Retention Study  
Fall 2012  
Institutional Research

# Introduction

The Freshman and Transfer Retention Study conducted by Institutional Research (IR) tracks graduation, and persistence rates of new freshmen and transfer students entering Colorado State University (CSU). Combining the two previously separate studies (New Freshman Retention and Transfer Retention) was in response to campus feedback.

For this report, cohorts are defined as undergraduate resident-instruction (RI) students who enter in the fall semester as full-time (enrolled in 12 or more credits, who have not fully withdrawn from the university) either as a new freshman or a transfer student from another institution. Additional operational definitions are provided in the glossary on page 7.

## Freshman Retention

- Last year we saw a dip in the freshman retention rate of about 1% (most probably attributable to tuition increases) but we now see a total recovery of that loss; 84.7% of the FA11 cohort returned for class this fall. This is the highest retention rate since at least 1991.
- The retention rate for minorities increased by nearly 2 percentage points, closing the retention gap to just 1 percentage point (although we know from other research that after controlling for index score, there is no retention gap between minority and nonminority cohorts).
- The retention rate for nonresidents increased 3.9 percentage points to 83.3%. This increase is critical as nonresident enrollment continues to increase.
- Positive trends in the multi-year persistence patterns; the rate of attrition has slowed since fall 2008.
- As is typical, females were retained at a lower rate than males.
- First-generation and/or Pell recipient students continue to be at higher risk of attrition.

## Graduation

- While the six-year graduation rate decreased to 63.7%, 91% of those who graduated did so in less than five years. 76% of those who graduated did so in four years plus one semester. This is evidence that students who graduate are doing so at a faster pace than ever before.
- As is typical, females had a higher graduation rate than males even after displaying higher first-year attrition.
- Graduation rate for Pell recipients increased slightly as the first-generation and minority graduation rates decreased slightly.

# Glossary

<b>Ethnicity</b>	A student's self-reported ethnicity at the time of entry. Minority includes students who self-report a minority status; nonminority includes all other students (including international students).
<b>Freshman Cohort</b>	Resident-instruction (RI) undergraduates with a registration type of "NEW" in their first fall at CSU.
<b>Full-time</b>	Degree-seeking students enrolled in 12 or more credits in their entry cohort semester, and who have not fully withdrawn from the university
<b>Graduate</b>	A student is reported as a graduate after his/her bachelor's degree is conferred. Students who, up until fall 2011, enter as freshmen, stay at CSU, and then continue into the Professional Veterinary Medicine (PVM) program are counted as graduates. Graduation rates reflect the number of students who graduated each semester as a percentage of the original entering cohort. For example, graduation in the sixth summer includes those who graduated within six years.
<b>Index Score</b>	A Colorado Department of Higher Education (CDHE) standard, derived by using components of high school work (GPA and/or rank) and standard test scores (ACT or SAT). CDHE re-centered its admission index just prior to fall 2004. Reports about the index score use CDHE's current standard.
<b>Persistence</b>	Students who either graduate or are still enrolled each semester. Dismissed resident-instruction students who are enrolled in Continuing Education courses are not included as persisters. Exchange students (primarily study-abroad students) are included as persisters. Persistence rates reflect the number of students who graduated and/or enrolled each semester as a percentage of the original entering class. For example, persistence in the seventh Fall includes those who graduated within six years and those who have not yet completed a degree but are still enrolled (Seventh Fall).
<b>Residency</b>	The student tuition classification upon entering CSU.
<b>Transfer Cohort</b>	Resident-instruction (RI) undergraduates with a registration type of "TRNS" in their first fall at CSU.
