**E&G Incremental Budget:** The Incremental Budget provides for New Revenue Resources which are projected to be \$31.5M, while New Expenses are estimated to be \$39.8M. Tuition, both rate changes and enrollment growth, is budgeted to increase by \$25.4M and is offset by \$8.7M in Financial Aid, resulting in net tuition revenue of \$16.7M. In addition to tuition increases, State Funding is planned to increase by \$2.3M, of which \$2.4M is Specialty Education Funding (SEP) funding. Facilities and Administrative Overhead Recovery is budgeted to increase \$3.2M. The new expenses are primarily in the categories of multi-year investments in strategic initiatives, supporting student success and rural initiatives, graduate benefits as well as controlled and deferred maintenance. Staff increases of 1.0% will be awarded to Faculty and Administrative Professional staff and Graduate Assistance that fall within the 75<sup>th</sup> percentile of the population, while State Classified increases are 2.5% across the board, with step increases being applied for eligible State Classified employees. Increases will be effective July 1, 2025. In addition to multi-year investments and salary support, academic incentive funding is budgeted at \$2.6M, mandatory costs at \$6.8M and quality enhancements at \$4M.

In moving towards a balanced budget, CSU is realizing \$8.3M in budget reductions in FY26.

**Following are more specific details of the E&G Budget:**

**Tuition Rates** for resident undergraduates are proposed to increase by 3.5% and non-resident undergraduates are proposed to increase by 4% from FY25. Rates of 3% are proposed for graduate students and the PVM program rates for residents will increase by 2% and 2% for non-resident students from FY25. The total tuition and fee increases are 3.4%, and the cost of attendance increase is 3.6%. Undergraduate differential tuition rates will mirror the resident undergraduate rate of 3.5%.

**Housing and Dining.** Housing rate increases are 4% and dining rate increases are 4% based on the need to maintain quality balance against market rates in the private sector locally and at other public universities across Colorado.

**Student Fees.** Mandatory student fees are considered throughout the year by the Student Fee Review Board, which votes them forward as a recommendation, with the Student Senate voting to certify the SFRB process. Charges for technology are voted forward by representative student boards in each college and the University Technology Fee Advisory Board for campus wide technology fees. Facility and Alternative Transportation fees are voted forward as a recommendation by the respective Student-Led Fee Review Board. All fee board recommendations are also reviewed and approved by SFRB. These recommendations are reviewed by the President's Executive Leadership and presented to the Board with the recommendation of the University and ASCSU Presidents.

**Special Course Fees** represent expenses related to a specific class. These fees follow Board guidelines and are recommended by the Special Course Fee Review Committee, chaired by the Vice Provost for Undergraduate Affairs. The net impact of these changes is \$371,873 (which, in turn, equates to less than .02% of the total university budget).

In summary, all these recommendations represent the culmination of more than a year's worth of discussion, including discussions with this Board at each meeting. They strike a balance that recognizes affordability issues but also maintains quality and limits growth outside the academic core of the university. They are beneficial to Colorado State University and the constituents we serve.

Freshmen are not subject to the differential tuition and all first year undergraduate students with Advance Placement or concurrent enrollment transfer credit that results in the student meeting criteria for Differential Tuition charges will also be excluded in their first year. Sophomores will be assessed the differential tuition only on course prefixes offered through the College of Business. Juniors and seniors will be assessed the differential tuition on all courses taken, including those at the 500-600 level that an undergraduate student is allowed to take.

Board of Governors of the  
Colorado State University System  
Meeting Date: May 1—2, 2025  
Action Item

Stretch Goal or Strategic Initiative: N/A. Board approval of this administrative action is required by statute, CCHE, Board, or university policy.

MATTERS FOR ACTION:

Approval of Special Course Fees for FY2025—2026

RECOMMENDED ACTION:

MOVED, that the Board of Governors approve the recommended changes to the special course fees listings on the attached sheets to be effective thirty days from this date, and that notice shall be given as of this date in compliance with the CCHE policy implementing HB94-1362.

EXPLANATION:

Presented by Amy Parsons, President

The recommendations for special course fees have been reviewed by the Special Course Fee Committee (chaired by the Interim Vice Provost for Undergraduate Affairs) and the Provost and Executive Vice President. New, Discontinued, and Changed fees are listed on a separate sheet from the Comprehensive List of Special Course Fees, which incorporates these changes. Each proposed fee meets the guidelines established by the Board of Governors. A summary of the proposed special course fee requests for FY2026 is highlighted below.

There have been 33 proposals for new special course fees. The estimated revenue results in an increase of \$220,677.44.

There have been 11 proposals for discontinued special course fees. Discontinued special courses fees will result in an estimated annual reduction in revenue of \$59,583.43.

