331 or MECH 331A and MECH 331B.**Registration Information:** Sections may be offered: Online. Credit not allowed for both BIOM 573 and MECH 573.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 574 Bio-Inspired Surfaces Credits: 3 (3-0-0)****Also Offered As:** MECH 574.**Course Description:** Analysis of surface functionalities of various biological species; identification of design principles.**Prerequisite:** MECH 342 and CHEM 111.**Registration Information:** Sections may be offered: Online. Credit not allowed for both BIOM 574 and MECH 574.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 576 Quantitative Systems Physiology Credits: 4 (4-0-0)****Also Offered As:** MECH 576.**Course Description:** Quantitative, model-oriented approach to cellular and systems physiology with design examples from biomedical engineering.**Prerequisite:** BMS 300 and CHEM 113 and MATH 340 and PH 142.**Registration Information:** Credit not allowed for both BIOM 576 and MECH 576. Sections may be offered: Online.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 578 Musculoskeletal Biosolid Mechanics Credits: 3 (3-0-0)****Also Offered As:** MECH 578.**Course Description:** Application of engineering concepts to quantify the mechanical behavior of load-bearing biological tissues and orthopaedic implant performance.**Prerequisite:** CIVE 360.**Restriction:** Must be a: Graduate.**Registration Information:** Graduate standing. Sections may be offered: Online. Credit not allowed for both BIOM 578 and MECH 578.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 579 Cardiovascular Biomechanics Credits: 3 (3-0-0)****Also Offered As:** MECH 579.**Course Description:** Bio-mechanical principles and approaches applied in cardiovascular research.**Prerequisite:** MATH 340 and PH 142.**Restriction:** Must be a: Graduate.**Registration Information:** Graduate students only. Sections may be offered: Online. Credit allowed for only one of the following: BIOM 579, BIOM 581A8, MECH 579, or MECH 581A8.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 586A Biomedical Clinical Practicum Credits: 2 (1-2-0)****Course Description:** Graduate-level activity that includes biomedical research or design of a new medical device, as well as essential elements of professional development.**Prerequisite:** (BMS 300 or BMS 500) and (BIOM 570 or MECH 570).**Registration Information:** Must register for lecture and laboratory.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 586B Biomedical Clinical Practicum Credits: 4 (1-6-0)****Course Description:** Graduate-level activity, such as biomedical research or design of a new medical device, for exposure to the hospital/clinical environment.**Prerequisite:** (BMS 300 or BMS 500) and (BIOM 570 or MECH 570).**Registration Information:** Must register for lecture and laboratory.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 592 Seminar Credits: Var[1-3] (0-0-0)****Course Description:** Student and research faculty presentations, guest and invited extramural speakers.**Prerequisite:** None.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**BIOM 671 Orthopedic Tissue Biomechanics Credits: 3 (3-0-0)****Also Offered As:** MECH 671.**Course Description:** Linear elastic, finite deformation, and viscoelastic theories applied to the mechanical behavior of orthopedic tissues (bone, tendon, cartilage).**Prerequisite:** CIVE 560.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Credit not allowed for both BIOM 671 and MECH 671.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Maximum of 6 credits allowed in course; may not be used to satisfy degree requirements requiring bioengineering courses.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**BIOM 695 Independent Study Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

BIOM 699 Thesis Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**BIOM 750 Grant Proposal Writing and Reviewing Credit: 1 (1-0-0)****Course Description:** Preparation and review of applications for fellowships and grants.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Written consent of instructor.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**BIOM 784 Supervised College Teaching Credits: Var[1-6] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**BIOM 786 Practicum-Laboratory Rotations Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**BIOM 795 Independent Study Credits: Var[1-6] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**BIOM 798 Research-Laboratory Rotations Credits: Var[1-6] (0-0-0)****Course Description:** Doctoral laboratory rotation.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**BIOM 799 Dissertation Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Dual Degree Program: Biomedical Engineering combined with Chemical and Biological Engineering

Requirements

Effective Fall 2024

Freshman

		AUCC	Credits
BIOM 100	Overview of Biomedical Engineering		1
CBE 160	MATLAB for Chemical and Biological Eng		1
CHEM 111	General Chemistry I (GT-SC2)	3A	4
CHEM 112	General Chemistry Lab I (GT-SC1)	3A	1
CHEM 113	General Chemistry II		3
LIFE 102	Attributes of Living Systems (GT-SC1)	3A	4
MATH 160	Calculus for Physical Scientists I (GT-MA1)	1B	4
MATH 161	Calculus for Physical Scientists II (GT-MA1)	1B	4
PH 141	Physics for Scientists and Engineers I (GT-SC1)	3A	5
Select one group from the following:			3

Group A:

CBE 101 Introduction to Chemical and Biological Engr

Group B:

CBE 101A Introduction to Chemical and Biological Engr: Lecture

CBE 101B Introduction to Chemical and Biological Engr: Laboratory

Group C:

CBE 104A Study Abroad--Denmark: Intro to Chemical and Biological Engineering

Total Credits**30****Sophomore**

CBE 201	Material and Energy Balances	3
CBE 205	Fundamentals of Biological Engineering	3

CBE 210	Thermodynamic Process Analysis		3
CHEM 114	General Chemistry Lab II		1
CHEM 341	Modern Organic Chemistry I		3
CHEM 343	Modern Organic Chemistry II		3
CHEM 344	Modern Organic Chemistry Laboratory		2
CO 150	College Composition (GT-CO2)	1A	3
MATH 261	Calculus for Physical Scientists III		4
MATH 340	Intro to Ordinary Differential Equations		4
MECH 262	Engineering Mechanics		4
Total Credits			33
Junior			
BC 351	Principles of Biochemistry		4
BIOM 300	Problem-Based Learning Biomedical Engr Lab		4
BMS 300	Principles of Human Physiology		4
CBE 310	Molecular Concepts and Applications		3
CBE 320	Chemical and Biological Reactor Design		3
CBE 330	Process Simulation		3
CBE 331	Momentum Transfer and Mechanical Separations		3
CBE 332	Heat and Mass Transfer Fundamentals		3
CBE 393	Professional Development Seminar		1
Social and Behavioral Sciences		3C	3
Total Credits			31
Senior			
BIOM 421	Transport Phenomena in Biomedical Engineering		3
BIOM 422	Quantitative Systems and Synthetic Biology		3
CBE 333	Chemical and Biological Engineering Lab I		2
CBE 430	Process Control and Instrumentation		3
CBE 442	Separation Processes		4
CBE 443	Chemical and Biological Engineering Lab II		2
CBE 451	Chemical and Biological Engineering Design I		3
PH 142	Physics for Scientists and Engineers II (GT-SC1)	3A	5
STAT 315	Intro to Theory and Practice of Statistics		3
BME Broad Elective (see list below)			3
Arts and Humanities		3B	3
Total Credits			34
Fifth Year			
BIOM 486A	Biomedical Design Practicum: Capstone Design I	4A,4B,4C	4
BIOM 486B	Biomedical Design Practicum: Capstone Design II	4A,4B,4C	4
BME Technical Elective ¹			5
CBE Technical Elective			5
Advanced Writing		2	3
Arts and Humanities		3B	3
Diversity, Equity, and Inclusion		1C	3
Historical Perspectives		3D	3
Total Credits			30
Program Total Credits:			158

BME Technical Electives - Select 5 credits

Code	Title	Credits
BC 401	Comprehensive Biochemistry I	3
BC 403	Comprehensive Biochemistry II	3
BC 404	Comprehensive Biochemistry Laboratory	2
BC 411	Physical Biochemistry	4
BC 463	Molecular Genetics	3
BC 465	Molecular Regulation of Cell Function	3
BC 565	Molecular Regulation of Cell Function	4
BIOM 304	Global Challenges and Collaborations in BME	3
BIOM 350A	Study Abroad–Ecuador: Prosthetics	1-3
BIOM 431/ECE 431	Biomedical Signal and Image Processing	3
BIOM 441	Biomechanics and Biomaterials	3
Select a maximum of 3 credits from the following:		
BIOM 476	Biomedical Engineering Clinical Practicum	
BIOM 495	Independent Study	
BIOM 504/CBE 504	Fundamentals of Biochemical Engineering	3
BIOM 518/ECE 518	Biophotonics	3
BIOM 522/CBE 522	Bioseparation Processes	3
BIOM 525/MECH 525	Cell and Tissue Engineering	3
BIOM 526/ECE 526	Biological Physics	3
BIOM 527A/ ECE 527A	Biosensing: Cells as Circuits	1
BIOM 527B/ ECE 527B	Biosensing: Signal and Noise in Biosensors	1
BIOM 527C/ ECE 527C	Biosensing: Sensor Circuit Fundamentals	1
BIOM 527D/ ECE 527D	Biosensing: Electrochemical Sensors	1
BIOM 527E/ ECE 527E	Biosensing: Affinity Sensors	1
BIOM 527F/ ECE 527F	Biosensing: Biophotonic Sensors Using Refractive Index	1
BIOM 531/MECH 531	Materials Engineering	3
BIOM 533/CIVE 533	Biomolecular Tools for Engineers	3
BIOM 537/ECE 537	Biomedical Signal Processing	3
BIOM 570/MECH 570	Bioengineering	3
BIOM 572/MECH 572	Regenerative Bioengineering with Stem Cells	3
BIOM 573/MECH 573	Structure and Function of Biomaterials	3
BIOM 574/MECH 574	Bio-Inspired Surfaces	3
BIOM 576/MECH 576	Quantitative Systems Physiology	4
BIOM 578/MECH 578	Musculoskeletal Biosolid Mechanics	3
BIOM 579/MECH 579	Cardiovascular Biomechanics	3
BMS 301	Human Gross Anatomy	5
BMS 302	Laboratory in Principles of Physiology	2
BMS 310	Anatomy for the Health Professions	4
BMS 320	Virtual Laboratory in Physiology	2
BMS 325	Cellular Neurobiology	3
BMS 345	Functional Neuroanatomy	4
BMS 405	Nerve and Muscle-Toxins, Trauma and Disease	3

BMS 409	Human and Animal Reproductive Biology	3
BMS 420	Cardiopulmonary Physiology	3
BMS 430	Endocrinology	3
BMS 450	Pharmacology	3
BMS 500	Mammalian Physiology I	4
BMS 501	Mammalian Physiology II	4
BMS 503/NB 503	Developmental Neurobiology	3
BMS 505/NB 505	Neuronal Circuits, Systems and Behavior	3
BZ 310	Cell Biology	4
BZ 311	Developmental Biology	4
BZ 350	Molecular and General Genetics	4
BZ 476/BZ 576	Genetics of Model Organisms	3
CBE 505	Biochemical Engineering Laboratory	1
CBE 543	Membranes for Biotechnology and Biomedicine	3
CHEM 334	Quantitative Analysis Laboratory	1
CHEM 335	Introduction to Analytical Chemistry	3
CHEM 433	Clinical Chemistry	3
CHEM 539A	Principles of NMR and MRI: Basic NMR Principles	1
CHEM 539B	Principles of NMR and MRI: NMR Diffusion Measurements-2D NMR and MRI	1
CHEM 539C	Principles of NMR and MRI: Advanced NMR and MRI Techniques	1
ECE 569/MECH 569	Micro-Electro-Mechanical Devices	3
ERHS 332	Principles of Epidemiology	3
ERHS 450	Introduction to Radiation Biology	3
ERHS 502	Fundamentals of Toxicology	3
ERHS 510/VS 510	Cancer Biology	3
ERHS 540	Principles of Ergonomics	3
FSHN 470	Integrative Nutrition and Metabolism	3
HES 307	Biomechanical Principles of Human Movement	3
HES 319	Neuromuscular Aspects of Human Movement	4
HES 403	Physiology of Exercise	3
HES 420	Electrocardiography and Exercise Management	3
HES 476	Exercise and Chronic Disease	3
MATH 455	Mathematics in Biology and Medicine	3
MECH 543	Biofluid Mechanics	3
MIP 300	General Microbiology	3
MIP 302	General Microbiology Laboratory	2
MIP 342	Immunology	4
MIP 343	Immunology Laboratory	2
MIP 351	Medical Bacteriology	3
MIP 352	Medical Bacteriology Laboratory	3
MIP 420	Medical and Molecular Virology	4
MIP 443	Microbial Physiology	4
MIP 450	Microbial Genetics	3
NB 500/BMS 502	Readings in Cellular Neurobiology	1

CBE Technical Electives - Select 5 credits

Code	Title	Credits
Select 5 credits from the following:		
AB 410	Understanding Pesticides	3
ATS 555	Air Pollution	3
ATS 560	Air Pollution Measurement	2
BC 401	Comprehensive Biochemistry I	3
BC 403	Comprehensive Biochemistry II	3
BC 404	Comprehensive Biochemistry Laboratory	2
BC 406A	Investigative Biochemistry: Protein Biochemistry	2
BC 406B	Investigative Biochemistry: Molecular Genetics	2
BC 406C	Investigative Biochemistry: Cellular Biochemistry	2
BC 411	Physical Biochemistry	4
BC 441	3D Molecular Models for Biochemistry	1
BC 463	Molecular Genetics	3
BC 464	Molecular Genetics Recitation	1
BC 465	Molecular Regulation of Cell Function	3
BC 517	Metabolism	2
BC 521/CHEM 521	Principles of Chemical Biology	3
BIOM 350A	Study Abroad–Ecuador: Prosthetics	1-3
BIOM 350B	Study Abroad–Portugal: Biomedical Engineering and Healthcare	1
BIOM 441	Biomechanics and Biomaterials	3
BIOM 517/ECE 517	Advanced Optical Imaging	3
BIOM 525/MECH 525	Cell and Tissue Engineering	3
BIOM 526/ECE 526	Biological Physics	3
BIOM 531/MECH 531	Materials Engineering	3
BIOM 532/MECH 532	Materials Issues in Mechanical Design	3
BIOM 533/CIVE 533	Biomolecular Tools for Engineers	3
BIOM 537/ECE 537	Biomedical Signal Processing	3
BIOM 573/MECH 573	Structure and Function of Biomaterials	3
BIOM 574/MECH 574	Bio-Inspired Surfaces	3
BIOM 576/MECH 576	Quantitative Systems Physiology	4
BIOM 579/MECH 579	Cardiovascular Biomechanics	3
BMS 301	Human Gross Anatomy	5
BMS 302	Laboratory in Principles of Physiology	2
BMS 305	Domestic Animal Gross Anatomy	4
BMS 325	Cellular Neurobiology	3
BMS 330	Microscopic Anatomy	4
BMS 345	Functional Neuroanatomy	4
BMS 409	Human and Animal Reproductive Biology	3
BMS 420	Cardiopulmonary Physiology	3
BMS 430	Endocrinology	3
BMS 450	Pharmacology	3
BMS 460	Essentials of Pathophysiology	3
BMS 500	Mammalian Physiology I	4
BMS 501	Mammalian Physiology II	4
BMS 503/NB 503	Developmental Neurobiology	3
BMS 505/NB 505	Neuronal Circuits, Systems and Behavior	3
BMS 545	Neuroanatomy	5

BMS 575	Human Anatomy Dissection	4
BSPM 302	Applied and General Entomology	2
BSPM 361	Elements of Plant Pathology	3
BZ 240	Synthetic Biology-Principles and Applications	3
BZ 310	Cell Biology	4
BZ 311	Developmental Biology	4
BZ 348/MATH 348	Theory of Population and Evolutionary Ecology	4
BZ 350	Molecular and General Genetics	4
BZ 360	Bioinformatics and Genomics	4
CBE 406	Introduction to Transport Phenomena	3
CBE 501	Chemical Engineering Thermodynamics	3
CBE 502	Advanced Reactor Design	3
CBE 503	Transport Phenomena Fundamentals	3
CBE 504/BIOM 504	Fundamentals of Biochemical Engineering	3
CBE 505	Biochemical Engineering Laboratory	1
CBE 514	Polymer Science and Engineering	3
CBE 521	Mathematical Modeling for Chemical Engineers	3
CBE 522/BIOM 522	Bioseparation Processes	3
CBE 524	Bioremediation	1
CBE 540/CIVE 540	Advanced Biological Wastewater Processing	3
CBE 560	Engineering of Protein Expression Systems	3
CBE 570	Biomolecular Engineering/Synthetic Biology	3
CHEM 231	Foundations of Analytical Chemistry	3
CHEM 232	Foundations of Analytical Chemistry Lab	2
CHEM 261	Fundamentals of Inorganic Chemistry	3
CHEM 263	Foundations of Inorganic Chemistry	4
CHEM 264	Foundations of Inorganic Chemistry Laboratory	1
CHEM 311	Introduction to Nanoscale Science	3
CHEM 315	Foundations of Polymer Chemistry	3
CHEM 320	Chemistry of Addictions	3
CHEM 333	Forensic Chemistry	3
CHEM 334	Quantitative Analysis Laboratory	1
CHEM 335	Introduction to Analytical Chemistry	3
CHEM 338	Environmental Chemistry	3
CHEM 355	Foundations of Sustainable Chemistry	3
CHEM 431	Instrumental Analysis	4
CHEM 433	Clinical Chemistry	3
CHEM 440	Advanced Organic Chemistry Laboratory	2
CHEM 445	Synthetic Organic Chemistry	3
CHEM 448	Medicinal Chemistry	3
CHEM 451	Foundations of Catalytic Chemistry	3
CHEM 461	Inorganic Chemistry	3
CHEM 462	Inorganic Chemistry Laboratory	2
CHEM 465	Chemistry of Sustainable E-Waste Management	1
CHEM 522	Methods of Chemical Biology	2
CHEM 532	Advanced Chemical Analysis II	3

CHEM 537	Electrochemical Methods	3	ENGR 478	Applied Engineering Data Analytics	3
CHEM 539A	Principles of NMR and MRI: Basic NMR Principles	1	ENGR 510	Engineering Optimization: Method/ Application	3
CHEM 539B	Principles of NMR and MRI: NMR Diffusion Measurements-2D NMR and MRI	1	ENGR 550/ MATH 550	Numerical Methods in Science and Engineering	3
CHEM 539C	Principles of NMR and MRI: Advanced NMR and MRI Techniques	1	ERHS 320	Environmental Health–Water Quality	3
CHEM 541	Organic Molecular Structure Determination	2	ERHS 332	Principles of Epidemiology	3
CHEM 543	Structure/Mechanisms in Organic Chemistry	2	ERHS 410	Environmental Health–Air and Waste Management	3
CHEM 545	Synthetic Organic Chemistry I	3	ERHS 446	Environmental Toxicology	3
CHEM 547	Physical Organic Chemistry	3	ERHS 448	Environmental Contaminants	3
CHEM 555	Chemistry of Sustainability	3	ERHS 450	Introduction to Radiation Biology	3
CHEM 569	Chemical Crystallography	3	ERHS 502	Fundamentals of Toxicology	3
CHEM 570	Chemical Bonding	3	ERHS 503	Toxicology Principles	1
CHEM 575	Fundamentals of Chemical Thermodynamics	1	ERHS 510/VS 510	Cancer Biology	3
CHEM 576	Statistical Mechanics	2	ERHS 530	Radiological Physics and Dosimetry I	3
CHEM 577	Surface Chemistry	3	ERHS 542	Biostatistical Methods for Qualitative Data	3
CHEM 579	Chemical Kinetics	3	ERHS 547	Equipment and Instrumentation	3
CIVE 322	Basic Hydrology	3	ESS 311	Ecosystem Ecology	3
CIVE 330	Ecological Engineering	3	ESS 312	Sustainability Science	3
CIVE 360	Mechanics of Solids	3	ESS 330	Quantitative Reasoning for Ecosystem Science	3
CIVE 371	Study Abroad–Peru: Grand Challenges in Engineering in Peru	3	ESS 440	Practicing Sustainability	4
CIVE 401	Hydraulic Engineering	3	ESS 501	Principles of Ecosystem Sustainability	3
CIVE 423	Groundwater Engineering	3	ESS 524	Foundations for Carbon/Greenhouse Gas Mgmt	3
CIVE 438	Fundamentals of Environmental Engr	3	F 311	Forest Ecology	3
CIVE 439	Applications of Environmental Engr Concepts	3	FTEC 447	Food Chemistry	3
CIVE 440	Nonpoint Source Pollution	3	GEOL 150	Dynamic Earth (GT-SC2)	4
CIVE 442	Air Quality Engineering	3	GEOL 452	Hydrogeology	4
CIVE 515	River Mechanics	3	GEOL 454	Geomorphology	4
CIVE 520	Physical Hydrology	3	GES 362	Systems Thinking and Sustainability	3
CIVE 531	Groundwater Hydrology	3	GES 441	Analysis of Sustainable Energy Solutions	3
CIVE 538	Aqueous Chemistry	3	GES 465/MSE 465	Sustainable Strategies for E-Waste Management	3
CIVE 560	Advanced Mechanics of Materials	3	GES 528/CIVE 528	Assessing the Food, Energy, Water Nexus	3
CS 165	CS2–Data Structures	4	GES 542	Biobased Fuels, Energy, and Chemicals	3
CS 220	Discrete Structures and their Applications	4	HES 307	Biomechanical Principles of Human Movement	3
CS 270	Computer Organization	4	HES 319	Neuromuscular Aspects of Human Movement	4
ECE 204	Introduction to Electrical Engineering	3	HES 403	Physiology of Exercise	3
ECE 430/MATH 430	Fourier and Wavelet Analysis with Apps	3	HES 420	Electrocardiography and Exercise Management	3
ECE 527A/ BIOM 527A	Biosensing: Cells as Circuits	1	HORT 579	Mass Spectrometry Omics-Methods and Analysis	3
ECE 527B/ BIOM 527B	Biosensing: Signal and Noise in Biosensors	1	LIFE 201B	Introductory Genetics: Molecular/ Immunological/Developmental (GT-SC2)	3
ECE 527C/ BIOM 527C	Biosensing: Sensor Circuit Fundamentals	1	LIFE 202B	Introductory Genetics Recitation: Molecular	1
ECE 527D/ BIOM 527D	Biosensing: Electrochemical Sensors	1	LIFE 203	Introductory Genetics Laboratory	2
ECE 527E/ BIOM 527E	Biosensing: Affinity Sensors	1	LIFE 210	Introductory Eukaryotic Cell Biology	3
ECE 527F/ BIOM 527F	Biosensing: Biophotonic Sensors Using Refractive Index	1	LIFE 211	Introductory Cell Biology Honors Recitation	1
			LIFE 212	Introductory Cell Biology Laboratory	2
			LIFE 320	Ecology	3

MATH 301	Introduction to Combinatorial Theory	3	MIP 342	Immunology	4
MATH 331	Introduction to Mathematical Modeling	3	MIP 343	Immunology Laboratory	2
MATH 332	Partial Differential Equations	3	MIP 351	Medical Bacteriology	3
MATH 360	Mathematics of Information Security	3	MIP 352	Medical Bacteriology Laboratory	3
MATH 366	Introduction to Abstract Algebra	3	MIP 410	Foundations of Modern Biotechnology	2
MATH 369	Linear Algebra I	3	MIP 420	Medical and Molecular Virology	4
MATH 405	Introduction to Number Theory	3	MIP 425	Virology and Cell Culture Laboratory	2
MATH 419	Introduction to Complex Variables	3	MIP 432/ESS 432	Microbial Ecology	3
MATH 450	Introduction to Numerical Analysis I	3	MIP 433/ESS 433	Microbial Ecology Laboratory	1
MATH 451	Introduction to Numerical Analysis II	3	MIP 443	Microbial Physiology	4
MATH 455	Mathematics in Biology and Medicine	3	MIP 450	Microbial Genetics	3
MATH 460	Information and Coding Theory	3	MIP 530	Advanced Molecular Virology	4
MATH 466	Abstract Algebra I	3	MIP 543	RNA Biology	3
MATH 467	Abstract Algebra II	3	MIP 550	Microbial and Molecular Genetics Laboratory	4
MATH 469	Linear Algebra II	3	MIP 555	Principles and Mechanisms of Disease	3
MATH 525	Optimal Control	3	MSE 501	Materials Technology Transfer	1
MATH 530	Mathematics for Scientists and Engineers	3	MSE 502A	Materials Science and Engineering Methods: Materials Structure and Scattering	1
MATH 532	Mathematical Modeling of Large Data Sets	3	MSE 502B	Materials Science and Engineering Methods: Computational Materials Methods	1
MATH 535	Foundations of Applied Mathematics	3	MSE 502C	Materials Science and Engineering Methods: Materials Microscopy	1
MATH 546	Partial Differential Equations II	3	MSE 502D	Materials Science and Engineering Methods: Materials Spectroscopy	1
MATH 560	Linear Algebra	3	MSE 502E	Materials Science and Engineering Methods: Bulk Properties and Performance	1
MECH 307	Mechatronics and Measurement Systems	4	MSE 502F	Materials Science and Engineering Methods: Experimental Methods for Materials Research	1
MECH 324	Dynamics of Machines	4	MSE 503	Mechanical Behavior of Materials	3
MECH 325	Machine Design	3	MSE 504	Thermodynamics of Materials	3
MECH 331	Introduction to Engineering Materials	4	MSE 505	Kinetics of Materials	3
MECH 403	Energy Engineering	3	NR 319	Introduction to Geospatial Science	4
MECH 407	Laser Applications in Mechanical Engineering	3	NR 323/GR 323	Remote Sensing and Image Interpretation	3
MECH 424	Advanced Dynamics	3	NR 505	Concepts in GIS	4
MECH 425	Mechanical Engineering Vibrations	4	PH 314	Introduction to Modern Physics	4
MECH 431	Metals and Alloys	3	PH 315	Modern Physics Laboratory	2
MECH 432	Engineering of Nanomaterials	3	PH 341	Mechanics	4
MECH 436/MSE 436	Green Engineering—Materials and Environment	3	PH 351	Electricity and Magnetism	4
MECH 502	Advanced/Additive Manufacturing Engineering	3	PH 353	Optics and Waves	4
MECH 507	Laser Diagnostics for Thermosciences	3	PH 361	Physical Thermodynamics	3
MECH 509	Design and Analysis in Engineering Research	3	PH 451	Introductory Quantum Mechanics I	3
MECH 513	Simulation Modeling and Experimentation	3	PH 452	Introductory Quantum Mechanics II	3
MECH 516	Life Cycle and Techno-Economic Assessment	3	PH 517	Chaos, Fractals, and Nonlinear Dynamics	3
MECH 524	Principles of Dynamics	3	PH 521	Introduction to Lasers	3
MECH 527	Hybrid Electric Vehicle Powertrains	3	PH 522	Introductory Laser Laboratory	1
MECH 529	Advanced Mechanical Systems	3	PH 531	Introductory Condensed Matter Physics	3
MECH 530	Advanced Composite Materials	3	PH 561	Elementary Particle Physics	3
MECH 543	Biofluid Mechanics	3	PH 571	Mathematical Methods for Physics I	3
MECH 552	Applied Computational Fluid Dynamics	3	PHIL 410	Gödel's Incompleteness Theorems	3
MIP 300	General Microbiology	3	SOCR 322	Principles of Microclimatology	3
MIP 302	General Microbiology Laboratory	2			
MIP 315	Pathology of Human and Animal Disease	3			
MIP 334	Food Microbiology	3			
MIP 335	Food Microbiology Laboratory	2			

SOCR 330	Principles of Genetics	3
SOCR 375	Soil Biogeochemistry	3
SOCR 400	Soils and Global Change-Impacts and Solutions	3
SOCR 455	Microbiomes of Soil Systems	3
SOCR 456	Soil Microbiology Laboratory	1
SOCR 467	Soil and Environmental Chemistry	3
SOCR 470	Soil Physics	3
SOCR 471	Soil Physics Laboratory	1
SOCR 567	Environmental Soil Chemistry	4
STAR 512	Design and Data Analysis for Researchers II	4
STAT 305	Sampling Techniques	3
STAT 307	Introduction to Biostatistics	3
STAT 341	Statistical Data Analysis I	3
STAT 342	Statistical Data Analysis II	3
STAT 400	Statistical Computing	3
STAT 420	Probability and Mathematical Statistics I	3
STAT 421	Introduction to Stochastic Processes	3
STAT 430	Probability and Mathematical Statistics II	3
STAT 460	Applied Multivariate Analysis	3
SYSE 530	Overview of Systems Engineering Processes	3
SYSE 532/ECE 532	Dynamics of Complex Engineering Systems	3
A maximum of 3 credits may be selected from the following courses:		
ENGR 422	Technology Entrepreneurship	
ENGR 502	Engineering Project and Program Management	
ENGR 525	Intellectual Property and Invention Systems	
FIN 305	Fundamentals of Finance	
IDEA 310B	Design Thinking Toolbox: 3D Modeling	
IDEA 310D	Design Thinking Toolbox: Digital Imaging	
MGT 305	Fundamentals of Management	
MGT 340	Fundamentals of Entrepreneurship	
MKT 305	Fundamentals of Marketing	

BME Broad Electives – Select 3 credits

Code	Title	Credits
AB 410	Understanding Pesticides	3
ATS 550	Atmospheric Radiation and Remote Sensing	3
ATS 555	Air Pollution	3
ATS 560	Air Pollution Measurement	2
BC 401	Comprehensive Biochemistry I	3
BC 403	Comprehensive Biochemistry II	3
BC 404	Comprehensive Biochemistry Laboratory	2
BC 406A	Investigative Biochemistry: Protein Biochemistry	2
BC 406B	Investigative Biochemistry: Molecular Genetics	2
BC 406C	Investigative Biochemistry: Cellular Biochemistry	2

¹ Select a total of 5 credits from Approved BME Technical Electives for BME+CBE Program. A maximum of 3 total credits of BIOM 476 and BIOM 495 may count as BME Technical Elective credit.

Major Completion Map

Distinctive Requirements for Degree Program:

TO DECLARE MAJOR: Engineering is a controlled major: students are admitted into the major only if they meet established academic standards. Please see competitive major requirements or the advisor in the Department for more information.

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus and chemistry.

To qualify for graduation, students in the biomedical engineering combined with chemical and biological engineering program must achieve a minimum 2.000 grade point average at CSU in all courses in engineering, mathematics, computer science, statistics, physics, and chemistry as well as courses taken as technical electives.

Freshman

Program Total Credits:					158

Dual Degree Program: Biomedical Engineering combined with Computer Engineering

Requirements

Effective Fall 2024

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering

requires a cumulative grade point average of at least 2.000 in Electrical Engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. In addition, it is required that students retake any Electrical Engineering course at the 300-level or below in which they receive a grade below C (2.000).

Computer Engineering (CpE) Electives (11-18 credits)

Code	Title	Credits
Group 1 - Choose 11-12 credits from the list below: ²		11-12
ECE 450	Digital System Design Laboratory	
ECE 451	Digital System Design	

ECE 452	Computer Organization and Architecture	
ECE 456	Computer Networks	
ECE 528/CS 528	Embedded Systems and Machine Learning	
Group 2 - Choose 0-3 credits from the list below: ²		0-3
DSCI 320	Optimization Methods in Data Science	

ECE 312	Linear System Analysis II	
Group 3 - Chose 0-3 credits from the list below: ^{2,3}		0-3
ECE 101	Foundations in ECE	
ECE 395A	Independent Study ³	
ECE 395B	Independent Study: Open Option Project ³	
ECE 395C	Independent Study : Vertically Integrated Project ³	

Technical Electives (1-8 credits)

Code	Title	Credits
Choose 2 - 8 credits from the list below: ^{2,3}		
CS 310H/IDEA 310H	Design Thinking Toolbox: Mixed Reality Design	3
CS 314	Software Engineering	3
CS 320	Algorithms--Theory and Practice	3
CS 345	Machine Learning Foundations and Practice	3
CS 356	Systems Security	3
CS 370	Operating Systems	3
CS 4XX Any CS course at the 400-level, excluding CS 457 and CS 470		
CS 5XX Any CS course at the 500-level		
DSCI 475	Topological Data Analysis	2
ECE 340	Electromagnetics for Computer Engineering	3
ECE 495A	Independent Study ³	1-3
ECE 495B	Independent Study: Open Option Project ³	1
ECE 495C	Independent Study: Vertically Integrated Projects ³	1
ECE 4XX Any ECE course at the 400-level		
ECE 5XX Any ECE course at the 500-level, excluding ECE 532/SYSE 532		
MATH 360	Mathematics of Information Security	3
MATH 450	Introduction to Numerical Analysis I	3
MATH 451	Introduction to Numerical Analysis II	3
MATH 460	Information and Coding Theory	3
MECH 564	Fundamentals of Robot Mechanics and Controls	3
STAT 421	Introduction to Stochastic Processes	3

Biomedical Engineering (BME) Technical Electives (3 credits)

Code	Title	Credits
BC 351	Principles of Biochemistry	4
BC 401	Comprehensive Biochemistry I	3
BC 403	Comprehensive Biochemistry II	3
BC 404	Comprehensive Biochemistry Laboratory	2
BC 411	Physical Biochemistry	4
BC 463	Molecular Genetics	3
BC 465	Molecular Regulation of Cell Function	3
BC 565	Molecular Regulation of Cell Function	4
BIOM 304	Global Challenges and Collaborations in BME	3
BIOM 350A	Study Abroad--Ecuador: Prosthetics	1-3

BIOM 421	Transport Phenomena in Biomedical Engineering	3
BIOM 422	Quantitative Systems and Synthetic Biology	3
BIOM 441	Biomechanics and Biomaterials	3
BIOM 476	Biomedical Engineering Clinical Practicum ³	1-3
BIOM 495	Independent Study ³	1-6
BIOM 504/CBE 504	Fundamentals of Biochemical Engineering	3
BIOM 518/ECE 518	Biophotonics	3
BIOM 522/CBE 522	Bioseparation Processes	3
BIOM 525/MECH 525	Cell and Tissue Engineering	3
BIOM 526/ECE 526	Biological Physics	3
BIOM 531/MECH 531	Materials Engineering	3
BIOM 533/CIVE 533	Biomolecular Tools for Engineers	3
BIOM 537/ECE 537	Biomedical Signal Processing	3
BIOM 570/MECH 570	Bioengineering	3
BIOM 572/MECH 572	Regenerative Bioengineering with Stem Cells	3
BIOM 573/MECH 573	Structure and Function of Biomaterials	3
BIOM 574/MECH 574	Bio-Inspired Surfaces	3
BIOM 576/MECH 576	Quantitative Systems Physiology	4
BIOM 578/MECH 578	Musculoskeletal Biosolid Mechanics	3
BMS 301	Human Gross Anatomy	5
BMS 302	Laboratory in Principles of Physiology	2
BMS 310	Anatomy for the Health Professions	4
BMS 320	Virtual Laboratory in Physiology	2
BMS 325	Cellular Neurobiology	3
BMS 345	Functional Neuroanatomy	4
BMS 405	Nerve and Muscle-Toxins, Trauma and Disease	3
BMS 409	Human and Animal Reproductive Biology	3
BMS 420	Cardiopulmonary Physiology	3
BMS 430	Endocrinology	3
BMS 450	Pharmacology	3
BMS 500	Mammalian Physiology I	4
BMS 501	Mammalian Physiology II	4
BMS 503/NB 503	Developmental Neurobiology	3
BZ 311	Developmental Biology	4
BZ 350	Molecular and General Genetics	4
BZ 476/BZ 576	Genetics of Model Organisms	3
CBE 330	Process Simulation	3
CBE 543	Membranes for Biotechnology and Biomedicine	3
CHEM 334	Quantitative Analysis Laboratory	1
CHEM 335	Introduction to Analytical Chemistry	3
CHEM 343	Modern Organic Chemistry II	3
CHEM 344	Modern Organic Chemistry Laboratory	2
CHEM 346	Organic Chemistry II	4
CHEM 433	Clinical Chemistry	3
CHEM 539A	Principles of NMR and MRI: Basic NMR Principles	1

CHEM 539B	Principles of NMR and MRI: NMR Diffusion Measurements-2D NMR and MRI	1
CHEM 539C	Principles of NMR and MRI: Advanced NMR and MRI Techniques	1
ECE 569/MECH 569	Micro-Electro-Mechanical Devices	3
ERHS 332	Principles of Epidemiology	3
ERHS 450	Introduction to Radiation Biology	3
ERHS 502	Fundamentals of Toxicology	3
ERHS 510/VS 510	Cancer Biology	3
ERHS 540	Principles of Ergonomics	3
FSHN 470	Integrative Nutrition and Metabolism	3
HES 307	Biomechanical Principles of Human Movement	3
HES 319	Neuromuscular Aspects of Human Movement	4
HES 403	Physiology of Exercise	3
HES 420	Electrocardiography and Exercise Management	3
HES 476	Exercise and Chronic Disease	3
MATH 455	Mathematics in Biology and Medicine	3
MECH 432	Engineering of Nanomaterials	3
MECH 543	Biofluid Mechanics	3
MIP 300	General Microbiology	3
MIP 302	General Microbiology Laboratory	2
MIP 342	Immunology	4
MIP 343	Immunology Laboratory	2
MIP 351	Medical Bacteriology	3
MIP 352	Medical Bacteriology Laboratory	3
MIP 420	Medical and Molecular Virology	4
MIP 443	Microbial Physiology	4
MIP 450	Microbial Genetics	3
NB 500/BMS 502	Readings in Cellular Neurobiology	1
NB 501	Cellular and Molecular Neurophysiology	2

NB 503/BMS 503	Developmental Neurobiology	3
NB 505/BMS 505	Neuronal Circuits, Systems and Behavior	3

- ¹ Students must take a total of 7 credits from either of these groups: Group A: CS 150B + CS 164 - OR - Group B: AUCC 3B + CS 163 - OR - Group C: AUCC 3B + CS 152 + CS 162. Recommended sequence for most incoming students is Group A: **CS 150B to CS 164**.
- ² Students are required to complete 19 credits of CpE electives (11 - 18 credits of CpE Electives and 1 - 8 credits of Technical Electives), in addition to 3 credits of BME Technical Electives to reach the required 157-158 total program credits.
- ³ A maximum total 6 credits of ECE Independent Study may apply toward total degree requirements, including ECE 395A, ECE 395B, ECE 395C and ECE 495A, ECE 495B, ECE 495C combined. A maximum total 3 credits of BIOM Independent Study may apply toward total degree requirements, including BIOM 476 and BIOM 495.

Major Completion Map

Distinctive Requirements for Degree Program:

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus.

The undergraduate programs in Biomedical Engineering synergize with our partner major undergraduate degrees by providing additional coursework in biology, chemistry, physiology, statics, dynamics and biomedical engineering to synthesize robust dual degree programs.

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in Electrical Engineering courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. In addition, it is required that students retake any Electrical Engineering course at the 300-level or below in which they receive a grade below C (2.000).

Freshman

Semester 1

BIOM 100	Overview of Biomedical Engineering
CO 150	College Composition (GT-CO2)
Select from the following groups:	
Group A	
CS 150B	Culture and Coding: Python (GT-AH3)
Group B	
CS 152	Python for STEM
CS 162	CS1—Introduction to Java Programming
Group C	
CS 163	CS1—No Prior Programming Experience
ECE 102	Digital Circuit Logic
MATH 160	Calculus for Physical Scientists I (GT-MA1)

Dual Degree Program: Biomedical Engineering combined with Electrical Engineering, Electrical Engineering Concentration

requires a cumulative grade point average of at least 2.000 in ECE courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. In addition, it is required that students retake any Electrical Engineering course at the 300-level or below in which they receive a grade below a C (2.000).

Requirements Effective Fall 2024

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering

¹ Students must take a total of 7 credits from either of these groups:
Group A: CS 150B + CS 164 - OR - Group B: AUCC 3B + CS 163 - OR -
Group C: CS 152 + CS 162. Recommended sequence for most incoming students is Group A: CS 150B to CS 164.

² CS 152, CS 162, CS 163 and CS 164 may be taken as BME Broad Electives ONLY when not taken to fulfill degree requirements. Credit not allowed for both CS 163 and CS 164.

Major Completion Map

Distinctive Requirements for Degree Program:

TO DECLARE MAJOR: Engineering is a controlled major: students are admitted into the major only if they meet established academic standards. Please see competitive major requirements or the advisor in the Department for more information.

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus and chemistry. To qualify for graduation, students in the biomedical engineering combined with chemical and biological engineering program must achieve a minimum 2.000 grade point average at CSU in all courses in engineering, mathematics, computer science, statistics, physics, and chemistry as well as courses taken as technical electives.

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in ECE courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. In addition, it is required that students retake any Electrical Engineering course at the 300-level or below in which they receive a grade below a C (2.000).

Freshman

The benchmark courses for the 10th semester are the remaining courses in the entire program of study.		X			
Total Credits					17
Program Total Credits:					157-159

Dual Degree Program: Biomedical Engineering combined with Electrical Engineering, Lasers and Optical Engineering Concentration

requires a cumulative grade point average of at least 2.000 in ECE courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. In addition, it is required that students retake any Electrical Engineering course at the 300-level or below in which they receive a grade below a C (2.000).

Requirements Effective Fall 2024

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering

ECE 415	Semiconductor Physics and Junctions	2			
A maximum of 3 credits from the following may be used to satisfy this requirement:		var.			
ECE 495A	Independent Study				
ECE 495B	Independent Study: Open Option Project				
ECE 495C	Independent Study: Vertically Integrated Projects				
ECE 503	Ultrafast Optics	3			
ECE 504	Physical Optics	3			
ECE 505	Nanostructures Fundamentals and Applications	3			
ECE 506	Optical Interferometry and Laser Metrology	3			
ECE 507	Plasma Physics and Applications	3			
ECE 526/BIOM 526	Biological Physics	3			
ECE 527B/BIOM 527B	Biosensing: Signal and Noise in Biosensors	1			
ECE 527F/BIOM 527F	Biosensing: Biophotonic Sensors Using Refractive Index	1			
ECE 544	Silicon Photonics for Computing Systems	3			
ECE 546	Laser Fundamentals and Devices	3			
ECE 572	Semiconductor Transistors	1			
ECE 573	Semiconductor Optoelectronics Laboratory	3			
ECE 574	Optical Properties in Solids	3			
MATH 419	Introduction to Complex Variables	3			

MATH 430/ECE 430	Fourier and Wavelet Analysis with Apps	3
PH 315	Modern Physics Laboratory	2
PH 425	Advanced Physics Laboratory	2
PH 452	Introductory Quantum Mechanics II	3
PH 462	Statistical Physics	3

BME Broad Electives - Select 3 credits

Code	Title	Credits
AB 410	Understanding Pesticides	3
ATS 550	Atmospheric Radiation and Remote Sensing	3
ATS 555	Air Pollution	3
ATS 560	Air Pollution Measurement	2
BC 351	Principles of Biochemistry	4
BC 401	Comprehensive Biochemistry I	3
BC 403	Comprehensive Biochemistry II	3
BC 404	Comprehensive Biochemistry Laboratory	2
BC 406A	Investigative Biochemistry: Protein Biochemistry	2
BC 406B	Investigative Biochemistry: Molecular Genetics	2
BC 406C	Investigative Biochemistry: Cellular Biochemistry	2
BC 411	Physical Biochemistry	4
BC 441	3D Molecular Models for Biochemistry	1
BC 463	Molecular Genetics	3
BC 464	Molecular Genetics Recitation	1
BC 465	Molecular Regulation of Cell Function	3
BC 517	Metabolism	2
BC 521/CHEM 521	Principles of Chemical Biology	3
BC 563	Molecular Genetics	4
BIOM 304	Global Challenges and Collaborations in BME	3
BIOM 350A	Study Abroad--Ecuador: Prosthetics	1-3
BIOM 350B	Study Abroad--Portugal: Biomedical Engineering and Healthcare	1
BIOM 421	Transport Phenomena in Biomedical Engineering	3
BIOM 422	Quantitative Systems and Synthetic Biology	3
BIOM 441	Biomechanics and Biomaterials	3
BIOM 504/CBE 504	Fundamentals of Biochemical Engineering	3
BIOM 517/ECE 517	Advanced Optical Imaging	3
BIOM 518/ECE 518	Biophotonics	3
BIOM 522/CBE 522	Bioseparation Processes	3
BIOM 525/MECH 525	Cell and Tissue Engineering	3
BIOM 526/ECE 526	Biological Physics	3
BIOM 527A/ ECE 527A	Biosensing: Cells as Circuits	1
BIOM 527B/ ECE 527B	Biosensing: Signal and Noise in Biosensors	1
BIOM 527C/ ECE 527C	Biosensing: Sensor Circuit Fundamentals	1

BIOM 527D/ ECE 527D	Biosensing: Electrochemical Sensors	1
BIOM 527E/ ECE 527E	Biosensing: Affinity Sensors	1
BIOM 527F/ ECE 527F	Biosensing: Biophotonic Sensors Using Refractive Index	1
BIOM 531/MECH 531	Materials Engineering	3
BIOM 532/MECH 532	Materials Issues in Mechanical Design	3

¹ Students must take a total of 7 credits from either of these groups: Group A: CS 150B + CS 164 - OR - Group B: AUCC 3B + CS 163 - OR - Group C: AUCC 3B + CS 152 + CS 162. Recommended sequence for most incoming students is Group A: **CS 150B to CS 164**.

TO DECLARE MAJOR: Engineering is a controlled major: students are admitted into the major only if they meet established academic standards. Please see competitive major requirements or the advisor in the department for more information.

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus and chemistry.

To qualify for graduation, students in the biomedical engineering combined with chemical and biological engineering program must achieve a minimum 2.000 grade point average at CSU in all courses in engineering, mathematics, computer science, statistics, physics, and chemistry as well as courses taken as technical electives.

In order to maintain professional standards required of practicing engineers, the Department of Electrical and Computer Engineering requires a cumulative grade point average of at least 2.000 in ECE courses as a graduation requirement. It is the responsibility of any student who fails to maintain a 2.000 average to work with their advisor to correct grade point deficiencies. In addition, it is required that students retake any Electrical Engineering course at the 300-level or below in which they receive a grade below a C (2.000).

Major Completion Map

Distinctive Requirements for Degree Program:

Freshman

Semester 1		Critical	Recommended	AUCC	Credits
BIOM 100	Overview of Biomedical Engineering	X			1
CHEM 111	General Chemistry I (GT-SC2)	X		3A	4
CO 150	College Composition (GT-CO2)		X	1A	3
ECE 102	Digital Circuit Logic	X			4
MATH 160	Calculus for Physical Scientists I (GT-MA1)	X		1B	4
Total Credits					16

Semester 2		Critical	Recommended	AUCC	Credits
ECE 103	DC Circuit Analysis	X			3
LIFE 102	Attributes of Living Systems (GT-SC1)	X		3A	4
MATH 161	Calculus for Physical Scientists II (GT-MA1)	X		1B	4
PH 141	Physics for Scientists and Engineers I (GT-SC1)	X		3A	5
Total Credits					16

Sophomore

Semester 3		Critical	Recommended	AUCC	Credits
BIOM 200	Fundamentals of Biomedical Engineering	X			2
CHEM 112	General Chemistry Lab I (GT-SC1)		X	3A	1
Select from one of the following groups:		X			3-4
Group A					
CS 150B	Culture and Coding: Python (GT-AH3)	X		3B,3B	
Group B					
CS 152	Python for STEM	X			
CS 162	CS1—Introduction to Java Programming	X			
Group C					
CS 163	CS1—No Prior Programming Experience	X			
MATH 261	Calculus for Physical Scientists III	X			4
PH 142	Physics for Scientists and Engineers II (GT-SC1)	X		3A	5
Total Credits					15-16

Semester 4		Critical	Recommended	AUCC	Credits
ECE 202	Circuit Theory Applications	X			4
ECE 232	Introduction to Project Practices	X			1
ECE 303/ STAT 303	Introduction to Communications Principles	X			3
MATH 340	Intro to Ordinary Differential Equations	X			4
PH 314	Introduction to Modern Physics	X			4
Total Credits					16
Junior					
Semester 5		Critical	Recommended	AUCC	Credits
ECE 311	Linear System Analysis I	X			3
ECE 331	Electronics Principles I	X			4
ECE 341	Electromagnetic Fields and Devices I	X			3
Select from the following to complete group sequence:		X			3-4
Group A					
CS 164	CS1–Computational Thinking with Java	X			
Group B					
Arts and Humanities		X		3B	
Group C					
Arts and Humanities		X		3B	
Total Credits					13-14
Semester 6		Critical	Recommended	AUCC	Credits
BIOM 300	Problem-Based Learning Biomedical Engr Lab	X			4
BMS 300	Principles of Human Physiology		X		4
ECE 332	Electronics Principles II	X			4
ECE 342	Electromagnetic Fields and Devices II	X			3
Total Credits					15
Senior					
Semester 7		Critical	Recommended	AUCC	Credits
CHEM 113	General Chemistry II		X		3
ECE 404	Experiments in Optical Electronics	X			2
ECE 441	Optical Electronics	X			3
MECH 337	Thermodynamics		X		4
PH 353	Optics and Waves	X			4
Total Credits					16
Semester 8		Critical	Recommended	AUCC	Credits
BIOM 431/ ECE 431	Biomedical Signal and Image Processing	X			3
CHEM 245	Fundamentals of Organic Chemistry		X		4
ECE 457	Fourier Optics	X			3
ECON 202	Principles of Microeconomics (GT-SS1)		X	3C	3
MECH 262	Engineering Mechanics	X			4
Total Credits					17
Fifth Year					
Semester 9		Critical	Recommended	AUCC	Credits
BIOM 486A	Biomedical Design Practicum: Capstone Design I	X		4A,4B,4C	4
PH 451	Introductory Quantum Mechanics I	X			3
Select one course from the following:			X		3
CO 301B	Writing in the Disciplines: Sciences (GT-C03)			2	
JTC 300	Strategic Writing and Communication (GT-C03)		X	2	
ECE Lasers & Optical Engineering Technical Electives (See List on Requirements tab)			X		4

Diversity, Equity, and Inclusion			X	1C	3
Total Credits					17
Semester 10		Critical	Recommended	AUCC	Credits
BIOM 486B	Biomedical Design Practicum: Capstone Design II	X		4A,4B,4C	4
BME Broad Elective (See List on Requirements Tab)		X			3
ECE Lasers & Optical Engineering Technical Electives (See List on Requirements tab)		X			4
Arts and Humanities		X		3B	3
Historical Perspectives		X		3D	3
The benchmark courses for the 10th semester are the remaining courses in the entire program of study.		X			
Total Credits					17
Program Total Credits:					158-160

Dual Degree Program: Biomedical Engineering combined with Mechanical Engineering

Requirements

Effective Fall 2024

Freshman

		AUCC	Credits
BIOM 100	Overview of Biomedical Engineering		1

MATH 340	Intro to Ordinary Differential Equations		4
Select one group from the following:			3
Group A:			
MECH 200	Introduction to Manufacturing Processes		
Group B:			
MECH 200A	Introduction to Manufacturing Processes: Lecture		
MECH 200B	Introduction to Manufacturing Processes : Laboratory		
MECH 201	Engineering Design I		2
MECH 231	Engineering Experimentation		3

PH 142	Physics for Scientists and Engineers II (GT-SC1)	3A	5
Total Credits			32
Junior			
BIOM 300	Problem-Based Learning Biomedical Engr Lab		4
BMS 300	Principles of Human Physiology		4
CHEM 245	Fundamentals of Organic Chemistry		4
CIVE 360	Mechanics of Solids		3
MECH 202	Engineering Design II		3
MECH 324	Dynamics of Machines		4
MECH 337	Thermodynamics		4
MECH 342	Fluid Mechanics for Mechanical Engineers		3
STAT 315	Intro to Theory and Practice of Statistics		3
Total Credits			32
Senior			
BIOM 441	Biomechanics and Biomaterials		3
ECE 204	Introduction to Electrical Engineering		3
MECH 301A	Engineering Design III: Finite Element Analysis		1
MECH 301B	Engineering Design III: Computational Fluid Dynamics		1
MECH 307	Mechatronics and Measurement Systems		4
MECH 325	Machine Design		3
Select one group from the following:			4
Group A:			
MECH 331	Introduction to Engineering Materials		
Group B:			
MECH 331A	Introduction to Engineering Materials: Lecture		
MECH 331B	Introduction to Engineering Materials : Lab		
MECH 338	Thermal/Fluid Sciences Laboratory		1
MECH 344	Heat and Mass Transfer		3
BME Broad Electives (see list below)			3
Advanced Writing		2	3
Arts and Humanities		3B	3
Total Credits			32
Fifth Year			
BIOM 486A	Biomedical Design Practicum: Capstone Design I	4A,4B,4C	4
BIOM 486B	Biomedical Design Practicum: Capstone Design II	4A,4B,4C	4
BME Technical Elective (See list below)			6
MECH Technical Elective ¹			3
Arts and Humanities		3B	3

¹ Select 3 credits from any of the following: Any 400- or 500-level MECH course except MECH 486A, MECH 486B, MECH 495, MECH 498A, or MECH 498B.

engineering program has additional admissions requirements and enrollment limits. Please see competitive major requirements or the advisor in the Department for more information.

Major Completion Map

Distinctive Requirements for Degree Program:

TO DECLARE MAJOR: Engineering is a controlled major: students are admitted into the major only if they meet established academic standards. The biomedical engineering combined with mechanical

TO PREPARE FOR FIRST SEMESTER: The curriculum for this major assumes students enter college prepared to take calculus and chemistry. To qualify for graduation, students in the biomedical engineering combined with mechanical engineering must achieve a minimum 2.000 grade point average at CSU in all courses in engineering, mathematics, computer science, statistics, physics, and chemistry as well as courses taken as technical electives.

Freshman

Semester 1		Critical	Recommended	AUCC	Credits
BIOM 100	Overview of Biomedical Engineering	X			1
CHEM 111	General Chemistry I (GT-SC2)	X		3A	4
CHEM 112	General Chemistry Lab I (GT-SC1)		X	3A	1
CO 150	College Composition (GT-CO2)		X	1A	3
MATH 160	Calculus for Physical Scientists I (GT-MA1)	X		1B	4
MECH 103	Introduction to Mechanical Engineering	X			3
Total Credits					16

Semester 2		Critical	Recommended	AUCC	Credits
LIFE 102	Attributes of Living Systems (GT-SC1)	X		3A	4
MATH 161	Calculus for Physical Scientists II (GT-MA1)	X		1B	4
MECH 105	Mechanical Engineering Problem Solving	X			3

Certificate in Global Biomedical Engineering

This certificate draws together themes relevant to the study of global biomedical engineering, from cross-cultural competence, international communication, issues facing developing countries, regulatory affairs and quality standards in the U.S. and abroad.

Learning Objectives

Upon successful completion, students will be able to:

1. Discuss cross-cultural competence in the biomedical engineering field, considering social, political, and economic differences in areas such as medical device design, regulation, technology transfer, and ethics.
2. Participate in globally focused experience(s) or projects related to the field of biomedical engineering.
3. Describe global, economic, environmental, and societal impacts of engineering solutions.

Requirements Effective Fall 2023

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Required Course:		
BIOM 304	Global Challenges and Collaborations in BME	3
Required International Experience (minimum 1 credit):		1
BIOM 350A	Study Abroad-Ecuador: Prosthetics	
BIOM 495	Independent Study ¹	
Select a minimum of 5 credits from the following in order to bring the program total credits to 9:		5
ANTH 416	Gender, Culture, and Health	
GES 450	Global Sustainability and Health	
GR 305	Geography of Global Health	
HES 345	Population Health and Disease Prevention	
LSPA 340	Spanish for Animal Health and Care Fields	
LSPA 346	Spanish for Health Care	
SPCM 434	Intercultural Communication	
Program Total Credits:		9

¹ Independent Study must be approved with a Global BME focus.

Graduate Certificate in Biomaterials and Tissue Engineering

This graduate certificate provides biomedical engineering students, engineering professionals, and eligible individuals from other disciplines with specialized training in biomaterials and tissue engineering. Students understand materials by properties, processing, and economics for biomedical and biotechnology applications. Students gain knowledge of biomaterials used in medical devices and analyze functionalities of various biological species in tissue engineering and to identify design materials for biological engineering purposes.

Students interested in graduate work should refer to CSU's Graduate and Professional Bulletin and the School of Biomedical Engineering (<http://www.engr.colostate.edu/sbme/>) website.

Learning Objectives

Students will:

1. Demonstrate the ability to think critically about bioengineering concepts in emerging areas of tissue engineering and biomaterials.
2. Effectively communicate biomaterials concepts in both written and oral form. Communicate effectively with technical experts in the field, and with experts from related fields who do not have specific backgrounds in tissue engineering or biomaterials.
3. Demonstrate the ability to assimilate advanced knowledge from disciplines of science and engineering to broaden their expertise tissue engineering and biomaterials.

Requirements Effective Fall 2020

Additional coursework may be required due to prerequisites.

Code	Title	Credits
BIOM 570/MECH 570	Bioengineering	3
Select any three courses:		9
BIOM 525/MECH 525	Cell and Tissue Engineering	
BIOM 531/MECH 531	Materials Engineering	
BIOM 573/MECH 573	Structure and Function of Biomaterials	
BIOM 574/MECH 574	Bio-Inspired Surfaces	
Program Total Credits:		12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Master of Science in Bioengineering

The Master of Science in Bioengineering curriculum includes core courses in advanced mathematics and statistics, bioengineering, and biomolecular technology, as well as technical electives chosen from numerous engineering and life science courses. The curriculum is designed to provide flexibility and support for a student's research specialty. M.S. students are involved in the design and regulatory approval of advanced medical technologies, as well as the manufacturing of health care products. Each student's research is guided by an advisor and contributes to the knowledge base in the scientific community that forms the basis of the student's thesis. Funding opportunities are available for M.S. students.

Students interested in graduate work should refer to the Graduate and Professional Bulletin or visit the School of Biomedical Engineering (<https://www.engr.colostate.edu/sbme/>) website.

Strengths of the program include:

- Research leading to major advances in a health care field
- Nationally and internationally recognized faculty from over a dozen departments
- Coverage of regulatory issues and approval processes with animal and human subjects
- Conducting research in state-of-the-art facilities, including the nationally renowned Veterinary Teaching Hospital
- Community of innovators on the cutting edge of research in cancer, orthopaedics, cardiovascular diseases, nanotechnology, biosensors, and more

Learning Objectives

The M.S. program in Bioengineering aims to produce graduates who:

1. Demonstrate technical mastery of the core bioengineering disciplines of advanced engineering mathematics, biomolecular tools, bioengineering, physiology, and statistics.
2. Conduct original research in bioengineering and related fields, by assembling a body of new knowledge that advances the field.
3. Maintain high standards of scholarly excellence and responsible research conduct.
4. Competently and professionally communicate their research in both written and oral forms.
5. Effectively contribute to a broader research endeavor by directly collaborating with other scientists and engineers or by conducting and communicating their work in such a way that their individual contributions are readily assimilated with the work of other researchers in their field and related fields.

Requirements

Intra-University in Colleges of Health and Human Sciences, Engineering, Natural Sciences, Veterinary Medicine & Biomedical Sciences

Effective Fall 2021

STAR 502	Multivariate Analysis for Researchers
STAR 512	Design and Data Analysis for Researchers II
STAR 513	Regression Models for Researchers
STAR 514	Experimental Design/Analysis for Researchers
STAR 531	Generalized Regression Models for Researchers
STAR 532	Mixed Models for Researchers
STAR 534	Machine Learning for Researchers
Electives ²	
	3

Program Total Credits: **30**

A minimum of 30 credits are required to complete this program. ³

¹ BIOM 592 must be taken in two semesters.

² Select a minimum of 3 credits of Engineering courses 500-level or above with approval of advisor.

