Research Proposals Submitted *and* Research Awards Received

Foreword

There are several factors that can contribute to charts and totals appearing overly high or overly low. These factors include:

- ◆ Proposal totals prior to fiscal year 2004 represent new and competing continuation proposals only. All other proposal totals represent new, competing continuation, supplemental, and resubmitted proposals.
- ◆ Award totals represent all new and incremental funding toward a new or existing project.
- ◆ Various charts and dollar figures may reflect multi-year, multi-million dollar proposals or awards.
- ◆ Effective July 1, 2000, the Agricultural Experiment Station changed the department numbers for their research centers (departments 114x and 115x [College of Agricultural Sciences] are now 30xx [Other]).
- ◆ Effective July 1, 2002, the College of Veterinary Medicine and Biomedical Sciences re-organized. The Department of Anatomy and Neurobiology (1670) merged with the Department of Physiology (1672) to form the Department of Biomedical Sciences (1680). The Department of Environmental Health (1676) merged with the Department of Radiological Health Sciences (1673) to form the Department of Environmental and Radiological Health Sciences (1681). The Department of Pathology (1671) merged with the Department of Microbiology (1677) to form the Department of Microbiology, Immunology, and Pathology (1682).

Detail Proposal and Award Information:

A detail listing of **proposals submitted** can be found on the Sponsored Programs Web site at:

<http://portal.research.colostate.edu/dbsearch/proposalform.htm>.

A detail listing of **awards received** can be found on the Sponsored Programs Web site at: <http://portal.research.colostate.edu/dbsearch/awardform.htm>

Multi-million Dollar Proposals (July - September)