There have been 89 proposals for changes to existing special course fees, of which 16 are decreases in the estimated fee per student. The total estimated maximum net impact of changes in existing special course fees and estimated annual enrollment is a revenue increase of \$210,779.38.

The net impact of the addition of new course fees, changes in existing fees and fee cancellations is an estimated increase of \$371,873.39.

# Charges for Technology Report for Fiscal Year 2025

## 1. Schedule of Charges for Technology – FY25 and FY26

The table below contains the schedule of the per-semester Charges for Technology in place during the current fiscal year, FY25, and charges for FY26.

In a unanimous vote, CAS CFT would like to increase their tech fee charges by \$4.50 (5%) to \$94.50. They have taken on a new 65 seat Computer Lab in the Nutrien building that will require refreshing at an estimated \$130,000 every 4-5 years. In addition, their newly purchased Laptop Kiosk will be refreshed on a 5 year cycle as well, which is an estimated \$150,000- 180,000 expense. They are also requesting the increase due to price increases in the industry, especially around software licensing. Lastly, they have adjusted the hourly salaries of their Student IT Technician staff to better reflect pay for similar work around campus, which CFT Funds pay for. These additional items that the CFT Committee have taken on recently are estimated to be \$310,000 - \$350,000 every 5 years, or roughly \$62,000 - \$70,000 per year. Their current carry over, and planned expenses will not be sufficient in the coming years. With last year's increase, and this new increase, they should be good to field proposals for new technologies in the near future.

The College of Health and Human Sciences voted to increase fees by \$3.91 to \$82.13. Increasing the technology fee is necessary to keep up with increasing costs, including the cost of hardware, software and personnel. College received approval from student leadership in February 2025.

Intra-University proposed a \$2 increase to accommodate cost of living wages increase for student staff, taking on percentage of CSUMYMAJORS.com subscription with Admissions, increasing costs of Microsoft Licensing and server maintenance.

The College of Liberal Arts is raising the technology fee by 5% to account for increases in cost of technology, student employment, and implementing higher level of technology in critical spaces. The increase is being made with the support of their student technology fee committee.

Warner College of Natural Resources has not increased the student CFT rate since FY09 and is requesting a 5% increase for FY26. The cost of hardware and software required to deliver student technology services has increased annually and the college is now facing a significant level of deferred maintenance. In order to continue offering core services, the student CFT rate will need to be increased.

**Note:**

<sup>1</sup>The Assistive Technology Resource Center does not generate CFT revenue. Rather, it acquires its budget via a distribution of income and expense from the college CFT accounts, and to avoid double counting, its revenue and expenses are not included in the total revenue and expense amounts shown in the table above.

## 2.1 Rationale for Significant Carryforward from FY24 into FY25

The total carryforward for all colleges from FY24 into FY25 was \$518,330. This carryover amount represents a combination of carryforward for large, special projects, and invoices not clearing before the June 30th deadline. Another significant factor is ongoing supply chain and the resulting impact on product availability and shipping delays. More details are provided below for the colleges with carryover projections of 10% or greater.

### *College of Business*

The carryforward was used to help fund a Classroom Podium PC Refresh, HD Projector refresh, and Classroom 38 PC and Monitor Refresh.

### *College of Natural Sciences*

We carried over funds to migrate one of our calculus labs over to online remote access lab. This will allow students more access to the software needed for math courses.

### *Assistive Technology Resource Center*

The Assistive Technology Resource Center needs to keep funds available for unknown technology accommodation needs that may arise in the remainder of the year. The center is also taking on the cost of ReadSpeaker for Canvas in FY25, which is beyond its usual software costs.

## 2.2 Significant Carryforward from FY25 into FY26

The total anticipated carryforward for all colleges from FY25 into FY26 is projected to be \$679,317. The carry forward represents funding for special, targeted projects and purchases that will take place over the summer semester extending beyond the end of the fiscal year. Like FY24 carryforward, continued supply chain issues are predicted to delay the purchase and receiving for EOFY purchases. More details are provided below for the colleges with carryover projections of 10% or greater.

### *College of Business*

The carryforward will help fund: replacement of color printers (end of life) (\$25k), the replacement of Classroom 101 Lab Computers (30) & trading room (3) (\$66k), and the Rockwell West Classroom AV refresh (~\$325k).

### *Liberal Arts*

The carry over is to support purchases for summer projects. The invoice and delivery for part of the summer project order is expected to arrive after July 1.

### *College of Veterinary Medicine and Biomedical Sciences*

The carryover is based on projections of expenses for March through June of 2025.

*Assistive Technology Resource Center*

The ATRC needs to keep funds available for technology accommodation needs that may arise through Spring and Summer semesters.