³ Program Total Credits must include a minimum of 21 semester credits earned at CSU (not including thesis or independent study) in 500-level (or above) regular courses.

Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees in the Graduate and Professional Bulletin.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made

9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Ph.D in Bioengineering

A Ph.D. in Bioengineering student performs original research guided by an advisor and contributes to the knowledge base in the scientific community. Students may be involved in the design and regulatory approval of advanced medical technologies, as well as the manufacturing of health care products. Funding opportunities include research or teaching assistantships and fellowships. Lab rotations, funded as graduate research assistantships, are available for top Ph.D. candidates and offer a one-year opportunity for students to rotate through research labs within the School of Biomedical Engineering to find the ideal match of research project and advisor for their dissertation research.

The Ph.D. curriculum includes core courses in advanced mathematics and statistics, biomedical engineering, and biotechnology, as well as technical electives chosen from numerous engineering and life science courses. The curriculum is designed to provide flexibility and support the chosen research specialty. Students are required to complete a Ph.D. qualifying process, present a research plan in a preliminary exam, and defend completed research in a final exam/dissertation defense.

Students interested in graduate work should refer to the Graduate and Professional Bulletin or visit the School of Biomedical Engineering (<https://www.engr.colostate.edu/sbme/>) website.

Strengths of the program include the following:

- Opportunities to develop major advances in the health care field
- Nationally and internationally recognized faculty from over a dozen departments
- Practical and academic experience with regulatory issues and approval processes with animal and human subjects
- Conducting research in state-of-the-art facilities, including the nationally renowned Veterinary Teaching Hospital

- Community of innovators on the cutting edge of research in cancer, orthopedics, cardiovascular disease, nanotechnology, biosensors, and more

Learning Objectives

The Ph.D. program in bioengineering aims to produce graduates who:

1. Demonstrate technical mastery of the bioengineering disciplines of advanced engineering mathematics, biomolecular tools, bioengineering, physiology, and statistics.
2. Advance the theory and practice of bioengineering by making original research contributions that are both novel and significant.
3. Maintain high standards of scholarly excellence and responsible research conduct.
4. Demonstrate competency at assimilating information from other related fields of science and engineering to inform their intellectual pursuits and to expand the areas of application of their bioengineering expertise.
5. Effectively and professionally disseminate their research in the primary peer-reviewed and patent literature, and through technical conferences and symposia.

Requirements

Intra-University in Colleges of Health and Human Sciences, Engineering, Natural Sciences, Veterinary Medicine and Biomedical Sciences

Effective Fall 2021

Thomas Bradley, Department Head

Ingrid Bridge, Advisor and Graduate Program Manager

Graduate Graduate Programs in Systems Engineering

Students interested in graduate work should refer to the Graduate and Professional Bulletin or visit the department website (<https://www.engr.colostate.edu/se/>).

The Master of Engineering program produces graduates who can design and manage complex multidisciplinary engineering systems with a rigorous systems engineering approach. The applied focus in courses builds skills that can be utilized immediately in current projects and prepares students for future career opportunities.

Graduates of the Master of Science program will be capable of designing and managing complex multidisciplinary engineering systems with a rigorous systems engineering approach. The research component of the thesis- and project-based M.S. programs equips students with cutting edge skills in specific focus areas, preparing them for future career opportunities.

The Ph.D. prepares students to become leaders in systems engineering. Throughout the program, students produce significant academic contributions in terms of original research to the field, driving advancements and leading to improvements in energy efficiency,

environmental impact, cybersecurity, and economic growth, among other areas of application for systems engineering.

The Doctor of Engineering in Systems Engineering degree will include core studies in systems engineering and its applications to complex systems in a working environment. The curriculum includes professional and applied/translational courses, a systems engineering practicum, and a dissertation to assist working professionals in attaining a higher level of value for their organizations.

Certificate

- Graduate Certificate in Systems Engineering Practice

Master's Programs

- Master of Science in Systems Engineering, Plan A
- Master of Science in Systems Engineering, Plan B
- Master of Engineering, Plan C, Systems Engineering Specialization

Ph.D.

- Ph.D. in Systems Engineering

Professional Doctorate

- Doctor of Engineering in Systems Engineering

Courses

SYSE 501 Foundations of Systems Engineering Credits: 3 (3-0-0)

Course Description: Functional components of systems engineering, application of systems engineering to practical problems, system life-cycle process.

Prerequisite: None.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: ECE 501, ENGR 501, or SYSE 501.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 505 Systems Thinking for the Real World Credits: 3 (3-0-0)

Course Description: Application of systems thinking language, tools, and framework for solving real-world complex issues.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online. Credit not allowed for both SYSE 505 and SYSE 580A2.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 512 Systems Sensing and Imaging Analysis Credits: 3 (3-0-0)

Course Description: Sensing, sampling, filtering, transducing, and transmission of information to transform physical data to the digital domain. Subsequent processing of image and digital data, restoration, analysis and classification to problems in inspection, authentication, color science, biometrics, and signal/image characterization.

Prerequisite: ECE 303 or STAT 303 or STAT 315.

Registration Information: Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online. Credit not allowed for both SYSE 512 and ENGR 681A2.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 530 Overview of Systems Engineering Processes Credits: 3 (3-0-0)

Course Description: Systems engineering life-cycle process and analysis techniques. Reliability and robustness.

Prerequisite: ECE 303 or STAT 303 or STAT 315.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: ECE 530, ENGR 530, or SYSE 530.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 532 Dynamics of Complex Engineering Systems Credits: 3 (3-0-0) **Also Offered As:** ECE 532.

Course Description: Higher-level behavior and issues that emerge from interaction between components in complex socio-technical systems.

Prerequisite: ECE 501, may be taken concurrently or ENGR 501, may be taken concurrently or SYSE 501, may be taken concurrently.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: ECE 532, ENGR 532, or SYSE 532.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 534 Human Systems Integration Credits: 3 (3-0-0)

Course Description: Evaluation of human capabilities and limitations when designing and evaluating complex systems in order to enhance safety, efficiency, usability, and reduce life cycle costs.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Bachelor's degree required. Sections may be offered: Face-to-Face, Online, or Mixed Face-to-Face. Credit not allowed for both ENGR 581A4 and SYSE 534.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 536 Space Mission Analysis and Design Credits: 3 (3-0-0)

Course Description: A mission and systems perspective on the many involved aspects of engineering a system with a space element. Evaluation of multiple combinations of architectural elements and operational procedures to meet a broad set of stakeholder needs, including hidden and non-technical needs.

Prerequisite: SYSE 501.

Restriction: Must be a: Graduate.

Registration Information: Sections may be offered: Online. Credit not allowed for both SYSE 536 and SYSE 580A4.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 541 Engineering Data Design and Visualization Credits: 3 (3-0-0)

Course Description: Data design, aggregation and filtering, intuitive data exploration, effective communication of patterns, summaries, and findings, and methods of archiving for engineers.

Prerequisite: ECE 303 or STAT 303 or STAT 315.

Registration Information: Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online. Credit not allowed for both ENGR 580A5 and SYSE 541.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 544 Systems-Based AR/VR Environmental Realism Credits: 3 (3-0-0)

Course Description: Systems approaches to create environmental realism in augmented reality/virtual reality (AR/VR) applications, with examples in manufacturing, agriculture, space flight, and healthcare.

Topics include test, measurement, and qualification of the environments of interest, functional/quantifiable verification of replication, and systems engineering practice-inspired means of designing/specifying the content of the AR/VR applications.

Prerequisite: ECE 303 or MECH 231 or STAT 303 or STAT 315.

Registration Information: Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online. Credit not allowed for both SYSE 544 and SYSE 581A1.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 545 Augmented/Virtual Reality Systems Development Credits: 3 (3-0-0)

Course Description: A systems-based approach to utilizing Social Virtual and Augmented Reality as platforms for designing and implementing AR/VR learning experiences.

Prerequisite: ECE 303 or MECH 231 or STAT 303 or STAT 315.

Restriction: Must be a: Graduate.

Registration Information: Sections may be offered: Online. Credit not allowed for both SYSE 545 and SYSE 580A5.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 548 Security Engineering for Systems Engineers Credits: 3 (3-0-0)

Course Description: Secure design concepts, leveraging modern case studies of offensive approaches used by attackers. Topics include threat analysis, usability, protocols, cryptography, access control, economics, multilevel security, locks, monitoring, security printing, nuclear command, biometrics, side channels, networks, and information warfare.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 549 Secure Vehicle and Industrial Networking Credits: 3 (3-0-0)

Course Description: Theoretical and practical applications of secure communications in automotive and industrial networked systems. Industry standards used to understand challenges of balancing requirements for cybersecurity and functional performance. Networks include IP networks, Ethernet, in-vehicle networks, Controller Area Networks, SAE J1939 and diagnostic systems. Coverage includes physical connections, encoding, message framing, media access control, error detection, cryptography and application security.

Prerequisite: CS 163 or CS 164.

Registration Information: Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online. Credit not allowed for both ENGR 580A6 and SYSE 549.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 555 Transitions in Energy Systems Credits: 3 (3-0-0)

Course Description: Study and investigation of the technical, operational, environmental, economic, social, and political transitions that are underway in the energy sector, and in particular those that impact the design, development, and deployment of energy systems of the future.

Prerequisite: STAT 301.

Restriction: Must be a: Graduate.

Registration Information: Sections may be offered: Online. Credit not allowed for both SYSE 555 and SYSE 581A2.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 567 Systems Engineering Architecture Credits: 3 (3-0-0)

Course Description: Observation/classification of systems architecture. Systems architecture principles and critical evaluation through design studies.

Prerequisite: ECE 501 or ENGR 501 or SYSE 501.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: ECE 567, ENGR 567, or SYSE 567.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 569 Cybersecurity Awareness for Systems Engineers Credits: 3 (3-0-0)

Course Description: Cybersecurity principles, practices, technologies, design approaches, and terminology needed to incorporate cybersecurity principles into effective systems designs.

Prerequisite: ENGR 501 or SYSE 501.

Registration Information: Bachelor's degree required. Sections may be offered: Online. Credit allowed for only one of the following: ENGR 569, ENGR 580A4, or SYSE 569.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 571 Analytics in Systems Engineering Credits: 3 (3-0-0)

Course Description: Focus on the appropriate application of data mining, knowledge generation, data analytics and data algorithmics to large complex systems. Demystify "big data" for systems engineers as applied to intelligent systems.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Bachelor's degree required. Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online. Credit not allowed for both ENGR 571 and SYSE 571.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 573 Cost Optimization for Systems Engineers Credits: 3 (3-0-0)

Course Description: Techniques and strategies to respond to requirements, design, development and manufacturing decisions, while optimizing for cost at the organizational, program, and project level.

Prerequisite: ENGR 502 and ENGR 531.

Restriction: Must be a: Graduate.

Registration Information: Sections may be offered: Face-to-Face, Online, or Mixed Face-to-Face. Credit not allowed for both ENGR 581A3 and SYSE 573.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 596 Group Study-Systems Engineering Skills Credits: Var[1-2] (0-0-0)

Course Description: Topics related to building specialized skills relevant for the systems engineering field.

Prerequisite: None.

Registration Information: Bachelor's degree required. Sections may be offered: Online.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 597 Group Study in Systems Engineering Credits: 3 (0-0-3)

Course Description: Special and contemporary topics in the field of systems engineering.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Sections may be offered: Online.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 602 Systems Requirements Engineering Credits: 3 (3-0-0)

Course Description: Introduction to the rigorous requirements process within systems engineering, including system requirements analysis, requirements decomposition, allocation, tracking, verification, and validation.

Prerequisite: (ENGR 501 or SYSE 501) and (ENGR 530 or SYSE 530).

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: ENGR 602, ENGR 680A2, or SYSE 602.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 603 Introduction to Systems Test and Evaluation Credits: 3 (3-0-0)

Course Description: Test and evaluation of systems at both the component and systems levels to provide insights into how systems succeed or fail based on test methodologies.

Prerequisite: ENGR 502 and ENGR 531.

Restriction: Must be a: Graduate, Professional.

Registration Information: Bachelor's degree required. Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online. Credit allowed for only one of the following: ENGR 603, ENGR 680A3, or SYSE 603.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 667 Advanced Model-Based Systems Engineering Credits: 3 (3-0-0)

Course Description: Theory and application of formal systems architecture modeling.

Prerequisite: ENGR 567 or SYSE 567.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online. Credit not allowed for both ENGR 567 or SYSE 567.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 695 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

SYSE 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

SYSE 701 Research Methods in Systems Engineering Credits: 3 (3-0-0)

Course Description: Introduction to the systems engineering research field and program expectations.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online. Credit not allowed for both SYSE 701 and SYSE 780A1.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

SYSE 710 Leadership/Innovation in Systems Engineering Credits: 3 (3-0-0)

Course Description: Background in technical leadership skill sets, systems engineering skillsets, and intellectual toolkit to develop a successful applied and translational research project/practicum.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Bachelor's degree required. Sections may be offered: Online. Course is not available for credit toward the PhD in Systems Engineering. Credit not allowed for both ENGR 710 and SYSE 710.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SYSE 711 Ethics in Systems Engineering Credit: 1 (0-0-1)
Course Description: Ethical principles and their application to systems engineering.
Prerequisite: ENGR 501 or SYSE 501.
Restriction: Must be a: Graduate, Professional.
Registration Information: Offered as an online course only. Credit not allowed for both ENGR 711 and SYSE 711.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SYSE 786 Applied Systems Engineering Practicum Credits: Var[1-9] (0-0-0)
Course Description: Research techniques, critical thinking, evaluation criteria, and methods of technical writing.
Prerequisite: ENGR 710 or SYSE 710.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of advisor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

SYSE 795 Independent Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

SYSE 799A Dissertation: PhD Credits: Var[1-18] (0-0-0)
Course Description: Dissertation for PhD in System Engineering Program.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of advisor. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

SYSE 799B Dissertation: Professional Doctorate Credits: Var[1-9] (0-0-0)
Course Description:
Prerequisite: SYSE 786.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of advisor. Admission to Professional Doctorate of Engineering, Systems Engineering.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

Master of Science in Systems Engineering

Graduates of the Master of Science in Systems Engineering are capable of designing and managing complex multidisciplinary engineering systems with a rigorous systems engineering approach. The research component of the thesis- and project-based M.S. programs equip students with cutting edge skills in specific focus areas, preparing them for future career opportunities.

Learning Objectives

Upon successful completion, students will be able to:

- 1. Effectively analyze, design, or implement integrated system solutions.
- 2. Effectively use SE tools such as modeling and simulation of a system.
- 3. Analyze systems interfaces between stakeholder, technical domains effectively and efficiently.
- 4. Exemplify a variety of roles in multi-disciplinary teams including systems engineer, technical expert, and leader.
- 5. Contribute technically to the systems engineering field of knowledge, governance, policy, programmanagement, or planning.

Plan A Effective Fall 2024

Code	Title	Credits
Core Requirements		
Select 5 courses from the following:		15
ECE 566	Grid Integration of Wind Energy Systems	
ENGR 502	Engineering Project and Program Management	
or CIS 600A	Project Management: Information Technology	
or CIS 670	Advanced IT Project Management	
ENGR 510	Engineering Optimization: Method/ Application	
ENGR 520	Engineering Decision Support/Expert Systems	
ENGR 525	Intellectual Property and Invention Systems	
ENGR 531	Engineering Risk Analysis	
ENGR 533	Spaceflight and Biological Systems	
ENGR 535	Modeling Human Systems Behavior	
ENGR 540	Design Analysis of Engineering Experiments	

ENGR 565/ ECE 565	Electrical Power Engineering	
ENGR 570	Coupled Electromechanical Systems	
MECH 513	Simulation Modeling and Experimentation	
SYSE 501	Foundations of Systems Engineering	
SYSE 505	Systems Thinking for the Real World	
SYSE 512	Systems Sensing and Imaging Analysis	
SYSE 530	Overview of Systems Engineering Processes	
SYSE 532/ ECE 532	Dynamics of Complex Engineering Systems	
SYSE 534	Human Systems Integration	
SYSE 541	Engineering Data Design and Visualization	
SYSE 544	Systems-Based AR/VR Environmental Realism	
SYSE 545	Augmented/Virtual Reality Systems Development	
SYSE 548	Security Engineering for Systems Engineers	
SYSE 549	Secure Vehicle and Industrial Networking	
SYSE 567	Systems Engineering Architecture	
SYSE 569	Cybersecurity Awareness for Systems Engineers	
SYSE 571	Analytics in Systems Engineering	
SYSE 573	Cost Optimization for Systems Engineers	
SYSE 602	Systems Requirements Engineering	
SYSE 603	Introduction to Systems Test and Evaluation	
SYSE 667	Advanced Model-Based Systems Engineering	
Technical Electives ¹		6
Thesis		
SYSE 699	Thesis	9
Program Total Credits:		30

A minimum of 30 credits are required to complete this program.

¹ Select 6 credits with approval by student's advisory committee.
A maximum of 6 credit hours are permitted at the 400-level. The remainder must be at the 500-level or above.

Plan B Effective Fall 2024

Code	Title	Credits
Core Requirements		
Select 5 courses from the following:		15
ECE 566	Grid Integration of Wind Energy Systems	
ENGR 502	Engineering Project and Program Management

A minimum of 30 credits are required to complete this program.

¹ Select 6 credits with approval by student's advisory committee.
A maximum of 6 credit hours are permitted at the 400-level. The remainder must be at the 500-level or above.

² Complete SYSE 695 or select a comparable course with a minimum of 3 credits with approval of graduate advisor.

Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees in the Graduate and Professional Bulletin.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/ Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/ dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Doctor of Engineering in Systems Engineering

The Doctor of Engineering in Systems Engineering degree is intended for working professionals and includes core studies in complex systems engineering and its applications to complex systems in a working environment. The curriculum includes professional and applied/translational courses, a systems engineering practicum, and a dissertation to assist working professionals in attaining a higher level of value for their organizations.

Learning Objectives

- 1. Use systems engineering thinking and frameworks to effectively design, analyze, and implement integrated system solutions.
- 2. Demonstrate an applied mastery of the systems engineering technical domain including systems design, computation, modeling, analysis, and systems science.
- 3. Demonstrate an applied mastery of the systems engineering management domain including lifecycle processes, stakeholder management, leadership, and enterprise engineering.
- 4. Achieve a level of understanding which will contribute to the advancement of the systems engineering enterprise and profession.

Requirements Effective Fall 2024

Code	Title	Credits
Required Courses: ¹		
ENGR 502	Engineering Project and Program Management	3
or CIS 600A	Project Management: Information Technology	
or CIS 670	Advanced IT Project Management	
ENGR 531	Engineering Risk Analysis	3
SYSE 501	Foundations of Systems Engineering	3
SYSE 530	Overview of Systems Engineering Processes	3
Applied Required Course:		
SYSE 786	Applied Systems Engineering Practicum	9
Professional Required Course:		
SYSE 710	Leadership/Innovation in Systems Engineering	3
Courses in Depth – Select 3 credits from the following: ²		3
ENGR 510	Engineering Optimization: Method/ Application	
ENGR 520	Engineering Decision Support/Expert Systems	
ENGR 525	Intellectual Property and Invention Systems	
ENGR 533	Spaceflight and Biological Systems	
ENGR 535	Modeling Human Systems Behavior	
ENGR 540	Design Analysis of Engineering Experiments

SYSE 573	Cost Optimization for Systems Engineers	
SYSE 602	Systems Requirements Engineering	
SYSE 603	Introduction to Systems Test and Evaluation	
SYSE 667	Advanced Model-Based Systems Engineering	
Applied Electives – Select 3 credits from the following:		3
BUS 500	Foundations for Business Impact	
BUS 601	Quantitative Business Analysis	
CIS 570	Business Intelligence	
CIS 575	Applied Data Mining and Analytics in Business	
Professional Electives – Select 3 credits from the following:		3
BUS 620	Leadership and Teams	
BUS 630	Information Management	
CIS 676	Information Technology Management	
PSY 647	Applied Industrial Psychology	
PSY 648	Applied Organizational Psychology	
SYSE 711	Ethics in Systems Engineering	
Research and Dissertation		
SYSE 799B	Dissertation: Professional Doctorate	9
Additional credits required to complete this degree:		30
Applicable Master's Degree Credit (a maximum of 30 credits may be accepted from a master's degree)		
Technical courses as advised (500-level or higher)		
Program Total Credits:		72

A minimum of 72 credits are required to complete this program.

¹ If required courses or the equivalent have not been taken, they must be taken prior to any other technical elective.

² Other courses may be selected with advisor approval.

12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/ Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/ dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Ph.D. in Systems Engineering

The Ph.D. in Systems Engineering prepares students to become leaders in systems engineering. Throughout the program, students produce

significant academic contributions, in terms of original research, to the field. These contributions drive advancements and lead to improvements in energy efficiency, environmental impact, cybersecurity, and economic growth, among other areas of application for systems engineering.

Learning Objectives

Upon successful completion, students will be able to:

- 1. Effectively analyze, design, or implement integrated system solutions.
- 2. Effectively use and create systems engineering tools such as modeling and simulation of a system.
- 3. Evaluate systems interfaces between stakeholder and technical domains effectively and efficiently.
- 4. Exemplify a variety of roles in multi-disciplinary teams including systems engineer, technical expert, and leader, product owner, upper management.
- 5. Contribute technically to the systems engineering field of knowledge.

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Systems Engineering Practice

The Graduate Certificate in Systems Engineering Practice introduces students to systems engineering concepts and practices with coursework that instills the key core competencies and skills needed to practice as a systems engineer with complex systems involving hardware and embedded software. This certificate prepares engineers or other professionals in aerospace technology, energy, biosciences, environmental resources, and other fields to lead systems engineering development from concept creation through the system lifecycle. Students who finish SYSE 501 with at least a B+ (87%) or higher in the course can bypass the INCOSE knowledge exam for either ASEP certification or CSEP certification.

Learning Objectives

Students will:

1. Understand the definition, application and importance of systems engineering.
2. Gain an entry-level understanding of the key tool sets in systems engineering, and be able to successfully perform as an entry-level systems engineer.

College of Health and Human Sciences

Office in L.L. Gibbons Building, Room 217
(970) 491-6331
www.chhs.colostate.edu (<https://www.chhs.colostate.edu>)

Professor Lise Youngblade, Dean
Professor Jennifer Aberle, Associate Dean for Undergraduate Affairs
Professor Matthew Hickey, Associate Dean for Research and Graduate Programs
Professor Michelle Foster, Associate Dean for Diversity, Equity, Inclusion, and Justice

Undergraduate Majors

- Apparel and Merchandising
- Construction Management
- Early Childhood Education
- Family and Consumer Sciences
- Fermentation and Food Science
- Health and Exercise Science
- Hospitality and Event Management
- Human Development and Family Studies
- Interior Architecture and Design
- Nutrition Science
- Social Work

Undergraduate Minors

- Construction Management
- Design Thinking
- Fermentation and Food Science
- Health and Exercise Science
- Human Development and Family Studies
- Merchandising
- Nutrition

Interdisciplinary Minors

- Food Science/Safety Interdisciplinary Minor
- Gerontology Interdisciplinary Minor

Undergraduate Certificates

- Design Thinking
- Disability and Neurodiversity
- Youth Mentoring with Campus Connections

Graduate Programs and Certificates

- Construction Management
- Design and Merchandising
- Food Science and Human Nutrition
- Health and Exercise Science
- Human-Centered Design Thinking
- Human Development and Family Studies
- Occupational Therapy
- School of Education
- School of Social Work

College Programs

The College of Health and Human Sciences (<https://www.chhs.colostate.edu/>) comprises six academic departments and two schools focused on promoting the health and well-being of people, their environments, and the communities in which they live. The College's programs offer professional education and research opportunities for careers and lifelong learning through a solid grounding in the natural sciences, social sciences, and humanities with courses specific to each discipline.

Learning in the College is applied, experiential, and takes place in a variety of settings on and off-campus, forging strong links between the classroom and the workplace. All of the College's programs combine classroom instruction with hands-on experiences in state-of-the-art computer laboratories, research laboratories, specialized centers and institutes, and with faculty who emphasize student success and support diverse learning styles. The College offers numerous scholarships (<https://www.chhs.colostate.edu/academics/scholarships/>) and supports student learning and basic needs through a variety of University resources.

Education Abroad

Education abroad programs are available to all students in the College of Health and Human Sciences. Students interested in education abroad should plan in advance, by discussing opportunities with their academic advisor and by visiting the Education Abroad office#in Laurel Hall. The Education Abroad office offers information about credit and non-credit opportunities (service-learning/volunteer, research, and internships). They also provide support prior to and during travel, information about scholarships and financial aid, and specific resources for adult learners & veterans, students with disabilities, and students from diverse economic, educational, ethnic and social backgrounds.

Career Opportunities and Career Education

College of Health and Human Sciences prepares students for success in a variety of careers to promote and improve the health and well-being of people, their environments, and communities. While students' education focuses on a specific academic discipline, through courses and other experiences, they will build skills that transfer to many different careers and fields. The College's Career Development resources and Career Education Manager (<https://www.chhs.colostate.edu/after-college/>)

career-development/) are here to support students with their career and professional development.

Online and Distance Education

The College supports access to education by offering undergraduate and graduate courses and degree programs and several non-credit professional development opportunities online. For details about the College's online courses, degree programs, and certificates, please visit CSU Online.

Minor in Design Thinking

The Minor in Design Thinking, offered on-campus and through CSU Online, provides students with an opportunity to develop creative methods and processes for solving societal problems. This human-centered approach engages users and stakeholders in interdisciplinary co-design processes and applies elementary or emerging technologies to develop prototypes that improve spaces, objects, services, problems, and ideas benefitting daily experiences and overall quality of life. Students will gain an awareness of the impact of design thinking and its application – to their major, discipline, or profession.

Learn more about the Minor in Design Thinking, including which courses are offered each semester, on the Nancy Richardson Design Center website. (<https://www.chhs.colostate.edu/rdc/learn/undergraduate-certificate-or-minor-in-design-thinking/>)

Requirements Effective Fall 2024

Courses from this list may not double-count for the Undergraduate Certificate in Design Thinking.

Students cannot earn both the certificate and minor in Design Thinking.

Additional coursework may be required due to prerequisites.

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Code	Title	Credits
Required Courses:		
IDEA 110	Design Your Life with Social Impact (GT-SS3)	3
IDEA 210	Introduction to Design Thinking (GT-AH1)	3
Select a minimum of 9-12 credits from the following courses:		9-12
IDEA 310A	Design Thinking Toolbox: Paper Products	
IDEA 310B	Design Thinking Toolbox: 3D Modeling	
IDEA 310D	Design Thinking Toolbox: Digital Imaging	
IDEA 310E	Design Thinking Toolbox: Foundations of Woodworking	
IDEA 310F	Design Thinking Toolbox: Foundations of Textile Design	
IDEA 310G	Design Thinking Toolbox: Infographics	
IDEA 310H/ CS 310H	Design Thinking Toolbox: Mixed Reality Design	
IDEA 310I	Design Thinking Toolbox: Foundations of Metal Fabrication	
IDEA 310J	Design Thinking Toolbox: Graphic Noveling	

IDEA 310K	Design Thinking Toolbox: Technical Sketching and Illustration
IDEA 310L	Design Thinking Toolbox : Creating Things That Think
IDEA 310M	Design Thinking Toolbox: Co-designing with Communities
IDEA 310N	Design Thinking Toolbox: Post-Digital Imaging/Printmaking
IDEA 310O	Design Thinking Toolbox: Digital Interaction and Game Design
IDEA 310P	Design Thinking Toolbox: Low-Fidelity Prototyping
IDEA 310Q	Design Thinking Toolbox: 3D Animation and Storytelling
IDEA 320B	Design Thinking Toolbox: Advanced 3D Modeling
IDEA 320E	Design Thinking Toolbox: Advanced Woodworking
IDEA 320F	Design Thinking Toolbox: Advanced Textile Design
IDEA 320I	Design Thinking Toolbox: Advanced Metal Fabrication

Select a minimum of 3-6 credits from the following courses: 3-6

IDEA 384	Supervised College Teaching
IDEA 424/ MGT 424	Design Thinking in Social Entrepreneurship
IDEA 450	Design Thinking Collaborative
IDEA 455/ MGT 455	Designing for Defense
IDEA 487	Internship
IDEA 496	Group Study

Program Total Credits: 21

Certificate in Design Thinking

Open to all undergraduate students on-campus and through CSU Online, the Certificate in Design Thinking provides undergraduate students with an opportunity to explore creative approaches to solve problems. This human-centered approach explores the needs of society and applies elementary or emerging technologies – or tools – to inspire improvement and innovation in the development of spaces, objects, services, problems and ideas that define daily experiences and overall quality of life. Students will gain an awareness of the impact of design thinking and its application to their major, discipline, or profession.

Learn more about the Certificate in Design Thinking, including planned course offerings each semester, on the Nancy Richardson Design Center website. (<https://www.chhs.colostate.edu/rdc/learn/>)

Requirements Effective Fall 2024

Courses from this list may not double-count for the Minor in Design Thinking.

Students cannot earn both the certificate and minor in Design Thinking.

Additional coursework may be required due to prerequisites.

Program Total Credits: 12

Graduate Certificate in Human-Centered Design Thinking

The Graduate Certificate in Human-Centered Design Thinking, offered through CSU Online, brings together learners from diverse disciplines who aspire to improve personal creativity and/or initiate and lead change in their respective fields. Courses prepare students with theories, strategies, and methods pertaining to the entire innovation process — from stakeholder research and problem finding through prototyping, user testing, and beyond.

Learning Objectives

Upon successful completion of the certificate, students will have:

1. Cultivated an understanding of design thinking theories, methods, and processes.
2. Discovered the way expert designers think through making.
3. Envisioned how emerging technologies may shape human-centered design thinking processes in design and non-design fields.
4. Articulated the value of design thinking innovation to their own disciplines.
5. Developed a variety of design thinking skills and approaches through hands-on activities.

Learn more about the Graduate Certificate in Human-Centered Design Thinking on the CSU Online website. (<https://www.online.colostate.edu/certificates/human-centered-design-thinking/>)

Requirements Effective Fall 2023

Additional coursework may be required due to prerequisites.

Code	Title	Credits
IDEA 510	Processes of Human-Centered Design Thinking	3
Select one course from the following		3
IDEA 520	Methods for Human-Centered Design Thinking	
IDEA 555/ MGT 555	Managing Design for Defense	
Select 3 credits from the following courses:		3
IDEA 525A	Mixed Reality for Design Thinking: Trends	
IDEA 525B	Mixed Reality for Design Thinking: Storytelling	
IDEA 525C	Mixed Reality for Design Thinking: Inclusive Design	
IDEA 525D	Mixed Reality for Design Thinking: Data Visualization	
IDEA 525E	Mixed Reality for Design Thinking: Application Prototyping	
IDEA 525F	Mixed Reality for Design Thinking: Prototyping Games	

Program Total Credits: 9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Department of Construction Management

Office in Guggenheim Hall, Room 102
(970) 491-7353
www.chhs.colostate.edu/cm (<https://www.chhs.colostate.edu/cm>)

The Construction Management (CM) program at CSU is one of the top-recognized programs in the nation. Since its inception in 1946, more than 6,000 students have graduated, many of them going on to become leaders in their field. The program is accredited by the American Council for Construction Education.

Construction management is the overall planning, coordination, and control of a project from inception to completion. The CM major addresses issues related to the management of multiple project sites and the applications of resource management, schedule control, cost control, design, and other requirements of the construction process. Design elements concentrate on the relationship between the built environment and the comfort of its inhabitants while safety education emphasizes the health of the individual worker.

Undergraduate Program

A major in Construction Management provides a strong foundation for professional careers in the construction industry. The curriculum integrates technology and innovative management systems with the basics of civil engineering, business and management, and the communication skills required to be successful in today's world. Coursework includes construction methods, estimating, scheduling, computer technologies, architectural principles, fundamentals of management and law, steel and concrete structures, and soils. The curriculum incorporates hands-on labs for most courses. This diverse program creates a broad range of career options for graduates. Learn more about the undergraduate program on the department website. (<https://www.chhs.colostate.edu/cm/programs-and-degrees/b-s-in-construction-management/>)

Graduate Program

The Department of Construction Management offers graduate study leading to the Master of Science degree. **The Master's Degree in the Department of Construction Management at CSU is a STEM (Science, Technology, Engineering, and Mathematics) program.** The focus of the department is on professional programs that successfully combine theory and application with a strong emphasis in research. The master's

program is an advanced curriculum designed to allow students to tailor a portion of the specialization requirements to meet individual interests and goals. Learn more about the master's program on the department website. (<https://www.chhs.colostate.edu/cm/programs-and-degrees/m-s-in-construction-management/>)

Undergraduate Major

- Major in Construction Management

Minor

- Minor in Construction Management

Graduate Graduate Programs in Construction Management

The graduate program in Construction Management provides an environment that supports graduate students in their development of knowledge necessary to enhance professional practice and apply research to management decisions that impact organizations in an emerging global economy. The master's program is an advanced curriculum designed to allow students to tailor a portion of the specialization requirements to meet individual interests and goals.

Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Construction Management (<http://cm.chhs.colostate.edu>).

Master's Programs

- Master of Science in Construction Management, Plan A
- Master of Science in Construction Management, Plan B

Courses

Construction Management (CON)

CON 101 Introduction to Construction Management Credits: 3 (3-0-0)

Course Description: Introduction to the construction industry; including methods, practices, trends, careers, and constituencies involved in the design and construction process.

Prerequisite: None.

Registration Information: Pre-Construction Management Majors and Construction Management Majors and Minors Only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 131 Graphic Communications for Construction Credits: 2 (0-4-0)

Course Description: Reading technical drawings, 2D/3D visualization, manual drafting techniques, introduction to design software applications.

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 151 Construction Materials and Methods Credits: 3 (3-0-0)

Course Description: Materials and methods utilized in the construction of the built environment.

Prerequisite: None.

Registration Information: Agricultural Education, Interior Architecture and Design, Pre-Interior Architecture and Design majors, and Construction Management majors and minors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 192 Construction Management Seminar Credit: 1 (0-0-1)

Course Description: Introduction to the construction management major, career paths, industry sectors, campus resources, and tools for academic success. Information and skills necessary to succeed in the construction management major.

Prerequisite: CON 101.

Registration Information: Construction management majors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 251 Materials Testing and Processing Credits: 2 (1-2-0)

Course Description: Testing of construction materials for standards and quality. Conduct material tests, document and interpret results.

Prerequisite: CON 151 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Construction Management Majors Only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CON 253 Surveying and Construction Layout Credits: 2 (0-2-1)

Course Description: Surveying fundamentals related to construction: project layout, measurement procedures, vertical controls, line and grade, and surveying instrument operation.

Prerequisite: (CON 131 with a minimum grade of C) and (MATH 125 or MATH 127 or MATH 160).

Registration Information: Construction management, environmental horticulture, and landscape architecture majors only. Must register for laboratory and recitation. Credit not allowed for both CON 253 and CON 261.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CON 261 Construction Surveying Credits: 3 (2-3-0)

Prerequisite: (CON 131 with a minimum grade of C or INTD 166) and (MATH 125 or MATH 160).

Grade Mode: Traditional.

Special Course Fee: No.

CON 265 Plan Reading and Quantity Survey Credits: 3 (2-2-0)

Course Description: Practice in construction document reading, interpretation and analysis for quantity surveying and material quantity organizing using industry-recognized methods including, but not limited to, a project manual-based work breakdown structure.

Prerequisite: CON 131 with a minimum grade of C and CON 151 with a minimum grade of C.

Registration Information: Construction management majors and minors only. Must register for lecture and laboratory. Required field trips.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 267 Construction Management Pre-Internship Credit: 1 (0-0-1)

Course Description: Skills and concepts related to successful internships within the construction management industry.

Prerequisite: CON 265 with a minimum grade of C.

Registration Information: Construction Management Majors Only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 270 Introduction to Road Construction Credits: 3 (3-0-0)

Course Description: Steps necessary to construct a paved roadway from conception, land acquisition and finance through paving operations and trafficking.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CON 317 Safety Management Credits: 2 (2-0-0)

Course Description: Construction safety management, accident prevention, and hazard control. Federal, state, and local regulation compliance.

Prerequisite: None.

Registration Information: Construction Management majors and minors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 350A Study Abroad--Construction Management: European Perspectives Credits: 3 (0-0-3)

Course Description: A study of the physical resources and the human behaviors, which inform design and construction. Exploration of infrastructure and its relationship to resources, materials, and the culture in which it exists. Review of international perspectives of the built environment of Europe, past and present trends, and what the future holds. Survey of construction over time and trends in the preservation of existing infrastructure.

Prerequisite: None.

Registration Information: Sophomore standing. This is a partial semester course. Required field trips.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

CON 351 Construction Field Management Credits: 2 (1-2-0)

Course Description: Applications of materials and methods in construction; administrative and organizational planning for construction field practice.

Prerequisite: CON 251, may be taken concurrently and CON 317, may be taken concurrently.

Registration Information: Must register for lecture and laboratory. Construction management majors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 352 Metal Fabrication for Construction Credits: 2 (1-2-0)

Course Description: Shaping, cutting, and joining of structural and non-structural metal. Emphasis on jobsite safety, economics, and efficiency.

Prerequisite: CON 251.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CON 353 Field Management for Construction Credits: 3 (1-2-1)

Course Description: Applications of materials and methods in construction; administrative and organizational planning for construction field practice.

Prerequisite: (CON 251, may be taken concurrently) and (CON 253 or CON 261) and (CON 317, may be taken concurrently).

Registration Information: Construction management majors only. Must register for lecture, lab, and recitation. Credit not allowed for both CON 351 and CON 353.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

CON 358 Structural Systems for Construction I Credits: 3 (3-0-0)

Course Description: Behavior of structural components and systems, overview of structural engineering analysis and the design process for construction.

Prerequisite: (CON 151 with a minimum grade of C) and (MATH 125 or MATH 160).

Registration Information: Construction management majors only. Credit not allowed for CON 358 and CON 359.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 359 Structures I Credits: 4 (4-0-0)

Prerequisite: (CON 151 with a minimum grade of C) and (MATH 125).

Grade Mode: Traditional.

Special Course Fee: No.

CON 360 Electrical Systems in Construction Credits: 3 (2-2-0)

Course Description: Electrical terminology, theory, components, systems, and applications within the construction industry.

Prerequisite: CON 265 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Construction Management Majors Only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 365 Construction Estimating Credits: 3 (2-2-0)

Course Description: Industry-recognized methods for work item analysis, quantity surveying, resource estimating, and bid development using a work breakdown structure.

Prerequisite: CON 265 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Construction Management majors and minors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 366 Construction Equipment and Methods Credits: 3 (2-2-0)

Course Description: Equipment and methods used in heavy-highway, heavy-civil and utility construction. Equipment and crew productivity. Equipment ownership and operating costs. Estimating, planning and directing heavy construction operations.

Prerequisite: CON 265 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Construction Management majors and minors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 367 Construction Contracts/Project Administration Credits: 3 (3-0-0)

Course Description: Construction contracts and clauses, stakeholder responsibilities, disputes, resolution methods and risk. Utilization of construction administration documents, systems and procedures to meet project requirements.

Prerequisite: CON 351, may be taken concurrently or CON 353, may be taken concurrently.

Registration Information: Construction management majors and minors only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 370 Asphalt Pavement Materials and Construction Credits: 3 (2-2-0)

Course Description: Constituents of asphalt pavements; manufacture of asphalt cement, emulsions, and cutbacks; material properties and behavior.

Prerequisite: None.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Construction management and civil engineering majors only. Must register for lecture and laboratory. Required field trips.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 371 Mechanical and Plumbing Systems Credits: 3 (3-0-0)

Course Description: Heating, ventilation, air conditioning, plumbing, and fire suppression in the built environment.

Prerequisite: CON 360, may be taken concurrently or INTD 276, may be taken concurrently.

Registration Information: Interior Design and Construction Management Majors Only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 372 Concrete Material Properties and Construction Credits: 3 (2-2-0)

Course Description: Concrete material properties and behavior, analysis of concrete mixtures, advanced concrete applications for construction, forensic analysis of concrete reports, concrete construction quality assurance and quality control.

Prerequisite: CON 251 with a minimum grade of C-.

Registration Information: Must register for lecture and laboratory. Credits not allowed for both CON 372 and CON 380A1.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CON 384 Supervised College Teaching Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 450 Travel Abroad-Sustainable Building Credits: 3 (3-0-0)**Also Offered As:** INTD 450.**Course Description:** Major components of sustainable design and construction, energy, healthy buildings, natural resources and other environmental issues.**Prerequisite:** None.**Registration Information:** Credit not allowed for both CON 450 and INTD 450.**Term Offered:** Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**CON 458 Structural Systems for Construction II Credits: 3 (3-0-0)****Course Description:** Review and analysis of shop drawings and details for structural systems. Overview of cast-in-place and prestressed concrete systems. Design of structural wood systems, connections, and formwork for cast-in-place concrete.**Prerequisite:** CON 358 with a minimum grade of C or CON 359 with a minimum grade of C.**Registration Information:** Construction management majors only. Credit not allowed for both CON 458 and CON 459.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**CON 459 Structures II Credits: 4 (4-0-0)****Course Description:** Design of formwork, falsework, and shoring.**Prerequisite:** CON 359.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**CON 461 Construction Scheduling Credits: 3 (2-2-0)****Course Description:** Strategies and techniques for efficient project control, scheduling of project activities and projects with an emphasis on Critical Path Methodology.**Prerequisite:** CON 365 with a minimum grade of C.**Registration Information:** Construction management majors and minors only. Must register for lecture and laboratory.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**CON 462 Financial Management for Construction Credits: 3 (3-0-0)****Course Description:** Financial statements, financial ratios, time value of money, cash flow analysis and financial reporting for construction companies.**Prerequisite:** (ACT 205 or ACT 210) and (CON 365 with a minimum grade of C and CON 461, may be taken concurrently).**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**CON 464 Construction Leadership Credits: 3 (1-0-2)****Course Description:** Leading projects and people in a construction business and application of skills in a construction-based community service learning project.**Prerequisite:** CON 365 and CON 367, may be taken concurrently.**Registration Information:** Must register for lecture and recitation. Written consent of instructor.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**CON 465 Construction Management Professional Practice Credits: 3 (1-0-2)****Course Description:** Professional practice using an understanding of the contractual and working relationships among all participants in the design/construction process.**Prerequisite:** (CON 461, may be taken concurrently) and (CON 487A or CON 487E or CON 487B).**Registration Information:** Construction management majors only. Must register for lecture and recitation.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**CON 469 Soil Mechanics for Construction Credits: 3 (2-0-1)****Course Description:** Analysis of the physical characteristics and properties of soil for construction project decision making. Interpretation of soils reports, conducting of testing procedures and evaluation of soils for use as a construction material. Assessment of the impact of soil characteristics on construction activities and project risk.**Prerequisite:** CON 366 with a minimum grade of C.**Registration Information:** Must register for lecture and recitation. Construction management majors only.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**CON 471 Project Management for Mechanical Systems Credits: 3 (3-0-0)****Course Description:** Fundamental principles of mechanical systems. Presentation and practice of management principles relevant to mechanical projects.**Prerequisite:** CON 371 and CON 365, may be taken concurrently.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**CON 476 Sustainable Practice-Design and Construction Credits: 3 (3-0-0)****Course Description:** Major components of sustainable design/construction: energy, healthy buildings, cultural, natural resources, use, other environment/economic issues.**Prerequisite:** None.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**CON 477 Residential Aging-in-Place and Green Building Credits: 3 (3-0-0)****Course Description:** Aging-in-place and green building aspects of the residential construction market.**Prerequisite:** CON 265.**Restriction:** .**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.

CON 487A Internship: Construction Management Credits: 6 (0-0-18)

Course Description: Integrate and apply construction management competencies through practical on-the-job training and exposure with an organization performing construction-related services. Interns demonstrate competency through professional practice of knowledge, skills, and abilities related to the construction process.

Prerequisite: CON 267 and CON 367.

Registration Information: Written consent of instructor. OSHA 10-hour construction safety card.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 487B Internship: Construction Management Intermediate Credits: 3 (0-0-9)

Course Description: Integrate and apply construction management competencies through practical on-the-job training and exposure with an organization performing construction-related services. Interns demonstrate competency through professional practice of knowledge, skills, and abilities related to the construction process.

Prerequisite: CON 267 and CON 367.

Registration Information: Written consent of instructor. OSHA 10-hour construction safety card; 400 Hours of documented construction experience.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

CON 492A Seminar: Emerging Construction Technologies Credit: 1 (0-0-1)

Course Description: Emerging technologies in construction management practice. Applications of current and cutting-edge software, hardware, processes, tools and equipment in the industry.

Prerequisite: (CON 351 or CON 353) and (CON 365).

Registration Information: Construction Management majors only. Maximum of 3 credits allowed per subtopic. This is a partial semester course. Required field trips.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 492B Seminar: Construction Issues and Trends Credit: 1 (0-0-1)

Course Description: Issues and trends impacting construction project management and field operations. The impact of current trends on project management practice, risk mitigation and project controls.

Prerequisite: (CON 351 or CON 353) and (CON 365).

Registration Information: Construction Management majors only. Maximum of 3 credits allowed per subtopic. This is a partial semester course. Required field trips.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 492C Seminar: Heavy Civil Project Management Credit: 1 (0-0-1)

Course Description: Applications of project management practice for heavy civil construction projects. Exploration of heavy civil construction project management principles and concepts through industry-specific case studies, processes and tutorials.

Prerequisite: (CON 351 or CON 353) and (CON 365).

Registration Information: Construction Management majors only. Maximum of 3 credits allowed per subtopic. This is a partial semester course. Required field trips.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 492D Seminar: Commercial Project Management Credit: 1 (0-0-1)

Course Description: Applications of project management practice for commercial construction projects. Exploration of commercial construction project management principles and concepts through industry-specific case studies, processes and tutorials.

Prerequisite: (CON 351 or CON 353) and (CON 365).

Registration Information: Construction Management majors only. Maximum of 3 credits allowed per course. This is a partial semester course. Required field trips.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 492E Seminar: Residential Project Management Credit: 1 (0-0-1)

Course Description: Applications of project management practice for residential construction projects. Exploration of residential construction project management principles and concepts through industry-specific case studies, processes and tutorials.

Prerequisite: (CON 351 or CON 353) and (CON 365).

Registration Information: Construction Management majors only. Maximum of 3 credits allowed per subtopic. This is a partial semester course. Required field trips.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 495 Independent Study-Construction Management Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 496 Group Study-Construction Management Credits: Var[1-9] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 9 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 502 Research in Construction Management I Credits: 3 (2-0-1)

Course Description: Research, discuss, and present current issues and trends in the construction industry related to business, management, engineering, and technology.

Prerequisite: None.

Registration Information: Must register for lecture and recitation. Credit not allowed for both CON 502 and CON 562.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CON 503 Research in Construction Management II Credits: 3 (3-0-0)

Course Description: Models and methods of disciplined inquiry used in diverse application-based organizations. Preparation to use disciplined inquiry methods to solve applied problems in construction management or related fields. Topics include problem/topic selection, writing research questions and objectives, literature reviews, selection of research methods, data collection and analysis, and conclusions and implications.

Prerequisite: CON 502.

Registration Information: Credit not allowed for both CON 503 and CON 500.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 511 Project Procurement and Preconstruction Credits: 3 (2-0-1)

Course Description: Advanced project procurement procedures with a focus on early design phase planning applications and preconstruction management techniques.

Prerequisite: CON 461, may be taken concurrently.

Registration Information: Must register for lecture and recitation. Credit not allowed for both CON 511 and CON 566.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CON 512 Post-Award Construction Management Credits: 3 (2-0-1)

Course Description: Advanced topics related to post-award construction management issues with a focus on multiple project controls and project risk management.

Prerequisite: CON 461.

Registration Information: Must register for lecture and recitation. Credit not allowed for both CON 512 and CON 560.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 521 Sustainable Building & Infrastructure Systems Credits: 3 (2-0-1)

Course Description: Issues and state-of-the-art resources needed to construct, remodel/retrofit, operate and maintain the built environment (buildings and infrastructure). Specifically, resources will include major materials, components and technologies, as well as energy and water resources are needed in the different life-cycle phases of the building or infrastructure project.

Prerequisite: None.

Registration Information: Must register for lecture and recitation. Credit not allowed for both CON 521 and CON 576.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 561 Applied Productivity Improvement Credits: 3 (3-0-0)

Course Description: Existing and emerging tools for productivity enhancement in project and production environment.

Prerequisite: None.

Registration Information: Admission to the construction management master's program.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 565 Legal Aspects of Construction Process Credits: 3 (3-0-0)

Course Description: Common points of dispute; methods of avoiding disputes among owner, architect, engineer, and contractor.

Prerequisite: None.

Registration Information: Admission to the construction management master's program.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 568 Construction Industry Institute Practices Credits: 3 (3-0-0)

Course Description: Senior executives from the Construction Industry Institute (CII) present best practices developed by CII over the last 25 years.

Prerequisite: CON 367.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

CON 569 Regulatory Impact on Construction Credits: 3 (3-0-0)

Course Description: Role government plays in the design and construction of the built environment.

Prerequisite: None.

Registration Information: Admission to the construction management master's program.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 571 Facility Planning and Management Credits: 3 (3-0-0)

Course Description: Planning, organizing and managing large educational and/or commercial facilities.

Prerequisite: None.

Registration Information: Admission to the construction management master's program.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

CON 590 Workshop Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 592 Seminar Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

CON 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CON 687 Internship Credits: Var[1-6] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Maximum of 6 credits allowed in course.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CON 695 Independent Study Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CON 696 Group Study Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CON 698 Research Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**CON 699 Thesis Credits: Var[1-6] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Major in Construction Management

The Construction Management major at CSU is one of the top-recognized programs in the nation. Since its inception in 1946, more than 6,000 students have graduated, many of them going on to become leaders in their field. The program is accredited by the American Council for Construction Education (<https://www.acce-hq.org/>).

Construction management is the overall planning, coordination, and control of a project from inception to completion. The Construction Management major addresses issues related to the management of multiple project sites and the applications of resource management, schedule control, cost control, design, and other requirements of the construction process. Design elements concentrate on the relationship

between the built environment and the comfort of its inhabitants while safety education emphasizes the health of the individual worker.

A Construction Management major provides a strong foundation for professional careers in the construction industry. The curriculum integrates technology and innovative management systems with the basics of civil engineering, business and management, and the communication skills required to be successful in today's world. Coursework includes construction methods, estimating, scheduling, computer technologies, architectural principles, fundamentals of management and law, steel and concrete structures, and soils. The curriculum incorporates hands-on labs for most courses. This diverse program creates a broad range of career options for graduates.

Every student pursuing the Construction Management (CM) major will start as Pre-Construction Management (Pre-CM) and must meet the following entrance requirements before being fully admitted to the Construction Management major:

1. **Earn a minimum 2.50 cumulative CSU GPA, and a 2.75 Pre-CM GPA.**
 - The Pre-CM GPA is calculated based on grades earned in the Pre-CM entrance requirement categories: Construction Management, Written Communication, and Mathematics as described below.
2. **Construction Management requirement, must meet ALL:**
 - Complete CON 101 with a "B-" grade or better; or earned a "B-" grade or better in an approved CON 101 transfer substitution course as reviewed and approved by the CM Curriculum Committee.
 - Complete CON 131 with a "C" grade or better.
 - Complete CON 151 with a "C" grade or better.
3. **Written Communication requirement, must meet ONE:**
 - Complete CO 130 with a "C" grade or better.
 - Complete CO 150 with a "C" grade or better
 - Complete AUCC Category 2: Advanced Writing with a "C" grade or better.
 - Complete HONR 192 with a "C" grade or better.
 - Complete HONR 193 with a "C" grade or better
 - Earned credit from concurrent enrollment or transfer coursework in CO 130, CO 150, or AUCC Category 2: Advanced Writing with a grade of "C" or better.
 - Earned credit for CO 130 or CO 150 from placement exam, or AP score of 3 or higher.
4. **Mathematics requirement, must meet ONE:**
 - Complete MATH 125 with a "C" grade or better.
 - Complete MATH 127 with a "C" grade or better
 - Complete MATH 160 with a grade of "C" or better
 - Earned credit from concurrent enrollment or transfer coursework in MATH 125, MATH 127, MATH 160, or other higher level

mathematics course that has MATH 125 as a prerequisite, with a grade of "C" or better.

- Place out of, or earn credit for, MATH 125 or higher-level math on the Math Placement Tool, CLEP, or AP exam.

Once a student has met the minimum requirements listed above, they are eligible to apply to proceed in the Construction Management major.

Since the major does have controlled enrollment, students meeting the above minimum requirements are admitted based on their overall academic performance and space availability.

During their academic career, Construction Management students are required to obtain an internship (full-time structured work experience) position with any one of a variety of construction companies and organizations. Our Phelps Placement Office (<https://www.chhs.colostate.edu/cm/careers-internships-and-recruiting/>) assists current and graduating students, as well as alumni.

Learning Objectives

Students will develop and demonstrate:

- Professional, analytical, and problem-solving skills related to the career requirements in construction management
- Strong professional communication skills with an emphasis on written, graphic, and verbal skills related to the career requirements in construction management
- Technical proficiency in the following construction management areas: design/engineering, management, materials, methods, estimating, scheduling, safety, surveying, and project administration

The Construction Management undergraduate program is accredited by the American Council for Construction Education (ACCE) (<https://www.acce-hq.org/>) and satisfies the requirements of ACCE's mandated Student Learning Outcomes as listed below:

1. Create written communications appropriate to the construction discipline.
2. Create oral presentations appropriate to the construction discipline.
3. Create a construction project safety plan.
4. Create construction project cost estimates.
5. Create construction project schedules.
6. Analyze professional decisions based on ethical principles.
7. Analyze methods, materials, and equipment used to construct projects.
8. Apply electronic-based technology to manage the construction process.
9. Apply basic surveying techniques for construction layout and control.
10. Understand different methods of project delivery and the roles and responsibilities of all constituencies involved in the design and construction [process](#).
11. Understand construction accounting and cost control.
12. Understand construction quality assurance and control.
13. Understand construction project control processes.
14. Understand the legal implications of contract, common, and regulatory law to manage a construction project.
15. Understand the basic principles of sustainable construction.
16. Understand the basic principles of structural behavior.

17. Understand the basic principles of [HVAC, electrical](#), and [plumbing](#) systems.

Potential Occupations

The construction industry has become a highly technical industry marked by continuous and dramatic change. There is a continued demand for capable and highly trained construction management professionals who can adapt and become effective leaders in the field.

The Construction Management department prides itself on its in-house intern and job search assistance and counseling. Construction Management continues to boast one of the highest placement rates and entry-level salaries of all majors.

Services provided by the Phelps Placement Office (<https://www.chhs.colostate.edu/cm/careers-internships-and-recruiting/>) include:

- Construction industry career fair hosted each semester
- On-campus interviews and information sessions
- Individual career counseling and assessment
- Job and internship search strategies
- Resume and business correspondence resources
- Year-round intern and job postings

Entry-level occupations include, but are not limited to: field engineer, assistant estimator, project scheduler, cost control engineer, safety engineer, project supervisor, project coordinator, quality assurance specialist, project engineer, assistant project manager, and assistant superintendent. Recruiting Industries include Commercial, Heavy Civil and Heavy Highway, Industrial and Utility, Mechanical and Electrical, Project Controls and Consulting, Residential Development, Specialty Contracting, and Transportation.

Students may consider simultaneously completing the requirements for a minor in Business Administration. Several of the courses required for the minor in Business Administration are also required for the major in Construction Management curriculum.

Learn more about the Construction Management major on the Department of Construction Management website (<https://www.chhs.colostate.edu/cm/programs-and-degrees/b-s-in-construction-management/>).

Requirements Effective Fall 2024

Every student pursuing the Construction Management (CM) major will start as Pre-Construction Management (Pre-CM) and must meet the following entrance requirements before being fully admitted to the Construction Management major:

1. Earn a minimum 2.50 cumulative CSU GPA, and a 2.75 Pre-CM GPA. The Pre-CM GPA is calculated based on grades earned in the Pre-CM entrance requirement categories: Construction Management, Written Communication, and Mathematics as described below.
2. Construction Management requirement, must meet ALL:
 - Complete CON 101 with a "B-" grade or better; or earned a "B-" grade or better in an approved CON 101 transfer substitution course as reviewed and approved by the CM Curriculum Committee.

- Complete CON 131 with a "C" grade or better.
- Complete CON 151 with a "C" grade or better.

3. Written Communication requirement, must meet ONE:

- Complete CO 130 with a "C" grade or better.
- Complete CO 150 with a "C" grade or better
- Complete AUCC Category 2: Advanced Writing with a "C" grade or better.
- Complete HONR 192 with a "C" grade or better.
- Complete HONR 193 with a "C" grade or better
- Earned credit from concurrent enrollment or transfer coursework in CO 130, CO 150, or AUCC Category 2: Advanced Writing with a grade of "C" or better.
- Earned credit for CO 130 or CO 150 from placement exam, or AP score of 3 or higher.

4. Mathematics requirement, must meet ONE:

- Complete MATH 125 with a "C" grade or better.
- Complete MATH 127 with a "C" grade or better
- Complete MATH 160 with a grade of "C" or better
- Earned credit from concurrent enrollment or transfer coursework in MATH 125, MATH 127, MATH 160, or other higher level mathematics course that has MATH 125 as a prerequisite, with a grade of "C" or better.
- Place out of, or earn credit for, MATH 125 or higher-level math on the Math Placement Tool, CLEP, or AP exam.

Besides CON 101, CON 131, and CON 151, Pre-Construction Management students are not able to take CON courses until fully admitted to Construction Management.

¹ The required internship may be completed in different terms in consultation with an advisor.

² Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Every student pursuing the Construction Management (CM) major will start as Pre-Construction Management and must meet the following entrance requirements before being fully admitted to the Construction Management major:

1. Earn a minimum 2.50 cumulative CSU GPA, and a 2.75 Pre-CM GPA.
2. Complete CON 101 with a "B-" grade or better; or earned a "B-" grade or better in an approved CON 101 transfer substitution course as reviewed and approved by the CM Curriculum Committee.
3. Complete CON 131 with a "C" grade or better.

Major Completion Map

Distinctive Requirements for Degree Program:

4. Complete CON 151 with a "C" grade or better .

5. Written Communication requirement, must meet one:

- Complete CO 130 with a "C" grade or better.
- Complete CO 150 with a "C" grade or better
- Complete AUCC Category 2: Advanced Writing with a "C" grade or better.
- Complete HONR 192 with a "C" grade or better .
- Complete HONR 193 with a "C" grade or better
- Earned credit from concurrent enrollment or transfer coursework in CO 130, CO 150, or AUCC Category 2: Advanced Writing with a grade of "C" or better.
- Earned credit for CO 130 or CO 150 from placement exam, or AP score of 3 or higher.

6. Mathematics requirement, must meet one:

• Complete MATH 125 with a "C" grade or better.

• Complete MATH 127 with a "C" grade or better

• Complete MATH 160 with a grade of "C" or better

• Earned credit from concurrent enrollment or transfer coursework in MATH 125, MATH 127, MATH 160, or other higher level mathematics course that has MATH 125 as a prerequisite, with a grade of "C" or better.

• Place out of, or earn credit for, MATH 125 or higher-level math on the Math Placement Tool, CLEP, or AP exam.

Besides CON 101, CON 131, and CON 151, Pre-Construction Management students are not able to take CON courses until fully admitted to Construction Management.

