Introduction

The Retention, Persistence and Graduation Study is conducted by Institutional Research, Planning and Effectiveness annually to report freshman retention, persistence, and graduation rates. The focus is on the entering full-time, first-time (FTFT) student cohorts and displays rates for multiple subpopulations. However, additional analyses, including those for transfer students, are available online. Please use the IR Interactive tool on our website at <http://www.ir.colostate.edu/data-reports/students/student-success/>

Highlights

- ✚ 86.2% of the fall 2015 cohort was retained (still enrolled) in fall 2016. Persistence into the 4th year is at 74.6%.
- ✚ We are seeing a record high 4-year graduation rate. The rate increased to 44.8%; students are graduating faster than in the past which not only saves them tuition dollars but also allows them to enter the workforce sooner.
- ✚ The 4 and a half graduation rate has also increased to 54.3%, and the 6-year graduation rate is at 66.8%

For the purpose of this report, there are a handful of critical operational definitions.

Cohort: For this report, a cohort includes only undergraduate resident-instruction (RI) students who enter in the fall semester as full-time (enrolled in 12 or more credits) and are enrolled at the end of the term (have not completed a University withdrawal).

Retention Rate: The rate at which students are still enrolled at the institution. Enrollment in the second fall is referred to as the “freshman retention rate”. Calculated by using the number of students still enrolled divided by the adjusted cohort (original cohort minus deceased). For the current report all rates beyond freshman retention are persistence.

Persistence Rate: The rate at which students are EITHER still enrolled at the institution or have graduated from the institution. Calculated by using the number of students still enrolled or graduated divided by the adjusted cohort (original cohort minus deceased).

Graduation Rate: The rate at which students complete their program of study. Calculated by using the number of completers divided by the adjusted cohort (original cohort minus deceased).

Additional operational definitions are provided in the glossary on page 2.

If you have questions or comments or require additional analysis of a specific sub population, please contact the Office of Institutional Research, Planning and Effectiveness.

Glossary

Ethnicity	A student's self-reported ethnicity at the time of entry. Minority includes students who self-report a minority status; nonminority includes all other students (including international students).
Freshman Cohort	Resident-instruction (RI) undergraduates with a registration type of "NEW" in their first fall at CSU.
Full-time	Degree-seeking students enrolled in 12 or more credits in their entry cohort semester, and who have not fully withdrawn from the university
Graduate	A student is reported as a graduate after his/her bachelor's degree is conferred. Students who, up until fall 2011, enter as freshmen, stay at CSU, and then continue into the Professional Veterinary Medicine (PVM) program are counted as graduates. Graduation rates reflect the number of students who graduated each semester as a percentage of the original entering cohort. For example, graduation in the sixth summer includes those who graduated within six years.
CCHE Index Score	A Colorado Department of Higher Education (CDHE) standard, derived by using components of high school work (GPA and/or rank) and standard test scores (ACT or SAT). CDHE re-centered its admission index just prior to fall 2004. Reports about the index score use CDHE's current standard.
Persistence	Students who either graduate or are still enrolled each semester. Dismissed resident-instruction students who are enrolled in Continuing Education courses are not included as persisters. Exchange students (primarily study-abroad students) are included as persisters. Persistence rates reflect the number of students who graduated and/or enrolled each semester as a percentage of the original entering class. For example, persistence in the seventh Fall includes those who graduated within six years and those who have not yet completed a degree but are still enrolled (Seventh Fall).
Residency	The student tuition classification upon entering CSU.
Transfer Cohort	Resident-instruction (RI) undergraduates with a registration type of "TRNS" in their first fall at CSU.