There is a required internship that takes place prior to the student's graduation. Students must complete CON 487A (6-credit), or CON 487B (3-credit) and a Petition for Internship Reduction by the last Friday of October during the Fall semester prior to the CON 487B internship experience.

Minor in Construction Management

About the Minor

The Construction Management minor is designed to provide students an opportunity to study basic concepts of construction, materials, techniques, design, and managerial skills required for the construction industry. The minor has entrance criteria and consists of nine courses beginning with CON 101. The minor will take students a minimum of five semesters to complete.

How to add the Construction Management minor

Students must meet with a Construction Management advisor to declare interest in the minor and will be given an override to register for CON 101. Once a student satisfies the entrance criteria, the minor will be added and the student will be allowed to register for additional required Construction Management courses. Students are admitted each semester in May and December.

Entrance Criteria:

1. Earn a minimum 2.50 cumulative CSU GPA.
2. Complete CON 101 with a "B-" grade or better; or earned a "B-" grade or better in an approved CON 101 transfer substitution course as reviewed and approved by the CM Curriculum Committee.
3. Written Communication requirement, must meet one:
 - Complete CO 130 with a "C" grade or better.
 - Complete CO 150 with a "C" grade or better
 - Complete AUCC Category 2: Advanced Writing with a "C" grade or better.
 - Complete HONR 192 with a "C" grade or better .
 - Complete HONR 193 with a "C" grade or better
 - Earned credit from concurrent enrollment or transfer coursework in CO 130, CO 150, or AUCC Category 2: Advanced Writing with a grade of "C" or better
 - Earned credit for CO 130 or CO 150 from placement exam, or AP score of 3 or higher.
4. Mathematics requirement, must meet one:
 - Complete MATH 125 with a "C" grade or better.
 - Complete MATH 127 with a "C" grade or better
 - Complete MATH 160 with a grade of "C" or better
 - Earned credit from concurrent enrollment or transfer coursework in MATH 125, MATH 127, MATH 160, or other higher level mathematics course that has MATH 125 as a prerequisite, with a grade of "C" or better.
 - Place out of, or earn credit for, MATH 125 or higher-level math on the Math Placement Tool, CLEP, or AP exam.

Learning Objectives

The Construction Management program is accredited by the American Council for Construction Education (ACCE) (<https://www.acce-hq.org/>). The [following ACCE Student Learning Outcomes \(SLOs\) are met through the Construction Management Minor](#):

1. Create [written communications appropriate to the construction discipline](#).
2. Create oral presentations appropriate to the construction discipline.
3. Create a construction project safety plan.
4. Create construction project cost estimates.
5. Create construction project [schedules](#)
6. Analyze methods, materials, and equipment used to construct projects.
7. Apply electronic-based technology to manage the construction process.
8. Understand the legal implications of contract, common, and regulatory law to manage a construction project.
9. Understand the basic principles of structural behavior.

Learn more about the Construction Management minor on the Department of Construction Management website (<https://www.chhs.colostate.edu/cm/programs-and-degrees/minor-in-construction-management/>).

Requirements Effective Fall 2024

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Every student pursuing the Construction Management (CM) minor must meet the following entrance requirements:

1. Earn a minimum 2.50 cumulative CSU GPA.
2. Complete CON 101 with a "B-" grade or better; or earned a "B-" grade or better in an approved CON 101 transfer substitution course as reviewed and approved by the Construction Management Curriculum Committee.
3. Written Communication requirement, must meet one:
 - Complete CO 130 with a "C" grade or better.
 - Complete CO 150 with a "C" grade or better
 - Complete AUCC Category 2: Advanced Writing with a "C" grade or better.

- Complete HONR 192 with a "C" grade or better.
- Complete HONR 193 with a "C" grade or better
- Earned credit from concurrent enrollment or transfer coursework in CO 130, CO 150, or AUCC Category 2: Advanced Writing with a grade of "C" or better.
- Earned credit for CO 130 or CO 150 from placement exam, or AP score of 3 or higher.

4. Mathematics requirement, must meet one:

- Complete MATH 125 with a "C" grade or better.
- Complete MATH 127 with a "C" grade or better
- Complete MATH 160 with a grade of "C" or better
- Earned credit from concurrent enrollment or transfer coursework in MATH 125, MATH 127, MATH 160, or other higher level mathematics course that has MATH 125 as a prerequisite, with a grade of "C" or better.
- Place out of, or earn credit for, MATH 125 or higher-level math on the Math Placement Tool, CLEP, or AP exam.

Master of Science in Construction Management, Plan A

The Department of Construction Management (<https://www.chhs.colostate.edu/cm/>) offers graduate study leading to the Master of Science degree. The graduate program provides an environment that supports graduate students in their development of knowledge necessary to enhance professional practice and apply research to management decisions that impact organizations in an emerging global economy. The master's program is an advanced curriculum designed to allow students to tailor a portion of the requirements to meet individual interests and goals.

The Department of Construction Management at CSU is a Science, Technology, Engineering, and Mathematics (STEM) program.

Our faculty members pursue research opportunities by maintaining a close association with the needs of the regional, national, and global Architecture/Engineering/Construction industry. In pursuing this

research, the faculty has identified core research areas that span research, teaching, and outreach activities and provide a common ground for interaction between faculty and students. As the demands of the industry change over time, these research areas may evolve and additional areas may be established.

Current research areas include:

- Construction Education and Workforce Development
- Construction Technology (e.g. Virtual Design and Construction)
- Infrastructure Systems
- Project Delivery and Management
- Sustainability and Resilience

Learning Objectives

Students will:

1. Identify research problem(s), develop research question(s), design research methodologies, collect and analyze data, and interpret research results as components of scientific research.
2. Develop critical thinking skills needed to conceive, develop, test, and refine scientific ideas and hypotheses.
3. Communicate the results of their original research in a clear and well-organized manner both in written (proposal and thesis) and verbal (thesis and oral defense) format.
4. Write manuscript(s) for submission to a refereed scientific journal or a conference based on their research.
5. Develop expertise in one or more fields of construction management at which the student can successfully function in the profession (either academia or industry).

Each construction management graduate student must complete a final project of professional quality to demonstrate their capability in their area of interest and their readiness for professional practice. The final research project is original work, involving a substantial degree of independent research and analysis. The research project results are presented as either a Thesis (Plan A) or Professional Research Paper (Plan B). Each student will work with their advisor to determine if a thesis or a professional paper is more appropriate. Each graduate student is required to submit an article to a journal or proceedings approved by the adviser prior to graduation.

The goal of the program is to provide graduate students with skills related to advance construction management problem-solving. To attain this goal, the CM department encourages students to perform research that contributes to industry practice or the broader construction knowledge.

Learn more about the Construction Management program on the Department of Construction Management website (<https://www.chhs.colostate.edu/cm/programs-and-degrees/m-s-in-construction-management/>).

[Students interested in graduate work should refer to the Graduate and Professional Bulletin.](#)

Requirements Effective Fall 2019

Code	Title	Credits
Core Requirements - Required of All Students		
CON 502	Research in Construction Management I	3

CON 503	Research in Construction Management II	3
CON 511	Project Procurement and Preconstruction	3
CON 512	Post-Award Construction Management	3
CON 521	Sustainable Building & Infrastructure Systems	3
CON 699	Thesis	6
Electives ¹		9
Program Total Credits:		30

A minimum of 30 credits are required to complete this program.

¹ With approval by advisor. A minimum of one CON graduate elective course is required (other than CON 695). A maximum of 3 credits of CON 695 are allowed.

Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees in the Graduate and Professional Bulletin.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website

12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Master of Science in Construction Management, Plan B

The Department of Construction Management (<https://www.chhs.colostate.edu/cm/>) offers graduate study leading to the Master of Science degree. The graduate program provides an environment that supports graduate students in their development of knowledge necessary to enhance professional practice and apply research that addresses industry challenges and impact organizations in an emerging global economy. The master's program is an advanced curriculum designed to allow students to tailor a portion of the requirements to meet individual interests and goals.

The Department of Construction Management at CSU is a Science, Technology, Engineering, and Mathematics (STEM) program.

Our faculty members pursue research opportunities by maintaining a close association with the needs of the regional, national, and global Architecture/Engineering/Construction industry. In pursuing this research, the faculty has identified core research areas that span research, teaching, and outreach activities and provide a common ground for interaction between faculty and students. As the demands of the industry change over time, these research areas may evolve and additional areas may be established.

Current research areas include:

- Construction Education and Workforce Development
- Construction Technology (e.g. Virtual Design and Construction)
- Infrastructure Systems
- Project Delivery and Management
- Sustainability and Resilience

Learning Objectives

Students will:

1. Identify research problem(s), develop research question(s), design research methodologies, collect and analyze data, and interpret research results as components of scientific research.
2. Develop critical thinking skills needed to conceive, develop, test, and refine scientific ideas and hypotheses.
3. Communicate the results of their original research in a clear and well-organized manner both in written (proposal and professional paper) and verbal (professional paper and oral defense) format.

4. Write manuscript(s) for submission to a refereed scientific journal or a conference based on their research.
5. Develop expertise in one or more fields of construction management at which the student can successfully function in the profession (either academia or industry).

Each construction management graduate student must complete a final project of professional quality to demonstrate their capability in their area of interest and readiness for professional practice. The final research project is original work, involving a substantial degree of independent research and analysis. The research project results are presented as either a Thesis (Plan A) or Professional Research Paper (Plan B). Each student will work with their advisor to determine if a thesis or a professional paper is more appropriate. Each graduate student is required to submit an article to a journal or proceedings approved by the advisor prior to graduation.

Students who want to develop technical proficiency in a particular area or emphasis may choose Plan B. Professional research paper is not held to the same standards for replicability of the research methodology used for a thesis. Results from a professional paper may be directed toward providing a solution to a specific applied problem for a small audience. There is an expectation that the professional paper could still be published, but the outlets would likely be different than those of a thesis. A minimum of 30 upper-division credits are required for Plan B students.

The goal of the program is to provide graduate students with skills related to advance construction management problem-solving. To attain this goal, the CM department encourages students to perform research that contributes to industry practice or the broader construction knowledge.

Learn more about the Construction Management program on the Department of Construction Management website (<https://www.chhs.colostate.edu/cm/programs-and-degrees/m-s-in-construction-management/>).

Students interested in graduate work should refer to the Graduate and Professional Bulletin.

Department of Design and Merchandising

Nancy Richardson Design Center, Room 114
(970) 491-1629
www.chhs.colostate.edu/dm/ (<https://www.chhs.colostate.edu/dm/>)

Department Head: Karen Hyllegard, Ph.D.

Vision

The Department of Design and Merchandising aims to cultivate leaders among today's students to drive tomorrow's innovative advancements in economic, environmental, and social sustainability across the apparel and merchandising and the interior architecture and design disciplines.

Mission

The Department of Design and Merchandising's mission is to achieve excellence in education and scholarship through community engagement, industry collaboration, creative exploration, and scientific inquiry. As a department, we are committed to advancing and fostering understanding of socially responsible conceptualization, design, adoption, and evaluation of processes, products, and environments that responsively enhance the human experience.

The Department of Design and Merchandising offers undergraduate study in two nationally accredited programs - **Apparel and Merchandising (AM)** and **Interior Architecture and Design (IAD)**. The AM major includes three concentrations: Apparel Design and Production, Product Development, and Merchandising. The IAD major includes two concentrations: Interior Architecture and Interior Products and Retailing. The Apparel and Merchandising program is accredited by the Textile and Apparel Program Accreditation Commission of the *International Textile and Apparel Association*, and the Interior Architecture concentration is accredited by the *Council for Interior Design Accreditation*. Design and Merchandising also holds an accreditation from the *National Association of Schools of Art and Design*.

The department offers a master's degree in Design and Merchandising that allows for a focus in Apparel and Merchandising or Interior Design.

The department is housed in the Nancy Richardson Design Center, the Gifford Building, and the Avenir Museum, located in the University Center for the Arts complex. The Avenir Museum has a repository of over 20,000

items of dress, textiles, and interior artifacts representing regional, national, and international cultures.

Undergraduate Majors

- Major in Apparel and Merchandising
 - Apparel Design and Production Concentration
 - Merchandising Concentration
 - Product Development Concentration
- Major in Interior Architecture and Design
 - Interior Architecture Concentration
 - Interior Products and Retailing Concentration

Minor

- Minor in Merchandising

Graduate Graduate Programs in Design and Merchandising

The department offers graduate programs leading to a Master of Science degree in Design and Merchandising. Students may specialize in Apparel and Merchandising or Interior Design. For more information about program emphases and requirements, contact the department. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Design and Merchandising (<http://www.dm.chhs.colostate.edu/>).

Learning Objectives

Design and Merchandising graduate students will:

1. Demonstrate mastery of design and merchandising concepts and theories in their respective focal areas, including apparel design and production, consumer behavior, creativity, merchandising, interior design, product development, social/cultural/historical aspects of dress and design, sustainability/resilience, and textile science.
2. Critically review and interpret research through a review of literature relevant to a research problem or challenge.
3. Demonstrate an understanding of how to conduct and implement original research in design and merchandising as demonstrated through problem identification, literature review, study design, data collection, and data analysis/interpretation.
4. Effectively communicate outcomes of design and merchandising research in diverse presentation formats (e.g., oral, written, visual).
5. Be successful in procuring positions in industry or academia and/or admission to doctoral-level programs.
6. Be involved in co-curricular activities.

Certificate

- Evidence-Based Design (*This program is not accepting applications at this time*)

Master's Programs

- Master of Science in Design and Merchandising, Plan A, Apparel and Merchandising Specialization

- Master of Science in Design and Merchandising, Plan B, Apparel and Merchandising Specialization
- Master of Science in Design and Merchandising, Plan A, Interior Design Specialization
- Master of Science in Design and Merchandising, Plan B, Interior Design Specialization

Courses

Subjects in this department include: Apparel and Merchandising (AM), Design and Merchandising (DM), and Interior Architecture and Design (INTD).

Apparel and Merchandising (AM)

AM 101 Fashion Industries Credits: 3 (3-0-0)

Course Description: Development, organization, and trends of domestic and foreign fashion industries.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

AM 110 Apparel and Merchandising Digital Technology Credits: 3 (2-2-0)

Course Description: Introduction to computer technologies used in apparel and merchandising industries.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 130 Awareness and Appreciation of Design Credits: 3 (3-0-0)

Course Description: Awareness and appreciation of design as it exists in the context of everyday life and is expressive of cultural character and human creativity. Awareness and appreciation of design comes as a natural consequence of learning how to recognize and interpret the elements from which it is created.

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Arts & Humanities 3B.

AM 143 Introduction to Apparel Design Credits: 4 (2-4-0)

Course Description: Apparel and garment-pattern development, construction, quality, skill development in technical drawing and rendering.

Prerequisite: None.

Registration Information: Acceptance into Apparel Design and Production program concentration required. Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 220 Textiles Credits: 3 (2-2-0)

Course Description: Introduction to textiles – fibers through finished fabrics and related applications to fashion, home goods, interior design, and related industries. Emphasis on fiber characteristics, yarns, woven and knit fabrics, dyeing, printing, and finishes. Discussion on environmental concerns, care and renovation, fabric innovations, quality issues, and global laws that regulate textiles.

Prerequisite: CHEM 103 and CHEM 104 or CHEM 107 and CHEM 108.

Registration Information: Must register for lecture and laboratory. Credit not allowed for AM 220 and DM 120.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 241 Patternmaking I - Flat Pattern Credits: 3 (1-4-0)

Course Description: Application of patternmaking techniques including sloper drafting and flat pattern manipulation methods for apparel products. Design and construction of original garments using flat pattern manipulation methods to analyze garment fit.

Prerequisite: None.

Registration Information: AM 143; (MATH 117; MATH 118 or MATH 120 or MATH 127). Sophomore standing. Portfolio review required. Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 244 Fashion Illustration Credits: 3 (1-4-0)

Course Description: Illustration skills using traditional media/computer aided design applications and analysis of visual communication.

Prerequisite: AM 143 and AM 110.

Registration Information: Sophomore standing. Portfolio review required. Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 250 Dress and Human Behavior (GT-SS3) Credits: 3 (3-0-0)

Course Description: Psychological, sociological, and cultural factors influencing diversity in dress and human behavior in domestic and global contexts.

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Social & Behavioral Sciences 3C, Human Behavior, Culture, or Social Frameworks (GT-SS3).

AM 270 Merchandising Processes Credits: 3 (3-0-0)

Course Description: Forecasting, planning, developing, and presenting merchandise lines to meet target market demands.

Prerequisite: None.

Registration Information: AM 101 with a minimum grade of C; AM 130 with a minimum grade of C; (MATH 117; MATH 118) or MATH 120 or MATH 127 or MATH 141.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 275 Product Development I Credits: 3 (2-2-0)

Course Description: Fundamental techniques, technologies, and skills applied to the development of apparel and textile products.

Prerequisite: None.

Registration Information: AM 101 with a minimum grade of C; AM 110 with a minimum grade of C; AM 130 with a minimum grade of C; (MATH 117; MATH 118) or MATH 120 or MATH 127 or MATH 141. Must register for lecture and laboratory. Sections may be offered: Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 290 Workshop Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

AM 321 Advanced Textiles Credits: 3 (3-0-0)

Course Description: Textile product serviceability; effect of fiber structure on properties and performance; new developments.

Prerequisite: AM 220 or DM 120.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 330 Global Sourcing of Textiles and Apparel Credits: 3 (3-0-0)

Course Description: Structure of textiles and apparel industry; global sourcing, production, distribution and consumption of textile and apparel products. Implications for sustainability in the textiles and apparel industry.

Prerequisite: (AM 270 with a minimum grade of C) and (AREC 202 with a minimum grade of C or ECON 202 with a minimum grade of C).

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AM 335 Textiles and Apparel Supply Chains Credits: 3 (3-0-0)

Course Description: Managing the flow of materials, information, and finances as they move in a process from supplier to retailers and consumers in a global environment.

Prerequisite: AM 270.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 340 Patternmaking II - Draping Credits: 3 (1-4-0)

Course Description: Apparel designing through basic draping techniques.

Prerequisite: AM 241 with a minimum grade of C and AM 244 with a minimum grade of C.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing. Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 341 Patternmaking III - Computer-Aided Design Credits: 3 (1-4-0)

Course Description: Computer-aided design (CAD) technology used in apparel sketching, pattern drafting, grading, and marker making.

Prerequisite: AM 340 with a minimum grade of C.

Registration Information: Sophomore standing. Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 342 Computer-Aided Textile Design Credits: 3 (2-2-0)

Course Description: Ethnic textile design traditions and current approaches to textile production in industry and in individual design studios; computer-aided technology and multicultural research used to create repeat, knit, and woven textile designs.

Prerequisite: AM 110.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 346 Apparel Line Concept Development and Planning Credits: 3 (2-2-0)

Course Description: Use of computer-aided design software to transfer apparel design concepts to garment pattern completion. Develop ideation sketches, fashion illustrations, technical flat drawings, and garment patterns for an original design line.

Prerequisite: AM 244 and AM 340, may be taken concurrently and AM 341, may be taken concurrently and DM 272 with a minimum grade of C.

Restriction: .

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 363 Historic Costume Credits: 3 (3-0-0)

Course Description: Influence of social, political, and economic conditions on costume of predynastic Egypt to present time.

Prerequisite: None.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 364 History of Fashion Designers/Manufacturers Credits: 3 (0-0-3)

Course Description: Fashion designers and manufacturers who established the field and their contemporaries.

Prerequisite: None.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

AM 366 Merchandising Promotion Credits: 3 (3-0-0)

Course Description: Activities used to influence sale of merchandise and services; to promote trends and ideas.

Prerequisite: (AM 270 or MKT 300 or MKT 305) and (DM 272).

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

AM 371 Merchandise Planning and Control Credits: 4 (3-2-0)

Course Description: Retail mathematics for negotiating merchandise acquisition, distribution, and pricing for profitability.

Prerequisite: (ACT 205 or ACT 210) and (AM 270 with a minimum grade of C).

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 373 Apparel Design and Retail Entrepreneurship Credits: 3 (3-0-0)

Course Description: Entrepreneurship opportunities relative to apparel design, product development, and merchandising; development of understanding to initiate an apparel products and/or services business.

Prerequisite: AM 270 and ECON 202.

Registration Information: Junior standing. Required field trips. Credit not allowed for both AM 373 and DM 380A1.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

AM 375 Product Development II Credits: 3 (2-2-0)

Course Description: Product design and development for apparel and other soft goods through industry-driven projects.

Prerequisite: AM 275 with a minimum grade of C and AM 143 and AM 270 with a minimum grade of C and DM 272 with a minimum grade of C.

Registration Information: Must register for lecture and lab. Required field trips.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 376 Prototyping & Testing for Product Development Credits: 3 (2-2-0)

Course Description: Envision, design, prototype, and test innovative apparel and accessory-related products through hands-on experiences with a range of digital design and fabrication tools.

Prerequisite: AM 143 and AM 375, may be taken concurrently.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Must register for lecture and laboratory. Credit not allowed for both AM 376 and AM 380A1.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 384 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

AM 421 Textiles Product Quality Assessment Credits: 3 (2-2-0)

Course Description: Role of quality assurance in product development, production, performance, and user satisfaction with sewn products and the textile and other components of those products.

Prerequisite: AM 220 or DM 120.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 430 International Retailing Credits: 3 (3-0-0)

Course Description: Application of retail principles to analyze the internationalization process of retailing.

Prerequisite: AM 330 and DM 360 or MKT 360.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

AM 446 Apparel Design and Production Credits: 3 (1-4-0)

Course Description: Computer-aided design (CAD) technology used in apparel sketching, pattern drafting, grading and marker making; final portfolio preparation and review.

Prerequisite: AM 346.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 450 Social-Psychological Aspects of Clothing Credits: 3 (3-0-0)

Course Description: Psychological and social factors influencing clothing and its effect on others.

Prerequisite: AM 250 and PSY 100 or SOC 100.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 460 Historic Textiles Credits: 3 (3-0-0)

Course Description: Textiles from a global perspective, focusing on diverse cultures and thematic approaches.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

AM 466 Retail Environment Design and Planning Credits: 3 (2-2-0)

Course Description: Application of design/merchandising principles to retail selling environments, including traditional store design/layout, direct mail, and websites.

Prerequisite: AM 130 and AM 270.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

AM 475 Product Development III Credits: 3 (2-2-0)

Course Description: Technology-based product innovation for positive social and environmental impacts.

Prerequisite: AM 335 and AM 375.

Registration Information: Senior standing. Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

AM 479 Merchandising Policies and Strategies Credits: 3 (3-0-0)

Course Description: Examination of merchandising environment as influenced by internal and external factors contributing to production/acquisition, distribution, and retailing decisions in textiles and apparel industries.

Prerequisite: (AM 371) and (AM 330 or DM 360 or MKT 360).

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

AM 495A Independent Study: Merchandising Credits: Var[1-3] (0-0-0)**Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**AM 495B Independent Study: Apparel Design and Production Credits:****Var[1-3] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**AM 495D Independent Study: Textiles and Clothing Credits:****Var[1-3] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**AM 496A Group Study: Merchandising Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**AM 496B Group Study: Apparel Design Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**AM 496C Group Study: Apparel Production Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**AM 496D Group Study: Textiles and Clothing Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**AM 525 Application of Textile Technology to Design Credits: 3 (1-2-1)****Course Description:** Advanced study of textile technology in apparel, merchandising and interior design; recent advances in the field.**Prerequisite:** AM 321 or AM 421.**Registration Information:** Must register for lecture, laboratory, and recitation.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**AM 535 Sustainability in Fashion Supply Chains Credits: 3 (0-0-3)****Course Description:** Analyze theory and practice related to sustainability in the global fashion industry. Emphasis on different philosophies and concepts related to sustainable development.**Prerequisite:** None.**Restriction:** Must be a Graduate.**Registration Information:** Graduate standing. Design and Merchandising (DM)

DM 182A Study Abroad--Italy: First Year Seminar Credits: 3 (0-0-3)

Course Description: Introduction to design and merchandising through international education. Exploring apparel and merchandising and interior architecture and design through a global context by engaging in industry visits, lectures, and cultural activities to experience real-world opportunities.

Prerequisite: None.

Restrictions: Must not be a: Sophomore, Junior, Senior. Must be a: Undergraduate.

Registration Information: Written consent of instructor. This is a partial semester course. Credit not allowed for both DM 182A and DM 192A.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

DM 192A First Year Seminar: Apparel and Merchandising Credit: 1 (0-0-1)

Course Description: Introduction to the apparel and merchandising major and its concentrations, career options, campus resources, tools for academics, and industry topics.

Prerequisite: None.

Registration Information: Credit allowed for only one of the following: DM 182A, DM 192, or DM 192A.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

DM 192B First Year Seminar: Pre-Interior Architecture and Design Credit: 1 (0-0-1)

Course Description: Introduction to interior architecture and design major, career options, campus resources, tools for academics, and industry topics.

Prerequisite: None.

Registration Information: Credit not allowed for both DM 192 and DM 192B.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

DM 272 Consumers in the Marketplace Credits: 3 (3-0-0)

Course Description: Analysis and evaluation of psychological, social, economic, sustainability, and cultural factors that influence consumers in the marketplace.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

DM 360 Retailing Credits: 3 (3-0-0)

Also Offered As: MKT 360.

Course Description: Examination of retailing principles and practices, including merchandise management, retailing strategy, supply chain management, store management, and sustainable retail operations.

Prerequisite: MKT 300 or MKT 305.

Registration Information: Credit not allowed for both DM 360 and MKT 360.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

DM 400 U.S. Travel-New York City Credits: 3 (1-2-1)

Course Description: Interview/analyze designers, manufacturers, buying offices, retail stores, magazine firms, interior design and architecture firms, etc.

Prerequisite: None.

Registration Information: Must have taken 6 credits in the following courses: DM, AM, INTD. Must register for lecture, laboratory, and recitation.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

DM 470A International Design and Merchandising: Apparel Credits: 2 (1-0-1)

Course Description: Historical, cultural, and business aspects of international design and merchandising in selected countries.

Prerequisite: AM 101 and AM 130 and AM 220, may be taken concurrently.

Registration Information: Sophomore standing. Must register for lecture and recitation.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

DM 470B International Design and Merchandising: Interior Design Credits: 2 (1-0-1)

Course Description: Historical, cultural, and business aspects of international design and merchandising in selected countries.

Prerequisite: ART 100 and INTD 129 and INTD 166 and DM 482B, may be taken concurrently.

Registration Information: Must have concurrent registration in DM 482B. Must register for lecture and recitation.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

DM 474 Fashion Show Production and Event Planning Credits: 3 (1-0-2)

Course Description: Planning and implementing full production fashion show of student-designed collections, including promotions and fund-raising activities.

Prerequisite: AM 101 or INTD 129.

Registration Information: Written consent of instructor. Must register for lecture and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

DM 482 Travel Abroad Credit: 1 (0-0-1)

Course Description: Historical, cultural, aesthetic, and business aspects of design and merchandising in the selected country(ies).

Prerequisite: AM 101 and AM 130 and DM 120 and DM 470A, may be taken concurrently.

Registration Information: Must have concurrent registration in DM 470A.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

DM 482A Study Abroad--Scotland/England: Design/ Merchandising Credit: 1 (0-0-1)

Course Description: Historical, cultural, aesthetic, and business aspects of international design and merchandising in Scotland/England.

Prerequisite: DM 470A.

Grade Mode: Traditional.

Special Course Fee: No.

DM 482B Study Abroad--China: Design and Merchandising Credits: 1 (0-0-1)

Course Description: Historical, cultural, aesthetic, and business aspects of international design and merchandising in China.

Prerequisite: DM 470A.

Registration Information: Sophomore standing.

Term Offered: Summer (every third year).

Grade Mode: Traditional.

Special Course Fee: No.

DM 487A Internship: Merchandising Credits: Var[12-16] (0-0-0)

Course Description:

Prerequisite: (AM 371) and (DM 360 or MKT 360) and (DM 492).

Registration Information: GPA 2.50.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 487B Internship: Apparel Design and Production Credits: Var[12-16] (0-0-0)

Course Description:

Prerequisite: AM 244 and DM 492.

Registration Information: GPA 2.50.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 487C Internship: Product Development Credits: Var[12-16] (0-0-0)

Course Description:

Prerequisite: AM 375 and DM 492.

Registration Information: GPA 2.500.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 487F Internship: General Credits: Var[3-16] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Written consent of instructor; GPA 2.500.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 490A Workshop: Merchandising Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 490B Workshop: Apparel Design and Production Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: Yes.

DM 490C Workshop: Interior Design Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 492 Professional Practice Credits: 2 (1-0-1)

Course Description: Professional standards and corporate structure of apparel and merchandising companies in apparel design, product development, and/or merchandising.

Prerequisite: None.

Registration Information: Completion of 60 credits. Must register for lecture and recitation.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

DM 495 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 10 credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 496 Group Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of three credits allowed in course.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 501 Research and Theory-Design and Merchandising Credits: 3 (0-0-3)

Course Description: Theory and various approaches and philosophies of research in design and merchandising. Critical evaluation and synthesis of scholarly literature.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

DM 510 Consumer Behavior Credits: 3 (3-0-0)

Course Description: Evaluation of psychological, sociological, and cultural theories of consumer behavior through examination of factors that influence decision making.

Prerequisite: None.

Registration Information: Offered as an online course only.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

DM 540 Promotional Strategies in Merchandising Credits: 3 (3-0-0)

Course Description: Integrated marketing communications while fostering cultural and global awareness, social responsibility and ethical decision-making.

Prerequisite: None.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

DM 542 Advanced Computer-Aided Textile Design Credits: 3 (1-4-0)

Course Description: Use of computer-aided design system to produce fabric designs for apparel or interior professional end use.

Prerequisite: AM 342.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: Yes.

DM 551 Research Methods Credits: 3 (3-0-0)

Course Description: Design and methods of research applicable to design and merchandising.

Prerequisite: DM 501.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

DM 563 Care and Exhibit of Museum Collections Credits: 3 (1-2-1)

Course Description: Hands-on experience in management, care, exhibition, and interpretation of museum collections.

Prerequisite: ART 100 to 499 - at least 3 credits or HIST 100 to 499 - at least 3 credits or AM 100 to 499 - at least 3 credits or DM 100 to 499.

Registration Information: Must register for lecture, laboratory and recitation. Required field trips.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

DM 570 Creativity in Design Credits: 3 (0-0-3)

Course Description: Multiple perspectives in creativity integrating theory and research impacting design.

Prerequisite: DM 501.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

DM 575 Human Factors in Design Credits: 3 (3-0-0)

Course Description: Theories and contemporary issues related to human factors in consumer product design.

Prerequisite: DM 501, may be taken concurrently.

Registration Information: Senior standing.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

DM 590A Workshop: Merchandising Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 590B Workshop: Apparel Design and Production Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 590C Workshop: Interior Design Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 592 Seminar Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 596 Group Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 684 Supervised College Teaching Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 687 Internship Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 695 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

DM 698 Research Credits: 3 (0-0-3)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

DM 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Interior Architecture and Design (INTD)

INTD 110 Visual Expression of Interior Environments (GT-AH1) Credits: 3 (3-0-0)

Course Description: Introduction to interior environments conceptualizing the interior architectural environment in the context of an interrelated system of spaces. Observation and analysis of spatial environments as a way of understanding how spatial environments produce and communicate culture as well as are shaped by those who design, navigate, and participate in these spaces.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Arts & Humanities 3B, Arts & Expression (GT-AH1).

INTD 129 Introduction-Interior Architecture & Design Credits: 3 (3-0-0)

Course Description: Industry perspective to the profession of interior architecture and design through commercial and residential interiors with a focus on the role of key elements such as lighting, color, texture, and pattern on shaping interior architectural environments. Emphasis will be on disciplinary professional values and design process in interior architecture and design.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 166 Visual Communication-Drawing Credits: 3 (1-4-0)

Course Description: Hand drafting, free-hand sketching, and conceptualization to visually communicate interior architecture and design concepts through drawings.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 200 Housing Values in America Credits: 3 (3-0-0)

Course Description: Housing issues in the U.S.; values, norms, roles of government and building professions; interaction of issues with U.S. public values to meet housing needs.

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 201 Two-Dimensional Fundamentals-Interior Design Credits: 3 (0-6-0)

Course Description: Demonstration of 2-dimensional elements and principles of design incorporating creative thinking, design fundamentals, design communication skills.

Prerequisite: INTD 129 and INTD 166.

Registration Information: Design scenario advancement.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 205 Two-Dimensional Fundamentals for Interiors Credits: 3 (3-0-0)

Course Description: Demonstration of two-dimensional elements and principles of design incorporating creative thinking, design fundamentals, space planning exercises, and design communication skills.

Prerequisite: INTD 110 with a minimum grade of C and INTD 129 with a minimum grade of C and INTD 166 with a minimum grade of C.

Registration Information: Interior Architecture and Design Major: Interior Products & Retailing Concentration. Credit not allowed for both INTD 201 and INTD 205.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 210 Studio I-Interior Architecture and Design Credits: 3 (1-4-0)

Course Description: Applying basic concepts of human behavior, anthropometrics, ergonomics, space planning, and furniture arrangement to residential and commercial interiors.

Prerequisite: INTD 110 and INTD 129 and INTD 166.

Registration Information: Sophomore standing. Design scenario advancement. Must register for lecture and laboratory. Required field trips.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 251 Computer-Aided Design for Interiors Credits: 3 (0-6-0)

Course Description: Use of computer-aided design (CAD) for two-dimensional architectural drafting, interior detailing, and digital presentation for residential and commercial applications using industry standard vector and raster software.

Prerequisite: INTD 205, may be taken concurrently.

Restriction: Must be a: Undergraduate.

Registration Information: Credit not allowed for both INTD 251 and INTD 256.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 255 Furnishings and Products for Interiors Credits: 3 (3-0-0)

Course Description: Analysis of furnishings and products categories with a focus on approaches for selecting, specifying, estimating, and incorporating furnishings and products into interiors.

Prerequisite: INTD 110 with a minimum grade of C and INTD 129 with a minimum grade of C and INTD 166 with a minimum grade of C.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 256 Computer-Aided Design for Interior Designers Credits: 3 (1-4-0)

Course Description: Use of computer-aided design (CAD), specifically two-dimensional and three-dimensional drafting using PC software.

Prerequisite: INTD 129 and INTD 166.

Registration Information: Design scenario advancement. Must register for lecture and laboratory. Required field trips.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 266 Visual Communication-Digital Multi-Media Credits: 3 (0-6-0)

Course Description: Visual communication using design software applications and multi-media techniques for expressing design ideas.

Prerequisite: None.

Registration Information: Sophomore standing. Design scenario advancement.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 276 Studio II-Interior Architecture and Design Credits: 3 (1-4-0)

Course Description: Introduction to small-scale interior architecture and design projects, including residential, educational, and commercial dining spaces.

Prerequisite: INTD 210 with a minimum grade of C and INTD 266, may be taken concurrently.

Registration Information: Interior Architecture and Design majors only. Must register for lecture and laboratory. Required field trips.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 296A Group Study: Space Planning and Application Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Design scenario advancement.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

INTD 296B Group Study: Design Application Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Design scenario advancement.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

INTD 310 Studio III-Interior Architecture and Design Credits: 4 (1-6-0)

Course Description: Create a comprehensive design that reflects the integration of knowledge of structural and building systems. The design project is guided by a clear brief and developed through an Integrated Design Process, informed at each stage by data and analysis. The project is documented through working drawings, annotated diagrams, and information graphics.

Prerequisite: INTD 276 with a minimum grade of C and INTD 330, may be taken concurrently and INTD 335, may be taken concurrently and INTD 350, may be taken concurrently.

Registration Information: Interior architecture and design majors only. Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 330 Lighting Design Credits: 3 (2-2-0)

Course Description: Application of lighting design in interiors.

Prerequisite: INTD 276 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. Required field trips.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 335 Interior Architecture and Design Technologies Credits: 3 (2-2-0)

Course Description: Principles and procedures required in building information modeling for digital design, detailing, documentation, and visualization in interior architecture and design.

Prerequisite: INTD 266.

Registration Information: Must register for lecture and laboratory. Credit not allowed for both INTD 235 and INTD 335.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 336 Color Credits: 3 (0-0-3)

Course Description: Color theories, principles, trends and application in design.

Prerequisite: None.

Registration Information: Offered as an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 340 Interior Materials and Products Credits: 3 (3-0-0)

Course Description: Analysis of materials, finishes, furnishings, objects, and resources for interior architecture and design.

Prerequisite: INTD 350.

Registration Information: Required field trips.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 350 Codes-Health and Safety Credits: 3 (3-0-0)

Course Description: Health, safety, and wellness issues in interiors, including laws, codes, standards, regulations, and guidelines.

Prerequisite: INTD 210, may be taken concurrently or INTD 251, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 351 Three-Dimensional Thinking for Interiors Credits: 3 (0-6-0)

Course Description: Demonstration and application in visualizing residential and commercial interior spaces in three dimensions using interior products and retailing industry computer software.

Prerequisite: INTD 251, may be taken concurrently.

Registration Information: Credit not allowed for both INTD 236 and INTD 351.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 359 History of Interior Architecture and Design Credits: 3 (3-0-0)

Course Description: Survey of interior architecture and design history from ancient times through the present.

Prerequisite: None.

Registration Information: AUCC 2 or concurrent registration. Sections may be offered: Online.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 376 Studio IV-Interior Architecture and Design Credits: 4 (1-6-0)

Course Description: Applications of creative problem-solving, digital and design skills to develop innovative interior design projects with a focus on medium-scale commercial interiors.

Prerequisite: INTD 310 with a minimum grade of C and INTD 340, may be taken concurrently.

Registration Information: Must register for lecture and laboratory. Required field trips.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 384 Supervised College Teaching Credits: Var[1-10] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

INTD 400 Interior Design Research Proposal Credits: 4 (1-4-1)

Course Description: Research, development, and presentation of a programming proposal for a large scale interior design project with service learning component.

Prerequisite: INTD 376 with a minimum grade of C.

Registration Information: Must register for lecture, laboratory, and recitation. Required field trips.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 405 Capstone--Interior Products and Retailing Credits: 3 (3-0-0)

Course Description: Examination of design industry standard practices and responsibilities. Preparation for career planning that culminates in the research, development, and presentation of a business plan.

Prerequisite: DM 272 and INTD 255 and INTD 351 and INTD 455, may be taken concurrently and MGT 340.

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Credit not allowed for both INTD 400 and INTD 405.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 410 Evidence-based Design Theory Credits: 3 (3-0-0)

Course Description: Theory and application of evidence-based design processes including research, development, and presentation of a programming proposal for a large scale interior project.

Prerequisite: INTD 310 with a minimum grade of C and PSY 100.

Registration Information: Completion of AUCC category 2.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 450 Travel Abroad-Sustainable Building Credits: 3 (3-0-0)

Also Offered As: CON 450.

Course Description: Major components of sustainable design and construction, energy, healthy buildings, natural resources and other environmental issues.

Prerequisite: None.

Registration Information: Credit not allowed for both INTD 450 and CON 450.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 455 Housing in America-Cultural & Societal Values Credits: 3 (3-0-0)

Course Description: Systems approach to housing issues in the United States, including affordable housing, gentrification, climate change, technology, and the role of housing in economic, social, and environmental systems.

Prerequisite: IDEA 210 and INTD 201 and INTD 350 and PSY 100.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Completion of AUCC Category 2. Credit not allowed for both INTD 200 and INTD 455.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

INTD 456 Professional Practice-Interior Arch & Design Credits: 3 (3-0-0)

Course Description: Current design and business practices, project management and communication, exposure to multi-disciplinary ways of working in design. Emphasis on several key aspects of professional practice including entrepreneurship, ethics, and socially mediated communication.

Prerequisite: INTD 476, may be taken concurrently.

Registration Information: Completion of AUCC category 2. Credit not allowed for both INTD 356 and INTD 456.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 476 Capstone-Interior Architecture and Design Credits: 4 (1-6-0)

Course Description: Large scale projects representing research-based design solutions, illustrating synthesis and analysis of entry level professional competencies in interior architecture and design.

Prerequisite: INTD 376 with a minimum grade of C and INTD 410 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

INTD 482A Study Abroad--Austria: Alpine Architecture and Sustainable Design Credits: 3 (0-0-3)

Course Description: Investigation of prominent examples that capture the breadth and sustainability aspects of architecture and interior practices in the alpine region of Europe, with a specific focus on Tirol and Vorarlberg in Austria, St. Gallen in Switzerland, and Germany.

Prerequisite: INTD 276 with a minimum grade of C.

Term Offered: Summer (even years).

Grade Mode: Traditional.

Special Course Fee: No.

INTD 487 Internship Credits: Var[3-16] (0-0-0)**Course Description:****Prerequisite:** INTD 356 and INTD 376 with a minimum grade of C.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**INTD 495 Independent Study Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Registration Information:** Maximum of 10 credits allowed in course.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**INTD 496A Group Study: Program Skills Credits: Var[1-3] (0-0-0)****Course Description:****Prerequisite:** None.**Registration Information:** Maximum of 10 credits allowed in course.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**INTD 496B Group Study: Design Application Credits: Var[1-3] (0-0-0)****Course Description:****Prerequisite:** None.**Registration Information:** Maximum of 10 credits allowed in course.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**INTD 550 Universal Design Credits: 3 (3-0-0)****Course Description:** Analysis and evaluation of universal design as it applies to diverse population segments and interior environments.**Prerequisite:** INTD 376 with a minimum grade of C, may be taken concurrently.**Registration Information:** Required field trips.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**INTD 575 Problems-Interior Design Credits: Var[1-8] (0-0-0)****Course Description:****Prerequisite:** INTD 376 with a minimum grade of C - at least 9 credits.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**INTD 578 Trends/Issues in Interior Design Credits: 3 (2-0-1)****Course Description:****Prerequisite:** INTD 376 with a minimum grade of C or DM 551.**Registration Information:** Must register for lecture and recitation.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**INTD 675 Problems-Interior Design Credits: Var[1-8] (0-0-0)****Course Description:****Prerequisite:** INTD 575 - at least 4 credits.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.

Major in Apparel and Merchandising

The Major in Apparel and Merchandising emphasizes study in apparel and textile design and development as well as the sourcing, production, marketing, and retailing of consumer goods. The program encompasses global study of the cultural, historical, economic, and scientific aspects of the textiles and apparel industry, while fostering understanding of consumer behavior and socially responsible business practices. There are three concentrations in the major: Apparel Design and Production, Merchandising, and Product Development.

Learning Objectives

Students will demonstrate mastery of core knowledge and skills specific to their program/concentration areas. There are three concentration areas:

- The **APPAREL DESIGN AND PRODUCTION concentration** emphasizes study in apparel and textile design with courses in fashion illustration, pattern development, apparel construction techniques, and computer-aided design.
- The **MERCHANDISING concentration** focuses on the development of merchandise assortments and retailing strategies with courses in consumer behavior, assortment planning, merchandise buying, merchandise promotions, retailing, and global sourcing.
- The **PRODUCT DEVELOPMENT concentration** focuses on innovation in the development of consumer products with courses in technical design, textile science, user-centered design, product line development/management, quality assurance, sourcing, supply chain management, and technical product engineering.

Students will demonstrate an understanding of professional practices, processes, and skills utilized in the areas of apparel design and production, merchandising, and product development. These practices, processes, and skills include critical and creative thinking, communication, ethics, social responsibility and sustainability, collaborative problem-solving, and interdisciplinary learning.

Students also will demonstrate professional behaviors and ethical business practices that enhance the well-being of others and contribute to the advancement of the global industry.

Students in the Apparel and Merchandising undergraduate program are required to participate in a department-coordinated internship program that involves a full-time, 12-credit professional experience with nationally and internationally recognized firms and organizations in the apparel

industry or a related field. Students with a 2.500 GPA are eligible to participate in department-facilitated internships.

Students who are interested in co-curricular learning experiences have the opportunity to visit apparel and fashion companies and trade shows, network with industry professionals, participate in department-led study tours, engage in project-based learning experiences, assist with department recruiting events and new student orientations, and participate in a variety of leadership events.

Potential Occupations

Career options for Apparel Design and Production graduates include, but are not limited to: apparel and fashion designer, textile designer, creative or design director, fashion illustrator, pattern-maker and/or computer-aided design (CAD) manager, and trend or fashion forecaster.

Career options for Merchandising graduates include, but are not limited to: market researcher or analyst, brand and product manager, merchandise buyer, retail manager, showroom merchandising coordinator or manager, advertising specialist, social media specialist, public relations specialist, and merchandising stylist.

Career options for Product Development graduates include, but are not limited to: product developer, technical designer, 3D digital product creator, product line manager, consumer or market researcher, sourcing agent and import/export specialist, product testing and quality control agent, and prototype engineer.

Concentrations

- Apparel Design and Production Concentration
- Merchandising Concentration
- Product Development Concentration

Learn more about the Apparel and Merchandising Program on the Department of Design and Merchandising website (<https://www.chhs.colostate.edu/dm/programs-and-degrees/b-s-in-apparel-and-merchandising/>).

Major in Apparel and Merchandising, Apparel Design and Production Concentration

The Apparel Design and Production concentration focuses on the development of knowledge and skills necessary to engage in the design and creation of textile and apparel goods for an identified target market. This includes coursework in aesthetics and design, fashion/trend forecasting, fashion illustration, pattern development, material selection (e.g., fibers, fabrics, dyes/finishes), apparel construction techniques, computer-aided design (CAD), historic textiles and costume, and social-psychological aspects of dress.

Students applying to the Apparel Design and Production concentration are accepted first into the Apparel and Merchandising major. Full acceptance into the Apparel Design and Production concentration requires passing the portfolio review held in the spring semester and a minimum 2.500 GPA. Industry professionals in the field of apparel design and manufacturing evaluate student portfolios. Students who receive high scores on the portfolio evaluation and demonstrate skills needed to be successful in the program are accepted into the Apparel Design and Production concentration, and they become eligible to enroll in apparel design and production courses.

Learn more about the Apparel Design and Production concentration on the Department of Design and Merchandising website (<https://www.chhs.colostate.edu/dm/programs-and-degrees/b-s-in-apparel-and-merchandising/apparel-design-and-production-concentration/>).

Major in Apparel and Merchandising, Product Development Concentration

concentration teaches students necessary skills and knowledge for product development, including market potential analysis, trend forecasting, technology and material research, concept development, product line development, computer-aided design, technical package, packaging/branding strategies, pricing and costing, product line management, quality assurance, sourcing, supply chain management, and new venture start-ups.

Students in this concentration gain competence to be successful industry professionals or entrepreneurs through market-driven, industry-sponsored projects, which allows them to develop further networks with the real world. Students graduating with this concentration often pursue careers in highly technical product development fields such as outdoor products or sportswear industries.

Learn more about the Product Development concentration on the Department of Design and Merchandising website (<https://www.chhs.colostate.edu/dm/programs-and-degrees/b-s-in-apparel-and-merchandising/product-development-concentration/>).

Requirements Effective Fall 2023

¹ Registration for DM 487C depends on acceptance by a cooperating company. Students not enrolled in an internship will select 12 credits from the department list of Internship Alternative Courses.

² Select upper-division (300- to 400-level) AM or DM subject code courses ending in -00 to -79.

³ Courses used to fulfill upper-division AM or DM electives in the program cannot be used to fulfill course requirements for internship alternatives.

Major Completion Map

Distinctive Requirements for Degree Program:

Minimum grade requirements for Apparel and Merchandising - Product Development concentration are as follows: **AM 101, AM 130, DM 272, MATH 117, MATH 118, MATH 124** with grades of C (2.000) or better.

Minor in Merchandising

If you are majoring in art, business, journalism, or technical communication, a minor in merchandising will enhance your understanding of your primary coursework. Round out your major with a merchandising minor and expand your future career opportunities.

The Apparel and Merchandising program emphasizes study in apparel and textile design, product development and sourcing, and the marketing and retailing of consumer goods. The program encompasses the global study of the cultural/historical, economic, and scientific aspects of the textile and apparel industry while fostering an understanding and implementation of socially responsible business practices.

Learning Objectives

Students will:

- 1. Gain core knowledge and skills, including fundamentals of the fashion industry, and the design and merchandising processes. Varying topics include sourcing, retailing, merchandise buying, promotion, textiles science, and the social-psychological and historical aspects of clothing.
- 2. Demonstrate an understanding of professional practices, processes, and skills utilized in the areas of merchandising. These practices, processes, and skills include critical and creative thinking, communication, ethics, social responsibility and sustainability, collaborative problem-solving, and interdisciplinary learning.
- 3. Demonstrate professional behaviors and ethical business practices that enhance the well-being of others and contribute to the advancement of the global industry.

Learn more about the minor in Merchandising on the Department of Design and Merchandising website (<https://www.chhs.colostate.edu/dm/programs-and-degrees/minor-in-merchandising/>).

Requirements Effective Fall 2024

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Major in Interior Architecture and Design

The Interior Architecture and Design program encompasses two concentrations: Interior Architecture and Interior Products & Retailing. Our faculty bring international industry experiences and professional credentials in sustainability and design for health and wellness to class projects and working with clients on real-world projects. Both concentrations involve problem-solving, experiential learning, curated study abroad experiences, and industry internships with leading firms. The program holds accreditations by the Council for Interior Design Accreditation (<https://www.accredit-id.org/>)(CIDA) (<https://www.accredit-id.org/>) and the National Association of Schools of Art & Design (NASAD) (<https://nasad.arts-accredit.org/>).

Undergraduates may apply to the major as entering first-year students, second-bachelor candidates, transfer students, and those deciding to change majors at any point in their academic careers. First-year students in the Interior Architecture and Design major can declare the Interior Products and Retailing Concentration during new student orientation, but cannot declare the Interior Architecture Concentration until the spring semester after they have progressed through the Degree Advancement Design Scenario (<https://www.chhs.colostate.edu/dm/programs-and-degrees/b-s-in-interior-architecture-and-design/degree-advancement-design-scenario/>).

Learning Objectives

Students in the Interior Architecture and Design major will develop core knowledge and skills as a part of their concentration area. There are two concentration areas:

- The **Interior Architecture Concentration** prepares students to become interior design professionals. Students will learn to develop creative design solutions for building interiors that are environmentally sustainable, research-informed, and promote user health and well-being. Students are required to participate in the Degree Advancement Design Scenario (<https://www.chhs.colostate.edu/dm/programs-and-degrees/b-s-in-interior-architecture-and-design/degree-advancement-design-scenario/>).
- The **Interior Products and Retailing Concentration** prepares students to become design specialists with business acumen building deep knowledge of interior products focusing on textiles, furnishings, and/or lighting. Students will develop a holistic industry view of marketing analysis, life cycle, and merchandising of interior products and furnishings.

Students will learn the applications of history and culture; space and form; color and light; fixtures, equipment, and finish materials; environmental and building systems and interior construction; technology; and regulations.

Students will also demonstrate qualities of professionalism and business practice that contribute to the industry and advance the value of their knowledge to interior built environments. These processes include but are not limited to critical and creative thinking, communication, ethics, social responsibility and sustainability, and interdisciplinary collaboration.

Students in the Interior Architecture and Design Program will assess and synthesize multiple factors in creating/producing and evaluating quality interior architecture and interior design products, services, and design solutions. Factors will address human, design, industry and business, global, environmental, and technology sensitivities.

Please visit the Concentration links below to view additional learning objectives for each concentration.

Potential Occupations

Career options for Interior Architecture graduates include, but are not limited to: professional commercial interior designer for workplace/hospitality/healthcare/education/retail/ etc., professional residential interior designer for single- or multi-family homes, facilities space planner, design strategist or researcher.

Career options for Interior Products and Retailing graduates include, but are not limited to: manufacturer's products/materials sales representative, independent multi-line product representative/

business owner, interior product solutions specialist, furniture dealer-designer, ancillary furniture specialist, lighting showroom specialist, lighting consultant, interior products account manager, home goods merchandiser, interior staging, styling, and accessory curation specialist.

Nancy Richardson Design Center

The Nancy Richardson Design Center (<https://www.chhs.colostate.edu/rdc/>) is a multi-disciplinary center located in the College of Health and Human Sciences at CSU, with a mission to foster interdisciplinary creative collaboration. It serves as a design-thinking hub where students from across campus can gather to collaborate, innovate, and prototype creative ideas in formal and informal learning spaces using state-of-the-art equipment and technology. The RDC has four studio/lab classrooms for hands-on learning, a seminar room for use by professional staff, a small dedicated project room that can also be used for student-teams and visiting designers-in-residence, two computer labs, a design exchange (for student presentations, gallery exhibitions, special lectures, and events, etc.), an ideation lab (including virtual reality equipment), prototyping lab (laser cutters, 3D printers, CNC textile equipment, etc.), metal shop (traditional metalworking tools, welding, as well as state-of-the-art CNC milling machinery), wood shop (traditional woodworking hand and power tools as well as a large 4'x8' CNC router), and a sustainable dark room.

Concentrations

- Interior Architecture Concentration
- Interior Products and Retailing Concentration

Requirements Effective Fall 2024

Note: This is a 'placeholder' for the B.S. in Interior Architecture and Design. Effective Fall 2024, a 'standalone' major may not be completed - a concentration must be selected to graduate.

First year students in the Interior Architecture and Design Major will not declare a concentration until spring semester.

Students may apply to the **Interior Architecture Concentration** through the Selective Advancement Design Scenario. Students who qualify for the Selective Advancement Design Scenario must have a minimum grade of C in INTD 110, INTD 129, INTD 166, and a cumulative reported GPA of 2.500 or better to participate. All majors in the concentration must earn a minimum grade of C (2.000) in the studio course sequence to advance to the next studio (i.e., INTD 210, INTD 276, INTD 310, INTD 376, INTD 410).

To declare the **Interior Products & Retailing Concentration** and advance to the second year in the program, students must earn a minimum grade of C (2.000) in INTD 110, INTD 129 and INTD 166.

Please visit the links below to see requirements for each concentration:

- Interior Architecture Concentration
- Interior Products and Retailing Concentration

Major in Interior Architecture and Design, Interior Architecture Concentration

The Interior Architecture concentration in the Interior Architecture and Design major prepares students to become professional designers through education, experience, and examination. Students learn to

design interior environments that enhance the function and quality of life, increase productivity, and protect the health, safety, and welfare of the public. Faculty prepare students for research-based problem-solving and experiential education rooted in studio instruction, service learning, and internships that encompass cultural, environmental, and historical perspectives. The IA concentration in the Interior Architecture and Design major is accredited by the Council of Interior Design Accreditation (CIDA) (<https://www.accredit-id.org/>). Faculty hold professional certifications in NCIDQ, LEED AP, and WELL AP.

Students in the Interior Architecture concentration will acquire knowledge and skills to prepare them to become interior design professionals as qualified by education, experience, and National Council for Interior Design Qualification (NCIDQ) examination. Students will apply understanding of multiple processes that are involved in the practice of interior architecture and interior design to develop creative design solutions for building interiors, including programming, research-informed and evidenced-based design, building information modeling, construction documentation and detailing. Core skills developed will align with current Council of Interior Design Accreditation (CIDA) (<https://www.accredit-id.org/>) standards.

Learn more about the Interior Architecture concentration on the Department of Design and Merchandising website. (<https://www.chhs.colostate.edu/dm/programs-and-degrees/b-s-in-interior-architecture-and-design/interior-architecture/>)

¹ In addition to required courses in the concentration, students must complete a minimum of 9 credits from one of the following focus areas. These credits may be used to fulfill required courses in a certificate, minor, interdisciplinary minor, second major, or a focused group of courses approved by an advisor.

Focus Areas:

- Art History
- Business Administration
- Design Thinking
- Entrepreneurship
- Gerontology
- Global Environmental Sustainability
- Graphic Design
- Media Studies
- Merchandising
- Real Estate
- Psychology

Any minor or undergraduate certificate at CSU in these or other areas will satisfy for the aforementioned focus area requirement.
A minor in Construction Management **completed in full**, will satisfy for the aforementioned focus area requirement.

- ² Substitute experiences could include study abroad or elective courses or independent study (service learning) with advisor approval.
- ³ Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be Upper-Division (300- or 400-level).

Major Completion Map

Distinctive Requirements for Degree Program:

First year students in the Interior Architecture and Design Major will enter with an undeclared concentration; they will apply to the Interior Architecture concentration through the Selective Advancement Design Scenario. Students who qualify for the Selective Advancement Design Scenario must have a minimum grade of C in INTD 110, INTD 129, INTD 166, and a cumulative reported GPA of 2.500 or better to participate. Approximately 60 students are selected to advance to the Interior Architecture concentration. The Interior Architecture concentration is a cohort program - after students pass the Design Scenario, semesters 3, 4, 5, 6, 7, and 8 are sequential.

All majors in the concentration must earn a minimum grade of C in the studio course sequence to advance to the next studio (i.e., INTD 210, INTD 276, INTD 310, INTD 376, INTD 410).

Students must complete a 12-credit internship prior to graduation. For students who are unable to participate in an internship, substitute experiences could include study abroad or elective courses or independent study (service learning) with advisor approval.

In addition to required courses in the major, students must complete a minimum of 9 credits from one of the following focus areas. These credits may be used to fulfill required courses in a certificate, minor, interdisciplinary minor, second major, or a focused group of courses approved by an advisor.

Focus Areas:

- Art History
- Business Administration
- Design Thinking
- Entrepreneurship
- Gerontology
- Global Environmental Sustainability
- Graphic Design
- Media Studies
- Merchandising
- Real Estate
- Psychology

Any minor or undergraduate certificate at CSU in these or other areas will satisfy for the aforementioned focus area requirement.

A minor in Construction Management **completed in full**, will satisfy for the aforementioned focus area requirement.

Major in Interior Architecture and Design, Interior Products and Retailing Concentration

The Interior Products and Retailing (IPR) concentration in the Interior Architecture and Design Program prepares students to become design-specialist entrepreneurs in the interiors industry. Students learn in-depth knowledge of interior products and furnishings, design thinking processes, marketing and consumer behavior strategies, and relationship-building skills for business development. Faculty prepare students for positions as specialists who serve as expert intermediaries

at the dynamic intersection between manufacturers of interior products and furnishings, architecture and design firms, retailers, and business partners. Internships, shadowing opportunities, vendor tradeshow, and networking events advance students' specialist expertise. The program is accredited by the National Association of Schools of Art and Design (NASAD) (<https://nasad.arts-accredit.org/>).

Students in the Interior Products and Retailing concentration will acquire knowledge and skills to be design-specialists with business acumen. Students will develop expertise in understanding a holistic industry view of the marketing analysis, lifecycle, and merchandising of interior products and furnishings for commercial and residential interiors. Core knowledge and skills will include in-depth interior products and furnishings knowledge; sales, promotion, and customer service skills; marketing research strategies; design thinking skills; and business knowledge.

The Interior Products and Retailing (IPR) concentration will prepare students for growing career opportunities in interior design-related specializations that do not require a design-studio education but do require deeper knowledge of interior products (e.g., furnishings, accessories), materials (e.g., textiles and finishes related to furniture and products), lighting, and retailing, merchandising, and business applications.

Learn more about the Interior Products and Retailing concentration on the Department of Design and Merchandising website.

Requirements

Effective Fall 2024

Distinctive Requirements for Degree Concentration:

First year students in the Interior Architecture and Design Major will not declare a concentration until spring semester. To declare the Interior Products & Retailing concentration and advance to the second year in the program, students must earn a minimum grade of C (2.000) in **INTD 110**, **INTD 129** and **INTD 166**.

Freshman

		AUCC	Credits

¹ Students must complete a minimum of three selected business courses: MGT 340, MGT 305, MKT 305 or complete the Certificate in Entrepreneurship offered by the College of Business to satisfy graduation requirements for the Interior Products and Retailing Concentration. With advisor permission, students may substitute a Minor in Entrepreneurship and Innovation, Minor in Real Estate, Minor in Business Administration or a second Major in Business Administration for this requirement.

² Students will choose a total of 12 credits from the Concentration Specialization elective list.

³ Substitute experiences could include study abroad or elective courses or independent study (service learning) with advisor approval.

⁴ Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be Upper-Division (300- or 400-level).

Major Completion Map

Distinctive Requirements for Degree Program:

First year students in the Interior Architecture and Design Major will not declare a concentration until spring semester. To declare the Interior Products & Retailing concentration and advance to the second year in the program, students must earn a minimum grade of C (2.000) in INTD 110, INTD 129, and INTD 166.

Students must complete a 6-12 credit internship prior to graduation. For students who are unable to participate in an internship, substitute experiences could include study abroad or elective courses or independent study (service learning) with advisor approval.

Graduate Certificate in Evidence-Based Design

This program is not accepting applications at this time.

Requirements

This certificate features skill development, theoretical understanding, and linkage to research approaches, assessment of instruments, exposure to professionals engaged in evidence-based projects, and use of the tools and concepts learned in each course applied to evidence-based research projects in the community. Professionals in design, healthcare, education, engineering, construction, and product manufacturing are the target audience of this sequential cohort-based certificate.

Effective Spring 2016

Additional coursework may be required due to prerequisites.

Code	Title	Credits
DM 501	Research and Theory-Design and Merchandising	3
DM 551	Research Methods	3
INTD 578	Trends/Issues in Interior Design	3
Program Total Credits:		9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Master of Science in Design and Merchandising, Plan A, Apparel and Merchandising Specialization

The M.S. in Design and Merchandising, Plan A, Apparel and Merchandising Specialization offers the opportunity for students to critically explore how apparel products are designed and developed, distributed, and merchandised as well as the ways in which consumers interact with and use those products in various historical and socio-cultural contexts. Emphasis is placed upon fostering cultural/global awareness and a commitment to social responsibility. The Plan A emphasizes the development of content knowledge and research skills through the completion of an original research study, preparing graduates well for doctoral-level work or for industry positions requiring critical thinking, analytical abilities, and/or depth of knowledge in the field.

Areas of graduate study and research in Apparel and Merchandising include:

- Apparel Design and Production
- Consumer Behavior
- Historic Costume and Textiles
- Merchandising
- Product Development
- Social-Psychological and Cultural Aspects of Dress and Appearance
- Textile Science

Learn more about the M.S. in Design and Merchandising, Plan A, Apparel and Merchandising Specialization, on the Department of Design and Merchandising website. (<https://www.chhs.colostate.edu/dm/programs-and-degrees/m-s-in-design-and-merchandising/apparel-and-merchandising-specialization/>)

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying

10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Master of Science in Design and Merchandising, Plan B, Apparel and Merchandising Specialization

The M.S. in Design and Merchandising, Plan B, Apparel and Merchandising Specialization offers the opportunity for students to critically explore how apparel products are designed and developed, distributed, and merchandised as well as the ways in which consumers interact with and use those products in various historical and cultural contexts. Emphasis is placed upon fostering cultural/global awareness and a commitment to social responsibility. The Plan B emphasizes the development of content knowledge and critical thinking skills through the completion of a project, preparing graduates well for industry positions requiring higher-order analytical abilities and/or depth of knowledge in the field.

Areas of graduate study and research in Apparel and Merchandising include:

- Apparel Design and Production
- Consumer Behavior

- Historic Costume and Textiles
- Merchandising
- Product Development
- Social-Psychological and Cultural Aspects of Dress and Appearance
- Textile Science

Learn more about the M.S. in Design and Merchandising, Plan B, Apparel and Merchandising Specialization on the Department of Design and Merchandising website. (<https://www.chhs.colostate.edu/dm/programs-and-degrees/m-s-in-design-and-merchandising/apparel-and-merchandising-specialization/>)

Master of Science in Design and Merchandising, Plan A, Interior Design Specialization

The Interior Design specialization of the M.S. in Design and Merchandising offers the opportunity to explore creativity, sustainability, emerging technologies, spatial perception, and human health and wellness within the context of interior design. The Plan A emphasizes the development of content knowledge and research skills through the completion of an original research study, preparing graduates for doctoral-level work or for industry positions requiring critical thinking, analytical abilities, and/or depth of knowledge in the field.

Common contexts for graduate research include workplace, education, healthcare facilities, commercial/institutional spaces, hospitality, etc.

Major areas of specialization for graduate study and research in interior design include:

- Creativity and cognition
- Sense of place
- Sustainable design studies
- Inclusive design and design justice (DEIJ)
- Health, well-being, and resilience
- Theory, sociocultural, and global approaches
- Design pedagogy
- Digital fabrication
- Emerging technologies for design

Learn more about the M.S. in Design and Merchandising, Plan A, Interior Design Specialization on the Department of Design and Merchandising website. (<https://www.chhs.colostate.edu/dm/programs-and-degrees/m-s-in-design-and-merchandising/interior-design-specialization/>)

Department of Food Science and Human Nutrition

Office in Gifford Building, Room 234
(970) 491-FOOD (3663)

www.chhs.colostate.edu/fshn/ (<https://www.chhs.colostate.edu/fshn/>)

Nourishing body and mind.

Our programs emphasize hands-on and experiential learning to help train students to be leaders in the areas of health, nutrition science, hospitality, and food and fermentation science.

Department Head, Christopher Gentile, Ph.D.

Dietetic Program Director, Sarah Johnson, Ph.D., RDN

Coordinated Master's Program in Dietetics, Director, Brittney Sly, Ph.D., M.P.H., RDN

Hospitality and Event Management Program Coordinators, Soo Kang, Ph.D. and Eric Milholland, Ph.D.

Fermentation Science and Technology Director, Jeff Callaway

Undergraduate Majors

- Major in Fermentation and Food Science
 - Fermentation Science and Technology Concentration
 - Food Science Concentration
- Major in Hospitality and Event Management
- Major in Nutrition Science
 - Dietetics and Nutrition Management Concentration
 - Pre-Health Nutrition Concentration
 - Sports Nutrition and Wellness Concentration

Minors

- Minor in Fermentation and Food Science
- Minor in Nutrition
- Food Science/Safety Interdisciplinary Minor

No new students are being admitted into the following programs. These programs have recently undergone reorganization and program title changes. Please visit the links above for the most recent program information and requirements.

Programs not currently admitting students:

- Major in Fermentation Science and Technology
- Major in Nutrition and Food Science
 - Dietetics and Nutrition Management Concentration
 - Accredited Didactic Program Option
 - Childhood Nutrition Option
 - Gerontology Nutrition Option
 - Food Science Concentration
 - Food Systems Concentration
 - Nutrition and Fitness Concentration
 - Pre-Health Nutrition Concentration

Graduate Graduate Programs in Food Science and Human Nutrition

At the graduate level, both M.S. and Ph.D. degrees are offered in Food Science and Nutrition. Students interested in graduate work should refer

to the Graduate and Professional Bulletin and the Department of Food Science and Human Nutrition (<http://www.fshn.chhs.colostate.edu/>).

Master's Programs

- Master of Science in Food Science and Nutrition, Dietetics Option (Online) (*This program is not admitting new students*)
- Master of Science in Food Science and Nutrition, Food Science Specialization, Plan A
- Master of Science in Food Science and Nutrition, Nutrition Specialization, Plan A and Plan B

Ph.D.

- Ph.D. in Food Science and Nutrition, Food Science Specialization
- Ph.D. in Food Science and Nutrition, Nutrition Specialization

Courses

Subjects in this department include: Food Science and Human Nutrition (FSHN), Food Technology (FTEC), and Hospitality Management (RRM).

Food Science and Human Nutrition (FSHN)

FSHN 115 Health Equity (GT-SS3) Credits: 3 (2-0-1)

Course Description: Exploration of inequities in health and healthcare access. Discussion of identities, oppression, social determinants of health, and the influence on food security and chronic health conditions. Analysis of interventions for promoting health equity in various settings.

Prerequisite: None.

Registration Information: Must register for lecture and recitation.

Sections offered as Mixed Face-to-Face or Online. Credit not allowed for both FSHN 115 and FSHN 180A2.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Diversity, Equity, & Inclusion 1C, Human Behavior, Culture, or Social Frameworks (GT-SS3).

FSHN 125 Food and Nutrition in Health and Disease Credits: 2 (2-0-0)

Course Description: Basic concepts and principles of nutrition; current and controversial issues in the field; the relationship between nutrition, health, and disease; and tools to evaluate and modify diet.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

FSHN 150 Survey of Human Nutrition Credits: 3 (3-0-0)

Course Description: Basic nutrition principles and concepts; their application to personal health and interactions with societal and environmental issues.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 192 First Year Seminar Credit: 1 (0-0-1)

Course Description: Facilitate a successful transition to college for new incoming students by emphasizing personal growth and identifying campus resources.

Prerequisite: None.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 220 Intro to Nutrition for Sports and Fitness Credits: 3 (3-0-0)

Course Description: Introduction to nutrition regarding optimal dietary patterns and nutrient intake for general fitness and various forms of sports activities.

Prerequisite: FSHN 150 or FSHN 350.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 271 Integrative Wellness Coaching I Credits: 3 (3-0-0)

Course Description: Foundational concepts in wellness and wellness coaching. Dimensions and determinants of wellness and the interrelationships. Evidence-based information and skills coaches need to facilitate client behavior change and improve health outcomes, while utilizing self as the client to gain helpful perspective and potential personal benefits.

Prerequisite: None.

Registration Information: Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 272 Integrative Wellness Coaching II Credits: 3 (2-0-1)

Course Description: Coaching structure, process, and ethics/legal considerations. Develop specialized wellness coaching knowledge and techniques through study and practice.

Prerequisite: FSHN 271.

Registration Information: Sections may be offered: Online or Mixed Face-to-Face.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 292 Careers in Nutrition Science Seminar Credit: 1 (0-0-1)

Course Description: Introduction to the various careers in nutrition science. Explore different concentrations in the nutrition science major, research, and other opportunities within the department and prepare students for success in their career goals.

Prerequisite: None.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 300 Food Principles and Applications Credits: 3 (3-0-0)

Course Description: Application of food preparation theories to modification and evaluation of food products.

Prerequisite: (CHEM 103 or CHEM 107 or CHEM 111) and (FSHN 150).

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 301 Food Principles and Applications Laboratory Credits: 2 (0-6-0)

Course Description: Techniques and manipulative skills for preparation and evaluation of standard and modified food products.

Prerequisite: FSHN 300, may be taken concurrently.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

FSHN 302 Dietetics Management and Leadership Credits: 3 (3-0-0)

Course Description: Foundational knowledge and skills required in the operation of establishments related to dietetics practice. Topics include theories of organization and management, with an emphasis on operations strategies, quality management and cost control, forecasting, human resources, and supply chain management. Study leadership theories and practice applications to specific situations experienced in the health care field.

Prerequisite: FSHN 300 and FSHN 301, may be taken concurrently.

Restriction: Must not be a: Freshman.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 340 Food as Preventive Medicine Credits: 3 (3-0-0)

Course Description: Food consumption patterns, individual foods, and specific food constituents (nutrients and phytochemicals) associated with health benefits.

Prerequisite: (BZ 110 and BZ 111 or LIFE 102) and (FSHN 150).

Restriction: Must be a: Undergraduate.

Registration Information: Credit not allowed for both FSHN 340 and FSHN 380A1.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 350 Human Nutrition Credits: 3 (3-0-0)

Course Description: Focus on the various metabolic pathways through which nutrients pass, the regulation of those pathways, how dysregulation of the pathways can lead to chronic disease, and how these pathways can be targeted for therapeutic opportunities to maximize human health.

Prerequisite: BMS 300, may be taken concurrently or HES 300, may be taken concurrently.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 360 Nutrition Assessment Credits: 2 (2-0-0)

Course Description: Principles of anthropometric, dietary, and biochemical assessment of nutritional status.

Prerequisite: FSHN 350.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 382A Study Abroad--Italy: Food as Medicine Credits: 3 (0-0-3)

Course Description: Exploration of food consumption patterns, some specific individual foods, and specific food constituents (nutrients and phytochemicals) and their role in the promotion of health and the prevention of chronic disease. International focus on the health benefits of the Mediterranean Diet and its specific constituents consumed in Italy including olive oil, grapes and other fruits, fish, and pasta.

Prerequisite: FSHN 150 or LIFE 102.

Restrictions: Must not be a: Freshman. Must be a: Undergraduate.

Registration Information: Sophomore standing. Required field trips. Offered as Mixed Face-to-Face.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 386A Practicum: Food Service Management Credits: 2 (0-0-4)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

FSHN 386B Practicum: Gerontology Credits: 3 (0-0-9)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

FSHN 386C Practicum: School Nutrition Credits: 3 (0-0-9)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

FSHN 392 Dietetic Practice Seminar Credit: 1 (0-0-1)

Course Description: Pre-professional skills to prepare students for the pursuit of careers in the field of dietetics.

Prerequisite: FSHN 300 and CHEM 245.

Registration Information: 3.000 overall GPA.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 428 Nutrition Teaching and Counseling Techniques Credits: 3 (3-0-0)

Course Description: Objectives, principles, and organization of subject matter for nutrition education and counseling.

Prerequisite: FSHN 350.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 435 Lactation Benefits and Promotion Credits: 2 (2-0-0)

Course Description: Lactation benefits, support, promotion, and careers within the field of health and nutrition.

Prerequisite: FSHN 150.

Registration Information: Offered as an online course only. This is a partial semester course.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 444 Nutrition and Aging Credit: 1 (1-0-0)

Course Description: Effect of aging on nutrient needs and impact of nutrition on successful aging and health in the elderly.

Prerequisite: BZ 101 or BZ 110 or LIFE 102.

Registration Information: Offered as an online course only. Credit not allowed for both FSHN 444 and FSHN 459.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 445 Early Childhood Health, Safety, and Nutrition Credits: 3 (0-0-3)

Also Offered As: HDFS 445.

Course Description: Planning, promoting and maintaining healthy life style and safe learning environment for preschool children. Nutrition, first aid and safety, physical activity, identifying and reporting abuse, prevention and management of acute illness and chronic disease and promotion of a high-quality indoor and outdoor environment, targeted for the early childhood education professional.

Prerequisite: HDFS 310.

Registration Information: Completion of 60 credits. Offered as an online course only. Credit not allowed for both FSHN 445 and HDFS 445.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 449 Pathophysiology of Nutrition-Related Diseases Credits: 2 (2-0-0)

Course Description: Foundational knowledge regarding the physiological concepts required to integrate nutrition therapy as part of medical care, by discussing body systems and how disease process interrupts normal functioning.

Prerequisite: (BMS 300 or HES 300) and (FSHN 350, may be taken concurrently).

Restriction: Must be a: Undergraduate.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 450 Medical Nutrition Therapy Credits: 3 (2-2-0)

Course Description: Concepts in medical nutrition therapy, an evidence-based individualized nutrition process to help treat certain medical conditions. Creation of nutrition diagnoses, nutrition prescriptions and nutrition interventions for a variety of diseases and disorders. Intended for students pursuing the registered dietitian nutritionist credential.

Prerequisite: FSHN 449.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

FSHN 451 Community Nutrition Credits: 3 (0-0-3)

Course Description: Introduction to the field of community nutrition, with a service learning application. Topics include principles of epidemiology, national nutrition programs and policy, behavior change theory, food insecurity, global food systems, at-risk populations, cultural responsiveness, and the development of nutrition intervention programs. Apply didactic course content to the development of a nutrition intervention with a local community partner.

Prerequisite: FSHN 350, may be taken concurrently.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 453 Biology of Body Weight Regulation Credits: 3 (3-0-0)

Course Description: Genetic, physiological, and psychological regulators of body weight that can contribute to obesity, eating disorders, and various health problems. Investigation beyond the “energy in and energy out” concept into how these factors control when and what a person eats, whether they exercise, and how weight fluctuates.

Prerequisite: FSHN 350.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 455 Food Systems--Impact on Health/Food Security Credits: 2 (1-0-1)

Course Description: Conventional and alternative food systems and their impact on nutrition, health, food security, and the environment.

Prerequisite: FSHN 350 or FTEC 447.

Restriction: Must be a: Undergraduate.

Registration Information: Must register for lecture and recitation. Sections may be offered as Mixed Face-to-Face.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 459 Nutrition in the Life Cycle Credits: 3 (3-0-0)

Course Description: Nutritional aspects associated with each phase of human life cycle including pregnancy, infancy, childhood, adolescence, and early and late adulthood.

Prerequisite: FSHN 350.

Registration Information: Credit not allowed for both FSHN 444 and FSHN 459.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 461 Global Nutrition Credits: 2 (2-0-0)

Course Description: Analysis of global nutrition problems relating to hunger, malnutrition, and food security. Current policies, approaches, and research to address these issues in different global contexts.

Prerequisite: FSHN 150.

Restriction: Must not be a: Freshman.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 470 Integrative Nutrition and Metabolism Credits: 3 (3-0-0)

Course Description: Influence of nutrition on roles and action of hormones and gene expression on metabolism.

Prerequisite: BC 351 and FSHN 350.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 484 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

FSHN 486A Practicum: Counseling Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: FSHN 350.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

FSHN 486B Practicum: Nutrition Credits: Var[1-3] (0-0-0)

Course Description: Supervised off-campus experience in nutrition.

Prerequisite: FSHN 350.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FSHN 492 Seminar in Dietetics and Nutrition Credits: 2 (0-0-2)

Course Description: Capstone seminar in nutrition and dietetics.

Prerequisite: None.

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Senior standing. Majors in Nutrition Science only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 495A Independent Study: Nutrition Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FSHN 495B Independent Study: Food Service Management Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FSHN 496A Group Study in Dietetics and Nutrition: Energy, Weight Management Credit: 1 (1-0-0)

Course Description: Current topics in nutrition and professional skills for the dietetics profession.

Prerequisite: FSHN 350.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 496B Group Study in Dietetics and Nutrition: Sustainable Food Issues Credit: 1 (1-0-0)

Course Description: Current topics in nutrition and professional skills for the dietetics profession.

Prerequisite: FSHN 350.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 496C Group Study in Dietetics and Nutrition: Nutrition and Chronic Disease Credit: 1 (1-0-0)

Course Description: Current topics in nutrition and professional skills for the dietetics profession.

Prerequisite: FSHN 350.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 496D Group Study in Dietetics and Nutrition: Nutrition for Athletes Credit: 1 (1-0-0)

Course Description: Current topics in nutrition and professional skills for the dietetics profession.

Prerequisite: FSHN 350.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 496E Group Study in Dietetics and Nutrition: Food Safety Credit: 1 (1-0-0)

Course Description: Current topics in nutrition and professional skills for the dietetics profession.

Prerequisite: FSHN 350.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 496F Group Study in Dietetics and Nutrition: Service Marketing Credit: 1 (1-0-0)

Course Description: Current topics in nutrition and professional skills for the dietetics profession.

Prerequisite: FSHN 350.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 496G Group Study in Dietetics and Nutrition: Food and Consumer Issues Credit: 1 (1-0-0)

Course Description: Current topics in nutrition and professional skills for the dietetics profession.

Prerequisite: FSHN 350.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 496H Group Study in Dietetics and Nutrition: Public Health and Policy Credit: 1 (1-0-0)

Course Description: Current topics in nutrition and professional skills for the dietetics profession.

Prerequisite: FSHN 350.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 496I Group Study in Dietetics and Nutrition: Special Topics Credit: 1 (1-0-0)

Course Description: Current topics in nutrition and professional skills for the dietetics profession.

Prerequisite: FSHN 350.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 500 Food Systems, Nutrition, and Food Security Credits: 2 (2-0-0)

Course Description: Global and local food systems and their potential influence on nutrition and food security.

Prerequisite: FSHN 350.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 501 Research Methods in Dietetics Credits: 3 (0-0-3)

Course Description: Testing and generating theory. Methods for collecting and analyzing quantitative and qualitative data, critique of research and proposal development.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 503 Issues in Dietetics Practice Credits: 3 (0-0-3)

Course Description: Environment in which foodservice, hospitality, and healthcare organizations operate; impact of change on hospitality and healthcare organizations.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 504 Micronutrients Credits: 3 (0-0-3)

Course Description: Coordination of structure and function related to metabolic needs as a basis for evaluating micronutrient needs in normal or altered metabolic states.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 505 Nutrition and Physical Activity in Aging Credits: 3 (0-0-3)

Course Description: Physiological changes during aging and impacts on health and disease; focus on successful aging with emphasis on physical activity and nutrition.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 506 Nutrition and Human Performance Credits: 3 (0-0-3)

Course Description: Relationship of specific nutrients and optimal nutrition to physical efficiency and performance.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 507 Nutrition Education in the Community Credits: 3 (0-0-3)

Course Description: Principles and practices of teaching individuals and groups to translate nutrition knowledge into action. Emphasis on research and evaluation.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 508 International Nutrition and World Hunger Credits: 3 (0-0-3)

Course Description: Magnitude, causes, and nature of hunger and under-nurturing; programs and policies to alleviate hunger.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 509 Nutrition Counseling and Education Methods Credits: 3 (0-0-3)

Course Description: Application of learning theories and nutrition counseling with individuals and groups in the community and clinical settings.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 510 Pediatric Clinical Nutrition Credits: 3 (0-0-3)

Course Description: Physiological, biochemical and nutritional aspects of disease processes relevant to infants and children up to 18 years of age.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 511 Maternal and Child Nutrition Credits: 3 (0-0-3)

Course Description: Behavioral, physiological and public health issues impacting dietary and nutritional factors that support growth and development.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics; written permission of instructor. Offered as an online course only.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 512 Nutritional Aspects of Oncology Credits: 3 (0-0-3)

Course Description: Relationships between nutrition and cancer including the role of nutrition in specific cancers, cancer prevention and patient management.

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in dietetics. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 515 Advanced Health Equity Credits: 3 (1-0-2)

Course Description: Inequities in health and healthcare access, barriers to equity, and strategies for improving health equity at organizational, community, and systemic levels.

Prerequisite: FSHN 530, may be taken concurrently.

Registration Information: Must register for lecture and recitation. Sections offered as Mixed Face-to-Face or Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 520 Advanced Medical Nutrition Therapy Credits: 3 (3-0-0)

Course Description: Role of nutrition in etiology and treatment of selected disorders.

Prerequisite: FSHN 550 or FSHN 551.

Restriction: Must be a: Graduate.

Registration Information: FSHN 550 or FSHN 551 or admission to GP-IDEA program in Dietetics. Sections may be offered: Online.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 521 Advanced Medical Nutrition Therapy Lab Credit: 1 (0-2-0)

Course Description: Practical application of the treatment of selected nutrition-related diseases and disorders.

Prerequisite: FSHN 550 and FSHN 551.

Restriction: Must be a: Graduate.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

FSHN 525 Nutrition Education Theories and Practice Credits: 2 (2-0-0)

Course Description: Important theories, models, and skills used in nutrition education. Examination of topics related to designing, conducting, and evaluating evidence-based materials and programs. Use of current information technologies for communicating with individuals, groups and the public.

Prerequisite: FSHN 350.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 530 Principles of Nutrition Science & Metabolism Credits: 3 (3-0-0)

Course Description: Science of nutrition, including the ingestion and digestion of food, the absorption, transport, and metabolism of macro and micronutrients, energy balance and bodyweight regulation, and relationships to health and risk of disease. Structure, functional roles, and metabolic regulation of carbohydrates, lipids, and proteins during conditions of fasting, feeding, and exercise. The role of vitamins and minerals in cellular and whole body homeostasis.

Prerequisite: BMS 300 or CHEM 245 or FSHN 150 or LIFE 102.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 531 Diet, Nutrition, and Chronic Disease Credits: 3 (2-0-1)

Course Description: Principles related to the role of diet and nutrition in obesity, digestive health, type 2 diabetes, cardiovascular disease, and cancer with a focus on current evidence and best practices for prevention.

Prerequisite: FSHN 530.

Registration Information: Graduate standing. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 532 Emerging Issues in Nutrition Credits: 3 (2-0-1)

Course Description: Principles related to emerging areas of nutrition and their role in health promotion. Focus is on current research related to micronutrients and supplements, sports nutrition, food safety and technology, food systems, nutrition and aging, and nutrigenomics.

Prerequisite: FSHN 530.

Registration Information: Graduate standing. Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 540 Nutrigenomics and Advanced Lipid Metabolism Credits: 3 (0-0-3)

Course Description: How nutrients regulate gene expressions (nutrigenetics) and how genotype influences an individual's nutrient requirements (nutrigenomics).

Prerequisite: None.

Registration Information: Admission to GP-IDEA program in Dietetics. Offered as an online course only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 549 Advanced Pathophysiology--Nutrition Diseases Credits: 2 (2-0-0)

Course Description: Foundational knowledge regarding the physiological concepts required to integrate nutrition therapy as part of medical care. Body systems and how disease processes interrupt normal functioning.

Prerequisite: FSHN 530.

Restriction: Must be a: Graduate.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 550 Advanced Nutritional Science I Credits: 3 (3-0-0)

Course Description: Protein, vitamin, mineral metabolism; human studies, animal models.

Prerequisite: BC 351 or BC 403.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 551 Advanced Nutritional Science II Credits: 3 (3-0-0)

Course Description: Carbohydrate, lipid, energy metabolism; human studies, animal models.

Prerequisite: BC 351 or BC 403.

Restrictions: Must not be a: Freshman, Sophomore, Junior. Must be a: Graduate.

Registration Information: Undergraduates with senior standing may enroll with consent of instructor. Sections offered as Mixed Face-to-Face or Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 561 Global Nutrition Programs Credits: 2 (2-0-0)

Course Description: Analysis of major global nutrition programs and strategies designed to lessen the global burden of nutrition related morbidity and mortality. Current policies, approaches and research trying to address these issues in different global contexts.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program.

Registration Information: Graduate standing.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 586 Practicum-Advanced Clinical Nutrition Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Term Offered: Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

FSHN 587A Internship: Clinical Dietetics Credits: Var[1-6] (0-0-0)

Course Description: Supervised practice in clinical nutrition.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Admission to Master of Science in Food Science and Nutrition, Dietetics Option, Plan B. Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

FSHN 587B Internship: Community Dietetics Credits: Var[1-6] (0-0-0)

Course Description: Supervised practice in community nutrition.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Admission to Master of Science in Food Science and Nutrition, Dietetics Option, Plan B. Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

FSHN 587C Internship: Food Service Management Credits: Var[1-6] (0-0-0)

Course Description: Supervised practice in food service management.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Admission to Master of Science in Food Science and Nutrition, Dietetics Option, Plan B. Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

FSHN 590 Workshop Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Term Offered: Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FSHN 600 Responsible Conduct of Research Credit: 1 (1-0-0)

Course Description: Responsible conduct of research (RCR) including ethical frameworks, publication practices, human and animal research and data management. Case studies and professional codes of conduct will be used to explore conduct of ethical research in humans and animals and how to avoid and manage research misconduct.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course. Credit not allowed for both FSHN 580A2 and FSHN 600.

Term Offered: Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

FSHN 601 Grant Writing in Nutritional Sciences Credits: 2 (2-0-0)

Course Description: Examine each of the processes involved in a grant application. Emphasis on NIH grant mechanisms; translates to all forms of academic grant writing.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both FSHN 580A3 and FSHN 601.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 620 Community Nutrition Planning and Evaluation Credits: 3 (2-0-1)

Course Description: Issues, approaches, and skills needed in the community and public health nutrition field.

Prerequisite: FSHN 350.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Must register for laboratory and recitation. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 628 Advanced Nutrition Counseling Techniques Credits: 2 (2-0-0)

Course Description: Principles, strategies, and techniques for interviewing, assessing, and providing nutrition counseling in community settings.

Prerequisite: FSHN 530.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 630 Integrative Exercise and Nutrition Metabolism Credits: 3 (3-0-0)

Also Offered As: HES 630.

Course Description: Advances in integrative human metabolism under conditions of changing energy flux.

Prerequisite: HES 610 and FSHN 551.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both FSHN 630 and HES 630.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 640 Selected Topics in Nutritional Epidemiology Credits: 2 (2-0-0)

Course Description: Overview of topics in nutritional epidemiology; study design, interpretation of findings, linkage of data to action.

Prerequisite: (FSHN 350) and (STAT 301 or STAT 307 or ERHS 307).

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 650A Recent Developments in Human Nutrition: Topics in Community Nutrition Credits: 2 (0-0-2)

Course Description: Applying principles of public health and community nutrition to evaluate scientific research on current topics of public health significances.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 650B Recent Developments in Human Nutrition: Carbohydrates, Lipids, and Energy Credits: 2 (2-0-0)

Course Description: Appraisal of literature on human nutritional status.

Prerequisite: FSHN 551.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 650C Recent Developments in Human Nutrition: Genomic, Proteomics, and Metabolomics Credits: 2 (2-0-0)

Course Description: Appraisal of literature on human nutritional status.

Prerequisite: FSHN 551.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 660 Women's Issues in Lifecycle Nutrition Credits: 2 (2-0-0)

Course Description: Current nutritional issues related to selected stages of the lifecycle compared to normal adult nutritional needs.

Prerequisite: FSHN 459.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 675 Regulation of Energy Intake Credits: 3 (3-0-0)

Course Description: Central and peripheral mechanisms controlling energy intake with emphasis on humans. Current theories, experimental approaches, and new research.

Prerequisite: FSHN 350 and PSY 454.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FSHN 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FSHN 686A Practicum: Counseling Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** FSHN 520.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**FSHN 686B Practicum: Nutrition Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**FSHN 692 Graduate Seminar Credit: 1 (0-0-1)****Course Description:** Fundamental concepts for giving effective scientific presentations, exposure to a variety of scientific, research, and professional development topics related to nutrition, food science, and dietetics. Engage and participate in weekly seminars with emphasis on development of oral and written communication skills.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FSHN 695A Independent Study: Food Science Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Graduate cooperative program, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FSHN 695B Independent Study: Nutrition Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Graduate cooperative program, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FSHN 695C Independent Study: Food Service Management Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FSHN 696A Group Study: Food Science Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FSHN 696B Group Study: Nutrition Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FSHN 696C Group Study: Dietetics Credit: 1 (0-0-1)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Sections may be offered: Online.**Terms Offered:** Fall, Spring.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**FSHN 696D Group Study: Exercise and Nutrition Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FSHN 698A Research: Dietetics Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Admission to the GP-IDEA program in Dietetics. Sections may be offered online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**FSHN 698B Research: Nutrition Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.**FSHN 698C Research: Food Service Management Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** S/U Sat/Unsat Only.**Special Course Fee:** No.

FSHN 699B Thesis: Nutrition Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FSHN 699C Thesis: Food Service Management Credits:****Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FSHN 700 Cellular Nutrition Credits: 2 (2-0-0)****Course Description:** Essential nutrient requirements of cells and organs.**Prerequisite:** FSHN 550 and FSHN 551 or BC 403 and BMS 501.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 750 Nutritional Basis of Chronic Disease Credits: 2 (2-0-0)****Course Description:** Role of nutrition in the pathogenesis and prevention of specific chronic diseases.**Prerequisite:** FSHN 550 and FSHN 551.**Restriction:** Must be a: Graduate, Professional.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 792 Seminar-Research Topics in Nutrition Credit: 1 (0-0-1)****Course Description:** Ph.D. seminar in literature review.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**FSHN 795 Independent Study Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FSHN 796 Group Study Credit: 1 (0-0-1)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FSHN 799 Dissertation-Nutrition Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Food Technology (FTEC)

FTEC 110 Food-From Farm to Table Credits: 3 (2-0-1)**Course Description:** Commercial food processing, related to preservation and enhancing of food quality, safety, and value.**Prerequisite:** None.**Registration Information:** Must register for lecture and recitation.

Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online.

Terms Offered: Fall, Spring, Summer.**Grade Modes:** S/U within Student Option, Trad within Student Option.**Special Course Fee:** No.**FTEC 115 Cultural Aspects of Fermented Foods (GT-SS3) Credits: 3 (3-0-0)****Course Description:** Exploration of the relationships between culture, fermentation, science, and nutrition.**Prerequisite:** None.**Restriction:** Must be a: Undergraduate.**Registration Information:** Credit not allowed for both FTEC 115 and FTEC 180A1.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Traditional.**Special Course Fee:** No.**Additional Information:** Diversity, Equity, & Inclusion 1C, Human Behavior, Culture, or Social Frameworks (GT-SS3).**FTEC 210 Science of Food Fermentation Credits: 3 (2-2-0)****Course Description:** Science, history, culture, gastronomy, safety, health, and nutrition aspects of fermented foods and beverages.**Prerequisite:** (BZ 111 and BZ 110 or LIFE 102) and (CHEM 107 or CHEM 111) and (FSHN 150).**Registration Information:** Must register for lecture and laboratory.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** Yes.**FTEC 292 Introduction to Fermentation and Food Science Credit: 1 (0-0-1)****Course Description:** Introduction to a multidisciplinary, science-based study in fermentation and food science, and exploring career options and skill development through panel discussions by alumni and industry partners.**Prerequisite:** None.**Restriction:** Must be a: Undergraduate.**Registration Information:** Sections may be offered: Online.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**FTEC 350 Fermentation Microbiology Credits: 3 (3-0-0)****Course Description:** Integration of fermentation science, microbiology, and chemistry.**Prerequisite:** BC 351, may be taken concurrently and MIP 300.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.

FTEC 351 Fermentation Microbiology Laboratory Credits: 2 (0-4-0)

Course Description: Introduction to fermentation microbiological practices with relevance to production, quality control, and food safety in the food and beverage industry.

Prerequisite: FTEC 350, may be taken concurrently.

Restriction: Must be a: Undergraduate.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

FTEC 360 Brewing Processes Credits: 4 (3-0-1)

Course Description: Influence of raw material selection, malting, mashing, boiling, and fermentation on quality of beverages.

Prerequisite: CHEM 245 and FTEC 210, may be taken concurrently.

Restrictions: Must not be a: Freshman. Must be a: Undergraduate.

Registration Information: Must register for lecture and recitation. Required field trips.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 375 Introduction to Fermentation Unit Operations Credits: 4 (3-0-1)

Course Description: Principles related to processes and equipment design in fermented food and beverage industries. Survey of unit operations.

Prerequisite: (FTEC 360) and (PH 121 or PH 141).

Registration Information: Must register for lecture and recitation. Required field trips. Credit not allowed for both FTEC 375 and FTEC 480A2.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 400 Food Safety Credits: 3 (3-0-0)

Course Description: Safety of human food emphasizing safe production, processing, marketing, preparation, consumption, and regulations.

Prerequisite: CHEM 107 or CHEM 111.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

FTEC 422 Brewing Science I Credits: 5 (3-3-1)

Course Description: Application of scientific and technical aspects of malting, brewing, fermenting, finishing, packaging, and sensory evaluation of beer.

Prerequisite: FTEC 360.

Restriction: Must not be a: Freshman.

Registration Information: Must register for lecture, lab, and recitation. Required field trips. 21 years of age.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

FTEC 430 Sensory Evaluation of Food Products Credits: 2 (1-2-0)

Course Description: Application of sensory evaluation techniques to the study of foods.

Prerequisite: FSHN 301 or FTEC 210.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 440 Packaging Technology Credits: 2 (2-0-0)

Course Description: Science, technology, and management of packaging.

Prerequisite: FTEC 360.

Registration Information: Required field trips.

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 447 Food Chemistry Credits: 3 (3-0-0)

Course Description: Chemistry of food constituents as related to food quality and stability.

Prerequisite: CHEM 241 or CHEM 245 or CHEM 341 or CHEM 345.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 460 Brewing Science II Credits: 5 (3-3-1)

Course Description: Assessment, quantification, and control of all aspects of commercial beer production from malting through packaging and dispensing.

Prerequisite: FTEC 422.

Restriction: Must not be a: Freshman.

Registration Information: Must register for lecture, lab, and recitation. Required field trips. 21 years of age.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

FTEC 465 Food Production Operations Credits: 3 (3-0-0)

Course Description: Production, operation, and management techniques used in the food industry at company, local and international levels.

Prerequisite: FTEC 210.

Registration Information: Required field trips.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 478 Phytochemicals and Probiotics for Health Credits: 2 (2-0-0)

Course Description: Examination of phytochemistry and probiotic organisms important in human health.

Prerequisite: BC 351.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 487 Internship Credits: Var[1-15] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FTEC 492 Senior Seminar Fermentation and Food Science Credits: 2 (0-0-2)

Course Description: Capstone seminar in fermentation science and food science.

Prerequisite: FTEC 300 to 499 - at least 9 credits.

Restriction: Must be a: Undergraduate.

Registration Information: Senior standing.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FTEC 495 Independent Study Credits: Var[1-18] (0-0-0)**Course Description:****Prerequisite:** None.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FTEC 496A Group Study Fermentation Science: Current Issues Credit: 1 (0-0-1)****Course Description:** Explore emerging health issues associated with fermented foods and beverages.**Prerequisite:** FSHN 350 or FTEC 360.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**FTEC 496B Group Study Fermentation Science: Functional Foods in Health Credit: 1 (0-0-1)****Course Description:** Functional foods may be used to maintain overall good health and to prevent, manage, and/or treat disease. Apply nutrition science and fermentation science to learn how foods or food components are functional, their bioavailability, and the physiological effects related to human health.**Prerequisite:** FSHN 350 or FTEC 360.**Term Offered:** Fall.**Grade Mode:** Traditional.**Special Course Fee:** No.**FTEC 570 Food Product Development Credits: 2 (2-0-0)****Course Description:** Food product concepts, feasibility, and evaluation.**Prerequisite:** ANEQ 447 or FTEC 447.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**FTEC 572 Food Biotechnology Credits: 2 (2-0-0)****Course Description:** Interrelationships among microorganisms, food processing methods, advances in biotechnology and food quality, spoilage, shelf-life and safety.**Prerequisite:** MIP 334.**Term Offered:** Spring (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**FTEC 574 Current Issues in Food Safety Credits: 2 (2-0-0)****Course Description:** Current food safety issues from field to table; microbiological, consumer, processing, and agricultural issues.**Prerequisite:** None.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**FTEC 576 Cereal Science Credits: 2 (2-0-0)****Course Description:** Chemistry and functionality of cereal grain components and their importance in human nutrition.**Prerequisite:** ANEQ 447 or FTEC 447.**Term Offered:** Fall (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**FTEC 578 Phytochemicals and Probiotics for Health Credits: 3 (2-0-1)****Also Offered As:** HORT 578.**Course Description:** Examination of phytochemicals and probiotic organisms important in human health.**Prerequisite:** BC 351.**Registration Information:** Senior standing. Must register for lecture and recitation. Credit not allowed for both FTEC 578 and HORT 578.**Term Offered:** Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**FTEC 698 Research Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FTEC 699 Thesis Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**FTEC 799 Dissertation Credits: Var[1-18] (0-0-0)****Course Description:****Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.

Hospitality Management-RRM (RRM)

RRM 101 Hospitality and Event Industry Credits: 3 (3-0-0)**Course Description:** An overview of the hospitality, event, and tourism industry and careers available in the discipline; introduction to lodging, food services, event management, entertainment, recreation, cruise, tourism, and other segments of the hospitality, event, and tourism industry; current industry trends and hospitality management principles; interactions with industry professionals as guest speakers.**Prerequisite:** None.**Restriction:** Must not be a: Senior.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.**RRM 200 Hotel Operations Credits: 3 (3-0-0)****Course Description:** Front office and room management as related to resorts and hotels. Computer application, financial controls, employee and guest relations.**Prerequisite:** RRM 101.**Restriction:** Must not be a: Senior.**Terms Offered:** Fall, Spring.**Grade Mode:** Traditional.**Special Course Fee:** No.

RRM 255 Introduction to Culinary Travel Credits: 3 (3-0-0)

Course Description: Overview of the culinary travel and tourism industry. Defining components of culinary tourism, development of this growing sector, culinary attractions, festivals, and events. Introduction of marketing, promoting, and branding culinary tourism, current global trends in the culinary tourism industry, special topics, and the future of the industry.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 260 Introduction to Event Management Credits: 3 (3-0-0)

Course Description: Introduction to the multi-faceted world of event management and planning. Exploration of vital industry concepts and different types of events.

Prerequisite: None.

Registration Information: Required field trips. Credit not allowed for both RRM 260 and RRM 280A1.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 310 Food Service Systems-Operations Credits: 3 (3-0-0)

Course Description: Technical operations: menu planning, evaluation, recipe standardization, forecasting, food cost, sanitation, hospital food distribution systems.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 311 Food Service Systems-Production and Purchasing Credits: 3 (3-0-0)

Course Description: Quantity food production principles, purchasing specifications, market channels.

Prerequisite: RRM 310.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 312 Hospitality Human Resource Management Credits: 3 (2-0-1)

Course Description: Principles and practices of employee management in the hospitality industry including employment process, training, legal aspects, performance.

Prerequisite: RRM 310.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 315 Foodservice Systems Purchasing and Operations Credits: 3 (3-0-0)

Course Description: Exploration of the needs of the hospitality industry, including various systems utilized to successfully operate a foodservice organization. Analysis of interrelated areas of purchasing, production, and operations.

Prerequisite: RRM 101.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing. Credit not allowed for both RRM 310 and RRM 315. Credit not allowed for both RRM 311 and RRM 315.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 330 Alcohol Beverage Control and Management Credits: 2 (2-0-0)

Course Description: Classification, production, and service of controlled beverages; management of facilities and people; safe service training; financial controls.

Prerequisite: CHEM 103, may be taken concurrently or CHEM 107, may be taken concurrently or CHEM 111, may be taken concurrently.

Term Offered: Fall.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

RRM 340 Restaurant Operations Credits: 5 (0-10-0)

Course Description: Principles, practices, philosophies, systems for daily operation of casual or fine dining restaurant; focus on developing solutions to problems.

Prerequisite: RRM 101, may be taken concurrently.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 345 Food, Beverage, and Labor Cost Control Credits: 3 (3-0-0)

Course Description: Cost control for food, beverage, and labor in the hospitality industry.

Prerequisite: ACT 205 or ACT 210.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 350 Hospitality Marketing Credits: 3 (3-0-0)

Course Description: Operations marketing, including consumer behaviors, marketing strategies, and marketing plans in the hospitality industry.

Prerequisite: RRM 101.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 355 Culinary Tourism and Hospitality Management Credits: 3 (3-0-0)

Course Description: Understanding and implications of culinary tourism and hospitality management in a global context covering its history, cultural dimension, globalization and localization, marketing and branding, festivals and events, and sustainability issues.

Prerequisite: NRRT 270 or RRM 101.

Restriction: Must be a: Freshman.

Registration Information: Credit not allowed for both NRRT 380A1 and RRM 355.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 371A Study Abroad--Thailand: Hospitality and Tourism in Thailand Credits: 3 (0-0-3)

Course Description: International focus on hospitality and tourism in Thailand. Emphasis on hospitality consumers/travelers and the current trends.

Prerequisite: None.

Registration Information: Credit not allowed for both RRM 371A and RRM 382A.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 386 Practicum Credits: 3 (0-0-9)

Course Description: Practicum in Hospitality Management.

Prerequisite: RRM 101.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

RRM 400 Food and Society Credits: 3 (2-0-1)

Course Description: Exploration of the influence of food, dining, and nutrition on cultural aspects of the human experience.

Prerequisite: SOC 100 or PSY 100.

Restriction: Must not be a: Freshman.

Registration Information: Completion of AUCC 3D and AUCC 1C or AUCC 3E requirements. Must register for lecture and recitation.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 410 Food Safety Management Credits: 2 (2-0-0)

Course Description: Management and practical applications of safe food service including sanitation, food borne illness, worker hygiene, proper food temperatures and handling, hazard analysis critical control points, local/state/federal health rules and regulations. ServSafe® Manager Certification.

Prerequisite: (CHEM 103 or CHEM 107 or CHEM 111) and (RRM 310).

Registration Information: Junior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 450 Leadership in the Hospitality Industry Credits: 3 (3-0-0)

Course Description: Exploration of leadership skills, their relationship to ethics through self-analysis, and leading change in the hospitality industry.

Prerequisite: RRM 310 and MGT 305.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 460 Event Planning and Production Credits: 3 (2-0-1)

Course Description: Overview of event planning, management, and production. Exploration of key concepts critical to the success of events and current trends in the industry. Successful execution of an event production project from start to finish.

Prerequisite: NRRT 270 or RRM 101.

Registration Information: Junior standing. Must register for lecture and recitation. Required field trips. Credit not allowed for both RRM 460 and NRRT 460.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

RRM 487 Internship in Hospitality Management Credits: 5 (0-0-25)

Course Description: Supervised off-campus experience in food and beverage, lodging, or event planning focusing on management tasks and responsibilities.

Prerequisite: RRM 101 and RRM 310, may be taken concurrently.

Registration Information: Sophomore standing. Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

RRM 492 Seminar on Hospitality and Event Management Credits: 3 (0-0-3)

Course Description: Applying and synthesizing service knowledge, leadership, and management functions, planning and executing a capstone project, developing a career portfolio, and networking with industry professionals.

Prerequisite: MKT 305.

Restrictions: Must not be a: Freshman, Sophomore, Junior. Must be a: Undergraduate.

Registration Information: Senior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

RRM 500 Understanding Food Credits: 3 (3-0-0)

Course Description: Role of food in the creation of identity, as a driver of technology, and the prominent role food plays in the media.

Prerequisite: RRM 400.

Registration Information: RRM 400 or admission to GPIdea program in Dietetics. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 510 Foodservice Management Credits: 2 (1-0-1)

Course Description: Analysis of a wide variety of foodservice operations, including procurement, forecasting, operational design, and menu planning.

Prerequisite: NRRT 442 or NRRT 471.

Registration Information: Must register for lecture and recitation. This is a partial semester course. Offered as Mixed Face-to-Face only.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

RRM 520 Lodging Management Credits: 2 (1-0-1)
Course Description: Operating standards and practices essential to the profitability of a hotel, lodging, and accommodation enterprise.
Prerequisite: NRRT 442 or NRRT 471.
Registration Information: Must register for lecture and recitation. This is a partial-semester course. Offered as Mixed Face-to-Face only.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

RRM 686 Practicum-Food Service Management Credit: 1 (0-4-0)
Course Description: Food production, menu planning, nutritional analysis and food costing.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

Major in Fermentation and Food Science

The Fermentation and Food Science major emphasizes hands-on learning with courses in nutrition, chemistry, microbiology, and biochemistry. The curriculum prepares students for successful careers in the food and beverage industries in areas such as food scientists, product development, research, food inspection, sensory evaluation, quality assurance, and consumer education. A concentration must be selected from the following:

Concentrations

- Fermentation Science and Technology Concentration
- Food Science Concentration

Learn more about the Fermentation and Food Science major on the Department of Food Science and Human Nutrition website (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/b-s-in-fermentation-science-and-technology/>).

Effective Fall 2024

BZ 110	Principles of Animal Biology (GT-SC2)	3A	
BZ 111	Animal Biology Laboratory (GT-SC1)	3A	
Group B:			
LIFE 102	Attributes of Living Systems (GT-SC1)	3A	

Select one group from the following:

Major in Fermentation and Food Science, Fermentation Science and Technology Concentration

The Fermentation Science and Technology concentration blends a strong science base with courses in organic chemistry, microbiology, physics, biochemistry, food chemistry, and food safety with applied courses in brewing science. The curriculum prepares students for employment in the fermented food and beverage industry. The concentration provides a strong background for pursuing a graduate program.

Learning Objectives

Upon successful completion, students will be able to:

1. Integrate and apply information from basic nutrition, food sciences, and biological and chemical concepts/processes to understand the production and quality of foods; and comprehend approaches used to analyze the relationships among production of foods, nutrition, and food safety.
2. Demonstrate discipline-specific knowledge of the skills and competencies needed in food science and fermentation science and technology, including food microbiology, sensory evaluation, food chemistry, quality assessment, food production management, and the role of food in the promotion of health.
3. Analyze the production, service, and consumption of foods and beverages, including financial aspects, functional skills, and efficient management of resources with emphasis on safe service training and management.
4. Assess and apply the science, history, culture, safety, health, and nutrition dimensions of foods and beverages to the food industry.

Learn more about the Fermentation Science and Technology concentration on the Department of Food Science and Human Nutrition website (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/b-s-in-fermentation-science-and-technology/>).

Requirements

Group A:			
CHEM 107	Fundamentals of Chemistry (GT-SC2)	3A	
CHEM 108	Fundamentals of Chemistry Laboratory (GT-SC1)	3A	
Group B:			
CHEM 111	General Chemistry I (GT-SC2)	3A	
CHEM 112	General Chemistry Lab I (GT-SC1)	3A	
CHEM 113	General Chemistry II		
Arts and Humanities		3B	3
Diversity, Equity, and Inclusion		1C	3

Total Credits	28-31
----------------------	--------------

Sophomore

CHEM 245	Fundamentals of Organic Chemistry		4
CHEM 246	Fundamentals of Organic Chemistry Laboratory		1
FTEC 210	Science of Food Fermentation		3
FTEC 292	Introduction to Fermentation and Food Science		1
MIP 300	General Microbiology		3
MIP 302	General Microbiology Laboratory		2
PH 121	General Physics I (GT-SC1)	3A	5
SPCM 200	Public Speaking		3
Arts and Humanities		3B	3
Historical Perspectives		3D	3
Elective (see list below) ¹			3

Total Credits	31
----------------------	-----------

Junior

BC 351	Principles of Biochemistry		4
FTEC 350	Fermentation Microbiology	4B	3
FTEC 360	Brewing Processes	4A	4
FTEC 447	Food Chemistry		3
MIP 334	Food Microbiology		3
RRM 330	Alcohol Beverage Control and Management		2
Select one course from the following:			3
CO 300	Writing Arguments (GT-CO3)	2	
CO 301B	Writing in the Disciplines: Sciences (GT-CO3)	2	
CO 301C	Writing in the Disciplines: Social Sciences (GT-CO3)	2	
JTC 300	Strategic Writing and Communication (GT-CO3)	2	
Select one course from the following:			3
STAT 201	General Statistics (GT-MA1)	1B	
STAT 204	Statistics With Business Applications (GT-MA1)	1B	
Elective (See list below) ¹			3

Total Credits	28
----------------------	-----------

Senior

FTEC 400	Food Safety		3
FTEC 422	Brewing Science I		5
FTEC 460	Brewing Science II		5
FTEC 465	Food Production Operations		3
FTEC 492 ²	Senior Seminar Fermentation and Food Science	4C	4

Major in Fermentation and Food Science, Food Science Concentration

The Food Science concentration blends a strong science base with courses in food chemistry, food safety, food microbiology, and nutrition. The curriculum prepares students for employment in the food industry or in government in areas such as quality assurance, product development, research, food inspection, sensory evaluation, and consumer education. The concentration provides a strong background for pursuing a graduate program.

Learning Objectives

Upon successful completion, students will be able to:

1. Integrate and apply information from basic nutrition, food sciences, and biological and chemical concepts/processes to understand the production and quality of foods; and comprehend approaches used to analyze the relationships among production of foods, nutrition, and food safety.

2. Demonstrate discipline-specific knowledge of the skills and competencies needed in food science and fermentation science and technology, including food microbiology, sensory evaluation, food chemistry, quality assessment, food production management, and the role of food in the promotion of health.
3. Analyze the production, service, and consumption of foods and beverages, including financial aspects, functional skills, and efficient management of resources with emphasis on safe service training and management.
4. Assess and apply the science, history, culture, safety, health, and nutrition dimensions of foods and beverages to the food industry.

Learn more about the Food Science concentration on the Department of Food Science and Human Nutrition website (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/b-s-in-fermentation-science-and-technology/>).

Minor in Fermentation and Food Science

The Minor in Fermentation and Food Science blends a science base with applied courses. The minor prepares students for employment in the food and beverage industry or in government in areas as quality assurance, product development, research, food inspection, sensory evaluation, and consumer education.

Learning Objectives

Students will:

1. Integrate and apply information from basic nutrition, food sciences, and biological and chemical concepts/processes to understand the production and quality of foods. Comprehend the approaches used to analyze relationships among food production, nutrition, and food safety.
2. Demonstrate discipline-specific knowledge of the skills and competencies needed in food science and fermentation science and technology, including food microbiology, sensory evaluation, food chemistry, quality assessment, food production management, and the role of food in the promotion of health.
3. Analyze the production, service, and consumption of foods and beverages, including financial aspects, functional skills, and efficient management of resources (with emphasis on safe service training and management).
4. Assess and apply the science, history, culture, safety, health, and nutrition dimensions of foods and beverages to the food industry.

[Learn more about the Minor in Fermentation and Food Science on the Department of Food Science and Human Nutrition website.](#)

Requirements Effective Fall 2024

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Required Courses:		
FSHN 150	Survey of Human Nutrition	3
FTEC 210	Science of Food Fermentation	3
Select a minimum of 15 additional credits:		15
FTEC 110	Food-From Farm to Table	
FTEC 292	Introduction to Fermentation and Food Science	
FTEC 350	Fermentation Microbiology	
FTEC 351	Fermentation Microbiology Laboratory	
FTEC 360	Brewing Processes	
FTEC 375	Introduction to Fermentation Unit Operations	
FTEC 400	Food Safety	
FTEC 422	Brewing Science I	
FTEC 430	Sensory Evaluation of Food Products	
FTEC 447	Food Chemistry	
FTEC 460	Brewing Science II	
FTEC 465	Food Production Operations	
FTEC 487	Internship	
FTEC 495	Independent Study	
FTEC 496A	Group Study Fermentation Science: Current Issues	
FTEC 496B	Group Study Fermentation Science: Functional Foods in Health	
Program Total Credits:		21

Major in Hospitality and Event Management

The Hospitality and Event Management major combines courses in food service, lodging, event planning, entertainment, and entrepreneurship to give students a strong skill set for entry management positions in

hospitality professions. Elective credits allow students to take courses in areas of interest to enhance their education. The curriculum strongly emphasizes management and leadership skills required for success in the hospitality industry.

The hospitality industry is the second largest employer in Colorado and the United States. The Hospitality and Event Management program maintains strong ties with the food service, lodging, and event planning industries locally, statewide, and nationally to connect graduates with a wide variety of employment opportunities in the expanding commercial and non-commercial segments of the hospitality management industry. The department oversees practicum experiences and internships in the industry and aids in job placement upon graduation. Students have the option to complete a practicum in The Aspen Grille, CSU's campus restaurant, where they have the opportunity to learn in a variety of roles including menu planning, food preparation, service, and management.

Learning Objectives

Students will demonstrate:

1. Conceptual understanding and systems approach to the business of hospitality management.
2. Ability to make logical decisions by organizing, analyzing, interpreting information, and formulating rational solutions in a hospitality business environment.
3. Knowledge and skills to successfully manage a hospitality operation, including allocating resources such as time, labor, and material inputs to achieve customer satisfaction.

4. Understanding of the managerial functions of planning, organizing, directing, staffing, controlling, and budgeting in various hospitality environments.
5. Behaviors of effective, ethical leaders by demonstrating the fundamental principles of leadership in a hospitality business environment.

Potential Occupations

The hospitality industry encompasses careers in restaurants, hotels, resorts, spas, event venues, catering, breweries and wineries, bed and breakfast inns, ski areas, business and industry dining venues, hospitals, correctional facilities, and military facilities in the United States and around the world.

Examples of career positions include but are not limited to restaurant managers, caterers, event planners, wedding planners, banquet managers, hotel sales and marketing, hotel guest operations, hospitality real estate acquisition, hotel managers, food writing and media, brewery hospitality operations, commercial wine and liquor sales, chefs, purchasing agents, conference coordinators, guest service agents, tourist attraction managers, spa operations managers, housekeeping managers, timeshare sales and marketing, bed and breakfast owner/managers, travel agents, school food service managers, hospitality food and equipment sales representatives, health inspectors, hospital food service managers, food importers, and country club managers.

[Learn more about the Hospitality and Event Management major on the Department of Food Science and Human Nutrition website.](#)

Major in Nutrition Science

Public interest regarding the importance of nutrition to health and fitness is at a high level and increasing. The Major in Nutrition Science

involves integration of the biological, medical, and social sciences and their application to the improvement of human nutrition and fitness,

prevention of chronic disease, and improved quality of life. The major is both science- and human service-oriented.

Nutrition Science graduates gain a scientific understanding of the principles of human nutrition, the role of nutrition in the prevention and management of disease, the delivery of nutritional care, and the principles of nutrition assessment and food preparation. Additionally, graduates know the techniques of interviewing, counseling, information management, and effective communication.

Students must select from three concentrations:

Concentrations

- Dietetics and Nutrition Management Concentration
- Pre-Health Nutrition Concentration
- Sports Nutrition and Wellness Concentration

Learning Objectives

Students will demonstrate:

1. Ability to identify nutrition-related public health problems, integrate information from basic nutrition sciences, critically analyze data, and develop appropriate conclusions.
2. Discipline-specific knowledge, skills, and competencies needed in the field of dietetics and nutrition. Examples include knowledge of medical nutrition therapy; nutrition and metabolism; program planning, monitoring, and evaluation; management in school nutrition programs and long-term care; food safety; and the role of food in the promotion of health.
3. Competent application of nutrition knowledge and skills in a work environment, including an ability to calculate and/or define diets for various health/disease conditions; screen individuals for nutritional risk; determine nutrient requirements across the lifespan, and calculate enteral and parental nutrition formulations; determine costs of services/operations, interpret financial data, and prepare a budget.

See the department's website for the Dietetics and Nutrition Management concentration (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/b-s-in-nutrition-and-food-science/dietetics-and-nutrition-management-concentration/>) for specific learning outcomes for the ACEND Accredited Dietetics Program.

It is important to understand that to become a registered dietitian nutritionist, one must complete an 8-12 month internship **AFTER** completion of the degree at CSU. Completing this concentration alone and earning the B.S. degree is not sufficient to become a dietitian. Also, as of 2024, to become a registered dietitian nutritionist, one must have a master's degree.

Potential Occupations

Participation in community outreach, internships, volunteer activities, or cooperative education opportunities is highly recommended to enhance career planning, skills, and development. Graduates who go on to advanced studies can attain more responsible leadership positions with the possibility of rising to top professional levels.

Some examples of career opportunities include, but are not limited to: dietitian or nutritionist in health care, hospitals, long-term care, schools, state or county health agencies, health clubs, corporate wellness

programs, grocery stores/food chains, or private practice; community nutritionist; biomedical scientist; restaurant manager; caterer; quality assurance specialist; food scientist; food inspector; food technologist; food plant manager; food service manager in hospitals, schools, or long-term care. As of March 2020, the average salary for registered dietitians is \$51,291, and the salary range is \$39,000-67,000.

Students interested in *teaching* nutrition and/or food science content at the secondary education level should explore the Family and Consumer Sciences Education major.

Learn more about the Nutrition Science major on the Department of Food Science and Human Nutrition website (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/b-s-in-nutrition-and-food-science/>).

Major in Nutrition Science, Dietetics and Nutrition Management Concentration

The concentration in dietetics and nutrition management in the Nutrition Science major is designed to provide students with the knowledge and skills to work in the health industry as a registered dietitian nutritionist (RDN). The program emphasizes hands-on and real-world learning experiences through practicums and laboratories. Areas of focus include clinical dietetics, counseling, food service, and sports nutrition.

It is important to understand that to become a registered dietitian nutritionist, one must complete an 8-12 month internship **AFTER** completion of the degree at CSU. Completing this concentration alone and earning the B.S. degree is not sufficient to become a dietitian. As of 2024, one must have a master's degree to become a registered dietitian nutritionist.

Learning Objectives

1. Scientific and Evidence Base of Practice: Integration of scientific information and translation of research into practice.
2. Professional Practice Expectations: Beliefs, values, attitudes, and behaviors for the nutrition and dietetics practitioner level of practice.
3. Clinical and Client Services: Development and delivery of information, products, and services to individuals, groups, and populations.
4. Practice Management and Use of Resources: Strategic application of principles of management and systems in the provision of services to individuals and organizations.
5. Leadership and Career Management: Skills, strengths, knowledge, and experience relevant to leadership potential and professional growth for the nutrition and dietetics practitioner.

See the department's website for the Dietetics and Nutrition Management concentration (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/b-s-in-nutrition-and-food-science/dietetics-and-nutrition-management-concentration/>) for specific learning outcomes for the ACEND Accredited Dietetics Program.

Major in Nutrition Science, Pre-Health Nutrition Concentration

The Pre-Health Nutrition Concentration is specifically designed for students planning careers in medicine and health science that require an advanced degree, including medical doctor, doctor of osteopathy, physician assistant, nursing, dentistry, physical therapist, pharmacist, anesthesiologist assistant, or research scientist. The program provides a strong science background in physiology, biology, chemistry, and biochemistry providing students flexibility to tailor their courses toward their interests and intended career. The program includes strong training in nutritional science lacking in many advanced health degree programs such as medical school. This training, combined with strong experiential learning opportunities, helps to best prepare students for their careers.

1. Demonstrate advanced knowledge of scientific principles relating to biochemistry, physiology, chemistry, and nutrition science.
2. Integrate information from scientific sources, critically analyze and critique scientific information, and develop appropriate conclusions.
3. Apply knowledge to issues relating to human health and disease.

Learn more about the Pre-Health Nutrition Concentration on the Department of Food Science and Human Nutrition website (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/b-s-in-nutrition-and-food-science/>).

Program Total Credits:			120

¹ Students should consult with an advisor before selecting electives to ensure necessary requirements are met for their intended post-graduate plans.

² Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major in Nutrition Science, Sports Nutrition and Wellness Concentration

The sports nutrition and wellness concentration prepares students for employment as nutrition and sports counselors as well as personal lifestyle coaches in health care settings, commercial establishments, public health settings, or private practice. The curriculum blends a strong science base with course work in exercise science, nutrition, teaching, and counseling. The concentration provides an excellent background for graduate study.

Learning Objectives

Upon successful completion of this concentration, students will be able to:

1. Demonstrate knowledge of nutrition principles, evaluate and communicate nutrition information to clients.
2. Demonstrate a basic knowledge of wellness and factors which influence health.
3. Teach and design nutrition and activity programs for individuals across the lifespan.

Learn more about the Sports Nutrition and Wellness Concentration on the Department of Food Science and Human Nutrition website (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/b-s-in-nutrition-and-food-science/>).

¹ This program is accredited by ACEND and prepares students to be eligible to apply for dietetic internships. Application to the program is made in the summer preceding the last four semesters of the program.

- ² Select one course from the list in category 3D and two courses from category 3B of the All-University Core Curriculum (AUCC), for a total of 9 credits.
- ³ Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major Completion Map

Distinctive Requirements for Degree Program:

Admission to the Accredited Didactic Program requires a minimum 3.000 GPA and grades of B or better in LIFE 102, CHEM 107 and CHEM 108, or CHEM 111, CHEM 112, and CHEM 113; CHEM 245, CHEM 246, BMS 300, BMS 302, FSHN 150, FSHN 300, and FSHN 301. Students must also have 2.800 cumulative GPA by 60 credits to remain in Dietetics.

HDFS 311	Adolescent and Emerging Adult Development		3
Electives ²			0-2
Total Credits			27-29
Program Total Credits:			120

¹ Select one course from the lists of courses in category 3D and two courses from category 3B of the All-University Core Curriculum (AUCC), for a total of 12 credits. Only 3 of the 6 credits required for Arts and Humanities may come from intermediate (L*** 200 and L*** 201) foreign language courses.

² Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Program Total Credits:			120

¹ Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Students may complete this major/option at 120 credits by selecting CHEM 107, CHEM 108, and BUS 150 in the freshman year. Students wishing to complete the Gerontology Interdisciplinary Minor should consult with advisors about course selection. Completion of the major/option and the minor will exceed the 120 credit total.

Minor in Nutrition

The minor in Nutrition provides a rigorous and flexible curriculum for students interested in various aspects of nutrition. The minor can enhance students' understanding of nutrition and broaden career opportunities for students in any discipline. Flexibility of the minor allows students to tailor the curriculum toward numerous aspects of nutrition, including sports nutrition, clinical nutrition, nutrition and health equity, community and public health nutrition, childhood nutrition, and nutrition and aging.

Learning Objectives

Students will:

1. Demonstrate an understanding of the structures, digestion, and metabolism of the macro- and micro-nutrients.
2. Demonstrate skills related to evaluating and prescribing nutritional recommendations for individuals.
3. Integrate information from nutritional sciences and apply that information to clinically relevant nutrition disorders and diseases.
4. Describe their understanding of nutritional needs throughout the lifecycle and its importance to optimize human health.

[Learn more about the Minor in Nutrition on the Department of Food Science and Human Nutrition website.](#)

Requirements Effective Fall 2023

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Required Courses:		
BMS 300 or HES 300	Principles of Human Physiology Physiology for Clinical Health Professions	4
FSHN 150	Survey of Human Nutrition	3
FSHN 350	Human Nutrition	3
FSHN 459	Nutrition in the Life Cycle	3
Select a minimum of 9 credits from the following:		9
FSHN 340	Food as Preventive Medicine	
FSHN 360	Nutrition Assessment	
FSHN 428	Nutrition Teaching and Counseling Techniques	
FSHN 450	Medical Nutrition Therapy	
FSHN 451	Community Nutrition	
FSHN 455	Food Systems—Impact on Health/Food Security	
FSHN 461	International Nutrition and Health	
FSHN 470	Integrative Nutrition and Metabolism	
Program Total Credits:		22

Graduate Certificate in Nutrition Sciences

This program is no longer accepting applications.

Requirements Effective Fall 2017

Additional coursework may be required due to prerequisites.

Code	Title	Credits
FSHN 530	Principles of Nutrition Science & Metabolism	3
FSHN 531	Diet, Nutrition, and Chronic Disease	3
FSHN 532	Emerging Issues in Nutrition	3
Program Total Credits:		9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Master of Science in Food Science and Nutrition, Dietetics Option (online)

No new students are being admitted into this program of study.

Requirements Effective Fall 2013

Code	Title	Credits
Required Core		
EDRM 600 or FSHN 501	Introduction to Research Methods Research Methods in Dietetics	3
Select one from the following:		3
EDRM 606	Principles: Quantitative Data Analysis Advanced Statistics ¹	
FSHN 503	Issues in Dietetics Practice	3
FSHN 504	Micronutrients	3
FSHN 540	Nutrigenomics and Advanced Lipid Metabolism	3
FSHN 696C	Group Study: Dietetics	1
Selected Courses		
Select 15 credits from the following:		15
FSHN 505	Nutrition and Physical Activity in Aging	
FSHN 506	Nutrition and Human Performance	
FSHN 507	Nutrition Education in the Community	
FSHN 508	International Nutrition and World Hunger

FSHN 520	Advanced Medical Nutrition Therapy	
FTEC 578/ HORT 578	Phytochemicals and Probiotics for Health	
FSHN 698A	Research: Dietetics	6
Program Total Credits:		37

A minimum of 37 credits are required to complete this program.

¹ 500-level or higher statistics course approved by advisor and graduate committee.

Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees in the Graduate and Professional Bulletin.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should

consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Master of Science in Food Science and Nutrition, Food Science Specialization

The MS degree offers a core curriculum that emphasizes understanding the effects of food and nutrients on the human body. The program includes aspects of professional development, critical thinking, and scientific communication. Electives associated with each of the specializations help prepare students for further studies in doctoral or

professional degrees, as well as careers in government agencies, industry, and professional practice. A minimum of 35 credits is required for the M.S. degree.

The Food Science Specialization includes elective studies oriented toward a better understanding of how food products are designed, processed, and preserved, food safety considerations, as well as how food components interact with each other and the human body for improved health.

Learn more about the Master's in Food Science and Nutrition, Food Science Specialization on the Department of Food Science and Human Nutrition website. (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/m-s-in-food-science-and-nutrition/>)

[Students interested in graduate work should refer to the Graduate and Professional Bulletin.](#)

Learning Objectives

Upon successful completion, students will be able to:

1. Conduct research meeting the standards of the discipline. This includes identifying an appropriate research problem, critically reviewing the literature, designing and implementing appropriate research protocols, analyzing data, and arriving at appropriate conclusions and implications. Students will be able to communicate the design, methodology, and results of their research both orally and in writing.
2. Demonstrate mastery of fundamental food science principles while incorporating other core areas, including statistics, biochemistry, physiology, food safety, and microbiology.
3. Competently apply food science knowledge and skills in a work environment.
4. Effectively disseminate research findings.

Plan A Effective Fall 2021

Code	Title	Credits
Required Courses

Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees in the Graduate and Professional Bulletin.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/ Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/ dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Master of Science in Food Science and Nutrition, Nutrition Specialization

The MS degree offers a core curriculum that emphasizes understanding the effects of food and nutrients on the human body. The program includes aspects of professional development, critical thinking, and scientific communication. Electives associated with each of the specializations help prepare students for further studies in doctoral or professional degrees, as well as careers in government agencies, industry, and professional practice. A minimum of 35 credits is required for the M.S. degree.

The Nutrition Specialization includes work in advanced nutrition science and nutrient metabolism, recent developments in human nutrition, and research methods and approaches. The specialization offers flexibility across molecular, community, and clinical nutrition and is suitable for students seeking advanced degrees or professional careers. For students planning to become registered dietitian nutritionists, the MS Program offers courses needed for didactic training in dietetics and could include an added competitive coordinated master's program including dietetic internship (Coordinated MS Program in Dietetics), accredited by the Accreditation Council for Education in Nutrition and Dietetics.

Learn more about the Master's in Food Science and Nutrition, Nutrition Specialization on the Department of Food Science and Human Nutrition website (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/m-s-in-food-science-and-nutrition/>).

Students interested in graduate work should refer to the Graduate and Professional Bulletin.

Learning Objectives

Upon successful completion, students will be able to:

1. Conduct research meeting the standards of the discipline. This includes identifying an appropriate research problem, critically reviewing the literature, designing and implementing appropriate research protocols, analyzing data, and arriving at appropriate conclusions and implications. Students will be able to communicate the design, methodology, and results of their research both orally and in writing.
2. Demonstrate mastery of fundamental nutrition science/applied science principles while incorporating other core areas, including statistics, biochemistry, physiology, food safety, microbiology, and education.
3. Competently apply nutrition knowledge and skills in a work environment.
4. Effectively disseminate research findings.

Plan A Effective Fall 2021

13. Submit a signed Thesis/ Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/ dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Ph.D. in Food Science and Nutrition, Food Science Specialization

The Ph.D. in Food Science and Nutrition, Food Science Specialization includes advanced studies oriented toward food science, food chemistry, food microbiology, food preservation and safety, and health properties of foods and food components.

Students entering this Ph.D. program will be directed by a research faculty who serves as their primary advisor, and should bring in 30 credits from a Master's program in a related field. The curriculum represents a total of 42 credits beyond the Master's level. If a prospective student has fewer than 30 credits toward the program, an individualized curriculum plan will be developed by working with a primary advisor to cover possible deficiencies.

Learn more about the Ph.D. in Food Science and Nutrition, Food Science Specialization on the Department of Food Science and Human Nutrition website. (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/ph-d-in-food-science-and-nutrition/>)

VS 562	Applied Data Analysis	3

Most students entering this Ph.D. program will bring in 30 credits from a Master's program in a related field. The above curriculum represents a total of 42 credits beyond the Master's level. If a prospective student has less than 30 credits toward the program, an individualized curriculum plan will be developed by working with a primary advisor to cover possible deficiencies.

Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees in the Graduate and Professional Bulletin.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website

13. Submit a signed Thesis/Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Ph.D. in Food Science and Nutrition, Nutrition Specialization

The Ph.D. in Food Science and Nutrition, Nutrition Specialization includes coursework in advanced nutrition sciences and nutrient metabolism, and depending on the research area will include supporting basic and applied sciences, and the communication of nutrition principles in the community. Ultimately, this area focuses on the relationship between nutrition and health, at the cellular, organismic, or community level, depending on the research opportunities provided by the faculty advisor(s).

Most students entering this Ph.D. program will bring in 30 credits from a master's program in a related field. The curriculum represents a total of 42 credits beyond the master's level. If a prospective student has fewer than 30 credits toward the program, an individualized curriculum plan is developed by working with a primary advisor to cover possible deficiencies.

Learn more about the Ph.D. in Food Science and Nutrition, Nutrition Specialization on the Department of Food Science and Human Nutrition website. (<https://www.chhs.colostate.edu/fshn/programs-and-degrees/ph-d-in-food-science-and-nutrition/>)

Requirements Effective Fall 2021

Code	Title	Credits
Required Courses		
FSHN 550	Advanced Nutritional Science I	3
FSHN 551	Advanced Nutritional Science II	3
FSHN 600 or GRAD 544	Responsible Conduct of Research Ethical Conduct of Research	1
FSHN 640	Selected Topics in Nutritional Epidemiology	2
FSHN 692	Seminar	2
Select one course from the following:		2
FSHN 650A	Recent Developments in Human Nutrition: Protein, Vitamins, and Minerals	6-8
FSHN 650B	Recent Developments in Human Nutrition: Carbohydrates, Lipids, and Energy	
FSHN 650C	Recent Developments in Human Nutrition: Genomic, Proteomics, and Metabolomics	
Statistics/Research Methods – Select two courses from the following:		
EDRM 600	Introduction to Research Methods (OR)	
EDRM 606	Principles: Quantitative Data Analysis	

EDRM 704	Qualitative Research	
EDRM 705	Qualitative Data Analysis	
PSY 652	Methods of Research in Psychology I	
PSY 653	Methods of Research in Psychology II	
STAR 511	Design and Data Analysis for Researchers I	
STAR 512	Design and Data Analysis for Researchers II	
Dissertation (minimum 10 credits)		
FSHN 799	Dissertation-Nutrition	10
Electives		11-13
Select a minimum of 11 credits not taken elsewhere in the program in consultation with the graduate committee (see example Elective Courses list below)		
Master's Degree Credit (a maximum of 30 credits may be accepted from a master's degree)		30

Example Elective Courses

Code	Title	Credits
BC 401	Comprehensive Biochemistry I	3
BC 403	Comprehensive Biochemistry II	3
BC 465	Molecular Regulation of Cell Function	3
BC 517	Metabolism	2
BC 565	Molecular Regulation of Cell Function	4
BC 663	Gene Expression	2
BIOM 526/ECE 526	Biological Physics	3
BMS 430	Endocrinology	3
BMS 500	Mammalian Physiology I	4
BMS 501	Mammalian Physiology II	4
BMS 505/NB 505	Neuronal Circuits, Systems and Behavior	3
BMS 610A	Managing a Career in Science: Survival Skills for Coursework (M.S.)	1
BMS 631	Mechanisms of Hormone Action	2
BMS 632	Metabolic Endocrinology	2
BZ 455	Human Heredity and Birth Defects	3
EDRM 600	Introduction to Research Methods	3
EDRM 606	Principles: Quantitative Data Analysis	3
EDRM 704	Qualitative Research	3
EDRM 705	Qualitative Data Analysis	3
ERHS 542	Biostatistical Methods for Qualitative Data	3
ERHS 544/STAT 544	Biostatistical Methods for Quantitative Data	3
ERHS 567	Cell and Molecular Toxicology Techniques	3
ERHS 611	Cancer Genetics	2
FSHN 445/HDFS 445	Early Childhood Health, Safety, and Nutrition	3
FSHN 496A	Group Study in Dietetics and Nutrition: Energy, Weight Management	1
FSHN 496B	Group Study in Dietetics and Nutrition: Sustainable Food Issues	1
FSHN 496C	Group Study in Dietetics and Nutrition: Nutrition and Chronic Disease	1
FSHN 496D	Group Study in Dietetics and Nutrition: Nutrition for Athletes	1

FSHN 496E	Group Study in Dietetics and Nutrition: Food Safety	1
FSHN 496F	Group Study in Dietetics and Nutrition: Service Marketing	1
FSHN 496G	Group Study in Dietetics and Nutrition: Food and Consumer Issues	1
FSHN 496H	Group Study in Dietetics and Nutrition: Public Health and Policy	1
FSHN 496I	Group Study in Dietetics and Nutrition: Special Topics	1
FSHN 500	Food Systems, Nutrition, and Food Security	2
FSHN 520	Advanced Medical Nutrition Therapy	3
FSHN 525	Nutrition Education Theories and Practice	2
FSHN 540	Nutrigenomics and Advanced Lipid Metabolism	3
FSHN 561	International Nutrition Studies	2
FSHN 620	Community Nutrition Planning and Evaluation	3
FSHN 628	Advanced Nutrition Counseling Techniques	2
FSHN 630/HES 630	Integrative Exercise and Nutrition Metabolism	3
FSHN 650A	Recent Developments in Human Nutrition: Protein, Vitamins, and Minerals	2
FSHN 650B	Recent Developments in Human Nutrition: Carbohydrates, Lipids, and Energy	2
FSHN 650C	Recent Developments in Human Nutrition: Genomic, Proteomics, and Metabolomics	2
FSHN 660	Women's Issues in Lifecycle Nutrition	2
FSHN 686A	Practicum: Counseling	1-3
FSHN 686B	Practicum: Nutrition	1-3
FSHN 695B	Independent Study: Nutrition	1-3
FSHN 700	Cellular Nutrition	2
FSHN 750	Nutritional Basis of Chronic Disease	2
FSHN 792	Seminar-Research Topics in Nutrition	1
FSHN 795	Independent Study	1-4
FTEC 570	Food Product Development	2
FTEC 578/HORT 578	Phytochemicals and Probiotics for Health	3
GRAD 792	Seminar on College Teaching	2
HDFS 608	Program Planning and Implementation	3
HES 603	Advanced Topics in Exercise Physiology	3
HES 610	Exercise Bioenergetics	3
JTC 614	Public Communication Campaigns	3
JTC 630	Health Communication	3
JTC 661	Information Design	3
JTC 662	Communicating Science and Technology	3
MIP 540	Biosafety in Research Laboratories	2
MIP 555	Principles and Mechanisms of Disease	3
MIP 612	Applied Immunology	3
MIP 614	Medical Microbiology	3
PSY 652	Methods of Research in Psychology I	4
PSY 653	Methods of Research in Psychology II	4
STAR 511	Design and Data Analysis for Researchers I	4

STAR 512	Design and Data Analysis for Researchers II	4
VS 562	Applied Data Analysis	3

Professor Barry Braun, Department Head

The Department of Health and Exercise Science provides undergraduate and graduate education as well as serving as the home for the Human Performance Clinical Research Laboratory, Heart Disease Prevention Program, Adult Fitness Program, and Fit Cancer program.

The HES **mission** is to create an environment of exceptional teaching and learning, outstanding research and scholarship, and engagement that provides high value to the community. We are committed to our **goal** of producing nationally and internationally recognized research programs and graduates focused on helping people protect, maintain, and improve their health and quality of life throughout the lifespan.

The Department of Health and Exercise Science provides the following academic program specializations:

- Health and Exercise Science Major (B.S.) with concentrations in Exercise Science and Health Promotion
- Master's degree in Health and Exercise Science (M.S.)
- Doctorate in Human Bioenergetics (Ph.D.)

Undergraduate Majors

- Major in Health and Exercise Science
 - Exercise Science Concentration
 - Health Promotion Concentration

Minor

- Minor in Health and Exercise Science

Certificate

- Certificate in Virtual Wellness Programming

Graduate

Graduate Programs in Health and Exercise Science

The department offers two graduate degrees: the Master of Science in Health and Exercise Science, and the Doctor of Philosophy in Human Bioenergetics. Students interested in a Master's degree in Public Health with a focus in Health and Exercise Science can refer to the School of Public Health (<http://publichealth.colostate.edu/>). Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Health and Exercise Science (<http://hes.chhs.colostate.edu>).

Master's Program

- Master of Science in Health and Exercise Science, Plan A

Ph.D.

- Ph.D. in Human Bioenergetics

Courses

Health and Exercise Science (HES)

HES 102C Physical Education Activities: Special Activities Credit: 1 (0-3-0)

Course Description: Physical activities for the development of personal motor skills.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HES 102G Physical Education Activities: Athletics Credit: 1 (0-3-0)

Course Description: Physical activities for the development of personal motor skills.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HES 120 Introduction to Health and Exercise Science Credit: 1 (1-0-0)

Course Description: Health and Exercise Science major, career options, campus resources, tools for academic success, various health-related topics.

Prerequisite: None.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 127 Success in Health and Exercise Science Credit: 1 (1-0-0)

Course Description: Exploring the major to support a successful transition to the university and department through individual and small group mentoring as well as an exploration of resources pertaining to personal, academic, and career success.

Prerequisite: None.

Restrictions: Must not be a: Sophomore, Junior, Senior. Must be a: Undergraduate.

Registration Information: Written consent of advisor. Health and Exercise Science majors only. Credit not allowed for both HES 127 and HES 180A1.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 145 Health and Wellness for Everyone (GT-SS3) Credits: 3 (3-0-0)

Course Description: A holistic approach to health and wellness. Learn how health behaviors impact current and future health, fitness, and wellness and how these behaviors can alter the risks of chronic disease development and the "healthspan." Discuss the social determinants of health and disparities or injustices among groups (e.g., ethnicity, race, gender, sexual orientation, socioeconomic status, age, etc.) to optimize health for everyone.

Prerequisite: None.

Restriction: Must be a: Undergraduate.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Diversity, Equity, & Inclusion 1C, Human Behavior, Culture, or Social Frameworks (GT-SS3).

HES 202 Introduction to Exercise Physiology Credits: 3 (3-0-0)

Course Description: Introduction to how cells, tissues and organs function in human health, disease and in response to exercise. Emphasis on the practical application of this material to contemporary issues in health and exercise science.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 207 Anatomical Kinesiology Credits: 4 (3-0-1)

Course Description: Human musculoskeletal anatomy and its application to movement. Also includes selected principles of biomechanics and physiology related to the study of kinesiology.

Prerequisite: None.

Registration Information: Must register for lecture and recitation.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 232 Techniques of Teaching Group Exercise Credit: 1 (0-2-0)

Course Description: Learn practical skills for the instruction of various group fitness activities. Emphasis is on physiological principles related to group fitness, as well as choreography, safety, and modifications for diverse populations and current trends.

Prerequisite: HES 207.

Registration Information: Credit allowed for only one of the following: HES 232, HES 232B, or HES 332H.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 300 Physiology for Clinical Health Professions Credits: 4 (4-0-0)

Course Description: Integrative understanding of human physiology with a systems based approach that includes examination of the effect of chronic disease on the physiological function of organ systems. Designed for students interested in pursuing careers working with clinical populations.

Prerequisite: (BZ 101 or BZ 110 or LIFE 102) and (CHEM 103 or CHEM 107 or CHEM 111).

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 303 Biomechanics and Neurophysiology Credits: 3 (3-0-0)

Course Description: Study and elementary analysis of human motion based on anatomical, neurophysiological, and mechanical principles.

Prerequisite: HES 207.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 307 Biomechanical Principles of Human Movement Credits: 3 (3-0-0)

Course Description: Study and analysis of human motion based on anatomical and mechanical principles.

Prerequisite: (BMS 301 or HES 207) and (PH 121 or PH 141).

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 309 Methods of Coaching Credits: 2 (2-0-0)

Course Description: Preparation to coach in an interscholastic athletic situation.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 319 Neuromuscular Aspects of Human Movement Credits: 4 (3-2-0)

Course Description: Neuromuscular anatomy and physiology of human movement. Applied/integrated topics: aging, muscle fatigue, training, force control, and neuromuscular disease.

Prerequisite: (FSHN 150 with a minimum grade of C and HES 145 with a minimum grade of C and HES 207 with a minimum grade of C) and (BMS 300 with a minimum grade of C or HES 300 with a minimum grade of C).

Registration Information: Must register for lecture and laboratory. Must have C or higher and must have earned a cumulative 2.500 GPA in: FSHN 150, HES 145, HES 207 and HES 300 (or BMS 300).

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 340 Exercise Prescription Credits: 3 (2-2-0)

Course Description: Theory and practice of exercise prescription for healthy individuals, cardiac patients, and other special populations according to the American College of Sports Medicine (ACSM) guidelines. Includes the practice of proper lifting and spotting techniques, manipulation of training variables, and design of safe, effective, and efficient individual workout programs.

Prerequisite: (FSHN 150 with a minimum grade of C and HES 145 with a minimum grade of C and HES 207 with a minimum grade of C) and (BMS 300 with a minimum grade of C or HES 300 with a minimum grade of C).

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 345 Population Health and Disease Prevention Credits: 3 (3-0-0)

Course Description: Causes of disease throughout the lifespan and interventions designed to prevent disease.

Prerequisite: HES 145.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 354 Theory of Health Behavior Credits: 3 (3-0-0)

Prerequisite: HES 145 and PSY 100.

Grade Mode: Traditional.

Special Course Fee: No.

HES 355 Integration of Health Behaviors Credits: 3 (3-0-0)

Course Description: Designed to guide students in applying their knowledge of health behavior change to individuals with various health challenges. Explores a variety of health topics including understanding stress and coping and managing stress, behavioral factors in chronic disease, and behavioral health.

Prerequisite: HES 340 and HES 354.

Registration Information: Completion of 60 credits.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 379 Psychology and Sport Credits: 3 (3-0-0)

Course Description: Reciprocal relationship between psychological factors and sport and exercise behavior.

Prerequisite: PSY 100.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 386 Practicum—Adult Fitness Credits: 2 (1-2-0)

Course Description: Adult fitness.

Prerequisite: HES 232 and HES 340 with a minimum grade of C.

Registration Information: Must register for lecture and laboratory. The prerequisites HES 340 include having a C or better in FSHN 150, HES 145, HES 207 and HES 300 (or BMS 300). To enroll in HES 386 students must have earned a cumulative 2.500 GPA in these same classes: FSHN 150, HES 145, HES 207 and HES 300 (or BMS 300).

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 403 Physiology of Exercise Credits: 3 (3-0-0)

Course Description: Effects of exercise on tissues, organs, and systems of the body.

Prerequisite: BMS 300 or BMS 360 or HES 300.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 404 Physiology of Exercise Laboratory Credit: 1 (0-2-0)

Course Description: Application of the effects of exercise on various systems, organs, and tissues of the body through laboratory experiences.

Prerequisite: HES 403, may be taken concurrently.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 420 Electrocardiography and Exercise Management Credits: 3 (2-2-0)

Course Description: Interpretation of 12-lead ECG tracings, administering exercise tests, and prescribing exercise program for healthy individuals and special populations.

Prerequisite: BMS 300 or BMS 360 or HES 300.

Restriction: Must not be a: Freshman.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 432 Virtual Coaching for Wellness Credits: 3 (2-0-1)

Course Description: Practical application of health and wellness knowledge to a clientele population via a virtual format.

Prerequisite: HES 145.

Restriction: Must not be a: Freshman.

Registration Information: Must register for lecture and recitation. Offered as Mixed Face-to-Face. Credit not allowed for both HES 432 and HES 480A1.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 434 Physical Activity Throughout the Lifespan Credits: 3 (3-0-0)

Course Description: Impact of physical activity on biology and physiology of human development and aging processes.

Prerequisite: BMS 300 or HDFS 201 or HES 300.

Registration Information: Junior standing. Sections may be offered: Online. Credit not allowed for both HES 434 and HES 444.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 450 Introduction to Human Clinical Medicine Credits: 3 (3-0-0)

Course Description: Introductory concepts of clinical medicine including how to take and write a medical history and form a differential diagnosis. Using a case-based approach, common and uncommon diseases and scenarios and the associated medical physiology will be explored. Some basic student-healthcare professional skills are introduced including interpretation of diagnostic tests. Designed for students interested in pursuing a career in medicine.

Prerequisite: None.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Completion of AUCC category 3A.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HES 455 Health Promotion Programming Credits: 3 (3-0-0)

Course Description: Investigation of established health promotion programs with special emphasis on design, implementation, and evaluation of programming models.

Prerequisite: HES 355 and HES 386 and HES 403.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 476 Exercise and Chronic Disease Credits: 3 (3-0-0)

Course Description: Interaction of physical activity with pathophysiology and treatment of chronic diseases and conditions.

Prerequisite: BC 351 and FSHN 350 and HES 403.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 478A Exercise Science Capstone: Seminar Credits: 3 (0-0-3)

Course Description: Integration and reflection on health and exercise science disciplinary knowledge.

Prerequisite: (HES 307 or HES 319) and (HES 340 and HES 403).

Registration Information: Senior standing.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 478B Exercise Science Capstone: Research Credits: 3 (0-6-0)

Course Description: A capstone experience that provides an opportunity to be involved with research in health and exercise science.

Prerequisite: (HES 307 or HES 319) and (HES 340 and HES 403).

Registration Information: Senior standing. Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 478C Exercise Science Capstone: Teaching Credits: 3 (0-6-0)

Course Description: A capstone course that provides an opportunity to be involved with instruction of a course in Health and Exercise Science.

Prerequisite: (HES 307 or HES 319) and (HES 340 and HES 403).

Registration Information: Senior Standing. Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 478D Exercise Science Capstone: Service Learning Credits: 3 (0-6-0)

Course Description: A capstone experience that provides an opportunity to be involved with a service-learning project in the community that applies knowledge of Health and Exercise Science.

Prerequisite: (HES 307 or HES 319) and (HES 340 and HES 403).

Registration Information: Senior Standing. Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 484 Supervised College Teaching Credits: Var[1-5] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Maximum of 10 credits allowed in course. A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 486 Practicum—Wellness Program Management Credits: 3 (1-4-0)

Course Description:

Prerequisite: HES 386.

Registration Information: Junior standing. Must register for lecture and laboratory. Credit not allowed for both HES 486 and HES 486B.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 487 Internship Credits: 12 (0-0-36)

Course Description: Practical application of knowledge, skills, and leadership in a professional situation.

Prerequisite: None.

Registration Information: Senior standing. Consent of department.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 492 Health and Exercise Science Seminar Credits: 3 (0-0-3)

Course Description: Integration and reflection on health and exercise science disciplinary knowledge.

Prerequisite: HES 307 and HES 319 and HES 340 and HES 403.

Registration Information: Senior standing.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 495A Independent Study: Health Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 495B Independent Study: Biomechanics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 495C Independent Study: Exercise Science Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 495D Independent Study: Neuromuscular Physiology Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 495E Independent Study: Honors Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 496A Group Study: Health Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 496B Group Study: Athletics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 496C Group Study: Biomechanics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 496D Group Study: Exercise Science Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 496E Group Study: Neuromuscular Physiology Credits:

Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 500 Environmental Exercise Physiology Credits: 3 (3-0-0)

Course Description: Enhance the understanding of human physiology and how the various physiological systems respond to environmental stressors. Integrate previous knowledge of human physiology and apply it to the physiological response to heat stress, cold stress, hyperbaric atmosphere, hypobaric atmosphere, pollution, and sleep deprivation.

Prerequisite: BMS 420 with a minimum grade of B or HES 403 with a minimum grade of B.

Restriction: Must not be a: Freshman, Sophomore.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HES 510 Bioethics--Concepts and Controversies Credits: 3 (2-0-1)

Course Description: Origins of bioethics and analysis of cases/controversies in contemporary bioethics.

Prerequisite: None.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Admission to health and exercise science graduate program or consent of the instructor. Must register for lecture and recitation.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 520 Advanced Exercise Testing and Prescription Credits: 3 (2-2-0)

Course Description: Theory and practice of exercise testing and prescription in apparently healthy and diseased populations.

Prerequisite: HES 403.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 530 Clinical Biomechanics Credits: 3 (3-0-0)

Course Description: Effect of external loads on internal tissues; concern for injury, injury prevention, and rehabilitation.

Prerequisite: BMS 301 and HES 307.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 531 Muscle and Joint Mechanics Credits: 3 (3-0-0)

Course Description: Integrate muscle, tendon, and location of bone attachment into a comprehensive understanding of human movement at the single- and multi-joint level.

Prerequisite: BMS 301 and HES 307.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

HES 600 Research Design in Health/Exercise Science Credits: 3 (3-0-0)

Course Description: The research process including design, implementation, proposal synthesis and statistical considerations applied to health and exercise science.

Prerequisite: STAT 100 to 481 - at least 1 course.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HES 602 Advanced Physiology of Exercise Credits: 3 (3-0-0)

Course Description: Integrative exercise physiology covering metabolism, cardiovascular physiology, pulmonary physiology, and neuromuscular physiology in humans.

Prerequisite: HES 403.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HES 603 Advanced Topics in Exercise Physiology Credits: 3 (3-0-0)

Course Description: Advanced principles of theoretical and applied exercise physiology at molecular, cellular, and systemic levels.

Prerequisite: HES 403.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HES 608 Physical Activity Intervention Development Credits: 3 (3-0-0)

Course Description: Examination of the current state of the science related to the relationship between physical activity and health outcomes, the theoretical foundations underpinning successful physical activity interventions, and knowledge of how to develop, implement and evaluate physical activity interventions for adults.

Prerequisite: HES 354 or HES 434 or HES 455.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 610 Exercise Bioenergetics Credits: 3 (3-0-0)

Course Description: Biology of energy transfer reactions related to human locomotion and exercise performance in both healthy individuals and disease states.

Prerequisite: HES 403.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HES 619 Advanced Neural Control of Movement Credits: 3 (3-0-0)

Course Description: Neuroanatomical, neurophysiological, and applied topics on the control of force and human movement.

Prerequisite: BMS 300 and BMS 301 and HES 403.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

HES 620 The Science of Healthspan Credits: 3 (3-0-0)

Course Description: A multidisciplinary approach to examining important biomedical topics in healthy aging. Covers topics in the field of biomedical research on healthy aging including: lifespan, healthspan, disease, interventions for maintaining health across the lifespan, and the biology, physiology and sociology of aging, from molecular events to clinical and population function.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HES 630 Integrative Exercise and Nutrition Metabolism Credits: 3 (3-0-0)

Also Offered As: FSHN 630.

Course Description: Advances in integrative human metabolism under conditions of changing energy flux.

Prerequisite: FSHN 551 and HES 610.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both FSHN 630 and HES 630.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 692 Seminar Credit: 1 (0-0-1)

Course Description: Consideration of graduate education in health and exercise science.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HES 693 Seminar Credit: 1 (0-0-1)

Course Description: Current topics and issues in health and exercise science.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Maximum of 2 credits allowed in course.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HES 698 Research Credits: Var[1-18] (0-0-0)

Course Description: Non-thesis research in health and exercise science.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 700 Professional Skills in Bioenergetics Credits: 3 (2-0-1)

Course Description: Grant writing, authorship, peer review process, responsible conduct of science, research ethics, professional conduct, career opportunities.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to doctoral program, or admission to M.S. program and written consent of instructor.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HES 704A Advanced Topics in Bioenergetics: Movement Credits: 3 (3-0-0)

Course Description: Advanced topics in physiology, biochemistry, biomechanics, and neural control exploring pathogenesis and treatment of chronic disease.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Graduate standing. Maximum of 6 credits allowed in course.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HES 704B Advanced Topics in Bioenergetics: Physiology Credits: 3 (3-0-0)

Course Description: Advanced topics in physiology, biochemistry, biomechanics, and neural control exploring pathogenesis and treatment of chronic disease.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Graduate standing. Maximum of 6 credits allowed in course.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HES 710 Exercise in Disease Prevention Credits: 3 (3-0-0)

Course Description: Role of exercise/physical activity in the prevention, pathophysiology and treatment of chronic diseases.

Prerequisite: HES 403 and HES 520.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

HES 784 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 793 Bioenergetics Seminar Credit: 1 (0-0-1)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HES 795 Independent Study Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 796 Group Study Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 798 Research Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HES 799 Dissertation Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Major in Health and Exercise Science

Students may choose from two concentrations offered in the Major in Health and Exercise Science: Exercise Science or Health Promotion.

Learning Objectives

Students will:

1. Demonstrate critical thinking and the ability to apply knowledge related to the key concepts, issues, and tools fundamental to health and exercise science.
2. Understand the importance of physical activity in optimizing physical and mental health and preventing/treating disease and disability in people of all ages and provide a detailed explanation of physical activity guidelines and recommendations.
3. Develop and demonstrate practical knowledge and understanding in human anatomy and physiology through active classroom learning, laboratory, supervised college teaching, capstone projects, research involvement, practicums, and/or internship experiences.
4. Demonstrate the ability to communicate effectively through writing and oral presentations. Writing skills will focus on the ability to synthesize and apply health and exercise science disciplinary knowledge. Presentation skills will focus on the ability to find and summarize scientific information, develop complementary visual aids, and speak with confidence.
5. Exercise Science Concentration: demonstrate the ability to design and implement a novel scientific experiment.
6. Health Promotion Concentration: demonstrate the ability to design and implement a comprehensive community-based health promotion program.

7. Develop a depth of knowledge that enables them to critically evaluate health-related programs and products and distinguish between evidence-based facts and popular fads.
8. Develop collaborative skills necessary to work as a cooperative, productive, and accountable team member while working with individuals of diverse backgrounds.

Potential Occupations

The United States and other developed countries are struggling with an aging and increasingly unhealthy population. Understanding the role of physical activity in preventing and treating disease and disability, and maintaining optimal health at any age is critical. There is high demand for graduates trained in the foundations of human movement such as anatomy, physiology, public health, exercise prescription, and health behavior change AND the ability to apply this knowledge to enhance the health, well-being, and functional performance of humans at every age.

We take pride in training students in Health and Exercise Science to be strong critical thinkers who can express themselves clearly in written and oral form, view the world from multiple perspectives, and are models of professional behavior and citizenship: qualities that will serve them well in any career they choose to pursue.

In the Exercise Science concentration, students acquire additional scientific training in biomechanics, neurophysiology, and human nutrition as well as an opportunity to use their capstone class for real-world experiences in laboratories, clinics, etc. This training provides excellent preparation for graduate studies in medicine, occupational therapy, chiropractic, physician assistant, physical therapy, and exercise science research.

Students who choose the Health Promotion concentration also acquire theoretical and hands-on training that makes them competitive for career opportunities in a wide variety of areas including, but not limited to: corporate fitness/wellness, community health/wellness, public health, health behavior change, occupational or physical therapy, cardiac rehabilitation, personal training, group exercise/fitness instructors, and recreation directors.

Concentrations

- Exercise Science Concentration
- Health Promotion Concentration

Major in Health and Exercise Science, Exercise Science Concentration

The mission of the department is to discover new knowledge through excellence in research in the areas of health and exercise science and to disseminate that knowledge through research, academics, and outreach programs. We are committed to our goal of producing graduates who focus on helping people protect, maintain, and improve their health and quality of life throughout their lifespan. The Exercise Science concentration offers students a strong science-based education dealing specifically with applications of the natural sciences to the study of health and exercise science. The program represents an excellent foundation for students seeking clinical careers such as physical and occupational therapy, medicine, as well as for students planning to continue on to graduate research programs.

Accelerated Program

The Exercise Science concentration includes an accelerated program option (<https://provost.colostate.edu/accelerated-programs/>) for students to graduate on a faster schedule. Accelerated programs typically include 15-16 credits each fall and spring semester for three years, plus 6-9 credits over two to three summer sessions (<https://summer.colostate.edu/acceleratedprograms/>). [Students who enter CSU with prior credit \(AP, IB, transfer, etc.\) may use applicable courses to further accelerate their graduation. Visit the Office of the Provost website for additional information about Accelerated Programs](#) (<https://provost.colostate.edu/accelerated-programs/>).

Learn more about the Exercise Science concentration on the Department of Health and Exercise Science website. (<https://www.chhs.colostate.edu/hes/programs-and-degrees/b-s-in-health-and-exercise-science/sports-medicine-concentration/>)

Requirements

BZ 110	Principles of Animal Biology (GT-SC2)	3A	
BZ 111	Animal Biology Laboratory (GT-SC1)	3A	
Chemistry - Select one group from the following: ²			5
Group A			
CHEM 107	Fundamentals of Chemistry (GT-SC2)	3A	
CHEM 108	Fundamentals of Chemistry Laboratory (GT-SC1)	3A	
Group B			
CHEM 111	General Chemistry I (GT-SC2)	3A	
CHEM 112	General Chemistry Lab I (GT-SC1)	3A	
Arts and Humanities		3B	3
Electives			3
Total Credits			30
Sophomore			
BMS 300	Principles of Human Physiology		4
BMS 302	Laboratory in Principles of Physiology		2
CHEM 113	General Chemistry II		3
CHEM 114	General Chemistry Lab II		1
HES 207	Anatomical Kinesiology		4
PSY 100	General Psychology (GT-SS3)	3C	3
SPCM 200	Public Speaking		3
Arts and Humanities		3B	3
Historical Perspectives		3D	3
Electives			6
Total Credits			32
Junior			
CHEM 245 ³	Fundamentals of Organic Chemistry		4
CHEM 246 ³	Fundamentals of Organic Chemistry Laboratory		1
CO 301B	Writing in the Disciplines: Sciences (GT-CO3)	2	3
HES 319	Neuromuscular Aspects of Human Movement		4
HES 340	Exercise Prescription		3
HES 403	Physiology of Exercise	4B	3
HES 404	Physiology of Exercise Laboratory	4B	1
PH 121	General Physics I (GT-SC1)	3A	5
Statistics - Select one course from the following:			3
STAT 201	General Statistics (GT-MA1)	1B	
STAT 301	Introduction to Applied Statistical Methods		
STAT 307	Introduction to Biostatistics		
Electives			3
Total Credits			30
Senior			
BMS 301	Human Gross Anatomy		5
HES 307	Biomechanical Principles of Human Movement		3
HES 345	Population Health and Disease Prevention		3
Exercise Science Capstone - select one course from the following: ⁴			3
HES 478A	Exercise Science Capstone: Seminar	4A,4C	
HES 478B	Exercise Science Capstone: Research	4A,4C	
HES 478C	Exercise Science Capstone: Teaching	4A,4C	
HES 478D	Exercise Science Capstone: Service Learning	4A,4C	
Exercise Science Guided Electives - Select 10 credits from the list below:			10

Electives ⁵	4
Total Credits	28
Program Total Credits:	120

Exercise Science Guided Electives List:

Code	Title	AUCC	Credits
Select a minimum of 10 credits from the list.			
BC 351	Principles of Biochemistry		4
BMS ***	Upper-Division course(s) not required elsewhere		3-5
BZ 310	Cell Biology		4
BZ 350	Molecular and General Genetics		4
FSHN***	Upper-Division course(s)		3-6
HDFS***	Upper-Division course(s)		3-6
HES ***	Upper-Division course(s) not required elsewhere		1-10
LIFE ***	3-5 credits from Life Sciences (not including LIFE 102)		3-5
MATH 155	Calculus for Biological Scientists I (GT-MA1)	1B	4
or MATH 160	Calculus for Physical Scientists I (GT-MA1)		
MATH 161	Calculus for Physical Scientists II (GT-MA1)	1B	4
MIP 300	General Microbiology		3
MIP 302	General Microbiology Laboratory		2
MIP 315	Pathology of Human and Animal Disease		3
OT 215	Medical Terminology		1
PH 122	General Physics II (GT-SC1)	3A	5
or PH 142	Physics for Scientists and Engineers II (GT-SC1)		
PSY 252	Mind, Brain, and Behavior		3
PSY 260	Child Psychology		3
or PSY ***	Upper-Division course		
SOCR 330	Principles of Genetics		3
SOCR 331	Genetics Laboratory		1

¹ MATH 155 or MATH 160 may be substituted for MATH 118, MATH 124 and MATH 125. Students may not count MATH 155 or MATH 160 for a Guided Elective if they have substituted one of these courses for MATH 118, MATH 124, or MATH 125.

² CHEM 111/CHEM 112 can be substituted for CHEM 107/CHEM 108 and should be seriously considered by students who want to go on to graduate studies. Students should select CHEM 111/CHEM 112 as it better prepares students for CHEM 113/CHEM 114.

³ CHEM 341/CHEM 343/CHEM 344 may be substituted for CHEM 245/CHEM 246 provided that all three courses are completed.

⁴ Students taking the capstone will initially enroll in HES 478A, but have the option of applying for HES 478B/HES 478C/HES 478D, those selected will be re-enrolled in the appropriate course and section.

⁵ Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major in Health and Exercise Science, Health Promotion Concentration

The Health Promotion concentration provides academic content and experience in promoting positive health behaviors such as physical activity, weight management, stress management, identification of risk factors associated with chronic disease (cardiovascular rehabilitation, cancer rehabilitation, pulmonary rehabilitation) and exercise prescription. The curriculum focuses on exercise science, behavior change, health promotion program development, and practical field experiences. This concentration prepares students for careers in a wide variety of allied health fields for all ages, from youth to older adults. Graduates of this concentration pursue careers working in clinical rehabilitative settings, corporate health and wellness programs, fitness facility management, strength and conditioning, non-profit organizations, public health, chiropractic fields, therapeutic recreation, firefighting, and health/wellness areas. Students in this concentration have also been very successful in continuing their formal education with graduate school.

Accelerated Program

The Health Promotion concentration includes an accelerated program option (<https://provost.colostate.edu/accelerated-programs/>) for students to graduate on a faster schedule. Accelerated programs typically include 15-16 credits each fall and spring semester for three years, plus 6-9 credits over two to three summer sessions (<https://summer.colostate.edu/acceleratedprograms/>). Students who enter CSU with prior credit (AP, IB, transfer, etc.) may use applicable courses to further accelerate their graduation. Visit the Office of the Provost website for additional information about Accelerated Programs (<https://provost.colostate.edu/accelerated-programs/>).

Learn more about the Health Promotion concentration on the Department of Health and Exercise Science website. (<https://www.chhs.colostate.edu/hes/programs-and-degrees/b-s-in-health-and-exercise-science/health-promotion-concentration/>)

STAT 301	Introduction to Applied Statistical Methods		
STAT 307	Introduction to Biostatistics		
Health Promotion Guided Electives: Select a minimum of 6 credits from the guided electives list below.			6
Total Credits			31
Senior			
HES 345	Population Health and Disease Prevention		3

HES 434	Physical Activity Throughout the Lifespan		3
HES 455	Health Promotion Programming	4A,4C	3
HES 486	Practicum–Wellness Program Management		3
HES 487	Internship		12
Electives ⁴			6
Total Credits			30
Program Total Credits:			120

Health Promotion Guided Electives List

Code	Title	AUCC	Credits
ACT 205	Fundamentals of Accounting		3
ANTH 340	Medical Anthropology		3
or ANTH 379	Evolutionary Medicine and Human Health		
BMS *** Upper-Division course(s)			2-6
BUS 205	Legal and Ethical Issues in Business		3
or BUS 220	Ethics in Contemporary Organizations (GT-AH3)		
CHEM 113	General Chemistry II		3
ECON 325	Health Economics		3
FACS 320	Finance-Personal and Family		3
FIN 200	Personal Finance and Investing (GT- 1B MA1)		3
FIN 305	Fundamentals of Finance		3
FSHN 200-500 course(s)			3-6
HDFS 101	Individual and Family Development (GT-SS3)	3C	3
HDFS 201	Perspectives in Gerontology		3
HDFS*** Upper-division course(s)			3-6
HES*** Upper-division course(s) not required elsewhere			1-6
LIFE 103	Biology of Organisms-Animals and Plants (GT-SC1)	3A	4
OT 215	Medical Terminology		1
PH 121	General Physics I (GT-SC1)	3A	5
PSY 252	Mind, Brain, and Behavior		3
PSY 260	Child Psychology		3
PSY *** Upper-Division course(s)			3-6

Cardiac Care Internship Requirements

Students enrolling in internships in cardiac care must take HES 420 prior to the internship. Students may use elective credits in the sophomore, junior, or senior year to do so. A minimum grade of B (3.000) is required in HES 420 prior to internship placement.

Code	Title	Credits
HES 420	Electrocardiography and Exercise Management	3
It is recommended, but not required, that students enrolling in cardiac care internships take the following courses using elective credit:		
BMS 420	Cardiopulmonary Physiology	3
BMS 450	Pharmacology	3

¹ MATH 155 or MATH 160 can be substituted for MATH 118, MATH 124 and MATH 125.

² CHEM 111/CHEM 112 can be substituted for CHEM 107/ CHEM 108, and should be seriously considered by students who want to go on to graduate studies.

³ Students may substitute HES 307 and HES 319 for HES 303.

⁴ Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major Completion Map

Freshman

Semester 1		Critical	Recommended	AUCC	Credits

Minor in Health and Exercise Science

A minor in Health and Exercise Science provides students in other majors with an opportunity to gain knowledge and skills specific to health and exercise science. Students in the minor program will gain core knowledge and skills in the fundamentals of exercise science, including anatomy, physiology, neuropsychology, and biomechanics. Additionally, students can select electives that provide a further understanding of health, and healthy behaviors as they relate to decreasing the risk of chronic disease and disability. The minor may be of special interest to students pursuing graduate programs in medicine and other health professions and health promotion fields.

Learning Objectives

Students will:

1. Demonstrate knowledge in the fundamentals of exercise science, including human anatomy and movement, as well as the basics of exercise physiology, neuropsychology and biomechanics.
2. Understand the importance of physical activity in optimizing physical and mental health and preventing/treating disease and disability in people of all ages.
3. Demonstrate critical thinking and the ability to apply knowledge related to the key concepts, issues, and tools fundamental to health and exercise science.

Learn more about the (<https://www.chhs.colostate.edu/hes/programs-and-degrees/b-s-in-health-and-exercise-science/minor-in-health-and-exercise-science/>) Minor in Health and Exercise Science on the Department of Health and Exercise Science website. (<https://www.chhs.colostate.edu/hes/programs-and-degrees/b-s-in-health-and-exercise-science/minor-in-health-and-exercise-science/>)

Requirements Effective Fall 2024

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Code	Title	Credits
HES 145	Health and Wellness	3
HES 202	Introduction to Exercise Physiology	3
HES 207	Anatomical Kinesiology	4
HES 303	Biomechanics and Neurophysiology	3
Select 9 credits from the following courses:		9
HES 300 or BMS 300	Physiology for Clinical Health Professions Principles of Human Physiology	
HES 307	Biomechanical Principles of Human Movement	
HES 309	Methods of Coaching	
HES 319	Neuromuscular Aspects of Human Movement	
HES 340	Exercise Prescription	
HES 345	Population Health and Disease Prevention	
HES 354	Theory of Health Behavior	
HES 379	Psychology and Sport	
HES 403	Physiology of Exercise	
HES 420	Electrocardiography and Exercise Management	
HES 432	Virtual Coaching for Wellness	
HES 434	Physical Activity Throughout the Lifespan	
HES 450	Introduction to Human Clinical Medicine	
HES 500	Environmental Exercise Physiology	
HES 510	Bioethics--Concepts and Controversies

Certificate in Virtual Wellness Programming

The use of virtual platforms in many professions related to health and wellness has dramatically increased in recent years. This undergraduate certificate will provide students with a strong understanding of health behaviors, and they will gain the knowledge and skills to deliver health and wellness-related coaching. The certificate is geared toward those interested in working with clientele virtually with special emphasis in motivational coaching. Additionally, students will be able to identify differential challenges that persons of various identities face and determine how these challenges may best be overcome to lead healthier lifestyles.

Learning Objectives

Upon successful completion of this program, students will be able to:

1. Demonstrate understanding of the different dimensions of health.
2. Design a program to improve health behaviors.

3. Describe theories of health behavior and apply these concepts when working with a client.
4. Collect, input, analyze, and summarize data on client lifestyles (sleep, nutrition, physical activity, etc.).
5. Compose presentations that identify strengths and weaknesses in client lifestyles and provide presentations to client(s) that are relatable and understandable.
6. Analyze client health behavior and lifestyle choices from an ecological perspective and utilize various forms of feedback and reinforcements to promote healthy living.
7. Identify differential challenges that persons of various identities may face and determine how these challenges may best be overcome to lead healthier lifestyles.

Learn more about the Certificate in Virtual Wellness Programming on the Department of Health and Exercise Science website. (<https://www.chhs.colostate.edu/hes/programs-and-degrees/certificate-in-virtual-wellness-programming/>)

Requirements Effective Spring 2024

Additional coursework may be required due to prerequisites.

Code	Title	Credits

MKT 305	Fundamentals of Marketing	
PSY 300	Positive Psychology	
SPMT 314	Inclusive Sport Organizations	

Program Total Credits:

9

Master of Science in Health and Exercise Science, Plan A

The Master of Science in Health and Exercise Science, Plan A, offers students a health-oriented, science-based curriculum and research experience. The program is a scientifically rigorous, research-focused program that prepares students for further education and/or careers in health and exercise science-related fields. The program is structured to prepare students for further education including doctoral study, physical and occupational therapy, and medicine (e.g., physicians, physician assistants, and nursing). Graduates are represented by careers in

health-related research and development and medical and allied health professions.

Learning Objectives

Students will:

1. Refine and demonstrate practical knowledge and skills within the research laboratory and the classroom (leadership, administrative, teaching/communication, and professional attitude) in exercise science through laboratory and teaching experiences.
2. Demonstrate the ability to disseminate knowledge effectively through writing and verbal communication. Writing skills will focus on abilities to synthesize, integrate, and apply health and exercise science disciplinary knowledge at a professional level.
3. Demonstrate critical thinking and the ability to apply knowledge related to the key concepts, issues, and tools fundamental to health and exercise science.
4. Demonstrate the ability to design and implement novel scientific experiments.

Requirements Effective Fall 2022

Code	Title	Credits
HES 510	Bioethics--Concepts and Controversies	3
HES 600	Research Design in Health/Exercise Science	3
Select 6 credits from the following:		6
HES 500	Environmental Exercise Physiology	
HES 602	Advanced Physiology of Exercise	
HES 608	Physical Activity Intervention Development	
HES 610	Exercise Bioenergetics	
HES 619	Advanced Neural Control of Movement	
HES 620	The Science of Healthspan	
HES 693	Seminar (1 credit seminar, min 2 semesters required) ¹	2
HES 793	Bioenergetics Seminar	1
Statistics ²		3
Electives ³		6
HES 699	Thesis	12
Program Total Credits:		36

A minimum of 36 credits are required to complete this program.

¹ Seminar must be taken for a minimum of 2 credits (2 semesters) but can be taken more than twice.

² Select three credits of statistics with approval of advisor.

³ Select enough 500-level or above elective credits with approval of advisor to bring the program total to 36 credits.

Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees in the Graduate and Professional Bulletin.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/ Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/ dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Ph.D. in Human Bioenergetics

The Ph.D. in Human Bioenergetics covers all aspects of Health and Exercise Science. While it primarily prepares students for academic and research careers, it is also a pathway to careers outside academia (e.g. public health, research foundations, footwear/equipment, pharmaceutical, or nutrition industries) that require advanced training in research. The program trains professionals in basic and applied research centered around preventing age-related decline in human health and function, understanding the pathophysiology of disease and disability, as well as designing and testing novel countermeasures and maximizing functional performance in first responders, soldiers, and athletes.

Learning Objectives

- 1. Refine and demonstrate practical knowledge and skills within the research laboratory and the classroom (leadership, administrative, teaching/communication, and professional attitude) in exercise science through laboratory and teaching experiences.
- 2. Demonstrate the ability to disseminate knowledge effectively through writing and verbal communication. Writing skills will focus on abilities to synthesize, integrate, and apply health and exercise science disciplinary knowledge at a professional level.
- 3. Demonstrate critical thinking and the ability to apply knowledge related to the key concepts, issues, and tools fundamental to health and exercise science.
- 4. Demonstrate the ability to design and implement novel scientific experiments.

[Learn more about the Ph.D. in Human Bioenergetics on the Department of Health and Exercise Science website.](#)

Requirements Effective Fall 2022

Ph.D. course requirements include a minimum of 72 credits for each of three entry routes:

Entry A: For students who have completed the CSU M.S. degree in Health and Exercise Science, up to 30 credits can be applied toward partial fulfillment of the required 72 credits.

Entry B: For students who submit a previously earned Master's degree from an institution other than CSU, up to 30 credits may be accepted toward partial fulfillment of the required 72 credits. All credits accepted toward partial fulfillment of the requirements below must be approved by the Director of the Health and Exercise Science Graduate Program and the Graduate School.

Entry C: For students who do not submit a Master's degree in partial fulfillment of the required 72 credits, up to 10 credits earned after the bachelor's degree maybe accepted for transfer. Only courses taken at a 500-level or higher will be considered. All potential credits accepted toward partial fulfillment of the requirements below must be approved by the student's graduate committee, the Department of Health and Exercise Science, and the Graduate School.

Code	Title	Credits
HES 510	Bioethics--Concepts and Controversies	3
Select 9 credits from the following:		9
HES 500	Environmental Exercise Physiology	

HES 600	Research Design in Health/Exercise Science	
HES 602	Advanced Physiology of Exercise	
HES 608	Physical Activity Intervention Development	
HES 610	Exercise Bioenergetics	
HES 620	The Science of Healthspan	
HES 619	Advanced Neural Control of Movement	
HES 700	Professional Skills in Bioenergetics	
HES 793	Bioenergetics Seminar (1 cr seminar, min 4 semesters required) ¹	4
Statistics ²		6
Directed Electives ³		38
HES 799	Dissertation ³	12
Program Total Credits:		72

A minimum of 72 credits are required to complete this program.

- ¹ Seminar must be taken for a minimum of 4 credits (4 semesters), but can be taken more than 4 times.
- ² Select six credits of statistics with approval of advisor.
- ³ Select additional dissertation credits and/or 500-level and above elective credits with approval of advisor to bring the program total to a minimum of 72 credits. Depending on entry route into program, up to 30 credits may be accepted as directed electives from previous M.S degree or up to 10 credits earned after a bachelor's degree may be counted towards directed electives.

Department of Human Development and Family Studies

Office in Behavioral Sciences Building, Room 303
(970) 491-5558

www.chhs.colostate.edu/hdfs (<https://www.chhs.colostate.edu/hdfs/>)

Professor Julie Braungart-Rieker, Department Head

Enhancing Healthy Development

Through training, research, and engagement, we examine human development across the lifespan in the context of families, schools, communities, and culture.

Undergraduate Majors

- Major in Early Childhood Education
- Major in Human Development and Family Studies
 - Early Childhood Professions Concentration
 - Human Development and Family Studies Concentration
 - Leadership and Advocacy Concentration
 - Leadership and Entrepreneurial Professions Concentration (*No new students are being admitted into this concentration. Please see the Leadership and Advocacy Concentration*).
 - Pre-Health Professions Concentration
 - Prevention and Intervention Sciences Concentration

Minors

- Gerontology Interdisciplinary Minor
- Minor in Human Development and Family Studies

Certificates

- Disability & Neurodiversity
- Youth Mentoring with Campus Connections

Online Degree Programs

The major in Human Development and Family Studies (HDFS) is offered in two formats, both leading to a Bachelor of Science degree. The major in Human Development and Family Studies offered through CSU Online provides a flexible, convenient, and accessible format for busy, working, or distance students. The online program of study is the same as the on-campus version, is fully accredited, and is indistinguishable on student transcripts and diplomas from the on-campus version. The Gerontology Interdisciplinary Minor and courses required to pursue a variety of certifications are also available online. On-campus students are welcome in HDFS courses through CSU Online (https://www.online.colostate.edu/courses/credit/?subject_cat=39792#courselistings) and should speak with their advisor and financial aid representative about financial implications.

Accelerated Program

The major in Human Development and Family Studies includes an accelerated program option (<https://provost.colostate.edu/accelerated-programs/>) for students to graduate on a faster schedule. Accelerated Programs typically include 15-16 credits each fall and spring semester for three years, plus 6-9 credits over two to three summer sessions (<https://summer.colostate.edu/acceleratedprograms/>). Students who enter CSU with prior credit (AP, IB, transfer, etc.) may use applicable courses to further accelerate their graduation. Visit the Office of the Provost website for additional information about Accelerated Programs (<https://provost.colostate.edu/accelerated-programs/>).

Gerontology Interdisciplinary Minor

The Gerontology Interdisciplinary Minor is housed in HDFS and is available on-campus as well as online. The Gerontology Interdisciplinary Minor offers students the opportunity to earn an undergraduate minor in gerontology with training across multiple disciplines. The Gerontology

Interdisciplinary Minor prepares students to work in a variety of fields where it is critical to understand the aging process, including the biological, psychological and social aspects of adult development and aging. Admission is ongoing throughout the year. The full program may be found under University-Wide Instructional Programs.

Graduate

Graduate Programs in Human Development and Family Studies

The Department of Human Development and Family Studies (HDFS) offers a Master of Science degree with two specializations and one doctoral program in Applied Developmental Science. The focus of the department is on the study of individual and family development across the lifespan; the development, implementation, and evaluation of intervention and prevention programs for individuals and families at risk; and the influence of social institutions such as schools and communities on development. Our graduate programs advance students' understanding of human behavior and development, as well as enable them to contribute to scholarship and professional practice.

Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Human Development and Family Studies (<http://www.hdfs.chhs.colostate.edu/students/>). (<http://hdfs.chhs.colostate.edu/students/masters/>)

Certificate

- Prevention Program Planning & Evaluation

Master's Programs

In addition to the Individualized Master of Science in HDFS, there are two specializations offered: Prevention Science, and Marriage and Family Therapy. Curricula in each program includes core courses in individual development, family theories, current research and issues in HDFS, and research methods. A research thesis is required for Plan A.

- Master of Science in HDFS, Plan A
- Master of Science in HDFS, Marriage & Family Therapy Specialization, Plan A and Plan B
- Master of Science in HDFS, Plan A, Prevention Science Specialization

Online Master's Program

The online Master of Prevention Science Practice trains graduates to implement evidence-based prevention programs for use at the community-level in preventing mental, emotional, and behavioral disorders. The course work emphasizes lifespan developmental processes and normative family functioning, as well as theories of prevention science and risk and resilience.

- Master of Prevention Science Practice, Plan C (M.P.S.P)

Ph.D.

The program in Applied Developmental Science builds upon coursework completed in a master's program, yet allows for more advanced, tailored, and personalized learning. Doctoral training also emphasizes mentorships with faculty in order to apply coursework to research in students' areas of specialization.

- Ph.D. in Applied Developmental Science

Courses

Human Development and Family Studies (HDFS)

HDFS 101 Individual and Family Development (GT-SS3) Credits: 3 (3-0-0)

Course Description: Principles of life-span human development in the context of the family. Theory and research on the influence of family systems on individuals.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Social & Behavioral Sciences 3C, Human Behavior, Culture, or Social Frameworks (GT-SS3).

HDFS 160 Mentees/First Year Success I Credit: 1 (0-2-0)

Course Description: Mentoring course for first-year underrepresented HDFS students to support successful transition to the university and department through one-to-one peer mentoring with upper class HDFS student, and participation in community activities.

Prerequisite: None.

Restrictions: Must not be a: Sophomore, Junior, Senior. Must be a: Undergraduate.

Registration Information: HDFS majors and freshman only. Written consent of instructor. Students must complete an application and be admitted into the program to register. Credit not allowed for both HDFS 160 and HDFS 180A1.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 170 Mentees/First Year Success II Credit: 1 (0-2-0)

Course Description: Mentoring course that supports successful transition to the university through one-to-one peer and group mentoring with advanced Human Development and Family Studies students. Explore intersecting identities, university resources, professional skill development, and community service through the mentoring relationship.

Prerequisite: HDFS 160.

Restrictions: Must not be a: Sophomore, Junior, Senior. Must be a: Undergraduate.

Registration Information: HDFS majors and freshman only. Written consent of instructor. Credit not allowed for both HDFS 170 and HDFS 180A2.

Term Offered: Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 201 Perspectives in Gerontology Credits: 3 (3-0-0)

Course Description: Multidisciplinary perspectives on a variety of issues in human aging; exploration of careers in gerontology; service-learning with older adults; emphasis on applied gerontology.

Prerequisite: HDFS 101 or PSY 100 or SOC 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 217 Creative Experiences for Children Credits: 3 (3-0-0)

Course Description: Theories of play and creativity as the foundation for examining the role of interdisciplinary interests (arts, music, literature, science, math) in early childhood development. Exploration of creative techniques appropriate for young children (ages 0-8 years) and how these strategies enhance the child's self-expression, creativity, and development in educational, medical, and therapeutic settings. Exploration of curriculum cycle: observation, planning, implementation, reflection, and feedback.

Prerequisite: HDFS 101 or PSY 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 250 Introduction to Research Methods Credits: 3 (3-0-0)

Course Description: Introduction to research methodology relevant to human development and family studies including research designs, statistical significance, components and evaluation of empirical research articles, and ethical principles. Formulation of research questions and hypotheses.

Prerequisite: HDFS 101 or PSY 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 275 Foundational Helping Skills Credits: 3 (3-0-0)

Course Description: Introduction to helping skills in healthcare and human service settings including strength-based techniques to support clients and opportunities and challenges related to the well-being of helping professionals. Exploration of ethical practices, including boundaries, scope of practice, and collaboration as well as the impact of culture, bias, and equity in working with individuals, couples, and families.

Prerequisite: HDFS 101 or PSY 100.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 277 Introductory Seminar in HDFS Credit: 1 (1-0-0)

Course Description: Introduction to human development and family studies field, major and concentration requirements, resources, and career exploration. An inclusive environment to develop and practice the necessary skills to transition to the major and academic expectations of the department and college.

Prerequisite: None.

Registration Information: Human Development and Family Studies or Early Childhood Education majors only. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 286A Practicum: Human Development and Family Studies Credits: 3 (0-0-6)

Course Description: Career exploration and community placement opportunities to observe individuals/families at varying stages of the lifespan and apply knowledge gained from coursework in human development and family studies.

Prerequisite: HDFS 101, may be taken concurrently.

Registration Information: Application required for practicum placement. Background check required. Offered as Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 286B Practicum: Early Childhood Professions Credits: 3 (0-0-6)

Course Description: Career exploration and community placement opportunities to observe children and families, and apply knowledge gained from coursework in human development and family studies.

Prerequisite: HDFS 101, may be taken concurrently.

Registration Information: Application required for practicum placement. Background check required. Offered as Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 286C Practicum: Pre-Health Professions Credits: 3 (0-0-6)

Course Description: Career exploration and community placement opportunities to observe individuals/families at varying stages of the lifespan and apply knowledge gained from coursework in human development and family studies.

Prerequisite: HDFS 101, may be taken concurrently.

Registration Information: Application required for practicum placement. Background check required. Offered as Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 286D Practicum: Prevention and Intervention Sciences Credits: 3 (0-0-6)

Course Description: Career exploration and community placement opportunities to observe individuals/families at varying stages of the lifespan and apply knowledge gained from coursework in human development and family studies.

Prerequisite: HDFS 101, may be taken concurrently.

Registration Information: Application required for practicum placement. Background check required. Offered as Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 286E Practicum: Leadership and Advocacy Credits: 3 (0-0-6)

Course Description: Career exploration and community placement opportunities to observe individuals/families at varying stages of the lifespan and apply knowledge gained from coursework in human development and family studies.

Prerequisite: HDFS 101, may be taken concurrently.

Registration Information: Application required for practicum placement. Background check required. Offered as Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 310 Infant and Child Development in Context Credits: 3 (3-0-0)

Course Description: Physical, cognitive, and socioemotional development from birth through middle childhood in context of family, relationships, and culture.

Prerequisite: HDFS 101 or PSY 100.

Registration Information: Completion of 30 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 311 Adolescent and Emerging Adult Development Credits: 3 (3-0-0)

Course Description: Physical, cognitive, and social-emotional development of adolescents and emerging adults in context (e.g., family, relationships, culture). Developmental concepts, theory, and research relevant to typical development including behavioral and emotional outcomes. Emphasis on diversity of experiences as a function of social and ecological factors.

Prerequisite: HDFS 101 or PSY 100.

Restriction: Must not be a: Freshman.

Registration Information: Completion of 30 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 312 Adult Development-Middle Age and Aging Credits: 3 (3-0-0)

Course Description: Developmental issues and processes pertaining to middle and later adulthood. Contexts in which adult development and aging occur are emphasized.

Prerequisite: HDFS 101 or PSY 100.

Registration Information: Completion of 30 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 315 Disability Across the Lifespan and Culture Credits: 3 (3-0-0)

Course Description: Interdisciplinary perspectives to understand infants, youth, and adults with disabling conditions. Causes, outcomes, and intervention of commonly occurring disabilities and health conditions. A global perspective on how disabilities interact with family, society, stigma, identity, media, government, and the physical environment. Relevant to majors and careers in health, education, rehabilitation, counseling, human services, and anthropology.

Prerequisite: HDFS 101 or PSY 100.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing. Sections may be offered: Online. Required field trips.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 317 Disabilities in Early Childhood Education Credits: 3 (3-0-0)

Course Description: Developmental and learning outcomes in young children with disabilities 0-8 years in the early childhood education context. Examine atypical development, inclusive education, strategies and intervention, and family partnerships relevant to early interventionists, educators, and related services, such as occupational therapy, physical therapy, speech-language pathology, music therapy, and applied behavioral analysis.

Prerequisite: HDFS 310.

Registration Information: Sophomore standing. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 318 Infancy and Toddlerhood Credits: 3 (3-0-0)

Course Description: Physical, cognitive, language, and socio-emotional development from pre-birth through 36 months, with an emphasis on applied settings.

Prerequisite: HDFS 310 or PSY 260.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 332 Death, Dying, and Grief Credits: 3 (3-0-0)

Course Description: Cultural and historical trends in death encounters and attitudes, medical and legal issues related to dying, and key concepts and models related to dying and grieving processes. Skills to support dying and grieving individuals and their families across the lifespan, experiencing a variety of death events.

Prerequisite: HDFS 101 or PSY 100.

Restriction: Must not be a: Freshman.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 334 Family and Parenthood Across the Lifespan Credits: 3 (3-0-0)

Course Description: Practical, theoretical, and empirical information on the dynamics of family and parenthood across the lifespan. Emphasis on understanding how families and parents in diverse ecological and social contexts experience their roles and relationships. Exploration of factors that contribute to risk as well as evidence-based practices to support and enhance family systems and parents.

Prerequisite: HDFS 101 or PSY 100.

Restriction: Must not be a: Freshman.

Registration Information: Sophomore standing. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 350 Applied Research Methods Credits: 3 (3-0-0)

Course Description: Analyze, interpret, apply, and write about research findings in human development.

Prerequisite: HDFS 250.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Completion of 60 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 360 Leadership Through Peer Mentoring I Credit: 1 (0-2-0)

Course Description: Mentoring HDFS students in one-to-one peer mentoring with first-year, underrepresented HDFS students to support their successful transition to the university and department.

Prerequisite: None.

Restrictions: Must not be a: Freshman, Sophomore. Must be a: Undergraduate.

Registration Information: HDFS majors only. Junior standing. Written consent of instructor. Students must complete an application and be admitted into the program to register. May be repeated up to two times for credit.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 370 Leadership Through Peer Mentoring II Credit: 1 (0-2-0)

Course Description: Leadership through one-to-one peer mentoring relationships with first-year Human Development and Family Studies students to support their successful transition to the university and department. Explore intersecting identities, university resources, professional skill development, and community service through the mentoring relationship.

Prerequisite: HDFS 360.

Restrictions: Must not be a: Freshman, Sophomore. Must be a: Undergraduate.

Registration Information: HDFS majors only. Junior standing. Written consent of instructor. May be repeated up to two times for credit.

Term Offered: Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 372 Inclusive Mentoring for Neurodiverse Peers Credits: Var[2-4] (0-0-0)

Also Offered As: AGED 372.

Course Description: Provide inclusive peer mentoring for neurodiverse college students in the Ram Scholars program, an inclusive postsecondary program for students pursuing careers in agriculture. Weekly seminar focused on inclusive mentoring. Peer mentor activities include attending CSU courses with RAM Scholars and conducting study sessions; providing behavioral supports for campus life, recreational activities, and agricultural field trips; and implementing weekly enrichment activities.

Prerequisite: None.

Registration Information: Written consent of instructor. Required field trips. Background check required. Course may be taken for a maximum of 9 credits.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 375 Lifespan Intervention and Prevention Science Credits: 3 (3-0-0)

Course Description: Intervention and prevention approaches and skills to improve the health, mental health, and well-being of families and individuals across the lifespan.

Prerequisite: HDFS 310 and HDFS 311.

Registration Information: Completion of 60 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 402 Couple and Family Studies Credits: 3 (3-0-0)

Course Description: Theory and research concerning couple and family processes; social contexts in which couples and families change over time.

Prerequisite: HDFS 334.

Registration Information: Completion of 60 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 403 Families in the Legal Environment Credits: 3 (3-0-0)

Course Description: The intersection of individuals, children, families and the legal system, including the balance between the right to privacy and government intervention, and social disparities in the legal system. Topics include: establishing the legal parent relationship, adoption, the rights of children and parents, marriage, divorce, dependency and neglect, family violence, disability and estate planning, juvenile delinquency, legalities of gender, and landlord/tenant and housing policy.

Prerequisite: None.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Completion of 60 credits. Offered as an online course only. Required field trips.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 404 Child Life Theory and Practice Credits: 3 (3-0-0)

Course Description: Theories and skills related to effective child life practice in hospitals.

Prerequisite: HDFS 310 or PSY 260.

Registration Information: Sections may be offered: Online.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 410 Promoting Early Socioemotional Development Credits: 3 (3-0-0)

Course Description: Social and emotional development in children ages 3-8: atypical and typical development, developmental theories and models, risk and protective factors, evidence-based programs, and empirically validated teaching strategies for preventing challenging behaviors and fostering adaptive social skills and emotion regulation.

Prerequisite: HDFS 310 and HDFS 334.

Registration Information: Completion of 60 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 411 Developmental Transitions in Adolescence Credits: 3 (3-0-0)

Course Description: Examination of biological, socio-emotional, cognitive, and behavioral changes during adolescence.

Prerequisite: HDFS 311 and HDFS 334.

Registration Information: Completion of 60 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 412 Mental and Physical Health in Adulthood Credits: 3 (3-0-0)

Course Description: Mental and physical health of adults, contextual factors of development, and implications for prevention, intervention, and public health planning.

Prerequisite: HDFS 312.

Registration Information: Completion of 60 credits. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 434 Risk and Resilience Across the Lifespan Credits: 3 (3-0-0)

Course Description: Why some individuals are at high risk for poor developmental outcomes, and why certain individuals fare well despite such risks or adversities. Strong developmental emphasis because resilience is viewed as a process, the results of which may not be manifest for years. There is an ecological emphasis because protective and vulnerability factors often reside in families, schools, neighborhoods.

Prerequisite: HDFS 375.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Completion of 60 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 439 Administration of Early Childhood Programs Credits: 3 (3-0-0)

Course Description: Center administration related to program development and operations, budgeting, state regulations and licensing, and personnel issues.

Prerequisite: HDFS 310.

Registration Information: Completion of 60 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 445 Early Childhood Health, Safety, and Nutrition Credits: 3 (0-0-3)

Also Offered As: FSHN 445.

Course Description: Planning, promoting and maintaining healthy life style and safe learning environment for preschool children. Nutrition, first aid and safety, physical activity, identifying and reporting abuse, prevention and management of acute illness and chronic disease and promotion of a high-quality indoor and outdoor environment, targeted for the early childhood education professional.

Prerequisite: HDFS 310.

Registration Information: Completion of 60 credits. Offered as an online course only. Credit not allowed for both FSHN 445 and HDFS 445.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 470A Campus Connections: Youth Mentor Credits: 3 (0-4-2)

Course Description: Service-learning course engaging students as mentors with local youth.

Prerequisite: None.

Registration Information: Written consent of instructor. Must register for laboratory and recitation. Students must complete an application and a required background check through CBI, FBI. Course may be taken for a maximum of 9 credits.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

HDFS 470B Campus Connections: Mentor Coach Credits: 3 (0-4-2)

Course Description: Serve as mentor coach in a service-learning course engaging students as mentors with local youth.

Prerequisite: HDFS 470A.

Registration Information: Written consent of instructor. Must register for laboratory and recitation. Students must complete an application and a required background check through CBI, FBI. Course may be taken for a maximum of 9 credits.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: Yes.

HDFS 470C Campus Connections: Program Administration Credits: 3 (0-4-2)

Course Description: Provide administrative support to a service-learning program for local youth.

Prerequisite: None.

Registration Information: Written consent of instructor. Must register for laboratory and recitation. Students must complete an application and a required background check through CBI, FBI. Course may be taken for a maximum of 9 credits.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 475 Leadership and Advocacy in Human Services Credits: 3 (3-0-0)

Course Description: Theory and research on leadership as applied to professional communication and decision-making in human services settings. Qualities, responsibilities, and ethical standards essential for successful leadership. Theories and practices related to advocacy including identification of areas of inequality and opportunities for advocacy as human service professionals. Applicable to students pursuing a variety of careers in healthcare, education, human services, and social entrepreneurship.

Prerequisite: HDFS 101 or PSY 100.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Completion of 60 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 477A Professional Preparation: Local Internship

Placements Credit: 1 (1-0-0)

Course Description: Exploration of professionalism, workplace issues, leadership and communication skills, goal setting, self-management, and building a professional identity in person, writing, and online. Completion of steps to secure an internship for students seeking a local internship, selecting from a list of pre-approved internship sites within 30 miles of the CSU Fort Collins campus.

Prerequisite: HDFS 350, may be taken concurrently.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Human Development and Family Studies majors only. Offered as an online course only. Credit not allowed for both HDFS 477A and HDFS 478.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 477B Professional Preparation: Distance Internship**Placements Credit: 1 (1-0-0)**

Course Description: Exploration of professionalism, workplace issues, leadership and communication skills, goal setting, self-management, and building a professional identity in person, writing, and online. Completion of steps to secure own internship site more than 30 miles outside of Fort Collins.

Prerequisite: HDFS 350, may be taken concurrently.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Human Development and Family Studies majors only. Offered as an online course only. Credit not allowed for both HDFS 477B and HDFS 478.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 478 HDFS Professional Development Credit: 1 (1-0-0)

Course Description: Exploration of professionalism, workplace issues, leadership and communication skills, goal setting, self-management, and building a professional identity in person, writing, and online. Understand the skills and attributes required to become a successful HDFS professional.

Prerequisite: HDFS 350, may be taken concurrently.

Registration Information: Completion of 60 credits. Written consent of instructor. Human Development and Family Studies majors only. Sections may be offered: Online. Credit not allowed for both HDFS 477 and HDFS 478.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 484 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 488A Internship: Human Development and Family Studies Credits: Var[4-6] (0-0-0)

Course Description: Provides an opportunity to integrate HDFS classroom knowledge into real-world experiences. Students complete 4-6 credits at an internship site established and approved by the HDFS Department. Weekly meetings with internship site supervisors foster the development of professional skills and feedback to enhance students' performance, conduct, ethics, and communication skills for the workplace.

Prerequisite: HDFS 477A or HDFS 477B.

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Completion of 90 credits. Background check required. Human Development and Family Studies majors only. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 488B Internship: Early Childhood Credits: Var[4-6] (0-0-0)

Course Description: Provides an opportunity to integrate HDFS classroom knowledge into real-world experiences. Students complete 4-6 credits at an internship site established and approved by the HDFS Department. Weekly meetings with internship site supervisors foster the development of professional skills and feedback to enhance students' performance, conduct, ethics, and communication skills for the workplace.

Prerequisite: HDFS 477A or HDFS 477B.

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Completion of 90 credits. Background check required. Human Development and Family Studies majors only. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 488C Internship: Pre-Health Credits: Var[4-6] (0-0-0)

Course Description: Provides an opportunity to integrate HDFS classroom knowledge into real-world experiences. Students complete 4-6 credits at an internship site established and approved by the HDFS Department. Weekly meetings with internship site supervisors foster the development of professional skills and feedback to enhance students' performance, conduct, ethics, and communication skills for the workplace.

Prerequisite: HDFS 477A or HDFS 477B.

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Completion of 90 credits. Background check required. Human Development and Family Studies majors only. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 488D Internship: Prevention/Intervention Science Credits: Var[4-6] (0-0-0)

Course Description: Provides an opportunity to integrate HDFS classroom knowledge into real-world experiences. Students complete 4-6 credits at an internship site established and approved by the HDFS Department. Weekly meetings with internship site supervisors foster the development of professional skills and feedback to enhance students' performance, conduct, ethics, and communication skills for the workplace.

Prerequisite: HDFS 477A or HDFS 477B.

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Completion of 90 credits. Background check required. Human Development and Family Studies majors only. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 488E Internship: Leadership Credits: Var[4-6] (0-0-0)

Course Description: Provides an opportunity to integrate HDFS classroom knowledge into real-world experiences. Students complete 4-6 credits at an internship site established and approved by the HDFS Department. Weekly meetings with internship site supervisors foster the development of professional skills and feedback to enhance students' performance, conduct, ethics, and communication skills for the workplace.

Prerequisite: HDFS 477A or HDFS 477B.

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Completion of 90 credits. Background check required. Human Development and Family Studies majors only. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 492 Capstone--Evidence-Based Program Proposals Credits: 3 (0-0-3)

Course Description: Research, development, and oral presentations of evidence-based prevention or intervention program proposals from a contextual and developmental perspective.

Prerequisite: HDFS 350.

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Major in Human Development and Family Studies or Early Childhood Education. Completion of 90 credits. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 493 Specialized Seminar Credits: 3 (0-0-3)

Course Description: Advanced study of theory, research, and application in a specialized area.

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 495A Independent Study: Human Development Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 495B Independent Study: Family Studies Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 495C Independent Study: Early Childhood Education Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 497A Group Study: Peer Advising Credits: Var[1-3] (0-0-0)

Course Description: Serve as an active member of the Peer Advising Team by providing assistance to undergraduate students and support to the HDFS advisors to enhance the services provided by the HDFS Undergraduate Advising Office.

Prerequisite: HDFS 277.

Registration Information: Written consent of department required.

Terms Offered: Fall, Spring.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

HDFS 497B Group Study: Undergraduate Outreach and Leadership Credits: Var[1-3] (0-0-0)

Course Description: Application of human development skills in a variety of settings.

Prerequisite: None.

Registration Information: Written consent of department required. A maximum of 3 credits may count toward a student's concentration. Course may be repeated up to nine times for elective credit.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 497C Group Study: Student Respect/Wellness Education Credits: Var[1-3] (0-0-0)

Course Description: Application of human development skills in a variety of settings.

Prerequisite: None.

Registration Information: Written consent of department required. A maximum of 3 credits may count toward a student's concentration. Course may be repeated up to nine times for elective credit.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 497D Group Study: Asian/Pacific American Cultural Center Credits: Var[1-3] (0-0-0)

Course Description: Application of human development skills in a variety of settings.

Prerequisite: None.

Registration Information: Written consent of department required. A maximum of 3 credits may count toward a student's concentration. Course may be repeated up to nine times for elective credit.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 497E Group Study: Rites of Passage Mentoring Program Credit: 1 (0-0-1)

Course Description: Peer mentoring, assisting with a retreat for incoming first year students, attending seminars/community building forums, community service involvement, providing academic resource information, and leadership development. The goal of this course is to improve the academic performance and retention rate of African American first-year and transfer students.

Prerequisite: None.

Registration Information: Written consent of instructor.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 497F Group Study: Honors Human Development Credits: Var[1-3] (0-0-0)

Course Description: Application of human development skills in a variety of settings.

Prerequisite: None.

Registration Information: Written consent of department required. A maximum of 3 credits may count toward a student's concentration. Course may be repeated up to nine times for elective credit.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 497G Group Study: Human Development Credits: Var[1-3] (0-0-0)

Course Description: Application of human development skills in a variety of settings.

Prerequisite: None.

Registration Information: Written consent of department required. A maximum of 3 credits may count toward a student's concentration. Course may be repeated up to nine times for elective credit.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 498A Research: Human Development Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 498B Research: Family Studies Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 499 Thesis Credits: Var[1-6] (0-0-0)

Course Description: Independent research project presented to a faculty committee.

Prerequisite: None.

Registration Information: Written consent of department chair.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 500 Issues in Human Development & Family Studies Credits: 3 (2-3-0)

Course Description: A selected, broad issue in human development and family studies emphasizing principles of research.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 505 Human Development for Helping Professionals Credits: 3 (3-0-0)

Course Description: An advanced overview of lifespan development, focusing on wellness promotion and developmental influences on case conceptualization and treatment.

Prerequisite: None.

Registration Information: Graduate standing or written consent of instructor. This is a partial semester course. Offered as an online course only.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 515 Family Systems and Psychopathology Credits: 3 (3-0-0)

Course Description: Assessment and diagnosis of mental illness within the context of family systems.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Admission to Marriage and Family Therapy Program.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 520 Family Therapy Practice: Treatment Planning Credits: 3 (1-2-1)

Course Description: Integration of family/couple therapy theories and practice related to treatment planning and internal family systems therapy.

Prerequisite: None.

Registration Information: Admission to the Marriage and Family Therapy Program.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

HDFS 521 Family Therapy Practice: Common Factors Credits: 3 (1-2-1)

Course Description: Application of common factors - e.g., therapeutic alliance - in family and couple therapy.

Prerequisite: None.

Registration Information: Admission to the Marriage and Family Therapy Program. Must register for lecture, laboratory, and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: Yes.

HDFS 524 Family Studies Credits: 3 (2-0-1)

Course Description: Major theories and content areas in the field of family studies with an emphasis on family diversity.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. Must register for lecture and recitation. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 534 Marriage and Family Therapy Credits: 3 (3-0-0)

Course Description: Theories and techniques.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Admission to Marriage and Family Therapy Program or permission of instructor.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 545 Program Evaluation Methods and Statistics Credits: 3 (3-0-0)

Course Description: Introduction to program evaluation methods, empirical research, data analysis, and interpretation in prevention science.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Graduate standing. This is a partial semester course. Offered as an online course only.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 549 Research Methods I Credits: 3 (3-0-0)

Course Description: Introduction to empirical research, data analysis, and interpretation in Human Development and Family Sciences.

Prerequisite: None.

Registration Information: Required: 3 credits of STAT; 3 credits of upper division behavioral sciences.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 550 Research Methods II Credits: 3 (3-0-0)

Course Description: Research strategies and ethical considerations.

Prerequisite: HDFS 549.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 590A Workshop: Human Development Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 590B Workshop: Family Studies Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 592 Grant Writing--Research/Program Development Credits: 3 (1-0-2)

Course Description: Foundational skills underlying grantsmanship for human services professionals in research, community-based programming, and training or professional development. Interactive development of skills to seek funding, think critically, write technically, and work and plan collaboratively in order to develop strong grant proposals across varying contexts.

Prerequisite: None.

Restriction: Must be a: Graduate.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 593 Seminar--Human Services Leadership Credit: 1 (0-0-1)

Course Description: Investigates issues relevant to human development and family studies, such as human services, non-profits, and other enterprises related to helping individuals, couples, and families.

Prerequisite: None.

Registration Information: Junior standing. Admission in a graduate program at Colorado State University or consent of instructor. Must have concurrent registration in HDFS 475. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 600 Professional Development Seminar Credit: 1 (0-0-1)

Course Description: Essential professional development topics in the social sciences. Prepare and apply for a variety of post-graduate positions.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: May be repeated multiple times.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 607 Prevention Science Across the Lifespan Credits: 3 (3-0-0)

Course Description: Theory, methods, interventions, and standards of evidence in preventing mental, emotional, and behavioral disorders.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 608 Program Planning and Implementation Credits: 3 (2-2-0)

Course Description: Design or adapt research-based prevention programs from a family-centered, developmentally appropriate perspective.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 609 Prevention Program Evaluation Credits: 3 (3-0-0)

Course Description: Concepts and practices of program evaluation in prevention science.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 610 Risk and Resilience Credits: 3 (3-0-0)

Course Description: Factors influencing risk for poor developmental outcomes and resilience despite risks or adversities. Risk and resilience are presented as developmental processes influenced by ecological factors residing in families, schools, and neighborhoods.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 611 Early Child Development Credits: 3 (3-0-0)

Course Description: Social, emotional, neurophysiological, cognitive, and contextual factors influencing children's development. Research-based applications to promote optimal development.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 612 Adolescent Development Credits: 3 (2-0-1)

Course Description: Review of key theoretical approaches and empirical research pertaining to the developmental period of adolescence using a multidisciplinary framework for understanding the many different and important facets of adolescent health.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 613 Adult Development and Aging Credits: 3 (2-0-1)

Course Description: Biological, psychological, and selected sociological aspects of individual and interpersonal development in adulthood and aging from a life-span perspective.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 620 Family Therapy Practice: Addictions Credits: 3 (1-2-1)

Course Description: Application of marriage and family therapy theories to clinical practice with a focus on addiction and self-of-the-therapist.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Marriage and Family Therapy Program.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

HDFS 621 Family Therapy Practice: Topics in Sexuality Credits: 3 (1-2-1)

Course Description: Integration of family therapy theories and practice related to topics in sexuality, termination and referral, and one's personal theory of change.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Marriage and Family Therapy Program.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: Yes.

HDFS 624 Skills and Techniques in Family Therapy Credits: 3 (3-0-0)

Course Description: Elaboration of techniques and therapy skills based on theory and research.

Prerequisite: HDFS 534.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Marriage and Family Therapy Program or permission of instructor.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 636 Aging and the Family Credits: 3 (3-0-0)

Course Description: Theory and research relating to topics on aging during middle and late years of family life cycle.

Prerequisite: HDFS 300 to 481 - at least 1 course.

Restriction: Must be a: Graduate, Professional.

Registration Information: One course in adult development or 6 credits of upper-division behavioral science.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 644 Foundations in Family Therapy Credits: 3 (3-0-0)

Course Description: Contemporary research and treatment strategies for parenting problems, family violence, and substance abuse.

Prerequisite: HDFS 534.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Marriage and Family Therapy Program or permission of instructor.

Term Offered: Summer (even years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 650 Multivariate Research Methods I Credits: 3 (2-0-1)

Course Description: Statistical concepts and analysis.

Prerequisite: HDFS 550.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Must register for lecture and recitation.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 676 Professional Skills Development Credits: 3 (3-0-0)

Course Description: Fundamental skills of marriage and family therapy; clinic procedures; case assessment, planning, and management.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Marriage and Family Therapy Program.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 677 Ethical and Legal Issues Credits: 3 (0-0-3)

Course Description: Ethical and legal issues in field of human development and family studies.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 686A Practicum: Human Development Credits: Var[1-15] (0-0-0)

Course Description: Application of human development skills in a variety of professional settings.

Prerequisite: HDFS - at least 9 credits.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 686B Practicum: Family Studies Credits: Var[1-15] (0-0-0)

Course Description: Application of human development skills in a variety of professional settings.

Prerequisite: HDFS - at least 9 credits.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 686D Practicum: Developmental Assessment Credits:

Var[1-15] (0-0-0)

Course Description: Application of human development skills in a variety of professional settings.

Prerequisite: HDFS - at least 9 credits.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 686E Practicum: Early Childhood Education Credits:

Var[1-15] (0-0-0)

Course Description: Application of human development skills in a variety of professional settings.

Prerequisite: HDFS - at least 9 credits.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 687A Internship: Human Development Credits: Var[1-18] (0-0-0)

Course Description: Application of advanced human development skills in professional settings.

Prerequisite: HDFS 500 to 799 - at least 9 credits.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 687B Internship: Family Studies Credits: Var[1-18] (0-0-0)

Course Description: Application of advanced human development skills in professional settings.

Prerequisite: HDFS 500 to 799 - at least 9 credits.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 687C Internship: Marriage and Family Therapy Credits:

Var[1-18] (0-0-0)

Course Description: Application of advanced human development skills in professional settings.

Prerequisite: HDFS 677, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 692A Family Issues: Intimacy and Human Sexuality Credits: 3 (0-0-3)

Course Description: Current issues in the family with implications for intervention, therapy, and policy.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Six credits of upper division behavioral sciences.

Term Offered: Summer (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 692B Family Issues: Parenting Credits: 3 (0-0-3)

Course Description: Current issues in the family with implications for intervention, therapy, and policy.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Six credits of upper division behavioral sciences.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 692C Family Issues: Family Policy and Programming Credits: 3 (0-0-3)

Course Description: Current issues in the family with implications for intervention, therapy, and policy.

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Registration Information: Six credits of upper division behavioral sciences.

Term Offered: Summer (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 692D Family Issues: Contemporary Family Issues Credits: 3 (0-0-3)

Course Description: Current issues in the family with implications for intervention, therapy, and policy.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Six credits of upper division behavioral sciences.

Terms Offered: Fall, Spring, Summer. Offered as needed.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 693 Capstone Seminar Credits: 3 (0-0-3)

Course Description: Essential topics in writing a thesis or capstone project, including literature searches, data analytic plans, data analyses, articulating research findings, and presenting on research.

Prerequisite: HDFS 550.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

HDFS 695A Independent Study: Human Development Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 695B Independent Study: Family Studies Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 695C Independent Study: Early Childhood Education Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 697 Group Study Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Graduate cooperative program, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 698A Research: Human Development Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 698B Research: Family Studies Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: HDFS 550.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

HDFS 710 Theories of Applied Developmental Science Credits: 3 (3-0-0)

Course Description: Theories of applied developmental science, and implications for intervention and policy.

Prerequisite: HDFS 500.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 750 Multivariate Research Methods II Credits: 3 (3-0-0)

Course Description: Applications of multivariate methods to research in applied developmental science.

Prerequisite: HDFS 650.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 772 Marriage and Family Therapy Supervision Credits: 3 (2-0-1)

Course Description: Prepares professionals to supervise marriage and family therapists in a variety of settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 792A Seminar: Lifespan Socioemotional Development Credits: 3 (0-0-3)

Course Description: Current issues in applied developmental science involving a synthesis of theory, research, and application.

Prerequisite: HDFS 500.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 792B Seminar: Lifespan Cognitive Development Credits: 3 (0-0-3)

Course Description: Current issues in applied developmental science involving a synthesis of theory, research, and application.

Prerequisite: HDFS 500.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring (even years).

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 792C Seminar: Special Topics Credits: 3 (0-0-3)

Course Description: Current issues in applied developmental science involving a synthesis of theory, research, and application.

Prerequisite: HDFS 500.

Restriction: Must be a: Graduate, Professional.

Grade Mode: Traditional.

Special Course Fee: No.

HDFS 799 Dissertation Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

Major in Early Childhood Education

In collaboration with Educator Preparation (<http://cep.chhs.colostate.edu/>) within the School of Education (<http://soe.chhs.colostate.edu/>) (SOE), the Department of Human Development and Family Studies (HDFS) provides an Early Childhood Education Major with teacher licensure (ECE-L).

The ECE-L degree enables students to apply for Early Childhood with teacher licensure and Director Qualification (https://www.coloradoofficeofearlychildhood.com/oec/OEC_Providers/?p=Providers&s=Professional-Certifications&lang=en) in the state of Colorado and will qualify students to engage in a number of early childhood professions including teaching grades Pre-K to 3rd in public or private schools in Colorado, teaching in Head Start or other preschool or child care programs, providing infant and toddler programming, establishing a business as a family child care center or child care provider, and serving as director of a child care center. An understanding of human development and family studies provides a strong foundation for students desiring a license to teach young children between the ages of 0 and 8. Knowledge of lifespan developmental processes and family systems prepares future teachers to work in partnership with families in educating children. Students who earn the ECE-L degree also earn a minor in HDFS without taking additional coursework.

Students are encouraged to declare the ECE major during their freshman or sophomore years and are required to meet with their HDFS advisor during the first semester of their sophomore year. Following a review process, ECE students will transition into the formal teacher licensure program in semester 4, when the ECE-L designation will be added to their academic record. Students are also encouraged to carefully review the program of study as some program requirements must be completed before beginning teacher licensure coursework (e.g., the EDUC sequence). Students move through licensure coursework as a cohort, starting fall semester of junior year. Students in the ECE-L major achieve both Early Childhood Education core learning outcomes obtained through HDFS and EDUC courses, and the educator competencies required by the Colorado Department of Education for Early Childhood Education teacher licensure.

Learning Objectives

Students will demonstrate:

1. Content knowledge and understanding of theory, research, and practice relevant to optimizing the development, health, and well-being of children and families in the context of the larger social environment.
2. Effective written and oral communication skills appropriate for early childhood educators interfacing with colleagues, children, and parents/guardians.
3. The ability to access, critically evaluate, and apply multiple forms of information related to children and families.
4. Professional and leadership skills with individuals and families, including ethical and culturally sensitive conduct.
5. Knowledge and skill in teaching and assessing literacy, mathematics, social studies, science, music, art, and physical education in early childhood.

Learn more about the Early Childhood Education major on the Department of Human Development and Family Studies website. (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/b-s-in-early-childhood-education-with-teacher-licensure/>)

Requirements

Effective Fall 2022

Students must complete the following courses with a C (2.000) or better to fulfill requirements for the major: all EDUC courses, all HDFS courses, and PSY 460.

Freshman

		AUCC	Credits
CO 150	College Composition (GT-CO2)	1A	3
HDFS 101	Individual and Family Development (GT-SS3)	3C	3
HDFS 217	Creative Experiences for Children		3
HDFS 277	Introductory Seminar in HDFS		1
PSY 100	General Psychology (GT-SS3)	3C	3
Select one course from the following: ¹			3-4
BZ 101	Humans and Other Animals (GT-SC2)	3A	
LIFE 102	Attributes of Living Systems (GT-SC1)	3A	
Arts and Humanities		3B	3
Diversity, Equity, and Inclusion		1C	3

HDFS 492	Capstone—Evidence-Based Program Proposals	4C	3
Elective			2
Total Credits			28
Program Total Credits:			120

¹ BZ 101 or LIFE 102 is required for the major in the freshman year. Select the remaining credits and course(s) from the list of courses in category 3A of the AUCC.

² Select from the list of HIST courses in category 3D of the AUCC.

Major Completion Map

Distinctive Requirements for Degree Program:

Students seeking admission to the Early Childhood Education (ECE) Major with teacher licensure must formally apply and be accepted. The admission process into the program takes place once a year in the spring with the admitted candidates starting the program the following fall. All coursework within the Center for Educator Preparation (CEP) requires a 4 semester (or 2 year) consecutive commitment to complete, therefore EDUC subject code courses must be taken in the semester indicated. Requirements for applying to the ECE major: 1) Must have a 2.75 GPA or better, 2) Suggested to have completed 60 credits (or more) by the end of the semester in which the student is applying (typically students apply their second semester sophomore year), 3) Must have 20 hours of volunteer or work service with children ages 0-8 years (experience must have been within the last 5 years), 4) Must have 3 references. All HDFS subject code courses and EDUC subject code courses must be completed with a grade of C (2.000) or higher. Students will be required to pass a criminal arrest record background check prior to participating in field placement courses. Students will complete a graduation contract with an HDFS Academic Advisor during the first two weeks of the semester in which they are graduating.

Major in Human Development and Family Studies

Human Development and Family Studies (HDFS) is an interdisciplinary major focusing on the health and development of individuals across the lifespan, within the context of diverse families and social identities. Students complete coursework in human development (i.e., infancy and childhood, adolescence, emerging and young adulthood, middle and later adulthood/aging), family studies, and evidence-based prevention and intervention programming in human services. Students study theory and emerging research in the field and learn to identify risk and protective factors influencing cognitive, emotional, social, and physical development across the lifespan. During their final year, HDFS students apply knowledge and skills from course work through completion of a semester-long internship. Internship is a hallmark of the degree program that serves as a culminating experience preparing students for a professional career with diverse populations, communities, and organizations.

The HDFS major offers five concentrations that enable students to specialize within their degree and prepare for a variety of career paths in human services. Students can also pursue teacher licensure through the Major in Early Childhood Education, Director Qualifications in early childhood settings, the Gerontology Interdisciplinary Minor, the Certificate in Disability and Neurodiversity, or the Certificate in Youth Mentoring with Campus Connections. The HDFS department is committed to promoting the success and well-being of students from underrepresented backgrounds.

Learning Objectives

Students will demonstrate:

1. Content knowledge and understanding of theory, research, and practice relevant to optimizing the development, health, and well-being of individuals and families across the lifespan in the context of the larger social environment.
2. Effective written and oral communication skills appropriate to the field of human development and family studies.
3. The ability to access, critically evaluate, and apply multiple forms of information related to individuals and families.
4. Professional and leadership skills with individuals and families, including ethical and culturally sensitive conduct.

Potential Occupations

Graduates with a major in HDFS are prepared to work in a range of human service sector settings including youth services organizations; early childhood, elementary, adolescent, and parent education programs; health-care settings; juvenile and adult corrections and criminal justice; family and community services; and programs serving older adults, including long-term care facilities. HDFS graduates are also well prepared to pursue graduate studies in mental health, behavioral and social sciences, education, health and medicine, policy and public health, and other professional programs. Students interested in teaching human development and family studies content at the secondary level should explore the interdepartmental Major in Family and Consumer Sciences, Family and Consumer Sciences Education Concentration.

Some examples of career opportunities students may pursue with a bachelor's degree in HDFS include, but are not limited to: early childhood administrator and teacher, adult recreation programmer, administrator in

adult and aging facilities, career development specialist, family services specialist, human development specialist, adult education teacher, human resources coordinator, youth agency administrator, community outreach worker, women's program administrator, youth intervention and prevention program administrator, youth employment, training, and development specialist, parent educator, children-family educator, child protection worker, family assistance worker, program administrator, public relations specialist, student affairs professional, youth services worker, case manager, nonprofit agency administrator, and residential center manager.

To help guide students in career planning, there are five concentrations within the Major in Human Development and Family Studies. The HDFS program of study consists of 39 credits of HDFS foundational courses, which are required for all students regardless of concentration, 15 credits selected from the list of courses within students' chosen concentration, and elective courses necessary to reach the minimum of 120 credits required for graduation. Students must declare at least one concentration and may declare up to two concentrations in the HDFS major. The declared concentration(s) are listed on the students' transcripts and thus indicate specialized training within the HDFS degree program.

Concentrations

- Early Childhood Professions Concentration
- Human Development and Family Studies Concentration
- Leadership and Advocacy Concentration
- Pre-Health Professions Concentration
- Prevention and Intervention Sciences Concentration

Online Degree Program

The major in Human Development and Family Studies (HDFS) is offered in two formats, both leading to a Bachelor of Science degree. The major in Human Development and Family Studies offered through CSU Online provides a flexible, convenient, and accessible format for busy, working, or distance students. The online program of study is the same as the on-campus version, is fully accredited, and is indistinguishable on student transcripts and diplomas from the on-campus version. The Gerontology Interdisciplinary Minor (<https://www.online.colostate.edu/certificates/undergraduate.dot>) and courses required to pursue a variety of certifications are also available online. [On-campus students are welcome in HDFS courses through CSU Online and should speak with their advisor and financial aid representative about financial implications.](#)

Accelerated Program

The major in Human Development and Family Studies includes an accelerated program option (<https://provost.colostate.edu/accelerated-programs/>) for students to graduate on a faster schedule. Accelerated Programs typically include 15-16 credits each fall and spring semester for three years, plus 6-9 credits over three summer sessions (<https://summer.colostate.edu/acceleratedprograms/>). Students who enter CSU with prior credit (AP, IB, transfer, etc.) may use applicable courses to further accelerate their graduation. Visit the Office of the Provost website for additional information about Accelerated Programs (<https://provost.colostate.edu/accelerated-programs/>).

Learn more about the Human Development and Family Studies major on the Department of Human Development and Family Studies website (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/b-s-in-human-development-and-family-studies/>).

Major in Human Development and Family Studies, Early Childhood Professions Concentration

The courses in the Early Childhood Professions concentration prepare students for careers in early childhood education as well as professional work with children across a variety of settings, including working with children with disabilities, in healthcare settings, and community agencies. This concentration focuses on early childhood development from birth to eight years old and is the preferred choice for students interested in early childhood education careers that do not require teacher licensure, for students who will pursue a graduate degree and licensure in childhood education, and those interested in combining this concentration with another concentration in pre-health, prevention and intervention sciences, or leadership and advocacy professions. The curriculum incorporates courses from several disciplines that focus on early childhood development, education, diversity, and professional skills.

Learn more about the Human Development and Family Studies major on the Department of Human Development and Family Studies website. (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/b-s-in-human-development-and-family-studies/>)

Requirements

Effective Fall 2024

A minimum grade of C (2.000) is required in all courses used to satisfy the requirements of the Major in Human Development and Family Studies, Early Childhood Professions Concentration. Courses used as substitutions also require a minimum grade of C (2.000).

Major in Human Development and Family Studies, Human Development and Family Studies Concentration

The Human Development and Family Studies concentration is a general concentration available to HDFS majors who do not choose one of the more specific concentrations. This general concentration is an excellent choice for students who are interested in a lifespan focus, a more general focus in HDFS, or are exploring their career interests within the HDFS field. Students choosing this concentration will be preparing to enter a variety of careers or graduate programs. The curriculum includes primarily HDFS, psychology, and social work courses as well as selected

courses from other disciplines for a well-rounded and robust education in human development and family studies. By selecting this concentration, students have an opportunity to participate in a variety of experiential learning courses and internship options as they explore and prepare for their career path and additional credentialing options. Please note that the HDFS general concentration cannot be paired with one of the other four concentrations.

Major in Human Development and Family Studies, Leadership and Advocacy Concentration

The Leadership and Advocacy Concentration guides students who are preparing for leadership in organizations that promote the optimal development of individuals and families, with a focus on equity and inclusion. This concentration includes course work in advocacy and social justice as well as opportunities to study finance, management, marketing, public policy, professional communication, and leadership. Students in this concentration are prepared to work with diverse populations across a spectrum of human services positions in healthcare, education, mental health, government, and business, creating possible career pathways into roles of directors, managers, or owners

within these fields. This concentration is also relevant for students seeking positions in student affairs, human resources, healthcare or education access and advocacy, and non-profit organizations. Students preparing for careers or advanced study in advocacy and legal services, such as advocates, lawyers, or policy-makers would also be well-suited to this concentration. Students in this concentration may also choose to pursue additional credentials in leadership, business, entrepreneurship, and design thinking.

Learn more about the Human Development and Family Studies major on the Human Development and Family Studies website. (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/b-s-in-human-development-and-family-studies/>)

Requirements

Effective Fall 2024

A minimum grade of C (2.000) is required in all courses used to satisfy the requirements of the Major in Human Development and Family Studies, Leadership and Advocacy Concentration. Courses used as substitutions also require a minimum grade of C (2.000).

¹ Students with substantial concentration-specific work experience may petition the Director of Undergraduate Advising in HDFS to replace HDFS 488E with additional coursework and complete HDFS 478 instead of HDFS 477A or HDFS 477B.

² Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

³ Courses selected to fulfill All-University Core Curriculum (AUCC) requirements may not double count toward the Leadership and Advocacy Concentration Course requirement.

⁴ Participation in the Campus Connections Learning Community is required for registration into HDFS 497G.

⁵ Other 300 and 400 level courses related to Diversity, Equity, Inclusion, and Justice subject to advisor approval.

Major Completion Map

Distinctive Requirements for Degree Program:

Human Development and Family Studies is an open-entry major for freshmen. For sophomores and above, students must complete and/or be enrolled in HDFS 101, PSY 100 or SOC 100 in order to declare HDFS. HDFS subject code courses must be completed with a grade of C (2.000) or higher.

Background check required prior to participating in the internship course (HDFS 488E) during the senior year. Students will complete a graduation contract with an HDFS Academic Advisor during the first two weeks of the semester in which they are graduating.

Major in Human Development and Family Studies, Pre-Health Professions Concentration

Many students pursuing a degree in Human Development and Family Studies plan to apply to graduate or professional programs in a variety of health professions. The Pre-Health Professions concentration

prepares students for these careers and supports their goals of obtaining graduate training. Some of the careers students in this concentration pursue are nurse, dentist, occupational therapist, physical therapist, optometrist, pharmacist, veterinarian, allied health practitioner, anesthesiologist assistant, child life specialist, chiropractor, dentist, medical doctor, music therapist, naturopathic or complementary medicine practitioner, physician's assistant, podiatrist, public health educator, or speech and language pathologist. The courses within this concentration include a focus on science and are designed to prepare students to work with individuals (and their families) with disabilities, mental and physical illness, or those experiencing death, dying, or grief. In addition, students in this concentration are strongly encouraged to consult with the Health Professions Advising (<https://hp.colostate.edu/>) team in the Collaborative for Student Achievement (<http://studentachievement.colostate.edu/>) for the specific course (and corresponding course prerequisite) recommendations based on the credentials that they are pursuing, as the prerequisite requirements vary for graduate and professional programs.

Learn more about the Human Development and Family Studies major on the Department of Human Development and Family Studies website (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/b-s-in-human-development-and-family-studies/>).

Requirements

Effective Fall 2024

A minimum grade of C (2.000) is required in all courses used to satisfy the requirements of the Major in Human Development and Family Studies, Pre-Health Professions Concentration. Courses used as substitutions also require a minimum grade of C (2.000).

Major in Human Development and Family Studies, Prevention and Intervention Sciences Concentration

The Prevention and Intervention Sciences concentration is designed for students who are preparing for careers in the helping and human services professions such as counselors, educators, student affairs

professionals, public health and social service providers, as well as for students seeking a research career in human development and family studies or a related field. This concentration offers students specialized training in programming related to promoting individual, family, and community health and wellness through the lifespan. This concentration is an excellent choice for students interested in careers requiring either a bachelor's degree or additional credentials. Coursework emphasizes evidence-based programs, and students will learn how to design and implement community-based prevention and intervention programs for youth, adults, and families. Students can focus on a specific aspect of the lifespan or choose courses across the lifespan. The course work also serves as an excellent second concentration to students focusing on early childhood, pre-health professions, or leadership and advocacy professions.

Learn more about the Human Development and Family Studies major on the Department of Human Development and Family Studies website (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/b-s-in-human-development-and-family-studies/>).

Minor in Human Development and Family Studies

The Human Development and Family Studies minor provides students across all majors with an opportunity to select course work relevant to their career goals. Students will learn about human development at various stages of the lifespan, within the context of diverse families and social identities. This minor offers students the opportunity to expand their thinking about how relationships, family, culture, biological make-up, and environmental factors influence outcomes related to thinking skills, physical health, and social-emotional well-being across the life cycle. Students will gain an awareness of how to optimize their own and other's development in their careers and personal lives. The HDFS department is committed to promoting the success and well-being of students from underrepresented backgrounds.

Learning Objectives

Upon successful completion of the Minor in Human Development and Family Studies, students will have:

1. Foundational knowledge of human development within the context of diverse families, social identities, and environmental influences.
2. Knowledge and skills for optimizing the development, health and well-being of individuals and families relevant to their field(s) of interest.

Learn more about the Minor in Human Development and Family Studies on the Department of Human Development and Family Studies website. (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/minor-in-human-development-and-family-studies/>)

Requirements Effective Fall 2024

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- & 400-level) credits. Additional courses may be required due to prerequisites.

A maximum of 6 credits may double-count with the Gerontology Interdisciplinary Minor, the Certificate in Youth Mentoring, and the Certificate in Disability and Neurodiversity.

A minimum grade of C (2.000) is required in each course used to satisfy the requirements of the Minor in Human Development and Family Studies. Courses used as substitutions also require a minimum grade of C (2.000).

Code	Title	Credits
Required Course:		
HDFS 101	Individual and Family Development (GT-SS3)	3
Electives:		
Select a minimum of 18 credits from the following (a minimum of 12 credits must be 300-level or higher):		18
HDFS 201	Perspectives in Gerontology	3

HDFS 217	Creative Experiences for Children	3
HDFS 250	Introduction to Research Methods	3
HDFS 275	Foundational Helping Skills	3
Six credits of the following may count:		
HDFS 286A	Practicum: Human Development and Family Studies (Practicum: Human Development and Family Studies)	
HDFS 286B	Practicum: Early Childhood Professions (Practicum: Human Development and Family Studies)	
HDFS 286C	Practicum: Pre-Health Professions (Practicum: Pre-Health)	
HDFS 286D	Practicum: Prevention and Intervention Sciences (Practicum: Pre-Health)	
HDFS 286E	Practicum: Leadership and Advocacy (Practicum: Leadership)	
HDFS 310	Infant and Child Development in Context	3
HDFS 311	Adolescent and Emerging Adult Development	3
HDFS 312	Adult Development-Middle Age and Aging	3
HDFS 315	Disability Across the Lifespan and Culture	3
HDFS 317	Disabilities in Early Childhood Education	3
HDFS 318	Infancy and Toddlerhood	3
HDFS 332	Death, Dying, and Grief	3
HDFS 334	Family and Parenthood Across the Lifespan	3
HDFS 350	Applied Research Methods	3

HDFS 412	Mental and Physical Health in Adulthood	3
HDFS 434	Risk and Resilience Across the Lifespan	3
HDFS 439	Administration of Early Childhood Programs	3
HDFS 445/FSHN 445	Early Childhood Health, Safety, and Nutrition	3
Six credits of the following may count:		
HDFS 470A	Campus Connections: Youth Mentor	
HDFS 470B	Campus Connections: Mentor Coach	
HDFS 470C	Campus Connections: Program Administration	
HDFS 475	Leadership and Advocacy in Human Services	3
HDFS 484	Supervised College Teaching ¹	1-3
Six credits of the following may count:		

HDFS 498A	Research: Human Development	
HDFS 498B	Research: Family Studies	
Program Total Credits		21

¹ A maximum of 6 credits of HDFS 484 may count.

Certificate in Disability and Neurodiversity

The undergraduate Certificate in Disability and Neurodiversity provides an interdisciplinary understanding of individuals across the lifespan with disabilities and is relevant to majors and careers in health, education, rehabilitation, and human service professions. Students will explore how disabilities interact with health, life outcomes, family, society, stigma, and the physical environment, and intersect with identities such as race and gender. This certificate consists of basic coursework as well as experiential learning through research or field experiences. This certificate is open to students in all majors.

Learning Objectives

Upon successful completion of this certificate, students will be able to:

1. Demonstrate knowledge of the history, philosophy, definitions, and rights related to disabilities and developmental disabilities.
2. Use content knowledge to investigate or optimize the development, health, and well-being of individuals with disabilities.
3. Acquire knowledge regarding the causes, outcomes, and interventions of commonly occurring disabilities and health conditions (e.g., congenital disabilities, diabetes, spinal cord injuries).
4. Describe concepts related to independence, inclusion, ableism, stigma, choice and self-determination, empowerment, access, stigma, identity politics, and acceptance for individual differences as they relate to disability, life stage, and culture.

Requirements Effective Fall 2024

Additional coursework may be required due to prerequisites. A minimum of 9 credits must be upper division. Some elective courses are restricted to majors, minors, or honors students. Other related courses may be substituted upon approval of the certificate advisor. A maximum of 6 credits may double-count with the Gerontology Interdisciplinary Minor, the Certificate in Youth Mentoring, and the Minor in Human Development and Family Studies.

Code	Title	Credits
Required Course:		
HDFS 315	Disability Across the Lifespan and Culture	3
Select 6 credits from the following:		6
ANEQ 351	Techniques in Therapeutic Riding	
ETST 270	Introduction to Critical Disability Studies	
ETST 420	Disability, Race, Gender in the Environment	
HDFS 317	Disabilities in Early Childhood Education	
HDFS 372/ AGED 372	Inclusive Mentoring for Neurodiverse Peers	
HDFS 410	Promoting Early Socioemotional Development	

HDFS 412	Mental and Physical Health in Adulthood
HES 345	Population Health and Disease Prevention
or HES 354	Theory of Health Behavior
LASL ***	American Sign Language
MU 241	Introduction to Music Therapy ¹
OT 355	The Disability Experience in Society
Select a minimum of 3 credits directly related to disabilities from the following ²	
AHS 487B	Human Services Internship: Gerontology ³
HDFS 286A-E	Practicum
HDFS 470A	Campus Connections: Youth Mentor
HDFS 488A-E	Internship ¹
HDFS 498A	Research: Human Development
HES 486	Practicum–Wellness Program Management ¹
HONR 499	Senior Honors Thesis ⁴
SOWK 488	Field Placement ¹
Program Total Credits:	
12	

¹ Restricted to majors only.

² Only practica, internships, research assistantships, and theses focused on disabilities or neurodiversity are eligible. Other courses are eligible as appropriate.

³ Restricted to Gerontology Interdisciplinary Minors only.

⁴ Restricted to honors students only.

Certificate in Youth Mentoring with Campus Connections

Campus Connections (CC) Youth Mentoring program is a nationally recognized, award winning, high-impact, multidisciplinary, service-learning experience offered for credit through Human Development and Family Studies at CSU. CC is a structured mentoring program that promotes undergraduate student success at CSU and after graduation, particularly for underrepresented groups of students; promotes the resilience and life success of at-risk youth; prepares clinical graduate students for diverse settings; and responds to community initiatives to better serve at-risk youth and their families.

The 9-credit undergraduate certificate in Youth Mentoring with Campus Connections enables students to develop invaluable professional skills,

gain significant experience with adolescents, and evolve as leaders. Based on multiple semesters of involvement with CC, many students launch their careers working with youth in education, social services, criminal justice, and other relevant professions. The CC experience often serves as the focus of their graduate school essays and is highlighted during interviews with employers setting them apart from their peers.

Learning Objectives

Students will:

1. Critically examine issues concerning youth and adolescent development and appropriately apply theories of mentoring.
2. Analyze models of power, privilege, bias, oppression, diversity, and social justice to better understand their own identity and experiences of those with identities other than their own.
3. Develop leadership skills including group activity facilitation, redirection, case record-keeping, and experience with youth.
4. Understand the inner workings of youth mentoring programs, including youth recruitment, case management, mentor training, leadership development, and community partnerships.

Learn more about the Certificate in Youth Mentoring on the Campus Connections program website. (<https://www.chhs.colostate.edu/cc/csu-student-involvement/certificate-in-youth-mentoring-with-campus-connections/>)

Requirements Effective Fall 2020

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Required Course:		
HDFS 470A	Campus Connections–Mentoring At-Risk Youth: Youth Mentor ¹	3
Select two courses from the following (or 6 credits if variable credit):		6
HDFS 470A	Campus Connections–Mentoring At-Risk Youth: Youth Mentor ¹	
HDFS 470B	Campus Connections–Mentoring At-Risk Youth: Mentor Coach	
HDFS 470C	Campus Connections–Mentoring At-Risk Youth: Program Administration	
HDFS 488A	Internship: Human Development and Family Studies ²	
HDFS 488C	Internship: Pre-Health ²	
HDFS 488D	Internship: Prevention/Intervention Science ²	
HDFS 488E	Internship: Leadership ²	
HDFS 497G	Group Study: Human Development ³	
HDFS 498A	Research: Human Development ⁴	
PSY 488	Field Placement ²	
SOWK 488	Field Placement ²	
Program Total Credits:		9

¹ Only six credits of HDFS 470A may be applied to the certificate.

² Only internships with Campus Connections are eligible. May substitute other departmental internships with Campus Connections approval.

³ Participation in the Campus Connections Learning Community is required for registration into HDFS 497G.

⁴ Participation in Campus Connections research is required for registration into HDFS 498A.

Graduate Certificate in Prevention Program Planning & Evaluation

The online Graduate Certificate in Prevention Program Planning and Evaluation provides graduate students and post-baccalaureate professionals from a variety of disciplines with specialized training in prevention science, including theory, methods, design, implementation, evidence-based practice, and knowledge of evidence-based programs implemented in schools, families, and communities.

This combination of formal education and functional knowledge prepares graduate students and professionals for career advancement in a range of fields that relate to working with individuals and families in the development and evaluation of prevention programming, including working in community agencies, governmental and human services agencies, for-profit and not-for-profit research and advocacy organizations, and at different levels of the educational system, including university-based research and education.

Students interested in graduate work should refer to the Graduate and Professional Bulletin.

Learning Objectives

Upon successful completion of this certificate, students will be able to:

1. Examine theory, methods, interventions, and standards of evidence in preventing mental, emotional, and behavioral disorders.
2. Practice research-based prevention programs from a family-centered, developmentally appropriate perspective.
3. Explain concepts and practices of program evaluation in prevention science.
4. Select evidence-based prevention programs for greater sustainability of community based programs.
5. Conduct prevention program evaluations.

Learn more about the Graduate Certificate in Prevention Program Planning & Evaluation on the CSU Online website. (<https://www.online.colostate.edu/certificates/prevention-program-planning/>)

Requirements Effective Spring 2021

Additional coursework may be required due to prerequisites.

Code	Title	Credits
Required Courses:		
HDFS 545	Program Evaluation Methods and Statistics	3
HDFS 607	Prevention Science Across the Lifespan	3
HDFS 608	Program Planning and Implementation	3
HDFS 609	Prevention Program Evaluation	3
Program Total Credits:		12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Master of Prevention Science Practice, Plan C (M.P.S.P.)

The online Master of Prevention Science Practice (<https://www.online.colostate.edu/degrees/prevention-science-practice/>) trains graduates to implement evidence-based prevention programs for use at the community-level in preventing mental, emotional, and behavioral disorders. The course work emphasizes lifespan developmental processes and normative family functioning, as well as theories of prevention science and risk and resilience. Students gain skills such as program planning and evaluation, program administration, grant writing, and technical communication. The curriculum adheres to the Society for Prevention Research's criteria for online Master's programs in Prevention Science. M.P.S.P. graduates are competitive for positions in a variety of health care, social service, or educational agencies with titles such as Social Service Specialist, Social or Community Service Manager, Health Promotion Specialist, Mental Health Consultant, Child Welfare Specialist, Behavior Health Specialist, or Prevention Specialist.

[Students interested in graduate work should refer to the Graduate and Professional Bulletin.](#)

Learning Objectives

Upon successful completion, students will be able to:

1. Examine developmental theory, methods, intervention, and standards of evidence in preventing mental, emotional and behavioral disorders.
2. Practice research-based prevention programs from a family-centered, developmentally appropriate perspective.
3. Explain concepts and practices in prevention science and program evaluation.
4. Select evidence-based prevention programs for greater sustainability of community-based programs.

Requirements Effective Spring 2022

Code	Title	Credits
Required Courses		
HDFS 505	Human Development for Helping Professionals	3
HDFS 524	Family Studies	3

A minimum of 30 credits are required to complete this program.

Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees in the Graduate and Professional Bulletin.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made

9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Master of Science in Human Development and Family Studies, Plan A

Human development and family studies (HDFS) focuses on processes of development across the lifespan at the individual level and within families. At the level of the individual, the emphasis is on the causes and correlates of developmental change and stability across the lifespan. Topics of study include biological bases of development, cognitive development (e.g., perception, learning, memory), social-emotional development (e.g., social competence, self-regulation, attachment styles), and development of and in social relationships across the lifespan.

Family studies is a broad, multidisciplinary area of inquiry that can be approached from different levels of analysis and with a wide range of methodological tools. Research addresses the study of family structures and the connection of family systems with other social structures (e.g., school, workplace, etc.), and their implications for changes in the nature and quality of family relationships. The field of family studies also focuses on the effect of family structure on the development of individuals within the family, as well as relationship dynamics among family members (e.g., parent-child relationships, sibling relationships, cross-generational relationships), and the influences of these dynamics on physical and mental development across the life course.

On their way to the master's degree, students gain knowledge about typical (i.e., normative) and atypical development at the individual level and at the level of the family and related social institutions. This includes knowledge about development-promoting and development-hindering conditions, such as poverty, health disparities, or social disadvantages, and how risk and resilience factors play out over the life course. Students also acquire skills in the application and interpretation of quantitative and

qualitative research methods, the rigorous design of research studies, and program planning and evaluation.

Graduates of this program enter careers in different human service and educational settings, including schools, behavioral health organizations, advocacy organizations, organizations serving older adults, and organizations focusing on social policy and public health issues. Graduates are equipped to assist with the design of intervention programs, the analysis of qualitative and quantitative data collected by such programs, and the dissemination of research findings to a broad array of audiences.

Learn more about the Master of Science in Human Development and Family Studies, Plan A on the Department of Human Development and Family Studies website. (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/m-s-in-human-development-and-family-studies/>)

[Students interested in graduate work should refer to the Graduate and Professional Bulletin.](#)

Learning Objectives

Students will learn the fundamental principles of human development and family studies from a lifespan developmental and life course perspective, and will specialize in a particular content area (e.g., early childhood development; adolescent development; adult development and aging).

Specifically, successful students will be able to:

1. Demonstrate a detailed knowledge of the fundamental propositions of lifespan developmental and life course theory, and develop a strong appreciation for the multidisciplinary nature of HDFS.
2. Demonstrate skills in the use of qualitative and quantitative research methods to design empirical studies addressing basic and applied research questions in a rigorous scientific way.
3. Demonstrate knowledge and skills to analyze data in a rigorous way, and communicate research findings within the scientific community and to constituent audiences.
4. Apply findings from basic research to practical problems that have been identified as impediments to individuals' development and the optimal functioning of families.
5. Communicate and disseminate research findings generated in the field of HDFS effectively to a variety of audiences.

Master of Science in Human Development and Family Studies, Marriage and Family Therapy Specialization, Plan A and Plan B

The Marriage and Family Therapy Specialization, which is accredited by the Commission on the Accreditation of Marriage and Family Therapy Education (<http://coamfte.org>), provides a specific professional curriculum that prepares graduates to work as marriage and family therapists. Courses focus on individual and family development, evidence-based clinical practices, social justice frameworks, and research methods. Students also complete a thesis (Plan A) or capstone project (Plan B). Training includes practicum and internship experiences with live supervision in the CSU Center for Family and Couple Therapy

(<https://www.chhs.colostate.edu/cfct/>), CSU Campus Connections: Therapeutic Youth Mentoring (<https://www.chhs.colostate.edu/cc/>), and the CSU Trauma and Resilience Assessment Center (<https://www.chhs.colostate.edu/ctrac/>), all located on CSU's campus under the direction of faculty in the MFT program. Most graduates of this program go on to work as therapists in private practice or in mental health agencies. Some students enter doctoral programs upon graduation, including CSU's Ph.D. in Applied Developmental Science.

Learn more about the Master's in Human Development and Family Studies, Marriage and Family Therapy Specialization, Plan A and Plan B, on the Department of Human Development and Family Studies website (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/m-s-in-human-development-and-family-studies/marriage-and-family-therapy-specialization/>).

Master of Science in Human Development and Family Studies, Plan A, Prevention Science Specialization

The Prevention Science Specialization coursework focuses on lifespan developmental processes and normative family functioning, as well as theories of prevention science and risk and resilience. Students gain skills such as program planning and evaluation, program administration, grant writing, research design, and technical communication. Graduates of this specialization enter careers in managing prevention and intervention programs in human services and the non-profit sector, program evaluation, policy analysis, and education.

Students interested in graduate work should refer to the Graduate and Professional Bulletin.

Learning Objectives

Upon successful completion, students will be able to:

1. Identify methods for planning and implementing interventions for mental, emotional, and behavioral disorders.
2. Design and adapt research-based prevention programs from a school-, family-, and community-centered, developmentally appropriate perspective.
3. Plan and implement evidence-base prevention programs, leading to greater sustainability of community based programs.

HDFS 609	Prevention Program Evaluation	3
HDFS 610	Risk and Resilience	3
HDFS 650	Multivariate Research Methods I	3

Selected Courses

Select 6 credits from the following: 6

HDFS 611	Early Child Development
HDFS 612	Adolescent Development
HDFS 613	Adult Development and Aging
HDFS 636	Aging and the Family
HDFS 692A	Family Issues: Intimacy and Human Sexuality
HDFS 692B	Family Issues: Parenting
HDFS 792A	Seminar: Lifespan Socioemotional Development
HDFS 792B	Seminar: Lifespan Cognitive Development
Electives ¹	

Thesis

HDFS 693	Capstone Seminar	3
HDFS 699	Thesis	3

Program Total Credits: 42

A minimum of 42 credits are required to complete this program.

¹ Select enough 500-level or above elective credits with approval of advisor and graduate committee to bring the program total to 42 credits.

Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees in the Graduate and Professional Bulletin.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration

4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/ Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/ dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Ph.D. in Applied Developmental Science

The Ph.D. in Applied Developmental Science emphasizes how basic research in human development can inform programs designed to prevent problems and enhance well-being across the lifespan. Students gain knowledge in lifespan human development theory, basic and applied research skills, and the translation of science into practices and programs to address a wide range of social and public health problems. Graduates from the applied developmental science program are equipped to work in settings such as academia, for-profit, and not-for-profit research and advocacy organizations, governmental and human services agencies, or community agencies that promote the health and well-being of individuals, families, and communities.

Students can enter the ADS program with a completed master's degree or with a completed bachelor's degree. Students entering with a bachelor's degree will be required to complete a master's in Human Development and Family Studies en route to the Ph.D., with a specialization in Prevention Science (<http://catalog.colostate.edu/general-catalog/colleges/health-human-sciences/human-development-family-studies/plan-a-ms-human-development-family-studies-prevention-science-specialization/>), Marriage and Family Therapy (<https://catalog.colostate.edu/general-catalog/colleges/health-human-sciences/human-development-family-studies-marriage-therapy-specialization-plan-a-plan-b/>), or general Human Development and Family Studies (<https://catalog.colostate.edu/general-catalog/colleges/health-human-sciences/human-development-family-studies/plan-a-ms-human-development-family-studies/>).

Students interested in graduate work should refer to the Graduate and Professional Bulletin.

Learn more about the Ph.D. in Applied Developmental Science on the Department of Human Development and Family Studies website (<https://www.chhs.colostate.edu/hdfs/programs-and-degrees/ph-d-in-applied-developmental-science/>).

Learning Objectives

ADS students will:

1. Synthesize and apply in-depth knowledge of theories and research related to systematic developmental changes in humans across the lifespan as well as an ecological perspective.
2. Demonstrate the ability to translate theory and research into effective community- or school-based prevention programs and/or policy initiatives that improve human well-being.
3. Apply state-of-the-art research methods for conducting laboratory- and field-based research to (a) the design of a methodologically sound empirical dissertation, (b) writing manuscripts for publication of original research in top peer-reviewed journals, and (c) the conduct of sophisticated program evaluations.
4. Apply their knowledge of research methodology as well as substantive theory and research to writing a fundable grant proposal.
5. Demonstrate the ability to function effectively as educators, exhibiting subject knowledge and skills in the organization and presentation of instructional materials.

Requirements Effective Fall 2024

Ph.D. course requirements include a minimum of 80 credits for each of three entry routes:

Entry A: Students who have completed a CSU Master of Science degree in Human Development and Family Studies or are enrolled in the continuous Master of Science in Human Development and Family Studies/Applied Developmental Science Ph.D. at CSU, can apply all of their credits earned in the M.S. degree in HDFS at CSU toward partial fulfillment of the required 80 credits.

Entry B: For students who submit a previously earned Master's degree from an institution other than CSU, up to 30 credits may be accepted toward partial fulfillment of the required 80 credits. Credit for a previously completed empirical master's thesis will also be granted following approval of the Director of the Applied Developmental Science Program. Students who did not complete an empirical thesis will be required to complete a Master's in HDFS. All credits accepted toward partial fulfillment of the requirements below must be approved by the Director of the Applied Developmental Science Program, the Department of Human Development and Family Studies, and the Graduate School.

Entry C: For students who do not submit a Master's degree in partial fulfillment of the required 80 credits, up to 10 credits earned after the bachelor's degree may be accepted for transfer. Only courses taken at a 500-level or higher will be considered. All credits accepted toward partial fulfillment of the requirements below must be approved by the student's graduate committee, the Department of Human Development and Family Studies, and the Graduate School.

Code	Title	Credits
Content Core Courses		
HDFS 500	Issues in Human Development & Family Studies	3
HDFS 524	Family Studies	3
HDFS 710	Theories of Applied Developmental Science	3
Select one of the following lifespan area courses:		3
HDFS 611	Early Child Development	
HDFS 612	Adolescent Development	
HDFS 613	Adult Development and Aging	
Research Methods/Statistics		
HDFS 549	Research Methods I	3
HDFS 550	Research Methods II	3
HDFS 650	Multivariate Research Methods I	3
HDFS 750	Multivariate Research Methods II	3
Elective ^{1,2}		3
Professional Development Courses		
HDFS 600	Professional Development Seminar	2
Research/Thesis/Dissertation		
HDFS 698A	Research: Human Development	12
or HDFS 698B	Research: Family Studies	
HDFS 699	Thesis	6
HDFS 799	Dissertation	12
Elective Courses ¹		
Select a minimum of 21 credits from the following courses:		21
Development/Theory Electives		
Choose at least 3 credits of the following:		
HDFS 610	Risk and Resilience	
HDFS 636	Aging and the Family	
HDFS 692A	Family Issues: Intimacy and Human Sexuality	

HDFS 692B	Family Issues: Parenting
HDFS 692C	Family Issues: Family Policy and Programming
HDFS 792A	Seminar: Lifespan Socioemotional Development
HDFS 792B	Seminar: Lifespan Cognitive Development
Prevention Science and Intervention Electives	
Choose at least 6 credits of the following:	
HDFS 515	Family Systems and Psychopathology ³
HDFS 520	Family Therapy Practice: Treatment Planning ³
HDFS 521	Family Therapy Practice: Common Factors ³
HDFS 534	Marriage and Family Therapy ³
HDFS 592	Grant Writing--Research/Program Development
HDFS 607	Prevention Science Across the Lifespan
HDFS 608	Program Planning and Implementation
HDFS 609	Prevention Program Evaluation
HDFS 620	Family Therapy Practice: Addictions ³
HDFS 621	Family Therapy Practice: Topics in Sexuality ³
HDFS 624	Skills and Techniques in Family Therapy ³
HDFS 644	Foundations in Family Therapy ³
Teaching and Applied Research Electives	
Choose at least 3 credits of the following:	
HDFS 684	Supervised College Teaching
HDFS 687A	Internship: Human Development
HDFS 687B	Internship: Family Studies
HDFS 687C	Internship: Marriage and Family Therapy ³
HDFS 698A	Research: Human Development
HDFS 698B	Research: Family Studies

Program Total Credits: 80

A minimum of 80 credits are required to complete this program.

¹ Select courses with approval of advisor and graduate committee.

² Select statistics or methodology elective from outside the HDFS department from approved departmental list.

³ Admission to Marriage and Family Therapy Program or permission of instructor.

Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees in the Graduate and Professional Bulletin.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/ Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/ dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Department of Occupational Therapy

Occupational Therapy Building, Room 200

(970) 491-6253

[www. \(https://www.chhs.colostate.edu/ot/\)](https://www.chhs.colostate.edu/ot/)
[chhs.colostate.edu/ot](http://ot.chhs.colostate.edu)
(http://ot.chhs.colostate.edu)

Dr. Anita Bundy, Department Head

The Department of Occupational Therapy is ranked among the top 10 programs in the nation by *U.S. News and World Report* and *Best Value Programs*, known nationally and internationally for its excellence. The department offers graduate-level education to prepare students as leaders in the field of occupational therapy. Faculty are engaged in research and community outreach that meet the needs of people facing challenges in everyday life.

In 2022 we transitioned from a Master's-level degree to a three-year Doctorate in Occupational Therapy. Using a carefully considered process, our faculty developed a strong OTD program of study that has been approved at all University levels. We have candidacy status from our accrediting body, ACOTE (https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Facoteonline.org%2F&data=05%7C01%7Ccro_catalogeditor%40Mail.Colostate.edu%7C27b6938285014fb2ae1308db9eae4361%7Cafb58802ff7a4bb1ab21367ff2e0eb%7C0%7C0%7C638278243507683456%7CUnknown%7CTWfpbGZsb3d8eyJWljoimC4wLjAwMDAiLCJQljoiv2luMzliLCJBTiI6Ik1haWw%7C3000%7C%7C%7C&sdata=BjsOKE%2FAU3bg0XIbSdHmaY%2Fxo7UvRZI2PGFhUNbmhSY%3D&reserved=0)[®] (https://acoteonline.org/, 6116 Executive Boulevard, Suite 200, North Bethesda, MD 20852-4929; (301) 652-6611), and are engaged in the accreditation process.

The department also offers a Ph.D. in Occupation and Rehabilitation Science.

Students interested in more information regarding prerequisite and application requirements may contact the department at (970) 491-6253 or email otinfo@colostate.edu.

Graduate Graduate Programs in Occupational Therapy

The Occupational Therapy Department currently offers the following degree programs:

Professional Doctorate

- Doctor of Occupational Therapy (O.T.D.)

Ph.D.

- Ph.D. in Occupation and Rehabilitation Science

Students with a bachelor's degree in a discipline outside of occupational therapy pursue the Doctor of Occupational Therapy (<https://www.chhs.colostate.edu/ot/programs-and-degrees/occupational-therapy-doctorate/>) degree. CSU's entry-level Doctor of Occupational Therapy program is designed using subject- and learner-centered principles. Engaging in active learning with a focus on occupation, graduates become occupational therapy practitioners embracing collaboration and leadership in the field. We have been granted candidacy by our accrediting body and our first CSU-OT OTD cohort of students began in May 2022.

The interdisciplinary Doctor of Philosophy (Ph.D.) degree in Occupation and Rehabilitation Science (<https://www.chhs.colostate.edu/ot/programs-and-degrees/ph-d-in-occupation-and-rehabilitation-science/>) offers graduate training in research dedicated to assisting people of all ages and abilities to perform and participate in everyday occupations as a source of lifelong meaning, development, health, and well-being. The program was created to meet the national demand for Ph.D. trained scientists and educators in occupational therapy and related disciplines. Upon graduation, students typically pursue post-doctoral education or academic careers in higher education; additional career opportunities exist in industry and government.

Please contact the Occupational Therapy Department for further details by calling (970) 491-6253 or emailing the department at otinfo@colostate.edu.

Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Occupational Therapy (<http://ot.chhs.colostate.edu>).

Master's Programs (discontinued)

- Master of Science in Occupational Therapy, Plan A (*Discontinued in 2022. No new students are being accepted to this program of study.*)
- Master of Occupational Therapy, Plan C (M.O.T.) (*Discontinued in 2022. No new students are being accepted to this program of study.*)

Courses

Occupational Therapy (OT)

OT 110 Introduction to Occupational Therapy Credits: 3 (3-0-0)

Course Description: Roles and activities in occupational therapy.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

OT 215 Medical Terminology Credit: 1 (0-0-1)

Course Description: Definition and use of medical terms.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

OT 355 The Disability Experience in Society Credits: 2 (1-0-1)

Course Description: Description and exploration of disabling conditions; review of support systems including legal and financial implications.

Prerequisite: PSY 100 or SOC 100.

Registration Information: Must register for lecture and recitation.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 450 Biomechanics of Human Occupation Credits: 3 (0-2-2)

Course Description: Exploration of performance of the activities of daily living in context as impacted by function/dysfunction of the human musculoskeletal system.

Prerequisite: None.

Registration Information: Must register for laboratory and recitation.

Minimum of 4 credits of either combined anatomy and physiology or human anatomy at the 200-level or higher. Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

OT 590 Workshop Credits: Var[1-9] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 597 Group Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 601 Occupation and Rehabilitation Science I Credits: 3 (1-0-2)

Course Description: Multidisciplinary perspectives on human performance and participation in everyday occupations.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to master's degree program in occupational therapy.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 610 Professional Decision Making Credits: 3 (0-2-2)

Course Description: Exploration of the thought processes occupational therapists use when determining how best to address clients' needs.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to master's degree program in occupational therapy.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 611 Reflective and Evidence-Based Practice Credits: 3 (0-0-3)

Course Description: Development of reflective and evidence-based practice skills through integrating and synthesizing fieldwork experiences in OT practice.

Prerequisite: OT 687A to 687Z.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 620 Research to Practice I Credits: 3 (3-0-0)

Course Description: Critically evaluate qualitative and quantitative research processes pertaining to individuals.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to master's degree program in occupational therapy.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 621 Occupational Performance: Infancy-Childhood Credits: 4 (2-2-1)

Course Description: Optimizing occupational performance and participation for infants and children within a contextual framework.

Prerequisite: OT 687A to 687Z.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of the Occupation Therapy Department can be substituted for OT 687.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 630 Occupational Performance: Adult to Old Age I Rec Credits: 3 (0-0-3)

Course Description: Optimizing occupational performance for adults and older adults with attention to roles, satisfaction, competence and activities.

Prerequisite: OT 610 and OT 620 and OT 601.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must have concurrent registration in OT 636; must have concurrent registration in OT 660; must have concurrent registration in OT 665; must have concurrent registration in OT 686C.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 631 Program Assessment and Development Credits: 3 (0-0-3)

Course Description: Assessment of program strengths and needs, followed by development of proposals to support occupational performance and participation.

Prerequisite: OT 687A to 687Z.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of the Occupational Therapy Department can substitute for OT 687A-Z.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 636 Occupational Performance: Adult/Old Age I Lab Credits: 2 (0-4-0)

Course Description: Optimizing occupational performance for adults and older adults with attention to roles, satisfaction, competence, and activities.

Prerequisite: OT 601 and OT 610 and OT 620.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must have concurrent registration in OT 630; Must have concurrent registration in OT 660; Must have concurrent registration in OT 665; Must have concurrent registration in OT 686C.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 640 Research to Practice II Credits: 3 (3-0-0)

Course Description: Critically evaluate qualitative and quantitative research processes pertaining to groups and systems.

Prerequisite: OT 620.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 641 Occupation and Rehabilitation Science II Credits: 3 (1-0-2)

Course Description: Explore historical evolution of topics and the link to future implications for and growth of occupation and rehabilitation science.

Prerequisite: OT 601 and OT 611 and OT 631 and OT 687 to 687*.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 656 Topics on Brain Plasticity and Performance Credits: 3 (2-0-1)

Course Description: Multidisciplinary viewpoints on brain plasticity and its relationship to performance across the lifespan.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Occupational Therapy graduate student or written consent of instructor.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 660 Occupational Performance:Adult/Old Age II Rec Credits: 3 (0-0-3)

Course Description: Foundations of occupational performance for adults and older adults with attention to abilities, skills, and developed capacities.

Prerequisite: OT 610 and OT 620 and OT 601.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must have concurrent registration in OT 630; must have concurrent registration in OT 636; must have concurrent registration in OT 665; must have concurrent registration in OT 686C.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 661 Occupational Performance: Adolescent-Young Adult Credits: 3 (1-2-1)

Course Description: Optimizing occupational performance and participation for youth and young adults within a contextual framework.

Prerequisite: OT 621.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture, laboratory, and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 665 Adult to Old Age II Lab Credits: 2 (0-4-0)

Course Description: Optimizing occupational performance for adults and older adults with attention to abilities, skills, and developed capacities.

Prerequisite: OT 601 and OT 610 and OT 620.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must have concurrent registration in OT 630; must have concurrent registration in OT 636; must have concurrent registration in OT 660; must have concurrent registration in OT 686C.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 666 Optimizing Occupation through Technology Credits: 3 (0-0-3)

Course Description: Use of technology-based resources and/or strategies (current and emerging) to meet client needs in their everyday occupations and contexts.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Occupational Therapy M.O.T., M.S., or Ph.D. program.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 676 Pathokinesiological Conditions and Assessment Credits: 3 (3-0-0)

Course Description: Various musculoskeletal imbalances and injuries that present as difficulties in function and participation in everyday activity.

Prerequisite: OT 450.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 686A Fieldwork I: OT Process Credits: Var[1-4] (0-0-0)

Course Description: Level I fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to occupational therapy master's degree program; evidence of professional liability insurance required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 686B Fieldwork I: Seminar Credits: 3 (0-2-2)

Course Description: Level I fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of all first year OT courses; admission to occupational therapy master's degree program; evidence of professional liability insurance required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

OT 686C Fieldwork I: Adult to Old Age Credits: Var[1-4] (0-0-0)

Course Description: Level I fieldwork in various settings.

Prerequisite: OT 686A and OT 610.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 630 and OT 660; evidence of professional liability insurance required.

Terms Offered: Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 686D Fieldwork I: Infancy to Young Adult Credits: Var[1-4] (0-0-0)

Course Description: Level I fieldwork in various settings.

Prerequisite: (OT 687A to 687Z) and (OT 621, may be taken concurrently or OT 661, may be taken concurrently).

Restriction: Must be a: Graduate, Professional.

Registration Information: Evidence of professional liability insurance required.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: Yes.

OT 686E Fieldwork I: Special Interest Credits: Var[1-4] (0-0-0)

Course Description: Level I fieldwork in various settings.

Prerequisite: OT 686A.

Restriction: Must be a: Graduate, Professional.

Registration Information: Evidence of professional liability insurance required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 687A Fieldwork IIA: Acute In-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687B Fieldwork IIA: Rehab In-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687C Fieldwork IIA: SNF/Acute LTC Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687D Fieldwork IIA: General Rehab Out-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687E Fieldwork IIA: Hand Therapy Hospital Out-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687F Fieldwork IIA: Hand Therapy Private Out-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687G Fieldwork IIA: Psych In-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687H Fieldwork IIA: Combined Practice Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687M Fieldwork II: Behavioral Health Community Credits:

Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687N Fieldwork II: Older Adult Community Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687O Fieldwork II: Older Adult Day Program Credits:

Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687P Fieldwork II: Adult Day Program Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687Q Fieldwork II: Home Health Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 687T Fieldwork II: Other Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; evidence of professional liability insurance and approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688A Fieldwork IIB: Acute In-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688B Fieldwork IIB: Rehab In-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688C Fieldwork IIB: SNF/Acute LTC Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688D Fieldwork IIB: General Rehab Out-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688E Fieldwork IIB: Hand Therapy Hospital Out-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688F Fieldwork IIB: Hand Therapy Private Out-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688G Fieldwork IIB: Psych In-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688H Fieldwork IIB: Combined Practice Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688I Fieldwork IIB: Pediatric Hospital/Unit Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688J Fieldwork IIB: Pediatric Hospital/Out-Patient Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688K Fieldwork IIB: Pediatric Community Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688L Fieldwork IIB: Pediatric Out-Patient Clinic Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688M Fieldwork IIB: Behavioral Health Community Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688N Fieldwork IIB: Older Adult Community Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688O Fieldwork IIB: Older Adult Day Program Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688P Fieldwork IIB: Adult Day Program Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688Q Fieldwork IIB: Home Health Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688R Fieldwork IIB: School Early Intervention Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688S Fieldwork IIB: School (PK-12) Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 688T Fieldwork IIB: Other Credits: Var[1-12] (0-0-0)

Course Description: Level II fieldwork in various settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Successful completion of first year of OT Master's Program courses; approval of department chair required.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 690 Workshop Credits: Var[1-9] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 692 Occupation and Rehabilitation Sci Seminar I Credits: 2 (0-0-2)

Course Description: Historical and contemporary legislative, theoretical, scientific, and social foundations that influenced the development of rehabilitation science and occupational science. Evaluation of and scholarly discourse on human performance and participation research. Construction of an integrated research philosophy based upon historical and contemporary foundations of occupational science and rehabilitation science, human performance and participation research, and other related sciences.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Bachelor's degree required. Admission to Occupation and Rehabilitation Science program or approval from course instructor. May be repeated three times for a maximum of 6 credits.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

OT 694 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 696 Group Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 698 Research Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 701 Occupation and Rehabilitation Science III Credits: 3 (0-0-3)

Course Description: Investigation of the intersection of occupational science and rehabilitation science research situated in various paradigms.

Prerequisite: OT 640 and OT 641.

Restriction: Must be a: Graduate, Professional.

Registration Information: Three credits of research must be in quantitative research and three credits must be in qualitative research.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 710 Teaching Occupation and Rehab Science Credits: 3 (0-0-3)

Course Description: Design and implementation of teaching and learning philosophies and approaches in occupation and rehabilitation science contexts.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor.

Term Offered: Spring (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

OT 720 Occupation and Occupational Therapy Process Credits: 3 (0-0-3)

Course Description: Introduction to the nature of occupation and the basic terminology and theories of the occupational therapy profession. Learn the language of the profession through the Occupational Therapy Practice Framework and learn the basic structure of how to carry out the occupational therapy process. Exploration of the roles of occupational therapy across various settings and populations.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 721. Admission to the Occupational Therapy Doctorate (OTD) program. This is a partial semester course. Offered as Mixed Face-to-Face.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

OT 721 Impacts on Occupation I Credits: 3 (1-0-2)

Course Description: Build competence in analysis of occupation with particular attention to the biomechanical and neurological factors that influence performance in everyday occupations. Occupations and contexts are analyzed with emphasis on neurological and biomechanical body functions and structures. Explore the process of decision-making and justification in selecting interventions.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 720. Admission to the Occupational Therapy Doctorate (OTD) program. Must register for lecture and recitation. This is a partial semester course. Offered as Mixed Face-to-Face.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

OT 722 Foundations for Professional Development Credit: 1 (0-0-1)

Course Description: Learn foundational skills to become an ethical and inclusive occupational therapy practitioner. Explore professional identity formation and the socialization process of professionals. Begin to create a portfolio to document professional development.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Occupational Therapy Doctorate (OTD) program. This is a partial semester course. Offered as Mixed Face-to-Face.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

OT 730 Professional Reasoning and Relationships Credits: 2 (0-0-2)

Course Description: Explore models of professional reasoning, collaborative relationships and group dynamics that guide partnerships with clients, families, peers, and professionals within and outside of occupational therapy. Engage in critical self-examination to develop interpersonal understanding and skills.

Prerequisite: OT 720.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 786B.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 731 Impacts on Occupation II Credits: 3 (0-0-3)

Course Description: Build competence in analysis of occupation with attention to the psychosocial and contextual factors that influence performance in patterns of occupations. Examine personal beliefs, experiences, and biases surrounding psychosocial and contextual factors impacting patterns of occupations. Explore methods to assess and enhance engagement in occupation (i.e., promote, establish/restore, maintain, modify or prevent).

Prerequisite: OT 720 and OT 721.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 786B. Offered as Mixed Face-to-Face.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 732 Adult and Older Adult I Credits: 2 (0-0-2)

Course Description: Build competence in professional reasoning with attention to occupations, person factors, and contexts. Use knowledge of adult and older adult development to select, administer, modify, and interpret assessments and create contextually sensitive occupation-focused interventions for individuals and groups. An emphasis is placed on the role of occupational therapy in inpatient and residential practice settings.

Prerequisite: OT 720 and OT 721 and OT 722.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 733 and OT 786B.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 733 Adult and Older Adult I Lab Credits: 2 (0-4-0)

Course Description: Develop practice skills and professional reasoning needed to optimize occupational performance and participation for adults and older adults with an emphasis on inpatient and residential care settings.

Prerequisite: OT 720 and OT 721 and OT 722.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 732.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 735 Occupational Therapy Research Process I Credits: 3 (1-0-2)

Course Description: Introduction to qualitative research design and methods. Develop skills in locating, appraising and managing evidence to inform, guide, and support the occupational therapy process. Content includes creating research questions, data collection methods, analysis, and synthesis.

Prerequisite: OT 720.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 786B. Must register for lecture and recitation. Offered as Mixed Face-to-Face.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 740 Occupation, Learning, and Change Credits: 3 (1-0-2)

Course Description: Apply conceptual models and theories related to human learning and behavior change to promote development, health, and well-being through occupation. Learning and change principles will be applied at the individual and organization levels.

Prerequisite: OT 731 and OT 735 and OT 786B.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 742 and OT 786C. Must register for lecture and recitation. Offered as Mixed Face-to-Face.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 742 Adult and Older Adult II Credits: 2 (0-0-2)

Course Description: Concurrent registration in OT 740, OT 743, and OT 786C.

Prerequisite: OT 731 and OT 732 and OT 733.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 743 Adult and Older Adult II Lab Credits: 2 (0-4-0)

Course Description: Develop practice skills and professional reasoning to optimize occupational performance, participation, and well-being for adults and older adults with an emphasis on outpatient and community-based settings.

Prerequisite: OT 732 and OT 733.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 742.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 745 Occupational Therapy Research Process II Credits: 3 (1-0-2)

Course Description: Introduction to quantitative research design and analysis. Develop skills in formulation of research questions, study design, analysis and interpretation of data in support of the occupational therapy process.

Prerequisite: OT 735.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 749 and OT 786C. Must register for lecture and recitation. Offered as Mixed Face-to-Face.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 749 Capstone Overview Credit: 1 (0-0-1)

Course Description: Build foundational knowledge about the doctoral capstone and experience. Apply knowledge of data-based decision making to occupational therapy roles, practice contexts, and client populations in which capstone projects occur.

Prerequisite: OT 735.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 745 and OT 786C.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 750 Programmatic Interventions Credits: 3 (0-0-3)

Course Description: Needs assessment and program development process to support occupational performance, participation, and well-being. Engage in professional collaboration to identify new or improved occupation-centered services within a community or organization.

Prerequisite: OT 787.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 759 and OT 786D.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 752 Infancy Through Early Childhood Credits: 2 (0-0-2)

Course Description: Build competence in professional reasoning and the occupational therapy process in infant and early childhood life stages. Focus on childhood occupations given typical and atypical development, health conditions and health factors. Application of the occupational therapy process occurs across diverse roles and environments and considers social inequities, family and cultural practices, and health disparities.

Prerequisite: OT 787.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 753 and OT 786D.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 753 Infancy Through Early Childhood Lab Credit: 1 (0-2-0)

Course Description: Develop competence in practice skills and professional reasoning used for evaluation, intervention planning, and implementation to optimize occupational performance, participation, and well-being for neonates, infants, and young children up to the transition into kindergarten.

Prerequisite: OT 787.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 752 and OT 786D.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 755 Occupational Therapy Research Process III Credits: 3 (0-0-3)

Course Description: Engage in advanced research and evidence-based reflective practice while completing a mini systematic review and best practice statement. Continue developing professional identity by optimizing occupational performance, participation, and well-being.

Prerequisite: OT 745 and OT 787.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 759 and OT 786D.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 759 Capstone Planning Credit: 1 (0-0-1)

Course Description: Learn the specific requirements for three doctoral capstone tracks: (1) needs assessment and program development, (2) systematic review and best practice statement, and (3) research and scholarly activity. Articulate commitment to a doctoral capstone track following small group and online learning community activities.

Prerequisite: OT 787.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

OT 760 Leadership Skills of Change Agents Credits: 2 (0-0-2)

Course Description: Develop skills as a change agent through exploring leadership, management, teamwork, and entrepreneurship in occupational therapy. Demonstrate best practice in building collaborative teams capable of promoting clients' occupational performance, participation and well-being.

Prerequisite: OT 740 and OT 759 and OT 787.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 769 and OT 786E.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 761 Inclusive Technology Credits: 2 (0-2-1)

Course Description: Explore the evolution and impact of information and technology on occupation, health, and well-being across the lifespan. Learn to use technology as a practitioner tool and apply assistive and mainstream technology within the occupational therapy process to optimize human performance and participation at the individual and organization levels.

Prerequisite: OT 787.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for laboratory and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 762 Early Through Middle Childhood Credits: 2 (0-0-2)

Course Description: Build competence in professional reasoning and the occupational therapy process with attention to occupations of children, kindergarten through middle school. Develop skills in the selection, administration, modification, and interpretation of assessments and contextually sensitive occupation-focused interventions. Consider typical and atypical development, family and cultural practices, health and wellness, and health disparities of individuals, groups, and populations.

Prerequisite: OT 752 and OT 753 and OT 786D.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 763, OT 764, and OT 786E.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 763 Early Through Middle Childhood Lab Credit: 1 (0-2-0)

Course Description: Develop competence in practice skills, professional reasoning, and interprofessional collaboration used for evaluation, intervention planning and implementation to optimize occupational performance, participation, and well-being for children from kindergarten through middle school and their families.

Prerequisite: OT 752 and OT 753 and OT 786D.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 762, OT 764, and OT 786E.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 764 Adolescent and Young Adult Credits: 2 (0-0-2)

Course Description: Build competence in the professional reasoning process used for evaluation, intervention planning and implementation, monitoring, and discharge for adolescents and young adults (age 12 - 26 years). Develop skills in the selection, administration, modification, and interpretation of assessments and contextually sensitive occupation-focused intervention approaches. Explore the occupational therapy process across therapist roles and settings while considering social inequities.

Prerequisite: OT 752 and OT 753 and OT 786D.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 762, OT 763, and OT 786E.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 769 Capstone Project and Experience Development Credits: 3 (0-0-3)

Course Description: Create an individualized occupation-centered doctoral capstone project and capstone experience plan. Develop and confirm the capstone experience and one of three capstone project tracks: (1) needs assessment and program development, (2) systematic review and best practice statement, and (3) research and scholarly activity. Collaborative decision-making regarding the scope and nature of the capstone project is supported through online and in-person communication.

Prerequisite: OT 759.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 772 Innovative Practice in Occupational Therapy Credits: 3 (0-0-3)

Course Description: Empower students to be change agents and advocates through creating innovative practice that represents occupational therapy's distinct role and value. Application of knowledge and skills, guided by theories and models, within organizations, communities, and/or populations.

Prerequisite: OT 750 and OT 787.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

OT 779 Capstone Project Credit: 1 (0-0-1)

Course Description: In-depth and individualized occupation-centered doctoral capstone project is aligned with the doctoral capstone experience to develop knowledge and skills in an area of interest with integration of diversity and inclusion by finalizing and disseminating a deliverable. Become a collaborative and enduring change agent and leader who is grounded in the perspective of occupation and positively influences individuals, groups, communities, populations, and the profession.

Prerequisite: OT 788.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 784 Supervised College Teaching Credits: Var[1-4] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission into a PhD program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 786A Practicum: Research Credits: Var[1-9] (0-0-0)

Course Description: Individualized opportunity for research experiences.

Prerequisite: OT 620.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of advisor.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 786B Practicum: Integrative Experiential Learning I Credit: 1 (0-0-2)

Course Description: Engage in fieldwork to explore the role of the occupational therapist in community settings with adults and older adults, with a focus on professional identity formation. Develop skills in building therapeutic alliances, considering diversity, inclusion, and psychosocial factors influencing occupation. Content and experiences from fieldwork are integrated with concurrent occupational therapy courses.

Prerequisite: OT 720 and OT 721 and OT 722.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 730, OT 731, OT 732, and OT 735.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: Yes.

OT 786C Practicum: Integrative Experiential Learning II Credits: 2 (0-0-4)

Course Description: Engage in fieldwork which is integrated with concurrent coursework to explore the role of occupational therapy service delivery with adults and older adults. Assist fieldwork educators with the occupational therapy process to develop novice-level practice skills and professional identity.

Prerequisite: OT 786B and OT 732 and OT 733.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 740, OT 742, OT 745, and OT 749.

Term Offered: Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 786D Practicum: Integrated Experiential Learning III Credit: 1 (0-0-2)

Course Description: Engage in fieldwork that is integrated with concurrent coursework to explore the role of occupational therapy with neonates to adolescents. Assist and collaborate with fieldwork educators and caregivers to implement the occupational therapy process, develop novice level practice skills and professional identity.

Prerequisite: OT 787.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 752 and OT 753.

Term Offered: Fall.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: Yes.

OT 786E Practicum: Integrated Experiential Learning IV Credit: 1 (0-0-2)

Course Description: Build competence in professional reasoning used for evaluation, intervention planning and implementation for adolescents and young adults (age 12 - 26 years). Engage in lab and mentoring experiences to enhance occupational performance, participation, and well-being across settings while considering social inequities in community contexts.

Prerequisite: OT 752 and OT 753.

Restriction: Must be a: Graduate, Professional.

Registration Information: Concurrent registration in OT 764.

Term Offered: Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 786G Practicum: Integrated Experiential Learning VI Credits: Var[1-4] (0-0-0)

Course Description: Engage in extra fieldwork integrated with concurrent coursework to explore the role of occupational therapy with clients throughout their lifespan. Assist and collaborate with fieldwork educators and caregivers to implement the occupational therapy process, and develop novice-level practice skills and professional identity.

Prerequisite: OT 786B.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 787 Level IIA Fieldwork - Adults and Older Adults Credits: 12 (0-0-36)

Course Description: Develop entry-level occupational therapy competence providing occupation-centered practice with adults and older adults through immersion in the occupational therapist role for the equivalent of 12-weeks. Build professional behaviors and identity while bridging the didactic portion of the curriculum during supervised practice. Use professional reasoning gained through the first three semesters of the curriculum while progressively taking on greater responsibility for service delivery.

Prerequisite: OT 742 and OT 743 and OT 786C.

Restriction: Must be a: Graduate, Professional.

Registration Information: This is a partial semester course.

Term Offered: Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 788 Level IIB Fieldwork - Lifespan Experience Credits: 12 (0-0-36)

Course Description: Develop entry-level occupational therapy competence providing occupation-centered practice across the life span through immersion in the occupational therapist role for the equivalent of 12-weeks. Build professional behaviors and identity while bridging the didactic portion of the curriculum during supervised practice. Use professional reasoning gained through the OTD curriculum while progressively taking on greater responsibility for service delivery.

Prerequisite: OT 762 and OT 764 and OT 769.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: Yes.

OT 789 Capstone Experience Credits: 14 (0-0-42)

Course Description: Actualize the aim of the entry-level doctorate as a collaborative and enduring change agent and leader who is grounded in the perspective of occupation and positively influences individuals, groups, communities, populations, and the profession. In-depth and individualized experience in a specific area of practice, research, or education aligned with the doctoral capstone project to develop knowledge and skills in an area of interest with responsiveness to diversity and inclusion.

Prerequisite: OT 769 and OT 788.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

OT 792 Occupation and Rehabilitation Sci Seminar II Credits: 2 (0-0-2)

Course Description: Evaluate how historical, legislative, social, scientific, and theoretical influences shape(d) a chosen human performance and participation research topic and synthesize contributions from rehabilitation science, occupational science, and other multidisciplinary sciences and research. Facilitate a scholarly discourse within a community of scholars. Engage in self-directed learning to refine and defend scholarly perspective and integrated research philosophy.

Prerequisite: OT 692.

Restriction: Must be a: Graduate, Professional.

Registration Information: Bachelor's degree required. Admission to Occupation and Rehabilitation Science program or approval from course instructor. May be repeated three times for a maximum of 6 credits.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

OT 794 Independent Study Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission into a PhD program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 796 Group Study Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission into a PhD program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

OT 799 Dissertation Credits: Var[1-15] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Master of Science in Occupational Therapy, Plan A

Occupational Therapy has transitioned to the Occupational Therapy Doctorate (O.T.D.). No new students are being accepted to the Master's program of study.

Requirements Effective Fall 2015

First Year

Ph.D. in Occupation and Rehabilitation Science

The interdisciplinary Doctor of Philosophy (Ph.D.) degree in Occupation and Rehabilitation Science (<https://www.chhs.colostate.edu/ot/programs-and-degrees/ph-d-in-occupation-and-rehabilitation-science/>) offers graduate training in research dedicated to assisting people of all ages and abilities to perform and participate in everyday occupations as a source of lifelong meaning, development, health, and well-being. The program was created to meet the national demand for Ph.D.-trained scientists and educators in occupational therapy and related disciplines. Graduates typically pursue post-doctoral education or academic careers in higher education; additional career opportunities exist in industry and government.

Please contact the Occupational Therapy Department for further details by calling (970) 491-6253 or emailing the department at otinfo@colostate.edu.

Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Occupational Therapy (<http://ot.chhs.colostate.edu/>).

Program Learning Objectives

Students will:

1. Integrate relevant knowledge from occupational science and rehabilitation science and apply that knowledge to problems that people face in performing and participating in everyday occupations and contexts across the lifespan.
2. Design and implement research that draws upon a synthesis of occupational and rehabilitation science to advance understanding of human performance and participation.
3. Disseminate knowledge of human performance and participation through scientific meetings and peer-reviewed journals.

4. Write and submit competitive grant proposals.
5. Design and implement learning experiences grounded in sound teaching and learning theories that are supported with evidence.
6. Effectively participate in interdisciplinary research teams.
7. Mentor students and research assistants.

Institutional Learning Objectives

The CSU Occupation and Rehabilitation Science Ph.D. Program was designed to develop well trained scientists in the interdisciplinary study of occupation and rehabilitation sciences. Our Program Learning Objectives (see above) align with the CSU's Institutional Learning Objectives by supporting clinicians on their pathway to teaching, mentoring, and participation in interdisciplinary research teams. Thus, we emphasize a foundation in understanding occupation and rehabilitation science and the application of science to research supporting performance and participation in everyday occupations; research experiences include grant writing, study design, team interdisciplinary science, dissemination, and mentoring of research assistants (Collaboration, Responsibility, Communication, Creativity, Reasoning).

Additionally, our Ph.D. students will gain skills in sound teaching and learning theories and in mentoring students and research assistants (Collaboration, Communication, Reasoning, Creativity). Our students will be prepared as educators and researchers to further the science and education of occupational therapists across the world.

Requirements Effective Fall 2024

Ph.D. course requirements include a minimum of 72 credits:

Entry A: For students enrolled in the OTD at CSU and wishing to continue to the Ph.D. in Occupation and Rehabilitation Science at CSU, up to 18 credits of the CSU OTD degree will apply toward partial fulfillment of the required 72 credits. OT 735, OT 745, OT 755 will be included in the Research Methods and Statistics Core. Capstone courses OT 769 and OT 789 can be transferred as electives.

Entry B: For students who submit a previously earned clinical graduate degree in occupational therapy or related field, up to 18 credits may be accepted toward partial fulfillment of the required 72 credits. All potential credits accepted toward partial fulfillment of the requirements below must be approved by the student's graduate committee, the Department of Occupational Therapy, and the Graduate School.

Code	Title	Credits
Occupation and Rehabilitation Science Core		
OT 692	Occupation and Rehabilitation Sci Seminar I ¹	4
OT 701	Occupation and Rehabilitation Science III	3
OT 710	Teaching Occupation and Rehab Science	3
OT 784	Supervised College Teaching	1-4
OT 786A	Practicum: Research	1-9
OT 792	Occupation and Rehabilitation Sci Seminar II ²	4
OT 796	Group Study	1-6
Research Methods and Statistics Core		
HDFS 592	Grant Writing–Research/Program Development	1-3

or NB 771	Writing, Submitting, and Reviewing Grants	
OT 735	Occupational Therapy Research Process I	3
OT 745	Occupational Therapy Research Process II	3
OT 755	Occupational Therapy Research Process III	3
Advanced statistics ³		6
Directed Electives ⁴		12-15
Select one group from the following:		9
Group A: the following courses can be transferred into the PhD program:		
OT 699	Thesis	
OT 769	Capstone Project and Experience Development	
OT 789	Capstone Experience	
Group B: courses to be approved by the student's graduate committee, the Department of Occupational Therapy, and the Graduate School.		
Dissertation		
OT 799	Dissertation	15
Program Total Credits:		72

A minimum of 72 credits are required to complete this program.

- 1 Students will register for two credits of OT 692 for two semesters during the first half of the PhD program.
- 2 Students will register for two credits of OT 792 for two semesters during the second half of the PhD program.
- 3 With approval of graduate committee, select six credits of advanced statistics.
- 4 Students must consult with their primary advisor in selecting elective courses.

Requirements for All Graduate Degrees

For more information, please visit [Requirements for All Graduate Degrees in the Graduate and Professional Bulletin](#).

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration

6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

**Doctor of Occupational Therapy
(O.T.D.)**

CSU's entry-level Doctor of Occupational Therapy program (<https://www.chhs.colostate.edu/ot/programs-and-degrees/occupational-therapy-doctorate/>) is designed using subject- and learner-centered principles. Engaging in active learning and focusing on occupation, graduates become occupational therapy practitioners who can and will embrace collaboration and leadership in the field. Our candidacy application has been accepted by our accrediting agency (Accreditation Council for Occupational Therapy Education (<https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Facoteonline.org%2F&data=05%7C02%7CBobby.Mauro%40colostate.edu%7Cdc4776fbb18444d705208dc178b2e37%7Caf658802ff7a4bb1ab21367ff2ecfc8%7C0%7C0%7C638411133741311318%7CUnknown%7CTWfpBgZsb3d8eyJWljoIMC4wLjAwMDAiLCJQljoI2luMzliLCJBTiI6Ik1haWw%7C3000%7C%7C%7C&sdata=yG8HgQr0bPwBJkM8fZB0FwrzRhAe1bvNZXHYUmWYhio%3D&reserved=0>) of the American Occupational Therapy Association (<https://nam10.safelinks.protection.outlook.com/?url=http%3A%2F%2Fwww.aota.org%2F&data=05%7C02%7CBobby.Mauro%40colostate.edu%7Cdc4776fbb18444d705208dc178b2e37%7Caf658802ff7a4bb1ab21367ff2ecfc8%7C0%7C0%7C638411133741323296%7CUnknown%7CTWfpBgZsb3d8eyJWljoIMC4wLjAwMDAiLCJQljoI2luMzliLCJBTiI6Ik1haWw%7C3000%7C%7C%7C&sdata=yG8HgQr0bPwBJkM8fZB0FwrzRhAe1bvNZXHYUmWYhio%3D&reserved=0>)).

located at 6116 Executive Blvd., Suite 200, North Bethesda, MD 20852-4929, (301) 652-6611; accred@aota.org). The program has entered its first two classes and is currently engaged in the accreditation process, although not yet fully accredited.

Please contact the Occupational Therapy Department for further details by calling (970) 491-6253 or emailing the department at otinfo@colostate.edu.

Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Occupational Therapy (<http://ot.chhs.colostate.edu/>).

Program Learning Objectives

Objective 1: Occupation and OT Process

Definition: OTD students are proficient in collaborative occupational therapy services guided by clinical reasoning given a rich understanding of occupation and its use in occupation-centered practice.

- 1.1 Conduct (i.e., select, implement, monitor, modify, and document) and justify contextually sensitive occupational therapy evaluations and interventions based upon theory, practice models, and evidence across settings, populations, and roles.
- 1.2 Champion occupation as a health-promoting factor.
- 1.3 Advocate for occupation-centered practice to the client constellation across settings, populations, and roles.

Objective 2: Change and Learning Process

Definition: OTD students understand and apply dynamic mechanisms known to foster change and learning that enables occupation in individuals, organizations, and societies.

- 2.1 Analyze and synthesize ideas about change and learning embedded within contemporary occupational therapy and interdisciplinary theories.
- 2.2 Demonstrate and justify how to assess and influence change and learning in occupation.
- 2.3 Recognize and respond effectively to affective (emotional) dimensions of change and learning in self and others when implementing an occupation-centered program at individual, group, and community populations.

Objective 3: Intentional Learning and Professional Development

Definition: OTD Students are intentional learners and active members in the profession.

- 3.1 Evaluate the strengths and weaknesses in one's own approaches to learning in classroom, community and practice contexts and create strategies that improve one's effectiveness as an intentional learner.
- 3.2 Create strategies and transfer knowledge from the classroom to occupation-centered, reflective, evidence-based practices and professional leadership.
- 3.3 Actively advance the OT profession through awareness, advocacy, education, research, and service, as evidenced by regularly updated professional development plans.

Objective 4: Professional Reasoning

Definition: OTD students integrate multiple types of reasoning, evidence-based knowledge, and skills to plan, direct, perform, assess, modify, and reflect on occupational therapy practice and research.

- 4.1 Apply and justify multiple types of reasoning, published and practice-based evidence to prioritize occupational needs and solutions in a variety of case formats involving individuals, groups, and populations.

4.2 Design, conduct, and disseminate research and/or scholarly activities that contribute to the body of knowledge of occupational therapy.

- 4.3 Demonstrate a commitment to conscientious reasoning, evidence-based practice, and practice-based evidence as demonstrated by reflective writing and oral examination.

Objective 5: Practice Settings, Populations, and Roles

Definition: OTD students appreciate and analyze the impact that the practice setting, client population, and therapist roles have on occupational therapy and use their analyses to improve occupation-centered practice.

- 5.1 Evaluate and appreciate similarities and differences in occupational therapy practices according to transactions among setting, population, and roles (both currently and historically).
- 5.2 Create new, or improve upon, existing occupation-centered practices by considering transactions among settings, populations, and roles.

Objective 6: Professional and Therapeutic Collaborations

Definition: OTD students engage in dynamic, goal-directed collaborations with the client constellation (individual, group, community) and other professionals to maximize occupational performance.

- 6.1 Use and justify enablement skills that support the client constellation in creating and realizing contextually sensitive occupation-centered outcomes.
- 6.2 Recognize the need to and shift approaches (e.g., communication style, interpersonal modes) to maximize relationships across multiple professional contexts.
- 6.3 Effectively work with (collaborate, communicate, and act in ways that reflect sensitivity to diversity and inclusion) an interprofessional team while contributing an occupational perspective.

Institutional Learning Objectives

The Occupational Therapy Doctorate Program was designed to meet the Accreditation Council for Occupational Therapy Education (ACOTE) (<https://acoteonline.org/>) standards, the Program Learning Outcomes (PLOs), and the CSU Institutional Learning Outcomes (ILOs). This is achieved through the curricular threads and outcomes that are integral to the design of our OTD program. They support our philosophy that occupational therapy optimizes the ability of individuals, groups, communities, and populations to perform and participate in the activities that they need, want, and are expected to do each day, thus enabling them to participate fully in society. Thus, we emphasize a foundation in understanding occupation and its use in practice (*Occupation and OT Process PLO and Responsibility ILO*); instill in students an understanding that learning is dynamic for everyone (*Change and Learning Process PLO and Reasoning ILO*); guide students in the development of multiple forms of reasoning in and on practice (*Professional Reasoning PLO and Reasoning, Communication ILO*) that is applicable across practice settings, populations, and their own professional roles (*Practice Settings, Populations, and Roles PLO and Creativity ILO*); inspire students to embrace the value of collaboration with clients and other professionals in optimizing the impact of their work (*Professional and Therapeutic Collaborations PLO and Collaboration ILO*); provide a foundation for them to become professionals that are themselves dynamic in their own learning and development (*Intentional learning and Professional Development PLO and Creativity ILO*).

In meeting these desired curriculum outcomes, our program is consistent with our mission of optimizing human performance and participation through everyday occupations across context and lifespan which

align with the guiding principles that form the basis of the educational experience at CSU.

Third Year		
OT 779	Capstone Project ¹	1
OT 788	Level IIB Fieldwork - Lifespan Experience ²	12

OT 789	Capstone Experience ¹	14
Program Total Credits:		99

A minimum of 99 credits are required to complete this program.

¹ Register for OT 779 and OT 789 in Fall or Spring of Third Year.

² Register for OT 788 in Summer or Fall of Third Year.

Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees in the Graduate and Professional Bulletin.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website
12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website

13. Submit a signed Thesis/Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/dissertation

Refer to published deadlines from the Graduate School website.

14. Submit the thesis/dissertation electronically

Refer to published deadlines from the Graduate School website

15. Graduation

Ceremony information is available from the Graduate School website

School of Education

Office in Education Building, Room 111

(970) 491-6317

www.chhs.colostate.edu/soe

Mary Pederson, Interim Director

The **School of Education** (<https://www.chhs.colostate.edu/soe/>) is part of the College of Health and Human Sciences. Our programs advance teaching, leadership, and research-related skills in order to support students in becoming effective, caring, and transformational educators and leaders.

Offering a variety of degree programs and certificates at the undergraduate, master's and doctoral levels, the School of Education equips graduates to teach, mentor, counsel, and lead a wide array of people and organizations. Learning takes place in a variety of settings, including distance, online, on-campus, and hybrid formats.

The School of Education is committed to scholarly excellence. Partnering with external professional communities through formal partnerships and outreach, centers and institutes, faculty and students use research and engagement to impact social and educational issues. Faculty are comprised of scholars, scholar-practitioners and scholar-activists, with research topics focused on critical social and educational needs of today's organizations and institutions. Programs offer students opportunities for practical application of knowledge and skills gained through coursework, ensuring they are prepared to put their knowledge and skills to work in real-world environments.

Educator Preparation

(970) 491-5292

www.chhs.colostate.edu/soe/educator-preparation

Educator Preparation (<https://www.chhs.colostate.edu/soe/center-for-educator-preparation/>) (EP) is responsible for licensure of P-12 teachers in 17 content areas, and of K-12 school principals.

The educator preparation program at CSU is nationally accredited by the Association for Advancing Quality in Educator Preparation (AAQEP) and authorized by the Colorado Department of Higher Education and the Colorado Department of Education. EP consists of clinical practitioners, scholars, scholar-practitioners, and advocates collaboratively preparing educators and school leaders through a Professional Development School model.

Section 207 of Title II of the Higher Education Act mandates that the Department of Education collect data on state requirements for teacher certification and licensure, as well as data on the performance of teacher preparation programs. The Title II Institutional Report for CSU is available through the **School of Education website**.

Educator Preparation Program Learning Outcomes

Students will demonstrate:

- Use of innovative instructional methods to promote student success and to meet state and national standards
- Understanding of how students differ in their approaches to learning and the ability to apply instructional strategies to meet the needs of diverse learners
- Mastery of the content knowledge required for teaching a subject
- Ability to impact the learning of P-12 students through course work and extensive field experiences

Potential Occupations for Educator Preparation

Examples include:

- Public or private school teacher
- Principal
- Staff developer
- School counselor
- Early childhood center teacher and director
- Post-secondary teacher
- Curriculum specialist
- Human resources trainer
- Educational sales

Educator Preparation Endorsements

One of the most important ways to help people and to impact our society is through involvement in schools. Educators make lasting contributions to our nation and its many generations of learners. Education programs at CSU serve the needs of individuals preparing to teach in:

- PreK-3rd grade: Early Childhood Education
- K-12: Art, Computer Science, Dance, Foreign Languages, Music
- Secondary (7-12): Agricultural Education, Business/Marketing Education, English/Language Arts, Family and Consumer Sciences, Mathematics, Science, Social Studies

CSU is one of the public institutions in Colorado designated to offer programs leading towards a career and technical (vocational) credential. Candidates for teacher licensure are skilled in a teaching concentration and educational methodology. These students take their professional education course work concurrently while completing their content area coursework. Candidates may complete licensure while enrolled in an undergraduate program or after completing a bachelor's degree at an accredited university.

Endorsements available through the program include:

Endorsement	Levels	U	P	G
Agricultural Education	Secondary	X	X	X
Art	K-12	X	X	X
Computer Science	K-12	X	X	
Dance	K-12	X	X	
Early Childhood Education	Ages 0-8	X	X	X

English/Language Arts	Secondary	X	X	X
Family and Consumer Sciences	Secondary	X	X	X
Foreign Language (French, German, Spanish)	K-12	X	X	X
Mathematics	Secondary	X	X	X
Music	K-12	X	X	
Science	Secondary	X	X	X
Social Studies	Secondary	X	X	X

Special Services/Administrative Endorsements

Endorsement	Levels	U	P	G
Occupational Therapist	Ages 0-21			X
School Counselor	Ages 0-21			X
School Principal	K-12			X
School Social Worker	Ages 0-21			X

(Pursued at indicated level(s). G = graduate; P = post-baccalaureate; U = undergraduate)

Approved Majors for Educator Endorsements

For admission into the educator preparation program at CSU, undergraduate students must major in one of the following approved majors that aligns with their endorsement area.

For detailed four-year curricula for the degrees listed below, refer to the specific program in this catalog.

Endorsement	Approved Major for Licensure	College	Program Link
Agricultural Education	Agricultural Education (B.S.)	Agricultural Sciences	Major in Agricultural Education, Teacher Development Concentration
Art	Art (B.F.A.)	Liberal Arts	Major in Art, Art Education Concentration
Computer Science	Computer Science (B.S.)	Natural Sciences	Major in Computer Science, Computer Science Education Concentration
Dance	Dance (B.F.A.)	Liberal Arts	Major in Dance, Dance Education Concentration
Early Childhood Education	Early Childhood Education (B.S.)	Health and Human Sciences	Major in Early Childhood Education
English/Language Arts	English (B.A.)	Liberal Arts	Major in English, English Education Concentration
Family and Consumer Sciences	Family and Consumer Sciences (B.S.)	Health and Human Sciences	Major in Family and Consumer Sciences, Family and Consumer Sciences Education Concentration
Foreign Language (French, German, Spanish)	Languages, Literatures, and Cultures (B.A.)	Liberal Arts	Major in Languages, Literatures, and Cultures, Teaching Endorsement
Mathematics	Mathematics (B.S.)	Natural Sciences	Major in Mathematics, Mathematics Education Concentration
Music	Music (B.M.)	Liberal Arts	Major in Music, Music Education Concentration
Science	Natural Sciences (B.S.)	Natural Sciences	Major in Natural Sciences
Social Studies	Ethnic Studies (B.A.)	Liberal Arts	Major in Ethnic Studies, Social Studies Teaching Concentration
Social Studies	History (B.A.)	Liberal Arts	Major in History, Social Studies Teaching Concentration

//

Admission to Teacher Licensure

Students who wish to pursue an endorsement program should apply for admission to the EP teacher preparation program. Students have three different program options - undergraduate, post-bachelor, and Master of Education. Application and admission requirements differ based on which

program a student is interested in pursuing. (Note: Admission requirements are subject to change based on program and state licensing requirements and laws.)

For detailed information about application and admission requirements and deadline dates, please **contact the Educator Preparation Advising Office** (<https://www.chhs.colostate.edu/soe/center-for-educator-preparation/advising/>). We welcome in-person visits, phone calls or email.

Student Teaching

Teacher licensure candidates apply for student teaching placement one semester before student teaching. Candidates must demonstrate acceptable professional dispositions and academic fitness. Student teaching must be completed at an approved school. Placement is contingent upon acceptance of the student by a school system. All assignments are made by CSU. This experience is full-time for a specified time period.

Requirements for Licensure

Colorado licensure requires completion of an approved teacher preparation program and the recommendation of the institution at which the program was completed. The EP Director and Student Teaching Coordinator serve as the licensure officers for CSU. Additional requirements of the Colorado Department of Education and the Colorado Department of Higher Education include the successful completion of the state licensing exam. Successful completion of the approved teacher preparation program at CSU does not guarantee successful completion of the state licensing exam.

Students who successfully complete an approved teacher preparation program will be prepared to pursue licensure in Colorado. Licensure requirements in other states and U.S. territories may differ. Students are encouraged to work with the department and the professional licensure board in the state in which they intend to pursue licensing to ensure all requirements are satisfactorily met. EP does not assume responsibility for the successful completion of the state licensing exam.

CSU's approved teacher preparation program requirements include completion of a baccalaureate degree, completion of the content area and professional education course work, and fulfillment of the Colorado Performance-Based Standards for teachers at the proficient or advanced proficient level. Additionally, all grades earned in professional education and content courses must be a C or better for licensing. The minimum scholastic average acceptable for completion of the teacher preparation program and recommendation for licensing is 2.750, computed for all course work.

CSU reserves the right to **not** recommend a student for licensure on the basis of unacceptable professional dispositions and academic fitness/performance.

Professional Education Coursework for Licensure

The professional education requirements in the School of Education are organized into four phases and are outlined in the tables below. Please note the differences between the Secondary and Early Childhood pathways.

Code	Title	Credits
Undergraduate Secondary Pathway:		
Phase 1:		
EDUC 275	Schooling in the United States (GT-SS3) (Course includes 8-10 hours of field experiences in the P-12 school system)	3
EDUC 340	Literacy and the Learner (Course includes field experiences in the school system)	3
Phase 2:		
EDUC 331	Educational Technology and Assessment	2
EDUC 350	Instruction I-Individualization/Management (Course is taught off-campus at a Professional Development (PD) Middle School)	3
EDUC 386	Practicum-Instruction I (Course includes field experiences aligned with EDUC 350)	1
Phase 3:		
EDUC 450	Instruction II-Standards and Assessment (Course is taught off-campus at a Professional Development (PD) High School)	4
EDUC 486E	Practicum: Instruction II (Course includes field experiences aligned with EDUC 450)	1
Phase 4:		
Student Teaching		
Code	Title	Credits
Undergraduate Early Childhood Pathway:		
Phase 1:		
EDUC 275	Schooling in the United States (GT-SS3) (Course includes 8-10 hours of field experiences in the P-12 school system)	3
EDUC 331	Educational Technology and Assessment	2

EDUC 340	Literacy and the Learner (Course includes field experiences in the school system)	3
Phase 2:		
EDUC 400	Diagnostic Teaching of Reading (Course includes field experiences in the school system and/or Pre-K centers)	3
EDUC 425	Early Childhood Education I (Course includes field experiences in the school system and/or Pre-K centers)	4
Phase 3:		
EDUC 426	Early Childhood Education II (Course includes field experiences in the school system and/or Pre-K centers)	4
Phase 4:		
Student Teaching		

Career and Technical Education (CTE)

Individuals desiring to teach in or administer career and technical programs in the state of Colorado must qualify for a credential in addition to a teaching license. Those who plan to qualify as career and technical education teachers or directors must meet the requirements for a CTE credential established by the Community Colleges of Colorado and the Colorado Department of Education. Credentialing questions may be directed to the Department of Education, (303) 866-6628.

Professional Education Course Requirements

The professional education course requirements listed under Professional Education Coursework for Licensure apply to all teaching endorsement areas in career and technical education.

Agricultural Education

Kellie Enns, Ph.D., Program Coordinator

Candidates studying Agricultural Education are prepared to teach youth and adults in high schools, community colleges, junior colleges, area career and technical schools, and technical institutes. Two thousand hours in the agriculture industry are required in addition to the completion of the agriculture curriculum and professional education coursework.

For the detailed four-year curriculum, refer to the Major in Agricultural Education, or contact the Center for Educator Preparation Advising Center in the Education Building, Room 204.

Family and Consumer Sciences

Dawn Mallette, Ph.D., Program Coordinator

Candidates majoring in Family and Consumer Sciences with a concentration in Family and Consumer Sciences Education are prepared to be employed as teachers in middle schools, junior or senior high schools, community and junior colleges, area career and technical schools, and technical institutes.

For the detailed four-year curriculum, refer to the interdepartmental major in Family and Consumer Sciences, **Family and Consumer Sciences Education concentration**, under the School of Education.

Undergraduate

[chhs.colostate.edu/soe/programs-and-degrees](https://www.chhs.colostate.edu/soe/programs-and-degrees) (<https://www.chhs.colostate.edu/soe/programs-and-degrees/>)

The School of Education offers graduate programs leading to a Master of Arts in Counseling and Career Development, a Master of Education in Education and Human Resource Studies, a Master of Science in Student Affairs in Higher Education, and a Doctor of Philosophy degree in Education and Human Resource Studies.

Master of Arts specializations are available in:

- Career Counseling
- Clinical Mental Health Counseling
- School Counseling

Master of Education specializations are available in:

- Adult Education and Training
- Education Sciences
- Educational Leadership with K-12 Principal Licensure
- Organizational Learning, Performance and Change
- Teacher Licensure

The Master of Science degree in Student Affairs in Higher Education follows the Council for the Advancement of Standards in higher education.

Doctoral degree specializations are available in:

- Education, Equity, and Transformation
- Higher Education Leadership
- Organizational Learning, Performance and Change

Regional Graduate Program status has been granted to the doctoral degree by the Western Interstate Commission on Higher Education (WICHE). This arrangement, approved by the State of Colorado, permits citizens of other states to pay resident tuition rates under certain conditions. Contact the School of Education for further details.

Non-degree programs are also available that lead to licensure/credential/endorsement as a school principal.

Students interested in graduate work should refer to the Graduate and Professional Bulletin and the School of Education. (<https://www.chhs.colostate.edu/soe/>)

Certificates

- Adult Basic Education (*This program is not accepting applications at this time*)
- Campus Crisis Management
- Facilitating Adult Learning
- High Impact On-Demand Solutions Learning
- Postsecondary Access and Success Programs (*This program is no longer accepting applications*)
- Student Affairs Administration

Master's Programs

- Master of Arts in Counseling and Career Development
 - Master of Arts in Counseling and Career Development, Plan B, Career Counseling Specialization
 - Master of Arts in Counseling and Career Development, Plan B, Clinical Mental Health Counseling Specialization
 - Master of Arts in Counseling and Career Development, Plan B, School Counseling Specialization
- Master of Education in Education and Human Resource Studies, Plan A, Adult Education and Training Specialization
- Master of Education in Education and Human Resource Studies, Plan B, Adult Education and Training Specialization
- Master of Education in Education and Human Resource Studies, Education Sciences Specialization
- Master of Education in Education and Human Resource Studies, Educational Leadership with K-12 Principal Licensure Specialization
- Master of Education in Education and Human Resource Studies, Organizational Learning, Performance and Change Specialization
- Master of Education in Education and Human Resource Studies, Teacher Licensure Specialization
- Master of Science in Student Affairs in Higher Education, Plan A and Plan B

Ph.D.

- Ph.D. in Education and Human Resource Studies, Education, Equity, and Transformation Specialization
- Ph.D. in Education and Human Resource Studies, Higher Education Leadership Specialization
- Ph.D. in Education and Human Resource Studies, Organizational Learning, Performance, and Change Specialization
- Ph.D. in Education and Human Resource Studies, School Leadership Specialization (*This program is not accepting applications at this time*)

Courses

Subjects in this department include: Education - Adult (EDAE), Education - Community College (EDCL), Education - Counseling and Career Development (EDCO), Education - Career and Teaching (EDCT), Education - General (EDUC), Education - Higher Education (EDHE), Education - Organizational Performance and Change (EDOD), Education - Research Methods (EDRM), and Family + Consumer Sci - (FACS).

Education - Adult (EDAE)

EDAE 495 Independent Study-Adult Education Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDAE 520 Adult Education Credits: 3 (0-0-3)

Course Description: Philosophical foundations, a description of program service areas, adult participation trends, and current issues.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 521 Introduction to Adult Education and Training Credit: 1 (1-0-0)

Course Description: Introduction to concepts and resources for the adult education and training program. Begin capstone portfolio project that continues to develop throughout the program.

Prerequisite: None.

Registration Information: Sections may be offered: Mixed Face-to-Face or Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 530 Adult Basic Education Credits: 3 (2-0-1)

Course Description: Enhance instructor skills in literacy and numeracy instruction for adult learners functioning below the 12th grade equivalency.

Prerequisite: None.

Registration Information: Bachelor's degree or consent of instructor. Must register for lecture and recitation. Offered as an online course only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 540 Teach English as Second Lang—Adult Learners Credits: 3 (2-0-1)

Course Description: Instructors learn the tools necessary to successfully deliver English learning to adult speakers of other languages.,

Prerequisite: None.

Registration Information: Bachelor's degree or consent of instructor. Must register for lecture and recitation. Offered as an online course only.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 555A Study Abroad--Thailand: Spiritual Practices Credits: 3 (0-0-3)

Course Description: Historical, social, political, and cultural perspectives that shape lifelong learning in the host country--Thailand. Educational activities structured to allow reflection of pedagogical approaches and teaching philosophies specific to adult learners. Development of a deep understanding of adult education concepts through immersion, comparison, reflection, and applications.

Prerequisite: None.

Restriction: Must not be a: Freshman, Sophomore, Junior.

Registration Information: Offered as Mixed Face-to-Face. Credit not allowed for both EDAE 555A and EDAE 582A.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 582B Study Abroad--Todos Santos: Community Education Workshop Credits: 3 (0-0-3)

Course Description: Real-life, hands-on experience as international community education providers by applying knowledge of program development for adult learners as a response to social problems faced by marginalized populations.

Prerequisite: None.

Registration Information: Senior standing. Offered as Mixed Face-to-Face.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 586 Practicum Credits: Var[1-18] (0-0-0)

Course Description: Participation in field experience relevant to study program and objectives.

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDAE 590 Workshop Credits: Var[1-18] (0-0-0)

Course Description: Specially designed learning situations to provide opportunities for concentrated problem-solving experiences.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDAE 601 Philosophy/Organization of Workforce Education Credits: 3 (3-0-0)

Course Description: Principles, philosophy, practices, and innovations of workforce education and human resources.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 620 Processes and Methods Credits: 3 (0-0-3)

Course Description: Processes and methods including helping theories used by adult learning facilitators.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 624 Adult Teaching and Learning I Credits: 3 (0-0-3)

Course Description: Using theory and best practices to design and deliver instruction for adults.

Prerequisite: EDAE 520.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 629 Program Development Credits: 3 (0-0-3)

Course Description: Models for planning, implementing, and evaluating programs for adult learners.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 630 Using Mobile Technology for Training Credits: 3 (1-0-2)

Course Description: Facilitating learning and developing knowledge access through mobile technologies for adult learners. Using mobile technologies to develop a learning event for targeted adult learners.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online or Mixed Face-to-Face.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 639 Instructional Design Credits: 3 (1-0-2)

Course Description: Apply instructional design principles in the development of a course or workshop and explore application of various learning methods.

Prerequisite: EDAE 620 and EDAE 624 and EDRM 600.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 664 Assessment and Evaluation in Adult Education Credits: 3 (2-0-1)

Course Description: Assessment of learning, evaluation of learning events, and determining the value of training to adult learners in various environments.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 668 Cognitive Theory and Learning Transfer Credits: 3 (1-0-2)

Course Description: Investigation of learning processes and training strategies that lead to application of learning outside of the classroom.

Prerequisite: EDAE 620 and EDAE 624.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDAE 687 Internship Credits: Var[1-18] (0-0-0)

Course Description: Career or job fieldwork experience with an adult education institution, agency, or program.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDAE 692 Seminar-Adult Education Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDAE 695 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDAE 698 Research Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: EDAE 520 and EDAE 624 and EDRM 600.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDAE 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: EDAE 520 and EDAE 624 and EDRM 600.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDAE 724 Adult Teaching and Learning II Credits: 3 (0-0-3)

Course Description: Adult teaching and learning, alternative delivery systems, performance technology, and faculty evaluation.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

Education - Community College (EDCL)

EDCL 675 The Community College Credits: 3 (3-0-0)

Course Description: Role and scope of community college: history, philosophy, organization, administration.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must have concurrent registration in EDCL 702.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDCL 687 Internship Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDCL 701 Higher Education Law Credits: 3 (0-0-3)

Course Description: Legal theory, analysis, and review of cases relevant to higher education.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDCL 702 Community College Curriculum Credits: 3 (2-0-1)

Course Description: Investigation and research of critical curricular issues affecting the community college now and in the future.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must have concurrent registration in EDCL 675. Must register for lecture and recitation.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDCL 703 Community College Leadership Credits: 3 (2-0-1)

Course Description: Investigation and research of critical leadership issues affecting the community college now and in the future.

Prerequisite: EDCL 675.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDCL 750 Simulated Presidential Cabinet I Credits: 3 (0-0-3)

Course Description: Issues and challenges relating to students, faculty, instructional programs, noninstructional programs, and instructional delivery.

Prerequisite: EDCL 701 and EDUC 710.

Restriction: Must be a: Graduate, Professional.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDCL 751 Simulated Presidential Cabinet II Credits: 3 (0-0-3)

Course Description: Issues and challenges relating to internal/external governances, legal authority, institutional revenues, expenditures and insurances, human resources.

Prerequisite: EDCL 701 and EDUC 710.

Restriction: Must be a: Graduate, Professional.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDCL 792 Seminar Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Instructor Option.

Special Course Fee: No.

Education - Counseling/Career Development (EDCO)

EDCO 500 Career and Employment Concepts Credits: 3 (0-0-3)

Course Description: Career and lifestyle studies that provide an understanding of career development, employment concepts, and career counseling resources.

Prerequisite: None.

Registration Information: Bachelor's degree. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDCO 550 Professional School Counseling Credits: 3 (3-0-0)

Course Description: History, professionalism, ethics, program planning and program development of school counseling programs.

Prerequisite: None.

Registration Information: Admission to Counseling and Career Development Program or approval of instructor.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 384 Supervised College Teaching Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Undergraduate.

Registration Information: Written consent of instructor. Sections may be offered: Face-to-Face, Online, or Mixed Face-to-Face. A maximum of 10 combined credits for all 384 and 484 courses are counted toward graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDUC 386 Practicum-Instruction I Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: EDUC 275 and EDUC 340.

Registration Information: Must have concurrent registration in EDUC 350. Admission to Teacher Licensure Program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDUC 400 Diagnostic Teaching of Reading Credits: 3 (1-4-0)

Course Description: Development of the knowledge base, skills, and strategies for teaching reading from birth to age 8. Service learning experiences.

Prerequisite: EDUC 275 and EDUC 340 and HDFS 217 and HDFS 310.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 425 Early Childhood Education I Credits: 4 (2-6-0)

Course Description: Integrated methods; theoretical bases; teacher's role; appropriate curriculum; measurement; environments; pedagogy; instructional design and decisions.

Prerequisite: EDUC 275 and EDUC 340.

Registration Information: Admission to Teacher Licensure Program. Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 426 Early Childhood Education II Credits: 4 (2-4-0)

Course Description: Integrated methods; organizing/presenting materials/activities; applying decisions; managing groups; individual instruction; assessment/evaluation.

Prerequisite: EDUC 425.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 450 Instruction II-Standards and Assessment Credits: 4 (2-4-0)

Course Description: Theory, research, and practice of standards-based instruction: assessment, literacy, and technology. Includes work in public schools.

Prerequisite: EDUC 350 and EDUC 386 and EDUC 331.

Registration Information: Must have concurrent registration in EDUC 486E. Must register for lecture and laboratory. Course must be taken semester immediately prior to student teaching semester.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 460 Methods and Materials in Teaching Science Credits: 4 (3-2-0)

Course Description: Current trends in science education, K-12; techniques of experimentation demonstrations; study of equipment, facilities, and resource materials.

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program. Must register for lecture and laboratory. Credit allowed for only one of the following: EDUC 460, EDUC 480A2, and EDUC 461B.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 461A Secondary Science and Technology Education I Credits: 3 (3-0-0)

Course Description: Understandings of, and skills in using, contemporary approaches to pedagogy and planning in science and technology education. Historical understandings, critical analyses, and experiences to guide and engage highly diverse K-12 students in authentic science and technology learning.

Prerequisite: EDUC 275 and EDUC 340.

Registration Information: Accepted into teacher licensure. Science education students only. Part one of a two-part course sequence. Credit allowed for only one of the following: EDUC 331, EDUC 480A1, and EDUC 461A.

Term Offered: Fall.

EDUC 466 Methods and Assessment in K-12 Art Education Credits: 4 (4-0-0)

Course Description: Objectives, methods, and resource materials for teaching art in elementary and secondary schools.

Prerequisite: EDUC 275.

Registration Information: Admission to Teacher Licensure Program.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 467 Methods in Dance Education Credits: 3 (2-2-0)

Course Description: Objectives, methods, and resource materials for teaching dance in elementary and secondary schools, private studios, and the community at large.

Prerequisite: D 344.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Must register for lecture and laboratory. Required field trips.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 474 Elementary Music Methods I Credits: 2 (1-3-0)

Course Description: Developmentally appropriate strategies and materials for K-6 music instruction; emphasis on common methodologies, resources, standards-based teaching.

Prerequisite: MU 151A.

Registration Information: Admission to Teacher Licensure Program. Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 475 Elementary Music Methods II Credits: 2 (1-3-0)

Course Description: Classroom management, motivational strategies, technology tools, assessment/evaluation of music learning and field experiences in K-6 music education.

Prerequisite: EDUC 474.

Registration Information: Must register for lecture and laboratory.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 476 Choral Methods for Secondary Schools Credits: 2 (1-3-0)

Course Description: General music classes, choral techniques and literature; current practices and trends.

Prerequisite: MU 217.

Registration Information: Admission to Teacher Licensure Program. Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 477 Instrumental Methods for Secondary Schools Credits: 2 (1-3-0)

Course Description: Organization and administration of instrumental music, grades 5-12.

Prerequisite: MU 217.

Registration Information: Admission to Teacher Licensure Program. Must register for lecture and laboratory.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 485A Student Teaching: Elementary Credits: Var[6-14] (0-0-0)

Course Description: Teacher education candidates participate in an intensive and extensive on-site capstone experience within a public school setting.

Prerequisite: (EDUC 450) and (EDUC 462 or EDUC 466 or EDUC 467 or EDUC 474 or EDUC 475).

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 485B Student Teaching: Secondary Credits: Var[6-14] (0-0-0)

Course Description: Teacher education candidates participate in an intensive and extensive on-site capstone experience within a public school setting.

Prerequisite: (EDUC 450) and (EDUC 461B or EDUC 463 or EDUC 464 or EDUC 465 or EDUC 466 or EDUC 467 or EDUC 476 or EDUC 477).

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: Yes.

EDUC 485C Student Teaching: Early Childhood Credits: Var[6-14] (0-0-0)

Course Description: Teacher education candidates participate in an intensive and extensive on-site capstone experience within a public school setting.

Prerequisite: EDUC 426.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: Yes.

EDUC 486A Practicum: K-12 Classroom Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 486B Practicum: Reading Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 486C Practicum: Mathematics Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 486D Practicum: Literacy Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 486E Practicum: Instruction II Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDUC 493A Seminar: Professional Relations Credits: Var[1-3] (0-0-0)

Course Description: Collegial and professional discussions, support, and assistance.

Prerequisite: (EDUC 426 or EDUC 450) and (EDUC 485A, may be taken concurrently or EDUC 485B, may be taken concurrently or EDUC 485C, may be taken concurrently or EDCT 485) and (EDUC 460 or EDUC 474 or EDUC 463 or EDUC 464 or EDUC 465 or EDUC 466 or EDUC 475 or EDUC 476 or EDUC 477 or EDCT 425 or EDCT 431 or EDCT 441 or EDCT 451 or EDCT 465 or EDUC 462).

Registration Information: Appropriate special methods course(s).

Terms Offered: Fall, Spring.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDUC 493B Seminar: Assessment of Learning Credits: Var[1-3] (0-0-0)

Special Course Fee: No.

EDUC 525C Expert Teaching: Literacy and Numeracy Credits: 3 (0-0-3)

Course Description: Theories related to effective classroom instruction.

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program; Bachelor's degree.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 526 Interdisciplinary Methods Credits: 4 (0-4-2)

Course Description: Theories related to effective classroom instruction.

Prerequisite: None.

Registration Information: Admission to Teacher Licensure Program; Bachelor's degree.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 530 Technology Enhanced Learning Credits: 3 (2-2-0)

Course Description: Enhancing instruction and learning through the effective use of technology.

Prerequisite: None.

Registration Information: Bachelor's degree. Must register for lecture and laboratory. Sections may be offered: Online.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 570 Perspectives of Special Education Credits: 3 (2-2-0)

Course Description: Historical and legal, philosophical foundations, student characteristics, and building collaborative relationships in special education.

Prerequisite: None.

Registration Information: Must register for lecture and laboratory.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 573 Differentiating Instruction for Diverse Needs Credits: 3 (3-0-0)

Course Description: Information techniques, and practice regarding methods for differentiating instruction.

Prerequisite: EDUC 570.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 591A Workshop: Instruction Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDUC 591B Workshop: Community Partnerships Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 591C Workshop: Annenberg/CPB Science Instruction Credits: Var[1-3] (0-0-0)

Course Description: Science pedagogy for practicing K-12 teachers.

Prerequisite: None.

Registration Information: Offered as a telecourse only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDUC 591D Workshop: Annenberg/CPB Mathematics Instruction Credits: Var[1-3] (0-0-0)

Course Description: Mathematics pedagogy for practicing K-12 teachers.

Prerequisite: None.

Registration Information: Offered as a telecourse or an online course only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDUC 591E Workshop: Annenberg/CPB Educ Theory and Issues Credits: Var[1-3] (0-0-0)

Course Description: General educational theory and current issues for practicing K-12 teachers.

Prerequisite: None.

Registration Information: Offered as telecourse only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDUC 591F Workshop: Annenberg/CPB Humanities Instruction Credits: Var[1-3] (0-0-0)

Course Description: English, social studies, or art pedagogy for practicing K-12 teachers.

Prerequisite: None.

Registration Information: Offered as telecourse only.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDUC 610 Principles of Supervision and Evaluation Credits: 3 (2-0-1)

Course Description: Supervision and evaluation of instruction including required Colorado evaluation training.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDUC 618 School Law Credits: 3 (3-0-0)

Course Description: Legal framework for operation and management of public and private schools emphasizing legal responsibilities for administrators and teachers.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 649 Inclusive College Teaching Credits: 3 (0-0-3)

Course Description: Concepts, skills, and strategies for effective post-secondary inclusive teaching and learning. Student-centered design allows course work to be applicable for anyone interested in post-secondary inclusive teaching and learning in any content area or discipline.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 650 College Opportunity Program Models Credits: 3 (2-0-1)

Course Description: Examines rationale and structure of postsecondary retention programs that support underrepresented students based on college type and program purpose.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Bachelor's degree or consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 651 Pre-College Program Models Credits: 3 (2-0-1)

Course Description: Rationale and structure of pre-college programs that support underrepresented students' successful enrollment into higher education.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Bachelor's degree required. Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 653 Precollege Access Programs Credits: 3 (3-0-0)

Course Description: Precollege access programs effective practices to support underrepresented middle-high school students to prepare for and enroll in postsecondary.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Bachelor's degree or written consent of instructor Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 655 Foundations of College Opportunity Programs Credits: 3 (2-0-1)

Course Description: Exploration of college opportunity programs for expanding access to American higher education. Understanding the implications of financial aid, opportunity support programs, achievement gaps, policies, and advocacy.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as an online course only. Credit not allowed for EDHE 655 and EDHE 680A1.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 656 Postsecondary Opportunity Programs Practice Credits: 3 (2-0-1)

Course Description: Examines effective college opportunity program practices in context of institutional and student demographics, which support students' transition, persistence, achievement, engagement, and completion. Reviews retention literature and practices focused on low income, first generation, and other underrepresented students.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as an online course only.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 658 Higher Education Enrollment Management Credits: 3 (3-0-0)

Course Description: Holistic understanding of enrollment management beginning with understanding factors shaping students' college choice options and decisions. Exploration of theory, policy and practice of marketing, admissions, financial aid, tuition setting, and retention as critical areas of enrollment management.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 661 Inclusive University Credits: 3 (3-0-0)

Course Description: Exploration of broad range of human differences and their impact in higher education.

Prerequisite: EDHE 673.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in SAHE program. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 662 Trends/Issues/Assessment in Higher Education Credits: 2 (2-0-0)

Course Description: Assessment and research involving students in collegiate settings.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in the SAHE program. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 670 Foundations and Trends in Student Affairs Credits: 3 (3-0-0)

Course Description: Historical and philosophical foundations, and current trends including analysis of the role of student affairs in higher education.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in SAHE program or one of the graduate certificates--Campus Crisis Management; Student Affairs Management in Auxiliary Enterprises; Student Affairs Administration. Sections may be offered: Online.

Terms Offered: Fall, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 672 Ethical and Practical Issues-Student Affairs Credits: 2 (2-0-0)

Course Description: Ethical principles and standards used in student affairs.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in the SAHE program. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 673 Student Development Theory Credits: 3 (0-0-3)

Course Description: Strategies for application of student development theories in practice.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in SAHE program. Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Spring, Summer.

Grade Modes: S/U within Student Option, Trad within Student Option.

Special Course Fee: No.

EDHE 675 Campus Crisis Management Credits: 3 (3-0-0)

Course Description: Crisis management on college campuses.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Bachelor's degree; enrollment in SAHE program. Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 676 Organizational Behavior and Campus Ecology Credits: 3 (3-0-0)

Course Description: Application of theories of organizational behavior to student affairs practice in the areas of understanding how organizations work, managing and leading people, best practices, and understanding these processes within the context of the campus ecology. An ecological perspective emphasizes how the organization's social and physical environments impact learning, campus life, and student development.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Student Affairs in Higher Education program or instructor permission. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 677 Law in Student Affairs Credits: 3 (3-0-0)

Course Description: Legal issues focusing on sources and application of educational law and responsibilities of higher education administrators.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in SAHE program. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 678 Capstone in Higher Education Administration Credits: 3 (3-0-0)

Course Description: Study of the purpose, structure, and role of leadership within the administration of higher education and analysis of current issues as students transition to professional roles.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Student Affairs in Higher Education program. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 692A Seminar: Current Trends and Issues Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in SAHE program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDHE 692B Seminar: Working with Student Groups Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in SAHE program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDHE 692C Seminar: Service Learning Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in SAHE program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDHE 692D Seminar: International Programs Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Enrollment in SAHE program.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDHE 694 Independent Field Studies Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDHE 695 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDHE 771 Higher Education Leadership Credits: 3 (3-0-0)

Course Description: History, purpose, structure, culture, and role of leadership within higher education, with critical issues relevant to present day higher education.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Online.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 773 Student Development in a Collegiate Context Credits: 3 (3-0-0)

Course Description: Theories and research related to student development and learning in a college context, including adult development and learning theory.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as an online course only.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDHE 799 Dissertation Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Written consent of advisor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Education - Organizational Performance and Change (EDOD)

EDOD 506 Human Resource Development Credits: 3 (3-0-0)

Course Description: Human resource development foundational theory, research, and techniques for workplace and organizational learning and performance.

Prerequisite: None.

Registration Information: Admission to Organizational Learning, Performance and Change specialization or written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 651 On-Demand Learning—Improving Performance Credits: 3 (1-2-1)

Course Description: On-demand learning theories and tools and techniques for developing impactful digital learning objects to create learning objects for the purpose of improving performance. Utilization of learning network to accelerate understanding of course topics and objectives.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture, lab, and recitation. Offered as an online course only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 652 High Impact On-Demand Solutions Credits: 3 (1-2-1)

Course Description: Design of high-impact, on-demand (HI-OD) performance solutions that drive organizational results.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture, lab, and recitation. Offered as an online course only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 653 Managing Development of On-Demand Solutions Credits: 3 (1-0-2)

Course Description: Learn to conduct consultative conversations, develop value propositions, and create detailed request for service (RFS) proposals that direct the development to high impact-on demand assets. Oversee and participate in the development of HI-OD assets based on organizational opportunities.

Prerequisite: EDOD 652.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Offered as an online course only.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 667 Power-Politics-Influence in Organizations Credits: 3 (3-0-0)

Course Description: Creation and execution of power relationships, political engagements, and communications in organizations.

Prerequisite: EDOD 506.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Organizational Learning, Performance and Change specialization.

Term Offered: Summer (even years).

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 670 Strategic Human Resource Development Credits: 3 (3-0-0)

Course Description: Examine fundamentals of strategy from a HRD perspective, utilizing management tools, recent research and contemporary theory.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Organizational Learning, Performance and Change specialization.

Term Offered: Summer (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 671 Establish Relations, Diagnose Organizations Credits: 3 (3-0-0)

Course Description: Build relationships with clients and examine current practices to diagnose organizational learning and performance issues.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Organizational Learning, Performance, and Change specialization or written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 672 Change Facilitation Credits: 3 (3-0-0)

Course Description: Roles and responsibilities of change agents and the fundamentals of change: principles, practices, processes, and resistance strategies.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Organizational Learning, Performance and Change specialization.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 673 Plan and Implement Change Interventions Credits: 3 (3-0-0)

Course Description: Plan strategies and facilitate change interventions to improve organizational learning and performance.

Prerequisite: EDOD 677, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Organizational Learning, Performance and Change specialization or written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 674 Analyze Workplace Learning Credits: 3 (3-0-0)

Course Description: Analyze workplace learning and performance issues drawing on foundational principles.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Organizational Learning, Performance and Change specialization or written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 675 Design, Develop, Implement Workplace Learning Credits: 3 (3-0-0)

Course Description: Design, develop, and implement workplace learning and performance interventions drawing on foundational principles.

Prerequisite: EDOD 674.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Organizational Learning, Performance and Change specialization or written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 676 Evaluate Workplace Learning Credits: 3 (3-0-0)

Course Description: Evaluate workplace learning and performance interventions drawing on foundational principles. Examine satisfaction, learning, and performance results.

Prerequisite: EDOD 675, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Organizational Learning, Performance and Change specialization or written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 677 Action Learning and Inquiry Credits: 3 (3-0-0)

Course Description: Literature reviews and data collection methods as the basis for diagnosing organizational learning and performance issues.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Organizational Learning, Performance and Change specialization or written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 678 Assess Change Interventions Credits: 3 (3-0-0)

Course Description: Assess and institutionalize change interventions to improve organizational learning and performance.

Prerequisite: EDOD 500 to 799 - at least 15 credits.

Restriction: Must be a: Graduate, Professional.

Registration Information: 15 credits of EDOD 500-level or above courses or written consent of instructor. Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 687 Internship Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDOD 692A Seminar: HRD Concepts--Workplace Learning Credits: 3 (0-0-3)**Course Description:****Prerequisite:** EDOD 500 to 799 - at least 6 credits.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Admission to the Organizational Learning, Performance and Change specialization. Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**EDOD 692B Seminar: HRD Concepts--Organizational Learning Credits: 3 (0-0-3)****Course Description:****Prerequisite:** EDOD 500 to 799 - at least 6 credits.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Admission to the Organizational Learning, Performance and Change specialization. Sections may be offered: Online.**Terms Offered:** Fall, Spring, Summer.**Grade Mode:** Instructor Option.**Special Course Fee:** No.**EDOD 706 Organizational Learning, Performance, Change Credits: 3 (2-0-1)****Course Description:** History, development, and current status of organizational learning, performance and change theory, research and practice (praxis).**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Admission to the Organizational Learning, Performance and Change specialization under the Education and Human Resource Studies Ph.D. Must register for lecture and recitation. Offered as Mixed Face-to-Face.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**EDOD 761 Evaluation and Assessment of Interventions Credits: 3 (2-0-1)****Course Description:** Evaluation and assessment of organizational learning, performance, and change (OLPC) interventions.**Prerequisite:** EDOD 706 and EDOD 768.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Must register for lecture and recitation. Offered as Mixed Face-to-Face.**Term Offered:** Spring (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.**EDOD 765 Strategic Planning of Education for Work Credits: 3 (3-0-0)****Course Description:** Human capital as component of strategic planning of education; training and development at national, regional, and organizational levels.**Prerequisite:** None.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Admission to Organizational Learning, Performance and Change specialization.**Term Offered:** Fall (even years).**Grade Mode:** Traditional.**Special Course Fee:** No.**EDOD 766 Scenario Planning in Organizations Credits: 3 (2-0-1)****Course Description:** Theory and practice of scenario planning. Application of scenario planning in organizations.**Prerequisite:** EDOD 761 and EDOD 769.**Restriction:** Must be a: Graduate, Professional.**Registration Information:** Must register for lecture and recitation. Offered as Mixed Face-to-Face.**Term Offered:** Summer (odd years).**Grade Mode:** Traditional.**Special Course Fee:** No.

EDOD 768 Workforce Development Credits: 3 (3-0-0)

Course Description: Characteristics and elements of workforce development with special attention to the roles and responsibilities of employers and managers.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to the Organizational Learning, Performance and Change specialization under the Ph.D. in Education and Human Resource Studies. Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online.

Term Offered: Fall (even years).

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 769 Theory and Practice of Change Credits: 3 (3-0-0)

Course Description: Theory, history, characteristics, nature, levels, and types of change and modern conceptual and integrated models of change.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 770 Organizational Culture Credits: 3 (3-0-0)

Course Description: Theories, methods, and practices for evaluating, analyzing, and changing organizational culture.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Organizational Learning, Performance and Change specialization.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 771 Social Foundations of the Workplace Credits: 3 (2-0-1)

Course Description: Social, cultural and political systems in organizations and their implications for employees.

Prerequisite: EDOD 761 and EDOD 769.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Offered as Mixed Face-to-Face.

Term Offered: Summer (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 772 Theory Building in Applied Disciplines Credits: 3 (2-0-1)

Course Description: Theory building in workplace environments. Develop a theory and examine and critique existing theories.

Prerequisite: EDOD 766 and EDOD 771.

Restriction: Must be a: Graduate, Professional.

Registration Information: Offered as Mixed Face-to-Face.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 773 Systems Leadership Credits: 3 (2-0-1)

Course Description: A systems conceptualization and approach to leadership and leadership development.

Prerequisite: EDOD 771 and EDOD 772, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Registration Information: Must register for lecture and recitation. Offered as Mixed Face-to-Face.

Term Offered: Fall (odd years).

Grade Mode: Traditional.

Special Course Fee: No.

EDOD 786 Practicum Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Organizational Learning, Performance and Change specialization.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDOD 792 Seminar-Human Resource Development Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDOD 799 Dissertation Credits: Var[1-18] (0-0-0)

Course Description: Dissertation research, writing, and defense.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Organizational Learning, Performance and Change specialization.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

Education - Research Methods (EDRM)

EDRM 600 Introduction to Research Methods Credits: 3 (3-0-0)

Course Description: Methods of research, scientific methods, problem identification, research design, preparation and evaluation of research reports.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Credit not allowed for both AGED 600 and EDRM 600.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 602 Action Research Credits: 3 (3-0-0)

Course Description: Provide educators with knowledge and skills to plan and implement school-based research to improve teaching and learning.

Prerequisite: EDRM 600.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 606 Principles: Quantitative Data Analysis Credits: 3 (3-0-0)

Course Description: Quantitative data analysis in social science research; descriptive statistics; fundamentals of inference.

Prerequisite: (EDRM 600) and (STAT 201).

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Face-to-Face or Mixed Face-to-Face. Credit not allowed for VS 562, EDRM 606 and PBHL 560.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 612 Assessing Students in Educational Settings Credits: 3 (2-0-1)

Course Description: Various ways of assessing students including traditional, authentic, and portfolio techniques for P-20 education.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admissions into a Master's Program within the School of Education.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 663 Autoethnography and Reflective Practice I Credits: 2 (2-0-0)

Course Description: Introduces basic autoethnographic research skills that underpin the creation of the culminating SAHE program portfolio. Foundational research methods, the portfolio process, cultivating reflective practice, and critical analysis skills are necessary to both conduct autoethnography and develop as a practitioner-scholar.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Student Affairs in Higher Education program. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 664 Autoethnography and Reflective Practice II Credits: Var[1-2] (0-0-0)

Course Description: Apply advanced theoretical concepts and refine autoethnographic data collection, analysis, and writing skills. Focus on use of literature, refining a personal plan to complete the portfolio, and continuing to use data and reflection as tools of effective practice.

Prerequisite: EDRM 663.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Student Affairs in Higher Education program or permission of the instructor. May be taken twice for credit. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 665 Qualitative Methods in Student Affairs Credits: 2 (2-0-0)

Course Description: Introduction to the epistemologies and methodologies related to qualitative frameworks used in student affairs research. How to design a basic qualitative study, including research questions, data collection and analysis, as well as findings and discussion appropriate for topics related to student affairs.

Prerequisite: EDRM 600.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Student Affairs in Higher Education program. Sections may be offered: Online.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 666 Program Evaluation Credits: 3 (3-0-0)

Course Description: Models and practices of program evaluation in both public and private sector organizations.

Prerequisite: EDRM 600.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 667 Student Affairs Assessment and Evaluation Credits: 3 (3-0-0)

Course Description: Models and practices of assessment and evaluation in collegiate settings.

Prerequisite: EDRM 600.

Restriction: Must be a: Graduate, Professional.

Registration Information: Admission to Student Affairs in Higher Education program or instructor permission required. Sections may be offered: Online.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 692 Seminar-Research Methods/Proposal Design Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDRM 698 Research Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDRM 699 Thesis Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDRM 700 Quantitative Research Methods Credits: 3 (3-0-0)

Course Description: Design, data analysis, interpretation of results, and evaluation of educational research studies.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 701 Applied Linear Models-Educational Research Credits: 3 (3-0-0)

Course Description: General linear model applications in educational research emphasizing conceptual understanding and characteristics of non-experimental designs.

Prerequisite: EDRM 606.

Restriction: Must be a: Graduate, Professional.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 702 Foundations of Educational Research Credits: 3 (3-0-0)

Course Description: Philosophical, theoretical, and ethical foundations of educational research.

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 703 Applied Longitudinal Data Analysis Credits: 3 (3-0-0)

Course Description: Methods and empirical applications of individual growth modeling and discrete-time event history analysis in educational research.

Prerequisite: EDRM 701.

Restriction: Must be a: Graduate, Professional.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 704 Qualitative Research Credits: 3 (3-0-0)

Course Description: Examination of qualitative research theory, methods, and applications to education and the social sciences.

Prerequisite: EDRM 600.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDRM 705 Qualitative Data Analysis Credits: 3 (3-0-0)

Course Description: Examination of qualitative methods of data analysis, data presentation, and use of computer.

Prerequisite: EDRM 704.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDRM 706 Analysis of Variance--Education Research Credits: 3 (3-0-0)

Course Description: Analysis of variance applications in educational research; experimental design and analysis of data from experiments.

Prerequisite: EDRM 700, may be taken concurrently.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 707 Quantitative Data Collection Methods/Analysis Credits: 3 (0-0-3)

Course Description: Selection or development of questionnaires, tests, structured interviews, and observations. Reliability and validity. Reporting educational studies.

Prerequisite: EDRM 700.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 708 Narrative Inquiry Credits: 3 (3-0-0)

Course Description: Theory, methods and design of narrative approaches to research including data collection and analysis applications.

Prerequisite: EDRM 704.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 711 Ethnographic Research Credits: 3 (3-0-0)

Course Description: Theoretical underpinnings, research design, ethics and practical application of ethnographic research in a naturalistic setting.

Prerequisite: EDRM 704.

Restriction: Must be a: Graduate, Professional.

Term Offered: Summer.

Grade Mode: Traditional.

Special Course Fee: No.

EDRM 786 Practicum Credits: Var[1-6] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: S/U Sat/Unsat Only.

Special Course Fee: No.

EDRM 792A Seminar: Research Methodology Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDRM 792B Seminar: Proposal Development Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Registration Information: Sections may be offered: Face-to-Face or Mixed Face-to-Face.

Term Offered: Fall.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDRM 798 Research Credits: 18 (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

EDRM 799 Dissertation Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Family + Consumer Sci - (FACS)

FACS 179 Introduction to Family and Consumer Sciences Credits: 2 (2-0-0)

Course Description: Career options in family and consumer sciences; professional leadership responsibilities.

Prerequisite: None.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FACS 320 Finance-Personal and Family Credits: 3 (3-0-0)

Course Description: Management of income, expenditures, credit, savings, investment, insurance, taxes, and assets considering legislation and economic conditions.

Prerequisite: None.

Registration Information: Sections may be offered: Online.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FACS 360 Family and Consumer Sciences Research Credits: 3 (1-0-2)

Course Description: Exploration of family and consumer sciences scholarship and research, current trends--nationally and internationally; journals and reports; planning, implementing, and disseminating scholarship and research projects.

Prerequisite: None.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Junior standing. Must register for lecture and recitation. AUCC 2 or concurrent registration. Credit not allowed for both FACS 360 and FACS 380A1.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.

FACS 479 Colloquium--Family and Consumer Sciences Credits: 2 (0-0-2)

Course Description: Current topics and issues related to professional roles, responsibilities, and opportunities in Family and Consumer Sciences locally, nationally, and globally.

Prerequisite: FACS 179, may be taken concurrently.

Restriction: Must not be a: Freshman, Sophomore.

Registration Information: Sections may be offered: Mixed Face-to-Face.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

FACS 484 Supervised College Teaching Credits: 2 (0-0-2)

Course Description:

Prerequisite: None.

Registration Information: Sophomore standing. Written consent of instructor. A maximum of 10 combined credits for all 384 and 484 courses are counted toward graduation requirements.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FACS 487A Internship: Extension Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FACS 487B Internship: Community Service Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FACS 487C Internship: Business Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FACS 494 Independent Study Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

FACS 590 Workshop Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Traditional.

Special Course Fee: No.

FACS 698 Research Credits: Var[1-18] (0-0-0)

Course Description:

Prerequisite: None.

Restriction: Must be a: Graduate, Professional.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.

Major in Family and Consumer Sciences

Family and Consumer Sciences (FCS) is an exciting field with many career opportunities. The mission of this interdepartmental major is to prepare professionals dedicated to enhancing the well-being of individuals, families, and the communities and environments in which they live and/or work.

Students graduate with an interdisciplinary perspective about the challenges encountered by families and consumers. Through coursework, students gain skills to assist families and consumers with quality-of-life decisions and challenges related to interpersonal/human relationships, consumer and financial resource management, personal development, nutrition and wellness, and balancing family and work.

This program emphasizes the management and problem-solving skills needed to be a responsible and productive individual, family member, and worker. Students take coursework in a variety of programs/departments including, but not limited to:

- School of Education, Family and Consumer Sciences
- Human Development and Family Studies
- Food Science and Human Nutrition
- Design and Merchandising
- Health and Exercise Science

Students have the option of the Interdisciplinary Concentration or the FCS Education concentration. Upon graduating, students will be eligible to take the exam to be certified in FCS with the American Association of Family and Consumer Sciences.

Learning Objectives

Students will:

1. Demonstrate an understanding and comprehension of the FCS body of knowledge.
2. Demonstrate, at a professional level, oral and written communication and problem-solving proficiency within FCS.
3. Demonstrate synthesis and integration of the specialized FCS body of knowledge through engaged learning experiences.
4. Choose, examine, and assess the impact of civic engagement relevant to FCS.

Potential Occupations

Our graduates' career opportunities include, but are not limited to:

- Secondary classroom teacher
- Cooperative extension agent
- Consumer information specialist
- Program development
- Consultant
- Product representative
- Customer service specialist
- Writer/developer of informational or educational materials
- Government, community, and non-profit agency worker
- Child/youth family advocacy
- Family financial officer
- Wellness director
- Peace Corps volunteer

Teaching opportunities at the middle school, junior high, high school, or post-secondary level are available upon completion of the education concentration.

The FCS major provides a strong foundation for graduate work. Graduate degree opportunities are available in the School of Education or other departments related to family and consumer sciences (e.g., Design and Merchandising, Food Science and Human Nutrition, Human Development and Family Studies, Social Work, Occupational Therapy).

Concentrations

- Family and Consumer Sciences Education Concentration
- Interdisciplinary Concentration

Learn more about the Family and Consumer Sciences major on the School of Education website. (<https://www.chhs.colostate.edu/soe/programs-and-degrees/b-s-in-family-and-consumer-sciences/>)

Major in Family and Consumer Sciences, Family and Consumer Sciences Education Concentration

Family and Consumer Sciences (FCS) directly addresses the needs of youth, families, and consumers. Helping to shape the future, FCS teachers impact the lives of individuals, the health of families, and the welfare of society.

This concentration is a teacher licensure program that prepares students to teach family and consumer sciences subject matter in middle and high school classrooms. The program includes general education courses, subject matter courses, and teacher preparation courses.

Students apply for the teacher licensure program in their junior year and participate in practicum experiences working closely with classroom teachers and students in area schools. Throughout the phases of the licensure program, teacher candidates are placed in a middle school and in a high school, where they apply professional knowledge and refine their instructional skills. While student teaching, they work closely with a FCS mentor teacher and a university coach.

Teacher candidates completing the program meet the requirements for the Bachelor of Science degree in FCS, a Colorado Initial Teaching License in FCS, and a FCS Career and Technical Education endorsement.

This concentration is accredited and approved by the Colorado Department of Higher Education and the Colorado Department of Education. Nationally, it is approved by the Association for Advancing Quality in Educator Preparation (AAQEP).

Students interested in pursuing a teaching license through CSU may also contact the School of Education (<https://www.chhs.colostate.edu/soe/>) and Educator Preparation. (<https://www.chhs.colostate.edu/soe/center-for-educator-preparation/>)

Students who successfully complete this program will be prepared to pursue licensure in Colorado. Licensure requirements in other states and U.S. territories may differ. Students are encouraged to work with the department and the professional licensure board in the state in which they intend to pursue licensing to ensure all requirements are satisfactorily met.

Major in Family and Consumer Sciences, Interdisciplinary Concentration

The Family and Consumer Sciences Interdisciplinary Concentration provides students with a focus on family and consumer well-being, growth, and development of family members, and the relationship of households to their environment. The interdisciplinary nature of this concentration brings together coursework in human development, family studies, nutrition and foods, consumer sciences, personal finance, apparel and textiles, design and merchandising, and health and wellness.

It is highly recommended that students participate in internships, volunteer activities, or cooperative extension opportunities to enhance their experiences and development. Graduates who seek advanced degrees often attain higher-level professional positions.

The concentration includes All-University Core Curriculum (<https://catalog.colostate.edu/general-catalog/all-university-core-curriculum/aucc/>) courses, subject matter courses, and elective courses to enhance personal and professional development.

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Campus Crisis Management

Emergencies on college campuses happen. Being prepared to deal with crises can help minimize the impact of such events on your students and institution. This graduate certificate equips you with the skills needed to deal with different kinds of crises, the stakeholders involved, and the media. Students develop an understanding of crisis management for colleges and universities, including planning, prevention, response, and recovery. Additionally, students gain human relation skills to use during such events. This five-course, 15-credit offering introduces learners to

many facets of campus crisis management. This certificate requires a completed bachelor's degree with a 3.000 grade point average.

Requirements Effective Spring 2020

Additional coursework may be required due to prerequisites.

Graduate Certificate in Facilitating Adult Learning

Students who earn the Graduate Certificate in Facilitating Adult Learning gain the practical skills needed to effectively design and deliver instruction for learners within a variety of settings including higher education, workplace training, and community settings.

Learning Objectives

1. Prepare professional adult learning facilitators to work in a variety of learning environments within a culturally diverse global context.
2. Assist candidates in becoming critically reflective practitioners capable of conducting and communicating workplace research as it relates to and informs the field of adult learning.

3. Encourage individual and professional growth through exposure to other colleagues and collaborative and project based learning environments.

Requirements Effective Spring 2022

Additional coursework may be required due to prerequisites.

Graduate Certificate in High Impact On-Demand Learning Solutions

The Graduate Certificate in High Impact On-Demand Learning Solutions introduces evidence-based theory that leverages the science of learning to design and develop on-demand digital solutions that support learning and maximize organizational impact. Students gain broad experience in building a wide array of evidence-supported techniques for developing highly targeted on-demand learning resources. Emphasis is placed on boosting durable learning for individuals and within organizations.

Learning Objectives

Upon successful completion, students will be able to:

1. Analyze workplace issues.
2. Diagnose the opportunities for organizational change, then plan and implement that change.
3. Enhance performance systems.
4. Understand and develop workplace expertise within employees.
5. Develop and implement workplace learning.
6. Evaluate learning and performance improvement interventions.

Requirements Effective Fall 2017

Additional coursework may be required due to prerequisites.

Graduate Certificate in Student Affairs Administration

Develop the skills and knowledge needed to design programs to help postsecondary students' learning and development potential via on-campus experiences. This certificate is designed to help students become competent practitioners with an understanding of:

1. How and why students develop during postsecondary years
2. Historical and philosophical foundations of student affairs
3. Relationships between college students and their social/physical environments
4. Higher education's finance environment

Offered online, this four-course, 11-credit program requires a completed bachelor's degree and a 3.000 grade point average.

Master of Arts in Counseling and Career Development

The Counseling and Career Development (CCD) Master of Arts integrates academics, research, and engagement to prepare ethical and culturally-responsive counselors who enhance and advocate for all people's mental health, well-being, and life quality. The CCD program offers three specializations accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP): career counseling, clinical mental health counseling, and school counseling.

In this degree program, students experience relevant intrapersonal, interpersonal, and technology-rich learning experiences. All graduates of the CCD program complete:

- 48-credit-hour core curriculum
- 12-credit-hour specialization curriculum
- 100-hour clinical practicum
- 600-hour internship in a setting appropriate for their specialization

All three specializations in the CCD program meet the educational requirements to pursue professional counseling licensure in the State of Colorado. In addition, the School Counseling specialization meets the educational requirements to pursue school counseling licensure/endorsement in Colorado. However, licensure requirements in other states and US territories may differ.

Students interested in graduate work should refer to the Graduate and Professional Bulletin.

Specializations

- Master of Arts in Counseling and Career Development, Plan B, Career Counseling Specialization-
- Master of Arts in Counseling and Career Development, Plan B, Clinical Mental Health Counseling Specialization
- Master of Arts in Counseling and Career Development, Plan B, School Counseling Specialization

Learning Objectives

Upon successful completion of this program, students will be able to:

1. Advocate on behalf of clients and the counseling profession in a way that embraces and advances equity, diversity and inclusion.
2. Examine, integrate and apply career and personal college knowledge and practices in a holistic manner to effectively encourage and facilitate meaningful life design.
3. Conceptualize clients, client issues, and counseling interventions through a firm theoretical foundation.
4. Establish quality therapeutic relationships with clients, and utilize appropriate counseling processes to foster maximal client wellness.
5. Effectively identify, competently implement, and critically evaluate prevailing and emerging counseling interventions that generate and inform evidence-based practice.
6. Critically examine, evaluate, and utilize their core values as they relate to the practice of professional ethics; understand and apply ethical principles, virtues, and standards of practice; and competently implement ethical decision-making models.
7. Demonstrate (through professional practice and involvement) how their ethical self, knowledge of counseling theories and practice, and commitment to issues of diversity, equity and inclusion compromise their identity as a master's level counselor.
8. Engage in meaningful self-reflection and care that leads to enhanced professional practice and improved client outcomes.

Master of Arts in Counseling and Career Development, Plan B, Career Counseling Specialization

Career counselors partner with individuals seeking to live a life of meaning and purpose through their professional work and personal lives. They provide services in various settings such as higher education, workforce centers, community agencies, and private practice.

Students who specialize as career counselors demonstrate knowledge and skills to help people develop life-career plans, focusing on the interaction of work and life roles. They conduct career interventions such as career counseling, education, planning, management, and guidance. In addition, career counselors engage in counseling dialogues that address individuals' unique cultures, contexts, needs, desires, values, concerns, and barriers.

Students who successfully complete this program will be prepared to pursue professional counseling licensure (LPC) in Colorado. Licensure requirements in other states and U.S. territories may differ. Students are encouraged to work with the department and the professional licensure board in the state where they intend to pursue licensing to ensure all requirements are satisfactorily met.

Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

Step	Due Date
1. Application for admission (online)	Six months before first registration
2. Diagnostic examination when required	Before first registration
3. Appointment of advisor	Before first registration
4. Selection of graduate committee	Before the time of fourth regular semester registration
5. Filing of program of study (GS Form 6)	Before the time of fourth regular semester registration
6. Preliminary examination (Ph.D. and PD)	Two terms prior to final examination
7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)	Within two working days after results are known
8. Changes in committee (GS Form 9A)	When change is made
9. Application for Graduation (GS Form 25)	Refer to published deadlines from the Graduate School Website
9a. Reapplication for Graduation (online)	Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying
10. Submit thesis or dissertation to committee	At least two weeks prior to the examination or at the discretion of the graduate committee
11. Final examination	Refer to published deadlines from the Graduate School Website

12. Report of final examination (GS Form 24)	Within two working days after results are known; refer to published deadlines from the Graduate School website
13. Submit a signed Thesis/Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/dissertation	Refer to published deadlines from the Graduate School website.
14. Submit the thesis/dissertation electronically	Refer to published deadlines from the Graduate School website
15. Graduation	Ceremony information is available from the Graduate School website

Master of Arts in Counseling and Career Development, Plan B, Clinical Mental Health Counseling Specialization

In line with the American Counseling Association and the American Mental Health Counselors Association, graduates of the Clinical Mental Health Counseling specialization are prepared to work from a holistic approach, providing counseling services in different health settings such as inpatient and outpatient hospitals, residential facilities, hospice care centers, or private practice.

Clinical mental health counselors enter a distinct profession with national standards for education, training, and clinical practice. They are highly skilled professionals who provide flexible client-oriented therapy. By combining traditional psychotherapy with a practical problem-solving approach, they facilitate the creation of a dynamic and efficient path for change and problem resolution (ACA/AMHCA).

Students who successfully complete this program are prepared to pursue professional counseling licensure (LPC) in Colorado. Licensure requirements in other states and U.S. territories may differ. Students are encouraged to work with the program and the professional licensure board in the state where they intend to pursue licensing to ensure all requirements are satisfactorily met.

Master of Arts in Counseling and Career Development, Plan B, School Counseling Specialization

Graduates of the School Counseling specialization are prepared to serve as professional school counselors in K-12 educational settings.

Professional school counselors work to meet the academic, social-emotional, and career needs of all students through individual, group, and classroom delivery modalities. Through advocacy, collaboration, and leadership, school counseling graduates serve as systemic change agents. They strive to ensure equitable educational access by engaging in data-informed practice, reducing multi-level barriers, and promoting culturally sensitive decision-making.

Students who successfully complete this program are prepared to pursue school counseling and professional counseling licensure in Colorado. Licensure requirements in other states and U.S. territories may differ. Students are encouraged to work with the program and the professional licensure board in the state where they intend to pursue licensing to ensure all requirements are satisfactorily met.

Master of Education in Education and Human Resource Studies, Plan A, Adult Education and Training Specialization

The Adult Education and Training Specialization is designed to prepare practitioners in the planning, design, development, and instructional responsibilities needed to teach adult learners in postsecondary, community, and corporate settings.

With coursework that is grounded in current adult learning theory and consistently connected to practice, this master's degree prepares

graduates to successfully facilitate, design, and implement a wide range of training and educational programs.

Students may pursue either a research-focused Plan A course sequence or a practitioner-focused Plan B course sequence.

- Plan A requires a professional research paper.
- Plan B culminates in a capstone project in which students demonstrate the integration of their academic knowledge and professional abilities.

Students interested in graduate work should refer to the Graduate and Professional Bulletin.
